Attachments: Symposium synthesis_FINAL.pdf (3.17 MB)

On November 24, 2017 OPTrust and HOOPP began a dialogue with you about the future of pension regulation. I am pleased to provide you with a copy of the rapporteur's synthesis of the HOOPP-OPTrust pension regulation symposium. The report does not attribute comments or views to individual symposium participants but provides a summary of the discussion and actionable areas for potential collaboration.

Thank you for your contribution and making the event a positive first step towards building trust-based collaboration on the important issue of retirement security.

Regards

Jennifer
