Hi Cindy

I've updated the deck as per Tim's request below to delete the two lines that show the potential range of impact.

Will reprint for the Minister's briefing.

Sarah

Importance: High

Hi Sarah –

Please see below and flag for you team.

Any issues, please let us know.

Thanks,

P.

Subject: Public Accounts Briefing for Minister Sousa

Our MO has requested that the Public Accounts briefing material that is presented to Minister Sousa today not include the "Estimated Potential Range of Deficit" line on page 2 of the deck we saw at FPC this week (or the range of impact of outstanding items). Could you please delete that for the purpose of today's briefing materials?

The MO prefers that the Minister understand what is in the current projection (ie. \$1.0B result) and the nature of the risks around it (up and down) in terms of what is still in play but not assign a number to it or the potential deficit outside of the current projection. This is important for them in managing his expectations as he heads off on vacation.

I just wanted you to be aware of this request so you could amend in advance. Let me know if there are any questions about this.

Tim Schuurman
