Hi Karen/Maria/Cindy -

Attached for review is a draft TB/MBC assessment note re. Electricity rate mitigation. This still includes a number of placeholders that the team needs to work through tomorrow to finalize (some additional context below).

Happy to pass along any comments/questions.

P.

Subject: Draft Electricity TB/MBC Assessment Note

Hi Patrick,

Please find attached our draft TB/MBC assessment note on Electricity. As you can see, there are still a number of placeholders that we need to work through but happy to incorporate any feedback from Karen and ADMs, particularly on the risks and on the Minute. A few things we will work through tomorrow:

- Work with OPCD to ensure we are capturing the risks associated with GA accurately. Happy to revise the note on any edits we receive from Cindy
- Incorporate the various comments received from Scott T, Ron K and Energy over the weekend that we haven't built in yet
- Work with CO and Energy on any outstanding questions related to the programs (note that Energy probably don't have all the answers yet)
- Work on the Minute

Anyway, we will continue to work on this tomorrow – and will incorporate any feedback we receive.

Also, I will reply to CO to let them know that Karen is reviewing the note and will share after.

Many thanks to Didem, Sophie, James and Madeleine for their input/comments!

Thanks,
Felix
