Hi Sohaeb,

Attached is the latest draft TorStar AN.

For reference, I have also attached the draft MOF submission that is going through their approvals process now.

OPTrust note to follow.

Thanks,
Helder

Patrick mentioned that there is no further de-brief/update for TorStar other than that it would be a consensus item and the recommendation needs to be 'approve' accordingly.

He is requesting that we share the note for Karen by end of day today.

Thanks,
S.

Hi –

There's no update other than what's out there already. The item will track to TB on Tuesday as a consensus item, accordingly the recommendation needs to be 'approve'.

We can do a briefing with Karen, Cindy and Maria on Monday if needed. Can you plan to send a draft note for EOD so KH can review over the weekend?

P.

Hi Patrick,

Given the pacey nature of this file, I wanted to check if you have any de-brief on Karen's discussion with DM Thompson and MO. Think It would be helpful for the team to hear the direction in order to assist them with the analysis and recommendation.

A quick update from our end is that we received a copy of the ministry submission, which is starting the MOF approval process.

Also – I know we have a joint Sec/Chair's on April 17th just before the TB meeting but I think we may need a check-in before then to make sure that folks are comfortable and updated on this item. What do you think?

Thanks,
S.

The DM just spoke to Karen. It's now tracking as a consensus item (so more than an info item) because of the way the asset is recorded when consolidated. Apparently there could be more immediate impacts with regard to that. Admittedly, this is outside of my bailiwick, so please let me know if you have questions and I'll push them over to Karen's office.

Hi Eliz and Alex,

I just spoke to Marianne, who just got off the phone with the TBS Chief. He said they will have TorStar come into TB on Tuesday as an info item (no decision). It will just be a matter of explaining what it is and the fact that it went to LRC the previous day.

Seems that's the best we can do.

Thanks,
Dave
