Please refer to current version attached with updated name for item #4, as we don't actually refer to the PWC work in the slides and focus on the audit advisory item. Pwc work would just be speaking points.

Hi Sarah. Welcome back. Can you pull these slides into a draft soc deck along with the slide from Gary and those from Mark. Please ensure these are marked as from MTO.

Mark. Fyi

Thx

Subject: Transit Projects: Prov VS Municipal

Hi Rob/Cindy

With thanks to Greg and Felix for their help, attached are the two slides we are proposing, Cindy, As draft for your coming discussion with the SoC

We have flagged the key considerations around ownership, the connectivity of the transit project (ie your point about the existing municipal project ends and where the provincial project starts)

We have also identified the key projects the soc had asked about on slide two and provided an explanation of those.

Attached for your review as draft.

Let us know if you need anything further

Vinay
