Thanks - can't go until you are comfortable. Also talked to Jason later with Helen and he had followed up with respect to the KPMG issue.

Ok. I thought there'd been some discussion on this yesterday and view had been that this could wait a cycle.

However, if it's urgent, we can add to the agenda once we receive materials and confirmation that Provincial Controller has reviewed and has no concerns. At this point all we have is the high level summary provided at the regular FHP meetings, so we're not able to prepare a CO note. Cabinet will need assurance there's been some opportunity for central agency review and due diligence.

I brief the Premier on Monday. Andrew B will be there, so I'll let the P know this is at play and that pending receipt of materials and completion of TBS/Controller and CO reviews, it could be added to the agenda.

I'd appreciate it if you could send me draft materials over the weekend so I can prepare for the P briefing.

Thanks.

Hi.

Just concluded 1:1 with Bevan. He confirmed that we should track to next Wednesday for the OFHP Regulations to keep it all on track and that while it is a bit dramatic to go direct to cabinet, etc they

don't think that it would be much of a discussion since it's just implementing what we said we would do.
