I think we would have to ask fair hydro trust the carrying costs question. I am copying Anthony and Lubna for assistance

Hi Kim -- can you send me the expected amount of regulatory asset that will be recorded/sold to OPG Trust each year for the next three years. I'm looking to quantify what the AG will say our deficit is in each of the next three years. I have a schedule that shows the difference between the amount paid to the generator and the amount collected from customers (which is about \$2.2B next year), but I'm assuming that doesn't include the interest paid to OPG Trust during those years.

Thanks,
