Message:

You guys are saying that the rates are going down for hydro in rural areas. I live in Melancthon Ontario and I received notice that for the next five years the distribution rates will be going up. \$2.79 for 2018, \$2.47 for 2019, \$2.31 for 2020, \$1.95 for 2021 and \$2.23 for 2022. These are the monthly increases. Why are ours going up when you guys are advertising lowering the rates everywhere.
