Message:

As a small business I have a question regarding the "8% Provincial Rebate" on our monthly hydro bill. Is this rebate considered to be a part of the HST total on the invoice? If so this rebate has absolutely no reduction in cost value to us. HST whatever amount we pay is refunded on our return-we pay it and we get it back therefore zero outcome. If the 8% rebate reduces our amount of HST it has zero effect-our costs are not reduced whatsoever. Please explain if the 8% reduction is to be a part of our HST total for return purposes or if the 8% reduces our billed amount for hydro costs?
