

FIRST NATIONS DELIVERY CREDIT

Bringing electricity
prices down

REDUCING **ON-RESERVE** ELECTRICITY COSTS

Ontario's Fair Hydro Plan is delivering the single-largest reduction to electricity rates in the province's history.

The First Nations Delivery Credit applies to on-reserve First Nation households that are customers of licensed electricity utilities. It will provide a 100% credit of the delivery or service charge on your electricity bill.

In order to receive this credit you need to be on your local electricity company's HST exemption list. Contact your electricity provider to ensure you receive these credits.

The First Nations Delivery Credit helps address some of the unique challenges that on-reserve First Nations customers face, and to recognize First Nations' contribution to the provincial electricity system.

Visit Ontario.ca/FairHydroPlan for more information.
