Hi Craig ,

You'll recall that we discussed including the two items below in our response to the Ontario Federation of Agriculture regarding their April 4 letter on ICI:

1. the benefit of natural gas expansion; and
2. if possible, the number of farms that would likely benefit from the 25% bill reduction.

Attached is our draft. If you're fine with this, then we'll prepare for the minister's signature.

Thanks,

Eric Martin
