Attachments: Stem Ontario INOAC Expansion 022018 DRAFT CONFIDENTIAL.docx (25.36 kB)

I met with these guys last week, they're helping industrial and commercial companies save money with storage.

I don't see any issues with a quote if you guys are good.

Sent from my BlackBerry 10 smartphone on the Rogers network.

Subject: Re: Media Release for Stem

I just got approval to share the draft media release on a confidential basis.

Let me know what you think.

Regards,

Utilia

Hi there,

I thought I would bounce this idea off of you.

Stem is announcing by media release on Tuesday that they have been chosen by an Ontario (St. Mary's, Ontario) manufacturer of auto parts to do a behind-the-meter 2.5 MWh of AI-powered energy storage system.

Wondering if you think this would be an opportunity to include a quote from the Minister or someone else in the system. If not something you do, no worries. If this is of interest to you, but can't do anything right now and want to know about future opportunities, we can make something happen.

Please let me know.

Mike, it was great to meet with you yesterday. The group was thrilled to meet with you.

Utilia
