Hey Mike

I've just thrown together a few items that might make sense to bring up with Jeff when you meet today.

- PWU Collective Bargaining
- Update from Jeff
- Can share letter from Minister

- OPG Business Plan
- High level messages from Jeff
- Any timing implications to OPG re: approval?

- Darlington Update

- ITC Lake Erie Connector Project
- What does Jeff think of project, does he see it moving forward?

- TBS "Fairness in Procurement" Legislation
- What are risks from OPG's perspective if not exempted?

- Fair Hydro Plan
- Timing of next tranche of debt offering (would be helpful for comms planning purposes)

Thanks,
Matt
