Message:

Every time I get another hydro bill and read the attachment it makes me sick. You are lying to the people of Ontario. If the hydro rate reduction was being financed from surplus revenue that would be fine, but it isn't. It is being financed by adding massive debt to a province that is already the most indebted non-sovereign entity in the world. The magic of compound interest will increase this debt and the Lord only knows how long it will take this generation and the next one to pay it off. It is doubly sick that the purpose of it is to buy votes for the Premier that she doesn't deserve.
