Thank you for inviting me to your board meeting

I greatly enjoyed having the opportunity for a thoughtful and organic discussion about important priorities of mine, including the Long-Term Energy Plan, the Fair Hydro Plan and the IESO's Market Renewal initiative.

As the voice of Ontario's electricity sector, the OEA is well placed to provide input into these topics, and in fact we could not proceed with any of them without giving the OEA an opportunity to provide feedback from its members.

I look forward to continuing our ongoing dialogue, and to working together to ensure Ontario's energy system is as efficient as possible and remains, clean, reliable and affordable.

Matt Whittington

Director of Policy
Office of the Hon. Glenn Thibeault
Minister of Energy
