Hi Craig,

Here is the Minister's letter to AMPCO you requested.

If you're happy with it, I'll ask Correspondence to prepare it for the minister's signature.

Eric Martin

Subject: AMPCO correspondence

Hi Eric/Denna,

Can we get some correspondence tracking to AMPCO, focused on the Fair Hydro Plan and its impact on large industrials?

Letter should confirm:

- Overview of Fair Hydro Plan
- Proud to deliver a significant savings to residential consumers
- Note the removal of social programs to tax-base – approximate \$3/MWh benefit for all customers, including large industrials
 - o Confirm that this approach meets our 2016 Budget commitment on cap and trade
- Have heard from large industrials that existing programs such as ICI and NIERP have had a significant impact on maintaining competitive prices in Ontario
- Have also heard, through meetings and your LTEP submissions, of ideas to provide further support and incentives to industrial customers.
 - o Have asked my staff to continue working with AMPCO and other partners in government, including MEDG, to explore your proposals in further detail

Since Minister is away next week – but we should send early the week after – can I get a draft by end of next week?

Thanks,
Craig
