Yes. We probably need to connect with James and let him know about this.

Agreed

We may want to pull PO in. I know the P is still asking about this frequently.

They are always so hung up on FTE's. What difference does it make if they are temporary.

Sounds like it – we met this morning with them on Fair Hydro Plan and this came up.

TB insisting the item is not ready. They have concerns about the number of FTEs being requested. We pushed back but they were insistent. Looks like it will track into July.

We are still tracking our reg to LRC next week to enable information sharing between SAMS and OESP.

Matt

TBS may not be accommodating ENE / MCSS on the June TB agenda?
