Thanks for inviting me to your board meeting.

Appreciated the discussion and also our ongoing partnership to ensure we are delivering fairness and reliability to customers in Ontario.

As the first point of contact of Ontarians I value your insights into how customers can best be served.

It was helpful to hear your recommendations on regulatory "red tape" issues, the disconnection process, the Fair Hydro Plan and innovation in the sector.

I look forward to continuing to work together closely on all of these issues, and will count on you especially over the next few months as we work to implement the Fair Hydro Plan.

Thanks,
Matt
