Looks good, feel free to share.

Thanks,
David

Subject: FW: For ADM Review: Affordability Fund

Hi David,

As discussed, please see the language on AF below to be used for the narrative.

As part of the Ontario Fair Hydro Plan, the government launched an Affordability Fund to help those Ontarians not eligible for low-income conservation programs and who need support to improve the energy efficiency of their homes. The Affordability Fund began accepting applications on October 24, 2017 and, as of February 8, 2018, approximately 3,500 applications had been received. Eligible applicants are expected to start receiving benefits in the coming months, which can include the installation of energy efficiency measures such as LED light bulbs, power bars, better insulation, and energy efficient window air conditioners and refrigerators.

Let me know if this is good to share back.

Thanks,
Sasha
