Hi James,

We were good with your changes, just made a tweak to the language at the bottom of page 2 on residential bills.

We can put this in the final signing package for the Minister this morning. Let us know if you have any concerns.

Thanks,
Hillary

Here are my edits and one comment that needs to be addressed.

Thanks for your patience, all!

Hi Landon,

Please find attached the revised comms snapshot based on your feedback below (changes tracked). If you're comfortable with this version, we'll include in the final signing package for the Minister tomorrow.

Thanks,
Hillary

Comments Below:

Communication Objectives – Is someone or somewhere going to speak to what the “good news stories” are?

Context – “...every three to four years...” – didn’t we change this in legislation to be more specific? Not sure it matters for this...

Launch Event – Description - Add that a separate opposition room will be available

Subject: LTEP Comms Snapshot

Hi James / Landon,

As part of the Cabinet submission for October 25, we have to prepare a comms snapshot. The attached snapshot is very similar to the snapshot we prepared for the previous Cabinet submission, because our comms strategy is still the same. There are only minor updates made from the last version.

Can you let us know tomorrow if you have any revisions?

Thanks,
Hillary
