This was done by CanSIA (the solar association) not government, but explains exactly the question he is being asked.

<http://www.cansia.ca/news/the-impact-of-ontarios-fair-hydro-plan-on-solar-net-metering>

And then maybe Soupy has some net-metering key messages as well?

Subject: FW: Messaging for meeting on Friday March 17th

Hi Meaghan,

MPP Ballard is meeting with a constituent about the effects that the OFHP will have on net-metering. Do you have a briefing note or backgrounder on net-metering that he can use for this meeting?

Thank you,

Kevin Den Heijer | MPP Liaison

Subject: Messaging for meeting on Friday March 17th

Hi Kevin and Aisling,

Please provide me the best messaging to help with a meeting MPP Ballard has on Friday.

- Tweaks to the Ontario Fair Hydro Plan (OFHP) to optimize the benefit for the most people in need as well as still keeping Solar Alive in Ontario
 - o Chris needs to know that a Hydro Price Drop will be the death knell for what little Solar Industry is left in Ontario. We are barely hanging on with Net Metering and a lower Hydro Price runs against that.
- How to fix the Billing Confusion with Distribution costs driving everyone crazy and causing a lot of voter dissatisfaction – it boils down to communication on Fixed vs. Variable and I have a solution for that also.
- Adding a Solar Rebate plan similar to Manitoba and Calgary for people who install Net Metering

- I will also have some background info on Solar and Hydro Costs compared to other jurisdictions
- Ideas for Economic Development around the Hydro and Energy file that can be combined with the OFHP

Thank you.

Sincerely,

Rohit Kumar Singh
