Hi Matt,

We didn't get this into the transition binders before Mike came to pick them up, but attached is a high level overview note of some of the top issues for the next few weeks or so.

We can include this in the transition binder on Monday morning, but wanted to share in case you want to forward along before Monday. We also have a memory stick with all the transition materials electronically, in case that is more helpful. We can provide that on Monday when we deliver the note.

Thanks,
Hillary

Hi Matt,

We have the foundation binders ready now. There is one for foundation briefing decks, and another for top issues decks.

One thing I'll note is that in the top issues binder, there is an LTEP implementation tab, which only has the IESO deck right now. We don't yet have a deck from the OEB, so we can add that once we receive it early next week.

Ujwal, I will drop these off at your desk.

Thanks,
Hillary

Hi Matt,

We are just finalizing assembling the binders now, and they should be ready this morning. There is one top issues overview note we have prepared that might not be ready until this afternoon. We can let you know as soon as the binders are ready. We are also looking into an e-binder option as well, but that wouldn't be ready this am.

In terms of briefings next week, we can start scheduling, so staff have time to prepare and make room in their schedules, since the briefings will start on Monday. We will have to reach out to the IESO as well, because some of the top issues briefings are theirs (e.g. microFIT and market renewal). We just wanted to flag for you, as it could lead to some questions.

Let us know if you have any concerns.

Thanks,
Hillary

Hey - just wanted to check in on the status of these.

Thanks
Matt
