Happy Easter. The below tweet with the photo should be going up in the next few minutes.

My grandkids and I are on the lookout for the Easter bunny during our walk in the forest. Happy Easter from my family to yours! [bunny emoji]

Hi. Happy Easter! I assume that some time this morning the team will post an Easter message with or without the pictures I sent?

Premier,

Sorry to ask on the long weekend, but we are wondering if you might be up to making a a few quick calls to Energy lawyers.

As part of the legal drafting of the *Ontario Fair Hydro Plan Act, 2017* – some Ministry of Energy lawyers are working this weekend (they have Sunday off only, we understand), along with external Counsel.

I am told each of them have helped us through some difficult and trying times at ENE over the last 4+ years and they are giving up of their long weekend to help us meet our deadlines. External legal can bill by the hour. These 5 cannot.

Minister Thibeault is going to call them and Energy (Atel) has suggested they would be over the moon if you also called. We are suggesting a quick 2 min call to each to say thank you even if its just voicemail.

Names and numbers are below. Let me know if you might be able to take a few minutes to make the calls over the weekend.

Thanks,
Carly
