- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Subject: Policy question re OFHP Credit Facility Agreement

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations. My understanding is that the IESO is consolidated with the Province's books, but that may not mean that the Province is liable for all of IESO's obligations. However, I am not sure about the underlying facts.

In light of these issues it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

DRAFT:

Hi Will,

Based on the e-mails to date, I understand that the OFA decision makers (i.e. Ken K., Mike M.) have considered the OFA Lending Policy as well as the insolvency and operational risks (as per my earlier e-mail below), and have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby nor I were part of the aforementioned call, I wanted to clarify that this loan is NOT the same as other OFA unsecured loans to public bodies, as the protection provided by the "intercept" provisions of the standard loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). My understanding is that, although the intercept provisions allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement, these amounts are minimal. Before proceeding, I would like to ensure that this point has been considered (and perhaps has already been considered by Ken K. in his explanation below). Please confirm.

Please let me know if you would like to discuss further. In the meantime, Toby and I are still working on some technical legal issues in relation to the intercept provisions and requirements of the OFA Lending Policy.

Hi Will

I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.

As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Hi Bruno and John,

That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Hi Lisa,

I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:

We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.

The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?

The Minister, I understand, is away until September.

Happy to chat or hear comments.

Thanks,

John

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the

required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We

will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated

funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing

credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the

IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

> The steps of the transaction would be:
>
> 1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
> 2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
> 3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
> 4 – The IESO repays the OFA for the loan.
>
> Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the*

existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a

security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how

will the Province ensure that the proceeds can only be used to repay the loan?

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional

information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of

Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset. Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the

inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how

does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

> The steps of the transaction would be:
>
> 1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
> 2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
> 3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
> 4 – The IESO repays the OFA for the loan.
>
> Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the*

existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a

security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how

will the Province ensure that the proceeds can only be used to repay the loan?

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information

that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.

But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the

protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying

facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take

security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

OFA LENDING POLICY

Approved:	**April 11, 2008**
Revised and approved:	**April 16, 2010**

SCOPE

The Ontario Financing Authority (OFA) is a crown corporation that has the statutory authority to lend to public bodies under the *Capital Investment Plan Act (CIPA).*

Public bodies are defined in CIPA as Crown agencies, hospitals and any other facilities receiving capital funding from the Minister of Health and Long-Term Care, municipalities, universities that receive operating funds from the Province, colleges of applied arts and technology, school boards, and any other entity named or described as a public body in the regulations which as of this date include the Deposit Insurance Corporation of Ontario, the Ontario Pension Benefits Guarantee Fund and the Law Society of Upper Canada and the Ontario Power Authority.

This policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS

This policy replaces the OFA lending policy that was approved by the OFA Board of Directors on April 11, 2008.

Any amendments or exceptions to this policy must be approved by the OFA Board of Directors.

POLICY FRAMEWORK

On June 21, 2007, the government approved a new framework for financing public bodies that are consolidated on the Province's financial statements. Consolidated public bodies include school boards, colleges, hospitals and corporations, boards and commissions.

Generally, the policy framework mandates the OFA to provide long-term financing for capital purposes to school boards, colleges and hospitals, as well as to Provincial corporations, boards and commissions who borrow as agents of the Crown, where the financing is recommended by the responsible ministry.

The policy framework also mandates the OFA to charge a cost recovery rate for all loans to public bodies, and a proxy commercial rate where the project is deemed to be commercial in nature. Determinations as to the nature of the project are to be made by the OFA in consultation with the recommending ministry.

TYPE OF FINANCING

The policy framework mandates the OFA to provide long-term financing to public bodies, which will be undertaken on a fixed rate or variable rate basis. Except where the Minister of Finance, Treasury Board or Cabinet determines there is a significant benefit to the public body or to the Province, the OFA will not provide:

1. Short-term financing for operating or working capital purposes.

2. Construction financing where capital projects require significant project monitoring expertise to keep construction running on time and on budget.

3. Financing to consolidated corporations, boards and commissions that are not Crown agents.

LOAN APPROVALS

1. The OFA will only advance a loan to a public body where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body.

2. Where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body, no further Board approval is required.

3. The OFA Board shall annually review a borrowing and on-lending plan (the OFA's Annual Borrowing and On-Lending Plan), which shall include the OFA's annual borrowing requirements from the Province and projected on-lending activities to Ontario public bodies for the year. As part of its review, the OFA Board shall approve the OFA's cost recovery spread and proxy commercial interest rate spreads related to the OFA's annual lending activities to public bodies.

4. The OFA Board will be advised at its next regularly scheduled meeting of any deviations from the OFA's Annual Borrowing and On-Lending Plan.

LENDING DIRECTIVE

The OFA will prepare an annual lending directive for the Minister of Finance's consideration based on the proposed loans in the OFA's Annual Borrowing and On-Lending Plan which require consent under Section 28 of the *Financial Administration Act* ("FAA") or which are to be made to School Boards. The lending directive will expressly direct or approve the OFA to advance these loans to public bodies for the fiscal year. The lending directive will include the maximum authorized amount of the loans to individual borrowers or the maximum amount of all the loans to a group of borrowers, such as School Boards or Community Colleges, and where possible, the borrower's name and the specific purpose(s) for which the loans are required, with the other terms and

conditions of the loans being delegated to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them for approval.

The OFA will prepare specific lending directives for consideration by Minister of Finance for proposed loans in the the OFA's Annual Borrowing and On-Lending Plan which do not require consent under Section 28 of the FAA, other than loans to School Boards, at the time that the requests for the OFA to enter into such loans are being processed.

CONDITIONS PRECEDENT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will:

1. Receive and review the public body's loan request as submitted and recommended by the responsible ministry.

2. Determine the public body's ability to repay the loan by relying on information submitted by the responsible ministry and public body, which may include information on the capital project, business case, cash flow projections and audited financial statements, and such other information as may be required.

3. Where required, ensure that the responsible ministry or public body has obtained prior written approval for the proposed loan pursuant to Section 28 of the FAA. The CEO of the OFA will not act as the delegate of the Minister of Finance to provide approval under Section 28 of the FAA for a loan when the OFA is the lender.

4. Evaluate the underlying risk of the project in order to determine if the project is commercial in nature, and if so establish an appropriate proxy commercial basis points spread to charge the public body as approved by the OFA Board (see "Proxy Commercial Rate").

5. Enter into a loan agreement with the public body containing terms and conditions consistent with the lending directive and satisfactory to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them , including appropriate (i) positive and negative covenants of the public body, (ii) representations and warranties by the public body, (iii) conditions precedent, (iv) remedies upon default provisions, (v) reporting provisions, (vi) event of default provisions, and (vii) intercept provisions.

6. Ensure that it has an appropriate intercept in place for the loan (see "Intercept").

SECURITY

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision, as provided below) in respect of loans made by the OFA to public bodies.

INTERCEPT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet:

1. Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

2. Prior to recommending to the Minister of Finance that the intercept be exercised, the OFA will raise the issue with the responsible ministry and seek the ministry's support in getting the public body to pay the amounts owing within a reasonable cure period.

3. Should the public body not cure the default within a reasonable period of time, the OFA will give written notice to the Minister of Finance, with a copy to the responsible ministry, of a public body's failure to pay under its loan agreement and requesting the deduction of amounts equal to the amounts that a public body has failed to pay under its loan agreement.

4. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to covenant and agree that, upon receipt of notice from the OFA that a public body has failed to pay in accordance with the provisions of its loan agreement, the responsible ministry will provide all information requested by the OFA respecting amounts appropriated by the Legislature for payment to the public body including the intended purpose and expected timing of such payments to be made by the responsible ministry. Upon request, the responsible ministry agrees to provide similar information to the Minister of Finance.

5. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to acknowledge and agree that, upon receipt of a direction from the Minister of Finance, that an amount is to be deducted from

money appropriated by the Legislature for payment to the public body, the responsible ministry will take all necessary action required by it in order to effect such deduction in accordance with the Minister of Finance's direction and pay the amount to the OFA at the time specified.

COST RECOVERY

1. The OFA will recover its lending costs by charging public bodies a rate equal to the **Province's total cost of funds**, which will include the Province's direct borrowing costs (including commissions) as well as a spread to cover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.

2. The OFA will use a **basis-points-spread (bps) based cost recovery methodology** to recover the costs of its direct borrowing and on-lending activities. The costs relate to both the upfront and ongoing loan monitoring and administration and are expressed in terms of basis points per annum and will be recovered over the term of the loan.

3. The annual basis-point spread charged to public bodies for cost recovery shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. The Capital Markets Treasury Division of the OFA, with the assistance of Internal Audit, will conduct an annual review to ensure that the cost recovery methodology is appropriate and that there are no significant under/over- recoveries that may require management's corrective action.

PROXY COMMERCIAL RATE

1. In addition to charging the Province's total cost of funds, the OFA will charge a proxy commercial basis points spread for projects that are commercial in nature in order to better reflect the costs of the underlying risk for financing of such projects. The proxy commercial basis points spread will be added to the Province's total cost of funds and recovered over the term of the loan. Loans are deemed to be commercial in nature where generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources.

2. The methodology for determining proxy commercial basis points spreads (including the amount(s) of these spreads) charged to public bodies for projects deemed commercial in nature shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. Proxy commercial basis points spreads will also be re-evaluated (and, if deemed necessary, reset upon approval of the OFA Board) in situations where there are significant changes to fixed income credit spreads. The OFA Corporate Finance Branch is responsible for recommending any changes to the

methodology or spread resets to the OFA Board, while the Capital Markets Division is responsible for informing the Corporate Finance Branch of any significant changes to fixed income credit spreads.

REPORTING REQUIREMENTS

1. A report outlining the status of all outstanding loans will be tabled with the OFA Board annually (the OFA's Annual Borrowing and On-Lending Plan) and at such other times as the OFA Board requests.

2. For each loan outstanding, such report will identify: the borrower, the purpose of the loan, the principal amount outstanding, and such other information as the OFA Board may request.

3. All OFA loans to public bodies will continue to be annually reported in the notes to the OFA's audited financial statements as disclosed in the OFA's Annual Report.

I have sent this in reply to Ken's email, but limited the list to you three so that you can share and discuss as you see fit.

To clarify, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Let me know if that makes sense, or if I can explain the process further.

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the

inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. In light of these questions it may be worthwhile to consider some related issues:

    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a

result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Sarah

Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.

But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Hi John,
As I've noted in my e-mail below, in order for the intercept provisions to be excluded from a loan agreement for an unsecured loan provided by the OFA to a public body, the OFA Lending Policy requires direction from the Minister, Treasury Board, or Cabinet. Toby and I have discussed the rationale that you have provided below, and we agree that it supports the business case for this direction.

Happy to discuss further.

Hi Lisa,

I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:

We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.

The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?

The Minister, I understand, is away until September.

Happy to chat or hear comments.

Thanks,

John

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset. Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to

deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi,

We have located the original Prom Note for attached (2.16 billion) and it is now in the Documentation vault for safekeeping (Settlements had it in their vault).

However, the one for the 656 million (my guess would be it was dated around April 21, 1999) is still missing in action. It may be worth double checking at the OFA legal side?

Andrea

Hi,

Documentation is not holding either of the Prom Notes in its vault.

A while back, we reached out to Sarah Neville and Malle to see if they may have them but are unaware if they had any luck locating the notes.

We have an unexecuted copy of the one associated with OIC 675-97 per attached.

For the OIC 767-99 we do not have any record/copy of the Prom note but it would be for 650M with ultimate repayment date of 8/31/2029 an my guess would be it was done around April 21, 1999.

We are unsure which loans were allocated to each OIC but have an aggregate spreadsheet for the two OIC's together. I have asked Daki in CF (somewhat circular given Mara forwarded the request) to check the documentation and their records around the Ottawa Convention Centre (we have no file for OCC at this end) to see if any OIC is specifically mentioned. I will let you know the findings.

Can you double check the Prom Notes (originals) at the LSB side to see if any of them match up to details above and let me know?

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC.

Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,
Sarah

Promissory Note

For value received, the Ontario Financing Authority (the "Borrower") promises to pay to Her Majesty the Queen in right of Ontario as represented by the Minister of Finance, Province of Ontario (the "Lender") at the City of Toronto in lawful money of Canada, the lesser of:

(i) Two Billion One Hundred and Sixty Million Dollars; and
(ii) the aggregate unpaid principal balance of all advances made by the Lender as recorded on the reverse of this note or on any attachment described below;

at such time and on such other terms and conditions including the payment of interest as follows;

(a) the Borrower shall be entitled to advances of the loan (an "Advance") in such amounts and at such times as it requires;

(b) the Borrower shall be entitled to repay Advances either in whole or in part and at such time or times as it determines provided that all Advances shall be fully repaid by August 31, 2027;

(c) the Borrower shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal amount of the loan outstanding at any time shall not exceed Two Billion One Hundred and Fifty-Five Million Dollars;

(d) the Borrower shall pay to the Lender interest on each Advance at a rate which is determined as follows:

(i) from the date of advance to (but excluding) the date of repayment the Borrower shall pay to the Lender interest on the Advance at a per annum rate equivalent to that paid on ninety day Province of Ontario treasury bills (determined as at the auction date immediately preceding the date of the Advance), provided that if an Advance is outstanding for ninety days or longer, the interest rate shall be reset automatically on the last day of each ninety day period (the "Reset Date") to the rate paid on ninety day Province of Ontario treasury bills as at the auction date immediately preceding the Reset Date for such ninety day period;

(ii) in the event that moneys included in an Advance are subsequently loaned by the Borrower to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the Borrower to the Lender on the portion of the Advance "on-loaned" may be adjusted at the option of the Borrower effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the Borrower on such moneys is equivalent to either

(A) the per annum rate of interest payable to the Borrower under the Third Party Loan, or

(B) the per annum rate of interest payable to the Borrower under the Third Party Loan less 25 basis points,

rather than the rate specified in subparagraph (i), until (but excluding) the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Lender on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

The undersigned authorizes the Lender to record on the reverse of this note or on any attachment to this note all advances, repayments and prepayments of principal and interest and the unpaid balance of principal from time to time. The undersigned agrees that in the absence of manifest error the record kept by the Lender on this note or any attachment shall be conclusive evidence of the matters recorded, provided that the failure of the Lender to record or correctly record any amount or date shall not affect the obligation of the undersigned to pay the outstanding principal amount of the Advances and interest.

Subject: Prom Notes

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC.

Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,
Sarah

Hi,

Yes we are looking for the executed promissory notes. The originals are preferred but copies of the executed notes would be helpful in case the originals are never located.

Andrea

Hi,

Documentation is not holding either of the Prom Notes in its vault.

A while back, we reached out to Sarah Neville and Malle to see if they may have them but are unaware if they had any luck locating the notes.

We have an unexecuted copy of the one associated with OIC 675-97 per attached.

For the OIC 767-99 we do not have any record/copy of the Prom note but it would be for 650M with ultimate repayment date of 8/31/2029 an my guess would be it was done around April 21, 1999.

We are unsure which loans were allocated to each OIC but have an aggregate spreadsheet for the two OIC's together. I have asked Daki in CF (somewhat circular given Mara forwarded the request) to check the documentation and their records around the Ottawa Convention Centre (we have no file for OCC at this end) to see if any OIC is specifically mentioned. I will let you know the findings.

Can you double check the Prom Notes (originals) at the LSB side to see if any of them match up to details above and let me know?

Regards,

Andrea

My guess is you are correct in this regard. I tired looking at OFA legal document lists on the portal and could not identify them.

Thank you for double checking though in case.

Hi,

Documentation is not holding either of the Prom Notes in its vault.

A while back, we reached out to Sarah Neville and Malle to see if they may have them but are unaware if they had any luck locating the notes.

We have an unexecuted copy of the one associated with OIC 675-97 per attached.

For the OIC 767-99 we do not have any record/copy of the Prom note but it would be for 650M with ultimate repayment date of 8/31/2029 an my guess would be it was done around April 21, 1999.

We are unsure which loans were allocated to each OIC but have an aggregate spreadsheet for the two OIC's together. I have asked Daki in CF (somewhat circular given Mara forwarded the request) to check the documentation and their records around the Ottawa Convention Centre (we have no file for OCC at this end) to see if any OIC is specifically mentioned. I will let you know the findings.

Can you double check the Prom Notes (originals) at the LSB side to see if any of them match up to details above and let me know?

Regards,

Andrea

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC.

Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,
Sarah

Promissory Note

For value received, the Ontario Financing Authority (the "Borrower") promises to pay to Her Majesty the Queen in right of Ontario as represented by the Minister of Finance, Province of Ontario (the "Lender") at the City of Toronto in lawful money of Canada, the lesser of:

(i) Two Billion One Hundred and Sixty Million Dollars; and
(ii) the aggregate unpaid principal balance of all advances made by the Lender as recorded on the reverse of this note or on any attachment described below;

at such time and on such other terms and conditions including the payment of interest as follows;

(a) the Borrower shall be entitled to advances of the loan (an "Advance") in such amounts and at such times as it requires;

(b) the Borrower shall be entitled to repay Advances either in whole or in part and at such time or times as it determines provided that all Advances shall be fully repaid by August 31, 2027;

(c) the Borrower shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal amount of the loan outstanding at any time shall not exceed Two Billion One Hundred and Fifty-Five Million Dollars;

(d) the Borrower shall pay to the Lender interest on each Advance at a rate which is determined as follows:

(i) from the date of advance to (but excluding) the date of repayment the Borrower shall pay to the Lender interest on the Advance at a per annum rate equivalent to that paid on ninety day Province of Ontario treasury bills (determined as at the auction date immediately preceding the date of the Advance), provided that if an Advance is outstanding for ninety days or longer, the interest rate shall be reset automatically on the last day of each ninety day period (the "Reset Date") to the rate paid on ninety day Province of Ontario treasury bills as at the auction date immediately preceding the Reset Date for such ninety day period;

(ii) in the event that moneys included in an Advance are subsequently loaned by the Borrower to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the Borrower to the Lender on the portion of the Advance "on-loaned" may be adjusted at the option of the Borrower effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the Borrower on such moneys is equivalent to either

(A) the per annum rate of interest payable to the Borrower under the Third Party Loan, or

(B) the per annum rate of interest payable to the Borrower under the Third Party Loan less 25 basis points,

rather than the rate specified in subparagraph (i), until (but excluding) the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Lender on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

The undersigned authorizes the Lender to record on the reverse of this note or on any attachment to this note all advances, repayments and prepayments of principal and interest and the unpaid balance of principal from time to time. The undersigned agrees that in the absence of manifest error the record kept by the Lender on this note or any attachment shall be conclusive evidence of the matters recorded, provided that the failure of the Lender to record or correctly record any amount or date shall not affect the obligation of the undersigned to pay the outstanding principal amount of the Advances and interest.

Dated this 4th day of April, 1997.

We have a signed copy of the one dated April 4, 1997 for $2.16 billion which goes with 675/97.

These OIC's were amended by a blanket Order in 2008 so may be it might be with that file?

Yes we are looking for the executed promissory notes. The originals are preferred but copies of the executed notes would be helpful in case the originals are never located.

Hi,

Documentation is not holding either of the Prom Notes in its vault.

A while back, we reached out to Sarah Neville and Malle to see if they may have them but are unaware if they had any luck locating the notes.

We have an unexecuted copy of the one associated with OIC 675-97 per attached.

For the OIC 767-99 we do not have any record/copy of the Prom note but it would be for 650M with ultimate repayment date of 8/31/2029 an my guess would be it was done around April 21, 1999.

We are unsure which loans were allocated to each OIC but have an aggregate spreadsheet for the two OIC's together. I have asked Daki in CF (somewhat circular given Mara forwarded the request) to check the documentation and their records around the Ottawa Convention Centre (we have no file for OCC at this end) to see if any OIC is specifically mentioned. I will let you know the findings.

Can you double check the Prom Notes (originals) at the LSB side to see if any of them match up to details above and let me know?

Regards,

Andrea

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC.

Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,
Sarah

I know that you are working on a project to review all the OIC's and promissory notes so once you have made some headway there we may ask you to also send us copies of all of the promissory notes to date because I don't think we have the more recent ones.

Hi,

Can you send us a scanned copy of the 2.16 billion one? That would be helpful.

I will look at the blanket order angle..

Thank you for investigating.

Hi,

Documentation is not holding either of the Prom Notes in its vault.

A while back, we reached out to Sarah Neville and Malle to see if they may have them but are unaware if they had any luck locating the notes.

We have an unexecuted copy of the one associated with OIC 675-97 per attached.

For the OIC 767-99 we do not have any record/copy of the Prom note but it would be for 650M with ultimate repayment date of 8/31/2029 an my guess would be it was done around April 21, 1999.

We are unsure which loans were allocated to each OIC but have an aggregate spreadsheet for the two OIC's together. I have asked Daki in CF (somewhat circular given Mara forwarded the request) to check the documentation and their records around the Ottawa Convention Centre (we have no file for OCC at this end) to see if any OIC is specifically mentioned. I will let you know the findings.

Can you double check the Prom Notes (originals) at the LSB side to see if any of them match up to details above and let me know?

Andrea

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC.

Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,
Sarah

Hi,

To clarify- the dating may have moved from April 21, 1999 if the 656 million prom note was adjusted for the extended final repayment date (OIC 767/99 repayment extended to June 1, 2041) per the amending OIC attached.

We have not found any evidence of an amended Prom Note for the 2.16 billion which was also pushed out by the amending OIC attached (OIC 675/97 repayment extended to June 1, 2041).

I suspect the prom notes may not have been replaced with ones with extended dates but have been unable to confirm with certainty. Although seems logical given able to locate original for unextended prom note associated with the 2.16B.

Andrea

We have located the original Prom Note for attached (2.16 billion) and it is now in the Documentation vault for safekeeping (Settlements had it in their vault).

However, the one for the 656 million (my guess would be it was dated around April 21, 1999) is still missing in action. It may be worth double checking at the OFA legal side?

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on

ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

ATTENDU QUE le ministre des Finances peut, en vertu du paragraphe 22 (1) de la *Loi de 1993 sur le plan d'investissement* (la « Loi »), acheter des valeurs mobilières des personnes morales

créées en vertu du paragraphe 2 (1) de la Loi ou leur consentir des prêts selon les montants, aux moments et aux conditions que le lieutenant-gouverneur en conseil estime opportuns;

ATTENDU QUE l'Office ontarien de financement (l'« OOF ») est une personne morale créée en vertu du paragraphe 2 (1) de la Loi;

ATTENDU QUE, conformément au paragraphe 6 (3) de la Loi, le pouvoir qu'ont les personnes morales créées en vertu du paragraphe 2 (1) de la Loi de contracter des emprunts et d'émettre des valeurs mobilières, entre autres, ne peut être exercé qu'aux termes d'un règlement administratif approuvé par le ministre des Finances;

ATTENDU QUE l'OOF souhaite emprunter jusqu'à concurrence de deux milliards de dollars en monnaie légale du Canada du ministre des Finances et qu'il a été autorisé à le faire par un règlement administratif d'emprunt approuvé conformément à la Loi;

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de deux milliards de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 31 décembre 2047;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

(iv) malgré les sous-alinéas (ii) et (iii), dans l'éventualité où aucun intérêt ne serait payable à l'OOF au titre d'un prêt à un tiers, aucun intérêt ne sera à payer par l'OOF sur la partie de l'avance ainsi utilisée et dans la mesure où les conditions du prêt à un tiers prévoient le report du paiement d'intérêts courus pour une période, le paiement d'intérêts au titre d'une avance ou d'une partie d'une avance sera également reporté pour une période d'égale durée;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Hi Anna,

I've been catching up on this file and I would like us to consider other options before making inquiries about the delegate option.

Just got a call from Sarah as I was drafting this as well.

I've spoken to Lisa and also CFB staff here on the floor this afternoon. The intercept provision is not relevant for the IESO (given the organization is ratepayer funded) and would like to explore ways of putting the provision in the agreement following a discussion with the ministry.

Thanks,

John

Hi Sarah,

Thanks for this. I can confirm that the Minister is away until September 5.

Given that this is related to the FHP, I expect the MO will want the Minister to sign it himself. Furthermore, the DMO may want to "package" this with other FHP approvals – including a TB Submission that will be coming forward for our Minister's signature in early September.

With that in mind, can this wait for his return on the 5th? If not, I'm happy to start making inquiries about his delegate.

Subject: Question re: signature of a proposed directive.

Hi Anna,

As discussed, we are looking to have directive signed by the Minister, but you had mentioned the Head of Treasury Board may be able to sign as the Minister's delegate?

The nature of the directive is to obtain approval for an exemption from the inclusion of a security provision in an OFA credit facility agreement under the OFA Lending Policy.

The OFA Lending Policy (attached, see p. 5 of 7 of the. pdf, "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the **Minister, Cabinet or Treasury Board.**

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

The Legislature appropriates no funds for the IESO, since the IESO is ratepayer-funded. It therefore makes no sense to include this provision and we are looking for a direction for an exemption in this regard.

Thanks,

Sarah

A couple of further comments

1. I don't have a problem focussing on the new agreement, but it would be preferable to have an answer in case anyone DMO/MO/M were to inquire about the previous agreement. It's a question that I would think they might ask.

2. My second question below was for clarification as I didn't see specific reference to an MOU requirement wrt to the Intercept section in the OFA lending policy.

I'm just want make sure we(I) can respond to questions that may come up so that this goes as smoothly as possible.

Subject: Questions re Intercept Provision

Hi,

Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.

   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the

agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

> *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.*

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.

But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT

necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable

for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: Questions re Intercept Provision

Hi,

Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.

   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   > *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct*

from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained

from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset. Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Hi Mara,

As you worked on the transition of the OPA credit facility agreement to the IESO a few years ago, do you recall if there was any discussion pertaining to the inclusion of an intercept provision in the agreement, as required by the OFA Lending Policy?

Thank you,

Lisa

A couple of further comments

1. I don't have a problem focussing on the new agreement, but it would be preferable to have an answer in case anyone DMO/MO/M were to inquire about the previous agreement. It's a question that I would think they might ask.

2. My second question below was for clarification as I didn't see specific reference to an MOU requirement wrt to the Intercept section in the OFA lending policy.

I'm just want make sure we(I) can respond to questions that may come up so that this goes as smoothly as possible.

Thanks
Bruno

Subject: Questions re Intercept Provision

Hi,

Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.

   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   > *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.*

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

> The steps of the transaction would be:
>
> 1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
> 2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
> 3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
> 4 – The IESO repays the OFA for the loan.
>
> Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or

Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or

liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi William,

Not sure of his availability but know that he is quite jammed. Also, he does not usually deal with credit agreements so wouldn't Gadi be more used to doing so? Ron will go through the whole documents if you put in front of him.

Hello John,

Mike is away on Friday and according to the OFA Signing authorities Resolution for Lending Instruments, Ronald Kwan and Gadi Mayman are the other two signatories. Do you mind checking on Ronald's availability to sign for the agreements today or tomorrow?
There is a possibility for the agreements to be ready for today but more likely for tomorrow.

Lending Instruments

Agreements for loans by the OFA to public bodies, including term sheets, may be signed by any of the following persons:

Chair;
CEO;
Executive Director, Capital Markets Division, OFA; or,
Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA.

Best regards,

Will,

Please find attached the following documents signed by IESO:

1. Amending Agreement #10 to the Jan. 1, 2005 Credit Agreement;
2. Certified IESO Board Resolution and Incumbency Certificate;
3. Scan of the $2 Billion Grid Note.
4. Intercept Letter Agreement.

I will send the new Revolving Credit Facility Agreement in relation to FHP under a separate email immediately following.

We have already overnighted the original grid note for $2 billion and an original Intercept Letter signed by all parties. Per your request, we will send original agreement signature pages for both agreements as well – can we send those tomorrow or do you need the overnighted too?

Let us know. We look forward to receiving your confirmation of closing.

Hi Victor,

Thank you for the update. When you send the soft copy signatures, would it be possible to include the signatures within the agreements?

You were probably going to include the following signed soft copies anyway but out of caution I have listed them below:

- Resolution of the Board of Directors
- Incumbency Certificate
- Intercept Letter
- $2 B Grid Note
- $475 MM Grid Note

Hardcopy of the Intercept Letter and $2B Grid Note – overnight delivery is fine.

Per s. 16 AA #10 - Anthony and I discussed on Friday that $475MM Grid note would be signed today but held by IESO until November 21. After the borrowing notice and election notices are actioned, OFA will produce the grid notes to evidence payment and advancements. IESO will then send the new $475MM prom note to OFA. Once received OFA will send the $975MM cancelled prom note to IESO.

Thanks,

Will

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date**"). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of even date herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. (b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

(e) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or

inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail.

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

"Section 7.9 Entire Agreement

I will scan and send all documents you listed in their entirety, not just signature pages. Can you confirm, are you saying you want a scan of the $475MM grid note?

Just so I get it right, should I courier the hardcopies of the Intercept Letter and Note to your attention and address, Will? Call me if it's quicker.

Hi Victor,

Thank you for the update. When you send the soft copy signatures, would it be possible to include the signatures within the agreements?

You were probably going to include the following signed soft copies anyway but out of caution I have listed them below:

- Resolution of the Board of Directors
- Incumbency Certificate
- Intercept Letter
- $2 B Grid Note
- $475 MM Grid Note

Hardcopy of the Intercept Letter and $2B Grid Note – overnight delivery is fine.

Per s. 16 AA #10 - Anthony and I discussed on Friday that $475MM Grid note would be signed today but held by IESO until November 21. After the borrowing notice and election notices are actioned, OFA will produce the grid notes to evidence payment and advancements. IESO will then send the new $475MM prom note to OFA. Once received OFA will send the $975MM cancelled prom note to IESO.

Thanks,

Will

Hi Will – I have a signing meeting scheduled with our signatory at 2:30pm this afternoon – so I will send you counterpart signatures and a scanned version of the Intercept Letter by 3:00pm or possibly earlier.

Hardcopy of Intercept Letter to follow as you prefer – overnight or pickup? We also need to make arrangements re delivery of the $2Bn Grid Note.

Per s.16 of AA#10, the other Note for $475MM is to be delivered following the Effective Time in exchange for the return by OFA of the Nov 30 2016 Note for $975MM.

8. Section 5.2 "Acceleration of Maturity; Recission and Annulement" of the Credit Agreement is deleted in its entirety and replaced by the following:

"If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3) Business Days after the date on which written notice of such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

(b) invoke the Intercept pursuant to section 5.7 of this Agreement to require payment of any amount due and payable under this Agreement."

9. Section 5.7 "Intercept" is added to the Credit Agreement, stating as follows:

"Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

10. Section 7.9 "Entire Agreement' is added to the Credit Agreement, stating as follows:

"Section 7.9 Entire Agreement

This Agreement as amended from time to time and including the schedules hereto and any other agreements expressly referred to herein, constitutes the whole agreement between the Parties with respect to the matters dealt with in it, and it supersedes any prior agreement, undertakings, discussions and the like respecting the matters dealt with in this Agreement and entered into by the Parties before the date the OFA signs this Agreement."

11. Schedule 1 of the Credit Agreement, Form of Borrowing Notice, is deleted in its entirety and replaced by the Form of Borrowing Notice attached hereto as Schedule 1.

12. Schedule 2 of the Credit Agreement, Form of Election Notice, is deleted in its entirety and replaced by the Form of Election Notice attached hereto as Schedule 2.

13. Schedule 3 of the Credit Agreement, IESO Grid Note, is deleted in its entirety and replaced by the Form of Grid Note attached hereto as Schedule 3.

14. For the purposes of this Amending Agreement and its coming into effect:

a. "**Effective Time**" means the time on the Effective Date by which the Transfers of Funds (defined below) have been completed; or such other time as the Parties may subsequently agree to in writing as being the "Effective Time";

   ii. the completion of all Advances described in the Election Notice to be provided by the IESO to the OFA no later than November 17, 2017 (such terms having the meanings defined in the Credit Agreement) that are to be funded under the Credit Agreement on the Effective Date; and,

   iii. the repayment by the IESO of all Advances Outstanding (as defined in the Credit Agreement) exceeding $475 million; and,

   iv. the payment by the IESO to OFA of the interest then owing under the Credit Agreement.

15. The Parties shall endeavour to complete and exchange all usual documentation relating to the Transfers of Funds, and to any other related matters occurring on the Effective Date, prior to 5:00 p.m. on the Effective Date, and in any case no later than the next business day.

16. Upon receipt of the new Grid Note delivered hereunder, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO.

17. This Amending Agreement may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same Amending Agreement.

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the Parties.

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

AND WHEREAS ...[Recital redacted]...

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

Ms. Kimberly Marshall
Vice-President, Corporate Services and Chief Financial Officer, IESO
120 Adelaide St W #1600
Toronto, ON M5H 1T1

Dear Mr. Steen Hume and Ms. Kimberly Marshall:

I am writing in relation to the Independent Electricity System Operator's ("IESO") request to the Ontario Financing Authority ("OFA") for a new revolving credit facility in an amount of up to CAD $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.* Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The IESO and the Ministry of Energy ("ENERGY") confirm and the OFA acknowledges that at this time there are no amounts appropriated by the Legislature for payment to the IESO by ENERGY and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement") on an unsecured basis, the OFA requires ENERGY and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

... 2

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):

    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision"). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

    - If the intercept provision is exercised, the IESO agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY's support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

    - Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

    - ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

    - For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

... 3

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Sincerely,

Ronald Kwan

Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA

c. Gadi Mayman, Chief Executive Officer, OFA

The undersigned hereby agree to the terms and conditions as set out in this letter agreement and have executed this letter agreement as of the date first noted above.

I will scan and send all documents you listed in their entirety, not just signature pages. Can you confirm, are you saying you want a scan of the $475MM grid note?

Just so I get it right, should I courier the hardcopies of the Intercept Letter and Note to your attention and address, Will? Call me if it's quicker.

Hi Victor,

Thank you for the update. When you send the soft copy signatures, would it be possible to include the signatures within the agreements?

You were probably going to include the following signed soft copies anyway but out of caution I have listed them below:

- Resolution of the Board of Directors
- Incumbency Certificate
- Intercept Letter
- $2 B Grid Note
- $475 MM Grid Note

Hardcopy of the Intercept Letter and $2B Grid Note – overnight delivery is fine.

Per s. 16 AA #10 - Anthony and I discussed on Friday that $475MM Grid note would be signed today but held by IESO until November 21. After the borrowing notice and election notices are actioned, OFA will produce the grid notes to evidence payment and advancements. IESO will then send the new $475MM prom note to OFA. Once received OFA will send the $975MM cancelled prom note to IESO.

Thanks,

Will

Hi Will – I have a signing meeting scheduled with our signatory at 2:30pm this afternoon – so I will send you counterpart signatures and a scanned version of the Intercept Letter by 3:00pm or possibly earlier.

Hardcopy of Intercept Letter to follow as you prefer – overnight or pickup? We also need to make arrangements re delivery of the $2Bn Grid Note.

Per s.16 of AA#10, the other Note for $475MM is to be delivered following the Effective Time in exchange for the return by OFA of the Nov 30 2016 Note for $975MM.

I will scan and send all documents you listed in their entirety, not just signature pages. Can you confirm, are you saying you want a scan of the $475MM grid note?

Just so I get it right, should I courier the hardcopies of the Intercept Letter and Note to your attention and address, Will? Call me if it's quicker.

Hi Victor,

Thank you for the update. When you send the soft copy signatures, would it be possible to include the signatures within the agreements?

You were probably going to include the following signed soft copies anyway but out of caution I have listed them below:

- Resolution of the Board of Directors
- Incumbency Certificate
- Intercept Letter
- $2 B Grid Note
- $475 MM Grid Note

Hardcopy of the Intercept Letter and $2B Grid Note – overnight delivery is fine.

Per s. 16 AA #10 - Anthony and I discussed on Friday that $475MM Grid note would be signed today but held by IESO until November 21. After the borrowing notice and election notices are actioned, OFA will produce the grid notes to evidence payment and advancements. IESO will then send the new $475MM prom note to OFA. Once received OFA will send the $975MM cancelled prom note to IESO.

Thanks,

Will

Hi Will – I have a signing meeting scheduled with our signatory at 2:30pm this afternoon – so I will send you counterpart signatures and a scanned version of the Intercept Letter by 3:00pm or possibly earlier.

Hardcopy of Intercept Letter to follow as you prefer – overnight or pickup? We also need to make arrangements re delivery of the $2Bn Grid Note.

Per s.16 of AA#10, the other Note for $475MM is to be delivered following the Effective Time in exchange for the return by OFA of the Nov 30 2016 Note for $975MM.

It appears as though Victor will be forwarding only the scanned signature portion of the agreement and not the scanned signatures embedded in the agreement. Obviously it is implied they are signing the agreement. However, from a legal perspective should be ask for them to send a soft copy of the signatures embedded agreement in its entirety?

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in

AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Ok thanks – fyi, one more minor fix I forgot to include in the document I just sent is in 3.2(2) – the beginning of the final sentence should be corrected to read:

Thank you, Victor.

As an update, the directive wasn't signed today; we've had it escalated.

I have to run from the office, but Lisa Stein is currently reviewing the draft and I've asked that she get back to you if she sees anything pressing. I will also look at both agreements tonight and we will provide comments Monday morning.

Best regards,

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Victor

I have to run from the office, but Lisa Stein is currently reviewing the draft and I've asked that she get back to you if she sees anything pressing. I will also look at both agreements tonight and we will provide comments Monday morning.

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Regards,
Victor

Subject: Touch Base

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Thanks Will. I can confirm that the term "Credit Facilities" in the resolution refers to all of the credit facilities referenced in the resolution, including both OFA facilities.

Regarding the suggested adder ("as may be amended from time to time"), I would propose to leave the language as is. Firstly, for the sake of consistency. The reference in the Certificate to the 2005 agreement "as amended" is a reference to the fact that the 2005 agreement had already been amended numerous times – and was being amended one more time – at the time the Certificate was executed. On the other hand, the FHP loan had not been amended as of execution (this being the original loan), and it has yet to be amended as of today.

Second, if the FHP facility is amended in the future, this would likely be accompanied by a new Certificate in any case, at which time the wording can be amended to reflect the then applicable circumstances.

So for the above reasons, I propose to leave the language unchanged. Hopefully this makes sense.

Thanks,
Victor

Hello Victor,

The Board Resolution in relation to the OFA credit facilities is redacted, as such the reference to "Credit Facilities" therein may not be general. In any event, it is appropriate that the COI refers to the two specific OFA agreements. The only comment is the reference to the 2017 FHP agreement could also state "as may be amended from time to time".

Also, there is no need for a new certificate in relation to the OEFC financings at this time.

Hi Will – I will have to defer to your group on the details relating to differences in documentation for the different financings. We have been using the forms of incumbency certificates OEFC/OFA gave to us for each of the financings (as this is a lender requirement).

The first two items on your list are the OEFC financings which were last renewed on May 1, 2017. These used a slightly different form of Incumbency Certificate than the one that I forwarded re the last two financings (i.e. the OFA financings). The certificate for the OEFC financings addressed the identity and authority of the authorized signatory only as of the date of execution of the May 2017 amending agreements. Separately, we also provided a certified Board resolution authorizing IESO's CFO to draw funds under the OEFC financings.

The form of certificate I forwarded for your review yesterday is the one OFA required in the past in connection with the two OFA financings only.

Hi Will. In Olga's absence this week, I wanted to get the ball rolling on updating IESO's Incumbency Certificate re the OFA financings.

At the August meeting of our Board, Barb Anderson's position as VP and CFO was changed so that it is no longer "Interim". The change was made retroactive to July 9.

I have prepared a draft updated certificate based on the current certificate (see attached) and just wanted to confirm its form is acceptable to OFA prior to arranging for it to be executed.

Hi Will,

The COI is intended only for the two OFA credit facilities. Based on Victor's e-mail below, it appears that there is no need for a new certificate in relation to the OEFC financings at this time.

As the Board Resolution in relation to the OFA credit facilities is redacted, it is possible that the reference to "Credit Facilities" therein may not be general. In any event, I think it is appropriate that the COI refers to the specific OFA agreements. My only comment is that perhaps the reference to the 2017 FHP agreement could also state "as may be amended from time to time".

Hi Lisa,

My only comment is the IESO has four credit facilities with us and only two of them were noted on the COI. According to the Board Resolution, the CFO has general signing authority, so it may not be necessary to note the two specific credit facilities. Other than that, I have no other concerns.

Hi William – I am copying Caroline to bring her into the correspondence.

I expect that determining whether or not to grant the waiver will be a business decision. I will ask Lisa to loop in Caroline on her review of the agreement and advice tomorrow.

If you could provide a form of waiver tomorrow, Lisa can do a preliminary review and provide feedback. Waiver documents themselves are fairly straightforward.

Thanks very much,

Sarah

Hello Sarah N,

As an exception, IESO has requested OFA to waive the 5 day minimum repayment period for a 1 day repayment period. Carlos has indicated that this would occur infrequently. I am currently awaiting confirmation from Settlements and Cash Management if they have any concerns from an operational standpoint. IESO will have specific amounts/details this Friday. In the interim I will draft a waiver.
I will require assistance to review the waiver.Please advise who will be available to work with me on this waiver. Additional details are below.

Hello all,

IESO has asked OFA for a one-time exception to waive the minimum period for advances of 5 days (FHP Credit Facility Agreement). IESO has asked for an advance period of 1 day, so it may use money expected from OPG to repay its advance on the same day it matures.

IESO's current outstanding advance of $322M, matures on March 21, 2018. IESO will require an additional advance of $208M (to pay power generators) for a total of $530M, but will only require this for 1 day because IESO expects to receive funds from OPG to repay its advances on March 22. Rather than incurring additional interest costs of borrowing until March 26, 2018 (5 day minimum), IESO would prefer to match the maturity of its advances and expected cash inflow from OPG.

Please let me know if your respective areas have any concerns or issues from an operational standpoint.

Subject: Waiver - FHP Agreement, 5-day minimum period exception

Hello Sarah N,

As an exception, IESO has requested OFA to waive the 5 day minimum repayment period for a 1 day repayment period. Carlos has indicated that this would occur infrequently. I am currently awaiting confirmation from Settlements and Cash Management if they have any concerns from an operational standpoint. IESO will have specific amounts/details this Friday. In the interim I will draft a waiver.
I will require assistance to review the waiver.Please advise who will be available to work with me on this waiver. Additional details are below.

Thanks,

Will

Subject: FHP Agreement, 5-day minimum period exception

Hello all,

IESO has asked OFA for a one-time exception to waive the minimum period for advances of 5 days (FHP Credit Facility Agreement). IESO has asked for an advance period of 1 day, so it may use money expected from OPG to repay its advance on the same day it matures.

IESO's current outstanding advance of $322M, matures on March 21, 2018. IESO will require an additional advance of $208M (to pay power generators) for a total of $530M, but will only require this for 1 day because IESO expects to receive funds from OPG to repay its advances on March 22. Rather than incurring additional interest costs of borrowing until March 26, 2018 (5 day minimum), IESO would prefer to match the maturity of its advances and expected cash inflow from OPG.

Please let me know if your respective areas have any concerns or issues from an operational standpoint.

Best regards,

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of even date herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

(e) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or

inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail.

Hi William – I am copying Caroline to bring her into the correspondence.

I expect that determining whether or not to grant the waiver will be a business decision. I will ask Lisa to loop in Caroline on her review of the agreement and advice tomorrow.

If you could provide a form of waiver tomorrow, Lisa can do a preliminary review and provide

feedback. Waiver documents themselves are fairly straightforward.

Thanks very much,

Hello Sarah N,

As an exception, IESO has requested OFA to waive the 5 day minimum repayment period for a 1 day

repayment period. Carlos has indicated that this would occur infrequently. I am currently awaiting confirmation from Settlements and Cash Management if they have any concerns from an operational standpoint. IESO will have specific amounts/details this Friday. In the interim I will draft a waiver.
I will require assistance to review the waiver.Please advise who will be available to work with me on this waiver. Additional details are below.

Subject: FHP Agreement, 5-day minimum period exception

Hello all,

IESO has asked OFA for a one-time exception to waive the minimum period for advances of 5 days (FHP Credit Facility Agreement). IESO has asked for an advance period of 1 day, so it may use money expected from OPG to repay its advance on the same day it matures.

IESO's current outstanding advance of $322M, matures on March 21, 2018. IESO will require an additional advance of $208M (to pay power generators) for a total of $530M, but will only require this for 1 day because IESO expects to receive funds from OPG to repay its advances on March 22. Rather than incurring additional interest costs of borrowing until March 26, 2018 (5 day minimum), IESO would prefer to match the maturity of its advances and expected cash inflow from OPG.

Please let me know if your respective areas have any concerns or issues from an operational standpoint.

Best regards,

Re: $200,000,000 Proposed Advance under Borrowing Notice Dated January 8, 2018

Dear Ken,

The Ontario Electricity Financial Corporation ("OEFC") is in receipt of the Borrowing Notice provided by Ontario Power Generation ("OPG") to the OFA dated January 8, 2018 for the Proposed Advance of $200,000,000 (the "January 8, 2018 Borrowing Notice") under the General Corporate Requirements Credit Facility Agreement between OPG and OEFC dated June 16, 2016, as amended (the "Credit Agreement"), the terms defined therein being used herein as therein defined.

For the sole purpose of the January 8, 2018 Borrowing Notice, OEFC hereby agrees to modify the requirement set out in section 3.1 of the Credit Agreement that no more than 50% of the Proposed Advances for 2018 shall have a Repayment Date of no more than 30 years. As such, notwithstanding the total amount of Proposed Advances under the Credit Agreement for 2018, OEFC consents to a Repayment Date of 30 years from the date of the Proposed Advance under the Borrowing Notice, for the full principal amount of the Proposed Advance.

Accordingly, OEFC waives the requirement as set out in Section 3.2 and Schedule 1 of the Credit Agreement for OPG to provide the following certification in the January 8, 2018 Borrowing Notice:

> "The Repayment Date of any of the Proposed Advance(s) for 2018 is (a) no more than 30 years after the date of such Proposed Advance for no more than 50% of the total of all Proposed Advances for 2018 and (b) no more than 10 years after the date of the Proposed Advance for the remaining amount of the Proposed Advances for 2018."

Subject to the foregoing, section 3.1 of the Credit Agreement applies to all future Proposed Advances.

Best Regards,

Do you mind sharing with me the issues that are outstanding? (So I may take advantage of the time before the afternoon call. I want to avoid any new items that would push this back another day). Possibly one of these issues can be addressed immediately since Mike and Ken have already weigh-in?

Hi Will,

After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.

Thank you,

Lisa

We are in the process of preparing an e-mail. In terms of "permitted liens", I've already included revised language in the latest draft; however, I'm waiting until outstanding issues are resolved before sending it out as I don't think these issues should be reviewed/discussed in isolation.

Thank you Lisa and Toby,

I look forward to receiving the outstanding issues you have identified.
The issues I believe to be outstanding are:

1. *Permitted Liens "(k) any Lien arising in connection with the IESO's role and obligations under the OFHP including with respect to any amounts collect and held by IESO in relation to the Clean Energy Adjustment, or otherwise,"* – Operations for HP are still being worked out and it's difficult to itemize everything that would fall under (k).

2. Intercept provision – We are to review the new proposed language. I believe John, Ken and Mike have settled this matter.

3. Section 3.3(5) "The credit facility shall rank paris passu with all other unsecured Indebetendness of the IESO…." - I believe John, Ken and Mike have settled this matter.

So that I may be aware, are there any other new additional issues that have come forth?

-

-

Execution Plan

-

Anthony (IESO) has informed me that they will require a new advancement of $250 million in addition to their existing balance of $253.1 million. Effectively an outstanding total balance of $503.10 million.
Monday, August 14 is our new signature date. If we can achieve this, the new $250 million advancement can be allocated to the $2 Billion Credit Facility and the Existing Credit Facility can be reduced from $975 million down to $475 million seamlessly.

Thanks,

Will

Hi Will,

Please find attached a revised black-lined version of the FHP credit facility agreement. The only change from the last version is the addition of an "entire agreement" clause in section 7.8, as discussed at our internal meeting last week. Please send this amendment to the IESO (and re-format the accompanying draft clean execution version as necessary).

Thank you,

Lisa

Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

(b) If the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, of the IESO's failure to pay under this Agreement and requesting the deduction of amounts equal to the amounts that the IESO has failed to pay under this Agreement.

Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay under this Agreement. On the occurrence of an Event of Default, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, of the IESO's failure to pay under this Agreement and requesting the deduction of amounts equal to the amounts that the IESO has failed to pay under this Agreement.

The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO fails to pay to the OFA shall be deducted from the Appropriated Funds and paid to the OFA.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not

Section 5.6 Delay or Omission not Waiver.

(b) If the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, of the IESO's failure to pay under this Agreement and requesting the deduction of amounts equal to the amounts that the IESO has failed to pay under this Agreement.

The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO fails to pay to the OFA shall be deducted from the Appropriated Funds and paid to the OFA.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

Hello Lisa,

I have no comments regarding "Section 7.8 Entire Agreement".

On a separate matter, I was comparing the existing $975 million credit facility Amending Agreement No. 10, against the FHP Credit Facility and noticed Section 3.3 Elections Regarding Advances (6) and (7) was not included in the Amending Agreement update.
Also, FHP Credit Facility- Section 4.6 Negative Pledge has additional language that pertains to "not permit any Material Subsidiary to, create, incur or assume any Lien…". Should we add those changes to the Amending Agreement 10?

Attached is the original

Thanks,

Will

Hi John,

In general, the purpose is to clarify that the Agreement and its Schedules take precedence over any discussions or undertakings that may have occurred between the parties prior to the execution of the agreement. In other words, the OFA may not agree to amend the agreement, for example, to

change the permitted liens or remove the intercept provisions, on the basis of previous discussions or e-mails with the IESO.

The clause, which is generally boiler plate in an agreement, states as follows:

> This Agreement and the Schedules constitutes the whole agreement between the Parties with respect to the matters dealt with in it, and it supersedes any prior agreements, undertakings, discussions and the like respecting the matters dealt with in this Agreement and entered into by the parties before the date the OFA signs this Agreement.

Thanks,

Lisa

Hi Lisa,

Could you remind me what the purpose of the "entire agreement" clause is?

Thanks,

John

Hi Will,

Please find attached a revised black-lined version of the FHP credit facility agreement. The only change from the last version is the addition of an "entire agreement" clause in section 7.8, as discussed at our internal meeting last week. Please send this amendment to the IESO (and re-format the accompanying draft clean execution version as necessary).

Thank you,

Lisa

(2) In the event that any such payments are limited or prohibited as provided in Section 2.9(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

ARTICLE 3

ADVANCES

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the OPA under the Operating Facility from time to time on any Business Day prior to November 30, 2006.

The OFA will make the principal amount of each Advance available to the OPA in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the OPA shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3. The OPA authorizes the OFA to record on the grid promissory note (a) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the OPA to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The OPA may elect to continue all or a portion of the principal amount of any Advance for a further period of 1 month, 2 months or 3 months beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each election to continue an Advance for a further period shall be made one Business Day's prior notice given, in each case, not later than 10:00 a.m. (Toronto time) by the OPA to the OFA. Each such notice (an **"Election Notice"**) shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the OPA. If the OPA fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

Section 3.4 Interest on Advances.

(1) The OPA shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the OPA elects to continue an Advance in accordance with Section 3.3(2), the Province shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the OPA promissory note in respect of Advances held by it.

Hello Lisa,

I have no comments regarding "Section 7.8 Entire Agreement".

On a separate matter, I was comparing the existing $975 million credit facility Amending Agreement No. 10, against the FHP Credit Facility and noticed Section 3.3 Elections Regarding Advances (6) and (7) was not included in the Amending Agreement update.
Also, FHP Credit Facility- Section 4.6 Negative Pledge has additional language that pertains to "not permit any Material Subsidiary to, create, incur or assume any Lien…". Should we add those changes to the Amending Agreement 10?

Attached is the original

Thanks,

Will

Hi John,

In general, the purpose is to clarify that the Agreement and its Schedules take precedence over any discussions or undertakings that may have occurred between the parties prior to the execution of the agreement. In other words, the OFA may not agree to amend the agreement, for example, to change the permitted liens or remove the intercept provisions, on the basis of previous discussions or e-mails with the IESO.

The clause, which is generally boiler plate in an agreement, states as follows:

> This Agreement and the Schedules constitutes the whole agreement between the Parties with respect to the matters dealt with in it, and it supersedes any prior agreements, undertakings, discussions and the like respecting the matters dealt with in this Agreement and entered into by the parties before the date the OFA signs this Agreement.

Thanks,

Lisa

Hi Will,

Please find attached a revised black-lined version of the FHP credit facility agreement. The only change from the last version is the addition of an "entire agreement" clause in section 7.8, as discussed at our internal meeting last week. Please send this amendment to the IESO (and re-format the accompanying draft clean execution version as necessary).

Thank you,

Lisa

Hi Will,

Please find attached a revised black-lined version of the FHP credit facility agreement. The only change from the last version is the addition of an "entire agreement" clause in section 7.8, as discussed at our internal meeting last week. Please send this amendment to the IESO (and re-format the accompanying draft clean execution version as necessary).

Thank you,

Lisa

Hi Will,

I just discussed your comments regarding the compare, below, with Sarah H. We have decided to wait on these issues until we draft an amended and restated version of the existing credit facility agreement (subject to comments from IESO). There are already negative pledge provisions in the current agreement, and therefore raising new issues at this stage may further delay this matter.

Thank you,

Lisa

Hello Lisa,

I have no comments regarding "Section 7.8 Entire Agreement".

On a separate matter, I was comparing the existing $975 million credit facility Amending Agreement No. 10, against the FHP Credit Facility and noticed Section 3.3 Elections Regarding Advances (6) and (7) was not included in the Amending Agreement update.
Also, FHP Credit Facility- Section 4.6 Negative Pledge has additional language that pertains to "not permit any Material Subsidiary to, create, incur or assume any Lien…". Should we add those changes to the Amending Agreement 10?

Attached is the original

Thanks,

Will

Hi John,

In general, the purpose is to clarify that the Agreement and its Schedules take precedence over any discussions or undertakings that may have occurred between the parties prior to the execution of the agreement. In other words, the OFA may not agree to amend the agreement, for example, to change the permitted liens or remove the intercept provisions, on the basis of previous discussions or e-mails with the IESO.

The clause, which is generally boiler plate in an agreement, states as follows:

This Agreement and the Schedules constitutes the whole agreement between the Parties with respect to the matters dealt with in it, and it supersedes any prior agreements, undertakings, discussions and the like respecting the matters dealt with in this Agreement and entered into by the parties before the date the OFA signs this Agreement.

Thanks,

Lisa

Hi Lisa,

No - the OIC for FHP is for FHP purposes. We will have a credit agreement that will use up 100% of the OIC amount.

Also, I think that the OICs referenced in the annual lending directive is the same one OIC being amended over time.

Hi all,

As that new 2017 OIC was intended to be specific to the FHP but not specifically reference it, I'm not sure that it needs to be referenced in the annual lending directive, which references specific loans to public bodies (and does not include the FHP loan), or in the OLG directive. Does anyone else have thoughts on this? Is there a possibility that the funds referenced in the 2017 OIC may in future be drawn down for one of these other loans?

The current paragraph of the annual lending directive pertaining to OICs provides as follows:

Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010, 163/2012, 1051/2012 and 354/2014, all as amended, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for each Loan made under the authority of this Directive, the amount of the spread retained by the OFA is equal to the sum of the Cost Recovery Fee and the Commercial Spread, if any, for the Loan as set out above.

Thank you,

Lisa

Hi Malle, Lisa,

Pls. see attached. I haven't yet run this draft by Ron but spoke to him about the direction this afternoon.

Happy to organize a call first thing tomorrow. We are hoping to get it signed by Ron and Gadi tomorrow before Gadi leaves on his vacation.

I left out the second part of Malle's comment (the whereas one) as I wasn't sure how to do that.

Thanks,

John

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

Hi Lisa,

Sarah's group is working on the agreement and the terms of the agreement, at a high level, are what were included in IESO's request letter, which the OFA appears to have agreed to.

I think the directive covers the key terms of the request which were in the request letter from IESO and anything further will be subject to any negotiation between OFA and IESO. If a specific term is in the directive language is causing an issue, we could leave it out?

It may look like a lot of track changes, but most of them are just moving things around.

I just don't want the directive to be similar to the term sheet since the term sheet may change if need be and the directive still needs flexibility for any negotiation that may need to occur.

Happy to share it with MOF legal as is as well.

Salman

Hi Salman,

In my view it would be prudent to develop a term sheet prior to finalizing the draft directive as it is currently missing details. Is this a possibility? Once I receive a term sheet I will create a new draft of the directive.

Thank you,

Hi Lisa,

I've made some changes to the directive, some based on our discussion and some based on an example of another directive I found for a line of credit (see pdf attached, albeit between OEFC and IESO). You'll see that there are still some questions to confirm, so we can leave those comments in.

If you can take a look at the drafting and if you're okay with it (feel free to make additional changes), I will clean it up and circulate to CMD/senior management for another review and to gauge some feedback on the remaining questions.

Accordingly, I can drop by any time today to discuss further.

Thank you again,
Salman

We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for

interest tracking purposes under the existing $975M agreement.

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and

placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Jean-Francois

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be

continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,
Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is

a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

The draft language does appear to be a reasonable description of the interest rate setting process described by William Tan.

> I discussed the wording in Section 3.4 (2) with Carlos. Currently there is a system limitation that only allows Trading to select a 1 month and a 3 month cost of funds and as an operational decision not to use linear interpolation. In light of these operational limitations Carlos is of the view that the current wording in Section 3.4 (2) below is satisfactory.

Let me know if you have any additional concerns.

Hello Lisa,

I've reviewed 5 agreements and they all seem to generally to be worded similarly or a variation of the same meaning. Let me know if you require more information.

"All such costs, charges and expenses shall bear interest at the Province's cost of funds (plus any applicable spread as determined by the Ontario Financing Authority)"

Hi William,

Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.

Thank you,

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

In my call with IESO staff, they expressed that they understood the rationale behind the approach, along the lines of no substantive issue as there is no appropriation here. At least the IESO staff fully understood that point. They do want this facility in place asap so it would not surprise me if they expressed frustration around the proposed approach and the delay.

As mentioned in my earlier email, this will be brought up potentially at tomorrow's meeting.

Thanks,

John

Hi John –

Toby from MOF Legal just called Lisa. Tom McKinley, counsel from MOE reached out to him in response to your memo to find out what the rationale was for the memo, apparently IESO reached out to Energy and expressed concern about what was going on.

I think it may be prudent to arrange for a policy level call tomorrow to provide reassurance that there is no substantive issue here, but in the absence of a directive we require inclusion of the intercept provisions. Notwithstanding that there are currently no appropriations. Once this is done the loan agreement can be finalized without further delay.

I've copied Anna given your earlier heads up to her. Please let me know how you would like to proceed.

Hi Will. The following is the revised paragraph that we ask be substituted for that already in the definition of "Permitted Liens" in the FHP facility, and be added to the definition of Permitted Liens in Amending Agreement #10 for the existing facility –

" any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP; "

Regarding the addition to AA#10, this would also require the addition of the definitions for "OFHP" and "Clean Energy Adjustment" to that amendment.

Let me know if you have any questions.

Victor

Good morning Victor,

That's correct, I intentionally did not include a copy of the Amending Agreement No. 10 v2, because no changes to be made to it and the current version is still valid.

Yes, please review the Intercept Provision language in the FHP Credit Facility after discussions have concluded with OPG. John Kim is currently reviewing Intercept Provision matter with regards to the Existing Credit Facility.

We look forward to the Permitted Liens changes tomorrow.

Hi Will. Thanks for these drafts. I note that clean Word and pdf versions of v.3 of the FHP Credit Agreement were attached, but there was no attachment re Amending Agreement #10 to the existing facility (not sure if that was intended).

We cannot yet provide detailed comments on the Intercept Letter itself or on the language related to the Intercept Letter now included in v.3 of the FHP Credit Facility. We will provide those comments after we have been able to confirm whether any concerns arise out of the discussions with OPG. However, at a high level, I note that the current draft of the Intercept Letter states that the existing facility (i.e. the one to be reduced to $475MM) will also be subject to the Intercept mechanism. Based on our prior discussions, we thought this existing facility was being "grandfathered" and so would not be subject to the OFA policy that requires inclusion of the Intercept mechanism/language. Can you please clarify OFA's intended approach on this ?

Also, just wanted to let you know that based on our most recent reviews of the draft documents/transactions (including with external counsel), I will shortly – likely tomorrow morning – send some revisions to paragraph (k) of the Permitted Liens definition, which I do not expect to be controversial. Concerning this language, we would ask that you also add the revised paragraph to the definition of "Permitted Liens" contained in the existing facility by way of Amending Agreement #10.

Feel free to call if you have any questions.

Victor

Hi All – I attach what I am hoping are the closing documents for: (i) the new FHP Revolving Credit Agreement, and (ii) Amending Agreement #10 to the 2005 credit agreement. The following comments are relevant to the attachments:

1. I took the credit agreements you sent for both FHP and Amending Agreement #10 yesterday, accepted all the tracked changes, deleted the comments, made some minor spacing changes and put a blank following "September" as appropriate so that the final signing date can be filled in by hand. Note – regarding AA#10, I also deleted the document ID that showed at the bottom of some of the pages (which ID I assumed was some form of law firm tracking number).
2. I created two standalone Promissory Notes by extracting the Schedules from the FHP and AA#10 respectively – the only change I made (apart from deleting the "Form of…" language at the top of the document) was to change the spacing slightly to fit on one page.
3. I also prepared final versions of the certified IESO board resolution and the incumbency certificate, again inserting a blank following September. Please note that the resolution is changed slightly from the one you reviewed in the sense that I inserted notes (instead of ellipsis) to show where redactions were made of information not related to the OFA financings. For convenience, I also removed the reference to the date of the FHP Credit Agreement.
4. I created pdfs of all documents and also include MS Word versions of the Agreements and Grid Notes for ease of comparison.

Please let me know if these documents appear in order.

Victor

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Hi Lisa – just wanted to check whether the latest version of AA#10 was ever sent across for our review or whether you were still waiting on finalization of the FHP Credit Agreement ? I can't seem to find anything in my system.
I would like to review the additions to the Permitted Liens language in AA#10 asap even if the addition of the Intercept language is not final.
Thanks,
Victor

Hi Victor,

We will send out a revised version of Amending Agreement #10, which has already been updated to include the Permitted Liens language, once we finalize the Credit Facility Agreement. Do you have any update on that agreement?

Thank you,

Lisa

Hello Anthony and Victor,

Please find the attached version of the FHP Credit Facility Agreement which includes revised Permitted Liens (K) language. Obviously the letter agreement needs to be executed first.

Thanks,

Hi Will. The following is the revised paragraph that we ask be substituted for that already in the definition of "Permitted Liens" in the FHP facility, and be added to the definition of Permitted Liens in Amending Agreement #10 for the existing facility –

" any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP; "

Regarding the addition to AA#10, this would also require the addition of the definitions for "OFHP" and "Clean Energy Adjustment" to that amendment.

Let me know if you have any questions.
Regards,
Victor

Good morning Victor,

That's correct, I intentionally did not include a copy of the Amending Agreement No. 10 v2, because no changes to be made to it and the current version is still valid.

Yes, please review the Intercept Provision language in the FHP Credit Facility after discussions have concluded with OPG. John Kim is currently reviewing Intercept Provision matter with regards to the Existing Credit Facility.

We look forward to the Permitted Liens changes tomorrow.

Thanks,

Will

Hi Will. Thanks for these drafts. I note that clean Word and pdf versions of v.3 of the FHP Credit Agreement were attached, but there was no attachment re Amending Agreement #10 to the existing facility (not sure if that was intended).

We cannot yet provide detailed comments on the Intercept Letter itself or on the language related to the Intercept Letter now included in v.3 of the FHP Credit Facility. We will provide those comments after we have been able to confirm whether any concerns arise out of the discussions with OPG. However, at a high level, I note that the current draft of the Intercept Letter states that the existing facility (i.e. the one to be reduced to $475MM) will also be subject to the Intercept mechanism. Based on our prior discussions, we thought this existing facility was being "grandfathered" and so would not be subject to the OFA policy that requires inclusion of the Intercept mechanism/language. Can you please clarify OFA's intended approach on this ?

Also, just wanted to let you know that based on our most recent reviews of the draft documents/transactions (including with external counsel), I will shortly – likely tomorrow morning – send some revisions to paragraph (k) of the Permitted Liens definition, which I do not expect to be controversial. Concerning this language, we would ask that you also add the revised paragraph to the definition of "Permitted Liens" contained in the existing facility by way of Amending Agreement #10.

Feel free to call if you have any questions.

Regards,
Victor

Hi All – I attach what I am hoping are the closing documents for: (i) the new FHP Revolving Credit Agreement, and (ii) Amending Agreement #10 to the 2005 credit agreement. The following comments are relevant to the attachments:

1. I took the credit agreements you sent for both FHP and Amending Agreement #10 yesterday, accepted all the tracked changes, deleted the comments, made some minor spacing changes and put a blank following "September" as appropriate so that the final signing date can be filled in by hand. Note – regarding AA#10, I also deleted the document ID that showed at the bottom of some of the pages (which ID I assumed was some form of law firm tracking number).
2. I created two standalone Promissory Notes by extracting the Schedules from the FHP and AA#10 respectively – the only change I made (apart from deleting the "Form of…" language at the top of the document) was to change the spacing slightly to fit on one page.
3. I also prepared final versions of the certified IESO board resolution and the incumbency certificate, again inserting a blank following September. Please note that the resolution is changed slightly from the one you reviewed in the sense that I inserted notes (instead of ellipsis) to show where redactions were made of information not related to the OFA financings. For convenience, I also removed the reference to the date of the FHP Credit Agreement.
4. I created pdfs of all documents and also include MS Word versions of the Agreements and Grid Notes for ease of comparison.

Please let me know if these documents appear in order.
Regards,
Victor

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Subject: Touch Base

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement

- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Hi Ryan,

As discussed, the IESO's proposed amendments are consistent with the "permitted liens" language from the OFA FHP credit facility agreement.

I've now discussed this language with Toby (from MOF legal) and have noted that are already aware of the risks (re priority if claims) involved with these proposed amendments (which you have identified as low/uncertain as per the draft briefing note).

As such, these additional amendments are acceptable from a legal perspective.

Please let me know if you would like to discuss further.

Thank you,

Lisa

Hi Ryan – thanks for the drafts. Please see attached markups that include our comments – I haven't had an opportunity to discuss these changes/comments internally but thought I should forward these asap given the time pressure.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Regards,
Victor

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT

The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT

The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now.
…..I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

Hi Ryan,

As discussed, the IESO's proposed amendments are consistent with the OFA FHP credit facility agreement. I've also discussed with Toby and we have both noted that you are already aware of the risks involved with these amendments (as per the draft briefing note).

There was no similar deletion in the other agreement (for the $160M revolving credit facility). As Victor pointed out in his email: "You will note that a similar clause is not included in the Revolving Credit Agreement.)"

In the original revolving credit agreement "Negative Pledge" was addressed in Section 4.7. There was no similar section called "Other Indebtedness" as there was in the original agreement for the $120M note..

Hi Ryan,

I have no concerns with this deletion either. However, as noted earlier, I suggest running it by Toby as well as we worked together on the negative pledge language.

I believe there was also a deletion to the other agreement. Was it the same paragraph ? I think that numbering was different.

“(xx) any Lien arising from the IESO’s role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.”

2.DRAFT

The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

“Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the “Intercept Letter”), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO

("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of

Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the

"." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. (b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation. The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

Hi Ryan – thanks for the drafts. Please see attached markups that include our comments – I haven't had an opportunity to discuss these changes/comments internally but thought I should forward these asap given the time pressure.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices

etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT

The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):

"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT

The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA

under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

Hi Ryan,

I have no concerns with this deletion either. However, as noted earlier, I suggest running it by Toby as well as we worked together on the negative pledge language.

I believe there was also a deletion to the other agreement. Was it the same paragraph ? I think that numbering was different.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Hi Ryan,

I have no concerns with this deletion either. However, as noted earlier, I suggest running it by Toby as well as we worked together on the negative pledge language.

I believe there was also a deletion to the other agreement. Was it the same paragraph ? I think that numbering was different.

Hi Ryan,

I found the amendments. Can you please send me the paragraphs that the IESO would like to delete? Do you have any concerns from a business perspective?

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and

as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.

Section 3.7 Other Indebtedness.

The Company covenants that if it shall cause any payment of principal, premium or interest on any of its Indebtedness to be subordinated or postponed to the prior payment of any other Indebtedness it shall in like manner subordinate or postpone such payment to the prior payment of the Note.

Section 3.8 Negative Pledge.

The Company will not, and will not permit any Subsidiary to, create, incur or assume any Lien, charging the interest of the Company or any Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, the Note is secured equally

and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) The creation, incurrence or assumption of any Purchase Money Mortgage;

(b) The grant of any Lien in the normal course of business to any banks or financial institutions for present or future Indebtedness of the Company or any Subsidiary to such banks or financial institutions payable on demand or having an original term to maturity less than 18 months;

(c) Permitted Liens;

(d) Liens granted by a Subsidiary to the Company;

(e) Any extension, renewal or replacement of any of the Liens referred to in Sections 3.8(a) to (d), provided that the principal amount secured by any such Lien outstanding immediately before such extension, renewal or replacement or refunding is not thereby increased.; and

(f) Any Lien charging the interest of the Company or any Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 3.8(a) to (d), provided that, at the time such Lien is created, incurred or assumed, the principal amount of such Indebtedness, together with the aggregate principal amount of all other Indebtedness secured by Liens permitted pursuant to this Section 3.8(f) which is outstanding at such time does not exceed 25% of Consolidated Assets at such time.

Hi Ryan,

As discussed, the IESO's proposed amendments are consistent with the "permitted liens" language from the OFA FHP credit facility agreement.

I've now discussed this language with Toby (from MOF legal) and have noted that CEFD and Capital Markets are already aware of the rationale and risks involved with these proposed amendments (i.e priority of claims, which you have identified as low/uncertain as per the draft briefing note).

As such, these additional amendments are acceptable from a legal perspective.

Please let me know if you would like to discuss further.

Thank you,

Lisa

Hi Ryan – thanks for the drafts. Please see attached markups that include our comments – I haven't had an opportunity to discuss these changes/comments internally but thought I should forward these asap given the time pressure.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Victor

Hi Sarah,

Hope all is going well! In Lisa's absence, I am sending the OEFC credit facility agreement BN to you for review and comments.

The IESO has reached out to us to make the similar change to the definition of the "permitted liens" under the OFA credit facility agreement, which were signed recently. As a result, CEFD has drafted the attached note for IESO's request. Could you please review and let us know if you have any concerns?

Please note that IESO has indicated that they will seek their Board approval on Nov. 22 to grant the security/priority on IESO's assets to the OPG Trust, so we will need to resolve this as soon as possible.

Please let us know if you have any questions.

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

So if we are to refuse the request we will have to have a rationale. Our assessment is documented in the note. Hi Sarah,

Hope all is going well! In Lisa's absence, I am sending the OEFC credit facility agreement BN to you for review and comments.

The IESO has reached out to us to make the similar change to the definition of the "permitted liens" under the OFA credit facility agreement, which were signed recently. As a result, CEFD has drafted the attached note for IESO's request. Could you please review and let us know if you have any concerns?

Please note that IESO has indicated that they will seek their Board approval on Nov. 22 to grant the security/priority on IESO's assets to the OPG Trust, so we will need to resolve this as soon as possible.

Please let us know if you have any questions.

Thanks,
Gavin He

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Hi Gavin - I am speaking at a conference in Niagara tomorrow morning. I will be able to review this late tomorrow afternoon or Friday morning.

Lisa briefed me on this issue and my understanding is that there is no legal prohibition with respect to amending the agreements but that it is a business decision. If a decision is made to support IESO's request my understanding is that we would expect IESO to provide proposed amended language for OEFC's review.

Please confirm that I have interpreted the situation correctly.

BTW who is this note going to? Is it internal to the OFA or going outside? I note it has a recommendation but isn't drafted as a formal approval document.

I would change “preference” to “it is IESO’s position that it wants to make...” and add “of it’s security obligations to OPG Trust” after the word default.

> Hi John – I reviewed the draft note Gavin sent, against the version of the note Lisa commented on dated November 9 (I don’t have access to any more recent correspondence on this). It appears that most of her proposed changes were substantially incorporated. The only change not addressed was with respect to the second bullet in the recommendation: “…such change to the permitted liens is still *required* in order for IESO to meet its role….” Lisa queried whether it is really “required” (I agree with this comment, there are other options, for example a waiver, but an amendment is the most certain and consistent approach). One option may be to clarify that this is IESO’s position/preference (presumably this is the source of the request).

I will leave it to you as to whether you want to make this change.

Based on my review of the note, Lisa's prior comments and the discussion I had with Lisa yesterday I have no further comments.

In the interests of time, and subject to your receiving direction to proceed, my recommendation is that you get IESO to provide a first cut of proposed amendments it is seeking for Lisa's review when she returns to the office on Monday.

Hi Victor,

Other than me confirming the form of interest rate to be listed at the top of the $120M note, are you okay with the last drafts of the agreements? If so, could you please prepare execution versions of the agreements. I will have an answer for you on the interest rate reference for the note tomorrow morning. I just need to confirm internally - nothing contentious.

Olga and I connected earlier this afternoon, so we are on track there.

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two

calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.

2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.

2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Anthony

I think we are close to getting the agreements signed. Could you ensure that the board resolution is provided to me as soon as possible? Also, to whom should the docs be couriered and what is the address to ensure the least amount of wasted time?

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.
Thanks
Victor

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.
2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Thanks,

Sarah Harris

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.

2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the

"market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hello all - just as a follow-up to our call of a few minutes ago, it would make sense for the borrowing processes to be aligned for both lines of credit (i.e. the FHP line and the $475MM line) per Anthony's comments below.

Since it sounds like there will need to be some additional tweaks to the Election Notice language we inserted in yesterday's draft, would it make sense for you rather than us to make the changes to the Amendment #10 document as well, since you have the pen on this issue right now ? Just thinking here about what's most efficient time-wise (ie if not, we have to wait for your markup etc).

Let us know - thanks,

Once we have completed the 2 OFA facilities and the intercept letter – we then have to turn to the 2 outstanding IESO-OEFC credit facilities to contemplate any further amendments too.

Just ensuring that these 2 OEFC facilities are not missed.

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.

Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.

I am not in the office today so please give me a call at 905-929-1434 this morning or between 2:00 and 5:30 this afternoon - or let me know who to call at what number.

Thanks
Victor

Thank you gentlemen. For your convenience please find the revised amending agreement.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

Please let me know if you require anything further or if you have questions.

Good morning Anthony,

I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.

Thanks,

Will

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:
Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity***

purposes."

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2
This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3
This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.
"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Subject: RE: IESO credit facility

If the IESO gives the Trust a 1st priority over all IESO assets, it follows that the intercept provisions as drafted in the proposed credit facility agreement will not work. This further strengthens the case for a directive.

Hi,

Pls. take a look at this once again and let me know if you have any comments. Thus far, IESO has not provided any edits but seem to be indicating that they are getting close to being prepared to sign.

IESO has indicated the following and I will ask you to give it some thought:

"DRAFT - The Trust is looking for the IESO to give a 1st priority/security over all IESO assets including accounts receivables in favour of the Trust. This item is being discussed amongst all parties. If this proceeds, the IESO will have to amend/restructure its current credit facilities with TD Bank, OFA, and OEFC as all are unsecured pari-passu."

The challenge with OPG is separate from the ieso. I will provide in detail when I get home later this afternoon.

> Hi John,

If I understand your question correctly, the answer is that the Ministry of Environment and Climate Change (MOECCC) is not required to be a party to the FHP credit facility intercept MOU/letter agreement. The letter agreement is intended to be between the "responsible ministry" (in this case Ministry of Energy (MOE)) and the public body (in this case IESO).

The intercept would apply to money appropriated by the Legislature for "payment to the public body". Therefore, money appropriated by the Legislature for payment to a different ministry, a different public body, or to MOE (or an agency of MOE, etc.) for a program *unrelated* to the IESO, would not be caught by the intercept.

I've included an excerpt below which should be helpful in this regard. Please let me know if you would like to discuss further.

Lisa

Excerpt from OFA Lending Policy (emphasis added):

Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

Subject: Intercept provision

Hi Sarah, Lisa,

I have a request for a legal interpretation of the OFA Lending Policy.

The OFA Lending Policy as we currently have it, does it provide for a requirement [of the MOU/the letter agreement we have drafted] other than one ministry responsible

for the public body? The way I read the policy, I believe there should be one Ministry that provides oversight of the public body.

This morning, at a meeting, IESO representative raised the issue of their managing the government's implementation of Green ON Fund (?). I am presuming that the same type of arrangement applies for this program as the Energy's program, i.e. no appropriation for IESO's operation, and this is TBD but would like to know how implementation of such a program funded by another ministry would factor into what we are looking to do.

The purpose of the question is to entertain whether the MOU/the letter agreement needs to include MOECC or not. I don't think so but would appreciate your assessment.

Thanks,

John

Hi Maryam and Tony,

I would like to request your opinion on the following drafting matter re: loan agreements. I have been advised by Capital Markets staff that the following language has been removed from OFA debt documentation:

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the Borrower shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the Criminal Code (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Do you know if this was based on MOF Legal advice? Do you have any background regarding this change? Do MOF loan precedents still contain such language?

Thank you,

Lisa

Hi Lisa,

Thanks very much for your draft.

Please find attached our comments and changes (including simplifying the comments). For your reference, I've also done a pure blackline comparison against your last version.

We've accepted a lot of your changes and highlight the following remaining issues and changes:

- "Subsidiaries" - we would like to include all references to subsidiaries, as it was deliberately included in the other 2010 IESO-OEFC Credit Facility. We've also included the definition of "Material Subsidiary", which should have been included, as it was in the 2010 Credit Facility

- (ACTION REQUIRED - TOBY) Section 2.2 – Changes accepted, however, Toby to confirm Reg. 280/14 reference? Also, IESO to confirm reference to "short to medium" term.

- (ACTION/DECISION REQUIRED -LISA) Section 3.3 – Does this language actually need to be amended any further? It was based on the language of amending agreement #9 of the original $975m OPA-OFA Credit Facility agreement.

- Section 3.5 – Included the words "a Material Subsidiary" in respect of the MAC clause, per your suggestion

- Original Section 4.1 – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.

- "New" Section 4.1 – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility

- (DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2 – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.

- Newly renumbered Section 4.7 – Have included timeframe as “promptly”, per you suggestion of a timeframe

- Original Section 5.1(c) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered

- Section 7.1 –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective. Since the agreement must be executed by end of next week and IESO has not yet seen the draft, I am hoping we can strive to get this to IESO by end of day (Friday) to allow sufficient time for IESO to review and provide comments on the draft ASAP early next week..

Thanks,
Sarah

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO

re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

> **Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)?** This decision ultimately needs to be made by business/policy people.
>
> <!--[if !supportLists]-->• <!--[endif]-->**If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
>
> <!--[if !supportLists]-->• <!--[endif]-->**If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a

security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how

will the Province ensure that the proceeds can only be used to repay the loan?

Hi all,

I spoke to Gadi and he recalled that Ron would be signing the letter. I had forgotten that was what was decided with Energy weeks ago.

Since Ron will be signing the letter, I think it only makes sense for him to sign the other related materials - not to mention that CEFD has done the majority of the work on this file and perhaps there is some satisfaction for all of you in seeing it all done! I know Ron may not be familiar with all of the documents, but perhaps Usman can set aside 15 minutes for a briefing with Ron today once the materials are ready to be signed.

Apologies for the late change in direction. Usman, I'll follow up separately with you on this to bring you up to speed.

Thanks, Anna

Hi Malle,

I've amended the directive to incorporate the original IESO credit facility agreement. Due to the evolution of the agreement (ie. numerous amendments and transition from the OPA to the IESO, I also thought it would be helpful to include background on this credit facility in the recitals. I would appreciate your feedback on this revised directive, as it is now more complex.

Thank you,

DIRECTIVE

MINISTER OF FINANCE

LOANS TO THE INDEPENDENT ELECTRICITY SYSTEM OPERATOR

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance ("Minister").

Pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013, the Minister approved and directed the OFA to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes.

Commented [LS1]: Program area please confirm accuracy of directives.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support the IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

Pursuant to a directive from the Minister dated June 29, 2017 (the "2017 Directive"), the OFA was directed to provide a new revolving credit facility to the IESO for the purposes of providing short to medium term financing related to the IESO's role in the implementation of the OFHP Act (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister, Treasury Board or Cabinet. The intercept provision applies to money appropriated by the Legislature for a public body.

The IESO is a public body for the purposes of CIPA.

As there is no operational funding appropriated by the Legislature for the IESO, the intercept provision has no application for OFA loans to the IESO.

Commented [LS2]: Amended as per Malle's comments. Program area please confirm.

DRAFT

Therefore:

The OFA is not required to include an intercept provision in the following two credit facility agreements with the IESO:

a) the Original Credit Facility Agreement, as may be amended from time to time; and,
b) the OFHP Credit Facility agreement, as may be amended from time to time.

(together, the "IESO Credit Facility Agreements")

The IESO Credit Facility Agreements shall remain subject to all other terms and conditions as set out in the applicable directives.

MINISTER OF FINANCE

LOANS TO THE INDEPENDENT ELECTRICITY SYSTEM OPERATOR

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance ("Minister").

The Independent Electricity System Operator ("IESO") is a public body for the purposes of CIPA.

Pursuant to a directive from the Minister dated June 29, 2017, the OFA was directed to provide a revolving credit facility to the IESO for the purposes of providing short to medium term financing related to the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister, Treasury Board or Cabinet.

As the IESO receives no funding from the Province of Ontario, there is no funding to which the intercept provision applies.

Commented [LS1]: CEFD to review/confirm.

Therefore:

The OFA is not required to include an intercept provision in its OFHP Credit Facility agreement with the IESO, nor in any other unsecured loan agreements with the IESO.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay under this Agreement. Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

ADVANCES

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

Hi Will,

Please find attached a revised black-lined version of the FHP credit facility agreement. The only change from the last version is the addition of an "entire agreement" clause in section 7.8, as discussed at our internal meeting last week. Please send this amendment to the IESO (and re-format the accompanying draft clean execution version as necessary).

Thank you,

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept
