SCHEDULE 3

CALCULATION OF MAKE-WHOLE AMOUNT AND EXAMPLE CALCULATION

For the purposes of this Schedule 3, the following terms shall have the meanings assigned to them below:

"OPG Market Price" means the price that is calculated using the OPG Interpolated Yield for the remaining term to maturity of the Advance Outstanding as of the Prepayment Calculation Date.

"OPG Interpolated Yield" means the interpolated yield calculated by using a Province of Ontario Yield Curve.

"Province of Ontario Yield Curve" means the yield curve that is constructed of only issues with an active, whole-bond float of at least CAD $2 Billion in size.

OEFC will calculate the Make-Whole Amount as the OPG Market Price multiplied by the amount of the Advance Outstanding that is to be repaid.

If the shape of the Province of Ontario Yield Curve for the remaining term to maturity is convex, then a cubic-spline method for interpolation will be used (i.e. the interpolation will follow the curvature of that portion of the yield curve). If the constructed yield curve is concave at this term, a linear (i.e. straight line) method of interpolation will be used.

Example

On 22 April, 2005 OEFC provided OPG with an Advance for $75 million at 5.575% for a term of 10 years. OPG gives notice to prepay the Advance Outstanding of $75 million on February 4, 2010.

Prepayment Date:	Feb 4, 2010
Repayment Date of original Advance:	April 22, 2015
Coupon Rate:	5.575%
OPG Interpolated Yield:	2.875%

Ontario issues used for Interpolation (linear)

ONT 4.5% 08 MAR 2015 ($3.0B Float):	*2.839%*
ONT 4.4% 08 MAR 2016 ($3.0B Float):	*3.135%*

OPG Market Price: 112.99

Make-Whole Amount: $75 million x ((112.99 – 100)/100) = $9.7 million

Hi Kelly,

What is the current status of this amending agreement? If it is not too late, we recommend adding the following to the beginning of section 4 (Base Rate):

"On or after the date of this Amending Agreement…."

We are suggesting this change on the basis the new process for calculating "Base Rate" (as amended) would only occur after the execution of the Amending Agreement. However, if it is too late for this additional amendment, we think it is already implied in any event.

Happy to discuss,

Lisa

Hi Lisa/ Sarah

So there is yet another twist to this. OPG has requested a new item be added to clarify the definition of "subsidiary" to **exclude** any financing entity related to the Ontario Fair Hydro Plan Act. The OFA has been involved in the developments related to this Act and both Linda and John Kim's group are fine with this and are comfortable with OPG's wording, as am I. I have added what they sent to the amendment for your review (item #5).

Also attached is the original agreement for ease of reference.

Hi all,

Please see latest black-lined draft attached. Linda Smith and I worked together to re-draft the definition of "Base Rate" to ensure that it reflects the operational process. If you are satisfied with this draft I don't need to review further before you send a clean version to OPG.

Thanks,

Hello Sarah N,

Lisa was assisting me with the Amending Agreement 10, for the existing IESO OFA Credit Facility. While Lisa is away, who can we forward this to for review?

Part of the Fair Hydro Plan implementation process, requires reducing the existing credit facility from $975 million, down to $475 million (Amending Agreement 10).
Attached is the draft amending agreement with IESO's first round of comments. I have provided my comments as well for OFA Legal's review. One particular section (Use of Proceeds) requires Electricity Finance's review which I have already forwarded to them for review.

Concurrently IESO is reviewing our draft $2 billion FHP Credit Facility Agreement. I've included the approved directive and underlying OIC. We are expecting to receive comments on that draft in the near future as well. We will eventually require assistance with that as well. I will send a separate emails with the other 9, amending agreements to keep the emails small.

For background purposes I've attached
IESO OFA Amending Agreement 10
Original Credit Facility Agreement
History of IESO OFA Amending Agreements.
IESO Credit Requirements for the 2017 Fair Hydro Plan letter(IESO Request letter) outlining implementation process.
Directive
Underlying OIC

I've accepted your changes and cleaned up the draft. Based on Salman's comment, I've removed the question IESO regarding "medium" term vs short term advances.

As such, I only have one comment box left as an inquiry for IESO.

I cleaned up one typo, and the title on the Grid Note was in the wrong place.

Will – Would you please format the grid note to be on one page and resend to us.

Hi Sarah,

Sorry I assumed Lisa briefed you to include you in the meeting.
We don't plan on discussing changing of any signing authorities. I asked IESO for signing authority related materials. IESO Legal would like to discuss a couple of small items with OFA Legal rather than having a back and forth via drafts. IESO Legal also suggest that the Delegation of Authority may not be necessary. We involved Electricity Finance specifically for the "Use of Proceeds" and directive matters.

I asked for the following updated material in case signing authorities or approval thresholds have changed:

Resolution of the Board of Directors,
Certificate of Incumbency and
Delegation of Authority (IESO Statement of Policy).

Hi William – is the call to discuss the amendment or the signing authorities? I don't need to be at a signing authorities call but should be present if the amendment is to be discussed. Also, shouldn't Gavin and/or Shaji or someone from CEFD be on the call?

Please advise

Thanks

Sarah

Hello Lisa

Below are the items I asked for below. Victor says that the Delegation of Authority may not apply here. I anticipate that IESO is offering to provide a IESO Statement of Policy as an alternative to Delegation of Authority? If so, according to the sample (provided in the past) which provides signing authorities and amounts would be a good alternative to the Delegation of Authority. Can you arrange to speak with Victor and please include me in the invite.

Resolution of the Board of Directors,
Certificate of Incumbency and
Delegation of Authority (IESO Statement of Policy).

Thanks,

Will

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not

sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.

Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.

I am not in the office today so please give me a call at 905-929-1434 this morning or between 2:00 and 5:30 this afternoon - or let me know who to call at what number.

Thanks
Victor

Thank you gentlemen. For your convenience please find the revised amending agreement.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

Please let me know if you require anything further or if you have questions.

Good morning Anthony,

I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.

Thanks,

Will

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:
Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time, **provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2
This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a

total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3
This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.
"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks, Mark. Do you have a copy of the current Lending Policy I could take a look at? The only issue I would have with not including the specific value of the spread is that if it is not sufficiently clear what the applicable spread is based on the Lending Policy, the Interest Act could kick in and deem the interest rate to be 5%. In the other loans I've worked on the spread has been specified, so I haven't flagged it before.

Hi Maryam,

I have accepted your edits on the Directive. Regarding your question about the sentence including the specific spread of 72.5 basis points. We have refrained from including the exact spread as it will change over time as the OFA's Lending Policy is reviewed and amended. The formula for calculating the spread should be sufficient.

Regarding the Term Sheet, I have added additional wording that the applicable Repayment Date will be 3 months after the relevant Advance.

OFA'S ANNUAL BORROWING AND ON-LENDING PLAN
FISCAL YEAR 2018-19

ISSUE

The OFA Lending Policy requires that the Board review the Annual Borrowing and On-Lending Plan and approve the OFA's cost recovery fee and proxy commercial interest rate spreads related to the OFA's on-lending activities to public bodies.

RECOMMENDATION

It is recommended that the OFA Board approve:

1. No change in the cost recovery fee of 2.5 basis points (bps) per annum on new loans to public bodies to cover costs related to upfront loan origination and on-going loan monitoring and administration; and
2. A decrease in the maximum proxy commercial interest rate spread to 70 bps from 75 bps in fiscal 2017-18. The following commercial interest rate spreads are to be assigned to different project risk ratings as:

   "C" Risk Rating: Province's cost of funds + cost recovery fee + 70 bps.
   "B" Risk Rating: Province's cost of funds + cost recovery fee + 50 bps.
   "A" Risk Rating: Province's cost of funds + cost recovery fee + 25 bps.

For those loans with a credit risk rating higher than a "C" Risk Rating, it is recommended that the OFA charge an additional credit spread premium that is reflective of the loan's risk profile.

It is further recommended that the OFA continue to conduct an annual review of both spreads to ensure that there are no significant long-term under/over recoveries that may require corrective action and the proxy commercial spread is reflective of credit market conditions.

COST RECOVERY SPREAD

- The OFA's Lending Policy requires the OFA to recover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.
- The OFA uses a basis points (bps) spread cost recovery methodology. The total costs are divided by the average loan portfolio balance to reach the cost recovery spread in bps.
- The calculation methodology reflects current realities of a mature loan portfolio, and it supports the OFA's recommendation to maintain the cost recovery spread for new loans at 2.5 bps per annum in fiscal 2018-19.
- The Ontario Internal Audit Division (OIAD) reviewed the calculation methodology in March to May 2018 and concluded that the bps spread calculation methodology proposed by the OFA was reasonable and appropriate.
- The cost recovery fee is charged as a bps spread on the loan interest rate and recovered over the term of the loan. It is estimated that 2.5 bps is required to recover the costs of administering OFA loans in 2018-19.

	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19E
Size of Loan Portfolio	$6.0 billion	$6.0 billion	$6.0 billion	$6.0 billion	$5.9 billion	$5.9 billion
Estimated FTEs	10.80	10.39	8.14	9.44	7.89	10.00
Cost Recovery Spread	2.5 bps	2.5 bps	2.5 bps	2.5 bps	2.5 bps	2.5 bps
Total Costs	**$1,623,226**	**$1,443,454**	**$1,151,310**	**$1,414,570**	**$1,222,493**	**$1,700,837**
Cost Recovery Revenue	**$1,875,800**	**$1,937,069**	**$1,921,531**	**$1,906,227**	**$1,853,144**	**$1,857,547**
Cumulative Over/(Under) Recoveries	**($2,451,750)**	**($1,958,134)**	**($1,187,913)**	**($696,256)**	**($65,605)**	**$91,104**

- On a cumulative basis, the OFA is projected to begin being in an over-recovered position in 2018-19. The under-recovery due to the start-up costs and legacy of no recoveries at the inception of the on-lending program is projected to be fully offset by annual over-recoveries in the past six years resulting from the higher cost recovery spread of 5 bps that was charged from 2007-08 to 2009-10 and 3 bps in 2010-11.
- Although the OFA took corrective action to reduce the cost recovery spread to 2.5 bps in 2011-12, the annual over-recovery will persist until the loans that were charged 5 bps and 3 bps are fully paid off in about fifteen to eighteen years.
- The revenues have remained relatively constant since the size of the loan portfolio has remained relatively stable. Over the next few years, the size of the loan portfolio is expected to slowly decrease since the school board loan program has ended with no more new loans to be issued. Total new loan issues may be surpassed by principal repayments on existing loans.
- The total costs for 2017-18 decreased from a year earlier mainly due to the efficiency of the newly developed OFA Loan Management System which allowed for the reduction of FTEs required in managing the OFA loan program.
- The total costs for 2018-19 are expected to increase from the previous year due to anticipated new complex public body loan programs such as Ministry of Advanced Education and Skills Development retro-fit energy saving loan program for universities and colleges and loans for hospitals.

PROXY COMMERCIAL SPREAD

- The OFA Lending Policy requires the OFA to charge a proxy commercial interest rate spread for projects that are deemed commercial in nature, in order to better reflect the underlying risk of such projects. The spread is added to the Province's costs of funds and cost recovery fee and recovered over the term of the loan.
- The proposed 70 bps spread is arrived at based on a methodology used in the past two years, which analyzes various sources of long-term bonds with similar commercial risk profiles and constructs for either "A/A-" or "A/BBB" rated long-term bond indices.
- An average interest rate spread of the three indices over the Province's 20-year cost of funds is calculated and it is further reduced by 10 bps to convert the long-term interest rate spread to a medium-term interest rate spread as the average duration of OFA loans is approximately 10 years.
- With the appropriate interest rate spreads representing risks embedded in the loans, the borrowers should be more motivated to pay back their loans in a timely manner.
- As recommended, the maximum medium term interest rate spread is 70 bps versus 75 bps in F2017-18.
- In fiscal 2017-18, the total OFA retained interest from the proxy commercial spreads was $2,632,771, an 80% increase from a year earlier resulting from a relatively higher average outstanding amount of agency loans throughout the year. The agency loans are subjected to

the proxy commercial spread charge as opposed to the school board loans for which only an administration fee is charged over the province's cost of borrowing.

Fiscal Year	Composite Medium-term Spread Over Province's Cost of Funds	Recommended Maximum Spread	OFA Retained Interest
2018-19	72 bps	70 bps (recommended)	N/A
2017-18	75 bps	75 bps	$2,632,771
2016-17	65 bps	65 bps	$1,452,707
2015-16	70 bps	70 bps	$1,249,255
2014-15	45 bps	45 bps	$1,303,898
2013-14	54 bps	55 bps	$1,288,346
2012-13	55 bps	55 bps	$1,132,813
2011-12	52 bps	50 bps	$832,391
2010-11	50 bps	50 bps	$540,818

- Loans are deemed to be commercial in nature when generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources. The OFA evaluates the project risk of these loans in order to establish a proxy commercial rate of interest. Two risk measures are used to evaluate the risk:

  1. The percentage of total project revenue attributable to government sources; and
  2. The average Debt Service Coverage Ratio (DSCR) of the project, where DSCR is defined as the number of times the average annual free cash flow generated over the term of the loan would cover the principal and interest payments of the associated debt.

- For a given "commercial" loan, each of these two risk measures are evaluated and assigned an overall project risk ranking as follows:

PERCENTAGE OF REVENUE FROM GOVERNMENT SOURCES

AVERAGE DSCR	LESS THAN 30%	GREATER THAN 30%
LESS THAN 1.35X	"C" Rating	"B" Rating
GREATER THAN 1.35X	"B" Rating	"A" Rating

Where: "C" Risk Rating = Province's cost of funds + cost recovery fee + 70 bps.
"B" Risk Rating = Province's cost of funds + cost recovery fee + 50 bps.
"A" Risk Rating = Province's cost of funds + cost recovery fee + 25 bps.

4. TRANSACTIONS WITH PUBLIC BODIES

The OFA provides financing to various public bodies on direction from the Province. As the OFA is directed by the Province to make these loans in furtherance of stated Provincial initiatives, and these loans are included in the Province's consolidated financial statements, these transactions are not reflected in these financial statements.

Funds for these loans are advanced to the OFA by the Province under credit facilities aggregating $18.9 billion expiring from 2036 to 2044. Principal repayments received from public bodies by the OFA are forwarded to the Province. The interest rates charged to public bodies is generally slightly higher than the rate charged by the Province on the advances to fund the loans ("the spread").

The OFA will generally retain a portion of the spread in order to recover the administrative costs of managing these loans. The spread retained by the OFA includes a cost recovery component and, where applicable, a proxy commercial interest rate spread. The inclusion of the proxy commercial spread results in an interest rate equivalent to what would be charged on the loan by a commercial lender and reflects the relative risk associated with the loan. During the year ended March 31, 2018, $4.1 million in interest rate spread revenue was recognized (2017 – $3.7 million) of which $1.5 million is receivable at year end (2017 –$2.1 million).

Loans to Public Bodies by the Province:

As at March 31, 2018, the principal amounts receivable by the OFA on behalf of the Province represent long term and short term loans. Interest accrued on the outstanding loans listed below amounted to $91.2 million (2017 – $93.9 million), of which $90.1 million (2017 – $92.7 million) will be flowed to the Province.

These are related party transactions, with the exception of those with the Corporation of the City of Windsor and the University of Ontario Institute of Technology.

Colleges of Applied Art and Technologies have been loaned $328.9 million (2017 – $320.7 million) for various campus projects including new and expanded student residences, computer equipment, parking facilities, and an energy saving capital project. These loans bear interest ranging from 1.32 per cent to 5.75 per cent and mature from 2018 to 2042.

The Corporation of the City of Windsor is a municipality within the meaning of the *Municipal Act*. The financing provided is for the acquisition, design and construction of the Windsor Justice Facility consisting of a provincial division courthouse and city police headquarters. This is a 20 year loan bearing interest at 6.41 per cent and maturing in March 2021. The outstanding balance is $8.2 million (2017 – $8.2 million).

The Independent Electricity System Operator (IESO), a corporation established pursuant to Part II of the *Electricity Act*, 1998, had been provided a maximum $975 million credit facility to primarily fund the Regulated Price Plan variance account. Under the amended agreement between OFA and IESO on November 6, 2017, this credit facility has been reduced to a maximum of $475 million. This credit facility has been extended until November 30, 2019. As at March 31, 2018, the IESO has drawn $13.5 million from this facility for Rural or Remote Electricity Rate Protection (RRRP) variance account bearing interest rate at 1.52 per cent. In addition, under a new agreement entered into between the OFA and the IESO on November 6, 2017, the IESO has been provided a maximum $2 billion credit facility for the purpose of supporting the IESO's role in the implementation and administration of the *Ontario Fair Hydro Act*, 2017. This credit facility expires on September 23, 2022. As at March 31, 2018, the IESO has drawn $0.3 million from this facility bearing interest rate at 1.52 per cent.

The Niagara Parks Commission, a Crown agency of the Province, operating under *Niagara Parks Act*, 1990, has been provided a loan of $4.2 million (2017 – $4.6 million) to finance additional capital costs incurred for the redevelopment of phase I of Table Rock House in Queen Victoria Park, Niagara Falls. The loan bears interest at 5.07 per cent and matures in April 2027.

The Ontario Cannabis Retail Corporation (OCRC) is a Crown agency of the Porvince, operating under *Ontario Cannabis Retail Corporation Act, 2017*, has been provided a loan facility of $150 million for the purpose of funding the set-up and operating costs. As of March 31, 2018 OCRC has drawn $25 million from this facility bearing interest rate of 1.79%.

The Ontario Lottery and Gaming Corporation (OLG) is a Crown agency of the Province under the *Ontario Lottery and Gaming Corporation Act*, 1999, and has been provided loans totaling $32.6 million (2017 – $33.8 million) to fund several projects, bearing interest at 2.65 per cent and maturing from April 2018 to September 2022.

The Ontario Northland Transportation Commission (ONTC) is a Crown agency of the Province under the *Ontario Northland Transportation Commission Act, 1990*. ONTC's total borrowing of $2.2 million (2017 – $2.6 million) matures from 2020 to 2031 and bears interest ranging from 4.90 to 5.22 per cent.

Ottawa Convention Centre Corporation (OCC), a Crown agency of the Province governed under the *Ottawa Convention Centre Corporation Act, 1988*, was provided a 25 year loan of $40.0 million in 2011 [CONFIRM], bearing annual interest at 4.67 per cent with a maturity in September 2036. Pursuant to a directive signed by the Minister of Finance on November 2, 2012, the Province provided OCC with a repayment deferral of principal and interest up to five years, with interest to continue to accrue over the five year deferral period.. In fiscal 2016-17, the Province had recorded an allowance for doubtful accounts of $47.1 million for the principal and capitalized interest. Subsequently, in fiscal 2017-18, the OFA provided an allowance for doubtful accounts of $0.9 million for its share of the capitalized interest. Two settlement agreements became effective as at March 31, 2018, in respect to OCC's outstanding principal and accrued interest of $48.0 million. One agreement signed by the Minister of Finance, releases the OFA from all of its obligations (principal and interest) relating to advances made to the OFA, in consideration of the other release agreement between the OFA, OCC and the Ministry Tourism, Culture and Sport. The latter agreement releases OCC for the full amount of any outstanding principal and interest in consideration of the OCC agreeing to make payments on or before March 31 in each fiscal year to the OFA in the amount of at least $1 million annually in perpetuity, with the first payment to be made by March 31, 2019. The agreement also provides for a potential annual sweep of OCC cash surplus to operational requirements. If the OCC is not in a position to make full or partial payment, the Ministry of Tourism, Culture and Sport will make the payment to the OFA on behalf of the OCC.

The Royal Ontario Museum (ROM) is a Crown agency of the Province under a Special Act of the Ontario Legislature and has borrowed $23.7 million (2017 – $26.0 million) bearing floating interest rate currently at 3.24 per cent. All outstanding loans are scheduled to be repaid by March 2027.

School boards have been provided loans under various programs beginning in 2006. During the year ended March 31, 2018, school boards have made semi-annual blended payments of principal and interest, leaving the total outstanding amount at $5,254.5 million

(2017 – $5,473.0 million). These loans bear interest ranging from 2.43 to 5.38 per cent and mature from 2019 to 2042. The School Board loan program has been gradually replaced by a Ministry of Education capital grant facility model. Since April 1, 2017, this new funding model fully replaced the need for capital loans from the OFA. School Boards will however, continue to make interest and principal payments until all outstanding balances are paid off.

The University of Ontario Institute of Technology (UOIT) is a corporation established under the *University of Ontario Institute of Technology Act, 2002.* The Province provided a five year term loan which matured in October 2017 and was repaid in full.

Hi Lisa,

I don't have any comments on the most recent version of the briefing note. Because there is some funding going to the IESO, I thought that the recital about this point in the directive should be modified a bit – maybe it should say no operational funding since it seems there are some transfer payments going there in relation to some electricity programs?

I think that in the new 4th paragraph, it should be “for”, not “from”.

Maybe it should say something like: Currently there is no money appropriated by the Legislature OR the Ministry of Energy has advised that there is no money appropriated and not expected to be… I am just trying to get at the source of certainty of that information which may be better explained in the accompanying briefing note.

OFA -- IESO CREDIT FACILITIESMINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

The Independent Electricity System Operator (IESO) requested a revolving credit facility ("the credit facility") in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

On June 29, 2017, the OFA received a Lending Directive from the Minister of Finance to accommodate the IESO's request.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt from the Intercept Provision both the new $2 billion credit facility to support the IESO's role in the Fair Hydro Plan and the reduced $475 million credit facility.

- Note: The Intercept Provision under the OFA's Lending Policy for unsecured lending to a public body requires that, unless exempted by the Minister of Finance [or Treasury Board or Cabinet], the OFA put in place a provision whereby the OFA is entitled to deduct amounts equal to any amounts the public body fails to pay to the OFA under the loan, from money appropriated by the Legislature for payment to the public body.

RECOMMENDATION

- OFA staff recommend the Minister sign the Intercept Exemption Directive allowing the OFA to provide these credit facilities to the IESO without an Intercept provision under the OFA Lending Policy.

CONSIDERATIONS

- This will enable the IESO fulfil commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the Fair Hydro Plan.

- Under the OFA Lending Policy, the following is provided for:

  "Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan."

- The intercept in the OFA Lending Policy includes the following:
  - The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA

- An Intercept Provision would have no practical usefulness in the case of the IESO as it receives no operational funding from the Province. While the IESO settlements system for the

electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers. Intercepting these program specific payments, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment of the intent of the OFA's Lending Policy.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the two revolving credit facilities to the IESO [per the Minister's Directive signed on June 29, 2017] from the Intercept provision under the OFA Lending Policy.

- [The Intercept Exemption Directive would also exempt any lending to the IESO from the OFA, previously authorized and/or subsequently amended, to be exempt from the Intercept Provision.]

Commented [SK81]: This is to ensure both the 2B and 475M credit facilities are covered.

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of not having an intercept provision.]

Commented [RK2]: What about saying that as IESO is a consolidated entity, and if there were any amounts to intercept, there would be no incremental fiscal impact of not having an intercept provision?

BACKGROUND

The IESO

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

Hi all,

Thanks for the meeting today. Attached is a clean version of the directive. I don't we decided on whether we wanted the OIC mentioned in the directive, so I removed it for now since Ken was also of the view it was really not needed for this. Happy to add it back in if needed as I'm sure we may have at least another draft once we share this a little broader to senior management.

I also changed the font and made it two pages so that the signature page fits better.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###, pursuant to which the Minister of Finance is authorized to lend a maximum of $2 billion.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

Hello Victor,

As discussed, the extension date of the existing $475 million Revolving Credit Facility to align with the FHP Revolving Credit Facility will be deferred to a future amended and restated agreement. We have included minor edits. Please review and comment.

Thanks,

Hi Will – we have reviewed OFA's draft of Amendment #10 and only have a very few comments, which I have inserted in the attached for your review/consideration, mostly just addressing drafting inconsistencies and the like.

The one substantive proposal we would make is that the termination date for this $475MM revolving loan be extended beyond the current end-date of December 31, 2019 (as stipulated in Amending Agreement #9) to be aligned with the end-date of the FHP Credit Agreement which is September 30 2022. If agreed, it would require minor amendments to sections 2.4 and 5.1(b) of the Agreement. FYI, such a change would be within the scope of the authorization provided by IESO's board resolution.

Let us know your thoughts on this.
Regards,
Victor

Hello Anthony and Victor,

The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.

Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).

Please review and comment.

Thanks,

Will

- Elect to continue all or a portion of the principal and interest .
- The advancement period of 28 days up to 95 days will remain the same.
- Section 3.3 (2) new advances will change from 1 business day to two business days prior notice because advancements under the Borrowing Notice allow for two business days' notice.

Hi,

Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).

It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of September, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under Part II of the *Electricity Act, 1998* ("**IESO**")

Commented [VB1]: NOTE – Amending Agreement#9 added a definition of "IESO" to the Agreement – this change is just to be consistent with that definition.

-and-

(together, the "Parties")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator" **("IESO")**, and the obligations of the OPA became obligations of the IESO;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9"), the OPA or IESO (as applicable) and the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

AND WHEREAS the Parties have now agreed to: (i) at the request of the IESO, decrease the total principal amount available under the Credit Agreement from $975,000,000 to a total principal amount of up to $475,000,000; (ii) amend the use of proceeds under the Credit Agreement; and (iii) amend the Form of Election Notice and related provisions under the Credit Agreement;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by the Parties.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereafter set out, the Parties agree that:

1. The definition of "Advances" in Section 1.1 of the Credit Agreement is deleted and replaced by the following:

"**Advances**" means advances made by the OFA to the IESO under Article 3 and "Advance" means any one of such advances, and in the case of an election by the IESO under Section 3.3, includes a "Continued Advance", as defined in Section 3.3(1), as applicable."

2. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

3. The following definitions are added to Section 1.1 of the Agreement

   "**Continued Advance"** has the meaning specified in Section 3.3(1).

   "**Current Repayment Date**" has the meaning specified in Section 3.3(2).

   "**New Repayment Date**" has the meaning specified in Section 3.3(2).

Commented [VB2]: NOTE – consider changing ultimate repayment date to later than December 31, 2019 to align with FHP dates.

4. Section 2.3 "Use of Proceeds" of the Credit Agreement is deleted in its entirety and replaced by the following:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, provided that Advances may be used only for liquidity purposes."

5. Section 3.2 "Procedures for Advances" of the Credit Agreement is deleted in its entirety and replaced by the following:

   "(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be no earlier than 28 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance in accordance with Section 2.3. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

   (2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3. The IESO authorizes the OFA to record on the grid promissory note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement."

6. Section 3.3 "Elections Regarding Advances" of the Credit Agreement is deleted in its entirety and replaced by the following:

"(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 28 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid ~~or re-paid~~ by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 28 days and not later than 95 days after the Current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Commented [VB4]: The term "Note" is not defined in the Agreement as far as I can tell, having checked all amendments. It occurs 6 times on this page. In the 2nd para, the term "grid promissory note" is also used and means the same thing. These should be consistent. "Note" should be defined, or we could use "Grid Note" throughout, but again it's preferable for it to be defined in some manner.

Commented [VB5]: The original 2005 agreement is not defined as or entitled "Credit Agreement", so this occurrence should be lower case.

Hello Anthony and Victor,
The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.
Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).
Please review and comment.
Thanks,
Will

Hello Anthony,

We have reviewed the grid note you provided and your observation is correct that you are provided with one line item with the consolidated total amount compared to the distinct separate the advances we originally understood.

Yes, we have access to a version of the grid note that separates the advances that is not provided to you, which caused the confusion.

Does the revised Section 3.3(2) and Schedule 2 (Form of Election Notice) still functional to you?

Thanks,

Hi,

Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).
It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.
Victor and I are reviewing today's draft.
Regards.

Hi William,
I have updated the draft Amending Agreement No. 10 including Form of Election Notice to allow for roll-over of interest per your instructions below, by copying the content of the relevant sections of the draft FHP Agreement.
I also:
- changed the date to September
- added s. 3.3(4) from the FHP Agreement, which addresses calculation of interest on a Continued Advance:

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

If you have any comments or would like to discuss, please let me know.
As noted below, if you are forwarding this to the IESO, please let them know the reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).
(I am not sure what naming convention has been used for these files - I just added "Aug 31 markup" to the previous filename.)
Thanks,
Caroline

Hello Caroline,
I have spoken to Anthony and he has requested to update the existing credit facility agreement ($975 million down to $475 million) to have the same option to roll-over principle and interest. Risa Thau had no concerns from an accounting and operational standpoint. Mike Manning and James Devine also had no concerns from a Capital Markets perspective. Please include the language in the Amending Agreement No. 10 to reflect this.
I have updated the Grid note be appear the same as the FHP Grid Note. I have reviewed you're changes to the Amending Agreement No. 10 and have no other comments.

Hello Victor,

As discussed, the extension date of the existing $475 million Revolving Credit Facility to align with the FHP Revolving Credit Facility will be deferred to a future amended and restated agreement. We have included minor edits. Please review and comment.

Thanks,

Hi Will – we have reviewed OFA's draft of Amendment #10 and only have a very few comments, which I have inserted in the attached for your review/consideration, mostly just addressing drafting inconsistencies and the like.

The one substantive proposal we would make is that the termination date for this $475MM revolving loan be extended beyond the current end-date of December 31, 2019 (as stipulated in Amending Agreement #9) to be aligned with the end-date of the FHP Credit Agreement which is September 30 2022. If agreed, it would require minor amendments to sections 2.4 and 5.1(b) of the Agreement. FYI, such a change would be within the scope of the authorization provided by IESO's board resolution.

Let us know your thoughts on this.
Regards,
Victor

Hello Anthony and Victor,

The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.

Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).

Please review and comment.

Thanks,

Will

I have been informed by a colleague that we are instructed by the deputy minister for us to pursue our minister to sign the directive for early next week.

As per Anthony's request, we making changes to the Amending Agreement No. 10 to allow IESO:

- Elect to continue all or a portion of the principal and interest .
- The advancement period of 28 days up to 95 days will remain the same.
- Section 3.3 (2) new advances will change from 1 business day to two business days prior notice because advancements under the Borrowing Notice allow for two business days' notice.

Sorry for the inconvenience.

Hi,

Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).

It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

Hi Lisa,

I just got off the phone with Victor and he is fine with no extension to the agreement for now and agreed with the restated agreement at a later date.

Thanks,

Hello Lisa,

I have spoken with Mike Manning and presented the option of extending the existing credit facility agreement to align with the same maturity as the FHP credit facility. Conceptually Mike agrees with aligning the maturities of the two credit facilities, however, he feels that we are “out-of-time” and to defer the extension for the next agreement update.

Shajee and I have already spoken. We should then, amend and restate the agreement at a later date.

Thanks,

Will

Hi Will,

Just to clarify, I didn't say the extension wasn't realistic. In my e-mail below I indicated that a directive will be necessary if you decide, as a business decision, to extend the expiration date of the revolving credit facility agreement. Happy to discuss further.

Hi Will and Shajee,

While it is a business/policy decision whether to extend the expiry date of the revolving credit facility agreement as per the IESO's request, please note that the current expiry date is set pursuant to the Ministerial directive dated November 28 ,2016. Therefore it will be necessary to obtain a new ministerial directive to amend the expiry date. It is possible to add this to the new directive which has not yet been signed by the Minister; you will also need to amend the accompanying briefing note.

Please advise how you would like to proceed regarding the directive. I'll provide additional

comments on the IESO's edits to the latest amending agreement tomorrow (they are relatively minor).

Shajee/John: It will be necessary to amend the briefing note in any event as I believe the signature line needs to be amended to reference the Minister (and not his delegate).

Thank you,

Lisa

Hello Shajee,

As part of the existing OFA IESO Revolving Credit Facility Amending Agreement No. 10 to reduce to $475 million (from $975 million), IESO has requested to extend the agreement expiry date from December 31, 2019 to September 30, 2022 to align it with the new FHP $2 billion Credit Facility. From an OEFC perspective, do you have any concerns regarding this? FYI subject to the new directive being signed we anticipate that the Amending Agreement No. 10 and FHP Credit Facility to be signed by Friday.

Hi Will – we have reviewed OFA's draft of Amendment #10 and only have a very few comments, which I have inserted in the attached for your review/consideration, mostly just addressing drafting inconsistencies and the like.

The one substantive proposal we would make is that the termination date for this $475MM revolving loan be extended beyond the current end-date of December 31, 2019 (as stipulated in Amending Agreement #9) to be aligned with the end-date of the FHP Credit Agreement which is September 30 2022. If agreed, it would require minor amendments to sections 2.4 and 5.1(b) of the Agreement. FYI, such a change would be within the scope of the authorization provided by IESO's board resolution.

Let us know your thoughts on this.

Victor

Hello Anthony and Victor,

The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.

Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

(4) The calculation of interest on a Continued Advance shall be determined in the same

manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).

Please review and comment.

Thanks,

Will

I have been informed by a colleague that we are instructed by the deputy minister for us to pursue our minister to sign the directive for early next week.

As per Anthony's request, we making changes to the Amending Agreement No. 10 to allow IESO:

- Elect to continue all or a portion of the principal and interest .
- The advancement period of 28 days up to 95 days will remain the same.
- Section 3.3 (2) new advances will change from 1 business day to two business days prior notice because advancements under the Borrowing Notice allow for two business days' notice.

Subject: Draft Amending Agreement No. 10

Hello Anthony and Victor,

The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.

Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).

Please review and comment.

Thanks,

Will

Hello gentleman,

I have been informed by a colleague that we are instructed by the deputy minister for us to pursue our minister to sign the directive for early next week.

As per Anthony's request, we making changes to the Amending Agreement No. 10 to allow IESO:

- Elect to continue all or a portion of the principal and interest .
- The advancement period of 28 days up to 95 days will remain the same.
- Section 3.3 (2) new advances will change from 1 business day to two business days prior notice because advancements under the Borrowing Notice allow for two business days' notice.

Hi Will,

Just to clarify, I didn't say the extension wasn't realistic. In my e-mail below I indicated that a directive will be necessary if you decide, as a business decision, to extend the expiration date of the revolving credit facility agreement. Happy to discuss further.

Hi Will and Shajee,

While it is a business/policy decision whether to extend the expiry date of the revolving credit facility agreement as per the IESO's request, please note that the current expiry date is set pursuant to the Ministerial directive dated November 28 ,2016. Therefore it will be necessary to obtain a new ministerial directive to amend the expiry date. It is possible to add this to the new directive which has not yet been signed by the Minister; you will also need to amend the accompanying briefing note.

Please advise how you would like to proceed regarding the directive. I'll provide additional comments on the IESO's edits to the latest amending agreement tomorrow (they are relatively minor).

Shajee/John: It will be necessary to amend the briefing note in any event as I believe the signature line needs to be amended to reference the Minister (and not his delegate).

Thank you,

Lisa

Hello Shajee,

As part of the existing OFA IESO Revolving Credit Facility Amending Agreement No. 10 to reduce to $475 million (from $975 million), IESO has requested to extend the agreement expiry date from December 31, 2019 to September 30, 2022 to align it with the new FHP $2 billion Credit Facility. From an OEFC perspective, do you have any concerns regarding this? FYI subject to the new directive being signed we anticipate that the Amending Agreement No. 10 and FHP Credit Facility to be signed by Friday.

Hi Will – we have reviewed OFA's draft of Amendment #10 and only have a very few comments, which I have inserted in the attached for your review/consideration, mostly just addressing drafting inconsistencies and the like.

The one substantive proposal we would make is that the termination date for this $475MM revolving loan be extended beyond the current end-date of December 31, 2019 (as stipulated in Amending Agreement #9) to be aligned with the end-date of the FHP Credit Agreement which is September 30 2022. If agreed, it would require minor amendments to sections 2.4 and 5.1(b) of the Agreement. FYI, such a change would be within the scope of the authorization provided by IESO's board resolution.

Let us know your thoughts on this.

Victor

Hello Victor,

As discussed, the extension date of the existing $475 million Revolving Credit Facility to align with the FHP Revolving Credit Facility will be deferred to a future amended and restated agreement. We have included minor edits. Please review and comment.

Thanks,

Will

Hi Will – we have reviewed OFA's draft of Amendment #10 and only have a very few comments, which I have inserted in the attached for your review/consideration, mostly just addressing drafting inconsistencies and the like.

The one substantive proposal we would make is that the termination date for this $475MM revolving loan be extended beyond the current end-date of December 31, 2019 (as stipulated in Amending Agreement #9) to be aligned with the end-date of the FHP Credit Agreement which is

September 30 2022. If agreed, it would require minor amendments to sections 2.4 and 5.1(b) of the Agreement. FYI, such a change would be within the scope of the authorization provided by IESO's board resolution.

Let us know your thoughts on this.
Regards,
Victor

Subject: Draft Amending Agreement No. 10

Hello Anthony and Victor,

The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.

Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).

Please review and comment.

Thanks,

Will

Hello gentleman,

I have been informed by a colleague that we are instructed by the deputy minister for us to pursue our minister to sign the directive for early next week.

As per Anthony's request, we making changes to the Amending Agreement No. 10 to allow IESO:

- Elect to continue all or a portion of the principal and interest .
- The advancement period of 28 days up to 95 days will remain the same.
- Section 3.3 (2) new advances will change from 1 business day to two business days prior notice because advancements under the Borrowing Notice allow for two business days' notice.

Sorry for the inconvenience.

Hello Anthony,

We have reviewed the grid note you provided and your observation is correct that you are provided with one line item with the consolidated total amount compared to the distinct separate the advances we originally understood.

Yes, we have access to a version of the grid note that separates the advances that is not provided to you, which caused the confusion.

Does the revised Section 3.3(2) and Schedule 2 (Form of Election Notice) still functional to you?

Thanks,

Hi,

Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).

It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

Regards.

2. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

3. The following definitions are added to Section 1.1 of the Agreement

5. Section 3.2 "Procedures for Advances" of the Credit Agreement is deleted in its entirety and replaced by the following:

   "(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Commented [VB1]: See comment on similar FHP language and make consistent between documents.

Commented [VB2]: Same as "Advances Outstanding"?? Or is this different?

Such Borrowing Notice shall be given substantially in the form of Schedule 2.

   (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Hi John

Based on a conversation with Gadi, any solution that continues with the intercept provision will most likely be unacceptable from OPG's perspective. They are concerned that despite the intercept being toothless on a practical basis it may send the wrong message to DBRS as it assess the credit-worthiness of the OFHP debt.

It appears that the only solution is have the Minister sign an exemption and we should focus on getting that in place.

Thanks

Hi Lisa and everyone,

Along with comments from Ken over the weekend, just circling everyone in on the latest information from TBS. Pls. advise if your assessment changes but to me, TBS appears to be advising that Green ON Fund is not IESO's operation expense/allocation but allocation from MOECC to Green ON Fund.

Also, IESO staff have thus far signalled positively on the letter agreement. We are potentially looking about 2 days to conclude the process.

One caveat is that OPG is requesting that the trust be given first priority/security over all IESO assets. While the issue is still being discussed, if this is to proceed, the IESO will have to amend its current facilities. I would consider this almost as a separate issue in that if the scenario plays out, then we would need to look at and potentially open up all existing facilities.

Sorry for the delay, had to dig in the email archives.

There is no IESO allocation in Printed Estimates. There is an OREC transfer payment. In the 17-18 PRRT workbook for OREC is the following:

- Electricity utilities are reimbursed by submitting and receiving claims which are netted against their other monthly transactions from the IESO, and the IESO submits and receives one monthly amount from the Ontario Financing Authority on behalf of the Ministry of Energy – this process is streamlined and leverages an already existing reimbursement process, thereby minimizing costs.

The second attachment, email, contains the consolidation worksheet from OPCD. For IESO, I don't see any Transfer Payment flows in from the Province.

Sorry for the delay, had to dig in the email archives.

There is no IESO allocation in Printed Estimates. There is an OREC transfer payment. In the 17-18 PRRT workbook for OREC is the following:

- Electricity utilities are reimbursed by submitting and receiving claims which are netted against their other monthly transactions from the IESO, and the IESO submits and receives one monthly amount from the Ontario Financing Authority on behalf of the Ministry of Energy – this process is streamlined and leverages an already existing reimbursement process, thereby minimizing costs.

The second attachment, email, contains the consolidation worksheet from OPCD. For IESO, I don't see any Transfer Payment flows in from the Province.

Hi Ken,

From the start, the exemption had been the advocated path. I will keep this interception option open until the decision is made to pursue Minister's directive or when we have that directive signed. We can always walk away from this option.

Thanks,

Hi John

Based on a conversation with Gadi, any solution that continues with the intercept provision will most likely be unacceptable from OPG's perspective. They are concerned that despite the intercept being toothless on a practical basis it may send the wrong message to DBRS as it assess the credit-worthiness of the OFHP debt.

It appears that the only solution is have the Minister sign an exemption and we should focus on getting that in place.

Thanks

Hi Lisa and everyone,

Along with comments from Ken over the weekend, just circling everyone in on the latest information from TBS. Pls. advise if your assessment changes but to me, TBS appears to be advising that Green ON Fund is not IESO's operation expense/allocation but allocation from MOECC to Green ON Fund.

Also, IESO staff have thus far signalled positively on the letter agreement. We are potentially looking about 2 days to conclude the process.

One caveat is that OPG is requesting that the trust be given first priority/security over all IESO assets. While the issue is still being discussed, if this is to proceed, the IESO will have to amend its current facilities. I would consider this almost as a separate issue in that if the scenario plays out, then we would need to look at and potentially open up all existing facilities.

John

Hi Ken,

From the start, the exemption had been the advocated path. I will keep this interception option open until the decision is made to pursue Minister's directive or when we have that directive signed. We can always walk away from this option.

Thanks,

John

Hi Lisa and everyone,

Along with comments from Ken over the weekend, just circling everyone in on the latest information from TBS. Pls. advise if your assessment changes but to me, TBS appears to be advising that Green ON Fund is not IESO's operation expense/allocation but allocation from MOECC to Green ON Fund.

Also, IESO staff have thus far signalled positively on the letter agreement. We are potentially looking about 2 days to conclude the process.

One caveat is that OPG is requesting that the trust be given first priority/security over all IESO assets. While the issue is still being discussed, if this is to proceed, the IESO will have to amend its current facilities. I would consider this almost as a separate issue in that if the scenario plays out, then we would need to look at and potentially open up all existing facilities.

Hello Victor,

Anthony and I discussed that after the borrowing notice and election notices are actioned, OFA will produce the grid notes to evidence payment and advancements. IESO will then send the new $475MM prom note to OFA. Once received, OFA will send the $975MM cancelled prom note to IESO.

Attached are the grid notes for you reference. Please send the prom note addressed to me below.

Best regards,

Hi John – The directive I'm referring to would be the second one, the directive to amend the existing facilities once the intercept was in place, should that be requested. That was Gadi's view, I think on the basis that it would be removing something at OPG's request after the intercept was already in place, rather than at first instance, and if we couldn't manage to obtain a directive it would lead to OPG having to borrow at a lower credit rating.

I think Anna has a better handle on the various dynamics at play between the various players which were underlying Gadi's concern. I noted these were issues better addressed by CEFD, just wanted you to be aware this had come up today as I expect this will move fast (hopefully) in the coming days.

Hi Sarah,

The second paragraph action was taken, re: required approvals for amending the facility or facilities in place.

As for the third paragraph, you mention that obtaining a directive later will be more difficult than it would now. Which directive are you referring to? Are you referring to 1. The directive to exempt the intercept provision or 2. The directive to amend the existing facility or possibly facilities (if we have the FHP one executed in the next few days [TBD]). If both facilities are put in place and the situation calls for an amendment (#2) to grant OPG priority of payments/assets, why would there be greater difficulty on reacting to a scenario that we do not have any certainty to as of this point in time.

Thanks,

John

Hi John and Francisco –

By way of heads up, I just had my weekly with Gadi and he asked me about the FHP. I noted the time pressures and that both policy options were still on the table (directive/intercept) but that correspondence from this morning indicated IESO may be getting ready to include intercept as comments had been received on the tri-partite letter this morning.

We also discussed at a high level the OPG security request in respect of IESO assets, and I summarized our discussion from Friday and my advice to communicate to IESO (which advice was followed) that OFA can't make any representations that the agreements could or would be amended in the future, absent required approvals, should IESO wish to remove the intercept at a later date.

Gadi was somewhat concerned that if this option is pursued the OPG security issue should be resolved in advance of concluding the loan agreement with the IESO on the basis that in his view obtaining a directive later will be more difficult than it would be now. I am not sure this is possible given timing and I know we had canvassed this at our meeting last week so wanted to flag the concern Gadi raised for you so that you can address it as this moves through the decision making process.

Please let me know if you have any questions.

Just wanted you to be aware. This is not inconsistent with what I said on Friday at the meeting but ultimately this needs to move forward in short order and this is a policy decision as to how. I expect it will move forward with the intercept included, as John has rightly flagged in a subsequent email that the security issue is one for OPG and IESO to work out and we can't guess where that will land.

We also discussed at a high level the OPG security request in respect of IESO assets, and I summarized our discussion from Friday and my advice to communicate to IESO (which advice was followed) that OFA can't make any representations that the agreements could or would be amended in the future, absent required approvals, should IESO wish to remove the intercept at a later date.

Gadi was somewhat concerned that if this option is pursued the OPG security issue should be resolved in advance of concluding the loan agreement with the IESO on the basis that in his view obtaining a directive later will be more difficult than it would be now. I am not sure this is possible given timing and I know we had canvassed this at our meeting last week so wanted to flag the concern Gadi raised for you so that you can address it as this moves through the decision making process.

Please let me know if you have any questions.

This is a business matter. I don't think you should be sending out checklists externally that include any legal matters.

Good morning Lisa,

Anthony has notified us of his intentions on Nov 21, to move the entire balance of $840mm + new advance, to the $2B credit facility. I have put together a timeline/checklist based on the aforementioned scenario in an effort to get everyone on the same page. You will notice that the FHP credit facility is set-up first to be available when the transfer is eventually ready to be done. The Amending Agreement No. 10 will be signed and reduced closer to the time of the transfer.

Please find the attached checklist outlining the order of events. I have also created a separate internal checklist. Please review both checklists so I may share the **EXTERNAL** checklist it with Anthony.

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued

Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,
Jean-Francois

Hi JF,

I'm in the process of working on the latest draft and I'm waiting to speak to Victor Buza regarding a couple of drafting matters. In the meantime, do you want to send me the new definitions or should I send you the latest black-line (still in progress) and you can incorporate and send back to me?

Also, it is no longer necessary to copy Sarah N. on these e-mails. I will keep her in the loop as necessary.

Thanks,

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,
Jean-Francois

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the

possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor

Hi Lisa,

Thanks for your email. Would it be possible to raise this item with Victor when you speak with him? We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Many thanks,
JF

Hi JF,

I'm in the process of working on the latest draft and I'm waiting to speak to Victor Buza regarding a couple of drafting matters. In the meantime, do you want to send me the new definitions or should I send you the latest black-line (still in progress) and you can incorporate and send back to me?

Also, it is no longer necessary to copy Sarah N. on these e-mails. I will keep her in the loop as necessary.

Thanks,

Lisa

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,
Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding

requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Hi Lisa,

Thanks for your email. Would it be possible to raise this item with Victor when you speak with him? We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Many thanks,
JF

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor

Hi Bruno,

The e-mail chain below, and esp. the e-mail from Victor Buza (IESO) may shed some light on your questions, specifically with respect to the "permitted liens" and the negative pledge. Please review and then let me know if you would like to discuss further.

Thank you,

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Hi JF,

Following our discussion yesterday, I spoke briefly to Victor, who informed me that IESO's only secured debt are the "Permitted Liens". If we leave the language in section 3.3(5) as is (e.g. "unsubordinated Indebtedness of the IESO") we may need to clarify that it is subject to these Permitted Liens. Alternatively, we could change the langue to read "unsecured Indebtedness" of the

IESO, which in that case prevents a conflict with section 4.6, which is forward-looking and refers to secured debt.

Shall we discuss further?

Thanks,

Lisa

Hi JF,

Following our discussion yesterday, I spoke briefly to Victor, who informed me that IESO's only secured debt are the "Permitted Liens". If we leave the language in section 3.3(5) as is (e.g. "unsubordinated Indebtedness of the IESO") we may need to clarify that it is subject to these Permitted Liens. Alternatively, we could change the langue to read "unsecured Indebtedness" of the IESO, which in that case prevents a conflict with section 4.6, which is forward-looking and refers to secured debt.

Shall we discuss further?

Thanks,

Lisa

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Hi Lisa,

Thanks for your email. Would it be possible to raise this item with Victor when you speak with him? We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Many thanks,
JF

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Jean-Francois

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate

given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in

s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

Hi JF,

I'm in the process of working on the latest draft and I'm waiting to speak to Victor Buza regarding a couple of drafting matters. In the meantime, do you want to send me the new definitions or should I send you the latest black-line (still in progress) and you can incorporate and send back to me?

Also, it is no longer necessary to copy Sarah N. on these e-mails. I will keep her in the loop as necessary.

Thanks,

Lisa

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,

Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is

essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Subject: FHP Credit Facility outstanding issues

Good morning all,

We have had possession of this draft since Wednesday July 26. There are two outstanding issues holding-up the FHP Credit Facility draft:

"Permitted Leins"

(k) any Lien arising in connection with the IESO's role and obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation to the Clean Energy Adjustment, or otherwise.

On yesterday's call, Anthony said that the operations for FHP are still being worked-out and that it's difficult to itemize everything that would be related (k) and would fall under the OFHP obligations and include them in section (k). Because of the fluidity of the situation, (k) was intentionally worded in this manner and (k) does not sound to be unreasonable to me.

I am not an expert on the operations of the Fair Hydro Plan. But according to the link below, the FHP includes a number of Enhanced Social Programs which include Rural/Remote Rate Protection Program (RRRP),Regulated Price Plan (RPP), Ontario Electricity Support Program (OESP), First Nations On-Reserve Delivery Credit, Affordability Fund and Clean Energy Adjustment.
https://news.ontario.ca/mei/en/2017/5/ontarios-fair-hydro-act-2017-1.html

Lisa please arrange to speak with Toby and Bruno to answer any concerns Bruno may have with (k).

Section 3.3 Election Regarding Advances

(5)the Credit Facility shall at all times rank *pari passu* with all other unsecured Indebtedness of the IESO.

Lisa, I understand you have an email with Toby yesterday. May I ask that you and Toby work-out a satisfactory wording for (k). Jean-Francois has already provided his opinion that "unsecured Indebtedness seems appropriate". Once you conclude on the wording please show JF and I. I ask that you communicate with Victor to determine if the wording is agreeable. I understand that sending a draft version is preferred but we are running out of time. Once he agrees then we can send him the soft copy.

It's important that we get this document out to IESO today.
I am available all day today if you need me to join or arrange a call.

I'm currently working with Toby from MOF Legal on these issues. I'm aiming for a draft by the end of day today, but I cannot guarantee it at this time.

Subject: FHP Credit Facility outstanding issues

Good morning all,

We have had possession of this draft since Wednesday July 26. There are two outstanding issues holding-up the FHP Credit Facility draft:

"Permitted Leins"

(k) any Lien arising in connection with the IESO's role and obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation to the Clean Energy Adjustment, or otherwise.

On yesterday's call, Anthony said that the operations for FHP are still being worked-out and that it's difficult to itemize everything that would be related (k) and would fall under the OFHP obligations and include them in section (k). Because of the fluidity of the situation, (k) was intentionally worded in this manner and (k) does not sound to be unreasonable to me.

I am not an expert on the operations of the Fair Hydro Plan. But according to the link below, the FHP includes a number of Enhanced Social Programs which include Rural/Remote Rate Protection Program (RRRP),Regulated Price Plan (RPP), Ontario Electricity Support Program (OESP), First Nations On-Reserve Delivery Credit, Affordability Fund and Clean Energy Adjustment.

https://news.ontario.ca/mei/en/2017/5/ontarios-fair-hydro-act-2017-1.html

Lisa please arrange to speak with Toby and Bruno to answer any concerns Bruno may have with (k).

Section 3.3 Election Regarding Advances
(5)the Credit Facility shall at all times rank *pari passu* with all other unsecured Indebtedness of the IESO.

Lisa, I understand you have an email with Toby yesterday. May I ask that you and Toby work-out a satisfactory wording for (k). Jean-Francois has already provided his opinion that "unsecured Indebtedness seems appropriate". Once you conclude on the wording please show JF and I. I ask that you communicate with Victor to determine if the wording is agreeable. I understand that sending a draft version is preferred but we are running out of time. Once he agrees then we can send him the soft copy.

It's important that we get this document out to IESO today.
I am available all day today if you need me to join or arrange a call.

Best regards,

The draft language does appear to be a reasonable description of the interest rate setting process described by William Tan.

I discussed the wording in Section 3.4 (2) with Carlos. Currently there is a system limitation that only allows Trading to select a 1 month and a 3 month cost of funds and as an operational decision not to use linear interpolation. In light of these operational limitations Carlos is of the view that the current wording in Section 3.4 (2) below is satisfactory.

Let me know if you have any additional concerns.

Thanks,

Will

I've reviewed 5 agreements and they all seem to generally to be worded similarly or a variation of the same meaning. Let me know if you require more information.

Hi William,

Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.

Thank you,

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Short-Term Credit Facility from time to time on any Business Day prior to August 31, 2022.

Commented [WT2]: Question for Lisa, other agreements stop taking advances one month before the agreement is set to expire. Since FHP has a 7 day minimum advancement should this be moved upto September 23, 2022?

Section 3.2 **Procedure for Advances.**

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a **"Borrowing Notice")** shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be not later than 7 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3. The IESO authorizes the OFA to record on the grid promissory note (a) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the

outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of 7 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each election to continue an Advance for a further period shall be made one Business Day's prior notice given, in each case, not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice (an **"Election Notice")** shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify (a) the requested date of the proposed election, (b) the aggregate principal election amount, and (c) the new Repayment Date, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(4) The Note shall at all times rank *pari passu* with all other unsubordinated Indebtedness of IESO, subject to the existence of any Permitted Liens of IESO.

(5) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will

be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the IESO promissory note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the IESO to make the Advances pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

HI Will and Lisa,

In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.

I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,
Sarah

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Thanks,

Will

B. ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")

RECITALS:

1. Pursuant to section 116 of the *Electricity Act, 1998*, the Lieutenant Governor in Council made an order ("Transfer Order") transferring certain officers, employees, assets, liabilities, rights and obligations of Ontario Hydro to the Company;

2. Pursuant to the Transfer Order, the Company and OEFC entered into an agreement dated April 1, 1999 ("Note Agreement") under which the Company issued a note in the amount of $70.3 million ("Initial Note") to OEFC in partial payment for the assets and rights described above;

3. 4. The Company was continued under the name Independent Electricity System Operator pursuant to subsection 4(1) of the Electricity Act, 1998 effective January 1, 2005;

5. The Minister of Finance has directed OEFC to extend the term of the loan from May 1, 2009 to May 1, 2011.

HI Will and Lisa,

In looking at the draft Directive, I noted that the purpose of the credit facility is to provide "**short to medium** term financing related to the OFHP". Given these parameters, I thought it appropriate to remove the reference to "short-term" credit facility in the agreement, and to just call it a credit facility.

I've also made the following amendments:

- I've shortened the recitals.
- For consistency, I've gone the through the document, and added "the" in front of IESO where it was missing. I've done the same thing for "OFA."
- I've changed some reference from the "Province" to the "OFA" under section 2.9 and in the definition of Credit Facility.

Thanks,
Sarah

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Thanks,

Will

Hello Lisa,

Regarding:

"The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility".

I discussed the wording in Section 3.4 (2) with Carlos. Currently there is a system limitation that only allows Trading to select a 1 month and a 3 month cost of funds and as an operational decision not to use linear interpolation. In light of these operational limitations Carlos is of the view that the current wording in Section 3.4 (2) below is satisfactory.

Let me know if you have any additional concerns.

Thanks,

Will

Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.

I've reviewed 5 agreements and they all seem to generally to be worded similarly or a variation of the same meaning. Let me know if you require more information.

Hi William,

Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.

Thank you,

Lisa

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original

agreement.

Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

OILC Long Term Credit Facility $2.5b
Section 4.5 Payment of Province Expenses.

In addition to any liability of the OILC to the Province under any other provision of this Agreement, the OILC will, on demand, reimburse and indemnify the Province for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by the Province in connection with the preservation of rights under or the enforcement of this Agreement at any time during the continuance of a Default or Event of Default and for any reasonable loss or expense incurred by the Province as a result of any failure by the OILC to fulfill any of its obligations under this Agreement. All such costs, charges and expenses shall bear interest at the Province's cost of funds (plus any applicable spread as determined by the Ontario Financing Authority) calculated and payable monthly, not in advance, and in each case will be calculated from the date on which the Province incurs the cost, charge or expense until the date on which the OILC reimburses the Province therefor.

OILC Line of Credit $200m
Section 3.3 Interest on Advances.

Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA at the time of the borrowing, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. The amount of interest payable on a 90 day Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance. The amount of interest payable on the principal amount of a 3 year Advance will be compounded semi-annually. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment.

IESO and OFA Line of Credit $160m

Section 4.8 Payment of OEFC Expenses.

IESO will, on demand, reimburse and indemnify OEFC for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OEFC in connection with the preservation of rights under or enforcement of this Agreement at any time during the continuance of a Default or Event of Default. All such costs, charges and expenses shall bear interest at the Province's cost of funds plus 0.25 percent per annum (as determined by OEFC) calculated and payable monthly not in advance from in each case from the date on which OEFC incurs the cost, charge or expense until the date on which IESO reimbursement OEFC therefor. OEFC agrees, acting reasonably, to invoice IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Hi William,

Can you please confirm the exact process for determining the rate? Is it interpolation? Do you have precedent agreements with such language? Or perhaps MOF Legal might have some precedents.

Thank you,

Lisa

Hello Lisa,

Please find the OFHP IESO OFA Credit Facility Agreement, agreement comparison and the original agreement.

Question:
Section 3.4 Interest on Advances.
To date all advances/rollovers under IESO OFA Credit Facility $975 million (28-95 days) have been approximately 30 days and there has been no circumstances where the term has exceeded 30days and the 1 month cost of funds for borrowing with a similar term has always applied.

Right now for the new OFHP IESO OFA Credit Facility advances will range from 7 – 95 days and either the 1 month or the 3 month cost of funds for borrowing will apply.

The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the OFA's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest

Thanks,

Will

The answer to your question is yes. I will leave the interest rate language as is in the draft agreement – it is a reasonable description of the interest rate setting process that you have described.

Hello Lisa,

Regarding:

"The question therefore is, is the language in Section 3.4 an accurate representation (provides enough flexibility for the trader)if a trader was to apply the 3 month cost of funds for borrowing a borrowing request at 45 days for example. If not, please provide suggestive language for flexibility".

I discussed the wording in Section 3.4 (2) with Carlos. Currently there is a system limitation that only allows Trading to select a 1 month and a 3 month cost of funds and as an operational decision not to use linear interpolation. In light of these operational limitations Carlos is of the view that the current wording in Section 3.4 (2) below is satisfactory.

Let me know if you have any additional concerns.

Thanks,

Will

Ok, I think we may be there on the FHP credit agreement. See attached.

I have accepted all changes and only made one minor change, that being to the definition of OFHP, which I conformed with the version of the definition in AA#10. That is the only track change you should find in this document.

FYI I also hit return and deleted spaces in a few places in an effort to regularize the formatting, but feel free to make further formatting changes as required.

Hello Victor,

Lisa is in a meeting until 3 p.m.., so I am forwarding our comments on the FHP agreement on her behalf.

We have made a minor change to section 3.2(3) - specifically, we deleted the language "and shall also be noted in the grid of the Grid Note" following "The amount of the Repayment Amount shall be detailed in the Borrowing Notice." This is because the Repayment Amount ($825M) is not the first entry on the FHP Grid; the first entry will be for the entire advance of approximately $1B ($825M + new funds). Anthony and Will just had a call to discuss the particulars of what the various grid notes under the existing facility and new facility will be on November 21st (including partial repayment of the outstanding $840M loan) and Anthony will be circulating an e-mail summarizing that conversation. The Effective Date of the amending agreement to reduce the existing facility will also be November 21st, not November 22nd.

In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….". It looks, in practice, that the intercept letter will be executed prior to these two facility agreements, so we surmise this would not be an issue.

We received your most recent draft of the amending agreement. Lisa will be able to review once she is out of her meeting, after 3 p.m.

Thanks,
Sarah

Following our conference call this afternoon, please find attached a revised draft of the FHP Credit Facility. Main changes are to s.3.2(3) and to the Intercept provision. See also minor tweaks to the new Entire Agreement Clause (s.7.8) and to the Form of Grid Note (Schedule 3). Other than for s. 3.2(3), I accepted all of your changes so any changes you see are mine.

Anthony has not had a chance to review this so he may have comments, though I am hoping this is pretty closely in keeping with our discussions.

Regarding the Intercept Letter, could you please consider amending the opening to the third paragraph to read: "Prior to or concurrent with entering into a loan agreement with the IESO for the New Credit Facility…"

Comments on AA#10 to follow tomorrow morning.

Victor

Subject: FHP Revolving Credit Facility Agreement 2017-2022 Version v7

Hi Victor,

Please find attached the latest black-lined version of the FHP Credit Facility Agreement. In this version, we have made some additional amendments to section 5.7 (Intercept) and section 7.8 (Entire Agreement). We have also added a new sub-section – 3.2(3) to address the IESO's repayment of a portion of the existing credit facility using the first advance. Minor amendments were also made to the Definitions section and the heading in section 4.1.

Please let us know if you have any further comments or if you would like to discuss further. If you are satisfied with this version, we will prepare an execution version and also send over AA#10 for your review.

Thank you,

Lisa

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

(f) one or more breaches by the IESO of its covenants under one or more evidences of Indebtedness or instruments governing or securing the same with a principal amount then outstanding, individually or in the aggregate, of at least $5 million, which breaches:

(i) constitute a failure to pay such Indebtedness when due and payable at its final Stated Maturity, continue after any applicable grace period and have not been cured or waived or ceased to exist, or

(ii) have resulted in such Indebtedness becoming or being declared due and payable prior to its final Stated Maturity (and which acceleration or declaration has not been waived or rescinded);

(g) the IESO or any Material Subsidiary:

(i) becomes unable to meet its obligations as they generally become due or has ceased paying its current obligations in the ordinary course of business as they generally become due;

(ii) admits in writing its inability to pay its debts generally or makes a general assignment for the benefit its creditors or files a proposal or other scheme

of arrangement involving the rescheduling or composition of its Indebtedness;

(iii) institutes or has instituted against it any proceeding seeking:

(A) to adjudicate it as bankrupt or insolvent,

(B) liquidation, winding-up or reorganization, arrangement, adjustment, protection, relief or composition of it or its debts under any law relating to bankruptcy, insolvency, reorganization or relief of debtors including any plan of compromise or arrangement or other corporate proceeding involving or affecting its creditors, or

(C) the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its assets,

and in the case of any such proceeding instituted against it (but not instituted by it), either the proceeding remains undismissed or unstayed for a period of 30 days, or any remedy sought in any such proceeding (including the entry of order for relief against it or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its properties and assets) occurs; or

(iv) takes any corporate action to authorize any of the actions in Sections 5.l (g)(i) to (iii); or

(h) if there shall be rendered against the IESO or any Material Subsidiary a final judgment or judgments for the payment of money in an aggregate amount in excess of $5 million by a court or courts of competent jurisdiction, and the IESO or any Material Subsidiary shall have failed to satisfy such judgments or to appeal therefrom (or from the order, decree or process pursuant to which such judgments were granted, passed, entered or affirmed) and to obtain a stay of execution thereof within the period prescribed by law for appeals, and to have such judgments discharged within 30 days after the expiration of such period or the period of any such stay, whichever shall later expire.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not

cured within three (3) Business Days after the date on which written notice of such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

(b) invoke the Intercept pursuant to section 5.7 of this Agreement to require payment of any amount due and payable under this Agreement.

Section 5.3 Suits for Enforcement by the OFA.

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) to file and prove a claim for all amounts owing under this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any monies or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of even date herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

(e) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or

inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail.

(c) this Agreement will, when executed and delivered, constitute the legal, valid and binding obligation of the IESO enforceable against it in accordance with its terms; and

Hi Toby,

I've just had a meeting with Sarah H. and we further tweaked the language in s. 3.2(3) to reflect the OFA's operational process – specifically, we deleted the language "and shall also be noted in the grid of the Grid Note" following "The amount of the Repayment Amount shall be detailed in the Borrowing Notice." Do you have any concerns with this deletion? I think it works as the newly added last sentence addresses the IESO's concerns regarding the evidencing of the repayment.

> Revised draft:
> Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to the IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Thanks,

Lisa

Hi Toby,

What are your thoughts on the IESO's amendment to s. 3.2(3)? I believe it reflects the discussion from our conference call yesterday.

In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….".

Subject to any comments from documentation and CEFD, I am okay with the IESO's other proposed amendments.

Following our conference call this afternoon, please find attached a revised draft of the FHP Credit Facility. Main changes are to s.3.2(3) and to the Intercept provision. See also minor tweaks to the new Entire Agreement Clause (s.7.8) and to the Form of Grid Note (Schedule 3). Other than for s. 3.2(3), I accepted all of your changes so any changes you see are mine.

Anthony has not had a chance to review this so he may have comments, though I am hoping this is pretty closely in keeping with our discussions.

Regarding the Intercept Letter, could you please consider amending the opening to the third paragraph to read: "Prior to or concurrent with entering into a loan agreement with the IESO for the New Credit Facility…"

Comments on AA#10 to follow tomorrow morning.

Victor

Hi Victor,

Please find attached the latest black-lined version of the FHP Credit Facility Agreement. In this version, we have made some additional amendments to section 5.7 (Intercept) and section 7.8 (Entire Agreement). We have also added a new sub-section – 3.2(3) to address the IESO's repayment of a portion of the existing credit facility using the first advance. Minor amendments were also made to the Definitions section and the heading in section 4.1.

Please let us know if you have any further comments or if you would like to discuss further. If you are satisfied with this version, we will prepare an execution version and also send over AA#10 for your review.

Hi Toby,

What are your thoughts on the IESO's amendment to s. 3.2(3)? I believe it reflects the discussion from our conference call yesterday.

In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….".

Subject to any comments from documentation and CEFD, I am okay with the IESO's other proposed amendments.

Following our conference call this afternoon, please find attached a revised draft of the FHP Credit Facility. Main changes are to s.3.2(3) and to the Intercept provision. See also minor tweaks to the new Entire Agreement Clause (s.7.8) and to the Form of Grid Note (Schedule 3). Other than for s. 3.2(3), I accepted all of your changes so any changes you see are mine.

Anthony has not had a chance to review this so he may have comments, though I am hoping this is pretty closely in keeping with our discussions.

Regarding the Intercept Letter, could you please consider amending the opening to the third paragraph to read: "Prior to or concurrent with entering into a loan agreement with the IESO for the New Credit Facility…"

Comments on AA#10 to follow tomorrow morning.

Victor

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Hi Victor,

Please find attached the latest black-lined version of the FHP Credit Facility Agreement. In this version, we have made some additional amendments to section 5.7 (Intercept) and section 7.8 (Entire Agreement). We have also added a new sub-section – 3.2(3) to address the IESO's repayment of a portion of the existing credit facility using the first advance. Minor amendments were also made to the Definitions section and the heading in section 4.1.

Please let us know if you have any further comments or if you would like to discuss further. If you are satisfied with this version, we will prepare an execution version and also send over AA#10 for your review.

Thank you,

Thanks Lisa. I will discuss with Anthony tomorrow morning and get back with any comments.

Just quickly on the Intercept Letter language, in my draft I left out the notion of the Agreement terms prevailing in case of a conflict because I thought the Intercept Letter was actually the more detailed and extensive. However, I will have another look to see if I can manage this issue – one way would be for me to add more language from the letter directly into the Credit Agreement.

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

~~(2)~~(3) For the purposes of the first Advance to be made under this Agreement (the "**First Advance**"), the purpose of which shall be to repay the IESO's outstanding indebtedness to the OFA under the [CREDIT FACILITY NAME] dated [XX XX, XXXX] (the "Existing Credit Facility") the IESO and OFA agree the entry of the First Advance on the Grid Note shall constitute a repayment under the Existing Credit Facility in an amount equal to the amount of the First Advance.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a

further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as

determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

~~(2)~~(3) For the purposes of the first Advance to be made under this Agreement (the "**First Advance**"), the purpose of which shall be to repay the IESO's outstanding indebtedness to the OFA under the [CREDIT FACILITY NAME] dated [XX XX, XXXX] (the "Existing Credit Facility") the IESO and OFA agree the entry of the First Advance on the Grid Note shall constitute a repayment under the Existing Credit Facility in an amount equal to the amount of the First Advance.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a

further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as

determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(g) the IESO or any Material Subsidiary:

(i) becomes unable to meet its obligations as they generally become due or has ceased paying its current obligations in the ordinary course of business as they generally become due;

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3) Business Days after the date on which written notice of such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

Section 5.4 OFA May File Proof of Claim.

permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed~~s~~ to pay to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

Hello Victor,

Lisa is in a meeting until 3 p.m.., so I am forwarding our comments on the FHP agreement on her behalf.

We have made a minor change to section 3.2(3) - specifically, we deleted the language "and shall also be noted in the grid of the Grid Note" following "The amount of the Repayment Amount shall be detailed in the Borrowing Notice." This is because the Repayment Amount ($825M) is not the first entry on the FHP Grid; the first entry will be for the entire advance of approximately $1B ($825M + new funds). Anthony and Will just had a call to discuss the particulars of what the various grid notes under the existing facility and new facility will be on November 21st (including partial repayment of the outstanding $840M loan) and Anthony will be circulating an e-mail summarizing that conversation. The Effective Date of the amending agreement to reduce the existing facility will also be November 21st, not November 22nd.

In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….". It looks, in practice, that the intercept letter will be executed prior to these two facility agreements, so we surmise this would not be an issue.

We received your most recent draft of the amending agreement. Lisa will be able to review once she is out of her meeting, after 3 p.m.

Thanks,
Sarah

Following our conference call this afternoon, please find attached a revised draft of the FHP Credit Facility. Main changes are to s.3.2(3) and to the Intercept provision. See also minor tweaks to the new Entire Agreement Clause (s.7.8) and to the Form of Grid Note (Schedule 3). Other than for s.

3.2(3), I accepted all of your changes so any changes you see are mine.

Anthony has not had a chance to review this so he may have comments, though I am hoping this is pretty closely in keeping with our discussions.

Regarding the Intercept Letter, could you please consider amending the opening to the third paragraph to read: "Prior to or concurrent with entering into a loan agreement with the IESO for the New Credit Facility…"

Comments on AA#10 to follow tomorrow morning.

Victor

Hi Victor,

Please find attached the latest black-lined version of the FHP Credit Facility Agreement. In this version, we have made some additional amendments to section 5.7 (Intercept) and section 7.8 (Entire Agreement). We have also added a new sub-section – 3.2(3) to address the IESO's repayment of a portion of the existing credit facility using the first advance. Minor amendments were also made to the Definitions section and the heading in section 4.1.

Please let us know if you have any further comments or if you would like to discuss further. If you are satisfied with this version, we will prepare an execution version and also send over AA#10 for your review.

Hi Victor,

Upon further review, I note an additional minor change to this agreement:

s. 3.3(2)(d) – please replace "ENERGY" with "the Ministry of Energy", as "ENERGY" is not a defined term in this agreement.

Thank you,

Lisa

Hello Victor,

Lisa is in a meeting until 3 p.m.., so I am forwarding our comments on the FHP agreement on her behalf.

We have made a minor change to section 3.2(3) - specifically, we deleted the language "and shall also be noted in the grid of the Grid Note" following "The amount of the Repayment Amount shall

be detailed in the Borrowing Notice." This is because the Repayment Amount ($825M) is not the first entry on the FHP Grid; the first entry will be for the entire advance of approximately $1B ($825M + new funds). Anthony and Will just had a call to discuss the particulars of what the various grid notes under the existing facility and new facility will be on November 21st (including partial repayment of the outstanding $840M loan) and Anthony will be circulating an e-mail summarizing that conversation. The Effective Date of the amending agreement to reduce the existing facility will also be November 21st, not November 22nd.

In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….". It looks, in practice, that the intercept letter will be executed prior to these two facility agreements, so we surmise this would not be an issue.

We received your most recent draft of the amending agreement. Lisa will be able to review once she is out of her meeting, after 3 p.m.

Thanks,
Sarah

Following our conference call this afternoon, please find attached a revised draft of the FHP Credit Facility. Main changes are to s.3.2(3) and to the Intercept provision. See also minor tweaks to the new Entire Agreement Clause (s.7.8) and to the Form of Grid Note (Schedule 3). Other than for s. 3.2(3), I accepted all of your changes so any changes you see are mine.

Anthony has not had a chance to review this so he may have comments, though I am hoping this is pretty closely in keeping with our discussions.

Regarding the Intercept Letter, could you please consider amending the opening to the third paragraph to read: "Prior to or concurrent with entering into a loan agreement with the IESO for the New Credit Facility…"

Comments on AA#10 to follow tomorrow morning.

Victor

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

I agree that most likely the letter will get executed first. Also, it's going to IESO last….meaning they can sign in sequence the letter agreement and the facilities agreement but we wouldn't know which got done first!

Hi John and Lisa,

In relation to Lisa's comment below "In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….", I think it looks like the IESO letter is going to be executed prior to the execution (John, correct me if I wrong about my timing assumption) of the two credit facilities, so I don't think IESO would have any issues with this change.

We are trying to touch base with Anthony to confirm the specific operational details outstanding from yesterday's call, but the wording in 3.2(3) now aligns with the OFA processes and addresses Anthony's concerns about evidencing repayment.

I suggest that the draft be sent over to Victor, unless anyone has any final comments.

Thanks,
Sarah

Hi Toby,

What are your thoughts on the IESO's amendment to s. 3.2(3)? I believe it reflects the discussion from our conference call yesterday.

In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….".

Subject to any comments from documentation and CEFD, I am okay with the IESO's other proposed amendments.

Following our conference call this afternoon, please find attached a revised draft of the FHP Credit Facility. Main changes are to s.3.2(3) and to the Intercept provision. See also minor tweaks to the new Entire Agreement Clause (s.7.8) and to the Form of Grid Note (Schedule 3). Other than for s. 3.2(3), I accepted all of your changes so any changes you see are mine.

Anthony has not had a chance to review this so he may have comments, though I am hoping this is pretty closely in keeping with our discussions.

Regarding the Intercept Letter, could you please consider amending the opening to the third paragraph to read: "Prior to or concurrent with entering into a loan agreement with the IESO for the New Credit Facility…"

Comments on AA#10 to follow tomorrow morning.

Hi Toby,

I've just had a meeting with Sarah H. and we further tweaked the language in s. 3.2(3) to reflect the OFA's operational process – specifically, we deleted the language "and shall also be noted in the grid of the Grid Note" following "The amount of the Repayment Amount shall be detailed in the Borrowing Notice." Do you have any concerns with this deletion? I think it works as the newly added last sentence addresses the IESO's concerns regarding the evidencing of the repayment.

> Revised draft:
> Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to the IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Lisa

Subject: RE: FHP Revolving Credit Facility Agreement 2017-2022 Version v7 Revised by IESO Oct 31

Following our conference call this afternoon, please find attached a revised draft of the FHP Credit Facility. Main changes are to s.3.2(3) and to the Intercept provision. See also minor tweaks to the new Entire Agreement Clause (s.7.8) and to the Form of Grid Note (Schedule 3). Other than for s. 3.2(3), I accepted all of your changes so any changes you see are mine.

Anthony has not had a chance to review this so he may have comments, though I am hoping this is pretty closely in keeping with our discussions.

Regarding the Intercept Letter, could you please consider amending the opening to the third paragraph to read: "Prior to or concurrent with entering into a loan agreement with the IESO for the New Credit Facility…"

Comments on AA#10 to follow tomorrow morning.

Victor

Subject: FHP Revolving Credit Facility Agreement 2017-2022 Version v7

Hi Victor,

Please find attached the latest black-lined version of the FHP Credit Facility Agreement. In this version, we have made some additional amendments to section 5.7 (Intercept) and section 7.8 (Entire Agreement). We have also added a new sub-section – 3.2(3) to address the IESO's repayment of a portion of the existing credit facility using the first advance. Minor amendments were also made to the Definitions section and the heading in section 4.1.

Please let us know if you have any further comments or if you would like to discuss further. If you are satisfied with this version, we will prepare an execution version and also send over AA#10 for your review.

Thank you,

Lisa

Great, I think we are there too. I've made one further change to the definition of OFHP, adding in the full citation (see attached). If no one has any further comments, we will prepare an execution version (and make further formatting changes if required).

Ok, I think we may be there on the FHP credit agreement. See attached.

I have accepted all changes and only made one minor change, that being to the definition of OFHP, which I conformed with the version of the definition in AA#10. That is the only track change you should find in this document.

FYI I also hit return and deleted spaces in a few places in an effort to regularize the formatting, but feel free to make further formatting changes as required.

Thanks Lisa – good catch.

Can I assume that, apart from that change, all the other changes are acceptable to OFA? I'd like to go through the Agreement accepting whatever tracked changes I can and see if anything is left of if it is now done.

Hi Victor,

Upon further review, I note an additional minor change to this agreement:

s. 3.3(2)(d) – please replace "ENERGY" with "the Ministry of Energy", as "ENERGY" is not a defined term in this agreement.

Thank you,

Hello Victor,

Lisa is in a meeting until 3 p.m.., so I am forwarding our comments on the FHP agreement on her behalf.

We have made a minor change to section 3.2(3) - specifically, we deleted the language "and shall also be noted in the grid of the Grid Note" following "The amount of the Repayment Amount shall be detailed in the Borrowing Notice." This is because the Repayment Amount ($825M) is not the first entry on the FHP Grid; the first entry will be for the entire advance of approximately $1B ($825M + new funds). Anthony and Will just had a call to discuss the particulars of what the various grid notes under the existing facility and new facility will be on November 21st (including partial repayment of the outstanding $840M loan) and Anthony will be circulating an e-mail summarizing that conversation. The Effective Date of the amending agreement to reduce the existing facility will also be November 21st, not November 22nd.

In terms of the intercept letter, we cannot amend the opening paragraph as the OFA Lending Policy requirement is that this agreement must be in place "prior to entering into a loan agreement….". It looks, in practice, that the intercept letter will be executed prior to these two facility agreements, so we surmise this would not be an issue.

We received your most recent draft of the amending agreement. Lisa will be able to review once she is out of her meeting, after 3 p.m.

Thanks,
Sarah

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

Section 5.7 Intercept

On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

(e) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or

inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail.

Hi Will,
Did you make any changes to the document, other than replacing the table in Schedule 3? If that's the case, then I don't think that I need to review it again.

Hi Will,
I made a few clean-ups in the attached (e.g. date of agreement changed from August to September on the first 2 pages and in the Schedules, fixed a cross-reference in s. 5.1(g), fixed Mike Manning's title in s. 7.1 Notices and the signature line).
Please confirm the form of Grid Note in Schedule 3 is correct.
As discussed, I don't think you should call the document the execution version until it is finalized with the date etc.
Once internal OFA review is completed – please prepare a clean version and a blackline against the last version that was sent to the IESO.
Thanks,
Caroline

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

Hi Will,

I made a few clean-ups in the attached (e.g. date of agreement changed from August to September on the first 2 pages and in the Schedules, fixed a cross-reference in s. 5.1(g), fixed Mike Manning's title in s. 7.1 Notices and the signature line).

Please confirm the form of Grid Note in Schedule 3 is correct.

As discussed, I don't think you should call the document the execution version until it is finalized with the date etc.

Once internal OFA review is completed – please prepare a clean version and a blackline against the last version that was sent to the IESO.

Thanks,

Caroline

Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Hi Will,
I made a few clean-ups in the attached (e.g. date of agreement changed from August to September on the first 2 pages and in the Schedules, fixed a cross-reference in s. 5.1(g), fixed Mike Manning's title in s. 7.1 Notices and the signature line).
Please confirm the form of Grid Note in Schedule 3 is correct.
As discussed, I don't think you should call the document the execution version until it is finalized with the date etc.
Once internal OFA review is completed – please prepare a clean version and a blackline against the last version that was sent to the IESO.

Thanks,
Caroline

Hi William,

Thanks for the update. I would ask that in all interaction with IESO, we impress that they need to provide a response on the letter agreement that is required under the OFA's lending policy. Without a resolution on the intercept, there would be no $2bn facility to draw upon for the IESO.

Thanks,

John

Subject: FHP Status Update

Hello All,

This is to provide a status update for the existing $975 million OFA IESO Credit Facility (to be reduced to $475 million) and new $2 Billion FHP Credit Facility agreements. The agreements will be executed immediately after certain approvals have been made.

Currently, FHP related advances are being drawn on the existing $975 million OFA IESO Credit Facility. Once the agreements are in place, the intention is to have IESO draw primarily from the new $2 Billion FHP Credit Facility and reduce the existing $975 million OFA IESO Credit Facility down to the $475 million.

According to IESO the next draw will occur on October 20, for $840 million (outstanding loan + new advance).

The amount for the subsequent draw on November 21, is currently unknown but is expected to exceed the existing $975 million OFA IESO Credit Facility limit.

Assuming the $2 Billion FHP Credit Facility agreement is signed before November 21, we are considering two options for the November 21 advances:

(1) IESO will submit a borrowing notice for the November draw to be drawn entirely from the $2 Billion FHP Credit Facility.

Or

(2) IESO will submit a borrowing notice to draw a portion from the $2 Billion FHP Credit Facility in combination with an election notice to draw a portion of the remaining outstanding amount to allow for the existing OFA IESO Credit Facility to be reduced to a level below $475 million.

I will be consulting with IESO to determine which of these options will be chosen and will advise as to the option selected. I understand these facilities will need to be updated in OLMS. I am providing this information to all parties so that they may determine what arrangements are necessary in this regard.

Thanks,

Best regards,

Hi Lisa,

Yes, that is usually the approach we strive for, especially for external counterparties.

We have more flexibility with public bodies, so I have shown more flexibility there, depending on the circumstances (we tend to be a little more flexible, for example, with IO). For IESO, dating the cert prior to the execution date is fine with me, if that works for you.

Hi Sarah,

I think the resolution should be executed prior to the execution of the agreements, whether on the same date or a prior date. Are you saying that for provincial agreements the certificates are dated the same date? Is this to ensure that they have not been superceded?

Will,

I think you can note to Anthony that you saw an extra 'whereas' in their excerpt of the board resolution - that you're not sure if it was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.

Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something

OFA Legal would require for this OFA agreement with IESO.
Thanks,
Sarah

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Yes, I think this sounds reasonable in the circumstances, especially as the execution dates will (likely) be rather close.

Hi Lisa,

Yes, that is usually the approach we strive for, especially for external counterparties.

We have more flexibility with public bodies, so I have shown more flexibility there, depending on the circumstances (we tend to be a little more flexible, for example, with IO). For IESO, dating the cert prior to the execution date is fine with me, if that works for you.

Hi Sarah,

I think the resolution should be executed prior to the execution of the agreements, whether on the same date or a prior date. Are you saying that for provincial agreements the certificates are dated the same date? Is this to ensure that they have not been superceded?

Will,

I think you can note to Anthony that you saw an extra 'whereas' in their excerpt of the board resolution - that you're not sure if it was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.

Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something OFA Legal would require for this OFA agreement with IESO.

Thanks,

Sarah

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

FYI, I was under the impression that we had forwarded

(i) the form of extract of board resolution and
(ii) the form of incumbency certificate

for your approval prior to us finalizing and executing those documents.

Let me know if I you have not received those. If you have, please confirm that their form is satisfactory.

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Hello Anthony and Victor,
Just a quick follow-up on my last e-mail.
My apologies - I don't want to appear as though I am 'editing' your excerpt of your board resolution.
I just noted that an extra 4th 'and whereas' in the excerpt; I'm not sure if that was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
We look forward to any questions or comments on the most recent drafts of either of the agreements and I remain available for any questions.
Thanks,
Will

Hi Lisa,

I have included mention of the letter agreement and removed the term semi-executed. Business process aside, do you mind reviewing this before to IESO?

Thanks,

Hello Anthony and Victor,

Pending the execution of the intercept letter agreement next week, we can certainly target executing the FHP credit facility at that same time, however, we propose holding off the ~~executing~~ execution of the amending agreement until November 22nd at the earliest (?).

Currently there is $840M outstanding under the existing credit facility agreement; we cannot reduce the limit of the $975M to $475M while the $840M is still outstanding. As per our discussion with Anthony, we understand that it is IESO's intention that the next draw for the whole balance of $840M (plus any new funding)[Will we allow for new funding; delete?] will be entirely funded through the new FHP facility (i.e. that is move all funding for next draw on November 21st from the existing $975 million Credit Facility to the $2 Billion FHP Credit Facility).

-

In order to achieve this with least disruption we propose:

- Sign the FHP Credit Facility agreement first next week (assuming intercept letter will be signed prior to or at the same time).
- For next advance, Prior to November 21st funding date, IESO sends to the OFA the FHP Borrowing Notice under the new Facility specifying the amount of the next advance ($840 million + new advance).
- Allow the $840 million outstanding under the existing $975 million Credit Facility to mature on November 21st and OFA will fund the November 21st advance (whereby OFA will send any net difference of funds above the $840M to IESO) under the new Facility.
- Arrange to execute Amending Agreement No. 10~~, on November 22~~ to reduce the existing credit facility on $475M.

Please provide you thoughts if this is suitable.

As per our discussion with Anthony, the entire balance of $840 million will be moved from the existing $975 million Credit Facility to the $2 Billion FHP Credit Facility. Currently we cannot reduce the existing $975 million limit under the facility while $840 million is still outstanding under it.

We propose to signing the FHP Credit Facility agreement first on November 1st and receiving the FHP Borrowing Notice to advance ($840 million + new advance) on November 16. Why not sign all docs on the same day this week including:
-intercept letter
-$2B facility
-the $975M non-rollover notice (this would confirm that in mid-Nov IESO will not rollover the $825M (the RRRP will continue to rollover with this facility) due on Nov 21)
-issue a rollover notice for $2B facility to say the $825M is being rolled over – note that I will need to borrow another approx. $225M too
-the AA # 10

This way all is in place by this week's end. Let me know or call me to discuss 905-403-6944.

Good morning,

I have spoken to Anthony (IESO) this morning. He is pleased with the agreements so far and will be providing me with a status update on them this afternoon. He expects to have the agreements signed by Friday (subject to the directive getting signed). Anthony will be providing a status update to Moody's on Friday regardless of the outcome.

Hi William,

I don't expect the OFA will move forward without a signed directive. Minister's flight was delayed today. I expect him to address this fairly soon after his return.

Thanks,

John

Subject: RE: FHP credit facility agreement - further amendments
Date: Wednesday, August 02, 2017 10:38:23 AM

Hi Lisa – regarding the subcategories of borrowing purposes which we have previously listed in borrowing notices, we would prefer to continue with the current practice of listing the subcategory of purpose directly in the borrowing notice rather than enshrining a potentially overly-restrictive list of sub-categories directly in the body of the Agreement. The Agreement already contains a broad restriction as to permitted purposes in s.2.2 – namely borrowing must be related to OFHP – and adding a closed and enumerated list of sub-categories of purposes could create problems down the road.

The concern is that there may over the course of the OFHP be a number of borrowing sub-categories other than RRRP and RPP. RPP will make up the vast majority of all such borrowing, and RRRP borrowing will be the next largest borrowing sub-category – though even at that, it will constitute only a very small portion of total borrowing. Then there may be other and very occasional OFHP-related borrowing that, in terms of percentage of total borrowings is expected to be miniscule, but will still fall under the broad OFHP purpose (e.g. FN Delivery Credit, etc).

We intend to continue to list the different sub-categories of borrowing (RPP etc) in each borrowing notice for internal tracking reasons, etc. In addition our practice has been to issue different borrowing notices for different subcategories of borrowing, and this will also continue. So would it not be sufficient if we just continue with current practice – or maybe just add a note to the Form of Borrowing Notice as a reminder to specify any sub-categories of OFHP-related borrowing purposes ?

Hi Lisa – we are still considering the RRRP/RPP question you asked below – I will get back to you as soon as we have an answer for you.

Regarding our call at the end of the day yesterday, as I mentioned, I still have some concerns about any conflicting requirements of sections 3.3(5) and 4.6. That said, I am happy to look at any language you might wish to draft and provide my comments promptly if that would be of assistance.

Hi Victor,

Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.

Hi Sarah,

I agree that we should aim for a policy level call tomorrow.

In my call with IESO staff, they expressed that they understood the rationale behind the approach, along the lines of no substantive issue as there is no appropriation here. At least the IESO staff fully understood that point. They do want this facility in place asap so it would not surprise me if they expressed frustration around the proposed approach and the delay.

As mentioned in my earlier email, this will be brought up potentially at tomorrow's meeting.

Thanks,

John

Hi John –

Toby from MOF Legal just called Lisa. Tom McKinley, counsel from MOE reached out to him in response to your memo to find out what the rationale was for the memo, apparently IESO reached out to Energy and expressed concern about what was going on.

I think it may be prudent to arrange for a policy level call tomorrow to provide reassurance that there is no substantive issue here, but in the absence of a directive we require inclusion of the intercept provisions. Notwithstanding that there are currently no appropriations. Once this is done the loan agreement can be finalized without further delay.

I've copied Anna given your earlier heads up to her. Please let me know how you

would like to proceed.

Toby from MOF Legal just called Lisa. Tom McKinley, counsel from MOE reached out to him in response to your memo to find out what the rationale was for the memo, apparently IESO reached out to Energy and expressed concern about what was going on.

I think it may be prudent to arrange for a policy level call tomorrow to provide reassurance that there is no substantive issue here, but in the absence of a directive we require inclusion of the intercept provisions. Notwithstanding that there are currently no appropriations. Once this is done the loan agreement can be finalized without further delay.

Hi Sarah,

I agree that we should aim for a policy level call tomorrow.

In my call with IESO staff, they expressed that they understood the rationale behind the approach, along the lines of no substantive issue as there is no appropriation here. At least the IESO staff fully understood that point. They do want this facility in place asap so it would not surprise me if they expressed frustration around the proposed approach and the delay.

As mentioned in my earlier email, this will be brought up potentially at tomorrow's meeting.

Thanks,

John

I am writing in relation to the Independent Electricity System Operator's (IESO)~~'s~~ request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion ~~from the OFA~~ (the "New Credit Facility") to support ~~its~~the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.*

~~Pursuant to~~Under the OFA Lending Policy, the OFA ~~is~~ require~~d~~ ~~to include~~ an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. The intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement ~~from money appropriated by the Legislature for payment to the public body~~. I acknowledge and confirm that at this time there are no amounts appropriated by the Legislature for the IESO [Energy to confirm] and the intent of such a provision is to apply if and when amounts were to be appropriated in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement"), on an unsecured basis, the OFA requires the Ministry of Energy ("MOE") and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- ~~As such, t~~The OFA, the IESO, and MOE agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):
  - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and MOE agree that in the event that the Legislature appropriates any funds for payment to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance ~~is~~ would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision").
  - Under the intercept provision, which shall be included in the Loan Agreements, the IESO also agrees that any notice from the OFA to the Minister of Finance in relation to its failure to pay under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

Commented [RK1]: I had thought the earlier discussion contemplated an acknowledgement / confirmation that at this time there are currently no amounts appropriated by the Legislature for the IESO and that these provisions would apply if amounts were appropriated in the future.

Has there been an update to that thinking?

Commented [JK2R1]: Updated.

DRAFT

- Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with MOE and seek MOE's support in getting the IESO to pay the amounts owing within a reasonable cure period.

- Upon receipt of notice from the OFA that the IESO has failed to pay in accordance with the provisions of a Loan Agreement, MOE will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO, including the intended purpose and expected timing of such payments to be made by MOE. Upon request, MOE will provide similar information to the Minister of Finance.

- MOE acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment to the IESO, MOE will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Such notations, in the absence of manifest error, shall be *prima facie* evidence of ~~the~~ such A~~a~~dvances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Hi Lisa. Attached is a document showing my comments on the Intercept language to make it more consistent with the Intercept Letter, and some minor fixes to the Entire Agreement clause you added to the v.5 draft.

You may also wish to add the new defined terms to the definitions section.

Happy to discuss this afternoon after 3 pm if you have any questions.

Hi Victor,

Thank you for your voicemail. We are still reviewing the latest version of the intercept letter agreement and will get back to you regarding the IESO's comments shortly.

In addition, we have made an additional minor amendment to the credit facility agreement to add an "Entire Agreement" paragraph, in section 7.8. I've attached a black-lined version, as well as a new execution version (v.5), of the agreement for your review.

Please let me know if you have any concerns with this latest amendment to the credit facility agreement.

Thank you,

Lisa

Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Hi Lisa,

I noticed some clean up and tweaking is needed on Schedule 1, which affects section 3.2(1) as well

I have attached proposed change, but I've also attached your last version from yesterday so we can look side by side.

I know you're in 'directive land' right now, so whenever you have the opportunity to discuss this, plus the amending agreement, that would be great.

Thanks,
Sarah

The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies; (b) the amount of interest to be re-paid by the IESO on such

Advance on the current Repayment Date; (c) the new aggregate total amount of the proposed Continued Advance; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

Hello Lisa,

I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.

I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest.
Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period.
If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?

Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.

"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Thanks,

Will

Hello Lisa,

I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.

I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest. Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period. If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?

Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.

"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Thanks,

Will
