William,

Yes the list below are current examples of programs under/part of the FHP.
I would caution that there may be more too such as "Funding Rebates", and there are current discussions about potential new regulations under FH Act still being contemplated/discussed by gov't lawyers.
I would prefer that we keep the language in our debt agreement to reference activities under the FH Act….since there may be new regulations, amendments to FH regulations, or new programs that may be set up.

Regards.

Subject: FHP subcategories

Hi Anthony,

Is the list below a basic list of programs that would be a part of FHP Permitted Liens (k)? if yes, is there a more exhaustive list?

Broadening Distribution Rate Protection

RRRP program provides a rate subsidy to rural and remote residential customers who face higher distribution costs.

About 800,000 customers would benefit from the new broadened distribution rate protection program. Customers of LDCs benefitting from this include: Hydro One R2 and R1 customers, and residential customers of Northern Ontario Wires, Lakeland Parry Sound, Chapleau, Sioux Lookout, InnPower, Atikokan and Algoma. The benefits would differ from LDC to LDC.

Expanding the OESP

The OESP[na01.safelinks.protection.outlook.com] is an income-tested, application based program that lowers electricity costs for the most vulnerable consumers, providing a rebate directly on bills. There are two scales: one with basic credits, and an enhanced credit for Indigenous people or those who use electric heat or certain electrically intensive medical devices.

Effective May 1, 2017, Ontario increased the OESP by 50 per cent, meaning that single, low-income consumers who receive the lowest credit amount would get an increase from $30 to $45 per month ($540 per year, an increase of $180), and single, low-income consumers who qualify for the enhanced scale would see an increase from $45 to $68 ($816 per year, an increase of $276).

Providing a First Nations On-Reserve Delivery Credit

In 2016, the Ontario Energy Board (OEB) engaged with First Nations, including remote communities, the distributors serving them, and consumer groups such as the Low Income Energy Network.

As a result of recommendations from the OEB, the government plans to eliminate the delivery charge for all on-reserve First Nations residential customers and remove the monthly service charge for customers of licensed distributors which charge a bundled rate.

The Fair Hydro Act, 2017 would, if passed, enable the above initiatives. In addition, an Affordability Fund has been established. No legislative amendments were required for this fund.

Establishing an Affordability Fund

Ontario has established an Affordability Fund that will provide energy efficiency measures to Ontarians who are not eligible for low-income conservation programs, and who are otherwise unable to make energy efficiency improvements without financial assistance.

The Province is paying for the Affordability Fund through provincial revenues.

Energy Sector Efficiencies

The Ontario government has commenced work on the next Long-Term Energy Plan (LTEP).

Ontario is in a strong electricity supply situation and well-positioned to meet demand at this time. The LTEP process is designed to be iterative and flexible and only commit resources as demand needs become clearer. The Province is committed to continuing to put conservation first in its energy planning decisions, where cost-effective.

When new electricity supply is needed, the next LTEP would ensure that future procurements are focused on outcomes, rather than contracting with specific technologies. This technology-neutral approach would foster innovation and create competition. This approach is expected to lower the cost of electricity supply.

The OEB will identify opportunities for cost efficiencies by:

Encouraging shared partnerships on services between utilities, which would help reduce costs and encourage further innovation for small to medium-sized utilities.

Reviewing business cases behind its regulatory requirements to reduce red tape and eliminate costs that LDCs indicate are creating pressures on operating expenses.

Looking at opportunities to further drive transmitter and LDC efficiencies and productivity improvements, including the use of innovative technologies and business processes.

The IESO and partners have begun a market renewal project to enhance efficiency and performance of the wholesale electricity market.

Changes related to the IESO's market renewal initiatives are estimated to save at least $200 million per year, starting in 2021.

Hi Will. The following is the revised paragraph that we ask be substituted for that already in the definition of "Permitted Liens" in the FHP facility, and be added to the definition of Permitted Liens in Amending Agreement #10 for the existing facility –

" any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP; "

Regarding the addition to AA#10, this would also require the addition of the definitions for "OFHP" and "Clean Energy Adjustment" to that amendment.

Let me know if you have any questions.
Regards,
Victor

Good morning Victor,

That's correct, I intentionally did not include a copy of the Amending Agreement No. 10 v2, because no changes to be made to it and the current version is still valid.

Yes, please review the Intercept Provision language in the FHP Credit Facility after discussions have concluded with OPG. John Kim is currently reviewing Intercept Provision matter with regards to the Existing Credit Facility.

We look forward to the Permitted Liens changes tomorrow.

Thanks,

Will

Hi Will. Thanks for these drafts. I note that clean Word and pdf versions of v.3 of the FHP Credit Agreement were attached, but there was no attachment re Amending Agreement #10 to the existing facility (not sure if that was intended).

We cannot yet provide detailed comments on the Intercept Letter itself or on the language related to the Intercept Letter now included in v.3 of the FHP Credit Facility. We will provide those comments after we have been able to confirm whether any concerns arise out of the discussions with OPG. However, at a high level, I note that the current draft of the Intercept Letter states that the existing facility (i.e. the one to be reduced to $475MM) will also be subject to the Intercept mechanism. Based on our prior discussions, we thought this existing facility was being "grandfathered" and so would not be subject to the OFA policy that requires inclusion of the Intercept mechanism/language. Can you please clarify OFA's intended approach on this ?

Also, just wanted to let you know that based on our most recent reviews of the draft documents/transactions (including with external counsel), I will shortly – likely tomorrow morning – send some revisions to paragraph (k) of the Permitted Liens definition, which I do not expect to be controversial. Concerning this language, we would ask that you also add the revised paragraph to the definition of "Permitted Liens" contained in the existing facility by way of Amending Agreement #10.

Feel free to call if you have any questions.

Victor

Hi All – I attach what I am hoping are the closing documents for: (i) the new FHP Revolving Credit Agreement, and (ii) Amending Agreement #10 to the 2005 credit agreement. The following comments are relevant to the attachments:

1. I took the credit agreements you sent for both FHP and Amending Agreement #10 yesterday, accepted all the tracked changes, deleted the comments, made some minor spacing changes and put a blank following "September" as appropriate so that the final signing date can be filled in by hand. Note – regarding AA#10, I also deleted the document ID that showed at the bottom of some of the pages (which ID I assumed was some form of law firm tracking number).
2. I created two standalone Promissory Notes by extracting the Schedules from the FHP and AA#10 respectively – the only change I made (apart from deleting the "Form of…" language at the top of the document) was to change the spacing slightly to fit on one page.
3. I also prepared final versions of the certified IESO board resolution and the incumbency certificate, again inserting a blank following September. Please note that the resolution is changed slightly from the one you reviewed in the sense that I inserted notes (instead of ellipsis) to show where redactions were made of information not related to the OFA financings. For convenience, I also removed the reference to the date of the FHP Credit Agreement.
4. I created pdfs of all documents and also include MS Word versions of the Agreements and Grid Notes for ease of comparison.

Please let me know if these documents appear in order.

Victor

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Good morning Victor,

That's correct, I intentionally did not include a copy of the Amending Agreement No. 10 v2, because no changes to be made to it and the current version is still valid.

Yes, please review the Intercept Provision language in the FHP Credit Facility after discussions have concluded with OPG. John Kim is currently reviewing Intercept Provision matter with regards to the Existing Credit Facility.

We look forward to the Permitted Liens changes tomorrow.

Thanks,

Will

Hi Will. Thanks for these drafts. I note that clean Word and pdf versions of v.3 of the FHP Credit Agreement were attached, but there was no attachment re Amending Agreement #10 to the existing

facility (not sure if that was intended).

We cannot yet provide detailed comments on the Intercept Letter itself or on the language related to the Intercept Letter now included in v.3 of the FHP Credit Facility. We will provide those comments after we have been able to confirm whether any concerns arise out of the discussions with OPG. However, at a high level, I note that the current draft of the Intercept Letter states that the existing facility (i.e. the one to be reduced to $475MM) will also be subject to the Intercept mechanism. Based on our prior discussions, we thought this existing facility was being "grandfathered" and so would not be subject to the OFA policy that requires inclusion of the Intercept mechanism/language. Can you please clarify OFA's intended approach on this ?

Also, just wanted to let you know that based on our most recent reviews of the draft documents/transactions (including with external counsel), I will shortly – likely tomorrow morning – send some revisions to paragraph (k) of the Permitted Liens definition, which I do not expect to be controversial. Concerning this language, we would ask that you also add the revised paragraph to the definition of "Permitted Liens" contained in the existing facility by way of Amending Agreement #10.

Feel free to call if you have any questions.

Victor

Hi All – I attach what I am hoping are the closing documents for: (i) the new FHP Revolving Credit Agreement, and (ii) Amending Agreement #10 to the 2005 credit agreement. The following comments are relevant to the attachments:

1. I took the credit agreements you sent for both FHP and Amending Agreement #10 yesterday, accepted all the tracked changes, deleted the comments, made some minor spacing changes and put a blank following "September" as appropriate so that the final signing date can be filled in by hand. Note – regarding AA#10, I also deleted the document

ID that showed at the bottom of some of the pages (which ID I assumed was some form of law firm tracking number).

2. I created two standalone Promissory Notes by extracting the Schedules from the FHP and AA#10 respectively – the only change I made (apart from deleting the "Form of…" language at the top of the document) was to change the spacing slightly to fit on one page.
3. I also prepared final versions of the certified IESO board resolution and the incumbency certificate, again inserting a blank following September. Please note that the resolution is changed slightly from the one you reviewed in the sense that I inserted notes (instead of ellipsis) to show where redactions were made of information not related to the OFA financings. For convenience, I also removed the reference to the date of the FHP Credit Agreement.
4. I created pdfs of all documents and also include MS Word versions of the Agreements and Grid Notes for ease of comparison.

Please let me know if these documents appear in order.

Victor

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Victor would like some clarification with regards to the application of the intercept provision to the Existing Credit Facility. His understanding is that the provision only applies to the FHP Credit Facility and that the Existing Credit Facility is to be grandfather. Could you please respond to Victor on this matter?

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Regards,
Victor

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Hello Anthony and Victor,

We have made the following minor changes to the execution copies below. For operational purposes the facsimile number would also apply to the Amending Agreement No. 10. For practical purposes we will update the facsimile change into the next updated and restated agreement.

Subject: Final Docs for FHP Credit Agreement and AA#10

Hi All – I attach what I am hoping are the closing documents for: (i) the new FHP Revolving Credit Agreement, and (ii) Amending Agreement #10 to the 2005 credit agreement. The following comments are relevant to the attachments:

1. I took the credit agreements you sent for both FHP and Amending Agreement #10 yesterday, accepted all the tracked changes, deleted the comments, made some minor spacing changes and put a blank following "September" as appropriate so that the final signing date can be filled in by hand. Note – regarding AA#10, I also deleted the document ID that showed at the bottom of some of the pages (which ID I assumed was some form of law firm tracking number).
2. I created two standalone Promissory Notes by extracting the Schedules from the FHP and AA#10 respectively – the only change I made (apart from deleting the "Form of…" language at the top of the document) was to change the spacing slightly to fit on one page.
3. I also prepared final versions of the certified IESO board resolution and the incumbency certificate, again inserting a blank following September. Please note that the resolution is changed slightly from the one you reviewed in the sense that I inserted notes (instead of ellipsis) to show where redactions were made of information not related to the OFA financings. For convenience, I also removed the reference to the date of the FHP Credit Agreement.
4. I created pdfs of all documents and also include MS Word versions of the Agreements and Grid Notes for ease of comparison.

Please let me know if these documents appear in order.
Regards,
Victor

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not

(b) If the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, of the IESO's failure to pay under this Agreement and requesting the deduction of amounts equal to the amounts that the IESO has failed to pay under this Agreement.

The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO fails to pay to the OFA shall be deducted from the Appropriated Funds and paid to the OFA.

Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Hi Will. The following is the revised paragraph that we ask be substituted for that already in the definition of "Permitted Liens" in the FHP facility, and be added to the definition of Permitted Liens in Amending Agreement #10 for the existing facility –

" any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP; "

Regarding the addition to AA#10, this would also require the addition of the definitions for "OFHP" and "Clean Energy Adjustment" to that amendment.

Let me know if you have any questions.
Regards,
Victor

Good morning Victor,

That's correct, I intentionally did not include a copy of the Amending Agreement No. 10 v2, because no changes to be made to it and the current version is still valid.

Yes, please review the Intercept Provision language in the FHP Credit Facility after discussions have concluded with OPG. John Kim is currently reviewing Intercept Provision matter with regards to the Existing Credit Facility.

We look forward to the Permitted Liens changes tomorrow.

Thanks,

Will

Hi Will. Thanks for these drafts. I note that clean Word and pdf versions of v.3 of the FHP Credit Agreement were attached, but there was no attachment re Amending Agreement #10 to the existing facility (not sure if that was intended).

We cannot yet provide detailed comments on the Intercept Letter itself or on the language related to the Intercept Letter now included in v.3 of the FHP Credit Facility. We will provide those comments after we have been able to confirm whether any concerns arise out of the discussions with OPG. However, at a high level, I note that the current draft of the Intercept Letter states that the existing facility (i.e. the one to be reduced to $475MM) will also be subject to the Intercept mechanism. Based on our prior discussions, we thought this existing facility was being "grandfathered" and so would not be subject to the OFA policy that requires inclusion of the Intercept mechanism/language. Can you please clarify OFA's intended approach on this ?

Also, just wanted to let you know that based on our most recent reviews of the draft documents/transactions (including with external counsel), I will shortly – likely tomorrow morning – send some revisions to paragraph (k) of the Permitted Liens definition, which I do not expect to be controversial. Concerning this language, we would ask that you also add the revised paragraph to the definition of "Permitted Liens" contained in the existing facility by way of Amending Agreement #10.

Feel free to call if you have any questions.

Regards,

Victor

Hi All – I attach what I am hoping are the closing documents for: (i) the new FHP Revolving Credit Agreement, and (ii) Amending Agreement #10 to the 2005 credit agreement. The following comments are relevant to the attachments:

1. I took the credit agreements you sent for both FHP and Amending Agreement #10 yesterday, accepted all the tracked changes, deleted the comments, made some minor spacing changes and put a blank following "September" as appropriate so that the final signing date can be filled in by hand. Note – regarding AA#10, I also deleted the document ID that showed at the bottom of some of the pages (which ID I assumed was some form of law firm tracking number).
2. I created two standalone Promissory Notes by extracting the Schedules from the FHP and AA#10 respectively – the only change I made (apart from deleting the "Form of…" language at the top of the document) was to change the spacing slightly to fit on one page.
3. I also prepared final versions of the certified IESO board resolution and the incumbency certificate, again inserting a blank following September. Please note that the resolution is changed slightly from the one you reviewed in the sense that I inserted notes (instead of ellipsis) to show where redactions were made of information not related to the OFA financings. For convenience, I also removed the reference to the date of the FHP Credit Agreement.
4. I created pdfs of all documents and also include MS Word versions of the Agreements and Grid Notes for ease of comparison.

Please let me know if these documents appear in order.
Regards,
Victor

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Section 2.3 Credit Facility Limit.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

Section 4.6 Negative Pledge.

The IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of the IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(d) any extension, renewal or replacement of any of the Liens referred to in Sections 4.6(a), (b) or (c), provided that the principal amount secured by any such Lien outstanding immediately before such extension, renewal or replacement or refunding is not thereby increased; and

(e) any Lien charging the interest of the IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c), provided that, at the time such Lien is created, incurred or assumed, the principal amount of such Indebtedness, together with the aggregate principal amount of all other Indebtedness secured by Liens permitted pursuant to this Section 4.6(e) which is outstanding at such time does not exceed 10% of Consolidated Assets at such time.

Section 4.7 Payment of OFA Expenses

In addition to any liability of the IESO to the OFA under any other provision of this Agreement, the IESO will, on demand, reimburse and indemnify OFA for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OFA in connection with the Agreement (including those services incurred in the preservation of rights under or enforcement of this Agreement at any time during the continuance of a Default or Event of Default and for any reasonable loss or expense incurred by OFA as a result of any failure by the IESO to fulfill any of its obligations under this Agreement). All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 4.9 Late Repayment of Advance.

In the event that the IESO fails to repay the principal amount of any Advance and all interest accrued thereon when due, the IESO shall pay interest on the unpaid amount of such Advance at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay under this Agreement. On the occurrence of an Event of Default, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, of the IESO's failure to pay under this Agreement and requesting the deduction of amounts equal to the amounts that the IESO has failed to pay under this Agreement.

The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO fails to pay to the OFA shall be deducted from the Appropriated Funds and paid to the OFA.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

- On November 28, 2017, IESO staff wrote to staff that without the terms of the OEFC facilities being amended, it would need to ask for an interim waiver from the OEFC to avoid being in default.

CONTEXT

- Under the FHP, the IESO and Ontario Power Generation (OPG) are interacting to refinance a portion of the Global Adjustment over a longer period of time.

- IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO sought and received its Board's approval on Nov 22, 2017 to enter into a security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the various agreements. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- The IESO provided a draft Security Agreement, dated November 7th, 2017, between them and the OPG Trust to OFA. According to the draft Security Agreement, in the unlikely event that the IESO runs into financial difficulty, the IESO would give OPG Trust a priority in the IESO's assets, including all accounts of the IESO and all cash and proceeds from LDCs, that would put OPG Trust ahead of unsecured creditors, including the OFA and the OEFC.
  - The security agreement is not limited to the Clean Energy Adjustment funds collected by the IESO only.

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid breaching the terms of the existing agreements with OEFC.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017 the IESO had requested that the OFA make similar changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- With the proposed new security agreement between OPG Trust and the IESO, OPG Trust would have a priority claim against the IESO's assets, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low.
  - The extent of this risk is subject to uncertainty at this time, given that the regulations that govern the payments related to the Fair Allocation Amount in each period, and how that relates to the obligations to the Financing Entity, are still under development.

- IESO is an agency of the government consolidated line-by-line in the Province's accounts.

- The OFA agreed to IESO's requested changes to the OFA credit facilities.

- OFA'S Capital Markets Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993* and any changes to the OEFC agreements should take this into account.

- According to the Minister's Directives associated with the OEFC Agreements, the loan and the credit facilities are "subject to such other terms as OEFC deems appropriate." Therefore, an amendment for permitted liens can be done under the existing directives, and new or revised directives from the Minister of Finance are not deemed necessary. This would be consistent with the approach when the pre-existing OFA-IESO credit facility agreement was amended for permited liens on November 6, 2017.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens".

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

Hi John. We have had internal discussions following your and my conversation yesterday afternoon regarding the finalization of the two OFA/IESO credit agreements (Amending Agreement #10 to the existing credit agreement; and the new $2 billion credit agreement for implementing the Fair Hydro Plan).

As discussed, we need urgently to finalize these credit agreements in order to avoid a funding shortfall for IESO in November relating to implementing the FHP. There will not be sufficient room under the existing OFA credit agreement – with its commitment of $975 million – to fund the amounts required by IESO in this regard.

Given this urgent funding need, we propose that OFA and IESO finalize the current drafts of the credit agreements and have them executed by both parties no later than Wednesday, November 1 in order to ensure that funds will be available for drawing by IESO in November.

We recognize that the on-going discussions with the OPG Trust about a possible grant of security over IESO's assets in connection with implementing the Fair Hydro Plan may result in the need for further amendments to the OFA-IESO credit agreements. However, we propose to amend the agreements as needed once we actually know what, if anything, is required in this regard.

We would appreciate it is OFA could let us know if it agrees with the above approach by Thursday this week in order that we may each proceed to take the steps required to finalize and execute the agreements, and maintain the timely funding of IESO's needs.

Regards,
Victor

Fyi, and pls. let me know if any concern.

Victor's comments seem reasonable to me. They are indicating that the discussion between OPG Trust and IESO has not settled. I do think about any risks that could result from continuing to go down this path and not sure I can come up with any. I wouldn't mind a reiteration from Legal back to Victor on the due process and approvals required on any future amendments to the credit facility or facilities in place [when the discussion between OPG Trust and IESO conclude].

Please keep Gadi in the loop on this. I will keep Ron in the loop.

Hi Victor,

With timely execution of the letter agreement by all parties, we will move to conclude the FHP credit facility agreement and amending agreement #10 by November 1st. Also, future amendments to these agreements would have to be considered when known at the time. The OFA will not make any assurances or representations to the IESO that such amendments would be made as a matter of right.

Let's aim to get the letter agreement done well before the end of this week.

Thanks,

John

Subject: Finalization of OFA-IESO Credit Agreements

Hi John. We have had internal discussions following your and my conversation yesterday afternoon regarding the finalization of the two OFA/IESO credit agreements (Amending Agreement #10 to the existing credit agreement; and the new $2 billion credit agreement for implementing the Fair Hydro Plan).

As discussed, we need urgently to finalize these credit agreements in order to avoid a funding shortfall for IESO in November relating to implementing the FHP. There will not be sufficient room under the existing OFA credit agreement – with its commitment of $975 million – to fund the amounts required by IESO in this regard.

Given this urgent funding need, we propose that OFA and IESO finalize the current drafts of the credit agreements and have them executed by both parties no later than Wednesday, November 1 in order to ensure that funds will be available for drawing by IESO in November.

We recognize that the on-going discussions with the OPG Trust about a possible grant of security over IESO's assets in connection with implementing the Fair Hydro Plan may result in the need for further amendments to the OFA-IESO credit agreements. However, we propose to amend the agreements as needed once we actually know what, if anything, is required in this regard.

We would appreciate it is OFA could let us know if it agrees with the above approach by Thursday this week in order that we may each proceed to take the steps required to finalize and execute the agreements, and maintain the timely funding of IESO's needs.

Regards,
Victor

Hello Lisa and Sarah N.,

On May 10, IESO notified us that Kimberly Marshall is no longer with the company (the only person we had documented to have signing authority). Anthony Martinello (IESO) was informed of the required documents to facilitate a new signatory. Yesterday, we received a Borrowing Notice with an advance date for tomorrow (May 18), signed by the their president and CEO. According to Anthony, their legal department is working on providing us with the required documents. However, he has informed us that there is a real possibility that the required documents may not be provided by today or tomorrow.

Could you provide some guidance as to how to proceed if the documents are not received in time or options available to us?

Thanks,

Will

Will,
I have requested our legal group to address your request and prepare an updated cert….it is pending.
I'm not sure this cert will be ready by today or tomorrow…let me know if this is a problem.
As for the IESO CEO signing the draw, the resolution you already have notes that the CFO delegate can sign and thus the IESO CEO (CFO's boss) is now signing the draws.

Regards.

Hello Anthony,

As per our earlier conversation, we would require updated signing authority documents.

Please provide the following:

1. Certified resolution of the board of directors for IESO authorizing both the Fair Hydro Plan Credit Agreement and for the Existing Credit Facility authorizing the signatory.
2. Updated Incumbency Certificate.

Attached is an example of the documents.

Thanks,

Hi,

The IESO's CFO, Kim Marshall, is no longer with the IESO effective May-1-2018.

We are actively recruiting for a CFO, but no CFO and no acting CFO is yet named……the new CFO is not expected to be in place until July 2018.

For the $2B and $475MM facilities, we will be drawing on these next week……..are you ok if I sign the OFA notices or do you require the IESO CEO (remember no CFO is present).

Please advise.

Thank you for the detailed figures, it has helped tremendously.

Exactly, when will you require the new $250 million to be advanced?

William,

1.
As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.
Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.

Plus any RRRP or other credit needs that may result during August.

3.
The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.
Currently, under the existing credit facility of $975 million a balance of combined balance of:

1. RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
   RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47

   I don't see the requirements of $260 million?

2. In mid-August if you add another $200-$250 million, what will be the new balance?

Hi Opal,

Anthony is reaching out to provide drafts of the agreements. While we have started to work on them here, we haven't received word on final sign-off from Ron/Gadi. Any word?

I'm cc'ing Lisa, as she also wasn't cc'd on IESO's request.

Thanks,
Sarah

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this

Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.

Hi Lisa,

Please see below the original email we received from Anthony at IESO in early November. As you can see at this time his suggestion was to "copy and paste the salient sections" from the IESO-OFA agreements that were updated for the fair hydro plan into the amendments to the IESO-OEFC agreements. In his email Anthony referenced both the 'Permitted Lien' and 'Intercept Provision' sections, but we have since agreed the intercept provision will not be included in the IESO-OEFC amending agreements. We are still waiting for final sign-off from Gadi, Ron and Mike on whether we can include the permitted-Lien language from the IESO-OFA amending agreements into the IESO-OEFC amending agreements.

Thank You,
Ryan

Hi Sarah,

Hope all is going well! In Lisa's absence, I am sending the OEFC credit facility agreement BN to you for review and comments.

The IESO has reached out to us to make the similar change to the definition of the "permitted liens" under the OFA credit facility agreement, which were signed recently. As a result, CEFD has drafted the attached note for IESO's request. Could you please review and let us know if you have any concerns?

Please note that IESO has indicated that they will seek their Board approval on Nov. 22 to grant the security/priority on IESO's assets to the OPG Trust, so we will need to resolve this as soon as possible.

Please let us know if you have any questions.

Thanks,

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested OEFC to amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations the IESO is taking on under Ontario's Fair Hydro Plan.

CONTEXT

The Fair Hydro Plan will require the IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). The IESO and OPG are in a discussion to potentially grant the security/priority on IESO's assets to the OPG Trust for the period of the first four years of the GA deferral. The IESO will seek its Board approval on Nov 22, 2017 for the security agreement and this would be in conflict with OEFC's $160M and $120M credit facility agreements (the "OEFC Agreements") with the IESO without the requested amendments. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust.

In order to address this issue, the IESO has requested OEFC to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the Fair Hydro Plan (FHP). Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations towards OPG. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. The OFA staff have recommended providing the requested amendments and amended the $475M and $2B credit facility agreements between OFA and the IESO on November 6th, 2017 (the "OFA Agreements"), as suggested by the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.

RECOMMENDATION

- To support IESO's role in the implementation and participation under the OFHP Act and also to be consistent with the approach OFA implemented , OFA staff are of the view that the exisiting OEFC Agreements require amendments to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the OFA Agreements that were signed recently.
- Although the OEFC credit facility is not used for OFHP's purpose, such change to the permitted liens is still required in order for IESO to meet its role and obligation under the OFHP Act.

BACKGROUND

- Currently, under the existing credit facility agreement between OEFC and the IESO, the definition of the "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

- On November 6, 2017, OFA and IESO signed an updated OFA IESO credit facility agreement with respect to changes related to OFHP.

Olga Whiteley (IESO) is asking if IESO can provide a Certificate of Incumbency without a Board Resolution to satisfy required sighing authority documentation. According to Olga their legal counsel are willing to provide the Board Resolution but it would "require some work" to redact non-essential information and to satisfy the deadline of June 18/19. Please let me know if this is possible.

Hello Anthony,

As per conversation regarding the required signing authority documents for Barb Anderson VP, & CFO on the election notices for June 20. Please provide completed documents for one of the following options below before June 20.

While option 6 is a suitable solution, it should be viewed as a temporary solution. Therefore, I recommend option 1, as a comprehensive long-term solution.

Options provided in May, 2018:

1. Certified resolution of the board of directors for IESO authorizing both the Fair Hydro Plan Credit Agreement and for the Existing Credit Facility authorizing the signatory and Updated Incumbency Certificate.
2. ~~A delegation of authority from the (former) IESO CFO to the IESO CEO (or other authorized signatories).~~
3. A general signing authority resolution of the IESO Board of Directors.
4. By-law or other document in place providing authorization to the IESO ~~CEO~~ CFO.
5. A certificate from the IESO Corporate Secretary stating that the IESO ~~CEO~~ CFO has signing authority.
6. A signature under seal of the corporation.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.

2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

I've reviewed these and they look fine to me. The last part of his 2nd question – can't he just do this himself?

Let's discuss.

Subject: RE: IESO Amendments
Importance: High

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.

2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Hi Anthony

I think we are close to getting the agreements signed. Could you ensure that the board resolution is provided to me as soon as possible? Also, to whom should the docs be couriered and what is the address to ensure the least amount of wasted time?

I've reviewed these and they look fine to me. The last part of his 2nd question – can't he just do this himself?

Let's discuss.

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly.

Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.

2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

HI Lisa,

Victor has signed off on the agreements, with the small formatting/corrective changes per 1. Below. The last draft is attached. Kelly is arranging for execution in counterparts. Hurrah!

Thanks,

Here are (hopefully) my final comments on the Agreements:

1. Re the Note Agreement (attached), I had to fix some formatting – the para (c) intro clause had accidentally been absorbed into the preceding section (b), so I broke it back out, and then opened quotes for the beginning of the 2.16 adder (there were close quotes but not open). Also, I had to insert the word "be" in the Note for correct grammar (it was in the main body language but not in the Note). I also removed one double period. Other than that, I just formatted it so the last page is not a signature block only.

2. Re the Revolving Credit Agreement, I am ok with that. Only question I have is what the Grid should look like to attach to the Note. When I print the Note for signing, there will not actually be any kind of real Grid showing numbers. Are you able to complete the Grid itself now and send it to me so I can have it for the signor to see when signing the Note ? Or is that not feasible or normal practice?

Thanks
Victor

Hi Sarah - could you resend the attachments you sent in your 4:58 email yesterday (shows up as 5:07 too). For some reason the Note Agreement is on a magenta background, and I want to make sure I am looking at the right documents. It's a long story but the problem may be on this end and it's best if you could just resend.
Thanks
Victor

Hi Victor,

Thanks for the revised drafts. Please note the following:

1. Re the Note Agreement For clarity, we've amended Section 2.17 to better show the breakdown of the calculation of the accrual of interest for the two calculations separate periods used for Part A (from April 30) and Part B (from May 1). Similar changes were also made to the form of Note.

2. Re the Revolving Facility – We agree with your changes
3. Certified Board Resolution – Looks good.

The Note and Revolving Facility have been tidied up for a few typos.

I think we are in good shape. Fingers crossed.

Regarding your question, yes, you should sign and deliver the actual two notes (i.e.as separate them from the forms of notes in each respective schedule). Given the rate is set on Monday for the $120M note, I am thinking that we leave the 'descriptor' the interest rate at the top of the note as the effective rate on the note (vs. the discrete interest rate) , but am going to verify tomorrow. It seems there's precedent for both in the past.

Subject: RE: IESO Amendments
Importance: High

Hi Kelly – per our call earlier this afternoon, I have amended both agreements to what I hope are now final versions.

1. Re the Note Agreement – as discussed, we agree with the latest changes you made to introduce the Part A and Part B Amounts – this resolves the interest issues very cleanly. Also, as mentioned, I added the stub period language that was inserted previously into the main body of the agreement into the Note itself, for consistency. And I fixed a couple of small typos which you'll see in the mark-up.

2. Re the Revolving Facility – I understand the Fair Hydro language I provided last night is acceptable to you, so I just accepted it. I also added the Counterparts language to the Revolving Facility that was in the Note Agreement in case we have trouble circulating the same documents to everyone in time tomorrow. Finally, I deleted the reference to the "market renewals program" in the Use of Proceeds section since we intended to remove reference to that from the agreement, but apparently missed one of the three references.

3. Certified Board Resolution – Per your email of a few moments ago, I correct the typo in the name of OEFC – see attached.

Important Question – in addition to signing the two agreements and the Certified Director's Resolution and Incumbency Certificate, do we not also have to sign the two actual Notes themselves? Ie. The $120million Note for the Note Agreement; and the $160 million Note for the Revolver? If so, can you provide those in execution form asap so I can include them in the final package for execution ?

Thanks,
Victor

Hi Victor:

Should I send everything to you, or Kim Marshall, or someone else once they are ready for execution? We are working on language to cover off the 2 components of the "new" $120MM note, consisting of the $90MM roll and the $30MM new money. We should have something fairly soon and hope to execute everything tomorrow.

Interest at such rate shall accrue daily and shall be payable in arrears in equal semi-annual instalments on June 30 and December 31 (each an "Interest Payment Date") commencing June 30, 2017, provided however that the calculation of the amount of the first such interest payment for Part A shall be in respect only of the period from and including April 30, 2017 to but excluding June 30, 2017, and for Part B in respect only of the period from and including May 1, 2017 to but excluding June 30, 2017 .

For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Note for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of an agreement providing for the issuance of a note dated April 1, 1999 between the IESO and OEFC and amended by an amending agreement dated March 23, 2000, an amending agreement dated April 23, 2009, an amending agreement dated May 1, 2011, an amending agreement dated May 1, 2013, an amending agreement dated April 30, 2014, and an amending agreement dated April 30, 2017 (as so amended, the "Agreement"), which Agreement provides for, among other things, the acceleration of the principal amount upon the occurrence of certain events.

This Note is not transferable or negotiable without the prior written consent of IESO.

IESO waives presentment for payment and notice of non-payment.

This Note shall be construed in accordance with and governed by the laws of the Province of Ontario and the laws of Canada applicable therein.

IN WITNESS WHEREOF IESO has executed this Note.

Hello Lisa,

IESO's CFO Barbara Anderson has been appointed as their permanent CFO. However, section 1 of the June 19, 2018 COI indicates her title as interim. Do we require a revised COI to reflect this change? The other attachment is a June 2017 Board Resolution appointing the CFO to have signing authority.

Thanks

Will

Hello Anthony,

As per conversation regarding the required signing authority documents for Barb Anderson VP, & CFO on the election notices for June 20. Please provide completed documents for one of the following options below before June 20.

While option 6 is a suitable solution, it should be viewed as a temporary solution. Therefore, I recommend option 1, as a comprehensive long-term solution.

Options provided in May, 2018:

1. Certified resolution of the board of directors for IESO authorizing both the Fair Hydro Plan Credit Agreement and for the Existing Credit Facility authorizing the signatory and Updated Incumbency Certificate.
2. ~~A delegation of authority from the (former) IESO CFO to the IESO CEO (or other authorized signatories).~~
3. A general signing authority resolution of the IESO Board of Directors.
4. By-law or other document in place providing authorization to the IESO ~~CEO~~ CFO.
5. A certificate from the IESO Corporate Secretary stating that the IESO ~~CEO~~ CFO has signing authority.
6. A signature under seal of the corporation.

" Resolution of the Board of Directors

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

AND WHEREAS ...[Recital redacted]...

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility ...**[Redacted]**... on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

MEMORANDUM TO: The Honourable Charles Sousa
Minister of Finance

FROM: Scott Thompson
Deputy Minister

SUBJECT: **Minister's Directives to the OEFC to Provide a Loan and a Revolving Credit Facility Extension to the IESO**

Attached for your review and signature, as recommended by staff, are Minister's Directives to direct the Ontario Electricity Financial Corporation (OEFC) to continue to provide both a loan and a revolving credit facility to the Independent Electricity System Operator (IESO).

OEFC's mandate includes providing financial assistance to Ontario Hydro successor companies, which includes the IESO.

The IESO has requested that the loan agreement and the revolving credit agreement be extended from the current expiry date of April 30, 2017 to June 30, 2020 (approximately 3-year term), with the loan amount increasing to $120 million (currently $90 million) and the revolving credit agreement increasing to $160 million (currently $95 million) in order to provide it with flexibility meeting its future cash requirements.

The extension and increase in the loan and revolving credit facility would support the IESO's short and medium term funding needs related to the implementation of its Market Renewals program and provide the IESO with flexibility to manage anticipated and unanticipated changes in funding needs.

Attached is a briefing note for your consideration, as well as Directives for your signature. Staff are available to answer any questions you may have regarding this matter.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR LINE OF CREDIT

TO: ONTARIO FINANCING AUTHORITY

WHEREAS pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013 (collectively, "the OPA Directives") the Minister of Finance approved and directed the Ontario Financing Authority (the "OFA") to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes;

Commented [SN1]: Note – I tracked this language from the directive dated Nov 28/2016. I have not been provided with copies of these directives. Could someone confirm that this is accurate.

AND WHEREAS effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("New IESO");

AND WHEREAS pursuant to the Amalgamation the obligations of the OPA became obligations of the New IESO;

AND WHEREAS pursuant to a further directive dated November 28, 2016 (the "IESO Directive"), the Minister of Finance approved and directed the OFA to, among other things, provide that the proceeds of the Loans may be used only for liquidity purposes;

AND WHEREAS the terms and conditions governing the Advances are set out in a Credit Agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Credit Agreement");

AND WHEREAS, the IESO has requested that that the OFA decrease the maximum aggregate amount of the Advances from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017* and clarify the use of proceeds of the Advances;

Therefore:

Pursuant to sub-section 16(2) of the *Capital Investment Plan Act, 1993*, the OFA is directed to:

- amend the Credit Agreement to decrease the maximum aggregate amount of the Loans from $975 million to $475 million; and

DRAFT

- amend the Credit Agreement to provide that the proceeds of Advances shall be used by the IESO for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time.

The Loans shall remain subject to all of the other terms and conditions set out in the Prior Directives and the IESO Directive.

Hello Gavin,

I would like to provide Anthony Martinello (IESO) with a status update for the Amending Agreement 10 (as we have had it for nearly two weeks now). I was wondering if it's possible to for Electricity Finance to may make a determination as to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.

Thanks,

Will

Hi Sarah and all,

Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.

Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?

Thanks,

Hi Sarah N.,

Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.

Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?

Thanks,
Sarah

Subject: IESO DIRECTIVE decrease line of credit

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Subject: IESO Directive and Credit Facility

Hi Lisa/all,

I thought I'd take this time to send around some background information that you may or may not have – just to ensure we're working from the same documents for reference.

Please see attached:

1) LRC Approval Form: Some background notes on the OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
2) Proposed OIC: OIC being recommended for approval for the June 27, 2017 LRC/Cabinet date.
3) Request Letter from IESO outlined some of the key terms of the proposed agreement. OFA agrees with the request.
4) To help facilitate, I used an older directive (Algonquin College from 2011), did a new version for this agreement. Defer to Lisa on the language though.

Timing:

- Unless otherwise instructed, we are looking to have the agreement in place for July 1, 2017 (business day: July 3, 2017).
- We're hoping that we can finalize the directive by next week. Both the agreement and the directive are expected to be worked on simultaneously.
- We should aim to get a first draft agreement to IESO as soon as we can as well.
- OIC should be in approved for Tuesday, June 27, 2017.

As I type this, I do not think we can have the directive signed before the OIC is approved since the directive makes reference to the OIC. Any thoughts on this are welcome.

Happy to discuss further once you have reviewed, as needed.

Thank you,
Salman

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

Order in Council
Décret

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

2. A Loan to IESO will only be made at the request and on the recommendation of the Minister of Energy.

3. The OFA will charge interest on the Loan equal to the Province's total cost of funds, including commissions, plus a twenty-five (25) basis point spread ("Spread").

4. All outstanding amounts, including principal and any interest, shall be repaid in full by no later than December 31, 2047.

Commented [SQ22]: Consistent with OIC.

Subject: FW: IESO FHP Credit Facility Agreement and Amending Agreement 10

Hi,
I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

- The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.
- The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.
- The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.
- The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of

this file? We may need to meet to discuss:

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.
Regards.

Section 3.4 Interest on Advances.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further

multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3) Business Days after the date on which written notice of such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,
Will

Hi - It also just occurred to me that we should also double check the various Directives issued to support the amendments to the IES0 $975 line made over the years to make sure/confirm that the proposed changes are not somehow offside what minister has directed.

Thanks very much

Hi,

I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

- The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.
- The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.
- The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.
- The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of this file? We may need to meet to discuss:

  (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

  (6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

  (7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

Will – see attached $2B draft for your review.

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Regards.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Hi,
Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).
It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.
Victor and I are reviewing today's draft.
Regards.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

Hi Lisa/Sarah H.,

We touched based with IESO and they told us that the OEFC agreements do not contemplate a general grant of security by IESO over its assets as is currently under discussion with the OPG Trust relative to the implementation of the OFHP. The changes required to allow for such a grant would be to amend the permitted liens and negative covenant language in the OEFC agreements so as to make it the same as, or very similar to, the language in the two OFA Agreements that were signed recently.

We will get a policy direction soon and will draft a note for you to review once it's ready.

Regards,
Gavin He

No, I don't think the OFA Lending Policy would apply to these OEFC loans. The OFA Lending Policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

Hi John,

We've received no internal direction on the nature of changes IESO is looking for in relation to existing OEFC credit facility with the IESO and the FHP. I surmise it may have to do with adjusting the agreement to allow FHP permitted liens (which we would need internal approval to do) or similar changes, but do you know if IESO communicated requirements to Gadi or Ron?

Will – unless any concerns, will appreciate if you please begin to draft the two OEFC amendments this week – given that the IESO is targeting to sign the OPG / IESO fair hydro agreement by this month's end,….we need to have the two OEFC's done before this.

Once we have completed the 2 OFA facilities and the intercept letter – we then have to turn to the 2 outstanding IESO-OEFC credit facilities to contemplate any further amendments too.

Just ensuring that these 2 OEFC facilities are not missed.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The IESO has requested OEFC to reopen the existing credit facility agreement between OEFC and IESO to make amendment to the definition of the permitted liens.

CONTEXT

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"), OFA recently amended the credit facility agreement between OFA and the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.

The OFA credit facility agreement was amended due to additional roles IESO is taking on under Ontario's Fair Hydro Plan. To fufil its obligation, the IESO will need a general grant of security on any lien arising from the IESO's role and obligations under the OFHP. Therefore, the OFA credit facility agreement was amended to allow for such a general grant of security.

For the same reason, the IESO has requested OEFC to reopen the existing credit facility agreement between OEFC and IESO to make the similar amendment. Specifically, adding a clause in the OEFC credit facility agreement that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OEFC.

RECOMMENDATION

- To maintain a consistent approach with IESO's credit facilities, CEFD staff and IESO are of the view that the exisiting OEFC credit facility should amend the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the two OFA Agreements that were signed recently.
- Although the OEFC credit facility is not used for OFHP's purpose, such change to the permitted liens is still required in order for IESO to meet its role and obligation under the OFHP Act.

BACKGROUND

- Currently, under the existing credit facility agreement between OEFC and the IESO, the definition of the "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.
- On November 6, 2017, OFA and IESO signed an updated OFA IESO credit facility agreement with respect to changes related to OFHP. Below are the related changes made to the OFA credit facility:

  Excerpt from the excuted OFA IESO Amending Agreement #10:

  > *The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (i); replacing the "." at the end of subsection (j) and replacing it with "; and" ; and adding the following subsection (k):*
  >
  > > *"(k) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."*

Hello Lisa

Below are the items I asked for below. Victor says that the Delegation of Authority may not apply here. I anticipate that IESO is offering to provide a IESO Statement of Policy as an alternative to Delegation of Authority? If so, according to the sample (provided in the past) which provides signing authorities and amounts would be a good alternative to the Delegation of Authority. Can you arrange to speak with Victor and please include me in the invite.
Resolution of the Board of Directors,
Certificate of Incumbency and
Delegation of Authority (IESO Statement of Policy).

Thanks,

Will

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.

Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.

I am not in the office today so please give me a call at 905-929-1434 this morning or between 2:00 and 5:30 this afternoon - or let me know who to call at what number.

Thanks
Victor

Thank you gentlemen. For your convenience please find the revised amending agreement.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

Please let me know if you require anything further or if you have questions.

Good morning Anthony,

I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.

Thanks,

Will

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:
Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2
This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.
"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

ONTARIO POWER AUTHORITY STATEMENT of POLICY			
Office of Primary Responsibility:	Business Strategies & Solutions	Policy No.	**FIN-05**
Section:	Corporate Governance	Effective:	Sept. 8, 2005
Approved by:	**Board of Directors**	Last Revised:	Oct 20, 2010
Subject:	**SIGNING AUTHORITIES**	Page:	1 of 6

1 PURPOSE

1.01 The purpose of this policy is to denote the type and level of authority delegated by the Board of Directors to specific OPA employees.

2 SCOPE

2.01 This policy applies to the Board of Directors and all employees of the company for all transactions made on behalf of the OPA.

3 POLICY

3.01 The Signing Authorities Policy table is, at all times, to be read in conjunction with the following statements of principle:

- All transactions approved by OPA employees must be in accordance with this Signing Authorities Policy and all OPA corporate policies in place at that time (e.g. Employee Code of Conduct, Business Expense Policy, Conflict of Interest, Human Resources, OPA Procurement Policy, etc.).
- The OPA Board of Directors holds ultimate responsibility for the affairs of the OPA. Article 5.1 of the Governance & Structure By-Law allows the delegation of certain powers or duties by the Board.
- The OPA Board has delegated authorities based on both the dollar value and the specific nature of a transaction. Irrespective of the transaction being within levels delegated by the OPA Board, in all instances, consideration must be given as to whether the transaction is of a sufficiently important nature to be brought to the Audit Committee of the OPA Board for recommendation of support for subsequent approval by the OPA Board. Guidance may be obtained from Finance department.
- All changes to the Signing Authority Policy require the approval of the OPA Board of Directors.

3.02 Except for temporary delegations of signing authority, in no instance may one hundred percent of the authorities delegated within this policy be delegated downward to the next level within the organization.

3.03 Unless otherwise authorized by the CEO, signing authority may be delegated to OPA employees only. On an exception basis, the CEO may authorize delegation of signing authority for specific items to those individuals or employees of other organizations who are performing work on behalf of the OPA.

3.04 No person is authorized to sign a cheque or otherwise authorize a payment to himself or herself or to a person or entity in which, under the OPA's Conflict of Interest policy, they have a material interest.

3.05 Signing authority may be delegated on a temporary basis by completing a "Delegation of Signing Authority" form. This form must include approvals of the delegating signing authority and the delegating authority's supervisor. Delegation for individual competitive procurement transactions can be done electronically within the accounting application by the individual delegating the authority and without the approval of their immediate supervisor.

3.06 No political donations of any type are allowed, regardless of the amount. No employee shall be allowed reimbursement, directly or indirectly, for any political donations. The definition of political donations includes any money paid or assumption of expenses incurred for goods or services in relation to any political party, constituency, or candidate for public office.

3.07 The CEO must approve all charitable donations made by the OPA in advance of such donation.

3.08 All legal agreements, except for previously approved standard OPA legal agreements, are to be submitted to Legal, Aboriginal & Regulatory Affairs for review prior to signature, regardless of the dollar value or the length of the agreement. All standard legal agreements with potential to have a significant financial impact are to be submitted to Legal, Aboriginal & Regulatory Affairs for review prior to signature. Standard legal agreements and purchase orders are to be used only in those circumstances determined by Legal, Aboriginal & Regulatory Affairs.

3.09 The signature of the authorizing individual, or in the case of the Board of Directors, a resolution or minutes attesting to the matter, signed by the Secretary of the Board, constitutes authorization.

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.

Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.

I am not in the office today so please give me a call at 905-929-1434 this morning or between 2:00 and 5:30 this afternoon - or let me know who to call at what number.

Thanks
Victor

Thank you gentlemen. For your convenience please find the revised amending agreement.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

Please let me know if you require anything further or if you have questions.

Good morning Anthony,

I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.

Thanks,

Will

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:
Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2
This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

DRAFT

"Resolution of the Board of Directors

Independent Electricity System Operator

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS the Corporation proposes to enter into a new credit facility with the Ontario Financing Authority or Ontario Electricity Financial Corporation to support the Corporation's role in the Fair Hydro Plan in an amount yet to be determined of between $1,800 and $2,500 million (the "**New Facility**");

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

AND WHEREAS …

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility … on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

(a) finalize, execute and deliver:

(i) all relevant agreements, instruments and other documents required for the establishment or amendment, as applicable, of the Credit Facilities, and

(ii) all ancillary documents, deeds and instruments determined to be necessary or desirable in connection therewith (the execution of any such document, deed or instrument being conclusive evidence of such determination),

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively

for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Hello Gavin,

The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.

I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

   The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such

regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,

Will

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Sarah

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively

for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hello Sarah N,

Below is background on a meeting on June 28 between Anthony (IESO), Sarah H, Lisa and Salman:

1. Capital Markets approved IESO's request to have a minimum 5 day and a maximum 95 day draw ($2 billion Credit Facility)
2. Anthony discussed in the event IESO funding needs were to exceed the $475 million before the current $975 million is reduced, IESO had another credit facility with TD that it would be able to draw on to fund any potential gap before the $2 billion facility is up and running.

Subject: RE: IESO : OFA new FH credit facility

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Regards

Hi William,

If the credit agreement cannot be put in place this week, the alternative would be to actually amend the $975 agreement to update "purpose" to include FHP. The facility can likely still be used as written for FHP but amending it would provide clarity.

When the new one is ready, we would move over any drawdowns related to FHP to the new facility.

Reducing the $975 to $475 before the new one is in effect would not work for IESO.

Regards,
Salman

This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Hello Lisa,

Sarah H is on vacation for two weeks, so I'm copying Kelly and JF on emails.
I've created a table for planning purposes and for managing our own schedules. According to Anthony's email below, he hopes to have the $2 billion credit facility set up by mid-August.
I'm trying to be aggressive with my time line to account for any slippage.

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B

line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September works. I am confirming as some extraordinary steps are involved.

Thanks,

John

I am writing in relation to the Independent Electricity System Operator's (IESO) request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.*

Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an~~The~~ intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement")~~,~~ on an unsecured basis, the OFA requires ~~the Ministry of Energy ("~~ENERGY~~")~~ and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing [$975 million] credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):
    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision"). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

- Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY's support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September works. I am confirming as some extraordinary steps are involved.

Thanks,

John

I am writing in relation to the Independent Electricity System Operator's (IESO) request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.*

Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an~~The~~ intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The OFA, IESO and the Ministry of Energy ("ENERGY") ~~-~~acknowledge and confirm that at this time there are no amounts appropriated by the Legislature for payment to the IESO [Energy to confirm] by ENERGY and the intent of such intercept~~-~~ provision is that it would~~-~~ apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Commented [ESP1]: Defer to Corporate?

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement")~~,~~ on an unsecured basis, the OFA requires ~~the Ministry of Energy ("~~ENERGY~~")~~ and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing [$975 million] credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):
    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision"). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.
    - If~~Under~~ the intercept provision is exercised, ~~which shall be included in the Loan Agreements,~~ the IESO ~~also~~ agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

DRAFT

- Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY's support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

- Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

- ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

- For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through any other agencies, bodies or other means.

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.

Appreciate your efforts to co-ordinate a timely approval.
Call me to discuss if needed.

Regards.

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.
Appreciate your efforts to co-ordinate a timely approval.

Call me to discuss if needed.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September works. I am confirming as some extraordinary steps are involved.

Thanks,

John

Hi,

Pls. take a look at this once again and let me know if you have any comments. Thus far, IESO has not provided any edits but seem to be indicating that they are getting close to being prepared to sign.

IESO has indicated the following and I will ask you to give it some thought:

"DRAFT - The Trust is looking for the IESO to give a 1st priority/security over all IESO assets including accounts receivables in favour of the Trust. This item is being discussed amongst all parties. If this proceeds, the IESO will have to amend/restructure its current credit facilities with TD Bank, OFA, and OEFC as all are unsecured pari-passu."

I am writing in relation to the Independent Electricity System Operator's (IESO) request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.*

Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. The intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement. The OFA, IESO and the Ministry of Energy ("ENERGY~~MOE~~") acknowledge and confirm that at this time there are no amounts appropriated by the Legislature for the IESO [Energy to confirm] and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment to the IESO in the future.

Commented [ESP1]: Defer to Corporate?

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement"), on an unsecured basis, the OFA requires the Ministry of Energy ("ENERGY~~MOE~~") and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY~~MOE~~ agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):
    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY~~MOE~~ agree that in the event that the Legislature appropriates any funds for payment to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision").
    - Under the intercept provision, which shall be included in the Loan Agreements, the IESO also agrees that any notice from the OFA to the Minister of Finance in relation to its failure to pay under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.
    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY~~MOE~~ and seek

DRAFT

ENERGY~~MOE~~'s support in getting the IESO to pay the amounts owing within a reasonable cure period.

- Upon receipt of notice from the OFA that the IESO has failed to pay in accordance with the provisions of a Loan Agreement, ENERGY~~MOE~~ will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO, including the intended purpose and expected timing of such payments to be made by ENERGY~~MOE~~. Upon request, ENERGY~~MOE~~ will provide similar information to the Minister of Finance.

- ENERGY~~MOE~~ acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment to the IESO, ENERGY~~MOE~~ will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested OEFC to ~~reopen the~~amend the existing credit facility agreement between OEFC and IESO (for $XX) to address the additional obligations the IESO is taking on under Ontario's Fair Hydro Plan.~~make amendment to the definition of the permitted liens~~.

CONTEXT

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"), OFA recently amended the credit facility agreement between OFA and the IESO [insert date] (the "OFA Agreement"). One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.

The OFA credit facility agreement was amended due to additional roles IESO is taking on under Ontario's Fair Hydro Plan. To fufil its obligation, the IESO will need a general grant of security on any lien arising from the IESO's role and obligations under the OFHP. Therefore, the OFA credit facility agreement was amended to allow for such a general grant of security.

For the same reason, the IESO has requested OEFC to reopen the existing credit facility agreement between OEFC and IESO to make the similar amendment. Specifically, adding a clause in the OEFC credit facility agreement that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OEFC.

RECOMMENDATION

- To maintain a consistent approach with IESO's credit facilities, CEFD staff ~~and IESO~~ are of the view that the exisiting OEFC credit facility ~~should amend~~requires amendments to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the two OFA Agreements that were signed recently.
- Although the OEFC credit facility is not used for OFHP's purpose, such change to the permitted liens is still required in order for IESO to meet its role and obligation under the OFHP Act.

BACKGROUND

- Currently, under the existing credit facility agreement between OEFC and the IESO, the definition of the "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.
- On November 6, 2017, OFA and IESO signed an updated OFA IESO credit facility agreement with respect to changes related to OFHP. ~~Below are the related changes made to the OFA credit facility:~~

~~*Excerpt from the excuted OFA IESO Amending Agreement #10:*~~

~~*The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (i); replacing the "." at the end of subsection (j) and replacing it with "; and" ; and adding the following subsection (k):*~~

~~*"(k) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."*~~

Commented [LS1]: I recommend moving this to the background section with less detail and explaining the purpose for the amendment on its own, as the IESO OEFC credit facility agreement is separate and needs to be amended on its own merits.

Commented [LS2]: See above.

Commented [LS3]: Is this the only amendment? I'll review again once re-drafted as per above comments.

Commented [LS4]: I don't think this is relevant here

Commented [LS5]: There are no prior references to the FHP Credit Facility Agreement. Again, as per earlier comments, please add a reference to a background section.

Commented [LS6]: Is it actually required?

Formatted: List Paragraph, Indent: Left: 0", Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Commented [LS7]: This is too detailed for a briefing note. I recommend deleting this.

Hi Lisa/Malle,

As part of the Fair Hydro Plan implementation, IESO has requested a revolving credit facility from the OFA to support its role in the implementation and participation under the FHP. IESO FAIR HYDRO PLAN CREDIT FACILITY
MINISTER OF FINANCE LENDING DIRECTIVE

The Independent Electricity System Operator (IESO) has requested a revolving credit facility in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). To accommodate this request, the OFA requires a Lending Directive from the Minister of Finance.

- The IESO is requesting the credit facility be in place by July 1, 2017, with an initial term of 5-years plus a contingency of three months (effectively expiring on September 30, 2022).

RECOMMENDATION

- OFA staff recommend the Minister sign the Lending Directive allowing the OFA to lend to the IESO.
  - This will help the IESO to fulfil the commitments under the OFHP Act as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

MINISTER'S DIRECTIVE

Minister of Finance's Lending Directive would authorize the OFA to provide a revolving credit facility in an amount of up to $2 billion with a maturity date of September 30, 2022. The Lending Directive will also include the following conditions:

- The interest rate charged to IESO on all advances will be based on the Province's cost of funds plus a twenty-five basis point (0.25%) spread.
- The credit facility agreement shall be subject to such other terms as the OFA deems appropriate from time to time.

FISCAL IMPACT

- There would be a relatively small but positive fiscal impact for the Province as a result of this credit facility.
  - The Province receives a small fiscal benefit by adding 25 basis points (i.e., 0.25%) to the Provinces cost of borrowing for funds provided to the IESO under the facility.

- Both the IESO and OFA are consolidated with the Province on a line by line basis. For the OFA and the Province, costs associated with the credit facility are recovered from the IESO. For the IESO, principal and interest associated with the credit facility are recovered from electricity ratepayers.

DETAILS AND ANALYSIS

- On May 31, 2017, the government passed the OFHP Act to enable the implementation of the Ontario Fair Hydro Plan, which will lower electricity bills by 25 per cent on average for eligible residential customers. Eligible farms and small businesses will also receive benefits (essentially for those eligible for the Regulated Price Plan).
- Under the OFHP Act, the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment ("GA") charge to ratepayers will be deferred to the future.
- During this period, GA amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The OFHP Act gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset (i.e., the shortfall) to a financing entity.
  - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
  - The cash received from selling the regulatory asset will be used by the IESO to fund the incurred GA shortfall.

- Although IESO will not need long-term borrowing for its role in this process, it is expected to need short-term financing to manage initial and ongoing IESO cash flow requirement timing differences.
  - The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation).
  - Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO.
  - Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

Current Status

- An existing credit facility between the IESO and the OFA is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO has proposed that a separate and additional credit facility be provided to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and tracking of related interest costs.
- As a result, the IESO has proposed to reduce the current $975 million credit facility by $500 million and create a new FHP facility in the amount of $2 billion.
  - The $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP.
  - Specific terms of the agreement are being negotiated between the IESO and OFA.

	OFA: IESO Facility	**New Proposed FHP Facility**
Current Credit Facilities	$975 million	$ -
Reduction due to FHP	$(500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Total Credit Facilities	**$475 million**	**$2,000 million**

BACKGROUND

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

Chief Executive Officer

SUBJECT: **Minister's Directive to OFA to provide IESO a Credit Facility Extension**

Attached for your review and consideration is a memo to the Minister of Finance recommending that the Minister direct the Ontario Financing Authority (OFA) to provide the Independent Electricity System Operator (IESO) a revolving credit facility in an amount of up to $2 billion. The credit facility is being requested by the IESO and will be used to support its role in the implementation and administration as prescribed under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act").

Under the OFHP Act, the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment ("GA") charge to ratepayers will be deferred to the future. DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

DRAFT

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

Dated:

Charles Sousa
Minister of Finance

I think the steps we would take to allow it, if at all, could be quite onerous and time-consuming. Are there any specific concern they have that we should be able to address without actually letting them see the agreement?

John, William,

TD Bank has asked to review the $2B Fair Hydro credit facility executed between IESO and OFA.

TD wants to gain comfort (themselves) that the credit facility is going to support the IESO's fair hydro transactions during the next 4 years.

I have verbally assured them of the above, but they wish to review themselves.

Let me know if I may share and TD will treat the document as confidential.

Just a courtesy email …nothing to do yet.

The IESO:OFA Fair Hydro line of credit is at about $1 billion drawn out of the $2 billion max capacity. We are drawing on avg about $200-300million/month.

The Fair Hydro Trust has not purchased the IESO's reg asset for a few months….if this continues I will be coming back to OFA to seek to increase the line of credit.

Hello Anthony,

As per conversation regarding the required signing authority documents for Barb Anderson VP, & CFO on the election notices for June 20. Please provide completed documents for one of the following options below before June 20.

While option 6 is a suitable solution, it should be viewed as a temporary solution. Therefore, I recommend option 1, as a comprehensive long-term solution.

Options provided in May, 2018:

1. Certified resolution of the board of directors for IESO authorizing both the Fair Hydro Plan Credit Agreement and for the Existing Credit Facility authorizing the signatory and Updated Incumbency Certificate.
2. ~~A delegation of authority from the (former) IESO CFO to the IESO CEO (or other authorized signatories).~~
3. A general signing authority resolution of the IESO Board of Directors.
4. By-law or other document in place providing authorization to the IESO ~~CEO~~ CFO.

5. A certificate from the IESO Corporate Secretary stating that the IESO ~~CEO~~ CFO has signing authority.
6. A signature under seal of the corporation.

" Resolution of the Board of Directors
Independent Electricity System Operator

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS the Corporation proposes to enter into a new credit facility with the Ontario Financing Authority or Ontario Electricity Financial Corporation to support the Corporation's role in the Fair Hydro Plan in an amount yet to be determined of between $1,800 million and $2,500 million (the "**New Facility**");

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

AND WHEREAS ...[Recital redacted]...

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility ...**[Redacted]**... on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

(a) finalize, execute and deliver

(i) all relevant agreements, instruments and other documents required for the establishment or amendment, as applicable, of the Credit Facilities, and

(ii) all ancillary documents, deeds and instruments determined to be necessary or desirable in connection therewith (the execution of any such document, deed or instrument being conclusive evidence of such determination),

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

Hi Lisa,

I'm sending this to you for a quick discussion re: material subsidiary. Don't bother opening it; I'll come down and quickly explain. Whether we keep or strip Material Subsidiary, the compare shows all the additions of this.

Hi Sarah,

Question for you. I understand that advances in this agreement have a minimum of 7 days and a maximum of 95 days in length. In my mind the advances are fairly short and will mature fairly quickly. However, according to the proposed FHP OIC materials it indicates a maturity of Dec 31, 2047. I left some comments in the draft as well. We can discuss this in the morning.

Also, may I come in an hour later as I stayed late to work on this.

Thanks,

Will

HI Will,

On Monday, you initially mentioned that you thought you could provide a draft of the new credit facility today, but some things have gotten in the way. Please let me know what is on your plate (might be coming up) so I can re-delegate if needed. As mentioned, the credit facility is a high priority item which is time sensitive as it must be in place by June 30, and it must be vetted through OFA legal and negotiated with IESO.

Are you able to get provide a draft by tomorrow at 11 a.m.?

Also, please let me know if you have any questions or require any guidance on any points – if you feel it may be beneficial for me to review your draft to this point, I would be happy to do so.

Thanks,
Sarah

Thanks Victor. On #2, OFA's internal discussions are coming to an end is my understanding.

Tom, just wondering how things are on your side.

On the #1 and #3, once #2 gets done, it would be taken care by my colleagues at the OFA, I believe.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself – so we will need to see a revised version of this document;

(ii) Intercept Letter – I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement – we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language – I understand that is expected to be available soon.

Hi,

Pls. have a look at the latest and let us know if you have any comments.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Could we all have a final look and consult in respective shops?

Thanks,

John

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph – please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Victor

I am writing in relation to the Independent Electricity System Operator's (IESO) request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.*

Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an~~The~~ intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The ~~OFA,~~ IESO and the Ministry of Energy ("ENERGY") confirm and the OFA acknowledges ~~and confirm~~ that at this time there are no amounts appropriated by the Legislature for payment to the IESO [Energy to confirm] by ENERGY and the intent of such intercept~~-~~ provision is that it would~~-~~ apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Commented [ESP1]: Defer to Corporate?

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement")~~,~~ on an unsecured basis, the OFA requires ~~the Ministry of Energy ("~~ENERGY~~")~~ and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing [$975 million] credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):
    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision"). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.
    - If~~Under~~ the intercept provision is exercised, ~~which shall be included in the Loan Agreements,~~ the IESO ~~also~~ agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

DRAFT

- Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY's support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

- Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

- ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

- For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY ~~or through any other agencies, bodies or other means~~.

Hi Tom,

I'm getting the letter signed in a few minutes. So ETA is this afternoon.

Also, Ron pointed out that this agreement could be executed in part which I understand to mean separately so will fire that off to both Energy and IESO.

John,

Coming out of this morning's rate mitigation meeting, I understand that the draft is final and that we are supposed to be getting an execution copy for Steen to sign sometime shortly? I have been asked to inquire as to what the ETA for that might be?

Thanks!
Tom.

Sure, pls. use that. Could we ensure that we have the right version? This is the latest I have.

Also, we should consider the amendment happening after the letter agreement. Is that everyone's understanding?

Just to be clear, John, I am asking in part because, as part of producing final docs for signing, I would like to ensure that the language in the Intercept Letter is consistent with the Intercept clause in the credit agreement.

Thanks Victor. On #2, OFA's internal discussions are coming to an end is my understanding.

Tom, just wondering how things are on your side.

On the #1 and #3, once #2 gets done, it would be taken care by my colleagues at the OFA, I believe.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Hi Maryam and Tony,

I would like to request your opinion on the following drafting matter re: loan agreements. I have been advised by Capital Markets staff that the following language has been removed from OFA debt documentation:

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the Borrower shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the Criminal Code (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Do you know if this was based on MOF Legal advice? Do you have any background regarding this change? Do MOF loan precedents still contain such language?

Thank you,

Lisa

Attached is Cash Management confirmation that they have no concerns regarding the two day roll-over.
Settlements has no concerns either.
James Devin has informed IESO that OFA is fine with the roll-over.

Subject: FHP Agreement, 5-day minimum period exception

Hello all,

IESO has asked OFA for a one-time exception to waive the minimum period for advances of 5 days (FHP Credit Facility Agreement). IESO has asked for an advance period of 1 day, so it may use money expected from OPG to repay its advance on the same day it matures.

IESO's current outstanding advance of $322M, matures on March 21, 2018. IESO will require an additional advance of $208M (to pay power generators) for a total of $530M, but will only require this for 1 day because IESO expects to receive funds from OPG to repay its advances on March 22. Rather than incurring additional interest costs of

borrowing until March 26, 2018 (5 day minimum), IESO would prefer to match the maturity of its advances and expected cash inflow from OPG.

Please let me know if your respective areas have any concerns or issues from an operational standpoint.

Hello Salvatore,

I spoke to Olga (IESO). She informed me that $322M, matures on March 20,(not March 21, previously reported). IESO would need to borrow $530M for 2 days (not 1 day, previously reported) for a maturity of March 22. Please let me know if your area has concerns from an operational standpoint regarding this.

Thanks,

WIll

Subject: FHP Agreement, 5-day minimum period exception

Hello all,

IESO has asked OFA for a one-time exception to waive the minimum period for advances of 5 days (FHP Credit Facility Agreement). IESO has asked for an advance period of 1 day, so it may use money expected from OPG to repay its advance on the same day it matures.

IESO's current outstanding advance of $322M, matures on March 21, 2018. IESO will require an additional advance of $208M (to pay power generators) for a total of $530M, but will only require this for 1 day because IESO expects to receive funds from OPG to repay its advances on March 22. Rather than incurring additional interest costs of borrowing until March 26, 2018 (5 day minimum), IESO would prefer to match the maturity of its advances and expected cash inflow from OPG.

Please let me know if your respective areas have any concerns or issues from an operational standpoint.

Best regards,

Will Tan| *Documentation & Analysis Specialist*

Yes I think it would be helpful to have a call to discuss that section 14 just to ensure we are all on the same page about the mechanics and the language.

In the meantime, I accepted everything that appeared to me to be settled and did some formatting, including fully justifying all paragraphs (since it was a bit of a mixed bag), and indenting and adding quotes around some of the adders as needed. All changes should be tracked.

Look forward to finalizing this tomorrow.

Victor

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date."

8. Section 5.2 "Acceleration of Maturity; Recission and Annulement" of the Credit Agreement is deleted in its entirety and replaced by the following:

"If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, take any or all of the following actions:

Please see our proposed amendments to AA#10 in the attached document. I have attempted to reflect in s.14 those issues that came up yesterday on our call in relation to the timing and documentation of the separate transactions. Whether it is right may depend in part on what Sarah's internal discussions yielded re these issues (i.e. we were thinking that all transactions will occur on the 21st and so drafted accordingly).

It may make sense for me to walk through this with one or more of you just so we aren't delayed. I am available for a call anytime this afternoon except from 2:30 to 3:00.

Hi Will,

Please find attached amending agreement #10 with the latest updates. We should still wait to send these to IESO until we know how we are going to proceed regarding the intercept provisions.

On another note, have the borrowing notice and election notice already been updated to reflect the new credit facility agreement notice language?

Thanks,

Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?

2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,

Will

William,

1.

As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million

2. RRRP amount o/s = $6.6 million

2.

Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.

Plus any RRRP or other credit needs that may result during August.

3.

The transfer of the RPP (Fair Hydro) amounts to the “Financing Entity” is now expected to occur sometime during Sept/Oct.

For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.

Currently, under the existing credit facility of $975 million a balance of combined balance of:

1.

RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78

RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47

I don't see the requirements of $260 million?

-

2. In mid-August if you add another $200-$250 million, what will be the new balance?

3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

-

Call me if it’s easier for you. 416-325-8090.

Hi Salman - Documentation tracks and administers the borrowing OICs. Lenin asked me about the IESO Credit Facility back in the summer and Lisa was assigned as a result of the inquiry (so I've copied her as well). I am not sure but I think Lenin may be away, so I am copying Sarah Harris with your query.

Please let me know if you require anything further.

Subject: OFA Loans and OIC

Hi Sarah,

Hoping you could help or point me in the right direction on this. I'd be happy to give you a call or come up to your office to quickly discuss…

There are two questions I am trying to answer:

1) If my understanding of the legal authorizations required for OFA to lend to entities is correct and that an OIC is needed for any lending the OFA intends to do; and
2) If my understanding is correct, would you have any documents/records to show that a certain OIC was done for the OFA-OPA (now IESO) facility

<u>Background for my two questions:</u>
My current understanding the legal requirements to do an OFA loan (pre- drafting an agreement). It is my understanding that:

- An OIC must authorize the Minister of Finance to lend to the OFA.
- Minister of Finance's Directive must then direct OFA to "on-lend" to Borrower subject to terms and conditions.

I assume this is the case and with that, I was trying to look for the OIC that would have been completed for the OFA to provide the current $975 million (originally could have been $475 million) revolving credit facility to the IESO (previously OPA). I don't think it was an specific one for this on-lending and it may be an old one. I have attached the most recent OIC that I could find and it makes reference to:

WHEREAS pursuant to Order in Council 675/97 made under subsection 22(1) of the Capital Investment Plan Act, 1993, the Minister of Finance is authorized to lend Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the Ontario Financing Authority (the "OF A");

And based on OIC tracking that I had seen in 2013 by OFA Documentation, this $975 million is included under that amount.

Thank you,
Salman

Hi Caroline,
Lisa may have seen this at some point but I don't have her sign-off.
My question to Lisa for Section (d) (ii) (B) is no longer applicable and has been resolved (details attached). This section related to if OFA would charge a 25bps spread on the loan to IESO.
I imagine the signature date would be the same date as the signature date of the $2 billion FHP Credit Facility is signed?
For your reference is the signed copy of the $2 Billion OIC.
Thanks,
Will

Hi Will,
I see that there are questions directed to Lisa in the promissory note. Did Lisa review it already or did you have a chance to discuss these questions with her?
Is this promissory note based on a recent precedent?
Thanks,
Caroline

Ken provided instructions not to retain the 25bps for the $2.0 B,
OFA will charge the 25bps spread but the 25bps will go towards interest on debt.

Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 31 décembre 2047;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

DRAFT

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Spread as set out above.

This is note that Sarah an I met with Mike Manning, Linda Smith and Carlos Yep on the topic of 25bps OFA would charge on advances to IESO and the difference paid to the Province of Ontario. Mike deferred to Ken Kandeepan for a decision.

Ken provided instructions not to retain the 25bps for the $2.0 B,
OFA will charge the 25bps spread but the 25bps will go towards interest on debt.
OFHP IESO Credit Facility because we currently generate enough profit to cover out operations.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

~~The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.~~

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS1]: Program area to confirm; differs from LRC form

Commented [SQ22R1]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [SQ23]: Should this be mentioned in the second Whereas recital?

Commented [LS4]: Program area

Commented [SQ25R4]: This is a revolving credit facility, rates would be established as the OFA deems necessary, as set out in the Credit Agreement.

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision; program area to confirm.

Commented [SQ28R7]: Not Advances. Only the Agreement itself.

Commented [LS9]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

Commented [SQ210R9]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than ~~five years after the execution of the Credit Agreement~~September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Dated , 2017

Charles Sousa

Minister of Finance

Commented [LS11]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

Commented [SQ212R11]: We made the decision to do the OIC for the entire OFHP period in order to avoid going back to LRC for a new OIC as we expect the requirement for a credit facility will be there.
The Directive is more aligned with the ask from IESO, and is meant to be a little tighter on the terms.

As per IESO request and previous drafts, this should say September 30, 2022.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ215R14]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

DRAFT

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Spread as set out above.

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,
Sarah

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,
Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,
Sarah

Commented [SH8]: Deleted (b), since this is reflected in (d)

Commented [LS9]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [SH10R9]: Changed per discussion with Lisa, based on Carlos' description of application of interest rate.

Commented [WT17]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Hi Will

I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.

As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to

whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

> **Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)?** This decision ultimately needs to be made by business/policy people.
>
> - **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
>
> - **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

> **Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)?** This decision ultimately needs to be made by business/policy people.
>
> - **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. Lisa, once Ken and Mike weighs-in, will we need and will you be drawing up the intercept language? If yes, how long will that take approximately? (if any impact at all, dramatic new language, another round of reviews, how long to draw up etc.)
How will the reply from Ministry and Energy & IESO impact our agreement? (if any impact at all, dramatic new language, another round of reviews, how long to draw up etc.)

Subject: FW: Policy question re OFHP Credit Facility Agreement
Date: Wednesday, August 09, 2017 9:48:20 AM

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that the OFA decision makers (i.e. Ken K., Mike M.) have considered the OFA Lending Policy (as per my earlier e-mail below), and have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under the loan agreement, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that this point, as well as the insolvency and operational risks, have been considered. Toby has summarized the questions to be considered during the call in the e-mail which I have forwarded below.

Hi Will

I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.

As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

I have sent this in reply to Ken's email, but limited the list to you three so that you can share and discuss as you see fit.

To clarify, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Let me know if that makes sense, or if I can explain the process further.

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such

that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

I have sent this in reply to Ken's email, but limited the list to you three so that you can share and discuss as you see fit.

To clarify, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Let me know if that makes sense, or if I can explain the process further.

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hi,

Documentation is not holding either of the Prom Notes in its vault.

A while back, we reached out to Sarah Neville and Malle to see if they may have them but are unaware if they had any luck locating the notes.
We have an unexecuted copy of the one associated with OIC 675-97 per attached.

For the OIC 767-99 we do not have any record/copy of the Prom note but it would be for 650M with ultimate repayment date of 8/31/2029 an my guess would be it was done around April 21, 1999.

We are unsure which loans were allocated to each OIC but have an aggregate spreadsheet for the two OIC's together. I have asked Daki in CF (somewhat circular given Mara forwarded the request) to check the documentation and their records around the Ottawa Convention Centre (we have no file for OCC at this end) to see if any OIC is specifically mentioned. I will let you know the findings.

Can you double check the Prom Notes (originals) at the LSB side to see if any of them match up to details above and let me know?

Regards,

Andrea

Hi Sarah and Malle,

As we have been working on the documents and OIC for the new OFA-IESO FHP credit facility, I was looking at the existing OFA OIC 675/97 (see page 10 of the attached .pdf) which underpins the existing 975M OFA-IESO credit facility as well as various other OFA loans. While there are no active IESO advances under this loan, there are other active OFA loans to third parties under this OIC.

Accompanying the 675/97 (on p. 14 of the attached .pdf) is a form of prom note issued by the OFA to the Minister of Finance on any loans the OFA borrows from the Minister in relation to that OIC. I am trying to locate the executed prom note for this OIC675/97. We have looked in the Documentation safe and it is not in there.

Would you have any record of this prom note having been executed?

Thanks,
Sarah

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that:

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow Six Hundred and Fifty-six Million Dollars from the Minister of Finance and has been authorized to do so by a borrowing by-law in accordance with the Act and approved by the Minister of Finance;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Six Hundred and Fifty-six Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(d) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of advance to (but excluding) the date of repayment, the Advance shall bear interest at a per annum rate equivalent to the interest rate paid on ninety day Province of Ontario treasury bills (determined as at the auction date immediately preceding the date of the Advance), provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the interest rate paid on ninety day Province of Ontario treasury bills as at the auction date immediately preceding the Reset Date for such ninety day period;

(ii) in the event that moneys included in an Advance are subsequently loaned by the OFA to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the OFA to the Province on the portion of the Advance so loaned may be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the OFA under the Third Party Loan, or

(B) the per annum rate of interest payable to the OFA under the Third Party Loan less 25 basis points,

until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

(e) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

Attached for your approval and signature is an Order in Council (OIC) authorizing the Province to lend up to $656 Million to the Ontario Financing Authority ("OFA").

The amount authorized to be borrowed by the OFA from the Province will provide financing to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies. The borrowed funds can only be on-lent to these public bodies by the OFA for projects that have received approval from Management Board of Cabinet or the Minister of Finance or for specific lines of credit for cash management purposes.

The attached material contains supporting briefing notes and schedules. Staff are available to brief you should you have any questions regarding the OIC.

If you approve this request, will you please sign the proposed OIC so that it may be place on the agenda for the Cabinet meeting scheduled for March 10, 1999.

Deputy Minister

ONTARIO FINANCING AUTHORITY

Issue:

An Order in Council (OIC) authorizing the Ontario Financing Authority (OFA) to borrow up to $656 million from the Province.

Comments:

- The OIC for $656 million will fund the OFA's lending requirements for the 1999/2000 fiscal year.

- The $656 million will be loaned to meet Government committments to Ontario Housing Corporation, Ontario Northland Transportation Commission and other public bodies as per attached schedule showing the projected use of funds for these organizations as well as the previous fiscal year advances.

- The OFA lends funds to public bodies, as an intermediary of the Province subject to the conditions and restrictions of the OFA Lending Policy.

- The OFA Lending Policy requires that the OFA Board approve an annual borrowing plan for the OFA that identifies;

  (i) the OFA's borrowing requirements for the year from the Province and any other sources; and

  (ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

- All necessary OFA Board and Management Board approvals must be in place before the OFA will execute this borrowing authority and on-lend funds to any government agency.

- Interest will be paid by the OFA to the Province under one of the following rates:

  - the Provincial 90-day Treasury Bill rate,
  - the rates charged by OFA on the corresponding loans by the OFA to government agencies, or
  - less 25 basis points on the said loans.

  This flexibility will allow the OFA to match the terms of the loan from the Province to the terms of the loans made by the OFA to government agencies.

RECOMMENDATION:

- Approval of the OIC authorizing a loan up to $656 million to the OFA.

1999-00 REVIEW OF OFA LENDING POLICY: FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

Issue

- Review of the OFA Lending Policy for lending activities undertaken where the OFA is acting as an intermediary of the Province.

Recommendation

- It is recommended that the OFA Board make no changes to the current OFA Lending Policy for the year 1999-00. No amendments are required to the Lending Policy since it still accurately reflects the lending activities of the OFA, and no change is anticipated in those lending activities.

Background

- Under the current Lending Policy, the OFA:

  (i) does not lend to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board;

  (ii) advances loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan; and

  (iii) does not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

- The Lending Policy requires that an annual borrowing plan for the OFA be provided to the OFA Board for approval along with a report outlining the status of all loans outstanding.

- Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

- Where the Province has approved Provincial financing to a public body without specifying the role of the OFA, the OFA will advance the loan if:

  – the CEO of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

- there is sufficient allocation for the loan in the annual borrowing plan.

- The OFA will adhere to the lending terms and conditions outlined in the Lending Policy unless otherwise requested by Cabinet, Management Board of Cabinet or the Minister of Finance.

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that:

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow Two Billion One Hundred and Sixty Million Dollars from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus accrued interest shall be fully repaid by August 31, 2027;

(c) the OFA shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal amount of the loan outstanding at any time shall not exceed Two Billion One Hundred and Sixty Million Dollars;

(d) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills (determined as at the auction date immediately preceding the date of the Advance), provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills as at the auction date immediately preceding the Reset Date for such ninety day period;

(ii) in the event that moneys included in an Advance are subsequently loaned by the OFA to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the OFA to the Province on the portion of the Advance so loaned may be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the OFA under the Third Party Loan, or

(B) the per annum rate of interest payable to the OFA under the Third Party Loan less 25 basis points,

until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

Hi Sarah,

It appears very likely that the loan the OFA advanced to the Ottawa Congress Centre in 2011 will be forgiven.

Per the email from MoF legal (Dimitri) below, we are trying to identify the promissory note and OIC under which OFA borrowed money from MoF for the purposes of the OFA loan.

Can you or someone on your team help?

Please let me know if you need more details about the OCC loan.

Thanks

Mara

Hi,

Jeff and I were wondering if there is a way to identify the prom note and OIC under which OFA borrowed money from MOF for the purposes of the loan. We have some old promissory notes here but they are for large amounts and they don't identify the on-lending. The agreement is dated from 2011, if that helps.

Thanks,

Dimitri

Subject: Questions re Intercept Provision

Hi,

Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.

   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   > *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts*

equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset. Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of

indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?

    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the

intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it

may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Victor,

Thank you for the update. When you send the soft copy signatures, would it be possible to include the signatures within the agreements?

You were probably going to include the following signed soft copies anyway but out of caution I have listed them below:

- Resolution of the Board of Directors
- Incumbency Certificate
- Intercept Letter
- $2 B Grid Note
- $475 MM Grid Note

Hardcopy of the Intercept Letter and $2B Grid Note – overnight delivery is fine.

Per s. 16 AA #10 - Anthony and I discussed on Friday that $475MM Grid note would be signed today but held by IESO until November 21. After the borrowing notice and election notices are actioned, OFA will produce the grid notes to evidence payment and advancements. IESO will then send the new $475MM prom note to OFA. Once received OFA will send the $975MM cancelled prom note to IESO.

Thanks,

Will

ADVANCES

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date**"). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) to file and prove a claim for all amounts owing under this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any monies or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of even date herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

(e) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or

inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail.

Hi Sarah. I have attached what I believe should be the final version of the FHP Credit Facility Agreement (subject to OFA's acceptance and minor adjustments).

The nature of the corrections are mostly evident on their face, though in a couple of cases I inserted a brief note to explain the correction. Changes to the Schedules were to align with the approach in AA#10.

Feel free to call me if you have any questions. I'll be in the office today until shortly after 5:00. I will follow-up with minor fixes to the Amending Agreement No.10 document shortly.

Regards,
Victor

Subject: Touch Base

Hi Anthony and Victor,

Will is sick today, so I wanted touch base with you on the agreements and the directive.

Firstly, the directive as at this point has not been signed. I am following up regularly to get information about the status of execution in our Minister's office and will let you know as soon as I hear anything.

In the meantime, I thought it would be helpful if we could get the agreements in an execution format so that we can promptly execute both agreements once the directive is signed. To that end, could you please confirm if you have any further comments on either of the drafts? Once you are signed off, we request that you please send clean electronic execution versions (insertion of execution date notwithstanding) that we can do a final review. When the directive is signed:

- we would then ask if you could please insert the execution date, where appropriate, on each agreement
- print out two originals of each agreement and partially execute the agreements
- send us the two originals of each agreement, along with your evidence of signing authority.
- upon receipt, we will fully execute all originals, and send you one fully executed original of each agreement (and will send you scanned executed versions immediately)

Please let me know if you have any concerns regarding any of the above.

Thanks,

Sarah

Commented [VB5]: IESO is not actually certifying in accordance with the language in s.2.2, so this should be fixed in accordance with one of the options in order to be accurate.

Commented [WT6]: Amended as per previous comment.

Commented [VB7]: This appears to be the same as the definition of "Advances Outstanding" so ordinarily should use the defined term - see also item (v) of Grid Note. If this is different than the defined term, let us know.

Commented [WT8]: Amended as per previous comment.

Commented [WT9]: Comment amended as per email.

If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).
