Hi Lisa,

Following our telephone conversation I raised the issue with Sarah and we agreed that we should move forward with deleting and replacing the definition of "Ontario's Fair Hydro Plan" with the definition of "OFHP" (Ontario Fair Hydro Plan Act, 2017). This will require also deleting and replacing paragraph 3.6(c) of the Agreement so it now references the Act rather than the Plan. When we send our draft amending agreement to IESO we will explain with a comment our reasoning behind the change (at the time of drafting Amending Agreement No. 6 in April 2017 the Act had not come into effect).

Please review the revised draft attached and let us know your comments.

Thank You,

Hi Will,

Please see attached my suggested black-lined amendments and comments on the draft waiver.

In addition to the attached comments, have you considered how this daylight borrowing period will work from an operational point of view, for both the new Proposed Advance and the Continued Advance? Will interest still be applicable and how will it be calculated? Do we need to specify further details in the waiver?

As I will be away on vacation starting tomorrow, I have copied Caroline on this e-mail. As previously noted, she will be able to assist you in my absence.

Thank you,

Lisa

OFA -- IESO CREDIT FACILITY ~~IES~~MINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

BACKGROUND

Pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013, the Minister of Finance ("Minister") approved and directed the Ontario Fiancing Authority ("OFA") to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

~~The Independent Electricity System Operator (IESO)~~The IESO had requested a new revolving credit facility ~~("the credit facility")~~ in an amount of up to $2 billion from the ~~Ontario Financing Authority ("~~OFA~~")~~ to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

On June 29, 2017, the OFA received ~~a Lending d~~Directive from the Minister ~~of Finance~~ to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the ~~OFA~~Minister ~~of Finance~~to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an ~~from the i~~Intercept p~~P~~rovision ~~both~~ in ~~its OFHP Credit Facility~~ the OFHP Ceredit F~~f~~acility agreement with the IESO, as well as ~~and~~ the ~~reduced $475 million credit facilit~~Original ~~y~~Credit Facility Agreement, both of which may be amended from time to time~~.the new $2 billion credit facility to support the IESO's role in the Fair Hydro Plan and the reduced $475 million credit facility~~. ~~[The existing $975 million credit facility is requested to be reduced to $475 million, in connection with the newly requested $2 billion credit facility.]~~

Commented [LS2]: After discussion with Ken Russell, we think the directive should be limited to the new credit facility agreement.

Commented [SK83]: I understand we are deciding to ensure both credit facilities are covered the Intercept Exemption Directive. Will revert language back accordingly.

Commented [JK4]: A business decision – which I am sure ADM/CEO would support

Formatted: Font: 12 pt

- ~~Note: The Intercept Provision under the OFA's Lending Policy for unsecured lending to a public body requires that, unless exempted by the Minister of Finance [or Treasury Board or Cabinet], the OFA put in place a provision whereby the OFA is entitled to deduct amounts equal to any amounts the public body fails to pay to the OFA under the loan, from money appropriated by the Legislature for payment to the public body.~~

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to ~~provide~~ exclude intercept provisions from the OFHP Credit Facility Agreement, as well as the Original Credit Facility Agreement~~these credit facilitiesies to the IESO without an Intercept provision~~, both of which may be amended from time to time~~under the OFA Lending Policy~~.

- The requested Intercept Exemption Directive would only apply to the two specified IESO credit facilities.

CONSIDERATIONS

- ~~This The OFHP Credit Facility~~This Intercept Exemption Directive will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the ~~Fair Hydro Plan~~OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility [to be amended from the current $975 million facility].

- ~~Under T~~the OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA~~, the following is provided for~~:

  ~~"~~Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.~~"~~

- The ~~intercept in the~~ OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RATIONALE FOR EXEMPTION

- ~~An~~ Including an i~~I~~ntercept p~~P~~rovision in the ~~new OFHP Credit Facility~~ credit facility agreements ~~credit facilities~~ with the IESO would have no practical usefulness ~~in the case of the IESO~~ as the IESO ~~it~~ receives no operational funding from the Province of Ontario.

Commented [LS5]: This is not a defined term.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment of the intent of the OFA's Lending Policy.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the ~~two~~ ~~two revolving credit facilitiesies~~ Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, ~~agreement~~ ~~to the IESO [per the Minister's Directive signed on June 29, 2017]~~ from the OFA Lending Policy requirement to include an intercept provision~~the. Intercept provision under the OFA Lending Policy.~~

- ~~[The Intercept Exemption Directive would also exempt any lending to the IESO from the OFA, previously authorized and/or subsequently amended, to be exempt from the Intercept Provision.]~~

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of ~~not~~ having ~~an~~the ~~i~~Intercept Exemption ~~p~~Provision.]

BACKGROUND

The IESO

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.
-
- The IESO is a public body for the purposes of CIPA.

Commented [LS6]: Is this even a possibility? I thought there were no funds to intercept.

Commented [SK87]: There are payments (appropriated to Energy from the legislature) made to the IESO to carry out price mitigation programs (eg. electricity support programs).

Just want to explain here the intent of the policy isn't to claw back/intercept payments specifically designed to assist electricity ratepayers for which the IESO is a conduit.

Commented [JK8]: To Lisa's question - I don't believe that is the intent of requiring an intercept provision.

Commented [SK89]: This is to ensure both the 2B and 475M credit facilities are covered.

Commented [LS10]: See earlier comment

Commented [SK811]: Bullet above modified to include both facilities.

Commented [JK12]: To proceed with the Intercept Exemption Directive for the two facilities only.

Commented [RK13]: What about saying that as IESO is a consolidated entity, and if there were any amounts to intercept, there would be no incremental fiscal impact of not having an intercept provision?

Commented [LS5]: This is not a defined term.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment of the intent of the OFA's Lending Policy.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the ~~two~~ ~~two revolving credit facilitiesies~~ Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, ~~agreement~~ ~~to the IESO [per the Minister's Directive signed on June 29, 2017]~~ from the OFA Lending Policy requirement to include an intercept provision~~the. Intercept provision under the OFA Lending Policy.~~

- ~~[The Intercept Exemption Directive would also exempt any lending to the IESO from the OFA, previously authorized and/or subsequently amended, to be exempt from the Intercept Provision.]~~

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of ~~not~~ having ~~an~~the ~~i~~Intercept Exemption ~~p~~Provision.]

BACKGROUND

The IESO

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.
-
- The IESO is a public body for the purposes of CIPA.

Commented [LS6]: Is this even a possibility? I thought there were no funds to intercept.

Commented [SK87]: There are payments (appropriated to Energy from the legislature) made to the IESO to carry out price mitigation programs (eg. electricity support programs).

Just want to explain here the intent of the policy isn't to claw back/intercept payments specifically designed to assist electricity ratepayers for which the IESO is a conduit.

Commented [JK8]: To Lisa's question - I don't believe that is the intent of requiring an intercept provision.

Commented [SK89]: This is to ensure both the 2B and 475M credit facilities are covered.

Commented [LS10]: See earlier comment

Commented [SK811]: Bullet above modified to include both facilities.

Commented [JK12]: To proceed with the Intercept Exemption Directive for the two facilities only.

Commented [RK13]: What about saying that as IESO is a consolidated entity, and if there were any amounts to intercept, there would be no incremental fiscal impact of not having an intercept provision?

OFA -- IESO CREDIT FACILITY ~~IES~~MINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

BACKGROUND

The Independent Electricity System Operator ("IESO") requested a revolving credit facility ("the credit facility") in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). ~~In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.~~

On June 29, 2017, the OFA received ~~a l~~Lending ~~d~~Directive from the Minister of Finance to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the OFA to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an ~~from the i~~Intercept p~~P~~rovision ~~both~~ in its OFHP Credit Facility agreement with the IESO~~the new $2 billion credit facility to support the IESO's role in the Fair Hydro Plan and the reduced $475 million credit facility~~.

- ~~Note: The Intercept Provision under the OFA's Lending Policy for unsecured lending to a public body requires that, unless exempted by the Minister of Finance [or Treasury Board or Cabinet], the OFA put in place a provision whereby the OFA is entitled to deduct amounts equal to any amounts the public body fails to pay to the OFA under the loan, from money appropriated by the Legislature for payment to the public body.~~

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to provide the~~ese~~ requested credit facility~~ies~~ to the IESO without the inclusion of an ~~an I~~intercept provision in the loan agreement~~under the OFA Lending Policy~~.

CONSIDERATIONS

- ~~This~~ The OFHP Credit Facility will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the Fair Hydro Plan.

- ~~Under~~ T~~t~~he OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA~~, the following is provided for~~:

  ~~"~~Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.~~"~~

- The ~~intercept in the~~ OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  - The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RATIONALE FOR EXEMPTION

OFA -- IESO CREDIT FACILITY
MINISTER OF FINANCE DIRECTIVE FOR AN EXEMPTION FROM THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE")
REQUIRED UNDER THE OFA'S LENDING POLICY

CONTEXT

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility (currently provided under the "Original Credit Facility Agreement", see Background section) from the current $975 million to $475 million.

On June 29, 2017, the OFA received a directive from the Minister to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister of Finance [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the Minister to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an intercept provision in the OFHP Credit Facility agreement with the IESO, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA:

  > Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.

- The OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to exclude intercept provisions from the OFHP Credit Facility Agreement, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The requested Intercept Exemption Directive would only apply to the two specified IESO credit facilities.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, from the OFA Lending Policy requirement to include an intercept provision.

RATIONALE FOR EXEMPTION

- This Intercept Exemption Directive will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility (to be amended from the current $975 million facility).

- Including an intercept provision in the credit facility agreements with the IESO would have no practical usefulness as the IESO receives no operational funding from the Province of Ontario.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, which are appropriated by the Legislature for the Ministry of Energy, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment with the wording or intent of the OFA's Lending Policy.

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of having the Intercept Exemption Provision.]

BACKGROUND

<u>The IESO</u>

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.

- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.

- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

- The IESO is a public body for the purposes of CIPA.

OFA Credit Facilities to the IESO

- Pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, December 18th, 2013, and November 28, 2016, the Minister of Finance ("Minister") approved and directed the Ontario Fiancing Authority ("OFA") to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes.

- Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act*, *1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

- Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

- The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 2015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

EXECUTIVE SUMMARY

The Ontario Financing Authority (OFA) is a Provincial Crown agency established by the *Capital Investment Plan Act, 1993* (CIPA). The initiatives in the OFA's *2018–21 Business Plan* will focus on achieving the objectives set out in CIPA and the objectives set out in the OFA's mandate letter from the Minister of Finance, delivered on October 3, 2017 over a three year planning horizon, as well as reporting on results of the previous year's Business Plan. Initiatives for the 2018–21 Plan include:

1. Executing the Province's borrowing program through development and implementation of the annual Financing, Debt & Electricity Management Plan. The Plan will provide critical details on the borrowing program, including term structure and diversification objectives, as well as investor relations, liquidity, floating rate, foreign exchange and credit risk strategies, and also outline major risks and risk mitigation strategies.

2. Managing the Province's debt, investments, Ontario Nuclear Funds Agreement (ONFA) and financial risk, and contributing to the development of the Province's fiscal plan and outlook by working to generate savings from liquid reserve investment activities within prudent risk exposure limits, as well as centralized/segregated investment funds for various public bodies. This also involves managing ONFA-related investments, working together with Ontario Power Generation Inc. (OPG), to ensure interest rate, foreign exchange and credit exposures are within approved policy limits, as well as contributing to the Province's annual Budget, Fall Statement and quarterly finances.

3. Managing key financial relationships by building and maintaining connections with investors in both existing and new markets, as well as relationships with banks, financial service providers and investment dealers. This includes providing Investor Relations information products and updates on the OFA website. Maintaining close relationships and ongoing dialogue with credit rating agencies to keep them informed of the Province's financial status, priorities, and initiatives, and complete regulatory filings with the U.S. Securities & Exchange Commission (SEC) and any other applicable securities regulators.

4. Providing cash management and banking services on a centralized basis to all ministries and settlement, payment, financial and reporting, loan administration, information technology and client services to the Treasury Program by implementing effective treasury solutions for the Province and client agencies. Ensuring that the Province has sufficient cash available at all times to meet its financial obligations, and continuing to work with the other ministries to advise on banking and cash management components of government initiatives, as well as, on changes to accounting standards and their impact on the Province's debt and interest on debt (IOD).

5. Advising on and implementing corporate and electricity finance projects and policies by providing analysis and advice on cost-effective borrowing, investing and risk management by public bodies and other financing proposals, and on business cases for business supports. This includes providing advice on transactions that may affect the indebtedness or contingent liabilities of Ontario, including provincial guarantees. In addition, undertaking policy and financial analysis, modelling support and implementation, as required, for electricity financings, policies and initiatives, including OPG, the Independent Electricity System Operator (IESO), and ONFA, which could have fiscal, financial and/or economic implications for the Province and/or Ontario Electricity Financial Corporation (OEFC).

6. Ensuring the successful activation of OFA's decentralized Business Continuity Plan (BCP) by reviewing and updating the Corporate BCP Framework and Business Unit plans, as well as conducting corporate-wide BCP test exercises.

OVERVIEW OF 2017–18 RESULTS (TO DATE)

The Ontario Financing Authority (OFA) accomplished the following in support of the overall strategic directions outlined in the 2017–20 Business Plan[1]:

1. *Execute the Province's borrowing program*

- As of January 30, 2018, the OFA had completed $28.6 billion (110.9 per cent) of its $25.8 billion (as per the 2017 Fall Economic Statement) long-term borrowing requirement for 2017–18. Approximately 69 per cent of long-term borrowing was completed in the Canadian dollar market.
- The 2017–18 Ontario Savings Bond (OSB) campaign raised $64 million.
- The objectives set out in the 2017–18 Financing, Debt & Electricity Management Plan, approved by the OFA Board, are on track and expected to be successfully completed by fiscal year end.
- Sufficient liquidity has been available over the fiscal year to ensure the Province has been able to meet all of its financial commitments and payment obligations, largely reflecting the long-term borrowing program being consistently ahead of pace.
- Successfully executed 4 carve-out deals[2] to-date for the 2017–18 fiscal year (as of January 23, 2018). Held in-depth discussions with individual carve-out investors.
- On January 25, 2018, the Province successfully priced a $1 billion Green Bond. The 7 year bond will help fund seven green infrastructure projects, with an emphasis on clean transportation and energy efficiency and conservation. The transaction represents the fourth and largest Green Bond offering from the Province of Ontario.
- Provided expertise in accounting for Green Bonds, and set up financial accounting and reporting for these investment vehicles that met the requirements outlined by the investor community. Developed and released a third Green Bond newsletter on December 21, 2017, updating investors on the third Green Bond's use of proceeds, and project selection process, as well as, providing project updates on the 13 projects selected.
- Analyzed the scope and impact of the Markets in the Financial Instruments Directive (MiFID) II and the Bank Recovery and Resolution Directive (BRRD) on the Province and implemented required documentation changes to ensure the Province's continued, uninterrupted access to European capital markets.

2. *Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook.*

- The OFA has replaced its traditional methodology for performance management with a more accurate and comprehensive performance measurement methodology based on the tenor of individual debt issues. Applying this methodology, the cost of regular borrowing for the Province as of January 25, 2018 translated to a percentile ranking of 55th percentile, falling within the target band of 45 to 55 percentile. The cost of strategic foreign borrowing as of January 25, 2018 translated into a percentile ranking of 76th percentile, worse than the designated target band for strategic foreign borrowings of 50 to 75 percentile.
- The money market performance was $8.1 million or 3.7 basis points (bps) better than the benchmark as of December 29, 2017. The performance is 1.7 bps better than the upper limit of the target band which is plus or minus two bps over the benchmark.

---

[1] The OFA's fiscal year end is March 31, 2018, but quantitative performance results are as of December 31, 2017, unless otherwise noted.

[2] In order to accommodate large bond purchases by a single buyer, a large order procedure was implemented on October 14, 2011. The "carve-out" procedure allows for a portion of a bond issue to be sold to a single buyer.

- The IOD expense for 2017–18 is currently forecast at $12,246 million, consistent with the forecast in the *2017 Budget*.
- Funds were managed on a discretionary basis on behalf of the Pension Benefits Guarantee Fund, Deposit Insurance Corporation of Ontario, Ontario Trillium Foundation, Infrastructure Ontario, and a commitment fund for the Ontario Capital Growth Corporation.
- Funds were managed on a non-discretionary basis on behalf of the Ontario Immigrant Investor Corporation and Northern Ontario Heritage Fund.
- With OPG, the Used Fuel and Decommissioning Segregated Funds' investments were managed under ONFA. The Funds have grown from about $19.4 billion at December 31, 2016 to about $20.3 billion at September 30, 2017. As of October 31, 2017, the rate of return for the Used Fuel Fund for one year was 10.26 per cent compared to the market benchmark of 8.65 per cent and a target rate of return of 4.63 per cent. The rate of return for the Decommissioning Fund for one year was 10.04 per cent compared to the market benchmark of 8.72 per cent and a target rate of return of 5.15 per cent.
- Contributed to the Province's annual Budget and quarterly finances, providing financial analysis and modelling to support the electricity sector outlook and assets; advised on the potential implications of initiatives on IOD, borrowing objectives, credit ratings and financial markets' reactions.
- Administered borrowing authority obtained under the *Financial Administration Act* (FAA) which is required to carry out the Province's borrowing program.

3. *Manage key financial relationships*

- Held road shows, investor meetings and conference calls to meet with investors in Canada, the United States, Europe and Asia, and hosted meetings at the OFA offices. Held 88 investor meetings and events as of December 31, 2017, including meetings with 12 new accounts. Provided keynote speakers and panelists at industry conferences in Toronto and New York City. Promoted Toronto as a global financial centre.
- Continued development of the OFA website to improve functionality, added additional information for investors and provided full mobile accessibility. As part of Ontario's *Open Data Directive,* the OFA published an Open Data Inventory List on its website, which includes all of the datasets the OFA creates, collects and/or manages. The website continues to be an important tool for communicating with investors and the public, receiving 27,831 visitors during the 2017 calendar year. Three CEO's Corner updates were posted over this time. The OFA email alert list had 385 subscribers as of December 31, 2017, as compared to 363 subscribers at the end of 2016.
- Maintained close relationships and held ongoing discussions with credit rating agencies and the banks which underwrite and distribute the Province's bonds in Canada and around the world to keep them apprised of government priorities and initiatives, the *2017 Budget*, the 2016–2017 Public Accounts, the *2017 Ontario Economic Outlook and Fiscal Review* (Fall Statement), the Province's final public offering of Hydro One common shares upon its public announcement and other quarterly finance releases.
- Managed increasingly more rigorous regulatory and disclosure requirements, and maintained close relationships with the regulatory bodies in the global capital markets.
- Monitored credit exposures to banks with which the OFA has relationships. The OFA has 10 collateralized swap agreements in place with banks to mitigate credit risk.
- Conducted comprehensive reviews of potential rule changes affecting the Province domestically and internationally such as the Market Abuse Directive (MAR) in the European Economic Area (EEA) and fee-based changes with Canada's primary central securities depository (CDS), consulting securities regulators and other capital market participants, as appropriate.
- Monitored and fully complied with international withholding tax requirements in respect of its financial agreements under FATCA and OECD Common Reporting Standard for Entity Tax Residency.

4. *Provide cash management and banking services as well as settlement, payment services, loan administration and financial and reporting services and client services*

- Provided centralized banking services to the Province by strategically managing banking relationships; provided efficient centralized cash management services to the Province, thereby contributing to lower IOD.

2018–21 OBJECTIVES

Key objectives for 2018–21 include the following, as set out in the OFA's mandate letter from the Minister of Finance, delivered on October 3, 2017:

1. Execute the Province's borrowing program
2. Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook
3. Manage key financial relationships
4. Provide services related to cash management, banking, settlement, payment, financial and reporting, and client services
5. Advise on and implement corporate and electricity finance projects and policies

In addition to the foregoing, the OFA has also identified the following additional key objective:

6. Ensure the successful execution of the OFA's decentralized Business Continuity Plan

Total Revenues and Expenditures

(in thousands of dollars)	2017–18		Forecasts*		
	Budgeted	**Interim Forecast**	**2018-19**	**2019-20**	**2020-21**
Total Revenue	30,804	30,946	31,472	30,809	30,650
Total Expenditure	27,499	27,460	27,981	27,498	27,518
Net Income	**3,305**	**3,486**	**3,491**	**3,311**	**3,132**

Further detail can be found in the Financial Budget contained in this plan.

*Forecasts represent the submission through the 2018–19 Program Review, Renewal & Transformation (PRRT) process to Treasury Board and are subject to Treasury Board approval. Preliminary indications are that the OFA's request for 2018-19 is likely to be approved, however, the allocations for the two out years will revert back to the 2017-18 approvals. Based on current compensation levels, unless additional budgetary relief is approved in next year's PRRT, the OFA may encounter salary and wage pressures in 2020-21.

MANDATE AND GOVERNING LEGISLATION

The Ontario Financing Authority (OFA) is a Provincial Crown agency established by the *Capital Investment Plan Act, 1993* (CIPA). CIPA sets out the objectives of the OFA. The OFA:

- conducts borrowing and investment for the Province of Ontario and manages the Provincial debt;
- provides cash management and other financial services for the Province;
- advises ministries, Crown agencies, and other public bodies on financial matters; and
- assists Crown agencies and other public bodies to borrow and invest money through external sources or through the OFA.

The OFA also provides a broad range of financial services to the Ontario Electricity Financial Corporation (OEFC) and Ontario Infrastructure and Lands Corporation (Infrastructure Ontario or OILC).

The FAA also sets out certain financial powers which OFA employees exercise on behalf of the Minister of Finance to carry out the Province's borrowing, manage the Province's debt and invest its liquid reserves.

OVERVIEW OF CURRENT AND FUTURE PROGRAM AND ACTIVITIES AND IMPLEMENTATION PLAN: 2018–21

Activities will focus on supporting the following strategic directions:

1. *Execute the Province's borrowing program*

Overview

The OFA endeavours to ensure that borrowing by the Province and OEFC is cost-effective. Total long-term public borrowing is forecast at $32.2 billion in 2018–19 and $37.8 billion in 2019–20. This year's objectives may be challenging to implement due to the state of the global economy/market and the resource constraints within which the OFA is operating. Furthermore, borrowing blackouts can limit the amount of time in which the OFA can access the market. Other challenges include:

- high amount of borrowing required for the Province, including the amount that will have to be undertaken outside Canada;
- competition in the markets from other large domestic and international borrowers;
- evolving regulatory requirements such as Basel III, Dodd-Frank and EMIR that continue to make hedging of foreign debt more expensive and a challenge to execute in the size required by the Province;
- potential challenges for Ontario's credit rating. A downgrade may result in borrowing costs increasing; and
- management of downgrading or failure of counterparties, and continued implementation of collateralized swaps to mitigate credit risk.

Implementation Plan

- Develop the annual Financing, Debt & Electricity Management Plans for OFA Board approval and transmission to the Minister. These plans provide detail on the borrowing program, including term structure and diversification objectives, as well as investor relations, liquidity, floating rate, foreign exchange and credit risk strategies, as well as outline major risks and risk mitigation strategies.
- Meet the Province's funding requirements, anticipated to average about $35 billion annually for the business plan period, in a cost-effective and prudent manner.
- Manage the Ontario Savings Bond campaign.
- Continue to monitor the Green Bond market to identify future issuance opportunities under its Green Bond Program.

2. *Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook*

Overview

The OFA manages the debt and liquid reserve portfolios, as well as centralized/segregated investment funds, for various public bodies, and jointly manages the Ontario Nuclear Funds with OPG. Financial risks associated with capital market activities are mitigated by adhering to prudent risk management policies which minimize financial risk by ensuring exposures and losses remain within approved limits. Risk management policies and program exposure limits are reviewed and approved by the OFA Board of Directors on an annual basis. The OFA also contributes IOD, borrowing, debt management and total and net debt objectives, and electricity sector fiscal impact projections to the Budget, Fall Statement and other quarterly financial updates.

Implementation Plan

- Generate savings from liquid reserve investment activities within prudent risk exposure limits, as well as centralized/segregated investment funds, for various public bodies. Manage ONFA-related investments, working together with OPG.
- Ensure interest rate, foreign exchange and credit exposures are within approved policy limits.
- Contribute to the Province's annual Budget, Fall Statement and quarterly finances, including the electricity sector outlook; advise on the potential impact of initiatives on IOD, total and net debt and the net debt-to-GDP ratio, borrowing objectives, credit ratings and financial markets' reactions. Continue playing an important role in the development of the Province's annual Budget and quarterly statements through the provision of timely and accurate financial information, and preparation of the Borrowing and Debt Management section of the Budget and Fall Economic Statement.
- Review and refine the new methodology based on assessing individual debt issues by tenor, to measure the performance of the borrowing program.
- Continue to implement applicable changes as per financial and regulatory reform requirements including evolving effects from Basel III, EMIR and Dodd-Frank. These regulations are expected to continue to make the OFA's hedging process more complex. Hedging may also continue to become more expensive if proposals such as financial transaction taxes or mark-to-market derivatives taxes are legislated and implemented in Europe or the United States.

3. *Manage key financial relationships*

Overview

The OFA ensures investors and the financial community in Canada and abroad receive financial updates on a timely basis to make informed decisions about Province of Ontario debt securities. Investor Relations activities support borrowing program objectives by maintaining and broadening the Province's investor base. The OFA also ensures credit rating agencies understand government policies, budget, and fiscal performance, properly reflecting these factors in their reports and rating decisions.

The OFA manages the government's relationships with financial institutions, primarily the major Canadian and global banks, their investment dealer subsidiaries, and custodial and fiscal agents. This involves the acquisition and oversight of cost-effective products and services for the Province and certain Crown corporations.

Implementation Plan

- Support the Province's borrowing program by building and maintaining relationships with investors in existing and new markets. Provide Investor Relations information products, including updates to the OFA website, on a timely basis.
- Maintain close relationships and ongoing dialogue with credit rating agencies to keep them informed of the Province's financial status, priorities, and initiatives.
- Manage Ontario's relationships with banks, financial service providers and investment dealers.
- Complete regulatory filings with the U.S. Securities & Exchange Commission (SEC), United Kingdom Listing Authority (UKLA), Luxembourg Stock Exchange (LuxSE), Australian Securities Exchange (ASX) and any other applicable securities regulator. Conduct due diligence conference calls, as required, with the dealers and underwriters of the Province's debt securities offerings and their legal counsel.
- Implement and maintain collateralized swap agreements with bank counterparties to limit potential financial losses as a result of a credit event.

- Manage changes in financial and regulatory reform, liaising with regulators and legal counsel, as required.

4. *Provide services related to cash management, banking, settlement, payment and financial and reporting*

Overview

The OFA provides centralized banking and cash management services to the Province. The effective provision of these services allows for the efficient delivery of provincial services and contributes towards minimizing IOD expenditures. The OFA is responsible for settlements, payments and accounting/reporting functions associated with the Province's and OEFC's debt management programs, as well as agency financial reporting.

Implementation Plan

- Identify and implement effective treasury solutions for the Province and client agencies.
- Ensure that the Province has sufficient cash available at all times to meet its financial obligations.
- While compliance with PCI Data Security Standards is now in its sustainment phase, the OFA will continue to work with the other OPS stakeholders and the credit/debit card acquirer to ensure that the mandatory external reviews continue to report that the Province is in compliance with all applicable PCI data security standards which are reviewed and updated periodically by the PCI Council.
- Continue to work with TD Merchant Services, the Province's card acquirer, to explore options for the Province to begin accepting new value-added card products and technology.
- Continue to work with the Ministry of Community and Social Services on refining the reloadable payment card as a more efficient payment mechanism for unbanked benefit recipients under the Ontario Disability Support Program.
- Continue to advise ministries and agencies on the banking and cash management components of new banking solutions, as well as on government initiatives including modernization and suitable banking options, along with associated legal and regulatory aspects.
- Continue to collaborate with industry associations and provincial and federal jurisdictions on modernization initiatives and issues unique to the public sector.
- Continue the delivery of timely and accurate settlement/payment services for the Province and OEFC, including OEFC power supply contract settlements.
- Continue to work with the Ontario Pension Board, MOF Income Security and Pension Policy Division and TBS on the first phase of regularizing the management of various pension plans whose assets reside in the Consolidated Revenue Fund. This is a very complex project that requires assent from Ontario judges and is moving ahead slowly; however, it is anticipated that the regulated portion of the assets of the Judges' Pension Plan will be moved to IMCO in 2018-19 with resultant IOD savings.
- Provide timely and reliable net debt and total debt estimates for the 2018 Annual Budget and the Province's quarterly reports during the fiscal year including for the Fall Statement.
- Continue to provide timely and accurate financial reporting for the Province on debt, derivatives and investments. Continue to provide timely and accurate agency financial statements that pass the scrutiny of the OFA Board and the Office of the Auditor General.
- Work with the Office of the Auditor General in their proposed value for money audit of borrowing and debt management.
- Continue to work with the Office of the Provincial Controller on providing feedback on Chapter 2 of the Annual Report of the Auditor General of Ontario that deals with Ontario's Public Accounts.
- Continue to monitor and assess any new accounting developments of the International Public Sector Accounting Standards Board, the Financial Accounting Standards Board in the U.S., the Accounting

Standards Board and the PSAB of the Chartered Professional Accountants of Canada that affect reporting for the Province and its agencies.

- Assuming PSAB follows through on its preliminary proposal to develop a hedging option in the Financial Instruments standard, work closely with PSAB and the other provinces with the help of Deloitte in providing value-added contribution to this project. Continue to communicate the other concerns of the provinces' to PSAB. Continue to liaise with the Office of the Provincial Controller and, where required, the Office of the Auditor General of Ontario in communicating with PSAB.

The OFA will also continue to support and facilitate the implementation of a number of other government initiatives, including the Cap and Trade Program, and investing in Ontario's venture capital sector.

Risk Identification, Assessment, Mitigation Strategies
The following section identifies potential risks that could impact the entire organization in its ability to successfully deliver its programs and activities on behalf of the Province.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Risk Category: STRATEGIC **RISK AREA: Strategic:** Risks related to implementing (or not implementing) new policies or changes to existing policies (e.g., misalignment of agency policies with those of the OPS). The risk that strategies and policies will fail to achieve required/targeted results. The risk of failing to provide value for money or cost-effectiveness. This can include existing policies that may be affected by changes in systemic and external factors including the economy, technology, climate change and political environment.					
Strategic/ Policy Risk Primary Accountability: Capital Markets Division	Strategies and policies fail to achieve required results. Prime examples are failing to meet the borrowing requirements and failures in implementing core risk management strategies.	LOW Past experience indicates that the likelihood of major strategic failures is relatively **low** as they cannot always be eliminated. There are elements of borrowing and risk management which are outside the Province's control which can negatively impact required results. For example, financial conditions could result in higher interest costs or interest rate risk than anticipated or refinancing risk in future years may be much higher than desired if investor demand for longer term bonds is substantially reduced.	EXTREMELY HIGH The financial consequences of strategic failures in borrowing or risk management strategies and associated policies can be **extremely high**, and the annual Financing, Debt & Electricity Management Plan outlines strategies which attempt to address the challenges, including contingencies for unexpected events. In addition, management monitors major market and policy developments throughout the year very closely and will develop and implement new strategies and policies if conditions warrant. Even though the likelihood of major strategic failures is low, the impact remains extremely high resulting in an overall high risk assessment.	HIGH	Strategic plans and policies to mitigate strategic and policy risk are initially developed and implemented in a thorough manner as outlined in the OFA's annual Financing, Debt & Electricity Management Plan ("the Plan"). This includes an analysis of risk factors and contingency plans. The Plan is approved by the respective Boards (OFA and OEFC) and receives input from Board members. Market conditions and policy developments are monitored on a continual basis throughout the year to identify new and emerging developments which could impact strategic and/or policy risks. Existing control strategies are modified as required to mitigate adverse developments. Procedures are in place to ensure that staff are aware of relevant policies. Policy violations are rare, and a robust control framework exists to identify violations quickly. Most violations would not have a large enough impact to threaten achieving required strategic results.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Meeting stakeholder expectations Primary Accountability: Capital Markets Division	The risk that the OFA may fail to meet stakeholder expectations, including those of the Province and other public bodies. Stakeholder expectations include strategic/policy risk factors as well as the risk of failing to meet performance benchmarks.	MEDIUM There is a **medium** likelihood of failure to meet stakeholder expectations and performance benchmarks. Market factors tend to be relatively unpredictable and many factors are out of OFA's control. The current environment of expanding service requirements and constrained resources adds some risk; however, it is expected to be minimal. Based on past experience, it is expected that most stakeholder expectations will be met.	EXTREMELY HIGH Given that the impact of not meeting stakeholder expectations can be **extremely high**, combined with a medium likelihood the net result is a high risk assessment. The impact of a one percentage point increase in yields was estimated to be $300 million for 2017–18. Although the OFA has been able to extend the borrowing term in recent years, interest rate risk will remain elevated for several years. Continuous communication with the Deputy Minister and Minister ensures that expectations for the Province are clearly understood. Commitments are made after thorough and careful analysis to ensure that resources and expertise are in place to meet those expectations. Close and continuous communication and meetings with relevant public bodies (e.g. Agencies) who use our services ensures that expectations and service requirements are clearly understood. In addition, formal service level agreements (e.g. investment management agreements) have been developed which clearly outline the services and benchmark performance standards.	HIGH	An analysis of risk factors and contingencies is included in the OFA's annual Financing, Debt & Electricity Management Plan. This analysis is revisited throughout the year. Given the relatively unpredictable nature of market factors, ongoing monitoring of market and policy factors provides a level of risk mitigation. Continuous dialogue with stakeholders and regular reporting are also useful in keeping abreast of both expectations and performance. Emerging issues which may affect expectations are identified and are regularly reported to the Deputy/Chair as well as the Board (OFA and OEFC). This provides greater assurance that expectations will be met or managed through approved mitigation strategies. Meeting performance benchmarks for the Province and other public bodies also depends on adequate resources being available to maximize performance. This includes information systems services, and most importantly, staff. A highly educated and experienced workforce provides a higher likelihood that stakeholder expectations will be met. The OFA works to attract and retain highly qualified staff.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Public image Primary Accountability: Capital Markets Division	The risk that the OFA may damage its reputation with stakeholders and third party service providers.	LOW The likelihood of reputational risk to the OFA is **low.** There are extensive policies to govern staff conduct including, with respect to conflicts of interest, procurement and workplace harassment. In addition, procedures are in place to ensure that staff are aware of all policies. There are also regular reporting requirements and internal controls to reduce the potential for policy violations. Dealings with the press are handled through official MOF communication staff and investor and other stakeholder information is handled with extreme care. Accordingly, the likelihood of reputational risk problems with stakeholders and service providers is **low**, although mistakes can happen and there are certain factors which the OFA cannot control.	HIGH The impact of image problems can be **high** which combined with a low likelihood results in an overall medium risk assessment.	MEDIUM	Public image risk is mitigated through a host of strategies: i) a strong policy framework to provide greater information to staff to make them aware of potential public image problems; ii) strong internal controls to reduce the risk of policy violations and adverse information releases; iii) public communication protocols to reduce the risk of incorrect and damaging information releases; iv) an investor relations program which is responsive to investor needs and responds to investor requests for information promptly; v) ongoing dialogue with dealers to keep abreast of information in the marketplace relating to both Ontario and the OFA; and vi) a management structure and culture which promotes security of information and extreme care in disclosing information in a public forum. Strategies iii-v involve constant communication with external stakeholders. This feedback loop provides the OFA with a method of assessing the organization's public image. The OFA has a comprehensive procurement policy that ensures that its suppliers and service providers are selected in a fair manner. When appropriate, the OFA requires that service providers obtain security clearance. OFA contracts with service providers address confidentiality and contract precedents generally require approval before a contractor may use its association with the OFA for any purpose. All substantive contracts that Capital Markets enters into in the name of the OFA must be reviewed by the OFA Legal Branch. All substantive contracts that Capital Markets enters

					into in the name of the Province, must be reviewed by MOF Legal.
Quality of relationship with stakeholders Primary Accountability: Capital Markets Division	The risk that the OFA's stakeholder relationships are poorly managed. Stakeholders relevant to this risk are investors, dealers, credit rating agencies, and employees.	LOW The likelihood of failure managing OFA's stakeholder relationships is **low** as the OFA strives to deal with all of its stakeholders in a fair, transparent and responsive manner.	HIGH The quality of the business relationships with stakeholders that the OFA is engaged in such as investors, dealers, credit rating agencies and employees can have a **high** impact on the success and cost of OFA activities. However, the likelihood of failure in these activities is relatively low which results in an overall medium risk assessment.	MEDIUM	The OFA provides relevant, non-confidential information to investors in a fair and transparent manner, including information pertaining to the Budget and quarterly finances. Confidential information is handled in a manner consistent with laws and regulations, such as the *Public Services Ontario Act, 2006* and the *Securities Act, 1990*. The annual Investor Relations Plan is developed each year with the goal of providing updates to investors, both domestic and international, on a regular basis through outreach and information products. Requests for information or meetings from investors are responded to very promptly. The quality of the Province's relationships with stakeholders is constantly monitored. Should the strategies in the annual Investor Relations Plan fail to achieve the desired relationship levels, the OFA can choose to engage additional financial dealers or more senior Ministry of Finance representatives to participate in its investor outreach activities. Dealers are utilized in a fair and objective manner for bond issues. A syndicate evaluation is used to rank domestic dealers objectively, and commissions for domestic bond issues are based on this annual evaluation. Dealers thus know the OFA's service priorities and understand their bond issue allocations for the year. International issues also utilize dealers based on their level of service and strengths they bring to particular markets and issuance opportunities. The OFA continuously communicates with its dealers and also has regular

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
					meetings with them, and thus relationship issues tend to be dealt with quickly. Given the high importance of Ontario's credit ratings to its borrowing program, the OFA has very well established relationships with the credit ratings agencies. The OFA has regular meetings with the agencies, responds promptly to requests for information, and facilitates participation of more specialized or senior government officials as required. See Workforce Risk Category for discussion of mitigation strategies for risks related to employees as stakeholders.
Risk Category: ACCOUNTABILITY / GOVERNANCE **Governance/ Accountability/ Organizational Risk**: Risk that the organizational structure, accountabilities or responsibilities are not defined, designed, communicated or implemented to meet the organization's objectives, and/or that culture and management commitments do not support the formal structures. Risk of conflict of interest for board members. Inadequate ethics / codes of conduct. Inadequate definitions of roles and responsibilities. Risk of failure to comply with administrative requirements, such as directives. **Legal/ Contractual Compliance Risk:** Risk related to the potential cost of complying with a contractual agreement, or of litigation (including established policy and procedure) against the agency or government. Risk that a government initiative or action will contravene a contract, Memorandum of Understanding or policy. The costs/risks related to changing legislation could include lawsuits, settlements, fines, penalties and legal fees. Risk of failure to comply with administrative requirements such as directives.					
Governance, Information and Regulatory Compliance Primary Accountability: Finance and Treasury Division	The risk that oversight and governance responsibilities are not clearly defined; the risk that internal and external information produced or used is incomplete, out-of-date, inaccurate, irrelevant or inappropriately disclosed.	LOW The likelihood of failing in this area is **low**. Various policies and procedures define roles and responsibilities required for effective governance, including oversight by the OFA Board, chaired by the Deputy Minister of Finance, and largely comprised of independent, external	HIGH The impact of failing in this area is **high;** however, combined with the low likelihood of this happening results in a medium risk assessment	MEDIUM	Regular and special meetings of the OFA Board and its Committees, comprised of the Audit and Risk Management Committee (ARMC), Human Resources and Governance Committee (HRGC) and the ONFA Investment Committees (ONFA IC). The OFA uses secure communication procedures with internal and external parties; it also undertakes effective oversight of service providers, reconciliation processes, stringent disclosure policies, staff learning and development, and timely filing of regulatory reports.
Risk and issue management Primary Accountability: Risk Control Division Secondary Accountability: Finance and Treasury Division	The risk that the OFA may not effectively manage and mitigate financial risks including fraud risk.	LOW A review process established at the OFA that includes daily compliance monitoring, division of responsibilities, and a highly-developed and rehearsed response plan for emergencies results in a **low** likelihood.	EXTREMELY HIGH The OFA is a major participant in capital markets and has extensive dealings with banks on behalf of the Ontario government. As a result, the potential impact for errors and omissions is **extremely high** given the associated high dollar value**.** The extensive mitigation strategies employed by the OFA however, reduce the overall assessed risk to Medium.	MEDIUM	Financial risks associated with the OFA capital market activities are managed through the OFA risk management framework, which includes policies, each one of which is updated, reviewed by the Ontario Internal Audit Division (OIAD) and approved by the Board on an annual basis. Compliance with policies is monitored through a daily reporting cycle including where applicable on a real time basis, and credit risks are also monitored in real time. Fraud: Division of responsibilities between divisions to create a separate front, middle and back office for capital markets transactions and appropriate separation of duties and signing authorizations within divisions reduce risk of fraud. All staff are encouraged to report any wrongdoing at all times and senior management is asked to confirm quarterly whether they are aware of any wrongdoing.

					Issues management: In addition to a monthly Capital Markets update letter, the CEO also reports on any issues or concerns quarterly to the Board and has regular meetings with the Chair. Division Heads/Directors report quarterly to the Board on their area's progress in achieving the objectives identified under the Annual Business Plan. The OFA's financial statements are prepared and presented on a quarterly basis to the ARMC and the Board. They are also shared with senior staff of the Office of the Auditor General. The OFA provides the IOD, debt and derivative information that is presented in the Public Accounts of the Province. The numbers and the process including the underlying internal controls are audited annually by the Office of the Auditor General. Up to now, no material issues have been identified as part of this audit. OFA prepares issues notes, and feeds into the Ministry's communications branch for issues management and to address contentious issues. The OIAD develops a three year audit plan for the OFA that is updated annually. Audits under this plan, as well as special reviews as and when required provide an overall comfort level. The ARMC conducts in camera sessions with internal audit, staff of the Office of the Auditor General and the OFA's Chief Financial and Risk Officer at each quarterly meeting during which they are free to candidly raise any concerns about overall risk and issues management issues at the OFA. To avoid financial risk resulting from an inability to function during an emergency, the OFA has a

					highly-developed and rehearsed response plan for emergencies, addressing key risks such as fire, terrorist attack, pandemic or other threat. The work of the OFA can be carried out with all staff working from home. The OFA also maintains a collocate site at a remote location that houses a continuously available, mirrored IT infrastructure. Staff are subject to randomly declared, OFA-wide, work-from-home drills at least annually. OIAD reviews and comments on business continuity test results.
Statutory requirements are met Primary Accountability: Legal Division	Risk of material non-compliance with statutory requirements	LOW The likelihood of material non-compliance is considered **low** because OFA staff have experience and awareness regarding legal compliance in relation to the performance of their jobs. While regulation in some areas (such as in capital markets and the banking and payment card industry) is complex and continues to evolve, program areas have ready access to legal advice.	HIGH Impact is considered **high** since failure to comply with a statutory requirement could negatively affect the reputation of the OFA and the Government. Also, violations relating to capital markets operations could have serious financial implications. Combined with a **low** likelihood, the resulting overall risk assessment is medium.	MEDIUM	Currently, the OFA and Ministry of Finance Legal Branches advise of statutory requirements and changes affecting OFA operations and also are available to advise on steps to effectively address any non-compliance. Information on legal requirements relating to Public Servants is distributed to staff using the Policy and Procedure Management system. Non-compliance with laws, regulations and directives is reported to the Legal Director, who reports it to the CEO and the Board of Directors. CEO/Board direct remedial action (which may include learning and development). Education is encouraged and Divisions budget for necessary learning.
Reliability of financial systems Primary Accountability: Finance and Treasury Division	The risk that the OFA's financial information and reporting system is not reliable or fails to meet quality standards.	LOW The review process that the OFA has established including audits by the Internal Audit Division and the Office of Auditor General of Ontario ensures that the likelihood of occurrence is **low**.	HIGH While the impact of less than reliable financial information is indeed **high**, the low likelihood of this happening results in an overall medium risk assessment.	MEDIUM	The OFA has well-established processes and procedures for monitoring and reporting on its financial performance to its ARMC and Board of Directors and to the Ministry of Finance as well as Treasury Board Secretariat (TBS). OFA financials are prepared on a quarterly basis for discussion, and shared with the staff of the Office of the Auditor General and approval by the ARMC and Board of Directors. In addition the OFA financials are audited

					annually by the Office of the Auditor General who has provided unqualified opinions on all past financials. Staff of the Office of the Auditor General also audit, on an annual basis, the OFA's work on the Province's debt and IOD. This annual audit includes reviewing the underlying systems and internal controls. Up to now, no material issues have been identified and the OFA has implemented all recommendations arising from this audit. Changes to accounting pronouncements are also addressed during the quarterly discussions with the ARMC and the Office of the Auditor General. Annual budgets and audited financials are submitted to the Ministry as per TBS requirements. A further level of assurance exists as a result of the work carried out by the OIAD. OIAD develops a 3 year audit plan with consultation from Division heads and all findings and recommendations are presented to the ARMC. The OFA's progress in implementing recommendations are also presented on a quarterly basis to the same committee.
Debt and Risk Management Risk Category: OPERATIONAL **RISK AREA:** Program Caseload/ Utilization: Change in demand for services or entitlements or increased claims/case load that can be deferred. Assumes no policy or legislative changes.					
An economic slowdown straining the fiscal plan, thus affecting the borrowing program.	Fiscal strain stemming from a significant economic slowdown would likely result in higher borrowing requirements. This could be experienced as much larger borrowing requirements	MEDIUM The possibility of a major downturn in economic activity or longer term slow economic growth is given a **medium** likelihood due the historical frequency of such events. Since then, the Ontario economy has experienced modest growth. However, over the last three years, real GDP growth has accelerated, averaging 2.6 per cent per year. Private sector economists expect continued economic growth, with Ontario remaining a provincial growth leader over the next two years.	program over a couple of years, but persistent sub-par growth would also be painful. The impact on revenues of a one percentage point change in nominal GDP is estimated to be $965 million for 2017–18. The world economy is currently highly reliant on U.S. economic growth and would be at risk if that fades. Given that Ontario's borrowing requirements are already quite large, the impact would likely be high, meaning that interest costs could increase appreciably. One result could be a reduced average term of borrowing to reduce borrowing costs or respond to reduced demand for longer term debt which would increase refinancing and floating rate risk. There could also be pressure to increase foreign exchange or counterparty credit exposures in order to reduce costs. The overall assessment of this risk is high.		In addition, the OFA is provided with a wealth of forecasts and economic insight from the Ministry of Finance. The OFA undertakes its borrowing strategically to reduce the effects of forecasted events and also looks to pre-borrowing to the extent possible. The OFA can also engage with independent experts to provide advice on how to reduce any adverse events that may have an impact on the borrowing program.
Financial market risk Primary Accountability: Risk Control Division	Higher-than- forecast borrowing requirement and/or interest rates, resulting in higher annual IOD charges. Financial loss attributable to changes in interest rates, credit spreads, foreign exchange and liquidity risk.	MEDIUM Higher-than-forecast borrowing requirement and/or interest rates is given a **medium** likelihood due to the historical frequency of interest rate changes, and the current medium-term forecast of provincial borrowing requirements.	HIGH The size of the Province's annual borrowing requirement creates a **high** degree of sensitivity to market conditions, especially interest rates. IOD has generally produced cost savings compared to budget forecasts due to cost effective debt management, as well as interest rates that have been	HIGH	Sound and effective risk management infrastructure, including policies, procedures, risk management reporting, and Information Technology (IT) systems. The OFA uses a conservative risk limited approach to forecasting IOD expenses. This is achieved by using interest rate forecasts provided by the Office of Economic Policy for the two out years and a 20 year interest rate average for the third out year.

			trending down for about 35 years. This experience may not be expected to continue, so financial market risk is assessed as being high. In the *2017 Budget,* it was estimated that a one percentage point increase in interest rates would have impacted IOD by approximately $300 million for 2017–18.		Accurately measure and assess portfolio exposures and ensure compliance with the related limits as approved by the Board, including foreign exchange and net interest rate resetting exposure limits and IOD. Maximum foreign exchange exposure of five per cent. Maximum net interest rate resetting exposure of 35 per cent. Maximum loss policy on IOD of three per cent of budgeted IOD. The OFA has reduced the sensitivity of IOD to interest rates by extending the term of recent borrowings. It also maintains exposure to foreign currency at levels far below the five per cent limit. While the policy limit for net interest rate resetting exposure is 35 per cent, the annual debt management plan sets out ranges that are usually considerably lower thus further limiting the risk.
Inability to complete the borrowing program due to market breakdown or loss of faith in the Province's ability to repay debt Primary Accountability: Capital Markets Division	Unable to achieve the borrowing program target of a particular fiscal year.	LOW The likelihood of not completing the borrowing program is **low** and would be based on a major market disruption or a major adverse credit situation at the Province. Both events are considered to have a low likelihood.	EXTREMELY HIGH The consequences of a major market disruption or a major adverse credit situation at the Province would obviously be **extremely high**, and thus overall risk is high.	HIGH	The OFA continually monitors demand for its bonds and has a strong relationship with its financial dealers. The OFA is aware, through external forecasts, Ministry of Finance advice, and its own analysis of bond markets, of the faith investors place in its bond offerings. The Capital Markets Division employs financial strategies to reduce the effects of forecasted events. The OFA can also engage with independent experts to provide advice on how to reduce any adverse events that may have an impact on the borrowing program.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
					The OFA has very well established relationships with the credit ratings agencies. The OFA has regular meetings with the agencies, responds promptly to request for information, and facilitates participation of more specialized or senior government officials as required.
Risk of credit rating downgrade Primary Accountability: Risk Control Division	Risk that a credit rating downgrade from a major credit rating agency results in increased costs to borrowing program and/or reduced market access.	MEDIUM The likelihood of a credit rating downgrade is **medium.** The OFA has regular meetings with the agencies, and is regularly advised of rating agency concerns. As a result of these regular meetings with agencies and outperformance of its fiscal targets in recent years, the risk of a credit downgrade is not considered to be high, although debt levels remain high.	HIGH A credit rating downgrade, could reduce the pool of investors able to buy Government of Ontario bonds. As a worst-case, investors might be forced to sell, creating competition for our primary distribution, therefore resulting in a **high** impact for the Province. Note: This risk is assessed as high. The best mitigating strategy, reducing the debt burden is not under the control of the OFA.	HIGH	Maintain close relationships and ongoing dialogue with credit rating agencies to keep them informed of the Province's financial status priorities, and initiatives. Diversify funding sources. Increase investor relations activities. Ensure that decision-makers at Queen's Park continue to be mindful of the serious consequences of the Province not achieving a balanced budget and continuing to reduce its net debt-to-GDP ratio in accordance with Government commitments.
Credit Risk Primary Accountability: Risk Control Division	Risk that the Province incurs a significant loss because a counterparty or counterparties does/do not meet, or default(s), on their obligations to the Province.	LOW The size of Ontario's borrowing program requires the OFA to be open to borrowing opportunities in a variety of currencies. As the OFA has opted to keep currency risk at very low levels, this requires that hedging transactions be entered into with bank counterparties, creating credit risk. A bank default is considered to be a **low** probability event.	HIGH A bank default would be a **high** impact event, however, the assessment is overall medium as a result of the OFA's implementation of a comprehensive mitigation strategy including collateralized swap agreements and limiting transactions to highly rated counterparties.	MEDIUM	Ensure compliance with a sound and effective credit risk management infrastructure, including: an overarching credit risk policy that is reviewed and approved by the OFA Board on an annual basis, transacting with highly rated counterparties, limiting credit exposure concentration, and ongoing monitoring of key indicators of credit and market conditions. The Province will continue to enter into collateralized swap agreements with more of its swap counterparties to limit its credit risk. Such

					agreements allow the Province to cap its credit risk by requiring counterparties to post collateral when marked-to-market exposures exceed specific thresholds.
Electricity related policy, price and other risk Primary Accountability: Corporate & Electricity Finance Division	The electricity sector's financial performance affects the government's fiscal position largely through the performance of OPG, Hydro One, municipal electric utilities and the Ontario Electricity Financial Corporation (OEFC), including the latter's interest on debt expense. Their financial performance's impact on the Province can be due to, e.g., the companies' operational performance, regulatory decisions (e.g., OEB rate decisions), and accounting changes (e.g., IFRS provincial consolidation adjustments). As well, performance can be affected by electricity demand and electricity supply factors related to the economy, investment plans, temporary plant shutdowns and weather.	MEDIUM The likelihood of this risk is deemed **medium.** Some factors which could materially affect electricity sector performance such as OEB regulatory decisions and lower/higher demand due to a turnaround in the business cycle are hard to predict. Many performance factors such as policy or accounting decisions tend to be known in advance and potential impacts can be factored into the fiscal plan.	MEDIUM The impact is deemed **medium**. While the electricity sector has a significant fiscal impact, contributing an average $1.7B to the surplus (and helping to pay down electricity sector debt and other liabilities) over the past ten years, it is not large compared to the total size of the Provincial Budget. In any given year, the impact could be more material. For example, in 2015–16 the Hydro One IPO largely accounted for the higher than usual electricity sector surplus of $3.9B. Note that the IPO was planned, so not a surprise risk to the fiscal plan.	MEDIUM	Electricity sector performance, fiscal and policy updates and advice are regularly provided to senior Ministry of Finance officials and government in order to monitor potential electricity sector fiscal impacts over the medium term. Maintain strong working relationships with other Ministry of Finance partners, ministries and agencies.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
	The electricity sector can also affect positively or negatively the fiscal position of the Province, and the borrowing plan, by policy decisions (e.g., ending the Debt Retirement Charge, or price mitigation measures)				
Operational, including systems, internal control and reputation risks Primary Accountability: Strategic Corporate Services Division	Risk from inadequate or failed internal processes and IT systems or from external events. The possibility that internal controls may not safeguard assets or prevent errors or fraud. The risk that negative publicity about the OFA's business practices may lead to financial or reputation costs or litigation.	LOW The likelihood of this risk is deemed **low**. The OFA's mandate and operations in a capital markets environment requires the extensive use of information technology. The fact that the OFA's mandate has also increased over the past years with no corresponding increase in staff resources has also resulted in a dependence on information technology. While this has allowed for efficiencies, this dependence also gives rise to the risk that IT systems may be poorly specified, operate incorrectly, or that the use of combinations of systems may have unintended consequences.	HIGH The financial impact of such risks could be compounded by harm to the OFA's reputation, therefore its impact is deemed **high.** This risk, reduced by the mitigating strategy, is assessed as medium.	MEDIUM	Maintain state-of-the-art IT systems, conduct daily back up, frequent update and testing of BCP involving remote desktop and co-locate. Appropriate documentation and timely reporting; update financial controls based on best practices; continued involvement of Internal Audit in developing new functions and reviewing existing financial policies; ensure oversight of service providers. As part of its annual audit, the Office of the Auditor General issues recommendations on areas where they feel internal controls can be tightened. Monitor print media to identify OFA-specific issues to protect OFA's reputation. Centralized external communication strategy. Early involvement of legal counsel.
Service providers (e.g. custodians, fiscal agents, banks etc.)	Poor service from existing providers and/or lack of qualified service providers.	LOW The likelihood of this risk is deemed **low.** Service providers are selected	MEDIUM	LOW	All existing service providers provide services under a formal contract. Continue to implement and manage existing service providers to ensure compliance with contracts.

Competitions include the submission of proposals covering performance standards and measures. Contracts, once implemented, are monitored for service quality.	Consistent internal monitoring ensures a **medium** impact for a low overall risk assessment.		Continue to comply with selection criteria and contract management requirements in OFA Procurement Policy.
Low investment returns or inadequate investment controls on nuclear funds. Primary Accountability: Capital Markets Division	If funds are not properly invested or general financial market returns are low or negative, substantial contributions could be required by one or both of the Province and OPG. In addition, the Province's reputation may be damaged if controls or investment policies deviate from industry best practices.	MEDIUM Prolonged poorer than targeted performance of the nuclear funds over the medium-term is given a **medium** likelihood. The nuclear funds have a very long time horizon and would be expected to have poor returns over some time periods but are required to earn real returns in excess of 3.25 per cent in the long run. The funds have exceeded the 3.25 per cent annualised real return benchmark on average since their inception in 2003, but there is some risk that cumulative average annualised returns may be inadequate in future or that the costs of decommissioning and used fuel disposal could well exceed current projections. Returns will be driven to	HIGH The financial impact of poor performance could be quite substantial and is rated **high** given the size of the funds, and could result in substantial unexpected contributions from one or both of the Province and OPG. The overall risk assessment is high. Given the current size of the funds, a one percentage point decline in annual performance would equate to $170 million in reduced value for the funds, which could affect future funding requirements. Such loss, however, will not translate dollar-to-dollar on the Province's annual statement of operations at consolidation, as the Province's revenue recognition related to the	HIGH	The funds are diversified across asset classes and managers to reduce overall risk. Further diversification is being achieved as the funds move into alternative investments. The funds are also long-lived, and can be adjusted and returns recover over the long term, which result in the recovery of past Provincial contributions to cover investment return shortfalls, if any. In addition, a Statement of Investment Policies and Procedures (SIPP) and Statement of Investment Risk Policies (SIRP) are in place which outline basic policies which to a large extent address many of the risk factors. An extensive asset-liability study is undertaken every five years to attempt to optimize the asset allocation to meet the funds objectives to meet the cost requirements. In addition, the funds are closely monitored by staff and up to the respective Board levels by both the OFA and OPG including, for the OFA, by the ONFA IC. Unfortunately, the risk of sub-par returns cannot be entirely eliminated as it will be largely driven by

Decommissioning and waste disposal costs and liability risk surprises are largely mitigated by the quinquennial ONFA Reference Plan update. The contribution schedules can be adjusted following a reference plan update to allow for returns in the funds to help cover liability revisions and past target rate of return shortfalls. The funds are audited on a regular basis which reduces the potential for fraud or other control problems. Staff monitor the funds very closely and are looking for irregularities. The internal auditors of both OPG and the OFA are also proactive in examining control issues. The funds rely largely on external managers, and efforts are made to select highly professional managers who follow investment industry best practices.
Default on Loans to Public Bodies Primary Accountability: Corporate & Electricity Finance Division	Risk of default by public bodies on OFA loans	LOW Although the OFA has restructured or provided a loan deferral in the past, this has been relatively rare, so an "unlikely" scenario (less than 20 per cent probability) is reasonable, and its likelihood is rated as **low.** This is aside from the Ottawa Convention Centre (OCC), loan from the OFA which represents less than 1 per cent of the OFA's total loan portfolio). Ministry of Tourism, Culture	LOW Impact of a default may be "noticeable" and public, but loan write-downs to public bodies that are consolidated on the Province's financial statements would likely not create a fiscal impact, and, therefore, its impact is deemed **low** resulting in an overall low risk assessment.	LOW	Prior due diligence and analysis of debt repayment ability of public bodies on OFA loans. Ensure grant (where available) intercept mechanisms continue to be included in loan agreements. Early detection through loan monitoring by line ministry and restructuring of loan repayment terms. MTCS has engaged a consultant to review OCC. Default on Guarantees under the Aboriginal Loan Guarantee Program (ALGP) Primary Accountability: Corporate & Electricity Finance Division	In the event of a call on an ALGP guarantee arising from a default on the underlying loan, the fiscal impact would be recorded in the fiscal year in which the claim was paid.	LOW Debt service reserve account, ongoing monitoring, bank account controls are in place to mitigate risk of default.	LOW Any default would have a negative fiscal impact on the Province in the year in which the Province paid a claim pursuant to the guarantee. As guarantees are limited to a maximum of $50 million (unless Treasury Board approves an exception), and the average is smaller, the impact is small in the Provincial context. However, there may be a reputational impact for the Province/OFA as well.	LOW	Ongoing monitoring by staff of approved loan guarantees, including project performance and compliance with loan and guarantee agreements. No specific Board oversight of ALGP because the program relates to Provincial guarantees.
Increased borrowing to fund loans to public bodies Primary Accountability: Corporate & Electricity Finance Division	Risk of unexpected loans that were not included in the OFA Annual Borrowing and On-Lending Plan.	LOW Over the past five years, only one unanticipated non-school board loan caused the OFA to breach its loan contingency reserve. An “unlikely” rating of less than 20 per cent probability of occurrence is, therefore, prudent, resulting in a **low** likelihood.	LOW In the overall borrowing plan, any unexpected loans would likely not have a “noticeable” effect, as most incremental borrowing is not material in the context of the whole borrowing program and therefore can usually be accommodated. This results in a **low** impact and a low overall risk assessment.	LOW	Ensure there exists an unassigned contingency equal to 10 per cent of forecasted loans to public bodies. Push off less urgent loans for execution in the following fiscal year. For OLG and LCBO, request business updates from the Government Business Enterprises Division (GBED) to identify potential borrowing requirements (e.g., for site expansion); include estimates in Borrowing and On-lending Plan. Where a policy decision is taken requiring the OFA to provide funding for a strategic project, facilitate private sector financing, especially if interest cost savings are only deemed to be minimal.

Government cost constraints Primary Accountability: Finance and Treasury Division	Cost constraints may limit the OFA's ability to provide services in a timely manner.	MEDIUM While good budgeting process and budget to actual comparison exists, the OFA is not insulated against budgetary constraints. The likelihood is deemed **medium.**	HIGH If budgetary constraints are severe enough the delivery of core services will be impacted justifying a **high** impact and high overall risk assessment.	HIGH	Timely budget preparation in accordance with PRRT requirements. The budget preparation process is aimed at allocating resources according to priorities. Detailed planning and monitoring to meet priorities within cost constrained environment. Comparison on a quarterly basis between budget and actual to ensure that priorities are being met within approved expenditures. Effective financial management on a year by year basis that ensures minimal variances between budget and actual. The OFA also retains its surplus which can act as a source of funds to meet non salary related expenses upon approval from the Ministry of Finance.
Risk Category: WORKFORCE **RISK AREA**: Workforce: Operational Workforce Risks.					
Employee Fraud Primary Accountability: Finance and Treasury Division	Risk that losses will be incurred because an employee is dishonest.	LOW The likelihood is **low** due to stringent internal controls and systems that cannot be easily circumvented.	MEDIUM The impact is deemed to be **medium** resulting in an overall low risk assessment.	LOW	Continue to communicate code of values and measures for disclosing wrongdoing to OFA staff. Strong system of internal controls, including segregation of duties, which are regularly reviewed by internal auditors as well as the Office of the Auditor General. While no material issues have been identified to date from these audits that essentially cover the full fiscal year, all audit recommendations have been implemented. Detailed and timely exception reporting with managerial oversight.

Primary Accountability: Each Hiring Division, with support from the Strategic Corporate Services Division	available due to resignations, retirements, turnover, inability to hire, lack of skills, illness, etc., including the risk that misalignment of incentive structures with functions of the OFA may impede recruitment, promotion, innovation and staff initiative.	The likelihood is deemed **medium**. The issue has gained traction due to the disparity between pay scales in other agencies and pension funds compared to their OFA counterparts. As a result, overall, the pool of applicants to positions at the OFA has diminished over the past few years. Although most positions have adequate backup and succession planning, there are some areas within the OFA that are tightly staffed and some positions are highly specialized which creates vulnerability. In addition, compensation constraints have limited the ability to adequately replace staff externally at comparable experience and skill levels. An absence of financial incentives may also have impacted levels of staff engagement/initiative for existing staff (e.g. not taking promotions to management or not taking on special projects). The OFA makes extensive use of information technology as an offset to staffing constraints created by the increased scope and complexity of its activities.	The impact is deemed **extremely high** resulting in an overall high risk assessment.		Board and Human Resources and Governance Committee, provide support and training, where feasible provide competitive salary and benefits, foster a good and efficient working environment and a culture that recognizes and rewards performance, set out performance plans and monitor, recognize and value achievements, good communications and teamwork, and implement employee engagement strategies. Where possible, offer results-based pay for performance, including a competitive, market-based salary and a comprehensive and flexible benefits package. Maintain unique compensation structure for A/XOFA positions. The OPS is now conducting employee engagement surveys on an annual basis which will enable the OFA to track changes in employee engagement levels and better align responses and initiatives with results in the shorter term. The OFA is also undertaking a review of its organizational culture to ensure it continues to align with the OFA's values and corporate objectives as the OFA's mandate continues to increase in complexity and volume. The implementation of the new long-term compensation strategy for OPS non-bargaining specialists, managers and executives implemented in November 2017 is expected to help mitigate human resource risk. Among the changes were: adjusting base salaries and salary ranges for managers and non-bargaining staff and lifting the freeze on movement within them; providing

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
					equivalent increases to those negotiated by bargaining agents on a go-forward basis; streamlining the compensation structure for executives (EXE) to ensure that salaries target the market median of similar jurisdictions and public sector comparators: reinstating merit pay based on performance for non-bargaining specialists and managers; and, the introduction of a modern job evaluation system for the management compensation plan including a separate managerial stream intended to reduce salary range compression and inversion between managers and staff reporting to them by restoring a five percent differential in salary. Furthermore, this compensation strategy allowed for compensation revisions to the FMCG class (A/XOFA). These latter changes were approved by the Board in April 2017 to help in restoring competitive compensation with Broader Public Sector comparators. It is too early to tell whether these changes are sufficient to reverse the recent trend of disappointing responses to positions advertised externally and an inability to attract qualified candidates for positions in the A/XOFA classification and others including those requiring accounting designations and specialized formal education in financial engineering and information technology or investment and corporate finance experience.

Risk Category: INFORMATION TECHNOLOGY & INFRASTRUCTURE **RISK AREA:** Information and Information Technology (I & IT): The risk that information produced or used (e.g., performance data) is incomplete, out-of-date, inaccurate, irrelevant or inadequately protected from inappropriate disclosure. Risk that information or other technology (e.g., architecture, hardware, software) does not support business requirements, and/or does not support availability, access, integrity, relevance and security of data. Includes business continuity risk. Risk related to information or technology (e.g. upgrading or replacing of IT systems, etc.) Should include privacy and security risks.					
Privacy and security Primary Accountability: Strategic Corporate Services Division	Risk related to the OFA's handling of sensitive/ confidential information on behalf of the government. Potential compromise of confidential information or personal data through identity theft, or unauthorized electronic or physical access of information.	LOW The risk is considered **low**, as management ensures that staff are cognizant of the importance of information security.	MEDIUM The impact is deemed medium, resulting in an overall low risk assessment.	LOW	**Personal Information Privacy:** The OFA is a designated institution under *Freedom of Information and Protection of Privacy Act* (FIPPA). All OFA staff are provided with FIPPA training within 6 months of starting employment and must take FIPPA training annually thereafter. Employees are prompted through the OFA's Policy Management System (PPM) to review their obligations and must answer questions prior to confirming they have understood and agreed to comply. The OFA has a Privacy Breach Protocol in place in the event that a breach is identified under FIPPA. This Protocol is managed by the Legal Branch. All HR related information and systems containing Personal Information, as defined under FIPPA, are scheduled to be amalgamated into one system by fiscal year 2020–21, with updated restrictions and selective access to users. The new amalgamated system is still in its design phase but will incorporate role-based access for authentication and authorization, to ensure the highest level of privacy protection of personal information. A privacy impact assessment will be conducted, if required.

					An Information Management initiative is currently underway at the OFA. It aims to reduce the costs and risks associated with information and data handling by maturing the OFA's current information governance and establishing effective Records and Information Management (RIM) practices aligned to Business Unit (BU) priorities. These practices will be based on IM best practices, but require a significant effort of time and energy to identify and remediate 20+ years of ad-hoc electronic data handling. The process the OFA has embarked on is an iterative 3-year cycle of identification and remediation of data. The initial discovery and assessment phases for SCSD and Legal Service Branch has begun in Q3 of fiscal year 2017–18, and is expected to expand to the rest of the OFA in fiscal year 2018–19. The SCSD is targeting Q4 of fiscal year 2020–21 to complete the remediation of key data identified in the assessment.
					Security: All staff and fee-for-service contract workers must complete security clearance and background checks in order to be granted access to all key applications and systems within the organization in accordance with the *Contractor Security Screening Operating Policy*. The OPS I&IT Directive does not apply to the OFA. The OFA has its own I&IT policies that meet or exceed the OPS Directive. The OFA measures its I&IT standards against established industry benchmarks and best practices.

					Access to all electronic data and systems requires authentication which is managed through the OFA Identity and Access Management System (IAM) in alignment with the *OFA IT Access Control Policy*. The IAM system controls authentication and authorization. Role-based access controls are setup according to the 'business owner's' level of specified granularity, and the ability to directly review, assign and revoke access is granted to the owner via Systems Access Manager. Security of electronic information is continually assessed through third party security assessments on infrastructure from external vendors (Penetration Testing and Vulnerability Assessments) are conducted annually. Security of hard copy information is provided by enterprise IT perimeter security solutions, key card locked main doors, safes, and security cameras. Physical security audits are conducted on a 3-year cycle, with 5 years allowed to remediate given fiscal constraints on leasehold improvements. Yearly audits by the Ontario Internal Audit Division (OIAD) are completed on treasury systems, and periodically include reviews of the IT security and access control mechanisms. Recommendations arising from such audits are actioned and report backs are provided to OIAD. ARMC receives quarterly reports from OIAD on all audit findings.

					All audit materials and security reviews are stored in a centralized repository that informs the technology roadmap and guides policy development decisions. The OFA currently has an *Incident Response Policy and Procedures* document from 2008. This document is being re-developed to include a Data Incident Response Plan, further establishing a framework and protocols for action and communication during an event. It is anticipated that development of the Plan will include active representation and membership across the organization, and is scheduled to be completed by Q4 of fiscal year 2018–19. Regular security policy compliance monitoring and reporting is managed through PPM. This ensures staff are reminded about their requirement to read and verify compliance of all security policies in a timely fashion. **Confidentiality:** The *Public Service Ontario Act, 2006* and related *Conflict of Interest Regulation* require OFA employees, as public servants, not to disclose or use information obtained in the course of their duties. The OFA also has a *Conflict of Interest Policy* which is communicated to staff through PPM annually. Business continuity Primary Accountability: Strategic Corporate Services Division	Risk that the processes in place to ensure that critical I&IT systems are not available for operation to support business requirements (disaster recovery & business continuity planning)	LOW The risk is considered **low**, as the OFA has a comprehensive Business Continuity Plan (BCP) which is regularly tested.	HIGH The consequences for the OFA not being able to carry out its business, even for one day, would be severe, therefore its impact is deemed **high.** As a result, the OFA maintains a twin of its IT infrastructure in a separate disaster recovery location (DR Site), which reduces the overall assessed risk to medium.	MEDIUM	As part of the OFA BCP, Strategic Corporate Services Division (SCSD) ensures that all critical systems, information and IT infrastructure are highly available and replicated to the OFA's DR Site. Critical production systems are routinely run out of the DR Site in order to verify the system operates properly in the BCP environment. Furthermore, SCSD maintains the technical infrastructure to support the OFA decentralized recovery plan. This includes mobile devices and remote access services. Periodic drills are held to ensure that staff are able to use the OFA's BCP infrastructure in a productive manner.
Procurement Primary Accountability: Strategic Corporate Services Division	The direct impact of delays to any procurement activity are twofold: Financial risks, as this directly impacts the budgeting cycle within the organization and also results in higher service delivery and resource costs of the legal and procurement teams, respectively.	MEDIUM The likelihood is deemed **medium.** The OFA operates within the government procurement framework, adapted to its own unique requirements. The requirement to adhere to complex public sector procurement rules, as set out in the OFA's Procurement Policy has the potential of slowing down urgently needed IT infrastructure, creating a degree of risk. Some	MEDIUM The impact is deemed **medium,** resulting in a medium overall risk assessment	MEDIUM	Standardized approval forms and RFX (Request for Information, Proposal or Quotation) precedent templates streamline the procurement process. Establishing Service Level Agreements within the organization to ensure consistent timelines for document review and approvals will help ensure project deadlines are achieved. A dedicated office supports the goal of increased consistency and

In some circumstances, CEO approval of an exemption or a different process may be requested, if available.

Economic Conditions

The economic outlook for Ontario described below is based on the average private sector view as of January 2018. As with all projections, there are positive and negative risks to the outlook. The most significant immediate risks to the outlook are rising interest rates and uncertainty regarding future U.S. economic policy. For business planning purposes, the OFA recognizes that it may confront increased demands to provide financing and other services.

Ontario's economy is expected to continue to grow at a solid pace. Ontario real GDP increased 2.6 per cent in 2016. Private-sector forecasters, on average, estimate Ontario real GDP grew by 2.9 per cent in 2017, and expect growth of 2.2 per cent in 2018, 2.0 per cent in 2019 and 2.1 per cent in 2020. The economic outlook is influenced by external factors, such as U.S. economic growth, oil prices and the Canadian dollar. An advancing U.S. and global economy combined with low oil prices and a competitive Canadian dollar continues to support Ontario's economic growth. Over the forecast period, rising interests are expected to shift economic growth from interest-rate-sensitive sectors, such as household consumption and housing, which have led activity in recent years. Trade is expected to be an important contributor to growth, as Ontario's exports are projected to rise on average by 2.1 per cent annually over the 2018–20 period. Solid demand prospects will also continue to encourage businesses to invest over the projection period, as firms adopt new technologies, produce more innovative goods and services, and expand into new trade markets. However, uncertainties surrounding U.S. trade policies pose downside risks to Ontario's growth forecast.

The United States is Ontario's largest trading partner, accounting for approximately 80 per cent of the Province's international merchandise exports in 2016. Economic growth in the U.S. slowed to 1.5 per cent in 2016 following a strong 2.9 per cent in 2015. According to the January 2018 Blue Chip consensus outlook, the U.S. economy is estimated to have grown by 2.3 per cent in 2017, and is expected to grow by 2.7 per cent in 2018 and 2.4 per cent in 2019.

The price of WTI (West Texas Intermediate) crude oil fell by over 70 per cent from its June 2014 peak of $108 US per barrel to below $30 US per barrel in early 2016, a reflection of strong supply and weaker global demand. WTI oil prices have since risen to an average $51 US per barrel in 2017, up from $43 US per barrel in 2016. The current private-sector forecast average for the WTI price of oil is $54 US in 2018, well below levels recorded over the 2010-14 period.

Sharply lower oil prices and diverging monetary policy between Canada and the United States contributed to a depreciation of the Canadian dollar to an average of 78.2 cents US in 2015. The Canadian dollar declined further in 2016, averaging 75.4 cents US before climbing up to an average 77.5 cents US in 2017. Private-sector forecasters expect the Canadian dollar will average 78.8 cents US in 2018.

Ontario's resale housing market advanced rapidly over the 2015-16 period and into early 2017, supported by low borrowing rates, rising employment, income gains and growth in the number of households. Housing market activity has cooled following the introduction of the Fair Housing Plan. Sales of existing homes dropped by 9.5 per cent while resale prices rose by 9.7 per cent in 2017. Ontario housing starts also increased in 2017. Over the next few years housing market activity is expected to remain moderate as gradually rising interest rates, historically high valuations and mortgage debt are expected to temper healthy demographic-related demand.

There are risks surrounding the housing market outlook. Home price gains in Ontario have outstripped incomes in recent years, fuelling mortgage debt accumulation. As a result, affordability in Ontario's housing market has eroded. Despite historically low mortgage rates, monthly carrying costs are elevated

relative to long-term trends. High levels of debt combined with elevated resale prices leave Ontario households potentially vulnerable in the event of an adverse economic shock.

Financial Markets

The Bank of Canada has raised the overnight rate target since last summer, first to 0.75 per cent in July 2017, to 1 per cent in September 2017 and again to 1.25 per cent in January 2017. The decision was largely driven by a strong Canadian economy in 2017 fuelled by stronger-than-expected consumption and residential investment, reflecting solid employment growth. The Bank of Canada also noted stronger-than-expected global growth but cautioned the uncertainty surrounding the future of NAFTA. On average, private-sector economists expect further rate hikes in 2018.

In the United States, the Federal Reserve raised rates three times throughout 2017, citing a continuously strengthening labour market and solid economic growth. It is expected that the Fed will continue to raise rates, though at a gradual pace. On the other hand, monetary policy in the European Union continues to remain accommodative. In December 2017, the European Central Bank (ECB) announced that interest rates will remain unchanged and are expected to stay "at present or lower levels for an extended period of time, and well past the horizon of the net asset purchases." The ECB also plans to continue its asset purchase program until at least September of 2018, albeit at a lower monthly pace than in 2017.

In Canada, long-term interest rates have remained at historically low levels for several years but have risen in recent months. Long-term interest rates are projected to gradually rise over the next few years but still remain low compared to the long-term historical average.

According to private-sector forecasters, the Canadian three-month Treasury bill rate is expected to rise gradually from an average of 0.7 per cent in 2017 to 1.4 per cent in 2018, and 2.1 per cent in 2019. According to the January 2018 Blue Chip consensus outlook, the three-month U.S. Treasury bill rate is expected to average 1.8 per cent in 2018, before rising to 2.4 per cent in 2019.

The 10-year Government of Canada bond rate averaged 1.8 per cent in 2017. According to private-sector forecasters, the 10-year Government of Canada bond rate is projected to rise, averaging 2.4 per cent in 2018 and 3.0 per cent in 2019. According to the Blue Chip consensus outlook, the yield on 10-year U.S. government notes is expected to average 2.7 per cent in 2018 and 3.2 per cent in 2019, up from 2.4 per cent in 2017.

Government Initiatives

Government policy implementation and developments, including price mitigation measures, and financial performance in Ontario's electricity sector, including OPG, Hydro One and municipal electricity utilities, may affect borrowing requirements through the cash flows to the Province and OEFC.

The OFA will continue to monitor the Green Bond market to identify future issuance opportunities under its Green Bond Program. The OFA will provide policy analysis and advice on the Trillium Trust, to dedicate net revenue gains from qualifying asset sales to help support public transit, transportation, and other priority infrastructure investments across Ontario. The OFA will also provide financial support to the Ministry of Environment and Climate Change in respect of the government’s Cap and Trade program, as well as in the establishment of a Greenhouse Gas Reduction Account and a climate change agency. In addition, the OFA will continue to provide loans to public bodies in support of government initiatives such as the new Ontario Cannabis Retail Corporation and greenhouse gas reduction initiatives implemented by colleges and universities.

The OFA will also provide financial analysis and advice in support of the Province's commitment to unlock the value of designated assets, and will continue to work with Infrastructure Ontario and other areas of government on optimizing certain holdings in the Province's real estate portfolio, in particular, the sale of the Seaton lands.

Regulatory Compliance

The OFA will ensure that information required to be disclosed by the Province in its debt securities offerings related documents, periodic published reports (including the Ontario Budget, the quarterly finances, the Public Accounts of the Province of Ontario and the annual fall Economic Outlook and Fiscal Review) and other disclosures filed or submitted under applicable securities legislation, rules and regulations in the United States, the United Kingdom, Luxembourg, Australia, Switzerland and Singapore is filed on time and otherwise in accordance with those requirements. Regulatory requirements will be monitored continually to ensure the Province has ongoing access to these markets.

PERFORMANCE MEASURES

1. Execute the Province's borrowing program

Objective	Performance Measure	Target
a. Complete the borrowing program while ensuring that the Province always has adequate liquidity.	Sufficient liquidity on hand at all times to ensure the Province can meet its financial obligations. Ensure borrowing is completed with minimal negative impact on the Province's reputation in the financial markets.	Borrowing program completed and cash requirements met on a timely basis.
b. Manage the borrowing program in a sound and cost-effective manner.	The performance measurement of the timing of the long-term fixed-rate borrowing program is expressed as a percentile ranking of the all-in borrowing cost against a statistical distribution of benchmark interest rates observed throughout the year. Other debt management activities such as buy-backs are also incorporated in this measurement.	Achieve a percentile ranking of 45 to 55 for regular borrowings and 50 to 75 for strategic foreign borrowings. All results are validated by the OIAD.
c. Ontario Savings Bonds (OSB) Program	Fund borrowing requirements at cost-effective rates for a broadly based retail program which allows individual investors in Ontario to participate in providing funding to the Province. OSBs reduce other borrowing requirements which, in turn, reduces pressure on new issue spreads.	Ensure the program is cost-effective in the context of a retail borrowing program. Maintain and review Service Level Agreement between OFA and Fiscal Agent on an annual basis.

2. Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook

Objective	Performance Measure	Target
a. Preservation of capital on money market investments. Manage liquid reserves in a sound and cost-effective manner.	Credit losses on liquid reserves and investment portfolio of funds managed for other government bodies. The investment return on the portion of liquid reserves invested in Government of Canada Treasury bills and similar riskless instruments compared to an average 61-day portfolio benchmark. This benchmarking process is consistent with private sector industry practice. Maintain liquid reserve levels within a pre-determined range (as set out in the Financing and Debt Management Plan) and provide an explanation to the Board of any deviations from that range.	No credit losses on any investments. Generate actual returns that are within ±2 basis points of the 61-day benchmark portfolio. Results are validated by the OIAD.
b. With OPG, prudently manage the Used Fuel and Decommissioning Segregated Funds' investments.	Ensure investment management is consistent with ONFA objectives.	Manage, monitor, and analyze the performance of the funds and the performance of investment managers. Continue refinement of investment strategies, risk management, policies and procedures. Meet the real return objective of 3.25 per cent, and exceed the market benchmark over the life of the funds.
c. Prudently manage funds for government bodies through the centralized/ segregated fund initiative.	Reduce investment costs. Ensure public bodies' funds are managed consistently with investment industry best practices.	Establish and continue to efficiently manage segregated funds with government public bodies that meet client requirements.

Objective	Performance Measure	Target
d. Minimize financial risk by ensuring risk exposures and program losses remain within approved exposure and loss limits.	Foreign exchange exposure. Net interest rate resetting exposure. IOD losses as a percent of budgeted IOD. Credit exposures relative to approved policy limits.	Foreign exchange exposure not to be above five per cent of total debt. The 2017–18 Financing, Debt and Electricity Management Plan had an approved range of 0 per cent to 2.5 per cent in Foreign Exchange Exposure. Currently, the exposure of 0.2 per cent of debt. The 2018–19 Financing, Debt and Electricity Management Plan will have a recommended range subject to Board of Directors approval later in the year. Net interest rate resetting exposure not to be above 35 per cent of total debt. The 2017–18 Financing, Debt and Electricity Management Plan had an approved range of 11.4 per cent to 15.4 per cent in Ontario's Gross Floating Rate exposure, with a target of 13.4 per cent. Interest Rate Resetting Exposure is expected to be 12.9 per cent as of March 31, 2018, with an expected range of 10.9 per cent to 13.9 per cent. A new range and target for Floating Rate and Interest Rate Resetting Exposure will be approved in the 2018–19 Financing, Debt and Electricity Management Plan. IOD losses not to exceed three per cent of budgeted IOD. Credit exposures to be kept within approved policy limits.
e. Use risk control policies to ensure programs are managed in a prudent and cost-effective manner.	Risk management policies are kept current with industry best practices. Exposure limits established in the policies are reasonable and prudent. Exposures are monitored and reported in a timely and accurate manner.	Policies for market risk, credit risk, use of derivatives and other financial instruments and risk management reporting are to be reviewed annually, and amendments or decisions not to amend are to be approved by the Board of Directors. Review limits on net interest rate resetting, foreign exchange and

Objective	Performance Measure	Target
		credit exposures, and credit concentration. Calculate and report exposures daily. Perform monthly stress testing on the Province's market and credit exposures.
f. Measure and report performance of the Province's borrowing, debt management, and investment programs.	Timeliness and accuracy of performance measurement and reporting.	Report on borrowing and debt management performance daily, and on the money market program performance monthly.
g. Evaluate the potential impact of stressed capital market conditions on OFA programs and IOD.	Conduct stress tests of the credit exposures, and IOD, and report the results as described in the risk management policies.	Stress testing is performed and reported on a monthly basis as described in the risk management policies.
h. Forecast IOD for the Province and the OEFC.	Forecasts for the current year and medium-term are provided for the Budget, Fall Statement and quarterly finances.	IOD forecasts for the current year and medium-term to be provided monthly and updated for the Budget, Fall Statement and quarterly finances in a timely manner.
i. Assess the credit quality of municipalities and other approved entities applying for Infrastructure Ontario loans and provide credit risk advice to the Credit Review Committee (CRC)	Review loan applications and analyze reports. Attend CRC meetings to provide advice and vote on each application.	Provide an advisory role at Infrastructure Ontario's CRC meetings.
j. implications of government initiatives.		Provide the Borrowing and Debt Management chapter in the Budget and Fall Statement; and update Ontario's Financing Program in Ontario Finances (quarterly).

3. Manage key financial relationships

Objective	Performance Measure	Target
a. Manage Ontario's relationships with domestic and international investors.	Maintain dialogues with investors, investment dealers and the international investment community by providing timely financial updates, including investor publications and securities filing documents.	Continue to monitor fixed income markets, economic conditions, and investors' interests and requirements to ensure road shows are effective for both the Province and its investors. Investor Relations to continue to track meeting activity with investors. Program benchmarks to include number of meetings with new accounts, effectiveness of communications material and website usage. Provide IR information products, including updates to the OFA website, on a timely basis. Meet ongoing disclosure and regulatory filing requirements with the SEC, UKLA, LuxSE, ASX, SIX Exchange Regulation and the SGX. Provide panelists or speakers at domestic and international industry conferences.
b. Manage Ontario's relationships with the credit rating agencies.	Ensure that credit rating agencies understand government policies, budget, and fiscal performance, properly reflecting these in their reports and decisions.	Following the release of the Budget, senior OFA and Ministry of Finance staff will meet with the rating agencies. Throughout the year, agencies will be kept informed of the government's ongoing economic and fiscal progress.

Objective	Performance Measure	Target
c. Manage Ontario's relationships with banks, financial services providers, and investment dealers.	Maintain relationships with banks, financial services providers, and investment dealers who provide the Province with banking, underwriting, custodial and fiscal agency services, thereby maintaining the Province's reputation and supporting its strategic direction to provide financial and cash management services. Maintain relationships with swap counterparties.	Ensure banking, underwriting, custodial and fiscal agency services provided to the OFA are cost-effective with minimal impact on IOD. Promote Toronto as a global financial centre. Ensure compliance with existing collateralized swap agreements in a timely and accurate manner on a daily basis. The OFA will endeavour to enter into collateralized swap agreements with more swap counterparties to limit credit risk.

4. Provide services related to cash management, banking, settlement, payment, financial and reporting, and client services.

Objective	Performance Measure	Target
a. Arrange OPS-wide cost-effective banking services that minimize the Province's expenditures.	Acquire cost-effective banking products and services to support government ministries' program delivery, Crown agencies' banking activities and OFA's debt and investment management activities through the government's tendering process.	Issue, award and implement tenders for banking and financial services to ensure service continuity and program area needs are met. Monitor vendors' post-implementation performance. Work with central agencies, ministry program areas, and financial service providers to increase take up of existing electronic payment mechanisms and identify industry trends and new banking technology, which can be leveraged to reduce costs and improve service delivery and back-office processes. Ensure continued compliance with mandatory requirements imposed by external parties such as Federal bodies and industry groups. Participate in government and industry working groups/task forces on developing innovative solutions to enhance banking and payment efficiencies.

Objective	Performance Measure	Target
		Provide comprehensive and timely banking advice to program areas and agencies supporting government initiatives.
b. Provide centralized cash management services that maximize liquid reserves returns.	Ensure the provision of timely and accurate cash information for the development of the Financing Table in the Annual Budget and Fall Economic Statements. High service standards on service contracts with client agencies to maintain client satisfaction.	Provide actual and forecast liquid reserve numbers for the Financing Table in the Province's Quarterly Statements and Annual Budget that stand up to scrutiny by internal and external stakeholders. Ensure relevant performance measures in client agency agreements are met or exceeded.
c. Timely and accurate forecasts to align borrowing with cash management requirements, helping to reduce IOD.	Reliable and accurate cash forecasts for the Province and client agencies.	Ensure that the Province has sufficient cash available at all times to meet its financial obligations. Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?

2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,

Will

William,

1.
As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.
Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.

Plus any RRRP or other credit needs that may result during August.

3.
The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.
Currently, under the existing credit facility of $975 million a balance of combined balance of:

1.
RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47

I don't see the requirements of $260 million?

2. In mid-August if you add another $200-$250 million, what will be the new balance?

3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Hello Sarah N,

Lisa was assisting me with the Amending Agreement 10, for the existing IESO OFA Credit Facility. While Lisa is away, who can we forward this to for review?

Part of the Fair Hydro Plan implementation process, requires reducing the existing credit facility from $975 million, down to $475 million (Amending Agreement 10).
Attached is the draft amending agreement with IESO's first round of comments. I have provided my comments as well for OFA Legal's review. One particular section (Use of Proceeds) requires Electricity Finance's review which I have already forwarded to them for review.

Concurrently IESO is reviewing our draft $2 billion FHP Credit Facility Agreement. I've included the approved directive and underlying OIC. We are expecting to receive comments on that draft in the near future as well. We will eventually require assistance with that as well. I will send a separate emails with the other 9, amending agreements to keep the emails small.

For background purposes I've attached
IESO OFA Amending Agreement 10
Original Credit Facility Agreement
History of IESO OFA Amending Agreements.
IESO Credit Requirements for the 2017 Fair Hydro Plan letter(IESO Request letter) outlining implementation process.

(1)Ameding agreement #8 of this agreement also includes a restriction under Use of Proceeds uuder section 2.3(2;) "with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, 1998, the OPA or successor "new" IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

RE IESO OFA new FH credit facility.msg

Hello Sarah N,

I discussed "Use of Proceeds" with Bruno. I will send a revised Amending Agreement 10 to you this afternoon.

IESO OFA FHP 2017 Credit Letter

In the letter IESO says that it is currently using the $975 million credit facility for FHP purposes referred to as Regulated Price Plan (RPP). You can see a copy of the grid note in the draft Amending Agreement 10, indicating draws under RPP.

Use of Proceeds for Amending Agreement 10,proposed changes

(i) According to Bruno, he is fine with keeping IESO's proposed paragraph (almost identical to Documentation's proposed first paragraph)
(ii) Remove "(1) Existing credit facility Use of Proceeds is different from the FHP $2 billion credit facility".
(iii) Keep "(2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance"

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on

the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

2. Documentation has also provided its recommended changes. Documentation's proposed changes are the same wording used in the new $2 billion OFHP Credit Facility and an opportune to streamline "Use of Proceeds" in both agreements. (page 2, paragraph 4).

Proposed Changes	Existing Agreement
Existing Agreement: "Use of Proceeds" **IESO proposes:** "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time." **Documentation proposes (same wording as in the draft new OFHP Credit Facility):** The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the following conditions: (1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of the IESO's role in the implementation and administration of the ~~OFHP~~. (2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."	Use of proceeds needs to fit Ontario Regulation 423/04 (under Electricity Act) and s. 2.3 of Amending Agreement 8 (post amalgamation) to allow for draws under the current agreement. (1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and (2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Sarah

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now

covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Will – see attached $2B draft for your review.

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Regards.

Hi Will,

After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.

Thank you,

Lisa

Subject: Conference call re: FHP; next steps August 11 - note to file
Date: Friday, August 11, 2017 5:25:49 PM

Lisa, Toby, Sarah H., Bruno, Will

- Outstanding issue: Do we need to incorporate anything in new directive re: existing agreement (with no intercept)? This will also be contingent on business reasons why intercept doesn't serve a useful purpose
- Need to draft BN and directive re: intercept requirement
- Briefing note for directive: Requires business explanation – e.g why intercept not useful – IESO doesn't receive allocations from Province (Policy/program area)

William Tan 11:13 AM:
Hi Lisa
i agree with having a call.
Should i include Mike and Ken?
Mike says the unsecured loan makes sense but it doesn't hurt to have a call.

Lisa Stein 11:14 AM:
business decision

William Tan 11:14 AM:

I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.

As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

But not in the Amending Agreement No. 10.
Also, Section 4.6 Negative Pledge seems to be all there except for the mention of "material subsidiary".

also, with todays update to the FHP, do I need to provide an explanation, or is this considered standard legal language?

Just note to the IESO that we added an "entire agreement" clause.

OFA -- IESO CREDIT FACILITY
MINISTER OF FINANCE DIRECTIVE FOR AN EXEMPTION FROM THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE")
REQUIRED UNDER THE OFA'S LENDING POLICY

CONTEXT

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility (currently provided under the "Original Credit Facility Agreement", see Background section) from the current $975 million to $475 million.

On June 29, 2017, the OFA received a directive from the Minister to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister of Finance [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the Minister to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an intercept provision in the OFHP Credit Facility agreement with the IESO, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA:

  > Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.

- The OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to exclude intercept provisions from the OFHP Credit Facility Agreement, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The requested Intercept Exemption Directive would only apply to the two specified IESO credit facilities.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, from the OFA Lending Policy requirement to include an intercept provision.

RATIONALE FOR EXEMPTION

- This Intercept Exemption Directive will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility (to be amended from the current $975 million facility).

- Including an intercept provision in the credit facility agreements with the IESO would have no practical usefulness as the IESO receives no operational funding from the Province of Ontario.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, which are appropriated by the Legislature for the Ministry of Energy, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment with the wording or intent of the OFA's Lending Policy.

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of having the Intercept Exemption Provision.]

BACKGROUND

<u>The IESO</u>

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.

- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.

- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

- The IESO is a public body for the purposes of CIPA.

OFA Credit Facilities to the IESO

- Pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, December 18th, 2013, and November 28, 2016, the Minister of Finance ("Minister") approved and directed the Ontario Fiancing Authority ("OFA") to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes.

- Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act*, *1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

- Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

- The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 2015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

MINISTER OF FINANCE

LOANS TO THE INDEPENDENT ELECTRICITY SYSTEM OPERATOR

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance ("Minister").

Effective January 1, 2015, the Ontario Power Authority (the "OPA") and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

Pursuant to directives dated December 22nd, 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, December 18th, 2013, and November 28th, 2016, the Minister approved and directed the OFA to make loans (the "Advances") to the OPA and the IESO after the Amalgamation from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA and IESO after the Amalgamation to meets its purposes.

Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 2015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support the IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

Pursuant to a directive from the Minister dated June 29, 2017 (the "2017 Directive"), the OFA was directed to provide a new revolving credit facility of up to $2 billion to the IESO for the purposes of providing short to medium term financing related to the IESO's role in the implementation of the OFHP Act (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister, Treasury Board or Cabinet. The intercept provision applies to money appropriated by the Legislature for a public body.

The IESO is a public body for the purposes of CIPA.

As there is no operational funding appropriated by the Legislature for the IESO, the intercept provision has no application for OFA loans to the IESO.

Therefore:

The OFA is not required to include an intercept provision in the following two credit facility agreements with the IESO:

a) the Original Credit Facility Agreement, as may be amended from time to time; and,
b) the OFHP Credit Facility agreement, as may be amended from time to time.

(together, the "IESO Credit Facility Agreements")

The IESO Credit Facility Agreements shall remain subject to all other terms and conditions as set out in the applicable directives.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

~~Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion to the OFA for the credit facility~~

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###, pursuant to which the Minister of Finance is authorized to lend a maximum of $2 billion.

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate ~~established as of [insert],~~ equal to the Province's cost of funds as based on the terms of ~~as set out~~ the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread ~~to cover the OFA's lending costs~~ ("~~Cost Recovery Fee~~Spread").

- ~~Advances under t~~The Line of Credit will only be ~~made~~ provided at the request and on the recommendation of the Minister of Energy.

DRAFT

Commented [LS1]: Not ncecessarily the case; not specifically referenced in the draft OIC

Commented [LS2]: Program area to confirm; differs from LRC form

Commented [SQ23]: Mentioned in s1 of LRC form:

oThis will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

Commented [LS4]: Page 3 LRC approval form states short term financing.

Formatted: Not Highlight

Commented [LS5]: Program area

Commented [SQ26]: This is simply a spread – I would not classify this as a cost recovery fee.

Commented [LS7]: Business decision

Commented [LS8]: Business decision; program area to confirm.

Commented [SQ29]: Not Advances. Only the Agreement itself.

Commented [LS10]: Further discussion required.

Commented [SQ211]: This is incorrect. The Credit Agreement will be made at the request of and recommendation of Minister of Energy, if at all – not the advances. Minister of Energy won't be a party to the proposed agreement.

Commented [LS12]: Unclear. Isn't this already authorized by Cabinet note? What oversight is intended here?

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the ~~Cost Recovery Fee~~Spread as set out above.

Commented [LS13]: Confirm authorization is contained in new OIC

Commented [LS14]: NTD: OFA Lending Policy may provide guidance for the OFA to make recommendations regarding this amount. Based on profile of brrower. Should be included in BN for Directive.

Commented [LS15]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Commented [SQ216]: We will be retaining this to remain consistent with past credit facility – unless otherwise advised.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

Commented [LS1]: Program area to confirm; differs from LRC form

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").
- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread to cover the OFA's lending costs ("Cost Recovery Fee").

Commented [LS2]: Program area

- Advances under the Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS3]: Business decision; program area to confirm.

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than five years after the execution of the Credit Agreement.

Commented [LS4]: Is this reasonable given the principal amount of the line?

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

DRAFT

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Cost Recovery Fee as set out above.

Commented [LS5]: Confirm authorization is contained in new OIC

Commented [LS6]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Hi all, I have re-drafted the directive re: IESO OFA credit facility (attached, with comments). Please review and let me know if you would like to discuss further. I note that the draft directive requires that the credit agreement between the IESO and the OFA must contain terms and conditions consistent with the directive. It also refers to the draft OIC.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

Pursuant to OIC ####, the Minister of Finance is authorized to lend a maximum of $2 billion

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of short to medium term financing related to the OFHP.

Commented [LS1]: Program area to confirm; differs from LRC form

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###.

Therefore:

i) **Line of Credit**

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate established as of [insert], equal to the Province's cost of funds as based on the term as set out the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread to cover the OFA's lending costs ("Cost Recovery Fee").

Commented [LS2]: Program area

- Advances under the Line of Credit will only be made at the request and on the recommendation of the Minister of Energy.

Commented [LS3]: Business decision; program area to confirm.

Commented [LS4]: Further discussion required. This may require the Minister of Energy to be a party to the loan agreement.

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than five years after the execution of the Credit Agreement.

Commented [LS5]: Is this reasonable given the principal amount of the line? Previous draft provided had 40 year term (as per draft OIC). IESO has requested 5 year term in letter dated 05/12/17,

DRAFT

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

ii) Retention of spread

Pursuant to Order in Council ####, made under sub-section 22(1) of CIPA, the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for the Line of Credit made under the authority of this Directive, the amount of the spread retained by the OFA shall be for the amount of the Cost Recovery Fee as set out above.

Commented [LS6]: Confirm authorization is contained in new OIC

Commented [LS7]: As previously discussed, this is a business decision. My understanding is that this is generally retained only where there is commercial risk. Should this be remitted back to the Province?

Hello Anthony and Victor,

The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.

Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).

Please review and comment.

Thanks,

Will

- Elect to continue all or a portion of the principal and interest .
- The advancement period of 28 days up to 95 days will remain the same.
- Section 3.3 (2) new advances will change from 1 business day to two business days prior notice because advancements under the Borrowing Notice allow for two business days' notice.

Hello Anthony,
We have reviewed the grid note you provided and your observation is correct that you are provided with one line item with the consolidated total amount compared to the distinct separate the advances we originally understood.
Yes, we have access to a version of the grid note that separates the advances that is not provided to you, which caused the confusion.
Does the revised Section 3.3(2) and Schedule 2 (Form of Election Notice) still functional to you?
Thanks,

Hi,
Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).
It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.
Victor and I are reviewing today's draft.
Regards.

Hi Will. I understand from Anthony that the November advances etc have now occurred under the new FHP line of credit and the 2005 line of credit.

Just wanted to check in with you on arranging for the exchange of the Grid Notes regarding the 2005 line of credit i.e. we will provide to OFA the new $475MM Note in exchange for the return to us of the old $975MM Note.

Let me know what your standard practice is.

Thanks,
Victor

Good morning Lisa,

Anthony has notified us of his intentions on Nov 21, to move the entire balance of $840mm + new advance, to the $2B credit facility. I have put together a timeline/checklist based on the aforementioned scenario in an effort to get everyone on the same page. You will notice that the FHP credit facility is set-up first to be available when the transfer is eventually ready to be done. The Amending Agreement No. 10 will be signed and reduced closer to the time of the transfer.

Please find the attached checklist outlining the order of events. I have also created a separate internal checklist. Please review both checklists so I may share the **EXTERNAL** checklist it with Anthony.

I am out of the office this week but would expect we should sign the intercept, the 2b facility, and 475m at the same time.

In terms of notices for mid Nov i would expect the current $825m outstanding would just roll over to be on the 2B facikity without any actual cash being moved.

Regards.

Hello Anthony,

I am trying to plot out the logistics on my end in regards to which agreements and borrowing notices need to be signed first etc. It would be helpful if you could let me know your intentions with regards to the rollover of the FHP amounts. Give me a call if it's easier to discuss.

Example:

Existing credit facility – move over entire balance to FHP.

Hi Toby,

Further to our discussion this afternoon, I wanted to note that the original OFA loan to the OPA (now IESO) for the $975 million credit facility was also an unsecured obligation of the OPA and contained a similar negative pledge. However, it did not contain the *pari passu* language found in s. 3.3(5) of the current draft agreement.

Once you have had a chance to review the current draft agreement, please let me know your thoughts on the "permitted liens" amendment, as well as the *pari passu* language, and the negative pledge in s. 4.6.

Thank you,

Lisa

Subject:	FHP Credit Facility outstanding issues
Date:	Friday, August 04, 2017 9:12:34 AM

Good morning all,

We have had possession of this draft since Wednesday July 26. There are two outstanding issues holding-up the FHP Credit Facility draft:

"Permitted Leins"

(k) any Lien arising in connection with the IESO's role and obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation to the Clean Energy Adjustment, or otherwise.

On yesterday's call, Anthony said that the operations for FHP are still being worked-out and that it's difficult to itemize everything that would be related (k) and would fall under the OFHP obligations and include them in section (k). Because of the fluidity of the situation, (k) was intentionally worded in this manner and (k) does not sound to be unreasonable to me.

I am not an expert on the operations of the Fair Hydro Plan. But according to the link below, the FHP includes a number of Enhanced Social Programs which include Rural/Remote Rate Protection Program (RRRP),Regulated Price Plan (RPP), Ontario Electricity Support Program (OESP), First Nations On-Reserve Delivery Credit, Affordability Fund and Clean Energy Adjustment.
https://news.ontario.ca/mei/en/2017/5/ontarios-fair-hydro-act-2017-1.html

Lisa please arrange to speak with Toby and Bruno to answer any concerns Bruno may have with (k).

Section 3.3 Election Regarding Advances

(5)the Credit Facility shall at all times rank *pari passu* with all other unsecured Indebtedness of the IESO.

Lisa, I understand you have an email with Toby yesterday. May I ask that you and Toby work-out a satisfactory wording for (k). Jean-Francois has already provided his opinion that "unsecured Indebtedness seems appropriate". Once you conclude on the wording please show JF and I. I ask that you communicate with Victor to determine if the wording is agreeable. I understand that sending a draft version is preferred but we are running out of time. Once he agrees then we can send him the soft copy.

It's important that we get this document out to IESO today.
I am available all day today if you need me to join or arrange a call.

Will – see attached $2B draft for your review.

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Regards.

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

ARTICLE 4
COVENANTS OF THE IESO

Section 4.1 Payment of Advances.

The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

Section 4.4 Insurance.

The IESO will cause all property owned by the IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the mature and to the extent that such property is usually insured by companies operating similar businesses.

The IESO will, and will cause the Subsidiaries to, carry on and conduct their respective businesses in accordance with good business practice.

Section 4.6 Negative Pledge.

The IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of the IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) the creation, incurrence or assumption of any Purchase Money Mortgage;

(e) any Lien charging the interest of the IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c), provided that, at the time such Lien is created, incurred or assumed, the principal amount of such Indebtedness, together with the aggregate principal amount of all other Indebtedness secured by Liens permitted pursuant to this Section 4.6(e) which is outstanding at such time does not exceed 10% of Consolidated Assets at such time.

Section 4.7 Payment of OFA Expenses

In addition to any liability of the IESO to the OFA under any other provision of this Agreement, the IESO will, on demand, reimburse and indemnify OFA for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OFA in connection with the Agreement (including those services incurred in the preservation of rights under or enforcement of this Agreement at any time during the continuance of a default or Event of Default and for any reasonable loss or expense incurred by OFA as a result of any failure by the IESO to fulfill any of its obligations under this Agreement). All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will

be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not

cured within three (3) Business Days after the date on which written notice of such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

(b) invoke the Intercept pursuant to section 5.7 of this Agreement to require payment of any amount due and payable under this Agreement.

Section 5.3 Suits for Enforcement by the OFA.

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) to file and prove a claim for all amounts owing under this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any monies or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of even date herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness ~~when due~~ under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed~~s~~ to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing~~of~~ the IESO's failure to pay when due any amounts owing ~~under this Agreement~~hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed~~s~~ to pay to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

Commented [CS3]: Re-ordered bullets to match order in Election Notice

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Subject:	FHP Status Update
Date:	Friday, October 13, 2017 5:18:58 PM

Hello All,

This is to provide a status update for the existing $975 million OFA IESO Credit Facility (to be reduced to $475 million) and new $2 Billion FHP Credit Facility agreements. The agreements will be executed immediately after certain approvals have been made.

Currently, FHP related advances are being drawn on the existing $975 million OFA IESO Credit Facility. Once the agreements are in place, the intention is to have IESO draw primarily from the new $2 Billion FHP Credit Facility and reduce the existing $975 million OFA IESO Credit Facility down to the $475 million.

According to IESO the next draw will occur on October 20, for $840 million (outstanding loan + new advance).

The amount for the subsequent draw on November 21, is currently unknown but is expected to exceed the existing $975 million OFA IESO Credit Facility limit.

Assuming the $2 Billion FHP Credit Facility agreement is signed before November 21, we are considering two options for the November 21 advances:

(1) IESO will submit a borrowing notice for the November draw to be drawn entirely from the $2 Billion FHP Credit Facility.

Or

(2) IESO will submit a borrowing notice to draw a portion from the $2 Billion FHP Credit Facility in combination with an election notice to draw a portion of the remaining outstanding amount to allow for the existing OFA IESO Credit Facility to be reduced to a level below $475 million.

I will be consulting with IESO to determine which of these options will be chosen and will advise as to the option selected. I understand these facilities will need to be updated in OLMS. I am providing this information to all parties so that they may determine what arrangements are necessary in this regard.

Thanks,

Best regards,

Let me know if I you have not received those. If you have, please confirm that their form is satisfactory.

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,
Will

"Resolution of the Board of Directors

Independent Electricity System Operator

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS the Corporation proposes to enter into a new credit facility with the Ontario Financing Authority or Ontario Electricity Financial Corporation to support the Corporation's role in the Fair Hydro Plan in an amount yet to be determined of between $1,800 and $2,500 million (the "**New Facility**");

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

~~**AND WHEREAS …**~~

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility … on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

(a) finalize, execute and deliver:

(i) all relevant agreements, instruments and other documents required for the establishment or amendment, as applicable, of the Credit Facilities, and

(ii) all ancillary documents, deeds and instruments determined to be necessary or desirable in connection therewith (the execution of any such document, deed or instrument being conclusive evidence of such determination),

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

I certify that the above is a true redacted extract of a resolution approved by the Board of Directors of the Independent Electricity System Operator on June 14, 2017.

Hello Lisa,

Please review if you agree with the order of events so we may streamline the execution process with IESO.

Thanks,

Hello Anthony and Victor,

As per our discussion with Anthony, the entire balance of $840 million will be moved from the existing $975 million Credit Facility to the $2 Billion FHP Credit Facility. Currently we cannot reduce the existing $975 million limit under the facility while $840 million is still outstanding under it.

We propose to signing the FHP Credit Facility agreement first on November 1st and receiving the FHP Borrowing Notice to advance ($840 million + new advance) on November 16. Allow the $840 million outstanding under the existing $975 million Credit Facility to mature on November 21st . Sign the semi-executed Amending Agreement No. 10 on November 16 to reduced the existing credit facility on November 22nd.

Please provide you thoughts is this is suitable.

Hello Anthony and Victor,

Pending the execution of the intercept letter agreement next week, we can certainly target executing the FHP credit facility at that same time, however, we propose holding off the execution of the amending agreement until November 22nd .

Currently there is $840M outstanding under the existing credit facility agreement; we cannot reduce the limit of the $975M to $475M while the $840M is still outstanding. As per our discussion with Anthony, we understand that it is IESO's intention that the next draw for the whole balance of $840M (plus any new advancement) will be entirely funded through the new FHP facility (i.e. that is move all funding for next draw on November 21st from the existing $975 million Credit Facility to the $2 Billion FHP Credit Facility).

In order to achieve this with least disruption we propose:

- Sign the FHP Credit Facility agreement first next week (assuming intercept letter will be signed prior to or at the same time).
- For next advance, Prior to November 21st funding date, IESO sends to the OFA the FHP Borrowing Notice under the new Facility specifying the amount of the next advance ($840 million + new advance).
- Allow the $840 million outstanding under the existing $975 million Credit Facility to mature on November 21st and OFA will fund the November 21st advance (whereby OFA will send any net difference of funds above the $840M to IESO) under the new Facility.
- Arrange to execute Amending Agreement No. 10, on November 22 to reduce the existing credit facility on $475M.

Please provide your thoughts if this is suitable.

Hi Victor,

Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Such notations, in the absence of manifest error, shall be *prima facie* evidence of ~~the~~ such A~~a~~dvances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Commented [VB1]: This appears to be the same as the definition of "Advances Outstanding" so ordinarily should use the defined term - see also item (v) of Grid Note. If this is different than the defined term, let us know.

Commented [LS2]: Program area to confirm? Delete if not included in the Grid Note.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment

Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Dd~~d~~efault and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of

actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

ADVANCES

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [TPW4]: I don't think this does anything, and may in fact be detrimental, as we may be able to argue for some kind of PMSI or other security arising from the operation of the OFHP. Useful if "unsubordinated", but not if "unsecured".

Commented [LS5]: Bruno: Please advise if you are comfortable with this deletion, as suggested by Toby. I am in agreement with his approach; if we add in "unsubordinated" it may require further discussions with IESO counsel (based on earlier comments/discussions).

Section 3.5 Conditions Precedent

Commented [WT7]: We query whether section (k) is necessary since we consider that section (j) "any other Liens" may already capture this. We defer to OFA Legal on this matter.

Hi Will,

Further to my e-mail below, I wanted to clarify a couple of points:

- The signatory should be the OFA, not OEFC
- Do we need to consider imposing a specific minimum borrowing period of one day? Or, can the date of the Proposed Advance or Continued Advance be the same date as the new Repayment Date?
- As I was alluding to below, do the interest provisions as currently drafted continue to apply to the Proposed Advance or Continued Advance?

I have discussed this matter with Caroline and she will be available to discuss with you further tomorrow.

Thank you,

Lisa

Hi Will,

Please see attached my suggested black-lined amendments and comments on the draft waiver.

In addition to the attached comments, have you considered how this daylight borrowing period will work from an operational point of view, for both the new Proposed Advance and the Continued Advance? Will interest still be applicable and how will it be calculated? Do we need to specify further details in the waiver?

As I will be away on vacation starting tomorrow, I have copied Caroline on this e-mail. As previously noted, she will be able to assist you in my absence.

Thank you,

Lisa

EXECUTIVE SUMMARY

The Ontario Financing Authority (OFA) is a Provincial Crown agency established by the *Capital Investment Plan Act, 1993* (CIPA). The initiatives in the OFA's *2018–21 Business Plan* will focus on achieving the objectives set out in CIPA and the objectives set out in the OFA's mandate letter from the Minister of Finance, delivered on October 3, 2017 over a three year planning horizon, as well as reporting on results of the previous year's Business Plan. Initiatives for the 2018–21 Plan include:

1. Executing the Province's borrowing program through development and implementation of the annual Financing, Debt & Electricity Management Plan. The Plan will provide critical details on the borrowing program, including term structure and diversification objectives, as well as investor relations, liquidity, floating rate, foreign exchange and credit risk strategies, and also outline major risks and risk mitigation strategies.

2. Managing the Province's debt, investments, Ontario Nuclear Funds Agreement (ONFA) and financial risk, and contributing to the development of the Province's fiscal plan and outlook by working to generate savings from liquid reserve investment activities within prudent risk exposure limits, as well as centralized/segregated investment funds for various public bodies. This also involves managing ONFA-related investments, working together with Ontario Power Generation Inc. (OPG), to ensure interest rate, foreign exchange and credit exposures are within approved policy limits, as well as contributing to the Province's annual Budget, Fall Statement and quarterly finances.

3. Managing key financial relationships by building and maintaining connections with investors in both existing and new markets, as well as relationships with banks, financial service providers and investment dealers. This includes providing Investor Relations information products and updates on the OFA website. Maintaining close relationships and ongoing dialogue with credit rating agencies to keep them informed of the Province's financial status, priorities, and initiatives, and complete regulatory filings with the U.S. Securities & Exchange Commission (SEC) and any other applicable securities regulators.

4. Providing cash management and banking services on a centralized basis to all ministries and settlement, payment, financial and reporting, loan administration, information technology and client services to the Treasury Program by implementing effective treasury solutions for the Province and client agencies. Ensuring that the Province has sufficient cash available at all times to meet its financial obligations, and continuing to work with the other ministries to advise on banking and cash management components of government initiatives, as well as, on changes to accounting standards and their impact on the Province's debt and interest on debt (IOD).

5. Advising on and implementing corporate and electricity finance projects and policies by providing analysis and advice on cost-effective borrowing, investing and risk management by public bodies and other financing proposals, and on business cases for business supports. This includes providing advice on transactions that may affect the indebtedness or contingent liabilities of Ontario, including provincial guarantees. In addition, undertaking policy and financial analysis, modelling support and implementation, as required, for electricity financings, policies and initiatives, including OPG, the Independent Electricity System Operator (IESO), and ONFA, which could have fiscal, financial and/or economic implications for the Province and/or Ontario Electricity Financial Corporation (OEFC).

6. Ensuring the successful activation of OFA's decentralized Business Continuity Plan (BCP) by reviewing and updating the Corporate BCP Framework and Business Unit plans, as well as conducting corporate-wide BCP test exercises.

OVERVIEW OF 2017–18 RESULTS (TO DATE)

The Ontario Financing Authority (OFA) accomplished the following in support of the overall strategic directions outlined in the 2017–20 Business Plan[1]:

1. *Execute the Province's borrowing program*

- As of January 30, 2018, the OFA had completed $28.6 billion (110.9 per cent) of its $25.8 billion (as per the 2017 Fall Economic Statement) long-term borrowing requirement for 2017–18. Approximately 69 per cent of long-term borrowing was completed in the Canadian dollar market.
- The 2017–18 Ontario Savings Bond (OSB) campaign raised $64 million.
- The objectives set out in the 2017–18 Financing, Debt & Electricity Management Plan, approved by the OFA Board, are on track and expected to be successfully completed by fiscal year end.
- Sufficient liquidity has been available over the fiscal year to ensure the Province has been able to meet all of its financial commitments and payment obligations, largely reflecting the long-term borrowing program being consistently ahead of pace.
- Successfully executed 4 carve-out deals[2] to-date for the 2017–18 fiscal year (as of January 23, 2018). Held in-depth discussions with individual carve-out investors.
- On January 25, 2018, the Province successfully priced a $1 billion Green Bond. The 7 year bond will help fund seven green infrastructure projects, with an emphasis on clean transportation and energy efficiency and conservation. The transaction represents the fourth and largest Green Bond offering from the Province of Ontario.
- Provided expertise in accounting for Green Bonds, and set up financial accounting and reporting for these investment vehicles that met the requirements outlined by the investor community. Developed and released a third Green Bond newsletter on December 21, 2017, updating investors on the third Green Bond's use of proceeds, and project selection process, as well as, providing project updates on the 13 projects selected.
- Analyzed the scope and impact of the Markets in the Financial Instruments Directive (MiFID) II and the Bank Recovery and Resolution Directive (BRRD) on the Province and implemented required documentation changes to ensure the Province's continued, uninterrupted access to European capital markets.

2. *Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook.*

- The OFA has replaced its traditional methodology for performance management with a more accurate and comprehensive performance measurement methodology based on the tenor of individual debt issues. Applying this methodology, the cost of regular borrowing for the Province as of January 25, 2018 translated to a percentile ranking of 55th percentile, falling within the target band of 45 to 55 percentile. The cost of strategic foreign borrowing as of January 25, 2018 translated into a percentile ranking of 76th percentile, worse than the designated target band for strategic foreign borrowings of 50 to 75 percentile.
- The money market performance was $8.1 million or 3.7 basis points (bps) better than the benchmark as of December 29, 2017. The performance is 1.7 bps better than the upper limit of the target band which is plus or minus two bps over the benchmark.

---

[1] The OFA's fiscal year end is March 31, 2018, but quantitative performance results are as of December 31, 2017, unless otherwise noted.

[2] In order to accommodate large bond purchases by a single buyer, a large order procedure was implemented on October 14, 2011. The "carve-out" procedure allows for a portion of a bond issue to be sold to a single buyer.

- The IOD expense for 2017–18 is currently forecast at $12,246 million, consistent with the forecast in the *2017 Budget*.
- Funds were managed on a discretionary basis on behalf of the Pension Benefits Guarantee Fund, Deposit Insurance Corporation of Ontario, Ontario Trillium Foundation, Infrastructure Ontario, and a commitment fund for the Ontario Capital Growth Corporation.
- Funds were managed on a non-discretionary basis on behalf of the Ontario Immigrant Investor Corporation and Northern Ontario Heritage Fund.
- With OPG, the Used Fuel and Decommissioning Segregated Funds' investments were managed under ONFA. The Funds have grown from about $19.4 billion at December 31, 2016 to about $20.3 billion at September 30, 2017. As of October 31, 2017, the rate of return for the Used Fuel Fund for one year was 10.26 per cent compared to the market benchmark of 8.65 per cent and a target rate of return of 4.63 per cent. The rate of return for the Decommissioning Fund for one year was 10.04 per cent compared to the market benchmark of 8.72 per cent and a target rate of return of 5.15 per cent.
- Contributed to the Province's annual Budget and quarterly finances, providing financial analysis and modelling to support the electricity sector outlook and assets; advised on the potential implications of initiatives on IOD, borrowing objectives, credit ratings and financial markets' reactions.
- Administered borrowing authority obtained under the *Financial Administration Act* (FAA) which is required to carry out the Province's borrowing program.

3. *Manage key financial relationships*

- Held road shows, investor meetings and conference calls to meet with investors in Canada, the United States, Europe and Asia, and hosted meetings at the OFA offices. Held 88 investor meetings and events as of December 31, 2017, including meetings with 12 new accounts. Provided keynote speakers and panelists at industry conferences in Toronto and New York City. Promoted Toronto as a global financial centre.
- Continued development of the OFA website to improve functionality, added additional information for investors and provided full mobile accessibility. As part of Ontario's *Open Data Directive,* the OFA published an Open Data Inventory List on its website, which includes all of the datasets the OFA creates, collects and/or manages. The website continues to be an important tool for communicating with investors and the public, receiving 27,831 visitors during the 2017 calendar year. Three CEO's Corner updates were posted over this time. The OFA email alert list had 385 subscribers as of December 31, 2017, as compared to 363 subscribers at the end of 2016.
- Maintained close relationships and held ongoing discussions with credit rating agencies and the banks which underwrite and distribute the Province's bonds in Canada and around the world to keep them apprised of government priorities and initiatives, the *2017 Budget*, the 2016–2017 Public Accounts, the *2017 Ontario Economic Outlook and Fiscal Review* (Fall Statement), the Province's final public offering of Hydro One common shares upon its public announcement and other quarterly finance releases.
- Managed increasingly more rigorous regulatory and disclosure requirements, and maintained close relationships with the regulatory bodies in the global capital markets.
- Monitored credit exposures to banks with which the OFA has relationships. The OFA has 10 collateralized swap agreements in place with banks to mitigate credit risk.
- Conducted comprehensive reviews of potential rule changes affecting the Province domestically and internationally such as the Market Abuse Directive (MAR) in the European Economic Area (EEA) and fee-based changes with Canada's primary central securities depository (CDS), consulting securities regulators and other capital market participants, as appropriate.
- Monitored and fully complied with international withholding tax requirements in respect of its financial agreements under FATCA and OECD Common Reporting Standard for Entity Tax Residency.

4. *Provide cash management and banking services as well as settlement, payment services, loan administration and financial and reporting services and client services*

- Provided centralized banking services to the Province by strategically managing banking relationships; provided efficient centralized cash management services to the Province, thereby contributing to lower IOD.
- Continued to provide cash management services to five client agencies and crown corporations, including the Pension Benefits Guarantee Fund, Ontario Capital Growth Corporation and the Deposit Insurance Corporation of Ontario.
- Managed the complex cash flows and settlement requirements associated with the Province's final public offering of Hydro One common shares ensuring that these very large and time sensitive transactions were completed on a timely and accurate basis.
- Continued to advise ministries on the application of the Cash Management Directive with regard to Government priorities including the proposed cap and trade mechanism for Ontario.
- Leveraged higher deposit returns from banks to strategically invest the Province's liquid reserves for higher overall returns.
- Continued strategic participation and advice to the cross-ministry Working Group, Executive Governance Committee and Payment Card Industry (PCI) Enterprise Coordination Office to ensure that ministries continued to maintain compliance with mandatory security requirements for debit/credit card acceptance.
- Continued to monitor and assist the Ministry of Community and Social Services on implementation of reloadable prepaid benefit cards for unbanked individuals receiving Ontario Disability Support Benefit payments thus providing both cost efficiencies and improved services to Ontarians.

2018–21 OBJECTIVES

Key objectives for 2018–21 include the following, as set out in the OFA's mandate letter from the Minister of Finance, delivered on October 3, 2017:

1. Execute the Province's borrowing program
2. Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook
3. Manage key financial relationships
4. Provide services related to cash management, banking, settlement, payment, financial and reporting, and client services
5. Advise on and implement corporate and electricity finance projects and policies

In addition to the foregoing, the OFA has also identified the following additional key objective:

6. Ensure the successful execution of the OFA's decentralized Business Continuity Plan

Total Revenues and Expenditures

(in thousands of dollars)	2017–18		Forecasts*		
	Budgeted	**Interim Forecast**	**2018-19**	**2019-20**	**2020-21**
Total Revenue	30,804	30,946	31,472	30,809	30,650
Total Expenditure	27,499	27,460	27,981	27,498	27,518
Net Income	**3,305**	**3,486**	**3,491**	**3,311**	**3,132**

Further detail can be found in the Financial Budget contained in this plan.

*Forecasts represent the submission through the 2018–19 Program Review, Renewal & Transformation (PRRT) process to Treasury Board and are subject to Treasury Board approval. Preliminary indications are that the OFA's request for 2018-19 is likely to be approved, however, the allocations for the two out years will revert back to the 2017-18 approvals. Based on current compensation levels, unless additional budgetary relief is approved in next year's PRRT, the OFA may encounter salary and wage pressures in 2020-21.

MANDATE AND GOVERNING LEGISLATION

The Ontario Financing Authority (OFA) is a Provincial Crown agency established by the *Capital Investment Plan Act, 1993* (CIPA). CIPA sets out the objectives of the OFA. The OFA:

- conducts borrowing and investment for the Province of Ontario and manages the Provincial debt;
- provides cash management and other financial services for the Province;
- advises ministries, Crown agencies, and other public bodies on financial matters; and
- assists Crown agencies and other public bodies to borrow and invest money through external sources or through the OFA.

The OFA also provides a broad range of financial services to the Ontario Electricity Financial Corporation (OEFC) and Ontario Infrastructure and Lands Corporation (Infrastructure Ontario or OILC).

The FAA also sets out certain financial powers which OFA employees exercise on behalf of the Minister of Finance to carry out the Province's borrowing, manage the Province's debt and invest its liquid reserves.

OVERVIEW OF CURRENT AND FUTURE PROGRAM AND ACTIVITIES AND IMPLEMENTATION PLAN: 2018–21

Activities will focus on supporting the following strategic directions:

1. *Execute the Province's borrowing program*

Overview

The OFA endeavours to ensure that borrowing by the Province and OEFC is cost-effective. Total long-term public borrowing is forecast at $32.2 billion in 2018–19 and $37.8 billion in 2019–20. This year's objectives may be challenging to implement due to the state of the global economy/market and the resource constraints within which the OFA is operating. Furthermore, borrowing blackouts can limit the amount of time in which the OFA can access the market. Other challenges include:

- high amount of borrowing required for the Province, including the amount that will have to be undertaken outside Canada;
- competition in the markets from other large domestic and international borrowers;
- evolving regulatory requirements such as Basel III, Dodd-Frank and EMIR that continue to make hedging of foreign debt more expensive and a challenge to execute in the size required by the Province;
- potential challenges for Ontario's credit rating. A downgrade may result in borrowing costs increasing; and
- management of downgrading or failure of counterparties, and continued implementation of collateralized swaps to mitigate credit risk.

Implementation Plan

- Develop the annual Financing, Debt & Electricity Management Plans for OFA Board approval and transmission to the Minister. These plans provide detail on the borrowing program, including term structure and diversification objectives, as well as investor relations, liquidity, floating rate, foreign exchange and credit risk strategies, as well as outline major risks and risk mitigation strategies.
- Meet the Province's funding requirements, anticipated to average about $35 billion annually for the business plan period, in a cost-effective and prudent manner.
- Manage the Ontario Savings Bond campaign.
- Continue to monitor the Green Bond market to identify future issuance opportunities under its Green Bond Program.

2. *Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook*

Overview

The OFA manages the debt and liquid reserve portfolios, as well as centralized/segregated investment funds, for various public bodies, and jointly manages the Ontario Nuclear Funds with OPG. Financial risks associated with capital market activities are mitigated by adhering to prudent risk management policies which minimize financial risk by ensuring exposures and losses remain within approved limits. Risk management policies and program exposure limits are reviewed and approved by the OFA Board of Directors on an annual basis. The OFA also contributes IOD, borrowing, debt management and total and net debt objectives, and electricity sector fiscal impact projections to the Budget, Fall Statement and other quarterly financial updates.

Implementation Plan

- Generate savings from liquid reserve investment activities within prudent risk exposure limits, as well as centralized/segregated investment funds, for various public bodies. Manage ONFA-related investments, working together with OPG.
- Ensure interest rate, foreign exchange and credit exposures are within approved policy limits.
- Contribute to the Province's annual Budget, Fall Statement and quarterly finances, including the electricity sector outlook; advise on the potential impact of initiatives on IOD, total and net debt and the net debt-to-GDP ratio, borrowing objectives, credit ratings and financial markets' reactions. Continue playing an important role in the development of the Province's annual Budget and quarterly statements through the provision of timely and accurate financial information, and preparation of the Borrowing and Debt Management section of the Budget and Fall Economic Statement.
- Review and refine the new methodology based on assessing individual debt issues by tenor, to measure the performance of the borrowing program.
- Continue to implement applicable changes as per financial and regulatory reform requirements including evolving effects from Basel III, EMIR and Dodd-Frank. These regulations are expected to continue to make the OFA's hedging process more complex. Hedging may also continue to become more expensive if proposals such as financial transaction taxes or mark-to-market derivatives taxes are legislated and implemented in Europe or the United States.

3. *Manage key financial relationships*

Overview

The OFA ensures investors and the financial community in Canada and abroad receive financial updates on a timely basis to make informed decisions about Province of Ontario debt securities. Investor Relations activities support borrowing program objectives by maintaining and broadening the Province's investor base. The OFA also ensures credit rating agencies understand government policies, budget, and fiscal performance, properly reflecting these factors in their reports and rating decisions.

The OFA manages the government's relationships with financial institutions, primarily the major Canadian and global banks, their investment dealer subsidiaries, and custodial and fiscal agents. This involves the acquisition and oversight of cost-effective products and services for the Province and certain Crown corporations.

Implementation Plan

- Support the Province's borrowing program by building and maintaining relationships with investors in existing and new markets. Provide Investor Relations information products, including updates to the OFA website, on a timely basis.
- Maintain close relationships and ongoing dialogue with credit rating agencies to keep them informed of the Province's financial status, priorities, and initiatives.
- Manage Ontario's relationships with banks, financial service providers and investment dealers.
- Complete regulatory filings with the U.S. Securities & Exchange Commission (SEC), United Kingdom Listing Authority (UKLA), Luxembourg Stock Exchange (LuxSE), Australian Securities Exchange (ASX) and any other applicable securities regulator. Conduct due diligence conference calls, as required, with the dealers and underwriters of the Province's debt securities offerings and their legal counsel.
- Implement and maintain collateralized swap agreements with bank counterparties to limit potential financial losses as a result of a credit event.

- Manage changes in financial and regulatory reform, liaising with regulators and legal counsel, as required.

4. *Provide services related to cash management, banking, settlement, payment and financial and reporting*

Overview

The OFA provides centralized banking and cash management services to the Province. The effective provision of these services allows for the efficient delivery of provincial services and contributes towards minimizing IOD expenditures. The OFA is responsible for settlements, payments and accounting/reporting functions associated with the Province's and OEFC's debt management programs, as well as agency financial reporting.

Implementation Plan

- Identify and implement effective treasury solutions for the Province and client agencies.
- Ensure that the Province has sufficient cash available at all times to meet its financial obligations.
- While compliance with PCI Data Security Standards is now in its sustainment phase, the OFA will continue to work with the other OPS stakeholders and the credit/debit card acquirer to ensure that the mandatory external reviews continue to report that the Province is in compliance with all applicable PCI data security standards which are reviewed and updated periodically by the PCI Council.
- Continue to work with TD Merchant Services, the Province's card acquirer, to explore options for the Province to begin accepting new value-added card products and technology.
- Continue to work with the Ministry of Community and Social Services on refining the reloadable payment card as a more efficient payment mechanism for unbanked benefit recipients under the Ontario Disability Support Program.
- Continue to advise ministries and agencies on the banking and cash management components of new banking solutions, as well as on government initiatives including modernization and suitable banking options, along with associated legal and regulatory aspects.
- Continue to collaborate with industry associations and provincial and federal jurisdictions on modernization initiatives and issues unique to the public sector.
- Continue the delivery of timely and accurate settlement/payment services for the Province and OEFC, including OEFC power supply contract settlements.
- Continue to work with the Ontario Pension Board, MOF Income Security and Pension Policy Division and TBS on the first phase of regularizing the management of various pension plans whose assets reside in the Consolidated Revenue Fund. This is a very complex project that requires assent from Ontario judges and is moving ahead slowly; however, it is anticipated that the regulated portion of the assets of the Judges' Pension Plan will be moved to IMCO in 2018-19 with resultant IOD savings.
- Provide timely and reliable net debt and total debt estimates for the 2018 Annual Budget and the Province's quarterly reports during the fiscal year including for the Fall Statement.
- Continue to provide timely and accurate financial reporting for the Province on debt, derivatives and investments. Continue to provide timely and accurate agency financial statements that pass the scrutiny of the OFA Board and the Office of the Auditor General.
- Work with the Office of the Auditor General in their proposed value for money audit of borrowing and debt management.
- Continue to work with the Office of the Provincial Controller on providing feedback on Chapter 2 of the Annual Report of the Auditor General of Ontario that deals with Ontario's Public Accounts.
- Continue to monitor and assess any new accounting developments of the International Public Sector Accounting Standards Board, the Financial Accounting Standards Board in the U.S., the Accounting

Standards Board and the PSAB of the Chartered Professional Accountants of Canada that affect reporting for the Province and its agencies.

- Assuming PSAB follows through on its preliminary proposal to develop a hedging option in the Financial Instruments standard, work closely with PSAB and the other provinces with the help of Deloitte in providing value-added contribution to this project. Continue to communicate the other concerns of the provinces' to PSAB. Continue to liaise with the Office of the Provincial Controller and, where required, the Office of the Auditor General of Ontario in communicating with PSAB.
