Subject: RE: IESO : OFA new FH credit facility

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair

Hydro programs purposes.

c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.

d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these

agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Hi Will –

I note that Anthony confirmed that the TD facility **cannot** be used for FHP draws (see highlighted language below), this not consistent with your statement below and it is not consistent with IESO's position/comments regarding Amendment 10.

As I understand it, the immediate question we are trying to answer with respect to Amendment 10 from both a legal and business perspective is: can the $475 facility continue to be used to lend to the IESO for purposes of the FHP after the $2 billion comes into effect. (Assuming that it is already able to do this under Amendment 9 on the basis that it is in fact doing this).

Given that there is some breathing room indicated in the IESO's timing requirements, I am going to revert to my prior suggestion that we meet to review this next week.

Hello Sarah N,

Below is background on a meeting on June 28 between Anthony (IESO), Sarah H, Lisa and Salman:

1. Capital Markets approved IESO's request to have a minimum 5 day and a maximum 95 day draw ($2 billion Credit Facility)
2. Anthony discussed in the event IESO funding needs were to exceed the $475 million before the current $975 million is reduced, IESO had another credit facility with TD that it would be able to draw on to fund any potential gap before the $2 billion facility is up and running.

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Subject: Re: IESO : OFA new FH credit facility

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Subject: Re: IESO : OFA new FH credit facility

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.

b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

He suggested that MoF legal has worked on these agreements previously and may be able to provide some clarification on the issues we discussed yesterday. I also debriefed John K on our discussion. He noted that EFB has previously been heavily involved in this area and was not comfortable on signing off on the 2 issues we discussed yesterday. Namely the section (k) and the pari passu item. Having said that, I think our wish to get more clarification on section (k) is still relevant. I know we don't wish to slow down this process, but it may be worth asking MoF Legal's opinion on these two issues. They have also been involved in OFHP issue, so will have that context as well.

Hi Will

Per our discussion, the conversation helped in understanding the intention of section (k). In general, I understand and don't have issue with the desire to cover clean energy adjustment amounts with respect to OFHP. But there were a few issues raised in the discussion that were beyond my expertise. I would still suggest running this by MOF Legal.

Thanks
Bruno

Hi Will

As discussed yesterday, Salman dropped by the office yesterday after our meeting. He suggested that MoF legal has worked on these agreements previously and may be able to provide some clarification on the issues we discussed yesterday. I also debriefed John K on our discussion. He noted that EFB has previously been heavily involved in this area and was not comfortable on signing

off on the 2 issues we discussed yesterday. Namely the section (k) and the pari passu item. Having said that, I think our wish to get more clarification on section (k) is still relevant. I know we don't wish to slow down this process, but it may be worth asking MoF Legal's opinion on these two issues. They have also been involved in OFHP issue, so will have that context as well.

Thanks
Bruno

Subject: IESO and intercept

Hi John –

I met with Gadi this morning after we spoke. He confirmed that the Directive will not be forthcoming from the Minister. We determined, as you had flagged for us, that the only approach is to reinsert the intercept provision back into the agreement because this complies with the OFA Lending Policy. The other documentation requirements of the policy will also need to be met with respect to the IESO and Ministry of Energy agreeing to the concept of the intercept.

Given that there is currently no appropriation authority for the IESO, we would propose, in lieu of an MOU to have a simple tripartite letter (OFA, IESO, and Energy) wherein all parties agree that in the event funds may in the future be appropriated, IESO and Energy agree to the application of the intercept of such funds (in accordance with the OFA's Policy).

There will need to be some high level discussions at IESO and Energy to make sure that there is the buy-in for this approach. How would you suggest the OFA move this forward?

Please let me know if you have questions or would like to discuss further.

Thanks very much,

Sarah

BACKGROUND NOTE
OFA -- IESO CREDIT FACILITY & THE INTERCEPT PROVISION REQUIRED UNDER THE OFA'S LENDING POLICY

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act").

On June 29, 2017, the OFA received a directive from the Minister to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister of Finance [or Treasury Board or Cabinet].

In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body, amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement.

Per the requirements of the OFA's Lending Policy, the OFA has reached out to the Ministry of Energy and IESO to fulfill the requirement to include an intercept provision in credit facility agreements with the IESO.

- The OFA Lending Policy, as approved by the OFA Board, provides the following requirement for unsecured loans to public bodies under CIPA:

  > Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.

- The OFA Lending Policy also includes the following intercept provision requirement:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

- The new FHP credit facility, with the required intercept clause, will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility (to be amended from the current $975 million facility) which will also require the intercept clause to be added.

- Including an intercept provision in the credit facility agreements with the IESO is expected to have no practical impact as the IESO receives no appropriations from the Province of Ontario [Energy to confirm], but would bring the lending facilities onside with the requirements of the OFA Lending Policy and be consistent with CIPA.

Hi John,

I've discussed with Sarah N., and we think Ron's edits to the third paragraph of the letter agreement should be deleted and reverted back to the original language. The purpose of that paragraph is for all three parties to acknowledge the current situation, and to change the language for the OFA to "acknowledge" and the other parties to "confirm" the same details will create confusion and possibly further delay this matter.

Also, I recommend deleting the following language added by the IESO – "or through any other agencies, bodies or other means" in the last sentence of the second last paragraph.

Thank you,

Lisa

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.
Appreciate your efforts to co-ordinate a timely approval.
Call me to discuss if needed.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September

works. I am confirming as some extraordinary steps are involved.

Is there some background on that issue?

I agree with Lisa re intercept.

As a sidebar, not an OFA issue and way beyond my expertise, but is there any concern/discussion that the Trust, if given a first priority over ALL the asset of the IESO could potentially enforce a security interest and liquidate a significant entity responsible for overseeing the supply of electricity into Ontario? Is anyone weighing in on this question -IESO/MOE?

If the IESO gives the Trust a 1st priority over all IESO assets, it follows that the intercept provisions as drafted in the proposed credit facility agreement will not work. This further strengthens the case for a directive.

Hi,

Pls. take a look at this once again and let me know if you have any comments. Thus far, IESO has not provided any edits but seem to be indicating that they are getting close to being prepared to sign.

IESO has indicated the following and I will ask you to give it some thought:

"DRAFT - The Trust is looking for the IESO to give a 1st priority/security over all IESO assets including accounts receivables in favour of the Trust. This item is being discussed amongst all parties. If this proceeds, the IESO will have to amend/restructure its current credit facilities with TD Bank, OFA, and OEFC as all are unsecured pari-passu."

Thanks,

John

John,

I can now confirm that we are comfortable with the wording of the IESO intercept letter agreement (subject to the very minor revisions illustrated in the attached draft).

I am still working to determine who will sign for Energy and I'll let you know shortly.

Tom.

Hi Lisa, Toby,

I want to clarify that based on the approach we are moving forward with, the understanding of the OFA Lending Policy should be such that where there are no appropriation by Legislature, there is nothing contemplated by the OFA Lending Policy to intercept. Some of us in CEFD are a bit concerned about the wording 'carve-outs' and 'perhaps' below. I think Toby referred to 'carve-outs' to refer to exceptions to what is subject to the intercept. With the draft letter agreement, we are taking a position that there is nothing to intercept and that we are agreeing to put the intercept clause in as in the future there could be appropriations by Legislature for the IESO at which point, it would become necessary in the future which would be a prudent thing to have.

I was getting Ron in the loop as potentially ready to manage the process with OPG.

Let me know pls. if I am off base on any of the above.

On p. 3, item #6 under "Conditions Precedent", the OFA Lending Policy provides that the OFA must ensure that it has an "appropriate" intercept in place. While the intercept wording in the Policy itself does not provide flexibility (as noted by Toby), perhaps this provision allows for 'carve-outs' in situations where the operation of the intercept would not be appropriate (such as those outlined by John below)?

Hi,

I'm happy to organize a call among us, if there is a need for it.

In an earlier note when we were seeking the Intercept Exemption Directive, we had the following bullets as part of the rationale section:

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, which are appropriated by the Legislature for the Ministry of Energy, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment with the wording or intent of the OFA's Lending Policy.

Would these not relate to the carve-outs that Toby is referring to? Let me know pls. if I am mis-interpreting things.

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.
Appreciate your efforts to co-ordinate a timely approval.
Call me to discuss if needed.

Regards.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September works. I am confirming as some extraordinary steps are involved.

Thanks,

John

I am writing in relation to the Independent Electricity System Operator's (IESO) request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.*

Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. The intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement. The OFA, IESO and the Ministry of Energy ("MOE") acknowledge and confirm that at this time there are no amounts appropriated by the Legislature for the IESO [Energy to confirm] and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment to the IESO in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement"), on an unsecured basis, the OFA requires the Ministry of Energy ("MOE") and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and MOE agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):
    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and MOE agree that in the event that the Legislature appropriates any funds for payment to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision").
    - Under the intercept provision, which shall be included in the Loan Agreements, the IESO also agrees that any notice from the OFA to the Minister of Finance in relation to its failure to pay under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.
    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with MOE and seek MOE's support in getting the IESO to pay the amounts owing within a reasonable cure period.

DRAFT

- Upon receipt of notice from the OFA that the IESO has failed to pay in accordance with the provisions of a Loan Agreement, MOE will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO, including the intended purpose and expected timing of such payments to be made by MOE. Upon request, MOE will provide similar information to the Minister of Finance.

- MOE acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment to the IESO, MOE will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Please re-consider.
The IESO and OPG are currently negotiating terms for the fair hydro program and servicing – and OPG may consider this letter to impact their position on some aspects.
The point of sharing it with OPG is precisely to see if they do have any concerns as I wish to avoid any future unfavourable outcomes that may result by not sharing.

We had a quick internal discussion and we are not quite there on the need to share this with OPG and their lawyers. If you feel strongly about it then I will take it back to get that direction but would it be possible to manage any concerns via proposed edits to the draft letter agreement?

On p. 3, item #6 under "Conditions Precedent", the OFA Lending Policy provides that the OFA must ensure that it has an "appropriate" intercept in place. While the intercept wording in the Policy itself does not provide flexibility (as noted by Toby), perhaps this provision allows for 'carve-outs' in situations where the operation of the intercept would not be appropriate (such as those outlined by John below)?

Hi,

I'm happy to organize a call among us, if there is a need for it.

In an earlier note when we were seeking the Intercept Exemption Directive, we had the following bullets as part of the rationale section:

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, which are appropriated by the Legislature for the Ministry of Energy, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment with the wording or intent of the OFA's Lending Policy.

Would these not relate to the carve-outs that Toby is referring to? Let me know pls. if I am mis-interpreting things.

Hi –

I just spoke with Toby (I've copied him as an FYI) and he flagged that he doesn't know why IESO would need to share this with OPG in the first instance. The only issue/reason we could identify was that it may have something to do with the purchase by OPG of the "asset" (I'm using quotation marks because I don't know anything about this transaction or its structure other than how it is referred) from IESO and making sure that the "asset" is free of encumbrances. IESO may have reps or warranties in its dealings with OPG to this effect, and, I am guessing, but this may have been part of the rationale with respect to concerns that IESO had in earlier versions of the drafting in regard to

definitions of “permitted liens” and ranking of debt. Our advice is to reach out to IESO and try to ascertain the reason for the request (John, as Anthony called you, perhaps you could call him back with this request?)

I understand that we have been treating this loan as confidential, and OFA can waive confidentiality and allow disclosure to OPG (if this route is agree to I would recommend that disclosure be made by IESO on a confidential basis) but the risk/caution is that adding more layers outside of the immediate parties to the intercept (which now includes MOE), will add further delay and complexity in what is essentially an administrative issue and as noted we are not plugged into the broader discussions going on between the other parties with respect to other components of the FHP process.

Hi John,

Off the top of my head I don’t see any legal issues from the OFA perspective, but I defer to Lisa because she is closer to the documentation than I am so will ask her to weigh in.

We should also consider giving Toby a heads up because I think MOF Legal’s been more involved in the OPG side of things, I don’t know where things stand on the other various moving parts that are not directly within the mandate of the OFA. I will give him a quick call.

Hi John,

Off the top of my head I don't see any legal issues from the OFA perspective, but I defer to Lisa because she is closer to the documentation than I am so will ask her to weigh in.

We should also consider giving Toby a heads up because I think MOF Legal's been more involved in the OPG side of things, I don't know where things stand on the other various moving parts that are not directly within the mandate of the OFA. I will give him a quick call.

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.
Appreciate your efforts to co-ordinate a timely approval.
Call me to discuss if needed.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September

works. I am confirming as some extraordinary steps are involved.

Thanks,

John

Although I am sympathetic to Anthony's concerns, I am not sure that the OFA lending policy leaves room for carve-outs for what is subject to the intercept.

Sarah and Lisa, do you see scope for doing so?

Hi –

I just spoke with Toby (I've copied him as an FYI) and he flagged that he doesn't know why IESO would need to share this with OPG in the first instance. The only issue/reason we could identify was that it may have something to do with the purchase by OPG of the "asset" (I'm using quotation marks because I don't know anything about this transaction or its structure other than how it is referred) from IESO and making sure that the "asset" is free of encumbrances. IESO may have reps or warranties in its dealings with OPG to this effect, and, I am guessing, but this may have been part of the rationale with respect to concerns that IESO had in earlier versions of the drafting in regard to

definitions of “permitted liens” and ranking of debt. Our advice is to reach out to IESO and try to ascertain the reason for the request (John, as Anthony called you, perhaps you could call him back with this request?)

I understand that we have been treating this loan as confidential, and OFA can waive confidentiality and allow disclosure to OPG (if this route is agree to I would recommend that disclosure be made by IESO on a confidential basis) but the risk/caution is that adding more layers outside of the immediate parties to the intercept (which now includes MOE), will add further delay and complexity in what is essentially an administrative issue and as noted we are not plugged into the broader discussions going on between the other parties with respect to other components of the FHP process.

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.
Appreciate your efforts to co-ordinate a timely approval.
Call me to discuss if needed.

Regards.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September works. I am confirming as some extraordinary steps are involved.

Thanks,

John

Hi –

I just spoke with Toby (I've copied him as an FYI) and he flagged that he doesn't know why IESO would need to share this with OPG in the first instance. The only issue/reason we could identify was that it may have something to do with the purchase by OPG of the "asset" (I'm using quotation marks because I don't know anything about this transaction or its structure other than how it is referred) from IESO and making sure that the "asset" is free of encumbrances. IESO may have reps or warranties in its dealings with OPG to this effect, and, I am guessing, but this may have been part of the rationale with respect to concerns that IESO had in earlier versions of the drafting in regard to definitions of "permitted liens" and ranking of debt. Our advice is to reach out to IESO and try to ascertain the reason for the request (John, as Anthony called you, perhaps you could call him back with this request?)

I understand that we have been treating this loan as confidential, and OFA can waive confidentiality and allow disclosure to OPG (if this route is agree to I would recommend that disclosure be made by IESO on a confidential basis) but the risk/caution is that adding more layers outside of the immediate parties to the intercept (which now includes MOE), will add further delay and complexity in what is essentially an administrative issue and as noted we are not plugged into the broader discussions going on between the other parties with respect to other components of the FHP process.

Hi John,

Off the top of my head I don't see any legal issues from the OFA perspective, but I defer to Lisa because she is closer to the documentation than I am so will ask her to weigh in.

We should also consider giving Toby a heads up because I think MOF Legal's been more involved in the OPG side of things, I don't know where things stand on the other various moving parts that are not directly within the mandate of the OFA. I will give him a quick call.

I agree with Lisa re intercept.

As a sidebar, not an OFA issue and way beyond my expertise, but is there any concern/discussion that the Trust, if given a first priority over ALL the asset of the IESO could potentially enforce a security interest and liquidate a significant entity responsible for overseeing the supply of electricity into Ontario? Is anyone weighing in on this question -IESO/MOE?

IESO has indicated the following and I will ask you to give it some thought:

"DRAFT - The Trust is looking for the IESO to give a 1st priority/security over all IESO assets including accounts receivables in favour of the Trust. This item is being discussed amongst all parties. If this proceeds, the IESO will have to amend/restructure its current credit facilities with TD Bank, OFA, and

Hi,

Pls. take a look at this once again and let me know if you have any comments. Thus far, IESO has not provided any edits but seem to be indicating that they are getting close to being prepared to sign.

IESO has indicated the following and I will ask you to give it some thought:

"DRAFT - The Trust is looking for the IESO to give a 1st priority/security over all IESO assets including accounts receivables in favour of the Trust. This item is being discussed amongst all parties. If this proceeds, the IESO will have to amend/restructure its current credit facilities with TD Bank, OFA, and OEFC as all are unsecured pari-passu."

Thanks,

John

John,

I can now confirm that we are comfortable with the wording of the IESO intercept letter agreement (subject to the very minor revisions illustrated in the attached draft).

I am still working to determine who will sign for Energy and I'll let you know shortly.

If the IESO gives the Trust a 1st priority over all IESO assets, it follows that the intercept provisions as drafted in the proposed credit facility agreement will not work. This further strengthens the case for a directive.
I've copied Toby from MOF Legal as a heads up.

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.
Appreciate your efforts to co-ordinate a timely approval.
Call me to discuss if needed.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September works. I am confirming as some extraordinary steps are involved.

Thanks,

John

I am writing in relation to the Independent Electricity System Operator's (IESO) request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.*

Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. The intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement. The OFA, IESO and the Ministry of Energy ("ENERGY~~MOE~~") acknowledge and confirm that at this time there are no amounts appropriated by the Legislature for the IESO [Energy to confirm] and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment to the IESO in the future.

Commented [ESP1]: Defer to Corporate?

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement"), on an unsecured basis, the OFA requires the Ministry of Energy ("ENERGY~~MOE~~") and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY~~MOE~~ agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):
    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY~~MOE~~ agree that in the event that the Legislature appropriates any funds for payment to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision").
    - Under the intercept provision, which shall be included in the Loan Agreements, the IESO also agrees that any notice from the OFA to the Minister of Finance in relation to its failure to pay under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.
    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY~~MOE~~ and seek

DRAFT

ENERGY~~MOE~~'s support in getting the IESO to pay the amounts owing within a reasonable cure period.

- Upon receipt of notice from the OFA that the IESO has failed to pay in accordance with the provisions of a Loan Agreement, ENERGY~~MOE~~ will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO, including the intended purpose and expected timing of such payments to be made by ENERGY~~MOE~~. Upon request, ENERGY~~MOE~~ will provide similar information to the Minister of Finance.

- ENERGY~~MOE~~ acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment to the IESO, ENERGY~~MOE~~ will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Moody's (Gavin MacFarlane) has verbally raised their concern to me that the new $2B facility should be in place this month – main concern is that the IESO may/is rapidly burning through the $975M capacity at about $200M-$250M/month. Also, the first sale to Financing Entity is not expected until October(ish).
I am currently at about $405M utilized.
Also, both the IESO Board of Directors and Moody's were expecting these new facilities to be in place this month – and so, any delay would need to be explained.
Appreciate your efforts to co-ordinate a timely approval.
Call me to discuss if needed.

Hi Anthony,

I am currently working on your request for the two facilities with the OFA.

I understand your main concern is your interactions with the ratings agencies, Moody's specifically. Is there a particular timeline that you have to meet? My estimation is that the required approvals can be obtained in the early part of next week or the week after. I know the week after is spilling into September.

I am happy to keep pushing for early next week but let me know if the first week of September works. I am confirming as some extraordinary steps are involved.

Hi Victor,

Could we get an assurance from your Legal, perhaps belatedly, to treat all items related to this confidentially and also to share with OPG counterparts on a confidential need to know basis?

On that basis, we are fine for IESO to proceed and discuss with OPG.

Thanks,

Please re-consider.
The IESO and OPG are currently negotiating terms for the fair hydro program and servicing – and OPG may consider this letter to impact their position on some aspects.
The point of sharing it with OPG is precisely to see if they do have any concerns as I wish to avoid any future unfavourable outcomes that may result by not sharing.

Yes, your understanding is correct. There are currently no "exceptions" to or specific "carve outs" from the intercept requirement in the Policy and I agree with Toby. I was trying to address the question you had raised in your earlier e-mail.

Hi Lisa, Toby,

I want to clarify that based on the approach we are moving forward with, the understanding of the OFA Lending Policy should be such that where there are no appropriation by Legislature, there is nothing contemplated by the OFA Lending Policy to intercept. Some of us in CEFD are a bit concerned about the wording 'carve-outs' and 'perhaps' below. I think Toby referred to 'carve-outs' to refer to exceptions to what is subject to the intercept. With the draft letter agreement, we are taking a position that there is nothing to intercept and that we are agreeing to put the intercept clause in as in the future there could be appropriations by Legislature for the IESO at which point, it would become necessary in the future which would be a prudent thing to have.

I was getting Ron in the loop as potentially ready to manage the process with OPG.

Let me know pls. if I am off base on any of the above.

On p. 3, item #6 under "Conditions Precedent", the OFA Lending Policy provides that the OFA must

ensure that it has an "appropriate" intercept in place. While the intercept wording in the Policy itself does not provide flexibility (as noted by Toby), perhaps this provision allows for 'carve-outs' in situations where the operation of the intercept would not be appropriate (such as those outlined by John below)?

Hi,

I'm happy to organize a call among us, if there is a need for it.

In an earlier note when we were seeking the Intercept Exemption Directive, we had the following bullets as part of the rationale section:

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, which are appropriated by the Legislature for the Ministry of Energy, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment with the wording or intent of the OFA's Lending Policy.

Would these not relate to the carve-outs that Toby is referring to? Let me know pls. if I am mis-interpreting things.

room for carve-outs for what is subject to the intercept.

Hi –

I just spoke with Toby (I've copied him as an FYI) and he flagged that he doesn't know why IESO would need to share this with OPG in the first instance. The only issue/reason we could identify was that it may have something to do with the purchase by OPG of the "asset" (I'm using quotation marks because I don't know anything about this transaction or its structure other than how it is referred) from IESO and making sure that the "asset" is free of encumbrances. IESO may have reps or warranties in its dealings with OPG to this effect, and, I am guessing, but this may have been part of the rationale with respect to concerns that IESO had in earlier versions of the drafting in regard to definitions of "permitted liens" and ranking of debt. Our advice is to reach out to IESO and try to ascertain the reason for the request (John, as Anthony called you, perhaps you could call him back with this request?)

I understand that we have been treating this loan as confidential, and OFA can waive confidentiality and allow disclosure to OPG (if this route is agree to I would recommend that disclosure be made by

IESO on a confidential basis) but the risk/caution is that adding more layers outside of the immediate parties to the intercept (which now includes MOE), will add further delay and complexity in what is essentially an administrative issue and as noted we are not plugged into the broader discussions going on between the other parties with respect to other components of the FHP process.

We should also consider giving Toby a heads up because I think MOF Legal's been more involved in the OPG side of things, I don't know where things stand on the other various moving parts that are not directly within the mandate of the OFA. I will give him a quick call.

Thanks everyone for joining the chat on short notice and also to Francisco for helping out. And sorry, didn't mean to leave out Sarah H. in my email this morning.

One of the takeaways from the meeting for me was that we need to let IESO know within reasonable timeframe that amending the existing facilities at any point would require appropriate approvals, likely involving a Directive and that we cannot actively or passively acquiesce [not sure if this is the appropriate word] by not responding. That it would require appropriate approvals when IESO has reasonably concluded its discussion on the matter. I just sent that in an email response following a phone call and also wanted to flag that IESO is expecting the next draft on Wednesday so I think we are looking at that as when we will have a sense of where the two entities stand.

All said, we are working on the Directive option in parallel.

I agree with Lisa re intercept.

As a sidebar, not an OFA issue and way beyond my expertise, but is there any concern/discussion that the Trust, if given a first priority over ALL the asset of the IESO could potentially enforce a security interest and liquidate a significant entity responsible for overseeing the supply of electricity into Ontario? Is anyone weighing in on this question -IESO/MOE?

IESO has indicated the following and I will ask you to give it some thought:

"DRAFT - The Trust is looking for the IESO to give a 1st priority/security over all IESO assets including accounts receivables in favour of the Trust. This item is being discussed amongst all parties. If this proceeds, the IESO will have to amend/restructure its current credit facilities with TD Bank, OFA, and OEFC as all are unsecured pari-passu."

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

John, William,

TD Bank has asked to review the $2B Fair Hydro credit facility executed between IESO and OFA.

TD wants to gain comfort (themselves) that the credit facility is going to support the IESO's fair hydro transactions during the next 4 years.

I have verbally assured them of the above, but they wish to review themselves.

Let me know if I may share and TD will treat the document as confidential.

Regards.

Hi Lisa,

Thanks for the providing the feedback. I can update the note based on the comments.

However, I do want to clarify 2 questions before that:

1. IESO's request was to change the definition of the permitted liens to minor the language in the OFA agreement, isn't this the case?
2. Under the 2nd bullet of the recommendation section, my thought was that IESO has a defined role in the OFHP Act, even though the existing OEFC credit facilities are not meant for FHP, how IESO treat the liens would still be the same regardless. Is that your understanding? And if this is not required, then maybe we don't need to change anything here, do we?

Thanks,

IESO FAIR HYDRO PLAN CREDIT FACILITY
MINISTER OF FINANCE LENDING DIRECTIVE

The Independent Electricity System Operator (IESO) has requested a revolving credit facility in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). To accommodate this request, the OFA requires a Lending Directive from the Minister of Finance.

- The IESO is requesting the credit facility be in place by July 1, 2017, with an initial term of 5-years plus a contingency of three months (effectively expiring on September 30, 2022).

RECOMMENDATION

- OFA staff recommend the Minister sign the Lending Directive allowing the OFA to lend to the IESO.
  - This will help the IESO to fulfil the commitments under the OFHP Act as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

MINISTER'S DIRECTIVE

Minister of Finance's Lending Directive would authorize the OFA to provide a revolving credit facility in an amount of up to $2 billion with a maturity date of September 30, 2022. The Lending Directive will also include the following conditions:

- The interest rate charged to IESO on all advances will be based on the Province's cost of funds plus a twenty-five basis point (0.25%) spread, consistent with the spread for current and past OFA credit facilities for the IESO.
- The credit facility agreement shall be subject to such other terms as the OFA deems appropriate from time to time.

FISCAL IMPACT

- There would be a relatively small but positive fiscal impact for the Province as a result of this credit facility.
  - The Province receives a small fiscal benefit by adding 25 basis points (i.e., 0.25%) to the Province's cost of funds provided to the IESO under the facility, which should more than offset any administrative cost impact on the OFA and Province.
  - The actual amount is expected to be small, as the IESO is expected to make draws for short periods to bridge brief timing differences in cash flows.
- Both the IESO and OFA are consolidated with the Province on a line by line basis. For the OFA and the Province, costs associated with the credit facility are recovered from the IESO. For the IESO, principal and interest associated with the credit facility are ultimately recovered from electricity ratepayers.
  - Notwithstanding this, recovery from electricity ratepayers is determined by the Ontario Energy Board. If IESO cannot sell the regulatory asset created under the *Ontario Fair Hydro Plan Act, 2017*, to a financing entity as per the Act, the IESO will have this revolving debt that can only begin to be repaid once ratepayers begin to pay down the deferred Global Adjustment amount.

DETAILS AND ANALYSIS

- On May 31, 2017, the government passed the OFHP Act to enable the implementation of the Ontario Fair Hydro Plan, which will lower electricity bills by 25 per cent on average for eligible

residential customers. Eligible farms and small businesses will also receive benefits (essentially for those eligible for the Regulated Price Plan).

- Under the OFHP Act, the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment ("GA") charge to ratepayers will be deferred to the future.
- During this period, GA amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.
- The OFHP Act gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset (i.e., the right to recover the deferred amounts in the future) to a financing entity.
  - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
  - The cash received from selling the regulatory asset will be used by the IESO to fund the incurred GA shortfall.
- IESO is expected to need short-term financing to manage initial and ongoing monthly IESO cash flow requirement timing differences.
  - The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation).
  - Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO.
  - Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset, which could result in longer than planned IESO draws on the credit facility.

Current Status

- An existing credit facility between the IESO and the OFA is currently available for $975 million, which includes support for the current Regulated Price Plan (RPP) program. The IESO has proposed that a separate and additional credit facility be provided to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and tracking of related interest costs.
- As a result, the IESO has proposed to reduce the current $975 million credit facility by $500 million and create a new FHP facility in the amount of $2 billion.
  - The $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflects that the FHP prices for eligible consumers is being implemented through the setting of prices under the RPP.
  - Specific terms of the agreement are being negotiated between the IESO and OFA.

	Existing OFA-IESO Facility	**New Proposed OFA-IESO FHP Facility**
Current Credit Facilities	$975 million	-
Reduction due to FHP	($500 million)	-
Increase due to FHP	$ -	$2,000 million
Total Credit Facilities	**$475 million**	**$2,000 million**

BACKGROUND

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

The Independent Electricity System Operator (IESO) has requested a revolving credit facility in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). To accommodate this request, the OFA requires a Lending Directive from the Minister of Finance.

- The IESO is requesting the credit facility be in place by July 1, 2017, with an initial term of 5-years plus a contingency of three months (effectively expiring on September 30, 2022).

RECOMMENDATION

- OFA staff recommend the Minister sign the Lending Directive allowing the OFA to lend to the IESO.
  - This will help the IESO to fulfil the commitments under the OFHP Act as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.

MINISTER'S DIRECTIVE

Minister of Finance's Lending Directive would authorize the OFA to provide a revolving credit facility in an amount of up to $2 billion with a maturity date of September 30, 2022. The Lending Directive will also include the following conditions:

- The interest rate charged to IESO on all advances will be based on the Province's cost of funds plus a twenty-five basis point (0.25%) spread.
- The credit facility agreement shall be subject to such other terms as the OFA deems appropriate from time to time.

FISCAL IMPACT

- There would be a relatively small but positive fiscal impact for the Province as a result of this credit facility.
  - The Province receives a small fiscal benefit by adding 25 basis points (i.e., 0.25%) to the Provinces cost of borrowing for funds provided to the IESO under the facility.

- Both the IESO and OFA are consolidated with the Province on a line by line basis. For the OFA and the Province, costs associated with the credit facility are recovered from the IESO. For the IESO, principal and interest associated with the credit facility are recovered from electricity ratepayers.

DETAILS AND ANALYSIS

- On May 31, 2017, the government passed the OFHP Act to enable the implementation of the Ontario Fair Hydro Plan, which will lower electricity bills by 25 per cent on average for eligible residential customers. Eligible farms and small businesses will also receive benefits (essentially for those eligible for the Regulated Price Plan).
- Under the OFHP Act, the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment ("GA") charge to ratepayers will be deferred to the future.
- During this period, GA amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The OFHP Act gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset (i.e., the shortfall) to a financing entity.
  - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
  - The cash received from selling the regulatory asset will be used by the IESO to fund the incurred GA shortfall.

- Although IESO will not need long-term borrowing for its role in this process, it is expected to need short-term financing to manage initial and ongoing IESO cash flow requirement timing differences.
  - The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation).
  - Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO.
  - Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

Current Status

- An existing credit facility between the IESO and the OFA is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO has proposed that a separate and additional credit facility be provided to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and tracking of related interest costs.
- As a result, the IESO has proposed to reduce the current $975 million credit facility by $500 million and create a new FHP facility in the amount of $2 billion.
  - The $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP.
  - Specific terms of the agreement are being negotiated between the IESO and OFA.

	OFA: IESO Facility	**New Proposed FHP Facility**
Current Credit Facilities	$975 million	$ -
Reduction due to FHP	$(500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Total Credit Facilities	**$475 million**	**$2,000 million**

BACKGROUND

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

John, William,

TD Bank has asked to review the $2B Fair Hydro credit facility executed between IESO and OFA.

TD wants to gain comfort (themselves) that the credit facility is going to support the IESO's fair hydro transactions during the next 4 years.

I have verbally assured them of the above, but they wish to review themselves.

Let me know if I may share and TD will treat the document as confidential.

Just a courtesy email …nothing to do yet.

The IESO:OFA Fair Hydro line of credit is at about $1 billion drawn out of the $2 billion max capacity. We are drawing on avg about $200-300million/month.

The Fair Hydro Trust has not purchased the IESO's reg asset for a few months….if this continues I will be coming back to OFA to seek to increase the line of credit.

Hi Lisa,

The immediate matter pertaining to the roller/advance has been resolved.
The matter below to negotiate an increase to the $2B FHP is a separate matter. There is currently nothing to do. Anthony is monitoring the situation and will let us know in early October.

Thanks,

Victor,

Thank you very much for the draft.

Overall, the certificate looks fine. The only comment we have is that we don't think the last paragraph at the bottom of the page (certification by Barb Anderson for Michael Lyle) is necessary; if that is your standard, however, that's fine.

If it possible to have the draft executed by end of day, that will be helpful ensuring the payment is released ASAP.

Thanks,
Sarah

Hi Sarah. Following our call earlier and per item #1 of Will's email below, attached please find the updated form of Incumbency Certificate. Please confirm that this updated form is acceptable and we will proceed to have it executed.

In addition, for your convenience, I also attach the original certified Board Resolution authorizing, among other things, the "Chief Financial Officer or her delegate" with respect to making draws under the Fair Hydro Plan Credit Agreement and for the Existing Credit Facility.

Please call me if you have any questions.

Hello Anthony,

As per conversation regarding the required signing authority documents for Barb Anderson VP, & CFO on the election notices for June 20. Please provide completed documents for one of the following options below before June 20.

While option 6 is a suitable solution, it should be viewed as a temporary solution. Therefore, I recommend option 1, as a comprehensive long-term solution.

Options provided in May, 2018:

1. Certified resolution of the board of directors for IESO authorizing both the Fair Hydro Plan Credit Agreement and for the Existing Credit Facility authorizing the signatory and Updated Incumbency Certificate.
2. ~~A delegation of authority from the (former) IESO CFO to the IESO CEO (or other authorized signatories).~~
3. A general signing authority resolution of the IESO Board of Directors.
4. By-law or other document in place providing authorization to the IESO ~~CEO~~ CFO.
5. A certificate from the IESO Corporate Secretary stating that the IESO ~~CEO~~ CFO has signing authority.
6. A signature under seal of the corporation.

I'm getting the letter signed in a few minutes. So ETA is this afternoon.

Also, Ron pointed out that this agreement could be executed in part which I understand to mean separately so will fire that off to both Energy and IESO.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Ms. Kimberly Marshall
Vice-President, Corporate Services and Chief Financial Officer, IESO
120 Adelaide St W #1600
Toronto, ON M5H 1T1

Dear Mr. Steen Hume and Ms. Kimberly Marshall:

I am writing in relation to the Independent Electricity System Operator's ("IESO") request to the Ontario Financing Authority ("OFA") for a new revolving credit facility in an amount of up to CAD $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.* Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The IESO and the Ministry of Energy ("ENERGY") confirm and the OFA acknowledges that at this time there are no amounts appropriated by the Legislature for payment to the IESO by ENERGY and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement") on an unsecured basis, the OFA requires ENERGY and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

... 2

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):

    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision"). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

    - If the intercept provision is exercised, the IESO agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY's support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

    - Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

    - ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

    - For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

Thanks Victor. On #2, OFA's internal discussions are coming to an end is my understanding.

Tom, just wondering how things are on your side.

On the #1 and #3, once #2 gets done, it would be taken care by my colleagues at the OFA, I believe.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solution Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Ms. Kimberly Marshall
Vice-President, Corporate Services and Chief Financial Officer, IESO
120 Adelaide St W #1600
Toronto, ON M5H 1T1

Dear Mr. Steen Hume and Ms. Kimberly Marshall:

I am writing in relation to the Independent Electricity System Operator's ("IESO") request to the Ontario Financing Authority ("OFA") for a new revolving credit facility in an amount of up to CAD $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.* Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The IESO and the Ministry of Energy ("ENERGY") confirm and the OFA acknowledges that at this time there are no amounts appropriated by the Legislature for payment to the IESO by ENERGY and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement") on an unsecured basis, the OFA requires ENERGY and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a “Loan Agreement”; together, the “Loan Agreements”):

    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose (“Appropriated Funds”), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the “intercept provision”). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

    - If the intercept provision is exercised, the IESO agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY’s support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

    - Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

    - ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance’s direction.

    - For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Sincerely,

_____

Ronald Kwan

Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA

c. Gadi Mayman, Chief Executive Officer, OFA

The undersigned hereby agree to the terms and conditions as set out in this letter agreement and have executed this letter agreement as of the date first noted above.

Just to be clear, John, I am asking in part because, as part of producing final docs for signing, I would like to ensure that the language in the Intercept Letter is consistent with the Intercept clause in the credit agreement.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Could we all have a final look and consult in respective shops?

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FRP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself – so we will need to see a revised version of this document;

(ii) Intercept Letter – I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement – we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language – I understand that is expected to be available soon.

Hi,

Pls. have a look at the latest and let us know if you have any comments.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Could we all have a final look and consult in respective shops?

Thanks,

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph – please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Victor

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph – please amend this para to read as follows:

> For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself – so we will need to see a revised version of this document;

(ii) Intercept Letter – I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement – we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language – I understand that is expected to be available soon.

Dear Mr. Steen Hume and Ms. Kimberly Marshall:

I am writing in relation to the Independent Electricity System Operator's ("IESO") request to the Ontario Financing Authority ("OFA") for a new revolving credit facility in an amount of up to CAD $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.* Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The IESO and the Ministry of Energy ("ENERGY") confirm and the OFA acknowledges that at this time there are no amounts appropriated by the Legislature for payment to the IESO by ENERGY and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement") on an unsecured basis, the OFA requires ENERGY and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

... 2

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a "Loan Agreement"; together, the "Loan Agreements"):

    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose ("Appropriated Funds"), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the "intercept provision"). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

    - If the intercept provision is exercised, the IESO agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY's support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

    - Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

    - ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance's direction.

    - For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

... 3

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Sincerely,

_____

Dear Mr. Steen Hume and Ms. Kimberly Marshall:

I am writing in relation to the Independent Electricity System Operator's ("IESO") request to the Ontario Financing Authority ("OFA") for a new revolving credit facility in an amount of up to CAD $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.* Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The IESO and the Ministry of Energy ("ENERGY") confirm and the OFA acknowledges that at this time there are no amounts appropriated by the Legislature for payment to the IESO by ENERGY and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement") on an unsecured basis, the OFA requires ENERGY and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a “Loan Agreement”; together, the “Loan Agreements”):

    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose (“Appropriated Funds”), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the “intercept provision”). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

    - If the intercept provision is exercised, the IESO agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY’s support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

    - Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

    - ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance’s direction.

    - For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Sincerely,

We can push back saying – we are already saying payments that are not appropriations of Energy is already ruled out. But then there is a risk of delay. If we are specifically ruling out this Ontario Climate Change solutions Deployment Corp. that is a known exemption, is it a problem to include?

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph – please amend this para to read as follows:

> For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Victor

Dear Mr. Steen Hume and Ms. Kimberly Marshall:

I am writing in relation to the Independent Electricity System Operator's (IESO) request to the Ontario Financing Authority (OFA) for a new revolving credit facility in an amount of up to $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.* Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

For further certainty, the OFA and the Ministry of Energy ("ENERGY") acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement") on an unsecured basis, the OFA requires ENERGY and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.
These terms and conditions shall also apply to the IESO's existing [$975 million] credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or

the Original Credit Facility Agreement (each a “Loan Agreement”; together, the “Loan Agreements”):

- Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose (“Appropriated Funds”), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the “intercept provision”). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

- If the intercept provision is exercised, the IESO agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

- Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY’s support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

- Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

- ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance’s direction.

- For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Hi,

I have a push back from Ron on this and he does have a point. I put his edits back. It has to do with OFA having no ability to confirm the fact unless we want to do that separately.

I will share with IESO and Energy the version as the latest.

Copying Anna on this email as it should be reviewed by Gadi as well.

Thanks,

John

Hi Anna,

Heard back from Tom McKinlay at Energy Legal. It was an email issue as he is now back at MAG but still working on FHP for Energy. I touched base with him on the phone and he will circle back with his clients, as well as IESO counterparts.

Sounded like he sees it as the cleanest path forward. So fingers crossed.

Thanks,

Hi Sarah and Sarah,

Unfortunately, we haven't heard back from Energy Legal thus far. My suggestion, if OK with you, is that we share the draft with IESO staff as well.

I have some family obligations that came up for tomorrow so won't be in the office but will check my emails for this item.

Thanks,

Hi John – tweaked the acknowledgement to make it mutual as between all and to narrow the reference to appropriations so that it is clear it is not any MOE appropriation but only that destined for the IESO.

Hi All – As far as I am aware there were no developments on this today. I will be out of the office on Monday (back Tuesday), but Lisa will be back on Monday to handle this for Legal (although working from home so please reach her through email or messenger).

Have a good weekend everyone.

I'm fine with it too. I will also be working from home tomorrow. It must that kind of Friday.

John – would you kindly send draft directly to Anthony (and Victor?) for their consideration?

Hi Sarah and Sarah,

Unfortunately, we haven't heard back from Energy Legal thus far. My suggestion, if OK with you, is that we share the draft with IESO staff as well.

I have some family obligations that came up for tomorrow so won't be in the office but will check my emails for this item.

Thanks,

John

Hi John – tweaked the acknowledgement to make it mutual as between all and to narrow the reference to appropriations so that it is clear it is not any MOE appropriation but only that destined for the IESO.

Hi Lisa, Sarah,

Would you know how to include page numbers and names of the recipients up to each subsequent pages?

If you have a sample, I can do it myself.

Thanks,

Dear Mr. Steen Hume and Ms. Kimberly Marshall:

I am writing in relation to the Independent Electricity System Operator's ("IESO") request to the Ontario Financing Authority ("OFA") for a new revolving credit facility in an amount of up to CAD $2 billion (the "New Credit Facility") to support the IESO's role in the implementation of and participation under the *Ontario Fair Hydro Plan Act, 2017.* Under the OFA Lending Policy, the OFA requires an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis. In general, an intercept provision allows the Minister of Finance to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts the public body fails to pay the OFA under a loan agreement.

The IESO and the Ministry of Energy ("ENERGY") confirm and the OFA acknowledges that at this time there are no amounts appropriated by the Legislature for payment to the IESO by ENERGY and the intent of such intercept provision is that it would apply if and when amounts were to be appropriated for payment by ENERGY to the IESO in the future.

Prior to entering into a loan agreement with the IESO for the New Credit Facility (the "OFHP Credit Facility Agreement") on an unsecured basis, the OFA requires ENERGY and the IESO to agree to the terms and conditions set out below in relation to the above OFA Lending Policy intercept provision requirement.

These terms and conditions shall also apply to the IESO's existing $975 million credit facility, established in a credit agreement entered into between the OFA and the Ontario Power Authority dated January 1, 2005, as amended (the "Original Credit Facility Agreement").

... 2

- The OFA, the IESO, and ENERGY agree as follows in respect of any advances made by the OFA to the IESO pursuant to the OFHP Credit Facility Agreement or the Original Credit Facility Agreement (each a “Loan Agreement”; together, the “Loan Agreements”):

    - Pursuant to section 23 of the *Capital Investment Plan Act, 1993*, the IESO and ENERGY agree that, in the event that the Legislature appropriates any funds for payment by ENERGY to the IESO for any purpose (“Appropriated Funds”), the Minister of Finance would be entitled to deduct from such Appropriated Funds amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under a Loan Agreement (the “intercept provision”). Terms relating to the intercept provision shall also be separately included in the Loan Agreements.

    - If the intercept provision is exercised, the IESO agrees that any notice from the OFA to the Minister of Finance in relation to its failure to make a payment that is due under a Loan Agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

    - Prior to recommending to the Minister of Finance that the intercept provision be exercised, the OFA will raise the issue with ENERGY and seek ENERGY’s support in getting the IESO to pay the amounts owing to OFA within a reasonable cure period.

    - Upon receipt of notice from the OFA that the IESO has failed to make one or more payments owing to it in accordance with the provisions of a Loan Agreement, ENERGY will provide the OFA with all information requested by the OFA respecting amounts appropriated by the Legislature for payments to the IESO by ENERGY, including the intended purpose and expected timing of such payments to be made by ENERGY. Upon request, ENERGY will provide similar information to the Minister of Finance.

    - ENERGY acknowledges and agrees that, upon receipt of a direction from the Minister of Finance that an amount is to be deducted from money appropriated by the Legislature for payment by ENERGY to the IESO, ENERGY will take all necessary action required by it in order to effect such deduction and payment to the OFA in accordance with the Minister of Finance’s direction.

    - For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

This letter agreement may be executed in counterparts. Therefore, if you are in agreement with the above terms and conditions in relation to the Loan Agreements, kindly sign this letter agreement below in triplicate and send back two copies to my attention.

Sincerely,

_____

Hi Tom,

I'm getting the letter signed in a few minutes. So ETA is this afternoon.

Also, Ron pointed out that this agreement could be executed in part which I understand to mean separately so will fire that off to both Energy and IESO.

John,

Coming out of this morning's rate mitigation meeting, I understand that the draft is final and that we are supposed to be getting an execution copy for Steen to sign sometime shortly? I have been asked to inquire as to what the ETA for that might be?

Thanks!
Tom.

Tom, just wondering how things are on your side.

On the #1 and #3, once #2 gets done, it would be taken care by my colleagues at the OFA, I believe.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

John,

Coming out of this morning's rate mitigation meeting, I understand that the draft is final and that we are supposed to be getting an execution copy for Sneen to sign sometime shortly? I have been asked to inquire as to what the ETA for that might be?

Thanks!
Tom.

Sure, pls. use that. Could we ensure that we have the right version? This is the latest I have.

Also, we should consider the amendment happening after the letter agreement. Is that everyone's understanding?

Just to be clear, John, I am asking in part because, as part of producing final docx for signing, I would like to ensure that the language in the Intercept Letter is consistent with the Intercept clause in the credit agreement.

While I can't anticipate if there might be additional comments or not, we are ready to proceed to signing.

We were fine with the most recent draft. So assuming it doesn't change materially I think we are ready to sign.

Thanks Victor. On #2, OFA's internal discussions are coming to an end in my understanding.

Tom, just wondering how things are on your side.

On the #1 and #3, once #2 gets done, it would be taken care by my colleagues at the OFA, I believe.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Just doing a quick check to see that everyone is ready. Please advise if any last minute comments.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Could we all have a final look and consult in respective shops?

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

The new FHP credit facility agreement will be executed and effective prior to AA#10. AA#10 will be effective November 22, 2017 (to allow it to be executed at the same time as the other agreements). I have had discussions about this matter with Sarah and Will, so I will defer to them to explain the operational details.

Hi Lisa,

I don't know how that works out logistically. These guys are going to run out of room in the November draw (i.e. not able to digest the November amount). If we need to bring down the existing first before the FHP one, then we are caught short based on the anticipated November draw….what are your thoughts then?

The existing one is already 800M+ drawn, how would we put the balance somewhere to draw it down then set up the new one? I could be missing something so pls. let me know.

John

No - the amount of the existing facility needs to be reduced first.

Sure, pls. use that. Could we ensure that we have the right version? This is the latest I have.

Also, we should consider the amendment happening after the letter agreement. Is that everyone's understanding?

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

The new FIIP credit facility agreement will be executed and effective prior to AA#10. AA#10 will be effective November 22, 2017 (to allow it to be executed at the same time as the other agreements). I have had discussions about this matter with Sarah and Will, so I will defer to them to explain the operational details.

Hi Lisa,

I don't know how that works out logistically. These guys are going to run out of room in the November draw (i.e. not able to digest the November amount). If we need to bring down the existing first before the FHP one, then we are caught short based on the anticipated November draw….what are your thoughts then?

The existing one is already 800M+ drawn, how would we put the balance somewhere to draw it down then set up the new one? I could be missing something so pls. let me know.

John

Subject: RE: Intercept letter agreement IESO MOE OFA Sept 2017-rev_MarkupAClean_EnergyEdits_OFA IESO Edits Oct 24_v3.docx

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Hi Lisa,

I don't know how that works out logistically. These guys are going to run out of room in the November draw (i.e. not able to digest the November amount). If we need to bring down the existing first before the FHP one, then we are caught short based on the anticipated November draw….what are your thoughts then?

The existing one is already 800M+ drawn, how would we put the balance somewhere to draw it down then set up the new one? I could be missing something so pls. let me know.

John

No– the amount of the existing facility needs to be reduced first.

Why November 22?

Wouldn't it be effective right away?

Hi John,

Just so that everyone is on the same page, Amending Agreement number 10 was sent to IESO for review this morning. It has an effective date of November 22, 2017.

Thank you,

Sure, pls. use that. Could we ensure that we have the right version? This is the latest I have.

Also, we should consider the amendment happening after the letter agreement. Is that everyone's understanding?

Just to be clear, John, I am asking in part because, as part of producing final docs for signing, I would like to ensure that the language in the Intercept Letter is consistent with the Intercept clause in the credit agreement.

Thanks Victor. On #2, OFA's internal discussions are coming to an end is my understanding.

Tom, just wondering how things are on your side.

On the #1 and #3, once #2 gets done, it would be taken care by my colleagues at the OFA, I believe.

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter - I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Could we all have a final look and consult in respective shops?

Hi John,

Just so that everyone is on the same page, Amending Agreement number 10 was sent to IESO for review this morning. It has an effective date of November 22, 2017.

Thank you,

Hi John. I believe Anthony will be touching base with OFA on certain issues. Separate from that, in terms of the status of the documents, this is where things currently stand as I understand it:

(i) On Friday afternoon, I sent back to OFA a markup of the draft FHP Credit Agreement, mostly to conform the Intercept language in the Credit Agreement with that in the Intercept Letter itself - so we will need to see a revised version of this document;

(ii) Intercept Letter – I understood that there were still some internal reviews going on concerning the most recent draft, so I am not sure if we have seen a final version of this document;

(iii) Existing Credit Agreement - we have not received a revised version of this agreement showing the insertion of the Intercept language and the additional permitted liens language - I understand that is expected to be available soon.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Hi Tom,

I'm getting the letter signed in a few minutes. So ETA is this afternoon.

Also, Ron pointed out that this agreement could be executed in part which I understand to mean separately so will fire that off to both Energy and IESO.

Hi,

Ph. have a look at the latest and let us know if you have any comments.

Just a minor question. Is there a "the" in front of the Ontario Climate Change Solutions Deployment Corporation?

Could we all have a final look and consult in respective shops?

Thanks,

Hi John.

1. The changes made are acceptable except for those made to the penultimate paragraph - please amend this para to read as follows:

For further certainty, the OFA and ENERGY acknowledge and agree that the intercept provision as provided for herein, and this letter agreement generally, shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than ENERGY or through Ontario Climate Change Solutions Deployment Corporation.

2. Re the "[Energy to confirm]" comment, we are ok with the sentence as written and don't need to confirm anything further.

3. Kimberly Marshall would sign the Intercept Letter on behalf of IESO.

Thanks, given that the Green ON Fund is outside the CRF I don't believe our intercept has any impact on the Fund's grants (if any) to the IESO. Also given that the Province has no appropriated amounts in in its estimates to IESO, either now or contemplated for the future, the existence of the intercept or its removal by the Ministerial fiat is from a practical perspective one and the same.

As such I am wondering why OPG believes this is an issue for their ratings process since subrogation to the Province arising from the intercept is limited to Provincial funds flowing to IESO which as I have pointed out above are non-existent.

Having said that OPG may be concerned that it would be difficult to explain the above to DBRS who may fail to see the distinction between an intercept aimed at these non-existent appropriation funds and something that is more general on the IESO's revenues. In which case the only option available is for the Minister to exempt this particular credit facility from the policy's intercept provisions.

Thanks and happy to discuss.

Hi John,

If I understand your question correctly, the answer is that the Ministry of Environment and Climate Change (MOECCC) is not required to be a party to the FHP credit facility intercept MOU/letter agreement. The letter agreement is intended to be between the "responsible ministry" (in this case Ministry of Energy (MOE)) and the public body (in this case IESO).

The intercept would apply to money appropriated by the Legislature for "payment to the public body". Therefore, money appropriated by the Legislature for payment to a different ministry, a different public body, or to MOE (or an agency of MOE, etc.) for a program *unrelated* to the IESO, would not be caught by the intercept.

I've included an excerpt below which should be helpful in this regard. Please let me know if you would like to discuss further.

Lisa

Excerpt from OFA Lending Policy (emphasis added):

Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

Hi Sarah, Lisa,

I have a request for a legal interpretation of the OFA Lending Policy.

The OFA Lending Policy as we currently have it, does it provide for a requirement [of the MOU/the letter agreement we have drafted] other than one ministry responsible for the public body? The way I read the policy, I believe there should be one Ministry that provides oversight of the public body.

This morning, at a meeting, IESO representative raised the issue of their managing the government's implementation of Green ON Fund (?). I am presuming that the same type of arrangement applies for this program as the Energy's program, i.e. no appropriation for IESO's operation, and this is TBD but would like to know how implementation of such a program funded by another ministry would factor into what we are looking to do.

The purpose of the question is to entertain whether the MOU/the letter agreement needs to include MOECC or not. I don't think so but would appreciate your assessment.

Sorry, I was reading and typing quickly through my iphone at lunch table. My understanding is that OPG is looking for priority of payments on all funds flowing through the IESO and the new potential complication arising from the Green ON Fund money flowing through the IESO could be another form of such payments. My assessment is the same with you Ken that Green ON Fund, like the social programs funded through the IESO, would not be intercept-able. So I agree with your comments and especially the part about there being no operational funding [from the Province] flowing through to the IESO at this time on the Energy's side.

I am working on clarifying above mentioned understanding [on the MOECC side] with TBS staff.

Subject: RE: Loan agreement question re limit on rate of interest

Hi Lisa,

I'm not aware of any recent discussion on this topic, but is it in relation to specific loans that the OFA is making. Who in Capital Markets were you speaking to? Thanks.

Subject: Loan agreement question re limit on rate of interest

Hi Maryam and Tony,

I would like to request your opinion on the following drafting matter re: loan agreements. I have been advised by Capital Markets staff that the following language has been removed from OFA debt documentation:

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the Borrower shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the Criminal Code (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Do you know if this was based on MOF Legal advice? Do you have any background regarding this change? Do MOF loan precedents still contain such language?

Thank you,

Lisa

Also it might quite unlikely that the OFA would be charging such a high interest rate.

I feel bad that you have to phone in on you holidays, this issue is that the final versions of the OFHP documents came from OPG last night at 3 AM, Malle and Toby and most likely our external counsel are now reviewing for material changes, if there are none, then I have nothing to do, however, if there are changes we need to caucus with Gadi and figure out a response. That's why i am requesting this be rescheduled.

Hi

I am really sorry to do this to you for the third time, however, if possible can we reschedule to Monday, my day is pretty free and since the Minister of Finance will be signing on the Fair Hydro documents today that issue should hopefully be put to bed EOD.

Thanks

I feel bad that you have to phone in on you holidays, this issue is that the final versions of the OFHP documents came from OPG last night at 3 AM, Malle and Toby and most likely our external counsel are now reviewing for material changes, if there are none, then I have nothing to do, however, if there are changes we need to caucus with Gadi and figure out a response. That's why i am requesting this be rescheduled.

Sorry again and thanks

Yes I think it would be helpful to have a call to discuss that section 14 just to ensure we are all on the same page about the mechanics and the language.

In the meantime, I accepted everything that appeared to me to be settled and did some formatting, including fully justifying all paragraphs (since it was a bit of a mixed bag), and indenting and adding quotes around some of the adders as needed. All changes should be tracked.

Look forward to finalizing this tomorrow.

Hi Will,

From which version did you add the intercept language? We are still finalizing that language with the IESO so it may need to be revised/replaced once confirmed. Can you please highlight the small changes you are referring to?

Thank you,

Lisa

Please see our proposed amendments to AA#10 in the attached document. I have attempted to reflect in s.14 those issues that came up yesterday on our call in relation to the timing and documentation of the separate transactions. Whether it is right may depend in part on what Sarah's internal discussions yielded re these issues (i.e. we were thinking that all transactions will occur on the 21st and so drafted accordingly).

It may make sense for me to walk through this with one or more of you just so we aren't delayed. I am available for a call anytime this afternoon except from 2:30 to 3:00.

Hello all,

I want follow-up the previous email to clarify the Amending Agreement November 22, effective date. Once the Intercept Letter Agreement is signed we may sign the FHP Agreement and Amending Agreement No. 10 this week.

On November 21, it is expected that the majority of the outstanding balance under the existing $975M Credit Facility will be transferred to the $2B FHP Credit Facility. After the specified balance has been moved from the $975M Credit Facility, this will allow us to reduce the credit facility limit to $475M on November 22. Please let me know if you have any further questions or if you would like to discuss further.

Thanks,

Will

Hello Lisa,

We have reviewed the Amending Agreement No. 10 and have no comments. With the exception of the finalization of the Intercept language from the FHP, should we share the current version Amending Agreement No. 10 with IESO?

Thank you Lisa for your help on the drafts.

Hi Will,

I just have a few comments:

- I understand from Sarah that the effective date of AA#10 should be November 22, 2017, so you can add that exact date in
- We will need to update the Intercept language once finalized with the IESO
- Please amend the signature line as follows (as the agreement will be executed on different dates than the effective date):
    - IN WITNESS WHEREOF the Parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

Right after I send my previous email Sarah informed me you intentionally left the Intercept language out.
The Intercept language from the FHP document version received on Friday, October 27, 4:13pm.
I have highlighted my changes.

From which version did you add the intercept language? We are still finalizing that language with the IESO so it may need to be revised/replaced once confirmed. Can you please highlight the small

changes you are referring to?

Thank you,

Hi Lisa,

Thank you for the latest draft; it looks good. The only thing that we are waiting on to confirm is whether or not Ron or Gadi will be the signatory (Anna S. and John are apparently working it out in relation to the attached e-mail). For the sake of time, I suggest sending this draft to Victor with the caveat that there may be that one outstanding change.

Thanks,
Sarah

Hi all,

I spoke to Gadi and he recalled that Ron would be signing the letter. I had forgotten that was what was decided with Energy weeks ago.

Since Ron will be signing the letter, I think it only makes sense for him to sign the other related materials - not to mention that CEFD has done the majority of the work on this file and perhaps there is some satisfaction for all of you in seeing it all done! I know Ron may not be familiar with all of the documents, but perhaps Usman can set aside 15 minutes for a briefing with Ron today once the materials are ready to be signed.

Apologies for the late change in direction. Usman, I'll follow up separately with you on this to bring you up to speed.

Thanks, Anna

Hi William,

Not sure of his availability but know that he is quite jammed. Also, he does not usually deal with credit agreements so wouldn't Gadi be more used to doing so? Ron will go through the whole documents if you put in front of him.

Hello John,

Mike is away on Friday and according to the OFA Signing authorities Resolution for Lending Instruments, Ronald Kwan and Gadi Mayman are the other two signatories. Do you mind checking on Ronald's availability to sign for the agreements today or tomorrow?

There is a possibility for the agreements to be ready for today but more likely for tomorrow.

Hi Lisa,

The plan is still to reduce the existing facility to $475 million, but existing facility will be used for draws until such time that the new facility is in place. We informed Anthony that we would look to re-allocate loans from the existing facility to the new credit facility when the new facility is executed. We are confirming with the various OFA areas (Settlements, Risk, Accounting, Cash) regarding the operational requirements, but the idea is that there will be no impact from a cash flow standpoint (i.e. no actual transfer of funds for IESO to repay loans under one facility, and therefore no need for the OFA to transfer funds under the new facility. Ken K. and I have discussed this, but am cc'ing him so he is aware that I have communicated this direction.

We will need to have a call with IESO to identify which loans would be transferred from one facility to another; it would be beneficial for you and Victor to be on this call so the particulars regarding what legal approach may be taken can be considered (i.e. incorporate provisions into the amending agreement, I am thinking).

Thanks,
Sarah

Hi Will,

I believe business decisions regarding next steps are required before we can amend this agreement. I understand that the OFA may not be reducing the existing line by the amount previously contemplated? Alternatively, additional terms re: re-payment may be required. Please provide instructions as to the further amendments that are required, or provide me with a revised draft for review. Happy to discuss further.

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?

2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,

Will

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to

the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free

and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Hi Sarah

Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.

But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Lisa – Welcome back and hope you had a lovely holiday!

Now that you are back, you can resume carriage of this for the next round of drafts should there be any (I will move all e-mails to the matter site). If IESO accepts the proposed changes, it will be a matter of simply co-ordinating timing and getting it signed at the same time as, or in advance of the FHP line (we have not yet received comments on that agreement). The open question is whether or not we will require a new rush directive for the $475 credit agreement should the IESO not agree to the limitation to the use of proceeds for "liquidity purposes only". I can provide you with more background on this should it be an issue (although it is all in the e-mails I think).

Welcome back again, looking forward to hearing about your trip!

Good morning Will,

Hope you had a nice weekend. Attached is the mark up of Amending Agreement No 10. I have accepted all changes on the IESO draft of July 7, with the exception of Paragraphs 2 & 3 which has been changed back to the OFA's original language. This is clearly noted in a comment box which should travel with the draft to IESO. Based on IESO's response on Friday, this should not be a controversial amendment.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

Please let me know if you require anything further or if you have questions.

Thanks very much and best regards,

Hi Lisa,

The plan is still to reduce the existing facility to $475 million, but existing facility will be used for draws until such time that the new facility is in place. We informed Anthony that we would look to re-allocate loans from the existing facility to the new credit facility when the new facility is executed. We are confirming with the various OFA areas (Settlements, Risk, Accounting, Cash) regarding the operational requirements, but the idea is that there will be no impact from a cash flow standpoint (i.e. no actual transfer of funds for IESO to repay loans under one facility, and therefore no need for the OFA to transfer funds under the new facility. Ken K. and I have discussed this, but am cc'ing him so he is aware that I have communicated this direction.

We will need to have a call with IESO to identify which loans would be transferred from one facility to another; it would be beneficial for you and Victor to be on this call so the particulars regarding what legal approach may be taken can be considered (i.e. incorporate provisions into the amending agreement, I am thinking).

Thanks,
Sarah

Per our call earlier this afternoon, please find attached clean and blacklined versions of the FHP Credit Agreement and Amending Agreement No.10 to the Existing Credit Agreement. These are ready for execution on Monday.

Per our discussion, I have removed the names of the OFA signatories which I understand you will fill in by hand when completed. Other than that there are very few changes to the text. Please note that in the final version of the FHP agreement I fixed the justification of the first two paragraphs of s.5.7 the Intercept clause (changed from full justify to left justify, consistent with the remainder of that clause and the Agreement generally).

As mentioned, I have also prepared separate Grid Notes for both agreements in the $2Bn and $475MM amounts. The $2Bn Note will be effective immediately and so will be provided by same day delivery. The $475MM Note does not become effective until the Effective Time on November 21 so we should discuss the appropriate manner of dealing with this Note pending its coming into effect.

Finally, I have updated the Incumbency Certificate and Certified Board Resolution to show current dates, and will complete the Intercept Letter with a Nov 6 date on Monday.

Let me know if you have any questions.

Regards,
Victor

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Section 5.7 Intercept

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

(e) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

ADVANCES

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance which shall in any case be in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) Advances Outstanding. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such Advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

(3) Respecting the first Advance to be made under this Agreement (the "**First Advance**"), a specified portion thereof (the "**Repayment Amount**") shall be used to repay a portion of the IESO's outstanding indebtedness to the OFA under the credit agreement between the Parties dated January 1, 2005, as amended (the "**Existing Credit Facility**"). The amount of the Repayment Amount shall be detailed in the Borrowing Notice issued in respect of the First Advance. Concurrently with the First Advance, OFA shall provide to IESO an updated grid in respect of the grid note issued under the Existing Credit Facility evidencing the repayment of the Repayment Amount thereunder.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than

10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after Default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the

OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of even date herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the *Capital Investment Plan Act, 1993* (the "**Intercept Letter**"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("**Appropriated Funds**"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

(e) The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or

inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail.

Subject: RE: OFA IESO FHP Credit Agreement and Amending Agreement No 10 - Execution Versions

Per our call earlier this afternoon, please find attached clean and blacklined versions of the FHP Credit Agreement and Amending Agreement No.10 to the Existing Credit Agreement. These are ready for execution on Monday.

Per our discussion, I have removed the names of the OFA signatories which I understand you will fill in by hand when completed. Other than that there are very few changes to the text. Please note that in the final version of the FHP agreement I fixed the justification of the first two paragraphs of s.5.7 the Intercept clause (changed from full justify to left justify, consistent with the remainder of that clause and the Agreement generally).

As mentioned, I have also prepared separate Grid Notes for both agreements in the $2Bn and $475MM amounts. The $2Bn Note will be effective immediately and so will be provided by same day delivery. The $475MM Note does not become effective until the Effective Time on November 21 so we should discuss the appropriate manner of dealing with this Note pending its coming into effect.

Finally, I have updated the Incumbency Certificate and Certified Board Resolution to show current dates, and will complete the Intercept Letter with a Nov 6 date on Monday.

Let me know if you have any questions.

Regards,
Victor

Thanks Lisa – this version of AA#10 now looks fine.

We now need to make the final adjustments to both agreements based on the new November 6 closing. I will look at the documents this afternoon and forward any changes I note as required – I would like to be in a position to sign early on Monday if possible.

Hi Lisa –

By way of heads up, Dmitri just forwarded this to me, but I see your question at the bottom of the email is the catalyst for the proposal to obtain an OIC.

Not sure if this file has been active on your end recently but it looks like it is revving up again so you may want to circle back with clients (Mara B?) on what/when the directive/loan agreement requirements are and perhaps connect with Dimitri as to what has been happening on the OIC front etc.

Hi Sarah,

I'm forwarding this to you because Garth mentioned getting a lending directive from the Minister and I understand you're involved in that. But also because this would be an OFA loan to a public body, not a Provincial loan.

I'm happy to talk about it.

Please send Anna a brief description of the issue so as to inform her discussions with DMO.

Hi Sarah,

As Malle says, the best approach and the approach we, including Gadi, are recommending is that the "commitment" (in whatever form) be provided by MOH.

However, it appears as though the loan will be required eventually and will only work under a 35 year amortization (again Gadi has agreed to this amortization in principle), so we will need to amend the OIC. Given that our Plan B, which may be needed, is to provide some joint assurance MOF/MOH to HOOPP by April 30, I would like to work with Capital Markets to try to get the OIC in place so that we can use Plan B if necessary.

If you agree, just let me know what you need from me.

Thanks,
Garth

Malle,

Thank you very much for your quick response.

Garth – I'm not familiar with the various inputs Malle has mentioned below with the loan, and the timing for getting these. Is it possible to obtain all the required approvals, etc. prior to April 30th? As Malle indicates, a binding commitment doesn't seem possible without these elements. On the other hand, if it is possible, we could try to make the case for including an amending OIC for the April 16th LRC.

Hi,

Dimitri has been working on this as well so copying him here. According to the current

OIC's, OFA must repay the funds borrowed from the Province by 2040 (I haven't check them all now but assume that you have) so the OFA couldn't make a longer term loan to a third party such as the hospital without an amending OIC as you describe.

I think that the only thing that could be done is to see whether there is any possibility of walking this OIC in at this point if it is that critical. However, at the same time, I know that there have been numerous elements regarding this potential loan including possibly having MOHLTC provide an indemnity to the OFA regarding the repayment by the hospital. Not sure that we could in anyway provide a binding commitment that the money will be available in 2019 since there would be many other elements such as a Minister's directive, the negotiation of the loan agreement and due diligence that would make it conditional. However, it seems that the amendment to the OIC is a necessary precondition.

Also just thinking general about this project, is it anticipated that any other approvals or signing of agreements, etc. would be proposed during the writ period?

Thanks,

Malle

Hello Malle,

I am writing to you to inquire about the timing for an approval for an OIC in relation to a loan that the OFA may be making to St. Michael's, as detailed below.

In short, the OFA has the available room under its existing lending OICs (i.e. the OICs where the OFA borrows from Her Majesty, and then in turn makes loans to public bodies), but the expiry dates of the existing OICs are shorter than the proposed maturity. The OICs expire in 2041 and the loan would mature in late 2054. In order for the St. Micheal's loan to occur, there has to be a binding assurance to HOOPP by April 30th that funds will be available to be advance in the summer of 2019. In order for us to provide this, we would need to get approval for an amending OIC to extend the expiry dates of the existing OICs to 2055.

Given that the last LRC scheduled is for April 16th, and the deadlines for providing materials has passed (March 20th), it doesn't seem possible to get approval for an amending OIC prior to April 30th. Do you know of any options that might make this possible?

Thanks,
Sarah

Hi Andrea,

We are in discussions with St. Michael's Hospital to provide them with a $100M loan that would be amortized over 35 years. This is with regard to pension assets that they are transferring to HOOPP that need to be topped up by $100M.

A wrinkle is that they need to provide a binding assurance to HOOPP by April 30 that they have the funds although the effective date of the loan and the transfer of funds won't take place until July/August of 2019. This means that the loan wouldn't be paid off until late 2054.

We understand that the latest dated OIC is 844/2008 which ends June 1, 2041, so in order to make this loan we would need an OIC out to say, 2055 – although we may wish to make it later. A smaller request from Grand River hospital would be similar. Both loans would fit within the existing authorized amounts but not the repayment date.

Please advise the best way to proceed towards the required OIC amendment re timing.

Thanks. I will call to follow up.

Thanks,
Garth

Hi Garth,
I have been asked to respond to your query. Attached is the most current listing we have available of the OFA loans under the two OIC's. This listing was finalized in conjunction with Daki in Corporate Finance.
Based on this July 11, 2017 listing, the remaining authority under the two OIC's are as follows:

1) OIC 675/97 (the currently active one) has remaining authority of $721,594,955.57 as of July 11, 2017

2) OIC 767/99 has authority in the amount of $656,000,000.00 as of July 11, 2017

So it seems, we should be able to draw on OIC 675/97 for the additional loans you reference given it was noted in the BN you attached that the 2017-2018 OFA Borrowing and On-lending Plan was set at $486 million and apparently $250 million of that was postponed to 2018-2019.

Let me know should you have any further question or concerns.

Andrea

You will see in the highlighted section below that Lisa is asking that we confirm that 2 OFA loans we are working on:

- $150 million to the Ontario Cannabis Retail Corporation
- $100 million to St Michael's hospital

are covered by the "existing on-lending OIC's".

I don't know who would keep a registry of the OICs and what loans they cover. Would your group have this registry?

Please find attached some comments and suggested amendments to the draft briefing note, attached. I did not review the attachments; however, as discussed on Friday, they still reference the loan to St. Michael's hospital as well (and these references should be deleted).

I'm still working on the directive for the OCRC loan. In the meantime, can you please confirm that this loan is covered by the existing on-lending OICs (as referenced in the draft note)?

Salman –

The OFA's authority to borrow is set out in its' general borrowing by-law, By-Law #12 (see document at below link) which is approved by resolution of the Board and requires the additional approval of the Minister.

Under section 1(a)(i), the by-law permits borrowing by the OFA from the Minister of Finance, such amounts as the Minister of Finance is authorized by OIC to lend to the OFA.

http://portal.ofina.on.ca/sites/ld/ofaboard/administration/ByLaws/General%20Borrowing%20and%20Financing%20By-Law%2012.pdf

So, yes, borrowing from the Province by the OFA must not exceed amounts the Minister is authorized by OIC to lend.

Please let me know if you have questions or would like to discuss further.

Is it fine to say that the OFA needs to have room within an OIC to be able to lend to an entity (or in other words, an OIC (alongside other approvals like Minister's directive etc) to ensure the OFA can lend? I believe this is true but wanted to get a definite answer.

Hi Sarah,

Hoping you could help or point me in the right direction on this. I'd be happy to give you a call or come up to your office to quickly discuss…

There are two questions I am trying to answer:

1) If my understanding of the legal authorizations required for OFA to lend to entities is correct and that an OIC is needed for any lending the OFA intends to do; and
2) If my understanding is correct, would you have any documents/records to show that a certain OIC was done for the OFA-OPA (now IESO) facility

Background for my two questions:
My current understanding the legal requirements to do an OFA loan (pre- drafting an agreement). It is my understanding that:

- An OIC must authorize the Minister of Finance to lend to the OFA.
- Minister of Finance's Directive must then direct OFA to "on-lend" to Borrower subject to terms and conditions.

I assume this is the case and with that, I was trying to look for the OIC that would have been completed for the OFA to provide the current $975 million (originally could have been $475 million) revolving credit facility to the IESO (previously OPA). I don't think it was an specific one for this on-lending and it may be an old one. I have attached the most recent OIC that I could find and it makes reference to:

WHEREAS pursuant to Order in Council 675/97 made under subsection 22(1) of the Capital Investment Plan Act, 1993, the Minister of Finance is authorized to lend Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the Ontario Financing Authority (the "OF A");

And based on OIC tracking that I had seen in 2013 by OFA Documentation, this $975 million is included under that amount.

Thank you,
Salman

1) If my understanding of the legal authorizations required for OFA to lend to entities is correct and that an OIC is needed for any lending the OFA intends to do; and
2) If my understanding is correct, would you have any documents/records to show that a certain OIC was done for the OFA-OPA (now IESO) facility

Background for my two questions:
My current understanding the legal requirements to do an OFA loan (pre- drafting an agreement). It is my understanding that:

- An OIC must authorize the Minister of Finance to lend to the OFA.
- Minister of Finance's Directive must then direct OFA to "on-lend" to Borrower subject to terms and conditions.

I assume this is the case and with that, I was trying to look for the OIC that would have been completed for the OFA to provide the current $975 million (originally could have been $475 million) revolving credit facility to the IESO (previously OPA). I don't think it was an specific one for this on-lending and it may be an old one. I have attached the most recent OIC that I could find and it makes reference to:

WHEREAS pursuant to Order in Council 675/97 made under subsection 22(1) of the Capital Investment Plan Act, 1993, the Minister of Finance is authorized to lend Two Billion One Hundred and Sixty Million Dollars in lawful money of Canada to the Ontario Financing Authority (the "OF A");

And based on OIC tracking that I had seen in 2013 by OFA Documentation, this $975 million is included under that amount.

Thank you,
Salman

Subject: OFA lending policy re security

Hi Toby,

After discussing this matter with Sarah Neville, I wanted to share with you some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the ultimate policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset. This is a question best addressed by the business/policy people in CEFD.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status to be confirmed*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (pursuant to O.Reg. 632/94, the IESO is a "public body" for the purposes of CIPA). As such, the structure of this loan as set out in the draft agreement is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I'm not aware of any direction requiring this to be a secured loan.

In terms of the intercept provisions (which as you know are required pursuant to s. 23 of CIPA), it is unclear whether adding such provisions to the FHP credit facility agreement will provide further comfort. Do you know if there is currently an agreement in place between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement? Is this something to be further discussed with Energy? Is this a moot point? I would appreciate your thoughts on this issue.

Happy to discuss further,

Lisa

ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance; and (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

~~(5) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated unsecured Indebtedness of the IESO, subject to the existence of (i) any Permitted Liens of the IESO, and (ii) any other Liens that secure Indebtedness in accordance with Section 4.6 hereof.~~

~~(6)~~(5) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Commented [LS3]: Amended as per discussions. Still requires review/acceptance by IESO counsel.

Commented [TPW4]: I don't think this does anything, and may in fact be detrimental, as we may be able to argue for some kind of PMSI or other security arising from the operation of the OFHP. Useful if "unsubordinated", but not if "unsecured".

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The ~~obligation~~agreement of the OFA~~IESO~~ to make the Advances to IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

Subject: OFA lending policy re security

Hi Toby,

After discussing this matter with Sarah Neville, I wanted to share with you some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the ultimate policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset. This is a question best addressed by the business/policy people in CEFD.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status to be confirmed*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (pursuant to O.Reg. 632/94, the IESO is a "public body" for the purposes of CIPA). As such, the structure of this loan as set out in the draft agreement is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I'm not aware of any direction requiring this to be a secured loan.

In terms of the intercept provisions (which as you know are required pursuant to s. 23 of CIPA), it is unclear whether adding such provisions to the FHP credit facility agreement will provide further comfort. Do you know if there is currently an agreement in place between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement? Is this something to be further discussed with Energy? Is this a moot point? I would appreciate your thoughts on this issue.

Happy to discuss further,

Lisa

Hi Salman,

Thanks for the suggestion – makes sense. We can strip the reference to the Electricity Act, and propose a more general subsection 2.

Thanks,

Hi Sarah,

Based on the information we have to date, I don't think we were thinking of imposing that same limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and

administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.

If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.

Thoughts?

Salman

HI Salman,

One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?

Thanks,
Sarah

Hi William,

In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Salman

Subject: OFHP IESO OFA Credit Facility (Use of Proceeds)

Hi Toby and Salman,

May I ask both of your assistance in defining the use of proceeds from the IESO credit facility below?

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Best regards,

Hi Salman,

Thanks for the suggestion – makes sense. We can strip the reference to the Electricity Act, and propose a more general subsection 2.

Thanks,
Sarah

Hi Sarah,

Based on the information we have to date, I don't think we were thinking of imposing that same limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.

If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.

Thoughts?

Salman

HI Salman,

One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?

Thanks,
Sarah

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

The OFA will be borrowing funds for this requested credit facility under the authority of OIC ###, pursuant to which the Minister of Finance is authorized to lend a maximum of $2 billion.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

DRAFT

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, 1998, subject to the following conditions:

(1) Proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) With the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the IESO under 25.33 of the Electricity Act, 1998, the IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance."

Toby, once Lisa has finished reviewing the IESO credit facility, I will implement her suggested changes and then circulate the draft for your review and comment.

Hi William,

In being consistent with the Directive, I think the purpose of the credit facility can be written as follows, subject to any additional comments:

1) Proceeds of Advances may be used only for short to medium term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

I don't think subsection 2 applies. When sending this to IESO, I recommend that we highlight the entire section and have them confirm or provide further details, especially the reference to the 423/04 regulation.

Salman

Hi all,

Just to ensure we have the clean copy of the proposed Minister's Directive for this credit facility, please see attached.

In the v3 I had sent around, I had not remove the language in the recital making reference to the OIC #, which we had agreed did not need to be in the directive. Ron was also okay with leaving it removed.

Attached is v5.

Thanks for the suggestion – makes sense. We can strip the reference to the Electricity Act, and propose a more general subsection 2.

Thanks,

Hi Sarah,

Based on the information we have to date, I don't think we were thinking of imposing that same limitation of 12 month period but I see your point. I reread IESO request letter and suggest we do this instead to avoid lots of initial changes:

I. Change purpose to only state "short-term" needs:

1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of IESO's role in the implementation and administration of the Ontario Fair Hydro Plan Act, 2017.

II. Leave subsection 2 in there for now.

If IESO has issues, they can raise it in their comments back. Should we need "medium-term" financing, we can amend the agreement later as needed.

Thoughts?

Salman

HI Salman,

One quick question re: subsection 2 below. Subsection 2 was added in amendment#7 of the $975M OFA-IESO existing credit facility; I think the idea was to ensure that any advance under the facility isn't rolled over for the entire term of the agreement, but that any one advance is limited to 12 months of rolls. Notwithstanding the reference to the Electricity Act in subsection 2, is the intention with this new credit facility to limit rolls to a 12 month period for any particular advance?

Thanks,
Sarah

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

Is this promissory note based on a recent precedent?

Hi Salman,

Thanks so much for reviewing. I will remove the question to IESO regarding whether medium term financing should be included.

Two days processing is what is included in the current $975 million facility (in the original facility it was actually one day, but in amending agreement #9 we extended to two days). So this should be okay.

The agreement does not specify a prepayment option for IESO; is this something we should be looking to include?

Thanks,
Sarah

Hi Sarah/Lisa,

I took a quick look through (for the sake of time) and made 2 minor comments. I didn't review the conditions precedent etc as they appear to be pretty standard and this agreement is similar to $975 million agreement.

- We decided to leave use of proceeds to say short-term and let IESO tell us otherwise. If we are going to ask them explicitly to confirm whether its short-term or also medium term, we should ask for them for some language on definition. The Directive says "short-term to medium-term", so we would not be offside the Directive if we continue to only say "short-term".
- Is a 2-day notice sufficient for our processing purposes? Typically, its 5 business days but maybe we can ask for 3 business day notice at the least?

One detail I may have missed but didn't see was how does IESO pay us back on the advance? Do they just EFT the funds to us based on their election notice?

Regards,
Salman

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,
Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

Hi Lisa,

Thanks very much for your draft.

Please find attached our comments and changes (including simplifying the comments). For your reference, I've also done a pure blackline comparison against your last version.

We've accepted a lot of your changes and highlight the following remaining issues and changes:

- "Subsidiaries" - we would like to include all references to subsidiaries, as it was deliberately included in the other 2010 IESO-OEFC Credit Facility. We've also included the definition of "Material Subsidiary", which should have been included, as it was in the 2010 Credit Facility

- (ACTION REQUIRED - TOBY) Section 2.2 – Changes accepted, however, Toby to confirm Reg. 280/14 reference? Also, IESO to confirm reference to "short to medium" term.

- (ACTION/DECISION REQUIRED -LISA) Section 3.3 – Does this language actually need to be amended any further? It was based on the language of amending agreement #9 of the original $975m OPA-OFA Credit Facility agreement.

- Section 3.5 – Included the words “a Material Subsidiary” in respect of the MAC clause, per your suggestion

- Original Section 4.1 – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.

- “New” Section 4.1 – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility

- (DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2 – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.

- Newly renumbered Section 4.7 – Have included timeframe as “promptly”, per you suggestion of a timeframe

- Original Section 5.1(c) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered

- Section 7.1 –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective. Since the agreement must be executed by end of next week and IESO has not yet seen the draft, I am hoping we can strive to get this to IESO by end of day (Friday) to allow sufficient time for IESO to review and provide comments on the draft ASAP early next week..

Thanks,
Sarah

Hi Lisa,

Thanks very much for your draft.

Please find attached our comments and changes (including simplifying the comments). For your reference, I've also done a pure blackline comparison against your last version.

We've accepted a lot of your changes and highlight the following remaining issues and changes:

- **"Subsidiaries**" - we would like to include all references to subsidiaries, as it was deliberately included in the other 2010 IESO-OEFC Credit Facility. We've also included the definition of "**Material Subsidiary**", which should have been included, as it was in the 2010 Credit Facility
- **(ACTION REQUIRED - TOBY) Section 2.2** – Changes accepted, however, Toby to confirm Reg. 280/14 reference? Also, IESO to confirm reference to "short to medium" term.
- **(ACTION/DECISION REQUIRED -LISA) Section 3.3** – Does this language actually need to be amended any further? It was based on the language of amending agreement #9 of the original $975m OPA-OFA Credit Facility agreement.
- **Section 3.5** – Included the words "a Material Subsidiary" in respect of the MAC clause, per your suggestion
- **Original Section 4.1** – Deleted section per your comment, as it is redundant. Section 4 numbering has been re-numbered along with any corresponding references in the agreement.
- **"New" Section 4.1** – Keep reference to 7.1, as we prefer to keep this reference, which was also in 2010 IESO-OEFC Credit Facility
- **(DECISION REQUIRED – LISA/SARAH) Newly renumbered Section 4.2** – Maintenance of Properties – Would like to discuss with you directly, as this is a little ambiguous role of OFA vs. Province.
- **Newly renumbered Section 4.7** – Have included timeframe as "promptly", per you suggestion of a timeframe
- **Original Section 5.1(c**) – deleted section as was redundant and referenced the now deleted original section 4.1 (per above). As a result of deletion, references (d), (e), (f), (g), and (h) under section 5.1 have been renumbered
- **Section 7.1** –We would like to include section, as it was included in 2010 OEFC-IESO credit facility. Corresponding reference in Section 4.1 should be kept.

I note below that you requested that we do another Documentation/OFA Legal turn before review by LSB, but given the urgent timeframe, and the very few remaining material issues, I thought it prudent to let Toby view what is a relatively final form in substance, so he can flag any major issues from an FHP perspective. Since the agreement must be executed by end of next week and IESO has

not yet seen the draft, I am hoping we can strive to get this to IESO by end of day (Friday) to allow sufficient time for IESO to review and provide comments on the draft ASAP early next week..

Thanks,
Sarah

Commented [LS24R23]: 7 days prior? Confirm with Sarah Harris? See s. 3.2 below.

Commented [LS25]: Change to defined term throughout

Commented [WT26]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS27]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

Commented [LS30]: If referring to Subsidiaries in agreement, include here as well?

Commented [LS31]: If referring to Subsidiaries in agreement, include here as well?

SH: Yes, include Material susidiary

COVENANTS OF THE IESO

Section 4.1 ~~**Payment of Advances.**~~

~~The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.~~

Commented [WT34R33]: Addressed/settled with Ken Russell and Annette Pivnick in 2010 for the IESO $60million credit facility. “Past practice has been to included this language even if not relevant at the present time’. Our preference is to keep this.

Commented [LS35]: Keep?

Commented [LS36]: Keep?

Hi Sarah/Lisa,

I took a quick look through (for the sake of time) and made 2 minor comments. I didn't review the conditions precedent etc as they appear to be pretty standard and this agreement is similar to $975 million agreement.

- We decided to leave use of proceeds to say short-term and let IESO tell us otherwise. If we are going to ask them explicitly to confirm whether its short-term or also medium term, we should ask for them for some language on definition. The Directive says "short-term to medium-term", so we would not be offside the Directive if we continue to only say "short-term".
- Is a 2-day notice sufficient for our processing purposes? Typically, its 5 business days but maybe we can ask for 3 business day notice at the least?

One detail I may have missed but didn't see was how does IESO pay us back on the advance? Do they just EFT the funds to us based on their election notice?

Regards,
Salman

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,
Sarah

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,
Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,
Sarah

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "Borrowing Notice") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 7 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "Grid Note"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance, including any Advance for which all or a portion of which is continued by election under Section 3.3; (b) the applicable rate of interest for each Advance; (c) the Repayment Date of each Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "Continued Advance") for a further period of 7 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies~~;~~ ~~(b) the Repayment Date of the proposed Continued~~

Commented [SQ26]: Is this sufficient timing on our end? Typically it is 5 business days, but maybe we can say at least 3-business days?

Commented [SH7]: Does this need any tweeking to take into account our definition of "Continued Advance" under 3.2 (2)?

Commented [SH8]: Changed per Carlos' description of how advance works and converstation with Lisa

Commented [SH9]: Think this should just be the Advance.

~~Advance;~~ (bc~~b~~) the new aggregate total amount of the proposed Continued Advance~~[including accrued interest];~~ and (cd~~c~~) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance as set out in ~~accordance with~~ Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank pari passu with all other unsubordinated Indebtedness of the IESO, subject to the existence of any Permitted Liens of the IESO.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

~~(3)~~ (3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [SH10]: Deleted (b), since this is reflected in (d)

Commented [LS11]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [SH12R11]: Changed per discussion with Lisa, based on Carlos' description of application of interest rate.

Section 3.5 Conditions Precedent

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,
Sarah

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,
Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,
Sarah

Hi Sarah,

I agree with your responses to Toby (note that you require a space after the new "or"), and I agree that you should confirm Toby has no further comments re: Use of Proceeds. Have you received comments from Salman regarding this as well? I am in the process of reviewing the other draft that you sent.

Commented [LS14]: Make sure definition updated.

Commented [WT15]:

Commented [WT16R15]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [WT17]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS18]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [LS19]: Once this section is finalized, please ensure Election Notice is consistent.

Commented [WT20]: Lisa, I confirmed this w/ Carlos and he is satisfied with the original wording. Below is how they use the fields.

If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in accordance with Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

Commented [LS21]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

(3)(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,
Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,
Sarah

Commented [LS9]: As per internal e-mail chain. IESO to confirm - Short to medium?

Commented [SH10]: Could IESO please confirm if this is short term or short to medium term.

Commented [LS11]: Confirm? Is it appropriate that IESO will provide instructions or should method be at OFA's discretion?

Commented [WT12R11]: This is consistant with other agreements. This is a back office function where IESO provides OFA with destination wire transfer account information. Am I understanding your question correctly?

Commented [LS13R11]: Okay

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "Borrowing Notice") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 7 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2

Commented [LS14]: Make sure definition updated.

Commented [WT15]:

Commented [WT16R15]: Confirmed last advance will be 7 calendar days before the CF agreement expires.

Commented [SH17]: Does this need any tweeking to take into account our definition of "Continued Advance" under 3.2 (2)?

Commented [WT18]: Discussed the language with Carlos Yep. He is satisfied that Section 3.3.2 and 3.3.3 provides choice of either repayment or advance for a further period. The reset rate would apply to the portion that is extended. Unless I'm not understanding the question.

Commented [LS19]: This section and accompanying form needs further consideration/amendments. Need to add a provision re: interest rate for any such extension if applicable (unless treated as a late payment). LEGAL to review again.

Commented [SH20]: Changed per Carlos' description of how advance works and converstation with Lisa

Commented [SH21]: Think this should just be the Advance.

Commented [WT22]: Lisa, I confirmed this w/ Carlos and he is satisfied with the original wording. Below is how they use the fields.
Schedule 1 (a) Advance date/settlement date of funds.
Schedule 2 (a) Maturity date of the previous advancement.
Schedule 2(c) New maturity date of extention.

SH: This wording is based on the language of Amending Agreement #9 of the original OPA-OFA 975m credit facility agreement.

Commented [SH23]: Deleted (b), since this is reflected in (d)

~~Advance, (c) the~~ new aggregate total amount of the proposed Continued Advance~~,~~ ~~[including accrued interest];~~ and (~~d~~c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 7 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance ~~-~~shall be determined in ~~accordance with~~the same manner as an Advance as set out in Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank pari passu with all other unsubordinated Indebtedness of the IESO, subject to the existence of any Permitted Liens of the IESO.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right or set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

Commented [LS24]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [LS25]: NTD: As discussed please clarify calculation of interest on Advance continued by election in Section 3.4.

Commented [SH26R25]: Changed per discussion with Lisa, based on Carlos' description of application of interest rate.

The obligation of the IESO to make the Advances pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,
Sarah

Thanks Sarah.

Just sending this email to follow-up on our conversation. I was referring to the mechanism as to how IESO pays back their advances, which has been pointed out to me is section 2.6.2. So all is good.

Hi Salman,

Thanks so much for reviewing. I will remove the question to IESO regarding whether medium term financing should be included.

Two days processing is what is included in the current $975 million facility (in the original facility it was actually one day, but in amending agreement #9 we extended to two days). So this should be okay.

The agreement does not specify a prepayment option for IESO; is this something we should be looking to include?

Thanks,
Sarah

Hi Sarah/Lisa,

I took a quick look through (for the sake of time) and made 2 minor comments. I didn't review the conditions precedent etc as they appear to be pretty standard and this agreement is similar to $975 million agreement.

- We decided to leave use of proceeds to say short-term and let IESO tell us otherwise. If we are going to ask them explicitly to confirm whether its short-term or also medium term, we should ask for them for some language on definition. The Directive says "short-term to medium-term", so we would not be offside the Directive if we continue to only say "short-term".
- Is a 2-day notice sufficient for our processing purposes? Typically, its 5 business days but maybe we can ask for 3 business day notice at the least?

One detail I may have missed but didn't see was how does IESO pay us back on the advance? Do they just EFT the funds to us based on their election notice?

Salman

Hi Salman,

As discussed, we've been drafting up to the 11th hour to try to get this to IESO by end of day today. We're still putting on the final touches, but if you wouldn't mind taking a look at this draft to ensure that it is consistent with FHP purposes, and is consistent with the Directive, that would be great. My apologies for the short notice.

Thanks,
Sarah

Hi Lisa,

My apologies – in addition to the changes below, I noted one more change.

Under 3.3(2), I took out the word Continued in the first sentence, as I think is the accurate intention

Each notice to continue an Advance for a further period (an "Election Notice") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the ~~Continued~~ Advance, and in each case, not later than 10:00 a.m. (Toronto time).

Otherwise, there are no other changes from my last version.

Thanks,
Sarah

Hi Lisa,

Please find attached the revised draft, based on our conversation (I also included the blacklined comparison directly against your 12:38 p.m. version, for your reference).

Particularly, could please review the election notice language and comment if you think it is now consistent with the new wording of section 3.3 (2). I also note Toby's comments are for clarification and do not change the drafting of your previous version, so we're okay to work off this version for further edits.

I am available at 647-278-9718 at any time.

Thanks,
Sarah

Hi Will

I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.

As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Subject: Policy question re OFHP Credit Facility Agreement

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

> **Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)?** This decision ultimately needs to be made by business/policy people.
>
> - **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
>
> - **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

DRAFT:

Hi Will,

Based on the e-mails to date, I understand that the OFA decision makers (i.e. Ken K., Mike M.) have considered the OFA Lending Policy as well as the insolvency and operational risks (as per my earlier e-mail below), and have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby nor I were part of the aforementioned call, I wanted to clarify that this loan is NOT the same as other OFA unsecured loans to public bodies, as the protection provided by the "intercept" provisions of the standard loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). My understanding is that, although the intercept provisions allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement, these amounts are minimal. Before proceeding, I would like to ensure that this point has been considered (and perhaps has already been considered by Ken K. in his explanation below). Please confirm.

Please let me know if you would like to discuss further. In the meantime, Toby and I are still working on some technical legal issues in relation to the intercept provisions and requirements of the OFA Lending Policy.
