**Subject:** FW: KMs and Q&As
Good afternoon,
Ministry of Energy has taken the lead on preparing Q&As (attached) to support our Ministers upon release of the AG's report on the Fair Hydro Plan (release is expected to be imminent). Energy has asked OFA to review the highlighted question on page four, which they've pulled from speaking points the OFA prepared for Minister Sousa. Gadi, I note they've taken the response verbatim from what we submitted, so I don't expect it will require further editing; however, there could be other

questions that the OFA would like to weigh in on.
Please review the attached and send me your edits in track changes by 3:00pm. Ali has asked for materials by 4:00pm today.
Thank you, Anna

https://www.ontario.ca/page/expenditure-estimates-ministry-energy-2017-18#section-3, shows the amounts based on in-year implementation timelines. It would seem to make more sense to go with 17-18 numbers consistent with Estimates, unless Energy and TBS have a good rationale to do otherwise.
I believe the pro-rated numbers were also provided to the FAO when we were interacting with FAO staff prior to the FAO report in the spring.
On slides 5 and 9, should the last bullet be amended? I'm not sure "consulted with" is the right way to position the role of third party, external auditors (KPMG and E&Y). It might be better to have separate sentences or bullet for describing the role of the external auditors. Ken and OPCD may have a view on that.
On slide 8, the first bullet, I think the distinction between OPG and the financing entity should be maintained – "sold to a financing entity (e.g., a trust ) established by OPG…."

Hi everyone,
Attached is an updated deck based on a discussion with our MO this afternoon. This version also incorporates comments from TBS. There is also a place holder for IESO input on its slide.
We've sent IESO the slide for feedback and input. The text that is currently on IESO's slide was from TBS. We will share a new version once we receive that input.
The QAs will likely come Saturday as folks are working to consolidate the input we received from the OFA and TBS. For Monday morning's meeting we will use the technical deck and QAs.
Thanks,
Martin

# Ontario's Fair Hydro Plan

## QUESTIONS & ANSWERS

*TBS*

### Key Messages

- The government respects independent officers of the legislature, and values the important perspective they bring but does not agree with the assertions and conclusions expressed in the Auditor General's Fair Hydro Plan report.

- The government has a strong track record of producing high-quality financial reports on a timely basis and continues to present the province's finances fairly and accurately and in accordance with Canadian Public Sector Accounting Standards.

- In developing the Fair Hydro Plan, the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

- The Fair Hydro Plan operates under a financial and accounting framework that is appropriate for the intended purpose. It is in accordance with Public Sector Accounting Standards and ensures the goals underlying the program are achieved in a cost-effective manner.

- The implementation of Ontario's Fair Hydro Plan is ongoing, with significant decisions with accounting and financial implications still being finalized. The financing plan and its impact will continue to be transparent and fully available to credit rating agencies, securities regulators, and the public.

- The Ministry of Energy, the Ministry of Finance, and the Treasury Board Secretariat remain committed to assisting the Office of the Auditor General in providing its independent views to the Legislative Assembly.

DRAFT

## Top Questions

1. **The Auditor General says that the accounting structure for Ontario's Fair Hydro Plan is not transparent, has poor value for money, and is not in accordance with Public Sector Accounting Standards. How do you respond?**

   The government has the utmost respect for all independent officers of the legislature, and values the important perspective they bring.

   The Ministry of Energy, the Ministry of Finance, and the Treasury Board Secretariat remain committed to assisting the Office of the Auditor General so that it can provide its independent views to the Legislative Assembly.

   With regards to the Auditor General's report on Ontario's Fair Hydro Plan (OFHP) – while the government does not agree with the assertions and conclusions expressed in the report, the government thanks the Office of the Auditor General for its report.

   OFHP is delivering the single-largest reduction in electricity rates in the Province's history. In developing OFHP, the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

   OFHP operates under a financial and accounting framework that is appropriate for the intended purpose. It is in accordance with Public Sector Accounting Standards (PSAS) and ensures the goals underlying the program are achieved in a cost-effective manner.

   The implementation of OFHP is ongoing, with significant decisions with accounting and financial implications still being finalized.

   The Province's financial statements are prepared in accordance with Canadian PSAS and will follow PSAS in accounting for the transactions resulting from OFHP in 2017-18, and in following years.

   As PSAS is set by an independent standard-setting body in Canada focused specifically on the public sector, and because PSAS is used by all senior governments in Canada, presenting financial statements in accordance with PSAS results is transparent financial reporting for the Province of Ontario.

   Ontario has a strong track record of producing high-quality financial reports on a timely basis, and will continue to move forward and present the Province's finances fairly, accurately and in accordance with PSAS.

DRAFT

The Ministry of Energy would welcome further questions about OFHP and the government's investments in a reliable energy system.

2. **The Auditor General makes two recommendations in her report – to record the true financial impact of Ontario's Fair Hydro Plan; and to use a financing structure that is the least costly for Ontarians. Will you adopt these recommendations?**

   The government does not agree with the assertions and conclusions expressed in the report.

   In developing OFHP, the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

   OFHP operates under a financial and accounting framework that is appropriate for the intended purpose. It is in accordance with Public Sector Accounting Standards (PSAS) and ensures the goals underlying the program are achieved in a cost-effective manner.

   In order to meet the needs of users, including the legislature and the public, for accountability in government reporting and decision making, it is essential that public sector financial statements reflect the economic substance of the government's activities.

   The Province's financial statements are prepared in accordance with Canadian PSAS and will follow PSAS in accounting for the transactions resulting from OFHP in 2017-18, and in following years.

   As PSAS is set by an independent standard-setting body in Canada focused specifically on the public sector, and because PSAS is used by all senior governments in Canada, presenting financial statements in accordance with PSAS results in transparent financial reporting for the Province of Ontario.

   Ontario has a strong track record of producing high-quality financial reports on a timely basis, and will continue to move forward and present the Province's finances fairly, accurately and in accordance with PSAS.

   On the point of "a financing structure that is the least costly for Ontarians": Program area to develop a stronger argument for this point.

   The OFHP financing structure has been designed to provide electricity rate relief to current ratepayers, including by more fairly allocating costs for specified consumers, with the Global Adjustment cost amounts still ultimately borne by specified electricity ratepayers, as beneficiaries of those electricity system costs.

**Commented [HS(1]:** OFA

**Commented [RK2R1]:** Would it be appropriate to insert the response from the other set of Qs&As, as below?

The policy objective of OFHP is to more fairly allocate the cost to ratepayers over the useful life, not the contractual term, of the electricity generating assets. Therefore, it was a primary policy objective to ensure that the costs are borne by the beneficiaries of the electricity system – the ratepayers – not the tax-base.

We believe it is appropriate for ratepayers to pay for the financing of electricity assets. The rate-base has a different risk profile than the tax-base, which would be reflected in different interest costs. Having the rate-base pay is not a new policy, for example Hydro One has borrowed in the capital markets since the early 2000s.

The $4 billion figure in the Office of the Auditor General's report was sourced from the FAO's May 2017 report and is important to note, that the FAO's calculation was based on preliminary estimates of the program when peak debt estimates for the thirty year program were substantially higher and interest costs were forecast to be higher than current projections.

Ontario Power Generation (OPG) is beginning the process of raising funds to finance the deferred costs, and while total borrowing costs will not be known until the program is complete, accumulated interest is projected to be considerably less than the estimates in the May 2017 report of the Financial Accountability Office (FAO).

Total borrowing estimates over the thirty year life of OFHP have been revised down substantially by the government since the FAO released its report in May 2017, and borrowing costs are now forecast to be substantially lower than original estimates. Current government estimates forecast that the peak debt over the thirty year life of OFHP will be below $20 billion. The preliminary estimate from March 2017 was about $28 billion.

The Province will continue to prepare its consolidated financial statements in accordance with PSAS and continue to build on a track record of responsible fiscal management.

3. **Both the Auditor General and the Financial Accountability Officer have raised serious concerns about the accounting treatment of the electricity cost refinancing initiative. Why should Ontarians believe this government over two independent officers of the Legislature?**

The government has the utmost respect for all independent officers of the legislature, and values the important perspective they bring.

Ontario's Fair Hydro Plan (OFHP) is delivering the single-largest reduction in electricity rates in the Province's history.

In developing OFHP, the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

OFHP operates under a financial and accounting framework that is appropriate for the intended purpose. It is in accordance with Public Sector Accounting Standards (PSAS) and ensures the goals underlying the program are achieved in a cost-effective manner.

The Province, as always, will prepare its consolidated financial statements in accordance with PSAS and continue to build on its track record of responsible fiscal management.

4. **The Auditor General says that you are "obfuscating" the true financial impact of Ontario's Fair Hydro Plan through a "needlessly complex" accounting structure. How do you respond?**

   Ontario's Fair Hydro Plan (OFHP) is delivering the single-largest reduction in electricity rates in the Province's history. In developing OFHP, the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

   OFHP operates under a financial and accounting framework that is appropriate for the intended purpose. It is in accordance with Public Sector Accounting Standards (PSAS) and ensures the goals underlying the program are achieved in a cost-effective manner.

   OFHP is comprised of a series of policy decisions. The impact of some of these decisions will be borne by the Province (taxpayers) where appropriate, such as sales tax relief and shifting social programs to the tax base; some will be borne by ratepayers, such as spreading the investment costs and benefits across ratepayers more fairly.

   While the implementation of OFHP is ongoing, with significant decisions with accounting and financial implications still being finalized, the financing plan for OFHP and its impact will be transparent. Credit rating agencies, securities regulators, and the public will see full information and full reporting of the impacts of OFHP.

   Ontario has a strong track record of producing high-quality financial reports on a timely basis. Ontario will continue to move forward and present the Province's finances fairly and accurately and in accordance with PSAS.

5. **Why do you keep differentiating between ratepayers and taxpayers? At the end of the day, the cost of Ontario's Fair Hydro Plan is being borne by Ontarians now and in the future.**

   Ontario's Fair Hydro Plan (OFHP) operates under a financial and accounting framework that is appropriate for the intended purpose. It is in accordance with Public Sector Accounting Standards (PSAS) and ensures the goals underlying the program are achieved in a cost-effective manner.

   The framework has been designed to provide electricity rate relief to current ratepayers, including by more fairly allocating costs for specified consumers, with the Global Adjustment cost amounts still ultimately borne by specified electricity ratepayers, as beneficiaries of those electricity system costs.

Need more information from program area re: rationale in differentiating between ratepayers and taxpayers.

Commented [HS(3]: energy

6. **How can you justify the $4 billion in additional interest expenses that will be borne by ratepayers because of the way the government has structured electricity cost refinancing (i.e. using Ontario Power Generation to finance 55 per cent, at a higher interest rate than the Province, instead of the Province financing the entire electricity cost financing)?**

   Ontario's Fair Hydro Plan (OFHP) is comprised of a series of policy decisions. The impact of some of these decisions will be borne by the Province (taxpayers) where appropriate, such as sales tax relief and shifting social programs to the tax base; some will be borne by ratepayers, such as spreading the investment costs and benefits across ratepayers more fairly.

   The accounting will reflect the economic substance of the transactions in accordance with Public Sector Accounting Standards (PSAS) and will differentiate those costs of OFHP borne by taxpayers versus those borne by ratepayers.

   The Auditor General's report suggests that all the costs of OFHP should be reflected as if they will be borne by taxpayers, which is inaccurate.

   Ontario Power Generation (OPG) is beginning the process of raising funds to finance the deferred costs, and while total borrowing costs will not be known until the program is complete, accumulated interest is projected to be considerably less than the estimates in the May 2017 report of the Financial Accountability Officer (FAO).

   Total borrowing estimates over the thirty year life of OFHP have been revised down substantially by the government since the FAO released its report in May 2017, and borrowing costs are now forecast to be substantially lower than original estimates. Current government estimates forecast that the peak debt over the thirty year life of OFHP will be below $20 billion. The preliminary estimate from March 2017 was about $28 billion.

   For further questions about borrowing estimates, please contact the Ministry of Finance.

7. **The AG claims that when the government first gave Ontarians an 8 per cent break on their bills, it was reported on the books properly. She says when it jumped to 25 per cent, the accounting changed. Isn't it obvious you're cooking the books to suit your needs?**

   - *Need information from program area*

8. **The Auditor General said that a similar move to legislate accounting to defer costs was proposed with the restructuring of the Ontario electricity sector in the late 1990s, but the Auditor General's opinion at that time was that this would represent a departure from a central tenet of generally accepted accounting principles. The government at that time heard these concerns, and made the decision to not create an asset for future anticipated ratepayer payments. Why does the government think this is ok now?**

   The Auditor General's report makes a comparison between Ontario's Fair Hydro Plan (OFHP) and the Ontario Electricity Financial Corporation (OEFC) stranded debt. There are, however, crucial differences between the two.

   For example, the OEFC stranded debt had already been incurred when the restructuring took place.

   In the case of OFHP, the difference between what will be collected and what will be paid to generators is considered to be an asset in accordance with the accounting definition, as it will generate a specific future revenue stream in the form of the CEA.

   It is important to note that the 1999 restructuring led to an "unbundling" of the electricity rate. Prior to the 1999 restructuring and the 2002 market opening, there was a "bundled rate" for electricity that included cost recovery of generation and transmission costs, operating and capital – including debt costs, as well as central market operations costs. Including debt cost recovery and matching the timing of the capital cost recovery with the benefit to the ratepayer is a normal rate-setting regulatory practice.

   The Debt Retirement Charge (DRC) represented the unbundling of a portion of the debt service costs. It effectively amortized the cost of the investments in long-lived assets (including debt incurred).

   The OFHP Global Adjustment deferral is also intended to have costs recovered from specified ratepayers over a time period that better reflects the expected lives of those assets (versus the contract lengths that may be shorter than the expected useful life of the assets).

   The difference between the 1999 restructuring and OFHP is that the DRC continued to pay down, over time, debt that had already been incurred, while under OFHP, an asset is being recorded to reflect a fair allocation of electricity costs between current and future ratepayers.

   The intention of OFHP is to be forward-looking, to ensure that ratepayers are sharing current and future costs, whereas the DRC was backward-looking,

**Commented [RK4]:** Another crucial difference is the context of the broader electricity sector structure then and now.

In 1999, the sector was broadly being set up as being market and competitive-based, and OEFC was not rate-regulated, and the DRC was put in place in that context, as unbundled.

Today, the sector is broadly speaking essentially fully-regulated or contracted, and the FHP GA deferral structure fits within that context.

DRAFT

replacing part of a bundled rate that was already spreading the cost recovery of the debt over time.

9. **What will happen if interest rates rise? The Financial Accountability Officer (FAO) estimates that if interest rates were to rise, the true cost of Ontario's Fair Hydro Plan could be between $69 and $93 billion. How can you justify shifting this heavy burden onto future generations?**

   The implementation of OFHP is ongoing, with significant decisions with accounting and financial implications still being finalized.

   Ontario Power Generation (OPG) is beginning the process of raising funds to finance the deferred costs of Ontario's Fair Hydro Plan (OFHP), and while total borrowing costs will not be known until the program is complete, accumulated interest is expected to be considerably less than the estimates cited in the May 2017 report of the Financial Accountability Office (FAO).

   Total borrowing estimates over the thirty year life of Ontario's Fair Hydro Plan (OFHP) have been revised down substantially by the government since the Financial Accountability Office (FAO) released its report, and borrowing costs are now forecast to be substantially lower than original estimates.

   Current government estimates forecast that the peak debt over the thirty year life of OFHP will be below $20 billion. The preliminary estimate from March 2017 was about $28 billion.

**Commented [RK5]:** Just an aside. The Q seems to be more about the risk and cost of interest rates rising generally, versus what may be more a response on a lower interest rate now based on a lower estimated spread at a point in time.

## Government Officials

10. **The Auditor General says that even your own government officials flagged the unnecessarily high costs of Ontario's Fair Hydro Plan – and yet you chose to proceed. How can you justify this?**

    In developing Ontario's Fair Hydro Plan (OFHP), the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

    Multiple options were considered in creating the OFHP framework – such as to have local distribution ~~centres~~ companies finance the difference between the amounts paid to the generators and the amounts collected from the ratepayers. This was rejected because of the inability of some local distribution ~~centres~~ companies to finance the balances.

    The implementation of OFHP is ongoing, with significant decisions with accounting and financial implications still being finalized.

Ultimately, OFHP operates under a financial and accounting framework that is appropriate for the intended purpose. It is in accordance with Public Sector Accounting Standards (PSAS) and ensures the goals underlying the program are achieved in a cost-effective manner.

## Audit Opinion

**11. The government just received another qualified audit opinion on its Public Accounts – this time based on two separate issues. Why do you continue to disagree with the Auditor General?**

The government continues to move forward and present the Province's finances fairly and accurately and in accordance with Canadian Public Sector Accounting Standards (PSAS). Ontario has a strong track record of producing high-quality financial reports on a timely basis. The Auditor General's qualified opinion is based on a different interpretation of PSAS for net pension assets and recognition of market accounts.

Last year there was a disagreement among the Province's professional accounting staff and the Auditor General's Office on the appropriate application of PSAS regarding pension accounting. As a result, the Pension Asset Expert Advisory Panel was established to deliver independent advice and recommendations on the issue to the Province.

The independent panel members concluded the Province's share of the net pension assets of both the Ontario Teachers' Pension Plan and the Ontario Public Service Employees' Union Pension Plan should be recognized in Ontario's financial statements.

After significant deliberation, including consideration of the recommendations of the panel, Ontario confirmed that the accounting for these plans prior to 2015-16 was appropriate, and are prepared in accordance with public sector accounting standards for pension asset accounting. Further, EY provided additional analysis and concluded that no valuation allowance was required for either plan as of March 31, 2017. The 2016-17 financial statements include these pension assets, and we continue to apply the accounting treatment of pension assets that the Province has used consistently since 2001. In addition, the 2015-16 financial statements were restated to include these assets.

This year the Independent Electricity System Operator (IESO) began recognizing its market accounts' assets (amounts due from power distributors) and liabilities (amounts due to power producers) in its financial results. IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects the financial position of the IESO-administered markets at year-end. This change was supported by the IESO's audit committee, its independent external auditor, and finally by the Office of the Provincial Controller. This change

also has no impact to the Province's annual deficit, net debt or accumulated deficit.

This accounting is consistent with the presentation used previously by the Ontario Power Authority (which was merged with the IESO on January 1, 2015) in its financial statements, which was not subject to qualification from the Office of the Auditor General at that time.

**12. The Auditor General says that you anticipated the government would receive a qualified audit opinion – and accepted this risk. In the private sector this would be unacceptable. How do you figure you can get away with this?**

The Province's financial statements are prepared in accordance with Canadian Public Sector Accounting Standards (PSAS).

As PSAS is set by an independent standard-setting body in Canada focused specifically on the public sector, and because PSAS is used by all senior governments in Canada, presenting financial statements in accordance with PSAS results in transparent financial reporting for the Province of Ontario.

PSAS are principle based -- they are not a set of specific prescriptive rules. Applying them requires the application of professional judgment.

Our professional staff exercises judgment in applying the standards and as necessary consult with external experts and advisors. They provide the Office of the Auditor General with their written analysis on all significant issues that impact the financial statements for the year being audited, and they discuss the issues with the Office of the Auditor General.

All Chartered Professional Accountants (CPAs), including those employed by the Ontario Public Service (OPS), are required to comply with the Code of Professional Conduct for CPAs. One of those rules is that they not be associated with false or misleading information.

That means that if the professional accountants in the OPS do not agree with the judgment of the Ontario Auditor General, it is not as simple as just agreeing to accept the interpretation of the Office of the Auditor General if they believe that interpretation would result in false or misleading financial statements. While we expect professional accountants to agree on the vast majority of issues, we acknowledge that they may not agree on everything and when that occurs, and the difference is material to the financial statements, the Office of the Auditor General can choose to issue a qualified audit opinion.

DRAFT

**13. Are you concerned that the Auditor General will issue an adverse opinion on the Province's Public Accounts due to Ontario's Fair Hydro Plan accounting? What would be the impact on the Province's credit rating?**

It would be inappropriate to speculate about how the Auditor General may issue an opinion for Public Accounts next year. The implementation of Ontario's Fair Hydro Plan (OFHP) is ongoing, with significant decisions with accounting and financial implications still being finalized.

The Ministry of Energy, Finance, and the Treasury Board Secretariat continue to work closely with Ontario Power Generation (OPG), the Independent Electricity System Operator (IESO), as well as third-party experts to ensure due diligence.

The Province's financial statements are prepared in accordance with Canadian PSAS and will follow PSAS in accounting for the transactions resulting from OFHP in 2017-18, and in following years.

The financing plan for OFHP and its impact will be transparent. Credit rating agencies, securities regulators, and the public will see full information and full reporting of the impacts of OFHP.

Ontario has a strong track record of producing high-quality financial reports on a timely basis. Ontario will continue to move forward and present the Province's finances fairly and accurately and in accordance with PSAS.

**14. The Auditor General says that she has consulted with all of the Auditor Generals in Canada – and they agree with her assessments. How are we supposed to believe this government when all independent auditors in the country say you are wrong?**

In developing Ontario's Fair Hydro Plan, the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

PSAS are principle based -- they are not a set of specific prescriptive rules. Applying them requires the application of professional judgment.

Our professional staff exercises judgment in applying the standards and as necessary consult with external experts and advisors. They provide the Office of the Auditor General with their written analysis on all significant issues that impact the financial statements for the year being audited, and they discuss the issues with the Office of the Auditor General.

DRAFT

All Chartered Professional Accountants (CPAs), including those employed by the Ontario Public Service (OPS), are required to comply with the Code of Professional Conduct for CPAs. One of those rules is that they not be associated with false or misleading information.

That means that if the professional accountants in the OPS do not agree with the judgment of the Ontario Auditor General, it is not as simple as just agreeing to accept the interpretation of the Office of the Auditor General if they believe that interpretation would result in false or misleading financial statements. While we expect professional accountants to agree on the vast majority of issues, we acknowledge that they may not agree on everything and when that occurs, and the difference is material to the financial statements, the Office of the Auditor General can choose to issue a qualified audit opinion.

15. **Are you going to hire an expert advisory panel, as you did on the pension asset accounting matter, to settle this dispute with the Auditor General? If so, what authority would this panel have?**

    There are no plans to establish a panel at this time.

    In developing Ontario's Fair Hydro Plan (OFHP), the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

    The Province will continue to work with the Auditor General to build on the government's track record of responsible fiscal management and high quality financial reporting.

## Independent Electricity System Operator (IESO)

16. **The Auditor General was critical of the Independent Electricity System Operator's accounting changes, which formed part of her basis for a qualified opinion in the 2016-17 Public Accounts. Are these accounting changes inappropriate?**

    *On recognizing market accounts' assets:*

    The Independent Electricity System Operator (IESO) began recognizing its market accounts' assets (amounts due from power distributors) and liabilities (amounts due to power producers) in its financial results. IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects its net financial position on behalf of the IESO-administered markets at year-end.

This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's annual report which was published online in March 2017.

Further, this accounting is consistent with the presentation used previously by the Ontario Power Authority (which was merged with the IESO on January 1, 2015) in its financial statements, which was not subject to qualification from the Office of the Auditor General at that time.

This change has no impact to the Province's annual deficit, net debt or accumulated deficit.

This accounting change has been supported by the professional accounting staff of the Office of the Provincial Controller.

We will continue to work with the Auditor General to build on the government's track record of responsible fiscal management and high quality financial reporting.

*On rate-regulated accounting:*

The IESO made the decision to adopt rate-regulated accounting because it better reflects the economic substance of certain types of expenses that may not be directly recovered through the normal revenue requirement model.

The IESO, like Hydro One and Ontario Power Generation (OPG), is regulated by the Ontario Energy Board. The IESO adopted rate-regulated accounting for its year ended December 31, 2016.
This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's annual report which was published online in March 2017.

## Rate-regulated Accounting

**17. Why use rate-regulated accounting? What is its benefit?**

In certain circumstances, an organization may be required to incur a large expenditure that will be recovered from ratepayers in the future.

For example, damage caused by an ice storm that results in extraordinary costs to restore a disruption of electricity services for customers. Such costs are subject to application and approval for recovery by the regulator over a specific time period.

DRAFT

What rate-regulated accounting does is it allows organizations to recognize those costs, which can be significant within a year but will generate benefits over time, to be matched over the same period that the amounts are recovered from ratepayers.

**18. The Auditor General says that the Independent Electricity System Operator's decision to adopt rate-regulated accounting was a deviation from Public Sector Accounting Standards, and cautioned against its use in her Independent Auditor's Report. Why was this change made and was it appropriate?**

Canadian Public Sector Accounting Standards (PSAS) are effectively silent on this issue – they neither explicitly permit, nor prohibit, the recognition, measurement, presentation, or disclosure of rate-regulated activities.

In the absence of a clear position on an issue, standard accounting practice dictates that an entity should consult other accounting standards.

Paragraph 11 of the *Introduction to Public Sector Accounting Standards* ("Introduction") states: "When applying the CPA Canadian Public Sector Accounting (PSA) Handbook, where the standards are silent on an issue, public sector entities should apply Generally Accepted Accounting Principles (GAAP), Section PS 1150."

In this case, the Independent Electricity System Operator (IESO) consulted U.S. Generally Accepted Accounting Principles (GAAP), the appropriate accounting framework in North America that provides guidance on rate-regulated operations.

The IESO made the decision to adopt rate-regulated accounting because it better reflects the economic substance of certain types of expenses that may not be directly recovered through the normal revenue requirement model.

The IESO, like Hydro One and Ontario Power Generation (OPG), is regulated by the Ontario Energy Board. The IESO adopted rate-regulated accounting for its year ended December 31, 2016.
This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's annual report which was published online in March 2017.

It is worth noting that currently 8 out of 9 electricity system operators in North American markets employ accounting for rate-regulated assets, including the IESO.

**19. The Auditor General says that the use of rate-regulated accounting is inappropriate for the Independent Electricity System Operator and the Ontario Energy Board according to U.S. Generally Accepted Accounting Principles. How do you respond?**

In commenting on the use of rate-regulated accounting and the role of the Ontario Energy Board (OEB), the Auditor General's report makes reference to a requirement under U.S. accounting standards in connection with the use of rate-regulated accounting that "there must an independent regulator." This reference is misleading as it does not provide the criteria in its entirety, which is as follows:

> *"The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator* ***or by its own governing board empowered by statute or contract to establish rates that bind customers"*** *[ASC 980-10-15-2].*

The U.S. accounting standard was developed specifically to not preclude the application of rate-regulated accounting by government utilities where the rate regulator would not necessarily be viewed as independent (FAS 71, par. 64).

In addition, the position that rate-regulated accounting is precluded because the OEB is not considered independent of the government of Ontario is contradictory to accepting the use of rate-regulated accounting by Ontario Power Generation (OPG) and Hydro One – both of which are regulated by the OEB and whose results, using rate-regulated accounting, are and have been included in the consolidated financial statements of the Province.

*IESO Response:*

Canadian Public Sector Accounting Standards (PSAS) are effectively silent on this issue – they neither explicitly permit, nor prohibit, the recognition, measurement, presentation, or disclosure of rate-regulated activities.

In the absence of a clear position on an issue, standard accounting practice dictates that an entity should consult other accounting standards.

In this case, the Independent Electricity System Operator (IESO) consulted U.S. Generally Accepted Accounting Principles (GAAP), the appropriate accounting framework in North America that provides guidance on rate-regulated operations.

## Legislated Accounting

**20. The Auditor General says that you are essentially making up your own accounting rules. How are Ontarians supposed to believe things like a "balanced budget" when you keep changing the rules?**

DRAFT

The *Ontario Fair Hydro Plan Act, 2017* and its related regulations **do not** create accounting rules or legislate the accounting. This is a fundamental disagreement the government has with the Auditor General's report.

The OFHP operates under a financial and accounting framework that is appropriate for its intended purpose. It is in accordance with Public Sector Accounting Standards (PSAS) and ensures the goals underlying the program are achieved in a cost-effective manner.

The Province, as always, will prepare its consolidated financial statements in accordance with Public Sector Accounting Standards (PSAS). The recording of any asset resulting from transactions of OFHP will be assessed for recognition and measurement based on PSAS, and where appropriate, other accounting guidance where PSAS is silent on the issue.

**21. The Auditor General says that the Province legislated accounting through the Ontario Fair Hydro Plan Act, which is not allowed according to Public Sector Accounting Standards. Is this true?**

The *Ontario Fair Hydro Plan Act, 2017* and its related regulations **do not** create accounting rules or legislate the accounting. This is a fundamental disagreement the government has with the Auditor General's report.

The Province, as always, will prepare its consolidated financial statements in accordance with Public Sector Accounting Standards (PSAS).

As PSAS is set by an independent standard-setting body in Canada focused specifically on the public sector, and because PSAS is used by all senior governments in Canada, presenting financial statements in accordance with PSAS results in transparent financial reporting for the Province of Ontario.

PSAS are principle based – they are not a set of specific prescriptive rules. Applying them requires the application of professional judgment.

Our professional staff exercises judgment in applying the standards and as necessary consult with external experts and advisors. They provide the Office of the Auditor General with their written analysis on all significant issues that impact the financial statements for the year being audited, and they discuss the issues with the Office of the Auditor General.

The role of the Ontario Energy Board (OEB) and its mandate is provided in legislation. It is not uncommon for government policy, through regulations, to provide the ground rules over which the OEB is to preside.

This is the case with Ontario's Fair Hydro Plan (OFHP) itself, as the Act and the various regulations provide the direction and processes over which the OEB is to exercise oversight, review, and make conclusion on submissions brought forward.

## Relationship with the Office of the Auditor General

**22. The Auditor General alleges the government withheld information from her on the accounting treatment for Ontario's Fair Hydro Plan. Why would she say that?**

The government is committed to assisting the Office of the Auditor General so that it can provide its independent views to the Legislative Assembly.

The implementation of Ontario's Fair Hydro Plan is ongoing, with significant accounting and financial decisions still being finalized.

Senior ministry officials have met and continue to work with the Office of the Auditor General by participating in interviews and providing documentation.

*If pressed:*

The Auditor General was informed throughout the course of this process. Program area to add details (i.e. number of meetings, documents, etc.)

*If asked about the Ministry of Energy emails:*

The Ministry of Energy, Finance, and the Treasury Board Secretariat are committed to assisting the Auditor General. For questions related to the Ministry of Energy, please contact them directly.

## Future Governments

**23. The Auditor General says that you are essentially handcuffing future governments with your financing structure. Why should future governments have to pay for your decisions?**

By responsibly managing the Province's finances, Ontario balanced the budget in 2017-18, and will maintain a balanced budget for the future.

With a growing economy and a balanced budget, this is the time to make investments in key services that matter most to people, like health care and education, while at the same time lowering costs for necessities like electricity and child care.

Over the last decade, ~~the~~ government policies ha~~ve~~s supported rebuildin~~g our~~the electricity transmission and distribution grid, invested in clean generation,

**Commented [RK6]:** Suggested rewording here and below, as these investments were not all made by the government itself or by its agencies.

and closed the last coal-fired power plant. Prices have increased because our electricity system is being transformed – ~~more than~~nearly $~~5~~70 billion has been invested to modernize the system.

Commented [RK7]: To reflect the change in the basis of this number, as per Energy Qs&As, to include MEU investments in the distribution grid.

The government heard from people across the ~~P~~province that the price of electricity had risen too quickly, which is why Ontario's Fair Hydro Plan (OFHP) will ensure costs are shared more fairly over the years ahead.

~~As~~ The Ontario electricity sector invested in renewing ~~our~~the provincial electricity system, ~~the government invested~~ including many new generating facilities, most of which operate under 20-year contracts. Some of these generating facilities~~ors~~ are expected to provide value to the electricity system beyond their contract lives. There is an opportunity to recognize the long-term benefit of these assets to the electricity system and "bring forward" that benefit for ratepayers today by deferring some of the current costs.

To relieve the current burden on ratepayers and share costs more fairly, a portion of the Global Adjustment (GA) is being refinanced. Refinancing the GA is providing significant and immediate rate relief by spreading the cost of electricity investments over the expected lifecycle of the infrastructure that has been built.

In the early years, a portion of the costs covered by the GA is being refinanced to reduce pressure on today's electricity ratepayers. In later years, the cost of refinancing will be recovered from ratepayers.

OFHP is delivering the single-largest reduction in electricity rates in the Province's history. In developing OFHP, the government considered a range of implementation options and consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed.

OFHP operates under a financial and accounting framework that is appropriate for the intended purpose and ensures the goals underlying the program are achieved in a cost-effective manner.

The government recognizes that a fiscally sound approach to managing the Province's finances will provide the foundation for the long-term well-being and prosperity of Ontarians, and protect the public services that Ontarians rely on.

For further questions related to Ontario's Fair Hydro Plan, please contact the Ministry of Energy.

**24. Q re: Loss of Public Trust**

## Asset Sales

**25. Will you buy back Hydro One so that it is back under public control?**

Maximizing the value of designated assets is part of the government's economic plan for Ontario. The net revenue gains from these transactions are helping the government to deliver on its plan by investing in infrastructure.

The *Trillium Trust Act, 2014*, provides for the dedication to the Trillium Trust of net revenue gains associated with the sale of designated assets to support investments in transit, transportation and other priority infrastructure across the province.

The Province has also committed to using the cash amount of the proceeds related to the book value of the Hydro One shares sold to pay down the Province's electricity sector debt and other payables, helping to reduce the debt of the Ontario Electricity Financial Corporation ("OEFC"), which manages and pays down the debt and other liabilities of the former Ontario Hydro.

The government is meeting its target to generate $4 billion in net revenue gains to be invested in transit and infrastructure, along with $5 billion to reduce debt, from broadening Hydro One's ownership.

The government has completed its final public offering of Hydro One shares and will remain, by law, the largest single shareholder in Hydro One. The Province is prohibited by law from selling down its ownership to less than 40 per cent of the voting securities in Hydro One, and no other single shareholder or group of shareholders working in concert is permitted to hold more than 10 per cent of the company's shares.

[For questions related to the Province's asset ~~sales~~optimisation initiative ~~planning~~, please direct your questions to the Ministry of Finance.]

**26. What else will you sell just so that you can "balance the budget"?**

The government has restored balance through targeted, measured and fiscally responsible decisions — managing growth in program spending and fostering job creation and economic growth.

A balanced budget also gives the government the fiscal flexibility to do more to help people. This is the time to make investments in key services that matter

**Formatted:** Font: Italic

**Commented [RK8]:** Suggest discouraging this kind of response. Other parts of this Q&A set typically provide at least a top line, active response on the government's policies, such as those on the electricity sector, including the FHP. It would be better not to have an immediate redirect here.

DRAFT

most to people, like health care and education, while at the same time lowering costs for necessities like electricity and child care.

The government is committed to dedicate net revenue gains from the sale of designated assets to the Trillium Trust, which is helping to fund transit, transportation and other key infrastructure projects across Ontario.

[For any questions related to the Province's asset optimisation initiative ~~sales planning~~, please direct your questions to the Ministry of Finance.]

**Commented [RK9]:** Preference would be to omit this altogether. The preceding paragraph is a better response.

## Government Advertising

**27. How can you justify spending $5.5 million on self-congratulatory advertising for Ontario's Fair Hydro Plan?**

The government continues to communicate useful, factual information to the public while maintaining Ontario's status as a national and international leader in government advertising oversight.

Ontario is the first and only jurisdiction in Canada to have legislation that bans government-paid partisan advertising in newspapers, magazines, billboards, radio, and television.

Ontario needs government advertising that is appropriate, reasonable and effective because the public has a right to know how public money is being spent, and why the government is bringing forward important policy changes.

At this time, I would like to clarify that the Treasury Board Secretariat is *not* responsible for individual line ministry advertising campaigns, and does not determine how much funding is allocated to any campaign.

For further questions about specific advertisements or advertising campaigns related to Ontario's Fair Hydro Plan, please contact the Ministry of Energy.

***28. Placeholder: Q regarding Advertising Standards Council***

## Executive Compensation

**29. How can you justify the exorbitant salaries paid to Hydro One executives when families are struggling to pay their hydro bills?**

The government remains committed to ensuring transparency and accountability in how broader public sector employers manage executive compensation.

DRAFT

However, Hydro One is now a publicly traded company, and decisions regarding compensation are not made directly by the government.

For further questions about executive compensation and oversight of specific organizations, please contact the Ministry responsible.

Hi Anna,
FYI. Energy asked us to review a Q&A, which we reviewed and revised somewhat as below. It was a short turn-around requested by Hilary, but perhaps we could send additional edits.

> **Q and A – Electricity Sector Debt**
>
> **Q. Has electricity sector debt always been a ratepayer obligation?**
>
> The debt associated with the former Ontario Hydro is managed by its legal continuation, the Ontario Electricity Financial Corporation ("OEFC"), which is an agency of the Ministry of Finance. The OEFC is not an Ontario Energy Board regulated entity. OEFC is consolidated into the Province's Public Accounts, including its debt and other liabilities, assets, as well as its revenues and expenses, including the debt retirement charge (DRC) and interest expenses.

Prior to its restructuring, the debt of the former Ontario Hydro was also fully guaranteed by the Province.

While the former Ontario Hydro, as a rate-regulated entity, was able to service and pay down its debt and other liabilities from the electricity sector, on April 1, 1999, the former Ontario Hydro was restructured. As of that date, the Ministry of Finance determined that the estimated value of the assets of the former Ontario Hydro in a commercial and competitive electricity sector, was $17.2 billion, which was exceeded by total debt and other liabilities of $38.1 billion. The resulting shortfall of $20.9 billion was determined by the Ministry of Finance to be “stranded debt.”

To allow OEFC to service and retire $38.1 billion in total debt including the $20.9 billion in stranded debt, the Province established a long-term plan where debt service and repayment would be through dedicated revenues from the electricity-sector. This would be broken down for the electricity sector as follows:

- Notes receivable from the Province, OPG, Hydro One and IESO;
- Payments in lieu of taxes (PILs), which are equivalent to the corporate taxes and property taxes paid by private sector corporations, paid by OPG and municipal electricity utilities (**note**: subsequent to the Hydro One IPO, Hydro One no longer pays PIL of corporate income tax to OEFC. Provincial corporate taxes payable by Hydro One Inc. are due and payable by the Province to OEFC);
- DRC paid by electricity consumers; and
- The cumulative combined profits of OPG and Hydro One in excess of the government’s annual interest cost (initially $520 million annually) of its investments in the two companies.

As of April 1, 1999, the present value of the PILs and the cumulative combined profits of OPG and Hydro One in excess of the government’s $520 million annual interest cost of its investments in the two companies was estimated at $13.1 billion. As a result, subtracting the $13.1 billion from the stranded debt of $20.9 billion resulted in an initial estimate of $7.8 billion, for the residual stranded debt. As the amounts of PILs and profits is subject to actual results and uncertainty of future financial performance of the companies and future tax rates, the Electricity Act provided for the residual stranded debt to be determined from time to time.

Legislation provided for the DRC to be paid by electricity consumers until the residual stranded debt was retired.

The DRC has since been ended for residential users as of January

1, 2016, and the government has amended the Electricity Act to provide certainty to all other electricity users to end the DRC as of April 1, 2018.

**Subject: FW: MO fact check**

Hi Ron –
Our MO has asked for a QA on whether electricity debt has always resided in the electricity system or if it's ever been within the tax base. Staff have prepared the attached to respond to that request. Please review/fact check and send back to me ASAP for use today.
Hilary

**Q and A – Electricity Sector Debt**

**Q. Has electricity sector debt always been a ratepayer obligation?**

The debt associated with the former Ontario Hydro is managed by its legal continuation, the Ontario Electricity Financial Corporation ("OEFC"), which is an agency of the Ministry of Finance. ~~The OEFC is not an Ontario Energy Board regulated entity and is .~~ OEFC is consolidated into the Province's Public Accounts, including its debt and other liabilities, assets, as well as its revenues and expenses, including the debt retirement charge (DRC) and interest expenses. Prior to its restructuring, the debt of the former Ontario Hydro was also fully guaranteed by the Province. The OEFC is not an Ontario Energy Board regulated entity.

While the former Ontario Hydro, as a rate-regulated entity, was able to service and pay down its debt and other liabilities from the electricity sector, on April 1, 1999, the former Ontario Hydro was restructured. As of that date, the Ministry of Finance determined that the estimated value of the assets of the former Ontario Hydro in a commercial and competitive electricity sector, was $17.2 billion, which was exceeded by total debt and other liabilities of $38.1 billion. The resulting shortfall of $20.9 billion was determined by the Ministry of Finance to be "stranded debt" under the Electricity Act, 1998.~~"~~

To allow OEFC to service and retire $38.1 billion in total debt, including the $20.9 billion in stranded debt, the Province established a long-term plan where debt service and repayment would continue to be the responsibility of ratepayers and be serviced ~~be~~ through dedicated revenues from the electricity-sector, including:~~. This would be broken down for the electricity sector as follows:~~

- Notes receivable from the Province, OPG, Hydro One and IESO;
- Payments in lieu of taxes (PILs), which are equivalent to the corporate taxes and property taxes paid by private sector corporations, paid by OPG and municipal electricity utilities (note: subsequent to the Hydro One IPO, Hydro One no longer pays PIL of corporate income tax to OEFC. Provincial corporate taxes payable by Hydro One Inc. are due and payable by the Province to OEFC);
- DRC paid by electricity consumers; and
- The cumulative combined profits of OPG and Hydro One in excess of the government's annual interest cost (initially $520 million annually) of its investments in the two companies.

As of April 1, 1999, the present value of the PILs and the cumulative combined profits of OPG and Hydro One in excess of the government's $520 million annual interest cost of its investments in the two companies was estimated at $13.1 billion. As a result, subtracting the $13.1 billion from the stranded debt of $20.9 billion resulted in an initial estimate of $7.8 billion, for the residual stranded debt. As the amounts of PILs and profits is subject to actual results and uncertainty of future financial performance of the companies and future tax rates, the Electricity Act provided for the residual stranded

**Commented [RK1]:** Need to leave this in, as the preceding paragraph refers to servicing the full $38.1 bn – i.e., the supportable debt of $17.2 bn too.

**Commented [KK2]:** Given that the term residual stranded debt has been eliminated by legislation this para my cause confusion.

**Commented [RK3R2]:** Most of it is from Energy's draft, and ties to the DRC, so I'd leave it in – and particularly if progress wants to be illustrated with the figure below of $3.2 billion.

debt to be determined from time to time, and the Act. provided for the DRC to be paid by electricity consumers until the residual stranded debt was retired.

Over time the Ggovernment's long-term plan has made steady progress in paying down the stranded debt, with thirteen consecutive years of reduction since March 31, 2004, to the point that the OEFC's net unfunded liability ("stranded debt") at the end of the 2016-17 fiscal year amounted to $3.2 billion. In lightthe context of this progress, the Legislation provided for the DRC to be paid by electricity consumers until the residual stranded debt was retired.

Commented [RK4]: Not specific to the elected government.

Tthe governmentDRC has since been ended the DRC for residential users as of January 1, 2016, and the government has amended the *Electricity Act* to end the DRC as of April 1, 2018, to providing electricity cost relief ande certainty to all other electricity users to end the DRC as of April 1, 2018.

Hi all,

There is an important meeting this morning at 10 a.m. to discuss OPG's comments on the current version of the term sheet as they have conveyed that this version does not meet their accounting needs. We have been advised that this issue must be resolved this morning so you are all being asked to be on this call. (as well as any Energy clients that should be on the call).

So I hope that you can make it!

Thank you.

Subject: Meeting for Monday -3:00 at OFA

Hi Scott:
OPG has asked for a meeting to follow up on the support discussion late last week. John Lee would like to elaborate on the term sheet to get something he can take to E&Y and after that take to his Board. A meeting has been hastily set up for Monday by OPG at 3:00 at the OFA and you may have been missed, although I'm sure we'd have got to you on Monday. It would be great if you could attend or call in. As you know, the time line is getting short and your participation would be very helpful. Lawyers from both sides will be attending and hoping we can make some good progress.
Regards, Mike

Hi Gadi,

We worked on a mark-up, and got some accounting points from Mark as well that we have included in the attached, with a few suggested markups to the accounting bullets from OPCD. We shared those with Mark so this is a draft pending OPCD feedback, which we could incorporate along with yours.

Ron

Ontario

MINISTRY OF
ENERGY

# Grid-Connection of Remote First Nations: Federal Cost-Sharing

Ministry of Energy

# Background: Remote First Nation Communities

- Twenty-five remote First Nation communities in Northwestern Ontario rely on local diesel generation, which is subsidized by the federal government and by Ontario ratepayers.
- **16 Communities** are part of a proposed connection project by Wataynikaneyap Power (Watay).
- **Pikangikum** is being connected on an accelerated timeline by Watay and federal capital cost contribution was announced August 17.
- **5 Communities** (remote Matawa FNs) could be economical to connect but are not currently part of the Watay partnership. IESO has a Matawa-focused working group to assist these communities in determining their path forward.
- **4 Communities** are uneconomic to connect to the provincial grid and other approaches such as renewables/ microgrids will be used to reduce diesel.

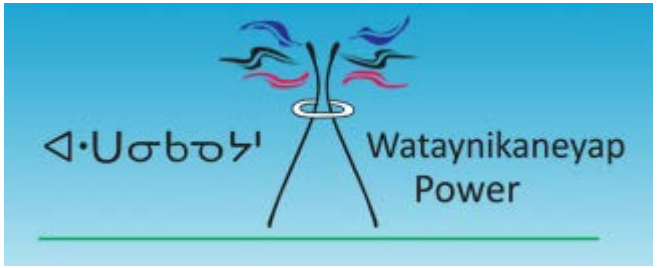
# Electricity in Remote First Nations

- Combined on-reserve population: **15,000 and growing**
- Total Peak Load: 18 MW, forecast to grow to ~85MW over the next 40 years
- Current annual diesel consumption: approximately 30 million litres
- Emissions from diesel generation over 40 years >6MT of GHG equivalent
- In a 2014 study by the Independent Electricity System Operator, grid connection was found to be the most certain and cost effective electricity supply option for most of the remote communities.
- Costs for electricity service in remote First Nation communities are a shared responsibility between Ontario and the federal government, as defined in historic agreements.
- Remote communities are either served by Hydro One Remote Communities Inc. (RemoteCo) or locally-owned Independent Power Authorities (IPAs).
    - RemoteCo: regulated by the Ontario Energy Board (OEB), serves 15 First Nation communities, and receives the Rural or Remote Rate Protection (RRRP) subsidy from Ontario ratepayers, in addition to federal subsidies.
    - IPAs: not regulated by the OEB, operate in 10 communities, and do not receive RRRP. IPAs receive subsidies from Indigenous and Northern Affairs Canada (INAC) and other federal departments.
- Upgrades to diesel generators are a federal responsibility.

# Challenges of Diesel Generation

- Electricity demand in many communities is nearing the capacity of current generators. The wait for generator upgrades results in load restrictions that prevent new houses, businesses, infrastructure from being connected.
- Aging generators have also led to poor reliability in some communities. In a remote northern context, outages create significant impacts on community members.
- Diesel generation is the highest cost generation in Ontario, primarily due to fuel costs. Fuel delivery costs are high; diesel is transported to the communities either by winter road or by air.
- There are a number of environmental issues with diesel including spills, ground contamination, air emissions (both local pollutants and GHGs) and noise.

# Wataynikaneyap Power Proposal



- Wataynikaneyap Power (Watay) is a 51%/49% partnership between 22 First Nations and FortisOntario that is proposing to undertake the connection of 16 remote communities. Many of Watay's partners are the remote communities that will be connected.
- Watay has completed significant development work, including on two main regulatory approvals:
  - **Environmental Assessment:** Watay has completed a terms of reference and a draft EA for Phase 1 of its project. Work on Phase 2 is under way.
  - **Ontario Energy Board:** Watay has obtained a transmitter license from the OEB. Watay is preparing to file a Leave to Construct application in late Fall 2017.

# Ontario's Actions to Advance Connection

- Ontario has long identified the importance of grid connection and has taken steps to advance this transformative initiative.
- The 2010 Long Term Energy Plan asked the OPA (now IESO) to develop a plan to grid-connect remote communities.
- The 2014 IESO study confirmed that 21 remote communities can be grid-connected with a positive business case over diesel generation. In the 2013 Long Term Energy Plan, remotes connection was named a priority project.
- In summer 2016, Cabinet passed policy and funding tools, including:
    - an Order-in-Council to declare the project a priority to expedite OEB approval,
    - designation of Wataynikaneyap Power as the transmitter for the project, and
    - regulatory amendments to provide a funding mechanism for Ontario's share of costs.
- Ontario and Canada have been in discussions regarding a cost-sharing arrangement to support grid connection since 2013.
- The connection of Pikangikum was identified as an early win and $60.2M in federal capital cost contribution was announced August 17, 2017.

# Progress on Negotiation

- There was a significant bilateral effort in late 2016 to draft the principles of an agreement and the creation of a federal business case that could support a contribution of $1 billion for connection of 21 communities.
- The 2017 federal budget did not include a commitment to the project.
- Since the budget, lead negotiation advisors have been established (Alan Hibben, ON; Tim Duncanson, CAN).
- ENERGY has built a team (including IESO and other key ministries) to undertake cost modeling to support Alan in concluding a negotiation in the short term.
    - The cost model quantifies risk and allows for calculation of the probability of cost outcomes to the federal government and Ontario ratepayers under different scenarios.
    - The model reflects a federal request to support the project through an ongoing payment stream rather than any commitment which would immediately expand their deficit.
    - Ontario's objective was to ensure that it was highly likely that Ontario ratepayers were not worse off after the project completion.

# Watay Cost Estimates

- Ontario, Canada and Watay entered into a Non-Disclosure Agreement to allow for sharing of project costs.
- As Watay has continued to develop the project, it has brought forward higher cost estimates than those used by IESO in its 2014 study. Watay's own numbers have also increased over time as follows:

| | 2014 IESO Draft Community Connection Plan | Watay's Financial Feasibility Study (by PwC, June 2015) | Current Watay cost information (Summer 2017) |
|---|---|---|---|
| **Capital Costs** for Phase 1+ Phase 2 including Pikangikum (in $M, 2017) | $1,063 (estimate did not include contingency), at 20% contingency: $1,276 | $1,196 (did not specify a contingency), at 20% contingency: $1,436 | $1,290 (not including contingency), including 20% contingency: $1,549 |

- Operating costs (OM&A) and sustaining capital have been proposed by Watay and while the approach to timing of costs differs from that used by IESO, the scale of costs is similar.
- Canada has raised concerns about Watay ability to control costs.
- However, the evolution of estimates may reflect more detailed information gathered through the Environmental Assessment work completed and information from seeking pricing from suppliers/contractors.
- Watay has been transparent about its view of the uncertainty of costs implied in its planning estimates

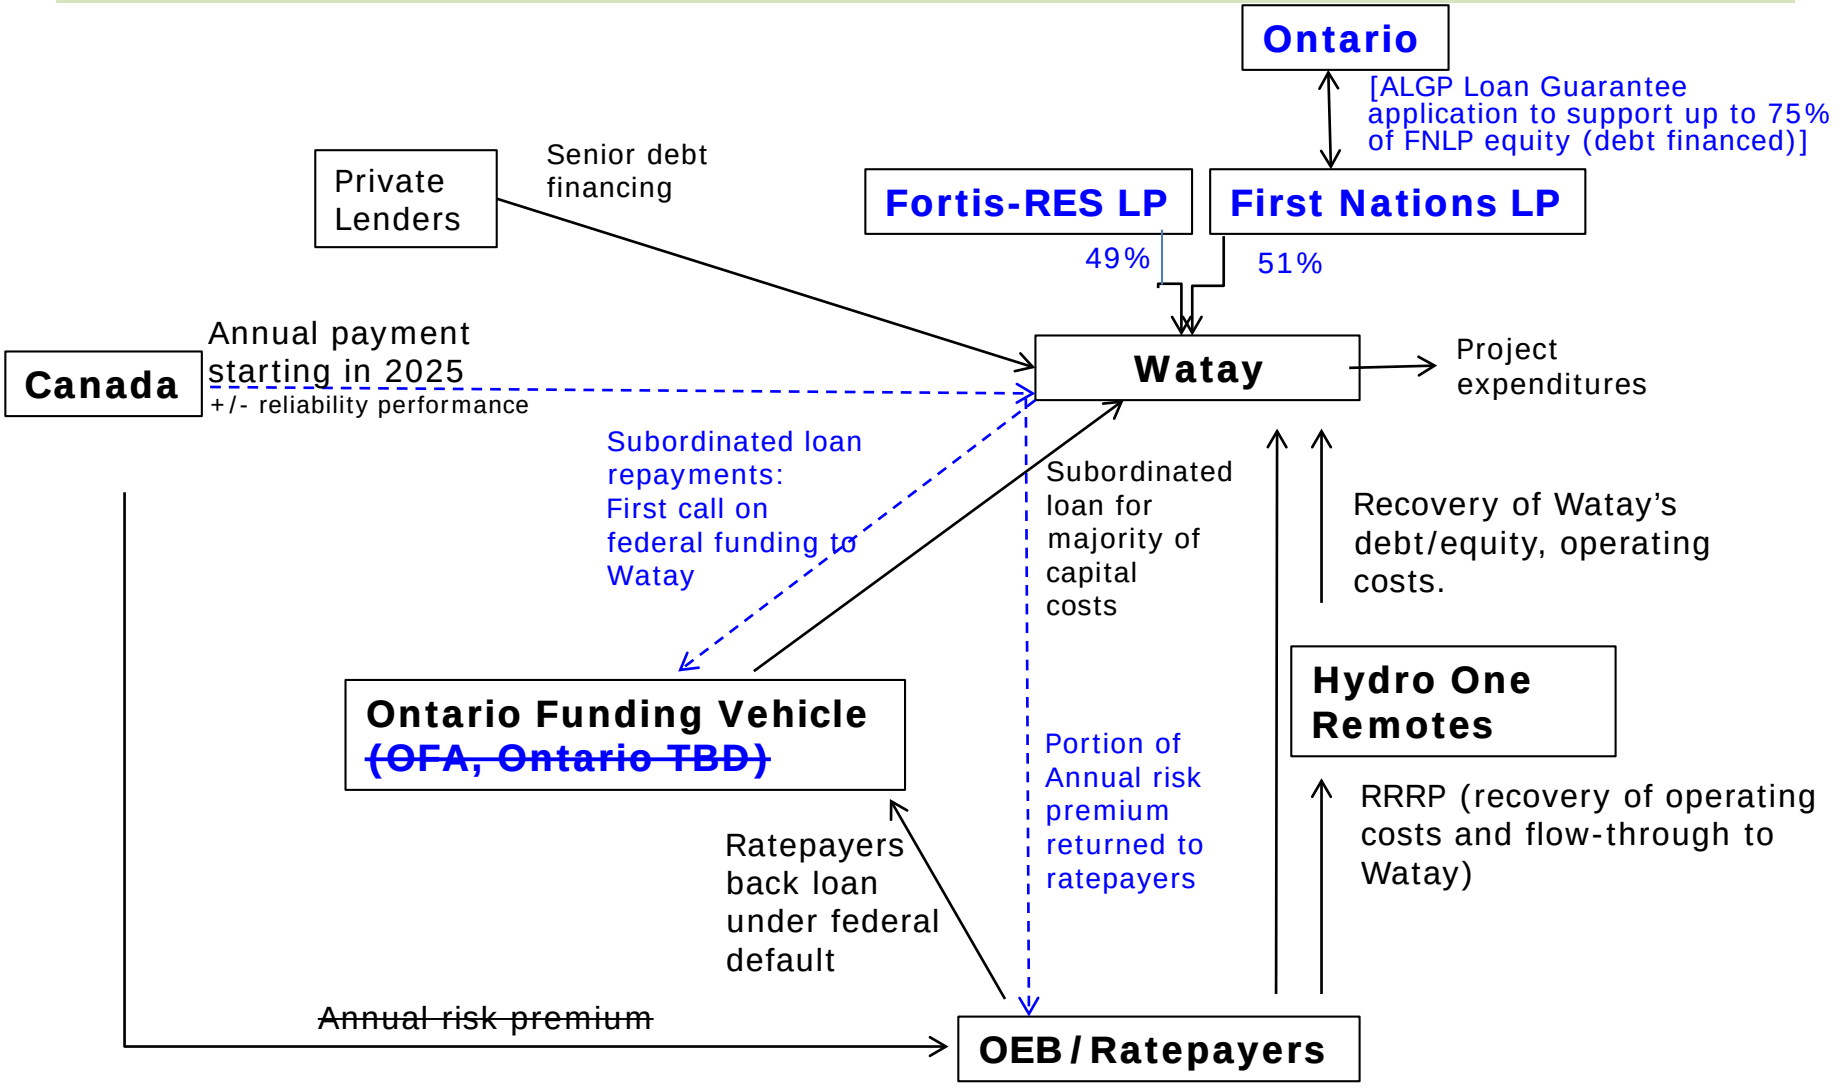
# Overview of Proposed Funding Mechanism

- Canada is interested in a funding arrangement where an annual payment, subject to budget appropriation, is provided to [Watay?] ~~Ontario~~ towards grid connection.
- [Watay] ~~Ontario~~ would then use this payment stream to finance a significant amount of the capital for the project – a loan to be provided by Ontario to Watay.
- To do this, Ontario would create a funding vehicle for loaning to Watay on the basis of the federal funds, with recourse to the ratebase.
- With the federal payment "subject to annual appropriation" there is a significant political risk of a future decision to discontinue payment.
- The payment stream would therefore contain a premium above Ontario's borrowing costs that would flow to both Ontario and to the ratebase to account for the risk of discontinued federal funding.
- [In the event of discontinued federal funding(?),] Ontario's share of project costs would then be recovered through the Rural or Remote Rate Protection (RRRP) subsidy. This could include a mix of capital and operating costs.
- The payment stream amount would be negotiated so that Ontario ratepayers have a strong probability of not being disadvantaged by grid connection in comparison to the status quo.

<u>What this achieves:</u>

- This approach reduces the equity position of Watay and the associated return on equity collected from Ontario ratepayers.
- In the absence of this structure, it is unlikely that Canada would be able to justify the required subsidy payment stream.
- Both levels of government avoid the requirement to include the project as a budget liability **[TBD: Accounting analysis/advice from OPCD pending].**

# Overview of Proposed Funding Mechanism



# Accounting and Financing Considerations

Accounting

- An assessment for a requirement to record a provision against the loan based on an assessment of default would be required based on the estimated recoverable value
  - A valuation allowance is reported in the operating surplus/deficit in a year based on an annual review of collectability or risk of loss using the best estimate of known circumstances, including economic conditions, financial performance or expected forgiveness
  - Assumptions regarding an approved or proposed mechanism for recourse to electricity ratepayers in the event of the loss of federal contributions to Watay would be a further valuation consideration/risk requiring assessment
- Additional financial exposure related to guarantees provided under the Aboriginal Loan Guarantee Program with respect to this project will need to be considered in assessing the overall provision for the loan
  - To-date, based on the Treasury Board approved parameters for the ALGP and the due diligence for the existing approved loan guarantees, no provisions have been taken.
- The reporting to reflect a sharing of credit for a risk rate premium with ratepayers is a concept that requires further discussion re: reporting conditions permitted under PSAS based on the final term structure
  - Interest revenue from the loan would be recognized by the Province in the Statement of Operations when earned (i.e. annually) based on the terms of the agreement (ref: PS3050.43)
  - A potential mechanism would be for Energy to get approval for an appropriation for an equivalent amount to the share of the rate premium notionally allocated for the benefit of ratepayers, to be flowed through, e.g., the RRRP.
- The issuance of the loan will increase the province's total debt, but net debt will be unaffected (balanced off by loan receivable) to the extent that no valuation allowance is required
- Any significant concessionary terms contained in a final agreement, or provincial contributions used to facilitate repayment of the loan, would be recognized as a fiscal expense when the transaction occurs

Financing

- The interest rate on an Ontario loan to Watay would have to reflect the associated commercial cost / risk associated with the entity and loan structure.
  - This would include looking at various risk premia (e.g., timing mismatch, amortising structure, cash flow volatility).
  - OFA staff preliminary analysis for a 40 year term loan estimates an Ontario interest rate of approximately 3.95%, before taking into account the muti-year, long-term federal appropriations risk.
  - For example, a 4.70% discount rate would, therefore, provide a premium of approximately 75 basis points ("bps" or 0.75 percentage points) over Ontario's required interest rate for such a loan. A portion of this premium could be shared with ratepayers.
  - The actual Ontario interest rate and additional risk premium would have to be reviewed based on a final loan structure and actual market conditions at the time.

# Negotiating Proposal

- Assumes Watay capital cost of $1,661M (nominal, includes 20% contingency)
- IESO financial model has been used to generate values in the table below so there is an 85% probability of no loss to ratepayers over the life of the project.
- A federal appropriations risk premium of 75 ~~150~~ bps over Province's 40 year cost of funds ~~(or 120bps over Province's 10 year cost of funds)~~ embodied in rates would be split evenly between Ontario ~~(OFA, other vehicle)~~ and ratepayers.
  - Were the federal government to cease payments, the responsibility of loan repayment would ultimately fall to the Ontario rate base. Consequently ratepayers should be compensated for assuming this risk.
  - Mechanism for offsetting rates, e.g., through RRRP, to be determined.

| | Payment in 2025 as % of Watay Capital Cost (Including Pikangikum) in Nominal Dollars | Discount Rate Including Ontario Premium | Value in Base Case (Watay estimate including 20% contingency, $1,661M nominal) | | |
|---|---|---|---|---|---|
| | | | 2025 Payment (Nominal) | NPV of Funding Stream ($2017) | Total Contributed Capital (nominal) |
| **40 - year escalating payment (2%) beginning year 8 (2025-2064)** | 3.40% | 4.70% | $56.6M | $941M | $1,156M |
| **10 - year escalating payment (2%) beginning year 8 (2025-2034)** | 9.55% | 3.76% | $158.9M | $1,057M | $1,240M |

# Comparison of Ontario and Canada Positions

- At the August 30, 2017, meeting with the federal team, Ontario was presented with Canada's view of assumptions for future avoided costs.
- Ontario does not support a number of the assumptions used by Canada, such as the view that there will be no long term growth in energy demand for communities 10 years post-connection. These differences may be related to the federal approach to negotiation.
- However, Canada's value of avoided costs is in the ballpark of Ontario's needs if a discount rate of 4.7% is applied to future costs.
- Federal avoided costs can be represented as a 40-year annual payment of approximately $55M [nominal?], starting in 2025, escalating at 2% per year [nominal?].
- This compares well with the 85% risk threshold for Ontario of a $56.6M starting payment.
- Once a federal payment amount is negotiated, other terms related to cost responsibility such as for diesel backup and updating distribution infrastructure will also require negotiation.
- Alan has already socialized numbers well above these levels to get Canada thinking.

# Related Ontario Support and Approvals: Aboriginal Loan Guarantee Program

- The Aboriginal Loan Guarantee Program (ALGP) is an application-based, discretionary program. Implemented by the OFA, significant due diligence is required to ensure the low likelihood of a call on the loan guarantee, justifying no provision and fiscal impact, consistent with Treasury Board approval of the parameters of the program.

- The First Nations equity holder in the project (First Nations Limited Partnership– FNLP) has applied for a Provincial guarantee under ALGP to cover the debt financing for a portion of its equity investment.
  - This amount is anticipated to be affected by the federal contribution amount.
  - This Provincial guarantee could potentially guarantee approximately 75% of the First Nation's equity, resulting in the Provincial government being at risk for a significant amount of capital in the project, via both the proponents' debt and equity financings.

- Treasury Board approval will be sought for exceptions from ALGP parameters, including the $50 million maximum per project limit.
  - This is justifiable in this case given the number of First Nations involved and communities potentially benefitting from this large scale project.

- Treasury Board approval for an increase to the overall ALGP program envelope may also be sought, as needed, to accommodate this application (in the context of other applications to be met by the envelope).

# Next Steps

1. Determination from TBS/OFA on the viability of the proposed funding mechanism.
2. Presentation of proposal to Canada. Focused negotiation on amounts and contractual terms.
3. With an agreement-in-principle, Ontario and Canada to present opportunity to Watay. Subsequent negotiation with Watay as needed.
4. ON and Canada to obtain all required approvals, potentially aligned with FES
5. [OFA to continue due diligence on the FNLP ALGP application and seek required approvals (Treasury Board, OIC, Minister of Finance)]
6. Announcement of funding. Watay to submit Leave to Construct application.

OPG is saying that the support agreement as written doesn't meet their accounting needs. This needs to be resolved this morning, and hopefully in a manner that doesn't affect what the Minister of Energy signed off yesterday, as he is now gone. Please arrange a meeting for this morning, ideally around 10 because it must end before 11 when I have to leave for a meeting that I can't miss.

**Subject:** FW: OFA/Energy MOU - Follow up from Nov 9 meeting

Hi Ken and Mike,

Last week, we attended a meeting with Energy and OPG to discuss the Master Subscription Agreement for the equity injection process. Ken Russell drafted a MOU between OFA and Energy before about making the equity injection payments on Energy's behalf. Also, Ken R. drafted a FAA section 11.4 certificate form as well. After the meeting, Ken R. has updated both document, see attached, based on the discussion.

Could you please kindly review and let us know if you have any comments/concerns by **noon tomorrow, Wednesday, November 15th, 2017**? In addition, could you please review and confirm questions 2&3 from Energy in below email?

Please let me know if you would like to discuss this in person, and we can set up a brief meeting. Thanks in advance for your cooperation.

Thanks,
Gavin He

**Subject:** OFA/Energy MOU - Follow up from Nov 9 meeting

Hi John,

Thanks for meeting with us yesterday on the equity injection process. It was helpful to have everyone together in one place.

I hope to get the ENERGY-OFA MOU completed and ready for approvals by the end of next week. In order to do that, these are the following outstanding pieces. Right now, the OFA is holding the pen on the document, so it makes sense for you to include these items in the version you are working off and we can review next week:

1. Template for the FAA Section 11.4 certificate. I propose we include this as a schedule to the MOU. Also, please confirm the timing of when the certificate should be provided to OFA each month i.e., alongside the share subscription form, or after the payments have been made.

2. Identify how ENERGY should confirm that there is sufficient Appropriated Amount for the payments each month. The need for this is identified in 2b of the draft MOU. As discussed yesterday, it would be ideal if this could be done in the same certificate mentioned above.

3. Confirm the following:
    - OFA has OPG's wire transfer information (suggest including this information as a separate schedule)
    - Scanned electronic copies for the share subscription form & FAA certificate are acceptable
    - Every month, the OFA will inform the Ministry of Energy via email once the payments have been made.

Let us know if you have any questions. We are working with our legal on the delegation memos. Also as discussed at yesterday's meeting, we will update the flowchart and circulate.
Thanks,
Shruti

Hi Gavin
We have no comments on the MOU and the certificate, my previous suggestions have been incorporated by Ken R. With regard to Energy's questions pls see below in red.
From a cash management perspective Alfonso would like to have a contact in energy who can provide on a monthly basis the cash outflow with regard to this payment. Much appreciated if you can follow up with Energy and provide him with the contact details.
Thanks
Ken k

**Subject:** FW: OFA/Energy MOU - Follow up from Nov 9 meeting
Hi Ken and Mike,
Last week, we attended a meeting with Energy and OPG to discuss the Master Subscription Agreement for the equity injection process. Ken Russell drafted a MOU between OFA and Energy before about making the equity injection payments on Energy's behalf. Also, Ken R. drafted a FAA section 11.4 certificate form as well. After the meeting, Ken R. has updated both document, see attached, based on the discussion.
Could you please kindly review and let us know if you have any comments/concerns by **noon tomorrow, Wednesday, November 15th, 2017**? In addition, could you please review and confirm questions 2&3 from Energy in below email?
Please let me know if you would like to discuss this in person, and we can set up a brief meeting.
Thanks in advance for your cooperation.
Thanks,
Gavin He

Hi John,
Thanks for meeting with us yesterday on the equity injection process. It was helpful to have everyone together in one place.

I hope to get the ENERGY-OFA MOU completed and ready for approvals by the end of next week. In order to do that, these are the following outstanding pieces. Right now, the OFA is holding the pen

on the document, so it makes sense for you to include these items in the version you are working off and we can review next week:

1. Template for the FAA Section 11.4 certificate. I propose we include this as a schedule to the MOU. Also, please confirm the timing of when the certificate should be provided to OFA each month i.e., alongside the share subscription form, or after the payments have been made. Settlements would like updated wire transfer information from OPG and adding it as a separate schedule is a good idea.
2. 
3. Identify how ENERGY should confirm that there is sufficient Appropriated Amount for the payments each month. The need for this is identified in 2b of the draft MOU. As discussed yesterday, it would be ideal if this could be done in the same certificate mentioned above. Agreed, the certificate as it stands does provide for this.
4. Confirm the following:
    - OFA has OPG's wire transfer information (suggest including this information as a separate schedule)
    - Scanned electronic copies for the share subscription form & FAA certificate are acceptable
    - Every month, the OFA will inform the Ministry of Energy via email once the payments have been made. Yes, Settlements can do that.

Let us know if you have any questions. We are working with our legal on the delegation memos. Also as discussed at yesterday's meeting, we will update the flowchart and circulate.

Thanks,

Shruti

**Subject:** RE: OFHP Business Issues

Thanks John, I don't have any major issues. I do note that the slide on the recovery of interest over the moratorium period remains blank, I understand a reg was crafted on this issue with IESO recovering these amounts from the Global Adjustment. Not sure whether the recovery is limited to IESO's interest costs on the credit line or extends to the interest costs of the financing entity over the four years in question.
Clarification from you or Energy will be much appreciated.
Slide 10: one small point it says the sub debt agreement includes the OFA as a party, my understanding is that the OFA will review the sub debt agreement and make sure we are comfortable with the terms, but will not be a signatory, you may want to communicate this to Energy.
Thanks
Ken k

# OFHP Business Issues

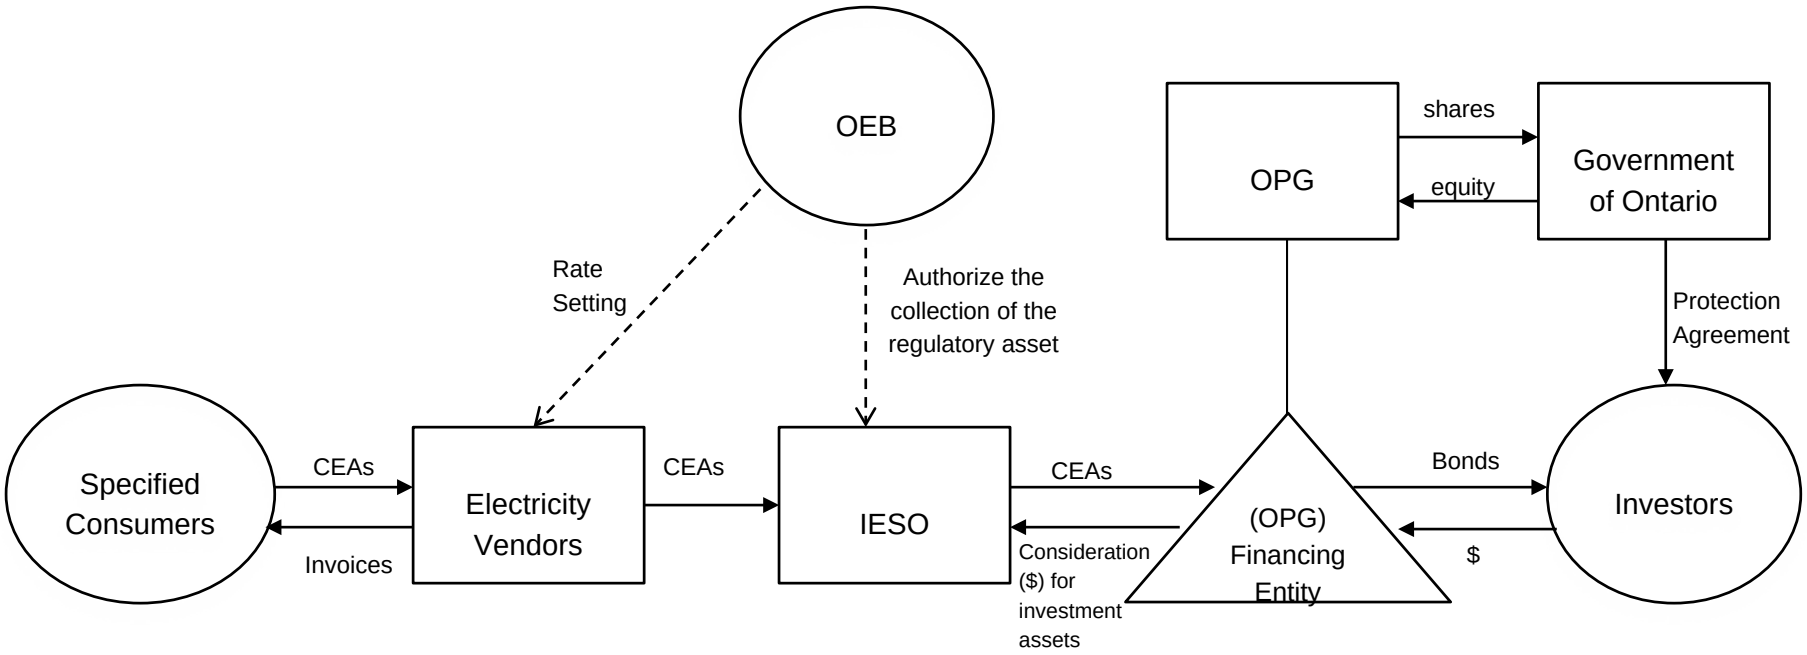
DRAFT – September 11, 2017

CONFIDENTIAL & COMMERCIALLY SENSITIVE

# Context: GA Financing

- The *Ontario Fair Hydro Act, 2017,* enables the IESO to establish a variance account to record the deferral amounts from the difference between collections from current ratepayers and payment obligations to generators and conservation, and to create a regulatory asset as the Act provides the IESO the right to recover the balance in the variance account
  - The IESO can then sell the regulatory asset – the right to recover those deferred amounts from specified consumers in the future
  - OPG, as the Financial Services Manager, is authorized to establish one or more financing entities that may incur funding obligations
  - A financing entity purchasing the regulatory asset would effectively finance the IESO's shortfall in current rates not received from ratepayers
- In order to support the establishment of a financing entity, facilitate ongoing funding requirements of the Global Adjustment and optimize ratepayer impacts, OPG and the Province are working on finalizing the details for a number of business issues, including
  - Provincial Protection and Assurances Agreement (PPAA)
  - Fair Allocation Amount (FAA)
  - Management Fees Regulation
  - Moratorium Period Interest and Fee Recovery
  - Equity Injections
  - Subordinated Debt Agreement
  - PILs Exemption

# Global Adjustment Refinancing – Roles and Responsibilities



Note: CEAs are “clean energy adjustments”

# Provincial Protection and Assurances Agreement

**Overview:**

- To purchase the regulatory asset from the IESO, the Financing Entity must borrow a portion of the funds from capital markets (planned to be 51%, with other financing to come from OPG and, indirectly, the Province)
  - OPG's financial advisors have indicated that without adequate protection against legislative, judicial and organizational risk, the debt would not be financeable or would result in higher financing costs, to be passed on to ratepayers
- Upon receiving TB/MBC approval, and as contemplated under the Act, the Ministers of Energy and Finance have the authority to negotiate and enter into a protection agreement that supports the Financing Entity and prospective debt holders such that the Province would take over the funding obligations of the Financing Entity, under certain circumstances, including
  - Actions of the Legislative Assembly that undermine the financing arrangement; i.e., repeal or amendment of the Ontario Fair Hydro Plan Act, 2017, or new legislation that adversely affect the Financing Entity
  - A court decision that declares the rights of the Financing Entity to recover amounts from ratepayers to be invalid or unenforceable
  - Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to recover amounts related to funding obligations.

# Provincial Protection and Assurances Agreement (Con't)

- In the event the protection agreement is triggered, the Province will be required to pay the obligations of the Financing Entity including principal and interest payments on debt issued to date, any payments to derivatives counterparties and any outstanding payments to service providers
  - The Province could potentially service the debt and other obligations and could replace OPG as the financial services manager
- The protection agreement may need to be revised at a future date, or approval from the Province may be required, if the financing entity must access the U.S. market as investors in that market will likely require additional compensation if the assumption agreement is triggered
- The Province will take on a contingent liability, which will increase over the duration of the Fair Hydro Plan and peak at an estimated $20B of debt (final cost forecasts TBC), including principal and accumulated interest
- In the event the protection agreement is triggered, the Province's net debt will most likely increase by an amount equal to the contingent liability at that point in time
  - The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it has assumed under the protection agreement
  - IOD expense may increase between $0.8B and $1.0B per annum, assuming the protection agreement is triggered when debt is at its peak, and depending on the interest rate at which the Financing entity will be able to borrow at

**Next Steps:**

- Province to work with OPG and external legal counsel to finalise the Protection Agreement

# Fair Allocation Amount

**Overview:**

- xx

**Next Steps:**

- xx

# Management Fees Regulation

**Overview:**

- Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest.
- The Act enables OPG to achieve its objectives of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.
- The fee will have a fixed and variable component and be determined by formulas set out in a regulation, which as currently drafted includes:
    - **Base fee**: Monthly fee calculated as 7.5 basis points on monthly funding obligation. The base fee will be independently reviewed in 2018.
    - **Variable fee**: Annual fee of 5% of the difference difference between forecast and actual interest rates achieved for each of its funding tranches. The variable fee in any one year will be no more than 5 basis points of the net annual borrowing and can be no less than -5 basis of the net annual borrowing. If the variable fee is a negative amount, such amount will be deducted from the base fee in the following calendar year in twelve equal monthly payments
- The OEB will have a role in reviewing OPG's fees to ensure that the fees are consistent with prevailing market comparators

**Next Steps:**

- The Province is working with the OEB and OPG to develop a regulation setting out how the fees would be calculated including appropriate comparators for the OEBs review

# Moratorium Period Interest and Fee Recovery

**Overview:**

- xx

**Next Steps:**

- xx

# Equity Injections

**Overview:**

- To purchase the regulatory asset from the IESO, an OPG financing entity would be established and borrow funds from the following:
  - Capital markets (51%)
  - Subordinated OPG debt, financed through equity injections from the Province (44%) and OPG, financing from capital markets (5%)
- OPG will require equity injections on an ongoing basis in order to provide the 44% share of financing for the financing entity to acquire the regulatory asset from IESO and keep its capital structure in line, and will require flexibility in order to issue shares to the Province as needed, under a share subscription agreement
- The Ministry of Energy will be responsible for seeking approval for the investment envelope each year and managing the share subscription arrangement with OPG
  - On a periodic basis, OPG will send a notice of share subscription to the Ministry of Energy, requesting a certain amount of equity based on the amount of the regulatory asset it plans to purchase in a fiscal year; the Ontario Financing Authority will flow the funds

**Next Steps:**

- OPG and the Ministry of Energy have approved the Master Subscription Agreement and will proceed to execute in the coming weeks
- The Ministry of Energy will work with the OFA to ensure a mechanism is in place to flow the funds within the required timeframes after the request is made by OPG

# Subordinated Debt Agreement

**Overview:**

- OPG intends to lend the equity injection from the Province to the Trust by way of subordinated debt
- OPG proposes that OPG, the Fair Hydro Trust and the OFA will enter into a subordinated debt loan agreement, which outlines the terms of the subordinated debt [TBD]
- OPG has proposed that interest rates on the subordinated debt be established as follows:
  - During the Trust short term financing period, when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt [TBD]
  - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. [TBD]

**Next Steps:**

- OPG to incorporate the Province's comments into the next draft of the Subordinated Debt Agreement, which is tracking to be finalized by the end of September [TBD]

# PILs Exemption

**Overview:**

- It is currently contemplated that the first financing entity to be established by OPG, in its capacity as Financial Services Manager, will be a trust (Trust).
- The Trust would be subject to tax under the *Income Tax Act* (Canada) and the Ontario *Taxation Act, 2007*.
- The beneficiary of the Trust will be a corporation (Subco) that will be directly or indirectly wholly-owned by OPG.
  - Subco, as a subsidiary of OPG, would be exempt from federal and provincial corporate taxes payable by private sector companies. Instead, Subco would be subject to tax under the payments in lieu of taxes (PILs) regime under the *Electricity Act, 1998 (EA),* and would pay PILs to the Ontario Electricity Financial Corporation (OEFC);
  - PILs are used by the OEFC to help pay down ~~its~~ debt and other liabilities – OEFC is the legal continuation of the former Ontario Hydro.
- In order to mitigate the cost to ratepayers, a recommendation will be made to the Minister of Finance ~~to~~ to make a regulation under the EA that would exempt Subco from PILs on income received by Subco as beneficiary of the Trust.
- Should OPG, as Financial Services Manager, establish other financing entities in the future for purposes of the OFHP, the Ministry of Finance will ~~also~~ consider making similar recommendations to the Minister of Finance.

**Next Steps:**

- Letter to OPG provide comfort that Subco will be exempt from PILs on income received as beneficiary of the Trust.
- The Ministry of Finance is working with OPG on a draft regulation, which is intended to be made by the Minister of Finance in the Fall of 2017.

Ken, Mike,
Gadi has a conflict, so he won't be attending this meeting tomorrow morning at 8:45am. Are you both available? I'll be there as well.
Anna

**Subject:** RE: OFHP fees reg

John is correct, the way I remember is that the idea of hiring and expert advisor was batted around at the meeting and the consensus was that the advisor's independence and the objectivity of the review would both be assured if RFP was issued by the OEB.

Thanks

Ken k

Hi Anna,

The first bullet is correct. The part that Ken contributed was that in a meeting that arrived at 7.5 bps also concluded that the OEB would engage an outside expert for the review process. On your last bullet, your description is also my understanding.

John

**Subject:** RE: OFHP fees reg

Hi John, I'm not quite as close to this as everyone else here, so before sending over to Gadi I just wanted to confirm a few things:

- From what I can tell, the drafting instructions have the base fee at 7.5 bps in 2017 and 2018, consistent with our understanding
- The base fee beyond 2018 will be reviewed by the OEB to be ensure comparability with market fees, consistent with our understanding
- There is no mention of the OEB undertaking a study (as far as I can tell) to determine comparability – is that because it's already at their discretion to do so?

Thanks, Anna

**To:** Kim, John (OFA)
**Cc:** Christie, Tim (ENERGY)
**Subject:** OFHP fees reg

Hi John – our lawyers have a few questions below related to the OPG fair hydro plan fees reg that they were hoping to get your input on as soon as possible. Please let me know if you think a call with us/our lawyers would be faster than getting us written answers.

1 – On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

2 – Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

3 – Are there "market comparable fees" that allow the person charging the fees to also

recover out-of-pocket costs over and above the fees?

4 – Can the OFA provide comments on the below draft definition of “market comparable fees” reads as follows (the NTDs are for OFA’s input)?

arket comparable fees” means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**TD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include “or management and financial service providers”. If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

pe of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm “securitization vehicles” and “structured”.]**

ope of the services provided,

vel of the services provided, and

llar amount of assets under management;

Thanks,

Daniel

**CONFIDENTIAL**
Until filed with the
Registrar of Regulations

**REG2017.0512.e**
**4-TP**

**ONTARIO REGULATION**

made under the

**ONTARIO FAIR HYDRO PLAN ACT, 2017**

**FEES**

**Definitions**

**1.** (1) In this Regulation,

"average monthly funding obligation" means, in respect of a month, the amount determined in accordance with subsection (2);

"average annual funding obligation" means, in respect of a year, the sum of the average monthly funding obligations for the year;

"market comparable fees" means fees, expressed as a yearly percentage rate, charged by asset managers [or management and financial service providers] in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**[NTD for leg counsel: I am trying to get more clarity around "management and financial service providers". I am not sure whether the intent is to say "management service providers or financial service providers". If the intent is to refer to a "management and financial service provider", I will try to ascertain whether this is a well-understood industry "term of art" (since based on a brief search it did not appear to be).]**

(a) the type of services provided, being services in respect of funds including securitization vehicles, pension funds, other structured investment funds, hedge funds and other similar structured funds,

(b) the scope of the services provided,

**Commented [GH1]:** OFA is of the view that there should be no mention of references to securitization vehicles, active managed funds and/or hedge funds or any investments of that sort be included in the regulation. The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

**Commented [DS2]:** NTD for OEB: Is "specified by" the right way to say this?

**Commented [DS3]:** NTD for ESP/MoF: Should there be a "temporal" connection too? E.g. "… services that are similar to, and provided at a time that is similar to the time the services are provided by, the FSM …".

(c) the level of the services provided, and

(d) the dollar amount of assets under management;

"funding tranche" means an ~~specific~~ issuance of ~~debt by a financing entity and constitutes all or part of a~~ funding obligations of a particular series, class or type that have the same terms;

"FSM services" means services provided by the Financial Services Manager to financing entities in relation to the management and administration of the financing entities and the investment asset, including in relation to funding obligations incurred or that are planned to be incurred by the financing entities;

"market comparable forecast interest rates" means, in relation to a potential funding tranche described in the submissions mentioned in subsection 6 (3) or 6 (4), interest rates charged by lenders in Canada **[at the time the submissions are made]** for a debt obligation that,

(a) has a principal amount that is comparable to the principal amount of the funding tranche,

(b) has a term that is comparable to the term of the funding tranche **[in terms of length and commencement],**

(c) is based on a type of instrument that is comparable to the type of instrument of the funding tranche,

(d) has payment rights that are similar to the payment rights of the funding tranche, and

(e) is issued by an issuer with a risk profile comparable to the risk profile of the financing entity issuing the funding tranche;

**Commented [DS4]:** NTD for OPG/MoF: Should this contemplate "posted" rates rather than rates "charged by"?

"net annual funding obligation" means, in respect of a year, the sum of the principal amounts of funding tranches issued in the year, other than any funding tranches that constitute a refinancing;

(2) For the purposes of determining the average monthly funding obligation for a month, the following formula applies:

$$(A + B) / 2$$

Where,

A = the sum of the balances on the first day of the month of the principal amount of all outstanding funding obligations incurred by financing entities,

B = the sum of the balances on the last day of the month of the principal amount of all outstanding funding obligations incurred by financing entities.

**Forecast interest rate**

**1.1** For the purposes of this Regulation, the Financial Services Manager shall determine the forecast interest rate for a funding tranche that forms part of the net annual funding obligation for a year, by taking into account the following factors:

1. The interest rate for debt of or guaranteed by the Government of Ontario with a term or duration that is comparable to the term or duration of the funding tranche. **[NTD for leg counsel: We are confirming whether we need to refer to both "term" and "duration" here and in 2 ii below (and if yes, how these terms mean different things).]**

2. The estimated credit spread, relative to the interest rate described in paragraph 1, for a debt obligation that,

   i. has a principal amount that is comparable to the principal amount of the funding tranche,

   ii. has a term that is comparable to the term of the funding tranche **[in terms of length and commencement]**,

   iii. is based on a type of instrument that is comparable to the type of instrument of the funding tranche, ~~and~~

   iv. has payment rights that are similar to the payment rights of the funding tranche, and

   v. is issued by an issuer with a risk profile comparable to the risk profile of the financing entity issuing the funding tranche.

3. Anticipated fees and commissions expected to be payable in connection with the issuance of the funding tranche.

**Fees that may be established, charged**

**2.** (1) For the purposes of subsection 19 (3) of the Act, the fees established and charged by the Financial Services Manager may be charged to financing entities ~~in relation to the management and administration of financing entities and the investment asset, including in relation to funding obligations incurred or that are planned to be incurred by~~for FSM services provided to the financing entities.

(2) A fee mentioned in subsection (1) shall be comprised of a base fee calculated under section [3] and a variable fee calculated under section [6].

**Formatted:** Highlight

**Formatted:** Highlight

**Commented [DS5]:** NTD for OPG/MoF: Even if the term is the same length, would the commencement date of the term not also be relevant?

**Commented [DS6]:** NTD for OPG: Energy Policy is asking whether the fees and commissions are relevant to the determination of the forecast interest rate for the tranche, given that they are recoverable by the FSM under s. 7(2) below.

(3) For the purposes of subsection 19 (3) of the Act, fees may be established and charged by the Financial Services Manager to financing entities for the recovery of costs and expenditures, as provided for in section [7].

(4) The Financial Services Manager shall not establish or charge any fees to financing entities other than those fees provided for under this Regulation.

**Base fee**

**3.** (1) Subject to sections [5.1] and [5.2], the Financial Services Manager shall establish the proposed base fee for a month as follows:

1. Determine the amount that is 0.075 per cent of the average monthly funding obligation for the preceding month.

2. Divide the amount determined under paragraph 1 by 12.

(2) The first month in respect of which the base fee may be established is ~~July~~ November 2017.

[OLC Note: Just need to confirm -- will there be an average monthly funding obligation for the month of June 2017? If not, it would not be possible to apply this method in respect of July 2017.] **[NTD for leg counsel: The first funding obligation may not be incurred until around November 2017. The base fee for a month would be zero if there was no average monthly funding obligation for the preceding month (i.e. if it was zero).]**

(3) The Financial Services Manager shall submit to the Board the base fee proposed to be charged in respect of the period from November 1, 2017 to December 31, 2018 no later than October 31, 2017.

(4) The Financial Services Manager shall submit to the Board the base fee proposed to be charged in respect of any year after 2018 no later than 120 days before the start of the year in respect of which the base fee would be charged.

**[NTD for leg counsel: Let's move the submission provisions (other than the amendment submission provision) from section 9 to the respective sections that deal with the fee in question. As you will see in s. 6 and 7 below, the submission process will be different for each of the types of fees (base, variable, and costs/expenditures).]**

**[Further NTD for leg counsel: The Board's review of the base fee for the period from July 1, 2017 to December 31, 2018 will be limited to ensuring that the base fee is calculated correctly (i.e. calculated in accordance with ss. 5 (3)).]**

**Commented [DS7]:** NTD for OPG/OEB: The policy instruction is to provide that costs and expenditures are recoverable so long as they relate to the matters described in s. 7.1(1), and that the Board review the costs and expenditures from that perspective.

In order to implement this instruction and give the Board the authority to review, we have to deem the costs and expenditures to be fees.

**Commented [JK8]:** To start – may need to be clarified

**Commented [JK9]:** 7.5bps for 2017 and 2018 to be reviewed by the OEB for future years? This subsection says the OEB to review for the initial proposed base fee also.

**Commented [DS10]:** NTD for OPG/OEB: Ss. 19(4) of the OFHPA requires the Board to approve fees.

**Board review of base fee**

**5.1** (1) The Board shall refuse to approve the proposed base fee mentioned in subsection 5 (3) if the Board is of the view that the proposed base fee was not established in accordance with subsection 3 (1).

(2) If the Board refuses to approve the proposed base fee,

(a) the Board shall provide reasons for the refusal; and

(b) the Financial Services Manager shall submit to the Board a revised proposed base fee that is established in accordance with subsection 3 (1)

**[NTD for leg counsel: If the Board does not refuse to approve a proposed base fee under ss. (1) or (3), then we should explicitly say that the Board will approve the proposed base fee. Please tweak ss. 5.1 (1) and (3) accordingly.]**

(3) The Board may refuse to approve a proposed base fee mentioned in subsection 5 (4) if the Board is of the view that the proposed base fee is materially inconsistent with market comparable fees.

[OLC Note: Should this section only apply starting January 1, 2019?]

[OLC Note: Are you sure that this is the only reason why the Board can refuse the proposed base fee?]

**[NTD for leg counsel: In response to your notes, for the proposed base fee applicable in 2019 and beyond, the only basis upon with the Board can withhold approval is inconsistency with market comparable fees. For the proposed base fee applicable July 1 – Dec31/17 and Jan1 – Dec31/18, the Board can only withhold approval if the base fee is inconsistent with the formula in s. 3(1).]**

Commented [DS11]: Explanatory note for OEB: The reg-making powers in s. 19 of the OFHPA don't appear to provide the same ability to impose on the Board (by reg.) the base fee as with the OESP reg-making powers in ss. 79.2(6) of the OEBA.

(~~1.1~~4) If the Board refuses to approve the proposed base fee,

(a) the Board shall provide reasons for the refusal and may make recommendations to the Financial Services Manager regarding the determination of a base fee that is consistent with market comparable fees; and

(b) the Financial Services Manager shall submit to the Board,

(i) a revised proposed base fee that takes into consideration the recommendations of the Board, if any**;** and

(ii) a description of the methodology that the Financial Services Manager has applied to determine the revised proposed base fee, including details concerning the market comparable fees that the Financial Services Manager considered.

(5) **[NTD for leg counsel: Please add a provision that says that the process (i.e. the process outlined in ss. (1) and (2) above, or (3) and (4) above) will be repeated until the Board approves a proposed base fee for the year in question, unless you are of the view that that is already clearly implicit in those provisions.]**

(6) **[NTD for leg counsel: Please add a provision that says that:**

- **Until a new proposed base fee is approved, the FSM may continue to charge the most current Board-approved base fee (if any).**

- **Once the new proposed base fee is approved by the Board, the FSM shall make a "retrospective" adjustment to the base fee (in the month following the month in which the approval is given). The adjustment will be the difference (positive or negative) between the base fee actually charged in the relevant period up to that point, and the new base fee approved by the Board for that period. In other words, the Board approved fee would be "retrospectively" applied to the whole period. By "period" I mean either the initial period from Nov1/17 – Dec31/18 or any calendar year starting with 2019. Note that any amendment to fees (under s. 9.1) would only apply prospectively starting in the month following the month in which the amendments were approved by the Board.]**

**Variable fee**

**6.** (1) Subject to subsection (2) and section 6.1, the Financial Services Manager shall establish the variable fee for a year after 2017 as follows:

1. Apply the following formula in respect of each funding tranche that forms part of the net annual funding obligation for the year:

$$(A \times (B - C)) \times 0.05$$

Where,

A = the principal amount of the funding tranche,

B = the forecast interest rate for the funding tranche, and

C = the actual interest rate for the funding tranche.

2. Calculate the sum of the amounts determined by applying the formula under paragraph 1.

(2) If the circumstances set out in Column 1 of the following Table apply in a year, the variable fee payable for a year is subject to the rules set out opposite those circumstances in Column 2 of the Table:

| ~~Item~~ | ~~Column 1 Circumstances~~ | ~~Column 2 Rules~~ |
|---|---|---|
| ~~1.~~ | ~~The average annual funding obligations are $10 billion or less.~~ | The variable fee payable for the year shall not be more than 1 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -1per cent of the amount that is 5 per cent of the net annual funding obligation. |
| ~~2.~~ | ~~The average annual funding obligations are greater than $10 billion.~~ | ~~The variable fee payable for the year shall not be more than 2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.~~<br><br>~~The variable fee payable for the year shall not be less than -2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.~~ |

(3) The Financial Services Manager shall make submissions to the Board in respect of the **[variable fee proposed to be charged in 2018, including the]** forecast interest rates for the funding tranches anticipated to be issued in 2018, no later than **[October 31, 2017]**.

(4) The Financial Services Manager shall make submissions to the Board in respect of the variable fee proposed to be charged in any year after 2018, including the forecast interest rates for the funding tranches anticipated to be issued in the year, no later than 120 days before the beginning of the year.

(5) If the Financial Services Manager has not submitted a forecast interest rate under subsection (3) or (4) for a funding tranche that will be issued in a year after 2017, the Board may require the Financial Services Manager to submit a proposed forecast interest rate for the funding tranche **[and may specify the time by which the submission must be made],** or the Board may determine the funding tranche taking into consideration the forecast interest rates submitted by the Financial Services Manager for the year under subsection (3) or (4).

**Board review of variable fee**

**6.1** (1) The Board may refuse to approve a proposed variable fee if the Board is of the view that any forecast interest rate used for the purposes of subsection 6 (1) is inconsistent with ~~[~~market comparable forecast interest rates~~]~~.

[OLC Note: We provide an explanation for how to determine "market comparable fees" but we say nothing about how to determine "market comparable forecast interest rates". Please instruct.]

**[NTD for leg counsel: We have created a new defined term "market comparable forecast interest rates" to address this.]**

[OLC Note: Are you sure this is the only reason why the Board may refuse the proposed variable fee?] **[NTD for leg counsel: Yes.]**

(2) If the Board refuses to approve the proposed variable fee,

**Commented [JK12]:** In our previous correspondence, dated September 27, 2017 from Ken Kandeepan to Scott Nelms, we suggested delition of column 1 and item 2.

**Commented [DS13]:** NTD for OPG/OEB: Is this wording appropriate?

**Commented [DS14]:** NTD for OPG: The policy instruction is to not require the Board to apply linear interpolation to come up with a forecast interest rate, because the approach would be too prescriptive for this fairly limited subset of total fees.

**Commented [GH15]:** Same comment as above. OFA is of the view that there should be no mention of references to securitization vehicles, active managed funds and/or hedge funds or any investments of that sort be included in the regulation. The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

(a) the Board shall provide reasons for the refusal and may make recommendations to the Financial Services Manager regarding each forecast interest rate that the Board found was inconsistent with ~~[~~market comparable forecast interest rates~~]~~; and

(b) the Financial Services Manager shall submit to the Board,

(i) a revised proposed fee that takes into consideration the recommendations of the Board, if any, and

(ii) a description of the methodology that the Financial Services Manager has applied to determine revised forecast interest rates for each funding tranche in respect of which the Board found an inconsistency with ~~[~~market comparable forecast interest rates~~]~~.

**~~Fees~~ Reimbursements for costs and expenditures**

**7.** (1) The Financial Services Manager may establish and charge fees for the recovery from a financing entity of any costs and expenditures incurred by the Financial Services Manager,

(a) on behalf of the financing entity in connection with the Financial Services Manager's duties under the Act in relation to the financing entity; or

(b) under a management agreement between the Financial Services Manager and the financing entity, where the agreement provides for the reimbursement of the costs and expenditures.

(2) The costs and expenditures referred to in subsection (1) may include costs and expenditures in respect of the following:

1. Underwriters or selling agents for funding obligations.

2. Banking fees, including structuring fees or work fees.

3. Fees of issuing and paying agents for funding obligations.

4. Fees of trustees.

5. Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns.

6. Fees of legal counsel.

7. Rating agency fees.

8. Filing or registration fees.

9. Direct costs of the Financial Services Manager for employees who are dedicated to providing FSM services to financing entities.

~~(3) The costs and expenditures referred to in subsection (1) shall not include any overhead costs of the Financial Services Manager, including [….].~~
~~[OLC Note: The phrase "overhead costs" seems a bit vague. Examples would help.]~~

**Board review of fees for costs, expenditures**

**7.1** (1) The Board may refuse to approve a proposed fee for costs and expenditures or a portion of a proposed fee for costs and expenditures if the Board is of the view that the proposed fee is in respect of costs and expenditures that were not incurred in relation to the management and administration of financing entities and the investment asset, including in relation to funding obligations incurred or that are planned to be incurred by the financing entities.

(2) If the Board refuses to approve the proposed fee or a portion of the proposed fee, the amount not approved shall not be payable to the Financial Services Manager and the associated costs and expenditures shall not be recoverable by the Financial Services Manager from the financing entity.

~~(a) the Board shall provide reasons for the refusal and may make recommendations to the Financial Services Manager regarding the proposed fee; and~~

~~(b) the Financial Services Manager shall submit to the Board,~~

~~(i) a revised proposed fee that takes into consideration the recommendations of the Board, if any, and~~

~~(ii) a description of how the proposed fee is in respect of costs and expenditures that were incurred in relation to the management and administration of financing entities and the investment asset.~~

**Charging of fees**

**8.** (1) Subject to sections [5.1], [6.1] and [7.1], in charging fees, the Financial Services Manager shall provide for,

(a) the base fee for a month to be payable within **[x]** days after the end of the month;

**Commented [DS16]:** NTD: Need to specify when the base fee is payable.

(b) the variable fee for a year to be payable in the following calendar year in twelve equal monthly instalments that coincide with the payment of the base fee for each month; and

(c) the fee for costs and expenditures for a month to be payable within [x] days after the end of the month.

**Commented [DS17]:** NTD: Need to specify when the fee for costs and expenditures is payable.

(2) If the variable fee for a year is a negative amount, it shall be deducted in twelve equal monthly instalments from the base fee payable in the following year.

(3) Where there is more than one financing entity, the portion of the fees allocated to and payable by a financing entity shall be based on its proportionate share of the average principal amount of funding obligations for the applicable period.

Commented [DS18]: NTD: Should this be based on the average of the opening and closing balances for the applicable period (e.g. year)?

(4) For the purposes of determining the average principal amount of funding obligations under subsection (3), the formula set out in subsection 1 (2) applies with necessary modifications.
[OLC Note: Please confirm that this works.]

**Submissions to Board**

**9.1** ~~(1) The Financial Services Manager shall make submissions to the Board in respect of fees proposed to be charged in 2018 no later than October 31, 2017.~~

Formatted: section-e

~~(2) The Financial Services Manager shall make submissions to the Board in respect of fees proposed to be charged in respect of any year after 2018 no later than 120 days before the start of the year in respect of which the fees would be charged.~~

~~(3)~~ The Financial Services Manager may, no more frequently than once in any consecutive twelve month period, make submissions to the Board to amend any base fee or variable fee~~s~~ approved by the Board, and the provisions of section [5.1]. [6.1] or [7.1], as applicable, apply in respect of the submissions.

**Board approval, general**

**10.** (1) For the purpose of determining whether to approve a proposed fee, the Board shall consider the information provided by the Financial Service Manager in its submission relating to the proposed fee.

(2) For the purpose of determining whether to approve a proposed base fee or variable fee, the Board may consider, as it determines to be appropriate, the advice provided by third party consultants and experts. **[NTD for leg counsel: We want to retain this provision, but the Board noted that they already have this ability without needing to specifically include it here. The Board flagged the risk of an adverse interpretation in other contexts where the Board is not given explicit statutory authority to consider advice of third party consultants and experts. Can we word this ss. 10(2) in such a way that it is just "for greater clarity"?]**

**Commencement**

**11. This Regulation comes into force on the day it is filed.**

Hi Anna,
The first bullet is correct. The part that Ken contributed was that in a meeting that arrived at 7.5 bps also concluded that the OEB would engage an outside expert for the review process. On your last bullet, your description is also my understanding.

Hi John, I'm not quite as close to this as everyone else here, so before sending over to Gadi I just wanted to confirm a few things:

- From what I can tell, the drafting instructions have the base fee at 7.5 bps in 2017 and 2018, consistent with our understanding
- The base fee beyond 2018 will be reviewed by the OEB to be ensure comparability with market fees, consistent with our understanding
- There is no mention of the OEB undertaking a study (as far as I can tell) to determine comparability – is that because it's already at their discretion to do so?

Thanks, Anna

**From:** Cayley, Daniel (ENERGY)
**Sent:** October-11-17 2:04 PM
**To:** Kim, John (OFA)
**Cc:** Christie, Tim (ENERGY)
**Subject:** OFHP fees reg

Hi John – our lawyers have a few questions below related to the OPG fair hydro plan fees reg that they were hoping to get your input on as soon as possible. Please let me know if you think a call with us/our lawyers would be faster than getting us written answers.

1 – On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

2 – Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

3 – Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

4 – Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

"market comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**TD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include "or management and financial service providers". If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

pe of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm "securitization vehicles" and "structured".]**

ope of the services provided,

vel of the services provided, and

)llar amount of assets under management;

Thanks,

Daniel

**Subject:** OFHP fees reg

Hi John – our lawyers have a few questions below related to the OPG fair hydro plan fees reg that they were hoping to get your input on as soon as possible. Please let me know if you think a call with us/our lawyers would be faster than getting us written answers.

1 – On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

2 – Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

3 – Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

4 – Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

"market comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**[NTD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include "or management and financial service providers". If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

(i) type of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm "securitization vehicles" and "structured".]**

(ii) scope of the services provided,

(iii) level of the services provided, and

›llar amount of assets under management;

Thanks,
Daniel

Hi Anna,

The first bullet is correct. The part that Ken contributed was that in a meeting that arrived at 7.5 bps also concluded that the OEB would engage an outside expert for the review process. On your last bullet, your description is also my understanding.

John

Hi John, I'm not quite as close to this as everyone else here, so before sending over to Gadi I just wanted to confirm a few things:

- From what I can tell, the drafting instructions have the base fee at 7.5 bps in 2017 and 2018, consistent with our understanding
- The base fee beyond 2018 will be reviewed by the OEB to be ensure comparability with market fees, consistent with our understanding
- There is no mention of the OEB undertaking a study (as far as I can tell) to determine comparability – is that because it's already at their discretion to do so?

Thanks, Anna

Hi Carlos,
We added our comments to the draft regulation. Before sending back, I would like full review. The Qs and As will be sent shortly.
Energy staff have followed up on this (copied you and Ken on that response), reminding them of our email to them dated September 27, 2017.
Thanks,
John

Hi John,
Further to my call, attached is the latest draft reg. Could you review the NTD for the OFA and also address any outstanding questions per below? This was discussed at a meeting that Gadi and Ron attended this morning and it's likely tracking to Cabinet next week with the goal of finalizing before the weekend.
Thanks,
Keley

**Cc:** Christie, Tim (ENERGY)
**Subject:** OFHP fees reg

Hi John – our lawyers have a few questions below related to the OPG fair hydro plan fees reg that they were hoping to get your input on as soon as possible. Please let me know if you think a call with us/our lawyers would be faster than getting us written answers.

1 – On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

2 – Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

3 – Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

4 – Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

arket comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**TD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include "or management and financial service providers". If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

pe of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm "securitization vehicles" and "structured".]**

ope of the services provided,

vel of the services provided, and

ollar amount of assets under management;

Thanks,

Daniel

**Subject:** OFHP fees reg

Hi John – our lawyers have a few questions below related to the OPG fair hydro plan fees reg that they were hoping to get your input on as soon as possible. Please let me know if you think a call with us/our lawyers would be faster than getting us written answers.

1 – On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

2 – Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

3 – Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

4 – Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

arket comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**TD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include "or management and financial service providers". If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

pe of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm "securitization vehicles" and "structured".]**

ope of the services provided,
vel of the services provided, and
)llar amount of assets under management;

Thanks,
Daniel

## Draft Fees Regulation for OPG Trust and OFHP

**Question 1:** On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

**OFA Comment:** OFA would defer this item to Energy and OFA staff are of the view that retroactive adjustments of the fees applying once the rates are finalized would be acceptable. This would mean that the old rates would continue to apply until the decisions are made by the OEB.

**Question 2:** Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

**OFA Comment:** OFA had indicated that the earlier proposal of 10 bps for the initial proposed base fee was too high and since then a decision to set the initial proposed base fee at 7.5 bps was made. While the 7.5 bps would be applicable in the first year of operations it was also agreed that the OEB will retain an outside expert to provide recommendations on an appropriate rate based on a market survey. In the draft regulation provided by Energy on October 12, 2017, the draft regulation would require the OEB to set the base fee rates based on the market comparable fees. OFA staff are of the view that there should be no references made in the draft regulation about investment vehicles listed in the Question 2 and in Question 4, including securitization vehicles, actively managed investment funds, structured investment funds, hedge funds and/or other types of structured funds. Securitization vehicles, for example, involve significant amount of work 'packaging' a large number of underlying assets into an investment structure. [See more detailed example below.] The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

More Detailed Analysis:

The Financing entity will buy a global asset of $2.5B from IESO and will receive 480 payments from IESO (i.e. ,12 monthly payments for 40 years)

**Commented [JK1]:** CMD provided additional detail.

A vehicle leasing securitization program will consist of leases with an average term of 36 months with monthly payments and average amount of $25,000 [illustratively]

i.e. To manage a $2.5 billion program for 3yrs would consist of 100,000 leases ($2,500,000,000 divided by $25,000 average lease), involve 3,600,000 payments (100,000 leases X 36 monthly payments) and this would need to be done another 13 times (i.e., for 39 years).

**Question 3:** Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

**OFA Comment:** OFA staff are of the view that this is acceptable if done in accordance with the Act and if appropriately audited.

**Question 4:** Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

"market comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**[NTD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include "or management and financial service providers". If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

(a) the type of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm "securitization vehicles" and "structured".]**

(b) the scope of the services provided,

(c) the level of the services provided, and

(d) the dollar amount of assets under management;"

**OFA Comment:** OFA staff are of the view that there should be no references made in the draft regulation about investment vehicles listed in the Question 2 and Question 4, including securitization vehicles, actively managed investment funds, structured investment funds, hedge funds and/or other types of structured funds. Securitization vehicles, for example, involve significant amount of work 'packaging' a large number of underlying assets into an investment structure. The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such

market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

**CONFIDENTIAL**
Until filed with the
Registrar of Regulations

**REG2017.0512.e**
**4-TP**

**ONTARIO REGULATION**

made under the

**ONTARIO FAIR HYDRO PLAN ACT, 2017**

**FEES**

**Definitions**

**1.** (1) In this Regulation,

"average monthly funding obligation" means, in respect of a month, the amount determined in accordance with subsection (2);

"average annual funding obligation" means, in respect of a year, the sum of the average monthly funding obligations for the year;

"market comparable fees" means fees, expressed as a yearly percentage rate, charged by asset managers [or management and financial service providers] in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**[NTD for leg counsel: I am trying to get more clarity around "management and financial service providers". I am not sure whether the intent is to say "management service providers or financial service providers". If the intent is to refer to a "management and financial service provider", I will try to ascertain whether this is a well-understood industry "term of art" (since based on a brief search it did not appear to be).]**

(a) the type of services provided, being services in respect of funds including securitization vehicles, pension funds, other structured investment funds, hedge funds and other similar structured funds,

(b) the scope of the services provided,

**Commented [OFA1]:** OFA is of the view that there should be no mention of references to securitization vehicles, active managed funds and/or hedge funds or any investments of that sort be included in the regulation. The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

**Commented [DS2]:** NTD for OEB: Is "specified by" the right way to say this?

**Commented [DS3]:** NTD for ESP/MoF: Should there be a "temporal" connection too? E.g. "… services that are similar to, and provided at a time that is similar to the time the services are provided by, the FSM …".

(c) the level of the services provided, and

(d) the dollar amount of assets under management;

"funding tranche" means an ~~specific~~ issuance of ~~debt by a financing entity and constitutes all or part of a~~ funding obligations of a particular series, class or type that have the same terms;

"FSM services" means services provided by the Financial Services Manager to financing entities in relation to the management and administration of the financing entities and the investment asset, including in relation to funding obligations incurred or that are planned to be incurred by the financing entities;

"market comparable forecast interest rates" means, in relation to a potential funding tranche described in the submissions mentioned in subsection 6 (3) or 6 (4), interest rates charged by lenders in Canada **[at the time the submissions are made]** for a debt obligation that,

(a) has a principal amount that is comparable to the principal amount of the funding tranche,

(b) has a term that is comparable to the term of the funding tranche **[in terms of length and commencement]**,

(c) is based on a type of instrument that is comparable to the type of instrument of the funding tranche,

(d) has payment rights that are similar to the payment rights of the funding tranche, and

(e) is issued by an issuer with a risk profile comparable to the risk profile of the financing entity issuing the funding tranche;

**Commented [DS4]:** NTD for OPG/MoF: Should this contemplate "posted" rates rather than rates "charged by"?

"net annual funding obligation" means, in respect of a year, the sum of the principal amounts of funding tranches issued in the year, other than any funding tranches that constitute a refinancing;

(2) For the purposes of determining the average monthly funding obligation for a month, the following formula applies:

$$(A + B) / 2$$

Where,

A = the sum of the balances on the first day of the month of the principal amount of all outstanding funding obligations incurred by financing entities,

B = the sum of the balances on the last day of the month of the principal amount of all outstanding funding obligations incurred by financing entities.

**Forecast interest rate**

**1.1** For the purposes of this Regulation, the Financial Services Manager shall determine the forecast interest rate for a funding tranche that forms part of the net annual funding obligation for a year, by taking into account the following factors:

1. The interest rate for debt of or guaranteed by the Government of Ontario with a term or duration that is comparable to the term or duration of the funding tranche.
**[NTD for leg counsel: We are confirming whether we need to refer to both "term" and "duration" here and in 2 ii below (and if yes, how these terms mean different things).]**

2. The estimated credit spread, relative to the interest rate described in paragraph 1, for a debt obligation that,

   i. has a principal amount that is comparable to the principal amount of the funding tranche,

   ii. has a term that is comparable to the term of the funding tranche **[in terms of length and commencement]**,

   iii. is based on a type of instrument that is comparable to the type of instrument of the funding tranche, ~~and~~

   iv. has payment rights that are similar to the payment rights of the funding tranche, and

   v. is issued by an issuer with a risk profile comparable to the risk profile of the financing entity issuing the funding tranche.

3. Anticipated fees and commissions expected to be payable in connection with the issuance of the funding tranche.

**Fees that may be established, charged**

**2.** (1) For the purposes of subsection 19 (3) of the Act, the fees established and charged by the Financial Services Manager may be charged to financing entities ~~in relation to the management and administration of financing entities and the investment asset, including in relation to funding obligations incurred or that are planned to be incurred by~~for FSM services provided to the financing entities.

(2) A fee mentioned in subsection (1) shall be comprised of a base fee calculated under section [3] and a variable fee calculated under section [6].

**Formatted:** Highlight

**Formatted:** Highlight

**Commented [DS5]:** NTD for OPG/MoF: Even if the term is the same length, would the commencement date of the term not also be relevant?

**Commented [DS6]:** NTD for OPG: Energy Policy is asking whether the fees and commissions are relevant to the determination of the forecast interest rate for the tranche, given that they are recoverable by the FSM under s. 7(2) below.

(3) For the purposes of subsection 19 (3) of the Act, fees may be established and charged by the Financial Services Manager to financing entities for the recovery of costs and expenditures, as provided for in section [7].

(4) The Financial Services Manager shall not establish or charge any fees to financing entities other than those fees provided for under this Regulation.

**Base fee**

**3.** (1) Subject to sections [5.1] and [5.2], the Financial Services Manager shall establish the proposed base fee for a month as follows:

1. Determine the amount that is 0.075 per cent of the average monthly funding obligation for the preceding month.

2. Divide the amount determined under paragraph 1 by 12.

(2) The first month in respect of which the base fee may be established is ~~July~~ November 2017.

[OLC Note: Just need to confirm -- will there be an average monthly funding obligation for the month of June 2017? If not, it would not be possible to apply this method in respect of July 2017.] **[NTD for leg counsel: The first funding obligation may not be incurred until around November 2017. The base fee for a month would be zero if there was no average monthly funding obligation for the preceding month (i.e. if it was zero).]**

(3) The Financial Services Manager shall submit to the Board the base fee proposed to be charged in respect of the period from November 1, 2017 to December 31, 2018 no later than October 31, 2017.

(4) The Financial Services Manager shall submit to the Board the base fee proposed to be charged in respect of any year after 2018 no later than 120 days before the start of the year in respect of which the base fee would be charged.

**[NTD for leg counsel: Let's move the submission provisions (other than the amendment submission provision) from section 9 to the respective sections that deal with the fee in question. As you will see in s. 6 and 7 below, the submission process will be different for each of the types of fees (base, variable, and costs/expenditures).]**

**[Further NTD for leg counsel: The Board's review of the base fee for the period from July 1, 2017 to December 31, 2018 will be limited to ensuring that the base fee is calculated correctly (i.e. calculated in accordance with ss. 5 (3)).]**

**Commented [DS7]:** NTD for OPG/OEB: The policy instruction is to provide that costs and expenditures are recoverable so long as they relate to the matters described in s. 7.1(1), and that the Board review the costs and expenditures from that perspective.

In order to implement this instruction and give the Board the authority to review, we have to deem the costs and expenditures to be fees.

**Commented [OFA8]:** To start – may need to be clarified

**Commented [OFA9]:** 7.5bps for 2017 and 2018 to be reviewed by the OEB for future years? This subsection says the OEB to review for the initial proposed base fee also.

**Commented [DS10]:** NTD for OPG/OEB: Ss. 19(4) of the OFHPA requires the Board to approve fees.

**Board review of base fee**

**5.1** (1) The Board shall refuse to approve the proposed base fee mentioned in subsection 5 (3) if the Board is of the view that the proposed base fee was not established in accordance with subsection 3 (1).

(2) If the Board refuses to approve the proposed base fee,

(a) the Board shall provide reasons for the refusal; and

(b) the Financial Services Manager shall submit to the Board a revised proposed base fee that is established in accordance with subsection 3 (1)

**[NTD for leg counsel: If the Board does not refuse to approve a proposed base fee under ss. (1) or (3), then we should explicitly say that the Board will approve the proposed base fee. Please tweak ss. 5.1 (1) and (3) accordingly.]**

(3) The Board may refuse to approve a proposed base fee mentioned in subsection 5 (4) if the Board is of the view that the proposed base fee is materially inconsistent with market comparable fees.

[OLC Note: Should this section only apply starting January 1, 2019?]

[OLC Note: Are you sure that this is the only reason why the Board can refuse the proposed base fee?]

**[NTD for leg counsel: In response to your notes, for the proposed base fee applicable in 2019 and beyond, the only basis upon with the Board can withhold approval is inconsistency with market comparable fees. For the proposed base fee applicable July 1 – Dec31/17 and Jan1 – Dec31/18, the Board can only withhold approval if the base fee is inconsistent with the formula in s. 3(1).]**

Commented [DS11]: Explanatory note for OEB: The reg-making powers in s. 19 of the OFHPA don't appear to provide the same ability to impose on the Board (by reg.) the base fee as with the OESP reg-making powers in ss. 79.2(6) of the OEBA.

(~~1.1~~4) If the Board refuses to approve the proposed base fee,

(a) the Board shall provide reasons for the refusal and may make recommendations to the Financial Services Manager regarding the determination of a base fee that is consistent with market comparable fees; and

(b) the Financial Services Manager shall submit to the Board,

(i) a revised proposed base fee that takes into consideration the recommendations of the Board, if any**;** and

(ii) a description of the methodology that the Financial Services Manager has applied to determine the revised proposed base fee, including details concerning the market comparable fees that the Financial Services Manager considered.

(5) **[NTD for leg counsel: Please add a provision that says that the process (i.e. the process outlined in ss. (1) and (2) above, or (3) and (4) above) will be repeated until the Board approves a proposed base fee for the year in question, unless you are of the view that that is already clearly implicit in those provisions.]**

(6) **[NTD for leg counsel: Please add a provision that says that:**

- **Until a new proposed base fee is approved, the FSM may continue to charge the most current Board-approved base fee (if any).**

- **Once the new proposed base fee is approved by the Board, the FSM shall make a "retrospective" adjustment to the base fee (in the month following the month in which the approval is given). The adjustment will be the difference (positive or negative) between the base fee actually charged in the relevant period up to that point, and the new base fee approved by the Board for that period. In other words, the Board approved fee would be "retrospectively" applied to the whole period. By "period" I mean either the initial period from Nov1/17 – Dec31/18 or any calendar year starting with 2019. Note that any amendment to fees (under s. 9.1) would only apply prospectively starting in the month following the month in which the amendments were approved by the Board.]**

**Variable fee**

**6.** (1) Subject to subsection (2) and section 6.1, the Financial Services Manager shall establish the variable fee for a year after 2017 as follows:

1. Apply the following formula in respect of each funding tranche that forms part of the net annual funding obligation for the year:

$$(A \times (B - C)) \times 0.05$$

Where,

A = the principal amount of the funding tranche,

B = the forecast interest rate for the funding tranche, and

C = the actual interest rate for the funding tranche.

2. Calculate the sum of the amounts determined by applying the formula under paragraph 1.

(2) If the circumstances set out in Column 1 of the following Table apply in a year, the variable fee payable for a year is subject to the rules set out opposite those circumstances in Column 2 of the Table:

| ~~Item~~ | ~~Column 1~~<br>~~Circumstances~~ | ~~Column 2~~<br>~~Rules~~ |
|---|---|---|
| ~~1.~~ | ~~The average annual funding obligations are $10 billion or less.~~ | The variable fee payable for the year shall not be more than 1 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -1per cent of the amount that is 5 per cent of the net annual funding obligation. |
| ~~2.~~ | ~~The average annual funding obligations are greater than $10 billion.~~ | ~~The variable fee payable for the year shall not be more than 2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.~~<br><br>~~The variable fee payable for the year shall not be less than -2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.~~ |

(3) The Financial Services Manager shall make submissions to the Board in respect of the **[variable fee proposed to be charged in 2018, including the]** forecast interest rates for the funding tranches anticipated to be issued in 2018, no later than **[October 31, 2017]**.

(4) The Financial Services Manager shall make submissions to the Board in respect of the variable fee proposed to be charged in any year after 2018, including the forecast interest rates for the funding tranches anticipated to be issued in the year, no later than 120 days before the beginning of the year.

(5) If the Financial Services Manager has not submitted a forecast interest rate under subsection (3) or (4) for a funding tranche that will be issued in a year after 2017, the Board may require the Financial Services Manager to submit a proposed forecast interest rate for the funding tranche **[and may specify the time by which the submission must be made],** or the Board may determine the funding tranche taking into consideration the forecast interest rates submitted by the Financial Services Manager for the year under subsection (3) or (4).

**Board review of variable fee**

**6.1** (1) The Board may refuse to approve a proposed variable fee if the Board is of the view that any forecast interest rate used for the purposes of subsection 6 (1) is inconsistent with ~~[~~market comparable forecast interest rates~~]~~.

[OLC Note: We provide an explanation for how to determine "market comparable fees" but we say nothing about how to determine "market comparable forecast interest rates". Please instruct.]

**[NTD for leg counsel: We have created a new defined term "market comparable forecast interest rates" to address this.]**

[OLC Note: Are you sure this is the only reason why the Board may refuse the proposed variable fee?] **[NTD for leg counsel: Yes.]**

(2) If the Board refuses to approve the proposed variable fee,

**Commented [OFA12]:** Delete references to the table and column 1 and column 2, consistent with the comment below.

**Commented [OFA13]:** In our previous correspondence, dated September 27, 2017 from Ken Kandeepan to Scott Nelms, we suggested deletion of column 1 and item 2.

**Commented [DS14]:** NTD for OPG/OEB: Is this wording appropriate?

**Commented [DS15]:** NTD for OPG: The policy instruction is to not require the Board to apply linear interpolation to come up with a forecast interest rate, because the approach would be too prescriptive for this fairly limited subset of total fees.

**Commented [OFA16]:** Same comment as above. OFA is of the view that there should be no mention of references to securitization vehicles, active managed funds and/or hedge funds or any investments of that sort be included in the regulation. The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

(a) the Board shall provide reasons for the refusal and may make recommendations to the Financial Services Manager regarding each forecast interest rate that the Board found was inconsistent with ~~[~~market comparable forecast interest rates~~]~~; and

(b) the Financial Services Manager shall submit to the Board,

(i) a revised proposed fee that takes into consideration the recommendations of the Board, if any, and

(ii) a description of the methodology that the Financial Services Manager has applied to determine revised forecast interest rates for each funding tranche in respect of which the Board found an inconsistency with ~~[~~market comparable forecast interest rates~~]~~.

**~~Fees~~ Reimbursements for costs and expenditures**

**7.** (1) The Financial Services Manager may establish and charge fees for the recovery from a financing entity of any costs and expenditures incurred by the Financial Services Manager,

(a) on behalf of the financing entity in connection with the Financial Services Manager's duties under the Act in relation to the financing entity; or

(b) under a management agreement between the Financial Services Manager and the financing entity, where the agreement provides for the reimbursement of the costs and expenditures.

(2) The costs and expenditures referred to in subsection (1) may include costs and expenditures in respect of the following:

1. Underwriters or selling agents for funding obligations.

2. Banking fees, including structuring fees or work fees.

3. Fees of issuing and paying agents for funding obligations.

4. Fees of trustees.

5. Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns.

6. Fees of legal counsel.

7. Rating agency fees.

8. Filing or registration fees.

9. Direct costs of the Financial Services Manager for employees who are dedicated to providing FSM services to financing entities.

~~(3) The costs and expenditures referred to in subsection (1) shall not include any overhead costs of the Financial Services Manager, including [….].~~
~~[OLC Note: The phrase "overhead costs" seems a bit vague. Examples would help.]~~

**Board review of fees for costs, expenditures**

**7.1** (1) The Board may refuse to approve a proposed fee for costs and expenditures or a portion of a proposed fee for costs and expenditures if the Board is of the view that the proposed fee is in respect of costs and expenditures that were not incurred in relation to the management and administration of financing entities and the investment asset, including in relation to funding obligations incurred or that are planned to be incurred by the financing entities.

(2) If the Board refuses to approve the proposed fee or a portion of the proposed fee, the amount not approved shall not be payable to the Financial Services Manager and the associated costs and expenditures shall not be recoverable by the Financial Services Manager from the financing entity.

~~(a) the Board shall provide reasons for the refusal and may make recommendations to the Financial Services Manager regarding the proposed fee; and~~

~~(b) the Financial Services Manager shall submit to the Board,~~

~~(i) a revised proposed fee that takes into consideration the recommendations of the Board, if any, and~~

~~(ii) a description of how the proposed fee is in respect of costs and expenditures that were incurred in relation to the management and administration of financing entities and the investment asset.~~

**Charging of fees**

**8.** (1) Subject to sections [5.1], [6.1] and [7.1], in charging fees, the Financial Services Manager shall provide for,

(a) the base fee for a month to be payable within **[x]** days after the end of the month;

**Commented [DS17]:** NTD: Need to specify when the base fee is payable.

(b) the variable fee for a year to be payable in the following calendar year in twelve equal monthly instalments that coincide with the payment of the base fee for each month; and

(c) the fee for costs and expenditures for a month to be payable within [x] days after the end of the month.

**Commented [DS18]:** NTD: Need to specify when the fee for costs and expenditures is payable.

(2) If the variable fee for a year is a negative amount, it shall be deducted in twelve equal monthly instalments from the base fee payable in the following year.

(3) Where there is more than one financing entity, the portion of the fees allocated to and payable by a financing entity shall be based on its proportionate share of the average principal amount of funding obligations for the applicable period.

Commented [DS19]: NTD: Should this be based on the average of the opening and closing balances for the applicable period (e.g. year)?

(4) For the purposes of determining the average principal amount of funding obligations under subsection (3), the formula set out in subsection 1 (2) applies with necessary modifications.
[OLC Note: Please confirm that this works.]

**Submissions to Board**

**9.1** ~~(1) The Financial Services Manager shall make submissions to the Board in respect of fees proposed to be charged in 2018 no later than October 31, 2017.~~

Formatted: section-e

~~(2) The Financial Services Manager shall make submissions to the Board in respect of fees proposed to be charged in respect of any year after 2018 no later than 120 days before the start of the year in respect of which the fees would be charged.~~

~~(3)~~ The Financial Services Manager may, no more frequently than once in any consecutive twelve month period, make submissions to the Board to amend any base fee or variable fee~~s~~ approved by the Board, and the provisions of section [5.1]. [6.1] or [7.1], as applicable, apply in respect of the submissions.

**Board approval, general**

**10.** (1) For the purpose of determining whether to approve a proposed fee, the Board shall consider the information provided by the Financial Service Manager in its submission relating to the proposed fee.

(2) For the purpose of determining whether to approve a proposed base fee or variable fee, the Board may consider, as it determines to be appropriate, the advice provided by third party consultants and experts. **[NTD for leg counsel: We want to retain this provision, but the Board noted that they already have this ability without needing to specifically include it here. The Board flagged the risk of an adverse interpretation in other contexts where the Board is not given explicit statutory authority to consider advice of third party consultants and experts. Can we word this ss. 10(2) in such a way that it is just "for greater clarity"?]**

**Commencement**

**11. This Regulation comes into force on the day it is filed.**

Hi Carlos,
We added our comments to the draft regulation. Before sending back, I would like full review. The Qs and As will be sent shortly.
Energy staff have followed up on this (copied you and Ken on that response), reminding them of our email to them dated September 27, 2017.
Thanks,
John

Hi John,
Further to my call, attached is the latest draft reg. Could you review the NTD for the OFA and also address any outstanding questions per below? This was discussed at a meeting that Gadi and Ron attended this morning and it's likely tracking to Cabinet next week with the goal of finalizing before the weekend.
Thanks,
Keley

**From:** Cayley, Daniel (ENERGY)
**Sent:** October-11-17 2:04 PM
**To:** Kim, John (OFA)
**Cc:** Christie, Tim (ENERGY)
**Subject:** OFHP fees reg

Hi John – our lawyers have a few questions below related to the OPG fair hydro plan fees reg that they were hoping to get your input on as soon as possible. Please let me know if you think a call with us/our lawyers would be faster than getting us written answers.

1 – On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

2 – Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

3 – Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

4 – Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

arket comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**TD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include "or management and financial service providers". If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

pe of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm "securitization vehicles" and "structured".]**

ope of the services provided,

vel of the services provided, and

llar amount of assets under management;

Thanks,

Daniel

## Draft Fees Regulation for OPG Trust and OFHP

**Question 1:** On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

**OFA Comment:** OFA would defer this item to Energy and OFA staff are of the view that retroactive adjustments of the fees applying once the rates are finalized would be acceptable. This would mean that the old rates would continue to apply until the decisions are made by the OEB.

**Question 2:** Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

**OFA Comment:** OFA had indicated that the earlier proposal of 10 bps for the initial proposed base fee was too high and since then a decision to set the initial proposed base fee at 7.5 bps was made. In the draft regulation provided by Energy on October 12, 2017, the draft regulation would require the OEB to set the base fee rates based on the market comparable fees. OFA staff are of the view that there should be no references made in the draft regulation about investment vehicles listed in the Question 2 and in Question 4, including securitization vehicles, actively managed investment funds, structured investment funds, hedge funds and/or other types of structured funds. Securitization vehicles, for example, involve significant amount of work 'packaging' a large number of underlying assets into an investment structure. The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

**Question 3:** Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

**OFA Comment:** OFA staff are of the view that this is acceptable if done in accordance with the Act and if appropriately audited.

**Question 4:** Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

"market comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**[NTD: (1) Confirm *yearly* percentage rate. (2) Confirm whether to include "or management and financial service providers". If this is to be included, what does this mean? Is it a well-recognized industry term of art?]**

(a) the type of services provided, being services in respect of funds including **securitization vehicles**, pension funds, other **structured** investment funds, hedge funds and other similar **structured** funds, **[NTD: Confirm "securitization vehicles" and "structured".]**

(b) the scope of the services provided,

(c) the level of the services provided, and

(d) the dollar amount of assets under management;"

**OFA Comment:** OFA staff are of the view that there should be no references made in the draft regulation about investment vehicles listed in the Question 2 and Question 4, including securitization vehicles, actively managed investment funds, structured investment funds, hedge funds and/or other types of structured funds. Securitization vehicles, for example, involve significant amount of work 'packaging' a large number of underlying assets into an investment structure. The financing entity has a very different structure and operates differently from securitization vehicles, hedge funds etc., so such market comparable fees/rates referencing such investment types would not be good representation of the benchmark in this situation.

**Subject:** RE: OFHP fees reg

John is correct, the way I remember is that the idea of hiring and expert advisor was batted around at the meeting and the consensus was that the advisor's independence and the objectivity of the review would both be assured if RFP was issued by the OEB.

Thanks

Ken k

Hi Anna,

The first bullet is correct. The part that Ken contributed was that in a meeting that arrived at 7.5 bps also concluded that the OEB would engage an outside expert for the review process. On your last bullet, your description is also my understanding.

John

Hi John, I'm not quite as close to this as everyone else here, so before sending over to Gadi I just wanted to confirm a few things:

- From what I can tell, the drafting instructions have the base fee at 7.5 bps in 2017 and 2018, consistent with our understanding
- The base fee beyond 2018 will be reviewed by the OEB to be ensure comparability with market fees, consistent with our understanding
- There is no mention of the OEB undertaking a study (as far as I can tell) to determine comparability – is that because it's already at their discretion to do so?

Thanks, Anna

Hi John – our lawyers have a few questions below related to the OPG fair hydro plan fees reg that they were hoping to get your input on as soon as possible. Please let me know if you think a call with us/our lawyers would be faster than getting us written answers.

1 – On the process for establishing the base fee and variable fee, which could theoretically spill over into the year to which the new fees would apply (if OEB approval was not obtained until then), the thinking would be to have the old fees apply until the new fees were approved by the OEB, and then have a "retroactive" adjustment of the fees (retroactively adjusting them back to the beginning of the year the new fees take effect). Since the base fee and variable fee are payable monthly, the "retroactive" adjustment would be made in the month following the month in which the new fees were finalized. The question for OFA is whether it would be appropriate to have a retroactive fee adjustment.

2 – Re: discussion between OPG and OFA about what "market comparable fees", OPG has proposed that there be a requirement for five sets of fees, four of which would be fees charged by full-service managers of securitization vehicles, and the

fifth of which would be fees charged by an asset manager (or management and financial services provider) in respect of any one of pension funds, other structured investment funds, hedge funds or other similar structured funds. Does the OFA have any comments on this approach or the viability of finding five such comparators? The Board has suggested that the FSM be required to submit fee comparators but that the Board have the ability to also include comparators that it chooses (e.g. on the advice of consultants/experts it retains).

3 – Are there "market comparable fees" that allow the person charging the fees to also recover out-of-pocket costs over and above the fees?

4 – Can the OFA provide comments on the below draft definition of "market comparable fees" reads as follows (the NTDs are for OFA's input)?

arket comparable fees" means fees, expressed as a **[yearly?]** percentage rate, charged by asset managers **[or management and financial service providers?]** in Canada or another jurisdiction specified by the Board for services that are similar to the services provided by the Financial Services Manager under the Act in terms of,

**Subject:** RE: Proposed Watay Term Sheet
**Date:** Friday, September 01, 2017 12:34:09 PM

---

A lot of the same thoughts. I asked Craig this morning to roughly calculate the value of the prepayment option (he is still working on it). Amortization premium 25 to 35 bps, although if we are not actually issuing amortizing bonds then this may be less relevant. But we also end up with huge mismatch risk as we wouldn't be issuing amortizing bonds to perfectly offset the loan which would likely greatly exceed the notional amortization premium. I wouldn't want to understate the complexity and residual risk associated with such a transaction and you have covered this off. This doesn't even cover budgetary risk. I'm hoping we can put off a final decision and not agree to proceed today with the explanation that a lot more work will be required which is definitely the case. Also, the accounting cannot be ignored. I believe the structure requires the loan and associated borrowing to offset each other to get no impact on net debt. Not sure how you package a loan with first charge assignment on the annual federal contributions when they still require annual appropriations from the Feds. Cindy would be the expert on this but expect it could take more analysis.
Mike

**Subject:** Re: Proposed Watay Term Sheet

Thanks. That's a very good note, but I'm concerned that in an effort to be helpful to getting an important project through, we may not be as clear on the risks as we should be, and are underestimating the rate that would have to be charged on the loan (or overstating what our spread is).

Where did the 2.80% long term Ontario rate come from? Our 10-year rate is currently about 2.6% before fees and our 20 and 30-year rates are about 3.10%, so this looks like a pretty low rate given the tenor of the proposed bond.

Also this is an amortizing structure , which in the marketplace usually has at least a 25 basis point premium, and in Alan's proposal that I saw last week, he had included an option to prepay at any time without a penalty, which is a highly expensive option (ask Alan what the Bank would charge him for that feature on a 5-year mortgage, never mind a 40-year debt instrument).

A further point is that we wouldn't borrow the full $1.5 billion today, as we'd borrow and on-lend over a number of years as the project is built, so this is a future starting loan which also has a number of basis points added to it if we were to hedge the rate as soon as it would be approved be TB and agreed to with Watay.

Another question that I have is whether we'd have any additional liability or risk if the project goes over budget and needs more money - who comes up with that? Does our $1.5 billion potentially grow? What about the senior debt? I assume that this will, to be a proper financing structure, come with a lower yield than what we'd be charging to be subordinated to it, but that it would carry less risk in the case of a cost overrun on the project.

Put all that together and our spread would be considerably below the 150 basis points indicated, and the PV of the gain that we would get if the Federal government keeps making these appropriations annually for the next 40-years would be considerably the amount included in the note. Also, and this is an accounting question, I'm assuming that any provision that we'd have to take would be in this fiscal year, while the gains on the loan rate versus our cost of funds would be on an annual basis as they're realized, so I think even if we got a true spread of 150 basis points by adding in all of what I've suggested above and charging a rate that would likely be well above 5%, putting forward a big amount like $300-400 million may give TB, or other decision makers, a false sense of comfort in that that may think that we can take a provision of that size and be fiscally neutral, so we should make the timing difference on when gains and the provision would hit the Province's books.

As you can see, I'm very nervous about this structure, the potential for cost overruns and the viability of depending on the next dozen or so elected Federal governments continuing to make their annual appropriations to keep us whole. I understand the importance of this project and the need to ensure that it goes forward, but I'm very leery of the transfer of risk from the Federal government to the Ontario government. I understand their desire to not take the fiscal hit up front, but why should we take some, or much, of it in their place? Why can't the Feds, or one of their agencies like BDC, provide the loan, or a loan guarantee, like they have recently done for Nalcor in considerably larger size?

One last point that I think should be included in any note that goes up to decision makers, so they're aware of the Ontario government's full involvement in this project, is our guarantee under the ALGP, which means that we're also backing the equity injection, not just the $1.5 billion subordinated loan.

Thanks,
Gadi

Hi Gadi,

Pls. see attached draft note on the Watay term sheet, drafted by Emily's branch. Will share with Mike as we have a few questions on the spread.

We are checking with OPCD on the TBC question.

Thanks,

John

Hi Anna, Ken,
From Ken's Wednesday morning email, I thought that the interest rate range on the risk exposure on p.3 was going to be 0.8 to 1.0. Was there further direction to leave the top end higher?
Also, on page 2, why isn't the Ministry of Energy also listed as one of the entities listed as recommending the limited list of activation events?
Ron

Ken, Mike, Ron,
The latest draft of the TB Assessment note is attached. I don't expect this to change again between now and the meeting on Monday.
The TB/MBC meeting is scheduled to run from 3-6pm on Monday, September 25, 2017. While the official agenda isn't out as yet, unofficially the item is scheduled for 3:20pm. It's in the TB/MBC Boardroom first floor Frost South.
I would recommend planning to arrive just before 3:00pm. I will let you know as soon as I receive the final agenda.
Anna

Hi Anna, Ken,
From Ken's Wednesday morning email, I thought that the interest rate range on the risk exposure on p.3 was going to be 0.8 to 1.0. Was there further direction to leave the top end higher?
Also, on page 2, why isn't the Ministry of Energy also listed as one of the entities listed as recommending the limited list of activation events?

Hi Toby,
Gadi is in meetings for the rest of the morning, but perhaps I could set up a call for 11:30am for a quick chat amongst those that are available on this email chain. The term sheet must be settled today as there is a meeting tomorrow with the Deputy and CoS at Energy.
I'll set up the call.

**Subject:** RE: Provincial Protection Agreement - Dealer Comments

Please see below some preliminary comments on the Dealer's comments, in all caps after each comment.
**********

All,
We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included. THE INDENTURE

TRUSTEE WILL BE THE BENEFICIARY OF WHATEVER IS ULTIMATELY SETTLED WITH OPG. THE DEALERS CONCERNS WILL BE ADDRESSED THROUGH OPG. THE PROVINCE EXPECTS THAT THE DEALERS COMMENTS AFFECTING MARKETABILITY WILL BE GIVEN CONSIDERABLE WEIGHT.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)? THE PROVINCE'S COVENANT EXTENDS ONLY TO FINANCING ENTITY PAYMENTS WHEN DUE; NOT MORE BROADLY TO PERFORMANCE AND OTHER COVENANTS OF THE FINANCING ENTITY. ON A PROTECTION EVENT, THE PROVINCE WILL BE OBLIGATED TO PAY AMOUNTS DUE AND PAYABLE BY THE FINANCING ENTITY.
3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be. SEE PARA (4) UNDER PROTECTION EVENTS.
4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved. THE PROVINCE IS NOT DIRECTLY INVOLVED AND SO THESE DO NOT BELONG IN THE TERM SHEET. THE PROVINCE EXPECTS THAT OPG WILL NEGOTIATE THE SPECIFIC ARRANGEMENTS SUBJECT TO THE FINANCING PLAN. AMONG OTHER THINGS, THE PROVINCE WILL WANT CONFIRMATION THAT THE STEP-UP PRICING DOES NOT RESULT IN AN ADVERSE ACCOUNTING TREATMENT OF THE TRANSACTION.
    5. The requirement that the change of law have a "material" adverse effect is not acceptable. THIS POINT IS ACKNOWLEDGED. THE PROVINCE BELIEVES THIS IS NECESSARY TO PREVENT FOOT-FAULT SCENARIOS AND OPPORTUNISTIC BEHAVIOUR.
    6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment. ACKNOWLEDGED. THE PROVINCE IS CONSIDERING ALTERNATIVES TO ADDRESS TIMELINESS CONCERNS.
    7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient. THE PROVINCE'S OBLIGATIONS WILL BE LIMITED TO PAYING SPECIFIED AMOUNTS WHEN DUE AND PAYABLE. THE COVENANT WILL NOT EXTEND TO "MISSED OPPORTUNITY", DAMAGES ON DOWNGRADE OR OTHER SIMILAR ECONOMIC CLAIMS.
    8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. THE PROVINCE'S OBLIGATION TO PAY INVOLVES A COLLATERAL OBLIGATION TO PAY THE FINANCING ENTITY'S SUBSISTING/ON-GOING PAYMENT OBLIGATIONS. THE OPTION TO ASSUME INVOLVES THE PROVINCE DIRECTLY ASSUMING THE FINANCING ENTITY'S OBLIGATIONS SO THAT THE PROVINCE, RATHER THAN THE FINANCING ENTITY, BECOMES THE PRIMARY OBLIGOR. We

also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes [SEE DISTICTION ABOVE RE COLLATERAL VS. ASSUMED PRIMARY OBLIGATION OF THE PROVINCE] all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit. THE OPTION TO STEP-IN AND DIRECTLY ASSUME THE FINANCING ENTITY'S OBLIGATIONS WOULD ALLOW THE PROVINCE TO COLLAPSE THE FINANCING ENTITY STRUCTURE AND SIMPLIFY/RATIONALIZE THE ARRANGEMENTS GOING FORWARD.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution? THE PROVINCE ANTICIPATES THAT "FINANCE AMOUNT" (AND THEREFORE THE CORRESPONDING CEAs) WILL BE LIMITED ON AN ACCELERATION TO THE AMOUNTS WHEN DUE AND PAYABLE. THE REVISED REGULATION WOULD ADDRESS THIS IN SECTION 5. THIS IS CONSISTENT WITH BONDHOLDERS' RECOURSE BEING LIMITED TO THE UNDERLYING CASHFLOWS - IN THIS CASE, MEASURED BY REFERENCE TO THE APPLICABLE "FAIR ALLOCATION AMOUNT" AS OF THE TIME OF THE BOND ISSUANCE. ACCORDINGLY, THERE SHOULD BE NO "BALLOON REPAYMENT" ON ACCELERATION OF BONDS AND SO NEED FOR A PRE-EMPTIVE OPTION.
10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals. ACKNOWLEDGED. THE PROVINCE IS HOPEFUL THAT THE SCENARIO IN (b) WILL BE FEASIBLE AND INTENDS TO WORK TOWARDS A CLEAN PRE-APPROVAL ARRANGEMENT. IT IS LIKELY THAT THE PRE-APPROVAL WOULD BE BASED ON THE AGREEMENTS/TERMS BEING SUBSTANTIALLY EQUIVALENT TO A PRE-AGREED PATTERN. SINCE THAT CONCLUSION MAY INVOLVE JUDGMENTS, SOME SORT OF CONFIRMATION AT THE TIME OF AN OFFERING MAY BE REQUIRED TO DEMONSTRATE COMPLIANCE.

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.
4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.
5. The requirement that the change of law have a "material" adverse effect is not acceptable.
6. We do not want the phrase "in a final and non-appealable judgement" being included in the *ultra vires* provision. Investors will be looking for timely payment.
7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.
8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.
9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?
10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement

that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

Peter

**Subject:** Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse

take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.

5. The requirement that the change of law have a "material" adverse effect is not acceptable.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the *ultra vires* provision. Investors will be looking for timely payment.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

Hi Toby,
Gadi is in meetings for the rest of the morning, but perhaps I could set up a call for 11:30am for a quick chat amongst those that are available on this email chain. The term sheet must be settled today as there is a meeting tomorrow with the Deputy and CoS at Energy.
I'll set up the call.
Anna

**********
All,
We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included. THE INDENTURE TRUSTEE WILL BE THE BENEFICIARY OF WHATEVER IS ULTIMATELY SETTLED WITH OPG. THE DEALERS CONCERNS WILL BE ADDRESSED THROUGH OPG. THE PROVINCE EXPECTS THAT THE DEALERS COMMENTS AFFECTING MARKETABILITY WILL BE GIVEN CONSIDERABLE WEIGHT.
2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)? THE PROVINCE'S COVENANT EXTENDS ONLY TO FINANCING ENTITY PAYMENTS WHEN DUE; NOT MORE BROADLY TO PERFORMANCE AND OTHER COVENANTS OF THE FINANCING ENTITY. ON A PROTECTION EVENT, THE PROVINCE WILL BE OBLIGATED TO PAY AMOUNTS DUE AND PAYABLE BY THE FINANCING ENTITY.
3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be. SEE PARA (4) UNDER PROTECTION EVENTS.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved. THE PROVINCE IS NOT DIRECTLY INVOLVED AND SO THESE DO NOT BELONG IN THE TERM SHEET. THE PROVINCE EXPECTS THAT OPG WILL NEGOTIATE THE SPECIFIC ARRANGEMENTS SUBJECT TO THE FINANCING PLAN. AMONG OTHER THINGS, THE PROVINCE WILL WANT CONFIRMATION THAT THE STEP-UP PRICING DOES NOT RESULT IN AN ADVERSE ACCOUNTING TREATMENT OF THE TRANSACTION.
5. The requirement that the change of law have a "material" adverse effect is not acceptable. THIS POINT IS ACKNOWLEDGED. THE PROVINCE BELIEVES THIS IS NECESSARY TO PREVENT FOOT-FAULT SCENARIOS AND OPPORTUNISTIC BEHAVIOUR.
6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment. ACKNOWLEDGED. THE PROVINCE IS CONSIDERING ALTERNATIVES TO ADDRESS TIMELINESS CONCERNS.
7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient. THE PROVINCE'S OBLIGATIONS WILL BE LIMITED TO PAYING SPECIFIED AMOUNTS WHEN DUE AND PAYABLE. THE COVENANT WILL NOT EXTEND TO "MISSED OPPORTUNITY", DAMAGES ON DOWNGRADE OR OTHER SIMILAR ECONOMIC CLAIMS.
8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. THE PROVINCE'S OBLIGATION TO PAY INVOLVES A COLLATERAL OBLIGATION TO PAY THE FINANCING ENTITY'S SUBSISTING/ON-GOING PAYMENT OBLIGATIONS. THE OPTION TO ASSUME INVOLVES THE PROVINCE DIRECTLY ASSUMING THE FINANCING ENTITY'S OBLIGATIONS SO THAT THE PROVINCE, RATHER THAN THE FINANCING ENTITY, BECOMES THE PRIMARY OBLIGOR. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes [SEE DISTICTION ABOVE RE COLLATERAL VS. ASSUMED PRIMARY OBLIGATION OF THE PROVINCE] all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit. THE OPTION TO STEP-IN AND DIRECTLY ASSUME THE FINANCING ENTITY'S OBLIGATIONS WOULD ALLOW THE PROVINCE TO COLLAPSE THE FINANCING ENTITY STRUCTURE AND SIMPLIFY/RATIONALIZE THE ARRANGEMENTS GOING FORWARD.
9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is

the solution? THE PROVINCE ANTICIPATES THAT "FINANCE AMOUNT" (AND THEREFORE THE CORRESPONDING CEAs) WILL BE LIMITED ON AN ACCELERATION TO THE AMOUNTS WHEN DUE AND PAYABLE. THE REVISED REGULATION WOULD ADDRESS THIS IN SECTION 5. THIS IS CONSISTENT WITH BONDHOLDERS' RECOURSE BEING LIMITED TO THE UNDERLYING CASHFLOWS - IN THIS CASE, MEASURED BY REFERENCE TO THE APPLICABLE "FAIR ALLOCATION AMOUNT" AS OF THE TIME OF THE BOND ISSUANCE. ACCORDINGLY, THERE SHOULD BE NO "BALLOON REPAYMENT" ON ACCELERATION OF BONDS AND SO NEED FOR A PRE-EMPTIVE OPTION.

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals. ACKNOWLEDGED. THE PROVINCE IS HOPEFUL THAT THE SCENARIO IN (b) WILL BE FEASIBLE AND INTENDS TO WORK TOWARDS A CLEAN PRE-APPROVAL ARRANGEMENT. IT IS LIKELY THAT THE PRE-APPROVAL WOULD BE BASED ON THE AGREEMENTS/TERMS BEING SUBSTANTIALLY EQUIVALENT TO A PRE-AGREED PATTERN. SINCE THAT CONCLUSION MAY INVOLVE JUDGMENTS, SOME SORT OF CONFIRMATION AT THE TIME OF AN OFFERING MAY BE REQUIRED TO DEMONSTRATE COMPLIANCE.

**Subject:** Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement

will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?
3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.
4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.
5. The requirement that the change of law have a "material" adverse effect is not acceptable.
6. We do not want the phrase "in a final and non-appealable judgement" being included in the *ultra vires* provision. Investors will be looking for timely payment.
7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.
8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.
9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?
10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

Peter

Please see below some preliminary comments on the Dealer's comments, in all caps after each comment.

**********

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included. THE INDENTURE TRUSTEE WILL BE THE BENEFICIARY OF WHATEVER IS ULTIMATELY SETTLED WITH OPG. THE DEALERS CONCERNS WILL BE ADDRESSED THROUGH OPG. THE PROVINCE EXPECTS THAT THE DEALERS COMMENTS AFFECTING MARKETABILITY WILL BE GIVEN CONSIDERABLE WEIGHT.
2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)? THE PROVINCE'S COVENANT EXTENDS ONLY TO FINANCING ENTITY PAYMENTS WHEN DUE; NOT MORE BROADLY TO PERFORMANCE AND OTHER COVENANTS OF THE FINANCING ENTITY. ON A PROTECTION EVENT, THE PROVINCE WILL BE OBLIGATED TO PAY AMOUNTS DUE AND PAYABLE BY THE FINANCING ENTITY.
3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be. SEE PARA (4) UNDER PROTECTION EVENTS.
4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved. THE PROVINCE IS NOT DIRECTLY INVOLVED AND SO THESE DO NOT BELONG IN THE TERM SHEET. THE PROVINCE EXPECTS THAT OPG WILL NEGOTIATE THE SPECIFIC ARRANGEMENTS SUBJECT TO THE FINANCING PLAN. AMONG OTHER THINGS, THE PROVINCE WILL WANT CONFIRMATION THAT THE STEP-UP PRICING DOES NOT RESULT IN AN ADVERSE ACCOUNTING TREATMENT OF THE TRANSACTION.
5. The requirement that the change of law have a "material" adverse effect is not acceptable. THIS POINT IS ACKNOWLEDGED. THE PROVINCE BELIEVES THIS IS NECESSARY TO PREVENT FOOT-FAULT SCENARIOS AND OPPORTUNISTIC BEHAVIOUR.

6. We do not want the phrase “in a final and non-appealable judgement” being included in the ultra vires provision. Investors will be looking for timely payment. ACKNOWLEDGED. THE PROVINCE IS CONSIDERING ALTERNATIVES TO ADDRESS TIMELINESS CONCERNS.
7. We need it to be clear that the exclusion for “economic loss or loss of profits” does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient. THE PROVINCE’S OBLIGATIONS WILL BE LIMITED TO PAYING SPECIFIED AMOUNTS WHEN DUE AND PAYABLE. THE COVENANT WILL NOT EXTEND TO “MISSED OPPORTUNITY”, DAMAGES ON DOWNGRADE OR OTHER SIMILAR ECONOMIC CLAIMS.
8. We need to understand exactly what is contemplated by an obligation to pay under the heading “Obligation to Pay Specified Claims” versus the option to assume under the heading of “Optional Assumption”. We do not see a distinction. THE PROVINCE’S OBLIGATION TO PAY INVOLVES A COLLATERAL OBLIGATION TO PAY THE FINANCING ENTITY’S SUBSISTING/ON-GOING PAYMENT OBLIGATIONS. THE OPTION TO ASSUME INVOLVES THE PROVINCE DIRECTLY ASSUMING THE FINANCING ENTITY’S OBLIGATIONS SO THAT THE PROVINCE, RATHER THAN THE FINANCING ENTITY, BECOMES THE PRIMARY OBLIGOR. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes [SEE DISTICTION ABOVE RE COLLATERAL VS. ASSUMED PRIMARY OBLIGATION OF THE PROVINCE] all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit. THE OPTION TO STEP-IN AND DIRECTLY ASSUME THE FINANCING ENTITY’S OBLIGATIONS WOULD ALLOW THE PROVINCE TO COLLAPSE THE FINANCING ENTITY STRUCTURE AND SIMPLIFY/RATIONALIZE THE ARRANGEMENTS GOING FORWARD.
9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution? THE PROVINCE ANTICIPATES THAT “FINANCE AMOUNT” (AND THEREFORE THE CORRESPONDING CEAs) WILL BE LIMITED ON AN ACCELERATION TO THE AMOUNTS WHEN DUE AND PAYABLE. THE REVISED REGULATION WOULD ADDRESS THIS IN SECTION 5. THIS IS CONSISTENT WITH BONDHOLDERS’ RECOURSE BEING LIMITED TO THE UNDERLYING CASHFLOWS - IN THIS CASE, MEASURED BY REFERENCE TO THE APPLICABLE “FAIR ALLOCATION AMOUNT” AS OF THE TIME OF THE BOND ISSUANCE. ACCORDINGLY, THERE SHOULD BE NO “BALLOON REPAYMENT” ON ACCELERATION OF BONDS AND SO NEED FOR A PRE-EMPTIVE OPTION.
10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection

will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals. ACKNOWLEDGED. THE PROVINCE IS HOPEFUL THAT THE SCENARIO IN (b) WILL BE FEASIBLE AND INTENDS TO WORK TOWARDS A CLEAN PRE-APPROVAL ARRANGEMENT. IT IS LIKELY THAT THE PRE-APPROVAL WOULD BE BASED ON THE AGREEMENTS/TERMS BEING SUBSTANTIALLY EQUIVALENT TO A PRE-AGREED PATTERN. SINCE THAT CONCLUSION MAY INVOLVE JUDGMENTS, SOME SORT OF CONFIRMATION AT THE TIME OF AN OFFERING MAY BE REQUIRED TO DEMONSTRATE COMPLIANCE.

Hi Malle:
We have scheduled 3:00 in the Executive Boardroom at the OFA. I'll try and reach you this morning to get some colour on a few issues. If you could pass along time and coordinates that would be appreciated. Sorry for the confusion, but meeting has been arranged by both OPG and the OFA and has been a bit messy in terms of arranging.

Thanks, Mike

Subject: Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate." Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.

5. The requirement that the change of law have a "material" adverse effect is not acceptable.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

Hi Malle:
We have scheduled 3:00 in the Executive Boardroom at the OFA. I'll try and reach you this morning to get some colour on a few issues. If you could pass along time and coordinates that would be appreciated. Sorry for the confusion, but meeting has been arranged by both OPG and the OFA and has been a bit messy in terms of arranging.

Thanks, Mike

Have we heard that the meeting is confirmed for today and it's location?

Also Blakes had some preliminary comments on these

Not too surprised. Lots of issues to be ultimately dealt with. I'm hoping we can get an Agenda for the meeting to keep things on track.

Subject: Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate." Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.

5. The requirement that the change of law have a "material" adverse effect is not acceptable.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive

damages should be sufficient.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading “Obligation to Pay Specified Claims” versus the option to assume under the heading of “Optional Assumption”. We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

Hi Toby,

Gadi is in meetings for the rest of the morning, but perhaps I could set up a call for 11:30am for a quick chat amongst those that are available on this email chain. The term sheet must be settled today as there is a meeting tomorrow with the Deputy and CoS at Energy.

I'll set up the call.

Anna

**Subject:** RE: Provincial Protection Agreement - Dealer Comments

Please see below some preliminary comments on the Dealer's comments, in all caps after each comment.

**********

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included. THE INDENTURE TRUSTEE WILL BE THE BENEFICIARY OF WHATEVER IS ULTIMATELY SETTLED WITH OPG. THE DEALERS CONCERNS WILL BE ADDRESSED THROUGH OPG. THE PROVINCE EXPECTS THAT THE DEALERS COMMENTS AFFECTING MARKETABILITY WILL BE GIVEN CONSIDERABLE WEIGHT.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)? THE PROVINCE'S COVENANT EXTENDS ONLY TO FINANCING ENTITY PAYMENTS WHEN DUE; NOT MORE BROADLY TO PERFORMANCE AND OTHER COVENANTS OF THE FINANCING ENTITY. ON A PROTECTION EVENT, THE PROVINCE WILL BE OBLIGATED TO PAY AMOUNTS DUE AND PAYABLE BY THE FINANCING ENTITY.

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be. SEE PARA (4) UNDER PROTECTION EVENTS.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved. THE PROVINCE IS NOT DIRECTLY INVOLVED AND SO THESE DO NOT

BELONG IN THE TERM SHEET. THE PROVINCE EXPECTS THAT OPG WILL NEGOTIATE THE SPECIFIC ARRANGEMENTS SUBJECT TO THE FINANCING PLAN. AMONG OTHER THINGS, THE PROVINCE WILL WANT CONFIRMATION THAT THE STEP-UP PRICING DOES NOT RESULT IN AN ADVERSE ACCOUNTING TREATMENT OF THE TRANSACTION.

5. The requirement that the change of law have a "material" adverse effect is not acceptable. THIS POINT IS ACKNOWLEDGED. THE PROVINCE BELIEVES THIS IS NECESSARY TO PREVENT FOOT-FAULT SCENARIOS AND OPPORTUNISTIC BEHAVIOUR.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment. ACKNOWLEDGED. THE PROVINCE IS CONSIDERING ALTERNATIVES TO ADDRESS TIMELINESS CONCERNS.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient. THE PROVINCE'S OBLIGATIONS WILL BE LIMITED TO PAYING SPECIFIED AMOUNTS WHEN DUE AND PAYABLE. THE COVENANT WILL NOT EXTEND TO "MISSED OPPORTUNITY", DAMAGES ON DOWNGRADE OR OTHER SIMILAR ECONOMIC CLAIMS.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. THE PROVINCE'S OBLIGATION TO PAY INVOLVES A COLLATERAL OBLIGATION TO PAY THE FINANCING ENTITY'S SUBSISTING/ON-GOING PAYMENT OBLIGATIONS. THE OPTION TO ASSUME INVOLVES THE PROVINCE DIRECTLY ASSUMING THE FINANCING ENTITY'S OBLIGATIONS SO THAT THE PROVINCE, RATHER THAN THE FINANCING ENTITY, BECOMES THE PRIMARY OBLIGOR. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes [SEE DISTICTION ABOVE RE COLLATERAL VS. ASSUMED PRIMARY OBLIGATION OF THE PROVINCE] all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit. THE OPTION TO STEP-IN AND DIRECTLY ASSUME THE FINANCING ENTITY'S OBLIGATIONS WOULD ALLOW THE PROVINCE TO COLLAPSE THE FINANCING ENTITY STRUCTURE AND SIMPLIFY/RATIONALIZE THE ARRANGEMENTS GOING FORWARD.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be

pursued, it would need to be in this term sheet. If it is not the solution, what is the solution? THE PROVINCE ANTICIPATES THAT "FINANCE AMOUNT" (AND THEREFORE THE CORRESPONDING CEAs) WILL BE LIMITED ON AN ACCELERATION TO THE AMOUNTS WHEN DUE AND PAYABLE. THE REVISED REGULATION WOULD ADDRESS THIS IN SECTION 5. THIS IS CONSISTENT WITH BONDHOLDERS' RECOURSE BEING LIMITED TO THE UNDERLYING CASHFLOWS - IN THIS CASE, MEASURED BY REFERENCE TO THE APPLICABLE "FAIR ALLOCATION AMOUNT" AS OF THE TIME OF THE BOND ISSUANCE. ACCORDINGLY, THERE SHOULD BE NO "BALLOON REPAYMENT" ON ACCELERATION OF BONDS AND SO NEED FOR A PRE-EMPTIVE OPTION.

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals. ACKNOWLEDGED. THE PROVINCE IS HOPEFUL THAT THE SCENARIO IN (b) WILL BE FEASIBLE AND INTENDS TO WORK TOWARDS A CLEAN PRE-APPROVAL ARRANGEMENT. IT IS LIKELY THAT THE PRE-APPROVAL WOULD BE BASED ON THE AGREEMENTS/TERMS BEING SUBSTANTIALLY EQUIVALENT TO A PRE-AGREED PATTERN. SINCE THAT CONCLUSION MAY INVOLVE JUDGMENTS, SOME SORT OF CONFIRMATION AT THE TIME OF AN OFFERING MAY BE REQUIRED TO DEMONSTRATE COMPLIANCE.

**Subject:** Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like

to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.

5. The requirement that the change of law have a "material" adverse effect is not acceptable.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the *ultra vires* provision. Investors will be looking for timely payment.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?

10. We understand that the obligor approval mechanic has been deferred. Investors will need a

provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

Peter

**Subject:** FW: Provincial Protection Agreement - Final

FYI, final TB submission package attached. The DM/Minister briefing has been scheduled for Thursday morning at 9am; however, I'm looking to have it moved to today or tomorrow to accommodate Gadi's schedule. I'll be in touch if we are successful in rescheduling.

**Subject:** Provincial Protection Agreement - Final

Jonathan, Keley, Anthony,

Please find attached the final TB submission for the Provincial Protection Agreement tracking to TB/MBC on September 25. The first attachment (v9_clean) includes the submission, term sheet (in appendix), OIC, s. 28 and slide deck.

I'm bringing the hard copy package over to Legal for signature and then will drop it off to Jonathan. Note, Keley will share with Energy. A track change version (from the version the Minister of Energy already signed) is attached for Keley's reference.

Anthony, I take it you will be bringing the TB20 form to the briefing for the Minister to sign?

**<u>Provincial Protections and Assurances</u>**

**<u>Indicative Term Sheet</u>**

**<u>Ontario Fair Hydro Plan Act, 2017</u>**

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding.*

| | |
|---|---|
| **Change of Law Protection Agreement:** | A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together. |
| **Indenture Trustee:** | An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture. |
| **Beneficiaries:** | The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims. |
| **Specified Claims:** | Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval. |
| **Protection Events:** | Any of the following would constitute a Protection Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute;<br>(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the Regulation made under the Act or any portion thereof; or<br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are |

| | |
|---|---|
| | appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*);<br><br>(5) there is a change in the organization or structure of the IESO or Ontario's market undertaken at the initiative of the Province or an entity controlled by the Province,<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction [in a final and non-appealable judgement][1] determines that all or a portion of the Act or the Regulation is *ultra vires* or invalid in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to Pay Specified Claims:** | Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |
| **Subrogation:** | Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity. |

[1] Under consideration to assess the marketability implications of this phrase.

| | |
|---|---|
| **Optional Assumption:** | At any time following the occurrence of a Protection Event, the Obligor shall be entitled (but not obligated) to assume the Financing Entity's obligations in respect of Specified Claims as obligor and debtor. The Financing Entity (including through the Financial Services Manager) will ensure that Specified Claims permit such an assumption by the Obligor without any penalty or make-whole payment (or, in the case of any contract for the provision of on-going services to the Financing Entity, the satisfaction and termination of the Specified Claims without any acceleration of future fees, profits or other like amounts), or any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The process by which a Specified Claim will become subject to the Change of Law Protection Agreement will be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |
| **FIPPA:** | The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

Thank you Toby. Attached are a few comments from Torys on your re-draft of the term sheet (clean and blacklined to your version – please note that the formatting is not always clear on the blackline but the clean version is fine). One minor note on our comments – you will see that we reinserted the words "or amends" in para (C) of the definition of a Protection Event. If this was deleted because you view this as already being covered in para (D), then we are OK with the deletion.

Please note that the attached only represents Torys comments and does not reflect input from the dealers/Osler. we have sent the Osler Team your re-draft of the term sheet for their review and consideration and, in the interests of time, are cc'ing them on this email so they can also see our comments.

Best,

Rima

| **Date:** | Monday, November 13, 2017 6:36:37 PM |

Hi Anna,

Would you be setting up this meeting, and, as discussed last week, would Energy policy staff be attending so that we can get an Energy policy view on some of the key outstanding items with respect to the legal agreements?

Ron

**Subject:** RE: Provincial Protection and Process Agreements | OFA, OPCD, MOF, Energy, Legal Counsel

Hi all,

We have been reviewing the two agreements over the week-end and had call with Energy Legal and Blakes this morning. We understand that a meeting will be scheduled for tomorrow with the full group to get further instructions on the draft with Blakes' comments that was distributed to the group on Friday for review. We will use the drafts from Friday for the purposes of our meeting tomorrow because they outline the points for our consideration. Thanks.

Malle

**Sent:** November-10-17 2:00 PM

**To:** Strathy, Anna (OFA); Mayman, Gadi (OFA); Kandeepan, Ken (OFA); Hanslep, Malle (MOF); Veinot, Cindy (TBS); Manning, Mike (OFA); Kwan, Ronald (OFA); Nelms, Scott (MOF); Devine, James (OFA); Yep, Carlos (OFA); Cengarle, John (MOF); Katona, Keley (MOF); Donaldson, Mark (TBS); Zahid, Usman (OFA); Hirani, Anis (OFA); Kim, John (OFA); McKinlay, Tom (MAG); Thouin, Alena (ENERGY); 'stephen.ashbourne@blakes.com'; Gavaris, Hresa (OFA); John Psinas; Hume, Steen (ENERGY); Cayley, Daniel (ENERGY)

**Subject:** RE: Provincial Protection and Process Agreements | OFA, OPCD, MOF, Energy, Legal Counsel

Please find attached for discussion at our meeting this afternoon Blake's comments on the OPG/Dealer's comments. There are two versions. One shows a blackline against the OPG/Dealer's comments, and the other shows a blackline against what we circulated last week. Note that Stephen has not had a chance to review these in detail, so these are preliminary comments that are subject to further consideration and discussion.

Best

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER][1]**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

[1] Province to consider whether liability of OPG should be primary, or subject to the inherent limitations (e.g., duty/standard of care) implied by its role as FSM. Primary responsibility for the 'behind the scenes obligations' contemplated in this Process Agreement would be more meaningful to the extent that potential corporate liability promotes compliance .

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")~~,~~[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, ~~the FSM established~~ the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.~~1~~[2]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, ~~OPG~~[the FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to ~~OPG~~[the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations ~~OPG~~[the FSM] has agreed to perform and assurances ~~OPG~~[the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of ~~OPG~~[the FSM], and of the Province in accordance with the Act, have been done.

~~1~~[2] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) the terms used in this Agreement that are not defined in this Agreement shall have the meanings assigned to them in the Change of Law Protection Agreement;

(c) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(d) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(e) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor, [except in each case as referenced in the definition of Protection Event];

(f) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(g) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(h) all references in this Agreement to designated "Articles", "Sections", "Subsections" "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this

Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(i) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(j) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

**1.02 References to the ~~Financing Entity or the~~ Financing Entity ~~Trustee~~**

For greater certainty, each reference to the Financing Entity ~~or to the Financing Entity Trustee~~ shall be construed as a reference to the [FSM, as agent of the][3] Financing Entity Trustee, as trustee of the Financing Entity.

**1.03 Effect of Headings**

The Article and Section headings herein and are for convenience only and will not affect the construction hereof.

**1.04 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not.

**1.05 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.06 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

[3] Validity considerations if FSM effects primary agreements that in turn define the scope of its authority.

**1.07 Proceedings Against the Crown Act**

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

**1.08 Attornment**

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

**1.09 Counterparts; Electronic Delivery**

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

**1.01 Change of Law Process Agreement Referred to in the Change of Law Protection Agreement**

This Agreement is the "Change of Law Process Agreement" referred to in the Change of Law Protection Agreement.

**1.10 Non-Business Days**

Whenever any period of time would begin or end or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such period of time shall begin or end, and such other action shall be taken on the next succeeding Business Day.

**1.11 Waiver, Amendment**

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

## ARTICLE II
## COVENANTS OF ~~OPG~~THE FSM

**2.01 Deliveries to the Province**[4]

(a) Not less than [15 Business Days] prior to the initial issuance of any Funding Obligation by the Financing Entity, ~~OPG~~the FSM shall deliver to the Province a copy of the initial Financing Plan. Thereafter, ~~OPG~~the FSM shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

~~(b) Unless the Financing Entity is subject to the PILs Regime, not less than 15 Business Days prior to the initial issuance of any Funding Obligation by the Financing Entity, OPG shall deliver to the Province an analysis and assessment of the tax position of the Financing Entity. In addition, OPG shall promptly deliver written notice to the Province of any change in the Financing Entity's eligibility status under the PILs Regime and an analysis and assessment of any material change in the tax position of the Financing Entity.~~

(b) ~~(c)~~ Not less than 10 Business Days prior to (i) any proposed change or supplement to a previously provided Transaction Document becoming effective or otherwise being used or (ii) any additional or replacement Transaction Document becoming effective or otherwise being used, ~~OPG~~the FSM shall deliver to the Province a copy of such proposed change or, supplement to the Transaction Document and any such additional ~~of~~or replacement Transaction Document.

(c) ~~(d)~~ Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, ~~OPG~~the FSM shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(d) ~~(e)~~ Promptly upon request, ~~OPG~~the FSM shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

~~(f) OPG shall, as the FSM, cause the Financing Entity to deliver to the Province copies of the Financing Entity's annual tax returns (if any) and any related tax assessments not more than 10 Business Days after such a tax return or tax assessment is required to be filed under applicable law.~~[2]

[4] Province to consider OPG's proposed deletion of fallback (non-PILs) access to tax information for the Trust.

[2] ~~Note: The tax documents to be provided to the Province are under consideration.~~

**2.02 Covenants**

(a) ~~OPG shall, as the FSM,~~The FSM shall [use commercially reasonable efforts to][5] cause the Financing Entity to:

(i) punctually perform and observe all of its obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not~~, without the prior written consent of the Province~~:

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement or replacement or waiver or consent could reasonably be considered to be materially prejudicial to the rights or interests of the Province under the Change of Law Protection Agreement;

(B) consent to the resignation of ~~(1) the Administrative Agent under the Administrative Services Agreement; or (2)~~ the Manager under the Management Agreement;

(C) consolidate or merge with or into any other Person;

(D) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired;

(E) permit any Lien (other than the Security Interest) to be created on or extend to or otherwise arise upon or burden the Collateral or any part thereof or any interest therein or the proceeds thereof;

(F) sell, transfer, exchange or otherwise dispose of any of the Collateral, other than as expressly permitted by the Trust Indenture;

(G) release any security or guarantee in respect of the Collateral other than as expressly permitted by the Trust Indenture; or

[5] Province to consider lower standard for compliance proposed by OPG, particularly (ii) to (v).

(H) voluntarily dissolve or liquidate.

(b) ~~OPG~~The [FSM shall use commercially reasonable efforts to][6]:

(i) comply, and ~~as the FSM~~to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation;

(iii) after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under ~~this~~the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected; and

(iv) ensure that any disclosure (including any Disclosure Document, press release or other written communication intended for dissemination to third parties) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement will be subject to the prior review of the Province and such disclosure will not be made (and any such Disclosure Document shall not be used and any such press release or other written communication shall not be issued) without the prior written consent of the Province, in each case unless such disclosure is substantially the same as a disclosure previously made and for which the Province had previously provided its written consent under this Subsection 2.02(b)(iv).

(c) [Nothing in this Agreement shall limit the obligations of the Province under the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 and to the extent of any conflict between this Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify the FSM or the Financing Entity, the latter shall prevail. For clarity, OPG's obligations under this Agreement are solely in its capacity as the FSM.][7]

[6] Province to consider lower standard for compliance proposed by OPG.

[7] Province to consider interaction of this Agreement with the OPG indemnity. To the extent that OPG is indemnified, the impact of OPG non-compliance is significantly reduced to the extent that liability considerations are relevant to OPG.

## ARTICLE III
## PROCESS CERTIFICATE

### 3.01 Process Certificate

~~OPG~~The FSM shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of ~~OPG~~the FSM (or their respective designees, provided that such designees are also executive officers of ~~OPG~~the FSM) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Primary Obligation, and (ii) on the Business Day on which the financial terms of such Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Primary Obligation:

(a) the material terms of the Primary Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment ~~and the anticipated effect of the amendment on or in relation to the affected terms and conditions of the Primary Obligation~~, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Primary Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(e) confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection

Agreement Maximum~~.~~; [for clarity, Repayments shall not include any payments or outstanding amounts due or becoming dues in the future in respect of any Primary Obligations arising under or in connection with a Derivative Agreement].[8]

**3.02 Acknowledgment**

The parties acknowledge that the Process Certificate is the certificate referred to in Subsection 4.02(d~~)(ii~~) of the Change of Law Protection Agreement.

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to ~~OPG~~the FSM; and

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(~~e~~b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to ~~OPG~~the FSM.

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation [that would be adverse to the Issuer][9], including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters;

[8] This requires further consideration. This could cut both ways to the extent non-CAD deals are done and the FX is hedged.

[9] Province to consider if OPG should be empowered to make this qualitative judgment on behalf of the Province.

(b) with respect to the Reviewed Documentation referred to in clauses (v) to (ix) of the definition of "Transaction Documents", and, where applicable, clauses (x) and (xi) of the definition of "Transaction Documents" as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of the Primary Obligations arising thereunder and as to the timing, conditions and circumstances in which payment obligations under such Primary Obligations may arise, but without regard to the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(c) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

### 4.01 Protection Agreement Maximum[10]

~~(a) The initial Protection Agreement Maximum shall be determined by the Province prior to the initial issuance of the first Funding Obligation. The initial Protection Agreement Maximum will be confirmed by the Province by notice in writing to OPG, as the FSM.~~

(a) ~~(b)~~ [Not less than [■] Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the ~~applicable~~ Financing Plan (the "**Initial Forecast**"). ~~In determining the initial Protection Agreement~~

[10] Province to consider OPG's proposal for Program Agreement Maximum. In effect, the discretion of the Province is removed and the limiter is tied directly to OPG's forecast (to be consistent with the financing plan required by the Act). This means that the Province has no independent escape hatch to limit its potential fiscal exposure under the Protection Agreement. As discussed, the actual exposure will depend on the determinations to use the IESO sale mechanics to fund shortfalls – in other words, if IESO were to not sell investment interests, then the corresponding funding obligations subject to the Protection Agreement would not arise. Note that the financing plan is almost entirely within OPG's discretion and is based on long-term estimates that assume maximum use of the IESO sale mechanics. Has the Province confirmed that committing to this arrangement for the term (30 years) of the OFHPA, without a limiter that is within the Province's control, will not result in a huge contingent liability being booked in the Province's accounts (i.e., maximum fundings for 30 years)? Has the Province determined whether there are other internal governance reasons to require an escape hatch for the purposes of its fiscal management purposes? Note that Protection Events are not all within the Government's control (e.g., *ultra vires* and invalidity issues).

Maximum, the Province may have regard to (but not be bound by); and (ii) notice of the initial Protection Agreement Maximum which shall be based on the Initial Forecast.

(b) Not more than [■] Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province shall confirm its agreement with the initial Protection Agreement Maximum or if the Province does not agree with the determination of the initial Protection Agreement Maximum, which disagreement may only be on the basis that the Initial Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the initial Protection Agreement Maximum will be revised accordingly.]

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum based on such Forecast.

(d) Upon receiving an updated Forecast, the Province shall determine whether or not the Protection Agreement Maximum will beNot more than [■] Business Days following receipt of any further Forecast and notice of the revised. In determining whether the Protection Agreement Maximum will be revised, the Province may have regard to (but not be bound by) such updated Forecast. Any determination by the Province to revise the Protection Agreement Maximum will be confirmed by setting out a new Protection Agreement Maximum in a written notice from the Province to the FSM and the Indenture Trustee, the deliveryfrom OPG pursuant to Section 4.01(c), the Province shall confirm its agreement with the revised Protection Agreement Maximum or if the Province does not agree with the determination of the revised Protection Agreement Maximum, which will be conclusive evidence that such newdisagreement may only be on the basis that the further Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the revised Protection Agreement Maximum will apply until it may be further sobe revised accordingly.

## ARTICLE V
## REPRESENTATIONS AND WARRANTIES

### 5.01 Representations and Warranties of ~~OPG~~the FSM

~~OPG~~The FSM represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, shall [use commercially reasonable efforts to] cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

~~(b)~~ [OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto and to own its property and carry on its business as currently conducted.

~~(c)~~ OPG has been validly appointed, and has irrecovably accepted such appointment, as the FSM in accordance with the Act. OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.][11]

(c) ~~(d)~~ The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation of ~~OPG~~[the Financing Entity enforceable against ~~OPG~~the Financing Entity][12] in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(d) ~~(e)~~ There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting ~~OPG (including in its capacity as the FSM) or~~ the Financing Entity at law or in equity or before or by any Governmental

[11] Province to consider carve back of OPG reps and liability issues with role as FSM only.
[12] Focus was on OPG. They shifted it to the Trust.

Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(e) [There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG (including in its capacity as the FSM) or the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or the Financing Entity or in the ability of OPG or the Financing Entity to perform their respective obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.][13]

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) [Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.][14]

(i) [No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or

[13] Province to consider carve back of OPG reps and liability issues with role as FSM only.
[14] Deleted by OPG. Province to consider.

any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.][15]

## 5.02 Representations and Warranties of the Province[16]

The Province hereby represents and warrants that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement does not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including, without limitation, under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

# ARTICLE VI
# ELECTION[17] TO ASSUME APPROVED OBLIGATIONS[18]

## 6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) ~~to~~ elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to ~~OPG~~the FSM a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify

[15] Deleted by OPG. Province to consider.

[16] Province to consider OPG's request for these representations. Does the Province make these sorts of representations in a commercial agreement? To the extent that the Province makes a statement (such as 5.02(d)) that is not caveated by the usual considerations applicable to a Crown obligation, the parallel rep requested in the Protection Agreement could be held out as a misstatement and itself provoke a "Protection Event" – suggesting that these sorts of "nice to have" reps from the Province will be more work (and potentially dangerous) than they are worth.

[17] Province to consider OPG's proposal to move Art VI to the Protection Agreement. The approach taken originally was motivated by the desire to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee), but should otherwise be fine in principle.

[18] Note to Province/Blakes: Article 6 to be moved and merged with Article 6 of the Change of Law Protection Agreement with appropriate revisions. It is more appropriate in that agreement. See also the comments in Article 6 of the Change of Law Protection Agreement.

the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to ~~OPG~~the FSM (the "**Proposed Assumption Date**").

**6.02 Details regarding Obligations Secured**

Promptly following the delivery of the Election Notice to ~~OPG~~the FSM, ~~OPG~~the FSM shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) ~~a draft version of~~ the form of Assumption Agreement ~~prepared in relation to each Obligation Secured, prepared in accordance with and having regard to the requirements of the relevant agreement(s) under which the Obligation Secured arises.~~in respect of the assignment and assumption of all Obligations Secured is attached as Exhibit E to the Change of Law Protection Agreement.[19]

[19] Note to Province: A form of global Assumption Agreement for all Obligations Secured is required. It is impractical to have an assumption agreement for each type of Obligation Secured. Province: We can be guided by OPG on this, but it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations. Ultimately, this is a mechanics point.

### 6.03 Settlement of Terms

Within 20 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

### 6.04 Cooperation to Implement the Assignment and Assumption

~~OPG~~The FSM shall cooperate with the Province and~~, as FSM,~~ will [use commercially reasonable efforts to][20] cause the Financing Entity to cooperate, and~~ each~~ shall use its ~~best~~commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.~~3~~[21]

### 6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, ~~OPG will, and as~~the FSM~~,~~ will use commercially reasonable efforts to cause the Financing Entity to, [use commercially reasonably efforts to] ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity~~,~~ permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts~~.~~[4], other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[22]

[20] Province to consider scope of commitment.

~~3~~[21] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.

~~4~~[22] Note: The Trust Indenture will need to include a clause providing that the obligations of the Financing Entity to the Indenture Trustee and the Noteholders may be assigned to the Province in accordance with an assumption agreement, substantially in the form set out in an exhibit to the Trust Indenture. **[NTD: The form of Assumption Agreement shall be an exhibit to the Change of Law Protection Agreement (consistent with our comment to move Article 6 here to the Change of Law Protection Agreement). We will add the following to the MTI to otherwise address your comment: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured pursuant to Sections 5.01(f) and 5.03(b) of the MTI, and (ii) we will add language in section 11.01 of the MTI that allows the Indenture Trustee to enter into the global Assumption Agreement without the consent of Specified Creditors.]**

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of ~~OPG~~the FSM under this Agreement ~~(including in respect of its role as FSM under any Program Agreement)~~[which continues for sixty (60) days after written notice by the Province to the FSM of such default or breach][23];

(b) any representation or warranty made by ~~OPG~~the FSM in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section 4.03 of the Change of Law Protection Agreement, proves to be incorrect on the date made [and, if curable, is not cured within sixty (60) days after written notice by the Province to the FSM of such misrepresentation][24]; or

(c) OPG is no longer the ~~FSM, the Administrative Agent or the~~ Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as ~~the FSM, the Administrative Agent or~~ the Manager. **[NTD: The FSM is a statutory role and OPG can only be removed as FSM by the Province.][25]**

### 7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to ~~OPG~~the FSM, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

## ARTICLE VIII
## MISCELLANEOUS

### 8.01 Term of Agreement

This Agreement will continue for the term of the Change of Law Protection Agreement.

[23] Province to consider proposed 60 day cure period. This is an extraordinary suggestion and if accepted would greatly weaken the Province's ability to address a problem in the unlikely event one comes up with OPG.

[24] Extraordinary suggestion by OPG – weakens Province.

[25] This should be considered. If true, it is unclear why that should make a difference – in terms of enabling the Province to cut-off its forward obligations in the event of a fundamental problem or circumstance (change of control) that leads to a replacement of OPG as FSM.

**8.02 Notices**

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to ~~OPG~~the FSM:

Ontario Power Generation Inc.
700 University Avenue
Toronto, Ontario M5G 1X6
Attention: [■]
Fax: (416) [■]
Email: [■]

(b) if to the Province:

Ministry of Finance
[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

and

Ministry of Energy
[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 8.02.

**8.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties.

(b) Any purported assignment of this Agreement in violation of this Section 8.03 shall be null and void.

**8.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**8.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

**8.06 ~~Confidentiality~~[5] Intentionally Deleted[26]**

**8.07 Delivery of Executed Copies**

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

[5][26] To be considered based on what would be customary and appropriate for similar types of arrangements and would be acceptable to the Province. **[NTD: The existence and details of this Agreement and the Change of Law Protection Agreement cannot be confidential. It will need to be disclosed to the Rating Agencies and to potential investors.][Province: That circle should still be protected through carve-outs from ordinary non-disclosure terms and conditions. Province to consider if confidentiality is a concern. It was included as a consideration in the term sheet.]**

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

**SCHEDULE A**
**DEFINED TERMS**

"**Act**" has the meaning ascribed thereto in the first paragraph of the recitals in this Agreement.

"**Adherence Conditions**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

~~["**Administrative Agent**" has the meaning ascribed thereto in the Change of Law Protection Agreement.]~~

~~["**Administrative Services Agreement**" has the meaning ascribed thereto in the Change of Law Protection Agreement.][6]~~

"**Approved Obligation**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Assumption Agreement**" has the meaning ascribed thereto in Section 6.01.

"**Assumption Closing Date**" has the meaning ascribed thereto in Section 6.03.

"**Beneficiaries**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Breach Event**" has the meaning ascribed thereto in Section 7.01.

"**Business Day**" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by applicable law, regulation or executive order to be closed.

"**Change of Law Protection Agreement**" means the Change of Law Protection Agreement dated [■], 2017 among the Province, the FSM on behalf of the Financing Entity~~, the FSM~~ and the Indenture Trustee.

"**Collateral**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Co-Owner Agreement**" means any agreement between, *inter alia*, the Financing Entity and any other owner or owners of an Investment Interest as contemplated by Subsection 29(5) of the Act.

"**Declaration of Trust**" means the declaration of trust made as of [■], 2017 under which the Financing Entity was established.

"**Derivative Agreement**" means any rate swap transaction, basis swap, forward rate transaction, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction,

[6] ~~Note: To be confirmed if required.~~

collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, total return swap transaction, credit default swap transaction or any other similar transaction (including any option with respect to any of those transactions) or any combination of these transactions entered into from time to time by the Financing Entity in connection with or related to Funding Obligations.

"**Disclosure Document**" means a disclosure document (including any offering circular, prospectus or other investor disclosure statement) describing the material terms of the notes, bonds or securities to be issued pursuant to a supplemental indenture under the Trust Indenture, together with any related material information;

"**Election Notice**" has the meaning ascribed thereto in Section 6.01.

"**Financing Entity**" means ~~[■]~~Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario and under which the Financing Entity Trustee is the trustee.

"**Financing Entity Trustee**" means, at any time, the Person who is, in accordance with the Declaration of Trust, the trustee of the Financing Entity at such time.

"**Financing Plan**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Forecast**" has the meaning ascribed thereto in Section 4.01(c).

"**FSM**" has the meaning ascribed thereto in the second paragraph of the recitals of this Agreement.

"**Funding Obligation**" has the meaning ascribed to the term "funding obligation" in the Act as of the date of this Agreement.

"**General Regulation**" means O. Reg. 206/17 made under the Act.

"**Governing Document**" has the meaning ascribed to the term "governing document" in the General Regulation.

"**Governmental Authority**" means any nation or government, any federal, state, provincial, local or other political subdivision thereof and any court, administrative agency or other instrumentality or entity exercising executive, legislative, judicial, regulatory or administrative functions of government.

"**IESO**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Indenture Trustee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Initial Forecast**" has the meaning ascribed thereto in Section 4.01(~~b~~a).

"**Initial Forecast Period**" has the meaning ascribed thereto in Section 4.01(~~b~~a).

"**Investment Interest**" has the meaning ascribed to the term "investment interest" in the Act as of the date of this Agreement.

"**Legislature**" means the Legislature of the Province of Ontario.

"**Lien**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Limited Guarantee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

~~[~~"**Management Agreement**" has the meaning ascribed thereto in the Change of Law Protection Agreement.~~]~~

~~[~~"**Manager**" has the meaning ascribed thereto in the Change of Law Protection Agreement.~~]~~[7]

"**Master Transfer and Servicing Agreement**" means the master transfer and servicing agreement dated [■], 2017 between the Financing Entity and IESO~~, and acknowledged and accepted by the Indenture Trustee~~.

"**Obligations Secured**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**OPG**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Person**" means any individual, corporation, limited liability company, estate, partnership, joint venture, association, joint stock company, trust (including any beneficiary thereof), unincorporated organization or Governmental Authority.

~~"**PILs Regime**" means the Payment in Lieu of Taxes regime contemplated under the *Electricity Act* (Ontario).~~

"**Primary Obligations**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Process Certificate**" has the meaning ascribed thereto in Section 3.01.

"**Program Agreements**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Proposed Assumption Date**" has the meaning ascribed thereto in Section 6.01.

~~[7]Note: To be confirmed if required. Also note that the draft Trust Indenture refers to OPG as the "manager" (rather than "Financial Services Manager" as under the Act). To be reconciled.~~

"**Protection Agreement Maximum**" means the dollar amount ~~determined by the Province and of which OPG is provided written notice~~[referenced as the Program Agreement Maximum in accordance with Article IV].

"**Protection Event**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Province**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Rating Agency**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Reviewed Documentation**" has the meaning ascribed thereto in Section 3.03.

"**Repayment**" has the meaning ascribed ~~thereto~~to the term "repayment" in the General Regulation as of the date of this Agreement.

"**Security Interest**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Specified Creditors**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Substantially in the Form**" has the meaning ascribed thereto in Section 3.04.

"**Suspension Notice**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**this Agreement**" means this agreement, as amended, supplemented, restated or otherwise modified from time to time.

"**Transaction Document**" means (i) all constating and organizational documents of the Financing Entity, including the Declaration of Trust; (ii) any management, administration or servicing agreement to which the Financing Entity is a party, including any replacement or standby services agreement~~, the Administrative Services Agreement~~ and the Management Agreement; (iii) the Master Transfer and Servicing Agreement ~~between the Financing Entity and the IESO~~; (iv) Trust Indenture; (v) the form of supplemental indenture (supplemental to the Trust Indenture) governing the terms and conditions of a sample series of notes, bonds or other securities to be issued by the Financing Entity, including the particular allocations, security and priority of the Obligations Secured being serviced by the related Investment Interest and any other related series property; (vi) the form of any note, bond or securities purchase agreement; (vii) the form of underwriting agreement, agency agreement, selling agreement and/or subscription agreement that may be used with respect to a sale of a related series of notes, bonds or securities to be issued under the supplemental indenture referred to in (v), above; (viii) the form of any loan or credit agreement governing the issuance of short term loan obligations by the

Financing Entity; (ix) the form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; (x) the form of any other agreement or instrument under which a Funding Obligation may arise or be effected, including any other agreement under which the Financing Entity incurs a material financial obligation or that affects the Province's subrogation rights and/or subrogee interests, including any standby liquidity arrangements or credit enhancement agreements; (xi) if applicable, a Co-Owner Agreement or any other agreement governing the respective interests of persons having rights or interests in the investment asset or other assets of the Financing Entity, including any other agreement of the sort contemplated in Subsection 29(5) of the Act; and (xii) the form of Disclosure Document.

"**Trust Indenture**" means the trust indenture between the Financing Entity and the Indenture Trustee dated as of [■], 2017.

**EXHIBIT A**
**FORM OF ELECTION NOTICE**

~~**(form of Assumption Agreement to be attached, once settled)**~~

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**[FINANCING ENTITY TRUSTEE] IN ITS CAPACITY AS TRUSTEE OF THE [FINANCING ENTITY]**

**FAIR HYDRO TRUST[1], BY ITS MANAGER, ONTARIO POWER GENERATION INC.**

**AND**

**ONTARIO POWER GENERATION INC., AS FINANCIAL SERVICES MANAGER**

**AND**

**[NAME OF INDENTURE TRUSTEE]BNY TRUST COMPANY OF CANADA, AS INDENTURE TRUSTEE**

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

[1] "Trustee" is the "legal entity". Trustee itself should sign all primary documents to make "manager" delegation meaningful and to avoid invalidating the Trust as a "trust".

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), ~~**[FINANCING ENTITY TRUSTEE]**~~Ontario Power Generation Inc., as the ~~Financing Entity Trustee~~Manager and in its capacity as ~~trustee of the **[FINANCING ENTITY]**~~Manager of Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc. in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and ~~**[INDENTURE TRUSTEE]**~~BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee and in its capacity as trustee for the Beneficiaries in accordance with the Trust Indenture, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the ~~FSM established the~~ Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The FSM, as agent of the Financing Entity Trustee, in its capacity as trustee of the Financing Entity ~~in its capacity as Financing Entity Trustee,~~ and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

[2] See OFHPA, definition of "financing entity". FSM to establish or cause to be established. Needed for authority under OFHPA 5(3), among other things.

~~OPG~~The FSM[3] and the Province will concurrently enter into the Process Agreement, under which ~~OPG~~the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the ~~Financing Entity Trustee, the~~ FSM[4] and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(c) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(d) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor, [except in each case as referenced in the definition of Protection Event][5];

[3] Need to confirm parties to the Process Agreement. OPG, acting as FSM, implies potential limitation on OPG's liability.
[4] Deletion of the Trust as a party is unacceptable since would impact Province's rights against Trust's assets (e.g., as a subrogee).
[5] Covered in preamble, so delete.

(e) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(f) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(g) all references in this Agreement to designated "Articles", "Sections", "Subsections", "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(h) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(i) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

### 1.02 Trustee to act in accordance with the Trust Indenture

Any action taken, required to be taken or permitted to be taken by the Indenture Trustee under this Agreement shall only be taken in the manner, at the times, for the purposes, subject to the prerequisites, conditions, requirements and limitations, and with the benefits, exculpations, indemnities and protections that are provided to the Indenture Trustee, in each case in respect of such action taken, required to be taken or permitted to be taken by it under the Trust Indenture.[6]

### 1.03 Proof of Approved Obligations

The efficacy of any agreement, instrument or writing evidencing a Primary Obligation may, in the absence of manifest error, be conclusively proved in any manner that the Indenture Trustee deems to be sufficient.

Any statement of account prepared by the Indenture Trustee as regards the Primary Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due and payable by the Financing Entity to the Beneficiaries and/or the Indenture Trustee and the Province hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Indenture Trustee agrees to provide the Province

[6] Enforcement of the Limited Guarantee under this Agreement must be limited to enforcement by the Indenture Trustee on behalf of the Beneficiaries. The Trust Indenture should deal with the manner and limitations on the Indenture Trustee's actions with respect to enforcement.

with the computations and calculations used by the Indenture Trustee to prepare each such statement of account promptly following a request therefor.

### 1.04 Limitation on Rights of and Actions by Specified Creditors

Specified Creditors, as Beneficiaries, shall not have or be permitted to exercise any rights, interests, or elections under this Agreement, other than in the manner and to the extent effected and exercised through the Indenture Trustee under, in accordance with and subject to the limitations set forth in the Trust Indenture. No Specified Creditor will have any right to institute any proceeding, judicial or otherwise, with respect to this Agreement.[7]

### 1.05 Province Retains Rights of Beneficiaries

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other ~~agreement~~Funding Obligation Agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province upon performance by the Province of the Primary Obligation. [To the extent of any conflict between this Agreement and the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 in respect of any matter relating to the Province's obligations to indemnify the FSM or the Financing Entity, the latter shall prevail.][8]

### 1.06 Effect of Headings

The Article and Section headings herein are for convenience only and will not affect the construction hereof.

### 1.07 Successors and Assigns

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

### 1.08 Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable

[7] There is no intention to provide a separate cause of action for individual Beneficiaries.

[8] Explanation required. Indemnity is a separate cause of action and should not limit the Province's primary entitlements under this Agreement, opposite the Trust and the Indenture Trustee. If an override in favour of OPG is contemplated, that should be clearly set out and understood. This provision confuses concepts. In any event, the Trust is not a party to or a protected person under the indemnity.

with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

### 1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

### 1.10 Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

### 1.11 Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

### 1.12 Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

### 1.13 Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

### 1.14 Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

### 1.15 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

### 1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

### 1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

### 1.18 References to Acts of the Financing Entity ~~Trustee~~

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity ~~or the Financing Entity Trustee, as trustee of the Financing Entity,~~ is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to ~~(i)~~ the Financing Entity ~~or (ii) the Financing Entity Trustee~~, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the FSM as agent for the Financing Entity Trustee (in its capacity as trustee of the Financing Entity~~-~~). **[NTD: Discuss whether the Financing Entity Trustee should be a party to this Agreement and references to the Financing Entity Trustee re-inserted into this section and others.]**[9]

[9] Otherwise validity of Trust obligations becomes questionable and opinion qualifications would become likely. Revert to Blakes language.

### 1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the ~~Financing Entity~~Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred][10][owing][11] from time to time by the Financing Entity to the Indenture Trustee as and

[10] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected. This language is an alternative to the simple drafting approach contemplated in the term sheet ("without acceleration"), and is more complex. It would also make the new "additional amount" (i.e., extra amounts up to the FAA) part of the Province's obligations, which has not been contemplated by the OFA to date and will need to be considered separately.

[11] This would mean that the entire amount of the Notes would become payable, as a balloon. That is not the deal.

when they become due and payable[, without Acceleration~~1~~][12]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation[, ~~(~~without Acceleration~~),~~][13] in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred] [owing] by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[~~2~~14], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the ~~Collection Account~~ [Protection Account][15] [5 Business Days prior to the fifteen day of each calendar month][16] (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

[1] ~~Consider~~[12] This is a simpler and preferred formulation for the relevant concept. Also, consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[13] If alternative approach is preferred (as described above), this will also need to be modified.

[~~2~~14] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.

[15] Addition of Protection Account step will require further consideration. Province needs to see how the Trust Indenture will be modified to address this mechanically (i.e., part of the Collateral; mechanics of how funds move to Collection Account; equitable claims; etc. Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights).

[16] Delete. Province will pay on the date amounts would have otherwise been paid; not in advance.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 ~~Gross-up~~Intentionally Deleted.**

~~[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.]~~[3]

**2.03 Absence of Set-off**

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into ~~Collection~~Protection Account[17] in Satisfaction**

(a) [On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement.

[3] ~~Under consideration.~~

[17] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture as if it were an Issuer Account.]

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[4] Upon a payment having been made by or on behalf of the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[~~5~~18]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

[4] ~~This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently.~~

[~~5~~18] Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee under this Agreement. Please see our addition in Section 9.08. The Specified Creditors already make the necessary acknowledgement in Article 5 of the Trust Indenture. Isn't this also addressed in section 1.03 above?

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

### 2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

### 2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

### 2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03~~]~~.

### 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if ~~(a)~~ the Adherence Conditions applicable thereto have been satisfied~~; or (b) the Province has specifically approved in writing the particular terms, conditions and documentation for the Primary Obligation~~.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments~~6~~[19] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of

~~6~~[19] Use of the concept of "repayments" under the OFHPA for this purpose is under consideration.

Repayments under Approved Obligations, do not exceed the Protection Agreement Maximum;[20]

(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, one Business Day prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG [and, for clarity, such certificate is to be provided in OPG's capacity as FSM][21]) and addressed to the ~~Province and the~~ Indenture Trustee and the Province[22], one Business Day prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to the Primary Obligation:

i. confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation (if any), together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum[23]; and

ii. confirmation that [the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province][ the FSM has delivered

[20] Province needs this to be part of the adherence process opposite the indenture trustee. Since the PAM will be objectively determined and within the knowledge of the indenture trustee (as contemplated in para (c)), this should not raise practical constraints. This is analogous to current procedures undertaken in connection with the incurrence of provincial obligations, where the conditions to issuance involve specific affirmation that the issuance is within the prescribed borrowing limit.

[21] OPG's capacity in certifying is under consideration, having regard to the inherent limitations associated with actions undertaken as FSM.

[22] Certificate is intended as Province's closing due diligence and so needs to be addressed and delivered to Province. Otherwise Province will need to become directly involved in the closing process. Province is prepared to rely on OPG for this purpose to accommodate OPG's logistical concerns, but that does not mean that Province can be removed from the closing process altogether, without the benefit of these required affirmations.

[23] Province wants OPG to specifically confirm this at the time of closing, to support the Province's reliance on OPG for this critical purpose.

to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement][24]; and

(e) the Province has not provided a Suspension Notice to the Indenture Trustee[25], the FSM and the Financing Entity in accordance with the terms of this Agreement.

(f)

(g) , confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(h) **[NTD: This is more properly dealt with in Section 8.02 of this Agreement.]**.

### 4.03 Evidence of Satisfaction

A closing certificate ~~signed by at least two executive officers of OPG~~delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be ~~defect~~defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## ~~RIGHTS OF THE~~ PROVINCE MATTERS

### 5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation:

i. ~~(a)~~ to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

ii. ~~(b)~~ as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, **[NTD: This requires further discussion depending on the terms of the assignment and assumption agreement. If the Obligations Secured are assigned and assumed by the Province under Article VI, how would the Province be subrogated and entitled**

[24] The intention was not to incorporate specific terms of the Process Agreement into the Protection Agreement, to avoid the need for investors, relying on the Protection Agreement, to be concerned about its contents. If there is a preference to hard-code the Process Agreement in the Protection Agreement, the Province will not object but further drafting considerations will arise.

[25] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province can cut-off future Limited Guarantees opposite the indenture trustee.

**to the Beneficiary's rights and interests under the Approved Obligation? Consider limiting the application of this section 5.01 to the Limited Guarantee.]** [26]

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a ~~secured party~~Specified Creditor under the Trust Indenture~~)~~ on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including~~, if applicable, as a Noteholder~~ as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

[26] The idea is that if the Province steps in and becomes the obligor, it will get all of the underlying interests in the Trust's property (i.e., "interests … in respect of the Approved Obligation" = collateral). If this seems confusing, a parallel provision can be added to Art VI to address the step-in scenario specifically. Discussion of any concerns will be useful.

## 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

## 5.03 Voting Rights under "Outstanding Notes"

**[Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[7][27]:**

(a) **Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and**

(b) **in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.] [NTD: To be discussed. Explanation required regarding why not restricting these voting rights to the Province may affect the marketability of the debt under this program.]**

## 5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[8][28] **[NTD: Discussion required as to how these repayments will be dealt with under the MTI, and in particular, under the waterfall provisions.]**

[7][27] This concept needs to be reflected in the Trust Indenture. This requires further discussion (see NTD above).

[8][28] General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

## 5.05 Representations and Warranties

The Province hereby represents and warrants[29] that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement and the completion of the transactions contemplated hereby do not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

# ARTICLE VI
# NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

## 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

## 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[930]

## 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee, but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. **[NTD: Need to move Article VI**

[29] Province input required.

[930] Further details regarding obtaining of third party consents and rating agency approvals to be considered.

**of the Change of Law Process Agreement into this Article VI and amend accordingly.[31] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.[32]]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

### 7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

### 7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize

[31] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[32] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

**7.04 Release of all Collateral[33]**

(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.

(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.

**7.05 Right to Notice and Attend Meetings[34]**

The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.

**[Note: Any right to such matters will be the general rights of Specified Creditors[35] as set out in the Trust Indenture.]**

[33] Before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs to know that the Collateral available to it as a subrogee/assignee will be protected. Province may have different interests than Specified Creditors, who may make concessions based on the protections under this Agreement being available to them in lieu of the Collateral.

[34] Again, before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs information that could affect its future rights as a subrogee/assignee. This is not a voting right; rather just a right to know what is going on. Why a problem?

[35] As explained above, Province needs rights prior to a Protection Event.

## ARTICLE VIII
## SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

### 8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**"):

(a) shall be provided by the FSM ~~or~~to the Province ~~to~~and the Indenture Trustee promptly following the occurrence of a Program Breach;

(b) may be provided by the Province to the Indenture Trustee upon the Province becoming aware of the occurrence of a Program Breach; and

(c) ~~(b)~~ may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the ~~Financing Entity~~Limited Guarantee shall not ~~incur~~apply in respect of any ~~new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province~~Obligation Secured incurred on or after the time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred on or after the time such Suspension Notice is delivered.

### 8.03 Termination Notice

On the earlier to occur of (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").[36]

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

[36] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

## ARTICLE IX
## MISCELLANEOUS

### 9.01 Term of Agreement

This Agreement will continue until the later of:

(a) the date that no amount is or may become due and payable by the Province under the Limited Guarantee; and

(b) the date that a Termination Notice delivered in accordance with Section 8.03 is received by the Indenture Trustee, the FSM and the Financing Entity.

### 9.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to the Financing Entity:

~~[Financing Entity]~~

~~c/o Ontario Power Generation Inc.~~

Fair Hydro Trust

700 University Avenue

Toronto, Ontario M5G 1X6
Attention: [■]
Fax: (416) [■]
Email: [■]

with copies to:

~~[Financing Entity Trustee]~~Computershare Trust Company of Canada, in its capacity as Financing Entity Trustee for ~~[Financing Entity]~~
~~[Address]~~Fair Hydro Trust
100 University Avenue, 11th Floor
Toronto, Ontario M5J 2Y1
Attention: [■]
Fax: (416) [■]
Email: [■]

[■]

(b) if to the FSM:

Ontario Power Generation Inc.

700 University Avenue

Toronto, Ontario M5G 1X6

Email: [■]

(d) if to the Indenture Trustee:

[Address]

Attention: [■]
Fax: (416) [■]
Email: [■]

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 9.02.

**9.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties, except as otherwise provided for herein.

(b) Any purported assignment of this Agreement in violation of this Section 9.03 shall be null and void.

**9.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**9.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

**9.06 No Petition**

The Province agrees, to the fullest extent permitted by applicable law, that at no time until one year and one day following repayment in full of all Primary Obligations shall it commence, or join in commencing, a bankruptcy case or other insolvency or similar proceeding under the laws of any jurisdiction against the Financing Entity.

**9.07 ~~Force Majeure~~Intentionally Deleted**

~~In no event shall the Indenture Trustee or the Financing Entity Trustee be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation, strikes, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God, and interruptions, loss or malfunctions of utilities, communications or computer (software and hardware) services; it being understood that the Indenture Trustee and the Financing Entity Trustee shall use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances.~~

## 9.08 Third Party Rights

This Agreement is not intended to create rights for any Person not party to this Agreement. Beneficiaries are not parties to this Agreement and accordingly any benefits derived hereunder shall arise exclusively through the Indenture Trustee and shall be subject to the provisions applicable to Specified Creditors in the Trust Indenture. **[NTD: Consider merging this section 9.08 with section 1.03.]**

## 9.09 ~~9.08~~ Delivery of Executed Copies

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

**SCHEDULE A**
**DEFINED TERMS**

"**Acceleration**" has the meaning ascribed to the term "acceleration"[10]37 in the General Regulation.

"**Act**" has the meaning ascribed thereto in the first paragraph of the recitals in this Agreement.

"**Action**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Adherence Conditions**", in respect of a Primary Obligation, means the conditions set out in Section 4.02.

~~["**Administrative Agent**" means OPG, in its capacity as administrative agent of the Financing Entity under the Administrative Services Agreement.]~~

~~["**Administrative Services Agreement**" means the administrative services agreement dated [■], 2017 between the Financing Entity and the Administrative Agent concerning the reimbursement of certain costs incurred by the Administrative Agent in connection with the administration of the Financing Entity.]~~[11]

"**Approved Obligation**" means a Primary Obligation that constitutes an Approved Obligation pursuant to Section 4.01.

"**Assumption Closing Date**" has the meaning ascribed thereto in Section 6.01.

"**Assumption Effective Date**" has the meaning ascribed thereto in Section 6.03.

"**Assumption Notice**" has the meaning ascribed thereto in Section 6.01.

"**Available Collections**" has the meaning ascribed thereto in the Trust Indenture.

"**Beneficiaries**" means the Specified Creditors to whom the Financing Entity owes a payment obligation pursuant to one or more Approved Obligations from time to time.

"**Breach Event**" [means the occurrence or existence of any one or more of the following: (a) a default in the performance, or breach, of any covenants of [OPG] under the Process Agreement; or (b) any representation or warranty made by [OPG], any certification made by [OPG] under the Process Agreement, or any certification made by [OPG] in a certificate contemplated by Section 4.03 of this Agreement, proves to be incorrect in any material respect on the date made; or (c) OPG is no longer the FSM, the Administrative Agent or the Manager or actions have been taken

[10]37 Note: A proposal to add this concept into the Regulation is under consideration by MOE. Further modifications to follow, depending on that process.

[11] ~~Note: To be confirmed if required.~~

by or on behalf of the Indenture Trustee to remove OPG as the FSM, the Administrative Agent or the Manager.][has the meaning ascribed thereto in the Process Agreement.][38]

"**Business Day**" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by applicable law, regulation or executive order to be closed.

"**Capital Account**" has the meaning ascribed to the term "capital account" in the General Regulation.

"**Change of Law Protection Agreement**" means this Agreement.

"**Collateral**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

[["**Collection Account**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.][39]

"**Declaration of Trust**" means the declaration of trust made as of [■], 2017 under which the Financing Entity was established.

"**Derivative Agreement**" means any rate swap transaction, basis swap, forward rate transaction, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, total return swap transaction, credit default swap transaction or any other similar transaction (including any option with respect to any of those transactions) or any combination of these transactions entered into from time to time by the Financing Entity in connection with or related to Funding Obligations.

[["**Eligible Deposit Account**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.]

[["**Eligible Institution**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.]

"**Finance Amount**" has the meaning ascribed to the term "finance amount" in the Act as of the date of this Agreement.

"**Finance Reserve Account**" has the meaning ascribed to the term "finance reserve account" in the General Regulation.

"**Financing Entity**" has the meaning ascribed thereto in the first paragraph of this Agreement.

[38] Consider longer version to avoid hard-coding Process Agreement into this Agreement.
[39] Confirm, vs use of a Protection Agreement.

"**Financing Entity Trustee**" means, at any time, the Person who is, in accordance with the Declaration of Trust, the trustee of the Financing Entity at such time.

"**FSM**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Funding Obligation**" has the meaning ascribed to the term "funding obligation" in the Act as of the date of this Agreement.

"**Funding Obligation Agreement**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**General Regulation**" means O. Reg. 206/17 made under the Act.

"**Governmental Authority**" means any nation or government, any federal, state, provincial, local or other political subdivision thereof and any court, administrative agency or other instrumentality or entity exercising executive, legislative, judicial, regulatory or administrative functions of government.

"**IESO**" has the meaning ascribed thereto in the Act.

"**Indenture Trustee**" means the Person named as the Indenture Trustee in the first paragraph of this Agreement until a successor Indenture Trustee shall have become such pursuant to the applicable provisions of the Trust Indenture and this Agreement, and thereafter "Indenture Trustee" means and includes such Person.

"**Investment Interest**" has the meaning ascribed to the term "~~Investment Interest~~investment interest" in the Act as of the date of this Agreement.

"**Issuer Account**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

~~[~~"**Management Agreement**" means the management agreement dated [■], 2017 between the Manager and the Financing Entity.~~]~~

~~[~~"**Manager**" means OPG, in its capacity as manager of the Financing Entity under the Management Agreement.~~]~~[12]

"**Master Transfer and Servicing Agreement**" means the master transfer and servicing agreement dated [■], 2017 between the Financing Entity and IESO, ~~and acknowledged and~~

[12] ~~Note: To be confirmed if required. Also note that the draft Trust Indenture refers to OPG as the "manager" (rather than "Financial Services Manager" as under the Act). To be reconciled.~~

~~accepted by~~as may be amended prior to the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Note**" or "**Notes**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Noteholder**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Obligations Secured**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**OIC**" has the meaning ascribed thereto in the second paragraph of the recitals in this Agreement.

"**OPG**" means Ontario Power Generation Inc., a corporation established under the laws of the Province of Ontario.

"**Original Currency**" has the meaning ascribed thereto in Section 1.19(a).

"**Payment Demand**" has the meaning ascribed thereto in Section 2.01(a).

"**Person**" means any individual, corporation, limited liability company, estate, partnership, joint venture, association, joint stock company, trust (including any beneficiary thereof), unincorporated organization or Governmental Authority.

"**Primary Obligations**" means any Obligation Secured (a) that is a Funding Obligation~~,~~ or (b) that otherwise is a payment obligation of the Financing Entity that gives rise to a Finance Amount, in each case other than (~~a~~i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event; ~~and~~ (~~b~~ii) any amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account, or Supplemental Reserve Account; (iii) any amounts that would be remaining amounts of Available Collections required by the to be held in the Collection Account for distribution on a succeeding Payment Date pursuant to the Trust Indenture; (iv) any amount payable under a Derivative Agreement in respect of a "termination payment" where the Financing Entity's counterparty under the Derivative Agreement is a "defaulting party" or the sole "affected party" (as such terms are given meaning under the Derivative Agreement); and (v) any obligation to pay the Trust or on the Trust's direction any remaining amounts of Available Collections.

"**Process Agreement**" means the Change of Law Process Agreement dated [■], 2017 between the Province and ~~OPG~~[the FSM].

["**Process Certificate**" has the meaning ascribed thereto in Section 3.01 of the Process Agreement.]

"**Program Agreements**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Program Breach**" means an acceleration of Funding Obligations in accordance with the provisions of the Trust Indenture or an event of default, early amortization event, termination event or similar event or circumstance (including any event that with the passage of time or the giving of notice would become such an event) of or in respect of the obligations of any party under any Program Agreement, including under this Agreement, the Trust Indenture, the Master Transfer and Servicing Agreement or any Derivative Agreement. **[NTD: To be discussed.]**

"**Protection Account**" has the meaning ascribed to such term in Section 2.04(a).

"**Protection Agreement Maximum"** means the dollar amount determined by the Province and of which OPG is provided notice in accordance with the Process Agreement.

"**Protection Event**" means the occurrence of any of the following events:

(a) (i) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof as in effect on the date hereof;

(ii) the Legislature enacts or amends any other statute;

(iii) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the regulations made under the Act or any portion thereof as in effect on the date hereof; or

(iv) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*) as in effect on the date hereof;

(v) the implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province, **[NTD: Further discussion required as to whether the Province controls the OEB for purposes of a Protection Event.]**

in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts ~~on~~in respect of its Investment Interest so that it can pay Obligations Secured, or (b) this Agreement or any of the agreements under which Obligations Secured arise, other than if the Indenture Trustee has confirmed in writing that the effect under such agreements is otherwise acceptable; or

(b) a court of competent jurisdiction (i) determines that all or a portion of the Act or the regulations made under the Act, as in effect on the date hereof,

is *ultra vires* or invalid in a way that materially and adversely affects the ability of the Financing Entity~~'s receipt of~~ to receive amounts in respect of its Investment Interest so that it can pay Obligations Secured, and (ii) issues a decision or an order preventing the Financing Entity from receiving amounts on its Investment Interest, in each case that results in the Financing Entity not having sufficient funds to pay Obligations Secured that have become due and payable.

"**Province**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Rating Agency Condition**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Repayment**" has the meaning ascribed thereto in the General Regulation.

"**Second Currency**" has the meaning ascribed thereto in Section 1.19(b).

"**Security Interest**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Specified Creditors**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Supplemental Reserve Account**" has the meaning ascribed in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Suspension Event**" has the meaning ascribed thereto in Section 8.02.

"**Suspension Notice**" has the meaning ascribed thereto in Section 8.01.

"**Termination Notice**" has the meaning ascribed thereto in Section 8.03.

"**this Agreement**" means this agreement, as amended, supplemented, restated or otherwise modified from time to time.

"**Trust Indenture**" means the trust indenture between the Financing Entity and the Indenture Trustee dated as of [■], 2017, as amended, supplemented, restated or otherwise modified from time to time.

**AND**

**BNY TRUST COMPANY OF CANADA, AS INDENTURE TRUSTEE**

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

[1] "Trustee" is the "legal entity". Trustee itself should sign all primary documents to make "manager" delegation meaningful and to avoid invalidating the Trust as a "trust".

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Ontario Power Generation Inc., as the Manager and in its capacity as Manager of Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc. in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee and in its capacity as trustee for the Beneficiaries in accordance with the Trust Indenture, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The FSM, as agent of the Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

[2] See OFHPA, definition of "financing entity". FSM to establish or cause to be established. Needed for authority under OFHPA 5(3), among other things.

The FSM[3] and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the FSM[4] and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(c) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(d) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor, [except in each case as referenced in the definition of Protection Event][5];

[3] Need to confirm parties to the Process Agreement. OPG, acting as FSM, implies potential limitation on OPG's liability.

[4] Deletion of the Trust as a party is unacceptable since would impact Province's rights against Trust's assets (e.g., as a subrogee).

[5] Covered in preamble, so delete.

(e) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(f) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(g) all references in this Agreement to designated "Articles", "Sections", "Subsections", "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(h) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(i) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

## 1.02 Trustee to act in accordance with the Trust Indenture

Any action taken, required to be taken or permitted to be taken by the Indenture Trustee under this Agreement shall only be taken in the manner, at the times, for the purposes, subject to the prerequisites, conditions, requirements and limitations, and with the benefits, exculpations, indemnities and protections that are provided to the Indenture Trustee, in each case in respect of such action taken, required to be taken or permitted to be taken by it under the Trust Indenture.[6]

## 1.03 ~~1.02~~ Proof of Approved Obligations

The efficacy of any agreement, instrument or writing evidencing a Primary Obligation may, in the absence of manifest error, be conclusively proved in any manner that the Indenture Trustee deems to be sufficient.

Any statement of account prepared by the Indenture Trustee as regards the Primary Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due and payable by the Financing Entity to the Beneficiaries and/or the Indenture Trustee and the Province hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Indenture Trustee agrees to provide the Province

[6] Enforcement of the Limited Guarantee under this Agreement must be limited to enforcement by the Indenture Trustee on behalf of the Beneficiaries. The Trust Indenture should deal with the manner and limitations on the Indenture Trustee's actions with respect to enforcement.

with the computations and calculations used by the Indenture Trustee to prepare each such statement of account promptly following a request therefor.

## 1.04 ~~1.03~~ Limitation on Rights of and Actions by Specified Creditors

Specified Creditors, as Beneficiaries, shall not have or be permitted to exercise any rights, interests, or elections under this Agreement, other than in the manner and to the extent effected and exercised through the Indenture Trustee under, in accordance with and subject to the limitations set forth in the Trust Indenture. No Specified Creditor will have any right to institute any proceeding, judicial or otherwise, with respect to this Agreement.[7]

## 1.05 ~~1.04~~ Province Retains Rights of Beneficiaries

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other Funding Obligation Agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province upon performance by the Province of the Primary Obligation. [To the extent of any conflict between this Agreement and the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 in respect of any matter relating to the Province's obligations to indemnify the FSM or the Financing Entity, the latter shall prevail.][8]

## 1.06 ~~1.05~~ Effect of Headings

The Article and Section headings herein are for convenience only and will not affect the construction hereof.

## 1.07 ~~1.06~~ Successors and Assigns

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

## 1.08 ~~1.07~~ Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable

[7] There is no intention to provide a separate cause of action for individual Beneficiaries.

[8] Explanation required. Indemnity is a separate cause of action and should not limit the Province's primary entitlements under this Agreement, opposite the Trust and the Indenture Trustee. If an override in favour of OPG is contemplated, that should be clearly set out and understood. This provision confuses concepts. In any event, the Trust is not a party to or a protected person under the indemnity.

with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

### 1.09 ~~1.08~~ Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

### 1.10 ~~1.09~~ Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

### 1.11 ~~1.10~~ Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

### 1.12 ~~1.11~~ Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

### 1.13 ~~1.12~~ Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

### 1.14 ~~1.13~~ Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

## 1.15 ~~1.14~~ Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

## 1.16 ~~1.15~~ Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

## 1.17 ~~1.16~~ Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

## 1.18 ~~1.17~~ References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to the Financing Entity, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the FSM as agent for the Financing Entity Trustee (in its capacity as trustee of the Financing Entity). **[NTD: Discuss whether the Financing Entity Trustee should be a party to this Agreement and references to the Financing Entity Trustee re-inserted into this section and others.]**[9]

[9] Otherwise validity of Trust obligations becomes questionable and opinion qualifications would become likely. Revert to Blakes language.

**1.19 ~~1.18~~ Judgment Currency**

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

**2.01 Limited Guarantee**

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred][10][owing][11] from time to time by the Financing Entity to the Indenture Trustee as and

[10] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected. This language is an alternative to the simple drafting approach contemplated in the term sheet ("without acceleration"), and is more complex. It would also make the new "additional amount" (i.e., extra amounts up to the FAA) part of the Province's obligations, which has not been contemplated by the OFA to date and will need to be considered separately.

[11] This would mean that the entire amount of the Notes would become payable, as a balloon. That is not the deal.

when they become due and payable[1][, without Acceleration][12]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation[, without Acceleration,][13] in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred] [owing] by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2][14], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the [Protection Account ][15] [5 Business Days prior to the fifteen day of each calendar month][16] (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

[1] ~~Consider~~[12] This is a simpler and preferred formulation for the relevant concept. Also, consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[13] If alternative approach is preferred (as described above), this will also need to be modified.

[2][14] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.

[15] Addition of Protection Account step will require further consideration. Province needs to see how the Trust Indenture will be modified to address this mechanically (i.e., part of the Collateral; mechanics of how funds move to Collection Account; equitable claims; etc. Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights).

[16] Delete. Province will pay on the date amounts would have otherwise been paid; not in advance.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 ~~Gross-up~~Intentionally Deleted.**

~~All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Protection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.~~

**2.03 Absence of Set-off**

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[17] in Satisfaction**

(a) [On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture as if it were an Issuer Account.]

[17] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[~~3~~18]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety. ~~**[NTD: Further consideration required as to whether there should be a waiver of any other equitable defences.]**~~

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

[~~3~~18] Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee under this Agreement. Please see our addition in Section 9.08. The Specified Creditors already make the necessary acknowledgement in Article 5 of the Trust Indenture. Isn't this also addressed in section 1.03 above?

## 2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

## 2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

## 2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations ~~and termination of the Trust Indenture~~, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

## 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine~~.~~,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement,

suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if the Adherence Conditions applicable thereto have been satisfied.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) ~~**[NTD: already covered in process certificate in section 3.01 of the Process Agreement]**~~at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[19] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the

[19] Use of the concept of "repayments" under the OFHPA for this purpose is under consideration.

future in respect of Repayments under Approved Obligations, do not exceed the Protection Agreement Maximum;[20]

(c) ~~[NTD: already covered under Process Agreement.]~~the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, one Business Day prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG [and, for clarity, such certificate is to be provided in OPG's capacity as FSM][21]) and addressed to the Indenture Trustee and the Province[22], one Business Day prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), ~~confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section [3.01] of the Process Agreement; and~~setting out the following with respect to the Primary Obligation:

i. confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation (if any), together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum[23]; and

ii. confirmation that [the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province][ the FSM has delivered

[20] Province needs this to be part of the adherence process opposite the indenture trustee. Since the PAM will be objectively determined and within the knowledge of the indenture trustee (as contemplated in para (c)), this should not raise practical constraints. This is analogous to current procedures undertaken in connection with the incurrence of provincial obligations, where the conditions to issuance involve specific affirmation that the issuance is within the prescribed borrowing limit.

[21] OPG's capacity in certifying is under consideration, having regard to the inherent limitations associated with actions undertaken as FSM.

[22] Certificate is intended as Province's closing due diligence and so needs to be addressed and delivered to Province. Otherwise Province will need to become directly involved in the closing process. Province is prepared to rely on OPG for this purpose to accommodate OPG's logistical concerns, but that does not mean that Province can be removed from the closing process altogether, without the benefit of these required affirmations.

[23] Province wants OPG to specifically confirm this at the time of closing, to support the Province's reliance on OPG for this critical purpose.

to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement][24]; and

(e) the Province has not provided a Suspension Notice to the Indenture Trustee[25], the FSM and the Financing Entity in accordance with the terms of this Agreement.

(f)

(g) , confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(h) ~~(e)~~ **[NTD: This is more properly dealt with in Section 8.02 of this Agreement.]**.

### 4.03 Evidence of Satisfaction

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## PROVINCE MATTERS

### 5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation:

i. to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

ii. ~~[~~as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,~~]~~ **[NTD: This requires further discussion depending on the terms of the assignment and assumption agreement. If the Obligations Secured are assigned and assumed by the Province under Article VI, how would the Province be subrogated and entitled to the Beneficiary's rights and interests under the Approved**

[24] The intention was not to incorporate specific terms of the Process Agreement into the Protection Agreement, to avoid the need for investors, relying on the Protection Agreement, to be concerned about its contents. If there is a preference to hard-code the Process Agreement in the Protection Agreement, the Province will not object but further drafting considerations will arise.

[25] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province can cut-off future Limited Guarantees opposite the indenture trustee.

**Obligation? Consider limiting the application of this section 5.01 to the Limited Guarantee.]** [26]

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. ~~Subject to Section 5.01(b), the~~The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture~~)~~ on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. ~~Subject to Section 5.01(b), the~~The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including~~, if applicable, as a Noteholder~~ as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) ~~the~~The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province~~ will be a Specified Creditor hereunder and its entitlements~~, in its capacity as a Specified Creditor~~ are~~, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including~~, without limitation,~~ **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]**~~, (ii) irrevocably authorizes and directs the Indenture Trustee on its behalf to take such action (including the execution and delivery of documents of subordination) as may be necessary or appropriate to further assure the~~

[26] The idea is that if the Province steps in and becomes the obligor, it will get all of the underlying interests in the Trust's property (i.e., "interests … in respect of the Approved Obligation" = collateral). If this seems confusing, a parallel provision can be added to Art VI to address the step-in scenario specifically. Discussion of any concerns will be useful.

~~priority arrangements provided for in **[Article VI and Sections 7.04 and 8.13 of the Trust Indenture]**, (iii) appoints the Indenture Trustee as its agent for any and all such purposes, and (iv~~ and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

## 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

## 5.03 Voting Rights under "Outstanding Notes"

**[Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[427]:**

(a) **Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and**

(b) **in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.] [NTD: To be discussed. ~~Giving~~Explanation required regarding why not restricting these voting rights to the Province may affect the marketability of the debt under this program.]**

## 5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the

[427] This concept needs to be reflected in the Trust Indenture. This requires further discussion (see NTD above).

Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[528] **[NTD: Discussion required as to how these repayments will be dealt with under the MTI, and in particular, under the waterfall provisions.]**

### 5.05 Representations and Warranties

The Province hereby represents and warrants[29] that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement and the completion of the transactions contemplated hereby do not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including~~, without limitation,~~ under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[630]

[528] General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

[29] Province input required.

[630] Further details regarding obtaining of third party consents and rating agency approvals to be considered.

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead ~~be~~become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.[31] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.[32]]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

### 7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

[31] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[32] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

### 7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

### 7.04 Release of all Collateral[33]

(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.

(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.

### 7.05 Right to Notice and Attend Meetings[34]

The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.

[33] Before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs to know that the Collateral available to it as a subrogee/assignee will be protected. Province may have different interests than Specified Creditors, who may make concessions based on the protections under this Agreement being available to them in lieu of the Collateral.

[34] Again, before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs information that could affect its future rights as a subrogee/assignee. This is not a voting right; rather just a right to know what is going on. Why a problem?

**[Note: Any right to such matters will be the general rights of Specified Creditors[35] as set out in the Trust Indenture.]**

## ARTICLE VIII
## SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

### 8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**"):

(a) shall be provided by the FSM to the Province and the Indenture Trustee promptly following the occurrence of a Program Breach;

(b) may be provided by the Province to the Indenture Trustee ~~promptly following~~upon the Province becoming aware of the occurrence of a Program Breach; and

(c) ~~(b)~~ may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), ~~this Change of Law Protection Agreement~~the Limited Guarantee shall not apply in respect of any ~~new Primary~~ Obligation ~~following~~Secured incurred on or after the ~~date of such Suspension Notice. **[NTD: Deletion of "or additional" is address the situation where a then current Primary Obligation requires an additional Primary Obligation in accordance with its terms of the MTI.]**~~time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred on or after the time such Suspension Notice is delivered.

### 8.03 Termination Notice

On the earlier to occur of (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**"). ~~Upon the delivery of such Termination Notice, the Province shall assume the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI **[NTD: If the Province terminates the program, it must assume the obligations of the Financing Entity.]**~~[36]

[35] As explained above, Province needs rights prior to a Protection Event.

[36] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with ~~this Agreement~~Article VI.

## ARTICLE IX
## MISCELLANEOUS

### 9.01 Term of Agreement

This Agreement will continue until the ~~[~~later~~]~~ of:

(a) the date that no amount is or may become due and payable by the Province under the Limited Guarantee; and ~~the Trust Indenture has been terminated;~~

(b) ~~**[subject to Section 8.04,] [NTD: Should this clause subject to section 8.04?]** following receipt of~~the date that a Termination Notice ~~from the Province~~delivered in accordance with Section 8.03 is received by the Indenture Trustee, the FSM and the Financing Entity~~, the Assumption Effective Date being the date that the Province has assumed the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI; and~~.

~~(c) **[subject to Section 8.04,] [NTD: Should this clause subject to section 8.04?]** following receipt of an Assumption Notice from the Province by the Indenture Trustee, the Assumption Effective Date being the date that the Province has assumed the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI.~~

### 9.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other

communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to the Financing Entity:

Fair Hydro Trust

700 University Avenue

Toronto, Ontario M5G 1X6

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 9.02.

**9.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties, except as otherwise provided for herein.

(b) Any purported assignment of this Agreement in violation of this Section 9.03 shall be null and void.

**9.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**9.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

### 9.06 No Petition

The Province agrees, to the fullest extent permitted by applicable law, that at no time until one year and one day following repayment in full of all Primary Obligations shall it commence, or join in commencing, a bankruptcy case or other insolvency or similar proceeding under the laws of any jurisdiction against the Financing Entity.

### 9.07 Intentionally Deleted

### 9.08 Third Party Rights

This Agreement is not intended to create rights for any Person not party to this Agreement~~ and all such Persons who are Beneficiaries derive their rights~~. Beneficiaries are not parties to this Agreement and accordingly any benefits derived hereunder shall arise exclusively through the Indenture Trustee and ~~such rights are~~shall be subject to the provisions applicable to Specified Creditors in the Trust Indenture. **[NTD: Consider merging this section 9.08 with section 1.03.]**

### 9.09 Delivery of Executed Copies

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

**SCHEDULE A**
**DEFINED TERMS**

"**Acceleration**" has the meaning ascribed to the term "acceleration"[737] in the General Regulation.

"**Act**" has the meaning ascribed thereto in the first paragraph of the recitals in this Agreement.

"**Action**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Adherence Conditions**", in respect of a Primary Obligation, means the conditions set out in Section 4.02.

"**Approved Obligation**" means a Primary Obligation that constitutes an Approved Obligation pursuant to Section 4.01.

"**Assumption Closing Date**" has the meaning ascribed thereto in Section 6.01.

"**Assumption Effective Date**" has the meaning ascribed thereto in Section 6.03.

"**Assumption Notice**" has the meaning ascribed thereto in Section 6.01.

"**Available Collections**" has the meaning ascribed thereto in the Trust Indenture.

"**Beneficiaries**" means the Specified Creditors to whom the Financing Entity owes a payment obligation pursuant to one or more Approved Obligations from time to time.

"**Breach Event**" [means the occurrence or existence of any one or more of the following: (a) a default in the performance, or breach, of any covenants of [OPG] under the Process Agreement; or (b) any representation or warranty made by [OPG], any certification made by [OPG] under the Process Agreement, or any certification made by [OPG] in a certificate contemplated by Section 4.03 of this Agreement, proves to be incorrect in any material respect on the date made; or (c) OPG is no longer the FSM, the Administrative Agent or the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the FSM, the Administrative Agent or the Manager.][has the meaning ascribed thereto in the Process Agreement.][38]

"**Business Day**" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by applicable law, regulation or executive order to be closed.

"**Capital Account**" has the meaning ascribed to the term "capital account" in the General Regulation.

[737] Note: A proposal to add this concept into the Regulation is under consideration by MOE. Further modifications to follow, depending on that process.

[38] Consider longer version to avoid hard-coding Process Agreement into this Agreement.

"**Change of Law Protection Agreement**" means this Agreement.

"**Collateral**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

["**Collection Account**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.][39]

"**Declaration of Trust**" means the declaration of trust made as of [■], 2017 under which the Financing Entity was established.

"**Derivative Agreement**" means any rate swap transaction, basis swap, forward rate transaction, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, total return swap transaction, credit default swap transaction or any other similar transaction (including any option with respect to any of those transactions) or any combination of these transactions entered into from time to time by the Financing Entity in connection with or related to Funding Obligations.

["**Eligible Deposit Account**" has the meaning ascribed thereto in the Trust Indenture~~.~~ as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.]

["**Eligible Institution**" has the meaning ascribed thereto in the Trust Indenture~~.~~ as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.]

"**Finance Amount**" has the meaning ascribed to the term "finance amount" in the Act as of the date of this Agreement.

"**Finance Reserve Account**" has the meaning ascribed to the term "finance reserve account" in the General Regulation.

"**Financing Entity**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Financing Entity Trustee**" means, at any time, the Person who is, in accordance with the Declaration of Trust, the trustee of the Financing Entity at such time.

"**FSM**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Funding Obligation**" has the meaning ascribed to the term "funding obligation" in the Act as of the date of this Agreement.

[39] Confirm, vs use of a Protection Agreement.

"**Funding Obligation Agreement**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**General Regulation**" means O. Reg. 206/17 made under the Act.

"**Governmental Authority**" means any nation or government, any federal, state, provincial, local or other political subdivision thereof and any court, administrative agency or other instrumentality or entity exercising executive, legislative, judicial, regulatory or administrative functions of government.

"**IESO**" has the meaning ascribed thereto in the Act.

"**Indenture Trustee**" means the Person named as the Indenture Trustee in the first paragraph of this Agreement until a successor Indenture Trustee shall have become such pursuant to the applicable provisions of the Trust Indenture and this Agreement, and thereafter "Indenture Trustee" means and includes such Person.

"**Investment Interest**" has the meaning ascribed to the term "investment interest" in the Act as of the date of this Agreement.

"**Issuer Account**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Legislature**" means the Legislature of the Province of Ontario.

"**Limited Guarantee**" has the meaning ascribed thereto in Section 2.01(b).

"**Management Agreement**" means the management agreement dated [■], 2017 between the Manager and the Financing Entity.

"**Manager**" means OPG, in its capacity as manager of the Financing Entity under the Management Agreement.

"**Master Transfer and Servicing Agreement**" means the master transfer and servicing agreement dated [■], 2017 between the Financing Entity and IESO, as may be amended prior to the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Note**" or "**Notes**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Noteholder**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Obligations Secured**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**OIC**" has the meaning ascribed thereto in the second paragraph of the recitals in this Agreement.

"**OPG**" means Ontario Power Generation Inc., a corporation established under the laws of the Province of Ontario.

"**Original Currency**" has the meaning ascribed thereto in Section 1.19(a).

"**Payment Demand**" has the meaning ascribed thereto in Section 2.01(a).

"**Person**" means any individual, corporation, limited liability company, estate, partnership, joint venture, association, joint stock company, trust (including any beneficiary thereof), unincorporated organization or Governmental Authority.

"**Primary Obligations**" means any Obligation Secured ~~that is a Funding Obligation or otherwise constitutes a Finance Amount~~ (a) that is a Funding Obligation or (b) that otherwise is a payment obligation of the Financing Entity that gives rise to a Finance Amount, in each case other than (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event; (ii) any amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account, or Supplemental Reserve Account; (iii) any amounts that would be remaining amounts of Available Collections required by the to be held in the Collection Account for distribution on a succeeding Payment Date pursuant to the Trust Indenture; (iv) any amount payable under a Derivative Agreement in respect of a "termination payment" where the Financing Entity's counterparty under the Derivative Agreement is a "defaulting party" or the sole "affected party" (as such terms are given meaning under the Derivative Agreement); and (v) any obligation to pay the Trust or on the Trust's direction any remaining amounts of Available Collections.

"**Process Agreement**" means the Change of Law Process Agreement dated [■], 2017 between the Province and [the FSM].

[["**Process Certificate**" has the meaning ascribed thereto in Section 3.01 of the Process Agreement.]]

"**Program Agreements**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Program Breach**" means ~~[~~an acceleration of Funding Obligations in accordance with the provisions of the Trust Indenture~~]~~ or an event of default, early amortization event, termination event or similar event or circumstance (including any event that with the passage of time or the giving of notice would become such an event) of or in respect of the obligations of any party under any Program Agreement, including under this Agreement, the Trust Indenture, the Master Transfer and Servicing Agreement or any Derivative Agreement.~~]~~ **[NTD: To be discussed.]**

"**Protection Account**" has the meaning ascribed to such term in Section 2.04(a).

"**Protection Agreement Maximum"** means the dollar amount determined by the Province and of which OPG is provided notice in accordance with the Process Agreement.

"**Protection Event**" means the occurrence of any of the following events:

(a) (i) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof as in effect on the date hereof;

(ii) the Legislature enacts or amends any other statute;

(iii) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the regulations made under the Act or any portion thereof as in effect on the date hereof; or

(iv) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*) as in effect on the date hereof;

(v) the implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province, **[NTD: Further discussion required as to whether the Province controls the OEB for purposes of a Protection Event.]**

in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts in respect of its Investment Interest so that it can pay Obligations Secured, or (b) this Agreement or any of the agreements under which Obligations Secured arise, other than if the Indenture Trustee has confirmed in writing that the effect under such agreements is otherwise acceptable; or

(b) a court of competent jurisdiction (i) determines that all or a portion of the Act or the regulations made under the Act, as in effect on the date hereof, is *ultra vires* or invalid in a way that materially and adversely affects the ability of the Financing Entity to receive amounts in respect of its Investment Interest so that it can pay Obligations Secured, ~~or~~and (ii) issues a decision or an order preventing the Financing Entity from receiving amounts on its Investment Interest, in each case that results in the Financing Entity not having sufficient funds to pay Obligations Secured that have become due and payable.

"**Province**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Rating Agency Condition**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Repayment**" has the meaning ascribed thereto in the General Regulation.

"**Second Currency**" has the meaning ascribed thereto in Section 1.19(b).

"**Security Interest**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Specified Creditors**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Supplemental Reserve Account**" has the meaning ascribed in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Suspension Event**" has the meaning ascribed thereto in Section 8.02.

"**Suspension Notice**" has the meaning ascribed thereto in Section 8.01.

"**Termination Notice**" has the meaning ascribed thereto in Section 8.03.

"**this Agreement**" means this agreement, as amended, supplemented, restated or otherwise modified from time to time.

"**Trust Indenture**" means the trust indenture between the Financing Entity and the Indenture Trustee dated as of [■], 2017, as amended, supplemented, restated or otherwise modified from time to time.

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER][1]**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

[1] Province to consider whether liability of OPG should be primary, or subject to the inherent limitations (e.g., duty/standard of care) implied by its role as FSM. Primary responsibility for the 'behind the scenes obligations' contemplated in this Process Agreement would be more meaningful to the extent that potential corporate liability promotes compliance .

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1][2]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, [the FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to [the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations [the FSM] has agreed to perform and assurances [the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of [the FSM], and of the Province in accordance with the Act, have been done.

[1][2] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) the terms used in this Agreement that are not defined in this Agreement shall have the meanings assigned to them in the Change of Law Protection Agreement;

(c) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(d) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(e) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor, [except in each case as referenced in the definition of Protection Event];

(f) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(g) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(h) all references in this Agreement to designated "Articles", "Sections", "Subsections" "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this

Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(i) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(j) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

**1.02 References to the Financing Entity**

For greater certainty, each reference to the Financing Entity shall be construed as a reference to the [FSM, as agent of the][3] Financing Entity Trustee, as trustee of the Financing Entity.

**1.03 Effect of Headings**

The Article and Section headings herein and are for convenience only and will not affect the construction hereof.

**1.04 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not.

**1.05 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.06 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

[3] Validity considerations if FSM effects primary agreements that in turn define the scope of its authority.

**1.07 Proceedings Against the Crown Act**

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

**1.08 Attornment**

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

**1.09 Counterparts; Electronic Delivery**

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

**1.01 Change of Law Process Agreement Referred to in the Change of Law Protection Agreement**

This Agreement is the "Change of Law Process Agreement" referred to in the Change of Law Protection Agreement.

**1.10 Non-Business Days**

Whenever any period of time would begin or end or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such period of time shall begin or end, and such other action shall be taken on the next succeeding Business Day.

**1.11 Waiver, Amendment**

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

## ARTICLE II
## COVENANTS OF THE FSM

### 2.01 Deliveries to the Province[4]

(a) Not less than [15 Business Days] prior to the initial issuance of any Funding Obligation by the Financing Entity, the FSM shall deliver to the Province a copy of the initial Financing Plan. Thereafter, the FSM shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

(b) Not less than 10 Business Days prior to (i) any proposed change or supplement to a previously provided Transaction Document becoming effective or otherwise being used or (ii) any additional or replacement Transaction Document becoming effective or otherwise being used, the FSM shall deliver to the Province a copy of such proposed change or, supplement to the Transaction Document and any such additional or replacement Transaction Document.

(c) Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, the FSM shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(d) Promptly upon request, the FSM shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

### 2.02 Covenants

(a) The FSM shall [use commercially reasonable efforts to][5] cause the Financing Entity to:

(i) punctually perform and observe all of its obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

[4] Province to consider OPG's proposed deletion of fallback (non-PILs) access to tax information for the Trust.
[5] Province to consider lower standard for compliance proposed by OPG, particularly (ii) to (v).

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not:

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement or replacement or waiver or consent could reasonably be considered to be materially prejudicial to the rights or interests of the Province under the Change of Law Protection Agreement; ~~or~~

(B) consent to the resignation of the Manager under the Management Agreement;

(C) consolidate or merge with or into any other Person;

(D) ~~(B)~~ permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired;

(E) permit any Lien (other than the Security Interest) to be created on or extend to or otherwise arise upon or burden the Collateral or any part thereof or any interest therein or the proceeds thereof;

(F) sell, transfer, exchange or otherwise dispose of any of the Collateral, other than as expressly permitted by the Trust Indenture;

(G) release any security or guarantee in respect of the Collateral other than as expressly permitted by the Trust Indenture; or

(H) voluntarily dissolve or liquidate.

(b) The [FSM shall use commercially reasonable efforts to][6]:

(i) comply, and to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto; ~~and~~

(ii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation;

(iii) ~~(ii) to,~~ after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any

[6] Province to consider lower standard for compliance proposed by OPG.

other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected; and

(iv) ensure that any disclosure (including any Disclosure Document, press release or other written communication intended for dissemination to third parties) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement will be subject to the prior review of the Province and such disclosure will not be made (and any such Disclosure Document shall not be used and any such press release or other written communication shall not be issued) without the prior written consent of the Province, in each case unless such disclosure is substantially the same as a disclosure previously made and for which the Province had previously provided its written consent under this Subsection 2.02(b)(iv).

(c) [Nothing in this Agreement shall limit the obligations of the Province under the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 and to the extent of any conflict between this Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify the FSM or the Financing Entity, the latter shall prevail. For clarity, OPG's obligations under this Agreement are solely in its capacity as the FSM.][7]

## ARTICLE III
## PROCESS CERTIFICATE

### 3.01 Process Certificate

The FSM shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of the FSM (or their respective designees, provided that such designees are also executive officers of the FSM) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Primary Obligation, and (ii) on the Business Day on which the financial terms of such Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Primary Obligation:

(a) the material terms of the Primary Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

[7] Province to consider interaction of this Agreement with the OPG indemnity. To the extent that OPG is indemnified, the impact of OPG non-compliance is significantly reduced to the extent that liability considerations are relevant to OPG.

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Primary Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(e) confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum; [for clarity, Repayments shall not include any payments or outstanding amounts due or becoming dues in the future in respect of any Primary Obligations arising under or in connection with a Derivative Agreement].[8]

**3.02 Acknowledgment**

The parties acknowledge that the Process Certificate is the certificate referred to in Subsection 4.02(d) of the Change of Law Protection Agreement.

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to the FSM; and

[8] This requires further consideration. This could cut both ways to the extent non-CAD deals are done and the FX is hedged.

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to the FSM.

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation [that would be adverse to the Issuer][9], including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; ~~and~~

(b) with respect to the Reviewed Documentation referred to in clauses (v) to (ix) of the definition of "Transaction Documents", and, where applicable, clauses (x) and (xi) of the definition of "Transaction Documents" as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of the Primary Obligations arising thereunder and as to the timing, conditions and circumstances in which payment obligations under such Primary Obligations may arise, but without regard to the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(c) ~~(b)~~ with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

[9] Province to consider if OPG should be empowered to make this qualitative judgment on behalf of the Province.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

### 4.01 Protection Agreement Maximum[10]

(a) [Not less than [■] Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum which shall be based on the Initial Forecast.

(b) Not more than [■] Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province shall confirm its agreement with the initial Protection Agreement Maximum or if the Province does not agree with the determination of the initial Protection Agreement Maximum, which disagreement may only be on the basis that the Initial Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the initial Protection Agreement Maximum will be revised accordingly.]

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a

[10] Province to consider OPG's proposal for Program Agreement Maximum. In effect, the discretion of the Province is removed and the limiter is tied directly to OPG's forecast (to be consistent with the financing plan required by the Act). This means that the Province has no independent escape hatch to limit its potential fiscal exposure under the Protection Agreement. As discussed, the actual exposure will depend on the determinations to use the IESO sale mechanics to fund shortfalls – in other words, if IESO were to not sell investment interests, then the corresponding funding obligations subject to the Protection Agreement would not arise. Note that the financing plan is almost entirely within OPG's discretion and is based on long-term estimates that assume maximum use of the IESO sale mechanics. Has the Province confirmed that committing to this arrangement for the term (30 years) of the OFHPA, without a limiter that is within the Province's control, will not result in a huge contingent liability being booked in the Province's accounts (i.e., maximum fundings for 30 years)? Has the Province determined whether there are other internal governance reasons to require an escape hatch for the purposes of its fiscal management purposes? Note that Protection Events are not all within the Government's control (e.g., *ultra vires* and invalidity issues).

"**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum based on such Forecast.

(d) Not more than [■] Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province shall confirm its agreement with the revised Protection Agreement Maximum or if the Province does not agree with the determination of the revised Protection Agreement Maximum, which disagreement may only be on the basis that the further Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the revised Protection Agreement Maximum will be revised accordingly.

## ARTICLE V
## REPRESENTATIONS AND WARRANTIES

### 5.01 Representations and Warranties of the FSM

The FSM represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, shall [use commercially reasonable efforts to] cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

[OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto and to own its property and carry on its business as currently conducted.

OPG has been validly appointed, and has irrecovably accepted such appointment, as the FSM in accordance with the Act. OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.][11]

[11] Province to consider carve back of OPG reps and liability issues with role as FSM only.

(c) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation of [the Financing Entity enforceable against the Financing Entity][12] in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(d) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(e) [There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG (including in its capacity as the FSM) or the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or the Financing Entity or in the ability of OPG or the Financing Entity to perform their respective obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.][13]

(g) ~~(e)~~ The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) [Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or

[12] Focus was on OPG. They shifted it to the Trust.
[13] Province to consider carve back of OPG reps and liability issues with role as FSM only.

instruments to which OPG is a party or by which it or any of its property and assets are bound.][14]

(i) [No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.] [15]

**5.02 Representations and Warranties of the Province[16]**

The Province hereby represents and warrants that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement does not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including, without limitation, under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

[14] Deleted by OPG. Province to consider.
[15] Deleted by OPG. Province to consider.
[16] Province to consider OPG's request for these representations. Does the Province make these sorts of representations in a commercial agreement? To the extent that the Province makes a statement (such as 5.02(d)) that is not caveated by the usual considerations applicable to a Crown obligation, the parallel rep requested in the Protection Agreement could be held out as a misstatement and itself provoke a "Protection Event" – suggesting that these sorts of "nice to have" reps from the Province will be more work (and potentially dangerous) than they are worth.

## ARTICLE VI
## ELECTION[17] TO ASSUME APPROVED OBLIGATIONS[2][18]

### 6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to the FSM a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to the FSM (the "**Proposed Assumption Date**").

### 6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Notice to the FSM, the FSM shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

[17] Province to consider OPG's proposal to move Art VI to the Protection Agreement. The approach taken originally was motivated by the desire to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee), but should otherwise be fine in principle.

[2][18] Note to Province/Blakes: Article 6 to be moved and merged with Article 6 of the Change of Law Protection Agreement with appropriate revisions. It is more appropriate in that agreement. See also the comments in Article 6 of the Change of Law Protection Agreement.

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured is attached as Exhibit E to the Change of Law Protection Agreement.[3][19]

**6.03 Settlement of Terms**

Within 20 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

**6.04 Cooperation to Implement the Assignment and Assumption**

The FSM shall cooperate with the Province and will [use commercially reasonable efforts to][20] cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.[4][21]

**6.05 Terms of Obligations Secured**

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, the FSM will use commercially reasonable efforts to cause the Financing Entity to, [use commercially reasonably efforts to] ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts~~; provided that, this Section 6.05 shall not apply to any Obligations Secured~~, other than to the extent of payment obligations arise under

[3][19] Note to Province: A form of global Assumption Agreement for all Obligations Secured is required. It is impractical to have an assumption agreement for each type of Obligation Secured. Province: We can be guided by OPG on this, but it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations. Ultimately, this is a mechanics point.

[20] Province to consider scope of commitment.

[4][21] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.

market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[522]

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of the FSM under this Agreement [which continues for sixty (60) days after written notice by the Province to the FSM of such default or breach][23];

(b) any representation or warranty made by the FSM in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section 4.03 of the Change of Law Protection Agreement, proves to be incorrect on the date made [and, if curable, is not cured within sixty (60) days after written notice by the Province to the FSM of such misrepresentation][24]; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager. **[NTD: The FSM is a statutory role and OPG can only be removed as FSM by the Province.]**[25]

### 7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to the FSM, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

[522] Note: The Trust Indenture will need to include a clause providing that the obligations of the Financing Entity to the Indenture Trustee and the Noteholders may be assigned to the Province in accordance with an assumption agreement, substantially in the form set out in an exhibit to the Trust Indenture. **[NTD: The form of Assumption Agreement shall be an exhibit to the Change of Law Protection Agreement (consistent with our comment to move Article 6 here to the Change of Law Protection Agreement). We will add the following to the MTI to otherwise address your comment: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured pursuant to Sections 5.01(f) and 5.03(b) of the MTI, and (ii) we will add language in section 11.01 of the MTI that allows the Indenture Trustee to enter into the global Assumption Agreement without the consent of Specified Creditors.]**

[23] Province to consider proposed 60 day cure period. This is an extraordinary suggestion and if accepted would greatly weaken the Province's ability to address a problem in the unlikely event one comes up with OPG.

[24] Extraordinary suggestion by OPG – weakens Province.

**[25]** This should be considered. If true, it is unclear why that should make a difference – in terms of enabling the Province to cut-off its forward obligations in the event of a fundamental problem or circumstance (change of control) that leads to a replacement of OPG as FSM.

## ARTICLE VIII
## MISCELLANEOUS

### 8.01 Term of Agreement

This Agreement will continue for the term of the Change of Law Protection Agreement.

### 8.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to the FSM:

Ontario Power Generation Inc.
700 University Avenue
Toronto, Ontario M5G 1X6
Attention: [■]
Fax: (416) [■]
Email: [■]

(b) if to the Province:

Ministry of Finance
[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

and

Ministry of Energy
[Address]

Attention: [■]
Fax: (416) [■]
Email: [■]

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 8.02.

**8.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties.

(b) Any purported assignment of this Agreement in violation of this Section 8.03 shall be null and void.

**8.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**8.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

**8.06 Intentionally Deleted**[626]

**8.07 Delivery of Executed Copies**

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

[626] To be considered based on what would be customary and appropriate for similar types of arrangements and would be acceptable to the Province. **[NTD: The existence and details of this Agreement and the Change of Law Protection Agreement cannot be confidential. It will need to be disclosed to the Rating Agencies and to potential investors.][Province: That circle should still be protected through carve-outs from ordinary non-disclosure terms and conditions. Province to consider if confidentiality is a concern. It was included as a consideration in the term sheet.]**

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

**SCHEDULE A**
**DEFINED TERMS**

"**Act**" has the meaning ascribed thereto in the first paragraph of the recitals in this Agreement.

"**Adherence Conditions**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Approved Obligation**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Assumption Agreement**" has the meaning ascribed thereto in Section 6.01.

"**Assumption Closing Date**" has the meaning ascribed thereto in Section 6.03.

"**Beneficiaries**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Breach Event**" has the meaning ascribed thereto in Section 7.01.

"**Business Day**" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by applicable law, regulation or executive order to be closed.

"**Change of Law Protection Agreement**" means the Change of Law Protection Agreement dated [■], 2017 among the Province, the FSM on behalf of the Financing Entity and the Indenture Trustee.

"**Collateral**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Co-Owner Agreement**" means any agreement between, *inter alia*, the Financing Entity and any other owner or owners of an Investment Interest as contemplated by Subsection 29(5) of the Act.

"**Declaration of Trust**" means the declaration of trust made as of [■], 2017 under which the Financing Entity was established.

"**Derivative Agreement**" means any rate swap transaction, basis swap, forward rate transaction, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, total return swap transaction, credit default swap transaction or any other similar transaction (including any option with respect to any of those transactions) or any combination of these transactions entered into from time to time by the Financing Entity in connection with or related to Funding Obligations.

"**Disclosure Document**" means a disclosure document (including any offering circular, prospectus or other investor disclosure statement) describing the material terms of the notes, bonds or securities to be issued pursuant to a supplemental indenture under the Trust Indenture, together with any related material information;

"**Election Notice**" has the meaning ascribed thereto in Section 6.01.

"**Financing Entity**" means Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario and under which the Financing Entity Trustee is the trustee.

"**Financing Entity Trustee**" means, at any time, the Person who is, in accordance with the Declaration of Trust, the trustee of the Financing Entity at such time.

"**Financing Plan**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Forecast**" has the meaning ascribed thereto in Section 4.01(c).

"**FSM**" has the meaning ascribed thereto in the second paragraph of the recitals of this Agreement.

"**Funding Obligation**" has the meaning ascribed to the term "funding obligation" in the Act as of the date of this Agreement.

"**General Regulation**" means O. Reg. 206/17 made under the Act.

"**Governing Document**" has the meaning ascribed to the term "governing document" in the General Regulation.

"**Governmental Authority**" means any nation or government, any federal, state, provincial, local or other political subdivision thereof and any court, administrative agency or other instrumentality or entity exercising executive, legislative, judicial, regulatory or administrative functions of government.

"**IESO**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Indenture Trustee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Initial Forecast**" has the meaning ascribed thereto in Section 4.01(a).

"**Initial Forecast Period**" has the meaning ascribed thereto in Section 4.01(a).

"**Investment Interest**" has the meaning ascribed to the term "investment interest" in the Act as of the date of this Agreement.

"**Legislature**" means the Legislature of the Province of Ontario.

"**Lien**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Limited Guarantee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Management Agreement**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Manager**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Master Transfer and Servicing Agreement**" means the master transfer and servicing agreement dated [■], 2017 between the Financing Entity and IESO.

"**Obligations Secured**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**OPG**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Person**" means any individual, corporation, limited liability company, estate, partnership, joint venture, association, joint stock company, trust (including any beneficiary thereof), unincorporated organization or Governmental Authority.

"**Primary Obligations**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Process Certificate**" has the meaning ascribed thereto in Section 3.01.

"**Program Agreements**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Proposed Assumption Date**" has the meaning ascribed thereto in Section 6.01.

"**Protection Agreement Maximum**" means the dollar amount [referenced as the Program Agreement Maximum in accordance with Article IV].

"**Protection Event**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Province**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Rating Agency**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Reviewed Documentation**" has the meaning ascribed thereto in Section 3.03.

"**Repayment**" has the meaning ascribed to the term "repayment" in the General Regulation as of the date of this Agreement.

"**Security Interest**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Specified Creditors**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Substantially in the Form**" has the meaning ascribed thereto in Section 3.04.

"**Suspension Notice**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**this Agreement**" means this agreement, as amended, supplemented, restated or otherwise modified from time to time.

"**Transaction Document**" means (i) all constating and organizational documents of the Financing Entity, including the Declaration of Trust; (ii) any management, administration or servicing agreement to which the Financing Entity is a party, including any replacement or standby services agreement and the Management Agreement; (iii) the Master Transfer and Servicing Agreement; (iv) Trust Indenture; (v) the form of supplemental indenture (supplemental to the Trust Indenture) governing the terms and conditions of a sample series of notes, bonds or other securities to be issued by the Financing Entity, including the particular allocations, security and priority of the Obligations Secured being serviced by the related Investment Interest and any other related series property; (vi) the form of any note, bond or securities purchase agreement; (vii) the form of underwriting agreement, agency agreement, selling agreement and/or subscription agreement that may be used with respect to a sale of a related series of notes, bonds or securities to be issued under the supplemental indenture referred to in (v), above; (viii) the form of any loan or credit agreement governing the issuance of short term loan obligations by the Financing Entity; (ix) the form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; (x) the form of any other agreement or instrument under which a Funding Obligation may arise or be effected, including any other agreement under which the Financing Entity incurs a material financial obligation or that affects the Province's subrogation rights and/or subrogee interests, including any standby liquidity arrangements or credit enhancement agreements; (xi) if applicable, a Co-Owner Agreement or any other agreement governing the respective interests of persons having rights or interests in the investment asset or other assets of the Financing Entity, including any other agreement of the sort contemplated in Subsection 29(5) of the Act; and (xii) the form of Disclosure Document.

"**Trust Indenture**" means the trust indenture between the Financing Entity and the Indenture

Trustee dated as of [■], 2017.

**Subject:** RE: Provincial Protection and Process Agreements | OFA, OPCD, MOF, Energy, Legal Counsel

Hi all,

We have been reviewing the two agreements over the week-end and had call with Energy Legal and Blakes this morning. We understand that a meeting will be scheduled for tomorrow with the full group to get further instructions on the draft with Blakes' comments that was distributed to the group on Friday for review. We will use the drafts from Friday for the purposes of our meeting tomorrow because they outline the points for our consideration. Thanks.

Please find attached for discussion at our meeting this afternoon Blake's comments on the OPG/Dealer's comments. There are two versions. One shows a blackline against the OPG/Dealer's comments, and the other shows a blackline against what we circulated last week. Note that Stephen has not had a chance to review these in detail, so these are preliminary comments that are subject to further consideration and discussion.

Best

**Subject:** Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject

to change.

- Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.

- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.
- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

James Strang

## IV. KEY COMMENTS AND CONSIDERATIONS

Under the ~~Ontario~~ *Fair Hydro Plan Act, 2017*, (~~O~~FHPA), which enables Global Adjustments (GA) Refinancing, the Independent Electricity System Operator (IESO) will ~~have~~ incur a cash shortfall, as the amounts collected from the consumers of electricity (e.g. the local distribution companies) will be reduced, but the amounts paid to the generators of electricity will remain at the market and/or contractual rates.~~a funding gap resulting from the reduction in amounts collected~~. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset".

The ~~O~~FHPA provides for ~~the~~ IESO to sell all or a portion of the Regulatory Asset (i.e., to sell the right to recover those deferred amounts from specified consumers in the future). Under the ~~O~~FHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the ~~O~~FHPA) will have the right, but not the obligation to purchase the regulatory asset, effectively financing the shortfall ~~in~~ generated by the reduction in current ~~rates not received from the~~for eligible ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity ~~must~~ will borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly the Province) from the capital markets.

OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a ~~change of law~~ protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

- Providing this~~, in a May 2017 TB/MBC item reviewing proposed FHPAOntario Fair Hydro Plan legislation,~~ through Provinci~~al~~e assurance and guarantee provisions~~,~~ was recommended in a May 2017 TB/MBC item reviewing proposed FHPA.

*What would trigger the protection agreement?*

Ontario Financing Authority (OFA), the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances (Appendix C provides the non-binding term sheet):

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the ~~O~~FHPA/related regulations or new legislation that materially and adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or ~~*unenforceable*~~*ultra vires*; and
- A change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that materially and , adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interest so that it can pay its funding obligations~~Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on~~

**Commented [VC(2]:** Not sure that this is consistent with OPG advice, and I'm not sure it matters

**Formatted:** Font: Italic

**Formatted:** Font color: Black

**Formatted:** Font color: Black

**Formatted:** Font color: Black

its investment interest such that it can pay its specified creditors, including making payments on its debt obligations.

*Note: this third protection event is not included in the current draft of the term sheet agreed to by Ministry of Finance staff; however, OPG is expected to continue to negotiate for its inclusion. It has been included in the TB submission, but may be removed once negotiations are complete, prior to TB/MBC consideration of this item on September 26, 2017.]*

*….the third bullet isn't change of Law related?…*

**Commented [AS3]:** May or may not be the result of a change of law.

*Financial:*

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability contingent liability would increase over the duration of Ontario's Fair Hydro Plan (OFHP) the OFHP and peak at approximately $20B an estimated $24B to $26B of debt (final cost forecasts TBC), including principal and accumulated interest.

**Commented [HS(4]:** This is inconsistent with the Aug 31 Submission

Thought the estimated debt # was lower?

- In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time, and depending on change, the province could incur an expense equivalent to the amount of the increase in the outstanding debt.
- The Province's interest payments will will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on related to derivatives agreements and for service providers that the Province will be required to make. The fiscal impact of the increased interest payments will depend on the circumstances of the change (e.g. will the amounts continue to be recovered from the ratepayers through the clean energy adjustment as provided for under the FHPA).

*Financial (Risk) – In the event the protection agreement is triggered:*

The Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers. This would likely have implications for the Province's fiscal plan and appropriation requirements.

- The Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time, and the Province may incur an expense equal to the amount of the debt.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. The worst case scenario would be the Province assuming the debt at its peak at which point interest on debt (IOD) expense could increase between $0.8B and $1.3B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.
- In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged. In addition, the Province would also have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

**Commented [VC(5]:** I understand this would require a change in legislation – may want to confirm with OFA.

The Ministries indicate that if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (Interest On Debt (IOD) expense) will depend on whether or not some portions of the

OFHPA continue in some form, or not.

- For example if the ~~If the~~ payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments, albeit not necessarily in the same fiscal period; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense as well as any continued impact of reduced electricity rates would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used.
- Debt incurred ~~to~~ for benefit the ratepayer could becomes the responsibility of the taxpayer.

## APPENDIX A: PROPOSED MINUTE (UNDER DEVELOPMENT)

Approve the Ministries plan for implementing provisions of the ~~Ontario~~ *Fair Hydro Plan Act, 2017* to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by entities established by Ontario Power Generation Inc. In particular, that under certain circumstances the Province would pay when due amounts in respect of the obligations of the Financing Entity (Established by OPG).

In this regard,

i) Authorize that the Minister of Finance and Minister of Energy provide a protection agreement, to be authorized by Order in Council under the ~~Ontario~~ *Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out non-binding term sheet – Provincial Protection and Assurances Indicative Term Sheet including in the TB/MBC Submission, (… minuting an attachment?…or include key parameters in minute only, given request for the subject to revisions provision…) and subject to such revisions that the two ministers acting together may determine;

ii) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the FHPA~~Ontario Fair Hydro Act~~, that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

   a) ~~to~~ To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
   b) ~~to~~ To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

**Commented [AS6]:** Recommend referring to the attachment rather than key parameters (limit potential revisions to the term sheet)

**Commented [VC(7]:** This agreement is being approved prior to the commercial agreements being finalized, so from an accounting perspective, we do not have updated opinions/memos from KPMG re: IESO and EY re: OPG. I have asked the two CFOs to provide me with a summary of the work they have completed with their respective auditors by EOD tomorrow and we can insert that in the memo.

We may also want to include a report back to the Board once the accounting analysis is complete. That may also be an issue for the final legal and financing risks.

## APPENDIX B: FINANCIAL TABLES

## APPENDIX C: EXCERPT FROM ~~ONTARIO~~ *FAIR HYDRO PLAN ACT, 2017*

Protection and assurances

Prohibition

**5** (1) No action or omission by the Board, the Minister or the Crown shall be effective to reduce, impair, postpone or terminate the obligations of specified consumers to pay amounts in respect of the clean energy adjustment or to impair or postpone the invoicing, collection or remittance of the clean energy adjustment.

Agreements

(2) The Minister and the Minister of Finance may together, with the approval of the Lieutenant Governor in Council, enter into agreements on behalf of the Province of Ontario with any person in respect of this Act, including agreements regarding the performance of the IESO or electricity vendors under this Act or related transactions.

Guarantee, indemnification

(3) The Lieutenant Governor in Council may by order,

(a) authorize the Minister and the Minister of Finance, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and

(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity;

(b) specify terms and conditions that must be included in any guarantee or indemnity given by the Minister and the Minister of Finance; and

(c) specify a maximum liability for the guarantee or indemnity.

## APPENDIX D: NON-BINDING TERM SHEET

Commented [AS8]: Update to Sep 18 version

### APPENDIX

**Indicative Term Sheet**

**Ontario Fair Hydro Plan Act, 2017**

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

| | |
|---|---|
| **Change of Law Protection Agreement:** | A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together. |
| **Indenture Trustee:** | An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture. |
| **Beneficiaries:** | The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims. |
| **Specified Claims:** | Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval. |
| **Protection Events:** | Any of the following would constitute a Protection Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute;<br>(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or<br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council |

| | |
|---|---|
| | makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*),<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to Pay Specified Claims:** | Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |
| **Subrogation:** | Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent. |

| | |
|---|---|
| **Optional Replacement:** | At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim.<br>The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims.<br>The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required. |
| **FIPPA:** | The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |

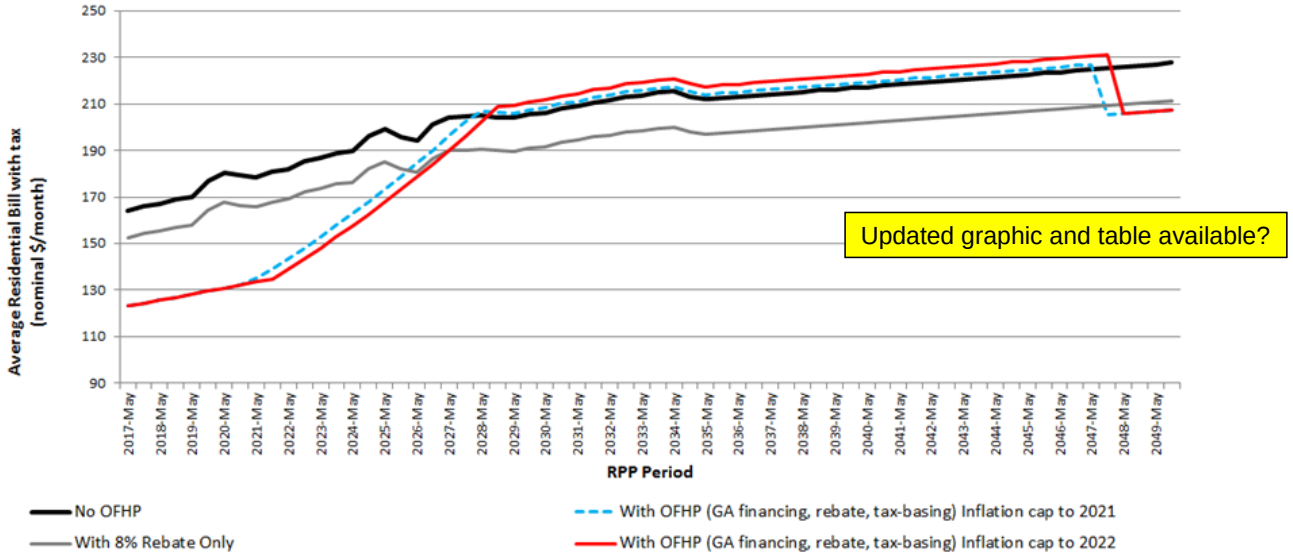
| | |
|---|---|
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

## APPENDIX E: PROFILE GLOBAL ADJUSTMENT SMOOTHING FOR RPP – ELIGIBLE ONLY – MAY 2017 TB/MBC SUBMISSION

Commented [HS(9]: Recommend that we don't include this reference.

The following graphic and table shows the multi-year profile of the planned approach to GA Smoothing that was included with the May 2017 TB/MBC Submission. The table below supports the Ministries assessment that the potential contingent liability under the protection agreement over the duration of the OFHP would peak at an estimated $24M to $26B (subject to final cost forecasts TBC), including principal and interest.

Commented [ESP10]: These numbers and the table below are pending finalization of costs forecasts – this work is still ongoing with OPG.



Updated graphic and table available?

| | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 | 2031 | 2032 | 2033 | 2034 | 2035 | 2036 | 2037 | 2038 | 2039 | 2040 | 2041 | 2042 | 2043 | 2044 | 2045 | 2046 | 2047 | 2048 |

| Total accumulated debt ($B) | 2.5 | 5.2 | 8.2 | 11.6 | 14.7 | 17.5 | 19.9 | 22.0 | 23.5 | 24.1 | 24.2 | 23.7 | 23.1 | 22.5 | 21.8 | 21.0 | 20.1 | 19.2 | 18.3 | 17.2 | 16.1 | 14.9 | 13.7 | 12.3 | 10.9 | 9.3 | 7.7 | 5.9 | 4.1 | 2.1 | 0.0 | 0.0 |
| Total change in accumulated debt ($B) | 2.5 | 2.6 | 3.0 | 3.5 | 3.1 | 2.8 | 2.4 | 2.0 | 1.6 | 0.6 | 0.1 | -0.5 | -0.6 | -0.6 | -0.7 | -0.8 | -0.8 | -0.9 | -1.0 | -1.0 | -1.1 | -1.2 | -1.3 | -1.4 | -1.4 | -1.5 | -1.6 | -1.7 | -1.9 | -2.0 | -2.1 | 0.0 |

**Notes:** Assumes 30 year financing period and a nominal interest rate of 5% (compounded monthly). Ratepayer GA payments increase annually beyond 2020 such that the average monthly residential electricity bill increases by 6.3% per year to a maximum of $2.2 billion above the true cost of GA in any given year to cap repayment charges at around 10% of total bill. IESO forecast is based on IESO's revised OPO forecast as of February 2017. Includes the cancellation of LRP II and EFW, expansion of ICI. Does not include smoothed OPG rates. Above residential bill is based on a 750 kWh per month Toronto Hydro customer. Data shown above is by RPP period. Assumes RPP prices are adjusted in July 2021 instead of May 2021 to coincide with the end of the inflation cap. Fair allocation amounts subject to third party review.

## APPENDIX F: OVERVIEW OF RISKS

Prepared by TBS staff, the following chart, as part of the May 2017 OFHP implementation update focused on the proposed legislation. It provides an overview of strategic (versus operational) risks to inform the approval/decision making process regarding the proposed legislation. Each part, GA Partial Refinancing & Electricity social programs, is a separate table.

The current submission, ~~Change of Law~~ Provincial Protection Agreement, is reflected under the risk "Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding" (page 16) as part of risk mitigating strategy.

**Commented [VC(11]:** Page 17 now –

I think you need to make it clear that this table has not been updated since May or just include the relevant page.

*Global Adjustment Partial Refinancing:*

**Objective:** Provide immediate ratepayer relief by capping rate increases at Consumer Price Index (CPI) for four years and refinancing GA costs over a longer period of time. Develop and implement a financing structure that increases provincial borrowing, but has no impact on annual provincial surplus/deficit.

| Risk | Level of Risk | Risk Response |
|---|---|---|
| The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA smoothing being allocated to the province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Critical<br>**Time Scale:** 6 to 12 months<br>**Rationale:**<br>• The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit.<br>• The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met.<br>• If a favourable legal and accounting treatment is not implemented, there could be a negative impact on the province's fiscal plan up to $2.5B in 2017-18 and rising.<br>• Rating agencies and investors in the Province's debt may view all of the borrowing as an obligation of the Province, especially taking into account the nature of provincial guarantees, which could put pressure on the Province's credit rating and overall borrowing capacity.<br>• Proposed structure may result in a negative response from Ontario Auditor General (OAG) due to previous concerns regarding recognition of rate regulated assets and liabilities. The AG has already expressed concerns regarding the accounting treatment on the IESO's books which could lead to a qualification of the Province's consolidated financial statements.<br>• Initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. | Risk can be mitigated by:<br>• Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to justify structure of financial model and be utilized in discussions with the OAG.<br>• Identify potential options to minimize the balance of rate regulated assets remaining on the IESO's books at fiscal year-end. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province. | **Risk Likelihood:** Likely<br>**Risk Impact:** Major<br>**Time Scale:** More than 36 months<br><br>**Rationale**<br>• The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model).<br>• The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the financial impact of potential changes in variables used in the financial models.<br>• Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases)<br>• Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans. |
| A legal determination that the Province is spreading the costs of GA financing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional. | **Risk Likelihood:** Medium<br>**Risk Impact:** High<br>**Time Scale:** Long-Term (More than 36 months)<br><br>**Rationale**<br>• If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments.<br>• Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized.<br>• Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI.<br>• If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required. | Risk can be avoided by:<br>• Imposition of a valid tax.<br>• Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase).<br>• Use of public funds to ease pressure.<br><br>Risk can be mitigated by:<br>• Improve forecasting model and close monitoring of costs and changes in variables built into model.<br>• Analyze the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure.<br>• Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Financing the costs of GA smoothing through OPG SPV/Trust and the volatility of interest rates may increase the cost of GA smoothing and/or require additional provincial funding. | **Risk Likelihood:** Possible<br>**Risk Impact:** Moderate<br>**Time Scale:** 12 to 24 months<br><br>**Rationale**<br>• The proposed structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on interest rate for borrowing, the amount of equity/funding the province may need to provide and the requirement for a provincial guarantee.<br>• As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing.<br>• If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047.<br>• Beyond 2022, when steep increases are required, there will likely be additional pressure on the government to offset a part of the scheduled increases.<br>• Risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's ratings and cost of borrowing. | Risk can be avoided by:<br>• Province providing a potential guarantee for the cost of borrowing – however, would redirect risk back to the Province and negate benefits of proposed financing structure.<br><br>Risk can be mitigated by:<br>• Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost.<br>• Proposed legislation to enable GA refinancing has been draft with input from third-party financers. Provides a 'narrow' provincial guarantee and ensuring that debt holders have the right of action against a future government to recover the amount outstanding including interest, fees, expenses and any damages. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA Refinancing having a fiscal impact to the province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Critical<br>**Time Scale:** 6 to 12 months<br><br>**Rationale:**<br>• The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit.<br>• The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met.<br>• If a favourable legal and accounting treatment is not implemented, there would be a negative impact on the province's fiscal plan of up to $2.5B in 2017-18 and rising.<br>• Rating agencies and investors in Province's debt may view all of the borrowing as an obligation of the Province, which could put pressure on the Province's credit rating and overall borrowing capacity.<br>• The proposed structure may result in an opinion from the Ontario Auditor General (OAG) considering previous concerns regarding recognition of rate regulated assets and liabilities. The OAG may take this into account when the provincial books are audited.<br>• An initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. Additional analysis is still required. | Risk can be mitigated by:<br>• Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to support discussions of the financial model with the OAG. |
| Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province. | **Risk Likelihood:** Likely<br>**Risk Impact:** Major<br>**Time Scale:** More than 36 months<br><br>**Rationale**<br>• The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model).<br>• The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the financial models.<br>• Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases)<br>• Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| A legal determination that the Province is spreading the costs of GA refinancing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Time Scale:** Long-Term (More than 36 months)<br><br>**Rationale**<br>• If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments.<br>• Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized.<br>• Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI.<br>• If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required. | Risk can be avoided by:<br>• Imposition of a valid tax.<br>• Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase).<br>• Use of public funds to ease pressure.<br><br>Risk can be mitigated by:<br>• Improve forecasting model and ongoing monitoring of costs and changes in variables built into model.<br>• Analysis of the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure.<br>• Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Time Scale:** 12 to 24 months<br><br>**Rationale**<br>• The proposed borrowing structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on the interest rate for borrowing, the amount of equity / funding the province may need to provide and the requirement for a provincial guarantee.<br>• As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing.<br>• There is a risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's own ratings and cost of borrowing.<br>• If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B (in the March 1, 2017 Cabinet Submission) is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047.<br>• Beyond 2022, when steep increases are required, there will likely be additional pressure on the province to offset a part of the scheduled increases.<br>• Fiscal impacts will be subject to fluctuations in Ontario electricity demand, GA and interests rates in the medium-to long term. As well as if a protection agreement is called upon:<br>o OPG, has advised that the Government of Ontario provide a change of law protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity. | Risk can be mitigated by:<br>• Providing a "provincial guarantee" for the cost of borrowing.<br>• Drafting legislation to provide assurance to OPG and investors regarding the permanence of the GA refinancing framework and the authority of the legislation to pass the legislation; and enable the Province to guarantee borrowing of the trust in the event of a market disruption.<br>• Specifics of a guarantee are dependent on the negotiation of agreements not yet initiated. Limiting triggers of a protection agreement to legislative (regulatory) changes and/or judicial decisions etc.<br>• Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost. |

*Electricity social programs (Enhancing Electricity Support & Conservation Programs):*

**Objective:** Shift funding of existing and new electricity support programs (RRRP, OESP, Affordability Fund, First Nations Credit) from rate to tax base.

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Uncertainty in forecasting due to exposure to changes and/or volatility (i.e. interest rates, electricity usage patterns, and distribution costs) may result in higher than anticipated fiscal impacts for the Province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Timescale:** 12 to 24 months<br><br>**Rationale:**<br>• The energy sector is complex and a number of key assumptions used as inputs into forecasting model are variables/forecasts themselves, resulting in a high inherent risk that cost estimates are inaccurate.<br>• Fiscal projection is highly dependent on factors which can fluctuate from year to year, including:<br>o electricity usage;<br>o distributions costs; and<br>o consumer consumption patterns that may change due to extreme weather or other factors.<br>• Fiscal projection is subject to knowledge of future distribution costs and dependent on submission of cost of service applications by Hydro One and LDCs.<br>o Enhanced RRRP may create disincentives from the eligible LDCs towards productivity and performance improvements and/or cause ineligible LDC's to drive up distribution costs to gain access to program. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the forecasting models. |

Hi Ron,

Thank you for this, I'll pass this along to the TB Analyst for his review; although unfortunately, I don't think your edits will make it into his note for Chair's briefing this afternoon (I had sent James an advanced mark-up early this morning to make it in time for the TB mail-out).

Anna

Hi Anna,

Sorry for the timing, but here are some suggestions to an earlier version Ken sent on to me this morning.

Hi James,

Please find attached, consolidated comments and edits from the OFA, Energy, and MOF Legal, as well as responses to your questions, below.

Please don't hesitate to contact me should you have any questions.

Thanks, Anna

**Subject:** Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,
Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.
Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.
  - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.
- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.
- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,
James Strang

**Subject:** Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.
    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.
- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would

provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,
James Strang

| | TREASURY BOARD / MANAGEMENT BOARD OF CABINET REQUEST ASSESSMENT NOTE | |
|---|---|---|
| | **Ministry:** | Energy & Finance |
| | **Meeting Date:** | September 26, 2017 |
| | **Agenda Class:** | Discussion (In-Camera) |
| | **Last reviewed by:** ENERGY TB/MBC May 9, 2017 | **Tracking to:** Fast Track Cabinet (September 27, 2017) |

| **SUBMISSION TITLE:** | Change of Law Protection Agreement<br>(Supports Ontario's Fair Hydro Plan implementation) |
|---|---|

## I. DECISION BEFORE THE BOARD

Approve the Ministries plan for implementing provisions within the ~~O~~*ntario Fair Hydro Plan Act, 2017* (FHPA) to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by entities established by Ontario Power Generation Inc.

## II. RECOMMENDATIONS

| | |
|---|---|
| Approve the plan for implementing provisions of the ~~*Ontario*~~ *Fair Hydro Plan Act, 2017* (FHPA) to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by entities established by Ontario Power Generation Inc (OPG).<br><br>– Under certain circumstances, the Province would pay when due amounts in respect of the obligations of the Financing Entity (Established by OPG) | *Approve* |
| Authorize that the Minister of Finance and Minister of Energy ~~to~~ provide a protection agreement, to be authorized by Order in Council under the ~~*Ontario*~~ *Fair Hydro Plan Act, 2017(FHPA).*<br><br>– In respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two Ministers acting together may determine | *Authorize* |
| Recommend that Cabinet approve an Order in Council (OIC), in accordance with section 5 of the ~~*Ontario*~~ *Fair Hydro Plan Act, 2017 (FHPA)* that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,<br><br>– ~~to~~ To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and<br>– ~~to~~ To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity. | *Recommend* |

**Commented [ESP1]:** This item is not up for approval per the TB Sub.

## III. FINANCIAL SUMMARY

| | | | |
|---|---|---|---|
| Recommended program base | 0.0 | 0.0 | 0.0 |
| Offset Recommended | 0.0 | 0.0 | 0.0 |
| Total Fiscal Impact | 0.0 | 0.0 | 0.0 |

## IV. KEY COMMENTS AND CONSIDERATIONS

Under the ~~*Ontario*~~ *Fair Hydro Plan Act, 2017*, (~~O~~FHPA), which enables Global Adjustments (GA) Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap resulting from the reduction in amounts collected. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset".

The OFHPA provides for ~~the~~ IESO to sell all or a portion of the Regulatory Asset (i.e., to sell the right to recover those deferred amounts from specified consumers in the future). Under the ~~O~~FHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the ~~O~~FHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly the Province) from the capital markets.

OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a ~~change of law~~ protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

- Providing this~~, in a May 2017 TB/MBC item reviewing proposed FHPAOntario Fair Hydro Plan legislation,~~ through Provinc~~ial~~ assurance and guarantee provisions~~,~~ was recommended in a May 2017 TB/MBC item reviewing proposed FHPA.

*What would trigger the protection agreement?*

Ontario Financing Authority (OFA), the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances (Appendix C provides the non-binding term sheet):

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the ~~O~~FHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or ~~*unenforceable*~~*ultra vires*; and
- A change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interest so that it can pay its funding obligations~~[Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations~~.

~~*Note: this third protection event is not included in the current draft of the term sheet*~~

**Formatted:** Font: Italic

**Formatted:** Font color: Black

**Formatted:** Font color: Black

~~*agreed to by Ministry of Finance staff; however, OPG is expected to continue to negotiate for its inclusion. It has been included in the TB submission, but may be removed once negotiations are complete, prior to TB/MBC consideration of this item on September 26, 2017.]*~~

*….the third bullet isn't change of Law related?…*

*Financial:*

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of Ontario's Fair Hydro Plan (OFHP) ~~the OFHP~~ and peak at approximately $20B ~~an estimated $24B to $26B~~ of debt (final cost forecasts TBC), including principal and accumulated interest.

- In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

*Financial (Risk) – In the event the protection agreement is triggered:*

The Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers. This would likely have implications for the Province's fiscal plan and appropriation requirements.

- The Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. The worst case scenario would be the Province assuming the debt at its peak at which point interest on debt (IOD) expense could increase between $0.8B and $1.3B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.
- In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged. In addition, the Province would ~~also~~ have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The Ministries indicate that if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (~~Interest On Debt (~~IOD~~)~~ expense) will depend on whether or not some portions of the OFHPA continue in some form, or not.

- For example if the ~~If the~~ payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used.

**Commented [AS2]:** May or may not be the result of a change of law.

**Commented [HS(3]:** This is inconsistent with the Aug 31 Submission

Thought the estimated debt # was lower?

- Debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

## APPENDIX A: PROPOSED MINUTE (UNDER DEVELOPMENT)

Approve the Ministries plan for implementing provisions of the ~~Ontario~~ *Fair Hydro Plan Act, 2017* to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by entities established by Ontario Power Generation Inc. In particular, that under certain circumstances the Province would pay when due amounts in respect of the obligations of the Financing Entity (Established by OPG).

In this regard,

i) Authorize that the Minister of Finance and Minister of Energy provide a protection agreement, to be authorized by Order in Council under the ~~Ontario~~ *Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out non-binding term sheet – Provincial Protection and Assurances Indicative Term Sheet including in the TB/MBC Submission, (… minuting an attachment?…or include key parameters in minute only, given request for the subject to revisions provision…) and subject to such revisions that the two ministers acting together may determine;

ii) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the FHPA~~Ontario Fair Hydro Act~~, that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

   a) ~~to~~ To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
   b) ~~to~~ To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

**Commented [AS4]:** Recommend referring to the attachment rather than key parameters (limit potential revisions to the term sheet)

## APPENDIX C: EXCERPT FROM ~~*ONTARIO*~~ *FAIR HYDRO PLAN ACT, 2017*

Protection and assurances

Prohibition

**5** (1) No action or omission by the Board, the Minister or the Crown shall be effective to reduce, impair, postpone or terminate the obligations of specified consumers to pay amounts in respect of the clean energy adjustment or to impair or postpone the invoicing, collection or remittance of the clean energy adjustment.

Agreements

(2) The Minister and the Minister of Finance may together, with the approval of the Lieutenant Governor in Council, enter into agreements on behalf of the Province of Ontario with any person in respect of this Act, including agreements regarding the performance of the IESO or electricity vendors under this Act or related transactions.

Guarantee, indemnification

(3) The Lieutenant Governor in Council may by order,

(a) authorize the Minister and the Minister of Finance, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and

(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity;

(b) specify terms and conditions that must be included in any guarantee or indemnity given by the Minister and the Minister of Finance; and

(c) specify a maximum liability for the guarantee or indemnity.

## APPENDIX D: NON-BINDING TERM SHEET

Commented [AS5]: Update to Sep 18 version

### APPENDIX

**Provincial Protections and Assurances**

**Indicative Term Sheet**

**Ontario Fair Hydro Plan Act, 2017**

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

| | |
|---|---|
| **Change of Law Protection Agreement:** | A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together. |
| **Indenture Trustee:** | An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture. |
| **Beneficiaries:** | The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims. |
| **Specified Claims:** | Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval. |
| **Protection Events:** | Any of the following would constitute a Protection Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute;<br>(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or<br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council |

| | |
|---|---|
| | makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*),<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to Pay Specified Claims:** | Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |
| **Subrogation:** | Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent. |

| | |
|---|---|
| **Optional Replacement:** | At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim.<br>The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims.<br>The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required. |
| **FIPPA:** | The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |

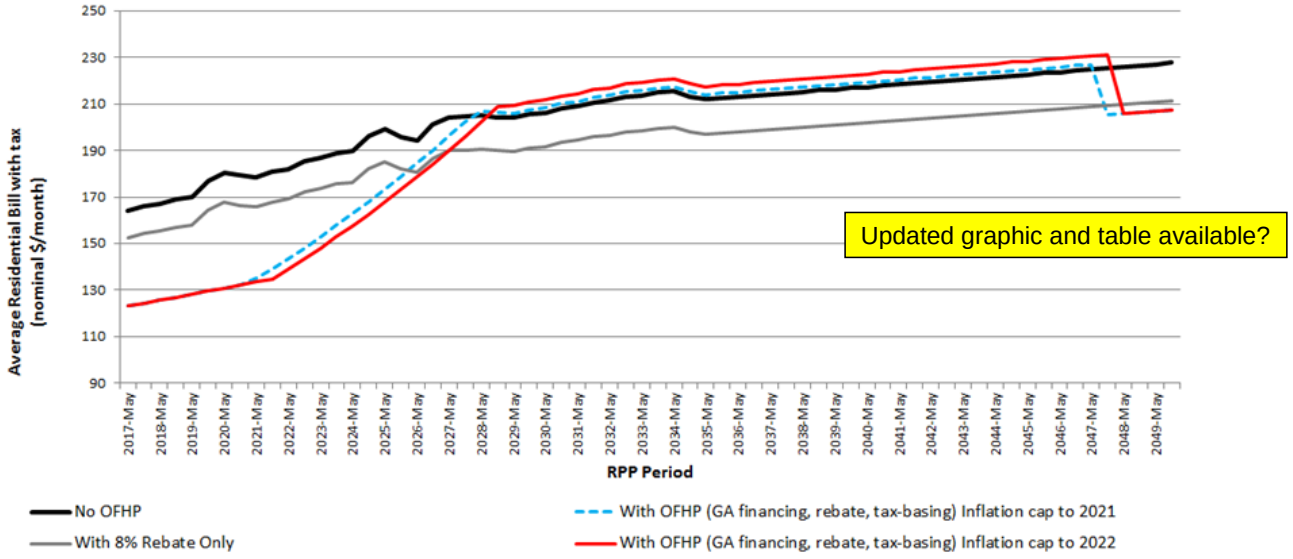
| | |
|---|---|
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

## APPENDIX E: PROFILE GLOBAL ADJUSTMENT SMOOTHING FOR RPP – ELIGIBLE ONLY – MAY 2017 TB/MBC SUBMISSION

Commented [HS(6]: Recommend that we don't include this reference.

The following graphic and table shows the multi-year profile of the planned approach to GA Smoothing that was included with the May 2017 TB/MBC Submission. The table below supports the Ministries assessment that the potential contingent liability under the protection agreement over the duration of the OFHP would peak at an estimated $24M to $26B (subject to final cost forecasts TBC), including principal and interest.

Commented [ESP7]: These numbers and the table below are pending finalization of costs forecasts – this work is still ongoing with OPG.



Updated graphic and table available?

| | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 | 2031 | 2032 | 2033 | 2034 | 2035 | 2036 | 2037 | 2038 | 2039 | 2040 | 2041 | 2042 | 2043 | 2044 | 2045 | 2046 | 2047 | 2048 |

| Total accumulated debt ($B) | 2.5 | 5.2 | 8.2 | 11.6 | 14.7 | 17.5 | 19.9 | 22.0 | 23.5 | 24.1 | 24.2 | 23.7 | 23.1 | 22.5 | 21.8 | 21.0 | 20.1 | 19.2 | 18.3 | 17.2 | 16.1 | 14.9 | 13.7 | 12.3 | 10.9 | 9.3 | 7.7 | 5.9 | 4.1 | 2.1 | 0.0 | 0.0 |
| Total change in accumulated debt ($B) | 2.5 | 2.6 | 3.0 | 3.5 | 3.1 | 2.8 | 2.4 | 2.0 | 1.6 | 0.6 | 0.1 | -0.5 | -0.6 | -0.6 | -0.7 | -0.8 | -0.8 | -0.9 | -1.0 | -1.0 | -1.1 | -1.2 | -1.3 | -1.4 | -1.4 | -1.5 | -1.6 | -1.7 | -1.9 | -2.0 | -2.1 | 0.0 |

**Notes:** Assumes 30 year financing period and a nominal interest rate of 5% (compounded monthly). Ratepayer GA payments increase annually beyond 2020 such that the average monthly residential electricity bill increases by 6.3% per year to a maximum of $2.2 billion above the true cost of GA in any given year to cap repayment charges at around 10% of total bill. IESO forecast is based on IESO's revised OPO forecast as of February 2017. Includes the cancellation of LRP II and EFW, expansion of ICI. Does not include smoothed OPG rates. Above residential bill is based on a 750 kWh per month Toronto Hydro customer. Data shown above is by RPP period. Assumes RPP prices are adjusted in July 2021 instead of May 2021 to coincide with the end of the inflation cap. Fair allocation amounts subject to third party review.

## APPENDIX F: OVERVIEW OF RISKS

Prepared by TBS staff, the following chart, as part of the May 2017 OFHP implementation update focused on the proposed legislation. It provides an overview of strategic (versus operational) risks to inform the approval/decision making process regarding the proposed legislation. Each part, GA Partial Refinancing & Electricity social programs, is a separate table.

The current submission, ~~Change of Law~~ Provincial Protection Agreement, is reflected under the risk "Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding" (page 16) as part of risk mitigating strategy.

*Global Adjustment Partial Refinancing:*

**Objective:** Provide immediate ratepayer relief by capping rate increases at Consumer Price Index (CPI) for four years and refinancing GA costs over a longer period of time. Develop and implement a financing structure that increases provincial borrowing, but has no impact on annual provincial surplus/deficit.

| Risk | Level of Risk | Risk Response |
|---|---|---|
| The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA smoothing being allocated to the province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Critical<br>**Time Scale:** 6 to 12 months<br>**Rationale:**<br>• The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit.<br>• The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met.<br>• If a favourable legal and accounting treatment is not implemented, there could be a negative impact on the province's fiscal plan up to $2.5B in 2017-18 and rising.<br>• Rating agencies and investors in the Province's debt may view all of the borrowing as an obligation of the Province, especially taking into account the nature of provincial guarantees, which could put pressure on the Province's credit rating and overall borrowing capacity.<br>• Proposed structure may result in a negative response from Ontario Auditor General (OAG) due to previous concerns regarding recognition of rate regulated assets and liabilities. The AG has already expressed concerns regarding the accounting treatment on the IESO's books which could lead to a qualification of the Province's consolidated financial statements.<br>• Initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. | Risk can be mitigated by:<br>• Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to justify structure of financial model and be utilized in discussions with the OAG.<br>• Identify potential options to minimize the balance of rate regulated assets remaining on the IESO's books at fiscal year-end. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province. | **Risk Likelihood:** Likely<br>**Risk Impact:** Major<br>**Time Scale:** More than 36 months<br><br>**Rationale**<br>• The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model).<br>• The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the financial impact of potential changes in variables used in the financial models.<br>• Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases)<br>• Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans. |
| A legal determination that the Province is spreading the costs of GA financing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional. | **Risk Likelihood:** Medium<br>**Risk Impact:** High<br>**Time Scale:** Long-Term (More than 36 months)<br><br>**Rationale**<br>• If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments.<br>• Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized.<br>• Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI.<br>• If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required. | Risk can be avoided by:<br>• Imposition of a valid tax.<br>• Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase).<br>• Use of public funds to ease pressure.<br><br>Risk can be mitigated by:<br>• Improve forecasting model and close monitoring of costs and changes in variables built into model.<br>• Analyze the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure.<br>• Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Financing the costs of GA smoothing through OPG SPV/Trust and the volatility of interest rates may increase the cost of GA smoothing and/or require additional provincial funding. | **Risk Likelihood:** Possible<br>**Risk Impact:** Moderate<br>**Time Scale:** 12 to 24 months<br><br>**Rationale**<br>• The proposed structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on interest rate for borrowing, the amount of equity/funding the province may need to provide and the requirement for a provincial guarantee.<br>• As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing.<br>• If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047.<br>• Beyond 2022, when steep increases are required, there will likely be additional pressure on the government to offset a part of the scheduled increases.<br>• Risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's ratings and cost of borrowing. | Risk can be avoided by:<br>• Province providing a potential guarantee for the cost of borrowing – however, would redirect risk back to the Province and negate benefits of proposed financing structure.<br><br>Risk can be mitigated by:<br>• Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost.<br>• Proposed legislation to enable GA refinancing has been draft with input from third-party financers. Provides a 'narrow' provincial guarantee and ensuring that debt holders have the right of action against a future government to recover the amount outstanding including interest, fees, expenses and any damages. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA Refinancing having a fiscal impact to the province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Critical<br>**Time Scale:** 6 to 12 months<br><br>**Rationale:**<br>• The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit.<br>• The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met.<br>• If a favourable legal and accounting treatment is not implemented, there would be a negative impact on the province's fiscal plan of up to $2.5B in 2017-18 and rising.<br>• Rating agencies and investors in Province's debt may view all of the borrowing as an obligation of the Province, which could put pressure on the Province's credit rating and overall borrowing capacity.<br>• The proposed structure may result in an opinion from the Ontario Auditor General (OAG) considering previous concerns regarding recognition of rate regulated assets and liabilities. The OAG may take this into account when the provincial books are audited.<br>• An initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. Additional analysis is still required. | Risk can be mitigated by:<br>• Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to support discussions of the financial model with the OAG. |
| Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province. | **Risk Likelihood:** Likely<br>**Risk Impact:** Major<br>**Time Scale:** More than 36 months<br><br>**Rationale**<br>• The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model).<br>• The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the financial models.<br>• Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases)<br>• Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| A legal determination that the Province is spreading the costs of GA refinancing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Time Scale:** Long-Term (More than 36 months)<br><br>**Rationale**<br>• If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments.<br>• Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized.<br>• Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI.<br>• If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required. | Risk can be avoided by:<br>• Imposition of a valid tax.<br>• Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase).<br>• Use of public funds to ease pressure.<br><br>Risk can be mitigated by:<br>• Improve forecasting model and ongoing monitoring of costs and changes in variables built into model.<br>• Analysis of the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure.<br>• Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Time Scale:** 12 to 24 months<br><br>**Rationale**<br>• The proposed borrowing structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on the interest rate for borrowing, the amount of equity / funding the province may need to provide and the requirement for a provincial guarantee.<br>• As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing.<br>• There is a risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's own ratings and cost of borrowing.<br>• If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B (in the March 1, 2017 Cabinet Submission) is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047.<br>• Beyond 2022, when steep increases are required, there will likely be additional pressure on the province to offset a part of the scheduled increases.<br>• Fiscal impacts will be subject to fluctuations in Ontario electricity demand, GA and interests rates in the medium-to long term. As well as if a protection agreement is called upon:<br>o OPG, has advised that the Government of Ontario provide a change of law protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity. | Risk can be mitigated by:<br>• Providing a "provincial guarantee" for the cost of borrowing.<br>• Drafting legislation to provide assurance to OPG and investors regarding the permanence of the GA refinancing framework and the authority of the legislation to pass the legislation; and enable the Province to guarantee borrowing of the trust in the event of a market disruption.<br>• Specifics of a guarantee are dependent on the negotiation of agreements not yet initiated. Limiting triggers of a protection agreement to legislative (regulatory) changes and/or judicial decisions etc.<br>• Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost. |

*Electricity social programs (Enhancing Electricity Support & Conservation Programs):*

**Objective:** Shift funding of existing and new electricity support programs (RRRP, OESP, Affordability Fund, First Nations Credit) from rate to tax base.

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Uncertainty in forecasting due to exposure to changes and/or volatility (i.e. interest rates, electricity usage patterns, and distribution costs) may result in higher than anticipated fiscal impacts for the Province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Timescale:** 12 to 24 months<br><br>**Rationale:**<br>• The energy sector is complex and a number of key assumptions used as inputs into forecasting model are variables/forecasts themselves, resulting in a high inherent risk that cost estimates are inaccurate.<br>• Fiscal projection is highly dependent on factors which can fluctuate from year to year, including:<br>o electricity usage;<br>o distributions costs; and<br>o consumer consumption patterns that may change due to extreme weather or other factors.<br>• Fiscal projection is subject to knowledge of future distribution costs and dependent on submission of cost of service applications by Hydro One and LDCs.<br>o Enhanced RRRP may create disincentives from the eligible LDCs towards productivity and performance improvements and/or cause ineligible LDC's to drive up distribution costs to gain access to program. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the forecasting models. |

| **Subject:** | RE: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC |
| **Date:** | Wednesday, September 20, 2017 8:00:35 AM |

Hi Malle,

Thank you for your thorough and thoughtful review.

Just getting back to you now on your two comments:

- The TB analyst has asked whether to minute the attachment or to include key parameters of the term sheet in the minute – I'm inclined to stick with referring to the term sheet in the minute. The language in the term sheet was "litigated" enough that I fear misrepresenting any parameters when they are summarized for the purpose of a minute. I agree with you that recommending TB approve the Ministers entering into the agreement, based on the current term sheet, would remove the possibility of subsequent revisions to the term sheet.
- Attaching a draft of the OIC to refer to in the minute – I don't think this is required, nor is it typically done, but we could certainly provide the draft to James for his reference.

Anna

**From:** Hanslep, Malle (MOF) [mailto:Malle.Hanslep@ontario.ca]

**Sent:** Tuesday, September 19, 2017 2:00 PM

**To:** Anna Strathy ; Tobias P. Whitfield (MOF) ; Ken Kandeepan ; Ronald Kwan ; Mike Manning ; Keley Katona (ENERGY)

**Cc:** Gadi Mayman ; Anthony Reiss (MGS) ; Thouin, Alena (ENERGY) ; McKinlay, Tom (ENERGY)

**Subject:** RE: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Here are my comments on the analyst's note.

p. 1 Recommendations

- second recommendation, remove "to" after "Ministry of Energy"
- third recommendation, should this refer to the draft OIC that is attached. Don't know whether the TB submission itself references a draft OIC being attached?

p. 2 "What would trigger the protection agreement?"

- second bullet re: court decision, change wording from "invalid or unenforceable" to "invalid or ultra vires" to match most recent version of term sheet
- third bullet – the third event has now been inserted into the term sheet as "there is a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interst so that it can pay its funding obligations.

p. 4 See the comments in the proposed first minute asking whether there is a desire to minute the attachment or to include key parameters in minute only given the request for a "subject to revisions provision". I am not sure how we wish to answer this question. Putting in only key parameters would broaden the 2 Ministers' discretion to agree to revisions to the term sheet. Possibly if we were to do this, are the essential parameters really the "Protection Events", and "Obligation re: pay specified claims? Comments on this?

p. 4 Regarding second minute – should it reference a draft form of OIC attached?

Regarding the questions posed by the analyst, here is a start on some of those.

1. Third trigger is in now.
2. Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular

circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt [need description of interest rate swaps and what might be done here – fix floating rate debt – anything else?]

3. The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period….
4. The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Good morning,

Please find attached, the draft TBS Assessment note on the Provincial Protection Agreement. Please review and provide comments to me by 3:00pm this afternoon and I will consolidate comments for Gadi's review.

With respect to James' questions, I'll follow up separately and I expect some will be answered in the updated draft of the submission (with final term sheet).

Thank you, Anna

>
> Hi,
> Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify.
    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope?
- What are derivative agreements? Payments under derivative agreements?
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market?
- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA?

Thanks in advance,
James Strang

Hi James, Jonathan,

At this morning's 8am meeting with Energy, Deputy Thompson requested a few small tweaks to the submission prior to Minister Sousa's briefing tomorrow. Please find attached, a clean and track-change version of the updated submission.

In addition to the Deputy's comments, we have also updated the peak debt estimate (and associated IOD costs) to reflect the latest information provided by the Ministry of Energy.

Happy to discuss.

Thanks, Anna

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-

brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.
    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.
- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.
- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,
James Strang

# PROVINCIAL PROTECTION AND ASSURANCES AGREEMENT

**1. PROGRAM/BRANCH:** Ontario Financing Authority

**2. SUMMARY OF REQUEST:**

Provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by one or more financing entities established by Ontario Power Generation Inc. pursuant to s. 22 of the *Ontario Fair Hydro Plan Act, 2017* ("OPG Financing Entities"), that, under certain circumstances as set out in the proposed arrangements the Province would pay when due amounts in respect of the obligations of the Financing Entity.

The Ministry of Finance and Ministry of Energy request that Treasury Board/Management Board of Cabinet:

(a) Approve that the Minister of Finance and Minister of Energy, on behalf of Ontario, provide a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two ministers acting together may determine;

(b) Recommend that Cabinet approve an Order in Council, to be made under subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

## 3. BACKGROUND:

On March 2, 2017, the government announced its proposed Ontario's Fair Hydro Plan (OFHP) to lower electricity bills by 25%, on average, for a typical residential consumer, and holding increases to the rate of inflation for four years. As part of OFHP, it was announced that a portion of the Global Adjustment (GA) would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would be achieved by spreading the cost of electricity investments so that they are shared proportionately by future consumers who cause a need for, or benefit from, the province's multi-billion dollar investments in electricity infrastructure.

To this end, immediate rate relief to eligible ratepayers is provided by deferring and spreading the cost recovery of electricity investments over a longer period of time. Under forecasts provided by the Ministry of Energy at the time of the OFHP announcement in March, the immediate reduction would be about $2.5 billion per year on average over the first ten years. The Ministry of Energy will report back to TB/MBC in fall 2017-18 with an update on out-year projections following analysis on rate applications before the Ontario Energy Board.

Under the *Ontario Fair Hydro Plan Act, 2017,* (the "OFHPA"), which enables GA Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap resulting from the reduction in amounts collected over four years. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset". The OFHPA provides for the IESO to sell all or a portion of the regulatory asset; i.e., the right to recover those deferred amounts from specified consumers in the future. Under the OFHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the OFHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly, the Province) from the capital markets; however, OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

OFA, the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances:

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the OFHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations;
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or unenforceable; or
- Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations.

In the event the protection agreement is triggered, the Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers.

In addition, the Province would also have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged.

Section 28 of the *Financial Administration Act (FAA), 1990* requires that the Minister of Finance's approval is obtained before a ministry seeks an Order in Council (OIC) to enter into a guarantee or indemnity that would increase the contingent liabilities of Ontario. The Minister of Finance has given Section 28 approval for the Minister of Energy, together with the Minister of Finance to recommend the OIC to Cabinet and will, acting together with the Minister of Energy, determine the terms and conditions of and execute the proposed guarantee/indemnity in accordance with the OIC, if approved.

## 5. ADMINISTRATIVE IMPACTS:

To be managed by existing staff.

## 6. RISKS:

If the protection agreement is not approved, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from IESO or the cost of the financing will be potentially materially greater than it otherwise would be.

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of the OFHP and peak at an estimated $20B of debt (final cost forecasts TBC), including principal and accumulated interest.

In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

While it is difficult to estimate the actual impact to the Province's interest on debt (IOD) expense, the worst case scenario would be the Province assuming the debt at its peak. If so, IOD expense may increase between $0.8B and $1.0B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.

It is important to note that, if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (IOD expense) will depend on whether or not some portions of the OFHPA continue in some form, or not. If the payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used. Also, debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

## 7. COMMUNICATION PLAN

Key Messages

- Ontario's Fair Hydro Plan has resulted in the biggest electricity rate reduction in the history of our province.

- We have heard from Ontarians across the province that the price of electricity has risen too quickly: that's why we moved forward with a plan to ensure the costs are shared more evenly over the years ahead.
- Our government is following through on its commitment to balance the books as announced in the 2017 Budget, while continuing to make investments in priority areas such as electricity price relief.
- This agreement is a key step in lowering electricity costs province-wide as part of the Fair Hydro Plan.

Strategic Approach

- Low-profile, reactive and targeted to industry stakeholders and government employees, as necessary. Reactive messaging contingent on legislative changes only with back-pocket QAs to support as needed.
- Communications support will continue to be led by the Ministry of Energy.

## 8. RECOMMENDATION

The Ministry of Finance and Ministry of Energy request that Treasury Board/Management Board of Cabinet:

(a) Approve that the Minister of Finance and Minister of Energy provide a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two ministers acting together may determine;

(b) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the *Ontario Fair Hydro Plan Act, 2017*, that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

# APPENDIX

**Provincial Protections and Assurances**

**Indicative Term Sheet**

**Ontario Fair Hydro Plan Act, 2017**

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding.*

| | |
|---|---|
| **Change of Law Protection Agreement:** | A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together. |
| **Indenture Trustee:** | An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture. |
| **Beneficiaries:** | The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims. |
| **Specified Claims:** | Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval. |
| **Protection Events:** | Any of the following would constitute a Protection Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute;<br>(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) or amends the Regulation made under the Act or any portion thereof; or |

| | |
|---|---|
| | (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*);<br><br>(5) there is a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province,<br><br>in each case, that [materially][1] and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction [in a final and non-appealable judgement][2] determines that all or a portion of the Act or the Regulation is *ultra vires* or invalid in a way that [materially][3] and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to Pay Specified Claims:** | Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |

[1] Under consideration to assess the marketability implications of materiality threshold.

[2] Under consideration to assess the marketability implications of this phrase.

[3] See footnote 1, above.

| | |
|---|---|
| **Subrogation:** | Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity. |
| **Optional Assumption:** | At any time following the occurrence of a Protection Event, the Obligor shall be entitled (but not obligated) to assume the Financing Entity's obligations in respect of Specified Claims as obligor and debtor. The Financing Entity (including through the Financial Services Manager) will ensure that Specified Claims permit such an assumption by the Obligor without any penalty or make-whole payment (or, in the case of any contract for the provision of on-going services to the Financing Entity, the satisfaction and termination of the Specified Claims without any acceleration of future fees, profits or other like amounts), or any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The process by which a Specified Claim will become subject to the Change of Law Protection Agreement will be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |
| **FIPPA:** | The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

# PROVINCIAL PROTECTION AND ASSURANCES AGREEMENT

**1. PROGRAM/BRANCH:** Ontario Financing Authority

**2. SUMMARY OF REQUEST:**

Provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by one or more financing entities established by Ontario Power Generation Inc. pursuant to s. 22 of the *Ontario Fair Hydro Plan Act, 2017* ("OPG Financing Entities"), that, under certain circumstances as set out in the proposed arrangements the Province would pay when due amounts in respect of the obligations of the Financing Entity.

The Ministry of Finance and Ministry of Energy request that Treasury Board/Management Board of Cabinet:

(a) Approve that the Minister of Finance and Minister of Energy, on behalf of Ontario, provide a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two ministers acting together may determine;

(b) Recommend that Cabinet approve an Order in Council, to be made under subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

## 3. BACKGROUND:

On March 2, 2017, the government announced its proposed Ontario's Fair Hydro Plan (OFHP) to lower electricity bills by 25%, on average, for a typical residential consumer, and holding increases to the rate of inflation for four years. As part of OFHP, it was announced that a portion of the Global Adjustment (GA) would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would be achieved by spreading the cost of electricity investments so that they are shared proportionately by future consumers who cause a need for, or benefit from, the province's multi-billion dollar investments in electricity infrastructure.

To this end, immediate rate relief to eligible ratepayers is provided by deferring and spreading the cost recovery of electricity investments over a longer period of time. Under forecasts provided by the Ministry of Energy at the time of the OFHP announcement in March, the immediate reduction would be about $2.5 billion per year on average over the first ten years. The Ministry of Energy will report back to TB/MBC in fall 2017-18 with an update on out-year projections following analysis on rate applications before the Ontario Energy Board.

Under the *Ontario Fair Hydro Plan Act, 2017,* (the "OFHPA"), which enables GA Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap resulting from the reduction in amounts collected over four years. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset". The OFHPA provides for the IESO to sell all or a portion of the regulatory asset; i.e., the right to recover those deferred amounts from specified consumers in the future. Under the OFHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the OFHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly, the Province) from the capital markets; however, OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

OFA, the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances:

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the OFHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations;
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or unenforceable; ~~and~~ or
- Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations.

In the event the protection agreement is triggered, the Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers.

In addition, the Province would also have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged.

Section 28 of the *Financial Administration Act (FAA), 1990* requires that the Minister of Finance's approval is obtained before a ministry seeks an Order in Council (OIC) to enter into a guarantee or indemnity that would increase the contingent liabilities of Ontario. The Minister of Finance has given Section 28 approval for the Minister of Energy, together with the Minister of Finance to recommend the OIC to Cabinet and will, acting together with the Minister of Energy, determine the terms and conditions of and execute the proposed guarantee/indemnity in accordance with the OIC, if approved.

## 5. ADMINISTRATIVE IMPACTS:

To be managed by existing staff.

## 6. RISKS:

If the protection agreement is not approved, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from IESO or the cost of the financing will be potentially materially greater than it otherwise would be.

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of the OFHP and peak at an estimated $~~24B to $26~~20B of debt (final cost forecasts TBC), including principal and accumulated interest.

In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

While it is difficult to estimate the actual impact to the Province's interest on debt (IOD) expense, the worst case scenario would be the Province assuming the debt at its peak. If so, IOD expense may increase between $0.8B and $1.0~~3~~B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.

**Commented [AS1]:** Using updated forecast of peak debt at $20B and interest rate range of 4.2% to 5.0%

It is important to note that, if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (IOD expense) will depend on whether or not some portions of the OFHPA continue in some form, or not. If the payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used. Also, debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

Thanks John, just to be clear what we determined at the meeting yesterday was to ensure that Energy was in fact comfortable with the OFA sharing the latest version of OPG's term sheet for the guarantee **including the comments and edits from Blake's**. These, while not substantially amending the term sheet does make it narrower.

Let us know

Thanks

Ken k

Hi Mike, Ken,

I had a call with Adrian Nalasco who is acting for Steen. He has indicated that along with Steen, Energy's Deputy is away so it is difficult for him to provide a formal go-ahead to us. I explained to him the time sensitivity and that we would have a discussion with OPG on an informal basis to get their feedback on the latest draft which MOF Legal and Energy Legal have drafted. I gave him a bit of a background that OPG has had back and forth with us on previous versions of the draft.

With these caveats, Adrian is comfortable with various members of the OFA having discussions with OPG counterparts on the latest draft support agreement.

Thanks,

John

**Subject:** FW: Provincial Support Agreement update

Hi Steen,

I'm sending the attached revised draft, non-binding term sheet on behalf of various parts of the OFA that are working on the Provincial guarantee / support agreement to support the OPG financing entity.

As you may have been informed, the attached draft term sheet was drafted jointly by MOF Legal, Energy Legal and Blakes' and is somewhat narrower in scope of the guarantee/support than the version that was provided by OPG in mid-August.

To discuss, we would like to host a meeting tomorrow, if possible, including your team and Energy Legal, MOF Legal and GBED. Also, Capital Markets folks here at the OFA are looking to share the draft term sheet with their counterparts at OPG. Pls. advise if you would have any issue with the sharing of the draft term sheet.

If you could advise of your availability, I would be happy to coordinate on behalf of everyone here at the OFA.

Thanks,

John

John,

Together with our outside counsel at Blake's and Energy Legal we have revised the term sheet further.

The attached note, prepared by Energy Legal is a good summary of the issues and where things stand.

I think the next step is to have you and Ron discuss this draft, and prepare to meet with staff at the OFA and Energy once Gadi returns next week and has been briefed on the progress.

Please share as you think makes sense at the OFA, and let me know if you want to discuss further.

Best
Toby

Given the time sensitivity of this, in order to ensure that we make it to TB on the 26th, I'm comfortable with Mike not just having discussions with OPG, but sharing the draft with them, as long as you tell them that this hasn't yet been fully vetted by Energy. If there are show-stoppers for OPG, which I'm hoping there aren't, we really need to know about them this week.

Gadi

**Subject:** RE: QA AG Report OFHP Technical Briefing
**Date:** Sunday, October 15, 2017 10:45:16 AM

---

Agreed with Ron's comment ( it's the penultimate question). My preference would be also to emphasize the fact that placing the responsibility for the financing costs on the base is a long and well established policy of the Government and I would make this point in the response to the first question.
The fourth para in the response could be extended as follows: " Having the beneficiaries of a particular initiative pay the costs of financing is in accordance with a long and well established government policy. For example, Infrastructure Ontario's loans to the municipal sector are made at rates that approximate the external borrowing costs of a particular municipality. Likewise, loans to OPG from the Province or its agencies use a market proxy to determine applicable interest rates, despite the lower borrowing costs of the Province."
If Gadi agrees he can raise the issue tomorrow at the briefing.
Thanks

Hi Anna,
On a quick skim on the iPhone, they did not correct the name of the OFA ("Financing", not "Financial").

Hi Folks,

Attached are the QAs for the AG OFHP Report. This version incorporates input from OFA. Attached is also the TBS QAs, which we've kept as a stand-alone product since it's very technical and specific to TBS (also attached).

These will be used at Monday morning's meeting along with the technical deck which is still being finalized.

Thanks,
Martin

Hi Toby

These reflect that changes we discussed yesterday and can be sent out subject to any comments from Mike and Carlos. However, as per my conversation with Malle and subsequently with Gadi, we are running out of time and need to come to a meeting of the minds with OPG on this issue.

To that extent perhaps we can move towards finalizing this issue sometime next week and in order to do so indicate in the covering email to OPG that we would like them to review the September 27th document from the perspective of what impacts on the integrity of the proposed accounting treatment and get back to us hopefully Monday.

That will provide us with a baseline that can be either accepted or tweaked within reasonable limits allowing the process to move forward. With regard to the "failsafe" it may be useful to mention in the covering email that we are open to making changes.

I would also request that we include if possible in the email that the incorporation documents of the Financing Entity include a clause that prohibits the FE from issuing debt that contravenes the terms of the Guaranty. This along with the attestation or certificate for each debt issue should in my opinion constitute a reasonable safeguard of the Province's interests. Not sure whether this will also impact on the integrity of the accounting but we won't know until we ask.

Thanks

Ken k

Hi Cindy,

Thanks for your response. We appreciate how busy you are and that you are reviewing the materials. We are planning to respond to OPG today.

We wanted to touch base with you again before we send the response because OPG had the question "Please also advise if the Province's accountants have reviewed the proposal." In their email to the Province so wanted to respond to that along the lines of the following if it's ok with you.

"The Province's accountants are involved in this process and are also reviewing the proposal."

Thanks.

Malle

Hi Cindy,

I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.

I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.

Thank you for your assistance – we know that you are pressed with many priority items.

**Subject:** RE: Response to OPG

Hi Cindy,
I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.
I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.
Thank you for your assistance – we know that you are pressed with many priority items.

[NOTE TO DRAFT: CONFIRM THAT TORYS IS REFERRING TO THE OFA/MOE PROPOSAL FROM SEPTEMBER 27TH. ]

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

**Accounting Issues:**
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

[There is minimal oversight and input from the Province so long as the pre-agreed scope and parameters are adhered to.]

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

[The proposal is that basic information regarding an incurrence will be provided to enable the province to (1) understand the nature and scope of the incurrence, to enable the Province to address ~~accounting, reporting and~~ internal governance considerations and (2) to be satisfied that the proposed incurrences are in-line with the pre-agreed parameters (the "~~Objectives~~Parameters"). The intention is not to curtail incurrences that follow the pre-agreed approach. The timing of the notice to the Province may be a point of discussion.]

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
[As the entity running the program, OPG will be expected to provide the province with information sufficient to enable the province to ~~achieve~~ make sure any incurrence falls inside the ~~Objectives~~Parameters. The delivery of a certificate in an agreed form, just prior to the time of the incurrence, is meant to create a brightline test for the financing entity's counterparties to know that, so long as the certificate has been delivered (even if it's inaccurate), the Province will be bound. As you suggest below, any inaccuracy will give rise to considerations between the province and OPG. The delivery of the certificate at the time of an incurrence is considered an important due diligence confirmation for the province.
What is the basis for E&Y expressing a reservation regarding the province having access to underlying information about the "approved obligations", which in turn will define the scope of the

province's own obligations if called upon under the change of law protection agreement (CLPA)?]
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
[Any surety in a similar circumstance would want to know the nature and extent of the obligations incurred and to be incurred. That information is intended to allow the province to meet the objectives. Please provide an alternative proposal that meets OPGs requirements and still provides adequate information for the Province.]
-the negative pledge with respect to the exercise of certain options on the debt
[The idea is that if there is optionality in favour of the financing entity, and the exercise would affect the payment profile under the CLPA, such an exercise following a Protection Event should not affect the Province's payment obligations. In effect, the payment schedule will crystalize and cannot be accelerated or extended once the province becomes obligated to pay, following a Protection Event.]
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement
[The Province needs to understand the overall credit picture of the financing entity since it will become a creditor (through subrogation) if it is called on to perform. Exclusions are narrowly defined and should be minimal in practice.]

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have.
[These checks and balances are in-line with the province not writing a "blank cheque" in relation to future incurrences. Prudent sureties would be expected to pursue the objectives - indeed to do less could be evidence of interdependence and non-arm's length terms, which presumably would be unhelpful to E&Y's analysis. ] Please also advise if the Province's accountants have reviewed the proposal.
[The Province's accountants are involved in this process and are also reviewing the proposal~~The Province's accounting professionals are involved in this process, including in reviewing these responses~~]

**Practical Issues:**

- The procedural steps to bind the Province are lengthy and complicated.

[The OFHPA will involve very significant and complex financings. The process is intended to provide an appropriate level of third party enquiry given the size and scale of the financing program to the province and in order to ensure the issuances are within the Parameters. ~~meet the objectives~~] From our perspective, as drafted, OPG will likely have to seek Provincial approval
[No approval is contemplated or expected by the Province, except if the incurrence is outside of the pre-agreed boundaries.~~ The onus will be on the Province to review the summary materials provided by OPG and to identify any material departures from the pre-agreed approach to incurrences~~] on each debt issuance (which weakens the accounting as discussed above)
[An explanation of the relevant accounting principles that E&Y has expressed concern about would assist the province to understand E&Y'S concerns. ~~Is there an accounting statement or publication that elaborates on these matters?~~ Also, a detailed list of any particular troublesome requirements would be helpful, with drafting suggestions as appropriate] [The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. [From the dealers' perspective, the three listed requirements (namely, (1) quantum under the program limit

(2) delivery of the OPG certificate (3) absence of contrary notice from the Province) can be easily and objectively verified by the dealers. These process requirements should be reflected in the incurrence procedures as a check/balance at the relevant time, given that the province will not otherwise be directly involved in the incurrence process but will be obligated under the CLPA] Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. [As noted above, the three listed requirements can be easily and objectively confirmed by the dealers prior to a closing. inaccuracies or other failures within the certification process will not negate the Province's obligations] We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met.

[As noted, this due diligence check/balance is how the province will ~~meet the objectives~~ensure the issuances satisfy the Parameters. It is anticipated that the Ministers will see this process as significant to the exercise of their authorities under OFHPA 5(3). Ultimately, the Province will depend on OPG, which is why the delivery of a certificate, without being impugned by an accuracy, is the contemplated adherence condition - rather than making the confirmation of certificate accuracy a condition, which we assume would be unwelcome by the underwriters.] The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

[The Province wants an actual certificate to be delivered to it (not just the indenture trustee) as part of the closing process. Also, the program limit and failsafe disapproval notice are considered to be important safeguards for the province]

- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.
- [In the case of details not known at the time the OPG certificate is to be delivered (which will be expected to occur close to closing), it should be sufficient to indicate the process by which those details will be finalized. For example, it would be sufficient to say "interest rates to be set on or about [date] based on underwriting syndicate pricing indications".]

**Drafting Issues:**

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- [The proposal uses the specific defined terms from the OFHPA and regulation, in order to tie back to the statute and appropriately narrow the scope to the obligations that are reasonably known to require protection from the province. Considerable thought has been given to the approach reflected in the province's proposal. The Province wishes to focus on each inclusion that requires the support arrangements, which should then be net of

available/free cash flows, set-offs, etc. Please provide specific comments on any specific items of concerns.]

- We'd like to understand the reason OPG's management fees have been excluded. [This is still an open question under consideration.] We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? [Under consideration] Please advise why taxes are being excluded?

[CRA does not require/is not entitled by law to the benefit of the protection arrangement. Please explain the logic of the request to include taxes]

- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.

[For the Province's support arrangement to apply to an obligation, the quantum of the obligation must be factored into the program maximum test. if the obligation is a contingent obligation, the province's obligations must be capped so that the amount of the cap can be factored into the program limit test]

- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

[In the interest of time, please provide any other detailed comments you may have on the September 27th version of the proposal as soon as possible]

Thanks Stephen for the clarification.
My objective in putting forward this suggestion was to eliminate any possibility of the FE issuing debt that may contravene the Protection Agreement (PA). As it stands, theoretically the FE can issue debt that falls outside the PA though it will not be guaranteed by the Province. The problem conceivably arises with regard to any debt issues that are very close to the line drawn by the PA and the consequent need for due diligence on the part of the Province on an issue by issue basis, all of which can be eliminated or at least alleviated by the incorporation of negative covenants.
Pity that it is not possible.
Thanks
Ken k

**Subject:** RE: Response to OPG
Ken, it is not advisable to incorporate negative covenants in the FE's incorporation documents. That approach would raise *ultra vires* issues, which could cast doubt on the efficacy of particular debt issues. I was anticipating negative covenants in the Change of Law Protection Agreement. Happy to discuss.

**Subject:** RE: Response to OPG
Hi Toby
These reflect that changes we discussed yesterday and can be sent out subject to any comments from Mike and Carlos. However, as per my conversation with Malle and subsequently with Gadi, we

are running out of time and need to come to a meeting of the minds with OPG on this issue.
To that extent perhaps we can move towards finalizing this issue sometime next week and in order to do so indicate in the covering email to OPG that we would like them to review the September 27th document from the perspective of what impacts on the integrity of the proposed accounting treatment and get back to us hopefully Monday.
That will provide us with a baseline that can be either accepted or tweaked within reasonable limits allowing the process to move forward. With regard to the "failsafe" it may be useful to mention in the covering email that we are open to making changes.
I would also request that we include if possible in the email that the incorporation documents of the Financing Entity include a clause that prohibits the FE from issuing debt that contravenes the terms of the Guaranty. This along with the attestation or certificate for each debt issue should in my opinion constitute a reasonable safeguard of the Province's interests. Not sure whether this will also impact on the integrity of the accounting but we won't know until we ask.
Thanks
Ken k

Hi Cindy,

Thanks for your response. We appreciate how busy you are and that you are reviewing the materials. We are planning to respond to OPG today.

We wanted to touch base with you again before we send the response because OPG had the question "Please also advise if the Province's accountants have reviewed the proposal." In their email to the Province so wanted to respond to that along the lines of the following if it's ok with you.

"The Province's accountants are involved in this process and are also reviewing the proposal."

Thanks.

Malle

Hi Malle – thanks for the note -- when I left the call, I thought the plan was to proceed providing detailed comments to OPG – I don't think you should hold up that process for my review. I will review the documents, but can't commit to providing comments back today.

Thanks,

Cindy

**Subject:** RE: Response to OPG

Hi Cindy,

I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.

I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.

Thank you for your assistance – we know that you are pressed with many priority items.

**Internal Draft: November 2, 2017**

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**ONTARIO POWER GENERATION INC.**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**"), is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM [established] the Financing Entity as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreement and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG, and of the Province in accordance with the Act and the OIC, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) the terms used in this Agreement that are not defined in this Agreement shall have the meanings assigned to them in the Change of Law Protection Agreement;

(c) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(d) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(e) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor;

(f) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(g) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(h) all references in this Agreement to designated "Sections", "Subsections" "Schedules", "Exhibits" and other subdivisions are to the designated, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular Section, Subsection, Schedule, Exhibit or other subdivision;

(i) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(j) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

**1.02 References to the Financing Entity or the Financing Entity Trustee**

For greater certainty, each reference to the Financing Entity or to the Financing Entity Trustee shall be construed as a reference to the Financing Entity Trustee, as trustee of the Financing Entity.

**1.03 Effect of Headings**

The Article and Section headings herein and are for convenience only and will not affect the construction hereof.

**1.04 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not.

**1.05 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.06 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

**1.07 Proceedings Against the Crown Act**

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

**1.08 Attornment**

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

**1.09 Counterparts; Electronic Delivery**

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

**1.01 Change of Law Process Agreement Referred to in the Change of Law Protection Agreement**

This Agreement is the "Change of Law Process Agreement" referred to in the Change of Law Protection Agreement.

**1.10 Non-Business Days**

Whenever any period of time would begin or end or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such period of time shall begin or end, and such other action shall be taken on the next succeeding Business Day.

**1.11 Waiver, Amendment**

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

## ARTICLE II
## COVENANTS OF OPG

**2.01 Deliveries to the Province**

(a) Not less than ■ Business Days prior to the initial issuance of any Funding Obligation by the Financing Entity, OPG shall deliver to the Province a copy of

the initial Financing Plan. Thereafter, OPG shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

(b) Not less than ■ Business Days prior to the initial issuance of any Funding Obligation by the Financing Entity, OPG shall deliver to the Province an analysis and assessment of the tax position of the Financing Entity. Thereafter, OPG shall promptly deliver to the Province a copy of any proposed change to or replacement of such analysis and assessment.

(c) Not less than ■ Business Days prior to any proposed change, addition or supplement to a Transaction Document becoming effective or otherwise being used, OPG shall deliver to the Province a copy of such proposed change, addition or supplement to the Transaction Document.

(d) Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, OPG shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document).

(e) Promptly upon request, OPG shall provide the Province with such additional information and documentation as the Province requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

(f) OPG shall, as the FSM, cause the Financing Entity to deliver to the Province copies of the Financing Entity's annual tax returns and any related tax assessment not more than ■ Business Days after such a tax return or tax assessment is required to be filed under applicable law.[1]

**2.02 Covenants**

(a) OPG shall, as the FSM, cause the Financing Entity to:

(i) punctually perform and observe all of its obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

[1] Note: The tax documents to be provided to the Province are under consideration.

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not, without the prior written consent of the Province:

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement or replacement or waiver or consent could reasonably be considered to be materially prejudicial to the rights or interests of the Province under the Change of Law Protection Agreement;

(B) consent to the resignation of (1) the Administrative Agent under the Administrative Services Agreement; or (2) the Manager under the Management Agreement;

(C) consolidate or merge with or into any other Person;

(D) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired;

(E) permit any Lien (other than the Security Interest) to be created on or extend to or otherwise arise upon or burden the Collateral or any part thereof or any interest therein or the proceeds thereof;

(F) sell, transfer, exchange or otherwise dispose of any of the Collateral, other than as expressly permitted by the Trust Indenture;

(G) release any security or guarantee in respect of the Collateral other than as expressly permitted by the Trust Indenture; or

(H) voluntarily dissolve or liquidate.

(b) OPG shall:

(i) comply, and as the FSM cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation;

(iii) after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension

right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under this Agreement would be accelerated, delayed or otherwise affected; and

(iv) ensure that any disclosure (including any Disclosure Document) that refers to or describes the terms, effect or adherence of or to this Agreement will be subject to the prior review of the Province and such disclosure will not be made (and any such Disclosure Document shall not be used) without the prior written consent of the Province.

## ARTICLE III
## PROCESS CERTIFICATE

### 3.01 Process Certificate

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are also executive officers of OPG) and addressed to the Province, not less than ■ Business Days prior to the incurrence or any amendment of a Primary Obligation, setting out the following with respect to the Primary Obligation:

(a) the material terms of the Funding Obligations pertaining to principal amount, pricing and third party fees;[2]

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment and the anticipated effect of the amendment on or in relation to the affected terms and conditions of the Primary Obligation, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement that: (i) the Primary Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

[2] Note: Level of detail required by the Province is under consideration. Province to consider whether it would like further details regarding Principal Obligations, Redemption Obligations, Interest Obligations, Hedging Obligations, Third Party Expense Obligations or Other Funding Obligations. In desirable, particulars regarding Hedging Obligations and the market in which notes are issued to be considered.

(d) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(e) if the Primary Obligation is a [borrowing], confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum.

**3.02 Acknowledgment**

The parties acknowledge that the Process Certificate is the certificate referred to in Subsection 4.02(d)(ii) of the Change of Law Protection Agreement.

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) has been provided to the Province in accordance with Subsection 2.01(c); and

(b) has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to OPG.

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation;

(b) with respect to the Reviewed Documentation referred to in clauses (v) to (ix) of the definition of "Transaction Documents", and, where applicable, clauses (x) and (xi) of the definition of "Transaction Documents" as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of

the Primary Obligations arising thereunder and as to the timing, conditions and circumstances in which payment obligations under such Primary Obligations may arise, but without regard to the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(c) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed disclosure document complies in all material respects with all securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

### 4.01 Protection Agreement Maximum

(a) The initial Protection Agreement Maximum shall be determined by the Province prior to the initial issuance of the first Funding Obligation. The initial Protection Agreement Maximum will be confirmed by the Province by notice in writing to OPG, as the FSM.

(b) Not less than ■ Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the applicable Financing Plan (the "**Initial Forecast**"). In determining the initial Protection Agreement Maximum, the Province may have regard to (but not be bound by) the Initial Forecast.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**").

(d) Upon receiving an updated Forecast, the Province shall determine whether or not the Protection Agreement Maximum will be revised. In determining whether the Protection Agreement Maximum will be revised, the Province may have regard to (but not be bound by) such updated Forecast. Any determination by the Province to revise the Protection Agreement Maximum will be confirmed by setting out a new Protection Agreement Maximum in a written notice from the Province to the FSM and the Indenture Trustee, the delivery of which will be conclusive evidence that such new Protection Agreement Maximum will apply until it may be further so revised.

## ARTICLE V
## REPRESENTATIONS AND WARRANTIES

### 5.01 Representations and Warranties of OPG

OPG represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, shall cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto and to own its property and carry on its business as currently conducted.

(c) OPG has been validly appointed, and has irremovably accepted such appointment, as the FSM in accordance with the Act. OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation of OPG enforceable against OPG in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG (including in its capacity as the FSM) or the

Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or the Financing Entity or in the ability of OPG or the Financing Entity to perform their respective obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or the Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

## ARTICLE VI
## ELECTION TO ASSUME APPROVED OBLIGATIONS

### 6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) to elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly

complete and deliver to OPG a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to OPG (the "**Proposed Assumption Date**").

**6.02 Details regarding Obligations Secured**

Promptly following the delivery of the Election Notice to OPG, OPG shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) a draft version of the Assumption Agreement prepared in relation to each Obligation Secured, prepared in accordance with and having regard to the requirements of the relevant agreement(s) under which the Obligation Secured arises.

**6.03 Settlement of Terms**

Within ■ Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether

or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

### 6.04 Cooperation to Implement the Assignment and Assumption

OPG shall cooperate with the Province and, as FSM, will cause the Financing Entity to cooperate to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.[3]

### 6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, OPG will, and as FSM, will cause the Financing Entity to, ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity, permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts.[4]

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of OPG under this Agreement (including in respect of its role as FSM under any Program Agreement;

(b) any representation or warrant made by OPG in this Agreement, or any certification made in a Process Certificate, proves to be incorrect on the date made; or

[3] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.

[4] Note: The Trust Indenture will need to include a clause providing that the obligations of the Financing Entity to the Indenture Trustee and the Noteholders may be assigned to the Province in accordance with an assumption agreement, substantially in the form set out in an exhibit to the Trust Indenture.

(c) OPG is no longer the FSM, the Administrative Agent or the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the FSM, the Administrative Agent or the Manager.

**7.02 Notice on Breach Event**

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right, upon written notice to OPG at its option, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide notice to the Indenture Trustee that a Breach Event has occurred and, in accordance with the Change of Law Protection Agreement, that the Limited Guarantee does not and will not apply to any Primary Obligations that may thereafter be incurred or amended by or on behalf of the Financing Entity.[5]

## ARTICLE VIII
## MISCELLANEOUS

**8.01 Term of Agreement**

This Agreement will continue for the term of the Change of Law Protection Agreement.

**8.02 Notices**

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to OPG:

Ontario Power Generation Inc.
700 University Avenue
Toronto, Ontario M5G 1X6
Attention: [■]
Fax: (416) [■]

[5] NTD: Carve-out for re-financings of Approved Obligations already in existence is under consideration.

Email: [■]

(b) if to the Province:

Ministry of Finance
[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

and

Ministry of Energy
[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 8.02.

**8.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties.

(b) Any purported assignment of this Agreement in violation of this Section 8.03 shall be null and void.

**8.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**8.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

**8.06 Confidentiality**

[Note: To be considered based on what would be customary and appropriate for similar types of arrangements and would be acceptable to the Province.]

**8.07 Delivery of Executed Copies**

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), **[FINANCING ENTITY TRUSTEE]**, as the Financing Entity Trustee and in its capacity as trustee of the **[FINANCING ENTITY]**, a trust settled by the FSM under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc. in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and **[INDENTURE TRUSTEE]**, a trust company existing under the laws of Canada, as Indenture Trustee and in its capacity as trustee for the in accordance with the Trust Indenture, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations secured or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM [established] the Financing Entity as a "financing entity"[1] (as defined in the Act) for the purposes contemplated in the Act.

The trustee of the Financing Entity in its capacity as Financing Entity Trustee and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

OPG and the Province will concurrently enter into the Process Agreement, under which OPG will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence

[1] Note to Draft: Consideration is being given by MOE to possible changes to the Regulation to accommodate the proposed use of a "trust", as a "financing entity".

Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity Trustee, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(c) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(d) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor;

(e) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(f) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(g) all references in this Agreement to designated "Articles", "Sections", "Subsections", "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(h) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(i) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

**1.02 Trustee to act in accordance with the Trust Indenture**

Any action taken, required to be taken or permitted to be taken by the Indenture Trustee under this Agreement shall only be taken in the manner, at the times, for the purposes, subject to the prerequisites, conditions, requirements and limitations, and with the benefits, exculpations, indemnities and protections that are provided to the Indenture Trustee, in each case in respect of such action taken, required to be taken or permitted to be taken by it under the Trust Indenture.

**1.03 Proof of Approved Obligations**

The efficacy of any agreement, instrument or writing evidencing a Primary Obligation may, in the absence of manifest error, be conclusively proved in any manner that the Indenture Trustee deems to be sufficient.

Any statement of account prepared by the Indenture Trustee as regards the Primary Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due and payable by the Financing Entity to the Beneficiaries and/or the Indenture Trustee and the Province hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Indenture Trustee agrees to provide the Province with the computations and calculations used by the Indenture Trustee to prepare each such statement of account promptly following a request therefor.

**1.04 Limitation on Rights of and Actions by Specified Creditors**

Specified Creditors, as Beneficiaries, shall not have or be permitted to exercise any rights, interests, or elections under this Agreement, other than in the manner and to the extent effected and exercised through the Indenture Trustee under, in accordance with and subject to the limitations set forth in the Trust Indenture. No Specified Creditor will have any right to institute any proceeding, judicial or otherwise, with respect to this Agreement.

**1.05 Province Retains Rights of Beneficiaries**

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province upon performance by the Province of the Primary Obligation.

**1.06 Effect of Headings**

The Article and Section headings herein are for convenience only and will not affect the construction hereof.

**1.07 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

**1.08 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.09 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

**1.10 Proceedings Against the Crown Act**

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

**1.11 Attornment**

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

**1.12 Counterparts; Electronic Delivery**

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

**1.13 Change of Law Protection Agreement Referred to in the Trust Indenture**

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

**1.14 Non-Business Days**

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

**1.15 Waiver, Amendment**

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

**1.16 Interest Act**

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such

yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (a) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (b) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

**1.17 Currency**

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

**1.18 References to Acts of the Financing Entity Trustee**

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

**1.19 Judgment Currency**

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Financing Entity shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.18 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**") to the Province requiring the Province to pay the Approved Obligations owing from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation (without Acceleration) in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts owing by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Collection Account (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and [(ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.][3]

[2] Note: Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations" which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligation and an "investment interest" is therefore crucial. Unfortunately, the nexus is not straightforward. Blakes is considering how to more precisely connect these concepts.

[3] Note: OFA to confirm whether the Limited Guarantee will extend to require the Province to fill sinking fund and collateral accounts during the period when the Province is required to make payments. If not, then we will need to consider the impact on ratepayers and the potential impact on the CEA calculations, which will have been based originally on these deposits being made during particular reference periods.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 Gross-up**

[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.][4]

**2.03 Absence of Set-off**

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Collection Account in Satisfaction**

Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Collection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[5] Upon a payment having been made by or on behalf of the Province into

[4] Province to advise on extension of a tax gross up. We assume this is necessary, although we have not discussed it specifically and it may be that we delete this provision on the basis that the determination of a tax gross up (and the Province's liability for it) will be based on the inclusion of that concept in the Trust Indenture itself.

[5] Note: This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently. To be discussed with Torys.

the Collection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable under the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[6].

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the

[6] Note: Consider if Beneficiary rights under Obligations Secured can in fact be affected in this way under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture, to the effect that the Beneficiaries will be deemed to be bound by the Indenture Trustee insofar as the Beneficiaries rights against the financing entity are to be affected.

Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

### 2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations.

### 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (a) the Adherence Conditions applicable thereto have been satisfied; or (b) the Province has specifically approved in writing the particular terms, conditions and documentation for the Primary Obligation.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured;

(b) if the Primary Obligation is a [borrowing][7], at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[8] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations,[9] do not exceed the Protection Agreement Maximum;

(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, not less than ■ Business Days and not more than ■ Business Days prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG) and addressed to the Province and the Indenture Trustee, not less than ■ Business Days and not more than ■ Business Days prior

[7] Under consideration. Need to ensure that non-conventional instruments (capital rather than debt) are caught in the maximum test.

[8] Note: The concept of "repayments" under the OFHPA take account of contemplated refinancings. There is some risk that an anticipated refinancing would not manifest as contemplated, in which case the amount financed (and subject to the Limited Guarantee) could exceed the Protection Agreement Maximum and result in a balloon payment obligation.

[9] Note: If certain financing entity obligations are guaranteed under a one-off agreement, the interaction between the one-off guaranteed amount and Approved Obligations that are looked at to determine if incurrence of a new Primary Obligation is within the Protection Agreement Maximum will need to be considered.

to the incurrence or any amendment of the Primary Obligation, setting out the following with respect to the Primary Obligation:

i. if the Primary Obligation is a [borrowing], confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum; and

ii. confirmation that the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province; and

(e) the Province has not provided notice to the Indenture Trustee that a Breach Event has occurred and that the Limited Guarantee does not apply to any further Primary Obligations that are incurred.[10]

**4.03 Evidence of Satisfaction**

A closing certificate signed by at least two executive officers of OPG in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defect or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## RIGHTS OF THE PROVINCE

**5.01 Assignment and Subrogation**

Upon paying an amount in respect of an Approved Obligation

(a) to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

(b) as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (a) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved

[10] NTD: Carve-out for re-financings of Approved Obligations already in existence is under consideration.

Obligation applicable in respect of the payment under the Trust Indenture, (b) the benefits of the related Collateral and (c) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a secured party under the Trust Indenture) under such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including, if applicable, as a Noteholder) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

**5.02 Priorities**

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

**5.03 Voting Rights under "Outstanding Notes"**

Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[11]:

(a) Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and

(b) in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.

[11] Note: This concept should be reflected in the Trust Indenture to be effective. Additional scenarios where the Province's rights as an affiliate of OPG may differ from what is expected are to be identified in the underlying Program Agreements.

**5.04 Province May Perform Other Program Agreement Covenants.**

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity [and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured and constitute a Finance Amount.[12]

## ARTICLE VIL
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

**6.01 Delivery of Assumption Notice**

The Province may provide notice (in the form of Exhibit B) to the Indenture Trustee that, in accordance with the terms of the Process Agreement, the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

**6.02 Cooperation to Implement the Assignment and Assumption**

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use [commercially reasonable efforts] to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[13]

**6.03 Effect of Assumption**

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee.

**6.04 Interim Period**

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

[12] Note: General Regulation must be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

[13] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

### 7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

### 7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

### 7.04 Release of all Collateral

(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a

subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.

(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.

**7.05 Right to Notice and Attend Meetings**

The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.

## ARTICLE VIII
## SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

**8.01 Suspension Notice**

A written notice in the form of Exhibit C (a "**Suspension Notice**"):

(a) shall be provided by the FSM to the Province and the Indenture Trustee promptly following the occurrence of a Program Breach; and

(b) may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event.

**8.02 Suspension**

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Financing Entity shall not incur any new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province.

**8.03 Termination Notice**

On the occurrence of a Suspension Event, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").

**8.04 No Impact on Adherence**

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event.

## ARTICLE IX
## MISCELLANEOUS

### 9.01 Term of Agreement

This Agreement will continue until the later of:

(a) the date that no amount is or may become due and payable by the Province under the Limited Guarantee; and

(b) the date that a Termination Notice is received by the Indenture Trustee, the FSM and the Financing Entity.

### 9.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to the Financing Entity:

[Financing Entity]
c/o Ontario Power Generation Inc.
700 University Avenue
Toronto, Ontario M5G 1X6
Attention: [■]
Fax: (416) [■]
Email: [■]

with copies to:

[Financing Entity Trustee], in its capacity as Financing Entity Trustee for
[Financing Entity]
[Address]

(d) if to the Indenture Trustee:

[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 9.02.

**9.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties.

(b) Any purported assignment of this Agreement in violation of this Section 9.03 shall be null and void.

**9.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**9.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

**9.06 Confidentiality**

[Note: To be considered based on what would be customary and appropriate for similar types of arrangements and would be acceptable to the Province. Note that this Agreement will become part of the package of rights acquired by investors and counterparties and so it is unclear to what extent confidentiality can or should be preserved in these circumstances.]

**9.07 No Petition**

The Province agrees, to the fullest extent permitted by applicable law, that at no time until one year and one day following repayment in full of all Primary Obligations shall it commence, or join in commencing, a bankruptcy case or other insolvency or similar proceeding under the laws of any jurisdiction against the Financing Entity.

**9.08 Force Majeure**

In no event shall the Indenture Trustee or the Financing Entity Trustee be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation, strikes, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God, and interruptions, loss or malfunctions of utilities, communications or computer (software and hardware) services; it being understood that the Indenture Trustee and the Financing Entity Trustee shall use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances.

**9.09 Delivery of Executed Copies**

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

**SCHEDULE A**
**DEFINED TERMS**

"**Acceleration**" has the meaning ascribed to the term "acceleration"[14] in the General Regulation.

"**Act**" has the meaning ascribed thereto in the first paragraph of the recitals in this Agreement.

"**Action**" has the meaning ascribed thereto under the Trust Indenture [as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee].

"**Adherence Conditions**", in respect of a Primary Obligation, means the conditions set out in Section 4.02.

"**Approved Obligation**" means a Primary Obligation that constitutes an Approved Obligation pursuant to Section 4.01.

"**Assumption Closing Date**" has the meaning ascribed thereto in Section 6.01.

"**Assumption Effective Date**" has the meaning ascribed thereto in Section 6.03.

"**Assumption Notice**" has the meaning ascribed thereto in Section 6.01.

"**Beneficiaries**" means the Specified Creditors to whom the Financing Entity owes a payment obligation pursuant to one or more Approved Obligations from time to time.

"**Breach Event**" means the occurrence or existence of any one or more of the following: (a) a default in the performance, or breach, of any covenants of OPG under the Process Agreement; or (b) any representation or warranty made by OPG, or any certification made by OPG under the Process Agreement, proves to be incorrect in any material respect on the date made; or (c) OPG is no longer the FSM, the Administrative Agent or the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the FSM, the Administrative Agent or the Manager.

"**Business Day**" means (a) any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are [, or the office of the Indenture Trustee is,] authorized or obligated by applicable law, regulation or executive order to be closed.

"**Capital Account**" has the meaning ascribed to the term "capital account" in the General Regulation.

"**Change of Law Protection Agreement**" means this Agreement.

[14] Note: A proposal to add this concept into the Regulation is under consideration by MOE. Further modifications to follow, depending on that process.

"**Collateral**" has the meaning ascribed thereto in the Trust Indenture [as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee].

"**Collection Account**" has the meaning ascribed thereto in the Trust Indenture [as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee].

"**Declaration of Trust**" means the declaration of trust made as of [■], 2017 under which the Financing Entity was established.

"**Derivative Agreement**" means any rate swap transaction, basis swap, forward rate transaction, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, total return swap transaction, credit default swap transaction or any other similar transaction (including any option with respect to any of those transactions) or any combination of these transactions entered into from time to time by the Financing Entity in connection with or related to Funding Obligations.

"**Finance Amount**" has the meaning ascribed to the term "finance amount" in the Act as of the date of this Agreement.

"**Finance Reserve Account**" has the meaning ascribed to the term "finance reserve account" in the General Regulation [as of the date of this Agreement].

"**Financing Entity**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Financing Entity Trustee**" means, at any time, the Person who is, in accordance with the Declaration of Trust, the trustee of the Financing Entity at such time.

"**FSM**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Funding Obligation**" has the meaning ascribed to the term "funding obligation" in the Act [as of the date of this Agreement].

"**General Regulation**" means O. Reg. 206/17 made under the Act.

"**Governmental Authority**" means any nation or government, any federal, state, provincial, local or other political subdivision thereof and any court, administrative agency or other instrumentality or entity exercising executive, legislative, judicial, regulatory or administrative functions of government.

"**IESO**" has the meaning ascribed thereto in the Act [as of the date of this Agreement].

"**Indenture Trustee**" means the Person named as the Indenture Trustee in the first paragraph of this Agreement until a successor Indenture Trustee shall have become such pursuant to the applicable provisions of the Trust Indenture and this Agreement, and thereafter "Indenture Trustee" means and includes such Person.

"**Investment Interest**" has the meaning ascribed to the term "Investment Interest" in the Act [as of the date of this Agreement].

"**Legislature**" means the Legislature of the Province of Ontario.

"**Limited Guarantee**" has the meaning ascribed thereto in Section 2.01(b).

"**Master Transfer and Servicing Agreement**" means the master transfer and servicing agreement dated [■], 2017 between the Financing Entity and IESO, and acknowledged and accepted by the Indenture Trustee.

"**Note**" or "**Notes**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Noteholder**" has the meaning ascribed thereto under the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Obligations Secured**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**OIC**" has the meaning ascribed thereto in the second paragraph of the recitals in this Agreement.

"**OPG**" means Ontario Power Generation Inc., a corporation established under the laws of the Province of Ontario.

"**Original Currency**" has the meaning ascribed thereto in Section 1.18(a).

"**Payment Demand**" has the meaning ascribed thereto in Section 2.01(a).

"**Person**" means any individual, corporation, limited liability company, estate, partnership, joint venture, association, joint stock company, trust (including any beneficiary thereof), unincorporated organization or Governmental Authority.

"**Primary Obligations**" means any Obligation Secured that is a Funding Obligation, other than (a) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event; and [(b) any amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account, or Supplemental Reserve Account.][15]

"**Process Agreement**" means the Change of Law Process Agreement dated [■], 2017 between the Province and OPG.

[15] Note: Possible simplification of definition structure under consideration.

"**Program Agreements**" has the meaning ascribed thereto in the Trust Indenture [as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee].

"**Program Breach**" means an event of default, early amortization event, termination event or similar event or circumstance (including any event that with the passage of time or the giving of notice would become such an event) of or in respect of the obligations of any party under any Program Agreement, including under this Agreement, the Trust Indenture, the Master Transfer and Servicing Agreement or any Derivative Agreement.

"**Protection Agreement Maximum"** means the dollar amount determined by the Province and of which OPG is provided notice in accordance with the Process Agreement.[16]

"**Protection Event**" means the occurrence of any of the following events:

(a) (i) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof as in effect on the date hereof;

(ii) the Legislature enacts or amends any other statute;

(iii) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the regulations made under the Act or any portion thereof as in effect on the date hereof; or

(iv) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*) as in effect on the date hereof;

(v) there is a change in the organization or structure of the IESO or Ontario's electricity market[17] undertaken at the initiative of the Province or an entity controlled by the Province,

in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its Investment Interest so that it can pay Obligations Secured, or (b) this Agreement or any of the agreements under which Obligations Secured arise, other than if the Indenture Trustee has confirmed in writing that the effect under such agreements is otherwise acceptable; or

(b) a court of competent jurisdiction [in a final and non-appealable judgement][18] determines that all or a portion of the Act or the regulations made under the Act, as in effect on the date hereof, is *ultra vires* or invalid in a way that materially and

[16] Note: An alternative would be to expressly state the Program Agreement Maximum amount and the process by which this amount is determined in this Agreement.

[17] Note: Consider more clarity to "Ontario's electricity market".

[18] Under consideration to assess the marketability implications of this phrase.

adversely affects the ability of the Financing Entity to receive amounts on its Investment Interest so that it can pay Obligations Secured.

"**Province**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Repayment**" has the meaning ascribed thereto in the General Regulation.

"**Second Currency**" has the meaning ascribed thereto in Section 1.18(b).

"**Security Interest**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Specified Creditors**" has the meaning ascribed thereto in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Supplemental Reserve Account**" has the meaning ascribed in the Trust Indenture as of the date of this Agreement or hereafter as may be confirmed by notice in writing from the Province to the Indenture Trustee.

"**Suspension Event**" has the meaning ascribed thereto in Section 8.02.

"**Suspension Notice**" has the meaning ascribed thereto in Section 8.01.

"**Termination Notice**" has the meaning ascribed thereto in Section 8.03.

"**this Agreement**" means this agreement, as amended, supplemented, restated or otherwise modified from time to time.

"**Trust Indenture**" means the trust indenture between the Financing Entity and the Indenture Trustee dated as of [■], 2017, as amended, supplemented, restated or otherwise modified from time to time.

**Subject:** Speaking Points for Minister Sousa

Good morning,

The DMO has asked that we prepare speaking points for Minister Sousa to use in response to the AG's report (to be released tomorrow at 10:30am).

I've put together the attached, based on Q&As and speaking points that we prepared previously.

Note, Scott Nelms' group is going to be preparing points on why the OFHP isn't reflected in the fiscal plan/deficit.

Could I ask for your review and comment asap?

Thanks, Anna

**MINISTER SOUSA SPEAKING POINTS**
**AUDITOR GENERAL'S SPECIAL REPORT ON THE ONTARIO FAIR HYDRO PLAN**

*(GBED to provide language on fiscal plan)*

- The policy objective of OFHP is to more fairly allocate the cost to specified ratepayers over the useful life, not the contractual term, of the electricity generating assets.

- Therefore, it was a primary policy objective to ensure that the costs are borne by the beneficiaries of the electricity system – the ratepayers – not the tax-base.

- Having the rate-base ~~pay~~carry the cost internally of financing investments is not a new policy, for example Hydro One has borrowed in the capital markets since ~~the early~~May 2000~~s~~.

- We believe it is appropriate for ratepayers to pay for the financing of electricity assets. The rate-base has a different risk profile than the tax-base, which would be reflected in different interest costs.

- The $4 billion figure in the Office of the Auditor General's report was sourced from the ~~FAO's~~ May 2017 report of the Financial Accountability Officer ("FAO"), and it is important to note~~,~~ that the FAO's calculation was based on preliminary estimates of the program when peak debt estimates and cumulative interest costs for the thirty year program were substantially higher than current projections.

- OPG has the necessary financing and commercial expertise to assist with refinancing the Global Adjustment (GA) and will ensure that it is done in an efficient and cost-effective manner.

I'm sorry, Anthony. You're right! I learned something new today. Just checked public accounts and didn't realize that we carried IOD for the Province under "Treasury".
I understand that's where the IOD for FHP would reside, not in a new, separate line.
Anna

> Sorry, another question that came up was would the IOD be the same category on what is currently being used ?
>
> - I'm not sure what you mean here. Should one of the triggering events occur, and the Province step in to make payments on behalf of the Financing Entity, the interest payments on the debt assumed by the Province would be added to the Province's interest on debt (IOD). IOD is not held in a specific Ministry, but

rather for the Province as a whole.

What jurisdictions would the Change of Law Protection Agreement be used.

- The Province of Ontario enters into the agreement with the Financing Entity to provide protection to investors. Provincial Law governs the agreement. Investors are expected to be within the Canadian market.

THANKS!

**Subject:** IMPORTANT UPDATE REQUIRED - TB Submission for Change of Law Protection Agreement

Hi there,
Please advise what documents the Minister of Energy is signing ?
As it is a joint submission he should be signing a number of documents including a TB20 Application.
I have a CAO information briefing at 2:30 and will want to know about MOE approvals and documentation.
Thanks,
Anthony

**Subject:** CEO Approved TB Submission for Change of Law Assumption Agreement

Anthony, Keley, Malle,

Please find attached, the CEO-approved TB Submission for the Assumption Agreement tracking to TB/MBC for the Sep 26 meeting. This version now incorporates input from Energy. I'm also attaching, for your briefing purposes, a deck (slightly revised from the one Keley prepared for the Minister of Energy's briefing two weeks ago).

Keley, could I ask you to please pass this version of the submission along to the Energy DMO for review?

Malle, we'll be looking for Legal sign-off tomorrow. Not sure if you or Michael will be signing off, but I'm happy to swing by 777 Bay at your convenience tomorrow with the approval package.

Anthony, I'll resend a scan with Legal sign-off once we have it.

Please don't hesitate to contact me should you have any questions.

Thanks, Anna

Thanks Anna,
The IOD is reported per Public Accounts – Volume 1, IOD is reported by Treasury Program (OFA) and consolidated under MOF. Will the IOD under the Fair Hydro Plan have a separate category ? Or will it follow under the current ?
Anthony

**To:** Anna Strathy <Anna.Strathy@ofina.on.ca>
**Subject:** RE: TB Submission for Change of Law Protection Agreement questions
Hi Anna,
Sorry, another question that came up was would the IOD be the same category on what is currently being used ?

- I'm not sure what you mean here. Should one of the triggering events occur, and the Province step in to make payments on behalf of the Financing Entity, the interest payments on the debt assumed by the Province would be added to the Province's interest on debt (IOD). IOD is not held in a specific Ministry, but rather for the Province as a whole.

What jurisdictions would the Change of Law Protection Agreement be used.

- The Province of Ontario enters into the agreement with the Financing Entity to provide protection to investors. Provincial Law governs the agreement. Investors are expected to be within the Canadian market.

THANKS!
Anthony

**Subject:** TB Submission for Change of Law Protection Agreement questions

Hi Anna,

I just finished my CAO briefing.

We would like OPCD feedback before our DM briefing and confirmation where would the liability be held in the event the Province takes on the debt ? Which Ministry/Entity would it reside in ?

Let me know what is feasible.

I hope your house closes smoothly!!!!

Thanks,

Anthony

**Subject:** IMPORTANT UPDATE REQUIRED - TB Submission for Change of Law Protection Agreement

Hi there,
Please advise what documents the Minister of Energy is signing ?
As it is a joint submission he should be signing a number of documents including a TB20 Application.
I have a CAO information briefing at 2:30 and will want to know about MOE approvals and documentation.
Thanks,
Anthony

**To:** Reiss, Anthony (MOF) <Anthony.Reiss@ontario.ca>; Katona, Keley (MOF) <Keley.Katona@ontario.ca>; Hanslep, Malle (MOF) <Malle.Hanslep@ontario.ca>
**Cc:** Mayman, Gadi (OFA) <Gadi.Mayman@ofina.on.ca>; Cox, Hilary (ENERGY) <Hilary.Cox@ontario.ca>; Whitfield, Tobias P. (MOF) <Tobias.Whitfield@ontario.ca>
**Subject:** Revised slide deck - TB Submission for Change of Law Protection Agreement

A revised slide deck is attached. This version reflects the changes in the latest draft of the TB submission circulated last night (v8), with one exception: Malle, I have not changed the wording of the triggering events in the slide deck to match the more technical wording contained in the submission. I wanted to keep the deck plain-language.

**Subject:** CEO Approved TB Submission for Change of Law Assumption Agreement

Anthony, Keley, Malle,
Please find attached, the CEO-approved TB Submission for the Assumption Agreement tracking to TB/MBC for the Sep 26 meeting. This version now incorporates input from Energy. I'm also attaching, for your briefing purposes, a deck (slightly revised from the one Keley prepared for the Minister of Energy's briefing two weeks ago).
Keley, could I ask you to please pass this version of the submission along to the Energy DMO for review?
Malle, we'll be looking for Legal sign-off tomorrow. Not sure if you or Michael will be signing off, but I'm happy to swing by 777 Bay at your convenience tomorrow with the approval package.
Anthony, I'll resend a scan with Legal sign-off once we have it.
Please don't hesitate to contact me should you have any questions.
Thanks, Anna

Hi Anna,

The TBS analyst will be James Strang.

We can touch base in the morning. I should be in early (7ish).

Thanks,
Anthony

Thanks Toby!

Hi Anna,

Based on the changes I would require an updated slide deck. We have another TBS analyst who would be taking this forward so would like to give him a copy of the submission once everyone is comfortable that the submission is stable. Still need to make sure that we are consistent with the request to TB/MBC and the minuting at the end.

Thanks,
Anthony

Subject: TB Submission for Change of Law Protection Agreement

Please find attached a markup of the TB submission, as well as a revised term sheet and OIC.

The term sheet is as we have discussed further with Blakes, and as revised by them to reflect our discussions. The document has been renamed to a “protection agreement” because the authority and the obligation is not necessarily an assumption of the obligations of a Financing Entity, and is rather the payment of such obligations. I have attached both the clean and blacklined versions.

The OIC draft is an update of the latest version that was circulated, with the notes to draft removed as there were no further comments.

We have marked up the TB submission to reflect the current status of the negotiation of the term sheet and subject to necessary approvals. We have deleted the attached term sheet from the markup so that the revised version can be inserted instead. We also think it makes sense to include the draft OIC in the TB materials.

Please let me know if you have any comments or questions.

Correct, just as an FYI, all of the Province's IOD including the IOD incurred by the BPS that is line by line consolidated is now presented in the IOD under the Treasury program.
Thanks

I'm sorry, Anthony. You're right! I learned something new today. Just checked public accounts and didn't realize that we carried IOD for the Province under "Treasury".
I understand that's where the IOD for FHP would reside, not in a new, separate line.
Anna

>
> - I'm not sure what you mean here. Should one of the triggering events occur, and

the Province step in to make payments on behalf of the Financing Entity, the interest payments on the debt assumed by the Province would be added to the Province's interest on debt (IOD). IOD is not held in a specific Ministry, but rather for the Province as a whole.

What jurisdictions would the Change of Law Protection Agreement be used.

- The Province of Ontario enters into the agreement with the Financing Entity to provide protection to investors. Provincial Law governs the agreement. Investors are expected to be within the Canadian market.

**Subject:** CEO Approved TB Submission for Change of Law Assumption Agreement

Anthony, Keley, Malle,

Please find attached, the CEO-approved TB Submission for the Assumption Agreement tracking to TB/MBC for the Sep 26 meeting. This version now incorporates input from Energy. I'm also attaching, for your briefing purposes, a deck (slightly revised from the one Keley prepared for the Minister of Energy's briefing two weeks ago).

Keley, could I ask you to please pass this version of the submission along to the Energy DMO for review?

Malle, we'll be looking for Legal sign-off tomorrow. Not sure if you or Michael will be signing off, but I'm happy to swing by 777 Bay at your convenience tomorrow with the approval package.

Anthony, I'll resend a scan with Legal sign-off once we have it.

Please don't hesitate to contact me should you have any questions.

Thanks, Anna

Anna Strathy
Special Policy Advisor to CEO

Ontario Financing Authority

| **Attachments:** | 23148306-v15-Term Sheet - Provincial Support Agreement - Sept. 13.docx |

Following further discussions, we have further revised the wording for the TB minute suggestion as below. Also, I have attached a revised term sheet that includes a note regarding changes to the IESO structure, reflecting the additional negotiating point in that respect. The intention is not to provide that note to OPG, but to include it so that if the negotiations lead to that point being included that the approval includes a reference to it in the approved form of term sheet.

"Approve the Minister of Finance and Minister of Energy to negotiate a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such non-material changes and amendments to those terms and that the two ministers acting together may determine."

**Subject:** RE: Term Sheet

Hi Malle

After discussing with Gadi, Mike and Ron, we understand that OPG's current timeframe for meeting with the Rating Agencies is next week. Unless OPG comes back with material revisions to the Term Sheet as it currently stands, which hopefully is unlikely, the submission can proceed as planned, given that the requested approval is to negotiate the terms. Note that even the initial request by OPG for the Assumption to cover any changes to the IESO organization, structure or operations which we removed in the last version of the Term Sheet is included in the submission as a contingent.

Any non-material changes over the next few days can be incorporated into the TBS Note which is usually the primary document used in the presentation to Treasury Board. As Gadi pointed out any material changes that may surface as the terms of the Assumption are finalized may require another visit to TB.

Thanks and hope this answers your question.

**Subject:** Term Sheet
Hi,
We wanted to let you know that we haven't heard anything back from Torys on the term sheet since our call with them last Friday. I think that they were going to speak to the dealers about this. Steve is going to call Torys to find out the status.
Given that it will be very difficult to make changes to the term sheet once it is in the TB process and the Ministers sign off, I wonder what we can do about this. Have you heard anything back from OPG about comments or the timing as they said they needed to go to the rating agencies with this?
Thanks.

**Provincial Protections and Assurances**

**Indicative Term Sheet**

**Ontario Fair Hydro Plan Act, 2017**

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

| | |
|---|---|
| **Change of Law Protection Agreement:** | A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together. |
| **Indenture Trustee:** | An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture. |
| **Beneficiaries:** | The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims. |
| **Specified Claims:** | Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval. |
| **Protection Events:** | Any of the following would constitute a Protection Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute;<br>(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or<br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are |

| | |
|---|---|
| | appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*),<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.<br><br>**[Note: Additional term to be considered regarding changes to the organization, structure, or operations of the IESO. See section 4 of Treasury Board submission for additional details.]** |
| **Obligation to Pay Specified Claims:** | Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |

| | |
|---|---|
| **Subrogation:** | Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent. |
| **Optional Replacement:** | At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim.<br><br>The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims.<br><br>The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required. |

| | |
|---|---|
| **FIPPA:** | The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

Hi Toby/Malle
As discussed given that the submission is heading over to for the signature of the Minister of Energy why don't we wait until we receive the draft note from TBS to make these changes. Note that the minute is actually written by TBS, the submitting ministries simply provide a suggested version. As I mentioned to Toby, any revisions at this point may impose too much of a delay.
Once we receive the draft note from TBS we can make these changes provided of course MOE Legal and TBS Analyst are comfortable.
Thanks
Ken k

**Subject:** RE: Term Sheet

Hi Malle

After discussing with Gadi, Mike and Ron, we understand that OPG's current timeframe for meeting with the Rating Agencies is next week. Unless OPG comes back with material revisions to the Term Sheet as it currently stands, which hopefully is unlikely, the submission can proceed as planned, given that the requested approval is to negotiate the terms. Note that even the initial request by OPG for the Assumption to cover any changes to the IESO organization, structure or operations which we removed in the last version of the Term Sheet is included in the submission as a contingent.

Any non-material changes over the next few days can be incorporated into the TBS Note which is usually the primary document used in the presentation to Treasury Board. As Gadi pointed out any material changes that may surface as the terms of the Assumption are finalized may require another visit to TB.
Thanks and hope this answers your question.
Ken k

**Subject:** Term Sheet

Hi,
We wanted to let you know that we haven't heard anything back from Torys on the term sheet since our call with them last Friday. I think that they were going to speak to the dealers about this. Steve is going to call Torys to find out the status.
Given that it will be very difficult to make changes to the term sheet once it is in the TB process and the Ministers sign off, I wonder what we can do about this. Have you heard anything back from OPG about comments or the timing as they said they needed to go to the rating agencies with this?
Thanks.

Not sure if this helps at this stage, but OPG happy to say protection agreement applies to Canadian dollar issuance only. They appreciate that US dollar issuance would be a different kind of animal.

**Subject:** RE: Updated Materials
Hi Anna
Agree with Ron's and Gadi's comments plus here are a few from me.
Government Response
Page 1: 4th para 2nd sentence the reference to third party experts, since the Navigant report has or will be released to the AG why not include a reference. "third party experts, including a recent report from Navigant that will be provided to the OAG, have confirmed….." At the last DM meeting on this, Deputy Imbrognu mentioned Energy lawyers were concerned that because Blakes commissioned the Navigant report, it could be caught by solicitor-client privilege, and if Energy waives that privilege, it's not clear whether anything else would be waived. The question of releasing it publicly is therefore still an open question.
Page 2: Last para, last sentence now reads as: "The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, which is inaccurate". Suggest revising as follows: "The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, however, this treatment will not reflect the economic substance of the program since the benefits of the GA refinancing accrues to ratepayers". Hope you don't mind, I've added "however". We may want to run this by OPCD and Energy before submitting to our DMO. Do you want me to connect with Cindy and Steen? Or would you like to?
Consolidated Comments
One small suggested edit to our contribution. The third para first sentence now reads as follows: "The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period to better reflect the expected lives of those assets (vs the contract lengths, that may be shorter than the expected useful like of the assets)".
Suggest that it be revised to :" The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period that better reflects the expected lives of those assets (vs the

contract lengths, that may be shorter than the expected useful life of the assets).
Note the typo in "life" in the original. Thank you!
Thanks

Hi Gadi, I wanted to respond to your remarks below before sending the consolidated edits. See red text below.

**From:** Gadi Mayman
**Sent:** Tuesday, October 03, 2017 10:57 PM
**To:** Anna Strathy
**Cc:** Ken Kandeepan ; Ronald Kwan ; Mike Manning
**Subject:** Re: Updated Materials

In our paragraph near the end of the government response, the second mention of FAO should have a "the" in front of it. One time in that paragraph we spell out thirty year, and in the other reference we say 30-year. We should be consistent. I prefer the former. We should also include the thirty year reference in the chart, on page 2 in the second box on Summary of Concerns where we reference the $4 billion amount (why is this marked 2.0, but the other Summary of Concerns boxes don't have numbers in their title?) The 2.0 refers to the second reference to the $4b on page 10. I've replaced the comma with "and" to be more clear".

Also in the chart, the second last paragraph of the section on the DRC, last sentence, has the word "way" instead of "was". In the first paragraph, I think it reads more clearly if, in the last sentence, between "as an asset and" and "in accordance with" we stick in a comma, or we move that whole clause to the end of the sentence after CEA and end with "in accordance with the accounting definition." Since I'm being unnecessarily fussy, let me even go as far as to suggest if we do that, we could get rid of the second and in the sentence: "... will be set up as an asset which generates a specific revenue stream in the form of the CEA, in accordance with the accounting definition. "

Done!

Good morning,

In an effort to keep the word and page count down, we have made a few edits to the report. My DM would like to try to limit the length as much as possible.

Please ask staff to make any final edits to the attached clean version.

Patrick – there's a question in the tracked version. It's about a sentence that I believe OPCD added it. The boss is looking for where in the report the AG makes that assertion.

Thanks,
Dave

**GOVERNMENT RESPONSE TO OAG REPORT ON THE FAIR HYDRO PLAN**

The government of Ontario does not agree with the assertions and conclusions expressed by the Office of the Auditor General (OAG) in its report ~~entitled~~ on ~~*The*~~ *Ontario's Fair Hydro Plan (OFHP).~~ ~~*: Concerns About Fiscal transparency, Accountability and Value For Money*~~.

~~Ontario's Fair Hydro Plan (OFHP)~~OFHP is delivering the single-largest reduction in electricity rates in the province's history. In ~~the~~ develop~~ment~~ing ~~of~~ OFHP~~, which includes a rebate equal to the provincial portion of the Harmonized Sales Tax, shifting the funding of specified electricity support programs to provincial revenues and refinancing a portion of the Global Adjustment (GA)~~, the government considered a range of implementation options. The government consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure ~~appropriate~~ due diligence was completed. OFHP operates under a financial and accounting framework that is appropriate for the intended purpose and in accordance with Public Sector Accounting Standards (PSAS) and ensures that the fairness goals underlying the program are achieved in a cost-effective manner.

The government has been making important investments in a cleaner and more reliable energy system, but these investments have led to higher electricity bills. OFHP has introduced new measures to lower electricity bills by 25 per cent on average for residential consumers and will hold increases to the rate of inflation for four years. As many as half a million small businesses and farms are also benefitting from a reduction.

Since 2003, nearly $70 billion has been invested in the electricity system, including more than $37 billion in electricity generation to ensure the system is clean and reliable. The majority of the province's electricity generators operate under 20-year contracts. Despite the OAG's assertion that it is "not at all" certain if these generating assets will be operating beyond their contract lives, third-party experts have confirmed that many of these generators will be able to continue to operate. This means that generating assets are expected to have ongoing useful life and benefit future ratepayers by reducing the need to finance the development of new generating assets. .

~~To relieve the current burden on ratepayers and share costs more fairly, OFHP is refinancing a portion of the GA, which~~The Global Adjustment (GA) pays for the majority of the recent investments in the electricity system. Refinancing the GA provides significant and immediate rate relief by matching the cost of electricity investments with the expected useful life of the generation that has been built. Despite the OAG's assertion that the government's intention was to avoid recording a deficit in the fiscal plan, the decisions made to implement GA refinancing most effectively achieves the goals of the refinancing program and ensures that the deferred costs are borne by the rate-base, as the beneficiaries of the electricity system, and not the tax-base. The accounting for this transaction will reflect the substance of this transaction.

With respect to the Province's financial statements, they are prepared in accordance with Canadian PSAS and will follow PSAS in accounting for the transactions resulting from OFHP in 2017-18 as well as in the following years. As PSAS is set by an independent standard setting body in Canada focused specifically on the public sector, and because PSAS is used by all senior governments in Canada, presenting its financial statements in accordance with PSAS results in transparent financial reporting for the Province of Ontario.

The government of Ontario also disagrees with two fundamental accounting assertions in the report of OAG related to *legislated accounting* and *rate-regulated accounting*:

- Legislated Accounting – The *Ontario Fair Hydro Plan Act, 2017* and its related regulations do not "create accounting rules" or "legislate the accounting". This is a fundamental disagreement with the report of the OAG. As previously noted, the Province will prepare its consolidated financial statements in accordance with PSAS.

- Rate-Regulated Accounting – In commenting on the use of rate-regulated accounting and the role of the Ontario Energy Board (OEB), the report of the OAG makes reference to a requirement under U.S. accounting standards in connection with the use of rate-regulated accounting that "there must be an independent regulator". This reference is misleading as it does not provide the criteria in its entirety, which is as follows:

  *The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator* ***or by its own governing board empowered by statute or contract to establish rates that bind customers*** *[ASC 980-10-15-2].*

The U.S. accounting standard was developed specifically not to preclude the application of rate-regulated accounting by government utilities where the rate regulator would not necessarily be viewed as independent [FAS 71, par. 64]. In addition, the position that rate-regulated accounting is precluded because the OEB is not considered independent of the government of Ontario is contradictory to accepting the use of rate-regulated accounting by Ontario Power Generation (OPG) and Hydro One, both regulated by the OEB and whose results, using rate-regulated accounting, are and have been included in the consolidated financial statements of the Province.

~~As previously noted,~~Some costs of OFHP ~~is comprised of a series of policy decisions, some of which~~ will be borne by taxpayers and some ~~of which~~ will be borne by ratepayers. The accounting~~, the final analysis and documentation of which will be completed by the year-end, once the transaction is complete,~~ will reflect the economic substance of the transactions in accordance with PSAS and will differentiate those costs of OFHP borne by taxpayers vs. those borne by ratepayers. The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, which is inaccurate.

**Commented [MD(1]:** Is this verbatim? Please provide page number/section number.

OPG is beginning the process of raising funds to finance the~~se~~ deferred costs, and while total borrowing costs will not be known until the transaction is complete, accumulated interest is projected to be considerably less than the estimates in the report of the Financial Accountability Office (FAO), cited by the OAG. Total borrowing estimates over the thirty year life of the program have been revised down substantially by the government since FAO released its report in May 2017 and ~~OPG's and its financing entity's~~ borrowing costs are now forecast to be substantially lower than original estimates. ~~As a result, c~~Current government estimates forecast that the peak debt over the 30-year life of OFHP will be below $20 billion. The preliminary estimate from March 2017 was about $28 billion.

Based on the comments ~~highlighted~~ above, and given that implementation of OFHP is ~~still~~ ongoing with significant accounting and financing decisions still being finalized, the government believes that this report by the OAG is premature and does not reflect the substance of this transaction.

**GOVERNMENT RESPONSE TO OAG REPORT ON THE FAIR HYDRO PLAN**

The government of Ontario does not agree with the assertions and conclusions expressed by the Office of the Auditor General (OAG) in its report on *Ontario's Fair Hydro Plan (OFHP).*.

OFHP is delivering the single-largest reduction in electricity rates in the province's history. In developing OFHP, the government considered a range of implementation options. The government consulted with legal, accounting, financial and energy sector third-party experts to provide advice and ensure due diligence was completed. OFHP operates under a financial and accounting framework that is appropriate for the intended purpose and in accordance with Public Sector Accounting Standards (PSAS) and ensures that the fairness goals underlying the program are achieved in a cost-effective manner.

The government has been making important investments in a cleaner and more reliable energy system, but these investments have led to higher electricity bills. OFHP has introduced new measures to lower electricity bills by 25 per cent on average for residential consumers and will hold increases to the rate of inflation for four years. As many as half a million small businesses and farms are also benefitting from a reduction.

Since 2003, nearly $70 billion has been invested in the electricity system, including more than $37 billion in electricity generation to ensure the system is clean and reliable. The majority of the province's electricity generators operate under 20-year contracts. Despite the OAG's assertion that it is "not at all" certain if these generating assets will be operating beyond their contract lives, third-party experts have confirmed that many of these generators will be able to continue to operate. This means that generating assets are expected to have ongoing useful life and benefit future ratepayers by reducing the need to finance the development of new generating assets. .

The Global Adjustment (GA) pays for the majority of the recent investments in the electricity system. Refinancing the GA provides significant and immediate rate relief by matching the cost of electricity investments with the expected useful life of the generation that has been built. Despite the OAG's assertion that the government's intention was to avoid recording a deficit in the fiscal plan, the decisions made to implement GA refinancing most effectively achieves the goals of the refinancing program and ensures that the deferred costs are borne by the rate-base, as the beneficiaries of the electricity system, and not the tax-base. The accounting for this transaction will reflect the substance of this transaction.

With respect to the Province's financial statements, they are prepared in accordance with Canadian PSAS and will follow PSAS in accounting for the transactions resulting from OFHP in 2017-18 as well as in the following years. As PSAS is set by an independent standard setting body in Canada focused specifically on the public sector, and because PSAS is used by all senior governments in Canada, presenting its financial statements in accordance with PSAS results in transparent financial reporting for the Province of Ontario.

The government of Ontario also disagrees with two fundamental accounting assertions in the report of OAG related to *legislated accounting* and *rate-regulated accounting*:

- Legislated Accounting – The *Ontario Fair Hydro Plan Act, 2017* and its related regulations <u>do not</u> "create accounting rules" or "legislate the accounting". This is a

fundamental disagreement with the report of the OAG. As previously noted, the Province will prepare its consolidated financial statements in accordance with PSAS.

- Rate-Regulated Accounting – In commenting on the use of rate-regulated accounting and the role of the Ontario Energy Board (OEB), the report of the OAG makes reference to a requirement under U.S. accounting standards in connection with the use of rate-regulated accounting that "there must be an independent regulator". This reference is misleading as it does not provide the criteria in its entirety, which is as follows:

  *The entity's rates for regulated services or products provided to its customers are established by or are subject to approval by an independent, third-party regulator* ***or by its own governing board empowered by statute or contract to establish rates that bind customers*** *[ASC 980-10-15-2].*

The U.S. accounting standard was developed specifically not to preclude the application of rate-regulated accounting by government utilities where the rate regulator would not necessarily be viewed as independent [FAS 71, par. 64]. In addition, the position that rate-regulated accounting is precluded because the OEB is not considered independent of the government of Ontario is contradictory to accepting the use of rate-regulated accounting by Ontario Power Generation (OPG) and Hydro One, both regulated by the OEB and whose results, using rate-regulated accounting, are and have been included in the consolidated financial statements of the Province.

Some costs of OFHP will be borne by taxpayers and some will be borne by ratepayers. The accounting will reflect the economic substance of the transactions in accordance with PSAS and will differentiate those costs of OFHP borne by taxpayers vs. those borne by ratepayers. The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, which is inaccurate.

OPG is beginning the process of raising funds to finance the deferred costs, and while total borrowing costs will not be known until the transaction is complete, accumulated interest is projected to be considerably less than the estimates in the report of the Financial Accountability Office (FAO), cited by the OAG. Total borrowing estimates over the thirty year life of the program have been revised down substantially by the government since FAO released its report in May 2017 and borrowing costs are now forecast to be substantially lower than original estimates. Current government estimates forecast that the peak debt over the 30-year life of OFHP will be below $20 billion. The preliminary estimate from March 2017 was about $28 billion.

Based on the comments above, and given that implementation of OFHP is ongoing with significant accounting and financing decisions still being finalized, the government believes that this report by the OAG is premature and does not reflect the substance of this transaction.

Hi Anna

Agree with Ron's and Gadi's comments plus here are a few from me.

Government Response

Page 1: 4th para 2nd sentence the reference to third party experts, since the Navigant report has or will be released to the AG why not include a reference. "third party experts, including a recent report from Navigant that will be provided to the OAG, have confirmed….."

Page 2: Last para, last sentence now reads as: "The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, which is inaccurate". Suggest revising as follows: "The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, this treatment will not reflect the economic substance of the program since the benefits of the GA refinancing accrues to ratepayers".

Consolidated Comments

One small suggested edit to our contribution. The third para first sentence now reads as follows: "The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period to better reflect the expected lives of those assets (vs the contract lengths, that may be shorter than the expected useful like of the assets)".

Suggest that it be revised to :" The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period that better reflects the expected lives of those assets (vs the contract lengths, that may be shorter than the expected useful life of the assets).

Note the typo in "life" in the original.

Thanks

Ken k

**Subject: Updated Materials**

Hi all,
I've attached clean and tracked versions of the government response and consolidated comments. The joint-DM memo remains unchanged from what was shared at the meeting today, so only including a clean version of that.

**Next Steps**:

- In the consolidated comments document, please have staff confirm that any required supporting evidence is provided to me. If anything in that column is marked with a 'Y', please have staff add in "Please see [name of document/attachment]". If we can direct the AG to something online (e.g., standards), a hyperlink would be fine. If no material can be provided, please ensure the box is changed to 'N'.
- Please have staff review the documents one last time and ask that they note any required changes in the clean versions.
- The key focus at this point should be the government response. At this stage, changes to the consolidated comments should be kept to a minimum.
- **Please reply-all with any edits by 11:00AM**.
- I will coordinate having the joint-DM memo signed. We'll have to work together to get it in front of each of them (separately is fine) before 12:30.
- I will aim to distribute a final package by 1:00. The target for getting it to the AG is 2:00.

Thanks again to you and your teams for all the help.

---

Hi,

I added in a comment on the OEFC row, as follows:

> Suggest providing the 2000-2001 Annual Report instead, as it shows the first two years of OEFC's financial statement results, including the "revenue pool residual" (or "proxy DRC"), which was the allocation to OEFC from the continuing bundled rate of the old Ontario Hydro that continued on until the market opened to competition on May 1, 2002, and the rates were unbundled and the DRC began. Could also include the 2002-03 Annual Report too, which discusses the revenue pool residual amounts coming in until the DRC started.
>
> Could also include the final Ontario Hydro Annual Report too, which shows its positive operating results, before writedowns, and significant debt pay down, under the amounts of revenue collected through the bundle rate (which was frozen for about eight years (referred to as six years of stable rates in the OH AR plus the first two years of OEFC) – demonstrating the debt cost recovery was in place before April 1, 1999..

And ARs, as attached, as well as the markup.

**Subject:** Re: Updated Materials

In our paragraph near the end of the government response, the second mention of FAO should have a "the" in front of it. One time in that paragraph we spell out thirty year, and in the other reference we say 30-year. We should be consistent. I prefer the former. We should also include the thirty year reference in the chart, on page 2 in the second box on Summary of Concerns where we reference the $4 billion amount (why is this marked 2.0, but the other Summary of Concerns boxes don't have numbers in their title?)

Also in the chart, the second last paragraph of the section on the DRC, last sentence, has the word "way" instead of "was". In the first paragraph, I think it reads more clearly if, in the last sentence, between "as an asset and" and "in accordance with" we stick in a comma, or we move that whole clause to the end of the sentence after CEA and end with "in accordance with the accounting

definition." Since I'm being unnecessarily fussy, let me even go as far as to suggest if we do that, we could get rid of the second and in the sentence: "... will be set up as an asset which generates a specific revenue stream in the form of the CEA, in accordance with the accounting definition. "

# More than energy

ONTARIO HYDRO FINAL ANNUAL REPORT
JANUARY 1998 – MARCH 1999

Ontario Hydro

**CORPORATE PROFILE** Ontario Hydro ceased operations on March 31, 1999; its assets and functions were transferred by provincial statute to two commercial successor corporations, Ontario Power Generation Inc. and Ontario Hydro Services Company Inc., as well as to two not-for-profit agencies, the Independent Electricity Market Operator and the Electrical Safety Authority.

Ontario Hydro, a self-sustaining corporation without share capital, was created by provincial statute and operated under the *Power Corporation Act* of Ontario, which has now been succeeded by the *Energy Competition Act, 1998*. Bonds and notes issued by Ontario Hydro prior to April 1, 1999, are guaranteed by the Province of Ontario.

Until the demerger of the company on April 1, 1999, Ontario Hydro served 108 direct industrial customers, almost one million retail customers and 255 municipal utilities, which in turn serve almost 3 million customers.

Ontario Power Generation (OPG) inherited Ontario Hydro's generating portfolio, making it one of the largest power producers in North America in terms of installed capacity. The OPG system includes 69 hydroelectric stations, three nuclear sites and six operating fossil-fueled stations. Total installed system capacity is approximately 31,000 megawatts. Ontario Hydro's total energy sales in 1998 were almost 139 terawatt-hours.

Ontario Hydro Services Company (OHSC), the other successor company, is an energy-services-based transmission and distribution company. It owns and maintains 29,000 kilometres of transmission lines, 114,700 kilometres of distribution lines, 240 kilometres of high-voltage underground cable, 256 transformer stations, 928 distribution and regulating stations and 20 microwave stations. OHSC also retains the retail business formerly held by Ontario Hydro, which serves over 950,000 customers, and the transmission and generating business for 23 remote communities in Northern Ontario.

## LETTER TO THE MINISTER

To the Honourable Jim Wilson,
Minister of Energy, Science and Technology:

I am pleased to submit to you Ontario Hydro's report of the financial position of the Corporation, as of March 31, 1999, when operations ceased, in accordance with provincial statute. This 15-month report also contains discussion and analysis of issues and initiatives for 1998-99 and beyond.

We want to thank your staff at the Ministry of Energy, Science and Technology for their cooperation during this period of great change in Ontario's electricity sector.

WILLIAM A. FARLINGER

CHAIRMAN

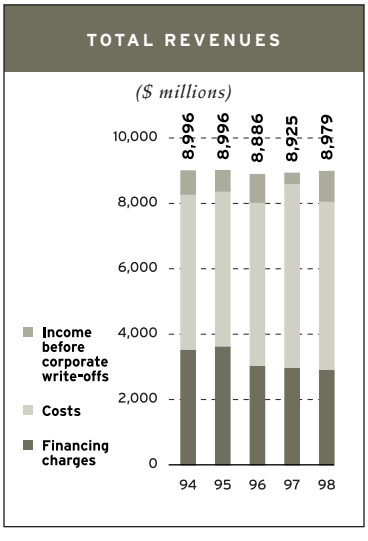
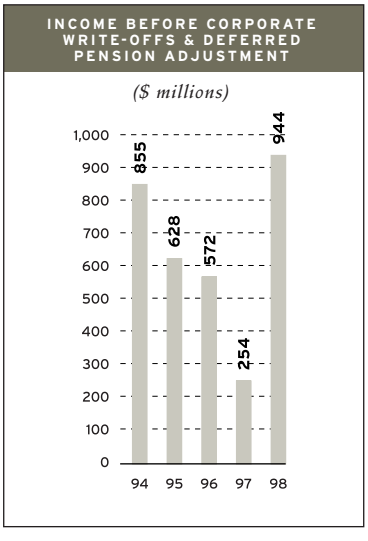
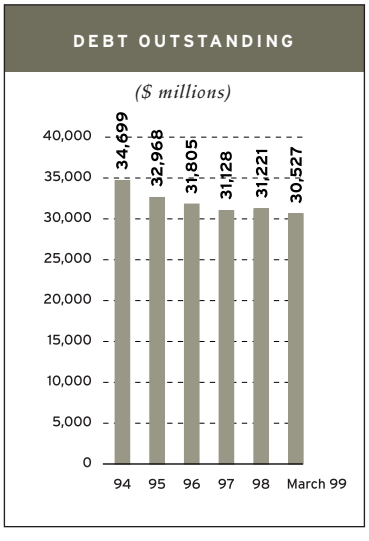
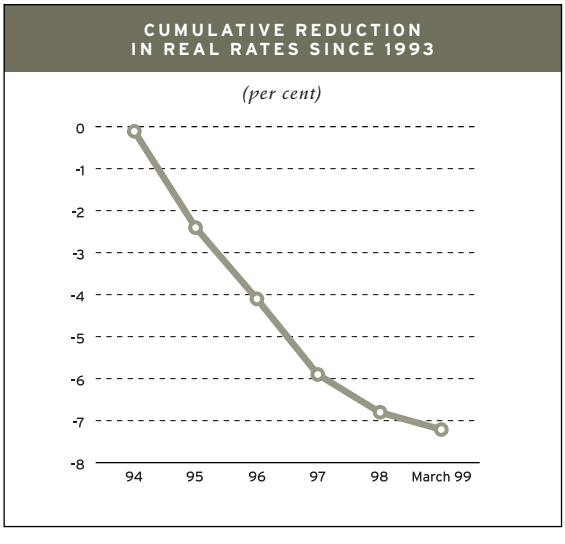
# Ending on a High Note

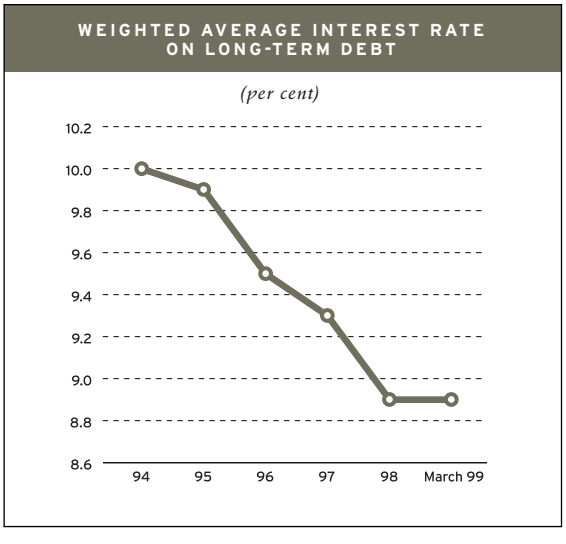
**DESPITE THE MANY OPERATIONAL AND RESTRUCTURING CHALLENGES OF 1998 AND THE FIRST QUARTER OF 1999, ONTARIO HYDRO'S FINANCIAL HISTORY CONCLUDES ON A HIGH NOTE.** REVENUES AND NET INCOME WERE STRONG AND SIX YEARS OF STABLE RATES HAVE SIGNIFICANTLY REDUCED ELECTRICITY COSTS AS A PROPORTION OF PROVINCIAL ECONOMIC ACTIVITY, BOOSTING ONTARIO'S ENERGY PRODUCTIVITY AND, AS A RESULT, ITS INDUSTRIAL COMPETITIVENESS.











# Reliability and Commitment During Challenges and Change

**WILLIAM FARLINGER**
Chairman

**RONALD OSBORNE**
President & CEO

**FROM WINTER ICE STORM TO SUMMER HEAT WAVE, FROM THE NEED TO RELIABLY MEET ONTARIO'S ELECTRICITY DEMAND TODAY TO THE MANDATE TO LOOK BEYOND ONTARIO TOMORROW, ONTARIO HYDRO'S FINAL 15 MONTHS AS AN OPERATING ENTITY WERE FILLED WITH GREAT CHALLENGES AND GREAT CHANGE.** THROUGHOUT IT ALL, OUR EMPLOYEES DISPLAYED EQUAL MEASURES OF COOPERATION AND COMPETITIVENESS. THEY ARE ONTARIO HYDRO'S MOST VALUABLE LEGACY TO THE FUTURE.

**We are preparing for competition; our aim is to make our commercial successor companies successful in the new energy services marketplace.**

This is the Final Annual Report of Ontario Hydro, which ceased operations on March 31, 1999; its assets and functions have been transferred to successor companies and agencies. For this reason, the 1998 Annual Report was delayed to include a report on the company's final quarter.

The 15 months since our last Annual Report was a historic period for Ontario Hydro and the province's electricity industry. It began with the most devastating ice storm on record and the largest emergency power restoration effort ever undertaken by Ontario Hydro and its municipal utility allies in Eastern Ontario. Record summertime peak demand briefly approached the limits of our current in-service generating capacity. By the end of 1998, a new provincial statute, the *Energy Competition Act, 1998*, had rewritten the fundamental rules under which our industry has operated throughout most of this century. And these are only the major highlights of the period.

Despite unprecedented demands on Ontario Hydro's people, everything that happened during this period strengthened our conviction that we will be prepared for competition and that both commercial successor companies will be successful in the emerging North American energy services marketplace.

Our response to the ice storm showed how deep the reservoir of our organizational and technical skills really is and how committed our people are to the safety and well-being of our customers, regardless of the conditions that must be braved or workloads endured. They proved once again that reliability begins with people and that only people can sustain it.

But the wires networks are only one side – the delivery side – of the reliability equation. The other is supply reliability, and here too Ontario Hydro's generation staff, at our nuclear, hydroelectric and fossil-fueled stations, proved their resourcefulness and commitment to customers.

To replace the output of reactors laid up under the Nuclear Asset Optimization Program (NAOP), the Fossil business boosted its production to its highest level in more than a decade, and did so without exceeding provincial air emissions regulations. In Hydroelectric, production was constrained by low water levels, but staff nonetheless extracted every possible kilowatt out of their facilities. Both businesses, along with Central Market Operations, helped ensure that Ontario suffered no supply interruptions during the record spikes in summer peak demand that threatened shortages in other areas of North America.

The Nuclear business made substantial progress towards its multi-year goal of moving performance back to the top quartile of world nuclear industry standards. When Ontario Hydro's generating portfolio was assumed by Ontario Power Generation Inc. (OPG) on April 1, 1999, nuclear production and capability factors were up; forced outages were down; most performance targets were exceeded; and new agreements with our unions gave us more operational flexibility to speed the recovery to excellence and help position the company to seize more quickly the growing opportunities in the U.S. power marketplace.

All of the above was accomplished, moreover, during the restructuring of the corporation in line with the passage of the *Energy Competition Act, 1998*. This legislation marks Ontario as the first jurisdiction in North America to plan to introduce electricity competition at both the

wholesale and the retail level at the same time. The Act ended Ontario Hydro's statutory existence and replaced it with two legally separate, commercially oriented successor companies – OPG and Ontario Hydro Services Company Inc. (OHSC). At the same time, Ontario Hydro's Central Market Operator became yet another separate entity, the Independent Electricity Market Operator (IMO), which will not only oversee the marketplace but direct the operation of the transmission system owned by OHSC. Municipal electric utilities and the Ontario Hydro Services Company alike are required to separate their monopoly wires businesses from their competitive merchant functions. Finally, Ontario Hydro's responsibility for electrical inspection throughout the province was transferred to a not-for-profit public agency, the Electrical Safety Authority.

These changes, large as they are, define only the barest framework of what Ontario's electricity marketplace will look like once competition is introduced by the government, expected sometime in the year 2000. Rules to assure both suppliers and customers of a level playing field must be fully developed before competition can begin. Much of this work was done during 1998 by the multi-stakeholder Market Design Committee (MDC), established at the beginning of 1998 to advise the government on detailed marketplace rules.

The MDC proposed a ten-year, staged reduction of Ontario Power Generation's control over provincial electricity supply, accompanied by measures to ensure price stability during the transition period when competition is first being established. As part of the proposal, the Ontario Hydro Services Company will make every effort to increase the province's interconnection capacity by 50% over the next five years. This plan has been accepted by the government. The future has begun.

The two commercial successor companies will use the remainder of 1999 to finalize their preparations for the open marketplace. One of their critical tasks will be to help customers prepare as well. Public education programs, through advertising and other forms of customer outreach, will be prominent this year. It is important to the success of customer choice that they understand the marketplace and their own energy service needs. Both companies will work with others in the industry to promote that understanding among all customers, not just their own.

In 1999, Ontario Hydro's successors will also finalize plans to ensure that the province enters the new millennium on January 1, 2000, without any interruption of power. Analysis, remediation, testing and Y2K-readiness certification of all critical systems was complete by the end of 1998. Coordination with suppliers, customers and interconnected systems will take place throughout the first half of 1999. All signs point to a successful rollover into 2000, but contingency planning is under way for the sake of prudence and public reassurance.

Throughout these final months, even as we planned for the future, we were determined not to lose our focus on what is most critical to our customers every single day: safety, reliability, service and competitive prices. We looked forward to the future, but we lived and worked in the present. Our customers' needs always took precedence. No matter what else may change for our successor companies, this basic operating principle will not.

As our successors move closer to a competitive future, they will build on Ontario Hydro's historic achievements. We expect that the new companies will contribute to the prosperity of Ontario in the next century at least as much as Ontario Hydro did in this one.

# Ontario Hydro's Successors

**THE YEAR 1998 WAS THE 92ND AND LAST FULL YEAR OF OPERATIONS FOR ONTARIO HYDRO. ON APRIL 1, 1999, IT WAS SUCCEEDED BY FIVE NEW SUCCESSOR ENTITIES, TWO OF WHICH ARE SEPARATELY MANAGED, COMMERCIALLY ORIENTED COMPANIES. THESE SUCCESSORS WERE INCORPORATED IN LATE 1998.**

### ONTARIO POWER GENERATION INC.

Ontario Power Generation (OPG) inherits Ontario Hydro's 31,000 megawatts of installed generating capacity at its 80 hydroelectric, nuclear and fossil-fueled stations, making it one of North America's largest power producers. OPG is very cost-competitive with U.S. generators in our region of the continent – a growing market for low-unit-cost, low-emission energy.

OPG facilities now supply about 85% of the province's electricity demand. Under an agreement with the provincial government, that proportion will be gradually reduced so that by about 2010, OPG will control no more than 35% of the province's total supply options. The company will increasingly compete in the U.S., as markets there open to competition.

### ONTARIO HYDRO SERVICES COMPANY INC.

Ontario Hydro Services Company (OHSC) is a holding company with two major holdings: the 29,000-kilometre transmission grid and the 114,700-kilometre distribution system. It serves almost one million customers, mostly in rural and remote communities.

OHSC plans to leverage its infrastructure assets and the expertise of its employees to enter new businesses that will contribute to the company's growth and shareholder value.

### INDEPENDENT ELECTRICITY MARKET OPERATOR

The Independent Electricity Market Operator (IMO) will serve two major functions in Ontario's electricity market. It will manage the spot market, reconciling transactions among buyers and sellers; and direct the operation of the provincial transmission system to ensure reliability and fair access under market rules. The IMO will have no commercial connection to any market participant.

### ELECTRICAL SAFETY AUTHORITY

The Electrical Safety Authority will continue Ontario Hydro's former inspection service. It is a stand-alone, self-funded entity with no commercial ties to any utility or other energy services company.

### ONTARIO ELECTRICITY FINANCIAL CORPORATION

The Ontario Electricity Financial Corporation is a Crown agent responsible for servicing and retiring Ontario Hydro's provincially guaranteed debt. It provides the risk management, cash management, banking and accounting services to manage and retire the debt. The OEFC is also responsible for administering the pension assets of Ontario Hydro until they can be allocated among the successor companies' pension plans.

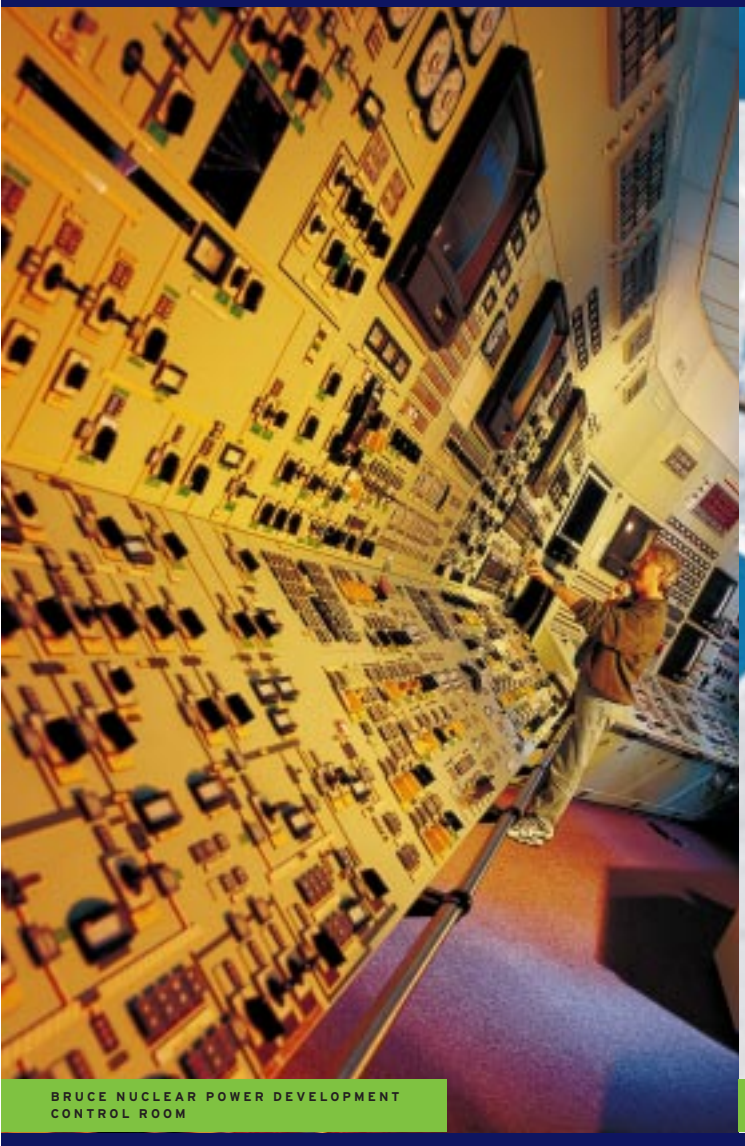
## OUR PARAMOUNT DUTY TO ONTARIO



BRUCE NUCLEAR POWER DEVELOPMENT CONTROL ROOM

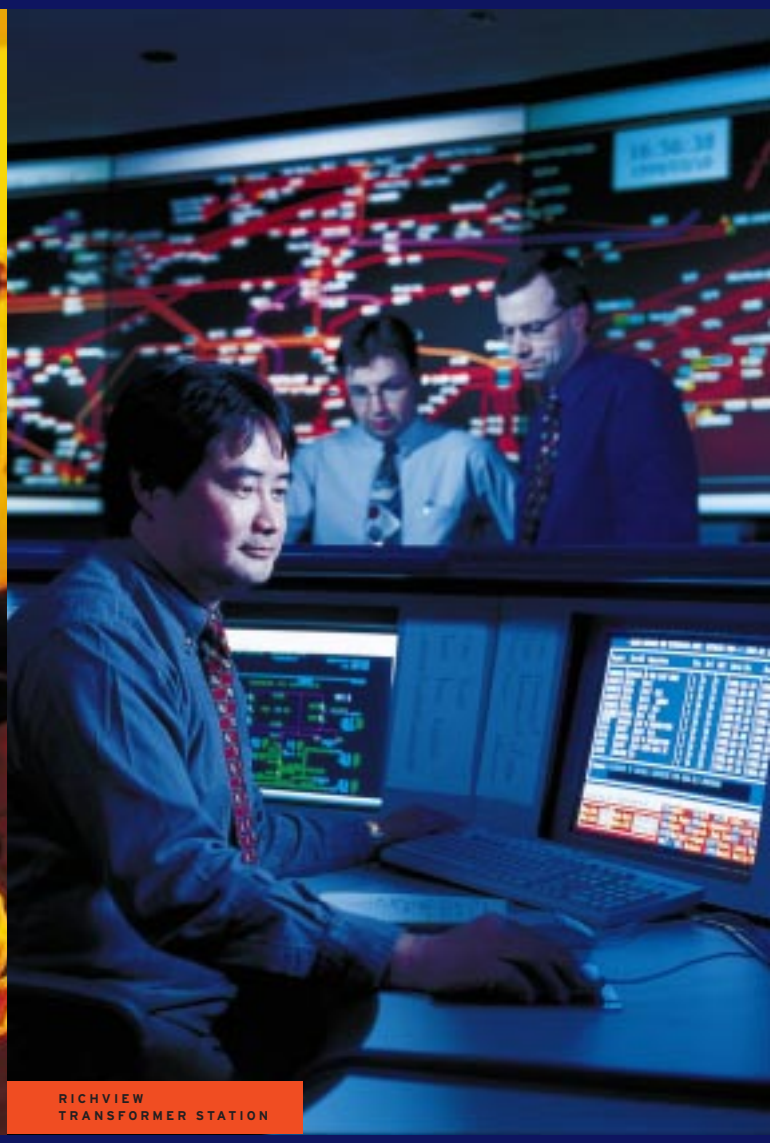
ONTARIO HYDRO CREW MEMBERS WORK TO RESTORE POWER DURING THE 1998 ICE STORM

**MAKING ELECTRICITY SAFER TO PRODUCE, DELIVER AND USE HAS ALWAYS BEEN THE INNERMOST OF ONTARIO HYDRO'S CORE VALUES – THE EVER-PRESENT TOUCHSTONE AGAINST WHICH WE TEST EVERYTHING WE DO.** We were never completely satisfied with anything less than a flawless record for employee and public safety in every aspect of Ontario's power system over which we have control. Nor will our successor companies be.

# Reliability

## YOU CAN COUNT ON US

NANTICOKE
GENERATING STATION



RICHVIEW
TRANSFORMER STATION

**FOR OVER 90 YEARS, ONTARIO HYDRO WAS ONE OF NORTH AMERICA'S MOST RELIABLE SUPPLIERS OF ELECTRICITY, A REPUTATION FOR PERFORMANCE THAT ITS SUCCESSOR COMPANIES WILL UPHOLD.** Our deeply embedded reliability culture was always evident in our ready adoption of new technologies and ongoing investments. But it was most vividly displayed during 1998's ice storm recovery.

# Competitiveness

## OUR BEST IS GETTING BETTER

Y2K TESTING AT THE MANBY TRANSFORMER STATION

GENERATOR UPGRADE AT SIR ADAM BECK 2 G.S.

**PRICE, QUALITY, INNOVATION, SERVICE – THE HALLMARKS OF COMPETITIVENESS.** Ontario Hydro's successor companies take pride in being among the worldwide utility industry leaders in all these areas. But we know that even the largest competitive advantage can be sustained only by continuous improvements in our knowledge, efficiency and responsiveness to customers. To hit our targets in future, we must aim even higher than we have in the past.

# Customer Service

## YOUR NEEDS DEFINE OUR GOALS

MARKHAM CALL CENTRE

AN ONTARIO HYDRO REPRESENTATIVE AT INCO SMELTING PLANT

**ENSURING A RELIABLE SUPPLY OF POWER WAS LONG ONTARIO HYDRO'S DOMINANT CUSTOMER SERVICE VALUE.** In the competitive marketplace, however, there are as many service objectives as there are customers; each relationship can be unique. OPG and OHSC, Ontario Hydro's commercial successors, see this new reality as an opportunity to provide an ever-expanding array of services that customers say they need and value.

**ONTARIO HYDRO HAS FULFILLED THE AMBITIOUS MANDATE OF ITS VISIONARY FOUNDERS.** A vast and sturdy network of wires brings electricity to everyone in Ontario. The hydroelectric potential of the province has largely been tapped. New technologies and processes have been readily embraced. Many major industries, the main source of Ontario's prosperity in this century, were attracted here by Ontario Hydro's low-cost, abundant power. These achievements are an enduring legacy to Ontario, as well as to the commercial corporations that succeed Ontario Hydro in the new era of customer choice. Bridging the accomplishments of the past and the opportunities of the future are four defining values: safety, reliability, competitiveness and customer service. Each of these is grounded in Ontario Hydro's traditional strengths. And each has been carried forward into the successor companies, guiding them to new achievements – beyond the imagination of Ontario Hydro's founders, perhaps, but not beyond their values.

# Operations Report

IN A TIME OF CLIMATIC EXTREMES, UNPRECEDENTED OPERATIONAL CHALLENGES AND HISTORIC RESTRUCTURING LEGISLATION, THE PEOPLE OF ONTARIO HYDRO NEVER LOST FOCUS ON THEIR CORE MISSION: RELIABLY AND SAFELY MEETING PROVINCIAL ELECTRICITY DEMAND. AT THE SAME TIME, THEY IMPROVED ASSET VALUE, LAUNCHED NEW SERVICES, ENHANCED CUSTOMER RELATIONSHIPS AND RESPONDED TO EMERGENCIES WITH PROFESSIONALISM AND COMMITMENT.

# The Demerger Project

**ORCHESTRATING THE LARGEST CORPORATE DEMERGER IN CANADIAN HISTORY** TO ENSURE ITS SUCCESSOR COMPANIES WERE FULLY OPERATIONAL ON APRIL 1, 1999, WAS ONTARIO HYDRO'S FINAL SUCCESS.

The seamless transition of Ontario Hydro into its successor companies without even a momentary interruption of critical activities was the mission of the Demerger Project launched in mid-1998. Nearly one hundred employees were directly assigned to the complex undertaking and over one thousand more were indirectly involved at some point. The project was guided by the provincial government's 1997 White Paper on electricity industry restructuring and its enabling legislation, the *Energy Competition Act, 1998*.

A Demerger Project Office was charged with coordinating, monitoring and expediting the approximately 800 separate project activities identified by a Task Implementation Committee and assigned to one of six Task Working Groups, each responsible for a key aspect of the transition. An overview of the project's accomplishments:

• **Corporate Finance Restructuring.** The financial architecture of the new business entities was defined, including their debt/equity structures, credit ratings, asset valuation, initial balance sheets and business plans. The approach taken for each successor business involved balancing three key considerations: establishing a competitive electricity marketplace; allowing for the enhancement of shareholder value; and optimizing the repayment of the provincially backed Ontario Hydro debt.

• **Governance/New Legislation.** Transfer Orders for transfer of assets, contracts, liabilities, litigation and staff to the successor companies were prepared for government execution, and operating licences for OPG and OHSC were obtained from the regulator, the Ontario Energy Board. This area of activity also involved coordinating Ontario Hydro's position on restructuring legislation and regulation and recommending a schedule for the proclamation of sections of the *Energy Competition Act, 1998 (ECA)* and repeal of corresponding sections of the law it superseded, the *Power Corporation Act (PCA)*.

• **Operations.** The specific functional requirements of each successor company were identified and addressed. These included each entity's organizational structure and staffing, initial operating plans and budgets, and due diligence in areas such as environment, contingency/emergency planning and First Nations considerations. Of particular importance in this area was coordinating the complex functional needs of large projects under way prior to demerger planning, such as the Nuclear Asset

**The Demerger Project built the bridge between the achievements of our singular past and the opportunities that lie in our separate futures.**

Optimization Plan, that were critical to the operation of a successor company.

• **Legal/Transition Issues.** All of Ontario Hydro's legislative and regulatory obligations under the *PCA* were transferred to a successor, in accordance with the new legislation. Some of these responsibilities, such as the regulation of municipal electric utilities, were assigned to regulatory bodies, such as the Ontario Energy Board.

• **Corporate Functions.** The necessary infrastructure for services and functions previously provided by a business unit in Ontario Hydro was developed for each successor. Services such as purchasing, health, security, telecom, real estate, information technology, corporate records, investment recovery and office space were provided through inter-company service agreements or make/buy decisions. Functions such as law, human resources, audit, finance, pension, treasury and corporate affairs were similarly addressed.

• **Human Resources.** Each employee of Ontario Hydro as of March 31, 1999, was transferred to a successor company, which had in place all necessary records and applicable labour agreements, as well as pension, compensation, benefits, and health and safety plans.

A full report on all the above activities was provided to each successor company prior to April 1. This report included an analysis of the subsequent work to be completed before the government declares the Ontario electricity market open to competition.

The success of the Demerger Project was twofold. Not only did it meet all its objectives, it also allowed everyone else in the corporation to continue devoting all their time and expertise to serving Ontario Hydro customers and, after the transition date, the customers of its successors. It built the bridge between the achievements of our singular past and the opportunities that lie in our separate futures.

# Excellence Today Means Competitiveness Tomorrow

**GETTING READY TO COMPETE AS ONTARIO POWER GENERATION IN WHAT WILL SOON BE ONE OF THE WORLD'S LARGEST POWER MARKETPLACES,** THE GENERATION COMPANY INCREASED OPERATIONAL EFFICIENCIES, TECHNOLOGICALLY UPGRADED SEVERAL FACILITIES AND MADE SUBSTANTIAL PROGRESS TOWARDS ITS GOAL OF BECOMING ONE OF THE WORLD'S TOP PERFORMERS.

## NUCLEAR

Ontario Hydro Nuclear (OHN) made substantial progress during the last 15 months towards its multi-year goal of bringing its operations back into the top quartile of global nuclear industry performance.

Early in 1998, the Board of Directors approved the Integrated Improvement Program (IIP), the operational underpinning of the Nuclear Asset Optimization Plan (NAOP) that had been recommended in 1997 by the Nuclear Performance Advisory Group. The NAOP called for the temporary lay-up of eight reactor units at Pickering A and Bruce A and the concentration of OHN resources on the remaining 12, four each at Pickering B, Bruce B and Darlington.

By the end of April 1998, the major elements of the IIP had been identified, including milestone dates and key deliverables. A team from the World Association of Nuclear Operators (WANO) visited Pickering, Bruce and Darlington in the spring of 1998 and confirmed that the IIP was a comprehensive statement of the problems needing correction in OHN and that the program was sound. Key areas for performance improvement included the planning and execution of planned outages; the implementation of standardized policies, procedures and processes; and the establishment of an organization needed to achieve all objectives.

By March 1998, the four Pickering A units were safely laid up, following some 100,000 hours of work. Most of the staff were then transferred to Pickering B to work on IIP projects on those four reactors. In March as well, the Board reconfirmed its August 1997 decision to temporarily lay up Bruce A units 3 and 4 in order to free up more resources for the IIP. The Bruce lay-up work began in April 1998 and will be completed in 1999. Some of the Bruce A staff moved over to the Bruce B units; others have been deployed to Darlington.

The most fundamental indicator of nuclear performance improvement is a composite index based on nine measures specified by WANO:

- Capability Factor
- Safety System Performance
- Chemistry Performance
- Unplanned Capability Loss Factor
- Thermal Performance
- Collective Radiation Exposure
- Reactor Trip Rate
- Fuel Reliability
- Industrial Safety Accident Rate

By the end of the first quarter of 1999, the OHN Performance Index had reached a level of 69.2

– out of a total index of 100 – exceeding its target for the fifth consecutive quarter and bettering by nearly 11 index points the level at the end of 1997.

### Stakeholder Communications

In late 1997, OHN began issuing monthly performance report cards to keep government and other stakeholders apprised of nuclear recovery progress. These report cards continued throughout 1998 and into 1999. In addition to the WANO-specified OHN Performance Index, the card also reported on 14 other monthly performance indicators, grouped in the following four areas:

- Public Safety
- Production Performance
- Environment
- Employee Safety

Of the 15 indicators on the monthly report card, OHN had met or exceeded the target in 12 categories by the end of March 1999, compared with only six at the end of January 1998. In the area of Production Performance, for example, OHN's net electrical production for 1998 was 59.9 terawatt-hours, compared with the target, 56.3 terawatt-hours; and the capability factor was better than its target, as was the total of outage days per unit.

While these numbers were very encouraging, Nuclear is determined to accelerate IIP progress during the remainder of 1999, to improve its ability to supply competitively priced power in the Ontario and North American energy marketplaces as they open to competition.

### Also in the Reporting Period

In March 1998, Pickering was granted a 12-month operating licence by the Atomic Energy Control Board, and in March 1999, the licence was renewed for a further two years. In November 1998, Darlington was granted a two-year licence renewal.

In the first quarter of 1998, the Bruce Heavy Water Plant was decommissioned.

Between June and December 1998, Pickering set a new employee safety record of 2.6 million person-hours worked without a lost-time injury.

### Nuclear Waste Management

Ontario Hydro has always had responsibility for the management of nuclear waste in a manner that is safe, as well as environmentally, socially and financially responsible. Finding a safe and acceptable long-term way to manage Canada's nuclear fuel waste has been studied for several years by the federal government, with support from Ontario Hydro. In December, a major step towards this goal was taken when the government of Canada responded to the report of the Nuclear Fuel Waste Management and Disposal Concept Environmental Assessment Panel.

Ontario Hydro welcomed the federal government response and the direction it provided for the long-term management of nuclear fuel waste in Canada. Work is continuing with the federal and Ontario governments and other Canadian nuclear utilities to implement work programs designed to achieve the goals of the federal government's nuclear waste management policy.

### Isotope Sales

Ontario Power Generation also succeeds Ontario Hydro as the world's largest supplier of the radioactive isotopes cobalt 60 and tritium, and is one of the largest suppliers of deuterium oxide (heavy water). These isotopes, which are byproducts of the company's Nuclear operations,

**Despite facing unusual production demands during 1998, Fossil met or bettered all of its key performance targets.**

are in great demand in the medical, industrial and research sectors. Isotope sales have consistently met business plan projections while contributing to Ontario Hydro's net income.

### FOSSIL

The Fossil business was called on to dramatically increase its production during 1998 and the first quarter of 1999 to offset reductions in Nuclear. It delivered 35 terawatt-hours of energy in 1998 – its highest production level in over a decade. As a result, provincial electricity supply reliability and service to export customers was never compromised, even during the unprecedented surge in summer peak demand.

In the first quarter of 1999, even with strong secondary sales and January production that was the highest for any single month this decade, Fossil production was slightly below target because of higher than expected Hydroelectric and Nuclear production.

Despite facing unusual production demands during 1998, Fossil met or bettered all of its key performance targets, including those related to the environment. Generating-unit reliability was significantly better than targeted levels and, at the same time, both OM&A and fuel unit energy costs were kept under budget. Not only did the business meet its ambitious safety targets, but its performance in this area was the best ever.

To achieve this dramatic increase in production from previous years, Fossil stepped up virtually all its production plans. Throughout the period, reliability and flexibility were the hallmarks of Fossil's operation. When very favourable market conditions developed, Fossil was able to quickly change its plans – by realigning maintenance outages, fuel deliveries and staffing – to take advantage of higher prices.

Another key factor in Fossil's performance was its fuel supply program, which had to be ramped up quickly but economically. During 1998, the program not only provided the 15 million tons of coal and 3 million barrels of oil required to generate 35 terawatt-hours, it also was able to increase the proportion of low-sulphur, high-quality coal in the fuel mix. This helped ensure that the business met acid gas emission regulations and self-imposed emission rate targets for both acid gas and carbon dioxide emissions.

In December, the Thunder Bay plant achieved ISO 14001 certification, and at Lennox the return to service of two mothballed units was completed. Also late in the year, the Lennox plant celebrated the successful completion of its gas pipeline and boiler conversion project, enabling two of the plant's four units to burn both natural gas and oil. The conversion lowers the plant's operating costs by about 20%. It also reduces sulphur dioxide, nitrogen oxide and greenhouse gas emissions by about 25%.

The Nanticoke and Lambton plants made progress on major remedial programs, including a variety of turbine and boiler projects that will improve future reliability, operating efficiency and environmental performance. In addition, Nanticoke made modifications so it could use natural gas instead of oil in the furnace ignition system, as well as to fire a coal drying process to improve the combustion of lower-cost, low-sulphur coal from the western United States. The plant also completed installation of new burners on five of its eight generating units, reducing nitrogen oxide emissions from those units by about 30%.

### HYDROELECTRIC

A shortened spring snow melt coupled with below-normal precipitation across the province

**Hydroelectric invested $134 million on refurbishment programs and completed significant portions of its Environmental Management System ISO 14001 certification.**

resulted in Hydroelectric's total 1998 energy production from its 69 generating stations being 2.7 terawatt-hours less than the target of 34.6. The lower water levels, however, gave the Hydroelectric business the opportunity to perform necessary facility maintenance and more aggressively implement its ongoing program of capital investments. During the year, the 14th unit of a 16-unit rehabilitation program was completed at Robert H. Saunders Generating Station. At the Sir Adam Beck 2 Generating Station, the third and fourth units of a 16-unit upgrade were completed, with new runners and major components replaced or refurbished. In total, Hydroelectric invested $134 million in 1998 on these and other refurbishment programs.

Also in 1998, Hydroelectric completed significant portions of a program leading to ISO 14001 certification of its Environmental Management System (EMS) for its production facilities. The EMS ensures that Hydroelectric facilities are operated in a manner that meets internationally recognized quality standards for environmental performance, which is increasingly important in a competitive marketplace.

Hydroelectric formed a Small Hydro Division in 1998, comprising 26 stations accounting for almost 2% of the total Hydroelectric capacity. The new division creates a more distinct business focus for these assets, providing a greater degree of operational flexibility and better positioning them for the growing consumer interest in environment-friendly power.

Hydroelectric had many occasions to celebrate both its past and present achievements in 1998. In March, Ear Falls G.S. was reopened after a fire in 1997 that badly damaged the powerhouse and the generators. The station was refurbished in record time, complete with a new powerhouse and four new generators.

In August, celebrations marked the 100th anniversary of DeCew Falls G.S. 1 in St. Catharines, Ontario's oldest operating hydroelectric station. Other significant service milestones this year were the 50th anniversary of Stewartville G.S. on the Madawaska River and the 40th anniversary of Robert H. Saunders G.S. on the St. Lawrence River. These celebrations were all reminders of the enduring value of our hydroelectric system and give greater meaning to our reinvestments to preserve and enhance our ability to produce safe and reliable energy from a renewable water resource.

### WORKING WITH OUR CUSTOMERS

Our core product is electricity but our flexibility in pricing, supply conditions, energy services and account management allowed us to tailor offerings to best meet customer needs.

Here are some examples of how Ontario Hydro strengthened customer relationships through new services, communications and business initiatives.

- Customers learned how to understand and benefit from the coming competitive electricity marketplace through the *Quest – Learning Together* series of day-long sessions held throughout the year.
- Customers participating in the Interconnected Market Gain Sharing Program made money in June 1998 during a major price spike in the U.S. Northeast. The program allowed firm power customers to reduce their purchases in exchange for a share of OPG's gains from selling power at higher market prices.
- In response to customer demand, Ontario Hydro designed a wholesale green power offering that is EcoLogo certified. It includes new and existing renewables such as small hydro, landfill gas and wind.

# Focused on Reliability – Poised for Growth

**MAINTAINING AND IMPROVING WIRES NETWORKS THAT COULD CIRCLE THE GLOBE NEARLY FOUR TIMES WAS THE FIRST RESPONSIBILITY OF ONTARIO HYDRO SERVICES COMPANY.** THE SECOND WAS THE GROWTH OF COMPETITIVE BUSINESSES THROUGH THE MARKETING OF ENERGY, NETWORK AND RELATED SERVICES THAT CUSTOMERS WANT, NEED AND VALUE.

### ICE STORM SHOWCASES CRISIS CAPABILITIES

The fundamental strengths of Ontario Hydro Services Company (OHSC) were never more impressively illustrated than in January 1998, when over 600,000 people in an area of 25,000 square kilometres in Eastern Ontario lost power during the most severe ice storm on record. In five devastating days, the sheer weight of unprecedented accumulations of ice – nearly twice the typical amount for an entire year – literally crushed the electricity system. Hundreds of steel transmission towers crumpled. Seven thousand wooden distribution poles snapped like matchsticks, bringing 1,800 pole-top transformers down with them. By the time it was over, the storm had damaged 40% of Eastern Ontario's transmission and distribution systems.

Local OHSC and municipal crews began power restoration efforts even before the storm abated, and reinforcements quickly flowed into the region from across the province and beyond. At the peak of the effort, nearly 2,200 front-line workers laboured 16 hours a day, seven days a week, in piercing cold and sometimes blizzard-like snowstorms. Over half were Ontario Hydro staff; the rest were from other utilities in Ontario and elsewhere. Nearly 1,000 Canadian Armed Forces personnel worked tirelessly alongside the utility crews. Behind the scenes, hundreds more OHSC staff orchestrated the supply lines, answered a quarter-million calls from worried customers, and handled the countless details that went into speeding the recovery. Within two weeks, over 90% of all affected Ontario Hydro residential and business customers had their power restored, an incredible feat by any standards. A post-event analysis led to an updating and reorganization of OHSC emergency response procedures, so that if such an event occurs again, the recovery would be even quicker.

The historic response of Ontario Hydro Services Company staff to the ice storm will long serve as the reminder we all perhaps need occasionally that the most important element of power system reliability is the human one. The skill, dedication and professionalism brought by OHSC staff to this crisis are with us all year long. They are the reason OHSC is confident it can continue to maintain the transmission and distribution reliability standards Ontario has come to expect, and do so with increasing efficiency and continuously renewed sensitivity to our customers' needs.

### ASSET MANAGEMENT BUSINESS MODEL

OHSC has adopted an asset management

**The fundamental strengths of OHSC were illustrated in January 1998, during the most severe ice storm on record.**

business model for its wires networks that separates decisions on the investments needed to maintain and improve assets from the actual work on those assets. Under this model, which is also in use at best-practice utilities worldwide, OHSC's Network Asset Management Group makes the investment decisions and the Network Services Group performs the work. This approach ensures reliability and optimum use of assets with the most efficient use of OHSC's human and financial resources.

At the transmission level, the new model has been implemented with the creation of the Transmission Operation Management (TOM) Centre – OHSC's link to other key electricity system participants: suppliers, customers, the Independent Electricity Market Operator (IMO) and Network Services. The centre also coordinates and implements emergency response plans during significant transmission system events. It also contains Outage Management, System Performance, Operating Effectiveness and Operating Strategy Implementation departments.

At the distribution level, OHSC has launched its new Distribution Operations Management Centre, which will take over responsibility for answering after-hours trouble calls for the entire province by September 15, 1999. The centre allows much better coordination of work crews and lets us inform customers when they can expect their power to be restored. Eventually, the Distribution Operations Management Centre will operate a sophisticated Distribution Outage Management System, which will further improve customer service.

OHSC has also initiated a major re-engineering of its business processes, with a new work management, material management and financial system and an upgrade of computer technology infrastructure.

### NEW GENERATION PLANT IN REMOTE NORTHERN COMMUNITY

To ensure future reliability to the Northern logging community of Armstrong, the Remote Communities program installed a new diesel generating plant comprising three generators with a total capacity of 2,550 kilowatts (kW) and a prime rating of 1,450 kW. Peak load in the service area is now 900 kW, allowing community and local industry growth. The prime rating of the existing 25-year-old plant was being exceeded. With the old plant located close to a trout stream, relocation to another, lower-risk site was the preferred option.

The new installation incorporates the latest in operational and environmental controls, such as a SCADA system. It is housed in a diesel plant that employs the most up-to-date environmental technology for these remote applications.

As part of the legal separation of OPG and OHSC, a special legislative provision was put in place to keep the generation business within OHSC in remote Far North communities.

### CUSTOMER COMMUNICATION CENTRES UPGRADED, EXPANDED

The centralized Customer Communication Centres (CCC), which celebrated their first full year of operation in 1998, experienced their "trial by ice" in January by fielding as many as 30,000 calls a day in round-the-clock operations. An analysis of the ice storm response led to the installation of new call flooding technologies that enable automated reporting of outages directly from the customer to the appropriate service centre.

During the year as well, a Customer Loyalty Centre was set up within CCC's operation. The centres handle billing and service inquiries and

issues for over 900,000 retail customers. The Customer Loyalty Centre works with customers to quickly resolve their concerns, taking corrective or compensatory action when necessary. By tracking complaints, the centre can help determine the nature and scope of service failures and assist in identifying policy and process changes that lead to improvements.

Consolidating the customer telephone service to the Customer Communication Centres allowed the extension of service hours: customers can now call from 7:30 a.m. until 6:00 p.m. This year the centres will increase availability to customers even more. Although 24-hour emergency outage response service has always been provided, a new call answering system will be brought on line, allowing a higher volume of outage emergency calls. As well, the centres will implement a further extension to hours, opening up our regular lines until 8:00 p.m.

### OH TELECOM VENTURE

OHSC began preparing in 1998 to launch telecommunications. As a "carriers' carrier," OH Telecom may transmit data and voice communications through its optical fibre network in Ontario for clients such as long-distance telephone carriers, Internet service providers and corporations with large-scale data transfer requirements.

### RETAIL MERCHANT COMPETITIVE SERVICES

Commercially oriented services were introduced by OHSC in 1998. Indeed, this is an example of the OHSC strategy of building competitive businesses by leveraging existing assets and expertise. All its non-regulated energy services are offshoots of its resident skills and are aimed at identified market opportunities that have been carefully analyzed for their growth potential.

### PAYONE PROGRAM LAUNCHED

PayONE is a sophisticated bill consolidation and utility accounting service aimed at commercial and institutional customers with multiple sites, such as restaurant chains, property management companies, retailers and school boards. The program, piloted with McDonald's locations in Ontario, collects all the utility bills the customer receives (such as electricity, gas, water and sewage), verifies them, pays the utility and sends a single, electronic consolidated bill in a format that best suits the customer's needs. Besides freeing up accounting staff and saving customers money in other ways, the service provides utility usage and cost profiles, trending and benchmarking that will support operating decisions and help set budgets. PayONE signed up several clients in 1998 and more are expected in 1999.

### CUSTOM SOLUTIONS

Commercial and industrial energy management is a growing business sector and Custom Solutions is already in this business, with some early notable successes under its belt. The largest was a project to identify, design, implement and finance utility cost-saving opportunities for Cadillac Fairview at 18 commercial properties across Ontario. Total savings of $1.1 million annually were identified on a one-time investment of $3.2 million.

Other services include PowerSelect, which addresses power quality requirements, and Utility Accounting and Analysis. This latter service, among other things, simplifies, compares and analyzes billing data for multi-site customers and gives them a historical view of their electricity consumption and operating costs.

### NORTHWIND TORONTO PROJECT

OHSC, in a commercial alliance with Toronto

Hydro and Unicom Thermal Technologies of Chicago, is developing Canada's first major district cooling project, which will provide services in Toronto's downtown core.

### OPEX 2000

In January 1999, OHSC's program to achieve operational excellence was launched. By overhauling old processes or introducing new ones, OpEx 2000 will enable OHSC to optimize capital and productivity, and deliver excellent customer service. In short, through OpEx 2000, we will ensure we are running effectively and efficiently – and that we have what it takes to thrive in the competitive marketplace.

Several key processes and initiatives, critical to business success, constitute OpEx 2000: Customer Service; Distribution Network Asset Management; Transmission Network Asset Management; Design and Construction; Resource Management (Scheduling and Bid/Work Ordering); Operations, Maintenance and Restoration; Logistical Support (Trades Training, Supply Management, Fleet Management); Facility Management; Performance Management; Health, Safety and Environment; and Change Management/Communications.

In 1998, OHSC Forestry achieved the type of productivity gains to be realized through OpEx 2000 process improvements. Through such measures as the consolidation of crews, use of temporary work headquarters to reduce traveling time and the establishment of clear performance objectives, more work was accomplished, more safely, in 1998 than in 1997. This achievement is even more significant given the fact that all regular forestry work had to be suspended for six weeks in early 1998 because of the ice storm restoration demands.

### LARGE-SCALE YEAR 2000 TEST

On March 6, 1999, Ontario's first major test of Y2K readiness of OHSC's transmission network was successfully conducted without any interruption of power to the 180,000 customers of Toronto Hydro that might have been affected. At midnight, the SCADA system for Manby Transmission Station and the seven other transmission stations it controls, as well as all associated protection and communications equipment, underwent a simulated rollover to midnight, January 1, 2000. While each of these systems had been previously tested individually and certified Year 2000 ready, this was the first test of all the equipment working together. The test then continued until the clocks on the equipment successfully passed the simulated date of February 29, 2000, another critical date because next year is a leap year.

### ARC2000 PROJECT

Another key program was launched in the first quarter of 1999 to develop an information technology architecture for OHSC that will govern how the business acquires, builds, modifies and uses information technology (IT) resources, from applications and databases, to network, software and hardware components. OHSC's independence, and the expanded information demands of an open marketplace, require considerable investment in these areas. Electronic interactions with the Independent Electricity Market Operator and generating companies, emerging regulatory requirements and both the OpEx 2000 and Market Ready initiatives are examples of significant IT-enabled projects either in progress or in the advanced planning stages. ARC2000 will establish an integrated framework of principles, specifications, standards and directions to guide these and all other such projects in OHSC's future.

**Ontario Hydro's investment in Luz del Sur yielded a 16% dividend as the Peruvian electricity distribution company continued to grow and improve productivity.**

### PHASE SHIFTERS AUGMENT MICHIGAN-ONTARIO CONNECTION

Under the terms of the recently signed Michigan-Ontario Interconnection Facilities Expansion Agreement between OHSC and two Michigan utilities, two phase-shifting transformers will be installed and operational by mid-2000 at Lambton and another will be installed in Michigan by Detroit Edison, along with a new autotransformer. This joint project will enhance electricity transactions between the two jurisdictions and increase Ontario's capacity to import from the U.S. and relieve congestion on the east-to-west movement of power.

### GREENCHOICE GENERATION

Some customers want to choose to have part of their electricity come from renewable energy sources. Through our GreenChoice Generation pilot, some of OHSC's retail customers have that option. Although "green" energy costs slightly more, some companies are willing to pay the extra dollars to know that green power is being added to the grid. GreenChoice Generation customers receive a plaque showing how much of their energy comes from environment-friendly sources and are authorized to use the EcoLogo symbol on company letterhead and promotional materials.

### ONTARIO HYDRO INTERNATIONAL INC.

Ontario Hydro International's 15% investment in Luz del Sur yielded a 16% dividend for 1998 as the Peruvian electricity distribution company continued to grow and improve productivity. Although the Peruvian economy was hit by adverse El Niño weather and affected by the Asian economic slowdown, Luz del Sur's energy sales grew by 10% as the number of customers grew by 2%. Continuing efforts to improve the performance of the distribution system resulted in a 17% reduction in energy losses.

During 1998, Ontario Hydro assisted Luz del Sur to introduce a state-of-the-art thermovision unit for preventive maintenance on its transmission and distribution network. This technology will help LDS further reduce operations and maintenance costs.

In Central America, OHII directed Ontario Hydro's assistance to Honduras in the wake of Hurricane Mitch. Hydro pledged $500,000 for expertise and equipment to help restore electricity to the devastated country. Two technicians were quickly sent to work with the Honduran utility to assess reconstruction needs.

# Gateway to the Electricity Marketplace

**CENTRAL MARKET OPERATIONS' ROLE AS THE MINUTE-BY-MINUTE GUARDIAN OF ONTARIO'S TRANSMISSION SYSTEM SECURITY DID NOT CHANGE** WHEN IT BECAME THE PROVINCE'S INDEPENDENT ELECTRICITY MARKET OPERATOR, BUT ITS MANDATE WAS GREATLY ENLARGED TO INCLUDE MANAGEMENT OF ONE OF NORTH AMERICA'S LARGEST POWER MARKETPLACES.

Ontario Hydro's Central Market Operations (CMO) has faced extraordinary challenges during the past 15 months, beginning with the January 1998 ice storm, which felled several large sections of the transmission system in Eastern Ontario. During the storm and its aftermath, CMO staff worked around the clock, and in close cooperation with both the Generation and Services companies, to deal with the numerous outages, adjust system equipment and minimize the impact of the storm on the rest of Ontario and on interconnections with other jurisdictions.

Six months later, another climatic extreme, this time a prolonged heat wave in several large areas of North America, shattered peak power demand records and put unprecedented pressures on the continental interconnected network. Again, CMO staff worked closely with the rest of Ontario Hydro and with other jurisdictions to not only meet the province's record demand but also export power to other jurisdictions. Despite these challenges posed by the heat wave and the ice storm, CMO met or exceeded all performance targets of the North American Electricity Reliability Council (NERC) throughout this period.

In addition to safeguarding bulk electricity system security, CMO staff played a key role in the development of Ontario's future competitive electricity marketplace. CMO specialists were represented on all technical panels of the government-appointed Market Design Committee, as well as on the rules drafting team and the Coordination Committee.

### CMO TO IMO: THE TRANSITION

During 1998, work began on the infrastructure program to transform CMO into the Independent Electricity Market Operator (IMO) called for in the *Energy Competition Act, 1998,* the provincial legislation that restructures Ontario's electricity system. This program, which will continue throughout the rest of 1999, will deliver the design, development, documentation, testing, commissioning and implementation of the critical operational infrastructure of the IMO. By year-end, independent systems for financial and treasury management were already in place, and the entire program is on schedule to meet all deadlines required for the opening of the marketplace.

# Ontario Hydro Corporate Activities

## Sustainable Development: A Key Element of Future Competitive Success

Environmental performance is increasingly viewed as a key customer consideration that will grow in importance as the competitive power market matures. Given similar prices, many customers will prefer a supplier with a strong environmental track record. Market research shows that many customers are willing to pay at least a modest premium for power that they know has been produced in environmentally sensitive ways. Moreover, investors are becoming keenly interested in how environmental obligations are managed, ongoing compliance assured and potential liabilities avoided.

For these reasons, Ontario Hydro's commitment to sustainable development practices has laid the foundation for the competitive success of its successor companies. Sustainable development – conducting business in a way that meets current needs without compromising the ability of future generations to meet theirs – is not so much a specific program as a way of thinking about three "bottom lines": financial, social and environmental.

The financial aspects of sustainable development activities in both successor companies focus on two major objectives: getting more value from environmental expenditures and reducing future environmental risks and liabilities through sound environmental management programs and, where necessary, remediation efforts. The social bottom line, on the other hand, drives us to earn the respect and loyalty of our customers, including those in the communities within which we operate. There are many ways in which this objective is pursued, principal of which is an honest and transparent disclosure of the environmental impacts of our operations. OPG, for example, will continue to consult with established environmental advisory groups around its major generating stations and is actively engaging the local community, as did Ontario Hydro, on how it can better respond to their needs.

Ontario Hydro's environmental performance commitments were embodied in the adoption of the ISO 14001 standards for Environmental Management Systems by all of the businesses within the corporation.

The following are some of the many sustainable-development-oriented projects completed during the past 15 months.

### Deer Lake Mini-Hydro

Deer Lake is one of the 23 communities served by OHSC's Remote Communities group. It is accessible only by air or winter road. Until recently, the community's electricity was supplied by three diesel generators. With the community load demand outstripping existing plant capability, Ontario Hydro Technologies installed two 245-kilowatt mini-hydroelectric generators at nearby Shoulderblade Falls. This project was partnered with the Remote Communities group, Deer Lake First Nation and the federal Department of Indian Affairs and Northern Development. This installation will provide nearly 90% of the community's power needs and significantly reduce dependence on diesel fuel.

### Emissions Reduction Trading

Since 1996, Ontario Hydro has participated with other industries, government and non-governmental organizations in the Pilot Emissions Reduction Trading (PERT) Project. The goal of the project, in which Ontario Hydro's successors will continue to participate, is to provide market incentives to improve environmental

**Ontario Hydro has helped reduce nitrogen oxide emissions in eastern North America, and its generation successor company will steadily add to that contribution.**

performance. By voluntarily investing in equipment and practices that reduce emissions, PERT member companies earn credits, which can be bought or sold, for each tonne of emissions reduced. In 1998, Ontario Hydro purchased credits from Beaver Fuels, enabling that company to sell cleaner gasoline without raising prices at the pump, and sold nitrogen oxide credits to the Hartford Steam Boiler Company in Connecticut. Ontario Hydro's participation in this innovative program helped reduce nitrogen oxide emissions in eastern North America, and its generation successor company will steadily add to that contribution.

### Restoring the Storm-Damaged Landscape

Thousands of trees in Eastern Ontario were killed by the January 1998 ice storm. Estimates placed tree damage as high as 70% in the Ottawa-Kingston corridor alone. To aid in environmental restoration, Ontario Hydro donated $50,000 to the Evergreen Foundation to fund a program enlisting volunteer support to plant new trees in the region. Three thousand trees – among them red maple, grey birch, green ash, white spruce, trembling aspen, white oak, white elm and linden – were distributed to 35 schools and 28 community groups.

## Human Resources/Health and Safety Performance

To meet the needs of the business, including the unique requirements of the nuclear recovery program and the challenges associated with the demerger of Ontario Hydro, Corporate Human Resources:

- redefined the business relationship with 95% of 21,000 employees and greatly improved operational flexibility by successfully negotiating separate collective agreements for each of the successor businesses;
- allocated approximately 21,000 employees and 15,000 pensioners to the successor companies without a single grievance;
- due to excellent cooperation with the unions, resolved a backlog of more than 3,100 grievances with as few as 10% being resolved by a third party;
- defined new organizational structures, responsibilities and accountabilities;
- introduced a new, contemporary Code of Business Conduct designed to reinforce the culture required of the companies in a competitive marketplace;
- introduced a new and integrated payroll system designed to contribute to improved productivity and ensure Year 2000 compliance;
- enhanced recruitment systems for new and existing skills;
- developed succession planning and executive development programs to ensure effective leadership and management capability in the future; and
- organized and administered Ontario Hydro's 10th annual Corporate Awards program to recognize and celebrate the excellence, ingenuity and capability of employees in the areas of customer service, safety, environmental sustainability, technology and innovation; the various projects saved the corporation over $154 million.

### Health and Safety

- The unfortunate death of an employee in a March 1999 motor vehicle accident was the corporation's first fatality since 1994.
- Although the number of days lost/charged per million hours worked (Accident Severity

Rate) was higher in 1998 than in 1997, this critical indicator of occupational health and safety has nevertheless improved by more than 200% over the last five years.
• The All Injury Frequency Rate, which tracks the number of incidents occurring within the corporation, improved in 1998.

## Ontario Hydro Technologies

Throughout 1998, Ontario Hydro Technologies (OHT) supported a wide range of specialized needs from Hydro's business units. OHT achieved ISO 9001 certification in 1998. In April 1999, OHT was renamed Ontario Power Technologies, a wholly owned subsidiary of Ontario Power Generation.

**Environmental Land Assessment:** OHT conducted a major soils testing program for OHSC, sampling nearly 1,000 transmission, distribution and microwave communication sites in the province, and conducted comprehensive testing through its analytical chemistry laboratory. This project was part of OHSC's Land Assessment and Remediation Program and was one of the largest programs of its kind ever conducted in Canada.

**Extensive assistance** was provided to generating station operations including:
• a comprehensive review and predictions of corrosion and deuterium uptake in operating pressure tubes for Nuclear;
• new methods for flaw assessment in fuel channels at Bruce B and assessments for Bruce, Darlington and Pickering;
• leak detection technologies for steam generators;
• seismic testing of Darlington components;
• outage support for ultrasonic inspection of steam generator tubes at nuclear stations;
• engineering support for nuclear maintenance operations;
• generator stator chemical cleaning at Pickering;
• flow-induced vibration analysis of Bruce B preheater tubes;
• accident/impact/handling analysis of radioactive waste transportation containers;
• emission characterization and consultation on stack sampling methods for Fossil; and
• penstock repairs at High Falls and specialized concrete services at Saunders G.S. for Hydroelectric.

**Strategic Research and Development** focused on three program areas: Customer Power, including energy efficiency and power quality enhancement; Smart Systems, including advanced system monitoring technologies; and Distributed Generation, such as fuel cells and micro turbines.

**Business Development:** With its strategic partner, Babcock & Wilcox, OHT launched a new applications company in March 1999 named Integran Technologies Inc. The new company will market an advanced materials technology developed at OHT in collaboration with researchers at the University of Toronto and Queen's University. Applications vary from improved lead acid batteries to wear-resistant materials coatings.

OHT successfully negotiated an exclusive licence agreement with Sumitomo Corporation for the commercialization in Japan of OHT's proprietary technologies for the destruction of PCBs in mineral oil and askarels, as well as for the decontamination of electrical equipment containing PCBs.

## Ready for Year 2000

Ontario Hydro's Year 2000 readiness program was always a top priority of the corporation since 1996, when it began. The scope of the program, which continues under the successor companies, includes all necessary remediation of computer-dependent systems, contingency planning and close cooperation with stakeholders and strategic partners. The Y2K team, at times more than 600 professionals, is working with a budget in excess of $100 million on the three-stage program.

**Stage One** – Operational Sustainability – included the analysis, remediation, testing and Y2K readiness certification of all critical systems. This stage had essentially been completed by year-end 1998. An independent assessment of the program early in 1999 confirmed its basic soundness.

**Stage Two** – Operational Readiness – tests how the individually certified systems work together. These large-scale integration tests have been successfully conducted at generation sites (Bruce nuclear site, two of four planned fossil generation sites, and at five of seven planned hydroelectric generation sites) as well as at a major representative grid location (a set of transformer stations in the Toronto area). Ontario Hydro and its successor companies have been working with the North American Electricity Reliability Council (NERC) to test interoperability within the continent's Eastern Interconnection, of which Ontario is a component. Also during this stage, which is expected to be completed by mid-1999, Ontario Hydro's successor companies will assess the Y2K readiness of external suppliers, direct customers, municipal electric utilities and independent power producer partners.

**Stage Three** – Event Readiness. Based on the findings in Stage Two, emergency response and preparedness plans will be developed to ensure safety and reliability across Ontario and to minimize the potential risk from external suppliers and from other external entities. Drills and event simulations will be conducted in cooperation with NERC, and Ontario Hydro's successor companies will work with provincial and municipal agencies to pre-establish responses to unplanned power interruptions. Plans will be put in place to operate the electricity system in a conservative, precautionary posture during the Year 2000 rollover. This stage will be completed by November 1999.

Throughout the entire program, Ontario Hydro shared information with other utilities and participated in cross-industry programs to identify common risks and help find solutions. Moreover, information on Y2K readiness progress is made available to customers and other stakeholders through frequent publications and on the OPG and OHSC websites.

As this overview shows, Ontario Hydro took all possible actions to ensure the reliability of Ontario's power system when the clock ticks over at the end of 1999. As a result of these precautions, which the successor companies are completing, the direct impact of this unique event in human history is expected to be manageable in Ontario.

# Financial Review and Analysis

## FINANCIAL HIGHLIGHTS FOR THE THREE MONTHS ENDED MARCH 31, 1999

Ontario Hydro carried on business for the three months ended March 31, 1999, before operations were transferred to one of the successor entities upon the restructuring of the Corporation. During the three months, operations were typical compared to previous years' experiences, and were in accordance with plan. There were no significant, unforeseen events that affected the Corporation's operating results or financial position.

A summary of the financial highlights for the three months ended March 31, 1999, and March 31, 1998, is as follows:

| *(millions of dollars)* | MARCH 31 1999 | 1998 *(unaudited)* |
|---|---|---|
| Revenues | **2,594** | 2,484 |
| Costs | **1,463** | 1,250 |
| Financing charges | **687** | 734 |
| Net income | **444** | 500 |
| Cash provided from operations | **806** | 719 |
| Cash used for investing activities | **149** | 228 |
| Cash used for financing activities | **587** | 401 |
| Interest coverage | **1.66** | 1.71 |
| Debt ratio | **1.086** | 1.135 |

Net income for the first three months of 1999 was $444 million, down $56 million from 1998's first quarter. While revenue for the three months ended March 31, 1999, was $110 million higher and financing charges were $47 million lower, these were more than offset by a $213 million increase in costs.

Total revenue of $2,594 million for the first three months of 1999 is $110 million higher than revenue during the first quarter of 1998. Primary power and energy revenue of $2,511 million for the three months ended March 31, 1999, is $86 million higher than the $2,425 million revenue for the first three months of 1998. Energy sales increased in 1999 because warmer than usual weather conditions during the first quarter of 1998 lowered demand during that period.

Secondary power and energy revenue of $21 million for the three months ended March 31, 1999, is $16 million higher than the same period in 1998 because of increased energy sales outside the Province.

Other revenue of $62 million for the three months ended March 31, 1999, is $8 million higher than the $54 million for the first three months of 1998 because of a gain on investments.

Costs of $1,463 million for the three months ended March 31, 1999, are $213 million higher than the $1,250 million of costs for the first three months of 1998. The changes are as follows:

- $167 million increase in operation, maintenance & administration (OM&A) costs,
- $44 million increase in fuel used for electric generation,
- $17 million decrease in power purchased, and
- $19 million increase in depreciation and amortization.

OM&A costs are higher by $167 million for the three months ended March 31, 1999, compared to the same period in 1998. Significant variances are as follows:

- $50 million for repairs resulting from the 1998 ice storm, which were charged to the provision for future costs, lowered the costs charged to OM&A in 1998 compared to 1999,
- $30 million for increased integrated improvement program work in nuclear operations,
- $15 million preparing the Electricity Production, Merchant Function and Business Services groups to operate in the new business environment beginning April 1, 1999.

Included in OM&A costs for the three months ended March 31, 1999, is $37 million attributable to the final closing of Ontario Hydro's financial records, and a $23 million adjustment for obsolete nuclear materials inventory. This is dissimilar to March 31, 1998, because the prior year's first quarter results are on the basis of operations continuing as usual for the remainder of 1998.

The cost of $141 million for fuel used for electric generation during the first three months of 1999 is $44 million higher than the cost for the first three months of 1998, which is consistent with increased fossil generation and higher energy sales. Power

purchased costs are $17 million less for the three months ended March 31, 1999, compared to the same period last year, because some of the purchases during the first three months of 1999 supported the Nuclear Asset Optimization Plan (NAOP) and the costs were charged to the provision for future costs.

Depreciation costs of $402 million are $19 million higher for the three months ended March 31, 1999, compared to the same period in 1998, which is consistent with fixed assets in service being higher as at March 31, 1999.

Financing charges of $687 million decreased $47 million for the first three months of 1999 compared to the same period in 1998, because of lower debt outstanding and lower interest rates on refinancings.

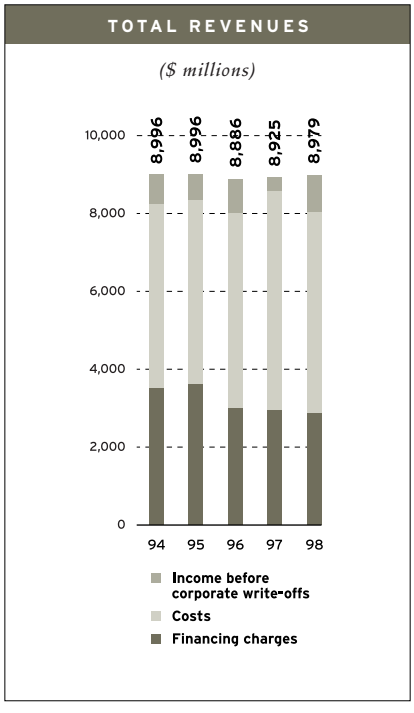
During the three months ended March 31, 1999, there was a $587 million reduction in debt compared to a $401 million reduction in the first quarter of 1998.

$149 million of cash from operations was invested in fixed and other assets during the three months ended March 31, 1999, compared to $228 million during the first quarter of 1998. Debt outstanding was reduced to $30,527 million as at March 31, 1999 from $31,221 million as at December 31, 1998.

### FINANCIAL HIGHLIGHTS FOR THE YEAR ENDED DECEMBER 31, 1998

Ontario Hydro's net income for 1998 was $1,831 million, compared with a net loss of $6,326 million in 1997. The results for the two years are not comparable due to the following significant items, which affected net income in each year. In 1997, the Board of Directors approved a number of charges and write-offs to current year's operations totaling $6,580 million, while in 1998 there were no write-offs. In 1998, there was a $887 million favourable adjustment to income to recognize the benefit associated with the Corporation having access to pension fund surplus. Access to the pension fund surplus arose as the result of changes included in the *Energy Competition Act, 1998*, enacted by the Government of Ontario (Government) in October 1998.

Ontario Hydro's 1998 income, before adjustment for the impact of the future employer pension contribution holidays, was $944 million. While this is $690 million higher than the corresponding figure for 1997, again, the results are not completely comparable because, in 1998, costs totaling $1,486 million were charged against a provision established at the end of 1997 for future costs, related principally to the nuclear recovery program, which could not be recovered through existing rates. In 1997, similar expenditures at a lower level were charged to operations.



Total revenues for 1998 were $8,979 million, $54 million higher than in 1997. This is the result of an $88 million increase in primary sales, partially offset by lower secondary sales and other revenues. Operating costs for 1998, excluding financing charges, amounted to $5,159 million, a decrease of $423 million from 1997. This reduction primarily reflects use of the 1997 provision for future costs. Financing charges of $2,876 million were $213 million lower than in 1997 mainly due to lower interest and foreign exchange costs.

Cash provided from operations decreased to $1,488 million in 1998 from $2,026 million in 1997. Proceeds of $5,698 million were received from the issuance of debt for long-term financing in 1998, compared to $2,321 million in 1997. The 1998 proceeds include three Canadian dollar domestic issues,

a global market United States dollar bond issue, a global market Canadian dollar bond issue, a Canadian dollar Euro medium-term note issue, a private placement with the Province of Ontario (Province) and the issuance of Canadian dollar short-term notes and United States dollar-denominated commercial paper. In 1998, $5,899 million of cash was used to retire debt issued for long-term financing, compared with $3,257 million in 1997. Cash paid on settlement of swaptions amounted to $142 million in 1998, compared with $292 million in 1997.

Cash invested in fixed assets during 1998 was $823 million, compared with $881 million in 1997. Including changes in non-cash balances related to fixed assets, investment in fixed assets was $865 million in 1998 and $852 million in 1997.

## RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 1998

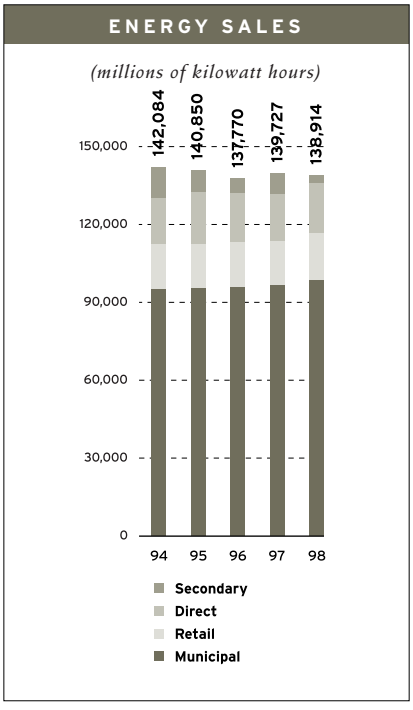
### REVENUES

#### Primary Revenues

Primary revenues for 1998 amounted to $8,524 million, an increase of $88 million over 1997. The increase reflects broadly based growth in demand in the municipal, commercial and industrial sectors. Demand was sufficiently robust to offset the impact of the January ice storm, negative winter weather effects due to El Niño, and strikes affecting two large industrial customers. Municipal sales revenues rose by $145 million or 2.5 per cent over 1997, primarily due to higher sales volumes from air conditioning load in the warmer summer months and an increased level of commercial activity. Sales to retail customers in 1998 fell by $50 million or 3.1 per cent, reflecting milder winter weather and the continuing impact of moving customers to lower rate classes, as well as a reduction in late payment and service charges. Sales to direct industrial customers remained fairly steady at $917 million, compared with $924 million in 1997.

#### Secondary Revenues

Secondary power and energy revenues, mainly from surplus energy exports to utilities in the United States, amounted to $148 million in 1998, a $25 million or 14.4 per cent decrease from 1997. The lower sales are primarily due to a lack of available generation as a result of the nuclear recovery program, partially offset by very favourable spot market prices during the June to September period due to tight supply conditions in the midwestern portion of the United States, and hotter than normal weather.



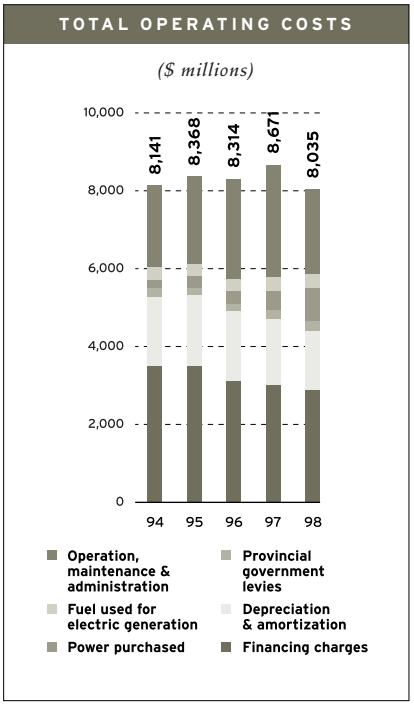
#### Other Revenues

Other revenues of $307 million in 1998 decreased by $9 million from 1997, due mainly to lower heavy water and isotope sales and a decrease in consulting revenues, partially offset by a gain on the sale of surplus land.

### COSTS

In 1997, Ontario Hydro's Board of Directors used its rate-setting authority to establish a provision for future costs against which certain expenditures, primarily related to the nuclear recovery program, would be charged as incurred from 1998 to 2001. This provision included an allowance for additional fuel costs expected to be incurred by having to place greater reliance upon fossil generation and purchased power, as well as related financing costs. The provision is more fully described in note 7 to the 1998 Consolidated Financial Statements. In 1998, a total

of $1,486 million was charged to the provision for future costs. $1,231 million of this was related to the nuclear recovery program and the remainder was related to other costs.



Ontario Hydro's operating costs for 1998, excluding financing charges, totaled $5,159 million, $423 million lower than in 1997. This is primarily the result of the use in 1998 of the provision for future costs established at the end of 1997. Fixed operating costs of $4,662 million, consisting of provincial government levies, depreciation and amortization and financing charges, decreased by $282 million or 5.7 per cent from $4,944 million for 1997, mainly as a result of lower interest and foreign exchange costs.

### Operation, Maintenance and Administration

OM&A costs of $2,178 million for the year ended December 31, 1998, decreased by $13 million from 1997. As indicated earlier, this variance results principally from the fact that preliminary costs of the nuclear recovery program in 1997 were charged to operations. In 1998, OM&A costs of $589 million, relating mainly to the nuclear recovery program, were charged to the 1997 provision for future costs.

### Fuel Used For Electric Generation

The cost of fuel used for electric generation comprises the costs for coal, uranium, oil and water rental payments other than those made to the Province. The cost of fuel used for electric generation in 1998 was $350 million, a decrease of $347 million or 49.8 per cent from 1997, after charging $690 million in costs related to the replacement of nuclear production by higher-cost fossil production to the 1997 provision for future costs. Overall, internal generation in 1998 of 125,972 million kilowatt-hours was lower than generation in 1997 of 131,005 million kilowatt-hours, due to the nuclear recovery program. The shortfall in generation was compensated for by higher power purchases.

### Power Purchased

Electricity purchases in 1998 amounted to $845 million, an increase of $6 million over 1997, after charging $78 million in costs related to the replacement of nuclear production by increased power purchases to the 1997 provision for future costs. The amount of power purchased in 1998 amounted to 16,992 million kilowatt-hours compared to 13,750 million kilowatt-hours in 1997, an increase of 24 per cent. The increase reflects a rise in power purchases from utilities in Canada and the United States as a result of lower internal generation due to the nuclear recovery program, and an increase in contracted generation from independent power producers. Ontario Hydro also buys electricity when it is economical to do so, during periods of peak demand or in emergencies, and to manage acid gas emission levels.

### Provincial Government Levies

Provincial government levies totaled $274 million in 1998, a slight reduction from $277 million in 1997.

Ontario Hydro is required to pay to the Province an annual debt guarantee fee equal to one half of one per cent on the total debt guaranteed by the Province outstanding on the preceding December 31. The fee for 1998, based on guaranteed debt outstanding as at December 31, 1997, was relatively unchanged at $155 million compared with $156 million in 1997, as the year-over-year guaranteed debt level remained stable.

Provincial water rental payments, related to

Ontario Hydro's use of provincial waters in the operation of its hydroelectric stations, also remained relatively stable at $119 million in 1998 compared with $121 million in 1997.

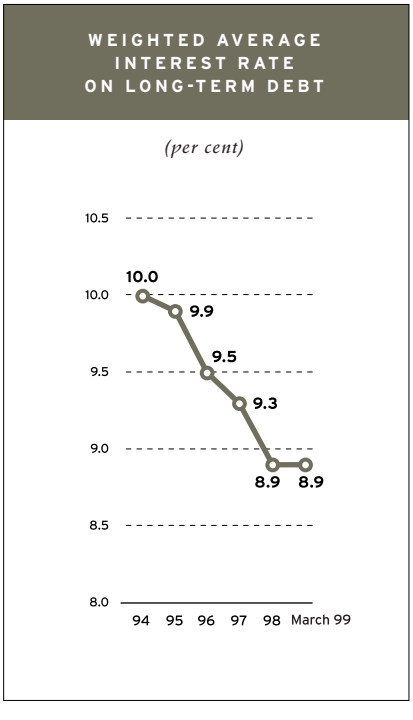
In 1998, Ontario Hydro paid approximately $224 million to various government agencies for provincial sales taxes, employment insurance premiums, Canada Pension Plan contributions, employer health tax payments and payments in lieu of realty taxes.

### Depreciation and Amortization

Depreciation and amortization charged to operations totaled $1,512 million in 1998, a decrease of $66 million or 4.2 per cent from 1997 mainly due to reversals in 1998 of decommissioning and rehabilitation provisions for certain generating stations. In 1998, depreciation and amortization of $83 million, relating to the nuclear recovery program, was charged to the 1997 provision for future costs.

### Financing Charges

Financing charges comprise interest charged to operations and foreign exchange costs. Interest charged to operations represents gross interest costs reduced by capitalized interest and interest earned on investments.



Foreign exchange costs comprise amounts related primarily to the amortization of exchange gains or losses on the principal amount of foreign debt and foreign exchange risk management activities.

Interest and foreign exchange charged to operations was $2,876 million in 1998, $213 million or 6.9 per cent lower than in 1997, after charging $46 million in interest costs related to the nuclear recovery program to the 1997 provision for future costs. Favourable impacts, due to a net reduction in the average level of long and short-term debt outstanding and a lower net weighted average interest rate on debt and accumulated provisions for fixed asset removal and used nuclear fuel disposal costs, were partially offset by an increase in the level of accrued provisions and a reduction in interest capitalized. Foreign exchange costs for 1998 decreased by $88 million, primarily due to favourable results from foreign exchange risk management activities.

### Financial Indicators

The Corporation's financial performance is monitored using two main indicators: interest coverage ratio and debt ratio.

The level of interest coverage measures the extent to which net income enables Ontario Hydro to meet its gross interest payments. An increase in the interest coverage ratio indicates a strengthening in the Corporation's financial condition. The 1998 level of interest coverage was 1.34 based on income before the deferred pension asset adjustment, compared to the 1997 interest coverage level of 1.09 based on income before corporate write-offs.

The debt ratio measures the extent to which Hydro's assets are financed by debt. A reduction in the debt ratio indicates a strengthening in financial position, as a relative increase in equity provides additional financial flexibility. The debt ratio at the end of 1998 was 1.100, compared to the 1997 ratio of 1.153. The improvement is due primarily to net income.

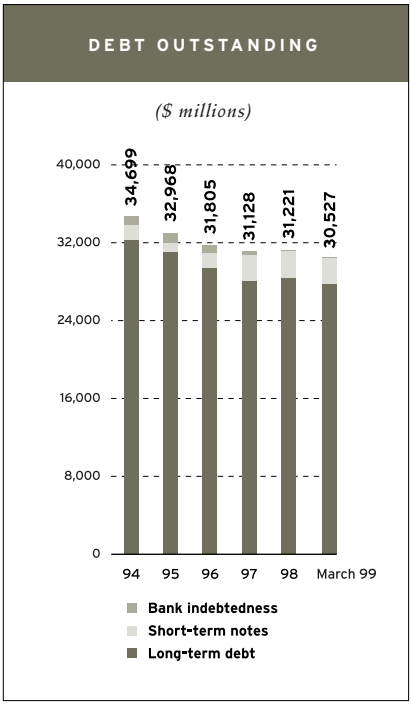
## FINANCING AND INVESTING ACTIVITIES

### Financing and Capital Markets

Ontario Hydro's cash from operations in 1998 was sufficient to cover capital expenditures for 1998 and

to reduce the level of outstanding debt. Gross borrowing was required primarily for refinancing maturing issues and taking advantage of opportunities to minimize interest expense.

In 1998, on a cash basis, there was a net debt reduction of $343 million, compared to a net debt reduction of $458 million in 1997.



Proceeds of $5,698 million were received from the issuance of debt for long-term financing in 1998, compared to $2,321 million in 1997. The 1998 proceeds include three Canadian dollar domestic issues totaling $675 million; a global market United States dollar bond issue of $750 million (Cdn. $1,092 million); a global market Canadian dollar bond issue of $1,350 million; a Canadian dollar Euro medium-term note issue of $250 million; a $500 million private placement with the Province; and the issuance of Canadian dollar short-term notes and United States dollar-denominated commercial paper.

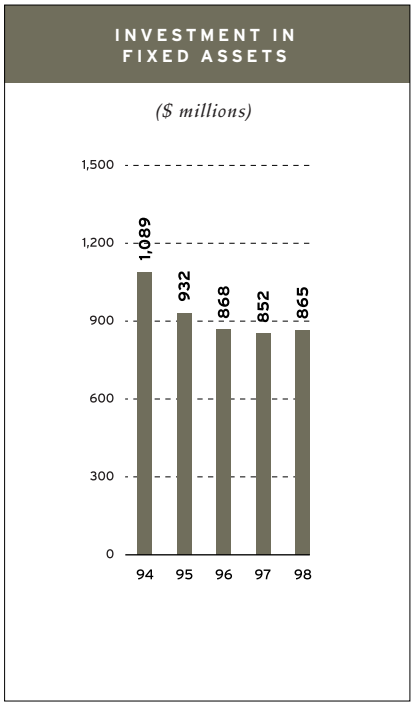
In 1998, $5,899 million of cash was used to retire debt issued for long-term financing, compared to $3,257 million in 1997. Cash paid on settlement of swaptions amounted to $142 million in 1998, compared to $292 million in 1997.

### Investment in Fixed Assets

Ontario Hydro invests in fixed assets to maintain service, reliability, safety and environmental performance and to meet regulatory requirements. The total assets of the Corporation at the end of 1998 were $40,023 million, 88 per cent of which represented fixed assets in service or under construction.

The cash required by Ontario Hydro, to finance its investment in fixed assets, has historically come from two major sources; operations and financing through borrowing. As was the case in 1997, sufficient cash was generated from operations in 1998 to finance investment in fixed assets.

Investment in fixed assets was $865 million in 1998 and $852 million in 1997. Of this total investment, $503 million (1997: $591 million) was spent on generating facilities and $362 million (1997: $261 million) was invested in major transmission and distribution facilities.



# Management Report

**MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING**

The accompanying financial statements of Ontario Hydro are the responsibility of management and have been prepared in accordance with accounting principles generally accepted in Canada, applied on a basis consistent with that of the preceding year. Ontario Hydro chooses accounting principles appropriate to its circumstances. The significant accounting policies followed by Ontario Hydro are described in the Summary of Significant Accounting Policies contained in note 2 to the financial statements. The preparation of financial statements necessarily involves the use of estimates based on management's judgement, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to June 23, 1999.

Management maintained a system of internal controls designed to provide reasonable assurance that the assets were safeguarded and that reliable financial information was available on a timely basis. The system included formal policies and procedures and an organizational structure that provided for appropriate delegation of authority and segregation of responsibilities. An internal audit function independently evaluated the effectiveness of these internal controls on an ongoing basis and reported its findings to management and the Audit Committee of the Ontario Hydro Board of Directors.

The financial statements have been examined by Ernst & Young LLP, independent external auditors appointed by the Lieutenant Governor in Council of Ontario. The external auditors' responsibility is to express their opinion on whether the financial statements are fairly presented in accordance with generally accepted accounting principles. The Auditors' Report, which appears below, outlines the scope of their examination and their opinion.

For the three months ended March 31, 1999 and year ended December 31, 1998, the Ontario Hydro Board of Directors, through the Audit Committee, was responsible for ensuring that management fulfilled its responsibilities for financial reporting and internal controls. The Audit Committee met periodically with management, the internal auditors and the external auditors to satisfy itself that each group had properly discharged its respective responsibility, and to review the financial statements before recommending approval by the Board of Directors. The external auditors had direct and full access to the Audit Committee, with and without the presence of management, to discuss their audit and their findings as to the integrity of Ontario Hydro's financial reporting and the effectiveness of the system of internal controls.

As at April 1, 1999, the Board of Directors of Ontario Hydro was dissolved and Ontario Hydro continues as the Ontario Electricity Financial Corporation (OEFC) with a new Board of Directors appointed pursuant to the *Electricity Act, 1998*.

On behalf of Ontario Hydro Management,

*President & Chief Executive Officer, Ontario Hydro, as at March 31, 1999*

*Chief Financial Officer, Ontario Hydro, as at March 31, 1999*

Toronto, Canada,
June 23, 1999

# Auditors' Report

**TO THE BOARD OF DIRECTORS OF ONTARIO ELECTRICITY FINANCIAL CORPORATION:**

We have audited the consolidated statement of financial position of Ontario Hydro as at March 31, 1999 and December 31, 1998, and the consolidated statements of operations and (deficit) retained earnings, and cash flows for the three months ended March 31, 1999 and year ended December 31, 1998. These financial statements are the responsibility of Ontario Hydro's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Ontario Hydro as at March 31, 1999 and December 31, 1998, and the results of its operations and its cash flows for the three months ended March 31, 1999 and year ended December 31, 1998, in accordance with generally accepted accounting principles.

Ontario Hydro's accounting policies differ from those followed by enterprises that are not rate-regulated as described in note 2(a) to these financial statements.

* In 1997, Ontario Hydro's Board of Directors used its rate-setting authority to establish a provision for future costs against which certain expenditures, primarily related to the nuclear recovery program, would be charged as incurred from 1998 to 2001. This Supplementary Statement isolates the effect upon the 1999 and 1998 results of operations of charging certain costs of the year to the 1997 provision for future costs.

*See accompanying notes to financial statements.*

# Notes to Financial Statements

## 1. RESTRUCTURING OF THE ONTARIO ELECTRICITY INDUSTRY AND EVENTS SUBSEQUENT TO MARCH 31, 1999

The North American electrical utility industry has undertaken initiatives to move away from traditional monopolies towards competitive models that are more conducive to customer choice. On October 30, 1998, the Government of Ontario (Government) enacted the *Energy Competition Act, 1998* (ECA) to restructure the Ontario electricity industry and introduce competition during the year 2000.

Prior to the restructuring, Ontario Hydro was a vertically integrated, rate-regulated electricity utility. On April 1, 1999, Ontario Hydro was restructured into a number of successor entities, as follows:

- Ontario Power Generation Inc. (OPG) is a generation company;
- Ontario Hydro Services Company Inc. (OHSC) is a regulated transmission and distribution business, and operates certain energy service businesses in an unregulated business environment;
- Independent Electricity Market Operator (IMO) is a non-profit corporation, which is the independent system co-ordinator responsible for directing system operations and operating the electricity market;
- Electrical Safety Authority (ESA) is a non-profit corporation, which will carry out electrical inspections previously conducted by Ontario Hydro; and
- Ontario Electricity Financial Corporation (OEFC) is the continued Ontario Hydro entity with the objectives of managing debt, administering assets, liabilities, rights and obligations not transferred to a successor entity, and acting as administrator of the existing pension plan until arrangements are completed to transfer assets and liabilities to the new pension plans of the successor entities.

On April 1, 1999, each successor entity acquired Ontario Hydro's respective business operations in exchange for debt and equity securities equal to the fair values. The fair values were based on the present value of expected future operating results. Ontario Hydro's debt remained with OEFC.

Stranded debt is defined as debt that the successor entities could not service as commercial entities in a competitive market. Stranded debt has been determined, on a preliminary basis, by assigning fair values to OPG, OHSC, and the IMO, and subtracting these values from Ontario Hydro's total debt and liabilities. Using this methodology, the stranded debt is estimated at $21 billion as per the Ministry of Finance announcement of April 1, 1999. The actual stranded debt will be known once a final determination can be made for other items; principally valuing power purchase obligations (note 15).

The government has identified that certain of the OEFC's revenue streams in the new electricity market (e.g. payments-in-lieu of corporate income and capital taxes made by the new restructured companies and local distribution utilities) will be dedicated to service stranded debt.

The Province of Ontario (Province) continues to guarantee all existing Ontario Hydro debt.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles in Canada, applied on a basis consistent with that of the preceding year. The significant accounting policies followed by Ontario Hydro are described below.

### a) Rate setting

Up to March 31, 1999, Ontario Hydro had broad powers to generate, supply and deliver electric power

throughout the Province of Ontario. The Corporation operated under the *Power Corporation Act* (PCA) and was subject to the provisions of the *Ontario Energy Board Act*.

Under the provisions of the PCA, the price payable by municipal and other Ontario power customers was the cost of supplying the power. Such cost was defined in the PCA to include the cost of operating and maintaining the power system, the cost of energy conservation programs, depreciation, interest and the annual amounts for statutory debt retirement (SDR) and stabilization of rates and contingencies.

Under the provisions of the *Ontario Energy Board Act*, a public hearing before the Ontario Energy Board (OEB) was required to review any changes in electricity rates proposed by Ontario Hydro which affect its municipal utilities, direct industrial customers, or, if the Minister of Energy so directed, rural retail customers. The OEB tabled its recommendations with the Minister of Energy, Science and Technology. After considering the recommendations of the OEB, Ontario Hydro's Board of Directors, under the authority of the PCA, established the electricity rates to be charged to customers.

The Board of Directors may have specified for rate-setting purposes that an amount be included in the determination of the operating results of a period which differed from the period in which it would have been recognized under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment. If so, the accounting treatment given the amount was the same as its treatment for rate-setting purposes. This authority of the Board of Directors could have been used in respect of a specific transaction or an accounting policy.

Ontario Hydro's accounting policies relating to the deferral of discounts and premiums arising from the acquisition of debt prior to maturity and foreign exchange gains and losses on United States dollar-denominated short-term financing replacing United States dollar-denominated long-term debt ,which has been redeemed prior to maturity, reflected the rate-setting treatment of these items as specified by the Board of Directors. Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment, these amounts would have been included as gains or losses of the current period (see note 2g).

In 1994, the Board of Directors used its rate-setting authority to specify that costs of the rehabilitation program for steam generators at Pickering A and B and Bruce A Nuclear Generating Stations be deferred for recovery in future periods. Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment these costs would have been expensed as incurred.

In 1996, the Board of Directors used its rate-setting authority to charge the nuclear recovery expenditures planned to be incurred over the period 1997 to 2001 to operations in 1996. In 1997, as a result of the Nuclear Asset Optimization Plan (NAOP), which included the planned nuclear recovery expenditures, the Board of Directors used its rate-setting authority to specify that the incremental costs associated with improving nuclear performance, specifically NAOP and other related costs, to be incurred over the period 1998 to 2001, be charged to operations in 1997. This rate-setting treatment was selected to enable Ontario Hydro to meet its SDR requirement over the period 1998 to 2001. As a result of the Board's decision, the related costs were not recovered through rates and represented a loss which was provided for in 1997. Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment, these costs would have been expensed as incurred (see note 7).

The Board of Directors also used its rate-setting authority to specify that certain additional future costs be charged to operations in 1997 (see note 7). Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment, these costs would have been expensed as incurred.

### b) Consolidation

The consolidated financial statements include the financial statements of Ontario Hydro and its wholly-owned subsidiaries Ontario Hydro International Inc. (OHI Inc.) and Ontario Hydro Interconnected Markets

Inc. (OHIM Inc.). OHI Inc. was incorporated under the *Business Corporations Act* (Ontario) and was established as a subsidiary of Ontario Hydro in September 1993. OHIM Inc. was incorporated on July 9, 1996, under the *General Corporation Law* of the State of Delaware in the United States. Both OHI Inc. and OHIM Inc. publish separate financial statements.

### c) Fixed assets

Fixed assets in service include operating facilities, non-operating reserve facilities, and heavy water contained in nuclear generating stations. Construction in progress includes fixed assets under construction.

Fixed assets are capitalized at cost which comprises material, labour, engineering costs, overheads, depreciation on service equipment, interest applicable to capital construction activities, and for new facilities, the costs of training initial operating staff. In the case of generating facilities, the cost also includes the net cost of commissioning which comprises the cost of start-up less the value attributed to energy produced by generation facilities during their commissioning period. For multi-unit facilities, a proportionate share of the cost of common facilities is placed in service with each major operating unit. The cost of heavy water comprises the direct cost of production plus applicable overheads, as well as interest and depreciation on the heavy water production facilities and the estimated removal costs of these facilities. Leases which transfer the benefits and risks of ownership of assets to Ontario Hydro are capitalized.

Interest is capitalized on construction in progress at rates, which approximate the average cost of long-term debts, as follows:

| | |
|---|---|
| 1999 | 9.2% |
| 1998 | 9.4% |
| 1997 | 9.6% |

If the construction period of a project is extended and the construction activities are continued, interest is capitalized during the period of extension provided that the project has a reasonable expectation of being completed.

If a project is deferred as a result of a management decision and there is a reasonable expectation of completion, interest capitalization ceases and amortization for any loss in value commences.

If a project is cancelled or deferred indefinitely with a low probability of construction being resumed, all costs, including the costs of cancellation, are written off to operations.

If fixed assets are removed from operations and mothballed for future use, mothballing costs are charged to operations. These assets are classified as non-operating reserve facilities.

### d) Depreciation

The capital costs of fixed assets in service are depreciated on a straight-line basis. Depreciation rates for the various classes of assets are based on their estimated service lives. Major components of fossil and nuclear generating stations are depreciated over the lesser of the service life expectancy of the major component or the remaining service life of the associated generating station. Hydroelectric generating stations are assumed to have a perpetual life. Major components of hydroelectric generating stations are depreciated over the service life expectancy of the component, ranging from 25 to 100 years. Heavy water in nuclear generating stations is depreciated over the remaining service life of the associated station with the exception of heavy water in Pickering Nuclear Generating Station (NGS) A, which is depreciated to the year 2032, since this heavy water is planned to be used to maintain operating levels in the remaining nuclear plants once Pickering NGS A has completed its useful life. The estimated service lives of assets in the major classes are:

| | |
|---|---|
| Generating Stations | |
| fossil | 40 years |
| nuclear | 40 years |
| Transmission and distribution facilities | 10 to 100 years |
| Administration and service facilities | 5 to 50 years |

In accordance with group depreciation practices, the costs of normal fixed asset retirements are charged to accumulated depreciation. However, gains and losses on sales of fixed assets and losses on premature retirements are charged to operations as adjustments to depreciation expense.

When the net costs of removal of fixed assets can be reasonably estimated and are significant, provisions for these costs are charged to depreciation expense on an annuity basis prospectively over the remaining service life of the related fixed assets. Removal costs that are provided for include the estimated costs of decommissioning nuclear and fossil stations and the estimated costs of removing certain nuclear reactor fuel channels. Other removal costs are charged to depreciation expense as incurred.

The estimated service lives of fixed assets and the significant assumptions underlying the estimates of fixed asset removal costs are subject to periodic review. Any changes arising out of such a review are implemented on a remaining service life basis from the year the changes can first be reflected in electricity prices.

Non-operating reserve facilities are amortized so that any estimated loss in value during the non-operating period is charged to depreciation expense on a straight-line basis over their expected non-operating period.

#### e) Fuel for electric generation

Fuel used for electric generation comprises the average inventory costs of fuel consumed, less the value attributed to energy produced during the commissioning phase of placing a new or refurbished unit (i.e., after replacement of fuel channels or steam generators) in service, plus provisions for disposal of nuclear fuel used during the period. The cost of fuel inventory comprises fuel purchases, transportation and handling costs.

The provision for disposal of used nuclear fuel is charged to operations based on estimated future expenditures and interest accumulating to the estimated date of disposal. Effective January 1, 1998, estimates of disposal costs which do not vary with the amount of fuel to be disposed of ("fixed" disposal costs) are charged to operations on an annuity basis over the estimated service lives of the associated nuclear stations. Estimates of disposal costs which vary with the amount of fuel to be disposed of ("variable" disposal costs) are charged to operations based on the present value of the future estimated disposal costs attributable to the fuel bundles used in that period. Prior to 1998, nuclear fuel provisions were charged to operations based on the present value of the future estimated disposal costs, fixed and variable, attributable to the fuel bundles used in that period. The impact of this change is an increase in costs of approximately $83 million per year plus interest on the increase in accumulated provision.

Estimates of expenditures, interest and escalation rates, and the date of disposal are subject to periodic review. Adjustments resulting from changes in any of these factors are charged to operations on an annuity basis prospectively over the remaining years the nuclear units will be in operation.

#### f) Foreign currency translation

Current monetary assets and liabilities denominated in foreign currencies are translated to Canadian currency at year-end rates of exchange and the resulting exchange gains or losses are credited or charged to operations. Long-term debt payable in foreign currencies is translated to Canadian currency at year-end rates of exchange. Resulting unrealized exchange gains or losses are deferred and included in deferred debt costs, and are

amortized to operations on an annuity basis over the remaining life of the related debt.

Foreign exchange gains or losses on hedges of long-term debt payable in foreign currencies are deferred and included in deferred debt costs. The deferred gains or losses on hedges are amortized to operations on an annuity basis in the periods the hedges provide benefit.

Foreign exchange gains or losses on early redemption of long-term debt, including subsequent gains and losses on short-term replacement financing, are deferred and included in deferred debt costs if the exposure in the foreign currency related to the redeemed debt is continued by refinancing the redeemed debt in the same currency. These deferred gains or losses are amortized on an annuity basis over the period to the original maturity date of the redeemed debt (see note 2a).

If the foreign currency exposure is reduced as a result of the early redemption of debt, the resulting foreign exchange gains or losses related to the redeemed debt are credited or charged to operations.

#### g) Deferred debt costs

Deferred debt costs include the unamortized amounts related to unrealized foreign exchange gains or losses resulting from the translation of foreign currency long-term debt; deferred foreign exchange gains or losses on hedges; deferred foreign exchange gains or losses on the early redemption of long-term debt; discounts or premiums arising from the issuance of debt or the acquisition of debt prior to maturity; discounts or premiums accrued on foreign currency hedges; and net unamortized premiums on settled, exercised or expired swaption contracts.

Discounts or premiums arising from the issuance of debt are amortized over the period to maturity of the debt on an annuity basis when the term of the debt exceeds one year and on a straight-line basis when the term is one year or less. Discounts or premiums on debt acquired prior to the date of maturity are amortized on an annuity basis over the period from the acquisition date to the original maturity date of the debt (see note 2a). Discounts or premiums on foreign currency hedges are credited or charged to operations on an annuity basis over the terms of the individual hedges. Net unamortized premiums on settled, exercised or expired swaption contracts are amortized on an annuity basis over the period from the settlement, exercise or expiry date to the original maturity date of the related debt.

#### h) Pension plan

The pension plan is a contributory, defined benefit plan covering all regular employees of Ontario Hydro. Pension costs for accounting purposes are actuarially determined using the projected benefit method prorated on services and based on assumptions that reflect management's best estimate of the effect of future events on the actuarial present value of accrued pension benefits. Pension plan assets are valued using current fair values and pension plan adjustments are amortized on a straight-line basis over the expected average remaining period of service of the employees covered by the Ontario Hydro pension plan (see note 18).

In the last quarter of 1998, Ontario Hydro adopted the new method of accounting for pension costs recently approved by the Canadian Institute of Chartered Accountants (CICA). The effect of this was to change the discount rate used to determine pension costs and obligations from a long-term average rate to a current market settlement rate. This change had no significant impact on the financial statements for the year ended December 31, 1998.

#### i) Other post-employment benefits

In addition to pension benefits, Ontario Hydro provides group life insurance and health-care benefits to its retired employees and, in certain cases, their surviving spouses and unmarried dependents. As well, Ontario Hydro provides long-term disability benefits to qualifying employees during extended absences from work due to sickness or injury.

Prior to January 1, 1997, the costs of other post-employment benefits (OPEB) were charged to operations

as the benefits were paid. Effective January 1, 1997, Ontario Hydro implemented accrual accounting for OPEB whereby the expected costs of providing those benefits are charged to operations as employees render services. Accordingly, the costs of OPEB are actuarially determined for accounting purposes based on assumptions that reflect management's best estimates of the effect of future events on the actuarial present value of the accrued benefits. The transition obligation arising on conversion to accrual accounting was charged to retained earnings on January 1, 1997 (see note 16). In 1998, the Corporation changed the discount rate used to measure the OPEB obligation from a long-term average rate to a current market settlement rate. The transition amount resulting from this change was charged to the deficit in 1998 (see note 16).

#### j) Research and development

Research and development (R&D) costs related directly to the design or construction of a specific fixed asset are capitalized as part of the cost of the asset. R&D costs incurred to discharge long-term obligations, and for which specific provision has already been made, are charged to the related provision. All other R&D costs are charged to operations in the year incurred.

#### k) Applications software and the Year 2000 expenditures

Ontario Hydro capitalizes major applications software acquisition costs when future benefit is reasonably assured. Expenditures incurred to address the Year 2000 Issue are charged to operations as incurred, unless existing assets are replaced with new versions or completely new systems. In this case, the expenditures are capitalized consistent with the accounting for any acquisition project.

### 3. SECONDARY POWER AND ENERGY

Secondary power and energy revenues include $10 million for the three months ended March 31, 1999 (1998: $111 million, 1997: $158 million) from sales of electricity to United States utilities.

### 4. PROVINCIAL GOVERNMENT LEVIES

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31, 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Provincial water rentals | **30** | 119 | 121 |
| Provincial debt guarantee fee | **39** | 155 | 156 |
| | **69** | 274 | 277 |

Provincial water rentals are paid to the Province for the use of water for hydroelectric generation. The debt guarantee fee, equal to one half of one percent on the total debt guaranteed by the Province outstanding as of the preceding December 31, is a legislated payment made by Ontario Hydro to the Province.

### 5. DEPRECIATION AND AMORTIZATION

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31, 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Depreciation of fixed assets in service | **398** | 1,447 | 1,438 |
| Fixed asset removal costs | **4** | 65 | 140 |
| | **402** | 1,512 | 1,578 |

## 6. FINANCING CHARGES

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31, 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Interest on bonds, notes and other debt: | | | |
| Long-term | **611** | 2,603 | 2,778 |
| Short-term | **34** | 155 | 114 |
| Interest on accrued fixed asset removal and used nuclear fuel disposal costs | **45** | 160 | 164 |
| | **690** | 2,918 | 3,056 |
| **LESS:** | | | |
| Interest charged to: | | | |
| Construction in progress | **7** | 39 | 51 |
| Fuel for electric generation | **–** | – | 1 |
| Interest earned on investments | **14** | 33 | 33 |
| | **21** | 72 | 85 |
| Interest charged to operations | **669** | 2,846 | 2,971 |
| Foreign exchange | **18** | 30 | 118 |
| | **687** | 2,876 | 3,089 |

## 7. CORPORATE WRITE-OFFS

| *(millions of dollars)* | YEAR ENDED DECEMBER 31 1997 |
|---|---|
| Nuclear recovery | 4,595 |
| Other future expenditures | 1,495 |
| Staff reduction and employee relocation costs | 238 |
| Bruce Nuclear Generating Station A | 170 |
| Surplus buildings and equipment and associated business exit costs | 82 |
| | 6,580 |

There were no corporate write-offs during the three months ended March 31, 1999, and year ended December 31, 1998. In 1997, the Board of Directors of Ontario Hydro approved a number of charges and write-offs to operations, totalling $6,580 million, to 1997 operations. Two of these charges were for future costs expected to be incurred over the 1998 to 2001 period, which, under GAAP for enterprises operating in a non-rate-regulated environment, would be expensed as incurred. Accordingly, these charges required use of the Board's rate-setting authority, to establish a provision for future costs. The first such charge was for additional future costs associated with improving nuclear performance, specifically the Nuclear Asset Optimization Plan (NAOP) and other related costs such as replacement energy and interest. While Ontario Hydro expects to incur additional costs of $4,895 million for the improvement of nuclear performance, the charge to 1997 operations was $4,595 million, before using a $300 million provision made in a previous year for planned nuclear recovery expenditures. The second charge, of $1,495 million, was for additional future costs associated with transmission and distribution assets, nuclear decommissioning and used fuel disposal provisions.

The remaining $490 million in charges to 1997 operations did not require use of the Board's rate-setting authority and related to the following:

• A charge of $238 million to cover the costs associated with a targeted reduction of 850 staff, including those expected to become surplus to Corporate needs before the end of 1998, and costs associated with the large-scale staff relocations required under the NAOP.
• A write-off of $170 million in capital project expenditures associated with the three units of Bruce Nuclear Generating Station A that were laid-up in 1998. Management's assessment was that the related capital projects would have no future benefit due to the lengthy duration of the lay-up.
• A write-off of $82 million associated with certain buildings and equipment identified as surplus due to Hydro's transition towards a more competitive environment and to reflect the wind-up of several small ancillary business ventures.

The following table shows the extent to which the provision for future costs was used in 1998 and the three months ended March 31, 1999.

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31 1999 | YEAR ENDED DECEMBER 31 1998 |
|---|---|---|
| Opening balance | **4,904** | 6,390 |
| Charges | | |
| Operation, maintenance and administration | **144** | 589 |
| Fuel used for electric generation | **167** | 690 |
| Power purchased | **27** | 78 |
| Depreciation and amortization | **16** | 83 |
| Financing charges | **25** | 46 |
| | **379** | 1,486 |
| **CLOSING BALANCE** | **4,525** | 4,904 |

## 8. FIXED ASSETS

| *(millions of dollars)* | AS AT MARCH 31 1999 | | AS AT DECEMBER 31 1998 | | 1997 | |
|---|---|---|---|---|---|---|
| | Cost | Accumulated Depreciation | Cost | Accumulated Depreciation | Cost | Accumulated Depreciation |
| Generating stations | | | | | | |
| Hydroelectric | **2,755** | **901** | 2,755 | 881 | 2,723 | 898 |
| Fossil | **5,462** | **2,896** | 5,457 | 2,854 | 5,377 | 2,658 |
| Nuclear | **24,868** | **6,984** | 24,850 | 6,792 | 24,591 | 6,082 |
| Heavy water | **3,946** | **986** | 3,946 | 961 | 3,946 | 863 |
| Transmission and distribution facilities | **11,493** | **3,674** | 11,525 | 3,615 | 11,252 | 3,094 |
| Administration and service facilities | **1,917** | **1,032** | 1,914 | 1,055 | 1,789 | 1,339 |
| **FIXED ASSETS IN SERVICE** | **50,441** | **16,473** | 50,447 | 16,158 | 49,678 | 14,934 |

### Nuclear steam generator rehabilitation costs

Ontario Hydro has undertaken a major program to rehabilitate steam generators at the Pickering A and B Nuclear Generating Stations. The costs of the program, which will continue until 2001, are being deferred and amortized over the remaining service lives of the individual generators commencing as each generator is returned to service.

The deferred nuclear steam generator rehabilitation amounts included in fixed assets, construction in progress and accumulated depreciation are detailed as follows:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Fixed assets | **152** | 152 | 116 |
| Less: accumulated depreciation | **23** | 19 | 14 |
| | **129** | 133 | 102 |
| Construction in progress | **–** | – | 24 |
| | **129** | 133 | 126 |

## 9. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of investments in money market instruments (temporary investments with original maturities of less than three months), and outstanding cheques (bank indebtedness). Cash and cash equivalents included in the cash flow statement comprise the following balance sheet amounts:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Temporary investments | **245** | 225 | – |
| Bank indebtedness | **(10)** | (60) | (37) |
| | **235** | 165 | (37) |

## 10. FUEL FOR ELECTRIC GENERATION

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| **INVENTORIES** | | | |
| Uranium | **154** | 151 | 161 |
| Coal | **187** | 261 | 188 |
| Oil | **33** | 44 | 18 |
| | **374** | 456 | 367 |

## 11. LONG-TERM DEBT

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Bonds and notes payable | **27,735** | 28,291 | 28,188 |
| Capital lease obligations | **31** | 33 | 33 |
| | **27,766** | 28,324 | 28,221 |
| Less: Payable within one year | **1,572** | 2,468 | 3,301 |
| | **26,194** | 25,856 | 24,920 |

Bonds and notes payable, are summarized by years of maturity in the following table:

| *(millions of dollars)* | AS AT MARCH 31 1999 | | | | AS AT DECEMBER 31 1998 | | | | 1997 | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Principal Outstanding | | | Weighted Average Interest Rate | Principal Outstanding | | | Weighted Average Interest Rate | Principal Outstanding | Weighted Average Interest Rate |
| | CDN | FOREIGN | TOTAL | PERCENT | CDN | FOREIGN | TOTAL | PERCENT | TOTAL | PERCENT |
| **YEARS OF MATURITY** | | | | | | | | | | |
| | | | | | | | | | 3,297 | |
| 1 year | **1,150** | **419** | **1,569** | | 2,050 | 415 | 2,465 | | 2,504 | |
| 2 years | **2,077** | **153** | **2,230** | | 1,551 | – | 1,551 | | 1,552 | |
| 3 years | **2,000** | **755** | **2,755** | | 1,525 | 932 | 2,457 | | 2,426 | |
| 4 years | **3,097** | **–** | **3,097** | | 4,448 | – | 4,448 | | 4,447 | |
| 5 years | **1,148** | **64** | **1,212** | | 1,398 | – | 1,398 | | – | |
| **SUBTOTAL** | **9,472** | **1,391** | **10,863** | **9.2** | 10,972 | 1,347 | 12,319 | 9.1 | 14,226 | 8.9 |
| 6 – 10 years | **5,198** | **1,132** | **6,330** | **7.0** | 4,198 | 1,216 | 5,414 | 7.2 | 2,363 | 8.5 |
| 11 – 15 years | **2,164** | **1,132** | **3,296** | **9.9** | 2,164 | 1,148 | 3,312 | 9.9 | 3,219 | 10.6 |
| 16 – 20 years | **648** | **–** | **648** | **10.0** | 648 | – | 648 | 10.0 | 1,997 | 8.9 |
| 21 – 25 years | **3,633** | **–** | **3,633** | **10.0** | 3,633 | – | 3,633 | 10.0 | 2,675 | 10.3 |
| 26 years and over | **2,965** | **–** | **2,965** | **8.9** | 2,965 | – | 2,965 | 8.9 | 3,708 | 9.1 |
| | **24,080** | **3,655** | **27,735** | **8.9** | 24,580 | 3,711 | 28,291 | 8.9 | 28,188 | 9.3 |

The weighted average interest rate represents the effective rate of interest on fixed-rate bonds and notes and the current interest rate in effect at March 31, 1999, for floating-rate bonds and notes, all before considering the effect of derivative financial instruments used to manage interest rate risk. Bonds and notes payable are either held, or guaranteed as to principal and interest, by the Province.

Bonds and notes payable include:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| **BONDS AND NOTES PAYABLE** | | | |
| Ontario Hydro bonds [1] | | | |
| Canadian | **1,500** | 500 | – |
| US | **–** | – | 193 |
| Callable bonds [2] | | | |
| Canadian | **2,765** | 2,765 | 3,116 |
| US | **–** | – | 253 |
| Weighted average coupon rates | **11.5%** | 11.7% | 11.4% |

[1] These are held by the Province having terms identical with those of the Province of Ontario issues sold on behalf of Ontario Hydro.
[2] Bonds callable by Ontario Hydro are at fixed prices on dates before their stated maturities, which are over the period 2002 to 2012. These bonds are callable at a weighted average call price equal to 100% of the bond's principal amounts callable on specific dates within the period 1999 to 2005.

As described in note 12, Ontario Hydro has used various derivative financial instruments to hedge the foreign exchange exposure related to long-term debt denominated in foreign currencies and to manage the interest rate risk associated with its outstanding long-term debt.

### 12. DERIVATIVE FINANCIAL INSTRUMENTS

Ontario Hydro has used a variety of derivative financial instruments to manage foreign exchange and interest rate risk. The table below summarizes outstanding positions in foreign exchange derivative financial instruments:

| *(millions of stated currency)* | MARCH 31 1999 | | | DECEMBER 31 1998 | | | 1997 |
|---|---|---|---|---|---|---|---|
| | Maturing within 12 months | Maturing beyond 12 months | Total | Maturing within 12 months | Maturing beyond 12 months | Total | Notional Principal Outstanding |
| **FORWARD EXCHANGE CONTRACTS** | | | | | | | |
| Purchased forward | – | – | – | US $95 | – | US $95 | US $1,242 |
| | CHF 7 | – | CHF 7 | CHF 10 | – | CHF 10 | CHF 11 |
| Sold forward | – | – | – | US $51 | – | US $51 | US $55 |
| **CROSS-CURRENCY SWAP CONTRACTS** | | | | | | | |
| Ontario Hydro receives: | | | | | | | |
| United States dollar | US **$202** | US **$105** | US **$307** | US $202 | US $105 | US $307 | US $307 |
| Swiss franc | – | CHF **150** | CHF **150** | – | CHF 150 | CHF 150 | CHF 150 |
| Japanese yen | – | ¥ **5,000** | ¥ **5,000** | – | ¥ 5,000 | ¥ 5,000 | ¥ 5,000 |
| New Zealand dollar | – | – | – | – | – | – | NZ $100 |
| Australian dollar [1] | AU **$568** | – | AU **$568** | AU $568 | – | AU $568 | AU $568 |
| Canadian dollar | – | CDN **$423** | CDN **$423** | | CDN $423 | CDN $423 | CDN $423 |
| **ONTARIO HYDRO PAYS:** | | | | | | | |
| United States dollar | US **$441** | US **$363** | US **$804** | US $441 | US $363 | US $804 | US $873 |
| Australian dollar [1] | AU **$260** | – | AU **$260** | AU $260 | – | AU $260 | AU $260 |
| Canadian dollar | – | CDN **$279** | CDN **$279** | – | CDN $279 | CDN $279 | CDN $280 |

[1] Periodic swaps denominated in Japanese yen.

**FORWARD EXCHANGE CONTRACTS.** Ontario Hydro has entered into forward exchange contracts to hedge against the impact of a potential decline in the value of the Canadian dollar in 1999, and to manage the foreign exchange risk associated with its long-term debt. Forward exchange contracts have also been entered into to hedge firm commitments for future purchases and sales denominated in a foreign currency.

**CROSS CURRENCY SWAP CONTRACTS.** Ontario Hydro has entered into cross currency swap contracts to effectively convert principal and interest payments on selected debt issues into Canadian or United States dollars.

The following table summarizes the currencies in which Ontario Hydro's long-term debt, bank indebtedness and short-term notes are payable, before and after giving effect to Ontario Hydro's foreign exchange risk management activities related to debt:

| *(millions of dollars)* | MARCH 31 1999 | | DECEMBER 31 1998 | | 1997 | |
|---|---|---|---|---|---|---|
| | Principal Outstanding | | Principal Outstanding | | Principal Outstanding | |
| | Before Hedging | After Hedging | Before Hedging | After Hedging | Before Hedging | After Hedging |
| Canadian dollars | **26,311** | **26,147** | 26,941 | 26,786 | 26,691 | 26,817 |
| United States dollars | **3,704** | **4,380** | 3,756 | 4,435 | 3,865 | 4,311 |
| Australian dollars [1] | **295** | **–** | 289 | – | 287 | – |

| Ontario Hydro receives fixed | **CDN $765** | **CDN $1,648** | **CDN $2,413** | CDN $765 | CDN $1,648 | CDN $2,413 | CDN $3,591 |
| | **US $323** | **US $403** | **US $726** | US $323 | US $403 | US $726 | US $826 |
| Ontario Hydro pays fixed | **CDN $726** | **CDN $2,433** | **CDN $3,159** | CDN $2,576 | CDN $2,487 | CDN $5,063 | CDN $7,215 |
| | **US $466** | **US $613** | **US $1,079** | US $466 | US $613 | US $1,079 | US $1,893 |
| **FORWARD RATE AGREEMENTS** | | | | | | | |
| Ontario Hydro pays forward rate | **–** | **–** | **–** | – | – | – | CDN $450 |
| | **–** | **–** | **–** | US $175 | – | US $175 | US $850 |
| **BOND OPTIONS PURCHASED** | **–** | **–** | **–** | – | – | – | CDN $150 |
| | **–** | **–** | **–** | – | – | – | US $105 |
| Forward bond purchases | **–** | **–** | **–** | CDN $160 | – | CDN $160 | – |

**SWAPTION CONTRACTS.** In 1993, Ontario Hydro converted future potential interest savings, related to call options embedded in certain of its bonds to cash by selling offsetting swaption contracts. These contracts permit holders to require Ontario Hydro to enter into interest rate swaps commencing on the call date. If exercised, the swaptions result in Ontario Hydro making payments based on a fixed interest rate equal to the related bonds' coupon rates, and receiving floating rate payments.

United States dollar-denominated swaptions may be cash settled on their exercise dates. Premiums received from the sale of these contracts are being amortized to income, as a reduction of interest expense, over the remaining terms of the related bond issues.

**INTEREST RATE SWAP CONTRACTS.** As at March 31, 1999, the outstanding receive-fixed interest rate swap contracts have effectively converted fixed interest rates on long-term debt to floating interest rates. These contracts have maturity dates over the period 1999 to 2026 (1998: 1999 to 2026; 1997: 1998 to 2026). The outstanding pay-fixed interest rate swap contracts have effectively converted floating interest rates on outstanding debt into fixed interest rates. These contracts have maturity dates over the period 1999 to 2027 (1998: 1999 to 2027; 1997: 1998 to 2027).

**FORWARD RATE AGREEMENTS.** Prior to 1999, Ontario Hydro had entered into forward rate agreements to manage its exposure to short-term interest rates.

**BOND OPTIONS.** Prior to 1999, Ontario Hydro had purchased options to buy long-term government bonds to mitigate the adverse impact of a potential decline in long-term interest rates on its fixed-rate debt.

**FORWARD BOND PURCHASES.** Prior to 1999, Ontario Hydro had entered into forward purchase contracts for Government of Canada bonds to manage its exposure to short-term interest rates.

The following table summarizes the total amount of long-term debt, short-term notes and bank indebtedness maturing or subject to interest rate resetting within one year and after one year, before and after giving effect to Ontario Hydro's interest rate risk management activities:

*(millions of dollars)*

| | AS AT MARCH 31, 1999 | | | |
|---|---|---|---|---|
| | Before interest rate risk management activities | Weighted average interest rate (percent) | After interest rate risk management activities | Weighted average interest rate (percent) |
| **MATURES OR REPRICES:** | | | | |
| Within one year | **4,334** | **6.2** | **3,232** | **6.3** |
| After one year | **26,193** | **9.1** | **27,295** | **9.3** |
| | **30,527** | **8.7** | **30,527** | **8.9** |

*(millions of dollars)*

| | AS AT DECEMBER 31, 1998 | | | |

| Cross currency swap contracts | 197 | 131 | 224 | 193 | 188 | 129 |
| Interest rate swap contracts | 98 | 458 | 94 | 503 | 111 | 428 |
| Forward rate agreements | – | – | – | 1 | – | 1 |

1 Period-end and year-end quoted market prices for specific or similar instruments are used to estimate the fair value of each class of financial instrument for which it is practical to estimate that value. For over-the-counter derivative financial instruments, the fair value is determined using pricing models that take into account the current value of the underlying instruments, the time value of money, and mid-market yield curve and volatility factors. The carrying values of cash, temporary investments, accounts receivable, bank indebtedness, short-term notes payable and accounts payable and accrued charges approximate fair value because of the short maturity of those instruments.

### Credit risk

Financial assets expose Ontario Hydro to credit risk and concentration of credit risk. As at March 31, 1999, there were no significant concentrations of credit risk with respect to any class of financial assets. Derivative financial instruments expose Ontario Hydro to credit risk, since there is a risk of counter party default. This risk is limited to the cost of replacing contracts in which Ontario Hydro has an unrealized gain.

Credit risk is monitored and minimized by dealing only with a diverse group of highly rated counter parties. In addition, as a means of further reducing its credit exposure on derivative financial instruments, Ontario Hydro enters into master netting agreements with its counter parties to enable it to settle derivative financial

assets and liabilities with the counter party on a net basis in the event that the counter party defaults. The existence of these master netting agreements had the effect of reducing Ontario Hydro's current credit risk exposure on derivative financial assets from $437 million to $86 million as at March 31, 1999 (1998: from $374 million to $152 million; 1997: from $349 million to $142 million).

## 14. ACCRUED FIXED ASSET REMOVAL AND USED NUCLEAR FUEL DISPOSAL COSTS

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| **ACCRUED FIXED ASSET REMOVAL COSTS** | | | |
| Accrued decommissioning costs | **1,059** | 1,042 | 962 |
| Accrued fuel channel removal costs | **699** | 674 | 616 |
| | **1,758** | 1,716 | 1,578 |
| **ACCRUED USED NUCLEAR FUEL DISPOSAL COSTS** | **1,549** | 1,485 | 1,264 |
| | **3,307** | **3,201** | 2,842 |

### Accrued fixed asset removal costs

Accrued fixed asset removal costs are the costs of decommissioning nuclear and fossil generating stations and heavy water production facilities after the end of their service lives, and the costs of removing certain fuel channels and steam generators, which are expected to be replaced during the life of the nuclear reactors. The significant assumptions used in estimating future fixed asset removal costs are consistent with 1998:

• decommissioning of nuclear generating stations in the 2042 to 2071 period on a deferred dismantlement basis (dismantlement following storage with surveillance for a 30-year period after shutdown of the reactors), and an average transportation distance of 1,000 kilometres from nuclear generating facilities to disposal facilities;

• interest and cost escalation rates through to 2071 ranging from:

| | 1999 | 1998 | 1997 |
|---|---|---|---|
| Interest rates | **6% to 8%** | 6% to 8% | 6% to 9% |
| Cost escalation rates | **2% to 4%** | 2% to 4% | 2% to 5% |

• removal and replacement of certain fuel channels and steam generators in nuclear generating stations during the following periods :

| | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Bruce A Units 3 & 4 | **2001–2008** | 2006–2008 | 2005–2008 |
| Pickering B | **2008–2012** | 2009–2014 | 2013–2017 |
| Bruce B | **2010–2013** | 2011–2017 | 2015–2018 |
| Darlington | **2016-2019** | 2016-2022 | 2022-2024 |

• decommissioning of fossil generating stations in the 2006 to 2025 period.

The significant assumptions underlying the estimates of accrued fixed asset removal costs are subject to periodic review. These assumptions, as well as, the existing methods and technology used for decommissioning, fuel channel removal and replacement, and steam generator replacement are subject to change which could result in changes to these costs.

### Accrued used nuclear fuel disposal costs

The significant assumptions used in estimating the future used nuclear fuel disposal costs are consistent with 1998:

- an in-service date of the year 2025 for permanent disposal facilities;
- an average transportation distance of 1,000 kilometres from nuclear generating facilities to disposal facilities;
- interest and cost escalation rates through to 2071 ranging from:

| | 1999 | 1998 | 1997 |
|---|---|---|---|
| Interest rates | **6% to 8%** | 6% to 8% | 6% to 9% |
| Cost escalation rates | **2% to 4%** | 2% to 4% | 2% to 5% |

The significant assumptions underlying the estimates of accrued used nuclear fuel disposal costs are subject to periodic review. These assumptions, as well as the existing methods and technology used for used fuel disposal, are subject to change which could result in changes to these costs.

## 15. CONTINGENCIES & COMMITMENTS

### Uncertainty due to the Year 2000 Issue

The Year 2000 Issue arises because many computerized systems use two digits rather than four to identify a year. Date-sensitive systems may recognize the year 2000 as 1900 or some other date, resulting in errors when information using year 2000 dates is processed. In addition, similar problems may arise in 1999 in some systems which use the digits "99" in a date field to represent something other than a date. The effects of the Year 2000 Issue may be experienced before, on, or after January 1, 2000, and, if not addressed, the impact on operations and financial reporting may range from minor errors to significant systems failure which could affect an entity's ability to conduct normal business operations.

The Corporation is in the process of completing a significant program designed to upgrade or replace affected systems on which it and its customers depend, prior to the year 2000. However, it is not possible to be certain that all aspects of the Year 2000 Issue affecting Ontario Hydro, including those related to the efforts of customers, suppliers, or other third parties, will be fully resolved.

### Renewable Energy Technology Program Class Action

In 1997, a class action suit was commenced on behalf of all bidders in the renewable energy technology program based on allegations of misrepresentation and bad faith in requesting bids and carrying on discussions with bidders prior to cancellation of the project. The plaintiffs named Ontario Hydro, as well as, certain individual officers of Ontario Hydro as defendants. The plaintiffs seek declaratory relief and damages in the amount of $250 million for loss of income and profits, loss of opportunity, conversion of trade secrets, and exemplary, aggravated and punitive damages. A motion to certify the class was argued in November 1998 and in December the Court refused to certify the action. Subject to appeal rights, the action may now proceed as a claim by the named plaintiff, and the damages claimed would be reduced substantially. At this time, the outcome of this claim is not determinable, and as such, no provision has been accrued in Ontario Hydro's financial statements with respect to any amounts in dispute. However, Ontario Hydro believes it has no liability, and that the damages claimed are, in any event, excessive.

### Municipal electric utilities' lawsuit

On April 24, 1997, three municipal electric utilities (Applicants) issued a notice of application against Ontario Hydro for which they have since received certification as a class proceeding on behalf of all municipal electric

utilities in Ontario. No supporting affidavit materials have been served. The Applicants seek declarations that certain rates and pricing options offered by Ontario Hydro to corporations contravene the provisions of the PCA and that these rates and pricing options have improperly increased costs to the municipal electric utilities who purchase their power from Ontario Hydro. They also seek recovery of these increased costs in the amount of $145 million. They further seek a declaration that Ontario Hydro has improperly diverted, from revenues derived from the sale of power to municipal electric utilities, monies, of an indeterminate amount, which should have been used to reduce the cost of power being supplied to these municipal electric utilities. They are also seeking declarations that Ontario Hydro has breached legislative provisions prescribing the operation of the Reserve for Stabilization of Rates and Contingencies and the equity account, and an order requiring Ontario Hydro to replenish the equity account in the amount of $5.0 billion. Ontario Hydro has denied the allegations, and believes that it has valid and meritorious defences against such allegations and will, in due course, file responding materials. At this time, the outcome of these claims is not determinable.

### Bruce Nuclear Generating Station A

As a result of the NAOP, Ontario Hydro laid up the three operating units at Bruce Nuclear Generating Station A over the Spring of 1998. Consistent with the phased recovery approach adopted for NAOP, these three units plus Bruce A Unit 2, which was shut down in 1995, are currently planned to be returned to service within the period 2003 to 2009.

In the event that a future decision is made not to return the four Bruce A units to service, a loss would have to be recognized. The current estimate of such a loss is about $1,050 million, which takes into account the undepreciated book value of the generating and heavy water assets, the carrying value of remaining construction in progress amounts, and the impact of recognizing unaccrued net fixed asset removal provisions.

### Power Purchase Agreements

Ontario Hydro has committed to the purchase of a portion of its electricity requirements, pursuant to long-term contractual Power Purchase Agreements (PPAs), with various power producers.

The PPAs expire on various dates from 1999 to 2048. Other details are:

| | AS AT MARCH 31 | AS AT DECEMBER 31 | |
|---|---|---|---|
| | 1999 | 1998 | 1997 |
| In-service capacity *(megawatts)* | **1,670** | 1,864 | 1,584 |
| Net present value of purchase obligations over 20 years *(millions of dollars)* | **6,689** | 6,910 | 6,203 |

Estimated annual payments for purchase obligations range from $755 million to $865 million over the next five years.

Deliveries in the aggregate for the first three months of 1999 account for approximately 8.0% of Ontario Hydro's total electric energy requirements (1998: 7.6%; 1997: 7.2%). The amount of energy received and the total payments made under these agreements are:

| | THREE MONTHS ENDED MARCH 31 | YEAR ENDED DECEMBER 31 | |
|---|---|---|---|
| | 1999 | 1998 | 1997 |
| Gigawatthours received | **3,043** | 11,108 | 10,366 |
| Power purchases *(millions of dollars)* | **217** | 680 | 642 |

Ontario Hydro has issued a Request for Expressions of Interest for the financial restructuring of its power purchase contracts with independent power producers in Ontario.

### Loan guarantees

Ontario Hydro is contingently liable under guarantees given to third-party lenders who have provided long-term financing to certain independent power producers. These guarantees total approximately $157 million as at March 31, 1999 (1998: $160 million, 1997: $171 million).

### Fuel used for electric generation

Ontario Hydro has entered into firm fuel supply agreements, some of which extend beyond 2000. The future obligation as at March 31, 1999, under these agreements for the remainder of 1999 is estimated to be $504 million. Beyond 1999, the estimated amount is $228 million (1998: $639 million).

## 16. (DEFICIT) RETAINED EARNINGS

On January 1, 1997, the opening retained earnings balance of $2,552 million was reduced by $763 million as a result of charging the transition obligation associated with the change in accounting for other post-employment benefits (see note 2i). The change was introduced as a first step to the early implementation of accounting recommendations from the Canadian Institute of Chartered Accountants (CICA), effective January 1, 2000. The future OPEB obligation was discounted using a long-term average rate, consistent with the rate used to determine pension costs and obligations.

In 1998, the CICA approved new recommendations on accounting for employees' future benefits. To complete the implementation of the new accounting recommendations, the Corporation changed the discount rate used to measure the OPEB obligation from a long-term average rate to a current market settlement rate. As a result, a transition amount of $460 million was charged to the deficit in 1998.

## 17. CONSOLIDATED STATEMENT OF CASH FLOWS

The changes in non-cash balances related to operations consisted of the following:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Accounts receivable – decrease (increase) | **7** | (9) | (22) |
| Fuel for electric generation, materials and supplies – decrease (increase) | **99** | (126) | (10) |
| Accounts payable and accrued charges – increase | **47** | 68 | 200 |
| Accrued interest – increase (decrease) | **57** | (38) | (47) |
| Long-term accounts payable and accrued charges – increase (decrease) | **24** | 202 | (237) |
| | **234** | 97 | (116) |
| Interest paid | **606** | 2,772 | 2,903 |
| Interest received | **9** | 29 | 14 |

## 18. BENEFIT PLANS

### Pension plan

Effective November 7, 1998, certain sections of the *Energy Competition Act, 1998,* came into force whereby Ontario Hydro and its successor entities were allowed to adopt funding practices that are more consistent with Canadian business practices. The Plan has a substantial surplus. As agreed in the Union negotiation processes,

Ontario Hydro ceased remitting employer contributions effective April 1, 1998. Also, commencing November 7, 1998, the direct costs of investment management and administration of the Plan have been absorbed as a cost of the Plan. Information about Ontario Hydro's pension plan is as follows:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Pension costs | **7** | 23 | 116 |
| Pension costs charged to operations | **7** | 18 | 93 |
| Pension costs capitalized as part of fixed assets | **–** | 5 | 23 |
| Pension fund assets at fair market value | **10,853** | 10,816 | 10,173 |
| Accrued pension benefits at actuarial present value | **9,830** | 9,707 | 6,455 |
| Plan surplus for accounting purposes | **1,023** | 1,109 | 3,718 |
| Deferred pension asset | **972** | 979 | 112 |
| Expected return on plan assets | **7.25%** | 9% | 9% |
| Rate used to discount future pension benefits | **6%** | 6% | 8.25% |
| Salary schedule escalation rate | **3.5%** | 3.5% | 3.5% |
| Rate of cost of living increases to pensions | **2.5%** | 2.5% | 1.88% |
| Average remaining service life for employee *(years)* | **12** | 12 | 14 |

The actuarial present value of the accrued pension benefits was based on a projection of the valuation at December 31, 1997. Estimated accrued pension benefits increased dramatically in 1998 as a result of an accounting change. The Canadian Institute of Chartered Accountants has recommended that the rate used for discounting future pension benefits should be based on the current market interest rate. Previously, Ontario Hydro used its best estimate as to the long-term average interest rate of corporate bonds for this computation.

The deferred pension asset of $972 million as at March 31, 1999 (1998: $979 million, 1997: $112 million), represents the cumulative difference between funding contributions and pension costs. The $7 million decline to March 31, 1999, is the pension cost charged to operations. The $887 million increase to the deferred pension asset in 1998 results from recognizing the access to the pension fund surplus. Ontario Hydro also recognized a corresponding credit to the 1998 operating statement.

The $51 million difference as at March 31, 1999 (1998: $130 million), between the $1,023 million pension fund surplus and the $972 million deferred pension asset represents experience gains and losses, which will be amortized over the average remaining service period of employees.

The Ontario Electricity Pension Services Corporation was established effective April 1, 1999, to assume transitional responsibility, as an agent for OEFC, for administering the pension benefits and investing pension assets on behalf of the successor entities of Ontario Hydro.

### Group life insurance, health care plans, and other post-employment benefits

Ontario Hydro's costs are detailed as follows:

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Group life insurance premiums basic coverage | **1** | 5 | 4 |
| Health-care plan | **13** | 60 | 58 |
| Post-employment benefits | | | |
| Retiree group life insurance & health-care | **26** | 92 | 71 |
| Long-term disability | **10** | 32 | 17 |

Group life premiums for additional coverage, if requested, are remitted by the employee. In certain cases, retiree group life insurance and health care costs include payments for surviving spouses, as well as unmarried dependents. Long-term disability applies to qualifying employees in extended absence from work due to sickness or injury.

### 19. RESEARCH AND DEVELOPMENT

Research and development costs are detailed as follows:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Charged to operations | **18** | 58 | 80 |
| Capitalized | **–** | 3 | 2 |
| Charged to accrued provisions | **2** | 7 | 19 |
| | **20** | 68 | 101 |

### 20. FEDERAL ENVIRONMENTAL REVIEW PANEL

On March 13, 1998, a Federal Government Panel issued its report (known as the Seaborn Report) on Atomic Energy of Canada Limited's concept for nuclear waste disposal. On December 3, 1998, the Federal Government responded to the Panel's recommendations, concurring with the Panel's major recommendations that:

- the search for a specific disposal site not proceed at this time because broad public support has not been demonstrated;
- a separately incorporated waste management organization be formed by waste producers to manage used fuel;
- a segregated fund be established; and
- a study of alternatives for long-term disposal be commissioned.

The Federal Government has defined the parameters within which each of these recommendations will be implemented, and has charged Natural Resources Canada with initiating and reporting back on a consultative process with the appropriate stakeholders to develop options to meet the key objectives of :

- establishing a dedicated fund;
- specifying the reporting relationships between the government, the waste management organization and stakeholders; and
- establishing a federal review and approval mechanism to provide oversight and access to funds.

Note 14 outlines Ontario Hydro's estimation of future costs and timing of used nuclear fuel disposals.

### 21. SEGMENT INFORMATION

Ontario Hydro's reportable electricity segments are generation (Generation); transmission, distribution and other electricity services (Distribution); and all other activities (Other). The reportable segments are strategic business units that produce or deliver the same product to the customer. The production of the product is managed separately from the transmission and distribution of the product. The accounting policies followed by the segments are the same as those described in the summary of significant accounting policies (see note 2).

Ontario Hydro accounts for intersegment sales and transfers at cost. These segments are confirmed by the Government of Ontario through its passage of the *Energy Competition Act, 1998,* which establishes five successor entities as described in Note 1.

| Regular | **20,875** | 21,130 | 21,313 | 21,505 | 22,525 |
| Non-regular [9] | **2,089** | 2,438 | 1,873 | 1,573 | 2,082 |

1 Operation, maintenance and administration and fuel costs have been restated to exclude other revenues.
2 Long-term debt includes long-term debt payable within one year.
3 Interest coverage represents net income plus interest on bonds, notes, and other debt divided by interest on bonds, notes and other debt.
4 Debt ratio represents debt (bonds and notes payable, short-term notes payable, other post-employment benefits, other long-term debt, unamortized swaption premiums, accrued fixed asset removal and used nuclear fuel disposal costs and bank lines of credit less unamortized foreign exchange gains and losses) divided by debt plus equity.
5 Figures for 1998 are preliminary.
6 In-service capacity represents the net output power supplied by all generating units, net firm power purchase contracts and purchases from non-utility generators. Excluded are non-operating reserve facilities of: 1998 – 5,100 MW; 1997 – 4,516 MW; 1996 – 4,300 MW; 1995 – 5,043 MW; and 1994 – 4,297 MW.
7 Primary energy made available represents primary energy sales plus transmission losses and energy used for heavy water production and generation projects.
8 Average cost per kilowatt-hour represents the costs attributable to generation but excludes the costs related to transmission, distribution and corporate administrative activities. These figures reflect the historical accounting costs of operating facilities and the actual energy generated by these facilities during the year.
9 The majority of non-regular staff are construction trades persons.

# Corporate Governance Practices

Under the *Power Corporation Act (PCA)*, Ontario Hydro was governed by a Board of Directors consisting of up to 22 members. Included in this membership was the Deputy Minister of Energy, Science and Technology, a Director who did not vote at any meeting of the Board. The Chairman and Directors of the Board were appointed by the Lieutenant Governor in Council, and the President was appointed by the Board. The Board of Directors recommended to the Government of Ontario that it appoint either the Chairman or the President as the Chief Executive Officer. In 1998 and the first quarter of 1999, Ontario Hydro had a 12-member Board. Ten of the Corporation's 12 directors were independent of management. External Board members were provided the opportunity to meet in executive session with the Chairman, and the Chief Executive Officer, during each Board meeting, and to meet in executive session without the Chief Executive Officer and members of management several times during the year and/or as required.

As stipulated in the *PCA* [Section 4(1)], the Board supervised management who managed the affairs of the Corporation, and it was consequently involved in considering significant issues facing the Corporation. The Chairman of the Board and the Chairs of the Board Committees, in working with management, determined which matters were put before the Board.

The Hydro Board also recognized that it may supervise, direct or oversee the business and affairs of the Corporation, but that it should not manage them, at least not in a day-to-day sense. This kind of management was delegated to the CEO and other senior Hydro officers, who were accountable to, and reported back to, the Board from time to time and who operated within prescribed limits of authority.

The Board of Directors discharged its responsibilities directly and through committees. While there were 12 meetings of the Board of Directors in 1998 – including three site visits of Bruce, Pickering and Darlington nuclear generating facilities – and three Board meetings in the first quarter of 1999, the number of Committee meetings varied. The following is a brief description of the mandate of each Board Committee, its composition, and the number of meetings held in the past year.

### AUDIT/FINANCE COMMITTEE

The mandate of the Audit/Finance Committee was to advise the Board and to make recommendations for its consideration with respect to: the review of financial reporting matters, the system of internal accounting and financial controls and procedure, and the audit procedures and audit plans; the nomination, remuneration, function and performance of the external auditors; the form and content of the Corporation's annual financial statements, the annual report and any interim or ad hoc documents required by regulatory authorities; the review, on an annual basis, of the financial plans and objectives of the Corporation; the review of matters relating to the funding and investment of funds of the Corporation's pension plan; an annual review of the risks inherent in the Corporation's business and related risk-management programs; the Corporation's policies with respect to debt management, money market activities and the Corporation's banking resolutions; and the Corporation's policies with respect to debt management, foreign exchange management and corporate financial investments.

As defined in the *PCA*, the President and CEO was a member of the Committee for that section of the mandate related specifically to financial matters.

In carrying out its responsibilities, the Committee could meet with both the external and internal auditors, without the Chief Executive Officer and members of management present.

The Audit/Finance Committee met nine times during 1998, and three times in the first quarter of 1999.

### ENVIRONMENT & PUBLIC POLICY COMMITTEE

The mandate of the Environment and Public Policy Committee was to advise the Board and to make recommendations for its consideration with respect to the Corporation's strategic focus and direction on

matters relating to: health and safety; social obligations; relations with Aboriginal peoples; and sustainable development and the environment. Specifically, the Committee ensured that the Corporation's actions reflected the interests of governments, non-governmental organizations, the people of Ontario and the employees of Ontario Hydro.

The Environment and Public Policy Committee met five times during 1998.

### HUMAN RESOURCES & CORPORATE GOVERNANCE COMMITTEE

The mandate of the Human Resources & Corporate Governance Committee was to advise the Board and to make recommendations for its consideration with respect to: the strategic prospects and options for the future of Ontario's electric power industry in general, and Ontario Hydro specifically; the review of written objectives of the CEO and the provision of guidance for the development and placement, including promotion, of senior management; the annual review and assessment of the performances of the Chairman and the President & CEO; the annual review of organizational structure matters; the monitoring of the quality of the relationship between management and the Board; and the responsibility for Board governance of the Corporation, including the mandate to review the Board Committee structure and to undertake such other initiatives as required to ensure the Board has exemplary corporate governance.

The Human Resources & Corporate Governance Committee met nine times in 1998, and twice in the first quarter of 1999.

### NUCLEAR REVIEW COMMITTEE

The mandate of the Nuclear Review Committee was to advise the Board and make recommendations for its consideration with respect to the safe performance of the Corporation's nuclear operations and its effectiveness in achieving desired results. Specifically, the Committee ensured that Ontario Hydro's nuclear facilities were operated and maintained in a rigorous and vigilant manner to ensure that the radiological risk to workers, the public and the environment is acceptably low, and in keeping with the best practices in the international nuclear community.

The Nuclear Review Committee met 12 times during 1998, and twice in the first quarter of 1999.

# Message from the Chair and Chief Executive Officer

We are pleased to present the second Annual Report of the Ontario Electricity Financial Corporation (OEFC). The report describes the OEFC's objectives and responsibilities, operational highlights and financial results for the year ended March 31, 2001.

As outlined in the *Electricity Act, 1998,* the OEFC's mandate is to ensure that the outstanding debt and derivatives and certain assets and liabilities of the former Ontario Hydro are managed efficiently and prudently and are ultimately retired. The OEFC is also responsible for the administration of the OEFC Pension Plan until its assets and liabilities can be transferred to pension plans of the other successor entities. The Ontario Financing Authority (OFA), Ontario Electricity Pension Services Corporation (OEPSC) and Ministry of Finance provide the OEFC with the staff and expertise needed for its operations and to fulfill its mandate.

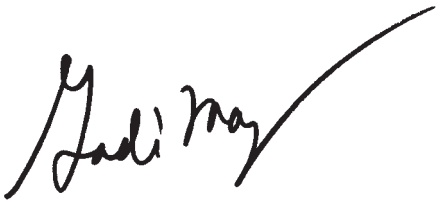
For the year ended March 31, 2001, revenues totalled $3,936 million, while expenses totalled $3,692 million. To meet its 2000-01 financing requirements, the Province raised $2,924 million in long-term debt. Total debt outstanding as of March 31, 2001 was $30.6 billion, down $0.8 billion from the previous fiscal year.

During the year, the OEFC retained a contract manager to manage the non-utility generator (NUGs) contracts. Significant progress was also made in renegotiating the 90 power purchase agreements (PPAs) with the NUGs, with the objective of facilitating their integration into the open market.

In April 2001, the government announced that it is committed to opening the electricity market to competition by May 2002, possibly earlier if the necessary conditions for competition are in place.

We are pleased with the operation of the OEFC and look forward to the challenges of the upcoming year.

Bob Christie
Chair



Gadi Mayman
Vice-Chair and Chief Executive Officer (Interim)

# Management's Discussion and Analysis

## Electricity Industry Financial Structure

The *Energy Competition Act, 1998*, set out the Government of Ontario's plan to restructure Ontario's electricity industry. The plan called for the restructuring of Ontario Hydro and the elimination of its long-standing monopoly on electricity production with the introduction of competition to Ontario's electricity sector.

A key component of this initiative was to introduce a new financial structure for the electricity sector. This structure was announced on April 1, 1999. At this time, Ontario Hydro ceased operations and its assets and liabilities were transferred to five successor corporations and their subsidiaries.

Two commercial companies, Hydro One Inc. (HOI) and Ontario Power Generation Inc. (OPG), together with their subsidiaries, received the majority of Ontario Hydro's assets and in return issued $17.1 billion of debt to the Ontario Electricity Financial Corporation (OEFC), the legal continuation of Ontario Hydro.

To ensure fairness, reliability and safety in the new electricity market, the Independent Electricity Market Operator (IMO) and the Electrical Safety Authority (ESA) were also established. The IMO issued $0.1 billion of debt to the OEFC in return for Ontario Hydro's central market operator and regulatory assets.

To achieve commercially viable capital structures, HOI and OPG entered into debt-for-equity swaps with the Province of Ontario. In exchange for $3.8 billion of equity in HOI and $5.1 billion of equity in OPG, the Province assumed $8.9 billion of the debt issued to the OEFC by the successor corporations. The Province is the sole shareholder of HOI and OPG.

## Role of the Ontario Electricity Financial Corporation (OEFC)

As the legal continuation of Ontario Hydro, the OEFC became responsible for ensuring the prudent and efficient management and retirement of $38.1 billion (as of April 1, 1999) in debt and other liabilities of the former Ontario Hydro. The OEFC, an agency of the Province, is a statutory, non-share capital corporation.

The OEFC's Board of Directors is responsible for supervising the OEFC's operations. As the OEFC does not have staff, it retains the Ontario Financing Authority (OFA) and the Ministry of Finance and established the Ontario Electricity Pension Services Corporation (OEPSC) to carry out its daily operations.

The OFA is an agency of the Province of Ontario responsible for provincial borrowing and debt management activities. The OFA manages the OEFC's debt and derivative portfolios, and provides cash management, accounting and other financial services and support to the corporation.

The OEFC relies on a stream of dedicated revenues from the electricity sector to service its outstanding debt obligations. The Ministry of Finance is responsible for the administration and collection of the payments-in-lieu of taxes and the Debt Retirement Charge (DRC), which becomes effective upon market opening, on behalf of the OEFC.

The OEFC is also the administrator of the former Ontario Hydro Pension and Insurance Plan (since renamed the Ontario Electricity Financial Corporation Pension Plan). The OEFC will remain as the administrator until the assets and liabilities of the pension plan are transferred to the pension plans of the four successor corporations. The OEPSC acts as the agent of the OEFC in the administration of the pension plan and management of the pension fund during the transition period.

The *Electricity Act, 1998* requires the OEFC to enter into an agreement with the four successor corporations providing for the division and transfer of the assets and liabilities of the OEFC Pension Plan to the pension plans of the successor corporations. The five companies signed an agreement in principle on January 19, 2001. The final agreement was submitted to the Superintendent of Financial Services, on March 29, 2001, and was subsequently approved on June 6, 2001.

## Stranded Debt and Residual Stranded Debt

At April 1st 1999, the OEFC assumed approximately $38.1 billion in total liabilities from the former Ontario Hydro. The OEFC received a total of $17.2 billion represented by notes owing to it from the Province, OPG, HOI, and the IMO. The difference of approximately $20.9 billion represents "stranded debt", which is defined under the *Act* as the amount of debt and other liabilities of the OEFC that cannot reasonably be serviced and retired in a competitive electricity market.

The *Electricity Act, 1998* requires that dedicated electricity revenues must be paid by the successor entities and municipal electric utilities (MEUs) to the OEFC to service stranded debt. As of April 1, 1999, the present value of these revenue streams was estimated at $13.1 billion, resulting in an estimated $7.8 billion of residual stranded debt. The *Electricity Act, 1998* also provides for a Debt Retirement Charge (DRC) to be paid to the OEFC to retire residual stranded debt.

The April 1, 1999 Unfunded Liability (the stranded debt from electricity sector restructuring to be recovered from ratepayers) of $19.4 billion of the OEFC is comprised of the liabilities of $38.1 billion (described above) less notes receivable above of $17.2 billion, less other loans receivable of $200 million, less other assets of $1.3 billion.

## Debt Repayment Plan

Pursuant to the *Electricity Act, 1998* and consistent with the principles of electricity sector restructuring, the government has established a long-term plan to retire debt from within the electricity sector. The $38.1 billion in obligations is being repaid from the following sources:

- *Notes receivable* from the Province, OPG, HOI and IMO;
- *Payments-in-lieu* (PILs) of corporate income, capital, and property taxes, made by OPG, HOI and municipal electric utilities (MEUs);
- *A Debt Retirement Charge (DRC),* to be paid by electricity consumers when the market opens to competition; and
- *Electricity Sector Dedicated Income.* Consistent with the government's commitment to keep electricity income in the electricity sector, the combined net incomes of OPG and HOI in excess of the Province's cost of its investment in its electricity subsidiaries is dedicated to the retirement of the OEFC's debt.

The government has committed to opening the electricity market by May 2002, but will work towards the earliest possible date for opening, if all of the necessary conditions are met. These conditions include: consumer protection and choice; a strong business climate with a reliable supply of safe, affordable electricity; environmental protection; and encouraging new ways of doing business and supporting the search for alternative sources of power.

## 2000-01 In Review

Highlights for the OEFC's second year of operation include:

- Completing long-term public borrowing of almost $3.0 billion;
- Cost-effective management of the debt and derivatives portfolios;
- Retention of an external manager to oversee the day-to-day administration and the sale of power acquired under the power purchase agreements with non-utility generators (NUGs);
- Ensuring the effective administration of the OEFC Pension Plan and Fund and finalizing an agreement on the division and transfer of the assets and liabilities of the OEFC Pension Plan to the pension plans of the four successor corporations to Ontario Hydro.

### Financing and Debt

Revenue in 2000-01 totalled $3,936 million, including $1,070 million of interest payments from HOI, OPG, IMO and the Province, $988 million from payments-in-lieu of tax, $408 million in electricity sector dedicated income, $695 million from power sales and $748 million from the revenue pool residual.

Expenses totalled $3,692 million, including $2,671 million in interest on the debt and nuclear funding liability, $146 million of amortization of deferred charges, $695 million for power purchases, $157 million for a debt guarantee fee and $23 million for operating costs.

As the OEFC does not have its own credit rating, the Province, through the OFA, borrows on the OEFC's behalf. In turn, the OEFC issues debt to the Province. To meet its 2000-01 financing requirements, the Province raised $2,924 million in long-term debt, while paying down short-term debt by $876 million and pre-borrowing $400 million for fiscal 2001-02. In 2000-01, the Province raised the majority of the OEFC's long-term financing in the Canadian dollar market.

As of March 31, 2001, total debt outstanding was $30.6 billion, decreasing by $0.8 billion from the previous fiscal year. This decrease is primarily due to principal repayments of notes receivable by HOI and OPG totalling $1,533 million.

With maturing debt and planned redemptions of $4.4 billion, along with a projected cash surplus of $0.8 billion in 2001-02, total financing requirements as of March 31, 2001 are projected at $3.6 billion. Total debt outstanding is projected to decrease to $29.4 billion at March 31, 2002.

The increase in Ontario Power Generation's (OPG) wholesale electricity rates, effective June 1, 2001, will improve OEFC's results in 2001-02 by increasing the OEFC's revenues from the revenue pool residual.

## Management of Power Purchase Contracts

In the late 1980s and early 1990s, the former Ontario Hydro entered into approximately 90 long-term power purchase agreements (PPAs) with non-utility generators (NUGs) located in Ontario. These PPAs, which expire on various dates until the year 2048, provide for the purchase of power at prices that are expected to exceed the market price. As the continuation of Ontario Hydro, the OEFC is now the purchaser under these contracts.

The OEFC purchases about 1700 megawatts (MW) under the PPAs, representing approximately six per cent of the generating capacity available to meet Ontario's energy requirements.

Currently, the power purchased by the OEFC from the NUGs is resold at cost to the revenue pool managed by OPG. After open access, the power will be sold in the market. The net present value of the liability of the above-market costs resulting from the difference between the purchase price and the selling price over the life of the contracts was estimated at $4.3 billion at April 1, 1999.

In 2000-01, the OEFC issued a Request for Proposals (RFP) to retain a contract manager to manage the NUG contracts. Enron Canada Corporation was selected as the successful respondent to the RFP.

The OEFC is currently in the process of negotiating revisions to the PPAs to facilitate the transition to an open market and to replace certain contract provisions that have become obsolete as a result of the electricity restructuring.

## OEFC Pension Plan

The OEFC is the administrator of the OEFC Pension Plan (formerly the Ontario Hydro Pension and Insurance Plan), including the pension fund.

The Ontario Electricity Pension Services Corporation (OEPSC) was established as a subsidiary of the OEFC to act as the OEFC's agent in the administration and day-to-day operations of the OEFC Pension Plan until the assets and liabilities can be transferred to the pension plans of the other Ontario Hydro successor corporations.

The *Electricity Act, 1998* provides for the transfer of assets and liabilities from the OEFC Pension Plan to the successor companies' pension plans in accordance with a transfer agreement to be entered into by the OEFC with the administrators of each successor company pension plan. The OEPSC is responsible for preparing the transfer agreement in accordance with the guidelines set out in the *Electricity Act, 1998* and under the supervision of the OEFC's pension committee and in consultation with the successor corporations. On June 6, 2001, the Superintendent of Financial Services consented in writing to the transfer of assets from the OEFC Pension Plan to the pension plans of the four successor corporations.

## Risk Management

The OEFC has a number of policies in place to address the financial risks to which it is exposed through its borrowing and debt management activities.

### Market Risk

The market risk policy provides a framework for the management of foreign exchange and interest rate risks to which the OEFC is exposed through the financing and debt management programs.

*Foreign Exchange Exposures:* The target for unhedged foreign currency exposure by the end of fiscal 2001-02 is five per cent of outstanding debt. When the OFA became responsible for the management of the OEFC's debt portfolio, total debt exposed to fluctuations in foreign currencies was 14.5 per cent. The OFA reduced the OEFC's exposure to 7.1 per cent as of March 31, 2001. The OFA will continue to reduce the level of exposure towards the five per cent target in a prudent manner.

*Floating Interest Rate Exposure:* The limit on the OEFC's floating interest rate exposure (net of liquid reserves) is 20 per cent of debt outstanding. Actual floating interest rate exposure was 5.7 per cent as of March 31, 2001.

*Debt Maturity Profile:* When issuing new debt, the OFA, on behalf of the OEFC, will aim for a smooth debt maturity profile to diversify the interest rate risk for the refinancing of maturing and floating rate debt. The maturity profile can be found in Note 8 to the Financial Statements.

### Credit Risk

Credit risk is the risk that a counterparty does not meet, or defaults, on its obligations. Credit risk arises when the OEFC undertakes financial and derivatives transactions. The minimum credit rating of a counterparty is A- and R1-mid for money market investments. However, for a new swap transaction the OEFC typically deals with AA- or better credit. The resulting exposure is capped at mark-to-market limits, depending on the counterparty's credit rating.

### Risk Management Reporting

At its regular quarterly meetings, the OEFC Board of Directors is kept informed of the OEFC's activities, positions and risk exposures through three types of reports:

- CEO's report;
- Exposure and performance report; and
- Exception report provided by the Director of Risk Control, OFA.

The CEO provides the Board of Directors with a progress report on the implementation of the financing and debt management plan, staffing and other administrative and operational matters. The CEO also reports on the OEFC's compliance with applicable government directives, and OFA Legal Counsel reports on compliance with applicable laws.

The Director of Risk Control, OFA, reports additional details on the OEFC's exposures and performance.

Exception reports are provided to the Board of Directors immediately when required.

OFA Management is kept informed of the OEFC's risk exposures and positions on a daily basis. The OEFC's Annual Financing and Debt Management Plan, which shows how the OFA will ensure that risk exposures and losses remain within the approved exposure and loss limits, is approved by the Board of Directors.

**Use of Financial Instruments and Derivatives**

New instruments can be used only after approval by the OEFC Board of Directors and if their use is authorized under the OEFC's by-laws, which are approved by the Minister of Finance. All instruments are used only to advance the OEFC's objective of managing the OEFC's debt and its financing and liquidity requirements in a prudent and cost-effective manner.

Derivatives and financial instruments can be used only if the OFA can price and value them and quantify their risks. Furthermore, risks that arise with the use of derivatives are identified, evaluated, reported, monitored and managed prudently.

# Corporate Governance and Board of Directors

Appointed by the Lieutenant Governor in Council, the Board of Directors is responsible for supervising the OEFC's operations, which are carried out by the Ontario Financing Authority, Ministry of Finance and Ontario Electricity Pension Services Corporation on a day-to-day basis. The Board of Directors meets at least quarterly.

The OEFC Audit Committee supports the Board of Directors with the review and recommendation for approval of the OEFC's financial statements. The Audit Committee also recommends the annual internal audit plan and reviews the findings of the internal auditors regarding the adequacy of internal controls.

The OEFC Pension Committee is a committee of the Board of Directors that makes decisions concerning the OEFC Pension Plan and oversees the activities of the OEPSC.

## Board of Directors

- **Bob Christie** — Chair and Deputy Minister of Finance.
- **Gadi Mayman** — CEO and Vice-Chair, CEO and Vice-Chair of the Ontario Financing Authority (Interim).
- **Bryne Purchase** — Deputy Minister, Energy, Science and Technology.
- **Brian FitzGerald** — Fellow of the Canadian Institute of Actuaries, Chair, OEFC Pension Committee.
- **Bruce Macnaughton** — Director, Pension and Income Security Policy Branch, Ministry of Finance.
- **Tom Sweeting** — Assistant Deputy Minister, Office of the Budget and Taxation, Ministry of Finance, Chair, OEFC Audit Committee.

# Responsibility for Financial Reporting

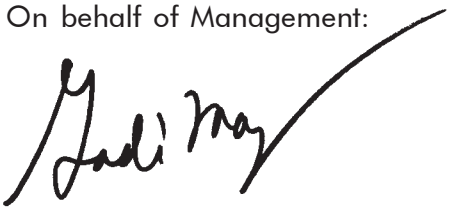
The accompanying financial statements of the Ontario Electricity Financial Corporation have been prepared in accordance with accounting principles generally accepted in Canada and are the responsibility of management. The preparation of financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to June 1, 2001.

Management maintains a system of internal controls designed to provide reasonable assurance that the assets are safeguarded and that reliable financial information is available on a timely basis. The system includes formal policies and procedures and an organizational structure that provides for appropriate delegation of authority and segregation of responsibilities. An internal audit function independently evaluates the effectiveness of these internal controls on an ongoing basis and reports its findings to management and the Audit Committee of the Board of Directors.

The Board of Directors, through the Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls. The Audit Committee meets periodically with management, the internal auditors and the external auditor to deal with issues raised by them and to review the financial statements before recommending approval by the Board of Directors.

The financial statements have been audited by the Provincial Auditor. The Provincial Auditor's responsibility is to express an opinion on whether the financial statements are fairly presented in accordance with generally accepted accounting principles. The Auditor's Report, which appears on the following page, outlines the scope of the Auditor's examination and his opinion.

On behalf of Management:



Gadi Mayman
Vice-Chair and
Chief Executive Officer (Interim)

***Auditor's Report***

To the Ontario Electricity Financial Corporation
and to the Minister of Finance

I have audited the consolidated balance sheet of the Ontario Electricity Financial Corporation as at March 31, 2001 and the consolidated statements of revenue, expense and unfunded liability and of cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2001 and the results of its operations and its cash flows for the year then ended, in accordance with Canadian generally accepted accounting principles.

Toronto, Ontario
June 1, 2001

Erik Peters, FCA
Provincial Auditor

# Notes to Financial Statements

## 1. Restructuring of the Ontario Electricity Industry

Effective April 1, 1999, pursuant to the *Electricity Act, 1998*, Ontario Hydro was continued as a corporation without share capital under the name Ontario Electricity Financial Corporation (OEFC). OEFC is a corporation established under the laws of Ontario. It is exempt from federal and provincial income taxes under paragraph 149(1)(d) of the Income Tax Act of Canada. OEFC is a Crown agency created to manage the debt and administer the assets, liabilities, rights and obligations of Ontario Hydro not transferred to other successor entities. These other successor entities include:

- Ontario Power Generation Inc. (OPG), an electricity generation company;
- Hydro One Inc. (HOI), a regulated electricity transmission and distribution business that operates certain energy service businesses in an unregulated, competitive environment;
- Independent Electricity Market Operator (IMO), the regulated centralized independent system co-ordinator responsible for directing system operations and operating the electricity market; and
- Electrical Safety Authority (ESA), which performs a regulatory function related to electrical inspections.

On April 1, 1999, the respective business units, including assets, liabilities, employees, rights and obligations of the former Ontario Hydro were transferred to OPG and HOI (and their subsidiaries) and the IMO for $8.5 billion, $8.6 billion and $78 million respectively in exchange for debt payable to OEFC. On the same day, the Province exchanged equity of $5,126 million and $3,759 million in OPG and HOI respectively for debt payable to OEFC.

OEFC debt, liabilities and associated financing costs will be repaid from interest on notes receivable from the Province and successor entities, and, as provided under the *Energy Competition Act, 1998*, from dedicated electricity revenues in the form of payments-in-lieu (PILs) of corporate income, capital and property taxes made by the successor entities and municipal electric utilities. Any residual debt will be serviced through a Debt Retirement Charge (DRC) to be paid by electricity consumers after open access. Until open access, OEFC will continue to be a party to a revenue-allocation agreement among successor entities and is entitled to the forecast residual amount in the revenue pool after allocations to OPG, HOI and the IMO are paid.

## 2. Summary of Significant Accounting Policies

Basis of Accounting

These financial statements are prepared in accordance with Canadian generally accepted accounting principles (GAAP) as recommended in the Handbook of the Canadian Institute of Chartered Accountants.

### Measurement Uncertainty

Uncertainty in the determination of the amount at which an item is recognized in the financial statements is known as measurement uncertainty. Such uncertainty exists when it is reasonably possible that there could be a material variance between the recognized amount and another reasonably possible amount, as there is whenever estimates are used. Measurement uncertainty in these financial statements exists in the estimated liability for power purchase agreements (see Note 9 for additional details). In addition, the amount of the nuclear funding liability is dependent on an agreement currently under negotiation between the Province and OPG. Estimates are based on the best information available at the time of preparation of the financial statements and will be adjusted annually to reflect new information as it becomes available.

### Consolidation

These financial statements include the accounts of OEFC's wholly owned subsidiary, Ontario Electricity Pension Services Corporation (see Note 3).

### Deferred Debt Costs

Deferred debt costs includes the unamortized amounts related to unrealized foreign exchange gains or losses resulting from the translation of long-term debt issued in foreign currencies and discounts or premiums arising from the issuance of debt or the acquisition of debt prior to maturity.

### Revenue Recognition

Revenues are recognized in the period in which they are earned. Amounts received prior to being earned are reflected as deferred revenues.

### Foreign Currency Translation

Debt is composed of short-, medium- and long-term bonds, notes and debentures. Debt denominated in foreign currencies that has been hedged is recorded at the Canadian dollar equivalent using the rates of exchange established by the terms of the hedge agreements. Other foreign currency debt, liabilities and assets are translated to Canadian dollars at period-end rates of exchange and any exchange gains or losses are deferred and amortized over the remaining term to maturity.

## 3. Ontario Electricity Pension Services Corporation

OEFC is the administrator of the Ontario Electricity Financial Corporation Pension Plan and Fund. It is responsible for negotiating an agreement with each of the successor corporations for the division and transfer of the assets and liabilities of the OEFC pension plan to the pension plans of the successor corporations. The Ontario Electricity Pension Services Corporation, (OEPSC), a wholly owned subsidiary of OEFC, acts as agent for OEFC to carry out the required administrative, investment and other responsibilities of the OEFC Pension Plan and Fund. Costs associated with the administration of the OEFC Pension Plan and Fund amounting to approximately $17 million in calendar 2000 (calendar 1999 - $17 million) are charged to and payable by the pension fund.

OEPSC has made application to the Superintendent of Financial Services for Ontario for approval to transfer all of the assets of the OEFC Pension Plan to the pension plans of the four successor operating entities. The Superintendent agreed to the transfer on June 6, 2001.

## 4. Economic Dependence

OEFC does not have its own credit rating and is, therefore, dependent on the Province to borrow and on-lend the funds required to refinance maturing debt and to cover any cash shortfalls in the Corporation. It is also dependent on the long-term plan to defease the unfunded liability described in Note 11. Based on the Province's support in refinancing maturing debt and the long-term plan, OEFC is considered a going concern.

## 5. Cash and Cash Equivalents

Cash and cash equivalents includes cash on deposit and highly liquid investments with maturities of less than three months. They are recorded at cost, which approximates current market value.

## 6. Electricity Sector Dedicated Income

The Province has committed to dedicate the combined net income of OPG and HOI in excess of the Province's cost of its investment in its electricity subsidiaries to OEFC. In the year ended March 31, 2001, OPG and HOI earned an aggregate amount of $928 million ($903 million for 2000) i.e., $408 million ($383 million for 2000) in excess of the Province's $520 million interest cost of the equity investments in those companies. The $408 million amount has been reflected as income in OEFC and as an increase in the receivable from the Province.

## 7. Notes and Loans Receivable

($ millions)

| | Interest rate | Interest payable | March 31, 2001 | Maturity date | March 31, 2000 |
|---|---|---|---|---|---|
| Province of Ontario | 5.85 | Monthly | $ 8,885 | 2039 - 2041 | $ 8,885 |
| OPG | 5.3 to 6.65 | Semi-annually | 3,300 | 2002 - 2011 | 3,400 |
| HOI | 5.4 to 14.3 | Semi-annually | 3,412 | 2001 - 2007 | 4,845 |
| IMO | 7.90 | Semi-annually | 78 | 2009 | 78 |
| | | | 15,675 | | 17,208 |
| Less: current portion of notes receivable | | | 640 | | 1,533 |
| | | | 15,035 | | 15,675 |
| Loans receivable from non-utility generators (NUGs) (See Note 9) | | | 244 | | 219 |
| | | | $ 15,279 | | $ 15,894 |

OEFC has agreed with OPG, HOI and IMO not to sell notes owing from these successor entities without their prior approval.

## 8. Debt

Debt at March 31, 2001 is set out below by maturity and by original currency of issue.

| ($ millions) Currency | Canadian Dollar | U.S. Dollar | Japanese Yen | 2001 Total | 2000 Total |
|---|---|---|---|---|---|
| Maturing before: | | | | | |
| March 31, 2001 | — | — | — | — | 5,672 |
| March 31, 2002 | 4,203 | 1,141 | — | 5,344 | 2,708 |
| March 31, 2003 | 2,548 | — | — | 2,548 | 2,848 |
| March 31, 2004 | 1,748 | — | 65 | 1,813 | 1,813 |
| March 31, 2005 | 2,700 | — | — | 2,700 | 2,000 |
| March 31, 2006 | 1,000 | — | — | 1,000 | — |
| 1-5 years | 12,199 | 1,141 | 65 | 13,405 | 15,041 |
| 6-10 years | 7,124 | 1,530 | — | 8,654 | 6,787 |
| 11-15 years | 648 | 1,183 | — | 1,831 | 2,876 |
| 16-20 years | 1,078 | — | — | 1,078 | 500 |
| 21-25 years | 3,558 | — | — | 3,558 | 3,133 |
| 26-50 years | 2,040 | — | — | 2,040 | 3,001 |
| Total | $ 26,647 | $ 3,854 | $ 65 | $ 30,566 | $ 31,338 |

The effective rate of interest on the debt portfolio is 7.85% before considering the effect of derivative instruments used to manage interest rate risk. As at March 31, 2001, $2.2 billion of the $3.9 billion foreign debt is hedged. Bonds and notes payable are either held, or guaranteed as to principal and interest, by the Province as set out below:

| | March 31, 2001 | | | March 31, 2000 | | |
|---|---|---|---|---|---|---|
| ($ millions) | Held by the Province | Guaranteed by the Province | Total | Held by the Province | Guaranteed by the Province | Total |
| Short-term debt | 2,570 | — | 2,570 | 3,446 | — | 3,446 |
| Current portion of long-term debt | 569 | 2,205 | 2,774 | 500 | 1,726 | 2,226 |
| Long-term debt | 8,056 | 17,166 | 25,222 | 5,701 | 19,965 | 25,666 |
| Total | $ 11,195 | $ 19,371 | $ 30,566 | $ 9,647 | $ 21,691 | $ 31,338 |

Fair value of debt issued approximates amounts at which debt instruments could be exchanged in a current transaction between willing parties. In valuing the OEFC's debt, fair value is estimated using discounted cash flows and other valuation techniques and is compared to public market quotations where available. These estimates are affected by the assumptions made concerning discount rates and the amount and timing of future cash flows.

The estimated fair value of OEFC debt at March 31, 2001 is $34.4 billion (March 31, 2000 - $35.4 billion). This is higher than the book value of $30.6 billion (March 31, 2000 - $31.3 billion) because current interest rates are generally lower than the interest rates at which the debt was issued and because of exchange rate movements. The fair value of debt does not reflect the effect of related derivative contracts.

## 9. Long-Term Liabilities

Power purchase contracts and related loan agreements were entered into by Ontario Hydro with non-utility generators (NUGs) located in Ontario. These contracts, expiring on various dates to 2048, provide for the purchase of power at prices that are expected to be in excess of the market price. This liability has been valued at $4,286 million on a discounted cash-flow basis. As the continued Ontario Hydro, OEFC is the counterparty to these contracts. Currently, the power purchased from NUGs is resold at cost to the power grid managed by OPG. However, after open access, this power will be sold at market prices that may be greater or less than cost.

During the year, OEFC purchased power in the amount of $695 million (March 31, 2000 - $741 million) and sold this power to the power grid for the same amount. HOI manages the NUG power purchase contracts and the related loans on behalf of OEFC for an annual fee of $3 million (March 31, 2000 - $3 million), partially offset by a recovery of $2 million (March 31, 2000 - Nil) of transmission expansion costs originally paid by Ontario Hydro, which net cost is included in operating expense. Loans to NUGs increased during the year by $25 million to $244 million at March 31, 2001 (March 31, 2000 - $219 million), primarily due to interest revenue during the year which has been added to the principal balance.

Nuclear funding liability - OEFC as the continued Ontario Hydro received a liability in the amount of $2,378 million representing nuclear waste management and asset removal liabilities that were incurred prior to April 1, 1999. Interest has been accrued at an estimated 5.75 per cent and is included in the total value of $2,659 million as at March 31, 2001 (March 31, 2000 - $2,515 million). The interest rate is still under negotiation with the Province and is subject to change. The impact of the finalization of the interest rate for the fiscal year is not expected to result in a material difference to the liability balance.

## 10. Revenue Pool Residual

As explained in Note 1, OEFC is the beneficial owner of the forecast residual of the revenue pool, managed by OPG, which collects revenues from electricity consumers and allocates revenues to OPG, Hydro One and the IMO. The forecast residual of the revenue pool is cyclical in nature due to seasonal variations in pricing. As a result, the residual, while positive in the first and fourth quarters of the calendar year, is negative in the second and third quarters.

It was agreed by OEFC and OPG that OEFC would receive an average payment per month which would eliminate the seasonal variation in the pool residual and ensure that OEFC would never need to borrow cash to make up the shortfall. In the accounts, this revenue stream was recorded as received, adjusted for the one month accrual at each year-end.

These interim arrangements were to remain in effect until open access at which time the revenue pool would cease to operate and the Debt Retirement Charge (DRC) would be collected direct from electricity consumers. Open access was originally announced for November 2000 and OEFC's forecast residual for calendar 2000 was calculated over the ten months ended October in anticipation of the November opening. Once open access was delayed past November, it became apparent that the term over which the average should be calculated was unknown. Consequently, beginning in

November 2000, OEFC began to receive the forecast residual as earned each month and reflected this stream as revenue in the accounts. The revenue in OEFC in fiscal 2000-01 has benefitted by including both the increased revenue over the summer of 2000 and the real earnings in the pool over the winter of 2000-01.

## 11. Unfunded Liability

In the previous year, PILs revenue was recognized on a cash basis and reflected only cash received during the year. For fiscal 2000-01, OEFC has changed its accounting policy to recognize PILs revenue on an accrual basis. The change was made to conform with accounting policies of the Province. Therefore, PILs earned during the year will now include deferred taxes, regardless of when those taxes will be paid.

The previously unrecognized $200 million accrual of PILs revenue has been added to the balance of the opening unfunded liability. In addition, the opening unfunded liability has also been adjusted to account for working capital adjustments in successor companies in the amount of $247 million. The effect of these adjustments is as follows:

| | |
|---|---|
| Unfunded Liability, March 31, 2000 | $ 19,987 |
| Adjustments during the year: | |
| Accrual for PILs revenue | (200) |
| Working capital for OPG and HOI | 247 |
| Balance after adjustments | $ 20,034 |

The opening unfunded liability of $19.4 billion at April 1, 1999 was composed of $38.1 billion in liabilities assumed from old Ontario Hydro less the value of assets transferred to OEFC at April 1, 1999 including $17.2 billion in notes receivable and $1.5 billion in loans receivable and other assets. Pursuant to the *Electricity Act, 1998* and consistent with the principles of electricity restructuring, the government has a long-term plan in place to retire OEFC liabilities, from within the electricity industry. The Plan includes cash flows from the following sources as at April 1, 1999:

Notes receivable from the Province of $8.9 billion, OPG of $3.4 billion, HOI of $4.8 billion and IMO for $0.1 billion for a total of $17.2 billion as a result of the transfer of assets to successor companies,

Payments-in-lieu of corporate income, property and capital taxes made by OPG, HOI and municipal electric utilities.

A Debt Retirement Charge to be paid by ratepayers based on the consumption of electricity, and

Electricity Sector Dedicated Income - Consistent with the Government's commitment to keep electricity income in the electricity sector, the combined net income of OPG and HOI in excess of the Province's cost of its investment in its electricity subsidiaries will be set aside for the retirement of OEFC's debt.

The long-term plan supports estimates that OEFC's obligations will be defeased in the years ranging from 2010 to 2017.

## 12. Risk Management and Derivative Financial Instruments

OEFC employs prudent risk management strategies and operates within strict risk exposure limits to ensure exposure to risk is well managed. A variety of strategies are used, including the use of derivative financial instruments ("derivatives").

Derivatives are financial contracts, the value of which is derived from underlying assets. OEFC uses derivatives for the purpose of hedging and to minimize interest costs. Hedges are created primarily through swaps, which are legal arrangements under which OEFC agrees with another party to exchange cash flows based upon one or more notional amounts during a specified period. This allows OEFC to offset its existing obligations and thereby effectively convert them into obligations with more desirable characteristics. Other derivative instruments used by OEFC include forward foreign exchange contracts, forward rate agreements, futures and options.

Foreign exchange or currency risk is the risk of debt servicing costs and principal payments varying due to fluctuations in foreign exchange rates. To minimize currency risk, OEFC uses derivative contracts to convert foreign currency cash flows into Canadian dollar denominated cash flows. The current policy allows unhedged foreign currency cash flows to reach a maximum of 20 per cent of total debt. At year end, 7.1 per cent of this debt was unhedged, with most of the currency exposure to US dollars.

Interest rate risk is the risk of debt servicing costs varying due to changes in interest rates. OEFC reduces its exposure to rate changes by entering into derivative contracts that convert floating interest payments to fixed interest payments. The current policy allows unhedged floating rate debt, net of liquid reserves, to reach a maximum of 20 per cent of total debt. At year end, OEFC's floating rate debt as a percentage of total debt was 5.7 per cent.

The table below presents a maturity schedule of OEFC's derivatives, by type, outstanding at March 31, 2001, based on the notional amounts of the contracts. Notional amounts represent the volume of outstanding derivative contracts and are not indicative of credit or market risk. Notional amounts are not representative of actual cash flows.

Derivative Portfolio Notional Value
($ millions)
As at March 31, 2001

| Maturity in Fiscal Year | 2002 | 2003 | 2004 | 2005 | 2006 | 6-10 Years | Over 10 Years | Total | 2000 |
|---|---|---|---|---|---|---|---|---|---|
| Cross-currency swaps | 284 | - | 638 | - | - | 884 | - | 1,806 | 1,307 |
| Interest rate swaps | 797 | 505 | 1,814 | 292 | 730 | 1,235 | 1,520 | 6,893 | 6,179 |
| Forward foreign exchange contracts | 1,171 | - | - | - | - | - | - | 1,171 | 1,151 |
| Other | 662 | - | - | - | - | - | - | 662 | 1,445 |
| Total | $ 2,914 | 505 | 2,452 | 292 | 730 | 2,119 | 1,520 | 10,532 | 10,082 |

Entering into derivatives contracts results in credit risk, which is the risk of a counterparty defaulting on contractual derivative obligations in which OEFC has an unrealized gain. The table below presents the credit risk associated with the derivative financial instrument portfolio, measured through the replacement value of derivative contracts, at March 31, 2001.

| Credit Risk Exposure ($ millions) | March 31, 2001 | March 31, 2000 |
|---|---|---|
| Gross credit risk exposure | 5,437 | 4,850 |
| Less: Netting agreements | (5,519) | (5,019) |
| Net credit risk exposure | $ (82) | $ (169) |

Note:

Contracts do not have coterminous settlement dates. Netting agreements use generally accepted forms and terms developed by the International Swaps and Derivatives Association (ISDA). Based on ISDA definitions, total exposure to counterparties with positive exposure was $210 million (meaning that counterparties owed OEFC) and total exposure to counterparties with negative exposure was $292 million (meaning that OEFC owed counterparties) for a total net credit exposure to ($82) million on March 31, 2001.

OEFC manages its credit risk exposure through daily monitoring compliance with credit limits and by dealing with counterparties with good credit ratings of A- or higher. Counterparties for money market and other short-term transactions must have at least an R1-mid rating by Dominion Bond Rating Service or an A-1 or P-1 rating by Standard and Poor's or Moody's respectively.

OEFC also limits its credit risk exposure on derivatives by entering into contractual netting agreements with virtually all of its counterparties, which enables it to settle derivative contracts on a net basis in the event of a counterparty default. The gross credit risk exposure represents the amount of loss that OEFC would suffer if every counterparty to which OEFC was exposed were to default at the same time and no netting of negative exposures was allowed. The net credit risk exposure includes the mitigating impact of these netting agreements.

## 13. Guarantees

Subject to a $10 million and $20 million deductible respectively, OEFC has agreed to indemnify HOI and OPG in respect of any adverse claim to title to any asset, right or thing transferred or intended to be transferred to the companies at April 1, 1999, any failure of the transfer order to transfer such assets, rights or things and with respect to payment to or from or other dealing with any equity account of Ontario Hydro, including certain related litigation. The Province of Ontario has guaranteed any liability arising from these indemnifications.

OEFC is contingently liable under guarantees given to third parties that have provided long-term financing to certain independent power producers in connection with the power purchase agreements described in Note 9. These guarantees total approximately $135 million at March 31, 2001 (March 31, 2000 - $146 million).

## 14. Comparative Figures

Prior year's figures have been re-classified where necessary to conform with the current year's presentation.

## 2003 Annual Report

Ontario

Ontario Electricity Financial Corporation

## Corporate Overview

Ontario Electricity Financial Corporation (OEFC), an agency of the Province of Ontario, is a statutory, non-share capital corporation and the legal continuation of Ontario Hydro.

OEFC retains services from the Ontario Financing Authority (OFA) and the Ministry of Finance to carry out its daily operations. The OFA is the agency of the Province of Ontario responsible for provincial borrowing and debt management activities. The OFA manages OEFC's debt, derivatives and non-utility generator (NUG) portfolios, and provides cash management, accounting and other financial services and support to the corporation. The Ministry of Finance manages the collection and reporting of payments-in-lieu of tax on behalf of OEFC.

OEFC's Board of Directors is responsible for supervising OEFC's operations, which are as follows:

- Manage the outstanding debt and derivatives portfolios, financial risks and other liabilities of the former Ontario Hydro;
- Manage the long-term power purchase agreements and provide the associated risk management infrastructure;
- Manage the Electricity Consumer Price Protection Fund (ECPPF);
- Receive payments and administer assets, liabilities, rights and obligations of the Corporation that have not been transferred to other Ontario Hydro successor corporations, and dispose of these as it deems appropriate or as directed by the Minister of Finance; and
- Perform any additional functions as required by the Lieutenant-Governor-in-Council.

## Message from the Chair

I am pleased to present the 2003 Annual Report of the Ontario Electricity Financial Corporation (OEFC). The report describes OEFC's objectives and responsibilities, operational highlights and financial results for the year ended March 31, 2003.

As outlined in the *Electricity Act, 1998,* OEFC's primary objective is to ensure that the outstanding debt and derivatives portfolios and certain other liabilities of the former Ontario Hydro are managed efficiently and prudently and are ultimately retired.

For the year ended March 31, 2003, revenues totalled $3,797 million, while expenses totalled $3,895 million, resulting in a deficiency of revenue over expense of $98 million, compared to the prior year's deficiency of revenue over expense of $69 million. In 2002-03, the Province completed OEFC's borrowing requirements, including long-term debt maturities of $2,775 million, through $2,084 million raised from the sale of Hydro One notes held since April 1, 1999 and the issuance of $967 million in long-term debt.

During the year, OEFC achieved its objectives of cost-effective borrowing and debt management and prudent risk management, negotiated revisions to non-utility generator (NUG) contracts to facilitate their integration into the competitive electricity market, and continued to develop the necessary infrastructure to manage the NUG contracts and related exposures in a competitive market in a cost-effective and prudent manner.

On December 9, 2002, the *Electricity Pricing, Conservation and Supply Act, 2002* was passed to freeze the price that low volume and designated consumers pay for electricity at 4.3 cents per kilowatt-hour until at least 2006. OEFC is responsible for managing the Electricity Consumer Price Protection Fund (ECPPF) established as a result of the Act.

OEFC will continue to monitor new developments in the electricity industry that will affect the operating results of the corporation in the 2003-04 fiscal year.

Bob Christie
Chair

# Management's Discussion and Analysis

OEFC accomplished its key objectives for 2002-03:

- Achieved cost-effective borrowing and debt management and prudent risk management;
- Negotiated revisions to certain contracts with non-utility generators (NUG contracts) to facilitate their integration into the competitive electricity market;
- Continued to develop the necessary infrastructure to manage the NUG contracts and related exposures in a competitive market in a cost-effective and prudent manner; and
- Managed the Electricity Consumer Price Protection Fund (ECPPF) created under the *Electricity Pricing, Conservation and Supply Act, 2002.*

## 2002-03 Highlights

- Sold $1.9 billion of the Hydro One notes held since April 1, 1999, resulting in a gain of $206 million for OEFC. This sale represented the largest-ever corporate debt trade in the Canadian domestic debt market.
- Reduced total debt outstanding by $2.5 billion to $26.8 billion from $29.4 billion as at March 31, 2002.
- Lowered total debt exposed to fluctuations in foreign currencies to 6.3 per cent of outstanding debt from 7.5 per cent and down from 14.5 per cent at the time of OEFC's establishment in 1999.

## Overview of Financial Results

For the year ended March 31, 2003, revenues totalled $3,797 million, while expenses totalled $3,895 million, resulting in a deficiency of revenue over expense of $98 million, compared to the prior year's deficiency of revenue over expense of $69 million.

## Revenues

OEFC's total revenues for 2002-03 were $3,797 million, an increase of $253 million from 2002. OEFC's revenues consisted of the Debt Retirement Charge and revenue pool residual up to market opening; payments-in-lieu of tax; interest income from the Province, OPG, Hydro One, and IMO; power sales; a net reduction of power purchase contracts; a gain on the sale of Hydro One notes; and electricity sector dedicated income.

The Debt Retirement Charge, which replaced the revenue pool residual when Ontario's electricity market opened to competition on May 1, 2002, amounted to $889 million over 11 months in 2002-03.

In the year ended March 31, 2003, OPG and Hydro One earned an aggregate amount of $717 million. After taking into account the Province's financing cost of its investment in its electricity subsidiaries of $520 million, OEFC recorded $197 million in electricity sector dedicated income. In 2001-02, the aggregate earnings of the subsidiaries did not exceed the Province's financing cost.

In February 2003, OPG reached an agreement with OEFC to defer payment on $700 million principal amount of senior notes owing to OEFC by extending the maturity dates by two years. The interest rates on these notes remain unchanged.

## Expenses

OEFC's total expenses for 2002-03 were $3,895 million, an increase of $282 million from 2002. OEFC's expenses consist of interest on its debt and nuclear funding liability, amortization of deferred charges, expenditures in the Electricity Consumer Price Protection Fund (ECPPF), power purchases, a debt guarantee fee and operating costs.

## Borrowing Program

In 2002-03, the Province completed OEFC's borrowing requirements, including long-term debt maturities of $2,775 million, through $2,084 million raised from the sale of Hydro One notes held since April 1, 1999, and the issuance of $967 million in long-term debt.

Long-term borrowing was completed through two Province of Ontario U.S. dollar global issues and two domestic issues that were on-lent to OEFC:

- C$425 million (Canadian dollar equivalent) raised through a portion of a US$750 million U.S. dollar global issue maturing in December 2005;
- C$447 million (Canadian dollar equivalent) raised from a US$300 million U.S. dollar global issue maturing in March 2008; and
- C$95 million raised from two non-public debentures maturing in January and June 2022.

## Debt Management

The repayment of OEFC obligations remains a priority and is an integral part of Ontario's electricity sector restructuring objectives. Pursuant to the *Electricity Act, 1998*, a long-term plan was established to retire debt from within the electricity sector. The long-term debt repayment plan supports a current estimate that OEFC's obligations will likely be defeased in 2012.

## Debt Repayment Plan

OEFC's obligations are being repaid from the following revenue sources:

**Notes Receivable**

OEFC receives principal and interest payments from the Province, Ontario Power Generation Inc. (OPG), Hydro One and the Independent Electricity Market Operator (IMO) arising from the restructuring of the electricity sector.

**Payments-in-Lieu of Tax (PILs)**

OEFC receives payments-in-lieu of corporate income, capital and property taxes made by OPG, Hydro One and municipal electric utilities (MEUs).

**Debt Retirement Charge (DRC)**

The DRC was introduced on May 1, 2002, the date the electricity market opened to competition, and is paid by electricity consumers. The DRC is administered by the Ministry of Finance on behalf of OEFC and will end once the residual stranded debt is retired. Prior to May 1, 2002, OEFC received the residual of the revenue pool. This pool, managed by OPG, collected revenues from electricity consumers and allocated revenues to OPG, Hydro One and IMO, with the residual going to OEFC.

**Electricity Sector Dedicated Income**

The combined net incomes of OPG and Hydro One in excess of the Province's interest cost of its investment in its electricity subsidiaries are dedicated to the retirement of OEFC's debt.

## Stranded Debt and Residual Stranded Debt

OEFC assumed approximately $38.1 billion in total debt and other liabilities from the former Ontario Hydro upon the restructuring of Ontario's electricity sector on April 1, 1999. As part of the restructuring, OEFC received a total of $17.2 billion in notes owing from the Province, OPG, Hydro One and the IMO. The difference of approximately $20.9 billion represented "stranded debt," which is defined under the *Electricity Act, 1998* as the amount of debt and other liabilities of OEFC that cannot reasonably be serviced and retired by commercial companies in a competitive electricity market.

The *Electricity Act, 1998* requires that payments-in-lieu of taxes must be paid by the successor entities and municipal electric utilities (MEUs) to OEFC to service stranded debt. As at April 1, 1999, the present value of these dedicated revenues and Electricity Sector Dedicated Income was estimated at $13.1 billion, resulting in an estimated $7.8 billion of residual stranded debt. The *Electricity Act, 1998* provided for a Debt Retirement Charge (DRC) to be paid by consumers until the residual stranded debt is retired.

The April 1, 1999 Unfunded Liability (the stranded debt from electricity sector restructuring to be recovered from ratepayers) of $19.4 billion of OEFC was composed of the $38.1 billion (described above) less notes receivable of $17.2 billion, less loans receivable and other assets of $1.5 billion.

Unfunded Liability as of March 31, 2003 was $20.2 billion.

## Debt and Liabilities

OEFC's total debt outstanding declined by $2.5 billion to $26.8 billion as of March 31, 2003. OEFC has reduced total debt outstanding by over $4.5 billion from its peak on March 31, 2000.

OEFC's total debt and liabilities are $34.7 billion as of March 31, 2003, down from $37.6 billion as of March 31, 2002.

On March 5, 2003, with the prior approval of Hydro One, OEFC completed the sale of $1,878 million (face value) of Hydro One notes. OEFC realized a gain of $206 million on the sale, as interest rates payable on the notes were above market interest rates, which allowed the Province to reduce OEFC's total debt. The notes had maturities ranging from January 2004 to August 2007 and coupons ranging between 5.375 per cent to 14.25 per cent. In order to facilitate the sale of these notes in the Canadian public capital markets, OEFC and Hydro One agreed to restructure the debt by converting the coupons and principal amounts to reflect current interest rates. The sale represented the largest ever corporate debt trade in the Canadian domestic debt market.

For more information on debt and other liabilities, see Notes 8 to 12 to the Financial Statements.

## Risk Management

OEFC has risk management policies and procedures in place to address the management of OEFC's market, credit and operational risk exposures, primarily pertaining to OEFC's debt, derivatives and NUG portfolios, and capital markets transactions. A description of OEFC's risk management policies can be found in the Corporate Policies section.

| Risk Exposures (Percentage of Outstanding Debt) | 2003 | 2002 | Policy Limit |
|---|---|---|---|
| Foreign Exchange Exposure | 6.3 | 7.5 | 20.0* |
| Floating Interest Rate Exposure (net of liquid reserves) | 13.5 | 9.8 | 20.0 |

*The foreign exchange policy limit will be reduced to five per cent as soon as feasible and prudent.
March 31, 2003

OEFC's foreign exchange and floating interest rate exposures remained within policy limits of 20 per cent in 2002-03.

OEFC's total debt exposed to fluctuations in foreign currencies ("foreign exchange exposure") declined to 6.3 per cent as a result of active debt management and hedging strategies which took advantage of a strengthening Canadian dollar to reduce the foreign exchange exposure of OEFC's debt portfolio. The reduction in the OEFC's foreign exchange exposure was in line with the OEFC's Annual Financing and Debt Management Plan. When the OFA became responsible for the management of OEFC's debt portfolio, total debt exposed to fluctuations in foreign currencies was 14.5 per cent.

The OEFC's exposure to changes in short-term rates ("floating interest rate exposure") was 13.5 per cent as at March 31, 2003.

When issuing new debt, the OFA, on behalf of OEFC, aims for a smooth debt maturity profile to diversify the interest rate risk inherent in refinancing maturing and floating rate debt.

OEFC has also developed the NUG Market Risk Policy and Credit and Related Legal Risks Policy to address risks related to the sale of electricity from NUG contracts. NUG contracts involve risk in both financial and commodity markets.

## Management of Power Purchase Agreements

In the late 1980s and early 1990s, the former Ontario Hydro entered into approximately 90 long-term power purchase agreements (PPAs) with non-utility generators (NUGs) located in Ontario. These PPAs, which expire on various dates until 2048, represent approximately 1,700 megawatts of generating capacity and approximately $750 million per year in cash outflow. The PPAs account for about six to eight per cent of the generating capacity available to meet Ontario's energy requirements.

As the continuation of Ontario Hydro, OEFC is responsible for these contracts. The NUG liability had been valued at $4,286 million on a discounted cash-flow (DCF) basis since Ontario Hydro was continued as OEFC on April 1, 1999. Since the electricity market was opened in this fiscal year, the DCF model was updated as of March 31, 2003, which reduced the estimated liability from $4,286 million to $3,745 million. The revaluation change will be amortized to operations over a 10-year period. In addition, each year, interest at the DCF rate is added to the liability and the estimated in-year loss in the DCF model is deducted from the liability. Details are set out in Note 10 to the Financial Statements.

OEFC has retained UBS Warburg Energy (Canada) Ltd. to act as settlement services manager of the PPAs with the NUGs, and to establish systems and procedures for the administration of the PPAs in the open electricity market as well as develop and implement strategies for hedging OEFC's price risk associated with sales of electricity. OEFC continues to negotiate revisions to the NUG contracts to ensure that the contracts are consistent with the open electricity market.

A policy framework for the prudent risk management of NUG electricity sales associated with the PPAs, including market and credit risk management policies, was approved. These policies establish the foundation for the assessment, monitoring and reporting of electricity market and credit risks and are similar in structure to the corresponding policies for the management of traditional financial market and credit exposures.

## *The Electricity Pricing, Conservation and Supply Act, 2002*

Ontario's electricity market opened to competition on May 1, 2002. The wholesale price of electricity is determined by supply and demand in a competitive market.

While the wholesale market continues to operate in a competitive environment, on December 9, 2002, the *Electricity Pricing, Conservation and Supply Act, 2002* was passed to freeze the price that low volume and designated consumers pay for electricity at 4.3 cents per kilowatt-hour (¢/kWh) until at least 2006. OEFC is responsible for managing the Electricity Consumer Price Protection Fund (ECPPF or the "Fund") established as a result of the Act.

### Fund Management

OEFC is required to pay to or receive from the IMO any difference between the current market price (the "spot price") and the fixed 4.3¢/kWh charged to consumers designated under the Act.

- When spot prices are higher than 4.3¢/kWh, OEFC will make a payment to the IMO equal to the difference between spot price and 4.3¢/kWh based on the quantity consumed. The IMO will reduce the amount payable by the distributors for amounts consumed by a corresponding amount down to 4.3¢/kWh.
- When spot prices are lower than 4.3¢/kWh, OEFC will receive a payment from the IMO equal to the difference between spot price and 4.3¢/kWh based on the quantity consumed. The IMO will increase the amount payable by the distributors for amounts consumed by a corresponding amount up to 4.3¢/kWh.

The Fund will receive a large proportion of its funding from the portion of the Market Power Mitigation Agreement (MPMA) rebate paid by OPG that is attributable to the low volume and designated consumers. The initial $75 consumer refund for the May 1, 2002 to November 30, 2002 period was funded from OPG's MPMA rebate liability.

Net costs were higher than originally expected due to higher-than-expected prices arising from a long and severe winter. Program costs were also higher than initially expected due to higher costs to maintain the contractual rights of retailers. Annual results for the Fund are expected to improve as new supply comes on-line and reduces electricity prices.

The financial statements reflect the net expense of the Fund for this fiscal year. More information on the Fund can be found in Note 13 to the Financial Statements.

## Objectives for 2003-04

OEFC's activities for 2003-04 will be focused on the following corporate objectives:

- Continue to perform borrowing, risk management, cash management, banking and accounting services as required in managing and retiring the outstanding debt and derivative contracts of the former Ontario Hydro;
- Assist in the implementation of the government's electricity policy decisions and coordinate economic and financial issues related to the industry. This includes management of the Electricity Consumer Price Protection Fund, managing financial relationships with the successor companies of Ontario Hydro (Hydro One, Ontario Power Generation Inc. and the Independent Electricity Market Operator) and assisting the Ministry of Energy and the Ministry of Finance in analyzing and implementing new supply initiatives, such as the temporary generation initiatives for the summer and fall of 2003;
- Continue negotiating revisions to the non-utility generator (NUG) contracts to ensure that the contracts are consistent with the competitive market. Develop and implement the necessary infrastructure to manage, in a cost-effective and prudent manner, the NUG contracts and related exposures and their integration into the power market administered by the Independent Electricity Market Operator (IMO); and
- Discharge OEFC's liability to the nuclear decommissioning fund related to generating stations of the former Ontario Hydro.

# Financial Statements

**Responsibility for Financial Reporting**

**Consolidated Statement of Cash Flows**

**Notes to Financial Statements**

## Responsibility for Financial Reporting

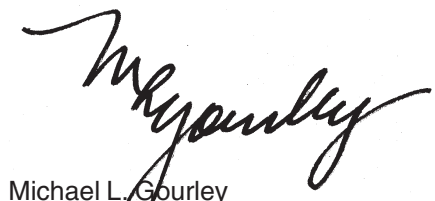
The accompanying consolidated financial statements of the Ontario Electricity Financial Corporation have been prepared in accordance with accounting principles recommended for governments by the Canadian Institute of Chartered Accountants and are the responsibility of management. The preparation of financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to July 25, 2003.

Management maintains a system of internal controls designed to provide reasonable assurance that the assets are safeguarded and that reliable financial information is available on a timely basis. The system includes formal policies and procedures and an organizational structure that provides for appropriate delegation of authority and segregation of responsibilities. Internal Audit Services of the Ministry of Finance independently evaluates the effectiveness of these internal controls on an ongoing basis and reports its findings to management and the Audit Committee of the Board of Directors.

The Board of Directors, through the Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls. The Audit Committee meets periodically with management, the internal auditors and the external auditor to deal with issues raised by them and to review the financial statements before recommending approval by the Board of Directors.

The financial statements have been audited by the Provincial Auditor. The Provincial Auditor's responsibility is to express an opinion on whether the financial statements are fairly presented in accordance with accounting principles recommended for governments by the Canadian Institute of Chartered Accountants. The Auditor's Report, which appears on the following page, outlines the scope of the Auditor's examination and his opinion.

On behalf of Management:



Michael L. Gourley
Vice-Chair and Chief Executive Officer

Office of the
Provincial Auditor
of Ontario

Bureau du
vérificateur provincial
de l'Ontario

Box 105, 15th Floor, 20 Dundas Street West, Toronto, Ontario M5G 2C2
B.P. 105, 15e étage, 20, rue Dundas ouest, Toronto (Ontario) M5G 2C2
(416) 327-2381 Fax: (416) 327-9862

***Auditor's Report***

To the Ontario Electricity Financial Corporation
and to the Minister of Finance

I have audited the consolidated balance sheet of the Ontario Electricity Financial Corporation as at March 31, 2003 and the consolidated statements of revenue, expense and unfunded liability and of cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2003 and the results of its operations and its cash flows for the year then ended, in accordance with the accounting principles recommended for governments by the Canadian Institute of Chartered Accountants.

Toronto, Ontario
July 25, 2003

Erik Peters, FCA
Provincial Auditor

# Ontario Electricity Financial Corporation
# Notes to Financial Statements

## 1. Restructuring of the Ontario Electricity Industry

Effective April 1, 1999, pursuant to the *Electricity Act, 1998*, Ontario Hydro was continued as a corporation without share capital under the name Ontario Electricity Financial Corporation (OEFC). It is exempt from federal and provincial income taxes under paragraph 149(1)(d) of the Income Tax Act of Canada. OEFC is a Crown agency created to manage the debt and administer the assets, liabilities, rights and obligations of Ontario Hydro not transferred to other successor entities. These other successor entities include:

- Ontario Power Generation Inc. (OPG), an electricity generation company;
- Hydro One Inc. (Hydro One), a regulated electricity transmission and distribution business;
- Independent Electricity Market Operator (IMO), the regulated centralized independent system co-ordinator responsible for directing system operations and operating the electricity market; and
- Electrical Safety Authority (ESA), which performs a regulatory function related to electrical inspections.

On April 1, 1999, the respective business units, including assets, liabilities, employees, rights and obligations of the former Ontario Hydro, were transferred to OPG and Hydro One (and their subsidiaries) and the IMO for $8.5 billion, $8.6 billion and $78 million respectively in exchange for debt payable to OEFC. On the same day, the Province exchanged equity of $5,126 million and $3,759 million in OPG and Hydro One respectively for debt payable to OEFC.

OEFC debt, liabilities and associated financing costs will be repaid from interest on notes receivable from the Province and successor entities, and, as provided under the *Energy Competition Act, 1998*, from dedicated electricity revenues in the form of payments-in-lieu (PILs) of corporate income, capital and property taxes made by the successor entities and municipal electric utilities. Any residual debt will be serviced through a Debt Retirement Charge (DRC) to be paid by electricity consumers after open access at a rate of 0.7 cents per kilowatt hour in most Ontario communities. Until open access on May 1, 2002, OEFC continued to be a party to a revenue-allocation agreement among successor entities and was entitled to the forecast residual amount in the revenue pool after allocations to OPG, Hydro One and the IMO are paid.

## 2. Summary of Significant Accounting Policies

**Basis of Accounting**

As OEFC is a government organization, these financial statements are prepared in accordance with the recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants.

**Measurement Uncertainty**

Uncertainty in the determination of the amount at which an item is recognized in the financial statements is known as measurement uncertainty. Such uncertainty exists when it is reasonably possible that there could be a material variance between the recognized amount and another reasonably possible amount, as there is whenever estimates are used. Measurement uncertainty in these financial statements exists in the estimated amount for the Electricity Consumer Price Protection Fund, the valuation of the power purchase contracts and the estimated defeasance date for OEFC's obligations. Estimates are based on the best information available at the time of preparation of the financial statements and will be updated annually to reflect new information as it becomes available.

**Consolidation**

These financial statements include the residual accounts of OEFC's wholly owned subsidiary, Ontario Electricity Pension Services Corporation (see Note 3).

**Deferred Debt Costs**

Deferred debt costs includes the unamortized amounts related to unrealized foreign exchange gains or losses resulting from the translation of long-term debt issued in foreign currencies and discounts, premiums or commissions arising from the issuance of debt or the acquisition of debt prior to maturity. These costs are amortized to operations over the life of the underlying debt.

**Revenue Recognition**

Revenues are recognized in the period in which they are earned.

**Foreign Currency Translation**

Debt is composed of short-, medium- and long-term bonds, notes and debentures. Debt denominated in foreign currencies that have been hedged is recorded at the Canadian dollar equivalent using the rates of exchange established by the terms of the hedge agreements. Other foreign currency debt, liabilities and assets are translated to Canadian dollars at period-end rates of exchange and any exchange gains or losses are deferred and amortized over the remaining term to maturity.

**Power Purchase Contracts**

The power purchase contracts liability is valued on a discounted cash-flow (DCF) basis. Periodic revaluations of this liability will give rise to changes in the estimated cost of the contracts and will be amortized to operations over a maximum 10-year period.

## 3. Ontario Electricity Pension Services Corporation

OEFC was the administrator of the Ontario Electricity Financial Corporation Pension Plan and Fund. It was responsible for negotiating an agreement with each of the successor corporations for the division and transfer of the assets and liabilities of the OEFC pension plan to the pension plans of the successor corporations. The Ontario Electricity Pension Services Corporation, (OEPSC), a wholly owned subsidiary of OEFC, acted as agent for OEFC to carry out the required administrative, investment and other responsibilities of the OEFC Pension Plan and Fund.

OEPSC made application to the Superintendent of Financial Services for Ontario for approval to transfer all of the assets of the OEFC Pension Plan to the pension plans of the four successor operating entities. The Superintendent agreed to the transfer on June 6, 2001. With the exception of certain records and assets of nominal value, all pension fund assets were transferred to the pension plans of successor corporations on June 29, 2001. As OEPSC's functions have been completed, OEFC is in the process of winding up the company.

## 4. Economic Dependence

OEFC does not have its own credit rating and is, therefore, dependent on the Province to borrow and on-lend the funds required to refinance maturing debt and to cover any cash shortfalls in the Corporation. It is also dependent on the long-term plan to defease the unfunded liability described in Note 12. Based on the Province's support in refinancing maturing debt and the long-term plan, OEFC is considered a going concern.

## 5. Cash and Cash Equivalents

Cash and cash equivalents includes cash on deposit and highly liquid investments with maturities of less than three months. They are recorded at cost, which approximates current market value.

## 6. Due from Province of Ontario

The Province has committed to dedicate the combined net income of OPG and Hydro One in excess of the Province's financing cost of its investment in its electricity subsidiaries to OEFC. In the year ended March 31, 2003, OPG and Hydro One earned an aggregate amount of $717 million, $197 million in excess of the Province's $520 million financing cost of its investment. In 2001-02, the aggregate earnings of the subsidiaries did not exceed the Province's financing cost. The $197 million amount has been reflected as income in OEFC. In July 2002, the Province paid $370 million to OEFC towards the outstanding balance.

## 7. Notes and Loans Receivable

($ millions)

| | Maturity date | Interest rate | Interest payable | March 31, 2003 | March 31, 2002 |
|---|---|---|---|---|---|
| Province of Ontario | 2039 - 2041 | 5.85 | Monthly | $ 8,885 | $ 8,885 |
| OPG | 2005 - 2011 | 5.44 to 6.65 | Semi-annually | 3,200 | 3,200 |
| Hydro One | 2003 | 5.4 to 13.5 | Semi-annually | 651 | 2,972 |
| IMO | 2009 | 7.90 | Semi-annually | 78 | 78 |
| | | | | 12,814 | 15,135 |
| Less: Current portion of notes receivable | | | | 651 | 443 |
| | | | | 12,163 | 14,692 |
| Loans receivable from non-utility generators (NUGs) (See Note 10) | | | | 174 | 257 |
| | | | | **$ 12,337** | **$ 14,949** |

OEFC has agreed with OPG and IMO not to sell notes owing from these successor entities without their prior approval.

On March 5, 2003, with the prior approval of Hydro One, OEFC completed the sale of $1,878 million (face value) of Hydro One notes. OEFC realized a gain of $206 million on the sale as interest rates payable on the notes were above market interest rates.

In 2002, OEFC had agreed with OPG to defer principal payments of $200 million originally due in March and September, 2002 until December 2004. These maturities totalling $200 million have been further deferred until December 2006. In addition, OEFC has agreed with OPG to defer principal repayments totalling $500 million originally due in the period March 2003 to September 2004. The new maturity dates on these notes have been extended until March 2005 to September 2006.

## 8. Debt

Debt at March 31, 2003 is set out below by maturity and by currency of repayment, expressed in Canadian dollars.

| ($ millions) Currency | Canadian Dollar | U.S. Dollar | Japanese Yen | 2003 Total | 2002 Total |
|---|---|---|---|---|---|
| Maturing in: | | | | | |
| 1 year | 4,781 | 232 | 65 | 5,078 | 6,544 |
| 2 years | 3,250 | — | — | 3,250 | 1,666 |
| 3 years | 1,000 | 425 | — | 1,425 | 3,250 |
| 4 years | 119 | — | — | 119 | 1,000 |
| 5 years | 389 | 1,570 | — | 1,959 | 119 |
| 1-5 years | 9,539 | 2,227 | 65 | 11,831 | 12,579 |
| 6-10 years | 6,178 | 1,489 | — | 7,667 | 8,237 |
| 11-15 years | 648 | — | — | 648 | 1,843 |
| 16-20 years | 3,678 | — | — | 3,678 | 2,702 |
| 21-25 years | 2,077 | — | — | 2,077 | 3,037 |
| 26-50 years | 929 | — | — | 929 | 966 |
| **Total** | **$ 23,049** | **$ 3,716** | **$ 65** | **$ 26,830** | **$ 29,364** |

The effective rate of interest on the debt portfolio is 6.78 per cent (March 2002 - 6.96 per cent) before considering the effect of derivative instruments used to manage interest rate risk. The longest term to maturity is to October 17, 2031. Total foreign currency denominated debt at March 31, 2003 was $3.8 billion (March 2002 - $3.6 billion), of which $2.6 billion or 67.7 per cent (March 2002 - $1.9 billion or 52.8 per cent) was fully hedged to Canadian funds. Bonds and notes payable are either held, or guaranteed as to principal and interest, by the Province as set out below:

| | March 31, 2003 | | | March 31, 2002 | | |
|---|---|---|---|---|---|---|
| ($ millions) | Held by the Province | Guaranteed by the Province | Total | Held by the Province | Guaranteed by the Province | Total |
| Short-term debt | 3,413 | — | 3,413 | 3,996 | — | 3,996 |
| Current portion of long-term debt | 350 | 1,315 | 1,665 | 48 | 2,500 | 2,548 |
| Long-term debt | 9,791 | 11,961 | 21,752 | 9,173 | 13,647 | 22,820 |
| **Total** | **$ 13,554** | **$ 13,276** | **$ 26,830** | **$ 13,217** | **$ 16,147** | **$ 29,364** |

Fair value of debt issued approximates amounts at which debt instruments could be exchanged in a current transaction between willing parties. In valuing the OEFC's debt, fair value is estimated using discounted cash flows and other valuation techniques and is compared to public market quotations where available. These estimates are affected by the assumptions made concerning discount rates and the amount and timing of future cash flows.

The estimated fair value of OEFC debt at March 31, 2003 is $31.2 billion (March 2002 - $32.8 billion). This is higher than the book value of $26.8 billion (March 2002 - $29.4 billion) because current interest rates are generally lower than the interest rates at which the debt was issued and because of exchange rate movements. The fair value of debt does not reflect the effect of related derivative contracts.

## 9. Risk Management and Derivative Financial Instruments

OEFC employs various risk management strategies and operates within strict risk exposure limits to ensure exposure to risk is managed in a prudent and cost-effective manner. A variety of strategies are used, including the use of derivative financial instruments ("derivatives"). Derivatives are financial contracts, the value of which is derived from underlying instruments. OEFC uses derivatives for the purpose of hedging and to minimize interest costs. Hedges are created primarily through swaps, which are legal arrangements under which OEFC agrees with another party to exchange cash flows based upon one or more notional amounts during a specified period. This allows OEFC to offset its existing obligations and thereby effectively convert them into obligations with more desirable characteristics. Other derivative instruments used by OEFC include forward foreign exchange contracts, forward rate agreements, futures and options.

Foreign exchange or currency risk is the risk of debt servicing costs and principal payments varying due to fluctuations in foreign exchange rates. To minimize currency risk, OEFC uses derivative contracts to convert foreign currency cash flows into Canadian dollar denominated cash flows. The current policy allows unhedged foreign currency cash flows to reach a maximum of 20 per cent of total debt. At March 31, 2003, 6.3 per cent (March 2002 - 7.5 per cent) of this debt was unhedged, with most of the currency exposure to US dollars.

Floating rate risk is the exposure of OEFC to changes in short-term interest rates over a 12-month period. OEFC reduces its exposure to rate changes by entering into derivative contracts that convert floating interest payments to fixed interest payments. The current policy allows unhedged floating rate debt, net of liquid reserves, to reach a maximum of 20 per cent of total debt. At March 31, 2003, OEFC's floating rate debt as a percentage of total debt was 13.5 per cent (March 2002 - 9.8 per cent).

Liquidity risk is the risk that OEFC will not be able to meet its current short-term financial obligations. As explained in Note 4, OEFC is dependent on the Province to borrow and on-lend the funds required to refinance maturing debt and to cover any cash shortfalls in the Corporation.

The table below presents a maturity schedule of OEFC's derivatives, by type, outstanding at March 31, 2003, based on the notional amounts of the contracts. Notional amounts represent the volume of outstanding derivative contracts and are not indicative of credit risk, market risk or actual cash flows.

**Derivative Portfolio Notional Value**
**($ millions)**
**As at March 31, 2003**

| Maturity in Fiscal Year | 2004 | 2005 | 2006 | 2007 | 2008 | 6-10 Years | Over 10 Years | Total 2003 | Total 2002 |
|---|---|---|---|---|---|---|---|---|---|
| Cross-currency swaps | 1,046 | - | 425 | - | 496 | 388 | - | 2,355 | 1,528 |
| Interest rate swaps | 2,214 | 292 | 1,515 | 132 | 1,246 | 158 | 1,486 | 7,043 | 6,420 |
| Forward foreign exchange contracts | 720 | - | - | - | - | - | - | 720 | 974 |
| Other[1] | - | 50 | - | - | - | - | - | 50 | 250 |
| Total | $ 3,980 | 342 | 1,940 | 132 | 1,742 | 546 | 1,486 | 10,168 | $ 9,172 |

[1]Other includes swaptions and forward rate agreements.

The use of derivatives introduces credit risk, which is the risk of a counterparty defaulting on contractual derivative obligations in which OEFC has an unrealized gain. The table below presents the credit risk associated with the derivative financial instrument portfolio, measured through the replacement value of derivative contracts, at March 31, 2003.

| Credit Risk Exposure ($ millions) | March 31, 2003 | March 31, 2002 |
|---|---|---|
| Gross credit risk exposure[1] | 4,167 | 4,569 |
| Less: Netting[2] | (4,293) | (4,709) |
| Net credit risk exposure[3] | $ (126) | $ (140) |

Notes:
1 Gross credit risk exposure includes credit exposure on swaps, options, futures, forward rate agreements and forward foreign exchange agreements.
2 Master agreements provide for close out netting as contracts do not have coterminous settlement dates.
3 Total exposure to counterparties with positive exposure (meaning that counterparties owed OEFC) was $202 million (March 2002 - $111 million) and the total exposure to counterparties with negative exposure (meaning that OEFC owed the counterparties) was $328 million (March 2002 - $251 million) for a total net credit exposure of ($126) million (March 2002 - ($140) million).

OEFC manages its credit risk exposure from derivatives by, among other things, dealing only with high credit quality counterparties and regularly monitoring compliance to credit limits. In addition, OEFC enters into contractual agreements (master agreements) that provide for termination netting and, if applicable, payment netting with virtually all of its counterparties. Gross credit risk exposure represents the loss OEFC would incur if every counterparty to which OEFC had credit risk exposure were to default at the same time and the contracted netting provisions were not exercised or could not be enforced. Net credit risk exposure is the loss including the mitigating impact of these netting provisions.

As at March 31, 2003, OEFC's most significant concentrations of credit risk were with three A+ or higher rated counterparties, each of which represented more than 10 per cent of the Net Credit Risk Exposure. The net cost to OEFC, if it had to replace all of the swap contracts with these three counterparties is $23 million, $62 million and $85 million, respectively.

## 10. Power Purchase Contracts

Power purchase agreements and related loan agreements were entered into by Ontario Hydro with non-utility generators (NUGs) located in Ontario. As the continued Ontario Hydro, OEFC is the counterparty to these contracts. These contracts, expiring on various dates to 2048, provide for the purchase of power at prices that are expected to be in excess of the market price. Since open access on May 1, 2002, this power has been sold at market prices that generally have been less than cost. Prior to open access, power purchased from NUGs was resold at cost to the revenue pool managed by OPG.

During the year, OEFC purchased power in the amount of $786 million (2002 - $815 million) and sold this power for $635 million (2002 - $815 million). Effective April 18, 2002, the NUG Contract Management Agreement between Enron Canada Corporation and OEFC was assigned to UBS Warburg Energy (Canada) Ltd. Annual fees include both a fixed fee of approximately $750,000 plus a variable fee based on performance in minimizing losses under NUG power purchase agreements that amounted to $10 million (2002 - $ nil).

The NUG liability had been valued at $4,286 million on a discounted cash-flow (DCF) basis since Ontario Hydro was continued as OEFC on April 1, 1999. Since the electricity market was opened in this fiscal year, the DCF model was updated as of March 31, 2003 which reduced the estimated liability from $4,286 million to $3,745 million. The revaluation change will be amortized to operations over a 10-year period. In addition, each year, interest at the DCF rate is added to the liability and the estimated in-year loss in the DCF model is deducted from the liability as set out below:

**Statement of NUG Liability**
($ millions)

| | | |
|---|---|---|
| NUG Liability, March 31, 2002 | | $ 4,286 |
| Interest charged during the year | | 253 |
| Deduct estimated in-year loss | | (372) |
| Revaluation as of March 31, 2003 | | (422) |
| Sub total | | 3,745 |
| Add: Unamortized Revaluation Changes | | |
| Gross Revaluation | 422 | |
| Accumulated Amortization | (42) | 380 |
| | | $ 4,125 |

Loans to NUGs decreased during the period by a net $83 million to $174 million at March 31, 2003 (March 31, 2002 - $257 million), primarily due to principal repayments.

## 11. Nuclear Funding Liability

OEFC as the continued Ontario Hydro received a liability in the amount of $2,378 million representing nuclear waste management and asset removal liabilities that were incurred prior to April 1, 1999. In March 2002, the Province and OPG entered into the Ontario Nuclear Funds Agreement (ONFA) to establish, fund and manage segregated funds to ensure that sufficient funds are available to pay for costs of nuclear waste management and station decommissioning. The OEFC liability will be directed to the Decommissioning Custodial Fund, which is expected to be established later in 2003.

The Board of Directors of OEFC approved the funding of the Decommissioning Custodial Fund over the next four years, thus discharging the nuclear funding liability. OEFC reflected the nuclear funding liability at April 1, 1999 and has been accruing interest annually at an estimated 5.75 per cent since that time. At March 31, 2003, this estimated accrued interest was included in the liability amount of $2,974 million (2002 - $2,812 million). The calculation of the interest rate is still under negotiation between the parties, but is expected to be finalized later in 2003. The impact of the finalization of the interest rate calculation is not expected to result in a material difference to the liability balance.

## 12. Unfunded Liability

The opening unfunded liability of $19.4 billion at April 1, 1999 was composed of $38.1 billion in liabilities assumed from old Ontario Hydro less the value of assets transferred to OEFC at April 1, 1999 including $17.2 billion in notes receivable and $1.5 billion in loans receivable and other assets. A long-term plan was established to retire OEFC liabilities from within the electricity sector. The Plan includes cash flows from the following sources as at **April 1, 1999**:

**Notes receivable** from the Province of $8.9 billion, OPG of $3.4 billion, Hydro One of $4.8 billion and IMO for $0.1 billion for a total of $17.2 billion as a result of the transfer of assets to successor companies,

**Payments-in-lieu** of corporate income, property and capital taxes made by OPG, Hydro One and municipal electric utilities,

a **Debt Retirement Charge** to be paid by ratepayers based on the consumption of electricity, and

**Electricity Sector Dedicated Income** - The combined net income of OPG and Hydro One in excess of the Province's cost of its investment in its electricity subsidiaries will be allocated to the retirement of OEFC's debt.

The long-term plan supports a current estimate that OEFC's obligations will likely be defeased in 2012.

## 13. Electricity Consumer Price Protection Fund

On November 11, 2002, the Province announced a program designed to provide electricity to low volume and designated consumers at a fixed price of 4.3 cents per kilowhatt-hour (kWh) until at least 2006, retroactive to May 1, 2002. Power generators continue to receive the free market price as set in the IMO electricity market. The program is administered through the Electricity Consumer Price Protection Fund (ECPPF) managed by OEFC.

During periods where the average price of electricity is greater than the fixed rate of 4.3 cents per kWh, the balance is funded by the ECPPF. Conversely, the ECPPF will receive funds during periods where the average price of electricity is lower than the fixed rate of 4.3 cents per kWh. Expenditures from the Fund amounting to $1,461 million in the year were reduced by a portion of the rebate paid by OPG under the Market Power Mitigation Agreement (MPMA) in the amount of $796 million leaving a net cost in OEFC of $665 million.

## 14. Contingencies and Guarantees

OEFC is involved in various legal actions arising out of the ordinary course and conduct of business, some of which relate to the former Ontario Hydro prior to the establishment of OEFC on April 1, 1999. Under the terms of the April 1, 1999 restructuring of Ontario Hydro, each successor entity (OPG, Hydro One, ESA and IMO, and their respective subsidiaries) is responsible for any liabilities relating to those operations of the former Ontario Hydro that were transferred to it. In the event any such liabilities remained with OEFC, the successor entity is also required to indemnify OEFC. With respect to legal actions relating to operations of Ontario Hydro that were retained by OEFC, the outcome and ultimate disposition of these legal actions is not determinable at this time. Accordingly, no provision for the above actions is reflected in the financial statements. Settlements of these contingencies, if any, will be reflected in the period in which settlement occurs.

Subject to a $10 million and $20 million deductible respectively, OEFC has agreed to indemnify Hydro One and OPG with respect to any adverse claim to title to any asset, right or thing transferred or intended to be transferred to the companies at April 1, 1999 and any failure of the transfer order to transfer such assets, rights or things and with respect to payment to or from or other dealing with any equity account of Ontario Hydro, including certain related litigation. The Province of Ontario has guaranteed any liability arising from these indemnifications.

OEFC is contingently liable under guarantees given to third parties that have provided long-term financing to certain independent power producers in connection with the power purchase agreements described in Note 10. These guarantees total approximately $113 million at March 31, 2003 (2002 - $124 million).

# Corporate Governance

| **Karen Sadlier-Brown** | Assistant Deputy Minister, Corporate and Electricity Finance Division, Ontario Financing Authority.<br>[Appointed from July 2003 to July 2006] |

## Corporate Governance

Appointed by the Lieutenant Governor in Council, the Board of Directors is responsible for supervising OEFC's business. OEFC retains services from the Ontario Financing Authority (OFA) and the Ministry of Finance to carry out its daily operations. The Board of Directors meets at least quarterly. It monitors OEFC's financial performance and approves OEFC's financial policies and its business plan for each year.

The Minister of Finance reviews and approves the OEFC's annual business plan, which contains long- and short-term objectives and reports on accomplishments for the preceding year. In keeping with the government's Agency Establishment and Accountability Directive, once every three years the Minister of Finance recommends the OEFC business plan to Management Board of Cabinet for approval.

The OEFC Audit Committee supports the Board of Directors with the review and recommendation for approval of OEFC's financial statements. The Audit Committee also recommends the annual internal audit plan and reviews the findings of the internal auditors regarding the adequacy of internal controls. The OEFC Audit Committee has recommended to the Board that the legislation regarding the timing of the delivery and tabling of the Corporation's annual report, including audited financial statements, be made consistent with the timing of the Province's Public Accounts, because of the relationship of OEFC's statements to the Public Accounts.

OEFC's Board also has a NUG Committee. This committee makes decisions concerning OEFC's Power Purchase Agreements. Membership includes OEFC Directors representing the Ministry of Finance and the Ministry of Energy.

## Corporate Policies

### Overview and Structure

### Board of Directors

- Reviews and approves key risk management policies.
- Supervises the management of the OEFC's debt portfolio and NUG power sales.

**Audit Committee**

- Oversees the financial reporting process on behalf of the Board of Directors.
- Reviews key risk management policies, internal audit reports and the financial statements.

### Management Committees

**Risk Management Committee**

- Reviews daily market updates and outlook.
- Reviews current borrowing, investing and debt management positions and strategies.

**Borrowing Strategy Committee**

- Reviews economic conditions, fiscal plan and capital markets outlook.
- Reviews borrowing and debt management activities and management reports, cash flows and the annual financing charge forecast.
- Reviews operational limits and procedures related to financial operations.
- Approves amendments and exceptions to approved risk management policies and procedures.
- Approves risk management policies for recommendation to the Board of Directors.

### Risk Control Division

- Monitors, measures and assesses market risks and performance associated with borrowing and NUG power sales.
- Develops and updates risk management policies in response to best industry practices in an evolving business environment and underlying risks of the programs and compliance with all policies on a timely basis to senior management and the Board of Directors.
- Monitors compliance with Board-approved policies, limits and procedures, and monitors portfolio performance and trends.
- Assesses counterparty credit risk and manages rating agency relations.

## Risk Management Policies and Procedures for Borrowing and Debt Management

The OFA incurs credit, market, operational and liquidity risks for OEFC in managing the debt of OEFC. These risks are managed in accordance with risk management policies approved by the OEFC Board of Directors. The Board and management committees establish and approve risk management policies and monitor OEFC's compliance with the policies and the performance of the OFA's OEFC-related capital market activities.

OEFC has a number of policies in place to mitigate financial risks: market risk, credit risk, operational risk and risks related to the use of derivatives. These policies were developed following the Group of Thirty's best practices, the guidelines and directives of regulatory bodies, such as the Office of the Superintendent of Financial Institutions of Canada, the Bank for International Settlements (BIS), and consulting with Canadian bank representatives on their risk management practices.

With the advent of the electricity market and the exposures inherent in the management of the NUGs contracts and related transactions, policies specifically addressing these exposures were recommended to the Board of Directors and approved. These policies and associated procedures will be used to develop and implement an infrastructure for monitoring and assessing NUG-related exposures.

### Market Risk

- Market Risk is the risk of financial loss attributable to changes in the values of financial indices including interest rates, credit spreads, foreign exchange rates and liquidity condition.
- This policy provides a framework for borrowing and integrates several aspects dealing with the management of market risk.
    - Foreign Exchange Exposure Limit - OEFC's exposure to unhedged foreign currencies is limited to 20 per cent of outstanding debt. This limit will be reduced to five per cent as soon as feasible and prudent. Foreign exchange exposures are limited to Group of Seven currencies and the Swiss franc or the equivalent currencies (i.e., the Euro).
    - Floating Rate Exposure - OEFC is limited to a maximum floating rate exposure of 20 per cent of debt.
    - Risk Management Loss Limits - The total amount of financial losses resulting from market risk and the default of counterparties shall not exceed a debt cost loss limit specified by the Board of Directors. Additionally, the CEO establishes a debt management trigger level to ensure that losses will not reach the debt cost loss limit. The trigger level is included in the Annual Financing and Debt Management Plan.
    - Risk Measurement - OEFC identifies and quantifies exposures to market risk in its Annual Financing and Debt Management Plan to ensure that risk exposures and losses remain within the approved exposure and loss limits. Exposure to market, credit and liquidity risk is measured daily.
    - Debt Maturity Profile - When issuing new debt on behalf of OEFC, the OFA will aim for a smooth debt maturity profile to diversify the interest rate risk for the refinancing of maturing and floating rate debt.

### Credit Risk

Credit risk is risk that a counterparty does not meet, or defaults on its obligations. Credit risk arises when the OFA undertakes financial and derivative transactions on behalf of OEFC. The minimum credit rating of a counterparty for a new swap transaction is AA- and R1-mid for money market investments. The resulting exposure is capped at mark-to-market limits depending on the counterparty's credit rating and capital base.

## Operational Risk

OEFC's operational risk is managed through procedures that deal with model risk, legal risk, settlement risk and information systems risks.

**Model Risk**

OEFC's pricing models are regularly reviewed for accuracy and compliance with industry standards. OEFC's valuation of financial instruments is also reviewed regularly.

**Legal Risk**

Procedures and standards have been implemented to ensure that documentation of OEFC debt issues, debt management and money market transactions meet industry standards and is enforceable.

**Settlement Risk**

On behalf of OEFC, the OFA has established internal control procedures and systems, involved external service providers and trained its staff to ensure that transactions are settled correctly and in a timely manner, are recorded accurately, and that service providers are appropriately involved.

**Information Systems Risk**

As OEFC's service provider, on behalf of OEFC, the OFA has taken measures to protect computer systems and access to the offices of the OFA, monitoring the computer room environment, the establishment of a back-up power source, regular data back-ups, off-site storage, firewalls to protect against unauthorized network intrusions and computer virus scanning. Security is reviewed periodically and when major changes occur.

## Use of Derivatives

Derivatives are used solely to advance the objective of providing OEFC's financing and liquidity requirements in a sound and cost-effective manner. Derivatives are used to manage exposures arising from existing and planned debt, and in a manner consistent with the Annual Financing and Debt Management Plan. Risks arising from the use of derivatives are identified, monitored, evaluated and managed prudently.

## Risk Management Policies for NUG Power Sales

## Market Risk

The NUG Market Risk Policy for Electricity Risk Management provides for a framework governing the use of electricity derivatives for the program, as well as volumetric limits on the level of forward sales and financial loss limits. A key requirement for electricity forwards and other derivative contracts is OEFC's ability to price and measure the risk associated with them. The policy mandates an annual NUG risk management plan, which delineates the assumptions for the upcoming fiscal year, including economic and electricity price assumptions, base case and contingency plans for managing and diversifying risk, and supply availability assumptions. A risk assessment for all assumptions is also required.

## Credit Risk

OEFC incurs credit risk in the course of its forward transactions with counterparties in the marketplace. This policy addresses that risk through minimum credit ratings and through exposure, term-, and concentration limits. Additionally, the policy sets out requirements for documentation and enforceability. Monitoring and reporting of credit exposures and credit quality are performed by Risk Control Division.

## Supply Availability Risk

Supply Availability Risk is the risk associated with having to meet contractual obligations associated with portfolio hedging transactions through open market transactions. As with financial market activities, management of OEFC's NUGs electricity generation portfolio must assess both market and counterparty credit risks. In addition, managing these risks is further complicated by such risks as equipment breakdown, fuel availability and fuel costs, all of which could affect OEFC's ability to meet its contractual obligations through NUGs supply.

## Risk Management Reporting

At its regular quarterly meetings, the OEFC Board of Directors is informed of OEFC's activities, positions and risk exposures through three types of reports:

- CEO's report;
- Exposure and performance report; and
- Exception report provided by the Director of Risk Control, OFA.

OEFC's Annual Financing and Debt Management Plan, which indicates how OEFC risk exposures and losses will be maintained within the approved exposure and loss limits, is approved by the Board of Directors each year.

The CEO provides the Board of Directors with a progress report on the implementation of the Annual Financing and Debt Management Plan, staffing and other administrative and operational matters. The CEO also reports on OEFC's compliance with applicable government directives, and OFA Legal Counsel reports on compliance with applicable laws.

In addition, OFA Management is kept informed of OEFC's risk exposures and positions on a daily basis.

***Special Report – The Fair Hydro Plan: Concerns About Fiscal Transparency, Accountability and Value for Money***

| Section # | Page # | Comments | Supporting Evidence Attached? Y/N |
|---|---|---|---|
| General | Throughout | The 8% Provincial Rebate is often referred to as a "HST rebate." The program is an 8% rebate on the consumer's pre-tax electricity charges. While this is equivalent to the provincial component of HST, the program is not a tax rebate. Tax is assessed in full and is not credited back to customers.<br><br>Suggest correcting this reference throughout the OAG report. | N |
| | Several | Label – There is no OPG Trust entity rather it is the Fair Hydro Plan Trust. This should be changed throughout the OAG report. | N |
| Key Issue | 1 | First sentence below the recommendations – implies the Province has passed legislation dictating the accounting for the transaction. This is factually incorrect. | N – Legislation – already in the report |
| Summary of Concerns | 2 | *"…the government's intention in creating the accounting/financing design to handle the costs of the rate reduction was to avoid affecting its fiscal plan."*<br><br>The government's intention was to provide electricity rate relief to current ratepayers, including by more fairly allocating costs for specified consumers, with the Global Adjustment (GA) cost amounts still ultimately borne by ~~(~~specified~~)~~ electricity ratepayers, as beneficiaries of those electricity system costs. | |
| Summary of Concerns | 2 | *"Our work included interviews and a review of documentation, including emails. We received all information we requested with one exception. The Ministry of Energy signed a contract,* ***with a retainer of $500,000*** ~~***cost not expected to exceed $60,000***~~ *~~for a maximum of $500,000~~, to* ***provide search services and to compile emails responsive to our request.*** ~~*receive help from a law firm to review the Ministry's emails before providing them to us.*~~ *At the time we completed this Special Report, the Ministry had* ***provided us with*** ~~***over 4,000***~~ ***6,940 emails and attachments, with more expected and the costs are not expected to exceed $60,000***~~*. still not provided us with all of its emails, which we requested on May 31, 2017."*~~<br><br>Updated statement with language in "bold and underlined" and remove text in "strike-out". Although the retainer agreement includes a cap of up to $500,000 as of September 27, 2017 only 41,775.75 has actually been spent. In addition, the Ministry has provided 6,940 emails and attachments ~~4,063 documents,~~ as of October 3, 2017~~September 26, 2017~~. The Ministry does not intend to spend more than $60,000 on this request. | ~~TBD~~NY |

|---|---|---|---|
| | | | |
| Summary of Concerns | 3 | *"… so **IESO will sell its statutory right to recover the shortfall and use the proceeds of that sale to recover the shortfall** ~~the government needs to borrow cash to cover the shortfall~~"*<br><br>Updated statement with language in "bold and underlined" and remove text in "strike-out". This statement is factually incorrect in two respects. First, in its reference to "government". It is Independent Electricity System Operator (IESO) that needs to cover the shortfall. The IESO is not the "government" because IESO is not owned by the Crown, and under statute (Electricity Act, 1998) is explicitly not an agent of the Crown. Second, in its reference to "borrowing cash". IESO is not borrowing cash to cover the shortfall (except initially). IESO can sell its statutory right to recover the shortfall and use the proceeds of that sale to cover the shortfall. | N |
| Summary of Concerns, 2.0 | 3, 10 | The report concludes that as a result of the government's decision to not borrow directly in connection with GA refinancing, an additional $4 billion in interest costs will be imposed on consumers over the life of OFHP, as OPG/OPG trust must pay a higher rate of interest compared to the Province.<br><br>This $4 billion figure was sourced from the Financial Accountability Officer's (FAO) May 2017 report on OFHP; however, accumulated interest is projected to be considerably less than estimated in the FAO's May report. Total borrowing for the program has been revised down substantially since May, from $27.7 billion to $18.5 billion, and OPG's borrowing costs are now forecast to be lower than original estimates. | N |
| Summary of concerns | 4 | The first bullet on the page notes that the FHP legislates the accounting which is factually incorrect and should be deleted. | N – Legislation – already in the report |
| Summary of Concerns | 4 and throughout | The AG report notes throughout that the Ontario Rebate for Electricity Consumers (OREC) is 8% of the OFHP's 25% bill reduction for the proxy consumer.<br><br>The 25% figure is an after-tax figure whereas the 8% figure is before-tax (i.e., 8% before tax is equivalent to 7.1% after-tax). Note: The breakdown is more like: 7% (OREC) + 16% (GA Refinancing) + 2% (tax-basing Ontario Electricity Support Program and Rural or Remote Rate Protection). | N |

|---|---|---|---|
| | | Suggest correcting this reference throughout the AG report. | |
| Summary of Concerns | 4 and throughout | Under OFHP, consumers of all sizes will benefit from shifting cost recovery for the Ontario Electricity Support Program (OESP) and the majority of the Rural or Remote Rate Protection (RRRP) program from electricity bills to provincial revenues.<br><br>This action is expected to lower regulatory charges for all consumers by approximately $3/MWh (or about 2% for a residential consumer). The AG report does not mention this aspect of OFHP.<br><br>Suggest including the two sentences above in the AG report and adjusting the commentary in the report accordingly such that this information about RRRP and OESP costs are reflected in the report. | N |
| Summary of Concerns | 4 and throughout | The AG report indicates on several occasions a 17% reduction in ratepayers electricity bills. However, due to the fact that the 8% OREC is a before-tax rebate and that the shifting of social programs (i.e., OESP and RRRP) to the tax-base constitutes a portion of the 25% reduction, the impact of GA refinancing on the proxy consumer's bill is about 16%.<br>Note: The breakdown is more like: 7% (OREC) + 16% (GA Refinancing) + 2% (tax-basing Ontario Electricity Support Program and Rural or Remote Rate Protection).<br><br>Suggest correcting this reference throughout the AG report. | N |
| 1.1 | 5 | ~~*"The government made a critical decision early in the process…it should not disclose the deficit incurred from this required borrowing, nor should it add to the amount the government would report as Ontario's net debt."*~~<br><br>~~Add additional language to this sentence to provide for a more balanced tone.~~DSuggest delete ~~ing~~ this statement. It is not a fair characterization as no deficit was incurred. The policy intent was always that electricity consumers would receive the benefits and be responsible for paying back the debt over the long term. | N |
| 1.2 | 6 | ~~Private-sector accountants, lawyers, and bankers were engaged to develop and support the plan.~~<br><br>Delete this sentence and replace with the following the following to more accurately portray the role of third party experts: "The third party experts were consulted to provide advice and ensure appropriate due diligence was completed." | N |

| Section # | Page # | Comments | Supporting Evidence Attached? Y/N |
|---|---|---|---|
| | | | |
| 1.2 | 6 | *"Working through ~~and around~~ the recognized risks to achieve the desired accounting results…ongoing spending on private-sector advisers had exceeded $2 million when we completed this Special Report."*<br><br>~~Delete this sentence to provide for a more balanced tone.~~ Delete ~~removing~~ reference to "around" as it is inaccurate. ~~as g~~Government was mitigating risks not working around them. | N |
| 1.2 | 6 | The design options were not all rejected because they would show an increase in the deficit or net debt. For example, one option considered was to have the LDCs finance the difference between the amounts paid to the generators and the amounts collected from the ratepayers. This was rejected because of the inability of some of the LDCs to finance the balances. This option was detailed in an email provided to the OAG from Cindy Veinot dated February 2, 2017 at 7:02 pm. | Copy of email |
| 1.2 | 6 | Please provide a copy of the emails that support these bullets on this page. | N~~/A~~ |
| 1.3.1 | 7 | The cumulative accounting results shown in figure 3 are not in accordance with Canadian PSAS. The reference to figure 3 and figure 3 should be deleted. | N |
| | 7 | Implication in several sections that the OFHP roll out results in a "less transparent" process. With the financing plan, similar to several jurisdictions in the U.S., and a form or securitization that is commonly used in the financial markets the impact of the plan will be transparent. Credit rating agencies, securities regulators and the public at large get full information and full reporting of the impacts of the OFHP that are visible and specific. | N |
| | 8 | *"Province shows no increase in net expense because the revenue OPG earns from charging the OPG Trust interest and administration and other fees offsets the interest expense on the amount borrowed…"*<br><br>This is not factually correct as stated. There is no explicit legislative or regulatory requirement for the revenue Ontario Power Generation (OPG) earns from charging the OPG Trust interest and fees to bear any relationship to the interest expense incurred by ~~Ontario Financing Authority (OFA)~~ the Province in borrowing money for its equity infusions into OPG. | ~~TBD~~N |

| Section # | Page # | Comments | Supporting Evidence Attached? Y/N |
|---|---|---|---|
| | | Under Canadian PSAS, assets are defined by three characteristics: a) they embody future economic benefits (of which one is the ability to generate future cash flows); b) the entity has full control in order to access those benefits, and c) they must result from a past event.<br><br>The decision by the IESO to apply the rate-regulated rules under US GAAP does not create an inconsistency with the definition of an asset under Canadian PSAS. The shortfall which is being reported as an asset by the IESO embodies a future economic benefit based on the requirement of the specified ratepayers to pay these deferred amounts in the future. IESO has control to access those benefits either by selling the regulatory asset or by holding the asset until the payments by the specified ratepayers are received in the future. Finally, the asset results from a past event which is the payment to the generators for the generation of power.<br><br>It is important to distinguish legislating the accounting from legislating the right for the government to recover amounts from specified ratepayers in the future, based on costs incurred today. Enabling the IESO to sell the future right to recover of this shortfall from specified ratepayers provided under the *FHP Act* is not legislating the accounting. The statute does not direct the government how to account for the shortfall. The statute provides for recovery of the current shortfalls from the specified ratepayers in the future, reflecting the policy decision to have the GA refinancing borne by the specified ratepayers, and in doing so, creates an obligation on the specified ratepayers to pay an amount in the future. The obligation on the part of the specified ratepayers is a future economic benefit to the government. | |
| Summary of Concerns<br><br>3.0 | 3-4<br><br>11 | The following text should be removed from the report (p. 3-4):<br><br>~~*"The government applied a correct accounting treatment for the electricity sector's stranded debt in 1999/2000, and there is no good reason for it not to apply the same accounting treatment to the debt that will accumulate as a result of the Fair Hydro Act's rate reduction"*~~<br><br>(p. 10-11)<br><br>~~"**3.0 Historical Ontario Precedent in Proper Accounting For Electricity Costs Not Yet Being Billed to Ratepayers**~~<br><br>~~There is a precedent for Ontario electricity costs being billed to ratepayers well after they were incurred.~~<br><br>~~In 1999, the government of the day made a policy decision to restructure the Province's electricity sector. The policy decision resulted in the government becoming responsible for the former Ontario Hydro's net debt of $19.4 billion (technically referred to as "unfunded liabilities" or~~ | OEFC 2000-2001 [and 2016-17 ]Annual Report[s] |

**Commented [RK2]:** Suggest providing the 2000-2001 Annual Report instead, as it shows the first two years of OEFC's financial statement results, including the "revenue pool residual" (or "proxy DRC"), which was the allocation to OEFC from the continuing bundled rate of the old Ontario Hydro that continued on until the market opened to competition on May 1, 2002, and the rates were unbundled and the DRC began. Could also include the 2002-03 Annual Report too, which discusses the revenue pool residual amounts coming in until the DRC started.

Could also include the final Ontario Hydro Annual Report too, which shows its positive operating results, before writedowns, and significant debt pay down, under the amounts of revenue collected through the bundle rate (which was frozen for about eight years (referred to as six years of stable rates in the OH AR plus the first two years of OEFC) – demonstrating the debt cost recovery was in place before April 1, 1999.

|---|---|---|---|
| | | ~~"stranded debt"). The costs that created the debt were incurred over a number of years before 1999, but ratepayers had not been billed for them at the time. Instead, starting in 2002, ratepayers began paying down the stranded debt through a "debt retirement charge" on their bills.~~<br><br>~~The collection of the debt retirement charge and the Fair Hydro future reduction recovery are similar in that both stem from government policy decisions and did not result from an independent regulatory process. As well, the payments were/will be made much later, "after the fact." However, in the 1999/2000 fiscal year, the government followed Canadian Public Sector Accounting Standards properly, and included the debt and the expenses related to it in the Province's consolidated financial statements. When the debt retirement charge was added to electricity bills, the charge to ratepayers was taken in as revenue in the Province's consolidated financial statements. This treatment allowed the government to track ratepayer costs and taxpayer costs separately, helping to ensure that only ratepayers, not taxpayers, pay for electricity services.~~<br><br>~~The same accounting should be applied to the Fair Hydro Plan rate reduction: include the debt being accumulated through the 10 years of the reduction as Provincial debt, and record interest expense on this debt as an expense in the Province's consolidated financial statements. When the clean energy adjustment is added to electricity bills, the amount charged to ratepayers can then be taken in as revenue in the consolidated financial statements, as well as be tracked separately from taxpayer expenses/revenue"~~<br><br>The report makes a comparison between the OFHP and the OEFC stranded debt. There are, however, crucial differences.~~,~~ T~~t~~he latter ~~was~~ had already been incurred when the restructuring took place. In the case of the OFHP, the difference between what ~~is~~ will be collected and what will be paid ~~out~~ to ~~the~~ generators ~~is going to~~will be set up as an asset and, in accordance with the accounting definition, generates a specific revenue stream in the form of the CEA.<br><br>Also, it is important to note that the 1999 restructuring led to an "unbundling" of the electricity rate. Prior to the 1999 restructuring and 2002 market opening, there was a "bundled rate" for electricity that included cost recovery of generation and transmission costs, operating and capital – including debt costs, as well as central market operations costs. This was a normal regulatory practice which matched the timing of the capital cost recovery with the benefit to the ratepayer. The DRC represented the unbundling of a portion of the debt service costs. ~~that~~ It effectively ~~represented the effective amortisation~~ amortized the ~~of~~ cost ~~recovery~~ of the investments in long-lived assets (including debt incurred). ~~to cover the cost to invest in long-lived assets. This was a normal practice and would have been very unusual to recover the investment capital outlay in the years invested from those ratepayers and unfair, as the benefit of those assets would be in place for decades. As such, it was fair to incur debt and recover those costs over time, including as continued on through the DRC post-1999.~~ | |

| Section # | Page # | Comments | Supporting Evidence Attached? Y/N |
|---|---|---|---|
| | | The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period to better reflect the expected lives of those assets (vs the contract lengths, that may be shorter than the expected useful like of the assets). The difference between the 1999 restructuring and the OFHP is that the DRC continued to pay down, over time, debt that had already been incurred, while under the OFHP, an asset is being created to ensure a fair allocation of electricity costs between current and future ratepayers. The intention of the OFHP is to be forward looking to ensure that ratepayers are fairly paying their share of current and future costs, while the DRC was backward looking, replacing part of a bundled rate that was already spreading the cost recovery of the debt over time.<br><br>The penultimate paragraph in section 3.0 notes the government, in 1999/2000, "…included debt and the expenses related to it in the Province's consolidated financial statements". This statement is incorrect. The recording of the stranded debt never resulted in an expense in the consolidated financial statements. The amount of the debt was charged directly to accumulated deficit. | |
| | 12 | Related to the above argument on the value / existence of an asset – The "substance over form"<br>The government differentiated the reductions in consumers' electricity bills that are being borne by the tax-base as a whole (i.e., 8% Rebate, certain programs to help rural customers) from those that have a long term benefit (the 17% referenced in the AG report). By establishing the deferral amounts off today's bill and charging it to future consumers, that is providing substance by ensuring future ratepayers pay their share of system costs at the right time. | |
| | 13 | The role of the OEB and its mandate, is provided in legislation. It is not uncommon for government policy, through Regulations, to provide the ground rules over which the OEB is to preside. That is the case with the OFHP itself as the Act and the various regulations provide the direction and processes over which the OEB is to exercise oversight, review and make conclusions on submissions brought forward (rates to charge certain customer classes, basis of interest and appropriateness of fees charged to ensure they are benchmarked and reasonable, etc.). | |
| 4.3 | 13 | The first sentence of the second paragraph states:, As introduced in Section 1.3.2, the asset that the Fair Hydro Act creates is referred to as a "regulatory" or "rate-regulated" asset.<br><br>The terms regulatory and rate-regulated are not interchangeable and the sentence suggests they are. Regulatory asset is a defined term in the legislation and rate-regulated asset is an accounting concept used to appropriate account for rate-regulated entities meeting the appropriate criteria. In addition, the legislation does not create an asset. The recording of any asset resulting from transactions of the Fair | N |

**Commented [MD(1]:** OFA comment:
FYI for OPCD – we changed this from "accumulated surplus" to "accumulated deficit" to be consistent with the way it is reported in the Budget.

**Subject:** Re: Updated Materials

In our paragraph near the end of the government response, the second mention of FAO should have a "the" in front of it. One time in that paragraph we spell out thirty year, and in the other reference we say 30-year. We should be consistent. I prefer the former. We should also include the thirty year reference in the chart, on page 2 in the second box on Summary of Concerns where we reference the $4 billion amount (why is this marked 2.0, but the other Summary of Concerns boxes don't have numbers in their title?)

Also in the chart, the second last paragraph of the section on the DRC, last sentence, has the word "way" instead of "was". In the first paragraph, I think it reads more clearly if, in the last sentence, between "as an asset and" and "in accordance with" we stick in a comma, or we move that whole clause to the end of the sentence after CEA and end with "in accordance with the accounting definition." Since I'm being unnecessarily fussy, let me even go as far as to suggest if we do that, we

could get rid of the second and in the sentence: "... will be set up as an asset which generates a specific revenue stream in the form of the CEA, in accordance with the accounting definition. "

ONTARIO HYDRO FINAL ANNUAL REPORT
JANUARY 1998 – MARCH 1999

Ontario Hydro

**CORPORATE PROFILE** Ontario Hydro ceased operations on March 31, 1999; its assets and functions were transferred by provincial statute to two commercial successor corporations, Ontario Power Generation Inc. and Ontario Hydro Services Company Inc., as well as to two not-for-profit agencies, the Independent Electricity Market Operator and the Electrical Safety Authority.

Ontario Hydro, a self-sustaining corporation without share capital, was created by provincial statute and operated under the *Power Corporation Act* of Ontario, which has now been succeeded by the *Energy Competition Act, 1998*. Bonds and notes issued by Ontario Hydro prior to April 1, 1999, are guaranteed by the Province of Ontario.

Until the demerger of the company on April 1, 1999, Ontario Hydro served 108 direct industrial customers, almost one million retail customers and 255 municipal utilities, which in turn serve almost 3 million customers.

Ontario Power Generation (OPG) inherited Ontario Hydro's generating portfolio, making it one of the largest power producers in North America in terms of installed capacity. The OPG system includes 69 hydroelectric stations, three nuclear sites and six operating fossil-fueled stations. Total installed system capacity is approximately 31,000 megawatts. Ontario Hydro's total energy sales in 1998 were almost 139 terawatt-hours.

Ontario Hydro Services Company (OHSC), the other successor company, is an energy-services-based transmission and distribution company. It owns and maintains 29,000 kilometres of transmission lines, 114,700 kilometres of distribution lines, 240 kilometres of high-voltage underground cable, 256 transformer stations, 928 distribution and regulating stations and 20 microwave stations. OHSC also retains the retail business formerly held by Ontario Hydro, which serves over 950,000 customers, and the transmission and generating business for 23 remote communities in Northern Ontario.

## LETTER TO THE MINISTER

To the Honourable Jim Wilson,
Minister of Energy, Science and Technology:

I am pleased to submit to you Ontario Hydro's report of the financial position of the Corporation, as of March 31, 1999, when operations ceased, in accordance with provincial statute. This 15-month report also contains discussion and analysis of issues and initiatives for 1998-99 and beyond.

We want to thank your staff at the Ministry of Energy, Science and Technology for their cooperation during this period of great change in Ontario's electricity sector.

WILLIAM A. FARLINGER

CHAIRMAN

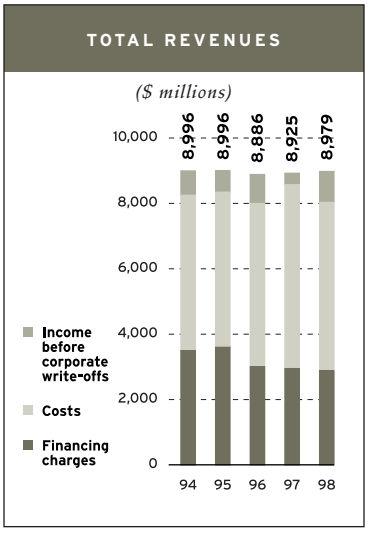
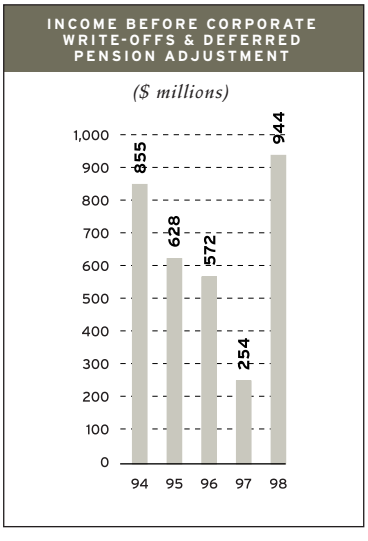
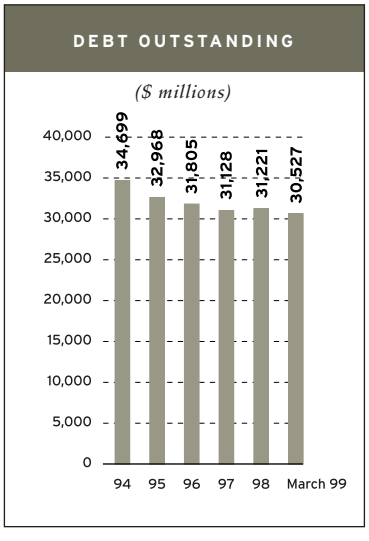
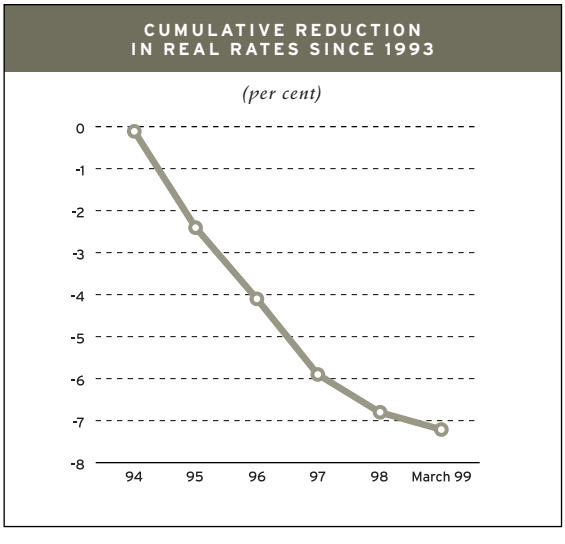
# Ending on a High Note

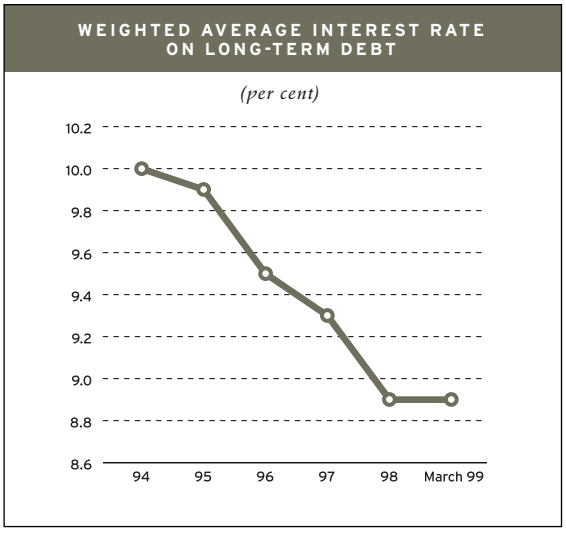
**DESPITE THE MANY OPERATIONAL AND RESTRUCTURING CHALLENGES OF 1998 AND THE FIRST QUARTER OF 1999, ONTARIO HYDRO'S FINANCIAL HISTORY CONCLUDES ON A HIGH NOTE.** REVENUES AND NET INCOME WERE STRONG AND SIX YEARS OF STABLE RATES HAVE SIGNIFICANTLY REDUCED ELECTRICITY COSTS AS A PROPORTION OF PROVINCIAL ECONOMIC ACTIVITY, BOOSTING ONTARIO'S ENERGY PRODUCTIVITY AND, AS A RESULT, ITS INDUSTRIAL COMPETITIVENESS.











# Reliability and Commitment During Challenges and Change

**WILLIAM FARLINGER**
Chairman

**RONALD OSBORNE**
President & CEO

**FROM WINTER ICE STORM TO SUMMER HEAT WAVE, FROM THE NEED TO RELIABLY MEET ONTARIO'S ELECTRICITY DEMAND TODAY TO THE MANDATE TO LOOK BEYOND ONTARIO TOMORROW, ONTARIO HYDRO'S FINAL 15 MONTHS AS AN OPERATING ENTITY WERE FILLED WITH GREAT CHALLENGES AND GREAT CHANGE.** THROUGHOUT IT ALL, OUR EMPLOYEES DISPLAYED EQUAL MEASURES OF COOPERATION AND COMPETITIVENESS. THEY ARE ONTARIO HYDRO'S MOST VALUABLE LEGACY TO THE FUTURE.

**We are preparing for competition; our aim is to make our commercial successor companies successful in the new energy services marketplace.**

This is the Final Annual Report of Ontario Hydro, which ceased operations on March 31, 1999; its assets and functions have been transferred to successor companies and agencies. For this reason, the 1998 Annual Report was delayed to include a report on the company's final quarter.

The 15 months since our last Annual Report was a historic period for Ontario Hydro and the province's electricity industry. It began with the most devastating ice storm on record and the largest emergency power restoration effort ever undertaken by Ontario Hydro and its municipal utility allies in Eastern Ontario. Record summertime peak demand briefly approached the limits of our current in-service generating capacity. By the end of 1998, a new provincial statute, the *Energy Competition Act, 1998*, had rewritten the fundamental rules under which our industry has operated throughout most of this century. And these are only the major highlights of the period.

Despite unprecedented demands on Ontario Hydro's people, everything that happened during this period strengthened our conviction that we will be prepared for competition and that both commercial successor companies will be successful in the emerging North American energy services marketplace.

Our response to the ice storm showed how deep the reservoir of our organizational and technical skills really is and how committed our people are to the safety and well-being of our customers, regardless of the conditions that must be braved or workloads endured. They proved once again that reliability begins with people and that only people can sustain it.

But the wires networks are only one side – the delivery side – of the reliability equation. The other is supply reliability, and here too Ontario Hydro's generation staff, at our nuclear, hydroelectric and fossil-fueled stations, proved their resourcefulness and commitment to customers.

To replace the output of reactors laid up under the Nuclear Asset Optimization Program (NAOP), the Fossil business boosted its production to its highest level in more than a decade, and did so without exceeding provincial air emissions regulations. In Hydroelectric, production was constrained by low water levels, but staff nonetheless extracted every possible kilowatt out of their facilities. Both businesses, along with Central Market Operations, helped ensure that Ontario suffered no supply interruptions during the record spikes in summer peak demand that threatened shortages in other areas of North America.

The Nuclear business made substantial progress towards its multi-year goal of moving performance back to the top quartile of world nuclear industry standards. When Ontario Hydro's generating portfolio was assumed by Ontario Power Generation Inc. (OPG) on April 1, 1999, nuclear production and capability factors were up; forced outages were down; most performance targets were exceeded; and new agreements with our unions gave us more operational flexibility to speed the recovery to excellence and help position the company to seize more quickly the growing opportunities in the U.S. power marketplace.

All of the above was accomplished, moreover, during the restructuring of the corporation in line with the passage of the *Energy Competition Act, 1998*. This legislation marks Ontario as the first jurisdiction in North America to plan to introduce electricity competition at both the

wholesale and the retail level at the same time. The Act ended Ontario Hydro's statutory existence and replaced it with two legally separate, commercially oriented successor companies – OPG and Ontario Hydro Services Company Inc. (OHSC). At the same time, Ontario Hydro's Central Market Operator became yet another separate entity, the Independent Electricity Market Operator (IMO), which will not only oversee the marketplace but direct the operation of the transmission system owned by OHSC. Municipal electric utilities and the Ontario Hydro Services Company alike are required to separate their monopoly wires businesses from their competitive merchant functions. Finally, Ontario Hydro's responsibility for electrical inspection throughout the province was transferred to a not-for-profit public agency, the Electrical Safety Authority.

These changes, large as they are, define only the barest framework of what Ontario's electricity marketplace will look like once competition is introduced by the government, expected sometime in the year 2000. Rules to assure both suppliers and customers of a level playing field must be fully developed before competition can begin. Much of this work was done during 1998 by the multi-stakeholder Market Design Committee (MDC), established at the beginning of 1998 to advise the government on detailed marketplace rules.

The MDC proposed a ten-year, staged reduction of Ontario Power Generation's control over provincial electricity supply, accompanied by measures to ensure price stability during the transition period when competition is first being established. As part of the proposal, the Ontario Hydro Services Company will make every effort to increase the province's interconnection capacity by 50% over the next five years. This plan has been accepted by the government. The future has begun.

The two commercial successor companies will use the remainder of 1999 to finalize their preparations for the open marketplace. One of their critical tasks will be to help customers prepare as well. Public education programs, through advertising and other forms of customer outreach, will be prominent this year. It is important to the success of customer choice that they understand the marketplace and their own energy service needs. Both companies will work with others in the industry to promote that understanding among all customers, not just their own.

In 1999, Ontario Hydro's successors will also finalize plans to ensure that the province enters the new millennium on January 1, 2000, without any interruption of power. Analysis, remediation, testing and Y2K-readiness certification of all critical systems was complete by the end of 1998. Coordination with suppliers, customers and interconnected systems will take place throughout the first half of 1999. All signs point to a successful rollover into 2000, but contingency planning is under way for the sake of prudence and public reassurance.

Throughout these final months, even as we planned for the future, we were determined not to lose our focus on what is most critical to our customers every single day: safety, reliability, service and competitive prices. We looked forward to the future, but we lived and worked in the present. Our customers' needs always took precedence. No matter what else may change for our successor companies, this basic operating principle will not.

As our successors move closer to a competitive future, they will build on Ontario Hydro's historic achievements. We expect that the new companies will contribute to the prosperity of Ontario in the next century at least as much as Ontario Hydro did in this one.

# Ontario Hydro's Successors

**THE YEAR 1998 WAS THE 92ND AND LAST FULL YEAR OF OPERATIONS FOR ONTARIO HYDRO. ON APRIL 1, 1999, IT WAS SUCCEEDED BY FIVE NEW SUCCESSOR ENTITIES, TWO OF WHICH ARE SEPARATELY MANAGED, COMMERCIALLY ORIENTED COMPANIES. THESE SUCCESSORS WERE INCORPORATED IN LATE 1998.**

### ONTARIO POWER GENERATION INC.

Ontario Power Generation (OPG) inherits Ontario Hydro's 31,000 megawatts of installed generating capacity at its 80 hydroelectric, nuclear and fossil-fueled stations, making it one of North America's largest power producers. OPG is very cost-competitive with U.S. generators in our region of the continent – a growing market for low-unit-cost, low-emission energy.

OPG facilities now supply about 85% of the province's electricity demand. Under an agreement with the provincial government, that proportion will be gradually reduced so that by about 2010, OPG will control no more than 35% of the province's total supply options. The company will increasingly compete in the U.S., as markets there open to competition.

### ONTARIO HYDRO SERVICES COMPANY INC.

Ontario Hydro Services Company (OHSC) is a holding company with two major holdings: the 29,000-kilometre transmission grid and the 114,700-kilometre distribution system. It serves almost one million customers, mostly in rural and remote communities.

OHSC plans to leverage its infrastructure assets and the expertise of its employees to enter new businesses that will contribute to the company's growth and shareholder value.

### INDEPENDENT ELECTRICITY MARKET OPERATOR

The Independent Electricity Market Operator (IMO) will serve two major functions in Ontario's electricity market. It will manage the spot market, reconciling transactions among buyers and sellers; and direct the operation of the provincial transmission system to ensure reliability and fair access under market rules. The IMO will have no commercial connection to any market participant.

### ELECTRICAL SAFETY AUTHORITY

The Electrical Safety Authority will continue Ontario Hydro's former inspection service. It is a stand-alone, self-funded entity with no commercial ties to any utility or other energy services company.

### ONTARIO ELECTRICITY FINANCIAL CORPORATION

The Ontario Electricity Financial Corporation is a Crown agent responsible for servicing and retiring Ontario Hydro's provincially guaranteed debt. It provides the risk management, cash management, banking and accounting services to manage and retire the debt. The OEFC is also responsible for administering the pension assets of Ontario Hydro until they can be allocated among the successor companies' pension plans.

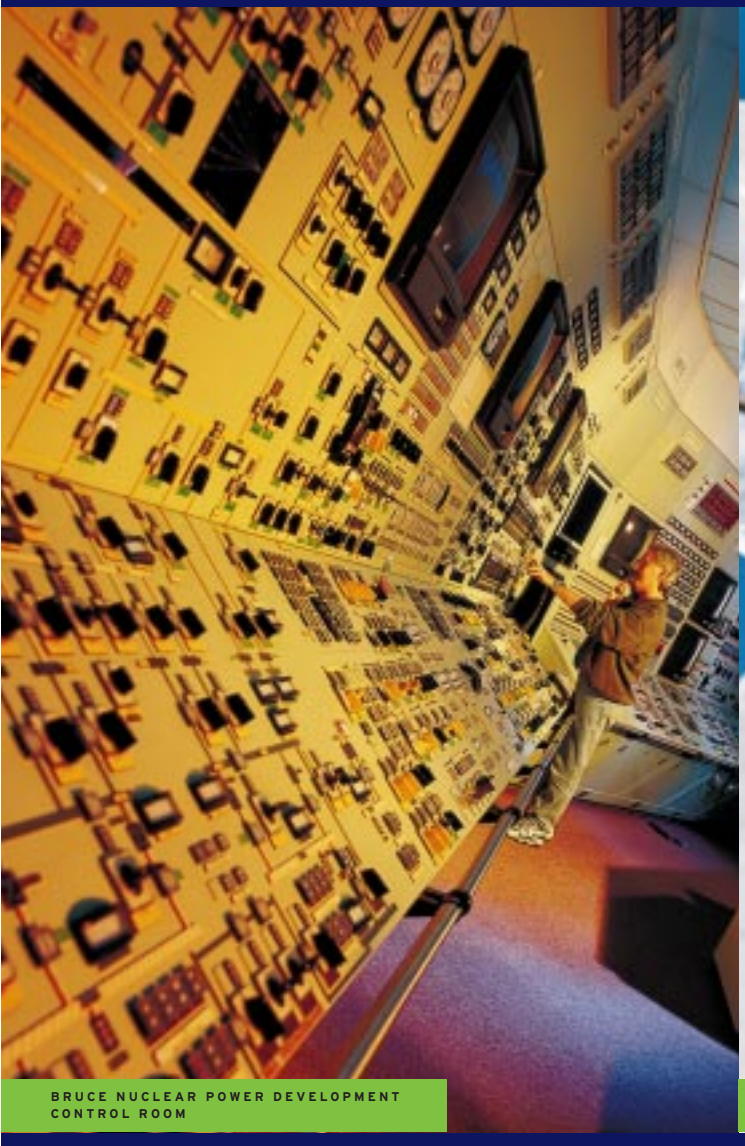
## OUR PARAMOUNT DUTY TO ONTARIO



BRUCE NUCLEAR POWER DEVELOPMENT CONTROL ROOM

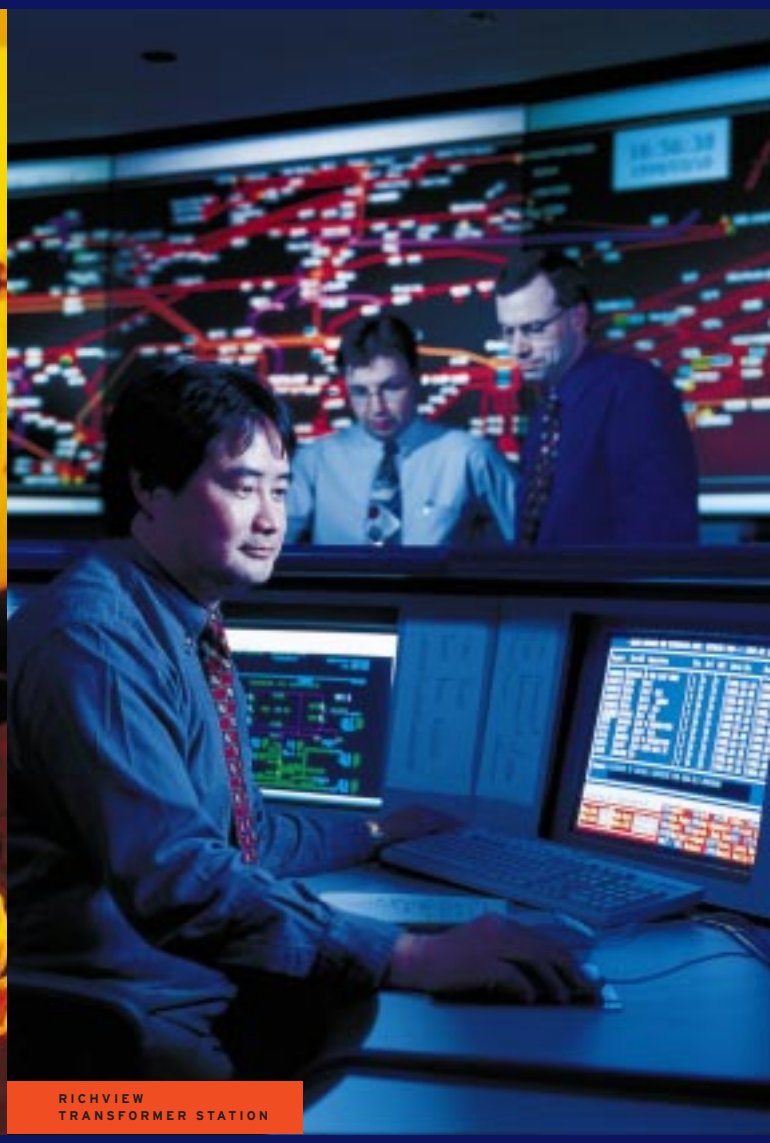
ONTARIO HYDRO CREW MEMBERS WORK TO RESTORE POWER DURING THE 1998 ICE STORM

**MAKING ELECTRICITY SAFER TO PRODUCE, DELIVER AND USE HAS ALWAYS BEEN THE INNERMOST OF ONTARIO HYDRO'S CORE VALUES – THE EVER-PRESENT TOUCHSTONE AGAINST WHICH WE TEST EVERYTHING WE DO.** We were never completely satisfied with anything less than a flawless record for employee and public safety in every aspect of Ontario's power system over which we have control. Nor will our successor companies be.

# Reliability

## YOU CAN COUNT ON US

NANTICOKE
GENERATING STATION



RICHVIEW
TRANSFORMER STATION

**FOR OVER 90 YEARS, ONTARIO HYDRO WAS ONE OF NORTH AMERICA'S MOST RELIABLE SUPPLIERS OF ELECTRICITY, A REPUTATION FOR PERFORMANCE THAT ITS SUCCESSOR COMPANIES WILL UPHOLD.** Our deeply embedded reliability culture was always evident in our ready adoption of new technologies and ongoing investments. But it was most vividly displayed during 1998's ice storm recovery.

# Competitiveness

## OUR BEST IS GETTING BETTER

Y2K TESTING AT THE MANBY TRANSFORMER STATION

GENERATOR UPGRADE AT SIR ADAM BECK 2 G.S.

**PRICE, QUALITY, INNOVATION, SERVICE – THE HALLMARKS OF COMPETITIVENESS.** Ontario Hydro's successor companies take pride in being among the worldwide utility industry leaders in all these areas. But we know that even the largest competitive advantage can be sustained only by continuous improvements in our knowledge, efficiency and responsiveness to customers. To hit our targets in future, we must aim even higher than we have in the past.

# Customer Service

## YOUR NEEDS DEFINE OUR GOALS

MARKHAM CALL CENTRE

AN ONTARIO HYDRO REPRESENTATIVE AT INCO SMELTING PLANT

**ENSURING A RELIABLE SUPPLY OF POWER WAS LONG ONTARIO HYDRO'S DOMINANT CUSTOMER SERVICE VALUE.** In the competitive marketplace, however, there are as many service objectives as there are customers; each relationship can be unique. OPG and OHSC, Ontario Hydro's commercial successors, see this new reality as an opportunity to provide an ever-expanding array of services that customers say they need and value.

**ONTARIO HYDRO HAS FULFILLED THE AMBITIOUS MANDATE OF ITS VISIONARY FOUNDERS.** A vast and sturdy network of wires brings electricity to everyone in Ontario. The hydroelectric potential of the province has largely been tapped. New technologies and processes have been readily embraced. Many major industries, the main source of Ontario's prosperity in this century, were attracted here by Ontario Hydro's low-cost, abundant power. These achievements are an enduring legacy to Ontario, as well as to the commercial corporations that succeed Ontario Hydro in the new era of customer choice. Bridging the accomplishments of the past and the opportunities of the future are four defining values: safety, reliability, competitiveness and customer service. Each of these is grounded in Ontario Hydro's traditional strengths. And each has been carried forward into the successor companies, guiding them to new achievements – beyond the imagination of Ontario Hydro's founders, perhaps, but not beyond their values.

# Operations Report

IN A TIME OF CLIMATIC EXTREMES, UNPRECEDENTED OPERATIONAL CHALLENGES AND HISTORIC RESTRUCTURING LEGISLATION, THE PEOPLE OF ONTARIO HYDRO NEVER LOST FOCUS ON THEIR CORE MISSION: RELIABLY AND SAFELY MEETING PROVINCIAL ELECTRICITY DEMAND. AT THE SAME TIME, THEY IMPROVED ASSET VALUE, LAUNCHED NEW SERVICES, ENHANCED CUSTOMER RELATIONSHIPS AND RESPONDED TO EMERGENCIES WITH PROFESSIONALISM AND COMMITMENT.

# The Demerger Project

**ORCHESTRATING THE LARGEST CORPORATE DEMERGER IN CANADIAN HISTORY** TO ENSURE ITS SUCCESSOR COMPANIES WERE FULLY OPERATIONAL ON APRIL 1, 1999, WAS ONTARIO HYDRO'S FINAL SUCCESS.

The seamless transition of Ontario Hydro into its successor companies without even a momentary interruption of critical activities was the mission of the Demerger Project launched in mid-1998. Nearly one hundred employees were directly assigned to the complex undertaking and over one thousand more were indirectly involved at some point. The project was guided by the provincial government's 1997 White Paper on electricity industry restructuring and its enabling legislation, the *Energy Competition Act, 1998*.

A Demerger Project Office was charged with coordinating, monitoring and expediting the approximately 800 separate project activities identified by a Task Implementation Committee and assigned to one of six Task Working Groups, each responsible for a key aspect of the transition. An overview of the project's accomplishments:

• **Corporate Finance Restructuring.** The financial architecture of the new business entities was defined, including their debt/equity structures, credit ratings, asset valuation, initial balance sheets and business plans. The approach taken for each successor business involved balancing three key considerations: establishing a competitive electricity marketplace; allowing for the enhancement of shareholder value; and optimizing the repayment of the provincially backed Ontario Hydro debt.

• **Governance/New Legislation.** Transfer Orders for transfer of assets, contracts, liabilities, litigation and staff to the successor companies were prepared for government execution, and operating licences for OPG and OHSC were obtained from the regulator, the Ontario Energy Board. This area of activity also involved coordinating Ontario Hydro's position on restructuring legislation and regulation and recommending a schedule for the proclamation of sections of the *Energy Competition Act, 1998 (ECA)* and repeal of corresponding sections of the law it superseded, the *Power Corporation Act (PCA)*.

• **Operations.** The specific functional requirements of each successor company were identified and addressed. These included each entity's organizational structure and staffing, initial operating plans and budgets, and due diligence in areas such as environment, contingency/emergency planning and First Nations considerations. Of particular importance in this area was coordinating the complex functional needs of large projects under way prior to demerger planning, such as the Nuclear Asset

**The Demerger Project built the bridge between the achievements of our singular past and the opportunities that lie in our separate futures.**

Optimization Plan, that were critical to the operation of a successor company.

• **Legal/Transition Issues.** All of Ontario Hydro's legislative and regulatory obligations under the *PCA* were transferred to a successor, in accordance with the new legislation. Some of these responsibilities, such as the regulation of municipal electric utilities, were assigned to regulatory bodies, such as the Ontario Energy Board.

• **Corporate Functions.** The necessary infrastructure for services and functions previously provided by a business unit in Ontario Hydro was developed for each successor. Services such as purchasing, health, security, telecom, real estate, information technology, corporate records, investment recovery and office space were provided through inter-company service agreements or make/buy decisions. Functions such as law, human resources, audit, finance, pension, treasury and corporate affairs were similarly addressed.

• **Human Resources.** Each employee of Ontario Hydro as of March 31, 1999, was transferred to a successor company, which had in place all necessary records and applicable labour agreements, as well as pension, compensation, benefits, and health and safety plans.

A full report on all the above activities was provided to each successor company prior to April 1. This report included an analysis of the subsequent work to be completed before the government declares the Ontario electricity market open to competition.

The success of the Demerger Project was twofold. Not only did it meet all its objectives, it also allowed everyone else in the corporation to continue devoting all their time and expertise to serving Ontario Hydro customers and, after the transition date, the customers of its successors. It built the bridge between the achievements of our singular past and the opportunities that lie in our separate futures.

# Excellence Today Means Competitiveness Tomorrow

**GETTING READY TO COMPETE AS ONTARIO POWER GENERATION IN WHAT WILL SOON BE ONE OF THE WORLD'S LARGEST POWER MARKETPLACES,** THE GENERATION COMPANY INCREASED OPERATIONAL EFFICIENCIES, TECHNOLOGICALLY UPGRADED SEVERAL FACILITIES AND MADE SUBSTANTIAL PROGRESS TOWARDS ITS GOAL OF BECOMING ONE OF THE WORLD'S TOP PERFORMERS.

## NUCLEAR

Ontario Hydro Nuclear (OHN) made substantial progress during the last 15 months towards its multi-year goal of bringing its operations back into the top quartile of global nuclear industry performance.

Early in 1998, the Board of Directors approved the Integrated Improvement Program (IIP), the operational underpinning of the Nuclear Asset Optimization Plan (NAOP) that had been recommended in 1997 by the Nuclear Performance Advisory Group. The NAOP called for the temporary lay-up of eight reactor units at Pickering A and Bruce A and the concentration of OHN resources on the remaining 12, four each at Pickering B, Bruce B and Darlington.

By the end of April 1998, the major elements of the IIP had been identified, including milestone dates and key deliverables. A team from the World Association of Nuclear Operators (WANO) visited Pickering, Bruce and Darlington in the spring of 1998 and confirmed that the IIP was a comprehensive statement of the problems needing correction in OHN and that the program was sound. Key areas for performance improvement included the planning and execution of planned outages; the implementation of standardized policies, procedures and processes; and the establishment of an organization needed to achieve all objectives.

By March 1998, the four Pickering A units were safely laid up, following some 100,000 hours of work. Most of the staff were then transferred to Pickering B to work on IIP projects on those four reactors. In March as well, the Board reconfirmed its August 1997 decision to temporarily lay up Bruce A units 3 and 4 in order to free up more resources for the IIP. The Bruce lay-up work began in April 1998 and will be completed in 1999. Some of the Bruce A staff moved over to the Bruce B units; others have been deployed to Darlington.

The most fundamental indicator of nuclear performance improvement is a composite index based on nine measures specified by WANO:

- Capability Factor
- Safety System Performance
- Chemistry Performance
- Unplanned Capability Loss Factor
- Thermal Performance
- Collective Radiation Exposure
- Reactor Trip Rate
- Fuel Reliability
- Industrial Safety Accident Rate

By the end of the first quarter of 1999, the OHN Performance Index had reached a level of 69.2

– out of a total index of 100 – exceeding its target for the fifth consecutive quarter and bettering by nearly 11 index points the level at the end of 1997.

### Stakeholder Communications

In late 1997, OHN began issuing monthly performance report cards to keep government and other stakeholders apprised of nuclear recovery progress. These report cards continued throughout 1998 and into 1999. In addition to the WANO-specified OHN Performance Index, the card also reported on 14 other monthly performance indicators, grouped in the following four areas:

- Public Safety
- Production Performance
- Environment
- Employee Safety

Of the 15 indicators on the monthly report card, OHN had met or exceeded the target in 12 categories by the end of March 1999, compared with only six at the end of January 1998. In the area of Production Performance, for example, OHN's net electrical production for 1998 was 59.9 terawatt-hours, compared with the target, 56.3 terawatt-hours; and the capability factor was better than its target, as was the total of outage days per unit.

While these numbers were very encouraging, Nuclear is determined to accelerate IIP progress during the remainder of 1999, to improve its ability to supply competitively priced power in the Ontario and North American energy marketplaces as they open to competition.

### Also in the Reporting Period

In March 1998, Pickering was granted a 12-month operating licence by the Atomic Energy Control Board, and in March 1999, the licence was renewed for a further two years. In November 1998, Darlington was granted a two-year licence renewal.

In the first quarter of 1998, the Bruce Heavy Water Plant was decommissioned.

Between June and December 1998, Pickering set a new employee safety record of 2.6 million person-hours worked without a lost-time injury.

### Nuclear Waste Management

Ontario Hydro has always had responsibility for the management of nuclear waste in a manner that is safe, as well as environmentally, socially and financially responsible. Finding a safe and acceptable long-term way to manage Canada's nuclear fuel waste has been studied for several years by the federal government, with support from Ontario Hydro. In December, a major step towards this goal was taken when the government of Canada responded to the report of the Nuclear Fuel Waste Management and Disposal Concept Environmental Assessment Panel.

Ontario Hydro welcomed the federal government response and the direction it provided for the long-term management of nuclear fuel waste in Canada. Work is continuing with the federal and Ontario governments and other Canadian nuclear utilities to implement work programs designed to achieve the goals of the federal government's nuclear waste management policy.

### Isotope Sales

Ontario Power Generation also succeeds Ontario Hydro as the world's largest supplier of the radioactive isotopes cobalt 60 and tritium, and is one of the largest suppliers of deuterium oxide (heavy water). These isotopes, which are byproducts of the company's Nuclear operations,

**Despite facing unusual production demands during 1998, Fossil met or bettered all of its key performance targets.**

are in great demand in the medical, industrial and research sectors. Isotope sales have consistently met business plan projections while contributing to Ontario Hydro's net income.

### FOSSIL

The Fossil business was called on to dramatically increase its production during 1998 and the first quarter of 1999 to offset reductions in Nuclear. It delivered 35 terawatt-hours of energy in 1998 – its highest production level in over a decade. As a result, provincial electricity supply reliability and service to export customers was never compromised, even during the unprecedented surge in summer peak demand.

In the first quarter of 1999, even with strong secondary sales and January production that was the highest for any single month this decade, Fossil production was slightly below target because of higher than expected Hydroelectric and Nuclear production.

Despite facing unusual production demands during 1998, Fossil met or bettered all of its key performance targets, including those related to the environment. Generating-unit reliability was significantly better than targeted levels and, at the same time, both OM&A and fuel unit energy costs were kept under budget. Not only did the business meet its ambitious safety targets, but its performance in this area was the best ever.

To achieve this dramatic increase in production from previous years, Fossil stepped up virtually all its production plans. Throughout the period, reliability and flexibility were the hallmarks of Fossil's operation. When very favourable market conditions developed, Fossil was able to quickly change its plans – by realigning maintenance outages, fuel deliveries and staffing – to take advantage of higher prices.

Another key factor in Fossil's performance was its fuel supply program, which had to be ramped up quickly but economically. During 1998, the program not only provided the 15 million tons of coal and 3 million barrels of oil required to generate 35 terawatt-hours, it also was able to increase the proportion of low-sulphur, high-quality coal in the fuel mix. This helped ensure that the business met acid gas emission regulations and self-imposed emission rate targets for both acid gas and carbon dioxide emissions.

In December, the Thunder Bay plant achieved ISO 14001 certification, and at Lennox the return to service of two mothballed units was completed. Also late in the year, the Lennox plant celebrated the successful completion of its gas pipeline and boiler conversion project, enabling two of the plant's four units to burn both natural gas and oil. The conversion lowers the plant's operating costs by about 20%. It also reduces sulphur dioxide, nitrogen oxide and greenhouse gas emissions by about 25%.

The Nanticoke and Lambton plants made progress on major remedial programs, including a variety of turbine and boiler projects that will improve future reliability, operating efficiency and environmental performance. In addition, Nanticoke made modifications so it could use natural gas instead of oil in the furnace ignition system, as well as to fire a coal drying process to improve the combustion of lower-cost, low-sulphur coal from the western United States. The plant also completed installation of new burners on five of its eight generating units, reducing nitrogen oxide emissions from those units by about 30%.

### HYDROELECTRIC

A shortened spring snow melt coupled with below-normal precipitation across the province

**Hydroelectric invested $134 million on refurbishment programs and completed significant portions of its Environmental Management System ISO 14001 certification.**

resulted in Hydroelectric's total 1998 energy production from its 69 generating stations being 2.7 terawatt-hours less than the target of 34.6. The lower water levels, however, gave the Hydroelectric business the opportunity to perform necessary facility maintenance and more aggressively implement its ongoing program of capital investments. During the year, the 14th unit of a 16-unit rehabilitation program was completed at Robert H. Saunders Generating Station. At the Sir Adam Beck 2 Generating Station, the third and fourth units of a 16-unit upgrade were completed, with new runners and major components replaced or refurbished. In total, Hydroelectric invested $134 million in 1998 on these and other refurbishment programs.

Also in 1998, Hydroelectric completed significant portions of a program leading to ISO 14001 certification of its Environmental Management System (EMS) for its production facilities. The EMS ensures that Hydroelectric facilities are operated in a manner that meets internationally recognized quality standards for environmental performance, which is increasingly important in a competitive marketplace.

Hydroelectric formed a Small Hydro Division in 1998, comprising 26 stations accounting for almost 2% of the total Hydroelectric capacity. The new division creates a more distinct business focus for these assets, providing a greater degree of operational flexibility and better positioning them for the growing consumer interest in environment-friendly power.

Hydroelectric had many occasions to celebrate both its past and present achievements in 1998. In March, Ear Falls G.S. was reopened after a fire in 1997 that badly damaged the powerhouse and the generators. The station was refurbished in record time, complete with a new powerhouse and four new generators.

In August, celebrations marked the 100th anniversary of DeCew Falls G.S. 1 in St. Catharines, Ontario's oldest operating hydroelectric station. Other significant service milestones this year were the 50th anniversary of Stewartville G.S. on the Madawaska River and the 40th anniversary of Robert H. Saunders G.S. on the St. Lawrence River. These celebrations were all reminders of the enduring value of our hydroelectric system and give greater meaning to our reinvestments to preserve and enhance our ability to produce safe and reliable energy from a renewable water resource.

### WORKING WITH OUR CUSTOMERS

Our core product is electricity but our flexibility in pricing, supply conditions, energy services and account management allowed us to tailor offerings to best meet customer needs.

Here are some examples of how Ontario Hydro strengthened customer relationships through new services, communications and business initiatives.

- Customers learned how to understand and benefit from the coming competitive electricity marketplace through the *Quest – Learning Together* series of day-long sessions held throughout the year.
- Customers participating in the Interconnected Market Gain Sharing Program made money in June 1998 during a major price spike in the U.S. Northeast. The program allowed firm power customers to reduce their purchases in exchange for a share of OPG's gains from selling power at higher market prices.
- In response to customer demand, Ontario Hydro designed a wholesale green power offering that is EcoLogo certified. It includes new and existing renewables such as small hydro, landfill gas and wind.

# Focused on Reliability – Poised for Growth

**MAINTAINING AND IMPROVING WIRES NETWORKS THAT COULD CIRCLE THE GLOBE NEARLY FOUR TIMES WAS THE FIRST RESPONSIBILITY OF ONTARIO HYDRO SERVICES COMPANY.** THE SECOND WAS THE GROWTH OF COMPETITIVE BUSINESSES THROUGH THE MARKETING OF ENERGY, NETWORK AND RELATED SERVICES THAT CUSTOMERS WANT, NEED AND VALUE.

### ICE STORM SHOWCASES CRISIS CAPABILITIES

The fundamental strengths of Ontario Hydro Services Company (OHSC) were never more impressively illustrated than in January 1998, when over 600,000 people in an area of 25,000 square kilometres in Eastern Ontario lost power during the most severe ice storm on record. In five devastating days, the sheer weight of unprecedented accumulations of ice – nearly twice the typical amount for an entire year – literally crushed the electricity system. Hundreds of steel transmission towers crumpled. Seven thousand wooden distribution poles snapped like matchsticks, bringing 1,800 pole-top transformers down with them. By the time it was over, the storm had damaged 40% of Eastern Ontario's transmission and distribution systems.

Local OHSC and municipal crews began power restoration efforts even before the storm abated, and reinforcements quickly flowed into the region from across the province and beyond. At the peak of the effort, nearly 2,200 front-line workers laboured 16 hours a day, seven days a week, in piercing cold and sometimes blizzard-like snowstorms. Over half were Ontario Hydro staff; the rest were from other utilities in Ontario and elsewhere. Nearly 1,000 Canadian Armed Forces personnel worked tirelessly alongside the utility crews. Behind the scenes, hundreds more OHSC staff orchestrated the supply lines, answered a quarter-million calls from worried customers, and handled the countless details that went into speeding the recovery. Within two weeks, over 90% of all affected Ontario Hydro residential and business customers had their power restored, an incredible feat by any standards. A post-event analysis led to an updating and reorganization of OHSC emergency response procedures, so that if such an event occurs again, the recovery would be even quicker.

The historic response of Ontario Hydro Services Company staff to the ice storm will long serve as the reminder we all perhaps need occasionally that the most important element of power system reliability is the human one. The skill, dedication and professionalism brought by OHSC staff to this crisis are with us all year long. They are the reason OHSC is confident it can continue to maintain the transmission and distribution reliability standards Ontario has come to expect, and do so with increasing efficiency and continuously renewed sensitivity to our customers' needs.

### ASSET MANAGEMENT BUSINESS MODEL

OHSC has adopted an asset management

**The fundamental strengths of OHSC were illustrated in January 1998, during the most severe ice storm on record.**

business model for its wires networks that separates decisions on the investments needed to maintain and improve assets from the actual work on those assets. Under this model, which is also in use at best-practice utilities worldwide, OHSC's Network Asset Management Group makes the investment decisions and the Network Services Group performs the work. This approach ensures reliability and optimum use of assets with the most efficient use of OHSC's human and financial resources.

At the transmission level, the new model has been implemented with the creation of the Transmission Operation Management (TOM) Centre – OHSC's link to other key electricity system participants: suppliers, customers, the Independent Electricity Market Operator (IMO) and Network Services. The centre also coordinates and implements emergency response plans during significant transmission system events. It also contains Outage Management, System Performance, Operating Effectiveness and Operating Strategy Implementation departments.

At the distribution level, OHSC has launched its new Distribution Operations Management Centre, which will take over responsibility for answering after-hours trouble calls for the entire province by September 15, 1999. The centre allows much better coordination of work crews and lets us inform customers when they can expect their power to be restored. Eventually, the Distribution Operations Management Centre will operate a sophisticated Distribution Outage Management System, which will further improve customer service.

OHSC has also initiated a major re-engineering of its business processes, with a new work management, material management and financial system and an upgrade of computer technology infrastructure.

### NEW GENERATION PLANT IN REMOTE NORTHERN COMMUNITY

To ensure future reliability to the Northern logging community of Armstrong, the Remote Communities program installed a new diesel generating plant comprising three generators with a total capacity of 2,550 kilowatts (kW) and a prime rating of 1,450 kW. Peak load in the service area is now 900 kW, allowing community and local industry growth. The prime rating of the existing 25-year-old plant was being exceeded. With the old plant located close to a trout stream, relocation to another, lower-risk site was the preferred option.

The new installation incorporates the latest in operational and environmental controls, such as a SCADA system. It is housed in a diesel plant that employs the most up-to-date environmental technology for these remote applications.

As part of the legal separation of OPG and OHSC, a special legislative provision was put in place to keep the generation business within OHSC in remote Far North communities.

### CUSTOMER COMMUNICATION CENTRES UPGRADED, EXPANDED

The centralized Customer Communication Centres (CCC), which celebrated their first full year of operation in 1998, experienced their "trial by ice" in January by fielding as many as 30,000 calls a day in round-the-clock operations. An analysis of the ice storm response led to the installation of new call flooding technologies that enable automated reporting of outages directly from the customer to the appropriate service centre.

During the year as well, a Customer Loyalty Centre was set up within CCC's operation. The centres handle billing and service inquiries and

issues for over 900,000 retail customers. The Customer Loyalty Centre works with customers to quickly resolve their concerns, taking corrective or compensatory action when necessary. By tracking complaints, the centre can help determine the nature and scope of service failures and assist in identifying policy and process changes that lead to improvements.

Consolidating the customer telephone service to the Customer Communication Centres allowed the extension of service hours: customers can now call from 7:30 a.m. until 6:00 p.m. This year the centres will increase availability to customers even more. Although 24-hour emergency outage response service has always been provided, a new call answering system will be brought on line, allowing a higher volume of outage emergency calls. As well, the centres will implement a further extension to hours, opening up our regular lines until 8:00 p.m.

### OH TELECOM VENTURE

OHSC began preparing in 1998 to launch telecommunications. As a "carriers' carrier," OH Telecom may transmit data and voice communications through its optical fibre network in Ontario for clients such as long-distance telephone carriers, Internet service providers and corporations with large-scale data transfer requirements.

### RETAIL MERCHANT COMPETITIVE SERVICES

Commercially oriented services were introduced by OHSC in 1998. Indeed, this is an example of the OHSC strategy of building competitive businesses by leveraging existing assets and expertise. All its non-regulated energy services are offshoots of its resident skills and are aimed at identified market opportunities that have been carefully analyzed for their growth potential.

### PAYONE PROGRAM LAUNCHED

PayONE is a sophisticated bill consolidation and utility accounting service aimed at commercial and institutional customers with multiple sites, such as restaurant chains, property management companies, retailers and school boards. The program, piloted with McDonald's locations in Ontario, collects all the utility bills the customer receives (such as electricity, gas, water and sewage), verifies them, pays the utility and sends a single, electronic consolidated bill in a format that best suits the customer's needs. Besides freeing up accounting staff and saving customers money in other ways, the service provides utility usage and cost profiles, trending and benchmarking that will support operating decisions and help set budgets. PayONE signed up several clients in 1998 and more are expected in 1999.

### CUSTOM SOLUTIONS

Commercial and industrial energy management is a growing business sector and Custom Solutions is already in this business, with some early notable successes under its belt. The largest was a project to identify, design, implement and finance utility cost-saving opportunities for Cadillac Fairview at 18 commercial properties across Ontario. Total savings of $1.1 million annually were identified on a one-time investment of $3.2 million.

Other services include PowerSelect, which addresses power quality requirements, and Utility Accounting and Analysis. This latter service, among other things, simplifies, compares and analyzes billing data for multi-site customers and gives them a historical view of their electricity consumption and operating costs.

### NORTHWIND TORONTO PROJECT

OHSC, in a commercial alliance with Toronto

Hydro and Unicom Thermal Technologies of Chicago, is developing Canada's first major district cooling project, which will provide services in Toronto's downtown core.

### OPEX 2000

In January 1999, OHSC's program to achieve operational excellence was launched. By overhauling old processes or introducing new ones, OpEx 2000 will enable OHSC to optimize capital and productivity, and deliver excellent customer service. In short, through OpEx 2000, we will ensure we are running effectively and efficiently – and that we have what it takes to thrive in the competitive marketplace.

Several key processes and initiatives, critical to business success, constitute OpEx 2000: Customer Service; Distribution Network Asset Management; Transmission Network Asset Management; Design and Construction; Resource Management (Scheduling and Bid/Work Ordering); Operations, Maintenance and Restoration; Logistical Support (Trades Training, Supply Management, Fleet Management); Facility Management; Performance Management; Health, Safety and Environment; and Change Management/Communications.

In 1998, OHSC Forestry achieved the type of productivity gains to be realized through OpEx 2000 process improvements. Through such measures as the consolidation of crews, use of temporary work headquarters to reduce traveling time and the establishment of clear performance objectives, more work was accomplished, more safely, in 1998 than in 1997. This achievement is even more significant given the fact that all regular forestry work had to be suspended for six weeks in early 1998 because of the ice storm restoration demands.

### LARGE-SCALE YEAR 2000 TEST

On March 6, 1999, Ontario's first major test of Y2K readiness of OHSC's transmission network was successfully conducted without any interruption of power to the 180,000 customers of Toronto Hydro that might have been affected. At midnight, the SCADA system for Manby Transmission Station and the seven other transmission stations it controls, as well as all associated protection and communications equipment, underwent a simulated rollover to midnight, January 1, 2000. While each of these systems had been previously tested individually and certified Year 2000 ready, this was the first test of all the equipment working together. The test then continued until the clocks on the equipment successfully passed the simulated date of February 29, 2000, another critical date because next year is a leap year.

### ARC2000 PROJECT

Another key program was launched in the first quarter of 1999 to develop an information technology architecture for OHSC that will govern how the business acquires, builds, modifies and uses information technology (IT) resources, from applications and databases, to network, software and hardware components. OHSC's independence, and the expanded information demands of an open marketplace, require considerable investment in these areas. Electronic interactions with the Independent Electricity Market Operator and generating companies, emerging regulatory requirements and both the OpEx 2000 and Market Ready initiatives are examples of significant IT-enabled projects either in progress or in the advanced planning stages. ARC2000 will establish an integrated framework of principles, specifications, standards and directions to guide these and all other such projects in OHSC's future.

**Ontario Hydro's investment in Luz del Sur yielded a 16% dividend as the Peruvian electricity distribution company continued to grow and improve productivity.**

### PHASE SHIFTERS AUGMENT MICHIGAN-ONTARIO CONNECTION

Under the terms of the recently signed Michigan-Ontario Interconnection Facilities Expansion Agreement between OHSC and two Michigan utilities, two phase-shifting transformers will be installed and operational by mid-2000 at Lambton and another will be installed in Michigan by Detroit Edison, along with a new autotransformer. This joint project will enhance electricity transactions between the two jurisdictions and increase Ontario's capacity to import from the U.S. and relieve congestion on the east-to-west movement of power.

### GREENCHOICE GENERATION

Some customers want to choose to have part of their electricity come from renewable energy sources. Through our GreenChoice Generation pilot, some of OHSC's retail customers have that option. Although "green" energy costs slightly more, some companies are willing to pay the extra dollars to know that green power is being added to the grid. GreenChoice Generation customers receive a plaque showing how much of their energy comes from environment-friendly sources and are authorized to use the EcoLogo symbol on company letterhead and promotional materials.

### ONTARIO HYDRO INTERNATIONAL INC.

Ontario Hydro International's 15% investment in Luz del Sur yielded a 16% dividend for 1998 as the Peruvian electricity distribution company continued to grow and improve productivity. Although the Peruvian economy was hit by adverse El Niño weather and affected by the Asian economic slowdown, Luz del Sur's energy sales grew by 10% as the number of customers grew by 2%. Continuing efforts to improve the performance of the distribution system resulted in a 17% reduction in energy losses.

During 1998, Ontario Hydro assisted Luz del Sur to introduce a state-of-the-art thermovision unit for preventive maintenance on its transmission and distribution network. This technology will help LDS further reduce operations and maintenance costs.

In Central America, OHII directed Ontario Hydro's assistance to Honduras in the wake of Hurricane Mitch. Hydro pledged $500,000 for expertise and equipment to help restore electricity to the devastated country. Two technicians were quickly sent to work with the Honduran utility to assess reconstruction needs.

# Gateway to the Electricity Marketplace

**CENTRAL MARKET OPERATIONS' ROLE AS THE MINUTE-BY-MINUTE GUARDIAN OF ONTARIO'S TRANSMISSION SYSTEM SECURITY DID NOT CHANGE** WHEN IT BECAME THE PROVINCE'S INDEPENDENT ELECTRICITY MARKET OPERATOR, BUT ITS MANDATE WAS GREATLY ENLARGED TO INCLUDE MANAGEMENT OF ONE OF NORTH AMERICA'S LARGEST POWER MARKETPLACES.

Ontario Hydro's Central Market Operations (CMO) has faced extraordinary challenges during the past 15 months, beginning with the January 1998 ice storm, which felled several large sections of the transmission system in Eastern Ontario. During the storm and its aftermath, CMO staff worked around the clock, and in close cooperation with both the Generation and Services companies, to deal with the numerous outages, adjust system equipment and minimize the impact of the storm on the rest of Ontario and on interconnections with other jurisdictions.

Six months later, another climatic extreme, this time a prolonged heat wave in several large areas of North America, shattered peak power demand records and put unprecedented pressures on the continental interconnected network. Again, CMO staff worked closely with the rest of Ontario Hydro and with other jurisdictions to not only meet the province's record demand but also export power to other jurisdictions. Despite these challenges posed by the heat wave and the ice storm, CMO met or exceeded all performance targets of the North American Electricity Reliability Council (NERC) throughout this period.

In addition to safeguarding bulk electricity system security, CMO staff played a key role in the development of Ontario's future competitive electricity marketplace. CMO specialists were represented on all technical panels of the government-appointed Market Design Committee, as well as on the rules drafting team and the Coordination Committee.

### CMO TO IMO: THE TRANSITION

During 1998, work began on the infrastructure program to transform CMO into the Independent Electricity Market Operator (IMO) called for in the *Energy Competition Act, 1998,* the provincial legislation that restructures Ontario's electricity system. This program, which will continue throughout the rest of 1999, will deliver the design, development, documentation, testing, commissioning and implementation of the critical operational infrastructure of the IMO. By year-end, independent systems for financial and treasury management were already in place, and the entire program is on schedule to meet all deadlines required for the opening of the marketplace.

# Ontario Hydro Corporate Activities

## Sustainable Development: A Key Element of Future Competitive Success

Environmental performance is increasingly viewed as a key customer consideration that will grow in importance as the competitive power market matures. Given similar prices, many customers will prefer a supplier with a strong environmental track record. Market research shows that many customers are willing to pay at least a modest premium for power that they know has been produced in environmentally sensitive ways. Moreover, investors are becoming keenly interested in how environmental obligations are managed, ongoing compliance assured and potential liabilities avoided.

For these reasons, Ontario Hydro's commitment to sustainable development practices has laid the foundation for the competitive success of its successor companies. Sustainable development – conducting business in a way that meets current needs without compromising the ability of future generations to meet theirs – is not so much a specific program as a way of thinking about three "bottom lines": financial, social and environmental.

The financial aspects of sustainable development activities in both successor companies focus on two major objectives: getting more value from environmental expenditures and reducing future environmental risks and liabilities through sound environmental management programs and, where necessary, remediation efforts. The social bottom line, on the other hand, drives us to earn the respect and loyalty of our customers, including those in the communities within which we operate. There are many ways in which this objective is pursued, principal of which is an honest and transparent disclosure of the environmental impacts of our operations. OPG, for example, will continue to consult with established environmental advisory groups around its major generating stations and is actively engaging the local community, as did Ontario Hydro, on how it can better respond to their needs.

Ontario Hydro's environmental performance commitments were embodied in the adoption of the ISO 14001 standards for Environmental Management Systems by all of the businesses within the corporation.

The following are some of the many sustainable-development-oriented projects completed during the past 15 months.

### Deer Lake Mini-Hydro

Deer Lake is one of the 23 communities served by OHSC's Remote Communities group. It is accessible only by air or winter road. Until recently, the community's electricity was supplied by three diesel generators. With the community load demand outstripping existing plant capability, Ontario Hydro Technologies installed two 245-kilowatt mini-hydroelectric generators at nearby Shoulderblade Falls. This project was partnered with the Remote Communities group, Deer Lake First Nation and the federal Department of Indian Affairs and Northern Development. This installation will provide nearly 90% of the community's power needs and significantly reduce dependence on diesel fuel.

### Emissions Reduction Trading

Since 1996, Ontario Hydro has participated with other industries, government and non-governmental organizations in the Pilot Emissions Reduction Trading (PERT) Project. The goal of the project, in which Ontario Hydro's successors will continue to participate, is to provide market incentives to improve environmental

**Ontario Hydro has helped reduce nitrogen oxide emissions in eastern North America, and its generation successor company will steadily add to that contribution.**

performance. By voluntarily investing in equipment and practices that reduce emissions, PERT member companies earn credits, which can be bought or sold, for each tonne of emissions reduced. In 1998, Ontario Hydro purchased credits from Beaver Fuels, enabling that company to sell cleaner gasoline without raising prices at the pump, and sold nitrogen oxide credits to the Hartford Steam Boiler Company in Connecticut. Ontario Hydro's participation in this innovative program helped reduce nitrogen oxide emissions in eastern North America, and its generation successor company will steadily add to that contribution.

### Restoring the Storm-Damaged Landscape

Thousands of trees in Eastern Ontario were killed by the January 1998 ice storm. Estimates placed tree damage as high as 70% in the Ottawa-Kingston corridor alone. To aid in environmental restoration, Ontario Hydro donated $50,000 to the Evergreen Foundation to fund a program enlisting volunteer support to plant new trees in the region. Three thousand trees – among them red maple, grey birch, green ash, white spruce, trembling aspen, white oak, white elm and linden – were distributed to 35 schools and 28 community groups.

## Human Resources/Health and Safety Performance

To meet the needs of the business, including the unique requirements of the nuclear recovery program and the challenges associated with the demerger of Ontario Hydro, Corporate Human Resources:

- redefined the business relationship with 95% of 21,000 employees and greatly improved operational flexibility by successfully negotiating separate collective agreements for each of the successor businesses;
- allocated approximately 21,000 employees and 15,000 pensioners to the successor companies without a single grievance;
- due to excellent cooperation with the unions, resolved a backlog of more than 3,100 grievances with as few as 10% being resolved by a third party;
- defined new organizational structures, responsibilities and accountabilities;
- introduced a new, contemporary Code of Business Conduct designed to reinforce the culture required of the companies in a competitive marketplace;
- introduced a new and integrated payroll system designed to contribute to improved productivity and ensure Year 2000 compliance;
- enhanced recruitment systems for new and existing skills;
- developed succession planning and executive development programs to ensure effective leadership and management capability in the future; and
- organized and administered Ontario Hydro's 10th annual Corporate Awards program to recognize and celebrate the excellence, ingenuity and capability of employees in the areas of customer service, safety, environmental sustainability, technology and innovation; the various projects saved the corporation over $154 million.

### Health and Safety

- The unfortunate death of an employee in a March 1999 motor vehicle accident was the corporation's first fatality since 1994.
- Although the number of days lost/charged per million hours worked (Accident Severity

Rate) was higher in 1998 than in 1997, this critical indicator of occupational health and safety has nevertheless improved by more than 200% over the last five years.
• The All Injury Frequency Rate, which tracks the number of incidents occurring within the corporation, improved in 1998.

## Ontario Hydro Technologies

Throughout 1998, Ontario Hydro Technologies (OHT) supported a wide range of specialized needs from Hydro's business units. OHT achieved ISO 9001 certification in 1998. In April 1999, OHT was renamed Ontario Power Technologies, a wholly owned subsidiary of Ontario Power Generation.

**Environmental Land Assessment:** OHT conducted a major soils testing program for OHSC, sampling nearly 1,000 transmission, distribution and microwave communication sites in the province, and conducted comprehensive testing through its analytical chemistry laboratory. This project was part of OHSC's Land Assessment and Remediation Program and was one of the largest programs of its kind ever conducted in Canada.

**Extensive assistance** was provided to generating station operations including:
• a comprehensive review and predictions of corrosion and deuterium uptake in operating pressure tubes for Nuclear;
• new methods for flaw assessment in fuel channels at Bruce B and assessments for Bruce, Darlington and Pickering;
• leak detection technologies for steam generators;
• seismic testing of Darlington components;
• outage support for ultrasonic inspection of steam generator tubes at nuclear stations;
• engineering support for nuclear maintenance operations;
• generator stator chemical cleaning at Pickering;
• flow-induced vibration analysis of Bruce B preheater tubes;
• accident/impact/handling analysis of radioactive waste transportation containers;
• emission characterization and consultation on stack sampling methods for Fossil; and
• penstock repairs at High Falls and specialized concrete services at Saunders G.S. for Hydroelectric.

**Strategic Research and Development** focused on three program areas: Customer Power, including energy efficiency and power quality enhancement; Smart Systems, including advanced system monitoring technologies; and Distributed Generation, such as fuel cells and micro turbines.

**Business Development:** With its strategic partner, Babcock & Wilcox, OHT launched a new applications company in March 1999 named Integran Technologies Inc. The new company will market an advanced materials technology developed at OHT in collaboration with researchers at the University of Toronto and Queen's University. Applications vary from improved lead acid batteries to wear-resistant materials coatings.

OHT successfully negotiated an exclusive licence agreement with Sumitomo Corporation for the commercialization in Japan of OHT's proprietary technologies for the destruction of PCBs in mineral oil and askarels, as well as for the decontamination of electrical equipment containing PCBs.

## Ready for Year 2000

Ontario Hydro's Year 2000 readiness program was always a top priority of the corporation since 1996, when it began. The scope of the program, which continues under the successor companies, includes all necessary remediation of computer-dependent systems, contingency planning and close cooperation with stakeholders and strategic partners. The Y2K team, at times more than 600 professionals, is working with a budget in excess of $100 million on the three-stage program.

**Stage One** – Operational Sustainability – included the analysis, remediation, testing and Y2K readiness certification of all critical systems. This stage had essentially been completed by year-end 1998. An independent assessment of the program early in 1999 confirmed its basic soundness.

**Stage Two** – Operational Readiness – tests how the individually certified systems work together. These large-scale integration tests have been successfully conducted at generation sites (Bruce nuclear site, two of four planned fossil generation sites, and at five of seven planned hydroelectric generation sites) as well as at a major representative grid location (a set of transformer stations in the Toronto area). Ontario Hydro and its successor companies have been working with the North American Electricity Reliability Council (NERC) to test interoperability within the continent's Eastern Interconnection, of which Ontario is a component. Also during this stage, which is expected to be completed by mid-1999, Ontario Hydro's successor companies will assess the Y2K readiness of external suppliers, direct customers, municipal electric utilities and independent power producer partners.

**Stage Three** – Event Readiness. Based on the findings in Stage Two, emergency response and preparedness plans will be developed to ensure safety and reliability across Ontario and to minimize the potential risk from external suppliers and from other external entities. Drills and event simulations will be conducted in cooperation with NERC, and Ontario Hydro's successor companies will work with provincial and municipal agencies to pre-establish responses to unplanned power interruptions. Plans will be put in place to operate the electricity system in a conservative, precautionary posture during the Year 2000 rollover. This stage will be completed by November 1999.

Throughout the entire program, Ontario Hydro shared information with other utilities and participated in cross-industry programs to identify common risks and help find solutions. Moreover, information on Y2K readiness progress is made available to customers and other stakeholders through frequent publications and on the OPG and OHSC websites.

As this overview shows, Ontario Hydro took all possible actions to ensure the reliability of Ontario's power system when the clock ticks over at the end of 1999. As a result of these precautions, which the successor companies are completing, the direct impact of this unique event in human history is expected to be manageable in Ontario.

# Financial Review and Analysis

## FINANCIAL HIGHLIGHTS FOR THE THREE MONTHS ENDED MARCH 31, 1999

Ontario Hydro carried on business for the three months ended March 31, 1999, before operations were transferred to one of the successor entities upon the restructuring of the Corporation. During the three months, operations were typical compared to previous years' experiences, and were in accordance with plan. There were no significant, unforeseen events that affected the Corporation's operating results or financial position.

A summary of the financial highlights for the three months ended March 31, 1999, and March 31, 1998, is as follows:

| *(millions of dollars)* | MARCH 31 1999 | 1998 *(unaudited)* |
|---|---|---|
| Revenues | **2,594** | 2,484 |
| Costs | **1,463** | 1,250 |
| Financing charges | **687** | 734 |
| Net income | **444** | 500 |
| Cash provided from operations | **806** | 719 |
| Cash used for investing activities | **149** | 228 |
| Cash used for financing activities | **587** | 401 |
| Interest coverage | **1.66** | 1.71 |
| Debt ratio | **1.086** | 1.135 |

Net income for the first three months of 1999 was $444 million, down $56 million from 1998's first quarter. While revenue for the three months ended March 31, 1999, was $110 million higher and financing charges were $47 million lower, these were more than offset by a $213 million increase in costs.

Total revenue of $2,594 million for the first three months of 1999 is $110 million higher than revenue during the first quarter of 1998. Primary power and energy revenue of $2,511 million for the three months ended March 31, 1999, is $86 million higher than the $2,425 million revenue for the first three months of 1998. Energy sales increased in 1999 because warmer than usual weather conditions during the first quarter of 1998 lowered demand during that period.

Secondary power and energy revenue of $21 million for the three months ended March 31, 1999, is $16 million higher than the same period in 1998 because of increased energy sales outside the Province.

Other revenue of $62 million for the three months ended March 31, 1999, is $8 million higher than the $54 million for the first three months of 1998 because of a gain on investments.

Costs of $1,463 million for the three months ended March 31, 1999, are $213 million higher than the $1,250 million of costs for the first three months of 1998. The changes are as follows:

- $167 million increase in operation, maintenance & administration (OM&A) costs,
- $44 million increase in fuel used for electric generation,
- $17 million decrease in power purchased, and
- $19 million increase in depreciation and amortization.

OM&A costs are higher by $167 million for the three months ended March 31, 1999, compared to the same period in 1998. Significant variances are as follows:

- $50 million for repairs resulting from the 1998 ice storm, which were charged to the provision for future costs, lowered the costs charged to OM&A in 1998 compared to 1999,
- $30 million for increased integrated improvement program work in nuclear operations,
- $15 million preparing the Electricity Production, Merchant Function and Business Services groups to operate in the new business environment beginning April 1, 1999.

Included in OM&A costs for the three months ended March 31, 1999, is $37 million attributable to the final closing of Ontario Hydro's financial records, and a $23 million adjustment for obsolete nuclear materials inventory. This is dissimilar to March 31, 1998, because the prior year's first quarter results are on the basis of operations continuing as usual for the remainder of 1998.

The cost of $141 million for fuel used for electric generation during the first three months of 1999 is $44 million higher than the cost for the first three months of 1998, which is consistent with increased fossil generation and higher energy sales. Power

purchased costs are $17 million less for the three months ended March 31, 1999, compared to the same period last year, because some of the purchases during the first three months of 1999 supported the Nuclear Asset Optimization Plan (NAOP) and the costs were charged to the provision for future costs.

Depreciation costs of $402 million are $19 million higher for the three months ended March 31, 1999, compared to the same period in 1998, which is consistent with fixed assets in service being higher as at March 31, 1999.

Financing charges of $687 million decreased $47 million for the first three months of 1999 compared to the same period in 1998, because of lower debt outstanding and lower interest rates on refinancings.

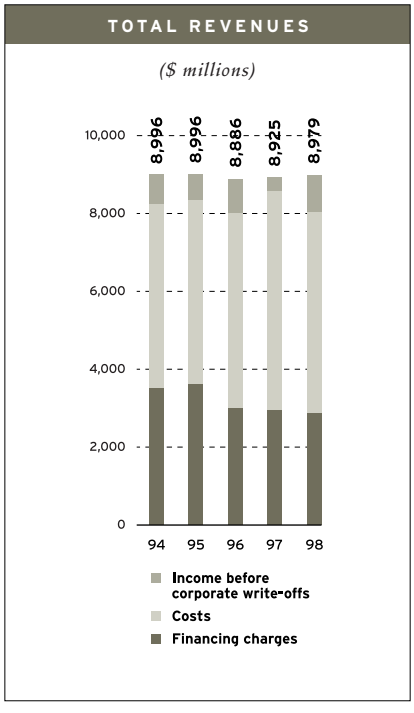
During the three months ended March 31, 1999, there was a $587 million reduction in debt compared to a $401 million reduction in the first quarter of 1998.

$149 million of cash from operations was invested in fixed and other assets during the three months ended March 31, 1999, compared to $228 million during the first quarter of 1998. Debt outstanding was reduced to $30,527 million as at March 31, 1999 from $31,221 million as at December 31, 1998.

### FINANCIAL HIGHLIGHTS FOR THE YEAR ENDED DECEMBER 31, 1998

Ontario Hydro's net income for 1998 was $1,831 million, compared with a net loss of $6,326 million in 1997. The results for the two years are not comparable due to the following significant items, which affected net income in each year. In 1997, the Board of Directors approved a number of charges and write-offs to current year's operations totaling $6,580 million, while in 1998 there were no write-offs. In 1998, there was a $887 million favourable adjustment to income to recognize the benefit associated with the Corporation having access to pension fund surplus. Access to the pension fund surplus arose as the result of changes included in the *Energy Competition Act, 1998*, enacted by the Government of Ontario (Government) in October 1998.

Ontario Hydro's 1998 income, before adjustment for the impact of the future employer pension contribution holidays, was $944 million. While this is $690 million higher than the corresponding figure for 1997, again, the results are not completely comparable because, in 1998, costs totaling $1,486 million were charged against a provision established at the end of 1997 for future costs, related principally to the nuclear recovery program, which could not be recovered through existing rates. In 1997, similar expenditures at a lower level were charged to operations.



Total revenues for 1998 were $8,979 million, $54 million higher than in 1997. This is the result of an $88 million increase in primary sales, partially offset by lower secondary sales and other revenues. Operating costs for 1998, excluding financing charges, amounted to $5,159 million, a decrease of $423 million from 1997. This reduction primarily reflects use of the 1997 provision for future costs. Financing charges of $2,876 million were $213 million lower than in 1997 mainly due to lower interest and foreign exchange costs.

Cash provided from operations decreased to $1,488 million in 1998 from $2,026 million in 1997. Proceeds of $5,698 million were received from the issuance of debt for long-term financing in 1998, compared to $2,321 million in 1997. The 1998 proceeds include three Canadian dollar domestic issues,

a global market United States dollar bond issue, a global market Canadian dollar bond issue, a Canadian dollar Euro medium-term note issue, a private placement with the Province of Ontario (Province) and the issuance of Canadian dollar short-term notes and United States dollar-denominated commercial paper. In 1998, $5,899 million of cash was used to retire debt issued for long-term financing, compared with $3,257 million in 1997. Cash paid on settlement of swaptions amounted to $142 million in 1998, compared with $292 million in 1997.

Cash invested in fixed assets during 1998 was $823 million, compared with $881 million in 1997. Including changes in non-cash balances related to fixed assets, investment in fixed assets was $865 million in 1998 and $852 million in 1997.

## RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 1998

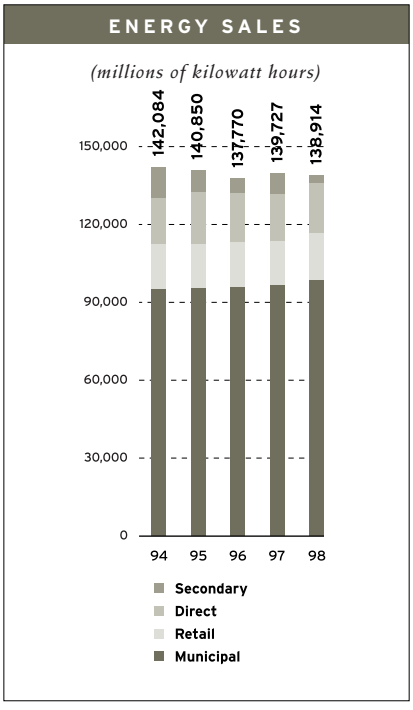
### REVENUES

#### Primary Revenues

Primary revenues for 1998 amounted to $8,524 million, an increase of $88 million over 1997. The increase reflects broadly based growth in demand in the municipal, commercial and industrial sectors. Demand was sufficiently robust to offset the impact of the January ice storm, negative winter weather effects due to El Niño, and strikes affecting two large industrial customers. Municipal sales revenues rose by $145 million or 2.5 per cent over 1997, primarily due to higher sales volumes from air conditioning load in the warmer summer months and an increased level of commercial activity. Sales to retail customers in 1998 fell by $50 million or 3.1 per cent, reflecting milder winter weather and the continuing impact of moving customers to lower rate classes, as well as a reduction in late payment and service charges. Sales to direct industrial customers remained fairly steady at $917 million, compared with $924 million in 1997.

#### Secondary Revenues

Secondary power and energy revenues, mainly from surplus energy exports to utilities in the United States, amounted to $148 million in 1998, a $25 million or 14.4 per cent decrease from 1997. The lower sales are primarily due to a lack of available generation as a result of the nuclear recovery program, partially offset by very favourable spot market prices during the June to September period due to tight supply conditions in the midwestern portion of the United States, and hotter than normal weather.



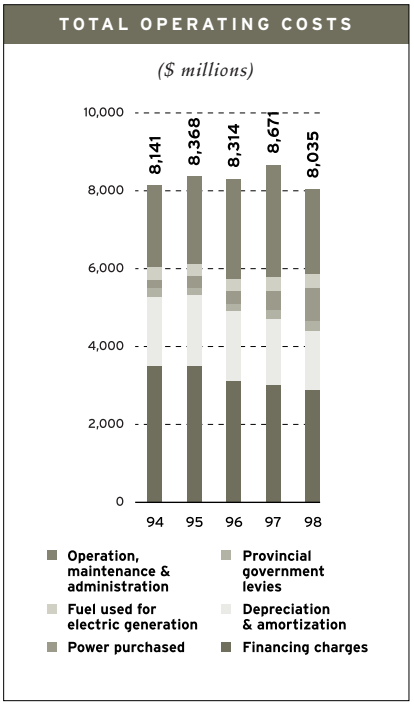
#### Other Revenues

Other revenues of $307 million in 1998 decreased by $9 million from 1997, due mainly to lower heavy water and isotope sales and a decrease in consulting revenues, partially offset by a gain on the sale of surplus land.

### COSTS

In 1997, Ontario Hydro's Board of Directors used its rate-setting authority to establish a provision for future costs against which certain expenditures, primarily related to the nuclear recovery program, would be charged as incurred from 1998 to 2001. This provision included an allowance for additional fuel costs expected to be incurred by having to place greater reliance upon fossil generation and purchased power, as well as related financing costs. The provision is more fully described in note 7 to the 1998 Consolidated Financial Statements. In 1998, a total

of $1,486 million was charged to the provision for future costs. $1,231 million of this was related to the nuclear recovery program and the remainder was related to other costs.



Ontario Hydro's operating costs for 1998, excluding financing charges, totaled $5,159 million, $423 million lower than in 1997. This is primarily the result of the use in 1998 of the provision for future costs established at the end of 1997. Fixed operating costs of $4,662 million, consisting of provincial government levies, depreciation and amortization and financing charges, decreased by $282 million or 5.7 per cent from $4,944 million for 1997, mainly as a result of lower interest and foreign exchange costs.

### Operation, Maintenance and Administration

OM&A costs of $2,178 million for the year ended December 31, 1998, decreased by $13 million from 1997. As indicated earlier, this variance results principally from the fact that preliminary costs of the nuclear recovery program in 1997 were charged to operations. In 1998, OM&A costs of $589 million, relating mainly to the nuclear recovery program, were charged to the 1997 provision for future costs.

### Fuel Used For Electric Generation

The cost of fuel used for electric generation comprises the costs for coal, uranium, oil and water rental payments other than those made to the Province. The cost of fuel used for electric generation in 1998 was $350 million, a decrease of $347 million or 49.8 per cent from 1997, after charging $690 million in costs related to the replacement of nuclear production by higher-cost fossil production to the 1997 provision for future costs. Overall, internal generation in 1998 of 125,972 million kilowatt-hours was lower than generation in 1997 of 131,005 million kilowatt-hours, due to the nuclear recovery program. The shortfall in generation was compensated for by higher power purchases.

### Power Purchased

Electricity purchases in 1998 amounted to $845 million, an increase of $6 million over 1997, after charging $78 million in costs related to the replacement of nuclear production by increased power purchases to the 1997 provision for future costs. The amount of power purchased in 1998 amounted to 16,992 million kilowatt-hours compared to 13,750 million kilowatt-hours in 1997, an increase of 24 per cent. The increase reflects a rise in power purchases from utilities in Canada and the United States as a result of lower internal generation due to the nuclear recovery program, and an increase in contracted generation from independent power producers. Ontario Hydro also buys electricity when it is economical to do so, during periods of peak demand or in emergencies, and to manage acid gas emission levels.

### Provincial Government Levies

Provincial government levies totaled $274 million in 1998, a slight reduction from $277 million in 1997.

Ontario Hydro is required to pay to the Province an annual debt guarantee fee equal to one half of one per cent on the total debt guaranteed by the Province outstanding on the preceding December 31. The fee for 1998, based on guaranteed debt outstanding as at December 31, 1997, was relatively unchanged at $155 million compared with $156 million in 1997, as the year-over-year guaranteed debt level remained stable.

Provincial water rental payments, related to

Ontario Hydro's use of provincial waters in the operation of its hydroelectric stations, also remained relatively stable at $119 million in 1998 compared with $121 million in 1997.

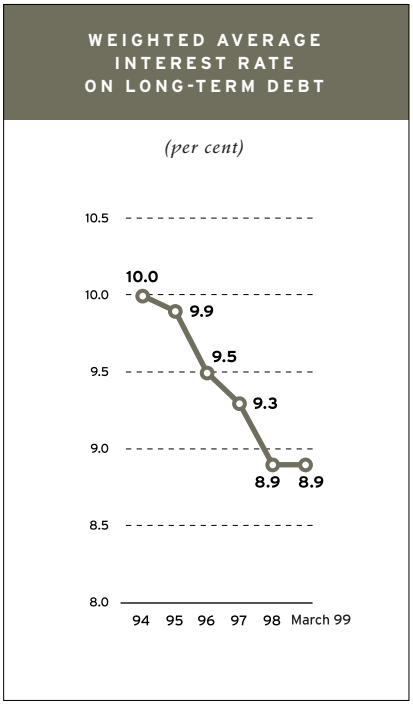
In 1998, Ontario Hydro paid approximately $224 million to various government agencies for provincial sales taxes, employment insurance premiums, Canada Pension Plan contributions, employer health tax payments and payments in lieu of realty taxes.

### Depreciation and Amortization

Depreciation and amortization charged to operations totaled $1,512 million in 1998, a decrease of $66 million or 4.2 per cent from 1997 mainly due to reversals in 1998 of decommissioning and rehabilitation provisions for certain generating stations. In 1998, depreciation and amortization of $83 million, relating to the nuclear recovery program, was charged to the 1997 provision for future costs.

### Financing Charges

Financing charges comprise interest charged to operations and foreign exchange costs. Interest charged to operations represents gross interest costs reduced by capitalized interest and interest earned on investments.



Foreign exchange costs comprise amounts related primarily to the amortization of exchange gains or losses on the principal amount of foreign debt and foreign exchange risk management activities.

Interest and foreign exchange charged to operations was $2,876 million in 1998, $213 million or 6.9 per cent lower than in 1997, after charging $46 million in interest costs related to the nuclear recovery program to the 1997 provision for future costs. Favourable impacts, due to a net reduction in the average level of long and short-term debt outstanding and a lower net weighted average interest rate on debt and accumulated provisions for fixed asset removal and used nuclear fuel disposal costs, were partially offset by an increase in the level of accrued provisions and a reduction in interest capitalized. Foreign exchange costs for 1998 decreased by $88 million, primarily due to favourable results from foreign exchange risk management activities.

### Financial Indicators

The Corporation's financial performance is monitored using two main indicators: interest coverage ratio and debt ratio.

The level of interest coverage measures the extent to which net income enables Ontario Hydro to meet its gross interest payments. An increase in the interest coverage ratio indicates a strengthening in the Corporation's financial condition. The 1998 level of interest coverage was 1.34 based on income before the deferred pension asset adjustment, compared to the 1997 interest coverage level of 1.09 based on income before corporate write-offs.

The debt ratio measures the extent to which Hydro's assets are financed by debt. A reduction in the debt ratio indicates a strengthening in financial position, as a relative increase in equity provides additional financial flexibility. The debt ratio at the end of 1998 was 1.100, compared to the 1997 ratio of 1.153. The improvement is due primarily to net income.

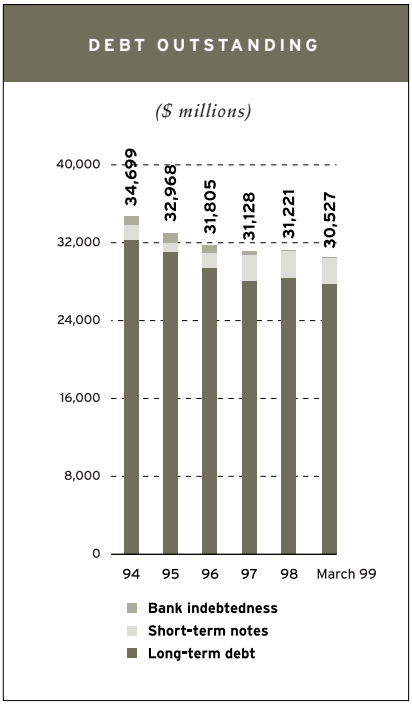
## FINANCING AND INVESTING ACTIVITIES

### Financing and Capital Markets

Ontario Hydro's cash from operations in 1998 was sufficient to cover capital expenditures for 1998 and

to reduce the level of outstanding debt. Gross borrowing was required primarily for refinancing maturing issues and taking advantage of opportunities to minimize interest expense.

In 1998, on a cash basis, there was a net debt reduction of $343 million, compared to a net debt reduction of $458 million in 1997.



Proceeds of $5,698 million were received from the issuance of debt for long-term financing in 1998, compared to $2,321 million in 1997. The 1998 proceeds include three Canadian dollar domestic issues totaling $675 million; a global market United States dollar bond issue of $750 million (Cdn. $1,092 million); a global market Canadian dollar bond issue of $1,350 million; a Canadian dollar Euro medium-term note issue of $250 million; a $500 million private placement with the Province; and the issuance of Canadian dollar short-term notes and United States dollar-denominated commercial paper.

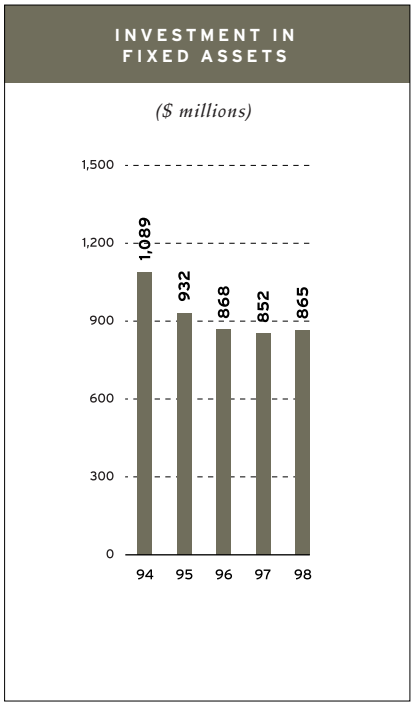
In 1998, $5,899 million of cash was used to retire debt issued for long-term financing, compared to $3,257 million in 1997. Cash paid on settlement of swaptions amounted to $142 million in 1998, compared to $292 million in 1997.

### Investment in Fixed Assets

Ontario Hydro invests in fixed assets to maintain service, reliability, safety and environmental performance and to meet regulatory requirements. The total assets of the Corporation at the end of 1998 were $40,023 million, 88 per cent of which represented fixed assets in service or under construction.

The cash required by Ontario Hydro, to finance its investment in fixed assets, has historically come from two major sources; operations and financing through borrowing. As was the case in 1997, sufficient cash was generated from operations in 1998 to finance investment in fixed assets.

Investment in fixed assets was $865 million in 1998 and $852 million in 1997. Of this total investment, $503 million (1997: $591 million) was spent on generating facilities and $362 million (1997: $261 million) was invested in major transmission and distribution facilities.



# Management Report

**MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING**

The accompanying financial statements of Ontario Hydro are the responsibility of management and have been prepared in accordance with accounting principles generally accepted in Canada, applied on a basis consistent with that of the preceding year. Ontario Hydro chooses accounting principles appropriate to its circumstances. The significant accounting policies followed by Ontario Hydro are described in the Summary of Significant Accounting Policies contained in note 2 to the financial statements. The preparation of financial statements necessarily involves the use of estimates based on management's judgement, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to June 23, 1999.

Management maintained a system of internal controls designed to provide reasonable assurance that the assets were safeguarded and that reliable financial information was available on a timely basis. The system included formal policies and procedures and an organizational structure that provided for appropriate delegation of authority and segregation of responsibilities. An internal audit function independently evaluated the effectiveness of these internal controls on an ongoing basis and reported its findings to management and the Audit Committee of the Ontario Hydro Board of Directors.

The financial statements have been examined by Ernst & Young LLP, independent external auditors appointed by the Lieutenant Governor in Council of Ontario. The external auditors' responsibility is to express their opinion on whether the financial statements are fairly presented in accordance with generally accepted accounting principles. The Auditors' Report, which appears below, outlines the scope of their examination and their opinion.

For the three months ended March 31, 1999 and year ended December 31, 1998, the Ontario Hydro Board of Directors, through the Audit Committee, was responsible for ensuring that management fulfilled its responsibilities for financial reporting and internal controls. The Audit Committee met periodically with management, the internal auditors and the external auditors to satisfy itself that each group had properly discharged its respective responsibility, and to review the financial statements before recommending approval by the Board of Directors. The external auditors had direct and full access to the Audit Committee, with and without the presence of management, to discuss their audit and their findings as to the integrity of Ontario Hydro's financial reporting and the effectiveness of the system of internal controls.

As at April 1, 1999, the Board of Directors of Ontario Hydro was dissolved and Ontario Hydro continues as the Ontario Electricity Financial Corporation (OEFC) with a new Board of Directors appointed pursuant to the *Electricity Act, 1998*.

On behalf of Ontario Hydro Management,

*President & Chief Executive Officer, Ontario Hydro, as at March 31, 1999*

*Chief Financial Officer, Ontario Hydro, as at March 31, 1999*

Toronto, Canada,
June 23, 1999

# Auditors' Report

**TO THE BOARD OF DIRECTORS OF ONTARIO ELECTRICITY FINANCIAL CORPORATION:**

We have audited the consolidated statement of financial position of Ontario Hydro as at March 31, 1999 and December 31, 1998, and the consolidated statements of operations and (deficit) retained earnings, and cash flows for the three months ended March 31, 1999 and year ended December 31, 1998. These financial statements are the responsibility of Ontario Hydro's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Ontario Hydro as at March 31, 1999 and December 31, 1998, and the results of its operations and its cash flows for the three months ended March 31, 1999 and year ended December 31, 1998, in accordance with generally accepted accounting principles.

Ontario Hydro's accounting policies differ from those followed by enterprises that are not rate-regulated as described in note 2(a) to these financial statements.

* In 1997, Ontario Hydro's Board of Directors used its rate-setting authority to establish a provision for future costs against which certain expenditures, primarily related to the nuclear recovery program, would be charged as incurred from 1998 to 2001. This Supplementary Statement isolates the effect upon the 1999 and 1998 results of operations of charging certain costs of the year to the 1997 provision for future costs.

*See accompanying notes to financial statements.*

# Notes to Financial Statements

## 1. RESTRUCTURING OF THE ONTARIO ELECTRICITY INDUSTRY AND EVENTS SUBSEQUENT TO MARCH 31, 1999

The North American electrical utility industry has undertaken initiatives to move away from traditional monopolies towards competitive models that are more conducive to customer choice. On October 30, 1998, the Government of Ontario (Government) enacted the *Energy Competition Act, 1998* (ECA) to restructure the Ontario electricity industry and introduce competition during the year 2000.

Prior to the restructuring, Ontario Hydro was a vertically integrated, rate-regulated electricity utility. On April 1, 1999, Ontario Hydro was restructured into a number of successor entities, as follows:

- Ontario Power Generation Inc. (OPG) is a generation company;
- Ontario Hydro Services Company Inc. (OHSC) is a regulated transmission and distribution business, and operates certain energy service businesses in an unregulated business environment;
- Independent Electricity Market Operator (IMO) is a non-profit corporation, which is the independent system co-ordinator responsible for directing system operations and operating the electricity market;
- Electrical Safety Authority (ESA) is a non-profit corporation, which will carry out electrical inspections previously conducted by Ontario Hydro; and
- Ontario Electricity Financial Corporation (OEFC) is the continued Ontario Hydro entity with the objectives of managing debt, administering assets, liabilities, rights and obligations not transferred to a successor entity, and acting as administrator of the existing pension plan until arrangements are completed to transfer assets and liabilities to the new pension plans of the successor entities.

On April 1, 1999, each successor entity acquired Ontario Hydro's respective business operations in exchange for debt and equity securities equal to the fair values. The fair values were based on the present value of expected future operating results. Ontario Hydro's debt remained with OEFC.

Stranded debt is defined as debt that the successor entities could not service as commercial entities in a competitive market. Stranded debt has been determined, on a preliminary basis, by assigning fair values to OPG, OHSC, and the IMO, and subtracting these values from Ontario Hydro's total debt and liabilities. Using this methodology, the stranded debt is estimated at $21 billion as per the Ministry of Finance announcement of April 1, 1999. The actual stranded debt will be known once a final determination can be made for other items; principally valuing power purchase obligations (note 15).

The government has identified that certain of the OEFC's revenue streams in the new electricity market (e.g. payments-in-lieu of corporate income and capital taxes made by the new restructured companies and local distribution utilities) will be dedicated to service stranded debt.

The Province of Ontario (Province) continues to guarantee all existing Ontario Hydro debt.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles in Canada, applied on a basis consistent with that of the preceding year. The significant accounting policies followed by Ontario Hydro are described below.

### a) Rate setting

Up to March 31, 1999, Ontario Hydro had broad powers to generate, supply and deliver electric power

throughout the Province of Ontario. The Corporation operated under the *Power Corporation Act* (PCA) and was subject to the provisions of the *Ontario Energy Board Act*.

Under the provisions of the PCA, the price payable by municipal and other Ontario power customers was the cost of supplying the power. Such cost was defined in the PCA to include the cost of operating and maintaining the power system, the cost of energy conservation programs, depreciation, interest and the annual amounts for statutory debt retirement (SDR) and stabilization of rates and contingencies.

Under the provisions of the *Ontario Energy Board Act*, a public hearing before the Ontario Energy Board (OEB) was required to review any changes in electricity rates proposed by Ontario Hydro which affect its municipal utilities, direct industrial customers, or, if the Minister of Energy so directed, rural retail customers. The OEB tabled its recommendations with the Minister of Energy, Science and Technology. After considering the recommendations of the OEB, Ontario Hydro's Board of Directors, under the authority of the PCA, established the electricity rates to be charged to customers.

The Board of Directors may have specified for rate-setting purposes that an amount be included in the determination of the operating results of a period which differed from the period in which it would have been recognized under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment. If so, the accounting treatment given the amount was the same as its treatment for rate-setting purposes. This authority of the Board of Directors could have been used in respect of a specific transaction or an accounting policy.

Ontario Hydro's accounting policies relating to the deferral of discounts and premiums arising from the acquisition of debt prior to maturity and foreign exchange gains and losses on United States dollar-denominated short-term financing replacing United States dollar-denominated long-term debt ,which has been redeemed prior to maturity, reflected the rate-setting treatment of these items as specified by the Board of Directors. Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment, these amounts would have been included as gains or losses of the current period (see note 2g).

In 1994, the Board of Directors used its rate-setting authority to specify that costs of the rehabilitation program for steam generators at Pickering A and B and Bruce A Nuclear Generating Stations be deferred for recovery in future periods. Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment these costs would have been expensed as incurred.

In 1996, the Board of Directors used its rate-setting authority to charge the nuclear recovery expenditures planned to be incurred over the period 1997 to 2001 to operations in 1996. In 1997, as a result of the Nuclear Asset Optimization Plan (NAOP), which included the planned nuclear recovery expenditures, the Board of Directors used its rate-setting authority to specify that the incremental costs associated with improving nuclear performance, specifically NAOP and other related costs, to be incurred over the period 1998 to 2001, be charged to operations in 1997. This rate-setting treatment was selected to enable Ontario Hydro to meet its SDR requirement over the period 1998 to 2001. As a result of the Board's decision, the related costs were not recovered through rates and represented a loss which was provided for in 1997. Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment, these costs would have been expensed as incurred (see note 7).

The Board of Directors also used its rate-setting authority to specify that certain additional future costs be charged to operations in 1997 (see note 7). Under generally accepted accounting principles for enterprises operating in a non-rate-regulated environment, these costs would have been expensed as incurred.

### b) Consolidation

The consolidated financial statements include the financial statements of Ontario Hydro and its wholly-owned subsidiaries Ontario Hydro International Inc. (OHI Inc.) and Ontario Hydro Interconnected Markets

Inc. (OHIM Inc.). OHI Inc. was incorporated under the *Business Corporations Act* (Ontario) and was established as a subsidiary of Ontario Hydro in September 1993. OHIM Inc. was incorporated on July 9, 1996, under the *General Corporation Law* of the State of Delaware in the United States. Both OHI Inc. and OHIM Inc. publish separate financial statements.

### c) Fixed assets

Fixed assets in service include operating facilities, non-operating reserve facilities, and heavy water contained in nuclear generating stations. Construction in progress includes fixed assets under construction.

Fixed assets are capitalized at cost which comprises material, labour, engineering costs, overheads, depreciation on service equipment, interest applicable to capital construction activities, and for new facilities, the costs of training initial operating staff. In the case of generating facilities, the cost also includes the net cost of commissioning which comprises the cost of start-up less the value attributed to energy produced by generation facilities during their commissioning period. For multi-unit facilities, a proportionate share of the cost of common facilities is placed in service with each major operating unit. The cost of heavy water comprises the direct cost of production plus applicable overheads, as well as interest and depreciation on the heavy water production facilities and the estimated removal costs of these facilities. Leases which transfer the benefits and risks of ownership of assets to Ontario Hydro are capitalized.

Interest is capitalized on construction in progress at rates, which approximate the average cost of long-term debts, as follows:

| | |
|---|---|
| 1999 | 9.2% |
| 1998 | 9.4% |
| 1997 | 9.6% |

If the construction period of a project is extended and the construction activities are continued, interest is capitalized during the period of extension provided that the project has a reasonable expectation of being completed.

If a project is deferred as a result of a management decision and there is a reasonable expectation of completion, interest capitalization ceases and amortization for any loss in value commences.

If a project is cancelled or deferred indefinitely with a low probability of construction being resumed, all costs, including the costs of cancellation, are written off to operations.

If fixed assets are removed from operations and mothballed for future use, mothballing costs are charged to operations. These assets are classified as non-operating reserve facilities.

### d) Depreciation

The capital costs of fixed assets in service are depreciated on a straight-line basis. Depreciation rates for the various classes of assets are based on their estimated service lives. Major components of fossil and nuclear generating stations are depreciated over the lesser of the service life expectancy of the major component or the remaining service life of the associated generating station. Hydroelectric generating stations are assumed to have a perpetual life. Major components of hydroelectric generating stations are depreciated over the service life expectancy of the component, ranging from 25 to 100 years. Heavy water in nuclear generating stations is depreciated over the remaining service life of the associated station with the exception of heavy water in Pickering Nuclear Generating Station (NGS) A, which is depreciated to the year 2032, since this heavy water is planned to be used to maintain operating levels in the remaining nuclear plants once Pickering NGS A has completed its useful life. The estimated service lives of assets in the major classes are:

| | |
|---|---|
| Generating Stations | |
| fossil | 40 years |
| nuclear | 40 years |
| Transmission and distribution facilities | 10 to 100 years |
| Administration and service facilities | 5 to 50 years |

In accordance with group depreciation practices, the costs of normal fixed asset retirements are charged to accumulated depreciation. However, gains and losses on sales of fixed assets and losses on premature retirements are charged to operations as adjustments to depreciation expense.

When the net costs of removal of fixed assets can be reasonably estimated and are significant, provisions for these costs are charged to depreciation expense on an annuity basis prospectively over the remaining service life of the related fixed assets. Removal costs that are provided for include the estimated costs of decommissioning nuclear and fossil stations and the estimated costs of removing certain nuclear reactor fuel channels. Other removal costs are charged to depreciation expense as incurred.

The estimated service lives of fixed assets and the significant assumptions underlying the estimates of fixed asset removal costs are subject to periodic review. Any changes arising out of such a review are implemented on a remaining service life basis from the year the changes can first be reflected in electricity prices.

Non-operating reserve facilities are amortized so that any estimated loss in value during the non-operating period is charged to depreciation expense on a straight-line basis over their expected non-operating period.

#### e) Fuel for electric generation

Fuel used for electric generation comprises the average inventory costs of fuel consumed, less the value attributed to energy produced during the commissioning phase of placing a new or refurbished unit (i.e., after replacement of fuel channels or steam generators) in service, plus provisions for disposal of nuclear fuel used during the period. The cost of fuel inventory comprises fuel purchases, transportation and handling costs.

The provision for disposal of used nuclear fuel is charged to operations based on estimated future expenditures and interest accumulating to the estimated date of disposal. Effective January 1, 1998, estimates of disposal costs which do not vary with the amount of fuel to be disposed of ("fixed" disposal costs) are charged to operations on an annuity basis over the estimated service lives of the associated nuclear stations. Estimates of disposal costs which vary with the amount of fuel to be disposed of ("variable" disposal costs) are charged to operations based on the present value of the future estimated disposal costs attributable to the fuel bundles used in that period. Prior to 1998, nuclear fuel provisions were charged to operations based on the present value of the future estimated disposal costs, fixed and variable, attributable to the fuel bundles used in that period. The impact of this change is an increase in costs of approximately $83 million per year plus interest on the increase in accumulated provision.

Estimates of expenditures, interest and escalation rates, and the date of disposal are subject to periodic review. Adjustments resulting from changes in any of these factors are charged to operations on an annuity basis prospectively over the remaining years the nuclear units will be in operation.

#### f) Foreign currency translation

Current monetary assets and liabilities denominated in foreign currencies are translated to Canadian currency at year-end rates of exchange and the resulting exchange gains or losses are credited or charged to operations. Long-term debt payable in foreign currencies is translated to Canadian currency at year-end rates of exchange. Resulting unrealized exchange gains or losses are deferred and included in deferred debt costs, and are

amortized to operations on an annuity basis over the remaining life of the related debt.

Foreign exchange gains or losses on hedges of long-term debt payable in foreign currencies are deferred and included in deferred debt costs. The deferred gains or losses on hedges are amortized to operations on an annuity basis in the periods the hedges provide benefit.

Foreign exchange gains or losses on early redemption of long-term debt, including subsequent gains and losses on short-term replacement financing, are deferred and included in deferred debt costs if the exposure in the foreign currency related to the redeemed debt is continued by refinancing the redeemed debt in the same currency. These deferred gains or losses are amortized on an annuity basis over the period to the original maturity date of the redeemed debt (see note 2a).

If the foreign currency exposure is reduced as a result of the early redemption of debt, the resulting foreign exchange gains or losses related to the redeemed debt are credited or charged to operations.

#### g) Deferred debt costs

Deferred debt costs include the unamortized amounts related to unrealized foreign exchange gains or losses resulting from the translation of foreign currency long-term debt; deferred foreign exchange gains or losses on hedges; deferred foreign exchange gains or losses on the early redemption of long-term debt; discounts or premiums arising from the issuance of debt or the acquisition of debt prior to maturity; discounts or premiums accrued on foreign currency hedges; and net unamortized premiums on settled, exercised or expired swaption contracts.

Discounts or premiums arising from the issuance of debt are amortized over the period to maturity of the debt on an annuity basis when the term of the debt exceeds one year and on a straight-line basis when the term is one year or less. Discounts or premiums on debt acquired prior to the date of maturity are amortized on an annuity basis over the period from the acquisition date to the original maturity date of the debt (see note 2a). Discounts or premiums on foreign currency hedges are credited or charged to operations on an annuity basis over the terms of the individual hedges. Net unamortized premiums on settled, exercised or expired swaption contracts are amortized on an annuity basis over the period from the settlement, exercise or expiry date to the original maturity date of the related debt.

#### h) Pension plan

The pension plan is a contributory, defined benefit plan covering all regular employees of Ontario Hydro. Pension costs for accounting purposes are actuarially determined using the projected benefit method prorated on services and based on assumptions that reflect management's best estimate of the effect of future events on the actuarial present value of accrued pension benefits. Pension plan assets are valued using current fair values and pension plan adjustments are amortized on a straight-line basis over the expected average remaining period of service of the employees covered by the Ontario Hydro pension plan (see note 18).

In the last quarter of 1998, Ontario Hydro adopted the new method of accounting for pension costs recently approved by the Canadian Institute of Chartered Accountants (CICA). The effect of this was to change the discount rate used to determine pension costs and obligations from a long-term average rate to a current market settlement rate. This change had no significant impact on the financial statements for the year ended December 31, 1998.

#### i) Other post-employment benefits

In addition to pension benefits, Ontario Hydro provides group life insurance and health-care benefits to its retired employees and, in certain cases, their surviving spouses and unmarried dependents. As well, Ontario Hydro provides long-term disability benefits to qualifying employees during extended absences from work due to sickness or injury.

Prior to January 1, 1997, the costs of other post-employment benefits (OPEB) were charged to operations

as the benefits were paid. Effective January 1, 1997, Ontario Hydro implemented accrual accounting for OPEB whereby the expected costs of providing those benefits are charged to operations as employees render services. Accordingly, the costs of OPEB are actuarially determined for accounting purposes based on assumptions that reflect management's best estimates of the effect of future events on the actuarial present value of the accrued benefits. The transition obligation arising on conversion to accrual accounting was charged to retained earnings on January 1, 1997 (see note 16). In 1998, the Corporation changed the discount rate used to measure the OPEB obligation from a long-term average rate to a current market settlement rate. The transition amount resulting from this change was charged to the deficit in 1998 (see note 16).

#### j) Research and development

Research and development (R&D) costs related directly to the design or construction of a specific fixed asset are capitalized as part of the cost of the asset. R&D costs incurred to discharge long-term obligations, and for which specific provision has already been made, are charged to the related provision. All other R&D costs are charged to operations in the year incurred.

#### k) Applications software and the Year 2000 expenditures

Ontario Hydro capitalizes major applications software acquisition costs when future benefit is reasonably assured. Expenditures incurred to address the Year 2000 Issue are charged to operations as incurred, unless existing assets are replaced with new versions or completely new systems. In this case, the expenditures are capitalized consistent with the accounting for any acquisition project.

### 3. SECONDARY POWER AND ENERGY

Secondary power and energy revenues include $10 million for the three months ended March 31, 1999 (1998: $111 million, 1997: $158 million) from sales of electricity to United States utilities.

### 4. PROVINCIAL GOVERNMENT LEVIES

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31, 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Provincial water rentals | **30** | 119 | 121 |
| Provincial debt guarantee fee | **39** | 155 | 156 |
| | **69** | 274 | 277 |

Provincial water rentals are paid to the Province for the use of water for hydroelectric generation. The debt guarantee fee, equal to one half of one percent on the total debt guaranteed by the Province outstanding as of the preceding December 31, is a legislated payment made by Ontario Hydro to the Province.

### 5. DEPRECIATION AND AMORTIZATION

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31, 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Depreciation of fixed assets in service | **398** | 1,447 | 1,438 |
| Fixed asset removal costs | **4** | 65 | 140 |
| | **402** | 1,512 | 1,578 |

## 6. FINANCING CHARGES

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31, 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Interest on bonds, notes and other debt: | | | |
| Long-term | **611** | 2,603 | 2,778 |
| Short-term | **34** | 155 | 114 |
| Interest on accrued fixed asset removal and used nuclear fuel disposal costs | **45** | 160 | 164 |
| | **690** | 2,918 | 3,056 |
| **LESS:** | | | |
| Interest charged to: | | | |
| Construction in progress | **7** | 39 | 51 |
| Fuel for electric generation | **–** | – | 1 |
| Interest earned on investments | **14** | 33 | 33 |
| | **21** | 72 | 85 |
| Interest charged to operations | **669** | 2,846 | 2,971 |
| Foreign exchange | **18** | 30 | 118 |
| | **687** | 2,876 | 3,089 |

## 7. CORPORATE WRITE-OFFS

| *(millions of dollars)* | YEAR ENDED DECEMBER 31 1997 |
|---|---|
| Nuclear recovery | 4,595 |
| Other future expenditures | 1,495 |
| Staff reduction and employee relocation costs | 238 |
| Bruce Nuclear Generating Station A | 170 |
| Surplus buildings and equipment and associated business exit costs | 82 |
| | 6,580 |

There were no corporate write-offs during the three months ended March 31, 1999, and year ended December 31, 1998. In 1997, the Board of Directors of Ontario Hydro approved a number of charges and write-offs to operations, totalling $6,580 million, to 1997 operations. Two of these charges were for future costs expected to be incurred over the 1998 to 2001 period, which, under GAAP for enterprises operating in a non-rate-regulated environment, would be expensed as incurred. Accordingly, these charges required use of the Board's rate-setting authority, to establish a provision for future costs. The first such charge was for additional future costs associated with improving nuclear performance, specifically the Nuclear Asset Optimization Plan (NAOP) and other related costs such as replacement energy and interest. While Ontario Hydro expects to incur additional costs of $4,895 million for the improvement of nuclear performance, the charge to 1997 operations was $4,595 million, before using a $300 million provision made in a previous year for planned nuclear recovery expenditures. The second charge, of $1,495 million, was for additional future costs associated with transmission and distribution assets, nuclear decommissioning and used fuel disposal provisions.

The remaining $490 million in charges to 1997 operations did not require use of the Board's rate-setting authority and related to the following:

• A charge of $238 million to cover the costs associated with a targeted reduction of 850 staff, including those expected to become surplus to Corporate needs before the end of 1998, and costs associated with the large-scale staff relocations required under the NAOP.
• A write-off of $170 million in capital project expenditures associated with the three units of Bruce Nuclear Generating Station A that were laid-up in 1998. Management's assessment was that the related capital projects would have no future benefit due to the lengthy duration of the lay-up.
• A write-off of $82 million associated with certain buildings and equipment identified as surplus due to Hydro's transition towards a more competitive environment and to reflect the wind-up of several small ancillary business ventures.

The following table shows the extent to which the provision for future costs was used in 1998 and the three months ended March 31, 1999.

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31 1999 | YEAR ENDED DECEMBER 31 1998 |
|---|---|---|
| Opening balance | **4,904** | 6,390 |
| Charges | | |
| Operation, maintenance and administration | **144** | 589 |
| Fuel used for electric generation | **167** | 690 |
| Power purchased | **27** | 78 |
| Depreciation and amortization | **16** | 83 |
| Financing charges | **25** | 46 |
| | **379** | 1,486 |
| **CLOSING BALANCE** | **4,525** | 4,904 |

## 8. FIXED ASSETS

| *(millions of dollars)* | AS AT MARCH 31 1999 | | AS AT DECEMBER 31 1998 | | 1997 | |
|---|---|---|---|---|---|---|
| | Cost | Accumulated Depreciation | Cost | Accumulated Depreciation | Cost | Accumulated Depreciation |
| Generating stations | | | | | | |
| Hydroelectric | **2,755** | **901** | 2,755 | 881 | 2,723 | 898 |
| Fossil | **5,462** | **2,896** | 5,457 | 2,854 | 5,377 | 2,658 |
| Nuclear | **24,868** | **6,984** | 24,850 | 6,792 | 24,591 | 6,082 |
| Heavy water | **3,946** | **986** | 3,946 | 961 | 3,946 | 863 |
| Transmission and distribution facilities | **11,493** | **3,674** | 11,525 | 3,615 | 11,252 | 3,094 |
| Administration and service facilities | **1,917** | **1,032** | 1,914 | 1,055 | 1,789 | 1,339 |
| **FIXED ASSETS IN SERVICE** | **50,441** | **16,473** | 50,447 | 16,158 | 49,678 | 14,934 |

### Nuclear steam generator rehabilitation costs

Ontario Hydro has undertaken a major program to rehabilitate steam generators at the Pickering A and B Nuclear Generating Stations. The costs of the program, which will continue until 2001, are being deferred and amortized over the remaining service lives of the individual generators commencing as each generator is returned to service.

The deferred nuclear steam generator rehabilitation amounts included in fixed assets, construction in progress and accumulated depreciation are detailed as follows:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Fixed assets | **152** | 152 | 116 |
| Less: accumulated depreciation | **23** | 19 | 14 |
| | **129** | 133 | 102 |
| Construction in progress | **–** | – | 24 |
| | **129** | 133 | 126 |

## 9. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of investments in money market instruments (temporary investments with original maturities of less than three months), and outstanding cheques (bank indebtedness). Cash and cash equivalents included in the cash flow statement comprise the following balance sheet amounts:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Temporary investments | **245** | 225 | – |
| Bank indebtedness | **(10)** | (60) | (37) |
| | **235** | 165 | (37) |

## 10. FUEL FOR ELECTRIC GENERATION

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| **INVENTORIES** | | | |
| Uranium | **154** | 151 | 161 |
| Coal | **187** | 261 | 188 |
| Oil | **33** | 44 | 18 |
| | **374** | 456 | 367 |

## 11. LONG-TERM DEBT

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Bonds and notes payable | **27,735** | 28,291 | 28,188 |
| Capital lease obligations | **31** | 33 | 33 |
| | **27,766** | 28,324 | 28,221 |
| Less: Payable within one year | **1,572** | 2,468 | 3,301 |
| | **26,194** | 25,856 | 24,920 |

Bonds and notes payable, are summarized by years of maturity in the following table:

| *(millions of dollars)* | AS AT MARCH 31 1999 | | | | AS AT DECEMBER 31 1998 | | | | 1997 | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Principal Outstanding | | | Weighted Average Interest Rate | Principal Outstanding | | | Weighted Average Interest Rate | Principal Outstanding | Weighted Average Interest Rate |
| | CDN | FOREIGN | TOTAL | PERCENT | CDN | FOREIGN | TOTAL | PERCENT | TOTAL | PERCENT |
| **YEARS OF MATURITY** | | | | | | | | | | |
| | | | | | | | | | 3,297 | |
| 1 year | **1,150** | **419** | **1,569** | | 2,050 | 415 | 2,465 | | 2,504 | |
| 2 years | **2,077** | **153** | **2,230** | | 1,551 | – | 1,551 | | 1,552 | |
| 3 years | **2,000** | **755** | **2,755** | | 1,525 | 932 | 2,457 | | 2,426 | |
| 4 years | **3,097** | **–** | **3,097** | | 4,448 | – | 4,448 | | 4,447 | |
| 5 years | **1,148** | **64** | **1,212** | | 1,398 | – | 1,398 | | – | |
| **SUBTOTAL** | **9,472** | **1,391** | **10,863** | **9.2** | 10,972 | 1,347 | 12,319 | 9.1 | 14,226 | 8.9 |
| 6 – 10 years | **5,198** | **1,132** | **6,330** | **7.0** | 4,198 | 1,216 | 5,414 | 7.2 | 2,363 | 8.5 |
| 11 – 15 years | **2,164** | **1,132** | **3,296** | **9.9** | 2,164 | 1,148 | 3,312 | 9.9 | 3,219 | 10.6 |
| 16 – 20 years | **648** | **–** | **648** | **10.0** | 648 | – | 648 | 10.0 | 1,997 | 8.9 |
| 21 – 25 years | **3,633** | **–** | **3,633** | **10.0** | 3,633 | – | 3,633 | 10.0 | 2,675 | 10.3 |
| 26 years and over | **2,965** | **–** | **2,965** | **8.9** | 2,965 | – | 2,965 | 8.9 | 3,708 | 9.1 |
| | **24,080** | **3,655** | **27,735** | **8.9** | 24,580 | 3,711 | 28,291 | 8.9 | 28,188 | 9.3 |

The weighted average interest rate represents the effective rate of interest on fixed-rate bonds and notes and the current interest rate in effect at March 31, 1999, for floating-rate bonds and notes, all before considering the effect of derivative financial instruments used to manage interest rate risk. Bonds and notes payable are either held, or guaranteed as to principal and interest, by the Province.

Bonds and notes payable include:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| **BONDS AND NOTES PAYABLE** | | | |
| Ontario Hydro bonds [1] | | | |
| Canadian | **1,500** | 500 | – |
| US | **–** | – | 193 |
| Callable bonds [2] | | | |
| Canadian | **2,765** | 2,765 | 3,116 |
| US | **–** | – | 253 |
| Weighted average coupon rates | **11.5%** | 11.7% | 11.4% |

[1] These are held by the Province having terms identical with those of the Province of Ontario issues sold on behalf of Ontario Hydro.
[2] Bonds callable by Ontario Hydro are at fixed prices on dates before their stated maturities, which are over the period 2002 to 2012. These bonds are callable at a weighted average call price equal to 100% of the bond's principal amounts callable on specific dates within the period 1999 to 2005.

As described in note 12, Ontario Hydro has used various derivative financial instruments to hedge the foreign exchange exposure related to long-term debt denominated in foreign currencies and to manage the interest rate risk associated with its outstanding long-term debt.

### 12. DERIVATIVE FINANCIAL INSTRUMENTS

Ontario Hydro has used a variety of derivative financial instruments to manage foreign exchange and interest rate risk. The table below summarizes outstanding positions in foreign exchange derivative financial instruments:

| *(millions of stated currency)* | MARCH 31 1999 | | | DECEMBER 31 1998 | | | 1997 |
|---|---|---|---|---|---|---|---|
| | Maturing within 12 months | Maturing beyond 12 months | Total | Maturing within 12 months | Maturing beyond 12 months | Total | Notional Principal Outstanding |
| **FORWARD EXCHANGE CONTRACTS** | | | | | | | |
| Purchased forward | – | – | – | US $95 | – | US $95 | US $1,242 |
| | CHF 7 | – | CHF 7 | CHF 10 | – | CHF 10 | CHF 11 |
| Sold forward | – | – | – | US $51 | – | US $51 | US $55 |
| **CROSS-CURRENCY SWAP CONTRACTS** | | | | | | | |
| Ontario Hydro receives: | | | | | | | |
| United States dollar | US **$202** | US **$105** | US **$307** | US $202 | US $105 | US $307 | US $307 |
| Swiss franc | – | CHF **150** | CHF **150** | – | CHF 150 | CHF 150 | CHF 150 |
| Japanese yen | – | ¥ **5,000** | ¥ **5,000** | – | ¥ 5,000 | ¥ 5,000 | ¥ 5,000 |
| New Zealand dollar | – | – | – | – | – | – | NZ $100 |
| Australian dollar [1] | AU **$568** | – | AU **$568** | AU $568 | – | AU $568 | AU $568 |
| Canadian dollar | – | CDN **$423** | CDN **$423** | | CDN $423 | CDN $423 | CDN $423 |
| **ONTARIO HYDRO PAYS:** | | | | | | | |
| United States dollar | US **$441** | US **$363** | US **$804** | US $441 | US $363 | US $804 | US $873 |
| Australian dollar [1] | AU **$260** | – | AU **$260** | AU $260 | – | AU $260 | AU $260 |
| Canadian dollar | – | CDN **$279** | CDN **$279** | – | CDN $279 | CDN $279 | CDN $280 |

[1] Periodic swaps denominated in Japanese yen.

**FORWARD EXCHANGE CONTRACTS.** Ontario Hydro has entered into forward exchange contracts to hedge against the impact of a potential decline in the value of the Canadian dollar in 1999, and to manage the foreign exchange risk associated with its long-term debt. Forward exchange contracts have also been entered into to hedge firm commitments for future purchases and sales denominated in a foreign currency.

**CROSS CURRENCY SWAP CONTRACTS.** Ontario Hydro has entered into cross currency swap contracts to effectively convert principal and interest payments on selected debt issues into Canadian or United States dollars.

The following table summarizes the currencies in which Ontario Hydro's long-term debt, bank indebtedness and short-term notes are payable, before and after giving effect to Ontario Hydro's foreign exchange risk management activities related to debt:

| *(millions of dollars)* | MARCH 31 1999 | | DECEMBER 31 1998 | | 1997 | |
|---|---|---|---|---|---|---|
| | Principal Outstanding | | Principal Outstanding | | Principal Outstanding | |
| | Before Hedging | After Hedging | Before Hedging | After Hedging | Before Hedging | After Hedging |
| Canadian dollars | **26,311** | **26,147** | 26,941 | 26,786 | 26,691 | 26,817 |
| United States dollars | **3,704** | **4,380** | 3,756 | 4,435 | 3,865 | 4,311 |
| Australian dollars [1] | **295** | **–** | 289 | – | 287 | – |

| Ontario Hydro potentially | **–** | **CDN $496** | **CDN $496** | CDN $100 | CDN $496 | CDN $596 | CDN $692 |
| pays fixed | **–** | **–** | **–** | – | – | – | US $193 |
| **INTEREST RATE SWAP CONTRACTS** | | | | | | | |
| Ontario Hydro receives fixed | **CDN $765** | **CDN $1,648** | **CDN $2,413** | CDN $765 | CDN $1,648 | CDN $2,413 | CDN $3,591 |
| | **US $323** | **US $403** | **US $726** | US $323 | US $403 | US $726 | US $826 |
| Ontario Hydro pays fixed | **CDN $726** | **CDN $2,433** | **CDN $3,159** | CDN $2,576 | CDN $2,487 | CDN $5,063 | CDN $7,215 |
| | **US $466** | **US $613** | **US $1,079** | US $466 | US $613 | US $1,079 | US $1,893 |
| **FORWARD RATE AGREEMENTS** | | | | | | | |
| Ontario Hydro pays forward rate | **–** | **–** | **–** | – | – | – | CDN $450 |
| | **–** | **–** | **–** | US $175 | – | US $175 | US $850 |
| **BOND OPTIONS PURCHASED** | **–** | **–** | **–** | – | – | – | CDN $150 |
| | **–** | **–** | **–** | – | – | – | US $105 |
| Forward bond purchases | **–** | **–** | **–** | CDN $160 | – | CDN $160 | – |

**SWAPTION CONTRACTS.** In 1993, Ontario Hydro converted future potential interest savings, related to call options embedded in certain of its bonds to cash by selling offsetting swaption contracts. These contracts permit holders to require Ontario Hydro to enter into interest rate swaps commencing on the call date. If exercised, the swaptions result in Ontario Hydro making payments based on a fixed interest rate equal to the related bonds' coupon rates, and receiving floating rate payments.

United States dollar-denominated swaptions may be cash settled on their exercise dates. Premiums received from the sale of these contracts are being amortized to income, as a reduction of interest expense, over the remaining terms of the related bond issues.

**INTEREST RATE SWAP CONTRACTS.** As at March 31, 1999, the outstanding receive-fixed interest rate swap contracts have effectively converted fixed interest rates on long-term debt to floating interest rates. These contracts have maturity dates over the period 1999 to 2026 (1998: 1999 to 2026; 1997: 1998 to 2026). The outstanding pay-fixed interest rate swap contracts have effectively converted floating interest rates on outstanding debt into fixed interest rates. These contracts have maturity dates over the period 1999 to 2027 (1998: 1999 to 2027; 1997: 1998 to 2027).

**FORWARD RATE AGREEMENTS.** Prior to 1999, Ontario Hydro had entered into forward rate agreements to manage its exposure to short-term interest rates.

**BOND OPTIONS.** Prior to 1999, Ontario Hydro had purchased options to buy long-term government bonds to mitigate the adverse impact of a potential decline in long-term interest rates on its fixed-rate debt.

**FORWARD BOND PURCHASES.** Prior to 1999, Ontario Hydro had entered into forward purchase contracts for Government of Canada bonds to manage its exposure to short-term interest rates.

The following table summarizes the total amount of long-term debt, short-term notes and bank indebtedness maturing or subject to interest rate resetting within one year and after one year, before and after giving effect to Ontario Hydro's interest rate risk management activities:

*(millions of dollars)*

| | AS AT MARCH 31, 1999 | | | |
|---|---|---|---|---|
| | Before interest rate risk management activities | Weighted average interest rate (percent) | After interest rate risk management activities | Weighted average interest rate (percent) |
| **MATURES OR REPRICES:** | | | | |
| Within one year | **4,334** | **6.2** | **3,232** | **6.3** |
| After one year | **26,193** | **9.1** | **27,295** | **9.3** |
| | **30,527** | **8.7** | **30,527** | **8.9** |

*(millions of dollars)*

| | AS AT DECEMBER 31, 1998 | | | |
|---|---|---|---|---|
| | Before interest rate risk management activities | Weighted average interest rate (percent) | After interest rate risk management activities | Weighted average interest rate (percent) |
| **MATURES OR REPRICES:** | | | | |
| Within one year | 5,365 | 5.8 | 4,273 | 5.8 |
| After one year | 25,856 | 9.1 | 26,948 | 9.2 |
| | 31,221 | 8.5 | 31,221 | 8.7 |

*(millions of dollars)*

| | AS AT DECEMBER 31, 1997 | | | |
|---|---|---|---|---|
| | Before interest rate risk management activities | Weighted average interest rate (percent) | After interest rate risk management activities | Weighted average interest rate (percent) |
| **MATURES OR REPRICES:** | | | | |
| Within one year | 7,104 | 5.8 | 3,619 | 6.6 |
| After one year | 24,024 | 9.6 | 27,509 | 9.0 |
| | 31,128 | 8.7 | 31,128 | 8.7 |

## 13. FAIR VALUE OF FINANCIAL INSTRUMENTS AND CREDIT RISK

### Fair value

The following table presents the carrying amounts and fair values of Ontario Hydro's financial instruments:

*(millions of dollars)*

| | AS AT MARCH 31 1999 | | AS AT DECEMBER 31 1998 | | 1997 | |
|---|---|---|---|---|---|---|
| | Carrying Value | Fair Value[1] | Carrying Value | Fair Value[1] | Carrying Value | Fair Value[1] |
| **FINANCIAL ASSETS** | | | | | | |
| Forward exchange contracts | – | – | – | – | 53 | 55 |
| Cross currency swap contracts | 69 | 79 | 93 | 116 | 53 | 55 |
| Interest rate swap contracts | 33 | 222 | 25 | 258 | 33 | 238 |
| Bond options | – | – | – | – | – | 1 |
| **FINANCIAL LIABILITIES** | | | | | | |
| Forward exchange contracts | – | 1 | 1 | 1 | – | – |
| Long-term debt | 27,735 | 34,062 | 28,291 | 35,073 | 28,188 | 34,700 |
| Swaption contracts | 11 | 63 | 21 | 97 | 92 | 245 |
| Cross currency swap contracts | 197 | 131 | 224 | 193 | 188 | 129 |
| Interest rate swap contracts | 98 | 458 | 94 | 503 | 111 | 428 |
| Forward rate agreements | – | – | – | 1 | – | 1 |

1 Period-end and year-end quoted market prices for specific or similar instruments are used to estimate the fair value of each class of financial instrument for which it is practical to estimate that value. For over-the-counter derivative financial instruments, the fair value is determined using pricing models that take into account the current value of the underlying instruments, the time value of money, and mid-market yield curve and volatility factors. The carrying values of cash, temporary investments, accounts receivable, bank indebtedness, short-term notes payable and accounts payable and accrued charges approximate fair value because of the short maturity of those instruments.

### Credit risk

Financial assets expose Ontario Hydro to credit risk and concentration of credit risk. As at March 31, 1999, there were no significant concentrations of credit risk with respect to any class of financial assets. Derivative financial instruments expose Ontario Hydro to credit risk, since there is a risk of counter party default. This risk is limited to the cost of replacing contracts in which Ontario Hydro has an unrealized gain.

Credit risk is monitored and minimized by dealing only with a diverse group of highly rated counter parties. In addition, as a means of further reducing its credit exposure on derivative financial instruments, Ontario Hydro enters into master netting agreements with its counter parties to enable it to settle derivative financial

assets and liabilities with the counter party on a net basis in the event that the counter party defaults. The existence of these master netting agreements had the effect of reducing Ontario Hydro's current credit risk exposure on derivative financial assets from $437 million to $86 million as at March 31, 1999 (1998: from $374 million to $152 million; 1997: from $349 million to $142 million).

## 14. ACCRUED FIXED ASSET REMOVAL AND USED NUCLEAR FUEL DISPOSAL COSTS

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| **ACCRUED FIXED ASSET REMOVAL COSTS** | | | |
| Accrued decommissioning costs | **1,059** | 1,042 | 962 |
| Accrued fuel channel removal costs | **699** | 674 | 616 |
| | **1,758** | 1,716 | 1,578 |
| **ACCRUED USED NUCLEAR FUEL DISPOSAL COSTS** | **1,549** | 1,485 | 1,264 |
| | **3,307** | **3,201** | 2,842 |

### Accrued fixed asset removal costs

Accrued fixed asset removal costs are the costs of decommissioning nuclear and fossil generating stations and heavy water production facilities after the end of their service lives, and the costs of removing certain fuel channels and steam generators, which are expected to be replaced during the life of the nuclear reactors. The significant assumptions used in estimating future fixed asset removal costs are consistent with 1998:

• decommissioning of nuclear generating stations in the 2042 to 2071 period on a deferred dismantlement basis (dismantlement following storage with surveillance for a 30-year period after shutdown of the reactors), and an average transportation distance of 1,000 kilometres from nuclear generating facilities to disposal facilities;

• interest and cost escalation rates through to 2071 ranging from:

| | 1999 | 1998 | 1997 |
|---|---|---|---|
| Interest rates | **6% to 8%** | 6% to 8% | 6% to 9% |
| Cost escalation rates | **2% to 4%** | 2% to 4% | 2% to 5% |

• removal and replacement of certain fuel channels and steam generators in nuclear generating stations during the following periods :

| | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Bruce A Units 3 & 4 | **2001–2008** | 2006–2008 | 2005–2008 |
| Pickering B | **2008–2012** | 2009–2014 | 2013–2017 |
| Bruce B | **2010–2013** | 2011–2017 | 2015–2018 |
| Darlington | **2016-2019** | 2016-2022 | 2022-2024 |

• decommissioning of fossil generating stations in the 2006 to 2025 period.

The significant assumptions underlying the estimates of accrued fixed asset removal costs are subject to periodic review. These assumptions, as well as, the existing methods and technology used for decommissioning, fuel channel removal and replacement, and steam generator replacement are subject to change which could result in changes to these costs.

### Accrued used nuclear fuel disposal costs

The significant assumptions used in estimating the future used nuclear fuel disposal costs are consistent with 1998:

- an in-service date of the year 2025 for permanent disposal facilities;
- an average transportation distance of 1,000 kilometres from nuclear generating facilities to disposal facilities;
- interest and cost escalation rates through to 2071 ranging from:

| | 1999 | 1998 | 1997 |
|---|---|---|---|
| Interest rates | **6% to 8%** | 6% to 8% | 6% to 9% |
| Cost escalation rates | **2% to 4%** | 2% to 4% | 2% to 5% |

The significant assumptions underlying the estimates of accrued used nuclear fuel disposal costs are subject to periodic review. These assumptions, as well as the existing methods and technology used for used fuel disposal, are subject to change which could result in changes to these costs.

## 15. CONTINGENCIES & COMMITMENTS

### Uncertainty due to the Year 2000 Issue

The Year 2000 Issue arises because many computerized systems use two digits rather than four to identify a year. Date-sensitive systems may recognize the year 2000 as 1900 or some other date, resulting in errors when information using year 2000 dates is processed. In addition, similar problems may arise in 1999 in some systems which use the digits "99" in a date field to represent something other than a date. The effects of the Year 2000 Issue may be experienced before, on, or after January 1, 2000, and, if not addressed, the impact on operations and financial reporting may range from minor errors to significant systems failure which could affect an entity's ability to conduct normal business operations.

The Corporation is in the process of completing a significant program designed to upgrade or replace affected systems on which it and its customers depend, prior to the year 2000. However, it is not possible to be certain that all aspects of the Year 2000 Issue affecting Ontario Hydro, including those related to the efforts of customers, suppliers, or other third parties, will be fully resolved.

### Renewable Energy Technology Program Class Action

In 1997, a class action suit was commenced on behalf of all bidders in the renewable energy technology program based on allegations of misrepresentation and bad faith in requesting bids and carrying on discussions with bidders prior to cancellation of the project. The plaintiffs named Ontario Hydro, as well as, certain individual officers of Ontario Hydro as defendants. The plaintiffs seek declaratory relief and damages in the amount of $250 million for loss of income and profits, loss of opportunity, conversion of trade secrets, and exemplary, aggravated and punitive damages. A motion to certify the class was argued in November 1998 and in December the Court refused to certify the action. Subject to appeal rights, the action may now proceed as a claim by the named plaintiff, and the damages claimed would be reduced substantially. At this time, the outcome of this claim is not determinable, and as such, no provision has been accrued in Ontario Hydro's financial statements with respect to any amounts in dispute. However, Ontario Hydro believes it has no liability, and that the damages claimed are, in any event, excessive.

### Municipal electric utilities' lawsuit

On April 24, 1997, three municipal electric utilities (Applicants) issued a notice of application against Ontario Hydro for which they have since received certification as a class proceeding on behalf of all municipal electric

utilities in Ontario. No supporting affidavit materials have been served. The Applicants seek declarations that certain rates and pricing options offered by Ontario Hydro to corporations contravene the provisions of the PCA and that these rates and pricing options have improperly increased costs to the municipal electric utilities who purchase their power from Ontario Hydro. They also seek recovery of these increased costs in the amount of $145 million. They further seek a declaration that Ontario Hydro has improperly diverted, from revenues derived from the sale of power to municipal electric utilities, monies, of an indeterminate amount, which should have been used to reduce the cost of power being supplied to these municipal electric utilities. They are also seeking declarations that Ontario Hydro has breached legislative provisions prescribing the operation of the Reserve for Stabilization of Rates and Contingencies and the equity account, and an order requiring Ontario Hydro to replenish the equity account in the amount of $5.0 billion. Ontario Hydro has denied the allegations, and believes that it has valid and meritorious defences against such allegations and will, in due course, file responding materials. At this time, the outcome of these claims is not determinable.

### Bruce Nuclear Generating Station A

As a result of the NAOP, Ontario Hydro laid up the three operating units at Bruce Nuclear Generating Station A over the Spring of 1998. Consistent with the phased recovery approach adopted for NAOP, these three units plus Bruce A Unit 2, which was shut down in 1995, are currently planned to be returned to service within the period 2003 to 2009.

In the event that a future decision is made not to return the four Bruce A units to service, a loss would have to be recognized. The current estimate of such a loss is about $1,050 million, which takes into account the undepreciated book value of the generating and heavy water assets, the carrying value of remaining construction in progress amounts, and the impact of recognizing unaccrued net fixed asset removal provisions.

### Power Purchase Agreements

Ontario Hydro has committed to the purchase of a portion of its electricity requirements, pursuant to long-term contractual Power Purchase Agreements (PPAs), with various power producers.

The PPAs expire on various dates from 1999 to 2048. Other details are:

| | AS AT MARCH 31 | AS AT DECEMBER 31 | |
|---|---|---|---|
| | 1999 | 1998 | 1997 |
| In-service capacity *(megawatts)* | **1,670** | 1,864 | 1,584 |
| Net present value of purchase obligations over 20 years *(millions of dollars)* | **6,689** | 6,910 | 6,203 |

Estimated annual payments for purchase obligations range from $755 million to $865 million over the next five years.

Deliveries in the aggregate for the first three months of 1999 account for approximately 8.0% of Ontario Hydro's total electric energy requirements (1998: 7.6%; 1997: 7.2%). The amount of energy received and the total payments made under these agreements are:

| | THREE MONTHS ENDED MARCH 31 | YEAR ENDED DECEMBER 31 | |
|---|---|---|---|
| | 1999 | 1998 | 1997 |
| Gigawatthours received | **3,043** | 11,108 | 10,366 |
| Power purchases *(millions of dollars)* | **217** | 680 | 642 |

Ontario Hydro has issued a Request for Expressions of Interest for the financial restructuring of its power purchase contracts with independent power producers in Ontario.

### Loan guarantees

Ontario Hydro is contingently liable under guarantees given to third-party lenders who have provided long-term financing to certain independent power producers. These guarantees total approximately $157 million as at March 31, 1999 (1998: $160 million, 1997: $171 million).

### Fuel used for electric generation

Ontario Hydro has entered into firm fuel supply agreements, some of which extend beyond 2000. The future obligation as at March 31, 1999, under these agreements for the remainder of 1999 is estimated to be $504 million. Beyond 1999, the estimated amount is $228 million (1998: $639 million).

## 16. (DEFICIT) RETAINED EARNINGS

On January 1, 1997, the opening retained earnings balance of $2,552 million was reduced by $763 million as a result of charging the transition obligation associated with the change in accounting for other post-employment benefits (see note 2i). The change was introduced as a first step to the early implementation of accounting recommendations from the Canadian Institute of Chartered Accountants (CICA), effective January 1, 2000. The future OPEB obligation was discounted using a long-term average rate, consistent with the rate used to determine pension costs and obligations.

In 1998, the CICA approved new recommendations on accounting for employees' future benefits. To complete the implementation of the new accounting recommendations, the Corporation changed the discount rate used to measure the OPEB obligation from a long-term average rate to a current market settlement rate. As a result, a transition amount of $460 million was charged to the deficit in 1998.

## 17. CONSOLIDATED STATEMENT OF CASH FLOWS

The changes in non-cash balances related to operations consisted of the following:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Accounts receivable – decrease (increase) | **7** | (9) | (22) |
| Fuel for electric generation, materials and supplies – decrease (increase) | **99** | (126) | (10) |
| Accounts payable and accrued charges – increase | **47** | 68 | 200 |
| Accrued interest – increase (decrease) | **57** | (38) | (47) |
| Long-term accounts payable and accrued charges – increase (decrease) | **24** | 202 | (237) |
| | **234** | 97 | (116) |
| Interest paid | **606** | 2,772 | 2,903 |
| Interest received | **9** | 29 | 14 |

## 18. BENEFIT PLANS

### Pension plan

Effective November 7, 1998, certain sections of the *Energy Competition Act, 1998,* came into force whereby Ontario Hydro and its successor entities were allowed to adopt funding practices that are more consistent with Canadian business practices. The Plan has a substantial surplus. As agreed in the Union negotiation processes,

Ontario Hydro ceased remitting employer contributions effective April 1, 1998. Also, commencing November 7, 1998, the direct costs of investment management and administration of the Plan have been absorbed as a cost of the Plan. Information about Ontario Hydro's pension plan is as follows:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Pension costs | **7** | 23 | 116 |
| Pension costs charged to operations | **7** | 18 | 93 |
| Pension costs capitalized as part of fixed assets | **–** | 5 | 23 |
| Pension fund assets at fair market value | **10,853** | 10,816 | 10,173 |
| Accrued pension benefits at actuarial present value | **9,830** | 9,707 | 6,455 |
| Plan surplus for accounting purposes | **1,023** | 1,109 | 3,718 |
| Deferred pension asset | **972** | 979 | 112 |
| Expected return on plan assets | **7.25%** | 9% | 9% |
| Rate used to discount future pension benefits | **6%** | 6% | 8.25% |
| Salary schedule escalation rate | **3.5%** | 3.5% | 3.5% |
| Rate of cost of living increases to pensions | **2.5%** | 2.5% | 1.88% |
| Average remaining service life for employee *(years)* | **12** | 12 | 14 |

The actuarial present value of the accrued pension benefits was based on a projection of the valuation at December 31, 1997. Estimated accrued pension benefits increased dramatically in 1998 as a result of an accounting change. The Canadian Institute of Chartered Accountants has recommended that the rate used for discounting future pension benefits should be based on the current market interest rate. Previously, Ontario Hydro used its best estimate as to the long-term average interest rate of corporate bonds for this computation.

The deferred pension asset of $972 million as at March 31, 1999 (1998: $979 million, 1997: $112 million), represents the cumulative difference between funding contributions and pension costs. The $7 million decline to March 31, 1999, is the pension cost charged to operations. The $887 million increase to the deferred pension asset in 1998 results from recognizing the access to the pension fund surplus. Ontario Hydro also recognized a corresponding credit to the 1998 operating statement.

The $51 million difference as at March 31, 1999 (1998: $130 million), between the $1,023 million pension fund surplus and the $972 million deferred pension asset represents experience gains and losses, which will be amortized over the average remaining service period of employees.

The Ontario Electricity Pension Services Corporation was established effective April 1, 1999, to assume transitional responsibility, as an agent for OEFC, for administering the pension benefits and investing pension assets on behalf of the successor entities of Ontario Hydro.

### Group life insurance, health care plans, and other post-employment benefits

Ontario Hydro's costs are detailed as follows:

| *(millions of dollars)* | THREE MONTHS ENDED MARCH 31 1999 | YEAR ENDED DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Group life insurance premiums basic coverage | **1** | 5 | 4 |
| Health-care plan | **13** | 60 | 58 |
| Post-employment benefits | | | |
| Retiree group life insurance & health-care | **26** | 92 | 71 |
| Long-term disability | **10** | 32 | 17 |

Group life premiums for additional coverage, if requested, are remitted by the employee. In certain cases, retiree group life insurance and health care costs include payments for surviving spouses, as well as unmarried dependents. Long-term disability applies to qualifying employees in extended absence from work due to sickness or injury.

### 19. RESEARCH AND DEVELOPMENT

Research and development costs are detailed as follows:

| *(millions of dollars)* | AS AT MARCH 31 1999 | AS AT DECEMBER 31 1998 | 1997 |
|---|---|---|---|
| Charged to operations | **18** | 58 | 80 |
| Capitalized | **–** | 3 | 2 |
| Charged to accrued provisions | **2** | 7 | 19 |
| | **20** | 68 | 101 |

### 20. FEDERAL ENVIRONMENTAL REVIEW PANEL

On March 13, 1998, a Federal Government Panel issued its report (known as the Seaborn Report) on Atomic Energy of Canada Limited's concept for nuclear waste disposal. On December 3, 1998, the Federal Government responded to the Panel's recommendations, concurring with the Panel's major recommendations that:

- the search for a specific disposal site not proceed at this time because broad public support has not been demonstrated;
- a separately incorporated waste management organization be formed by waste producers to manage used fuel;
- a segregated fund be established; and
- a study of alternatives for long-term disposal be commissioned.

The Federal Government has defined the parameters within which each of these recommendations will be implemented, and has charged Natural Resources Canada with initiating and reporting back on a consultative process with the appropriate stakeholders to develop options to meet the key objectives of :

- establishing a dedicated fund;
- specifying the reporting relationships between the government, the waste management organization and stakeholders; and
- establishing a federal review and approval mechanism to provide oversight and access to funds.

Note 14 outlines Ontario Hydro's estimation of future costs and timing of used nuclear fuel disposals.

### 21. SEGMENT INFORMATION

Ontario Hydro's reportable electricity segments are generation (Generation); transmission, distribution and other electricity services (Distribution); and all other activities (Other). The reportable segments are strategic business units that produce or deliver the same product to the customer. The production of the product is managed separately from the transmission and distribution of the product. The accounting policies followed by the segments are the same as those described in the summary of significant accounting policies (see note 2).

Ontario Hydro accounts for intersegment sales and transfers at cost. These segments are confirmed by the Government of Ontario through its passage of the *Energy Competition Act, 1998,* which establishes five successor entities as described in Note 1.

*(millions of dollars)*

| **AVERAGE NUMBER OF EMPLOYEES** | | | | | |
| Regular | **20,875** | 21,130 | 21,313 | 21,505 | 22,525 |
| Non-regular [9] | **2,089** | 2,438 | 1,873 | 1,573 | 2,082 |

1 Operation, maintenance and administration and fuel costs have been restated to exclude other revenues.
2 Long-term debt includes long-term debt payable within one year.
3 Interest coverage represents net income plus interest on bonds, notes, and other debt divided by interest on bonds, notes and other debt.
4 Debt ratio represents debt (bonds and notes payable, short-term notes payable, other post-employment benefits, other long-term debt, unamortized swaption premiums, accrued fixed asset removal and used nuclear fuel disposal costs and bank lines of credit less unamortized foreign exchange gains and losses) divided by debt plus equity.
5 Figures for 1998 are preliminary.
6 In-service capacity represents the net output power supplied by all generating units, net firm power purchase contracts and purchases from non-utility generators. Excluded are non-operating reserve facilities of: 1998 – 5,100 MW; 1997 – 4,516 MW; 1996 – 4,300 MW; 1995 – 5,043 MW; and 1994 – 4,297 MW.
7 Primary energy made available represents primary energy sales plus transmission losses and energy used for heavy water production and generation projects.
8 Average cost per kilowatt-hour represents the costs attributable to generation but excludes the costs related to transmission, distribution and corporate administrative activities. These figures reflect the historical accounting costs of operating facilities and the actual energy generated by these facilities during the year.
9 The majority of non-regular staff are construction trades persons.

# Corporate Governance Practices

Under the *Power Corporation Act (PCA)*, Ontario Hydro was governed by a Board of Directors consisting of up to 22 members. Included in this membership was the Deputy Minister of Energy, Science and Technology, a Director who did not vote at any meeting of the Board. The Chairman and Directors of the Board were appointed by the Lieutenant Governor in Council, and the President was appointed by the Board. The Board of Directors recommended to the Government of Ontario that it appoint either the Chairman or the President as the Chief Executive Officer. In 1998 and the first quarter of 1999, Ontario Hydro had a 12-member Board. Ten of the Corporation's 12 directors were independent of management. External Board members were provided the opportunity to meet in executive session with the Chairman, and the Chief Executive Officer, during each Board meeting, and to meet in executive session without the Chief Executive Officer and members of management several times during the year and/or as required.

As stipulated in the *PCA* [Section 4(1)], the Board supervised management who managed the affairs of the Corporation, and it was consequently involved in considering significant issues facing the Corporation. The Chairman of the Board and the Chairs of the Board Committees, in working with management, determined which matters were put before the Board.

The Hydro Board also recognized that it may supervise, direct or oversee the business and affairs of the Corporation, but that it should not manage them, at least not in a day-to-day sense. This kind of management was delegated to the CEO and other senior Hydro officers, who were accountable to, and reported back to, the Board from time to time and who operated within prescribed limits of authority.

The Board of Directors discharged its responsibilities directly and through committees. While there were 12 meetings of the Board of Directors in 1998 – including three site visits of Bruce, Pickering and Darlington nuclear generating facilities – and three Board meetings in the first quarter of 1999, the number of Committee meetings varied. The following is a brief description of the mandate of each Board Committee, its composition, and the number of meetings held in the past year.

### AUDIT/FINANCE COMMITTEE

The mandate of the Audit/Finance Committee was to advise the Board and to make recommendations for its consideration with respect to: the review of financial reporting matters, the system of internal accounting and financial controls and procedure, and the audit procedures and audit plans; the nomination, remuneration, function and performance of the external auditors; the form and content of the Corporation's annual financial statements, the annual report and any interim or ad hoc documents required by regulatory authorities; the review, on an annual basis, of the financial plans and objectives of the Corporation; the review of matters relating to the funding and investment of funds of the Corporation's pension plan; an annual review of the risks inherent in the Corporation's business and related risk-management programs; the Corporation's policies with respect to debt management, money market activities and the Corporation's banking resolutions; and the Corporation's policies with respect to debt management, foreign exchange management and corporate financial investments.

As defined in the *PCA*, the President and CEO was a member of the Committee for that section of the mandate related specifically to financial matters.

In carrying out its responsibilities, the Committee could meet with both the external and internal auditors, without the Chief Executive Officer and members of management present.

The Audit/Finance Committee met nine times during 1998, and three times in the first quarter of 1999.

### ENVIRONMENT & PUBLIC POLICY COMMITTEE

The mandate of the Environment and Public Policy Committee was to advise the Board and to make recommendations for its consideration with respect to the Corporation's strategic focus and direction on

matters relating to: health and safety; social obligations; relations with Aboriginal peoples; and sustainable development and the environment. Specifically, the Committee ensured that the Corporation's actions reflected the interests of governments, non-governmental organizations, the people of Ontario and the employees of Ontario Hydro.

The Environment and Public Policy Committee met five times during 1998.

### HUMAN RESOURCES & CORPORATE GOVERNANCE COMMITTEE

The mandate of the Human Resources & Corporate Governance Committee was to advise the Board and to make recommendations for its consideration with respect to: the strategic prospects and options for the future of Ontario's electric power industry in general, and Ontario Hydro specifically; the review of written objectives of the CEO and the provision of guidance for the development and placement, including promotion, of senior management; the annual review and assessment of the performances of the Chairman and the President & CEO; the annual review of organizational structure matters; the monitoring of the quality of the relationship between management and the Board; and the responsibility for Board governance of the Corporation, including the mandate to review the Board Committee structure and to undertake such other initiatives as required to ensure the Board has exemplary corporate governance.

The Human Resources & Corporate Governance Committee met nine times in 1998, and twice in the first quarter of 1999.

### NUCLEAR REVIEW COMMITTEE

The mandate of the Nuclear Review Committee was to advise the Board and make recommendations for its consideration with respect to the safe performance of the Corporation's nuclear operations and its effectiveness in achieving desired results. Specifically, the Committee ensured that Ontario Hydro's nuclear facilities were operated and maintained in a rigorous and vigilant manner to ensure that the radiological risk to workers, the public and the environment is acceptably low, and in keeping with the best practices in the international nuclear community.

The Nuclear Review Committee met 12 times during 1998, and twice in the first quarter of 1999.

# Message from the Chair and Chief Executive Officer

We are pleased to present the second Annual Report of the Ontario Electricity Financial Corporation (OEFC). The report describes the OEFC's objectives and responsibilities, operational highlights and financial results for the year ended March 31, 2001.

As outlined in the *Electricity Act, 1998,* the OEFC's mandate is to ensure that the outstanding debt and derivatives and certain assets and liabilities of the former Ontario Hydro are managed efficiently and prudently and are ultimately retired. The OEFC is also responsible for the administration of the OEFC Pension Plan until its assets and liabilities can be transferred to pension plans of the other successor entities. The Ontario Financing Authority (OFA), Ontario Electricity Pension Services Corporation (OEPSC) and Ministry of Finance provide the OEFC with the staff and expertise needed for its operations and to fulfill its mandate.

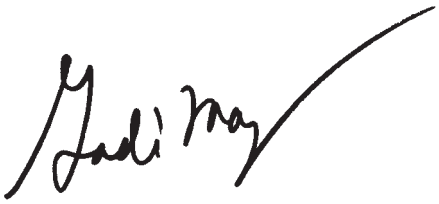
For the year ended March 31, 2001, revenues totalled $3,936 million, while expenses totalled $3,692 million. To meet its 2000-01 financing requirements, the Province raised $2,924 million in long-term debt. Total debt outstanding as of March 31, 2001 was $30.6 billion, down $0.8 billion from the previous fiscal year.

During the year, the OEFC retained a contract manager to manage the non-utility generator (NUGs) contracts. Significant progress was also made in renegotiating the 90 power purchase agreements (PPAs) with the NUGs, with the objective of facilitating their integration into the open market.

In April 2001, the government announced that it is committed to opening the electricity market to competition by May 2002, possibly earlier if the necessary conditions for competition are in place.

We are pleased with the operation of the OEFC and look forward to the challenges of the upcoming year.

Bob Christie
Chair



Gadi Mayman
Vice-Chair and Chief Executive Officer (Interim)

# Management's Discussion and Analysis

## Electricity Industry Financial Structure

The *Energy Competition Act, 1998*, set out the Government of Ontario's plan to restructure Ontario's electricity industry. The plan called for the restructuring of Ontario Hydro and the elimination of its long-standing monopoly on electricity production with the introduction of competition to Ontario's electricity sector.

A key component of this initiative was to introduce a new financial structure for the electricity sector. This structure was announced on April 1, 1999. At this time, Ontario Hydro ceased operations and its assets and liabilities were transferred to five successor corporations and their subsidiaries.

Two commercial companies, Hydro One Inc. (HOI) and Ontario Power Generation Inc. (OPG), together with their subsidiaries, received the majority of Ontario Hydro's assets and in return issued $17.1 billion of debt to the Ontario Electricity Financial Corporation (OEFC), the legal continuation of Ontario Hydro.

To ensure fairness, reliability and safety in the new electricity market, the Independent Electricity Market Operator (IMO) and the Electrical Safety Authority (ESA) were also established. The IMO issued $0.1 billion of debt to the OEFC in return for Ontario Hydro's central market operator and regulatory assets.

To achieve commercially viable capital structures, HOI and OPG entered into debt-for-equity swaps with the Province of Ontario. In exchange for $3.8 billion of equity in HOI and $5.1 billion of equity in OPG, the Province assumed $8.9 billion of the debt issued to the OEFC by the successor corporations. The Province is the sole shareholder of HOI and OPG.

## Role of the Ontario Electricity Financial Corporation (OEFC)

As the legal continuation of Ontario Hydro, the OEFC became responsible for ensuring the prudent and efficient management and retirement of $38.1 billion (as of April 1, 1999) in debt and other liabilities of the former Ontario Hydro. The OEFC, an agency of the Province, is a statutory, non-share capital corporation.

The OEFC's Board of Directors is responsible for supervising the OEFC's operations. As the OEFC does not have staff, it retains the Ontario Financing Authority (OFA) and the Ministry of Finance and established the Ontario Electricity Pension Services Corporation (OEPSC) to carry out its daily operations.

The OFA is an agency of the Province of Ontario responsible for provincial borrowing and debt management activities. The OFA manages the OEFC's debt and derivative portfolios, and provides cash management, accounting and other financial services and support to the corporation.

The OEFC relies on a stream of dedicated revenues from the electricity sector to service its outstanding debt obligations. The Ministry of Finance is responsible for the administration and collection of the payments-in-lieu of taxes and the Debt Retirement Charge (DRC), which becomes effective upon market opening, on behalf of the OEFC.

The OEFC is also the administrator of the former Ontario Hydro Pension and Insurance Plan (since renamed the Ontario Electricity Financial Corporation Pension Plan). The OEFC will remain as the administrator until the assets and liabilities of the pension plan are transferred to the pension plans of the four successor corporations. The OEPSC acts as the agent of the OEFC in the administration of the pension plan and management of the pension fund during the transition period.

The *Electricity Act, 1998* requires the OEFC to enter into an agreement with the four successor corporations providing for the division and transfer of the assets and liabilities of the OEFC Pension Plan to the pension plans of the successor corporations. The five companies signed an agreement in principle on January 19, 2001. The final agreement was submitted to the Superintendent of Financial Services, on March 29, 2001, and was subsequently approved on June 6, 2001.

## Stranded Debt and Residual Stranded Debt

At April 1st 1999, the OEFC assumed approximately $38.1 billion in total liabilities from the former Ontario Hydro. The OEFC received a total of $17.2 billion represented by notes owing to it from the Province, OPG, HOI, and the IMO. The difference of approximately $20.9 billion represents "stranded debt", which is defined under the *Act* as the amount of debt and other liabilities of the OEFC that cannot reasonably be serviced and retired in a competitive electricity market.

The *Electricity Act, 1998* requires that dedicated electricity revenues must be paid by the successor entities and municipal electric utilities (MEUs) to the OEFC to service stranded debt. As of April 1, 1999, the present value of these revenue streams was estimated at $13.1 billion, resulting in an estimated $7.8 billion of residual stranded debt. The *Electricity Act, 1998* also provides for a Debt Retirement Charge (DRC) to be paid to the OEFC to retire residual stranded debt.

The April 1, 1999 Unfunded Liability (the stranded debt from electricity sector restructuring to be recovered from ratepayers) of $19.4 billion of the OEFC is comprised of the liabilities of $38.1 billion (described above) less notes receivable above of $17.2 billion, less other loans receivable of $200 million, less other assets of $1.3 billion.

## Debt Repayment Plan

Pursuant to the *Electricity Act, 1998* and consistent with the principles of electricity sector restructuring, the government has established a long-term plan to retire debt from within the electricity sector. The $38.1 billion in obligations is being repaid from the following sources:

- *Notes receivable* from the Province, OPG, HOI and IMO;
- *Payments-in-lieu* (PILs) of corporate income, capital, and property taxes, made by OPG, HOI and municipal electric utilities (MEUs);
- *A Debt Retirement Charge (DRC),* to be paid by electricity consumers when the market opens to competition; and
- *Electricity Sector Dedicated Income.* Consistent with the government's commitment to keep electricity income in the electricity sector, the combined net incomes of OPG and HOI in excess of the Province's cost of its investment in its electricity subsidiaries is dedicated to the retirement of the OEFC's debt.

The government has committed to opening the electricity market by May 2002, but will work towards the earliest possible date for opening, if all of the necessary conditions are met. These conditions include: consumer protection and choice; a strong business climate with a reliable supply of safe, affordable electricity; environmental protection; and encouraging new ways of doing business and supporting the search for alternative sources of power.

## 2000-01 In Review

Highlights for the OEFC's second year of operation include:

- Completing long-term public borrowing of almost $3.0 billion;
- Cost-effective management of the debt and derivatives portfolios;
- Retention of an external manager to oversee the day-to-day administration and the sale of power acquired under the power purchase agreements with non-utility generators (NUGs);
- Ensuring the effective administration of the OEFC Pension Plan and Fund and finalizing an agreement on the division and transfer of the assets and liabilities of the OEFC Pension Plan to the pension plans of the four successor corporations to Ontario Hydro.

### Financing and Debt

Revenue in 2000-01 totalled $3,936 million, including $1,070 million of interest payments from HOI, OPG, IMO and the Province, $988 million from payments-in-lieu of tax, $408 million in electricity sector dedicated income, $695 million from power sales and $748 million from the revenue pool residual.

Expenses totalled $3,692 million, including $2,671 million in interest on the debt and nuclear funding liability, $146 million of amortization of deferred charges, $695 million for power purchases, $157 million for a debt guarantee fee and $23 million for operating costs.

As the OEFC does not have its own credit rating, the Province, through the OFA, borrows on the OEFC's behalf. In turn, the OEFC issues debt to the Province. To meet its 2000-01 financing requirements, the Province raised $2,924 million in long-term debt, while paying down short-term debt by $876 million and pre-borrowing $400 million for fiscal 2001-02. In 2000-01, the Province raised the majority of the OEFC's long-term financing in the Canadian dollar market.

As of March 31, 2001, total debt outstanding was $30.6 billion, decreasing by $0.8 billion from the previous fiscal year. This decrease is primarily due to principal repayments of notes receivable by HOI and OPG totalling $1,533 million.

With maturing debt and planned redemptions of $4.4 billion, along with a projected cash surplus of $0.8 billion in 2001-02, total financing requirements as of March 31, 2001 are projected at $3.6 billion. Total debt outstanding is projected to decrease to $29.4 billion at March 31, 2002.

The increase in Ontario Power Generation's (OPG) wholesale electricity rates, effective June 1, 2001, will improve OEFC's results in 2001-02 by increasing the OEFC's revenues from the revenue pool residual.

## Management of Power Purchase Contracts

In the late 1980s and early 1990s, the former Ontario Hydro entered into approximately 90 long-term power purchase agreements (PPAs) with non-utility generators (NUGs) located in Ontario. These PPAs, which expire on various dates until the year 2048, provide for the purchase of power at prices that are expected to exceed the market price. As the continuation of Ontario Hydro, the OEFC is now the purchaser under these contracts.

The OEFC purchases about 1700 megawatts (MW) under the PPAs, representing approximately six per cent of the generating capacity available to meet Ontario's energy requirements.

Currently, the power purchased by the OEFC from the NUGs is resold at cost to the revenue pool managed by OPG. After open access, the power will be sold in the market. The net present value of the liability of the above-market costs resulting from the difference between the purchase price and the selling price over the life of the contracts was estimated at $4.3 billion at April 1, 1999.

In 2000-01, the OEFC issued a Request for Proposals (RFP) to retain a contract manager to manage the NUG contracts. Enron Canada Corporation was selected as the successful respondent to the RFP.

The OEFC is currently in the process of negotiating revisions to the PPAs to facilitate the transition to an open market and to replace certain contract provisions that have become obsolete as a result of the electricity restructuring.

## OEFC Pension Plan

The OEFC is the administrator of the OEFC Pension Plan (formerly the Ontario Hydro Pension and Insurance Plan), including the pension fund.

The Ontario Electricity Pension Services Corporation (OEPSC) was established as a subsidiary of the OEFC to act as the OEFC's agent in the administration and day-to-day operations of the OEFC Pension Plan until the assets and liabilities can be transferred to the pension plans of the other Ontario Hydro successor corporations.

The *Electricity Act, 1998* provides for the transfer of assets and liabilities from the OEFC Pension Plan to the successor companies' pension plans in accordance with a transfer agreement to be entered into by the OEFC with the administrators of each successor company pension plan. The OEPSC is responsible for preparing the transfer agreement in accordance with the guidelines set out in the *Electricity Act, 1998* and under the supervision of the OEFC's pension committee and in consultation with the successor corporations. On June 6, 2001, the Superintendent of Financial Services consented in writing to the transfer of assets from the OEFC Pension Plan to the pension plans of the four successor corporations.

## Risk Management

The OEFC has a number of policies in place to address the financial risks to which it is exposed through its borrowing and debt management activities.

### Market Risk

The market risk policy provides a framework for the management of foreign exchange and interest rate risks to which the OEFC is exposed through the financing and debt management programs.

*Foreign Exchange Exposures:* The target for unhedged foreign currency exposure by the end of fiscal 2001-02 is five per cent of outstanding debt. When the OFA became responsible for the management of the OEFC's debt portfolio, total debt exposed to fluctuations in foreign currencies was 14.5 per cent. The OFA reduced the OEFC's exposure to 7.1 per cent as of March 31, 2001. The OFA will continue to reduce the level of exposure towards the five per cent target in a prudent manner.

*Floating Interest Rate Exposure:* The limit on the OEFC's floating interest rate exposure (net of liquid reserves) is 20 per cent of debt outstanding. Actual floating interest rate exposure was 5.7 per cent as of March 31, 2001.

*Debt Maturity Profile:* When issuing new debt, the OFA, on behalf of the OEFC, will aim for a smooth debt maturity profile to diversify the interest rate risk for the refinancing of maturing and floating rate debt. The maturity profile can be found in Note 8 to the Financial Statements.

### Credit Risk

Credit risk is the risk that a counterparty does not meet, or defaults, on its obligations. Credit risk arises when the OEFC undertakes financial and derivatives transactions. The minimum credit rating of a counterparty is A- and R1-mid for money market investments. However, for a new swap transaction the OEFC typically deals with AA- or better credit. The resulting exposure is capped at mark-to-market limits, depending on the counterparty's credit rating.

### Risk Management Reporting

At its regular quarterly meetings, the OEFC Board of Directors is kept informed of the OEFC's activities, positions and risk exposures through three types of reports:

- CEO's report;
- Exposure and performance report; and
- Exception report provided by the Director of Risk Control, OFA.

The CEO provides the Board of Directors with a progress report on the implementation of the financing and debt management plan, staffing and other administrative and operational matters. The CEO also reports on the OEFC's compliance with applicable government directives, and OFA Legal Counsel reports on compliance with applicable laws.

The Director of Risk Control, OFA, reports additional details on the OEFC's exposures and performance.

Exception reports are provided to the Board of Directors immediately when required.

OFA Management is kept informed of the OEFC's risk exposures and positions on a daily basis. The OEFC's Annual Financing and Debt Management Plan, which shows how the OFA will ensure that risk exposures and losses remain within the approved exposure and loss limits, is approved by the Board of Directors.

**Use of Financial Instruments and Derivatives**

New instruments can be used only after approval by the OEFC Board of Directors and if their use is authorized under the OEFC's by-laws, which are approved by the Minister of Finance. All instruments are used only to advance the OEFC's objective of managing the OEFC's debt and its financing and liquidity requirements in a prudent and cost-effective manner.

Derivatives and financial instruments can be used only if the OFA can price and value them and quantify their risks. Furthermore, risks that arise with the use of derivatives are identified, evaluated, reported, monitored and managed prudently.

# Corporate Governance and Board of Directors

Appointed by the Lieutenant Governor in Council, the Board of Directors is responsible for supervising the OEFC's operations, which are carried out by the Ontario Financing Authority, Ministry of Finance and Ontario Electricity Pension Services Corporation on a day-to-day basis. The Board of Directors meets at least quarterly.

The OEFC Audit Committee supports the Board of Directors with the review and recommendation for approval of the OEFC's financial statements. The Audit Committee also recommends the annual internal audit plan and reviews the findings of the internal auditors regarding the adequacy of internal controls.

The OEFC Pension Committee is a committee of the Board of Directors that makes decisions concerning the OEFC Pension Plan and oversees the activities of the OEPSC.

## Board of Directors

- **Bob Christie** — Chair and Deputy Minister of Finance.
- **Gadi Mayman** — CEO and Vice-Chair, CEO and Vice-Chair of the Ontario Financing Authority (Interim).
- **Bryne Purchase** — Deputy Minister, Energy, Science and Technology.
- **Brian FitzGerald** — Fellow of the Canadian Institute of Actuaries, Chair, OEFC Pension Committee.
- **Bruce Macnaughton** — Director, Pension and Income Security Policy Branch, Ministry of Finance.
- **Tom Sweeting** — Assistant Deputy Minister, Office of the Budget and Taxation, Ministry of Finance, Chair, OEFC Audit Committee.

# Responsibility for Financial Reporting

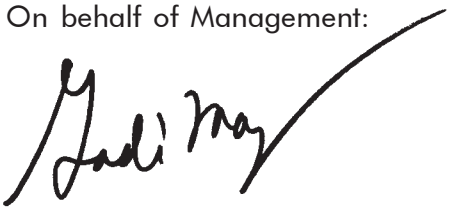
The accompanying financial statements of the Ontario Electricity Financial Corporation have been prepared in accordance with accounting principles generally accepted in Canada and are the responsibility of management. The preparation of financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to June 1, 2001.

Management maintains a system of internal controls designed to provide reasonable assurance that the assets are safeguarded and that reliable financial information is available on a timely basis. The system includes formal policies and procedures and an organizational structure that provides for appropriate delegation of authority and segregation of responsibilities. An internal audit function independently evaluates the effectiveness of these internal controls on an ongoing basis and reports its findings to management and the Audit Committee of the Board of Directors.

The Board of Directors, through the Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls. The Audit Committee meets periodically with management, the internal auditors and the external auditor to deal with issues raised by them and to review the financial statements before recommending approval by the Board of Directors.

The financial statements have been audited by the Provincial Auditor. The Provincial Auditor's responsibility is to express an opinion on whether the financial statements are fairly presented in accordance with generally accepted accounting principles. The Auditor's Report, which appears on the following page, outlines the scope of the Auditor's examination and his opinion.

On behalf of Management:



Gadi Mayman
Vice-Chair and
Chief Executive Officer (Interim)

***Auditor's Report***

To the Ontario Electricity Financial Corporation
and to the Minister of Finance

I have audited the consolidated balance sheet of the Ontario Electricity Financial Corporation as at March 31, 2001 and the consolidated statements of revenue, expense and unfunded liability and of cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2001 and the results of its operations and its cash flows for the year then ended, in accordance with Canadian generally accepted accounting principles.

Toronto, Ontario
June 1, 2001

Erik Peters, FCA
Provincial Auditor

# Notes to Financial Statements

## 1. Restructuring of the Ontario Electricity Industry

Effective April 1, 1999, pursuant to the *Electricity Act, 1998*, Ontario Hydro was continued as a corporation without share capital under the name Ontario Electricity Financial Corporation (OEFC). OEFC is a corporation established under the laws of Ontario. It is exempt from federal and provincial income taxes under paragraph 149(1)(d) of the Income Tax Act of Canada. OEFC is a Crown agency created to manage the debt and administer the assets, liabilities, rights and obligations of Ontario Hydro not transferred to other successor entities. These other successor entities include:

- Ontario Power Generation Inc. (OPG), an electricity generation company;
- Hydro One Inc. (HOI), a regulated electricity transmission and distribution business that operates certain energy service businesses in an unregulated, competitive environment;
- Independent Electricity Market Operator (IMO), the regulated centralized independent system co-ordinator responsible for directing system operations and operating the electricity market; and
- Electrical Safety Authority (ESA), which performs a regulatory function related to electrical inspections.

On April 1, 1999, the respective business units, including assets, liabilities, employees, rights and obligations of the former Ontario Hydro were transferred to OPG and HOI (and their subsidiaries) and the IMO for $8.5 billion, $8.6 billion and $78 million respectively in exchange for debt payable to OEFC. On the same day, the Province exchanged equity of $5,126 million and $3,759 million in OPG and HOI respectively for debt payable to OEFC.

OEFC debt, liabilities and associated financing costs will be repaid from interest on notes receivable from the Province and successor entities, and, as provided under the *Energy Competition Act, 1998*, from dedicated electricity revenues in the form of payments-in-lieu (PILs) of corporate income, capital and property taxes made by the successor entities and municipal electric utilities. Any residual debt will be serviced through a Debt Retirement Charge (DRC) to be paid by electricity consumers after open access. Until open access, OEFC will continue to be a party to a revenue-allocation agreement among successor entities and is entitled to the forecast residual amount in the revenue pool after allocations to OPG, HOI and the IMO are paid.

## 2. Summary of Significant Accounting Policies

Basis of Accounting

These financial statements are prepared in accordance with Canadian generally accepted accounting principles (GAAP) as recommended in the Handbook of the Canadian Institute of Chartered Accountants.

### Measurement Uncertainty

Uncertainty in the determination of the amount at which an item is recognized in the financial statements is known as measurement uncertainty. Such uncertainty exists when it is reasonably possible that there could be a material variance between the recognized amount and another reasonably possible amount, as there is whenever estimates are used. Measurement uncertainty in these financial statements exists in the estimated liability for power purchase agreements (see Note 9 for additional details). In addition, the amount of the nuclear funding liability is dependent on an agreement currently under negotiation between the Province and OPG. Estimates are based on the best information available at the time of preparation of the financial statements and will be adjusted annually to reflect new information as it becomes available.

### Consolidation

These financial statements include the accounts of OEFC's wholly owned subsidiary, Ontario Electricity Pension Services Corporation (see Note 3).

### Deferred Debt Costs

Deferred debt costs includes the unamortized amounts related to unrealized foreign exchange gains or losses resulting from the translation of long-term debt issued in foreign currencies and discounts or premiums arising from the issuance of debt or the acquisition of debt prior to maturity.

### Revenue Recognition

Revenues are recognized in the period in which they are earned. Amounts received prior to being earned are reflected as deferred revenues.

### Foreign Currency Translation

Debt is composed of short-, medium- and long-term bonds, notes and debentures. Debt denominated in foreign currencies that has been hedged is recorded at the Canadian dollar equivalent using the rates of exchange established by the terms of the hedge agreements. Other foreign currency debt, liabilities and assets are translated to Canadian dollars at period-end rates of exchange and any exchange gains or losses are deferred and amortized over the remaining term to maturity.

## 3. Ontario Electricity Pension Services Corporation

OEFC is the administrator of the Ontario Electricity Financial Corporation Pension Plan and Fund. It is responsible for negotiating an agreement with each of the successor corporations for the division and transfer of the assets and liabilities of the OEFC pension plan to the pension plans of the successor corporations. The Ontario Electricity Pension Services Corporation, (OEPSC), a wholly owned subsidiary of OEFC, acts as agent for OEFC to carry out the required administrative, investment and other responsibilities of the OEFC Pension Plan and Fund. Costs associated with the administration of the OEFC Pension Plan and Fund amounting to approximately $17 million in calendar 2000 (calendar 1999 - $17 million) are charged to and payable by the pension fund.

OEPSC has made application to the Superintendent of Financial Services for Ontario for approval to transfer all of the assets of the OEFC Pension Plan to the pension plans of the four successor operating entities. The Superintendent agreed to the transfer on June 6, 2001.

## 4. Economic Dependence

OEFC does not have its own credit rating and is, therefore, dependent on the Province to borrow and on-lend the funds required to refinance maturing debt and to cover any cash shortfalls in the Corporation. It is also dependent on the long-term plan to defease the unfunded liability described in Note 11. Based on the Province's support in refinancing maturing debt and the long-term plan, OEFC is considered a going concern.

## 5. Cash and Cash Equivalents

Cash and cash equivalents includes cash on deposit and highly liquid investments with maturities of less than three months. They are recorded at cost, which approximates current market value.

## 6. Electricity Sector Dedicated Income

The Province has committed to dedicate the combined net income of OPG and HOI in excess of the Province's cost of its investment in its electricity subsidiaries to OEFC. In the year ended March 31, 2001, OPG and HOI earned an aggregate amount of $928 million ($903 million for 2000) i.e., $408 million ($383 million for 2000) in excess of the Province's $520 million interest cost of the equity investments in those companies. The $408 million amount has been reflected as income in OEFC and as an increase in the receivable from the Province.

## 7. Notes and Loans Receivable

($ millions)

| | Interest rate | Interest payable | March 31, 2001 | Maturity date | March 31, 2000 |
|---|---|---|---|---|---|
| Province of Ontario | 5.85 | Monthly | $ 8,885 | 2039 - 2041 | $ 8,885 |
| OPG | 5.3 to 6.65 | Semi-annually | 3,300 | 2002 - 2011 | 3,400 |
| HOI | 5.4 to 14.3 | Semi-annually | 3,412 | 2001 - 2007 | 4,845 |
| IMO | 7.90 | Semi-annually | 78 | 2009 | 78 |
| | | | 15,675 | | 17,208 |
| Less: current portion of notes receivable | | | 640 | | 1,533 |
| | | | 15,035 | | 15,675 |
| Loans receivable from non-utility generators (NUGs) (See Note 9) | | | 244 | | 219 |
| | | | $ 15,279 | | $ 15,894 |

OEFC has agreed with OPG, HOI and IMO not to sell notes owing from these successor entities without their prior approval.

## 8. Debt

Debt at March 31, 2001 is set out below by maturity and by original currency of issue.

| ($ millions) Currency | Canadian Dollar | U.S. Dollar | Japanese Yen | 2001 Total | 2000 Total |
|---|---|---|---|---|---|
| Maturing before: | | | | | |
| March 31, 2001 | — | — | — | — | 5,672 |
| March 31, 2002 | 4,203 | 1,141 | — | 5,344 | 2,708 |
| March 31, 2003 | 2,548 | — | — | 2,548 | 2,848 |
| March 31, 2004 | 1,748 | — | 65 | 1,813 | 1,813 |
| March 31, 2005 | 2,700 | — | — | 2,700 | 2,000 |
| March 31, 2006 | 1,000 | — | — | 1,000 | — |
| 1-5 years | 12,199 | 1,141 | 65 | 13,405 | 15,041 |
| 6-10 years | 7,124 | 1,530 | — | 8,654 | 6,787 |
| 11-15 years | 648 | 1,183 | — | 1,831 | 2,876 |
| 16-20 years | 1,078 | — | — | 1,078 | 500 |
| 21-25 years | 3,558 | — | — | 3,558 | 3,133 |
| 26-50 years | 2,040 | — | — | 2,040 | 3,001 |
| Total | $ 26,647 | $ 3,854 | $ 65 | $ 30,566 | $ 31,338 |

The effective rate of interest on the debt portfolio is 7.85% before considering the effect of derivative instruments used to manage interest rate risk. As at March 31, 2001, $2.2 billion of the $3.9 billion foreign debt is hedged. Bonds and notes payable are either held, or guaranteed as to principal and interest, by the Province as set out below:

| | March 31, 2001 | | | March 31, 2000 | | |
|---|---|---|---|---|---|---|
| ($ millions) | Held by the Province | Guaranteed by the Province | Total | Held by the Province | Guaranteed by the Province | Total |
| Short-term debt | 2,570 | — | 2,570 | 3,446 | — | 3,446 |
| Current portion of long-term debt | 569 | 2,205 | 2,774 | 500 | 1,726 | 2,226 |
| Long-term debt | 8,056 | 17,166 | 25,222 | 5,701 | 19,965 | 25,666 |
| Total | $ 11,195 | $ 19,371 | $ 30,566 | $ 9,647 | $ 21,691 | $ 31,338 |

Fair value of debt issued approximates amounts at which debt instruments could be exchanged in a current transaction between willing parties. In valuing the OEFC's debt, fair value is estimated using discounted cash flows and other valuation techniques and is compared to public market quotations where available. These estimates are affected by the assumptions made concerning discount rates and the amount and timing of future cash flows.

The estimated fair value of OEFC debt at March 31, 2001 is $34.4 billion (March 31, 2000 - $35.4 billion). This is higher than the book value of $30.6 billion (March 31, 2000 - $31.3 billion) because current interest rates are generally lower than the interest rates at which the debt was issued and because of exchange rate movements. The fair value of debt does not reflect the effect of related derivative contracts.

## 9. Long-Term Liabilities

Power purchase contracts and related loan agreements were entered into by Ontario Hydro with non-utility generators (NUGs) located in Ontario. These contracts, expiring on various dates to 2048, provide for the purchase of power at prices that are expected to be in excess of the market price. This liability has been valued at $4,286 million on a discounted cash-flow basis. As the continued Ontario Hydro, OEFC is the counterparty to these contracts. Currently, the power purchased from NUGs is resold at cost to the power grid managed by OPG. However, after open access, this power will be sold at market prices that may be greater or less than cost.

During the year, OEFC purchased power in the amount of $695 million (March 31, 2000 - $741 million) and sold this power to the power grid for the same amount. HOI manages the NUG power purchase contracts and the related loans on behalf of OEFC for an annual fee of $3 million (March 31, 2000 - $3 million), partially offset by a recovery of $2 million (March 31, 2000 - Nil) of transmission expansion costs originally paid by Ontario Hydro, which net cost is included in operating expense. Loans to NUGs increased during the year by $25 million to $244 million at March 31, 2001 (March 31, 2000 - $219 million), primarily due to interest revenue during the year which has been added to the principal balance.

Nuclear funding liability - OEFC as the continued Ontario Hydro received a liability in the amount of $2,378 million representing nuclear waste management and asset removal liabilities that were incurred prior to April 1, 1999. Interest has been accrued at an estimated 5.75 per cent and is included in the total value of $2,659 million as at March 31, 2001 (March 31, 2000 - $2,515 million). The interest rate is still under negotiation with the Province and is subject to change. The impact of the finalization of the interest rate for the fiscal year is not expected to result in a material difference to the liability balance.

## 10. Revenue Pool Residual

As explained in Note 1, OEFC is the beneficial owner of the forecast residual of the revenue pool, managed by OPG, which collects revenues from electricity consumers and allocates revenues to OPG, Hydro One and the IMO. The forecast residual of the revenue pool is cyclical in nature due to seasonal variations in pricing. As a result, the residual, while positive in the first and fourth quarters of the calendar year, is negative in the second and third quarters.

It was agreed by OEFC and OPG that OEFC would receive an average payment per month which would eliminate the seasonal variation in the pool residual and ensure that OEFC would never need to borrow cash to make up the shortfall. In the accounts, this revenue stream was recorded as received, adjusted for the one month accrual at each year-end.

These interim arrangements were to remain in effect until open access at which time the revenue pool would cease to operate and the Debt Retirement Charge (DRC) would be collected direct from electricity consumers. Open access was originally announced for November 2000 and OEFC's forecast residual for calendar 2000 was calculated over the ten months ended October in anticipation of the November opening. Once open access was delayed past November, it became apparent that the term over which the average should be calculated was unknown. Consequently, beginning in

November 2000, OEFC began to receive the forecast residual as earned each month and reflected this stream as revenue in the accounts. The revenue in OEFC in fiscal 2000-01 has benefitted by including both the increased revenue over the summer of 2000 and the real earnings in the pool over the winter of 2000-01.

## 11. Unfunded Liability

In the previous year, PILs revenue was recognized on a cash basis and reflected only cash received during the year. For fiscal 2000-01, OEFC has changed its accounting policy to recognize PILs revenue on an accrual basis. The change was made to conform with accounting policies of the Province. Therefore, PILs earned during the year will now include deferred taxes, regardless of when those taxes will be paid.

The previously unrecognized $200 million accrual of PILs revenue has been added to the balance of the opening unfunded liability. In addition, the opening unfunded liability has also been adjusted to account for working capital adjustments in successor companies in the amount of $247 million. The effect of these adjustments is as follows:

| | |
|---|---|
| Unfunded Liability, March 31, 2000 | $ 19,987 |
| Adjustments during the year: | |
| Accrual for PILs revenue | (200) |
| Working capital for OPG and HOI | 247 |
| Balance after adjustments | $ 20,034 |

The opening unfunded liability of $19.4 billion at April 1, 1999 was composed of $38.1 billion in liabilities assumed from old Ontario Hydro less the value of assets transferred to OEFC at April 1, 1999 including $17.2 billion in notes receivable and $1.5 billion in loans receivable and other assets. Pursuant to the *Electricity Act, 1998* and consistent with the principles of electricity restructuring, the government has a long-term plan in place to retire OEFC liabilities, from within the electricity industry. The Plan includes cash flows from the following sources as at April 1, 1999:

Notes receivable from the Province of $8.9 billion, OPG of $3.4 billion, HOI of $4.8 billion and IMO for $0.1 billion for a total of $17.2 billion as a result of the transfer of assets to successor companies,

Payments-in-lieu of corporate income, property and capital taxes made by OPG, HOI and municipal electric utilities.

A Debt Retirement Charge to be paid by ratepayers based on the consumption of electricity, and

Electricity Sector Dedicated Income - Consistent with the Government's commitment to keep electricity income in the electricity sector, the combined net income of OPG and HOI in excess of the Province's cost of its investment in its electricity subsidiaries will be set aside for the retirement of OEFC's debt.

The long-term plan supports estimates that OEFC's obligations will be defeased in the years ranging from 2010 to 2017.

## 12. Risk Management and Derivative Financial Instruments

OEFC employs prudent risk management strategies and operates within strict risk exposure limits to ensure exposure to risk is well managed. A variety of strategies are used, including the use of derivative financial instruments ("derivatives").

Derivatives are financial contracts, the value of which is derived from underlying assets. OEFC uses derivatives for the purpose of hedging and to minimize interest costs. Hedges are created primarily through swaps, which are legal arrangements under which OEFC agrees with another party to exchange cash flows based upon one or more notional amounts during a specified period. This allows OEFC to offset its existing obligations and thereby effectively convert them into obligations with more desirable characteristics. Other derivative instruments used by OEFC include forward foreign exchange contracts, forward rate agreements, futures and options.

Foreign exchange or currency risk is the risk of debt servicing costs and principal payments varying due to fluctuations in foreign exchange rates. To minimize currency risk, OEFC uses derivative contracts to convert foreign currency cash flows into Canadian dollar denominated cash flows. The current policy allows unhedged foreign currency cash flows to reach a maximum of 20 per cent of total debt. At year end, 7.1 per cent of this debt was unhedged, with most of the currency exposure to US dollars.

Interest rate risk is the risk of debt servicing costs varying due to changes in interest rates. OEFC reduces its exposure to rate changes by entering into derivative contracts that convert floating interest payments to fixed interest payments. The current policy allows unhedged floating rate debt, net of liquid reserves, to reach a maximum of 20 per cent of total debt. At year end, OEFC's floating rate debt as a percentage of total debt was 5.7 per cent.

The table below presents a maturity schedule of OEFC's derivatives, by type, outstanding at March 31, 2001, based on the notional amounts of the contracts. Notional amounts represent the volume of outstanding derivative contracts and are not indicative of credit or market risk. Notional amounts are not representative of actual cash flows.

Derivative Portfolio Notional Value
($ millions)
As at March 31, 2001

| Maturity in Fiscal Year | 2002 | 2003 | 2004 | 2005 | 2006 | 6-10 Years | Over 10 Years | Total | 2000 |
|---|---|---|---|---|---|---|---|---|---|
| Cross-currency swaps | 284 | - | 638 | - | - | 884 | - | 1,806 | 1,307 |
| Interest rate swaps | 797 | 505 | 1,814 | 292 | 730 | 1,235 | 1,520 | 6,893 | 6,179 |
| Forward foreign exchange contracts | 1,171 | - | - | - | - | - | - | 1,171 | 1,151 |
| Other | 662 | - | - | - | - | - | - | 662 | 1,445 |
| Total | $ 2,914 | 505 | 2,452 | 292 | 730 | 2,119 | 1,520 | 10,532 | 10,082 |

Entering into derivatives contracts results in credit risk, which is the risk of a counterparty defaulting on contractual derivative obligations in which OEFC has an unrealized gain. The table below presents the credit risk associated with the derivative financial instrument portfolio, measured through the replacement value of derivative contracts, at March 31, 2001.

| Credit Risk Exposure ($ millions) | March 31, 2001 | March 31, 2000 |
|---|---|---|
| Gross credit risk exposure | 5,437 | 4,850 |
| Less: Netting agreements | (5,519) | (5,019) |
| Net credit risk exposure | $ (82) | $ (169) |

Note:

Contracts do not have coterminous settlement dates. Netting agreements use generally accepted forms and terms developed by the International Swaps and Derivatives Association (ISDA). Based on ISDA definitions, total exposure to counterparties with positive exposure was $210 million (meaning that counterparties owed OEFC) and total exposure to counterparties with negative exposure was $292 million (meaning that OEFC owed counterparties) for a total net credit exposure to ($82) million on March 31, 2001.

OEFC manages its credit risk exposure through daily monitoring compliance with credit limits and by dealing with counterparties with good credit ratings of A- or higher. Counterparties for money market and other short-term transactions must have at least an R1-mid rating by Dominion Bond Rating Service or an A-1 or P-1 rating by Standard and Poor's or Moody's respectively.

OEFC also limits its credit risk exposure on derivatives by entering into contractual netting agreements with virtually all of its counterparties, which enables it to settle derivative contracts on a net basis in the event of a counterparty default. The gross credit risk exposure represents the amount of loss that OEFC would suffer if every counterparty to which OEFC was exposed were to default at the same time and no netting of negative exposures was allowed. The net credit risk exposure includes the mitigating impact of these netting agreements.

## 13. Guarantees

Subject to a $10 million and $20 million deductible respectively, OEFC has agreed to indemnify HOI and OPG in respect of any adverse claim to title to any asset, right or thing transferred or intended to be transferred to the companies at April 1, 1999, any failure of the transfer order to transfer such assets, rights or things and with respect to payment to or from or other dealing with any equity account of Ontario Hydro, including certain related litigation. The Province of Ontario has guaranteed any liability arising from these indemnifications.

OEFC is contingently liable under guarantees given to third parties that have provided long-term financing to certain independent power producers in connection with the power purchase agreements described in Note 9. These guarantees total approximately $135 million at March 31, 2001 (March 31, 2000 - $146 million).

## 14. Comparative Figures

Prior year's figures have been re-classified where necessary to conform with the current year's presentation.

## 2003 Annual Report

Ontario

Ontario Electricity Financial Corporation

## Corporate Overview

Ontario Electricity Financial Corporation (OEFC), an agency of the Province of Ontario, is a statutory, non-share capital corporation and the legal continuation of Ontario Hydro.

OEFC retains services from the Ontario Financing Authority (OFA) and the Ministry of Finance to carry out its daily operations. The OFA is the agency of the Province of Ontario responsible for provincial borrowing and debt management activities. The OFA manages OEFC's debt, derivatives and non-utility generator (NUG) portfolios, and provides cash management, accounting and other financial services and support to the corporation. The Ministry of Finance manages the collection and reporting of payments-in-lieu of tax on behalf of OEFC.

OEFC's Board of Directors is responsible for supervising OEFC's operations, which are as follows:

- Manage the outstanding debt and derivatives portfolios, financial risks and other liabilities of the former Ontario Hydro;
- Manage the long-term power purchase agreements and provide the associated risk management infrastructure;
- Manage the Electricity Consumer Price Protection Fund (ECPPF);
- Receive payments and administer assets, liabilities, rights and obligations of the Corporation that have not been transferred to other Ontario Hydro successor corporations, and dispose of these as it deems appropriate or as directed by the Minister of Finance; and
- Perform any additional functions as required by the Lieutenant-Governor-in-Council.

## Message from the Chair

I am pleased to present the 2003 Annual Report of the Ontario Electricity Financial Corporation (OEFC). The report describes OEFC's objectives and responsibilities, operational highlights and financial results for the year ended March 31, 2003.

As outlined in the *Electricity Act, 1998,* OEFC's primary objective is to ensure that the outstanding debt and derivatives portfolios and certain other liabilities of the former Ontario Hydro are managed efficiently and prudently and are ultimately retired.

For the year ended March 31, 2003, revenues totalled $3,797 million, while expenses totalled $3,895 million, resulting in a deficiency of revenue over expense of $98 million, compared to the prior year's deficiency of revenue over expense of $69 million. In 2002-03, the Province completed OEFC's borrowing requirements, including long-term debt maturities of $2,775 million, through $2,084 million raised from the sale of Hydro One notes held since April 1, 1999 and the issuance of $967 million in long-term debt.

During the year, OEFC achieved its objectives of cost-effective borrowing and debt management and prudent risk management, negotiated revisions to non-utility generator (NUG) contracts to facilitate their integration into the competitive electricity market, and continued to develop the necessary infrastructure to manage the NUG contracts and related exposures in a competitive market in a cost-effective and prudent manner.

On December 9, 2002, the *Electricity Pricing, Conservation and Supply Act, 2002* was passed to freeze the price that low volume and designated consumers pay for electricity at 4.3 cents per kilowatt-hour until at least 2006. OEFC is responsible for managing the Electricity Consumer Price Protection Fund (ECPPF) established as a result of the Act.

OEFC will continue to monitor new developments in the electricity industry that will affect the operating results of the corporation in the 2003-04 fiscal year.

Bob Christie
Chair

# Management's Discussion and Analysis

OEFC accomplished its key objectives for 2002-03:

- Achieved cost-effective borrowing and debt management and prudent risk management;
- Negotiated revisions to certain contracts with non-utility generators (NUG contracts) to facilitate their integration into the competitive electricity market;
- Continued to develop the necessary infrastructure to manage the NUG contracts and related exposures in a competitive market in a cost-effective and prudent manner; and
- Managed the Electricity Consumer Price Protection Fund (ECPPF) created under the *Electricity Pricing, Conservation and Supply Act, 2002.*

## 2002-03 Highlights

- Sold $1.9 billion of the Hydro One notes held since April 1, 1999, resulting in a gain of $206 million for OEFC. This sale represented the largest-ever corporate debt trade in the Canadian domestic debt market.
- Reduced total debt outstanding by $2.5 billion to $26.8 billion from $29.4 billion as at March 31, 2002.
- Lowered total debt exposed to fluctuations in foreign currencies to 6.3 per cent of outstanding debt from 7.5 per cent and down from 14.5 per cent at the time of OEFC's establishment in 1999.

## Overview of Financial Results

For the year ended March 31, 2003, revenues totalled $3,797 million, while expenses totalled $3,895 million, resulting in a deficiency of revenue over expense of $98 million, compared to the prior year's deficiency of revenue over expense of $69 million.

## Revenues

OEFC's total revenues for 2002-03 were $3,797 million, an increase of $253 million from 2002. OEFC's revenues consisted of the Debt Retirement Charge and revenue pool residual up to market opening; payments-in-lieu of tax; interest income from the Province, OPG, Hydro One, and IMO; power sales; a net reduction of power purchase contracts; a gain on the sale of Hydro One notes; and electricity sector dedicated income.

The Debt Retirement Charge, which replaced the revenue pool residual when Ontario's electricity market opened to competition on May 1, 2002, amounted to $889 million over 11 months in 2002-03.

In the year ended March 31, 2003, OPG and Hydro One earned an aggregate amount of $717 million. After taking into account the Province's financing cost of its investment in its electricity subsidiaries of $520 million, OEFC recorded $197 million in electricity sector dedicated income. In 2001-02, the aggregate earnings of the subsidiaries did not exceed the Province's financing cost.

In February 2003, OPG reached an agreement with OEFC to defer payment on $700 million principal amount of senior notes owing to OEFC by extending the maturity dates by two years. The interest rates on these notes remain unchanged.

## Expenses

OEFC's total expenses for 2002-03 were $3,895 million, an increase of $282 million from 2002. OEFC's expenses consist of interest on its debt and nuclear funding liability, amortization of deferred charges, expenditures in the Electricity Consumer Price Protection Fund (ECPPF), power purchases, a debt guarantee fee and operating costs.

## Borrowing Program

In 2002-03, the Province completed OEFC's borrowing requirements, including long-term debt maturities of $2,775 million, through $2,084 million raised from the sale of Hydro One notes held since April 1, 1999, and the issuance of $967 million in long-term debt.

Long-term borrowing was completed through two Province of Ontario U.S. dollar global issues and two domestic issues that were on-lent to OEFC:

- C$425 million (Canadian dollar equivalent) raised through a portion of a US$750 million U.S. dollar global issue maturing in December 2005;
- C$447 million (Canadian dollar equivalent) raised from a US$300 million U.S. dollar global issue maturing in March 2008; and
- C$95 million raised from two non-public debentures maturing in January and June 2022.

## Debt Management

The repayment of OEFC obligations remains a priority and is an integral part of Ontario's electricity sector restructuring objectives. Pursuant to the *Electricity Act, 1998*, a long-term plan was established to retire debt from within the electricity sector. The long-term debt repayment plan supports a current estimate that OEFC's obligations will likely be defeased in 2012.

## Debt Repayment Plan

OEFC's obligations are being repaid from the following revenue sources:

**Notes Receivable**

OEFC receives principal and interest payments from the Province, Ontario Power Generation Inc. (OPG), Hydro One and the Independent Electricity Market Operator (IMO) arising from the restructuring of the electricity sector.

**Payments-in-Lieu of Tax (PILs)**

OEFC receives payments-in-lieu of corporate income, capital and property taxes made by OPG, Hydro One and municipal electric utilities (MEUs).

**Debt Retirement Charge (DRC)**

The DRC was introduced on May 1, 2002, the date the electricity market opened to competition, and is paid by electricity consumers. The DRC is administered by the Ministry of Finance on behalf of OEFC and will end once the residual stranded debt is retired. Prior to May 1, 2002, OEFC received the residual of the revenue pool. This pool, managed by OPG, collected revenues from electricity consumers and allocated revenues to OPG, Hydro One and IMO, with the residual going to OEFC.

**Electricity Sector Dedicated Income**

The combined net incomes of OPG and Hydro One in excess of the Province's interest cost of its investment in its electricity subsidiaries are dedicated to the retirement of OEFC's debt.

## Stranded Debt and Residual Stranded Debt

OEFC assumed approximately $38.1 billion in total debt and other liabilities from the former Ontario Hydro upon the restructuring of Ontario's electricity sector on April 1, 1999. As part of the restructuring, OEFC received a total of $17.2 billion in notes owing from the Province, OPG, Hydro One and the IMO. The difference of approximately $20.9 billion represented "stranded debt," which is defined under the *Electricity Act, 1998* as the amount of debt and other liabilities of OEFC that cannot reasonably be serviced and retired by commercial companies in a competitive electricity market.

The *Electricity Act, 1998* requires that payments-in-lieu of taxes must be paid by the successor entities and municipal electric utilities (MEUs) to OEFC to service stranded debt. As at April 1, 1999, the present value of these dedicated revenues and Electricity Sector Dedicated Income was estimated at $13.1 billion, resulting in an estimated $7.8 billion of residual stranded debt. The *Electricity Act, 1998* provided for a Debt Retirement Charge (DRC) to be paid by consumers until the residual stranded debt is retired.

The April 1, 1999 Unfunded Liability (the stranded debt from electricity sector restructuring to be recovered from ratepayers) of $19.4 billion of OEFC was composed of the $38.1 billion (described above) less notes receivable of $17.2 billion, less loans receivable and other assets of $1.5 billion.

Unfunded Liability as of March 31, 2003 was $20.2 billion.

## Debt and Liabilities

OEFC's total debt outstanding declined by $2.5 billion to $26.8 billion as of March 31, 2003. OEFC has reduced total debt outstanding by over $4.5 billion from its peak on March 31, 2000.

OEFC's total debt and liabilities are $34.7 billion as of March 31, 2003, down from $37.6 billion as of March 31, 2002.

On March 5, 2003, with the prior approval of Hydro One, OEFC completed the sale of $1,878 million (face value) of Hydro One notes. OEFC realized a gain of $206 million on the sale, as interest rates payable on the notes were above market interest rates, which allowed the Province to reduce OEFC's total debt. The notes had maturities ranging from January 2004 to August 2007 and coupons ranging between 5.375 per cent to 14.25 per cent. In order to facilitate the sale of these notes in the Canadian public capital markets, OEFC and Hydro One agreed to restructure the debt by converting the coupons and principal amounts to reflect current interest rates. The sale represented the largest ever corporate debt trade in the Canadian domestic debt market.

For more information on debt and other liabilities, see Notes 8 to 12 to the Financial Statements.

## Risk Management

OEFC has risk management policies and procedures in place to address the management of OEFC's market, credit and operational risk exposures, primarily pertaining to OEFC's debt, derivatives and NUG portfolios, and capital markets transactions. A description of OEFC's risk management policies can be found in the Corporate Policies section.

| Risk Exposures (Percentage of Outstanding Debt) | 2003 | 2002 | Policy Limit |
|---|---|---|---|
| Foreign Exchange Exposure | 6.3 | 7.5 | 20.0* |
| Floating Interest Rate Exposure (net of liquid reserves) | 13.5 | 9.8 | 20.0 |

*The foreign exchange policy limit will be reduced to five per cent as soon as feasible and prudent.
March 31, 2003

OEFC's foreign exchange and floating interest rate exposures remained within policy limits of 20 per cent in 2002-03.

OEFC's total debt exposed to fluctuations in foreign currencies ("foreign exchange exposure") declined to 6.3 per cent as a result of active debt management and hedging strategies which took advantage of a strengthening Canadian dollar to reduce the foreign exchange exposure of OEFC's debt portfolio. The reduction in the OEFC's foreign exchange exposure was in line with the OEFC's Annual Financing and Debt Management Plan. When the OFA became responsible for the management of OEFC's debt portfolio, total debt exposed to fluctuations in foreign currencies was 14.5 per cent.

The OEFC's exposure to changes in short-term rates ("floating interest rate exposure") was 13.5 per cent as at March 31, 2003.

When issuing new debt, the OFA, on behalf of OEFC, aims for a smooth debt maturity profile to diversify the interest rate risk inherent in refinancing maturing and floating rate debt.

OEFC has also developed the NUG Market Risk Policy and Credit and Related Legal Risks Policy to address risks related to the sale of electricity from NUG contracts. NUG contracts involve risk in both financial and commodity markets.

## Management of Power Purchase Agreements

In the late 1980s and early 1990s, the former Ontario Hydro entered into approximately 90 long-term power purchase agreements (PPAs) with non-utility generators (NUGs) located in Ontario. These PPAs, which expire on various dates until 2048, represent approximately 1,700 megawatts of generating capacity and approximately $750 million per year in cash outflow. The PPAs account for about six to eight per cent of the generating capacity available to meet Ontario's energy requirements.

As the continuation of Ontario Hydro, OEFC is responsible for these contracts. The NUG liability had been valued at $4,286 million on a discounted cash-flow (DCF) basis since Ontario Hydro was continued as OEFC on April 1, 1999. Since the electricity market was opened in this fiscal year, the DCF model was updated as of March 31, 2003, which reduced the estimated liability from $4,286 million to $3,745 million. The revaluation change will be amortized to operations over a 10-year period. In addition, each year, interest at the DCF rate is added to the liability and the estimated in-year loss in the DCF model is deducted from the liability. Details are set out in Note 10 to the Financial Statements.

OEFC has retained UBS Warburg Energy (Canada) Ltd. to act as settlement services manager of the PPAs with the NUGs, and to establish systems and procedures for the administration of the PPAs in the open electricity market as well as develop and implement strategies for hedging OEFC's price risk associated with sales of electricity. OEFC continues to negotiate revisions to the NUG contracts to ensure that the contracts are consistent with the open electricity market.

A policy framework for the prudent risk management of NUG electricity sales associated with the PPAs, including market and credit risk management policies, was approved. These policies establish the foundation for the assessment, monitoring and reporting of electricity market and credit risks and are similar in structure to the corresponding policies for the management of traditional financial market and credit exposures.

## *The Electricity Pricing, Conservation and Supply Act, 2002*

Ontario's electricity market opened to competition on May 1, 2002. The wholesale price of electricity is determined by supply and demand in a competitive market.

While the wholesale market continues to operate in a competitive environment, on December 9, 2002, the *Electricity Pricing, Conservation and Supply Act, 2002* was passed to freeze the price that low volume and designated consumers pay for electricity at 4.3 cents per kilowatt-hour (¢/kWh) until at least 2006. OEFC is responsible for managing the Electricity Consumer Price Protection Fund (ECPPF or the "Fund") established as a result of the Act.

### Fund Management

OEFC is required to pay to or receive from the IMO any difference between the current market price (the "spot price") and the fixed 4.3¢/kWh charged to consumers designated under the Act.

- When spot prices are higher than 4.3¢/kWh, OEFC will make a payment to the IMO equal to the difference between spot price and 4.3¢/kWh based on the quantity consumed. The IMO will reduce the amount payable by the distributors for amounts consumed by a corresponding amount down to 4.3¢/kWh.
- When spot prices are lower than 4.3¢/kWh, OEFC will receive a payment from the IMO equal to the difference between spot price and 4.3¢/kWh based on the quantity consumed. The IMO will increase the amount payable by the distributors for amounts consumed by a corresponding amount up to 4.3¢/kWh.

The Fund will receive a large proportion of its funding from the portion of the Market Power Mitigation Agreement (MPMA) rebate paid by OPG that is attributable to the low volume and designated consumers. The initial $75 consumer refund for the May 1, 2002 to November 30, 2002 period was funded from OPG's MPMA rebate liability.

Net costs were higher than originally expected due to higher-than-expected prices arising from a long and severe winter. Program costs were also higher than initially expected due to higher costs to maintain the contractual rights of retailers. Annual results for the Fund are expected to improve as new supply comes on-line and reduces electricity prices.

The financial statements reflect the net expense of the Fund for this fiscal year. More information on the Fund can be found in Note 13 to the Financial Statements.

## Objectives for 2003-04

OEFC's activities for 2003-04 will be focused on the following corporate objectives:

- Continue to perform borrowing, risk management, cash management, banking and accounting services as required in managing and retiring the outstanding debt and derivative contracts of the former Ontario Hydro;
- Assist in the implementation of the government's electricity policy decisions and coordinate economic and financial issues related to the industry. This includes management of the Electricity Consumer Price Protection Fund, managing financial relationships with the successor companies of Ontario Hydro (Hydro One, Ontario Power Generation Inc. and the Independent Electricity Market Operator) and assisting the Ministry of Energy and the Ministry of Finance in analyzing and implementing new supply initiatives, such as the temporary generation initiatives for the summer and fall of 2003;
- Continue negotiating revisions to the non-utility generator (NUG) contracts to ensure that the contracts are consistent with the competitive market. Develop and implement the necessary infrastructure to manage, in a cost-effective and prudent manner, the NUG contracts and related exposures and their integration into the power market administered by the Independent Electricity Market Operator (IMO); and
- Discharge OEFC's liability to the nuclear decommissioning fund related to generating stations of the former Ontario Hydro.

## Responsibility for Financial Reporting

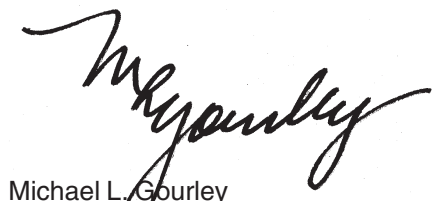
The accompanying consolidated financial statements of the Ontario Electricity Financial Corporation have been prepared in accordance with accounting principles recommended for governments by the Canadian Institute of Chartered Accountants and are the responsibility of management. The preparation of financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to July 25, 2003.

Management maintains a system of internal controls designed to provide reasonable assurance that the assets are safeguarded and that reliable financial information is available on a timely basis. The system includes formal policies and procedures and an organizational structure that provides for appropriate delegation of authority and segregation of responsibilities. Internal Audit Services of the Ministry of Finance independently evaluates the effectiveness of these internal controls on an ongoing basis and reports its findings to management and the Audit Committee of the Board of Directors.

The Board of Directors, through the Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls. The Audit Committee meets periodically with management, the internal auditors and the external auditor to deal with issues raised by them and to review the financial statements before recommending approval by the Board of Directors.

The financial statements have been audited by the Provincial Auditor. The Provincial Auditor's responsibility is to express an opinion on whether the financial statements are fairly presented in accordance with accounting principles recommended for governments by the Canadian Institute of Chartered Accountants. The Auditor's Report, which appears on the following page, outlines the scope of the Auditor's examination and his opinion.

On behalf of Management:



Michael L. Gourley
Vice-Chair and Chief Executive Officer

Office of the
Provincial Auditor
of Ontario

Bureau du
vérificateur provincial
de l'Ontario

Box 105, 15th Floor, 20 Dundas Street West, Toronto, Ontario M5G 2C2
B.P. 105, 15e étage, 20, rue Dundas ouest, Toronto (Ontario) M5G 2C2
(416) 327-2381 Fax: (416) 327-9862

***Auditor's Report***

To the Ontario Electricity Financial Corporation
and to the Minister of Finance

I have audited the consolidated balance sheet of the Ontario Electricity Financial Corporation as at March 31, 2003 and the consolidated statements of revenue, expense and unfunded liability and of cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2003 and the results of its operations and its cash flows for the year then ended, in accordance with the accounting principles recommended for governments by the Canadian Institute of Chartered Accountants.

Toronto, Ontario
July 25, 2003

Erik Peters, FCA
Provincial Auditor

# Ontario Electricity Financial Corporation
# Notes to Financial Statements

## 1. Restructuring of the Ontario Electricity Industry

Effective April 1, 1999, pursuant to the *Electricity Act, 1998*, Ontario Hydro was continued as a corporation without share capital under the name Ontario Electricity Financial Corporation (OEFC). It is exempt from federal and provincial income taxes under paragraph 149(1)(d) of the Income Tax Act of Canada. OEFC is a Crown agency created to manage the debt and administer the assets, liabilities, rights and obligations of Ontario Hydro not transferred to other successor entities. These other successor entities include:

- Ontario Power Generation Inc. (OPG), an electricity generation company;
- Hydro One Inc. (Hydro One), a regulated electricity transmission and distribution business;
- Independent Electricity Market Operator (IMO), the regulated centralized independent system co-ordinator responsible for directing system operations and operating the electricity market; and
- Electrical Safety Authority (ESA), which performs a regulatory function related to electrical inspections.

On April 1, 1999, the respective business units, including assets, liabilities, employees, rights and obligations of the former Ontario Hydro, were transferred to OPG and Hydro One (and their subsidiaries) and the IMO for $8.5 billion, $8.6 billion and $78 million respectively in exchange for debt payable to OEFC. On the same day, the Province exchanged equity of $5,126 million and $3,759 million in OPG and Hydro One respectively for debt payable to OEFC.

OEFC debt, liabilities and associated financing costs will be repaid from interest on notes receivable from the Province and successor entities, and, as provided under the *Energy Competition Act, 1998*, from dedicated electricity revenues in the form of payments-in-lieu (PILs) of corporate income, capital and property taxes made by the successor entities and municipal electric utilities. Any residual debt will be serviced through a Debt Retirement Charge (DRC) to be paid by electricity consumers after open access at a rate of 0.7 cents per kilowatt hour in most Ontario communities. Until open access on May 1, 2002, OEFC continued to be a party to a revenue-allocation agreement among successor entities and was entitled to the forecast residual amount in the revenue pool after allocations to OPG, Hydro One and the IMO are paid.

## 2. Summary of Significant Accounting Policies

**Basis of Accounting**

As OEFC is a government organization, these financial statements are prepared in accordance with the recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants.

**Measurement Uncertainty**

Uncertainty in the determination of the amount at which an item is recognized in the financial statements is known as measurement uncertainty. Such uncertainty exists when it is reasonably possible that there could be a material variance between the recognized amount and another reasonably possible amount, as there is whenever estimates are used. Measurement uncertainty in these financial statements exists in the estimated amount for the Electricity Consumer Price Protection Fund, the valuation of the power purchase contracts and the estimated defeasance date for OEFC's obligations. Estimates are based on the best information available at the time of preparation of the financial statements and will be updated annually to reflect new information as it becomes available.

**Consolidation**

These financial statements include the residual accounts of OEFC's wholly owned subsidiary, Ontario Electricity Pension Services Corporation (see Note 3).

**Deferred Debt Costs**

Deferred debt costs includes the unamortized amounts related to unrealized foreign exchange gains or losses resulting from the translation of long-term debt issued in foreign currencies and discounts, premiums or commissions arising from the issuance of debt or the acquisition of debt prior to maturity. These costs are amortized to operations over the life of the underlying debt.

**Revenue Recognition**

Revenues are recognized in the period in which they are earned.

**Foreign Currency Translation**

Debt is composed of short-, medium- and long-term bonds, notes and debentures. Debt denominated in foreign currencies that have been hedged is recorded at the Canadian dollar equivalent using the rates of exchange established by the terms of the hedge agreements. Other foreign currency debt, liabilities and assets are translated to Canadian dollars at period-end rates of exchange and any exchange gains or losses are deferred and amortized over the remaining term to maturity.

**Power Purchase Contracts**

The power purchase contracts liability is valued on a discounted cash-flow (DCF) basis. Periodic revaluations of this liability will give rise to changes in the estimated cost of the contracts and will be amortized to operations over a maximum 10-year period.

## 3. Ontario Electricity Pension Services Corporation

OEFC was the administrator of the Ontario Electricity Financial Corporation Pension Plan and Fund. It was responsible for negotiating an agreement with each of the successor corporations for the division and transfer of the assets and liabilities of the OEFC pension plan to the pension plans of the successor corporations. The Ontario Electricity Pension Services Corporation, (OEPSC), a wholly owned subsidiary of OEFC, acted as agent for OEFC to carry out the required administrative, investment and other responsibilities of the OEFC Pension Plan and Fund.

OEPSC made application to the Superintendent of Financial Services for Ontario for approval to transfer all of the assets of the OEFC Pension Plan to the pension plans of the four successor operating entities. The Superintendent agreed to the transfer on June 6, 2001. With the exception of certain records and assets of nominal value, all pension fund assets were transferred to the pension plans of successor corporations on June 29, 2001. As OEPSC's functions have been completed, OEFC is in the process of winding up the company.

## 4. Economic Dependence

OEFC does not have its own credit rating and is, therefore, dependent on the Province to borrow and on-lend the funds required to refinance maturing debt and to cover any cash shortfalls in the Corporation. It is also dependent on the long-term plan to defease the unfunded liability described in Note 12. Based on the Province's support in refinancing maturing debt and the long-term plan, OEFC is considered a going concern.

## 5. Cash and Cash Equivalents

Cash and cash equivalents includes cash on deposit and highly liquid investments with maturities of less than three months. They are recorded at cost, which approximates current market value.

## 6. Due from Province of Ontario

The Province has committed to dedicate the combined net income of OPG and Hydro One in excess of the Province's financing cost of its investment in its electricity subsidiaries to OEFC. In the year ended March 31, 2003, OPG and Hydro One earned an aggregate amount of $717 million, $197 million in excess of the Province's $520 million financing cost of its investment. In 2001-02, the aggregate earnings of the subsidiaries did not exceed the Province's financing cost. The $197 million amount has been reflected as income in OEFC. In July 2002, the Province paid $370 million to OEFC towards the outstanding balance.

## 7. Notes and Loans Receivable

($ millions)

| | Maturity date | Interest rate | Interest payable | March 31, 2003 | March 31, 2002 |
|---|---|---|---|---|---|
| Province of Ontario | 2039 - 2041 | 5.85 | Monthly | $ 8,885 | $ 8,885 |
| OPG | 2005 - 2011 | 5.44 to 6.65 | Semi-annually | 3,200 | 3,200 |
| Hydro One | 2003 | 5.4 to 13.5 | Semi-annually | 651 | 2,972 |
| IMO | 2009 | 7.90 | Semi-annually | 78 | 78 |
| | | | | 12,814 | 15,135 |
| Less: Current portion of notes receivable | | | | 651 | 443 |
| | | | | 12,163 | 14,692 |
| Loans receivable from non-utility generators (NUGs) (See Note 10) | | | | 174 | 257 |
| | | | | **$ 12,337** | **$ 14,949** |

OEFC has agreed with OPG and IMO not to sell notes owing from these successor entities without their prior approval.

On March 5, 2003, with the prior approval of Hydro One, OEFC completed the sale of $1,878 million (face value) of Hydro One notes. OEFC realized a gain of $206 million on the sale as interest rates payable on the notes were above market interest rates.

In 2002, OEFC had agreed with OPG to defer principal payments of $200 million originally due in March and September, 2002 until December 2004. These maturities totalling $200 million have been further deferred until December 2006. In addition, OEFC has agreed with OPG to defer principal repayments totalling $500 million originally due in the period March 2003 to September 2004. The new maturity dates on these notes have been extended until March 2005 to September 2006.

## 8. Debt

Debt at March 31, 2003 is set out below by maturity and by currency of repayment, expressed in Canadian dollars.

| ($ millions) Currency | Canadian Dollar | U.S. Dollar | Japanese Yen | 2003 Total | 2002 Total |
|---|---|---|---|---|---|
| Maturing in: | | | | | |
| 1 year | 4,781 | 232 | 65 | 5,078 | 6,544 |
| 2 years | 3,250 | — | — | 3,250 | 1,666 |
| 3 years | 1,000 | 425 | — | 1,425 | 3,250 |
| 4 years | 119 | — | — | 119 | 1,000 |
| 5 years | 389 | 1,570 | — | 1,959 | 119 |
| 1-5 years | 9,539 | 2,227 | 65 | 11,831 | 12,579 |
| 6-10 years | 6,178 | 1,489 | — | 7,667 | 8,237 |
| 11-15 years | 648 | — | — | 648 | 1,843 |
| 16-20 years | 3,678 | — | — | 3,678 | 2,702 |
| 21-25 years | 2,077 | — | — | 2,077 | 3,037 |
| 26-50 years | 929 | — | — | 929 | 966 |
| **Total** | **$ 23,049** | **$ 3,716** | **$ 65** | **$ 26,830** | **$ 29,364** |

The effective rate of interest on the debt portfolio is 6.78 per cent (March 2002 - 6.96 per cent) before considering the effect of derivative instruments used to manage interest rate risk. The longest term to maturity is to October 17, 2031. Total foreign currency denominated debt at March 31, 2003 was $3.8 billion (March 2002 - $3.6 billion), of which $2.6 billion or 67.7 per cent (March 2002 - $1.9 billion or 52.8 per cent) was fully hedged to Canadian funds. Bonds and notes payable are either held, or guaranteed as to principal and interest, by the Province as set out below:

| | March 31, 2003 | | | March 31, 2002 | | |
|---|---|---|---|---|---|---|
| ($ millions) | Held by the Province | Guaranteed by the Province | Total | Held by the Province | Guaranteed by the Province | Total |
| Short-term debt | 3,413 | — | 3,413 | 3,996 | — | 3,996 |
| Current portion of long-term debt | 350 | 1,315 | 1,665 | 48 | 2,500 | 2,548 |
| Long-term debt | 9,791 | 11,961 | 21,752 | 9,173 | 13,647 | 22,820 |
| **Total** | **$ 13,554** | **$ 13,276** | **$ 26,830** | **$ 13,217** | **$ 16,147** | **$ 29,364** |

Fair value of debt issued approximates amounts at which debt instruments could be exchanged in a current transaction between willing parties. In valuing the OEFC's debt, fair value is estimated using discounted cash flows and other valuation techniques and is compared to public market quotations where available. These estimates are affected by the assumptions made concerning discount rates and the amount and timing of future cash flows.

The estimated fair value of OEFC debt at March 31, 2003 is $31.2 billion (March 2002 - $32.8 billion). This is higher than the book value of $26.8 billion (March 2002 - $29.4 billion) because current interest rates are generally lower than the interest rates at which the debt was issued and because of exchange rate movements. The fair value of debt does not reflect the effect of related derivative contracts.

## 9. Risk Management and Derivative Financial Instruments

OEFC employs various risk management strategies and operates within strict risk exposure limits to ensure exposure to risk is managed in a prudent and cost-effective manner. A variety of strategies are used, including the use of derivative financial instruments ("derivatives"). Derivatives are financial contracts, the value of which is derived from underlying instruments. OEFC uses derivatives for the purpose of hedging and to minimize interest costs. Hedges are created primarily through swaps, which are legal arrangements under which OEFC agrees with another party to exchange cash flows based upon one or more notional amounts during a specified period. This allows OEFC to offset its existing obligations and thereby effectively convert them into obligations with more desirable characteristics. Other derivative instruments used by OEFC include forward foreign exchange contracts, forward rate agreements, futures and options.

Foreign exchange or currency risk is the risk of debt servicing costs and principal payments varying due to fluctuations in foreign exchange rates. To minimize currency risk, OEFC uses derivative contracts to convert foreign currency cash flows into Canadian dollar denominated cash flows. The current policy allows unhedged foreign currency cash flows to reach a maximum of 20 per cent of total debt. At March 31, 2003, 6.3 per cent (March 2002 - 7.5 per cent) of this debt was unhedged, with most of the currency exposure to US dollars.

Floating rate risk is the exposure of OEFC to changes in short-term interest rates over a 12-month period. OEFC reduces its exposure to rate changes by entering into derivative contracts that convert floating interest payments to fixed interest payments. The current policy allows unhedged floating rate debt, net of liquid reserves, to reach a maximum of 20 per cent of total debt. At March 31, 2003, OEFC's floating rate debt as a percentage of total debt was 13.5 per cent (March 2002 - 9.8 per cent).

Liquidity risk is the risk that OEFC will not be able to meet its current short-term financial obligations. As explained in Note 4, OEFC is dependent on the Province to borrow and on-lend the funds required to refinance maturing debt and to cover any cash shortfalls in the Corporation.

The table below presents a maturity schedule of OEFC's derivatives, by type, outstanding at March 31, 2003, based on the notional amounts of the contracts. Notional amounts represent the volume of outstanding derivative contracts and are not indicative of credit risk, market risk or actual cash flows.

**Derivative Portfolio Notional Value**
**($ millions)**
**As at March 31, 2003**

| Maturity in Fiscal Year | 2004 | 2005 | 2006 | 2007 | 2008 | 6-10 Years | Over 10 Years | Total 2003 | Total 2002 |
|---|---|---|---|---|---|---|---|---|---|
| Cross-currency swaps | 1,046 | - | 425 | - | 496 | 388 | - | 2,355 | 1,528 |
| Interest rate swaps | 2,214 | 292 | 1,515 | 132 | 1,246 | 158 | 1,486 | 7,043 | 6,420 |
| Forward foreign exchange contracts | 720 | - | - | - | - | - | - | 720 | 974 |
| Other[1] | - | 50 | - | - | - | - | - | 50 | 250 |
| Total | $ 3,980 | 342 | 1,940 | 132 | 1,742 | 546 | 1,486 | 10,168 | $ 9,172 |

[1]Other includes swaptions and forward rate agreements.

The use of derivatives introduces credit risk, which is the risk of a counterparty defaulting on contractual derivative obligations in which OEFC has an unrealized gain. The table below presents the credit risk associated with the derivative financial instrument portfolio, measured through the replacement value of derivative contracts, at March 31, 2003.

| Credit Risk Exposure ($ millions) | March 31, 2003 | March 31, 2002 |
|---|---|---|
| Gross credit risk exposure[1] | 4,167 | 4,569 |
| Less: Netting[2] | (4,293) | (4,709) |
| Net credit risk exposure[3] | $ (126) | $ (140) |

Notes:
1 Gross credit risk exposure includes credit exposure on swaps, options, futures, forward rate agreements and forward foreign exchange agreements.
2 Master agreements provide for close out netting as contracts do not have coterminous settlement dates.
3 Total exposure to counterparties with positive exposure (meaning that counterparties owed OEFC) was $202 million (March 2002 - $111 million) and the total exposure to counterparties with negative exposure (meaning that OEFC owed the counterparties) was $328 million (March 2002 - $251 million) for a total net credit exposure of ($126) million (March 2002 - ($140) million).

OEFC manages its credit risk exposure from derivatives by, among other things, dealing only with high credit quality counterparties and regularly monitoring compliance to credit limits. In addition, OEFC enters into contractual agreements (master agreements) that provide for termination netting and, if applicable, payment netting with virtually all of its counterparties. Gross credit risk exposure represents the loss OEFC would incur if every counterparty to which OEFC had credit risk exposure were to default at the same time and the contracted netting provisions were not exercised or could not be enforced. Net credit risk exposure is the loss including the mitigating impact of these netting provisions.

As at March 31, 2003, OEFC's most significant concentrations of credit risk were with three A+ or higher rated counterparties, each of which represented more than 10 per cent of the Net Credit Risk Exposure. The net cost to OEFC, if it had to replace all of the swap contracts with these three counterparties is $23 million, $62 million and $85 million, respectively.

## 10. Power Purchase Contracts

Power purchase agreements and related loan agreements were entered into by Ontario Hydro with non-utility generators (NUGs) located in Ontario. As the continued Ontario Hydro, OEFC is the counterparty to these contracts. These contracts, expiring on various dates to 2048, provide for the purchase of power at prices that are expected to be in excess of the market price. Since open access on May 1, 2002, this power has been sold at market prices that generally have been less than cost. Prior to open access, power purchased from NUGs was resold at cost to the revenue pool managed by OPG.

During the year, OEFC purchased power in the amount of $786 million (2002 - $815 million) and sold this power for $635 million (2002 - $815 million). Effective April 18, 2002, the NUG Contract Management Agreement between Enron Canada Corporation and OEFC was assigned to UBS Warburg Energy (Canada) Ltd. Annual fees include both a fixed fee of approximately $750,000 plus a variable fee based on performance in minimizing losses under NUG power purchase agreements that amounted to $10 million (2002 - $ nil).

The NUG liability had been valued at $4,286 million on a discounted cash-flow (DCF) basis since Ontario Hydro was continued as OEFC on April 1, 1999. Since the electricity market was opened in this fiscal year, the DCF model was updated as of March 31, 2003 which reduced the estimated liability from $4,286 million to $3,745 million. The revaluation change will be amortized to operations over a 10-year period. In addition, each year, interest at the DCF rate is added to the liability and the estimated in-year loss in the DCF model is deducted from the liability as set out below:

**Statement of NUG Liability**
($ millions)

| | | |
|---|---|---|
| NUG Liability, March 31, 2002 | | $ 4,286 |
| Interest charged during the year | | 253 |
| Deduct estimated in-year loss | | (372) |
| Revaluation as of March 31, 2003 | | (422) |
| Sub total | | 3,745 |
| Add: Unamortized Revaluation Changes | | |
| Gross Revaluation | 422 | |
| Accumulated Amortization | (42) | 380 |
| | | $ 4,125 |

Loans to NUGs decreased during the period by a net $83 million to $174 million at March 31, 2003 (March 31, 2002 - $257 million), primarily due to principal repayments.

## 11. Nuclear Funding Liability

OEFC as the continued Ontario Hydro received a liability in the amount of $2,378 million representing nuclear waste management and asset removal liabilities that were incurred prior to April 1, 1999. In March 2002, the Province and OPG entered into the Ontario Nuclear Funds Agreement (ONFA) to establish, fund and manage segregated funds to ensure that sufficient funds are available to pay for costs of nuclear waste management and station decommissioning. The OEFC liability will be directed to the Decommissioning Custodial Fund, which is expected to be established later in 2003.

The Board of Directors of OEFC approved the funding of the Decommissioning Custodial Fund over the next four years, thus discharging the nuclear funding liability. OEFC reflected the nuclear funding liability at April 1, 1999 and has been accruing interest annually at an estimated 5.75 per cent since that time. At March 31, 2003, this estimated accrued interest was included in the liability amount of $2,974 million (2002 - $2,812 million). The calculation of the interest rate is still under negotiation between the parties, but is expected to be finalized later in 2003. The impact of the finalization of the interest rate calculation is not expected to result in a material difference to the liability balance.

## 12. Unfunded Liability

The opening unfunded liability of $19.4 billion at April 1, 1999 was composed of $38.1 billion in liabilities assumed from old Ontario Hydro less the value of assets transferred to OEFC at April 1, 1999 including $17.2 billion in notes receivable and $1.5 billion in loans receivable and other assets. A long-term plan was established to retire OEFC liabilities from within the electricity sector. The Plan includes cash flows from the following sources as at **April 1, 1999**:

**Notes receivable** from the Province of $8.9 billion, OPG of $3.4 billion, Hydro One of $4.8 billion and IMO for $0.1 billion for a total of $17.2 billion as a result of the transfer of assets to successor companies,

**Payments-in-lieu** of corporate income, property and capital taxes made by OPG, Hydro One and municipal electric utilities,

a **Debt Retirement Charge** to be paid by ratepayers based on the consumption of electricity, and

**Electricity Sector Dedicated Income** - The combined net income of OPG and Hydro One in excess of the Province's cost of its investment in its electricity subsidiaries will be allocated to the retirement of OEFC's debt.

The long-term plan supports a current estimate that OEFC's obligations will likely be defeased in 2012.

## 13. Electricity Consumer Price Protection Fund

On November 11, 2002, the Province announced a program designed to provide electricity to low volume and designated consumers at a fixed price of 4.3 cents per kilowhatt-hour (kWh) until at least 2006, retroactive to May 1, 2002. Power generators continue to receive the free market price as set in the IMO electricity market. The program is administered through the Electricity Consumer Price Protection Fund (ECPPF) managed by OEFC.

During periods where the average price of electricity is greater than the fixed rate of 4.3 cents per kWh, the balance is funded by the ECPPF. Conversely, the ECPPF will receive funds during periods where the average price of electricity is lower than the fixed rate of 4.3 cents per kWh. Expenditures from the Fund amounting to $1,461 million in the year were reduced by a portion of the rebate paid by OPG under the Market Power Mitigation Agreement (MPMA) in the amount of $796 million leaving a net cost in OEFC of $665 million.

## 14. Contingencies and Guarantees

OEFC is involved in various legal actions arising out of the ordinary course and conduct of business, some of which relate to the former Ontario Hydro prior to the establishment of OEFC on April 1, 1999. Under the terms of the April 1, 1999 restructuring of Ontario Hydro, each successor entity (OPG, Hydro One, ESA and IMO, and their respective subsidiaries) is responsible for any liabilities relating to those operations of the former Ontario Hydro that were transferred to it. In the event any such liabilities remained with OEFC, the successor entity is also required to indemnify OEFC. With respect to legal actions relating to operations of Ontario Hydro that were retained by OEFC, the outcome and ultimate disposition of these legal actions is not determinable at this time. Accordingly, no provision for the above actions is reflected in the financial statements. Settlements of these contingencies, if any, will be reflected in the period in which settlement occurs.

Subject to a $10 million and $20 million deductible respectively, OEFC has agreed to indemnify Hydro One and OPG with respect to any adverse claim to title to any asset, right or thing transferred or intended to be transferred to the companies at April 1, 1999 and any failure of the transfer order to transfer such assets, rights or things and with respect to payment to or from or other dealing with any equity account of Ontario Hydro, including certain related litigation. The Province of Ontario has guaranteed any liability arising from these indemnifications.

OEFC is contingently liable under guarantees given to third parties that have provided long-term financing to certain independent power producers in connection with the power purchase agreements described in Note 10. These guarantees total approximately $113 million at March 31, 2003 (2002 - $124 million).

## Corporate Governance

Appointed by the Lieutenant Governor in Council, the Board of Directors is responsible for supervising OEFC's business. OEFC retains services from the Ontario Financing Authority (OFA) and the Ministry of Finance to carry out its daily operations. The Board of Directors meets at least quarterly. It monitors OEFC's financial performance and approves OEFC's financial policies and its business plan for each year.

The Minister of Finance reviews and approves the OEFC's annual business plan, which contains long- and short-term objectives and reports on accomplishments for the preceding year. In keeping with the government's Agency Establishment and Accountability Directive, once every three years the Minister of Finance recommends the OEFC business plan to Management Board of Cabinet for approval.

The OEFC Audit Committee supports the Board of Directors with the review and recommendation for approval of OEFC's financial statements. The Audit Committee also recommends the annual internal audit plan and reviews the findings of the internal auditors regarding the adequacy of internal controls. The OEFC Audit Committee has recommended to the Board that the legislation regarding the timing of the delivery and tabling of the Corporation's annual report, including audited financial statements, be made consistent with the timing of the Province's Public Accounts, because of the relationship of OEFC's statements to the Public Accounts.

OEFC's Board also has a NUG Committee. This committee makes decisions concerning OEFC's Power Purchase Agreements. Membership includes OEFC Directors representing the Ministry of Finance and the Ministry of Energy.

## Corporate Policies

### Overview and Structure

### Board of Directors

- Reviews and approves key risk management policies.
- Supervises the management of the OEFC's debt portfolio and NUG power sales.

**Audit Committee**

- Oversees the financial reporting process on behalf of the Board of Directors.
- Reviews key risk management policies, internal audit reports and the financial statements.

### Management Committees

**Risk Management Committee**

- Reviews daily market updates and outlook.
- Reviews current borrowing, investing and debt management positions and strategies.

**Borrowing Strategy Committee**

- Reviews economic conditions, fiscal plan and capital markets outlook.
- Reviews borrowing and debt management activities and management reports, cash flows and the annual financing charge forecast.
- Reviews operational limits and procedures related to financial operations.
- Approves amendments and exceptions to approved risk management policies and procedures.
- Approves risk management policies for recommendation to the Board of Directors.

### Risk Control Division

- Monitors, measures and assesses market risks and performance associated with borrowing and NUG power sales.
- Develops and updates risk management policies in response to best industry practices in an evolving business environment and underlying risks of the programs and compliance with all policies on a timely basis to senior management and the Board of Directors.
- Monitors compliance with Board-approved policies, limits and procedures, and monitors portfolio performance and trends.
- Assesses counterparty credit risk and manages rating agency relations.

## Risk Management Policies and Procedures for Borrowing and Debt Management

The OFA incurs credit, market, operational and liquidity risks for OEFC in managing the debt of OEFC. These risks are managed in accordance with risk management policies approved by the OEFC Board of Directors. The Board and management committees establish and approve risk management policies and monitor OEFC's compliance with the policies and the performance of the OFA's OEFC-related capital market activities.

OEFC has a number of policies in place to mitigate financial risks: market risk, credit risk, operational risk and risks related to the use of derivatives. These policies were developed following the Group of Thirty's best practices, the guidelines and directives of regulatory bodies, such as the Office of the Superintendent of Financial Institutions of Canada, the Bank for International Settlements (BIS), and consulting with Canadian bank representatives on their risk management practices.

With the advent of the electricity market and the exposures inherent in the management of the NUGs contracts and related transactions, policies specifically addressing these exposures were recommended to the Board of Directors and approved. These policies and associated procedures will be used to develop and implement an infrastructure for monitoring and assessing NUG-related exposures.

### Market Risk

- Market Risk is the risk of financial loss attributable to changes in the values of financial indices including interest rates, credit spreads, foreign exchange rates and liquidity condition.
- This policy provides a framework for borrowing and integrates several aspects dealing with the management of market risk.
    - Foreign Exchange Exposure Limit - OEFC's exposure to unhedged foreign currencies is limited to 20 per cent of outstanding debt. This limit will be reduced to five per cent as soon as feasible and prudent. Foreign exchange exposures are limited to Group of Seven currencies and the Swiss franc or the equivalent currencies (i.e., the Euro).
    - Floating Rate Exposure - OEFC is limited to a maximum floating rate exposure of 20 per cent of debt.
    - Risk Management Loss Limits - The total amount of financial losses resulting from market risk and the default of counterparties shall not exceed a debt cost loss limit specified by the Board of Directors. Additionally, the CEO establishes a debt management trigger level to ensure that losses will not reach the debt cost loss limit. The trigger level is included in the Annual Financing and Debt Management Plan.
    - Risk Measurement - OEFC identifies and quantifies exposures to market risk in its Annual Financing and Debt Management Plan to ensure that risk exposures and losses remain within the approved exposure and loss limits. Exposure to market, credit and liquidity risk is measured daily.
    - Debt Maturity Profile - When issuing new debt on behalf of OEFC, the OFA will aim for a smooth debt maturity profile to diversify the interest rate risk for the refinancing of maturing and floating rate debt.

### Credit Risk

Credit risk is risk that a counterparty does not meet, or defaults on its obligations. Credit risk arises when the OFA undertakes financial and derivative transactions on behalf of OEFC. The minimum credit rating of a counterparty for a new swap transaction is AA- and R1-mid for money market investments. The resulting exposure is capped at mark-to-market limits depending on the counterparty's credit rating and capital base.

## Operational Risk

OEFC's operational risk is managed through procedures that deal with model risk, legal risk, settlement risk and information systems risks.

**Model Risk**

OEFC's pricing models are regularly reviewed for accuracy and compliance with industry standards. OEFC's valuation of financial instruments is also reviewed regularly.

**Legal Risk**

Procedures and standards have been implemented to ensure that documentation of OEFC debt issues, debt management and money market transactions meet industry standards and is enforceable.

**Settlement Risk**

On behalf of OEFC, the OFA has established internal control procedures and systems, involved external service providers and trained its staff to ensure that transactions are settled correctly and in a timely manner, are recorded accurately, and that service providers are appropriately involved.

**Information Systems Risk**

As OEFC's service provider, on behalf of OEFC, the OFA has taken measures to protect computer systems and access to the offices of the OFA, monitoring the computer room environment, the establishment of a back-up power source, regular data back-ups, off-site storage, firewalls to protect against unauthorized network intrusions and computer virus scanning. Security is reviewed periodically and when major changes occur.

## Use of Derivatives

Derivatives are used solely to advance the objective of providing OEFC's financing and liquidity requirements in a sound and cost-effective manner. Derivatives are used to manage exposures arising from existing and planned debt, and in a manner consistent with the Annual Financing and Debt Management Plan. Risks arising from the use of derivatives are identified, monitored, evaluated and managed prudently.

## Risk Management Policies for NUG Power Sales

## Market Risk

The NUG Market Risk Policy for Electricity Risk Management provides for a framework governing the use of electricity derivatives for the program, as well as volumetric limits on the level of forward sales and financial loss limits. A key requirement for electricity forwards and other derivative contracts is OEFC's ability to price and measure the risk associated with them. The policy mandates an annual NUG risk management plan, which delineates the assumptions for the upcoming fiscal year, including economic and electricity price assumptions, base case and contingency plans for managing and diversifying risk, and supply availability assumptions. A risk assessment for all assumptions is also required.

## Credit Risk

OEFC incurs credit risk in the course of its forward transactions with counterparties in the marketplace. This policy addresses that risk through minimum credit ratings and through exposure, term-, and concentration limits. Additionally, the policy sets out requirements for documentation and enforceability. Monitoring and reporting of credit exposures and credit quality are performed by Risk Control Division.

## Supply Availability Risk

Supply Availability Risk is the risk associated with having to meet contractual obligations associated with portfolio hedging transactions through open market transactions. As with financial market activities, management of OEFC's NUGs electricity generation portfolio must assess both market and counterparty credit risks. In addition, managing these risks is further complicated by such risks as equipment breakdown, fuel availability and fuel costs, all of which could affect OEFC's ability to meet its contractual obligations through NUGs supply.

## Risk Management Reporting

At its regular quarterly meetings, the OEFC Board of Directors is informed of OEFC's activities, positions and risk exposures through three types of reports:

- CEO's report;
- Exposure and performance report; and
- Exception report provided by the Director of Risk Control, OFA.

OEFC's Annual Financing and Debt Management Plan, which indicates how OEFC risk exposures and losses will be maintained within the approved exposure and loss limits, is approved by the Board of Directors each year.

The CEO provides the Board of Directors with a progress report on the implementation of the Annual Financing and Debt Management Plan, staffing and other administrative and operational matters. The CEO also reports on OEFC's compliance with applicable government directives, and OFA Legal Counsel reports on compliance with applicable laws.

In addition, OFA Management is kept informed of OEFC's risk exposures and positions on a daily basis.

Hi Gadi,

I was just noting the "was" typo correction too. And agreed on the need for a comma.

Ron

**From:** Gadi Mayman

**Cc:** Ken Kandeepan ; Ronald Kwan ; Mike Manning
**Subject:** Re: Updated Materials

In our paragraph near the end of the government response, the second mention of FAO should have a "the" in front of it. One time in that paragraph we spell out thirty year, and in the other reference we say 30-year. We should be consistent. I prefer the former. We should also include the thirty year reference in the chart, on page 2 in the second box on Summary of Concerns where we reference the $4 billion amount (why is this marked 2.0, but the other Summary of Concerns boxes don't have numbers in their title?)

Also in the chart, the second last paragraph of the section on the DRC, last sentence, has the word "way" instead of "was". In the first paragraph, I think it reads more clearly if, in the last sentence, between "as an asset and" and "in accordance with" we stick in a comma, or we move that whole clause to the end of the sentence after CEA and end with "in accordance with the accounting definition." Since I'm being unnecessarily fussy, let me even go as far as to suggest if we do that, we could get rid of the second and in the sentence: "... will be set up as an asset which generates a specific revenue stream in the form of the CEA, in accordance with the accounting definition. "

**Subject: Updated Materials**

Hi all,

I've attached clean and tracked versions of the government response and consolidated comments. The joint-DM memo remains unchanged from what was shared at the meeting today, so only including a clean version of that.

**Next Steps**:

- In the consolidated comments document, please have staff confirm that any required supporting evidence is provided to me. If anything in that column is marked with a 'Y', please have staff add in "Please see [name of document/attachment]". If we can direct the AG to something online (e.g., standards), a hyperlink would be fine. If no material can be provided, please ensure the box is changed to 'N'.
- Please have staff review the documents one last time and ask that they note any required changes in the clean versions.
- The key focus at this point should be the government response. At this stage, changes to the consolidated comments should be kept to a minimum.
- **Please reply-all with any edits by 11:00AM**.
- I will coordinate having the joint-DM memo signed. We'll have to work together to get it in front of each of them (separately is fine) before 12:30.
- I will aim to distribute a final package by 1:00. The target for getting it to the AG is 2:00.

Thanks again to you and your teams for all the help.

Hi Ken – just a few comments below.

**From:** Ken Kandeepan
**Sent:** Wednesday, October 04, 2017 8:42 AM
**To:** Anna Strathy <Anna.Strathy@ofina.on.ca>; Gadi Mayman <Gadi.Mayman@ofina.on.ca>; Ronald Kwan <Ronald.Kwan@ofina.on.ca>
**Cc:** Mike Manning <Mike.Manning@ofina.on.ca>
**Subject:** RE: Updated Materials

Hi Anna

Agree with Ron's and Gadi's comments plus here are a few from me.

Government Response

Page 1: 4th para 2nd sentence the reference to third party experts, since the Navigant report has or will be released to the AG why not include a reference. "third party experts, including a recent report from Navigant that will be provided to the OAG, have confirmed….." At the last DM meeting on this, Deputy Imbrognu mentioned Energy lawyers were concerned that because Blakes commissioned the Navigant report, it could be caught by solicitor-client privilege, and if Energy waives that privilege, it's not clear whether anything else would be waived. The question of releasing it publicly is therefore still an open question.

Page 2: Last para, last sentence now reads as: "The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, which is inaccurate". Suggest revising as follows: "The OAG suggests that all of the costs of OFHP should be reflected as if they will all be borne by taxpayers, however, this treatment will not reflect the economic substance of the program since the benefits of the GA refinancing accrues to ratepayers". Hope you don't mind, I've added "however". We may want to run this by OPCD and Energy before submitting to our DMO. Do you want me to connect with Cindy and Steen? Or would you like to?

Consolidated Comments

One small suggested edit to our contribution. The third para first sentence now reads as follows: "The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period to better reflect the expected lives of those assets (vs the contract lengths, that may be shorter than the expected useful like of the assets)".

Suggest that it be revised to :" The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period that better reflects the expected lives of those assets (vs the contract lengths, that may be shorter than the expected useful life of the assets).

Note the typo in “life” in the original. Thank you!
Thanks
Ken k

| Summary of Concerns | 3 | *"… so **IESO will sell its statutory right to recover the shortfall and use the proceeds of that sale to recover the shortfall*** ~~*the government needs to borrow cash to cover the shortfall*~~*"*<br><br>Updated statement with language in "bold and underlined" and remove text in "strike-out". This statement is factually incorrect in two respects. First, in its reference to "government". It is Independent Electricity System Operator (IESO) that needs to cover the shortfall. The IESO is not the "government" because IESO is not owned by the Crown, and under statute (Electricity Act, 1998) is explicitly not an agent of the Crown. Second, in its reference to "borrowing cash". IESO is not borrowing cash to cover the shortfall (except initially). IESO can sell its statutory right to recover the shortfall and use the proceeds of that sale to cover the shortfall. | N |
| Summary of Concerns, 2.0 | 3, 10 | The report concludes that as a result of the government's decision to not borrow directly in connection with GA refinancing, an additional $4 billion in interest costs will be imposed on consumers over the life of OFHP, as OPG/OPG trust must pay a higher rate of interest compared to the Province.<br><br>This $4 billion figure was sourced from the Financial Accountability Officer's (FAO) May 2017 report on OFHP; however, accumulated interest is projected to be considerably less than estimated in the FAO's May report. Total borrowing for the program has been revised down substantially since May, from $27.7 billion to $18.5 billion, and OPG's borrowing costs are now forecast to be lower than original estimates. | N |
| Summary of concerns | 4 | The first bullet on the page notes that the OFHP legislates the accounting which is factually incorrect and should be deleted. | N – Legislation – already in the report |
| Summary of Concerns | 4 and throughout | The AG report notes throughout that the Ontario Rebate for Electricity Consumers (OREC) is 8% of the OFHP's 25% bill reduction for the proxy consumer.<br><br>The 25% figure is an after-tax figure whereas the 8% figure is before-tax (i.e., 8% before tax is equivalent to 7.1% after-tax). Note: The breakdown is more like: 7% (OREC) + 16% (GA Refinancing) + 2% (tax-basing Ontario Electricity Support Program and Rural or Remote Rate Protection).<br><br>Suggest correcting this reference throughout the AG report. | N |

***Special Report – The Fair Hydro Plan: Concerns About Fiscal Transparency, Accountability and Value for Money***

| Section # | Page # | Comments | Supporting Evidence Attached? Y/N |
|---|---|---|---|
| Summary of Concerns | 4 and throughout | Under OFHP, consumers of all sizes will benefit from shifting cost recovery for the Ontario Electricity Support Program (OESP) and the majority of the Rural or Remote Rate Protection (RRRP) program from electricity bills to provincial revenues.<br><br>This action is expected to lower regulatory charges for all consumers by approximately $3/MWh (or about 2% for a residential consumer). The AG report does not mention this aspect of OFHP.<br><br>Suggest including the two sentences above in the AG report and adjusting the commentary in the report accordingly such that this information about RRRP and OESP costs are reflected in the report. | N |
| Summary of Concerns | 4 and throughout | The AG report indicates on several occasions a 17% reduction in ratepayers electricity bills. However, due to the fact that the 8% OREC is a before-tax rebate and that the shifting of social programs (i.e., OESP and RRRP) to the tax-base constitutes a portion of the 25% reduction, the impact of GA refinancing on the proxy consumer's bill is about 16%.<br>Note: The breakdown is more like: 7% (OREC) + 16% (GA Refinancing) + 2% (tax-basing Ontario Electricity Support Program and Rural or Remote Rate Protection).<br><br>Suggest correcting this reference throughout the AG report. | N |
| 1.1 | 5 | ~~*"The government made a critical decision early in the process…it should not disclose the deficit incurred from this required borrowing, nor should it add to the amount the government would report as Ontario's net debt."*~~<br><br>Delete this statement. It is not a fair characterization as no deficit was incurred. The policy intent was always that electricity consumers would receive the benefits and be responsible for paying back the debt over the long term. | N |
| 1.2 | 6 | ~~Private-sector accountants, lawyers, and bankers were engaged to develop and support the plan.~~<br><br>Delete this sentence and replace with the following the following to more accurately portray the role of third party experts: "The third party experts were consulted to provide advice and ensure ~~appropriate~~ due diligence was completed." | N |

|---|---|---|---|
| 1.2 | 6 | *"Working through ~~and around~~ the recognized risks to achieve the desired accounting results…ongoing spending on private-sector advisers had exceeded $2 million when we completed this Special Report."*<br><br>Delete reference to "around" as it is inaccurate. Government was mitigating risks not working around them. | N |
| 1.2 | 6 | The design options were not all rejected because they would show an increase in the deficit or net debt. For example, one option considered was to have the LDCs finance the difference between the amounts paid to the generators and the amounts collected from the ratepayers. This was rejected because of the inability of some of the LDCs to finance the balances. This option was detailed in an email provided to the OAG from Cindy Veinot dated February 2, 2017 at 7:02 pm. | Copy of email |
| 1.2 | 6 | Please provide a copy of the emails that support these bullets on this page. | N |
| 1.3.1 | 7 | The cumulative accounting results shown in figure 3 are not in accordance with Canadian PSAS. The reference to figure 3 and figure 3 should be deleted. | N |
| | 7 | Implication in several sections that the OFHP roll out results in a "less transparent" process. With the financing plan, similar to several jurisdictions in the U.S., and a form or securitization that is commonly used in the financial markets the impact of the plan will be transparent. Credit rating agencies, securities regulators and the public at large get full information and full reporting of the impacts of the OFHP that are visible and specific. | N |
| | 8 | *"Province shows no increase in net expense because the revenue OPG earns from charging the OPG Trust interest and administration and other fees offsets the interest expense on the amount borrowed…"*<br><br>This is not factually correct as stated. There is no explicit legislative or regulatory requirement for the revenue Ontario Power Generation (OPG) earns from charging the OPG Trust interest and fees to bear any relationship to the interest expense incurred by the Province in borrowing money for its equity infusions into OPG. | N |

|---|---|---|---|
| | | Under Canadian PSAS, assets are defined by three characteristics: a) they embody future economic benefits (of which one is the ability to generate future cash flows); b) the entity has full control in order to access those benefits, and c) they must result from a past event.<br><br>The decision by the IESO to apply the rate-regulated rules under US GAAP does not create an inconsistency with the definition of an asset under Canadian PSAS. The shortfall which is being reported as an asset by the IESO embodies a future economic benefit based on the requirement of the specified ratepayers to pay these deferred amounts in the future. IESO has control to access those benefits either by selling the regulatory asset or by holding the asset until the payments by the specified ratepayers are received in the future. Finally, the asset results from a past event which is the payment to the generators for the generation of power.<br><br>It is important to distinguish legislating the accounting from legislating the right for the government to recover amounts from specified ratepayers in the future, based on costs incurred today. Enabling the IESO to sell the future right to recover of this shortfall from specified ratepayers provided under the *FHP Act* is not legislating the accounting. The statute does not direct the government how to account for the shortfall. The statute provides for recovery of the current shortfalls from the specified ratepayers in the future, reflecting the policy decision to have the GA refinancing borne by the specified ratepayers, and in doing so, creates an obligation on the specified ratepayers to pay an amount in the future. The obligation on the part of the specified ratepayers is a future economic benefit to the government. | |
| Summary of Concerns<br><br>3.0 | 3-4<br><br>11 | The following text should be removed from the report (p. 3-4):<br><br>~~*"The government applied a correct accounting treatment for the electricity sector's stranded debt in 1999/2000, and there is no good reason for it not to apply the same accounting treatment to the debt that will accumulate as a result of the Fair Hydro Act's rate reduction"*~~<br><br>(p. 10-11)<br><br>~~"**3.0 Historical Ontario Precedent in Proper Accounting For Electricity Costs Not Yet Being Billed to Ratepayers**~~<br><br>~~There is a precedent for Ontario electricity costs being billed to ratepayers well after they were incurred.~~<br><br>~~In 1999, the government of the day made a policy decision to restructure the Province's electricity sector. The policy decision resulted in the government becoming responsible for the former Ontario Hydro's net debt of $19.4 billion (technically referred to as "unfunded liabilities" or~~ | Y<br>Please see enclosed OEFC 2000-01 and 2002-03 Annual Reports; Ontario Hydro 1998-99 Annual Report~~OEF~~ |

|---|---|---|---|
| | | ~~"stranded debt"). The costs that created the debt were incurred over a number of years before 1999, but ratepayers had not been billed for them at the time. Instead, starting in 2002, ratepayers began paying down the stranded debt through a "debt retirement charge" on their bills.~~<br><br>~~The collection of the debt retirement charge and the Fair Hydro future reduction recovery are similar in that both stem from government policy decisions and did not result from an independent regulatory process. As well, the payments were/will be made much later, "after the fact." However, in the 1999/2000 fiscal year, the government followed Canadian Public Sector Accounting Standards properly, and included the debt and the expenses related to it in the Province's consolidated financial statements. When the debt retirement charge was added to electricity bills, the charge to ratepayers was taken in as revenue in the Province's consolidated financial statements. This treatment allowed the government to track ratepayer costs and taxpayer costs separately, helping to ensure that only ratepayers, not taxpayers, pay for electricity services.~~<br><br>~~The same accounting should be applied to the Fair Hydro Plan rate reduction: include the debt being accumulated through the 10 years of the reduction as Provincial debt, and record interest expense on this debt as an expense in the Province's consolidated financial statements. When the clean energy adjustment is added to electricity bills, the amount charged to ratepayers can then be taken in as revenue in the consolidated financial statements, as well as be tracked separately from taxpayer expenses/revenue"~~<br><br>The report makes a comparison between the OFHP and the OEFC stranded debt. There are, however, crucial differences. The latter had already been incurred when the restructuring took place. In the case of the OFHP, the difference between what will be collected and what will be paid to generators will be set up as an asset and in accordance with the accounting definition, generates a specific revenue stream in the form of the CEA.<br><br>Also, it is important to note that the 1999 restructuring led to an "unbundling" of the electricity rate. Prior to the 1999 restructuring and 2002 market opening, there was a "bundled rate" for electricity that included cost recovery of generation and transmission costs, operating and capital – including debt costs, as well as central market operations costs. Including debt cost recovery and matching the timing of the capital cost recovery with the benefit to the ratepayer~~This wa~~is a normal rate-setting regulatory practice~~ which matched the timing of the capital cost recovery with the benefit to the ratepayer~~. The DRC represented the unbundling of a portion of the debt service costs. It effectively amortized the cost of the investments in long-lived assets (including debt incurred). | ~~C 2016-17 Annual Report~~ |

| Section # | Page # | Comments | Supporting Evidence Attached? Y/N |
|---|---|---|---|
| | | The OFHP GA deferral is also intended to have costs recovered from specified ratepayers over a time period to better reflect the expected lives of those assets (vs the contract lengths, that may be shorter than the expected useful like of the assets). The difference between the 1999 restructuring and the OFHP is that the DRC continued to pay down, over time, debt that had already been incurred, while under the OFHP, an asset is being created to ensure a fair allocation of electricity costs between current and future ratepayers. The intention of the OFHP is to be forward looking to ensure that ratepayers are fairly paying their share of current and future costs, while the DRC was backward looking, replacing part of a bundled rate that way already spreading the cost recovery of the debt over time.<br><br>Finally, ~~T~~the penultimate paragraph in section 3.0 notes the government, in 1999/2000, "…included debt and the expenses related to it in the Province's consolidated financial statements". This statement is incorrect. The recording of the stranded debt never resulted in an expense in the consolidated financial statements. The amount of the debt was charged directly to accumulated deficit. | |
| | 12 | Related to the above argument on the value / existence of an asset – The "substance over form"<br>The government differentiated the reductions in consumers' electricity bills that are being borne by the tax-base as a whole (i.e., 8% Rebate, certain programs to help rural customers) from those that have a long term benefit (the 17% referenced in the AG report). By establishing the deferral amounts off today's bill and charging it to future consumers, that is providing substance by ensuring future ratepayers pay their share of system costs at the right time. | N |
| | 13 | The role of the OEB and its mandate, is provided in legislation. It is not uncommon for government policy, through Regulations, to provide the ground rules over which the OEB is to preside. That is the case with the OFHP itself as the Act and the various regulations provide the direction and processes over which the OEB is to exercise oversight, review and make conclusions on submissions brought forward (rates to charge certain customer classes, basis of interest and appropriateness of fees charged to ensure they are benchmarked and reasonable, etc.). | N |
| 4.3 | 13 | The first sentence of the second paragraph states: As introduced in Section 1.3.2, the asset that the Fair Hydro Act creates is referred to as a "regulatory" or "rate-regulated" asset.<br><br>The terms regulatory and rate-regulated are not interchangeable and the sentence suggests they are. Regulatory asset is a defined term in the legislation and rate-regulated asset is an accounting concept used ~~to appropriate account for~~ by rate-regulated entities meeting the appropriate criteria. In addition, the legislation does not create an asset. The recording of any asset resulting from transactions of ~~the~~ Ontario's Fair Hydro Plan will be assessed for recognition and measurement based on Public Sector Accounting Standards (PSAS), and where appropriate other accounting guidance where PSAS is silent on the issue. Suggest this sentence be deleted. | N |

>
> How would investors get paid their principal and interest if we don't step in to take over the obligations in the case that the assumption agreement is triggered? I've been going on the assumption, pardon the slightly different use of that word, for the past few months that the Province immediately takes over the debt so that investors aren't at risk of a missed or delayed payment. If that's not possible under current legislation, we need TB to approve a solution that would be included in the Fall Budget Bill that allows us, and assures OPG, investors and the rating agencies, that they will continue to be paid if there is a triggering event, and that those payments will be on the same timelines as if there was no triggering event, unless I'm over interpreting what this means.

> Also, we had a further call with Blakes this afternoon regarding the optional replacement possibility and it is possible that the Province might need some additional legal authority to directly assume the debt (as it may not be considered to be an indemnity or guarantee) but since this is optional for the Province, the Province could to obtain that authority in the future. The purpose of having it in the term sheet is to identify this for OPG as an item which we may wish they include in their documentation with other parties to enable this option to be open. If this is happening in a change in law scenario the Province would likely give itself legislative authority to do this as part of the change in law, but we wanted to flag this now too so could we add "subject to obtaining the necessary authority" at the end of the paragraph beginning "In the event.." on p. 3. We haven't had a chance to fully analyze this at this point but think we should include this in the submission now.

Hi Gadi

We do have authority to provide a guarantee or indemnity which is a charge on the CRF so that the Province can pay when due to the investors. It is the part where the province actually replaces the financing entity more officially as the debtor ie the optional replacement part that requires some more analysis and whether that fits under the guarantee authority

Subject: Re: CEO Approved TB Submission for Change of Law Assumption Agreement

I don't think that I understand how this would work, and it strikes me as a very significant issue going to the heart of the value of what we had been calling a guarantee and have now rebranded as an assumption agreement.

How would investors get paid their principal and interest if we don't step in to take over the obligations in the case that the assumption agreement is triggered? I've been going on the assumption, pardon the slightly different use of that word, for the past few months that the Province immediately takes over the debt so that investors aren't at risk of a missed or delayed payment. If that's not possible under current legislation, we need TB to approve a solution that would be included in the Fall Budget Bill that allows us, and assures OPG, investors and the rating agencies, that they will continue to be paid if there is a triggering event, and that those payments will be on the same timelines as if there was no triggering event, unless I'm over interpreting what this means.

Thanks,
Gadi

Subject: RE: CEO Approved TB Submission for Change of Law Assumption Agreement

Also, we had a further call with Blakes this afternoon regarding the optional replacement possibility and it is

possible that the Province might need some additional legal authority to directly assume the debt (as it may not be considered to be an indemnity or guarantee) but since this is optional for the Province, the Province could to obtain that authority in the future. The purpose of having it in the term sheet is to identify this for OPG as an item which we may wish they include in their documentation with other parties to enable this option to be open. If this is happening in a change in law scenario the Province would likely give itself legislative authority to do this as part of the change in law, but we wanted to flag this now too so could we add "subject to obtaining the necessary authority" at the end of the paragraph beginning "In the event.." on p. 3. We haven't had a chance to fully analyze this at this point but think we should include this in the submission now.

Sorry for these last minute comments.

Subject: RE: CEO Approved TB Submission for Change of Law Assumption Agreement

Hi all,

Sorry about this, but I have a few comments on this version which I hope are not too late. I know that this is moving quickly.

2(a) Can we add the word "substantially" in this proposed minute? Also, as we know and was only discussed this morning, the term sheet doesn't include support for the sub debt yet. Should this be included into the version or should we await confirmation from OPCD.

2(b) The 2 last paragraphs should be deleted because the current OIC draft does not specify terms and conditions or a maximum liability as this will be left to the Ministers to determine.

p. 3 – second bullet point Should be "A court decision that declares the ability of the Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or unenforceable."

Same changes in Recommendation section.

Hi Steve,

We would like to have a call with you this morning to discuss the implications of the alternative option that was discussed yesterday and what OPG's response so far has been. I relayed to Ken, Mike and others the fact that s. 11.01 of the Trust Indenture provides for amendments to be made without consent of specified creditors and that this is one of the reasons why OPG's proposal to put Province in the category of specified creditor alone would not result in the Province getting notice of all amendments from the Indenture Trustee. I think it would be helpful to have a discussion to go over all of the related issues.

Perhaps about 11 would be a good time – would that work for you?

Also, we are reviewing the revised versions of the agreements and as relayed last evening I have questions about the new wording under limited guarantee among other points so not sure when we will review that as well.

Thanks.

**Subject:** RE: Change of Law Protection Agreement and Change of Law Process Agreement

Please find enclosed revised drafts of the Change of Law Protection Agreement and the Change of Law Process Agreement. I have also enclosed redlines to the drafts which

Stephen circulated on November 2 . The revised drafts and comments contained in these two agreements are a consolidation of comments from Osler and Torys. Please note that we have not had an opportunity to discuss all of the revisions and comments contained in these revised drafts with OPG and the Dealers and therefore, are subject to any further comments which the Dealers and OPG may have.

The initial drafts of these two agreement have not been provided to the rating agencies for their review and therefore, further revisions may be required following their review and comment once drafts have been provided to them to review.

**Subject:** Change of Law Protection Agreement and Change of Law Process Agreement

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

> Here are some thoughts …
> Base Fee: 10bps is high. We recommend a compromise of 5bps to be reviewed in a year.
> As background, market investment manager fees are 1-2bps for passive fixed income funds.
> This is consistent with the actual fees paid by OPG and Province to co-manage the nuclear fund's index fixed income funds. The index funds require constant rebalancing by the investment manager.
> From a significant economics of the financing entity, OPG is getting 44% equity investment from the Province at 0% cost and lending the funds as subordinated debt at a forecasted yield of around 5%.

Ie. For each $2.5B of Global Asset X 44% equity injection would contribute $55million net revenue to OPG for each of 10 years and would be a reduced amounts for the following 30 years as the Global Asset is paid down.
Variable Fee: We recommend going back to the original proposal of "… not more than plus/minus 1% … on the net annual funding obligation …"
That means deleting column 1 and item 2 of the table.
Pass through costs: Pass through costs as outlined in the draft regulations appear reasonable. As suggested in Scott's email including tighter language that prevents any OPG costs from being passed through makes sense. As further due diligence it may be advisable for the for the Financing Entity as part of its annual audit or a separate assurance audit to have the external auditors opine whether the actual pass through costs of the Financing Entity in each fiscal year is in accordance with the regulations.

Hi Gadi,
I hope NYC is going well and you are finding air conditioning.
We have been working with Steen's team and Energy legal on a draft of the fees regulation for OPG Trust and OFHP. As we progress through this, there are some elements of the regulation that we were hoping you and the OFA team might be able to consider (please see attached a black line for your reference):

- The draft reg outlines a base fee as well as a variable fee.
  - The base fee is provided monthly at an annual rate of 10-basis points for the first two years (we had this initially set at one year but Torys' markup changes this to two years). After 2019, the base fee is provided at an annual rate of 8 basis points should the funding obligations exceed $10B. Does this seem reasonable?
- The variable fee structure seems consistent with previous discussions (5 basis point fee provided on the spread). Do you think this makes sense?
- It would also be helpful if the OFA could let us know if the method for calculating the monthly funding obligation is reasonable.

- With respect to costs, our understanding is that these sorts of costs are typically a pass through; can the OFA confirm? The Torys markup removes OEB oversight on costs but we are wondering if

there should be a role for the OFA in reviewing / providing oversight in this regard?

<!--[if !supportLists]-->o <!--[endif]-->Also, do the costs they've outlined seem reasonable? In particular, LSB is wondering whether this leaves the door open for OPG to pass through any overhead costs (i.e. should we be explicit about excluding them)?

<!--[if !supportLists]-->• <!--[endif]-->On timing, the draft reg currently contemplates a fee application by OPG every two years regardless of what interest rates are in the market. Do we think this is fair or should the application occur annually? (Note that until new fees are established, the old fees are still in effect).

In terms of next steps, OPG would like to get a draft to their Board in time for the meeting on Friday. ENERGY LSB is hoping for comments by tomorrow. I don't think we need anything too detailed or formal, but a quick sniff test would be useful to ensure we are on the right track.

Thanks for your help,

Scott

Hi John:
Is there a time today that you would be available for such
a working session? Obviously quite a few people on our side will need to be involved and some coordination involved. I'm assuming this version incorporates input from your dealers. It would be useful to get the markup as soon as possible and may be useful to have a quick chat on the business issues prior to the business session.
Regards, Mike

Mike:

Given your need to get something in front of the ministers for approval by Sept 26(?). I believe it would be helpful to have a working session with your lawyers and yourself to land on a version of the document that works for both sides and meets the accounting and commercial requirements for the transaction. A markup will be provided tomorrow which will reflect both external counsel and the dealers comments.

Let me know your thoughts on this approach.

John

I have sent out an email this morning about having a potential working session. I assumed we would shoot for today but would expect tomorrow would be ok if today doesn't work. Having the new version out early today would be helpful to give people time to analyze the new document.

I believe it would be helpful to have a working session with your lawyers and yourself to land on a version of the document that works for both sides and meets the accounting and commercial requirements for the transaction. A markup will be provided tomorrow which will reflect both external counsel and the dealers comments.

Hi John

As a follow up here the province is requesting that this be in the master trust indenture. That it be an obligation of the Trust and Indenture Trustee and that it be included in the amendment provisions of the trust indenture s 11,01 11'02 and 13.18 and acknowledge the point about the point that failure to reliever the notice does not invalidate. As noted we are requesting inclusion in the Trust Indenture not protection agreement

Thanks

Malle

Subject: RE: EXTERNAL – RE: Change of Law Protection Agreement and Change of Law Process Agreement

Rima:

Further to our early discussion I have confirmed with Mike the approach to the amendments, can you draft something that reflect the following points:

- Province gets a copy of all the notices regarding amendments that OPG sends to the Indenture Trustee under the MTI;

- Province gets a copy of all of the notices regarding amendments that the Indenture Trustee under the MTI sends out to bondholders;

- This could be put in the Change of Law Protection Agreement, where the Indenture Trustee is a party. However, if it is in the

MTI, the Province would not be a party to the MTI as this may trip accounting test. Please note the Province request below that it be in the MTI.

- The failure by OPG or the Indenture Trustee to deliver a notice to the Province does not invalidate the amendments or the Province's guarantee which is the key point from the Dealers.

We will need Torys (in consultation with Oslers) to prepare the specific language and confirm where it will go.

If you could expedite this request that would be appreciated.

Thanks

John

Thanks John.

Regarding the other item that you discussed with Mike on the approach to amendments to the master trust indenture respecting notice to the Province, we would appreciate receive a mark-up of the master trust indenture of OPG's proposal for the Province's review as soon as possible for our review as this is an important item for the Province.

Thank you.

Attached are comments on your drafts from 8:30 last night. The attached blacklines are to those versions. These remain subject to review and comment by the Province, but we hope will give you a version (with several open items identified in Notes) OPG can feel comfortable sharing with its Board for their information purposes. Subject: RE: Change of Law Protection Agreement and Change of Law Process Agreement

Please find enclosed revised drafts of the Change of Law Protection Agreement and the Change of Law Process Agreement. I

have also enclosed redlines to the drafts which Stephen circulated on November 2nd. The revised drafts and comments contained in these two agreements are a consolidation of comments from Osler and Torys. Please note that we have not had an opportunity to discuss all of the revisions and comments contained in these revised drafts with OPG and the Dealers and therefore, are subject to any further comments which the Dealers and OPG may have.

The initial drafts of these two agreement have not been provided to the rating agencies for their review and therefore, further revisions may be required following their review and comment once drafts have been provided to them to review.

Subject: Change of Law Protection Agreement and Change of Law Process Agreement

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

Thanks, Malle. I think it would be very helpful for you and Toby to be on the call to, hopefully, prevent this discussion from going down unnecessary rabbit holes. My concern is that, to use a term that I often hear lawyers use in a different context, time is of the essence, and it's important that Torys isn't simply using this as an opportunity to extract even more billable hours from what has already been a very profitable file for them.

I had a discussion with OPG's CFO, Ken Hartwick this morning and he told me that they were satisfied with the term sheet, so I don't know why, if their client is satisfied, Torys feels the need to prolong this discussion. To meet the timelines to get this through both our ministries and then have the submission signed by the two DMs and Ministers in time to meet TB's deadlines, this has to be ready to go to CQSD by the end of the day tomorrow, so I don't want to enter into a new round of negotiations with Torys.

Thanks again, Malle. I really appreciate having you and Toby on our side.

Gadi

Hi all,

Torys has invited Steve, MOF LSB and Energy LSB to a call tomorrow morning for the lawyers to go over the changes that were made to the term sheet so that they can better understand them. We think it would be helpful to discuss the wording with them directly so Toby and I propose to join the call unless there any concerns about it. It may be constructive for us to discuss the wording directly with Torys and then we would report back to you with on the call. We might also get a better idea of how the guarantee timing will fit in with the timing of the proposed debt issuances. Please let us know if you have any concerns about this.

Malle

Subject: FHP Support Agreement OIC Draft

Please find attached, for your review and comment, a draft OIC authorizing the Minister of Finance and the Minister of Energy to give a guarantee/indemnity under the Fair Hydro Plan Act.

This draft gives a lot of authority to the Ministers to determine the scope and content of the guarantee. It would be helpful to consider whether additional terms and conditions (including a maximum amount or other limitations) should be included.

---

In terms of timing, one thing that I didn't mention yesterday about my conversation with Ken H is that he told me that their timing is even tighter than ours. On their critical path, they feel that in order to get the financing done this calendar year, they have to re-engage with the rating agencies next week. A critical part of that re-engagement includes providing a draft version of the term sheet. That won't work if we're still negotiating it with them, so our runway for tinkering is done, and Torys is just going to have to accept that what we've provided is the best deal they're going to get.

Regards,
Gadi

> OPG doesn't have a full financing plan at this time. I believe they are hoping to firm up numbers from Energy fairly shortly, before they meet the ratings agencies. They are currently thinking of issuing $300 to $500 million in late September/early October. Roughly $125 million of this will be to fund the subordinated (5% requirement on roughly $2.5 billion of annual funding). The senior debt (the 51% that we are focussing on) is roughly planned for late November with roughly $400 million of issuance and then follow-up issuance on a fairly regular basis thereafter.  Hope this is helpful.

Dear James,

During the discussions of the Provincial guarantee at a recent Thursday rate mitigation meeting, OPG raised the issue of potential acceleration of financing entity debt where the guarantee is not applicable. That would occur if there is an event of default (e.g. if the trust is not able to pay/service the debt) for a reason that doesn't trigger the guarantee (e.g. for a reason other than a change of the legislation).

When there is an acceleration, all of the principal amount becomes due and a large payment would need to be made by the financing entity to bondholders. If the acceleration occurs after the moratorium period, the amount payable to bondholders would be put through the Clean Energy Adjustment to specified consumers. That could result in a significant increase in consumer bills in a short period of time.

We understand that the Province may not want consumers to experience such a sharp bill increase. We discussed the Dealers whether the Province could be given the option to cure an event of default of a financing entity before it results in acceleration of debt. The Dealers were amenable to providing this option.

When we raised this possibility, the Province indicated it would like to have such an option, and asked us to put together a note describing the terms.

Please find attached a note describing the proposed terms of the option.

Let us know if you have any questions or comments, or if this should be directed to someone else.

Regards,

Les

I'm entirely in line with your thoughts, Mike. My understanding is that vote whole reason that they had to do their own debt was to put risk on themselves, not transfer it all over to the Province.

No it wouldn't, but that is a good question. I have been assuming that the provincial support agreement would only apply to the 51% senior debt, but OPG just let me know that the subordinated debt will be quite a bit more expensive without a provincial support agreement. Roughly, they currently estimate that the senior debt will be priced 20-25 bps over the Province of Ontario. The subordinated they see about 100 bps back of the Senior if it has a provincial support agreement. They are now indicating, based on dealer feedback, that without a provincial support agreement, the subordinated will be about 100-200 bps more expensive if it doesn't have a provincial support agreement. Anyway, I don't think we should be expanding the support to the subordinated debt as this will greatly increase the Province's exposure. We may have to address ways to keep the subordinated more cost-effective. Thoughts appreciated.

Mike

OPG doesn't have a full financing plan at this time. I believe they are hoping to firm up numbers from Energy fairly shortly, before they meet the ratings agencies. They are currently thinking of issuing $300 to $500 million in late September/early October. Roughly $125 million of this will be to fund the subordinated (5% requirement on roughly

$2.5 billion of annual funding). The senior debt (the 51% that we are focussing on) is roughly planned for late November with roughly $400 million of issuance and then follow-up issuance on a fairly regular basis thereafter. Hope this is helpful.
Regards, Mike

Subject: Fair Hydro - Option for Province to Cure Default before Acceleration of Debt

Dear James,

During the discussions of the Provincial guarantee at a recent Thursday rate mitigation meeting, OPG raised the issue of potential acceleration of financing entity debt where the guarantee is not applicable. That would occur if there is an event of default (e.g. if the trust is not able to pay/service the debt) for a reason that doesn't trigger the guarantee (e.g. for a reason other than a change of the legislation).

When there is an acceleration, all of the principal amount becomes due and a large payment would need to be made by the financing entity to bondholders. If the acceleration occurs after the moratorium period, the amount payable to bondholders would be put through the Clean Energy Adjustment to specified consumers. That could result in a significant increase in consumer bills in a short period of time.

We understand that the Province may not want consumers to experience such a sharp bill increase. We discussed the Dealers whether the Province could be given the option to cure an event of default of a financing entity before it results in acceleration of debt. The Dealers were amenable to providing this option.

When we raised this possibility, the Province indicated it would like to have such an option, and asked us to put together a note describing the terms.

Please find attached a note describing the proposed terms of the option.

Let us know if you have any questions or comments, or if this should be directed to someone else.

Hi Malle, we have asked Osler to accelerate circulation of the draft supplemental indenture for the long term debt — we hope to have that by mid-week and will send it you on receipt. As with the supp for the short term debt, the draft will not have been reviewed by Torys or OPG but in the interests of time, we will circulate it to you concurrently. We will also start including you on any circulations of revised drafts of the other agreements. Unless we hear differently, we will include you, Toby, Alena and Steve.

Regarding timing, we understand that the short term facility would close very soon after the long term issuance (from a workload perspective, we are treating them as closing almost concurrently). Closing of the long term debt is targeted for the first week of December and closing of the short term debt is targeted for the second week of December. Marketing of the long-term debt would occur in late November but only once we have concluded the rating agency process. The dealers have advised us that the rating agencies will be interested in understanding the change of law agreement in particular, which is why we have been focused on having that agreement circulated and substantially settled with the dealers and their counsel as soon as possible.

Please feel free to reach out if you would like to discuss live.

Thanks,
Rima

<Malle.Hanslep@ontario.ca<mailto:Malle.Hanslep@ontario.ca>> wrote:

Hi Nina,

We do think that it is important for the wording of the protection agreement to appropriately encompass the financing and various instruments that are to be guaranteed by the Province should one of the events as set out in the term sheet occur. The Province has not determined whether the approach suggested to separate the two documents is appropriate. If it is the proposed long term financing that is planned to be done by year-end and there is a desire to substantially settle the terms of the Protection Agreement by the early November, I don't understand why a draft of the long term financing supplemental indenture would not be available for review yet.

When is it expected that the warehousing facility would be put in place?

Thanks.

Malle

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thanks for your email. Based on the term sheet, since the Province isn't guaranteeing the obligations under these agreements but only stepping in if there is a change of law "protection event", we did not expect the drafting of the Change of Law Protection Agreement would be implicated by these other agreements (particularly now that we have proposed dealing with the Province's approval of the various program agreements in a separate procedures document). We also understand that in order to be in a position to close on a financing before year end, the Change of Law Protection Agreement needs to be substantially settled by early November. If that is still the case, then we expect the dealers and their counsel will need to see a draft in this coming week.

In the interest of time, we have attached an initial draft of the supplemental indenture for the warehouse facility which, as noted previously, has not yet been reviewed by OPG and Torys. The supplemental for the long term financing will be a simpler document - with mechanics for issuing the notes and pricing information but likely no additional covenants and events of default and no drawdown mechanics like the warehouse facility.

We will start copying the Province and Blakes on circulations of all documents going forward. Please let us know if the entire team on this email should be copied or only Blakes and the Provincial legal team.

Best Regards,
Nina

Nina,

We are working on a draft of the Change of Law Protection Agreement, but cannot complete the drafting until we have seen a draft of the Supplemental Indenture and the other instruments that are to be guaranteed.

We are also working on drafting some responses and comments to your comments from Wednesday on the approval process document, and will get back to you with those soon.

Best

Toby

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Many thanks,
Nina

Nina Mansoori

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Best Regards,
Nina

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Best
Toby

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence -that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt -the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts) -the negative pledge with respect to the exercise of certain options on the debt -the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

* The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect

to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

* In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

* Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
* We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
* There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
* We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement

(blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Best Regards,
Nina

Nina Mansoori

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

**Accounting Issues:**
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

**Practical Issues:**

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

**Drafting Issues:**

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded?

Please advise why taxes are being excluded?

- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

**Obligor Approval**

The Change of Law Assumption Agreement will apply to all Specified Claims

relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Nina,

We are working on a draft of the Change of Law Protection Agreement, but cannot complete the drafting until we have seen a draft of the Supplemental Indenture and the other instruments that are to be guaranteed.

We are also working on drafting some responses and comments to your comments from Wednesday on the approval process document, and will get back to you with those soon.

Best

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Best Regards,
Nina

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Best
Toby

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

* The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
* In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

* Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
* We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
* There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
* We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into

the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a “Two Year Forecast”). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor’s approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Ron is correct, essentially if the protection agreement kicks in the Province assumes responsibility for all payments to swap counterparties.

Thanks

Ken k

**Subject: RE: Fair Hydro -- Change of Law Assumption Agreement**

Good Morning Malle,

In terms of Program Agreements, here is an update:

-we have previously circulated the MTI and MTSA to Blakes. Both of these agreements are in mid-turn but we will send you the next circulation of these agreements once available.

-we received an initial draft supplemental for the warehouse facility on Tuesday from the dealers' counsel. We have not yet reviewed it nor have we discussed it with Oslers so we will send you the next circulation of this document.

-I am attaching the most current versions of the Declaration of Trust and the Management Agreement (which are subject to the continuing review of the working group).

-we'll have a form of ISDA Schedule to you soon.

-we don't expect to have a substantially advanced draft of the OM to share until November.

Please let me know if you have any questions.

Best Regards,

Nina

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Hi Nina,

We will be reviewing your comments and mark-up.

On a related point, do you have available yet drafts of any of the other agreements that will be required in connection with a proposed issuance by the financing entity and that we have previously discussed and requested copies of such as a draft supplemental indenture, draft disclosure documents, drafts of other agreements referenced in the master trust indenture to the extent they would be used in or related to an issuance by the Financing Entity etc. The Protection Agreement is proposed to work in the context of these other agreements and this would provide a better context for review by the Province. If they are not yet available, when are they expected to be available?

Thank you.

Malle

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Best Regards,
Nina

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Best

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,

Nina

**Accounting Issues:**

E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt

-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)

-the negative pledge with respect to the exercise of certain options on the debt

-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical

guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

**Practical Issues:**

- <!--[if !supportLists]-->?<!--[endif]-->The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- <!--[if !supportLists]-->?<!--[endif]-->In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

**Drafting Issues:**

- <!--[if !supportLists]-->?<!--[endif]-->Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.

<!--[if !supportLists]-->?<!--[endif]-->We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?

<!--[if !supportLists]-->?<!--[endif]-->There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.

<!--[if !supportLists]-->?<!--[endif]-->We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

**Obligor Approval**

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.
In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:
(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.
Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.
It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:
(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects,

respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.
(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.
(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.
(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.
At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Best

**Subject:** RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual

comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,

Nina

**Accounting Issues:**

E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt

-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)

-the negative pledge with respect to the exercise of certain options on the debt

-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

**Practical Issues:**

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province

under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

**Drafting Issues:**

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

**Subject:** Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

**Obligor Approval**

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;

(ii) the management agreement between the Financing Entity and OPG;

(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;

(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;

(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;

(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;

(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and

(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.
(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.
(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.
(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.
At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Malle and I just went over this and had a good discussion. She's going to share this list with Steve and talk to him about what we think is important and what isn't. Mike and I had a conversation just before I spoke to Malle, and the Force Majeure may not be an issue after his conversation with John Lee, and Malle felt that having the Trustee sign the agreement was important. As for the rest, she will have to give it some thought and analysis.

Thanks for all of your help on this.

**Subject:** For our discussion

Process Agreement

- 2.01 Deliveries to the Province
  - No concerns with removing PILS/tax language
- 2.02 Covenants
  - First use of *commercially reasonable efforts* and then throughout
  - Need legal opinion on whether to change to *best efforts*
- 2.02 (b) (iv) Province to review any description of the protection agreement
  - No concerns with this deletion
  - OPG likely to use boilerplate description of the guarantee
- 2.02 (c) Indemnity
  - No concerns, likely a requirement for OPG Board
- 4.01 Protection Agreement Maximum
  - CRITICAL – we can be flexible on the wording but we can't agree to removing Provincial approval of a maximum – compromise option would be to use the Financing Plan number as the Protection Agreement Maximum, the plan will be reviewed by MOE and the assumptions rigorously vetted.
  - Subject to OPCD review/input
- 5.02 Reps and Warranties of the Province
  - No concerns

Protection Agreement

- Need to review the Indemnity Agreement
- 1.17 References to the Financing Entity

    - No concerns with removing Trustee
- 2.09c Modifications of Approved Obligations
    - Why not seek consent of the Province when changing its obligations?
- Article V
    - Edit title to ***Provincial*** *Matters*
- 5.01 Assignment and Subrogation
    - Why remove the subrogation after the Province has taken on the obligations?
- 7.04 Release of All Collateral
    - What is meant by collateral? Would it include sinking funds? If it does, the Province should get the sinking funds, not leave them with OPG
- 9.07 Force Majeure
    - Why remove the Force Majeure clause?

**Subject: RE: KMs and Q&As**

Hi everyone,
Attached is an updated deck based on a discussion with our MO this afternoon. This version also incorporates comments from TBS. There is also a place holder for IESO input on its slide.
We've sent IESO the slide for feedback and input. The text that is currently on IESO's slide was from TBS. We will share a new version once we receive that input.
The QAs will likely come Saturday as folks are working to consolidate the input we received from the OFA and TBS.
For Monday morning's meeting we will use the technical deck and QAs.
Thanks,
Martin

**Subject:** KMs and Q&As
Hi guys,
In anticipation of an impending release of the AG report, our Chief has requested key messages and Q&As for our Minister by 4:00 tomorrow.
I suspect these materials would benefit our Ministers equally, so I'd like to suggest we divvy up the responsibility the same way we did for the speaking points, addressing the key assertions of the report, and then I'll compile.
-ENE: financing and policy intent
-OFA: financing
-TBS: accounting
Would you guys be amenable to providing material to me by 2:30 tomorrow? I'll then flip to everyone and we can share with our respective MOs.
Thanks,
Dave

**Subject:** FW: KMs and Q&As
Good afternoon,
Ministry of Energy has taken the lead on preparing Q&As (attached) to support our Ministers upon release of the AG's report on the Fair Hydro Plan (release is expected to be imminent). Energy has asked OFA to review the highlighted question on page four, which they've pulled from speaking points the OFA prepared for Minister Sousa. Gadi, I note they've taken the response verbatim from what we submitted, so I don't expect it will require further editing; however, there could be other questions that the OFA would like to weigh in on.
Please review the attached and send me your edits in track changes by 3:00pm. Ali has asked for materials by 4:00pm today.
Thank you, Anna

It would seem to make more sense to go with 17-18 numbers consistent with Estimates, unless Energy and TBS have a good rationale to do otherwise.
> > I believe the pro-rated numbers were also provided to the FAO when we were interacting with FAO staff prior to the FAO report in the spring.
> > On slides 5 and 9, should the last bullet be amended? I'm not sure "consulted with" is the right way to position the role of third party, external auditors (KPMG and E&Y). It might be better to have separate sentences or bullet for describing the role of the external auditors. Ken

and OPCD may have a view on that.
On slide 8, the first bullet, I think the distinction between OPG and the financing entity should be maintained – “sold to a financing entity (e.g., a trust ) established by OPG….”

**Subject:** RE: KMs and Q&As
Hi Folks,
Here is an initial draft for folks to work on. We have highlighted a couple in yellow that pertain to OFA / TBS (these were crafted based on the Minister's speaking remarks). Can we please work of this version as a base and track changes. Please add questions as necessary.
Please note these are not Deputy or MO approved on our end so please treat as appropriate and expect changes.
Thanks,
Martin

**Subject:** KMs and Q&As

Hi guys,

In anticipation of an impending release of the AG report, our Chief has requested key messages and Q&As for our Minister by 4:00 tomorrow.

I suspect these materials would benefit our Ministers equally, so I'd like to suggest we divvy up the responsibility the same way we did for the speaking points, addressing the key assertions of the report, and then I'll compile.

-ENE: financing and policy intent

-OFA: financing

-TBS: accounting

Would you guys be amenable to providing material to me by 2:30 tomorrow? I'll then flip to everyone and we can share with our respective MOs.

Thanks,

Dave

Hi John:
Is there a time today that you would be available for such
a working session? Obviously quite a few people on our side will need to be involved and some coordination involved. I'm assuming this version incorporates input from your dealers. It would be useful to get the markup as soon as possible and may be useful to have a quick chat on the business issues prior to the business session.
Regards, Mike

Yes, everyone who has an interest in this should be there or on the phone, including Blakes, as the Deputy of TB just made it very clear that this has to be resolved this morning especially as this is going to TB now on the afternoon of the 25th not the 26th to accommodate their appearance at Estimates. This morning's discussion will have to be the last one on this topic.

**To:** Mike Manning
**Subject:** OFA role in reviewing fees

Hi Mike,
DM of Energy was interested in whether OFA could play a role in reviewing the OPG trust fee structure on an ongoing basis. As you may know, Energy and OPG have been discussing how fees to act as financial services manager for the trust will be set for some time. OPG would like to use a traditional asset manager model (management fee based on AUM + performance fee). Energy would prefer to replace the fixed management fee with a "cost +" model that is reviewed and approved by the OEB.
Energy has received strong push back from OPG from an accounting perspective on this model and on OEB oversight. The DM was blue-skying and wondered whether OFA could step into the role of reviewer of the fee structure to ensure it was reasonable. This would help with optics and hopefully result in a more reasonable cost to ratepayers on an ongoing basis. I think OFA will be doing something similar on sub-debt so wondered if that could be extended.
I realize Gadi will need to weigh in on this, but if you have any preliminary thoughts that would be helpful. We have a meeting tomorrow AM with the broader group on OFHP and I will be asked this question. Any early insights would be much appreciated.
Thanks,
Scott

Subject: Possible DM Briefing on Monday

Stephen, Malle, Toby,

Just a head's up, our DMO will likely be organizing another meeting with the three Deputies (Finance, TBS, Energy), on Monday, November 20, likely sometime between 11am and 12:30pm and likely somewhere in Macdonald Block (900 Bay Street). The purpose of Monday's meeting will be to bring everyone up to speed on the outstanding issues on the Protection/Process Agreements. I expect an invite to follow, but you may want to hold that time in your calendars for now.

Thank you,

Anna

>

>
>
> 8. We need to understand exactly what is contemplated by an obligation to pay under the heading “Obligation to Pay Specified Claims” versus the option to assume under the heading of “Optional Assumption”. We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.
>

A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?
>
>
>
> 10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

Not too surprised. Lots of issues to be ultimately dealt with. I'm hoping we can get an Agenda for the meeting to keep things on track.

Subject: Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate." Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.

5. The requirement that the change of law have a "material" adverse effect is not acceptable.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations

by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

Thank you Toby. Attached are a few comments from Torys on your re-draft of the term sheet (clean and blacklined to your version – please note that the formatting is not always clear on the blackline but the clean version is fine). One minor note on our comments – you will see that we reinserted the words “or amends” in para (C) of the definition of a Protection Event. If this was deleted because you view this as already being covered in para (D), then we are OK with the deletion.

Please note that the attached only represents Torys comments and does not reflect input from the dealers/Osler. we have sent the Osler Team your re-draft of the term sheet for their review and consideration and, in the interests of time, are cc’ing them on this email so they can also see our comments.

Best,
Rima

Hi all,

We have been reviewing the two agreements over the week-end and had call with Energy Legal and Blakes this morning. We understand that a meeting will be scheduled for tomorrow with the full group to get further instructions on the draft with Blakes' comments that was distributed to the group on Friday for review. We will use the drafts from Friday for the purposes of our meeting tomorrow because they outline the points for our consideration. Thanks.

Carlos (OFA); Cengarle, John (MOF); Katona, Keley (MOF); Donaldson, Mark (TBS); Zahid, Usman (OFA); Hirani, Anis (OFA); Kim, John (OFA); McKinlay, Tom (MAG); Thouin, Alena (ENERGY); 'stephen.ashbourne@blakes.com'; Gavaris, Hresa (OFA); John Psinas; Hume, Steen (ENERGY); Cayley, Daniel (ENERGY)
**Subject:** RE: Provincial Protection and Process Agreements | OFA, OPCD, MOF, Energy, Legal Counsel

Please find attached for discussion at our meeting this afternoon Blake's comments on the OPG/Dealer's comments. There are two versions. One shows a blackline against the OPG/Dealer's comments, and the other shows a blackline against what we circulated last week. Note that Stephen has not had a chance to review these in detail, so these are preliminary comments that are subject to further consideration and discussion.

Subject: RE: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi Malle,

Thank you for your thorough and thoughtful review.

Just getting back to you now on your two comments:

· The TB analyst has asked whether to minute the attachment or to include key parameters of the term sheet in the minute – I'm inclined to stick with referring to the term sheet in the minute. The language in the term sheet was "litigated" enough that I fear misrepresenting any parameters when they are summarized for the purpose of a minute. I agree with you that recommending TB approve the Ministers entering into the agreement, based on the current term sheet, would remove the possibility of subsequent revisions to the term sheet.

· Attaching a draft of the OIC to refer to in the minute – I don't think this is required, nor is it typically done, but we could certainly provide the draft to James for his reference.

Anna

Subject: RE: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Here are my comments on the analyst's note.

p. 1 Recommendations
- second recommendation, remove "to" after "Ministry of Energy"
- third recommendation, should this refer to the draft OIC that is attached. Don't know whether the TB submission itself references a draft OIC being attached?

p. 2 "What would trigger the protection agreement?"
- second bullet re: court decision, change wording from "invalid or unenforceable" to "invalid or ultra vires" to

match most recent version of term sheet
- third bullet – the third event has now been inserted into the term sheet as “there is a change in the organization or structure of the IESO or Ontario’s electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interst so that it can pay its funding obligations.

p. 4 See the comments in the proposed first minute asking whether there is a desire to minute the attachment or to include key parameters in minute only given the request for a “subject to revisions provision”. I am not sure how we wish to answer this question. Putting in only key parameters would broaden the 2 Ministers’ discretion to agree to revisions to the term sheet. Possibly if we were to do this, are the essential parameters really the “Protection Events”, and “Obligation re: pay specified claims? Comments on this?

p. 4 Regarding second minute – should it reference a draft form of OIC attached?

Regarding the questions posed by the analyst, here is a start on some of those.

1. Third trigger is in now.

2. Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt [need description of interest rate swaps and what might be done here – fix floating rate debt – anything else?]
3. The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period….
4. The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Subject: Fwd: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Good morning,

Please find attached, the draft TBS Assessment note on the Provincial Protection Agreement. Please review and provide comments to me by 3:00pm this afternoon and I will consolidate comments for Gadi's review.

With respect to James' questions, I'll follow up separately and I expect some will be answered in the updated draft of the submission (with final term sheet).

Thank you, Anna

Subject: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC
Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

· Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify.

o Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope?

· What are derivative agreements? Payments under derivative agreements?

· Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market?

· Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA?

Thanks in advance,

James Strang

**Subject:** Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three

triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.

- Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.

- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.
- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

James Strang

| | TREASURY BOARD / MANAGEMENT BOARD OF CABINET REQUEST ASSESSMENT NOTE | |
|---|---|---|
| **Ministry:** | Energy & Finance | |
| **Meeting Date:** | September 26, 2017 | |
| **Agenda Class:** | Discussion (In-Camera) | |
| **Last reviewed by:** ENERGY<br>TB/MBC May 9, 2017 | **Tracking to:** Fast Track<br>Cabinet (September 27, 2017) | |

**Commented [KR(1]:** Why is this included? Usually Cabinet or its committees are put here.

| **SUBMISSION TITLE:** | ~~Change of Law~~Provincial Protection and Assurances Agreement (Supports Ontario's Fair Hydro Plan implementation) |
|---|---|

## I. DECISION BEFORE THE BOARD

Approve the Ministries plan for implementing provisions within the ~~O~~*ntario Fair Hydro Plan Act, 2017* (FHPA) to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by one or more financing entities established by Ontario Power Generation Inc. under the FHPA.

## II. RECOMMENDATIONS

| | |
|---|---|
| Approve the plan for implementing provisions of the ~~Ontario~~ *Fair Hydro Plan Act, 2017* (FHPA) to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by entities established by Ontario Power Generation Inc (OPG).<br><br>– Under certain circumstances, the Province would pay, when due, amounts in respect of the obligations of the Financing Entity (~~E~~established by OPG) | *Approve* |
| Authorize that the Minister of Finance and Minister of Energy ~~to~~ provide a protection and assurance agreement, to be authorized by Order in Council under the ~~Ontario~~ *Fair Hydro Plan Act, 2017*(FHPA).<br><br>– In respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two Ministers acting together may determine | *Authorize* |
| Recommend that Cabinet approve an Order in Council (OIC), in accordance with section 5 of the ~~Ontario~~ *Fair Hydro Plan Act, 2017* (FHPA) that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,<br><br>– ~~to~~ To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and<br>– ~~to~~ To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity. | *Recommend* |

**Commented [ESP2]:** This item is not up for approval per the TB Sub.

## III. FINANCIAL SUMMARY

| **$ Millions** | **2017-18** | **2018-19** | **2019-20** |
|---|---|---|---|
| Initiative cost requested | 0.0 | 0.0 | 0.0 |

| | | | |
|---|---|---|---|
| Initiative cost recommended | 0.0 | 0.0 | 0.0 |
| Recommended program base | 0.0 | 0.0 | 0.0 |
| Offset Recommended | 0.0 | 0.0 | 0.0 |
| Total Fiscal Impact | 0.0 | 0.0 | 0.0 |

## IV. KEY COMMENTS AND CONSIDERATIONS

Under the ~~Ontario~~ *Fair Hydro Plan Act, 2017*, (~~O~~FHPA), which enables Global Adjustments (GA) Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap during the deferral period, resulting from the reduction in GA amounts collected. The legislation enables IESO to record the under-collection amount of GA in a variance account, ultimately recover this amount in the future, and ~~deems~~provides for the establishment of this under-collected amount to be a "Regulatory Asset".

The OFHPA provides for ~~the~~ IESO to sell all or a portion of the Regulatory Asset (i.e., to sell the right to recover those deferred amounts from specified consumers in the future). Under the ~~O~~FHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG, as the Financial Services Manager under the ~~O~~FHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly the Province) from the capital markets.

OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a ~~change of law~~ protection and assurance agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

- Providing this~~, in a May 2017 TB/MBC item reviewing proposed FHPAOntario Fair Hydro Plan legislation,~~ through Provinciale assurance and guarantee provisions~~,~~ was recommended in a May 2017 TB/MBC item reviewing the proposed FHPA.

*What would trigger the protection agreement?*

Ontario Financing Authority (OFA), the Ministry of Finance, Ministry of Energy and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances (Appendix C provides the non-binding term sheet):

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the ~~O~~FHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or ~~*unenforceable*~~*ultra vires*; and
- A change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interest so that it can pay its funding obligations~~Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt~~

**Commented [KR(3]:** Why isn't Energy listed?

**Formatted:** Font: Italic

**Formatted:** Font color: Black

**Commented [KR(4]:** Should it state somewhere that materiality thresholds/definitions are to be established wrt "adversely"?

**Formatted:** Font color: Black

**Formatted:** Font color: Black

~~obligations~~.

~~*Note: this third protection event is not included in the current draft of the term sheet agreed to by Ministry of Finance staff; however, OPG is expected to continue to negotiate for its inclusion. It has been included in the TB submission, but may be removed once negotiations are complete, prior to TB/MBC consideration of this item on September 26, 2017.]*~~

*….the third bullet isn't change of Law related?…*

**Commented [AS5]:** May or may not be the result of a change of law.

*Financial:*

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of Ontario's Fair Hydro Plan (OFHP) ~~the OFHP~~ and peak at approximately $20B ~~an estimated $24B to $26B~~ of debt (final cost forecasts TBC), including principal and accumulated interest.

**Commented [HS(6]:** This is inconsistent with the Aug 31 Submission

Thought the estimated debt # was lower?

- In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

*Financial (Risk) – In the event the protection agreement is triggered:*

The Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers. This would likely have implications for the Province's fiscal plan and appropriation requirements.

- The Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. The worst case scenario would be the Province assuming the debt at its peak at which point interest on debt (IOD) expense could increase by an estimated between $0.7~~8~~B and $1.~~3~~0B per annum ~~(final cost forecasts TBC)~~, depending on the interest rate at which the Financing Entity will be able to borrow at and the total amount of borrowing (final cost forecasts TBC).
- In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged. In addition, the Province would ~~also~~ have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The Ministries indicate that if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (~~Interest On Debt (~~IOD~~)~~ expense) will depend on whether or not some portions of the OFHPA continue in some form, or not.

- For example if the ~~If the~~ payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not

to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used.
- Debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

## APPENDIX A: PROPOSED MINUTE (UNDER DEVELOPMENT)

Approve the Ministries' plan for implementing provisions of the ~~*Ontario*~~ *Fair Hydro Plan Act, 2017* to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by entities established by Ontario Power Generation Inc. In particular, that under certain circumstances the Province would pay when due amounts in respect of the obligations of the Financing Entity (Established by OPG).

In this regard,

i) Authorize that the Minister of Finance and Minister of Energy provide a protection agreement, to be authorized by Order in Council under the ~~*Ontario*~~ *Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out non-binding term sheet – Provincial Protection and Assurances Indicative Term Sheet including in the TB/MBC Submission, (… minuting an attachment?…or include key parameters in minute only, given request for the subject to revisions provision…) and subject to such revisions that the two ministers acting together may determine;

ii) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the FHPA~~Ontario Fair Hydro Act~~, that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

   a) ~~to~~ To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
   b) ~~to~~ To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

**Commented [AS7]:** Recommend referring to the attachment rather than key parameters (limit potential revisions to the term sheet)

## APPENDIX B: FINANCIAL TABLES

## APPENDIX C: EXCERPT FROM ~~ONTARIO~~ *FAIR HYDRO PLAN ACT, 2017*

Protection and assurances

Prohibition

**5** (1) No action or omission by the Board, the Minister or the Crown shall be effective to reduce, impair, postpone or terminate the obligations of specified consumers to pay amounts in respect of the clean energy adjustment or to impair or postpone the invoicing, collection or remittance of the clean energy adjustment.

Agreements

(2) The Minister and the Minister of Finance may together, with the approval of the Lieutenant Governor in Council, enter into agreements on behalf of the Province of Ontario with any person in respect of this Act, including agreements regarding the performance of the IESO or electricity vendors under this Act or related transactions.

Guarantee, indemnification

(3) The Lieutenant Governor in Council may by order,

(a) authorize the Minister and the Minister of Finance, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and

(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity;

(b) specify terms and conditions that must be included in any guarantee or indemnity given by the Minister and the Minister of Finance; and

(c) specify a maximum liability for the guarantee or indemnity.

## APPENDIX D: NON-BINDING TERM SHEET

Commented [AS8]: Update to Sep 18 version

### APPENDIX

**Provincial Protections and Assurances**

**Indicative Term Sheet**

**Ontario Fair Hydro Plan Act, 2017**

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

| | |
|---|---|
| **Change of Law Protection Agreement:** | A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together. |
| **Indenture Trustee:** | An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture. |
| **Beneficiaries:** | The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims. |
| **Specified Claims:** | Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval. |
| **Protection Events:** | Any of the following would constitute a Protection Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute;<br>(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or<br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council |

| | |
|---|---|
| | makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*),<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to Pay Specified Claims:** | Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |
| **Subrogation:** | Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent. |

| | |
|---|---|
| **Optional Replacement:** | At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim.<br>The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims.<br>The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required. |
| **FIPPA:** | The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |

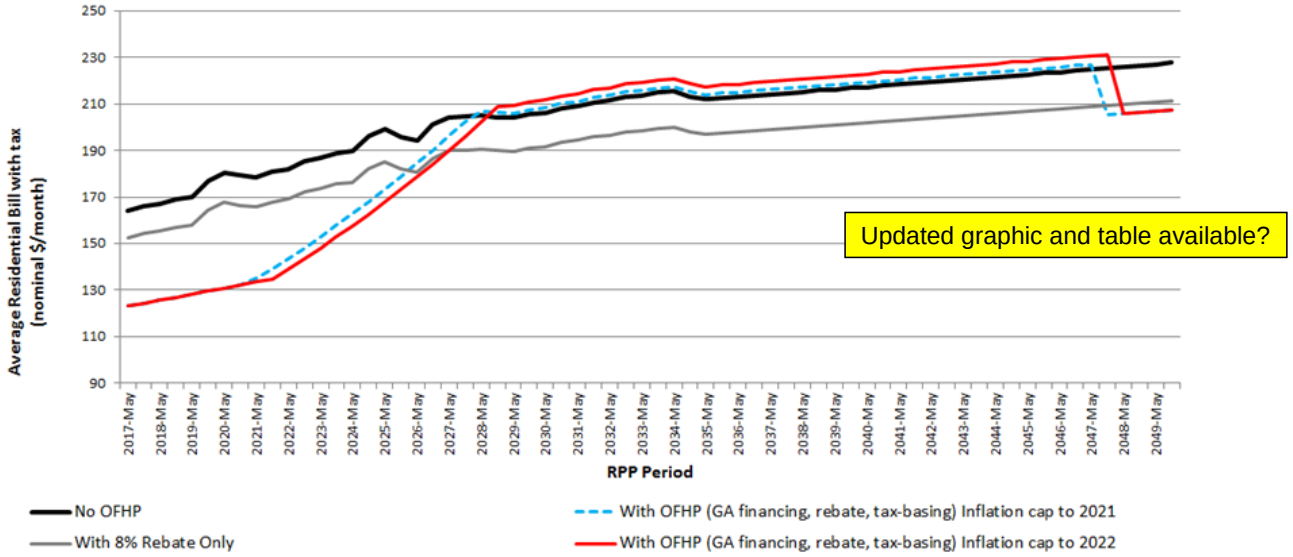
| | |
|---|---|
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

## APPENDIX E: PROFILE GLOBAL ADJUSTMENT SMOOTHING FOR RPP – ELIGIBLE ONLY – MAY 2017 TB/MBC SUBMISSION

Commented [HS(9]: Recommend that we don't include this reference.

The following graphic and table shows the multi-year profile of the planned approach to GA Smoothing that was included with the May 2017 TB/MBC Submission. The table below supports the Ministries assessment that the potential contingent liability under the protection agreement over the duration of the OFHP would peak at an estimated $24M to $26B (subject to final cost forecasts TBC), including principal and interest.

Commented [ESP10]: These numbers and the table below are pending finalization of costs forecasts – this work is still ongoing with OPG.



Updated graphic and table available?

**Notes:** Assumes 30 year financing period and a nominal interest rate of 5% (compounded monthly). Ratepayer GA payments increase annually beyond 2020 such that the average monthly residential electricity bill increases by 6.3% per year to a maximum of $2.2 billion above the true cost of GA in any given year to cap repayment charges at around 10% of total bill. IESO forecast is based on IESO's revised OPO forecast as of February 2017. Includes the cancellation of LRP II and EFW, expansion of ICI. Does not include smoothed OPG rates. Above residential bill is based on a 750 kWh per month Toronto Hydro customer. Data shown above is by RPP period. Assumes RPP prices are adjusted in July 2021 instead of May 2021 to coincide with the end of the inflation cap. Fair allocation amounts subject to third party review.

## APPENDIX F: OVERVIEW OF RISKS

Prepared by TBS staff, the following chart, as part of the May 2017 OFHP implementation update focused on the proposed legislation. It provides an overview of strategic (versus operational) risks to inform the approval/decision making process regarding the proposed legislation. Each part, GA Partial Refinancing & Electricity social programs, is a separate table.

The current submission, ~~Change of Law~~ Provincial Protection Agreement, is reflected under the risk "Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding" (page 16) as part of risk mitigating strategy.

*Global Adjustment Partial Refinancing:*

**Objective:** Provide immediate ratepayer relief by capping rate increases at Consumer Price Index (CPI) for four years and refinancing GA costs over a longer period of time. Develop and implement a financing structure that increases provincial borrowing, but has no impact on annual provincial surplus/deficit.

| Risk | Level of Risk | Risk Response |
|---|---|---|
| The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA smoothing being allocated to the province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Critical<br>**Time Scale:** 6 to 12 months<br>**Rationale:**<br>• The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit.<br>• The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met.<br>• If a favourable legal and accounting treatment is not implemented, there could be a negative impact on the province's fiscal plan up to $2.5B in 2017-18 and rising.<br>• Rating agencies and investors in the Province's debt may view all of the borrowing as an obligation of the Province, especially taking into account the nature of provincial guarantees, which could put pressure on the Province's credit rating and overall borrowing capacity.<br>• Proposed structure may result in a negative response from Ontario Auditor General (OAG) due to previous concerns regarding recognition of rate regulated assets and liabilities. The AG has already expressed concerns regarding the accounting treatment on the IESO's books which could lead to a qualification of the Province's consolidated financial statements.<br>• Initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. | Risk can be mitigated by:<br>• Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to justify structure of financial model and be utilized in discussions with the OAG.<br>• Identify potential options to minimize the balance of rate regulated assets remaining on the IESO's books at fiscal year-end. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province. | **Risk Likelihood:** Likely<br>**Risk Impact:** Major<br>**Time Scale:** More than 36 months<br><br>**Rationale**<br>• The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model).<br>• The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the financial impact of potential changes in variables used in the financial models.<br>• Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases)<br>• Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans. |
| A legal determination that the Province is spreading the costs of GA financing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional. | **Risk Likelihood:** Medium<br>**Risk Impact:** High<br>**Time Scale:** Long-Term (More than 36 months)<br><br>**Rationale**<br>• If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments.<br>• Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized.<br>• Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI.<br>• If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required. | Risk can be avoided by:<br>• Imposition of a valid tax.<br>• Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase).<br>• Use of public funds to ease pressure.<br><br>Risk can be mitigated by:<br>• Improve forecasting model and close monitoring of costs and changes in variables built into model.<br>• Analyze the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure.<br>• Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Financing the costs of GA smoothing through OPG SPV/Trust and the volatility of interest rates may increase the cost of GA smoothing and/or require additional provincial funding. | **Risk Likelihood:** Possible<br>**Risk Impact:** Moderate<br>**Time Scale:** 12 to 24 months<br><br>**Rationale**<br>• The proposed structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on interest rate for borrowing, the amount of equity/funding the province may need to provide and the requirement for a provincial guarantee.<br>• As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing.<br>• If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047.<br>• Beyond 2022, when steep increases are required, there will likely be additional pressure on the government to offset a part of the scheduled increases.<br>• Risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's ratings and cost of borrowing. | Risk can be avoided by:<br>• Province providing a potential guarantee for the cost of borrowing – however, would redirect risk back to the Province and negate benefits of proposed financing structure.<br><br>Risk can be mitigated by:<br>• Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost.<br>• Proposed legislation to enable GA refinancing has been draft with input from third-party financers. Provides a 'narrow' provincial guarantee and ensuring that debt holders have the right of action against a future government to recover the amount outstanding including interest, fees, expenses and any damages. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA Refinancing having a fiscal impact to the province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Critical<br>**Time Scale:** 6 to 12 months<br><br>**Rationale:**<br>• The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit.<br>• The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met.<br>• If a favourable legal and accounting treatment is not implemented, there would be a negative impact on the province's fiscal plan of up to $2.5B in 2017-18 and rising.<br>• Rating agencies and investors in Province's debt may view all of the borrowing as an obligation of the Province, which could put pressure on the Province's credit rating and overall borrowing capacity.<br>• The proposed structure may result in an opinion from the Ontario Auditor General (OAG) considering previous concerns regarding recognition of rate regulated assets and liabilities. The OAG may take this into account when the provincial books are audited.<br>• An initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. Additional analysis is still required. | Risk can be mitigated by:<br>• Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to support discussions of the financial model with the OAG. |
| Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province. | **Risk Likelihood:** Likely<br>**Risk Impact:** Major<br>**Time Scale:** More than 36 months<br><br>**Rationale**<br>• The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model).<br>• The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the financial models.<br>• Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases)<br>• Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| A legal determination that the Province is spreading the costs of GA refinancing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Time Scale:** Long-Term (More than 36 months)<br><br>**Rationale**<br>• If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments.<br>• Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized.<br>• Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI.<br>• If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required. | Risk can be avoided by:<br>• Imposition of a valid tax.<br>• Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase).<br>• Use of public funds to ease pressure.<br><br>Risk can be mitigated by:<br>• Improve forecasting model and ongoing monitoring of costs and changes in variables built into model.<br>• Analysis of the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure.<br>• Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court. |

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Time Scale:** 12 to 24 months<br><br>**Rationale**<br>• The proposed borrowing structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on the interest rate for borrowing, the amount of equity / funding the province may need to provide and the requirement for a provincial guarantee.<br>• As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing.<br>• There is a risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's own ratings and cost of borrowing.<br>• If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B (in the March 1, 2017 Cabinet Submission) is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047.<br>• Beyond 2022, when steep increases are required, there will likely be additional pressure on the province to offset a part of the scheduled increases.<br>• Fiscal impacts will be subject to fluctuations in Ontario electricity demand, GA and interests rates in the medium-to long term. As well as if a protection agreement is called upon:<br>o OPG, has advised that the Government of Ontario provide a change of law protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity. | Risk can be mitigated by:<br>• Providing a "provincial guarantee" for the cost of borrowing.<br>• Drafting legislation to provide assurance to OPG and investors regarding the permanence of the GA refinancing framework and the authority of the legislation to pass the legislation; and enable the Province to guarantee borrowing of the trust in the event of a market disruption.<br>• Specifics of a guarantee are dependent on the negotiation of agreements not yet initiated. Limiting triggers of a protection agreement to legislative (regulatory) changes and/or judicial decisions etc.<br>• Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost. |

*Electricity social programs (Enhancing Electricity Support & Conservation Programs):*

**Objective:** Shift funding of existing and new electricity support programs (RRRP, OESP, Affordability Fund, First Nations Credit) from rate to tax base.

| Risk | Level of Risk | Risk Response |
|---|---|---|
| Uncertainty in forecasting due to exposure to changes and/or volatility (i.e. interest rates, electricity usage patterns, and distribution costs) may result in higher than anticipated fiscal impacts for the Province. | **Risk Likelihood:** Possible<br>**Risk Impact:** Major<br>**Timescale:** 12 to 24 months<br><br>**Rationale:**<br>• The energy sector is complex and a number of key assumptions used as inputs into forecasting model are variables/forecasts themselves, resulting in a high inherent risk that cost estimates are inaccurate.<br>• Fiscal projection is highly dependent on factors which can fluctuate from year to year, including:<br>o electricity usage;<br>o distributions costs; and<br>o consumer consumption patterns that may change due to extreme weather or other factors.<br>• Fiscal projection is subject to knowledge of future distribution costs and dependent on submission of cost of service applications by Hydro One and LDCs.<br>o Enhanced RRRP may create disincentives from the eligible LDCs towards productivity and performance improvements and/or cause ineligible LDC's to drive up distribution costs to gain access to program. | Risk can be mitigated by:<br>• Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the forecasting models. |

Hi Ken,

I think Gadi's email addressed this too but understanding clearly was that we would share drafts with OPG.

> I had a call with Adrian Nalasco who is acting for Steen. He has indicated that along with Steen, Energy's Deputy is away so it is difficult for him to provide a formal go-ahead to us. I explained to him the time sensitivity and that we would have a discussion with OPG on an informal basis to get their feedback on the latest draft which

MOF Legal and Energy Legal have drafted. I gave him a bit of a background that OPG has had back and forth with us on previous versions of the draft.

With these caveats, Adrian is comfortable with various members of the OFA having discussions with OPG counterparts on the latest draft support agreement.

Thanks,

John

Hi Steen,

I'm sending the attached revised draft, non-binding term sheet on behalf of various parts of the OFA that are working on the Provincial guarantee / support agreement to support the OPG financing entity.

As you may have been informed, the attached draft term sheet was drafted jointly by MOF Legal, Energy Legal and Blakes' and is somewhat narrower in scope of the guarantee/support than the version that was provided by OPG in mid-August.

To discuss, we would like to host a meeting tomorrow, if possible, including your team and Energy Legal, MOF Legal and GBED. Also, Capital Markets folks here at the OFA are looking to share the draft term sheet with their counterparts at OPG. Pls. advise if you would have any issue with the sharing of the draft term sheet.

If you could advise of your availability, I would be happy to coordinate on behalf of everyone here at the OFA.

Thanks,

John

John,

Together with our outside counsel at Blake's and Energy Legal we have revised the term sheet further.

The attached note, prepared by Energy Legal is a good summary of the issues and where things stand.

I think the next step is to have you and Ron discuss this draft, and prepare to meet with staff at the OFA and Energy once Gadi returns next week and has been briefed on the progress.

Please share as you think makes sense at the OFA, and let me know if you want to discuss further.

Best

I agree that it makes sense to share it right away.

I just want to make sure that we are sharing the right version, which should be in the version that John shared yesterday afternoon and with "shared clean" in the file name.

Hi Mike, Ken,

I had a call with Adrian Nalasco who is acting for Steen. He has indicated that along with Steen, Energy's Deputy is away so it is difficult for him to provide a formal go-ahead to us. I explained to him the time sensitivity and that we would have a discussion with OPG on an informal basis to get their feedback on the latest draft which MOF Legal and Energy Legal have drafted. I gave him a bit of a background that OPG has had back and forth with us on previous versions of the draft.

With these caveats, Adrian is comfortable with various members of the OFA having discussions with OPG counterparts on the latest draft support agreement.

Thanks,

John

Subject: FW: Provincial Support Agreement update

Hi Steen,

I'm sending the attached revised draft, non-binding term sheet on behalf of various parts of the OFA that are working on the Provincial guarantee / support agreement to support the OPG financing entity.

As you may have been informed, the attached draft term sheet was drafted jointly by MOF Legal, Energy Legal and Blakes' and is somewhat narrower in scope of the guarantee/support than the version that was provided by OPG in mid-August.

To discuss, we would like to host a meeting tomorrow, if possible, including your team and Energy Legal, MOF Legal and GBED. Also, Capital Markets folks here at the OFA are looking to share the draft term sheet with their counterparts at OPG. Pls. advise if you would have any issue with the sharing of the draft term sheet.

If you could advise of your availability, I would be happy to coordinate on behalf of everyone here at the OFA.

Thanks,

John

Subject: Provincial Support Agreement update

John,

Together with our outside counsel at Blake's and Energy Legal we have revised the term sheet further.

The attached note, prepared by Energy Legal is a good summary of the issues and where things stand.

I think the next step is to have you and Ron discuss this draft, and prepare to meet with staff at the OFA and Energy once Gadi returns next week and has been briefed on the progress.

Please share as you think makes sense at the OFA, and let me know if you want to discuss further.

Best
Toby

Hi Anna,

On a quick skim on the iPhone, they did not correct the name of the OFA ("Financing", not "Financial").

Ron

The point is well made, but we'd been asked to stay away from OPG loans from OEFC, and I'm not keen on bringing another agency, IO, into this discuss, so I think that it would suit decision-makers best if, when we get to the example part of the explanation, we went with Hydro One having borrowed in its own name at its credit spread for more than 15 years.

> Agreed with Ron's comment ( it's the penultimate question). My preference would be also to emphasize the fact that placing the responsibility for the financing costs on the base is a long and well established policy of the Government and I would make this point in the response to the first question.
> The fourth para in the response could be extended as follows: " Having the beneficiaries of a particular initiative pay the costs of financing is in accordance with a long and well established government policy. For example, Infrastructure Ontario's loans to the municipal sector are made at rates that approximate the external borrowing costs of a particular municipality. Likewise, loans to OPG from the Province or its agencies use a market proxy to determine applicable interest rates, despite the lower borrowing costs of the Province."

Hi Ken.

The issue we face is that investors will expect to know with certainty that the PA applies, without looking into the satisfaction of detailed and potentially subjective conditions (e.g., materiality). That is why we have provided for simple and objective pre-conditions (i.e., delivery of a prescribed form of closing certificate).

If we incorporate specific conditions into the FE's constating documents, then non-compliance could vitiate the PA obligation - meaning that investors/underwriters would need to satisfy themselves that all of the constating conditions have in fact been met. That is the opposite of simplicity and introduces a possible. 'gotcha' scenario.

I think that the Province needs to land firmly on the extent to which conditions of a closing are needed for its benefit and whether it will be willing to accept the consequences if the conditions do not mitigate all of the gaps (e.g., OPG errors or close calls).

While I think we have discussed the possible gaps a few times, it is not too late to impose more rigour, likely in the form of the Province being actively involved in processing individual incurrence and due diligence at the time of a closing.

I suggest that we have a discussion this morning to make sure we all have a common understanding of the proposed incurrence adherence process and the possible gaps and risks to the Province that will remain.

I am generally around this morning so please call when it's convenient for you.

Regards, Steve

Thanks Stephen for the clarification.

My objective in putting forward this suggestion was to eliminate any possibility of the FE issuing debt that may contravene the Protection Agreement (PA). As it stands, theoretically the FE can issue debt that falls outside the PA though it will not be guaranteed by the Province. The problem conceivably arises with regard to any debt issues that are very close to the line drawn by the PA and the consequent need for due diligence on the part of the Province on an issue by issue basis, all of which can be eliminated or at least alleviated by the incorporation of negative covenants.

Pity that it is not possible.

Thanks

Ken k

Subject: RE: Response to OPG

Ken, it is not advisable to incorporate negative covenants in the FE's incorporation documents. That approach would raise ultra vires issues, which could cast doubt on the efficacy of particular debt issues. I was anticipating negative covenants in the Change of Law Protection Agreement. Happy to discuss. Steve

Subject: RE: Response to OPG

Hi Toby

These reflect that changes we discussed yesterday and can be sent out subject to any comments from Mike and Carlos. However, as per my conversation with Malle and subsequently with Gadi, we are running out of time and need to come to a meeting of the minds with OPG on this issue.

To that extent perhaps we can move towards finalizing this issue sometime next week and in order to do so indicate in the covering email to OPG that we would like them to review the September 27th document from the perspective of what impacts on the integrity of the proposed accounting treatment and get back to us hopefully Monday.

That will provide us with a baseline that can be either accepted or tweaked within reasonable limits allowing the process to move forward. With regard to the "failsafe" it may be useful to mention in the covering email that we are open to making changes.

I would also request that we include if possible in the email that the incorporation documents of the Financing Entity include a clause that prohibits the FE from issuing debt that contravenes the terms of the Guaranty. This along with the attestation or certificate for each debt issue should in my opinion constitute a reasonable safeguard of the Province's interests. Not sure whether this will also impact on the integrity of the accounting but we won't know until we ask.

Thanks

Ken k

Hi Cindy,

Thanks for your response. We appreciate how busy you are and that you are reviewing the materials. We are planning to respond to OPG today.

We wanted to touch base with you again before we send the response because OPG had the question "Please also advise if the Province's accountants have reviewed the proposal." In their email to the Province so wanted to respond to that along the lines of the following if it's ok with you.

"The Province's accountants are involved in this process and are also reviewing the proposal."

Thanks.

Malle

Hi Cindy,

I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.

I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.

Thank you for your assistance – we know that you are pressed with many priority items.

> **Subject:** TB Submission for Change of Law Protection Agreement
> Please find attached a markup of the TB submission, as well as a revised term sheet and OIC.
> The term sheet is as we have discussed further with Blakes, and as revised by them to reflect our discussions. The document has been renamed to a “protection agreement” because the authority and the obligation is not necessarily an assumption of the obligations of a Financing Entity, and is rather the payment of such obligations. I have attached both the clean and blacklined versions.
> The OIC draft is an update of the latest version that was circulated, with the notes to draft removed as there were no further comments.
> We have marked up the TB submission to reflect the current status of the negotiation of the term sheet and subject to necessary approvals. We have deleted the attached term sheet from the markup so that the revised version can be inserted instead. We also think it makes sense to include the draft OIC in the TB materials.

---

I'm sorry, Anthony. You're right! I learned something new today. Just checked public accounts and didn't realize that we carried IOD for the Province under "Treasury".

I understand that's where the IOD for FHP would reside, not in a new, separate line.

Anna

>
> <!--[if !supportLists]-->● <!--[endif]-->I'm not sure what you mean here. Should one of the triggering events occur, and the Province step in to make payments on behalf of the Financing Entity, the interest payments on the debt assumed by the Province would be added to the Province's interest on debt (IOD). IOD is not held in a specific Ministry, but rather for the Province as a whole.
>
> What jurisdictions would the Change of Law Protection Agreement be used.
>
> <!--[if !supportLists]-->● <!--[endif]-->The Province of Ontario enters into the agreement with the Financing Entity to provide protection to investors.

Provincial Law governs the agreement. Investors are expected to be within the Canadian market.

THANKS!

**Subject:** TB Submission for Change of Law Protection Agreement questions

Hi Anna,

I just finished my CAO briefing.

We would like OPCD feedback before our DM briefing and confirmation where would the liability be held in the event the Province takes on the debt ? Which Ministry/Entity would it reside in ?

Let me know what is feasible.

I hope your house closes smoothly!!!!

Thanks,

Anthony

In our paragraph near the end of the government response, the second mention of FAO should have a “the” in front of it. One time in that paragraph we spell out thirty year, and in the other reference we say 30-year. We should be consistent. I prefer the former. We should also include the thirty year reference in the chart, on page 2 in the second box on Summary of Concerns where we reference the $4 billion amount (why is this marked 2.0, but the other Summary of Concerns boxes don’t have numbers in their title?)

Also in the chart, the second last paragraph of the section on the DRC, last sentence, has the word “way” instead of “was”. In the first paragraph, I think it reads more clearly if, in the last sentence, between “as an asset and” and “in accordance with” we stick in a comma, or we move that whole clause to the end of the sentence after CEA and end with “in accordance with the accounting definition.” Since I’m being unnecessarily fussy, let me even go as far as to suggest if we do that, we could get rid of the second and in the sentence: “... will be set up as an asset which generates a specific revenue stream in the form of the CEA, in accordance with the accounting definition. “

Hi all,

I've attached clean and tracked versions of the government response and consolidated comments. The joint-DM memo remains unchanged from what was shared at the meeting today, so only including a clean version of that.

**Next Steps**:

- <!--[if !supportLists]-->● <!--[endif]-->In the consolidated comments document, please have staff confirm that any required supporting evidence is provided to me. If anything in that column is marked with a 'Y', please have staff add in "Please see [name of document/attachment]". If we can direct the AG to something online (e.g., standards), a hyperlink would be fine. If no material can be provided, please ensure the box is changed to 'N'.
- <!--[if !supportLists]-->● <!--[endif]-->Please have staff review the documents one last time and ask that they note any required changes in the clean versions.
- <!--[if !supportLists]-->● <!--[endif]-->The key focus at this point should be the government response. At this stage, changes to the consolidated comments should be kept to a minimum.
- <!--[if !supportLists]-->● <!--[endif]--><u>**Please reply-all with any edits by 11:00AM**</u>.
- <!--[if !supportLists]-->● <!--[endif]-->I will coordinate having the joint-DM memo signed. We'll have to work together to get it in front of each of them (separately is fine) before 12:30.
- <!--[if !supportLists]-->● <!--[endif]-->I will aim to distribute a final package by 1:00. The target for getting it to the AG is 2:00.

Thanks again to you and your teams for all the help.

I agree with including the older Annual Reports instead of last year's, as I think they're more relevant to the point that we're trying to make about the DRC. I also think it's a good suggestion to include the last Ontario Hydro report.

**ONTARIO POWER GENERATION INC.**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.[1]

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.[2]

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

---

[1] Blakes suggests that it be made clear in the Declaration of Trust that OPG is establishing the Trust. Blakes would appreciate the benefit of Torys analysis as to how the Trust is an "entity" under the OFHPA, as opposed to the trustee. Clearly OPG has not established Computershare.

[2] Once agreements are settled, Province to provide draft notice.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) the terms used in this Agreement that are not defined in this Agreement shall have the meanings assigned to them in the Change of Law Protection Agreement;

(c) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(d) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(e) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor;

(f) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(g) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(h) all references in this Agreement to designated "Articles", "Sections", "Subsections" "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this

Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(i) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(j) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

**1.02 References to the Financing Entity**

For greater certainty, each reference to the Financing Entity shall be construed as a reference to the Financing Entity Trustee, as trustee of the Financing Entity.

**1.03 Effect of Headings**

The Article and Section headings herein and are for convenience only and will not affect the construction hereof.

**1.04 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not.

**1.05 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.06 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

### 1.07 Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

### 1.08 Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

### 1.09 Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

### 1.10 Non-Business Days

Whenever any period of time would begin or end or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such period of time shall begin or end, and such other action shall be taken on the next succeeding Business Day.

### 1.11 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

## ARTICLE II
## COVENANTS OF OPG

**2.01 Deliveries to the Province**

(a) Not less than [15 Business Days] prior to the initial issuance of any Funding Obligation by the Financing Entity, OPG shall deliver to the Province a copy of the initial Financing Plan. Thereafter, OPG shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

(b) Not less than 10 Business Days prior to (i) any proposed change or supplement to a previously provided Transaction Document becoming effective or otherwise being used, (ii) any additional or replacement Transaction Document becoming effective or otherwise being used, OPG shall deliver to the Province a copy of such proposed change or supplement to the Transaction Document and any such additional or replacement Transaction Document.

(c) Not less than 10 Business Days prior to (i) any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor being made, (ii) any new, additional or replacement instruments, documents, agreements or security being used or granted in connection with all or any part of the Approved Obligations, or (iii) any waiver, release, reconveyance, termination, abandonment, subordination, exchange, substitution, transfer, compound, compromise, liquidation or enforcement of all or any part of the Approved Obligations or any security or guarantee therefor being effected, OPG shall deliver to the Province a copy of such proposed change or supplement to the Transaction Document and any such additional or replacement Transaction Document, OPG shall deliver to the Province a detailed description of such event and the reasons for it together with any related documents, agreements and instruments.

(d) Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, OPG shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(e) Promptly upon request, OPG shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

**2.02 Covenants**

(a) OPG shall use commercially reasonable efforts to cause the Financing Entity to:

(i) punctually perform and observe all of the Financing Entity's obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not:

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement or replacement or waiver or consent could reasonably be considered to be materially prejudicial to the rights or interests of the Province under the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any change in particular financial terms, rates and levels;

(B) resign as the Manager under the Management Agreement; or

(C) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired.

(b) OPG shall:

(i) comply, and shall use commercially reasonable efforts to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) punctually perform and observe all of its (including as the FSM and as Manager) obligations and agreements contained in the Program Agreements;

(iii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

(iv) after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension

right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(c) Nothing in this Agreement nor in the Change of Law Protection Agreement shall limit the obligations of the Province under the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") and to the extent of any conflict between this Agreement, the Change of Law Protection Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify OPG, the Indemnity Agreement shall prevail.

## ARTICLE III
## PROCESS CERTIFICATE

### 3.01 Process Certificate

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are also executive officers of OPG) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Funding Obligation, and (ii) on the Business Day on which the financial terms of such Funding Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Funding Obligation:[3]

(a) the material terms of the Funding Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Funding Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in

[3] Note to Province: We have revised this section so as to allow the Process Agreement to be cleansed from the Change of Law Protection Agreement. In addition to all the deliverables under section 2.01 of this Agreement, the Province will receive the certifications in section 3.01 in the case of an incurrence of funding obligations and an amendment to funding obligations.

compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement confirming that any disclosure made in respect of the Funding Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Funding Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available for review to the Province prior to use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Funding Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Funding Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

**3.02 Intentionally Deleted**

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to OPG; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to OPG.

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to **[Section 5.01 or Article VI]** of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with **[Article VI]** of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

**4.01 Protection Agreement Maximum**

(a) Not less than 15 Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of

Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum, which may not exceed the Initial Forecast.

(b) Not more than 10 Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan, or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

## ARTICLE V
## REPRESENTATIONS AND WARRANTIES

### 5.01 Representations and Warranties of OPG

OPG represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

(c) OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

**5.02 <u>Representations and Warranties of the Province</u>**

The Province hereby represents and warrants that:

(a) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

## ARTICLE VI
## PROCESS FOR ELECTION TO ASSUME APPROVED OBLIGATIONS[4]

### 6.01 Election by the Province

Pursuant to Section 6.01 of the Change of Law Protection Agreement, at any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor by giving notice to the Indenture Trustee. Prior to determining whether or not to exercise its election, the Province may deliver to OPG a notice in the form of Exhibit A (an "**Election Information Notice**"). The Election Information Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Information Notice to OPG (the "**Proposed Assumption Date**").

### 6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Information Notice to OPG, OPG shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be

[4] Note: Lawyers to discuss assumption mechanics.

considered to be material to the assumption and performance of the Obligations Secured by the Province; and

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement.

**6.03 Settlement of Terms**

Following receipt and review by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it expects to proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province expects that assignment and assumption will be effected. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement. A decision not to proceed with an election at any time will not limit the Province from proceeding with an election at a later date, including by issuing a further Election Information Notice and Article VI of this Agreement shall continues to apply unaffected.

**6.04 Cooperation to Implement the Assignment and Assumption**

OPG shall cooperate with the Province and, as FSM, will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

**6.05 Terms of Obligations Secured**

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, OPG, as FSM, shall cause the Financing Entity to use commercially reasonable efforts to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, **[other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a**

**commercially reasonable basis under a Derivative Agreement][NTD: Subject to the input of the dealers.]**[5]

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of OPG under this Agreement, which continues for thirty (30) days after written notice by the Province to OPG of such default or breach;

(b) any representation or warranty made by OPG in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section **[4.02]** of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within thirty (30) days after written notice by the Province to OPG of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

### 7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to OPG, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

## ARTICLE VIII
## MISCELLANEOUS

### 8.01 Term of Agreement

This Agreement will continue for the term of the Change of Law Protection Agreement.

---

[5] The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.

**8.02 Notices**

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to OPG:

Ontario Power Generation Inc.
700 University Avenue
Toronto, Ontario M5G 1X6
Attention: [■]
Fax: (416) [■]
Email: [■]

(b) if to the Province:

[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 8.02.

**8.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties.

(b) Any purported assignment of this Agreement in violation of this Section 8.03 shall be null and void.

**8.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**8.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

**8.06 Delivery of Executed Copies**

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

## SCHEDULE A
## DEFINED TERMS[6]

"**Act**" has the meaning ascribed thereto in the first paragraph of the recitals in this Agreement.

"**Adherence Conditions**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Approved Obligation**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Assumption Agreement**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Assumption Closing Date**" has the meaning ascribed thereto in Section 6.03.

"**Beneficiaries**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Breach Event**" has the meaning ascribed thereto in Section 7.01.

"**Business Day**" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by applicable law, regulation or executive order to be closed.

"**Change of Law Protection Agreement**" means the Change of Law Protection Agreement dated [■], 2017 among the Province, the FSM on behalf of the Financing Entity and the Indenture Trustee.

"**Collateral**" has the meaning ascribed thereto in the Trust Indenture.

"**Co-Owner Agreement**" means any agreement between, *inter alia*, the Financing Entity and any other owner or owners of an Investment Interest as contemplated by Subsection 29(5) of the Act.

"**Declaration of Trust**" means the declaration of trust made as of [■], 2017 under which the Financing Entity was established.

"**Derivative Agreement**" means any rate swap transaction, basis swap, forward rate transaction, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, total return swap transaction, credit default swap transaction or any other similar transaction (including any option with respect to any of those transactions) or any combination of

[6] If Province is satisfied that it will receive notice of any amendments, waivers, etc. under the various agreements, and corresponding rights under the trust indenture as a secured creditor, Province will not require veto rights over changes to the defined terms in the MTI. All of this is predicated on Province receiving comfort from OPG that no changes, amendments, waivers, etc. will be made if outside the pre-agreed scope of the reviewed documents.

these transactions entered into from time to time by the Financing Entity in connection with or related to Funding Obligations.

"**Disclosure Document**" means a disclosure document (including any offering circular, prospectus or other investor disclosure statement) describing the material terms of the notes, bonds or securities to be issued pursuant to a supplemental indenture under the Trust Indenture, together with any related material information;

"**Election Information Notice**" has the meaning ascribed thereto in Section 6.01.

"**Financing Entity**" means Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario and under which the Financing Entity Trustee is the trustee.

"**Financing Entity Trustee**" means, at any time, the Person who is, in accordance with the Declaration of Trust, the trustee of the Financing Entity at such time.

"**Financing Plan**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Forecast**" has the meaning ascribed thereto in Section 4.01(c).

"**FSM**" has the meaning ascribed thereto in the second paragraph of the recitals of this Agreement.

"**Funding Obligation**" has the meaning ascribed to the term "funding obligation" in the Act as of the date of this Agreement but in no event shall it include obligations to service providers or amounts payable by the Financing Entity to a counterparty under any agreement permitted to be entered into by the Financing Entity pursuant to the Program Agreements.

"**General Regulation**" means O. Reg. 206/17 made under the Act.

"**Governing Document**" has the meaning ascribed to the term "governing document" in the General Regulation.

"**Governmental Authority**" means any nation or government, any federal, state, provincial, local or other political subdivision thereof and any court, administrative agency or other instrumentality or entity exercising executive, legislative, judicial, regulatory or administrative functions of government.

"**IESO**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Indenture Trustee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Initial Forecast**" has the meaning ascribed thereto in Section 4.01(a).

"**Initial Forecast Period**" has the meaning ascribed thereto in Section 4.01(a).

"**Investment Interest**" has the meaning ascribed to the term "investment interest" in the Act as of the date of this Agreement.

"**Legislature**" means the Legislature of the Province of Ontario.

"**Limited Guarantee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Management Agreement**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Manager**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Master Transfer and Servicing Agreement**" means the master transfer and servicing agreement dated [■], 2017 between the Financing Entity and IESO.

"**Obligations Secured**" has the meaning ascribed thereto in the Trust Indenture.

"**OPG**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Person**" means any individual, corporation, limited liability company, estate, partnership, joint venture, association, joint stock company, trust (including any beneficiary thereof), unincorporated organization or Governmental Authority.

"**Primary Obligations**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Process Certificate**" has the meaning ascribed thereto in Section 3.01.

"**Program Agreements**" has the meaning ascribed thereto in the Trust Indenture.

"**Proposed Assumption Date**" has the meaning ascribed thereto in Section 6.01.

"**Protection Agreement Maximum**" means the dollar amount referenced as the Program Agreement Maximum and determined in accordance with Article IV.

"**Protection Event**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Province**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Rating Agency**" has the meaning ascribed thereto in the Trust Indenture.

"**Reviewed Documentation**" has the meaning ascribed thereto in Section 3.03.

"**Repayment**" has the meaning ascribed to the term "repayment" in the General Regulation as of the date of this Agreement.

"**Specified Creditors**" has the meaning ascribed thereto in the Trust Indenture.

"**Substantially in the Form**" has the meaning ascribed thereto in Section 3.04.

"**Suspension Notice**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**this Agreement**" means this agreement, as amended, supplemented, restated or otherwise modified from time to time.

"**Transaction Document**" means (i) all constating and organizational documents of the Financing Entity, including the Declaration of Trust; (ii) any management, administration or servicing agreement to which the Financing Entity is a party, including any replacement or standby services agreement and the Management Agreement; (iii) the Master Transfer and Servicing Agreement; (iv) Trust Indenture; (v) the form of supplemental indenture (supplemental to the Trust Indenture) governing the terms and conditions of a sample series of notes, bonds or other securities to be issued by the Financing Entity, including the particular allocations, security and priority of the Obligations Secured being serviced by the related Investment Interest and any other related series property; (vi) the form of any note, bond or securities purchase agreement; (vii) the form of underwriting agreement, agency agreement, selling agreement and/or subscription agreement that may be used with respect to a sale of a related series of notes, bonds or securities to be issued under the supplemental indenture referred to in (v), above; (viii) the form of any loan or credit agreement governing the issuance of short term loan obligations by the Financing Entity; (ix) the form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; (x) the form of any other agreement or instrument under which a Funding Obligation may arise or be effected, including any other agreement under which the Financing Entity incurs a material financial obligation or that affects the Province's subrogation rights and/or subrogee interests, including any standby liquidity arrangements or credit enhancement agreements; (xi) if applicable, a Co-Owner Agreement or any other agreement governing the respective interests of persons having rights or interests in the investment asset or other assets of the Financing Entity, including any other agreement of the sort contemplated in Subsection 29(5) of the Act; and (xii) the form of Disclosure Document.

"**Trust Indenture**" means the trust indenture between the Financing Entity and the Indenture Trustee dated as of [■], 2017.

**ONTARIO POWER GENERATION INC.**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[1] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.[2]

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.[3]

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

[1] ~~We do not believe OPG is entering into this Agreement as agent on behalf of the Trust. Rather, OPG is entering into this Agreement at the request of its shareholder, the Province, in order to satisfy the Province's reporting requirements regarding the Fair Hydro Plan.~~

[2] ~~Blakes to advise what they would like to see as evidence of OPG's establishment of the Trust as a financing entity. OPG can send the Province the retainer of Computershare to act as issuer trustee to the Trust~~[1] Blakes suggests that it be made clear in the Declaration of Trust that OPG is establishing the Trust. Blakes would appreciate the benefit of Torys analysis as to how the Trust is an "entity" under the OFHPA, as opposed to the trustee. Clearly OPG has not established Computershare.

[3] Once agreements are settled, Province to provide draft notice.

All things necessary to make this Agreement a valid and legally binding agreement of OPG~~,~~ and ~~of~~ the Province ~~in accordance with the Act~~, have been done.

**AGREEMENT OF THE PARTIES**

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

**ARTICLE I**
**DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION**

**1.01 Interpretation**

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) the terms used in this Agreement that are not defined in this Agreement shall have the meanings assigned to them in the Change of Law Protection Agreement;

(c) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(d) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(e) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor;

(f) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(g) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(h) all references in this Agreement to designated "Articles", "Sections", "Subsections" "Schedules", "Exhibits" and other subdivisions are to the

designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(i) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(j) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

**1.02 References to the Financing Entity**

For greater certainty, each reference to the Financing Entity shall be construed as a reference to the Financing Entity Trustee, as trustee of the Financing Entity.

**1.03 Effect of Headings**

The Article and Section headings herein and are for convenience only and will not affect the construction hereof.

**1.04 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not.

**1.05 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.06 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

### 1.07 Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

### 1.08 Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

### 1.09 Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

### 1.10 Non-Business Days

Whenever any period of time would begin or end or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such period of time shall begin or end, and such other action shall be taken on the next succeeding Business Day.

### 1.11 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

## ARTICLE II
## COVENANTS OF OPG

**2.01 Deliveries to the Province**

(a) Not less than [15 Business Days] prior to the initial issuance of any Funding Obligation by the Financing Entity, OPG shall deliver to the Province a copy of the initial Financing Plan. Thereafter, OPG shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

(b) Not less than 10 Business Days prior to (i) any proposed change or supplement to a previously provided Transaction Document becoming effective or otherwise being used ~~or~~, (ii) any additional or replacement Transaction Document becoming effective or otherwise being used, OPG shall deliver to the Province a copy of such proposed change or~~,~~ supplement to the Transaction Document and any such additional or replacement Transaction Document.

(c) Not less than 10 Business Days prior to (i) any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor being made, (ii) any new, additional or replacement instruments, documents, agreements or security being used or granted in connection with all or any part of the Approved Obligations, or (iii) any waiver, release, reconveyance, termination, abandonment, subordination, exchange, substitution, transfer, compound, compromise, liquidation or enforcement of all or any part of the Approved Obligations or any security or guarantee therefor being effected, OPG shall deliver to the Province a copy of such proposed change or supplement to the Transaction Document and any such additional or replacement Transaction Document, OPG shall deliver to the Province a detailed description of such event and the reasons for it together with any related documents, agreements and instruments.

(d) ~~(c)~~ Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, OPG shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(e) ~~(d)~~ Promptly upon request, OPG shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

**2.02 Covenants**

(a) OPG shall use commercially reasonable efforts to cause the Financing Entity to:

(i) punctually perform and observe all of ~~its~~the Financing Entity's obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not:

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements ~~(other than Funding Obligation Agreements)~~, if any such supplementation, amendment, modification, restatement or replacement or waiver or consent could reasonably be considered to be materially prejudicial to the rights or interests of the Province under the Change of Law Protection Agreement;[4] provided, however, that the foregoing does not apply to any change in particular financial terms, rates and levels;

(B) resign as the Manager under the Management Agreement; or

(C) ~~(B)~~ permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired.

(b) OPG shall:

(i) comply, and shall use commercially reasonable efforts to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) punctually perform and observe all of its (including as the FSM and as Manager) obligations and agreements contained in the Program Agreements;

(iii) ~~(ii)~~ promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

[4] ~~Note to the Province: This change was made to ensure that the Province does not have veto rights over the financial terms of the Funding Obligations (consistent with the overall agreement including in particular sections 3.01 and 3.04(a)).~~

(iv) ~~(iii)~~ after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(c) Nothing in this Agreement nor in the Change of Law Protection Agreement shall limit the obligations of the Province under the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") and to the extent of any conflict between this Agreement, the Change of Law Protection Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify OPG, the Indemnity Agreement shall prevail.

## ARTICLE III
## PROCESS CERTIFICATE

### 3.01 Process Certificate

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are also executive officers of OPG) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Funding Obligation, and (ii) on the Business Day on which the financial terms of such Funding Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Funding Obligation:[~~5~~3]

(a) the material terms of the Funding Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

[~~5~~3] Note to Province: We have revised this section so as to allow the Process Agreement to be cleansed from the Change of Law Protection Agreement. In addition to all the deliverables under section 2.01 of this Agreement, the Province will receive the certifications in section 3.01 in the case of an incurrence of funding obligations and an amendment to funding obligations.

(c) a statement to the effect that: (i) the Funding Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement confirming that any disclosure made in respect of the Funding Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Funding Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available for review to the Province prior to use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Funding Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Funding Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

**3.02 ~~Acknowledgment~~Intentionally Deleted**

~~The Province acknowledges and agrees that, concurrent with the delivery of the Process Certificate pursuant to Section 3.01 of this Agreement, any two senior officers of OPG are authorized to deliver the certificate referred to in Subsection **[4.02(b)]** of the Change of Law~~

~~Protection Agreement to the Indenture Trustee confirming that OPG has delivered to the Province all certifications required by the Province in connection with the incurrence of the Primary Obligations in respect of which such certificate is delivered.~~

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to OPG; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to OPG.

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to **[Section 5.01 or Article VI]** of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with **[Article VI]** of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document

complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

### 4.01 Protection Agreement Maximum

(a) Not less than 15 Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum, which may not exceed the Initial Forecast.

(b) Not more than 10 Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan, or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised

Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

## ARTICLE V
## REPRESENTATIONS AND WARRANTIES

### 5.01 Representations and Warranties of OPG

OPG represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

(c) OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or

any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

**5.02 Representations and Warranties of the Province**

The Province hereby represents and warrants that:

(a) the execution~~,~~ and delivery of, and the performance of its obligations under, this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution~~,~~ and delivery of, and the performance of its obligations under, this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

## ARTICLE VI
## PROCESS FOR ELECTION TO ASSUME APPROVED OBLIGATIONS[64]

**6.01 Election by the Province**

~~At~~Pursuant to Section 6.01 of the Change of Law Protection Agreement, at any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor~~. To make such~~ by giving notice to the Indenture Trustee. Prior to determining whether or not to exercise its election, the Province ~~shall duly complete and~~may deliver to OPG a notice in the form of Exhibit A (an "**~~Exploration~~Election Information Notice**"). The ~~Exploration~~Election Information Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the ~~Exploration~~Election Information Notice to OPG (the "**Proposed Assumption Date**").

**6.02 Details regarding Obligations Secured**

Promptly following the delivery of the ~~Exploration~~Election Information Notice to OPG, OPG shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

[64] Note: Lawyers to discuss assumption mechanics.

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province; and

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement.

**6.03 Settlement of Terms**

~~Within 30 Business Days following~~Following receipt and review by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it ~~will~~expects to proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province ~~intends~~expects that assignment and assumption will be effected~~, which may not be earlier than the Proposed Assumption Date~~. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section ~~[~~6.01~~]~~ of the Change of Law Protection Agreement~~, which will specify such date as the "Assumption Closing Date" for the purposes thereof~~. A decision not to proceed with an election at any time will not limit the Province from proceeding with an election at a later date, including by issuing a further Election Information Notice and Article VI of this Agreement shall continues to apply unaffected.

**6.04 Cooperation to Implement the Assignment and Assumption**

OPG shall cooperate with the Province and, as FSM, will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

**6.05 Terms of Obligations Secured**

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, OPG, as FSM, shall cause the Financing Entity to use ~~its~~ commercially

reasonable efforts to ~~cause the Financing Entity to~~ ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, **[other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement][NTD: Subject to the input of the dealers.]**[5]

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of OPG under this Agreement, which continues for thirty (30) days after written notice by the Province to OPG of such default or breach;

(b) any representation or warranty made by OPG in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section **[4.02]** of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within thirty (30) days after written notice by the Province to OPG of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

### 7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to OPG, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a

[5] The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.

Suspension Notice to the Indenture Trustee, OPG and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

## ARTICLE VIII
## MISCELLANEOUS

### 8.01 Term of Agreement

This Agreement will continue for the term of the Change of Law Protection Agreement.

### 8.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Any such notice or other communication, if mailed by prepaid first-class mail at any time other than during a general discontinuance of postal service due to strike, lockout or otherwise, will be deemed to have been received on the fourth Business Day after the post-marked date thereof, or if sent by facsimile or other means of electronic communication, will be deemed to have been received on the Business Day following the sending, or if delivered by hand will be deemed to have been received at the time it is delivered to the applicable address noted below either to the individual designated below or to an individual at such address having apparent authority to accept deliveries on behalf of the addressee. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. Notices and other communications will be addressed as follows:

(a) if to OPG:

Ontario Power Generation Inc.
700 University Avenue
Toronto, Ontario M5G 1X6
Attention: [■]
Fax: (416) [■]
Email: [■]

(b) if to the Province:

Ministry of Finance
[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

and

Ministry of Energy
[Address]
Attention: [■]
Fax: (416) [■]
Email: [■]

or to such other addresses as a party may from time to time notify the other parties in accordance with this Section 8.02.

**8.03 Assignment**

(a) None of the rights or obligations hereunder shall be assignable or transferable by any party without the prior written consent of the other parties.

(b) Any purported assignment of this Agreement in violation of this Section 8.03 shall be null and void.

**8.04 Enurement**

This Agreement will enure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

**8.05 FIPPA**

The parties acknowledge that the Province will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Province, or any agent or representative of the Province in connection with this Agreement may be subject to disclosure in accordance with the act or as otherwise required by law.

**8.06 Delivery of Executed Copies**

Each party acknowledges delivery of a fully executed copy of this Agreement.

***[Signature page to follow]***

**IN WITNESS WHEREOF**, the parties hereto have caused this Agreement to be duly executed as of the day and year first above written.

**SCHEDULE A**
**DEFINED TERMS[86]**

"**Act**" has the meaning ascribed thereto in the first paragraph of the recitals in this Agreement.

"**Adherence Conditions**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Approved Obligation**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Assumption Agreement**" has the meaning ascribed thereto in the Change of Law Protection Agreement. ~~[NTD: To confirm if Change of Law Protection Agreement will attach a form of assumption.]~~

"**Assumption Closing Date**" has the meaning ascribed thereto in Section 6.03.

"**Beneficiaries**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Breach Event**" has the meaning ascribed thereto in Section 7.01.

"**Business Day**" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by applicable law, regulation or executive order to be closed.

"**Change of Law Protection Agreement**" means the Change of Law Protection Agreement dated [■], 2017 among the Province, the FSM on behalf of the Financing Entity and the Indenture Trustee.

"**Collateral**" has the meaning ascribed thereto in the Trust Indenture.

"**Co-Owner Agreement**" means any agreement between, *inter alia*, the Financing Entity and any other owner or owners of an Investment Interest as contemplated by Subsection 29(5) of the Act.

"**Declaration of Trust**" means the declaration of trust made as of [■], 2017 under which the Financing Entity was established.

"**Derivative Agreement**" means any rate swap transaction, basis swap, forward rate transaction, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, total return swap transaction, credit default swap transaction or any other similar

[8] ~~Province should not have~~[6] If Province is satisfied that it will receive notice of any amendments, waivers, etc. under the various agreements, and corresponding rights under the trust indenture as a secured creditor, Province will not require veto rights over changes to the defined terms in the MTI. ~~Province is given sufficient notice of all amendments by the terms of this Agreement~~All of this is predicated on Province receiving comfort from OPG that no changes, amendments, waivers, etc. will be made if outside the pre-agreed scope of the reviewed documents.

transaction (including any option with respect to any of those transactions) or any combination of these transactions entered into from time to time by the Financing Entity in connection with or related to Funding Obligations.

"**Disclosure Document**" means a disclosure document (including any offering circular, prospectus or other investor disclosure statement) describing the material terms of the notes, bonds or securities to be issued pursuant to a supplemental indenture under the Trust Indenture, together with any related material information;

"~~**Exploration**~~**Election Information Notice**" has the meaning ascribed thereto in Section 6.01.

"**Financing Entity**" means Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario and under which the Financing Entity Trustee is the trustee.

"**Financing Entity Trustee**" means, at any time, the Person who is, in accordance with the Declaration of Trust, the trustee of the Financing Entity at such time.

"**Financing Plan**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Forecast**" has the meaning ascribed thereto in Section 4.01(c).

"**FSM**" has the meaning ascribed thereto in the second paragraph of the recitals of this Agreement.

"**Funding Obligation**" has the meaning ascribed to the term "funding obligation" in the Act as of the date of this Agreement but~~, for greater certainty, excludes the "other amounts owing in respect of the funding obligations" in Section 2(2) of the General Regulation~~ in no event shall it include obligations to service providers or amounts payable by the Financing Entity to a counterparty under any agreement permitted to be entered into by the Financing Entity pursuant to the Program Agreements.

"**General Regulation**" means O. Reg. 206/17 made under the Act.

"**Governing Document**" has the meaning ascribed to the term "governing document" in the General Regulation.

"**Governmental Authority**" means any nation or government, any federal, state, provincial, local or other political subdivision thereof and any court, administrative agency or other instrumentality or entity exercising executive, legislative, judicial, regulatory or administrative functions of government.

"**IESO**" has the meaning ascribed thereto in the Act as of the date of this Agreement.

"**Indenture Trustee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Initial Forecast**" has the meaning ascribed thereto in Section 4.01(a).

"**Initial Forecast Period**" has the meaning ascribed thereto in Section 4.01(a).

"**Investment Interest**" has the meaning ascribed to the term "investment interest" in the Act as of the date of this Agreement.

"**Legislature**" means the Legislature of the Province of Ontario.

"**Limited Guarantee**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Management Agreement**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Manager**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Master Transfer and Servicing Agreement**" means the master transfer and servicing agreement dated [■], 2017 between the Financing Entity and IESO.

"**Obligations Secured**" has the meaning ascribed thereto in the Trust Indenture.

"**OPG**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Person**" means any individual, corporation, limited liability company, estate, partnership, joint venture, association, joint stock company, trust (including any beneficiary thereof), unincorporated organization or Governmental Authority.

"**Primary Obligations**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Process Certificate**" has the meaning ascribed thereto in Section 3.01.

"**Program Agreements**" has the meaning ascribed thereto in the Trust Indenture.

"**Proposed Assumption Date**" has the meaning ascribed thereto in Section 6.01.

"**Protection Agreement Maximum**" means the dollar amount referenced as the Program Agreement Maximum and determined in accordance with Article IV.

"**Protection Event**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**Province**" has the meaning ascribed thereto in the first paragraph of this Agreement.

"**Rating Agency**" has the meaning ascribed thereto in the Trust Indenture.

"**Reviewed Documentation**" has the meaning ascribed thereto in Section 3.03.

"**Repayment**" has the meaning ascribed to the term "repayment" in the General Regulation as of the date of this Agreement.

"**Specified Creditors**" has the meaning ascribed thereto in the Trust Indenture.

"**Substantially in the Form**" has the meaning ascribed thereto in Section 3.04.

"**Suspension Notice**" has the meaning ascribed thereto in the Change of Law Protection Agreement.

"**this Agreement**" means this agreement, as amended, supplemented, restated or otherwise modified from time to time.

"**Transaction Document**" means (i) all constating and organizational documents of the Financing Entity, including the Declaration of Trust; (ii) any management, administration or servicing agreement to which the Financing Entity is a party, including any replacement or standby services agreement and the Management Agreement; (iii) the Master Transfer and Servicing Agreement; (iv) Trust Indenture; (v) the form of supplemental indenture (supplemental to the Trust Indenture) governing the terms and conditions of a sample series of notes, bonds or other securities to be issued by the Financing Entity, including the particular allocations, security and priority of the Obligations Secured being serviced by the related Investment Interest and any other related series property; (vi) the form of any note, bond or securities purchase agreement; (vii) the form of underwriting agreement, agency agreement, selling agreement and/or subscription agreement that may be used with respect to a sale of a related series of notes, bonds or securities to be issued under the supplemental indenture referred to in (v), above; (viii) the form of any loan or credit agreement governing the issuance of short term loan obligations by the Financing Entity; (ix) the form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; (x) the form of any other agreement or instrument under which a Funding Obligation may arise or be effected, including any other agreement under which the Financing Entity incurs a material financial obligation or that affects the Province's subrogation rights and/or subrogee interests, including any standby liquidity arrangements or credit enhancement agreements; (xi) if applicable, a Co-Owner Agreement or any other agreement governing the respective interests of persons having rights or interests in the investment asset or other assets of the Financing Entity, including any other agreement of the sort contemplated in Subsection 29(5) of the Act; and (xii) the form of Disclosure Document.

"**Trust Indenture**" means the trust indenture between the Financing Entity and the Indenture Trustee dated as of [■], 2017.

**From:** William Tan
**To:** Mike Manning
**Cc:** Sarah Harris
**Subject:** Signatures for FHP Credit Facility and existing Amending Agreement 10 Credit Facility
**Date:** Friday, November 03, 2017 5:21:48 PM

---

Hello Mike,

Unfortunately, today there were signature complications on IESO's side and our side. We have arranged to have the agreements signed as counterparts early Monday morning. Once I am able to confirm that IESO has signed their agreements I will require an OFA signatory to sign the agreements at our end. May I ask if you will be available Monday morning to sign?

Agreements required for signature:

- $2B FHP Credit Facility Agreement,
- Existing Amending Agreement No. 10 Credit Facility
- Promissory note

Best regards,

**Will Tan**| *Documentation & Analysis Specialist*

| **Subject:** | Speaking Points for Minister Sousa |
| **Date:** | Monday, October 16, 2017 11:23:10 AM |
| **Attachments:** | MINISTER SOUSA SPEAKING POINTS.docx |

Good morning,

The DMO has asked that we prepare speaking points for Minister Sousa to use in response to the AG's report (to be released tomorrow at 10:30am).

I've put together the attached, based on Q&As and speaking points that we prepared previously.

Note, Scott Nelms' group is going to be preparing points on why the OFHP isn't reflected in the fiscal plan/deficit.

Could I ask for your review and comment asap?

Thanks, Anna

**MINISTER SOUSA SPEAKING POINTS**
**AUDITOR GENERAL'S SPECIAL REPORT ON THE ONTARIO FAIR HYDRO PLAN**

*(GBED to provide language on fiscal plan)*

- The policy objective of OFHP is to more fairly allocate the cost to ratepayers over the useful life, not the contractual term, of the electricity generating assets.

- Therefore, it was a primary policy objective to ensure that the costs are borne by the beneficiaries of the electricity system – the ratepayers – not the tax-base.

- Having the rate-base pay is not a new policy, for example Hydro One has borrowed in the capital markets since the early 2000s.

- We believe it is appropriate for ratepayers to pay for the financing of electricity assets. The rate-base has a different risk profile than the tax-base, which would be reflected in different interest costs.

- The $4 billion figure in the Office of the Auditor General's report was sourced from the FAO's May 2017 report, and it is important to note, that the FAO's calculation was based on preliminary estimates of the program when peak debt estimates for the thirty year program were substantially higher than current projections.

- OPG has the necessary financing and commercial expertise to assist with refinancing the Global Adjustment (GA) and will ensure that it is done in an efficient and cost-effective manner.

---

Hi John:
We are having a meeting at 11:30 this morning on the subordinated debt for Fair Hydro in the Capital Markets Boardroom I believe. Would be great if you could attend . Other attendees Jim, Carlos & Ken k.

Regards, Mike

| **Attachments:** | TB20 Submission_Provincial Support Agreement_V7-MOF Legal Comments.docx<br>23148306-vpdf-Term Sheet - Provincial Support Agreement - May 12.pdf<br>23148306-v15-Term Sheet - Provincial Support Agreement - Sept. 12.docx<br>OIC - FHP S.5 Draft September 12.doc |

---

Please find attached a markup of the TB submission, as well as a revised term sheet and OIC.

The term sheet is as we have discussed further with Blakes, and as revised by them to reflect our discussions. The document has been renamed to a "protection agreement" because the authority and the obligation is not necessarily an assumption of the obligations of a Financing Entity, and is rather the payment of such obligations. I have attached both the clean and blacklined versions.

The OIC draft is an update of the latest version that was circulated, with the notes to draft removed as there were no further comments.

We have marked up the TB submission to reflect the current status of the negotiation of the term sheet and subject to necessary approvals. We have deleted the attached term sheet from the markup so that the revised version can be inserted instead. We also think it makes sense to include the draft OIC in the TB materials.

Please let me know if you have any comments or questions.

# CHANGE OF LAW PROTECTION ~~ASSUMPTION~~ AGREEMENT

**1. PROGRAM/BRANCH:** Ontario Financing Authority

**2. SUMMARY OF REQUEST:**

Provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by one or more financing entities established by Ontario Power Generation Inc. pursuant to s. 22 of the Ontario Fair Hydro Plan Act, 2017 ("OPG Financing Entities"), that, under certain circumstances as set out in the ~~Change of Law Assumption Agreement ("assumption agreement"),~~proposed arrangements the Province would pay when due amounts in respect of the obligations of the Financing Entity.

This submission is to request that Treasury Board:

(a) Authorize that the Minister of Finance and Minister of Energy, on behalf of Ontario, provide a~~n assumption~~protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities ~~under~~ substantially reflecting the terms set out in the Appendix and subject to such revisions that the two ministers acting together may determine;

(b) Recommend to Cabinet an Order in Council, to be made under subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* that authorizes the Minister of Energy and the Minister of Finance, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and

(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity;

~~specify terms and conditions that must be included in any guarantee or indemnity given by the Minister of Energy and the Minister of Finance; and~~

~~specify a maximum liability for the guarantee or indemnity.~~

**3. BACKGROUND:**

On March 2, 2017, the government announced its proposed Ontario's Fair Hydro Plan (OFHP) to lower electricity bills by 25%, on average, for a typical residential consumer, and holding increases to the rate of inflation for four years. As part of OFHP, it was announced that a portion of the Global Adjustment (GA) would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would be achieved by spreading the cost of electricity investments so that they are shared proportionately by future consumers who cause a need for, or benefit from, the province's multi-billion dollar investments in electricity infrastructure.

To this end, immediate rate relief to eligible ratepayers is provided by deferring and spreading the cost recovery of electricity investments over a longer period of time. Under forecasts provided by the Ministry of Energy at the time of the OFHP announcement in March, the immediate reduction would be about $2.5 billion per year on average over the first ten years. The Ministry of Energy will report back to TB/MBC in fall 2017-18 with an update on out-year projections following analysis on rate applications before the Ontario Energy Board.

Under the *Ontario Fair Hydro Plan Act, 2017,* (the "OFHPA"), which enables GA Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap resulting from the reduction in amounts collected over four years. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset". The OFHPA provides for the IESO to sell all or a portion of the regulatory asset; i.e., the right to recover those deferred amounts from specified consumers in the future. Under the OFHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the OFHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly, the Province) from the capital markets; however, OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a change of law ~~assumption~~protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would ~~step in and assume~~pay the funding obligations of the Financing Entity.

OFA, the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the ~~assumption~~protection agreement to the following circumstances:

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the OFHPA or new legislation that adversely affects ability of an ~~the~~OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations;
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or unenforceable~~A court decision that declares any funding obligations of the Financing Entity to be invalid or unenforceable~~; and
- [Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations. *Note: this third ~~assumption~~protection event is not included in the current draft of the term sheet agreed to by Ministry of Finance staff; however, OPG is expected to continue to negotiate for its inclusion. It has been included in the TB submission, but may be removed once negotiations are complete, prior to TB/MBC consideration of this item on September 26, 2017*.]

In the event the ~~assumption~~protection agreement is triggered, the Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as ~~it~~ they come~~s~~ due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers.

In addition, the Province would also have the option to ~~assume~~ directly replace the OPG Financing Entity~~'s~~ with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.~~.~~

The ~~assumption~~protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged.

Section 28 of the *Financial Administration Act (FAA), 1990* requires that the Minister of Finance's approval is obtained before a ministry seeks an Order in Council (OIC) ~~before a ministry~~to enter~~s~~ into a guarantee or indemnity that would increase the contingent liabilities of Ontario. In this case, the Minister of Finance,

together with the Minister of Energy, is recommending the OIC to Cabinet and will, acting together with the Minister of Energy, determine the terms and conditions of and execute the proposed guarantee/indemnity in accordance with the OIC, if approved.

## 5. ADMINISTRATIVE IMPACTS:

To be managed by existing staff.

DRAFT

## 6. RISKS:

If the ~~assumption~~protection agreement is not approved, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from IESO or the cost of the financing will be potentially materially greater than it otherwise would be.

If the ~~assumption~~protection agreement is provided, the Province of Ontario takes on a contingent liability. The amount of the liability would increase over the duration of the OFHP and peak at an estimated $24B to $26B of debt (final cost forecasts TBC), including principal and accumulated interest.

In the event the ~~assumption~~protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it ~~has assumed~~will be required to make under the ~~guarantee~~protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

While it is difficult to estimate the actual impact to the Province's interest on debt (IOD) expense, the worst case scenario would be the Province assuming the debt at its peak. If so, IOD expense may increase between $0.8B and $1.3B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.

It is important to note that, if the ~~assumption~~protection agreement is triggered, and the Province ~~assumes~~ becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (IOD expense) will depend on whether or not some portions of the OFHPA continue or not, in some form. If the payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used. Also, debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

## 7. COMMUNICATION PLAN

Key Messages

DRAFT

- Ontario's Fair Hydro Plan has resulted in the biggest electricity rate reduction in Ontario's history.
- We have heard from Ontarians across the province that the price of electricity has risen too quickly, which is why we moved forward with a plan to ensure the costs are shared more evenly over the years ahead.
- The government is following through on its commitment to balance the books as announced in its 2017 Budget, while continuing to make investments in priority areas such as electricity price relief.

Strategic Approach

- Low-profile, reactive and targeted to industry stakeholders and government employees as necessary. Reactive messaging contingent upon legislative changes only with back-pocket QAs to support as needed.
- Communications support will continue to be led by the Ministry of Energy.

## 8. RECOMMENDATION

(a) Approve that the Minister of Finance and Minister of Energy provide a ~~support~~ protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities ~~as contemplated under the *Ontario Fair Hydro Plan Act*, to one or more OPG Financing Entities under~~ substantially reflecting the terms set out in the Appendix and subject to such revisions that the two ministers acting together may determine;

(b) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the Ontario Fair Hydro Act, that authorizes the Minister of Energy and the Minister of Finance, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and

(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.~~;~~

~~specify terms and conditions that must be included in any guarantee or indemnity given by the Minister of Energy and the Minister of Finance; and~~

~~specify a maximum liability for the guarantee or indemnity.~~

DRAFT

## APPENDIX

Updated Draft to be Attached

**~~Change of Law Assumption Agreement~~**

**~~Indicative Term Sheet~~**

**~~Ontario Fair Hydro Plan Act, 2017~~**

*~~This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.~~*

| | |
|---|---|
| **~~Change of Law Assumption Agreement:~~** | ~~A Change of Law Assumption Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.~~ |
| **~~Obligor:~~** | ~~The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.~~ |
| **~~Indenture Trustee:~~** | ~~An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture.~~ |
| **~~Beneficiaries:~~** | ~~The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.~~ |
| **~~Specified Claims:~~** | ~~Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.~~<br><br>~~Specified Claims are expected to include principal and interest on senior debt obligations issued by the Financing Entity [and any other monetary obligations of the Financing Entity that rank ahead of or equally in priority of payment with the senior debt obligations of the Financing Entity pursuant to the Trust Indenture].~~ |
| **~~Assumption Events:~~** | ~~Any of the following would constitute an Assumption Event:~~<br><br>~~(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;~~<br><br>~~(2) the Legislature enacts or amends any other statute;~~<br><br>~~(3) the Lieutenant Governor in Council repeals (and~~ |

| | |
|---|---|
| | does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or<br><br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*),<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims or (b) the Change of Law Assumption Agreement or any of the agreements under which Specified Claims arise without the agreement of the Indenture Trustee; or<br><br>(B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to Assume Specified Claims:** | Upon the occurrence of an Assumption Event, the Indenture Trustee will have the right to require the Obligor to pay the amount of Specified Claims on behalf of the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Assumption Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |
| **Subrogation:** | Upon paying an amount to a Beneficiary in respect of a Specified Claim, the Obligor shall become entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent. |

| | |
|---|---|
| **Optional Replacement:** | At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Assumption Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The Change of Law Assumption Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Assumption Agreement applies to such Specified Claim.<br><br>The Change of Law Assumption Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Assumption Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims.<br><br>The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required. |
| **FIPPA:** | The Change of Law Assumption Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Assumption Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |

| | |
|---|---|
| ~~**Representations and Warranties:**~~ | ~~To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.~~ |
| ~~**Confidentiality Obligations:**~~ | ~~To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.~~ |
| ~~**Governing Law:**~~ | ~~Province of Ontario.~~ |

**~~Change of Law Assumption Agreement~~Provincial Protections and Assurances**

**Indicative Term Sheet**

**Ontario Fair Hydro Plan Act, 2017**

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

| | |
|---|---|
| **Change of Law ~~Assumption~~Protection Agreement:** | A Change of Law ~~Assumption~~Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together. |
| **Indenture Trustee:** | An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture. |
| **Beneficiaries:** | The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims. |
| **Specified Claims:** | Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.<br>~~Specified Claims are expected to include principal and interest on senior debt obligations issued by the Financing Entity [and any other monetary obligations of the Financing Entity that rank ahead of or equally in priority of payment with the senior debt obligations of the Financing Entity pursuant to the Trust Indenture].~~ |
| **~~Assumption~~Protection Events:** | Any of the following would constitute ~~an Assumption~~a Protection Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute; |

| | |
|---|---|
| | (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or<br><br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*),<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law ~~Assumption~~Protection Agreement or any of the agreements under which Specified Claims arise ~~without the agreement of~~, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to ~~Assume~~Pay Specified Claims:** | Upon the occurrence of ~~an Assumption~~a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the ~~amount of~~ Specified Claims ~~on behalf of~~owing by the Financing Entity when they become due and payable (without acceleration). | | appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*),<br><br>in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or<br><br>(B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. |
| **Obligation to Pay Specified Claims:** | Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits. |
| **Subrogation:** | Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent. |

| | |
|---|---|
| **Optional Replacement:** | At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement. |
| **Term:** | The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding. |
| **Obligor Approval:** | The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim.<br><br>The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims.<br><br>The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required. |
| **FIPPA:** | The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |

| | |
|---|---|
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

CONFIDENTIAL AND PRIVILEGED DRAFT – September 12, 2017

WHEREAS pursuant to subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "Act"), the Lieutenant Governor in Council may by order authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest as described under the Act;

AND WHEREAS pursuant to subsection 22(2) of the Act, Ontario Power Generation Inc. as financial services manager, may establish or cause to be established one or more financing entities (a "Financing Entity") that may incur funding obligations in connection with investment interests**;**

AND WHEREAS it is considered desirable to authorize the Minister of Energy and the Minister of Finance to agree to guarantee or indemnify debts, obligations, securities or undertakings of a Financing Entity associated with investment interests acquired by a Financing Entity;

NOW THEREFORE:

1. Pursuant to subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017*, the Minister of Energy and the Minister of Finance, acting together on behalf of Ontario, are authorized to enter into one or more agreements to guarantee or indemnify the debts, obligations securities or undertakings of a Financing Entity associated with investment interests acquired by a Financing Entity.

2. The Minister of Energy and the Minister of Finance, acting together on behalf of Ontario are authorized to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee and indemnity authorized under paragraph 1 of this Order.

| **Subject:** | Teleconference: Provincial Protection Agreement |
| **Date:** | Thursday, September 14, 2017 1:14:40 PM |

Hi Gadi,

A short summary of the call after you left (it didn't finish until 12:20pm):

**We finished your discussion around the *Event of Default Cure*:**

- to be addressed in the Protection Agreement. Term sheet will reflect language similar to Representations and Warranties section (i.e., To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity, subject to accounting/legal considerations)
- OPG expressed concern with punting issues off the term sheet and onto the Protection Agreement; given that timelines for drafting the Protection Agreement will be similarly compressed.

**We then went through the term sheet from the start:**

- Drafting changes will not be made
- Reference to comingling risk/warehousing to be removed
- Agreed that the protection agreement would also apply to the sub-debt
- Organizational change in IESO/market change will be narrowed (per Steve's wording)
- Under *Subrogation* remove the line "The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent" – gets to the accounting concern/Provincial control
- Clarified that the *Optional Replacement* was not the Province swapping out the Financing Entity for some other entity (dealers' concern), but rather the Province stepping in for the Financial Entity. Agreed to amended language

**Follow-ups:**

- With respect to the triggering event following from a court decision, there was a lengthy conversation about the wording "final, non-appealable". Steve felt it was necessary to keep in – to avoid any gaming of the system – and Tory's felt that it would be problematic for dealers (i.e., payments put on hold during lengthy litigation). OFA suggested we take the conversation offline. I'll schedule a call with Steve and Malle for this afternoon.
- Malle and Steve would like to review the Financing Plan at the earliest opportunity. The importance/urgency of reviewing the Financing Plan is unclear.

**Next steps:**

- Malle/Steve will mark up the version that went to the Minister with the changes discussed at the meeting
- Tory's will be able to sign-off on the revisions fairly quickly
- Tory's will present the mark-up to Osler's/dealers with instruction to focus on material points (not drafting issues)
- Meeting to be set up for early next week to deal with substantive issues for inclusion in the Protection Agreement; OPG to bring forward accounting issues as flagged by E&Y
- With respect to timing, OPG is going to its Board on September 29 with the Protection Agreement; Board will want comfort that E&Y has signed off

Thanks, Anna

| **Subject:** | US Dollar Debt |
| **Date:** | Tuesday, November 14, 2017 3:36:22 PM |

---

Not sure if this helps at this stage, but OPG happy to say protection agreement applies to Canadian dollar issuance only. They appreciate that US dollar issuance would be a different kind of animal.

Regards, Mike
