Hi

I have few minor edits/comments. You may want to take a quick look slide #5 re the methodology for establishing the interest rates on the sub debt. Since John is coordinating you can provide comments to him.

Thanks

# OFHP Business Issues

DRAFT – September 11, 2017

CONFIDENTIAL & COMMERCIALLY SENSITIVE

# Context: GA Financing

- The *Ontario Fair Hydro Act, 2017,* enables the IESO to establish a variance account to record the deferral amounts from the difference between collections from current ratepayers and payment obligations to generators and conservation, and to create a regulatory asset to recover the balance in the variance account
  - The IESO can then sell the regulatory asset – the right to recover those deferred amounts from specified consumers in the future
  - OPG, as the Financial Services Manager, is authorized to establish one or more financing entities that may incur funding obligations
  - The Financing Entity will purchase the regulatory asset, effectively financing the shortfall in current rates not received from ratepayers
- In order to support the establishment of a financing entity, facilitate ongoing funding requirements of the Global Adjustment and optimize ratepayer impacts, OPG and the Province are working on finalizing the details for a number of business issues, including:
  - A regulation to minimize Payments in Lieu (PILs) of taxes by the financing entity
  - An equity injection by the Province to OPG that OPG would use to lend to the financing entity
  - A subordinated debt agreement related to OPG lending to the financing entity

# PILs Exemption

**Overview:**

- It is currently contemplated that the first financing entity to be established by OPG, in its capacity as financial services manager will be a Trust
- The Trust would be subject to tax under the Income Tax Act (Canada) (ITA) and the Ontario Taxation Act, 2007 (TA)
- The beneficiary of the Trust will be a corporation that will be directly or indirectly wholly-owned by OPG
  - The corporation, given it is owned by OPG, would be exempt from federal and provincial corporate taxes and property taxes payable by private sector companies, and instead make payments in lieu of taxes (PILs) to the Ontario Electricity Financial Corporation (OEFC)
  - ~~PILs are used by the OEFC to help pay down the stranded debt of the former Ontario Hydro~~
- In order to mitigate the cost to ratepayers, the Province plans to bring forward a regulation under the *Electricity Act* that would exempt the corporation from paying PILs
- The Province will also consider similar regulations in the future should OPG establish another financing entity in its role as the Financing Entity

**Next Steps:**

- Draft letter from the Minister of Finance to OPG in development that will provide comfort that the financing entity will be exempt from PILs
- The Ministry of Finance is working with OPG on a draft regulation which will be brought forward in the Fall

# Equity Injections

**Overview:**

- To purchase the regulatory asset from the IESO, the Financing Entity must borrow funds from the following:
  - Capital markets (51%)
  - Subordinated OPG debt, financed through equity injections from the Province (44%) and capital markets (5%)
- OPG will require equity injections on an ongoing basis in order to keep its capital structure in line, and will require flexibility in order to issue shares as needed
- The Ministry of Energy will be responsible for seeking approval for the investment envelope each year
  - On a monthly/quarterly basis, OPG will send a notice of share subscription to the Province, requesting a certain amount of equity based on the amount of the regulatory asset it plans to purchase in a fiscal year; the Ontario Financing Authority will flow the funds

**Next Steps:**

- OPG is seeking Board approval on September 29th
- The Province is working with appropriate parties internally to ensure a mechanism is in place to provide the equity injection to OPG

# Subordinated Debt Agreement

**Overview:**

- OPG intends to lend the equity injection from the Province to the Trust by way of subordinated debt
- OPG, the Fair Hydro Trust and the OFA will enter into a subordinated debt loan agreement which outlines the terms of the subordinated debt
- Interest rates on the subordinated debt will be established as follows:
  - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt
  - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying ~~Government of~~ Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate.

**Next Steps:**

- OPG to incorporate the Province's comments into the next draft of the Subordinated Debt Agreement which is tracking to be finalized by the end of September

CONFIDENTIAL & COMMERCIALLY SENSITIVE

# Context: GA Financing

- The *Ontario Fair Hydro Act, 2017,* enables the IESO to establish a variance account to record the deferral amounts from the difference between collections from current ratepayers and payment obligations to generators and conservation, and to create a regulatory asset as the Act provides the IESO the right to recover the balance in the variance account

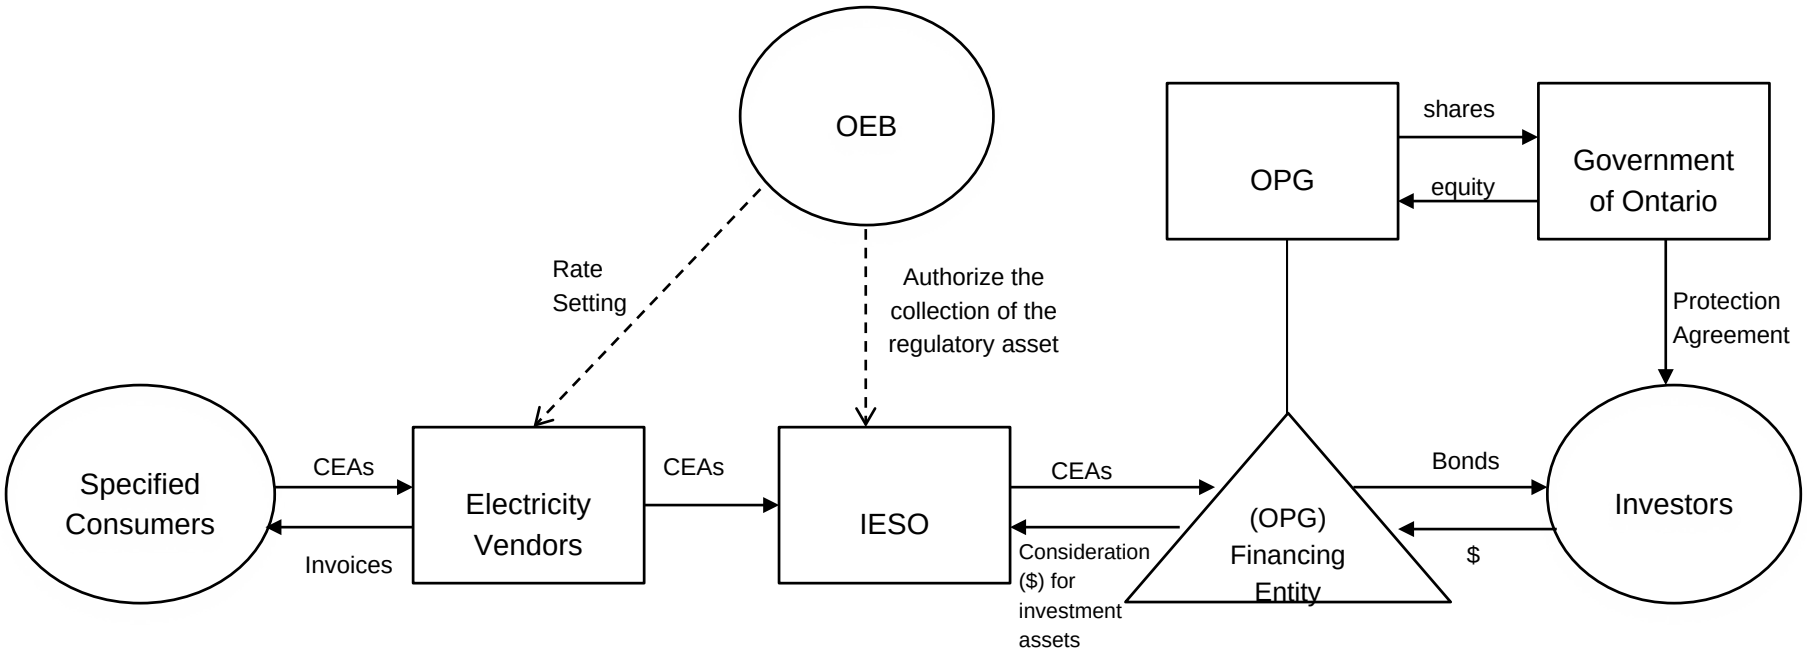
- In order to support the establishment of a financing entity, facilitate ongoing funding requirements of the Global Adjustment and optimize ratepayer impacts, OPG and the Province are working on finalizing the details for a number of business issues, including:
  - Provincial Protection and Assurances Agreement (PPAA)
  - Fair Allocation Amount (FAA)
  - Management Fees Regulation
  - Moratorium Period Interest and Fee Recovery
  - Equity Injections
  - Subordinated Debt Agreement
  - PILs Exemption

# Global Adjustment Refinancing – Roles and Responsibilities



Note: CEAs are “clean energy adjustments”

# Provincial Protection and Assurances Agreement

**Overview:**

- To purchase the regulatory asset from the IESO, the Financing Entity must borrow a portion of the funds from capital markets (planned to be 51%, with other financing to come from OPG and, indirectly, the Province)
    - OPG's financial advisors have indicated that without adequate protection against legislative, judicial and organizational risk, the debt would not be financeable or would result in higher financing costs, to be passed on to ratepayers
- Upon receiving TB/MBC approval, and as contemplated under the Act, the Province has agreed to provide a protection agreement that supports the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would take over the funding obligations of the Financing Entity, including:
    - Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the Ontario Fair Hydro Plan Act, 2017, or new legislation that adversely affect the Financing Entity
    - A court decision that declares the rights of the Financing Entity to recover amounts from ratepayers to be invalid or unenforceable
    - Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to recover amounts related to funding obligations.

# Provincial Protection and Assurances Agreement (Con't)

- In the event the protection agreement is triggered, the Province will be required to pay the obligations of the Financing Entity including principal and interest payments on debt issued to date, any payments to derivatives counterparties and any outstanding payments to service providers
    - The Province could potentially service the debt and other obligations and could replace OPG as the financial services manager
- The protection agreement may need to be revised at a future date, or approval from the Province may be required, if the financing entity must access US market as investors in that market will likely require additional compensation if the assumption agreement is triggered
- The Province will take on a contingent liability, which will increase over the duration of the Fair Hydro Plan and peak at an estimated $20B of debt (final cost forecasts TBC), including principal and accumulated interest
- In the event the protection agreement is triggered, the Province's net debt will most likely increase by an amount equal to the contingent liability at that point in time
    - The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it has assumed under the protection agreement
    - IOD expense may increase between $0.8B and $1.0B per annum, assuming the protection agreement is triggered when debt is at its peak, and depending on the interest rate at which the Financing entity will be able to borrow at

**Next Steps:**

- Province to work with OPG and external legal counsel to finalise the Protection Agreement

# Fair Allocation Amount

# Management Fees Regulation

**Overview:**

- Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest.
- The Act enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.
- The fee will have a fixed and variable component and be determined by formulas set out in a regulation, which as currently drafted includes:
    - **Base fee**: Monthly fee calculated as 10 basis points on monthly funding obligation when the annual funding obligation is less than $10B, and 8 basis points on the monthly funding obligation when the annual funding obligation is greater than $10B.
    - **Variable fee**: Annual fee of 5% of the difference difference between forecast and actual interest rates achieved for each of its funding tranches
- The OEB will have a role in reviewing OPG's fees to ensure that the fees are consistent with prevailing market comparators

**Next Steps:**

- The Province is working with the OEB and OPG to develop a regulation setting out how the fees would be calculated including appropriate comparators for the OEBs review

# Moratorium Period Interest and Fee Recovery

# Equity Injections

**Overview:**

- To purchase the regulatory asset from the IESO, an OPG financing entity would be established and borrow funds from the following:
  - Capital markets (51%)
  - Subordinated OPG debt, financed through equity injections from the Province (44%) and OPG, financing from capital markets (5%)
- OPG will require equity injections on an ongoing basis in order to provide the 44% share of financing for the financing entity to acquire the regulatory asset from IESO and keep its capital structure in line, and will require flexibility in order to issue shares to the Province as needed, under a share subscription agreement
- The Ministry of Energy will be responsible for seeking approval for the investment envelope each year and managing the share subscription arrangement with OPG
  - On a periodic basis, OPG will send a notice of share subscription to the Ministry of Energy, requesting a certain amount of equity based on the amount of the regulatory asset it plans to purchase in a fiscal year; the Ontario Financing Authority will flow the funds

**Next Steps:**

- OPG and the Ministry of Energy have approved the Master Subscription Agreement and will proceed to execute in the coming weeks
- The Ministry of Energy will work with the OFA to ensure a mechanism is in place to flow the funds within the required timeframes after the request is made by OPG

# Subordinated Debt Agreement

**Overview:**

- OPG intends to lend the equity injection from the Province to the Trust by way of subordinated debt
- OPG proposes that OPG, the Fair Hydro Trust and the OFA will enter into a subordinated debt loan agreement, which outlines the terms of the subordinated debt [TBD]
- OPG has proposed that interest rates on the subordinated debt be established as follows:
  - During the Trust short term financing period, when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt [TBD]
  - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. [TBD]

**Next Steps:**

- OPG to incorporate the Province's comments into the next draft of the Subordinated Debt Agreement, which is tracking to be finalized by the end of September [TBD]

# PILs Exemption

**Overview:**

- It is currently contemplated that the first financing entity to be established by OPG, in its capacity as Financial Services Manager, will be a trust (Trust)
- The Trust would be subject to tax under the Income Tax Act (Canada) and the Ontario Taxation Act, 2007
- The beneficiary of the Trust will be a corporation (Subco) that will be directly or indirectly wholly-owned by OPG
  - Subco, given it is owned by OPG, would be exempt from federal and provincial corporate taxes and property taxes payable by private sector companies, and instead make payments in lieu of taxes (PILs) to the Ontario Electricity Financial Corporation (OEFC)
  - PILs are used by the OEFC to help pay down its debt and other liabilities – OEFC is the legal continuation of the former Ontario Hydro
- In order to mitigate the cost to ratepayers, the Ministry of Finance plans to bring forward a proposed Minister of Finance's regulation under the *Electricity Act* , 1998 that would exempt Subco from paying PILs on income received as beneficiary of the Trust
- The Ministry of Finance will also consider similar regulations in the future should OPG establish another financing entity in its role as the Financial Services Manager

**Next Steps:**

- Draft letter from the Minister of Finance to OPG is in development that will provide comfort that Subco will be exempt from PILs on income received as beneficiary of the Trust.
- The Ministry of Finance is working with OPG on a draft regulation, which will be brought forward in the Fall

Figures 1 and 2 illustrate the FHP Program's financing profile over the next 30-year period.

**Figure 1: Fair Hydro Trust Debt Balance**

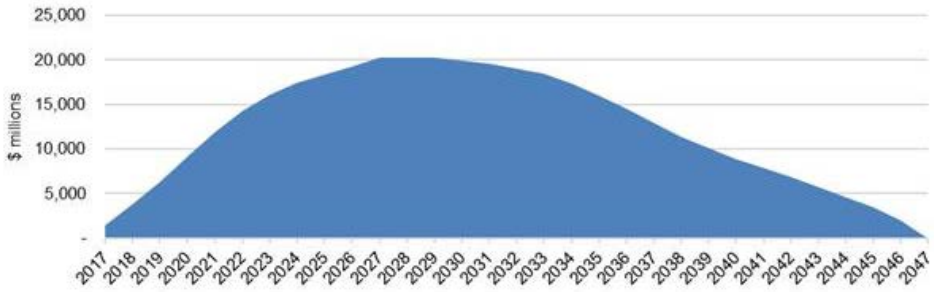

**Figure 2: Fair Hydro Trust Borrowing and Repayment Profile**

Borrowing for Rate Reductions Borrowing to Offset Interest Interest & Fees Principal Repayment

The Fair Allocation Amount is a net amount, either positive or negative, equal to the difference between the following:

1. estimated costs of clean energy initiatives without adjustment; and
2. a re-profiling of the costs in item 1) plus:
    a. the estimated operating and financing costs of the FHP Program, and
    b. the repayment of the readjustment amount.

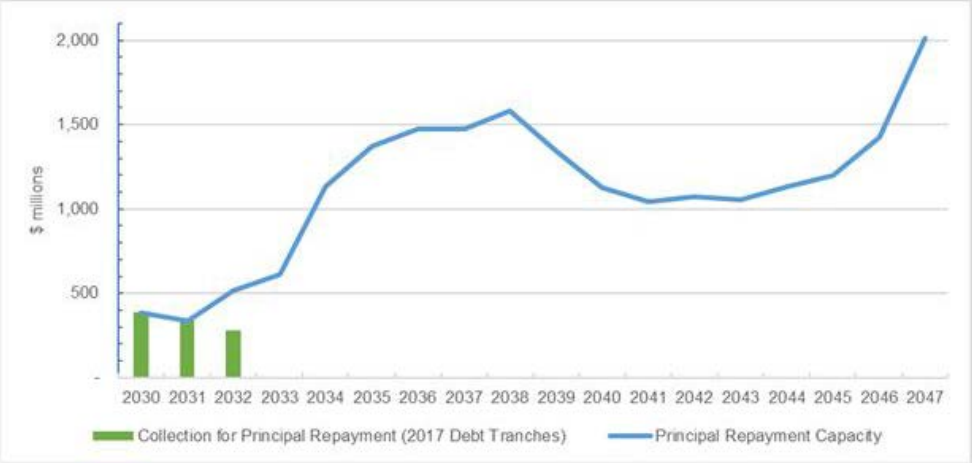
A negative Fair Allocation Amount in any reference period generally represents a period of borrowing, and a positive Fair Allocation Amount generally represents a period of principal repayment.

1. **Term to Maturity of Funding Obligations**

The forecast debt profile for the Trust based on the current Fair Allocation Amount received from the Province at the end of September 2017 indicates that principal repayments can commence in 2030 (see Figure 3) . However, the principal repayment amount for this year is expected to be relatively small at approximately $400 million for the year or about $200 million for each six-month reference period. Accordingly, principal repayment of the 2017 debt tranches is expected to commence in 2032 when the cumulative principal repayment amount reaches approximately $1 billion, which indicates a minimum term for the initial debt issuance of 15 years (i.e. 2017-2032). Subsequently, principal repayment increases to approximately
$1.5 billion annually or $0.75 billion for each reference period by around 2035 allowing for larger single maturities.

Clean energy adjustments for 2030 and 2031 will be collected in a reserve account. A sizeable senior notes issuance with the same term of about $500 million, representing 51 percent of approximately $1 billion in required financing will be necessary to attract investors and create liquidity as compared to having smaller less liquid individual debt tranches for years 2030 and 2031.

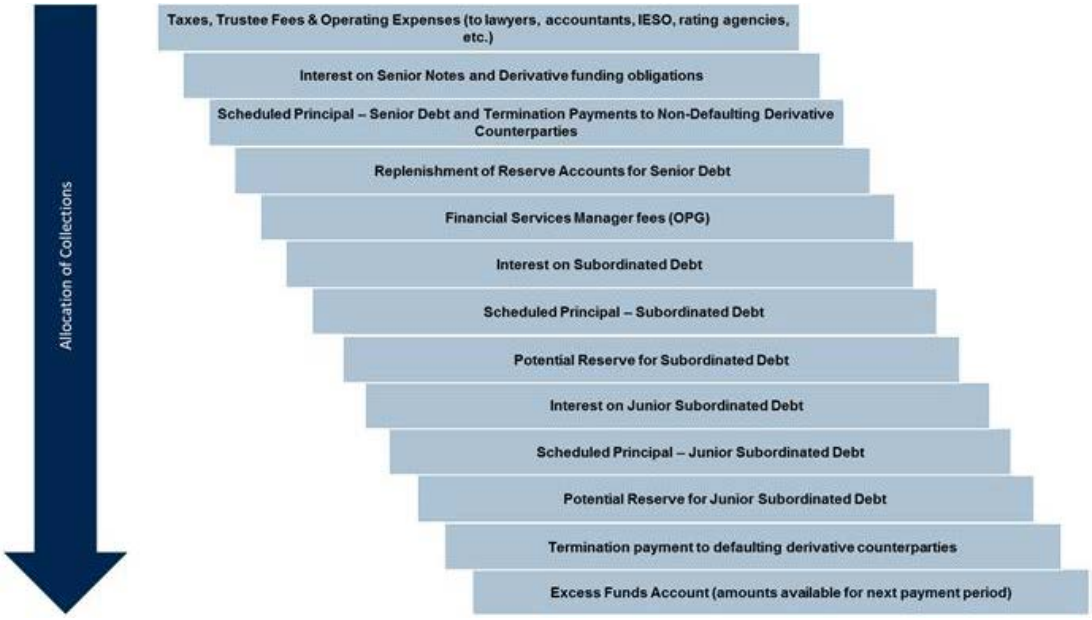
**Figure 3: Principal Repayment Profile Based on Current Fair Allocation Amount**



1. **Application of Recovery Amounts to Funding Obligations**

The Master Trust Indenture outlines the payment priorities for the Trust's receipt of cash flows. Figure 4 below summarizes the significant components of the waterfall.

**Figure 4: Waterfall for Cash Collection**



Payment Priorities

On each payment date, all amounts on deposit in the collection account will be paid out in the following order of priority:

1. to pay (A) all taxes exigible for which a governmental authority is given priority over the specified creditors under the laws of the applicable jurisdiction, and then (B) fees, expenses and reimbursements owing to the Issuer Trustee and the Indenture Trustee up to a maximum aggregate amount of ■ percent To be confirmed. of the outstanding principal amount of all funding obligations at such time;to pay (A) interest, fees and other amounts owing in respect of senior debt and
   (B) amounts payable to derivative counterparties other than termination payments;
2. to pay (A) principal owing in respect of senior debt to the extent required to satisfy any payment of principal; and (B) termination payments owing to derivative counterparties where the derivative counterparty is not the

defaulting party or the sole affected party;

3. to deposit or transfer to any reserve account in respect of senior debt, the amount required pursuant to the applicable funding obligation agreement;
4. to pay fees, expenses, reimbursement and indemnity amounts owing to OPG;
5. to pay interest, fees and other amounts owing in respect of subordinated debt;
6. to pay principal owing in respect of subordinated debt to the extent required to satisfy any payment of principal;
7. to deposit or transfer to any reserve account related solely to subordinated debt the amount required pursuant to the applicable funding obligation agreement;
8. to pay interest, fees and other amounts owing in respect of junior subordinated debt;
9. to pay principal owing in respect of junior subordinated debt to the extent required to satisfy any payment of principal;
10. to deposit or transfer to any reserve account related solely to junior subordinated debt the amount required pursuant to the applicable funding obligation agreement;
11. to pay termination payments owing to derivative counterparties where the derivative counterparty is the defaulting party or the sole affected party; and
12. to be held in the collection account for distribution in the above order of priority on the next payment date; or (ii) after all funding obligations have been paid and discharged, and all other amounts have been paid in full, to pay to the Trust.

Key Activities

The following table outlines the key activities required to execute the first purchase of the investment asset:

Hi.
After our meeting yesterday, we made the changes identified in the attached blacklines and sent the clean versions to Torys (transmittal email is included below, sent Thursday at 9 p.m. ET).
Please note that these revised versions delete a number of the “Notes” we had previously included for your consideration and our follow-up. Those deletions do not necessarily mean that an issue has been resolved, but rather we thought it best to not identify certain of those deleted items in the external circulation. Our work to resolve those open items will be on-going.
As discussed, Mike or Ken will be sending a follow-on email to OPG to emphasize that these drafts represent an advanced consideration of what the Province is able to do, that the drafts have moved considerably towards OPG’s proposed approach, and that only comments on critical issues will be appropriate given the limited time available. You will see that my cover email to Torys suggested that the next step should be for the Province to receive a consolidated mark-up that reflects all essential inputs (i.e., OPG, E&Y, Dealers, Osler and ideally rating agencies) and then to have an all-hands business meeting to resolve any outstanding points. It would be helpful if a similar approach is proposed in Mike’s/Ken’s follow-on email.
Please feel free to call if you have any questions or concerns.

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

**Draft: November 2, 2017**

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**ONTARIO POWER GENERATION INC.**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**"), is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM established the Financing Entity as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG, and of the Province in accordance with the Act, have been done.

---

[1] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM established the Financing Entity as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The trustee of the Financing Entity in its capacity as Financing Entity Trustee and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

OPG and the Province will concurrently enter into the Process Agreement, under which OPG will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved

Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity Trustee, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.09 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

### 1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Financing Entity shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the Approved Obligations owing from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration[1]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation (without Acceleration) in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts owing by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Collection Account (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

---

[1] Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[2] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 Gross-up**

[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.][3]

**2.03 Absence of Set-off**

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Collection Account in Satisfaction**

Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Collection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[4] Upon a payment having been made by or on behalf of the Province into the Collection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable under the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[5].

---

[3] Under consideration.

[4] This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently.

[5] Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee under this Agreement.

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03].

**2.09 Modifications of Approved Obligations**

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## ARTICLE III
## THE INDENTURE TRUSTEE

**3.01 The Indenture Trustee**

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

**3.02 Acceptance of Trusts**

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG) and addressed to the Province and the Indenture Trustee, one Business Day prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to the Primary Obligation:

i. confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation (if any), together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum; and

(a) to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

(b) as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a secured party under the Trust Indenture) under such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including, if applicable, as a Noteholder) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

**5.02 Priorities**

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

**5.03 Voting Rights under "Outstanding Notes"**

Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[7]:

(a) Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and

(b) in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.

**5.04 Province May Perform Other Program Agreement Covenants.**

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured and constitute a Finance Amount.[8]

[7] This concept needs to be reflected in the Trust Indenture.

[8] General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

On the occurrence of a Suspension Event, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").

### 8.04 No Impact on Adherence

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM ~~[~~established~~]~~ the Financing Entity as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program ~~Agreement~~Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG, and of the Province in accordance with the Act ~~and the OIC~~, have been done.

[1] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations ~~secured~~, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM ~~[~~established~~]~~ the Financing Entity as a "financing entity"~~[1]~~ (as defined in the Act) for the purposes contemplated in the Act.

The trustee of the Financing Entity in its capacity as Financing Entity Trustee and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

OPG and the Province will concurrently enter into the Process Agreement, under which OPG will agree to perform certain related activities and to provide certain assurances on which

~~[1] Note to Draft: Consideration is being given by MOE to possible changes to the Regulation to accommodate the proposed use of a "trust", as a "financing entity".~~

the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity Trustee, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

The Indenture Trustee agrees to provide the Province with the computations and calculations used by the Indenture Trustee to prepare each such statement of account promptly following a request therefor.

### 1.04 Limitation on Rights of and Actions by Specified Creditors

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

### 1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

### 1.13 Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

### 1.14 Non-Business Days

### 1.15 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

### 1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days

comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (~~a~~i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (~~b~~ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

### 1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

### 1.18 References to Acts of the Financing Entity Trustee

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

### 1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Financing Entity shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section ~~1.18~~1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the Approved Obligations owing from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration[1]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation (without Acceleration) in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts owing by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Collection Account (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and ~~[~~(ii) amounts required to be deposited by or on behalf of the Financing

[1] Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[2] ~~Note:~~ Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary ~~Obligation~~Obligations and an "investment interest" is therefore crucial~~. Unfortunately, the nexus is not straightforward~~. Blakes is considering how to more precisely connect these concepts.

Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.][3]

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 Gross-up**

[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.][4][3]

**2.03 Absence of Set-off**

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

[3] Note: OFA to confirm whether the Limited Guarantee will extend to require the Province to fill sinking fund and collateral accounts during the period when the Province is required to make payments. If not, then we will need to consider the impact on ratepayers and the potential impact on the CEA calculations, which will have been based originally on these deposits being made during particular reference periods.

[4] Province to advise on extension of a tax gross up. We assume this is necessary, although we have not discussed it specifically and it may be that we delete this provision on the basis that the determination of a tax gross up (and the Province's liability for it) will be based on the inclusion of that concept in the Trust Indenture itself[3] Under consideration.

## 2.04 Payment into Collection Account in Satisfaction

Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Collection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[54] Upon a payment having been made by or on behalf of the Province into the Collection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable under the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[65].

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

## 2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

[54] ~~Note:~~ This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently. ~~To be discussed with Torys.~~

[65] ~~Note:~~ Consider ~~if~~how Beneficiary rights under Obligations Secured ~~can in fact be affected in this way~~will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee ~~insofar as the Beneficiaries rights against the financing entity are to be affected~~under this Agreement.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03].

**2.09 Modifications of Approved Obligations**

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (a) the Adherence Conditions applicable thereto have been satisfied; or (b) the Province has specifically approved in writing the particular terms, conditions and documentation for the Primary Obligation.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured;

(b) ~~if the Primary Obligation is a [borrowing][7],~~ at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[~~8~~6] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under

[7] ~~Under consideration. Need to ensure that non-conventional instruments (capital rather than debt) are caught in the maximum test.~~

[8] ~~Note: The~~[6] Use of the concept of "repayments" under the OFHPA ~~take account of contemplated refinancings. There is some risk that an anticipated refinancing would not manifest as contemplated, in which case the amount financed (and subject to the Limited Guarantee) could exceed the Protection Agreement Maximum and result in a balloon payment obligation~~for this purpose is under consideration.

Approved Obligations,[9] do not exceed the Protection Agreement Maximum;

(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, ~~not less than ■~~one Business ~~Days and not more than ■ Business Days~~Day prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;

**Questions for MOE and OFA to consider regarding OPG's Proposed Adherence Terms**

A. Scope of Province's Obligations under the Change of Law Protection Agreement (**CLPA**)

1. On a Protection Event, should the Province become responsible for the payment of taxes (if any) owing by the Financing Entity?

2. On a Protection Event, should the Province become liable to pay amounts owing by the Financing Entity to OPG (e.g., FSM fees and expenses)?

3. On a Protection Event, should all available funds (e.g., funds accumulated in sinking funds) be immediately applied to reduce the amount that the Province would be liable for under the CLPA?

4. Should the Province set a "Protection Agreement Maximum" (previously called the "Program Maximum") that measures and relates only to "principal amounts"? In other words, should the limitation be tied only to principal obligations, while the Province's actual obligations would automatically extend, without specific quantum limits, to the other payment obligations under "funding obligations" (e.g., interest, swaps, standby liquidity commitment fees, servicer fees and expenses)?

5. Is the Province comfortable guaranteeing contingent obligations (e.g., indemnity obligations) of the Financing Entity? If so, should the Province require that such contingent obligations be "capped" within the funding obligation itself or should the exposure of the Province be otherwise limited under the CLPA?

6. Should the Province be required to deposit funds to meet sinking fund or collateral deposits (i.e., deposit obligations incorporated in the financing structure on the basis that the "clean energy" cash flows will service the obligations, rather than the Province), notwithstanding that the Province would have become primarily liable for payment obligations under the CLPA?

B. Adhesion

7. Is the Province okay splitting the maximum exposure limitations and "process-related" matters (see below) into a separate agreement - away from the terms of the agreement under which the Province's payment obligations would bind the Province opposite the Indenture Trustee? OPG proposes this in order to keep the optics of the CLPA as simple and straightforward as possible. In other words, is the Province prepared to leave all of the important details regarding what OPG is supposed to do before incurring an obligation that binds the Province to a side agreement with OPG, that is opaque to the Indenture Trustee and Underwriters at the time a funding obligation is incurred and not requiring any third party to have notice or regard to the Province's requirements?

8. OPG proposes that delivery of an officers' certificate to a third party, in OPG's capacity as FSM, will in and of itself bind the Province under the CLPA. That certificate would simply indicate that the Province is bound under the CLPA with respect to the specified funding obligation. It would not be addressed to the Province (although a pre-closing certificate is contemplated to be delivered to the Province) and the "Protection Agreement Maximum" concept would not be incorporated as a specific condition (other

than to the extent that OPG is bound to the Province under the side agreement with the Province). Is this acceptable to the Province? Does this raise any governance/authority issues for the Province (e.g., limit on incurrence needing to be specifically confirmed at closing? scope of permitted delegation to bind? FAA compliance?)

C. "Protection Agreement Maximum" (formerly "Program Maximum" (**PAM**)

9. OPG proposes that the PAM will be determined based on a mechanical calculation and without any real discretion on the part of the Province to set or object to the PAM. Is this acceptable to the Province?

10. OPG's proposed mechanical process to determine PAM would be based on OPG's 24 month forecast (estimate) of payments to be made by the Financing Entity. So long as that forecast (and any refresh) is consistent with the "Financing Plan" (also prepared by OPG) and is "reasonably expected to align with the fair allocation amount", the Province will be required to accept the PAM based on OPG's forecast – i.e., no discretion to reject or modify the aggregate amount of the Province's commitment initially or from time to time. Is the Province prepared to tie its CLPA obligation automatically to the operation of the OFHPA in this way, without review and with perpetual effect?

11. Is the proposed mechanical link to the OFHPA calculations consistent with the OIC or other governance requirements applicable to the Province's authority to approve the CLPA?

12. Is the initial 24 month forecast period appropriate (e.g., 2.5B x 2 – large)? Is OPG's proposed refresh of the PAM (mechanically tied to the new forecast), 9 to 12 months prior to the end of the 24 month forecast period, appropriate?

D. "Process-Related" Matters

13. Assuming the Province is okay with the arrangements described in question 7, above, we would envision a mechanism where the Province could give the Indenture Trustee notice of a breach (if known) by OPG of the PAM or process-related side agreement, and that such a notice would have the effect of cutting off the application of the CLPA for any future incurrences unless the Province further agrees otherwise. Does the Province agree that this sort of failsafe is essential? Note that OPG's suggestion has been that no pre-incurrence non-adherence/failsafe provision be provided, in order to allow the Province to provide notice that the CLPA will not apply to a pending/proposed incurrence.

14. Does the Province need to contemplate other scenarios where the CLPA would become ineffective in respect of future incurrences, such as:

    a. an OPG change of control

    b. a policy-based determination by a future government

    c. an unanticipated circumstance, such as the incurrence by the Financing Entity of assessed tax liabilities, indemnity payments, "increased costs", rating downgrades, offering disclosure-based claims, defaults under the program,

insolvency of a major counterparty (e.g., swap counterparty or services provider), etc.

d. a discretionary circumstance where the Province decides it no longer wishes to be liable under the CLPA?

We expect that OPG would push back so that any suspension of new obligations by the Province would not hamper OPG's ability to complete an anticipated/needed refinancing.

15. Does the Province have any reservations about letting OPG at any time provide a binding certificate to third parties regarding adherence, which would be determinative of the Province's obligations. What conditions for this sort of certificate would make sense (e.g., preview and consent by the Province)? Does this proposal raise any governance/authority issues for the Province (e.g., scope of delegation; FAA compliance)?

16. If the Province is prepared to be liable for taxes owing by the Financing Entity (see question 1, above), what oversight, assurances, documentation and reporting regarding the potential for entity-level taxes should the Province require (if any)?

17. OPG is proposing that the Province will receive a certificate prior to the Financing Entity incurring a funding obligation, that sets out "the material terms of the funding obligations pertaining to the principal amount, pricing and third party fees". Is that a sufficient amount of detail, or would the Province like to specifically itemize its information expectations, to cover things such as:

    a. details respecting any principal obligation, such as:

        i. the amount, timing and conditions of repayments (including any redemption or extension rights)

        ii. the basis for OPG's expectations regarding the availability of any related refinancings

        iii. any required deposits to be made into a capital account or a finance reserve account in order to provide for payment of the principal obligation

        iv. the rating (if any) contemplated to be attributed to the principal repayment of the funding obligation

        v. details respecting any redemption rights, including the nature and conditions applicable to any exercise and OPG's expected basis for determining whether or not to exercise a redemption right, option or privilege;

    b. details respecting interest obligations, such as:

        i. the anticipated interest or discount rate or rates (including default rates)

        ii. the timing/frequency/conditions of coupon payments

iii. any required deposits to be made into a finance reserve account or supplemental account

iv. the availability of any funding rebates in order to provide for payment of interest

v. the rating (if any) contemplated to be attributed to the interest obligation;

c. details respecting any hedging obligation (e.g., interest or FX swaps, options or other derivatives), such as:

i. the name of the counterparty and credit details

ii. the credit ratings (if any) of the payor(s)

iii. the risks sought to be mitigated by the derivative

iv. anticipated circumstances (if any) in which the derivative may not achieve such mitigation or be subject to early termination

v. whether collateral posting requirements will apply;

d. details respecting other funding obligations, such as:

i. the payee

ii. the timing and any conditions of payments

iii. any required deposits to be made into a finance reserve account or supplemental account or the availability of any funding rebates in order to provide for payment of such obligations

iv. in the case of a contingent obligation (e.g., indemnities), the nature and extent of any contingency affecting the payment obligation, the circumstances in which a payment obligation may arise and any specified maximum claim amount

e. assuming that the Province would be liable for capital, reserve or supplementary account deposit obligations (see question 6, above), details respecting the schedule for such deposits and the conditions for the application of such amounts to pay such amounts and the related priorities for application.

18. OPG (and presumably OPG's accountants) is contemplating that the Province will be provided transaction documentation "in substantially final form" and that the Province will not be entitled to provide input "other than in its capacity as obligor under the [CLPA]". In other words, assuming that the CLPA is signed in advance, the Province will have no real opportunity to comment on the forms of transaction documents to be used, and will

have a limited opportunity to "not accept" [1] the documentation. Can the Province live with these limitations?

19. The proposed OPG certificate (pre-incurrence) would include an attestation by OPG regarding the use of pre-reviewed documentation. The test for conformity of the to-be-used documentation, compared to the pre-reviewed documentation, would focus only on whether "the covenants of the Financing Entity are no more onerous in any material respect" and that the "events of default" are consistent "in all material respects". Is the limited scope of this conformity test acceptable, or should it be broadened and cover specific items such as:

    a. no differences in the timing of or circumstances under which payments are or may become due (for example, as a result of any termination, wind-up, liquidation or realization)

    b. no differences that could affect the Province's rights of subrogation or interests as a subrogee

    c. with respect to the anticipated form of series specific documents (as opposed to the upfront terms of program-wide "master" documents), confirming that the variable terms set forth in the proposed documents are as reasonably contemplated in the reviewed forms, having regard to such matters as:

        i. the type of instrument to be issued (i.e., debt (bullet vs. amortizing), equity-linked, pass-through instruments, etc.)

        ii. the scope of the related obligations (e.g., redemption or extension features or other optionality)

        iii. the extent of the related obligations (e.g., limited recourse features, limitations on indemnities, etc.)

        iv. the timing, conditions and circumstances in which payment obligations may arise,

    but making it clear that conformity would not include a comparison to the particular financial terms, rates, levels and parameters of the obligations other than if the reviewed forms specify specific requirements, limitations or parameters.

20. How much time is sufficient for the Province:

    a. to do an initial review of the main transaction documentation (including forms of series-specific documents), which would set the acceptable pattern for future

---

[1] Note that the proposed OPG language is not crystal clear that the Province can reject the reviewed documentation, which we expect is merely drafting, but that will need to be confirmed assuming the Province wishes to work within the OPG/Tory mark-up.

issuances? The proposal is 15 BDs, although that does not seem to make sense given that OPG proposes that the Province must confirm acceptance of the terms within 15 BDs of receipt of the documentation

b. to do a review of any changes to the main transaction documentation (including forms of series-specific documents), which would reset the acceptable pattern for future issuances? The proposal is to receive proposed amendments at least 15 BDs prior to first use, and the Province would confirm acceptance of the terms within 15 BDs of receipt of the documentation

c. to review applicable details of a proposed funding obligation in advance of an incurrence (proposal is 10BDs)?

21. What other items should be incorporated into the timeline from the Province's perspective?

E. Information, Reporting and Other Covenants

22. OPG proposes to provide the Province with an applicable "Financing Plan" only after an incurrence. Does the Province need to see this document as it is issued and changed, rather than only after the time of an incurrence?

23. OPG proposes to provide the Province with any actual offering/disclosure documents only after it is used. Does the Province need to have input into offering/disclosure document before use or dissemination (e.g., the description of the CLPA)?

24. OPG has limited its negative covenant on elections by the Financing Entity following a Protection Event to actions that would accelerate obligations. Should this be broader to cover extensions or other consensual changes that could affect the obligations (e.g., creditor concessions).

F. Parties

25. Will it be sufficient for the CLPA (and any procedural side-letter) to be signed by OPG, acting solely in its capacity as "financial services manager" (i.e., with OPG's liability being limited by the terms of the related management or administrative agreement)? How does this interplay with any other indemnities or exculpatory provisions that the Province is anticipating for OPG (corporate) and its officers?

26. Who from OPG should sign the officer's certificate? The OPG proposal is 2 "executive officers".

27. OPG proposes that a failure to comply with the PAM or "approval process" will not result in any breach. Assuming that OPG is in fact proposing that its failure would have no consequences, including as between the Province and OPG whatsoever, are the process aspects of the OPG proposal even meaningful to the Province?

Hi Gadi,
I hope NYC is going well and you are finding air conditioning.
We have been working with Steen's team and Energy legal on a draft of the fees regulation for OPG Trust and OFHP. As we progress through this, there are some elements of the regulation that we were hoping you and the OFA team might be able to consider (please see attached a black line for your reference):

- The draft reg outlines a base fee as well as a variable fee.
    - The base fee is provided monthly at an annual rate of 10-basis points for the first two years (we had this initially set at one year but Torys' markup changes this to two years). After 2019, the base fee is provided at an annual rate of 8 basis points should the funding obligations exceed $10B. Does this seem reasonable?
    - The variable fee structure seems consistent with previous discussions (5 basis point fee provided on the spread). Do you think this makes sense?
    - It would also be helpful if the OFA could let us know if the method for calculating the monthly funding obligation is reasonable.
- With respect to costs, our understanding is that these sorts of costs are typically a pass through; can the OFA confirm? The Torys markup removes OEB oversight on costs but we are wondering if there should be a role for the OFA in reviewing / providing oversight in this regard?
    - Also, do the costs they've outlined seem reasonable? In particular, LSB is wondering whether this leaves the door open for OPG to pass through any overhead costs (i.e. should we be explicit about excluding them)?
- On timing, the draft reg currently contemplates a fee application by OPG every two years regardless of what interest rates are in the market. Do we think this is fair or should the application occur annually? (Note that until new fees are established, the old fees are still in effect).

In terms of next steps, OPG would like to get a draft to their Board in time for the meeting on Friday. ENERGY LSB is hoping for comments by tomorrow. I don't think we need anything too detailed or formal, but a quick sniff test would be useful to ensure we are on the right track.
Thanks for your help,
Scott

# ONTARIO REGULATION

made under the

# ONTARIO FAIR HYDRO PLAN ACT, 2017

## FEES

**Definitions**

**1.** (1) In this Regulation,

"average monthly funding obligation" means, in respect of a month, the amount determined in accordance with subsection (2);

"average annual funding obligation" means, in respect of a year, the sum of the average monthly funding obligations for the year;

"comparison fees" means ~~typical fees~~**market comparable fees, expressed as a per annum percentage rate,** charged by ~~[service providers?~~**asset** managers~~?]~~ ~~in Ontario~~ **in Canada and any other jurisdiction as may be determined by the Board** for services that are similar to the services provided by the Financial ~~Service Manger~~**Services Manager** under the Act in terms of,

(a) the type of services provided, being services in respect of funds including securitization vehicles, pension funds, other investment funds, hedge funds and other similar funds ~~in Ontario~~,

(b) the scope of the services provided, ~~and~~

(c) the level of the services provided**, and**

**(d) the amount of assets under management**;

**"forecast interest rate" means, in respect of each tranche of funding obligations, an interest rate forecast to be applicable to such tranche of funding obligations after taking into account (i) the interest rate for debt of or guaranteed by the Province of Ontario with a corresponding term or duration, (ii) the estimated credit spread for such tranche of funding obligations with a comparable term and based on the type of instrument and risk of the issuer, and (iii) anticipated fees and commissions expected to be payable in connection with the issuance of such tranche of funding obligations.**

"net annual funding obligation" means, in respect of a year, the sum of the principal amounts of funding obligations incurred by financing entities in a year~~, other than any refinancing~~;

(2) For the purposes of determining the average monthly funding obligation for a month, the following formula applies:

$$(A + B) / 2$$

Where,

A = the sum of the balances**, as** at **12:00 am on** the ~~start~~**first calendar day** of the month**,** of the principal amount of all **outstanding** funding obligations ~~incurred by~~**for all** financing entities,

2

B = the sum of the balances**, as** at **11:59 pm on** the ~~end~~**last calendar day** of the month**,** of the principal amount of all **outstanding** funding obligations ~~incurred by~~**for all** financing entities.

**Fees that may be established, charged**

**2.** (1) For the purposes of subsection 19 (3) of the Act, the fees established and charged by the Financial Services Manager may be charged to financing entities in relation to **the management and administration of financing entities and the investment asset, including in relation to** funding obligations incurred or that are planned to be incurred by the financing entities.

(2) A fee mentioned in subsection (1) shall be comprised of a base fee calculated under section [3, 4 or 5], as the case may be, and a variable fee calculated under section [6].

(3) ~~For the purposes of subsection 19 (3) of the Act, fees may be~~**Out-of-pocket costs and expenses of the financing entities incurred by the Financial Services Manager on behalf of the financing entities and for which the Financial Services Manager is entitled to reimbursement under a** management agreement with **such financing entity shall not constitute a fee** established and charged by the Financial Services Manager ~~to financing entities for the recovery of costs and expenditures, as provided for in section 7.~~**under subsection 19(3)**

**of the Act.[1] The costs and expenditures of the financing entities referred to in this subsection (3)** may include costs and expenditures in respect of the following:

1. Underwriters or selling agents for funding obligations**;**

2. **Banking fees, including structuring fees or work fees;**

3. Fees of issuing and paying agents for funding obligations**;**

4. **Fees of trustees;**

5. Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns**;**

6. Fees of legal counsel**;**

7. **Rating agency fees; and**

8. Filing or registration fees.

(4) The Financial Services Manager shall not establish or charge any fees to financing entities other than those provided for under this ~~R~~egulation.

**Base fee, 2018 and 2019**

**3.** Subject to section 5.1, the base fee for a month in the ~~year~~**calendar years** 2018 **and 2019** shall be calculated using the following formula:

$$(0.1 \times B) / 12$$

Where,

B = the average monthly funding obligation for the preceding month.

**Base fee, after ~~2018,~~2019, average annual funding obligation greater than $10 billion**

**4.** (1) This section applies for the purpose of calculating the base fee for a month in any year following ~~2018~~**2019** if the average annual funding obligation for the preceding year was greater than $10 billion.

**[1] These represent third party costs and expenses of the financing entity, not part of the fees that OPG is charging the financing entity. From time to time, OPG may have to pay these upfront costs on behalf of financing entities but they will be a pass-through cost for which OPG would simply be reimbursed by the financing entity. Other than OPG's fees, the costs and expenditures of financing entities are not subject to OEB review under the Act but rather are recoverable as expenses through the CEA (and through IESO during the moratorium). Subsection (3) in this draft was added for greater certainty to ensure there was no misunderstanding.**

(2) Subject to section 5.1, the base fee for the month shall be calculated using the following formula:

$$(0.08 \times B) / 12$$

Where,

B = the average monthly funding obligation for the preceding month.

**Base fee, after ~~2018,~~2019, average annual funding obligation $10 billion or less**

**5.** (1) This section applies for the purpose of calculating the base fee for a month in any year following ~~2018~~2019 if the average annual funding obligation for the preceding year was equal to or less than $10 billion.

(2) Subject to section 5.1, the base fee for the month shall be calculated using the following formula:

$$(0.1 \times B) / 12$$

Where,

4

B = the average monthly funding obligation for the preceding month.

**Board review of base fee**

**5.1** If the Board, after reviewing a submission in respect of a proposed base fee by the Financial Services Manager under section 9, is of the view that applying the applicable formula set out in section 3, 4 or 5 results in a base fee that is inconsistent with prevailing comparison fees, the Board may refuse to approve the proposed fee. If the Board refuses to approve the proposed base fee submitted by the Financial Services Manager under section 9, the Board shall provide its reasons for such refusal and ~~may~~ make recommendations to the Financial Services Manager regarding the determination of a base fee that is consistent with comparison fees~~.~~ and based on the methodology used in the formulas set out in section 3, 4 and 5.

**Variable fee**

**6.** (1) Subject to subsection (2) and section 6.1, the variable fee for a year shall be the sum of the amounts of each tranche of net annual funding obligations for the year, calculated by using the following formula~~:~~ (which in respect of individual tranches may result in a negative number):

$$(A \times (B - C)) \times 0.05$$

Where,

A = the principal amount of the tranche,

B= the forecast interest rate for the tranche, as determined by the Financial Services Manager before the start of the year, based on the term of the tranche, and

C = the actual interest rate for the tranche.

(2) If the circumstances set out in Column 1 of the following Table apply in a year, the variable fee payable for a year is subject to the rules set out opposite the circumstances in Column 2 of the Table:

| Item | Column 1<br>Circumstances | Column 2<br>Rules |
|---|---|---|
| 1. | The average annual funding obligations are $10 billion or less. | The variable fee payable for the year shall not be more than 1 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -1per cent of the amount that is 5 per cent of the net annual funding obligation. |
| 2. | The average annual funding obligations are greater than $10 billion. | The variable fee payable for the year shall not be more than 2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year. |

**Board review of variable fee** 5

**6.1** If the Board, after reviewing a submission in respect of a proposed variable fee by the Financial Services Manager under section 9, is of the view that the forecast interest rate used for the purposes of the formula set out in subsection 6 (1) is ~~[unreasonable]~~**not consistent with market comparable forecast interest rates**, the Board may refuse to approve the proposed fee**. If the Board refuses to approve the proposed variable fee submitted by the** Financial Services Manager **under section 9, the Board shall provide its reasons for such refusal** and ~~may~~ make recommendations to the Financial Services Manager regarding the forecast interest rate that is ~~reasonable.~~**consistent with market comparable forecast interest rates.**

~~**Fees for costs and expenditures**~~

~~**7.** (1) The Financial Services Manager may establish and charge fees for the recovery from a financing entity of any costs and expenditures incurred in connection with the Financial Services Manager's duties under the Act in relation to the financing entity or under any management agreement with the financing entity.~~

~~(2) The costs and expenditures referred to in subsection (1) may include costs and expenditures in respect of the following:~~

~~1. Underwriters or selling agents for funding obligations.~~

~~2. Banking fees.~~

3. ~~Fees of issuing and paying agents for funding obligations.~~

4. ~~Fees of trustees.~~

5. ~~Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns.~~

6. ~~Fees of legal counsel.~~

7. ~~Filing or registration fees.~~

8. ~~Fees of any third party independent consultants required to be retained under the Act.~~

~~**Board review of fees for costs, expenditures**~~

~~**7.1** If the Board, after reviewing a submission in respect of a proposed fee for costs and expenditures by the Financial Services Manager under section 9, is of the view that the proposed fee is in respect of costs and expenses that were [not prudently incurred, or not incurred in relation to funding obligations incurred or that are planned to be incurred by financing entities], the Board may refuse to approve the proposed fee or a portion of the proposed fee and may make recommendations to the Financial Services Manager regarding the proposed fee.~~

**Charging of fees**

**8.** (1) In charging fees, the Financial Services Manager shall provide for,

(a) the base fee for a month to be payable within **[x]** days after the end of the month; and

(b) the variable fee for a year to be payable in the following calendar year in twelve equal monthly instalments that coincide with the payment of the base fee for each month.

(2) If the variable fee is a negative amount, it shall be deducted from the base fee payable in the following calendar year in twelve equal monthly instalments.

(3) Where there is more than one financing entity, the portion of the fees allocated to and payable by a financing entity shall be based on its proportionate share of the average principal amount of funding obligations for the applicable period.

**Submissions to Board re fees**

**9.** (1) The Financial Services Manager shall make submissions to the Board in respect of the fees proposed to be charged under section ~~5.1, 6.1~~**5.1** and ~~7.1~~**6.1.**

(2) The first submission **for proposed fees to be charged for a two year period commencing in 2018** shall be made no later than [October 31, 2017].

(3) ~~The submission for each calendar year starting with 2019~~**Submissions for proposed fees to be charged for a two year period commencing in 2020 and for every two year period thereafter** shall be made no later than [120 days] before the start of the **applicable two** year **period**.

(4**) Submissions to amend the proposed fees for a month in any year following approval of the proposed fees for any two year period may be made from time to time but no more frequently than once in any 12 month period and no later than 120 days before the start of the year in which such fees are proposed to be effective.**

**(5**) If the Board makes recommendations as described in section ~~5.1, 6.1~~**5.1** or ~~7.1,~~**6.1,** the Financial Services Manager shall submit to the Board,

(a) a revised proposed fee that takes into consideration the recommendations of the Board, and in the case of the base fee is consistent with comparison fees;

(b~~)~~ ~~a description of the methodology that the Financial Services Manager has applied to determine the revised proposed fee;~~

(~~c~~) in the case of the base fee, details concerning the comparison fees that the Financial Services Manager considered; **and**

(~~d~~**c**) in the case of the variable fee, a description of the methodology that the Financial Services Manager has applied to determine forecast interest rates in respect of tranches of the net annual funding obligations~~; and~~**.**

(~~e) in the case of a proposed fee for costs and expenditures by the Financial Services Manager, the rationale for the costs and expenditures having been [prudently incurred, and having been incurred in relation to funding obligations incurred or that are planned to be incurred by financing entities]~~ **6) Until the Board has approved the fees in respect of any two year period, the fees approved for the prior two year period shall remain in effect.**

**Board approval, general**

**10.** (1) ~~The Board may approve a proposed fee submitted by the Financial Services Manager or refuse to approve and refer the proposed fee back to the Financial Services Manager with the Board's recommendations.~~

~~[OLC Note: As noted by ENE LSB, there is some redundancy at the moment between section 10 and sections 5.1 and 6.1. This matter will be addressed in a subsequent draft when we have settled the Board approval process for each of the various scenarios (e.g. base fee; variable fee; costs/expenditures fee).]~~

~~(2) The Board may specify in its approval that a fee payable in respect of any period beginning on or after July 1, 2017.~~(3) For the purpose of determining whether to approve a proposed fee~~,~~ **described in section 5.1 or 6.1,**

**(a)** the Board shall consider the information provided by the Financial Service Manager in its submission relating to the proposed fee~~.~~**; and**

[OLC Note re DEFERRAL ACCOUNT:
1. You included the following instruction that would require the FSM to establish a deferral account -- what is the authority for imposing this requirement? Recall that in subs. 34 (1) of the Act, the Board is given authority to require that the FSM maintain specific accounts.

2. ENE LSB note: *Necessity of this provision to be discussion with the OEB given that fees will be recovered as a financing entity expense through the Fair Hydro program and not as part of the fees to be approved by the Board.*]

*[If needed, deferral provision could be along the following lines: The Financial Services Manager shall establish a deferral account in connection with subsection 19 (3) of the Act that records costs incurred by the Financial Services Manager in providing services referred to in section 1 during the period from July 1, 2017 to the day before the date of the Board's first order under subsection 19 (3) of the Act.]*

[OLC Note re FINANCE AMOUNT: You included the following instruction, but I think this more properly belongs somewhere in section 5 of O. Reg. 206/17? In fact, are these fees not already covered in that section (perhaps under "financing entity expenses"?). Please confirm: *Fees established by the Financial Services Manager and approved by the Board, and any applicable taxes on such fees, shall be included in the definition of "expenses" for the purposes of determining finance amounts under the Act.*]

*[Notes Re: Determining Fees:*

*(1) An alternative approach involves the Board approving the initial base fee and variable fee, with any changes to those fees being triggered by the FSM submitting to the Board proposed amendments to those fees (or the Board triggering a review on its own initiative (not more than once per year). However, because interest rates (and hence forecast interest rates) change over time (and can change even within a year), consider whether variable B of the variable fee should be approved annually. Similarly, because trends for "market comparable fees charged by service providers for similar services" change over time, consider whether variable A of the base fee should be approved annually.]*

*(2) Once every three years after the Board has approved the fees submitted by the Financial Services Manager under section 3, or more frequently if the Board requires but not more frequently than annually, the Board may require the Financial Services Manager to engage, on behalf of and at the cost of the financing entities, a third-party independent consultant to review and advise as to the appropriate benchmarks and range of values for [annual rates?] used for the purpose of determining the base fee and forecast interest rates used for the purposes of determining the variable fee and shall give due consideration to such advice.]*

## A. Background

In June 2017, the Province enacted the *Ontario Fair Hydro Plan Act, 2017* (the Fair Hydro Act or the Act), to establish a framework under which the costs and benefits associated with the Government of Ontario's (the Province) clean energy initiatives are to be fairly allocated between present and future consumers of electricity under Ontario's Fair Hydro Plan (Fair Hydro Plan or FHP). The Act requires the Ontario Energy Board (OEB) to set rates that reduce average electricity bills for specified consumers by 25 percent commencing on July 1, 2017. The total bill reduction of 25 percent is comprised of an 8 percent reduction of the Provincial portion of the harmonized sales tax, with the remaining 17 percent achieved by decreasing energy rates for specified consumers paying the Regulated Price Plan rate and providing a global adjustment reduction credit for other specified consumers. The reduction in electricity bills will result in a shortfall in the Independent Electricity System Operator's (IESO) collections, which will need to be financed in order to pay the underlying global adjustment costs (GAC). The objective of the Fair Hydro Plan Program (FHP Program) is to refinance a portion of the deferred GAC over a longer period.

Under the Act, OPG is appointed as the Financial Services Manager (FSM) and is given the authority to, among other things, establish and manage one or more financing entities to raise debt financing (referred to as "funding obligations") for the purposes of the Act. The Act requires the Minister of Energy (MOE) to calculate the Fair Allocation Amount and for the FSM to incur funding obligations that, subject to refinancing, reasonably align with the Fair Allocation Amount, as adjusted by any readjustment amount.

The following attendant regulations were enacted in support of the Act:

- *Ontario Regulation 206/17 General* (General Regulation) provides details on specific requirements of the Act, in particular, the requirements for the Financing Plan.
- *Ontario Regulation 195/17 Fair Adjustment* provides details on rate reductions up to April 30, 2019 for specified consumers under the Act.
- *Ontario Regulation 196/17 Invoicing Requirements* provides details on information to be included with the invoice for specified consumers under the Act.

Under sections 21(1) and 21(2) of the Act, OPG, as FSM, has an obligation to prepare a Financing Plan in accordance with the Act and regulations, and to deliver it to the Minister of Energy. Under section 21(6) of the Act, the FSM has the right to amend the Financing Plan from time to time, without affecting any Clean Energy Adjustment that has already been determined or any funding obligations that have already been incurred before the amendment.

This Financing Plan was prepared based on the information available to, and the views of, OPG at the time this Financing Plan was prepared (or amended, as applicable). This Financing Plan also includes forward-looking information, which is subject to change. Actual outcomes and results may differ materially from what is expressed, implied or forecasted due to, but not limited to, changes in underlying assumptions relating to the Fair Allocation Amount, interest rates, investor interest, market capacity, market conditions, and credit rating assessments. References made to the "current Fair Allocation Amount" pertains to the Fair Allocation Amount received by OPG from the MOE at the end of September 2017. Terms that are capitalized and not defined herein have meanings ascribed to the same terms as in the Act or in the General Regulation. All amounts presented are in Canadian dollars.

## 1. Financing Entity – Fair Hydro Trust

Trustees

In **[**November**]** 2017, OPG as FSM, appointed Computershare Trust Company of Canada to act as the third party issuer trustee (Computershare or Issuer Trustee). Following its appointment, the Fair Hydro Trust (the Trust) was established as a financing entity contemplated in the Act through a declaration of trust. The Trust is structured to be bankruptcy remote from OPG. The Issuer Trustee is empowered under the declaration of trust to appoint, employ or contract with any person for the transaction of the Trust's activities. Under the Management Agreement between the Trust (by the Issuer Trustee) and OPG, the Trust appointed OPG as its agent to provide services and perform duties for the Trust in planning, implementing and administering the debt financing for the FHP Program.

In **[**November**]** 2017, OPG as FSM, appointed BNY Trust Company of Canada, as the third party indenture trustee (BNY or Indenture Trustee). The Indenture Trustee will be acting on behalf of all specified creditors, who are all persons who may have contractual claims against the Trust under the FHP Program agreements contemplated by the Master Trust Indenture (MTI) governing the debt issued by the Trust.

Unitholders

The Trust will carry on activities for the benefit of its unitholders outlined below:

**Table 1: Fair Hydro Trust Unitholders**

| Unitholder | Number of Units Held |
|---|---|
| FHP2017 Inc., a wholly-owned subsidiary of OPG | 1,000,000 |
| BNY, as Indenture Trustee | 1 |
| Total Units Outstanding | 1,000,001 |

Trust Capitalization Structure

The Trust will be 100 percent debt financed and the contemplated source of funding is summarized in Table 2.

DRAFT

**Table 2: Type and Source of Debt Funding**

| Tranche and Debt Type | Source of Funding | % of Total Funding Requirement |
|---|---|---|
| Tranche A<br>Senior Debt | Capital Markets | 51% |
| Tranche B<br>Subordinated Debt | OPG via Province | 39% |
| Tranche C<br>Junior Subordinated Debt | OPG via Province | 5% |
| | OPG via Capital Markets | 5% |

The Trust will issue senior debt in the capital markets to finance 51 percent of the total funding requirement related to the deferred GAC (Tranche A). The financing platform was developed to allow the Trust access to both the Canadian and United States (US) markets in order to optimize pricing, provide flexibility, and market capacity. Further details on the types of financing that can be utilized are outlined under the heading *Current Funding Options*.

Through periodic equity injections in OPG, the Province is expected to provide 44 percent of the total funding requirement throughout the duration of the FHP Program. OPG will invest the proceeds from the equity injections into the Trust, with 39 percent in Tranche B as subordinated debt and five percent in Tranche C as junior subordinated debt.

OPG will invest the remaining five percent of the total funding requirement in Tranche C as junior subordinated debt, using internally generated funds or proceeds raised from debt issuances from the public markets.

## 2. OPG's Duties and Responsibilities

Financial Services Manager under the Act

OPG, as FSM, will perform its duties and responsibilities under the Act and its attendant regulations. These include, but are not limited to, the following:

- Establish one or more financing entities to incur funding obligations for the FHP Program
- Prepare a written Financing Plan to be used by OPG to evaluate the incurrence of funding obligations to acquire and finance a portion of the GAC deferral
- Ensure that funding obligations are incurred in a manner that is consistent with the Financing Plan
- Forecast the cash flow requirements of the financing entities
- Determine the monthly Clean Energy Adjustment for a particular ~~r~~Reference ~~p~~Period
- Administer the Investment Asset on behalf of the financing entities
- Establish and charge fees to the financing entities to recover costs and expenditures and to earn a return
- Seek the best terms available at the time of incurrence of a funding obligation, having regard to other financing transactions of similar size and type

- Apply debt proceeds to purchase an Investment Interest or repay or redeem outstanding debt
- Consider the interests of specified consumers with respect to stable and predictable electricity rates
- Deal with related parties on arm's length terms
- Fulfil various reporting requirements to stakeholders

Manager under the Management Agreement

OPG has also entered into a management agreement with the Issuer Trustee, on behalf of the Trust, whereby all of the powers and duties of managing the Trust have been delegated to OPG as the manager. The duties and responsibilities associated with this role includes:

- Determining whether to incur funding obligations to acquire an Investment Interest or to refinance existing funding obligations;
- Negotiating and entering into program agreements;
- Maintaining accounts and banking records;
- Preparing any offering documents furnished by the Trust to prospective purchasers of funding obligations; and
- Preparing financial statements and tax filings on behalf of the Trust.

OPG's entitlement to fees, as FSM, is subject to the payment priorities outlined in the MTI and summarized in Section C, *Application of Recovery Amounts to Funding Obligations,* Figure 5. The FSM is not entitled to resign from its duties or terminate the management agreement as long as funding obligations remain outstanding. OPG may be terminated by the Issuer Trustee, with the consent of the Indenture Trustee, or by the Indenture Trustee in accordance with the MTI.

## 3. Fair Allocation Amount and the Financing Plan

The Fair Allocation Amount, including the readjustment amount, is an amount calculated under the Act and the regulations by the MOE for every ~~r~~Reference Pp~~p~~eriod over the term of the FHP Program. It is intended to allocate the estimated Clean Energy Costs and Clean Energy Benefits fairly among specified consumers.

The FSM is required to prepare a Financing Plan under the Act to evaluate whether funding obligations should be incurred by the Trust. OPG is to have regard to certain prescribed principles (outlined in detail in Section B below), including that funding obligations should be incurred so that the estimated Finance Amount that would become due and payable during a ~~r~~Reference ~~p~~Period will, subject to refinancing, reasonably align with the Fair Allocation Amount determined in respect of such ~~r~~Reference Pp~~p~~eriod, as adjusted by a readjustment amount where applicable. In other words, the Financing Plan should contemplate the issuance of funding obligations from time to time, with terms that would result in Clean Energy Adjustments being payable by specified consumers to ensure that they are bearing their fair share of the costs of providing Clean Energy benefits. The Act also provides that each funding obligation is deemed to be consistent with the Financing Plan and to provide for the reasonable alignment of the estimated Finance Amount with the Fair Allocation Amount.

Figures 1 and 2 illustrate the FHP Program's financing profile over the next 30-year period.

**Figure 1: Fair Hydro Trust Debt Balance**

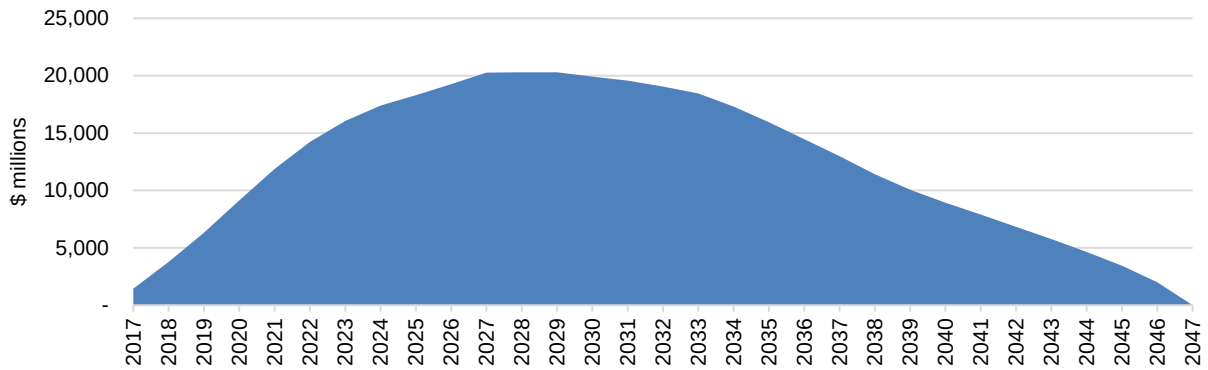

**Figure 2: Fair Hydro Trust Borrowing and Repayment Profile**

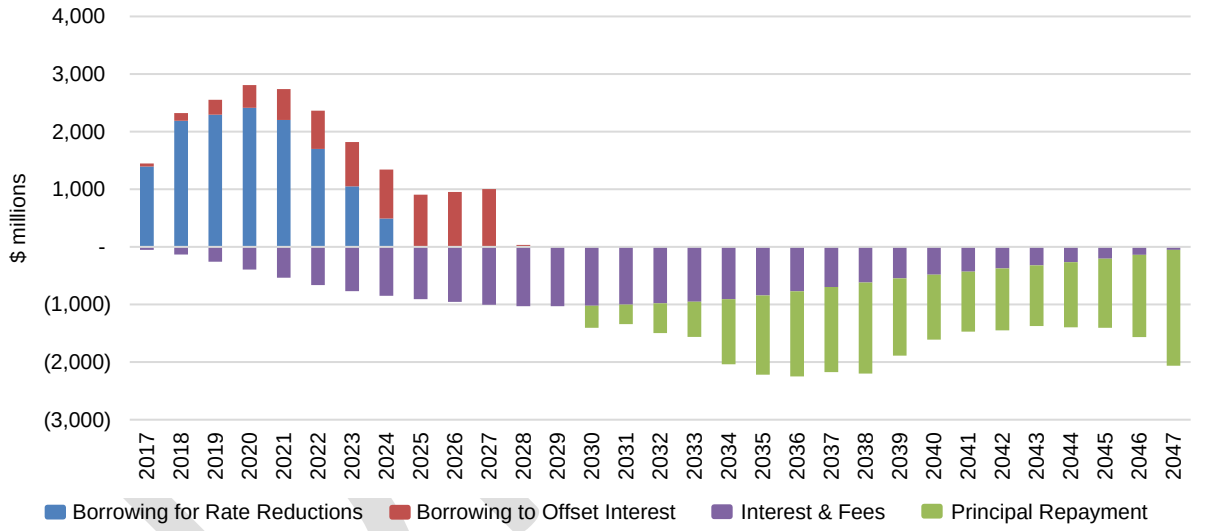


The Fair Allocation Amount is a net amount, either positive or negative, equal to the difference between the following:

1) estimated costs of clean energy initiatives without adjustment; and
2) a re-profiling of the costs in item 1) plus:
    a. the estimated operating and financing costs of the FHP Program, and
    b. the repayment of the readjustment amount.

A negative Fair Allocation Amount in any ~~r~~Reference P~~p~~eriod generally represents a period of borrowing, and a positive Fair Allocation Amount generally represents a period of principal repayment.

In a ~~r~~Reference ~~p~~Period when the Fair Allocation Amount is negative, the operating and financing costs of the FHP Program are shown in the Fair Allocation Amount calculation as an

increase in the debt of the FHP Program. This treatment is equivalent to increasing the amount of the deferred GAC by providing specified consumers with a higher rate reduction. The repayment of the related debt is included in the Fair Allocation Amount calculation to establish that all debt will be repaid by the end of the FHP Program. During these periods, operating and financing costs of the FHP Program are considered to align with the Fair Allocation Amount as long as these costs do not exceed the corresponding components in the Fair Allocation Amount calculation in any ~~r~~Reference ~~p~~Period by more than +/- 15 percent. If these costs exceed the corresponding components of the Fair Allocation Amount by more than +/- 15 percent, the FSM will take reasonable actions in accordance with the Act and regulations to align to the Fair Allocation Amount. Variability in costs is expected throughout the FHP Program as the Fair Allocation Amount was calculated on a forecast basis. Accordingly, any variability that is less than +/-
15 percent is deemed to be within an acceptable range.

Assessment for Reasonable Alignment

The Act stipulates that the Financing Plan must reasonably align with Fair Allocation Amount. This requirement is expected to be achieved through the consistent application of the following methodology, guidelines, and steps throughout the term of the FHP Program:

- Maintain a financial model that captures the funding obligations requirements of the Trust. Translate the funding requirements into expected cash flows by determining the related interest amounts, reserve requirements, fees, principal repayment, and the Trust's operating costs. This exercise will be performed for each ~~r~~Reference ~~p~~Period over the term of the program.
- Determine and assess the following:
    - For ~~r~~Reference ~~p~~Periods when the Fair Allocation Amount is negative, determine whether the forecast cash flow requirements is less than or equal to the financing and operating costs reflected in the Fair Allocation Amount as additional debt of the Trust. If the forecast cash flow requirements exceed the addition to the debt in the Fair Allocation Amount by more than +/- 15 percent, determine the cause of the variance. In these situations, the FSM will take reasonable actions in accordance with the Act and regulations to align to the Fair Allocation Amount.
    - For ~~r~~Reference ~~p~~Periods when the Fair Allocation Amount is positive, determine whether the forecast cash flow requirements is less than or equal to the Fair Allocation Amount. If the forecast cash flow requirements exceed the Fair Allocation Amount by more than +/- 15 percent, determine the cause of the variance. In these situations, the FSM will take reasonable actions in accordance with the Act and regulations to align to the Fair Allocation Amount.
- Due to the timing of the collection of cash flows, the General Regulation contemplates the use of reserve accounts. Provisions for reserves are excluded from the reasonable alignment assessment as these amounts are required to allow the Trust to incur the funding obligations. In addition, the reserve balances will be credited to specified consumers at the end of the term through the true-up mechanism if they are not required to satisfy terms of any funding obligation agreements pursuant to the MTI. Refer to *Financing Reserve and Capital Accounts* for more information on reserve accounts.
- Utilize and apply an accrual methodology when determining costs of the program, except for debt issuance costs, principal repayments, and reserve requirements.

DRAFT

The FSM will establish a methodology for assessing reasonable alignment at such time when a new Fair Allocation Amount letter is received from the MOE.

## B. Principles and Assumptions of the Financing Plan

This section outlines the various principles and assumptions that guided the development of this Financing Plan in accordance with the Act and section 14 of the General Regulation. The same principles and assumptions will apply to all subsequent revisions of the Financing Plan, if required.

The FSM is required to make reasonable assumptions regarding the following matters:

### 1. IESO Deferral for Future Months

The FSM will base its expectation of the IESO deferrals on the most current version of the Fair Allocation Amount and readjustment amounts provided by the MOE. Actual IESO deferrals and forecasts of near term deferrals, if available, will be used to guide forecast deferrals over the next quarter.

### 2. Future Transfers of Portions of the IESO's Regulatory Asset

The Trust anticipates periodic purchases of Investment Assets from the IESO when the cumulative balance of its regulatory assets is large enough to be financed and when effective financing options are available to the Trust. The market capacity for both long-term and short-term debt financing will also be key elements to consider when determining the most cost efficient option.

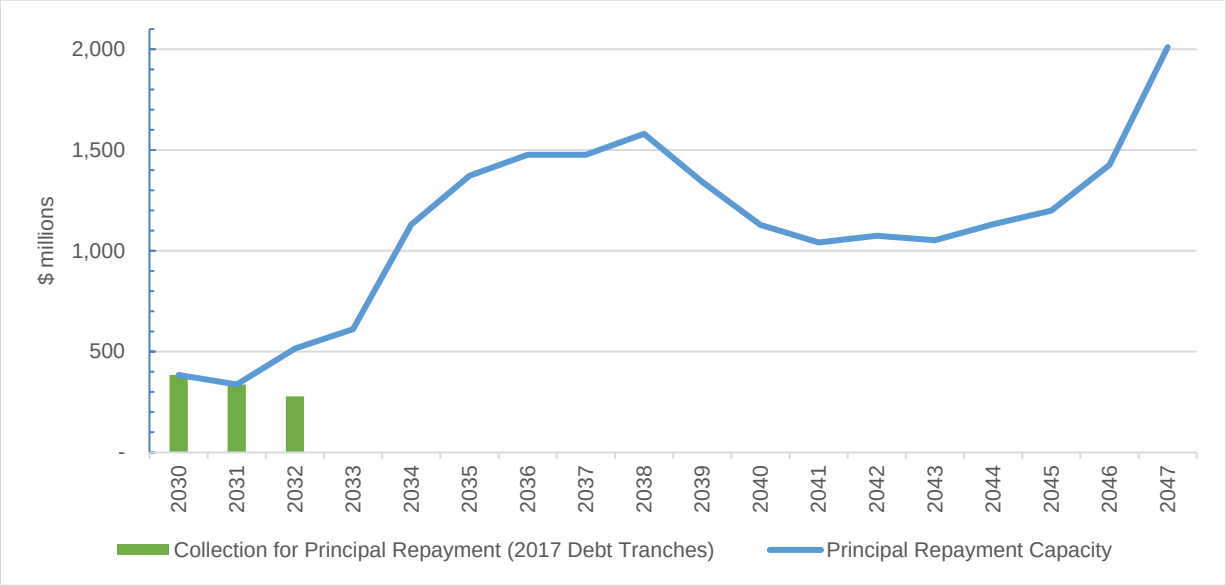
### 3. Term to Maturity of Funding Obligations

Initial Debt Tranche – 2017 Borrowing

The forecast debt profile for the Trust based on the current Fair Allocation Amount received from the Province at the end of September 2017 indicates that principal repayments can commence in 2030 (see Figure 3). However, the principal repayment amount for this year is expected to be relatively small at approximately $400 million for the year or about $200 million for each six-month ~~r~~Reference ~~p~~Period. Accordingly, principal repayment of the 2017 debt tranche is expected to commence in 2032 when the cumulative principal repayment amount reaches approximately $1 billion, which indicates a minimum term for the initial debt issuance of 15 years (i.e. 2017-2032). This offering is expected to include $500 million of senior notes, which is a sizeable amount to ensure sufficient liquidity and marketability. Subsequently, principal repayment increases to approximately $1.5 billion annually or $0.75 billion for each ~~r~~Reference P~~p~~eriod by around 2035 allowing for larger single maturities.

DRAFT

**Figure 3: Principal Repayment Profile Based on Current Fair Allocation Amount**



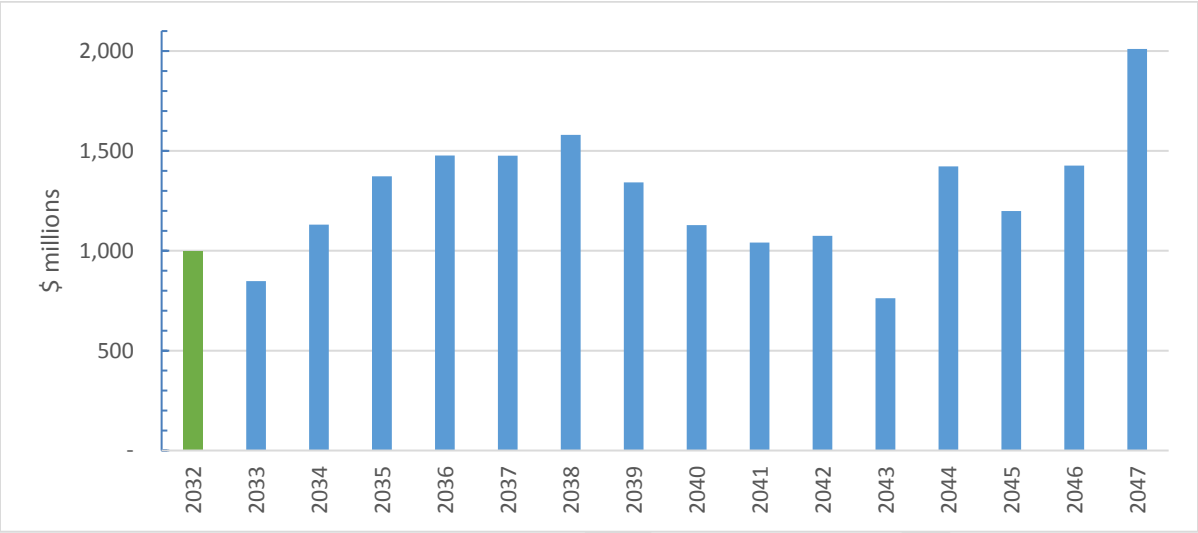
This length of term for an asset-backed security (ABS) has no ~~is un~~precedence ~~ted~~ in the Canadian market where terms are typically 10 years or less. Therefore, it is expected that a higher premium will be required to attract investors. Refer to Table 3 under the heading *Interest Rates* for the indicative current pricing range for all debt tranches, including senior debt.

For a new issuer such as the Trust offering a unique program, a strategy of issuing a 15-year term paper may not provide an optimal initial pricing given the absence of a specific credit curve for the Trust. It is expected that at program inception, the Trust will issue debt to cover both short and long-term exposures. The terms of maturities will be staggered, up to year 30, with maturities capped at the projected Fair Allocation Amount and readjustment amount, during each six-month ~~r~~Reference ~~p~~Period. In addition, consideration for a combination of characteristics established by the Fair Allocation Amount curve and investor interest will drive the term of a funding obligation.

Indicative Debt Maturities for Post-2017 Borrowings

Using the current Fair Allocation Amount, the forecast debt maturities over the life of the FHP Program was derived in Figure 4 for illustrative purposes only and is current as of the date of this Financing Plan. Actual debt maturities may differ materially from what is illustrated in Figure 4 primarily due, but not limited to, future changes in the Fair Allocation Amount.

**Figure 4: Indicative Debt Maturities Using Current Fair Allocation Amount**



The key objective when determining the indicative debt maturities in Figure 4 is to align the annual amount of debt maturities with the principal repayment capacity under the Fair Allocation Amount curve. In years where the principal repayment capacity is less than $500 million, the debt maturities will fall in subsequent years where the cumulative maturities do not exceed the cumulative principal repayment capacity. This type of decision will be made along with other considerations such as size of each issuance to ensure liquidity (and thus, cost efficiency). As this schedule is based on the current Fair Allocation Amount curve and its underlying assumptions, a shift in the curve and/or any changes in the assumptions will result in changes to this indicative debt maturity schedule.

## 4. Refinancing

The MTI requires the Trust to establish and maintain a deposit account in the name of the Indenture Trustee for a refinancing account held for the benefit of the Indenture Trustee and specified creditors. All proceeds arising from notes and borrowings related to refinancing shall be deposited to this refinancing account.

Debt refinancing may occur under the following scenarios:

- When original financing is incurred, the short end of the yield curve is more cost efficient than the long end, on a relative basis;
- The Fair Allocation Amount or readjustment amount is updated; and
- In line with the provisions of the Act, no Clean Energy Adjustments will be collected from specified consumers between July 1, 2017 and April 30, 2021, except in limited circumstances. Accordingly, any debt maturities during this period will need to be refinanced.

Refinancing decisions will be guided by the Trust's ability to secure cost efficient long-term financing from investors and the maximum principal repayment profile dictated by the fair allocation curve.

## 5. Cash Flow Requirements

The Trust's cash flow requirements to meet its contractual obligations include, but are not limited to, the following:

- Payment of taxes, if any
- Reimbursing the FSM for costs and expenditures outlined in sections 10.2 (3) and 10.13 (3) of the General Regulation and summarized under the heading *Fair Hydro Trust Costs and Expenditures*
- Interest and fees on all outstanding borrowings
- Scheduled principal repayments
- Deposits or transfers to reserve accounts required by the MTI and summarized under the heading *Financing Reserve and Capital Accounts*
- OPG's fees as FSM as summarized under the heading *Financial Services Manager's Fees*
- Termination payments to defaulting derivative counterparties, if applicable

Refer to Figure 5 in Section C, *Application of Recovery Amounts to Funding Obligations* for the cash flow receipts' payment priority.

## 6. Current Funding Options and related Terms and Conditions

To achieve cost efficiencies, the following funding vehicles could be utilized in either the Canadian or US markets (except for the subordinated debt), from time to time, depending on the financing requirement, as well as market capacity and relative pricing at the time of issuance:

- **Short Term**: asset-backed commercial paper (ABCP) conduit and revolving bank lines of credit in the Canadian market
- **Medium to Long-Term**: term ABS and privately placed debt securities in either the Canadian or US markets
- **Subordinated Debt**: to be provided by OPG

<u>Syndicated Short-Term Warehousing Facility</u>

Short-term notes will be issued by the Trust to fund short-term borrowing requirements. The amount outstanding will be periodically refinanced and repaid by long-term funding from the capital markets once the cumulative amount of the Investment Asset available to be purchased is approximately $300 million to $500 million. This warehouse facility is expected to be utilized on a monthly basis to fund the Investment Asset purchases from the IESO.

The Trust has **[**secured a warehouse facility agreement with a bank syndicate comprising of CIBC, RBC, and Goldman Sachs for $800 million under a 2-year committed term, which would be primarily funded through their ABCP conduit**]**.

DRAFT

Revolving Bank Lines of Credit

This type of funding option provides the Trust with a warehouse facility under which principal amounts can be advanced, repaid and again advanced during a committed revolving period. This bank funding option will be utilized when it is more cost effective than short-term notes.

Term ABS

ABS are notes that will be backed by the Trust's Investment Asset and issued under the MTI. The specific terms and conditions of each series, class or tranche of notes will be set forth in a supplemental indenture and, if applicable, a terms document authorizing that series, class or tranche.

To minimize financing costs, term ABS bullet bonds will be used rather than amortizing bonds, which require an additional premium by investors. The current intent is to issue term ABS notes in the 15 to 25 year term to fill out the yield curve based on the Fair Allocation Amount and investor demand.

Subordinated Debt

Concurrent with every issuance of senior debt by the Trust, it is expected that OPG will acquire subordinated debt in an amount not to exceed 49 percent of all outstanding debt of the Trust at any time. The subordination of OPG's debt investment plays an important credit enhancement role, which is expected to minimize the cost of senior debt tranches in the external market by garnering a higher rating through some differentiation. The subordinated debt will assume substantially all of the liquidity and deferral risk for the structure. Accordingly, the cash flow payment waterfall in Figure 5 reflects this subordination structure.

The credit rating for the subordinated debt will be dependent on the rating agency assessment and evaluation of the stress credit scenarios. It is expected that there will be a minimum of one rating category differential between each debt tranche.

The interest rate applicable to subordinated debt is expected to be the aggregate of:

- The applicable base rate, which is the relevant senior debt rate, plus
- The applicable spread, which represents the additional interest, in basis points, over the base rate that will apply to the relevant subordinated debt. This rate will be established by OPG through an annual survey of market spreads from a syndicate of banks.

The subordinated debt will maintain a minimum of one rating to allow for appropriate benchmarking/pricing. A simple average of the market spreads will determine the rate, excluding the highest and lowest rates in the survey sample. The terms of the subordinated debt will be finalized prior to the initial debt issuance.

For the short-term subordinated debt lending facility, the banking syndicate will provide OPG with short-term lending spreads for comparables on committed bank credit facilities on an annual basis (i.e. ratings based on a pricing grid). A simple average of the market spreads will determine the rate, excluding the highest and lowest rates in the survey sample.

The process will be consistent with the Subordinated Debt Pricing Protocol Agreement between the Trust and the Ontario Financing Authority.

## 7. Currency and Interest Rate Hedging Programs

As the FHP Program develops over time, the Trust will consider interest rate and currency swaps and other hedging instruments, as required. Refer to the Section C, *Risk Mitigation Strategies* for further details on hedging and other instruments that could be used by the Trust.

## 8. Fair Hydro Trust Costs and Expenditures

The costs and expenditures incurred by OPG as FSM on behalf of the Trust will be in accordance with sections 10.2 (3) and 10.13 (3) of the General Regulation as amended in November 2017.

Specifically, the costs and expenditures incurred by the FSM include, but are not limited to, the following:

1. Underwriters or selling agents for funding obligations.
2. Banking fees, including but not limited to structuring fees or work fees.
3. Fees of issuing and paying agents for funding obligations.
4. Fees of trustees.
5. Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns.
6. Fees of legal counsel.
7. Rating agency fees.
8. Filing or registration fees.
9. Direct costs of OPG for employees whose work consists exclusively of the provision of services to the Trust in relation to prescribed matters.
10. Costs and expenditures incurred on behalf of any financing entity in connection with OPG's duties under the Act in relation to the financing entity.
11. Costs and expenditures incurred in relation to a management agreement between OPG as FSM and any financing entity, where the agreement provides for the reimbursement of the costs and expenditures.

The costs and expenditures incurred directly by the Trust, as well as the fees of the FSM and the costs and expenditures incurred by the FSM on behalf of the Trust, are Finance Amounts that can be recovered by the Trust (as carrying costs) from the IESO until July 2021 and thereafter through Clean Energy Adjustments charged to specified consumers.

## 9. Interest Rates

As the FHP Program is expected to last until 2047, it is appropriate to assume that long-term debt rates are the primary components of the financing costs for the overall program. In estimating indicative interest rates for each tranche and debt type, the following key considerations and assumptions were utilized:

- The base case credit rating assumptions are as follows:
    - Target of "AAA" for Tranche A – Senior Debt,

  - "A" for Tranche B – Subordinated Debt which is dependent on the senior debt credit rating, and
  - "BBB" for Tranche C – Junior Subordinated Debt
- Using the projected Province of Ontario long bond rate of 4 percent plus a 25 basis points premium to reflect the securitization structure, the estimated indicative pricing over the life of Tranche A – Senior Debt is 4.25 percent
- For comparative purposes, the current pricing using the Province of Ontario long bond rate of 3.0 percent plus the same 25 basis points premium was included to reflect the current low interest rate environment
- A higher return on the subordinated debt is required to compensate for incremental risks assuming:
  - Rating agencies attribute a lower rating to the subordinated debt relative to the senior debt due to the lower priority in the cash flow waterfall (refer to Figure 5 in Section C, *Application of Recovery Amounts to Funding Obligations*)
  - Senior debt's rating needs to be credit enhanced to address collection and liquidity risks

To achieve cost efficiencies, the Trust was established with a tiered debt structure to achieve a higher credit rating for the senior debt and to maximize market capacity by accessing the AAA market to achieve cheaper financing costs overall. The following table summarizes the indicative pricing range by debt tranche:

**Table 3: Indicative Pricing by Debt Tranche**

| Tranche and Debt Type | Risk Profile | Source | % of Total Funding Requirement | Rating Category Estimate | Current Pricing | Potential Rating Range | Price Based on Rating Range |
|---|---|---|---|---|---|---|---|
| Tranche A Senior Debt | Lowest Risk | Capital Market | 51% | AAA | 3.25% | AAA – AA | 3.25% – 3.75% |
| Tranche B Subordinated Debt | Medium Risk | OPG via Province | 39% | A | 4.5% | AA – A | 4.0% – 4.5% |
| Tranche C Junior Subordinated Debt | Highest Risk | OPG via Province | 5% | BBB | 5.5% | A – BBB | 5.0% – 5.75% |
| | | OPG via Capital Markets | 5% | | | | |
| **Weighted Average** | | | | | **4.0%** | | **3.75% – 4.5%** |

The credit range for each debt tranche will be determined by the overall credit strength of the financing structure and its resilience under various credit stress scenarios. The rating agencies' assessment of the guarantee to bondholders provided by the Change of Law Protection Agreement, discussed under the heading *Indemnifications*, is one of the major factors that will influence the final ratings of each debt tranche. In addition, in assessing credit stress, the following factors, among others, will be considered: (i) declining energy usage throughout the securitization period, (ii) forecast collections in peak months not materializing, and (iii) declining consumption equal to the largest absolute annual forecast error. The market capacity for

securitization notes is predominantly available for AAA-rated notes, limited for AA-rated notes, and not tested or developed for A-rated or lower. The pricing estimates provided in Table 3 reflect these credit and liquidity factors. Debt pricing will be finalized at the time of the initial issuance.

## 10. Financing Reserve and Capital Accounts

Section 5(1) of the General Regulation stipulates that the Finance Amount shall include any amounts the Trust deposits into capital or finance reserve accounts as required under the governing documents of the funding obligations (i.e. the MTI). The accounts also act as a credit enhancement feature in support of the Trust borrowings. Any unused balance in the segregated trust accounts at the end of the term will be credited to specified consumers. Refer to Figure 5 in Section C, *Application of Recovery Amounts to Funding Obligations*, for the priority order of deposits into the reserve accounts.

The MTI between the Trust and the Indenture Trustee specifies the establishment and maintenance of the following key reserve accounts:

Finance Reserve Accounts

*Program Cash Reserve Account*

The Trust shall establish and maintain a Program Cash Reserve Account, a deposit account in the name of the Indenture Trustee with an eligible institution. This finance reserve account shall be under the control of the Indenture Trustee for the benefit of the Indenture Trustee and the specified creditors. Available collections not required to be paid to specified creditors at such time will be credited to a capital reserve account in accordance with the terms of any applicable funding obligation agreement. The funding obligation agreement for a series, class or tranche of funding obligations will specify whether such series, class or tranche has the benefit of a capital reserve account.

*Series Finance Reserve Account*

From time to time, the Trust may establish a Series Finance Reserve Account, a deposit account in the name of the Indenture Trustee with an eligible institution. This finance reserve account may be established for the purpose of allowing the Trust to reserve funds to pay finance charges (including, without limitation, interest and payments under derivative agreements) for a series of issuer funding obligations. Payments of available collections shall be credited to this account, to the extent that there is a requirement for such funds, in accordance with the terms of the applicable funding obligation agreement and the MTI. Each Series Finance Reserve Account shall be under the control of the Indenture Trustee for the benefit of the Indenture Trustee and the applicable specified creditors.

Capital Reserve Account

*Series Capital Reserve Account*

From time to time, the Trust may establish a Series Capital Reserve Account, a deposit account in the name of the Indenture Trustee with an eligible institution. This capital reserve account may be established for the sole purpose of allowing the Trust to accumulate funds to be used to make repayments in respect of funding obligations. Details of any period of accumulation and the

amounts to be accumulated shall be specified in the related funding obligation agreement. Payments of available collections shall be credited to this account, to the extent that there is a requirement for such funds, in accordance with the terms of the applicable funding obligation agreement and the MTI. Each Series Capital Reserve Account shall be under the control of the Indenture Trustee for the benefit of the Indenture Trustee and the applicable specified creditors.

## 11. Indemnifications

The following forms of indemnities are expected to be issued for the FHP Program:

Change of Law Protection Agreement **[MONITOR]**

The Change of Law Protection Agreement provides bondholders a guarantee in the event of a protection event and acts as a credit enhancement for the Trust's senior debt. The guarantee will be triggered if~~when~~:

i. the Province changes the Fair Hydro legislation/regulations or passes other legislation/regulation that materially adversely affects the ability of the Trust to service interest or principal payments on its debt, or

ii. the Act is declared invalid/unconstitutional.

Upon a protection event, the Province is required to either, at its election: (i) pay the specified claims consisting of all Finance Amounts, excluding ■ **[update],** owing by the Trust as they become due and payable, or (ii) assume the Trust's obligations as primary obligor, **[**in each case**]**, without acceleration of the specified claims.

Issuer Trustee

Each of the Issuer Trustee and its related parties will be indemnified out of the trust property from and against all liabilities, obligations, losses, damages, penalties, taxes, claims, actions, investigations, proceedings, costs, expenses or disbursements of any kind arising out of, among other things, the declaration of trust or any other program agreement, the administration of the Trust's assets or the action or inaction of the Issuer Trustee's agents, except for its own fraud, willful misconduct, bad faith or negligence.

Limited Recourse

The obligation of the Trust to pay principal and interest on the funding obligations is subject to the allocation and payment provisions in the MTI and the applicable funding obligation agreement and limited to amounts available from the collateral. Neither the Indenture Trustee, OPG nor the Issuer Trustee in its individual capacity will be personally liable for the payment of the principal or interest on the notes or any other funding obligation, or for the Trust's covenants and agreements contained in the MTI.

## 12. Financial Services Manager's Fees

All fees charged by OPG to the Trust will be in accordance with the provisions of the General Regulation.

Subject to OEB approval, OPG is entitled to the following:

- For 2017, OPG will receive $3.1 million and an amount to cover up-front costs incurred between June 1 and December 31, 2017 by OPG on behalf of the Trust (e.g. legal fees, rating agency fees, trustee fees). The $3.1 million includes a $600,000 fee and $2.5 million to cover costs incurred prior to June 1, 2017. The expenses between June 1 and December 31, 2017 will also include direct costs of OPG employees who are dedicated exclusively to Fair Hydro matters.
- For January 2018 to March 2019, OPG will receive (i) a base fee equal to 7.5 basis points, divided by 12, multiplied by ~~times~~ the average monthly outstanding debt of the Trust, (ii) a variable fee that is calculated based on how the interest rate for external funding tranches for that period compare to forecast interest rates for the period (and which fee is limited to ± 2% of 5% of the total external funding tranches issued in the period), and (iii) third-party expenses and direct employee costs of dedicated Fair Hydro employees.
- For April 2019 to March 2020, and every 12 month period thereafter, OPG will make submissions to the OEB on the base fee, variable fee and expenses. The base fee will be based on comparable fees charged by full-service managers of securitization vehicles (and other similar funds). The variable fee will be calculated in the same manner noted above, but with a refresh of forecast interest rates for the relevant period. For 2019 onward, the expenses will include direct employee costs of dedicated Fair Hydro employees only if the fees of comparable managers also include such direct costs.

A written confirmation from OPG's external auditor or another external auditor is required to accompany each submission to the OEB for the recovery of expenditures incurred by OPG on behalf of the Trust. The report shall confirm the accuracy of the costs and expenditures charged to the Trust, that such amounts were incurred by OPG, and the amounts were paid to third parties (with the exception of direct employee costs).

## C. Other Considerations

### 1. Market

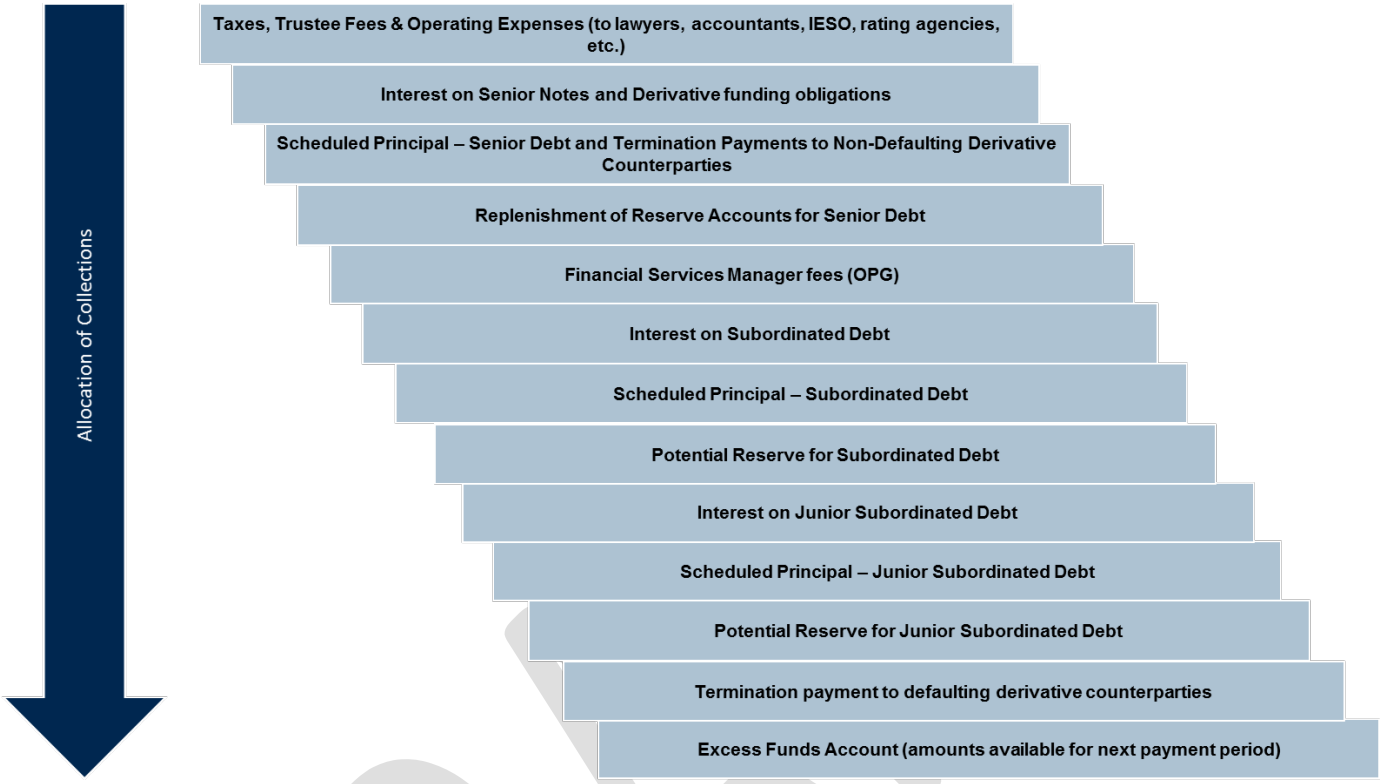
The FHP Program's financing platform was developed to allow for access to both the Canadian and US markets in order to have the best pricing and flexibility options. To the extent that the Canadian market has sufficient capacity and provides cost efficiency, priority will be given to the domestic market. However, there is no precedence in the Canadian market for term ABS notes longer than 10 years, nor the size of funding required by the FHP Program. Due to this, the ability to access the US market provides the program additional financing capacity in the event that the Canadian market cannot support the financing requirement. The FSM will make its decision on which market to access on a deal-by-deal basis.

For the initial debt issuance in 2017, it is anticipated that a term ABS funding will be sourced from the Canadian market as it is expected to be more cost efficient given current market conditions.

### 2. Application of Recovery Amounts to Funding Obligations

The MTI outlines the payment priorities for the Trust's receipt of cash flows. Figure 5 below summarizes the significant components of the waterfall.

**Figure 5: Waterfall for Fair Hydro Trust Cash Collection**



Payment Priorities

On each payment date, all amounts on deposit in the collection account will be paid out in the following order of priority:

1. to pay (A) all taxes exigible for which a governmental authority is given priority over the specified creditors under the laws of the applicable jurisdiction, and then (B) fees, expenses and reimbursements owing to the Issuer Trustee and the Indenture Trustee up to a maximum aggregate amount of ■ percent[1] of the outstanding principal amount of all funding obligations at such time;
2. to pay (A) interest, fees and other amounts owing in respect of senior debt and (B) amounts payable to derivative counterparties other than termination payments;
3. to pay (A) principal owing in respect of senior debt to the extent required to satisfy any payment of principal; and (B) termination payments owing to derivative counterparties where the derivative counterparty is not the defaulting party or the sole affected party;
4. to deposit or transfer to any reserve account in respect of senior debt, the amount required pursuant to the applicable funding obligation agreement;
5. to pay fees, expenses, reimbursement and indemnity amounts owing to OPG;
6. to pay interest, fees and other amounts owing in respect of subordinated debt;

[1] To be confirmed.

7. to pay principal owing in respect of subordinated debt to the extent required to satisfy any payment of principal;
8. to deposit or transfer to any reserve account related solely to subordinated debt the amount required pursuant to the applicable funding obligation agreement;
9. to pay interest, fees and other amounts owing in respect of junior subordinated debt;
10. to pay principal owing in respect of junior subordinated debt to the extent required to satisfy any payment of principal;
11. to deposit or transfer to any reserve account related solely to junior subordinated debt the amount required pursuant to the applicable funding obligation agreement;
12. to pay termination payments owing to derivative counterparties where the derivative counterparty is the defaulting party or the sole affected party; and
13. to be held in the collection account for distribution in the above order of priority on the next payment date; or (ii) after all funding obligations have been paid and discharged, and all other amounts have been paid in full, to pay to the Trust.

## 3. Risk Mitigation Strategies

Currency Risk

If the Canadian market cannot support the financing capacity of the FHP Program in the future and/or it is less cost efficient than the US market at the time of each subsequent debt issuance, the Trust will access the US market for long term financing.

Under this scenario, hedges will be considered to mitigate currency exposure. For the initial debt issuance in 2017, it is anticipated that funding will be sourced from the Canadian market only as it is expected to be more cost efficient and there is sufficient market capacity.

Interest Rate and Refinancing Risk

The FHP Program is expected to span over a 30-year period until 2047 with various series of notes expected to be issued at various maturity dates. Given the long-term timeline of the program, it is subject to interest rate and refinancing risk.

Interest rate hedges, including bond forwards and/or forward start interest rate swaps, will be considered in the future to mitigate potential interest rate risk and/or refinancing risk in a cost-efficient manner.

## 4. Tax Minimization Strategies

Beneficiary – FHP2017 Inc.

The majority unitholder and beneficiary of the Trust is exempt from federal tax under section 149 of the *Income Tax Act, Canada* and from Ontario tax under section 27 of the *Ontario Taxation Act, 2007*.

The beneficiary is subject to payments in lieu of federal and provincial income taxes (PILs). In order to minimize the tax associated with the Fair Hydro Plan, an exemption from PILs payable

on income from the Trust was secured for the beneficiary **[MONITOR]**. This will result in a reduction in the income tax costs related to the Financing Plan.

Fair Hydro Trust

Trust income will be fully distributed to unitholders to ensure that there is no tax payable by the Trust.

## D. Execution Plan for the Inaugural Debt Issuance

It is anticipated that the first term ABS notes will be issued in the 1st or 2nd week of December 2017 to purchase the accumulated regulatory assets from the IESO, expected to be approximately $1 billion at that time. Accordingly, the expected size of the senior debt tranche is approximately $500 million representing the 51 percent funding structure allocation from capital markets. In the event the term markets do not have sufficient capacity for the full required funding of $500 million, the warehouse facility will be utilized. OPG will purchase subordinated and junior subordinated debt issued by the Trust for approximately $500 million representing the remaining 49 percent of the total funding requirement.

Key Activities

The following table outlines the key activities required to execute the first purchase of the Investment Asset:

| Activity | 2017 Timeline |
|---|---|
| Rating Agencies' Assessment | End of November |
| Marketing & Roadshow | Last week of November – 1st week of December |
| Term Debt Closing & Funding | 1st – 2nd week of December |
| Warehouse Facility Closing & Funding | 2nd week of December |

Please find attached, for your review and comment, a draft OIC authorizing the Minister of Finance and the Minister of Energy to give a guarantee/indemnity under the Fair Hydro Plan Act.

This draft gives a lot of authority to the Ministers to determine the scope and content of the guarantee. It would be helpful to consider whether additional terms and conditions (including a maximum amount or other limitations) should be included.

WHEREAS pursuant to subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "Act"), the Lieutenant Governor in Council may by order authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest as described under the Act;

AND WHEREAS pursuant to subsection 22(2) of the Act, Ontario Power Generation Inc. as financial services manager, may establish or cause to be established one or more financing entities (a "Financing Entity") that may incur funding obligations in connection with investment interests**;**

AND WHEREAS it is considered desirable to authorize the Minister of Energy and the Minister of Finance to agree to guarantee or indemnify debts, obligations, securities or undertakings of a Financing Entity associated with investment interests acquired by a Financing Entity;

NOW THEREFORE:

1. Pursuant to subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017*, the Minister of Energy and the Minister of Finance, acting together on behalf of Ontario, are authorized to enter into one or more agreements to guarantee or indemnify the debts, obligations securities or undertakings of a Financing Entity associated with investment interests acquired by a Financing Entity. **[NTD: This mirrors the wording of the section so doesn't scope the guarantee in any way except by relating it to a Financing Entity.]**

**[Should the OIC narrow the scope of the guarantee? principal/interest/penalties/costs/ expenses/other obligations such as fees to service providers and payments under derivatives agreements? Some more specificity may be desirable here – usually the Province guarantees payment of principal and interest only, not penalties or other costs on debt securities and loans. We should consider whether the OIC needs to specify if guaranteeing payments on other agreements other than debt securities issued or loans taken out, understanding that a broader form of guarantee may be desired in this case. Fees payable to service providers and derivatives counterparties would generally be established under separate agreements although they are referenced in the waterfall provisions in the master trust indenture.]**

2. The Minister of Energy and the Minister of Finance, acting together on behalf of Ontario are authorized to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee and indemnity authorized under paragraph 1 of this Order, **[provided that**

Hi,

Here are a few changes to the Process Agreement (marked on the clean version that Steve did a couple of days ago) to address a couple of issues.

1. S. 5.02 - Revisions to the Province's reps and warranties to focus on its obligations under the agreement as the province may have to put in place other legal authority to exercise the Province's option to assume the obligations after a protection event has occurred in the event the province determines that is appropriate. As a separate point, should we put the words "(but shall not be obligated)" into the protection agreement provision re: assumption s. 6.01. This phrase is in the process agreement right now.
2. Article VI - Revisions to this article to clarify that this is process under which the Province obtains information in order to determine whether to make an election to assume. As a result I removed the timeframe in 6.02. It is only when the Province gives the assumption notice under the protection agreement that it is triggering its option (after a protection event).

Torys is revising the process agreement draft but these are items that we would ask to include into that next wording (subject to your comments).

Thank you.

**Draft: November 14, 2017**

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER[1]]**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

[1] OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, the [FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to [the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations [the FSM] has agreed to perform and assurances [the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of [the FSM], and of the Province in accordance with the Act, have been done.

(v) not:

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement or replacement or waiver or consent could reasonably be considered to be materially prejudicial to the rights or interests of the Province under the Change of Law Protection Agreement;

(B) consent to the resignation of the Manager under the Management Agreement; or

(C) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired.

(b) [The FSM] shall:

(i) comply, and shall use commercially reasonable efforts to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

(iii) after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(c) Nothing in this Agreement shall limit the obligations of the Province under the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 and to the extent of any conflict between this Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify the FSM, the latter shall prevail. [For clarity, OPG's obligations under this Agreement are solely in its capacity as the FSM.]

## ARTICLE III
## PROCESS CERTIFICATE

### 3.01 Process Certificate

[The FSM] shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are also executive officers of OPG) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Primary Obligation, and (ii) on the Business Day on which the financial terms of such Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Primary Obligation:

(a) the material terms of the Primary Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Primary Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement confirming that any disclosure made in respect of the Primary Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Primary Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available for review to the Province prior to use or dissemination and the Province provided its written consent to such use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made and for which the Province had previously provided its written consent;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars and in respect of which a Derivative Agreement has been entered into to hedge related currency exposures shall be valued for this purpose on the basis of the hedged value expressed in Canadian dollars for so long as such Derivative Agreement is in good standing.

**3.02 Acknowledgment**

The parties acknowledge that the Process Certificate is the "process certificate" referred to in Subsection 4.02(b) of the Change of Law Protection Agreement.

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to [the FSM]; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to [the FSM].

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 or Article VI of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a

result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with Article VI of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

### 4.01 Protection Agreement Maximum

(a) Not less than 15 Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum, which may not exceed the Initial Forecast.

(b) Not more than 10 Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan, or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's

expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently with the consent of the Province if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars and in respect of which a Derivative Agreement has been entered into to hedge related currency exposures shall be valued for the purposes of this Section 4.01 on the basis of the hedged value expressed in Canadian dollars for so long as such Derivative Agreement is in good standing.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

**5.02 Representations and Warranties of the Province**

The Province hereby represents and warrants that:

(a) the execution~~,~~ and delivery of and performance by the Province of its obligations ~~of~~ under this Agreement ~~by the Province~~ have been authorized by all necessary action on the part of the Province;

(b) the execution and~~,~~ delivery of and performance by the Province of its obligations ~~of~~ under this Agreement ~~by the Province~~ do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

## ARTICLE VI
## PROCESS FOR ELECTION[2] TO ASSUME APPROVED OBLIGATIONS

**6.01 Election by the Province**

Pursuant to section 6.01 of the Protection Agreement, ~~A~~at any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor by giving notice to the Indenture Trustee~~.~~ ~~To make such election, t~~ Prior to determining whether or not to exercise its election, the Province may ~~shall duly~~ complete and deliver to [the FSM] a notice in the form of Exhibit A (an "**Election Information Notice**"), [which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured NTD: Don't think we would send the form of agreement at this point since basic draft is attached to Protection Agreement]. The Election Information Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Information Notice to [the FSM] (the "**Proposed Assumption Date**").

[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement - to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.

**6.02 Details regarding Obligations Secured**

Promptly following the delivery of the Election Information Notice to [the FSM], [the FSM] shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) [the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured attached as Exhibit E to the Change of Law Protection Agreement.[3] – this is appended to the Protection Agreement and if it has to be customized to any particular Obligations, think it would be done after Province's review of all this material.]

**6.03 Settlement of Terms**

~~Within 30 Business Days f~~Following receipt and review by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it expects to ~~will~~ proceed with the assignment and assumption of the Obligations Secured [NTD: Do we have to confirm to OPG? This is not the legally effective notice anyway.] and, if it will be proceeding with the assignment and assumption, the date on

[3] Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations.

which the Province expects ~~intends~~ that assignment and assumption will be effected., [which may not be earlier than the Proposed Assumption Date.?] If the expected assignment and assumption date is later than the Proposed Assumption Date, the Pro~~i~~vince may request updated information under s. 6.02. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement., ~~which will specify such date as the "Assumption Closing Date" for the purposes thereof.~~ A decision not to proceed with an election at any time does not prevent the Province from proceeding at a later date including issuing a subsequent Election Information Notice and Article VI of this Agreement continues to apply.

**6.04 Cooperation to Implement the Assignment and Assumption**

[The FSM] shall cooperate with the Province and will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

**6.05 Terms of Obligations Secured**

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, [the FSM] shall cause the Financing Entity to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[4]

[4]The Trust Indenture will need to permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in a form of agreement to be set out in an exhibit to the Trust Indenture. The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement. The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.

(b) any representation or warranty made by [the FSM] in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section 4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within thirty (30) days after written notice by the Province to [the FSM] of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

### 7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to [the FSM], and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, [the FSM] and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

FP Comment: Provincial finances are worse than they look as politicians hide their megaproject boondoggles
Provincial finances are worse than they look as politicians hide their megaproject boondoggles
By Special to Financial Post
Nov. 14 (National Post) -- If you're not skeptical about the true state of provincial finances, you should be.
The official balance sheets of provinces across the country mask billions of dollars in debt related to a series of megaproject follies being pursued by provincial governments and government-owned power utilities. While their debt doesn't officially appear on provincial balance sheets, taxpayers will be left footing the bill when the electricity rates needed to pay them off become so economically crippling and politically unpalatable that they will require a bailout.
A chorus of auditors general and ratings agencies have questioned this trend of masking liabilities, but have seen their warnings ignored by political leaders determined to bury the risk of pet megaprojects.
The most recent example of mixing electricity liabilities with taxpayer liabilities comes in Ontario. The province recently passed the Fair Hydro Act, which will see it issue as much as $26.2 billion in debt over the next decade to finance temporary rebates to electricity customers - all to mask the rate increases caused by a decade-long extravaganza of clean-energy spending.
The province will hide that debt from its own balance sheet through a series of accounting and regulatory maneuvers. In a recent report, Ontario's auditor general highlighted that the province's main motivation in moving debt related to the Fair Hydro Act off its balance sheet was to "avoid" any increase in its net debt that would see it post another deficit budget. The AG said the Fair Hydro Act allows the province to "make their own accounting rules" that "obfuscate the impact of their financial decisions." Ultimately, she concluded, the legislation will make Ontario's financial statements "unreliable."
At the same time, the provincially owned power utility, Ontario Power Generation (OPG), is undertaking a $12.8-billion refurbishment of the Darlington nuclear plant, a megaproject so risky that the utility couldn't do it without the backing of taxpayers. OPG's own expert admitted the company would "struggle" to issue debt to finance projects like the nuclear refurbishment if it didn't have the implicit backing of the province's taxpayers. While that debt isn't on the province's balance sheet, any bailout related to it would likely end up there.
In B.C., it's more of the same, as one ratings agency warned that deteriorating finances at the provincially owned utility, BC Hydro, could result in a taxpayer-financed bailout, which would ultimately wind up on the province's balance sheet. That risk will only increase in the coming years. The public utility's spending binge, most notably on the near $9-billion (and counting) Site C megaproject,will see its debt increase to $20 billion, up from $8 billion in

2008.
Worse still, a chunk of BC Hydro's debt has been issued solely to pay provincially mandated dividends to the tune of billions of dollars. While the province tells the public it's balancing its books, it's doing so partly by loading its utility up with debt.
BC Hydro is also hiding expenses by attributing billions of dollars to "deferral" accounts, which help juice its earnings and dividends to the province, a practice B.C.'s auditor general called "unsustainable."
In Newfoundland and Labrador, which has the lowest debt rating in Canada, the province continues to consider its "equity" in the $12.7 billion Muskrat Falls dam - up from the original estimate of $6.6 billion - as an asset. Unfortunately, that equity investment was made largely using borrowed money. Any write-down in the value of the asset will be a loss for taxpayers. Since the utility's own CEO has repeatedly called the project a boondoggle, a write-down would appear to be a near certainty.
The province's auditor general also recently warned that any "rate mitigation" enacted by the province to offset the ballooning costs of the Muskrat Falls - in effect transferring the cost from electricity customers to taxpayers - will have to "consider the impact" that such a move will have on the province's balance sheet. In short, the province's balance sheet - already in a perilous state - will be the backstop for a megaproject gone wrong, reflecting any bailout needed to mitigate its impact on electricity customers.
While the risk to electricity customers of multi-billion megaprojects has been clear for some time - a number of public utilities have been warning of double or triple-digit rate increases - the risk to provincial balance sheets is now coming into focus. Public utilities across Canada went all in on megaprojects, all the while being aided and abetted by provincial governments. Now that the risk of those projects is getting larger and larger, provincial balance sheets will take the next hit.

Hi Steve,
We would like to have a call with you this morning to discuss the implications of the alternative option that was discussed yesterday and what OPG's response so far has been. I relayed to Ken, Mike and others the fact that s. 11.01 of the Trust Indenture provides for amendments to be made without consent of specified creditors and that this is one of the reasons why OPG's proposal to put Province in the category of specified creditor alone would not result in the Province getting notice of all amendments from the Indenture Trustee. I think it would be helpful to have a discussion to go over all of the related issues.
Perhaps about 11 would be a good time – would that work for you?
Also, we are reviewing the revised versions of the agreements and as relayed last evening I have questions about the new wording under limited guarantee among other points so not sure when we will review that as well.
Thanks.

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

---

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

OPG and the Province will concurrently enter into the Process Agreement, under which OPG will agree to perform certain activities and to provide certain assurances in relation to this Agreement, on which the Province will rely.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

each Beneficiary to whom an amount is due and payable under an Approved Obligation on the Payment Date the Approved Obligation Amount for such Beneficiary in respect of such Approved Obligation on such Payment Date; provided that if the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount on deposit in the Protection Account on the Payment Date shall be applied to pay Beneficiaries in the order of priority in which such Approved Obligations are payable under the applicable payment provisions of the Trust Indenture applicable to the making of such payments on the Payment Date (each, a "**Beneficiary Payee**")[6].

iv. On any Payment Date on which an amount is paid by the Province pursuant to clause 2.01(a)ii, the applicable payment provisions of the Trust Indenture shall, notwithstanding the express terms of such provisions set forth in the Trust Indenture, be applied and operate on the following basis:

(i) the amount payable to a Beneficiary Payee in respect of an Approved Obligation from amounts available under such payment provisions on such Payment Date shall be reduced by the amount paid to the Beneficiary Payee pursuant to clause 2.01(a)iii in respect of such Approved Obligation on such Payment Date;

(ii) the Province shall be paid the amount by which (x) the amount payable to a Beneficiary Payee in respect of an Approved Obligation from amounts available to pay the Beneficiary Payee under such payment provisions on the Payment Date, determined without regard to subclause 2.01(a)iv(i), exceeds the amount paid to the Beneficiary Payee pursuant to clause 2.01(a)iii in respect of such Approved Obligation on the Payment Date (such payments to the Province being "**Subrogation Amounts**"); and

(iii) no Beneficiary having a right to be paid an amount in respect of an Approved Obligation that ranks equal with or subordinate to an Approved Obligation in respect of which an amount is payable to the Province under subclause 2.01(a)iv(ii) shall be entitled to make any claim or assert any right in or to the amounts paid or payable to the Province under such subclause (including any right or reimbursement, contribution or indemnity) and no such Beneficiary shall have any right or interest in, to or under the Collateral or any proceeds therefrom in respect of such amounts.

v. On any Payment Date, the Indenture Trustee shall release and pay to the Province free and clear of any Liens any amount on remaining deposit in

the Protection Account that has not been applied to pay Beneficiary Payees on the Payment Date in accordance with clause 2.01(a)iii.

vi. In preparing any payment instructions under the Trust Indenture, the Manager shall reflect the amounts payable for the Payment Date under Section 2.01(a).

(b) The Province shall, as a payee of Subrogation Amounts and any amounts payable under clause 2.01(a)v, be a "Specified Creditor" under the Trust Indenture and have the benefit of the Collateral thereunder.

(c) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation and will be limited to the right to receive the payment amounts, if any, and will be subject to the priorities and to the Province's rights to Subrogation Amounts, set forth in Section 2.01(a).

(d) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(e) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid by the Province when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(f) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee (and to the Beneficiaries, to the extent they are permitted to exercise any rights, interests, or elections under in accordance with the Trust Indenture) under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include a loss resulting directly from a failure by the Province to pay a specified amount due and payable to a Beneficiary Payee under the Limited Guarantee.

**2.02 Intentionally Deleted.**

**2.03 <u>Absence of Set-off</u>**

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[7] in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account" for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the [Indenture Trustee][8] shall apply all amounts paid by the Province into the Protection Account on a Payment Date in respect of an Approved Obligation to pay the amounts due and payable to the Beneficiaries as and to the extent provided for in Section 2.01(a)[9]. Upon a payment having been made by or on behalf of the Province into the Protection Account, the amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the applicable Approved Obligations, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[10]. For greater certainty, the obligations arising in respect of an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Amounts and the rights contemplated Section 5.01 in relation to such continuing obligations.

---

[7] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

[8] Conform.

[9] For example, amounts payable in respect of subnotes will not get the amounts payable to them based on scheduled payments since senior notes will preempt them under the acceleration waterfall.

[10] A corresponding provision needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, so that the Beneficiaries are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or

until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03 or Section 8.02.

### 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements[11] and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

[11] The deletion of the earlier proviso in this draft is based on the understanding that the Province will receive adequate notices of these event as a Specified Creditor under the Trust Indenture. OPG will agree not to allow any of these events without confirming to the Province under the Process Certificate that the changes are within the agreed scope of the Reviewed Documents, etc.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if the Adherence Conditions applicable thereto have been satisfied [at the time the Primary Obligation was incurred][12].

### 4.02 Adherence Conditions

[There shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Funding Obligation.][13] The following shall be the Adherence Conditions applicable in relation to a Primary Obligation that is a Funding Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG and, for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, prior to the earlier of (i) one Business Day prior to the incurrence [or any amendment][14] of the Primary Obligation, and (ii) [one Business Day after] [on] the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), confirming that OPG has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(c) the Province has not provided a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of this Agreement.

### 4.03 Evidence of Satisfaction

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## PROVINCE MATTERS

### 5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

### 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights,

interests and entitlements of a Beneficiary to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture in the manner and to the extent contemplated in Section 2.01.

### 5.03 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[15]

### 5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

[15] Payments to be addressed in the Trust Indenture like servicer advances under the waterfall provisions.

**6.02 Cooperation to Implement the Assignment and Assumption**

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[16]

**6.03 Effect of Assumption**

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: the forms of assumption agreement(s) need to be settled before this agreement is finalized.]**

**6.04 Interim Period**

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

**6.05 Rights in respect of the Assets Comprising the Collateral**

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee and the Beneficiaries shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

[16] Further details regarding obtaining of third party consents and rating agency approvals to be provided by OPG.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

### 7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

### 7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

## ARTICLE VIII
## SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

### 8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**") may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity in any of the following circumstances:

(a) following the Province becoming aware of the occurrence of a Program Breach; and

(b) following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of any Obligation Secured incurred or amended on or after the time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred or amended on or after the time such Suspension Notice is delivered[17].

### 8.03 Termination Notice

On (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").[18]

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

---

[17] This will be affected by the resolution of the "amendments" point.

[18] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

## ARTICLE IX

(b) if an Acceleration has occurred in respect of any Obligations Secured on or before the Payment Date, the amount that would be available to be paid to the Beneficiary on such Payment Date in respect of the Approved Obligation under the applicable payment provisions of the Trust Indenture, determined on the assumption that the amounts available under such applicable payment provisions of the Trust Indenture would be limited to the Clean Energy Adjustment payable in respect of such month.

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

OPG and the Province will concurrently enter into the Process Agreement, under which OPG will agree to perform certain activities and to provide certain assurances in relation to this Agreement, on which the Province will rely.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

**AGREEMENT OF THE PARTIES**

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[37] in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period,

[37] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the [Indenture Trustee][8] shall apply ~~the full amount~~all amounts paid by the Province into the Protection Account on a Payment Date in respect of an Approved Obligation to pay the ~~corresponding amount~~amounts due and payable to the ~~applicable~~ Beneficiaries ~~under the Approved Obligation~~ as and to the extent provided for in Section 2.01(a)[9]. Upon a payment having been made by or on behalf of the Province into the Protection Account ~~in respect of an Approved Obligation~~, the ~~amount~~amounts so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the applicable Approved ~~Obligation~~Obligations, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[4][10]. For greater certainty, the obligations arising in respect of ~~the~~an applicable Approved Obligation shall not be reduced by such payment as the Province shall become entitled to be paid related Subrogation Amounts and the rights contemplated Section 5.01 in relation to such continuing obligations.

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

[8] Conform.

[9] For example, amounts payable in respect of subnotes will not get the amounts payable to them based on scheduled payments since senior notes will preempt them under the acceleration waterfall.

[4][10] A corresponding provision needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, so that the Beneficiaries are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03 or Section ~~6.03~~ 8.02.

**2.09 Modifications of Approved Obligations**

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements[11] and this Agreement, to:

[11] The deletion of the earlier proviso in this draft is based on the understanding that the Province will receive adequate notices of these event as a Specified Creditor under the Trust Indenture. OPG will agree not to allow any of these events without confirming to the Province under the Process Certificate that the changes are within the agreed scope of the Reviewed Documents, etc.

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

[There shall be no Adherence Conditions applicable in relation to a Primary Obligation that is not a Funding Obligation.][13] The following shall be the Adherence Conditions applicable in relation to a Primary Obligation that is a Funding Obligation:

[13] Under consideration by the Province. Province is comfortable that immaterial (<1M) obligations need not be subject to these adherence provisions.

## ARTICLE V
## PROVINCE MATTERS

**5.01 Assignment and Subrogation**

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

### 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary ~~for~~to whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture~~.~~ in the manner and to the extent contemplated in Section 2.01.

### 5.03 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[~~5~~15]

### 5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

[~~5~~15] Payments to be addressed in the Trust Indenture like servicer advances under the waterfall provisions.

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[616]

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: the forms of assumption agreement(s) need to be settled before this agreement is finalized.]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

### 6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee and the Beneficiaries shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

[616] Further details regarding obtaining of third party consents and rating agency approvals to be provided by OPG.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

### 7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province, the Financing Entity and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

### 7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

## ARTICLE VIII
## SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

### 8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**") may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity in any of the following circumstances:

(a) ~~upon~~following the Province becoming aware of the occurrence of a Program Breach; and

(b) following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of any Obligation Secured incurred or amended on or after the time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred or amended on or after the time such Suspension Notice is delivered[17].

### 8.03 Termination Notice

On (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").~~7~~[18]

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

[17] This will be affected by the resolution of the "amendments" point.

~~7~~[18] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

## ARTICLE IX

I reviewed this and I think that in particular we will need to go over the changes to s. 2.01 where the Manager calculates the Aggregate Approved Obligation Amounts as well as those definitions and the difference between the acceleration and no acceleration descriptions. In drafting the wording of the limited guarantee appropriately, an understanding of the proposed amendments to the regulation of the Fair Hydro Plan Act are important as I understand that those cap the potential for balloon payments although they permit some additional payments depending on a number of factors.

We would appreciate if Energy Legal could review this wording in particular to see if it is consistent with the concepts in the proposed regulation as we don't have sufficient familiarity with the regulation and how this would work.. Thank you.

Also the changes seem to set up reliance on the Manager to calculate how much is owing and so this approach should be considered.

Also, changes to 4.02 to focus on Funding Obligations will need to be reviewed and the proposed optional approach to a certificate for amendments, has not been resolved. Hopefully we will receive a further proposal or follow up on that.

I know that we are awaiting a further conformed version of both of the agreements from Torys so not sure what changes they will make.

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

---

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

**1.18 References to Acts of the Financing Entity**

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

**1.19 Judgment Currency**

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, substantially in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the Approved Obligations as provided in this Agreement. From and after the delivery of a Payment Demand, the Province shall make payments in respect of Approved Obligations and receive Subrogation Amounts in accordance with the following procedures (the "**Limited Guarantee**"):

i. One Business Day prior to each Payment Date when any payment or payments are to be made in respect of one or more Approved Obligations, the Manager shall advise the Province in writing of the Aggregate Approved Obligations Amount in respect of such Approved Obligations on such Payment Date.

ii. On each Payment Date the Province shall pay the Aggregate Approved Obligations Amount to the Indenture Trustee and the Indenture Trustee shall deposit such amount to the Protection Account.

iii. On each Payment Date, the Paying Agent shall apply the Aggregate Approved Obligations Amount deposited to the Protection Account to pay in full to the applicable Beneficiaries the Approved Obligation Amount of each Beneficiary payable on such Payment Date; provided that if for any reason the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount available shall be applied in the order of priority in which the applicable Approved Obligations are payable in the section of the Trust Indenture which would otherwise be applicable to the making of such payments.

iv. The Manager shall prepare payment instructions for the Payment Date under each section of the Trust Indenture applicable to the making of the payments under clause 2.01(a)iii allocating the amounts available to be allocated under each such section (which for greater certainty, are amounts other than the Approved Obligations Amounts) on the basis that: (A) for the purpose of determining the amount of the payment to each applicable Person (including the Beneficiaries of Approved Obligations), the payments made under clause 2.01(a)iii are disregarded, and (B) any amounts so determined which are payable to the Beneficiaries that have

been paid under clause 2.01(a)iii are paid instead to the Province (such payments being "**Subrogation Amounts**").

(b) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include the loss represented by the failure to receive the principal and interest itself.

**2.02 Intentionally Deleted.**

**2.03 Absence of Set-off**

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[3] in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period,

[3] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation as provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[4]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to related Subrogation Amounts and the rights contemplated Section 5.01 in relation to such continuing obligations.

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

[4] A corresponding provision needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, so that the Beneficiaries are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

**2.09 Modifications of Approved Obligations**

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

(b) OPG (acting in its capacity as FSM) delivers an officers certificate addressed to the Indenture Trustee, prior to the earlier of (i) one Business Day prior to the incurrence of the Primary Obligation, and (ii) one Business Day after the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and [**NTD: does this work for derivatives? They are often priced at the same time they are entered into.**]

(c) the Province has not provided a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of this Agreement.

**4.03 Evidence of Satisfaction**

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## PROVINCE MATTERS

**5.01 Assignment and Subrogation**

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation to the extent of the payment by the Province in respect of the Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust

Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

**5.02 Priorities**

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

**5.03 Province May Perform Other Program Agreement Covenants.**

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[5]

**5.04 Representations and Warranties**

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: the forms of assumption agreement(s) need to be settled before this agreement is finalized.]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

### 6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by

the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

(a) upon the Province becoming aware of the occurrence of a Program Breach; and

(b) following the occurrence of a Breach Event that has not been waived in writing by the Province.

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, substantially in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay ~~the amount of~~ the Approved Obligations ~~that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity~~* ~~to the Indenture Trustee~~ *~~as and when they become due and payable, without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, without Acceleration, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.~~as provided in this Agreement. From and after the delivery of a Payment Demand, the Province shall make payments in respect of Approved Obligations and receive Subrogation Amounts in accordance with the following procedures (the "**Limited Guarantee**"):

i. One Business Day prior to each Payment Date when any payment or payments are to be made in respect of one or more Approved Obligations, the Manager shall advise the Province in writing of the Aggregate Approved Obligations Amount in respect of such Approved Obligations on such Payment Date.

ii. On each Payment Date the Province shall pay the Aggregate Approved Obligations Amount* to the Indenture Trustee *and the Indenture Trustee shall deposit such amount to the Protection Account.

iii. On each Payment Date, the Paying Agent shall apply the Aggregate Approved Obligations Amount deposited to the Protection Account to pay in full to the applicable Beneficiaries the Approved Obligation Amount of each Beneficiary payable on such Payment Date; provided that if for any reason the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such

[3] ~~The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.~~

Approved Obligation Amounts in full, the amount available shall be applied in the order of priority in which the applicable Approved Obligations are payable in the section of the Trust Indenture which would otherwise be applicable to the making of such payments.

iv. The Manager shall prepare payment instructions for the Payment Date under each section of the Trust Indenture applicable to the making of the payments under clause 2.01(a)iii allocating the amounts available to be allocated under each such section (which for greater certainty, are amounts other than the Approved Obligations Amounts) on the basis that: (A) for the purpose of determining the amount of the payment to each applicable Person (including the Beneficiaries of Approved Obligations), the payments made under clause 2.01(a)iii are disregarded, and (B) any amounts so determined which are payable to the Beneficiaries that have been paid under clause 2.01(a)iii are paid instead to the Province (such payments being "**Subrogation Amounts**").

(b) ~~Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation, in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Protection Account[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**").~~ For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

[4] ~~Province needs to see how the Trust Indenture will be modified to address addition of Protection Account (i.e., payment mechanics; Protection Account to be part of the Collateral; mechanics of how funds move to Collection Account; absence of equitable claims; etc.). Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights.~~

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include the loss represented by the failure to receive the principal and interest itself.

**2.02 Intentionally Deleted.**

**2.03 Absence of Set-off**

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[53] in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation as provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved

[53] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[64]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to related Subrogation Amounts and the rights contemplated ~~under~~ Section 5.01 in relation to such continuing obligations.

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

## 2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

## 2.07 Continuing Liability of the Province

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: ~~Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.~~[10] ~~Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.~~[11] the forms of assumption agreement(s) need to be settled before this agreement is finalized.]**

[96] Further details regarding obtaining of third party consents and rating agency approvals to be provided by OPG.

[10] ~~The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.~~

[11] ~~It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.~~

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

### 6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. [~~12~~7] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

Hi all,

These revisions were sent out by Steve last evening. Please review to ensure all the comments at the meeting yesterday were captured. Also, please review s. 4.01 in particular as based on discussions with Steve last evening the language was modified a bit to change it so the Province may disagree with the amount for the protection agreement maximum proposed by OPG on reasons related to the inconsistencies or inaccuracies as opposed to agreeing as opposed to confirming agreement. Please let us know if you have comments on this. Thanks.

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the

Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the ~~Financing Entity~~Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration[1]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, ~~(~~without Acceleration~~)~~, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined

[3] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.

~~[1] Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.~~

~~[2] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.~~

payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the ~~Collection Account~~ Protection Account[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation~~, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account~~.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 ~~Gross-up~~Intentionally Deleted.**

~~[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.]~~[3]

[4] Province needs to see how the Trust Indenture will be modified to address addition of Protection Account (i.e., payment mechanics; Protection Account to be part of the Collateral; mechanics of how funds move to Collection Account; absence of equitable claims; etc.). Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights.

[3] ~~Under consideration.~~

### 2.03 Absence of Set-off

~~The~~Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

### 2.04 Payment into ~~Collection~~Protection Account[5] in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[4] Upon a payment having been made by or on behalf of the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved

Obligation to the extent so paid[5]6. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment,

decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

### 2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03~~]~~.

### 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

~~(b) at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[6] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not exceed the Protection Agreement Maximum;~~

~~(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, one Business Day prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;~~

(b) ~~(d)~~ the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG and, for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the ~~Province and the~~ Indenture Trustee, ~~one Business Day~~ prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), ~~setting out the following with respect to the Primary Obligation:~~confirming that the FSM

has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

~~i. confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation (if any), together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum; and~~

~~ii. confirmation that the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province; and~~

## ARTICLE V
## ~~RIGHTS OF THE~~ PROVINCE MATTERS

### 5.01 Assignment and Subrogation

~~Upon paying an amount in respect of an Approved Obligation:~~

~~(a) to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or~~

~~(b) as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,~~

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the

[7] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province be sure future Limited Guarantees are cut-off opposite the indenture trustee.

Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a ~~secured party~~Specified Creditor under the Trust Indenture~~)~~ on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including~~, if applicable, as a Noteholder~~ as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(a) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

## 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

~~5.03 Voting Rights under "Outstanding Notes"~~

~~Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[7]:~~

~~(a) Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and~~

~~(b) in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.~~

## 5.03 ~~5.04~~ Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[8]

## 5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

[7] ~~This concept needs to be reflected in the Trust Indenture.~~

[8] ~~General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE~~ Payments to be addressed in the Trust Indenture like servicer advances under the waterfall provisions.

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[9]

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee~~.~~ but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.[10] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.[11]]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

---

[9] Further details regarding obtaining of third party consents and rating agency approvals to be ~~considered~~provided by OPG.

[10] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[11] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

### 6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

### 7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize

the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

~~7.04~~ ~~**Release of all Collateral**~~

~~(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.~~

~~(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.~~

~~7.05~~ ~~**Right to Notice and Attend Meetings**~~

~~The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.~~

## ARTICLE VIII
## SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

**8.01** ~~**Suspension Notice**~~**Suspension Notice**

A written notice in the form of Exhibit C (a "**Suspension Notice**") may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity:

(a) ~~shall be provided by the FSM or the Province to the Indenture Trustee promptly following~~upon the Province becoming aware of the occurrence of a Program Breach; and

(b) ~~may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity~~ following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the ~~Financing Entity~~Limited Guarantee shall not ~~incur~~apply in respect of any ~~new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province~~Obligation Secured incurred on or after the time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred on or after the time such Suspension Notice is delivered.

### 8.03 Termination Notice

On (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").[12]

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

## ARTICLE IX
## MISCELLANEOUS

### 9.01 Term of Agreement

This Agreement will continue until the later of:

(a) the date that no amount is or may become due and payable by the Province under the Limited Guarantee; and

(b) the date that a Termination Notice delivered in accordance with Section 8.03 is received by the Indenture Trustee, the FSM and the Financing Entity.

[12] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

**9.02 Notices**

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. Notice of change of address will also be governed by this Section. In the event of a general discontinuance of postal service due to strike, lock-out or otherwise, notices or other communications will be delivered by hand or sent by facsimile or other means of electronic communication and will be deemed to have been received in accordance with this Section. ## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The ~~FSM, as agent of the~~ Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the

The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## 1.19 ~~1.18~~ Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall,

notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable[1], without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, without Acceleration, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as

[3] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.

[1] ~~Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.~~

[2] ~~Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.~~

and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Protection Account ~~5 Business Days prior to the fifteen day of each calendar month~~[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 ~~Gross-up~~Intentionally Deleted.**

~~All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Protection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.~~

required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

## 2.04 Payment into Protection Account[5] in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture ~~as if~~on the basis that it ~~were~~is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[3~~6~~]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become

entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety. ~~**[NTD: Further consideration required as to whether there should be a waiver of any other equitable defences.]**~~

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

## 2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations ~~and termination of the Trust Indenture~~, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

## 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine~~.~~,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

# THE INDENTURE TRUSTEE

## 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if the Adherence Conditions applicable thereto have been satisfied.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

~~(b) [NTD: already covered in process certificate in section 3.01 of the Process Agreement]~~

~~(c) [NTD: already covered under Process Agreement.]~~

(b) ~~(d)~~ the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG and, for clarity, such certificate is to be provided ~~in OPG's~~by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, ~~one Business Day~~ prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(c) ~~(e) [NTD: This is more properly dealt with in Section 8.02~~the Province has not provided a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of this Agreement.~~]~~ [7]

[7] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province be sure future Limited Guarantees are cut-off opposite the indenture trustee.

### 4.03 Evidence of Satisfaction

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## PROVINCE MATTERS

### 5.01 Assignment and Subrogation

~~(a) Upon paying an amount in respect of an Approved Obligation:~~

~~ii. [as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,] [NTD: This requires further discussion depending on the terms of the assignment and assumption agreement. (a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. ~~Subject to Section 5.01(b), the~~The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture~~)~~ on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the

Financing Entity. ~~Subject to Section 5.01(b), the~~The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including~~, if applicable, as a Noteholder~~ as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

## 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

(b) **in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.] [NTD: To be discussed. Giving these voting rights to the Province may affect the marketability of the debt under this program.]**

## 5.03 5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[5][8] **[NTD: Discussion required as to how these repayments will be dealt with under the MTI, and in particular, under the waterfall provisions.]**

The Province hereby represents and warrants that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[~~6~~9]

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead ~~be~~become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.[10] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in**

[~~6~~9] Further details regarding obtaining of third party consents and rating agency approvals to be ~~considered~~provided by OPG.

[10] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

**Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.[11]]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

### 6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

### 7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

[11] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

Upon the delivery of such Termination Notice, the Province shall assume the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI **[NTD: If the Province terminates the program, it must assume the obligations of the Financing Entity.]**[12]

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with this AgreementArticle VI.

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER[1]]**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

[1] OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, the [FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to [the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations [the FSM] has agreed to perform and assurances [the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of [the FSM], and of the Province in accordance with the Act, have been done.

[1] ~~Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.~~

Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently with the consent of the Province if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum ~~based on~~, which may not exceed such Forecast.

(d) Not more than ~~[■]~~10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province ~~shall confirm its agreement with the revised Protection Agreement Maximum or if the Province does not agree with the determination of the revised Protection Agreement Maximum, which disagreement may only be on the basis that the further Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will~~may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. ## ARTICLE VI
## ELECTION[2] TO ASSUME APPROVED OBLIGATIONS~~[2]~~

### 6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to [the FSM] a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to [the FSM] (the "**Proposed Assumption Date**").

### 6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Notice to [the FSM], [the FSM] shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement - to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.

~~[2] Note to Province/Blakes: Article 6 to be moved and merged with Article 6 of the Change of Law Protection Agreement with appropriate revisions. It is more appropriate in that agreement. See also the comments in Article 6 of the Change of Law Protection Agreement.~~

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured ~~is~~ attached as Exhibit E to the Change of Law Protection Agreement.[3]

**6.03 Settlement of Terms**

Within ~~20~~30 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

**6.04 Cooperation to Implement the Assignment and Assumption**

[The FSM] shall cooperate with the Province and will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.[4]

**6.05 Terms of Obligations Secured**

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, [the FSM ~~will use commercially reasonable efforts to~~] shall cause the Financing Entity ~~to, use commercially reasonably efforts~~ to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts~~; provided that, this Section 6.05 shall not apply to any Obligations Secured~~, other than to the extent of payment obligations

[3] ~~Note to Province: A~~Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured ~~is required. It is impractical to have an~~. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement ~~for each type of Obligation Secured~~will work for swaps, debt and service obligations.

[4] ~~Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.~~

arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[~~5~~4]

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of [the FSM] under this Agreement, which continues for ~~sixty~~thirty (~~60~~30) days after written notice by the Province to [the FSM] of such default or breach;

(b) any representation or warranty made by [the FSM] in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section ~~4.03~~4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within ~~sixty~~thirty (~~60~~30) days after written notice by the Province to [the FSM] of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager. ~~**[NTD: The FSM is a statutory role and OPG can only be removed as FSM by the Province.]**~~

### 7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to [the FSM], and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, [the FSM] and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

[~~5~~] ~~Note:~~ [4]The Trust Indenture will need to ~~include a clause providing that~~permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders ~~may~~to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in ~~the~~a form of agreement to be set out in an exhibit to the Trust Indenture. ~~**[NTD: The form of Assumption Agreement shall**~~The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement ~~**(consistent with our comment to move Article 6 here to the Change of Law Protection Agreement). We**~~, The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to ~~**otherwise**~~ address ~~**your comment**~~this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured ~~**pursuant to Sections 5.01(f) and 5.03(b) of the MTI, and (ii) we will add language in section 11.01 of the MTI that allows**~~on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.~~**]**

**Draft: November 14, 2017**

**HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE**

**AND**

**ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER[1]]**

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

[1] OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, the [FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to [the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations [the FSM] has agreed to perform and assurances [the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of [the FSM], and of the Province in accordance with the Act, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

### 2.01 Deliveries to the Province

(a) Not less than [15 Business Days] prior to the initial issuance of any Funding Obligation by the Financing Entity, [the FSM] shall deliver to the Province a copy of the initial Financing Plan. [For clarity, OPG's obligations under this Agreement are solely in its capacity as the FSM.]

## ARTICLE III
## PROCESS CERTIFICATE

### 3.01 Process Certificate

[The FSM] shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are also executive officers of OPG) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Primary Obligation, and (ii) on the Business Day on which the financial terms of such Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Primary Obligation:

(a) the material terms of the Primary Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Primary Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement confirming that any disclosure made in respect of the Primary Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Primary Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available for review to the Province prior to use or dissemination and the Province provided its written consent to such use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made and for which the Province had previously provided its written consent;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars and in respect of which a Derivative Agreement has been entered into to hedge related currency exposures shall be valued for this purpose on the basis of the hedged value expressed in Canadian dollars for so long as such Derivative Agreement is in good standing.

**3.02 Acknowledgment**

The parties acknowledge that the Process Certificate is the "process certificate" referred to in Subsection 4.02(b) of the Change of Law Protection Agreement.

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to [the FSM]; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to [the FSM].

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 or Article VI of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a

result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with Article VI of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

### 4.01 Protection Agreement Maximum

(a) Not less than 15 Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum, which may not exceed the Initial Forecast.

(b) Not more than 10 Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan, or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's

expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently with the consent of the Province if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars and in respect of which a Derivative Agreement has been entered into to hedge related currency exposures shall be valued for the purposes of this Section 4.01 on the basis of the hedged value expressed in Canadian dollars for so long as such Derivative Agreement is in good standing.

## ARTICLE V
## REPRESENTATIONS AND WARRANTIES

### 5.01 Representations and Warranties of [the FSM]

[The FSM] represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its

obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

(c) OPG has been validly appointed, and has irrecovably accepted such appointment, as the FSM in accordance with the Act. OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

**5.02 Representations and Warranties of the Province**

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

## ARTICLE VI
## ELECTION[2] TO ASSUME APPROVED OBLIGATIONS

**6.01 Election by the Province**

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to [the FSM] a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to [the FSM] (the "**Proposed Assumption Date**").

**6.02 Details regarding Obligations Secured**

Promptly following the delivery of the Election Notice to [the FSM], [the FSM] shall provide the following information and documentation to the Province:

[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement - to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured attached as Exhibit E to the Change of Law Protection Agreement.[3]

**6.03 Settlement of Terms**

Within 30 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

[3] Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations.

### 6.04 Cooperation to Implement the Assignment and Assumption

[The FSM] shall cooperate with the Province and will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

### 6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, [the FSM] shall cause the Financing Entity to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[4]

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of [the FSM] under this Agreement, which continues for thirty (30) days after written notice by the Province to [the FSM] of such default or breach;

(b) any representation or warranty made by [the FSM] in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section 4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured

[4]The Trust Indenture will need to permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in a form of agreement to be set out in an exhibit to the Trust Indenture. The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement. The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.

within thirty (30) days after written notice by the Province to [the FSM] of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

**7.02 Notice on Breach Event**

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to [the FSM], and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, [the FSM] and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

[1] OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")~~,~~[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, ~~the FSM established~~ the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, ~~OPG~~the [FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to ~~OPG~~[the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations ~~OPG~~[the FSM] has agreed to perform and assurances ~~OPG~~[the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of ~~OPG~~[the FSM], and of the Province in accordance with the Act, have been done.

[1] ~~Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.~~

Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) ~~Upon receiving an updated Forecast, the Province shall determine whether or not the Protection Agreement Maximum will be revised. In determining whether the Protection Agreement Maximum will be revised, the Province may have regard to (but not be bound by) such updated Forecast. Any determination by the Province to revise the Protection Agreement Maximum will be confirmed by setting out a new Protection Agreement Maximum in a written notice from the Province to the FSM and the Indenture Trustee, the delivery of which will be conclusive evidence that such new Protection Agreement Maximum will apply until it may be further so revised.~~ Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars and in respect of which a Derivative Agreement has been entered into to hedge related currency exposures shall be valued for the purposes of this Section 4.01 on the basis of the hedged value expressed in Canadian dollars for so long as such Derivative Agreement is in good standing.

## ARTICLE VI
## ELECTION[2] TO ASSUME APPROVED OBLIGATIONS

### 6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) ~~to~~ elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to ~~OPG~~[the FSM] a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to ~~OPG~~[the FSM] (the "**Proposed Assumption Date**").

### 6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Notice to ~~OPG, OPG~~[the FSM], [the FSM] shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any

[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement - to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.

documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) ~~a draft version of~~ the form of Assumption Agreement ~~prepared in relation to each Obligation Secured, prepared in accordance with and having regard to the requirements of the relevant agreement(s) under which the Obligation Secured arises.~~ in respect of the assignment and assumption of all Obligations Secured attached as Exhibit E to the Change of Law Protection Agreement.[3]

**6.03 Settlement of Terms**

Within ~~20~~30 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

**6.04 Cooperation to Implement the Assignment and Assumption**

~~OPG~~[The FSM] shall cooperate with the Province and~~, as FSM,~~ will use commercially reasonable efforts to cause the Financing Entity to cooperate, and ~~each~~ shall use its ~~best~~commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.~~3~~

**6.05 Terms of Obligations Secured**

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, ~~OPG will, and as~~[the FSM~~, will~~] shall cause the Financing Entity to~~,~~ ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity~~,~~ permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, other than to the extent of payment obligations arise under market standard

[3] Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations.

~~[3] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.~~

mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[4]

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of ~~OPG~~[the FSM] under this Agreement ~~(including in respect of its role as FSM under any Program Agreement)~~, which continues for thirty (30) days after written notice by the Province to [the FSM] of such default or breach;

(b) any representation or warranty made by ~~OPG~~[the FSM] in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section ~~4.03~~4.02 of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within thirty (30) days after written notice by the Province to [the FSM] of such misrepresentation; or

(c) OPG is no longer the ~~FSM, the Administrative Agent or the~~ Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as ~~the FSM, the Administrative Agent or~~ the Manager.

### 7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to ~~OPG~~[the FSM], and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, [the FSM] and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

[4] ~~Note:~~ The Trust Indenture will need to ~~include a clause providing that~~permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders ~~may~~to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in ~~the~~a form of agreement to be set out in an exhibit to the Trust Indenture. The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement. The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

---

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

**1.08 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.09 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

**1.16 Interest Act**

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such

yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

**1.19 Judgment Currency**

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, without Acceleration, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation, in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Protection Account[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

---

[3] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.

[4] Province needs to see how the Trust Indenture will be modified to address addition of Protection Account (i.e., payment mechanics; Protection Account to be part of the Collateral; mechanics of how funds move to Collection Account; absence of equitable claims; etc.). Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 Intentionally Deleted.**

**2.03 Absence of Set-off**

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[5] in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount

[5] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

due and payable to the applicable Beneficiaries under the Approved Obligation. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[6]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

[6] A corresponding provision needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, so that the Beneficiaries are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

**2.09 Modifications of Approved Obligations**

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if the Adherence Conditions applicable thereto have been satisfied.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG and, for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Indenture Trustee, prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(c) the Province has not provided a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of this Agreement. [7]

**4.03 Evidence of Satisfaction**

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## PROVINCE MATTERS

**5.01 Assignment and Subrogation**

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

[7] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province be sure future Limited Guarantees are cut-off opposite the indenture trustee.

(a) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

**5.02 Priorities**

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

**5.03 Province May Perform Other Program Agreement Covenants.**

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[8]

**5.04 Representations and Warranties**

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

[8] Payments to be addressed in the Trust Indenture like servicer advances under the waterfall provisions.

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[9]

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.[10] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured. [11]]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

---

[9] Further details regarding obtaining of third party consents and rating agency approvals to be provided by OPG.

[10] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[11] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

### 6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

## ARTICLE VII

### 7.02 Not Responsible for Recitals or Issuance of Notes

delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(a) upon the Province becoming aware of the occurrence of a Program Breach; and

(b) following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Limited Guarantee shall not apply in respect of any Obligation Secured incurred on or after the time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred on or after the time such Suspension Notice is delivered.

### 8.03 Termination Notice

On (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").[12]

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations

[12] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Ontario Power Generation Inc., as the Manager and in its capacity as Manager of Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc. in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee and in its capacity as trustee for the Beneficiaries in accordance with the Trust Indenture, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The FSM, as agent of the Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

Specified Creditors, as Beneficiaries, shall not have or be permitted to exercise any rights, interests, or elections under this Agreement, other than in the manner and to the extent effected and exercised through the Indenture Trustee under, in accordance with and subject to the limitations set forth in the Trust Indenture.

**1.04 Province Retains Rights of Beneficiaries**

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other Funding Obligation Agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province upon performance by the Province of the Primary Obligation. To the extent of any conflict between this Agreement and the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 in respect of any matter relating to the Province's obligations to indemnify the FSM or the Financing Entity, the latter shall prevail.

**1.05 Effect of Headings**

The Article and Section headings herein are for convenience only and will not affect the construction hereof.

**1.06 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

**1.07 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.08 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

**1.09 Proceedings Against the Crown Act**

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

**1.10 Attornment**

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

**1.11 Counterparts; Electronic Delivery**

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

### 1.12 Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

### 1.13 Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

### 1.14 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

### 1.15 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

### 1.16 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

### 1.17 References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to the Financing Entity, such reference shall

be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the FSM as agent for the Financing Entity Trustee (in its capacity as trustee of the Financing Entity). **[NTD: Discuss whether the Financing Entity Trustee should be a party to this Agreement and references to the Financing Entity Trustee re-inserted into this section and others.]**

### 1.18 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the Approved Obligations owing from time to time by the Financing Entity to the Indenture Trustee as and when they become

due and payable[1]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts owing by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Protection Account 5 Business Days prior to the fifteen day of each calendar month (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages.

**2.02 <u>Gross-up</u>**

All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Protection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect

[1] Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[2] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.

of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.

**2.03 Absence of Set-off**

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture as if it were an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable under the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[3].

[3] Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee under this Agreement. Please see our addition

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety. **[NTD: Further consideration required as to whether there should be a waiver of any other equitable defences.]**

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

in Section 9.08. The Specified Creditors already make the necessary acknowledgement in Article 5 of the Trust Indenture. Isn't this also addressed in section 1.03 above?

### 2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations and termination of the Trust Indenture, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

### 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if the Adherence Conditions applicable thereto have been satisfied.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) **[NTD: already covered in process certificate in section 3.01 of the Process Agreement]**

(c) **[NTD: already covered under Process Agreement.]**

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG and, for clarity, such certificate is to be provided in OPG's capacity as FSM) and addressed to the Indenture Trustee, one Business Day prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(e) **[NTD: This is more properly dealt with in Section 8.02 of this Agreement.]**.

### 4.03 Evidence of Satisfaction

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## PROVINCE MATTERS

### 5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation:

i. to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

ii. **[as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,] [NTD: This requires further discussion depending on the terms of the assignment and assumption agreement. If the Obligations Secured are assigned and assumed by the Province under Article VI, how would the Province be subrogated and entitled to the Beneficiary's rights and interests under the Approved Obligation? Consider limiting the application of this section 5.01 to the Limited Guarantee.]**

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. Subject to Section 5.01(b), the Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture) under such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. Subject to Section 5.01(b), the Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including, if applicable, as a Noteholder) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) the Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province will be a Specified Creditor hereunder and its entitlements as a Specified Creditor are subject to the provisions applicable to Specified Creditors under the Trust Indenture including, without limitation, **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]**, (ii) irrevocably authorizes and directs the Indenture Trustee on its behalf to take such action (including the execution and delivery of documents of subordination) as may be necessary or appropriate to

further assure the priority arrangements provided for in **[Article VI and Sections 7.04 and 8.13 of the Trust Indenture]**, (iii) appoints the Indenture Trustee as its agent for any and all such purposes, and (iv) confirms that the Indenture Trustee shall send notices to the Province in accordance with Section 9.02.

**5.02 Priorities**

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

**5.03 Voting Rights under "Outstanding Notes"**

**[Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[4]:**

(a) **Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and**

(b) **in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.] [NTD: To be discussed. Giving these voting rights to the Province may affect the marketability of the debt under this program.]**

**5.04 Province May Perform Other Program Agreement Covenants.**

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a

Finance Amount.[5] **[NTD: Discussion required as to how these repayments will be dealt with under the MTI, and in particular, under the waterfall provisions.]**

### 5.05 Representations and Warranties

The Province hereby represents and warrants that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement and the completion of the transactions contemplated hereby do not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including, without limitation, under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

## ARTICLE VI

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

[5] General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

[6] Further details regarding obtaining of third party consents and rating agency approvals to be considered.

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead be primary obligor under the Obligations Secured. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly. Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

## ARTICLE VII
## INDENTURE TRUSTEE MATTERS

### 7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

### 7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

**[Note: Any right to such matters will be the general rights of Specified Creditors as set out in the Trust Indenture.]**

## ARTICLE VIII
## SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

### 8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**"):

(a) shall be provided by the Province to the Indenture Trustee promptly following the occurrence of a Program Breach; and

(b) may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), this Change of Law Protection Agreement shall not apply in respect of any new Primary Obligation following the date of such Suspension Notice. **[NTD: Deletion of "or additional" is address the situation where a then current Primary Obligation requires an additional Primary Obligation in accordance with its terms of the MTI.]**

### 8.03 Termination Notice

On the occurrence of a Suspension Event, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**"). Upon the delivery of such Termination Notice, the Province shall assume the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI **[NTD: If the Province terminates the program, it must assume the obligations of the Financing Entity.]**

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations

in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with this Agreement.

## ARTICLE IX
## MISCELLANEOUS

### 9.01 Term of Agreement

This Agreement will continue until the **[later]** of:

(a) the date that no amount is or may become due and payable by the Province under the Limited Guarantee and the Trust Indenture has been terminated;

(b) **[subject to Section 8.04,] [NTD: Should this clause subject to section 8.04?]** following receipt of a Termination Notice from the Province by the Indenture Trustee, the FSM and the Financing Entity, the Assumption Effective Date being the date that the Province has assumed the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI; and

(c) **[subject to Section 8.04,] [NTD: Should this clause subject to section 8.04?]** following receipt of an Assumption Notice from the Province by the Indenture Trustee, the Assumption Effective Date being the date that the Province has assumed the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI.

### 9.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. (b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the Approved Obligations owing from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable~~, without Acceleration~~[1]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation ~~(without Acceleration)~~ in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts owing by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, ~~as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation,~~ in each case by the Province depositing or causing the deposit of the applicable payment amount into the ~~Collection~~Protection Account 5 Business Days prior to the fifteen day of each calendar month (the "**Limited Guarantee**"). [1] Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[2] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.

result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

## 2.02 Gross-up

[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the CollectionProtection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.][3]

## 2.03 Absence of Set-off

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

## 2.04 Payment into CollectionProtection Account in Satisfaction

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited

[3] Under consideration.

thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture as if it were an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[4] Upon a payment having been made by or on behalf of the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable under the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid~~5~~3.

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

[4] ~~This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently.~~

~~5~~3 Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee under this Agreement. Please see our addition in Section 9.08. The Specified Creditors already make the necessary acknowledgement in Article 5 of the Trust Indenture. Isn't this also addressed in section 1.03 above?

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety. **[NTD: Further consideration required as to whether there should be a waiver of any other equitable defences.]**

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

### 2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

### 2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

### 2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations and termination of the Trust Indenture, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03~~)~~.

### 2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements ~~and this Agreement~~, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine~~,provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained~~.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[6] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not exceed the Protection Agreement Maximum;**[NTD: already covered in process certificate in section 3.01 of the Process Agreement]**

(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, one Business Day prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;**[NTD: already covered under Process Agreement.]**

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG and, for clarity, such certificate is to be provided in OPG's capacity as FSM) and addressed to the Province and the Indenture Trustee, one Business Day prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to the Primary Obligation:

i. confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation (if any), together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum; andii. confirmation that confirming that the FSM has delivered to the Province a certificateProcess Certificate in accordance with Section **[3.01]** of the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province; and

(e) the Province has not provided a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms**[NTD: This is more properly dealt with in Section 8.02 of this Agreement.]**.

[6] Use of the concept of "repayments" under the OFHPA for this purpose is under consideration.

### 4.03 Evidence of Satisfaction

A closing certificate ~~signed by at least two executive officers of OPG~~delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## ~~RIGHTS OF THE~~ PROVINCE MATTERS

### 5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation:

i. ~~(a)~~ to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

ii. ~~(b)~~ **[as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,] [NTD: This requires further discussion depending on the terms of the assignment and assumption agreement. If the Obligations Secured are assigned and assumed by the Province under Article VI, how would the Province be subrogated and entitled to the Beneficiary's rights and interests under the Approved Obligation? Consider limiting the application of this section 5.01 to the Limited Guarantee.]**

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. ~~The~~Subject to Section 5.01(b), the Province shall have and be entitled to enforce all rights and interests (including as a ~~secured party~~Specified Creditor under the Trust Indenture) under such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. ~~The~~Subject to Section 5.01(b), the Indenture Trustee shall recognize the Province as being entitled to all

of the rights, interests and entitlements of the Beneficiary (including, if applicable, as a Noteholder) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) the Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province will be a Specified Creditor hereunder and its entitlements as a Specified Creditor are subject to the provisions applicable to Specified Creditors under the Trust Indenture including, without limitation, **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]**, (ii) irrevocably authorizes and directs the Indenture Trustee on its behalf to take such action (including the execution and delivery of documents of subordination) as may be necessary or appropriate to further assure the priority arrangements provided for in **[Article VI and Sections 7.04 and 8.13 of the Trust Indenture]**, (iii) appoints the Indenture Trustee as its agent for any and all such purposes, and (iv) confirms that the Indenture Trustee shall send notices to the Province in accordance with Section 9.02.

## 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

## 5.03 Voting Rights under "Outstanding Notes"

**[Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[74]:**

(a) **Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and**

(b) **in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken**

[74] This concept needs to be reflected in the Trust Indenture. This requires further discussion (see NTD above).

**any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.] [NTD: To be discussed. Giving these voting rights to the Province may affect the marketability of the debt under this program.]**

### 5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[85] **[NTD: Discussion required as to how these repayments will be dealt with under the MTI, and in particular, under the waterfall provisions.]**

### 5.05 Representations and Warranties

The Province hereby represents and warrants that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement and the completion of the transactions contemplated hereby do not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including, without limitation, under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

[85] General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

## ARTICLE VI

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[96]

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead be primary obligor under the Obligations Secured. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly. Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

## ARTICLE VII

### ~~7.04 Release of all Collateral~~

~~(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.~~

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), ~~the Financing Entity shall not incur any new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province.~~this Change of Law Protection Agreement shall not apply in respect of any new Primary Obligation following the date of such Suspension Notice. **[NTD: Deletion of "or additional" is address the situation where a then current Primary Obligation requires an additional Primary Obligation in accordance with its terms of the MTI.]**

### 8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish

the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with this Agreement.

## ARTICLE IX

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**"), as Financial Services Manager for the Financing Entity in accordance with the Act, is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, the FSM provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to the FSM that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations the FSM has agreed to perform and assurances the FSM has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the FSM, and of the Province in accordance with the Act, have been done.

[1] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

**Subject:** Change of Law Protection Agreement and Change of Law Process Agreement

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

# CHANGE OF LAW PROTECTION AGREEMENT

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

---

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

## AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## ARTICLE I
## DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

### 1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(c) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(d) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor;

(e) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(f) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(g) all references in this Agreement to designated "Articles", "Sections", "Subsections", "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder"

(h) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(i) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

**1.02 Trustee to act in accordance with the Trust Indenture**

Any action taken, required to be taken or permitted to be taken by the Indenture Trustee under this Agreement shall only be taken in the manner, at the times, for the purposes, subject to the prerequisites, conditions, requirements and limitations, and with the benefits, exculpations, indemnities and protections that are provided to the Indenture Trustee, in each case in respect of such action taken, required to be taken or permitted to be taken by it under the Trust Indenture.

**1.03 Proof of Approved Obligations**

The efficacy of any agreement, instrument or writing evidencing a Primary Obligation may, in the absence of manifest error, be conclusively proved in any manner that the Indenture Trustee deems to be sufficient.

Any statement of account prepared by the Indenture Trustee as regards the Primary Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due and payable by the Financing Entity to the Beneficiaries and/or the Indenture Trustee and the Province hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Indenture Trustee agrees to provide the Province with the computations and calculations used by the Indenture Trustee to prepare each such statement of account promptly following a request therefor.

**1.04 Limitation on Rights of and Actions by Specified Creditors**

Specified Creditors, as Beneficiaries, shall not have or be permitted to exercise any rights, interests, or elections under this Agreement, other than in the manner and to the extent effected and exercised under, in accordance with and subject to the limitations set forth in the Trust Indenture.

**1.05 Province Retains Rights of Beneficiaries**

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other Funding Obligation Agreement under which a related Primary

Obligation arises shall automatically arise, vest in and be available to the Province to the extent of the performance by the Province of the Primary Obligation.

**1.06 Effect of Headings**

The Article and Section headings herein are for convenience only and will not affect the construction hereof.

**1.07 Successors and Assigns**

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee, the Financing Entity, the Financing Entity Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

**1.08 Severability**

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

**1.09 Governing Law**

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

**1.13 Change of Law Protection Agreement Referred to in the Trust Indenture**

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

**1.14 Non-Business Days**

**1.15 Waiver, Amendment**

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

**1.16 Interest Act**

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

### 1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

### 1.18 References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

### 1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, substantially in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the Approved Obligations as provided in this Agreement. From and after the delivery of a Payment Demand, the Province shall make payments in respect of Approved Obligations and receive Subrogation Amounts in accordance with the following procedures (the "**Limited Guarantee**"):

i. One Business Day prior to each Payment Date when any payment or payments are to be made in respect of one or more Approved Obligations, the Manager shall advise the Province in writing of the Aggregate Approved Obligations Amount in respect of such Approved Obligations on such Payment Date.

ii. On each Payment Date the Province shall pay the Aggregate Approved Obligations Amount to the Indenture Trustee and the Indenture Trustee shall deposit such amount to the Protection Account.

iii. On each Payment Date, the Paying Agent shall apply the Aggregate Approved Obligations Amount deposited to the Protection Account to pay in full to the applicable Beneficiaries the Approved Obligation Amount of each Beneficiary payable on such Payment Date; provided that if for any reason the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount available shall be applied in the order of priority in which the applicable Approved Obligations are payable in the section of the Trust Indenture which would otherwise be applicable to the making of such payments.

iv. The Manager shall prepare payment instructions for the Payment Date under each section of the Trust Indenture applicable to the making of the payments under clause 2.01(a)iii allocating the amounts available to be allocated under each such section (which for greater certainty, are amounts other than the Approved Obligations Amounts) on the basis that: (A) for the purpose of determining the amount of the payment to each applicable Person (including the Beneficiaries of Approved Obligations), the payments made under clause 2.01(a)iii are disregarded, and (B) any amounts so determined which are payable to the Beneficiaries that have been paid under clause 2.01(a)iii are paid instead to the Province (such payments being "**Subrogation Amounts**").

(b) For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits; provided that, for greater certainty, economic loss shall not include the loss represented by the failure to receive the principal and interest itself.

**2.02 Intentionally Deleted.**

**2.03 Absence of Set-off**

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[3] in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall

[3] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation as provided for in Section 2.01(a). Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries as provided for in Section 2.01(a) and thereby reduce the amount due and payable to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[4]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to related Subrogation Amounts and the rights contemplated Section 5.01 in relation to such continuing obligations.

**2.05 Certain Waivers**

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

[4] A corresponding provision needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, so that the Beneficiaries are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

**2.06 Additional Security**

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

**2.09 Modifications of Approved Obligations**

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine.

(a) Upon paying an amount in respect of an Approved Obligation to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive the related Subrogation Amounts, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be

**5.03 Province May Perform Other Program Agreement Covenants.**

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[5]

**Dated as of [■], 2017**

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Computershare Trust Company of Canada, in its capacity as trustee (the "**Financing Entity Trustee**") of Fair Hydro Trust, a trust under the laws of the Province of Ontario (the "**Financing Entity**")[1], Ontario Power Generation Inc., in its capacity as Manager of the Financing Entity and in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee, is made and entered into as of [■], 2017.

## RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

[1] Province needs the Trust as a party to be assured of its rights of subrogation, step-in, etc.

[2] Torys to confirm that Trust is a "financing entity" under OFHPA. Under definition, FSM to establish or cause to be established. DofT indicates Computershare declares trust. Need to have this confirmed for purposes of authority under OFHPA 5(3), among other things.

~~The FSM and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether< *the Adherence Conditions* >have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.~~

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the Financing Entity, the FSM and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

**AGREEMENT OF THE PARTIES**

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, **substantially** in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay ~~the amount of~~ the Approved Obligations ~~that would have been payable from Available Collections had the Protection Event not occurred[3] from time to time by the Financing Entity~~< ~~*to the Indenture Trustee*~~ >~~as and when they become due and payable, without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation, without Acceleration, in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.~~**as provided in this Agreement. From and after the delivery of a Payment Demand, the Province shall make payments in respect of Approved Obligations and receive Subrogation Amounts in accordance with the following procedures (the "Limited Guarantee"):**

**i.** **One Business Day prior to each Payment Date when any payment or payments are to be made in respect of one or more Approved Obligations, the Manager shall advise the Province in writing of the Aggregate Approved Obligations Amount in respect of such Approved Obligations on such Payment Date.**

**ii.** **On each Payment Date the Province shall pay the Aggregate Approved Obligations Amount**> *to the Indenture Trustee* <**and**

[3] ~~The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected.~~

**the Indenture Trustee shall deposit such amount to the Protection Account.**

**iii.** **On each Payment Date, the Paying Agent shall apply the Aggregate Approved Obligations Amount deposited to the Protection Account to pay in full to the applicable Beneficiaries the Approved Obligation Amount of each Beneficiary payable on such Payment Date; provided that if for any reason the amount deposited pursuant to clause 2.01(a)ii is insufficient to pay all such Approved Obligation Amounts in full, the amount available shall be applied in the order of priority in which the applicable Approved Obligations are payable in the section of the Trust Indenture which would otherwise be applicable to the making of such payments.**

**iv.** **The Manager shall prepare payment instructions for the Payment Date under each section of the Trust Indenture applicable to the making of the payments under clause 2.01(a)iii allocating the amounts available to be allocated under each such section (which for greater certainty, are amounts other than the Approved Obligations Amounts) on the basis that: (A) for the purpose of determining the amount of the payment to each applicable Person (including the Beneficiaries of Approved Obligations), the payments made under clause 2.01(a)iii are disregarded, and (B) any amounts so determined which are payable to the Beneficiaries that have been paid under clause 2.01(a)iii are paid instead to the Province (such payments being "Subrogation Amounts").**

(b) ~~Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts that would have been payable from Available Collections had the Protection Event not occurred by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation, in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Protection Account[4] on or before the day on which the applicable Approved Obligation becomes due and payable in accordance with its terms (the "**Limited Guarantee**").~~ For greater certainty, the Limited

Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights.~~

Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits~~.~~**; provided that, for greater certainty, economic loss shall not include the loss represented by the failure to receive the principal and interest itself.**

**2.02 Intentionally Deleted.**

**2.03 Absence of Set-off**

Subject to applicable law, the Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

**2.04 Payment into Protection Account[53] in Satisfaction**

(a) On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new

Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture on the basis that it is an Issuer Account.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation **as provided for in Section 2.01(a)**. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries **as provided for in Section 2.01(a)** and thereby reduce the amount due and payable to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[64]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to **related Subrogation Amounts and** the rights contemplated ~~under~~ Section 5.01 in relation to such continuing obligations.

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

[64] A corresponding provision needs to be added to the Trust Indenture and each other contract under which the Obligation Secured arises, so that the Beneficiaries are bound by these applications and the agreement of the Indenture Trustee under this Agreement.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

### 5.04 Representations and Warranties

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee~~, in accordance with the terms of the Process Agreement,~~ that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[~~9~~6]

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee

[~~8~~5] Payments to be addressed in the Trust Indenture like servicer advances under the waterfall provisions.

but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. For greater certainty, the obligations of the Province so assumed will not be secured obligations of the Province and the obligees thereof will have no right, interest or claim to or in respect of the Collateral or any proceeds therefrom. **[NTD: ~~Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.~~[10] ~~Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.~~[11] the forms of assumption agreement(s) need to be settled before this agreement is finalized.]**

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

### 6.05 Rights in respect of the Assets Comprising the Collateral

Upon assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the Financing Entity's rights and interests under and in respect of the assets, property and undertaking comprising the Collateral and all proceeds therefrom, free and clear of any liens, encumbrances or restrictions arising under or as a result of the Trust Indenture. The Province shall have and be entitled to enforce all such rights and interests as an absolute assignee of the Financing Entity, with effect from and after the time of such assumption, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing to the Financing Entity and unaffected by any other rights, interests or equities that arise thereafter in respect of the assets, property and undertaking comprising the Collateral as between the Beneficiaries and the Financing Entity. The Indenture Trustee shall thereupon recognize the Province as the absolute owner of the assets, property and undertaking comprising the Collateral.

~~[10] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.~~

~~[11] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.~~

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[1] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.[2]

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.[3]

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

---

[1] We do not believe OPG is entering into this Agreement as agent on behalf of the Trust. Rather, OPG is entering into this Agreement at the request of its shareholder, the Province, in order to satisfy the Province's reporting requirements regarding the Fair Hydro Plan.

[2] Blakes to advise what they would like to see as evidence of OPG's establishment of the Trust as a financing entity. OPG can send the Province the retainer of Computershare to act as issuer trustee to the Trust.

[3] Once agreements are settled, Province to provide draft notice.

All things necessary to make this Agreement a valid and legally binding agreement of OPG, and of the Province in accordance with the Act, have been done.

## AGREEMENT OF THE PARTIES

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

**3.03 Meaning of "Reviewed Documentation"**

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to OPG; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to OPG.

**3.04 Meaning of "Substantially in the Form"**

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to **[Section 5.01 or Article VI]** of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with **[Article VI]** of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

## ARTICLE IV
## PROTECTION AGREEMENT MAXIMUM

**4.01 Protection Agreement Maximum**

(a) Not less than 15 Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum, which may not exceed the Initial Forecast.

(b) Not more than 10 Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to

Section 4.01(a), the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan, or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on

the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

[1] ~~OPG to consider if this agreement should form part of the overall covenant pattern (Program Agreement). We assume not. If OPG signs as FSM, consider the potential impact on the Trust, if the FSM is considered to be contracting on behalf of the Trust as principal. The intention was to keep these terms 'behind the scenes' and as between OPG and the Province.~~

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")~~[, as Financial Services Manager for the Financing Entity in accordance with the Act,]~~[1] is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.[2]

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions ~~at the time the Approved Obligation is incurred or amended~~.

Prior to entering into this Agreement, ~~the [FSM]~~**OPG** provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to ~~[the FSM]~~**OPG** that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.[3]

This Agreement sets out the obligations ~~[the FSM]~~**OPG** has agreed to perform and assurances ~~[the FSM]~~**OPG** has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied~~< *in connection with the incurrence* >or amendment of an Approved Obligation~~, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

**[1] We do not believe OPG is entering into this Agreement as agent on behalf of the Trust. Rather, OPG is entering into this Agreement at the request of its shareholder, the Province, in order to satisfy the Province's reporting requirements regarding the Fair Hydro Plan.**

**[2] Blakes to advise what they would like to see as evidence of OPG's establishment of the Trust as a financing entity. OPG can send the Province the retainer of Computershare to act as issuer trustee to the Trust.**

**[3] Once agreements are settled, Province to provide draft notice.**

All things necessary to make this Agreement a valid and legally binding agreement of ~~[the FSM]~~**OPG**, and of the Province in accordance with the Act, have been done.

## ARTICLE V
## REPRESENTATIONS AND WARRANTIES

### 5.01 Representations and Warranties of ~~[the FSM]~~OPG

~~[The FSM]~~**OPG** represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

(c) ~~OPG has been validly appointed, and has irrecovably accepted such appointment, as the FSM in accordance with the Act.~~ OPG has the power and authority to enter into and perform its obligations as the FSM under the Program Agreements and all instruments and agreements delivered pursuant thereto.

(d) The execution, delivery and performance of this Agreement and every instrument or agreement delivered pursuant hereto or in its capacity as the FSM has been or will be duly authorized by all requisite action by OPG and constitute a valid and binding obligation in accordance with its terms subject to (i) applicable bankruptcy, insolvency, moratorium and similar laws at the time in effect affecting the rights of creditors generally, and (ii) equitable principles which may limit the availability of certain remedies, including the remedy of specific performance.

(e) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting the Financing Entity at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of the Financing Entity or in the ability of the Financing Entity to perform its obligations under the Program Agreements.

(f) There are no actions, suits or proceedings pending or, to the knowledge of OPG, threatened against or affecting OPG at law or in equity or before or by any Governmental Authority, or before any arbitrator of any kind, which would result in any material adverse change in the business, operations, prospects, properties, assets or condition, financial or otherwise, of OPG or in the ability of the OPG to perform its obligations under this Agreement or any Program Agreements.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

(i) No consent, approval or authorization of, or declaration, registration, filing or qualification with, or giving of notice to, or taking of any other action in respect of, any Governmental Authority on the part of OPG is required in connection with the execution and delivery of this Agreement, the Program Agreements or any agreements or instruments delivered pursuant hereto or thereto or the consummation of any of the transactions contemplated hereby or thereby or in connection with the enforcement of this Agreement, the Program Agreements or

any agreements or instruments delivered pursuant hereto or thereto, except those which have been obtained.

**5.02 Representations and Warranties of the Province**

The Province hereby represents and warrants that:

(a) the execution, delivery and performance of this Agreement by the Province have been authorized by all necessary action on the part of the Province;

(b) the execution, delivery and performance of this Agreement by the Province do not result in the violation of any applicable law; and

(c) this Agreement has been duly executed and delivered by the Province.

## ARTICLE VI
## ELECTION[2] TO ASSUME APPROVED OBLIGATIONS[6]

**6.01 Election by the Province**

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to ~~[the FSM]~~**OPG** a notice in the form of Exhibit A (an "~~**Election Notice**~~"), ~~which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election~~**Exploration Notice"). The Exploration** Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the ~~Election~~**Exploration** Notice to ~~[the FSM]~~**OPG** (the "**Proposed Assumption Date**").

**6.02 Details regarding Obligations Secured**

Promptly following the delivery of the ~~Election~~**Exploration** Notice to ~~[the FSM], [the FSM]~~**OPG, OPG** shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

~~[2] OPG's proposal to move Art VI to the Protection Agreement is not consistent with the original basis for the Process Agreement – to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee). OPG to advise if that approach is preferred.~~

**[6] Note: Lawyers to discuss assumption mechanics.**

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province; **and**

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and.

(f) the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured attached as Exhibit E to the Change of Law Protection Agreement.[3]

**6.03 Settlement of Terms**

Within 30 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section **[6.01]** of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

**6.04 Cooperation to Implement the Assignment and Assumption**

[The FSM]**OPG** shall cooperate with the Province and**, as FSM,** will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

[3] Torys to provide a draft of the proposed form of global Assumption Agreement for all Obligations Secured. The Province may be guided by OPG on this, but we note that it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations.

### 6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, ~~[the~~**OPG, as** FSM~~]~~**,** shall **use its commercially reasonable efforts to** cause the Financing Entity to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, **[other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement**~~.[4]~~**][NTD: Subject to the input of the dealers.]**

## ARTICLE VII
## BREACH EVENTS

### 7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of ~~[the FSM]~~**OPG** under this Agreement, which continues for thirty (30) days after written notice by the Province to ~~[the FSM]~~**OPG** of such default or breach;

(b) any representation or warranty made by ~~[the FSM]~~**OPG** in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section **[4.02]** of the Change of Law Protection Agreement, proves to be incorrect on the date made and, if curable, is not cured within thirty (30) days after written notice by the Province to ~~[the FSM]~~**OPG** of such misrepresentation; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

~~[4]The Trust Indenture will need to permit the obligations of the Financing Entity to the Indenture Trustee and the Noteholders to be assigned to and assumed by the Province in accordance with an assumption agreement, substantially in a form of agreement to be set out in an exhibit to the Trust Indenture. The Province agrees that the same form of the assumption agreement should also be an exhibit to the Change of Law Protection Agreement. The Trust Indenture will need to be revised to ensure that the Province's assignment and assumption right is fully contemplated and may be implemented without any requirement for further Specified Creditor or other third party consents. Among other changes, it is contemplated that Torys will add the following to the MTI to address this requirement: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured on the basis contemplated in the form of assumption agreement, and (ii) the Indenture Trustee will be permitted to enter into and give effect to the global Assumption Agreement without the consent of Specified Creditors or any other third parties.~~

**7.02 Notice on Breach Event**

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to ~~[the FSM]~~**OPG**, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, ~~[the FSM]~~**OPG** and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

# CHANGE OF LAW PROCESS AGREEMENT

**Dated as of [■], 2017**

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**"), is made and entered into as of [■], 2017.

## RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM ~~[~~established~~]~~ the Financing Entity as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program ~~Agreement~~Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG, and of the Province in accordance with the Act ~~and the OIC~~, have been done.

[1] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

### 1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

### 1.10 Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

### 1.11 Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

### 1.12 Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

### 1.13 Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

### 1.14 Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

### 1.15 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

### 1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days

comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (~~a~~i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (~~b~~ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

### 1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

### 1.18 References to Acts of the Financing Entity Trustee

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity or the Financing Entity Trustee, as trustee of the Financing Entity, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to (i) the Financing Entity or (ii) the Financing Entity Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the Financing Entity Trustee as trustee of the Financing Entity.

### 1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Financing Entity shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section ~~1.18~~1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

## ARTICLE II
## AGREEMENT TO PERFORM APPROVED OBLIGATIONS

### 2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the Approved Obligations owing from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration[1]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation (without Acceleration) in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts owing by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Collection Account (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and ~~[~~(ii) amounts required to be deposited by or on behalf of the Financing

[1] Consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[2] ~~Note:~~ Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary ~~Obligation~~Obligations and an "investment interest" is therefore crucial~~. Unfortunately, the nexus is not straightforward~~. Blakes is considering how to more precisely connect these concepts.

Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.][3]

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

**2.02 Gross-up**

[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.][4][3]

**2.03 Absence of Set-off**

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

[3] Note: OFA to confirm whether the Limited Guarantee will extend to require the Province to fill sinking fund and collateral accounts during the period when the Province is required to make payments. If not, then we will need to consider the impact on ratepayers and the potential impact on the CEA calculations, which will have been based originally on these deposits being made during particular reference periods.

[4] Province to advise on extension of a tax gross up. We assume this is necessary, although we have not discussed it specifically and it may be that we delete this provision on the basis that the determination of a tax gross up (and the Province's liability for it) will be based on the inclusion of that concept in the Trust Indenture itself[3] Under consideration.

## 2.04 Payment into Collection Account in Satisfaction

Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Collection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[54] Upon a payment having been made by or on behalf of the Province into the Collection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable under the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[65].

## 2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

## 2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

[54] ~~Note:~~ This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently. ~~To be discussed with Torys.~~

[65] ~~Note:~~ Consider ~~if~~how Beneficiary rights under Obligations Secured ~~can in fact be affected in this way~~will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee ~~insofar as the Beneficiaries rights against the financing entity are to be affected~~under this Agreement.

**2.07 Continuing Liability of the Province**

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

**2.08 Continuance of the Limited Guarantee**

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03].

**2.09 Modifications of Approved Obligations**

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

## ARTICLE III
## THE INDENTURE TRUSTEE

### 3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

### 3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

## ARTICLE IV
## APPROVED OBLIGATIONS

### 4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (a) the Adherence Conditions applicable thereto have been satisfied; or (b) the Province has specifically approved in writing the particular terms, conditions and documentation for the Primary Obligation.

### 4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured;

(b) ~~if the Primary Obligation is a [borrowing][7],~~ at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[~~8~~6] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under

[8] ~~Note: The~~[6] Use of the concept of "repayments" under the OFHPA ~~take account of contemplated refinancings. There is some risk that an anticipated refinancing would not manifest as contemplated, in which case the amount financed (and subject to the Limited Guarantee) could exceed the Protection Agreement Maximum and result in a balloon payment obligation~~for this purpose is under consideration.

Approved Obligations,[9] do not exceed the Protection Agreement Maximum;

(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, ~~not less than ■~~one Business ~~Days and not more than ■ Business Days~~Day prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG) and addressed to the Province and the Indenture Trustee, ~~not less than ■~~one Business ~~Days and not more than ■~~Day prior to the earlier of (i) one Business ~~Days~~Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to the Primary Obligation:

i. ~~if the Primary Obligation is a [borrowing],~~ confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation (if any), together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum; and

ii. confirmation that the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province; and

(e) the Province has not provided ~~notice~~a Suspension Notice to the Indenture Trustee ~~that a Breach Event has occurred and that the Limited Guarantee does not apply to any further Primary Obligations that are incurred.~~[10], the FSM and the Financing Entity in accordance with the terms of this Agreement.

### 4.03 Evidence of Satisfaction

A closing certificate signed by at least two executive officers of OPG in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the

[9] ~~Note: If certain financing entity obligations are guaranteed under a one-off agreement, the interaction between the one-off guaranteed amount and Approved Obligations that are looked at to determine if incurrence of a new Primary Obligation is within the Protection Agreement Maximum will need to be considered.~~

applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defect or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

## ARTICLE V
## RIGHTS OF THE PROVINCE

### 5.01 Assignment and Subrogation

Upon paying an amount in respect of an Approved Obligation:

(a) to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

(b) as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (~~a~~i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (~~b~~ii) the benefits of the related Collateral and (~~c~~iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a secured party under the Trust Indenture) under such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including, if applicable, as a Noteholder) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

### 5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the

extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

### 5.03 Voting Rights under "Outstanding Notes"

Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[11][7]:

(a) Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and

(b) in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.

### 5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity [and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured and constitute a Finance Amount.[12][8]

## ARTICLE VI
## NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

### 6.01 Delivery of Assumption Notice

TheFollowing the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee that, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

[11][7] Note: This concept shouldneeds to be reflected in the Trust Indenture to be effective. Additional scenarios where the Province's rights as an affiliate of OPG may differ from what is expected are to be identified in the underlying Program Agreements.

[12] Note:[8] General Regulation mustto be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

### 6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use ~~[commercially reasonable~~best efforts~~]~~ to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.~~13~~9

### 6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee.

### 6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

## ARTICLE VII

**7.04 Release of all Collateral**

(a) shall be provided by the FSM ~~to~~or the Province ~~and~~to the Indenture Trustee promptly following the occurrence of a Program Breach; and

(b) may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event that has not been waived in writing by the Province.

### 8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Financing Entity shall not incur any new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province.

### 8.03 Termination Notice

On the occurrence of a Suspension Event, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").

### 8.04 No Impact on Adherence

We would like to have a call to discuss the Province's position on how the subordinated debt would be dealt with in the context of the support agreement, as well as the acceleration issues raised by OPG.

Please let me know if this time doesn't work, and we can try to find a different time.

Hi Gadi,

I hope NYC is going well and you are finding air conditioning.

We have been working with Steen's team and Energy legal on a draft of the fees regulation for OPG Trust and OFHP. As we progress through this, there are some elements of the regulation that we were hoping you and the OFA team might be able to consider (please see attached a black line for your reference):

- The draft reg outlines a base fee as well as a variable fee.
    - The base fee is provided monthly at an annual rate of 10-basis points for the first two years (we had this initially set at one year but Torys' markup changes this to two years). After 2019, the base fee is provided at an annual rate of 8 basis points should the funding obligations exceed $10B. Does this seem reasonable?
  - The variable fee structure seems consistent with previous discussions (5 basis point fee provided on the spread). Do you think this makes sense?
  - It would also be helpful if the OFA could let us know if the method for calculating the monthly funding obligation is reasonable.
- With respect to costs, our understanding is that these sorts of costs are typically a pass through; can the OFA confirm? The Torys markup removes OEB oversight on costs but we are wondering if there should be a role for the OFA in reviewing / providing oversight in this regard?
  - Also, do the costs they've outlined seem reasonable? In particular, LSB is wondering whether this leaves the door open for OPG to pass through any overhead costs (i.e. should we be explicit about excluding them)?
- On timing, the draft reg currently contemplates a fee application by OPG every two years regardless of what interest rates are in the market. Do we think this is fair or should the application occur annually? (Note that until new fees are established, the old fees are still in effect).

In terms of next steps, OPG would like to get a draft to their Board in time for the meeting on

Friday. ENERGY LSB is hoping for comments by tomorrow. I don’t think we need anything too detailed or formal, but a quick sniff test would be useful to ensure we are on the right track.

Thanks for your help,
Scott

"net annual funding obligation" means, in respect of a year, the sum of the principal amounts of funding obligations incurred by financing entities in a year~~, other than any refinancing~~;

(2) For the purposes of determining the average monthly funding obligation for a month, the following formula applies:

$$(A + B) / 2$$

Where,

A = the sum of the balances**, as** at **12:00 am on** the ~~start~~**first calendar day** of the month**,** of the principal amount of all **outstanding** funding obligations ~~incurred by~~**for all** financing entities,

2

B = the sum of the balances**, as** at **11:59 pm on** the ~~end~~**last calendar day** of the month**,** of the principal amount of all **outstanding** funding obligations ~~incurred by~~**for all** financing entities.

**Fees that may be established, charged**

**2.** (1) For the purposes of subsection 19 (3) of the Act, the fees established and charged by the Financial Services Manager may be charged to financing entities in relation to **the management and administration of financing entities and the investment asset, including in relation to** funding obligations incurred or that are planned to be incurred by the financing entities.

(2) A fee mentioned in subsection (1) shall be comprised of a base fee calculated under section [3, 4 or 5], as the case may be, and a variable fee calculated under section [6].

(3) ~~For the purposes of subsection 19 (3) of the Act, fees may be~~**Out-of-pocket costs and expenses of the financing entities incurred by the Financial Services Manager on behalf of the financing entities and for which the Financial Services Manager is entitled to reimbursement under a** management agreement with **such financing entity shall not constitute a fee** established and charged by the Financial Services Manager ~~to financing entities for the recovery of costs and expenditures, as provided for in section 7.~~**under subsection 19(3)**

**of the Act.[1] The costs and expenditures of the financing entities referred to in this subsection (3)** may include costs and expenditures in respect of the following:

1. Underwriters or selling agents for funding obligations**;**

2. **Banking fees, including structuring fees or work fees;**

3. Fees of issuing and paying agents for funding obligations**;**

4. **Fees of trustees;**

5. Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns**;**

(4) The Financial Services Manager shall not establish or charge any fees to financing entities other than those provided for under this ~~R~~egulation.

**Base fee, 2018 and 2019**

**3.** Subject to section 5.1, the base fee for a month in the ~~year~~**calendar years** 2018 **and 2019** shall be calculated using the following formula:

$$(0.1 \times B) / 12$$

Where,

B = the average monthly funding obligation for the preceding month.

**Base fee, after ~~2018,~~2019, average annual funding obligation greater than $10 billion**

**4.** (1) This section applies for the purpose of calculating the base fee for a month in any year following ~~2018~~**2019** if the average annual funding obligation for the preceding year was greater than $10 billion.

**[1] These represent third party costs and expenses of the financing entity, not part of the fees that OPG is charging the financing entity. From time to time, OPG may have to pay these upfront costs on behalf of financing entities but they will be a pass-through cost for which OPG would simply be reimbursed by the financing entity. Other than OPG's fees, the costs and expenditures of financing entities are not subject to OEB review under the Act but rather are recoverable as expenses through the CEA (and through IESO during the moratorium). Subsection (3) in this draft was added for greater certainty to ensure there was no misunderstanding.**

(2) Subject to section 5.1, the base fee for the month shall be calculated using the following formula:

$$(0.08 \times B) / 12$$

Where,

B = the average monthly funding obligation for the preceding month.

$$(0.1 \times B) / 12$$

Where,

4

B = the average monthly funding obligation for the preceding month.

**Board review of base fee**

**5.1** If the Board, after reviewing a submission in respect of a proposed base fee by the Financial Services Manager under section 9, is of the view that applying the applicable formula set out in section 3, 4 or 5 results in a base fee that is inconsistent with prevailing comparison fees, the Board may refuse to approve the proposed fee. If the Board refuses to approve the proposed base fee submitted by the Financial Services Manager under section 9, the Board shall provide its reasons for such refusal and ~~may~~ make recommendations to the Financial Services Manager regarding the determination of a base fee that is consistent with comparison fees~~.~~ and based on the methodology used in the formulas set out in section 3, 4 and 5.

**Variable fee**

**6.** (1) Subject to subsection (2) and section 6.1, the variable fee for a year shall be the sum of the amounts of each tranche of net annual funding obligations for the year, calculated by using the following formula~~:~~ (which in respect of individual tranches may result in a negative number):

$$(A \times (B - C)) \times 0.05$$

Where,

A = the principal amount of the tranche,

B= the forecast interest rate for the tranche, as determined by the Financial Services Manager before the start of the year, based on the term of the tranche, and

C = the actual interest rate for the tranche.

(2) If the circumstances set out in Column 1 of the following Table apply in a year, the variable fee payable for a year is subject to the rules set out opposite the circumstances in Column 2 of the Table:

[OLC Note re DEFERRAL ACCOUNT:
1. You included the following instruction that would require the FSM to establish a deferral account -- what is the authority for imposing this requirement? Recall that in subs. 34 (1) of the Act, the Board is given authority to require that the FSM maintain specific accounts.

2. ENE LSB note: *Necessity of this provision to be discussion with the OEB given that fees will be recovered as a financing entity expense through the Fair Hydro program and not as part of the fees to be approved by the Board.*]

*[If needed, deferral provision could be along the following lines: The Financial Services Manager shall establish a deferral account in connection with subsection 19 (3) of the Act that records costs incurred by the Financial Services Manager in providing services referred to in section 1 during the period from July 1, 2017 to the day before the date of the Board's first order under subsection 19 (3) of the Act.]*

[OLC Note re FINANCE AMOUNT: You included the following instruction, but I think this more properly belongs somewhere in section 5 of O. Reg. 206/17? In fact, are these fees not already covered in that section (perhaps under "financing entity expenses"?). Please confirm: *Fees established by the Financial Services Manager and approved by the Board, and any applicable taxes on such fees, shall be included in the definition of "expenses" for the purposes of determining finance amounts under the Act.*]

*[Notes Re: Determining Fees:*

*(1) An alternative approach involves the Board approving the initial base fee and variable fee, with any changes to those fees being triggered by the FSM submitting to the Board proposed amendments to those fees (or the Board triggering a review on its own initiative (not more than once per year). However, because interest rates (and hence forecast interest rates) change over time (and can change even within a year), consider whether variable B of the variable fee should be approved annually. Similarly, because trends for "market comparable fees charged by service providers for similar services" change over time, consider whether variable A of the base fee should be approved annually.]*

*(2) Once every three years after the Board has approved the fees submitted by the Financial Services Manager under section 3, or more frequently if the Board requires but not more frequently than annually, the Board may require the Financial Services Manager to engage, on behalf of and at the cost of the financing entities, a third-party independent consultant to review and advise as to the appropriate benchmarks and range of values for [annual rates?] used for the purpose of determining the base fee and forecast interest rates used for the purposes of determining the variable fee and shall give due consideration to such advice.]*

**Commencement**

This is consistent with the actual fees paid by OPG and Province to co-manage the nuclear fund‘s index fixed income funds. The index funds require constant rebalancing by the investment manager.
From a significant economics of the financing entity, OPG is getting 44% equity investment from the Province at 0% cost and lending the funds as subordinated debt at a forecasted yield of around 5%.
Ie. For each $2.5B of Global Asset X 44% equity injection would contribute $55million net revenue to OPG for each of 10 years and would be a reduced amounts for the following 30 years as the Global Asset is paid down.
Variable Fee: We recommend going back to the original proposal of “… not more than plus/minus 1% … on the net annual funding obligation …”
That means deleting column 1 and item 2 of the table.
Pass through costs: Pass through costs as outlined in the draft regulations appear reasonable. As suggested in Scott’s email including tighter language that prevents any OPG costs from being passed through makes sense. As further due diligence it may be advisable for the for the Financing Entity as part of its annual audit or a separate assurance audit to have the external auditors opine whether the actual pass through costs of the Financing Entity in each fiscal year is in accordance with the regulations.

Hi Gadi,
I hope NYC is going well and you are finding air conditioning.
We have been working with Steen’s team and Energy legal on a draft of the fees regulation for OPG Trust and OFHP. As we progress through this, there are some elements of the regulation that we were hoping you and the OFA team might be able to consider (please see attached a black line for your reference):

- The draft reg outlines a base fee as well as a variable fee.
    - The base fee is provided monthly at an annual rate of 10-basis points for the first two years (we had this initially set at one year but Torys’ markup changes this to two years). After 2019, the base fee is provided at an annual rate of 8 basis points should the funding obligations exceed $10B. Does this seem reasonable?

- The variable fee structure seems consistent with previous discussions (5 basis point fee provided on the spread). Do you think this makes sense?
- It would also be helpful if the OFA could let us know if the method for calculating the monthly funding obligation is reasonable.

- With respect to costs, our understanding is that these sorts of costs are typically a pass through; can the OFA confirm? The Torys markup removes OEB oversight on costs but we are wondering if there should be a role for the OFA in reviewing / providing oversight in this regard?
  - Also, do the costs they've outlined seem reasonable? In particular, LSB is wondering whether this leaves the door open for OPG to pass through any overhead costs (i.e. should we be explicit about excluding them)?
- On timing, the draft reg currently contemplates a fee application by OPG every two years regardless of what interest rates are in the market. Do we think this is fair or should the application occur annually? (Note that until new fees are established, the old fees are still in effect).

In terms of next steps, OPG would like to get a draft to their Board in time for the meeting on Friday. ENERGY LSB is hoping for comments by tomorrow. I don't think we need anything too detailed or formal, but a quick sniff test would be useful to ensure we are on the right track.

Thanks for your help,

Scott

Hi Gadi,

I hope NYC is going well and you are finding air conditioning.

We have been working with Steen's team and Energy legal on a draft of the fees regulation for OPG Trust and OFHP. As we progress through this, there are some elements of the regulation that we were hoping you and the OFA team might be able to consider (please see attached a black line for your reference):

- The draft reg outlines a base fee as well as a variable fee.
    - The base fee is provided monthly at an annual rate of 10-basis points for the first two years (we had this initially set at one year but Torys' markup changes this to two years). After 2019, the base fee is provided at an annual rate of 8 basis points should the funding obligations exceed $10B. Does this seem reasonable?
    - The variable fee structure seems consistent with previous discussions (5 basis point fee provided on the spread). Do you think this makes sense?
    - It would also be helpful if the OFA could let us know if the method for calculating the monthly funding obligation is reasonable.
- With respect to costs, our understanding is that these sorts of costs are typically a pass through; can the OFA confirm? The Torys markup removes OEB oversight on costs but we are wondering if there should be a role for the OFA in reviewing / providing oversight in this regard?
    - Also, do the costs they've outlined seem reasonable? In particular, LSB is wondering whether this leaves the door open for OPG to pass through any overhead costs (i.e. should we be explicit about excluding them)?

- On timing, the draft reg currently contemplates a fee application by OPG every two years regardless of what interest rates are in the market. Do we think this is fair or should the application occur annually? (Note that until new fees are established, the old fees are still in effect).

In terms of next steps, OPG would like to get a draft to their Board in time for the meeting on Friday. ENERGY LSB is hoping for comments by tomorrow. I don't think we need anything too detailed or formal, but a quick sniff test would be useful to ensure we are on the right track.

Thanks for your help,

# ONTARIO REGULATION

made under the

# ONTARIO FAIR HYDRO PLAN ACT, 2017

## FEES

**Definitions**

**1.** (1) In this Regulation,

"average monthly funding obligation" means, in respect of a month, the amount determined in accordance with subsection (2);

"average annual funding obligation" means, in respect of a year, the sum of the average monthly funding obligations for the year;

"comparison fees" means ~~typical fees~~**market comparable fees, expressed as a per annum percentage rate,** charged by ~~[service providers?~~**asset** managers~~?]~~ ~~in Ontario~~ **in Canada and any other jurisdiction as may be determined by the Board** for services that are similar to the services provided by the Financial ~~Service Manger~~**Services Manager** under the Act in terms of,

(a) the type of services provided, being services in respect of funds including securitization vehicles, pension funds, other investment funds, hedge funds and other similar funds ~~in Ontario~~,

(b) the scope of the services provided, ~~and~~

(c) the level of the services provided**, and**

**(d) the amount of assets under management**;

**"forecast interest rate" means, in respect of each tranche of funding obligations, an interest rate forecast to be applicable to such tranche of funding obligations after taking into account (i) the interest rate for debt of or guaranteed by the Province of Ontario with a corresponding term or duration, (ii) the estimated credit spread for such tranche of funding obligations with a comparable term and based on the type of instrument and risk of the issuer, and (iii) anticipated fees and commissions expected to be payable in connection with the issuance of such tranche of funding obligations.**

"net annual funding obligation" means, in respect of a year, the sum of the principal amounts of funding obligations incurred by financing entities in a year~~, other than any refinancing~~;

(2) For the purposes of determining the average monthly funding obligation for a month, the following formula applies:

$$(A + B) / 2$$

Where,

A = the sum of the balances**, as** at **12:00 am on** the ~~start~~**first calendar day** of the month**,** of the principal amount of all **outstanding** funding obligations ~~incurred by~~**for all** financing entities,

2

B = the sum of the balances**, as** at **11:59 pm on** the ~~end~~**last calendar day** of the month**,** of the principal amount of all **outstanding** funding obligations ~~incurred by~~**for all** financing entities.

**Fees that may be established, charged**

**2.** (1) For the purposes of subsection 19 (3) of the Act, the fees established and charged by the Financial Services Manager may be charged to financing entities in relation to **the management and administration of financing entities and the investment asset, including in relation to** funding obligations incurred or that are planned to be incurred by the financing entities.

(2) A fee mentioned in subsection (1) shall be comprised of a base fee calculated under section [3, 4 or 5], as the case may be, and a variable fee calculated under section [6].

(3) ~~For the purposes of subsection 19 (3) of the Act, fees may be~~**Out-of-pocket costs and expenses of the financing entities incurred by the Financial Services Manager on behalf of the financing entities and for which the Financial Services Manager is entitled to reimbursement under a** management agreement with **such financing entity shall not constitute a fee** established and charged by the Financial Services Manager ~~to financing entities for the recovery of costs and expenditures, as provided for in section 7.~~**under subsection 19(3)**

**of the Act.[1] The costs and expenditures of the financing entities referred to in this subsection (3)** may include costs and expenditures in respect of the following:

1. Underwriters or selling agents for funding obligations**;**

2. **Banking fees, including structuring fees or work fees;**

3. Fees of issuing and paying agents for funding obligations**;**

4. **Fees of trustees;**

5. Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns**;**

6. Fees of legal counsel**;**

7. **Rating agency fees; and**

8. Filing or registration fees.

(4) The Financial Services Manager shall not establish or charge any fees to financing entities other than those provided for under this ~~R~~egulation.

**Base fee, 2018 and 2019**

**3.** Subject to section 5.1, the base fee for a month in the ~~year~~**calendar years** 2018 **and 2019** shall be calculated using the following formula:

$$(0.1 \times B) / 12$$

Where,

B = the average monthly funding obligation for the preceding month.

**Base fee, after ~~2018,~~2019, average annual funding obligation greater than $10 billion**

**4.** (1) This section applies for the purpose of calculating the base fee for a month in any year following ~~2018~~**2019** if the average annual funding obligation for the preceding year was greater than $10 billion.

**[1] These represent third party costs and expenses of the financing entity, not part of the fees that OPG is charging the financing entity. From time to time, OPG may have to pay these upfront costs on behalf of financing entities but they will be a pass-through cost for which OPG would simply be reimbursed by the financing entity. Other than OPG's fees, the costs and expenditures of financing entities are not subject to OEB review under the Act but rather are recoverable as expenses through the CEA (and through IESO during the moratorium). Subsection (3) in this draft was added for greater certainty to ensure there was no misunderstanding.**

(2) Subject to section 5.1, the base fee for the month shall be calculated using the following formula:

$$(0.08 \times B) / 12$$

Where,

B = the average monthly funding obligation for the preceding month.

**Base fee, after ~~2018,~~2019, average annual funding obligation $10 billion or less**

**5.** (1) This section applies for the purpose of calculating the base fee for a month in any year following ~~2018~~2019 if the average annual funding obligation for the preceding year was equal to or less than $10 billion.

(2) Subject to section 5.1, the base fee for the month shall be calculated using the following formula:

$$(0.1 \times B) / 12$$

Where,

4

B = the average monthly funding obligation for the preceding month.

**Board review of base fee**

**5.1** If the Board, after reviewing a submission in respect of a proposed base fee by the Financial Services Manager under section 9, is of the view that applying the applicable formula set out in section 3, 4 or 5 results in a base fee that is inconsistent with prevailing comparison fees, the Board may refuse to approve the proposed fee. If the Board refuses to approve the proposed base fee submitted by the Financial Services Manager under section 9, the Board shall provide its reasons for such refusal and ~~may~~ make recommendations to the Financial Services Manager regarding the determination of a base fee that is consistent with comparison fees~~.~~ and based on the methodology used in the formulas set out in section 3, 4 and 5.

**Variable fee**

**6.** (1) Subject to subsection (2) and section 6.1, the variable fee for a year shall be the sum of the amounts of each tranche of net annual funding obligations for the year, calculated by using the following formula~~:~~ (which in respect of individual tranches may result in a negative number):

$$(A \times (B - C)) \times 0.05$$

Where,

A = the principal amount of the tranche,

B= the forecast interest rate for the tranche, as determined by the Financial Services Manager before the start of the year, based on the term of the tranche, and

C = the actual interest rate for the tranche.

(2) If the circumstances set out in Column 1 of the following Table apply in a year, the variable fee payable for a year is subject to the rules set out opposite the circumstances in Column 2 of the Table:

| Item | Column 1<br>Circumstances | Column 2<br>Rules |
|---|---|---|
| 1. | The average annual funding obligations are $10 billion or less. | The variable fee payable for the year shall not be more than 1 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -1per cent of the amount that is 5 per cent of the net annual funding obligation. |
| 2. | The average annual funding obligations are greater than $10 billion. | The variable fee payable for the year shall not be more than 2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year. |

**Board review of variable fee** 5

**6.1** If the Board, after reviewing a submission in respect of a proposed variable fee by the Financial Services Manager under section 9, is of the view that the forecast interest rate used for the purposes of the formula set out in subsection 6 (1) is ~~[unreasonable]~~**not consistent with market comparable forecast interest rates**, the Board may refuse to approve the proposed fee**. If the Board refuses to approve the proposed variable fee submitted by the** Financial Services Manager **under section 9, the Board shall provide its reasons for such refusal** and ~~may~~ make recommendations to the Financial Services Manager regarding the forecast interest rate that is ~~reasonable.~~**consistent with market comparable forecast interest rates.**

~~**Fees for costs and expenditures**~~

~~**7.** (1) The Financial Services Manager may establish and charge fees for the recovery from a financing entity of any costs and expenditures incurred in connection with the Financial Services Manager's duties under the Act in relation to the financing entity or under any management agreement with the financing entity.~~

~~(2) The costs and expenditures referred to in subsection (1) may include costs and expenditures in respect of the following:~~

~~1. Underwriters or selling agents for funding obligations.~~

~~2. Banking fees.~~

3. ~~Fees of issuing and paying agents for funding obligations.~~

4. ~~Fees of trustees.~~

5. ~~Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns.~~

6. ~~Fees of legal counsel.~~

7. ~~Filing or registration fees.~~

8. ~~Fees of any third party independent consultants required to be retained under the Act.~~

~~**Board review of fees for costs, expenditures**~~

~~**7.1** If the Board, after reviewing a submission in respect of a proposed fee for costs and expenditures by the Financial Services Manager under section 9, is of the view that the proposed fee is in respect of costs and expenses that were [not prudently incurred, or not incurred in relation to funding obligations incurred or that are planned to be incurred by financing entities], the Board may refuse to approve the proposed fee or a portion of the proposed fee and may make recommendations to the Financial Services Manager regarding the proposed fee.~~

**Charging of fees**

**8.** (1) In charging fees, the Financial Services Manager shall provide for,

(a) the base fee for a month to be payable within **[x]** days after the end of the month; and

(b) the variable fee for a year to be payable in the following calendar year in twelve equal monthly instalments that coincide with the payment of the base fee for each month.

(2) If the variable fee is a negative amount, it shall be deducted from the base fee payable in the following calendar year in twelve equal monthly instalments.

(3) Where there is more than one financing entity, the portion of the fees allocated to and payable by a financing entity shall be based on its proportionate share of the average principal amount of funding obligations for the applicable period.

**Submissions to Board re fees**

**9.** (1) The Financial Services Manager shall make submissions to the Board in respect of the fees proposed to be charged under section ~~5.1, 6.1~~**5.1** and ~~7.1~~**6.1.**

(2) The first submission **for proposed fees to be charged for a two year period commencing in 2018** shall be made no later than [October 31, 2017].

(3) ~~The submission for each calendar year starting with 2019~~**Submissions for proposed fees to be charged for a two year period commencing in 2020 and for every two year period thereafter** shall be made no later than [120 days] before the start of the **applicable two** year **period**.

(4**) Submissions to amend the proposed fees for a month in any year following approval of the proposed fees for any two year period may be made from time to time but no more frequently than once in any 12 month period and no later than 120 days before the start of the year in which such fees are proposed to be effective.**

**(5**) If the Board makes recommendations as described in section ~~5.1, 6.1~~**5.1** or ~~7.1,~~**6.1,** the Financial Services Manager shall submit to the Board,

(a) a revised proposed fee that takes into consideration the recommendations of the Board, and in the case of the base fee is consistent with comparison fees;

(b~~)~~ ~~a description of the methodology that the Financial Services Manager has applied to determine the revised proposed fee;~~

(~~c~~) in the case of the base fee, details concerning the comparison fees that the Financial Services Manager considered; **and**

(~~d~~**c**) in the case of the variable fee, a description of the methodology that the Financial Services Manager has applied to determine forecast interest rates in respect of tranches of the net annual funding obligations~~; and~~**.**

(~~e) in the case of a proposed fee for costs and expenditures by the Financial Services Manager, the rationale for the costs and expenditures having been [prudently incurred, and having been incurred in relation to funding obligations incurred or that are planned to be incurred by financing entities]~~ **6) Until the Board has approved the fees in respect of any two year period, the fees approved for the prior two year period shall remain in effect.**

**Board approval, general**

**10.** (1) ~~The Board may approve a proposed fee submitted by the Financial Services Manager or refuse to approve and refer the proposed fee back to the Financial Services Manager with the Board's recommendations.~~

~~[OLC Note: As noted by ENE LSB, there is some redundancy at the moment between section 10 and sections 5.1 and 6.1. This matter will be addressed in a subsequent draft when we have settled the Board approval process for each of the various scenarios (e.g. base fee; variable fee; costs/expenditures fee).]~~

~~(2) The Board may specify in its approval that a fee payable in respect of any period beginning on or after July 1, 2017.~~(3) For the purpose of determining whether to approve a proposed fee~~,~~ **described in section 5.1 or 6.1,**

**(a)** the Board shall consider the information provided by the Financial Service Manager in its submission relating to the proposed fee~~.~~**; and**

(~~4) For the purpose of determining whether to approve a proposed fee,~~ **b)** the Board may consider advice provided by the Ontario Financing Authority [with respect to comparison fees, annual rates and forecast interest rates].

[OLC Note re DEFERRAL ACCOUNT:
1. You included the following instruction that would require the FSM to establish a deferral account -- what is the authority for imposing this requirement? Recall that in subs. 34 (1) of the Act, the Board is given authority to require that the FSM maintain specific accounts.

2. ENE LSB note: *Necessity of this provision to be discussion with the OEB given that fees will be recovered as a financing entity expense through the Fair Hydro program and not as part of the fees to be approved by the Board.*]

*[If needed, deferral provision could be along the following lines: The Financial Services Manager shall establish a deferral account in connection with subsection 19 (3) of the Act that records costs incurred by the Financial Services Manager in providing services referred to in section 1 during the period from July 1, 2017 to the day before the date of the Board's first order under subsection 19 (3) of the Act.]*

[OLC Note re FINANCE AMOUNT: You included the following instruction, but I think this more properly belongs somewhere in section 5 of O. Reg. 206/17? In fact, are these fees not already covered in that section (perhaps under "financing entity expenses"?). Please confirm: *Fees established by the Financial Services Manager and approved by the Board, and any applicable taxes on such fees, shall be included in the definition of "expenses" for the purposes of determining finance amounts under the Act.*]

*[Notes Re: Determining Fees:*

*(1) An alternative approach involves the Board approving the initial base fee and variable fee, with any changes to those fees being triggered by the FSM submitting to the Board proposed amendments to those fees (or the Board triggering a review on its own initiative (not more than once per year). However, because interest rates (and hence forecast interest rates) change over time (and can change even within a year), consider whether variable B of the variable fee should be approved annually. Similarly, because trends for "market comparable fees charged by service providers for similar services" change over time, consider whether variable A of the base fee should be approved annually.]*

*(2) Once every three years after the Board has approved the fees submitted by the Financial Services Manager under section 3, or more frequently if the Board requires but not more frequently than annually, the Board may require the Financial Services Manager to engage, on behalf of and at the cost of the financing entities, a third-party independent consultant to review and advise as to the appropriate benchmarks and range of values for [annual rates?] used for the purpose of determining the base fee and forecast interest rates used for the purposes of determining the variable fee and shall give due consideration to such advice.]*

Hi Mike,
I have been thinking about this a bit more as I haven't been tied into this process for a few weeks. Do you recall a conversation prior to one of our Thursday meetings where we agreed OFA would take on the review role for OPG fees? We had an issue that OEB involvement would not meet OPG's requirements, so OFA involvement was seen as a reasonable compromise. If that is accurate, I think something has been lost in translation in this draft of the regulation. I'm circling back with legal and energy folks to confirm their view as well.
Thanks,
Scott

    - Also, do the costs they've outlined seem reasonable? In particular, LSB is wondering whether this leaves the door open for OPG to pass through any overhead costs (i.e. should we be explicit about excluding them)?
- On timing, the draft reg currently contemplates a fee application by OPG every two years regardless of what interest rates are in the market. Do we think this is fair or should the application occur annually? (Note that until new fees are established, the old fees are still in effect).

In terms of next steps, OPG would like to get a draft to their Board in time for the meeting on Friday. ENERGY LSB is hoping for comments by tomorrow. I don't think we need anything too detailed or formal, but a quick sniff test would be useful to ensure we are on the right track.

Thanks for your help,
Scott

Hi Mike,
I have been thinking about this a bit more as I haven't been tied into this process for a few weeks. Do you recall a conversation prior to one of our Thursday meetings where we agreed OFA would take on the review role for OPG fees? We had an issue that OEB involvement would not meet OPG's requirements, so OFA involvement was seen as a reasonable compromise. If that is accurate, I think something has been lost in translation in this draft of the regulation. I'm circling back with legal and energy folks to confirm their view as well.
Thanks,
Scott

Hi All,

I briefed Gadi on our call discussion this morning – he's comfortable with the proposed approach of going back at 5, with the caveats that it is at the higher end of market norms and should be evaluated by an independent expert within the first year of the program.

That said, he was also under the impression that the number/fees had already been agreed to. Had something changed between a few weeks ago and now? I'm sure Ken/Mike could clarify tomorrow – feel free to pop by his office.

Thanks, Anna

Hi Gadi,

I hope NYC is going well and you are finding air conditioning.

We have been working with Steen's team and Energy legal on a draft of the fees regulation for OPG Trust and OFHP. As we progress through this, there are some elements of the regulation that we were hoping you and the OFA team might be able to consider (please see attached a black line for your reference):

- The draft reg outlines a base fee as well as a variable fee.
    - The base fee is provided monthly at an annual rate of 10-basis points for the first two years (we had this initially set at one year but Torys' markup changes this to two years). After 2019, the base fee is provided at an annual rate of 8 basis points should the funding obligations exceed $10B. Does this seem reasonable?
    - The variable fee structure seems consistent with previous discussions (5 basis point fee provided on the spread). Do you think this makes sense?
    - It would also be helpful if the OFA could let us know if the method for calculating the monthly funding obligation is reasonable.
- With respect to costs, our understanding is that these sorts of costs are typically a pass through; can the OFA confirm? The Torys markup removes OEB oversight on costs but we are wondering if there should be a role for the OFA in reviewing / providing oversight in this regard?
    - Also, do the costs they've outlined seem reasonable? In particular, LSB is wondering whether this leaves the door open for OPG to pass through any overhead costs (i.e. should we be explicit about excluding them)?
- On timing, the draft reg currently contemplates a fee application by OPG every two years regardless of what interest rates are in the market. Do we think this is fair or should the application occur annually? (Note that until new fees are established, the old fees are still in effect).

In terms of next steps, OPG would like to get a draft to their Board in time for the meeting on Friday. ENERGY LSB is hoping for comments by tomorrow. I don't think we need anything too detailed or formal, but a quick sniff test would be useful to ensure we are on the right track.

Where,

B = the average monthly funding obligation for the preceding month.

**Base fee, after ~~2018,~~2019, average annual funding obligation greater than $10 billion**

**4.** (1) This section applies for the purpose of calculating the base fee for a month in any year following ~~2018~~**2019** if the average annual funding obligation for the preceding year was greater than $10 billion.

**[1] These represent third party costs and expenses of the financing entity, not part of the fees that OPG is charging the financing entity. From time to time, OPG may have to pay these upfront costs on behalf of financing entities but they will be a pass-through cost for which OPG would simply be reimbursed by the financing entity. Other than OPG's fees, the costs and expenditures of financing entities are not subject to OEB review under the Act but rather are recoverable as expenses through the CEA (and through IESO during the moratorium). Subsection (3) in this draft was added for greater certainty to ensure there was no misunderstanding.**

(2) Subject to section 5.1, the base fee for the month shall be calculated using the following formula:

$$(0.08 \times B) / 12$$

Where,

B = the average monthly funding obligation for the preceding month.

**Base fee, after ~~2018,~~2019, average annual funding obligation $10 billion or less**

**5.** (1) This section applies for the purpose of calculating the base fee for a month in any year following ~~2018~~2019 if the average annual funding obligation for the preceding year was equal to or less than $10 billion.

(2) Subject to section 5.1, the base fee for the month shall be calculated using the following formula:

$$(0.1 \times B) / 12$$

Where,

4

B = the average monthly funding obligation for the preceding month.

**Board review of base fee**

**5.1** If the Board, after reviewing a submission in respect of a proposed base fee by the Financial Services Manager under section 9, is of the view that applying the applicable formula set out in section 3, 4 or 5 results in a base fee that is inconsistent with prevailing comparison fees, the Board may refuse to approve the proposed fee. If the Board refuses to approve the proposed base fee submitted by the Financial Services Manager under section 9, the Board shall provide its reasons for such refusal and ~~may~~ make recommendations to the Financial Services Manager regarding the determination of a base fee that is consistent with comparison fees~~.~~ and based on the methodology used in the formulas set out in section 3, 4 and 5.

**Variable fee**

**6.** (1) Subject to subsection (2) and section 6.1, the variable fee for a year shall be the sum of the amounts of each tranche of net annual funding obligations for the year, calculated by using the following formula~~:~~ (which in respect of individual tranches may result in a negative number):

$$(A \times (B - C)) \times 0.05$$

Where,

A = the principal amount of the tranche,

B= the forecast interest rate for the tranche, as determined by the Financial Services Manager before the start of the year, based on the term of the tranche, and

C = the actual interest rate for the tranche.

(2) If the circumstances set out in Column 1 of the following Table apply in a year, the variable fee payable for a year is subject to the rules set out opposite the circumstances in Column 2 of the Table:

| Item | Column 1<br>Circumstances | Column 2<br>Rules |
|---|---|---|
| 1. | The average annual funding obligations are $10 billion or less. | The variable fee payable for the year shall not be more than 1 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -1per cent of the amount that is 5 per cent of the net annual funding obligation. |
| 2. | The average annual funding obligations are greater than $10 billion. | The variable fee payable for the year shall not be more than 2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year.<br><br>The variable fee payable for the year shall not be less than -2 per cent of the amount that is 5 per cent of the net annual funding obligation for the year. |

**Board review of variable fee** 5

**6.1** If the Board, after reviewing a submission in respect of a proposed variable fee by the Financial Services Manager under section 9, is of the view that the forecast interest rate used for the purposes of the formula set out in subsection 6 (1) is ~~[unreasonable]~~**not consistent with market comparable forecast interest rates**, the Board may refuse to approve the proposed fee**. If the Board refuses to approve the proposed variable fee submitted by the** Financial Services Manager **under section 9, the Board shall provide its reasons for such refusal** and ~~may~~ make recommendations to the Financial Services Manager regarding the forecast interest rate that is ~~reasonable.~~**consistent with market comparable forecast interest rates.**

~~**Fees for costs and expenditures**~~

~~**7.** (1) The Financial Services Manager may establish and charge fees for the recovery from a financing entity of any costs and expenditures incurred in connection with the Financial Services Manager's duties under the Act in relation to the financing entity or under any management agreement with the financing entity.~~

~~(2) The costs and expenditures referred to in subsection (1) may include costs and expenditures in respect of the following:~~

~~1. Underwriters or selling agents for funding obligations.~~

~~2. Banking fees.~~

3. ~~Fees of issuing and paying agents for funding obligations.~~

4. ~~Fees of trustees.~~

5. ~~Fees incurred in the preparation of financial statements, financial reports, compliance certificates and tax returns.~~

6. ~~Fees of legal counsel.~~

7. ~~Filing or registration fees.~~

8. ~~Fees of any third party independent consultants required to be retained under the Act.~~

~~**Board review of fees for costs, expenditures**~~

~~**7.1** If the Board, after reviewing a submission in respect of a proposed fee for costs and expenditures by the Financial Services Manager under section 9, is of the view that the proposed fee is in respect of costs and expenses that were [not prudently incurred, or not incurred in relation to funding obligations incurred or that are planned to be incurred by financing entities], the Board may refuse to approve the proposed fee or a portion of the proposed fee and may make recommendations to the Financial Services Manager regarding the proposed fee.~~

**Charging of fees**

**8.** (1) In charging fees, the Financial Services Manager shall provide for,

(a) the base fee for a month to be payable within **[x]** days after the end of the month; and

(b) the variable fee for a year to be payable in the following calendar year in twelve equal monthly instalments that coincide with the payment of the base fee for each month.

(2) If the variable fee is a negative amount, it shall be deducted from the base fee payable in the following calendar year in twelve equal monthly instalments.

(3) Where there is more than one financing entity, the portion of the fees allocated to and payable by a financing entity shall be based on its proportionate share of the average principal amount of funding obligations for the applicable period.

**Submissions to Board re fees**

**9.** (1) The Financial Services Manager shall make submissions to the Board in respect of the fees proposed to be charged under section ~~5.1, 6.1~~**5.1** and ~~7.1~~**6.1.**

(2) The first submission **for proposed fees to be charged for a two year period commencing in 2018** shall be made no later than [October 31, 2017].

(3) ~~The submission for each calendar year starting with 2019~~**Submissions for proposed fees to be charged for a two year period commencing in 2020 and for every two year period thereafter** shall be made no later than [120 days] before the start of the **applicable two** year **period**.

(4**) Submissions to amend the proposed fees for a month in any year following approval of the proposed fees for any two year period may be made from time to time but no more frequently than once in any 12 month period and no later than 120 days before the start of the year in which such fees are proposed to be effective.**

**(5**) If the Board makes recommendations as described in section ~~5.1, 6.1~~**5.1** or ~~7.1,~~**6.1,** the Financial Services Manager shall submit to the Board,

(a) a revised proposed fee that takes into consideration the recommendations of the Board, and in the case of the base fee is consistent with comparison fees;

(b~~)~~ ~~a description of the methodology that the Financial Services Manager has applied to determine the revised proposed fee;~~

(~~c~~) in the case of the base fee, details concerning the comparison fees that the Financial Services Manager considered; **and**

(~~d~~**c**) in the case of the variable fee, a description of the methodology that the Financial Services Manager has applied to determine forecast interest rates in respect of tranches of the net annual funding obligations~~; and~~**.**

(~~e) in the case of a proposed fee for costs and expenditures by the Financial Services Manager, the rationale for the costs and expenditures having been [prudently incurred, and having been incurred in relation to funding obligations incurred or that are planned to be incurred by financing entities]~~ **6) Until the Board has approved the fees in respect of any two year period, the fees approved for the prior two year period shall remain in effect.**

**Board approval, general**

**10.** (1) ~~The Board may approve a proposed fee submitted by the Financial Services Manager or refuse to approve and refer the proposed fee back to the Financial Services Manager with the Board's recommendations.~~

~~[OLC Note: As noted by ENE LSB, there is some redundancy at the moment between section 10 and sections 5.1 and 6.1. This matter will be addressed in a subsequent draft when we have settled the Board approval process for each of the various scenarios (e.g. base fee; variable fee; costs/expenditures fee).]~~

~~(2) The Board may specify in its approval that a fee payable in respect of any period beginning on or after July 1, 2017.~~(3) For the purpose of determining whether to approve a proposed fee~~,~~ **described in section 5.1 or 6.1,**

**(a)** the Board shall consider the information provided by the Financial Service Manager in its submission relating to the proposed fee~~.~~**; and**

(~~4) For the purpose of determining whether to approve a proposed fee,~~ **b)** the Board may consider advice provided by the Ontario Financing Authority [with respect to comparison fees, annual rates and forecast interest rates].

[OLC Note re DEFERRAL ACCOUNT:
1. You included the following instruction that would require the FSM to establish a deferral account -- what is the authority for imposing this requirement? Recall that in subs. 34 (1) of the Act, the Board is given authority to require that the FSM maintain specific accounts.

2. ENE LSB note: *Necessity of this provision to be discussion with the OEB given that fees will be recovered as a financing entity expense through the Fair Hydro program and not as part of the fees to be approved by the Board.*]

*[If needed, deferral provision could be along the following lines: The Financial Services Manager shall establish a deferral account in connection with subsection 19 (3) of the Act that records costs incurred by the Financial Services Manager in providing services referred to in section 1 during the period from July 1, 2017 to the day before the date of the Board's first order under subsection 19 (3) of the Act.]*

[OLC Note re FINANCE AMOUNT: You included the following instruction, but I think this more properly belongs somewhere in section 5 of O. Reg. 206/17? In fact, are these fees not already covered in that section (perhaps under "financing entity expenses"?). Please confirm: *Fees established by the Financial Services Manager and approved by the Board, and any applicable taxes on such fees, shall be included in the definition of "expenses" for the purposes of determining finance amounts under the Act.*]

*[Notes Re: Determining Fees:*

*(1) An alternative approach involves the Board approving the initial base fee and variable fee, with any changes to those fees being triggered by the FSM submitting to the Board proposed amendments to those fees (or the Board triggering a review on its own initiative (not more than once per year). However, because interest rates (and hence forecast interest rates) change over time (and can change even within a year), consider whether variable B of the variable fee should be approved annually. Similarly, because trends for "market comparable fees charged by service providers for similar services" change over time, consider whether variable A of the base fee should be approved annually.]*

*(2) Once every three years after the Board has approved the fees submitted by the Financial Services Manager under section 3, or more frequently if the Board requires but not more frequently than annually, the Board may require the Financial Services Manager to engage, on behalf of and at the cost of the financing entities, a third-party independent consultant to review and advise as to the appropriate benchmarks and range of values for [annual rates?] used for the purpose of determining the base fee and forecast interest rates used for the purposes of determining the variable fee and shall give due consideration to such advice.]*

**Commencement**

**x. This Regulation comes into force on the day it is filed.**

Last document as requested has been sent to your lawyers
Please work on your lawyers to release the draft support agreement ASAP.
There is more value in releasing an earlier draft with caveats or note to draft than trying to nail everything down. That is the approach that we have impressed on Oslers and Torys in the interest of trying to move things forward.

If any form or certification it previously delivered by a recipient expires or becomes obsolete or inaccurate in any respect, the recipient shall update such form or certification or promptly notify the Issuer in writing of its legal inability to do so.

(c) If a recipient is legally entitled to receive a refund of any Taxes (other than Excluded Taxes) as to which it has been indemnified or with respect to which additional amounts have been paid to it hereunder or it is legally entitled to receive a credit or deduction with respect to such Taxes or with respect to such additional amounts that have been paid hereunder (in each case pursuant to Section 2.8(a)), it shall use commercially reasonable efforts to obtain or claim such refund, credit or deduction and pay over such refund or the value of such credit or deduction to the Issuer, together with any interest thereon.

Osler team – please find attached a revised draft of the term sheet for the Provincial Change of Law Assumption Agreement (blacklined to the Province's draft as well as the draft you prepared on August 14). Please note that there are some formatting issues in the blacklines that do not appear in the clean word version.

Please also note that this draft is being concurrently circulated to OPG and remains subject to OPG's review. Please let us know if you or the dealers have any comments by no later than this Friday. We will need to circulate a revised draft of the term sheet to the Province by then.

# Change of Law Assumption Agreement

## Indicative Term Sheet

## Ontario Fair Hydro Plan Act, 2017

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder and made in connection thereto (the "**Regulation**").[1] This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act or the August 23, 2017 draft of the Master Trust Indenture (as defined below), as applicable. The provincial assumption arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

*This Term Sheet does not discuss the servicing commingling risk and the warehousing takeout risk, which will be addressed separately by the following (i) the Master Transfer and Servicing Agreement will include an obligation for the IESO to provide a letter of credit if required to support the Funding Obligations in an amount equal to one month of anticipated collections of the clean energy adjustments by all non-rated local distribution companies, and (ii) there will be a step up in pricing reflected in the documents evidencing the short term debt issuance.*

| | |
|---|---|
| **Change of Law Assumption Agreement:** | A Change of Law Assumption Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Specified Creditors in accordance with the Master Trust Indenture. |
| **Obligor:** | The Province of Ontario, by the Minister of Energy and the Minister of Finance. |
| **Indenture Trustee:** | An indenture trustee, acting for and on behalf of the Specified Creditors under a master trust indenture to be entered into by the Financing Entity, as issuer (the "**Master Trust Indenture**"). |
| **Beneficiaries:** | The Indenture Trustee, acting for and on behalf of the Specified Creditors. |

[1] Regulations covered by the Change of Law Assumption Agreement must also include the regulations obligating the IESO to pay the debt carrying costs during the moratorium period.

| | |
|---|---|
| **Obligations Secured:** | Obligations Secured approved as contemplated below under Obligor Approval.[2] |
| **Assumption Events:** | Any of the following would constitute an Assumption Event:<br>(A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof;<br>(2) the Legislature enacts or amends any other statute;<br>(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) or amends the Regulation made under the Act or any portion thereof;<br>(4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*); or<br>(5) there is a change in the organization, structure or operations of the IESO or a change in the electricity market structure or operations not otherwise effected through the actions described in clauses (A)(1) through (4) above.[3]<br>in each case, that is reasonably expected to adversely affect (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay the Obligations Secured or (b) the Change of Law Assumption Agreement or any of the agreements under which Obligations Secured arise without the agreement of the Indenture Trustee; or[4]<br>(B) a court of competent jurisdiction determines that all or a portion of the Act or the Regulation is *ultra vires*, invalid or inoperative in a way that adversely affects the ability of the Financing Entity to receive amounts on its investment |

[2] "Obligations Secured" is a defined term in the Master Trust Indenture and encompasses all debts and liabilities of the Financing Entity owing to the Specified Creditors and captures subordinated debt as well. As discussed on the call with Blakes and the Provincial legal team, excluding subordinated debt from the benefits of the Assumption Agreement will increase the pricing of such debt, the costs of which would ultimately be passed on to ratepayers.

[3] We understand certain internal changes to the structure of the IESO may be made by the IESO board without statutory enactments.

[4] A materiality qualifier is not appropriate since a change of law that would result in either (a) or (b) is by its nature material.

| | |
|---|---|
| | interest so that it can pay the Obligations Secured including, without limitation, a declaration that any funding obligations of the Financing Entity or any investment interests are invalid or unenforceable. |
| **Obligation to Pay the Obligations Secured:** | Upon the occurrence of an Assumption Event, the Obligor will pay the amounts pertaining to the Obligations Secured on behalf of the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Master Trust Indenture shall constitute the only remedy available under the Change of Law Assumption Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages. |
| **Subrogation:** | Upon paying an amount to a Beneficiary in respect of an Obligation Secured, the Obligor shall become entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Obligations Secured, including the security interest in the property of the Financing Entity. |

| | |
|---|---|
| **Event of Default Cure:**[5] | Upon the occurrence of a Default under the Master Trust Indenture (being an event which, with the passage of time or giving of notice could become an Event of Default), the Obligor would have the following rights:<br>(A) a right to receive written notice from the Indenture Trustee (at the same time that such trustee provides a notice to the Financing Entity through OPG as the manager) that a Default has occurred;<br>(B) in the event of the occurrence of an Event of Default that is not based upon the occurrence of a Default followed by a cure period (such as insolvency of the Financing Entity), a right to receive written notice from the Indenture Trustee that an Event of Default has occurred; and<br>(C) a right (but not an obligation) to cure the Default or the Event of Default, as the case may be, within a specified cure period, which will run concurrently with any cure period available under the Master Trust Indenture with respect to the applicable Event of Default.<br>The Master Trust Indenture will provide that notwithstanding the occurrence of an Event of Default, the Obligations Secured may not be accelerated until the expiry of the cure period available to the Obligor. If the Default or Event of Default in question cannot be cured by the Obligor on behalf of the Financing Entity within this cure period, then the Obligor will have the option (but not an obligation) to "cure" and avoid acceleration of the Obligations Secured by assuming those Obligations Secured. In such circumstances, the Fair Hydro program would be discontinued and the Obligations Secured owing under the program would be those of the Obligor. |
| **Optional Assumption:** | At any time following an Assumption Event or an Event of Default, the Obligor shall be entitled (but not obligated) to assume all of the Obligations Secured. The Financing Entity (including through the Manager) will ensure that any Obligations Secured by their contractual terms permit, on an Assumption Event or an Event of Default, an assumption by the Obligor without any requirement for further consent, approval or agreement of the applicable Specified Creditor. |
| **Term:** | The Change of Law Assumption Agreement will continue for as long as any Obligations Secured remain outstanding. |

[5] We have layered in our proposal on acceleration which was provided to all parties in a memo from OPG dated August 30, 2017.

| | |
|---|---|
| **Obligor Approval:** | The Change of Law Assumption Agreement will apply to all Obligations Secured that are incurred by an "Eligible Financing Entity" designated as such in accordance with the following process:<br><br>In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will review the constating documents of such Financing Entity and the various program agreements. Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, the Manager will notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective.[6]<br><br>It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following process:<br><br>(A) At least **[30 days]** prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, the Manager will provide the Obligor with a forecast of the principal amount of Funding Obligations that the Manager expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "**Two Year Forecast**"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.<br><br>(B) the Manager shall provide the Obligor with an updated Two Year Forecast between **[6 and 9 months]** prior to the expiry of each current Two Year Forecast.<br><br>(C) Unless the Obligor provides the Manager with a written notice no later than **[3 months]** prior to the expiry of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations and all |

| | |
|---|---|
| | other Obligations Secured in connection thereto incurred up to the expiry of the new Two Year Forecast. |
| **FIPPA:** | The Change of Law Assumption Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Assumption Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law. |
| **Representations and Warranties:** | To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity. |
| **Confidentiality Obligations:** | To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity. |
| **Governing Law:** | Province of Ontario. |

[6] We have not included an express right of the Province to review and sign off on program agreements since that is subsumed in the concept of Eligible Financing Entity – the Province will confirm it is comfortable with such documents prior to designating a Financing Entity an Eligible Financing Entity.
