Outstanding Business Issues – Ontario Fair Hydro Plan

Briefing Note

PURPOSE

Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA have discussed a draft term sheet and the OFA, MOF and Blakes will work together to provide comments
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July.

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - Provincial staff, with OPG's concurrence, recommends minimizing, to the extent possible, the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers.
   - The Province is considering regulation changes to exempt from PILs the income arising to the OPG financing vehicle / OPG as a consequence of the Fair Hydro Plan.
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity.
   - **Next Steps:**
     - The MOF, OFA and OPG are working together to determine required regulation changes.
     - Torys prepared a memo on the item
     - Timing: MOF will be setting up a call with tax policy, OPG and Torys to discuss a memo Torys prepared on the item in the next few days

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**
    - OPG will require equity injections on a monthly basis, to match the timing of the purchase of the IESO regulatory asset, as applicable, in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province.
    - The Ministry of Energy received appropriation for a fiscally-neutral operating asset expenditure of $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT.
    - **Next Steps:**
        - ~~The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process, which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.~~Approval of the draft term sheet (see note).
        - Once term sheet is approved, this will serve as the basis for the Master Subscription Agreement between OPG/ENE and OFA
        - OFA and ENE to develop Service Level Agreement for monthly cash management services
        - Amendment to OPG articles required to facilitate issuance of new class of shares
        - Timing: OPG will require the ability to issue equity in ~~July~~August, so mechanics and agreements should be finalized in ~~June~~July.

4. **Management Fees**
    - OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
    - The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations, which are currently in development.
    - ~~OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements.~~
    - There are two components to the management fee model proposed by OPG:
        - Base fee: the structure will allow OPG to earn a commercial fee, an accounting consolidation requirement, with periodic OEB review of the commercial basis of that fee. OEB and OPG are in discussions in order to develop a model that satisfies the accounting requirements and is consistent with OEB's processes.
        - Performance ~~management~~ fee: OPG has the ability to gain or lose depending on the actual financing cost relative to a benchmark, which would be shared equally between ratepayers and OPG. Gain/loss ~~is~~ is applicable only to OPG's investment in the Trust from external borrowing

(5% of the funding requirement) and capped at 1% of the related annual incremental issuance amount.

- **Next Steps:**
  - Base fee: OEB to provide comments on OPG's proposed base fee framework.
  - Performance Fee: ~~OPG and OEB will bring forward a recommended framework for developing management fees.~~Approval of the draft framework (see note).
  - Timing: ~~TBD~~For incorporation into the June 27th regulations

5. **Subordinated Debt Loan Agreement**
   - OPG will lend the equity injection from the Province to the Fair Hydro Trust by way of subordinated debt
   - Based on monthly funding requirements of the GA asset, the Trust will use short term financing and take out bonds once short term funding reaches certain levels
   - OPG and OFA are working on a Debt Loan Arrangement that would establish the interest rates on the subordinated debt
   - **Next Steps:**
     - OPG and OFA will bring forward a recommended framework for determining interest rates
     - Timing: TBD

6. **IESO – Increased OFA Credit Facilities**
   - THE OPG financing entity is not expected to be immediately operational, so the IESO will need to have transitional financing in place to manage the difference in the payments to generators and other service providers vs payments from loads / LDCs.
   - There may also be on-going monthly cash flow timing differences that the IESO will need a credit facility for.
   - In addition, the OPG financing entity has the right to purchase the regulatory asset from IESO but is not required to purchase it.
   - IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
   - **Next Steps:**
     - OFA is drafting a new agreement for a $2 billion credit facility for the OFA to lend funds to IESO for FHP purposes. Concurrently, the OFA is seeking the Minister's approval for an LRC submission to approve an OIC for an additional $2 billion in borrowing capacity, as well as a Directive from the Minister of Finance, which are both necessary for the OFA to lend funds to IESO under the requested new Credit Facility.

- Timing: The OIC is scheduled for the June 27, 2017 LRC meeting. The Directive and Credit Facility Agreement are currently being drafted, to be in place by July 1st, 2017

7. OPG Indemnity

- OPG (and IESO) are asking for the Province to indemnify the IESO, OPG (the entities) and their respective directors, officers and employee in order to allow them to carry out their roles in implementing the Ontario Fair Hydro Plan and primarily the Global Adjustment refinancing.
- Indemnification will need to ensure separation between the Province and OPG is maintained
- **Next Steps:**
  - Staff in Ministry of Finance and Treasury Board Secretariat have received initial documents and are currently reviewing.
  - Depending on the structure of the indemnity requested, an OIC may be required to provide authority to the Minister of Finance
  - Timing: If an OIC is required this would be included in the June 27th, 2017 submission

Subject:	DRAFT IESO FH credit letter
Date:	Tuesday, May 09, 2017 10:26:24 AM
Attachments:	IESO_OFA FEP 2017 Credit Letter v3 draft.docx

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Regards.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Subject:	EY concurrence re: Draft Trust Performance Fee Recommendations
Date:	Monday, July 17, 2017 2:39:45 PM
Attachments:	RE EXTERNAL RE Fees.msg

Hi Ken,

My name is May Lapira and I'm the newest addition to the Treasury team. Jenny has been working hard to get me updated on the accounting aspects of the Fair Hydro Plan so we can transition future correspondences over to me.

Per our discussion during the call earlier today, we have reached out to EY to obtain concurrence on our interpretation of their accounting position. Please see attached the email trail from EY's senior manager Brittany Keenan confirming that excluding the equity injection component from the definition of a 'benchmark bond' would result in non-commercial terms and could ultimately result in OPG not being able to consolidate the financing entity.

Please let me know if you have any follow up questions on this matter.

I look forward to working with you,

May

Hi Brittany – Our view is the following:

- By excluding the equity injection component from the definition of the 'benchmark bond' this results in non-commercial terms and would result in a high risk to the consolidation analysis

Can you confirm if you agree? Thanks!

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

Hi Jenny,

As discussed, the fees charged should be on terms equivalent to those with third parties (i.e. at arm's length). If a manager would not be remunerated under these terms in 'normal' circumstances, this would be a concern for your analysis of the ability to consolidate the Trust. As discussed, I would recommend you work with your Treasury team to ensure the terms are equivalent to arm's length.

Brittany

To: Brittany Keenan <Brittany.Keenan@ca.ey.com>
Subject: Fees

Hi Brittany,

As discussed verbally last week with yourself and the audit partner, can you confirm EY's concurrence with the below? Thanks!

Background:
In order for the accounting consolidation analysis to be successful, the Regulations, Trust documents and various agreements need to allow OPG to have significant variability and exposure from the activities of the Trust relative to the rate of return that OPG would recognize from its role as the Financial Services Manager of the Trust. The terms of the 'variable fee' component will be determined through a 'benchmark bond rate'. The benchmark bond rate will be a weighted average of the following tranches:

- **Tranche A Senior Debt (51%) -** capital markets
- **Tranche B Sub Debt (39%)** – Province
- **Tranche C Sub Debt (10%)** – capital markets & Province

The benchmark bond rate needs to be based on all three tranches of debt for the following reasons:

- In order for OPG to have significant variability and exposure from the activities of the Trust, 100% of the Trust activities need to be considered in determining this exposure. If the Financial Services Manager is only assessed based on its performance for 56% of debt, it calls into question whether 100% of the Trust should be consolidated by OPG if their exposure to risk and variability is only assessed on 56% of the Trust.
- One of the requirements for consolidation is also that the Trust must be undertaken by OPG as a business initiative on its merits. If the terms of the transaction are not seen as being on par with similar market transactions, it calls into consideration whether OPG is really acting as an 'agent' of the Province and not as a result of its own decisions. It is not common marketplace practice for fund managers to only be assessed on a portion of their managed portfolio.

Subject:	FHP - OPG Performance Fee
Date:	Wednesday, July 05, 2017 11:59:10 AM

Hi Scott

I am writing this to you as an FYI since there may be some push back from OPG. I am cc'ing Cindy as well given the accounting implications raised by OPG. As you may be aware, OPG provided us with the proposed methodology for computing the performance fee. Both the benchmark and the actual include the 44% debt issued by OPG to the Trust which is in turn fully funded by the Province's equity injection.

Given that there are no capital market decision-making associated with this component of the debt, we are reluctant to sign off on OPG's methodology in its current form. OPG is not particularly happy with our response and posits that the accounting treatment requires a performance fee. While I agree that the E&Y opinion does refer to a performance fee I am a little doubtful that E&Y specified that all of the debt should be part of the computation. I have requested that OPG provide me with any specific reference by E&Y on the performance fee methodology. If E&Y does require that the benchmark and actual include the total debt issuance, we can reconsider our stance.

Finally, the performance fee methodology computes the fee for a particular year by applying the difference between the benchmark and the actual on the 5% that is borrowed by OPG. We requested and obtained confirmation that the performance fee will be limited to new borrowings by OPG and not apply to any refinancing. OPG finds this acceptable and it also ensures that the performance fee will be capped at $1.2 million or so per annum.

Thanks

Ken k

Subject:	FHP Debt guarantee
Date:	Monday, June 19, 2017 9:45:09 AM

Hi Mike, who's working on the OPG guarantee while you're away? I'm at a meeting with Energy and Steen came up to me quite concerned to say that the latest version they saw from OPG and Tories was for quite a broad guarantee, including a make whole provision. If that's the case, it doesn't sound like they've taken on our comments and our unwillingness to provide a make whole, or a put, or any structure that could expose to the Province to having to make a multi-billion dollar payment rather than just stepping having to step in to replace OPG's coupon and principal payment obligations when they come due.

Thanks,
Gadi

Hi All,
I wanted to check in one last time to see if anyone would like to attend tomorrow's Minister briefing on the FHP for the OFA? (latest deck attached, meeting is 1:30pm Tuesday).
At the very least I can attend on Anna's behalf if no one else is available, but I wanted to confirm to see if someone more familiar with this file is interested in attending.
Thanks,
Matt Breadner on behalf of Anna Strathy

Subject: Draft Provincial Guarantee Deck
Hi Matt,
ENERGY has asked us to prepare a product for a Minister's briefing next week on the OFHP. They wanted a specific product on the Provincial Guarantee. Given the main OFA folks working on this file are on vacation, I've prepared the attached draft deck. I was hoping you could circulate this to folks internally for review and comment. We've been asked to provide a draft deck to the DMO tomorrow. Could you please aim to provide any OFA comments by end of day today.
Also, is there someone from the OFA who could attend next week's briefing to answer questions as required? Please let me know who that might be.
Thanks in advance,
Keley

Provincial Support Agreement

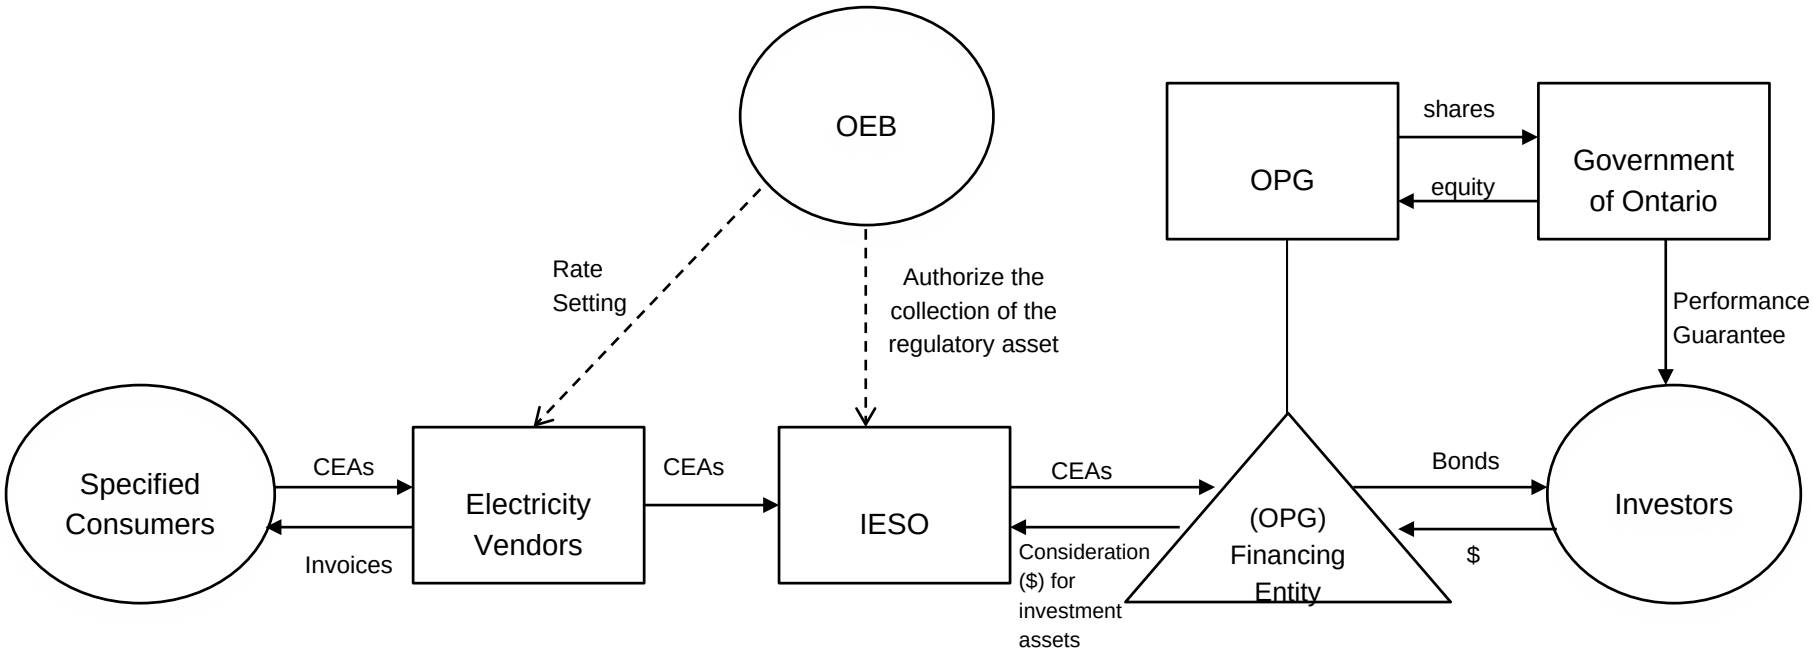
Briefing for Minister of Energy
Tuesday August 29th, 2017

CONFIDENTIAL & COMMERCIALLY SENSITIVE

Background

- The *Ontario Fair Hydro Plan Act, 2017,* enables the IESO to establish a variance account to record the deferral amounts from the difference between collections from current ratepayers and payment obligations to generators and conservation, and to create a regulatory asset to recover the balance in the variance account
    - The IESO can then sell the regulatory asset – the right to recover those deferred amounts from specified consumers in the future
    - OPG, as the Financial Services Manager, is authorized to establish one or more financing entities that may incur funding obligations
    - The Financing Entity will purchase the regulatory asset, effectively financing the shortfall in current rates not received from ratepayers
- To purchase the regulatory asset from the IESO, the Financing Entity must borrow a portion of the funds from capital markets (planned to be 51%, with other financing to come from OPG and, indirectly, the Province)
    - OPG's financial advisors have indicated that without adequate protection against legislative, judicial and organizational risk, the debt would not be financeable or would result in higher financing costs, to be passed on to ratepayers
- OPG has requested that the Province provide a support agreement that supports the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would guarantee the repayment of the funding obligations of the Financing Entity

Global Adjustment Refinancing – Roles and Responsibilities



Note: CEAs are “clean energy adjustments”

Provisions Under the Act

- As contemplated under the Act, OPG is requesting a Provincial commitment to support the planned Financing Entity's ability to borrow to finance the deferral of global adjustment amounts in certain limited circumstances
- Under s.5(3) of the OFHP Act,
  - *The LGIC may by order,*
    - *Authorize the Minister (of Energy) and the Minister of Finance, acting together on behalf of the Province,*
      - *To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and*
      - *To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity*
    - *Specify terms and conditions that must be included in any guarantee or indemnity given by the Minister and the Minister of Finance*
    - *Specify a maximum liability for the guarantee or indemnity*

Provincial Support Agreement

- Certain events that would negatively impact holders of Fair Hydro Plan debt sufficiently to activate the Provincial support, including:
    - Decisions by the Legislative Assembly, i.e., repeal of the *Ontario Fair Hydro Plan Act, 2017*, or amendments or new legislation that adversely affect the Financing Entity
    - A court decision that declares the rights of the Financing Entity to recover amounts from ratepayers to be invalid or unenforceable
    - Changes to the organization, structure or operations of IESO which results in the Financing Entity no longer being able to recover amounts related to funding obligations
- In the event the support agreement is triggered, the Province may take over the obligations of the Financing Entity including principal and interest payments on debt issued to date and any outstanding payments to service providers
    - The Province could potentially service the debt and other obligations and could replace OPG as the financial services manager
- The support agreement may need to be revised at a future date, or approval from the Province may be required, if the financing entity must access US market as investors in that market will likely require additional compensation if the guarantee is triggered
- Additional details, including terms and conditions to be specified by the LGIC in an Order-In-Council (OIC), or by the Ministers, need to be settled on, as the approvals process proceeds

Considerations

- If a support agreement is not provided, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from the IESO or the cost of the financing will be potentially materially greater than it otherwise would be
- OPCD will need to review the details of the proposed Provincial support agreement for any accounting implications
    - E.g., an unlimited Provincial guarantee would cause the debt to be treated as Provincial debt
- If a support agreement is provided, the Province takes on a contingent liability
    - The creation of a contingent liability will not currently affect net debt
    - The amount of the contingent liability will increase over the duration of the Fair Hydro Plan
        - The most recent estimate for total debt to be financed by a financing entity would be in the range of $10 billion [TBC] (assuming a 5% interest rate)
- In the event the support agreement is triggered, the Province's net debt will most likely increase by an amount equal to the contingent liability at that point in time
    - The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it has assumed under the support agreement

Next Steps

- Continue to work through outstanding issues related to the provincial support agreement
- Negotiate draft term sheet, working with OPG / OFA / MOF / Legal / Dealers
- Ministry of Finance to seek necessary approvals from TB / MBC *(Sept 26th)*
- Seek LRC / Cabinet approval for OIC *(October date TBC)*
    - The term sheet would inform a proposed OIC
        - Whether to include a maximum liability amount would need to be considered in developing the TB submission and the request for the OIC
- The support agreement would need to be drafted in accordance with the OIC

Hi Anna and Colleen,

Tomorrow at Fiscal Prep (1015-1145), ENERGY is presenting on their submission for the Fair Hydro Plan Act. Attached is the agenda and deck.

Could you please line up Gadi and Scott to attend with the Deputy? Please let me know if there are any issues.

Thanks!

Gwen.

ITEM AND MINISTRY	ESTIMATED TIME
Energy- Fair Hydro Plan Legislation	10:15 – 11:45

The Proposed Fair Hydro Act

May 3, 2017

Purpose

- Purpose is to walkthrough the main elements of the legislation.

- The Act consists of two components:
  - Part 1: Legislation to provide for the fair allocation of costs of electricity over time \
  - Part 2: Legislative amendments for social programs

- The proposed *Fair Hydro Act, 2017* would be an omnibus bill with 2 schedules: the *Ontario Fair Hydro Plan Act, 2017* and amendments to the *Ontario Energy Board Act, 1998*

Part 1 – Overview of Legislation to Provide for the Fair Allocation of Costs of Electricity Over Time

1. Ontario Fair Hydro Plan Act – Fundamental Principles
2. Brief Overview of the Legislation
3. Stakeholder Consultation and the Process to Prepare the Legislation
4. Building Blocks of the Legislation
   - What costs are part of the program?
   - How are the costs allocated fairly amount ratepayers now and in the future?
   - What consumers does the program apply to?
   - How is the program financed?
4. How the Legislation Works
   - Clean Energy Initiative
   - Clean Energy Costs and Benefits
   - Clean Energy Adjustments
   - Fair Adjustment
   - Fair Allocation Amount
   - Regulatory Asset and the Investment Asset
   - Issuance and Payment of Debt
   - Financing Plan
5. Who Does What
   - Minister of Energy
   - Role of OPG
   - Role of IESO
   - Role of LDCs
   - Role of OEB

Ontario Fair Hydro Plan Act – Fundamental Principles

- The actions taken by the Government of Ontario to achieve a clean, modern, and reliable electricity system have resulted in significant costs. The burden of financing the electricity system improvements and funding key programs has unfairly fallen on the shoulders of today's consumers.

- The proposed Ontario Fair Hydro Plan Act (OFPA) is founded on the principle that costs related to the development of a clean, modern and reliable electricity system (with a diverse supply mix) ought to be charged to those consumers, today and in the future, who will be the beneficiaries of those costs.

- The Government of Ontario is committed to ensuring that the costs of financing these investments are allocated fairly among present and future generations of consumers.

- The challenge inherent in the development of the legislation was the need to balance several key factors: the fundamental principles of the program, the program's desired accounting treatment, ratepayer interests, expectations of the financial markets, financeability, and legal considerations.

Stakeholder Consultation and the Process to Prepare the Legislation

- The development of the Ontario Fair Hydro Plan Act was preceded by extensive consultation, on an ongoing basis, with representatives from the Ontario Energy Board (OEB), IESO, Ontario Power Generation (OPG), the Ontario Provincial Controller's Office Division (OPCD), the Ministry of Energy, the Ministry of Finance, dealers, investment advisors and Canadian (and in some cases U.S.) counsel for each of the involved parties.

- As appropriate, other Ministries were circulated with drafts of the legislation and consulted on particular issues.

- Several drafts of the legislation were circulated among stakeholders and several mark-ups of draft legislation were received in response.

- Lengthy face to face meetings also took place with stakeholders and their counsel both as a group and individually.

- Legislative counsel were involved on a daily basis and produced multiple versions of the legislation.

- A steering committee chaired by the Deputy Minister met and were briefed weekly on the status of the legislation (i.e., the "Rate Mitigation Implementation Group" consisting of senior executives of the Ministry of Energy, Cabinet Office, Ministry of Finance, Treasury Board Secretariat, OFA, OPCD, OPG, OEB and IESO.

Brief Overview of the Legislation – Fair Allocation

- Legislation is based on the principle that the costs incurred to move to a clean, modern and reliable electricity system creates benefits that will be experienced by multiple generations of Ontario ratepayers and, therefore, in the interest of fairness, those costs should be shared by those multiple generations.

- The legislation does two things: (i) it establishes the fundamental elements of the fair allocation program, and, (ii) it puts the mechanisms in place to permit the financing of periodic shortfalls in revenue that are created by the fair allocation of electricity costs over multiple generations.

- With respect to the “fair allocation”, the legislation identifies:
  - What costs ought to be more fairly allocated (“clean energy costs”);
  - Mechanisms to allocate costs fairly among generations of consumers (“fair adjustment” and “fair allocation”);
  - The consumers to whom the program applies (“specified consumers”);
  - How the program is funded (borrowing on the strength of the revenue stream from consumers); and
  - The roles of various provincial entities in the program (i.e., Minister of Energy, Ontario Energy Board, IESO and OPG).

Brief Overview of the Legislation – Financeability

- In order to ensure the financeability of the program, considerable portions of the legislation are devoted to dealing with the “nuts and bolts” of what is required for successful financing including,
  - The quantification of the value of the regulatory asset;
  - The transfer of the regulatory asset to the (OPG) financing entity (which creates the “investment asset”);
  - The establishment of the “invoicing” process that ensures the investor’s “line of sight” to the investment asset;
  - The establishment of an OPG financing plan to ensure, among other things, an appropriate program of financing the shortfalls that are created by the deferred collection of revenues; and
  - Provisions setting out the way in which the financings are backed by amounts payable by specified consumers.

Building Blocks of the Legislation – What Costs are Part of the Program?

- In order to achieve its purpose, the legislation establishes the following “building blocks”:
  - Clean Energy Initiative – This is the term used to describe the Government of Ontario’s policies to foster growth and investment in and remove barriers and promote opportunities for clean and renewable energy sources and technologies and promoting conservation and demand management. The “clean energy costs” under the legislation arise from the “clean energy initiative”.
  - Clean Energy Costs – These are costs (attributable to the “clean energy initiative”) that are to be more fairly distributed among generations of consumers.
  - Clean Energy Benefits – These are the value of the benefits derived by the “specified consumers” (including the clean energy costs).
  - Clean Energy Adjustments – This is adjustment to a consumer invoice on a monthly basis to repay principal, interest and other financing.

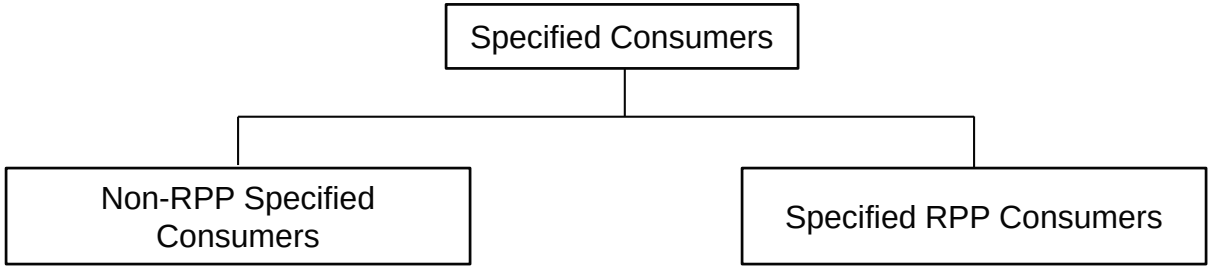
Building Blocks of the Legislation – How are the Costs to be Allocated?

- Fair Adjustment – This is the adjustment that gives the “relief” to certain specified consumers during the period from July 1, 2017 to June 30, 2021 (including this program’s portion of the 25 per cent reduction).

- Fair Allocation Amount – This is the concept/mechanism by which the fair distribution of “clean energy costs” (including, for example, financing costs, the cost of the power contracts, and the costs of the fair adjustment) is calculated and implemented.

Building Blocks of the Legislation – What Groups of Consumers Does the Program Apply To?

- Specified Consumers – This is the defined group of consumers to whom the legislative program applies. These consumers are persons who have an account with an electricity vendor for the supply of electricity in Ontario and,
  - Have a demand for electricity of 50 kilowatts or less (or as otherwise prescribed);
  - Annually use not more than 250,000 kilowatt hours of electricity (or as otherwise prescribed);
  - Carry on a farming business (basically pursuant to the *Farm Registration and Farm Organizations Funding Act*);
  - Have an account with an electricity vendor that is for a “dwelling”, condominium property, residential complex or co-operative housing; or
  - Are otherwise prescribed.



Building Blocks of the Legislation – How is the Program Financed?

- The ability to engage in the fair distribution of clean energy costs among the specified consumers requires financing during periods where the collection of the clean energy costs is, as part of the fair allocation, deferred to later years (thereby creating a revenue shortfall). A series of complex provisions are required to:
  - (i) Enable the financing, and
  - (ii) Meet requirements known to be important to rating agencies and investors.

- Regulatory Asset – This is fundamentally IESO's right to recover the revenues that it has deferred collecting because the clean electricity costs are being allocated across generations of ratepayers.

- Investment Asset – This is the asset that results when the regulatory asset is transferred to the (OPG) financing entities.

- The (OPG) financing entities will fund the acquisition (transfer) of the investment asset in the capital markets.

How the Legislation Works – Clean Energy Initiative

- The “clean energy initiative” concept is set out by definition. Its purpose is to establish the fundamental basis for the legislation.

- The definition is self-explanatory and is as follows:

“clean energy initiative” means the policies of the Government of Ontario related to,

a) eliminating coal generation and fostering the growth of and investment in clean, modern and reliable energy sources and technologies,,

b) removing barriers to and promoting opportunities for clean and renewable energy sources and technologies,

c) promoting conservation, demand management and energy efficiency; and

d) investing in energy infrastructure to ensure a clean, modern and reliable system;

How the Legislation Works – Clean Energy Costs and Benefits

- "Clean energy costs" are those costs that arise from the "clean energy initiative" and are allocated to the specified consumers for past, present and expected costs.

- The costs included in the "clean energy costs" include estimated amounts to be paid by IESO in adjustments made under section 25.33 of the *Electricity Act* (basically, the Global Adjustment provisions) which relate to contracts for,
  - Renewable energy generation or capacity;
  - Conservation and demand management, including shortage;
  - Energy efficiency; and
  - Natural gas generation and capacity (excluding certain contracts under section 78.2 of the *Ontario Energy Board Act* or as prescribed); and
  - Payments made under section 78.5 of the *Ontario Energy Board Act.*

- Other such costs to be included in "clean energy costs" may be prescribed

- These are the costs to be distributed fairly among the specified consumers through the "fair allocation amount".

How the Legislation Works – Fair Allocation Adjustment

- The fair adjustment provisions are set out in Part II of the legislation.

- Part II establishes that the rate that will be payable by "specified RPP consumers" from May 1, 2017 to April 30, 2018 for the first fair adjustment is the rate that would be required from this program to contribute to that consumer to receiving a total a monthly invoice amount that is 25 per cent lower than the monthly invoice amount for that consumer under the "comparison rate". The comparison rate is a rate to be determined by the OEB using the method prescribed by regulation under s 79.16(1)(b) of the OEB Act.

- Part II includes a transition provision in circumstances where for technical or operational reasons invoices cannot be adapted in time for the issuance of the first invoices under the program (i.e., adaptation of invoices must be implemented by August 1, 2017 followed by a subsequent lump sum credit to the consumer once the invoice is adapted).

- The Lieutenant General in Council is given the authority after April 30, 2018 to make regulations prescribing the rate for electricity (and therefore prescribing the "fair adjustment" until June 30, 2021). After June 30, 2021, regulations will have regard to the fair allocation amount and clean energy adjustments.

How the Legislation Works – Fair Allocation Amount

- The Minister sets the fair allocation amount.

- The establishment of the “fair allocation amount” is required to,
  - Fairly measure and allocate the estimated clean energy costs (and the clean energy benefits) among the “specified consumers” for applicable “reference periods”; and
  - Take into account (in the fair allocation) funding obligations (financing) that have been incurred (largely arising from the redistribution of cost across generations of consumers).

- The “fair allocation amount” is to have regard to:
  - Clean energy costs and allocating the appropriate proportionate amount of the clean energy benefits to the “specified consumers” (in the applicable “reference periods”);
  - Reasonable assumptions regarding the time value of money, the number of consumers in the “reference period”; and
  - Expected electricity consumption for the reference period.

How the Legislation Works – Regulatory Asset and Investment Asset

- IESO will have a funding deferral resulting from the reduction in amounts collected from specified consumers during the first 4 years because of the fair adjustment. The IESO's funding deferral will be financed indirectly through the debt capital markets.

- The Act enables the financing of this IESO funding deferral, on an ongoing basis, by establishing the funding deferral as a "regulatory asset". In simple terms, the regulatory asset is IESO's right to recover the revenues that it has deferred collecting.

- IESO will then legally transfer portions of this right to recover revenues to the (OPG) financing entities.

- The (OPG) financing entity that receives the transfer of the right to recover revenues acquires a right to impose, invoice and collect those regulatory charges (called the "clean energy adjustments"). This is generally described in the legislation as the "investment asset".

- The (OPG) financing entity will need to finance its acquisition (from IESO) of the investment asset, and it will do so in the capital markets.

How the Legislation Works – Issuance and Payment of Debt

- Debt securities and related funding obligations will be incurred by one or more (OPG) financing entities. These entities will be managed by OPG, as the financial services manager.

- The financings will be backed primarily by the “clean energy adjustments” payable by specified consumers. The “clean energy adjustments” will track the actual payment obligations incurred by the financing entities when they become due and payable. To ensure intergenerational fairness, these amounts will be managed by OPG to align with the “fair allocation amounts” ascribed to each of the next 60 six month periods ending in 2047 (or such later period as prescribed).

- IESO and each electricity distributor will act as agent for the financing entities to impose, invoice and collect the clean energy adjustments, which will be channeled through to pay each financing entity’s related funding obligations.

- To support the program, the Government of Ontario will be expected to provide certain performance guarantees, indemnities and bond-purchase covenants. The terms of these obligations will be worked out over time in connection with the marketing of financings through OPG. The goal will be achieve highest rated securities, although that will largely depend on issues such as the strength of the Government of Ontario’s undertakings not to adversely affect the program through subsequent legislation.

How the Legislation Works – Financing Plan

- The Financing Plan is prepared by the Financial Services Manager (OPG).

- The Financing Plan is the plan which is intended to set out when a “funding obligation” (financing) should be incurred so that the (OPG) financing entity can raise money to acquire the “investment interest” from IESO.

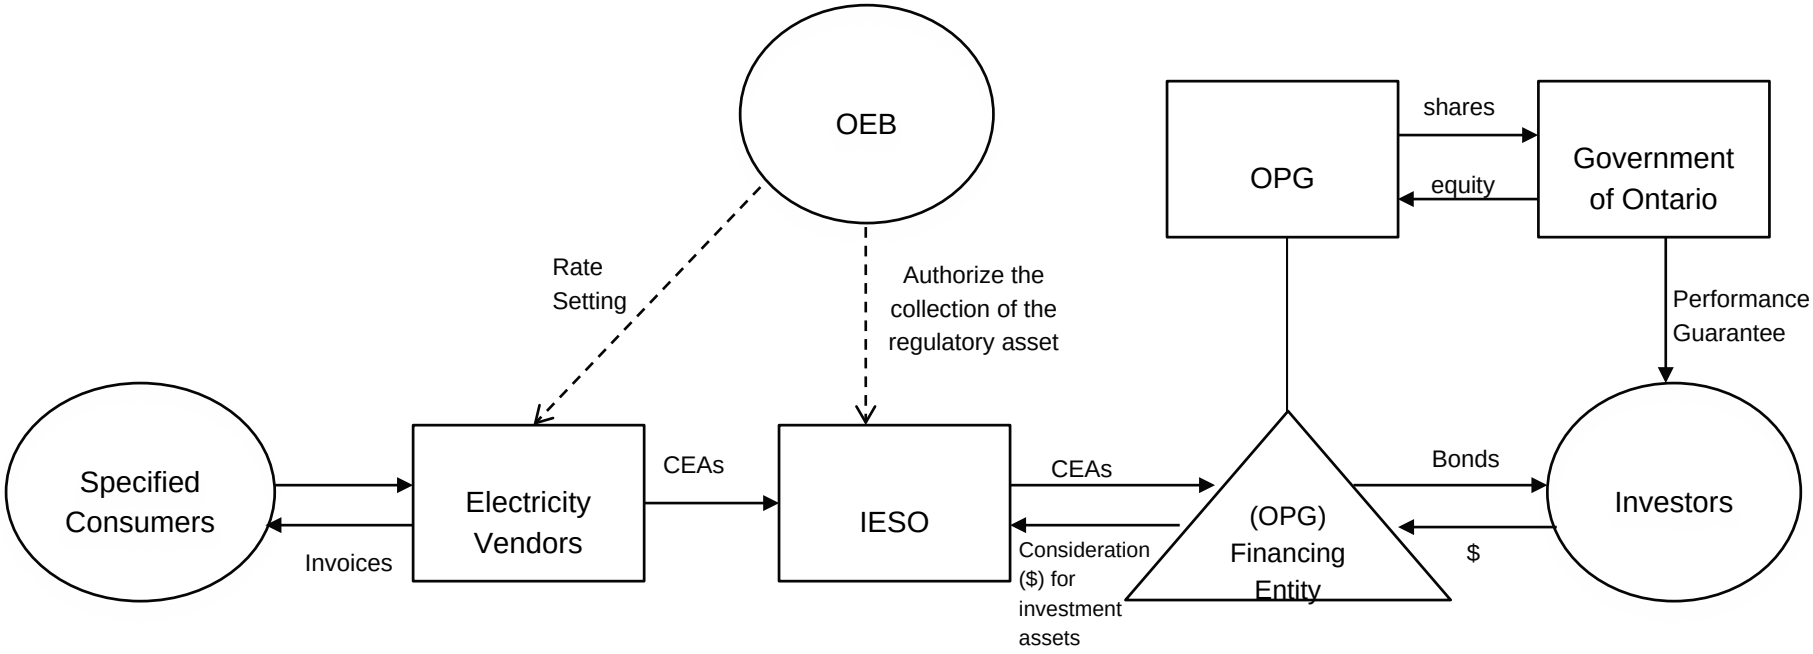
- There are rules that apply to the Financing Plan:
  - It must align with the “estimated finance amount” that will become due and payable during a “reference period”;
  - It must take into account the “fair allocation” and any “fair adjustment”;
  - It must plan to implement the financing in a reasonable and cost effective manner that reflects prevailing market terms and conditions; and
  - It must be based on certain reasonable assumptions set out in regulations (for example, related to anticipated IESO shortfalls, maturity of funding obligations, availability of refinancings, redemption opportunities and liquidity, and similar assumptions).

How the Legislation Works – Financing Plan (Continued)

- The (OPG) Financial Services Manager must incur funding obligations in conformity with the applicable Financing Plan.

- The Financing Plan will guide OPG's decisions regarding the repayment terms of the debt securities to be issued by financing entities. The Financing Plan will also deal with fundamental issues, such as the alignment (using derivatives) of any foreign currency obligations incurred by financing entities with the Canadian dollar cash flows arising through the clean energy adjustments.

How the Financing Structure Works



Note: CEAs are “clean energy adjustments”

Who Does What – Role of the Minister of Energy

- Determine the “fair allocation amount” applicable for each reference period. The fair allocation amounts will be set for all reference periods at the beginning of the program, based on reasonable expectations and forecasts at that time.

Who Does What – Role of the OPG

- As financial services manager, OPG will be responsible for the following under the Act:
  - Prepare and implement Financing Plan.
  - Establish and administer the financing entities.
  - Capitalize the financing entities by acquiring subordinated debt and equity, as required to achieve OPG's accounting and capital markets objectives.
  - Estimate and "true up" periodic finance amounts, to be passed through as regulatory charges in the form of Clean Energy Adjustments.

Who Does What – Role of IESO

- Calculate and record IESO funding shortfalls from time to time in a variance account, giving rise to a right of recovery from specified consumers to the extent not funded through the financings.

- Transfer the IESO's rights of recovery to (OPG) financing entities, in consideration for cash payments made by the financing entities from the proceeds of their financings.

- Coordinates the collection of "clean energy adjustments" from Electricity Distributors.

- Remit "clean energy adjustments" to (OPG) financing entity, for payment of financing entity funding obligations.

- Fund initial interest costs and expenses during the first 4 years.

Who Does What – Role of LDCs

- Obligation to invoice specified consumers.
- Collect, as agent of the investment interest owners, “clean energy adjustments” from specified consumers.
- Hold money received for clean energy adjustments in trust until remittance to the IESO.

Who Does What – Role of the OEB

- Determine and set rates to account for fair adjustments, fair allocations and clean energy adjustments (monthly adjustments).

- Determine and set rates and process to allow IESO to recover funding shortfalls (to the extent such amounts are not transferred to an (OPG) financing entity and financed in the capital markets).

- Review the administrative costs of OPG in connection with the administration of the program.

Part 2 – Overview of Legislative Amendments for Social Programs

- As part of the proposed Ontario Fair Hydro Plan, the Ministry of Energy is proposing amendments the *Ontario Energy Board Act, 1998* (OEBA) to enable the following measures:
  - Enhancing and providing tax-based funding for Rural or Remote Electricity Rate Protection (RRRP) through new enhanced rate protection for residential customers with high distribution rates;
  - Enhancing and providing tax-based funding for the Ontario Electricity Support Program (OESP); and
  - Creating a new First Nation On-Reserve Delivery Credit and providing for tax-based funding.

Overview of RRRP and Broadened Distribution Rate Protection

- Section 79 of the *Ontario Energy Board Act* would be amended to provide the Ministry the authority to prescribe, through regulation, classes of consumers whose cost would be transferred from the rate-base to the tax-base.
- If the proposed legislative amendments are approved, the government intends to propose regulatory amendments that would prescribe Hydro One's R2 customers as receiving RRRP from appropriated funds effective July 1, 2017. This would fulfill the government's intention to transfer the majority of the costs of administering the RRRP program to the tax-base.
- In addition, Energy is proposing legislative amendments that would broaden rate protection by creating a new distribution rate protection program to complement RRRP. This new program would be funded through tax payers.
- Distribution rate protection would be extended to eligible residential customers served by LDCs with the highest distribution costs.
  - Proposed legislative amendments would enable a maximum monthly base distribution charge to established through regulations.
- If the proposed legislative amendments are approved, the government intends to prescribe by regulation both program details and the residential customers eligible for broadened distribution rate protection served by the following LDCs:
  - Hydro One (R1 and R2 rate classes), Algoma Power, Atikokan Hydro, InnPower, Chapleau Public Utilities Commission, Sioux Lookout Hydro, Lakeland Power (Parry Sound service territory) and Northern Ontario Wires Inc.

Ontario Electricity Support Program

- Proposed legislation related to the Ontario Electricity Support Program (OESP) would shift program funding from the rate base to the tax base.
  - Tax-based funding would only kick in once the existing OESP variance account is depleted, which is expected to happen in the fall of 2017.

- To allow for the existing program structure to stay in place until tax-based funding kicks in, proposed new legislation would only come into force via a proclamation Order in Council, on a date to be determined.
  - This would ensure that existing OEB authorities remain in place while ratepayer funding is being used.

- In addition, a new authority to allow the OEB and the Ministry of Community and Social Services (MCSS) to share data on customers to support increased participation in the OESP program among Ontario Works and Ontario Disability and Support Program clients would be put in place.
  - Information Privacy Commissioner (IPC) staff were consulted, and customer consent is reflected.
  - This information sharing component will come into force at Royal Assent, allowing OEB and MCSS to begin this process quickly, and support increasing OESP participation levels.

First Nations Delivery Credit

- Energy is proposing legislative amendments that would establish a first Nation Delivery Credit for On-Reserve Consumers. This new program would be funded through tax payers.

- The proposed First Nation Delivery Credit would provide:
  - All prescribed on-reserve consumers with a credit for the entirety of their delivery line or with a credit for the monthly service charge.
  - The costs that are covered by the delivery credit are also described in legislation.

- If the proposed legislative amendments are approved, the government intends to propose regulatory amendments that would:
  - Establish the class of customers eligible;
  - Determine what is considered on-reserve; and
  - Determine the method of calculating the delivery credit.

Hi Anna and Colleen,

Tomorrow at Fiscal Prep (1015-1145), ENERGY is presenting on their submission for the Fair Hydro Plan Act. Attached is the agenda and deck.

Could you please line up Gadi and Scott to attend with the Deputy? Please let me know if there are any issues.

Thanks!

Gwen.

AGENDA

May 3, 2017 10:15 – 11:45

Room 6501, Whitney Block

ITEM AND MINISTRY	ESTIMATED TIME
Energy- Fair Hydro Plan Legislation	10:15 – 11:45

The Proposed Fair Hydro Act

May 3, 2017

Purpose

- Purpose is to walkthrough the main elements of the legislation.

- The Act consists of two components:
  - Part 1: Legislation to provide for the fair allocation of costs of electricity over time \
  - Part 2: Legislative amendments for social programs

- The proposed *Fair Hydro Act, 2017* would be an omnibus bill with 2 schedules: the *Ontario Fair Hydro Plan Act, 2017* and amendments to the *Ontario Energy Board Act, 1998*

Part 1 – Overview of Legislation to Provide for the Fair Allocation of Costs of Electricity Over Time

1. Ontario Fair Hydro Plan Act – Fundamental Principles
2. Brief Overview of the Legislation
3. Stakeholder Consultation and the Process to Prepare the Legislation
4. Building Blocks of the Legislation
   - What costs are part of the program?
   - How are the costs allocated fairly amount ratepayers now and in the future?
   - What consumers does the program apply to?
   - How is the program financed?
4. How the Legislation Works
   - Clean Energy Initiative
   - Clean Energy Costs and Benefits
   - Clean Energy Adjustments
   - Fair Adjustment
   - Fair Allocation Amount
   - Regulatory Asset and the Investment Asset
   - Issuance and Payment of Debt
   - Financing Plan
5. Who Does What
   - Minister of Energy
   - Role of OPG
   - Role of IESO
   - Role of LDCs
   - Role of OEB

Ontario Fair Hydro Plan Act – Fundamental Principles

- The actions taken by the Government of Ontario to achieve a clean, modern, and reliable electricity system have resulted in significant costs. The burden of financing the electricity system improvements and funding key programs has unfairly fallen on the shoulders of today's consumers.

- The proposed Ontario Fair Hydro Plan Act (OFPA) is founded on the principle that costs related to the development of a clean, modern and reliable electricity system (with a diverse supply mix) ought to be charged to those consumers, today and in the future, who will be the beneficiaries of those costs.

- The Government of Ontario is committed to ensuring that the costs of financing these investments are allocated fairly among present and future generations of consumers.

- The challenge inherent in the development of the legislation was the need to balance several key factors: the fundamental principles of the program, the program's desired accounting treatment, ratepayer interests, expectations of the financial markets, financeability, and legal considerations.

Stakeholder Consultation and the Process to Prepare the Legislation

- The development of the Ontario Fair Hydro Plan Act was preceded by extensive consultation, on an ongoing basis, with representatives from the Ontario Energy Board (OEB), IESO, Ontario Power Generation (OPG), the Ontario Provincial Controller's Office Division (OPCD), the Ministry of Energy, the Ministry of Finance, dealers, investment advisors and Canadian (and in some cases U.S.) counsel for each of the involved parties.

- As appropriate, other Ministries were circulated with drafts of the legislation and consulted on particular issues.

- Several drafts of the legislation were circulated among stakeholders and several mark-ups of draft legislation were received in response.

- Lengthy face to face meetings also took place with stakeholders and their counsel both as a group and individually.

- Legislative counsel were involved on a daily basis and produced multiple versions of the legislation.

- A steering committee chaired by the Deputy Minister met and were briefed weekly on the status of the legislation (i.e., the "Rate Mitigation Implementation Group" consisting of senior executives of the Ministry of Energy, Cabinet Office, Ministry of Finance, Treasury Board Secretariat, OFA, OPCD, OPG, OEB and IESO.

Brief Overview of the Legislation – Fair Allocation

- Legislation is based on the principle that the costs incurred to move to a clean, modern and reliable electricity system creates benefits that will be experienced by multiple generations of Ontario ratepayers and, therefore, in the interest of fairness, those costs should be shared by those multiple generations.

- The legislation does two things: (i) it establishes the fundamental elements of the fair allocation program, and, (ii) it puts the mechanisms in place to permit the financing of periodic shortfalls in revenue that are created by the fair allocation of electricity costs over multiple generations.

- With respect to the “fair allocation”, the legislation identifies:
  - What costs ought to be more fairly allocated (“clean energy costs”);
  - Mechanisms to allocate costs fairly among generations of consumers (“fair adjustment” and “fair allocation”);
  - The consumers to whom the program applies (“specified consumers”);
  - How the program is funded (borrowing on the strength of the revenue stream from consumers); and
  - The roles of various provincial entities in the program (i.e., Minister of Energy, Ontario Energy Board, IESO and OPG).

Brief Overview of the Legislation – Financeability

- In order to ensure the financeability of the program, considerable portions of the legislation are devoted to dealing with the “nuts and bolts” of what is required for successful financing including,
  - The quantification of the value of the regulatory asset;
  - The transfer of the regulatory asset to the (OPG) financing entity (which creates the “investment asset”);
  - The establishment of the “invoicing” process that ensures the investor’s “line of sight” to the investment asset;
  - The establishment of an OPG financing plan to ensure, among other things, an appropriate program of financing the shortfalls that are created by the deferred collection of revenues; and
  - Provisions setting out the way in which the financings are backed by amounts payable by specified consumers.

Building Blocks of the Legislation – What Costs are Part of the Program?

- In order to achieve its purpose, the legislation establishes the following “building blocks”:
  - Clean Energy Initiative – This is the term used to describe the Government of Ontario’s policies to foster growth and investment in and remove barriers and promote opportunities for clean and renewable energy sources and technologies and promoting conservation and demand management. The “clean energy costs” under the legislation arise from the “clean energy initiative”.
  - Clean Energy Costs – These are costs (attributable to the “clean energy initiative”) that are to be more fairly distributed among generations of consumers.
  - Clean Energy Benefits – These are the value of the benefits derived by the “specified consumers” (including the clean energy costs).
  - Clean Energy Adjustments – This is adjustment to a consumer invoice on a monthly basis to repay principal, interest and other financing.

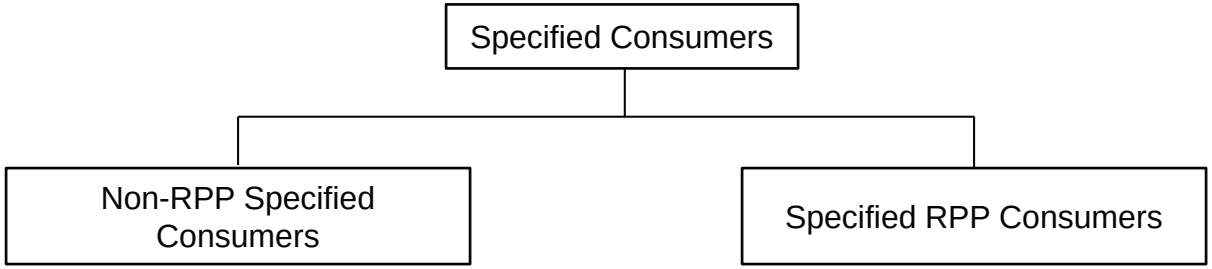
Building Blocks of the Legislation – How are the Costs to be Allocated?

- Fair Adjustment – This is the adjustment that gives the “relief” to certain specified consumers during the period from July 1, 2017 to June 30, 2021 (including this program’s portion of the 25 per cent reduction).

- Fair Allocation Amount – This is the concept/mechanism by which the fair distribution of “clean energy costs” (including, for example, financing costs, the cost of the power contracts, and the costs of the fair adjustment) is calculated and implemented.

Building Blocks of the Legislation – What Groups of Consumers Does the Program Apply To?

- Specified Consumers – This is the defined group of consumers to whom the legislative program applies. These consumers are persons who have an account with an electricity vendor for the supply of electricity in Ontario and,
  - Have a demand for electricity of 50 kilowatts or less (or as otherwise prescribed);
  - Annually use not more than 250,000 kilowatt hours of electricity (or as otherwise prescribed);
  - Carry on a farming business (basically pursuant to the *Farm Registration and Farm Organizations Funding Act*);
  - Have an account with an electricity vendor that is for a “dwelling”, condominium property, residential complex or co-operative housing; or
  - Are otherwise prescribed.



Building Blocks of the Legislation – How is the Program Financed?

- The ability to engage in the fair distribution of clean energy costs among the specified consumers requires financing during periods where the collection of the clean energy costs is, as part of the fair allocation, deferred to later years (thereby creating a revenue shortfall). A series of complex provisions are required to:
  - (i) Enable the financing, and
  - (ii) Meet requirements known to be important to rating agencies and investors.

- Regulatory Asset – This is fundamentally IESO's right to recover the revenues that it has deferred collecting because the clean electricity costs are being allocated across generations of ratepayers.

- Investment Asset – This is the asset that results when the regulatory asset is transferred to the (OPG) financing entities.

- The (OPG) financing entities will fund the acquisition (transfer) of the investment asset in the capital markets.

How the Legislation Works – Clean Energy Initiative

- The “clean energy initiative” concept is set out by definition. Its purpose is to establish the fundamental basis for the legislation.

- The definition is self-explanatory and is as follows:

“clean energy initiative” means the policies of the Government of Ontario related to,

a) eliminating coal generation and fostering the growth of and investment in clean, modern and reliable energy sources and technologies,,

b) removing barriers to and promoting opportunities for clean and renewable energy sources and technologies,

c) promoting conservation, demand management and energy efficiency; and

d) investing in energy infrastructure to ensure a clean, modern and reliable system;

How the Legislation Works – Clean Energy Costs and Benefits

- "Clean energy costs" are those costs that arise from the "clean energy initiative" and are allocated to the specified consumers for past, present and expected costs.

- The costs included in the "clean energy costs" include estimated amounts to be paid by IESO in adjustments made under section 25.33 of the *Electricity Act* (basically, the Global Adjustment provisions) which relate to contracts for,
  - Renewable energy generation or capacity;
  - Conservation and demand management, including shortage;
  - Energy efficiency; and
  - Natural gas generation and capacity (excluding certain contracts under section 78.2 of the *Ontario Energy Board Act* or as prescribed); and
  - Payments made under section 78.5 of the *Ontario Energy Board Act.*

- Other such costs to be included in "clean energy costs" may be prescribed

- These are the costs to be distributed fairly among the specified consumers through the "fair allocation amount".

How the Legislation Works – Fair Allocation Adjustment

- The fair adjustment provisions are set out in Part II of the legislation.

- Part II establishes that the rate that will be payable by "specified RPP consumers" from May 1, 2017 to April 30, 2018 for the first fair adjustment is the rate that would be required from this program to contribute to that consumer to receiving a total a monthly invoice amount that is 25 per cent lower than the monthly invoice amount for that consumer under the "comparison rate". The comparison rate is a rate to be determined by the OEB using the method prescribed by regulation under s 79.16(1)(b) of the OEB Act.

- Part II includes a transition provision in circumstances where for technical or operational reasons invoices cannot be adapted in time for the issuance of the first invoices under the program (i.e., adaptation of invoices must be implemented by August 1, 2017 followed by a subsequent lump sum credit to the consumer once the invoice is adapted).

- The Lieutenant General in Council is given the authority after April 30, 2018 to make regulations prescribing the rate for electricity (and therefore prescribing the "fair adjustment" until June 30, 2021). After June 30, 2021, regulations will have regard to the fair allocation amount and clean energy adjustments.

How the Legislation Works – Fair Allocation Amount

- The Minister sets the fair allocation amount.

- The establishment of the “fair allocation amount” is required to,
  - Fairly measure and allocate the estimated clean energy costs (and the clean energy benefits) among the “specified consumers” for applicable “reference periods”; and
  - Take into account (in the fair allocation) funding obligations (financing) that have been incurred (largely arising from the redistribution of cost across generations of consumers).

- The “fair allocation amount” is to have regard to:
  - Clean energy costs and allocating the appropriate proportionate amount of the clean energy benefits to the “specified consumers” (in the applicable “reference periods”);
  - Reasonable assumptions regarding the time value of money, the number of consumers in the “reference period”; and
  - Expected electricity consumption for the reference period.

How the Legislation Works – Regulatory Asset and Investment Asset

- IESO will have a funding deferral resulting from the reduction in amounts collected from specified consumers during the first 4 years because of the fair adjustment. The IESO's funding deferral will be financed indirectly through the debt capital markets.

- The Act enables the financing of this IESO funding deferral, on an ongoing basis, by establishing the funding deferral as a "regulatory asset". In simple terms, the regulatory asset is IESO's right to recover the revenues that it has deferred collecting.

- IESO will then legally transfer portions of this right to recover revenues to the (OPG) financing entities.

- The (OPG) financing entity that receives the transfer of the right to recover revenues acquires a right to impose, invoice and collect those regulatory charges (called the "clean energy adjustments"). This is generally described in the legislation as the "investment asset".

- The (OPG) financing entity will need to finance its acquisition (from IESO) of the investment asset, and it will do so in the capital markets.

How the Legislation Works – Issuance and Payment of Debt

- Debt securities and related funding obligations will be incurred by one or more (OPG) financing entities. These entities will be managed by OPG, as the financial services manager.

- The financings will be backed primarily by the “clean energy adjustments” payable by specified consumers. The “clean energy adjustments” will track the actual payment obligations incurred by the financing entities when they become due and payable. To ensure intergenerational fairness, these amounts will be managed by OPG to align with the “fair allocation amounts” ascribed to each of the next 60 six month periods ending in 2047 (or such later period as prescribed).

- IESO and each electricity distributor will act as agent for the financing entities to impose, invoice and collect the clean energy adjustments, which will be channeled through to pay each financing entity’s related funding obligations.

- To support the program, the Government of Ontario will be expected to provide certain performance guarantees, indemnities and bond-purchase covenants. The terms of these obligations will be worked out over time in connection with the marketing of financings through OPG. The goal will be achieve highest rated securities, although that will largely depend on issues such as the strength of the Government of Ontario’s undertakings not to adversely affect the program through subsequent legislation.

How the Legislation Works – Financing Plan

- The Financing Plan is prepared by the Financial Services Manager (OPG).

- The Financing Plan is the plan which is intended to set out when a “funding obligation” (financing) should be incurred so that the (OPG) financing entity can raise money to acquire the “investment interest” from IESO.

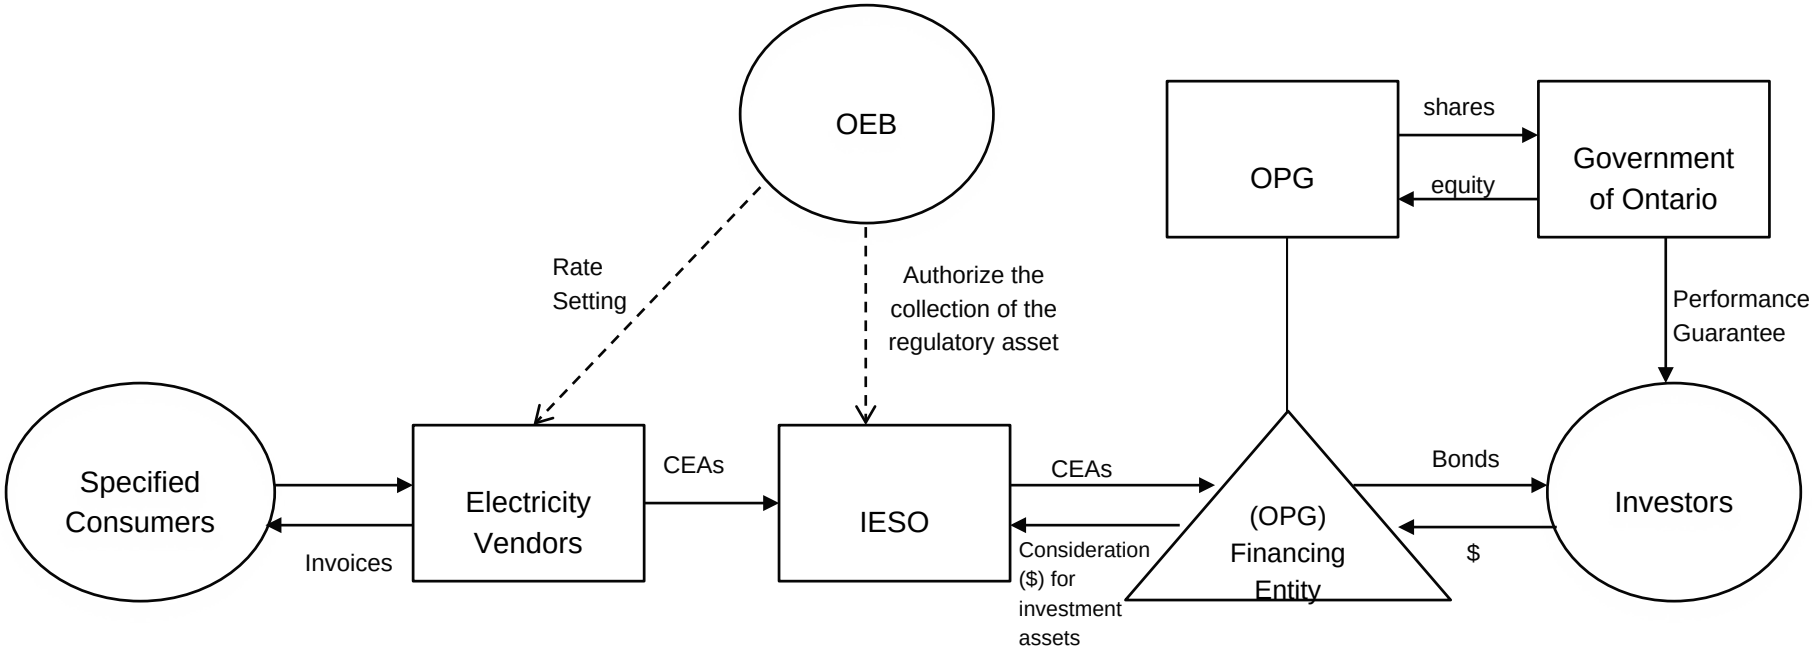
- There are rules that apply to the Financing Plan:
  - It must align with the “estimated finance amount” that will become due and payable during a “reference period”;
  - It must take into account the “fair allocation” and any “fair adjustment”;
  - It must plan to implement the financing in a reasonable and cost effective manner that reflects prevailing market terms and conditions; and
  - It must be based on certain reasonable assumptions set out in regulations (for example, related to anticipated IESO shortfalls, maturity of funding obligations, availability of refinancings, redemption opportunities and liquidity, and similar assumptions).

How the Legislation Works – Financing Plan (Continued)

- The (OPG) Financial Services Manager must incur funding obligations in conformity with the applicable Financing Plan.

- The Financing Plan will guide OPG's decisions regarding the repayment terms of the debt securities to be issued by financing entities. The Financing Plan will also deal with fundamental issues, such as the alignment (using derivatives) of any foreign currency obligations incurred by financing entities with the Canadian dollar cash flows arising through the clean energy adjustments.

How the Financing Structure Works



Note: CEAs are “clean energy adjustments”

Who Does What – Role of the Minister of Energy

- Determine the “fair allocation amount” applicable for each reference period. The fair allocation amounts will be set for all reference periods at the beginning of the program, based on reasonable expectations and forecasts at that time.

Who Does What – Role of the OPG

- As financial services manager, OPG will be responsible for the following under the Act:
  - Prepare and implement Financing Plan.
  - Establish and administer the financing entities.
  - Capitalize the financing entities by acquiring subordinated debt and equity, as required to achieve OPG's accounting and capital markets objectives.
  - Estimate and "true up" periodic finance amounts, to be passed through as regulatory charges in the form of Clean Energy Adjustments.

Who Does What – Role of IESO

- Calculate and record IESO funding shortfalls from time to time in a variance account, giving rise to a right of recovery from specified consumers to the extent not funded through the financings.

- Transfer the IESO's rights of recovery to (OPG) financing entities, in consideration for cash payments made by the financing entities from the proceeds of their financings.

- Coordinates the collection of "clean energy adjustments" from Electricity Distributors.

- Remit "clean energy adjustments" to (OPG) financing entity, for payment of financing entity funding obligations.

- Fund initial interest costs and expenses during the first 4 years.

Who Does What – Role of LDCs

- Obligation to invoice specified consumers.
- Collect, as agent of the investment interest owners, “clean energy adjustments” from specified consumers.
- Hold money received for clean energy adjustments in trust until remittance to the IESO.

Who Does What – Role of the OEB

- Determine and set rates to account for fair adjustments, fair allocations and clean energy adjustments (monthly adjustments).

- Determine and set rates and process to allow IESO to recover funding shortfalls (to the extent such amounts are not transferred to an (OPG) financing entity and financed in the capital markets).

- Review the administrative costs of OPG in connection with the administration of the program.

Part 2 – Overview of Legislative Amendments for Social Programs

- As part of the proposed Ontario Fair Hydro Plan, the Ministry of Energy is proposing amendments the *Ontario Energy Board Act, 1998* (OEBA) to enable the following measures:
  - Enhancing and providing tax-based funding for Rural or Remote Electricity Rate Protection (RRRP) through new enhanced rate protection for residential customers with high distribution rates;
  - Enhancing and providing tax-based funding for the Ontario Electricity Support Program (OESP); and
  - Creating a new First Nation On-Reserve Delivery Credit and providing for tax-based funding.

Overview of RRRP and Broadened Distribution Rate Protection

- Section 79 of the *Ontario Energy Board Act* would be amended to provide the Ministry the authority to prescribe, through regulation, classes of consumers whose cost would be transferred from the rate-base to the tax-base.
- If the proposed legislative amendments are approved, the government intends to propose regulatory amendments that would prescribe Hydro One's R2 customers as receiving RRRP from appropriated funds effective July 1, 2017. This would fulfill the government's intention to transfer the majority of the costs of administering the RRRP program to the tax-base.
- In addition, Energy is proposing legislative amendments that would broaden rate protection by creating a new distribution rate protection program to complement RRRP. This new program would be funded through tax payers.
- Distribution rate protection would be extended to eligible residential customers served by LDCs with the highest distribution costs.
  - Proposed legislative amendments would enable a maximum monthly base distribution charge to established through regulations.
- If the proposed legislative amendments are approved, the government intends to prescribe by regulation both program details and the residential customers eligible for broadened distribution rate protection served by the following LDCs:
  - Hydro One (R1 and R2 rate classes), Algoma Power, Atikokan Hydro, InnPower, Chapleau Public Utilities Commission, Sioux Lookout Hydro, Lakeland Power (Parry Sound service territory) and Northern Ontario Wires Inc.

Ontario Electricity Support Program

- Proposed legislation related to the Ontario Electricity Support Program (OESP) would shift program funding from the rate base to the tax base.
  - Tax-based funding would only kick in once the existing OESP variance account is depleted, which is expected to happen in the fall of 2017.

- To allow for the existing program structure to stay in place until tax-based funding kicks in, proposed new legislation would only come into force via a proclamation Order in Council, on a date to be determined.
  - This would ensure that existing OEB authorities remain in place while ratepayer funding is being used.

- In addition, a new authority to allow the OEB and the Ministry of Community and Social Services (MCSS) to share data on customers to support increased participation in the OESP program among Ontario Works and Ontario Disability and Support Program clients would be put in place.
  - Information Privacy Commissioner (IPC) staff were consulted, and customer consent is reflected.
  - This information sharing component will come into force at Royal Assent, allowing OEB and MCSS to begin this process quickly, and support increasing OESP participation levels.

First Nations Delivery Credit

- Energy is proposing legislative amendments that would establish a first Nation Delivery Credit for On-Reserve Consumers. This new program would be funded through tax payers.

- The proposed First Nation Delivery Credit would provide:
  - All prescribed on-reserve consumers with a credit for the entirety of their delivery line or with a credit for the monthly service charge.
  - The costs that are covered by the delivery credit are also described in legislation.

- If the proposed legislative amendments are approved, the government intends to propose regulatory amendments that would:
  - Establish the class of customers eligible;
  - Determine what is considered on-reserve; and
  - Determine the method of calculating the delivery credit.

Subject: DPAC Update #31 | Lockup Logistics | April 26, 2017

Hi everyone,

We're only one day away from lock up! Below are a few updates and a summary of tomorrow's events.

1. **Staff are encouraged to attend today's Pep Rally/Lock up Orientation at the MacDonald Block Cafeteria at 3:30PM**.
    - Green Lock Up access cards for those attending lock up will be available for pick up at the Orientation session.
2. All Briefing Book Binder content was sent out on distribution today. Divisions are able to print any of the material they require.
3. The following **Lockup logistics material** are attached:
    - Lockup Primer and Emergency Protocols
    - Minute-by-Minute Schedule
    - MacDonald Block Map
    - MOF/TBS Contact List
    - Line Ministry contact list
    - Stakeholder List
4. Summary of the key events tomorrow:

    Media Lockup
    - Media begins to arrive at 7:30AM.
    - **MOF/TBS Policy staff are expected to arrive by 9:00am**
    - There will be 8 tables set up in the morning for the following topics:
        - Fiscal Plan
        - Economic Outlook
        - Health care
        - Education
        - Infrastructure
        - Housing Affordability
        - Tax Measures
        - Business and Other Sector Supports
    - If throughout the day we notice more questions pertaining to one of the

backup topics, we will swap out an existing topic with one of the backups.

TB/MBC Briefing (8:00AM – 9:30AM) – This briefing will take place in the TB/MBC Boardroom (1st Floor Frost South). Required ADMs will be notified.

Opposition Briefings (10:00AM – 11:00AM) - These briefings will be held in the Kenora, Nipigon and Nipissing rooms.

- The names of required ADMs are listed in the attached staff contact list.
- EAs in attendance will be expected to retrieve question cards, find the appropriate person to respond and ensure the card has the response recorded.
- All cards are to be returned to the coordination desk, located in Room M2-19 (beside the Severn Room).

Stakeholder Lock Up (12:00PM – 4:00PM) - Stakeholders will be in various rooms on the 2nd floor of MacDonald Block.

- Coordination Desk Volunteers will be responsible for collecting question cards and finding the appropriate policy experts to respond. Policy experts will be visiting stakeholder rooms to provide responses.
- All question cards must be returned to the coordination desk for logging.
- EAs are asked to assist with locating policy experts and ensuring question cards are returned to the coordination desk.

Pre-Minister's Briefing (11:30PM – 12:00PM) – A briefing with several ADMs will be arranged in the Trillium Boardroom (1st Floor, Macdonald Block Cafeteria) to provide updates on media questions and develop a strategy for the Minister's briefing at noon.

Minister's Briefing (12:00PM – 12:30PM) - A briefing with a small group of ADMs will be arranged (in the OPP Boardroom) to provide the minister with an update of the type of questions that have been raised throughout the morning. This briefing will help prepare the Minister for his 1:00PM new conference. ***Note: attendance for this briefing is very limited. Required ADMs will be notified. No other staff will be permitted in the OPP Boardroom.***

Minister's New Conference (1:00PM – 1:30PM) - The Minister will address the media in the Ontario room.

- All policy staff will be asked to clear the Huron Room and media lock up area. Staff may go to the cafeteria.
- ADMs will be permitted in the Ontario Room. They may also choose to watch the conference in the Trillium Boardroom (1st Floor, Macdonald Block Cafeteria).

DMs Technical Briefing (3:00PM – 4:00PM) – Our Deputy will be delivering a briefing to all Deputies in advance of the budget release. Select ADMs will be notified if they're required to attend.

Minister's Speech (4:00PM) – The Minister will table Budget in the Legislature at approximately 4:00PM.

5. **Remember to have fun tomorrow!** You've all worked extremely hard to put this Budget together. Lock up gives us an opportunity to see the release of the Budget and our hard work pay off.

Thanks,
Ron

If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #30 | April 25, 2017

Good morning,
We're two days away from Budget Lockup! A few reminders and updates for you:

1. **DM/MO Sign-off: Communications Products**

   - Final sign-off will take place today in the Trillium boardroom, 7th floor Frost South.
   - Revised communications products will be on distribution last night

2. **Briefing Books**

   - If you haven't done so, please submit BNs and Technical Qs & As by **10:00 am, today** in the iDoc drive.
   - The briefing book binders will consist of the following mandatory content:
     - Briefing Notes (BNs) & Technical Qs & As: Please work with your division and any others that may be impacted.

- Briefing Notes and Qs & As are to be produced at the discretion of divisions. BNs are not required for every initiative in the Document, divisions are asked to use best judgement to determine which initiatives/sections require notes and Qs & As.

3. **Budget Day Lock Up Logistics**

- Our annual **Lockup Orientation Pep Rally will take place in the Macdonald Block cafeteria tomorrow at 3:30 – 4:30 pm** (an invite will go out today).
    - **Staff will be able to pick up their lockup security badges at the rally tomorrow.**
- Attached are draft **Lock Up logistics material**:
    - Lockup Primer and Emergency Protocols
    - Minute-by-Minute Schedule
    - MacDonald Block Map
- Final material, including contact lists will be circulated tomorrow.

4. **Budget Lockup**

- **EAs, please remember to fill out the attached spreadsheet, identifying directors and managers who will be available to answer questions and provide support on Document Day.**
    - **The following key topics have been identified for the Media Room Lock Up:** the Province's fiscal plan (including debt/borrowing), economic outlook, health care, education and training, infrastructure, housing affordability, tax measures, and business and other sector support initiatives.
    - Please identify staff that would be available for Media Lock up and those that will be available for stakeholder questions. Please remember to indicate who will be "On Call" or "in Attendance" at lock up.
- **Please provide names to Nicole Yanqui by 11:00 am, today.**

5. **Doc Day Supporting Material**

- EAs, another friendly reminder to please send your supporting Doc material to me no later than **1:00pm, today.**
- I am preparing a binder of supporting materials that will be tabled at TB/MBC

on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.

- Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.

- Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).

- If you are unsure as to what material should be included please let me know.

If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #29 | April 20, 2017

Good evening everyone,
We are officially one week away from the release date! A few details for tomorrow and the upcoming week are below:

1. **ADM Sign-off: Communications Products: Friday April 21st (9:30AM –**

11:30AM)

- Sign-off will take place in the Trillium boardroom, 7th floor Frost North.
- Revised communications products will be on distribution this evening.
- Products to be reviewed at sign-off are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.
- ADM's will review the communication products on screen, and only contentious sections will remain in tracked changes.

2. Budget Lockup

- Lock up planning is well underway. As part of Lock up, we would like to identify staff that need to attend and be on call.
- Attached is a memo was sent out from the ADM of the office of the budget to all ADMs in MOF & TBS asking divisions to help identify policy experts that will help respond to media and stakeholders' inquiries at Lockup.
- **EAs, please fill out the attached spreadsheet, identifying directors and managers who will be available to answer questions and provide support on Document Day.**
    - **The following key topics have been identified for the Media Room Lock Up:** the Province's fiscal plan (including debt/borrowing), economic outlook, health care, education and training, infrastructure, housing affordability, tax measures, and business and other sector support initiatives.
    - Please identify staff that would be available for Media Lock up and those that will be available for stakeholder questions. Please remember to indicate who will be "On Call" or "in Attendance" at lock up.
- Our Deputy's Office will be in touch with line ministries to identify staff that would be on call for Lockup.
- **Please provide names to Nicole Yanqui by EOD Monday April 24.**
- Logistics Materials to further support Document Day are under development, and will be circulated once available.

3. Briefing Books

- The briefing book binders will consist of the following mandatory content:

- Briefing Notes (BNs) & Technical Qs & As: Please work with your division and any others that may be impacted.

- Briefing Notes and Qs & As are to be produced at the discretion of divisions. BNs are not required for every initiative in the Document, divisions are asked to use best judgement to determine which initiatives/sections require notes and Qs & As.

- Media Qs & As: These are currently under development by CSB and will go on distribution tomorrow evening. All media Qs&As are to be ADM approved.

- Divisions are asked to have their briefing book coordinators submit BNs and Technical Qs & As by **EOD Friday April 21** in the iDoc drive.

4. **Doc Day Supporting Material**

- EAs, a friendly reminder to please send your supporting Doc material to me no later than **EOD Monday April 24.**

- As a reminder, this is to support TB/MBC on Document Day. I will be preparing a binder of supporting materials that will be tabled at TB/MBC on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.

    - Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.

- Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).

- If you are unsure as to what material should be included please let me know.

Key Upcoming Dates:
April 21: ADM Sign-off on Communication Products
April 21: BNs and Qs & As due
April 24: DM/MO Sign-off on Communication Products (TBD)
April 24: Doc Day Supporting Material Due
April 27: Document Day
If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #28 | April 19, 2017

Good afternoon everyone,

I wanted to thank you for your continued flexibility during this process! We are in the home stretch! A few details for the next few days are below:

1. **Statement**

   - The Minister's Statement was put on distribution last night.
   - **EA's, please coordinate a review of the Statement and provide ADM-approved hard-copy edits to myself and Alana by EOD today.**

2. **Director Sign-off: Communications Products: Happening Now! (10:00AM – 12:00PM)**

   - Sign-off is currently taking place in the CSB boardroom, 3rd floor Frost North. Directors are asked to drop-in at their convenience if they haven't done so already.
   - Products being reviewed are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.

3. **ADM Sign-off: Communications Products: Friday April 21st (9:30AM – 11:30PM)**

   - Sign-off will take place in the Trillium boardroom, 7th floor Frost North.

- Products to be reviewed are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.

- ADM's will review the communication products on screen, and only contentious sections will remain in tracked changes.

4. **Doc Day Supporting Material**
   - EAs, please remember to send your supporting Doc material to me no later than **EOD Monday April 24.**
   - As a reminder, this is to support TB/MBC on Document Day. I will be preparing a binder of supporting materials that will be tabled at TB/MBC on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.
     - Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.
   - Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).
   - If you are unsure as to what material should be included please let me know.
5. **Briefing Books**
   - The briefing book binders will consist of the following mandatory content:
     - Briefing Notes (BNs) & Technical Qs & As: Templates have been attached. Please work with your division and any others that may be impacted.
     - Briefing Notes and Qs & As are to be produced at the discretion of divisions. BNs are not required for every initiative in the Document, divisions are asked to use best judgement to determine which initiatives/sections require notes and Qs & As.
     - Media Qs & As: These are currently under development by CSB and will be circulated to divisions for review. All media Qs&As are to be ADM approved.
     - Divisions are asked to submit their BNs and Technical Qs & As by **EOD Friday April 21.**
     - Melissa Ouzas and Pauline Padmore will be reaching out to your Briefing Book Coordinators with more details.

Key Upcoming Dates:
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM/MO Sign-off on Communication Products (TBD)
April 24: Doc Day Material Due
If you have any questions, please feel free to contact myself or Alana Rowe.

Subject: DPAC Update #27 | Communications Products | April 18, 2017

Good afternoon everyone,

We've completed sign-off on the papers. The final papers have been distributed electronically. It's now time to turn our attention to the communication products.

1. **Director Sign-off: Communications Products: April 19th (10:00AM – 12:00PM)**

   - Communication products are being updated for distribution this evening. Any edits to these products should be walked into director sign-off.
   - Sign-off will take place in the CSB boardroom, 3rd floor Frost North.
   - Products to be reviewed are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.
   - ADM sign-off on the communication products will take place on Friday (April 21st) in the Trillium Boardroom.

2. **Statement**

   - The Statement is still under development and will be put on distribution in the near future. There will be a short turnaround for comments, so please stay tuned for this.

3. **Doc Day Supporting Material**

   - To support TB/MBC on Document Day, I will be preparing a binder of

supporting materials that will be tabled at TB/MBC on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.
    - Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.
- Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).
- EAs, please send your supporting Doc material to me no later than **EOD Monday April 24.**

4. **Briefing Books**
    - Instructions on briefing book binder material are forthcoming.

Key Upcoming Dates:
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM/MO Sign-off on Communication Products (TBD)
April 24: Doc Day Material Due
If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #26 | DM/MO Sign-Off | April 12, 2017

Good morning everyone,
Today is the first day of DM/MO sign-off. Sessions will be taking place in the Trillium Boardroom. The schedule is as follows:

- April 12 (10:00AM – 11:15AM): Chapters 1,5,6A,6B, 6C
- April 12 (2:30PM – 4:30PM): Chapters 3, 4B, 4C, 4D
- April 13 (3:00PM – 5:00PM): Chapters 2, 4A, 7, Foreword, Post Cards

These sessions will be kept to a small room. ADMs are asked to be on call, should their assistance be required. I will be in touch with EAs throughout the day as we go through sign-offs.

Loose Ends

Thanks for everyone's quick work in addressing Premier, PO and SoC comments yesterday. Attached is our latest list of loose ends. Should you have any further updates, please feel free to send to Alana and myself.

Subject: DPAC Update #25 | SoC Edits | April 11, 2017

Hi everyone,

Thanks to those of you that have already responded to our loose ends request. We've received edits from the SoC as well. We'd like to have responses to as many comments as possible. We've updated our Loose Ends tracker with SoC edits (see attached).

EAs, please take another look and provide edits to me (cc'ing Alana) by end of day today. This tracker will be used to support DM/MO sign-off tomorrow.

Thanks,
Ron

Subject: DPAC Update #24 | Premier Edits & Loose Ends | April 11, 2017

Good morning everyone,

We received Premier edits to the papers. These edits are reflected in the attached loose ends tracker highlighted in yellow along with any items that are still outstanding.

Premier Edits & Loose Ends

- EA's, please review these comments/edits (highlighted in yellow) with your Divisions and provide a response in the loose ends tracker and any proposed ADM-approved hardcopy edits if required. These are due **at 4:00 pm today.**
- These edits will be entered in tracked changes and will be considered by the DM and MO at sign-off tomorrow.

DMO/MO Sign-off- April 12th & 13th

- DM/MO sign-off will take place in the Trillium Boardroom (7th Floor, Frost South).
- Attendance for this meeting will be limited. Required attendees will be notified directly.
- ADMs may be required to be on call during sign-off should any questions arise it would be appreciated.
    - Alana and myself will be connecting with DPCs and EAs throughout the

day for any final fact-checks or loose ends.

Communications Products

- Communications products were on distribution on Friday.
- EAs are asked to coordinate edits amongst their divisions and provide feedback to Communications Advisors **by April 12, at noon.**

Key Upcoming Dates:
April 12-13: DM/MO Sign-off
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM Sign-off on Communication Products
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #23 | Loose Ends & Post ADM Sign-Off Review | April 10, 2017

Good morning everyone,

I hope you had a great weekend. Thank you for all of your hard work completing ADM sign-off last week as well as your continued flexibility throughout the process. ADM sign-off was a big milestone as we begin to wrap up the sign-off process.

Further details on the week ahead:

Loose Ends

- **There are still a number of placeholders throughout the Document.**

EAs, please review the attached and work with your divisions to address all loose ends identified.

Please provide your **ADM-approved edits** clearly identifying changes to Alana and myself no later than **3:00 today.** There will be a distribution tonight.

We are only accepting edits to placeholders and significant factual error. All other proposed edits will be considered at DM/MO sign-off.

Premier and PO Edits

We are still waiting on edits from the Premier and Senior PO. They are expected to be received tomorrow morning.

- We will be in contact with the affected divisions once these edits are received.

DMO/MO Sign-off- April 12th & 13th

- DM/MO sign-off will take place in the Trillium Boardroom (7th Floor, Frost South).
- Attendance for this meeting will be limited. Required attendees will be notified directly.
- ADMs may be required to be on call during sign-off should any questions arise it would be appreciated.
    - Alana and myself will be connecting with DPCs and EAs throughout the day for any final fact-checks or loose ends.

Communications Products

Communications products were on distribution on Friday.

EAs are asked to coordinate edits amongst their divisions and provide feedback to Communications Advisors by **April 12, noon.**

Key Upcoming Dates:
April 12-13: DM/MO Sign-off
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM Sign-off on Communication Products
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #22 | ADM Sign Off (Day 2) | April 6, 2017

Hi everyone,
Today is the second day of ADM Sign-off. The following chapters will be reviewed by ADM's in the Trillium Boardroom (7th Floor, Frost South) today:

- Chapters 2, 4A, 6B, 6C, 7, Foreword & Postcards.

ADM Sign-Off Process

- Chapters will be displayed on a screen and as the edits are being discussed by ADMs, the changes will be made in real time.
- **Lead DPCs will be asked to input the edits for their chapter during sign-off.**

Sign-Off Loose Ends

- I will continue to reach out to EAs on loose ends. **We would like to have as many of these resolved today.**

- **EAs, any edits to the papers at this stage must be ADM-approved** and should be brought to Alana and/or myself.

Foreword

- A reminder that the foreword will also be signed off today.
- **EAs, if you haven't already, please coordinate hand written edits amongst your divisions and provide them to Alana or myself.**

Premier Review

- **The Premier and Senior PO will receive a copy of the papers this Friday** and will be reviewing over the weekend.
- Edits will be reviewed on Monday and will be incorporated through DM/MO sign-offs.
- If there are follow ups required, I'll contact divisions directly.

Key Upcoming Dates:

April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM Sign-off on Communication Products

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #21 | ADM Sign Off (Day 1) | April 5, 2017

Hi everyone,

Today is the first day of ADM Sign-off. The following chapters will be reviewed by ADM's in the Trillium Boardroom (7th Floor, Frost South) today:

- Chapters 1, 3, 4B, 4C, 4D ,5 & 6A

ADM Sign-Off Process

- Chapters will be displayed on a screen and as the edits are being discussed by ADMs, the changes will be made in real time.
- **Lead DPCs will be asked to input the edits for their chapter in real time during sign-off.**

DPCs, A few notes on process and tips to help you along the way:

- You'll be seated at the table with ADMs as they go through your chapter. You'll be asked to scroll through the pages and accepting/rejecting any track change edits on screen.
    - You will sit through the sign-off on the entire chapter. Even if there are multiple contributing DPCs, we will not be switching DPCs halfway through the chapters.
- As ADMs discuss, you'll be asked to transcribe the edits in real time. Alana and I will act as extra sets of eyes and ears to make sure you get everything inputted correctly.
- Some of you may already be aware of changes that need to be made at sign-off today.
    - It is recommended that you save those changes/paragraphs on a USB stick (pw-protected) so you can copy and paste edits rather than typing them all out. This will help speed up the process.
- After sign-off, you'll be asked to go down to BudSec to do one final check to make sure everything was correctly inputted.
- You'll then be required to obtain your ADMs signature. **They should initial each page and sign the front cover.**
    - **Note: If they have additional edits, they must initial beside the edit.**
- We ask that you kindly remind your ADM that they'll need to stick around at Frost to sign-off.

Foreword

- A copy of the Foreword was put on distribution last night.
- **EAs, please coordinate hand written edits amongst your divisions. You are welcome to provide hand written edits to the Foreword to me by end of day today.**

Sign-Off Loose Ends

- During sign-offs, I will be reaching out to EAs if any follow-ups are required.

Communications Products

- EAs are asked to consolidate edits to Comms products on behalf of their divisions and relay them to the appropriate Communications Services Branch (CSB) Lead by **end of day today.** A list of Comms advisors can be found in the Production Contact List sent out on electronic distribution.

Key Upcoming Dates:

April 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #20 | Line Ministry Sign Off | April 4, 2017

Good morning everyone,
Thank you for your continued support and hard work rolling in MO edits yesterday. As you know, line ministry sign off is scheduled for today from 10:00AM – 2:00PM. A few updates and reminders:

1. DPCs, please review excerpts that have been pulled for line ministry review at BudSec between **8:00 AM and 9:30 AM. There will not be an opportunity to do this later in the day.**
    - A revised schedule for line-ministry sign-off is attached.
    - Line Ministry staff must sign the attached Oath of Confidentiality (DMs do not need to sign).
    - After sign-off, policy staff may photocopy any LMs' edits but must return the originals to BudSec.

- Line ministry edits will be inputted in tracked changes by BudSec.
- ADMs will have the opportunity to accept/reject these proposed edits during ADM sign-off. (April 5th & 6th).

2. **Document References-** The MO has provided us with a list of Document initiatives (see attached). Divisions are asked to draft short narratives for inclusion in the yellows. Please send drafts in password protected documents to me, cc'ing Alana **by 5PM today.** These will be rolled into the yellows in tracked changes in advance of ADM sign-off. If you are unsure of placement in the yellows please let me know.
3. **ADM Sign-Off-** A heads up that the schedule for ADM sign-off may be shifting to accommodate competing priorities. As always, we appreciate your continued flexibility throughout the document process.

Key Upcoming Dates:
April 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #19 | MO Feedback | April 3, 2017

Good morning everyone,

Thank you for all of your hard work completing Branch Review and Director sign-off last week. A few updates and reminders for today:

1. Our Minister's Office has reviewed the director sign-off version on the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback". Staff are being asked to review and roll in these edits in advance of line ministry sign-off tomorrow. The papers will then go on distribution this evening for line ministries to review.
2. **Revised drafts of your papers are due to BudSec at 4PM today.**
    - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
    - After today's distribution, DPCs edit rights will be removed. Any edits after today must be brought to EAs and be raised at ADM sign-off.
    - We will be reaching out to individuals with additional MO comments throughout the day.
3. **MO edits must be reviewed and incorporated into the papers.** A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 5PM on Monday April 3.**
4. **Line Ministry Sign-off- Tuesday April 4th**
    - All DPCs must review their excerpts that have been pulled for line ministry review at BudSec between **8:00 AM and 9:30 AM.** There will not be an opportunity to do this later in the day.
    - The schedule for line-ministry sign-off is attached. A reminder to staff to please send the names of policy staff that will be attending line ministry sign-off to Pauline Padmore.
    - It is recommended that Lead ADMs be presenting during line ministry sign-off. ADMs will be asked to bring any documentation needed to support sign off.
    - Line Ministry staff must sign the attached Oath of Confidentiality (DMs do not need to sign).
    - After sign-off, policy staff may photocopy any LMs' edits but must return the originals to BudSec.
    - Line ministry edits will be inputted in tracked changes by BudSec and ADM's will have the opportunity to accept or reject these proposed edits during ADM sign-off. (April 5th & 6th).
5. **Communication Products**
    - Communication products were distributed on Friday evening.

- DPCs are asked to work closely with their CSB leads to confirm that the revisions made to the papers during Director sign-off and Line-ministry sign-off are reflected in the comms products to ensure alignment with the narrative.

- EAs are asked to consolidate edits to Comms products on behalf of their divisions and relay them to the appropriate Communications Services Branch (CSB) Lead by **end of day Wednesday April 5.** A list of Comms advisors can be found in the Production Contact List sent out on electronic distribution.

Key Upcoming Dates:
April 3: MO Feedback
April 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #18 | Director Sign-Off | March 31, 2017

Good morning everyone,

Thank you for all of your hard work completing Branch Review yesterday. As you're aware, it's day two of sign-offs, with director sign-off taking place today. A few updates and reminders for today:

1. We received some edits late last night to several photos and captions. Please note in some cases the photos and captions have changed at the request of the MO. Please review and have your director sign-off.
2. A heads up that we may receive initial comments from PO today. I will connect with the appropriate divisions if any edits are received.
3. Attached is a **schedule for director sign-off**. Please continue to email Pauline Padmore if there is a change in location or time for your sign-off.
4. Also attached is a **schedule for line ministry sign-off**. **EA's, please send the name of staff that will attend for each ministry's sign-off to Pauline Padmore.**
5. A reminder that DPCs will need to clearly identify which sections of the papers are to be pulled for line ministry sign-off on the director-approved papers (*detailed instructions below*).
6. ADM sign-off invites were sent out yesterday. If you did not receive an invite or are unsure if you need to attend, please feel free to contact me.

First Distribution of Communication Products – Friday March 31

- Communication products will be on distribution today.
- DPCs are asked to work closely with their CSB leads to confirm that the revisions made to the papers during Director sign-off are reflected in the comms products to ensure alignment.
- Please contact your respective CSB Lead if you have any further questions identified in the Document Distribution Contact List.

<u>Director Sign-off Instructions</u>

1. DPCs are to pick up their sign-off binder shell from BudSec on the morning of Director Sign-off.
    - Verify that the sign-in sheet is included.
    - Print the sign-off checklist at the end of the sign-off instructions (attached).
    - DPCs must print their own chapter and insert single-sided in their binder.
        - MO edits must be reviewed and incorporated into the papers. A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
        - **Completed Feedback Trackers are due to me, cc'ing Alana by 5PM today.**
2. When staff arrive, have them fill out the sign-in sheet with their printed name, telephone number and initials.
3. Staff will be responsible for reviewing and initialing content indicating their approval. **There should be initials on every line/sentence/number/chart/table/photo/caption in every paper.**
    - Postcards are to be signed-off today**.**
4. If staff makes an edit, he/she must wait until all staff have inputted their edits in

that chapter before it can be reprinted. All changes must be marked on the master copy of the Document.

5. Once all staff have reviewed and approved their sections, DPCs are required to incorporate all edits by staff and print a clean copy of their chapter.
6. The lead DPC's director will be responsible for reviewing edits and ensuring that all edits have been captured.
   - **The director-approved copy will need to clearly identify which sections of the papers are to be pulled for line ministry sign-off.**
7. Hardcopies with staff signatures are to be **delivered to BudSec at 4:00pm today.**
8. When your sign-off is complete, DPCs please remember to place your paper in the iDoc and let your BudSec coordinator know that your paper is ready for pick up. It is the same process as other paper submissions.

Key Upcoming Dates:
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #17 | Branch Review | March 30, 2017

Good morning everyone,

We've made significant progress on the papers and are now beginning the next phase of the process, sign-offs.

Branch Review/Staff sign marks the beginning of the sign-off process.

- The schedule for each chapter's sign-off is attached.
- If there are any last minute changes please let Pauline Padmore know to ensure the schedule is kept up-to-date.

Branch Review Instructions

1. DPCs are to pick up their sign-off binder shell from BudSec on the morning of Branch Review
    - Verify that the sign-in sheet is included.
    - Print the sign-off checklist at the end of the sign-off instructions (attached).
    - DPCs must print their own chapter that incorporates MO and additional staff edits single-sided and insert in their binder.
        - MO edits must be reviewed and incorporated into the papers. A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
        - **Completed Feedback Trackers are due to me, cc'ing Alana by 5PM on Friday March 31.**
2. When staff arrive, have them fill out the sign-in sheet with their printed name, telephone number and initials.
3. Staff will be responsible for reviewing and initialing content indicating their approval. **There should be initials on every line/sentence/number/chart/table/photo/caption in every paper.**
    - Postcards were also put on distribution. They must also be signed-off today.
4. If an employee makes an edit, he/she must wait until all staff have inputted their edits in that chapter before it can be reprinted. All changes must be marked on the master copy of the Document.
5. Once all staff have reviewed and approved their sections, DPCs are required to incorporate all edits by staff and print a clean copy of their chapter.
6. The lead DPC's manager will be responsible for reviewing edits and ensuring that all edits have been captured.
7. Hardcopies with staff signatures are to be **delivered to BudSec at 4:00pm today.**

Other Updates

- Line Ministry Sign-off: All line ministries are have been invited to sign-off on April 4. See attached email for details.
- ADM Sign-off: Outlook invites will be sent out later today
- Further instructions for Director and Line-Ministry sign-off will follow in the

coming days.

Key Upcoming Dates:

Mar. 30: Branch Review
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #16 | MO Feedback on Sixth Distribution | March 28, 2017

Good morning everyone,

Our Minister's Office has reviewed the sixth distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- The MO has advised that several previously removed sections are making their way back into the narrative. Please be mindful of this. If a section has been removed multiple times by the MO - it should **not** be reinserted into the papers.
- **EAs, we have attached an updated version of the Outstanding Approvals**

Tracker reflecting the latest distribution. Please review and provide us with comments. This will help determine the remaining narrative loose ends and identify areas we need to follow up.

- As we approach sign-off, initiatives in the yellows that have already received approval should have square brackets removed. Please review these placeholders and ensure that the correct labels are being applied to the pending text.

- **Technical and Other Amendments** - This section should on its own page. All items currently tracking for inclusion in the Spring Bill should reference the proposed amendment. If Spring Bill initiatives don't fit the narrative, they should be moved to the Other Amendments section and shortened to 1-2 sentences.
- I have a few more specific comments and edits but will be reaching out to those DPCs individually throughout the day today.

PROCESS

1. A reminder that MO and additional staff edits must be rolled in before Branch Review. This is to ensure that a clean as possible version is available for sign-off. The papers will be distributed that evening once all chapters have been signed off (*see attached Sign-Off instructions for details*).
   - DPCs – please remember to send your sign-off locations/times to Pauline Padmore using the attached Boardroom templates.
2. MO edits must be reviewed and incorporated into the papers. **A reminder that If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker MUST be filled out providing clear rationale** for not including the MO's edits.
   - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
   - **Completed Feedback Trackers are due to me by 5PM on Thursday March 30.**
   - Please let me know if you will sending your tracker late
3. **Post Cards -** These were also put on distribution last Friday. Postcards will need to be signed-off along with the papers.

Key Upcoming Dates:

Mar. 28: Final Instructions for Spring Bill items due
Mar. 30: Branch Review
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #15 | Revised Timelines | March 27, 2017

Hi everyone,

I wanted to provide you with an update to the production schedule as there have been a few revisions. Updated calendars were distributed on Friday evening.

1. **Sign-Off Date Changes**
   - Branch Review and Director sign-off dates have shifted by one day (March 30th and 31st respectively).
   - Line-Ministry sign-off has moved to the following week (April 4). A Deputy memo will be sent out inviting line ministries. Once this goes out, I will let everyone know.
2. **MO Feedback on 6th Distribution – Tuesday March 28th**
   - We still expect edits from the MO on Tuesday morning as previously communicated.
   - Tracked changes versions will be available to DPC's in the iDoc around **10:00am.**
   - MO edits will need to be incorporated as part of Branch Review.
   - As always, please wait for the email from myself to advise that the files are ready for pick up.
3. **Sign-off Instructions are attached**
   - DPC's, please review in advance of sign-off training which is scheduled for this afternoon**.**
   - Using the attached templates, if you could please let **Pauline Padmore** know where your Branch Review and Director-sign off will take place by **EOD Tuesday March 28th.**

Key Upcoming Dates:

th

Mar. 28: MO feedback on the 6 Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 30: Branch Review
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #14 | Sixth Distribution | March 24, 2017

Good morning everyone,
Today is the sixth distribution of papers, the last before we begin the sign-off process.

PROCESS

1. **The sixth draft of your papers are due to BudSec at NOON today.**
    - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
2. **MO edits must be reviewed and incorporated into the papers.** A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not

including the MO's edits.

- The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
- **Completed Feedback Trackers are due to me by 3PM on Friday March 24.**
- Please let me know if you will sending your tracker late

3. A friendly reminder to please identify chapter contributors throughout each section of the papers.
   - Each subsection should have a contributing author identified using square brackets.
4. In order to comply with **Accessibility for Ontario's with Disabilities Act,** we must include "Alt Text" for all images, charts and graphs. **Accessibility Text** must be included on the last page(s) of your chapters for Branch Review. A template has been attached.

   - When creating your description(s) consider the following:

     - Why is this chart/image/table here?
     - What information is it presenting?
     - What purpose does it fulfil?
     - If I could not use the non-text content, what words would I use to convey the same function and/or information

TIMELINES

5. **The Minister's Office will provide feedback on the sixth distribution on March 28.**
   - The edits will be provided in track changes and will be made available in the iDoc drive.
   - I will notify divisions when the edits become available.

Key Upcoming Dates:

Mar. 24: Sixth draft of papers due to BudSec at NOON for the sixth Distribution
Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 29: Branch Review
Mar. 30: Director Sign-off
Mar. 31: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #13 | MO Feedback on Fifth Distribution | March 22, 2017

Good morning everyone,

Our Minister's Office has reviewed the fifth distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- **What We Have Been Doing Since 2013**- You will notice in a few chapters that the "Achievements" sections have been revised and cut down. Moving forward, these sections will be on their own page and will include visuals. BudSec will work with the various DPCs to revise these sections for the next turn.
- A reminder to DPCs and contributing all initiatives that do not have the appropriate approvals in place must be **identified** (i.e., items that require LRC, TB/MBC or Cabinet approval must be square bracketed). Staff are required to indicate where the initiative is tracking and what date using square brackets. This must be inputted into the papers. Square-bracketed items are being rolled up for review. We will communicate next steps once the list has been reviewed.
- Items currently tracking for inclusion in the Spring Bill must be referenced in the Document. If the item does not fit the narrative of a particular chapter, it should

be moved to the Technical Amendments section in the Tax Chapter (Chp. 7). (*See the 2015 Budget*[fin.gov.on.ca] *(pg. 343) and 2016 Budget*[fin.gov.on.ca] *(pg. 338) for examples).*

- Please continue to identify chapter contributors throughout each section of the papers.
    - Each subsection should have a contributing author identified using square brackets.

- I have a few more specific comments in terms of narrative but will be reaching out to those DPCs individually throughout the day today.

PROCESS

1. MO edits must be reviewed and incorporated into the papers. **A reminder that If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker MUST be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 24.**
    - Please let me know if you will sending your tracker late

TIMELINES

2. **As you may know, sign-offs are scheduled to take place next week.**
    - Detailed instructions will be circulated later this week.
    - DPCs you should have received a meeting invite for training from Melissa Ouzas. If you did not receive this invite please let her know.
    - Branch Review will take place the following week on **Wednesday March 29th.**
3. The MO will be providing feedback on the sixth distribution on Tuesday March 28

Key Upcoming Dates:

Mar. 24: Sixth draft of papers due to BudSec at NOON for the sixth Distribution
Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 29: Branch Review
Mar. 30: Director Sign-off
Mar. 31: Line Ministry Sign-off
April 4: Final Spring Bill draft due

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #11 | MO Feedback on Fourth Distribution | March 15, 2017

Good morning everyone,
Thank you for your patience. Our Minister's Office has completed reviewing the fourth distribution of the papers. The edits have been saved in their respective section folders on the iDoc drive in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- A reminder to DPCs and contributing authors that all initiatives that do not have the appropriate approvals in place must be **identified** (i.e., items that require LRC, TB/MBC or Cabinet approval must be square bracketed). Staff are required to indicate where the initiative is tracking and what date using square brackets. This must be inputted into the papers.
- Items currently tracking for inclusion in the Spring Bill must be referenced in the Document. If the item does not fit the narrative of a particular chapter, it should be moved to the Technical Amendments section in the Tax Chapter (Chp. 7). (*See the 2015 Budget*[fin.gov.on.ca] *(pg. 343) and 2016 Budget*[fin.gov.on.ca] *(pg. 338) for examples).*
- The papers are being reviewed by proofreaders as well as the MO. Please ensure to incorporate as many proof-reader edits where applicable**.** The edits are labelled (*MOF8*).
- Comms advisors may be in touch with DPCs to include placeholder language on Budget Talks initiatives in this turn of the papers. These should be included in the papers as break out boxes.
- Please identify chapter contributors throughout each section of the papers.
    - Each subsection should have a contributing author identified using square brackets.

PROCESS

1. EA's a friendly reminder that the **Outstanding Approvals Tracker is due EOD today.** If there are difficulties connecting with lead authors or If you anticipate missing this deadline please let me know.
2. MO edits must be reviewed and incorporated into the papers. **It has been brought to our attention that edits are not being accepted and rational is not being provided by divisions. A reminder that If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker MUST be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 17.**
    - Please let me know if you will sending your tracker late

TIMELINES

3. **As you may know, the timelines for sign-off have shifted one week later.**
    - MO will provide edits on the 5th distribution on **Wednesday March 22nd.** These edits will be made available in the iDoc drive.
    - Branch Review will take place the following week on **Wednesday March 29th.**

Key Upcoming Dates:

March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution

Mar. 22: MO Feedback on the 5 Distribution
Mar. 24: Sixth draft of papers due to BudSec at NOON for the sixth Distribution
Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 29: Branch Review
Mar. 30: Director Sign-off
Mar. 31: Line Ministry Sign-off
April 4: Final Spring Bill draft due
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Cc: Chaput, Brandon (MOF); McLean, David (MOF); Pearce, Christopher (MOF); Young, Gwendolynne (MOF); Clarke-Darshanand, Jamille (MOF); Kim, Minzi (MOF); MacIntyre, Kyle (TBS); Simone, Nicole (TBS); Nelson, Dane (TBS); @FIN-L-O-OB-All; @FIN-L-O-BudSec Production Team
Subject: DPAC Update #9 | MO Feedback on Third Distribution | March 8, 2017

Good morning everyone,

Our Minister's Office has reviewed the third distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- All subtitles throughout the Document, should contain a verb describing the action being taken with each initiative. (i.e., Strengthening, Modernizing, Expanding, Implementing, etc.)
- Rename "*Commitments Since 2013*" sections to "*Achievements Since 2013*".
- DPCs and contributing authors must identify all initiatives that do not have the appropriate approvals in place (i.e., items that require LRC, TB/MBC or Cabinet approval must be square bracketed). Staff are required to indicate where the initiative is tracking and what date using square brackets. This must be inputted into the papers.

PROCESS

1. A reminder that l**ead DPC's should be reaching out to key contributors to relay MO edits** or any other key information related to the chapter.
    - If you have any questions about the required edits, please send me an email and I can follow up with our Minister's Office.
2. **MO edits must be reviewed and incorporated into the papers**. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 10.**

TIMELINES

3. The fourth distribution is this Friday. **Revised papers are due to Budget Secretariat at 12PM on Friday March 10.**

Key Upcoming Dates:

March 8: MO Feedback on the 3rd Distribution
March 10: Fourth draft of papers due to BudSec at NOON for the fourth Distribution
March 15: MO Feedback on the 4th Distribution
March 15: Initial Spring Bill instructions

March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution
March 21: MO Feedback on the 5th Distribution
March 22: Branch Review
March 23: Director Sign-off
March 24: Line Ministry Sign-Off
March 28: Final Spring Bill Instructions due

Subject: DPAC Update #8 | Revised Timelines | March 3, 2017

Hi everyone,

Thank you for submitting your papers for this evening's distribution. As promised, I wanted to provide you with an update to the production schedule.

1. **Tentative Release Date Change**
   - The tentative release date has been revised. New calendars will be put on distribution today that provide details of the changes.
   - Two additional distributions have been added to the schedule (March 10th and March 17th).
   - A reminder that the release date is confidential and should not be shared with anyone outside of MOF/TBS.
2. **MO Feedback on 3rd Distribution – Wednesday March 8**
   - As a result of the date change, we expect edits from the MO on Wednesday morning (not Tuesday as mentioned earlier today).
   - Tracked changes versions will be available to DPC's in the iDoc around **10:00am.**
   - As always, please wait for the email from myself to advise that the files are ready for pick up.
3. **Distribution #4 – Friday March 10**
   - Papers are to be submitted to BudSec on **Friday March 10 at 12:00pm**.

Key Upcoming Dates:

March 3: Third Distribution of the papers

March 8: MO Feedback on the 3rd Distribution
March 10: Fourth draft of papers due to BudSec at NOON for the fourth Distribution
March 15: MO Feedback on the 4th Distribution
March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution
March 21: MO Feedback on the 5th Distribution
March 22: Branch Review
March 23: Director Sign-off
Thanks for your ongoing flexibility during the process. If you have any questions, please feel free to contact Alana or myself.
Have a great weekend!
Ron

Subject: DPAC Update #7 | Third Distribution | March 3, 2017

Good morning everyone,
Today is the third distribution of papers.

PROCESS

1. **The third draft of your papers are due to BudSec at NOON today.**
   - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
2. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.

- The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
- **Completed Feedback Trackers are due to me by 3PM on Friday March 3.**

TIMELINES

3. **The document production timelines are currently being reviewed**. An update will be provided later this evening once available.
4. **Under the current timelines, the Minister's Office will provide feedback on the third distribution on March 7.**
   - The edits will be provided in track changes and will be made available in the iDoc drive.
   - I will notify divisions when the edits become available.

Key Upcoming Dates:

March 3: Third draft of papers due to BudSec at NOON for the third Distribution
March 7: MO Feedback on the 3rd Distribution (TBD)
March 7: Branch Review (TBD)
March 8: Director Sign-Off (TBD)
March 9: Line-Ministry Sign-off (TBD)

If you have any questions, please feel free to contact myself or Alana Rowe.

Thanks,
Ron

Subject: DPAC Update #6 | Second Distribution | March 1, 2017

Good morning everyone,
Our Minister's Office has reviewed the second distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- Items currently tracking for inclusion in the Spring Bill must be referenced in the Document. If the item does not fit the narrative of a particular chapter, it should be moved to the Technical Amendments section in the Tax Chapter (Chp. 7). (*See the 2015 Budget*[fin.gov.on.ca] *(pg. 343) and 2016 Budget*[fin.gov.on.ca] *(pg. 338) for examples).*
- The content in the **Commitments since 2013** text boxes should be presented in the form of infographics, similar to the 2016 FES brochures. Text boxes should no longer be used. (*See the following links for examples*: Education[fin.gov.on.ca], Health Care[fin.gov.on.ca], Jobs[fin.gov.on.ca])
- In the yellows, you may see comments that say "To be discussed at weeklies". The MO would like to discuss these items further at their weekly meetings with divisions. If you require further information or context, I'm happy to follow up with the MO.

PROCESS

1. A reminder that l**ead DPC's should be reaching out to key contributors to relay MO edits** or any other key information related to the chapter.
    - If you have any questions about the required edits, please send me an email and I can follow up with our Minister's Office.
2. **MO edits must be reviewed and incorporated into the papers**. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 3.**
3. Our Deputy has reached out to line ministries regarding Document security. Please see attached memo and protocols. You may reach out to LMs as required. Please remember that your ADM should be aware of any line ministry outreach.

TIMELINES

4. The third distribution is this Friday. **Revised papers are due to Budget Secretariat at 12PM on Friday March 3.**
5. The current production schedule is under review. We will provide updates later this week of any changes to the current timelines.

Key Upcoming Dates:

March 3: Third draft of papers due to BudSec at NOON for third Distribution

March 6: MO Feedback on the 3rd Distribution

March 7: Branch Review (TBD)
March 8: Director Sign-Off (TBD)
March 9: Line-Ministry Sign-off (TBD)
If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #5 | Second Distribution | February 24, 2017

Good morning everyone,
Happy Friday! Today is the second distribution of papers.

PROCESS

1. **The second draft of your papers are due to BudSec at NOON today.**
   - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
   - If you have any technical or timing issues with submitting, please contact your BudSec paper coordinator.
   - The papers will be distributed this evening.
2. **A reminder to contributing authors to work with lead DPCs to ensure your content is inserted in the correct chapter.**
   - The revised contact list has been attached if you are unsure who you should be connecting with.
3. **Alana and I connected with impacted DPCs yesterday in regards to chapter title changes.** Please ensure that these changes are reflected in this

turn of the papers it would be appreciated. If you need a reminder please get in touch with us.

4. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday February 24.**
5. **The Minister's Office will provide feedback on the second distribution on March 1.**
    - The edits will be provided in track changes and will be made available in the iDoc drive.
    - I will notify divisions when the edits become available.

Key Upcoming Dates:

February 24: Second draft of papers due to BudSec at NOON for Second Distribution
February 24: MO Feedback Tracker due at 3PM
March 1: MO Feedback on the 2nd Distribution
March 3: Third draft of papers due to BudSec at NOON for third Distribution
March 6: MO Feedback on the 3rd Distribution
March 7: Branch Review

If you have any questions, please feel free to contact myself or Alana Rowe.

Subject: DPAC Update #4 | MO Feedback on First Distribution | February 22, 2017

Good morning everyone,

Our Minister's Office has reviewed the first distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Edits".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

1. Overall, our Minister's Office was pleased with the first draft of the papers. A few comments for the second distribution:
    a. All chapters should be written using the following structure:

        Introduction
        - This should be a summary of the chapter and no more than 2pages
        - It should summarize the types of commitments the chapter will cover
        - Include value statements (i.e., Why this section/topic is important? What outcome is the government is trying to achieve?)

        Highlights since 2013
        - This should be in the form of a text box/call-out box on a separate page following the introduction
        - Highlights/accomplishments should be written in succinct bullet points
        - The page can include pictures, graphics, icons or other visuals.

        Initiatives
        - When describing individual initiatives, the narrative should follow our lens and answer the following:
            - What is the government's commitment?
            - Why it's important?
            - What outcomes is the government trying to achieve? What are the key performance indicators?

    b. When referencing investments, please be specific about where/what region in Ontario the investments are taking place.
    c. Some MO comments in the papers say "Suggested KMs" – these Key Messages are meant to be a guide and not copied word-for-word into the narrative.

PROCESS

2. A reminder that l**ead DPC's should be reaching out to key contributors to relay MO edits** or any other key information related to the chapter.
    - If you have any questions about the required edits, please send me an email and I can follow up with our Minister's Office.
3. **MO edits must be reviewed and incorporated into the papers**. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and

considerations to the MO regarding their edits.

- **Completed Feedback Trackers are due to me by 3PM on Friday February 24.**

4. EAs, please remember to set up weekly meetings with your teams and MO advisors to discuss Document narratives and feedback.
    - MO Advisors are listed in the table of contents that was part of the first distribution
    - If you're unsure of who you should be contacting, please feel free to get in touch with me.
5. **A teleconference** will be set up later this week to check in and to discuss any issues that may arise before the second distribution. Stay tuned for further details. As always, feel free to contact Alana or myself with any additional questions you may have.

TIMELINES

6. The second distribution is this Friday. **Revised papers are due to Budget Secretariat at 12PM on Friday February 24.**

Key Upcoming Dates:

February 22: MO Feedback on 1st Distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution
February 24: MO Feedback Tracker due at 3PM
March 1: MO Feedback on the 2nd Distribution
March 3: Third draft of papers due to BudSec at NOON for third Distribution
March 6: MO Feedback on the 3rd Distribution
March 7: Branch Review

If you have any questions, please feel free to contact myself or Alana Rowe.

Thanks,
Ron

Subject: DPAC Update #3 | Lockdown & First Distribution | February 17, 2017

Hi everyone,

Today is the first day of Lockdown and the first distribution of papers.

PROCESS

1. **A friendly reminder that the first draft of your papers are due to BudSec at NOON today**
    - DPCs, please submit your papers in the iDoc drive.
    - Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
    - If you have any technical or timing issues with submitting, please contact your BudSec paper coordinator.
    - The papers will be distributed this evening.
2. EAs, please submit your line ministry (LM) contacts template by **EOD today**
    - **Divisions are asked to use the attached template to identify LMs that you think will need to be involved in developing major components of the Document narrative in advance of line-ministry sign-off**.
    - The complete list of LMs will be reviewed by our Deputy and Minister's Office. Once approved, we will be reaching out to the identified contacts to ensure they have the appropriate security training needed to be involved in the Document process.
3. **The Minister's Office will provide feedback on the first distribution on February 22.**
    - The edits will be provided in track changes and will be made available in the iDoc drive.
    - I will notify divisions when the edits become available.
4. **Document Protocols (Production, Communication & Security)**
    - Please take a few minutes to review the attached protocols. They identify roles, responsibilities and outline the best practices and guidelines during the Document process.

SECURITY

5. **Today is the first day of Document Lockdown.** The Frost building will be under enhanced security protocols (*see attached Security Bulletin for details*) . Please keep in mind the following protocols:
    - Watch out for "piggybacking" at both the main entrance and the entrance to your floor. Every person must swipe in. Staff should not hold the door open for any unknown guests.
    - Please ensure that yellow papers are never left unattended and are locked whenever you are away from your desk.
    - Yellow paper should not be put in the shredding bins.
    - All Document-related files must be password protected with the 2017 Document internal or external passwords.

Key Upcoming Dates:

February 17: Lockdown Begins
February 17: First draft of papers due to BudSec at NOON for First Distribution
February 20: *Family Day*
February 22: MO Feedback on 1st Distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution
March 1: MO Feedback on the 2nd Distribution
You may also feel free to "unsubscribe" to these updates at any time.
Thanks,
Ron

Subject: DPAC Update #2 | Revised ToC | February 15, 2017

Good evening everyone,
Thanks for your input on the table of contents. Attached is a revised version. Please see below for further updates:

NARRATIVE

1. Attached is a revised **Table of Contents** outlining the structure for developing DOC narratives. We included your input and worked with the Minister's Office to update the ToC. A few things to note:
    a. Some sections have changed or merged and initiatives have also been moved around.
    b. MO advisors and DPCs have been added.
2. Staff should begin drafting their narratives according to the revised ToC. Divisions are asked to craft their narratives according to the following **narrative lens** below. All narratives should respond to the following questions:
    a. What is the government's commitment? What did the government commit to in the 2016 Budget?

b. Why the commitment is important?
c. What outcomes will the government's plan achieve?

- Divisions should be working together on their narratives as many sections throughout the Document have multiple contributing authors.

SECURITY

3. Each year, line ministries (LMs) are involved in developing the Document narratives. This year, we're introducing **a new security measure** in accordance with the recommendations of our recent review of Document security measures.
   a. **Divisions are asked to use the attached template to identify LMs that you think will need to be involved in this year's Document development** in advance of line-ministry sign-off.

i. The complete list of LMs will be reviewed by our Deputy and Minister's Office. Once approved, we will be reaching out to the identified contacts to ensure they have the appropriate security training needed to be involved in the Document process.

   b. **Please send your completed templates by end of day Friday Feb. 17.**

4. A reminder that **security training sessions** are still being held for new staff and anyone that would like a refresher. The following sessions are still available:
   - Thursday February 16 – 2pm to 3pm
   - Wednesday February 22 – 2 pm to 3 pm
   - Thursday February 23 – noon to 1 pm
   - Friday February 24 – 10am to 11am

   a. Please contact **Lee Zavagno** to enroll your staff in security training.
   b. If additional sessions are required, please let me know, we'll arrange to have those set up.

PROCESS

5. You should all have received an email from Document, Production (MOF) requesting your computer information. Please review that email and submit your computer information. This will ensure that you receive distributions when they are sent out.

TIMELINES

6. A complete planning and production calendar is still under development and will be circulated to divisions via secure distribution later this week.

Key Upcoming Dates:

February 16: Security Awareness Training (2:00 pm- 3:00 pm)
February 17: Lockdown Begins
February 17: First draft of papers due to BudSec at NOON for First Distribution
February 20: *Family Day*
February 22: MO Feedback on 1st distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution

Please don't hesitate to contact me with questions.
You may also feel free to "unsubscribe" to these updates at any time.
Thanks,
Ron

Subject: DPAC Update #1 | Welcome to the 2017 Document Process | February 13, 2017

Good evening,

As many of you already know, the 2017 Budget process is well underway. Similar to years past, I'll be providing regular DPAC Updates to ensure we're on the same page and remain aligned throughout the process. There will be a mix of email updates, teleconferences and in-person meetings this process.

Please feel free to forward this email along to staff and/or let me know if you'd like me to add anyone to this email distribution list.

Last Friday we held a Document Planning session with your ADMs. At the meeting the following items were discussed:

NARRATIVE

1. The preliminary **Table of Contents** outlines a structure for developing DOC narratives. It outlines key contacts throughout the process.
    a. A request for divisions to review, provide comments and identify key contacts where necessary was sent to EAs on Friday. Thank you to those that have submitted their feedback. Please provide revisions to Alana cc'ing myself as soon as possible.
2. Staff should begin drafting their narratives according to the ToC. Divisions are asked to craft their narratives according to the following **narrative lens** below. All narratives should include the following format:
    a. What is the government's commitment?
    b. Why the commitment is important?
    c. What outcomes will the government's plan achieve?

PROCESS

3. Budget Secretariat has sent out a few requests for divisions to:
    a. Identify **Divisional Paper Coordinators (DPCs)**, Production Staff Persons (PSPs) and Briefing Book Coordinators (BBCs). Please review the request and provide a response by Monday February 13th.
    b. Review **Divisional Distribution Lists**, based on previous document processes, to be updated for the upcoming 2017 Spring Document Process. Please review and provide a response by Tuesday February 14th at noon.
4. A **briefing schedule** is currently being developed and will be circulated to divisions in the near future.

SECURITY

5. Maintaining high standards of confidentiality help preserve the integrity of the document development process. It is important that we adhere to the best practices throughout the process.
    a. **Passwords**: The new 2017 DOC passwords were communicated verbally to all divisions. Please feel free to call me if you do not know the 2017 DOC passwords. **The passwords should not be shared via email.**
    b. **Security Awareness Training**: Sessions have been set up (See attached email). **Attendance is mandatory for all new staff, however existing Frost Complex staff are encouraged to attend security training for a refresher.** Sessions will take place on:
        - Tuesday February 14 – 11 am to noon
        - Wednesday February 15 – noon to 1pm
        - Thursday February 16 – 2pm to 3pm
        - Wednesday February 22 – 2 pm to 3 pm
        - Thursday February 23 – noon to 1 pm
        - Friday February 24 – 10am to 11am
    c. Please contact **Lee Zavagno** to enroll your staff in security training.
    d. If additional sessions are required, please let me know, we'll arrange to have those set up.

TIMELINES

6. A complete planning and production calendar will be circulated to divisions via secure distribution later this week.

Key Upcoming Dates:

February 13: Deadline to identify DPCs and PSPs
February 14: Deadline to submit Distribution Lists (Noon)
February 14: Security Awareness Training (11:00 am-12:00 pm)
February 15: DPC Training
February 15: Security Awareness Training (12:00 pm- 1:00 pm)
February 16: Security Awareness Training (2:00 pm- 3:00 pm)
February 17: Lockdown Begins
February 17: First draft of papers due to BudSec at NOON for First Distribution
February 22: MO Feedback on 1st distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution

Please don't hesitate to contact me with questions.
You may also feel free to "unsubscribe" to these updates at any time.

2017 BUDGET LOCKUP PRIMER

The Budget Lock-Up provides the media and other stakeholders with the opportunity to review the Budget and have their questions answered in a secure environment. As a policy contributor, you may be:

On-call offsite: You should be available by email or phone over the course of the day and able to arrive at the lock-up within about 10 minutes of being alerted to answer a media, political party or stakeholder question.

On standby onsite: You will be stationed in the Staff Lounge (Macdonald Block cafeteria) and will be alerted when you are needed to answer a media, political party or stakeholder question.

Designated to the media lockup: If you are responsible for a policy area that is anticipated to be of high interest to the media, you will be stationed in the Huron Room. The DPAC will inform you in advance.

Staff Registration – St. Lawrence Lounge

Badges are required to access Lock-up. Staff can register and pick-up a badge in the St. Lawrence Lounge on the main floor of the Macdonald Block (facing the 900 Bay Street exit). Please bring your ministry photo ID and your lanyard, as you will be required to wear your badge at all times.

Staff assigned to the media lock-up: pick up your badge before reporting to the Ontario/Huron rooms.

All other staff (i.e. staff on-call): you can register and pick up a badge once you are notified and dispatched to a room to answer a question.

Media Lock-Up *(8:00am – 4:00pm, Ontario/Huron Rooms)*

Media will begin to arrive around 8:00 am. Designated policy experts should arrive by 9 a.m. to answer media questions. Policy experts will be grouped and seated by subject area.

Please note that subject areas and policy experts may change over the course of the day to best serve the media; a Communications staffer will advise you of any changes.

For media questions outside the scope of the designated policy experts in the room, alert a Communications staffer who will work with the policy coordination desk to ensure the appropriate expert is dispatched to the media lockup to answer the question.

Designated policy staff must clear the Huron room at 12:40 p.m., at which point they can move to the cafeteria for lunch.

All ministry staff* must clear the media lockup during the press conferences (*except SMC). Members of the senior management team can also watch the press conference on a closed-circuit TV in the Trillium boardroom (1st Floor, cafeteria area).

Other staff should go to the cafeteria or their offices and be on-call for stakeholder lockup in the afternoon.

MPP Lock-Up *(9:00am – 4:00pm, multiple rooms)*

Lock-Up for the Liberal and Opposition MPPs (NDP and PC) and their political staff begins at 8:30 a.m. MPPs are escorted from their lockup to attend the Legislature at 3:30 p.m. Political staff will remain in Lock-Up until the Budget is released. Executives brief the NDP at 10:00 a.m. and the PC at 10:30 a.m.

Stakeholder Lock-Up *(12:00pm–4:00 pm, multiple rooms)*

Stakeholders will begin to arrive at noon and their Lock-Up will start at 1:00 p.m.

Every room will have inquiry cards available for stakeholders to ask questions. At regular intervals (every 5-10 minutes), volunteers will collect completed inquiry cards and deliver them to the policy coordination desk. The policy coordination desk will log stakeholders' questions and ensure appropriate policy staff are dispatched.

Policy experts are expected to be available on-site or on-call (within a 10-minute walking distance from Macdonald Block), and must report to the policy coordination desk if they are called to answer a question.

ADDITIONAL INFORMATION

Staff Lounge - Cafeteria

Managers, staff and line-ministry support will be accommodated in the cafeteria on the main floor of Macdonald Block. Copies of the Budget will not be available in the cafeteria. As questions arise, staff will be dispatched from the cafeteria to the appropriate Lock-Up room. Staff should remain in their Queen's Park offices until contacted.

Executive Lounge – Trillium Boardroom

Directors, EAs and ADMs who are not assigned to the media lockup should congregate in the Trillium boardroom, located inside the Macdonald Block cafeteria. As questions arise in the lock-ups, executives will be called out of the Trillium boardroom to respond. Accommodating executives in this central location will ensure the policy coordination desk can locate policy experts quickly.

Copies of the Budget will be available as well as a closed-circuit TV to view the press conferences. OPP will monitor access and ensure budget documents do not leave this room.

Policy Coordination Desk – Room M2-19 (beside the Severn Room)

The policy coordination desk will be located in Room M2-19 (beside the Severn Room) and serves as the central hub for receiving inquiry cards from stakeholders and arranging for each question to be answered.

Transmitting Devices

Transmitting devices (i.e., BlackBerries, personal smartphones) are NOT allowed in the lock-up rooms until the lock-up is released. OPP will have scanners to ensure this rule is strictly enforced. If you are on-call and are requested to answer a question at Lock-Up, turn off your device before entering. You are permitted to use transmittal devices in the hallways or in the cafeteria.

EMERGENCY PROCEDURES

Fire Alarm

In the event of an emergency, please take your direction from the OPP officers only.

You will be directed to evacuate the building.

If you require assistance, please alert an OPP officer so arrangements can be made to assist you.

Medical Emergency

In the event of a medical emergency, please alert an OPP officer who can provide appropriate first aid.

First aid kits are available from the registration desks at the Ontario Room and the St. Lawrence Lounge.

There are multiple Automated Emergency Defibrillator (AED) units available within the Macdonald Block.

In the event that you require professional medical attention, transportation to the nearest facility will be provided.

Family Emergency

In the event of a family emergency, you can be reached through Sgt. Ryan Bennett, Queen's Park OPP Detachment at (416) 807-6323.

** Remember that if you are required to leave the building, you are not permitted to take any part of the Ontario Budget documents with you and you will remain bound by your Oath of Office until the Budget is tabled. **

Critical Timelines for 2017 Ontario Budget Lockup

Time	Major Events	Location	Minister's Activities	Deputy's Activities	Executive Team	Policy Staff
6:00 a.m.	OPP Breakfast & Security Briefing	Macdonald Block Cafeteria

Subject: DPAC Update #31 | Lockup Logistics | April 26, 2017

Hi everyone,

We're only one day away from lock up! Below are a few updates and a summary of tomorrow's events.

1. **Staff are encouraged to attend today's Pep Rally/Lock up Orientation at the MacDonald Block Cafeteria at 3:30PM**.
    - Green Lock Up access cards for those attending lock up will be available for pick up at the Orientation session.
2. All Briefing Book Binder content was sent out on distribution today. Divisions are able to print any of the material they require.
3. The following **Lockup logistics material** are attached:
    - Lockup Primer and Emergency Protocols
    - Minute-by-Minute Schedule
    - MacDonald Block Map
    - MOF/TBS Contact List
    - Line Ministry contact list
    - Stakeholder List
4. Summary of the key events tomorrow:

    Media Lockup
    - Media begins to arrive at 7:30AM.
    - **MOF/TBS Policy staff are expected to arrive by 9:00am**
    - There will be 8 tables set up in the morning for the following topics:
        - Fiscal Plan
        - Economic Outlook
        - Health care
        - Education
        - Infrastructure
        - Housing Affordability
        - Tax Measures
        - Business and Other Sector Supports
    - If throughout the day we notice more questions pertaining to one of the backup topics, we will swap out an existing topic with one of the backups.

    TB/MBC Briefing (8:00AM – 9:30AM) – This briefing will take place in the TB/MBC Boardroom (1st Floor Frost South). Required ADMs will be notified.

    Opposition Briefings (10:00AM – 11:00AM) - These briefings will be held in the Kenora, Nipigon and Nipissing rooms.
    - The names of required ADMs are listed in the attached staff contact list.
    - EAs in attendance will be expected to retrieve question cards, find the appropriate person to respond and ensure the card has the response recorded.
    - All cards are to be returned to the coordination desk, located in Room M2-19 (beside the Severn Room).

    Stakeholder Lock Up (12:00PM – 4:00PM) - Stakeholders will be in various

rooms on the 2nd floor of MacDonald Block.

- Coordination Desk Volunteers will be responsible for collecting question cards and finding the appropriate policy experts to respond. Policy experts will be visiting stakeholder rooms to provide responses.
- All question cards must be returned to the coordination desk for logging.
- EAs are asked to assist with locating policy experts and ensuring question cards are returned to the coordination desk.

Pre-Minister's Briefing (11:30PM – 12:00PM) – A briefing with several ADMs will be arranged in the Trillium Boardroom (1st Floor, Macdonald Block Cafeteria) to provide updates on media questions and develop a strategy for the Minister's briefing at noon.

Minister's Briefing (12:00PM – 12:30PM) - A briefing with a small group of ADMs will be arranged (in the OPP Boardroom) to provide the minister with an update of the type of questions that have been raised throughout the morning. This briefing will help prepare the Minister for his 1:00PM new conference. ***Note: attendance for this briefing is very limited. Required ADMs will be notified. No other staff will be permitted in the OPP Boardroom.***

Minister's New Conference (1:00PM – 1:30PM) - The Minister will address the media in the Ontario room.

- All policy staff will be asked to clear the Huron Room and media lock up area. Staff may go to the cafeteria.
- ADMs will be permitted in the Ontario Room. They may also choose to watch the conference in the Trillium Boardroom (1st Floor, Macdonald Block Cafeteria).

DMs Technical Briefing (3:00PM – 4:00PM) – Our Deputy will be delivering a briefing to all Deputies in advance of the budget release. Select ADMs will be notified if they're required to attend.

Minister's Speech (4:00PM) – The Minister will table Budget in the Legislature at approximately 4:00PM.

5. **Remember to have fun tomorrow!** You've all worked extremely hard to put this Budget together. Lock up gives us an opportunity to see the release of the Budget and our hard work pay off.

Thanks,
Ron

If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #30 | April 25, 2017

Good morning,

We're two days away from Budget Lockup! A few reminders and updates for you:

1. **DM/MO Sign-off: Communications Products**

- Final sign-off will take place today in the Trillium boardroom, 7th floor Frost South.
- Revised communications products will be on distribution last night

2. **Briefing Books**

- If you haven't done so, please submit BNs and Technical Qs & As by **10:00 am, today** in the iDoc drive.
- The briefing book binders will consist of the following mandatory content:
    - Briefing Notes (BNs) & Technical Qs & As: Please work with your division and any others that may be impacted.
- Briefing Notes and Qs & As are to be produced at the discretion of divisions. BNs are not required for every initiative in the Document, divisions are asked to use best judgement to determine which initiatives/sections require notes and Qs & As.

3. **Budget Day Lock Up Logistics**

- Our annual **Lockup Orientation Pep Rally will take place in the Macdonald Block cafeteria tomorrow at 3:30 – 4:30 pm** (an invite will go out today).
    - **Staff will be able to pick up their lockup security badges at the rally tomorrow.**

- Attached are draft **Lock Up logistics material**:
    - Lockup Primer and Emergency Protocols
    - Minute-by-Minute Schedule
    - MacDonald Block Map
- Final material, including contact lists will be circulated tomorrow.

4. **Budget Lockup**

- **EAs, please remember to fill out the attached spreadsheet, identifying directors and managers who will be available to answer questions and provide support on Document Day.**
    - **The following key topics have been identified for the Media Room Lock Up:** the Province's fiscal plan (including debt/borrowing), economic outlook, health care, education and training, infrastructure, housing affordability, tax measures, and business and other sector support initiatives.
    - Please identify staff that would be available for Media Lock up and those that will be available for stakeholder questions. Please remember to indicate who will be "On Call" or "in Attendance" at lock up.
- **Please provide names to Nicole Yanqui by 11:00 am, today.**

5. **Doc Day Supporting Material**

- EAs, another friendly reminder to please send your supporting Doc material to me no later than **1:00pm, today.**
- I am preparing a binder of supporting materials that will be tabled at TB/MBC on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.
    - Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.
- Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).
- If you are unsure as to what material should be included please let me know.

If you have any questions, please feel free to contact myself or Alana Rowe.

Thanks,
Ron

Subject: DPAC Update #29 | April 20, 2017

Good evening everyone,
We are officially one week away from the release date! A few details for tomorrow and the upcoming week are below:

1. **ADM Sign-off: Communications Products: Friday April 21st (9:30AM – 11:30AM)**

   - Sign-off will take place in the Trillium boardroom, 7th floor Frost North.
   - Revised communications products will be on distribution this evening.
   - Products to be reviewed at sign-off are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.
   - ADM's will review the communication products on screen, and only contentious sections will remain in tracked changes.

2. **Budget Lockup**

- Lock up planning is well underway. As part of Lock up, we would like to identify staff that need to attend and be on call.

- Attached is a memo was sent out from the ADM of the office of the budget to all ADMs in MOF & TBS asking divisions to help identify policy experts that will help respond to media and stakeholders' inquiries at Lockup.

- **EAs, please fill out the attached spreadsheet, identifying directors and managers who will be available to answer questions and provide support on Document Day.**

    - **The following key topics have been identified for the Media Room Lock Up:** the Province's fiscal plan (including debt/borrowing), economic outlook, health care, education and training, infrastructure, housing affordability, tax measures, and business and other sector support initiatives.

    - Please identify staff that would be available for Media Lock up and those that will be available for stakeholder questions. Please remember to indicate who will be "On Call" or "in Attendance" at lock up.

- Our Deputy's Office will be in touch with line ministries to identify staff that would be on call for Lockup.

- **Please provide names to Nicole Yanqui by <u>EOD Monday April 24.</u>**

- Logistics Materials to further support Document Day are under development, and will be circulated once available.

3. <u>Briefing Books</u>

- The briefing book binders will consist of the following mandatory content:

    - Briefing Notes (BNs) & Technical Qs & As: Please work with your division and any others that may be impacted.

- Briefing Notes and Qs & As are to be produced at the discretion of divisions. BNs are not required for every initiative in the Document, divisions are asked to use best judgement to determine which initiatives/sections require notes and Qs & As.

- Media Qs & As: These are currently under development by CSB and will go on distribution tomorrow evening. All media Qs&As are to be ADM approved.

- Divisions are asked to have their briefing book coordinators submit BNs and Technical Qs & As by **<u>EOD Friday April 21</u>** in the iDoc drive.

4. **Doc Day Supporting Material**

- EAs, a friendly reminder to please send your supporting Doc material to me no later than **EOD Monday April 24.**
- As a reminder, this is to support TB/MBC on Document Day. I will be preparing a binder of supporting materials that will be tabled at TB/MBC on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.
    - Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.
- Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).
- If you are unsure as to what material should be included please let me know.

Key Upcoming Dates:
April 21: ADM Sign-off on Communication Products
April 21: BNs and Qs & As due
April 24: DM/MO Sign-off on Communication Products (TBD)
April 24: Doc Day Supporting Material Due
April 27: Document Day
If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #28 | April 19, 2017

Good afternoon everyone,

I wanted to thank you for your continued flexibility during this process! We are in the home stretch! A few details for the next few days are below:

1. **Statement**

   - The Minister's Statement was put on distribution last night.
   - **EA's, please coordinate a review of the Statement and provide ADM-approved hard-copy edits to myself and Alana by EOD today.**

2. **Director Sign-off: Communications Products: Happening Now! (10:00AM – 12:00PM)**

   - Sign-off is currently taking place in the CSB boardroom, 3rd floor Frost North. Directors are asked to drop-in at their convenience if they haven't done so already.
   - Products being reviewed are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.

3. **ADM Sign-off: Communications Products: Friday April 21st (9:30AM – 11:30PM)**

   - Sign-off will take place in the Trillium boardroom, 7th floor Frost North.
   - Products to be reviewed are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.
   - ADM's will review the communication products on screen, and only contentious sections will remain in tracked changes.

4. **Doc Day Supporting Material**
   - EAs, please remember to send your supporting Doc material to me no later than **EOD Monday April 24.**
   - As a reminder, this is to support TB/MBC on Document Day. I will be preparing a binder of supporting materials that will be tabled at TB/MBC on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.

- Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.

- Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).
- If you are unsure as to what material should be included please let me know.

5. **Briefing Books**

- The briefing book binders will consist of the following mandatory content:
  - Briefing Notes (BNs) & Technical Qs & As: Templates have been attached. Please work with your division and any others that may be impacted.
    - Briefing Notes and Qs & As are to be produced at the discretion of divisions. BNs are not required for every initiative in the Document, divisions are asked to use best judgement to determine which initiatives/sections require notes and Qs & As.
  - Media Qs & As: These are currently under development by CSB and will be circulated to divisions for review. All media Qs&As are to be ADM approved.
  - Divisions are asked to submit their BNs and Technical Qs & As by **EOD Friday April 21.**
  - Melissa Ouzas and Pauline Padmore will be reaching out to your Briefing Book Coordinators with more details.

Key Upcoming Dates:

April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM/MO Sign-off on Communication Products (TBD)
April 24: Doc Day Material Due

If you have any questions, please feel free to contact myself or Alana Rowe.

Thanks,
Ron

Subject: DPAC Update #27 | Communications Products | April 18, 2017

Good afternoon everyone,

We've completed sign-off on the papers. The final papers have been distributed electronically. It's now time to turn our attention to the communication products.

1. **Director Sign-off: Communications Products: April 19th (10:00AM – 12:00PM)**

   - Communication products are being updated for distribution this evening. Any edits to these products should be walked into director sign-off.
   - Sign-off will take place in the CSB boardroom, 3rd floor Frost North.
   - Products to be reviewed are: New Release, Fact Sheets (Balance, Opportunities, Helping Ontarians, Health, Education), Web Copy, Tweets and Facebook Posts.
   - ADM sign-off on the communication products will take place on Friday (April 21st) in the Trillium Boardroom.

2. **Statement**

   - The Statement is still under development and will be put on distribution in the near future. There will be a short turnaround for comments, so please stay tuned for this.

3. **Doc Day Supporting Material**

   - To support TB/MBC on Document Day, I will be preparing a binder of supporting materials that will be tabled at TB/MBC on Doc day. Supporting materials include any and all products used to support DM and Minister Doc briefings as well as FPC, BPC and MM&P meetings related to the Document.
     - Subject to TB/MBC approval, all supporting materials will be minuted as part of the special TB/MBC meeting on Doc Day.
   - Divisions may also have additional materials that informed the development of briefing materials (i.e., backpocket materials, control sheets, tables, etc.).
   - EAs, please send your supporting Doc material to me no later than **EOD Monday April 24.**

4. **Briefing Books**

   - Instructions on briefing book binder material are forthcoming.

Key Upcoming Dates:

April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products

April 24: DM/MO Sign-off on Communication Products (TBD)
April 24: Doc Day Material Due
If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #26 | DM/MO Sign-Off | April 12, 2017

Good morning everyone,
Today is the first day of DM/MO sign-off. Sessions will be taking place in the Trillium Boardroom. The schedule is as follows:

- April 12 (10:00AM – 11:15AM): Chapters 1,5,6A,6B, 6C
- April 12 (2:30PM – 4:30PM): Chapters 3, 4B, 4C, 4D
- April 13 (3:00PM – 5:00PM): Chapters 2, 4A, 7, Foreword, Post Cards

These sessions will be kept to a small room. ADMs are asked to be on call, should their assistance be required. I will be in touch with EAs throughout the day as we go through sign-offs.

Loose Ends

Thanks for everyone's quick work in addressing Premier, PO and SoC comments yesterday. Attached is our latest list of loose ends. Should you have any further updates, please feel free to send to Alana and myself.

Subject: DPAC Update #25 | SoC Edits | April 11, 2017

Hi everyone,

Thanks to those of you that have already responded to our loose ends request. We've received edits from the SoC as well. We'd like to have responses to as many comments as possible. We've updated our Loose Ends tracker with SoC edits (see attached).

EAs, please take another look and provide edits to me (cc'ing Alana) by end of day today. This tracker will be used to support DM/MO sign-off tomorrow.

Thanks,

Ron

Subject: DPAC Update #24 | Premier Edits & Loose Ends | April 11, 2017

Good morning everyone,

We received Premier edits to the papers. These edits are reflected in the attached loose ends tracker highlighted in yellow along with any items that are still outstanding.

Premier Edits & Loose Ends

- EA's, please review these comments/edits (highlighted in yellow) with your Divisions and provide a response in the loose ends tracker and any proposed ADM-approved hardcopy edits if required. These are due **at 4:00 pm today.**

- These edits will be entered in tracked changes and will be considered by the DM and MO at sign-off tomorrow.

DMO/MO Sign-off- April 12th & 13th

- DM/MO sign-off will take place in the Trillium Boardroom (7th Floor, Frost South).

- Attendance for this meeting will be limited. Required attendees will be notified directly.

- ADMs may be required to be on call during sign-off should any questions arise it would be appreciated.

    - Alana and myself will be connecting with DPCs and EAs throughout the day for any final fact-checks or loose ends.

Communications Products

- Communications products were on distribution on Friday.

- EAs are asked to coordinate edits amongst their divisions and provide feedback to Communications Advisors **by April 12, at noon.**

Key Upcoming Dates:
April 12-13: DM/MO Sign-off
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM Sign-off on Communication Products

If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #23 | Loose Ends & Post ADM Sign-Off Review | April 10, 2017

Good morning everyone,

I hope you had a great weekend. Thank you for all of your hard work completing ADM sign-off last week as well as your continued flexibility throughout the process. ADM sign-off was a big milestone as we begin to wrap up the sign-off process.

Further details on the week ahead:

Loose Ends

- **There are still a number of placeholders throughout the Document.**

As, please review the attached and work with your divisions to address all loose ends identified.

Please provide your **ADM-approved edits** clearly identifying changes to Alana and myself no later than **3:00 today.** There will be a distribution tonight.

We are only accepting edits to placeholders and significant factual error. All other proposed edits will be considered at DM/MO sign-off.

Premier and PO Edits

We are still waiting on edits from the Premier and Senior PO. They are expected to be received tomorrow morning.

- We will be in contact with the affected divisions once these edits are received.

DMO/MO Sign-off- April 12th & 13th

- DM/MO sign-off will take place in the Trillium Boardroom (7th Floor, Frost South).
- Attendance for this meeting will be limited. Required attendees will be notified directly.
- ADMs may be required to be on call during sign-off should any questions arise it would be appreciated.
    - Alana and myself will be connecting with DPCs and EAs throughout the day for any final fact-checks or loose ends.

Communications Products

Communications products were on distribution on Friday.

EAs are asked to coordinate edits amongst their divisions and provide feedback to Communications Advisors by **April 12, noon.**

Key Upcoming Dates:
April 12-13: DM/MO Sign-off
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM Sign-off on Communication Products
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #22 | ADM Sign Off (Day 2) | April 6, 2017

Hi everyone,

Today is the second day of ADM Sign-off. The following chapters will be reviewed by ADM's in the Trillium Boardroom (7th Floor, Frost South) today:

- Chapters 2, 4A, 6B, 6C, 7, Foreword & Postcards.

ADM Sign-Off Process

- Chapters will be displayed on a screen and as the edits are being discussed by ADMs, the changes will be made in real time.
- **Lead DPCs will be asked to input the edits for their chapter during sign-off.**

Sign-Off Loose Ends

- I will continue to reach out to EAs on loose ends. **We would like to have as many of these resolved today.**
- **EAs, any edits to the papers at this stage must be ADM-approved** and should be brought to Alana and/or myself.

Foreword

- A reminder that the foreword will also be signed off today.
- **EAs, if you haven't already, please coordinate hand written edits amongst your divisions and provide them to Alana or myself.**

Premier Review

- **The Premier and Senior PO will receive a copy of the papers this Friday** and will be reviewing over the weekend.
- Edits will be reviewed on Monday and will be incorporated through DM/MO sign-offs.
- If there are follow ups required, I'll contact divisions directly.

Key Upcoming Dates:

April 6: ADM/MO Sign-Off

April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
April 19: Director Sign-off on Communication Products
April 21: ADM Sign-off on Communication Products
April 24: DM Sign-off on Communication Products
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #21 | ADM Sign Off (Day 1) | April 5, 2017

Hi everyone,
Today is the first day of ADM Sign-off. The following chapters will be reviewed by ADM's in the Trillium Boardroom (7th Floor, Frost South) today:

- Chapters 1, 3, 4B, 4C, 4D ,5 & 6A

ADM Sign-Off Process

- Chapters will be displayed on a screen and as the edits are being discussed by ADMs, the changes will be made in real time.
- **Lead DPCs will be asked to input the edits for their chapter in real time during sign-off.**

DPCs, A few notes on process and tips to help you along the way:

- You'll be seated at the table with ADMs as they go through your chapter. You'll be asked to scroll through the pages and accepting/rejecting any track change

edits on screen.
    - You will sit through the sign-off on the entire chapter. Even if there are multiple contributing DPCs, we will not be switching DPCs halfway through the chapters.
- As ADMs discuss, you'll be asked to transcribe the edits in real time. Alana and I will act as extra sets of eyes and ears to make sure you get everything inputted correctly.
- Some of you may already be aware of changes that need to be made at sign-off today.
    - It is recommended that you save those changes/paragraphs on a USB stick (pw-protected) so you can copy and paste edits rather than typing them all out. This will help speed up the process.
- After sign-off, you'll be asked to go down to BudSec to do one final check to make sure everything was correctly inputted.
- You'll then be required to obtain your ADMs signature. **They should initial each page and sign the front cover.**
    - **Note: If they have additional edits, they must initial beside the edit.**
- We ask that you kindly remind your ADM that they'll need to stick around at Frost to sign-off.

Foreword

- A copy of the Foreword was put on distribution last night.
- **EAs, please coordinate hand written edits amongst your divisions. You are welcome to provide hand written edits to the Foreword to me by end of day today.**

Sign-Off Loose Ends

- During sign-offs, I will be reaching out to EAs if any follow-ups are required.

Communications Products

- EAs are asked to consolidate edits to Comms products on behalf of their divisions and relay them to the appropriate Communications Services Branch (CSB) Lead by **end of day today.** A list of Comms advisors can be found in the Production Contact List sent out on electronic distribution.

Key Upcoming Dates:

April 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #20 | Line Ministry Sign Off | April 4, 2017

Good morning everyone,

Thank you for your continued support and hard work rolling in MO edits yesterday. As you know, line ministry sign off is scheduled for today from 10:00AM – 2:00PM. A few updates and reminders:

1. DPCs, please review excerpts that have been pulled for line ministry review at BudSec between **8:00 AM and 9:30 AM. There will not be an opportunity to do this later in the day.**
    - A revised schedule for line-ministry sign-off is attached.
    - Line Ministry staff must sign the attached Oath of Confidentiality (DMs do not need to sign).
    - After sign-off, policy staff may photocopy any LMs' edits but must return the originals to BudSec.
    - Line ministry edits will be inputted in tracked changes by BudSec.
    - ADMs will have the opportunity to accept/reject these proposed edits during ADM sign-off. (April 5th & 6th).
2. **Document References-** The MO has provided us with a list of Document initiatives (see attached). Divisions are asked to draft short narratives for inclusion in the yellows. Please send drafts in password protected documents to me, cc'ing Alana **by 5PM today.** These will be rolled into the yellows in tracked changes in advance of ADM sign-off. If you are unsure of placement in the yellows please let me know.
3. **ADM Sign-Off-** A heads up that the schedule for ADM sign-off may be shifting to accommodate competing priorities. As always, we appreciate your continued flexibility throughout the document process.

Key Upcoming Dates:

April 4: Line Ministry Sign-off

April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #19 | MO Feedback | April 3, 2017

Good morning everyone,
Thank you for all of your hard work completing Branch Review and Director sign-off last week. A few updates and reminders for today:

1. Our Minister's Office has reviewed the director sign-off version on the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback". Staff are being asked to review and roll in these edits in advance of line ministry sign-off tomorrow. The papers will then go on distribution this evening for line ministries to review.
2. **Revised drafts of your papers are due to BudSec at 4PM today.**
    - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
    - After today's distribution, DPCs edit rights will be removed. Any edits after

today must be brought to EAs and be raised at ADM sign-off.
- We will be reaching out to individuals with additional MO comments throughout the day.

3. **MO edits must be reviewed and incorporated into the papers.** A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 5PM on Monday April 3.**
4. **Line Ministry Sign-off- Tuesday April 4th**
    - All DPCs must review their excerpts that have been pulled for line ministry review at BudSec between **8:00 AM and 9:30 AM.** There will not be an opportunity to do this later in the day.
    - The schedule for line-ministry sign-off is attached. A reminder to staff to please send the names of policy staff that will be attending line ministry sign-off to Pauline Padmore.
    - It is recommended that Lead ADMs be presenting during line ministry sign-off. ADMs will be asked to bring any documentation needed to support sign off.
    - Line Ministry staff must sign the attached Oath of Confidentiality (DMs do not need to sign).
    - After sign-off, policy staff may photocopy any LMs' edits but must return the originals to BudSec.
    - Line ministry edits will be inputted in tracked changes by BudSec and ADM's will have the opportunity to accept or reject these proposed edits during ADM sign-off. (April 5th & 6th).
5. **Communication Products**

    - Communication products were distributed on Friday evening.

    - DPCs are asked to work closely with their CSB leads to confirm that the revisions made to the papers during Director sign-off and Line-ministry sign-off are reflected in the comms products to ensure alignment with the narrative.

    - EAs are asked to consolidate edits to Comms products on behalf of their divisions and relay them to the appropriate Communications Services Branch (CSB) Lead by **end of day Wednesday April 5.** A list of Comms advisors can be found in the Production Contact List sent out on electronic distribution.

Key Upcoming Dates:
April 3: MO Feedback
April 4: Line Ministry Sign-off

April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #18 | Director Sign-Off | March 31, 2017

Good morning everyone,
Thank you for all of your hard work completing Branch Review yesterday. As you're aware, it's day two of sign-offs, with director sign-off taking place today. A few updates and reminders for today:

1. We received some edits late last night to several photos and captions. Please note in some cases the photos and captions have changed at the request of the MO. Please review and have your director sign-off.
2. A heads up that we may receive initial comments from PO today. I will connect with the appropriate divisions if any edits are received.
3. Attached is a **schedule for director sign-off**. Please continue to email Pauline Padmore if there is a change in location or time for your sign-off.
4. Also attached is a **schedule for line ministry sign-off**. **EA's, please send the name of staff that will attend for each ministry's sign-off to Pauline**

Padmore.

5. A reminder that DPCs will need to clearly identify which sections of the papers are to be pulled for line ministry sign-off on the director-approved papers (*detailed instructions below*).
6. ADM sign-off invites were sent out yesterday. If you did not receive an invite or are unsure if you need to attend, please feel free to contact me.

First Distribution of Communication Products – Friday March 31

- Communication products will be on distribution today.
- DPCs are asked to work closely with their CSB leads to confirm that the revisions made to the papers during Director sign-off are reflected in the comms products to ensure alignment.
- Please contact your respective CSB Lead if you have any further questions identified in the Document Distribution Contact List.

Director Sign-off Instructions

1. DPCs are to pick up their sign-off binder shell from BudSec on the morning of Director Sign-off.
    - Verify that the sign-in sheet is included.
    - Print the sign-off checklist at the end of the sign-off instructions (attached).
    - DPCs must print their own chapter and insert single-sided in their binder.
        - MO edits must be reviewed and incorporated into the papers. A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
        - **Completed Feedback Trackers are due to me, cc'ing Alana by 5PM today.**
2. When staff arrive, have them fill out the sign-in sheet with their printed name, telephone number and initials.
3. Staff will be responsible for reviewing and initialing content indicating their approval. **There should be initials on every line/sentence/number/chart/table/photo/caption in every paper.**
    - Postcards are to be signed-off today**.**
4. If staff makes an edit, he/she must wait until all staff have inputted their edits in that chapter before it can be reprinted. All changes must be marked on the master copy of the Document.
5. Once all staff have reviewed and approved their sections, DPCs are required to incorporate all edits by staff and print a clean copy of their chapter.
6. The lead DPC's director will be responsible for reviewing edits and ensuring that all edits have been captured.
    - **The director-approved copy will need to clearly identify which sections of the papers are to be pulled for line ministry sign-off.**
7. Hardcopies with staff signatures are to be **delivered to BudSec at 4:00pm today.**
8. When your sign-off is complete, DPCs please remember to place your paper in the iDoc and let your BudSec coordinator know that your paper is ready for pick up. It is the same process as other paper submissions.

Key Upcoming Dates:
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off
April 7-9: Premier and Senior PO review of Papers
April 11-12: DM/MO Sign-off
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #17 | Branch Review | March 30, 2017

Good morning everyone,
We've made significant progress on the papers and are now beginning the next phase of the process, sign-offs.
Branch Review/Staff sign marks the beginning of the sign-off process.

- The schedule for each chapter's sign-off is attached.
- If there are any last minute changes please let Pauline Padmore know to ensure the schedule is kept up-to-date.

Branch Review Instructions

1. DPCs are to pick up their sign-off binder shell from BudSec on the morning of Branch Review

- Verify that the sign-in sheet is included.
- Print the sign-off checklist at the end of the sign-off instructions (attached).
- DPCs must print their own chapter that incorporates MO and additional staff edits single-sided and insert in their binder.
    - MO edits must be reviewed and incorporated into the papers. A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
    - **Completed Feedback Trackers are due to me, cc'ing Alana by 5PM on Friday March 31.**

2. When staff arrive, have them fill out the sign-in sheet with their printed name, telephone number and initials.
3. Staff will be responsible for reviewing and initialing content indicating their approval. **There should be initials on every line/sentence/number/chart/table/photo/caption in every paper.**
    - Postcards were also put on distribution. They must also be signed-off today.
4. If an employee makes an edit, he/she must wait until all staff have inputted their edits in that chapter before it can be reprinted. All changes must be marked on the master copy of the Document.
5. Once all staff have reviewed and approved their sections, DPCs are required to incorporate all edits by staff and print a clean copy of their chapter.
6. The lead DPC's manager will be responsible for reviewing edits and ensuring that all edits have been captured.
7. Hardcopies with staff signatures are to be **delivered to BudSec at 4:00pm today.**

Other Updates

- Line Ministry Sign-off: All line ministries are have been invited to sign-off on April 4. See attached email for details.
- ADM Sign-off: Outlook invites will be sent out later today
- Further instructions for Director and Line-Ministry sign-off will follow in the coming days.

Key Upcoming Dates:

Mar. 30: Branch Review
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #16 | MO Feedback on Sixth Distribution | March 28, 2017

Good morning everyone,

Our Minister's Office has reviewed the sixth distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- The MO has advised that several previously removed sections are making their way back into the narrative. Please be mindful of this. If a section has been removed multiple times by the MO - it should **not** be reinserted into the papers.
- **EAs, we have attached an updated version of the Outstanding Approvals Tracker reflecting the latest distribution. Please review and provide us with comments. This will help determine the remaining narrative loose ends and identify areas we need to follow up.**
    - As we approach sign-off, initiatives in the yellows that have already received approval should have square brackets removed. Please review these placeholders and ensure that the correct labels are being applied to the pending text.
- **Technical and Other Amendments** - This section should on its own page. All items currently tracking for inclusion in the Spring Bill should reference the proposed amendment. If Spring Bill initiatives don't fit the narrative, they should be moved to the Other Amendments section and shortened to 1-2 sentences.
- I have a few more specific comments and edits but will be reaching out to those DPCs individually throughout the day today.

PROCESS

1. A reminder that MO and additional staff edits must be rolled in before Branch Review. This is to ensure that a clean as possible version is available for sign-off. The papers will be distributed that evening once all chapters have been signed off (*see attached Sign-Off instructions for details*).
    - DPCs – please remember to send your sign-off locations/times to Pauline Padmore using the attached Boardroom templates.
2. MO edits must be reviewed and incorporated into the papers. **A reminder that If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker MUST be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 5PM on Thursday March 30.**
    - Please let me know if you will sending your tracker late
3. **Post Cards -** These were also put on distribution last Friday. Postcards will need to be signed-off along with the papers.

Key Upcoming Dates:

Mar. 28: Final Instructions for Spring Bill items due
Mar. 30: Branch Review
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #15 | Revised Timelines | March 27, 2017

Hi everyone,

I wanted to provide you with an update to the production schedule as there have been a few revisions. Updated calendars were distributed on Friday evening.

1. **Sign-Off Date Changes**
   - Branch Review and Director sign-off dates have shifted by one day (March 30th and 31st respectively).
   - Line-Ministry sign-off has moved to the following week (April 4). A Deputy memo will be sent out inviting line ministries. Once this goes out, I will let everyone know.
2. **MO Feedback on 6th Distribution – Tuesday March 28th**
   - We still expect edits from the MO on Tuesday morning as previously communicated.
   - Tracked changes versions will be available to DPC's in the iDoc around **10:00am.**
   - MO edits will need to be incorporated as part of Branch Review.
   - As always, please wait for the email from myself to advise that the files are ready for pick up.
3. **Sign-off Instructions are attached**
   - DPC's, please review in advance of sign-off training which is scheduled for this afternoon**.**
   - Using the attached templates, if you could please let **Pauline Padmore** know where your Branch Review and Director-sign off will take place by **EOD Tuesday March 28th.**

Key Upcoming Dates:

Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 30: Branch Review
Mar. 31: Director Sign-off
Apr. 4: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #14 | Sixth Distribution | March 24, 2017

Good morning everyone,

Today is the sixth distribution of papers, the last before we begin the sign-off process.

PROCESS

1. **The sixth draft of your papers are due to BudSec at NOON today.**
    - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
2. **MO edits must be reviewed and incorporated into the papers.** A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 24.**
    - Please let me know if you will sending your tracker late
3. A friendly reminder to please identify chapter contributors throughout each section of the papers.
    - Each subsection should have a contributing author identified using square brackets.
4. In order to comply with **Accessibility for Ontario's with Disabilities Act,** we must include "Alt Text" for all images, charts and graphs. **Accessibility Text** must be included on the last page(s) of your chapters for Branch Review. A template has been attached.

- When creating your description(s) consider the following:
    - Why is this chart/image/table here?
    - What information is it presenting?
    - What purpose does it fulfil?
    - If I could not use the non-text content, what words would I use to convey the same function and/or information

TIMELINES

5. **The Minister's Office will provide feedback on the sixth distribution on March 28.**
    - The edits will be provided in track changes and will be made available in the iDoc drive.
    - I will notify divisions when the edits become available.

Key Upcoming Dates:

Mar. 24: Sixth draft of papers due to BudSec at NOON for the sixth Distribution
Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 29: Branch Review
Mar. 30: Director Sign-off
Mar. 31: Line Ministry Sign-off
April 4: Final Spring Bill draft due
April 5: ADM/MO Sign-Off
April 6: ADM/MO Sign-Off

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #13 | MO Feedback on Fifth Distribution | March 22, 2017

Good morning everyone,

Our Minister's Office has reviewed the fifth distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- **What We Have Been Doing Since 2013**- You will notice in a few chapters that the "Achievements" sections have been revised and cut down. Moving forward, these sections will be on their own page and will include visuals. BudSec will work with the various DPCs to revise these sections for the next turn.
- A reminder to DPCs and contributing all initiatives that do not have the appropriate approvals in place must be **identified** (i.e., items that require LRC, TB/MBC or Cabinet approval must be square bracketed). Staff are required to indicate where the initiative is tracking and what date using square brackets. This must be inputted into the papers. Square-bracketed items are being rolled up for review. We will communicate next steps once the list has been reviewed.
- Items currently tracking for inclusion in the Spring Bill must be referenced in the Document. If the item does not fit the narrative of a particular chapter, it should be moved to the Technical Amendments section in the Tax Chapter (Chp. 7). (*See the 2015 Budget*[fin.gov.on.ca] *(pg. 343) and 2016 Budget*[fin.gov.on.ca] *(pg. 338) for examples).*
- Please continue to identify chapter contributors throughout each section of the papers.
    - Each subsection should have a contributing author identified using square brackets.

- I have a few more specific comments in terms of narrative but will be reaching out to those DPCs individually throughout the day today.

PROCESS

1. MO edits must be reviewed and incorporated into the papers. **A reminder that If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker MUST be filled out providing clear rationale** for not including the MO's edits.

- The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
- **Completed Feedback Trackers are due to me by 3PM on Friday March 24.**
- Please let me know if you will sending your tracker late

TIMELINES

2. **As you may know, sign-offs are scheduled to take place next week.**
   - Detailed instructions will be circulated later this week.
   - DPCs you should have received a meeting invite for training from Melissa Ouzas. If you did not receive this invite please let her know.
   - Branch Review will take place the following week on **Wednesday March 29th.**
3. The MO will be providing feedback on the sixth distribution on Tuesday March 28

Key Upcoming Dates:

Mar. 24: Sixth draft of papers due to BudSec at NOON for the sixth Distribution
Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 29: Branch Review
Mar. 30: Director Sign-off
Mar. 31: Line Ministry Sign-off
April 4: Final Spring Bill draft due

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #12 | Fifth Distribution | March 17, 2017

Good morning everyone,

Today is the fifth distribution of papers.

PROCESS

1. **The fifth draft of your papers are due to BudSec at NOON today.**
    - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
2. **MO edits must be reviewed and incorporated into the papers.** A reminder that If there are MO edits that aren't incorporated into the next distribution, the attached feedback tracker MUST be filled out providing clear rationale for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 17.**
    - Please let me know if you will sending your tracker late
3. A friendly reminder to please identify chapter contributors throughout each section of the papers.
    - Each subsection should have a contributing author identified using square brackets.

TIMELINES

4. **The Minister's Office will provide feedback on the fifth distribution on March 22.**
    - The edits will be provided in track changes and will be made available in the iDoc drive.
    - I will notify divisions when the edits become available.

Key Upcoming Dates:

March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution
Mar. 22: MO Feedback on the 5th Distribution
Mar. 24: Sixth draft of papers due to BudSec at NOON for the sixth Distribution
Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 29: Branch Review
Mar. 30: Director Sign-off
Mar. 31: Line Ministry Sign-off
April 4: Final Spring Bill draft due

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #11 | MO Feedback on Fourth Distribution | March 15, 2017

Good morning everyone,

Thank you for your patience. Our Minister's Office has completed reviewing the fourth distribution of the papers. The edits have been saved in their respective section folders on the iDoc drive in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- A reminder to DPCs and contributing authors that all initiatives that do not have the appropriate approvals in place must be **identified** (i.e., items that require LRC, TB/MBC or Cabinet approval must be square bracketed). Staff are required to indicate where the initiative is tracking and what date using square brackets. This must be inputted into the papers.
- Items currently tracking for inclusion in the Spring Bill must be referenced in the Document. If the item does not fit the narrative of a particular chapter, it should be moved to the Technical Amendments section in the Tax Chapter (Chp. 7). (*See the 2015 Budget*[fin.gov.on.ca] *(pg. 343) and 2016 Budget*[fin.gov.on.ca] *(pg. 338) for examples).*
- The papers are being reviewed by proofreaders as well as the MO. Please ensure to incorporate as many proof-reader edits where applicable**.** The edits are labelled (*MOF8*).

  Comms advisors may be in touch with DPCs to include placeholder language

on Budget Talks initiatives in this turn of the papers. These should be included in the papers as break out boxes.

- Please identify chapter contributors throughout each section of the papers.
    - Each subsection should have a contributing author identified using square brackets.

PROCESS

1. EA's a friendly reminder that the **Outstanding Approvals Tracker is due EOD today.** If there are difficulties connecting with lead authors or If you anticipate missing this deadline please let me know.
2. MO edits must be reviewed and incorporated into the papers. **It has been brought to our attention that edits are not being accepted and rational is not being provided by divisions. A reminder that If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker MUST be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 17.**
    - Please let me know if you will sending your tracker late

TIMELINES

3. **As you may know, the timelines for sign-off have shifted one week later.**
    - MO will provide edits on the 5th distribution on **Wednesday March 22nd.** These edits will be made available in the iDoc drive.
    - Branch Review will take place the following week on **Wednesday March 29th.**

Key Upcoming Dates:

March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution
Mar. 22: MO Feedback on the 5th Distribution
Mar. 24: Sixth draft of papers due to BudSec at NOON for the sixth Distribution
Mar. 28: MO feedback on the 6th Distribution
Mar. 28: Final Instructions for Spring Bill items due
Mar. 29: Branch Review
Mar. 30: Director Sign-off
Mar. 31: Line Ministry Sign-off
April 4: Final Spring Bill draft due

If you have any questions, please feel free to contact Alana or myself.

Thanks,
Ron

Subject: DPAC Update #10 | Fourth Distribution | March 10, 2017

Good morning everyone,

Today is the fourth distribution of papers.

PROCESS

1. **The fourth draft of your papers are due to BudSec at NOON today.**
   - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
2. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
   - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
   - **Completed Feedback Trackers are due to me by 3PM on Friday March 10.**
3. **Sign-offs are a few weeks away. Instructions will be circulated to divisions next week.**
   - We will also be hosting sign-off training for DPCs. You will receive a calendar invite in the near future.

TIMELINES

4. **The Minister's Office will provide feedback on the fourth distribution on March 15.**
   - The edits will be provided in track changes and will be made available in the iDoc drive.
   - I will notify divisions when the edits become available.

Key Upcoming Dates:

March 10: Fourth draft of papers due to BudSec at NOON for the fourth Distribution

March 15: MO Feedback on the 4th Distribution
March 15: Initial Spring Bill instructions
March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution
March 21: MO Feedback on the 5th Distribution
March 22: Branch Review
March 23: Director Sign-off
March 24: Line Ministry Sign-Off
March 28: Final Spring Bill Instructions due
If you have any questions, please feel free to contact Alana or myself.
Thanks,
Ron

Subject: DPAC Update #9 | MO Feedback on Third Distribution | March 8, 2017

Good morning everyone,
Our Minister's Office has reviewed the third distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS
A few comments for the next round:

- All subtitles throughout the Document, should contain a verb describing the

action being taken with each initiative. (i.e., Strengthening, Modernizing, Expanding, Implementing, etc.)

- Rename "*Commitments Since 2013*" sections to "*Achievements Since 2013*".
- DPCs and contributing authors must identify all initiatives that do not have the appropriate approvals in place (i.e., items that require LRC, TB/MBC or Cabinet approval must be square bracketed). Staff are required to indicate where the initiative is tracking and what date using square brackets. This must be inputted into the papers.

PROCESS

1. A reminder that l**ead DPC's should be reaching out to key contributors to relay MO edits** or any other key information related to the chapter.
    - If you have any questions about the required edits, please send me an email and I can follow up with our Minister's Office.
2. **MO edits must be reviewed and incorporated into the papers**. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 10.**

TIMELINES

3. The fourth distribution is this Friday. **Revised papers are due to Budget Secretariat at 12PM on Friday March 10.**

Key Upcoming Dates:

March 8: MO Feedback on the 3rd Distribution
March 10: Fourth draft of papers due to BudSec at NOON for the fourth Distribution
March 15: MO Feedback on the 4th Distribution
March 15: Initial Spring Bill instructions
March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution
March 21: MO Feedback on the 5th Distribution
March 22: Branch Review
March 23: Director Sign-off
March 24: Line Ministry Sign-Off
March 28: Final Spring Bill Instructions due

Subject: DPAC Update #8 | Revised Timelines | March 3, 2017

Hi everyone,

Thank you for submitting your papers for this evening's distribution. As promised, I wanted to provide you with an update to the production schedule.

1. **Tentative Release Date Change**
   - The tentative release date has been revised. New calendars will be put on distribution today that provide details of the changes.
   - Two additional distributions have been added to the schedule (March 10th and March 17th).
   - A reminder that the release date is confidential and should not be shared with anyone outside of MOF/TBS.
2. **MO Feedback on 3rd Distribution – Wednesday March 8**
   - As a result of the date change, we expect edits from the MO on Wednesday morning (not Tuesday as mentioned earlier today).
   - Tracked changes versions will be available to DPC's in the iDoc around **10:00am.**
   - As always, please wait for the email from myself to advise that the files are ready for pick up.
3. **Distribution #4 – Friday March 10**
   - Papers are to be submitted to BudSec on **Friday March 10 at 12:00pm**.

Key Upcoming Dates:

March 3: Third Distribution of the papers
March 8: MO Feedback on the 3rd Distribution
March 10: Fourth draft of papers due to BudSec at NOON for the fourth Distribution
March 15: MO Feedback on the 4th Distribution
March 17: Fifth draft of papers due to BudSec at NOON for the fifth Distribution
March 21: MO Feedback on the 5th Distribution
March 22: Branch Review
March 23: Director Sign-off

Thanks for your ongoing flexibility during the process. If you have any questions, please feel free to contact Alana or myself.

Have a great weekend!

Ron

Cc: Chaput, Brandon (MOF); McLean, David (MOF); Pearce, Christopher (MOF); Young, Gwendolynne (MOF); Clarke-Darshanand, Jamille (MOF); Kim, Minzi (MOF) 1; MacIntyre, Kyle (TBS); Simone, Nicole (TBS); Nelson, Dane (TBS); @FIN-L-O-OB-All; @FIN-L-O-BudSec Production Team
Subject: DPAC Update #7 | Third Distribution | March 3, 2017

Good morning everyone,

Today is the third distribution of papers.

PROCESS

1. **The third draft of your papers are due to BudSec at NOON today.**
   - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
2. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
   - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
   - **Completed Feedback Trackers are due to me by 3PM on Friday March 3.**

TIMELINES

3. **The document production timelines are currently being reviewed**. An update will be provided later this evening once available.
4. **Under the current timelines, the Minister's Office will provide feedback on the third distribution on March 7.**
   - The edits will be provided in track changes and will be made available in the iDoc drive.
   - I will notify divisions when the edits become available.

Key Upcoming Dates:

March 3: Third draft of papers due to BudSec at NOON for the third Distribution

March 7: MO Feedback on the 3rd Distribution (TBD)

March 7: Branch Review (TBD)

March 8: Director Sign-Off (TBD)
March 9: Line-Ministry Sign-off (TBD)
If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Ronald Jaikaran
Team Lead, Document Policy Advisor and Coordinator

Subject: DPAC Update #6 | Second Distribution | March 1, 2017

Good morning everyone,
Our Minister's Office has reviewed the second distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Feedback".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

A few comments for the next round:

- Items currently tracking for inclusion in the Spring Bill must be referenced in the Document. If the item does not fit the narrative of a particular chapter, it should be moved to the Technical Amendments section in the Tax Chapter (Chp. 7). (*See the 2015 Budget*[fin.gov.on.ca] *(pg. 343) and 2016 Budget*[fin.gov.on.ca] *(pg. 338) for examples).*
- The content in the **Commitments since 2013** text boxes should be presented in the form of infographics, similar to the 2016 FES brochures. Text boxes should

no longer be used. (*See the following links for examples*: Education[fin.gov.on.ca], Health Care[fin.gov.on.ca], Jobs[fin.gov.on.ca])

- In the yellows, you may see comments that say "To be discussed at weeklies". The MO would like to discuss these items further at their weekly meetings with divisions. If you require further information or context, I'm happy to follow up with the MO.

PROCESS

1. A reminder that l**ead DPC's should be reaching out to key contributors to relay MO edits** or any other key information related to the chapter.
    - If you have any questions about the required edits, please send me an email and I can follow up with our Minister's Office.
2. **MO edits must be reviewed and incorporated into the papers**. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday March 3.**
3. Our Deputy has reached out to line ministries regarding Document security. Please see attached memo and protocols. You may reach out to LMs as required. Please remember that your ADM should be aware of any line ministry outreach.

TIMELINES

4. The third distribution is this Friday. **Revised papers are due to Budget Secretariat at 12PM on Friday March 3.**
5. The current production schedule is under review. We will provide updates later this week of any changes to the current timelines.

Key Upcoming Dates:

March 3: Third draft of papers due to BudSec at NOON for third Distribution
March 6: MO Feedback on the 3rd Distribution
March 7: Branch Review (TBD)
March 8: Director Sign-Off (TBD)
March 9: Line-Ministry Sign-off (TBD)

If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #5 | Second Distribution | February 24, 2017

Good morning everyone,

Happy Friday! Today is the second distribution of papers.

PROCESS

1. **The second draft of your papers are due to BudSec at NOON today.**
    - DPCs, please submit your papers in the iDoc drive. Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
    - If you have any technical or timing issues with submitting, please contact your BudSec paper coordinator.
    - The papers will be distributed this evening.
2. **A reminder to contributing authors to work with lead DPCs to ensure your content is inserted in the correct chapter.**
    - The revised contact list has been attached if you are unsure who you should be connecting with.
3. **Alana and I connected with impacted DPCs yesterday in regards to chapter title changes.** Please ensure that these changes are reflected in this turn of the papers it would be appreciated. If you need a reminder please get in touch with us.
4. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
    - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
    - **Completed Feedback Trackers are due to me by 3PM on Friday February 24.**
5. **The Minister's Office will provide feedback on the second distribution on March 1.**
    - The edits will be provided in track changes and will be made available in the iDoc drive.
    - I will notify divisions when the edits become available.

Key Upcoming Dates:

February 24: Second draft of papers due to BudSec at NOON for Second Distribution

February 24: MO Feedback Tracker due at 3PM
March 1: MO Feedback on the 2nd Distribution
March 3: Third draft of papers due to BudSec at NOON for third Distribution
March 6: MO Feedback on the 3rd Distribution
March 7: Branch Review
If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #4 | MO Feedback on First Distribution | February 22, 2017

Good morning everyone,
Our Minister's Office has reviewed the first distribution of the papers. **The edits have been saved in their respective section folders on the iDoc drive** in folders called "MO Edits".

- DPCs, if you have issues accessing your files or need access to a paper you do not lead, please contact your BudSec paper Coordinator (listed in the Production Contact List).

MO FEEDBACK & GENERAL COMMENTS

1. Overall, our Minister's Office was pleased with the first draft of the papers. A few comments for the second distribution:
    a. All chapters should be written using the following structure:
        Introduction
        - This should be a summary of the chapter and no more than 2pages
        - It should summarize the types of commitments the chapter will

cover
- Include value statements (i.e., Why this section/topic is important? What outcome is the government is trying to achieve?)

Highlights since 2013

- This should be in the form of a text box/call-out box on a separate page following the introduction
- Highlights/accomplishments should be written in succinct bullet points
- The page can include pictures, graphics, icons or other visuals.

Initiatives

- When describing individual initiatives, the narrative should follow our lens and answer the following:
  - What is the government's commitment?
  - Why it's important?
  - What outcomes is the government trying to achieve? What are the key performance indicators?

b. When referencing investments, please be specific about where/what region in Ontario the investments are taking place.

c. Some MO comments in the papers say "Suggested KMs" – these Key Messages are meant to be a guide and not copied word-for-word into the narrative.

PROCESS

2. A reminder that l**ead DPC's should be reaching out to key contributors to relay MO edits** or any other key information related to the chapter.
   - If you have any questions about the required edits, please send me an email and I can follow up with our Minister's Office.
3. **MO edits must be reviewed and incorporated into the papers**. **If there are MO edits that aren't incorporated** into the next distribution, the **attached feedback tracker must be filled out providing clear rationale** for not including the MO's edits.
   - The tracker provides an opportunity to convey comments and considerations to the MO regarding their edits.
   - **Completed Feedback Trackers are due to me by 3PM on Friday February 24.**
4. EAs, please remember to set up weekly meetings with your teams and MO advisors to discuss Document narratives and feedback.
   - MO Advisors are listed in the table of contents that was part of the first distribution
   - If you're unsure of who you should be contacting, please feel free to get in touch with me.
5. **A teleconference** will be set up later this week to check in and to discuss any issues that may arise before the second distribution. Stay tuned for further details. As always, feel free to contact Alana or myself with any additional questions you may have.

TIMELINES

6. The second distribution is this Friday. **Revised papers are due to Budget Secretariat at 12PM on Friday February 24.**

Key Upcoming Dates:

February 22: MO Feedback on 1st Distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution
February 24: MO Feedback Tracker due at 3PM
March 1: MO Feedback on the 2nd Distribution
March 3: Third draft of papers due to BudSec at NOON for third Distribution
March 6: MO Feedback on the 3rd Distribution
March 7: Branch Review

If you have any questions, please feel free to contact myself or Alana Rowe.
Thanks,
Ron

Subject: DPAC Update #3 | Lockdown & First Distribution | February 17, 2017

Hi everyone,
Today is the first day of Lockdown and the first distribution of papers.

PROCESS

1. **A friendly reminder that the first draft of your papers are due to BudSec at NOON today**
   - DPCs, please submit your papers in the iDoc drive.
   - Once you've saved your file in the drive, please email your BudSec contact, cc'ing Alana and myself to notify us that your paper is ready.
   - If you have any technical or timing issues with submitting, please contact your BudSec paper coordinator.
   - The papers will be distributed this evening.

2. EAs, please submit your line ministry (LM) contacts template by **EOD today**
    - **Divisions are asked to use the attached template to identify LMs that you think will need to be involved in developing major components of the Document narrative in advance of line-ministry sign-off**.
    - The complete list of LMs will be reviewed by our Deputy and Minister's Office. Once approved, we will be reaching out to the identified contacts to ensure they have the appropriate security training needed to be involved in the Document process.
3. **The Minister's Office will provide feedback on the first distribution on February 22.**
    - The edits will be provided in track changes and will be made available in the iDoc drive.
    - I will notify divisions when the edits become available.
4. **Document Protocols (Production, Communication & Security)**
    - Please take a few minutes to review the attached protocols. They identify roles, responsibilities and outline the best practices and guidelines during the Document process.

SECURITY

5. **Today is the first day of Document Lockdown.** The Frost building will be under enhanced security protocols (*see attached Security Bulletin for details*) . Please keep in mind the following protocols:
    - Watch out for "piggybacking" at both the main entrance and the entrance to your floor. Every person must swipe in. Staff should not hold the door open for any unknown guests.
    - Please ensure that yellow papers are never left unattended and are locked whenever you are away from your desk.
    - Yellow paper should not be put in the shredding bins.
    - All Document-related files must be password protected with the 2017 Document internal or external passwords.

Key Upcoming Dates:

February 17: Lockdown Begins
February 17: First draft of papers due to BudSec at NOON for First Distribution
February 20: *Family Day*
February 22: MO Feedback on 1st Distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution
March 1: MO Feedback on the 2nd Distribution
You may also feel free to "unsubscribe" to these updates at any time.
Thanks,
Ron

Subject: DPAC Update #2 | Revised ToC | February 15, 2017

Good evening everyone,

Thanks for your input on the table of contents. Attached is a revised version. Please see below for further updates:

NARRATIVE

1. Attached is a revised **Table of Contents** outlining the structure for developing DOC narratives. We included your input and worked with the Minister's Office to update the ToC. A few things to note:
    a. Some sections have changed or merged and initiatives have also been moved around.
    b. MO advisors and DPCs have been added.
2. Staff should begin drafting their narratives according to the revised ToC. Divisions are asked to craft their narratives according to the following **narrative lens** below. All narratives should respond to the following questions:
    a. What is the government's commitment? What did the government commit to in the 2016 Budget?
    b. Why the commitment is important?
    c. What outcomes will the government's plan achieve?
    - Divisions should be working together on their narratives as many sections throughout the Document have multiple contributing authors.

SECURITY

3. Each year, line ministries (LMs) are involved in developing the Document narratives. This year, we're introducing **a new security measure** in accordance with the recommendations of our recent review of Document security measures.
    a. **Divisions are asked to use the attached template to identify LMs that you think will need to be involved in this year's Document development** in advance of line-ministry sign-off.

i. The complete list of LMs will be reviewed by our Deputy and Minister's Office. Once approved, we will be reaching out to the identified contacts to ensure they have the appropriate security training needed to be involved in the Document process.

    b. **Please send your completed templates by end of day Friday Feb. 17.**
4. A reminder that **security training sessions** are still being held for new staff and

anyone that would like a refresher. The following sessions are still available:

- Thursday February 16 – 2pm to 3pm
- Wednesday February 22 – 2 pm to 3 pm
- Thursday February 23 – noon to 1 pm
- Friday February 24 – 10am to 11am

a. Please contact **Lee Zavagno** to enroll your staff in security training.
b. If additional sessions are required, please let me know, we'll arrange to have those set up.

PROCESS

5. You should all have received an email from Document, Production (MOF) requesting your computer information. Please review that email and submit your computer information. This will ensure that you receive distributions when they are sent out.

TIMELINES

6. A complete planning and production calendar is still under development and will be circulated to divisions via secure distribution later this week.

Key Upcoming Dates:
February 16: Security Awareness Training (2:00 pm- 3:00 pm)
February 17: Lockdown Begins
February 17: First draft of papers due to BudSec at NOON for First Distribution
February 20: *Family Day*
February 22: MO Feedback on 1st distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution
Please don't hesitate to contact me with questions.
You may also feel free to "unsubscribe" to these updates at any time.
Thanks,
Ron

Subject: DPAC Update #1 | Welcome to the 2017 Document Process | February 13, 2017

Good evening,
As many of you already know, the 2017 Budget process is well underway. Similar to years past, I'll be providing regular DPAC Updates to ensure we're on the same page

and remain aligned throughout the process. There will be a mix of email updates, teleconferences and in-person meetings this process.
Please feel free to forward this email along to staff and/or let me know if you'd like me to add anyone to this email distribution list.
Last Friday we held a Document Planning session with your ADMs. At the meeting the following items were discussed:

NARRATIVE

1. The preliminary **Table of Contents** outlines a structure for developing DOC narratives. It outlines key contacts throughout the process.
    a. A request for divisions to review, provide comments and identify key contacts where necessary was sent to EAs on Friday. Thank you to those that have submitted their feedback. Please provide revisions to Alana cc'ing myself as soon as possible.
2. Staff should begin drafting their narratives according to the ToC. Divisions are asked to craft their narratives according to the following **narrative lens** below. All narratives should include the following format:
    a. What is the government's commitment?
    b. Why the commitment is important?
    c. What outcomes will the government's plan achieve?

PROCESS

3. Budget Secretariat has sent out a few requests for divisions to:
    a. Identify **Divisional Paper Coordinators (DPCs)**, Production Staff Persons (PSPs) and Briefing Book Coordinators (BBCs). Please review the request and provide a response by Monday February 13th.
    b. Review **Divisional Distribution Lists**, based on previous document processes, to be updated for the upcoming 2017 Spring Document Process. Please review and provide a response by Tuesday February 14th at noon.
4. A **briefing schedule** is currently being developed and will be circulated to divisions in the near future.

SECURITY

5. Maintaining high standards of confidentiality help preserve the integrity of the document development process. It is important that we adhere to the best practices throughout the process.
    a. **Passwords**: The new 2017 DOC passwords were communicated verbally to all divisions. Please feel free to call me if you do not know the 2017 DOC passwords. **The passwords should not be shared via email.**
    b. **Security Awareness Training**: Sessions have been set up (See attached email). **Attendance is mandatory for all new staff, however existing Frost Complex staff are encouraged to attend security training for a refresher.** Sessions will take place on:
        - Tuesday February 14 – 11 am to noon
        - Wednesday February 15 – noon to 1pm
        - Thursday February 16 – 2pm to 3pm
        - Wednesday February 22 – 2 pm to 3 pm

- Thursday February 23 – noon to 1 pm
- Friday February 24 – 10am to 11am

c. Please contact **Lee Zavagno** to enroll your staff in security training.
d. If additional sessions are required, please let me know, we'll arrange to have those set up.

TIMELINES

6. A complete planning and production calendar will be circulated to divisions via secure distribution later this week.

Key Upcoming Dates:
February 13: Deadline to identify DPCs and PSPs
February 14: Deadline to submit Distribution Lists (Noon)
February 14: Security Awareness Training (11:00 am-12:00 pm)
February 15: DPC Training
February 15: Security Awareness Training (12:00 pm- 1:00 pm)
February 16: Security Awareness Training (2:00 pm- 3:00 pm)
February 17: Lockdown Begins
February 17: First draft of papers due to BudSec at NOON for First Distribution
February 22: MO Feedback on 1st distribution
February 22: Security Awareness Training (2:00 pm- 3:00 pm)
February 24: Second draft of papers due to BudSec at NOON for Second Distribution
Please don't hesitate to contact me with questions.
You may also feel free to "unsubscribe" to these updates at any time.
Thanks,
Ron

Ronald Jaikaran
Team Lead, Document Policy Advisor and Coordinator

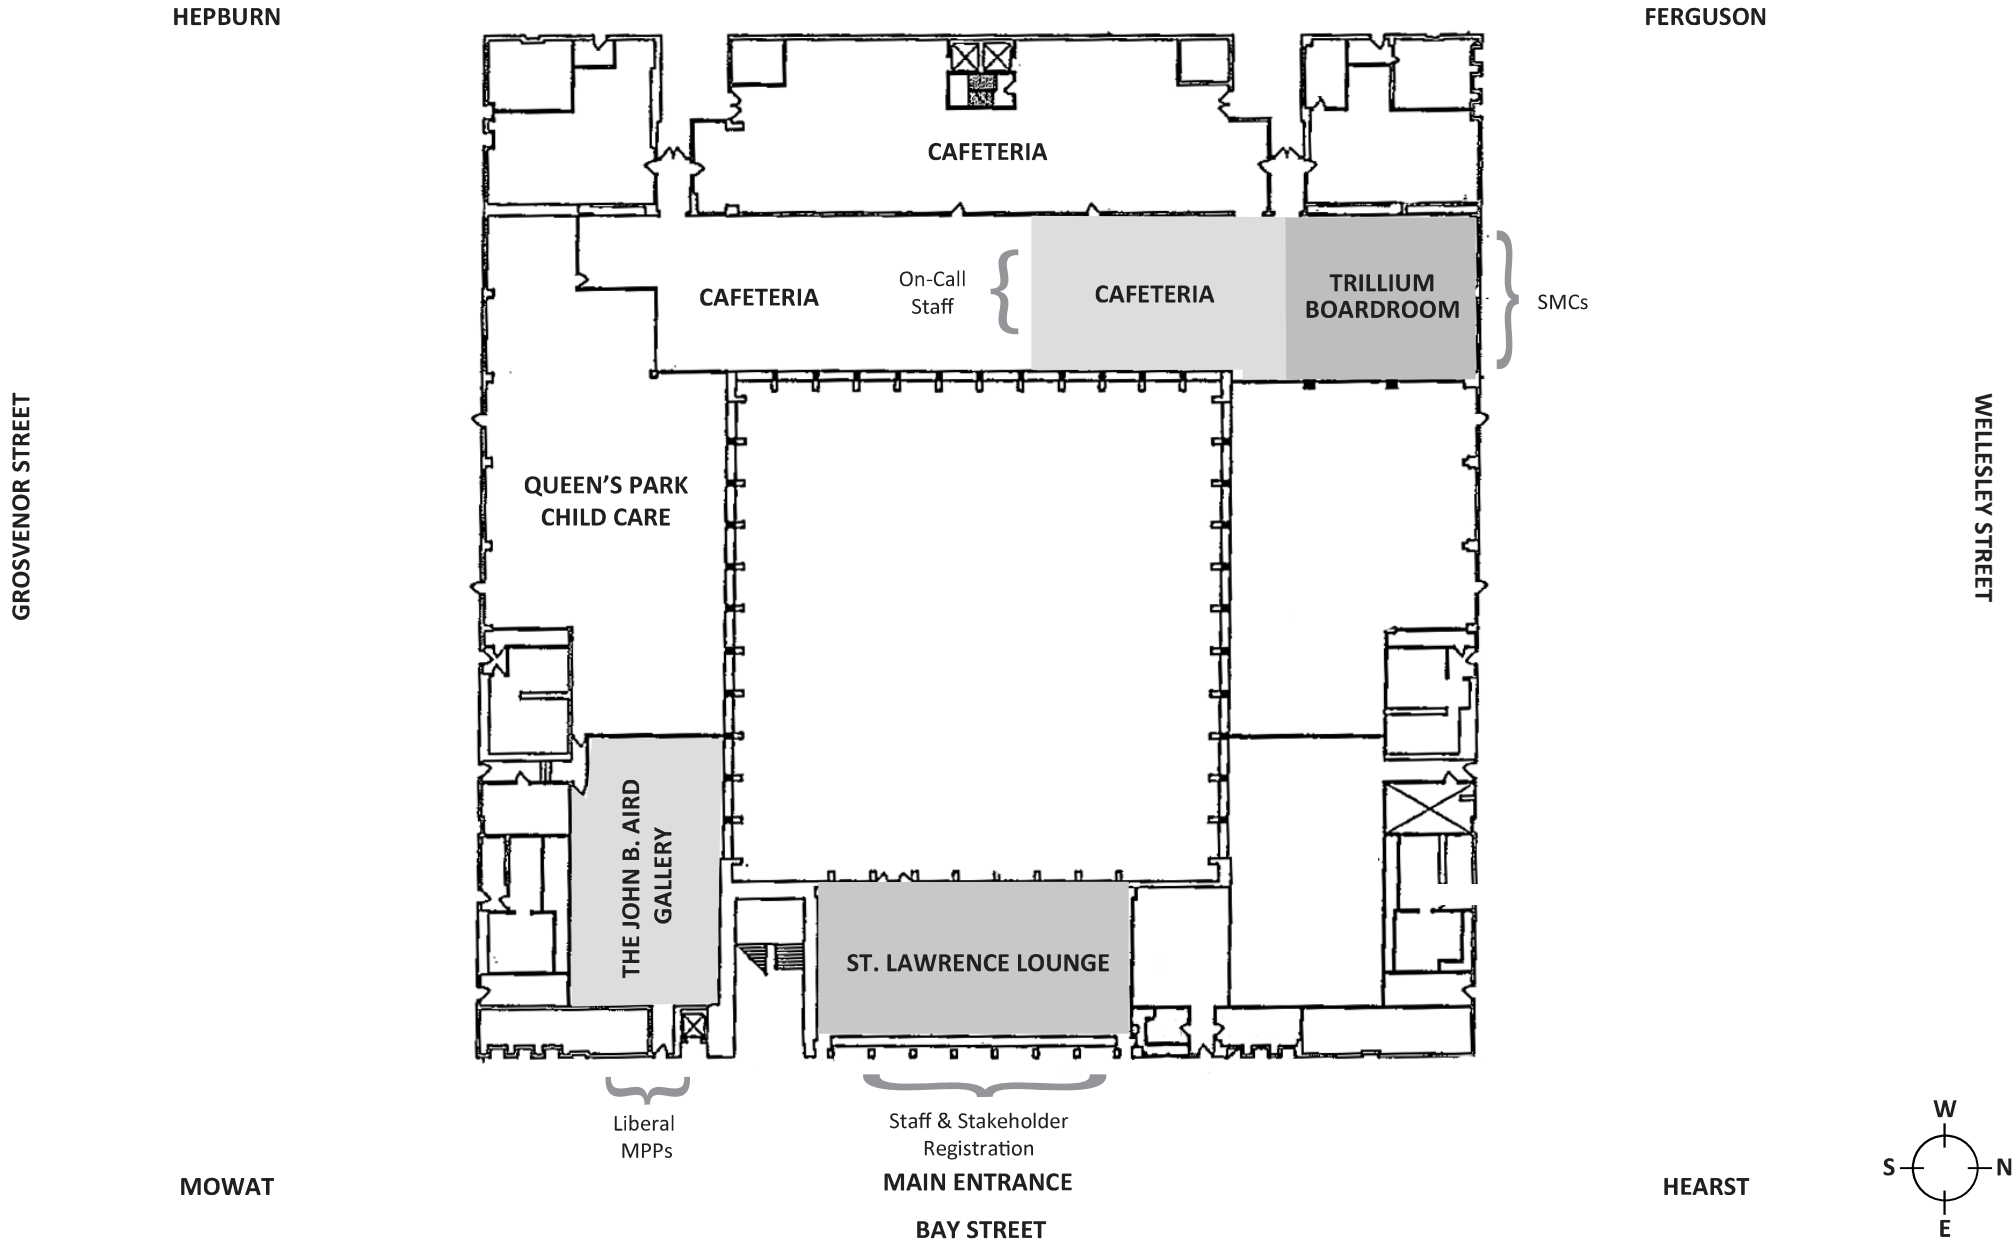
2017 BUDGET LOCKUP — Room Allocations

Macdonald Block First Floor

Prepared by Budget Secretariat
416-325-1588
Updated on March 23, 2017

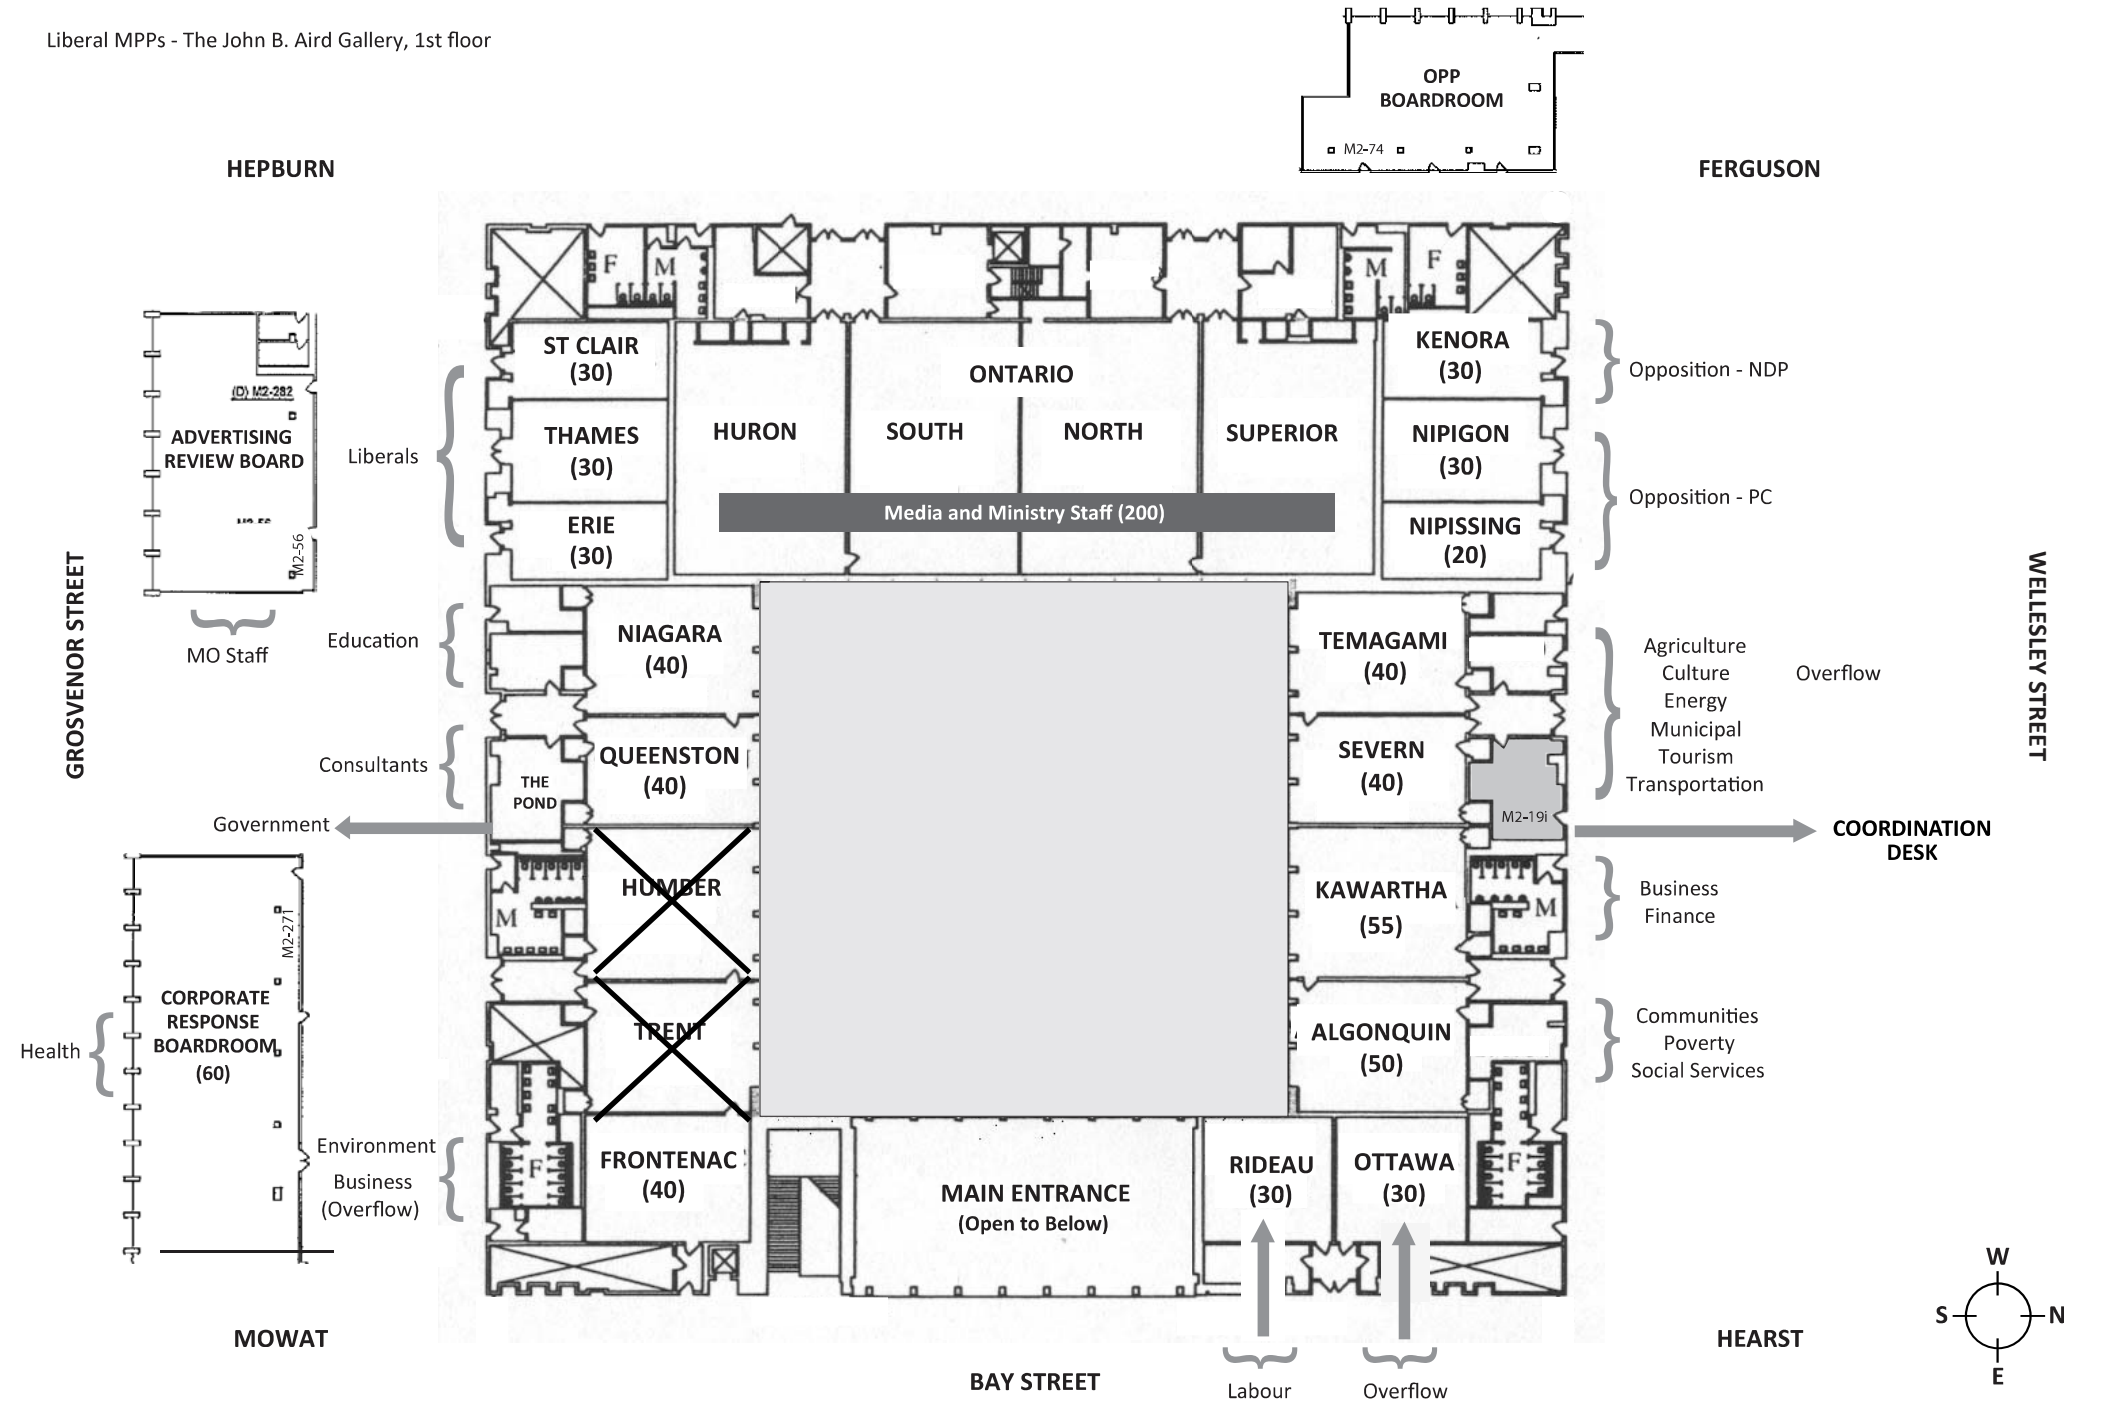


2017 BUDGET LOCKUP — Room Allocations

Macdonald Block Second Floor

Prepared by Budget Secretariat
416-325-1588
Updated on March 23, 2017

Liberal MPPs - The John B. Aird Gallery, 1st floor



2017 BUDGET LOCKUP PRIMER

The Budget Lock-Up provides the media and other stakeholders with the opportunity to review the Budget and have their questions answered in a secure environment. As a policy contributor, you may be:

On-call offsite: You should be available by email or phone over the course of the day and able to arrive at the lock-up within about 10 minutes of being alerted to answer a media, political party or stakeholder question.

On standby onsite: You will be stationed in the Staff Lounge (Macdonald Block cafeteria) and will be alerted when you are needed to answer a media, political party or stakeholder question.

Designated to the media lockup: If you are responsible for a policy area that is anticipated to be of high interest to the media, you will be stationed in the Huron Room. The DPAC will inform you in advance.

Staff Registration – St. Lawrence Lounge

Badges are required to access Lock-up. Staff can register and pick-up a badge in the St. Lawrence Lounge on the main floor of the Macdonald Block (facing the 900 Bay Street exit). Please bring your ministry photo ID and your lanyard, as you will be required to wear your badge at all times.

Staff assigned to the media lock-up: pick up your badge before reporting to the Ontario/Huron rooms.

All other staff (i.e. staff on-call): you can register and pick up a badge once you are notified and dispatched to a room to answer a question.

Media Lock-Up *(8:00am – 4:00pm, Ontario/Huron Rooms)*

Media will begin to arrive around 8:00 am. Designated policy experts should arrive by 9 a.m. to answer media questions. Policy experts will be grouped and seated by subject area.

Please note that subject areas and policy experts may change over the course of the day to best serve the media; a Communications staffer will advise you of any changes.

For media questions outside the scope of the designated policy experts in the room, alert a Communications staffer who will work with the policy coordination desk to ensure the appropriate expert is dispatched to the media lockup to answer the question.

Designated policy staff must clear the Huron room at 12:40 p.m., at which point they can move to the cafeteria for lunch.

All ministry staff* must clear the media lockup during the press conferences (*except SMC). Members of the senior management team can also watch the press conference on a closed-circuit TV in the Trillium boardroom (1st Floor, cafeteria area).

Other staff should go to the cafeteria or their offices and be on-call for stakeholder lockup in the afternoon.

MPP Lock-Up *(9:00am – 4:00pm, multiple rooms)*

Lock-Up for the Liberal and Opposition MPPs (NDP and PC) and their political staff begins at 8:30 a.m. MPPs are escorted from their lockup to attend the Legislature at 3:30 p.m. Political staff will remain in Lock-Up until the Budget is released. Executives brief the NDP at 10:00 a.m. and the PC at 10:30 a.m.

Stakeholder Lock-Up *(12:00pm–4:00 pm, multiple rooms)*

Stakeholders will begin to arrive at noon and their Lock-Up will start at 1:00 p.m.

Every room will have inquiry cards available for stakeholders to ask questions. At regular intervals (every 5-10 minutes), volunteers will collect completed inquiry cards and deliver them to the policy coordination desk. The policy coordination desk will log stakeholders' questions and ensure appropriate policy staff are dispatched.

Policy experts are expected to be available on-site or on-call (within a 10-minute walking distance from Macdonald Block), and must report to the policy coordination desk if they are called to answer a question.

ADDITIONAL INFORMATION

Staff Lounge - Cafeteria

Managers, staff and line-ministry support will be accommodated in the cafeteria on the main floor of Macdonald Block. Copies of the Budget will not be available in the cafeteria. As questions arise, staff will be dispatched from the cafeteria to the appropriate Lock-Up room. Staff should remain in their Queen's Park offices until contacted.

Executive Lounge – Trillium Boardroom

MOF/TBS Directors, EAs and ADMs who are not assigned to the media lockup should congregate in the Trillium boardroom, located inside the Macdonald Block cafeteria. As questions arise in the lock-ups, executives will be called out of the Trillium boardroom to respond. Accommodating executives in this central location will ensure the policy coordination desk can locate policy experts quickly.

Copies of the Budget will be available as well as a closed-circuit TV to view the press conferences. OPP will monitor access and ensure budget documents do not leave this room.

Policy Coordination Desk – Room M2-19 (beside the Severn Room)

The policy coordination desk will be located in Room M2-19 (beside the Severn Room) and serves as the central hub for receiving inquiry cards from stakeholders and arranging for each question to be answered.

Transmitting Devices

Transmitting devices (i.e., BlackBerries, personal smartphones) are NOT allowed in the lock-up rooms until the lock-up is released. OPP will have scanners to ensure this rule is strictly enforced. If you are on-call and are requested to answer a question at Lock-Up, turn off your device before entering. You are permitted to use transmittal devices in the hallways or in the cafeteria.

EMERGENCY PROCEDURES

Fire Alarm

In the event of an emergency, please take your direction from the OPP officers only.

You will be directed to evacuate the building.

If you require assistance, please alert an OPP officer so arrangements can be made to assist you.

Medical Emergency

In the event of a medical emergency, please alert an OPP officer who can provide appropriate first aid.

First aid kits are available from the registration desks at the Ontario Room and the St. Lawrence Lounge.

There are multiple Automated Emergency Defibrillator (AED) units available within the Macdonald Block.

In the event that you require professional medical attention, transportation to the nearest facility will be provided.

Family Emergency

In the event of a family emergency, you can be reached through Sgt. Ryan Bennett, Queen's Park OPP Detachment at (416) 807-6323.

** Remember that if you are required to leave the building, you are not permitted to take any part of the Ontario Budget documents with you and you will remain bound by your Oath of Office until the Budget is tabled. **

2017 DOCUMENT LOCKUP CONTACTS

Subject: DRAFT IESO FH credit letter

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Regards.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

DRAFT

Hi Mike, Ken,

Did you have comments on the letter? Staff here have made some initial comments. IESO wanted to issue this this week.

I think on the last call, we had talked about it being cleaner to have a separate facility for the FHP. The draft letter seems to have a potential for IESO drawing both on the new facility and the existing one. Does that work for you?

Do the timelines and spread wording work for you?

Ron

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan~~rogram~~**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its inten~~s~~tion to implement the proposed Fair Hydro Plan~~program~~ (FHP) to reduce electricity prices for eligible consumers in the province. Proposed l~~L~~egislation ~~is expected to be~~was introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority~~'s~~ (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's spreading out of global adjustment costs~~smoothing~~ for a period of several months, if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's initial period of deferral of electricity prices~~, period~~ plus a few months of contingency (i.e., to September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 per cent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- Existing $975 million facility: draws to permit for FHP purposes until the credit agreement for FHP purposes has been made available; and

Commented [A1]: Please confirm that the requirement is $1.5 billion as it is preferred to keep the $975M separate from FHP. And see comment below.

Commented [A2]: It is preferred that a separate credit facility be set up for FHP purposes. OFA is working to obtain the appropriate approvals required. Option to use the existing facility on an interim basis may be exercised if timing does not permit putting in place a new credit facility by the time IESO needs to make a first draw.

Commented [A3]: Overall, would it be better to purely separate out the FHP borrowing – so a larger than $1.5 bn new facility, and potentially shrink the existing $975 facility?

- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is persistent~~consistent~~ usage of these facilities we will contact the OFA for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Carlos,

Further to our discussions re establishing GA financing benchmark. Attached please find the draft term sheet of the subordinated debt (from Province equity injection). Could you please review and circulate it to the appropriate contacts/group on your side. We'd also like to set up a meeting with OFA, at your earliest convenience, to go over the document and get your feedback. Please let us know your availability.

Thanks

Sheen

FINANCING TRUST – PERFORMANCE FEE TO OPG

BACKGROUND

Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest. A performance fee relating to the funding obligations will be meaningful and allow OPG to make decisions that will significantly impact its return. The Act as drafted enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.. The objective therefore is to recommend a reasonable variable performance fee structure for OPG to earn a return from the Trust, and meet the accounting requirement.

ANALYSIS OF ACCOUNTING REQUIREMENT

To support the accounting consolidation, OPG's variable performance return will be accomplished through the followings:

a. The cash flow from the investment asset shall include interest determined based on a relevant benchmark that is appropriate relative to the investment asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favorable return compared to the benchmark for interest on the investment asset
c. The Trust shall establish different classes of debt (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the investment asset, or any residual risk of investment asset. The targeted return of the subordinated debt should be reflective of the underlying risks and compensate holders for active management that would be required.

PERFORMANCE FEE ANALYSIS

Based on the accounting requirements, the recommendation is for OPG to establish a variable performance fee structure as follows:

As the Trust may issue both long term bonds and medium term notes, benchmarks based on various terms, will be established on an annual basis, subject to the following methodology:

- Benchmarks will be established as the sum of (1) reference rate, and (2) spread
    - Both reference rate and spread will be term dependant

- For bond/note issuance, reference rate will be GOC rate of equivalent term
- Reference rate will be based on consensus forecast provided by various financial institutions

- Benchmarks will be established based on the weighted average rate of incremental debt issuance at the Trust level
- If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss
- Variable performance fee, i.e. gain/loss, is applicable only to OPG's investment in the Trust (5% of the funding requirement), and is capped at benchmark weighted average rate +/-1%

An example illustrating this structure is detailed in Appendix 1

APPENDIX 1

The illustration is based on the expected Trust debt structure as follows:

	Risk Profile	Source	% of Total Funding Requirement
Tranche A Senior Debt	the least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt	the most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

1. Benchmark is to be established at each year end for Trust issuance next year. In this example, assuming the following benchmark is established as of end of Yr 1

		Benchmark
Tranche A	51%	4.25%
Tranche B Sub Debt	39%	5.50%
Tranche C Sub Debt	10%	6.50%
Weighted Average Rate		**5.0%**

2. By the end of Yr 2, OPG will calculate the actual weighted average rate for all incremental issuance for the year. If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss.

	Allocation	Benchmark	Actual
Tranche A	51%	4.25%	5.0%
Tranche B Sub Debt	39%	5.50%	5.60%
Tranche C Sub Debt	10%	6.50%	6.60%
Weighted Average Rate		**5.0%**	5.4%
		Loss	0.4%

3. Variable management fee, i.e. gain/loss, is applicable only to OPG's investment (5% of the Trust funding requirement), and is capped at benchmark weighted average rate +/-1%.

   Based on the example above and assume incremental Trust issuance is $2B, OPG will realize loss of variable performance fee of 0.4M ($2B*5%*0.4%)

---

Hi Graham and Connie
I am just going through my emails and according to this the interest rate on the debt issued by OPG to the Trust from the 44% equity injection of the Province is in fact linked to the senior debt (debt issued to the markets). Hence the debt relating to the 44% can in fact be included in the benchmark, though on a mathematical basis I am curious as to whether a component in the benchmark that is fact linked to another also in the benchmark adds any substantive value.
Perhaps you can think about that Monday morning and can also raise it at the OPG meeting.
Thanks
Ken k

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

Hi All,

Attached is a briefing deck for the Minister of Energy on the FHP Provincial Guarantee. The OFA has been asked to provide review and comments by EOD today.

They're also looking for an OFA attendee for the Minister of Energy's briefing next week, so please let me know if any of you would be willing to attend.

Thanks,

Matt Breadner on behalf of Anna Strathy

Subject: Draft Provincial Guarantee Deck

Hi Matt,

ENERGY has asked us to prepare a product for a Minister's briefing next week on the OFHP. They wanted a specific product on the Provincial Guarantee. Given the main OFA folks working on this file are on vacation, I've prepared the attached draft deck. I was hoping you could circulate this to folks internally for review and comment. We've been asked to provide a draft deck to the DMO tomorrow. Could you please aim to provide any OFA comments by end of day today.

Also, is there someone from the OFA who could attend next week's briefing to answer questions as required? Please let me know who that might be.

Thanks in advance,

Keley

Provincial Guarantee

Briefing for Minister of Energy

DRAFT – Tuesday August 22nd, 2017

CONFIDENTIAL & COMMERCIALLY SENSITIVE

Background

- The *Fair Hydro Act, 2017,* enables the IESO to create a regulatory asset approximately equal to the difference between collections from current ratepayers and payment obligations to generators
    - The IESO can then sell the regulatory asset and has the right to recover those deferred amounts from specified consumers in the future
    - OPG as the Financial Services Manager is authorized to establish one or more financing entities that may incur funding obligations
    - The Financing Entity will purchase the regulatory asset, effectively financing the shortfall in current rates not received from ratepayers
- To purchase the regulatory asset from the IESO, the Financing Entity must borrow a portion of the funds from capital markets
    - OPG's financial advisors have indicated that without adequate protection against legislative, judicial and organizational risk, the debt would not be financeable
- OPG has requested that the Province provide a guarantee to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would step in and assume the funding obligations of the Financing Entity

Provincial Guarantee

- Certain events that would negatively impact holders of Fair Hydro Plan debt would activate the Provincial Guarantee, including:
    - Decisions by the Legislative Assembly, i.e., repeal of the *Fair Hydro Plan Act, 2017*, or amendments or new legislation that adversely affect the Financing Entity
    - A court decision that declares any funding obligations of the Financing Entity to be invalid or unenforceable
    - Changes to the organization, structure or operations of IESO adversely impacting the Financing Entity
- In the event the guarantee is triggered, the Province would take over the obligations of the Financing Entity including principal and interest payments on debt issued to date and any outstanding payments to service providers
- The guarantee would continue until all guaranteed obligations of the Financing Entity are fully discharged
- The guarantee may need to be revised at a future date, or approval from the Province may be required, if the financing entity must access US market as investors in that market will likely require additional compensation if the guarantee is triggered

Considerations

- If a guarantee is not provided, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from the IESO or the cost of the financing will be potentially materially greater than it otherwise would be
- If a guarantee is provided, the Province takes on a contingent liability
    - The amount of the liability will increase over the duration of the Fair Hydro Plan and peak at an estimated [$24B to $26B (TBC)] of debt principal, along with associated interest payments
- In the event the guarantee is triggered, the Province's net debt will increase by an amount equal to the contingent liability at that point in time
    - The Province's interest payments will also increase by an amount equal to the weighted average cost of the debt it has assumed under the guarantee

Events Not Covered by the Provincial Guarantee

Short Term Debt Financing Takeout Risk

- Monthly purchases by the financing entity would initially be financed using short term debt as the financing entity needs to warehouse a larger amount for efficient execution in the term debt markets
    - Short term debt providers are exposed to the risk that takeout funding is not available in term debt markets for a period of time
- If this short term debt is not repaid by the end of the short term debt facility commitment this risk would be addressed through an escalation of the pricing of such short term debt:
    - Interest rate for short term debt increases by a specified amount at the time of the event until the moratorium period ends
    - Thereafter, interest rate increases by a further specified amount for every additional 6 month interval during which the short term debt remains unpaid

Events Not Covered by Provincial Guarantee

LDC Comingling Risk

- Clean Energy Adjustment amounts will be collected from consumers by LDCs and held until remitted to the IESO / financing entity
    - For any LDC which is not rated by rating agencies which are rating the funding obligations, the agencies will require these LDCs to remit collections daily, unless a mitigation strategy is in place
- The majority of LDCs are not rated and it would be cost prohibitive to establish ratings for these entities; 10 LDCs are collectively rated by S&P, DBRS and Moody's
    - It is estimated that LDCs not rated by any agency deliver power to ~25% of the Ontario electricity market
- This risk could be addressed through providing the financing entity with a letter of credit:
    - Amount of letter of credit is approximately one to two months estimated collections from all unrated or non-investment grade LDCs
    - Letter of credit to be provided by the IESO on behalf of the LDCs
    - Cost of the letter of credit and any amounts drawn can be recovered by the IESO through the Global Adjustment
- Alternatively, this risk may be addressed by the IESO depositing funds into a reserve account for a similar amount or the IESO contractually agreeing to assume responsibility for paying the CEA amounts required to be remitted by such LDCs

Next Steps

- Finalize draft term sheet, working with OPG / OFA / MOF / Legal / Dealers
- Ministry of Finance to seek necessary approvals from TB / MBC
- [Others]

Subject: RE: Draft Provincial Guarantee Deck for Minister of Energy Briefing

Keley,

I have attached some comments. Because it is a powerpoint, there are no track changes.

I have some larger concerns. The current proposal in the draft term sheet is based on the proposal of OPG and the Dealers, and there are a number of issues with the new way that it is structured. I think the materials need to reflect the contingent nature and the fact that some of these points are

still subject to negotiation. For instance, the recent version of the term sheet collapses the former "performance guarantee" of the Province with respect to the IESO to a change in law type of provision, which may be acceptable after some more consideration and negotiation, but is a new concept that has not been discussed between the parties. This is one of several issues that is still up for negotiation and may change significantly from the current form.

In addition, I have changed the use of "guarantee" to "support agreement" to reflect the limited and contingent nature of the Province's obligations.

I also wonder, if given that the presentation is to the Minister of Energy, that Energy legal should take a look as well.

Let me know if I can be of further assistance.

Best,

Toby

Provincial Support Agreement

Briefing for Minister of Energy

DRAFT – Thursday August 24th, 2017

CONFIDENTIAL & COMMERCIALLY SENSITIVE

Background

- The *Ontario Fair Hydro Act, 2017,* enables the IESO to establish a variance account to record the deferral amounts from the difference between collections from current ratepayers and payment obligations to generators and conservation, and to create a regulatory asset to recover the balance in the variance account
    - The IESO can then sell the regulatory asset – the right to recover those deferred amounts from specified consumers in the future
    - OPG, as the Financial Services Manager, is authorized to establish one or more financing entities that may incur funding obligations
    - The Financing Entity will purchase the regulatory asset, effectively financing the shortfall in current rates not received from ratepayers
- To purchase the regulatory asset from the IESO, the Financing Entity must borrow a portion of the funds from capital markets (planned to be 51%, with other financing to come from OPG and, indirectly, the Province)
    - OPG's financial advisors have indicated that without adequate protection against legislative, judicial and organizational risk, the debt would not be financeable or would result in higher financing costs, to be passed on to ratepayers
- OPG has requested that the Province provide a support agreement that supports the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would guarantee the repayment of the funding obligations of the Financing Entity

Provisions Under the Act

- As contemplated under the Act, OPG is requesting a Provincial commitment to support the planned Financing Entity's ability to borrow to finance the deferral of global adjustment amounts in certain limited circumstances
- Under s.5(3) of the OFHP Act,
  - *The LGIC may by order,*
    - *Authorize the Minister (of Energy) and the Minister of Finance, acting together on behalf of the Province,*
      - *To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and*
      - *To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity*
    - *Specify terms and conditions that must be included in any guarantee or indemnity given by the Minister and the Minister of Finance*
    - *Specify a maximum liability for the guarantee or indemnity*

Provincial Support Agreement

- Certain events that would negatively impact holders of Fair Hydro Plan debt would activate the Provincial support, including:
  - Decisions by the Legislative Assembly, i.e., repeal of the *Ontario Fair Hydro Plan Act, 2017*, or amendments or new legislation that adversely affect the Financing Entity
  - A court decision that declares the rights of the Financing Entity to recover amounts from ratepayers to be invalid or unenforceable
  - Changes to the organization, structure or operations of IESO adversely impacting the Financing Entity
- In the event the guarantee is triggered, the Province may take over the obligations of the Financing Entity including principal and interest payments on debt issued to date and any outstanding payments to service providers
  - The Province could potentially service the debt and service providers rather than replace the debt with Provincial debt and could replace OPG as the financial services manager
- The support agreement may need to be revised at a future date, or approval from the Province may be required, if the financing entity must access US market as investors in that market will likely require additional compensation if the guarantee is triggered
- Additional details, including terms and conditions to be specified by the LGIC in an Order-In-Council (OIC), or by the Ministers, need to be settled on, as the approvals process proceeds

Considerations

- If a support agreement is not provided, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from the IESO or the cost of the financing will be potentially materially greater than it otherwise would be
- OPCD will need to review the details of the proposed Provincial support agreement for any accounting implications
    - E.g., an unlimited Provincial guarantee would cause the debt to be treated as Provincial debt
- If a support agreement is provided, the Province takes on a contingent liability
    - The creation of a contingent liability will not currently affect net debt
    - The amount of the liability will increase over the duration of the Fair Hydro Plan
        - The most recent estimate for total debt to be financed by a financing entity would be in the range of $11 billion (assuming a 5% interest rate)
- In the event the support agreement is triggered, the Province's net debt will most likely increase by an amount equal to the contingent liability at that point in time
    - The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it has assumed under the support agreement

Next Steps

- Continue to work through outstanding issues related to the provincial support agreement
- Negotiate draft term sheet, working with OPG / OFA / MOF / Legal / Dealers
- Ministry of Finance to seek necessary approvals from TB / MBC
- Seek LRC / Cabinet approval for OIC
    - The term sheet would inform a proposed OIC
        - Whether to include a maximum liability amount would need to be considered in developing the TB submission and the request for the OIC
- The support agreement would need to be drafted in accordance with the OIC

To: Carlos Yep ; Ronald Kwan ; John Kim ; John Psinas ; Scott Nelms (ENERGY)
Subject: Draft email for issues to be discussed with OPCD

Hi All

Pls find below the issues that we need to discuss with Cindy and staff. Pls review and give me your comments/edits at your earliest. Once we finalize I will send it off to Cindy requesting a meeting for next week.

- Provincial Support Agreement – OFA raised the issue of issuing a guarantee to OPG which in turn would guarantee the Trust, instead of a direct provincial guarantee to the latter. Cindy to indicate after discussing with OPG whether this strengthens the accounting treatment and if so is it worth pursuing.
- Provincial Support Agreement – in the event of an indemnification event what process does the Province have to recover the 44% equity funding provided to OPG and how formally should that process be structured vis a vis the requirements of the accounting treatment.
- OPG's issuance of the sub debt to the Province – a number of options are available for determining the coupon. Issuance at the upper end benefits OPG while the opposite benefits the ratepayer in terms of the debt that has to be repaid. Should the Province assume a role in this determination and if so will that have any impacts on the accounting treatment.
- OPG fees – need to review underlying language to ensure that the performance fees are capped at +-$1 million per annum. OPG proposing an asset management fee of 10bps on the AUM. Assuming the AUM is equal to the debt or the investment asset 10bps amounts to $25 million per annum in 10 years' time. Is issuance of debt actually asset management and how relevant is this fee to the accounting structure
- Mechanism for the Trust to earn interest over the first 5 years (before the CEA kicks in)

Thanks
Ken k

Subject: RE: Drafts of accounting memos

Hi Cindy

Thanks for forwarding these, I have a few comments as follows.

Happy to discuss.

Thanks

Ken K

General Comments - OPG Accounting Considerations

The paper is very OPG centric with little or no acknowledgement of the role of the other participants in the Fair Hydro Plan. It appears that OPG intends to change a performance fee and management fee as the Financial Service manager. While the latter is reasonable since the Trust will most likely leverage existing OPG resources for front and back office functions, a performance fee will only add to the value of the regulatory asset to be repaid by future ratepayers.

The performance fee appears to be based on OPG beating a pre-set benchmark cost of borrowing for the Trust. I am not sure that ratepayers should be on the hook for this, if OPG beats the benchmark the benefits should be passed on to the ratepayers not retained by the company. The reward for performance exceeding the benchmark should be limited to the compensation of OPG/Trust trading floor staff and be part of the overall management fee OPG charges for managing the Trust. The role of the Financial Services Manager should not be conflated by OPG with managing a mutual or hedge fund where gains from beating a benchmark accrue to the managing entity. Plus this also raises the question of who sets the benchmark.

The overall concept should be of fiscal neutrality, where the Trust capitalizes the actual interest incurred annually plus a reasonable administration fee paid to OPG. This will ensure that future ratepayers are not overly burdened.

Specific Comments

- Page 1 second bullet; as mentioned above rewards for performance should be limited to compensation for trading floor staff, not a performance fee for OPG, adopting the former will result in a substantially lower impact to ratepayers when compared to the latter.
- Page 2 last bullet: If the role of Financial Service Manager is taken away from OPG and given to another entity wouldn't it make sense for that entity to take on the debt incurred to date as long as that is practically feasible. It's not particularly efficient for two separate entities to be managing debt incurred for the same purpose and the ratepayers to be saddled with two sets of management fees.

- Last item on page 2, Purpose and Design of the Trust: the purpose of the Trust is not to allow OPG to earn a fee, rather to exist as a vehicle to smooth the GA costs between current and future ratepayers. OPG's fees should be limited a to a reasonable management fee and the interest fee accruing from the debt issued to the Trust funded by the 44% equity injection.
- Page 3, Financing Plan, 2nd and 3rd bullets: the ministry should have some approval authority over the Financing Plan and giving OPG the ability to unilaterally amend the plan is problematic.
- Page 3 last bullet: OPG having the power to reject purchasing the investment asset places the entire Fair Hydro Plan in jeopardy, including the possibility of a large regulatory asset being included in IESO's financial statements and by extension in the Province's PA.
- Page 4, the analysis under "Assessment": fees and Financing Plan, pls see comments above.
- Page 5, 1st bullet Fees: already covered in previous comments
- Page 5, 2nd bullet: OPG should recognize that the only 5% of its own debt is at risk, the balance 44% being funded via the equity injection the risk resides with Province since there is expectation on the part of the latter that the equity injection will also be repaid in proportion to the repayment of the debt the Trust owes to the markets.
- Page 5, 3rd bullet: wouldn't direct funding from the Province to OPG, impact the sanctity of the GBE model? In the event of a market disruption, a better approach maybe for IESO to continue accumulating the regulatory asset, however, there are accounting implications re including said asset in the Province's PA upon consolidation.
- Page 6, last two items relating to "Assessment": I am a little confused regarding OPG's exposure to variable returns, assuming the model includes a tru-up mechanism that allows the Trust to recover any variation from the pre-determined benchmark borrowing rate, the risk arising from a variance is entirely borne by the ratepayers.
- Page 9, item 4: As mentioned previously the Province should have some authority over the Financing Plan including the ability to veto provisions and/or amendments.
- Page 9, item 6: equity injection is from the Province not OEFC.
- Page 10, item 8 (b) and (c): benchmark vs. actual previously discussed.

OPG ACCOUNTING CONSIDERATIONS OF ONTARIO FAIR HYDRO PLAN

Purpose:

The purpose of this document is to summarize the preliminary views of Ontario Power Generation (OPG) on the ability for OPG to consolidate the Financing Entity Trust associated with the Ontario Fair Hydro Plan.

This memo is assessed against the Legislation proposal 'Ontario Fair Hydro Plan Act, 2017, if enacted V6' sent by Carolyn Calwell on May 1, 2017. Note that this assessment is preliminary pending the finalization of the Legislation, the Trust indentures, Regulations, financing structure and other detailed terms, and all related documentary evidence. This assessment will be updated once final documentation is available.

Background:

On March 2, 2017, the Province of Ontario (the Province) announced Ontario's Fair Hydro Plan (the Plan) aimed at reducing electricity bills by 25 percent on average for all residential consumers in the province. As part of the Plan, the Province has proposed financing a portion of the Global Adjustment costs over a longer time period for Regulated Price Plan eligible customers (e.g., residential, farm, small businesses).

On April 13th, the Province requested that OPG consider administering the financing associated with the Plan, because of OPG's participation in the market, regulatory knowledge and the potential ability to consolidate the related financing activities. To undertake this financing, OPG will establish a Financing Entity Trust (the Trust) to finance and administer the Global Adjustment costs through a mixture of external financing and an equity injection from the Ontario Financing Authority. It is expected that OPG will control the Trust for accounting purposes and that its financial position and results will be consolidated within OPG's consolidated financial statements.

Assumptions made to perform accounting analysis which are not yet addressed in Legislation – it is expected that these matters will be addressed in Regulations, Trust documents, and various other agreements:

- The Regulation must require interest, carrying and administrative costs to be paid to the Trust in cash on a monthly basis, so that the Trust is able to recognize appropriate revenue to offset any ongoing costs.
- The Regulations, Trust documents and various agreements will provide that OPG will have significant variability and exposure from the activities of the Trust relative to the rate of return that OPG would recognize from its role as the Financial Services Manager of the Trust. The performance fee will be meaningful and allow OPG to make decisions that will significantly impact its returns.
- The Minister of Energy will have the ability to replace the Financial Services Manger (OPG) if there is a failure to perform. There will be a bifurcation of roles where the Province could not remove OPG as manager/administrator with respect to the existing debt placed by the Trust, but could remove OPG's responsibility/right to prepare the Financing Plan going forward. The ability for the Minister of Energy to remove OPG as the Financial Services Manager should not impact the recoverability of existing intangible assets.

- The calculation of the Fair Allocation Amount will be performed by the Minister of Energy.
- OPG has the ability to appoint and remove the Trustee (or Board of Trustees) and there are no veto rights by the Province. No party has the ability to remove OPG from its role and authority in the Trust.
- Neither the OEB nor any other party can discretionally reduce the management fee or performance fee except due to a calculation error.
- The margin on the interest rates associated with Tranche B and Tranche C which will be recovered from the ratepayers will be reflective of the risk profile of the debt and the associated market terms.
- The indemnification provided to the Trust by the Minister of Finance on behalf of the Province as described in *Part I – General - Section 5.3 Guarantee, indemnification Protection and assurances* will be subject to terms and conditions in a separate Provincial support agreement. The guarantee is expected to be in place only in the event of a Payment Guarantee Event, such as if the Legislative Assembly of Ontario repeals the Fair Hydro Act or amends the Act in a way that adversely impacts the ability of the Trust to fully recover an intangible asset in order to pay the obligations of the Trust.
- The approval by the Ontario Energy Board of the Financial Services Manager (i.e. OPG's) fees as described in *Part IV – Implementation - Section 14.4 Same, Board Approval* will not allow them to change or limit the management fee structure, but only ensure that it is prudent by ensuring it is calculated in accordance with the Regulations.
- In the event that a different Financial Services Manager is appointed by the Minister of Energy, the IESO is required to continue to make cash payments for interest to the Trust for the existing debt. Principal repayments on existing debt will continue to be repaid by ratepayers to the Trust in accordance with the terms of the issued debt.
- All other items as indicated in *Appendix A.*

Accounting Analysis:

In order to meet the accounting definition of 'control', accounting guidance must be considered. There are no bright lines to determine whether OPG has exposure, or rights, to variable returns from its involvement with the Trust, or whether it has the ability to affect the returns of the Trust through its power over the Trust. Rather, all facts and circumstances are considered when assessing whether an entity has control over another entity.

In order to consolidate the Trust, OPG must be able to demonstrate that it controls the Trust.

Control

An investor controls an investee if and only if the investor has all the following:

a) *power over the investee;*
b) *exposure, or rights, to variable returns from its involvement with the investee; and*
c) *the ability to use its power over the investee to affect the amount of the investor's returns.* [IFRS 10, paragraph 7]

Purpose and design of the investee
When assessing control of an investee, an investor shall consider the purpose and design of the investee in order to identify the relevant activities, how decisions about the relevant activities are made, who has the current ability to direct those activities and who receives returns from those activities. [IFRS 10, paragraph B5]

Criteria	Analysis
Purpose and design of the Trust	The purpose of the Trust is to allow OPG to earn a return on the Intangible Asset from the IESO by effectively managing financing to earn a spread, earn management fees, and earn interest fees.

Purpose and design of the investee *When assessing control of an investee, an investor shall consider the purpose and design of the investee in order to identify the relevant activities, how decisions about the relevant activities are made, who has the current ability to direct those activities and who receives returns from those activities.* [IFRS 10, paragraph B5]	
Relevant activities of the Trust and how decisions are made about those activities	Relevant activities: The relevant activities of the Trust are: • To evaluate and make decisions on financing alternatives, duration, and the strategy to minimize financing costs. • To effectively manage funding obtained through the capital markets and be able to make or lose any spread from financing • To provide funding to the IESO in return for an interest in a future cash flow stream • To obtain funding through the capital markets and other vehicles available to OPG to be able to provide the IESO funding. • To make capital and funding decisions required to meet the Fair Allocation Plan objectives as set out in Legislation • To finance the requirements associated with the short-fall amount • To raise debt, pay bond debt holders, and determine capacity for the Trust to raise additional financing Financing Plan (Legislation: Part IV – Implementation) • OPG's plan for managing the assets of the Trust will be dictated through a 'Financing Plan'. • The Financial Services Manager (i.e. the Trust) shall provide the Financing Plan to the Minister. The Financing Plan is expected to follow Principles as stipulated in the Legislation which indicate that the assumptions must be reasonable and that the Trust has the power to determine what is reasonable and cost-effective. The Trust makes all the decisions in determining the relevant activities as listed above. • OPG can amend the Financing Plan at any time without the approval of the Minister. Fair Allocation Amount (Legislation: Part IV – Implementation) • The 'Fair Allocation Amount' ("FAA") is the amount of the deferral for the reference period and includes finance amounts. The current Legislation dictates that the Minister of Energy is to calculate the FAA. • This does not impact OPG's relevant activities in the Trust as OPG's variable returns are based on financing decisions which are not dictated by the FAA. OPG can choose to accept or reject the purchase of the intangible asset which is based on the Fair Allocation Amount.

DRAFT

Purpose and design of the investee *When assessing control of an investee, an investor shall consider the purpose and design of the investee in order to identify the relevant activities, how decisions about the relevant activities are made, who has the current ability to direct those activities and who receives returns from those activities.* [IFRS 10, paragraph B5]	
	<u>Decisions made and voting rights of the Trust:</u> OPG has the ability to appoint and remove the Trustee (and if applicable Board of Trustees) and there are no veto rights by the Province. No party has the ability to remove OPG from its role and authority in the Trust. **[NOT YET ADDRESSED IN CURRENT LEGISLATION]** *Voting of members:* Except as otherwise stated, all decisions of the members (if applicable) shall be made by the Trustee who will be appointed by OPG. <u>Termination Rights</u> OPG cannot be removed from its role in the Trust. The Province has the right to remove OPG as the 'Financial Services Manager' for failure to perform. This will not impact debt that has already been issued for which OPG is already managing through the Trust or the recoverability of existing intangible assets. It the right is exercised, it serves to reduce or eliminate the scope of new business activities of the Trust but it does not affect OPG's ability to control the Trust. Should a new Financial Services Manager be appointed, a separate assessment would be made as to which party if any would control it.
Assessment	The purpose of the Trust is to allow OPG to earn a return on the Intangible Asset from the IESO by effectively managing financing to earn a spread, earn management fees, and earn interest fees. For the reasons noted above, OPG has control over the decisions to be made about the relevant activities.

Power over the investee	
Criteria	**Analysis**
Identify whether OPG's rights give it the current ability to direct the relevant activities of the Trust (Substantive rights)	See above for relevant activities of the Trust.
Assessment	OPG has the ability to direct the relevant activities of the Trust. OPG can amend the Financing Plan at any time, without approval from the Minister. Further, if the Minister of Energy chooses not to continue with OPG's current Financing Plan, OPG can withdraw its Financing Plan, without impacting the existing debt and related intangible assets that is already in the Trust. The Province would just appoint a new party to participate in future securitizations and OPG would continue to manage the debt that already exists in the Trust. If future financing transactions are with a different SPV, a separate consolidation analysis would be prepared at that time as to which party if any would consolidate the SPV.

DRAFT

Exposure or rights to variable returns	
Criteria	**Analysis**
Dividends, other distributions of economic benefits from an investee and changes in the value of the investor's investment in that investee [IFRS 10, paragraph B57(a)]	Revenue, which includes fixed and variable fees, earned from the Trust will be distributed to OPG.
Remuneration for servicing an investee's assets or liabilities, fees and exposure to loss from providing credit or liquidity support, residual interests in the investee's assets and liabilities on liquidation of that investee, tax benefits, and access to future liquidity that an investor has from its involvement with an investee [IFRS 10, paragraph B57(b)]	**[NOT YET ADDRESSED IN CURRENT LEGISLATION]** OPG has exposure and rights to variable returns from the Trust in the form of the following: • The Regulations, Trust documents and various agreements will provide that OPG will have significant variability and exposure from the activities of the Trust relative to the rate of return that OPG would recognize from its role as the Financial Services Manager of the Trust. The performance fee will be meaningful and allow OPG to make decisions that will significantly impact its returns. • OPG, through ownership of the most subordinated debt, is exposed to risk of non-collection. Given that the program is expected to run until 2047, this 30 year time period results in uncertainty about the future collection of OPG's amount at risk. OPG and the OFA (5% out of 44% contribution) would be the last parties to get paid in the event that the program stops running due to a change in Government, if electricity demand is not high enough to allow for collection from ratepayers in a timely manner, etc. The end date of 2047 that is prescribed in the Legislation results in uncertainty toward whether this program will continue and whether OPG will have collected its amount at risk at that time. • In the event that there is a market disruption whereby OPG is not able to obtain debt from the financial markets (e.g. due to a recession), the Province will provide funding in the event that OPG wishes to continue purchasing intangible assets from the IESO. This is considered to be a protective right as it does not impact the relevant activities of the Trust, but is designed to protect both parties and does not give either party more or less power over the Trust. It is designed to allow OPG to keep purchasing intangible assets if it wishes to. • Protective rights are typically held to prohibit fundamental changes in the activities of an investee that the holder does not agree with and usually apply only in exceptional circumstances (i.e., upon a contingent event). This is true for this right as it is only applicable if there is a market disruption and the Trust is not able to obtain financing from external markets. Further, the fundamental activities of the Trust would change if it were not able to obtain financing from external markets.

DRAFT

Exposure or rights to variable returns	
Returns that are not available to other interest holders. For example, an investor might use its assets in combination with the assets of the investee, such as combining operating functions to achieve economies of scale, cost savings, sourcing scarce products, gaining access to proprietary knowledge or limiting some operations or assets, to enhance the value of the investor's other assets [IFRS 10, paragraph B57 (c)]	• OPG will have synergistic benefits from combining operating functions with the Trust given its extensive knowledge on the market and current regulatory knowledge.
Assessment	To determine which party is the most 'at risk' in the event that the loans default, expected loss rates were obtained from Moody's and DBRS. Using the *Moody's Investors Service – Loss Given Default for Speculative Grade Companies* dated December 4, 2015, the 4-year Idealized Expected Loss ranges from 0.00% for a triple A rated bond to 0.30% for an A3 rated bond. DBRS Expected Loss Ratings give an indication of the expected loss of a loan portfolio. As per a November 2016 publication, the 10-year expected loss rates range from 0.1% for a AAA rated bond to 1.7% for an A (low) rated bond. Given that OPG's subordinated debt is equal to 5% of the total debt, which is higher than the default rates above, 100% of the risk is with both OPG and the OFA since they are the last parties to get paid should there be any default with the debt. OPG is also exposed to variable returns from the Trust from its performance on decisions made on financing alternatives, duration, and the strategy to minimize financing costs through the variable fee component of the management fee. Therefore, OPG has the exposure to variable returns from the Trust.

Ability to use power to affect returns	
Criteria	**Analysis**
Ability of investor to use its power to affect the investor's returns from its involvement with the investee	OPG needs to have both power over the Trust (i.e. as a Principal, not an agent), exposure or rights to the variable returns from the Trust, and the ability to use its power to affect OPG's returns from its involvement with the Trust OPG has the ability to use its power over the relevant activities of the

Ability to use power to affect returns	
	Trust to affect its returns from its involvement with the Trust through the variable fee component. Further, the Trust's ability to use its power to affect returns is in a manner that is consistent with being a principal. See *Appendix B* for Principal-Agent analysis.
Assessment	OPG has the ability to use its power to affect returns of the Trust.

Conclusion:

Based on the current **[May 1, 2017]** draft of the legislation, the conditions to ensure the ability of OPG to consolidate the operations of the Trust have not fully been reflected. As noted in Appendix A, several conditions must be evident in the Regulations, Trust documents, and various other agreements which are not yet drafted and therefore not yet available for our review and assessment. In OPG's assessment, while no current clause of the Legislation would hamper the ability to effect a consolidation within OPG Inc.'s financial statements, there are several key conditions for consolidation that are currently not present within the Legislation. On the assumption that future Regulations, Trust documents and various other agreements fully capture these operating conditions, and that no new conditions that would conflict with OPG's control of the trust are introduced, OPG believes that consolidation of the Trust is supportable.

DRAFT

APPENDIX A:

Terms necessary for OPG to consolidate the Global Adjustment Trust

Note that these are assessed against the Legislation proposal 'Ontario Fair Hydro Plan Act, 2017, if enacted V6' sent by Carolyn Calwell on May 1, 2017. These are subject to change as subsequent drafts of the Legislation are issued.

Legend:

✓ **- Addressed by the Legislation drafted May 1, 2017**

RT – Not addressed by Legislation and must be addressed in Regulations, Trust Documentation or various other agreements

Ω - Will not be addressed in Legislation/Regulations or Trust but is the intended plan

Issue	No.	Requirements
Directive	1 ✓	The Trust must be undertaken by OPG as a business initiative on its merits. A Shareholder Directive is to be limited to direct OPG to investigate the option of establishing a Trust vehicle to administer, finance and operate the Global Adjustment plan and the operation of that Trust and the control, risk and rewards of that Trust will determine its consolidation into OPG as a business enterprise. ***MET - The Province will not direct OPG to participate in the Fair Hydro Plan. A letter was issued from the Minister of Energy to OPG on April 13th requesting OPG's involvement in the implementation of the Fair Hydro Plan. OPG's Board Chair responded to the Minister on April 18th committing OPG to work with the IESO and OEB to develop a plan. OPG will have the option to prepare, implement and amend a financing plan (in accordance with principles set out in legislation) and propose the adoption of such plan as the 'Financing Plan'. OPG will have the right to withdraw its financing plan at any time.***
Trust	2 **RT**	The Trust should not operate in a predetermined way such that OPG does not have decision-making authority over the Trust's ongoing activities after its formation (i.e. should not operate on 'autopilot'). ***OPG will be the sole unit holder of the Trust. All decisions over the relevant activities of the Trust (as described above) will be made by OPG.***
	3 **RT**	OPG must have the ability to appoint and remove the Trustee (or Board of Trustees), with no veto right by the Province. No party shall have the ability to remove OPG from its role and authority in the Trust. ***OPG will be the sole unit holder of the Trust. The Province will be involved in the Board of Trustees, but OPG is expected to have the majority vote.***

<table>
<tr><th>Issue</th><th>No.</th><th>Requirements</th></tr>
<tr><td></td><td></td><td></td></tr>
<tr><td></td><td>4
RT</td><td>The Province cannot have the right to veto OPG's decisions about the relevant activities of the Trust. OPG must have the power over the relevant activities of the Trust and be compensated. The relevant activities of the Trust include (but are not limited to) the evaluation and decisions on financing alternatives, duration, and the strategy to minimize financing costs. OPG must have the power to establish operating and capital budgets of the Trust.

OPG will have the ability to make decisions about the financing alternatives, duration, and the strategy to minimize financing costs. OPG will have the power to establish operating and capital budgets of the Trust with no veto right by the Province.</td></tr>
<tr><td></td><td>5
RT</td><td>OPG must have the power to determine or change operating and financing policies of the Trust, which will affect the variability of risks and returns.

The Regulations, Trust documents and various agreements will provide that OPG will have significant variability and exposure from the activities of the Trust relative to the rate of return that OPG would recognize from its role as the Financial Services Manager of the Trust. The performance fee will be meaningful and allow OPG to make decisions that will significantly impact its returns.</td></tr>
<tr><td></td><td>6
Ω</td><td>The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
a. The Trust
b. The most subordinated debt of the Trust

See below for financing structure.

<table>
<tr><th></th><th>Risk Profile</th><th>Source</th><th>% of Total Fundin Requirement</th></tr>
<tr><td>Tranche A Senior Debt</td><td>the least risky</td><td>Capital Markets</td><td>51%</td></tr>
<tr><td>Tranche B Sub Debt</td><td>In between A&C</td><td>OPG via OEFC</td><td>39%</td></tr>

</table>
</td></tr>
<tr><td></td><td>7
Ω</td><td>OPG must own at least 50% of the most subordinated debt and must be no less than 5% of the debt of the Trust. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources.

See chart in Point 6 above.</td></tr>
</table>

DRAFT

Issue	No.	Requirements
	8 **RT**	OPG must have the ability to earn variable returns by exercising its authority, which shall be accomplished as follows: a. The cash flow from the restructured asset shall include interest determined based on a relevant benchmark that is appropriate relative to the restructured asset, plus an appropriate margin consistent with the relevant market and other risks ***The cash flow from the restructured asset will include interest income that is equal to the interest expense (i.e. interest expense is passed back to the ratepayers). The Trust will also receive a margin as discussed in the 'Exposure or rights to variable returns' section above.***
	✓	b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favourable return compared to the benchmark for interest on the restructured asset ***OPG will determine the financing strategy through the proposal of its 'Financing Plan'. The 'Financing Plan' will only be required to follow general Parameters and Principles as set forth in the Legislation but funding decisions will be made entirely by OPG. The Trust will also receive a margin as discussed in the 'Exposure or rights to variable returns' section above.***
	Ω	c. The Trust shall establish classes of liabilities (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity. ***OPG's portion of the most subordinated debt will be limited to a reasonable level. If it is determined that OPG's portion is not at a reasonable level, OPG has the option to withdraw its Financing Plan.***
	RT	c. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the restructured asset, or any residual risk of restructured asset. The targeted return of the subordinated liability should be reflective of the underlying risks and compensate holders for active management that would be required.

DRAFT

Issue	No.	Requirements
		OPG will be able to capture the pricing difference between cost of financing and benchmark for interest through the performance fee which is described in point 5) above and the 'Exposure or rights to variable returns' section above.
	Ω	d. OPG should participate in the detailed design of the above and the Trust documentation to ensure that it has substantive power and variability, which will allow OPG's Board of Directors to evaluate the opportunity as a business initiative instead of through a shareholder directive. ***OPG will be involved in the Trust documentation.***
	RT	Defined Forced Majeure for emergency events (e.g. unlikely credit market event or disruption where it is not possible to borrow from the market at a reasonable rate), OFA may provide bridge financing beyond the designated percentage for a defined period. ***This will be structured through a separate indemnification agreement. This is not expected to impact consolidation of the Trust because this is seen as a protective right which is only in affect when a contingency arises and not as a result of the relevant activities of the Trust.***
Legislation	9 ✓	The Legislation must require interest, carrying and administrative costs to be paid to the Trust on a monthly basis, so that the Trust is able to recognize appropriate revenue to offset any ongoing costs. ***Under Part III – Clean Energy Adjustment – Section 8.3 Terms, of the Legislation, the expectation is that the Legislation will allow for interest payments to be paid to the Trust on a monthly basis in cash. The Trust will not accrue interest to the current intangible asset balances but this interest amount could form part of future intangible assets that are purchased from the IESO.***
	10 **RT**	The Legislation must dictate the manner in which the restructured asset would be determined, collected, and the period of collection, so that the determination of the restructured asset will not be subject to the Province's decisions on an ongoing basis, but determined based on a formula. Alternatively, the Legislation may allow for an adjustment to the pre-determined deferral formula based on specific parameters that would limit the adjustment to the restructured asset. Adjustments beyond the specific parameters would require approval by the Board of Trustee. **The Regulations are expected to dictate the 'Fair Allocation Plan' which will be based on high level Principles and Parameters of the Plan, including the attribution methodology. The Legislation or Regulation determines the following principles:** • **25% Reduction (June 1, 2017) where the average bill will**

Issue	No.	Requirements
		reduce by 25% including of HST and social programs noted above • **Inflation Period (November 2017 – April 2022) where bill increases are capped at inflation** • **Straight-line Increase Period (May 2022 – April 2027) where bills increased at a straight-line rate (i.e., 8% per year) which is set so that borrowing will not exceed the Trust's capacity.** • **Amortization Period (May 2027 – April 2047) where debt built up over the previous periods is repaid by ratepayers.** **OPG will determine the manner in which the intangible asset, once purchased from the IESO will be collected and the period of collection.** **The recoverability of the existing intangible assets cannot be impacted by the Province.** **Although the Province may determine the Principles and Parameters around the 'Fair Allocation Plan', it does not impact the activities of the Trust once OPG has purchased the intangible asset.**
	11 **RT**	The Legislation must be written to avoid legal or constitutional challenges and be irrevocable to reduce the cost of borrowing and with a specific formula which determines the deferral amount. **See above.**
	12 **RT**	The spirit of the above terms should be reflected in the Trust Indenture Agreement as well as Legislation, wherever possible. ***Trust Indenture and Regulations still outstanding.***

DRAFT

APPENDIX B:

Link between power and returns: principal-agency situations

The third criterion for having control is that the investor must have the ability to use its power over the investee to affect the amount of the investor's returns. When decision-making rights have been delegated or are being held for the benefit of others, it is necessary to assess whether the decision-maker is a principal or an agent to determine whether it has control. This is because if the decision-maker has been delegated rights that give it power, the decision-maker must assess whether those rights give it power for its own benefit, or merely power for the benefit of others. As an agent cannot have control over the investee, it does not consolidate the investee. A principal may have control over the investee, and if so, would consolidate the investee.

A decision maker shall consider the overall relationship between itself, the investee being managed and other parties involved with the investee, in particular all the factors below, in determining whether it is an agent:

a) the scope of its decision-making authority over the investee

   As discussed above, OPG has decision-making authority over the Trust and its relevant activities. The Province has no right to determine what sort of funding decisions OPG should make to fund the intangible assets that they will purchase and OPG can choose not to purchase future intangible asset purchases.
   Terms and Conditions to support this point: 1, 2, 3, 4, 5

b) the rights held by other parties (paragraphs B64–B67).

   There are no substantive removal rights held by the Province for debt that already exists in the Trust.

   Terms and Conditions to support this point: 3, 4, 5

c) the remuneration to which it is entitled in accordance with the remuneration agreement(s) (paragraphs B68–B70).

   See section on 'Exposure or rights to variable returns' above.

   Terms and Conditions to support this point: 6, 7, 8, 9

d) the decision maker's exposure to variability of returns from other interests that it holds in the investee (paragraphs B71 and B72).

   See section on 'Exposure or rights to variable returns' above.

   OPG will receive a 44% equity injection from the Province of Ontario, indirectly through the Ontario Financing Authority. Given that currently, the majority (currently 51%) of the Trust debt will be from External Markets and not the Province, it can be argued that OPG did not receive the majority of its interest in the investee as a contribution or loan from the Province. This shows that OPG is a principal, not a de-facto agent.

   Terms and Conditions to support this point: 6, 7, 8, 9

Conclusion: OPG is not an agent for the Province as the arrangement does not provide for the Province to directly absorb any variability associated with the structure. If the Province decides to intervene at a later date due to evolving market conditions, an assessment would be made at that future date.

Analysis on whether OPG is an agent for ratepayers

OPG is not an agent for the ratepayers because OPG has substantive exposure to risk of loss of its own funds. The ratepayers do not have any of their own funds in any of the subordinated tranches and further, no decision making authority is delegated to the ratepayers relating to the relevant activities of the Trust.

Analysis on whether OPG is an agent for the IESO

OPG is not an agent of the IESO because the IESO faces no continuing risk of loss after sale of the intangible asset to OPG.

The Special Committee of the Board of Directors
Ontario Power Generation Inc. (the "Company")
700 University Avenue
Toronto, ON M5G 1X6

May 2 2017

Dear Sirs/Madames:

This letter is being issued to the Special Committee to assist them in their evaluation of management's analysis of the application of International Financial Reporting Standards ("IFRS") as adopted by the International Accounting Standards Board ("IASB")) to the specific transaction described in the Company's memorandum entitled *OPG Accounting Considerations of Ontario Fair Hydro* dated May 2 2017, herein referred to as "the Management Memorandum". We are issuing this letter in our role as auditors of the Company for the year ending December 31, 2017. As the Province consolidates OPG on an IFRS basis, this letter pertains solely to management's IFRS analysis as contained in the Management Memorandum.

We have read the Management Memorandum and we agree with management's analysis therein, subject to all of the assumptions and limitations identified therein. Specifically, we concur that the existing legislation, along with the yet undrafted Regulation and special purpose vehicle (TRUST) documents, and various other agreements assuming they include the required criteria that Management has identified as outstanding in its Appendix A, would be sufficient to support consolidation of the TRUST with OPG Inc.

Additionally, we specifically refer you to the section entitled "Conclusion" in the Management Memorandum, which indicates that their analysis is based on draft legislation as well as their assumptions regarding the terms and conditions of certain contractual arrangements and other documentary evidence that is not yet drafted. Therefore, the Management Memorandum will be required to be updated to reflect the final contents of the legislation and other relevant contractual arrangements and documentary evidence. We will review the updated Management Memorandum once it is available, and update you on our viewpoints once our review of such updated Management Memorandum is completed.

The scope of this letter and any views expressed herein are limited to the transactions, facts, circumstances and assumptions provided to us by management or the Company as described in the Management Memorandum. If such facts, circumstances or assumptions differ, our conclusions may change.

We have not performed an audit or a review of the Management Memorandum. Additionally, we have not performed an audit as of any date or for any period subsequent to December 31, 2016.

DRAFT

The ultimate responsibility for the proper accounting treatment under IFRS and US GAAP rests with the Company.

We have not been asked for, nor do we express, an opinion on the tax consequences of the transactions described herein.

The accounting for such transactions could be affected by actions of the International Accounting Standards Board, the IFRS Interpretations Committee, the Ontario Securities Commission, or other regulatory bodies. Any such actions occurring prior to the finalization of the 2017 IFRS consolidated financial information will be required to be analyzed by management, and such analysis will be reviewed by us in the context of the audit procedures we will perform on the consolidated IFRS financial information for the year ending December 31, 2017.

Our work does not include the provision of legal advice and we make no representations regarding questions of legal interpretation of any possible structure or strategy. We make no representation regarding the sufficiency of our work for any purpose.

This report is intended solely for the information and use of the Special Committee, Board of Directors and management. We understand that a copy of this letter may be provided to the Province of Ontario, the Independent Electricity System Operator, and/or the Ontario Energy Board. It is not intended to be, and should not be, used by anyone other than these specified parties.

This analysis, or portions thereof, should not be referred to or distributed to any other person or entity, other than those noted in the paragraph directly above. It is not to be referred to or quoted, in whole or in part, in any registration statement, prospectus, public filing, loan agreement, or other agreement or document.

Yours sincerely

OPG ACCOUNTING CONSIDERATIONS OF ONTARIO FAIR HYDRO PLAN

Purpose:

The purpose of this document is to summarize the preliminary views of Ontario Power Generation (OPG) on the ability for OPG to consolidate the Financing Entity Trust associated with the Ontario Fair Hydro Plan.

This memo is assessed against the Legislation proposal 'Ontario Fair Hydro Plan Act, 2017, if enacted V6' sent by Carolyn Calwell on May 1, 2017. Note that this assessment is preliminary pending the finalization of the Legislation, the Trust indentures, Regulations, financing structure and other detailed terms, and all related documentary evidence. This assessment will be updated once final documentation is available.

Background:

On March 2, 2017, the Province of Ontario (the Province) announced Ontario's Fair Hydro Plan (the Plan) aimed at reducing electricity bills by 25 percent on average for all residential consumers in the province. As part of the Plan, the Province has proposed financing a portion of the Global Adjustment costs over a longer time period for Regulated Price Plan eligible customers (e.g., residential, farm, small businesses).

On April 13th, the Province requested that OPG consider administering the financing associated with the Plan, because of OPG's participation in the market, regulatory knowledge and the potential ability to consolidate the related financing activities. To undertake this financing, OPG will establish a Financing Entity Trust (the Trust) to finance and administer the Global Adjustment costs through a mixture of external financing and an equity injection from the Ontario Financing Authority. It is expected that OPG will control the Trust for accounting purposes and that its financial position and results will be consolidated within OPG's consolidated financial statements.

Assumptions made to perform accounting analysis which are not yet addressed in Legislation – it is expected that these matters will be addressed in Regulations, Trust documents, and various other agreements:

- The Regulation must require interest, carrying and administrative costs to be paid to the Trust in cash on a monthly basis, so that the Trust is able to recognize appropriate revenue to offset any ongoing costs.
- The Regulations, Trust documents and various agreements will provide that OPG will have significant variability and exposure from the activities of the Trust relative to the rate of return that OPG would recognize from its role as the Financial Services Manager of the Trust. The performance fee will be meaningful and allow OPG to make decisions that will significantly impact its returns.
- The Minister of Energy will have the ability to replace the Financial Services Manger (OPG) if there is a failure to perform. There will be a bifurcation of roles where the Province could not remove OPG as manager/administrator with respect to the existing debt placed by the Trust, but could remove OPG's responsibility/right to prepare the Financing Plan going forward. The ability for the Minister of Energy to remove OPG as the Financial Services Manager should not impact the recoverability of existing intangible assets.

- The calculation of the Fair Allocation Amount will be performed by the Minister of Energy.
- OPG has the ability to appoint and remove the Trustee (or Board of Trustees) and there are no veto rights by the Province. No party has the ability to remove OPG from its role and authority in the Trust.
- Neither the OEB nor any other party can discretionally reduce the management fee or performance fee except due to a calculation error.
- The margin on the interest rates associated with Tranche B and Tranche C which will be recovered from the ratepayers will be reflective of the risk profile of the debt and the associated market terms.
- The indemnification provided to the Trust by the Minister of Finance on behalf of the Province as described in *Part I – General - Section 5.3 Guarantee, indemnification Protection and assurances* will be subject to terms and conditions in a separate Provincial support agreement. The guarantee is expected to be in place only in the event of a Payment Guarantee Event, such as if the Legislative Assembly of Ontario repeals the Fair Hydro Act or amends the Act in a way that adversely impacts the ability of the Trust to fully recover an intangible asset in order to pay the obligations of the Trust.
- The approval by the Ontario Energy Board of the Financial Services Manager (i.e. OPG's) fees as described in *Part IV – Implementation - Section 14.4 Same, Board Approval* will not allow them to change or limit the management fee structure, but only ensure that it is prudent by ensuring it is calculated in accordance with the Regulations.
- In the event that a different Financial Services Manager is appointed by the Minister of Energy, the IESO is required to continue to make cash payments for interest to the Trust for the existing debt. Principal repayments on existing debt will continue to be repaid by ratepayers to the Trust in accordance with the terms of the issued debt.
- All other items as indicated in *Appendix A.*

Accounting Analysis:

In order to meet the accounting definition of 'control', accounting guidance must be considered. There are no bright lines to determine whether OPG has exposure, or rights, to variable returns from its involvement with the Trust, or whether it has the ability to affect the returns of the Trust through its power over the Trust. Rather, all facts and circumstances are considered when assessing whether an entity has control over another entity.

In order to consolidate the Trust, OPG must be able to demonstrate that it controls the Trust.

Control

An investor controls an investee if and only if the investor has all the following:

a) *power over the investee;*
b) *exposure, or rights, to variable returns from its involvement with the investee; and*
c) *the ability to use its power over the investee to affect the amount of the investor's returns.* [IFRS 10, paragraph 7]

Purpose and design of the investee
When assessing control of an investee, an investor shall consider the purpose and design of the investee in order to identify the relevant activities, how decisions about the relevant activities are made, who has the current ability to direct those activities and who receives returns from those activities. [IFRS 10, paragraph B5]

Criteria	Analysis
Purpose and design of the Trust	The purpose of the Trust is to allow OPG to earn a return on the Intangible Asset from the IESO by effectively managing financing to earn a spread, earn management fees, and earn interest fees.

Purpose and design of the investee *When assessing control of an investee, an investor shall consider the purpose and design of the investee in order to identify the relevant activities, how decisions about the relevant activities are made, who has the current ability to direct those activities and who receives returns from those activities.* [IFRS 10, paragraph B5]	
Relevant activities of the Trust and how decisions are made about those activities	Relevant activities: The relevant activities of the Trust are: • To evaluate and make decisions on financing alternatives, duration, and the strategy to minimize financing costs. • To effectively manage funding obtained through the capital markets and be able to make or lose any spread from financing • To provide funding to the IESO in return for an interest in a future cash flow stream • To obtain funding through the capital markets and other vehicles available to OPG to be able to provide the IESO funding. • To make capital and funding decisions required to meet the Fair Allocation Plan objectives as set out in Legislation • To finance the requirements associated with the short-fall amount • To raise debt, pay bond debt holders, and determine capacity for the Trust to raise additional financing Financing Plan (Legislation: Part IV – Implementation) • OPG's plan for managing the assets of the Trust will be dictated through a 'Financing Plan'. • The Financial Services Manager (i.e. the Trust) shall provide the Financing Plan to the Minister. The Financing Plan is expected to follow Principles as stipulated in the Legislation which indicate that the assumptions must be reasonable and that the Trust has the power to determine what is reasonable and cost-effective. The Trust makes all the decisions in determining the relevant activities as listed above. • OPG can amend the Financing Plan at any time without the approval of the Minister. Fair Allocation Amount (Legislation: Part IV – Implementation) • The 'Fair Allocation Amount' ("FAA") is the amount of the deferral for the reference period and includes finance amounts. The current Legislation dictates that the Minister of Energy is to calculate the FAA. • This does not impact OPG's relevant activities in the Trust as OPG's variable returns are based on financing decisions which are not dictated by the FAA. OPG can choose to accept or reject the purchase of the intangible asset which is based on the Fair Allocation Amount.

DRAFT

Purpose and design of the investee *When assessing control of an investee, an investor shall consider the purpose and design of the investee in order to identify the relevant activities, how decisions about the relevant activities are made, who has the current ability to direct those activities and who receives returns from those activities.* [IFRS 10, paragraph B5]	
	<u>Decisions made and voting rights of the Trust:</u> OPG has the ability to appoint and remove the Trustee (and if applicable Board of Trustees) and there are no veto rights by the Province. No party has the ability to remove OPG from its role and authority in the Trust. **[NOT YET ADDRESSED IN CURRENT LEGISLATION]** *Voting of members:* Except as otherwise stated, all decisions of the members (if applicable) shall be made by the Trustee who will be appointed by OPG. <u>Termination Rights</u> OPG cannot be removed from its role in the Trust. The Province has the right to remove OPG as the 'Financial Services Manager' for failure to perform. This will not impact debt that has already been issued for which OPG is already managing through the Trust or the recoverability of existing intangible assets. It the right is exercised, it serves to reduce or eliminate the scope of new business activities of the Trust but it does not affect OPG's ability to control the Trust. Should a new Financial Services Manager be appointed, a separate assessment would be made as to which party if any would control it.
Assessment	The purpose of the Trust is to allow OPG to earn a return on the Intangible Asset from the IESO by effectively managing financing to earn a spread, earn management fees, and earn interest fees. For the reasons noted above, OPG has control over the decisions to be made about the relevant activities.

Power over the investee	
Criteria	**Analysis**
Identify whether OPG's rights give it the current ability to direct the relevant activities of the Trust (Substantive rights)	See above for relevant activities of the Trust.
Assessment	OPG has the ability to direct the relevant activities of the Trust. OPG can amend the Financing Plan at any time, without approval from the Minister. Further, if the Minister of Energy chooses not to continue with OPG's current Financing Plan, OPG can withdraw its Financing Plan, without impacting the existing debt and related intangible assets that is already in the Trust. The Province would just appoint a new party to participate in future securitizations and OPG would continue to manage the debt that already exists in the Trust. If future financing transactions are with a different SPV, a separate consolidation analysis would be prepared at that time as to which party if any would consolidate the SPV.

DRAFT

Exposure or rights to variable returns	
Criteria	**Analysis**
Dividends, other distributions of economic benefits from an investee and changes in the value of the investor's investment in that investee [IFRS 10, paragraph B57(a)]	Revenue, which includes fixed and variable fees, earned from the Trust will be distributed to OPG.
Remuneration for servicing an investee's assets or liabilities, fees and exposure to loss from providing credit or liquidity support, residual interests in the investee's assets and liabilities on liquidation of that investee, tax benefits, and access to future liquidity that an investor has from its involvement with an investee [IFRS 10, paragraph B57(b)]	**[NOT YET ADDRESSED IN CURRENT LEGISLATION]** OPG has exposure and rights to variable returns from the Trust in the form of the following: • The Regulations, Trust documents and various agreements will provide that OPG will have significant variability and exposure from the activities of the Trust relative to the rate of return that OPG would recognize from its role as the Financial Services Manager of the Trust. The performance fee will be meaningful and allow OPG to make decisions that will significantly impact its returns. • OPG, through ownership of the most subordinated debt, is exposed to risk of non-collection. Given that the program is expected to run until 2047, this 30 year time period results in uncertainty about the future collection of OPG's amount at risk. OPG and the OFA (5% out of 44% contribution) would be the last parties to get paid in the event that the program stops running due to a change in Government, if electricity demand is not high enough to allow for collection from ratepayers in a timely manner, etc. The end date of 2047 that is prescribed in the Legislation results in uncertainty toward whether this program will continue and whether OPG will have collected its amount at risk at that time. • In the event that there is a market disruption whereby OPG is not able to obtain debt from the financial markets (e.g. due to a recession), the Province will provide funding in the event that OPG wishes to continue purchasing intangible assets from the IESO. This is considered to be a protective right as it does not impact the relevant activities of the Trust, but is designed to protect both parties and does not give either party more or less power over the Trust. It is designed to allow OPG to keep purchasing intangible assets if it wishes to. • Protective rights are typically held to prohibit fundamental changes in the activities of an investee that the holder does not agree with and usually apply only in exceptional circumstances (i.e., upon a contingent event). This is true for this right as it is only applicable if there is a market disruption and the Trust is not able to obtain financing from external markets. Further, the fundamental activities of the Trust would change if it were not able to obtain financing from external markets.

DRAFT

Exposure or rights to variable returns	
Returns that are not available to other interest holders. For example, an investor might use its assets in combination with the assets of the investee, such as combining operating functions to achieve economies of scale, cost savings, sourcing scarce products, gaining access to proprietary knowledge or limiting some operations or assets, to enhance the value of the investor's other assets [IFRS 10, paragraph B57 (c)]	• OPG will have synergistic benefits from combining operating functions with the Trust given its extensive knowledge on the market and current regulatory knowledge.
Assessment	To determine which party is the most 'at risk' in the event that the loans default, expected loss rates were obtained from Moody's and DBRS. Using the *Moody's Investors Service – Loss Given Default for Speculative Grade Companies* dated December 4, 2015, the 4-year Idealized Expected Loss ranges from 0.00% for a triple A rated bond to 0.30% for an A3 rated bond. DBRS Expected Loss Ratings give an indication of the expected loss of a loan portfolio. As per a November 2016 publication, the 10-year expected loss rates range from 0.1% for a AAA rated bond to 1.7% for an A (low) rated bond. Given that OPG's subordinated debt is equal to 5% of the total debt, which is higher than the default rates above, 100% of the risk is with both OPG and the OFA since they are the last parties to get paid should there be any default with the debt. OPG is also exposed to variable returns from the Trust from its performance on decisions made on financing alternatives, duration, and the strategy to minimize financing costs through the variable fee component of the management fee. Therefore, OPG has the exposure to variable returns from the Trust.

Ability to use power to affect returns	
Criteria	**Analysis**
Ability of investor to use its power to affect the investor's returns from its involvement with the investee	OPG needs to have both power over the Trust (i.e. as a Principal, not an agent), exposure or rights to the variable returns from the Trust, and the ability to use its power to affect OPG's returns from its involvement with the Trust OPG has the ability to use its power over the relevant activities of the

Ability to use power to affect returns	
	Trust to affect its returns from its involvement with the Trust through the variable fee component. Further, the Trust's ability to use its power to affect returns is in a manner that is consistent with being a principal. See *Appendix B* for Principal-Agent analysis.
Assessment	OPG has the ability to use its power to affect returns of the Trust.

Conclusion:

Based on the current **[May 1, 2017]** draft of the legislation, the conditions to ensure the ability of OPG to consolidate the operations of the Trust have not fully been reflected. As noted in Appendix A, several conditions must be evident in the Regulations, Trust documents, and various other agreements which are not yet drafted and therefore not yet available for our review and assessment. In OPG's assessment, while no current clause of the Legislation would hamper the ability to effect a consolidation within OPG Inc.'s financial statements, there are several key conditions for consolidation that are currently not present within the Legislation. On the assumption that future Regulations, Trust documents and various other agreements fully capture these operating conditions, and that no new conditions that would conflict with OPG's control of the trust are introduced, OPG believes that consolidation of the Trust is supportable.

DRAFT

APPENDIX A:

Terms necessary for OPG to consolidate the Global Adjustment Trust

Note that these are assessed against the Legislation proposal 'Ontario Fair Hydro Plan Act, 2017, if enacted V6' sent by Carolyn Calwell on May 1, 2017. These are subject to change as subsequent drafts of the Legislation are issued.

Legend:

✓ **- Addressed by the Legislation drafted May 1, 2017**

RT – Not addressed by Legislation and must be addressed in Regulations, Trust Documentation or various other agreements

Ω - Will not be addressed in Legislation/Regulations or Trust but is the intended plan

Issue	No.	Requirements
Directive	1 ✓	The Trust must be undertaken by OPG as a business initiative on its merits. A Shareholder Directive is to be limited to direct OPG to investigate the option of establishing a Trust vehicle to administer, finance and operate the Global Adjustment plan and the operation of that Trust and the control, risk and rewards of that Trust will determine its consolidation into OPG as a business enterprise. ***MET - The Province will not direct OPG to participate in the Fair Hydro Plan. A letter was issued from the Minister of Energy to OPG on April 13th requesting OPG's involvement in the implementation of the Fair Hydro Plan. OPG's Board Chair responded to the Minister on April 18th committing OPG to work with the IESO and OEB to develop a plan. OPG will have the option to prepare, implement and amend a financing plan (in accordance with principles set out in legislation) and propose the adoption of such plan as the 'Financing Plan'. OPG will have the right to withdraw its financing plan at any time.***
Trust	2 **RT**	The Trust should not operate in a predetermined way such that OPG does not have decision-making authority over the Trust's ongoing activities after its formation (i.e. should not operate on 'autopilot'). ***OPG will be the sole unit holder of the Trust. All decisions over the relevant activities of the Trust (as described above) will be made by OPG.***
	3 **RT**	OPG must have the ability to appoint and remove the Trustee (or Board of Trustees), with no veto right by the Province. No party shall have the ability to remove OPG from its role and authority in the Trust. ***OPG will be the sole unit holder of the Trust. The Province will be involved in the Board of Trustees, but OPG is expected to have the majority vote.***

<table>
<tr><th>Issue</th><th>No.</th><th>Requirements</th></tr>
<tr><td></td><td></td><td></td></tr>
<tr><td></td><td>4
RT</td><td>The Province cannot have the right to veto OPG's decisions about the relevant activities of the Trust. OPG must have the power over the relevant activities of the Trust and be compensated. The relevant activities of the Trust include (but are not limited to) the evaluation and decisions on financing alternatives, duration, and the strategy to minimize financing costs. OPG must have the power to establish operating and capital budgets of the Trust.

OPG will have the ability to make decisions about the financing alternatives, duration, and the strategy to minimize financing costs. OPG will have the power to establish operating and capital budgets of the Trust with no veto right by the Province.</td></tr>
<tr><td></td><td>5
RT</td><td>OPG must have the power to determine or change operating and financing policies of the Trust, which will affect the variability of risks and returns.

The Regulations, Trust documents and various agreements will provide that OPG will have significant variability and exposure from the activities of the Trust relative to the rate of return that OPG would recognize from its role as the Financial Services Manager of the Trust. The performance fee will be meaningful and allow OPG to make decisions that will significantly impact its returns.</td></tr>
<tr><td></td><td>6
Ω</td><td>The Province or its agencies must not directly or indirectly fund (through debt or equity) more than 50% of the following:
a. The Trust
b. The most subordinated debt of the Trust

See below for financing structure.

<table>
<tr><th></th><th>Risk Profile</th><th>Source</th><th>% of Total Fundin Requirement</th></tr>
<tr><td>Tranche A Senior Debt</td><td>the least risky</td><td>Capital Markets</td><td>51%</td></tr>

</table>
</td></tr>
<tr><td></td><td>7
Ω</td><td>OPG must own at least 50% of the most subordinated debt and must be no less than 5% of the debt of the Trust. Such ownership must be financed entirely by OPG through operating cash flows or external debt, without assistance from Provincial sources.

See chart in Point 6 above.</td></tr>
</table>

DRAFT

Issue	No.	Requirements
	8 **RT**	OPG must have the ability to earn variable returns by exercising its authority, which shall be accomplished as follows: a. The cash flow from the restructured asset shall include interest determined based on a relevant benchmark that is appropriate relative to the restructured asset, plus an appropriate margin consistent with the relevant market and other risks ***The cash flow from the restructured asset will include interest income that is equal to the interest expense (i.e. interest expense is passed back to the ratepayers). The Trust will also receive a margin as discussed in the 'Exposure or rights to variable returns' section above.***
	✓	b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favourable return compared to the benchmark for interest on the restructured asset ***OPG will determine the financing strategy through the proposal of its 'Financing Plan'. The 'Financing Plan' will only be required to follow general Parameters and Principles as set forth in the Legislation but funding decisions will be made entirely by OPG. The Trust will also receive a margin as discussed in the 'Exposure or rights to variable returns' section above.***
	Ω	c. The Trust shall establish classes of liabilities (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity. ***OPG's portion of the most subordinated debt will be limited to a reasonable level. If it is determined that OPG's portion is not at a reasonable level, OPG has the option to withdraw its Financing Plan.***
	RT	c. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the restructured asset, or any residual risk of restructured asset. The targeted return of the subordinated liability should be reflective of the underlying risks and compensate holders for active management that would be required.

DRAFT

Issue	No.	Requirements
		OPG will be able to capture the pricing difference between cost of financing and benchmark for interest through the performance fee which is described in point 5) above and the 'Exposure or rights to variable returns' section above.
	Ω	d. OPG should participate in the detailed design of the above and the Trust documentation to ensure that it has substantive power and variability, which will allow OPG's Board of Directors to evaluate the opportunity as a business initiative instead of through a shareholder directive. ***OPG will be involved in the Trust documentation.***
	RT	Defined Forced Majeure for emergency events (e.g. unlikely credit market event or disruption where it is not possible to borrow from the market at a reasonable rate), OFA may provide bridge financing beyond the designated percentage for a defined period. ***This will be structured through a separate indemnification agreement. This is not expected to impact consolidation of the Trust because this is seen as a protective right which is only in affect when a contingency arises and not as a result of the relevant activities of the Trust.***
Legislation	9 ✓	The Legislation must require interest, carrying and administrative costs to be paid to the Trust on a monthly basis, so that the Trust is able to recognize appropriate revenue to offset any ongoing costs. ***Under Part III – Clean Energy Adjustment – Section 8.3 Terms, of the Legislation, the expectation is that the Legislation will allow for interest payments to be paid to the Trust on a monthly basis in cash. The Trust will not accrue interest to the current intangible asset balances but this interest amount could form part of future intangible assets that are purchased from the IESO.***
	10 **RT**	The Legislation must dictate the manner in which the restructured asset would be determined, collected, and the period of collection, so that the determination of the restructured asset will not be subject to the Province's decisions on an ongoing basis, but determined based on a formula. Alternatively, the Legislation may allow for an adjustment to the pre-determined deferral formula based on specific parameters that would limit the adjustment to the restructured asset. Adjustments beyond the specific parameters would require approval by the Board of Trustee. **The Regulations are expected to dictate the 'Fair Allocation Plan' which will be based on high level Principles and Parameters of the Plan, including the attribution methodology. The Legislation or Regulation determines the following principles:** • **25% Reduction (June 1, 2017) where the average bill will**

Issue	No.	Requirements
		reduce by 25% including of HST and social programs noted above • **Inflation Period (November 2017 – April 2022) where bill increases are capped at inflation** • **Straight-line Increase Period (May 2022 – April 2027) where bills increased at a straight-line rate (i.e., 8% per year) which is set so that borrowing will not exceed the Trust's capacity.** • **Amortization Period (May 2027 – April 2047) where debt built up over the previous periods is repaid by ratepayers.** **OPG will determine the manner in which the intangible asset, once purchased from the IESO will be collected and the period of collection.** **The recoverability of the existing intangible assets cannot be impacted by the Province.** **Although the Province may determine the Principles and Parameters around the 'Fair Allocation Plan', it does not impact the activities of the Trust once OPG has purchased the intangible asset.**
	11 **RT**	The Legislation must be written to avoid legal or constitutional challenges and be irrevocable to reduce the cost of borrowing and with a specific formula which determines the deferral amount. **See above.**
	12 **RT**	The spirit of the above terms should be reflected in the Trust Indenture Agreement as well as Legislation, wherever possible. ***Trust Indenture and Regulations still outstanding.***

DRAFT

APPENDIX B:

Link between power and returns: principal-agency situations

The third criterion for having control is that the investor must have the ability to use its power over the investee to affect the amount of the investor's returns. When decision-making rights have been delegated or are being held for the benefit of others, it is necessary to assess whether the decision-maker is a principal or an agent to determine whether it has control. This is because if the decision-maker has been delegated rights that give it power, the decision-maker must assess whether those rights give it power for its own benefit, or merely power for the benefit of others. As an agent cannot have control over the investee, it does not consolidate the investee. A principal may have control over the investee, and if so, would consolidate the investee.

A decision maker shall consider the overall relationship between itself, the investee being managed and other parties involved with the investee, in particular all the factors below, in determining whether it is an agent:

a) the scope of its decision-making authority over the investee

   As discussed above, OPG has decision-making authority over the Trust and its relevant activities. The Province has no right to determine what sort of funding decisions OPG should make to fund the intangible assets that they will purchase and OPG can choose not to purchase future intangible asset purchases.
   Terms and Conditions to support this point: 1, 2, 3, 4, 5

b) the rights held by other parties (paragraphs B64–B67).

   There are no substantive removal rights held by the Province for debt that already exists in the Trust.

   Terms and Conditions to support this point: 3, 4, 5

c) the remuneration to which it is entitled in accordance with the remuneration agreement(s) (paragraphs B68–B70).

   See section on 'Exposure or rights to variable returns' above.

   Terms and Conditions to support this point: 6, 7, 8, 9

d) the decision maker's exposure to variability of returns from other interests that it holds in the investee (paragraphs B71 and B72).

   See section on 'Exposure or rights to variable returns' above.

   OPG will receive a 44% equity injection from the Province of Ontario, indirectly through the Ontario Financing Authority. Given that currently, the majority (currently 51%) of the Trust debt will be from External Markets and not the Province, it can be argued that OPG did not receive the majority of its interest in the investee as a contribution or loan from the Province. This shows that OPG is a principal, not a de-facto agent.

   Terms and Conditions to support this point: 6, 7, 8, 9

Conclusion: OPG is not an agent for the Province as the arrangement does not provide for the Province to directly absorb any variability associated with the structure. If the Province decides to intervene at a later date due to evolving market conditions, an assessment would be made at that future date.

Analysis on whether OPG is an agent for ratepayers

OPG is not an agent for the ratepayers because OPG has substantive exposure to risk of loss of its own funds. The ratepayers do not have any of their own funds in any of the subordinated tranches and further, no decision making authority is delegated to the ratepayers relating to the relevant activities of the Trust.

Analysis on whether OPG is an agent for the IESO

OPG is not an agent of the IESO because the IESO faces no continuing risk of loss after sale of the intangible asset to OPG.

The Special Committee of the Board of Directors
Ontario Power Generation Inc. (the "Company")
700 University Avenue
Toronto, ON M5G 1X6

May 2 2017

Dear Sirs/Madames:

This letter is being issued to the Special Committee to assist them in their evaluation of management's analysis of the application of International Financial Reporting Standards ("IFRS") as adopted by the International Accounting Standards Board ("IASB")) to the specific transaction described in the Company's memorandum entitled *OPG Accounting Considerations of Ontario Fair Hydro* dated May 2 2017, herein referred to as "the Management Memorandum". We are issuing this letter in our role as auditors of the Company for the year ending December 31, 2017. As the Province consolidates OPG on an IFRS basis, this letter pertains solely to management's IFRS analysis as contained in the Management Memorandum.

We have read the Management Memorandum and we agree with management's analysis therein, subject to all of the assumptions and limitations identified therein. Specifically, we concur that the existing legislation, along with the yet undrafted Regulation and special purpose vehicle (TRUST) documents, and various other agreements assuming they include the required criteria that Management has identified as outstanding in its Appendix A, would be sufficient to support consolidation of the TRUST with OPG Inc.

Additionally, we specifically refer you to the section entitled "Conclusion" in the Management Memorandum, which indicates that their analysis is based on draft legislation as well as their assumptions regarding the terms and conditions of certain contractual arrangements and other documentary evidence that is not yet drafted. Therefore, the Management Memorandum will be required to be updated to reflect the final contents of the legislation and other relevant contractual arrangements and documentary evidence. We will review the updated Management Memorandum once it is available, and update you on our viewpoints once our review of such updated Management Memorandum is completed.

The scope of this letter and any views expressed herein are limited to the transactions, facts, circumstances and assumptions provided to us by management or the Company as described in the Management Memorandum. If such facts, circumstances or assumptions differ, our conclusions may change.

We have not performed an audit or a review of the Management Memorandum. Additionally, we have not performed an audit as of any date or for any period subsequent to December 31, 2016.

DRAFT

The ultimate responsibility for the proper accounting treatment under IFRS and US GAAP rests with the Company.

We have not been asked for, nor do we express, an opinion on the tax consequences of the transactions described herein.

The accounting for such transactions could be affected by actions of the International Accounting Standards Board, the IFRS Interpretations Committee, the Ontario Securities Commission, or other regulatory bodies. Any such actions occurring prior to the finalization of the 2017 IFRS consolidated financial information will be required to be analyzed by management, and such analysis will be reviewed by us in the context of the audit procedures we will perform on the consolidated IFRS financial information for the year ending December 31, 2017.

Our work does not include the provision of legal advice and we make no representations regarding questions of legal interpretation of any possible structure or strategy. We make no representation regarding the sufficiency of our work for any purpose.

This report is intended solely for the information and use of the Special Committee, Board of Directors and management. We understand that a copy of this letter may be provided to the Province of Ontario, the Independent Electricity System Operator, and/or the Ontario Energy Board. It is not intended to be, and should not be, used by anyone other than these specified parties.

This analysis, or portions thereof, should not be referred to or distributed to any other person or entity, other than those noted in the paragraph directly above. It is not to be referred to or quoted, in whole or in part, in any registration statement, prospectus, public filing, loan agreement, or other agreement or document.

Yours sincerely

Tracy E Brennan

Hi Gadi and Mike

As mentioned on Friday, pls see my comments on the OPG paper on Accounting Considerations. You may find my comments on the performance fee structure proposed by OPG of particular interest.

Thanks

Ken K

Subject: RE: Drafts of accounting memos

Hi Cindy

Thanks for forwarding these, I have a few comments as follows.

Happy to discuss.

Thanks

Ken K

General Comments - OPG Accounting Considerations

The paper is very OPG centric with little or no acknowledgement of the role of the other participants in the Fair Hydro Plan. It appears that OPG intends to change a performance fee and management fee as the Financial Service manager. While the latter is reasonable since the Trust will most likely leverage existing OPG resources for front and back office functions, a performance fee will only add to the value of the regulatory asset to be repaid by future ratepayers.

The performance fee appears to be based on OPG beating a pre-set benchmark cost of borrowing for the Trust. I am not sure that ratepayers should be on the hook for this, if OPG beats the benchmark the benefits should be passed on to the ratepayers not retained by the company. The reward for performance exceeding the benchmark should be limited to the compensation of OPG/Trust trading floor staff and be part of the overall management fee OPG charges for managing the Trust. The role of the Financial Services Manager should not be conflated by OPG with managing a mutual or hedge fund where gains from beating a benchmark accrue to the managing entity. Plus this also raises the question of who sets the benchmark.

The overall concept should be of fiscal neutrality, where the Trust capitalizes the actual interest incurred annually plus a reasonable administration fee paid to OPG. This will ensure that future ratepayers are not overly burdened.

Specific Comments

- Page 1 second bullet; as mentioned above rewards for performance should be limited to compensation for trading floor staff, not a performance fee for OPG, adopting the former will result in a substantially lower impact to ratepayers when compared to the latter.
- Page 2 last bullet: If the role of Financial Service Manager is taken away from OPG and given to another entity wouldn't it make sense for that entity to take on the debt incurred to date as long as that is practically feasible. It's not particularly efficient for two separate entities to be managing debt incurred for the same purpose and the ratepayers to be saddled with two sets of management fees.

- Last item on page 2, Purpose and Design of the Trust: the purpose of the Trust is not to allow OPG to earn a fee, rather to exist as a vehicle to smooth the GA costs between current and future ratepayers. OPG's fees should be limited a to a reasonable management fee and the interest fee accruing from the debt issued to the Trust funded by the 44% equity injection.
- Page 3, Financing Plan, 2nd and 3rd bullets: the ministry should have some approval authority over the Financing Plan and giving OPG the ability to unilaterally amend the plan is problematic.
- Page 3 last bullet: OPG having the power to reject purchasing the investment asset places the entire Fair Hydro Plan in jeopardy, including the possibility of a large regulatory asset being included in IESO's financial statements and by extension in the Province's PA.
- Page 4, the analysis under "Assessment": fees and Financing Plan, pls see comments above.
- Page 5, 1st bullet Fees: already covered in previous comments
- Page 5, 2nd bullet: OPG should recognize that the only 5% of its own debt is at risk, the balance 44% being funded via the equity injection the risk resides with Province since there is expectation on the part of the latter that the equity injection will also be repaid in proportion to the repayment of the debt the Trust owes to the markets.
- Page 5, 3rd bullet: wouldn't direct funding from the Province to OPG, impact the sanctity of the GBE model? In the event of a market disruption, a better approach maybe for IESO to continue accumulating the regulatory asset, however, there are accounting implications re including said asset in the Province's PA upon consolidation.
- Page 6, last two items relating to "Assessment": I am a little confused regarding OPG's exposure to variable returns, assuming the model includes a tru-up mechanism that allows the Trust to recover any variation from the pre-determined benchmark borrowing rate, the risk arising from a variance is entirely borne by the ratepayers.
- Page 9, item 4: As mentioned previously the Province should have some authority over the Financing Plan including the ability to veto provisions and/or amendments.
- Page 9, item 6: equity injection is from the Province not OEFC.
- Page 10, item 8 (b) and (c): benchmark vs. actual previously discussed.

Scott:

Further to our discussion on the outstanding issues, please find below the comments from the Dealers on the "Markup" of the Provincial Protection and Assurance term sheet.

As noted below, the next step should be to get the appropriate parties from the Province to sit down with the dealers and OPG to go over the points and agree on a basis to move forward.

We should try to do that sometime next week. Let us know what times work on the Province side and we will coordinate with the Dealers & counsels.

John/Les/Ken,

Please find below an issues list on the Province's comments on the Provincial Protection and Assurances Term Sheet (formerly the Provincial Support Agreement). This list reflects input from the dealers, Oslers and Torys. Please let us know if you have any additional comments or questions. If not, will you be reaching out to the Province to schedule a meeting next week (with the dealers, OPG, the Province and their counsels) to discuss these points? The dealers and their counsel don't see value in exchanging further drafts of the term sheet until they have had an opportunity to meet with the Province. We agree with this approach and are happy to assist in

coordinating a meeting for next week. It would also be helpful to hear the Province's rationale and concerns for making some of these changes. Please let us know.

Many thanks,

Nina

1. The Servicing Guarantee:

    (a) It is written in favour of only the financing entity. However, in the MTSA, we are asking for covenants directly in favour of Indenture Trustee. The Indenture Trustee/specified creditors should have the direct benefit of the guarantee rather than relying on an indirect security interest in the servicing guarantee.

    (b) It should be clarified that the servicing obligations of the electricity vendors are covered.

    (c) If the guarantee is unenforceable, we should fall back to an indemnity, not a "functionally equivalent direct covenant" which is an uncertain concept.

    (d) We don't want an exclusion for economic loss. That may cover whatever losses the specified creditors do suffer.

2. Change of Law.

    (a) This should be written as a guarantee not an indemnity.

    (b) It should be directly in favour of the Indenture Trustee/specified creditors and it should cover all the "finance amount" and not just funding obligations.

    (c) We do not want the guarantee to be provided by another entity which is in turn guaranteed by Ontario. It should come directly from Ontario.

    (d) There should be no "materiality" threshold for a claim. If obligations are not paid in full, then there should be a claim.

    (e) The choice to assume or accelerate should be at the option of the holders, not the guarantor.

    (f) If accelerated, then the 1% premium should be payable. This is a voluntary termination by the Province.

3. Undertaking Regarding Mismatches (market disruption)

    (a) At best this structure defers the discussion of protection for a market disruption. At worst, it is impractical that take-out financing needs to be arranged in advance of each warehouse financing. We should rely on a definition of market disruption.

4. Approvals.

    (a) Province to clarify what is contemplated under the heading "Approval Requirement". Is

Province proposing to approve any obligation incurred by the Financing Entity?

(b) Approval under Section 28 of the *Financial Administration Act* to be attained (in case the OFHPA is declared void in its entirety).

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet~~—~~

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The ~~trust company acting as~~ indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") ~~acting for the benefit of~~on behalf of itself and all other persons ~~who may have contractual~~having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") ~~(~~including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee ~~and~~, the trustee of the Financing Entity[1]~~)~~ if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2]1 after all ~~Funding Obligations~~funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.
Performance Guarantee:	~~**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under~~Under the Master Sale and Servicing Agreement ~~between IESO, as seller and servicer,~~to be entered into by IESO and the Financing Entity~~, as purchaser~~, **[and OPG as Financial Services Manager]** ("**MSSA**")~~.~~, IESO will have obligations both

[1] ~~We have assumed that the initial Financing Entity will be a trust.~~

[2]1 This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

	as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the ~~Indenture Trustee~~Beneficiaries for any losses that result.
~~**Performance Guarantee Event:**~~	~~A "Servicer Default" occurs under the MSSA[3]~~
~~**Payment Guarantee:**~~	~~**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.~~
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) ~~if~~ the Legislative Assembly of Ontario repeals the Act; or (B) ~~if~~ the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) ~~if~~ a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment

[3] ~~Each Servicer Default will include its own cure period before the event becomes a Servicer Default.~~
[4] ~~To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.~~

	interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.
Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year]** shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid ~~a Beneficiary~~all Beneficiaries in full, to the extent of such ~~payment,~~payments the Guarantor ~~is~~shall be subrogated in and to all the rights of recovery of ~~such~~the Beneficiar~~y~~ies in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all ~~amounts~~indebtedness and obligations owing to ~~a~~the Beneficiar~~y~~ies,

	the Indenture Trustee will acknowledge and agree on behalf of ~~such~~the Beneficiar~~y~~ies that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiar~~y~~ies ha~~s~~ve or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a ~~Performance Guarantee Event or~~ Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~5~~[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

~~5~~[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet~~—~~

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The ~~trust company acting as~~ indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") ~~acting for the benefit of~~on behalf of itself and all other persons ~~who may have contractual~~having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") ~~(~~including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee ~~and~~, the trustee of the Financing Entity[1]~~)~~ if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2]1 after all ~~Funding Obligations~~funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.
Performance Guarantee:	~~**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under~~Under the Master Sale and Servicing Agreement ~~between IESO, as seller and servicer,~~to be entered into by IESO and the Financing Entity~~, as purchaser~~, **[and OPG as Financial Services Manager]** ("**MSSA**")~~.~~, IESO will have obligations both

[1] ~~We have assumed that the initial Financing Entity will be a trust.~~

[2]1 This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

	as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the ~~Indenture Trustee~~Beneficiaries for any losses that result.
~~**Performance Guarantee Event:**~~	~~A "Servicer Default" occurs under the MSSA[3]~~
~~**Payment Guarantee:**~~	~~**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.~~
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) ~~if~~ the Legislative Assembly of Ontario repeals the Act; or (B) ~~if~~ the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) ~~if~~ a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment

[3] ~~Each Servicer Default will include its own cure period before the event becomes a Servicer Default.~~
[4] ~~To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.~~

	interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.
Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year]** shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid ~~a Beneficiary~~all Beneficiaries in full, to the extent of such ~~payment,~~payments the Guarantor ~~is~~shall be subrogated in and to all the rights of recovery of ~~such~~the Beneficiar~~y~~ies in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all ~~amounts~~indebtedness and obligations owing to ~~a~~the Beneficiar~~y~~ies,

	the Indenture Trustee will acknowledge and agree on behalf of ~~such~~the Beneficiar~~y~~ies that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiar~~y~~ies ha~~s~~ve or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a ~~Performance Guarantee Event or~~ Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~5~~[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

~~5~~[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Donnie:

Further to our discussion last week, please find attached the draft term sheet relating to the Provincial Support. In this draft the Province will assume the obligations of the debt under certain conditions. This draft document reflects the Province initial thoughts. Stu will coordinate this agreement from our end.

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet~~—~~

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The ~~trust company acting as~~ indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") ~~acting for the benefit of~~on behalf of itself and all other persons ~~who may have contractual~~having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") ~~(~~including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee ~~and~~, the trustee of the Financing Entity[1]~~)~~ if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2]1 after all ~~Funding Obligations~~funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.
Performance Guarantee:	~~**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under~~Under the Master Sale and Servicing Agreement ~~between IESO, as seller and servicer,~~to be entered into by IESO and the Financing Entity~~, as purchaser~~, **[and OPG as Financial Services Manager]** ("**MSSA**")~~.~~, IESO will have obligations both

[1] ~~We have assumed that the initial Financing Entity will be a trust.~~

[2]1 This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

	as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the ~~Indenture Trustee~~Beneficiaries for any losses that result.
~~**Performance Guarantee Event:**~~	~~A "Servicer Default" occurs under the MSSA[3]~~
~~**Payment Guarantee:**~~	~~**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.~~
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) ~~if~~ the Legislative Assembly of Ontario repeals the Act; or (B) ~~if~~ the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) ~~if~~ a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment

[3] ~~Each Servicer Default will include its own cure period before the event becomes a Servicer Default.~~
[4] ~~To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.~~

	interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.
Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year]** shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid ~~a Beneficiary~~all Beneficiaries in full, to the extent of such ~~payment,~~payments the Guarantor ~~is~~shall be subrogated in and to all the rights of recovery of ~~such~~the Beneficiar~~y~~ies in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all ~~amounts~~indebtedness and obligations owing to ~~a~~the Beneficiar~~y~~ies,

	the Indenture Trustee will acknowledge and agree on behalf of ~~such~~the Beneficiar~~y~~ies that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiar~~y~~ies ha~~s~~ve or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a ~~Performance Guarantee Event or~~ Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~5~~[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

~~5~~[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Donnie:

Further to our discussion last week, please find attached the draft term sheet relating to the Provincial Support. In this draft the Province will assume the obligations of the debt under certain conditions. This draft document reflects the Province initial thoughts. Stu will coordinate this agreement from our end.

John

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet~~—~~

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The ~~trust company acting as~~ indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") ~~acting for the benefit of~~on behalf of itself and all other persons ~~who may have contractual~~having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") ~~(~~including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee ~~and~~, the trustee of the Financing Entity[1]~~)~~ if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2]1 after all ~~Funding Obligations~~funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.
Performance Guarantee:	~~**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under~~Under the Master Sale and Servicing Agreement ~~between IESO, as seller and servicer,~~to be entered into by IESO and the Financing Entity~~, as purchaser~~, **[and OPG as Financial Services Manager]** ("**MSSA**")~~.~~, IESO will have obligations both

[1] ~~We have assumed that the initial Financing Entity will be a trust.~~

[2]1 This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

	as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the ~~Indenture Trustee~~Beneficiaries for any losses that result.
~~**Performance Guarantee Event:**~~	~~A "Servicer Default" occurs under the MSSA[3]~~
~~**Payment Guarantee:**~~	~~**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.~~
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) ~~if~~ the Legislative Assembly of Ontario repeals the Act; or (B) ~~if~~ the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) ~~if~~ a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment

[3] ~~Each Servicer Default will include its own cure period before the event becomes a Servicer Default.~~
[4] ~~To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.~~

	interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.
Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year]** shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid ~~a Beneficiary~~all Beneficiaries in full, to the extent of such ~~payment,~~payments the Guarantor ~~is~~shall be subrogated in and to all the rights of recovery of ~~such~~the Beneficiar~~y~~ies in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all ~~amounts~~indebtedness and obligations owing to ~~a~~the Beneficiar~~y~~ies,

	the Indenture Trustee will acknowledge and agree on behalf of ~~such~~the Beneficiar~~y~~ies that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiar~~y~~ies ha~~s~~ve or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a ~~Performance Guarantee Event or~~ Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~5~~[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

~~5~~[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Subject: FW: Term Sheet - Provincial Support Agreement relating to the Fair Hydro Trust

Donnie:

Further to our discussion last week, please find attached the draft term sheet relating to the Provincial Support. In this draft the Province will assume the obligations of the debt under certain conditions. This draft document reflects the Province initial thoughts. Stu will coordinate this agreement from our end.

John

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet~~—~~

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The ~~trust company acting as~~ indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") ~~acting for the benefit of~~on behalf of itself and all other persons ~~who may have contractual~~having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") ~~(~~including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee ~~and~~, the trustee of the Financing Entity[1]~~)~~ if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2]1 after all ~~Funding Obligations~~funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.
Performance Guarantee:	~~**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under~~Under the Master Sale and Servicing Agreement ~~between IESO, as seller and servicer,~~to be entered into by IESO and the Financing Entity~~, as purchaser~~, **[and OPG as Financial Services Manager]** ("**MSSA**")~~.~~, IESO will have obligations both

[1] ~~We have assumed that the initial Financing Entity will be a trust.~~

[2]1 This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

	as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the ~~Indenture Trustee~~Beneficiaries for any losses that result.
~~**Performance Guarantee Event:**~~	~~A "Servicer Default" occurs under the MSSA[3]~~
~~**Payment Guarantee:**~~	~~**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.~~
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) ~~if~~ the Legislative Assembly of Ontario repeals the Act; or (B) ~~if~~ the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) ~~if~~ a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment

[3] ~~Each Servicer Default will include its own cure period before the event becomes a Servicer Default.~~
[4] ~~To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.~~

	interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.
Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year]** shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid ~~a Beneficiary~~all Beneficiaries in full, to the extent of such ~~payment,~~payments the Guarantor ~~is~~shall be subrogated in and to all the rights of recovery of ~~such~~the Beneficiar~~y~~ies in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all ~~amounts~~indebtedness and obligations owing to ~~a~~the Beneficiar~~y~~ies,

	the Indenture Trustee will acknowledge and agree on behalf of ~~such~~the Beneficiar~~y~~ies that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiar~~y~~ies ha~~s~~ve or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a ~~Performance Guarantee Event or~~ Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~5~~[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

~~5~~[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet~~—~~

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The ~~trust company acting as~~ indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") ~~acting for the benefit of~~on behalf of itself and all other persons ~~who may have contractual~~having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") ~~(~~including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee ~~and~~, the trustee of the Financing Entity[1]~~)~~ if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2]1 after all ~~Funding Obligations~~funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.
Performance Guarantee:	~~**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under~~Under the Master Sale and Servicing Agreement ~~between IESO, as seller and servicer,~~to be entered into by IESO and the Financing Entity~~, as purchaser~~, **[and OPG as Financial Services Manager]** ("**MSSA**")~~.~~, IESO will have obligations both

[1] ~~We have assumed that the initial Financing Entity will be a trust.~~

[2]1 This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

	as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the ~~Indenture Trustee~~Beneficiaries for any losses that result.
~~**Performance Guarantee Event:**~~	~~A "Servicer Default" occurs under the MSSA[3]~~
~~**Payment Guarantee:**~~	~~**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.~~
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) ~~if~~ the Legislative Assembly of Ontario repeals the Act; or (B) ~~if~~ the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) ~~if~~ a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment

[3] ~~Each Servicer Default will include its own cure period before the event becomes a Servicer Default.~~
[4] ~~To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.~~

	interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.
Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year]** shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid ~~a Beneficiary~~all Beneficiaries in full, to the extent of such ~~payment,~~payments the Guarantor ~~is~~shall be subrogated in and to all the rights of recovery of ~~such~~the Beneficiar~~y~~ies in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all ~~amounts~~indebtedness and obligations owing to ~~a~~the Beneficiar~~y~~ies,

	the Indenture Trustee will acknowledge and agree on behalf of ~~such~~the Beneficiar~~y~~ies that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiar~~y~~ies ha~~s~~ve or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a ~~Performance Guarantee Event or~~ Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~5~~[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

~~5~~[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Subject: RE: Equity Injection Term Sheet

Thanks Carlos.

In the previous H1 related loans, the Minister of Energy signed the share purchase agreement and the Minister of Finance signed the loan agreement under the authority of an OIC. OFA staff act on behalf of the Minister of Finance in taking certain actions related to the loan. I am not sure that the Minister of Energy can delegate authority under the share purchase agreement for this equity injection (i.e. to make a decision to purchase shares) in the same way that OFA staff would deal with actions under a loan agreement. It may be that if there needs to be some quick turn-around in relation to funding OPG via the equity injection that maybe there might be a services agreement between the OFA and the Ministry of Energy. Perhaps, this only refers to how the money is being flowed and is more of a back-office function, and someone at the Ministry of Energy directs the OFA to take the action.

We will take a look at this term sheet too and provide some comments and questions.

Thanks.

Malle

Subject: Equity Injection Term Sheet

Hey John, Carlos,

Attached is a term sheet from OPG that would form the basis of the Equity Injection Agreement. I think this would be an agreement between ENE/OPG and OFA. While it currently says 5 business days in this document Clara flagged that the IESO may be looking for it to be settled in as quickly as 1 day. Given how quick this needs to happen I've included a line about ENE delegating authority to the OFA to manage this monthly process. I think ENE would want to be kept in the loop but I don't think they would need to sign off each month. That being said I haven't run this up the chain at ENE yet or discussed with ENE controllership.

Id defer to you guys for short term mechanics for the most part as you have the experience on the borrowing side. If you could take a look and mark-up where desired then maybe we can chat?

Let me know if you have any questions.

Kaitlin

Scott:

As requested attached is the Rating presentation which we intend to use to solicit "soft" feedback from each Rating agency. A fulsome deck will be provided once they have been formally engaged. Our first meeting will be with DBRS tomorrow afternoon.

Please forward to both Andrew and Serge who I believe had expressed some interest in seeing the package.

John

Fair Hydro Plan Financing Program

Rating Agency Presentation

July 6, 2017

ONTARIO POWER GENERATION

CIBC | Goldman Sachs | RBC | RBC Capital Markets

Table of Contents

I. Ontario Electricity Market
II. Fair Hydro Plan
III. Financing Strategy
IV. Transaction Structure

Executive Summary

Purpose

- To provide high-level overview of what is being contemplated by Ontario's Fair Hydro Plan and related financing
- This presentation is based on the legislation and regulations in place and anticipated contractual arrangements
- To explore both securitization and traditional structured corporate bond ratings
  - Various financing alternatives are being explored, most of which have potential rating agency involvement
- To set expectations for timing and process

Brief Overview

- On March 2, 2017 Ontario announced its Fair Hydro Plan which proposes to lower the average residential electricity bill by 25%
  - 25% reduction includes the 8% rebate introduced in January 2017 as part of the Ontario Rebate for Electricity Consumers Act, 2016
  - The 25% reduction is expected to be in effect until 2021 (approximately 4 years) although bills may be allowed to increase by the rate of inflation
- The 17% incremental reduction as part of the Fair Hydro Plan will be recorded as a regulatory deferred asset for future recovery
  - The recovery period depends on the final fair allocation but is expected to begin in 2027 with a hard stop in 2047
- The exact quantum and duration of the program is still being developed, but the deferral is expected to amount to ~C$2.5bn / year
  - It is expected that 50+% of the financing will be derived from the capital markets
- Legislation to effect the recovery right was enacted in early June, and the regulations were largely completed at the end of June
  - Legislation and regulations were designed with capital market financing objectives in mind
  - Careful consideration given to possible structural enhancements with respect to creating the regulatory asset, assignability, achieving a true-sale opinion, being non-bypassable and including a true up mechanism to ensure repayment

Ratings Objectives

- Initially we are reaching-out to better understand what methodologies you will apply to this program / structure
- Ultimately, we will be pursuing some combination of ABCP conduit rating confirmation, and/or explicit long-term ratings for the credit facility, term debt and sub-debt

Transaction Parties

Issuer	Fair Hydro Trust (“FHT”)	
Advisors	CIBC, Goldman Sachs, RBC	
Financial Services Manager	Ontario Power Generation (“OPG”) is 100% owned by the Province of Ontario (the “Province”)	A low (DBRS), BBB+ (S&P)
Servicer	Independent Electricity System Operator (“IESO”)	A high (DBRS), Aa2 (Moody’s)
Provincial Rate Authority	Ontario Energy Board (“OEB”)	
Guarantor	Province of Ontario (the “Province”)	AA low (DBRS), AA- (Fitch), Aa2 (Moody’s), A+ (S&P)
Issuer’s Counsel	Torys LLP (Canada), Hunton & Williams LLP (U.S.)	
Advisor’s Counsel	Osler, Hoskin & Harcourt LLP (Canada, U.S.)	

Timeline

- Deferral started in June 2017
- Warehouse financing to begin as soon as possible
- Currently educating agencies and seeking to better understand applicable criteria / methodologies

Ontario Electricity Market

SECTION I

Overview of the Electricity Market in Ontario

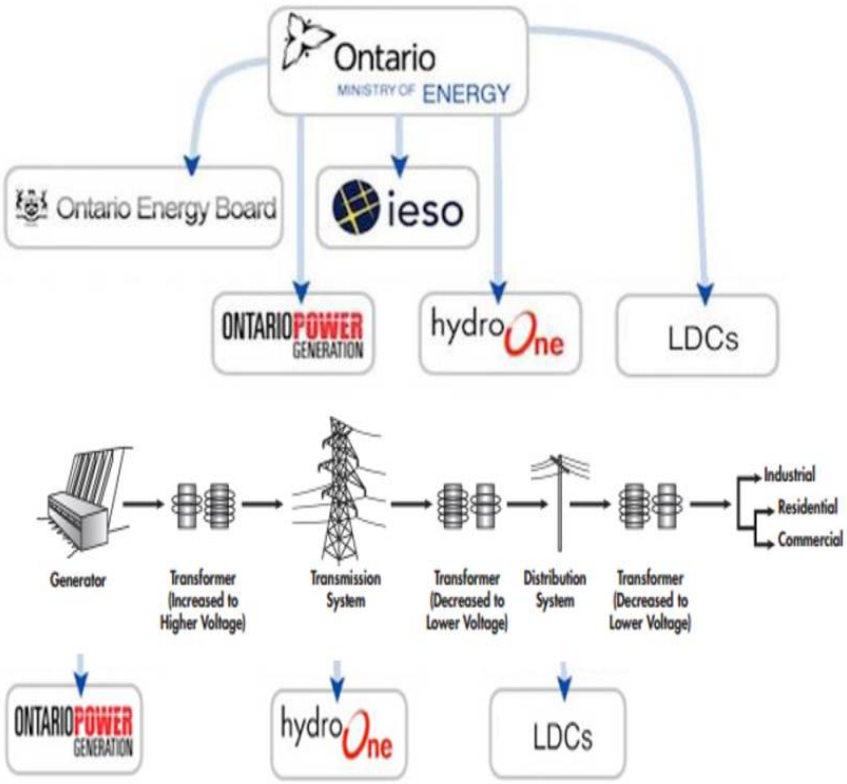
The Ontario electricity market is highly regulated

- Transmission rates, Distribution rates, and OPG's Generation are set by the Ontario Energy Board
- Rates for the majority of the remaining generation are set by direct contracts with the IESO (e.g. Bruce, Wind / Solar Power)

Key Entities

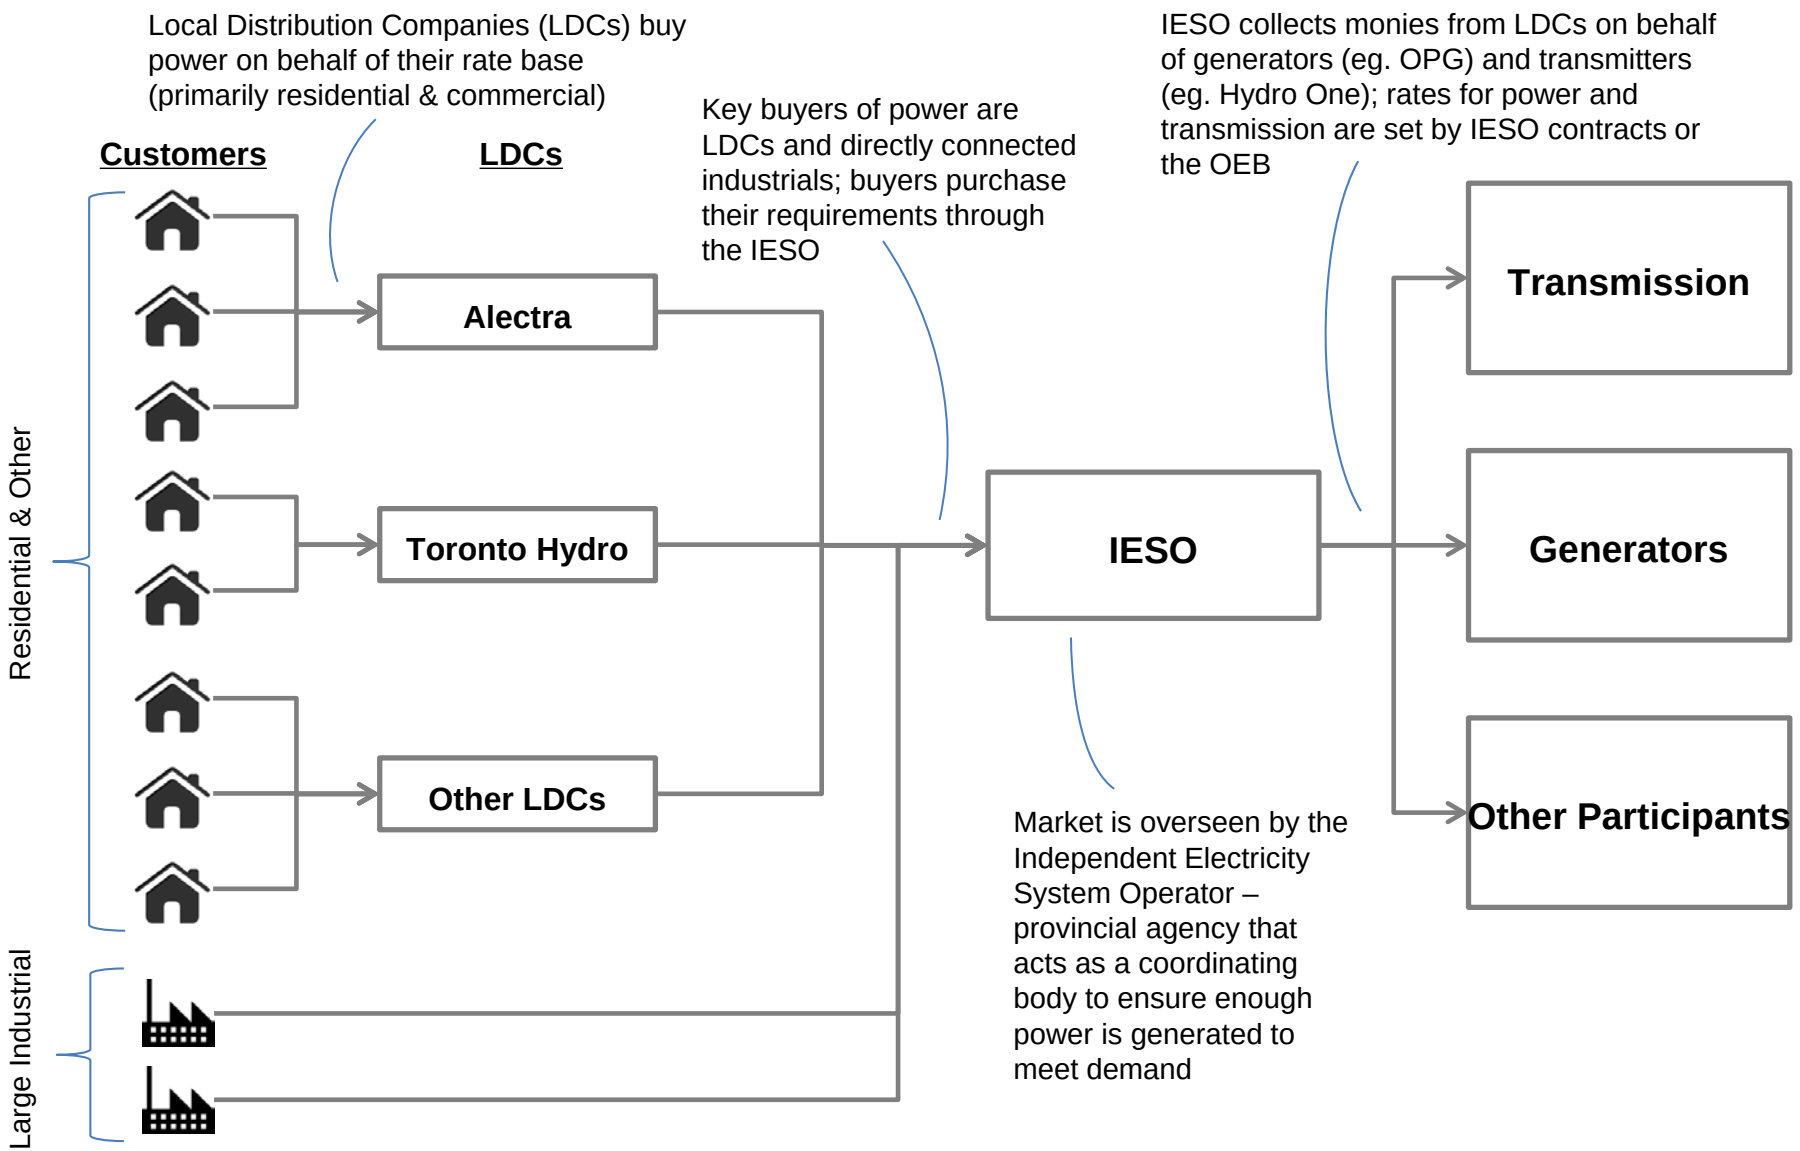
Ontario Ministry of Energy	▪ Sets policy for the electricity system
Ontario Energy Board	▪ Ontario Energy Board is Ontario's independent energy regulator that evaluates rates paid to regulated energy providers ▪ The Ontario Energy Board has a statutory obligation to set the regulated electricity price for Regulated Price Plan (RPP) consumers
IESO	▪ The Independent Electricity System Operator manages the operation and reliability of Ontario's bulk power system and administers the wholesale electricity market
OPG	▪ Ontario Power Generation is Ontario's largest electricity generator, producing approximately half of Ontario's electricity – Wholly owned by the Province of Ontario
Hydro One	▪ Owns and administers transmission in the province
LDC's	▪ Local Distribution Companies (LDC's) provide power to end-users (residential / commercial / industrial) ▪ There are 60+ LDC's operating in the IESO market; the 3 largest LDCs(1) account for ~60% of Ontario's 5.1 million customers

The Ontario electricity market has $22B in annual cash flows



(1) Hydro One, Toronto Hydro, and Alectra

Flow of Funds Through Key Market Participants



The IESO

Key Credit Strengths

- The IESO is at the center of the market, as buyers purchase power from the IESO and sellers of power are paid by the IESO
- IESO is effectively a clearing house and establishes the terms by which buyers are able to purchase power
- IESO Market Rules - Chapter 2 of the Market Rules outlines the parameters for Participation or “the procedures pursuant to which persons may apply to the IESO for the authorization to participate in the IESO-administered markets or to cause or permit electricity to be conveyed into, through or out of the IESO-controlled grid”
- The credit conditions are outlined in Chapter 2 and involves the “prudential support” provided by the LDC
- Based on public credit ratings or credit payment history, a buyer of power may be required to post collateral to support their projected exposure; LDCs, given their strong credit structure are awarded higher unsecured purchase limits
- The Prudential Rules are reviewed every few years and maintain a conservative stance regarding collateral

Strong Credit History

- Approximately $22 billion in costs flow through the Ontario electricity system each year (60% goes to generators)
- Since the beginning of the IESO open market in 2002, there have been 20 defaults
- Only three defaults could not be fully covered by the collateral posted by the defaulters
- Of the three defaults that resulted in “default levies” to the market participants, the total the levies were under $1 million
- Default levies are allocated 50% to Buyers of Power and 50% to the Sellers of Power, based on their usage/generation

LDCs

Key Credit Strengths

- The majority of power purchased in Ontario is by LDCs on behalf of residential and commercial customers; LDCs make up approximately 80% of the market
- The typical customer bill includes charges for the power itself (which goes to the generators), transmission (e.g. Hydro One), to the LDC itself (for local distribution), and for other market charges (e.g. IESO costs)
- LDC rates are governed by the OEB rate setting process; LDCs under the OEB's Retail Settlement and Distribution System Code may obtain a security deposit or letter of credit from their customers to mitigate risk of payment default
- LDCs are able to include an amount for accounts receivable write-offs within operating expenses for rate setting purposes. They can also apply for any extra-ordinary write-offs as a variance account adjustment to be considered by the OEB
- Approximately 10 LDC's have credit ratings through DBRS or S&P; the ratings are generally A, based on very low industry risk of regulated utilities and supportive regulatory framework;
- The OEB deems the capital structure of a LDC to include 40% equity and sets an allowed rate of return

Strong Credit History

- Given the strong credit mitigation measures available to the LDCs, a review of 8 LDCs (varied in size and geographic region), indicated a similar and very low loss rate
- LDC data was based on the financial statements of Toronto Hydro, North Bay Hydro, Horizon Utilities, Enersource, Collus PowerStream, Energy Plus, PowerStream, and Hydro One

	Average	Last 5 Years Average
AFDA / AR	3.40%	3.70%
AFDA / Sales	0.42%	0.44%
Write-Off / Sales	0.29%	0.28%

AFDA: Allowance for doubtful accounts

Fair Hydro Plan

SECTION II

Background

On March 2nd the Ontario Government Announced its Fair Hydro Plan

- The plan proposes to lower the average residential electricity bill by 25 percent
- In part by reallocating the charges paid by ratepayers for generation contracts and conservation programs over an extended period to match the expected life of the assets and the benefits of these initiatives
- In order to reallocate the payments, an OPG managed Financing Entity will use debt to purchase Regulatory Assets from the IESO and amortize them over a longer period
- This will lead to a near-term reduction in electricity bills followed by an increase in electricity bills over the long-term as interest and principal is repaid
- The government has further committed to capping the increase on the average residential bill at the rate of inflation for three years following the initial year

Financing Entity Overview

- OPG has the mandate to create and oversee a Trust separate from regular operations, that will finance costs related to the Fair Hydro Plan and spread the recovery through 2047
- The OEB will set the Regulated Price Plan to meet the requirements of the Fair Hydro Plan
- The IESO will create a regulatory asset approximately equal to the difference between collections from ratepayers and payment obligations to generators and conservation
- The Trust will have the right, but not the obligation, to purchase these regulatory assets / investment interests to support the debt required
  - Upon purchase by the trust, the regulatory asset becomes investment interest for the trust
- The Trust will enter the capital markets 1-3 times per year to secure long-term investment interests

Given the province's commitment to reduce electricity bills, there is a requirement to establish a financing entity, the "Trust", that will finance the shortfall in revenues not received from the market

Regulatory Asset / Investment Asset

Regulatory Asset

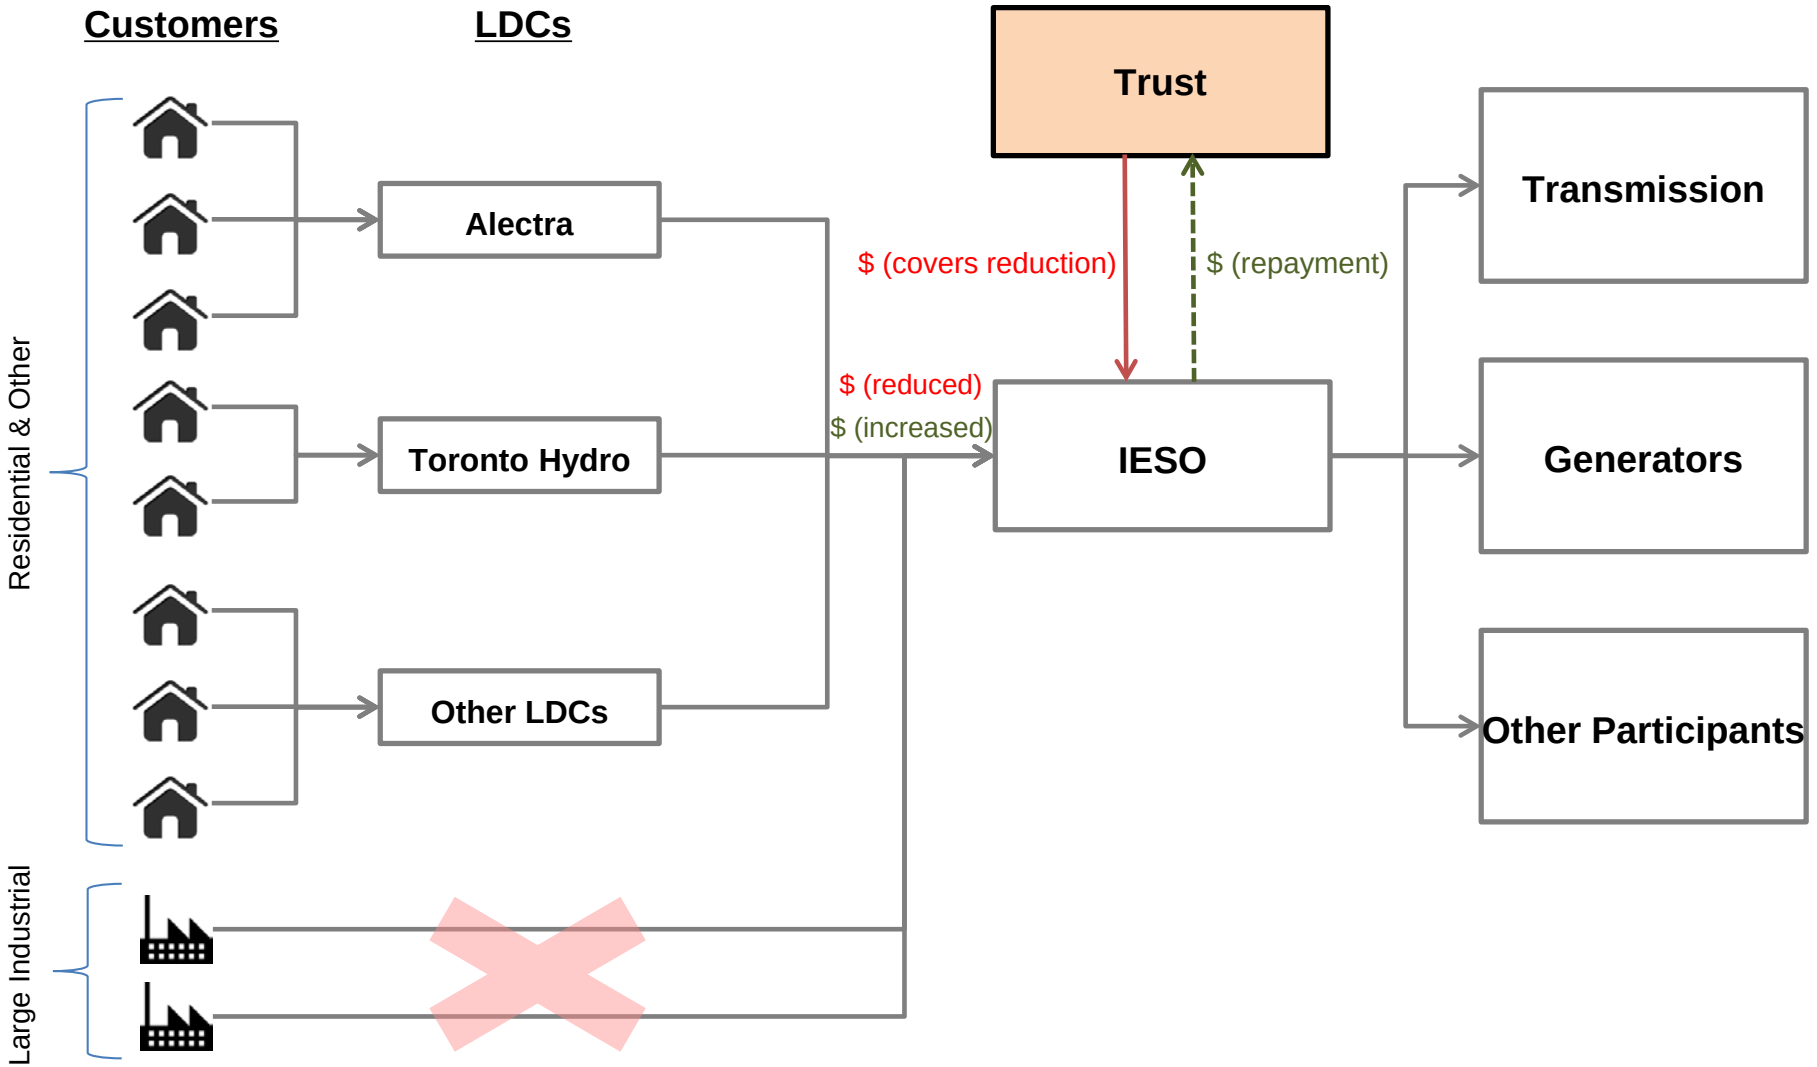
- IESO has authority under the Act to create a variance account to track the regulatory asset and is able to recover the balance in the variance account from consumers
- The OEB will set rates in accordance with regulation to recover the variance account balance through the clean energy adjustment but the OEB cannot change the amount of the clean energy adjustment to be recovered
- IESO is not able to recover the variance account balance prior to May 1, 2021
- IESO can transfer a portion of the variance account / regulatory asset to a financing entity
- A transfer of the variance account / regulatory asset is treated as an absolute sale of the IESO's right to recover the balance [and is not simply a security interest]

Investment Asset

- Transfer of the regulatory asset to a financing entity becomes an investment asset in the financing entity
- The investment asset constitutes an irrevocable property right and interest consisting of all rights of the IESO with respect to the variance account including the right to determine, impose, invoice, and collect the clean energy adjustment
- Investment interest owner can grant a security interest in order to secure a funding obligation

Addition of the Trust

In order to facilitate a ratepayer discount, the Trust is introduced to pay the difference to the IESO



Financial Services Manager - OPG

The Fair Hydro legislation names OPG, as the Financial Services Manager

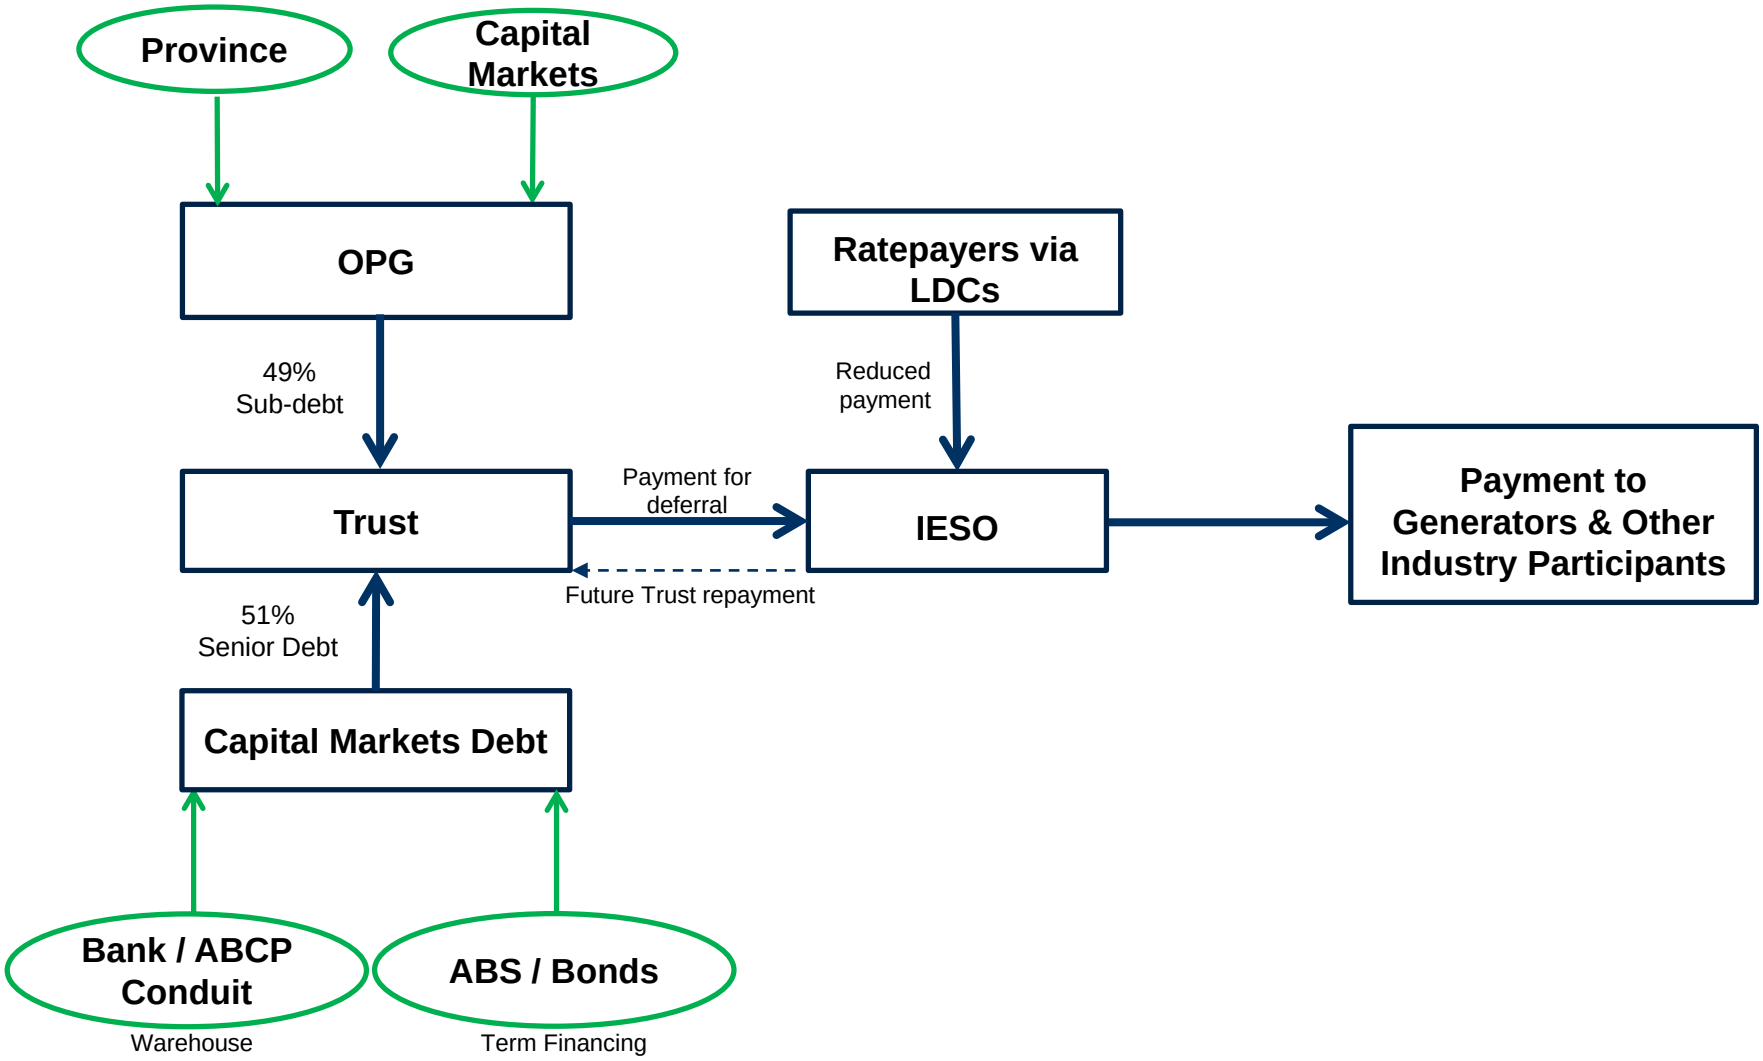
Why OPG

- One of the most experienced and largest generating companies in Canada, OPG has a broad set of relationships and capabilities that make it a valuable resource to the Province of Ontario
- Experienced in successful complex financing arrangements of large capital projects (such as OPG's recently completed Lower Mattagami project)

OPG's Role as Financial Services Manager

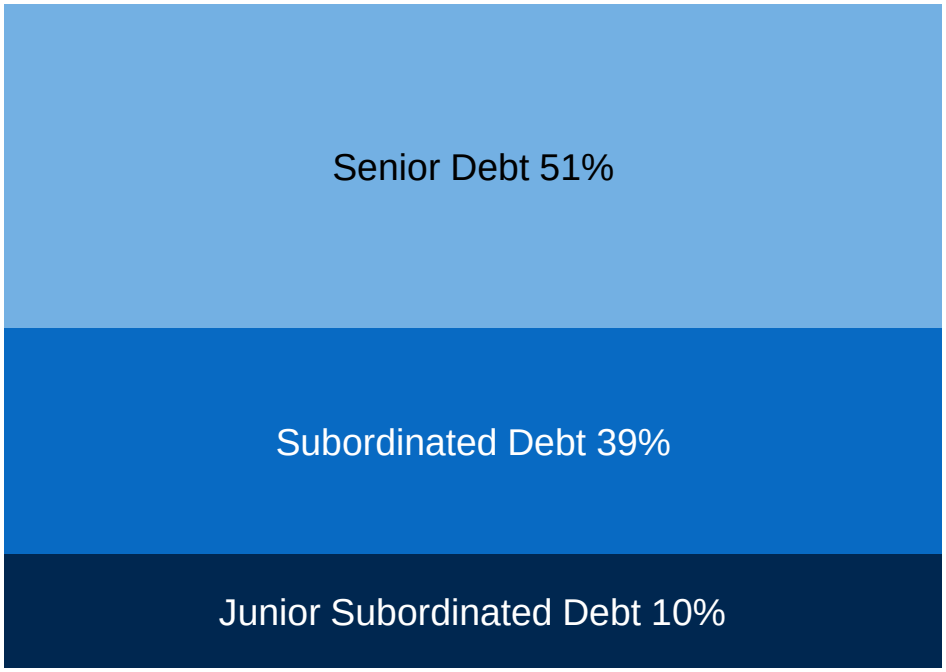
- Prepare a Financing Plan to evaluate whether potential funding obligations should be incurred for the purposes of acquiring an investment asset
- Administer the investment asset on behalf of the financing entities
- Ensure that funding obligations are incurred in a manner that is consistent with the Financing Plan
- Establish and charge fees for Financial Management Services
- Shall not provide for funding obligations to be incurred with any recourse to any assets of an electricity vendor, OPG, the OEB, the Province or the Lieutenant Governor in Council

Flow of Money between Trust and IESO



Simplified Trust Structure

- The Fair Hydro Trust will fund regulatory asset purchases through the issuance of senior and subordinated secured debt
  - Senior debt (51%) will be sourced monthly from committed warehouse facilities (bank and / or ABCP), and the periodic issuance of term debt
  - Subordinated debt (49%) will be provided by OPG; 44% of which will be obtained from an OEFC equity injection and 5% from OPG via external markets
  - Senior and subordinated principal will be scheduled to amortize to maintain the original proportions, shortfalls to be allocated first to the subordinated debt



<u>Senior Debt (Public Markets)</u>
Accessed from:
1) Canadian Securitization Program
2) U.S. Market Program

<u>Subordinated Debt</u>
- Provided to Trust by OPG via Ontario government

<u>Junior Subordinated Debt</u>
- OPG Injection (5%)
- Province to Trust by OPG via Ontario government (5%)

Financing Strategy

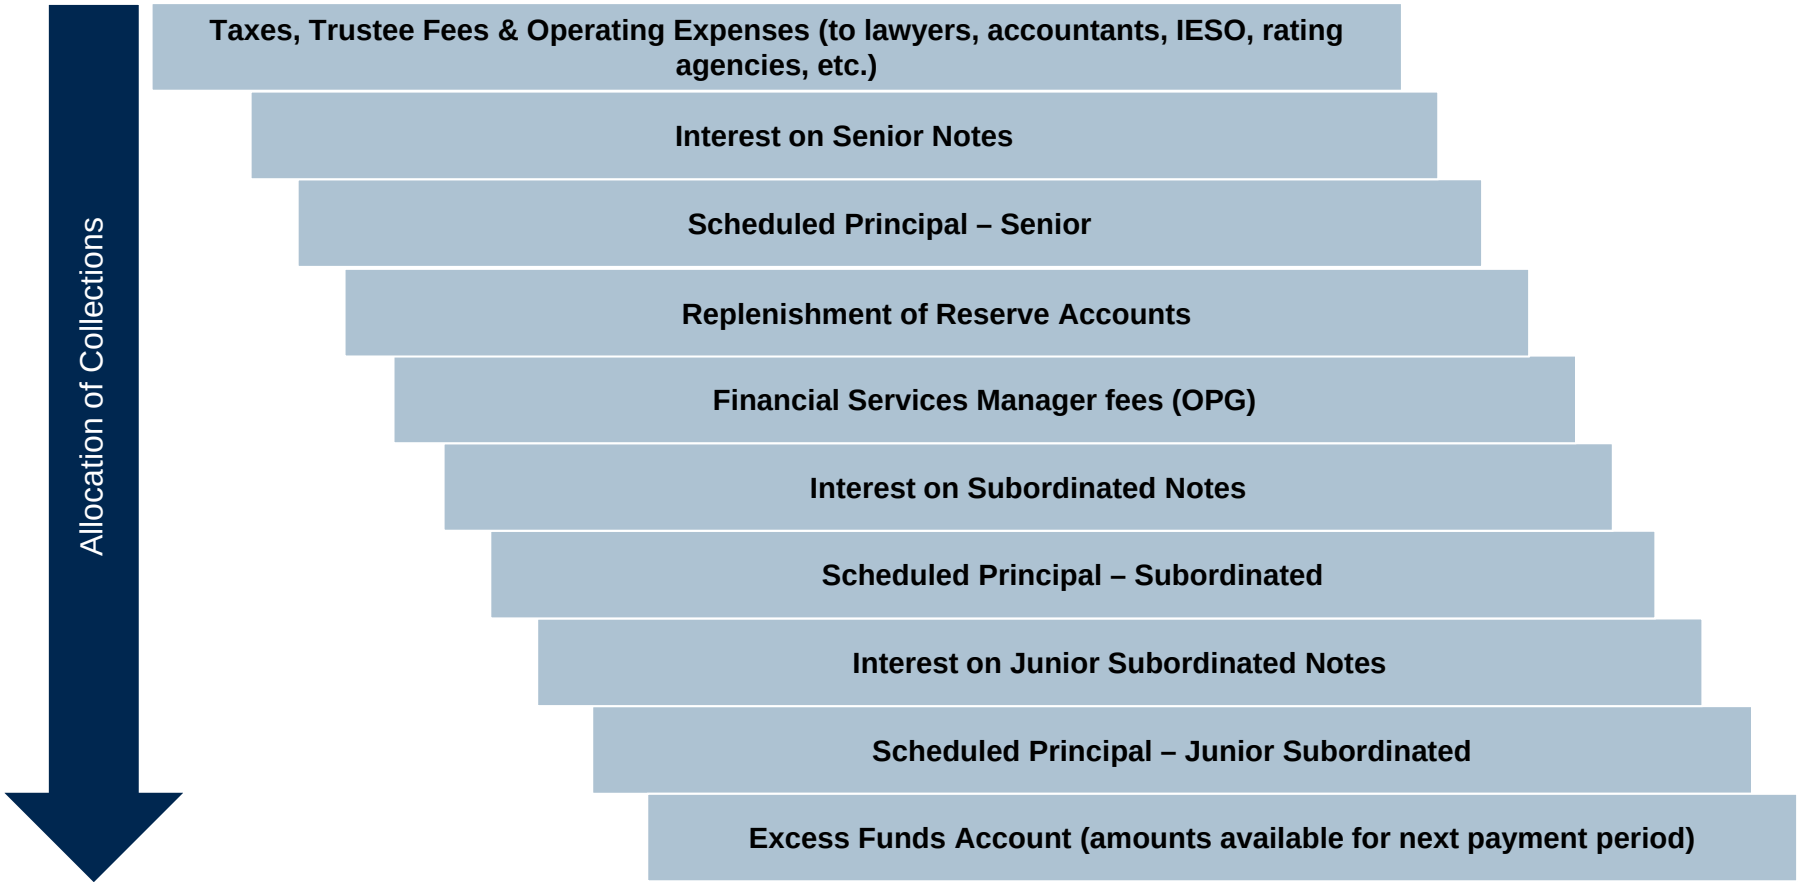
SECTION III

Financing Strategy – Funding Alternatives

- There are several potential funding sources that OPG can consider to structure the overall financing program, including securitization (issued in Canada or the U.S.), bonds, bank financing, and subordinated debt
- Warehouse financing (ABCP or bank debt) and OPG sub-debt will be used to fund monthly investment asset purchases from the IESO (monthly IESO funding shortfalls anticipated to be ~$200 million)
  - Fair Hydro Trust will periodically refinance the warehouse facility through the issuance of term debt
- It is anticipated that the first term debt takeout will be completed in the fall of 2017
  - Aggregate financing for the first offering could be ~$400 - $600 million, with senior-debt of about $200 - $300 million
- Both Canadian and U.S. term debt markets will be considered but decision on which markets to access will be determined on a deal by-deal-basis
- Term debt can take the form of bullet bonds or could be issued as amortizing bonds

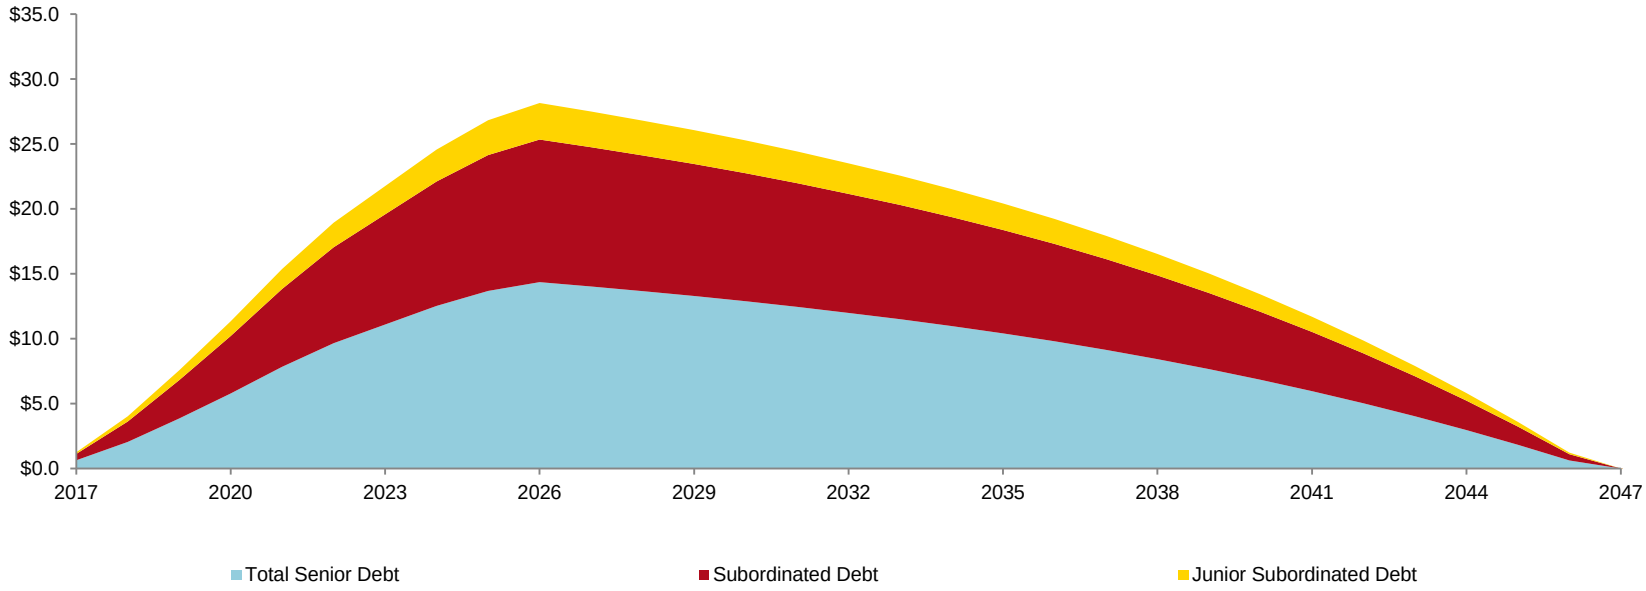
ABCP Conduit	▪ R-1(high) rating confirmation will be required from DBRS pre-closing ▪ Used to fund monthly regulatory asset purchases from the IESO
Bank	▪ Two explicit long-term ratings will be required ▪ Used to fund monthly regulatory asset purchases from the IESO
Canadian Term ABS / Bond	▪ Two explicit long-term ratings required; AAA rating will be targeted
US Term Debt (ABS / Bonds)	▪ Two explicit long-term ratings required; AAA rating will be targeted ▪ Requires cross-currency swaps
Subordinated Debt	▪ Subordinated notes will provide credit enhancement for senior debt (ranks behind senior debt in cash flow waterfall) ▪ Two explicit long-term ratings required

Indicative Waterfall



Illustrative Trust Debt Balance: Borrowing and Repayment

Illustrative Total Debt Summary - Funding / Repayment (Annual)



Transaction Structure

SECTION IV

Structural Comparison

	Precedent Utility Charge Securitizations	Proposed Fair Hydro Structure
Legislation	Legislation creates regulatory basis for implementation and servicing of the charge	
Details of Financing	Outlined in irrevocable Financing Order	Outlined in Regulations supported by province guarantee
Collateral	The right to impose and collect a charge from electric utility customers as well as transaction reserve accounts	
Government Support	State pledge not to permit any action that would impair the value of the Collateral	Province guarantee of repayment if any action taken that would impair the value of the Collateral
Non-Bypassability	Charge to be paid by all existing and future electric customers in included customer classes	
Impacted Customers	The majority of customers in service territory (including residential, commercial and industrial)	The majority of customers are residential and light commercial
Recovery Charge	Relatively low, <5% of total bill	Approximately 10% of total bill
Issuer	Varies, but generally a newly formed special purpose vehicle (“SPV”) that is a subsidiary of Investor Owned Utility	Newly formed special purpose vehicle (“SPV”) would be consolidated into Ontario Power Generation (“OPG”) financial statements
Servicer	Varies, but generally Investor Owned Utility	Independent Electricity System Operator (“IESO”)
Third Party Billing	Varies depending on State	Yes, via Local Distribution Companies (“LDC”)
Nonpayment & Partial Payment by Customers	To the extent that any electric utility customer makes a partial payment of a bill containing the charge, the charge collection will be a pro-rata portion of the payment	
Amortization	Fully amortizing with principal payments beginning at first issuance	Bullet or amortizing bonds with principal payments deferred for a number of years following issuance
Establishment of First Charge	Generally within 1 year of issuance	Delayed start
Credit Enhancement	True-up mechanism, reserve accounts	True-up mechanism, reserve accounts, and subordinated debt
Hedging	Historically limited to interest rates	May include interest rate and currency hedging
Trust Structure	Discrete (single issue) trust	Master trust with multiple series issued over a 10 year period
Legal Opinions	Standard opinions regarding Validity, Enforceability and Regulatory Issues (Constitutionality opinion not applicable for Canadian transactions)	

Transaction Includes Same Key Elements as 'AAA' Investor-Owned Utility Securitizations

- Based on the existing Ontario Electricity market infrastructure no credit losses are anticipated
- Fair Hydro Trust true-up mechanism will ensure timely and full collectability of all debt
- OPG subordinated debt will provide incremental credit enhancement for the senior debt
- Provincial guarantee protects investors from an adverse change in law or inability to fund in capital markets
- The Province of Ontario has very low credit risk and is considered to be stable
  - High likelihood of Government of Canada (Aaa, stable) actions to prevent provincial default
  - Ontario is the largest economy of Canadian provinces: 40% of national economic output, 38% of national population, strong destination for immigration, lower than national unemployment rate

✓	**Experienced Operating Agent**	▪ OPG, IESO, and LDC are experienced operators
✓	**Strong Service Territory**	▪ Stable customer base with diversified service territory
✓	**Enhanced True-up**	▪ Mandatory semi-annual true-ups to correct for any over or under collections ▪ Optional interim adjustments permitted as necessary
✓	**Irrevocable & Nonbypassable Charge**	▪ Final and effective upon issuance of Bonds ▪ Applies to all residential and small commercial consumers receiving power through T&D system
✓	**No "Cap" on Collection of Charge**	▪ No limits on collection of charge that may be imposed on all customers after moratorium period
✓	**Province Guarantee**	▪ Strong government support through guarantee of bond legal and regulatory framework
✓	**Full Cross-Collateralization**	▪ Any collection shortfall is allocated among all specified consumers
✓	**No Industrial Risk**	▪ No single large customer or industry exposure

Legislative and Regulatory Overview

Authorizes Use of Securitization and Establishes Servicing Relationship between OPG, IESO and LDCs

General Powers and Authority of Legislation

- Creation of mechanism for deferral of costs by the IESO and establishment of the Regulatory Asset
- Creation of mechanism for absolute sale of Regulatory Asset to Financing Entity
- Definition of impacted customers (“specified consumers”)
- Establishment of right to bill and collect a non-bypassable clean energy adjustment from future specified consumers
- Establishes principles of the Financing Plan
- Statement of non-impairment by the Crown and provision for a Provincial Guarantee
- Allowance for the establishment of a bankruptcy-remote issuer
- Allowance for true-up mechanism

Fair Hydro Regulations

- Details on calculation of the fair allocation amount
- Details on eligible financeable amounts
- Additional details on clean energy adjustment assessment methodology (true-up mechanism):
  - Timing (mandatory semi-annual + more frequent as needed)
  - Calculation (accounts for expected charge-offs, billing delays and usage as well as any under / over collection in previous period)
- Additional details around servicing / billing mechanics (e.g., LDCs and IESO)

Responsibilities Under New Structure

OPG

- OPG to act as Financial Services Manager including the development and implementation of the Financing Plan
- Calculates the clean energy adjustment including semi-annual true-up

IESO

- Establishment of IESO as Servicer
- Aggregation of collections by LDCs and remittance to Trustee

LDCs

- Manage the billing and remittance of the non-by-passable charge
- Includes charge as a separate line-item on customer bills

Ontario Energy Board

- Must accept clean energy adjustment, and converts to customer charge
- Allow for the charge to go into effect
- Review / approve ongoing Financial Services Manager fees and expenses

Objective of the Legislative, Regulatory and Contractual Structure

- Due to the number of related parties participating in the transaction an overarching theme of the structure is to establish the transaction on a commercial basis
- OPG expects to consolidate the results of the Trust in its financial statements based on the commercial relationship between OPG and the Trust
- The commercial basis is established by a number of elements which work together
  - Trust has the right but not the obligation to purchase a Regulatory Asset
  - Regulatory Asset purchased by the Trust provides the right to bill and collect a charge from future consumers
  - Transactions in the Trust to finance the asset purchase to be on an arm's length basis
  - Amount collected from consumers includes costs of financing the asset purchase, costs to manage the financing, costs to operate the Trust and repayment of principal
  - OEB role established to support recognition of asset and customer charge
  - Debt of the Trust structured to balance risk and cost with objective to achieve highest rating possible
  - Subordinated debt issued by the Trust will be rated and will price off of the senior debt based on a survey of banks
  - Subordinated debt will absorb uncertainties of the senior debt to support highest rating of the senior debt
  - OPG will manage the activities of the Trust for a fee comparable to fees charged by 3rd party managers. OEB role will be limited to reviewing the application of the fee methodology
- Notwithstanding consolidation of the Trust into OPG the Trust will be structured to be bankruptcy remote from OPG

Bill 132 Fair Hydro Plan Act, 2017 Legislation

The Act establishes a framework under which the costs and benefits associated with the “clean energy initiative” are to be allocated among present and future consumers of electricity

Rate Reduction Time Period

- From July 1, 2017 until April 30, 2019, electricity rates payable by a “regulated rate consumer” will be the rate that would result in a representative regulated rate consumer who meets the prescribed criteria being charged an invoice amount that is 25% less than the regulated rate that would otherwise have been determined by the OEB
  - For the 12 month period beginning May 1, 2018 the invoice amount established previously would increase by the rate of inflation in Ontario
  - Subsequent rate reductions beyond April 30, 2019 will be established by regulation

Regulatory Asset

- Each month, the IESO will determine the shortfall resulting from the rate reduction and record in a variance account. IESO has the right to recover the balance recorded in the variance account from specified consumers and this right will be a “regulatory asset” under the Act. IESO will not be entitled to collect the balance recorded in the variance account from specified consumers before May 1, 2021

Investment Asset

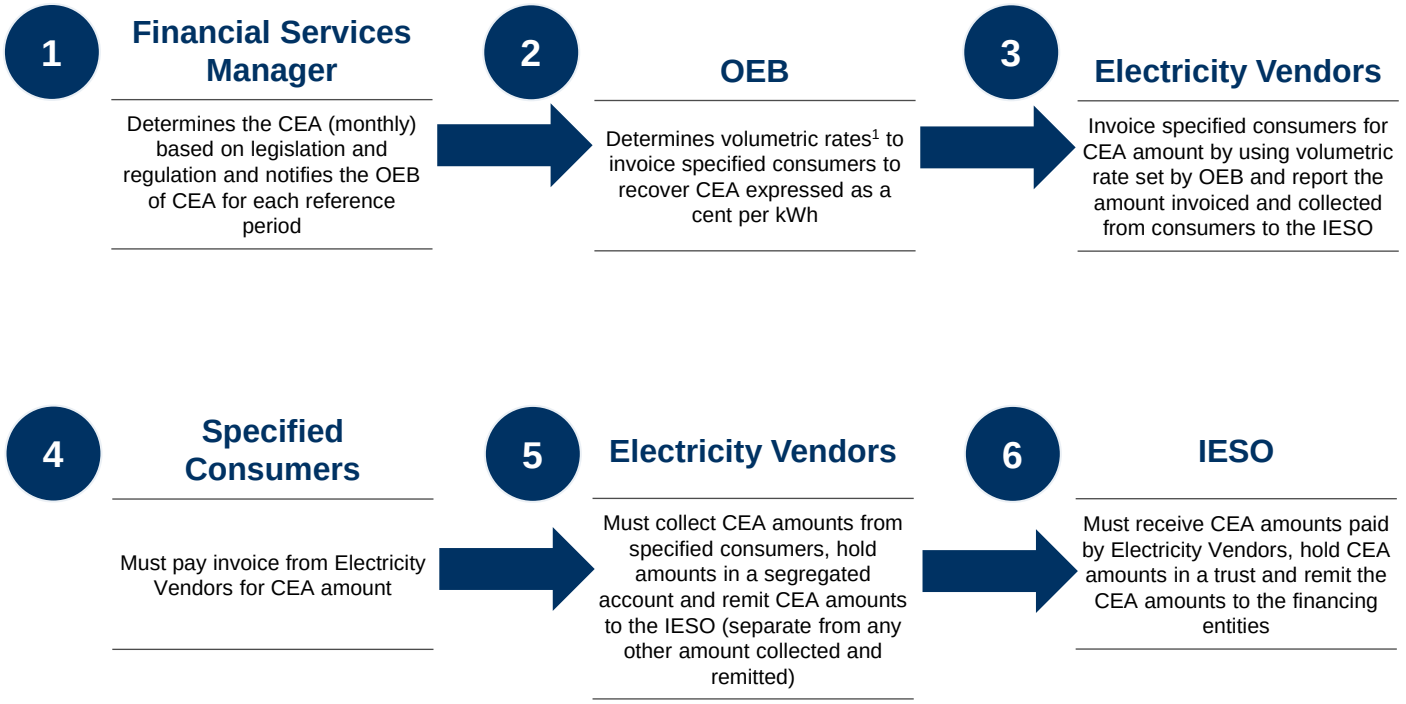
- IESO may transfer (sell) a specified portion of the regulatory asset to the financing entity established by OPG. The Trust is not obligated to purchase the asset. Upon the transfer, the financing entity acquires an interest in the investment asset that is a current and irrevocable property right consisting of the right to impose, invoice, collect, receive and recover the clean energy adjustment from specified consumers or electricity vendors

Components of the legislation and accompanying agreements that are of interest to investors

- Investment assets created by the IESO represents a claim on the rate-payers that is a current and irrevocable property right consisting of the right to impose, invoice, collect, receive and recover from the market
- The trust is not obligated to purchase the regulatory asset from the IESO
- The various investment assets are pari passu
- **The province is providing a guarantee to the trust; backstopping its obligations, either if there are changes in future legislation or if there are market disruption (liquidity) issues**

Clean Energy Adjustment – Proposed Billing and Collection Process

- Clean Energy Adjustment amounts for billing and collection purposes will be managed outside of the IESO's current settlement processes set out in the Market Rules for electricity invoice amounts
  - As such, CEA amounts will not benefit from the rights the IESO currently has under the Market Rules – ability to charge interest, draw down on prudential amounts, and borrow to cover shortfalls
  - Collections risk for CEA amounts are dealt with through statutory rights in the Act, the collection obligations of the IESO under the Master Sales and Services Agreement (to be finalized) and the ability to include amounts into the true up mechanism



[1] The rates will be determined by dividing the CEA amount by the forecasted energy consumption in the reference period by specified consumers

Subject: Fair Hydro Plan - Provincial Support Agreement - Term Sheet

Mike, Jim, Carlos

Please see below for our comments on the draft term sheet for the Provincial Support Agreement. Let us know when you would like to discuss further. Also, please note that we have not sent the comments or the term sheet to Steve Ashbourne at Blakes. Please let us know if you would like us to do so.

Attached is a sample servicing guarantee for a general securitization transaction to provide examples of common features. Note that the sample guarantee is formatted for a corporate transaction and would have to be adjusted accordingly. Also attached is a brief description of the servicing obligations typically covered by a servicing guarantee.

In reviewing the term sheet, we believe that the Servicing Guarantee is narrow in scope.

- Not a conventional servicing guarantee for securitization transactions
- It may not be acceptable for the rating agencies, particularly if monthly remittances of collections from the LCDs are necessary.

As drafted, it solely allows for the appointment of a replacement servicer by the Guarantor upon the occurrence of a Servicer Default (due to breach of servicing performance).

- It does not cover any losses arising from a breach of the electricity vendors' servicing obligations (typical servicing obligations described in attachment)
- It would preclude the monthly remittance of collections by the LDS to IESO for deposit into the Trust's collection account.

Other Items of Consideration:

- Not typical for the Indenture Trustee to be obligated to provide any reporting to the Guarantor
- Confidentiality would be difficult to maintain for a public issuance. The guarantee is a material component of the transaction and will have to be disclosed in detail in the IM, and possibly posted as a material contract
- Consistent with other "AAA" transactions, performance under the guarantee is expected to occur promptly, typically within 2 business days for payment obligations
- Guarantee does not cover a market disruption and the inability to refinance existing due and maturing issuances (including ABCP)

SERVICER GUARANTEE

This Agreement is made as of ▪ **[],** 2017, between

ABC, a corporation incorporated under the laws of the Ontario ("**Guarantor**")

and

GHI TRUST
by its trustee
XYZ LIMITED, a trust company incorporated under the laws of Canada (the "**Trust**")

RECITALS

A. The Trust and GHI ("**GHI**"), have entered into a master purchase agreement (the "**MPA**" made as of the date hereof pursuant to which GHI has agreed to sell and the Trust has agreed to purchase from GHI certain assets and the related rights given in respect thereof on a fully serviced basis.

B. Pursuant to the [MPA/Servicing Agreement] GHI has been appointed and has agreed to act as Servicer under, and in accordance with the [MPA/Servicing Agreement depending on the documentation].

C. The Guarantor has agreed to guarantee for the benefit of the Trust the performance and payment by GHI of GHI's covenants, agreements, liabilities and obligations under the [MPA/Servicing Agreement] in its capacity as Servicer on the terms set forth herein.

FOR VALUE RECEIVED, the parties agree as follows:

SECTION 1 – INTERPRETATION

1.1 Definitions. Unless otherwise defined herein, terms used in this Guarantee and not defined herein, shall have the respective meanings ascribed to them in the [MPA/Servicing Agreement].

SECTION 2

2.1 Guarantee. The Guarantor unconditionally and irrevocably guarantees to the Trust, as a primary obligor and not merely as a surety, the due and prompt performance, payment and observance of all of the terms, conditions, covenants, agreements, liabilities, indemnities and obligations of any kind whatsoever which GHI has incurred, may incur or be under to the Trust in GHI's capacity as Servicer under the [MPA/Servicing Agreement] ("**Obligations**") strictly in accordance with the terms hereof and thereof, excluding, for greater certainty, any of GHI's covenants, agreements, liabilities and obligations under the MPA in its capacity as Seller under the MPA or in any capacity other than as Servicer. If for any reason whatsoever GHI shall fail to perform, pay or observe any of the Obligations, the Guarantor shall duly and punctually perform, pay and observe such Obligations. All amounts payable by the Guarantor hereunder shall be paid to the Trust by way of deposit by the Guarantor to the applicable Collection Account forthwith following a claim therefor by or on behalf of the Trust.

Nothing contained herein shall be deemed to constitute credit recourse to the Guarantor for payment of losses arising from losses attributable to any [specified consumer's] failure to discharge its payment obligations under any obligation/pay the invoice amount.

2.2 Guarantee Unconditional. The obligations of the Guarantor under this Guarantee are continuing, unconditional and absolute and, without limiting the generality of the foregoing, shall not be released, discharged, diminished, limited, impaired or otherwise affected by (and the Guarantor hereby waives, to the fullest extent permitted by applicable law):

(1) any extension, other indulgence, renewal, settlement, discharge, compromise, waiver, subordination or release in respect of any obligation, security, person or otherwise;

(2) any modification or amendment of or supplement to the Obligations made in accordance with the MPA or other related documents, including, without limitation, any increase or decrease in any amount payable thereunder;

(3) any release, non-perfection or invalidity of any direct, indirect or collateral security for any Obligation;

(4) any change in the existence, structure, constitution, name, objects, powers, business, control or ownership of GHI or any other person, or any insolvency, bankruptcy, reorganization or other similar proceeding affecting GHI or any other person or its assets, or amalgamation of GHI with any other corporation and the term GHI shall include each corporation resulting from any such amalgamation or subsequent amalgamation;

(5) the existence of any unrelated claim, set-off or other rights which the Guarantor may have at any time against GHI, the Trust, or any other person, whether in connection herewith or any unrelated transactions;

(6) any invalidity, illegality or unenforceability relating to or against GHI or any provision of applicable law or regulation purporting to prohibit the payment by GHI of the principal or interest under the Obligations;

(7) any limitation, postponement, prohibition, subordination or other restriction on the rights of the Trust to payment of the obligations;

(8) any release, substitution or addition of any co-signer, endorser or other guarantor of the Obligations;

(9) any defence arising by reason of any failure of the Trust to make any presentment, demand for performance, notice of non-performance, protest and any other notice, including notice of all of the following: acceptance of this Guarantee, partial payment or non-payment of all or any part of the Obligations and the existence, creation or incurring of new or additional Obligations;

(10) any defence arising by reason of any failure of the Trust to proceed against GHI or any other person, to proceed against, apply or exhaust any security held from GHI or any other person for the Obligations, to proceed against, apply or exhaust any security held from the Guarantor or any other person for this Guarantee or to pursue any other remedy in the power of the Trust whatsoever;

(11) any law which provides that the obligation of a guarantor must neither be larger in amount nor in other respects more burdensome than that of the principal obligation or which reduces a guarantor's obligation in proportion to the principal obligation;

(12) any defence arising by reason of any incapacity, lack of authority or other defence of GHI or any other person, or by reason of any limitation, postponement, prohibition on the Trust's right to payment of the obligations or any part thereof, or by reason of the cessation from any cause whatsoever of the liability of GHI or any other person with respect to all or any part of the obligations, or by reason of any act or omission of the Trust or others which directly or indirectly results in the discharge or release of GHI or any other person or all or any part of the obligations or any security or guarantee therefor, whether by contract, operation of law or otherwise;

(13) any defence arising by reason of any failure by the Trust to obtain, perfect or maintain a perfected or prior (or any) security interest in or lien or encumbrance upon any property of GHI or any other person, or by reason of any interest of the Trust in any property, whether as owner thereof or the holder of a security interest therein or lien or encumbrance thereon, being invalidated, voided, declared fraudulent or preferential or otherwise set aside, or by reason of any impairment by the Trust of any right to recourse or collateral;

(14) any defence arising by reason of the failure of the Trust to marshall any assets;

(15) any defence based upon any failure of the Trust to give to GHI or the Guarantor notice of any sale or other disposition of any property securing any or all of the Obligations or any guarantee thereof, or any defect in any notice that may be given in connection with any sale or other disposition of any such property, or any failure of the Trust to comply with any provision of applicable law in enforcing any security interest in or lien upon any such property, including any failure by the Trust to dispose of any such property in a commercially reasonable manner; or

(16) any defence based upon or arising out of any bankruptcy, insolvency, reorganization, moratorium, arrangement, readjustment of debt, liquidation or dissolution proceeding commenced by or against GHI or any other person, including any discharge of, or bar against collecting, any of the obligations, in or as a result of any such proceeding.

2.3 Recourse Against GHI. The Trust shall not be required to exhaust its recourse against GHI or any other person or under any other security or guarantee before being entitled to performance by the Guarantor under this Guarantee; provided, however, that where the Trust seeks performance under this Guarantee, the Trust shall not proceed against the Guarantor under this Guarantee (and the Guarantor shall have no obligations in respect thereof) prior to the expiration of any applicable cure period explicitly set out in the [MPA/Servicing Agreement].

2.4 No Subrogation. Until all of the Obligations have been paid or performed in full, the Guarantor shall have no right of subrogation to, and waives, to the fullest extent permitted by law, any right to enforce any remedy which the Trust now has or may hereafter have against GHI in respect of the Obligations and the Guarantor waives any benefit of, and any right to participate in, any security now or hereafter held by the Trust for the Obligations.

2.5 Settlement of Accounts. Any account settled or stated between the Trust and GHI shall be accepted by the Guarantor as prima facie evidence that the amount thereby appearing due by GHI to the Trust is so due.

2.6 Reinstatement. If, at any time, all or any part of any payment previously applied by the Trust to any Obligation is or must be rescinded or returned by the Trust for any reason whatsoever (including, without limitation, the insolvency, bankruptcy or reorganization of GHI), such Obligation shall, for purposes of this Guarantee, to the extent that such payment is or must be rescinded or returned, be deemed to have continued in existence, notwithstanding such application by the Trust, and this Guarantee shall continue to be effective or be reinstated, as the case may be, as to such Obligation, all as though such application by the Trust had not been made.

SECTION 3 – REPRESENTATIONS AND WARRANTIES

3.1 Representations and Warranties. The Guarantor represents and warrants to the Trust as follows:

(1) the Guarantor is a corporation validly existing under the laws of its jurisdiction of incorporation, has full corporate power and authority to own its properties and assets and to carry on its businesses, as presently owned and carried on by it, in every jurisdiction in which it is currently carrying on business where the failure to be so qualified would have a material adverse effect on the ability of Guarantor to perform its obligations under this Guarantee;

(2) the Guarantor has full corporate power and capacity to execute and deliver this Guarantee and to perform all of its obligations hereunder;

(3) the Guarantor has taken all necessary action to authorize the execution and delivery of this Guarantee and the performance of its obligations hereunder;

(4) this Guarantee has been duly executed and delivered by the Guarantor;

(5) this Guarantee is a legal, valid and binding obligation of the Guarantor and is enforceable against the Guarantor by the Trust in accordance with its terms, subject to bankruptcy, insolvency, reorganization, winding-up, moratorium and other laws affecting the rights of creditors generally and the fact that specific performance and injunction are equitable remedies available only in the discretion of a court;

(6) the execution and delivery by the Guarantor of this Guarantee and the performance by the Guarantor of its obligations hereunder and of the transactions contemplated hereby, does not and will not contravene, breach, constitute a default under, violate or conflict with, as the case may be:

(a) the Guarantor's constating documents or by-laws or any resolution passed by the board of directors or shareholders of the Guarantor;

(b) any law, rule or regulation applicable to or binding on the Guarantor or any of its property and assets; or

(c) any order, writ, judgment, award, injunction or decree binding on the Guarantor or affecting its property or assets,

and does not and will not result in or require the creation of any encumbrance upon any of the property and assets of the Guarantor;

(7) the execution and delivery by the Guarantor of this Guarantee and the performance of its obligations hereunder and of the transactions contemplated hereby, does not and will not contravene, breach, constitute a default under, violate or conflict with, as the case may be, any material indenture, loan or credit agreement, lease, mortgage or, security agreement, to which the Guarantor is a party or by which it, or its property and assets, are bound;

(8) no authorization, approval or other action by, and no notice to or filing with, any Governmental Authority, agency or any other person is necessary in connection with the execution and delivery by the Guarantor of this Guarantee or the performance of its obligations hereunder or of the transactions contemplated hereby, or to give legal effect to the same other than such as have been obtained or made except to the extent the failure to do so would not have a material adverse effect on the ability of the Guarantor to perform its obligations under this Guarantee;

(9) there are no actions, suits or proceedings pending or, to the knowledge of the Guarantor, threatened against or affecting the Guarantor or any of its undertakings, property and assets, at law or in equity or before any arbitrator or before or by any Governmental Authority, governmental department body, agency, commission, board, bureau, or instrumentality having jurisdiction in the premises in respect of which there is a reasonable possibility of a determination adverse to the Guarantor which could, if determined adversely, materially and adversely affect the ability of the Guarantor to perform any of its obligations hereunder.

SECTION 4- COVENANTS

4.1 Covenants of the Guarantor. The Guarantor covenants with the Trust that, during the currency of this Guarantee, it shall:

(1) comply in all material respects with all laws, rules, regulations and orders applicable to it and all or any of its businesses and properties;

(2) preserve and maintain its corporate existence;

(3) furnish to the Trust a statement of the details of any Servicer Termination Event in respect of MPA/Servicing Guarantee applicable to it within a reasonable period of time after the occurrence thereof and the Guarantor's proposed response;

(4) so long as GHI is the Servicer in respect of the [MPA/Servicing Agreement], as applicable, make all payments and perform all obligations required to be made or performed by the Servicer in accordance with the [MPA/Servicing Agreement], within 2 Business Days of the date the payment or action was to be performed or the end of the applicable cure period, if any; and

(5) continue to directly or indirectly hold shares of GHI sufficient to control GHI.

SECTION 5 – GENERAL

5.1 Termination. This Guarantee shall terminate on the Final Remittance Date [to mirror the requirement in the Regulations under the Act not to wind-up, dissolve or liquidate a Financing Entity until at least one year after all of its funding obligations have been paid], at which time the rights hereby granted shall cease and become null and void and the Trust shall, at the request and expense of the Guarantor, execute and deliver to the Guarantor such instruments as shall be reasonably required to release and discharge the Guarantor from its covenants, agreements, liabilities and obligations under Guarantee.

5.2 Further Assurances. The Guarantor shall, from time to time, do and perform any and all acts and execute any and all further instruments which may be required or which may be reasonably requested by the Trust more fully to effect the purpose of this Guarantee.

5.3 Payments. All payments to be made by the Guarantor under this Guarantee shall be made in full, without set-off or counterclaim and without deduction for any taxes, levies, duties, fees, deductions, withholdings, restrictions or conditions of any nature whatsoever. If at any time, or from time to time, any applicable law, regulation or international agreement requires the Guarantor to make any such deduction or withholding from any such payment, the sums due from the Guarantor with respect to such payment shall be increased to the extent necessary to ensure that, after the making of such deduction or withholding, the Trust receives a net sum equal to the sum which it would have received had no deduction or withholding been required, and the Guarantor shall indemnify the Trust on an after tax basis with respect to any such deduction or withholding, including with respect to any taxes payable by the Trust on any increased amounts payable under this Section 5.3.

5.4 Cost and Expense. The Guarantor shall pay all reasonable out-of-pocket costs and expenses of the Trust (including the fees and disbursements of counsel) in connection with the enforcement of the obligations of the Guarantor under this Servicing Guarantee. The Guarantor agrees to indemnify and hold harmless the Trust from and against any and all liability incurred by the Trust or the Financial Services Agent hereunder in connection herewith (including the enforcement of the obligations of the Guarantor under this Guarantee), other than any liabilities attributable to the gross negligence or willful misconduct of the Trust, the Financial Services or any of their respective officers, employees or agents.

5.5 Governing Law. This Guarantee shall be governed by, and construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein.

5.6 Financial Condition of Guaranteed Parties: The Guarantor is fully aware of the financial condition of the Guaranteed Parties.

5.7 No Waiver, Cumulative Remedies. No failure to exercise and no delay in exercising, on the part of the Trust, any right, remedy, power or privilege hereunder, shall operate as a waiver hereof nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. The rights, remedies, powers and privileges herein provided are cumulative and not exhaustive of any rights, remedies, powers and privileges provided by law.

5.8 Amendments. Any provision of this Guarantee may be amended or waived if, but only if, such amendment or waiver is in writing and is signed by the Guarantor and the Trust, and satisfies the Rating Agency Condition [that is the action will not result in the rating agencies downgrading the rated securities].

5.9 Notices. All notices or other communications authorized or required to be given pursuant to this Guarantee, or pursuant to which any rights or obligations may arise hereunder, shall be in writing (including telecopied communication and such other method of recorded or recordable electronic communications as to which the parties may hereafter agree) and shall be either personally delivered or sent by telecopier as follows:

[]

5.10 Successors and Assigns. This Guarantee shall be binding upon the Guarantor and shall inure to the benefit of the Trust and its successors and permitted assigns. The Guarantor may not assign any of its obligations under this Guarantee without the prior written consent of the Trust and satisfies the Rating Agency Condition.

5.11 Consent to Jurisdiction, Waiver of Immunities. The Guarantor hereby irrevocably submits to the non-exclusive jurisdiction of any court sitting in the Province of Ontario in any action or proceeding arising out of or relating to this Guarantee and the Guarantor irrevocably agrees that all claims in respect of any such action or proceeding may be heard and determined in such Ontario court. The Guarantor hereby irrevocably waives, to the extent permitted by law, the forum non conveniens defence to the maintenance of any such action or proceeding. The Guarantor agrees that a final judgment in any action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by

law. Nothing in this Section [] shall affect the right of the Trust to serve legal process in any other manner permitted by law or affect its right to bring any action or proceeding against the Guarantor or its property and assets in the courts of any other jurisdiction.

5.12 Entire Agreement. This Guarantee contains the entire agreement between the parties relating to the subject matter hereof and supersedes all prior and contemporaneous agreements, term sheets, commitments, understandings, negotiations and discussions, whether oral or written. There are no warranties, representations or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein.

5.13 Survival. All covenants, representations and warranties of the Guarantor hereunder shall survive the execution hereof. The obligations of the Guarantor to the Trust under this Guarantee shall not be affected by reason of any invalidity, illegality or irregularity of the obligations.

5.14 Severability. Any provision of this Guarantee which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability and shall be severed from the balance of this Guarantee, all without affecting the remaining provisions of this Guarantee or affecting the validity or enforceability of such provision in any other jurisdiction.

5.15 Additional Security. This Guarantee is in addition, and without prejudice, to any security of any kind (including other guarantees) now or hereafter held by the Trust and any other rights or remedies that may be available to the Trust.

5.16 Headings. The headings of the Sections herein are for convenience of reference only and shall not the interpretation of any of the terms or provisions hereof.

IN WITNESS WHEREOF the Guarantor has executed this Guarantee as of the date first above written.

Servicing Obligations Covered by a Servicing Guarantee

The Servicing Guarantee covers the performance and payment of any party's (Electricity Vendor) covenants, agreement, liabilities, indemnities and obligations in connection to its servicing duties pursuant to the master purchase agreement/servicing agreement.

We expect that IESO as agent to the investment interest owners would perform the servicing duties. As such the Servicer would include the IESO and each other electricity vendor (which is typically a sub-servicer retained/appointed by the Servicer as each sub-servicer is not likely to be a party to the master purchase agreement/servicing agreement). IESO (Servicer) will remain liable for the performance of the duties and obligations so subcontracted and all other duties and obligations of the Servicer as outlined in the master purchase agreement/servicing agreement.

The Servicer's covenants, agreement, liabilities and obligations pursuant to the master purchase agreement/servicing agreement covered by the Servicing Guarantor generally include:

- Servicing of the investment assets, generally includes:
    - Invoicing and collecting the invoice amounts;
    - Recording and holding the assets in a secure manner, available for examination if requested;
    - Maintaining prudent and reasonable administrative and operating procedures;
    - Requiring its auditors to report on the status of the investment assets;
    - Effecting all filings and recordings;
    - Using reasonable efforts in accordance with the regulation to collect the investment assets;
    - Comply with the regulations in connection with the investment assets,

    all in accordance with the regulations and established credit and collection policies; and

    - Not make material changes to its credit and collection policies unless Rating Agency Condition is satisfied
    - Prepare and deliver a monthly report to the investment interest owners.
- Amounts held in trust by the electricity vendor until remitted and deposited into an trust account
    - Collections will be remitted monthly into a trust account unless the Guarantor fails to maintain an acceptable rating, in which case amounts will be deposited within 2 business days of receipt. Losses arising from the commingling of funds, due to such events as bankruptcy/insolvency of the electricity vendor, would be covered by the Servicing Guarantee.
- Losses arising from amounts invested in permitted investments in trust accounts at the direction of the Servicer
- Amounts to be received from the seller/servicer in connection with deemed collections where either a valid lien is asserted against any part of the investment asset or the investment asset is reduced cancelled as a result of a set-off in respect of any claim by the specified against the Servicer/Electricity Vendor

Provincial Support Agreement Term Sheet –

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The trust company acting as indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") acting for the benefit of all persons who may have contractual claims against a Financing Entity (collectively, the "**Beneficiaries**") (including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee and the trustee of the Financing Entity[1]).
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2] after all Funding Obligations of all Financing Entities have been repaid.
Performance Guarantee:	**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under the Master Sale and Servicing Agreement between IESO, as seller and servicer, and the Financing Entity, as purchaser, **[and OPG as Financial Services Manager]** ("**MSSA**"). In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Indenture Trustee.

[1] We have assumed that the initial Financing Entity will be a trust.

[2] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee Event:	A "Servicer Default" occurs under the MSSA[3]
Payment Guarantee:	**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.
Payment Guarantee Event:	(A) if the Legislative Assembly of Ontario repeals the Act; or (B) if the Legislative Assembly of Ontario amends the Act or Regulation thereunder in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest; or (C) if a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.

[3] Each Servicer Default will include its own cure period before the event becomes a Servicer Default.

[4] To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.

Subrogation:	Where the Guarantor has repaid a Beneficiary, to the extent of such payment, the Guarantor is subrogated in and to all the rights of recovery of such Beneficiary in respect of the applicable indebtedness and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all amounts owing to a Beneficiary, the Indenture Trustee will acknowledge and agree on behalf of such Beneficiary that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiary has or may exercise in respect of the repaid indebtedness, all in accordance with the terms of the Master Trust Indenture.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Performance Guarantee Event or Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[5]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.

[5] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Governing Law:	Province of Ontario

Subject: Fair Hydro Plan - Provincial Support Agreement - Term Sheet

Mike, Jim, Carlos

Please see below for our comments on the draft term sheet for the Provincial Support Agreement. Let us know when you would like to discuss further. Also, please note that we have not sent the comments or the term sheet to Steve Ashbourne at Blakes. Please let us know if you would like us to do so.

Attached is a sample servicing guarantee for a general securitization transaction to provide examples of common features. Note that the sample guarantee is formatted for a corporate transaction and would have to be adjusted accordingly. Also attached is a brief description of the servicing obligations typically covered by a servicing guarantee.

In reviewing the term sheet, we believe that the Servicing Guarantee is narrow in scope.

- Not a conventional servicing guarantee for securitization transactions
- It may not be acceptable for the rating agencies, particularly if monthly remittances of collections from the LCDs are necessary.

As drafted, it solely allows for the appointment of a replacement servicer by the Guarantor upon the occurrence of a Servicer Default (due to breach of servicing performance).

- It does not cover any losses arising from a breach of the electricity vendors' servicing obligations (typical servicing obligations described in attachment)
- It would preclude the monthly remittance of collections by the LDS to IESO for deposit into the Trust's collection account.

Other Items of Consideration:

- Not typical for the Indenture Trustee to be obligated to provide any reporting to the Guarantor
- Confidentiality would be difficult to maintain for a public issuance. The guarantee is a material component of the transaction and will have to be disclosed in detail in the IM, and possibly posted as a material contract
- Consistent with other "AAA" transactions, performance under the guarantee is expected to occur promptly, typically within 2 business days for payment obligations
- Guarantee does not cover a market disruption and the inability to refinance existing due and maturing issuances (including ABCP)

SERVICER GUARANTEE

This Agreement is made as of ▪ **[],** 2017, between

ABC, a corporation incorporated under the laws of the Ontario ("**Guarantor**")

and

GHI TRUST
by its trustee
XYZ LIMITED, a trust company incorporated under the laws of Canada (the "**Trust**")

RECITALS

A. The Trust and GHI ("**GHI**"), have entered into a master purchase agreement (the "**MPA**" made as of the date hereof pursuant to which GHI has agreed to sell and the Trust has agreed to purchase from GHI certain assets and the related rights given in respect thereof on a fully serviced basis.

B. Pursuant to the [MPA/Servicing Agreement] GHI has been appointed and has agreed to act as Servicer under, and in accordance with the [MPA/Servicing Agreement depending on the documentation].

C. The Guarantor has agreed to guarantee for the benefit of the Trust the performance and payment by GHI of GHI's covenants, agreements, liabilities and obligations under the [MPA/Servicing Agreement] in its capacity as Servicer on the terms set forth herein.

FOR VALUE RECEIVED, the parties agree as follows:

SECTION 1 – INTERPRETATION

1.1 Definitions. Unless otherwise defined herein, terms used in this Guarantee and not defined herein, shall have the respective meanings ascribed to them in the [MPA/Servicing Agreement].

SECTION 2

2.1 Guarantee. The Guarantor unconditionally and irrevocably guarantees to the Trust, as a primary obligor and not merely as a surety, the due and prompt performance, payment and observance of all of the terms, conditions, covenants, agreements, liabilities, indemnities and obligations of any kind whatsoever which GHI has incurred, may incur or be under to the Trust in GHI's capacity as Servicer under the [MPA/Servicing Agreement] ("**Obligations**") strictly in accordance with the terms hereof and thereof, excluding, for greater certainty, any of GHI's covenants, agreements, liabilities and obligations under the MPA in its capacity as Seller under the MPA or in any capacity other than as Servicer. If for any reason whatsoever GHI shall fail to perform, pay or observe any of the Obligations, the Guarantor shall duly and punctually perform, pay and observe such Obligations. All amounts payable by the Guarantor hereunder shall be paid to the Trust by way of deposit by the Guarantor to the applicable Collection Account forthwith following a claim therefor by or on behalf of the Trust.

Nothing contained herein shall be deemed to constitute credit recourse to the Guarantor for payment of losses arising from losses attributable to any [specified consumer's] failure to discharge its payment obligations under any obligation/pay the invoice amount.

2.2 Guarantee Unconditional. The obligations of the Guarantor under this Guarantee are continuing, unconditional and absolute and, without limiting the generality of the foregoing, shall not be released, discharged, diminished, limited, impaired or otherwise affected by (and the Guarantor hereby waives, to the fullest extent permitted by applicable law):

(1) any extension, other indulgence, renewal, settlement, discharge, compromise, waiver, subordination or release in respect of any obligation, security, person or otherwise;

(2) any modification or amendment of or supplement to the Obligations made in accordance with the MPA or other related documents, including, without limitation, any increase or decrease in any amount payable thereunder;

(3) any release, non-perfection or invalidity of any direct, indirect or collateral security for any Obligation;

(4) any change in the existence, structure, constitution, name, objects, powers, business, control or ownership of GHI or any other person, or any insolvency, bankruptcy, reorganization or other similar proceeding affecting GHI or any other person or its assets, or amalgamation of GHI with any other corporation and the term GHI shall include each corporation resulting from any such amalgamation or subsequent amalgamation;

(5) the existence of any unrelated claim, set-off or other rights which the Guarantor may have at any time against GHI, the Trust, or any other person, whether in connection herewith or any unrelated transactions;

(6) any invalidity, illegality or unenforceability relating to or against GHI or any provision of applicable law or regulation purporting to prohibit the payment by GHI of the principal or interest under the Obligations;

(7) any limitation, postponement, prohibition, subordination or other restriction on the rights of the Trust to payment of the obligations;

(8) any release, substitution or addition of any co-signer, endorser or other guarantor of the Obligations;

(9) any defence arising by reason of any failure of the Trust to make any presentment, demand for performance, notice of non-performance, protest and any other notice, including notice of all of the following: acceptance of this Guarantee, partial payment or non-payment of all or any part of the Obligations and the existence, creation or incurring of new or additional Obligations;

(10) any defence arising by reason of any failure of the Trust to proceed against GHI or any other person, to proceed against, apply or exhaust any security held from GHI or any other person for the Obligations, to proceed against, apply or exhaust any security held from the Guarantor or any other person for this Guarantee or to pursue any other remedy in the power of the Trust whatsoever;

(11) any law which provides that the obligation of a guarantor must neither be larger in amount nor in other respects more burdensome than that of the principal obligation or which reduces a guarantor's obligation in proportion to the principal obligation;

(12) any defence arising by reason of any incapacity, lack of authority or other defence of GHI or any other person, or by reason of any limitation, postponement, prohibition on the Trust's right to payment of the obligations or any part thereof, or by reason of the cessation from any cause whatsoever of the liability of GHI or any other person with respect to all or any part of the obligations, or by reason of any act or omission of the Trust or others which directly or indirectly results in the discharge or release of GHI or any other person or all or any part of the obligations or any security or guarantee therefor, whether by contract, operation of law or otherwise;

(13) any defence arising by reason of any failure by the Trust to obtain, perfect or maintain a perfected or prior (or any) security interest in or lien or encumbrance upon any property of GHI or any other person, or by reason of any interest of the Trust in any property, whether as owner thereof or the holder of a security interest therein or lien or encumbrance thereon, being invalidated, voided, declared fraudulent or preferential or otherwise set aside, or by reason of any impairment by the Trust of any right to recourse or collateral;

(14) any defence arising by reason of the failure of the Trust to marshall any assets;

(15) any defence based upon any failure of the Trust to give to GHI or the Guarantor notice of any sale or other disposition of any property securing any or all of the Obligations or any guarantee thereof, or any defect in any notice that may be given in connection with any sale or other disposition of any such property, or any failure of the Trust to comply with any provision of applicable law in enforcing any security interest in or lien upon any such property, including any failure by the Trust to dispose of any such property in a commercially reasonable manner; or

(16) any defence based upon or arising out of any bankruptcy, insolvency, reorganization, moratorium, arrangement, readjustment of debt, liquidation or dissolution proceeding commenced by or against GHI or any other person, including any discharge of, or bar against collecting, any of the obligations, in or as a result of any such proceeding.

2.3 Recourse Against GHI. The Trust shall not be required to exhaust its recourse against GHI or any other person or under any other security or guarantee before being entitled to performance by the Guarantor under this Guarantee; provided, however, that where the Trust seeks performance under this Guarantee, the Trust shall not proceed against the Guarantor under this Guarantee (and the Guarantor shall have no obligations in respect thereof) prior to the expiration of any applicable cure period explicitly set out in the [MPA/Servicing Agreement].

2.4 No Subrogation. Until all of the Obligations have been paid or performed in full, the Guarantor shall have no right of subrogation to, and waives, to the fullest extent permitted by law, any right to enforce any remedy which the Trust now has or may hereafter have against GHI in respect of the Obligations and the Guarantor waives any benefit of, and any right to participate in, any security now or hereafter held by the Trust for the Obligations.

2.5 Settlement of Accounts. Any account settled or stated between the Trust and GHI shall be accepted by the Guarantor as prima facie evidence that the amount thereby appearing due by GHI to the Trust is so due.

2.6 Reinstatement. If, at any time, all or any part of any payment previously applied by the Trust to any Obligation is or must be rescinded or returned by the Trust for any reason whatsoever (including, without limitation, the insolvency, bankruptcy or reorganization of GHI), such Obligation shall, for purposes of this Guarantee, to the extent that such payment is or must be rescinded or returned, be deemed to have continued in existence, notwithstanding such application by the Trust, and this Guarantee shall continue to be effective or be reinstated, as the case may be, as to such Obligation, all as though such application by the Trust had not been made.

SECTION 3 – REPRESENTATIONS AND WARRANTIES

3.1 Representations and Warranties. The Guarantor represents and warrants to the Trust as follows:

(1) the Guarantor is a corporation validly existing under the laws of its jurisdiction of incorporation, has full corporate power and authority to own its properties and assets and to carry on its businesses, as presently owned and carried on by it, in every jurisdiction in which it is currently carrying on business where the failure to be so qualified would have a material adverse effect on the ability of Guarantor to perform its obligations under this Guarantee;

(2) the Guarantor has full corporate power and capacity to execute and deliver this Guarantee and to perform all of its obligations hereunder;

(3) the Guarantor has taken all necessary action to authorize the execution and delivery of this Guarantee and the performance of its obligations hereunder;

(4) this Guarantee has been duly executed and delivered by the Guarantor;

(5) this Guarantee is a legal, valid and binding obligation of the Guarantor and is enforceable against the Guarantor by the Trust in accordance with its terms, subject to bankruptcy, insolvency, reorganization, winding-up, moratorium and other laws affecting the rights of creditors generally and the fact that specific performance and injunction are equitable remedies available only in the discretion of a court;

(6) the execution and delivery by the Guarantor of this Guarantee and the performance by the Guarantor of its obligations hereunder and of the transactions contemplated hereby, does not and will not contravene, breach, constitute a default under, violate or conflict with, as the case may be:

(a) the Guarantor's constating documents or by-laws or any resolution passed by the board of directors or shareholders of the Guarantor;

(b) any law, rule or regulation applicable to or binding on the Guarantor or any of its property and assets; or

(c) any order, writ, judgment, award, injunction or decree binding on the Guarantor or affecting its property or assets,

and does not and will not result in or require the creation of any encumbrance upon any of the property and assets of the Guarantor;

(7) the execution and delivery by the Guarantor of this Guarantee and the performance of its obligations hereunder and of the transactions contemplated hereby, does not and will not contravene, breach, constitute a default under, violate or conflict with, as the case may be, any material indenture, loan or credit agreement, lease, mortgage or, security agreement, to which the Guarantor is a party or by which it, or its property and assets, are bound;

(8) no authorization, approval or other action by, and no notice to or filing with, any Governmental Authority, agency or any other person is necessary in connection with the execution and delivery by the Guarantor of this Guarantee or the performance of its obligations hereunder or of the transactions contemplated hereby, or to give legal effect to the same other than such as have been obtained or made except to the extent the failure to do so would not have a material adverse effect on the ability of the Guarantor to perform its obligations under this Guarantee;

(9) there are no actions, suits or proceedings pending or, to the knowledge of the Guarantor, threatened against or affecting the Guarantor or any of its undertakings, property and assets, at law or in equity or before any arbitrator or before or by any Governmental Authority, governmental department body, agency, commission, board, bureau, or instrumentality having jurisdiction in the premises in respect of which there is a reasonable possibility of a determination adverse to the Guarantor which could, if determined adversely, materially and adversely affect the ability of the Guarantor to perform any of its obligations hereunder.

SECTION 4- COVENANTS

4.1 Covenants of the Guarantor. The Guarantor covenants with the Trust that, during the currency of this Guarantee, it shall:

(1) comply in all material respects with all laws, rules, regulations and orders applicable to it and all or any of its businesses and properties;

(2) preserve and maintain its corporate existence;

(3) furnish to the Trust a statement of the details of any Servicer Termination Event in respect of MPA/Servicing Guarantee applicable to it within a reasonable period of time after the occurrence thereof and the Guarantor's proposed response;

(4) so long as GHI is the Servicer in respect of the [MPA/Servicing Agreement], as applicable, make all payments and perform all obligations required to be made or performed by the Servicer in accordance with the [MPA/Servicing Agreement], within 2 Business Days of the date the payment or action was to be performed or the end of the applicable cure period, if any; and

(5) continue to directly or indirectly hold shares of GHI sufficient to control GHI.

SECTION 5 – GENERAL

5.1 Termination. This Guarantee shall terminate on the Final Remittance Date [to mirror the requirement in the Regulations under the Act not to wind-up, dissolve or liquidate a Financing Entity until at least one year after all of its funding obligations have been paid], at which time the rights hereby granted shall cease and become null and void and the Trust shall, at the request and expense of the Guarantor, execute and deliver to the Guarantor such instruments as shall be reasonably required to release and discharge the Guarantor from its covenants, agreements, liabilities and obligations under Guarantee.

5.2 Further Assurances. The Guarantor shall, from time to time, do and perform any and all acts and execute any and all further instruments which may be required or which may be reasonably requested by the Trust more fully to effect the purpose of this Guarantee.

5.3 Payments. All payments to be made by the Guarantor under this Guarantee shall be made in full, without set-off or counterclaim and without deduction for any taxes, levies, duties, fees, deductions, withholdings, restrictions or conditions of any nature whatsoever. If at any time, or from time to time, any applicable law, regulation or international agreement requires the Guarantor to make any such deduction or withholding from any such payment, the sums due from the Guarantor with respect to such payment shall be increased to the extent necessary to ensure that, after the making of such deduction or withholding, the Trust receives a net sum equal to the sum which it would have received had no deduction or withholding been required, and the Guarantor shall indemnify the Trust on an after tax basis with respect to any such deduction or withholding, including with respect to any taxes payable by the Trust on any increased amounts payable under this Section 5.3.

5.4 Cost and Expense. The Guarantor shall pay all reasonable out-of-pocket costs and expenses of the Trust (including the fees and disbursements of counsel) in connection with the enforcement of the obligations of the Guarantor under this Servicing Guarantee. The Guarantor agrees to indemnify and hold harmless the Trust from and against any and all liability incurred by the Trust or the Financial Services Agent hereunder in connection herewith (including the enforcement of the obligations of the Guarantor under this Guarantee), other than any liabilities attributable to the gross negligence or willful misconduct of the Trust, the Financial Services or any of their respective officers, employees or agents.

5.5 Governing Law. This Guarantee shall be governed by, and construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein.

5.6 Financial Condition of Guaranteed Parties: The Guarantor is fully aware of the financial condition of the Guaranteed Parties.

5.7 No Waiver, Cumulative Remedies. No failure to exercise and no delay in exercising, on the part of the Trust, any right, remedy, power or privilege hereunder, shall operate as a waiver hereof nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. The rights, remedies, powers and privileges herein provided are cumulative and not exhaustive of any rights, remedies, powers and privileges provided by law.

5.8 Amendments. Any provision of this Guarantee may be amended or waived if, but only if, such amendment or waiver is in writing and is signed by the Guarantor and the Trust, and satisfies the Rating Agency Condition [that is the action will not result in the rating agencies downgrading the rated securities].

5.9 Notices. All notices or other communications authorized or required to be given pursuant to this Guarantee, or pursuant to which any rights or obligations may arise hereunder, shall be in writing (including telecopied communication and such other method of recorded or recordable electronic communications as to which the parties may hereafter agree) and shall be either personally delivered or sent by telecopier as follows:

[]

5.10 Successors and Assigns. This Guarantee shall be binding upon the Guarantor and shall inure to the benefit of the Trust and its successors and permitted assigns. The Guarantor may not assign any of its obligations under this Guarantee without the prior written consent of the Trust and satisfies the Rating Agency Condition.

5.11 Consent to Jurisdiction, Waiver of Immunities. The Guarantor hereby irrevocably submits to the non-exclusive jurisdiction of any court sitting in the Province of Ontario in any action or proceeding arising out of or relating to this Guarantee and the Guarantor irrevocably agrees that all claims in respect of any such action or proceeding may be heard and determined in such Ontario court. The Guarantor hereby irrevocably waives, to the extent permitted by law, the forum non conveniens defence to the maintenance of any such action or proceeding. The Guarantor agrees that a final judgment in any action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by

law. Nothing in this Section [] shall affect the right of the Trust to serve legal process in any other manner permitted by law or affect its right to bring any action or proceeding against the Guarantor or its property and assets in the courts of any other jurisdiction.

5.12 Entire Agreement. This Guarantee contains the entire agreement between the parties relating to the subject matter hereof and supersedes all prior and contemporaneous agreements, term sheets, commitments, understandings, negotiations and discussions, whether oral or written. There are no warranties, representations or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein.

5.13 Survival. All covenants, representations and warranties of the Guarantor hereunder shall survive the execution hereof. The obligations of the Guarantor to the Trust under this Guarantee shall not be affected by reason of any invalidity, illegality or irregularity of the obligations.

5.14 Severability. Any provision of this Guarantee which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability and shall be severed from the balance of this Guarantee, all without affecting the remaining provisions of this Guarantee or affecting the validity or enforceability of such provision in any other jurisdiction.

5.15 Additional Security. This Guarantee is in addition, and without prejudice, to any security of any kind (including other guarantees) now or hereafter held by the Trust and any other rights or remedies that may be available to the Trust.

5.16 Headings. The headings of the Sections herein are for convenience of reference only and shall not the interpretation of any of the terms or provisions hereof.

IN WITNESS WHEREOF the Guarantor has executed this Guarantee as of the date first above written.

Servicing Obligations Covered by a Servicing Guarantee

The Servicing Guarantee covers the performance and payment of any party's (Electricity Vendor) covenants, agreement, liabilities, indemnities and obligations in connection to its servicing duties pursuant to the master purchase agreement/servicing agreement.

We expect that IESO as agent to the investment interest owners would perform the servicing duties. As such the Servicer would include the IESO and each other electricity vendor (which is typically a sub-servicer retained/appointed by the Servicer as each sub-servicer is not likely to be a party to the master purchase agreement/servicing agreement). IESO (Servicer) will remain liable for the performance of the duties and obligations so subcontracted and all other duties and obligations of the Servicer as outlined in the master purchase agreement/servicing agreement.

The Servicer's covenants, agreement, liabilities and obligations pursuant to the master purchase agreement/servicing agreement covered by the Servicing Guarantor generally include:

- Servicing of the investment assets, generally includes:
    - Invoicing and collecting the invoice amounts;
    - Recording and holding the assets in a secure manner, available for examination if requested;
    - Maintaining prudent and reasonable administrative and operating procedures;
    - Requiring its auditors to report on the status of the investment assets;
    - Effecting all filings and recordings;
    - Using reasonable efforts in accordance with the regulation to collect the investment assets;
    - Comply with the regulations in connection with the investment assets,

    all in accordance with the regulations and established credit and collection policies; and

    - Not make material changes to its credit and collection policies unless Rating Agency Condition is satisfied
    - Prepare and deliver a monthly report to the investment interest owners.
- Amounts held in trust by the electricity vendor until remitted and deposited into an trust account
    - Collections will be remitted monthly into a trust account unless the Guarantor fails to maintain an acceptable rating, in which case amounts will be deposited within 2 business days of receipt. Losses arising from the commingling of funds, due to such events as bankruptcy/insolvency of the electricity vendor, would be covered by the Servicing Guarantee.
- Losses arising from amounts invested in permitted investments in trust accounts at the direction of the Servicer
- Amounts to be received from the seller/servicer in connection with deemed collections where either a valid lien is asserted against any part of the investment asset or the investment asset is reduced cancelled as a result of a set-off in respect of any claim by the specified against the Servicer/Electricity Vendor

Provincial Support Agreement Term Sheet –

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The trust company acting as indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") acting for the benefit of all persons who may have contractual claims against a Financing Entity (collectively, the "**Beneficiaries**") (including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee and the trustee of the Financing Entity[1]).
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2] after all Funding Obligations of all Financing Entities have been repaid.
Performance Guarantee:	**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under the Master Sale and Servicing Agreement between IESO, as seller and servicer, and the Financing Entity, as purchaser, **[and OPG as Financial Services Manager]** ("**MSSA**"). In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Indenture Trustee.

[1] We have assumed that the initial Financing Entity will be a trust.

[2] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee Event:	A "Servicer Default" occurs under the MSSA[3]
Payment Guarantee:	**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.
Payment Guarantee Event:	(A) if the Legislative Assembly of Ontario repeals the Act; or (B) if the Legislative Assembly of Ontario amends the Act or Regulation thereunder in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest; or (C) if a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.

[3] Each Servicer Default will include its own cure period before the event becomes a Servicer Default.

[4] To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.

Subrogation:	Where the Guarantor has repaid a Beneficiary, to the extent of such payment, the Guarantor is subrogated in and to all the rights of recovery of such Beneficiary in respect of the applicable indebtedness and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all amounts owing to a Beneficiary, the Indenture Trustee will acknowledge and agree on behalf of such Beneficiary that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiary has or may exercise in respect of the repaid indebtedness, all in accordance with the terms of the Master Trust Indenture.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Performance Guarantee Event or Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[5]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.

[5] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

One last comment.
In the diagram they show the guarantee going to the investors.
In reality the line should more than likely go to the OPG financing entity. (this could change)

I have a lot of problems with it but there is no way they would ever accept any of my suggestions.
The diagram shows Ontario Providing a performance guarantee. We are likely to be providing a much more robust guarantee. Small comment.
I am not too sure if it is required but they may want to make clear at the beginning that the OIC for the $2B loan from the Province to The OFA is intended to be used for the IESO $2B loan facility. They may also want to insert " up to $2B" as the actual amount may vary widely.

Hi Scott, Gadi and Ron,

Energy is bringing another batch of regs direct to Cabinet next week for the OFHP. Can you please have teams fact check the attached note and provide any comments by 12:00pm tomorrow?

The note is being simultaneously fact checked by Energy,

Thanks,

Dave

Subject: FW: For Review and Comment: TB/MBC Submission on Provincial Guarantee
Date: Wednesday, August 30, 2017 5:04:28 PM

Hi Gadi,
CQSD is asking for a justification as to why we're pressuring to proceed with the Sept, 26 TB/MBC meeting.
Apparently a Minister to Minister reach out is required and as there are multiple submissions scheduled for that date Anthony says he'll need a rational to make sure it stays on the agenda. If it doesn't make the Sept 26 meeting it would be bumped to October 17th, which is the next board meeting.
I'm not entirely sure what rational to give him. Could we make the case that the financing entity will need to go to market this calendar year, which essentially means November, making an October 17th meeting fairly late?
Thanks,
Matt

Subject: RE: For Review and Comment: TB/MBC Submission on Provincial Guarantee

Hi Matt,
Who is the legal lead on it ? Need that info as well.
Also what is the rush to proceed to the Sept. 26 TB/MBC meeting ?
A MO to MO reach out is required and I need to support that with a rational.
Thanks,
Anthony

Subject: RE: For Review and Comment: TB/MBC Submission on Provincial Guarantee

Thanks for the review Anthony,
In response to your questions:
TB/MBC should "Authorize", maybe it's not "Approve"

- Good point I will make the change.

Are we taking out the term guarantee throughout the document?

- No not everywhere. I'm trying to be consistent with a deck recently presented to the energy Minister on this topic (see attached). Essentially, We're referring to the agreement as a "support agreement" which *guarantees* the debt under certain conditions. However, I did update it ina few locations compared to the version I'd sent you earlier, so pelase refer to the file attached.

How does this request relate to MOE's previous submission(s) on Fair Hydro Plan ? Is it consistent ? What is MOE saying ?

- Hoping energy can follow up on this, maybe in the next round.

Where is the contingent liability going to reside ? Which Ministry ? Interest on debt…MOF ? What process will be used to report it ? How often ?

- Ultimately a question for OPCD, again still waiting on feedback.

Has it been determined that MOE Minister will sign the submission ? If so by when ? It will impact when our DM and Minister would sign.

- Not entirely sure, can follow up with energy on this.

I still have the same questions as earlier i.e. showing a diagram explaining the process, chart showing term of loan principal + interest. etc.

- In regards to the diagram, there is one in the attached power point presentation, will this be sufficient?
- Regarding the chart showing loan principal and interest, some staff on our end are having a look at that.

When would the numbers from Energy be finalized ? OPCD review as well ?

- Still waiting on this information.

Still need the answer of the 5 questions I sent last week by my Director.

- I've passed them along, but can follow up regarding status.

I'd like to send this version around to the broader group if you think that would be appropriate. I understand your point that senior staff on our end should review first, but most of them are still away on vacation (Gadi, Ron, Ken) and it might be a good idea to keep the ball rolling in the meantime, since as you said we need to keep moving forward to the Sep 26th date.
Let me know what you think.
Thanks,
Matt Breadner on behalf of Anna Strathy

We would need to share a copy soon with TBS as there is a large number of submissions moving forward for Sept. 26 TB/MBC date.

I pretty much agree with Legal points.
Thanks,
Anthony

Subject: RE: For Review and Comment: TB/MBC Submission on Provincial Guarantee

Hi Anthony and Lindsay,
Please find attached the latest draft of the TB submission, note we are now calling it a "Provincial Support Agreement" as opposed to "Provincial guarantee" as MOF legal advised this is not a true guarantee as the agreement would be contingent on certain events (whereas a guarantee would not).
This version incorporates line edits made on our end, as well as by MOF legal. However it still contains several comments in the margins pertaining to issues that have not been resolved as of yet (hopefully on the next iteration). Lindsay, as you mentioned if you send something high level for now perhaps we can circle back later?
Anthony, Anna mentioned that you might want to provide thoughts on any new version before I distribute to the broader group, so I was wondering if you had any comments/concerns on this draft before we send something out for a second round?
Thanks,
Matt Breadner on behalf of Anna Strathy

Hi Lindsay and Anthony,

I'll have another draft ready soon that incorporates some feedback from MOF legal and the OFA, I plan on sharing it with the both of you for feedback before distributing again to the wider group. We have reached out to energy for feedback as well, I understand they're working on it, but in the meantime I plan on proceeding with sending out an updated version before that. And as Anthony stated, yes it is still very much in a draft form.

Thanks,

Matt Breadner on behalf of Anna Strathy

Subject: RE: For Review and Comment: TB/MBC Submission on Provincial Guarantee
Hi all,
Couple questions on this. I'm working on a tailored comms snapshot that will focus on messaging and strategic approach. As you mentioned this is still an early draft, can we expect to see another draft of this come through later? Also is the expectation that MO or CO will be looking at this? I ask because I would like to avoid sending comms materials through approvals more than once. If this is still being developed I can send you something high-level for now and then we can circle back later. Also wondering if anyone from Energy is looking at this. They will have some KMs around the Fair Hydro Plan/issues mitigation that I would like to draw from so we don't mix messages. Let me know if you have been working with someone at Energy or if I should reach out.
I am still aiming to have something by the 31st but we are short-staffed right now so it may be a day or two later.
Thanks!
Lindsay

Hi Lindsay,
Based on the recommendation of Anthony in our Corporate shop (copied), I'm sharing this early draft of a TB Submission for your review. You'll see from the attached email chain that the submission would create a contingent liability that would be disclosed to the public (but not booked/no fiscal impact) in Public Accounts. Anthony suggested that we include a communications strategy in the attached submission, given that the contingent liability will be made public. Could I ask for you expertise in crafting some messaging/strategy?
Thanks, Anna

Hi Cindy, Steen, Kelly (for Scott), and Malle,
Attached, for your review and comment, is a draft TB submission for the Provincial Guarantee. This submission is somewhat premature, as there continue to be discussions about which Ministry might bring this forward (for instance, the Provincial Guarantee piece could be incorporated into a

broader report back by the Ministry of Energy) and when this might go to TB/MBC (mid to late September); however, Gadi is on vacation for two weeks starting Monday, so we wanted to get a head start on something that could be moved forward in his absence.

I apologize for the tight timelines, but **we are hoping to have your comments (even preliminary comments) by noon tomorrow**. I expect that subsequent iterations of this submission and/or the TB Assessment Note will be circulated again for your input.

Please don't hesitate to contact me should you have any questions.

Provincial Support Agreement Term Sheet –

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The trust company acting as indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") acting for the benefit of all persons who may have contractual claims against a Financing Entity (collectively, the "**Beneficiaries**") (including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee and the trustee of the Financing Entity[1]).
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2] after all Funding Obligations of all Financing Entities have been repaid.
Performance Guarantee:	**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under the Master Sale and Servicing Agreement between IESO, as seller and servicer, and the Financing Entity, as purchaser, **[and OPG as Financial Services Manager]** ("**MSSA**"). In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Indenture Trustee.

[1] We have assumed that the initial Financing Entity will be a trust.

[2] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee Event:	A "Servicer Default" occurs under the MSSA[3]
Payment Guarantee:	**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.
Payment Guarantee Event:	(A) if the Legislative Assembly of Ontario repeals the Act; or (B) if the Legislative Assembly of Ontario amends the Act or Regulation thereunder in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest; or (C) if a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.

[3] Each Servicer Default will include its own cure period before the event becomes a Servicer Default.

[4] To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.

Subrogation:	Where the Guarantor has repaid a Beneficiary, to the extent of such payment, the Guarantor is subrogated in and to all the rights of recovery of such Beneficiary in respect of the applicable indebtedness and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all amounts owing to a Beneficiary, the Indenture Trustee will acknowledge and agree on behalf of such Beneficiary that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiary has or may exercise in respect of the repaid indebtedness, all in accordance with the terms of the Master Trust Indenture.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Performance Guarantee Event or Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[5]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.

[5] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet –

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The trust company acting as indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") acting for the benefit of all persons who may have contractual claims against a Financing Entity (collectively, the "**Beneficiaries**") (including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee and the trustee of the Financing Entity[1]).
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2] after all Funding Obligations of all Financing Entities have been repaid.
Performance Guarantee:	**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under the Master Sale and Servicing Agreement between IESO, as seller and servicer, and the Financing Entity, as purchaser, **[and OPG as Financial Services Manager]** ("**MSSA**"). In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Indenture Trustee.

[1] We have assumed that the initial Financing Entity will be a trust.

[2] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee Event:	A "Servicer Default" occurs under the MSSA[3]
Payment Guarantee:	**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.
Payment Guarantee Event:	(A) if the Legislative Assembly of Ontario repeals the Act; or (B) if the Legislative Assembly of Ontario amends the Act or Regulation thereunder in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest; or (C) if a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.

[3] Each Servicer Default will include its own cure period before the event becomes a Servicer Default.

[4] To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.

Subrogation:	Where the Guarantor has repaid a Beneficiary, to the extent of such payment, the Guarantor is subrogated in and to all the rights of recovery of such Beneficiary in respect of the applicable indebtedness and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all amounts owing to a Beneficiary, the Indenture Trustee will acknowledge and agree on behalf of such Beneficiary that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiary has or may exercise in respect of the repaid indebtedness, all in accordance with the terms of the Master Trust Indenture.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Performance Guarantee Event or Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[5]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.

[5] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Subject: RE: Guarantee

We recently received a draft term sheet for the guarantee, and wanted to make sure you have seen it as well in order to move this discussion forward. Please let me know if you haven't seen it.
Also, we have been discussing section "5xx.", the Protection and assurance provision of the draft legislation. We wonder if CLOC has been consulted on these provisions, particularly the reference to adversely affecting an investment asset in clause 5(1)(c). We were wondering if there is a risk that this provision is so broad as to inadvertently fetter the Crown in developing tax policy (e.g. could it prohibit a new general tax on the proceeds from investments), or to undermine new general securities regulatory activity that the Crown might legislate or the OSC might carry out.
Best,
Toby

Subject: RE: Guarantee

We have discussed this with the OFA, and we have endeavoured to provide a provision that we think should allow the financial guarantee being contemplated. Please let us know if you think it provides the necessary scope for what would be required to meet the Province's needs. We deleted the existing provision, although if you think that more general contractual authority is needed, something else could be considered. However, we don't think that it is appropriate to have a statutory appropriation for such general indemnity and guarantee provisions.

We would expect that the guarantee would be capped and only provide for the repayment of the principal and interest of the debt securities of the financial asset owner, and that would usually be done in the OIC.

We don't have any experience with performance guarantees. Is there a need for the Minister of Energy to require performance by the LDCs? We were also wondering if Blakes or another party involved in these discussions might have an example of what is being considered.

We also removed the exemption from s. 28 of the FAA. We have discussed this with OFA staff, and given the importance and breadth of this Act and Program, it doesn't seem appropriate to exempt the entire Act from s. 28 of the FAA.

Hi Carolyn,

Thanks for your email. Would it be possible to arrange a conference call today with yourself or your counsel most knowledgeable on this proposed securitization and transaction so that we can get an understanding of it and how it fits into any proposed authorizing legislation. Unfortunately we are not familiar with the proposed transaction although we have seen some general background information about the proposal. What role would a guarantee of investment dealers have in the transaction? We do have a copy of the legislation that we got via our clients at OFA and they were more engaged in the issue of a future proposed equity injection, but the most recent version that we have seen does not mention guarantees although there seems to be a very general contract authorization section. Of course, we have to generally think about s. 28 as well.

A call today to over the main elements of the proposed transaction and the legislation would be very helpful so that we can get back to Gadi.

Hi Michael & Malle – we will be sending you draft legislation to take a look at. Actual guarantees will follow later.

This relates to the government's Fair Hydro Plan and the promise to reduce rates by 25% by July. We are doing a sort of securitization, for which the legislation will provide a framework. We are contemplating provisions that allow "the Minister" to enter into agreements with respect to transactions contemplated by the legislation. Gadi and DM Angus are of the view that Minister should be MOF, as the agreements are likely to be guarantees to investment dealers. Indemnities for the boards of OPG and IESO will also be required, although we didn't talk about who would sign those.

Happy to answer your questions or walk you through the proposed bill.

Hi Carolyn,

Gadi Mayman gave us a heads up that you might be giving us a call about a proposed guarantee that the Minister of Finance may be required to sign in relation to the changes to the global adjustment.

We're happy to discuss this. This afternoon is busy but tomorrow afternoon may work.

Thanks!

Michael

Hi Opal

Attached is the IESO Amendment from last November. I have also attached the Directive as it contains a brief synopsis. The main changes were that the maturity date was extended to Dec. 31, 2019 from 2016 and the length of time advances can be outstanding was lengthened.

AMENDING AGREEMENT NO. 9

This Amending Agreement No. 9 (this "**Amending Agreement**") is made as of the 30 day of November, 2016

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**") (as Borrower)

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**" and together with the IESO, the "**Parties**")
(as Lender)

WHEREAS the Ontario Power Authority ("OPA") and the OFA entered into a Credit Agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amendding Agreement No. 7") and December 19, 2014 (titled, "Amending Agreement No. 8"), the parties amended the Original Agreement (as so amended, the "**Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "**Amalgamation**") with the name Independent Electricity Sytem Operator;

AND WHEREAS under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation and the Parties wish to amend the Agreement to reflect the name of the amalgamated corporation;

AND WHEREAS the Parties now wish to further amend the Agreement pursuant to the terms of this Amending Agreement;

AND WHEREAS pursuant to Section 7.3 of the Agreement, the Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

NOW THEREFORE IN CONSIDERATION of the mutual agreements herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree to the following amendments, effective as of the date first written above.

Except as expressly provided herein or unless the context otherwise requires, capitalized terms not otherwise defined in this Amending Agreement have the respective meanings given to those terms in the Agreement.

1. The following definition is added to Section 1.1 of the Agreement:

   "IESO" means the Independent Electricity System Operator, a statutory corporation without share capital existing under Part II of the *Electricity Act, 1998.*

2. Section 1.6 is added to the Agreement as follows:

   "**Section 1.6 References to OPA**

   For the purposes of this Agreement, all references to the "Ontario Power Authority" or "OPA" in this Agreement shall be interpreted as referring to the IESO.

3. Section 2.4 of the Agreement is deleted in its entirety and replaced by the following:

   "Subject to Sections 2.9 and 5.1, the IESO shall repay each Advance on the applicable Repayment Date and, in any event, shall repay all Advances Oustanding, together with all accrued interest and all other amounts owing hereunder on December 31, 2019."

4. Section 3.1 of the Agreement is deleted in its entirety and replaced by the following:

   "The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Operating Facility from time to time on any Business Day prior to November 30, 2019."

5. Section 3.2(1) of the Agreement is deleted in its entirety and replaced by the following:

   "Subject to Section 3.3(3), each Advance shall be made on two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice of an Advance (each, a "**Borrowing Notice**") shall be given substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be no earlier than 28 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2."

6. Section 3.3(1) of the Agreement is deleted in its entirety and replaced by the following:

   "The IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of a minimum of 28 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2)."

7. Section 3.3(2) of the Agreement is deleted in its entirety and replaced by the following:

   "Each election to continue an Advance for a further period shall be made on one Business Day's prior notice, given, in each case, not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice (each, an "**Election Notice**") shall be given substantially in the form of Schedule 2, shall be irrevocable and binding upon the IESO and shall specify (a) the requested date of the proposed election, (b) the aggregate principal election amount, and (c) the new Repayment Date, which shall be no earlier than 28 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date."

8. Section 5.1(b) of the Agreement is deleted in its entirety and replaced by the following:

"failure to pay the principal amount of any Advance on the applicable Repayment Date or the Advances Oustanding, all interest accrued thereon and all other amounts owing under this Agreement on December 31, 2019;"

9. The address and contact information of the OPA provided in Section 7.1 of the Agreement is deleted and replaced by the following:

   If to the IESO, to it at:

   Independent Electricity System Operator
   120 Adelaide Street West, Suite 1600
   Toronto, ON M5H 1T1

   Attention: Chief Financial Officer
   Telephone: 416-969-6232
   Fascimile: 905-403-6913

10. Schedule 1 of the Agreement, Form of Borrowing Notice, is deleted in its entirety and replaced by the Form of Borrowing Notice attached hereto as Schedule 1.

11. Schedule 2 of the Agreement, Form of Election Notice, is deleted in its entirety and replaced by the Form of Election Notice attached hereto as Schedule 2.

12. Schedule 3 of the Agreement, IESO Grid Note, is deleted in its entirety and replaced by the IESO Grid Note attached hereto as Schedule 3.

IN ALL OTHER RESPECTS, the said Agreement is confirmed by the Parties.

IN WITNESS WHEREOF the Parties have executed this Amending Agreement as of the date first written above.

SCHEDULE 1 TO AMENDING AGREEMENT NO. 9

FORM OF BORROWING NOTICE

Delivered Via Fax: 416-204-7920

Ontario Financing Authority ("**OFA**")
1 Dundas Street West, Suite 1400
Toronto, Ontario
M7A 1Y7

Date: [insert date]

Attention: Cash Management

Dear Sirs:

The undersigned, the Independent Electricity System Operator ("**IESO**"), refers to the credit agreement between the IESO and the OFA dated January 1, 2005 (as amended, supplemented or restated from time to time, the "**Agreement**", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests an Advance under the Agreement, and, in connection with such request, sets forth below the information relating to such Advance (the "**Proposed Advance**"), as required by Section 3.2(1) of the Agreement:

(a) The date of the Proposed Advance, being a Business Day is _____;
(b) The aggregate amount of the Proposed Advance is **$**_____;
(c) The Repayment Date of the Proposed Advance is _____. [no earlier than 28 days and not later than 95 days after the date of the Proposed Advance.]

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The undersigned herby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice will be used for the following purposes:

(1) [indicate amount and purpose of funds requested]
(2) [indicate amount and purpose of funds requested]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement will be expended or held solely for the purpose for which they are authorized to be used under the Agreement; no part of the funds to be received pursuant to this Notice shall be used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 3 TO AMENDING AGREEMENT NO. 9

SCHEDULE 3

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $975,000,000 Date: November 30, 2016

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"Company"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the Company, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the Company to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the Company.

The Company waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the Company has executed this Note.

DIRECTIVE
MINISTER OF FINANCE
INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority

WHEREAS pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013 (collectively, "the Prior Directives") the Minister of Finance approved and directed the Ontario Financing Authority (the "OFA") to make loans (the "Loans") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes;

AND WHEREAS effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("New IESO");

AND WHEREAS pursuant to the Prior Directives all amounts outstanding under the Loans are required to be repaid in full by December 31, 2016;

AND WHEREAS the terms of the Loans are set out in a Credit Agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, and December 19, 2014 (as so amended, the "Loan Agreement");

AND WHEREAS pursuant to the Amalgamation the obligations of the OPA under the Loan Agreement became the obligations of the New IESO;

AND WHEREAS the Loan Agreement provides that the OFA may make advances to the IESO on any Business Day (as defined in the Loan Agreement) prior to November 30, 2016;

AND WHEREAS it is appropriate to extend the period during which the OFA may make advances to the IESO under the Loan Agreement to any Business Day (as defined in the Loan Agreement) prior to November 30, 2019, and to extend the date by which all amounts outstanding under the Loan Agreement shall be repaid in full to December 31, 2019;

AND WHEREAS the Loan Agreement only permits advances to be outstanding for a period of one month, two months, or three months, at the option of the IESO;

AND WHEREAS it is appropriate in connection with the extension of the Loan Agreement to permit advances to be outstanding, for a minimum of twenty-eight days up to a maximum of ninety-five (95) days, at the option of the IESO;

AND WHEREAS it is appropriate in connection with the extension of the Loan Agreement to provide that the advances under the Loan Agreement be used by the IESO for liquidity purposes.

Therefore:

Pursuant to subsection 16(2) of the *Capital Investment Plan Act, 1993,* the OFA is directed to

- extend the period during which the OFA may make advances to the OPA under the Loan Agreement to any Business Day (as defined in the Loan Agreement) prior to November 30, 2019;

- extend the date by which all amounts outstanding under the Loan Agreement shall be repaid in full to December 31, 2019; and,

- permit advances to be outstanding for a minimum of twenty-eight days up to a maximum of ninety-five (95) days, at the option of the IESO.

- provide that effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

The Loans shall remain subject to all of the other terms and conditions set out in the Prior Directives.

Subject: IESO Facility

Hi Opal

Attached is the IESO Amendment from last November. I have also attached the Directive as it contains a brief synopsis. The main changes were that the maturity date was extended to Dec. 31, 2019 from 2016 and the length of time advances can be outstanding was lengthened.

Regards,

Kelly Listoe

AMENDING AGREEMENT NO. 9

This Amending Agreement No. 9 (this "**Amending Agreement**") is made as of the 30 day of November, 2016

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**") (as Borrower)

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**" and together with the IESO, the "**Parties**")
(as Lender)

WHEREAS the Ontario Power Authority ("OPA") and the OFA entered into a Credit Agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amendding Agreement No. 7") and December 19, 2014 (titled, "Amending Agreement No. 8"), the parties amended the Original Agreement (as so amended, the "**Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "**Amalgamation**") with the name Independent Electricity Sytem Operator;

AND WHEREAS under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation and the Parties wish to amend the Agreement to reflect the name of the amalgamated corporation;

AND WHEREAS the Parties now wish to further amend the Agreement pursuant to the terms of this Amending Agreement;

AND WHEREAS pursuant to Section 7.3 of the Agreement, the Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

NOW THEREFORE IN CONSIDERATION of the mutual agreements herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree to the following amendments, effective as of the date first written above.

Except as expressly provided herein or unless the context otherwise requires, capitalized terms not otherwise defined in this Amending Agreement have the respective meanings given to those terms in the Agreement.

1. The following definition is added to Section 1.1 of the Agreement:

   "IESO" means the Independent Electricity System Operator, a statutory corporation without share capital existing under Part II of the *Electricity Act, 1998.*

2. Section 1.6 is added to the Agreement as follows:

   "**Section 1.6 References to OPA**

   For the purposes of this Agreement, all references to the "Ontario Power Authority" or "OPA" in this Agreement shall be interpreted as referring to the IESO.

3. Section 2.4 of the Agreement is deleted in its entirety and replaced by the following:

   "Subject to Sections 2.9 and 5.1, the IESO shall repay each Advance on the applicable Repayment Date and, in any event, shall repay all Advances Oustanding, together with all accrued interest and all other amounts owing hereunder on December 31, 2019."

4. Section 3.1 of the Agreement is deleted in its entirety and replaced by the following:

   "The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Operating Facility from time to time on any Business Day prior to November 30, 2019."

5. Section 3.2(1) of the Agreement is deleted in its entirety and replaced by the following:

   "Subject to Section 3.3(3), each Advance shall be made on two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice of an Advance (each, a "**Borrowing Notice**") shall be given substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be no earlier than 28 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2."

6. Section 3.3(1) of the Agreement is deleted in its entirety and replaced by the following:

   "The IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of a minimum of 28 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2)."

7. Section 3.3(2) of the Agreement is deleted in its entirety and replaced by the following:

   "Each election to continue an Advance for a further period shall be made on one Business Day's prior notice, given, in each case, not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice (each, an "**Election Notice**") shall be given substantially in the form of Schedule 2, shall be irrevocable and binding upon the IESO and shall specify (a) the requested date of the proposed election, (b) the aggregate principal election amount, and (c) the new Repayment Date, which shall be no earlier than 28 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date."

8. Section 5.1(b) of the Agreement is deleted in its entirety and replaced by the following:

"failure to pay the principal amount of any Advance on the applicable Repayment Date or the Advances Oustanding, all interest accrued thereon and all other amounts owing under this Agreement on December 31, 2019;"

9. The address and contact information of the OPA provided in Section 7.1 of the Agreement is deleted and replaced by the following:

   If to the IESO, to it at:

   Independent Electricity System Operator
   120 Adelaide Street West, Suite 1600
   Toronto, ON M5H 1T1

   Attention: Chief Financial Officer
   Telephone: 416-969-6232
   Fascimile: 905-403-6913

10. Schedule 1 of the Agreement, Form of Borrowing Notice, is deleted in its entirety and replaced by the Form of Borrowing Notice attached hereto as Schedule 1.

11. Schedule 2 of the Agreement, Form of Election Notice, is deleted in its entirety and replaced by the Form of Election Notice attached hereto as Schedule 2.

12. Schedule 3 of the Agreement, IESO Grid Note, is deleted in its entirety and replaced by the IESO Grid Note attached hereto as Schedule 3.

IN ALL OTHER RESPECTS, the said Agreement is confirmed by the Parties.

IN WITNESS WHEREOF the Parties have executed this Amending Agreement as of the date first written above.

Attention: Cash Management

Dear Sirs:

The undersigned, the Independent Electricity System Operator ("**IESO**"), refers to the credit agreement between the IESO and the OFA dated January 1, 2005 (as amended, supplemented or restated from time to time, the "**Agreement**", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests an Advance under the Agreement, and, in connection with such request, sets forth below the information relating to such Advance (the "**Proposed Advance**"), as required by Section 3.2(1) of the Agreement:

(a) The date of the Proposed Advance, being a Business Day is _____;
(b) The aggregate amount of the Proposed Advance is **$**_____;
(c) The Repayment Date of the Proposed Advance is _____. [no earlier than 28 days and not later than 95 days after the date of the Proposed Advance.]

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The undersigned herby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice will be used for the following purposes:

(1) [indicate amount and purpose of funds requested]
(2) [indicate amount and purpose of funds requested]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement will be expended or held solely for the purpose for which they are authorized to be used under the Agreement; no part of the funds to be received pursuant to this Notice shall be used for any other purpose.

Yours truly,

DIRECTIVE
MINISTER OF FINANCE
INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority

WHEREAS pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013 (collectively, "the Prior Directives") the Minister of Finance approved and directed the Ontario Financing Authority (the "OFA") to make loans (the "Loans") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes;

AND WHEREAS effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("New IESO");

AND WHEREAS pursuant to the Prior Directives all amounts outstanding under the Loans are required to be repaid in full by December 31, 2016;

AND WHEREAS the terms of the Loans are set out in a Credit Agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, and December 19, 2014 (as so amended, the "Loan Agreement");

AND WHEREAS pursuant to the Amalgamation the obligations of the OPA under the Loan Agreement became the obligations of the New IESO;

AND WHEREAS the Loan Agreement provides that the OFA may make advances to the IESO on any Business Day (as defined in the Loan Agreement) prior to November 30, 2016;

AND WHEREAS it is appropriate to extend the period during which the OFA may make advances to the IESO under the Loan Agreement to any Business Day (as defined in the Loan Agreement) prior to November 30, 2019, and to extend the date by which all amounts outstanding under the Loan Agreement shall be repaid in full to December 31, 2019;

AND WHEREAS the Loan Agreement only permits advances to be outstanding for a period of one month, two months, or three months, at the option of the IESO;

AND WHEREAS it is appropriate in connection with the extension of the Loan Agreement to permit advances to be outstanding, for a minimum of twenty-eight days up to a maximum of ninety-five (95) days, at the option of the IESO;

AND WHEREAS it is appropriate in connection with the extension of the Loan Agreement to provide that the advances under the Loan Agreement be used by the IESO for liquidity purposes.

Therefore:

Pursuant to subsection 16(2) of the *Capital Investment Plan Act, 1993,* the OFA is directed to

- extend the period during which the OFA may make advances to the OPA under the Loan Agreement to any Business Day (as defined in the Loan Agreement) prior to November 30, 2019;

- extend the date by which all amounts outstanding under the Loan Agreement shall be repaid in full to December 31, 2019; and,

- permit advances to be outstanding for a minimum of twenty-eight days up to a maximum of ninety-five (95) days, at the option of the IESO.

- provide that effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

The Loans shall remain subject to all of the other terms and conditions set out in the Prior Directives.

Dated: NOV 2 8 2016

Cc: Sarah Harris
Subject: IESO Facility

Hi Opal

Attached is the IESO Amendment from last November. I have also attached the Directive as it contains a brief synopsis. The main changes were that the maturity date was extended to Dec. 31, 2019 from 2016 and the length of time advances can be outstanding was lengthened.

Regards,

Kelly Listoe

AMENDING AGREEMENT NO. 9

This Amending Agreement No. 9 (this "**Amending Agreement**") is made as of the 30 day of November, 2016

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**") (as Borrower)

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**" and together with the IESO, the "**Parties**")
(as Lender)

WHEREAS the Ontario Power Authority ("OPA") and the OFA entered into a Credit Agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amendding Agreement No. 7") and December 19, 2014 (titled, "Amending Agreement No. 8"), the parties amended the Original Agreement (as so amended, the "**Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "**Amalgamation**") with the name Independent Electricity Sytem Operator;

AND WHEREAS under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation and the Parties wish to amend the Agreement to reflect the name of the amalgamated corporation;

AND WHEREAS the Parties now wish to further amend the Agreement pursuant to the terms of this Amending Agreement;

AND WHEREAS pursuant to Section 7.3 of the Agreement, the Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

NOW THEREFORE IN CONSIDERATION of the mutual agreements herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree to the following amendments, effective as of the date first written above.

Except as expressly provided herein or unless the context otherwise requires, capitalized terms not otherwise defined in this Amending Agreement have the respective meanings given to those terms in the Agreement.

1. The following definition is added to Section 1.1 of the Agreement:

   "IESO" means the Independent Electricity System Operator, a statutory corporation without share capital existing under Part II of the *Electricity Act, 1998.*

2. Section 1.6 is added to the Agreement as follows:

   "**Section 1.6 References to OPA**

   For the purposes of this Agreement, all references to the "Ontario Power Authority" or "OPA" in this Agreement shall be interpreted as referring to the IESO.

3. Section 2.4 of the Agreement is deleted in its entirety and replaced by the following:

   "Subject to Sections 2.9 and 5.1, the IESO shall repay each Advance on the applicable Repayment Date and, in any event, shall repay all Advances Oustanding, together with all accrued interest and all other amounts owing hereunder on December 31, 2019."

4. Section 3.1 of the Agreement is deleted in its entirety and replaced by the following:

   "The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Operating Facility from time to time on any Business Day prior to November 30, 2019."

5. Section 3.2(1) of the Agreement is deleted in its entirety and replaced by the following:

   "Subject to Section 3.3(3), each Advance shall be made on two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice of an Advance (each, a "**Borrowing Notice**") shall be given substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be no earlier than 28 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2."

6. Section 3.3(1) of the Agreement is deleted in its entirety and replaced by the following:

   "The IESO may elect to continue all or a portion of the principal amount of any Advance for a further period of a minimum of 28 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2)."

7. Section 3.3(2) of the Agreement is deleted in its entirety and replaced by the following:

   "Each election to continue an Advance for a further period shall be made on one Business Day's prior notice, given, in each case, not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each such notice (each, an "**Election Notice**") shall be given substantially in the form of Schedule 2, shall be irrevocable and binding upon the IESO and shall specify (a) the requested date of the proposed election, (b) the aggregate principal election amount, and (c) the new Repayment Date, which shall be no earlier than 28 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date."

8. Section 5.1(b) of the Agreement is deleted in its entirety and replaced by the following:

"failure to pay the principal amount of any Advance on the applicable Repayment Date or the Advances Oustanding, all interest accrued thereon and all other amounts owing under this Agreement on December 31, 2019;"

9. The address and contact information of the OPA provided in Section 7.1 of the Agreement is deleted and replaced by the following:

   If to the IESO, to it at:

   Independent Electricity System Operator
   120 Adelaide Street West, Suite 1600
   Toronto, ON M5H 1T1

   Attention: Chief Financial Officer
   Telephone: 416-969-6232
   Fascimile: 905-403-6913

10. Schedule 1 of the Agreement, Form of Borrowing Notice, is deleted in its entirety and replaced by the Form of Borrowing Notice attached hereto as Schedule 1.

11. Schedule 2 of the Agreement, Form of Election Notice, is deleted in its entirety and replaced by the Form of Election Notice attached hereto as Schedule 2.

12. Schedule 3 of the Agreement, IESO Grid Note, is deleted in its entirety and replaced by the IESO Grid Note attached hereto as Schedule 3.

IN ALL OTHER RESPECTS, the said Agreement is confirmed by the Parties.

IN WITNESS WHEREOF the Parties have executed this Amending Agreement as of the date first written above.

SCHEDULE 1 TO AMENDING AGREEMENT NO. 9

FORM OF BORROWING NOTICE

Delivered Via Fax: 416-204-7920

Ontario Financing Authority ("**OFA**")
1 Dundas Street West, Suite 1400
Toronto, Ontario
M7A 1Y7

Date: [insert date]

Attention: Cash Management

Dear Sirs:

The undersigned, the Independent Electricity System Operator ("**IESO**"), refers to the credit agreement between the IESO and the OFA dated January 1, 2005 (as amended, supplemented or restated from time to time, the "**Agreement**", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests an Advance under the Agreement, and, in connection with such request, sets forth below the information relating to such Advance (the "**Proposed Advance**"), as required by Section 3.2(1) of the Agreement:

(a) The date of the Proposed Advance, being a Business Day is _____;
(b) The aggregate amount of the Proposed Advance is **$**_____;
(c) The Repayment Date of the Proposed Advance is _____. [no earlier than 28 days and not later than 95 days after the date of the Proposed Advance.]

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The undersigned herby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice will be used for the following purposes:

(1) [indicate amount and purpose of funds requested]
(2) [indicate amount and purpose of funds requested]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement will be expended or held solely for the purpose for which they are authorized to be used under the Agreement; no part of the funds to be received pursuant to this Notice shall be used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 3 TO AMENDING AGREEMENT NO. 9

SCHEDULE 3

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $975,000,000 Date: November 30, 2016

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"Company"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the Company, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the Company to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the Company.

The Company waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the Company has executed this Note.

DIRECTIVE
MINISTER OF FINANCE
INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority

WHEREAS pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013 (collectively, "the Prior Directives") the Minister of Finance approved and directed the Ontario Financing Authority (the "OFA") to make loans (the "Loans") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes;

AND WHEREAS effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("New IESO");

AND WHEREAS pursuant to the Prior Directives all amounts outstanding under the Loans are required to be repaid in full by December 31, 2016;

AND WHEREAS the terms of the Loans are set out in a Credit Agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, and December 19, 2014 (as so amended, the "Loan Agreement");

AND WHEREAS pursuant to the Amalgamation the obligations of the OPA under the Loan Agreement became the obligations of the New IESO;

AND WHEREAS the Loan Agreement provides that the OFA may make advances to the IESO on any Business Day (as defined in the Loan Agreement) prior to November 30, 2016;

AND WHEREAS it is appropriate to extend the period during which the OFA may make advances to the IESO under the Loan Agreement to any Business Day (as defined in the Loan Agreement) prior to November 30, 2019, and to extend the date by which all amounts outstanding under the Loan Agreement shall be repaid in full to December 31, 2019;

AND WHEREAS the Loan Agreement only permits advances to be outstanding for a period of one month, two months, or three months, at the option of the IESO;

AND WHEREAS it is appropriate in connection with the extension of the Loan Agreement to permit advances to be outstanding, for a minimum of twenty-eight days up to a maximum of ninety-five (95) days, at the option of the IESO;

AND WHEREAS it is appropriate in connection with the extension of the Loan Agreement to provide that the advances under the Loan Agreement be used by the IESO for liquidity purposes.

Therefore:

Pursuant to subsection 16(2) of the *Capital Investment Plan Act, 1993,* the OFA is directed to

- extend the period during which the OFA may make advances to the OPA under the Loan Agreement to any Business Day (as defined in the Loan Agreement) prior to November 30, 2019;

- extend the date by which all amounts outstanding under the Loan Agreement shall be repaid in full to December 31, 2019; and,

- permit advances to be outstanding for a minimum of twenty-eight days up to a maximum of ninety-five (95) days, at the option of the IESO.

- provide that effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

The Loans shall remain subject to all of the other terms and conditions set out in the Prior Directives.

Hi Alex
Last time you worked with Shruti to determine the concentration limit. They are proposing a higher limit of $500 million as opposed to $420 million. Have a look.

Hi Ken/Mike/Carlos,
Hope your week is going well.
We received the attached request to review IESO's latest update to their treasury policy which will

require Minister of Finance's approval. As applicable, if your teams can review and provide comments, if any, we can consolidate and get back to IESO before they go to their Board in mid-June. We're hoping to get back to IESO early/mid next week.
Please let me know.
Thank you,
Salman

Subject: RE: IESO Treasury Policy - likely revising for June 2017

Salman,
Attached is a preliminary draft of the Treasury Policy and Sch A for your review.
Two changes have been made:

1. Permitting Fair Hydro program borrowings – self explanatory rationale; and
2. Increase from $420 million to $500 million in Sch A's Cdn Banks max limit per counter party.

The key rationale for the requested increase from $420 million to $500 million per counterparty is as follows:

• The market price of electricity has increased between 2014 to 2016 by approximately 16%-19% which has continued to result in the IESO managing higher and higher cash-flows and therefore seeking risk appropriate investments in accordance with the Treasury Policy – a large limit will allow the IESO to have more flexibility while being efficient with its cash;
• Over the past few years and relevant today, the availability of short-term (generally 1 day to 7 days which is used a lot by the IESO, and including less than 30 days investment) products such as Treasury Bills, BAs and Term Deposits have been irregular and not reliable for the IESO to find. The IESO generally deals in large amounts (several hundreds of millions) and given the lack of short term products at the size the IESO needs, the Sch 1 banks have been generally offering Term Deposits for the IESO at very low interest rates because the Banks do not need the IESO monies. In fact, a few banks offer the IESO less than 10bps for Term Deposits – which is significantly lower than Bank of Canada overnight rate and BAs rates. Therefore, a Term Deposit with very low interest yield does not align with a resulting lower counterparty risk for the IESO; and
• The IESO's Transmission Rights balances have in general remained higher than $100 million on average over the last few years despite an IESO target of $20 million. This has resulted in the IESO managing higher cash-flows

- While the Fair Hydro program is likely to not impact the IESO's overall net cash balances (borrow / sell should generally align), the timing of these cash flows may be different at times and the IESO may hold more cash (short term basis) for a few days. The sales/service agreement with OPG Trust has not been completed, and I am just listing this as a contingency in case for some reason IESO holds larger cash balances before paying back the Fair Hydro loans.

Regards.

Thanks Anthony.

We are working on obtaining approvals to ensure the facility can be put in place. I assume we will follow the same process as for the $975m facility – I will touch base with our documentation team and get back to you – that being said, our priority at the moment is to secure certain approvals.
Regards,
Salman

Will do – trying for this week.
Can you update me on whether the IESO's $2B Fair Hydro credit facility is a go or no go – and if OFA will prepare the legal docs to start the process?
Regards.

Hi Anthony,
I wanted to circle back with you on this email, particularly regarding possibly updating the IESO's Treasury Policy. Since it does require the Minister of Finance's approval, the OFA would be involved in obtaining that approval from the Minister. When you do have a markup, please do share it with us. Any details on what the changes would be accomplishing etc would also be helpful.
Regards,
Salman

Salman,
As part of the Fair Hydro initiative, the IESO plans to ask government to permit FHP debt in an update to the O. Reg. 280/14.
In addition, IESO is likely to update its treasury policy (see attached – as approved by IESO Board and Min of Fin in 2015) to permit for the FHP draws/initiative.
I likely may also ask to increase the short term Cdn Sch I banks limits from $420million to $500million.
As part of the treasury policy update I wanted to give you/OFA a fyi and determine if you/OFA wish to comment back to me before I undertake the above changes.
Call me to discuss if easier.
Regards.

Subject: RE: IESO Treasury Policy - likely revising for June 2017

Salman,

Attached is a preliminary draft of the Treasury Policy and Sch A for your review.

Two changes have been made:

1. Permitting Fair Hydro program borrowings – self explanatory rationale; and
2. Increase from $420 million to $500 million in Sch A's Cdn Banks max limit per counter party.

The key rationale for the requested increase from $420 million to $500 million per counterparty is as follows:

• The market price of electricity has increased between 2014 to 2016 by approximately 16%-19% which has continued to result in the IESO managing higher and higher cash-flows and therefore seeking risk appropriate investments in accordance with the Treasury Policy – a large limit will allow the IESO to have more flexibility while being efficient with its cash;

• Over the past few years and relevant today, the availability of short-term (generally 1 day to 7 days which is used a lot by the IESO, and including less than 30 days investment) products such as Treasury Bills, BAs and Term Deposits have been irregular and not reliable for the IESO to find. The IESO generally deals in large amounts (several hundreds of millions) and given the lack of short term products at the size the IESO needs, the Sch 1 banks have been generally offering Term Deposits for the IESO at very low interest rates because the Banks do not need the IESO monies. In fact, a few banks offer the IESO less than 10bps for Term Deposits – which is significantly lower than Bank of Canada overnight rate and BAs rates. Therefore, a Term Deposit with very low interest yield does not align with a resulting lower counterparty risk for the IESO; and

• The IESO's Transmission Rights balances have in general remained higher than $100 million on average over the last few years despite an IESO target of $20 million. This has resulted in the IESO managing higher cash-flows

- While the Fair Hydro program is likely to not impact the IESO's overall net cash balances (borrow / sell should generally align), the timing of these cash flows may be different at times and the IESO may hold more cash (short term basis) for a few days. The sales/service agreement with OPG Trust has not been completed, and I am just listing this as a contingency in case for some reason IESO holds larger cash balances before paying back the

Fair Hydro loans.

Regards.

IESO Statement of Investment, Borrowing and Financial Management Policies and Procedures ("Treasury Policy")			
Office of Primary Responsibility	Treasury, Corporate Services	Policy #	**Treasury 01**
Subject.:	**IESO TREASURY POLICY**	Page:	1 of 4, and Schedule A
Approved by	Board of Directors	Effective	June 24, 2015
		Revised	June 14, 2017~~n / a~~

1. DEFINITIONS

CFO: means the IESO's Chief Financial Officer

IESO: means the Independent Electricity System Operator.

Treasury Policy: means this policy document, and means the Statement of Investment, Borrowing and Financial Management Policies and Procedures as referenced in Ontario Regulation 280 / 14.

2. PURPOSE:

The purpose of this Treasury Policy is as follows:

a) To adopt a policy for the sound and efficient management of the IESO's borrowing, investment, foreign exchange, financial affairs, and other treasury related activities;

b) To make investments when the investments are advisable for the sound and efficient management of the IESO's financial affairs;

c) To adhere to Ontario Regulation 280 / 14 made under the Electricity Act, 1998, as amended;

3. SCOPE

This Treasury Policy applies to all treasury related activities of the IESO (corporation) and the IESO's administered markets.

This Treasury Policy must be reviewed on an annual basis.

4. OUT OF SCOPE

This Treasury Policy does not apply to any activities pertaining to the IESO's pension plans[1].

Nothing in this Treasury Policy restricts the IESO's authority to enter into contracts referred to in section 25.32 or 25.35 of the Electricity Act.

5. RESPONSIBILITIES

5.01 **Manager, Treasury and Pension Operations (or equivalent)** is responsible for:

- Manage all day-to-day treasury activities and ensure adherence to this Treasury Policy;
- To establish documented treasury processes and procedures for internal control purposes;
- As necessary, recommend to the CFO any appropriate changes to Treasury Policy;
- Provide the CFO on a timely basis with any policy violations, concerns, or issues;
- To provide a report on the IESO's treasury activities to the CFO and IESO Board of Directors at least each quarter.

5.02 **Chief Financial Officer** is responsible for:

- Establish prudent and effective treasury and risk management practices;
- To manage the relationships between government and the IESO regarding all treasury matters;
- Reviewing any proposed changes to the Treasury Policy before submission to the IESO Board of Directors;

[1] Includes the IESO Registered Pension Plan and IESO Supplementary Employee Retirement Plan (SERP reserve).

5.03 **IESO Board of Directors** are responsible for:

- To adopt a Treasury Policy setting out policies for the IESO's borrowing, investment, foreign exchange, financial affairs, and other treasury related activities;
- To ensure any proposed change to the Treasury Policy is sent to the Minister of Finance for approval

6. PERMITTED ACTIVITIES

6.1 Permitted Borrowings:

a) All new borrowing facilities must be approved by the IESO Board of Directors.

b) The CFO will renew the annual SERP's letter of credit posted with the SERP trustee.

c) All borrowing facilities must be denominated in Canadian dollars.

d) The IESO shall establish bank accounts' overdraft capacity and services with its bank(s).

e) The IESO may only borrow from the following list of lenders:
   i. Government of Canada, Canadian provincial governments or any of their agencies; and
   ii. Canadian Schedule I or Schedule II or Schedule III financial institutions;

f) As determined by the CFO, the IESO may obtain a credit rating(s) to assist the IESO with establishing the IESO's creditworthiness to prospective lenders or counterparties.

g) Borrowing facilities shall only be utilized for the following purposes:
   i. To ensure the IESO corporation's operating liquidity and for purchases of IESO corporation's capital assets;
   ii. To ensure liquidity to complete the IESO's mandate for the Ontario electricity markets' settlements including the settlements for any Ontario government programs that the IESO is a service provider;
   iii. To ensure funding of any amounts, including variance accounts and timing differences, as prescribed by the Ontario Electricity Act and any Ontario regulation;
   ~~iii.~~iv. To ensure funding of any amounts pertaining the Ontario's Fair Hydro program;
   ~~iv.~~v. To ensure funding as may be necessary to manage timing differences between the receipts and payments with respect to IESO procurement contracts, electricity markets transactions, Smart Metering, and taxes; and
   ~~v.~~vi. As directed by the Minister of Energy;

6.2 **Permitted Investments and Forward Foreign Exchange Contracts:**

a) See **Schedule "A": Approved Financial Instruments Listing** for a listing of permitted investments and counterparties.
b) Investments or counterparties not listed in **Schedule "A"** are prohibited.
c) All investments must be denominated in either Canadian or US dollars.

End.

Hi Ken/Mike/Carlos,

Hope your week is going well.

We received the attached request to review IESO's latest update to their treasury policy which will require Minister of Finance's approval. As applicable, if your teams can review and provide comments, if any, we can consolidate and get back to IESO before they go to their Board in mid-June. We're hoping to get back to IESO early/mid next week.

Please let me know.

Thank you,

Salman

Hi Alex

Last time you worked with Shruti to determine the concentration limit. They are proposing a higher limit of $500 million as opposed to $420 million. Have a look.

Regards

Parvez

Hi Ken/Mike/Carlos,

Hope your week is going well.

We received the attached request to review IESO's latest update to their treasury policy which will require Minister of Finance's approval. As applicable, if your teams can review and provide

comments, if any, we can consolidate and get back to IESO before they go to their Board in mid-June. We're hoping to get back to IESO early/mid next week.
Please let me know.
Thank you,
Salman

Subject: RE: IESO Treasury Policy - likely revising for June 2017

Salman,
Attached is a preliminary draft of the Treasury Policy and Sch A for your review.
Two changes have been made:

1. Permitting Fair Hydro program borrowings – self explanatory rationale; and
2. Increase from $420 million to $500 million in Sch A's Cdn Banks max limit per counter party.

The key rationale for the requested increase from $420 million to $500 million per counterparty is as follows:

• The market price of electricity has increased between 2014 to 2016 by approximately 16%-19% which has continued to result in the IESO managing higher and higher cash-flows and therefore seeking risk appropriate investments in accordance with the Treasury Policy – a large limit will allow the IESO to have more flexibility while being efficient with its cash;
• Over the past few years and relevant today, the availability of short-term (generally 1 day to 7 days which is used a lot by the IESO, and including less than 30 days investment) products such as Treasury Bills, BAs and Term Deposits have been irregular and not reliable for the IESO to find. The IESO generally deals in large amounts (several hundreds of millions) and given the lack of short term products at the size the IESO needs, the Sch 1 banks have been generally offering Term Deposits for the IESO at very low interest rates because the Banks do not need the IESO monies. In fact, a few banks offer the IESO less than 10bps for Term Deposits – which is significantly lower than Bank of Canada overnight rate and BAs rates. Therefore, a Term Deposit with very low interest yield does not align with a resulting lower counterparty risk for the IESO; and
• The IESO's Transmission Rights balances have in general remained higher than $100 million on average over the last few years despite an IESO target of $20 million. This has resulted in the IESO managing higher cash-flows

- While the Fair Hydro program is likely to not impact the IESO's overall net cash balances (borrow / sell should generally align), the timing of these cash flows may be different at times and the IESO may hold more cash (short term basis) for a few days. The sales/service agreement with OPG Trust has not been completed, and I am just listing this as a contingency in case for some reason IESO holds larger cash balances before paying back the Fair Hydro loans.

Regards.

Hi Anthony,
I wanted to circle back with you on this email, particularly regarding possibly updating the IESO's Treasury Policy. Since it does require the Minister of Finance's approval, the OFA would be involved in obtaining that approval from the Minister. When you do have a markup, please do share it with us. Any details on what the changes would be accomplishing etc would also be helpful.
Regards,
Salman

Subject: IESO Treasury Policy - likely revising for June 2017

Salman,
As part of the Fair Hydro initiative, the IESO plans to ask government to permit FHP debt in an update to the O. Reg. 280/14.
In addition, IESO is likely to update its treasury policy (see attached – as approved by IESO Board and Min of Fin in 2015) to permit for the FHP draws/initiative.
I likely may also ask to increase the short term Cdn Sch I banks limits from $420million to $500million.
As part of the treasury policy update I wanted to give you/OFA a fyi and determine if you/OFA wish to comment back to me before I undertake the above changes.
Call me to discuss if easier.
Regards.

Mr. Gadi Mayman
Chief Executive Officer
Ontario Financing Authority
1 Dundas Street West, Suite 1400
Toronto, Ontario, M7A 1Y7

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Subject: FW: Indemnity Draft Briefing Note

Hi

Attached for your information is a draft briefing note on Ministry of Energy's s. 28 (FAA) request for approval of indemnities for OPG and IESO. A number of clarifications have been requested from OPG/IESO mainly related to the scope of the indemnity request.

This draft note is also intended to facilitate coordination as necessary in various ongoing discussions such as IESO/OPG indemnities, provincial guarantees, PiLs exemption. I'm not sure if the indemnity may also have implications for accounting treatment.

Comments welcome.

MINISTER OF ENERGY REQUEST FOR SECTION 28 APPROVAL FOR INDEMNITY AGREEMENTS IN FAVOUR OF OPG AND IESO FOR THEIR PARTICIPATION UNDER THE ONTARIO FAIR HYDRO PLAN ACT

ISSUE

The Minister of Energy is requesting approval from the Minister of Finance, pursuant to Section 28 of the *Financial Administration Act ("*FAA*")* to enter into Indemnity Agreements ("Agreements"), on behalf of the Crown, in favour of Ontario Power Generation ("OPG"),and its subsidiaries and the Independent Electricity System Operator ("IESO") with respect to their respective roles in carrying out the implementation of the Ontario Fair Hydro Plan ("OFHP") under the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP Act"). The indemnities would extend to the directors, officers and employees of these entities as well as the agents of the IESO.

Section 28 of the FAA requires that all ministries and public entities request the prior written approval of the Minister of Finance or the President of the Treasury Board for any transaction or commitment that would directly or indirectly increase the indebtedness or contingent liabilities of Ontario.

- The Minister of Energy would sign an Indemnity Agreement in favour of OPG and in favour of IESO.
- The Ministry of Energy indicates both OPG and the IESO expect to carry out activities that fall outside the scope of their pre-OFHP typical business activities and corporate mandate. This creates the risk that such activities could be perceived as not being carried out in "good faith" or in the best interest of the corporation thereby exposing OPG and/or the IESO to increased liability (pre-existing statutory protections from liability only extend to "good faith acts").
- In addition, statutory protections do not indemnify for costs relating to defending a claim.

RECOMMENDATION

- IESO and OPG have stated that these indemnities are required for their participation in the implementation of the OFHP Act.
- In order for the OFHP Act to be successful, it is recommended by the Minister of Energy that the Minister of Finance approve this request.
- [The requirement for indemnities was referenced in the recent Cabinet Submission by Minister of Energy, dated _____.]

WHAT IS THE MINISTER BEING ASKED TO SIGN?

- The Minister is being asked to sign the section 28 approval forms and the transmittal letter to Minister Thibeault.

FISCAL IMPACT

Commented [A1]: Would Energy think it fair to add this wording to its business case?

Commented [OPCD2]: For accounting purposes, doesn't OPG have to demonstrate that they are making the decision to participate at their own discretion? This clause would appear contradictory.

Commented [OPCD3]: See note above. Involvement by OPG was supposed to be based on a 'business case'

Commented [OPCD4]: These indemnities will not guarantee the success of the OFHP.

Commented [A5]: This is placeholder language. TBD/TBC

Commented [OPCD6]: Timing consideration are not noted in the briefing note. When does it have to be signed by? When does OPG anticipate borrowing?

- The fiscal impact of a future indemnity claim is unknown. Ministry of Energy ("MENE") states that the likelihood of this indemnity being called upon is low and that the fiscal exposure is unquantifiable at this time.
- An line item or an appropriation for the contingent liability is not required by the Ministry of Energy at this time. Disclosure on contingent liabilities would have to be reported in the Province's financial statements.
- An approval would be required for a voted appropriation for the Ministry of Energy to make payments if indemnity was called upon.
- MENE has confirmed in its [draft] request letter that it bears responsibility for funding, within its approved allocation, for payments associated with the indemnities provided under the Agreements.

Commented [A7]: Is this statement in the business case? P. 5 says "The risk to the Province of giving the indemnities is undeterminable at this time." Whereas the contingent liability table says it is low.
Can we have MENE to put this right up front. Need a bit of a narrative – what we [Energy] believe and why.

Commented [OPCD8]: Some reference to the amount likely being material with reference to components would be relevant to the decision maker…under what circumstances might the indemnity be called up, and what would have to be covered? All legal claims? Are there any limitations/scopes/timing considerations?

Commented [OPCD9]: Expenses and related fiscal impact would be reported on an 'accrual' basis (e.g. for a lawsuit with likelihood of success and reasonably estimable – would have to accrue.

Commented [BA10]: We need to make clear what this means. Is it meaningful to claim to be responsible for funding if amount is unknown? And bullets above note ministry would need an approval for an appropriation. (This could include no approval and instruction to manage).

SUMMARY OF PROPOSED INDEMNITIES

This summary of the OPG/IESO Indemnity Agreement sets out who is being indemnified, for what, and also addresses the proposed waiver of claims, whereby the Province agrees not to bring certain claims against the indemnified parties.

Who the Indemnity Applies to

- The indemnity is being given in favour of "Protected Persons" which comprises OPG, each of OPG's subsidiaries [NTD: We have not received confirmation of whether the financing entity is a subsidiary of OPG] and each of their respective directors, officers and employees.

- Protected Persons are being indemnified against all losses, costs, damages and other expenses for any amount for which they incur damages in relation to any civil, criminal, administrative, investigative and/or other claim, including a broad range of types of damages. This also includes punitive and a broad range of types of damages that are not always included in an indemnity, such as consequential damages and economic losses. The indemnity also covers costs and expenses for defending themselves. These indemnities are for any act or omission and activity that relates to the Fair Hydro Plan.

Commented [OPCD11]: If exercised in good faith? Has OPG and it's external auditors commented on potential risks of the request to the accounting treatment? Feedback should be in writing, and taken together with other terms and conditions that may impact an assessment of 'provincial' control.

What indemnities are being provided?

- The Indemnity Agreement provides that the Protected Person shall not benefit from the indemnity to the extent that the losses are already covered by an insurance policy or another indemnity.
- The indemnity also does not apply where the loss relates to the gross negligence or willful misconduct of the Protected Person. It is also explicitly carved out of this exception that a failure to conduct reasonable due diligence investigation will not in itself constitute gross negligence or willful misconduct, which narrows the exception in the context of disclosure and activities relating to issuing securities in public markets such that failing to conduct due diligence will not necessarily invalidate the Indemnity.

Formatted: Highlight

- The indemnity also applies where, in the case of a criminal or administrative proceeding, the Protected Person had a reasonable belief that their conduct was lawful.
- The Indemnity Agreement sets out how the Protected Person should notify the Province of any claims, and how any proceedings should be dealt with amongst the parties, as well as how any expenses and amounts should be paid during the determination of the claim.

The Indemnity Agreement includes a waiver of claim provision, which is not a normal provision for an indemnity agreement.

- This additionally provides that the Province will not make a claim against a Protected Person who is an individual (i.e., does not apply to OPG/IESO or subsidiaries) relating to any activities associated with the Fair Hydro Plan. This does not apply to claims for willful misconduct, dishonesty or gross negligence.

The Indemnity Agreement includes a warranty section given by the Province. In this section the Province Warrants that it has the authority and capacity, and has taken all necessary steps to enter into the Indemnity Agreement.

- This is an unusual provision, but likely relates to the fact that the Province is not the employer of the indemnified party, or the officers and directors are not the officers and directors of the Province.

Commented [OPCD12]: In the case of a market disruption, can the government guarantee that it will be able to indemnify, for what amounts and for how long?

ANALYSIS

Commented [A13]: s.28 notes usually talk about mitigation, as does the contingent liability table. Anything we can add here?

Scope of liability from Indemnities

Commented [OPCD14]: What does this mean?

The IESO and OPG are asking the Province to agree to indemnify, defend and hold harmless the IESO (and its agents) and OPG (and its subsidiaries), as well as their respective directors, officers and employees, from all claims, liabilities, costs, losses, taxes, fines, penalties judgments (including indirect and consequential damages/loss of profits, economic loss/loss of opportunity) that might, directly or indirectly, be incurred by any of the indemnified entities and individuals in relation to any civil, criminal administrative investigative or other claims or proceedings arising directly or indirectly as a result of the entities or individual's activities, acts and/or omissions in the implementation of or otherwise relating to the OFHP (including where an individual is acting at the request of OPG or IESO in a different capacity than as a director, officer or employee of OPG or a subsidiary).

Commented [A15]: Has the scope of this indemnity been compared to the proposed Provincial guarantee related to the financing? Is there overlap or duplication?

Commented [A16R15]: Comments from MOF Legal:

Even if Board has indemnities from OPG, wouldn't be able to cover as is not in the best interest of corporation.

MOF Legal: up to Energy to tell us. OPG must have given Board members the normal indemnities.

Bruce Lease one covers the not in the best interest of corporation.

OBCA indemnity: immunity from suit. May indemnity corp. directors and officers. Limited to indemnity in good faith. Other specific provisions exist in EA and FHA.

IESO covers quite a bit. Including Board, directors, employees.

- The indemnity would also include coverage for the financing entity (SPV), created by OPG, (as a subsidiary of OPG) to facilitate the purchase of the deferred assets ("regulatory assets") under the Global Adjustment ("GA").

Commented [OPCD17]: These will be reported as intangible assets by OPG Trust. Should that terminology be used instead?

Commented [A18]: Fair to insert?

MENE states that the OFHP Act activities of both OPG and the IESO would otherwise fall outside the scope of their typical business activities and corporate mandates. According to MENE, this creates the risk that such activities could be perceived as not being carried out in "good faith" or in the best interest of the corporation, thereby exposing OPG and/or the IESO to increased liability.

Commented [A19]: Would Energy change this to "historical" in its business case?

Commented [A20R19]: MOF Legal: OPG Board appears to be concerned some would say not in good faith despite objects being changed.

Commented [OPCD21]: Wherever IESO or OPG undertake activities outside of their mandate, have such indemnities been obtained?

Examples of specific risks to OPG include, without limitation,

- liability as a promoter under Canadian securities laws (or the equivalent, if any, under other applicable securities laws),
- secondary market liability under Canadian and/or other applicable securities laws,
- liability that the signatories to the prospectuses will have (i.e., the individuals signing the prospectus), and
- liability of OPG as the Financial Services Manager under any of the transaction agreements (e.g., the Financial Services Management Agreement, the Administration Agreement, the MSSA, the Master Trust Indenture and any Supplemental Indentures).

Examples of specific risks to the IESO include, without limitation, liability for its role in potential securities offerings of OPG's financing entity, which may come with heightened exposure to liability for the IESO, particularly for offerings into the U.S. market. It is not clear whether the statutory protections would apply federally or in the U.S. context. If they would not extend to a U.S. claim, for example, it would support the need for a separate indemnity for the IESO.

If the indemnities are not provided, ENE indicates that this could affect OPG and IESO's willingness to undertake such activities, jeopardizing the successful implementation of the OFHP Act. Both the IESO and OPG have specifically asked for these Indemnities in order to allow them to carry out their roles in implementing the OFHP Act.

Commented [A22]: Can we know this in advance, or is this only to be known if tested in the courts?

Commented [A23R22]: IESO is indirectly involved. Not clear EA 19(1) for IESO. Unclear whether it'd protect from US suit. OFA Board also raised. MOF Legal: this is a valid point.

Commented [OPCD24]: As written, or at all?

Commented [A25]: The business case is somewhat inconsistent on specifically citing directors, or being broader. Which is it?

Key Comments:

In providing the approval under Section 28 of the FAA, it is important to flag the following key items that arise from the Indemnity Agreements that the Minister of Energy is proposing to sign [subject to finalising drafting – TBC].

1. Acting in "Good Faith"

Without duplication of the coverage for liabilities that could arise for OPG and IESO, both are requesting to be indemnified for their activities that may be found to have not been conducted in "good faith" and/or in the best interests for their respective corporations.

Commented [OPCD26]: Should their MOUs be modified instead?

Since IESO and OPG are expected to carry out activities under the OFHP that fall outside the scope of their typical business activities and corporate mandate to date, management in IESO and OPG are of the view that this creates the risk that such activities could be perceived as not being carried out in "good faith" or in the best interest of the corporation thereby exposing OPG and/or the IESO and their directors, officers and employees to increased liability.

- The concern seems to be that carrying out activities to implement the OFHP Act, even if in some cases required by the Act would not be considered to be in the best interest of the respective corporation.

  - Is there a difference between acting in good faith in the best interests of the corporation versus acting in good faith in the exercise or performance of powers or duties under the Act?

- Statutory protections from liability only extend to "good faith acts as set out below for IESO directors, officers, employees and agents and for OPG employees".
  - Since OPG is falls under Ontario's *Business Corporations Act* (OBCA), directors and officers of OPG are subject to the standard set out in that Act which includes a limitation on indemnities from corporations, whereby indemnities can only be given to the extent that the directors and officers carried out their activities in good faith and in the best interest of the corporation. The proposed Provincial indemnity, however, would not be restricted to that standard.
  - The standard applicable to directors of IESO is set out in s. 12 of the *Electricity Act, 1988*, i.e., to act honestly and in good faith in the best interests of the IESO and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.
  - So the standard is similar for both OPG and IESO directors.

Both the *Electricity Act, 1998* and the *Ontario Fair Hydro Plan Act, 2017*, provide coverages for such liabilities as long as those activities are done in "good faith".

- Subsection 19(1) of the Electricity Act, 1998 already provides IESO directors, officers and employees with the following protection from liability:

  "No action or other civil proceeding shall be commenced against a director, officer, employee or agent of the IESO or a member of a committee or panel established by the board of directors of the IESO for any act done in good faith in the exercise or performance or the intended exercise or performance of a power or duty under any Act, the regulations under any Act, the IESO's licence, the IESO's by-laws or the market rules, or for any neglect or default in the exercise or performance in good faith of such a power or duty."

- Subsection 39(1) of the *Ontario Fair Hydro Plan Act, 2017* also provides similar protection from liability for OPG:

  "No action or other civil proceeding shall be commenced against any employee of the Province or Ontario Power Generation Inc. for any act done in good faith in the exercise or performance or the intended exercise or performance of a power or duty under this Act, the regulations or for any alleged neglect or default in the exercise or performance in good faith of such a power or duty."

2. Potential for Fiscal Exposure of the OFHP Act

In addition to the potential fiscal impact due to a call on the indemnity, there may be a risk associated with the anticipated accounting treatment of the GA Financing portion of the OFHP. With the Province providing guarantee agreements, financial support through credit facilities and

Commented [OPCD27]: Good point.

Commented [A28]: There is no statutory protection for directors and officers of OPG. Most likely OPG has provided them with a typical indemnity consistent with OBCA provisions

Commented [OPCD29]: Does it only cover them during their terms, or does it carry once they leave for any past activities/transactions?

Commented [BA30]: Does this mean
- employee of the Province or employee of OPG, or
- employee of the Province or OPG (i.e., the corporation itself)?

the proposed agreements to indemnify the IESO and OPG, the case for the anticipated accounting treatment of the GA structure could be weakened.

Commented [OPCD31]: Accounting related considerations should definitely be raised, but as discussed with John Kim,, it is OPG and it's auditors who need to provide an assessment of the accounting impacts of the proposed indemnity (fill scope), taken together with other potential risks associated with regulations, commercial agreement terms, etc. If the Trust is assessed as controlled for accounting purposes, then the fiscal impacts will be materially different.

Commented [A32]: Whether to include or not, or how to position it, we should see what OPG and E&Y say on the impact on the accounting opinion.

Commented [A33]: Need to get an update from OPCD on whether the proposed indemnities would have a significant impact on this analysis.

BACKGROUND

- On March 2, 2017, the government announced Ontario's Fair Hydro Plan (the "OFHP"), under which the government will take steps to lower electricity bills [on an after-tax basis] by 25 per cent on average for a typical residential customer, starting July 1, 2017, relative to what the bills would otherwise have been without the OFHP.
- Changes to refinance a portion of the Global Adjustment ("GA") are a component of the 25 per cent rate relief under the OFHP. This includes roles for both IESO and OPG:
  - IESO – legislation imposes certain obligations and requirements on IESO to carry out various activities to implement the OFHP such as the creation of a regulatory asset in relation to deferred costs and the GA financing component of the OFHP, the conveyance of that asset to a financing entity (expected to be established by OPG) and providing a servicing role in recovering the financing entity's funding costs from future ratepayers. IESO may also be required to play a role in potential securities offerings of OPG's financing entity. This may come with heightened exposure to liability for the IESO.
  - OPG – OPG is expected to finance the purchase of the regulatory asset, related to deferred costs, through a financing entity that OPG creates. OPG considers risks associated with these OFHP-related activities to be beyond OPG's usual business/operations. This is particularly true with respect to any securities offerings of OPG's financing entity. Products are expected to be offered into the Canadian and U.S. Markets. As a result, pre-existing indemnities and protections do not adequately protect OPG, its directors, officers and employees. Under the envisioned accounting treatment where OPG is assessed to control the SPV, the deferred asset would be reflected on the Trust's books as an intangible asset. The overall GA Smoothing part of the FHP would not have a negative impact on the Province's books. However, if the preponderance of evidence concludes that the trust is not controlled by OPG, but rather by the Province, then the anticipated fiscal impact will not result and the amount of any unrecovered GA payments to generators will immediately be reflected as an expense on the Province's books.
- The 25 per cent rate relief also includes the rebate amount equivalent to the 8 per cent Provincial portion of the HST that has been in effect since January 1, 2017 under the Ontario Rebate for Electricity Consumers Act, 2016, and the expected savings from the shifting of the Ontario Electricity Support Program ("OESP") and the Rural or Remote Rate Protection program ("RRRP") costs from ratepayers to being funded by the Province.
- The government introduced legislation, passed on May 31, 2017 and received Royal Ascent on June 1, 2017, to enable the implementation of the OFHP Act.

Hi Carlos

Attached is a slide deck on fair Hydro Plan that Ron is presenting at a Minister's meeting this Wednesday. The deck reviews the FHP and also reviews some of the outstanding issues – starting on slide 13. Ron shared this around on the weekend and there was request from Scott Nelms to include a status update on the sub-debt discussion. We haven't been very close to these discussions. Would you be able to draft a summary slide for inclusion in the attached deck? You'll see in attached that summaries for most are fairly high level.

Thanks for your help and let me know if you have any concerns.

Hi Bruno,

Scott N. asked of more on the status of the sub-debt discussion could be put in, say on the discussion of pricing. May need to reach out to CMD folks.

Thanks,

Ron

> On related matters. There was back and forth most of the day amongst EFB, MOF Legal and Energy Legal with respect to finalizing Indemnity Agreements. I think they should be near final at this point. M. Energy to provide signed request letter on Tuesday. We

hope to have a draft on Monday. MoF Legal did not have a change to respond further on the briefing note today, so we will need to finalize that, hopefully on Monday.
We aim to have approvals packages for 1) Treasury Policy 2) Minister's Directive to OFA re lending facility and 3) Indemnity approval for early next week.
Thanks
Bruno

Ontario's Fair Hydro Plan

Corporate and Electricity Finance Division

DRAFT: June 28, 2017

Contents

- Overview: Ontario's Fair Hydro Plan
- Refinancing the Global Adjustment
- Outstanding Issues
  - Provincial Support Agreement
  - Indemnities to OPG and IESO
  - IESO Treasury Policy Amendments
  - Equity Injection
  - PILs Exemption
  - Performance Management Fees
- Appendix: GA Financing
  - GA Refinancing Structure
  - Equity Injection
  - IESO increased credit facility
  - GA Financing: Illustrative Net Debt Impacts
- Appendix: Background on Ontario's Electricity Market

Overview:
Ontario's Fair Hydro Plan

Overview:
The Ontario Fair Hydro Plan ("OFHP")

- On May 31, 2017, the government passed the Ontario Fair Hydro Act, 2017, to enable the implementation of the OFHP, which will lower electricity bills by 25 per cent on average for eligible residential customers. Eligible farms and small businesses will also receive benefits (essentially for those eligible for the Regulated Price Plan).
  - Implementation steps include a set of regulations under the Act brought forward by the Ministry of Energy for approval.
- The measures that make up the 25 per cent average reduction include
  - Refinancing a portion of the Global Adjustment (GA) to allocate fairly the costs of Ontario's contracts for electricity infrastructure investments over the expected lifecycle of the generation infrastructure assets.
    - The Global Adjustment recovers a portion of the commodity supply and conservation costs of electricity.
  - The Ontario Rebate for Electricity Consumers, for an amount equal to the provincial portion of the HST, which took effect on January 1, 2017.
  - Shifting funding of the Ontario Electricity Support Program (OESP) and Rural or Remote Rate Protection (RRRP) program from electricity ratepayers to the province.
- People with low incomes, those served by local distribution companies (LDCs) with the highest distribution costs, OESP recipients and On-Reserve First Nation households would benefit from even greater reductions to their electricity bills.

Overview:
The Ontario Fair Hydro Plan (cont'd)

- Other measures that make up the Fair Hydro Plan include
  - Expanding the Industrial Conservation Initiative (ICI) to include electricity consumers, in the manufacturing and certain other sectors including greenhouses, with an average monthly peak demand of greater than 500 kW and less than 1 MW.
  - Expanding the OESP, by providing 50 per cent more support in the form of monthly credits for people with low incomes and increasing eligibility, effective May 1, 2017.
  - Establishing an Affordability Fund that will be accessible to LDCs for customers who do not qualify for low-income conservation programs and who are unable to undertake energy efficiency improvements without financial assistance.
  - Providing on-reserve First Nations households with a 100 per cent credit of the delivery line on their monthly electricity bills.
  - Enhancing the Rural or Remote Rate Protection (RRRP) program to provide distribution charge relief to about 800,000 customers and shift costs from ratepayers to provincial revenues. This would include customers served by local distribution companies (LDCs) with the highest rates.
  - Improving energy sector efficiency and modernize the province's electricity market, building on the collaboration of the Independent Electricity System Operator (IESO) and the Ontario Energy Board (OEB).
- The government-funded measures (OESP, RRRP, on-reserve credits and the Affordability Fund) have been communicated to cost the government about $2.5 billion in the first three years (and would have an on-going annual cost to government). (Note: Actual amounts in the 2017 Budget fiscal plan is a little less, due to partial year implementation in 2017-18).

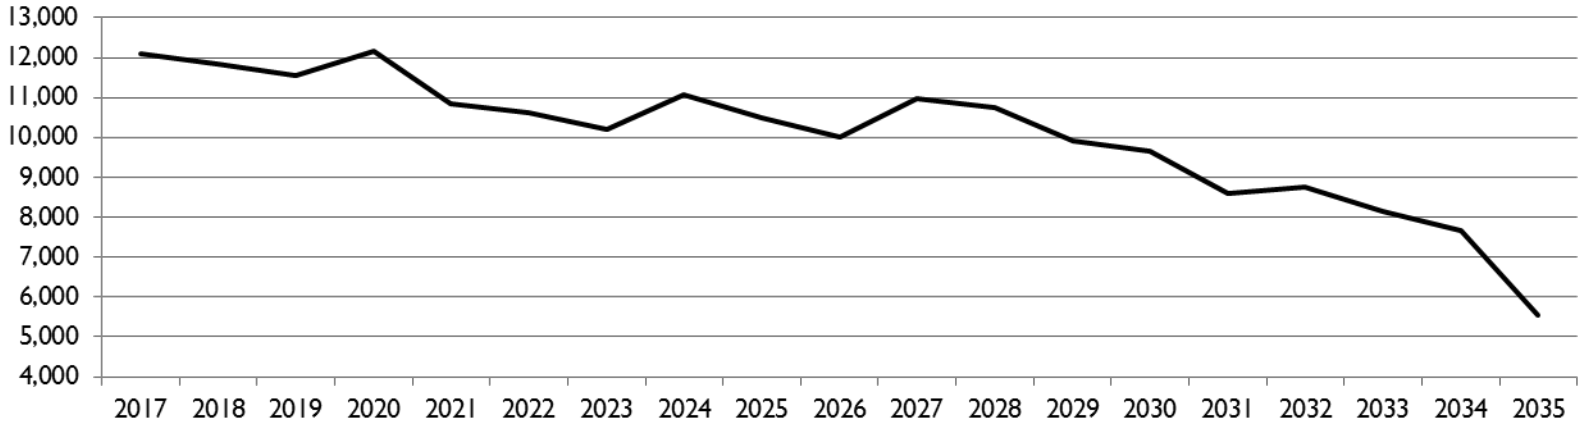
Refinancing the Global Adjustment

Refinancing the Global Adjustment

- Refinancing the Global Adjustment (GA) provides significant and immediate rate relief by spreading the cost of electricity investments over a longer period of time.
- Under forecasts provided by the Ministry of Energy at the time of the OFHP announcement in March, the immediate reduction (i.e., the financed portion) in the GA would be about $2.5 billion per year on average over the first ten years.
- This measure would share the associated costs more fairly. The illustrative chart below shows how Global Adjustment (GA) cost is front-end loaded and forecast to decline over time.

NOTE: Energy and IESO forecasts are subject to update, including as part of the Ministry of Energy's current Long-term Energy Plan update process.

Forecast Global Adjustment Cost (nominal $ million)



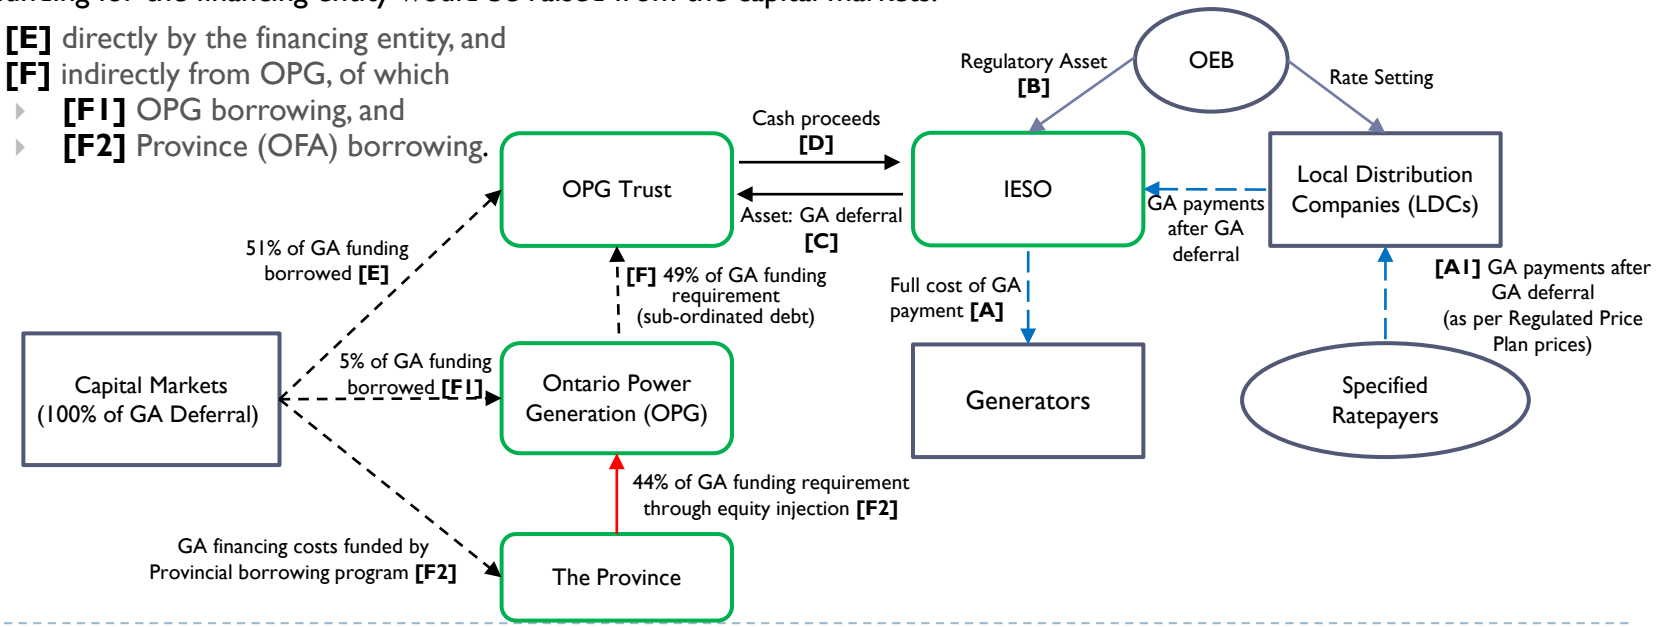
Source: IESO

Global Adjustment Financing: Policy Rationale

- The purpose of the Global Adjustment refinancing is to
  - Ensure that clean energy costs and clean energy benefits are fairly allocated among present and future specified consumers
  - Recognize that clean energy benefits have accrued and will accrue over time and will continue to benefit present and future electricity consumers in the Province, and
  - Align clean energy costs with clean energy benefits, in order to provide fairness for specified consumers over time.
- The majority of the province's electricity generators are under 20-year contracts. Many of these generators will be able to operate past their contract term.
- By recognizing that generation assets are expected to continue to provide benefit to future ratepayers, beyond the term of current contracts, future ratepayers are expected to be able to utilize these assets and reduce the need to finance the development of new generation assets.
- In the early years, a portion of the costs covered by the GA would be financed to reduce pressure on electricity ratepayers.
- In the later years, when some system costs are expected to be reduced due to continued operation of existing assets under 20-year contracts, the deferred amounts and cost of financing would be recovered from ratepayers through a "Clean Energy Adjustment".

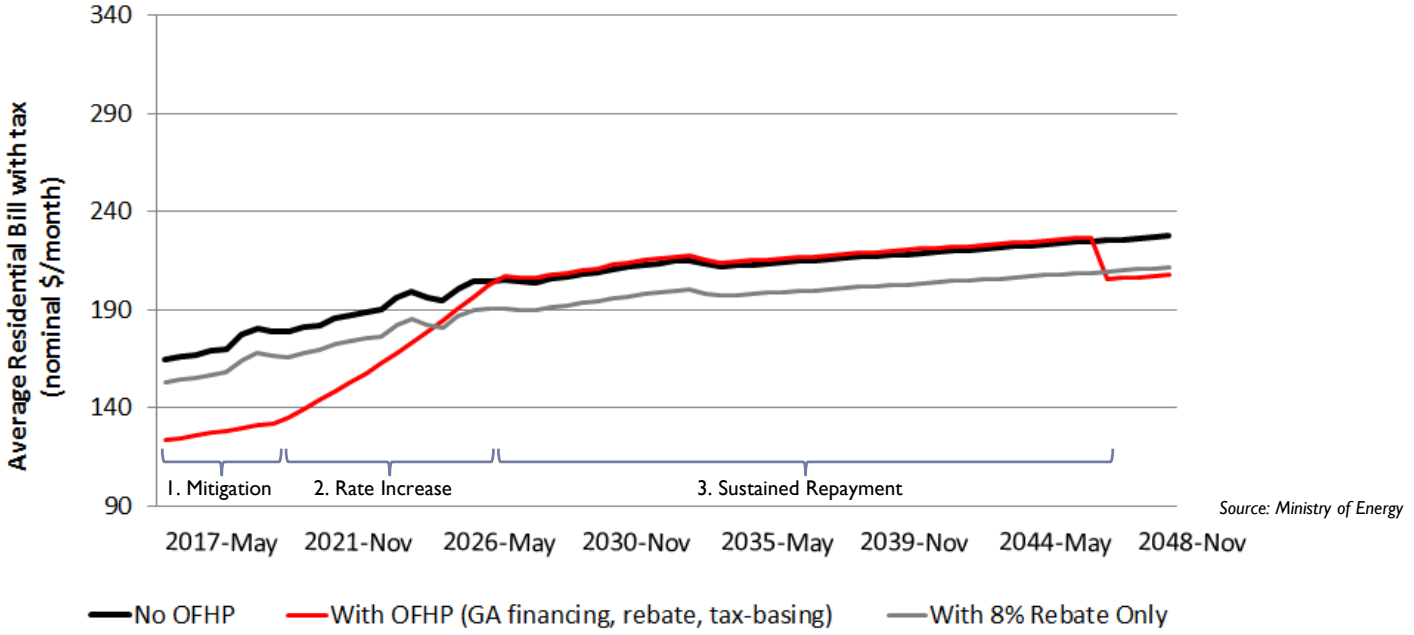
GA Financial Structure

- Through the OFHP, GA costs, including refinancing costs, will be recovered from ratepayers over a longer period of time.
  - The GA refinancing framework will be implemented through the IESO and Ontario Power Generation (OPG).
  - Under the OFHP, OPG would be able to establish a special purpose vehicle financing entities (e.g., OPG Trust) .
- **[A]** Under the OFHP, the IESO will continue to pay generators their contracted and regulated prices. **[A1]** However, LDC payments will be less, as Regulated Price Plan prices are set based on a portion of the GA deferred in order to support the initial 25% reduction (and subsequent adjustments).
- **[B]** The IESO will set up a deferral account, vis a vis a 'regulatory asset', with a right to recover the deferred costs and financing costs, as authorised by the OEB.
- **[C]** Under the Act, the Independent Electricity System Operator (IESO) would be able to sell the 'right to collect' deferred future revenue from ratepayers to the financing entity in return for cash proceeds **[D]**.
- The funding for the financing entity would be raised from the capital markets:
  - **[E]** directly by the financing entity, and
  - **[F]** indirectly from OPG, of which
    - **[F1]** OPG borrowing, and
    - **[F2]** Province (OFA) borrowing.



Global Adjustment Financing

- GA Financing structure and bill impacts can be thought of as having three phases (see illustrative chart below)



Source: Ministry of Energy

Phase 1: Mitigation

- 2017 residential bill 25% on average lower than original projection (pre-8% Ontario Rebate for Electricity Consumers).
- Increase in bill capped to 2% per year until 2021.

Phase 2: Rate Increase

- Residential bills continue lower than without the OFHP; however, not by 25% on average.
- Bill increases each year, limiting overall deferral and borrowing.
- Planned increases for the above purpose projected to end in 2028 when sustained repayment starts.

Phase 3: Sustained Repayment

- Bill higher than projection, excluding the GA deferral, until 2047 (estimated).
- Difference between with OFHP (red) and 8% rebate (grey) only represents recovery of deferred GA and financing.

Risks / Cost Sensitivities

Global Adjustment Refinancing Model Assumptions

- Projected Global Adjustment Refinancing costs are affected by actual system costs and consumption, and actual interest rates.
- Variances from these key assumptions could affect actual refinancing costs, etc.

- Interest rates
  - Higher/lower Interest rates would lead to higher/lower refinancing costs
  - For example, a 1.5 percentage point lower interest rate assumption, compared to an illustrative 5% case used by the Ministry of Energy, would halve estimated cumulative interest costs, from about $21 bn to $11 bn.

- Electricity demand
  - Lower/higher electricity demand due to fewer consumers or lower/higher consumption among some consumers would increase/decrease Clean Energy Adjustment costs for remaining consumers.

- System Costs
  - Ministry of Energy is developing the updated Long-term Energy Plan (LTEP), expected to be released in about summer 2017. The LTEP is expected to include measures to continue to reduce system costs.
  - Actual system costs are expected to also be affected by other factors, such as the Ontario Energy Board rate application process.

MOF-Related Outstanding Issues

Provincial Support Agreement
[Ministers' Approval Item: Pending]

- The OFHP Act, s. 5, outlines certain protections and assurances to be provided by the Province, including agreements to be entered into by the Ministers of Energy and Finance with persons under the Act. These include
  - guarantees of, or undertakings by the Province to provide assurances to those with claims against the Financing Entity (with respect to debts, obligations, securities or undertakings associated with an investment interest), and to support credit ratings, and to outline undertakings by the Financing Entity and possibly the Province for satisfying funding obligations.
  - This is separate from the indemnities proposed to be provided by the Ministry of Energy for OPG, IESO and respective directors, officers and employees with respect to their activities in implementing the Fair Hydro Plan.
- A proposed Provincial Support Agreement is currently under discussion among Ministry of Energy, Ministry of Finance, OFA, external legal consultants and OPG.

Provincial Support Agreement
[Ministers' Approval Item: Pending]

- There are three facets of the draft proposed Provincial Support Agreement currently under discussion. Each of these would require Agreement/approval of Ministers of Energy and Finance:
  1. Service Guarantee: Province to guarantee the performance of the IESO and electricity vendors under the Act including billing, collection and remittance of clean energy adjustments.
  2. Indemnity: Provided by Province for Financing Entity against third party claims as a result of government amending or repealing the Act or court rulings adversely affecting the rights and interest of the Financing Entity. Indemnity applies only to direct government actions and would not cover, for instance, OPG activities
  3. Avoidance of Mismatches: during a reference period, between Financing Entity funding obligations and amount available from investment interests: Outlines roles and expectations of Financing Entity to make efforts to arrange for commitments from market-based funding sources and, if unable to do so, possible Province funding commitments under terms and conditions, including appropriate compensation to the Province.
  - Under both the Service Guarantee and the Indemnity the Service Guarantor (the Province) will have the option to satisfy obligations by "stepping in) and paying when due regularly scheduled amounts. In both cases the Servicing Guarantor would not be obligated under any circumstances to pay consequential, special or punitive damages, or for economic loss or loss of profits.

- Note: Separation between the Province and OPG is necessary to maintain appropriate accounting treatment.

Indemnity
(For Minister's s.28 Approval)

- The Ministry of Energy is proposing to provide, on behalf of the Province, certain indemnities as requested by OPG and IESO, and is asking, pursuant to Section 28 of the *Financial Administration Act, 1990 (*FAA*)*, that the Minister of Finance approve this request.
  - OPG and IESO are requesting that the Province indemnify the corporations (OPG and subsidiaries, not including the financing entities, and IESO), respective directors, officers and employees with respect to their roles in implementing the Ontario Fair Hydro Plan (OHFP).
  - ENERGY notes that in the event that an indemnity claim does arise and a payment is required, the Ministry would be unlikely to be able to support these payments and would need to return to TB/MBC for an increase in its allocation.
- In implementing the OFHP, OPG and the IESO expect to carry out activities that fall outside the scope of their pre-OFHP typical business activities and corporate mandate. They believe that this creates the risk that such activities could be perceived as, or subject to claims that they are not being carried out in "good faith" or in the best interest of the corporation, thereby exposing OPG and/or the IESO to increased liability.
- OPG and IESO note that existing statutory protections do not preclude a party from bringing an action or other civil proceeding against the corporation's directors, officers or employees, causing them to incur costs in defending the claim.

Indemnity (cont'd)
(For Minister's s.28 Approval)

- Under the proposed Agreements, the Province would agree to indemnify and hold harmless the corporations and their respective directors, officers and employees from any claims, liabilities, costs or losses that might arise to the Protected Person as a result of their roles in carrying out activities related to the implementation of the ONFHP.

- The proposed Agreements note that under the Indemnities, a protected person would not be entitled to be indemnified in respect of losses for which coverage is provided elsewhere, including through insurance policies or existing statutory indemnities.

- Indemnity would not cover a protected person losses that are the result of such protected person's dishonesty, gross negligence or willful misconduct.

- The Agreement includes a waiver that restricts the Province's ability to bring any claims (other than those arising out of gross negligence and wilful misconduct) against the Protected Persons.

  - MENE believes the risk associated with providing this waiver is likely low given that it is unlikely that the Province would bring a claim against a Protected Person for acts they would be providing an indemnity to the Protected Person for.

Indemnity (cont'd)
(For Minister's s.28 Approval)

- Ministry of Finance staff recommend approval of the s.28 request.
  - Ministry of Energy indicates that the Indemnities have been requested by the companies, supporting the implementation of the OFHP.
  - The Ministry of Energy states that the risk of the Province providing the Indemnities is undeterminable and unquantifiable at this time, due to uncertainty around possible claims under the Indemnities. Ministry of Energy notes, however, that the risk is mitigated by the existence of statutory immunities under the *Electricity Act, 1998,* for IESO, and under the *OFHP Act, for OPG,* pre-existing protection for director, officers and employees under insurance and, the limitation of indemnity to claims arising from IESO's and OPG's respective roles in implementing the OFHP.

IESO Treasury Policy
(For Minister's Approval)

- As prescribed under Regulation 280/14 under the *Electricity Act, 1998,* the IESO is required to maintain investment, borrowing and financial management policies and procedures.

- As required under the Regulation, the IESO has submitted a revised IESO Treasury Policy for Minister of Finance approval.

- The revised IESO Treasury Policy incorporates the following two changes:
  1. Permit borrowings to ensure funding of any amounts resulting from or required under the *Ontario Fair Hydro Plan Act, 2017*.
  2. Increase counterparty exposure to Schedule A Canadian Banks from the current $420million to $500 million, an increase of $80 million exposure per counterparty.
     - This ensures that the IESO has flexibility to efficiently manage its cash accounts as evolving business requires IESO to manage higher cash flows and seek appropriate short-term investments.

- OFA staff have reviewed and have no concerns with the requested changes.

Equity Injection – Key Proposed Terms

OFA to Support under a Service Level Agreement

The terms for the Equity Injection are set out in the Fair Hydro Plan – Master Subscription Agreement Term Sheet.

- The Province agrees to inject 44% of total funding of GA asset by way of equity subscription in OPG, which amount OPG in turn will invest in the Fair Hydro Trust as subordinated debt (**Equity Injection Plan**)
- Ministry of Energy (as Shareholder) will seek appropriation on an annual basis through PRRT for the amounts requested by OPG for its equity requirements. OPG will provide forecasts of its equity requirements for the upcoming three years in its business plan submission.
- OPG agrees use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt requirements as part of the Fair Hydro Plan
- OPG will amend articles of incorporation to create an additional class of shares – Class A Shares – which will be non-voting and redeemable at OPG's option.
  - OPG will issue Class A Shares to the Province monthly at a value per share equal to book value, as determined from OPG's last approved quarterly financial statements
  - OPG will have the right to repay equity subordinated to the Province, through exercise of its right to redeem the Class A Shares, as principal repayment of the debt is made commencing in 2027
- Ministry of Energy and OFA would, as proposed, have a service level agreement in place providing authority for OFA to provide cash management services to facilitate share purchases on an ongoing basis on behalf of the Ministry of Energy, subject to the approved PRRT amount and 44% share.

Performance Management Fees

- OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
- The legislation (s. 19.3) allows OPG to establish and charge a management fee for those services in accordance with the regulations, which are currently in development.
- There are two components to the model proposed by OPG:
  - Base fee: the structure will allow OPG to earn a commercial fee, an accounting consolidation requirement, with periodic OEB review of the commercial basis of that fee. OEB and OPG are in discussions in order to develop a model that satisfies the accounting requirements and is consistent with OEB's processes.
  - Performance management fee: OPG has the ability to gain or lose depending on the actual financing cost relative to a benchmark, which would be shared equally between ratepayers and OPG. Gain/loss is capped at 1% of annual incremental issuance amount.
- MOF (OFA) and Ministry of Energy are currently reviewing OPG's performance management fee proposal. [who approves?]

Payment in Lieu of Taxes Exemption
(Minister's Approval Item: Minister's Reg.)

- Request from OPG – and supported by ENERGY is a PILs exemption for the income arising from the OPG financing vehicle/OPG as a consequence of the Fair Hydro Plan.
  - With no PILs exemption, ratepayers will bear the cost of PILs through the rate base.
  - OPG has sought a broad comprehensive PILs exemption for a variety of potential financing structures including corporations, trusts or partnerships.

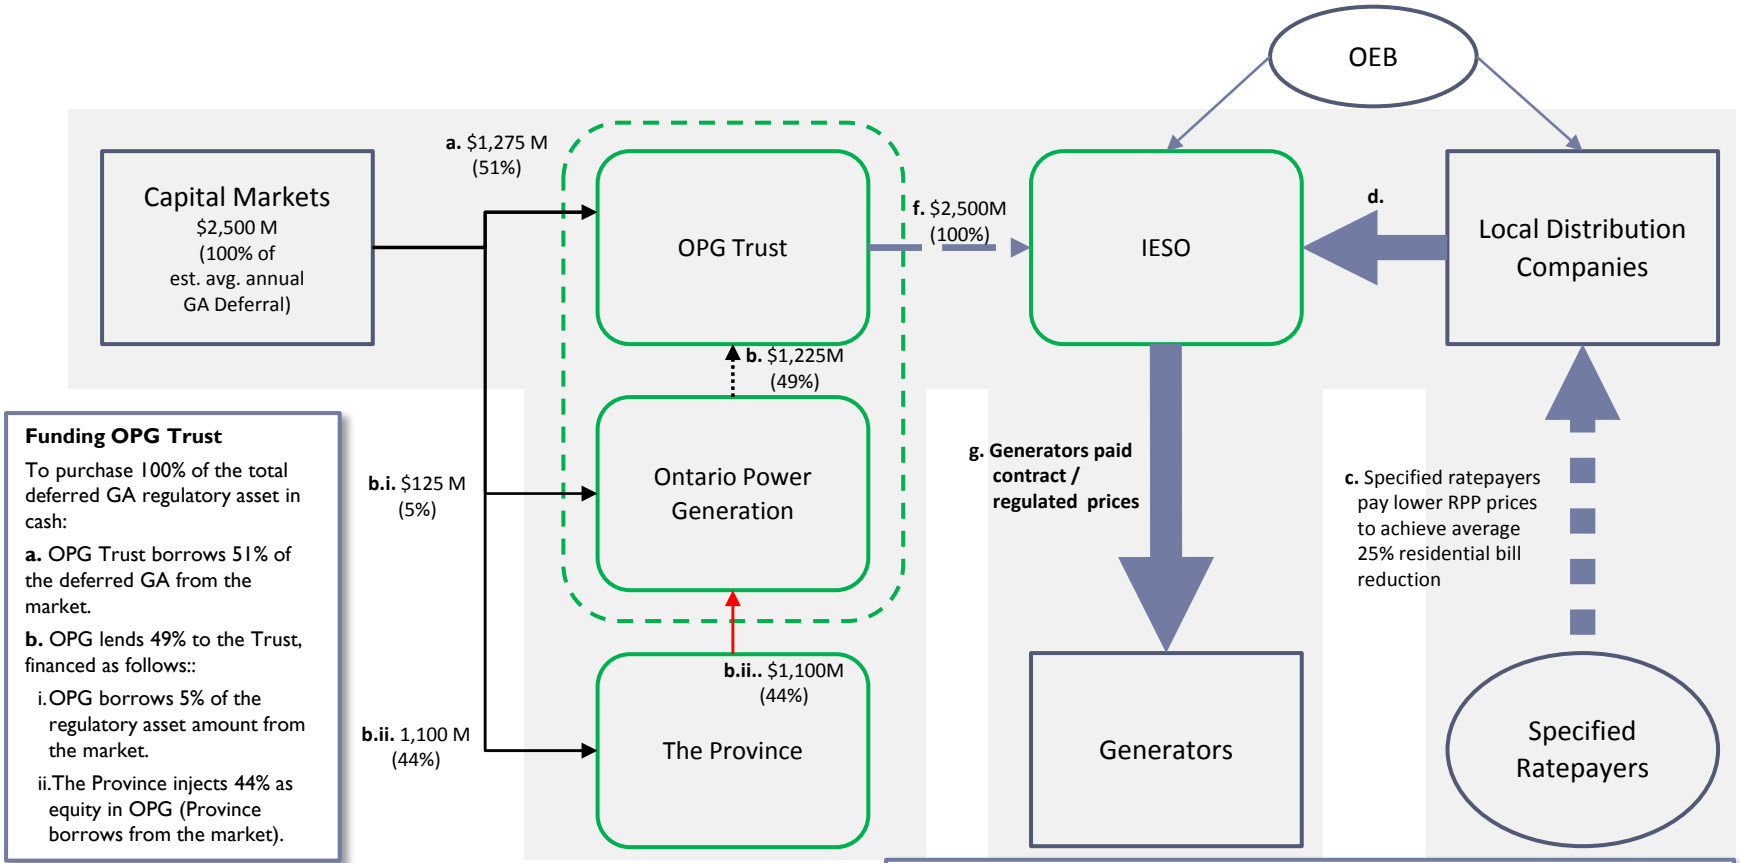
- The PILs regulations under the Electricity Act are under the purview of the Minister of Finance.

- TPD recommends [TBC] a regulatory exemption for each specific financing entity structure, once the structure is determined. A blanket exemption would create significant risks to provincial revenue and require a number of complex conditions to minimize the potential for precedents and tax avoidance.

- TPD proposes bringing forward for approval the required regulation(s) once OPG advises on each specific financing entity structure and any anticipated future structures or changes to the structure.
  - OPG has raised questions on the timeliness of response for a new regulation, as OPG special purpose vehicles for financing may be put together quickly to respond to different markets and market conditions

Appendix: GA Financial Flows & MOF / OFA Roles

GA Financing Structure: Illustrative Fund Flows* - Mitigation Phase



Funding OPG Trust

To purchase 100% of the total deferred GA regulatory asset in cash:

a. OPG Trust borrows 51% of the deferred GA from the market.

b. OPG lends 49% to the Trust, financed as follows::

i. OPG borrows 5% of the regulatory asset amount from the market.

ii. The Province injects 44% as equity in OPG (Province borrows from the market).

Deferral Mechanism

c. Specified ratepayers pay RPP prices, including the non-deferred portion of the GA to LDCs.

d. The LDCs remit this amount to the IESO ...

e. …The IESO recognizes a regulatory asset – the right to collect the deferred amount, and a financing cost, from ratepayers in the future.

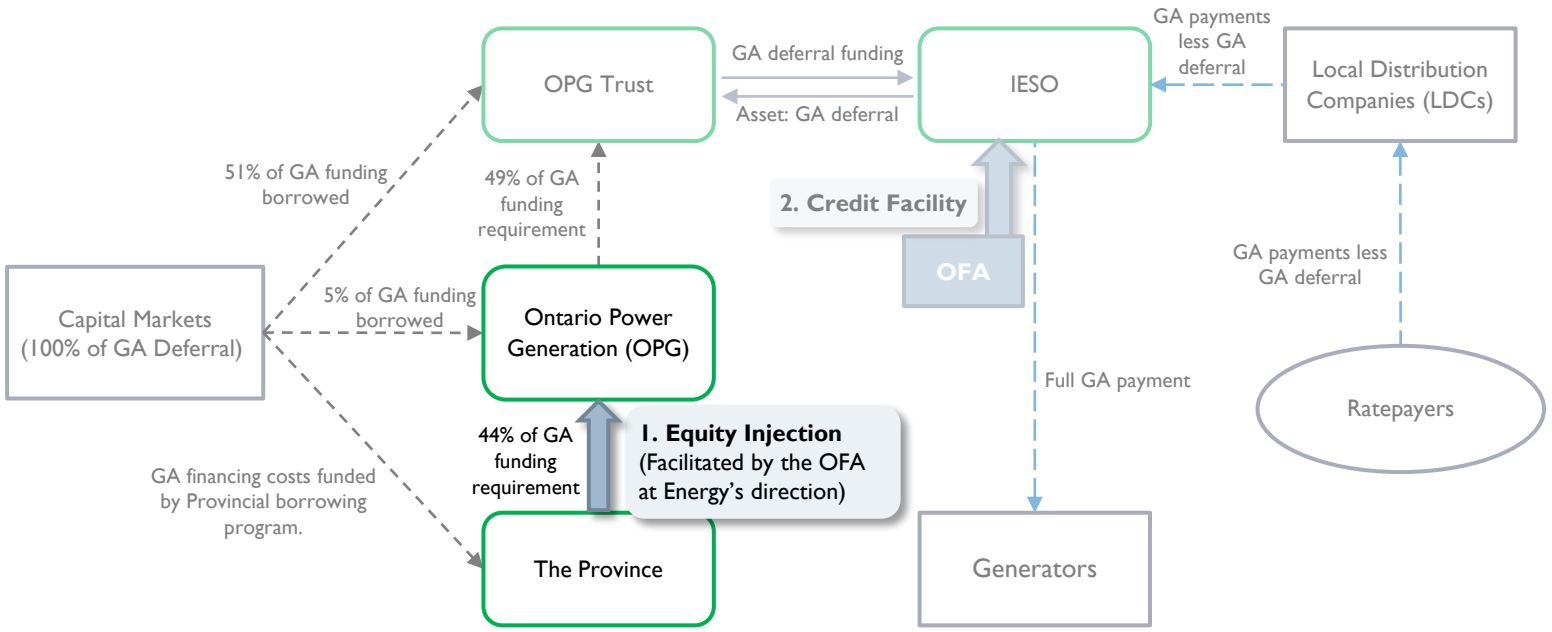
f. IESO sells this asset for cash to OPG Trust.

g. IESO uses the proceeds from the sale of the regulatory asset and the collection amount from LDCs to pay the full amount of the GA cost to Generators (and conservation costs).

* Amounts are illustrative and based on an assumed deferred cost, or regulatory of $2.5 billion.

Equity Injection

- The 2017 Budget includes in the Ministry of Energy Estimates an investment operating asset of $1.1 bn related to the Province's equity injection to OPG. OPG would provide financing to the Trust through sub-ordinated debt, as part of the OPG Trust financing to regularly purchase IESO's regulatory asset through 2017-18.
- The structure would
  - increase gross debt of the Province (to finance the equity injection in OPG),
  - increase net investment in OPG (so no net debt impact),
  - increase interest on debt related to that external debt, which
  - on consolidation into Public Accounts, would be offset by increased earnings of OPG from sub-debt interest revenue.



GA Financing: Illustrative Net Debt Impacts

Province of Ontario - Consolidated Statement of Financial Position

As at March 31, 2016 ($ Millions)		**GA Financing Impacts Est. Average Annual**
Liabilities		
Accounts Payable and Accrued Liabilities (Schedule 5)	19,361	
Debt (Note 2)	327,413	**1,100**
Other Long-Term Financing (Note 4)	14,145	
Deferred Revenue and Capital Contributions (Note 5)	10,779	
Pensions and Other Employee Future Benefits (Note 6)	12,107	
Other Liabilities (Note 7)	4,905	
	388,710	
Financial Assets		
Cash and Cash Equivalents	13,600	
Investments (Note 8)	21,765	
Accounts Receivable (Schedule 6)	11,059	
Loans Receivable (Schedule 7)	11,545	
Other Assets	1,936	
Investment in Government Business Enterprises (Schedule 9)	23,572	**1,100**
	83,477	
Net Debt	(305,233)	**0**
Non-Financial Assets		
Tangible Capital Assets (Note 9)	102,536	
Accumulated Deficit	(202,697)	

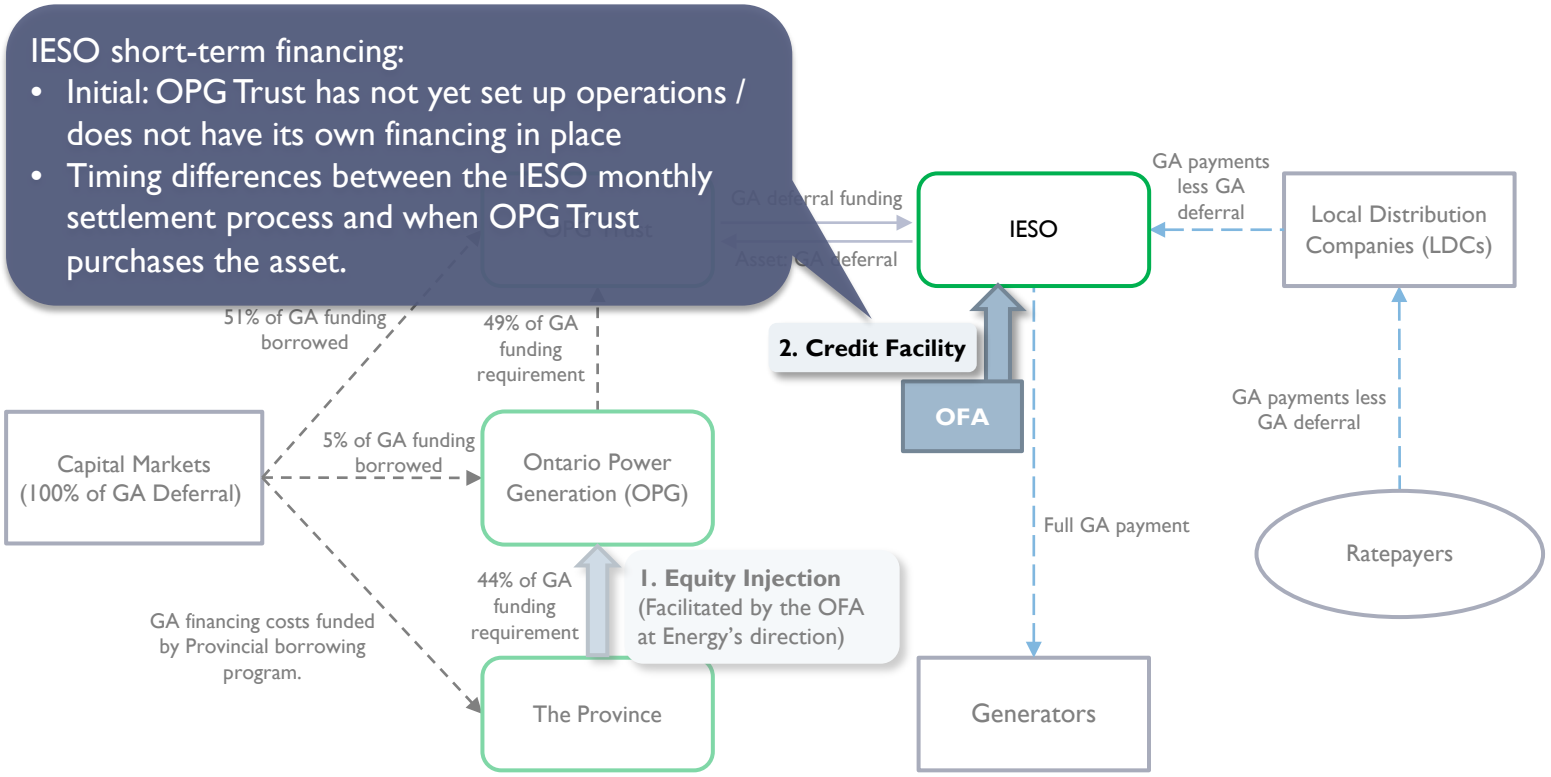
- Increased borrowing required to fund equity injections.
- Provincial debt will increase.

- Equity injections increase investment in OPG

- Offsetting impacts lead to zero net debt impact

OFA/IESO Credit Facility

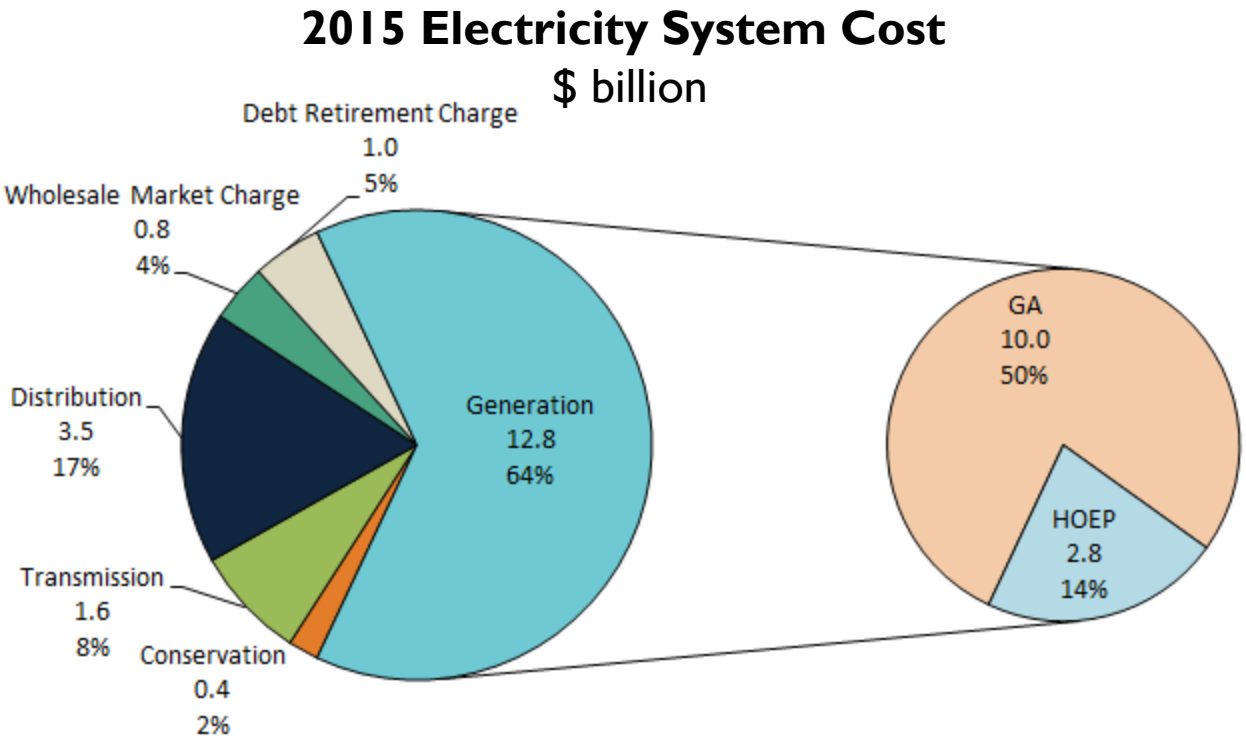
- The Fair Hydro Act, 2017 provides for the IESO to sell the right to recover those deferred amounts of the global adjustment from specified consumers in the future (the "regulatory asset").
- It is anticipated that the regulatory asset would be purchased by the financing entity to be established by OPG ("OPG Trust"). The cash received would be used by the IESO to fund the current Global Adjustment deferral shortfall.



Appendix: Background

Context: Ontario's Electricity Market

- In 2015, generation accounted for 64% of total electricity system costs. Total system costs in 2015 were $20 billion.



DEFINITIONS:

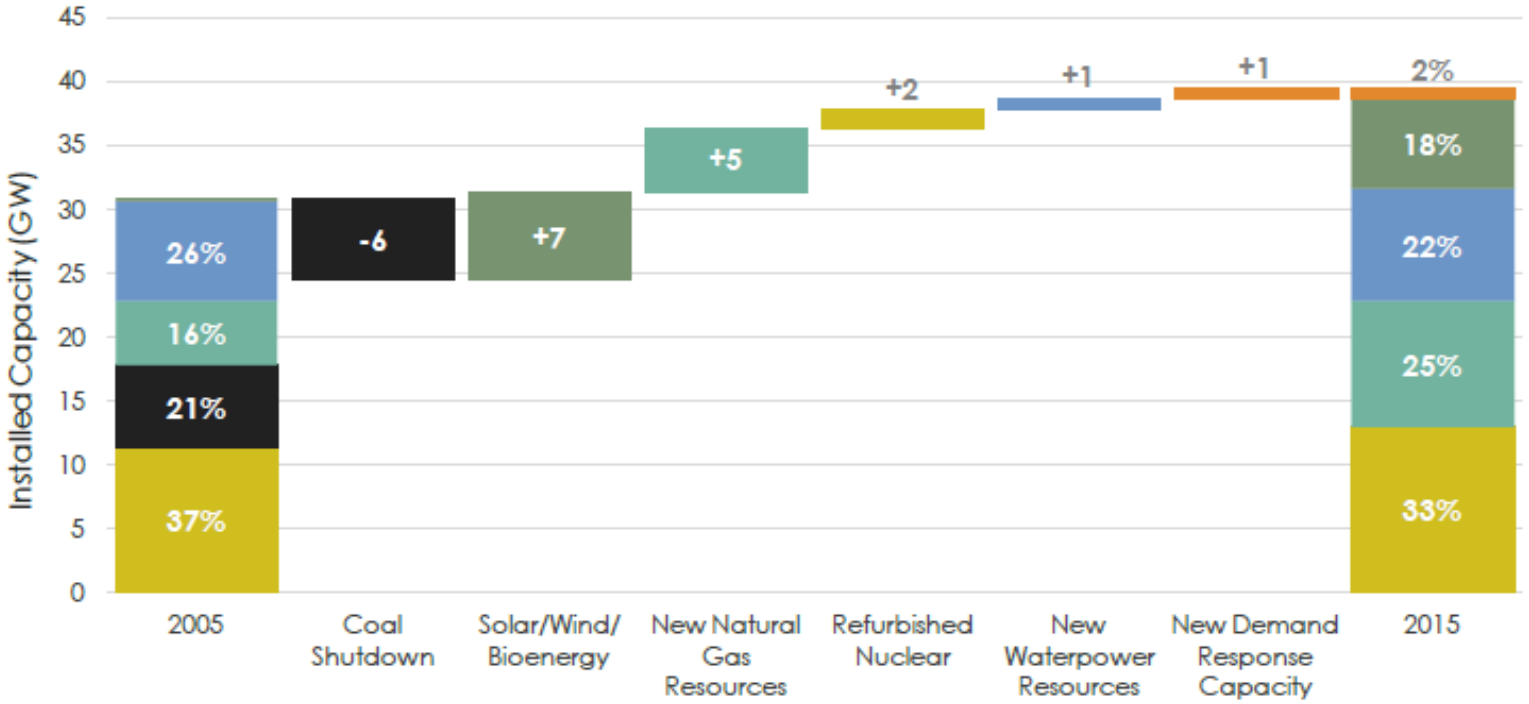
GA: The "Global Adjustment" accounts for differences between the market price of electricity and the rates paid to regulated and contracted generators and for conservations programs. The GA is collected from all electricity rates payers in Ontario

HOEP: Hourly Ontario Electricity Price.

Source: IESO

Context: Significant Change in Supply Mix

- Between 2005 and 2015, government invested more than $50 billion in the electricity system, including $35 billion in electricity generation to restore reliability, replace coal and meet environmental objectives.
  - Electricity costs are increasing as necessary investments are made to decarbonize and modernize the province's electricity infrastructure.



Source: IESO

Context: Electricity Prices Have Increased

- Since 2010, electricity prices have increased at a rate higher than the Consumer Price Index (CPI).

FYI, MO is asking CO that we add the Provincial Guarantee to our list of topics to cover with PO on the 16th.

We'll need to think about what a briefing product could look like and who would lead it. Perhaps this is something we could discuss at our RMI meeting this afternoon.

Subject: Re: Next Round Hydro Quebec

Good Morning:

Had wanted to update folks planning for our time on 16 August.

We have those two hours and am now proposing that we attempt to cover three separate topics (3 x ~ 40 mins each).

1. Hydro Quebec
2. OFHP / LTEP curve
3. NEW : OFHP "Provincial Guarantee"

Note : the Provincial Guarantee is a core requirement of the debt / borrowing platform that is required for the dealers and rating agencies to confirm a score for this product so that OPG trust can go to market this fall.

Gadi has been doing battle with dealers on this and we think that 16th would be an appropriate milestone to brief decision makers on the results. Forward planning, this would require a TB/MBC conversation and the overall goal for that would be to have that done when Cabinet is around that last week of August.

Anyway, if we can add this to the agenda to 16th, then we'd probably want to increase size of room to have a sort of mini-FPC so that MOF and TBS MO are participants.

I think that Hydro Quebec item will be quick based on where we are at with discussions and the LTEP curve we got really good directional thinking at yesterday afternoon's multicorners, so if we invited counterparts for 1.15pm then we should be okay, I wager / hope?

Hope this makes sense - let me know if this works for your end and then I'll make sure that I bring TBS and MOF (Ali and Jason) up the curve and ensure they are ready for 16th in advance.

Many thanks, in advance.

Good Morning:
Appreciate that we are not yet through tomorrow's multicorners discussions regarding Hydro Quebec, however to ensure continued coordination and to plan ahead for when senior PO staff have returned from various holidays, a "next date" has been provided to us via Bevan's calendar.

Wednesday 16 August @ noon - 1pm.

If CO would be so kind as to organize calendar invitation would be terrific.
Many thanks, in advance.

Good Afternoon:
Have confirmed next round Hydro Quebec briefing in Bevan's calendar works for 3-4pm on Friday 21 July (one week from right now).
IESO has advised that this is "pushing them" but will need to be made to work given senior PO calendar.
Asking CO to please find the location that suits and dispatch the outlook calendar invites, please.
Many thanks, in advance.

Subject: OFA Board orientation - March 28, 2017

Good afternoon everyone

Attached please find the agenda – along with the material you submitted for the presentation tomorrow (Ken I had already emailed your documents to you).

You'll note on the agenda that the Deputy is scheduled to arrive at the orientation at 3:00 p.m. to meet the new Board member. Hence the break in the presentation by Treasury/Risk/SCSD. However, we anticipate that the Deputy's time with the new Board member will be less than half-an-hour (although they asked for 30 mins). In any event, the Treasury/Risk/SCSD presentations will continue until the Deputy arrives, and continue after the Deputy leaves. CEFD will join the orientation when SCSD is done. I have already alerted Paul Potvin to the possibility of the orientation running late.

If the Deputy is not able to attend, I will let you know.

Thanks

Joan Dougherty

Capital Markets Division

March 2017

Ontario Financing Authority
www.ofina.on.ca

Mandate & Profile: Capital Markets Division

The Capital Markets Division develops and executes the Province's borrowing and debt management programs, invests funds for the Province and specific government entities, and provides investment, borrowing, debt and energy management services to the Ontario public sector. It is also responsible for investor relations, documentation and the Ontario Savings Bond program.

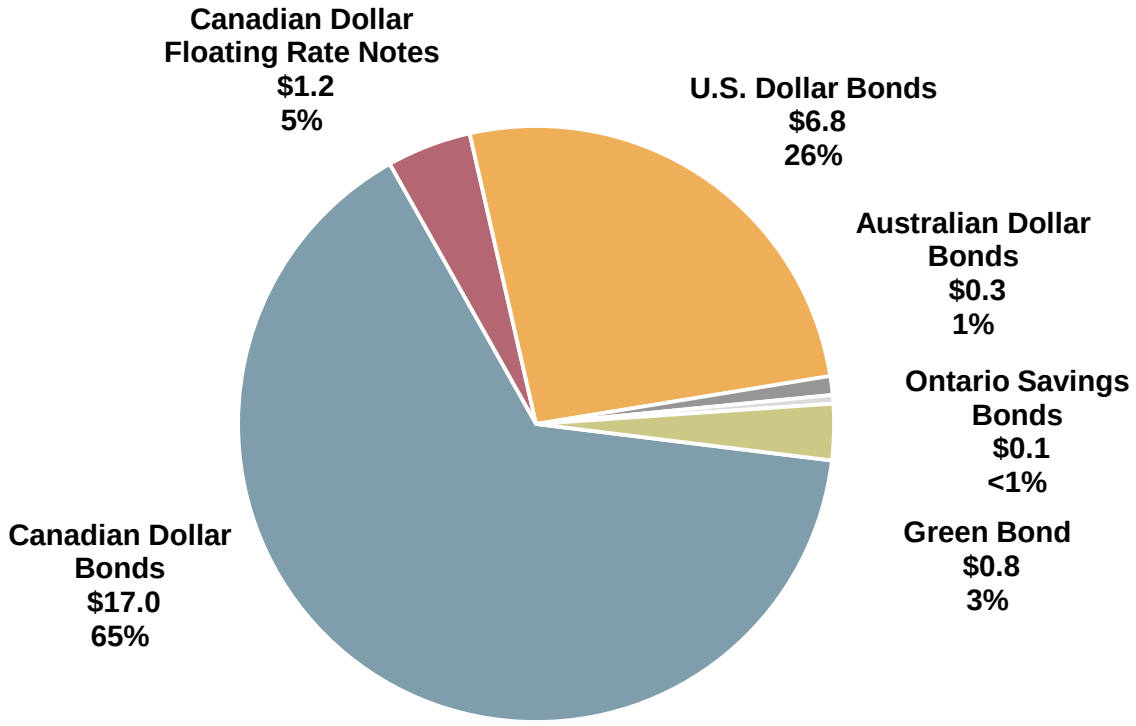
Specifically, the Capital Markets Division:

- Prudently manages debt outstanding of $327.4 billion (as at March 31, 2016), manages the liquid reserve portfolio and conducts financial risk management.
- The completed long term borrowing of $26.3 billion, including the $2.4 billion pre-borrowed for 2017–18, is 110.2 per cent of the borrowing outlook of $23.8 billion presented in the 2016 *Ontario Economic Outlook and Fiscal Review.*
- Advises on electricity and public sector financial policies.

Note: Numbers may not add due to rounding.

2016–17 Borrowing Completed: $26.3 Billion

As of March 22, 2017
($ Billions)



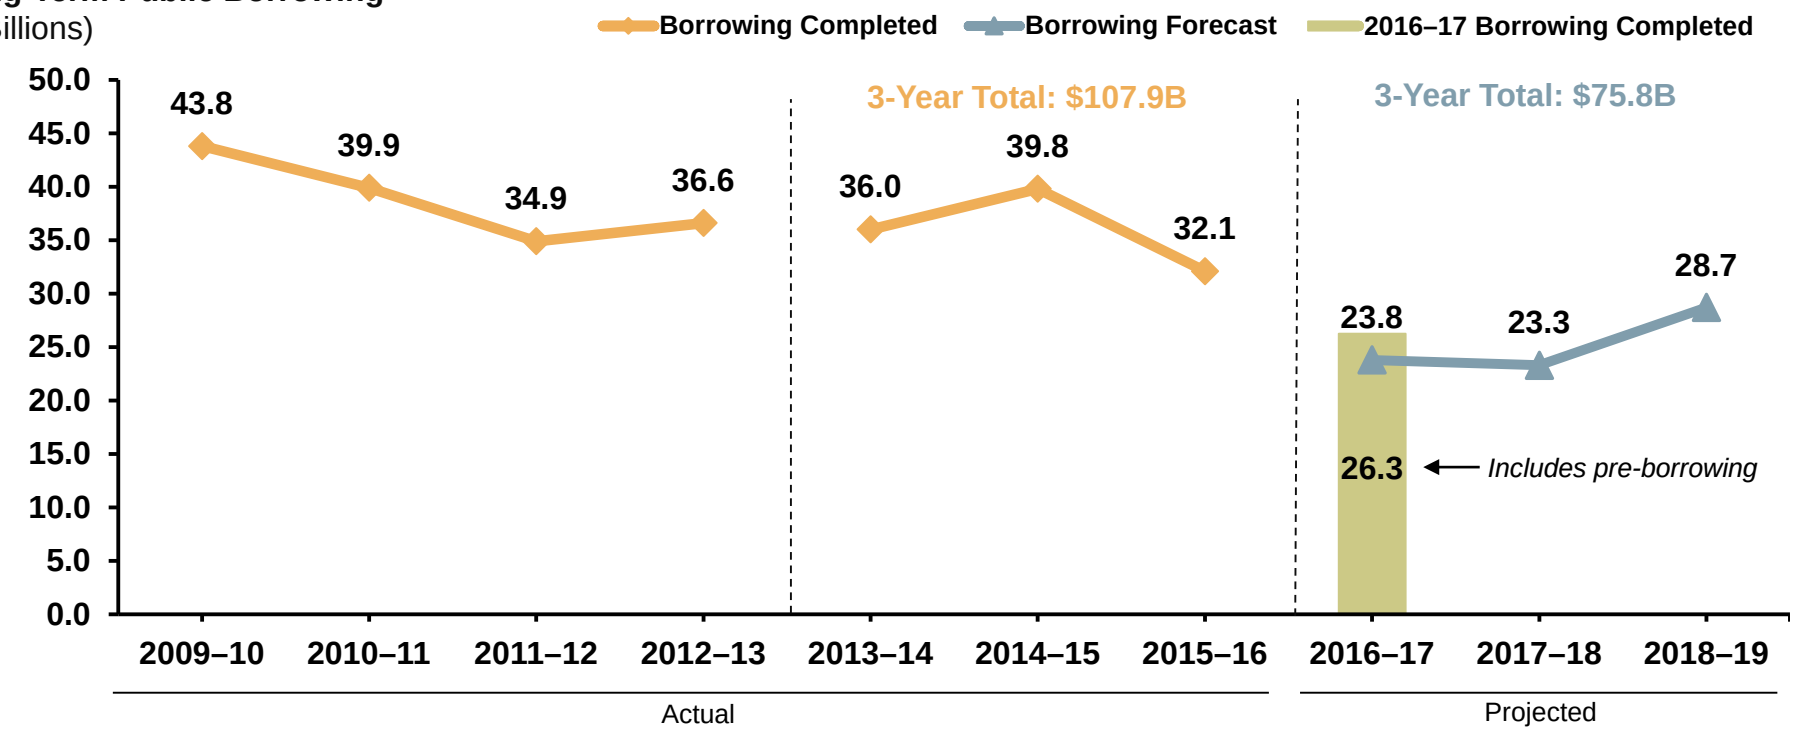
2016–17 Total Borrowing Requirement:	**$23.8B**
Borrowing Completed:	**$26.3B (110% Complete)**
Ahead/(Behind) Even Pace:	**14%**
Domestic:	**73%**
International:	**27%**
Average Term:	**14.0 years**

Note: Numbers may not add due to rounding.

Total Long-Term Public Borrowing

- As of 2016 *FES* the Province plans to borrow $75.8 billion over the next three-year period, down from the $107.9 billion borrowed over the previous three-year period. This $32.1 billion decline in borrowing reflects the impact of lower deficits (including the Province's asset optimization activities and plans), prefunding and term extension.

Long-Term Public Borrowing
($ Billions)



Foreign	51%	41%	19%	28%	18%	21%	19%	27%	-	-
Domestic	49%	59%	81%	72%	82%	79%	81%	73%	-	-
Weighted-Average Term (Years)	8.1	12.8	13.0	12.4	13.6	14.1	14.2	14.0	-	-

Source: Ontario Financing Authority. 2016–17 borrowing completed is as of March 22, 2017 and includes pre-borrowing of $2.4 billion for 2017-18.

Investment activities

- The OFA manages the Province's liquid reserve portfolio to optimize investment returns and to ensure that sufficient funds are available to meet cash requirements. The average level of unrestricted liquid reserves as of February 28, 2017, was $21.2 billion, net of collateral.

- The OFA also invests on behalf of certain public bodies to help increase their returns by streamlining investment processes and reducing investment costs. In 2016–17, the OFA continued to provide investment services to a number of agencies, boards, commissions and other public bodies, including Infrastructure Ontario, the Pension Benefits Guarantee Fund, Ontario Trillium Foundation, Ontario Capital Growth Corporation and the Deposit Insurance Corporation of Ontario. As of December 31, 2016, total funds managed were $2.1 billion.

- With Ontario Power Generation Inc., the OFA continued to manage the investment activities of OPG's Used Fuel Segregated Fund and the Decommissioning Segregated Fund established under the Ontario Nuclear Funds Agreement (ONFA). As of December 31, 2016, the combined market value of the funds were $19.4 billion compared to $17.9 billion at March 31, 2016 and $4.9 billion when the funds were formally established in 2003.

Investor Relations and Documentation

Investor Relations:

- Supports the Province's borrowing program by maintaining a dialogue with fixed income investors in key markets and expanding the Province's funding base by building relationships with new investors in existing or new markets.

Documentation:

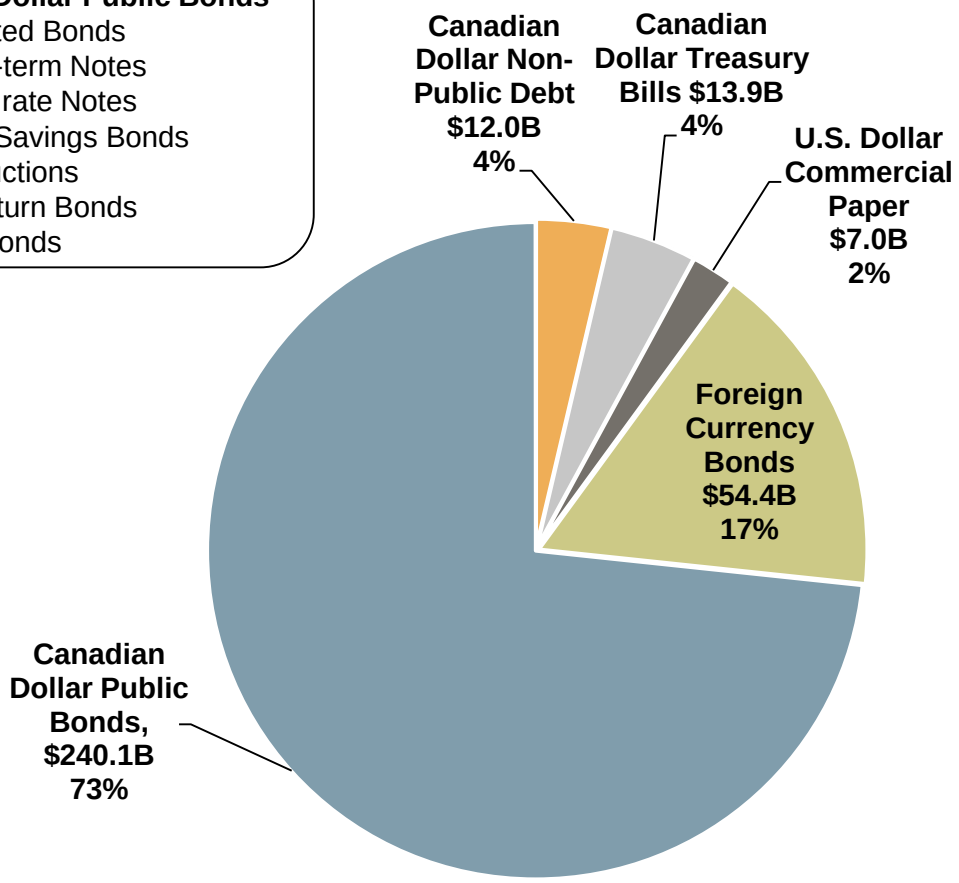
- Provides a wide range of documentation expertise on behalf of the Province, working very closely with Finance legal and outside counsel.

- Supports the borrowing program by:
  - ensuring that sufficient borrowing authority is available to execute the borrowing program.
  - negotiating and documenting all bond issues and derivatives agreements.
  - maintaining programs in the domestic and international markets (U.S., E.U., Australia).
  - ensuring that all ongoing international regulatory requirements are met.

Total Debt Composition

$327.4 Billion Outstanding
(as of March 31, 2016)

Canadian Dollar Public Bonds
- Syndicated Bonds
- Medium-term Notes
- Floating rate Notes
- Ontario Savings Bonds
- Bond Auctions
- Real Return Bonds
- Green Bonds



Debt Outstanding by Currency

Currency	Debt Outstanding
Canadian Dollar Public Debt	$254.0 B
Canadian Dollar Non-Public Debt	$12.0B
U.S. dollars	$45.4B
Euros	$12.3B
Swiss francs	$1.9B
Japanese yen	$0.5B
Australian dollars	$1.4B
South African rand	$0.01B

Note: Numbers may not add due to rounding.

Source: Ontario Financing Authority.

Debt Overview

Debt	Actual 2015–16	Projected 2016–17
Total Debt	$327.4 billion	$328.6 billion
Net Debt	$294.6 billion	$304.9 billion
Net Debt-to-GDP	38.6%	38.3%
Total Debt Statistics		
Percentage of Publicly Held Debt	96%	96%
Percentage of Publicly Held Debt Issued in Canadian Dollars	78%	80%
Effective Interest Rate (Weighted Average) on Total Debt	3.6%	3.6%

Risk Management

- Foreign exchange exposure of 0.2% of outstanding debt as of February 28, 2017. Policy limit is 5.0% of debt
- Floating rate exposure of 11.3% as of February 28, 2017 (i.e. net floating rate exposure plus debt maturing within one year). Policy limit is 35.0% of debt
- Monitor and manage debt maturity profile to limit refinancing risk
- High level of liquid reserves
- Strict credit limits for financial and investment counterparties
- Collateralized swap agreements in place for most swap counterparties
- Ontario treasury bills and U.S. commercial paper are very well received in the money markets and provide additional borrowing capacity if required

Corporate and Electricity Finance Division (CEFD)

March 2017

Corporate and Electricity Finance Division (CEFD)

- CEFD: Assistant Deputy Minister's Office
- CEFD, led by ADM and has four directors
- Four branches:
  - Corporate Finance
  - Electricity Finance
  - Strategic Investment and Finance
  - Strategic Project Finance

Role of CEFD

- CEFD'S mandate

  - Provide the Minister of Finance with financial analysis and advice on initiatives that may affect the Province's finances and its direct and indirect liabilities.

  - Support Ministry of Finance core activities including the Ontario Budget and Fall Economic Statement.

  - Provide financial advice and support to line ministries and agencies.

Major Files and Deliverables

1. Provide analysis and advice and review transactions and initiatives related to Government Assets and Investments
2. Provide analysis and advice on electricity sector initiatives
3. Provide support to Ontario Electricity Financial Corporation (OEFC)
4. Provide analysis and advice on the performance of Ontario Power Generation (OPG) and Hydro One and update Fiscal Plan
5. Implement the Ontario Nuclear Funds Agreement (ONFA)
6. Provide analysis and advice on nuclear supply initiatives
7. Administer the Aboriginal Loan Guarantee Program (ALGP)
8. Advise on business support programs
9. Provide financing to Public Bodies and advice on major government investment initiatives (such as Venture Capital investments)
10. Advise on the *Financial Administration Act* and Section 28 approvals

Government Assets and Investments

Budget 2014 announced that the government would look at ways to unlock value from its assets through operational improvements and revenue optimization, and through asset sales, including sale of the General Motors shares and real estate holdings such as the LCBO headquarters and OPG head office.

In April 2014, the Premier's Advisory Council on Government Assets was appointed to examine how to get the most out of key assets; i.e., OPG, Hydro One and LCBO, to generate better returns and revenues.

Following the Council's advice and as reported in April 2015, the government executed an initial-public-offering (IPO), supported by CEFD, to broaden the ownership of Hydro One in November 2015, selling approximately 16% of the shares.

Budget 2016 confirmed that the government is committed to continuing broadening Hydro One's ownership, up to 60% of total common shares.

In April 2016, an additional 14% of shares were sold through a secondary offering.

In Feb. 2017 the sale of Brampton LDC was completed.

Activities:

- Advise on value optimization strategies for gov't business enterprises (GBEs), including support to the Minister of Finance, including on implementation of the recommendations of the Premier's Advisory Council on Government Assets, and Ministry of Energy by providing analysis and advice.
  - The division had a leading role in the 2013/14 Asset Review done in collaboration with IO and McKinsey, that was followed by the appointment of the Advisory Council.
  - Supported the Ministry of Energy and the Premier's Advisory Council on the execution of the Hydro One IPO, and the spin-off of Brampton to become a wholly owned government business enterprises (GBE), prior to a planned sale.
  - Working with IO and other MOF divisions, provide lead support in the working group on real estate assets, to ensure that key real estate assets (e.g., LCBO and OPG HQs) are divested efficiently, and consistent with the fiscal plan.
- Lead implementation of the Trillium Trust and provide financial analysis and advice on the dedication of net revenues gains from designated asset sales to the Trust to support key investments infrastructure.
- CEFD led the process to patriate Ontario's GM shares from the federal agency, CDIC. Sale of the shares was completed in February 2015.
- Provide financial analysis and advice on asset transactions or transformations. Past examples include the 2010 licensing agreements with Teranet (and on-going implementation).

Provide Support to OEFC through Cashflow Modelling, Stranded Debt Defeasance, and NUG Oversight

OEFC is the legal successor to the old Ontario Hydro. Its mandate includes managing and retiring the debt and certain liabilities of the old Ontario Hydro, including

- "Stranded Debt"
- Legacy non-utility generator (NUG) contracts of the former Ontario Hydro

OEFC results are consolidated into the Province's Public Accounts.

OEFC is the counterparty to about 20 active power purchase agreements (PPAs or contracts with non-utility generators -- NUGs). About 90 were originally entered into by the former Ontario Hydro.

Activities:

- Provide modelling of OEFC long-term cash flows and project pay down of stranded debt and provide analysis and advice on OEFC.
- Provide regular updates on OEFC's projected results including impacts on OEFC of OPG and Hydro One financial projections.
- Provide analysis and advice on electricity sector initiatives that have an impact on the financial performance of OEFC and the projected retirement of stranded debt.
- Contribute to and support implementation of OEFC's annual business plan.
- Manage NUG contracts, including contract revisions, and provide strategic policy advice to OEFC Board on emergent issues with respect to NUG contracts.

Monitor Performance of OPG and Hydro One and Update Fiscal Plan

OPG is wholly-owned and Hydro One is about 70% owned by the Province.

OPG and Hydro One financial performances have a direct impact on the Province's finances through consolidation of their net incomes (proportional share in the case of Hydro One) as Provincial revenue, as well as payments in lieu (PILs) of corporate income and property taxes.

OPG's multi-year business plan and staff estimates for Hydro One multi-year financial projections form the basis for projections in the Ontario Budget.

The Ministry of Energy has been directed by Treasury Board to work with the Ministry of Finance and the Ontario Financing Authority to ensure timely and regular reporting of OPG's business plan and financial performance to the Ministries of Energy and Finance.

Activities:

- Provide regular updates to the Deputy & Minister of Finance and to OEFC on fiscal impacts of OPG and Hydro One financial performance, including analysis and regular updates on annual business plan & performance of both companies.
- Provide analysis and advice on electricity sector initiatives that have an impact on the financial performance of OPG, and Hydro One and have a fiscal impact on the Province.
- Provide analysis and advice on OPG and Hydro One impacts on electricity prices, consumers, and price mitigation including companies' rate application submissions to the OEB.
- Monitor and provide financial analysis and advice on regulatory processes affecting regulated rates for OPG and Hydro One.
- Provide financial analysis and advice on OPG liquidity, borrowing requirements and debt service to OEFC.

Implement the Ontario Nuclear Funds Agreement

The Ontario Nuclear Funds Agreement (ONFA) is an agreement between the Province and OPG.

Under ONFA, OPG was required to establish two Segregated Funds to pay the costs of decommissioning nuclear stations and disposing of used nuclear fuel. Fair market value of ONFA funds was about $19.4 billion as at De. 31, 2016 -- $8.3 billion in the Decommissioning Segregated Fund (DSF) and about $11.1 billion in the Used Fuel Segregated Fund (UFSF), before consideration for amounts due to the Province.

The Province guarantees the UFSF rate of return at 3.25 per cent per year, plus the rate of change in Ontario C.P.I., on a cumulative basis, for the first 2.23 million used fuel bundles.

OPG bears all risk and liability for cost and liability estimate increases for the DSF, as well as the rate of return on the DSF.

The Province also provides a Provincial Guarantee to the Canadian Nuclear Safety Commission (CNSC). Current Provincial Guarantee covers the 2013-17 period and is for $1,551 million.

Activities:

- Conduct due diligence on OPG's proposed Annual ONFA Budget for spending from the ONFA funds on, e.g.,
  - Funding OPG share of Adaptive Phased Management (APM) for used fuel
  - Funding the intermediate and low level waste (I&LLW) deep geological repository (DGR) at Kincardine
  - Maintaining Pickering Units 2 & 3 in a safe storage state
- Provide analysis and advice to the Minister of Finance as part of due diligence on OPG's proposed updates to the ONFA Reference Plan for cost and liability estimates for station decommissioning and long-term L&ILW and used fuel management and disposal cost estimates, to be approved by the Minister.
- Conduct due diligence and provide analysis and advice on OPG's proposed payment schedules into the ONFA funds, submitted for approval to the Minister of Finance.
- Conduct due diligence and advice on the Provincial Guarantee to the CNSC, reported as a contingent liability in Public Accounts.

Support Initiatives on Electricity Price Mitigation

The Division supports the government and Ministry of Finance through analysis and advice on price mitigation options and supports implementation, such as for the following:

Ontario Fair Hydro Plan (FHP):

- The government has proposed to lower electricity bills by 25 per cent on average for all residential customers. Many small businesses and farms will also benefit from this. In addition, there is targeted relief for, e.g., eligible rural, remote, low income and First Nations.

Debt Retirement Charge (DRC):

- The government has removed the DRC cost from residential users' electricity bills effective January 1, 2016. The DRC would remain on all other electricity users' bills until March 31, 2018.
- DRC helps service and pay down the debt & other liabilities of OEFC.

Industrial Electricity Incentive (IEI) program:

- The IEI program provides electricity-based price adjustments, including a rebate of the DRC cost, to participating companies for eligible incremental electricity consumption.

Northern Industrial Electricity Rate Program (NIER):

- NIER program provides electricity price rebates of 2 cents/kWh to qualifying northern industrials.
- The government is committed to ongoing funding of up to $120 million per year for northern industries.

Activities:

Examples:

- Provide advice and analysis on the FHP initiative and its fiscal impact to the Province.
- Provide advice and analysis to support implementation of the DRC initiatives, and continue to provide modelling of OEFC long-term cash flows.
- Forecast impacts from the IEI program.
- Participate in inter-ministry working group consisting of MNDM, MNR, Energy and OFA to explore electricity pricing options for northern industrials after the extended NIER program expires.
- Supported implementation of and provided policy analysis and advice on OCEB.

Support Nuclear Supply Initiatives

As part of the 2013 Long-Term Energy Plan (LTEP) the government indicated nuclear generation will continue to be the backbone of Ontario's electricity supply and for that will proceed with the refurbishment of the Darlington and Bruce sites.

- Refurbishment activity is expected to start in 2016 and planning and preparation work is underway.
- Darlington would see 4 reactors refurbished over 2016-2026.
- Bruce would see 6 reactors refurbished over 2021-2033.
- Nuclear refurbishment will follow seven principles established by the government, including minimizing commercial risk to the government and the ratepayer.

Activities:

- Monitor, analyze and advise on financing, regulatory processes, and fiscal impacts of OPG's Darlington refurbishment project and/or of changes introduced to the Bruce Power Lease Agreement.
- Arrange financing for OPG through OEFC, if needed, for the Darlington refurbishment project.
- Monitored the IESO's commercial discussions with Bruce Power for the refurbishment of Bruce A&B reactors.
  - CEFD staff supported the Ministry of Energy/IESO in commercial discussions with Bruce Power for refurbishment and/or asset management of up to 6 units (Units 3-8) at the Bruce Site
  - Reviewed Bruce Power and OPA/IESO financial models to support Ministry of Energy's financial due diligence process.
- Previously, also supported the new nuclear initiative.

Administer the Aboriginal Loan Guarantee Program

Ontario's Budget 2009 announced a $250 million loan guarantee program to support Aboriginal participation in renewable electricity and transmission infrastructure projects. The program was expanded by $150 million by Treasury Board on June 14, 2012, for a total of $400 million. The 2014 Budget announced a further expansion of the program envelope to $650 million.

The Aboriginal Loan Guarantee Program (ALGP) provides Aboriginal communities with access to capital. Eligible projects must meet a number of requirements:

- PPA in place or eligibility for a regulated rate
- Provincial due diligence process
- All required regulatory approvals

Eight guarantees have been approved to-date and nine other applications are under review.

Activities:

- Meet with individual First Nation communities to discuss the program and potential project proposals, as requested.
- Participate in stakeholder information sessions, as required.
- Direct analysis provided by external third-party due diligence advisors and prepare internal due diligence and analysis of any proposals put forward and monitor and administer approved guarantees.
- Participate in negotiations with lenders and project proponents.
- Liaise with other ministries regarding status of projects and to identify any contentious issues.
- Propose appropriate terms and conditions for loan guarantees and work with MOF Legal to draft required legal documents.
- Seek Cabinet and Ministerial approval for loan guarantees.
- Following completion of required due diligence, seek the following required approvals:
  1. Minister's approval of conditional offer letter and seek OIC
  2. OIC to authorize the Minister to enter into final loan guarantee agreement.
  3. Minister's approval of final loan guarantee agreement once required conditions have been met and required documentation is in place.

Advise on Business Support Programs

Provide analysis and advice on various business support proposals as they arise.

As part of Budget 2012, the Province announced a new Jobs and Prosperity Fund (JPF) that will consolidate many existing business support programs. Budget 2013 announced that a panel will be established to support implementation of the fund.

Budget 2014 announced that a $2.5 billion fund would be created targeting growing sectors, such as advanced manufacturing, agri-food and agri-products, and information and communications technology (ICT), and Budget 2015 announced increased funding of $200 million, with an extension of eligibility to the forestry sector.

The Province continues to explore opportunities with companies that are interested in making large-scale investments in Ontario.

Activities:

- Provide advice and due diligence on proposed government business supports or transactions (examples of recent files are provided below)
- JPF
  - Staff provide ongoing support for the participation of the OFA's CEO on a committee under the JPF, including assessing applications.
- Venture Capital
  - Staff advice on the $300 million Canada/Ontario venture capital fund, new OCGC mandate review currently underway.
- Cap & Trade
  - Staff advise Ministry of Environment and Climate Change on the sale and auction process of Ontario carbon credits, and on proper controls to be put in place on the future receipt of billions of dollars in public proceeds.
  - Staff advising Ministry of Environment and Climate Change on financing programs to be offered by new agency, Green ON Fund.
- Ring of Fire:
  - Staff participated in the electricity working group to provide advice and monitor fiscal risks that could arise from electricity rate incentives being requested by investors.
- Industrial Electricity Incentive
  - Staff assists the Independent Electricity System Operator with implementation of this demand management program.
- Forestry
  - Staff continue to administer a number of loans and loan guarantees made to forestry companies, working with MNRF.

Provide Financing To Public Bodies

A number of public bodies are consolidated on the Province's financial statements, including school boards, colleges, hospitals, and corporations, boards, and commissions.

Established a framework to govern the financing of these public bodies.

Under this framework, the Province, through the OFA, will provide long-term financing to consolidated public bodies, leaving the administratively intensive short-term and construction financing to financial institutions.

Activities:

- Perform due diligence and analysis, and develop the structure and negotiate the detailed terms and conditions of any loans.
- As at March 22, 2017, the OFA had provided a total of approximately $6.0 billion in loans to consolidated public bodies, including
  - $5.5 billion to school boards;
  - $321.7 million to colleges;
  - $192.2 million to corporations, boards and commissions, such as the Royal Ontario Museum and Ontario and Lottery Gaming; and
  - $15.4 million to other public bodies that are not consolidated with the Province, including one university and one municipality.
  - Interest savings on these loans are estimated at approximately $30 million annually.
- Negotiated and executed a Ministry of Finance loan facility of up to $400 million to fund the set-up costs of the new Ontario Registered Retirement Pension Plan Administration Corporation. Remission of the outstanding amount following the wind-down of the Corporation effective September 15, 2016.

Advise on Financial Administration Act (FAA) Approvals

The *Financial Administration Act* (FAA) sets out the duties and powers of Treasury Board and the Minister of Finance and governs the disbursement of public money, financial management/control and public debt/liabilities.

Advise the Minister of Finance on projects and initiatives that require approval pursuant to sections 22 and 28 of the FAA for financial arrangements that increase the Province's debt or contingent liabilities.

Sec 28: A ministry or public entity shall not enter into any financial arrangement, financial commitment, guarantee, indemnity or similar transaction that would increase, directly or indirectly, the indebtedness or contingent liabilities of Ontario without the written approval of the Minister of Finance.

Sec 22: The Lieutenant Governor in Council may by order authorize the Minister of Finance, on behalf of Ontario, to agree to guarantee or indemnify the debts, obligations, securities or undertakings of any person.

Activities:

- Case by case analysis on requests for loans and guarantees and other financing arrangements that include indemnities or other contingent liabilities.
- Negotiate the detailed terms and conditions of any loans to be guaranteed with financial institutions to minimize costs for the borrower and best meet market expectations.
- Review one of a kind proposals, and provide advice to ADM, Deputy Minister, Minister, and Cabinet.
- Review ministry and agency financing requests under section 28 of the FAA, conducting business case analysis and providing a recommendation to the Minister of Finance.
- Current projects include proposed regulations under section 28 of the FAA to provide class exemptions.
- A protocol has been developed on s.28 approvals that clearly defines respective responsibilities of MOF/OFA and TBS.

Date:	Friday, August 25, 2017 10:19:50 AM
Attachments:	Draft Subordianted Debt Term Sheet.doc FHPA Regulations - Fees.docx

Hi Kaitlin,
Yes, there is still some work to be done on the Sub-Debt.
The OFA has not seen any revised documents from OPG. With Attached is the email from Ken Kandeepan to Sheen Liu at OPG on July 31 that dealt only with the Sub-Debt and Performance Fees with one major change and some other recommendations, Ken did clarify with Sheen that the OFA could not comment on the fix fee.
The main point is that it should be between OPG, Fair Hydro Trust and the Ministry of Energy.
Regards
Carlos

Subject: OFA Feedback re Fair Hydro Plan

Ken,
Thanks for providing your concurrence in the Trust's approach to performance benchmarking. In order to move forward with completing all Fair Hydro Plan related legal documents, could you please also confirm your agreement to the methodology/process as illustrated in the other two documents provided to you in the past (both attached above for your reference)? Specifically, we would appreciate your confirmation re the following items:

1. Fee Structure, including both fixed and variable fees (as described in FHPA Regulations – Fees.docx)
2. The process of (a) taking out subordinated loan from OFA; and (b) establishing relevant pricing (as described in Draft subordinated Debt Term Sheet.doc)

If you have other outstanding comments relating to Fair Hydro Plan, please also let us know so that we could incorporate them before finalizing the structure and legal documents.

Your timely response will be appreciated.
Regards
Sheen

Subject: EY concurrence re: Draft Trust Performance Fee Recommendations
Hi Ken,
My name is May Lapira and I'm the newest addition to the Treasury team. Jenny has been working hard to get me updated on the accounting aspects of the Fair Hydro Plan so we can transition future correspondences over to me.
Per our discussion during the call earlier today, we have reached out to EY to obtain concurrence on our interpretation of their accounting position. Please see attached the email trail from EY's senior manager Brittany Keenan confirming that excluding the equity injection component from the definition of a 'benchmark bond' would result in non-commercial terms and could ultimately result in OPG not being able to consolidate the financing entity.
Please let me know if you have any follow up questions on this matter.
I look forward to working with you,
May

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, ~~OFA~~, Ministry of Energy

- In accordance with the Master Subscription Agreement among OPG, ~~OFA~~ and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

Commented [KK1]: The OFA is not part of the master subscription agreement and hence should be removed.

Commented [KK2]: OPG can simplify (only set rates once) and reduce financing risk (there is no certainty as to the timing or term structure of the senior debt issuance) of the suggested process by terming out the subordinated debt at the time of each monthly equity injection from the Province

TORYS/OPG COMMENTS: JUNE 22, 2017

Fees, subs. 19 (3) of the Act

(x.1) For the purposes of this section, "incremental annual funding obligation" means the aggregate of all funding obligations issued by all financing entities in a calendar year.

10xx. (1) For the purposes of subsection 19 (3) of the Act, the Financial Services Manager may establish and charge fees to financing entities in relation to the following matters:

1. The services provided by the Financial Services Manager to financing entities, which may include services related to planning, financing, negotiation and execution of agreements, the payment of costs and expenses on behalf of a financing entity, front office services and administrative services.

2. The costs of doing anything that the Financial Services Manager is required or permitted to do under the Act.

(2) The fees mentioned in subsection (1) shall be established annually and shall be comprised of a fixed fee and a variable fee based on performance.

(x.2) The fixed fee referred to in (2) shall be payable monthly and calculated as follows:

$$(A \times B) / 12$$

Where,

A = a percentage, expressed as a per annum rate, based on market comparable fees determined by the Financial Services Manager charged by service providers for similar services, and

B = the average of the opening and closing balances of the aggregate principal amount of outstanding funding obligations issued by all financing entities in the previous calendar month.

(x.3) The variable fee referred to in (2) shall be calculated as the sum of the amounts calculated, using the following formula, for all tranches of funding obligations issued by all financing entities in the relevant year:

$$(A \times (B - C)) \times D$$

Where,

A = the principal amount of the applicable tranche of net incremental annual funding obligations,

B = the forecast interest rate for the applicable tranche of incremental annual funding obligations, as determined by the Financial Services Manager on or before the end of the calendar year prior to the calendar year in which the fee is being determined and based on the term of the applicable tranche of incremental annual funding obligations,

C = the actual interest rate for the applicable tranche of incremental annual funding obligations,

D = 5%

(3) The variable fee payable for any calendar year shall not be:

1. more than 1% of (D × the incremental annual funding obligations), or

2. less than -1% of (D × the incremental annual funding obligations).

(3.x) If the variable fee is a negative amount, such amount shall be deducted from the fixed fee payable in the following calendar year in twelve equal monthly instalments.

Board approval of fees, subs. 19 (4) of the Act

11xx. (1) The Financial Services Manager shall submit its proposed fees, together with the methodology used for determining its proposed fees, to the Board for approval no later than August 31, 2017. ***[NTD: Need to determine how to deal with the 1st fee. Understand that OPG is proposing a fixed fee for this year. OPG: There will not be a variable fee for the 1st year.]***

(2) The Board may approve the fees proposed under (1) and the methodology used to determine those fees or it may refer the proposal back to the Financial Services Manager for further consideration with the Board's recommendations.

(3) The Financial Services Manager may from time to time, but not more than once in any 12 month period, submit proposed amendments to the approved methodology for determining fees, together with its proposed fees based on such proposed amendments, to the Board and the Board may approve the proposed amendments and the proposed fees or may refer the proposal back to the Financial Services Manager for further consideration with the Board's recommendations.

Commented [A1]: Pls note that as it stands it appears to include all of the borrowings in any given year which is both new borrowings and refinancing maturities. Including the word "net" ensures that the performance fee is limited to new borrwoings only.

(4) If the Financial Services Manager submits proposed amendments to its approved methodology for determining fees, the proposed amendments together with the proposed fees based on such proposed amendments shall be submitted to the Board for approval no later than 120 days before the Financial Services Manager intends for the fees, determined on the basis of the amended methodology, to commence being charged.

(5) Section 10 applies with such modifications as the context may require to any application by the Financial Services Manager for approval to amend the approved methodology for determining fees and for approval of the resulting fees.

(6) The Financial Services Manager may annually establish and charge fees to financing entities in accordance with the methodology approved by the Board under (2) or (3), as applicable, and such fees shall be deemed to have been approved by the Board for purposes of subsection 19(4) of the Act provided that, in each year where the Financial Services Manager establishes and charges fees that are deemed to have been approved under this subsection, the Financial Services Manager shall submit to the Board, for information purposes, a report setting out the fees that have been established for the year and demonstrating that the approved methodology has been appropriately applied.

(7) When the Financial Services Manager submits its proposed fees and methodology under (1), or its proposed amendments to the approved methodology and resulting proposed fees under (3), the Financial Services Manager shall provide the Board with the following:

1. The methodology that the Financial Services Manager has used to calculate its fixed and variable fees.

2. The methodology that the Financial Services Manager has used to benchmark the market comparable fees charged by service providers for similar services.

3. The identity of the financing entities that are liable to pay the proposed fees.

4. Such other information as the Board may require.

(x.1) Fees established by the Financial Services Manager and approved by the Board shall be included in the definition of “expenses” for the purposes of determining finance amounts under the Act.

$$(A \times (B - C)) \times D$$

Where,

A = the principal amount of the applicable tranche of incremental annual funding obligations,

B = the forecast interest rate for the applicable tranche of incremental annual funding obligations, as determined by the Financial Services Manager on or before the end of the calendar year prior to the calendar year in which the fee is being determined and based on the term of the applicable tranche of incremental annual funding obligations,

C = the actual interest rate for the applicable tranche of incremental annual funding obligations,

D = 5%

(3) The variable fee payable for any calendar year shall not be:

1. more than 1% of (D × the incremental annual funding obligations), or

2. less than -1% of (D × the incremental annual funding obligations).

(3.x) If the variable fee is a negative amount, such amount shall be deducted from the fixed fee payable in the following calendar year in twelve equal monthly instalments.

Board approval of fees, subs. 19 (4) of the Act

11xx. (1) The Financial Services Manager shall submit its proposed fees, together with the methodology used for determining its proposed fees, to the Board for approval no later than August 31, 2017. ***[NTD: Need to determine how to deal with the 1st fee. Understand that OPG is proposing a fixed fee for this year. OPG: There will not be a variable fee for the 1st year.]***

(2) The Board may approve the fees proposed under (1) and the methodology used to determine those fees or it may refer the proposal back to the Financial Services Manager for further consideration with the Board's recommendations.

(3) The Financial Services Manager may from time to time, but not more than once in any 12 month period, submit proposed amendments to the approved methodology for determining fees, together with its proposed fees based on such proposed amendments, to the Board and the Board may approve the proposed amendments and the proposed fees or may refer the proposal back to the Financial Services Manager for further consideration with the Board's recommendations.

(4) If the Financial Services Manager submits proposed amendments to its approved methodology for determining fees, the proposed amendments together with the proposed fees based on such proposed amendments shall be submitted to the Board for approval no later than 120 days before the Financial Services Manager intends for the fees, determined on the basis of the amended methodology, to commence being charged.

(5) Section 10 applies with such modifications as the context may require to any application by the Financial Services Manager for approval to amend the approved methodology for determining fees and for approval of the resulting fees.

(6) The Financial Services Manager may annually establish and charge fees to financing entities in accordance with the methodology approved by the Board under (2) or (3), as applicable, and such fees shall be deemed to have been approved by the Board for purposes of subsection 19(4) of the Act provided that, in each year where the Financial Services Manager establishes and charges fees that are deemed to have been approved under this subsection, the Financial Services Manager shall submit to the Board, for information purposes, a report setting out the fees that have been established for the year and demonstrating that the approved methodology has been appropriately applied.

(7) When the Financial Services Manager submits its proposed fees and methodology under (1), or its proposed amendments to the approved methodology and resulting proposed fees under (3), the Financial Services Manager shall provide the Board with the following:

1. The methodology that the Financial Services Manager has used to calculate its fixed and variable fees.

2. The methodology that the Financial Services Manager has used to benchmark the market comparable fees charged by service providers for similar services.

3. The identity of the financing entities that are liable to pay the proposed fees.

4. Such other information as the Board may require.

(x.1) Fees established by the Financial Services Manager and approved by the Board shall be included in the definition of “expenses” for the purposes of determining finance amounts under the Act.

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

Subject: FW: OFHP - Business Issue next steps

Hello –

My strong preference and recommendation is that the OFA not be a party to the Subscription Agreement and that its role as cash flow facilitator/service provider along with a clear delineation of the authorities under which the OFA is acting be established in a separate MOU with Energy (e.g. the term sheet contemplates that a completed/signed subscription form will be provided to OPG from the OFA, is the OFA receiving the subscription form from Energy or is it anticipated that OFA will be executing the form on behalf of Energy? If so, what is the source of the authority for Energy to sign and how is it anticipated that MOE's authority will be delegated to the OFA? The term sheet provides that OFA will receive a share certificate confirming issuance of shares/update of share register sent to OFA and Energy. Why is the OFA receiving this? Is it anticipated that the OFA will have some on-going responsibility/role in respect of the shares/due diligence in ensuring that the shares are issued in exchange for the funds or maintaining records in respect of these transactions beyond flowing the "equity injection" and receiving a receipt?).

I think the arrangement and documentation needs to be clear that OFA is not providing services to OPG as a function of this arrangement (and OPG is not a public body, so OFA cannot provide services to OPG).

If there is a desire for OPG to be aware of the obligations and procedures established in arrangement between the OFA and Energy, the MOU can be attached as a schedule to the Subscription Agreement and the Ministry of Energy can undertake in the Subscription Agreement not to change or amend the MOU without prior written notice to OPG.

Happy to discuss further if there is more context/detail as to what the OFA's role is that I am not aware of beyond the term sheet.

Thanks very much,

Sarah

Subject: RE: OFHP - Business Issue next steps

It's based on a high-level term sheet that the policy areas were comfortable with (attached), though this wasn't ever formally approved or moved up the chain it was more just to get staff aligned so not locked into anything by any means.

I have not seen the Master Sale and Servicing Agreement - I have heard it mentioned a couple times through so suspect ENE legal would have a copy.

I think the purpose of having OFA be a direct party is to make sure OPG, OFA and ENE are all fully aware of each of their roles and to formalise the authority for OPG to deal directly with the OFA on the item. The high-level idea is that while ENE will be responsible for getting the annual appropriations, there is no monthly approval process/role for ENE. ENE will be one of the parties to receive notice, but it makes sense for the Subscription notice to go directly to OFA so ENE isn't a middle man adding time pressure. I was hopeful that this agreement could act as sort of a delegation of authority to some extent.

I agree the SLA is duplicative in this regard - my preference would be to scrap the SLA and just have the master agreement if it can accomplish the above intention, but if there is a preference to have a separate SLA and make the Master agreement just between OPG and ENE then happy to proceed on that basis.

Happy to discuss,

Kaitlin

Hi John,

Both OFA Legal and I have reviewed the subscription agreement on a preliminary basis. Why has the OFA been made a direct party to the agreement as it seems that the OFA has a "service" type function here which could be accommodated by a service level agreement between the Ministry Energy and the OFA.

Do you know who prepared this draft and is it based on a term sheet or another document that sets out what the roles of the various parties in this would be.

Thank you.
Malle

Subject: RE: OFHP - Business Issue next steps

Hi John,
Since OFA is directly being made a party to the subscription agreement, we should also get OFA legal's input so I will send this to Sarah Neville for her review too if that's ok. As well I would like to discuss the northern service level agreement with them and whether there are other situations where the OFA acts as an agent to make payments out of the CRF. I agree that some type of service level agreement would
I notice that the subscription agreement mentions that the first equity injection/share subscription will occur August 2017. Is this a realistic timeframe?
The commitments in section 1 seem very broad and open-ended – The Minister of Energy commits to fund up to 44% of the total financing required by the Fair Hydro Trust, to acquire Assets from the IESO under the Act and Regulations by way of equity subscription in OPG.
The Master Sale and Servicing Agreement is in square brackets. Is a draft copy of this agreement available for review?
Also not sure what the purpose of s. 3.4 is and whether the Minister of Energy can agree to this process. I note that there is a note to draft there already.
Tom McKinlay of Energy Legal is also reviewing this draft and called to discuss it with me.
Thanks.

Hi Toby,
Just wanted to get something going with an introductory email and to provide you with some context.
Pls. take a look at the Fair Hydro Master Subscription Agreement and the way the equity injection mechanism is envisioned, the operational set up with be under some sort of a service level agreement between Energy and OFA to facilitate the proposed monthly equity injection.
I have a type of service level agreement or MOU in this instance for the Northern Industrial Electricity Rate program as attached. We are hoping something similar could be put in place between Energy and the OFA for this purpose. (The MOU had been drafted by OFA Legal a few years ago when NIER first came into place and have been revised a few times since)
Happy to discuss.
Thanks,
John

Thanks Ken – Are you aware how the potential timing issue with appropriations is handled on the

credit side? OPG seemed to think that the OFA had some process in place so that even though only 1 year of appropriations is approved at a time there is always coverage post March 31, 2017 in the event the budget is delayed but OPG needs to borrow. I was just hoping to incorporate something similar on the ENE side so that we don't run into any issues.
OPG provided a draft Master Subscription Agreement based on the term sheet. I will run this by legal as well but please feel free to provide comments/edits.

Hi Kaitlin
My apologies for the delay in responding, just going through my emails from last week, I am ok with the term sheet, you had however, raised a comment re the appropriations. Note that since the OFA will simply be a service provided in this arrangement, i.e.,
We will not be able to provide cash management services including the transfer of the funds from the Province to OPG for the equity injection until the appropriations are approved.
Thanks
Ken k

Hi all – just following up on the equity injection term sheet. I'm going to send this to ENE legal now so that they can start to digest given that the next step will be preparation of the Master Subscription Agreement. I'm assuming there aren't any major concerns but if there are items you'd like to modify if you could pass those along this week I'd appreciate it. Please note that there is a question embedded in the document regarding appropriations that I'm hoping one of you will have insight on.
At the meeting with OPG a few weeks back you had mentioned that there would likely need to be some sort of Service Level Agreement between OFA and ENE – is there a similar agreement you already have in place that we could work from?
Thanks,
Kaitlin

Subject: OFHP - Business Issue next steps
Hi everyone,
As a follow up to today's meeting there are a couple items I think can move forward at this point.

1. Equity Injection Mechanics (draft term sheet attached)
    a. If comfortable, OPG would draft Master Subscription agreement, OFA/ENE would develop service level agreement for cash management services and ENE legal would

move forward with amendment to OPG articles to facilitate new class of shares

2. Performance Fee Recommendation (OPG recommended approach attached)
    a. If comfortable, OPG would assist ENE in developing regulation language

My proposed next steps, subject to your agreement, would be to share these documents with ENE legal today and then table them at a Thursday morning meeting with ENE DMO/MO (along with an updated "business issues" note, which I'll send around for everyone's input in the next day or so). After that meeting I would send the same materials /update to MOF DMO along with any new updates received at that meeting.

Could you please confirm you have no further comments and that you agree with this approach and also that there's no other materials/terms that you think need to move up through approvals at this point in time?

Thanks in advance,

Kaitlin

Fair Hydro Plan –Master Subscription Agreement
Term Sheet

- Parties: OPG, OFA, Ministry of Energy
- The Province agrees to inject 44% of total funding of GA asset by way of equity subscription in OPG, which amount OPG in turn will invest in the Fair Hydro Trust as subordinated debt (**Equity Injection Plan**)
- Minister of Energy/Province approves Equity Injection Plan, and initial equity injection amount for 2017/18 fiscal year, and delegates to appropriate ministry staff authority to implement Equity Injection Plan (**Delegated Authority**)
- Long term, OPG equity requirements will form part of the business planning process in place between OPG and Ministry of Energy, ie, annually OPG to include forecasts of its equity requirements for the upcoming 3 years in its business plan submission -- NOTE: this portion of the business plan is not subject to concurrence by the shareholder
- Ministry of Energy will seek appropriation on an annual basis through PRRT for the amounts requested by OPG for its equity requirements-- NOTE: amount of annual appropriation to cover OPG multi year forecasts
- Ministry of Energy and Ontario Financing Authority will have a service level agreement in place which provides authority for OFA to provide cash management services to facilitate these share purchases on an ongoing basis on behalf of the Ministry of Energy
- OPG agrees use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt requirements as part of the Fair Hydro Plan
- OPG will amend its Articles to create an additional class of shares – Class A Shares – which will be non-voting and redeemable at OPG's option
- OPG will issue Class A Shares to the Province monthly at a value per share equal to book value, as determined from OPG's last approved quarterly financial statements -- Value of first Class A shares issued to Province will be based on book value of OPG common shares – ie, existing shareholder's equity
- OPG will have the right to repay equity to the Province, through exercise of its right to redeem the Class A Shares, as principal repayment of the subordinated debt is made commencing in 2027
- Redemption value of the Class A Shares to be based on book value on the redemption date, ie, the equity value per Class A share at the end of the prior financial quarter as set out in OPG's approved financial statements

Formatted: Indent: Left: 0.5", No bullets or numbering

Monthly Process/Mechanics of Share Subscriptions:

a) OPG notifies OFA and Ministry of Energy of required equity injection and number of shares

Timing: [same day as notice from Fair Hydro Trust]

Documents/steps:

(i) share subscription form,

(ii) supporting documentation/invoice from Fair Hydro Trust, confirming amount of GA asset purchase for the month

b) OFA and OPG settle equity injection amounts
Timing: [five] business days from notice to OFA to payment/settlement with OPG
[NOTE: timing to be confirmed based on IESO/Trust process requirements]
Documents/steps:
(i) completed/signed share subscription form from OFA/Province to OPG
(ii) funds transfer from OFA to OPG account)
(iii) OPG receipt, together with secretary's certificate confirming issue of shares/update of share register sent to OFA and Ministry of Energy

Longer term Process/Approvals:

1. Equity Requirements Estimates:
   a. Business Plan Submissions: OPG to include forecasts of equity requirements for the business planning period as well as supporting documentation
   a.
   b. OPG Board Approvals
      - [Bi-annual] Board of Directors' resolutions authorizing equity requirement for period
      - [Bi-annual Shareholder's resolutions authorizing equity requirement for period][NOTE: TBD if needed]

   c. Ministry of Energy appropriations
   [describe annual process]- Ministry of Energy to update appropriations for upcoming 3 year cycle through the PRRT process, including 3 year rolling estimates along with supporting information as provided by OPG through its business planning process.

Share Redemption Process

- TBD -- process to be determined at a later date and appended as Appendix to Master Subscription Agreement

Formatted: Indent: Left: 2", No bullets or numbering

Commented [KC1]: Technically appropriation authority doesn't come into effect until the Budget passes. In the event of a post-March 31 Budget, we would need to seek a temporary allocation from OPCD until the budget is approved. Is this handled differently on the loan side at OFA?

I went through this quickly and I don't have any comments; I believe that the actual transfer of funds to OPG for the equity injection will be governed by a SLA between OFA and the Ministry of Energy and we of course need to review that carefully. However, I would like you take a quick look and let me know if you have any comments.

Thanks

DRAFT: JUNE 22, 2017

MASTER SHARE SUBSCRIPTION AGREEMENT

among

MINISTER OF ENERGY

- and –

ONTARIO POWER GENERATION

- and -

ONTARIO FINANCING AUTHORITY

Dated as of ■, 2017

EXHIBITS

Exhibit A	--	Share Subscription Form
Exhibit B	--	Subscription Supporting Information
Exhibit C	--	Receipt and Certificate
Exhibit D	--	Payment/Wire Transfer instructions
Exhibit E	--	Share Redemption Process

MASTER SHARE SUBSCRIPTION AGREEMENT

THIS AGREEMENT made as of ■, 2017.

AMONG:

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, as represented by the Minister of Energy

(the "**Minister**")

- and -

ONTARIO POWER GENERATION INC., a corporation established under the laws of the Province of Ontario

("OPG")

- and -

ONTARIO FINANCING AUTHORITY, a [ ]

(the "**OFA**")

Background

1. The Government of Ontario enacted the *Ontario Fair Hydro Act, 2017* (the "Act") to implement its Fair Hydro Plan (the "FHP"). The Act's purpose is, among other things, to ensure that clean energy costs and clean energy benefits are fairly allocated among present and future specified consumers.

2. The Act and the regulations promulgated under the Act (the "Regulations") creates certain assets related to the deferral of electricity charges (the "Assets"), which Assets will be acquired from the Independent Electricity System Operator ("IESO") by the special purpose financing entity established by OPG to implement the financing plan to fund the deferral under the Act (the "Fair Hydro Trust") **[NTD: use "Financing Entity"??].**

3. The Fair Hydro Trust will acquire the Assets monthly from IESO and finance them in accordance with the financing plan, which includes both senior debt (minimum of 51%) from external sources and subordinated debt (up to 49%) from OPG.

4. The Minister has agreed to fund up to 44% of the total funding requirement for the Assets through equity injections in OPG and OPG has agreed to use the equity injections solely for funding the Fair Hydro Trust's subordinated debt (the "Equity Injection Plan").

5. For purposes of the Equity Injection Plan, OPG [will amend] [has amended] its articles to create a new class of non-voting, redeemable shares (the "Class A Shares"). The Minister will subscribe for Class A Shares monthly in accordance with the process set forth in this Agreement and OPG will in turn invest these amounts in subordinated debt of the Fair Hydro Trust.

6. OPG will be entitled from time to time to redeem or buy back outstanding Class A Shares in connection with repayment of the Fair Hydro Trust subordinated debt or other purposes as may be approved by the OPG board of directors.

7. The Minister and the OFA have entered into a service level agreement (the "SLA") which provides the OFA with authority to provide cash management services to facilitate the share purchases on an ongoing basis on behalf of the Minister.

8. The parties desire to set out in this Agreement the process and mechanisms by which the equity injections and share purchases will occur and their respective roles and responsibilities in the Equity Injection Plan.

NOW THEREFORE the parties hereto agree as follows:

1. Confirmation of Equity Injection and Use of Funds

1.1 The Minister commits to fund up to 44% of the total financing required by the Fair Hydro Trust, to acquire Assets from the IESO under the Act and Regulations, by way of equity subscriptions in OPG.

1.2 OPG agrees to use the equity received from the Minister solely to lend as subordinated debt to the Fair Hydro Trust to fund the Fair Hydro Trust's obligations under the [Master Sale and Servicing Agreement][**NTD: confirm name]** between the IESO and the Fair Hydro Trust, and the Act and Regulations.

2. Monthly Share Subscription Process

2.1 The Minister, through the OFA, will subscribe for and purchase Class A Shares from OPG monthly, in an amount, and for a value, as determined by OPG in accordance with paragraph 2.2 below.

2.2 Each month, coincident with the asset acquisition to be made by the Fair Hydro Trust from the IESO under the [Master Sale and Servicing Agreement], OPG will provide notice to the Minister and the OFA of the amount of equity injection required and the corresponding number of shares to be issued by OPG and subscribed by the Minister. This notice will be in the form of the Share Subscription attached as Exhibit A. OPG will also provide reasonable supporting information for the values and amounts set out in the Share Subscription, in the form of the Subscription Supporting Information attached as Exhibit B.

2.3 For purposes of providing the reasonable supporting information required under paragraph 2.2 above, OPG agrees:

(i) that the value of the monthly equity injection/share subscription amount will reflect the monthly funding requirements of the Fair Hydro Trust acquisitions under the [Master Sale and Servicing Agreement],; and

(ii) Class A Shares will be issued to the Minister at a value per share equal to their book value as determined from OPG's last approved quarterly financial statements. **[NTD: do we need any more specificity here?]**

2.4 Within [five] Business Days of receipt of the notice and supporting information described in paragraph 2.2, the OFA will deliver the executed Share Subscription to OPG and wire transfer, in immediately available funds, the required equity funds in accordance with the payment instructions set out in Exhibit D or as may be otherwise provided by OPG from time to time. For purposes of this Agreement, "Business Day" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by law, regulation or executive order to be closed.

2.5 OPG will issue a receipt to the Minister and the OFA, in the form of Exhibit C attached, confirming receipt of the equity amount and certifying as to the update of OPG's corporate share register with issue of the shares in the name of the Minister.

2.6 The first equity injection/share subscription will occur [August x 2017] (the "Initial Equity Injection"). Equity injections will continue monthly so long as the Fair Hydro Trust is purchasing assets and incurring debt obligations, including subordinated debt in favour of OPG, pursuant to the Act and Regulations.

3. Equity Requirement Forecasts and Approvals

3.1 OPG will prepare and submit forecasts of equity requirements for the applicable business planning period as part of its business plan submissions to the Shareholder in accordance with the Memorandum of Agreement between the Minister and OPG effective July 17, 2015 (the "MOA") as amended, restated or replaced from time to time. For clarity, OPG will submit annually, as part of its business plan submissions, the FHP equity requirements forecast for the upcoming 3 years.

3.2 OPG's equity requirement forecast submissions will include all reasonable supporting information and documentation. **[NTD: any more specificity required?]**

3.3 The OFA and the Minister confirm that OPG's equity requirement forecasts submitted with OPG's business plans will not require concurrence by the Shareholder as set out in the MOA.

3.4 In accordance with the submissions made under paragraph 3.1 above, the Minister will update the appropriations for the upcoming 3 year cycle through the PRRT process, including 3 year rolling estimates along with supporting information as provided by OPG through its business planning process.**[NTD: clarify that purpose of this clause is to confirm Energy will seek out and obtain required appropriations]**

4. Share Redemption Process

5.1 The Minister and OPG agree to set out the required process for any future redemption by OPG of outstanding Class A Shares in an appendix to this Agreement and attach it as Exhibit E. Exhibit E will be finalized before the first share redemption [and in any case no later than [90] Business Days before the effective date of such redemption].**[NTD: confirm if need timeframe]**

6. Miscellaneous

6.1 Notices

Any notice, report or other communication to be given under this Agreement will be in writing and will be effective (a) upon receipt when sent by mail or courier, (b) on the date personally delivered to an authorized officer of the party to which sent, or (c) on the date transmitted by electronic transmission with a confirmation of receipt in all cases, addressed as follows:

in the case of the Minister:

■

in the case of the OFA:

■

in the case of OPG:

Ontario Power Generation Inc.
700 University Avenue

Toronto, Ontario
M5G 1X6

Attention: ■
Email: ■

and

Attention: ■
Email: ■

Each party may by notice given as above to the other party or parties hereto, designate any further or different address to which subsequent notices, reports and other communications will be sent.

6.2 Separate Counterparts; Electronic Delivery

This Agreement may be executed by the parties in separate counterparts, each of which when so executed and delivered will be considered an original, but all such counterparts together constitute but one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of this Agreement by such party.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed by their respective officers as of the day and year first above written.

Hi,
FYI, an email from Ken's staff in FTD made me realize there was a version of the draft agreement.
I've been looping everyone in so that all are on the same page.
I think we are on the same page in taking the approach of not being party to the Master Subscription Agreement and having a separate MOU/SLA (between Energy and the OFA).
John

I went through this quickly and I don't have any comments; I believe that the actual transfer of funds to OPG for the equity injection will be governed by a SLA between OFA and the Ministry of Energy and we of course need to review that carefully. However, I would like you take a quick look and let me know if you have any comments.
Thanks

Thanks Ken – Are you aware how the potential timing issue with appropriations is handled on the credit side? OPG seemed to think that the OFA had some process in place so that even though only 1 year of appropriations is approved at a time there is always coverage post March 31, 2017 in the event the budget is delayed but OPG needs to borrow. I was just hoping to incorporate something similar on the ENE side so that we don't run into any issues.
OPG provided a draft Master Subscription Agreement based on the term sheet. I will run this by legal as well but please feel free to provide comments/edits.

Hi Kaitlin

My apologies for the delay in responding, just going through my emails from last week, I am ok with the term sheet, you had however, raised a comment re the appropriations. Note that since the OFA will simply be a service provided in this arrangement, i.e.,

We will not be able to provide cash management services including the transfer of the funds from the Province to OPG for the equity injection until the appropriations are approved.

Thanks

Ken k

Hi all – just following up on the equity injection term sheet. I'm going to send this to ENE legal now so that they can start to digest given that the next step will be preparation of the Master Subscription Agreement. I'm assuming there aren't any major concerns but if there are items you'd like to modify if you could pass those along this week I'd appreciate it. Please note that there is a question embedded in the document regarding appropriations that I'm hoping one of you will have insight on.

At the meeting with OPG a few weeks back you had mentioned that there would likely need to be some sort of Service Level Agreement between OFA and ENE – is there a similar agreement you already have in place that we could work from?

Thanks,

Kaitlin

Subject: OFHP - Business Issue next steps

Hi everyone,

As a follow up to today's meeting there are a couple items I think can move forward at this point.

1. Equity Injection Mechanics (draft term sheet attached)
    a. If comfortable, OPG would draft Master Subscription agreement, OFA/ENE would develop service level agreement for cash management services and ENE legal would move forward with amendment to OPG articles to facilitate new class of shares
2. Performance Fee Recommendation (OPG recommended approach attached)
    a. If comfortable, OPG would assist ENE in developing regulation language

My proposed next steps, subject to your agreement, would be to share these documents with ENE legal today and then table them at a Thursday morning meeting with ENE DMO/MO (along with an updated "business issues" note, which I'll send around for everyone's input in the next day or so). After that meeting I would send the same materials /update to MOF DMO along with any new updates received at that meeting.

Could you please confirm you have no further comments and that you agree with this approach and

also that there's no other materials/terms that you think need to move up through approvals at this point in time?
Thanks in advance,
Kaitlin

DRAFT: JUNE 22, 2017

MASTER SHARE SUBSCRIPTION AGREEMENT

among

MINISTER OF ENERGY

- and –

ONTARIO POWER GENERATION

- and -

ONTARIO FINANCING AUTHORITY

Dated as of ■, 2017

EXHIBITS

Exhibit A	--	Share Subscription Form
Exhibit B	--	Subscription Supporting Information
Exhibit C	--	Receipt and Certificate
Exhibit D	--	Payment/Wire Transfer instructions
Exhibit E	--	Share Redemption Process

MASTER SHARE SUBSCRIPTION AGREEMENT

THIS AGREEMENT made as of ■, 2017.

AMONG:

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, as represented by the Minister of Energy

(the "**Minister**")

- and -

ONTARIO POWER GENERATION INC., a corporation established under the laws of the Province of Ontario

("OPG")

- and -

ONTARIO FINANCING AUTHORITY, a [ ]

(the "**OFA**")

Background

1. The Government of Ontario enacted the *Ontario Fair Hydro Act, 2017* (the "Act") to implement its Fair Hydro Plan (the "FHP"). The Act's purpose is, among other things, to ensure that clean energy costs and clean energy benefits are fairly allocated among present and future specified consumers.

2. The Act and the regulations promulgated under the Act (the "Regulations") creates certain assets related to the deferral of electricity charges (the "Assets"), which Assets will be acquired from the Independent Electricity System Operator ("IESO") by the special purpose financing entity established by OPG to implement the financing plan to fund the deferral under the Act (the "Fair Hydro Trust") **[NTD: use "Financing Entity"??].**

3. The Fair Hydro Trust will acquire the Assets monthly from IESO and finance them in accordance with the financing plan, which includes both senior debt (minimum of 51%) from external sources and subordinated debt (up to 49%) from OPG.

4. The Minister has agreed to fund up to 44% of the total funding requirement for the Assets through equity injections in OPG and OPG has agreed to use the equity injections solely for funding the Fair Hydro Trust's subordinated debt (the "Equity Injection Plan").

5. For purposes of the Equity Injection Plan, OPG [will amend] [has amended] its articles to create a new class of non-voting, redeemable shares (the "Class A Shares"). The Minister will subscribe for Class A Shares monthly in accordance with the process set forth in this Agreement and OPG will in turn invest these amounts in subordinated debt of the Fair Hydro Trust.

6. OPG will be entitled from time to time to redeem or buy back outstanding Class A Shares in connection with repayment of the Fair Hydro Trust subordinated debt or other purposes as may be approved by the OPG board of directors.

7. The Minister and the OFA have entered into a service level agreement (the "SLA") which provides the OFA with authority to provide cash management services to facilitate the share purchases on an ongoing basis on behalf of the Minister.

8. The parties desire to set out in this Agreement the process and mechanisms by which the equity injections and share purchases will occur and their respective roles and responsibilities in the Equity Injection Plan.

NOW THEREFORE the parties hereto agree as follows:

1. Confirmation of Equity Injection and Use of Funds

1.1 The Minister commits to fund up to 44% of the total financing required by the Fair Hydro Trust, to acquire Assets from the IESO under the Act and Regulations, by way of equity subscriptions in OPG.

1.2 OPG agrees to use the equity received from the Minister solely to lend as subordinated debt to the Fair Hydro Trust to fund the Fair Hydro Trust's obligations under the [Master Sale and Servicing Agreement][**NTD: confirm name]** between the IESO and the Fair Hydro Trust, and the Act and Regulations.

2. Monthly Share Subscription Process

2.1 The Minister, through the OFA, will subscribe for and purchase Class A Shares from OPG monthly, in an amount, and for a value, as determined by OPG in accordance with paragraph 2.2 below.

2.2 Each month, coincident with the asset acquisition to be made by the Fair Hydro Trust from the IESO under the [Master Sale and Servicing Agreement], OPG will provide notice to the Minister and the OFA of the amount of equity injection required and the corresponding number of shares to be issued by OPG and subscribed by the Minister. This notice will be in the form of the Share Subscription attached as Exhibit A. OPG will also provide reasonable supporting information for the values and amounts set out in the Share Subscription, in the form of the Subscription Supporting Information attached as Exhibit B.

2.3 For purposes of providing the reasonable supporting information required under paragraph 2.2 above, OPG agrees:

(i) that the value of the monthly equity injection/share subscription amount will reflect the monthly funding requirements of the Fair Hydro Trust acquisitions under the [Master Sale and Servicing Agreement],; and

(ii) Class A Shares will be issued to the Minister at a value per share equal to their book value as determined from OPG's last approved quarterly financial statements. **[NTD: do we need any more specificity here?]**

2.4 Within [five] Business Days of receipt of the notice and supporting information described in paragraph 2.2, the OFA will deliver the executed Share Subscription to OPG and wire transfer, in immediately available funds, the required equity funds in accordance with the payment instructions set out in Exhibit D or as may be otherwise provided by OPG from time to time. For purposes of this Agreement, "Business Day" means any day other than a Saturday, a Sunday or a day on which banking institutions in Toronto, Ontario are authorized or obligated by law, regulation or executive order to be closed.

2.5 OPG will issue a receipt to the Minister and the OFA, in the form of Exhibit C attached, confirming receipt of the equity amount and certifying as to the update of OPG's corporate share register with issue of the shares in the name of the Minister.

2.6 The first equity injection/share subscription will occur [August x 2017] (the "Initial Equity Injection"). Equity injections will continue monthly so long as the Fair Hydro Trust is purchasing assets and incurring debt obligations, including subordinated debt in favour of OPG, pursuant to the Act and Regulations.

3. Equity Requirement Forecasts and Approvals

3.1 OPG will prepare and submit forecasts of equity requirements for the applicable business planning period as part of its business plan submissions to the Shareholder in accordance with the Memorandum of Agreement between the Minister and OPG effective July 17, 2015 (the "MOA") as amended, restated or replaced from time to time. For clarity, OPG will submit annually, as part of its business plan submissions, the FHP equity requirements forecast for the upcoming 3 years.

3.2 OPG's equity requirement forecast submissions will include all reasonable supporting information and documentation. **[NTD: any more specificity required?]**

3.3 The OFA and the Minister confirm that OPG's equity requirement forecasts submitted with OPG's business plans will not require concurrence by the Shareholder as set out in the MOA.

3.4 In accordance with the submissions made under paragraph 3.1 above, the Minister will update the appropriations for the upcoming 3 year cycle through the PRRT process, including 3 year rolling estimates along with supporting information as provided by OPG through its business planning process.**[NTD: clarify that purpose of this clause is to confirm Energy will seek out and obtain required appropriations]**

4. Share Redemption Process

5.1 The Minister and OPG agree to set out the required process for any future redemption by OPG of outstanding Class A Shares in an appendix to this Agreement and attach it as Exhibit E. Exhibit E will be finalized before the first share redemption [and in any case no later than [90] Business Days before the effective date of such redemption].**[NTD: confirm if need timeframe]**

6. Miscellaneous

6.1 Notices

Any notice, report or other communication to be given under this Agreement will be in writing and will be effective (a) upon receipt when sent by mail or courier, (b) on the date personally delivered to an authorized officer of the party to which sent, or (c) on the date transmitted by electronic transmission with a confirmation of receipt in all cases, addressed as follows:

in the case of the Minister:

Hi all,

ENE MO asked for a quick note on 4 of the outstanding business issues that are being worked through and are hoping to see something tomorrow morning.

I've pulled together a high level explanation of each of the items and next steps/timing (to the extent I know).

Would greatly appreciate if you guys could take a look and provide any edits/comments today/early tomorrow if possible. I'm also not too involved in a few of these discussions so if there's others within OFA you think should review feel free to pass along.

Thanks in advance,
Kaitlin

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. Management Fees

- OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
- The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
- OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
- **Next Steps:**
    - OPG and OEB will bring forward a recommended framework for developing management fees
    - Timing: For incorporation into regulations being brought forward in June

5. IESO – Increased Credit Facilities

- The OPG financing entity has the right to purchase the regulatory asset from IESO but does not have to purchase it.
- IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
- **Next Steps:**
    - OFA is …..
    - Timing: ……

     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Equity Injection Process**
   - OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province

- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. **Management Fees**
    - OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
    - The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
    - OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
    - **Next Steps:**
        - OPG and OEB will bring forward a recommended framework for developing management fees
        - Timing: For incorporation into regulations being brought forward in June

Hi Carlos, James,
Is this something that you are working on with OPG?
I didn't quite get the request so touched base with Kaitlin/Kaitlin and they clarified that it's some sort of debt/loan term sheet for subordinated debt.
John

Hi everyone,
Just checking in if anyone knows the status / next steps on the sub-debt? It's listed as one of the outstanding business issues so just trying to sort out required next steps/timing.
Thanks,
Kaitlin

Hey Ken – In Scotts absence I'm hoping you can help me with a couple items:

1. On the performance fees – Did Scott share an ENE note with 3 options for your review last week? No
2. On the Sub-Debt – could you share the latest term sheet and what is the status of this one? Is it over to OFA to provide comments back to OPG or are we waiting on OPG for something?

To the best of my knowledge we didn't have any major issues with the latest term sheet.

Thanks and happy to chat if that's easier

Kaitlin

Subject: OPG forecast borrowing

OPG provided the forecast below of what they expect to borrow in the coming months. Their current facility is $700 million. The amendment that hasn't been signed yet, will increase this amount to $1.5 b in 2017 and $850 million in 2018.
They have borrowed a total of $300 million to date.

Subject: Forecast OEFC debt for remainder of 2017

Linda,
Per your request here is current forecast of debt requirements:
Aug $100 million
Sept $800 million
Q4 $450 million
Of course there are a number of uncertainties around this such as new regulated rates (whether they are retroactive to Jan 1, 2017), DRP spending and dividend payment for the sale of 700U. August and September are pretty good estimates.
Thanks,
Ken

Hi again – the TBS DM has agreed with the staff recommendation here that it would be best if this request went to the Minister of Finance rather than the President of TB, since it primarily covers financing activities and since it fits in with/overlaps with some of the other activities that MOF and the OFA are more directly involved in.

I know this is coming somewhat late so wanted to check in with you both to make sure you're comfortable with that approach before I suggest to Harkamal that she and her clients direct their request to MOF. Happy to stay involved or help out, or discuss if you have concerns.

Thanks,

Paul

Subject: FW: OPG/IESO Indemnities - Section 28 Approvals

James, I spoke to counsel at Energy about the proposed revisions to the boilerplate indemnity agreements. I told her that some minor clarifications to the existing text likely wouldn't raise concerns here, but that even minor changes might add some time to the approvals process on our end.

The changes that OPG is proposing are more substantive in nature and in a number of cases seem like they would result in the province assuming more than a reasonable amount of risk. Energy legal agrees with this and it sounds like energy is going to push back pretty hard with OPG. They also understand that we'll need them to provide a rationale for any substantive deviations from the original draft agreements.

It sounds like Energy is hoping to finalize the agreements today or tomorrow and proceed with approvals on their end. They hope to get us a minister-signed request by early next week, but will share the materials that they send up the line in the interim.

I also flagged the appropriations issue and they are going to consider it further. I didn't note the section 22 option because, as discussed, it's not clear if MOF would be comfortable with it. Our branch is going to discuss this file with MOF legal today, and we understand they are also talking to the OFA today.

Cc: Strang, James (TBS); Montgomery, Kaitlin (MOF); Ho, Larissa (ENERGY)
Subject: RE: OPG/IESO Indemnities - Section 28 Approvals

Thanks for this Paul.

We received comments back from OPG and IESO on the Business case as well as on the indemnity agreements. I've attached the updated business case that includes changes to reflect your comments as well as OPG and IESO's comments. Please let us know if you have any further concerns.
On the indemnity agreements, we are working through the proposed changes that both IESO and OPG have proposed to them. The IESO indemnity agreement changes that the IESO has proposed appear to be okay, and I've just made some further edits/comments that I am in the process of clarifying with IESO. Could you please take a look at the attached and let us know if there are any concerns from your end on the changes?
The OPG changes to its indemnity agreement are much more substantial and we are working through them still, however, I am wondering whether you can take a look and let us know if you or your policy clients have any significant concerns as well in the interests of time. The changes seem to be more for clarity, but given that they differ from the standard template language just wanted to make sure TBS is comfortable. Both clean and tracked versions of the OPG indemnity agreement are attached.
If it is easier and would be quicker to have a call to discuss, I would be happy to set something up.
Thank you,
Harkamal

Thanks very much Paul – we've asked OPG/IESO to provide us with specifics on the risks as they would be in the best position to advise on these. I am hoping to receive their input by tomorrow and will send to you accordingly.

On the timing of the security offerings, I am assuming you are asking about the security offerings to be made to the investors with respect to the special purpose entity. We don't have a certain date but generally I believe we are looking at some time in Fall 2017 (Tim/Kaitlin, please correct me if I am wrong on this).

If you have further questions, please let us know.

Best regards,

Harkamal

Hi Harkamal – we're still reviewing whether this might go to MOF instead of TBS, but in the interim had some questions from the information set out in the business case:

Can some examples of the risks associated with securities offerings (generally, typically)be provided, and on how Energy might mitigate those risks risk?

Also, can Energy provide info on timing of securities offerings (when expecting to be in the market)?

I'll have some more technical feedback that I'll likely get to you tomorrow.

Thanks,

Paul

Subject: OPG/IESO Indemnities - Section 28 Approvals

Hi Paul,

As discussed, I've attached our draft s.28 approval materials as well as the indemnity agreements for the IESO and OPG. We are also consulting further with OPG and IESO on providing input on the risks to them if the indemnities are not provided so there may be further changes to these materials based on comments from OPG/IESO. These materials are drafts for TBS legal/policy review and input before we finalize. Once we've addressed TBS' comments we will submit the finalized documents for formal s.28 approval.

As mentioned, we require the section 28 approval by June 1, 2017, so if there is anything we can do to assist with speeding things up, please let us know as we recognize these are tight timelines.

Also, I understand that this is to go to TBS for approval (this goes back to our conversation earlier, whether Finance or TBS needs to approve). Please let us know if you hear otherwise.

If you require anything else from us please let us know. I've copied our program area clients on this email as well.

Many thanks,

Harkamal

CONFIDENTIAL DRAFT

INDEMNITY AGREEMENT

THIS INDEMNITY AGREEMENT effective as of this day of June, 2017.

BETWEEN: **Ontario Power Generation Inc.**
(hereinafter the "**Corporation**")

OF THE FIRST PART,

Her Majesty the Queen in Right of the Province of Ontario as Represented by the Minister of Energy

(hereinafter called the "**Province**")

OF THE SECOND PART

WHEREAS the Corporation and/or one or more of its subsidiaries may or, in certain circumstances is or will be required to, carry out certain activities with respect to (i) the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), (ii) the regulations made pursuant to the Act, and/or (iii) the agreements (A) relating to any financing entity (as defined in the Act) and/or any debt issued by any such financing entity and/or (B) to which any such financing entity is a party (the Act, such regulations and agreements, collectively the "**Fair Hydro Plan**").

AND WHEREAS the Corporation, its subsidiaries and each of their respective directors, officers and employees may face risk of liability due to or as a result of the Fair Hydro Plan.

NOW THEREFORE, in consideration of the sum of $1.00 now paid by the Corporation to the Province and other good and valuable consideration (the receipt of which is hereby acknowledged), the Province hereby agrees:

1. To indemnify, defend and save harmless the Corporation, each of the Corporation's subsidiaries and each of their respective directors, officers, and employees (collectively the "**Protected Persons**" and individually, a "**Protected Person**") from and against all losses, costs, damages, charges, expenses, demands, liabilities, taxes, fines, penalties, statutory payments, judgments and/or settlement amounts directly or indirectly suffered, sustained or incurred by any Protected Person, including any special, indirect, incidental, punitive, exemplary and/or consequential damages and/or loss of profits and damages in respect of economic loss and/or loss of opportunity, and all legal and other professional fees and out-of-pocket expenses (collectively, "**Losses**"), in relation to any civil, criminal, administrative, investigative and/or other claim, demand, action, suit, application, litigation, charge, complaint, prosecution, assessment, reassessment, investigation (formal or informal), hearing and/or

other proceeding of any nature or kind whatsoever (any of the foregoing being a "**Claim**") arising, directly or indirectly, as a result of the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected Person's activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

2. This indemnity does not apply with respect to Losses of a Protected Person:

    (a) for which coverage is provided under an insurance policy but only to the extent that a Protected Person is actually paid under such insurance policy for those Losses; or

    (b) for which other indemnities are already provided to a Protected Person but only to the extent that the Protected Person is actually so indemnified for those Losses by such indemnities; or

    (c) if and to the extent that a court of competent jurisdiction in a final, non-appealable judgment determines that the Claim associated with such Losses resulted from the gross negligence or willful misconduct of the Protected Person claiming such indemnity; for greater certainty, and notwithstanding Section 2(d), the Province agrees that it does not intend that any failure by a Protected Person to conduct such reasonable investigation as necessary to provide the Corporation, a subsidiary of the Corporation or a financing entity, as applicable, with reasonable grounds for believing any prospectus, registration statement, offering document or any other document filed by, or on behalf of, a financing entity under applicable securities laws contained no misrepresentation shall constitute "gross negligence" or "wilful misconduct" for purposes of this Section 2(c) or otherwise disentitle a Protected Person from indemnification hereunder; or

    (d) to the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

3. In order to be entitled to indemnification hereunder in respect of any Losses, the Protected Person shall:

    (a) as soon as practicable, deliver to the Province (through the Director of the Legal Services Branch of the Ministry of Energy) a notice setting forth in reasonable detail the particulars of any Claim;

    (b) upon written request of the Province, furnish to the Province copies of any document, or provide to the Province any information, that relates to the Claims that is in the possession or under the control of the Protected Person (except to the extent that provision of same would cause the Protected Party to lose its entitlement to claim privilege with respect to same);

DRAFT

(c) take all reasonable steps, at the expense of the Province, necessary to secure and preserve the rights of the Protected Person in respect of the Claim; and

(d) promptly take all reasonable steps to obtain indemnification to the fullest extent possible under insurance policies, or under indemnities provided by the Corporation, that are referred to in subsections 2(a) or (b) above.

A failure to give prompt notice as provided in this section 3 shall not affect the rights or obligations of any party to this indemnity unless and only to the extent that such failure to provide such prompt notice has actually prejudiced the Province.

4. The Province shall have the right to participate in or, where the Province has confirmed in writing to the applicable Protected Person(s) that all Losses in respect of a Claim will be fully indemnified under this indemnity agreement, assume control of the negotiation, settlement or defence of the Claim and in no event shall a Protected Person negotiate, settle, compromise or pay the Claim without the prior written consent of the Province, such consent not to be unreasonably withheld, delayed or conditioned. If the Province elects to so participate in or assume control of the negotiation, settlement or defence of the Claim, the applicable Protected Person(s) shall co-operate fully with the Province in connection with the same, and each applicable Protected Person shall agree to be represented by legal counsel chosen by the Province, unless, in the opinion of such legal counsel, there would arise a conflict of interest preventing such legal counsel from representing the applicable Protected Person. Where it is such legal counsel's opinion that a conflict of interest prevents that legal counsel representing a Protected Person, the Protected Person will be entitled, after consultation with the Province and acting reasonably, to obtain legal counsel of the Protected Person's choice, and the fees and expenses of the Protected Person's counsel incurred in the Protected Person's representation shall be Losses to which this indemnity extends. The Province shall not agree to any settlement of a Claim on behalf of a Protected Person without the Protected Person's written consent unless (i) the terms of such settlement require only the payment of money (by persons or entities other than the Protected Person) and include an unconditional, full release of the Protected Person, and do not require a Protected Person to admit any wrongdoing or take or refrain from taking any action and (ii) the Province has fully indemnified the Protected Person with respect to, and held the Protected Person harmless from and against, all Losses incurred by or on behalf of the Protected Person in connection with the Claim.

5. The Province shall reimburse or advance the funds necessary for the payment of Losses incurred in connection with any Claim, including without limitation, the investigation, monitoring, defence and appeal thereof, in advance of the final disposition of such Claim, within thirty (30) days of any request in writing by a Protected Person to the Province for such reimbursement or advance, accompanied by reasonable details and supporting documentation with respect to the Losses in respect of which such reimbursement or advance is requested. The Protected Person shall repay forthwith any advances that are ultimately in excess of amounts necessary for payment of any such Losses or for which it is judicially determined that the Protected Person is not entitled to indemnification hereunder.

DRAFT

6. The Province hereby waives any claim it, as the shareholder of the Corporation, could otherwise make against a Protected Person, whether now or in the future, relating in any way to the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected Person's activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

7. The Province represents and warrants to each Protected Person as follows and acknowledges that each Protected Person is relying on the following representations and warranties in connection with any and all of its activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation):

    (a) the Province has all necessary power, authority and capacity to enter into this indemnity agreement and to perform its obligations hereunder;

    (b) all necessary actions have been taken by the Province or on the Province's part to authorize its execution and delivery of this indemnity agreement and the performance of its obligations hereunder, and without limiting the foregoing, the Province has received all necessary approvals under the *Financial Administration Act* (Ontario) (including approval of the Minister of Finance pursuant to Section 28 of the *Financial Administration Act* (Ontario)) and under the Act required for it to enter into this indemnity agreement and perform its obligations hereunder;

    (c) this indemnity agreement has been duly executed and delivered by the Province and is a legal, valid and binding obligation of it enforceable against it in accordance with its terms, except as that enforcement may be limited by the provisions of the *Proceedings Against the Crown Act* (Ontario), subject to bankruptcy, insolvency, reorganization, moratorium or similar laws now or hereinafter in effect relating to creditors' rights generally, to the application of equitable principles and except that equitable remedies may be granted only in the discretion of a court of competent jurisdiction, to section 11.3 of the *Financial Administration Act* (Ontario) and to section 43 of the *Financial Administration Act* (Ontario).

8. It is the intention of the Province to constitute the Corporation as trustee for the Protected Parties that are not party to this indemnity agreement of the covenants, waivers, representations, warranties and obligations of the Province under this indemnity agreement and the Corporation agrees to accept such trust and to hold and enforce such covenants, representations, warranties and obligations on behalf of such Protected Parties.

9. This indemnity agreement shall be interpreted and governed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

DRAFT

10. The provisions of this indemnity agreement and the benefit of all covenants, waivers, representations, warranties and other obligations herein contained shall enure to the benefit of the Protected Persons and the Protected Persons' heirs, administrators, executors and assigns as applicable.

NOW THEREFORE, the parties have executed this indemnity as of the day and year first above written.

ONTARIO POWER GENERATION INC.

CONFIDENTIAL DRAFT

INDEMNITY AGREEMENT

THIS INDEMNITY AGREEMENT effective as of this day of June, 2017.

BETWEEN: **Ontario Power Generation Inc.**
(hereinafter the "**Corporation**")

OF THE FIRST PART,

Her Majesty the Queen in Right of the Province of Ontario as Represented by the Minister of Energy

(hereinafter called the "**Province**")~~,~~

OF THE SECOND PART

WHEREAS the Corporation ~~is~~and/or one or more of its subsidiaries may or, in certain circumstances is or will be required to, carry out certain activities with respect to ~~the implementation of~~(i) the *Ontario Fair Hydro Plan Act* ~~(the "Act~~, *2017* (the "Act"), (ii) the regulations made pursuant to the Act, and/or (iii) the agreements (A) relating to any financing entity (as defined in the Act) and/or any debt issued by any such financing entity and/or (B) to which any such financing entity is a party (the Act, such regulations and agreements, collectively the "Fair Hydro Plan").

AND WHEREAS the Corporation, its subsidiaries and each of their respective directors, officers and employees may face risk of liability ~~which extends beyond the typical operations risk of the Corporation and which may arise solely due to the Corporation's role in the implementation~~due to or as a result of the ~~Act.~~Fair Hydro Plan.

NOW THEREFORE, in consideration of the sum of $1.00 now paid by the Corporation to the Province and other good and valuable consideration (the receipt of which is hereby acknowledged), the Province hereby agrees:

1. ~~to~~To indemnify, defend and save harmless the Corporation, each of the Corporation's subsidiaries and each of ~~its~~their respective directors, officers, and employees (collectively the "**Protected Persons**" and individually, a "**Protected Person**") from and against all losses, costs, damages, charges, expenses, ~~claims,~~ demands ~~and~~, liabilities, taxes, fines, penalties, statutory payments, judgments and/or settlement amounts directly or indirectly suffered, sustained or incurred by ~~the Protected Persons arising specifically~~any Protected Person, including any special, indirect, incidental, punitive, exemplary and/or consequential damages and/or loss

of profits and damages in respect of economic loss and/or loss of opportunity, and all legal and other professional fees and out-of-pocket expenses (collectively, "Losses"), in relation to any civil, criminal, administrative, investigative and/or other claim, demand, action, suit, application, litigation, charge, complaint, prosecution, assessment, reassessment, investigation (formal or informal), hearing and/or other proceeding of any nature or kind whatsoever (any of the foregoing being a "Claim") arising, directly or indirectly, as a result of the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected ~~Persons' direct role in carrying out~~Person's activities ~~related to~~, acts and/or omissions in the implementation of, or otherwise relating to, the ~~Act (collectively, "Claims" and individually, a "Claim"),~~ Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

2. This indemnity does not apply with respect to ~~Claims~~Losses of a Protected Person:

(a) for which coverage is provided under an insurance policy ~~or claims fund~~but only to the extent that a Protected Person is actually ~~so indemnified or covered~~paid under such insurance policy ~~or fund~~for those Losses; or

(b) for which other indemnities are already provided to a Protected Person but only to the extent that the Protected Person is actually so indemnified for those Losses by such indemnities; or

(c) ~~brought about or contributed to by a Protected Person's dishonesty, gross negligence or willful misconduct if a judgment or other final adjudication adverse to the Protected Person establishes that there was dishonesty, gross negligence or willful misconduct on the Protected Person's part which was material to the cause of action as adjudicated; or~~if and to the extent that a court of competent jurisdiction in a final, non-appealable judgment determines that the Claim associated with such Losses resulted from the gross negligence or willful misconduct of the Protected Person claiming such indemnity; for greater certainty, and notwithstanding Section 2(d), the Province agrees that it does not intend that any failure by a Protected Person to conduct such reasonable investigation as necessary to provide the Corporation, a subsidiary of the Corporation or a financing entity, as applicable, with reasonable grounds for believing any prospectus, registration statement, offering document or any other document filed by, or on behalf of, a financing entity under applicable securities laws contained no misrepresentation shall constitute "gross negligence" or "wilful misconduct" for purposes of this Section 2(c) or otherwise disentitle a Protected Person from indemnification hereunder; or

(d) to the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was

lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

3. In order to be entitled to indemnification hereunder in respect of any ~~notice of a Claim that the Protected Person receives~~Losses, the Protected Person ~~must~~shall:

   (a) ~~immediately and without delay~~as soon as practicable, deliver to the Province (through the Director of the Legal Services Branch of the Ministry of Energy) a notice setting forth in reasonable detail the particulars of ~~the~~any Claim~~(s)~~;

   (b) upon written request of the Province, furnish to the Province copies of any document, or provide to the Province any information, that relates to the Claims~~(s)~~ that is in the possession or under the control of the Protected Person (except to the extent that provision of same would cause the Protected Party to lose its entitlement to claim privilege with respect to same);

   (c) take all reasonable steps, at the expense of the Province, necessary to secure and preserve the rights of the Protected Person in respect of the Claim~~(s)~~; and

   (d) promptly take all ~~necessary~~reasonable steps to obtain indemnification ~~or coverage~~ to the fullest extent possible under insurance policies ~~or claims funds~~, or under indemnities provided by the Corporation, that are referred to in subsections 2(a) or (b) above.

   A failure to give prompt notice as provided in this section 3 shall not affect the rights or obligations of any party to this indemnity~~,~~ unless and only to the extent that~~, as a result of~~ such failure~~, the party which was entitled to receive~~ to provide such prompt notice ~~was~~has actually prejudiced the Province.

4. The Province shall have the right to participate in or, where the Province has confirmed in writing to the applicable Protected Person(s) that all Losses in respect of a Claim will be fully indemnified under this indemnity agreement, assume control of the negotiation, settlement or defence of the Claim~~(s)~~ and in no event shall a Protected Person negotiate, settle, compromise or pay the Claim~~(s)~~ without the prior written consent of the Province, such consent not to be unreasonably withheld, delayed or conditioned. If the Province elects to so participate in or assume control of the negotiation, settlement or defence of the Claim~~(s)~~, the applicable Protected Person(s) shall co-operate fully with the Province in connection with the same, and ~~the~~each applicable Protected Person shall agree to be represented by legal counsel chosen by the Province, unless, in the opinion of such legal counsel, there would arise a conflict of interest preventing such legal counsel from representing the applicable Protected Person. Where it is such legal counsel's opinion that a conflict of interest prevents that legal counsel representing ~~the~~a Protected Person, the Protected Person will be entitled, after consultation with the Province and acting reasonably, to obtain legal counsel of the Protected Person's choice, and the fees and expenses of the Protected Person's counsel incurred in the Protected Person's representation shall be ~~costs~~Losses to which this indemnity extends. The Province shall not agree to any settlement of a Claim on behalf of

a Protected Person without the Protected Person's written consent unless (i) the terms of such settlement require only the payment of money (by persons or entities other than the Protected Person) and include an unconditional, full release of the Protected Person, and do not require a Protected Person to admit any wrongdoing or take or refrain from taking any action and (ii) the Province has fully indemnified the Protected Person with respect to, and held the Protected Person harmless from and against, all Losses incurred by or on behalf of the Protected Person in connection with the Claim.

5. ~~For greater clarity, with respect to directors, officers and employees of the Corporation this indemnity shall only apply to Claim(s) that are referable to the period during which a director, officer or employee of the Corporation is actually a director, officer or employee (respectively) of the Corporation, and of which notice is received by the Province either during the period of time that the director, officer, or employee is a director officer, employee of the Corporation or after he or she ceases to be a director, officer, employee of the Corporation.~~ The Province shall reimburse or advance the funds necessary for the payment of Losses incurred in connection with any Claim, including without limitation, the investigation, monitoring, defence and appeal thereof, in advance of the final disposition of such Claim, within thirty (30) days of any request in writing by a Protected Person to the Province for such reimbursement or advance, accompanied by reasonable details and supporting documentation with respect to the Losses in respect of which such reimbursement or advance is requested. The Protected Person shall repay forthwith any advances that are ultimately in excess of amounts necessary for payment of any such Losses or for which it is judicially determined that the Protected Person is not entitled to indemnification hereunder.

6. The Province hereby waives any claim it, as the shareholder of the Corporation, could otherwise make against a Protected Person, whether now or in the future, relating in any way to the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected Person's activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

7. The Province represents and warrants to each Protected Person as follows and acknowledges that each Protected Person is relying on the following representations and warranties in connection with any and all of its activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation):

   (a) the Province has all necessary power, authority and capacity to enter into this indemnity agreement and to perform its obligations hereunder;

   (b) all necessary actions have been taken by the Province or on the Province's part to authorize its execution and delivery of this indemnity agreement and the performance of its obligations hereunder, and without limiting the

foregoing, the Province has received all necessary approvals under the *Financial Administration Act* (Ontario) (including approval of the Minister of Finance pursuant to Section 28 of the *Financial Administration Act* (Ontario)) and under the Act required for it to enter into this indemnity agreement and perform its obligations hereunder;

(c) this indemnity agreement has been duly executed and delivered by the Province and is a legal, valid and binding obligation of it enforceable against it in accordance with its terms, except as that enforcement may be limited by the provisions of the *Proceedings Against the Crown Act* (Ontario), subject to bankruptcy, insolvency, reorganization, moratorium or similar laws now or hereinafter in effect relating to creditors' rights generally, to the application of equitable principles and except that equitable remedies may be granted only in the discretion of a court of competent jurisdiction, to section 11.3 of the *Financial Administration Act* (Ontario) and to section 43 of the *Financial Administration Act* (Ontario).

8. It is the intention of the Province to constitute the Corporation as trustee for the Protected Parties that are not party to this indemnity agreement of the covenants, waivers, representations, warranties and obligations of the Province under this indemnity agreement and the Corporation agrees to accept such trust and to hold and enforce such covenants, representations, warranties and obligations on behalf of such Protected Parties.

9. ~~6.~~ This indemnity agreement shall be interpreted and governed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

10. ~~7.~~ The provisions of this indemnity agreement and the benefit of all covenants, waivers, representations, warranties and other obligations herein contained shall enure to the benefit of the Protected Persons and the Protected Persons' heirs, administrators, executors and assigns as applicable.

NOW THEREFORE, the parties have executed this indemnity as of the day and year first above written.

Request for Approval
Pursuant to Section 28 of the *Financial Administration Act* (Ontario)

1. MINISTRY REQUEST

On March 2, 2017, the Premier announced Ontario's Fair Hydro Plan (the "ONFHP"), under which the government proposes to take steps to lower electricity bills on an after-tax basis by 25 per cent for a typical residential customer relative to what those bills would otherwise have been without the ONFHP. This proposed 25 per cent rate relief measure would be inclusive of the 8 per cent rebate that is already in effect under the *Ontario Rebate for Electricity Consumers Act, 2016* and the savings that are anticipated to result from the proposed shifting of the Ontario Electricity Support Program ("OESP") and the Rural or Remote Rate Protection program ("RRRP") costs from ratepayers to provincial revenues. Changes to the Global Adjustment ("GA") are also proposed to be a component of the 25 per cent rate relief under the ONFHP.

On May 11, 2017 t~~T~~he Government introduced Bill 132, which, if passed would ~~is proposing to enact introduce~~ legislation to enable the implementation of the ONFHP (the "Proposed Legislation"). If the Proposed Legislation is passed, the implementation of the ONFHP will require the participation of the Ontario Power Generation ("OPG") and the Independent Electricity System Operator ("IESO") among other government entities. Both the OPG and the IESO have each requested an indemnity covering their respective corporations, subsidiaries (in the case of OPG), agents (in the case of IESO), directors, officers and employees in relation to their respective roles in carrying out the implementation of the ONFHP if the Proposed Legislation is passed.

Commented [PMK1]: This seems out of date now.

Commented [HM2]: I've updated

The Ministry is seeking the approval pursuant to section 28 of the *Financial Administration Act* (Ontario) to provide these indemnities, in the forms attached as Appendix "A" and Appendix "B" (collectively the "Indemnities" and individually the "Indemnity"), on behalf of the Crown to the OPG and IESO, respectively.

Timing:

Approval is sought by June 1, 2017. The Indemnities are required in conjunction with the coming into force of the Proposed Legislation, if passed.

2. RECOMMENDATION

Approve the giving of the Indemnities to OPG and IESO on the condition that such Indemnities shall only come into effect at the date upon which the proposed legislation is passed.

3. BACKGROUND

~~***OPG – Role in Implementation of ONFHP***~~

OPG – Role in Implementation of Ontario's Fair Hydro Plan (ONFHP)

OPG will play a central role in the implementation of the ONFHP, particularly with respect to the implementation of the GA refinancing component of the ONFHP. As part of the ONFHP, it was announced that a portion of the GA would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would result in a deferred GA amount that a special purpose entity created by OPG (i.e. a financing entity) is expected to finance. Risks associated with carrying out this role would fall outside of the scope of OPG's usual business/operations risks and would arise solely due to the OPG's role in implementation of the ONFHP. Examples of these risks include, without limitation:

- liability as a promoter under Canadian securities laws (or the equivalent, if any, under other applicable securities laws);
- secondary market liability under Canadian and/or other applicable securities laws;
- liability the signatories to the prospectuses will have (i.e., the individuals signing the prospectus); and
- liability of OPG as the Financial Services Manager under any of the transaction agreements (e.g., the Financial Services Management Agreement, the Administration Agreement, the MSSA, the Master Trust Indenture and any Supplemental Indentures).

As a result, pre-existing indemnities and protections do not adequately protect OPG, its subsidiaries and each of their respective directors, officers and employees as explained further below.

Providing the requested Indemnity to OPG would help facilitate OPG undertaking its role with respect to the implementation of the ONFHP.

~~The OPG will play a central role in the implementation of the ONFHP, particularly with respect to the implementation of the GA refinancing component of the ONFHP.~~

~~As part of ONFHP, it was announced that a portion of the GA would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would result in a deferred GA amount that OPG is expected to fund from a special purpose entity that OPG creates (i.e. a financing entity). It is likely that risks associated with carrying out this role would fall outside of the scope of OPG's usual business/operations risks and would arise solely due to the OPG's role in implementation of the ONFHP. This is particularly true with respect to any securities offerings of OPG's financing entity. Products are expected to be offered into the Canadian and U.S. Markets. As a result, pre-existing indemnities and protections do not adequately protect OPG, its directors, officers and employees.~~

Draft

~~Providing the requested Indemnity to OPG would help facilitate OPG undertaking its role with respect to the implementation of the ONFHP.~~

IESO – *Role in Implementation of ONFHP*

The Proposed Legislation, if passed would impose certain obligations and requirements on IESO to carry out various activities in relation to the implementation of the ONFHP such as the deferral of costs related to the GA, the creation of a regulatory asset in relation to the GA financing component of the ONFHP, the conveyance of that asset to OPG's financing entity and providing a servicing role in recovering OPG's funding costs from future ratepayers. IESO may also be required to play a role in potential securities offerings of OPG's financing entity. If so, this may come with heightened exposure to liability for the IESO, particularly for offerings into the US market.~~.~~ IESO has expressed concern that all of this drives an increased risk of liability to the IESO, its directors, officers and employees, which is over and above typical operations risks and arises solely due to the ONFHP.

Providing the requested Indemnity would help facilitate the IESO's undertaking of the activities requested by the Minister in order to facilitate the implementation of the ONFHP.

4. ANALYSIS SUPPORTING RECOMMENDATION

(a) Why the Indemnities are being sought?

(i) Indemnities are required to facilitate IESO and OPG in carrying out their respective roles in implementing the ONFHP

Commented [HM3]: OPG/IESO input required on this regarding the specific risks they are concerned about.

~~The provision of the Indemnities to the IESO, OPG and their respective directors, officers and employees is required in order to facilitate the carrying out of implementation of the ONFHP in the event that the Proposed Legislation is passed. Both OPG and the IESO are anticipated to carry out activities that fall outside the scope of their typical business activities and corporate mandate. This creates the risk that such activities could be perceived as not being carried out in "good faith" or in the best interest of the corporation thereby exposing OPG and/or the IESO to increased liability (statutory protections from liability only extend to "good faith acts". This is further described in section (ii) below). If the indemnities are not provided, this could impact the OPG and IESO directors' willingness to undertake such activities jeopardizing the successful implementation of the ONFHP. Both the IESO and OPG have specifically asked for these Indemnities in order to allow them to carry out their roles in implementing the ONFHP.~~

~~Providing OPG and the IESO with the requested Indemnities will provide them with assurance against liability in order to allow them to comprehensively carry out their respective roles in the successful implementation of the ONFHP.~~

~~To the extent that a claim would be covered under any other indemnity provided to OPG or IESO by the Province, or provided by OPG or IESO to their directors, officers and employees, these Indemnities would not apply. Language to address any possible duplication is included in the attached Indemnities.~~

The provision of the Indemnities to the IESO, OPG, OPG's subsidiaries, and each of their respective directors, officers and employees, as well as IESO's agents is required in order to facilitate the carrying out of implementation of the ONFHP in the event that the Proposed Legislation is passed. Both OPG and the IESO are anticipated to carry out activities that fall outside the scope of their typical business activities and corporate mandate which existing indemnities would address. This creates the risk that such activities could be perceived as not being carried out in "good faith" or in the best interest of the corporation thereby exposing OPG and/or the IESO to increased liability (statutory protections from liability only extend to "good faith acts". In addition the statutory protections do not indemnify for costs relating to defending a claim. This is further described in section (ii) below). Examples of specific risks to OPG include, without limitation:

- liability as a promoter under Canadian securities laws (or the equivalent, if any, under other applicable securities laws);
- secondary market liability under Canadian and/or other applicable securities laws;
- liability that the signatories to the prospectuses will have (i.e., the individuals signing the prospectus); and
- liability of OPG as the Financial Services Manager under any of the transaction agreements (e.g., the Financial Services Management Agreement, the Administration Agreement, the MSSA, the Master Trust Indenture and any Supplemental Indentures).

Formatted: List Paragraph,Bullet List 1,Heading 4 test,Unordered List Level 1,Indented Paragraph, Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Examples of specific risks to the IESO include without limitation,

- liability for its role in potential securities offerings of OPG's financing entity. This may come with heightened exposure to liability for the IESO, particularly for offerings into the U.S. market. It is not clear whether the statutory protections would apply federally or in the U.S. context. If they would not extend to a U.S. claim, for example, it would support the need for a separate indemnity for the IESO.

Formatted: List Paragraph,Bullet List 1,Heading 4 test,Unordered List Level 1,Indented Paragraph, Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

If the indemnities are not provided, this could impact OPG and the IESO's willingness to undertake such activities jeopardizing the successful implementation of the ONFHP.

Both the IESO and OPG have specifically asked for these Indemnities in order to allow them to carry out their roles in implementing the ONFHP. Providing OPG and the IESO with the requested Indemnities will provide them with assurance against liability in order to allow them to comprehensively carry out their respective roles in the successful implementation of the ONFHP.

To the extent that a claim would be covered under any other indemnity provided to OPG or IESO by the Province, or provided by OPG and IESO to any of its subsidiaries (in the case of OPG), agents (in the case of the IESO), directors, officers and employees, these Indemnities

Draft

would not apply. Language to address any possible duplication is included in the attached Indemnities.

Existing indemnities previously provided by the Province to OPG have been limited to specific directives provided to OPG by the Province (e.g., in connection with the Bruce Lease). Accordingly, the scope of the existing indemnities provided by the Province would not cover the ONFHP. The IESO does not have any other indemnity from the Province.

Formatted: Normal, None

(ii) Statutory Immunity does not preclude a person from bringing an action or other civil proceeding

Subsection 19(1) of the *Electricity Act, 1998* provides IESO directors, officers and employees with the following protection from liability:

> "No action or other civil proceeding shall be commenced against a director, officer, employee or agent of the IESO or a member of a committee or panel established by the board of directors of the IESO for any act done in good faith in the exercise or performance or the intended exercise or performance of a power or duty under any Act, the regulations under any Act, the IESO's licence, the IESO's by-laws or the market rules, or for any neglect or default in the exercise or performance in good faith of such a power or duty."

The *Electricity Act, 1998* does not contain a similar statutory immunity for OPG's directors, officers, employees or agents. However, under subsection 39(2) of the Proposed Legislation, a statutory immunity is provided to the OPG's employees. This provision states:

> "No action or other civil proceeding shall be commenced against any employee of the Province or Ontario Power Generation Inc. for any act done in good faith in the exercise or performance or the intended exercise or performance of a power or duty under [the Proposed Legislation], the regulations or for any alleged neglect or default in the exercise or performance in good faith of such a power or duty."

Subsection 39(2) of the Proposed Legislation provides that nothing in subsection 39(1) limits the effect of subsection 19(1) of the *Electricity Act, 1998.*

The statutory immunities provided under the *Electricity Act, 1998* and the Proposed Legislation prohibits/would prohibit an action or other civil proceeding from being commenced against the enumerated protected persons under the respective provisions for any act done in good faith in the exercise or performance of their duties. Nothing precludes a person from bringing an action

or other civil proceeding against these persons causing them to incur costs in defending the claim (for example, arguing that the act was not carried out in "good faith").

The immunity from suit provisions outlined above, are qualified by the words "for any act done in good faith in the exercise or performance or intended exercise or performance of a power or duty under this Act…" This is a question of fact that needs to be considered by a court of competent jurisdiction. As such, statutory immunity would not necessarily be a bar to litigation and does not ensure that the IESO and OPG's employees, officer or directors (as applicable) would not become embroiled in litigation.

In the case of OPG, there is no similar statutory immunity explicitly provided for its directors or officers, or each of its subsidiaries, their directors, officers, or employees so the risk of litigation is greater for these individuals in the even the Proposed Legislation is passed.

For the reasons mentioned above, the Indemnities requested under this application would ensure that if a claim is brought against ~~OPG or IESO's directors, officers, and employees~~the protected persons as a result of carrying out their roles in implementing the ONFHP (despite the statutory immunities provided or that will be provided if the Proposed Legislation is passed), they are protected for any costs, losses etc. subject to the limitations provided for in the Indemnities.

(b) Description of the risk and any risk mitigants.

The ONFHP is a novel program, the first of its kind in Canada. Because the work to be undertaken by OPG and IESO in carrying out their roles in implementing the ONFHP will fall outside of the usual operations/business risk that these corporation's face, there is a risk that these corporations may be subject to increased liability specifically due to their roles with the ONFHP. This risk arises in part because of the kind of market that OPG, and IESO indirectly, are to participate in, and the steps that investors could take to protect their investments.

The risk to the Province of giving the Indemnities is undeterminable at this time, but any such risk may be mitigated by the following factors:

1) In the case of the IESO, the existence of a statutory immunity under subsection 19(1) of the *Electricity Act, 1998* may mitigate against a liability arising against its directors, officers and employees, but as mentioned, does not eliminate such risk.

2) In the case of OPG, the proposed statutory immunity under subsection 39(1) of the Proposed Legislation may mitigate against a liability arising against its employees, but as mentioned, does not eliminate such risk.

3) The Indemnities is limited ~~specifically~~ to claims arising in relation

Draft

to IESO and OPG's respective role in implementing the ONFHP in the event that the Proposed Legislation is passed.

4) The Indemnities do not apply with respect to claims for which coverage is provided and paid under insurance, for which indemnity is already provided and paid to the OPG or IESO or its respective directors, officers or employees, or is brought about by the dishonesty, gross negligence or willful misconduct of the ~~director~~protected persons.

A contingent liability table is attached as Appendix "C"

(c) Scope of liability in the Indemnities

The Province would agree to indemnify and hold harmless the IESO and OPG as well as their respective directors, officers and employees from any claims, liabilities, costs or losses that might arise to the corporation, him or her (respectively) as a result of their direct roles in carrying out activities related to the implementation of the ONFHP.

The Indemnities would not apply with respect to ~~c~~lossesl~~aim~~s:

(a) for which coverage is provided under an insurance policy ~~or claims fund~~ to the extent that the protected person is actually s~~o indemnified or covered~~paid under such policy ~~or fund~~for those losses; or

(b) for which other indemnities are already provided to the protected person but only to the extent that the Protected Person is actually so indemnified for those losses by such indemnities;

(c) ~~brought about or contributed to by~~is the result of the~~a~~ Protected Person's dishonesty, gross negligence or willful misconduct, but only such ~~if a judgment or other final adjudication adverse to the Protected Person establishes that there was~~ dishonesty, gross negligence or willful misconduct on the Protected Person's part ~~which was material to the cause of action as adjudicated~~has been established by a final and non-appealable judgment or other final adjudication adverse to the Protected Person;~~;~~ or

(d) to the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

Commented [PMK4]: Why is the carve out limited to 'gross' negligence vs just negligence?

Commented [HM5]: Gross negligence is used to be consistent with the OBCA requirement.

Commented [PMK6]: Small point, but I think this should say 'protected person' since people other than directors would be covered.

Commented [HM7]: I've changed the reference accordingly.

Draft

OPG's indemnity, with respect to clause (c) above, further provides that the Province agrees that it does not intend that any failure by a Protected Person to conduct a reasonable investigation with respect to advising the OPG about misrepresentations in any prospectus, registration statement or other securities/offering document, shall constitute "gross negligence" or "wilful misconduct" for this purposes of clause (c) above and does not disentitle the protected person from the Indemnity. This language has been included at the request of OPG in order to provide additional clarity to limit the OPG's liability with respect to carrying out any investigation of securities/offering documents.

The Indemnities would not apply with respect to ~~claims~~ losses for which coverage is provided and paid under insurance, or which are covered by another indemnity~~-~~under which the protected person is already so indemnified~~already provided~~;~~,~~ for claims brought about by the dishonesty, gross negligence or willful misconduct of the persons protected under the Indemnities;~~,~~ or for claims arising from circumstances where the ~~corporation, director, officer or employee~~protected persons did not have grounds for believing that their conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

(d) Effect of failure to obtain section 28 approval

If the requested Indemnities are not provided, this could impact the OPG and IESO directors' willingness to fully undertake their roles in implementing the ONFHP thereby jeopardizing the successful implementation of this plan in the event the Proposed Legislation is passed. For example, IESO directors may not be willing to carry out certain activities that would fall outside of the scope of its typical business activities and mandate if they view these as creating a risk of liability. Providing the Indemnities, would give OPG and IESO, along with their directors, officers and employees to more confidently carry out their role in implementing the ONFHP.

CONFIDENTIAL DRAFT

INDEMNITY

THIS INDEMNITY effective as of this day of June, 2017.

BETWEEN: **The Independent Electricity System Operator**
(hereinafter the "**Corporation**")

OF THE FIRST PART,

Her Majesty the Queen in Right of the Province of Ontario as Represented by the Minister of Energy

(hereinafter called the "**Province**"),

OF THE SECOND PART

WHEREAS the Corporation is required to carry out certain activities with respect to the implementation of the *Ontario Fair Hydro Plan Act* (the "Act").

A**ND WHEREAS** the Corporation, and its directors, officers and employees, may, as a result of the Corporation's role in the implementation of the Act, face ~~risk~~risks of liability which ~~extends~~extend beyond the typical operations risk of the Corporation ~~and which may arise solely due to the Corporation's role in the implementation of the Act~~.

NOW THEREFORE, in consideration of the sum of $1.00 now paid by the Corporation to the Province (the receipt of which is hereby acknowledged), the Province hereby agrees:

1. to indemnify and save harmless the Corporation and each of its directors, officers, ~~and employees~~employees or agents of the Corporation or a member of a committee or panel established by the directors of the Corporation (collectively the "Protected Persons" and individually, a "Protected Person") from and against all losses, costs, charges, expenses, claims, demands and liabilities directly or indirectly suffered, sustained or incurred by ~~the~~a Protected ~~Persons~~Person arising ~~specifically~~ as a result of, or in connection with, the ~~Protected Persons' direct~~IESO's role in carrying out activities related to the implementation of the Act (collectively, "Claims" and individually, a "Claim"), **[IESO note: we request that the indemnity not be limited to actions arising specifically as a result of a Persons' "direct" role. We request that the indemnity be broad enough to include actions that arise due to the IESO's role in implementing the Act. We prefer to not have to argue, if the indemnity is ever called on, whether something was "specifically" as a result of, or related to a "direct" role.]**

~~2. This indemnity does not apply with respect to Claims:~~

2. A Protected Person shall not be entitled to be indemnified in respect of a Claim, or a portion thereof:

(a) for which coverage is provided under an insurance policy or claims fund to the extent that ~~a~~ payment has been made thereunder to such Protected Person~~ is actually so indemnified or covered under such policy;~~ or~~ fund; or~~

(b) for which other indemnities are already provided to a Protected Person to the extent that ~~the~~ payment has been made to such Protected Person ~~is actually so indemnified by~~under such indemnities; or

(c) ~~brought about or contributed to by a~~is the result of such Protected Person's dishonesty, gross negligence or willful misconduct, but only if ~~a judgment or other final adjudication adverse to the Protected Person establishes that there was~~such dishonesty, gross negligence or willful misconduct on the Protected Person's part has been established by a final and non-appealable judgment or other final adjudication adverse to the Protected Person.

(d) To the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

Commented [A1]: I've re-inserted this provision. This provision is part of the standard Indemnity Template that we typically use. We would like to include in order to ensure consistency with the OPG indemnity.

3. Each Protected Person shall:

~~(a)~~ upon becoming aware of a Claim for which ~~was material to the cause of action as adjudicated; or~~

~~4. In order to be entitled to~~ such Protected Person may seek indemnification hereunder~~ in respect of any notice of a Claim that the Protected Person receives, the Protected Person must:~~

~~(f)~~(a) ~~immediately and without delay~~, as soon as practicable deliver to the Province (through the Director of the Legal Services Branch of the Ministry of Energy) a notice setting forth in reasonable detail the particulars of the Claim~~(s)~~;

Commented [A2]: Change made to be consistent with OPG edits to its indemnity.

~~(g)~~(b) upon written request of the Province, acting reasonably, furnish to the Province copies of any document, or provide to the Province any information that relates to the Claims~~(s)~~ that is in the possession or under the control of the Protected Person;

~~(h)~~(c) take all reasonable steps necessary to secure and preserve the rights of the Protected Person in respect of the Claim; and

~~(i)~~(d) promptly take all ~~necessary~~ reasonable steps to obtain indemnification or coverage to the fullest extent possible under insurance policies or claims funds, or under indemnities provided by the Corporation, that are referred to in subsections 2(a) or (b) above.

A failure ~~to give prompt notice as provided in this section 3 shall not affect the rights or obligations~~on the part of a Protected Person to take any ~~party to this indemnity, and only~~of the actions provided in this section 3 shall not affect the rights of such Protected Person except to the extent that, as a result of such failure, ~~the party which was entitled to receive such notice~~~~Ontario~~ the Province was actually prejudiced. A failure on the part of a Protected Person to take any of the actions provided in this section 3 shall not affect the rights of any other Protected Person.

4. The Province shall have the right to participate in or assume control of the negotiation, settlement or defence of the Claim(s) and in no event shall a Protected Person negotiate, settle, compromise or pay the Claim(s) without the prior written consent of the Province. If the Province elects to participate in or assume control of the negotiation, settlement or defence of the Claim(s), ~~the~~each Protected Person shall co-operate fully with the Province in connection with the same, and ~~the~~each Protected Person shall agree to be represented by legal counsel chosen by the Province, unless, in the opinion of such legal counsel, there would arise a conflict of interest preventing such legal counsel from representing ~~the~~such Protected Person. Where it is such legal counsel's opinion that a conflict of interest prevents that legal counsel representing the Protected Person, the Protected Person will be entitled, after consultation with the Province and acting reasonably, to obtain legal counsel of the Protected Person's choice, and the fees and expenses of the Protected Person's counsel incurred in the Protected Person's representation shall be costs to which this indemnity extends.

5. For greater clarity, with respect to directors, officers and employees of the Corporation this indemnity shall only apply to Claim(s) that are referable to the period during which a director, officer or employee of the Corporation is actually a director, officer or employee (respectively) of the Corporation, ~~and of which notice is received by the Province either during the period of time that the director, officer, or employee is a director officer, employee of the Corporation or after he or she ceases to be a director, officer, employee of the Corporation.~~

6. This indemnity shall be interpreted and governed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

7. The provisions of this agreement and the benefit of all covenants herein contained shall enure to the benefit of the Protected Persons and the Protected Persons' heirs, administrators, executors and assigns as applicable.

Formatted: Indent: Left: 1.5"

Formatted: Font color: Green

Commented [A3]: Again – this is standard language we include in our indemnities. Please advise what the risk to IESO is with including this provision.

NOW THEREFORE, the parties have executed this indemnity as of the day and year first above written.

Hi again – the TBS DM has agreed with the staff recommendation here that it would be best if this request went to the Minister of Finance rather than the President of TB, since it primarily covers financing activities and since it fits in with/overlaps with some of the other activities that MOF and the OFA are more directly involved in.

I know this is coming somewhat late so wanted to check in with you both to make sure you're comfortable with that approach before I suggest to Harkamal that she and her clients direct their request to MOF. Happy to stay involved or help out, or discuss if you have concerns.

Thanks,

Paul

Hi – as discussed with Malle just now, attached are the latest materials that we received through energy legal, and a note to the TBS client that summarizes a discussion I had this morning with Harkamal about this.

Thanks,

Paul

To: Strang, James (TBS)
Cc: Fung, Felix (TBS); Compagnone, Lisa (TBS)
Subject: FW: OPG/IESO Indemnities - Section 28 Approvals

James, I spoke to counsel at Energy about the proposed revisions to the boilerplate indemnity agreements. I told her that some minor clarifications to the existing text likely wouldn't raise concerns here, but that even minor changes might add some time to the approvals process on our end.

The changes that OPG is proposing are more substantive in nature and in a number of cases seem like they would result in the province assuming more than a reasonable amount of risk. Energy legal agrees with this and it sounds like energy is going to push back pretty hard with OPG. They also understand that we'll need them to provide a rationale for any substantive deviations from the original draft agreements.

It sounds like Energy is hoping to finalize the agreements today or tomorrow and proceed with approvals on their end. They hope to get us a minister-signed request by early next week, but will share the materials that they send up the line in the interim.

I also flagged the appropriations issue and they are going to consider it further. I didn't note the section 22 option because, as discussed, it's not clear if MOF would be comfortable with it. Our branch is going to discuss this file with MOF legal today, and we understand they are also talking to the OFA today.

Cc: Strang, James (TBS); Montgomery, Kaitlin (MOF); Ho, Larissa (ENERGY)
Subject: RE: OPG/IESO Indemnities - Section 28 Approvals

Thanks for this Paul.

We received comments back from OPG and IESO on the Business case as well as on the indemnity agreements. I've attached the updated business case that includes changes to reflect your comments as well as OPG and IESO's comments. Please let us know if you have any further concerns.
On the indemnity agreements, we are working through the proposed changes that both IESO and OPG have proposed to them. The IESO indemnity agreement changes that the IESO has proposed appear to be okay, and I've just made some further edits/comments that I am in the process of clarifying with IESO. Could you please take a look at the attached and let us know if there are any concerns from your end on the changes?
The OPG changes to its indemnity agreement are much more substantial and we are working through them still, however, I am wondering whether you can take a look and let us know if you or your policy clients have any significant concerns as well in the interests of time. The changes seem to be more for clarity, but given that they differ from the standard template language just wanted to make sure TBS is comfortable. Both clean and tracked versions of the OPG indemnity agreement are attached.
If it is easier and would be quicker to have a call to discuss, I would be happy to set something up.
Thank you,
Harkamal

Thanks very much Paul – we've asked OPG/IESO to provide us with specifics on the risks as they would be in the best position to advise on these. I am hoping to receive their input by tomorrow and will send to you accordingly.

On the timing of the security offerings, I am assuming you are asking about the security offerings to be made to the investors with respect to the special purpose entity. We don't have a certain date but generally I believe we are looking at some time in Fall 2017 (Tim/Kaitlin, please correct me if I am wrong on this).

If you have further questions, please let us know.

Best regards,

Harkamal

Hi Harkamal – we're still reviewing whether this might go to MOF instead of TBS, but in the interim had some questions from the information set out in the business case:

Can some examples of the risks associated with securities offerings (generally, typically)be provided, and on how Energy might mitigate those risks risk?

Also, can Energy provide info on timing of securities offerings (when expecting to be in the market)?

I'll have some more technical feedback that I'll likely get to you tomorrow.

Thanks,

Paul

Subject: OPG/IESO Indemnities - Section 28 Approvals

Hi Paul,

As discussed, I've attached our draft s.28 approval materials as well as the indemnity agreements for the IESO and OPG. We are also consulting further with OPG and IESO on providing input on the risks to them if the indemnities are not provided so there may be further changes to these materials based on comments from OPG/IESO. These materials are drafts for TBS legal/policy review and input before we finalize. Once we've addressed TBS' comments we will submit the finalized documents for formal s.28 approval.

As mentioned, we require the section 28 approval by June 1, 2017, so if there is anything we can do to assist with speeding things up, please let us know as we recognize these are tight timelines.

Also, I understand that this is to go to TBS for approval (this goes back to our conversation earlier, whether Finance or TBS needs to approve). Please let us know if you hear otherwise.

If you require anything else from us please let us know. I've copied our program area clients on this email as well.

Many thanks,

Harkamal

CONFIDENTIAL DRAFT

INDEMNITY AGREEMENT

THIS INDEMNITY AGREEMENT effective as of this day of June, 2017.

BETWEEN: **Ontario Power Generation Inc.**
(hereinafter the "**Corporation**")

OF THE FIRST PART,

Her Majesty the Queen in Right of the Province of Ontario as Represented by the Minister of Energy

(hereinafter called the "**Province**")

OF THE SECOND PART

WHEREAS the Corporation and/or one or more of its subsidiaries may or, in certain circumstances is or will be required to, carry out certain activities with respect to (i) the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), (ii) the regulations made pursuant to the Act, and/or (iii) the agreements (A) relating to any financing entity (as defined in the Act) and/or any debt issued by any such financing entity and/or (B) to which any such financing entity is a party (the Act, such regulations and agreements, collectively the "**Fair Hydro Plan**").

AND WHEREAS the Corporation, its subsidiaries and each of their respective directors, officers and employees may face risk of liability due to or as a result of the Fair Hydro Plan.

NOW THEREFORE, in consideration of the sum of $1.00 now paid by the Corporation to the Province and other good and valuable consideration (the receipt of which is hereby acknowledged), the Province hereby agrees:

1. To indemnify, defend and save harmless the Corporation, each of the Corporation's subsidiaries and each of their respective directors, officers, and employees (collectively the "**Protected Persons**" and individually, a "**Protected Person**") from and against all losses, costs, damages, charges, expenses, demands, liabilities, taxes, fines, penalties, statutory payments, judgments and/or settlement amounts directly or indirectly suffered, sustained or incurred by any Protected Person, including any special, indirect, incidental, punitive, exemplary and/or consequential damages and/or loss of profits and damages in respect of economic loss and/or loss of opportunity, and all legal and other professional fees and out-of-pocket expenses (collectively, "**Losses**"), in relation to any civil, criminal, administrative, investigative and/or other claim, demand, action, suit, application, litigation, charge, complaint, prosecution, assessment, reassessment, investigation (formal or informal), hearing and/or

other proceeding of any nature or kind whatsoever (any of the foregoing being a "**Claim**") arising, directly or indirectly, as a result of the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected Person's activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

2. This indemnity does not apply with respect to Losses of a Protected Person:

    (a) for which coverage is provided under an insurance policy but only to the extent that a Protected Person is actually paid under such insurance policy for those Losses; or

    (b) for which other indemnities are already provided to a Protected Person but only to the extent that the Protected Person is actually so indemnified for those Losses by such indemnities; or

    (c) if and to the extent that a court of competent jurisdiction in a final, non-appealable judgment determines that the Claim associated with such Losses resulted from the gross negligence or willful misconduct of the Protected Person claiming such indemnity; for greater certainty, and notwithstanding Section 2(d), the Province agrees that it does not intend that any failure by a Protected Person to conduct such reasonable investigation as necessary to provide the Corporation, a subsidiary of the Corporation or a financing entity, as applicable, with reasonable grounds for believing any prospectus, registration statement, offering document or any other document filed by, or on behalf of, a financing entity under applicable securities laws contained no misrepresentation shall constitute "gross negligence" or "wilful misconduct" for purposes of this Section 2(c) or otherwise disentitle a Protected Person from indemnification hereunder; or

    (d) to the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

3. In order to be entitled to indemnification hereunder in respect of any Losses, the Protected Person shall:

    (a) as soon as practicable, deliver to the Province (through the Director of the Legal Services Branch of the Ministry of Energy) a notice setting forth in reasonable detail the particulars of any Claim;

    (b) upon written request of the Province, furnish to the Province copies of any document, or provide to the Province any information, that relates to the Claims that is in the possession or under the control of the Protected Person (except to the extent that provision of same would cause the Protected Party to lose its entitlement to claim privilege with respect to same);

DRAFT

(c) take all reasonable steps, at the expense of the Province, necessary to secure and preserve the rights of the Protected Person in respect of the Claim; and

(d) promptly take all reasonable steps to obtain indemnification to the fullest extent possible under insurance policies, or under indemnities provided by the Corporation, that are referred to in subsections 2(a) or (b) above.

A failure to give prompt notice as provided in this section 3 shall not affect the rights or obligations of any party to this indemnity unless and only to the extent that such failure to provide such prompt notice has actually prejudiced the Province.

4. The Province shall have the right to participate in or, where the Province has confirmed in writing to the applicable Protected Person(s) that all Losses in respect of a Claim will be fully indemnified under this indemnity agreement, assume control of the negotiation, settlement or defence of the Claim and in no event shall a Protected Person negotiate, settle, compromise or pay the Claim without the prior written consent of the Province, such consent not to be unreasonably withheld, delayed or conditioned. If the Province elects to so participate in or assume control of the negotiation, settlement or defence of the Claim, the applicable Protected Person(s) shall co-operate fully with the Province in connection with the same, and each applicable Protected Person shall agree to be represented by legal counsel chosen by the Province, unless, in the opinion of such legal counsel, there would arise a conflict of interest preventing such legal counsel from representing the applicable Protected Person. Where it is such legal counsel's opinion that a conflict of interest prevents that legal counsel representing a Protected Person, the Protected Person will be entitled, after consultation with the Province and acting reasonably, to obtain legal counsel of the Protected Person's choice, and the fees and expenses of the Protected Person's counsel incurred in the Protected Person's representation shall be Losses to which this indemnity extends. The Province shall not agree to any settlement of a Claim on behalf of a Protected Person without the Protected Person's written consent unless (i) the terms of such settlement require only the payment of money (by persons or entities other than the Protected Person) and include an unconditional, full release of the Protected Person, and do not require a Protected Person to admit any wrongdoing or take or refrain from taking any action and (ii) the Province has fully indemnified the Protected Person with respect to, and held the Protected Person harmless from and against, all Losses incurred by or on behalf of the Protected Person in connection with the Claim.

5. The Province shall reimburse or advance the funds necessary for the payment of Losses incurred in connection with any Claim, including without limitation, the investigation, monitoring, defence and appeal thereof, in advance of the final disposition of such Claim, within thirty (30) days of any request in writing by a Protected Person to the Province for such reimbursement or advance, accompanied by reasonable details and supporting documentation with respect to the Losses in respect of which such reimbursement or advance is requested. The Protected Person shall repay forthwith any advances that are ultimately in excess of amounts necessary for payment of any such Losses or for which it is judicially determined that the Protected Person is not entitled to indemnification hereunder.

DRAFT

6. The Province hereby waives any claim it, as the shareholder of the Corporation, could otherwise make against a Protected Person, whether now or in the future, relating in any way to the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected Person's activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

7. The Province represents and warrants to each Protected Person as follows and acknowledges that each Protected Person is relying on the following representations and warranties in connection with any and all of its activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation):

    (a) the Province has all necessary power, authority and capacity to enter into this indemnity agreement and to perform its obligations hereunder;

    (b) all necessary actions have been taken by the Province or on the Province's part to authorize its execution and delivery of this indemnity agreement and the performance of its obligations hereunder, and without limiting the foregoing, the Province has received all necessary approvals under the *Financial Administration Act* (Ontario) (including approval of the Minister of Finance pursuant to Section 28 of the *Financial Administration Act* (Ontario)) and under the Act required for it to enter into this indemnity agreement and perform its obligations hereunder;

    (c) this indemnity agreement has been duly executed and delivered by the Province and is a legal, valid and binding obligation of it enforceable against it in accordance with its terms, except as that enforcement may be limited by the provisions of the *Proceedings Against the Crown Act* (Ontario), subject to bankruptcy, insolvency, reorganization, moratorium or similar laws now or hereinafter in effect relating to creditors' rights generally, to the application of equitable principles and except that equitable remedies may be granted only in the discretion of a court of competent jurisdiction, to section 11.3 of the *Financial Administration Act* (Ontario) and to section 43 of the *Financial Administration Act* (Ontario).

8. It is the intention of the Province to constitute the Corporation as trustee for the Protected Parties that are not party to this indemnity agreement of the covenants, waivers, representations, warranties and obligations of the Province under this indemnity agreement and the Corporation agrees to accept such trust and to hold and enforce such covenants, representations, warranties and obligations on behalf of such Protected Parties.

9. This indemnity agreement shall be interpreted and governed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

DRAFT

10. The provisions of this indemnity agreement and the benefit of all covenants, waivers, representations, warranties and other obligations herein contained shall enure to the benefit of the Protected Persons and the Protected Persons' heirs, administrators, executors and assigns as applicable.

NOW THEREFORE, the parties have executed this indemnity as of the day and year first above written.

CONFIDENTIAL DRAFT

INDEMNITY AGREEMENT

THIS INDEMNITY AGREEMENT effective as of this day of June, 2017.

BETWEEN: **Ontario Power Generation Inc.**
(hereinafter the "**Corporation**")

OF THE FIRST PART,

Her Majesty the Queen in Right of the Province of Ontario as Represented by the Minister of Energy

(hereinafter called the "**Province**")~~,~~

OF THE SECOND PART

WHEREAS the Corporation ~~is~~and/or one or more of its subsidiaries may or, in certain circumstances is or will be required to, carry out certain activities with respect to ~~the implementation of~~(i) the *Ontario Fair Hydro Plan Act* ~~(the "Act~~, *2017* (the "Act"), (ii) the regulations made pursuant to the Act, and/or (iii) the agreements (A) relating to any financing entity (as defined in the Act) and/or any debt issued by any such financing entity and/or (B) to which any such financing entity is a party (the Act, such regulations and agreements, collectively the "Fair Hydro Plan").

AND WHEREAS the Corporation, its subsidiaries and each of their respective directors, officers and employees may face risk of liability ~~which extends beyond the typical operations risk of the Corporation and which may arise solely due to the Corporation's role in the implementation~~due to or as a result of the ~~Act.~~Fair Hydro Plan.

NOW THEREFORE, in consideration of the sum of $1.00 now paid by the Corporation to the Province and other good and valuable consideration (the receipt of which is hereby acknowledged), the Province hereby agrees:

1. ~~to~~To indemnify, defend and save harmless the Corporation, each of the Corporation's subsidiaries and each of ~~its~~their respective directors, officers, and employees (collectively the "**Protected Persons**" and individually, a "**Protected Person**") from and against all losses, costs, damages, charges, expenses, ~~claims,~~ demands ~~and~~, liabilities, taxes, fines, penalties, statutory payments, judgments and/or settlement amounts directly or indirectly suffered, sustained or incurred by ~~the Protected Persons arising specifically~~any Protected Person, including any special, indirect, incidental, punitive, exemplary and/or consequential damages and/or loss

of profits and damages in respect of economic loss and/or loss of opportunity, and all legal and other professional fees and out-of-pocket expenses (collectively, "Losses"), in relation to any civil, criminal, administrative, investigative and/or other claim, demand, action, suit, application, litigation, charge, complaint, prosecution, assessment, reassessment, investigation (formal or informal), hearing and/or other proceeding of any nature or kind whatsoever (any of the foregoing being a "Claim") arising, directly or indirectly, as a result of the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected ~~Persons' direct role in carrying out~~Person's activities ~~related to~~, acts and/or omissions in the implementation of, or otherwise relating to, the ~~Act (collectively, "Claims" and individually, a "Claim"),~~ Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

2. This indemnity does not apply with respect to ~~Claims~~Losses of a Protected Person:

(a) for which coverage is provided under an insurance policy ~~or claims fund~~but only to the extent that a Protected Person is actually ~~so indemnified or covered~~paid under such insurance policy ~~or fund~~for those Losses; or

(b) for which other indemnities are already provided to a Protected Person but only to the extent that the Protected Person is actually so indemnified for those Losses by such indemnities; or

(c) ~~brought about or contributed to by a Protected Person's dishonesty, gross negligence or willful misconduct if a judgment or other final adjudication adverse to the Protected Person establishes that there was dishonesty, gross negligence or willful misconduct on the Protected Person's part which was material to the cause of action as adjudicated; or~~if and to the extent that a court of competent jurisdiction in a final, non-appealable judgment determines that the Claim associated with such Losses resulted from the gross negligence or willful misconduct of the Protected Person claiming such indemnity; for greater certainty, and notwithstanding Section 2(d), the Province agrees that it does not intend that any failure by a Protected Person to conduct such reasonable investigation as necessary to provide the Corporation, a subsidiary of the Corporation or a financing entity, as applicable, with reasonable grounds for believing any prospectus, registration statement, offering document or any other document filed by, or on behalf of, a financing entity under applicable securities laws contained no misrepresentation shall constitute "gross negligence" or "wilful misconduct" for purposes of this Section 2(c) or otherwise disentitle a Protected Person from indemnification hereunder; or

(d) to the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was

lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

3. In order to be entitled to indemnification hereunder in respect of any ~~notice of a Claim that the Protected Person receives~~Losses, the Protected Person ~~must~~shall:

   (a) ~~immediately and without delay~~as soon as practicable, deliver to the Province (through the Director of the Legal Services Branch of the Ministry of Energy) a notice setting forth in reasonable detail the particulars of ~~the~~any Claim~~(s)~~;

   (b) upon written request of the Province, furnish to the Province copies of any document, or provide to the Province any information, that relates to the Claims~~(s)~~ that is in the possession or under the control of the Protected Person (except to the extent that provision of same would cause the Protected Party to lose its entitlement to claim privilege with respect to same);

   (c) take all reasonable steps, at the expense of the Province, necessary to secure and preserve the rights of the Protected Person in respect of the Claim~~(s)~~; and

   (d) promptly take all ~~necessary~~reasonable steps to obtain indemnification ~~or coverage~~ to the fullest extent possible under insurance policies ~~or claims funds~~, or under indemnities provided by the Corporation, that are referred to in subsections 2(a) or (b) above.

   A failure to give prompt notice as provided in this section 3 shall not affect the rights or obligations of any party to this indemnity~~,~~ unless and only to the extent that~~, as a result of~~ such failure~~, the party which was entitled to receive~~ to provide such prompt notice ~~was~~has actually prejudiced the Province.

4. The Province shall have the right to participate in or, where the Province has confirmed in writing to the applicable Protected Person(s) that all Losses in respect of a Claim will be fully indemnified under this indemnity agreement, assume control of the negotiation, settlement or defence of the Claim~~(s)~~ and in no event shall a Protected Person negotiate, settle, compromise or pay the Claim~~(s)~~ without the prior written consent of the Province, such consent not to be unreasonably withheld, delayed or conditioned. If the Province elects to so participate in or assume control of the negotiation, settlement or defence of the Claim~~(s)~~, the applicable Protected Person(s) shall co-operate fully with the Province in connection with the same, and ~~the~~each applicable Protected Person shall agree to be represented by legal counsel chosen by the Province, unless, in the opinion of such legal counsel, there would arise a conflict of interest preventing such legal counsel from representing the applicable Protected Person. Where it is such legal counsel's opinion that a conflict of interest prevents that legal counsel representing ~~the~~a Protected Person, the Protected Person will be entitled, after consultation with the Province and acting reasonably, to obtain legal counsel of the Protected Person's choice, and the fees and expenses of the Protected Person's counsel incurred in the Protected Person's representation shall be ~~costs~~Losses to which this indemnity extends. The Province shall not agree to any settlement of a Claim on behalf of

a Protected Person without the Protected Person's written consent unless (i) the terms of such settlement require only the payment of money (by persons or entities other than the Protected Person) and include an unconditional, full release of the Protected Person, and do not require a Protected Person to admit any wrongdoing or take or refrain from taking any action and (ii) the Province has fully indemnified the Protected Person with respect to, and held the Protected Person harmless from and against, all Losses incurred by or on behalf of the Protected Person in connection with the Claim.

5. ~~For greater clarity, with respect to directors, officers and employees of the Corporation this indemnity shall only apply to Claim(s) that are referable to the period during which a director, officer or employee of the Corporation is actually a director, officer or employee (respectively) of the Corporation, and of which notice is received by the Province either during the period of time that the director, officer, or employee is a director officer, employee of the Corporation or after he or she ceases to be a director, officer, employee of the Corporation.~~ The Province shall reimburse or advance the funds necessary for the payment of Losses incurred in connection with any Claim, including without limitation, the investigation, monitoring, defence and appeal thereof, in advance of the final disposition of such Claim, within thirty (30) days of any request in writing by a Protected Person to the Province for such reimbursement or advance, accompanied by reasonable details and supporting documentation with respect to the Losses in respect of which such reimbursement or advance is requested. The Protected Person shall repay forthwith any advances that are ultimately in excess of amounts necessary for payment of any such Losses or for which it is judicially determined that the Protected Person is not entitled to indemnification hereunder.

6. The Province hereby waives any claim it, as the shareholder of the Corporation, could otherwise make against a Protected Person, whether now or in the future, relating in any way to the Corporation's, any of the Corporation's subsidiaries and/or any such other Protected Person's activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including, without limitation, where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation).

7. The Province represents and warrants to each Protected Person as follows and acknowledges that each Protected Person is relying on the following representations and warranties in connection with any and all of its activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan (including where a Protected Person is acting, at the request of the Corporation, in a different capacity than as a director, officer or employee of the Corporation or a subsidiary of the Corporation):

   (a) the Province has all necessary power, authority and capacity to enter into this indemnity agreement and to perform its obligations hereunder;

   (b) all necessary actions have been taken by the Province or on the Province's part to authorize its execution and delivery of this indemnity agreement and the performance of its obligations hereunder, and without limiting the

foregoing, the Province has received all necessary approvals under the *Financial Administration Act* (Ontario) (including approval of the Minister of Finance pursuant to Section 28 of the *Financial Administration Act* (Ontario)) and under the Act required for it to enter into this indemnity agreement and perform its obligations hereunder;

(c) this indemnity agreement has been duly executed and delivered by the Province and is a legal, valid and binding obligation of it enforceable against it in accordance with its terms, except as that enforcement may be limited by the provisions of the *Proceedings Against the Crown Act* (Ontario), subject to bankruptcy, insolvency, reorganization, moratorium or similar laws now or hereinafter in effect relating to creditors' rights generally, to the application of equitable principles and except that equitable remedies may be granted only in the discretion of a court of competent jurisdiction, to section 11.3 of the *Financial Administration Act* (Ontario) and to section 43 of the *Financial Administration Act* (Ontario).

8. It is the intention of the Province to constitute the Corporation as trustee for the Protected Parties that are not party to this indemnity agreement of the covenants, waivers, representations, warranties and obligations of the Province under this indemnity agreement and the Corporation agrees to accept such trust and to hold and enforce such covenants, representations, warranties and obligations on behalf of such Protected Parties.

9. ~~6.~~ This indemnity agreement shall be interpreted and governed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

10. ~~7.~~ The provisions of this indemnity agreement and the benefit of all covenants, waivers, representations, warranties and other obligations herein contained shall enure to the benefit of the Protected Persons and the Protected Persons' heirs, administrators, executors and assigns as applicable.

NOW THEREFORE, the parties have executed this indemnity as of the day and year first above written.

Request for Approval
Pursuant to Section 28 of the *Financial Administration Act* (Ontario)

1. MINISTRY REQUEST

On March 2, 2017, the Premier announced Ontario's Fair Hydro Plan (the "ONFHP"), under which the government proposes to take steps to lower electricity bills on an after-tax basis by 25 per cent for a typical residential customer relative to what those bills would otherwise have been without the ONFHP. This proposed 25 per cent rate relief measure would be inclusive of the 8 per cent rebate that is already in effect under the *Ontario Rebate for Electricity Consumers Act, 2016* and the savings that are anticipated to result from the proposed shifting of the Ontario Electricity Support Program ("OESP") and the Rural or Remote Rate Protection program ("RRRP") costs from ratepayers to provincial revenues. Changes to the Global Adjustment ("GA") are also proposed to be a component of the 25 per cent rate relief under the ONFHP.

On May 11, 2017 t~~T~~he Government introduced Bill 132, which, if passed would ~~is proposing to enact introduce~~ legislation to enable the implementation of the ONFHP (the "Proposed Legislation"). If the Proposed Legislation is passed, the implementation of the ONFHP will require the participation of the Ontario Power Generation ("OPG") and the Independent Electricity System Operator ("IESO") among other government entities. Both the OPG and the IESO have each requested an indemnity covering their respective corporations, subsidiaries (in the case of OPG), agents (in the case of IESO), directors, officers and employees in relation to their respective roles in carrying out the implementation of the ONFHP if the Proposed Legislation is passed.

Commented [PMK1]: This seems out of date now.

Commented [HM2]: I've updated

The Ministry is seeking the approval pursuant to section 28 of the *Financial Administration Act* (Ontario) to provide these indemnities, in the forms attached as Appendix "A" and Appendix "B" (collectively the "Indemnities" and individually the "Indemnity"), on behalf of the Crown to the OPG and IESO, respectively.

Timing:

Approval is sought by June 1, 2017. The Indemnities are required in conjunction with the coming into force of the Proposed Legislation, if passed.

2. RECOMMENDATION

Approve the giving of the Indemnities to OPG and IESO on the condition that such Indemnities shall only come into effect at the date upon which the proposed legislation is passed.

3. BACKGROUND

~~***OPG – Role in Implementation of ONFHP***~~

OPG – Role in Implementation of Ontario's Fair Hydro Plan (ONFHP)

OPG will play a central role in the implementation of the ONFHP, particularly with respect to the implementation of the GA refinancing component of the ONFHP. As part of the ONFHP, it was announced that a portion of the GA would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would result in a deferred GA amount that a special purpose entity created by OPG (i.e. a financing entity) is expected to finance. Risks associated with carrying out this role would fall outside of the scope of OPG's usual business/operations risks and would arise solely due to the OPG's role in implementation of the ONFHP. Examples of these risks include, without limitation:

- liability as a promoter under Canadian securities laws (or the equivalent, if any, under other applicable securities laws);
- secondary market liability under Canadian and/or other applicable securities laws;
- liability the signatories to the prospectuses will have (i.e., the individuals signing the prospectus); and
- liability of OPG as the Financial Services Manager under any of the transaction agreements (e.g., the Financial Services Management Agreement, the Administration Agreement, the MSSA, the Master Trust Indenture and any Supplemental Indentures).

As a result, pre-existing indemnities and protections do not adequately protect OPG, its subsidiaries and each of their respective directors, officers and employees as explained further below.

Providing the requested Indemnity to OPG would help facilitate OPG undertaking its role with respect to the implementation of the ONFHP.

~~The OPG will play a central role in the implementation of the ONFHP, particularly with respect to the implementation of the GA refinancing component of the ONFHP.~~

~~As part of ONFHP, it was announced that a portion of the GA would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would result in a deferred GA amount that OPG is expected to fund from a special purpose entity that OPG creates (i.e. a financing entity). It is likely that risks associated with carrying out this role would fall outside of the scope of OPG's usual business/operations risks and would arise solely due to the OPG's role in implementation of the ONFHP. This is particularly true with respect to any securities offerings of OPG's financing entity. Products are expected to be offered into the Canadian and U.S. Markets. As a result, pre-existing indemnities and protections do not adequately protect OPG, its directors, officers and employees.~~

Draft

~~Providing the requested Indemnity to OPG would help facilitate OPG undertaking its role with respect to the implementation of the ONFHP.~~

IESO – *Role in Implementation of ONFHP*

The Proposed Legislation, if passed would impose certain obligations and requirements on IESO to carry out various activities in relation to the implementation of the ONFHP such as the deferral of costs related to the GA, the creation of a regulatory asset in relation to the GA financing component of the ONFHP, the conveyance of that asset to OPG's financing entity and providing a servicing role in recovering OPG's funding costs from future ratepayers. IESO may also be required to play a role in potential securities offerings of OPG's financing entity. If so, this may come with heightened exposure to liability for the IESO, particularly for offerings into the US market.~~.~~ IESO has expressed concern that all of this drives an increased risk of liability to the IESO, its directors, officers and employees, which is over and above typical operations risks and arises solely due to the ONFHP.

Providing the requested Indemnity would help facilitate the IESO's undertaking of the activities requested by the Minister in order to facilitate the implementation of the ONFHP.

4. ANALYSIS SUPPORTING RECOMMENDATION

(a) Why the Indemnities are being sought?

(i) Indemnities are required to facilitate IESO and OPG in carrying out their respective roles in implementing the ONFHP

Commented [HM3]: OPG/IESO input required on this regarding the specific risks they are concerned about.

~~The provision of the Indemnities to the IESO, OPG and their respective directors, officers and employees is required in order to facilitate the carrying out of implementation of the ONFHP in the event that the Proposed Legislation is passed. Both OPG and the IESO are anticipated to carry out activities that fall outside the scope of their typical business activities and corporate mandate. This creates the risk that such activities could be perceived as not being carried out in "good faith" or in the best interest of the corporation thereby exposing OPG and/or the IESO to increased liability (statutory protections from liability only extend to "good faith acts". This is further described in section (ii) below). If the indemnities are not provided, this could impact the OPG and IESO directors' willingness to undertake such activities jeopardizing the successful implementation of the ONFHP. Both the IESO and OPG have specifically asked for these Indemnities in order to allow them to carry out their roles in implementing the ONFHP.~~

~~Providing OPG and the IESO with the requested Indemnities will provide them with assurance against liability in order to allow them to comprehensively carry out their respective roles in the successful implementation of the ONFHP.~~

~~To the extent that a claim would be covered under any other indemnity provided to OPG or IESO by the Province, or provided by OPG or IESO to their directors, officers and employees, these Indemnities would not apply. Language to address any possible duplication is included in the attached Indemnities.~~

The provision of the Indemnities to the IESO, OPG, OPG's subsidiaries, and each of their respective directors, officers and employees, as well as IESO's agents is required in order to facilitate the carrying out of implementation of the ONFHP in the event that the Proposed Legislation is passed. Both OPG and the IESO are anticipated to carry out activities that fall outside the scope of their typical business activities and corporate mandate which existing indemnities would address. This creates the risk that such activities could be perceived as not being carried out in "good faith" or in the best interest of the corporation thereby exposing OPG and/or the IESO to increased liability (statutory protections from liability only extend to "good faith acts". In addition the statutory protections do not indemnify for costs relating to defending a claim. This is further described in section (ii) below). Examples of specific risks to OPG include, without limitation:

- liability as a promoter under Canadian securities laws (or the equivalent, if any, under other applicable securities laws);
- secondary market liability under Canadian and/or other applicable securities laws;
- liability that the signatories to the prospectuses will have (i.e., the individuals signing the prospectus); and
- liability of OPG as the Financial Services Manager under any of the transaction agreements (e.g., the Financial Services Management Agreement, the Administration Agreement, the MSSA, the Master Trust Indenture and any Supplemental Indentures).

Formatted: List Paragraph,Bullet List 1,Heading 4 test,Unordered List Level 1,Indented Paragraph, Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Examples of specific risks to the IESO include without limitation,

- liability for its role in potential securities offerings of OPG's financing entity. This may come with heightened exposure to liability for the IESO, particularly for offerings into the U.S. market. It is not clear whether the statutory protections would apply federally or in the U.S. context. If they would not extend to a U.S. claim, for example, it would support the need for a separate indemnity for the IESO.

Formatted: List Paragraph,Bullet List 1,Heading 4 test,Unordered List Level 1,Indented Paragraph, Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

If the indemnities are not provided, this could impact OPG and the IESO's willingness to undertake such activities jeopardizing the successful implementation of the ONFHP.

Both the IESO and OPG have specifically asked for these Indemnities in order to allow them to carry out their roles in implementing the ONFHP. Providing OPG and the IESO with the requested Indemnities will provide them with assurance against liability in order to allow them to comprehensively carry out their respective roles in the successful implementation of the ONFHP.

To the extent that a claim would be covered under any other indemnity provided to OPG or IESO by the Province, or provided by OPG and IESO to any of its subsidiaries (in the case of OPG), agents (in the case of the IESO), directors, officers and employees, these Indemnities

Draft

would not apply. Language to address any possible duplication is included in the attached Indemnities.

Existing indemnities previously provided by the Province to OPG have been limited to specific directives provided to OPG by the Province (e.g., in connection with the Bruce Lease). Accordingly, the scope of the existing indemnities provided by the Province would not cover the ONFHP. The IESO does not have any other indemnity from the Province.

Formatted: Normal, None

(ii) Statutory Immunity does not preclude a person from bringing an action or other civil proceeding

Subsection 19(1) of the *Electricity Act, 1998* provides IESO directors, officers and employees with the following protection from liability:

> "No action or other civil proceeding shall be commenced against a director, officer, employee or agent of the IESO or a member of a committee or panel established by the board of directors of the IESO for any act done in good faith in the exercise or performance or the intended exercise or performance of a power or duty under any Act, the regulations under any Act, the IESO's licence, the IESO's by-laws or the market rules, or for any neglect or default in the exercise or performance in good faith of such a power or duty."

The *Electricity Act, 1998* does not contain a similar statutory immunity for OPG's directors, officers, employees or agents. However, under subsection 39(2) of the Proposed Legislation, a statutory immunity is provided to the OPG's employees. This provision states:

> "No action or other civil proceeding shall be commenced against any employee of the Province or Ontario Power Generation Inc. for any act done in good faith in the exercise or performance or the intended exercise or performance of a power or duty under [the Proposed Legislation], the regulations or for any alleged neglect or default in the exercise or performance in good faith of such a power or duty."

Subsection 39(2) of the Proposed Legislation provides that nothing in subsection 39(1) limits the effect of subsection 19(1) of the *Electricity Act, 1998.*

The statutory immunities provided under the *Electricity Act, 1998* and the Proposed Legislation prohibits/would prohibit an action or other civil proceeding from being commenced against the enumerated protected persons under the respective provisions for any act done in good faith in the exercise or performance of their duties. Nothing precludes a person from bringing an action

or other civil proceeding against these persons causing them to incur costs in defending the claim (for example, arguing that the act was not carried out in "good faith").

The immunity from suit provisions outlined above, are qualified by the words "for any act done in good faith in the exercise or performance or intended exercise or performance of a power or duty under this Act…" This is a question of fact that needs to be considered by a court of competent jurisdiction. As such, statutory immunity would not necessarily be a bar to litigation and does not ensure that the IESO and OPG's employees, officer or directors (as applicable) would not become embroiled in litigation.

In the case of OPG, there is no similar statutory immunity explicitly provided for its directors or officers, or each of its subsidiaries, their directors, officers, or employees so the risk of litigation is greater for these individuals in the even the Proposed Legislation is passed.

For the reasons mentioned above, the Indemnities requested under this application would ensure that if a claim is brought against ~~OPG or IESO's directors, officers, and employees~~the protected persons as a result of carrying out their roles in implementing the ONFHP (despite the statutory immunities provided or that will be provided if the Proposed Legislation is passed), they are protected for any costs, losses etc. subject to the limitations provided for in the Indemnities.

(b) Description of the risk and any risk mitigants.

The ONFHP is a novel program, the first of its kind in Canada. Because the work to be undertaken by OPG and IESO in carrying out their roles in implementing the ONFHP will fall outside of the usual operations/business risk that these corporation's face, there is a risk that these corporations may be subject to increased liability specifically due to their roles with the ONFHP. This risk arises in part because of the kind of market that OPG, and IESO indirectly, are to participate in, and the steps that investors could take to protect their investments.

The risk to the Province of giving the Indemnities is undeterminable at this time, but any such risk may be mitigated by the following factors:

1) In the case of the IESO, the existence of a statutory immunity under subsection 19(1) of the *Electricity Act, 1998* may mitigate against a liability arising against its directors, officers and employees, but as mentioned, does not eliminate such risk.

2) In the case of OPG, the proposed statutory immunity under subsection 39(1) of the Proposed Legislation may mitigate against a liability arising against its employees, but as mentioned, does not eliminate such risk.

3) The Indemnities is limited ~~specifically~~ to claims arising in relation

Draft

to IESO and OPG's respective role in implementing the ONFHP in the event that the Proposed Legislation is passed.

4) The Indemnities do not apply with respect to claims for which coverage is provided and paid under insurance, for which indemnity is already provided and paid to the OPG or IESO or its respective directors, officers or employees, or is brought about by the dishonesty, gross negligence or willful misconduct of the ~~director~~protected persons.

A contingent liability table is attached as Appendix "C"

(c) Scope of liability in the Indemnities

The Province would agree to indemnify and hold harmless the IESO and OPG as well as their respective directors, officers and employees from any claims, liabilities, costs or losses that might arise to the corporation, him or her (respectively) as a result of their direct roles in carrying out activities related to the implementation of the ONFHP.

The Indemnities would not apply with respect to ~~c~~lossesl~~aim~~s:

(a) for which coverage is provided under an insurance policy ~~or claims fund~~ to the extent that the protected person is actually s~~o indemnified or covered~~paid under such policy ~~or fund~~for those losses; or

(b) for which other indemnities are already provided to the protected person but only to the extent that the Protected Person is actually so indemnified for those losses by such indemnities;

(c) ~~brought about or contributed to by~~is the result of the~~a~~ Protected Person's dishonesty, gross negligence or willful misconduct, but only such ~~if a judgment or other final adjudication adverse to the Protected Person establishes that there was~~ dishonesty, gross negligence or willful misconduct on the Protected Person's part ~~which was material to the cause of action as adjudicated~~has been established by a final and non-appealable judgment or other final adjudication adverse to the Protected Person;~~;~~ or

(d) to the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

Commented [PMK4]: Why is the carve out limited to 'gross' negligence vs just negligence?

Commented [HM5]: Gross negligence is used to be consistent with the OBCA requirement.

Commented [PMK6]: Small point, but I think this should say 'protected person' since people other than directors would be covered.

Commented [HM7]: I've changed the reference accordingly.

Draft

OPG's indemnity, with respect to clause (c) above, further provides that the Province agrees that it does not intend that any failure by a Protected Person to conduct a reasonable investigation with respect to advising the OPG about misrepresentations in any prospectus, registration statement or other securities/offering document, shall constitute "gross negligence" or "wilful misconduct" for this purposes of clause (c) above and does not disentitle the protected person from the Indemnity. This language has been included at the request of OPG in order to provide additional clarity to limit the OPG's liability with respect to carrying out any investigation of securities/offering documents.

The Indemnities would not apply with respect to ~~claims~~ losses for which coverage is provided and paid under insurance, or which are covered by another indemnity~~-~~under which the protected person is already so indemnified~~already provided~~;~~,~~ for claims brought about by the dishonesty, gross negligence or willful misconduct of the persons protected under the Indemnities;~~,~~ or for claims arising from circumstances where the ~~corporation, director, officer or employee~~protected persons did not have grounds for believing that their conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

(d) Effect of failure to obtain section 28 approval

If the requested Indemnities are not provided, this could impact the OPG and IESO directors' willingness to fully undertake their roles in implementing the ONFHP thereby jeopardizing the successful implementation of this plan in the event the Proposed Legislation is passed. For example, IESO directors may not be willing to carry out certain activities that would fall outside of the scope of its typical business activities and mandate if they view these as creating a risk of liability. Providing the Indemnities, would give OPG and IESO, along with their directors, officers and employees to more confidently carry out their role in implementing the ONFHP.

CONFIDENTIAL DRAFT

INDEMNITY

THIS INDEMNITY effective as of this day of June, 2017.

BETWEEN: **The Independent Electricity System Operator**
(hereinafter the "**Corporation**")

OF THE FIRST PART,

Her Majesty the Queen in Right of the Province of Ontario as Represented by the Minister of Energy

(hereinafter called the "**Province**"),

OF THE SECOND PART

WHEREAS the Corporation is required to carry out certain activities with respect to the implementation of the *Ontario Fair Hydro Plan Act* (the "Act").

A**ND WHEREAS** the Corporation, and its directors, officers and employees, may, as a result of the Corporation's role in the implementation of the Act, face ~~risk~~risks of liability which ~~extends~~extend beyond the typical operations risk of the Corporation ~~and which may arise solely due to the Corporation's role in the implementation of the Act~~.

NOW THEREFORE, in consideration of the sum of $1.00 now paid by the Corporation to the Province (the receipt of which is hereby acknowledged), the Province hereby agrees:

1. to indemnify and save harmless the Corporation and each of its directors, officers, ~~and employees~~employees or agents of the Corporation or a member of a committee or panel established by the directors of the Corporation (collectively the "Protected Persons" and individually, a "Protected Person") from and against all losses, costs, charges, expenses, claims, demands and liabilities directly or indirectly suffered, sustained or incurred by ~~the~~a Protected ~~Persons~~Person arising ~~specifically~~ as a result of, or in connection with, the ~~Protected Persons' direct~~IESO's role in carrying out activities related to the implementation of the Act (collectively, "Claims" and individually, a "Claim"), **[IESO note: we request that the indemnity not be limited to actions arising specifically as a result of a Persons' "direct" role. We request that the indemnity be broad enough to include actions that arise due to the IESO's role in implementing the Act. We prefer to not have to argue, if the indemnity is ever called on, whether something was "specifically" as a result of, or related to a "direct" role.]**

~~2. This indemnity does not apply with respect to Claims:~~

2. A Protected Person shall not be entitled to be indemnified in respect of a Claim, or a portion thereof:

(a) for which coverage is provided under an insurance policy or claims fund to the extent that ~~a~~ payment has been made thereunder to such Protected Person~~ is actually so indemnified or covered under such policy;~~ or~~ fund; or~~

(b) for which other indemnities are already provided to a Protected Person to the extent that ~~the~~ payment has been made to such Protected Person ~~is actually so indemnified by~~under such indemnities; or

(c) ~~brought about or contributed to by a~~is the result of such Protected Person's dishonesty, gross negligence or willful misconduct, but only if ~~a judgment or other final adjudication adverse to the Protected Person establishes that there was~~such dishonesty, gross negligence or willful misconduct on the Protected Person's part has been established by a final and non-appealable judgment or other final adjudication adverse to the Protected Person.

(d) To the extent arising from any circumstances in which a Protected Person did not have reasonable grounds for believing that the Protected Person's conduct was lawful in the case of a criminal or administrative action or proceeding that enforces a monetary penalty.

Commented [A1]: I've re-inserted this provision. This provision is part of the standard Indemnity Template that we typically use. We would like to include in order to ensure consistency with the OPG indemnity.

3. Each Protected Person shall:

~~(a)~~ upon becoming aware of a Claim for which ~~was material to the cause of action as adjudicated; or~~

~~4. In order to be entitled to~~ such Protected Person may seek indemnification hereunder~~ in respect of any notice of a Claim that the Protected Person receives, the Protected Person must:~~

~~(f)~~(a) ~~immediately and without delay~~, as soon as practicable deliver to the Province (through the Director of the Legal Services Branch of the Ministry of Energy) a notice setting forth in reasonable detail the particulars of the Claim~~(s)~~;

Commented [A2]: Change made to be consistent with OPG edits to its indemnity.

~~(g)~~(b) upon written request of the Province, acting reasonably, furnish to the Province copies of any document, or provide to the Province any information that relates to the Claims~~(s)~~ that is in the possession or under the control of the Protected Person;

~~(h)~~(c) take all reasonable steps necessary to secure and preserve the rights of the Protected Person in respect of the Claim; and

~~(i)~~(d) promptly take all ~~necessary~~ reasonable steps to obtain indemnification or coverage to the fullest extent possible under insurance policies or claims funds, or under indemnities provided by the Corporation, that are referred to in subsections 2(a) or (b) above.

A failure ~~to give prompt notice as provided in this section 3 shall not affect the rights or obligations~~on the part of a Protected Person to take any ~~party to this indemnity, and only~~of the actions provided in this section 3 shall not affect the rights of such Protected Person except to the extent that, as a result of such failure, ~~the party which was entitled to receive such notice~~~~Ontario~~ the Province was actually prejudiced. A failure on the part of a Protected Person to take any of the actions provided in this section 3 shall not affect the rights of any other Protected Person.

4. The Province shall have the right to participate in or assume control of the negotiation, settlement or defence of the Claim(s) and in no event shall a Protected Person negotiate, settle, compromise or pay the Claim(s) without the prior written consent of the Province. If the Province elects to participate in or assume control of the negotiation, settlement or defence of the Claim(s), ~~the~~each Protected Person shall co-operate fully with the Province in connection with the same, and ~~the~~each Protected Person shall agree to be represented by legal counsel chosen by the Province, unless, in the opinion of such legal counsel, there would arise a conflict of interest preventing such legal counsel from representing ~~the~~such Protected Person. Where it is such legal counsel's opinion that a conflict of interest prevents that legal counsel representing the Protected Person, the Protected Person will be entitled, after consultation with the Province and acting reasonably, to obtain legal counsel of the Protected Person's choice, and the fees and expenses of the Protected Person's counsel incurred in the Protected Person's representation shall be costs to which this indemnity extends.

5. For greater clarity, with respect to directors, officers and employees of the Corporation this indemnity shall only apply to Claim(s) that are referable to the period during which a director, officer or employee of the Corporation is actually a director, officer or employee (respectively) of the Corporation, ~~and of which notice is received by the Province either during the period of time that the director, officer, or employee is a director officer, employee of the Corporation or after he or she ceases to be a director, officer, employee of the Corporation.~~

6. This indemnity shall be interpreted and governed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

7. The provisions of this agreement and the benefit of all covenants herein contained shall enure to the benefit of the Protected Persons and the Protected Persons' heirs, administrators, executors and assigns as applicable.

Formatted: Indent: Left: 1.5"

Formatted: Font color: Green

Commented [A3]: Again – this is standard language we include in our indemnities. Please advise what the risk to IESO is with including this provision.

NOW THEREFORE, the parties have executed this indemnity as of the day and year first above written.

Hi Ken, Carlos,

FYI, on the information provided by Energy Legal this morning. I'm sharing as it may have relevance for the support agreement discussion.

Thanks,

John

Subject: OPG/IESO indemnity Responses to OFA Questions

Hi Bruno,

We have finally received all responses from OPG and IESO. Please find attached the consolidated set of responses to your questions.

These questions are in draft form and pending approval but wanted to get them to you in the interests of time.

Please let me know once you have completed your review and whether you have any further comments.

I will let you know once these have been approved on our end and whether there are any further changes.

Thanks,

Harkamal

IESO/OPG Indemnities

Ministry of Finance Questions

1. Could you please provide specific concerns/scenarios for which OPG/IESO or its directors, officers and employees may become liable and which the indemnity is intended to cover?
    - You have provided the examples which are related to financing mostly. Are there any other activities? Who would be most likely to sue: investors, what about other groups?

OPG's Response: The Protected Persons could potentially be liable in several circumstances relating to the Fair Hydro Plan, including potential liability to:

(i) the underwriters/agents selling debt securities of the financing entities;

(ii) the purchasers of debt securities of the financing entities (both the initial purchasers and subsequent purchasers of the debt securities in the secondary markets);

(iii) counterparties to agreements (e.g., the trustee of a financing entity that is a trust, the IESO);

(iv) other stakeholders of OPG if OPG (or any subsidiary thereof) is liable for any claim or obligation; these stakeholders could include, for example, the Province, as shareholder of OPG, pensioners, and employees; and

(v) regulators (e.g., OSC).

This is not an exhaustive list of all potential liability. It has been included for illustrative purposes only.

IESO's Response: Some examples of activities giving rise to liability include the following:

- Investors in any Fair Hydro investments or underwriters and banks regarding the offering of the investment asset to investors: any securities prospectus or underwriting arrangements, with the IESO named and / or IESO being involved
- OPG (or Financing Entity) in relation to the commercial arrangements regarding transfer of regulatory asset and servicing of investment asset, and related activities
- Market participants, program participants for issues in liquidity – e.g. short pay
- taxation authorities where prior approval of IESO's treatment is not approved by taxation authorities
- securities commissions regulators (US/Canada)
- parties who may challenge Fair Hydro Plan Act or any component of it and include the IESO as a party to such challenge

- in the case of an insolvency, Directors have statutory liability for payroll and taxes.

Are there situations where someone might not be acting in good faith and still warrant being covered under the indemnity? In that case, it would seem that the indemnity covers acting in bad faith. Should the indemnity cover actions "in good faith" to carry out the plan?

ENERGY's Response: The purpose of the indemnity is to provide coverage to the Protected Persons for Losses other than those arising out of gross negligence, dishonesty, or willful misconduct. Also, while a Protected Person may have been acting in good faith, this does not stop an individual/entity from bringing a claim against that Protected Person on the grounds that they did not "act in good faith" The Indemnity is to cover an expenses/losses etc. associated with defending against any such claims (coverage to be provided before a judgment is made).

i. Request for Approval points out that *Electricity Act, 1998* already protects IESO's directors, officers, employees or agents against civil proceedings if they act in good faith in the exercise or performance of powers or duties under the Act, etc. or for any neglect or default in the exercise or performance in good faith of such a power or duty. The Fair Hydro Plan has similar language for OPG s. 39(1), but only for employees of OPG (and the Province). Why doesn't the statutory provision also cover OPG's directors and officers of OPG and those of its subs?

ENERGY's Response: Section 39(1) was the result of ongoing discussions with OPG and the wording is what was agreed to by the Ministry and OPG. Further, the Ministry has made a commitment to OPG to provide an indemnity to its directors and officers.

ii. Has consideration been given to providing an indemnity to directors, officers and employees but not to the corporate entities themselves (IESO, OPG and its subs)

ENERGY's Response: This is the scope of the indemnity that has been requested by OPG/IESO (respectively). We are waiting to hear back from OPCD to determine whether there are accounting grounds to push back on having the Indemnities cover the Corporations, and in the case of OPG, also the Corporation's subsidiaries.

- Currently, IESO collects payments from ratepayers via LDCs, so are there any new processes required as a result of implementing FHP? If so, what are new processes need to be in place that will increase IESO's business risk?

IESO's Response:

- Additional processes are required to segregate the Fair Hydro flows (new charge types, new bank segregations, new input forms, new payment processing schedules).
- IESO may need to implement a separate process to receive and remit clean energy adjustments
- IESO will enter into commercial arrangements with the financing entity relating to the transfer of the regulatory asset, and to servicing arrangements relating to recovery of the clean energy adjustment.
- It is unclear at the moment what additional requirements OPG or the banks / underwriters may request.

2. Should indemnity agreements be tailored to specific circumstances of each company? Currently they appear to be drafted identically.

ENERGY's Response: Yes, the scope of the work and who is covered under the indemnity will further be tailored to the specific circumstances of IESO/OPG. However, the general provisions making up most of the Indemnity would be the same for both as we would want to be providing OPG/IESO with similar type of rights under the Indemnity.

3. Indemnity would cover "loss of profits" and "loss of opportunity" – Is this too broad?

ENERGY's Response: No, we do not think that this is too broad. The Province has previously provided OPG directors indemnities (s.28 approval granted) that indemnified directors "from and against any and all losses" – this wording would be broad enough to cover both loss of profits and loss of opportunity.

4. Please provide more detail on the type of insurance that OPG and IESO have to cover these risks? i.e. directors and officers insurance?

OPG's Response: OPG maintains Directors & Officers (D & O) Liability insurance with limits of USD $110M. The D&O liability insurance includes Personal Coverage (Side A) and Corporate Reimbursement Coverage (Side B) as follows:

Personal Coverage (Side A)

Under Personal Coverage (Side A), the policy pays losses where the organization is either not permitted by law or unable due to insolvency to indemnify the Insured Person under the policy (includes directors, officers and designated executives). This includes losses arising from a claim made during the policy period for a wrongful act (e.g. breach of duty, neglect, error, misstatement or omission) of such Insured Person. The full $110M limit is available for Side A coverage.

Corporate Reimbursement Coverage (Side B)

Under the Corporate Reimbursement Coverage (Side B), the policy reimburses the Company for losses incurred to indemnify an Insured Person under a D&O claim. The coverage is up to a maximum of USD $75 million, less the corporate deductible of $500K.

Directors and Officers have priority of payments over the Company for the entire $110M limit.

In addition, we note that pursuant to Section 2(a) of the draft Indemnity Agreement that a Protected Person shall not be entitled to indemnification to the extent that coverage is provided under an insurance policy and such Protected Person is actually paid under such insurance policy.

IESO Response: IESO carries:

- Directors & Officers insurance: max $15 million limit and $200,000 retention per claim. Employees are included in the definition of Individual Insureds.
- Professional liability: max $75 million limit.

5. Has OPG given a standard indemnity to its directors and officers that would be called upon first before the indemnity from the Province?

OPG's Response: OPG has provided its directors (but not its officers or employees) with an indemnity.

IESO's Response: Aside from indemnification arising by operation of common law for employees acting within the scope of their employment, the IESO has provided formal indemnity as follows:

- IESO has provided an indemnity to its board members.
- There is an indemnity provided to members of the Society of Energy Professionals pursuant to their collective agreement, whose members form a subset of all employees at the IESO.

6. What is the standard that is applied to conducting a reasonable investigation for "due diligence" defence? Is it possible to fail to meet that standard without gross negligence or wilful misconduct?

OPG's Response: The test under the Securities Act (Ontario) is a reasonableness test. It is therefore certainly possible for a Protected Person to fail to meet the standard for the due diligence defence while not also committing gross negligence or wilful misconduct.

7. What is the purpose of the provincial waiver of claims – as distinct from the protection provided by the indemnity?

ENERGY's Response: The purpose of the indemnity is to provide indemnification to the Protected Persons (cover Persons to the extent of their losses that are covered under the indemnity (indemnity excludes losses related to the Protected Persons' gross negligence, wrongful misconduct, or dishonesty). The purpose of the waiver is to restrict the province's ability to bring any claims (other than those arising out of gross negligence and wilful misconduct) against the Protected Persons. OPG has specifically requested the waiver. They believe that because they are carrying out the Fair Hydro Plan activities at the request of the Province, they should be given this waiver in the indemnity. We believe the risk associated with providing this waiver is likely low given that it is unlikely that the Province would bring a claim against a Protected Person for acts they would be providing an indemnity to the Protected Person for.

8. In what situations would a director, officer or employee be acting in a different capacity at the request of the company?

OPG's Response: One example arises if a financing entity is a trust. OPG directors/officers/employees will need to sign the prospectus/offering documents, but not in their capacities as those directors/officers/employees of OPG as the offering documents will not be offering documents of OPG. The directors/officers/employees will be performing these functions as a result of OPG acting as the Financial Services Manager of the financing entity.

9. Does the indemnity for OPG and its subsidiaries also include SPV (financing entity) and its directors, officers and employees?
    - What impact does this have on the SPV being treated as a separate entity to the OPG from an accounting perspective?
    - Or does SPV require an indemnity as well and why?
    - How does an indemnity for the SPV interact or overlap with the request for a guarantee from the Province in connection with the proposed financing transaction?

OPG's Response: OPG has clarified that it is not OPG's intention that the financing entities themselves be covered by this Indemnity Agreement. The Protected Persons would include

OPG and its subsidiaries that are not financing entities. Separate arrangements with the Province are being negotiated for the financing entities.

- Has consideration been given to limiting the indemnity to directors, officers and employees and not indemnifying the corporations, OPG, IESO, its subs? What are the implications?

ENERGY's Response: We had initially considered limiting the indemnities to directors and officers. However, IESO and OPG both have indicated that they require their respective indemnity cover their respective corporation as well (and in the case of OPG, its subsidiaries) given the nature of the risks they face.

OPCD is being consulted on whether there are accounting implications on extending the Indemnities to the Corporations and in the case of OPG, its subsidiaries. If there are accounting implications, ENERGY can take this back to OPG/IESO for further negotiation (i.e. to limit the indemnity to directors, officers and employees).

OPG's Response: OPG has indicated that they require an indemnity for the corporation and its subsidiaries for the following reason: as noted above in Question #1, OPG (and its subsidiaries) have potential liability to many stakeholders, including, for example, its pensioners. In approving OPG's participation in the Fair Hydro Plan, the OPG directors will want to know that these stakeholders are protected in the event that OPG or any of its subsidiaries is liable for a claim in relation to the Fair Hydro Plan. For example, if there is a large claim against OPG which could affect OPG's ability to make its pension contributions, the OPG directors will want to know that the indemnity agreement will protect OPG in this regard and allow OPG to make its pension contributions.

*** A response from IESO on this is pending. We will send to you once we receive it.*

10. Have previous Cabinet or TB submissions made reference to the requirement for indemnity agreements for IESO and OPG?

ENERGY's Response: No, the Cabinet decks and TB submissions in March did not reference the need for indemnity.

In the draft June TB submission, the document states that legislation includes… "scope of provincial undertaking and enabling the Province to provide guarantees and indemnities to back stop that undertaking."

11. It is mentioned that IESO and OPG management view their participation under the OFHP Act as "…outside their typical business activities and corporate mandate". However, the

legislation is specifically adding these activities as objects and activities of the companies? Wouldn't their other corporate documents be updated to reflect their role in OFHP? Can't the Minister of Energy provide an updated mandate to OPG and IESO? However, would this potentially affect accounting?

OPG's Response: OPG acknowledges that the Electricity Act has been amended to contemplate that OPG's objects include those related to the Fair Hydro Plan. This was a technical amendment designed to ensure that OPG could, if it chose to, participate in the Fair Hydro Plan. However, the role that the Province has requested OPG carry out in connection with the Fair Hydro Plan is outside its typical business activities and corporate mandate relating to power generation and therefore OPG's directors will need the indemnity agreement in order to approve OPG's participation in the Fair Hydro Plan. The accounting criteria that enable OPG to consolidate the financing entity is based on the relevant activities of the financing entity, and who has the power to control those activities. It is not dependent on the legal form of the structure, as accounting looks beyond legal form to the 'substance' of the transaction.

IESO's Response: The Fair Hydro Plan is a new element of IESO's mandate that it is being asked to implement, and one that may create material risk to the IESO, and potentially its directors, officers and employees.

Generally, the IESO currently administers a net zero market where money in equals money out within the normal monthly cycle (in the case of the current RPP program, the cash flows are expected to net to zero every six months). The Fair Hydro program(s) provides where the IESO will be responsible to settle and potentially carry very large amounts over many years and the IESO may be embroiled with investors' responsibilities as OPG Trust sells to investors.

12. The latest draft of the OPG Indemnity Agreement, second recital, now states that the indemnity is for "…risk of liability due to or as a result of the Fair Hydro Plan.". Previously, the indemnity only covered its role in the Fair Hydro Plan. Are there any concerns with this broader language?

OPG's Response: The Protected Persons need to be fully protected as a result of any claim connected to the Fair Hydro Plan. Having regard to this general principle, OPG would be happy to consider other drafting for this recital if desired by the Province.

ENERGY's Response: We note that the actual text of the indemnities state that indemnification would be triggered for certain losses/claims arising "as a result of the Corporation's, [any of the Corporation's subsidiaries in the case of OPG] and/or any such other Protected Person's *activities, acts and/or omissions in the implementation of, or otherwise relating to, the Fair Hydro Plan*. In this way the indemnity is restricted to acts/omissions of a Protected Person in the implementation or relating to the Fair Hydro Plan rather than claims due to or resulting

from the Fair Hydro Plan in and of itself. However, we are happy to re-draft this provision to address OFA/MOF's concerns.

13. 9(c) – Should this also reference that certain remedies such as specific performance etc. not available against the Crown? Suggest reviewing against representations given in other agreements, etc.

ENERGY's Response: We are open to putting this into the current draft before sending back to OPG/IESO for final review.

14. Contingent Liability chart may need to be made more consistent with business case.

ENERGY's Response: we can make those changes – could you please further specify what changes you are referring to?

15. Assume any payments under the indemnity would be made by the Ministry of Energy from its allocations.

ENERGY's Response: ENERGY's allocation will not be able to support payments under the indemnity in the event that the contingent liability materialises. Should the payment be required, the Ministry will need to return to TB/MBC for an increase in its allocation. This would be under Vote/Item 2905 - 01.

As background, ENERGY only has control of about 2% of its allocation to deliver on its mandate and commitments (i.e., payroll, ODOEs and ad hoc transfer payments). The largest component of ENERGY's allocation is for the rate mitigation programs that are demand-driven entitlement programs. Spending is non-discretionary and the Ministry does not have control over this allocation.

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

FINANCING TRUST – PERFORMANCE FEE TO OPG

BACKGROUND

Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest. A performance fee relating to the funding obligations will be meaningful and allow OPG to make decisions that will significantly impact its return. The Act as drafted enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.. The objective therefore is to recommend a reasonable variable performance fee structure for OPG to earn a return from the Trust, and meet the accounting requirement.

ANALYSIS OF ACCOUNTING REQUIREMENT

To support the accounting consolidation, OPG's variable performance return will be accomplished through the followings:

a. The cash flow from the investment asset shall include interest determined based on a relevant benchmark that is appropriate relative to the investment asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favorable return compared to the benchmark for interest on the investment asset
c. The Trust shall establish different classes of debt (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the investment asset, or any residual risk of investment asset. The targeted return of the subordinated debt should be reflective of the underlying risks and compensate holders for active management that would be required.

PERFORMANCE FEE ANALYSIS

Based on the accounting requirements, the recommendation is for OPG to establish a variable performance fee structure as follows:

As the Trust may issue both long term bonds and medium term notes, benchmarks based on various terms, will be established on an annual basis, subject to the following methodology:

- Benchmarks will be established as the sum of (1) reference rate, and (2) spread
    - Both reference rate and spread will be term dependant

- For bond/note issuance, reference rate will be GOC rate of equivalent term
- Reference rate will be based on consensus forecast provided by various financial institutions

- Benchmarks will be established based on the weighted average rate of incremental debt issuance at the Trust level
- If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss
- Variable performance fee, i.e. gain/loss, is applicable only to OPG's investment in the Trust (5% of the funding requirement), and is capped at benchmark weighted average rate +/-1%

An example illustrating this structure is detailed in Appendix 1

APPENDIX 1

The illustration is based on the expected Trust debt structure as follows:

	Risk Profile	Source	% of Total Funding Requirement
Tranche A Senior Debt	the least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt	the most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

1. Benchmark is to be established at each year end for Trust issuance next year. In this example, assuming the following benchmark is established as of end of Yr 1

		Benchmark
Tranche A	51%	4.25%
Tranche B Sub Debt	39%	5.50%
Tranche C Sub Debt	10%	6.50%
Weighted Average Rate		**5.0%**

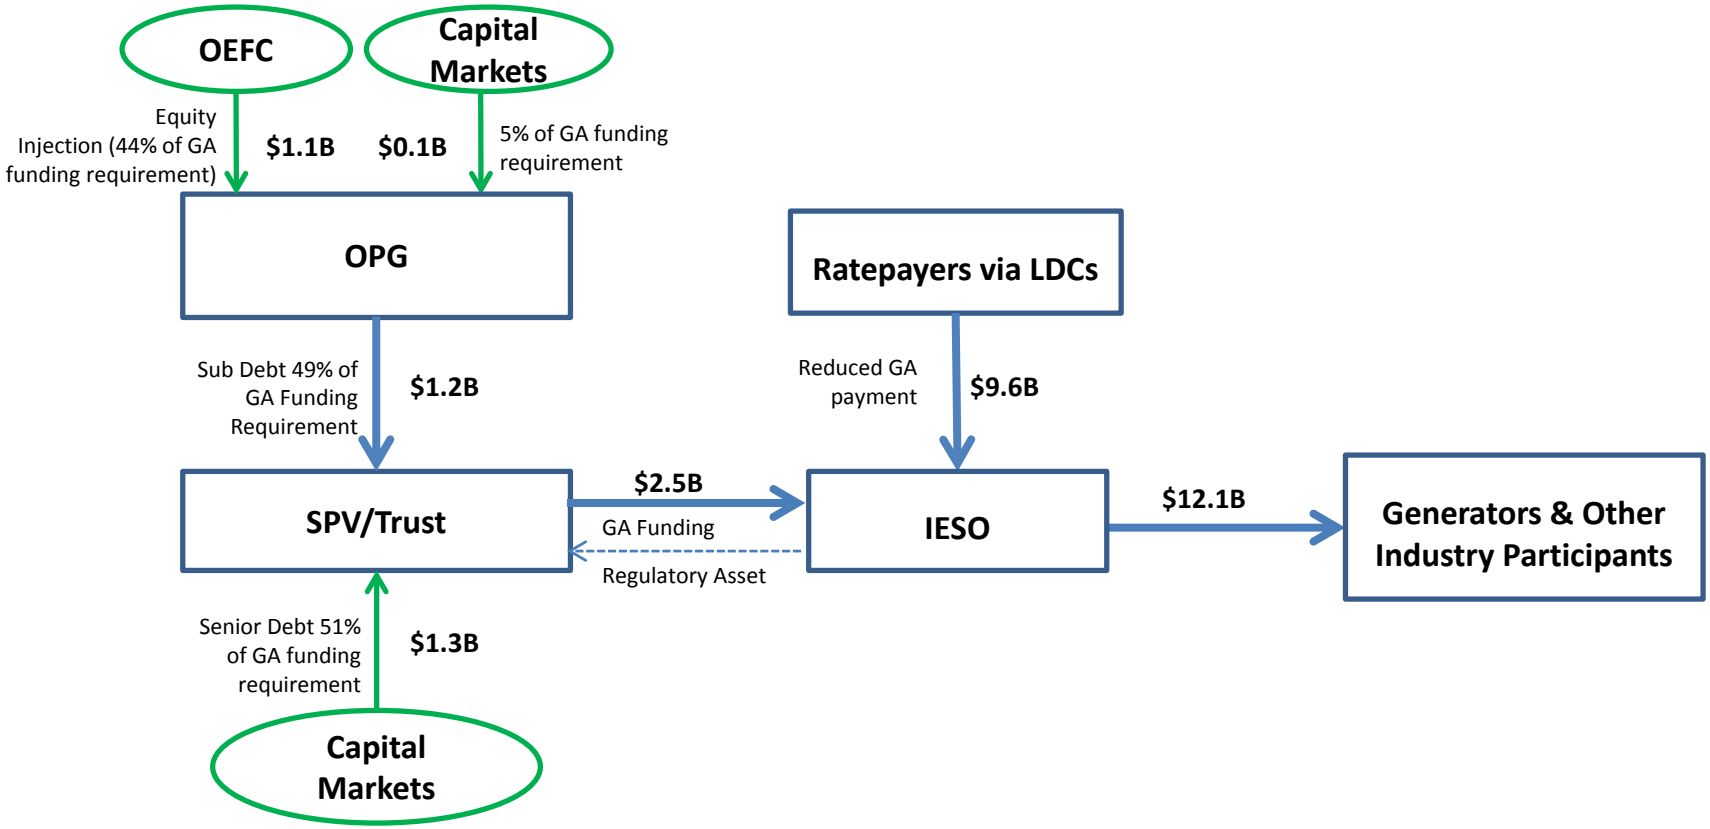
2. By the end of Yr 2, OPG will calculate the actual weighted average rate for all incremental issuance for the year. If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss.

	Allocation	Benchmark	Actual
Tranche A	51%	4.25%	5.0%
Tranche B Sub Debt	39%	5.50%	5.60%
Tranche C Sub Debt	10%	6.50%	6.60%
Weighted Average Rate		**5.0%**	5.4%
		Loss	0.4%

3. Variable management fee, i.e. gain/loss, is applicable only to OPG's investment (5% of the Trust funding requirement), and is capped at benchmark weighted average rate +/-1%.

   Based on the example above and assume incremental Trust issuance is $2B, OPG will realize loss of variable performance fee of 0.4M ($2B*5%*0.4%)

Illustration based on $2.5B GA Funding



Fair Hydro Plan –Master Subscription Agreement
Term Sheet

- Parties: OPG, OFA, Ministry of Energy

- The Province agrees to inject 44% of total funding of GA asset by way of equity subscription in OPG, which amount OPG in turn will invest in the Fair Hydro Trust as subordinated debt (**Equity Injection Plan**)

- Minister of Energy/Province approves Equity Injection Plan, and initial equity injection amount for 2017/18 fiscal year, and delegates to appropriate ministry staff authority to implement Equity Injection Plan (**Delegated Authority**)

- Long term, OPG equity requirements will form part of the business planning process in place between OPG and Ministry of Energy, ie, annually OPG to include forecasts of its equity requirements for the upcoming 3 years in its business plan submission -- NOTE: this portion of the business plan is not subject to concurrence by the shareholder

- Ministry of Energy will seek appropriation on an annual basis through PRRT for the amounts requested by OPG for its equity requirements-- NOTE: amount of annual appropriation to cover OPG multi year forecasts

- OPG agrees use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt requirements as part of the Fair Hydro Plan

- OPG will amend its Articles to create an additional class of shares – Class A Shares – which will be non-voting and redeemable at OPG's option

- OPG will issue Class A Shares to the Province monthly at a value per share equal to book value, as determined from OPG's last approved quarterly financial statements -- Value of first Class A shares issued to Province will be based on book value of OPG common shares – ie, existing shareholder's equity

- OPG will have the right to repay equity to the Province, through exercise of its right to redeem the Class A Shares, as principal repayment of the subordinated debt is made commencing in 2027

- Redemption value of the Class A Shares to be based on book value on the redemption date, ie, the equity value per Class A share at the end of the prior financial quarter as set out in OPG's approved financial statements

Monthly Process/Mechanics of Share Subscriptions:

a) OPG notifies OFA and Ministry of Energy of required equity injection and number of shares

   Timing: [same day as notice from Fair Hydro Trust]

   Documents/steps:

   (i) share subscription form,
   (ii) supporting documentation/invoice from Fair Hydro Trust, confirming amount of GA asset purchase for the month

b) OFA and OPG settle equity injection amounts

Timing: [five] business days from notice to OFA to payment/settlement with OPG
[NOTE: timing to be confirmed based on IESO/Trust process requirements]
Documents/steps:
(i) completed/signed share subscription form from OFA/Province to OPG
(ii) funds transfer from OFA to OPG account)
(iii) OPG receipt, together with secretary's certificate confirming issue of shares/update of share register

Longer term Process/Approvals:

1. Equity Requirements Estimates:
    a. Business Plan Submissions
    b. OPG Board Approvals
        - [Bi-annual] Board of Directors' resolutions authorizing equity requirement for period
        - [Bi-annual Shareholder's resolutions authorizing equity requirement for period][NOTE: TBD if needed]

    c. Ministry of Energy appropriations
    [describe annual process]

Share Redemption Process

- TBD -- process to be determined at a later date and appended as Appendix to Master Subscription Agreement

Fair Hydro Plan – Subordinated Debt Loan Arrangement
Term Sheet

- Parties: OPG, Fair Hydro Trust, OFA

- In accordance with the Master Subscription Agreement among OPG, OFA and Ministry of Energy, the Province agrees to inject 44% of total funding of GA asset by way of equity subscriptions in OPG, and OPG agrees to use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt (Equity Injection Plan) requirements as part of the Fair Hydro Plan

- OPG will lend the equity injection from the Province to Fair Hydro Trust by way of subordinated debt (one or more mezzanine level)

- Initial credit rating will be assigned to the subordinated debt of Fair Hydro Trust

- Based on monthly funding requirement of GA asset, the Trust will use short term financing, such as bank facilities, and take out bonds once accumulative short term funding reaches certain levels.

- The mechanism to implement Equity Injection Plan will be based on monthly equity injections reflecting funding requirements of GA asset

- Interest rates on the subordinated debt will be established as follows:

    - During the Trust short term financing period when bank facilities are used as funding vehicles, the interest rate on subordinated debt will be the sum of (1) funding rate on senior debt, and (2) additional spread margin of [xx], reflecting the credit rating difference between the senior and subordinated debt

    - At the time when senior bonds are being issued to take out (term out) the short term financing, OPG will seek indicative coupon rates on the subordinated debt from dealers, reflecting the sum of underlying Government of Government of Canada yield of equivalent term and the appropriate credit spread. The average indicative coupon rate from dealers will be calculated and set as the subordinated debt rate. The process will be similar to the one established for pricing of OPG debt drawn from OEFC facilities.

FINANCING TRUST – PERFORMANCE FEE TO OPG

BACKGROUND

Ontario Power Generation Inc. (OPG) has been appointed the Financial Services Manager under the Fair Hydro Plan Act, 2017 to, among other things evaluate whether funding obligations should be incurred by the Trust for the purpose of acquiring and financing an investment interest. A performance fee relating to the funding obligations will be meaningful and allow OPG to make decisions that will significantly impact its return. The Act as drafted enables OPG to achieve its accounting objective of consolidation of the Trust with OPG, and the ability to earn a return and take on risk, through its control of the Trust.. The objective therefore is to recommend a reasonable variable performance fee structure for OPG to earn a return from the Trust, and meet the accounting requirement.

ANALYSIS OF ACCOUNTING REQUIREMENT

To support the accounting consolidation, OPG's variable performance return will be accomplished through the followings:

a. The cash flow from the investment asset shall include interest determined based on a relevant benchmark that is appropriate relative to the investment asset, plus an appropriate margin consistent with the relevant market and other risks
b. OPG shall have the authority to determine the financing strategy, which will vary the financing costs with the objective of enabling the Trust to achieve a more favorable return compared to the benchmark for interest on the investment asset
c. The Trust shall establish different classes of debt (senior, subordinated and the most subordinated). The classes would allow the Trust to delineate financing of lower risk investment and investment that would bear higher residual risk. The delineation would limit OPG's self-funded investment to a reasonable level in order to allow OPG to remain a self-sustaining entity.
d. OPG shall, through its ownership of the most subordinated liability, be able to capture and retain the pricing difference between cost of financing and benchmark for interest on the investment asset, or any residual risk of investment asset. The targeted return of the subordinated debt should be reflective of the underlying risks and compensate holders for active management that would be required.

PERFORMANCE FEE ANALYSIS

Based on the accounting requirements, the recommendation is for OPG to establish a variable performance fee structure as follows:

As the Trust may issue both long term bonds and medium term notes, benchmarks based on various terms, will be established on an annual basis, subject to the following methodology:

- Benchmarks will be established as the sum of (1) reference rate, and (2) spread
    - Both reference rate and spread will be term dependant

- For bond/note issuance, reference rate will be GOC rate of equivalent term
- Reference rate will be based on consensus forecast provided by various financial institutions

- Benchmarks will be established based on the weighted average rate of incremental debt issuance at the Trust level
- If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss
- Variable performance fee, i.e. gain/loss, is applicable only to OPG's investment in the Trust (5% of the funding requirement), and is capped at benchmark weighted average rate +/-1%

An example illustrating this structure is detailed in Appendix 1

APPENDIX 1

The illustration is based on the expected Trust debt structure as follows:

	Risk Profile	Source	% of Total Funding Requirement
Tranche A Senior Debt	the least risky	Capital Markets	51%
Tranche B Sub Debt	In between A&C	OPG via OEFC	39%
Tranche C Sub Debt	the most risky	OPG via OEFC	5%
		OPG via Capital Markets	5%

1. Benchmark is to be established at each year end for Trust issuance next year. In this example, assuming the following benchmark is established as of end of Yr 1

		Benchmark
Tranche A	51%	4.25%
Tranche B Sub Debt	39%	5.50%
Tranche C Sub Debt	10%	6.50%
Weighted Average Rate		**5.0%**

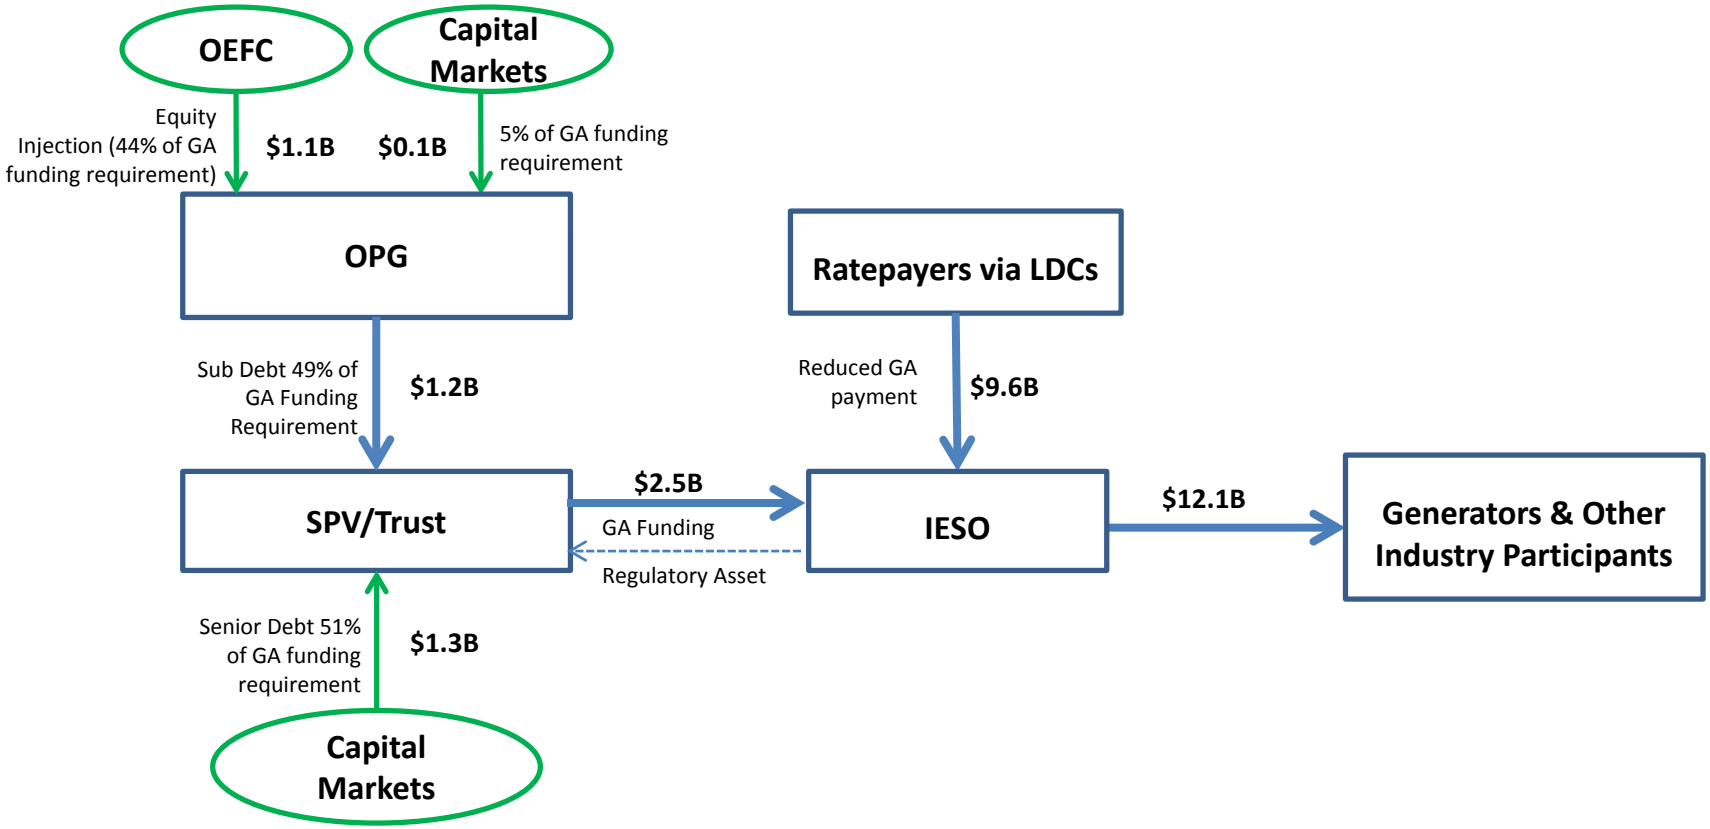
2. By the end of Yr 2, OPG will calculate the actual weighted average rate for all incremental issuance for the year. If the actual weighted average rate is lower than the corresponding benchmark, OPG will realize a gain, otherwise a loss.

	Allocation	Benchmark	Actual
Tranche A	51%	4.25%	5.0%
Tranche B Sub Debt	39%	5.50%	5.60%
Tranche C Sub Debt	10%	6.50%	6.60%
Weighted Average Rate		**5.0%**	5.4%
		Loss	0.4%

3. Variable management fee, i.e. gain/loss, is applicable only to OPG's investment (5% of the Trust funding requirement), and is capped at benchmark weighted average rate +/-1%.

   Based on the example above and assume incremental Trust issuance is $2B, OPG will realize loss of variable performance fee of 0.4M ($2B*5%*0.4%)

Illustration based on $2.5B GA Funding



Fair Hydro Plan –Master Subscription Agreement
Term Sheet

- Parties: OPG, OFA, Ministry of Energy

- The Province agrees to inject 44% of total funding of GA asset by way of equity subscription in OPG, which amount OPG in turn will invest in the Fair Hydro Trust as subordinated debt (**Equity Injection Plan**)

- Minister of Energy/Province approves Equity Injection Plan, and initial equity injection amount for 2017/18 fiscal year, and delegates to appropriate ministry staff authority to implement Equity Injection Plan (**Delegated Authority**)

- Long term, OPG equity requirements will form part of the business planning process in place between OPG and Ministry of Energy, ie, annually OPG to include forecasts of its equity requirements for the upcoming 3 years in its business plan submission -- NOTE: this portion of the business plan is not subject to concurrence by the shareholder

- Ministry of Energy will seek appropriation on an annual basis through PRRT for the amounts requested by OPG for its equity requirements-- NOTE: amount of annual appropriation to cover OPG multi year forecasts

- OPG agrees use the equity subscription amounts solely for funding the Fair Hydro Trust's subordinated debt requirements as part of the Fair Hydro Plan

- OPG will amend its Articles to create an additional class of shares – Class A Shares – which will be non-voting and redeemable at OPG's option

- OPG will issue Class A Shares to the Province monthly at a value per share equal to book value, as determined from OPG's last approved quarterly financial statements -- Value of first Class A shares issued to Province will be based on book value of OPG common shares – ie, existing shareholder's equity

TD Securities

A Confidential Presentation

Capital Injection Discussion

April 25, 2017

Presented By

Introduction

- The Province of Ontario (the "Province") is considering alternatives to fund its capital injection (the "Capital Injection") into Ontario Power Generation Inc. ("OPG"), which represents 44% of the Global Adjustment deferral financing requirement
- When evaluating the Province's alternatives, TD Securities Inc. ("TD Securities") understands that the Province's objectives are:
  1. **Equity Treatment:** Ensuring that the Capital Injection is treated as equity so as to mitigate the credit rating impact to OPG associated with 100% consolidation of the Special Purpose Vehicle ("SPV")/Trust
  2. **Managing Cash Flows for Interest Payments:** Timing, size, and priority of cash flows to repay interest used to fund the Capital Injection
  3. **Managing Cash Flows for Debt Repayments**: Timing, size, and priority of cash flows to repay the maturing principal for debt used to fund the Capital Injection
- In addition, simplicity is preferred to a complex structure

Capital Injection Options

	Common Equity	Preferred Equity	Fixed-to-Floating Sub. Notes, Convertible to Preferred Equity[1]	Mandatory Convertible Preferred Equity
Characteristics				
Instrument	▪ Equity instrument with no fixed dividend	▪ Preferred equity instrument with a fixed, floating, or resettable dividend	▪ A fixed income instrument with a fixed rate, which automatically converts into floating rate preferred shares, subject to an issuer cash redemption feature	▪ A preferred equity instrument that pays fixed, floating, or resettable dividends, which automatically converts into common equity
Capital Structure Ranking	▪ Lowest priority	▪ Priority to common equity	▪ Until converted, usually ranks higher than preferred equity, but lower than other fixed income instruments	▪ Priority to common equity until converted
OPG Tax Treatment	▪ Dividends are not tax-deductible	▪ Dividends are not tax-deductible	▪ Initial interest payments tax-deductible	▪ Dividends are not tax-deductible
DBRS Equity Treatment Methodology	▪ Considered equity	▪ Allocated an equity percentage (100% to 0%) based on (1) permanence, (2) subordination, and (3) legal implications (default considerations) ▪ Any less "equity-like" features reduce equity weighting allocated to the instrument ▪ Hybrid instruments[2] can receive 100% equity treatment, but limited to a quantity proportionate to 20% of common equity ▪ 100% of preferred dividends or interest payments are subtracted from cash flow credit metrics, regardless of equity treatment ▪ Cannot have a investor cash redemption provision to be considered equity		
S&P Equity Treatment Methodology	▪ Considered equity	▪ Hybrids placed into one of three categories based on equity content for purposes of calculating credit metrics: • High: 100% equity; Intermediate: 50% equity, 50% debt; Minimal: 0% equity ▪ Key considerations are: (1) ongoing payments, (2) permanence, and (3) subordination / credit default cushion ▪ Generally, equity content treatment applies to hybrids in proportions equal to or below 15% of total capitalization ▪ Same equity treatment methodology is applied in calculating cash flow credit metrics ▪ Must have at least 20 years or more remaining to the effective maturity to be given any equity content, subject to other features		
Objectives				
1. Equity Treatment	▪ Considered equity	▪ Typically given 50% and 100% equity treatment by S&P and DBRS, respectively, subject to quantity limits	▪ Recent hybrid sub-debt offerings given intermediate equity content by S&P ▪ Quantity limited by DBRS & S&P	▪ Typically given 100% equity treatment, depending on conversion length ▪ Quantity limited by DBRS & S&P
2. Cash Flows for Interest Payments	▪ By way of dividends ▪ **Dividend Timing:** flexible (monthly, quarterly, yearly) ▪ **Dividend Size:** flexible ▪ **Dividend Priority:** can be deferred indefinitely	▪ By way of preferred dividends ▪ **Dividend Timing:** fixed ▪ **Dividend Rate:** flexible at initiation ▪ **Dividend Priority:** can be deferred indefinitely, but prioritized above common dividends • Cumulative or non-cumulative	▪ By way of fixed interest payments until converted ▪ **Interest Timing:** flexible at initiation ▪ **Interest Rate:** flexible at initiation ▪ **Interest Priority:** can be deferred indefinitely, but prioritized above common dividends	▪ By way of preferred dividends until converted ▪ **Dividend Timing:** flexible at initiation ▪ **Dividend Rate:** flexible at initiation ▪ **Dividend Priority:** can be deferred indefinitely, but prioritized above common dividends until converted
3. Cash Flows for Debt Principal Payments	▪ Special dividends can be utilized to match timing of principal repayments	▪ Little incentive for principal repayment unless other features are added	▪ Interest rate step-up incentivizes redemption by the issuer at conversion, but may affect equity treatment	▪ Once converted, special dividends can be utilized to match timing of principal repayments

(1) Also referred to as U.S. Hybrids, with recent examples including TransCanada's US$1.25B offering in February 2017 and Emera's US$1.2B offering in June 2016
(2) Instruments that have both debt-like and equity-like features

Discussion

- Common equity provides the most flexibility to OPG with respect to:
  - Greater certainty in attaining equity treatment by credit rating agencies
  - Cash flow timing in the event that SPV/Trust payments are delayed
- Hybrid instruments(1) are an alternative in satisfying the Province's Capital Injection into OPG
  - Companies usually issue hybrids for specific purposes related to access to capital markets, credit rating, equity dilution, and tax considerations
- Two considerations required for OPG to consolidate the SPV/Trust that may directly affect the timing and amount of cash available to pay the Province are:
  - **Decision Making** – OPG needs to make funding / dividend decisions independent of the Province
  - **Business Risk** – OPG needs to demonstrate that it has variability of returns
- The two above considerations may result in cash not being distributed from the SPV/Trust to OPG, such that OPG cannot pay a dividend or special dividend to the Province
- Additionally, the dividend / interest rate on the Province's Capital Injection relative to the interest rate of the debt issued by the Province and the debt issued to OPG by the SPV/Trust determines where the excess cash will accumulate

(1) Instruments that have both debt-like and equity-like features, including the preferred equity, fixed-to-floating sub. notes, convertible to preferred equity, and mandatory convertible preferred equity discussed on page 3

Discussion (cont'd)

- Hybrid instruments(1) can be used to increase the Province's certainty of cash flows to cover the interest and principal payments on the underlying debt the Province issues
  - Subordination is less of a concern as the Province owns 100% of OPG
  - Direct trade-off exists between adding debt-like features to the hybrid instruments and reducing their degree of equity treatment for OPG by credit rating agencies
  - However, the instruments have to demonstrate some degree of permanency to warrant equity treatment and the total amount that receive equity treatment is limited by credit rating agencies
- At its simplest, the Capital Injection could take the form of common shares to the Province
  - Normal dividends set by the OPG Board, which the Province has the ability to direct, to equal the interest payments on the underlying debt
  - Repayment of principal through special dividends as cash becomes available at OPG after receiving distributions from the SPV/Trust
- Investing at market value as opposed to book value is more of a concern when allocating value between new and existing shareholders, which in not applicable in this case

The Province should have a detailed discussion with OPG and its auditors, and ultimately, the credit rating agencies when evaluating its alternatives in the context of its objectives

(1) Instruments that have both debt-like and equity-like features, including the preferred equity, fixed-to-floating sub. notes, convertible to preferred equity, and mandatory convertible preferred equity discussed on page 3

TD Securities

A Confidential Presentation

Capital Injection Discussion

April 25, 2017

Presented By

Introduction

- The Province of Ontario (the "Province") is considering alternatives to fund its capital injection (the "Capital Injection") into Ontario Power Generation Inc. ("OPG"), which represents 44% of the Global Adjustment deferral financing requirement
- When evaluating the Province's alternatives, TD Securities Inc. ("TD Securities") understands that the Province's objectives are:
  1. **Equity Treatment:** Ensuring that the Capital Injection is treated as equity so as to mitigate the credit rating impact to OPG associated with 100% consolidation of the Special Purpose Vehicle ("SPV")/Trust
  2. **Managing Cash Flows for Interest Payments:** Timing, size, and priority of cash flows to repay interest used to fund the Capital Injection
  3. **Managing Cash Flows for Debt Repayments**: Timing, size, and priority of cash flows to repay the maturing principal for debt used to fund the Capital Injection
- In addition, simplicity is preferred to a complex structure

Capital Injection Options

	Common Equity	Preferred Equity	Fixed-to-Floating Sub. Notes, Convertible to Preferred Equity[1]	Mandatory Convertible Preferred Equity
Characteristics				
Instrument	▪ Equity instrument with no fixed dividend	▪ Preferred equity instrument with a fixed, floating, or resettable dividend	▪ A fixed income instrument with a fixed rate, which automatically converts into floating rate preferred shares, subject to an issuer cash redemption feature	▪ A preferred equity instrument that pays fixed, floating, or resettable dividends, which automatically converts into common equity
Capital Structure Ranking	▪ Lowest priority	▪ Priority to common equity	▪ Until converted, usually ranks higher than preferred equity, but lower than other fixed income instruments	▪ Priority to common equity until converted
OPG Tax Treatment	▪ Dividends are not tax-deductible	▪ Dividends are not tax-deductible	▪ Initial interest payments tax-deductible	▪ Dividends are not tax-deductible
DBRS Equity Treatment Methodology	▪ Considered equity	▪ Allocated an equity percentage (100% to 0%) based on (1) permanence, (2) subordination, and (3) legal implications (default considerations) ▪ Any less "equity-like" features reduce equity weighting allocated to the instrument ▪ Hybrid instruments[2] can receive 100% equity treatment, but limited to a quantity proportionate to 20% of common equity ▪ 100% of preferred dividends or interest payments are subtracted from cash flow credit metrics, regardless of equity treatment ▪ Cannot have a investor cash redemption provision to be considered equity		
S&P Equity Treatment Methodology	▪ Considered equity	▪ Hybrids placed into one of three categories based on equity content for purposes of calculating credit metrics: • High: 100% equity; Intermediate: 50% equity, 50% debt; Minimal: 0% equity ▪ Key considerations are: (1) ongoing payments, (2) permanence, and (3) subordination / credit default cushion ▪ Generally, equity content treatment applies to hybrids in proportions equal to or below 15% of total capitalization ▪ Same equity treatment methodology is applied in calculating cash flow credit metrics ▪ Must have at least 20 years or more remaining to the effective maturity to be given any equity content, subject to other features		
Objectives				
1. Equity Treatment	▪ Considered equity	▪ Typically given 50% and 100% equity treatment by S&P and DBRS, respectively, subject to quantity limits	▪ Recent hybrid sub-debt offerings given intermediate equity content by S&P ▪ Quantity limited by DBRS & S&P	▪ Typically given 100% equity treatment, depending on conversion length ▪ Quantity limited by DBRS & S&P
2. Cash Flows for Interest Payments	▪ By way of dividends ▪ **Dividend Timing:** flexible (monthly, quarterly, yearly) ▪ **Dividend Size:** flexible ▪ **Dividend Priority:** can be deferred indefinitely	▪ By way of preferred dividends ▪ **Dividend Timing:** fixed ▪ **Dividend Rate:** flexible at initiation ▪ **Dividend Priority:** can be deferred indefinitely, but prioritized above common dividends • Cumulative or non-cumulative	▪ By way of fixed interest payments until converted ▪ **Interest Timing:** flexible at initiation ▪ **Interest Rate:** flexible at initiation ▪ **Interest Priority:** can be deferred indefinitely, but prioritized above common dividends	▪ By way of preferred dividends until converted ▪ **Dividend Timing:** flexible at initiation ▪ **Dividend Rate:** flexible at initiation ▪ **Dividend Priority:** can be deferred indefinitely, but prioritized above common dividends until converted
3. Cash Flows for Debt Principal Payments	▪ Special dividends can be utilized to match timing of principal repayments	▪ Little incentive for principal repayment unless other features are added	▪ Interest rate step-up incentivizes redemption by the issuer at conversion, but may affect equity treatment	▪ Once converted, special dividends can be utilized to match timing of principal repayments

(1) Also referred to as U.S. Hybrids, with recent examples including TransCanada's US$1.25B offering in February 2017 and Emera's US$1.2B offering in June 2016
(2) Instruments that have both debt-like and equity-like features

Discussion

- Common equity provides the most flexibility to OPG with respect to:
  - Greater certainty in attaining equity treatment by credit rating agencies
  - Cash flow timing in the event that SPV/Trust payments are delayed
- Hybrid instruments(1) are an alternative in satisfying the Province's Capital Injection into OPG
  - Companies usually issue hybrids for specific purposes related to access to capital markets, credit rating, equity dilution, and tax considerations
- Two considerations required for OPG to consolidate the SPV/Trust that may directly affect the timing and amount of cash available to pay the Province are:
  - **Decision Making** – OPG needs to make funding / dividend decisions independent of the Province
  - **Business Risk** – OPG needs to demonstrate that it has variability of returns
- The two above considerations may result in cash not being distributed from the SPV/Trust to OPG, such that OPG cannot pay a dividend or special dividend to the Province
- Additionally, the dividend / interest rate on the Province's Capital Injection relative to the interest rate of the debt issued by the Province and the debt issued to OPG by the SPV/Trust determines where the excess cash will accumulate

(1) Instruments that have both debt-like and equity-like features, including the preferred equity, fixed-to-floating sub. notes, convertible to preferred equity, and mandatory convertible preferred equity discussed on page 3

Discussion (cont'd)

- Hybrid instruments(1) can be used to increase the Province's certainty of cash flows to cover the interest and principal payments on the underlying debt the Province issues
  - Subordination is less of a concern as the Province owns 100% of OPG
  - Direct trade-off exists between adding debt-like features to the hybrid instruments and reducing their degree of equity treatment for OPG by credit rating agencies
  - However, the instruments have to demonstrate some degree of permanency to warrant equity treatment and the total amount that receive equity treatment is limited by credit rating agencies
- At its simplest, the Capital Injection could take the form of common shares to the Province
  - Normal dividends set by the OPG Board, which the Province has the ability to direct, to equal the interest payments on the underlying debt
  - Repayment of principal through special dividends as cash becomes available at OPG after receiving distributions from the SPV/Trust
- Investing at market value as opposed to book value is more of a concern when allocating value between new and existing shareholders, which in not applicable in this case

The Province should have a detailed discussion with OPG and its auditors, and ultimately, the credit rating agencies when evaluating its alternatives in the context of its objectives

(1) Instruments that have both debt-like and equity-like features, including the preferred equity, fixed-to-floating sub. notes, convertible to preferred equity, and mandatory convertible preferred equity discussed on page 3

James,

Thanks for forwarding the draft. With respect to the guarantee language, we want to make sure that it works for the transaction. Since we are not familiar with the proposed transaction, we think that it makes sense for counsel that are familiar with the deal to review the guarantee provisions in the statute to ensure that it is sufficient to give authority for the type of guarantee that is contemplated. We note that the term sheet that we have seen provides for a very broad guarantee, although we also understand that there are ongoing discussions about the scope and content of the guarantee.

Best,

Toby

Hi, Toby. I am pleased to attach the most recent version of the draft legislation pertaining to the electricity rate reductions and intergenerational cost transfer.

Thanks for your help on all of this, and note that this version does not include amendments to EA ss.89 and 90 (PILS amendments). Those discussions are ongoing between MOF policy, OPG/Tory's and ENERGY is awaiting those discussions to close before finalizing the legislation on these matters.

Best regards,

James

News Release

Ontario Passes Legislation to Lower Electricity Bills by 25 Per Cent[news.ontario.ca]

May 31, 2017

Meaningful Savings for All Residential Households Coming this Summer

Ontario passed legislation today that will lower electricity bills by 25 per cent on average for all residential customers to provide significant rate relief and ensure greater fairness.

The Fair Hydro Act, 2017 reduces electricity bills for all residential consumers and as many as half a million small businesses and farms, starting this summer. Lower-income Ontarians and those living in eligible rural and northern communities will receive even greater reductions, as much as 40 to 50 per cent. As part of this plan, rate increases will be held to the rate of inflation for four years.

These measures include the eight per cent rebate introduced in January[news.ontario.ca] and build on previously announced initiatives to deliver broad-based rate relief on all electricity bills. Taken together, these changes are delivering the largest reduction to electricity rates in Ontario's history. To facilitate these immediate savings, the legislation:

- Enables the Independent Electricity System Operator (IESO) and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This will be accomplished through refinancing a portion of the Global Adjustment (GA), resulting in significant and immediate rate reductions.
- Modifies and broadens the Ontario Electricity Support Program (OESP) to expand benefits and ensure it is funded by government instead of ratepayers, reducing bills for all.
- Enhances the Rural or Remote Rate Protection (RRRP) program to provide distribution charge relief to a total of approximately 800,000 customers and shift costs from ratepayers to provincial revenues. The enhancement will benefit customers served by local distribution companies (LDCs) with the highest distribution rates. These savings will begin July 1, 2017.
- Provides on-reserve First Nations households serviced by licensed distributors with a 100 per cent credit of the delivery line on their monthly electricity bills, starting July 1, 2017.

Reducing electricity costs is part of Ontario's plan to create jobs, grow our economy and help people in their everyday lives.

QUICK FACTS

- Ontario’s Fair Hydro Plan will improve energy sector efficiency and modernize the province’s electricity market, building on the collaboration of IESO and OEB.

- In April 2017, the Industrial Conservation Initiative (ICI) was expanded to include electricity consumers in the manufacturing and greenhouse sectors with an average monthly peak demand of greater than 500 kW and less than 1 MW.

- On May 1, 2017, the Ontario Energy Board (OEB) reduced electricity rates across the province, including a portion of the Fair Hydro Plan. The OEB will have 15 days after the legislation comes into force to update rates to reflect the full benefit of the Fair Hydro Plan – delivering the 25 per cent on average reduction for all households and half a million small business and farms. Royal Assent could be scheduled as early as June 1, 2017.

- The province has expanded the OESP, providing 50 per cent more support in the form of monthly credits for people with low incomes and increasing eligibility, effective May 1, 2017.

- The province is also establishing an Affordability Fund that will be accessible to electricity distributors for customers who do not qualify for low-income conservation programs and who are unable to undertake energy efficiency improvements without financial assistance. This program is set to launch this summer.

BACKGROUND INFORMATION

- Ontario's Fair Hydro Act, 2017 [news.ontario.ca]

- Learn about Ontario’s Fair Hydro Plan[ontario.ca]
- Read Premier Wynne’s statement announcing Ontario’s Fair Hydro Plan[news.ontario.ca]

QUOTES

"The savings coming this summer will help make life more affordable, including additional relief for the most vulnerable. The Fair Hydro Plan significantly lowers rates now for all Ontario families that pay an electricity bill and will bring fairer rates in the future."
— *Glenn Thibeault, Minister of Energy*

Hi Lisa, William,
I am OK as long as the proposed approach is consistent with OFA's lending policy and practices. We have generally not opined on the details of the lending agreement, as we have been communicating.
I do want to copy Ken and Mike to ensure that they are onside, as well.
Thanks,
John

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,
I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.
The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public

bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Subject: RE: Policy question re OFHP Credit Facility Agreement

Hi Will
I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.
As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.
Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Subject: FW: Policy question re OFHP Credit Facility Agreement

Good morning Ken,
I hope you enjoyed the long weekend.
Do you agree with the current structure of the credit facility as unsecured?
Or would you like some additional back ground regarding this matter?
Thanks,
Will

Hi Lisa, William,
I am OK as long as the proposed approach is consistent with OFA's lending policy and practices. We have generally not opined on the details of the lending agreement, as we have been communicating. I do want to copy Ken and Mike to ensure that they are onside, as well.

Thanks,
John

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,
I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.
The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).
In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.
Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to

mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.

- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Date:	Wednesday, August 09, 2017 10:37:30 AM
Importance:	High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly

summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.
Lisa

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi,

Pls. see attached note and the revised term sheet per MOF Legal, Energy Legal and Blake's. I believe the note is quite clear and self-explanatory. It was indicated at this morning's implementation meeting that things are moving along for September TB/MBC approval.

As suggested by MOF Legal, I am happy to coordinate a meeting for Wednesday when everyone (hopefully) is back and has had time to review.

Thanks,

John

John,

Together with our outside counsel at Blake's and Energy Legal we have revised the term sheet further.

The attached note, prepared by Energy Legal is a good summary of the issues and where things stand.

I think the next step is to have you and Ron discuss this draft, and prepare to meet with staff at the OFA and Energy once Gadi returns next week and has been briefed on the progress.

Please share as you think makes sense at the OFA, and let me know if you want to discuss further.

Best

Toby

FAIR HYDRO PLAN – PROVINCIAL GUARANTEE

A. Issue

- Provincial Support Agreement Term Sheet

B. Background

- Under the terms of the proposed *Ontario Fair Hydro Plan Act, 2017* (the "Act"),[1] it is anticipated that the Ontario Power Generation ("OPG") will establish a subsidiary entity (the "Financing Entity") that will undertake a public debt offering to finance the implementation of the Ontario Fair Hydro Plan (the "Fair Hydro Plan").

- The Ontario Finance Authority (the "OFA") is leading the negotiation of a term sheet with OPG that would outline the basis upon which the government of Ontario ("Ontario") would provide financial assurance to support such a debt offering.

- OPG has advised that a term sheet codifying Ontario's commitment, at least at a high level, will be necessary to support OPG's pending discussions with credit rating agencies, as well as the anticipated triple-A rating of the proposed debt offering.

- OPG provided the OFA with a draft of a proposed term sheet dated May 12, 2017 (the "May Term Sheet"). The May Term Sheet included a number of features that were unacceptable to Ontario, including, most notably, a performance guarantee covering obligations of the Independent Electricity System Operator (the "IESO") and a liquidity guarantee that would be triggered in the case of financial market disruption.

- In a meeting on July 12, 2017, the OFA communicated Ontario's concerns about the May Term Sheet and indicated that the province would be willing to provide financial assurance to prospective investors in respect of only two kinds of risk:

    - the possibility of future legislative by the government of Ontario compromising the economic rights of investors; and

[1] S.O. 2017, c. 16, Sched. 1.

- the possibility that the Fair Hydro Plan is ultimately found to be invalid from a constitutional perspective by a court of competent jurisdiction.

- The OFA accepted that it was fair and reasonable for the province to provide a guarantee in respect of these two risks because they would be a consequence of the government`s past and future policy decisions. However, the OFA indicated that investors would need to assume the risk associated with other aspects of the Fair Hydro Plan and the risk of future market disruption.

C. Current Status

- The OPG took Ontario's position back to the investment dealers and worked with them to develop a revised term sheet that better reflected this more limited form of provincial guarantee (the "August Term Sheet").

- Ontario's external counsel (Blake, Cassels & Graydon LLP ("Blakes")) provided a mark-up of the August Term Sheet identifying a number of continuing concerns arising out of the draft provisions and to propose further amendments intended to address those concerns.

- On August 22, 2017, counsel from the Ministry of Energy, the Ministry of Finance ("MOF-LSB") and Blakes met with representatives from the OFA to discuss a number the issues identified by Blakes, as well as a number of further concerns identified by counsel in MOF-LSB.

D. Analysis

Purpose of Term Sheet

- As a preliminary matter, it is important to recognize that the purpose of the proposed Term Sheet is not to create enforceable rights or obligations. Section 5(3) of the Act makes it clear that any guarantee provided by the province must be agreed to by the Minister of Energy and the Minister of Finance (acting together) as authorized by order of the Lieutenant Governor in Council (the "LGIC"). The LGIC has not yet made an OIC authorizing the responsible Ministers to enter into any guarantee and therefore the Ministers do not yet have any legal authority to do so.

- Against this backdrop, it is clear that the purpose of the Term Sheet is to outline, in a general way, a high level understanding of the type of financial assurance that the province might be willing to provide to prospective investors in appropriate circumstances. The actual terms and conditions of any future assurance agreement entered into by Ontario will need to be fully negotiated in the context of a specific transaction and would necessarily be subject to LGIC and Ministerial approval.

Continuing Legal Concerns

- Attached to this briefing note as **Appendix "A"** is a revised draft of the August Term Sheet reflecting the consolidated legal comments of Blakes, MOF-LSB and ENE-LSB. The revisions are broadly intended to address the following concerns:

  - **Title** – Blakes is of the view that the proposed provincial assurance agreement is more accurately characterized as an indemnity arrangement, than a guarantee. There are highly technical reasons underlying this position and we note that OPG's external counsel (Torys LLP) does not agree with this concern. Rather than engaging in this debate, we have simply re-titled the proposed agreement as a "Change of Law Assumption Agreement," which more specifically reflects the substantive nature of the assurances that the province intends to provide.

  - **Preamble** – We have added a provision to the preamble to more explicitly confirm that the arrangements contemplated in the Term Sheet are subject to further government approvals and that the document is not intended to create any legally binding obligations.

  - **Beneficiaries** – Torys has indicated that the provincial guarantee must be given directly in favour of the Indenture Trustee, rather than the Financing Entity. The purpose of this change is to ensure that bondholders would have a direct remedy against Ontario. We have revised the draft Term Sheet to reflect this intention on the basis that it would not materially increase the scope of Ontario's legal or financial liability under the guarantee. However, we note that one consequence of this change is that Ontario would be considered a separate issuer for U.S. securities law purposes.

  - **Specified Claims** – The August Term Sheet purported to extend to all of the "rights and interests of the Financing Entity", including, but not limited to, the right to receive the payments contemplated under the Fair Hydro Plan. The OFA has previously indicated to OPG that the province is only willing to be responsible for the payment of *principal* and *interest* on Senior Debt Obligations. This would exclude other costs and fees incurred by the Financing Entity related to the Fair Hydro program such as payments to service providers (*e.g.*, law firms, accountants) and other types of claims that might be advanced by Beneficiaries in connection with the proposed guarantee. Limiting the province's liability to "senior" debt holders excludes OPG (who is a subordinated debt holder) on the basis that the province has already funded OPG's contribution by way of a liquidity injection. We have revised the Term Sheet to reflect these more limited concepts (primarily by way of a new definition of "Specified Claims").

- **Materiality Threshold** – The August Term Sheet included a series of "Guarantee Activation Events" that would trigger Ontario's obligations under the provincial assurance agreement. Although the enumerated list of events substantially reflected the limited form of guarantee proposed by the OFA, the August Term Sheet removed the "materiality" threshold for guaranteed claims. The intent of this change is to make the province liable in any case where the obligations of bondholders are not paid in full. However, this strict form of guarantee would expose the province to any unreasonable degree of risk. Beneficiaries could potentially seek to trigger the guarantee in response to routine legislative amendments affecting the value of their investment interest only indirectly or in insignificant ways (*e.g.*, a merely theoretical diminution in the value of the regulatory asset or some kind of timing issue that modestly delays payment). For this reason, we have reintroduced the concept of "materiality" in the list of Guarantee Activation Events (now described as "Assumption Events").

- **Right of Subrogation** – We have added a provision to the Term Sheet making it clear that Ontario will be subrogated to the rights of Beneficiaries who receive payments under the guarantee. This ensures that the province will be entitled to pursue any civil remedies against third parties that may have been available to the Beneficiary in respect of such amounts.

- **"Assumption" of Obligations** – The provisions of the August Term Sheet stated that, upon the occurrence of a Guarantee Activation Event, Ontario "assume and pay" all of the obligations of the Financing Entity. This language seems to intend that the province would directly assume all of the Financing Entities obligations to the Indenture Trustee and bondholders. The OFA has previously indicated that Ontario is only willing to commit to pay the principal and interest obligations of the Financing Entity as they come due, and not to replace the Financing Entity and become directly liable for all its obligations (except at its own option as discussed below). We have revised the Term Sheet to reflect this more limited commitment.

- **Optional Replacement** – We have added to the Term Sheet an optional right on the part of the province to assume all of the rights and liabilities of the Financing Entity, without the need for any further consent or approval of the Indenture Trustee. This would provide Ontario with greater flexibility in determining how to deal with any claims arising under the guarantee, without imposing this more onerous obligation on the province.

- **Approval Requirements** – We have revised the approval requirement section of the Term Sheet to modestly strengthen Ontario's rights associated with the process for approving future transactions that will be covered by the provincial assurance agreement.

- **Warehousing/Commingling Risks** – The August Term Sheet included a series of provisions dealing with ongoing business concerns associated with debt warehousing risks and LDC credit rating commingling. As far as we are aware, the arrangements contemplated in these sections have not been agreed to by Ontario and it is not helpful to link them in this way to the ongoing negotiations around the proposed guarantee. For this reason, we have deleted them from the Term Sheet.

E. Recommendations and Next Steps

- MOF-LSB will be arranging a meeting with the OFA as early as practicable next week to discuss the communication of these comments and the revised draft Term Sheet to OPG.

APPENDIX "A"

Change of Law Assumption Agreement

Indicative Term Sheet

Ontario Fair Hydro Plan Act, 2017

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

Change of Law Assumption Agreement:	A Change of Law Assumption Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.
Obligor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indenture Trustee:	An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture.
Beneficiaries:	The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.
Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval. Specified Claims are expected to include principal and interest on senior debt obligations issued by the Financing Entity [and any other monetary obligations of the Financing Entity that rank ahead of or equally in priority of payment with the senior debt obligations of the Financing Entity pursuant to the Trust Indenture].
Assumption Events:	Any of the following would constitute an Assumption Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute;

	(3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*), in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims or (b) the Change of Law Assumption Agreement or any of the agreements under which Specified Claims arise without the agreement of the Indenture Trustee; or (B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.
Obligation to Assume Specified Claims:	Upon the occurrence of an Assumption Event, the Indenture Trustee will have the right to require the Obligor to pay the amount of Specified Claims on behalf of the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Assumption Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Subrogation:	Upon paying an amount to a Beneficiary in respect of a Specified Claim, the Obligor shall become entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent.

Optional Replacement:	At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement.
Term:	The Change of Law Assumption Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The Change of Law Assumption Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Assumption Agreement applies to such Specified Claim. The Change of Law Assumption Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Assumption Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims. The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required.
FIPPA:	The Change of Law Assumption Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Assumption Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
Representations and Warranties:	To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.

Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.
Governing Law:	Province of Ontario.

Subject: RE: Provincial Support Term Sheet

Hi all,

We had a very useful meeting with Blakes (Steven Ashbourne) and Energy Legal this morning. There are quite a few legal issues and concerns to discuss regarding this term sheet as it is overly broad. At this point in the development of the province's role in support, it seems that the development of this type of term sheet is premature given the uncertainties.

At our meeting we discussed, that a useful next step would be to have another meeting with Provincial representatives and Blakes which would include yourselves from the OFA, Energy legal and Energy reps as well as the Provincial Controller and likely TD as well as the Province's financial advisor so that we can all discuss next steps and the best approach.

In the meantime, Toby and I can have an internal call to give you an update on our meeting this morning. Possibly at 3pm today if that works.

Thanks.

Malle

Hi

In follow-up to my earlier email, Sriram (TPD) wants to provide a note to the MO in case OPG reaches out to them regarding the PILs issue or other. We drafted the attached short note to outline some of the outstanding initiatives being pursued and suggesting some coordination amongst provincial parties. Please let me know if you have any comments.

Thanks
Bruno

Hi

I'm checking with you to confirm that current discussions around the Provincial Support Agreement do not refer to exemption of OPG or OPG financial from PiLs.

You may be aware that there are currently discussions involving Tax Policy Division about such and exemption and there may be some confusion as to how this issue is will be brought forward. See first email below from Sriram, in

which he notes "OPG mentioned a provincial guarantee to negate tax"

As far as I recall, this was not part of the provincial Support Agreement which focussed on performance an payment guarantees. I do not see any language which would have any impact on the status quo PiLs regime.

If you could confirm your understanding that would be helpful.

Thanks
Bruno

Subject: RE: OPG

Hi Sriram,

Perhaps I missed the reference on the call, as I was drawn away for part.

I think the potential impact on the proposed provincial support agreement is arguably tenuous.

The payment guarantee (drafting is on-going) could be potentially triggered under certain circumstances (basically if there is an impact on bondholder) such as the Act is repealed; or if it is amended, or a regulation is amended, in a way that adversely impacts the ability of a Financing Entity to fully pay all funding obligations.

Given that the financing entity can recover, under the Act, taxes or PILs, if payable, from ratepayers (as I understand it), should mean that there should be no such impact on the financing entity's ability to pay bondholders -- there would just be a ratepayer impact if PILs or taxes are paid, which is why the PILs exemption is being asked for.

That said, if OPG is making such an argument, I'd want to hear the strength of their case too, of course, but it seems a stretch.

Perhaps Scott or John would have more to add on this.

Ron

Hi Sriram,

I believe the MO is aware of the proposal for a provincial support agreement / guarantees.

We can try drafting a short summary on what that is about. Not sure how it would fit into a tax-related note. Perhaps John could discuss with Ann and Rob.

Ron

Hi Sriram,

A Provincial support agreement (or agreements) is being worked on, and there are services or performance guarantee portions discussed but a tax or PILs component does not sound familiar to me. I'll enquire.

It's more about a Provincial payment guarantee to bondholders of the financing entity under certain circumstances.

Ron

DRAFT

There are a number of distinct outstanding business issues related to Ontario's Fair Hydro Plan that are under discussion between the Province and electricity sector organizations, primarily OPG. These include:

1. A **Provincial Support Agreement** whereby the Province (Minister of Finance and Minister of Energy jointly) ~~will~~ would provide support to ~~credit ratings of~~ the financing entity established by OPG and ~~provide assurances to~~ prospective debt holders by providing certain guarantees that obligations o~~f~~f the IESO are fulfilled ("performance guarantee") and ensuring that funding obligations of the financing entity are met under certain circumstances e.g., repeal of the Fair Hydro Act by a future government, amendments to the Fair Hydro Act that have a material and adverse impact on the financing entity ('payment guarantee/indemnity").
2. **Payment in lieu of Taxes** (PILs) exemption for the financing entity to minimise PILs payments as these costs would be recovered from ratepayers
3. Establishment of **OPG management fees** for provision of services to the financing entity
4. Indemnity Agreements by the Minister of Energy for IESO and OPG (and its subsidiaries) and directors, officers and employees to indemnify them against all losses, costs, damages and other expenses and claims which might be brought against them as a result of activities undertaken in support of the Fair Hydro Plan.
5. Approving a **new IESO credit facility** of $2 billion to manage temporary funding shortfalls in deferral financing e.g., due to cash timing differences.

Each of these initiatives are still under development/negotiation and being discussed among various Provincial interests (Ministry of Finance, Electricity Investment and Governance Secretariat, Ontario Financing Authority, Ministry of Energy) and electricity sector organizations OPG and IESO.

As different Provincial interests may be more or less involved in these different initiatives there may be a benefit to having a coordinated approach to these discussions.

Attachments:	CIPA OIC s.22 May 2017 (v.2) - ENG and FRE.DOCX

Hi Mike,
I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should also run it by you.
As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.
In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.
The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.
Again, both rates above are consistent with existing OICs.
Please let me if these rates look okay.
Thanks,
Sarah

Subject: Question - OIC for new IESO Credit Facility
Hi Linda,
As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).
Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.
Thanks,
Sarah

Executive Council of Ontario/Conseil exécutif de l'Ontario **[Bilingual]**

[Bilingue]

Ontario

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

ATTENDU QUE le ministre des Finances peut, en vertu du paragraphe 22 (1) de la *Loi de 1993 sur le plan d'investissement* (la « Loi »), acheter des valeurs mobilières des personnes morales créées en vertu du paragraphe 2 (1) de la Loi ou leur consentir des prêts selon les montants, aux moments et aux conditions que le lieutenant-gouverneur en conseil estime opportuns;

ATTENDU QUE l'Office ontarien de financement (l'« OOF ») est une personne morale créée en vertu du paragraphe 2 (1) de la Loi;

ATTENDU QUE, conformément au paragraphe 6 (3) de la Loi, le pouvoir qu'ont les personnes morales créées en vertu du paragraphe 2 (1) de la Loi de contracter des emprunts et d'émettre des valeurs mobilières, entre autres, ne peut être exercé qu'aux termes d'un règlement administratif approuvé par le ministre des Finances;

ATTENDU QUE l'OOF souhaite emprunter jusqu'à concurrence de trois milliards cinq cent millions de dollars en monnaie légale du Canada du ministre des Finances et qu'il a été autorisé à le faire par un règlement administratif d'emprunt approuvé conformément à la Loi;

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de trois milliards cinq cent millions de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce

dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

(iv) malgré les sous-alinéas (ii) et (iii), dans l'éventualité où aucun intérêt ne serait payable à l'OOF au titre d'un prêt à un tiers, aucun intérêt ne sera à payer par l'OOF sur la partie de l'avance ainsi utilisée et dans la mesure où les conditions du prêt à un tiers prévoient le report du paiement d'intérêts courus pour une période, le paiement d'intérêts au titre d'une avance ou d'une partie d'une avance sera également reporté pour une période d'égale durée;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Good afternoon,
Please find attached the material for discussion tomorrow morning.
Thanks,
Keley

WEEKLY RATE MITIGATION IMPLEMENTATION GROUP
April 25, 2017

Agenda

1) GA Refinancing
    - Legislative Drafting (LSB / Blakes)
    - OPG Update
    - IESO Update
    - OEB Update

2) Other OFHP Initiatives
    - RRRP, OESP and FN (SNAP)
    - Affordability Fund (CRED)
    - ICI (ESPD)

3) Update on Action Items / Policy Matrix

Notes:

Implementation of Ontario's Fair Hydro Plan
Week of April 24, 2017

Item	Key Deliverables / Considerations	Timing / Next Steps
1) Refinancing the Global Adjustment (ESP/IGS)		
• ENERGY, LSB, IESO, OPG, OEB, TBS and MOF	• Legislation / Regulations • Ministry has retained Navigant to prepare a report on long lived assets and associated assessment of value, Ministry to work with OPG to ensure alignment with OPG internal report for its Board • Financing: o How long will IESO hold short term liability (weeks/months); o When and how frequently will OPG purchase the asset from IESO; o OPG trust rating agency review and 3rd party lender market sounding (e.g., cost/term, etc); o OPG to confirm if it is considering more than one SPV/subsidiary; o OPG to explore tax considerations; o OPG to indicate how it would determine interest rate on sub-debt; o OPG working with the Ministries of Energy and Finance on equity injection mechanics, approvals and valuation approach; and o Ministry of Finance and Energy are working with TD on a non-disclosure agreement <u>Recent Action Items</u> **OPG:** • OPG to continue to work with lead banks / rating agencies / OFA on financing issues • OPG to confirm accounting if OFA were to act as lead order on borrowing • OPG to determine who will finance / hold the asset until it goes to the market – IESO/OPG to work together on outstanding issues	• AG briefing on April 19, 2017 (TBD) • April 28, pens down on Legislation • KPMG and E&Y opinions to be provided by May 1 • OPG Board to meet on May 1 for approval (Note: Sub-Committee meetings will occur in advance) • Approval dates: o TB on May 9 2017; and o LRC/Cabinet on May 10, 2017 • Legislation introduced May 11, 2017: o Opposition Briefing (TBD) • Summer 2017 implementation (June/July). OPG preference for July 1 to align with quarter-end

Item	Key Deliverables / Considerations	Timing / Next Steps
	regarding OPG cash flows • MOF (IGS) to work through equity injection mechanics and report back next week • OPG to embed OFA/Energy (as necessary) in their ongoing internal discussions • ESPD, IESO and OPG to continue discussions around refining refinancing modelling • OPG /LSB to work through requirements / help draft a shareholder letter in a form to be determined. OPG to continue to consider requirements for enhanced indemnification for Board member • OPG provided draft letter to OPG Board sub-committee on April 7, 2017 and provided to Ministry for comment. April 13, 2017, Minister of Energy sent letter to the OPG Chair • OPG to develop note on rationale for 51/49 capital structure of the Trust • OPG to confirm proposed tax status of the Special Purpose Vehicle (SPV) • OPG / OFA to comment / report on overall structure and financibility for TB report back • OPG to draft terms of guarantee to dealers (which will be presented to dealers) **IESO:** • IESO to work with KPMG in the development of a formal opinion once first draft of legislation is available • IESO to work through technical aspects with IT (i.e., operationalizing the back-office functions) • IESO to discuss LDC issues with OEB • IESO to work with KPMG on IESO recovery mechanism **OEB:** • OEB working to finalize RPP rates and release by April 20 **Legislative Drafting:** • LSB / Blakes / OPG / IESO / OEB / Key Ministries will continue to	

Item	Key Deliverables / Considerations	Timing / Next Steps
	work through legislative drafting issues including asking dealers about whether a rate class can be named as the backstop in legislation instead of individual ratepayers • LSB has drafted a letter for the Minister to send to LDCs re: contempt of the Legislature. • LSB to circulate legislation for review and comment over the weekend – comments requested by end of day Sunday April 23 • ENERGY / Blakes / IESO / OEB / OPG / Key Ministries to meet on Monday to work through issues related to legislation • Blakes / LSB to work with MAG on any constitutional law issues <u>Considerations</u> • OEB-RPP Filing in May 2017. OEB may also be required to set new GA rate for RPP-eligible consumers. • Ongoing legal, accounting and financing risk assessments. • Impact on Electricity Sector Dedicated Income.	
2) Broadening Rural or Remote Rate Protection (RRRP) (SNAP)		
• ENERGY, LSB and LDCs	• Legislation • Regulation (TBD) <u>Recent Action Items</u> • SNAP to continue to monitor rate hearings for RRRP LDCs • SNAP to collect billing implementation timeline estimates from LDCs • SNAP working with CSD / TBS on allocation for each program (RRRP, OESP, FN Rate and OREC) without executive control on each • Ministry to develop briefing note on why LDCs with RRRP continue to track to OEB for rate increases <u>Considerations</u> • Consideration of revising definitions of RRRP program for broadening to other LDCs and continue to have current structure in place to provide to existing consumers in Algoma and	• April 28, pens down on Legislation • Report back to TB/MBC on May 9, 2017 (TBD) • Implementation of expanded program and reduction in RRRP charge is targeted for July 1 2017

Item	Key Deliverables / Considerations	Timing / Next Steps
	Remotes. May require separation of RRRP and broader distribution rate protection into separate programs. • Technical/governance structures needed to flow taxpayer money to programs. Need to work with IESO/OEB/MOF. • Work with LDCs to consider any bill messaging.	
3) Expanding Ontario Electricity Support Program (OESP) (SNAP)		
• ENERGY, LSB, MCSS and OEB	• Legislation • Regulation <u>Recent Action Items</u> • SNAP to continue to work through OESP automatic qualification with MCSS / OEB • Legislation to include provision to allow for sharing of data between MCSS and OEB • SNAP to continue to work with, MOF, OEB and CRA on OESP wet signature • OEB decision this week on removing OESP from bill as of May 1. • SNAP to work with TBS to ensure funds flow from fiscal plan as soon as legislation passes <u>Considerations</u> • Ministry is working with OEB on how the OESP enhancement will be announced as part of a communications exercise. • Positive progress with OEB on implementation: o OEB has been engaged on implementation timelines for 50% + new eligibility – OEB working with LDCs to ensure systems are upgraded to reflect new credit amounts; o Ongoing work with MCSS to auto-enroll those receiving / applying to social programs. Work plan for implementation being developed with OEB support. • As part of legislation / regulatory amendment work, investigating steps required to use OESP variance (approx. $100 million) to reduce current OESP charge to zero and continue funding	• April 28, pens down on Legislation • Report back to TB/MBC on May 9, 2017 (TBD) • Enhanced benefits and removal of OESP charge will take effect in May 2017

Item	Key Deliverables / Considerations	Timing / Next Steps
	existing program until tax changes in place. • Technical/governance structures needed to flow taxpayer money to programs. Need to work with IESO/OEB/MOF.	
4) Providing a First Nations On-Reserve Delivery Credit (SNAP)		
• ENERGY and LSB	• Legislation • Regulation (TBD) <u>Recent Action Items</u> • SNAP convened LDC working group on March 24th • SNAP to move forward with including COO in FN rate implementation / work through implementation issues. SNAP working to meet with COO to have preliminary discussion of the FNDC • OEB has not posted FN rate report just yet as conversations are ongoing between Ministry on a letter from the Minister to the OEB acknowledging receipt of the report and outlining the plan for implementation <u>Considerations</u> • On-reserve eligibility considerations require discussion with Chiefs of Ontario • Work with LDCs on implementation details that need to be captured in legislation. • Legislation required to have program funded by taxpayers. • Technical/governance structures needed to flow taxpayer money to programs. Need to work with IESO/OEB/MOF. • Work with LDCs to consider any bill messaging.	• April 28, pens down on Legislation • Ministry to meet with COO on April 26 regarding FN Rate implementation • Report back to TB/MBC by Spring 2017 with final program details, including performance management framework, and clarifying how the programs aligns with the significant OEB estimate of program costs, from $13 million to $20 million • Introduction of FNDC program targeting July 1 2017
5) Establishing an Affordability Fund (CRED)		
• ENERGY, IGS, LSB, Blakes, CSD, OPCD, TBS, MOF and H1 (KPMG and Osler)	• TBC/MBC Submission • Declaration of Trust (“Trust Deed”) • Transfer Payment Agreement (TPA) • Administrative Services Agreement (H1-Trust)	**April to May 2017:** • Advisory Committee recommends Board of Trustees by May 31, 2017;

Item	Key Deliverables / Considerations	Timing / Next Steps
	Recent Action Items • March 23 and 24: Trust Deed and TPA executed. • March 30: Funds transferred to Computershare. • April 7, 2017: Hydro One letter to Advisory Committee members to schedule next meeting and ask members to start thinking of qualified Trustees • Affordability Fund advisory committee met this week and reached consensus on three LDCs + two social agencies to be represented on Trust Board (Ottawa Carlton UW / Advocacy Centre for Tenants Ontario / Thunder Bay Hydro / Hydro One / Alectra) Considerations • Legislative changes not required.	Computershare appoints full Board of Trustees **June 2017:** • Trustees expected to engage with distributors, IESO, OEB, others, to define funding criteria and processes **June 2017:** • Report back to TB/MBC with final program details and a performance management framework including outcome measures and targets **Summer 2017:** • LDCs begin to apply to the Trust for funds **Late 2017/early 2018:** • ENERGY can apply for additional funds through 2018-19 PRRT based on performance and need. Trust term can be extended with amended/new TPA if agreed by Trust
6) Expanding ICI (ESP)		
• ENERGY, LSB, IESO and LDCs	Recent Action Items • Communications finalized TPA with OCC / ESP, CRED and COMMS to consider providing support to CME (outreach with CME ongoing) Considerations • Ongoing outreach with LDCs being undertaken by IESO.	• Report back to TB/MBC on May 9, 2017 • Effective April 2017

Item	Key Deliverables / Considerations	Timing / Next Steps
7) Energy Sector Efficiencies (i.e., Ontario Energy Board and IESO) (SNAP / ESP)		
• ENERGY, LSB, OEB and IESO	**OEB:** • Directive / Letter (TBD) <u>Considerations</u> • Signal efficiencies intent in OEB business plan letter • Work with OEB/LDCs on LTEP document and proposed directive to OEB **IESO:** • Directive / Letter (TBD) <u>Considerations</u> • IESO's stakeholder engagement re Market Renewal is ongoing.	• Continue this work as part of LTEP
8) Additional Initiatives for Small Business and Industrials (i.e., Class B) (ESP)		
• ENERGY, MEDG, MOF, MOECC, MOL and Small Business	• Identify additional opportunities to assist Class B electricity consumers and small and medium sized manufacturers' <u>Recent Action Items</u> • ESP to work with other ministries regarding other measures that can be considered for SMEs <u>Considerations</u> • TBD	• Report back to TBC/MBC and Cabinet in spring 2017 (per Cabinet Minute)
9) Initiatives for Tenants (SNAP)		
• ENERGY and MOH	• Explore ways to provide direct assistance to tenants that are not sub-metered and do not directly benefit under the existing and proposed rate mitigation programs	• Report back to TBC/MBC and Cabinet in fall 2017 (Per Cabinet Minute)

Item	Key Deliverables / Considerations	Timing / Next Steps
	Considerations • MHO leading any legislative/regulatory changes needed to have tenants benefit from program. Consider whether benefits are limited to 8% and GA (rather than OESP which is harder to provide to tenants who do not pay their bills). • ENERGY working with MCSS to streamline/automate enrollment for ODSP/OW consumers into OESP.	
10) Stakeholder/Agency Outreach (Communications)		
• ENERGY	• Minister's letters to: o Ratepayers; o LDCs; o Business (e.g., OCC, CME, Concerned Manufactures, etc); and o Agencies (i.e., IESO, OPG, OEB and H1)	• Early-mid March
11) Engagement with Officers of the Legislature		
• ENERGY, MOF/OFA, Financial Accountability Officer (FAO)	• Provide FAO staff with a technical briefing on the OFHP	• March 9, 2017: Preliminary discussion • March 14, 2017: Letter received requesting additional information by March 24, 2017 • March 31, 2017: Ministry submitted responsive materials
• ENERGY, MOF/OFA, Auditor General (AG)	• Provide the AG with a technical briefing on the OFHP Recent Action Items • Provide AG technical briefing presentation used in media lock-up on OFHP in advance of the technical briefing	• Preliminary discussion on April 19, 2017 (TBD)

Item	Key Deliverables / Considerations	Timing / Next Steps
12) Bill Presentment (SNAP/LSB)		
• ENERGY	• Ministry to begin work on bill presentment <u>Recent Action Items</u> • MO to clarify bill presentment expectations with PO (Bill inserts will be ready for July 1 with bill redesign to occur in the Fall) • Ministry to develop deck on bill presentment with high level slides on legislation	• Initial discussion on March 31, 2017

Subject: FW: Rate Mitigation Implementation Meeting - August 10, 2017
Date: Friday, August 11, 2017 10:16:00 AM
Attachments: Action Items_Aug 10_Final.docx

Good morning,

As you may know, coming out of the Rate Mitigation meeting yesterday with Energy, it was decided that TB/MBC will need to decide on the Provincial Guarantee. OFA has been tasked with preparing a Treasury Board submission that will track to TB/Cabinet on September 12th/13th (see attached Action Items).

I'm going to develop a first draft of the submission and circulate it to this group next week for comment. After the first round of comments, I'll recirculate to a wider group, including Scott Nelms' team and OPCD. To assist in my preparation of the submission, could I ask you to **send me any materials you have on the Provincial Guarantee** – latest term sheet, briefing notes, decks, etc.?

Mike, I know you're away next week, so if there's anything in particular that you think TB/MBC should be made aware of with respect to the decision on the guarantee, please let me know and I'll make sure it's incorporated into the submission.

Many thanks and happy to discuss.

Anna

Subject: Rate Mitigation Implementation Meeting - August 10, 2017
Hi everyone,
Please find attached the material for discussion tomorrow morning.
Thanks,
Martin

Action Items – August 10, 2017

1) GA Refinancing
    - o General Update (OPG / IESO)
        - OPG will go to its Board with OFHP financing plan following direction from the August 16th meeting
    - o Draft Provincial Guarantees for Dealers (OFA/OPG)
        - OPG, TB/OPCD, MOF, OFA and ENEGY had a discussion on proposed approach on August 10th. Additional accounting review is required on proposed approach
        - Note: Initial focus on OPG finiancing will be focused on the Canadian market

2) August 16th Meeting (Provincial Guarantee (PG) Update)
    - OFA will develop proposal summary on the PG for the August 16th meeting
    - TB submission on the PG will track to TB/Cabinet on September 12th/13th. TBS indicated that it would also like the submission to provide a general status update on OFHP

3) AG Update
    - On July 25th, IESO had a special Board meeting on the OFHP that the AG attended

4) Other OFHP Initiatives
    - o RRRP, OESP and FN (SNAP)
    - o Affordability Fund (CRED)
        - Trustees have a call on August 11th

Action Items – June 22

1) OFHP Ads
    - Ad to be shown at Cab – Communication product to be included in submission

2) GA Refinancing
    - Regulation (Energy / All)
        - Next turn going out this morning
        - Ministry finalizing drafts of submissions to share with TBS/Cab
        - TBS would like timing of report backs

    - Critical Path Updates (OPG / IESO / OEB)
        - OPG having discussions (using soft deck) with the rating agencies (DBRS, S&P, Fitch) late next week / early the week after to determine the scope of documents required (legal, program)
            - OPG to provide deck to Ministry
        - OPG/IESO accountants and laywers meeting to work through accounting issue on the need for revenue to pay interest and fees in the period when clean energy adjustments cannot be charged to rate payers
            - OPG/IESO to report back
        - OPG legal agreements in progress
            - OPG to provide a detailed list of legal agreements to Ministry
        - OEB releasing RPP prices June 22, 2017 / Noon, as well as RRRP amounts

    - Business Item Upates (OFA / IGS)
        - Ministry has provided answers on MOF's questions on the Board indemnities
            - Ministry to submit formal (transmittal memo) Section 28 submission
            - MOF to brief its Minister on Wedensday to get Section 28 approval
            - Minister of Energy would then sign indemninities
        - OFA credit OIC going to LRC on June 27th
        - OFA to send comments on the OPG provincial guarantees this week (looking to finalize by end of July)
        - Energy would need to be comfortable with equity injection process, but OFA would coordinate on a montly basis

3) AG
    - Recent Activities / Requests (All)
        - TBS met with AG
        - AG to provide opinion on August 18, 2017
        - AG was going to provide IESO with a document on accounting concerns
            - IESO will be delivering a technical document to its Board by the end of the week
        - KPMG received what IESO believes is a similar document and will be responding to the issues raised

4) Other OFHP Initiatives
    - RRRP, OESP and FN (SNAP)
        - OESP regs are tracking to Cabinet on the 27th
        - MCSS - OESP automatic enrolment TB submission to track in July
        - One LDC may not be able to implement RRRP
    - Affordability Fund (CRED)
        - First meeting of Trustees held on June 21st
        - Key next steps include:
            - Trustees to sign appointment document
            - Trustees to appoint Hydro One as administrator, pending review by Trustees of Administrative Services Agreement
        - Next meeting of Trustees to be scheduled for late July
            - Hydro One to develop strawman of program design considerations for Trustees' review

Hi All,
Attached are Media Q&As for PA, the timeline for the response is EOD Friday. It looks like there have been a lot of questions added since the ADM signoff on Tuesday.
David, questions 40 and 41 related to credit ratings (also looking confirmation on Q29 stating Ontario being most indebted sub sovereign in the world, which I recall being the case).
Darren, questions 32 and 47 relate to the Hydro rebate plan and the Hydro One sale, I believe that's something you'd take a look at in Francisco's absence?
John as we discussed 29, 30, 31 are IOD related.
Please also take a scan through in case there is anything else not mentioned.
Thanks,
Matt Breadner on behalf of Anna Strathy

Hi everyone –
Sorry for the slow share, been a crazy day. I'm not sure if folks received this through other channels – the email below suggest you may have – but being cautious and ensuring.
Not the timelines to respond by EOD Friday.
Thanks,
P.

Importance: High
Hi Sarah, Patrick,

In follow-up to the ADM approvals of communications products for Public Accounts yesterday (Aug 29) morning, we have updated our comprehensive media Q&A document.
Please see attached for the comprehensive media Q&A document, which includes "top media questions" (approved by TBS/MOF ADMs yesterday), as well as other questions related to accounting changes, debt, deficit, Trillium Trust, etc. While the document is long, many of the questions re-iterate key information that is included in the already-approved top media questions section.
For your reference, I will also be sending this document to MOF Communications for their review, as

well as to Energy (for questions related to Fair Hydro).
Can you please review the document and **provide your feedback/approval** for the questions relevant to OPCD and OTB **by Friday September 1st end of day**. We appreciate your work on this as we continue to work toward deadlines for DMO/MO approvals.
David- cc-ing you for your review on the Trillium Trust questions in particular (and to confirm will also be sharing this with MOF).
Thank you, and please do not hesitate to let us know if you have any questions.

Best,

Alisha

DRAFT

Top Media Qs&As

Top media Qs&As have been approved by TBS & MOF ADMs on August 29, 2017

1. **The Auditor General has issued a qualified opinion for the second year in a row. Is this a sign of fiscal mismanagement?**

   We continue to move forward and present the Province's finances fairly and accurately and in accordance with Canadian Public Sector Accounting Board standards. Ontario has a strong track record of producing high-quality financial reports on a timely basis. The Auditor General's qualified opinion is based on a different interpretation of Public Sector Accounting Board standards for net pension assets and recognition of market accounts.

   Last year there was a disagreement among the Province's professional accounting staff and the Auditor General's Office on the appropriate application of Public Sector Accounting Board standards regarding pension accounting.

   As a result, the Pension Asset Expert Advisory Panel was established to deliver independent advice and recommendations on the issue to the Province.

   The independent panel members concluded the Province's share of the net pension assets of both the Ontario Teachers' Pension Plan and the Ontario Public Service Employees' Union Pension Plan should be recognized in Ontario's financial statements.

   After significant deliberation, including consideration of the recommendations of the panel, Ontario confirmed that the accounting for these plans prior to 2015-16 was appropriate, and are prepared in accordance with public sector accounting standards for pension asset accounting. Further, Ernst & Young LLP provided additional analysis and concluded that no valuation analysis was required for either plan. The 2016-17 financial statements include these pension assets, and we continue to apply the accounting treatment of pension assets that the Province has used consistently since 2001.

   This year the Independent Electricity System Operator (IESO) began recognizing its market accounts' assets (amounts due from power distributors) and liabilities (amounts due to power producers) in their financial results. IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects its net financial position on behalf of the IESO-administered markets at year-end. This change was supported by the IESO's audit committee, an independent external auditor, and finally by the Office of the Provincial Controller. This change also has no impact to the province's annual deficit, net debt or accumulated deficit.

   This accounting is consistent with the presentation used previously by the Ontario Power Authority (which was merged with the IESO on January 1, 2015)

in its financial statements, which was not subject to qualification from the Office of the Auditor General at that time.

2. The Auditor General is critical of the IESO accounting changes. Is this another example of Ontario's 'funny math'?

No. The Independent Electricity System Operator (IESO) began recognizing its market accounts' assets (amounts due from power distributors) and liabilities (amounts due to power producers) in their financial results. IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects its net financial position on behalf of the IESO-administered markets at year-end.

Public Sector Accounting Board standards encourage preparers and auditors to consider guidance in other accounting frameworks to address transparency and accountability:

- This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's annual report which was published online in March 2017.
- Further, this accounting is consistent with the presentation used previously by the Ontario Power Authority (which was merged with the IESO on January 1, 2015) in its financial statements, which was not subject to qualification from the Office of the Auditor General at that time.

This change has no impact to the province's annual deficit, net debt or accumulated deficit.

As such, this accounting change has been supported by the professional accounting staff of the Office of the Provincial Controller.

We will continue to work with the Auditor General to build on the government's track record of responsible fiscal management and high quality financial reporting.

If pressed on rate-regulated accounting:

The IESO made the decision to adopt rate-regulated accounting because it better reflects the economic substance of certain types of expenses that may not be directly recovered through the normal revenue requirement model.

The IESO, like Hydro One and Ontario Power Generation (OPG), is regulated by the Ontario Energy Board. The IESO adopted rate-regulated accounting for its year ended December 31, 2016. The impact on the financial statements of the

DRAFT

Province is a decrease of $82 million in the 2016-17 opening accumulated deficit and an increase in the 2016-17 annual deficit by $24 million.

This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's annual report which was published online in March 2017.

3. Why are you still fighting with the Auditor General over pension accounting?

In preparing last year's Public Accounts, the Province's professional accounting staff and the Auditor General's Office engaged in discussions about the appropriate application of Public Sector Accounting Board standards regarding pension accounting for the Province's jointly sponsored pension plans.

As a result, the Pension Asset Expert Advisory Panel was established to deliver independent advice and recommendations to the Province on the issue. The independent panel members concluded the Province's share of the net pension assets of both the Ontario Teachers' Pension Plan and the Ontario Public Service Employees' Union Pension Plan should be recognized in Ontario's financial statements.

After significant deliberation, including consideration of the recommendations of the panel, Ontario confirmed that the accounting for these plans prior to 2015-16 was appropriate. Further, Ernst & Young LLP provided additional analysis and concluded that no valuation analysis was required for either plan. The 2016-17 financial statements include these pension assets, and we continue to apply the accounting treatment of pension assets that the Province has used consistently since 2001.

We will continue to work with the Auditor General to build on the government's track record of responsible fiscal management and high quality financial reporting.

4. How were you able to beat your deficit target in 2016-17?

In 2016-17 we maintained our focus on responsible fiscal management and investing in the right priorities. We are making progress on our economic plan by making investments to spur growth, transforming government and responsibly managing spending.

Average annual growth of total government spending has been held to 2.3 per cent for the past five years. As a result of growth in revenue that exceeded growth in program expense, as well as lower than forecast interest on debt, the

deficit is $3.3 billion lower than projected in the 2016 Budget. It is also $0.5 billion lower than the interim projection in the 2017 Budget.

This is the eighth year in a row the government has beaten its deficit target.

5. The government is claiming the deficit has been reduced to $1B deficit for 2016-17 and that the budget will be balanced over the next three years. However, the AG is saying that the deficit for 2016-17 was more than $2B due to the treatment of pension assets, and the FAO has stated that the government's revenue forecast is more than $1B too "optimistic". Isn't the government really hiding a $3-4B deficit instead of a balanced budget?

Commented [AT1]: From MOF; updated Aug 29

There is no hidden deficit. In the *2010 Budget*, the government committed to eliminating the deficit and returning to a balanced budget by 2017-18. Through targeted, measured and fiscally responsible decisions, Ontario has restored its fiscal and economic strength.

Today we are confirming that the 2016-17 deficit of $1 billion is $3.3 billion lower than projected in the 2016 Budget and $0.5 billion lower than the interim projection in the 2017 Ontario Budget. This marks the eighth year in a row that Ontario has beaten its deficit target.

The success in eliminating the deficit is supported by a strong track record in managing spending -- having held average growth in spending to 2.3 per cent over the past five years.

In addition, over the last several years, the government's investments to strengthen economic growth have paid off. Ontario is a leader in economic growth, with our real GDP having outpaced that of all the G7 countries for the last three years. The strengthened economy has resulted in increased revenue for the Province – in fact, over the past two fiscal years, revenue has come in higher than projected, supporting Ontario's return to a balanced budget.

It is also important to point out that private sector forecasters have revised upward their expectations for the Ontario economy since the 2017 Budget, reflecting the growing strength of the Ontario economy. The government is also taking steps to improve tax fairness and address the underground economy in order to ensure the integrity of the Province's revenues.

Finally, Ontario's fiscal plan incorporates prudence in the form of a reserve to protect the fiscal outlook against unforeseen adverse changes in the Province's revenue and expense. The reserve has been set at $0.6 billion in 2017-18, $0.6 billion in 2018-19, and $0.9 billion in 2019-20.

Balancing the budget means that the government can invest more in the programs and services that people rely on.

DRAFT

6. **Interest on debt is still massive and the Bank of Canada is expected to raise interest rates again this fall. How is the government preparing for this and will this affect your ability to maintain a balanced budget?**

   The increase in the Bank of Canada's policy rate reflects the growing strength of the Canadian and Ontario economy. Ontario's economy remains strong and has continued to grow and create jobs in an uncertain global environment.

   A quarter-point increase in the policy rate is not likely to have a material impact on the Ontario economic outlook. The 2017 Ontario Budget anticipated that the interest rates would rise modestly.

   As noted in the 2017 Budget, the Province's average cost of 10 year borrowing in 2017-18 is forecast to be 3 per cent. The impact of a 100 basis point increase in borrowing rates is forecast to be approximately $300 million. The interest rate forecast used in the Budget was prudent, and anticipated that long-term interest rates would rise as we progressed through the fiscal year.

7. **You claim to have balanced the budget yet you keep piling on more debt. How do you plan to pay down the debt?**

   Commented [AT2]: From MOF/OFA; updated Aug 30

   We maintain a target of reducing the net debt-to-GDP ratio to its pre-recession level of 27 per cent, with current projections showing that this will be achieved by 2029-30. In the balanced 2017 Budget, the government is setting an interim target to reduce the net debt-to-GDP ratio to 35 per cent by 2023–24.

   In a balanced budget environment, debt would be incurred primarily to invest in capital assets. We are making progress on our economic plan by making investments to spur growth, transforming government and responsibly managing spending – including addressing the underground economy and maintaining tax fairness. Our strategic investments in infrastructure provide economic benefits: a recent study by the Centre for Spatial Economics (C4SE) finds that, over the long term, real GDP in Ontario will rise up to $6 on average per one dollar of public infrastructure spending.

   These strategic investments are creating jobs and contributing to economic growth. Ontario's GDP grew one per cent in the first quarter of 2017, outperforming that of Canada, the U.S. and all other G7 countries.

8. **Spending for hospitals, school boards and colleges seems to be much higher in Public Accounts than in the 2017 Budget. Why is this?**

   To increase transparency, this year we have made a simple change to how we are reporting third party revenues for broader public sector organizations.

DRAFT

For the first time, Public Accounts are presenting third party revenues for hospitals, school boards and colleges with provincial revenue. Third party revenues earned by these organizations, such as tuition fees, patient fees, research grants and donations, are no longer netted against the respective sectors' expenses, as they were in prior years for Public Accounts and the 2017 Budget.

This is simply a presentation change for Public Accounts. It is fiscally neutral, i.e. there is no change to the annual deficit, net debt or accumulated deficit. To ensure consistency in year-to-year and to Budget comparisons, we are reclassifying all previous years and the 2016 Budget. The 2017 Fall Economic Statement and 2018 Budget will also reflect this presentation change.

The Auditor General supports the Province's decision to adopt this presentation change. It is consistent with the accounting principles for governments issued by the Public Sector Accounting Board, and the reporting practices of other senior Canadian governments.

9. The Public Accounts show a drawdown of $260 million from the Trillium Trust. What did you spend the money on?

The government began allocating proceeds from the Trillium Trust in 2016-17 to help support infrastructure initiatives such as GO Regional Express Rail (GO RER), the Hurontario Light Rail Transit (LRT) and the Ontario Community Infrastructure Fund (OCIF).

We expect the Trillium Trust to be drawn down by about an additional $400 million in 2017–18.

Our strategic investments in infrastructure provide economic benefits: a recent study by the Centre for Spatial Economics (C4SE) finds that, over the long term, real GDP in Ontario will rise up to $6 on average per one dollar of public infrastructure spending.

10. Does a qualified opinion impact the Province's credit rating?

The Province's financial results show that the government has once again beaten its annual deficit targets. In April 2017, we delivered our first balanced budget since the global recession and we are on track to do so again next year and the year after.

The rating agencies will assess whether the underlying factors that lead to a qualified opinion directly affect the creditworthiness of the Province. However, there were no credit rating implications in 2016 when the Province received a qualified audit opinion on its 2015-16 Public Accounts.

DRAFT

In 2017 the C.D. Howe Institute, an independent research organization that assesses the fiscal planning and reporting of governments in Canada, also commented positively on the financial reporting practices of Ontario relating to its fiscal reporting activities that include Public Accounts, the annual Budget and Estimates.

11. The Auditor General has some serious concerns about how you're accounting for the Fair Hydro Plan. What do you say to this?

The accounting for the Fair Hydro Plan is a separate and distinct issue to the Public Accounts for 2016-17 that we're here to talk about today.

However, under the Fair Hydro Plan accounting structure, the Province's net debt and annual surplus/deficit won't be negatively impacted since all costs are expected to be recovered through future rates.

The Ministry of Finance continues to work closely with Treasury Board Secretariat, the Ministry of Energy, Ontario Power Generation (OPG), the Independent Electricity System Operator (IESO) and external advisors to address the outstanding accounting related considerations which will be key to managing the fiscal impact of the Global Adjustment refinancing.

The Auditor General has also been briefed on the government's refinancing structure.

For further questions, I direct you to contact my colleague at the Ministry of Energy.

12. Program spending increased again this year. Why?

Program spending in 2016-17 was $141.7 billion, down $0.1 billion from the 2016 Budget. Average annual growth of total government spending has been held to 2.3 per cent for the past five years.

Healthcare represents the largest share of government program spending at $56 billion. Transformation efforts continue to make the sector more effective and sustainable while continuing to improve access for patients, especially the increased demands from an aging and growing population. The government has invested in new drugs, technologies, community and home care, long term care homes, mental health, physicians' services and specialized cancer treatments.

Other increases include:

- $26.6 billion in education, mainly due to the introduction of full-day kindergarten;

DRAFT

- $16 billion in children's and social services, due to increased annual social assistance rates as well as investments in developmental services, autism and complex special needs programs, as well as the Ontario Child Benefit;
- $10.1 billion in post-secondary and training, due to enrolment growth in colleges and universities along with increased student financial assistance programs and increases in capital funding for post-secondary institutions;
- $4.6 billion in justice sector expenses due mainly to the upload of court security costs from municipalities, compensation for the Ontario Provincial Police and correctional services programs, as well as improved access to legal aid.

DRAFT

Media Qs&As – Comprehensive List

General Public Accounts Information

1. **What is Public Accounts?**

   The Public Accounts of Ontario is a key accountability and transparency document in the government's financial cycle. It's a look back that compares Ontario's actual performance to what was planned in the Budget.

   The Public Accounts present the financial statements of the Province, provide financial highlights of the past fiscal year, and report on performance in priority areas.

   Public Accounts is audited by the Auditor General and is typically released in the fall of the following fiscal year.

2. **Why can't I find some organizations' financial statements in the Public Accounts?**

   Volume 2 contains the individual financial statements of government organizations, business enterprises and other financial statements. At the time of print, some organizations may not have had time to provide their financial statements. When this happens, we post them to Ontario.ca/publicaccounts as soon as they're available. The omission has no impact on the financial results reported in Public Accounts.

Accounting Changes

3. **Why have you restated prior year's financial statements?**

   When preparing the 2016-17 Public Accounts, Ontario's professional accounting staff adopted accounting changes to further enhance accountability and transparency.

   These changes include:
   a. **Accounting for hospitals, school boards and colleges** - third-party revenues (i.e. tuition fees, patient fees, research grants and donations) are now reported together with provincial revenue. This change increases transparency and is supported by the Auditor General.
   b. **Accounting for energy sector government business enterprises** - the financial results of investments in Hydro One and Ontario Power Generation (OPG) now reflect International Financial Reporting Standards. Previously, these results were reported using U.S. Generally Accepted Accounting Principles. This change was made to meet Public Sector Accounting Board standards and is supported by the Auditor General.

DRAFT

c. **Accounting for the Independent Electricity System Operator (IESO)** - the IESO has adopted rate-regulated accounting, and is now recognizing its market accounts assets and liabilities in its financial results.
d. **Accounting for net pension assets of jointly sponsored pension plans** - the Province is reporting net pension assets for jointly sponsored pension plans. This is in line with Public Sector Accounting Board standards and the recommendations of the independent Pension Asset Expert Advisory Panel.

- **Broader Public Sector Accounting Presentation Change**

4. Spending for hospitals, school boards and colleges seems to be much higher in Public Accounts than in the 2017 Budget. Why is this?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT3]: Top Ten; updated Aug 29

To increase transparency, this year we have made a simple change to how we are reporting third party revenues for broader public sector organizations.

For the first time, Public Accounts are presenting third party revenues for hospitals, school boards and colleges with provincial revenue. Third party revenues earned by these organizations, such as tuition fees, patient fees, research grants and donations, are no longer netted against the respective sectors' expenses, as they were in prior years for Public Accounts and the 2017 Budget.

This is simply a presentation change for Public Accounts. It is fiscally neutral, i.e. there is no change to the annual deficit, net debt or accumulated deficit. To ensure consistency in year-to-year and to Budget comparisons, we are reclassifying all previous years and the 2016 Budget. The 2017 Fall Economic Statement and 2018 Budget will also reflect this presentation change.

The Auditor General supports the Province's decision to adopt this presentation change. It is consistent with the accounting principles for governments issued by the Public Sector Accounting Board, and the reporting practices of other senior Canadian governments.

5. What is consolidated reporting?

This presentation change may also be referred to as line-by-line consolidated reporting. This type of reporting is a more transparent way of presenting the details in the Broader Public Sector (BPS).

This change means that both expenses and revenues will be shown as separate items (on a gross basis), as opposed to being reported together (on a net basis).This affects what you see in the reporting breakdown of figures for hospitals, school boards, colleges and universities. However this has no impact to the annual deficit, net debt or accumulated deficit.

DRAFT

Line-by-line consolidated reporting is in keeping with Public Sector Accounting Board standards and will mean that our presentation for Public Accounts is consistent with other governments across Canada. The Auditor General is supportive of this change.

- ## Ontario Power Generation and Hydro One Accounting Change

6. Why is there a change to the accounting for Ontario Power Generation (OPG) and Hydro One?

In the 2016-17 Public Accounts, the financial results of Ontario's investments in Hydro One and Ontario Power Generation (OPG) now reflect International Financial Reporting Standards. Previously, these results were reported using U.S. Generally Accepted Accounting Principles. This change was made to meet Public Sector Accounting Board requirements and is supported by the Auditor General.

7. What is the impact of this change to their bottom line?

Energy and OPCD to provide details

- ## Pension Asset Accounting

See section: Auditor General – Qualified Opinion for more information.

- ## Independent Electricity System Operator (IESO) Accounting Changes

8. What accounting changes were made by the Independent Electricity System Operator (IESO)? Why?

Commented [AT4]: Updated Aug 29 using content approved byTBS/MOF ADMs

The Independent Electricity System Operator (IESO) began recognizing its market accounts' assets (amounts due from power distributors) and liabilities (amounts due to power producers) in their financial results. IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects its net financial position on behalf of the IESO-administered markets at year-end.

The IESO also made the decision to adopt rate-regulated accounting because it better reflects the economic substance of certain types of expenses that may not be directly recovered through the normal revenue requirement model.

This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's 2016 annual report which was published online in March 2017.

DRAFT

See section: Auditor General – Qualified Opinion for more information.

Auditor General – Qualified Opinion

9. The Auditor General has issued a qualified opinion for the second year in a row. Is this a sign of fiscal mismanagement?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT5]: Top Question; updated Aug 29

We continue to move forward and present the Province's finances fairly and accurately and in accordance with Canadian Public Sector Accounting Board standards. Ontario has a strong track record of producing high-quality financial reports on a timely basis. The Auditor General's qualified opinion is based on a different interpretation of Public Sector Accounting Board standards for net pension assets and recognition of market accounts.

Last year there was a disagreement among the Province's professional accounting staff and the Auditor General's Office on the appropriate application of Public Sector Accounting Board standards regarding pension accounting. As a result, the Pension Asset Expert Advisory Panel was established to deliver independent advice and recommendations on the issue to the Province.

The independent panel members concluded the Province's share of the net pension assets of both the Ontario Teachers' Pension Plan and the Ontario Public Service Employees' Union Pension Plan should be recognized in Ontario's financial statements.

After significant deliberation, including consideration of the recommendations of the panel, Ontario confirmed that the accounting for these plans prior to 2015-16 was appropriate, and are prepared in accordance with public sector accounting standards for pension asset accounting. Further, Ernst & Young LLP provided additional analysis and concluded that no valuation analysis was required for either plan. The 2016-17 financial statements include these pension assets, and we continue to apply the accounting treatment of pension assets that the Province has used consistently since 2001.

This year the Independent Electricity System Operator (IESO) began recognizing its market accounts' assets (amounts due from power distributors) and liabilities (amounts due to power producers) in their financial results. IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects its net financial position on behalf of the IESO-administered markets at year-end. This change was supported by the IESO's audit committee, an independent external auditor, and finally by the Office of the Provincial Controller. This change also has no impact to the province's annual deficit, net debt or accumulated deficit.

DRAFT

This accounting is consistent with the presentation used previously by the Ontario Power Authority (which was merged with the IESO on January 1, 2015) in its financial statements, which was not subject to qualification from the Office of the Auditor General at that time.

10. **This year it's IESO accounting. Last year it was pension assets. Before that it was government advertising. Why are you still fighting with the Auditor General? This seems to be a pattern of behavior where you try and undermine her authority.**

    Our government has the utmost respect for all independent officers of the legislature, and we value the important perspective they bring.

- **Pension Asset Accounting**

11. **Why are you still fighting with the Auditor General over pension accounting?**
    (Has been approved by TBS & MOF ADMs on August 29, 2017)

    In preparing last year's Public Accounts, the Province's professional accounting staff and the Auditor General's Office engaged in discussions about the appropriate application of Public Sector Accounting Board standards regarding pension accounting for the Province's jointly sponsored pension plans.

    As a result, the Pension Asset Expert Advisory Panel was established to deliver independent advice and recommendations to the Province on the issue. The independent panel members concluded the Province's share of the net pension assets of both the Ontario Teachers' Pension Plan and the Ontario Public Service Employees' Union Pension Plan should be recognized in Ontario's financial statements.

    After significant deliberation, including consideration of the recommendations of the panel, Ontario confirmed that the accounting for these plans prior to 2015-16 was appropriate. Further, Ernst & Young LLP provided additional analysis and concluded that no valuation analysis was required for either plan. The 2016-17 financial statements include these pension assets, and we continue to apply the accounting treatment of pension assets that the Province has used consistently since 2001.

    We will continue to work with the Auditor General to build on the government's track record of responsible fiscal management and high quality financial reporting.

12. **What was the panel's rationale for its decision?**

Commented [AT6]: Top Question; updated Aug 29

DRAFT

The Pension Asset Expert Advisory Panel recommended that the Province's share of the net pension assets of both the Ontario Teachers' Pension Plan (OTPP) and the Ontario Public Service Employees Union Pension Plan (OPSEUPP) should be recognized as an asset in Ontario's financial statements.

The panel said that:

- Recognizing the asset will provide a faithful representation of the Province's financial position.
- The accounting surplus in the plan has a future economic benefit.
- The government controls access to that accounting surplus.
- The accounting surplus exists as the result of past transactions and events.
- It would be misleading not to recognize the Province's share of the assets in Public Accounts.

In addition, the panel concluded that the government will be able to benefit from the full amount of each net pension asset, and as a result, no reduction in the value is necessary.

Ernst & Young LLP provided additional analysis and concluded that no valuation analysis was required for either plan, confirming the independent panel's recommendation.

13. The Auditor General was critical of the panel's authority and credibility. What's your response to this?

The panel members are all highly-qualified experts in their field. They were carefully chosen for their expertise in the areas of jointly sponsored pension plans, actuarial modelling for pension plans and public sector accounting standards:

- **Patricia O'Malley (panel chair)** is a Chartered Professional Accountant. She has been a member of the Canadian Accounting Standards Oversight Council since 2013, was Chair of the Canadian Accounting Standards Board and was a member of the International Accounting Standards Board from 2001 to 2007.
- **Murray Gold** is a leading legal practitioner and senior pension and benefits partner at Koskie Minsky LLP.
- **Uros Karadzic** is a senior actuary at Ernst and Young's People Advisory Services Reward practice, which includes pension, benefit and compensation consulting.

DRAFT

- **Paul Martin** is a Chartered Professional Accountant, Comptroller with the Government of New Brunswick and previously a partner with the national accounting firm of Grant Thornton LLP.

The panel was completely independent from government, and arrived at its advice based on its own analysis of this complex issue.

14. How much did you pay the panel members? Do you think that money was justified?

The total cost of the panel was $221,113. This included compensation and travel expenses for the four panelists, as well as procurement. These rates are consistent with the Agencies and Appointments Directive, which specified up to $2,000 per day for appointees with unique and specialized expertise, or urgent issues affecting government priorities and requiring intense time commitments over a short period of time.

Commented [AT7]: Need to confirm with OPCD

The panel members have expertise in the areas of jointly sponsored pension plan governance, actuarial modelling for pension plans and public sector accounting standards, and provided independent advice on how to move forward with how Public Sector Accounting Board standards should be applied to current and potential future net pension assets.

• IESO Accounting

15. The Auditor General is critical of the IESO accounting changes. Is this another example of Ontario's 'funny math'?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT8]: Top Question; updated Aug 29

No. The Independent Electricity System Operator (IESO) began recognizing its market accounts' assets (amounts due from power distributors) and liabilities (amounts due to power producers) in their financial results. IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects its net financial position on behalf of the IESO-administered markets at year-end.

Public Sector Accounting Board standards encourage preparers and auditors to consider guidance in other accounting frameworks to address transparency and accountability:

- This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These

DRAFT

accounting changes were highlighted in the IESO's annual report which was published online in March 2017.

- Further, this accounting is consistent with the presentation used previously by the Ontario Power Authority (which was merged with the IESO on January 1, 2015) in its financial statements, which was not subject to qualification from the Office of the Auditor General at that time.

This change has no impact to the province's annual deficit, net debt or accumulated deficit.

As such, this accounting change has been supported by the professional accounting staff of the Office of the Provincial Controller.

We will continue to work with the Auditor General to build on the government's track record of responsible fiscal management and high quality financial reporting.

If pressed on rate-regulated accounting:

The IESO made the decision to adopt rate-regulated accounting because it better reflects the economic substance of certain types of expenses that may not be directly recovered through the normal revenue requirement model.

The IESO, like Hydro One and Ontario Power Generation (OPG), is regulated by the Ontario Energy Board. The IESO adopted rate-regulated accounting for its year ended December 31, 2016. The impact on the financial statements of the Province is a decrease of $82 million in the 2016-17 opening accumulated deficit and an increase in the 2016-17 annual deficit by $24 million.

This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's annual report which was published online in March 2017.

16. What is the Auditor General's argument with these changes?

Commented [AT9]: Updated Aug 29 using content approved byTBS/MOF ADMs

The Auditor General claims that the change to the IESO's accounting policy to recognize market account assets and liabilities is inappropriate, as these market accounts are not assets and liabilities of the Province.

However, the IESO has chosen to recognize these markets accounts on its books for transparency reasons, as it better reflects its net financial position on behalf of the IESO-administered markets at year-end.

DRAFT

Public Sector Accounting Board standards encourage preparers and auditors to consider guidance in other accounting frameworks to address transparency and accountability:

- This accounting change was accepted by the IESO's independent external auditor, which issued an unqualified, or "clean," audit opinion. These accounting changes were highlighted in the IESO's annual report which was published online in March 2017.
- Further, this accounting is consistent with the presentation used previously by the Ontario Power Authority (which was merged with the IESO on January 1, 2015) in its financial statements, which was not subject to qualification from the Office of the Auditor General at that time.

This change has no impact to the province's annual deficit, net debt or accumulated deficit.

As such, this accounting change has been supported by the professional accounting staff of the Office of the Provincial Controller.

We will continue to work with the Auditor General to build on the government's track record of responsible fiscal management and high quality financial reporting.

17. Between IESO and the pension issue from last year it seems like you just make up new rules when you don't like what you hear from the Auditor General. How do you respond to that?

We continue to move forward and present the Province's finances fairly and accurately and in accordance with Canadian Public Sector Accounting Board standards. Ontario has a strong track record of producing high-quality financial reports on a timely basis. The Auditor General's qualified opinion is based on a different interpretation of Public Sector Accounting Board standards for net pension assets and recognition of market accounts.

In many cases the application of accounting standards requires professional judgment. The Province's professionally accredited accounting staff are highly qualified practitioners, with a high degree of expertise in their field. A difference of opinion on the interpretation of accounting standards is not unique to this situation. Other jurisdictions have also experienced differences of opinion between preparers and auditors on complex accounting matters.

Commented [AT10]: Need OPCD to provide examples of jurisdictions.

18. Will you strike an expert panel to study to IESO issue, like you did last year for pension accounting?

We have no plans to establish a panel at this time.

The changes made to the IESO accounting were accepted by the IESO's audit committee, board of directors, and their independent external auditor. These changes were outlined in the IESO's 2016 annual report, which was published in March 2017. The Office of the Provincial Controller supports these changes.

19. Your reasons for change are yet again at odds with the Auditor General. Why should we believe you, when she is an independent officer of the legislature?

The Auditor General's responsibility is to conduct an independent audit and provide her audit opinion based on her own professional judgment. A difference of opinion on the interpretation of accounting standards is not unique to this situation. Other jurisdictions have also experienced differences of opinion between preparers and auditors on complex accounting matters.

Commented [AT11]: Need OPCD to provide examples of jurisdictions.

- **Fair Hydro Accounting (Other Matters)**

20. The Auditor General alleges the government withheld information from her on the accounting treatment for the Fair Hydro Plan. Why would she say that?

First, I would note that the accounting for the Fair Hydro Plan is separate and distinct from the Public Accounts we're here to talk about today.

Having said that, we respectfully disagree with the Auditor General's claim that the government withheld information from her or her office.

In March, the Ministry of Energy provided the Auditor General's Office with Cabinet documents from February and March related to the Fair Hydro Plan. These documents together provided a comprehensive overview of all elements of the plan that were known at that time, including accounting memos from both the Independent Electricity System Operator (IESO) and Ontario Power Generation (OPG).

On April 19, 2017, senior ministry officials from Treasury Board Secretariat, Finance and Energy met with the Auditor General and her staff to provide a briefing on the accounting for the Fair Hydro Plan.

Since that April 19 briefing, ministry officials from Treasury Board Secretariat have met with the Auditor General several times. At each meeting, officials included the Fair Hydro Plan and IESO accounting on the agenda. However, in each case the Auditor declined those requests to discuss this issue with her.

21. The Auditor General has some serious concerns about how you're accounting for the Fair Hydro Plan. What do you say to this?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT12]: Top Question; updated Aug 29

The accounting for the Fair Hydro Plan is a separate and distinct issue to the Public Accounts for 2016-17 that we're here to talk about today.

However, under the Fair Hydro Plan accounting structure, the Province's net debt and annual surplus/deficit won't be negatively impacted since all costs are expected to be recovered through future rates.

The Ministry of Finance continues to work closely with Treasury Board Secretariat, the Ministry of Energy, Ontario Power Generation (OPG), the Independent Electricity System Operator (IESO) and external advisors to address the outstanding accounting related considerations which will be key to managing the fiscal impact of the Global Adjustment refinancing.

The Auditor General has also been briefed on the government's refinancing structure.

For further questions, I direct you to contact my colleague at the Ministry of Energy.

22. Why did you set up the Fair Hydro Plan accounting in this way?

Again, I would note that the accounting for the Fair Hydro Plan is separate and distinct from the Public Accounts we're here to talk about today.

However, in order to meet the needs of users, including the legislature and the public, for accountability in government reporting and decision making, it is essential that public sector financial statements reflect the economic substance of the government's activities.

All of the agreements necessary for the Global Adjustment (GA) Refinancing are not yet complete. The final accounting for the GA Refinancing will be completed once all of the elements are complete.

In analyzing the appropriate accounting treatment for the GA refinancing component of the Fair Hydro Plan on the province's consolidated financial statements in 2017-18 and forward, the province considered authoritative guidance issued by the Public Sector Accounting Board, as well as the accounting assessments of the Independent Electricity System Operator (IESO) and Ontario Power Generation (OPG) management, including the accounting opinions of their external auditors.

DRAFT

The complexity and unique structure of the GA Refinancing structure requires the use of professional judgment to ensure that key financial reporting objectives of transparency and accountability are best served.

Any further questions about the Fair Hydro Plan should be directed to my colleague the Minister of Energy.

Ontario's Fiscal Position

- **Balanced Budget**

23. The government is claiming the deficit has been reduced to $1B deficit for 2016-17 and that the budget will be balanced over the next three years. However, the AG is saying that the deficit for 2016-17 was more than $2B due to the treatment of pension assets, and the FAO has stated that the government's revenue forecast is more than $1B too "optimistic". Isn't the government really hiding a $3-4B deficit instead of a balanced budget? *(Information provided by MOF on August 29, 2017)*

Commented [AT13]: Top Question; updated Aug 29

There is no hidden deficit. In the *2010 Budget*, the government committed to eliminating the deficit and returning to a balanced budget by 2017-18. Through targeted, measured and fiscally responsible decisions, Ontario has restored its fiscal and economic strength.

Today we are confirming that the 2016-17 deficit of $1 billion is $3.3 billion lower than projected in the 2016 Budget and $0.5 billion lower than the interim projection in the 2017 Ontario Budget. This marks the eighth year in a row that Ontario has beaten its deficit target.

The success in eliminating the deficit is supported by a strong track record in managing spending -- having held average growth in spending to 2.3 per cent over the past five years.

In addition, over the last several years, the government's investments to strengthen economic growth have paid off. Ontario is a leader in economic growth, with our real GDP having outpaced that of all the G7 countries for the last three years. The strengthened economy has resulted in increased revenue for the Province – in fact, over the past two fiscal years, revenue has come in higher than projected, supporting Ontario's return to a balanced budget.

It is also important to point out that private sector forecasters have revised upward their expectations for the Ontario economy since the 2017 Budget, reflecting the growing strength of the Ontario economy. The government is also

taking steps to improve tax fairness and address the underground economy in order to ensure the integrity of the Province's revenues.

Finally, Ontario's fiscal plan incorporates prudence in the form of a reserve to protect the fiscal outlook against unforeseen adverse changes in the Province's revenue and expense. The reserve has been set at $0.6 billion in 2017-18, $0.6 billion in 2018-19, and $0.9 billion in 2019-20.

Balancing the budget means that the government can invest more in the programs and services that people rely on.

24. The Financial Accountability Office (FAO) just released a commentary saying your balanced budget is in question because it's based on optimistic revenue forecasts. Will you decrease spending or increase taxes to make up for this potential shortfall?

The government stands by the revenue forecast presented in the 2017 Budget. As recently presented in the 2017-18 First Quarter Finances, revenues are on track and the government is continuing to project a balanced budget in 2017-18.

Taxation revenue growth projected in the 2017 Budget aligns with growth actually experienced in recent years.

The government builds prudence into its economic forecast. Since the time of the 2017 Budget, private sector forecasters have revised up their economic growth projections for Ontario over the 2017-20 period, reflecting the strength in the Ontario economy.

25. How were you able to beat your deficit target in 2016-17?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT14]: Top Question; updated Aug 29

In 2016-17 we maintained our focus on responsible fiscal management and investing in the right priorities. We are making progress on our economic plan by making investments to spur growth, transforming government and responsibly managing spending.

Average annual growth of total government spending has been held to 2.3 per cent for the past five years. As a result of growth in revenue that exceeded growth in program expense, as well as lower than forecast interest on debt, the deficit is $3.3 billion lower than projected in the 2016 Budget. It is also $0.5 billion lower than the interim projection in the 2017 Budget.

This is the eighth year in a row the government has beaten its deficit target.

26. You beat your deficit targets again. Aren't you just padding your estimates so you can beat them at the end of the day?

No. The government's fiscal projections are based on the best economic and fiscal information available at the time. They reflect a realistic and responsible plan to manage the Province's resources, while still protecting the vital services that Ontarians rely on.

Beating our deficit targets helps to keep interest on debt at a manageable level and protects future generations from rising interest costs, which could otherwise crowd out spending on government priorities.

The government recognizes that a fiscally sound approach to managing the Province's finances will provide the foundation for the long-term well-being and prosperity of Ontarians, and protect the public services that Ontarians rely on.

- **Debt**

27. You claim to have balanced the budget yet you keep piling on more debt. How do you plan to pay down the debt?
(Provided by MOF/OFA on August 30, 2017)

Commented [AT15]: Top Question; Updated by MOF/OFA Aug 30

We maintain a target of reducing the net debt-to-GDP ratio to its pre-recession level of 27 per cent, with current projections showing that this will be achieved by 2029-30. In the balanced 2017 Budget, the government is setting an interim target to reduce the net debt-to-GDP ratio to 35 per cent by 2023–24.

In a balanced budget environment, debt would be incurred primarily to invest in capital assets. We are making progress on our economic plan by making investments to spur growth, transforming government and responsibly managing spending – including addressing the underground economy and maintaining tax fairness. Our strategic investments in infrastructure provide economic benefits: a recent study by the Centre for Spatial Economics (C4SE) finds that, over the long term, real GDP in Ontario will rise up to $6 on average per one dollar of public infrastructure spending.

These strategic investments are creating jobs and contributing to economic growth. Ontario's GDP grew one per cent in the first quarter of 2017, outperforming that of Canada, the U.S. and all other G7 countries.Interest on Debt

28. Interest on debt is still massive and the Bank of Canada is expected to raise interest rates again this fall. How is the government preparing for this and will this affect your ability to maintain a balanced budget?

Commented [AT16]: Top Question; updated Aug 29

DRAFT

(Has been approved by TBS & MOF ADMs on August 29, 2017)

The increase in the Bank of Canada's policy rate reflects the growing strength of the Canadian and Ontario economy. Ontario's economy remains strong and has continued to grow and create jobs in an uncertain global environment.

A quarter-point increase in the policy rate is not likely to have a material impact on the Ontario economic outlook. The 2017 Ontario Budget anticipated that the interest rates would rise modestly,

As noted in the 2017 Budget, the Province's average cost of 10 year borrowing in 2017-18 is forecast to be 3 per cent. The impact of a 100 basis point increase in borrowing rates is forecast to be approximately $300 million. The interest rate forecast used in the Budget was prudent, and anticipated that long-term interest rates would rise as we progressed through the fiscal year.

29. The government is paying an enormous amount of money just paying the interest on its debt. How are you addressing this?

Interest on debt expense was $11.7 billion, which was $0.7 billion below the plan of $12.4 billion, due mainly to lower-than-forecast interest rates, and cost-effective borrowing and debt management.

While interest costs have grown in absolute terms, they have steadily fallen as a percentage of Ontario's revenues since 2013-14. The interest on debt-to-revenue ratio is now at its lowest level from the peak of 15.5 per cent in 1999-2000.

Interest on debt-to-revenue is forecast to have been 8.4 per cent for 2016–17. This ratio is the lowest it has been in 25 years. It is forecast to decline to 8.2 per cent in 2017-18 and remain low throughout the outlook period to 2019–20.

We incurred increases to Ontario's debt during the recession for two reasons: to finance deficits and invest in capital assets. However we are making progress on our economic plan by making investments to spur growth, and are managing spending responsibly.

These strategic investments are creating jobs and contributing to economic growth. Ontario's GDP grew one per cent in the first quarter of 2017, outperforming that of Canada, the U.S. and all other G7 countries.

DRAFT

Our fiscal plan is working. Ontario is on track to balance the budget this year while making investments in the programs and services people and families rely on most.

30. You are spending more on interest payments for the debt than what you spend on post-secondary education. In fact, the payments equal more than 20 per cent of the health budget. How can you justify this?

Our priority following the 2008-09 recession was to achieve balance. In the first few years after the recession, the increase in net debt was primarily due to the deficit.

Approximately 61 per cent of the increase in net debt from 2008–09 to 2016–17 was due to the deficit, with net investments in capital assets responsible for the balance.

With balanced budgets, from 2017-18 onwards, the increase in net debt will be exclusively from investments in capital assets. In addition, the government is investing in public infrastructure which is vital to growing the economy and ensuring a high quality of life, whether people live in large, small, urban, northern or rural Ontario communities. The balanced budget is giving the government the fiscal flexibility to do more to help people and spur economic growth.

- **Most Indebted Subsovereign, Future Generations**

31. This government has a spending problem and Ontario is now the most indebted sub-sovereign borrower in the world. Why should we trust your plan?

With a growing economy and a balanced budget, this is the time to make investments in key services that matter most to people, like health care and education, while at the same time lowering costs for necessities like electricity and child care.

Ontario is on track to balance the budget this year while making investments in the programs and services people and families rely on most. This year and last, Ontario's debt-to-GDP ratio has improved from 39.6 per cent in the 2016 budget, to a forecasted 37.8 per cent in 2016-17, and it continues to track downward.

Our plan is also helping to grow the economy, with the largest investment in public infrastructure in the Province's history — more than $190 billion over 13 years starting in 2014-15. New schools, hospitals and transit projects are

DRAFT

improving quality of life and creating jobs in communities across Ontario.

Supporting ongoing economic growth is a top priority and we are encouraged by the influx of many innovative and dynamic businesses that are investing across the Province, bringing good jobs, higher wages and greater prosperity to our communities. We will continue to implement our balanced plan to build a healthy and sustainable economy for all of Ontario.

32. Some say you are unfairly placing the burden of debt on future generations through things like your Hydro rebate plan and your failure to address the Province's growing debt. How do you respond?

With a growing economy and a balanced budget, this is the time to make investments in key services that matter most to people, like health care and education, while at the same time lowering costs for necessities like electricity and child care.

We have heard from people across the Province that investing in greener generation, transmission and distribution have increased electricity bills too quickly, which is why our plan will ensure costs are distributed more fairly over time. The plan significantly reduces rates today and ensures fairness and predictability for tomorrow.

Most of Ontario's electricity generators are under 20-year contracts, but many of these facilities are expected to generate power after their contracts end. These are long-term assets for our electricity system. We are bringing forward some of the net value of these assets by spreading a portion of the costs of these contracts over a longer period.

With respect to debt, we remain committed to reducing the net debt-to-GDP ratio to its pre-recession level of 27 per cent, with current projections showing that this will be achieved by 2029-30. In the balanced 2017 Budget, the government is setting an interim target to reduce the net debt-to-GDP ratio to 35 per cent by 2023–24

- **Revenue**

33. How much money did you bring in in 2016-17?

Provincial revenues increased by $4.6 billion, or 3.4 per cent over the previous year. This increase was due in part to nominal GDP growth of 4.6 per cent in 2016, which contributed to higher taxation revenues. There were also higher

DRAFT

transfers from the federal government – including the Canada Health Transfer, Canada Social Transfer and funding for infrastructure projects.

Taxation revenues were $2.5 billion, or 2.8 per cent higher-than-projected in the 2016 budget. Corporate tax revenues were $2.8 billion higher. This was due to stronger-than-expected revenues from tax returns. Sales tax revenues were $0.8 billion higher, due to Ontario's larger share of the HST, and the strong housing market contributed $0.7 billion more in land transfer tax revenues.

Transfers from the Government of Canada were $0.6 billion lower than the 2016 Budget forecast. This was mainly due to lower-than-expected funding for infrastructure projects and other payments for government agencies, hospitals, school boards and colleges.

Fees, donations and other revenues from broader public sector organizations were $0.6 billion higher than the budget forecast, mainly due to higher-than-expected revenues from non-provincial sources for hospitals, and higher international tuition fees.

- **Asset Sales**

34. One-time asset sales are a way to bring in money, but isn't this burning the furniture to heat the house when it comes to a long-term revenue strategy?

We are committing money made from any asset sales to the Trillium Trust, which is helping to fund transit, transportation and other key infrastructure projects across Ontario.

The government made more than $200 million from the sale of the LCBO head office lands, along with $2 billion in gross proceeds from the second offering of Hydro One common shares in April 2016. In addition, the sale of the government's interest in Hydro One Brampton Networks resulted in a gain of $109 million.

These proceeds have also been committed to the Trillium Trust for infrastructure projects that help the economy grow, and create jobs for Ontarians.

See section: Trillium Trust for more information.

- **Transfers from the Federal Government**

35. Transfers from the federal government were lower than expected. Aren't you banking on another entity to get your fiscal house in order?

DRAFT

The Government of Ontario, like all Provinces in Canada, receives funding from the federal government. These transfers are done on an ongoing basis to help provide programs and services.

Transfers from the Government of Canada were lower than the 2016 Budget forecast by $0.6 billion. This was mainly due to lower-than-expected funding for infrastructure projects and other federal payments including transfers to government agencies, hospitals, school boards and colleges. This decline was partially offset by new transfers under the strategic investment fund for affordable housing and post-secondary education and training.

- **Revenue from International Tuition Fees**

36. International tuition fees helped the Province's bottom line but isn't this on the backs of young people who want to learn here?

MAESD to provide response

- **Program Spending**

37. Program spending increased again this year. Why?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT17]: Top Question; updated Aug 29

Program spending in 2016-17 was $141.7 billion, down $0.1 billion from the 2016 Budget. Average annual growth of total government spending has been held to 2.3 per cent for the past five years.

Healthcare represents the largest share of government program spending at $56 billion. Transformation efforts continue to make the sector more effective and sustainable while continuing to improve access for patients, especially the increased demands from an aging and growing population. The government has invested in new drugs, technologies, community and home care, long term care homes, mental health, physicians' services and specialized cancer treatments.

Other increases include:

- $26.6 billion in education, mainly due to the introduction of full-day kindergarten;
- $16 billion in children's and social services, due to increased annual social assistance rates as well as investments in developmental services, autism and complex special needs programs, as well as the Ontario Child Benefit;

DRAFT

- $10.1 billion in post-secondary and training, due to enrolment growth in colleges and universities along with increased student financial assistance programs and increases in capital funding for post-secondary institutions;
- $4.6 billion in justice sector expenses due mainly to the upload of court security costs from municipalities, compensation for the Ontario Provincial Police and correctional services programs, as well as improved access to legal aid.

38. You finally balanced the budget and now you're spending more on expensive election promises like free pharmacare. Why aren't you paying down debt instead?

With a growing economy and a balanced budget, this is the time to make investments in key services that matter most to people, like health care and education, while at the same time lowering costs for necessities like electricity and child care.

Providing more access to vital services isn't just an investment in our future. It's the right thing to do.

- **Credit Rating**

39. Does a qualified opinion impact the Province's credit rating?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT18]: Top Question; updated Aug 29

The Province's financial results show that the government has once again beaten its annual deficit targets. In April 2017, we delivered our first balanced budget since the global recession and we are on track to do so again next year and the year after.

The rating agencies will assess whether the underlying factors that lead to a qualified opinion directly affect the creditworthiness of the Province. However, there were no credit rating implications in 2016 when the Province received a qualified audit opinion on its 2015-16 Public Accounts.

In 2017 the C.D. Howe Institute, an independent research organization that assesses the fiscal planning and reporting of governments in Canada, also commented positively on the financial reporting practices of Ontario relating to its fiscal reporting activities that include Public Accounts, the annual Budget and Estimates.

40. What do you say to the credit rating agencies that have highlighted provincial debt as an area of credit weakness?

DRAFT

According to our first quarter finances released last month, we continue to project a balanced budget in 2017-18, unchanged from the 2017 Budget.

With stronger-than-expected first quarter economic growth and the government's responsible approach to fiscal management, we can continue to invest in programs and services that help people across the Province.

Ontario's economy continues to grow at a steady pace despite an uncertain global environment. Most key economic indicators show that growth continues in the second quarter. Our plan is working.

We remain committed to reducing the net debt-to-GDP ratio to its pre-recession level of 27 per cent, with current projections showing that this will be achieved by 2029-30. In the balanced 2017 Budget, the government is setting an interim target to reduce the net debt-to-GDP ratio to 35 per cent by 2023–24.

41. What is your credit rating as it stands today?

Following the release of the 2017 Budget, all four rating agencies have confirmed Ontario's long-term credit ratings. This reflects rating agencies' confidence in our government's plan to grow Ontario's economy and create jobs for Ontarians.

If pressed:
Ontario's ratings are:

	Long-Term	Short-Term
Moody's:	Aa2	P-1
DBRS:	AA (low)	R-1 (mid)
Fitch:	AA-	F1+
Standard and Poor's:	A+	A-1

- **C.D. Howe Institute**

42. Why does the C.D. Howe Institute weigh in on the government's fiscal situation?

The C.D. Howe Institute is an independent not-for-profit research institute that supports economically sound public policies. It is widely considered to be Canada's most influential think tank and is a trusted source of essential policy intelligence, distinguished by research that is nonpartisan, evidence-based and subject to definitive expert review.

Each year the C.D. Howe Institute produces a report on its assessment of the fiscal planning and reporting practices of senior Canadian governments. The institute observes that financial reports are a vital tool for understanding governments' plans and activities.

43. Why does this matter?

We consider reports like the C.D. Howe's Fiscal Accountability of Canada's Senior Governments important because they are written by independent experts. Studies such as this are essential for governments to continuously assess and improve their financial planning and reporting.

Ontario has received high marks for prominently presenting revenue and expense projections in the Budget that are on the same Public Sector Accounting Basis as the Public Accounts and Estimates.

The C.D. Howe Institute has recognized Ontario as one of the leading jurisdictions in Canada when it comes to fiscal accountability

Trillium Trust

44. What is the Trillium Trust?

The Trillium Trust was introduced in the 2014 Budget and provides for the dedication of prescribed net proceeds from the sale of designated assets to support key infrastructure priorities, such as roads, bridges and public transit.

The Trillium Trust is appearing for the first time in Public Accounts because the first drawdowns were made in 2016-17. The Trillium Trust Act, 2014 requires that all expenditures made under the act to support infrastructure investments are to be reflected in the Public Accounts.

Designated assets include the Province's shares of Hydro One and Hydro One Brampton, as well as the LCBO head office lands, the OPG head office building and the Lakeview lands.

We expect the Trillium Trust to be drawn down by about an additional $400 million in 2017–18.

The Ministry of Finance shows spending out of the Trillium Trust, and ministries that are benefitting from projects that are funded from the trust are reflected in

DRAFT

this year's Public Accounts. These figures are included in Volume 1 of Public Accounts.

The funding will help support initiatives, such as GO Regional Express Rail (GO RER), the Hurontario Light Rail Transit (LRT) and the Ontario Community Infrastructure Fund (OCIF).

45. The Public Accounts show a drawdown of $260 million from the Trillium Trust. What did you spend the money on?
(Has been approved by TBS & MOF ADMs on August 29, 2017)

Commented [AT19]: Top Question; updated Aug 29

The government began allocating proceeds from the Trillium Trust in 2016-17 to help support infrastructure initiatives such as GO Regional Express Rail (GO RER), the Hurontario Light Rail Transit (LRT) and the Ontario Community Infrastructure Fund (OCIF).

We expect the Trillium Trust to be drawn down by about an additional $400 million in 2017–18.

Our strategic investments in infrastructure provide economic benefits: a recent study by the Centre for Spatial Economics (C4SE) finds that, over the long term, real GDP in Ontario will rise up to $6 on average per one dollar of public infrastructure spending.

46. How much is currently in the trust?

Commented [AT20]: To confirm figures

In March 2017, the government credited the Trillium Trust with an additional $538 million in net revenue gains from the sale of Hydro One shares in 2016, bringing the total amount in the Trust to $5.3 billion.

The Trillium Trust was also credited with $246 million from the sale of the LCBO head office lands, and $1.35 billion in net proceeds from the sale of Ontario's shares in General Motors.

Like most large infrastructure investments, initial spending on projects is focused on planning, design, property acquisition and other activities to get projects construction-ready.

As this preliminary work is completed and construction activity gets underway, further project requirements will be identified that will be funded from the Trillium Trust in subsequent years.

DRAFT

The government is committed to investing the full amount from the Trillium Trust to support transit, transportation and other priority infrastructure.

47. If the Province raised about $2 billion in the secondary offering of Hydro One shares in 2016, why was only $538 million credited to the Trillium Trust?

Commented [AT21]: Updated Aug 30

The *Trillium Trust Act, 2014*, provides for the dedication of net revenue gains to the Trillium Trust associated with the sale of designated assets to support investments in transit, transportation and priority infrastructure across the Province.

The net revenue gains credited to the Trillium Trust from the secondary offering of Hydro One shares are derived from the gross proceeds, less fees/expenses incurred and less the book value of the shares sold, not including the shares purchased by OPG.

The government will move forward with regulations to credit the Trillium Trust with the net revenue gains from the shares purchased by OPG in the future.

The Province also used the $1.3 billion in proceeds related to the book value of the Hydro One shares sold to pay down the Province's debt and other payables with the Ontario Electricity Financial Corporation (OEFC).

Through the broadening of Hydro One ownership, the Province is meeting its target to generate $4 billion in net revenue gains that, through the Trillium Trust, will be reinvested in infrastructure under Moving Ontario Forward, and $5 billion to reduce debt.

Digital Tools/Open Government

Commented [AT22]: Updated Aug 30

48. What is the government doing to be transparent in regards to Public Accounts?

As part of our commitment to openness and transparency, we are using data visualization tools to help Ontarians better understand the Province's finances.

This year's tools are available at Ontario.ca/publicaccounts and include:

- Interactive data visualization tools that graphically present details on asset and expense information contained in Volume 1;
- Fully sortable data tables that summarize the financial statements from Volume 2, and the detailed scheduled payments from Volume 3; and

DRAFT

- Downloadable open data sets that provide the five-year trend for government revenue by source, revenue by sector, and statement of operations. This year's total number of open data downloads is 11, up from five last year.

These tools help make the Province's finances easier to understand, access and use, and are part of Ontario's commitment to creating a more open and transparent government.

49. How does this help the average Ontarian?

The more information we can provide to Ontarians about where their tax money is going, the better. That is why the government is providing new digital tools online to help Ontarians better understand their government's finances. Presenting the Public Accounts data in innovative, visual formats is part of Ontario's commitment to Open Government.

50. What are Open Data sets?

The Ontario government is committed to leading the most open, transparent, and accountable government in the country. Public access to information and opening up government data supports this commitment. Ontario is the first province in Canada to adopt the International Open Data Charter.

The International Open Data Charter contains a set of six principles that will build on Ontario's open by default data policy to increase civic participation, openness and accountability.

To date, we have released more than 585 open data sets and the Open Data sets for Public Accounts are being added to the catalogue. It can be found at www.ontario.ca/opendata

Attachments:	23148306-v6-Term Sheet - Provincial Support Agreement - May 12.DOCX 23148306-vpdf-Term Sheet - Provincial Support Agreement - May 12.PDF

Please see attached, for your review and comment, a revised draft that Stephen prepared based on our conversation yesterday. MOF Legal has no further comments on this draft.

I think that the two significant changes to note are:

1. The addition of the concept of "third party claims" as the driver of the indemnity section, meaning that the Indemnitee (which is a Financing Entity) can only bring a claim after a claim has been brought against them by a creditor.
2. The addition of the concept of conditions that would be required to step in in the event of funding mismatches, such as a market disruption event. As discussed yesterday, this provision is soft, so it is not clear what exactly this commits the Province to, but does give some comfort based on the language in this section.

Since there is a large group on this email, I think the best approach is to wait until noon for comments. If there are none by then, I will let Stephen and Energy know that we are ok with the draft, and Scott Nelms and whoever else needs to be involved with opening the discussions with OPG can use this version.

Subject: Revised Version of Provincial Support Arrangements

Hi. As a follow-up to our meeting earlier today, here is a revised version of the draft term sheet. The blackline shows changes from the June 14th version. Please let me know if you have any questions or concerns with the comments – including the deletion of the 'privilege' reference. Scott has the OFA's green light to share the draft term sheet with OPG. Please send along any final thoughts as soon as you can. The plan will be for Scott to send it out tomorrow morning. Thanks, Steve

Provincial Protection and Assurances

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*

Performance Guarantees	
Performance Guarantor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Performance Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and other persons having debt or other claims against the Financing Entity that are secured under a related trust indenture.

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

Performance Guarantee:	Pursuant to a Performance Guarantee, the Performance Guarantor will guarantee the performance, or cause the performance, of the obligations of IESO as servicer under the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including servicing obligations undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. It is anticipated that such obligations will include matters related to the billing, collection and remittance of clean energy adjustments by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments with other amounts. In the event that the Performance Guarantee is held to be unenforceable against the Performance Guarantor, the Performance Guarantee will contemplate, in the alternative, a functionally equivalent direct covenant of the Performance Guarantor.
Term:	The Performance Guarantor's obligations under a Performance Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is intended to be secured by the Performance Guarantee.
Approval Requirement:	The servicing obligations (including any amendments) to which the Performance Guarantee relates, together with the provisions of any Performance Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Performance Guarantee:	Under no circumstances shall the Performance Guarantor be obligated to pay special or punitive damages, or for loss of profits.
<u>Indemnity</u>	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.

Indemnity of the Province:	The Indemnitor will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee because of third party claims made against the Indemnitee by one or more of its specified creditors that result from any of the following (each, an "**Indemnification Event**"): (A) the Legislative Assembly of Ontario repealing (and not replacing on an equivalent basis) the Act; (B) the Legislative Assembly of Ontario amending the Act or a Regulation made thereunder in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act is *ultra vires* in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest.
Term:	The Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.
Approval Requirement:	The terms and conditions of the obligations incurred by a Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Indemnity:	Under no circumstances shall the Indemnitor be obligated to indemnify any Beneficiary for special or punitive damages, or for loss of profits.
<u>Undertakings regarding Certain Mismatches</u>	
Avoidance of Mismatches	If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise expected to be available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy its related payment obligations and thereby avoid any Mismatch.

Possible Undertaking to Fund Mismatches	If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to avoid a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to avoid the Mismatch. Any such undertaking may only be given at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and, if given, would be on such terms, including appropriate compensation to the Province of Ontario, and be subject to such conditions (for example and without limitation, funding being conditional on the occurrence of a market disruption that results in an inability to refinance the funding obligation) as the Minister of Energy and the Minister of Finance determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
<u>Documentation</u>	
Representations, Terms and Conditions:	Subject to approval of the Minister of Energy and the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Performance Guarantor and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Performance Guarantor or the Indemnitor, or any agent or representative of the Performance Guarantor or the Indemnitor, in connection with the transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Confidentiality obligations of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

Provincial Protection and Assurances

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*

Performance Guarantees	
Performance Guarantor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Performance Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and other persons having debt or other claims against the Financing Entity that are secured under a related trust indenture.
Performance Guarantee:	Pursuant to a Performance Guarantee, the Performance Guarantor will guarantee the performance, or cause the performance, of the obligations of IESO as servicer under the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including servicing obligations undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. It is anticipated that such obligations will include matters related to the billing, collection and remittance of clean energy adjustments by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments with other amounts. In the event that the Performance Guarantee is held to be

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

	unenforceable against the Performance Guarantor, the Performance Guarantee will contemplate, in the alternative, a functionally equivalent direct covenant of the Performance Guarantor.
Term:	The Performance Guarantor's obligations under a Performance Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is intended to be secured by the Performance Guarantee.
Approval Requirement:	The servicing obligations (including any amendments) to which the Performance Guarantee relates, together with the provisions of any Performance Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Performance Guarantee:	Under no circumstances shall the Performance Guarantor be obligated to pay special or punitive damages, or for loss of profits.
Indemnity	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.
Indemnity of the Province:	The ~~Province of Ontario~~Indemnitor will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee ~~(including~~ because of third party claims made against the Indemnitee by one or more of its specified creditors~~)~~ that result from any of the following (each, an "**Indemnification Event**"): (A) the Legislative Assembly of Ontario repealing (and not replacing on an equivalent basis) the Act; (B) the Legislative Assembly of Ontario amending the Act or a Regulation made thereunder in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act is *ultra vires* in a way that materially and adversely affects the rights and

	interests of the Financing Entity under its investment interest.
Term:	The Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.
Approval Requirement:	The terms and conditions of the obligations incurred by a Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, ~~the~~ will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Indemnity:	Under no circumstances shall the ~~Guarantor~~Indemnitor be obligated to indemnify any Beneficiary for special or punitive damages, or for loss of profits.
Undertakings regarding Certain Mismatches	
Avoidance of Mismatches	If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise expected to be available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy ~~all of~~ its related payment obligations and thereby avoid any Mismatch.
Possible Undertaking to Fund Mismatches	If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to avoid a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to avoid the Mismatch. Any such undertaking may only be given at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and, if given, would be on such terms ~~and conditions~~, including appropriate compensation to the Province of Ontario, and be subject to such conditions (for example and without limitation, funding being conditional on the occurrence of a market disruption that results in an inability to refinance the funding obligation) as

	the Minister of Energy and the Minister of Finance determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
Documentation	
Representations, Terms and Conditions:	Subject to approval of the Minister of Energy and the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Performance Guarantor and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Performance Guarantor or the Indemnitor, or any agent or representative of the Performance Guarantor or the Indemnitor, in connection with the transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Confidentiality obligations of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

Good suggestion from Gadi – we should probably touch base internally in advance of meeting with OPG. I wonder if we could try for a quick 30 min phone call either tomorrow or Friday.

I will reach out to OPG to set something up for next week.

Hi,

Please see the following comments from OPG / Torys on the guarantees.

I wonder if we are now at a point we should suggest sitting down with OPG on this perhaps early next week.

Thanks,
Scott

Scott:

Further to our discussion on the outstanding issues, please find below the comments from the Dealers on the "Markup" of the Provincial Protection and Assurance term sheet.
As noted below, the next step should be to get the appropriate parties from the Province to sit down with the dealers and OPG to go over the points and agree on a basis to move forward.
We should try to do that sometime next week. Let us know what times work on the Province side and we will coordinate with the Dealers & counsels.

John

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

John/Les/Ken,

Please find below an issues list on the Province's comments on the Provincial Protection and Assurances Term Sheet (formerly the Provincial Support Agreement). This list reflects input from the dealers, Oslers and Torys. Please let us know if you have any additional comments or questions. If not, will you be reaching out to the Province to schedule a meeting next week (with the dealers, OPG, the Province and their counsels) to discuss these points? The dealers and their counsel don't see value in exchanging further drafts of the term sheet until they have had an opportunity to meet with the Province. We agree with this approach and are happy to assist in coordinating a meeting for next week. It would also be helpful to hear the Province's rationale and concerns for making some of these changes. Please let us know.

Many thanks,
Nina

1. The Servicing Guarantee:

   (a) It is written in favour of only the financing entity. However, in the MTSA, we are asking for covenants directly in favour of Indenture Trustee. The Indenture Trustee/specified creditors should have the direct benefit of the guarantee rather than relying on an indirect security interest in the servicing guarantee.

   (b) It should be clarified that the servicing obligations of the electricity vendors are covered.

   (c) If the guarantee is unenforceable, we should fall back to an indemnity, not a "functionally equivalent direct covenant" which is an uncertain concept.

   (d) We don't want an exclusion for economic loss. That may cover whatever losses the specified creditors do suffer.

2. Change of Law.

   (a) This should be written as a guarantee not an indemnity.

   (b) It should be directly in favour of the Indenture Trustee/specified creditors and it

should cover all the “finance amount” and not just funding obligations.

(c) We do not want the guarantee to be provided by another entity which is in turn guaranteed by Ontario. It should come directly from Ontario.

(d) There should be no “materiality” threshold for a claim. If obligations are not paid in full, then there should be a claim.

(e) The choice to assume or accelerate should be at the option of the holders, not the guarantor.

(f) If accelerated, then the 1% premium should be payable. This is a voluntary termination by the Province.

3. Undertaking Regarding Mismatches (market disruption)

(a) At best this structure defers the discussion of protection for a market disruption. At worst, it is impractical that take-out financing needs to be arranged in advance of each warehouse financing. We should rely on a definition of market disruption.

4. Approvals.

(a) Province to clarify what is contemplated under the heading “Approval Requirement”. Is Province proposing to approve any obligation incurred by the Financing Entity?

(b) Approval under Section 28 of the *Financial Administration Act* to be attained (in case the OFHPA is declared void in its entirety).

Subject: Term Sheet - Provincial Support Agreement relating to the Fair Hydro Trust

Mike:

Further to our discussion last week, please find attached the draft term sheet relating to the Provincial Support. In this draft the Province will assume the obligations of the debt under certain conditions. The plan is to send this document to the Dealers for their input once we get comments or concurrence from your group. Stu Preston will coordinate the discussions with the Dealers on this issue from our side. Would it be yourself or someone else from your group addressing this issue from the OFA perspective? I expect there will be some back and forth on this issue and eventually rating agency input as well.

John

Provincial Support Agreement Term Sheet –

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The trust company acting as indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") acting for the benefit of all persons who may have contractual claims against a Financing Entity (collectively, the "**Beneficiaries**") (including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee and the trustee of the Financing Entity[1]).
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2] after all Funding Obligations of all Financing Entities have been repaid.
Performance Guarantee:	**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under the Master Sale and Servicing Agreement between IESO, as seller and servicer, and the Financing Entity, as purchaser, **[and OPG as Financial Services Manager]** ("**MSSA**"). In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Indenture Trustee.

[1] We have assumed that the initial Financing Entity will be a trust.

[2] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee Event:	A "Servicer Default" occurs under the MSSA[3]
Payment Guarantee:	**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.
Payment Guarantee Event:	(A) if the Legislative Assembly of Ontario repeals the Act; or (B) if the Legislative Assembly of Ontario amends the Act or Regulation thereunder in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest; or (C) if a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.

[3] Each Servicer Default will include its own cure period before the event becomes a Servicer Default.

[4] To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.

Subrogation:	Where the Guarantor has repaid a Beneficiary, to the extent of such payment, the Guarantor is subrogated in and to all the rights of recovery of such Beneficiary in respect of the applicable indebtedness and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all amounts owing to a Beneficiary, the Indenture Trustee will acknowledge and agree on behalf of such Beneficiary that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiary has or may exercise in respect of the repaid indebtedness, all in accordance with the terms of the Master Trust Indenture.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Performance Guarantee Event or Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[5]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.

[5] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

Hi Gadi, Mike,

As discussed, we have drafted some language to insert into the Fair Hydro Plan Treasury Board and Cabinet Submissions. Please take a look and let us know if this works from your perspective:

Draft Language

The Ministry has been worked closely with the Ontario Financing Authority (OFA) and TD, as the Province's external financial advisor, on the financing structure (i.e., legislation, provincial guarantees, OPG's equity injections and IESO's enhanced credit facilities).

In particular, the proposed legislation enables a structure that OFA and TD believe will enable financing at a reasonable cost. Key elements that support this financing structure include:

OPG issuances of subordinated debt to the SPV representing up to 49% of total borrowing; and

Conditional (springing) guarantees by the Province to provide a backstop in the event of specific and limited events (e.g., changes to legislation that harm investor interests).

Please note that the ability to finance and the cost of financing will only be known with certainty once OPG takes this structure to market.

Happy to discuss further as needed.

Thanks,

Scott

*** Exercise caution. This is an EXTERNAL email. DO NOT open attachments or click links from unknown senders or unexpected email. ***

John, as discussed, below is our summary for the discussion with the Province –
Thanks, Sunil.

Change in Law

- We are okay with the province assuming the financing obligations of the Financing Entity ("FE") with no early redemption rights (by either the province or investors) in the circumstance of a Change in Law.
- We note that in the US, the potential downgrade on the bonds once the province steps could result in the bonds spreads widening, which would result in losses for US investors. US investors would expect to be compensated for that risk (either through a pre-determined step-up in pricing when the province assumes the obligation, and/or through a premium they would require for this risk when purchasing the notes initially).

Approval Process

- The province (OFA) will want to see the form of the various program and series documents that will be captured by the guarantee/support before approving any guarantee. As long as the documents are in the agreed form, they would NOT need to provide specific approval for each series.
- We understand that Provincial control of the financing program would eliminate OPG's consolidation of the Financing Entity so Provincial approval of transaction terms needs to be avoided.
- Since the financing documents cannot affect how or when the Provincial Guarantee is triggered (Change in Law and Constitutionality of the Program) then specific Provincial approval of transaction documentation would be seen as exerting control and must be avoided.

Warehousing Risk

- The issue is the moratorium period and the length of time for the warehouse provider to be taken out if there is an extended period of time where the program can no longer be funded in the term markets
- Option here if the warehouse providers are to absorb the risk is:
    - On default, pricing would step up materially

- After [one] year following the moratorium ended, pricing would step up again and would continue to do so every 6 months until the warehouse is repaid
- This mechanic helps compensate the warehouse providers to the extended tail risk in this transaction and creates alignment of interest
  - The warehouse providers cannot control the maturity of other pieces of FE debt issues. The step up schedule incents the financial manager to ensure that there are no competing maturities (so that the warehouse provider can be repaid as quickly as possible) during the first few years after the moratorium period ends
  - This would be subject to banks receiving necessary approvals as the tail risk is longer than anticipated. That process will require a greater understanding of how long the tail could be (i.e. how quickly could we be repaid through clean energy adjustments after the moratorium period has ended)
  - The higher pricing will result in higher clean energy pricing during this default scenario. As an alternative to letting the warehouse provider being repaid over time through these clean-energy adjustments, the province could voluntarily choose to purchase a term note to take out the warehouse provider
    - The province could resell that note in the secondary market if that market opens
    - Assuming there are other series of notes outstanding by the FE that are sold to others, the province may need to confirm whether there are consolidation concerns from being an investor in the FE (and if so, what threshold of notes would result in that consolidation risk)
    - The province is not obligated to purchase notes in this scenario, this is just an option they would have at their disposal if they did not want to clean energy adjustment amounts (and hence charges to ratepayers) to increase because the default pricing

- Other options
  - IESO provides the warehouse instead of the banks – note that this will likely be limited based on the size of the IESO's credit facility. If there is a prolonged period of market disruption, then this credit facility will likely fill up fast and at that point the Province will likely have to increase the facility or backstop further rebates → essentially under a market disruption, the Province may ultimately have to backstop the funding. Based on this, it may be preferable for the Province to provide a market disruption guarantee to the short-term ABCP facilities?

Servicing Guarantee

- The substantive risk not addressed through regulation/legislation/contract so far is commingling risk
- In general, the rating agencies require daily cash remittance of any collections for non-investment grade entities unless a suitable mitigant is in place
  - The investment grade test will generally need to be by the same rating agency rating the FE debt
    - (E.g. if an entity is not rated by Moody's, but is rated investment grade by DBRS and S&P, and the FE debt is rated by Moody's, Moody's may not consider

that entity to be investment grade and may not permit them to commingle)
        - Fitch often gives an exception for this where they may allow commingling for investment grade entities even if Fitch does not rate that counterparty
    - This should not be an issue from IESO perspective, but can be an issue from an LDC perspective
        - The majority of the LDCs are not
        - Rating individual LDCs by each of the rating agencies that rate the FE debt will be time consuming and expensive and is not a viable option
- Proposal would be for IESO or another highly rated entity to post a L/C facility to mitigate the servicing risks of the LDCs and thereby avoiding any review of the LDCs by the agenciesand avoid daily cash remittances for any LDC assessed to be non-investment grade

Subject:	Fair Hydro Business Issues
Date:	Sunday, June 25, 2017 5:23:31 PM

Hi Gadi, Mike, Ron,

I had a chat with Ken Hartwick on Friday afternoon about our position on fees as well as progress on what we have been calling “business issues” (equity injection process, sub-debt agreement, guarantees). He agreed that we could push out the fees conversation from this round of regulation drafting, but wanted to make sure we set up time in early July to talk through these issues and land them asap. Here is where I think we are on each point:

- Fees: OPG wants a very light touch from OEB and, formulaic approach that mimics fee structures for portfolio managers (base fee tied to AUM + variable fee tied to performance). ENE agrees with the variable fee component (limited to $1M floor / ceiling), but has concerns about a base fee that does not tie to costs and wants a more substantive role for OEB.

- Guarantees: as you know the Province’s position was shared on Friday

- Equity Injections: I believe OPG has provided a draft structure. Unless OFA has concerns, I think this is largely procedural.

- Sub-debt: I don’t have much visibility in to this one. I heard folks from OFA were in discussions. This should link in with the fees conversation given the relationship with performance.

I would suggest we try and have an internal conversation later this week to discuss where we are on each of these in order to be ready to meet with OPG the following week.

Let me know if this makes sense or if I am missing anything.

Thanks,

Scott

Subject:	Fair Hydro Plan - Provincial Support Agreement - Term Sheet
Date:	Friday, April 28, 2017 10:40:14 AM
Attachments:	Performance Servicing Guarantee Sample.pdf Servicing Obligations Summary.pdf

---

Mike, Jim, Carlos

Please see below for our comments on the draft term sheet for the Provincial Support Agreement. Let us know when you would like to discuss further. Also, please note that we have not sent the comments or the term sheet to Steve Ashbourne at Blakes. Please let us know if you would like us to do so.

Attached is a sample servicing guarantee for a general securitization transaction to provide examples of common features. Note that the sample guarantee is formatted for a corporate transaction and would have to be adjusted accordingly. Also attached is a brief description of the servicing obligations typically covered by a servicing guarantee.

In reviewing the term sheet, we believe that the Servicing Guarantee is narrow in scope.

- Not a conventional servicing guarantee for securitization transactions
- It may not be acceptable for the rating agencies, particularly if monthly remittances of collections from the LCDs are necessary.

As drafted, it solely allows for the appointment of a replacement servicer by the Guarantor upon the occurrence of a Servicer Default (due to breach of servicing performance).

- It does not cover any losses arising from a breach of the electricity vendors' servicing obligations (typical servicing obligations described in attachment)
- It would preclude the monthly remittance of collections by the LDS to IESO for deposit into the Trust's collection account.

Other Items of Consideration:

- Not typical for the Indenture Trustee to be obligated to provide any reporting to the Guarantor
- Confidentiality would be difficult to maintain for a public issuance. The guarantee is a material component of the transaction and will have to be disclosed in detail in the IM, and possibly posted as a material contract
- Consistent with other "AAA" transactions, performance under the guarantee is expected to occur promptly, typically within 2 business days for payment obligations
- Guarantee does not cover a market disruption and the inability to refinance existing due and maturing issuances (including ABCP)

SERVICER GUARANTEE

This Agreement is made as of ▪ **[],** 2017, between

ABC, a corporation incorporated under the laws of the Ontario ("**Guarantor**")

and

GHI TRUST
by its trustee
XYZ LIMITED, a trust company incorporated under the laws of Canada (the "**Trust**")

RECITALS

A. The Trust and GHI ("**GHI**"), have entered into a master purchase agreement (the "**MPA**" made as of the date hereof pursuant to which GHI has agreed to sell and the Trust has agreed to purchase from GHI certain assets and the related rights given in respect thereof on a fully serviced basis.

B. Pursuant to the [MPA/Servicing Agreement] GHI has been appointed and has agreed to act as Servicer under, and in accordance with the [MPA/Servicing Agreement depending on the documentation].

C. The Guarantor has agreed to guarantee for the benefit of the Trust the performance and payment by GHI of GHI's covenants, agreements, liabilities and obligations under the [MPA/Servicing Agreement] in its capacity as Servicer on the terms set forth herein.

FOR VALUE RECEIVED, the parties agree as follows:

SECTION 1 – INTERPRETATION

1.1 Definitions. Unless otherwise defined herein, terms used in this Guarantee and not defined herein, shall have the respective meanings ascribed to them in the [MPA/Servicing Agreement].

SECTION 2

2.1 Guarantee. The Guarantor unconditionally and irrevocably guarantees to the Trust, as a primary obligor and not merely as a surety, the due and prompt performance, payment and observance of all of the terms, conditions, covenants, agreements, liabilities, indemnities and obligations of any kind whatsoever which GHI has incurred, may incur or be under to the Trust in GHI's capacity as Servicer under the [MPA/Servicing Agreement] ("**Obligations**") strictly in accordance with the terms hereof and thereof, excluding, for greater certainty, any of GHI's covenants, agreements, liabilities and obligations under the MPA in its capacity as Seller under the MPA or in any capacity other than as Servicer. If for any reason whatsoever GHI shall fail to perform, pay or observe any of the Obligations, the Guarantor shall duly and punctually perform, pay and observe such Obligations. All amounts payable by the Guarantor hereunder shall be paid to the Trust by way of deposit by the Guarantor to the applicable Collection Account forthwith following a claim therefor by or on behalf of the Trust.

Nothing contained herein shall be deemed to constitute credit recourse to the Guarantor for payment of losses arising from losses attributable to any [specified consumer's] failure to discharge its payment obligations under any obligation/pay the invoice amount.

2.2 Guarantee Unconditional. The obligations of the Guarantor under this Guarantee are continuing, unconditional and absolute and, without limiting the generality of the foregoing, shall not be released, discharged, diminished, limited, impaired or otherwise affected by (and the Guarantor hereby waives, to the fullest extent permitted by applicable law):

(1) any extension, other indulgence, renewal, settlement, discharge, compromise, waiver, subordination or release in respect of any obligation, security, person or otherwise;

(2) any modification or amendment of or supplement to the Obligations made in accordance with the MPA or other related documents, including, without limitation, any increase or decrease in any amount payable thereunder;

(3) any release, non-perfection or invalidity of any direct, indirect or collateral security for any Obligation;

(4) any change in the existence, structure, constitution, name, objects, powers, business, control or ownership of GHI or any other person, or any insolvency, bankruptcy, reorganization or other similar proceeding affecting GHI or any other person or its assets, or amalgamation of GHI with any other corporation and the term GHI shall include each corporation resulting from any such amalgamation or subsequent amalgamation;

(5) the existence of any unrelated claim, set-off or other rights which the Guarantor may have at any time against GHI, the Trust, or any other person, whether in connection herewith or any unrelated transactions;

(6) any invalidity, illegality or unenforceability relating to or against GHI or any provision of applicable law or regulation purporting to prohibit the payment by GHI of the principal or interest under the Obligations;

(7) any limitation, postponement, prohibition, subordination or other restriction on the rights of the Trust to payment of the obligations;

(8) any release, substitution or addition of any co-signer, endorser or other guarantor of the Obligations;

(9) any defence arising by reason of any failure of the Trust to make any presentment, demand for performance, notice of non-performance, protest and any other notice, including notice of all of the following: acceptance of this Guarantee, partial payment or non-payment of all or any part of the Obligations and the existence, creation or incurring of new or additional Obligations;

(10) any defence arising by reason of any failure of the Trust to proceed against GHI or any other person, to proceed against, apply or exhaust any security held from GHI or any other person for the Obligations, to proceed against, apply or exhaust any security held from the Guarantor or any other person for this Guarantee or to pursue any other remedy in the power of the Trust whatsoever;

(11) any law which provides that the obligation of a guarantor must neither be larger in amount nor in other respects more burdensome than that of the principal obligation or which reduces a guarantor's obligation in proportion to the principal obligation;

(12) any defence arising by reason of any incapacity, lack of authority or other defence of GHI or any other person, or by reason of any limitation, postponement, prohibition on the Trust's right to payment of the obligations or any part thereof, or by reason of the cessation from any cause whatsoever of the liability of GHI or any other person with respect to all or any part of the obligations, or by reason of any act or omission of the Trust or others which directly or indirectly results in the discharge or release of GHI or any other person or all or any part of the obligations or any security or guarantee therefor, whether by contract, operation of law or otherwise;

(13) any defence arising by reason of any failure by the Trust to obtain, perfect or maintain a perfected or prior (or any) security interest in or lien or encumbrance upon any property of GHI or any other person, or by reason of any interest of the Trust in any property, whether as owner thereof or the holder of a security interest therein or lien or encumbrance thereon, being invalidated, voided, declared fraudulent or preferential or otherwise set aside, or by reason of any impairment by the Trust of any right to recourse or collateral;

(14) any defence arising by reason of the failure of the Trust to marshall any assets;

(15) any defence based upon any failure of the Trust to give to GHI or the Guarantor notice of any sale or other disposition of any property securing any or all of the Obligations or any guarantee thereof, or any defect in any notice that may be given in connection with any sale or other disposition of any such property, or any failure of the Trust to comply with any provision of applicable law in enforcing any security interest in or lien upon any such property, including any failure by the Trust to dispose of any such property in a commercially reasonable manner; or

(16) any defence based upon or arising out of any bankruptcy, insolvency, reorganization, moratorium, arrangement, readjustment of debt, liquidation or dissolution proceeding commenced by or against GHI or any other person, including any discharge of, or bar against collecting, any of the obligations, in or as a result of any such proceeding.

2.3 Recourse Against GHI. The Trust shall not be required to exhaust its recourse against GHI or any other person or under any other security or guarantee before being entitled to performance by the Guarantor under this Guarantee; provided, however, that where the Trust seeks performance under this Guarantee, the Trust shall not proceed against the Guarantor under this Guarantee (and the Guarantor shall have no obligations in respect thereof) prior to the expiration of any applicable cure period explicitly set out in the [MPA/Servicing Agreement].

2.4 No Subrogation. Until all of the Obligations have been paid or performed in full, the Guarantor shall have no right of subrogation to, and waives, to the fullest extent permitted by law, any right to enforce any remedy which the Trust now has or may hereafter have against GHI in respect of the Obligations and the Guarantor waives any benefit of, and any right to participate in, any security now or hereafter held by the Trust for the Obligations.

2.5 Settlement of Accounts. Any account settled or stated between the Trust and GHI shall be accepted by the Guarantor as prima facie evidence that the amount thereby appearing due by GHI to the Trust is so due.

2.6 Reinstatement. If, at any time, all or any part of any payment previously applied by the Trust to any Obligation is or must be rescinded or returned by the Trust for any reason whatsoever (including, without limitation, the insolvency, bankruptcy or reorganization of GHI), such Obligation shall, for purposes of this Guarantee, to the extent that such payment is or must be rescinded or returned, be deemed to have continued in existence, notwithstanding such application by the Trust, and this Guarantee shall continue to be effective or be reinstated, as the case may be, as to such Obligation, all as though such application by the Trust had not been made.

SECTION 3 – REPRESENTATIONS AND WARRANTIES

3.1 Representations and Warranties. The Guarantor represents and warrants to the Trust as follows:

(1) the Guarantor is a corporation validly existing under the laws of its jurisdiction of incorporation, has full corporate power and authority to own its properties and assets and to carry on its businesses, as presently owned and carried on by it, in every jurisdiction in which it is currently carrying on business where the failure to be so qualified would have a material adverse effect on the ability of Guarantor to perform its obligations under this Guarantee;

(2) the Guarantor has full corporate power and capacity to execute and deliver this Guarantee and to perform all of its obligations hereunder;

(3) the Guarantor has taken all necessary action to authorize the execution and delivery of this Guarantee and the performance of its obligations hereunder;

(4) this Guarantee has been duly executed and delivered by the Guarantor;

(5) this Guarantee is a legal, valid and binding obligation of the Guarantor and is enforceable against the Guarantor by the Trust in accordance with its terms, subject to bankruptcy, insolvency, reorganization, winding-up, moratorium and other laws affecting the rights of creditors generally and the fact that specific performance and injunction are equitable remedies available only in the discretion of a court;

(6) the execution and delivery by the Guarantor of this Guarantee and the performance by the Guarantor of its obligations hereunder and of the transactions contemplated hereby, does not and will not contravene, breach, constitute a default under, violate or conflict with, as the case may be:

(a) the Guarantor's constating documents or by-laws or any resolution passed by the board of directors or shareholders of the Guarantor;

(b) any law, rule or regulation applicable to or binding on the Guarantor or any of its property and assets; or

(c) any order, writ, judgment, award, injunction or decree binding on the Guarantor or affecting its property or assets,

and does not and will not result in or require the creation of any encumbrance upon any of the property and assets of the Guarantor;

(7) the execution and delivery by the Guarantor of this Guarantee and the performance of its obligations hereunder and of the transactions contemplated hereby, does not and will not contravene, breach, constitute a default under, violate or conflict with, as the case may be, any material indenture, loan or credit agreement, lease, mortgage or, security agreement, to which the Guarantor is a party or by which it, or its property and assets, are bound;

(8) no authorization, approval or other action by, and no notice to or filing with, any Governmental Authority, agency or any other person is necessary in connection with the execution and delivery by the Guarantor of this Guarantee or the performance of its obligations hereunder or of the transactions contemplated hereby, or to give legal effect to the same other than such as have been obtained or made except to the extent the failure to do so would not have a material adverse effect on the ability of the Guarantor to perform its obligations under this Guarantee;

(9) there are no actions, suits or proceedings pending or, to the knowledge of the Guarantor, threatened against or affecting the Guarantor or any of its undertakings, property and assets, at law or in equity or before any arbitrator or before or by any Governmental Authority, governmental department body, agency, commission, board, bureau, or instrumentality having jurisdiction in the premises in respect of which there is a reasonable possibility of a determination adverse to the Guarantor which could, if determined adversely, materially and adversely affect the ability of the Guarantor to perform any of its obligations hereunder.

SECTION 4- COVENANTS

4.1 Covenants of the Guarantor. The Guarantor covenants with the Trust that, during the currency of this Guarantee, it shall:

(1) comply in all material respects with all laws, rules, regulations and orders applicable to it and all or any of its businesses and properties;

(2) preserve and maintain its corporate existence;

(3) furnish to the Trust a statement of the details of any Servicer Termination Event in respect of MPA/Servicing Guarantee applicable to it within a reasonable period of time after the occurrence thereof and the Guarantor's proposed response;

(4) so long as GHI is the Servicer in respect of the [MPA/Servicing Agreement], as applicable, make all payments and perform all obligations required to be made or performed by the Servicer in accordance with the [MPA/Servicing Agreement], within 2 Business Days of the date the payment or action was to be performed or the end of the applicable cure period, if any; and

(5) continue to directly or indirectly hold shares of GHI sufficient to control GHI.

SECTION 5 – GENERAL

5.1 Termination. This Guarantee shall terminate on the Final Remittance Date [to mirror the requirement in the Regulations under the Act not to wind-up, dissolve or liquidate a Financing Entity until at least one year after all of its funding obligations have been paid], at which time the rights hereby granted shall cease and become null and void and the Trust shall, at the request and expense of the Guarantor, execute and deliver to the Guarantor such instruments as shall be reasonably required to release and discharge the Guarantor from its covenants, agreements, liabilities and obligations under Guarantee.

5.2 Further Assurances. The Guarantor shall, from time to time, do and perform any and all acts and execute any and all further instruments which may be required or which may be reasonably requested by the Trust more fully to effect the purpose of this Guarantee.

5.3 Payments. All payments to be made by the Guarantor under this Guarantee shall be made in full, without set-off or counterclaim and without deduction for any taxes, levies, duties, fees, deductions, withholdings, restrictions or conditions of any nature whatsoever. If at any time, or from time to time, any applicable law, regulation or international agreement requires the Guarantor to make any such deduction or withholding from any such payment, the sums due from the Guarantor with respect to such payment shall be increased to the extent necessary to ensure that, after the making of such deduction or withholding, the Trust receives a net sum equal to the sum which it would have received had no deduction or withholding been required, and the Guarantor shall indemnify the Trust on an after tax basis with respect to any such deduction or withholding, including with respect to any taxes payable by the Trust on any increased amounts payable under this Section 5.3.

5.4 Cost and Expense. The Guarantor shall pay all reasonable out-of-pocket costs and expenses of the Trust (including the fees and disbursements of counsel) in connection with the enforcement of the obligations of the Guarantor under this Servicing Guarantee. The Guarantor agrees to indemnify and hold harmless the Trust from and against any and all liability incurred by the Trust or the Financial Services Agent hereunder in connection herewith (including the enforcement of the obligations of the Guarantor under this Guarantee), other than any liabilities attributable to the gross negligence or willful misconduct of the Trust, the Financial Services or any of their respective officers, employees or agents.

5.5 Governing Law. This Guarantee shall be governed by, and construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein.

5.6 Financial Condition of Guaranteed Parties: The Guarantor is fully aware of the financial condition of the Guaranteed Parties.

5.7 No Waiver, Cumulative Remedies. No failure to exercise and no delay in exercising, on the part of the Trust, any right, remedy, power or privilege hereunder, shall operate as a waiver hereof nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. The rights, remedies, powers and privileges herein provided are cumulative and not exhaustive of any rights, remedies, powers and privileges provided by law.

5.8 Amendments. Any provision of this Guarantee may be amended or waived if, but only if, such amendment or waiver is in writing and is signed by the Guarantor and the Trust, and satisfies the Rating Agency Condition [that is the action will not result in the rating agencies downgrading the rated securities].

5.9 Notices. All notices or other communications authorized or required to be given pursuant to this Guarantee, or pursuant to which any rights or obligations may arise hereunder, shall be in writing (including telecopied communication and such other method of recorded or recordable electronic communications as to which the parties may hereafter agree) and shall be either personally delivered or sent by telecopier as follows:

[]

5.10 Successors and Assigns. This Guarantee shall be binding upon the Guarantor and shall inure to the benefit of the Trust and its successors and permitted assigns. The Guarantor may not assign any of its obligations under this Guarantee without the prior written consent of the Trust and satisfies the Rating Agency Condition.

5.11 Consent to Jurisdiction, Waiver of Immunities. The Guarantor hereby irrevocably submits to the non-exclusive jurisdiction of any court sitting in the Province of Ontario in any action or proceeding arising out of or relating to this Guarantee and the Guarantor irrevocably agrees that all claims in respect of any such action or proceeding may be heard and determined in such Ontario court. The Guarantor hereby irrevocably waives, to the extent permitted by law, the forum non conveniens defence to the maintenance of any such action or proceeding. The Guarantor agrees that a final judgment in any action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by

law. Nothing in this Section [] shall affect the right of the Trust to serve legal process in any other manner permitted by law or affect its right to bring any action or proceeding against the Guarantor or its property and assets in the courts of any other jurisdiction.

5.12 Entire Agreement. This Guarantee contains the entire agreement between the parties relating to the subject matter hereof and supersedes all prior and contemporaneous agreements, term sheets, commitments, understandings, negotiations and discussions, whether oral or written. There are no warranties, representations or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein.

5.13 Survival. All covenants, representations and warranties of the Guarantor hereunder shall survive the execution hereof. The obligations of the Guarantor to the Trust under this Guarantee shall not be affected by reason of any invalidity, illegality or irregularity of the obligations.

5.14 Severability. Any provision of this Guarantee which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability and shall be severed from the balance of this Guarantee, all without affecting the remaining provisions of this Guarantee or affecting the validity or enforceability of such provision in any other jurisdiction.

5.15 Additional Security. This Guarantee is in addition, and without prejudice, to any security of any kind (including other guarantees) now or hereafter held by the Trust and any other rights or remedies that may be available to the Trust.

5.16 Headings. The headings of the Sections herein are for convenience of reference only and shall not the interpretation of any of the terms or provisions hereof.

IN WITNESS WHEREOF the Guarantor has executed this Guarantee as of the date first above written.

Servicing Obligations Covered by a Servicing Guarantee

The Servicing Guarantee covers the performance and payment of any party's (Electricity Vendor) covenants, agreement, liabilities, indemnities and obligations in connection to its servicing duties pursuant to the master purchase agreement/servicing agreement.

We expect that IESO as agent to the investment interest owners would perform the servicing duties. As such the Servicer would include the IESO and each other electricity vendor (which is typically a sub-servicer retained/appointed by the Servicer as each sub-servicer is not likely to be a party to the master purchase agreement/servicing agreement). IESO (Servicer) will remain liable for the performance of the duties and obligations so subcontracted and all other duties and obligations of the Servicer as outlined in the master purchase agreement/servicing agreement.

The Servicer's covenants, agreement, liabilities and obligations pursuant to the master purchase agreement/servicing agreement covered by the Servicing Guarantor generally include:

- Servicing of the investment assets, generally includes:
    - Invoicing and collecting the invoice amounts;
    - Recording and holding the assets in a secure manner, available for examination if requested;
    - Maintaining prudent and reasonable administrative and operating procedures;
    - Requiring its auditors to report on the status of the investment assets;
    - Effecting all filings and recordings;
    - Using reasonable efforts in accordance with the regulation to collect the investment assets;
    - Comply with the regulations in connection with the investment assets,

    all in accordance with the regulations and established credit and collection policies; and

    - Not make material changes to its credit and collection policies unless Rating Agency Condition is satisfied
    - Prepare and deliver a monthly report to the investment interest owners.
- Amounts held in trust by the electricity vendor until remitted and deposited into an trust account
    - Collections will be remitted monthly into a trust account unless the Guarantor fails to maintain an acceptable rating, in which case amounts will be deposited within 2 business days of receipt. Losses arising from the commingling of funds, due to such events as bankruptcy/insolvency of the electricity vendor, would be covered by the Servicing Guarantee.
- Losses arising from amounts invested in permitted investments in trust accounts at the direction of the Servicer
- Amounts to be received from the seller/servicer in connection with deemed collections where either a valid lien is asserted against any part of the investment asset or the investment asset is reduced cancelled as a result of a set-off in respect of any claim by the specified against the Servicer/Electricity Vendor

Susan

Here is the latest draft from OPG with input from CIBC/RBC/GS.

We are starting to review the document. Can you also review and forward comments back to us.

I am also expecting OPG and IESO to review and provide more feedback regarding servicing guarantee and LDC co-mingling risks.

Please call if you have any questions - we can discuss timeline.

Regards

Carlos

Provincial Protection and Assurances

Indicative Term Sheet

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act.*

Change in Law Guarantee	
Guarantor:	The Province of Ontario
Guarantee Activation Events:	Any of the following would constitute a Guarantee Activation Event: (A) the Legislative Assembly of Ontario repealing (and not replacing on an equivalent basis) the Act or any Regulation made thereunder; (B) the Legislative Assembly of Ontario causing to come into force any statute (including any amendment to the Act or a Regulation made thereunder), or causing to come into force or making any order-in-council or regulation, or causing to come into force any other discriminatory action (including by way of any order by the Ontario Energy Board), in any case, in a way that adversely affects the rights and interests of the Financing Entity under its investment interest, including, for greater certainty, in any manner that is reasonably expected to limit the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations on the same basis as before such amendment was effected; (C) the Legislative Assembly of Ontario directly or indirectly amending the Guarantee or any of the financing transaction agreements without the agreement of the Financing Entity; (D) a court of competent jurisdiction (i) declares any funding obligations of the Financing Entity to be invalid or unenforceable or (ii) in a final and non-appealable

	judgement determines that all or a portion of the Act is *ultra vires* in a way that adversely affects the rights and interests of the Financing Entity, including, for greater certainty, in any manner that is reasonably expected to limit the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its funding obligations on the same basis as before such judgement; or (E) there is a change in the organization, structure or operations of the IESO or a change in the electricity market structure or operations in any way that adversely affects the rights and interests of the Financing Entity under its investment interest, including, for greater certainty, in any manner that is reasonably expected to limit the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations on the same basis as before such amendment was effected **[NTD: Alternatively, with respect to the IESO servicing obligations, include the Servicing Guarantee language with respect to the IESO that was included in the last mark-up of the term sheet received from the Province.]**
Guarantee:	Upon the occurrence of a Guarantee Activation Event, the Guarantor shall immediately assume and pay when due (without acceleration) all of the obligations of the Financing Entity. The obligations of the Financing Entity include its funding obligations as well as any other obligation the Financing Entity has related to the Fair Hydro program such as payments to service providers (such as trustees, auditors, etc), rating agencies and any fees due to the securities commissions
Term:	The Guarantee will continue for as long as the Financing Entity has any outstanding financing or other contractual obligations and until such obligations have all been paid in full or otherwise satisfied

Approval Requirement:	The guarantee agreement containing the terms and conditions contemplated by this term sheet shall be entered into prior to the Financing Entity incurring its first funding obligation. The Province shall enter into the guarantee based on forms of program and series financing documents required for each financing transaction (e.g., form of supplemental indenture). As long as the financing transaction documents are generally consistent with the agreed upon form, the Province's specific approval for specific funding obligations incurred by the Financing Entity will not be required. Subsequent approval is only needed if the form of such documents are materially changed. For greater certainty, deal specific terms (such as tenor, pricing, etc) shall not be considered a change in the form of transaction and series documents
FIPPA:	The parties will acknowledge that the Guarantor will be bound by the Freedom of Information and Protection of Privacy Act (Ontario) and that any information provided to the Guarantor, or any agent or representative of the Guarantor in connection with the Guarantee may be subject to disclosure in accordance with the act or as otherwise required by law
Representations and Warranties:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Guarantor and the Financing Entity
Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Guarantor and the Financing Entity
Governing Law:	Province of Ontario

Warehousing Takeout Risk and Servicing (Commingling) Risk *Note – these items are provided for information purposes only as these risks were included in the previous version of the term sheet as items that the Dealers/OPG were looking for the Province for protection against. The current proposals with respect to these items is described below. These do not contain any requirement for the Province to directly backstop these risks.*	
<u>Commingling Risk (applies to Warehouse as well as any Term transactions)</u>	
Commingling Risk Mitigant:	For any LDC which is not investment grade rated by each of the rating agencies which are rating the funding obligations (the "Non-Investment Grade LDCs"), either: (A) The IESO must post a Letter of Credit (L/C), or deposit funds in a Commingling Reserve Account in a quantum equal to the Commingling Risk Amount; or (B) The IESO, for so long as it is rated investment grade by the rating agencies which are rating the funding obligations, will assume responsibility for commingling risk by the LDCs and will agree to remit to the Financing Entity any clean energy adjustment amounts collected by the LDC, regardless of whether the LDC remitted those amounts to the IESO for remittance to the Financing Entity
Commingling Risk Amount:	An amount equal to the sum of the expected Clean Energy Adjustment collections from the Non-Investment Grade LDCs over the next [45-60] days
Commingling Risk Amount Reset Date:	Each settlement date for the Financing Entity (monthly)
Beneficiary:	The beneficiary of the L/C or the Commingling Reserve Account would be the Financing Entity and the Indenture Trustee for the benefit of the creditors of the Financing Entity. The Financing Entity and/or the Indenture Trustee would have the ability to draw down the L/C or draw on the Commingling Reserve Account for any clean energy adjustment amounts expected to be received from the IESO but which were not received due to those funds not being remitted from an LDC to the IESO for that period
L/C Provider:	An entity rated at least A+ (or equivalent)

Approvals:	The approach is subject to approval from the IESO, by the rating agencies rating the funding obligations of the Financing Entity and the risk management areas of the banks providing the warehouse facilities
Warehouse Takeout Risk	
Commitment Period for Warehouse[1]:	Expected to be 12-24 months
Takeout for Warehouse:	Expected to be every 3-6 months
Warehouse Default Event:	One of the events of default for the warehouse will be the failure to repay the warehouse facility at the end of the commitment term
Consequences of Warehouse Default Event:	If the Warehouse Default Event[2] described above occurs, all amounts funded through the warehouse would become immediately due and payable, subject to the Warehouse Default Payment Cap, and Default Pricing will be charged on any amounts funded through the warehouse facility
Default Pricing:	Step up in pricing to [x] until the moratorium period ends and thereafter stepping-up in increments of [y] every six months until the warehouse facility is repaid

[1] Please note that this is not intended to be an exhaustive list of terms for the warehouse facility, but rather is a summary of a few select terms that relate to the warehouse takeout risk.

[2] Note there may be other Warehouse Default Events beyond the takeout risk item described above. The consequences for a breach of these other Warehouse Default Events may be different than the one described above where the default is related to failure to takeout the warehouse facility by the end of the commitment period.

Warehouse Default Payment Cap:	For any given reference period following the occurrence of a Warehouse Default Event, the amount that shall be remitted to the Financing Entity for repayment of the warehouse facilities will be the sum of (x) the interest amount due on the warehouse facilities (which, for greater certainty will include any program fees) and (y) the lessor of: (a) The outstanding amount funded through the warehouse facilities; and (b) The maximum amount that can be charged for that period so that clean energy adjustments are equal to, but do not exceed, the fair allocation amount for such period.
Approval Requirement:	Subject to approval by the risk management areas of the banks providing the warehouse facilities which will in part depend on receipt of information on the fair allocation curve and an understanding of how long the "tail risk" could be following a Warehouse Default Event

Provincial Protection and Assurances

Change in Law Risk

- Holders of Fair Hydro Plan debt could be negatively impacted by:
  - Changes to legislation or other discriminatory action by the Province as no government can limit the ability of future governments to amend or enact legislation or take other actions as it may deem appropriate
  - Court decision that the Fair Hydro Plan does not have the authority to levy the charge to consumers or declares any funding obligations to be invalid or unenforceable
  - Changes to the organization, structure or operations of the IESO or the electricity market
- Debt is not financeable without protection for these risks
- Risk is addressed through contractual guarantee that would be triggered upon the occurrence of specified events
- If guarantee is triggered there would not be an acceleration of payment
- If guarantee is triggered the Province would step in to service the obligations of the financing entity
- Guarantee may need to be revised at a future date, or approval from the Province may be required, if the financing entity must access US market as investors in that market will likely require additional compensation if the guarantee is triggered

Risks Not Covered by Provincial Guarantee

Short Term Debt Financing Takeout Risk

- Monthly purchases by the financing entity would initially be financed using short term debt as the financing entity needs to warehouse a larger amount for efficient execution in the term debt markets
  - Short term debt providers are exposed to the risk that takeout funding is not available in term debt markets for a period of time
- If this short term debt is not repaid by the end of the short term debt facility commitment this risk is addressed through an escalation of the pricing of such short term debt:
  - Interest rate for short term debt increases by a specified amount at the time of the event until the moratorium period ends
  - Thereafter, interest rate increases by a further specified amount for every additional 6 month interval during which the short term debt remains unpaid

LDC Commingling Risk

- Clean Energy Adjustment amounts will be collected from consumers by LDCs and held until remitted to the IESO / financing entity. For any LDC which is not rated or non-investment grade rated by each of the rating agencies which are rating the funding obligations, the agencies will require these LDCs to remit collections daily, unless other credit mitigants are established
- The majority of LDCs are not rated and it would be cost prohibitive to establish ratings for these entities; 10 LDCs are collectively rated by S&P, DBRS and Moody's (Moody's only rates Hydro One)
  - It is estimated that LDCs not rated by any agency deliver power to ~25% of the Ontario electricity market
- This risk is addressed through providing the financing entity with a letter of credit:
  - Amount of letter of credit is approximately one to two month's estimated collections from all unrated or non-investment grade LDCs
  - Letter of credit to be provided by the IESO on behalf of the LDCs
  - Cost of the letter of credit and any amounts drawn can be recovered by the IESO through the Global Adjustment
- Alternatively, this risk may be addressed by the IESO depositing funds into a commingling reserve account for a similar amount or the IESO contractually agreeing to assume responsibility for paying the CEA amounts required to be remitted by such LDCs

Hi All

We discussed a number of options with TDS yesterday on the type of equity to be issued by OPG to the Province in relation to the equity injection.

While the preferred equity option did present some attractive features from the perspective of tracking and perhaps an increased level of assurance to the Province with regard to dividend payments, Gadi suggests that we move forward with the common equity option from the twin objectives of simplicity as well as safeguarding the 20% of common equity limitation on the value of preferred equity. The latter is an important criteria from the perspective of the Rating Agencies.

There are a couple of issues yet to be resolved with regard to the common equity option:

- The possibility of issuing common equity as "Class B" shares thus differentiating the share issued by OPG under the equity injection from the existing shares owned by the Province. This makes it easier to track and to accrue dividends.
- The share price attributable to each share issued under the equity injection; approximate book value or some other methodology. Note that OPG's annual report does not indicate a share price, however, the notes to the F/S provide the number of shares and the value of the Province's original investment allowing the reader to work out a per share value of $20 which corresponds to what the Province carries in its own books.

We will work with all of you and consult with TDS on developing options on the above.

Thanks

Ken k

Subject:	Follow up to Friday"s Teleconference
Date:	Wednesday, May 03, 2017 11:57:21 AM

Hi All

I understand the Friday teleconference was value-added and while I was unable to participate, John Psinas was kind enough to provide me with a detailed briefing.

The interest impact was a point of discussion, with Anthony expressing concern that IES may experience a significant fiscal burden, especially if there are material delays between the time the regulatory asset is set up and its subsequent purchase by the Trust.

My understanding of the model is that all interest incurred on funding the regulatory/investment asset should be capitalized, regardless of the entity incurring the interest expense. As such, any interest incurred by IESO, from the time a particular chunk of the regulatory/investment asset is set up, to the time it is acquired by the Trust should be capitalized by adding the interest to the purchased value of the asset.

This will ensure that the regulatory asset is valued accurately and upon consolidation with IESO, the Province will receive an offset for the interest expense it incurs on the debt required to fund the credit facility extended to IESO for the funding the regulatory asset. In this context, Mike's stated preference that any credit facility extended by the Province for this specific purpose be separate from existing provincial facilities available to the IESO makes sense.

On the other hand based on a discussion I had with Ron Kwan yesterday, IESO has expressed a strong preference for the regulatory asset be acquired on a monthly basis by the Trust, thus making the above discussion somewhat moot, however, delays may be inevitable and as such we should have a resolution for this issue.

Thanks

Ken K

Subject: Draft Provincial Support Agreement
Hi John,

Please see the attached markup of the Provincial Support Agreement. This has been reviewed by lawyers and policy folks from Energy, MoF, OFA and TBS. Please treat this as an early draft designed to spur discussion. It takes some concepts up a level as we felt that some of the detail in the OPG draft should be settled once the specific loan documents were available for review.

I would suggest we find time to regroup with appropriate people to discuss once we are through regulation approvals next week.

Thanks and have a good weekend,

Scott

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*

Servicing Guarantees	
Servicing Guarantor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Servicing Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and other persons having debt or other claims against the Financing Entity that are secured under a related trust indenture.

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

Servicing Guarantee:	Pursuant to a Servicing Guarantee, the Servicing Guarantor will guarantee the performance, or cause the performance, of the obligations of IESO as servicer under the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including servicing obligations undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. It is anticipated that such obligations will include matters related to the billing, collection and remittance of clean energy adjustments by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments with other amounts. In the event that the Servicing Guarantee is held to be unenforceable against the Servicing Guarantor, the Servicing Guarantee will contemplate, in the alternative, a functionally equivalent direct covenant of the Servicing Guarantor.
Term:	The Servicing Guarantor's obligations under a Servicing Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is intended to be secured by the Servicing Guarantee.
Satisfaction of a Servicing Guarantee:	The Servicing Guarantor will have the option to satisfy its obligations under a Servicing Guarantee by paying when due the amounts that would be remitted to the applicable Financing Entity as if IESO and each electricity vendor had complied with its obligations under the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest.
Approval Requirement:	The servicing obligations (including any amendments) to which the Servicing Guarantee relates, together with the provisions of any Servicing Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Servicing Guarantee:	Under no circumstances shall the Servicing Guarantor be obligated to pay consequential, special or punitive damages, or for economic loss or loss of profits.

Indemnity	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together, or an entity owned by the Province of Ontario whose indemnity obligations, as contemplated by this Term Sheet, are in turn unconditionally guaranteed by the Province of Ontario.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.
Indemnity of the Province:	The Indemnitor will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee because of third party claims made against the Indemnitee by one or more of its specified creditors that result from any of the following: (A) the Legislative Assembly of Ontario repealing (and not replacing on an equivalent basis) the Act; (B) the Legislative Assembly of Ontario amending the Act or a Regulation made thereunder in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act is *ultra vires* in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest.
Term:	An Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.

Satisfaction of an Indemnity:	The Indemnitor will have the option to satisfy its obligations under an Indemnity in respect of a funding obligation by: (x) assuming and paying when due (without acceleration) the regularly scheduled amounts due and payable in respect of the funding obligation during the term and to the extent of the applicable Financing Entity's contractual obligations thereunder; or (y) causing the acceleration of the funding obligation and paying the outstanding amount owing thereunder in full, including in the case of debt instruments issued by the applicable Financing Entity by causing the redemption of the debt instruments and paying an amount equal to the then outstanding principal amount thereof plus accrued and unpaid interest up to the date of payment (without any default, penalty, prepayment or make whole premium).
Approval Requirement:	The terms and conditions of the obligations incurred by a Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Indemnity:	Under no circumstances shall the Indemnitor be obligated to indemnify any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Undertakings regarding Certain Mismatches	
Addressing Mismatches	If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise expected to be available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy its related payment obligations and thereby address any Mismatch.

Possible Undertaking to Fund Mismatches	If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to address a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to address the Mismatch. Any such undertaking would be provided at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and, if given, would be on such terms, including appropriate compensation to the Province of Ontario, and be subject to such conditions (for example and without limitation, funding being conditional on the occurrence of a market disruption that results in the non-availability of capital markets term funding to effect a refinancing of the funding obligation) as the Minister of Energy and the Minister of Finance determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
Documentation	
Representations, Terms and Conditions:	Subject to approval of the Minister of Energy and the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Servicing Guarantor and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Servicing Guarantor or the Indemnitor, or any agent or representative of the Servicing Guarantor or the Indemnitor, in connection with the transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Confidentiality obligations of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

Provincial ~~Support Agreement~~Protection and Assurances

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") ~~is provided exclusively to the parties listed herein in connection with the draft~~relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. ~~Defined~~Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial ~~support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out~~protection and assurance arrangements contemplated in this Term Sheet ~~in addition to such other representations, warranties, indemnities, and other~~will include such terms and conditions as the ~~Guarantor and the Beneficiaries (each as defined below) may reasonably require~~Minister of Energy and the Minister of Finance determine to be appropriate.*

Servicing Guarantees	
Servicing Guarantor:	~~Her Majesty the Queen in right~~The Province of Ontario, ~~as represented~~ by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	~~The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**")~~Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Servicing Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and ~~all~~ other persons having debt or other claims against ~~a~~the Financing Entity that are secured under ~~the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity~~a related trust indenture.
~~**Term:**~~	~~The Guarantor's obligations under the Provincial Support~~

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

	~~Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.~~
~~**Performance**~~**Servicing Guarantee:**	~~Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee~~Pursuant to a Servicing Guarantee, the Servicing Guarantor will guarantee ~~in favour of the Beneficiaries to perform~~the performance, or cause the performance ~~of (which may be by way of the appointment of a replacement servicer)~~, of the obligations of IESO as servicer under ~~the MSSA and~~ the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including ~~the obligations of any replacement servicer. The Guarantor will also guarantee the~~ servicing obligations ~~of the~~undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. ~~The servicing~~It is anticipated that such obligations ~~covered~~ will include ~~all obligations~~matters related to the ~~collecting~~billing, collection and ~~remitting~~remittance of clean energy adjustments ~~and will protect the Beneficiaries from any risks arising from~~by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments ~~being commingled~~ with other amounts. In the event that the ~~performance guarantee~~Servicing Guarantee is held to be unenforceable against the Servicing Guarantor, the ~~Provincial Support Agreement~~Servicing Guarantee will contemplate ~~a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result~~, in the alternative, a functionally equivalent direct covenant of the Servicing Guarantor.
Term:	The Servicing Guarantor's obligations under a Servicing Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is

[1] ~~This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.~~

	intended to be secured by the Servicing Guarantee.
Satisfaction of a Servicing Guarantee:	The Servicing Guarantor will have the option to satisfy its obligations under a Servicing Guarantee by paying when due the amounts that would be remitted to the applicable Financing Entity as if IESO and each electricity vendor had complied with its obligations under the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest.
Approval Requirement:	The servicing obligations (including any amendments) to which the Servicing Guarantee relates, together with the provisions of any Servicing Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Servicing Guarantee:	Under no circumstances shall the Servicing Guarantor be obligated to pay consequential, special or punitive damages, or for economic loss or loss of profits.

Indemnity	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together, or an entity owned by the Province of Ontario whose indemnity obligations, as contemplated by this Term Sheet, are in turn unconditionally guaranteed by the Province of Ontario.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.
~~**Payment Guarantee Event**~~**Indemnity of the Province:**	~~A Payment Guarantee Event will occur if~~The Indemnitor will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee because of third party claims made against the Indemnitee by one or more of its specified creditors that result from any of the following: (A) the Legislative Assembly of Ontario ~~repeals~~repealing (and not replacing on an equivalent basis) the Act; ~~or~~ (B) the Legislative Assembly of Ontario ~~amends~~amending the Act or a Regulation made thereunder ~~is amended~~ in a way that materially and adversely ~~impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such~~affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction ~~(i)~~in a final and non-appealable judgement determines that all or a portion of the Act ~~to be~~is *ultra vires* in a way that materially and adversely ~~impacts~~affects the ~~ability~~rights and interests of ~~a~~the Financing Entity ~~to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or~~ ~~(D) funding obligations are due and payable at a time when a~~

	~~market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act~~under its investment interest.
Term:	An Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.
~~Payment Guarantee~~Satisfaction of an Indemnity:	~~Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition:~~ The Indemnitor will have the option to satisfy its obligations under an Indemnity in respect of a funding obligation by: (x) ~~the Guarantor shall assume~~ assuming and ~~pay~~paying when due (without acceleration) ~~all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all~~the regularly scheduled amounts due and payable in respect ~~thereof~~of the funding obligation during the term ~~of each~~and to the extent of the applicable Financing Entity's contractual ~~obligation to such Beneficiaries; and~~obligations thereunder; or (y) ~~Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of~~ causing the acceleration of the funding obligation and paying the outstanding amount owing thereunder in full, including in the case of debt instruments issued by the applicable Financing Entity by causing the redemption of the debt instruments and paying an amount equal to the then outstanding principal amount thereof plus accrued and unpaid interest~~. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other~~ up to the date of payment (without any default, penalty, prepayment or make whole ~~amounts~~premium).
Approval Requirement:	The terms and conditions of the obligations incurred by a

	Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under ~~Guarantees~~Indemnity:	Under no circumstances shall the ~~Guarantor~~Indemnitor be obligated to indemnify any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
~~**Priority of Payments:**~~	~~The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.~~
~~**Subrogation:**~~	~~Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.~~
~~**Notice Requirements:**~~**Undertakings regarding Certain Mismatches**	~~The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.~~
~~**Closing:**~~**Addressing Mismatches**	~~Date to be determined but no later than [■, 2017]. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered~~If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise expected to be available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing

	Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy its related payment obligations and thereby address any Mismatch.
~~**Reporting Requirements of a Financing Entity:**~~ **Possible Undertaking to Fund Mismatches**	~~The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture~~If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to address a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to address the Mismatch. Any such undertaking would be provided at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and, if given, would be on such terms, including appropriate compensation to the Province of Ontario, and be subject to such conditions (for example and without limitation, funding being conditional on the occurrence of a market disruption that results in the non-availability of capital markets term funding to effect a refinancing of the funding obligation) as the Minister of Energy and the Minister of Finance determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
~~**Conditions Precedent to Closing:**~~**Documentation**	~~Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~[2]
Representations, Terms and Conditions:	~~Customary representations~~Subject to approval of the Minister of Energy and ~~warranties of the Guarantor~~the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Servicing Guarantor ~~is~~and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Servicing Guarantor or ~~its agents or representatives~~the Indemnitor, or any agent or representative of the Servicing Guarantor or the Indemnitor, in connection with the

[2] ~~Opinions on the validity and enforceability of Provincial Support Agreement will be required.~~

	~~Transaction Documents~~transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	~~Customary confidentiality~~Confidentiality obligations ~~to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor~~of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

Good suggestion from Gadi – we should probably touch base internally in advance of meeting with OPG. I wonder if we could try for a quick 30 min phone call either tomorrow or Friday.
I will reach out to OPG to set something up for next week.

Subject: FW: EXTERNAL – Comments on Provincial Protection and Assurances Term Sheet - Fair Hydro

Hi,
Please see the following comments from OPG / Torys on the guarantees.
I wonder if we are now at a point we should suggest sitting down with OPG on this perhaps early next week.
Thanks,
Scott

Scott:
Further to our discussion on the outstanding issues, please find below the comments from the Dealers on the "Markup" of the Provincial Protection and Assurance term sheet.
As noted below, the next step should be to get the appropriate parties from the Province to sit down with the dealers and OPG to go over the points and agree on a basis to move forward.
We should try to do that sometime next week. Let us know what times work on the Province side and we will coordinate with the Dealers & counsels.
John

John/Les/Ken,

Please find below an issues list on the Province's comments on the Provincial Protection and Assurances Term Sheet (formerly the Provincial Support Agreement). This list reflects input from the dealers, Oslers and Torys. Please let us know if you have any additional comments or questions. If not, will you be reaching out to the Province to schedule a meeting next week (with the dealers, OPG, the Province and their counsels) to discuss these points? The dealers and their counsel don't see value in exchanging further drafts of the term sheet until they have had an opportunity to meet with the Province. We agree with this approach and are happy to assist in coordinating a meeting for next week. It would also be helpful to hear the Province's rationale and concerns for making some of these changes. Please let us know.

Many thanks,

Nina

1. The Servicing Guarantee:

    (a) It is written in favour of only the financing entity. However, in the MTSA, we are asking for covenants directly in favour of Indenture Trustee. The Indenture Trustee/specified creditors should have the direct benefit of the guarantee rather than relying on an indirect security interest in the servicing guarantee.

    (b) It should be clarified that the servicing obligations of the electricity vendors are covered.

    (c) If the guarantee is unenforceable, we should fall back to an indemnity, not a "functionally equivalent direct covenant" which is an uncertain concept.

    (d) We don't want an exclusion for economic loss. That may cover whatever losses the specified creditors do suffer.

2. Change of Law.

    (a) This should be written as a guarantee not an indemnity.

    (b) It should be directly in favour of the Indenture Trustee/specified creditors and it should cover all the "finance amount" and not just funding obligations.

    (c) We do not want the guarantee to be provided by another entity which is in turn guaranteed by Ontario. It should come directly from Ontario.

    (d) There should be no "materiality" threshold for a claim. If obligations are not paid in full,

then there should be a claim.

(e) The choice to assume or accelerate should be at the option of the holders, not the guarantor.

(f) If accelerated, then the 1% premium should be payable. This is a voluntary termination by the Province.

3. Undertaking Regarding Mismatches (market disruption)

(a) At best this structure defers the discussion of protection for a market disruption. At worst, it is impractical that take-out financing needs to be arranged in advance of each warehouse financing. We should rely on a definition of market disruption.

4. Approvals.

(a) Province to clarify what is contemplated under the heading "Approval Requirement". Is Province proposing to approve any obligation incurred by the Financing Entity?

(b) Approval under Section 28 of the *Financial Administration Act* to be attained (in case the OFHPA is declared void in its entirety).

Steve, as requested, attached are our current working drafts of the Fair Hydro Master Trust Indenture and Master Transfer and Servicing Agreement. Please note that these drafts are still in progress and, in particular, are subject to revision to reflect comments from OPG and the broader working group, as well as finalization of the mechanics of the payment of the debt carrying costs during the moratorium period (which we understand are expected to be paid by the IESO and addressed in a new regulation).

Please let us know if you have any comments or questions on the attached. We are in the process of advancing the

drafts of the DOT and management agreement and will forward those to you as soon as possible.

Best,
Rima

SCHEDULE A — DEFINED TERMS
EXHIBIT 1 — FORM OF INVESTMENT LETTER [DATE]
EXHIBIT 2 — FORM OF PAYMENT INSTRUCTIONS

This **TRUST INDENTURE**, between **[ISSUER]**, a trust formed under the laws of the Province of Ontario (the "**Issuer**"), and **[INDENTURE TRUSTEE]**, a trust company existing under the laws of Canada, in its capacity as Indenture Trustee (the "**Indenture Trustee**"), is made and entered into as of [■], 2017.

RECITALS OF THE ISSUER

The Issuer wishes to provide for the issuance of its Notes to be issued in one or more fully registered or bearer Series, Classes or Tranches.

All things necessary to make this Indenture a valid and legally binding agreement of the Issuer, in accordance with its terms, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

ARTICLE I
DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

1.01 Definitions

For all purposes of this Indenture and of any Supplemental Indenture, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms defined in Schedule A have the meanings assigned to them in Schedule A, and include the plural as well as the singular;

(b) [all other terms used herein which are defined in the Master Transfer and Servicing Agreement, either directly or by reference therein, have the meanings assigned to them therein;][1]

(c) all accounting terms not otherwise defined herein have the meanings assigned to them in accordance with generally accepted accounting principles (including the International Financial Reporting Standards as published by the International Accounting Standards Board, or any successor accounting standards board) and, except as otherwise herein expressly provided, the term "generally accepted accounting principles" with respect to any computation required or permitted hereunder means such accounting principles as are generally accepted in Canada at the date of such computation;

[1] Defined terms from Master Transfer and Servicing Agreement to be included in Schedule A. Schedule A will be a master glossary for all Program Agreements.

(d) unless the context otherwise requires, terms defined in the PPSA and not otherwise defined in this Indenture or a Supplemental Indenture shall have the meanings set forth in the PPSA;

(e) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(f) references to any law, rule, regulation or order of a Governmental Authority shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor;

(g) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(h) all references in this Indenture to designated "Articles", "Sections", "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Schedules, Exhibits and other subdivisions of this Indenture as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Indenture as a whole and not to any particular Article, Section or other subdivision;

(i) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(j) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

1.02 Compliance Certificates and Opinions

Upon any application or request by the Issuer to the Indenture Trustee to take any action under any provision of this Indenture, the Issuer will furnish to the Indenture Trustee (i) an Issuer's Certificate stating that all conditions precedent, if any, provided for in this Indenture relating to the proposed action have been complied with, and (ii) an Opinion of Counsel stating that, in the opinion of such counsel, all such conditions precedent, if any, have been complied with, except that in the case of any such application or request as to which the furnishing of such documents are specifically required by any provision of this Indenture relating to such particular application or request, no additional certificate or opinion need be furnished.

The Indenture Trustee may rely, as to authorization by the Issuer of any Series, Class or Tranche of Notes, the form and terms thereof and the legality, validity, binding effect and enforceability thereof, upon the Opinion of Counsel and the other documents delivered pursuant to Article V and this Section 1.02, as applicable, in connection with the first authentication of Notes of such Series, Class or Tranche.

Every certificate or opinion with respect to compliance with a condition or covenant provided for in this Indenture (except for the written statement required by Section 13.10) will include:

(a) a statement that each individual signing such certificate or opinion has read such covenant or condition and the definitions herein relating thereto;

(b) a brief statement as to the nature and scope of the examination or investigation upon which the statements or opinions contained in such certificate or opinion are based;

(c) a statement that such individual has made such examination or investigation as is necessary to express an informed opinion as to whether or not such covenant or condition has been complied with; and

(d) a statement as to whether, in the opinion of each such individual, such condition or covenant has been complied with.

1.03 Form of Documents Delivered to Indenture Trustee

In any case where several matters are required to be certified by, or covered by an opinion of, one or more specified Persons, one such Person may certify or give an opinion with respect to some matters and one or more other such Persons as to the other matters, and any such Person may certify or give an opinion as to such matters in one or several documents.

Any certificate or opinion of the Issuer may be based, insofar as it relates to legal matters, upon a certificate or opinion of, or representations by, counsel, unless the Issuer knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations are erroneous. Any such certificate or opinion of, or representation by, counsel may be based, insofar as it relates to factual matters, upon a certificate or opinion of, or representations by, the Issuer stating that the information with respect to such factual matters is in the possession of the Issuer, unless such counsel knows, or in the exercise of reasonable care should know, that the certificate or opinion or representations are erroneous.

Where any Person is required to make, give or execute two or more applications, requests, consents, certificates, statements, opinions or other instruments under this Indenture, they may, but need not, be consolidated and form one instrument.

1.04 Actions by Noteholders

(a) Any request, demand, authorization, direction, notice, consent, waiver or other action (collectively, an "**Action**") provided by this Indenture to be given or taken by Noteholders of any Series, Class or Tranche may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Noteholders in person or by an agent duly appointed in writing. If Notes of a Series, Class or Tranche are issuable in whole or in part as Bearer Notes, any Action provided by this Indenture to be given or taken by such Noteholders may, alternatively, be embodied in and evidenced by the record of such Noteholders voting in favor thereof, either in person or by proxies duly appointed in writing, at

any meeting of Noteholders duly called and held in accordance with the provisions of Article X or a combination of such instruments and any such record. Except as herein otherwise expressly provided, such Action will become effective when such instrument or instruments or record are delivered to the Indenture Trustee, and, where it is hereby expressly required, to the Issuer. Proof of execution of any such instrument or of a writing appointing any such agent, or the holding by any Person of a Note, will be sufficient for any purpose of this Indenture and (subject to Section 9.01) conclusive in favor of the Indenture Trustee and the Issuer, if made in the manner provided in this Section 1.04. The record of any meeting of Noteholders shall be proved in the manner provided in Article X.

(b) The fact and date of the execution by any Person of any such instrument or writing may be proved by the affidavit of a witness to such execution or by the certificate of any notary public or other officer authorized by applicable law to take acknowledgments of deeds, certifying that the individual signing such instrument or writing acknowledged to him the execution thereof. Where such execution is by an officer of a corporation or limited liability company, or a partner of a partnership, on behalf of such corporation, limited liability company or partnership, such certificate or affidavit will also constitute sufficient proof of his or her authority. The fact and date of the execution of any such instrument or writing, or the authority of the person executing the same, may also be proved in any other manner which the Indenture Trustee deems sufficient.

(c) (i) The ownership of Registered Notes will be proved by the Note Register.

(ii) The ownership of Bearer Notes or coupons will be proved by the production of such Bearer Notes or coupons or by a certificate, satisfactory to the Issuer and the Indenture Trustee, executed, as depositary, by any bank, trust company, recognized securities dealer, as depositary, wherever situated, satisfactory to the Issuer. Each such certificate will be dated and will state that on the date thereof a Bearer Note or coupon bearing a specified serial number was deposited with or exhibited to such bank, trust company or recognized securities dealer by the Person named in such certificate. Any such certificate may be issued in respect of one or more Bearer Notes or coupons specified therein. The holding by the Person named in any such certificate of any Bearer Note specified therein will be presumed to continue for a period of one year from the date of such certificate unless at the time of any determination of such holding (A) another certificate bearing a later date is issued in respect of the same Bearer Note or coupon produced, (B) the Bearer Note or coupon specified in such certificate is produced by some other Person or (C) the Bearer Note or coupon specified in such certificate has ceased to be Outstanding.

(d) The fact and date of execution of any such instrument or writing, the authority of the Person executing the same and the principal amount and serial numbers of Bearer Notes held by the Person so executing such instrument or writing and the date of holding the same may also be proved in any other manner which the

Indenture Trustee deems sufficient; and the Indenture Trustee may in any instance require further proof with respect to any of the matters referred to in this Section 1.04.

(e) If the Issuer will solicit from the Noteholders any Action, the Issuer may, at its option, by an Issuer Certificate, fix in advance a record date for the determination of Noteholders entitled to give such Action, but the Issuer will have no obligation to do so. If the Issuer does not so fix a record date, such record date will be the later of 30 days before the first solicitation of such Action or the date of the most recent list of Noteholders furnished to the Indenture Trustee pursuant to Section 13.14 before such solicitation. Such Action may be given before or after the record date, but only the Noteholders of record at the close of business on the record date will be deemed to be Noteholders for the purposes of determining whether Noteholders of the requisite proportion of Notes Outstanding have authorized or agreed or consented to such Action, and for that purpose the Notes Outstanding will be computed as of the record date; provided that no such authorization, agreement or consent by the Noteholders on the record date will be deemed effective unless it will become effective pursuant to the provisions of this Indenture not later than 6 months after the record date.

(f) Any Action by a Noteholder will bind the holder of every Note issued upon the transfer thereof or in exchange therefor or in lieu thereof, in respect of anything done or suffered to be done by the Indenture Trustee or the Issuer in reliance thereon whether or not notation of such Action is made upon such Note.

(g) Without limiting the foregoing, a Noteholder entitled hereunder to take any Action hereunder with regard to any particular Note may do so with regard to all or any part of the principal amount of such Note or by one or more duly appointed agents each of which may do so pursuant to such appointment with regard to all or any part of such principal amount. Any notice given or Action taken by a Noteholder or its agents with regard to different parts of such principal amount pursuant to this paragraph shall have the same effect as if given or taken by separate Noteholders of each such different part.

(h) Without limiting the generality of the foregoing, unless otherwise specified pursuant to Section 4.01 or pursuant to one or more Supplemental Indentures, a Noteholder, including a Depository that is the holder of a Global Note, may make, give or take, by a proxy or proxies duly appointed in writing, any Action provided in this Indenture to be made, given or taken by Noteholders, and a Depository that is the holder of a Global Note may provide its proxy or proxies to the beneficial owners of interests in or security entitlements to any such Global Note through such Depository's standing instructions and customary practices.

(i) The Issuer may fix a record date for the purpose of determining the Persons who are beneficial owners of interests in or security entitlements to any Global Note held by a Depository entitled under the procedures of such Depository to make, give or take, by a proxy or proxies duly appointed in writing, any Action provided

in this Indenture to be made, given or taken by Noteholders. If such a record date is fixed, the Noteholders on such record date or their duly appointed proxy or proxies, and only such Persons, shall be entitled to make, give or take such Action, whether or not such Noteholders remain Noteholders after such record date. No such Action shall be valid or effective if made, given or taken more than 90 days after such record date.

1.05 Actions of Other Specified Creditors

Any Action provided by this Indenture to be given or taken by any Specified Creditor (other than Noteholders) may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Specified Creditor in person or an agent duly appointed in writing. Proof of execution of any such instrument or of a writing appointing any such agent will be sufficient for any purpose of this Indenture and (subject to Section 9.01) conclusive in favour of the Indenture Trustee and the Issuer, if made in the manner provided in Section 1.04(b).

1.06 Effect of Headings and Table of Contents

The Article and Section headings herein and the Table of Contents are for convenience only and will not affect the construction hereof.

1.07 Successors and Assigns

All covenants and agreements in this Indenture by the Issuer will bind its successors and assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee in this Indenture shall bind its successors, co-trustees and agents of the Indenture Trustee.

1.08 Severability

In case any provision in this Indenture or in the Notes will be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions will not in any way be affected or impaired thereby.

1.09 Governing Law

THIS INDENTURE WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS. EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS INDENTURE. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS INDENTURE.

1.10 Counterparts

This Indenture may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument.

1.11 Indenture Referred to in the Declaration of Trust and the Master Transfer and Servicing Agreement

This is the Indenture referred to in the Declaration of Trust and the Master Transfer and Servicing Agreement.

1.12 Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of the Notes or this Indenture) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

1.13 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Indenture that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Indenture or the Notes, and (ii) the rates of interest stipulated in this Indenture or the Notes are intended to be nominal rates and not effective rates or yields.

1.14 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.15 References to Acts of the Issuer

For greater certainty, where any reference is made in this Indenture, or in any other instrument executed pursuant hereto or contemplated hereby to which the Issuer or the Issuer Trustee, as trustee of the Issuer, is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Issuer) by or with respect to (i) the Issuer or (ii) the Issuer Trustee, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or

a covenant, representation or warranty (other than relating to the constitution or existence of the Issuer) by or with respect to, the Issuer Trustee as trustee of the Issuer.

1.16 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in this Indenture), it is necessary to convert any amount due under this Indenture from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Issuer in respect of any Original Currency due from it to the Indenture Trustee under this Indenture shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Indenture in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Issuer shall indemnify the Indenture Trustee against such loss.

(b) The term "**rate of exchange**" in this Section 1.16 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
COLLATERAL

2.01 Security for Obligations Secured

As security for the due payment of all Obligations Secured including, without limitation, all principal of and interest, if any, on the Notes from time to time issued and certified under this Indenture and on any Borrowings, and the performance by the Issuer of all of the obligations of the Issuer in relation thereto, the Issuer hereby:

(a) mortgages, charges, pledges, grants, transfers, assigns, hypothecates and sets over unto the Indenture Trustee, for the benefit and security of the Specified Creditors and the Indenture Trustee, in its individual capacity, as and by way of a fixed and specific mortgage, assignment, pledge, hypothec and charge and grants to the Indenture Trustee for the benefit and security of the Specified Creditors and the Indenture Trustee, in its individual capacity, a security interest in all of its right, title and interest, whether now owned or hereafter acquired, in and to the following:

(i) the Issuer Investment Interest;

(ii) the Collection Account (including all Sub-Accounts thereof), each Finance Reserve Account (including all Sub-Accounts thereof), each Capital Reserve Account (including all Sub-Accounts thereof) and each Supplemental Reserve Account (including all Sub-Accounts thereof);

(iii) all Eligible Investments and all investment property, money and other property held in the Collection Account, any Finance Reserve Account, any Capital Reserve Account or any Supplemental Reserve Account (including any Sub-Accounts thereof);

(iv) all rights, benefits and powers of the Issuer under any Program Agreement;

(v) all present and future claims, demands, causes of and choses in action in respect of any of the foregoing and all interest, principal, payments and distributions of any nature or type on any of the foregoing;

(vi) all accounts, general intangibles, chattel paper, instruments, documents, goods, money, investment property, deposit accounts, letters of credit and letter-of-credit rights consisting of, arising from, or relating to any of the foregoing;

(vii) all debts, accounts, claims, monies and choses in action due or to become due with respect to all of the foregoing and also all securities, bills, notes, evidences of deposits of money, and other documents now held or owned or which may be hereafter taken, held or owned by the Issuer, or anyone on behalf of the Issuer, and all renewals thereof, accretions thereto, substitutions therefor and all interest, income and revenue arising therefrom or by virtue thereof;

(viii) all amounts received with respect to all of the foregoing; and

(ix) all proceeds of the foregoing; and

(b) mortgages, charges, pledges, grants, transfers, assigns, hypothecates and sets over unto the Indenture Trustee, for the benefit and security of the Specified Creditors and the Indenture Trustee, in its individual capacity, a floating charge over, and grants to the Indenture Trustee for the benefit and security of the Specified Creditors and the Indenture Trustee, in its individual capacity, a security interest in all of the property, assets and undertaking now owned or hereafter acquired by the Issuer.[2]

The property described in the preceding sentence is collectively referred to as the "**Collateral**".

The Indenture Trustee acknowledges the grant of such Security Interest, and accepts the Collateral in trust hereunder in accordance with the provisions hereof and agrees to perform the

[2] Dealers to consider providing flexibility for Issuer to provide separate security to Derivative Counterparties.

duties herein such that the interests of the Specified Creditors may be adequately and effectively protected.

To have and to hold the Collateral and all rights hereby conferred unto the Indenture Trustee, its successors and assigns forever but in trust nevertheless for the benefit of the Specified Creditors and the Indenture Trustee, in its individual capacity, and for the uses and purposes and subject to the terms and conditions herein set forth.

The Issuer acknowledges that value has been given and that the security granted shall attach and be effective on the date of execution of this Indenture and when the Issuer has rights in the Collateral, whether or not the monies and the Notes or any other evidence of Obligations Secured or any part thereof hereby secured or intended to be hereby secured shall be advanced or issued before or after or upon the date of the execution of this Indenture.

2.02 Recording, Etc.

(a) The Issuer intends the Security Interest granted pursuant to this Indenture in favor of the Indenture Trustee to be prior to all other Liens in respect of the Collateral. The Issuer will take all actions necessary to maintain a perfected Lien on the Collateral in favor of the Indenture Trustee.

(b) The Indenture Trustee shall hold each item of the Collateral separate and apart from all other property held by the Indenture Trustee.

(c) The Issuer will from time to time execute, authorize and deliver all such supplements and amendments hereto and all such financing statements, amendments thereto, instruments of further assurance and other instruments, all as prepared by the Issuer, and will take such other action necessary or advisable to:

(i) grant the Security Interest more effectively in all or any portion of the Collateral;

(ii) maintain or preserve the Security Interest (and the priority thereof) created by this Indenture or carry out more effectively the purposes hereof;

(iii) perfect, publish notice of or protect the validity of any grant made or to be made by this Indenture;

(iv) enforce the Investment Asset, any Derivative Agreement, any Credit Enhancement Agreement, any Liquidity Agreement and each other instrument or agreement designated for inclusion in the Collateral;

(v) preserve and defend title to the Collateral and the rights of the Indenture Trustee in the Collateral against the claims of all Persons; or

(vi) pay all taxes or assessments levied or assessed upon the Collateral when due.

(d) The Issuer will from time to time promptly pay and discharge all PPSA recording and filing fees, charges and taxes relating to this Indenture, any amendments hereto and any other instruments of further assurance.

(e) Without limiting the generality of subsection 2.02(c) or (d):

(i) The Issuer will cause this Indenture, all amendments and supplements hereto and all financing statements and all amendments to such financing statements and any other necessary documents covering the Indenture Trustee's right, title and interest in and to the Collateral to be promptly recorded, registered and filed, and at all times to be kept recorded, registered and filed, all in such manner and in such places as may be required by applicable law fully to preserve and protect the right, title and interest of the Indenture Trustee in and to all property comprising the Collateral. The Issuer will deliver to the Indenture Trustee file-stamped copies of, or filing receipts for, any document recorded, registered or filed as provided above, as soon as available following such recording, registration or filing. The Issuer hereby authorizes the filing of financing statements (and amendments of financing statements) that name the Issuer as debtor and the Indenture Trustee as secured party and that cover all personal property of the Issuer. The Issuer also hereby ratifies the filing of any such financing statements (or amendments of financing statements) that were filed prior to the execution hereof.

(ii) The Issuer shall not change its name, its jurisdiction of formation or its type of organization unless it has first (A) made all filings and taken all actions in all relevant jurisdictions under the PPSA and other applicable law as are necessary to continue and maintain the first priority perfected Security Interest of the Indenture Trustee in the Collateral, and (B) delivered to the Indenture Trustee an Opinion of Counsel to the effect that all necessary filings have been made under the PPSA (and where applicable, the equivalent thereof) in all relevant jurisdictions as are necessary to continue and maintain the first priority perfected Security Interest of the Indenture Trustee in the Collateral.

2.03 Use of Collateral

Subject to the express terms of this Indenture, until the Funding Obligations have become due and payable pursuant to Section 8.02, the Issuer will be permitted to possess and use the Collateral in connection with the activities of the Issuer, including, without limitation, the right to (a) exercise all of its rights and perform all of its obligations under each Program Agreement without consultation with or the consent of the Indenture Trustee, and (b) use the funds in any Issuer Account for any purpose not in violation of this Indenture or the Program Agreements.

2.04 Suits To Protect the Collateral

Subject to the provisions of this Indenture, the Indenture Trustee will have power to institute and to maintain such suits and proceedings as it may deem expedient to prevent any impairment of the Collateral by any acts which may be unlawful or in violation of this Indenture, and such suits and proceedings as the Indenture Trustee may deem expedient to preserve or protect the interests of the Specified Creditors and the interests of the Indenture Trustee in the Collateral (including the power to institute and maintain suits or proceedings to restrain the enforcement of, or compliance with, any legislative or other governmental enactment, rule or order that may be unconstitutional or otherwise invalid if the enforcement of, or compliance with, such enactment, rule or order would impair the Security Interest or be prejudicial to the interests of the Specified Creditors or the Indenture Trustee).

2.05 Purchaser Protected

In no event will any purchaser in good faith of any property purported to be released hereunder be bound to ascertain the authority of the Indenture Trustee to execute the release or to inquire as to the satisfaction of any conditions required by the provisions hereof for the exercise of such authority or to see to the application of any consideration given by such purchaser or other transferee; nor will any purchaser or other transferee of any property or rights permitted by this Article II to be sold be under any obligation to ascertain or inquire into the authority of the Issuer to make any such sale or other transfer.

2.06 Powers Exercisable by Receiver or Indenture Trustee

In case the Collateral shall be in the possession of a receiver or trustee lawfully appointed, the powers conferred in this Article II upon the Issuer with respect to the release, sale or other disposition of such property may be exercised by such receiver or trustee, and an instrument signed by such receiver or trustee shall be deemed the equivalent of any similar instrument of the Issuer or of any officer or officers thereof required by the provisions of this Article II.

2.07 Determinations Relating to Collateral

In the event (i) the Indenture Trustee shall receive any written request from the Issuer for consent or approval with respect to any matter or thing relating to any Collateral or the Issuer's obligations with respect thereto, (ii) there shall be due to or from the Indenture Trustee under the provisions hereof any performance or the delivery of any instrument, or (iii) the Indenture Trustee shall become aware of any nonperformance by the Issuer of any covenant or any breach of any representation or warranty of the Issuer set forth in this Indenture, then, in each such event, the Indenture Trustee shall be entitled to hire experts, consultants, agents and attorneys to advise the Indenture Trustee on the manner in which the Indenture Trustee should respond to such request or render any requested performance or response to such nonperformance or breach (the expenses of which will be reimbursed to the Indenture Trustee pursuant to Section 9.05). The Indenture Trustee will be fully protected in the taking of any action recommended or approved by any such expert, consultant, agent or attorney, or agreed to by Extraordinary Resolution.

2.08 Satisfaction and Discharge of Indenture

(a) The Issuer may at any time, for the purpose of obtaining the satisfaction and discharge of this Indenture with respect to any Series, Class or Tranche of Notes or for any other purpose, pay, or by an Issuer Certificate direct any Paying Agent to pay, to the Indenture Trustee all sums held in trust by the Issuer or such Paying Agent in respect of each and every Series, Class or Tranche of Notes as to which it seeks to discharge this Indenture or, if for any other purpose, all sums so held in trust by the Issuer in respect of all Notes, such sums to be held by the Indenture Trustee upon the same trusts as those upon which such sums were held by the Issuer or such Paying Agent; and, upon such payment by any Paying Agent to the Indenture Trustee, such Paying Agent will be released from all further liability with respect to such money.

(b) This Indenture will cease to be of further effect with respect to any Series, Class or Tranche of Notes (except as to any surviving rights of transfer or exchange of Notes of that Series, Class or Tranche expressly provided for herein or in the form of Note for that Series, Class or Tranche), and the Indenture Trustee, on demand of and at the expense of the Issuer, will execute proper instruments acknowledging satisfaction and discharge of this Indenture as to that Series, Class or Tranche, when:

(i) all Notes of that Series, Class or Tranche theretofore authenticated and delivered (other than (A) Notes of that Series, Class or Tranche which have been destroyed, lost or stolen and which have been replaced or paid as provided in Section 17.04(b), and (B) Notes of that Series, Class or Tranche for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from that trust, as provided in Section 17.04(b)) have been delivered to the Indenture Trustee canceled or for cancellation;

(ii) the Issuer has paid or caused to be paid all other sums payable under the Indenture (including payments to the Indenture Trustee pursuant to Section 9.05) by the Issuer with respect to the Notes of that Series, Class or Tranche; and

(iii) the Issuer has delivered to the Indenture Trustee an Issuer Certificate and an Opinion of Counsel each stating that all conditions precedent herein provided for relating to the satisfaction and discharge of this Indenture with respect to the Notes of that Series, Class or Tranche have been complied with.

Notwithstanding the satisfaction and discharge of this Indenture with respect to any Series, Class or Tranche of Notes, the obligations of the Issuer to the Indenture Trustee with respect to that Series, Class or Tranche of Notes under Section 9.05 and the obligations of the Indenture Trustee under Sections 7.07 and 17.04(b) will survive such satisfaction and discharge.

2.09 Release of all Collateral

(a) Subject to the payment of its fees and expenses pursuant to Section 9.05, the Indenture Trustee shall, at the request of the Issuer or when otherwise required by the provisions of this Indenture, execute instruments to release Collateral from the Security Interest of this Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, in a manner and under circumstances which are not inconsistent with the provisions of this Indenture. No party relying upon an instrument executed by the Indenture Trustee as provided in this Article II will be bound to ascertain the Indenture Trustee's authority, inquire into the satisfaction of any conditions precedent or see to the application of any funds.

(b) Upon delivery of an Officer's Certificate of the Manager certifying that all Funding Obligations and all other Obligations Secured have been satisfied and discharged by complying with the provisions of this Article II and all applicable Program Agreements, the Indenture Trustee shall execute and deliver such releases, termination statements and other instruments (in recordable form, where appropriate) as the Issuer may reasonably request evidencing the termination of the Security Interest created by this Indenture.

(c) The Issuer and the Specified Creditors shall be entitled to receive at least 10 days' written notice when the Indenture Trustee proposes to take any action pursuant to clause (a), accompanied by copies of any instruments involved, and the Indenture Trustee shall also be entitled to require, as a condition to such action, an Opinion of Counsel, stating the legal effect of any such action, outlining the steps required to complete the same, and concluding that all conditions precedent to the taking of such action have been complied with. Counsel rendering any such opinion may rely, without independent investigation, on the accuracy and validity of any certificate or other instrument delivered to the Indenture Trustee in connection with any such action.

2.10 Certain Commercial Law Representations and Warranties

The Issuer hereby makes the following representations and warranties. Such representations and warranties shall survive until the termination of this Indenture. Such representations and warranties speak of the date that a Lien in the Collateral is granted to the Indenture Trustee and shall not be waived by any of the parties to this Indenture unless the Rating Agency Condition is satisfied.

(a) This Indenture constitutes the grant of a first priority perfected Lien by the Issuer to the Indenture Trustee in the Collateral which, in the case of the existing Collateral and the proceeds thereof, is enforceable upon execution and delivery of this Indenture or, with respect to after-acquired property, as of the date such property is acquired, and which will be enforceable with respect to the Collateral hereafter and thereafter created and the proceeds thereof upon such creation. Upon the filing of the assignments, financing statements and continuation statements (and other

documents where applicable) and, in the case of after-acquired Collateral and the proceeds thereof, upon its creation, the Indenture Trustee shall have a first priority perfected Lien in such property and proceeds.

(b) At the time of its grant of any Lien in the Collateral pursuant to this Indenture, the Issuer owned and had good and marketable title to such Collateral free and clear of any Lien of any other Person.

(c) The Issuer has caused the filing of all appropriate financing statements in the proper filing office in the Province of Ontario under applicable law in order to perfect the Security Interest.

(d) Other than the Security Interest, the Issuer has not pledged, assigned, sold, granted a Lien in, or otherwise conveyed, the Collateral. The Issuer has not authorized the filing of and is not aware of any financing statements against the Issuer that include a description of the Collateral other than any financing statement relating to the Security Interest or that has been terminated. The Issuer is not aware of any judgment or tax lien filings against the Issuer.

ARTICLE III
NOTE FORMS

3.01 Forms Generally

The Notes will have such appropriate insertions, omissions, substitutions and other variations as are required or permitted by this Indenture or the Related Supplemental Indenture and may have such letters, numbers or other marks of identification and such legends or endorsements placed thereon, as may be required to comply with applicable laws or regulations or with the rules of any securities exchange, or as may, consistently herewith, be determined by the Issuer, as evidenced by the Issuer's execution of such Notes. Any portion of the text of any Note may be set forth on the reverse thereof, with an appropriate reference thereto on the face of the Note.

Definitive Notes will be typewritten, printed, lithographed or engraved or produced by any combination of these methods (with or without steel engraved borders) or may be produced in any other manner, all as determined by the Issuer, as evidenced by the Issuer's execution of such Notes, subject, with respect to the Notes of any Series, Class or Tranche, to the rules of any securities exchange on which such Notes are listed.

3.02 Forms of Notes

Each Note will be in one of the forms approved from time to time by or pursuant to a Supplemental Indenture. Before the delivery of a Note to the Indenture Trustee for authentication in any form approved by or pursuant to an Issuer Certificate, the Issuer will deliver to the Indenture Trustee the Issuer Certificate by or pursuant to which such form of Note has been approved, which Issuer Certificate will have attached thereto a true and correct copy of the form of Note which has been approved thereby or, if an Issuer Certificate authorizes a specific officer or officers of the Manager to approve a form of Note, a certificate of such officer or officers approving the form of

Note attached thereto. Any form of Note approved by or pursuant to an Issuer Certificate must be acceptable as to form to the Indenture Trustee, such acceptance to be evidenced by the Indenture Trustee's authentication of Notes in that form or a certificate signed by a Responsible Officer of the Indenture Trustee and delivered to the Issuer.

3.03 Form of Indenture Trustee's Certificate of Authentication

The form of Indenture Trustee's Certificate of Authentication for any Note issued pursuant to this Indenture will be substantially as follows:

TRUSTEE'S CERTIFICATE OF AUTHENTICATION

This is one of the Notes of the Series, Class or Tranche designated therein referred to in the within-mentioned Indenture.

[INDENTURE TRUSTEE], as Indenture Trustee,

By: _____
