- The Chief Financial and Risk Officer, OFA Risk Control Division, reports on program exposures and performance, as well as exceptions to policies.

In addition, OFA Management is informed of the Corporation's risk exposures and positions on a daily basis so it can direct appropriate actions on behalf of OEFC.

EXECUTIVE SUMMARY

The Ontario Financing Authority (OFA) is a Provincial Crown agency established by the *Capital Investment Plan Act, 1993* (CIPA). The initiatives in the OFA's *2017–20 Business Plan* will focus on achieving the objectives set out in CIPA and the objectives set out in the OFA's mandate letter from the Minister of Finance, dated October 1, 2016 over a three year planning horizon, as well as reporting on results of the previous year's Business Plan. Initiatives for the 2017–20 Plan include:

1. Executing the Province's borrowing program through development and implementation of the annual Financing, Debt & Electricity Management Plan. The Plan will provide critical details on the borrowing program, including term structure and diversification objectives, as well as investor relations, liquidity, floating rate, foreign exchange and credit risk strategies, and also outline major risks and risk mitigation strategies.

2. Managing the Province's debt, investments, Ontario Nuclear Funds Agreement (ONFA) and financial risk, and contributing to the development of the Province's fiscal plan and outlook by working to generate savings from liquid reserve investment activities within prudent risk exposure limits, as well as centralized/segregated investment funds for various public bodies. This also involves managing ONFA-related investments, working together with Ontario Power Generation Inc. (OPG), to ensure interest rate, foreign exchange and credit exposures are within approved policy limits, as well as contributing to the Province's annual Budget, Fall Statement and quarterly finances.

3. Managing key financial relationships by building and maintaining connections with investors in both existing and new markets, as well as relationships with banks, financial service providers and investment dealers. This includes providing Investor Relations information products and updates on the OFA website. Maintaining close relationships and ongoing dialogue with credit rating agencies to keep them informed of the Province's financial status, priorities, and initiatives, and complete regulatory filings with the U.S. Securities & Exchange Commission (SEC) and any other applicable securities regulators.

4. Providing cash management and banking services on a centralized basis to all ministries and settlement, payment, financial and reporting, loan administration, information technology and client services to the Treasury Program by implementing effective treasury solutions for the Province and client agencies. Ensuring that the Province has sufficient cash available at all times to meet its financial obligations, and continuing to work with the other ministries to advise on banking and cash management components of government initiatives as well as on changes to accounting standards and their impact on the Province's debt and interest on debt.

5. Advising on and implementing corporate and electricity finance projects and policies by providing analysis and advice on cost-effective borrowing, investing and risk management by public bodies and other financing proposals, and on business cases for business supports. This includes providing advice on transactions that may affect the indebtedness or contingent liabilities of Ontario, including provincial guarantees. In addition, undertaking policy and financial analysis, modelling support and implementation, as required, for electricity financings, policies and initiatives, including ONFA, which could have fiscal, financial and/or economic implications for the Province and/or Ontario Electricity Financial Corporation (OEFC).

6. Ensuring the successful activation of OFA's decentralized Business Continuity Plan (BCP) by reviewing and updating the Corporate BCP Framework and Business Unit plans, as well as conducting corporate-wide BCP test exercises.

OVERVIEW OF 2016–17 RESULTS (TO DATE)

The Ontario Financing Authority (OFA) accomplished the following in support of the overall strategic directions outlined in the 2016–19 Business Plan[1]:

1. *Execute the Province's borrowing program*

- As of January 31, 2017, the OFA had completed $20.3 billion (85 per cent) of its $23.8 billion (as per the 2016 Fall Economic Statement) long-term borrowing requirement for 2016–17. Approximately 82 per cent of long-term borrowing was completed in the Canadian dollar market.
- The 2016–17 Ontario Savings Bond (OSB) campaign raised $127 million.
- The objectives set out in the 2016–17 Financing, Debt & Electricity Management Plan, approved by the OFA Board, are on track and expected to be successfully completed by fiscal year end.
- Sufficient liquidity has been available over the fiscal year to ensure the Province has been able to meet all of its financial commitments and payment obligations, largely reflecting the long-term borrowing program being consistently ahead of pace.
- Successfully executed five carve-out deals[2] to-date for the 2016–17 fiscal year (as of January 31, 2017). Held in-depth discussions with individual carve-out investors.
- On January 26, 2017, the Province successfully priced an $800 million re-opening of its January 2023 Global Green Bond. The six year bond will help fund twelve green infrastructure projects, with an emphasis on clean transportation and energy efficiency and conservation. The transaction represents the third and largest ever Green Bond offering from the Province of Ontario.
- Provided expertise in accounting for Green Bonds, and set up financial accounting and reporting for these investment vehicles that met the requirements outlined by the investor community. Developed and released a second Green Bond newsletter on December 12, 2016, updating investors on the second Green Bond's use of proceeds, project selection process, as well as, providing project updates on the eight projects selected.
- Analyzed the scope and impact of the Markets in Financial Instruments Directive (MiFID) II and the Bank Recovery and Resolution Directive (BRRD) on the Province and implemented required documentation changes to ensure the Province's continued, uninterrupted access to European capital markets.

2. *Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook*

- As of January 24, 2017, through the timing of debt issues and related hedging, the cost of regular borrowing for the Province based on the traditional methodology translated to a percentile ranking of 58th percentile against a statistical distribution of benchmark interest rates. As such the percentile ranking for regular borrowings is outside the designated target band of 45 to 55 percentile. The OFA has introduced a more accurate and comprehensive performance measurement methodology based on the tenor of individual debt issues. Applying this methodology, the cost of regular borrowing for the Province for the same date translated to a percentile ranking of 53rd percentile, falling within the target band of 45 to 55 percentile. The cost of strategic foreign borrowing as of January 24, 2017 translated into a percentile ranking of 54th percentile falling within the designated target band for strategic foreign borrowings of 50 to 75 percentile. The new methodology is yet to be extended to cover strategic foreign borrowings. There were no borrowings on behalf of OEFC.

[1] The OFA's fiscal year end is March 31, 2017, but quantitative performance results are as of December 31, 2016, unless otherwise noted.

[2] In order to accommodate large bond purchases by a single buyer, a large order procedure was implemented on October 14, 2011. The "carve-out" procedure allows for a portion of a bond issue to be sold to a single buyer.

- The money market performance was $ $21.6 million or thirteen basis points (bps) better than the benchmark as of December 31, 2016. The performance is eleven bps better than the upper limit of the target band which is plus or minus two bps of the benchmark.
- The interest-on-debt (IOD) expense for 2016–17 is currently forecast at $11,375 million, $381 million lower than forecast in the *2016 Budget*, primarily as a result of lower than forecast interest rates.
- Funds were managed on a discretionary basis on behalf of the Pension Benefits Guarantee Fund, Deposit Insurance Corporation of Ontario, Ontario Trillium Foundation, Infrastructure Ontario, and a commitment fund for the Ontario Capital Growth Corporation.
- Funds were managed on a non-discretionary basis on behalf of the Ontario Immigrant Investor Corporation and Northern Ontario Heritage Fund.
- With OPG, the Used Fuel and Decommissioning Segregated Funds' investments were managed under ONFA. The Funds have grown from $16.9 billion at January 1, 2015 to about $19.2 billion at September 30, 2016. As of November 30, 2016, the rate of return for the Used Fuel Fund for one year was 6.88 per cent compared to the market benchmark of 6.89 per cent and a target rate of return of 5.04 per cent. The rate of return for the Decommissioning Fund for one year was 6.79 per cent compared to the market benchmark of 7.07 per cent and a target rate of return of 5.15 per cent.
- Contributed to the Province's annual Budget and quarterly finances, including the electricity sector outlook and assets; advised on the potential implications of initiatives on interest on debt, borrowing objectives, credit ratings and financial markets' reactions.
- As part of the Pooled Asset Management Working Group, provided technical investment management expertise on the modelling, design and implementation of a pooled asset management entity for institutions in Ontario's broader public sector. In February 2015, a final report was presented to the Minister of Finance. The OFA has continued to assist the Ministry of Finance (MOF) in implementing the Investment Management Corporation of Ontario (IMCO).
- Administered borrowing authority obtained under the *Financial Administration Act* (FAA) which is required to carry out the Province's borrowing program. Effected changes to the FAA to better align the foreign currency conversion of debt maturities to be refinanced with the methodology used in calculating the Province's annual borrowing requirement.

3. *Manage key financial relationships*

- Held road shows, investor meetings and conference calls to meet with investors in Canada, the United States, Europe and Asia, and hosted meetings at the OFA offices. Held 139 investor meetings and events as of December 31, 2016, including meetings with 10 new accounts. Provided keynote speakers and panelists at industry conferences in Toronto and New York City. Promoted Toronto as a global financial centre.
- Continued development of the OFA website to improve functionality, add additional information for investors and provide full mobile accessibility. As part of Ontario's *Open Data Directive,* the OFA published an Open Data Inventory List on its website, which includes all of the datasets the OFA creates, collects and/or manages. The website continues to be an important tool for communicating with investors and the public, receiving 34,792 visitors during the 2016 calendar year. Three CEO's Corner updates were posted over this time. The OFA email alert list had 363 subscribers as of December 31, 2016.
- Maintained close relationships and held ongoing discussions with credit rating agencies and the banks which underwrite and distribute the Province's bonds in Canada and around the world to keep them apprised of government priorities and initiatives, the *2016 Budget*, the 2015–2016 Public Accounts, the *2016 Ontario Economic Outlook and Fiscal Review* (Fall Statement), the secondary offering of Hydro One upon its public announcement and other quarterly finance releases.
- Managed increasingly more rigorous regulatory and disclosure requirements, and maintained close relationships with the regulatory bodies in the global capital markets.
- Monitored credit exposures to banks with which the OFA has relationships. Executed 10 collateralized swap agreements with bank counterparties and are working toward executing additional agreements in order to mitigate credit risk with bank counterparties.

- Conducted comprehensive reviews of potential rule changes affecting the Province domestically and internationally such as the Market Abuse Directive (MAR) in the European Economic Area (EEA) and fee-based changes with Canada's primary central securities depository (CDS), consulting securities regulators and other capital market participants, as appropriate.
- Monitored and fully complied with international withholding tax requirements in respect of its financial agreements under FATCA and OECD Common Reporting Standard for Entity Tax Residency.

4. *Provide cash management and banking services as well as settlement, payment services, loan administration and financial and reporting services and client services*

- Provided centralized banking services to the Province by strategically managing banking relationships, as well as providing efficient centralized cash management services to the Province, minimizing interest on debt.
- Continued to provide cash management services to five client agencies and crown corporations, including the Pension Benefits Guarantee Fund, Ontario Capital Growth Corporation and the Deposit Insurance Corporation of Ontario.
- Managed the complex cash flows and settlement requirements associated with the secondary offering of Hydro One ensuring that these very large and time sensitive transactions were completed on a timely and accurate basis.
- Continued to advise ministries on the application of the Cash Management Directive with regard to Government priorities including the proposed cap and trade mechanism for Ontario.
- Continued strategic participation and advice to the cross-ministry Working Group, Executive Governance Committee and Payment Card Industry (PCI) Enterprise Coordination Office to assist ministries in maintaining compliance with mandatory security requirements for debit/credit card acceptance.
- After concluding a successful pilot, continued to work with the Ministry of Community and Social Services to replace social benefits payments made by cheque with a reloadable prepaid card product for all unbanked individuals providing both cost efficiencies, and improved services to Ontarians.
- Provided analysis and advice to Ministry of the Environment and Climate Change (MOECC) on the structuring of the Province's proposed Cap and Trade auction program, which will be linked with those of California and Quebec, to ensure its sound financial management and protection of the Province's interests.
- Provided advice to MOECC regarding the selection and management of a Financial Services Administrator to support the auction process, and control structure for the auction-related financial services and receipt of public money aspects.
- Provided advice to the Ministry of Government and Consumer Services (MGCS) on their procurement of corporate purchasing / travel cards as well as analysis of related *Financial Administration Act* considerations.
- Provided analysis and advice to ministries on payment options for new programs and program changes e.g. Ministry of Transportation Drive Clean program collections via Pre-Authorized Debit, Ministry of Advanced Education and Skills Development online collection of childcare license fees, and online Program Approval and Registration Information System.
- Based on an in-depth risk and efficiency analysis the Province determined to no longer accept American Express cards as a payment mechanism. The decision generated savings through the elimination of a parallel infrastructure as well as reduced risk by streamlining PCI data security requirements.
- Working closely with MOF to develop an e-services strategy for tax collection.
- Continue to engage with provincial and federal counterparts on treasury and cash management program issues throughout the year.
- Continued to provide timely and efficient settlement and payment services in managing the Provincial and OEFC debt portfolios and Non-Utility Generator (NUG) power purchase contracts.
- Continued to work with MOF, MGCS and Treasury Board Secretariat (TBS) in advancing the OFA initiative to move pension plan assets that are currently part of the Consolidated Revenue Fund into

more appropriate asset management structures that have the potential to release up to $50 million in annualized savings.

- The Integrity Commissioner has graduated the OFA from having to submit the travel expenses of the Board, the CEO and his direct reports and the top five employees in a fiscal year, for review by his office. The graduation is a testament to the timeliness and accuracy exhibited by the OFA in providing this information to the Office of the Commissioner over the past few years.
- As next steps in providing feedback to the Public Sector Accounting Board (PSAB) with regards to its new standard on Financial Instruments, the OFA has retained Deloitte Inc. to consult with other provinces and provide feedback to PSAB on provincial concerns with the proposed standard.
- Continued to provide accurate agency financial statements, as well as reported provincial debt, derivatives and investments in accordance with strict legislated timelines. As in past years, the OFA's 2015–16 Financial Statements received an unqualified opinion from the Office of the Auditor General. The Auditor General's annual review of the OFA's financial reporting of the Province's debt and interest on debt presented in the 2015–16 Public Accounts continued to be free of material issues.
- Renewed and administered long and short term credit facilities between the Province and Ontario Infrastructure and Land Corporation ("OILC").

5. *Advise on and implement corporate and electricity finance projects and policies*

- Advised on capital projects and financing options for ministries and public sector entities.
- Continued the review of business cases for OFA borrowing requests from public bodies including a number of Ontario colleges, school boards and corporations, expected to result in a total of $400 million in new long-term loans. Loan program annual savings are estimated to be at least $30 million per year for a total of approximately $230 million in cumulative savings to date.
- Continued to provide advice on municipal debt issuance and investment activities, including the expansion of the Prudent Investor standard to other large municipalities and on the Ministry of Municipal Affairs and Housing new municipal revenue tools strategy.
- Monitored terms and conditions of loans and loan guarantees and reviewed proposals and provided advice to the Deputy Minister and the Minister on proposed options to amend the loan guarantees and associated loan and contracts.
- Provided analysis and advice on the Province's investment in the Ontario Venture Capital Fund, the Northleaf Venture Catalyst Fund, Ontario Emerging Technologies Fund and the ScaleUp Ventures Fund. The CEO serves on the Board of Directors, and is a Vice-Chair of, the Ontario Capital Growth Corporation (OCGC), which manages the Province's interests in these four funds.
- Advised on and reviewed proposed contingent liabilities and indemnity agreements put forward by ministries and public bodies that would increase the indebtedness of the Province, including contingent liabilities and indemnities for major infrastructure projects, accommodation leases or broader public sector borrowing.
- Provided analysis and advice to the MOECC on the design of the Province's cap and trade auction program as well as the procurement of a financial services provider to the WCI Inc. to provide administrative support to that program.
- Provided analysis and advice to the MOECC on the establishment of a new climate change agency tasked with the implementation of the ministry's carbon reduction programs.
- Providing analysis and advice on the application of Section 28 of the *Financial Administration Act* to contracts entered into by public entities that would increase the indebtedness or contingent liabilities of the Province.
- Led the development of a new protocol for the sharing of powers and responsibilities under Section 28 of the *Financial Administration Act* between the Minister of Finance and the President of Treasury Board.
- Provided advice to the Ministry of Research, Innovation and Science (MRIS) on private sector refinancing of the MRIS-MaRS Phase 2 loan.

- Provided advice to ministries, Crown agencies and other public entities on loan structuring and credit enhancement strategies.
- Provided advice to the MOF's Office of Economic Policy regarding the Bank of Canada's proposal to extend an Emergency Lending Facility to all provincial credit unions.
- Provided analysis and advice in support of the Ministry of Energy moving forward with secondary offerings of Hydro One shares including, in 2016-17, the secondary offering executed in April 2016.
- Provided advice alongside MOF to help facilitate discussion and progress regarding the agreement-in-principle with First Nations – in support of broadening the ownership of Hydro One by the Province.
- Through a working group, working with Infrastructure Ontario and other areas of government, provided analysis and advice in support of unlocking the value of the Province's real estate assets, including the sale of the LCBO's head office lands in June 2016, and the sales process for OPG headquarters properties.
- Provided policy analysis and advice on the implementation of the Trillium Trust, and proposed framework for making disbursements from the Trillium Trust to receiving ministries in support of public infrastructure investments.
- Provided financial analysis and advice on continuous management and implementation of the commercial agreement with Borealis/Teranet for the electronic land registry system.
- CEO served on the Assistant Deputy Ministers' review committee of the Jobs and Prosperity Fund.
- Provided analysis, advice, and the fiscal impact of the electricity sector and asset optimization initiatives for the Province's annual Budget, Fall Statement, Public Accounts and quarterly finances.
- Supported electricity policies and initiatives, focusing on potential fiscal, financial, and economic impacts on the Province and OEFC, including analysis and advice to support implementation and expansion of the Industrial Electricity Incentive (IEI); expanding the Industrial Conservation Initiative (ICI); ongoing implementation of the Northern Industrial Electricity Rate (NIER) program and its review process, the rebate for residential, small business and farm electricity bills of an amount equal to the eight per cent provincial portion of the Harmonized Sales Tax (HST) or the Ontario Rebate for Electricity Consumers (OREC); and providing analysis and advice on the stranded debt of the electricity sector.
- Provided analysis and advice on proposed new loans facilities and continued to implement new and existing loan agreements between OEFC and OPG related to supply projects and refinancing debt maturities.
- Renewed and continued to implement a credit facility between OFA and the Independent Electricity System Operator (IESO) for liquidity purposes and also provided analysis and advice to ensure financial oversight / governance of these credit facilities following the merger of the OPA and IESO.
- Continued to implement the Aboriginal Loan Guarantee Program (ALGP) to facilitate Aboriginal equity participation in renewable energy and transmission projects. As of December 31, 2016, eight guarantees totalling almost $240 million have been approved under the ALGP. All applications are reviewed in conjunction with one or more third party due diligence providers.
- Continued to implement the ONFA, including monitoring the segregated fund values, monitoring, reviewing and providing analysis and advice on the Province's approval of OPG's ONFA Reference Plan submission in 2016 and related submissions, reviewing for approval OPG's ONFA Annual Budget submissions and disbursement eligibility and requests, and monitoring the provincial guarantee provided under ONFA to the Canadian Nuclear Safety Commission (CNSC) as part of OPG's financial guarantee requirement to the CNSC.
- Provided analysis and advice on electricity supply initiatives, including nuclear refurbishments.
- Provided continuous support on discussions related to developing infrastructure and projects in the Ring of Fire.
- Provided analysis and advice on policies to support the consolidation of Ontario's electricity Local Distribution Company sector.

6. *Ensure the successful execution of the OFA's decentralized Business Continuity Plan (BCP)*

- Reviewed and updated the Corporate BCP Framework.
- Business Units conducted monthly tests, ensuring their respective plans are reviewed and updated.
- Carried out two corporate-wide BCP test exercises, and implemented improvements to the Plan based on the results of these tests.
- Reviewed corporate BCP Command and Support Team membership.

2017–20 OBJECTIVES

Key objectives for 2017–20 include the following, as set out in the OFA's mandate letter from the Minister of Finance, dated October 1, 2016:

1. Execute the Province's borrowing program
2. Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook
3. Manage key financial relationships
4. Provide services related to cash management, banking, settlement, payment, financial and reporting, and client services
5. Advise on and implement corporate and electricity finance projects and policies

In addition to the foregoing, the OFA has also identified the following additional key objective:

6. Ensure the successful execution of OFA's decentralized Business Continuity Plan

Total Revenues and Expenditures

(in thousands of dollars)	**2016–17**		**Forecasts***		
	Budgeted	**Interim Forecast**	**2017-18**	**2018-19**	**2019-20**
Total Revenue	30,071	30,117	30,804	30,856	31,290
Total Expenditure	27,068	27,050	27,499	28,009	28,575
Net Income	**3,003**	**3,067**	**3,305**	**2,847**	**2,715**

Further detail can be found in the Financial Budget contained in this plan.

*Forecasts represent the submission through 2017–18 Program Review, Renewal & Transformation (PRRT) process to the Treasury Board. Subject to Treasury Board approval. Note that as part of the 2016–17 PRRT process, Treasury Board disallowed the OFA request for a two per cent inflationary increase in its budgeted allocations for the out years.

MANDATE AND GOVERNING LEGISLATION

The Ontario Financing Authority (OFA) is a Provincial Crown agency established by the *Capital Investment Plan Act, 1993* (CIPA). CIPA sets out the objectives of the OFA. The OFA:

- conducts borrowing and investment for the Province of Ontario and manages the Provincial debt;
- provides cash management and other financial services for the Province;
- advises ministries, Crown agencies, and other public bodies on financial matters; and
- assists Crown agencies and other public bodies to borrow and invest money through external sources or through the OFA.

The OFA also provides a broad range of financial services to Ontario Electricity Financial Corporation (OEFC) and Ontario Infrastructure and Lands Corporation (Infrastructure Ontario or OILC).

The FAA also sets out certain financial powers which OFA employees exercise on behalf of the Minister of Finance to carry out the Province's borrowing, manage the Province's debt and invest its liquid reserves.

OVERVIEW OF CURRENT AND FUTURE PROGRAM AND ACTIVITIES AND IMPLEMENTATION PLAN: 2017–20

Activities will focus on supporting the following strategic directions:

1. *Execute the Province's borrowing program*

Overview

The OFA endeavours to ensure that borrowing by the Province and OEFC is cost-effective. Total long-term public borrowing is forecast at $23.3 billion in 2017–18 and $28.7 billion in 2018–19. This year's objectives may be challenging to implement due to the state of the global economy/market and the resource constraints within which the OFA is operating. Furthermore, borrowing blackouts can limit the amount of time in which the OFA can access the market. This may require borrowing in excess of $3 billion per month when these blackouts are not in effect in order to complete the annual borrowing requirement. Other challenges include:

- continued high amount of borrowing required for the Province, including the amount that will have to be undertaken outside Canada;
- competition in the markets from other large domestic and international borrowers;
- evolving regulatory requirements such as Basel III, Dodd-Frank and EMIR that continue to make hedging of foreign debt more expensive and a challenge to execute in the size required by the Province;
- potential challenges for Ontario's credit rating. A downgrade may result in borrowing costs increasing; and
- management of downgrading or failure of counterparties, and continued implementation of collateralized swaps to mitigate credit risk.

Implementation Plan

- Develop the annual Financing, Debt & Electricity Management Plans for OFA Board approval and transmission to the Minister. These plans provide detail on the borrowing program, including term structure and diversification objectives, as well as investor relations, liquidity, floating rate, foreign exchange and credit risk strategies, and also outline major risks and risk mitigation strategies.
- Meet the Province's funding requirements, anticipated to average about $25 billion annually for the business plan period, in a cost-effective and prudent manner.
- Manage the Ontario Savings Bond campaign.
- Continue to monitor the Green Bond market to identify future issuance opportunities under its Green Bond Program.

2. *Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook*

Overview

The OFA manages the debt and liquid reserve portfolios, as well as centralized/segregated investment funds, for various public bodies, and jointly manages the Ontario Nuclear Funds with OPG. Financial risks associated with capital market activities are mitigated by adhering to prudent risk management policies which minimize financial risk by ensuring exposures and losses remain within approved limits. Risk management policies and program exposure limits are approved by the OFA Board of Directors. The OFA also contributes interest on debt, borrowing and debt management objectives, and electricity sector fiscal impact projections to the Budget, Fall Statement and other quarterly financial updates.

Implementation Plan

- Generate savings from liquid reserve investment activities within prudent risk exposure limits, as well as centralized/segregated investment funds, for various public bodies. Manage ONFA-related investments, working together with OPG.
- Ensure interest rate, foreign exchange and credit exposures are within approved policy limits.
- Contribute to the Province's annual Budget, Fall Statement and quarterly finances, including the electricity sector outlook; advise on the potential impact of initiatives on interest on debt, borrowing objectives, credit ratings and financial markets' reactions. Continue playing an important role in the development of the Province's annual Budget and quarterly statements through the provision of timely and accurate financial information, and preparation of the Borrowing and Debt Management section of the Budget and Fall Statement.
- Continue with the implementation of the new methodology based on assessing individual debt issues by tenor, to measure the performance of the borrowing program.
- Continue to implement applicable changes as per financial and regulatory reform requirements including evolving effects from Basel III, EMIR and Dodd-Frank. These regulations are expected to continue to make the OFA's hedging process more complex. Hedging may also continue to become more expensive if proposals such as financial transaction taxes or mark-to-market derivatives taxes are legislated and implemented in Europe or the United States.

3. *Manage key financial relationships*

Overview

The OFA ensures investors and the financial community in Canada and abroad receive financial updates on a timely basis to make informed decisions about Province of Ontario debt securities. Investor Relations activities support borrowing program objectives by maintaining and broadening the Province's investor base. The OFA also ensures credit rating agencies understand government policies, budget, and fiscal performance, properly reflecting these factors in their reports and rating decisions.

The OFA manages the government's relationships with financial institutions, primarily the major Canadian and global banks, their investment dealer subsidiaries, and custodial and fiscal agents. This involves the acquisition and oversight of cost-effective products and services for the Province and certain Crown corporations.

Implementation Plan

- Support the Province's borrowing program by building and maintaining relationships with investors in existing and new markets. Provide Investor Relations information products, including updates to the OFA website, on a timely basis.
- Maintain close relationships and ongoing dialogue with credit rating agencies to keep them informed of the Province's financial status, priorities, and initiatives.
- Manage Ontario's relationships with banks, financial service providers and investment dealers.
- Complete regulatory filings with the U.S. Securities & Exchange Commission (SEC), United Kingdom Listing Authority (UKLA), Luxembourg Stock Exchange (LuxSE), Australian Securities Exchange (ASX) and any other applicable securities regulator. Conduct due diligence conference calls, as required, with the dealers and underwriters of the Province's debt securities offerings and their legal counsel.
- Implement and maintain collateralized swap agreements with bank counterparties to limit potential financial losses as a result of a credit event.

- Manage changes in financial and regulatory reform, liaising with regulators and legal counsel, as required.

4. *Provide services related to cash management, banking, settlement, payment and financial and reporting*

Overview

The OFA provides centralized banking and cash management services to the Province. The effective provision of these services allows for the efficient delivery of provincial services and contributes towards minimizing interest on debt expenditures. The OFA is responsible for settlements, payments and accounting/reporting functions associated with the Province's and OEFC's debt management programs, as well as agency financial reporting.

Implementation Plan

- Identify and implement effective treasury solutions for the Province and client agencies.
- Ensure that the Province has sufficient cash available at all times to meet its financial obligations.
- While compliance with PCI Data Security Standards is now in its sustainment phase, the OFA will continue to work with the other OPS stakeholders and the credit/debit card acquirer to ensure that the mandatory external reviews continue to report that that Province is in compliance with all applicable PCI standards.
- Continue to work with American Express and TD Merchant Services, the Province's card acquirer, to explore options for the continued acceptance of American Express cards via the acquirer's existing systems for Visa and MasterCard. The new arrangement would enable Amex cards to be used to obtain Provincial goods and services in a way that mitigates risk and increases efficiency for the Province.
- After the completion of a successful pilot, continue to work with the Ministry of Community and Social Services on the rollout of a reloadable payment card for unbanked benefit recipients under the Ontario Disability Support Program.
- Continue to advise ministries and agencies on the banking and cash management components of government initiatives including modernization and suitable banking options, as well as associated legal and regulatory aspects.
- Continue to collaborate with industry associations and provincial and federal jurisdictions on modernization initiatives and issues unique to the public sector.
- Continue the delivery of timely and accurate settlement/payment services for the Province and OEFC, including OEFC power supply contract settlements.
- Continue to work on the replacement of the Public Bodies Financing System with a new, internally developed/externally sourced system capable of handling all loans issued by the OFA and the Province. Progress is expected to proceed according to schedule and it is anticipated that the new system will be operational in 2017–18.
- Continue to work with the Ontario Pension Board, MOF Income Security and Pension Policy Division and TBS on the first phase of regularizing the management of various pension plans whose assets reside in the Consolidated Revenue Fund. The first phase is aimed at transferring the regulated portion of the assets of the Judges' Pension Plan to the IMCO generating annualized savings estimated to be $15 million.
- Work with the Office of the Provincial Controller and OPG to develop options to address the potential under PSAB for Public Accounts consolidation adjustment impacts from OPG and Hydro One results under the International Financial Reporting Standards.
- Provide timely and reliable net debt and total debt estimates for the 2017 Annual Budget and the Province's quarterly reports during the fiscal year including the Fall Economic Statement.

- Continue to provide timely and accurate financial reporting for the Province on debt, derivatives and investments. Continue to provide timely and accurate agency financial statements that pass scrutiny of the OFA Board and the Office of the Auditor General.
- Continue to work with the Office of the Provincial Controller on providing value-added feedback on Chapter 2 of the Annual Report of the Auditor General of Ontario that deals with Ontario's Public Accounts.
- Continue to monitor and assess any new accounting developments of the International Accounting Standards Board, the Financial Accounting Standards Board in the U.S., the Accounting Standards Board and the PSAB of the Chartered Professional Accountants of Canada that affect reporting for the Province and its agencies.
- Continue to work with Deloitte Inc. in consulting with the accounting and borrowing communities of the other provinces towards providing PSAB with concerns expressed by these jurisdictions and Ontario. Also with Deloitte Inc., collaborate on developing options that address the provinces' concerns. Continue to liaise with the Office of the Provincial Controller and, where required, the Office of the Auditor General of Ontario in communicating with PSAB.

5. *Advise on and implement corporate and electricity finance projects and policies*

Overview

The OFA provides financial modelling, analysis and advice to the Ministry of Finance, other ministries, OEFC, Crown agencies, and other public bodies, on financial policies and projects, electricity sector policies and initiatives, and borrowing from capital markets. The OFA also provides assistance in structuring and completing financial transactions, and securing and using private sector financial advisers. The OFA has been leading the implementation of the Trillium Trust and will also continue to work with the Ministry of Finance, other ministries, and Infrastructure Ontario on on-going asset optimization initiatives, including unlocking the value of certain real estate assets. The OFA is providing analysis and support as the Province moves forward in selling up to 60 per cent of its shares of Hydro One over time.

The OFA will also continue to support and facilitate the implementation of a number of other government initiatives, including the Cap and Trade Program and investing in Ontario's venture capital sector.

Implementation Plan

- Provide analysis and advice on business cases and other financing proposals. Develop the structure and negotiate the detailed terms and conditions of transactions to minimize costs and best meet market expectations.
- Provide advice on cost-effective borrowing, investing and risk management by public bodies.
- Provide advice on transactions requiring a provincial guarantee or those that may otherwise increase the indebtedness or contingent liabilities of Ontario.
- Develop interest rate and other borrowing, investing and risk management policies, and advise ministries, agencies and public bodies on interest rates and other financing issues.
- Support initiatives for Ontario's various industry sectors.
- Provide continued support for the government initiative on OFA loans to public bodies.
- Provide support to the government on Ministry of Finance loans and loan guarantees as required.
- Continue to provide advice to ministries, Crown agencies and other public bodies on financing, loan structuring and credit enhancement strategies.
- Provide advice as required on evaluating the Province's assets, including investments in its business enterprises, and analysis and advice on asset optimization to enhance efficiency and maximize value.

- Provide policy and financial analysis, and modelling support, as required, for electricity policies and initiatives that could have fiscal, financial and/or economic implications for the Province and/or OEFC, including the following:
  - *The Ontario Rebate for Electricity Consumers Act, 2016.*
  - Ongoing implementation of the Industrial Electricity Incentive program.
  - Ongoing implementation of the NIER program.
  - Expanding the Industrial Conservation Initiative.
  - Electricity supply and conservation initiatives.
- Provide financial due diligence and advice to the Minister of Finance on applications received under the ALGP.
- Monitor and provide electricity sector fiscal and financial projections for the Province and OEFC, including analysis and advice to the Minister of Finance on the stranded debt, as well as continued reporting on OEFC's revenue sources (e.g. the debt retirement charge (DRC) for non-residential users, now legislated to end on April 1, 2018, and payments in lieu of taxes) and expenses (e.g. interest on debt).
- Provide analysis and advice to support the effective administration of ONFA and other initiatives related to nuclear liabilities, including monitoring and reviewing OPG's implementation of its ONFA Reference Plan as updated from time-to-time, approval of yearly ONFA budgets including investment related expenses, reviewing OPG's expected financial guarantee submission to the CNSC expected in 2017, including reviewing, monitoring, and seeking approval on any implications on a Provincial guarantee to the CNSC, as provided for under ONFA.
- Provide analysis and advice on nuclear supply, financing and cost recovery issues, including for nuclear refurbishments.
- Continue to monitor, review and support policy discussions on developing the Ring-of-Fire.
- Continue to work closely with staff at the MRIS and OCGC on approaches for managing the Province's investment in the Ontario venture capital sector. Support the CEO's role as Vice Chair of the OCGC Board.
- Provide analysis and due diligence related to Jobs and Prosperity Fund applications and relevant Eastern Ontario Development Fund and Southwestern Ontario Development Fund applications.
- Continue to support the government's asset optimization initiative of broadening the ownership of Hydro One by providing financial analysis and advice, and dedication of net revenue gains from these transactions to the Trillium Trust to support investments in infrastructure.
- Provide coordination and oversight of certain real estate asset optimization initiatives, such as, the divestment of OPG's head office properties, and Seaton and Lakeview lands.
- Lead implementation of the Trillium Trust to help support investments in transit, transportation and other priority infrastructure.

6. *Ensure the successful activation of OFA's decentralized Business Continuity Plan (BCP).*

Overview

The BCP remains in place and is updated as required to be successfully activated so staff can complete critical time-sensitive tasks in the event of a business disruption.

Implementation Plan

- Review and update the Corporate BCP Framework.
- Review and update Business Unit plans.
- Plan and conduct corporate-wide BCP test exercises.

- Review corporate BCP Command and Support Team membership.

Implementation of the above strategic directions will require regulatory compliance and reliable information technology.

Risk Identification, Assessment, Mitigation Strategies

The following section identifies potential risks that could impact the entire organization in its ability to successfully deliver its programs and activities on behalf of the Province.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Risk Category: STRATEGIC **RISK AREA: Strategic:** Risks related to implementing (or not implementing) new policies or changes to existing policies (e.g., misalignment of agency policies with those of the OPS). The risk that strategies and policies will fail to achieve required/targeted results. The risk of failing to provide value for money or cost-effectiveness. This can include existing policies that may be affected by changes in external factors including the economy, technology and political environment.					
Strategic/ Policy Risk Primary Accountability: Capital Markets Division	Strategies and policies fail to achieve required results. Prime examples are failing to meet the borrowing requirements and failures in implementing core risk management strategies.	LOW Past experience indicates that the likelihood of major strategic failures is relatively **low** as they cannot always be eliminated. There are elements of borrowing and risk management which are outside the Province's control which can negatively impact required results. For example, financial conditions could result in higher interest costs or interest rate risk than anticipated or refinancing risk in future years may be much higher than desired if investor demand for longer term bonds is substantially reduced.	EXTREMELY HIGH The financial consequences of strategic failures in borrowing or risk management strategies and associated policies can be **extremely high**, and the annual Financing, Debt & Electricity Management Plan outlines strategies which attempt to address the challenges, including contingencies for unexpected events. In addition, management monitors major market and policy developments throughout the year very closely and will develop and implement new strategies and policies if conditions warrant. Even though the likelihood of major strategic failures is low, the impact remains extremely high resulting in an overall high risk assessment.	HIGH	Strategic plans and policies to mitigate strategic and policy risk are initially developed and implemented in a thorough manner as outlined in the OFA's annual Financing, Debt & Electricity Management Plan ("the Plan"). This includes an analysis of risk factors and contingency plans. The Plan is approved by the respective Boards (OFA and OEFC) and receives input from Board members. Market conditions and policy developments are monitored on a continual basis throughout the year to identify new and emerging developments which could impact strategic and/or policy risks. Existing control strategies are modified as required to mitigate adverse developments. Procedures are in place to ensure that staff are aware of relevant policies. Policy violations are rare, and a robust control framework exists to identify violations quickly. Most violations would not have a large enough impact to threaten achieving required strategic results.
Meeting stakeholder expectations	The risk that the OFA may fail to meet stakeholder expectations, including those of the Province and other public bodies.	MEDIUM There is a **medium** likelihood of failure to meet stakeholder expectations and performance	EXTREMELY HIGH Given that the impact of not meeting stakeholder expectations can be **extremely high**, combined with a	HIGH	An analysis of risk factors and contingencies is included in the OFA's annual Financing, Debt & Electricity Management Plan. This analysis is revisited throughout the year.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Primary Accountability: Capital Markets Division	Stakeholder expectations include strategic/policy risk factors as well as the risk of failing to meet performance benchmarks.	benchmarks. Market factors tend to be relatively unpredictable and many factors are out of OFA's control. The current environment of expanding service requirements and constrained resources adds some risk; however, it is expected to be minimal. Based on past experience, it is expected that most stakeholder expectations will be met.	medium likelihood the net result is a high risk assessment. The impact of a one percentage point increase in yields was estimated to be $350 million for 2016–17. Although the OFA has been able to extend the borrowing term in recent years, interest rate risk will remain elevated for several years. Continuous communication with the Deputy Minister and Minister ensures that expectations for the Province are clearly understood. Commitments are made after thorough and careful analysis to ensure that resources and expertise are in place to meet those expectations. Close and continuous communication and meetings with relevant public bodies (e.g. Agencies) who use our services ensures that expectations and service requirements are clearly understood. In addition, formal service level agreements (e.g. investment management agreements) have been developed which clearly outline the services and benchmark performance standards.		Given the relatively unpredictable nature of market factors, ongoing monitoring of market and policy factors provides a level of risk mitigation. Continuous dialogue with stakeholders and regular reporting are also useful in keeping abreast of both expectations and performance. Emerging issues which may affect expectations are identified and are regularly reported to the Deputy/Chair as well as the Board (OFA and OEFC). This provides greater assurance that expectations will be met or managed through approved mitigation strategies. Meeting performance benchmarks for the Province and other public bodies also depends on adequate resources being available to maximize performance. This includes information systems services, and most importantly, staff. A highly educated and experienced workforce provides a higher likelihood that stakeholder expectations will be met. The OFA works to attract and retain highly qualified staff.
Public image Primary Accountability:	The risk that the OFA may damage its reputation with stakeholders and third party service providers.	LOW The likelihood of reputational risk to the OFA is **low.**	HIGH The impact of image problems can be **high** which combined with a low	MEDIUM	Public image risk is mitigated through a host of strategies: i) a strong policy framework to provide greater information to staff to make them aware of potential public image problems; ii) strong internal controls to reduce the risk of policy violations and

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Capital Markets Division		There are extensive policies to govern staff conduct including, with respect to conflicts of interest, procurement and workplace harassment. In addition, procedures are in place to ensure that staff are aware of all policies. There are also regular reporting requirements and internal controls to reduce the potential for policy violations. Dealings with the press are handled through official MOF communication staff and investor and other stakeholder information is handled with extreme care. Accordingly, the likelihood of reputational risk problems with stakeholders and service providers is **low**, although mistakes can happen and there are certain factors which the OFA cannot control.	likelihood results in an overall medium risk assessment.		adverse information releases; iii) public communication protocols to reduce the risk of incorrect and damaging information releases; iv) an investor relations program which is responsive to investor needs and responds to investor requests for information promptly; v) ongoing dialogue with dealers to keep abreast of information in the marketplace relating to both Ontario and the OFA; and vi) a management structure and culture which promotes security of information and extreme care in disclosing information in a public forum. Strategies iii-v involve constant communication with external stakeholders. This feedback loop provides the OFA with a method of assessing the organization's public image. The OFA has a comprehensive procurement policy that ensures that its suppliers and service providers are selected in a fair manner. When appropriate, the OFA requires that service providers obtain security clearance. OFA contracts with service providers address confidentiality and contract precedents generally require approval before a contractor may use its association with the OFA for any purpose. All substantive contracts that Capital Markets enters into in the name of the OFA must be reviewed by the OFA Legal Branch. All substantive contracts that Capital Markets enters into in the name of the Province, must be reviewed by MOF Legal.
Quality of relationship with stakeholders	The risk that the OFA's stakeholder relationships are poorly managed.	LOW The likelihood of failure managing OFA's stakeholder relationships is	HIGH The quality of the business relationships with stakeholders that the OFA is	MEDIUM	The OFA provides relevant, non-confidential information to investors in a fair and transparent manner, including information pertaining to the Budget and quarterly finances. Confidential information is handled in a manner consistent with laws and regulations, such as the *Public*

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Primary Accountability: Capital Markets Division		**low** as the OFA strives to deal with all of its stakeholders in a fair, transparent and responsive manner.	engaged in such as investors, credit rating agencies, dealers and employees can have a high impact on the success and cost of OFA activities. However, the likelihood of failure in these activities is relatively **low** which results in an overall medium risk assessment.		*Services Ontario Act, 2006* and the *Securities Act, 1990*. The annual Investor Relations Plan is developed each year with the goal of providing updates to investors, both domestic and international, on a regular basis through outreach and information products. Requests for information or meetings from investors are responded to very promptly. The quality of the Province's relationships with stakeholders is constantly monitored. Should the strategies in the annual Investor Relations Plan fail to achieve the desired relationship levels, the OFA can choose to engage additional financial dealers or more senior Ministry of Finance representatives to participate in its investor outreach activities. Dealers are utilized in a fair and objective manner for bond issues. A syndicate evaluation is used to rank domestic dealers objectively, and commissions for domestic bond issues are based on this annual evaluation. Dealers thus know the OFA's service priorities and understand their bond issue allocations for the year. International issues also utilize dealers based on their level of service and strengths they bring to particular markets and issuance opportunities. The OFA continuously communicates with its dealers and also has regular meetings with them, and thus relationship issues tend to be dealt with quickly. Given the high importance of Ontario's credit ratings to its borrowing program, the OFA has very well established relationships with the credit ratings agencies. The OFA has regular meetings with the agencies, responds promptly to requests for information, and facilitates participation of more specialized or senior government officials as required.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Risk Category: ACCOUNTABILITY / GOVERNANCE **Governance/ Accountability/ Organizational Risk**: Risk that the organizational structure, accountabilities or responsibilities are not defined, designed, communicated or implemented to meet the organization's objectives, and/or that culture and management commitments do not support the formal structures. Risk of conflict of interest for board members. Inadequate ethics / codes of conduct. Inadequate definitions of roles and responsibilities. Risk of failure to comply with administrative requirements, such as directives. **Legal/ Contractual Compliance Risk:** Risk related to the potential cost of complying with a contractual agreement, or of litigation (including established policy and procedure) against the agency or government. Risk that a government initiative or action will contravene a contract, Memorandum of Understanding or policy. The costs/risks related to changing legislation could include lawsuits, settlements, fines, penalties and legal fees. Risk of failure to comply with administrative requirements such as directives.					
Governance, Information and Regulatory Compliance Primary Accountability: Finance and Treasury Division	The risk that oversight and governance responsibilities are not clearly defined; the risk that internal and external information produced or used is incomplete, out-of-date, inaccurate, irrelevant or inappropriately disclosed.	LOW The likelihood of failing in this area is **low**. Various policies and procedures define roles and responsibilities required for effective governance, including oversight by the OFA Board, chaired by the Deputy Minister of Finance, and largely comprised of independent, external members; and reporting requirements to the Minister of Finance. Furthermore, the audits by Internal Audit Division that cycle over all major functions of the OFA include a review of the associated policies and procedures and to date no material gaps have been identified. All audit recommendations are presented to the OFA ARMC and addressed within reasonable timeframes.	HIGH The impact of failing in this area is **high;** however, combined with the low likelihood of this happening results in a medium risk assessment	MEDIUM	Regular and special meetings of the OFA Board and its Committees, comprised of the Audit and Risk Management Committee (ARMC), Human Resources and Governance Committee (HRGC) and the ONFA Investment Committees (ONFA IC). The Deputy Minister of Finance is, pursuant to CIPA, the Chair of the OFA Board, which establishes a clear governance framework for OFA management and accountability to the Minister of Finance. The OFA uses secure communication procedures with internal and external parties; it also undertakes effective oversight of service providers, reconciliation processes, stringent disclosure policies, staff learning and development, and timely filing of regulatory reports.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Risk and issue management Primary Accountability: Risk Control Division Secondary Accountability: Finance and Treasury Division	The risk that the OFA may not effectively manage and mitigate financial risks including fraud risk.	LOW A review process established at the OFA that includes daily compliance monitoring, division of responsibilities, and a highly-developed and rehearsed response plan for emergencies results in a **low** likelihood.	EXTREMELY HIGH The OFA is a major participant in capital markets and has extensive dealings with banks on behalf of the Ontario government. As a result, the potential impact for errors and omissions is **extremely high** given the associated high dollar value. The extensive mitigation strategies employed by the OFA however, reduce the overall assessed risk to Medium.	MEDIUM	Financial risks associated with the OFA capital market activities are managed through the OFA risk management framework, which includes policies that are updated, reviewed by the Ontario Internal Audit Division and approved by the Board on an annual basis. Compliance with policies is monitored through a daily reporting cycle including where applicable on a real time basis, and credit risks are also monitored in real time. Fraud: Division of responsibilities between divisions to create a separate front, middle and back office for capital markets transactions and appropriate separation of duties and signing authorizations within divisions reduce risk of fraud. All staff is encouraged to report any wrongdoing at all times and senior management is asked to confirm quarterly whether they are aware of any wrongdoing. Issues management: In addition to a monthly Capital Markets update letter, the CEO also reports on any issues or concerns quarterly to the Board and has regular meetings with the Chair. Division Heads/Directors report quarterly to the Board on their area's progress in achieving the objectives identified under the Annual Business Plan. The OFA's financial statements are prepared and presented on a quarterly basis to the ARMC and the Board. They are also shared with senior staff of the Office of the Auditor General. The OFA provides the interest-on-debt, debt and derivative information that is presented in the Public Accounts of the Province. The numbers and the process including the

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
					underlying internal controls are audited annually by the Office of the Auditor General. Up to now, no material issues have been identified as part of this audit. OFA prepares issues notes, and feeds into the Ministry's communications branch for issues management and to address contentious issues. The Ontario Internal Audit Division develops a three year audit plan for the OFA that is updated annually. Audits under this plan, as well as special reviews as and when required provide an overall comfort level. The ARMC conducts in camera sessions with internal audit, staff of the Office of the Auditor General and the OFA's Chief Financial and Risk Officer at each quarterly meeting during which they are free to candidly raise any concerns about overall risk and issues management issues at the OFA. To avoid financial risk resulting from an inability to function during an emergency, the OFA has a highly-developed and rehearsed response plan for emergencies, addressing key risks such as fire, terrorist attack, pandemic or other threat. The work of the OFA can be carried out with all staff working from home. The OFA also maintains a collocate site at a remote location that houses a continuously available, mirrored IT infrastructure. Staff are subject to randomly declared, OFA-wide, work-from-home drills at least annually. OIAD reviews and comments on business continuity test results.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Statutory requirements are met Primary Accountability: Legal Division	Risk of non-compliance with statutory requirements	LOW The likelihood of non-compliance is considered **low** because OFA staff have experience and awareness regarding legal compliance in relation to the performance of their jobs. While regulation in some areas (such as in capital markets and the banking and payment card industry) is complex and continues to evolve, program areas have ready access to legal advice.	HIGH Impact is considered **high** since failure to comply with a statutory requirement could negatively affect the reputation of the OFA and the Government. Also, violations relating to capital markets operations could have serious financial implications. Combined with a **low** likelihood, the resulting overall risk assessment is medium.	MEDIUM	Currently, the OFA and Ministry of Finance Legal Branches advise of statutory requirements and changes affecting OFA operations and also are available to advise on steps to effectively address any non-compliance. Information on legal requirements relating to Public Servants is distributed to staff using the Policy and Procedure Management system. Non-compliance with laws, regulations and directives is reported to the Legal Director, who reports it to the CEO and the Board of Directors. CEO/Board direct remedial action (which may include learning and development). Education is encouraged and Divisions budget for necessary learning.
Reliability of financial systems Primary Accountability: Finance and Treasury Division	The risk that the OFA's financial information and reporting system is not reliable or fails to meet quality standards.	LOW The review process that the OFA has established including audits by the Internal Audit Division and the Office of Auditor General of Ontario ensures that the likelihood of occurrence is **low**.	HIGH While the impact of less than reliable financial information is indeed **high**, the low likelihood of this happening results in an overall medium risk assessment.	MEDIUM	The OFA has well-established processes and procedures for monitoring and reporting on its financial performance to its ARMC and Board of Directors and to the ministry as well as the Office of the Treasury Board. OFA financials are prepared on a quarterly basis for discussion, and shared with the staff of the Office of the Auditor General and approval by the ARMC and Board of Directors. In addition the OFA financials are audited annually by the Office of the Auditor General who has provided unqualified opinions on all past financials. Staff of the Office of the Auditor General also audit, on an annual basis, the OFA's work on the Province's debt and interest on debt. This annual audit includes reviewing the underlying systems and internal controls. Up to now, no material issues have been identified and the OFA has implemented all recommendations arising from this audit. Changes to accounting pronouncements are also addressed during the quarterly discussions with the ARMC and

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
					the Office of the Auditor General. Annual budgets and audited financials are submitted to the Ministry as per TBS requirements. A further level of assurance exists as a result of the work carried out by the Ontario Internal Audit Division (OIAD). OIAD develops a 3 year audit plan with consultation from Division heads and all finding and recommendations are presented to the Audit and Risk Management Committee of the OFA Board. The OFA's progress in implementing recommendations are also presented on a quarterly basis to the same committee.
Debt and Risk Management Risk Category: OPERATIONAL **RISK AREA:** Program Caseload/ Utilization: Change in demand for services or entitlements or increased claims/case load that can be deferred. Assumes no policy or legislative changes.					
An economic slowdown straining the fiscal plan, thus affecting the borrowing program. Primary Accountability: Capital Markets Division	Fiscal strain stemming from a significant economic slowdown would likely result in higher borrowing requirements. This could be experienced as much larger borrowing requirements over a fairly short time horizon or consistently higher requirements over a longer time period.	MEDIUM The possibility of a major downturn in economic activity or longer term slow economic growth is given a **medium** likelihood due the historical frequency of such events. The last recession was approximately eight years ago. Since then, the Ontario economy has had only modest growth in recent years, with MOF projections showing a continued trend of low to medium economic growth.	HIGH The impact on the borrowing program will depend in part on the extent of the economic slowdown. A large economic slowdown, perhaps a recession, would have a large impact on the borrowing program over a couple of years, but persistent sub-par growth would also be painful. The impact of a one percentage point change in nominal GDP was estimated to be $890 million for 2016-17. The world economy is currently highly reliant on U.S. economic growth and would be at risk if that fades. Given that Ontario's borrowing requirements are already quite large, the impact	HIGH	The Capital Markets Division is in constant contact with external economic experts who provide forecasts and analysis on the Province's economy as well as other major economies around the globe (including Canada's). In addition, the OFA is provided with a wealth of forecasts and economic insight from the Ministry of Finance. The OFA undertakes its borrowing strategically to reduce the effects of forecasted events and also looks to pre-borrowing to the extent possible. The OFA can also engage third party experts to provide advice on how to reduce any adverse events that may have an impact on the borrowing program.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
			would likely be high, meaning that interest costs could increase appreciably. One result could be a reduced average term of borrowing to reduce borrowing costs or respond to reduced demand for longer term debt which would increase refinancing and floating rate risk. There could also be pressure to increase foreign exchange or counterparty credit exposures in order to reduce costs. The overall assessment of this risk is **high**.		
Financial market risk Primary Accountability: Risk Control Division	Higher-than- forecast borrowing requirement and/or interest rates, resulting in higher annual interest-on-debt (IOD) charges. Financial loss attributable to changes in interest rates, credit spreads, foreign exchange and liquidity risk.	MEDIUM Higher-than- forecast borrowing requirement and/or interest rates is given a **medium** likelihood due the historical frequency of interest rate changes, and the current medium-term forecast of provincial borrowing requirements.	HIGH The size of the province's annual borrowing requirement creates a **high** degree of sensitivity to market conditions, especially interest rates. IOD has generally produced cost savings compared to budget forecasts due to cost effective debt management, as well as interest rates that have been trending down for about 35 years. This experience may not be expected to continue, so financial market risk is assessed as being high. In the *2016 Budget,* it was estimated that a one percentage point increase in interest rates would have impacted IOD by approximately $350 million for 2016–17.	HIGH	Sound and effective risk management infrastructure, including policies, procedures, risk management reporting, and Information Technology (IT) systems. The OFA uses a conservative risk limited approach to forecasting interest on debt expenses. This is achieved by using interest rate forecasts provided by the Office of Economic Policy for the two out years and a 15 year interest rate average for the third out year. Accurately measure and assess portfolio exposures and ensure compliance with the related limits as approved by the Board, including foreign exchange and net interest rate resetting exposure limits and IOD. Maximum foreign exchange exposure of five per cent. Maximum net interest rate resetting exposure of 35 per cent. Maximum loss policy on IOD of three per cent of budgeted IOD. The OFA has reduced the sensitivity of IOD to interest rates by extending the term of recent borrowings. It also maintains

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
					exposure to foreign currency at levels far below the five per cent limit. While the policy limit for net interest rate resetting exposure is 35 per cent, the annual debt management plan sets out ranges that are usually considerably lower thus further limiting the risk.
Inability to complete the borrowing program due to market breakdown or loss of faith in the Province's ability to repay debt Primary Accountability: Capital Markets Division	Unable to achieve the borrowing program target of a particular fiscal year.	LOW The likelihood of not completing the borrowing program is **low** and would be based on a major market disruption or a major adverse credit situation at the Province. Both events are considered to have a low likelihood.	EXTREMELY HIGH The consequences of a major market disruption or a major adverse credit situation at the Province would obviously be **extremely high**, and thus overall risk is high.	HIGH	The OFA continually monitors demand for its bonds and has a strong relationship with its financial dealers. The OFA is aware, through external forecasts, Ministry of Finance advice, and its own analysis of bond markets, of the faith investors place in its bond offerings. The Capital Markets Division employs financial strategies, to reduce the effects of forecasted events. The OFA can also engage third party experts to provide advice on how to reduce any adverse events that may have an impact on the borrowing program. The OFA has very well established relationships with the credit ratings agencies. The OFA has regular meetings with the agencies, responds promptly to request for information, and facilitates participation of more specialized or senior government officials as required.
Risk of credit rating downgrade	Risk that a credit rating downgrade from a major credit rating agency results	MEDIUM	HIGH	HIGH	Maintain close relationships and ongoing dialogue with credit rating agencies to keep them informed of

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Primary Accountability: Risk Control Division	in increased costs to borrowing program and/or reduced market access.	The likelihood of a credit rating downgrade is **medium.** The OFA has regular meetings with the agencies, and is regularly advised of rating agency concerns. Based on regular meetings with agencies and outperformance of its fiscal targets in recent years, the risk of a credit downgrade is not considered to be high, although debt levels remain high.	A credit rating downgrade, could reduce the pool of investors able to buy Government of Ontario bonds. As a worst-case, investors might be forced to sell, creating competition for our primary distribution, therefore resulting in a **high** impact for the Province. Note: This risk is assessed as high. The best mitigating strategy, reducing the size of the provincial deficit, is not a variable that is under the control of the OFA.		the Province's financial status priorities, and initiatives. Diversify funding sources. Increase investor relations activities. Ensure that decision-makers at Queen's Park continue to be mindful of the serious consequences of the Province not meeting or beating its deficit targets.
Credit Risk Primary Accountability: Risk Control Division	Risk that the Province incurs a significant loss because a counterparty does not meet, or defaults, on its obligations to the Province.	LOW The size of Ontario's borrowing program requires the OFA to be open to borrowing opportunities in a variety of currencies. As the OFA has opted to keep currency risk at very low levels, this requires that hedging transactions be entered into with bank counterparties, creating credit risk. A bank default is considered to be a **low** probability event.	HIGH A bank default would be a **high** impact event, however, the assessment is overall medium as a result of the OFA's implementation of a comprehensive mitigation strategy including collateralized swap agreement and limiting transaction to highly rated counterparties.	MEDIUM	Ensure compliance with a sound and effective credit risk management infrastructure, including: an overarching credit risk policy that is reviewed and approved by the OFA Board on an annual basis, transacting with highly rated counterparties, limiting credit exposure concentration, and ongoing monitoring of key indicators of credit and market conditions. The Province will continue to enter into collateralized swap agreements with more of its swap counterparties to limit its credit risk. Such agreements allow the Province to cap its credit risk by requiring counterparties to post collateral when marked-to-market exposures exceed specific thresholds.
Electricity related policy,	Government policy, accounting or regulatory decisions, electricity sector	MEDIUM	MEDIUM	MEDIUM	Provide financial analysis and advice to senior Ministry of Finance officials and government on electricity policy options and initiatives, and maintain

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
price and other risk Primary Accountability: Corporate & Electricity Finance Division	structure, and potential electricity price and market events may have an impact on the financial performance of the Province, including reduced payments to the OEFC from, for example, the Province, Ontario Hydro successor companies and municipal electricity utilities, or price mitigation measures such as the new Ontario Rebate for Electricity Consumers, thus affecting the borrowing program.	The likelihood of this risk is deemed **medium.** The fiscal contributions of the electricity sector can fluctuate for many reasons, including the performance of OPG and Hydro One vs forecast, policy decisions including the timing of Hydro One share sales, regulatory decisions and volatility in electricity demand/prices. Fiscal expenses are largely determined by policy decisions. Volatility and policy change impacts can be both upward and/or downward.	While the electricity sector has a significant fiscal impact, it is not large compared to the total size of the Provincial Budget. In addition, certain fluctuations are within the government's control and borrowing issues should be manageable within the larger envelope of the Province's total borrowing program. Therefore the impact is rated as **medium**, leading to an overall medium assessment.		relationships and work with other ministries and agencies. Monthly meetings, and as needed, with OPG to monitor and report on financial performance and updated projections versus plan, as well as monitoring of policy, accounting and regulatory issues that may have fiscal implications upon consolidation of OPG and Hydro One in Public Accounts.
Operational, including systems, internal control and reputation risks Primary Accountability: Strategic Corporate Services Division	Risk from inadequate or failed internal processes and IT systems or from external events. The possibility that internal controls may not safeguard assets or prevent errors or fraud. The risk that negative publicity about the OFA's business practices may lead to financial or reputation costs or litigation.	LOW The likelihood of this risk is deemed **low**. The OFA's mandate and operations in a capital markets environment requires the extensive use of information technology. The fact that the OFA's mandate has also increased over the past years with no corresponding increase in staff resources has also resulted in a dependence on information technology. While this has allowed for efficiencies, this dependence also gives rise to the risk that IT systems may be poorly specified, operate incorrectly, or that the use of combinations of systems may have unintended consequences.	HIGH The financial impact of such risks could be compounded by harm to the OFA's reputation, therefore its impact is deemed **high.** This risk, reduced by the mitigating strategy, is assessed as medium.	MEDIUM	Maintain state-of-the-art IT systems, conduct daily back up, frequent update and testing of BCP involving remote desktop and co-locate. Appropriate documentation and timely reporting; update financial controls based on best practices; continued involvement of Internal Audit in developing new functions and reviewing existing financial policies; ensure oversight of service providers. As part of its annual audit, the Office of the Auditor General issues recommendations on areas where they feel internal controls can be tightened. Monitor print media to identify OFA-specific issues to protect OFA's reputation. Centralized external communication strategy. Early involvement of legal counsel.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Service providers (e.g. custodians, fiscal agents, banks etc.) Primary Accountability: Finance and Treasury Division	Poor service from existing providers and/or lack of qualified service providers.	LOW The likelihood of this risk is deemed **low.** Service providers are selected through a rigorous competitive process that includes the submission of proposals covering performance standards and measures, followed by consistent internal monitoring of service quality.	MEDIUM Consistent internal monitoring ensures a **medium** impact for a low overall risk assessment.	LOW	All existing service providers provide services under a formal contract. Continue to implement and monitor service level agreements with existing providers. Continue to comply with selection criteria and contract management requirements in OFA procurement policy
Low investment returns or inadequate investment controls on nuclear funds. Primary Accountability: Capital Markets Division	If funds are not properly invested or general financial market returns are low or negative, substantial contributions could be required by one or both of the Province and OPG. In addition, the Province's reputation may be damaged if controls or investment policies deviate from industry best practices.	MEDIUM Prolonged poorer than targeted performance of the nuclear funds over the medium-term is given a **medium** likelihood. The nuclear funds have a very long time horizon and would be expected to have poor returns over some time periods but are required to earn real returns in excess of 3.25 per cent in the long run. The funds have exceeded the 3.25 per cent annualised real return benchmark on average since their inception in 2003, but there is some risk that cumulative average annualised returns may be inadequate in future or that the costs of decommissioning and used fuel disposal could well exceed current projections. Returns will be driven to a large extent by asset allocation and general investment returns in financial	HIGH The financial impact of poor performance could be quite substantial and is rated **high** given the size of the funds, and could result in substantial unexpected contributions from one or both of the Province and OPG. The overall risk assessment is high. Given the current size of the funds, a one percentage point decline in annual performance would equate to $170 million in reduced value for the funds, which could affect future funding requirements. Such loss, however, will not translate dollar-to-dollar on the Province's annual statement of operations at consolidation, as the Province's revenue recognition related to the nuclear funds is based on historical cost, not fair value, and some of the	HIGH	The funds are diversified across asset classes and managers to reduce overall risk. Further diversification is being achieved as the funds move into alternative investments. The funds are also long-lived, and can be adjusted and returns recover over the long term, which result in the recovery of past Provincial contributions to cover investment return shortfalls, if any. In addition, a Statement of Investment Policies and Procedures (SIPP) and Statement of Investment Risk Policies (SIRP) are in place which outline basic policies which to a large extent address many of the risk factors. An extensive asset-liability study is undertaken every five years to attempt to optimize the asset allocation to meet the funds objectives to meet the cost requirements. Significant progress has been made in developing a comprehensive risk management framework which is expected to be implemented in 2017. In addition, the funds are closely monitored by staff and up to the respective Board levels by both the OFA and OPG including, for the OFA, by the ONFA IC. Unfortunately, the risk of sub-par returns cannot be entirely eliminated as it

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
		markets -- e.g., prolonged poor performance in equity returns or a general decline in the financial markets could be a driver of poor performance. Resourcing for the nuclear funds is relatively tight, although it is considered adequate. The likelihood of inadequate controls on the funds is assessed to be low.	impact is also mitigated by OPG's regulatory accounts for the funds related to the Bruce stations, under the Province's current accounting standards. In addition, the reputational impact of underperformance would also be **high**. The overall assessment of inadequate controls is high.		will be largely driven by the future market developments. Decommissioning and waste disposal costs and liability risk surprises are largely mitigated by the quinquennial ONFA Reference Plan update. The contribution schedules can be adjusted following a reference plan update to allow for returns in the funds to help cover liability revisions and past target rate of return shortfalls. The funds are audited on a regular basis which reduces the potential for fraud or other control problems. Staff monitor the funds very closely and are looking for irregularities. In addition, the funds are monitored up to the respective Board levels by both the OFA and OPG. The internal auditors of both OPG and the OFA are also proactive in examining control issues. The funds rely largely on external managers, and efforts are made to select highly professional managers who follow investment industry best practices.
Default on Loans to Public Bodies Primary Accountability: Corporate & Electricity Finance Division	Risk of default by public bodies on OFA loans	LOW Although the OFA has restructured or provided a loan deferral in the past, this has been relatively rare, so an "unlikely" scenario (less than 20 per cent probability) is reasonable, and its likelihood is rated as **low.**	LOW Impact of a default may be "noticeable" and public, but loan write-downs to public bodies that are consolidated on the Province's financial statements would likely not create a fiscal impact, and, therefore, its impact is deemed **low** resulting in an overall low risk assessment.	LOW	Prior due diligence and analysis of debt repayment ability of public bodies on OFA loans. Ensure grant intercept mechanisms continue to be included in loan agreements. Early detection through loan monitoring by line ministry and restructuring of loan repayment terms.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Default on Guarantees under the Aboriginal Loan Guarantee Program (ALGP) Primary Accountability: Corporate & Electricity Finance Division	In the event of a call on an ALGP guarantee arising from a default on the underlying loan, the fiscal impact would be recorded in the fiscal year in which the claim was paid.	LOW Debt service reserve account, ongoing monitoring, bank account controls are in place to mitigate risk of default.	LOW Any default would have a negative fiscal impact on the Province in the year in which the Province paid a claim pursuant to the guarantee. As guarantees are limited to a maximum of $50 million (unless Treasury Board approves an exception), and the average is smaller, the impact is small in the Provincial context. However, there may be a reputational impact for the Province/OFA as well.	LOW	Ongoing monitoring of approved loan guarantees, including project performance and compliance with loan and guarantee agreements.
Increased borrowing to fund loans to public bodies Primary Accountability: Corporate & Electricity Finance Division	Risk of unexpected loans that were not included in the OFA Annual Borrowing and On-Lending Plan.	LOW Over the past five years, only one unanticipated non-school board loan caused the OFA to breach its loan contingency reserve. An “unlikely” rating of less than 20 per cent probability of occurrence is, therefore, prudent, resulting in a **low** likelihood.	LOW In the overall borrowing plan, any unexpected loans would likely not have a “noticeable” effect, as most incremental borrowing is not material in the context of the whole borrowing program and therefore can usually be accommodated. This results in a **low** impact and a low overall risk assessment.	LOW	Ensure there exists an unassigned contingency equal to 10 per cent of forecasted loans to public bodies. Push off less urgent loans for execution in the following fiscal year. For OLG and LCBO, request business updates from Regulatory Agency Oversight Division (RAOD) to identify potential borrowing requirements (e.g. for site expansion); include estimates in Borrowing and On-lending Plan. Where a policy decision is taken requiring the OFA to provide funding for a strategic project, facilitate private sector financing, especially if interest cost savings are only deemed to be minimal.
Government cost constraints	Cost constraints may limit the OFA’s ability to provide services in a timely manner.	MEDIUM While good budgeting process and budget to actual comparison exists,	HIGH If budgetary constraints are severe enough the delivery of core services will	HIGH	Timely budget preparation in accordance with PRRT requirements. The budget preparation process is aimed at allocating resources according to priorities.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Primary Accountability: Finance and Treasury Division		the OFA is not insulated against budgetary constraints. The likelihood is deemed **medium.**	be impacted justifying a **high** impact and high overall risk assessment.		Detailed planning and monitoring to meet priorities within cost constrained environment. Comparison on a quarterly basis between budget and actual to ensure that priorities are being met within approved expenditures. Effective financial management on a year by year basis that ensures minimal variances between budget and actual. The OFA also retains its surplus which can act as a source of funds to meet non salary related expenses upon approval from the Ministry of Finance.
Risk Category: WORKFORCE **RISK AREA**: Workforce: Operational Workforce Risks.					
Employee Fraud Primary Accountability: Finance and Treasury Division	Risk that losses will be incurred because an employee is dishonest.	LOW The likelihood is **low** due to stringent internal controls and systems that cannot be easily circumvented.	MEDIUM The impact is deemed to be **medium** resulting in an overall low risk assessment.	LOW	Continue to communicate code of values and measures for disclosing wrongdoing to OFA staff. Strong system of internal controls, including segregation of duties, which are regularly reviewed by internal auditors as well as the Office of the Auditor General. While no material issues have been identified to date from these audits that essentially cover the full fiscal year, all audit recommendations have been implemented. Detailed and timely exception reporting with managerial oversight.
Human Resource Risk Primary Accountability:	Risk that highly trained and specialized staff will not be available due to resignations, retirements, turnover, inability to hire, lack of skills, illness, etc.	MEDIUM The likelihood is deemed **medium**. The issue has gained traction due to the disparity between pay scales in other agencies and pension funds	EXTREMELY HIGH The impact is deemed **extremely high** resulting in an overall high risk assessment.	HIGH	Hire qualified staff; develop and implement staff retention strategies with assistance from the OFA Board and Human Resources Committee, provide support and training, where feasible provide competitive salary and benefits, foster a good and efficient working environment and a culture that

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Each Hiring Division, with support from the Strategic Corporate Services Division		compared to their OFA counterparts. As a result, overall, the pool of applicants to positions at the OFA has diminished over the past few years. Although most positions have adequate backup and succession planning, there are some areas within the OFA that are tightly staffed and some positions are highly specialized which creates vulnerability. In addition, compensation constraints have limited the ability to adequately replace staff externally at comparable experience and skill levels.			recognizes and rewards merit, set out performance plans and monitor, recognize and value achievements, good communications and teamwork, and implement employee engagement strategies. Offer results-based pay for performance, and a comprehensive and flexible benefits package. Maintain unique compensation structure for A/XOFA positions. At the end of 2016, consistent with OPS compensation, salary increases occurred for certain OFA employees, and the OPS has announced a restructuring of its non-bargaining and management compensation to be implemented over a four-year period. It is too early to tell whether these changes are sufficient to reverse the recent trend of disappointing responses to positions advertised externally and an inability to attract qualified candidates for positions in the A/XOFA classification and others including those requiring accounting designations and specialized formal education in financial engineering and information technology or investment and corporate finance experience.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Risk Category: INFORMATION TECHNOLOGY & INFRASTRUCTURE **RISK AREA:** Information and Information Technology (I & IT): The risk that information produced or used (e.g., performance data) is incomplete, out-of-date, inaccurate, irrelevant or inadequately protected from inappropriate disclosure. Risk that information or other technology (e.g., architecture, hardware, software) does not support business requirements, and/or does not support availability, access, integrity, relevance and security of data. Includes business continuity risk. Risk related to information or technology (e.g. upgrading or replacing of IT systems, etc.) Should include privacy and security risks.					
Privacy and security Primary Accountability: Strategic Corporate Services Division	Risk related to the agency's handling of sensitive/ confidential information on behalf of the government Potential compromise of confidential information or personal data through identity theft, or unauthorized electronic or physical access of information	LOW The risk is considered **low**, as management ensures that staff are cognizant of the importance of information security.	MEDIUM The impact is deemed **medium,** resulting in an overall low risk assessment	LOW	Access to all electronic data requires authentication. Security of electronic and hard copy information is provided by enterprise IT perimeter security solutions, key card locked main doors, safes, and security cameras. Third Party Security Assessment audits are completed on a regular basis, including audits of electronic and physical security. Security policies are also in place and all staff are required to comply. New staff who work on the government's Budget are provided with training on the importance of budget security.
Business continuity Primary Accountability: Strategic Corporate Services Division	Risk that the processes in place to ensure that critical I&IT systems are not available for operation to support business requirements (disaster recovery & business continuity planning)	LOW The risk is considered **low**, as the OFA has a comprehensive Business Continuity Plan (BCP) which is regularly tested.	HIGH The consequences for the OFA not being able to carry out its business, even for one day, would be severe, therefore its impact is deemed **high.** As a result, the OFA maintains a twin of its IT infrastructure in a separate disaster recovery location (DR Site), which reduces the overall assessed risk to medium.	MEDIUM	As part of the OFA BCP, Strategic Corporate Services Division (SCSD) ensures that all critical systems, information and IT infrastructure are highly available and replicated to the OFA's DR Site. Critical production systems are routinely run out of the DR Site in order to verify the system operates properly in the BCP environment. Furthermore, SCSD maintains the technical infrastructure to support the OFA decentralized recovery plan. This includes mobile devices and remote access services. Periodic drills are held to ensure that staff are able to use the OFA's BCP infrastructure in a productive manner.

Risk Element or Classification	Identification of Risk / Risk Description	Likelihood and Rationale	Impact and Rationale	Overall Assessment of Risk Element	Mitigation Strategy
Procurement Primary Accountability: Strategic Corporate Services Division	The procurement process has intensified in the past year causing significant project delays. The workload required to manage the process has not been offset with additional resources, annual budgeting has been impacted as projects timelines are difficult to determine and the organization is challenged to keep pace with changes in technology.	MEDIUM The likelihood is deemed **medium.** The OFA operates within the government procurement framework, adapted to its own unique requirements. The requirement to adhere to complex public sector procurement rules, as set out in the OFA's Procurement Policy has the potential of slowing down urgently needed IT infrastructure, creating a degree of risk. Some streamlining of the process has been carried out, reducing the assessed risk to medium.	MEDIUM The impact is deemed **medium,** resulting in a medium overall risk assessment	MEDIUM	Standardized approval forms and RFX (Request for Information, Proposal or Quotation) precedent templates streamline the procurement process. Establishing Service Level Agreements within the organization to ensure consistent timelines for document review and approvals will help ensure project deadlines are achieved. When project and procurement plans are hindered by lengthy standard procurement process, priorities will be revisited. In some circumstances, CEO approval of an exemption or a different process may be requested, if available.

ENVIRONMENTAL SCAN

Economic Conditions

The economic outlook for Ontario as described below is based on the average private sector view as of January 2017. As with all projections, there are positive and negative risks to the outlook. The most significant immediate risks to the outlook are rising interest rates and uncertainty regarding future U.S. economic policy. For business planning purposes, the OFA recognizes that it may confront increased demands to provide financing and other services.

Ontario's economy continues to grow in an uncertain global economic environment. Ontario real GDP increased 2.5 per cent in 2015. Private-sector forecasters, on average, estimate Ontario real GDP will grow by 2.6 per cent in 2016, 2.3 per cent in 2017, 2.2 per cent in 2018 and 2.0 per cent in 2019. The economic outlook is influenced by external factors, such as U.S. economic growth, oil prices and the Canadian dollar. Steady growth in the U.S. economy, along with the ongoing impacts of a more competitive Canadian dollar and low oil prices, continues to support Ontario's economic growth. Ontario's economy is expected to strengthen as growth broadens across major sectors of the economy, including household spending and exports. The recent increase in interest rates and the uncertainty tied to U.S. trade policy represents a downside risk to the Ontario economic outlook.

The United States is Ontario's largest trading partner, accounting for 80 per cent of the Province's international merchandise exports in 2015. Economic growth in the U.S. strengthened to 2.6 per cent in 2015 after rising by 2.4 per cent in 2014. According to the January 2017 Blue Chip consensus outlook, the U.S. economy is expected to grow by 1.6 per cent in 2016, 2.3 per cent in 2017 and 2.4 per cent in 2018.

The price of WTI (West Texas Intermediate) crude oil fell by over 70 per cent from its June 2014 peak of $108 US per barrel to below $30 US per barrel in early 2016, a reflection of strong supply and weaker global demand. WTI oil prices averaged $43 US per barrel in 2016, down from $49 US per barrel in 2015.The recent agreement between the Organization of the Petroleum Exporting Countries (OPEC) and other oil producers to reduce output has led to a rise in the price of oil. The current private-sector forecast average for the WTI price of oil is $54 US in 2017 – well below levels recorded over the 2010-14 period.

Sharply lower oil prices and diverging monetary policy between Canada and the United States contributed to a depreciation of the Canadian dollar to an average of 78.2 cents US in 2015, down from 90.5 cents US in 2014. The Canadian dollar declined further in 2016, averaging 75.4 cents US. On average, private-sector forecasters expect the Canadian dollar will average 74.5 cents US in 2017.

Ontario`s housing market continued to strengthen in 2016 alongside solid increases in the number of households and incomes. Sales of existing homes and resale prices rose 9.4 per cent and 15 per cent, respectively in 2016. Ontario housing starts also increased in 2016. Private-sector economists expect a soft landing in the Ontario housing market. Home resales and prices are projected to stabilize over the next few years as gradually rising interest rates, historically high valuations and mortgage debt temper healthy demographic-related demand.

There are risks surrounding the housing market outlook. Home price gains in Ontario have outstripped incomes in recent years, fuelling mortgage debt accumulation. As a result, affordability in Ontario's housing market has eroded. Despite historically low mortgage rates, monthly carrying costs are elevated relative to long-term trends. High levels of debt combined with elevated resale prices leave Ontario households potentially vulnerable in the event of an adverse economic shock.

Financial Markets

Moderate economic growth and headline inflation still operating below the 2 per cent target has prompted the Bank of Canada to hold the target overnight rate at 0.5 per cent since mid-2015. For the most part, private-sector economists do not expect the Bank of Canada to raise rates until mid-2018.

In the United States, the Federal Reserve raised rates at its December 2016 meeting, citing a strengthening labour market and rising inflation. It is expected that the Fed will continue to raise rates, though at a gradual pace. On the other hand, monetary policy in the European Union remains highly accommodative. In January, the European Central Bank announced that interest rates will remain unchanged and are expected to stay "at present or lower levels for an extended period of time, and well past the horizon of the net asset purchases."

In Canada, while long-term interest rates are expected to remain at historically low levels, they are projected to gradually rise over the next few years. The expected onset of interest rate hikes by the U.S. Federal Reserve combined with the result of the recent U.S. election has already put upward pressure on Canadian bond yields.

According to private-sector forecasters, the Canadian three-month Treasury bill rate is expected to rise gradually from an average of 0.5 per cent in 2016 to 0.6 per cent in 2017, and 0.9 per cent in 2018. According to the January 2017 Blue Chip consensus outlook, the three-month U.S. Treasury bill rate is expected to average 0.9 per cent in 2017, before rising to 1.6 per cent in 2018.

The 10-year Government of Canada bond rate averaged 1.3 per cent in 2016. According to private-sector forecasters, the 10-year Government of Canada bond rate is projected to rise, averaging 1.9 per cent in 2017 and 2.4 per cent in 2018. According to the Blue Chip consensus outlook, the yield on 10-year U.S. government notes is expected to average 2.7 per cent in 2017 and 3.1 per cent in 2018, up from 1.8 per cent in 2016.

Government Initiatives

Government policy developments and financial performance in Ontario's electricity sector, including OPG, Hydro One and municipal electricity utilities, may affect borrowing requirements through the cash flows to OEFC. In particular, the Province’s ongoing effort to broaden ownership of Hydro One will result in large cash flow impacts for OEFC.

The OFA will continue to monitor the Green Bond market to identify future issuance opportunities under its Green Bond Program. The OFA will lead the implementation of the Trillium Trust, for dedicated net revenue gains from qualifying asset sales to help fund infrastructure investments across Ontario. The OFA will also provide financial support to the Ministry of Environment and Climate Change in respect of the government’s Cap and Trade program, as well as in the establishment of a Greenhouse Gas Reduction Account and a climate change agency.

The OFA will also provide financial analysis and advice in support of the Province’s commitment to unlock the value of designated assets, and will continue to work with Infrastructure Ontario and other areas of government on optimizing certain holdings in the Province’s real estate portfolio, in particular, the sale of OPG headquarter properties, as well as Seaton and Lakeview lands.

Regulatory Compliance

The OFA will ensure that information required to be disclosed by the Province in its debt securities offerings related documents, periodic published reports (including the Ontario Budget, the quarterly finances, the Public Accounts of the Province of Ontario and the annual fall Economic Outlook and Fiscal

Review) and other disclosures filed or submitted under applicable securities legislation, rules and regulations in the United States, the United Kingdom, Luxembourg, Australia, Switzerland and Singapore is filed on time and otherwise in accordance with those requirements. Regulatory requirements will be monitored continually to ensure the Province has ongoing access to these markets.

PERFORMANCE MEASURES

1. Execute the Province's borrowing program

Objective	Performance Measure	Target
a. Complete the borrowing program while ensuring that the Province always has adequate liquidity.	Sufficient liquidity on hand at all times to ensure the Province can meet its financial obligations. Ensure borrowing is completed with minimal negative impact on the Province's reputation in the financial markets.	Borrowing program completed and cash requirements met on a timely basis.
b. Manage the borrowing program in a sound and cost-effective manner.	The performance measurement of the timing of the long-term fixed-rate borrowing program is expressed as a percentile ranking of the all-in borrowing cost against a statistical distribution of benchmark interest rates observed throughout the year.	Achieve a percentile ranking of 45 to 55 for regular borrowings and 50 to 75 for strategic foreign borrowings. All results are validated by the Ontario Internal Audit Division.
c. Ontario Savings Bonds (OSB) Program	Fund borrowing requirements at cost-effective rates for a broadly based retail program which allows individual investors in Ontario to participate in providing funding to the Province. OSBs reduce other borrowing requirements which, in turn, reduces pressure on new issue spreads.	Ensure the program is cost-effective in the context of a retail borrowing program. Maintain and review Service Level Agreement between OFA and Fiscal Agent on an annual basis.

2. Manage the Province's debt, investments, ONFA and financial risk, and contribute to the development of the Province's fiscal plan and outlook

Objective	Performance Measure	Target
a. Manage outstanding debt in a sound and cost-effective manner.	Dollar savings of debt management transactions on a realized and mark-to-market basis. This methodology utilizes a risk-budgeting approach adopted by some large pension plan investment managers.	Achieve first quartile performance relative to a risk budget. Results are validated by the Ontario Internal Audit Division.
b. Preservation of capital on money market investments.	Credit losses on liquid reserves and investment portfolio of funds managed for other government bodies.	No credit losses on any investments. Generate actual returns that are within ±2 basis points of the

Objective	Performance Measure	Target
Manage liquid reserves in a sound and cost-effective manner.	The investment return on the portion of liquid reserves invested in Government of Canada Treasury bills and similar riskless instruments compared to an average 61-day portfolio benchmark. This benchmarking process is consistent with private sector industry practice. Maintain liquid reserve levels within a pre-determined range and provide an explanation to the Board of any deviations from that range.	61-day benchmark portfolio. Results are validated by the Ontario Internal Audit Division.
c. With OPG, prudently manage the Used Fuel and Decommissioning Segregated Funds' investments.	Ensure investment management is consistent with ONFA objectives.	Manage, monitor, and analyze the performance of the funds and the performance of investment managers. Continue refinement of investment strategies, risk management, policies and procedures. Meet the real return objective of 3.25 per cent, and exceed the market benchmark over the life of the funds.
d. Prudently manage funds for government bodies through the centralized/ segregated fund initiative.	Reduce investment costs. Ensure public bodies' funds are managed consistently with investment industry best practices.	Establish and continue to efficiently manage segregated funds with government public bodies that meet client requirements.
e. Minimize financial risk by ensuring risk exposures and program losses remain within approved exposure and loss limits.	Foreign exchange exposure. Net interest rate resetting exposure. Interest on debt losses as a percent of budgeted interest on debt. Credit exposures relative to approved policy limits.	Foreign exchange exposure not to be above five per cent of total debt. The 2016–17 Financing, Debt and Electricity Management Plan had an approved range of 0 per cent to 2.5 per cent in Foreign Exchange Exposure. Currently, the exposure of 0.3 per cent of debt. The 2017–18 Financing, Debt and Electricity Management Plan will have a recommended range subject to Board of Directors approval later in the year. Net interest rate resetting exposure not to be above 35 per cent of total debt. The 2016–17

Objective	Performance Measure	Target
		Financing, Debt and Electricity Management Plan had an approved range of 10.4 per cent to 14.4 per cent in Ontario's Gross Floating Rate exposure, with a target of 12.4 per cent. Interest Rate Resetting Exposure is expected to be 11.2 per cent as of March 31, 2017, with an expected range of 9.2 per cent to 13.2 per cent. A new range and target for Floating Rate and Interest Rate Resetting Exposure will be approved in the 2017–18 Financing, Debt and Electricity Management Plan. IOD losses not to exceed three per cent of budgeted Interest on Debt. Credit exposures to be kept within approved policy limits.
f. Use risk control policies to ensure programs are managed in a prudent and cost-effective manner.	Risk management policies are kept current with industry best practices. Exposure limits established in the policies are reasonable and prudent. Exposures are monitored and reported in a timely and accurate manner.	Policies for market risk, credit risk, use of derivatives and other financial instruments and risk management reporting are to be reviewed annually, and amendments or decisions not to amend are to be approved by the Board of Directors. Review limits on net interest rate resetting, foreign exchange and credit exposures, and credit concentration. Calculate and report exposures daily. Perform monthly stress testing on the Province's market and credit exposures.
g. Measure and report performance of the Province's borrowing, debt management, and investment programs.	Timeliness and accuracy of performance measurement and reporting.	Report on borrowing and debt management performance daily, and on the money market program performance monthly.

Objective	Performance Measure	Target
h. Evaluate the potential impact of stressed capital market conditions on OFA programs and IOD.	Conduct stress tests of the credit exposures, and IOD, and report the results as described in the risk management policies.	Stress testing is performed and reported on a monthly basis as described in the risk management policies.
i. Forecast interest on debt (IOD) for the Province and the OEFC.	Forecasts for the current year and medium-term are provided for the Budget, Fall Statement and quarterly finances.	IOD forecasts for the current year and medium-term to be provided for the Budget, Fall Statement and quarterly finances in a timely manner.
j. Assess the credit quality of municipalities and other approved entities applying for Infrastructure Ontario loans and provide credit risk advice to the Credit Review Committee (CRC)	Review loan applications and analyze reports. Attend CRC meetings to provide advice and vote on each application.	Provide an advisory role at Infrastructure Ontario's CRC meetings.
k. Contribute to key ministry documents, including the Budget, Fall Statement, and quarterly finances; and advise on financial implications of government initiatives.	Advise on potential financial/treasury implications of government initiatives on IOD, borrowing objectives, credit ratings, and financial markets' reactions. Complete the Borrowing and Debt Management chapter, including the Financing Table, in the Budget and Fall Statement.	Ensure potential financial/treasury implications are considered in developing government financial objectives, including meeting the requirements of the *Fiscal Transparency and Accountability Act.* Provide the Borrowing and Debt Management chapter in the Budget and Fall Statement; and update Ontario's Financing Program in Ontario Finances (quarterly).

3. Manage key financial relationships

Objective	Performance Measure	Target
a. Manage Ontario's relationships with domestic and international investors.	Maintain dialogues with investors, investment dealers and the international investment community by providing timely financial updates, including investor publications and securities filing documents.	Continue to monitor fixed income markets, economic conditions, and investors' interests and requirements to ensure road shows are effective for both the Province and its investors. Investor Relations to continue to track meeting activity with investors. Program benchmarks to include number of meetings with new accounts, effectiveness of communications material and website usage. Provide IR information products, including updates to the OFA website, on a timely basis. Meet ongoing disclosure and regulatory filing requirements with the SEC, UKLA, LuxSE, ASX, SIX Exchange Regulation and the SGX. Provide panelists or speakers at domestic and international industry conferences.
b. Manage Ontario's relationships with the credit rating agencies.	Ensure that credit rating agencies understand government policies, budget, and fiscal performance, properly reflecting these in their reports and decisions.	Following the release of the Budget, senior OFA and Ministry of Finance staff will meet with the rating agencies. Throughout the year, agencies will be kept informed of the government's ongoing economic and fiscal progress.
c. Manage Ontario's relationships with banks, financial services providers, and investment dealers.	Maintain relationships with banks, financial services providers, and investment dealers who provide the Province with banking, underwriting, custodial and fiscal agency services, thereby maintaining the Province's reputation and supporting its strategic direction to provide financial and cash management services. Maintain relationships with swap counterparties.	Ensure banking, underwriting, custodial and fiscal agency services provided to the OFA are cost-effective with minimal impact on IOD. Promote Toronto as a global financial centre. Ensure compliance with existing collateralized swap agreements in a timely and accurate manner on a daily basis. The OFA will endeavour to enter into collateralized swap agreements with more swap counterparties to limit credit risk.

4. Provide services related to cash management, banking, settlement, payment, financial and reporting, and client services.

Objective	Performance Measure	Target
a. Arrange OPS-wide cost-effective banking services that minimize the Province's expenditures.	Acquire cost-effective banking products and services to support government ministries' program delivery, Crown agencies' banking activities and OFA's debt and investment management activities through the government's tendering process.	Issue, award and implement tenders for banking and financial services to ensure service continuity and program area needs are met. Monitor vendors' post-implementation performance. Work with central agencies, ministry program areas, and financial service providers to increase take up of existing electronic payment mechanisms and identify industry trends and new banking technology, which can be leveraged to reduce costs and improve service delivery and back-office processes. Ensure continued compliance with mandatory requirements imposed by external parties such as Federal bodies and industry groups. Participate in government and industry working groups/task forces on developing innovative solutions to enhance banking and payment efficiencies. Provide comprehensive and timely banking advice to program areas and agencies supporting government initiatives.
b. Provide centralized cash management services that maximize liquid reserves returns.	Ensure the provision of timely and accurate cash information for the development of the Financing Table in the Annual Budget and Fall Economic Statements. High service standards on service contracts with client agencies to maintain client satisfaction.	Provide actual and forecast liquid reserve numbers for the Financing Table in the Province's Quarterly Statements and Annual Budget that stand up to scrutiny by internal and external stakeholders. Ensure relevant performance measures in client agency agreements are met or exceeded.

Objective	Performance Measure	Target
c. Timely and accurate forecasts to align borrowing with cash management requirements, helping to reduce IOD.	Reliable and accurate cash forecasts for the Province and client agencies.	Ensure that the Province has sufficient cash available at all times to meet its financial obligations. Continually enhance the Cash Management System, keeping it responsive to changing needs, technology, and the IT environment within the OPS, i.e. IFIS renewal and Hyperion.
d. Advocacy of best practices in cash management across the OPS	Policy advice where required to assist programs in complying with the Cash Management Directive.	Improved compliance with the Cash Management Directive; implementation of policies more in line with best practices.
e. Provide efficient, accurate and timely settlement and payment processes, and implement appropriate settlements industry best practices.	Ensure debt management, investments, derivatives, and loans are recorded and processed efficiently and accurately. Ensure that ITS, the OFA's system of record for debt, derivatives, and assets, continues to operate effectively. Adoption of industry best practices.	Make system and procedural enhancements to improve the efficiency and effectiveness of settlements' functions, and continue to mitigate operational risk. Replace the Public Bodies Financing System with a user friendly and efficient system that is either developed internally or sourced externally.
f. Provide timely and accurate financial reporting for the Province in relation to debt, derivatives and investments, and the agency financial statements.	Ensure security and proper records of transactions. Provide high quality financial information for publication in a timely and accurate manner.	Enhance internal controls on accounting records by applying best practices and staff training. Prepare internal reporting to ensure data integrity. Through research and continuous review, ensure that accounting records and financial reporting are prepared in accordance with applicable PSAB requirements. Provide timely and accurate information for the Province's Budget, Estimates, quarterly Finances and Public Accounts. Provide timely and accurate agency financial statements that pass the scrutiny of the OFA Board and its Audit and Risk Management Committee as well as the Office of the Provincial Auditor General.

Objective	Performance Measure	Target
g. Monitor and assess accounting developments that affect the financial reporting for the Province and its agencies.	Keep abreast of current accounting developments in various jurisdictions: the International Accounting Standards Board (IASB), the Financial Accounting Standards Board in the U.S. (FASB), and the Accounting Standards Board and the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada.	Continue to monitor developments in accounting standards set by PSAB and other standard setting bodies that may affect the Province and agency reporting. Provide advice to the Office of the Provincial Controller, on developments in accounting standards that impact debt and related areas. In coordination with other provinces, actively bring the collective concerns of Ontario and the other provinces on the Financial Instruments standard to PSAB. Continue to liaise effectively with the Office of the Provincial Controller and the Office of the Auditor General of Ontario in making recommendations and/or responses on PSAB's review of these standards.

5. Advise on and implement corporate and electricity finance projects and policies

Objective	Performance Measure	Target
a. Provide financial analysis and advice on financing and other proposals that have capital markets implications. Develop the structure and negotiate the detailed terms and conditions of any transactions to minimize costs and best meet market expectations.	Cost-effective leasing policies and structures. Appropriate due diligence on financing aspects of asset management projects. Comprehensive advice on structuring and completing financial transactions. Accurate determination of value for money benchmarks and evaluating and recommending interest rates.	Comprehensive, timely and accurate advice to support objectives. OFA to be viewed across the government as a centre of excellence in financial analysis and providing high quality financial advice.
b. Provide financial analysis and advice on cost- effective borrowing, investing, and risk management by public bodies. Negotiate the detailed terms and conditions of any loans to be guaranteed to minimize costs and	Borrowing and investing through financial markets as cost-effectively as possible and within appropriate risk management frameworks for each client.	Comprehensive, timely and accurate advice to consolidated public bodies.

Objective	Performance Measure	Target
best meet market expectations.		
c. Provide financial analysis and advice on transactions requiring a provincial guarantee or that may otherwise increase the indebtedness or contingent liabilities of Ontario.	Comprehensive, accurate and timely review and identification of risks and potential risk mitigation strategies.	Comprehensive, timely and accurate advice as required.
d. Provide analysis and advice on electricity policies and initiatives that have potential financial, fiscal, and/or economic implications on the Province and/or OEFC.	Early identification and development of options to effectively deal with opportunities, pressures and/or risks to the Province or OEFC.	Comprehensive, timely and accurate analysis and advice, as required, including on the following: • Electricity supply, conservation, transmission, distribution and other electricity price mitigation initiatives. • Nuclear supply, including nuclear refurbishments. • Ongoing implementation of the ALGP. • Ongoing implementation of IEI program, ICI, NIER program, and the OREC.
e. Analysis and modelling to support the OEFC's objectives, including monitoring of OPG and Hydro One results.	Concise, accurate and timely reports and briefings as required.	Provide analytical and modelling support, as required, for the OEFC annual audit and reporting process. Continue regular financial update meetings with OPG to monitor financial performance. Provide required analysis to support management of NUG contracts (e.g., contract/rate negotiations, and NUG litigation.)
f. Provide electricity sector projections for the Province and the OEFC.	Ensure projections are provided in a timely manner, using best available information and reasonable assumptions.	Provide projections for the current year and medium-term for the Province's Budget, Fall Statement and quarterly finances; as well as projections for OEFC on an annual and quarterly basis. Provide regular updates on projections versus plan.

Objective	Performance Measure	Target
g. Analysis and advice to support the effective administration of ONFA, including approving annual budgets, monitoring fund balances, managing the Provincial Guarantee provided to the Canadian Nuclear Safety Commission (CNSC), and monitoring policies and other initiatives related to nuclear liabilities.	Comprehensive and appropriate due diligence performed on annual budgets, reference plans, disbursements and financial documents.	Review and approve annual budgets, including investment related expenses, change requests, and disbursements as per ONFA timelines. Ensure budgets are consistent with approved reference plans and only eligible costs are funded. Ensure fund flows follow ONFA requirements through audits and review of financial documents. Review and monitor plans and projects related to managing nuclear liabilities for decommissioning and waste management. Monitor and review the ONFA Reference Plan and the required level of the Provincial Guarantee to the CNSC as nuclear liability estimates are revised and as segregated funds change in value. Provide analysis and advice on OPG's contribution schedules and the Provincial Guarantee that is provided under ONFA to the CNSC.
h. Provide advice, as required, on evaluating the Province's assets, including investments in its business enterprises and analysis and advice on optimisation to enhance efficiency and maximize value.	Ensure required analysis, advice, and briefings are comprehensive, timely and accurate.	Provide timely and highly reliable financial advisory services as required, including modeling, option development, and the identification of key considerations to support OFA, Ministry of Finance and Provincial decision-making. Provide financial analysis and advice related to the Province's holdings of Hydro One shares and the sale/merger of Hydro One Brampton. Provide analysis and advice related to optimizing the Province's real estate portfolio, in particular the sale of OPG headquarters properties, Seaton and Lakeview lands.

Objective	Performance Measure	Target
i. Provide financial analysis and advice on corporate issues and initiatives	Ensure required analysis, advice, and briefings are accurate, timely, and comprehensive.	Provide expert financial analysis and advice as required, including modeling proposals and structuring transactions. OFA CEO, or delegate, participation and leadership on Boards and Committees overseeing these initiatives.

6. Ensure the successful activation of OFA's decentralized Business Continuity Plan

Objective	Performance Measure	Target
a. Review and update the Corporate BCP framework and business unit plans.	Business units being able to successfully complete their identified critical time-sensitive tasks from decentralized locations.	Maintain staff awareness and readiness to implement the Corporate and business units' plans to meet business requirements in the event of a business disruption. Conduct and assess periodic BCP tests.

HUMAN RESOURCES

Staff allocation for 2016–17 is 166 positions, or full-time equivalents (FTEs), excluding leaves of absences. Between 2007–08 and 2016–17, the borrowing program is projected to increase by 32 per cent, from $18.0 billion to $23.8 billion, and the Province's net debt is projected to increase by 103 per cent, from $156.6 billion to $317.9 billion. The OFA's operating costs (forecasted) increased by 20 per cent, from $22.5 million to $27.1 million, and FTEs dropped by three per cent, from 172 to 166.

The OFA continually reviews its recruitment and retention strategies to ensure it is able to attract and retain qualified staff. Some of the initiatives that have been implemented include supporting flexible work arrangements, and implementing diversity, inclusion and accessibility strategies. Approximately 85 per cent of the OFA is on the government compensation plan, which is controlled centrally. All but five positions are excluded from collective bargaining.

The OFA will continue to work with the Human Resources and Governance Committee of the OFA Board and the Ministry of Finance Human Resources Branch to develop further initiatives to promote staff retention and skills development. The OFA will also continue to work with the OPS Recruitment Centre to enhance the OFA's ability to attract qualified candidates. This will ensure the OFA can meet its current and future business priorities. Initiatives may include providing opportunities for staff to participate in learning and development courses, job shadowing, secondments, and special projects to the extent feasible to enable continuous learning and enhance succession planning.

FINANCIAL BUDGET

OFA Multi-Year Operating Expenditure Forecast

(in thousands of dollars)	2016–17		Forecasts*

STRATEGIC CORPORATE SERVICES

Strategic Corporate Services Division (SCSD) is accountable for delivering robust Information Technology, Strategic Human Resources Management, Records and Information Management, Procurement and Policy Management, Facilities Management and Physical and Cyber Security Services. Enhancements to each of these areas drives efficiency, auditability and consistency throughout the organization. SCSD ensures the OFA's and OEFC's core business objectives are supported by reliable, dedicated, customized and integrated technology infrastructure, business applications, administrative process and access to external real-time data sources.

A major focus of SCSD is to support the OFA's core operational business processes. By actively assessing and adjusting the underlying functions that enable the day-to-day business needs, SCSD is able to provide streamlined solutions that increase the safety and wellbeing of the staff, further the OPS Diversity and Inclusion commitments, and provide transparency into procurement and human resource activities.

In addition, reliable and secure information technology is essential to the OFA's ability to deliver its mandate. To that end, SCSD strives to ensure that business applications and related services are not down more than four times a year for a period greater than 30 minutes for each occurrence during normal business hours. The OFA's financial business functions are powerfully supported by SCSD's technology infrastructure, providing availability, integrity, security, and capacity via high-performance, highly-redundant systems at a competitive cost. SCSD can effectively deliver and maintain state-of-the-art financial systems and services because of OFA's internal management of information technology.

The following initiatives will be carried out over the next three years to support the OFA's strategic direction and objectives:

Initiative	Duration	Contribution to key OFA activities
Automate and enhance structured, processes across the organization such as Asset and Inventory Management.	2017–18	Address the organization's increased focus on procurement practices.
Increase the effective management and delivery of IT projects through centralized, standardized processes and controls.	2017–18	Continue to enhance delivery and effectiveness of resources in project management efforts. Support OFA objectives in the delivery of technical initiatives.
Expand core systems to track new government initiatives, allow for greater flexibility in hedge portfolio group splitting, strengthen bond and swap pricing modules and Implement applicable changes as per financial and regulatory reform requirements.	2017–19	Support a large borrowing program and the corresponding large volume of associated hedging activity; provide flexibility to support the commodities hedging program conducted by the OFA for Metrolinx; and the continuation of new government initiatives, including Ontario Green Bonds, and the Trillium Trust.
Through iterative enhancements to technology and policy, ensure the security of information assets and infrastructure across multiple platforms.	2017–19	Address increased requirements for integrated communication solutions as well as data anytime, anywhere. Enhance support for the OFA's BCP.

Creating and enhancing OFA business dashboards to gain increased insight and enhance trading and portfolio management information.	2017–19	Provide OFA executives with timely information to support treasury and borrowing program activities.
Creating and enhancing KPIs and dashboards, reporting mechanisms to measure the performance of delivered corporate services.	2017–19	Provide OFA executives with timely information to support business activities.
Continuous IT infrastructure improvement that will enhance performance, increase capacity, and make the OFA's computing solution highly available.	2017–19	The OFA's financial business functions are well supported by its robust IT infrastructure, which is essential for the OFA to carry out its mandate.
Continuous IT security improvement that will ensure the integrity of the OFA's IT network and prevent any unintended data loss or unauthorized access. Review, revise, and develop IT policies and procedures based on emerging business or technology requirements.	2017–19	The OFA is proactive in ensuring that its systems are highly secure.
Continuous IT service delivery enhancement that will improve the process of incident management, change management, and problem management. Implement SCSD Service Catalogue and Configuration Management Database (CMDB).	2017–19	The OFA's financial business functions are well supported by various IT Services. A better service delivery framework is essential to deliver IT Services professionally and on a timely basis.
Streamline procurement through a centralized, process-driven methodology.	2017–20	Provides clear accountability, auditability and transparency.
Implementation of an Information Management Strategy that transitions the treatment of information from 'data' to an 'asset'.	2017–20	Promotes the retention of corporate knowledge within the organization.
Continuous Enterprise Project and Portfolio Management that will improve the ability to track, report and deliver on business and technology initiatives.	2017–19	Provides clear accountability, auditability and transparency.

INITIATIVES INVOLVING THIRD PARTIES

There are no third parties, other than the provincial government, with which the OFA is partnering or with which it has a funding relationship for the purpose of delivering OFA programs. Moreover, the OFA does not provide transfer payments (grants, subsidies, assistance to persons; the business sector; non-commercial institutions; and other government bodies) to third parties.

IMPLEMENTATION PLAN

For 2017–20, the OFA intends to implement its business plan using existing resources and allocations.

COMMUNICATION PLAN

Business Plan

The OFA Business Plan serves as an internal tool for management and staff in the development of program plans and, through the regular reporting of the status of initiatives to the Board of Directors, it serves as a performance measurement tool. The plan also communicates the OFA's business objectives to the Minister of Finance and the Ministry.

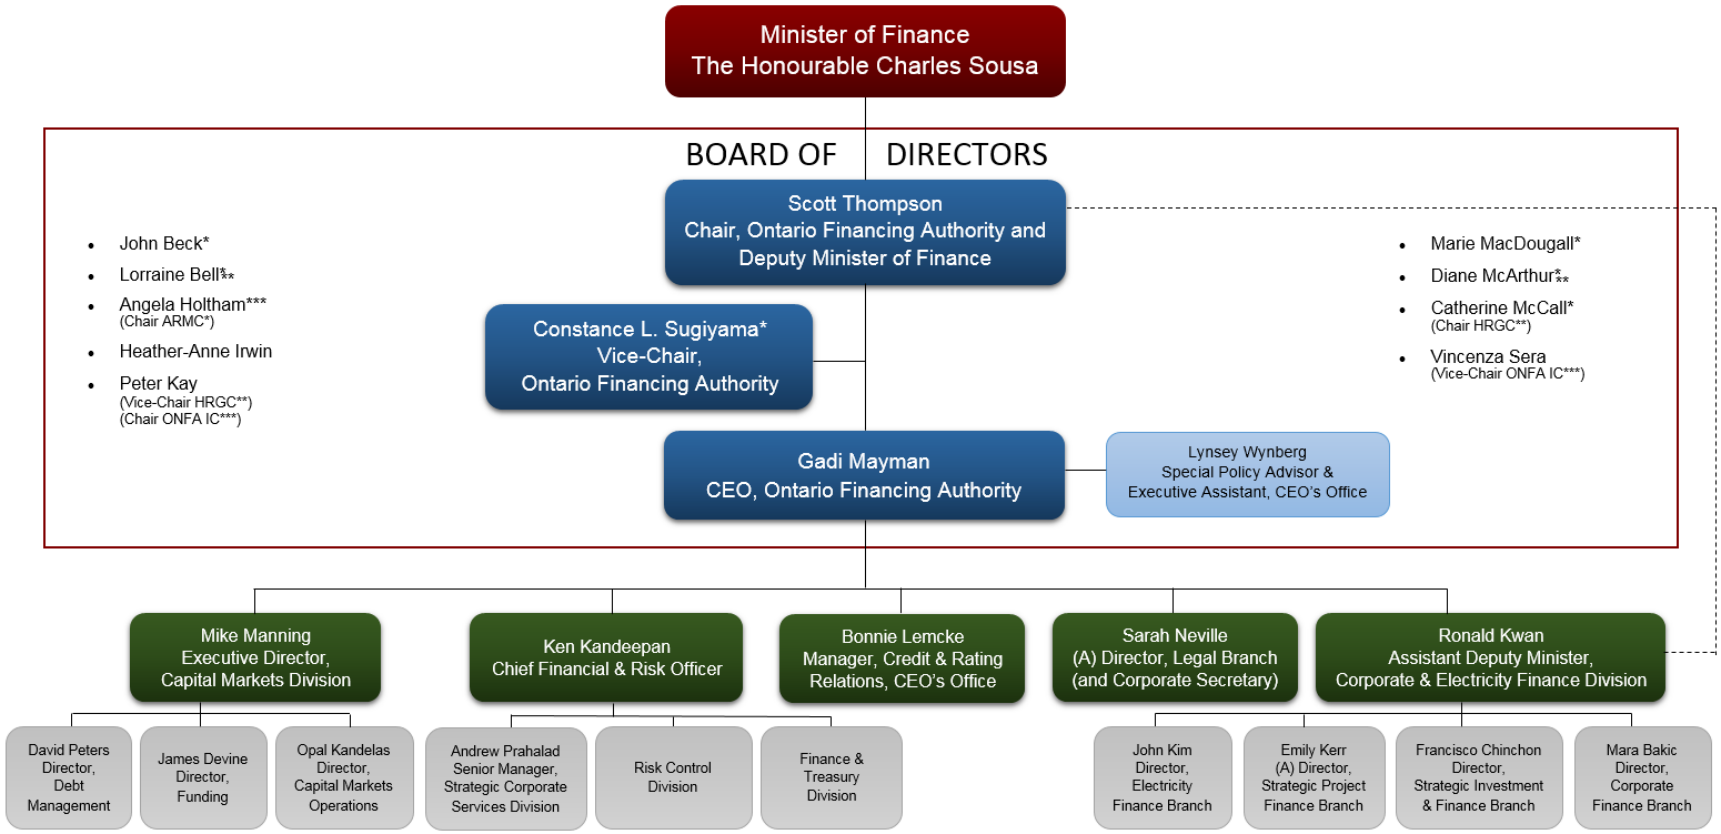
Other Communications

The OFA has a number of external stakeholders, including institutional and retail investors, investment dealers, banks, and credit rating agencies. In 2017–20, the OFA will communicate with stakeholders using various methods including:

1. Websites (including expense information): www.ofina.on.ca; www.ontariosavingsbonds.com; www.ofina.on.ca/algp;
2. Budget and quarterly updates: develop borrowing and debt management components;
3. Fact sheets, investor relations presentations, and other investor material (available on the website);
4. Annual Report (as required by the *Capital Investment Plan Act, 1993*);
5. Regulatory filings;
6. Business Plan; and
7. Memorandum of Understanding (MOU).

Other methods of communication to be used throughout the year are investor relations meetings and regular discussions with credit rating agencies. In addition, the OFA is responsible for the development of communications vehicles for OEFC and will continue to maintain the OEFC website, www.oefc.on.ca, and to produce the OEFC annual report.

ORGANIZATIONAL CHART



* ARMC = Audit & Risk Management Committee
** HRGC = Human Resources & Governance Committee
*** ONFA IC = Ontario Nuclear Funds Agreement Investment Committee

MANDATE AND GOVERNING LEGISLATION

The Ontario Financing Authority (OFA) is a Provincial Crown agency established by the *Capital Investment Plan Act, 1993* (CIPA). CIPA sets out the objectives of the OFA. The OFA:

- conducts borrowing and investment for the Province of Ontario and manages the Provincial debt;
- provides cash management and other financial services for the Province;
- advises ministries, Crown agencies, and other public bodies on financial matters; and
- assists Crown agencies and other public bodies to borrow and invest money through external sources or through the OFA.

The OFA also provides a broad range of financial services to Ontario Electricity Financial Corporation (OEFC) and Ontario Infrastructure and Lands Corporation (Infrastructure Ontario).

The FAA also sets out certain financial powers which OFA employees exercise on behalf of the Minister of Finance to carry out the Province's borrowing, manage the Province's debt and invest its liquid reserves.

BOARD OF DIRECTORS- 12 members. CEO and DM (Chair) are members, along with independent directors.

Corporate governance - supervision and management of the OFA's activities by senior management, the Board of Directors supported by its committees, and the Minister of Finance. It includes identifying individuals and groups responsible for the Corporation's activities and specifying their roles.

The Minister of Finance is the minister responsible for the administration of CIPA with respect to the OFA. CIPA together with policies and directives issued by Management Board of Cabinet form a framework under which the OFA is governed.
Each year, the Minister of Finance is required to submit the OFA Annual Report to the Lieutenant Governor in Council and then table the report in the Legislature. In addition, the Minister reviews and approves the OFA's annual business plan. The Minister also maintains communications with the OFA, through its Chair, regarding government policies and issues relevant to the OFA.

OVERVIEW

1. *Execute the Province's borrowing program.*
    - Each year a borrowing plan is developed - details on the borrowing program, including term structure and diversification objectives, as well as investor relations, liquidity, floating rate, foreign exchange and credit risk strategies, and also outline major risks and risk mitigation strategies.
    - Total long-term public borrowing is forecast at $30.1 billion in 2016–17 and $24.4 billion in 2017–18.
    - Challenges include:
        - o continued high amount of borrowing (domestic and Int'l) required for the Province;
        - o competition in the markets from other large domestic and international borrowers;
        - o evolving regulatory requirements such as Basel III and Dodd-Frank, making hedging foreign debt more expensive and a challenge to execute in the size required by the Province;
        - o potential challenges for Ontario's credit rating. A downgrade may result in borrowing costs increasing; and
        - o management of downgrading or failure of counterparties, and continued implementation of collateralized swaps to mitigate credit risk.

2. Managing the *Manage the Province's debt, investments, Ontario Nuclear Funds Agreement and financial risk, and contribute to the development of the Province's fiscal plan and outlook*
   - Province's debt, liquid reserves portfolio, investments funds for public bodies
   - working to generate savings from debt management
   - liquid reserve investment
   - centralized/segregated investment funds for various public bodies.
   - managing Ontario Nuclear Funds Agreement (ONFA) working with Ontario Power Generation (OPG),
   - ensure interest rate, foreign exchange and credit exposures are within approved policy limits,
   - Province's annual Budget, Fall Statement and quarterly finances.

3. *Managing key financial relationships*
   - Provide financial updates to investors/financial community in Canada and abroad
   - building and maintaining connections with investors in both existing and new markets
   - relationships with banks, financial service providers and investment dealers.
   - Investor Relations information products and updates on the OFA website.
   - Maintaining close relationships and ongoing dialogue with credit rating agencies, ensure understand gov't policies, budget & fiscal performance and is correctly reflected in their reports
   - complete regulatory filings with the U.S. Securities & Exchange Commission (SEC) and any other applicable securities regulators.

4. *Provide services related to cash management, banking, settlement, payment and financial and reporting*
   - Providing centralized cash management and banking services to Province (all ministries)
   - Settlement, payment, financial and reporting, information technology and client services to the Treasury Program.
   - Ensuring that the Province has sufficient cash available at all times to meet its financial obligations
   - work with the other ministries to advise on banking and cash management components of government initiatives as well as on changes to accounting standards and their impact on the Province's debt and interest on debt.

5. *Advising on and implementing corporate and electricity finance projects and policies by:*
   - providing analysis and advice on cost-effective borrowing, investing and risk management by public bodies and other financing proposals, and on business cases for business supports.
   - providing advice on transactions that may affect the indebtedness or contingent liabilities of Ontario, including provincial guarantees.
   - policy and financial analysis, modelling support and implementation, for electricity financings, policies and initiatives, including ONFA that could have fiscal, financial and/or economic implications for the Province and/or OEFC.

6. OFA's decentralized Business Continuity Plan (BCP) by reviewing and updating the Corporate BCP Framework and Business Unit plans, as well as conducting corporate-wide BCP test exercises.

OFA staff: 166 full time permanent staff, approx 200 people including students/temp staff.
Net debt to GDP in 2016: 39.6%

CMO: Documentation (9), Retail Markets (2), Investor relations (4)

Retail Markets:

OSBs 2015-16 sold $66.5M; 2016-17 sold $126.8M

Subject:	OEFC-IESO - update
Date:	Monday, November 27, 2017 12:08:11 PM
Attachments:	IESO-OEFC Note_v7_Markup2Clean.docx

Hi Toby,

As FYI, I'm sharing with you what is likely the last draft of a briefing note regarding a contemplated amendment to the OEFC loan and credit facility agreements to include permitted liens language specific to the Fair Hydro Plan. This language was also included in the OFA-IESO credit facilities. We are just waiting now for final signoff, but every indication is that the agreements will be amended. This amendment was requested by IESO.

I'll also mention that TD has apparently agreed to amend the line of credit agreement they have with IESO, to include permitted liens language wrt Fair Hydro. In order to gain comfort that the OFA agreement will support the Fair Hydro transactions over the next 4 years, TD has asked that IESO share the OFA-IESO agreement with them. IESO has asked OFA for permission to share the agreement with TD. There is nothing in the agreement preventing IESO from sharing with TD, so IESO could actually do so without OFA consent. I've touched base with both OFA legal and Gadi and neither have any concerns about allowing IESO to share the agreements with TD.

Thanks,
Opal.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

IESO'S REQUEST

- Under the FHP, the IESO and Ontario Power Generation (OPG) are interacting to refinance a portion of the Global Adjustment over a longer period of time.

- IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the various agreements. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- The IESO provided a draft Security Agreement, dated November 7th, 2017, between them and the OPG Trust to OFA. According to the draft Security Agreement, in the unlikely event that the IESO runs into financial difficulty, the IESO would give OPG Trust a priority in the IESO's assets, including all accounts of the IESO and all cash and proceeds from LDCs, that would put OPG Trust ahead of unsecured creditors, including the OFA and the OEFC.
  - The security agreement is not limited to the Clean Energy Adjustment funds collected by the IESO only.

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid breaching the terms of the existing agreements with OEFC.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017 the IESO had requested that the OFA make similar changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- With the proposed new security agreement between OPG Trust and the IESO, OPG Trust would have a priority claim against the IESO's assets, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low.

- The extent of this risk is subject to uncertainty at this time, given that the regulations that govern the payments related to the Fair Allocation Amount in each period, and how that relates to the obligations to the Financing Entity, are still under development.

- IESO is an agency of the government consolidated line-by-line in the Province's accounts.

- The OFA agreed to IESO's requested changes to the OFA credit facilities.

- OFA'S Capital Markets Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993* and any changes to the OEFC agreements should take this into account.

- According to the Minister's Directives associated with the OEFC Agreements, the loan and the credit facilities are "subject to such other terms as OEFC deams appropriate Therefore, an amendment for permitted liens can be done under the existing directives, and a new or revised directives from the Minister of Finance are not deemed necessary. This would be consistent with the approach when the pre-existing OFA-IESO credit facility agreement was amended for permited liens on November 6, 2017.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens".

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

Hello,

We are currently in the process of working on a new $2B OFA-IESO Credit Facility to provide funding in respect of the Ontario Fair Hydro Plan. Under this framework, the existing $975 million OFA-IESO Credit Facility is to be reduced to $475 million. Due to a required Ministerial approval, the new $2B facility will not be executed until mid-September (estimate).

Once the new $2B facility is in place, the OFA would be looking to re-allocate certain loans (TBD) from the existing $975M credit facility to the new $2B facility, in order to bring the existing facility under the new intended $475 million limit. Effectively, under the legal agreements, it would be transferring certain loans from the existing facility to the new facility. The intention is that there will be no movement of funds and therefore no cash impact (that is, IESO does not repay the existing loans, and the OFA does not fund the new loans).

Would you please confirm if there are any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility?

Thanks,

Sarah

Hello,

As you know, the OFA-IESO credit facilities contains permitted lien language, which has the effect of giving OPG Trust security interest in all IESO's assets. IESO has requested that this language also be included in its agreements with OEFC and in its line of credit agreement with TD. A policy rationale briefing note has been prepared recommending that the OEFC agreements be amended to include the requested language. I'm being told that TD has agreed to include this language in their agreement with IESO, but would like to see a copy of the OFA-IESO agreement to gain comfort that security interest has been granted to OPG Trust. IESO, though not legally bound to seek permission has asked for OFA's permission to share the agreement with TD.
Though this is not a legal issue, I'm touching base with you to help determine whether or not to give permission to IESO to share the OFA-IESO $2B credit facility with TD.

Intention is to ensure that any monies that is collected by IESO flows through to the financing entity. Anything that happens to those $$ as a result of IESO finances – the financing entity will have priority so the funds collected by IESO. Clean Energy Adjustment monies are to be free and clear and the financing entity should have full access to them so a grant of priority is necessary.

Should security interest be only in the FHP funds that

OPGT is making sure that in the unlikely event the FHP doesn't generate funds after 2021 that it will be made whole. Important that all funds receivable to IESO provides a security interest to OPGT. Seems to come down to a policy decision regarding whether OEFC should grant priority to IESO under the credit facility agreement.

Are there any issues?

Are there any authorities/directives/policies that need to be in place for OEFC to do this?

OPG-OEFC Credit Facility

Purpose: General Corporate Purposes and Darlington requirements

Current Limit: CAD 700M to December 31, 2017

Amendment:

- Increase to CAD 2.35B to December 31, 2018
- Amend definition of Base Rate to more closely relate to hedging that is done for the borrowing.
- Additional proposed amendment by OPG (being considered internally in OFA) to amend definition of S*ubsidiary* to exclude "any Person that is a "financing entity" as defined in the *Ontario Fair Hydro Plan Act, 2017* (Ontario). The entity needs to be legally separated from OPG and be a single purpose entity for the FHP to work (see the information that Ryan and Kelly put together earlier).

Hi Opal,

I've filled in the last part for IESO.

Sarah

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. **Management Fees**
    - OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
    - The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
    - OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
    - **Next Steps:**
        - OPG and OEB will bring forward a recommended framework for developing management fees
        - Timing: For incorporation into regulations being brought forward in June

5. **IESO – Increased Credit Facilities**
    - The OPG financing entity has the right to purchase the regulatory asset from IESO but does not have to purchase it.
    - IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
    - **Next Steps:**
        - OFA is drafting a new agreement for a $2 billion credit facility for the OFA to lend funds to IESO for FHP purposes. Concurrently, the OFA is seeking LRC approval for a new $2 billion OIC, as well as a Directive from the Minister of Finance, which are both necessary for the OFA to lend funds to IESO under the new Credit Facility. .....
        - Timing: The OIC is scheduled as item for the June 27, 2017 LRC meeting. The Directive and Credit Facility Agreement are currently being drafted, to be in place by July 1st, 2017.....

Provincial Protection and Assurances

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*

Performance Guarantees	
Performance Guarantor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Performance Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and other persons having debt or other claims against the Financing Entity that are secured under a related trust indenture.

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

Performance Guarantee:	Pursuant to a Performance Guarantee, the Performance Guarantor will guarantee the performance, or cause the performance, of the obligations of IESO as servicer under the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including servicing obligations undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. It is anticipated that such obligations will include matters related to the billing, collection and remittance of clean energy adjustments by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments with other amounts. In the event that the Performance Guarantee is held to be unenforceable against the Performance Guarantor, the Performance Guarantee will contemplate, in the alternative, a functionally equivalent direct covenant of the Performance Guarantor.
Term:	The Performance Guarantor's obligations under a Performance Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is intended to be secured by the Performance Guarantee.
Approval Requirement:	The servicing obligations (including any amendments) to which the Performance Guarantee relates, together with the provisions of any Performance Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Performance Guarantee:	Under no circumstances shall the Performance Guarantor be obligated to pay special or punitive damages, or for loss of profits.
Indemnity	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.

Indemnity of the Province:	The Province of Ontario will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee (including because of claims made against the Indemnitee by one or more of its specified creditors) that result from any of the following (each, an "**Indemnification Event**"): (A) the Legislative Assembly of Ontario repealing (and not replacing on an equivalent basis) the Act; (B) the Legislative Assembly of Ontario amending the Act or a Regulation made thereunder in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act is *ultra vires* in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest.
Term:	The Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.
Approval Requirement:	The terms and conditions of the obligations incurred by a Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, the will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Indemnity:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or for loss of profits.
Undertakings regarding Certain Mismatches	
Avoidance of Mismatches	If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy all of its related payment obligations and thereby avoid any Mismatch.

Possible Undertaking to Fund Mismatches	If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to avoid a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to avoid the Mismatch. Any such undertaking may only be given at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and would be on such terms and conditions, including appropriate compensation to the Province of Ontario, as the Minister of Energy and the Minister of Finance determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
<u>Documentation</u>	
Representations, Terms and Conditions:	Subject to approval of the Minister of Energy and the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Performance Guarantor and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Performance Guarantor or the Indemnitor, or any agent or representative of the Performance Guarantor or the Indemnitor, in connection with the transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Confidentiality obligations of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

Provincial ~~Support Agreement~~Protection and Assurances

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") ~~is provided exclusively to the parties listed herein in connection with the draft~~relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. ~~Defined~~Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial ~~support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out~~protection and assurance arrangements contemplated in this Term Sheet ~~in addition to such other representations, warranties, indemnities, and other~~will include such terms and conditions as the ~~Guarantor and the Beneficiaries (each as defined below) may reasonably require~~Minister of Energy and the Minister of Finance determine to be appropriate.*

Performance Guarantees	
Performance Guarantor:	~~Her Majesty the Queen in right~~The Province of Ontario, ~~as represented~~ by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	~~The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**")~~Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Performance Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and ~~all~~ other persons having debt or other claims against ~~a~~the Financing Entity that are secured under ~~the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity~~a related trust indenture.

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

~~**Term:**~~	~~The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.~~
Performance Guarantee:	~~Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee~~Pursuant to a Performance Guarantee, the Performance Guarantor will guarantee ~~in favour of the Beneficiaries to perform~~the performance, or cause the performance, of ~~(which may be by way of the appointment of a replacement servicer),~~ the obligations of IESO as servicer under the ~~MSSA and the~~ Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including ~~the obligations of any replacement servicer. The Guarantor will also guarantee the~~ servicing obligations ~~of the~~undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. ~~The servicing~~It is anticipated that such obligations ~~covered~~ will include ~~all obligations~~matters related to the ~~collecting~~billing, collection and ~~remitting~~remittance of clean energy adjustments ~~and will protect the Beneficiaries from any risks arising from~~by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments ~~being commingled~~ with other amounts. In the event that the ~~performance guarantee~~Performance Guarantee is held to be unenforceable against the Performance Guarantor, the ~~Provincial Support Agreement~~Performance Guarantee will contemplate ~~a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result~~, in the alternative, a functionally equivalent direct covenant of the Performance Guarantor.
Term:	The Performance Guarantor's obligations under a Performance Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is intended to be secured by the Performance Guarantee.
Approval Requirement:	The servicing obligations (including any amendments) to which the Performance Guarantee relates, together with the provisions of

[1] ~~This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.~~

	any Performance Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Performance Guarantee:	Under no circumstances shall the Performance Guarantor be obligated to pay special or punitive damages, or for loss of profits.
Indemnity	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.
~~Payment Guarantee Event~~Indemnity of the Province:	~~A Payment Guarantee Event will occur if~~The Province of Ontario will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee (including because of claims made against the Indemnitee by one or more of its specified creditors) that result from any of the following (each, an "**Indemnification Event**"): (A) the Legislative Assembly of Ontario ~~repeals~~repealing (and not replacing on an equivalent basis) the Act; ~~or~~ (B) the Legislative Assembly of Ontario ~~amends~~amending the Act or a Regulation made thereunder ~~is amended~~ in a way that materially and adversely ~~impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such~~affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction ~~(i)~~in a final and non-appealable judgement determines that all or a portion of the Act ~~to be~~is *ultra vires* in a way that materially and adversely ~~impacts~~affects the ~~ability~~rights and interests of ~~a~~the Financing Entity ~~to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or~~ ~~(D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital~~

	~~markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act~~under its investment interest.
~~Payment Guarantee~~Term:	~~Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition:~~ ~~(x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and~~ ~~(y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year**]~~ ~~shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.~~ The Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.
Approval Requirement:	The terms and conditions of the obligations incurred by a Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, the will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under ~~Guarantees~~Indemnity:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or for loss of profits.
~~Priority of Payments:~~	~~The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.~~
~~Subrogation:~~	~~Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their~~

	~~applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.~~
~~**Notice Requirements:**~~**Undertakings regarding Certain Mismatches**	~~The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.~~
~~**Closing:**~~**Avoidance of Mismatches**	~~Date to be determined but no later than [■, 2017]. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered~~If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy all of its related payment obligations and thereby avoid any Mismatch.
~~**Reporting Requirements of a Financing Entity:**~~ **Possible Undertaking to Fund Mismatches**	~~The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture~~If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to avoid a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to avoid the Mismatch. Any such undertaking may only be given at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and would be on such terms and conditions, including appropriate compensation to the Province of Ontario, as the Minister of Energy and the Minister of Finance

	determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
~~Conditions Precedent to Closing:~~Documentation	~~Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~[2]
Representations, Terms and Conditions:	~~Customary representations~~Subject to approval of the Minister of Energy and ~~warranties of the Guarantor~~the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Performance Guarantor ~~is~~and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Performance Guarantor or ~~its agents or representatives~~the Indemnitor, or any agent or representative of the Performance Guarantor or the Indemnitor, in connection with the ~~Transaction Documents~~transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	~~Customary confidentiality~~Confidentiality obligations ~~to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor~~of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

[2] ~~Opinions on the validity and enforceability of Provincial Support Agreement will be required.~~

Subject:	Provincial Support Term Sheet
Date:	Friday, May 26, 2017 3:16:14 PM

Hi all,

Further to our meeting on Wednesday, Toby and I have now been in touch with Energy Legal regarding the term sheet and will be attending a meeting with counsel at Blakes next Wednesday morning.

Best,

Malle

Subject:	Question - OIC for new IESO Credit Facility
Date:	Tuesday, May 30, 2017 9:30:09 AM
Attachments:	CIPA OIC s.22 May 2017 (v.2) - ENG and FRE.DOCX

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,
Sarah

Executive Council of Ontario/Conseil exécutif de l'Ontario **[Bilingual]**

[Bilingue]

Ontario

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Three Billion Five Hundred Million Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Three Billion Five Hundred Million Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by June 30, 2053;

(c) each advance (an “Advance”) made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the “Reset Date”) to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a “Third Party Loan”), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

ATTENDU QUE le ministre des Finances peut, en vertu du paragraphe 22 (1) de la *Loi de 1993 sur le plan d'investissement* (la « Loi »), acheter des valeurs mobilières des personnes morales créées en vertu du paragraphe 2 (1) de la Loi ou leur consentir des prêts selon les montants, aux moments et aux conditions que le lieutenant-gouverneur en conseil estime opportuns;

ATTENDU QUE l'Office ontarien de financement (l'« OOF ») est une personne morale créée en vertu du paragraphe 2 (1) de la Loi;

ATTENDU QUE, conformément au paragraphe 6 (3) de la Loi, le pouvoir qu'ont les personnes morales créées en vertu du paragraphe 2 (1) de la Loi de contracter des emprunts et d'émettre des valeurs mobilières, entre autres, ne peut être exercé qu'aux termes d'un règlement administratif approuvé par le ministre des Finances;

ATTENDU QUE l'OOF souhaite emprunter jusqu'à concurrence de trois milliards cinq cent millions de dollars en monnaie légale du Canada du ministre des Finances et qu'il a été autorisé à le faire par un règlement administratif d'emprunt approuvé conformément à la Loi;

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de trois milliards cinq cent millions de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 30 juin 2053;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce

dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

(iv) malgré les sous-alinéas (ii) et (iii), dans l'éventualité où aucun intérêt ne serait payable à l'OOF au titre d'un prêt à un tiers, aucun intérêt ne sera à payer par l'OOF sur la partie de l'avance ainsi utilisée et dans la mesure où les conditions du prêt à un tiers prévoient le report du paiement d'intérêts courus pour une période, le paiement d'intérêts au titre d'une avance ou d'une partie d'une avance sera également reporté pour une période d'égale durée;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Sarah,

As Malle says, the best approach and the approach we, including Gadi, are recommending is that the

"commitment" (in whatever form) be provided by MOH.

However, it appears as though the loan will be required eventually and will only work under a 35 year amortization (again Gadi has agreed to this amortization in principle), so we will need to amend the OIC. Given that our Plan B, which may be needed, is to provide some joint assurance MOF/MOH to HOOPP by April 30, I would like to work with Capital Markets to try to get the OIC in place so that we can use Plan B if necessary.

If you agree, just let me know what you need from me.

Thanks,
Garth

Malle,

Thank you very much for your quick response.

Garth – I'm not familiar with the various inputs Malle has mentioned below with the loan, and the timing for getting these. Is it possible to obtain all the required approvals, etc. prior to April 30th? As Malle indicates, a binding commitment doesn't seem possible without these elements. On the other hand, if it is possible, we could try to make the case for including an amending OIC for the April 16th LRC.

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi,

Dimitri has been working on this as well so copying him here. According to the current OIC's, OFA must repay the funds borrowed from the Province by 2040 (I haven't check them all now but assume that you have) so the OFA couldn't make a longer term loan to a third party such as the hospital without an amending OIC as you describe.

I think that the only thing that could be done is to see whether there is any possibility of walking this OIC in at this point if it is that critical. However, at the same time, I know that there have been numerous elements regarding this potential loan including possibly having MOHLTC provide an indemnity to the OFA regarding the repayment by the hospital. Not sure that we could in anyway provide a binding commitment that the money will be available in 2019 since there would be many other elements such as a Minister's directive, the negotiation of the loan agreement and due diligence that would make it conditional. However, it seems that the amendment to the OIC is a necessary precondition.

Also just thinking general about this project, is it anticipated that any other approvals or signing of agreements, etc. would be proposed during the writ period?

Thanks,

Malle

To: Hanslep, Malle (MOF)
Cc: Parish, Garth (OFA); Dalgarno, Andrea (OFA); Kandelas, Opal (OFA)
Subject: FW: BN - Lending Directive for Loan to OCRC.docx

Hello Malle,

I am writing to you to inquire about the timing for an approval for an OIC in relation to a loan that the OFA may be making to St. Michael's, as detailed below.

In short, the OFA has the available room under its existing lending OICs (i.e. the OICs where the OFA borrows from Her Majesty, and then in turn makes loans to public bodies), but the expiry dates of the existing OICs are shorter than the proposed maturity. The OICs expire in 2041 and the loan would mature in late 2054. In order for the St. Micheal's loan to occur, there has to be a binding assurance to HOOPP by April 30th that funds will be available to be advance in the summer of 2019. In order for us to provide this, we would need to get approval for an amending OIC to extend the expiry dates of the existing OICs to 2055.

Given that the last LRC scheduled is for April 16th, and the deadlines for providing materials has passed (March 20th), it doesn't seem possible to get approval for an amending OIC prior to April 30th. Do you know of any options that might make this possible?

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Andrea,

We are in discussions with St. Michael's Hospital to provide them with a $100M loan that would be amortized over 35 years. This is with regard to pension assets that they are transferring to HOOPP that need to be topped up by $100M.

A wrinkle is that they need to provide a binding assurance to HOOPP by April 30 that they have the funds although the effective date of the loan and the transfer of funds won't take place until July/August of 2019. This means that the loan wouldn't be paid off until late 2054.

We understand that the latest dated OIC is 844/2008 which ends June 1, 2041, so in order to make this loan we would need an OIC out to say, 2055 – although we may wish to make it later. A smaller request from Grand River hospital would be similar. Both loans would fit within the existing authorized amounts but not the repayment date.

Please advise the best way to proceed towards the required OIC amendment re timing.

Thanks. I will call to follow up.

Thanks,
Garth

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Garth,
I have been asked to respond to your query. Attached is the most current listing we have available of the OFA loans under the two OIC's. This listing was finalized in conjunction with Daki in Corporate Finance.
Based on this July 11, 2017 listing, the remaining authority under the two OIC's are as follows:

1) OIC 675/97 (the currently active one) has remaining authority of

$721,594,955.57 as of July 11, 2017

2) OIC 767/99 has authority in the amount of $656,000,000.00 as of July 11, 2017

So it seems, we should be able to draw on OIC 675/97 for the additional loans you reference given it was noted in the BN you attached that the 2017-2018 OFA Borrowing and On-lending Plan was set at $486 million and apparently $250 million of that was postponed to 2018-2019.

Let me know should you have any further question or concerns.

Regards,

Andrea

Hi Jean-Francois,

You will see in the highlighted section below that Lisa is asking that we confirm that 2 OFA loans we are working on:

- $150 million to the Ontario Cannabis Retail Corporation
- $100 million to St Michael's hospital

are covered by the "existing on-lending OIC's".

I don't know who would keep a registry of the OICs and what loans they cover. Would your group have this registry?

Thanks,
Garth

Hi Garth,

Please find attached some comments and suggested amendments to the draft briefing note, attached. I did not review the attachments; however, as discussed on Friday, they still reference the loan to St. Michael's hospital as well (and these references should be deleted).

I'm still working on the directive for the OCRC loan. In the meantime, can you please confirm that this loan is covered by the existing on-lending OICs (as referenced in the draft note)?

Thank you,

Lisa

Malle,

Thank you very much for your quick response.

Garth – I'm not familiar with the various inputs Malle has mentioned below with the loan, and the timing for getting these. Is it possible to obtain all the required approvals, etc. prior to April 30th? As Malle indicates, a binding commitment doesn't seem possible without these elements. On the other hand, if it is possible, we could try to make the case for including an amending OIC for the April 16th LRC.

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi,

Dimitri has been working on this as well so copying him here. According to the current OIC's, OFA must repay the funds borrowed from the Province by 2040 (I haven't check them all now but assume that you have) so the OFA couldn't make a longer term loan to a third party such as the hospital without an amending OIC as you describe.

I think that the only thing that could be done is to see whether there is any possibility of walking this OIC in at this point if it is that critical. However, at the same time, I know that there have been numerous elements regarding this potential loan including possibly having MOHLTC provide an indemnity to the OFA regarding the repayment by the hospital. Not sure that we could in anyway provide a binding commitment that the money will be available in 2019 since there would be many other elements such as a Minister's directive, the negotiation of the loan agreement and due diligence that would make it conditional. However, it seems that the amendment to the OIC is a necessary precondition.

Also just thinking general about this project, is it anticipated that any other approvals or signing of agreements, etc. would be proposed during the writ period?

Thanks,

Malle

Subject: FW: BN - Lending Directive for Loan to OCRC.docx

Hello Malle,

I am writing to you to inquire about the timing for an approval for an OIC in relation to a loan that the OFA may be making to St. Michael's, as detailed below.

In short, the OFA has the available room under its existing lending OICs (i.e. the OICs where the OFA borrows from Her Majesty, and then in turn makes loans to public bodies), but the expiry dates of the existing OICs are shorter than the proposed maturity. The OICs expire in 2041 and the loan would mature in late 2054. In order for the St. Micheal's loan to occur, there has to be a binding assurance to HOOPP by April 30th that funds will be available to be advance in the summer of 2019. In order for us to provide this, we would need to get approval for an amending OIC to extend the expiry dates of the existing OICs to 2055.

Given that the last LRC scheduled is for April 16th, and the deadlines for providing materials has passed (March 20th), it doesn't seem possible to get approval for an amending OIC prior to April 30th. Do you know of any options that might make this possible?

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Andrea,

We are in discussions with St. Michael's Hospital to provide them with a $100M loan that would be amortized over 35 years. This is with regard to pension assets that they are transferring to HOOPP that need to be topped up by $100M.

A wrinkle is that they need to provide a binding assurance to HOOPP by April 30 that they have the funds although the effective date of the loan and the transfer of funds won't take place until July/August of 2019. This means that the loan wouldn't be paid off until late 2054.

We understand that the latest dated OIC is 844/2008 which ends June 1, 2041, so in order to make this loan we would need an OIC out to say, 2055 – although we may wish to make it later. A smaller request from Grand River hospital would be similar. Both loans would fit within the existing authorized amounts but not the repayment date.

Please advise the best way to proceed towards the required OIC amendment re timing.

Thanks. I will call to follow up.

Thanks,
Garth

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Garth,
I have been asked to respond to your query. Attached is the most current listing we have available of the OFA loans under the two OIC's. This listing was finalized in conjunction with Daki in Corporate Finance.
Based on this July 11, 2017 listing, the remaining authority under the two OIC's are as follows:

1) OIC 675/97 (the currently active one) has remaining authority of $721,594,955.57 as of July 11, 2017

2) OIC 767/99 has authority in the amount of $656,000,000.00 as of July 11, 2017

So it seems, we should be able to draw on OIC 675/97 for the additional loans you reference given it was noted in the BN you attached that the 2017-2018 OFA Borrowing and On-lending Plan was set at $486 million and apparently $250 million of that was postponed to 2018-2019.

Let me know should you have any further question or concerns.

Regards,

Andrea

Hi Sarah,

As Malle says, the best approach and the approach we, including Gadi, are recommending is that the "commitment" (in whatever form) be provided by MOH.

However, it appears as though the loan will be required eventually and will only work under a 35 year amortization (again Gadi has agreed to this amortization in principle), so we will need to amend the OIC. Given that our Plan B, which may be needed, is to provide some joint assurance MOF/MOH to HOOPP by April 30, I would like to work with Capital Markets to try to get the OIC in place so that we can use Plan B if necessary.

If you agree, just let me know what you need from me.

Thanks,
Garth

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Garth,
I have been asked to respond to your query. Attached is the most current listing we have available of the OFA loans under the two OIC's. This listing was finalized in conjunction with Daki in Corporate Finance.
Based on this July 11, 2017 listing, the remaining authority under the two OIC's are as follows:

1) OIC 675/97 (the currently active one) has remaining authority of $721,594,955.57 as of July 11, 2017

2) OIC 767/99 has authority in the amount of $656,000,000.00 as of July 11, 2017

So it seems, we should be able to draw on OIC 675/97 for the additional loans you reference given it was noted in the BN you attached that the 2017-2018 OFA Borrowing and On-lending Plan was set at $486 million and apparently $250 million of that was postponed to 2018-2019.

Let me know should you have any further question or concerns.

Regards,

Andrea

Hi Jean-Francois,

You will see in the highlighted section below that Lisa is asking that we confirm that 2 OFA loans we are working on:

- $150 million to the Ontario Cannabis Retail Corporation
- $100 million to St Michael's hospital

are covered by the "existing on-lending OIC's".

I don't know who would keep a registry of the OICs and what loans they cover. Would your group have this registry?

Thanks,
Garth

Hi Garth,

Please find attached some comments and suggested amendments to the draft briefing note, attached. I did not review the attachments; however, as discussed on Friday, they still reference the loan to St. Michael's hospital as well (and these references should be deleted).

I'm still working on the directive for the OCRC loan. In the meantime, can you please confirm that this loan is covered by the existing on-lending OICs (as referenced in the draft note)?

Thank you,

Lisa

Hi,

Dimitri has been working on this as well so copying him here. According to the current OIC's, OFA must repay the funds borrowed from the Province by 2040 (I haven't check them all now but assume that you have) so the OFA couldn't make a longer term loan to a third party such as the hospital without an amending OIC as you describe.

I think that the only thing that could be done is to see whether there is any possibility of walking this OIC in at this point if it is that critical. However, at the same time, I know that there have been numerous elements regarding this potential loan including possibly having MOHLTC provide an indemnity to the OFA regarding the repayment by the hospital. Not sure that we could in anyway provide a binding commitment that the money will be available in 2019 since there would be many other elements such as a Minister's directive, the negotiation of the loan agreement and due diligence that would make it conditional. However, it seems that the amendment to the OIC is a necessary precondition.

Also just thinking general about this project, is it anticipated that any other approvals or signing of agreements, etc. would be proposed during the writ period?

Thanks,

Malle

Subject: FW: BN - Lending Directive for Loan to OCRC.docx

Hello Malle,

I am writing to you to inquire about the timing for an approval for an OIC in relation to a loan that the OFA may be making to St. Michael's, as detailed below.

In short, the OFA has the available room under its existing lending OICs (i.e. the OICs where the OFA borrows from Her Majesty, and then in turn makes loans to public bodies), but the expiry dates of the existing OICs are shorter than the proposed maturity. The OICs expire in 2041 and the loan would mature in late 2054. In order for the St. Micheal's loan to occur, there has to be a binding assurance to HOOPP by April 30th that funds will be available to be advance in the summer of 2019. In order for us to provide this, we would need to get approval for an amending OIC to extend the expiry dates of the existing OICs to 2055.

Given that the last LRC scheduled is for April 16th, and the deadlines for providing materials has

passed (March 20th), it doesn't seem possible to get approval for an amending OIC prior to April 30th. Do you know of any options that might make this possible?

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Andrea,

We are in discussions with St. Michael's Hospital to provide them with a $100M loan that would be amortized over 35 years. This is with regard to pension assets that they are transferring to HOOPP that need to be topped up by $100M.

A wrinkle is that they need to provide a binding assurance to HOOPP by April 30 that they have the funds although the effective date of the loan and the transfer of funds won't take place until July/August of 2019. This means that the loan wouldn't be paid off until late 2054.

We understand that the latest dated OIC is 844/2008 which ends June 1, 2041, so in order to make this loan we would need an OIC out to say, 2055 – although we may wish to make it later. A smaller request from Grand River hospital would be similar. Both loans would fit within the existing authorized amounts but not the repayment date.

Please advise the best way to proceed towards the required OIC amendment re timing.

Thanks. I will call to follow up.

Thanks,
Garth

Hi,

I have a place holder for when we do the next joint update to add the new 2 billion OIC 1279/2017 and the associated 2 billion line of credit (IESO-OFA credit facility FHP related). Also note the IESO 975m one will be removed while the IESO 475M will remain- it will be one line representing 475M.

Regards,

Andrea

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Garth,
I have been asked to respond to your query. Attached is the most current listing we have available of the OFA loans under the two OIC's. This listing was finalized in conjunction with Daki in Corporate Finance.

Based on this July 11, 2017 listing, the remaining authority under the two OIC's are as follows:

1) OIC 675/97 (the currently active one) has remaining authority of $721,594,955.57 as of July 11, 2017

2) OIC 767/99 has authority in the amount of $656,000,000.00 as of July 11, 2017

So it seems, we should be able to draw on OIC 675/97 for the additional loans you reference given it was noted in the BN you attached that the 2017-2018 OFA Borrowing and On-lending Plan was set at $486 million and apparently $250 million of that was postponed to 2018-2019.

Let me know should you have any further question or concerns.

Regards,

Andrea

Hi Jean-Francois,

You will see in the highlighted section below that Lisa is asking that we confirm that 2 OFA loans we are working on:

- $150 million to the Ontario Cannabis Retail Corporation
- $100 million to St Michael's hospital

are covered by the "existing on-lending OIC's".

I don't know who would keep a registry of the OICs and what loans they cover. Would your group have this registry?

Thanks,
Garth

Hi Garth,

Please find attached some comments and suggested amendments to the draft briefing note, attached. I did not review the attachments; however, as discussed on Friday, they still reference the loan to St. Michael's hospital as well (and these references should be deleted).

I'm still working on the directive for the OCRC loan. In the meantime, can you please confirm that this loan is covered by the existing on-lending OICs (as referenced in the draft note)?

Thank you,

Lisa

Hi Andrea,

Both entities are public bodies. St Mike's is defined within the Public Hospital Act and the Cannabis Corp. is both a crown agent and a public body. Please let Garth know the balance remaining under the OICs. We should be able to keep drawing down OIC675/97. Once we have a copy of the signed directive and/or the signed agreements (or some other indication the loans will proceed) we can add the loans to the chart. I'd do so anyway for now, as a place holder. Also a good idea to check in with Daki as to the potential change.

We count on CEFD to let us know when there are changes in the OIC requirements. And as Garth has done, they should check with us to ensure authority exists before proceeding with any new loans.

On another note, I don't see the $2B OFA-IESO credit facility & OIC recorded. Do you happen to know if that kept elsewhere for some reason?
Thanks,
Opal

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi,

As of the last time we did the update exercise in mid-July 2017, there was approximately 1.4 billion available under the two OIC's.

It appears (based on the briefing note attached to the email below from Garth) the Board approved the 2017-18 OFA Borrowing and On lending Plan in June 2017 for a net amount for $486 million which is well under the $1.4 billion. The note further indicated that $250 million of that approved amount related to colleges and universities has since been postponed to 2018-19. I think this would seem to indicate there is sufficient room to add the two loans ($150 million to OCRC and $100 million to St Michael's). We are not privy to the loan activity in Corporate Finance on a day to day basis so this analysis assumes no other mitigating activity since July 2017.

In terms of the appropriateness of lending to OCRC and St Michael's. I can only provide my best thoughts (legal needs to determine with certainty). Although the majority of loans appear to be to Colleges and Universities, I do not see anything that makes St Michaels's inadmissible. Hospitals are included in the definition of public bodies under the OFA section of CIPA and the OFA's objects

include assisting public bodies to borrow. The OIC's reference "third Party loans" and thus contemplate such activity. As for OCRC, from what I have read , it will be a subsidiary of LCBO which I think is a crown corporation, I am unsure but it may be captures in the definition of public body under as a Crown agency. OFA Legal would need to determine this with certainty.

When you get in and have time to assess, we can discuss and then I will respond to Garth.

Regards,

Andrea

Hi Andrea, I agree regarding the advice OFA legal will need to provide. Don't think they need copies of the OIC, but they need to know whether the 2 loans are already included in the spreadsheet and if not, that there is room under the OICs to include them. We can touch base on this prior to you responding to the email tomorrow morning.

Have a good night as well.
Opal.

Hi Sarah,

As Malle says, the best approach and the approach we, including Gadi, are recommending is that the "commitment" (in whatever form) be provided by MOH.

However, it appears as though the loan will be required eventually and will only work under a 35 year amortization (again Gadi has agreed to this amortization in principle), so we will need to amend the OIC. Given that our Plan B, which may be needed, is to provide some joint assurance MOF/MOH to HOOPP by April 30, I would like to work with Capital Markets to try to get the OIC in place so that we can use Plan B if necessary.

If you agree, just let me know what you need from me.

Thanks,
Garth

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Malle,

Thank you very much for your quick response.

Garth – I'm not familiar with the various inputs Malle has mentioned below with the loan, and the

timing for getting these. Is it possible to obtain all the required approvals, etc. prior to April 30th? As Malle indicates, a binding commitment doesn't seem possible without these elements. On the other hand, if it is possible, we could try to make the case for including an amending OIC for the April 16th LRC.

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi,

Dimitri has been working on this as well so copying him here. According to the current OIC's, OFA must repay the funds borrowed from the Province by 2040 (I haven't check them all now but assume that you have) so the OFA couldn't make a longer term loan to a third party such as the hospital without an amending OIC as you describe.

I think that the only thing that could be done is to see whether there is any possibility of walking this OIC in at this point if it is that critical. However, at the same time, I know that there have been numerous elements regarding this potential loan including possibly having MOHLTC provide an indemnity to the OFA regarding the repayment by the hospital. Not sure that we could in anyway provide a binding commitment that the money will be available in 2019 since there would be many other elements such as a Minister's directive, the negotiation of the loan agreement and due diligence that would make it conditional. However, it seems that the amendment to the OIC is a necessary precondition.

Also just thinking general about this project, is it anticipated that any other approvals or signing of agreements, etc. would be proposed during the writ period?

Thanks,

Malle

Cc: Parish, Garth (OFA); Dalgarno, Andrea (OFA); Kandelas, Opal (OFA)
Subject: FW: BN - Lending Directive for Loan to OCRC.docx

Hello Malle,

I am writing to you to inquire about the timing for an approval for an OIC in relation to a loan that

the OFA may be making to St. Michael's, as detailed below.

In short, the OFA has the available room under its existing lending OICs (i.e. the OICs where the OFA borrows from Her Majesty, and then in turn makes loans to public bodies), but the expiry dates of the existing OICs are shorter than the proposed maturity. The OICs expire in 2041 and the loan would mature in late 2054. In order for the St. Micheal's loan to occur, there has to be a binding assurance to HOOPP by April 30th that funds will be available to be advance in the summer of 2019. In order for us to provide this, we would need to get approval for an amending OIC to extend the expiry dates of the existing OICs to 2055.

Given that the last LRC scheduled is for April 16th, and the deadlines for providing materials has passed (March 20th), it doesn't seem possible to get approval for an amending OIC prior to April 30th. Do you know of any options that might make this possible?

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Andrea,

We are in discussions with St. Michael's Hospital to provide them with a $100M loan that would be amortized over 35 years. This is with regard to pension assets that they are transferring to HOOPP that need to be topped up by $100M.

A wrinkle is that they need to provide a binding assurance to HOOPP by April 30 that they have the funds although the effective date of the loan and the transfer of funds won't take place until July/August of 2019. This means that the loan wouldn't be paid off until late 2054.

We understand that the latest dated OIC is 844/2008 which ends June 1, 2041, so in order to make

this loan we would need an OIC out to say, 2055 – although we may wish to make it later. A smaller request from Grand River hospital would be similar. Both loans would fit within the existing authorized amounts but not the repayment date.

Please advise the best way to proceed towards the required OIC amendment re timing.

Thanks. I will call to follow up.

Thanks,
Garth

Subject: Borrowing Program

As you're aware, the Minister has just announced the Commission's estimated deficit. While it's a large change, I believe that the overall impact on the borrowing program will only be about half that amount when combined with the extra cash prefunded in 17-18 identified with the release of Public Accounts.

Because of this large differential between the fiscal change and the borrowing requirement change, I'd like to get the revised financing table up to the DMO, and through them to the MO, as quickly as we can this morning, so that we can get their approval to release it through a CEO's corner as early next week as possible. In the meantime, our response to questions from banks or rating agencies has to be a holding line of we are calculating the impact on the borrowing program, but because of the non-cash nature of much of the change, we expect the increase in our financing requirements will be substantially less than the difference between the Commission's forecast deficit and the estimated deficit in Budget 2018.

Subject: RE: DRAFT IESO FH credit letter

Hi Mike,

I'm coordinating with John Kim on particulars of IESO's attached request, but would appreciate your input on the following:

1) IESO has requested "a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days." Currently the $975M OFA-IESO credit facility permits draws between 28 and 95 days. Is it acceptable to reduce the minimum amount to 7 days for the existing facility (to also be applied to the requested additional $1,500M commitment)?

2) IESO has requested the "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum". The current $975M OFA-IESO Credit Facility provides for this same rate. Would this rate be acceptable on the requested additional $1,500M commitment?

Thanks,

Sarah

Hi Sarah:
I'm thinking at this time that 7 to 95 days would be ok. Also the Ontario + 25bps off the top for the new facility is likely ok as it matches the $975 facility. Happy to discuss further.

Mike

Mr. Gadi Mayman
Chief Executive Officer
Ontario Financing Authority
1 Dundas Street West, Suite 1400
Toronto, Ontario, M7A 1Y7

Re: **IESO Credit Requirements for the 2017 Fair Hydro Program**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the Fair Hydro program (FHP) to reduce electricity prices for consumers in the province. Legislation is expected to be introduced this month for the program. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that to support the IESO's role in implementation it will need greater credit liquidity than currently exists.

The existing credit facility between the IESO and the Ontario Financing Authority's (OFA) is $975 million. The IESO proposes that an additional facility/commitment be provided in the amount of $1,500 million. This would enable the IESO to provide interim financing for the FHP's global adjustment smoothing for a period of several months if needed.

We suggest the OFA's current $975 million agreement and the new separate (or co-mingled) FHP agreement consider the following key provisions:

- FHP: 5 year term to align with the FHP's deferral of electricity prices period plus a few months of contingency (i.e. September 30, 2022);
- FHP: interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum;
- FHP: drawings to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers;
- $975 million: draws to permit for FHP purposes; and
- $975 million: a reduction in the 28 days minimum draw for the existing facility to a minimum of 7 days to a maximum of 95 days;

Should the IESO find that there is consistent usage of these facilities we will contact the OFA

for further arrangements.

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facility(ies) and we will provide such evidence for the OFA's records.

We appreciate the OFA's continue support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

DRAFT

Subject: RE: DRAFT IESO FH credit letter

Hi Sarah,

Attached is CEFD comments/markup. Was waiting for one last confirmation but might as well send this out to you to which you seemed to have incorporated already.

For your 2 comments, highlighted below, the first question we need confirmed from IESO is their requirement. We prefer to go the route of doing the FHP requirement separately as well, so we need confirmation on if the requirement is $1.5 billion or is there anything else they would have

used the $975M one for. We may need to reduce the $975M one.

Would you have LRC dates for June/July? Just trying to see how the timelines would fit in. You had mentioned you may have a table with some dates, just so we can work backwards.

Thanks,
Salman

Subject: RE: DRAFT IESO FH credit letter

Thank you, Salman

I asked Mike Manning about the changing the draw period from the current 28-95 days, to 7-95 days, and he is fine with that change.

Mike also is fine with the proposed "interest charge to be Province's cost of funds for borrowing with a similar term as determined by OFA plus 0.25 percent per annum", as it exactly matches the rate on the current $975M facility.

Just so we agree on IESO's requested in terms of setting up the credit facility, is it also your understanding that IESO wishes to:

1) amend the $975M to allow for FHP draws and to reduce the draw period to 7-95 days, but the expiry date will remain unchanged at **December 31, 2019**, and;
2) have a new FHP exclusive facility for the requested additional $1,500M commitment expiring September 30, 2022, with the terms outlined in the letter.

Have you also received confirmation that OFA will be funding the new $1,500M commitment?

Thanks,
Sarah

Subject: FW: DRAFT IESO FH credit letter

Hello John,

I'm not sure if you've seen the attached letter as of yet. We have received this request from IESO to set-up a credit facility for IESO to borrow $1,500M to fund the Fair Hydro Program.

IESO indicates that they either wish to have the existing $975M credit facility between the OFA and IESO increased by $1,500M (incorporating their proposed provisions) or to have a separate $1,500M credit facility altogether. I'm aware that there have some discussions around this. Do you know if it has been decided if OFA or OEFC should provide this facility?

Thanks,
Sarah

Carlos, Mike and Jim

Since I will not be available for the meeting this afternoon here is my single comment.

I have concerns with the weighted average calculation of both the benchmark and actual issuance including the debt issued to the Trust by OPG funded by the 44% equity injection given that there are no market forces in play with regard both issuance and funding of this tranche, at least from an OPG perspective.

The only way in which this tranche is acceptable for performance inclusion is by OPG linking the yield on this debt to what was issued to the markets by the Trust. For example the debt from the equity injection is X bps above or below what was issued in the markets for equal tenors. Even so a linked component in the benchmark, in my opinion, adds limited value.

Thanks

Ken k

I will continue to review, but think the Act(s) that governs IESO and this new structure should provide some information re the first question you've directed to Ken. Also, marked a typo in the intercept provision.

From the OILC Act:

Agreement re appropriated funds
25 (1) This section applies where,
(a) a municipality or eligible public organization has borrowed money from the Corporation for a purpose prescribed under clause 36 (1) (a); and
(b) money has been appropriated by the Assembly for payment to the municipality or the eligible public organization. 2011, c. 9, Sched. 32, s. 25 (1).

Agreement re default
(2) As security for repayment, the municipality or the eligible public organization may agree in writing with the Corporation that in the event of default on repayment of the amount borrowed under clause (1) (a) or any portion of the amount borrowed, the Minister of Finance may deduct from the money mentioned in clause (1) (b) amounts not exceeding the amounts that the municipality or the organization fails to pay to the Corporation on account of the indebtedness. 2011, c. 9, Sched. 32, s. 25 (2).

Subject: Draft for review

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption ~~form~~ from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will be delayed, likely for a number of weeks.

If the decision is made <u>not</u> to include the intercept provision, a directive will need to be obtained

from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (i)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Hi Malle,
I just received the latest draft of the pricing protocol document and notice that OPG has inserted the OFA as the counterparty.

Can we discuss?

Thanks
Carlos

Carlos,

Please find attached a clean and incremental blackline of the revised Subordinated Debt Pricing Protocol. This reflects comments received from the MOE late last week. We have revised the document to appear less formal (changed from Protocol Agreement to Protocol) and also changed the counterparty to be the OFA. We have also added an obligation for the FSM to share the inputs (ie Indicative Spreads, and Credit Ratings) with the OFA, within a reasonable time period.

Please let us know if you have any additional comments or concerns.

Thanks

Sheen

Hi Sarah,
Background information:
1)OPG Treasury had initially circulated the "Fair Hydro Subordinated Notes Interest Rate Protocol" draft memos dated Nov7 and Nov 21 describing the process that OPG would use to price the Subordinated and Junior-Subordinated debt between OPG and the Trust. Capital Markets has provided feedback to simplify the process and spread calculations used for pricing the sub and junior-sub debt.
2)A new "Subordinated Debt Pricing Protocol Agreement" draft dated Nov29 showing the counterparties as OPG and MoE was received and circulated on Nov30.
3)This morning, we received the "Subordinated Debt Pricing Protocol" draft dated Dec11 showing the counterparties as OPG and OFA.

Let's discuss with Ken, if the MoU can incorporate any help that MoE requires relating to the pricing of the subordinated and junior sub debt pricing protocol.

Regards
Carlos

Subject: RE: EXTERNAL – RE: Fair Hydro Plan Protocol Agreement - Subordinated and Junior Subordinated Debt

Hello Carlos – I have never seen this protocol before and don't have any background or context. I have reached out to Ken Russell who has been working on an MOU with MOE regarding the services being provided to MOE in regard to the equity injection process, to see if this has crossed his desk or come up in discussion. I am waiting for his response but this does not seem related to that.

I agree with Malle that MOE should provide information as to the rationale of making the OFA the counterparty.

Based on a cursory review, I note that the language in the document has been changed from "agreement" to "protocol". I didn't identify any positive obligations of the OFA to do anything under the protocol. The only mention of the OFA is with respect to OPG's reporting obligations:

2.06Reporting

The FSM will share with the OFA, within a reasonable time period following receipt, a copy of all Indicative Spreads obtained pursuant to Section 2.04 and all Credit Ratings obtained pursuant to Section 2.05.

I don't see why OFA needs to be the sole counter-party to this protocol for S. 2.06 to be included/effective (reporting to the Province can be agreed to be done through reporting to the Province's agent, the OFA). I would think that the Province would want to be the counterparty to the extent it wants to enforce the protocol directly, rather than doing so through the OFA (to the extent a Protocol is enforceable, I note that there is no clause indicating that OPG is bound by the protocol and there is no clause outlining any remedies for breach, or process for dispute resolution. I also note that the time periods in 2.05 and 2.06 are vague – "from time to time" and "within a reasonable time" respectively, not sure if this is appropriate for the Provnce's/OFA's needs).

I have no comments on the clauses dealing with interest rate setting and spreads as these are technical. I am assuming that Capital Markets is reviewing and commenting on the appropriateness of these clauses.

Absent more context, background, understanding of the purpose of this protocol, I don't think I can add anything further at this point. Please let me know if you would like to discuss or if you have any questions.

Thanks very much,

Sarah

Subject: RE: Energy's PRRT

Hi John

Based on a conversation with Gadi, any solution that continues with the intercept provision will most likely be unacceptable from OPG's perspective. They are concerned that despite the intercept being toothless on a practical basis it may send the wrong message to DBRS as it assess the credit-worthiness of the OFHP debt.

It appears that the only solution is have the Minister sign an exemption and we should focus on

getting that in place.

Thanks

Ken k

Hi Lisa and everyone,

Along with comments from Ken over the weekend, just circling everyone in on the latest information from TBS. Pls. advise if your assessment changes but to me, TBS appears to be advising that Green ON Fund is not IESO's operation expense/allocation but allocation from MOECC to Green ON Fund.

Also, IESO staff have thus far signalled positively on the letter agreement. We are potentially looking about 2 days to conclude the process.

One caveat is that OPG is requesting that the trust be given first priority/security over all IESO assets. While the issue is still being discussed, if this is to proceed, the IESO will have to amend its current facilities. I would consider this almost as a separate issue in that if the scenario plays out, then we would need to look at and potentially open up all existing facilities.

Hi James,

The Green ON Fund…am I correct to think that this is also not part of IESO's operating expense/allocation? As for the items below (for Energy), it is a program expense facilitated through the IESO?

Thanks,

John

Subject: RE: Energy's PRRT

Sorry for the delay, had to dig in the email archives.

There is no IESO allocation in Printed Estimates. There is an OREC transfer payment. In the 17-18 PRRT workbook for OREC is the following:

- Electricity utilities are reimbursed by submitting and receiving claims which are netted against their other monthly transactions from the IESO, and the IESO submits and receives one monthly amount from the Ontario Financing Authority on behalf of the Ministry of Energy – this process is streamlined and leverages an already existing reimbursement process, thereby minimizing costs.

The second attachment, email, contains the consolidation worksheet from OPCD. For IESO, I don't see any Transfer Payment flows in from the Province.

Hi Kelly,

I'm going to draw you into the nebulous world of FHP and am going to ask you to get familiar as you can with the attached information Opal has provided. This is still considered confidential. Essentially she looking to see, based on the information she's been provided, if you might be able to attempt to connect how this information fits together in order to better understand how the FHP is being structured.

Opal mentioned something to the effect that OPG is going to Energy to submit its request for a capital infusion, Energy is coming to the Province, the Province is investing funds in OPG and will get some shares in OPG. OPG will then go form some type of trust and invest those funds. Clear as mud? Thought so.

In other words, could you please review the docs and do your best to figure it out based on the information provided? If you have any comments or questions on the docs that are worth raising, please let me know.

Thanks,

Sarah

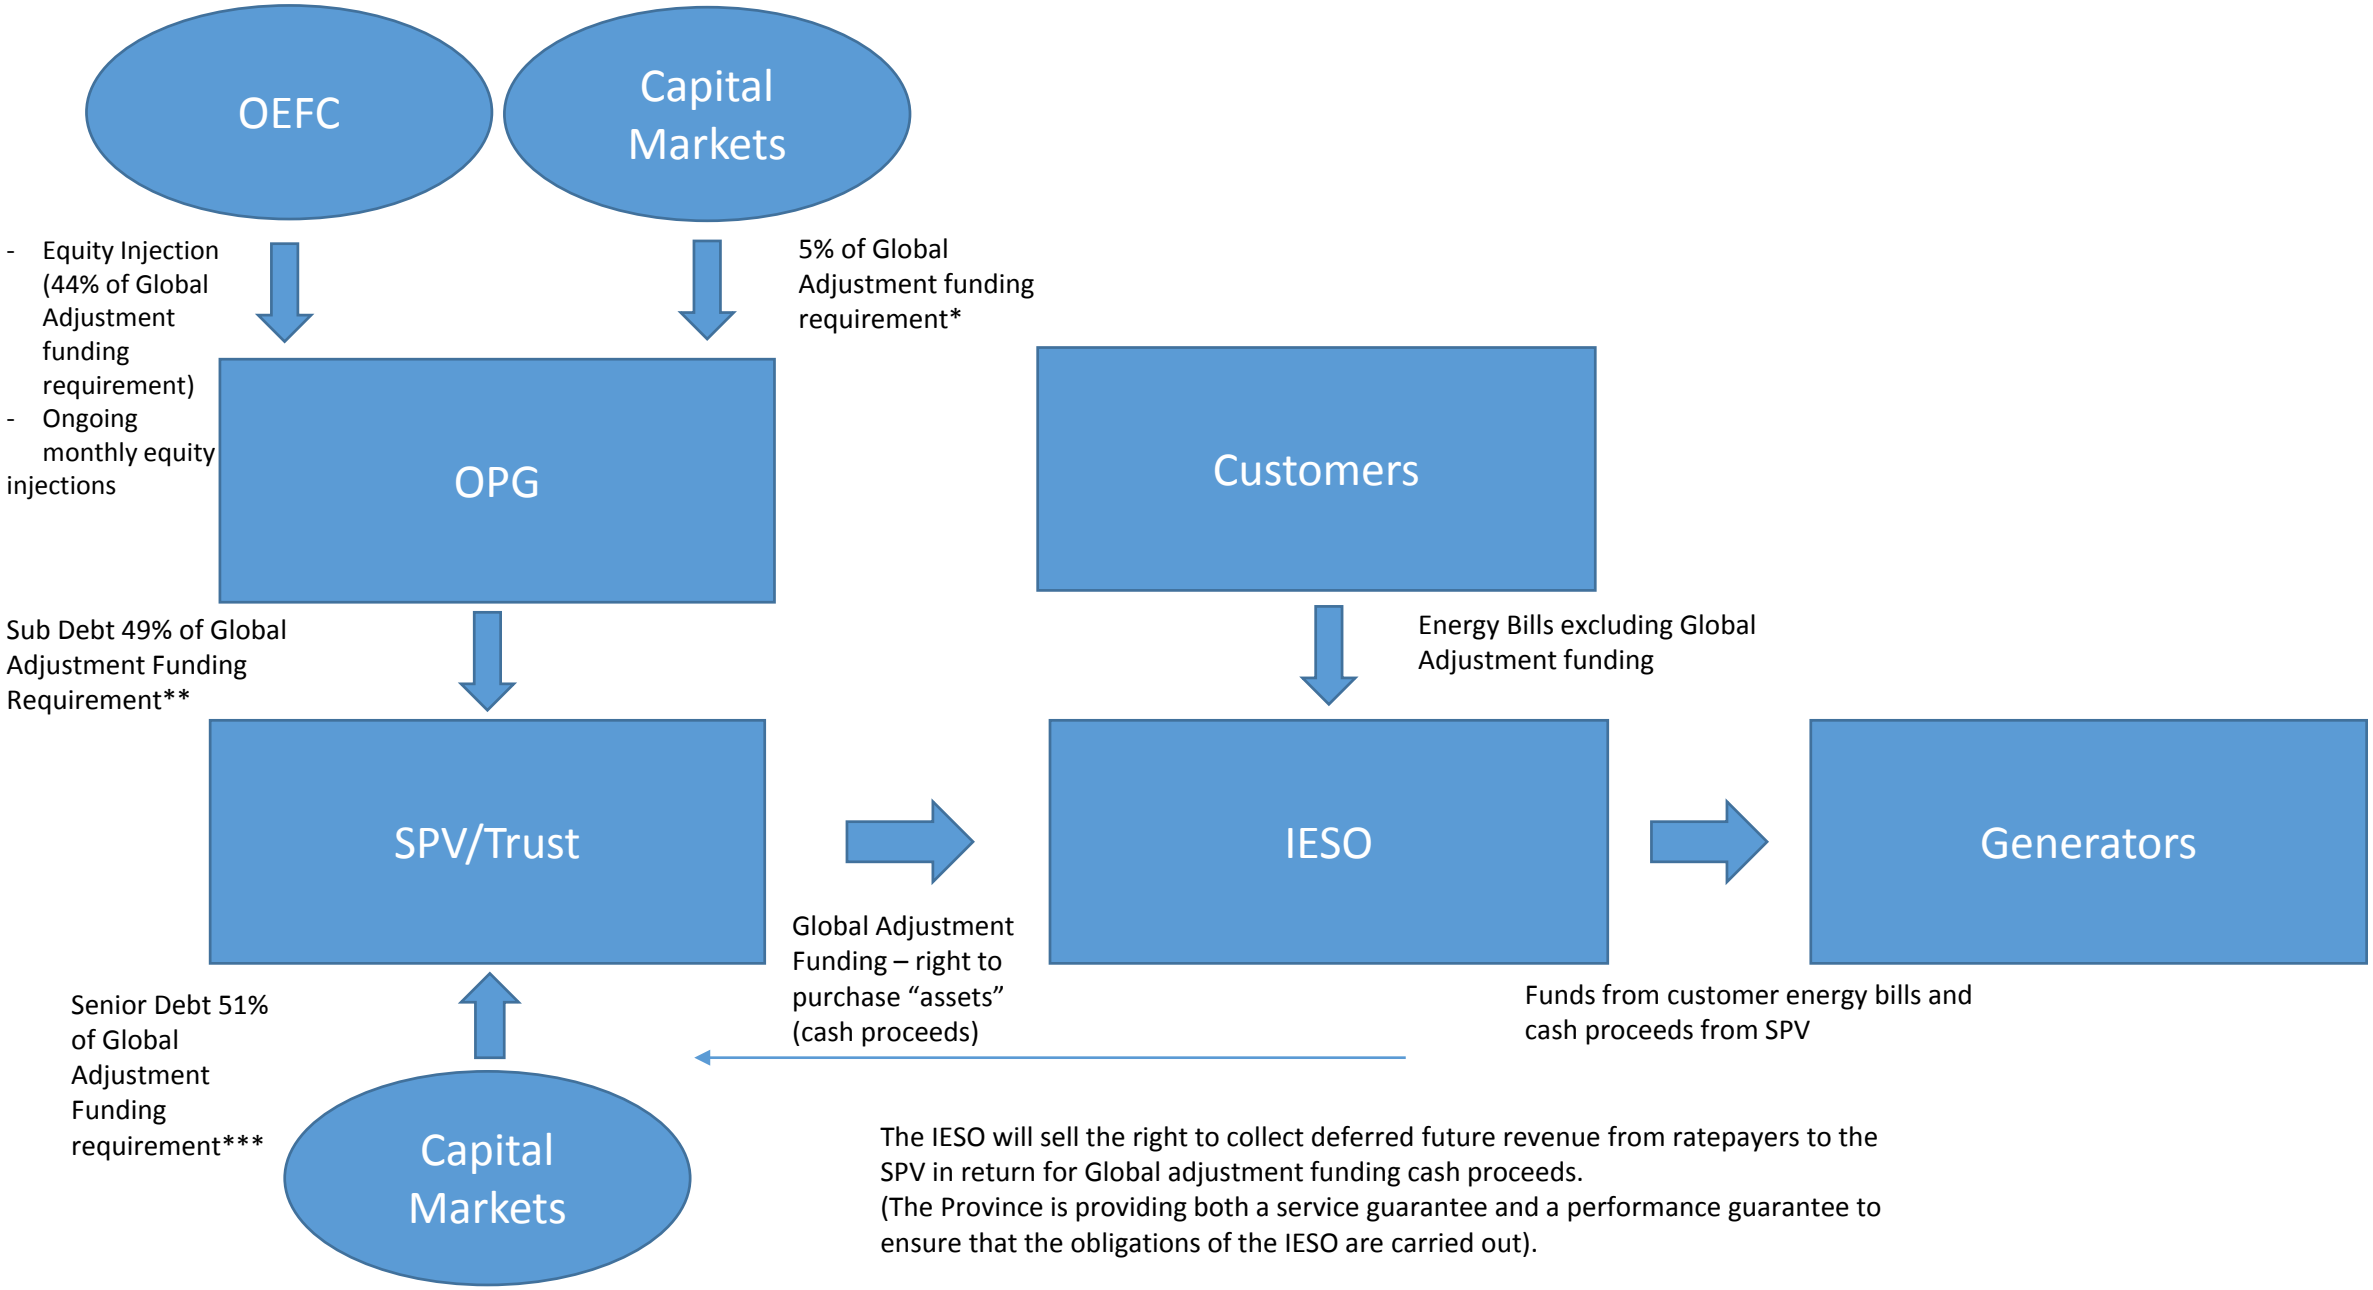
Subject: FHP

Hi Sarah,

The FHP seems to be taking shape but (as should be reasonably expected) much of the information is coming to me in bits and pieces. Would be good to have a Doc staff familiar with this as more info becomes available or is being developed. It's being kept at a fairly high level at this time, but don't want to be surprised if Documentation is needed to jump in. I've included the emails on the subject to help provide some context – they aren't all helpful though. What I've sent is for review and provide opportunity to comment as well as to ask questions.

Docs for review/comment/question:
Financing Trust- Performance Fee Recommendation
Subordinated Debt Term Sheet
Outstanding Business Issues Ontario Fair Hydro Plan markup_cy1
Term Sheet Master Subscription draft May 26
Provincial Support Agreement May 12 MOF draft comments
Term Sheet – Provincial Support Agreement May 12
Compare Term Sheet Provincial Support Agreement Term Sheet

Thanks,
Opal.



The IESO will sell the right to collect deferred future revenue from ratepayers to the SPV in return for Global adjustment funding cash proceeds.
(The Province is providing both a service guarantee and a performance guarantee to ensure that the obligations of the IESO are carried out).

Notes:

* Tranche C sub debt from OPG via Capital Markets 5%

** Tranche B sub debt from OPG via OEFC 39% + Tranche C sub debt from OPG via OEFC 5%

*** Tranche A senior debt from Capital Markets 51%

The SPV structure is used to accomplish the following:

- SPV holds the right to charge customers for the benefit of debt holders;
- Allows the financing vehicle to be separated from OPG as an SPV structure is set up as generally single purpose entities with no other operations that could add risk to the SPV, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings;
- Enables SPV to potentially get a higher credit rating than OPG;
- Supports consolidation with OPG provided accounting requirements arc satisfied;

This approach supports a number of objectives of the Global Adjustment Recovery Right:

- 51% external senior debt supports separation of the SPV from the Province
- 5% junior subordinated debt establishes OPG's "at risk" equity which supports separation of the SPV from the Province
- Subordinated debt provides flexibility to the financing structure and additional credit support to external debt holders
- Subordinated debt sourced from OPG (mainly funded by equity injection from the Province) minimizes impact on OPG credit metrics reducing risk of an OPG rating downgrade that could result in the SPV being consolidated directly with the Province as the SPY would be considered an arm of the Province.

Potential Documents For Documentation Review (where OEFC or OFA or Province are a party):

OEFC – OPG equity master subscription agreement term sheet (June)

Provincial service and performance guarantees re IESO

IESO needs a backstop credit facility in the event the SPV does not, or cannot, purchase “assets” from IESO (right to collect electricity bill payments).

Other documents look to me to be “indirect”, but we may be asked to comment on sub debt docs and the like (but the parties are the SPV and the bond market).

SCHEDULE
to the
1992 Master Agreement

dated as of **[■]**, 2017

between

[HEDGE PROVIDER]
("**Party A**"),

and

[ISSUER]
("Party B")

Part 1 **Termination Provisions.**

(a) ***"Specified Entity"*** means in relation to Party A for the purpose of:

Section 5(a)(v), Not Applicable

Section 5(a)(vi), Not Applicable

Section 5(a)(vii), Not Applicable

Section 5(b)(iv), Not Applicable

and in relation to Party B for the purpose of:

Section 5(a)(v), Not Applicable,

Section 5(a)(vi), Not Applicable

Section 5(a)(vii), Not Applicable

Section 5(b)(iv), Not Applicable

(b) ***"Specified Transaction"*** will have the meaning specified in Section 14 of the Agreement.

(c) The ***"Breach of Agreement"*** provision of Section 5(a)(ii) will apply to Party A and will not apply to Party B.

(d) The ***"Credit Support Default"*** provisions of Section 5(a)(iii) will apply to Party A and will not apply to Party B.

(e) The ***"Misrepresentation"*** provisions of Section 5(a)(iv) will apply to Party A and will not apply to Party B.

(f) The ***"Default under Specified Transaction"*** provisions of Section 5(a)(v) will **[not]** apply to Party A and will not apply to Party B.

(g) The ***"Cross-Default"*** provisions of Section 5(a)(vi) will not apply to Party A and will not apply to Party B.

(h) The ***"Credit Event Upon Merger"*** provisions of Section 5(b)(iv) will not apply to Party A and will not apply to Party B.

(i) The ***"Automatic Early Termination"*** provision of Section 6(a) will not apply to Party A and will not apply to Party B.

(j) ***Payments on Early Termination***. For the purpose of Section 6(e) of this Agreement:

(i) Market Quotation will apply.

(ii) The Second Method will apply.

(k) ***Payments on Early Termination Due to Certain Events***. Notwithstanding Section 6, if Party A is (A) the Affected Party for an Additional Termination Event or a Tax Event Upon Merger, or (B) the Defaulting Party for an Event of Default, paragraphs (i) to (v) below apply:

(i) The definition of ***"Market Quotation"*** is deleted and replaced with the following:

"Market Quotation" means, for one or more Terminated Transactions, a Firm Offer which is:

(1) made by a Reference Market-maker that is an Eligible Replacement;

(2) for an amount that would be paid to Party B (expressed as a negative number) or by Party B (expressed as a positive number) in consideration of an agreement between Party B and the Reference Market-maker to enter into a Replacement Transaction; and

(3) made on the basis that Unpaid Amounts for the Terminated Transaction or group of Transactions are to be excluded but any payment or delivery that would, but for the relevant Early Termination Date, have been required (assuming satisfaction of any conditions precedent) after that Early Termination Date is to be included.

(ii) In determining whether or not a Firm Offer satisfies the condition in sub-paragraph (ii)(B) of the definition of "Replacement Transaction", Party B will act in a commercially reasonable manner.

(iii) The definition of ***"Settlement Amount"*** is deleted and replaced with the following:

"Settlement Amount" means, for any Early Termination Date:

(a) if, on or prior to the Early Termination Date, a Market Quotation for a Terminated Transaction or group of Terminated Transactions is accepted by Party B and is legally

binding, the Termination Currency Equivalent of the amount (whether positive or negative) of the Market Quotation;

(b) if, on the Early Termination Date, no Market Quotation for the relevant Terminated Transaction or group of Terminated Transactions has been accepted by Party B and is legally binding and one or more Market Quotations have been communicated to Party B and remain capable of becoming legally binding upon acceptance by Party B, the Termination Currency Equivalent of the amount (whether positive or negative) of the lowest of the Market Quotations (for the avoidance of doubt, (i) a Market Quotation expressed as a negative number is lower than a Market Quotation expressed as a positive number and (ii) the lower of two Market Quotations expressed as negative numbers is the one with the largest absolute value); or

(c) if, on the Early Termination Date, no Market Quotation for the relevant Terminated Transaction or group of Terminated Transactions is accepted by Party B and is legally binding and no Market Quotations have been communicated to Party B and remain capable of becoming legally binding upon acceptance by Party B, Party B's Loss (whether positive or negative and without reference to any Unpaid amounts) for the relevant Terminated Transaction or group of Terminated Transactions.

(iv) At any time on or before the Early Termination Date at which two or more Market Quotations have been communicated to Party B and remain capable of becoming legally binding upon acceptance by Party B, Party B must accept the lowest of the Market Quotations. For this purpose, (A) a Market Quotation expressed as a negative number is lower than a Market Quotation expressed as a positive number, and (B) the lower of two Market Quotations expressed as negative numbers is the one with the largest absolute value.

(v) If Party B requests Party A in writing to obtain Market Quotations, Party A will use reasonable efforts to do so before the Early Termination Date.

(vi) For the purpose of determining Unpaid Amounts, any payment or delivery obligation which was (or would have been but for Section 2(a)(iii)) required to be performed pursuant to paragraph 2 of the Credit Support Annex shall be disregarded.

(l) ***"Termination Currency"*** shall mean Canadian dollars.

(m) ***Bankruptcy***

(i) Section 5(a)(vii)(2), (7) and (9) does not apply to Party B.

(ii) Section 5(a)(vii)(3) does not apply to Party B for any assignment, arrangement or composition effected by or under the Indenture Documents.

(iii) Section 5(a)(vii)(4) does not apply to Party B for a proceeding or petition instituted or presented by Party A or any of its Affiliates.

(iv) Section 5(a)(vii)(6) does not apply to Party B for (i) an appointment that is made under the Indenture Documents, or (ii) an appointment to which Party B is not subject.

(v) Section 5(a)(vii)(8) applies to Party B only if it applies to Section 5(a)(vii)(1), (3), (4), (5) and (6), as amended.

(n) ***Tax Event and Tax Event Upon Merger***

Section 5(b)(ii) applies but the words "(x) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the date on which a Transaction is entered into (regardless of whether such action is taken or brought with respect to a party to this Agreement) or (y)" are hereby deleted.

Section 5(b)(iii) applies but Party A will not be entitled to designate an Early Termination Date by reason of a Tax Event Upon Merger if it is the Affected Party.

Section 6(b)(ii) applies but the words "or if a Tax Event Upon Merger occurs and the Burdened Party is the Affected Party" are deleted.

(o) ***Additional Termination Event*** will apply. The following shall constitute an Additional Termination Event:

(i) It shall be an Additional Termination Event and Party B shall be the sole Affected Party and all Transactions then outstanding shall be Affected Transactions if Party B fails to comply with the requirements of Part 5(o).

(ii) It shall be an Additional Termination Event and Party A shall be the sole Affected Party and all Transactions then outstanding shall be the Affected Transactions if Party A fails to comply with the requirements of Part 5(h).

(iii) It shall be an Additional Termination Event and Party B shall be the sole Affected Party upon an acceleration of the Series [■] Notes under Section **[8.02]** of the Trust Indenture.

(iv) **[NTD: consider including a partial termination provision to facilitate right-sizing interest rate hedges following any unscheduled reductions of the underlying financed amounts]**

Part 2 **Tax Representations. [NTD: subject to Tax review]**

(a) ***Payer Representations.*** For the purpose of Section 3(e) of this Agreement, Party A and Party B will make the following representations.

It is not required by any applicable law, as modified by the practice of any relevant governmental revenue authority, of any Relevant Jurisdiction to make any deduction or withholding for or on account of any Tax from any payment (other than interest under Section 2(e), 6(d)(ii) or 6(e) of this Agreement) to be made by it to the other party under this Agreement. In making this representation, it may rely on (i) the accuracy of any representations made by the other party pursuant to Section 3(f) of this Agreement, (ii) the satisfaction of the agreement contained in Section 4(a)(i) or 4(a)(iii) of this Agreement and the accuracy and effectiveness of any document provided by the other party pursuant to Section 4(a)(i) or 4(a)(iii) of this Agreement and (iii) the satisfaction of the agreement of the other party contained in Section 4(d) of this Agreement, except that it will not be a breach of this representation where reliance is placed on clause (ii) above and the other party does not deliver a form or document under Section 4(a)(iii) by reason of material prejudice to its legal or commercial position.

(b) ***Payee Representations.*** For the purpose of Section 3(f) of this Agreement, Party A and Party B make the representations specified below, if any:

(i) Party A and Party B each make the following representation:

It is not a non-resident of Canada within the meaning of the *Income Tax Act (Canada).*

(c) ***Other representations:*** None made.

Part 3 **Agreement to Deliver Documents.**

For the purpose of Sections 4(a)(i) and 4(a)(ii) of this Agreement, each party agrees to deliver the following documents, as applicable:

(a) Tax forms, documents or certificates to be delivered are:

Party required to deliver document	**Form/Document/ Certificate**	**Date by which to be delivered**
Each Party	Any document required or reasonably requested to allow the other party to make payments under the Agreement without any deduction or withholding for or on account of any Tax or with such deduction or withholding at a reduced rate.	Promptly upon reasonable demand by either party.

(b) Other documents to be delivered are:

Party required to deliver document	**Form/Document/ Certificate**	**Date by which to be delivered**	**Covered by Section 3(d) Representation**
Each Party	Evidence satisfactory in form and substance to the other party of (i) the authority of the signatory of the party to execute this Agreement **[and Credit Support Annex]** and any Confirmation and (ii) list of the names, true signatures of the signatory of this Agreement or any Confirmation.	Upon execution of this Agreement	Yes
Party A	A copy of unaudited financial statements for the most recently ended fiscal year.	As soon as reasonably practicable following a request by Party B to the extent not publically available online	No
Each Party	Legal opinion satisfactory to the other Party.	Upon execution of this Agreement	Yes
Party B	ISDA Cross-Border Swaps Representation Letter	If requested by Party A, upon execution and delivery of this Agreement.	No.
Party A and B	ISDA Canadian Representation Letter #1	Upon execution and delivery of this Agreement.	No.

Part 4 **Miscellaneous.**

(a) ***Addresses for Notices.*** For the purpose of Section 12(a) of this Agreement:

Address for notices or communications to Party A: **[NTD: ■]**

Address: ■
Attention: ■
Facsimile: ■ Telephone: ■
Electronic Messaging System Details: ■
(Only with respect to transactions through this Office)

For any notices with respect to Section 5 and 6 of this Agreement for Party A:

Address: ■
Attention: ■
Facsimile: ■ Telephone: ■
E-mail: ■

Address for notices or communications to Party B:

[ISSUER]
c/o Ontario Power Generation Inc.
100 University Avenue, 11th Floor
Toronto, Ontario, M5J 2Y1

Attn: [■]
Fax: [■]
Email: [■]

with copies to:

[ISSUER TRUSTEE], in its capacity as Issuer Trustee for [ISSUER]

Attn: [■]
Fax: [■]
Email: [■]

Notwithstanding Section 12(a) of this Agreement, service of legal process documents relating to this Agreement may not be delivered by facsimile or by electronic messaging system.

(b) ***Process Agent***. For the purpose of Section 13(c) of this Agreement, neither party appoints a Process Agent.

(c) ***Offices***. The provisions of Section 10(a) will apply to this Agreement.

(d) ***Multibranch Party***. For the purpose of Section 10(c) of this Agreement:

Party A **[is][is not]** a Multibranch Party and may only enter into a Transaction through any of the following Offices:

Party B is not a Multibranch Party.

(e) ***Calculation Agent***. The Calculation Agent is Party A unless (i) otherwise specified in a Confirmation in relation to the relevant Transaction or (ii) a replacement Calculation Agent is designated by Party B as set

forth below. All calculations by the Calculation Agent shall be made in good faith and through the exercise of its commercially reasonable judgment. The calculations and determinations of the Calculation Agent shall (except in the case of manifest error) be final and binding upon all parties. Upon the failure of Party A to perform its obligations as Calculation Agent hereunder within five Local Business Days of Party A receiving from Party B notice of such failure, the sole remedy of Party B will be the right, upon notice to the Calculation Agent, to designate a third party that is a Reference Market-maker as replacement Calculation Agent. For so long as an Event of Default in respect of Party A is continuing, Party B will have the right, upon notice to the Calculation Agent, to designate a third party that is a Reference Market-maker as replacement Calculation Agent, without prejudice to any other remedy to which Party B is otherwise entitled under this Agreement. Upon Party A demonstrating its ability to resume performance of its obligations as Calculation Agent or such Event of Default no longer continuing, Party A may elect to resume its role as Calculation Agent.

(f) ***Credit Support Document***. Details of any Credit Support Document:

In relation to Party A: any Eligible Guarantee,

In relation to Party B: not applicable.

(g) ***Credit Support Provider***. Credit Support Provider means in relation to Party A, any Eligible Guarantor, and in relation to Party B; not applicable.

(h) ***Governing Law***. This Agreement will be governed by and construed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein (without reference to choice of law doctrine).

(i) ***Jurisdiction***. Section 13(b)(i) is hereby deleted and replaced by the following Section 13(b)(i):
"(i) submits to the exclusive jurisdiction of the Province of Ontario."

(j) ***Netting of Payments***. Subparagraph (ii) of Section 2(c) of this Agreement will not apply.

(k) ***"Affiliate"*** will have the meaning specified in Section 14 of this Agreement.

(l) ***Characterization under Program Agreements.*** The parties acknowledging and agree that:

(i) The Master Agreement and this Schedule constitute a "Derivative Agreement" as used and defined under the Indenture Documents and a "derivative agreement" as defined under the Act.

(ii) Party B is a "Derivative Counterparty" as used and defined under the Indenture Documents and a "derivative agreement" as defined under the Act.

(iii) Any payments required in connection with the Master Agreement and this Schedule will be "derivative payments" as defined under the Act.

Part 5 **Other Provisions.**

(a) ***Definitions***. Reference is hereby made to the 2006 ISDA Definitions (the "2006 Definitions") as published by the International Swaps and Derivatives Association, Inc. ("ISDA") or to any subsequent update being the then current version of the 2006 Definitions. Any terms used and not otherwise defined herein which are contained in the Definitions shall have the meaning set forth therein, and if not contained in the Definitions, will have the meanings specified in the Supplemental Indenture, either directly or by reference. If there is any inconsistency between this Agreement and the Definitions, this Agreement will govern. If there is inconsistency between a Confirmation and this Agreement or the Definitions, the Confirmation will govern.

For the purpose of this Agreement:

"Act" means the *Ontario Fair Hydro Plan Act, 2017* together with any Regulations in effect thereunder from time to time.

"DBRS" means DBRS Limited and its successors.

"Eligible Guarantee" means an unconditional and irrevocable guarantee by a guarantor that is a principal debtor rather than surety and is directly enforceable by Party B, where either (i) a law firm has given a legal opinion confirming that none of the guarantor's payments to Party B under the guarantee will be subject to deduction or withholding for Tax, (ii) the guarantee provides that, if the guarantor's payments to Party B are subject to deduction or withholding for Tax, the guarantor is required to pay the additional amount necessary so that the net amount received by Party B will equal the full amount Party B would have received had no deduction or withholding been required, or (iii) if any payment under the guarantee is made net of deduction or withholding for Tax, Party A is required under Section 2(a)(i) to make an additional payment necessary so that the net amount received by Party B will equal the full amount Party B would have received had no deduction or withholding been required.

"Eligible Replacement" means an entity (i)(A) having the Ratings Event I Required Ratings, or (B) whose obligations owing to Party B under this Agreement (or its replacement, as applicable) are guaranteed under an Eligible Guarantee by a guarantor having the Ratings Event I Required Ratings, and (ii) reasonably acceptable to Party B.

"Firm Offer" means an offer which, when made, was capable of becoming legally binding upon acceptance.

"Indenture Documents" means the Supplemental Indenture together with the Trust Indenture.

"Local Business Day" means a day other than a Saturday, a Sunday or a day banking institutions or trust companies in Toronto, Ontario or Montreal, Quebec are authorized or obligated by law to close, and the definition of ***"Local Business Day"*** in Section 14 is deleted.

"Moody's" means Moody's Investors Service, Inc. and its successors.

"Relevant Entity" means Party A, a guarantor under an Eligible Guarantee or an Eligible Replacement, as applicable.

"Replacement Transaction" means, for any Terminated Transaction, a transaction that (i) has terms which would be effective to transfer to a transferee all of Party A's rights and obligations under this Agreement, which terms are identical to the terms of this Agreement, other than party names, the effective date of the transfer, tax representations and any representations about the status of the substitute counterparty, notice information and account details, or (ii) (A) would preserve for Party B the economic equivalent of any payment or delivery under this Agreement for the Terminated Transaction that would, but for the occurrence of the Early Termination Date, have been required after that date, and (B) has terms which are, in all material respects, no less beneficial for Party B than those of this Agreement, as determined by Party B.

"***Supplemental Indenture***" means the Supplemental Indenture dated as of [■], among Party B as issuer of Series [■] Notes, **[INDENTURE TRUSTEE]**, as Indenture Trustee, and **[List any other parties]**, which supplements the Trust Indenture.

"***Trust Indenture***" means the Trust Indenture dated as of [■], 2017, between Party B, as issuer, and [INDENTURE TRUSTEE], as Indenture Trustee.

(b) ***Equivalency Clause***. For purposes of disclosure pursuant to the Interest Act (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement, which is to be calculated on any basis other than a full calendar year, is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the number of days in the calendar year in which the period for which interest at such rate is payable ends and the denominator of which is the number of days comprising such other basis.

(c) ***English Language***. The parties hereto have requested that this Agreement and the Schedule be drafted in the English language and that all present and future Confirmations be drafted in the English language. Les parties aux présentes ont requis que cette convention et l'Annexe ainsi que toutes les présentes et futures confirmations soient rédigées en langue anglaise.

(d) ***Eligible Financial Contract***. Each Party, with respect to itself, hereby represents and warrants to the other Party, continuing throughout the term of this agreement, that it is its intention that this Contract and each Transaction hereunder shall constitute an "eligible financial contract" within the meaning of the *Bankruptcy and Insolvency Act* (Canada), the *Companies' Creditors Arrangement Act* (Canada), the *Winding-Up and Restructuring Act* (Canada) and any other applicable Canadian insolvency legislation.

(e) ***Telephone Recording***. Each party (i) consents to the recording of telephone conversations between the trading, marketing and other relevant personnel of the parties in connection with this Agreement or any potential Transaction, (ii) agrees to obtain any necessary consent of, and give any necessary notice of such recording to, its relevant personnel and (iii) agrees, to the extent permitted by applicable law, that recordings may be submitted in evidence in any Proceedings.

(f) ***No Reliance***. In connection with the negotiation of, the entering into, and the execution of, this Agreement, any Credit Support Document to which it is a party, and each Transaction hereunder, each party acknowledges and agrees that: (i) each party is acting for its own account and is not acting as a fiduciary for, or a financial or investment advisor to the other party (or in any similar capacity); (ii) each party is not relying upon any communications (whether written or oral) from the other party as investment advice or as a recommendation to enter into this Agreement, any Credit Support Document to which it is a party and each Transaction hereunder (other than the representations expressly set forth in this Agreement), it being understood that information and explanations related to the terms and conditions of a Transaction shall not be considered investment advice or a recommendation to enter into that Transaction; (iii) neither party has received from the other party any assurance or guarantee as to the expected results of any Transaction; and (iv) each party has consulted with its own legal, regulatory, tax, business, investment, financial, and accounting advisors to the extent it has deemed necessary, and it has made its own independent investment, hedging, and trading decisions based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the other party.

(g) ***Severability***. Any provision of this Agreement which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability, without invalidating the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

(h) ***Credit Rating Downgrade of Party A***

(1) Ratings Event I:

Party A agrees that if at any time (i) the long-term unsecured debt rating or the short-term unsecured debt rating, in each case, of a Relevant Entity from DBRS is not at least, respectively "A" or R-1 (low) or better; or (ii) the long-term unsecured debt rating or the short-term unsecured debt rating, in each case, of a Relevant Entity from Moody's is not at least, respectively A2 or P-1 or better (such rating thresholds collectively designated as the **"Ratings Event I Required Rating"** and such failure the **"Ratings Event I Trigger"**, Party A shall at its own expense and not later than 30 Local Business Days following the occurrence of the Ratings Event I (so long as the Ratings Event I is continuing):

(X) transfer acceptable Eligible Credit Support in accordance with Paragraph 11(b)(i)(C)(1) of the ISDA Credit Support Annex; or

(Y) either obtain an Eligible Guarantee or transfer all of its interests and obligations in or under this Agreement, on substantially the same terms and in writing (i) to an Eligible Replacement, or (ii) another party that otherwise satisfies the Rating Agency Condition in respect of the Related Rating Agency; provided that such transfer does not result in adverse tax consequences or increased costs for Party B and Party A shall continue to perform its obligations under this Agreement until the transfer of all of its interest and obligations in or under this Agreement is completed; or

(Z) take such other action as agreed to between Party A and Party B which satisfies the Rating Agency Condition in respect of the Related Rating Agency.

(2) Ratings Event II:

Party A agrees that if at any time (i) the long-term unsecured debt rating or the short-term unsecured debt rating, in each case of a Relevant Entity from DBRS is not at least, respectively BBB or R-2 (middle) or better, or (ii) the long-term unsecured debt rating or the short-term unsecured debt rating, in each case, of a Relevant Entity from Moody's is not at least, respectively A3 or P-3 or better (such rating thresholds collectively designated as the **"Ratings Event II Required Rating"** and such failure the **"Ratings Event II Trigger"**, Party A shall at its own expense following the occurrence of a Ratings Event II (so long as such Ratings Event II is continuing):

(X) transfer all of its interests and obligations in or under this Agreement, on substantially the same terms and in writing (i) to an Eligible Replacement, or (ii) or another party that otherwise satisfies the Rating Agency Condition in respect of the Related Rating Agency; provided that such transfer does not result in adverse tax consequences or increased costs for Party B and Party A shall continue to perform its obligations under this Agreement until the transfer of all of its interest and obligations in or under this Agreement is completed; or

(Y) take such other action as agreed to between Party A and Party B which satisfies the Rating Agency Condition in respect of the Related Rating Agency, or

(Z) provide Eligible Credit Support in accordance with Paragraph 11(b)(i)(C)(2) of the ISDA Credit Support Annex in an amount as required thereunder until (i) such time as the action set out in this sub-paragraph (2)(X) or (2)(Y) above has been taken, or (ii) the Relevant Entity meets the Ratings Event I Required Rating.

(i) ***Successors***. This Agreement and all obligations of the parties hereunder shall be binding upon than respective successors and assigns and shall, together with the rights and remedies, inure to their benefit.

(j) ***Scope of Agreement***. The parties acknowledge and agree that this Agreement will only apply to Transactions entered into in respect of the Series 2016-1 Notes.

(k) ***Counterparts***. This Schedule may be executed in one or more counterparts, either in original or facsimile or pdf form, each of which shall constitute one and the same document and form part of the Agreement. If an executed copy of this Schedule is transmitted by the parties through transmission by facsimile or e-mail in pdf format, this Schedule shall constitute the original document between the parties and the parties hereby adopt the signatures printed by the receiving facsimile machine or computer as the original signatures of the parties.

(l) ***Transfer***. Exception to the Transfer provisions of Section 7 is that consent to transfer shall not be unreasonably withheld as long as the transferee, designated by Party A, is an Eligible Replacement or otherwise satisfies the Rating Agency Condition in respect of the related Rating Agency. In addition, Party A agrees that it will use reasonable commercial efforts to novate each outstanding Transaction hereunder to an Eligible Replacement if it is requested to do so in connection with an assignment of its interests in the Series [■] Notes pursuant to the Indenture Documents.

(m) **[*Foreign Account Tax Compliance Act*.** "Tax" as used in Part 2(a) of this Schedule (Payer Tax Representation) and "Indemnifiable Tax" as defined in Section 14 of this Agreement shall not include any U.S. federal withholding tax imposed or collected pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code (a "**FATCA Withholding Tax**"). For the avoidance

of doubt, a FATCA Withholding Tax is a Tax the deduction or withholding of which is required by applicable law for the purposes of Section 2(d) of this Agreement."] **[NTD: subject to Tax review]**

(n) ***Set-off***. Without affecting the provisions of this Agreement requiring the calculation of certain net payment amounts, all payments under this Agreement and each Confirmation will be made without set-off or counterclaims.

(o) ***Amendments.*** Party B hereby agrees that it will not amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Related Program Agreements if any such amendment, supplementation, modification, restatement or replacement or waiver or consent is material, except with the prior written consent of Party A and satisfaction of the Rating Agency Condition in respect of each Related Rating Agency. Each Related Rating Agency shall be notified by or on behalf of Party B of any nonmaterial amendments, waivers and consents as soon as possible after such non-material amendments, waivers and consents become effective. Any such proposed change to a Related Program Agreement will be subject to Section [13.19] of the Trust Indenture.

(p) ***Limited Recourse:***

(i) Party A is a Specified Creditor (as defined in the Trust Indenture) and its entitlements under this Agreement are subject to the provisions applicable to Specified Creditors under the Trust Indenture. The right of Party A to payments under this Agreement, or the exercise of rights or remedies against Party B under this Agreement is subject to Sections [8.15] (*Limited Recourse*) and [17.01] (*No Petition*) of the Trust Indenture.

(ii) Part 5(p)(i) survives the termination of this Agreement.

(q) ***Non-Petition***. Party A hereby covenants and agrees that it will not at any time institute or encourage against Party B, or join or acquiesce in any institution against Party B of, any bankruptcy, reorganization, arrangement, insolvency or liquidation proceedings, or other proceedings under any federal or provincial bankruptcy, insolvency, winding-up or similar law for one year and a day after the latest maturing Note (as defined in the Indenture) in connection with any obligations relating to this Agreement or any of the other Related Program Agreements.

(r) ***Party B Pledge***. Notwithstanding Section 7, Party A acknowledges that Party B has or will pledge its rights under this Agreement to the Indenture Trustee for the benefit of the related Specified Creditors under the Indenture Documents and agrees to the pledge. The Indenture Trustee will not be deemed to be a party to this Agreement. However, the Indenture Trustee, acting on behalf of the related Specified Creditors, has the right to enforce this Agreement against Party A. Party A will be entitled to rely on any notice or communication from the Indenture Trustee to that effect.

Part 6. FX Transaction and Currency Option Transaction Provisions

(a) ***FX Definitions***

(i) Incorporated Into Agreement. The 1998 ISDA FX and Currency Option Transaction Definitions, as published by the International Swaps and Derivatives Association, Inc., (the "FX Definitions") are incorporated by reference into this Agreement. Any terms used and not otherwise defined in this Agreement that are contained in the FX Definitions shall have the respective meanings specified therein (without regard to any amendments thereto after the date of this Agreement).

(ii) Inconsistency. In the event of any inconsistency between the FX Definitions and any other provisions or definitions that are incorporated by reference into this Agreement, the FX Definitions shall prevail with respect to an FX Transaction or a Currency Option Transaction. In the event of any inconsistency between the FX Definitions and the provisions otherwise

contained in this Agreement, those provisions otherwise contained in this Agreement shall prevail.

(b) ***Confirmations.*** Any FX Transaction or Currency Option Transaction into which the parties may before the date of this Agreement have entered, or may in the future enter, where the relevant Confirmation on its face does not expressly exclude the application of this Agreement, shall (to the extent not otherwise provided for in this Agreement) be subject to, governed by and construed in accordance with this Agreement (in substitution for any existing terms, if any, whether express or implied). Each such FX Transaction and Currency Option Transaction shall be a Transaction, and the documents and other confirming evidence (including electronic messages on an electronic messaging service) exchanged between the parties confirming such FX Transaction or Currency Option Transaction shall each be a Confirmation (even where not so specified therein), for the purposes of this Agreement.

(c) ***Payment Instructions.*** All payments to be made in respect of FX Transactions and Currency Option Transactions shall be made in accordance with standing payment instructions provided by the parties (or as otherwise specified in a Confirmation). Any such instructions from a party must be received no later than one Business Day prior to the Value Date or Premium Payment Date (as the case may be) for such Transaction and otherwise be in conformity with standard inter-dealer market practice regarding foreign currency delivery.

(d) ***FX Transaction Novation Netting.***

(i) Automatic Novation Netting. In addition to the settlement netting provisions of Section 2(c) of this Agreement, unless otherwise agreed, if the parties enter into an FX Transaction that is governed by this Agreement through a pair of Novation Netting Offices giving rise to an obligation of a party under this Agreement to pay an amount of currency (a "Currency Obligation") on the same date and in the same currency as a then existing Currency Obligation between the same pair of Novation Netting Offices, then immediately upon entering into such FX Transaction, each such Currency Obligation shall automatically and without further action be cancelled and simultaneously replaced by a new Currency Obligation for such date determined as follows: the amount of such currency that would otherwise have been payable by each party on such date shall be aggregated and the party with the larger aggregate amount shall have a new Currency Obligation to pay to the other party the amount of such currency by which its aggregate amount exceeds the other party's aggregate amount, provided that if the aggregate amounts are equal, no new Currency Obligation shall arise. This paragraph (d) shall not affect any other Currency Obligation of a party to pay any different currency on the same date. This provision shall apply notwithstanding that either party (i) may fail to send out a Confirmation in respect of any such novation, or (ii) may fail to make changes in any of its books as a result of any such novation.

(ii) "Novation Netting Office" means, as to either party, the office or offices specified in Part 4, Section A in the Schedule and any other office specified from time to time by one party and agreed to in writing by the other party.

(e) ***Currency Option Transaction Discharge and Termination***

(i) Automatic Discharge and Termination of Offsetting Options. Unless otherwise agreed, any Call Option or any Put Option written by a party will automatically be terminated and discharged, in whole or in part, as applicable, against a Call Option or a Put Option, respectively, written by the other party, such termination and discharge to occur automatically upon the payment in full of

the last Premium payable in respect of such Currency Option Transactions; provided that such termination and discharge may only occur in respect of Currency Option Transactions:

(1) each being with respect to the same Put Currency and the same Call Currency;
(2) each having the same Expiration Date and Expiration Time;
(3) each being of the same style, i.e. either both being American Style Options or both being European Style Options;
(4) each having the same Strike Price;
(5) neither of which shall have been exercised by delivery of a Notice of Exercise;

and, upon occurrence of such termination and discharge, neither party shall have any further obligation to the other party in respect of the relevant Currency Option Transactions or, as the case may be, parts thereof so terminated and discharged. In the case of a partial termination and discharge (i.e. where the relevant Currency Option Transactions are for different amounts of the Currency Pair), the remaining portion of the Currency Option Transaction which is partially discharged and terminated shall continue to be a Currency Option Transaction for all purposes of this Agreement. This provision shall apply notwithstanding that either party (i) may fail to send out a Confirmation in respect of any such discharge and termination, or (ii) may fail to make changes in any of its books as a result of any such discharge and termination.

(ii) ***Additional Definitions***

(1) "Call Option" means a Currency Option Transaction entitling, but not obligating, the Buyer to purchase from the Seller at the Strike Price a specified quantity of the Call Currency.

(2) "Put Option" means a Currency Option Transaction entitling, but not obligating, the Buyer to sell to the Seller at the Strike Price a specified quantity of the Put Currency.

Subject: FW: Finance Ministers' December 10-11 Meeting - Request for materials: OFA

Hi Erica, Bonnie,

Finance Ministers are meeting in Ottawa Dec 10-11 and Fed-Prov is asking for notes to support the Minister at this meeting meeting. The agenda is still under development, but Fed-Prov has indicated the following areas of discussion are likely to be on the agenda:

- Equalization and the Territorial Formula Financing renewal,
- housing update,
- Canada Pension Plan Triennial Review,
- cannabis taxation,
- carbon pricing,
- Tax Planning Using Private Corporations, and;
- the usual roundtable.

For the June 2017 Finance Ministers' Meeting we provided the two attached notes (Green Bonds and Moodys Downgrade of Canadian Banks). I'm inclined to think that only an update of our Green Bond note is required this time around but I'm open to your suggestions.

Deadline for Gadi's review is Monday, November 27.

Thanks, Anna

Subject: Finance Ministers' December 10-11 Meeting - Request for materials: OFA

Hi Anna,

As we prepare for the Federal-Provincial-Territorial Finance Ministers' Meeting taking place in Ottawa on December 10-11, we would like to ask for your help in developing supporting material for the Minister. The Federal-Provincial Relations team will be coordinating the binder production and briefings with the DM/MO. Please feel free to provide advice on any additional support the Minister and his advisors may require in preparation for this meeting.

For the binder, below is our best guess at the notes we need from your division (a template for these notes is attached). Please let us know:

- If these topics **have been correctly categorized in your area of responsibility,** and
- If there are **additional topics/ background that should be included**, either to support one of the agenda items, or to equip the Minister with appropriate background on issues that may be raised at the roundtable.

- Ontario Green Bonds
- Moody's downgrade of Canadian Banks/Credit Rating Agencies (TBD)

Let us know if you would like to further discuss any of the items requested or if you have suggestions on notes/materials to include for the FPT meeting. (For your reference, a summary email on the meeting agenda that was sent to ADMs is reproduced below.)

- Please work with other central agencies and line ministries coordinate input as appropriate.
- We have also attached any notes supplied for the June 2017 FinMin meeting for your reference purposes.

Please send your notes to me at (stephen.laurent@ontario.ca) and Michael Hudecki (michael.hudecki@ontario.ca) by **Wednesday, November 29th.**

We appreciate that some of these issues will be developing well into December. If you could, please identify which issues will be changing, and when we might expect to have a final note.

Thank you.

Stephen

Subject: December Finance Ministers Meeting

Just a quick note that today the feds indicated to us that the next Finance Ministers meeting will take place on **December 11, 2017, in Ottawa, with a Ministers-only dinner to be held on Sunday, December 10, 2017.**

The Minister is still reviewing the agenda options, but officials indicate that current planning ideas include discussions on:

- Equalization and the Territorial Formula Financing renewal,
- housing update,
- Canada Pension Plan Triennial Review,
- cannabis taxation,
- carbon pricing,
- Tax Planning Using Private Corporations, and;
- the usual roundtable.

Similar to previous meetings, the Governor of the Bank of Canada will open the meeting with a discussion on the global economy and the monetary policy.

The feds have asked if there are issues that our Minister would like added to the agenda. They've organized a teleconference for next week when such ideas could be tabled.

GREEN BONDS

What is the status of Ontario's Green Bond program?

SUGGESTED RESPONSE

- **On January 26, 2017 the Province of Ontario successfully priced its third Global Canadian Dollar (CAD) Green Bond for $800 million. The bond was a re-opening of its January 2023 Global Green Bond (the Province's second Green Bond).**

- **There was strong demand for Ontario's third Green Bond issue, with over 50 investors participating in the trade.**

- **The Province's third green bond was issued through its current domestic dealer group to Canadian and international institutional investors to continue to help to establish a Canadian-dollar green bond market and attract new investors.**

- **Retail investors were able to buy Ontario's green bonds through a Canadian financial institution.**

- **As the first Canadian province to issue Green Bonds, Ontario continues to lead the way in establishing and developing a Canadian dollar Green Bond market with investor participation from around the world.**

- **Ontario remains committed to the Green Bond market, and expects to continue to access it on an annual basis. The Province plans to issue its fourth Green Bond later this fiscal year.**

- **Twelve projects were selected as eligible and are expected to receive funding from the third Green Bond, with an emphasis on clean transportation and energy efficiency and conservation. Projects include:**

  - **Regional Express Rail**
  - **Eglinton Crosstown Light Rail Transit (LRT)**
  - **vivaNext Bus Rapid Transit**
  - **Finch West LRT**

- **Hamilton LRT**
- **Hurontario LRT**
- **ErinoakKids Centre for Treatment and Development**
- **St. Joseph's Healthcare Hamilton – West 5th**
- **St. Joseph's Healthcare–London & St. Thomas**
- **Waypoint Centre for Mental Health**
- **CAMH – Queen St.**
- **Woodstock General Hospital**

- **To date, total Green Bond financing amounts to $2.05 billion, with up to $1.77 billion allocated to Metrolinx for clean transportation projects.**

- **The size of future green bond issues will be determined by market demand and Ontario's availability of suitable green projects in any given fiscal year.**

CURRENT STATUS

Green Bond Issuance

On January 26, 2017, the Province of Ontario successfully priced its third Global Canadian Dollar (CAD) Green Bond for $800 million. The bond is a re-opening of its second Green Bond, and matures on January 27, 2023. It has a coupon of 1.95 per cent.

There was strong demand for Ontario's third Green Bond issue. Investors with green mandates in Canada as well as in the United States and Europe participated in the deal. Global offering format was used to leverage and facilitate international investor interest with strong trading liquidity supported by Ontario's current domestic dealer syndicate.

Over 50 accounts participated in the transaction with 78 per cent of the deal allocated to investors with Green mandates and/or signatories to the UN Principles for Responsible Investment (PRI) initiative. Interest was driven by Asset Managers (41%), Banks (28%) and Insurance Companies and Pensions (25%).

These bonds capitalize on the Province's ability to raise funds at low interest rates, and serve as a tool for the government to address critical infrastructure needs.

A total of 13 different projects have received or will receive funding from Ontario's three Green Bond issues. The projects selected as eligible to receive funding from the Green Bonds have an emphasis on clean transportation and energy efficiency and conservation:

Clean Transportation Category	**Indicative Funding Allocation for All Three Green Bond Issues ($ Millions)**
Regional Express Rail	437.0
Eglinton Crosstown Light Rail Transit (LRT)	1,151.0
vivaNext Bus Rapid Transit	159.0
Finch West LRT	10.0
Hamilton LRT	3.0
Hurontario LRT	6.0
Energy Efficiency & Conservation Category	
Sheridan College	63.7
ErinoakKids Centre for Treatment and Development	163.3
St. Joseph's Healthcare Hamilton – West 5th	17.1
St. Joseph's Healthcare – London and St. Thomas	16.0
Waypoint Centre for Mental Health	6.5
Centre for Addiction and Mental Health – Queen Street	3.5
Woodstock General Hospital	4.7

All proceeds raised through green bonds will be used to fund green infrastructure. Funding amounts for each project are estimates based on total eligible costs. Final amounts provided to each project will be confirmed in the coming year.

The Eglinton Crosstown LRT was selected as the first project to receive Green Bond funding for $500 million in 2014. To date, total Green Bond financing amounts to $2.05 billion, with up to $1.77 billion allocated to Metrolinx for clean transportation projects.

Green Bond Program

Ontario's Green Bonds were issued at yields similar to conventional Ontario bonds of comparable term and size.

Ontario remains committed to the Green Bond market, and expects to continue to access it on an annual basis. The size of each green bond issue will be determined by market demand and Ontario's availability of suitable green projects in any given fiscal year. Assuming adequate demand, Ontario's green project pipeline is expected to easily support a green bond borrowing program and serve as a source of funding well into the future.

Ontario's Green Bonds are direct unsecured obligations of the Province of Ontario and investors do not assume any specific risk related to the funded projects.

Retail Investors

Retail investors participate (through Canadian financial institutions) in the Province's Green Bond issuances, accounting for approximately one per cent of total sales, in line with or slightly greater than the demand experienced with Ontario's regular domestic issues.

It is unknown to what extent Ontario retail investors would be motivated to buy green bonds if they are offered in a format similar to OSBs. Other international issuers who have attempted a direct retail approach for green bonds have struggled to raise funds.

Green Bond Framework

Ontario has developed a robust Green Bond framework that aligns with Ontario's environmental policies and climate objectives.

Ontario's Green Bond Framework sets out the types of projects that may be eligible for funding from green bonds. Without limitation, eligible projects may include projects in the following five categories identified in the Province of Ontario's Green Bond Framework, excluding fossil fuel and nuclear energy projects:

- Clean transportation
- Energy efficiency and conservation
- Clean energy and technology
- Forestry, agriculture and land management
- Climate adaptation and resilience

Ontario's Green Bond Framework has been developed in consultation with the Centre for International Climate and Environmental Research – Oslo (CICERO).

Ontario's Green Bond program also aligns with the Green Bond Principles maintained by the International Capital Markets Association.

Project Selection

The selection of eligible green projects is done on behalf of the Province by the Ontario Financing Authority (OFA) staff with advice from the Province's Green Bond Advisory Panel (GBAP):

- Only fully approved projects are eligible for consideration. Spending authority for eligible green projects comes through approved ministry and agency spending in accordance with the Province's usual government appropriation and spending processes.

- OFA staff screen projects for all applicable approvals and against eligibility criteria prior to advancing projects to the GBAP for assessment.

- The GBAP, which includes staff from various ministries and agencies, including the Ministry of the Environment and Climate Change and the OFA, evaluates and recommends projects for inclusion in Ontario's Green Bond program.

Projects considered for green bonds will be consistent with Ontario's robust environmental policies and standards and limited to the categories in the Province's Green Bond Framework. Ontario uses core indicators for projects that are widely recognized by the market and, where possible, expects to adopt the impact reporting recommendations of the Green Bond Principles.

On July 3, 2016, The European Union ("EU") Market Abuse Regulation ("MAR") came into effect in all EU Member States, replacing the existing Market Abuse Directive. MAR imposes market abuse rules on EU markets that were previously not subject to the EU market abuse rules, including the exchange-regulated segments of the Luxembourg Stock Exchange. The MAR introduced strict procedures for issuers to follow when conducting market soundings (i.e. communications to potential investors prior to the announcement of a transaction to gauge interest). Since Ontario's Green Bonds are listed on the Luxembourg Stock Exchange Euro MTF market, the OFA must comply with the MAR's market sounding rules when it conducts IR activities ahead of future Green Bonds.

Use of Proceeds

Green Bond proceeds are paid into the Consolidated Revenue Fund of Ontario. An amount equal to the net proceeds of each Green Bond issue is recorded in a designated account in the Province of Ontario's financial records. These designated accounts are used to track the use and allocation of funds to eligible projects. So long as the bonds are outstanding and the designated accounts have a positive balance, amounts are deducted from these accounts as funds are allocated to eligible projects.

Green projects have funding requirements that occur within a twelve month period following and six month period prior to the issue of the green bond.

Updates on the selected green projects and allocation of funds to these projects are reported to investors in an annual newsletter on the website of the Ontario Financing Authority. An assurance audit will also be provided by the Auditor General of Ontario to verify amounts used for selected projects and the balance of proceeds remaining. This assurance audit is expected annually until all green bond proceeds have been allocated to selected projects.

> As you know the recent version of the guarantee language is quite different from the initial language. John Lee wants to talk to us about it, and we had originally set up a meeting for tomorrow morning. I think it would make sense to broaden the group involved on our side, and talking to Gadi he thinks we should involve Cindy or Nadine, and I think that it would be good to get Legal Services involved too. This will make coordination a bit more tricky – making tomorrow morning unlikely for a meeting.
>
> I'm going to ask Anis to line up a meeting, and it would be helpful Ken if you think Cindy, Nadine or both should be invited? On the Legal side, it would be good if Opal could point us to the right person.

Regards, Mike

Provincial Support Agreement Term Sheet

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") on behalf of itself and all other persons having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.

[1] This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

Performance Guarantee:	Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result.
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) the Legislative Assembly of Ontario repeals the Act; or (B) the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.

Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than one year] shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.

Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Provincial Support Agreement Term Sheet~~—~~

Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") is provided exclusively to the parties listed herein in connection with the draft Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Defined terms used herein have the meanings ascribed to them in the Act. The provincial support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out in this Term Sheet in addition to such other representations, warranties, indemnities, and other terms and conditions as the Guarantor and the Beneficiaries (each as defined below) may reasonably require.*

Guarantor:	Her Majesty the Queen in right of Ontario, as represented by the Minister of Energy.
Beneficiaries:	The ~~trust company acting as~~ indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**") ~~acting for the benefit of~~on behalf of itself and all other persons ~~who may have contractual~~having debt or other claims against a Financing Entity secured under the Master Trust Indenture (collectively, the "**Beneficiaries**") ~~(~~including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee~~ and~~, the trustee of the Financing Entity[1]~~)~~ if the Financing Entity is a trust, and any other administrator of the Financing Entity.
Term:	The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[2]1 after all ~~Funding Obligations~~funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.
Performance Guarantee:	~~**[Upon the occurrence of a Performance Guarantee Event]**, the Indenture Trustee will be entitled to require the Guarantor to appoint a replacement servicer who will perform IESO's duties as servicer under~~Under the Master Sale and Servicing Agreement ~~between IESO, as seller and servicer,~~to be entered into by IESO and the Financing Entity~~, as purchaser~~, **[and OPG as Financial Services Manager]** ("**MSSA**")~~.~~, IESO will have obligations both

[1] ~~We have assumed that the initial Financing Entity will be a trust.~~

[2]1 This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.

	as a seller and as a servicer. Pursuant to a performance guarantee, the Guarantor will guarantee in favour of the Beneficiaries to perform, or cause the performance of (which may be by way of the appointment of a replacement servicer), the obligations of IESO as servicer under the MSSA and the Act including the obligations of any replacement servicer. The Guarantor will also guarantee the servicing obligations of the electricity vendors under the Act. The servicing obligations covered will include all obligations related to the collecting and remitting of clean energy adjustments and will protect the Beneficiaries from any risks arising from collections of clean energy adjustments being commingled with other amounts. In the event that the performance guarantee is unenforceable against the Guarantor, the Provincial Support Agreement will contemplate a separate legal obligation by the Guarantor to indemnify the ~~Indenture Trustee~~Beneficiaries for any losses that result.
~~**Performance Guarantee Event:**~~	~~A "Servicer Default" occurs under the MSSA[3]~~
~~**Payment Guarantee:**~~	~~**[Upon the occurrence of a Payment Guarantee Event and within [5/10] business days after receiving a demand from the Indenture Trustee]**, the Guarantor shall **[guarantee and indemnify the Indenture Trustee (for and on behalf of the Beneficiaries) by paying all regularly scheduled interest and principal payments during the term of a Financing Entity's contractual obligation to such Beneficiary]/[assume the contractual obligations of a Financing Entity to the Beneficiaries]**[4], which for greater certainty shall not include any default, penalty, prepayment, or make whole amounts.~~
Payment Guarantee Event:	A Payment Guarantee Event will occur if: (A) ~~if~~ the Legislative Assembly of Ontario repeals the Act; or (B) ~~if~~ the Legislative Assembly of Ontario amends the Act or a Regulation thereunder is amended in a way that adversely impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest; or (C) ~~if~~ a court of competent jurisdiction (i) determines all or a portion of the Act to be *ultra vires* in a way that adversely impacts the ability of a Financing Entity to fully recover an investment

[3] ~~Each Servicer Default will include its own cure period before the event becomes a Servicer Default.~~
[4] ~~To confirm if Province will become the debtor under the applicable debt documentation or if the Financing Entity will continue to be the primary obligor with the Province acting as secondary obligor.~~

	interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or (D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act.
Payment Guarantee:	Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition: (x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and (y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year]** shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.
Limits under Guarantees:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or loss of profits.
Priority of Payments:	The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.
Subrogation:	Where the Guarantor has repaid ~~a Beneficiary~~all Beneficiaries in full, to the extent of such ~~payment,~~payments the Guarantor ~~is~~shall be subrogated in and to all the rights of recovery of ~~such~~the Beneficiar~~y~~ies in respect of their applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all ~~amounts~~indebtedness and obligations owing to ~~a~~the Beneficiar~~y~~ies,

	the Indenture Trustee will acknowledge and agree on behalf of ~~such~~the Beneficiar~~y~~ies that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiar~~y~~ies ha~~s~~ve or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.
Notice Requirements:	The Indenture Trustee will be required to provide notice to the Guarantor of a ~~Performance Guarantee Event or~~ Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.
Closing:	Date to be determined but no later than **[**■, 2017**]**. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered.
Reporting Requirements of a Financing Entity:	The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture.
Conditions Precedent to Closing:	Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~5~~[2]
Representations:	Customary representations and warranties of the Guarantor.
FIPPA:	Acknowledgement that the Guarantor is bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Guarantor or its agents or representatives in connection with the Transaction Documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Customary confidentiality obligations to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor.
Governing Law:	Province of Ontario

~~5~~[2] Opinions on the validity and enforceability of Provincial Support Agreement will be required.

Date:	Wednesday, May 24, 2017 9:59:44 AM

Thanks Opal.

Toby and I will attend the meeting today at 2. I note that footnote 2 mentions that opinions on the validity and enforceability of the provincial support agreement will be required. The proposed legislation provides for both Ministers to jointly give the guarantee. Does anyone know whether Energy Legal and Blakes (who I believe is the Province's outside counsel) have reviewed the revised term sheet? It will be helpful to get a better understanding of the scope and timing of this proposed guarantee. I note that the description of the beneficiaries is very broad. Wouldn't it be expected that the actual guarantee scope would be tailored to the obligations in specific instruments or transactions that are required to be guaranteed.

Thanks.

Malle

Hi Anis,

I'm waiting for confirmation but think it would be fine to send a meeting request to the legal contacts, Tobias.Whitfield@Ontario.ca and Malle.Hanslep@Ontario.ca. No need to include Sarah Neville.

Thanks,
Opal.

Subject: Guarantee Discussion with OPG

As you know the recent version of the guarantee language is quite different from the initial language. John Lee wants to talk to us about it, and we had originally set up a meeting for tomorrow morning. I think it would make sense to broaden the group involved on our side, and talking to Gadi he thinks we should involve Cindy or Nadine, and I think that it would be good to get Legal Services involved too. This will make coordination a bit more tricky – making tomorrow morning unlikely for a meeting.

I'm going to ask Anis to line up a meeting, and it would be helpful Ken if you think Cindy, Nadine or both should be invited? On the Legal side, it would be good if Opal could point us to the right person.

Regards, Mike

Good morning,

Communications has asked us to update our CINs to reflect the language of the 2017 Budget. Could your teams please review the following CINs and update as needed?

1. Borrowing and Debt
2. Ontario Credit Rating
3. Green Bonds
4. DBRS Response to the Fair Hydro Plan

Please send your updated CINs to me **by Tuesday, April 25 for CEO review**. The CINs will not be sent to Communications until Friday, April 28, after the release of the Document.

Thanks, Anna

Subject: House Book Updates due April 28, 2017

Hi all,

Thanks once again for providing the Contentious Issue Notes (CINs) for the Spring House Book (see attachment of Index of CINs by Program Area).

The Minister announced today that the 2017 Budget will be tabled on Thursday, April 27th, MO expects the CINs to be updated to reflect the new language of the 2017 Budget.
Therefore we would like to get an update of the CINs impacted by the Budget by Friday, April 28th.
Please send the updated notes to my attention.

Subject: RE: IESO - OEFC Drafts - IESO Comments Nov 29

Hi Ryan – thanks for the drafts. Please see attached markups that include our comments – I haven't had an opportunity to discuss these changes/comments internally but thought I should forward these asap given the time pressure.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Regards,
Victor

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated

Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

AMENDING AGREEMENT NO. 7

This Amending Agreement is effective as of the 5th day of December, 2017.

BETWEEN: **INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")**

as Borrower

AND: **ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")**

as Lender

WHEREAS IESO and OEFC entered into a Revolving Credit Facility Agreement dated April 23, 2010, as amended by Amending Agreement No.1 dated July 21, 2010, Amending Agreement No. 2 dated October 14, 2011, Amending Agreement No. 3 dated April 30, 2013, Amending Agreement No. 4 dated April 30, 2014, Amending Agreement No. 5 dated December 19, 2014 and Amending Agreement No. 6 dated April 30, 2017 (collectively the "Agreement") pursuant to which OEFC agreed to provide a revolving credit facility to IESO in the principal amount of up to CDN $160 million;

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act, 2017*;

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereinafter set out, the parties agree that the Agreement is amended as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Ontario's Fair Hydro Plan" is deleted in its entirety.

3. The definition of the term "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph (j); deleting

lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

3. Subsection 2.2(2) of the Agreement is deleted and replaced by the following:

(2) The Note shall at all times rank *pari passu* with all other unsecured Senior Debt of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 3.8 (a) through (f) hereof.

4. Delete the paragraph following the heading "Section 3.7 Other Indebtedness" and replace with the words "Intentionally Left Blank".

IN ALL OTHER RESPECTS, the Agreement is confirmed by the parties.

IN WITNESS WHEREOF the parties have executed and delivered this Amending Agreement as of the date first written above.

AMENDING AGREEMENT NO. 7

This Amending Agreement is made as of the 5th day of December, 2017 between:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")

and

ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")

WHEREAS IESO and OEFC have entered into an agreement providing for the Issuance of a Note dated April 1, 1999 (the "Original Agreement");

AND WHEREAS pursuant to amending agreements dated March 23, 2000, April 23, 2009, May 1, 2011, May 1, 2013, April 30, 2014 and April 30, 2017 the parties amended the Original Agreement (as so amended, the "Agreement");

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act*, 2017;

NOW THEREFORE in consideration of the mutual agreements contained herein (the receipt and sufficiency of which are hereby acknowledged by each party), the parties agree as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph (j); deleting the "." at the end of paragraph (k) and replacing it with "; and"; and adding the following new paragraph (l):

   (l) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other

lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

3. Subsection 2.2(2) of the Agreement is deleted and replaced by the following:

(2) The Note shall at all times rank *pari passu* with all other unsecured Senior Debt of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 3.8 (a) through (f) hereof.

4. Delete the paragraph following the heading "Section 3.7 Other Indebtedness" and replace with the words "Intentionally Left Blank".

IN ALL OTHER RESPECTS, the Agreement is confirmed by the parties.

IN WITNESS WHEREOF the parties have executed and delivered this Amending Agreement as of the date first written above.

Subject: RE: IESO - OEFC Drafts - IESO Comments Nov 29

Hi Ryan – thanks for the drafts. Please see attached markups that include our comments – I haven't had an opportunity to discuss these changes/comments internally but thought I should forward these asap given the time pressure.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Regards,
Victor

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the

following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.

If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

AMENDING AGREEMENT NO. 7

This Amending Agreement is effective as of the 5th day of December, 2017.

BETWEEN: **INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")**

as Borrower

AND: **ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")**

as Lender

WHEREAS IESO and OEFC entered into a Revolving Credit Facility Agreement dated April 23, 2010, as amended by Amending Agreement No.1 dated July 21, 2010, Amending Agreement No. 2 dated October 14, 2011, Amending Agreement No. 3 dated April 30, 2013, Amending Agreement No. 4 dated April 30, 2014, Amending Agreement No. 5 dated December 19, 2014 and Amending Agreement No. 6 dated April 30, 2017 (collectively the "Agreement") pursuant to which OEFC agreed to provide a revolving credit facility to IESO in the principal amount of up to CDN $160 million;

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act, 2017*;

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereinafter set out, the parties agree that the Agreement is amended as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Ontario's Fair Hydro Plan" is deleted in its entirety.

3. The definition of the term "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph (j); deleting

the "." at the end of paragraph (k) and replacing it with "; and"; and adding the following new paragraph (l):

(l) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

4. Subsection 3.2(4) of the Agreement is deleted and replaced by the following:

(4) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 4.7(a) through (e) hereof.

5. Paragraph 3.6(c) of the Agreement is deleted and replaced by the following:

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of IESO, provided however that any adverse change in IESO's financial condition related to or resulting from the discharge by IESO of its responsibilities under OFHP shall be deemed not to be a material adverse change for the purposes of this section; and

IN ALL OTHER RESPECTS, the Agreement is confirmed by IESO and OEFC.

IN WITNESS WHEREOF the parties hereto have executed this Amending Agreement as of the date first written above.

AMENDING AGREEMENT NO. 7

This Amending Agreement is made as of the 5th day of December, 2017 between:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")

and

ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")

WHEREAS IESO and OEFC have entered into an agreement providing for the Issuance of a Note dated April 1, 1999 (the "Original Agreement");

AND WHEREAS pursuant to amending agreements dated March 23, 2000, April 23, 2009, May 1, 2011, May 1, 2013, April 30, 2014 and April 30, 2017 the parties amended the Original Agreement (as so amended, the "Agreement");

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act*, 2017;

NOW THEREFORE in consideration of the mutual agreements contained herein (the receipt and sufficiency of which are hereby acknowledged by each party), the parties agree as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph (j); deleting the "." at the end of paragraph (k) and replacing it with "; and"; and adding the following new paragraph (l):

   (l) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other

lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

3. Subsection 2.2(2) of the Agreement is deleted and replaced by the following:

(2) The Note shall at all times rank *pari passu* with all other unsecured Senior Debt of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 3.8 (a) through (f) hereof.

4. Delete the paragraph following the heading "Section 3.7 Other Indebtedness" and replace with the words "Intentionally Left Blank".

IN ALL OTHER RESPECTS, the Agreement is confirmed by the parties.

IN WITNESS WHEREOF the parties have executed and delivered this Amending Agreement as of the date first written above.

Hi Victor,

We have reviewed and approved the changes you made to the drafts. We having nothing further to add. Are there any other revisions you wish to make before preparing execution copies?

Thank You,
Ryan

Subject: RE: IESO - OEFC Drafts - IESO Comments Nov 29

Hi Ryan – thanks for the drafts. Please see attached markups that include our comments – I haven't had an opportunity to discuss these changes/comments internally but thought I should forward these asap given the time pressure.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Regards,
Victor

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made

pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification

by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or

receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT

The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.

If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro

implementation.
Regards.

AMENDING AGREEMENT NO. 7

This Amending Agreement is effective as of the • day of •, 2017.

BETWEEN: **INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")**

as Borrower

AND: **ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")**

as Lender

WHEREAS IESO and OEFC entered into a Revolving Credit Facility Agreement dated April 23, 2010, as amended by Amending Agreement No.1 dated July 21, 2010, Amending Agreement No. 2 dated October 14, 2011, Amending Agreement No. 3 dated April 30, 2013, Amending Agreement No. 4 dated April 30, 2014, Amending Agreement No. 5 dated December 19, 2014 and Amending Agreement No. 6 dated April 30, 2017 (collectively the "Agreement") pursuant to which OEFC agreed to provide a revolving credit facility to IESO in the principal amount of up to CDN $160 million;

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to ~~now~~ amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act, 2017*;

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereinafter set out, the parties agree that the Agreement is amended as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Ontario's Fair Hydro Plan" is deleted in its entirety.

3. The definition of the term "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph ~~subsection~~

Formatted: Indent: Left: 0.75"

Formatted: Font: Bold

Formatted: Font: Bold

~~1.1~~(j); deleting~~replacing~~ the "." at the end of paragraph~~subsection (1.1~~ (k) and replacing it with "; and"; and adding the following new paragraph ~~subsection 1.1~~(l):

(l) any~~Any~~ Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

4. Subsection 3.2(4) of the Agreement is deleted and replaced by the following:

(4) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 4.7(a) through (e) hereof.

~~4.~~5. Paragraph 3.6(c) of the Agreement is deleted and replaced by the following:

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of IESO, provided however that any adverse change in IESO's financial condition related to or resulting from the discharge by IESO of its responsibilities under OFHP shall be deemed not to be a material adverse change for the purposes of this section; and

IN ALL OTHER RESPECTS, the Agreement is confirmed by IESO and OEFC.

IN WITNESS WHEREOF the parties hereto have executed this Amending Agreement as of the date first written above.

AMENDING AGREEMENT NO. 7

This Amending Agreement is made as of the [DATE], 2017 between:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")

and

ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")

WHEREAS IESO and OEFC have entered into an agreement providing for the Issuance of a Note dated April 1, 1999 (the "Original Agreement");

AND WHEREAS pursuant to amending agreements dated March 23, 2000, April 23, 2009, May 1, 2011, May 1, 2013, April 30, 2014 and April 30, 2017 the parties amended the Original Agreement (as so amended, the "Agreement");

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to ~~now~~ amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act*, 2017;

NOW THEREFORE in consideration of the mutual agreements contained herein (the receipt and sufficiency of which are hereby acknowledged by each party), the parties agree as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph~~subsection 1.1~~ (j); deleting~~replacing~~ the "." at the end of paragraph ~~subsection (1.1~~ (k) and replacing it with "; and"; and adding the following new paragraph ~~subsection 1.1~~(l):

   (l) any~~Any~~ Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without

Formatted: Font: Bold

Formatted: Font: Bold

limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

3. Subsection 2.2(2) of the Agreement is deleted and replaced by the following:

(2) The Note shall at all times rank *pari passu* with all other unsecured Senior Debt of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 3.8 (a) through (f) hereof.

4. Delete the paragraph following the heading "Section 3.7 Other Indebtedness" and replace with the words "Intentionally Left Blank".

IN ALL OTHER RESPECTS, the Agreement is confirmed by the parties.

IN WITNESS WHEREOF the parties have executed and delivered this Amending Agreement as of the date first written above.

Subject: RE: IESO - OEFC Drafts - IESO Comments Nov 29

Hi Ryan – thanks for the drafts. Please see attached markups that include our comments – I haven't had an opportunity to discuss these changes/comments internally but thought I should forward these asap given the time pressure.

The main adders that I have included track the language in the recently executed FHP Credit Facility.

Regarding the deletion of s.3.7 in the Note Agreement ("Other Indebtedness"), this is duplicative of s.3.8 ("Negative Pledge") but also conflicts with it in certain respects so may cause confusion and I believe the easiest way to deal with it is to delete it since I don't think it adds anything. (You will note that a similar clause is not included in the Revolving Credit Agreement.)

We may have more comments after we have a chance to discuss your draft and my comments internally tomorrow.

Regards,
Victor

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT

The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.

If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.

Hi Opal,

I took a look and asked Carlos as well. There is nothing from a market perspective that is controversial, and I don't see anything in the provisions that concern me. I thought about the intercept provision, but I think it is fine since the legislation 'publicly' allows for that carve out.

Lisa, do you have any objections about IESO sharing any of the contents of the $2B facility with TD?

Sarah

Subject: RE: IESO - OEFC Nov 27

Hi Sarah,

I was just in the midst of an email to you regarding this matter. John Kim has let IESO know they can move forward with working with CMO on the agreements, but also communicated that the inclusion of the requested language is pending approval. Its fine to work on amending the agreements, as from all sides the indication is that final signoff will occur.

Regarding IESO's request to share the OFA-IESO agreement with TD, since there's nothing in the agreement prohibiting it and neither Gadi nor OFA legal is concerned about it being shared, it seems unreasonable to withhold it. As there is no obligation for us to provide/deny permission, perhaps we can just point that out to IESO (in an email) and tell them we are leaving the decision as to whether or not to share the agreement to their discretion. Not sure if a more formal response needs to be provided to IESO, but I can discuss with John the best way to convey that info to IESO.

Thanks,
Opal.

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with

the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

Hi Opal,

I will review. Off the top of my head, we may not want to share interest rate setting, but I'll review and let you know tomorrow morning.

Sarah

Subject: RE: IESO - OEFC Nov 27

Hi Sarah,

I was just in the midst of an email to you regarding this matter. John Kim has let IESO know they can move forward with working with CMO on the agreements, but also communicated that the inclusion of the requested language is pending approval. Its fine to work on amending the agreements, as from all sides the indication is that final signoff will occur.

Regarding IESO's request to share the OFA-IESO agreement with TD, since there's nothing in the agreement prohibiting it and neither Gadi nor OFA legal is concerned about it being shared, it seems unreasonable to withhold it. As there is no obligation for us to provide/deny permission, perhaps we can just point that out to IESO (in an email) and tell them we are leaving the decision as to whether or not to share the agreement to their discretion. Not sure if a more formal response needs to be provided to IESO, but I can discuss with John the best way to convey that info to IESO.

Thanks,
Opal.

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the

action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT

The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept

(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").

(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.

(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.

(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.

The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.

If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.

Regards.

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein

and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.

AMENDING AGREEMENT NO. 7

This Amending Agreement is made as of the [DATE], 2017 between:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")

and

ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")

WHEREAS IESO and OEFC have entered into an agreement providing for the Issuance of a Note dated April 1, 1999 (the "Original Agreement");

AND WHEREAS pursuant to amending agreements dated March 23, 2000, April 23, 2009, May 1, 2011, May 1, 2013, April 30, 2014 and April 30, 2017 the parties amended the Original Agreement (as so amended, the "Agreement");

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties wish to now amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act*, 2017;

NOW THEREFORE in consideration of the mutual agreements contained herein (the receipt and sufficiency of which are hereby acknowledged by each party), the parties agree as follows:

1.
The following definitions are added to Section 1.1 (Definitions) of the Agreement:

"Clean Energy Adjustment" has the same meaning as that term is defined in the OFHP.

"OFHP" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of subsection 1.1(j); replacing the "." at the end of subsection (1.1 (k) and replacing it with "and"; and adding the following subsection 1.1(l):

(l) Any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien,

whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

IN ALL OTHER RESPECTS, the Agreement is confirmed by the parties.

IN WITNESS WHEREOF the parties have executed and delivered this Amending Agreement as of the date first written above.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

By:_____
Name: Kimberly Marshall
Title: Vice President, Corporate Services; Chief Financial Officer; and Treasurer

ONTARIO ELECTRICITY FINANCIAL CORPORATION

By:_____
Name: Michael D. Manning
Title: Executive Director and Chief Investment Officer

AMENDING AGREEMENT NO. 7

This Amending Agreement is effective as of the • day of •, 2017.

BETWEEN: **INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")**

as Borrower

AND: **ONTARIO ELECTRICITY FINANCIALCORPORATION ("OEFC")**

as Lender

WHEREAS IESO and OEFC entered into a Revolving Credit Facility Agreement dated April 23, 2010, as amended by Amending Agreement No.1 dated July 21, 2010, Amending Agreement No. 2 dated October 14, 2011, Amending Agreement No. 3 dated April 30, 2013, Amending Agreement No. 4 dated April 30, 2014, Amending Agreement No. 5 dated December 19, 2014 and Amending Agreement No. 6 dated April 30, 2017 (collectively the "Agreement") pursuant to which OEFC agreed to provide a revolving credit facility to IESO in the principal amount of up to CDN $160 million;

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties wish to now amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act, 2017*;

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereinafter set out, the parties agree that the Agreement is amended as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "Clean Energy Adjustment" has the same meaning as that term is defined in the OFHP.

   "OFHP" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Ontario's Fair Hydro Plan" is deleted in its entirety.

3. The definition of "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of subsection 1.1(j); replacing the "." at

the end of subsection (1.1 (k) and replacing it with "and"; and adding the following subsection 1.1(l):

(l) Any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

4. Paragraph 3.6(c) of the Agreement is deleted and replaced by the following:

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of IESO, provided however that any adverse change in IESO's financial condition related to or resulting from the discharge by IESO of its responsibilities under OFHP shall be deemed not to be material adverse change for the purposes of this section; and

Commented [RB1]: See Amending Agreement No.6 dated April 1, 2017. The amendment to paragraph 3.6(c) at that time referenced "Ontario's Fair Hydro Plan". Since the Ontario Fair Hydro Plan Act, 2017 has since come into force on June 1, 2017 it is appropriate to update this paragraph with reference to the Act.

IN ALL OTHER RESPECTS, the Agreement is confirmed by IESO and OEFC.

IN WITNESS WHEREOF the parties hereto have executed this Amending Agreement as of the date first written above.

Hello John,

I agree that you were to speak with IESO this afternoon and we would hear from you afterwards. Anthony called me this afternoon and provided required changes to the existing credit facilities. We did not get into specific details. He did not mention if he spoke with Electricity Finance and I didn't ask him if he had contacted Electricity Finance either. I only stated that Ryan will be coordinating the update to the credit facilities and provide required changes in email. It was a very brief call. After you have discussed the proposed changes with IESO please schedule a convenient time for you to meet with Ryan, Jean-Francois and I.

Thanks,

Will

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the

Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall

be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of

November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.
If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

Hello John,

I agree that you were to speak with IESO this afternoon and we would hear from you afterwards. Anthony called me this afternoon and provided required changes to the existing credit facilities. We did not get into specific details. He did not mention if he spoke with Electricity Finance and I didn't ask him if he had contacted Electricity Finance either. I only stated that Ryan will be coordinating the update to the credit facilities and provide required changes in email. It was a very brief call. After you have discussed the proposed changes with IESO please schedule a convenient time for you to meet with Ryan, Jean-Francois and I.

Thanks,

Will

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for

fair hydro namely;

1.DRAFT

Subject: RE: IESO - OEFC credit facilities : permitted liens
Date: Monday, November 20, 2017 2:54:23 PM

Thanks. Given the way security interest is defined broadly in the security agreement, it is more than possible that funds from the OEFC agreements could be caught up in liens. IESO should really just be a "flow-through" but the net seems much wider than funds collected from rate payers.

Hi Opal and Sarah,

Please find attached my comments for your review and consideration.

Basically, what I am hearing from CEFD so far is: "the OFA-IESO agreements were done this way, so we should do the same for OEFC to remain consistent" which is not a very convincing argument in my opinion – specially considering the $475M agreement may have been amended without much consideration.

Also, the comment to the effect that "IESO is asking for this to avoid being in default" requires further clarifications in my view – in default in relation to whom? If the OEFC-IESO agreements are not related to FHP, I don't think that IESO having 'permitted liens' for FHP purposes in other OFA credit facility agreements would create a default situation unless the funds from the OEFC agreements somehow end up in this liens?

Thanks,
J-F

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

Hi John,

We have an internal discussion earlier this morning which Mike attended. The comments provided were approved by Sarah and Opal.

Regards,
J-F

Hi Jean-Francois,

You had comments in the draft with questions and concerns expressed. Are these approved by Sarah and Opal or comments at your level?

Given that we are under a tight timeline, it would be helpful if we can have a discussion today.

Mike is in the loop on the FHP discussion. Could your group check with him on his views beforehand too?

John

Hi Gavin,

I discussed your request for me to come down to the 3rd floor for a quick chat with you and John with Opal.

At this time, our preference would be to obtain clarifications from CEFD and/or IESO in response to the comments we raised so that we may gain a better understanding of the potential implications for OEFC. Opal suggested that we could have a call or meeting tomorrow if you think that would be helpful?

Kind regards,
J-F

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested that OEFC ~~to~~ amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations ~~the~~ IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

CONTEXT

The ~~Fair Hydro Plan (~~FHP~~)~~ will require ~~the~~ IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA).~~ The~~ IESO and OPG are in a discussion to ~~potentially~~ grant ~~the~~a security/priority interest on IESO's assets to ~~the~~ OPG Trust for the period of the first ~~four~~ 4 years of the GA deferral.

As the purchaser of IESO assets, OPG Trust wants to secure a priority interest against these assets in light of on-going uncertainties surrounding funding requirements of the FHP. IESO has existing credit facility agreements with the OFA, OEFC and TD Bank and wants to ensure consistency across all of its existing agreements in order to provide a level of comfort to the broader investment community . ~~The~~ IESO will seek its Board's approval on Nov 22, 2017 for the security agreement. Amending ~~and this would be in conflict with~~ the existing OEFC~~'s~~ $160M and $120M credit facility agreements (the "OEFC Agreements") ~~with the IESO without the requested amendments~~would prevent IESO from having to undertake further negotiations or make last-minute changes to the security agreement it intends to present to its Board in the very near future~~. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust~~.

In order to address this issue, ~~the~~ IESO has requested ~~OEFC~~ to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the ~~Fair Hydro Plan (~~FHP~~)~~. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations ~~towards OPG~~under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid of breaching the terms of existing agreements. ~~the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.~~

~~To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. The OFA staff have recommended providing the requested amendments and amended the $475M and $2B credit facility agreements between OFA and the IESO on November 6th, 2017 (the "OFA Agreements"), as suggested by the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.~~

It should be noted that the legislation governing OEFC differs significantly from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993.* In the event IESO were to default on any of its obligations to OEFC in connection with FHP-related liens resulting from OPG Trust having a priority claim against funds collected by IESO, the OEFC may need to undertake negotations with IESO or find itself unable to collect payments due from IESO.

RECOMMENDATIONS

- In order ~~To support IESO's role in the implementation and participation under the OFHP Act and also to be~~ to remain consistent with the language recently incorporated in existing IESO-OFA agreements~~approach OFA implemented~~, OFA staff are of the view that the exisiting OEFC Agreements ~~require amendments~~can be amended provided OEFC management is comfortable with the level of risk assumed by OEFC; and
  - ~~to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the OFA Agreements that were signed recently.~~
- It is recommended that the OFA staff support~~Although the OEFC credit facility is not used for OFHP's purpose , it is~~ IESO's ~~position~~request ~~that it wants to~~ to ~~make such change to the~~amend exsiting ~~definition of the permitted liens to make sure that the IESO is not inadvertently in default of its security obligations to OPG Trust is still required in order for IESO to~~and ~~meet~~s ~~its~~ OEFC Agreements so that it may fulfill its ~~role and~~ obligations under the OFHP Act without limitations.~~.~~

BACKGROUND

- In order to support IESO's role with the implementation of the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of ~~the~~ "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

- ~~On November 6, 2017, OFA and IESO signed an updated OFA-IESO credit facility agreement with respect to changes related to OFHP.~~

The Fair Hydro Plan (FHP) will require ~~the~~ IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). ~~The~~ IESO and OPG are in a discussion to ~~potentially~~ grant ~~the~~a security/priority interest on IESO's assets to ~~the~~ OPG Trust for the period of the first ~~four~~ 4 years of the GA deferral.

As the purchaser of IESO assets, OPG Trust wants to secure a priority interest against these assets in light of on-going uncertainties surrounding funding requirements of the FHP. IESO has existing credit facility agreements with the OFA, OEFC and TD Bank and wants to ensure consistency across all of its existing agreements in order to provide a level of comfort to the broader investment community . ~~The~~ IESO will seek its Board's approval on Nov 22, 2017 for the security agreement. Amending ~~and this would be in conflict with~~ the existing OEFC~~'s~~ $160M and $120M credit facility agreements (the "OEFC Agreements") ~~with the IESO without the requested amendments~~would prevent IESO from having to undertake further negotiations or make last-minute changes to the security agreement it intends to present to its Board in the very near future~~. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust~~.

In order to address this issue, ~~the~~ IESO has requested ~~OEFC~~ to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the ~~Fair Hydro Plan (~~FHP~~)~~. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations ~~towards OPG~~under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid of breaching the terms of existing agreements. ~~the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.~~

~~To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. The OFA staff have recommended providing the requested amendments and amended the $475M and $2B credit facility agreements between OFA and the IESO on November 6th, 2017 (the "OFA Agreements"), as suggested by the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.~~
It should be noted that the legislation governing OEFC differs significantly from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993.* In the event IESO were to default on any of its obligations to OEFC in connection with FHP-related liens resulting from OPG Trust having a priority claim against funds collected by IESO, the OEFC may need to undertake negotations with IESO or find itself unable to collect payments due from IESO.

RECOMMENDATIONS

- In order ~~To support IESO's role in the implementation and participation under the OFHP Act and also to be~~ to remain consistent with the language recently incorporated in existing IESO-OFA agreements~~approach OFA implemented~~, OFA staff are of the view that the exisiting OEFC Agreements ~~require amendments~~can be amended provided OEFC management is comfortable with the level of risk assumed by OEFC; and
  - ~~to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the OFA Agreements that were signed recently.~~
- It is recommended that the OFA staff support~~Although the OEFC credit facility is not used for OFHP's purpose , it is~~ IESO's ~~position~~request ~~that it wants to~~ to ~~make such change to the~~amend exsiting ~~definition of the permitted liens to make sure that the IESO is not inadvertently in default of its security obligations to OPG Trust is still required in order for IESO to~~and ~~meet~~s ~~its~~ OEFC Agreements so that it may fulfill its ~~role and~~ obligations under the OFHP Act without limitations.~~.~~

BACKGROUND

- In order to support IESO's role with the implementation of the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of ~~the~~ "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

- ~~On November 6, 2017, OFA and IESO signed an updated OFA-IESO credit facility agreement with respect to changes related to OFHP.~~

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for OFHP purposes.

CONTEXT

The Fair Hydro Plan (FHP) will require IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

As the purchaser of IESO assets, OPG Trust wants to secure a priority interest against these assets in light of on-going uncertainties surrounding funding requirements of the FHP. IESO has existing credit facility agreements with the OFA, OEFC and TD Bank and wants to ensure consistency across all of its existing agreements in order to provide a level of comfort to the broader investment community . IESO will seek its Board's approval on Nov 22, 2017 for the security agreement. Amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements") would prevent IESO from having to undertake further negotiations or make last-minute changes to the security agreement it intends to present to its Board in the very near future.

In order to address this issue, IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid of breaching the terms of existing agreements.

It should be noted that the legislation governing OEFC differs significantly from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993.* In the event IESO were to default on any of its obligations to OEFC in connection with FHP-related liens resulting from OPG Trust having a priority claim against funds collected by IESO, the OEFC may need to undertake negotations with IESO or find itself unable to collect payments due from IESO.

RECOMMENDATIONS

- In order to remain consistent with the language recently incorporated in existing IESO-OFA agreements, OFA staff are of the view that the exisiting OEFC Agreements can be amended provided OEFC management is comfortable with the level of risk assumed by OEFC; and

- It is recommended that the OFA staff support IESO's request to amend exsiting OEFC Agreements so that it may fulfill its obligations under the OFHP Act without limitations.

BACKGROUND

- In order to support IESO's role with the implementation of the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

Hi Jean-Francois,

You had comments in the draft with questions and concerns expressed. Are these approved by Sarah and Opal or comments at your level?

Given that we are under a tight timeline, it would be helpful if we can have a discussion today.

Mike is in the loop on the FHP discussion. Could your group check with him on his views beforehand too?

John

Hi Gavin,

I discussed your request for me to come down to the 3rd floor for a quick chat with you and John with Opal.

At this time, our preference would be to obtain clarifications from CEFD and/or IESO in response to the comments we raised so that we may gain a better understanding of the potential implications for OEFC. Opal suggested that we could have a call or meeting tomorrow if you think that would be helpful?

Kind regards,
J-F

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested OEFC to amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations the IESO is taking on under Ontario's Fair Hydro Plan.

CONTEXT

The Fair Hydro Plan will require the IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). The IESO and OPG are in a discussion to potentially grant the security/priority on IESO's assets to the OPG Trust for the period of the first four years of the GA deferral. The IESO will seek its Board approval on Nov 22, 2017 for the security agreement and this would be in conflict with OEFC's $160M and $120M credit facility agreements (the "OEFC Agreements") with the IESO without the requested amendments. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust.

In order to address this issue, the IESO has requested OEFC to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the Fair Hydro Plan (FHP). Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations towards OPG. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. The OFA staff have recommended providing the requested amendments and amended the $475M and $2B credit facility agreements between OFA and the IESO on November 6th, 2017 (the "OFA Agreements"), as suggested by the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.

RECOMMENDATION

- To support IESO's role in the implementation and participation under the OFHP Act and also to be consistent with the approach OFA implemented , OFA staff are of the view that the exisiting OEFC Agreements require amendments to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the OFA Agreements that were signed recently.
- Although the OEFC credit facility is not used for OFHP's purpose, it is IESO's position that it wants to make such change to the definition of the permitted liens to make sure that the IESO is not inadvertently in default of its security obligations to OPG Trust ~~is still required in order for IESO to~~and meets its role and obligation under the OFHP Act.

BACKGROUND

- Currently, under the existing credit facility agreement between OEFC and the IESO, the definition of the "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation,

Commented [JB1]:
If the existing agreements between OEFC and IESO will not be used for OFHP purposes (see 2nd bullet in "Recommendations") and since draws for FHP purposes will only made from the OFA-IESO $2B credit facility agreement, there does not appear to be a clear rationale why the definition of 'permitted liens" needs to be amended in the OEFC agreement at this time. Please advise.

Commented [JB2]:
We are not privy to the 'security agreement' and need to understand why this would be in conflict with existing agreements. Please explain what are the risks, if any, of OEFC permitting IESO to grant priority to OPG Trust?

(e.g. If changes were made to the Clean Energy Adjustment fund collected by IESO in the future and OPG Trust had liens in place against these assets, is there a possibility that IESO would default on its 'non-OFHP' related obligations to OEFC? How would this work?

Commented [JB3]:
We require a better understanding of how the GA, Clean Energy Adjustment Funds and OPG Trust fit together in the context of OEFC. Please advise.

May you please explain if the GA is related to OEFC and how this may impact the existing $120M and $160M agreements precisely?

It would be helpful if you could please provide an example of a situation where non-OFHP related business conducted between IESO-OEFC would end up as part of a lien related to FHP obligations?

Commented [JB4]:
Should these agreements be examined on a case-by-case basis to determine what they are being used for and only those agreements which pertain to OFHP obligations should be amended?

Commented [JB5]:
How would funds collected from the Clean Energy Adjustment affect OEFC and IESO's obligations to repay OEFC?

amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

- On November 6, 2017, OFA and IESO signed an updated OFA IESO credit facility agreement with respect to changes related to OFHP.

Hi Opal and Sarah,

Please find attached my comments for your review and consideration.

Basically, what I am hearing from CEFD so far is: "the OFA-IESO agreements were done this way, so we should do the same for OEFC to remain consistent" which is not a very convincing argument in my opinion – specially considering the $475M agreement may have been amended without much consideration.

Also, the comment to the effect that "IESO is asking for this to avoid being in default" requires further clarifications in my view – in default in relation to whom? If the OEFC-IESO agreements are not related to FHP, I don't think that IESO having 'permitted liens' for FHP purposes in other OFA credit facility agreements would create a default situation unless the funds from the OEFC agreements somehow end up in this liens?

Thanks,
J-F

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

CONTEXT - IESO'S REQUEST

- The FHP requires the IESO and Ontario Power Generation (OPG) to work together to refinance Ontario's clean energy investments over a longer period of time. IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a ~~for the~~ security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the security agreement~~s~~. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid ~~of~~ breaching the terms of existing agreements.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017~~,~~ the IESO had requested that the OFA ~~to~~ make ~~the same~~similar ~~request~~ changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of ~~the~~ "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- OFA'S Capital Markets – Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*. [This was a bullet suggested by CMD – Operations.]

- With the proposed new security agreement between OPG Trust and IESO, OPG Trust would have a priority claim against potentially the Clean Energy Adjustment funds collected by or flowing~~n~~ through the IESO, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low and IESO is an agency of the government consolidated line-by-line in the Province's accounts. [This was a bullet inserted by CMD – Operations.]

Commented [JB1]: Please confirm the scope of the security agreement. Does IESO grant secuurity to OPG Trust for all IESO assets, or only those related to FHP?
We are not certain that pleasing the 'investment community' would be a satisfactory explanation and so far this is only based on IESO's request.

Commented [JB2]: Repetive suggested deleting.

Commented [JB3]: This may not have been necessary and we should consider this.

Commented [JK4]: Unless Documentation can provide specific differences that are significant, I suggest we delete.

Commented [OK5R4]: The fact that OFA's objects/mandate are detailed under CIPA is a distinct differentiation from OEFC. This is only relevant as it goes to the reach of OFA. Not fussed if you wish to delete.

- The OFA agreed to IESO's requested changes to ~~included the requested changes in~~ the OFA credit facilities, thereby providing a precedent ~~of having considered the~~ for considering similar changes for ~~/~~inclusion into other agreements with IESO. ~~of the same request.~~ Treating the current request differently by seeking either a Minister's directive or not granting the IESO its request would mean having to take steps on the OFA credit facilities, which were ~~either signed~~ recently ~~or~~ amended ~~recently~~.

RECOMMENDATIONS

- In order to support IESO's request and remain consistent with the language recently incorporated in existing IESO-OFA agreements, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens". [TBD]

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

Electricity Finance Branch / Corporate and Electricity Finance Division [&
Capital Markets Operations, Capital Markets Division]
Ontario Financing Authority
November ~~15~~20, 2017

Commented [OK6]: The OFA and OEFC are different corporate entities, so treatment of each may be different depending on the circumstances, even when dealing with the same borrower.

Commented [OK7]: The OFA credit facility was provided pursuant to the minister's directive, so seeking a minister's directive wrt OEFC would be consistent with how OFA was treated. Not suggesting this is necessary.

Commented [JB8]: If the $475M credit facility agreement was amended as an oversight, then we should not necessarily rely on precedent, specially considering the OEFC has less flexibility than OFA in its lending guidelines in my opinion.

Commented [JB9]: I do not necessarily agree on this point.

Commented [JB10]: Repetitive.

Commented [JK11]: There have been some changes since last week so put CMD – Operations in square brackets.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested OEFC to amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations the IESO is taking on under Ontario's Fair Hydro Plan.

CONTEXT

The Fair Hydro Plan will require the IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). The IESO and OPG are in a discussion to potentially grant the security/priority on IESO's assets to the OPG Trust for the period of the first four years of the GA deferral. The IESO will seek its Board approval on Nov 22, 2017 for the security agreement and this would be in conflict with OEFC's $160M and $120M credit facility agreements (the "OEFC Agreements") with the IESO without the requested amendments. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust.

In order to address this issue, the IESO has requested OEFC to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the Fair Hydro Plan (FHP). Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations towards OPG. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. The OFA staff have recommended providing the requested amendments and amended the $475M and $2B credit facility agreements between OFA and the IESO on November 6th, 2017 (the "OFA Agreements"), as suggested by the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.

RECOMMENDATION

- To support IESO's role in the implementation and participation under the OFHP Act and also to be consistent with the approach OFA implemented , OFA staff are of the view that the exisiting OEFC Agreements require amendments to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the OFA Agreements that were signed recently.
- Although the OEFC credit facility is not used for OFHP's purpose, it is IESO's position that it wants to make such change to the definition of the permitted liens to make sure that the IESO is not inadvertently in default of its security obligations to OPG Trust ~~is still required in order for IESO to~~and meets its role and obligation under the OFHP Act.

BACKGROUND

- Currently, under the existing credit facility agreement between OEFC and the IESO, the definition of the "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation,

Commented [JB1]:
If the existing agreements between OEFC and IESO will not be used for OFHP purposes (see 2nd bullet in "Recommendations") and since draws for FHP purposes will only made from the OFA-IESO $2B credit facility agreement, there does not appear to be a clear rationale why the definition of 'permitted liens" needs to be amended in the OEFC agreement at this time. Please advise.

Commented [JB2]:
We are not privy to the 'security agreement' and need to understand why this would be in conflict with existing agreements. Please explain what are the risks, if any, of OEFC permitting IESO to grant priority to OPG Trust?

(e.g. If changes were made to the Clean Energy Adjustment fund collected by IESO in the future and OPG Trust had liens in place against these assets, is there a possibility that IESO would default on its 'non-OFHP' related obligations to OEFC? How would this work?

Commented [JB3]:
We require a better understanding of how the GA, Clean Energy Adjustment Funds and OPG Trust fit together in the context of OEFC. Please advise.

May you please explain if the GA is related to OEFC and how this may impact the existing $120M and $160M agreements precisely?

It would be helpful if you could please provide an example of a situation where non-OFHP related business conducted between IESO-OEFC would end up as part of a lien related to FHP obligations?

Commented [JB4]:
Should these agreements be examined on a case-by-case basis to determine what they are being used for and only those agreements which pertain to OFHP obligations should be amended?

Commented [JB5]:
How would funds collected from the Clean Energy Adjustment affect OEFC and IESO's obligations to repay OEFC?

amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

- On November 6, 2017, OFA and IESO signed an updated OFA IESO credit facility agreement with respect to changes related to OFHP.

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested OEFC to amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations the IESO is taking on under Ontario's Fair Hydro Plan.

Commented [JB1]:
If the existing agreements between OEFC and IESO will not be used for OFHP purposes (see 2nd bullet in "Recommendations") and since draws for FHP purposes will only made from the OFA-IESO $2B credit facility agreement, there does not appear to be a clear rationale why the definition of 'permitted liens" needs to be amended in the OEFC agreement at this time. Please advise.

CONTEXT

The Fair Hydro Plan will require the IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). The IESO and OPG are in a discussion to potentially grant the security/priority on IESO's assets to the OPG Trust for the period of the first four years of the GA deferral. The IESO will seek its Board approval on Nov 22, 2017 for the security agreement and this would be in conflict with OEFC's $160M and $120M credit facility agreements (the "OEFC Agreements") with the IESO without the requested amendments. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust.

Commented [JB2]:
We are not privy to the 'security agreement' and need to understand why this would be in conflict with existing agreements. Please explain what are the risks, if any, of OEFC granting IESO priority to OPG Trust?

(e.g. If changes were made to the Clean Energy Adjustment fund collected by IESO in the future and OPG Trust had liens in place against these assets, is there a possibility that IESO would default on its 'non-OFHP' related obligations to OEFC? How would this work?

In order to address this issue, the IESO has requested OEFC to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the Fair Hydro Plan (FHP). Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations towards OPG. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.

Commented [JB3]:
We require a better understanding of how the GA, Clean Energy Adjustment Funds and OPG Trust fit together in the context of OEFC. Please advise.

May you please explain if the GA is related to OEFC and how this may impact the existing $120M and $160M agreements precisely?

It would be helpful if you could please provide an example of a situation where non-OFHP related business conducted between IESO-OEFC would end up as part of a lien related to FHP obligations?

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. The OFA staff have recommended providing the requested amendments and amended the $475M and $2B credit facility agreements between OFA and the IESO on November 6th, 2017 (the "OFA Agreements"), as suggested by the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.

RECOMMENDATION

- To support IESO's role in the implementation and participation under the OFHP Act and also to be consistent with the approach OFA implemented , OFA staff are of the view that the exisiting OEFC Agreements require amendments to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the OFA Agreements that were signed recently.
- Although the OEFC credit facility is not used for OFHP's purpose, it is IESO's position that it wants to make such change to the definition of the permitted liens to make sure that the IESO is not inadvertently in default of its security obligations to OPG Trust ~~is still required in order for IESO to~~and meets its role and obligation under the OFHP Act.

Commented [JB4]:
Should these agreements be examined on a case-by-case basis to determine what they are being used for and only those agreements which pertain to OFHP obligations should be amended?

Commented [JB5]:
How would funds collected from the Clean Energy Adjustment affect OEFC and IESO's obligations to repay OEFC?

BACKGROUND

- Currently, under the existing credit facility agreement between OEFC and the IESO, the definition of the "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation,

amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

- On November 6, 2017, OFA and IESO signed an updated OFA IESO credit facility agreement with respect to changes related to OFHP.

You had me just about convinced that permitted liens language has to go into the OEFC agreement. So the question is still whether all agreements entered into by the IESO has to grant priority to OPGT whether or not related to FHP, in order for IESO to not be in default under the Security Agreement with OPGT. Some high level direction on whether that risk is acceptable for OEFC is needed.

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro

program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested OEFC to amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations the IESO is taking on under Ontario's Fair Hydro Plan.

CONTEXT

The Fair Hydro Plan will require the IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). The IESO and OPG are in a discussion to potentially grant the security/priority on IESO's assets to the OPG Trust for the period of the first four years of the GA deferral. The IESO will seek its Board approval on Nov 22, 2017 for the security agreement and this would be in conflict with OEFC's $160M and $120M credit facility agreements (the "OEFC Agreements") with the IESO without the requested amendments. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust.

In order to address this issue, the IESO has requested OEFC to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the Fair Hydro Plan (FHP). Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations towards OPG. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. The OFA staff have recommended providing the requested amendments and amended the $475M and $2B credit facility agreements between OFA and the IESO on November 6th, 2017 (the "OFA Agreements"), as suggested by the IESO. One of the amendments to the agreement is to amend the definition of the permitted liens to include any lien arising from the IESO's role and obligations under the OFHP.

RECOMMENDATION

- To support IESO's role in the implementation and participation under the OFHP Act and also to be consistent with the approach OFA implemented , OFA staff are of the view that the exisiting OEFC Agreements require amendments to the permitted liens and negative covenant language to make it the same as, or very similar to, the language in the OFA Agreements that were signed recently.
- Although the OEFC credit facility is not used for OFHP's purpose, it is IESO's position that it wants to make such change to the definition of the permitted liens to make sure that the IESO is not inadvertently in default of its security obligations to OPG Trust ~~is still required in order for IESO to~~and meets its role and obligation under the OFHP Act.

BACKGROUND

- Currently, under the existing credit facility agreement between OEFC and the IESO, the definition of the "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation,

Commented [JB1]:
If the existing agreements between OEFC and IESO will not be used for OFHP purposes, why do these agreements need to be amended?

Commented [JB2]:
Does the GA relate to the OFHP and if so, how? How is the GA related to OEFC?

Commented [JB3]:
What are the risks, if any, of OEFC granting IESO priority to OPG Trust?

Commented [JB4]:
Why 4 years and when will Clean Energy Adjustment funds be collected by IESO. I require a better understanding of how the GA, Clean Energy Adjustment Funds and OPG Trust fit together?

Commented [JB5]:
Seeing how draws for FHP purposes will only made from the OFA-IESO $2B credit facility agreement, there does appear to be a clear rationale why was the definition of 'permitted liens" amended in the $475M agreement (previously $975M). What was the rationale, and how is it applicable to the OEFC agreements?

Commented [JB6]:
It is not clear why OFA staff is of this view other than making the language consistent across all agreements.

Should these agreements not be examined on a case-by-case basis to determine what they are being used for and only those agreements which pertain to OFHP obligations should allow liens under OFHP obligations?

Commented [JB7]:
If the funds from the OEFC-IESO credit facility agreements will not be used for OFHP purposes, I am not clear on the reason for requesting this change since OPG Trust would then have a primary claim on any Clean Energy Adjustment
funds collected by IESO.

How would funds collected from the Clean Energy Adjustment affect OEFC and IESO's obligations to repay OEFC?

We need to ensure that we are not amending agreement just because IESO is asking us to and understand the potential implications of making these changes.

amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

- On November 6, 2017, OFA and IESO signed an updated OFA IESO credit facility agreement with respect to changes related to OFHP.

Subject: FW: IESO - OEFC credit facilities : permitted liens

HI Opal,

JF and I chatted and he is going to send me some comments on the note. In respect of OEFC, he still has concerns about the appropriateness and risk of exposure for OEFC, which I think has merit in pointing out. The OFA facilities make more sense to include FHP permitted liens which are more closely connected to FHP (although the 475m, now that is it reduced, is not being used for FHP purposes). He also mentioned the ability of the OFA to 'write off' loans (such as GM), which frankly I am not familiar with, since I was in Derivatives land at the time. OEFC may have a different risk/recourse profile, so that should be considered.

Once JF provides his comments, we can all discuss. All this being said, given the broader political initiative of carrying out the FHP and IESO's role in it, the OFA may be required to insert the changes in the OEFC agreements, but at least the risks will have been pointed out.

Sarah

Couple questions:

- Kelly prepared this PowerPoint apparently
- There is no direct link between OEFC and IESO
- Assuming this chart is accurate, how does the $2B OFA-IESO credit facility fit into this?
- How do the other remaining $475M OFA-IESO facility and the OEFC-IESO agreements fit into this puzzle?

This is the type of diagram we should get from Corporate Electricity.

The IESO will sell the right to collect deferred future revenue from ratepayers to the SPV in return for Global adjustment funding cash proceeds.
(The Province is providing both a service guarantee and a performance guarantee to ensure that the obligations of the IESO are carried out).

Notes:

* Tranche C sub debt from OPG via Capital Markets 5%

** Tranche B sub debt from OPG via OEFC 39% + Tranche C sub debt from OPG via OEFC 5%

*** Tranche A senior debt from Capital Markets 51%

The SPV structure is used to accomplish the following:

- SPV holds the right to charge customers for the benefit of debt holders;
- Allows the financing vehicle to be separated from OPG as an SPV structure is set up as generally single purpose entities with no other operations that could add risk to the SPV, dilute debt holder rights, allow parties from other operations to claim rights to the future recovery from customers or allow these other parties to initiate bankruptcy proceedings;
- Enables SPV to potentially get a higher credit rating than OPG;
- Supports consolidation with OPG provided accounting requirements arc satisfied;

This approach supports a number of objectives of the Global Adjustment Recovery Right:

- 51% external senior debt supports separation of the SPV from the Province
- 5% junior subordinated debt establishes OPG's "at risk" equity which supports separation of the SPV from the Province
- Subordinated debt provides flexibility to the financing structure and additional credit support to external debt holders
- Subordinated debt sourced from OPG (mainly funded by equity injection from the Province) minimizes impact on OPG credit metrics reducing risk of an OPG rating downgrade that could result in the SPV being consolidated directly with the Province as the SPY would be considered an arm of the Province.

Potential Documents For Documentation Review (where OEFC or OFA or Province are a party):

OEFC – OPG equity master subscription agreement term sheet (June)

Provincial service and performance guarantees re IESO

IESO needs a backstop credit facility in the event the SPV does not, or cannot, purchase “assets” from IESO (right to collect electricity bill payments).

Other documents look to me to be “indirect”, but we may be asked to comment on sub debt docs and the like (but the parties are the SPV and the bond market).

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested OEFC to amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations the IESO is taking on under Ontario's Fair Hydro Plan.

CONTEXT

The Fair Hydro Plan will require the IESO and Ontario Power Generation (OPG) to work together to spread out the costs of Ontario's clean energy investments over a longer period of time, which ensures that the costs of these investments are allocated fairly among current and future ratepayers. This is being accomplished through refinancing a portion of the Global Adjustment (GA). The IESO and OPG are in a discussion to potentially grant the security/priority on IESO's assets to the OPG Trust for the period of the first four years of the GA deferral. The IESO will seek its Board approval on Nov 22, 2017 for the security agreement and this would be in conflict with OEFC's $160M and $120M credit facility agreements (the "OEFC Agreements") with the IESO without the requested amendments. Paragraph 4.7 – Negative Pledges – in both OEFC credit facility agreements does not allow IESO to grant such security/priority to the OPG Trust.

In order to address this issue, the IESO has requested OEFC to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the Fair Hydro Plan (FHP). Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations towards OPG. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want inadvertently to be in default.

To support IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act") in July 2017, the IESO had reached out to the Capital Market Division – Operations of the OFA to make the same request to the credit facility agreements with OFA in October. Hi Opal and Sarah,

Please find attached my comments for your review and consideration.

Basically, what I am hearing from CEFD so far is: "the OFA-IESO agreements were done this way, so we should do the same for OEFC to remain consistent" which is not a very convincing argument in my opinion – specially considering the $475M agreement may have been amended without much consideration.

Also, the comment to the effect that "IESO is asking for this to avoid being in default" requires further clarifications in my view – in default in relation to whom? If the OEFC-IESO agreements are not related to FHP, I don't think that IESO having 'permitted liens' for FHP purposes in other OFA credit facility agreements would create a default situation unless the funds from the OEFC agreements somehow end up in this liens?

Thanks,
J-F

Hi Jean-Francois,

You had comments in the draft with questions and concerns expressed. Are these approved by Sarah and Opal or comments at your level?

Given that we are under a tight timeline, it would be helpful if we can have a discussion today.

Mike is in the loop on the FHP discussion. Could your group check with him on his views beforehand too?

John

Hi Gavin,

I discussed your request for me to come down to the 3rd floor for a quick chat with you and John with Opal.

At this time, our preference would be to obtain clarifications from CEFD and/or IESO in response to the comments we raised so that we may gain a better understanding of the potential implications for OEFC. Opal suggested that we could have a call or meeting tomorrow if you think that would be helpful?

Kind regards,
J-F

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

CONTEXT - IESO'S REQUEST

- The FHP requires the IESO and Ontario Power Generation (OPG) to work together to refinance Ontario's clean energy investments over a longer period of time. IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a ~~for the~~ security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the security agreement~~s~~. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid ~~of~~ breaching the terms of existing agreements.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017~~,~~ the IESO had requested that the OFA ~~to~~ make ~~the same~~similar ~~request~~ changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of ~~the~~ "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- OFA'S Capital Markets – Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*. [This was a bullet suggested by CMD – Operations.]

- With the proposed new security agreement between OPG Trust and IESO, OPG Trust would have a priority claim against potentially the Clean Energy Adjustment funds collected by or flowing~~n~~ through the IESO, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low and IESO is an agency of the government consolidated line-by-line in the Province's accounts. [This was a bullet inserted by CMD – Operations.]

Commented [JB1]: Please explain why this may be the case from a legal perspective. We are not certain that pleasing the 'investment community' would be a satisfactory explanation and so far this is only based on IESO's request.

Commented [JB2]: Repetive suggested deleting.

Commented [JB3]: This may not have been necessary and we should consider this.

Commented [JK4]: Unless Documentation can provide specific differences that are significant, I suggest we delete.

Commented [OK5R4]: The fact that OFA's objects/mandate are detailed under CIPA is a distinct differentiation from OEFC. This is only relevant as it goes to the reach of OFA. Not fussed if you wish to delete.

- The OFA agreed to IESO's requested changes to ~~included the requested changes in~~ the OFA credit facilities, thereby providing a precedent ~~of having considered the~~ for considering similar changes for ~~/~~inclusion into other agreements with IESO. ~~of the same request.~~ Treating the current request differently by seeking either a Minister's directive or not granting the IESO its request would mean having to take steps on the OFA credit facilities, which were ~~either signed~~ recently ~~or~~ amended ~~recently~~.

RECOMMENDATIONS

- In order to support IESO's request and remain consistent with the language recently incorporated in existing IESO-OFA agreements, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens". [TBD]

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

Electricity Finance Branch / Corporate and Electricity Finance Division [&
Capital Markets Operations, Capital Markets Division]
Ontario Financing Authority
November ~~15~~20, 2017

Commented [OK6]: The OFA and OEFC are different corporate entities, so treatment of each may be different depending on the circumstances, even when dealing with the same borrower.

Commented [OK7]: The OFA credit facility was provided pursuant to the minister's directive, so seeking a minister's directive wrt OEFC would be consistent with how OFA was treated. Not suggesting this is necessary.

Commented [JB8]: If the $475M credit facility agreement was amended as an oversight, then we should not necessarily rely on precedent, specially considering the OEFC has less flexibility than OFA in its lending guidelines in my opinion.

Commented [JB9]: I do not necessarily agree on this point.

Commented [JB10]: Repetitive.

Commented [JK11]: There have been some changes since last week so put CMD – Operations in square brackets.

Yes, the language would be similar to the OFA-IESO agreements. CEFD is working on a revised briefing note and I would advise waiting on amending the agreements until we have a final version of the note to make sure everyone agrees.

Thanks,
J-F

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

CONTEXT - IESO'S REQUEST

- The FHP requires the IESO and Ontario Power Generation (OPG) to work together to refinance Ontario's clean energy investments over a longer period of time. IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a ~~for the~~ security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the security agreement~~s~~. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid ~~of~~ breaching the terms of existing agreements.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017~~,~~ the IESO had requested that the OFA ~~to~~ make ~~the same~~similar ~~request~~ changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of ~~the~~ "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- OFA'S Capital Markets – Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*. [This was a bullet suggested by CMD – Operations.]

- With the proposed new security agreement between OPG Trust and IESO, OPG Trust would have a priority claim against potentially the Clean Energy Adjustment funds collected by or flowing~~n~~ through the IESO, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low and IESO is an agency of the government consolidated line-by-line in the Province's accounts. [This was a bullet inserted by CMD – Operations.]

Commented [JK1]: Unless Documentation can provide specific differences that are significant, I suggest we delete.

Commented [OK2R1]: The fact that OFA's objects/mandate are detailed under CIPA is a distinct differentiation from OEFC. This is only relevant as it goes to the reach of OFA. Not fussed if you wish to delete.

- The OFA agreed to IESO's requested changes to ~~included the requested changes in~~ the OFA credit facilities, thereby providing a precedent ~~of having considered the~~ for considering similar changes for ~~/~~inclusion into other agreements with IESO. ~~of the same request.~~ Treating the current request differently by seeking either a Minister's directive or not granting the IESO its request would mean having to take steps on the OFA credit facilities, which were ~~either signed~~ recently ~~or~~ amended ~~recently~~.

Commented [OK3]: The OFA and OEFC are different corporate entities, so treatment of each may be different depending on the circumstances, even when dealing with the same borrower.

Commented [OK4]: The OFA credit facility was provided pursuant to the minister's directive, so seeking a minister's directive wrt OEFC would be consistent with how OFA was treated. Not suggesting this is necessary.

RECOMMENDATIONS

- In order to support IESO's request and remain consistent with the language recently incorporated in existing IESO-OFA agreements, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens". [TBD]

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

Electricity Finance Branch / Corporate and Electricity Finance Division [& Capital Markets Operations, Capital Markets Division]
Ontario Financing Authority
November ~~15~~20, 2017

Commented [JK5]: There have been some changes since last week so put CMD – Operations in square brackets.

I assume that the language would be similar to the FHP agreement. However, would it be helpful for Gadi/Ron/Mike to see the language of the proposed amendments in order to inform their decision?

Hi Gavin,

I discussed your request for me to come down to the 3rd floor for a quick chat with you and John with Opal.

At this time, our preference would be to obtain clarifications from CEFD and/or IESO in response to the comments we raised so that we may gain a better understanding of the potential implications for OEFC. Opal suggested that we could have a call or meeting tomorrow if you think that would be helpful?

Kind regards,
J-F

Hi Gavin,

I discussed your request for me to come down to the 3rd floor for a quick chat with you and John with Opal.

At this time, our preference would be to obtain clarifications from CEFD and/or IESO in response to the comments we raised so that we may gain a better understanding of the potential implications for OEFC. Opal suggested that we could have a call or meeting tomorrow if you think that would be helpful?

Kind regards,
J-F

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Have you had a chance to look at the security agreement (draft Nov 7)? It's so general in terms of its reach on IESO, namely s.2.1 "all Accounts…" "all Proceeds…"

Not sure what Carrying costs are though. They are supposed to be defined in the regulation, but I couldn't find any reference to them in the Reg.

Hi Opal and Sarah,

Please find attached my comments for your review and consideration.

Basically, what I am hearing from CEFD so far is: "the OFA-IESO agreements were done this way, so we should do the same for OEFC to remain consistent" which is not a very convincing argument in my opinion – specially considering the $475M agreement may have been amended without much consideration.

Also, the comment to the effect that "IESO is asking for this to avoid being in default" requires further clarifications in my view – in default in relation to whom? If the OEFC-IESO agreements are not related to FHP, I don't think that IESO having 'permitted liens' for FHP purposes in other OFA

credit facility agreements would create a default situation unless the funds from the OEFC agreements somehow end up in this liens?

Thanks,
J-F

FHP credit facility agreement clean final Sept 1.docx

Hi Opal,

Please see answers below.

Sorry for the delay – I asked Will to arrange to obtain the electronic execution copy of the $2B FHP facility yesterday from Anthony for sign-off; Will only informed me this morning that OFA Legal preferred that we prepare it (which it now has been in conjunction with OFA Legal, and is now with IESO for final sign-off).

Sarah

To: Sarah Harris <Sarah.Harris@ofina.on.ca>
Subject: Re: IESO Directive

Okay. Thanks for the update. Implications for IESO's relationship with Moody's? Will spoke with Anthony at IESO, and Anthony is okay with execution the earliest as possible next week. Anthony said he has been putting off a call to Moody's and can hold out a little longer.

Are the agreements ready in execution form for when the exemption is finally approved?

-

- New $2B facility agreement. All terms agreed are agreed. The attached clean version is with IESO for final sign-off. I am giving it fine tooth comb reading in the meantime, even though OFA legal signed off.

  Amending Agreement #10 for to reduce $975m to $475m – draft with IESO to confirm language on election notice. IESO requested a last minute change yesterday with regard to rolling interest, which was agreed to by Mike yesterday. Changes have been incorporated. I attach the last e-mail from yesterday which includes the draft sent to IESO yesterday afternoon. I suggest that you could read it, but that you don't share with Mike; it would confuse vs. help him, given that it is a tenth amending agreement which touches changes from previous amending agreements.

While we wait for this to occur I'd like to review both agreements. I will also suggest to Mike that a copy of both can be provided to him so that he can review in advance of signing.

Opal.

---

Hello Anthony and Victor,

The Election for to roll-over a portion or all of the interest triggered a number of changes which includes updates to definitions, Section 3.2, 3.3, Schedules 1, 2 and 3.

Section 3.3(4) was added from the FHP Agreement, which addresses calculation of interest on a Continued Advance

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

Reason for the scope of changes that have been added (this draft updates all of the Schedules to the Agreement and also aligns the language in the related sections of the Agreement).

Please review and comment.

Thanks,

Will

Hello gentleman,

I have been informed by a colleague that we are instructed by the deputy minister for us to pursue our minister to sign the directive for early next week.

As per Anthony's request, we making changes to the Amending Agreement No. 10 to allow IESO:

•□□□□□□□□ Elect to continue all or a portion of the principal and interest .

•□□□□□□□□ The advancement period of 28 days up to 95 days will remain the same.

•□□□□□□□□ Section 3.3 (2) new advances will change from 1 business day to two business days prior notice because advancements under the Borrowing Notice allow for two business days' notice.

Sorry for the inconvenience.

Will

Subject: RE: IESO Grid Notes

Hello Anthony,

We have reviewed the grid note you provided and your observation is correct that you are provided with one line item with the consolidated total amount compared to the distinct separate the advances we originally understood.

Yes, we have access to a version of the grid note that separates the advances that is not provided to you, which caused the confusion.

Does the revised Section 3.3(2) and Schedule 2 (Form of Election Notice) still functional to you?

Thanks,

Will

Subject: FW: IESO Grid Notes

Hi,

Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.

You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).

It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.

I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

Regards.

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~July~~September, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

(together, the "Parties")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator" (**~~"~~"IESO")**, and the obligations of the OPA became obligations of the IESO;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9"), the OPA or IESO (as applicable) and the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

AND WHEREAS ~~upon the request of~~ the IESO~~, and~~ the Parties~~the OFA~~ have now agreed to: (i) at the request of the IESO, decrease the total principal amount available under the Credit Agreement from $975,000,000 to a total principal amount of up to $475,000,000; ~~and~~ (ii) amend the use of proceeds under the Credit Agreement; and (iii) amend the Form of Election Notice and related provisions under the Credit Agreement;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by ~~each of the OFA and the IESO~~the Parties.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereafter set out, the P~~p~~arties agree that:

1. The definition of "Advances" in Section 1.1 of the Credit Agreement is deleted and replaced by the following:

Formatted: Font: Not Bold

Formatted: Font: Bold

"**Advances**" means advances made by the OFA to the IESO under Article 3 and "Advance" means any one of such advances, and in the case of an election by the IESO under Section 3.3, includes a "Continued Advance", as defined in Section 3.3(1), as applicable."

~~1.~~2. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

~~2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $401,878,030.42[**Insert amount outstanding as of date of execution**].~~

Commented [A1]: Moved to the end to allow schedule references to remain consistent with Credit Agreement

~~3. Upon receipt of the new grid promissory note delivered hereunder, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO.~~

3. The following definitions are added to Section 1.1 of the Agreement

"**Continued Advance"** has the meaning specified in Section 3.3(1).

"**Current Repayment Date**" has the meaning specified in Section 3.3(2).

"**New Repayment Date**" has the meaning specified in Section 3.3(2).

4. Section 2.3 "Use of Proceeds" of the Credit Agreement is deleted in its entirety and replaced by the following:~~:~~

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, provided that Advances may be used only for liquidity purposes."

5. Section 3.2 "Procedures for Advances" of the Credit Agreement is deleted in its entirety and replaced by the following:

"(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall be no earlier than 28 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance in accordance with Section 2.3. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3. The IESO authorizes the OFA to record on the grid promissory note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest

for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement."

6. Section 3.3 "Elections Regarding Advances" of the Credit Agreement is deleted in its entirety and replaced by the following:

"(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 28 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 28 days and not later than 95 days after the Current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the grid promissory note in respect of Advances in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date."

7. Schedule 1 of the Credit Agreement, Form of Borrowing Notice, is deleted in its entirety and replaced by the Form of Borrowing Notice attached hereto as Schedule 1.

8. Schedule 2 of the Credit Agreement, Form of Election Notice, is deleted in its entirety and replaced by the Form of Election Notice attached hereto as Schedule 2.

9. Schedule 3 of the Credit Agreement, IESO Grid Note, is deleted in its entirety and replaced by the Form of Grid Note attached hereto as Schedule 3.

10. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto as Schedule 3 and indicating a total principal amount of Advances Outstanding to date of $401,878,030.42. Upon receipt of the new grid promissory note delivered hereunder, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO.

Commented [A2]: As of August 21, 2017. IESO to confirm.

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the P~~p~~arties.

[*signature page follows*]

IN WITNESS WHEREOF the Pparties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

SCHEDULE 1 TO AMENDING AGREEMENT NO. 10

~~EXECUTED FORM OF GRID NOTE~~ FORM OF BORROWING NOTICE

Delivered Via Fax: 416-204-7920

Ontario Financing Authority ("OFA")
1 Dundas Street West, Suite 1400
Toronto, Ontario
M7A 1Y7

Date: [insert date]

Attention: Cash Management

Dear Sirs:

The undersigned, the Independent Electricity System Operator ("IESO"), refers to the credit agreement between the IESO and the OFA dated January 1, 2005 (as amended, supplemented or restated from time to time, the "**Agreement**", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests an Advance under the Agreement, and, in connection with such request, sets forth below the information relating to such Advance (the "**Proposed Advance**"), as required by Section 3.2(1) of the Agreement:

(a) The date of the Proposed Advance, being a Business Day is _____;
(b) The principal amount of the Proposed Advance is $_____;
(c) The Repayment Date of the Proposed Advance is _____. [Not earlier than 28 days and not later than 95 days after the date of the Proposed Advance.]

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The IESO hereby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice will be used for the following purpose(s): [specify purpose(s) and any sub-categories of borrowing purposes, as applicable]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

Commented [A3]: Changed "aggregate" to "principal". This is the only substantive change to this form.

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement will be expended or held solely for the purpose for which they are authorized to be used under the Agreement; no part of the funds to be received pursuant to this Notice shall be used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 2 TO AMENDING AGREEMENT NO. 10

FORM OF ELECTION NOTICE

Delivered Via Fax: 416-204-7920

Ontario Financing Authority ("OFA")
1 Dundas Street West, Suite 1400
Toronto, Ontario
M7A 1Y7

Date: [insert date]

Attention: Cash Management

Dear Sirs:

Election Notice

The undersigned, the Independent Electricity System Operator ("IESO"), refers to the credit agreement between the IESO and the OFA dated January 1, 2005 (as amended, supplemented or restated from time to time, the "Agreement", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.3 of the Agreement that the IESO elects to continue for an additional term all or a portion of an Advance or a Continued Advance, as the case may be, and in connection with such election sets forth below the information relating to such election as required by Section 3.3(2) of the Agreement:

(a) The date of the proposed election, being a Business Day (being the Current Repayment Date) is _____;

(b) The aggregate amount of the proposed Continued Advance is $_____, which is comprised of:

i. principal amount (or portion thereof) of Advance which is to be continued $_____; and
ii. accrued interest on Advance which will not be paid on or before the Current Repayment Date $_____;

(c) The IESO will pay on the Current Repayment Date the following amount with respect to the Advance (if any): $_____

(d) The New Repayment Date, being a Business Day, applicable to such proposed Continued Advance is _____. [Insert date no earlier than 28 days and not later than 95 days after the Current Repayment Date for the Advance.]

Such election shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Borrowing Notice

The IESO gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests a further Advance under the Agreement on the Current Repayment Date, with a Repayment Date of the New Repayment Date as specified above, and in connection with such request, sets forth below the information relating to such Advance (the "Proposed Advance"):

Amount of the Proposed Advance: $_____

The total aggregate amount of the proposed Continued Advance and Proposed Advance pursuant to this Notice is: $_____

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The IESO hereby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice, if any, will be used for the following purpose(s): [specify purpose(s) and any sub-categories of borrowing purposes, as applicable]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement are being used solely as authorized under the Agreement and are not being used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 3 TO AMENDING AGREEMENT NO. 10

FORM OF GRID NOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

as Borrower

and

ONTARIO FINANCING AUTHORITY

as Lender

REVOLVING CREDIT FACILITY AGREEMENT

Date: September (·), 2017

REVOLVING CREDIT FACILITY AGREEMENT

THIS AGREEMENT is made as of the (·) day of September 2017,

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* (the "IESO")
(as Borrower)

AND

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* (the "OFA" and together with the IESO, the "Parties")
(as Lender)

RECITALS:

WHEREAS the IESO has requested a revolving credit facility for up to a maximum principal amount of $2 billion from the OFA for the purpose of supporting the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017*.

THEREFORE in consideration of the mutual agreements contained herein (the receipt and adequacy of which are acknowledged), the Parties agree as follows:

ARTICLE 1

DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

Section 1.1 Definitions.

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires, the following terms shall have the meanings assigned to them below:

"Advances" means advances made by the OFA to the IESO under Article 3 and "Advance" means any one of such advances, and in the case of an election by the IESO under Section 3.3, includes a "Continued Advance", as defined in Section 3.3(1), as applicable.

"Advances Outstanding" means, at any time, an amount equal to the aggregate principal amount of all Advances outstanding at such time.

"Agreement", "herein", "hereby", "hereor', "hereunder" and similar expressions mean and refer to this agreement and all schedules hereto and all instruments in amendment or confirmation of this agreement and such schedules and not to any particular article or section; and the expression "Article" or "Section" followed by a number means the specified Article or Section of this Agreement.

"Borrowing Notice" has the meaning specified in Section 3.2(1).

"Business Day" means any day that is not a day on which banks are generally authorized or required by law or executive order to be closed in the City of Toronto.

"**Clean Energy Adjustment"** has the same meaning as that term is defined in the OFHP.

"Commitment" means, at any time, an amount equal to $2 billion.

"Consolidated Assets" means, at any time, the book value of the assets of the IESO and the Subsidiaries, determined as of such time on a consolidated basis in accordance with GAAP.

"**Continued Advance"** has the meaning specified in Section 3.3(1).

"Credit Facility" means the revolving credit facility to be made available to the IESO by the OFA under this Agreement for the purposes specified in Section 2.2.

"**Current Repayment Date**" has the meaning specified in Section 3.3(2).

"Default" means any event which, after the giving of notice, or passage of time, or both, would be an Event of Default.

"Dollars" or **"$**" means lawful currency of Canada.

"Election Notice" has the meaning specified in Section 3.3(2).

"Event of Default" has the meaning specified in Section 5.1.

"GAAP" means accounting policies and standards as established by the Chartered Professional Accountants of Canada, at the relevant time and applied on a consistent basis.

"Grid Note" has the meaning specified in Section 3.2(2).

"Indebtedness" means (without duplication), with respect to any Person, whether recourse is to all or a portion of the assets of such Person and whether or not contingent:

(a) every obligation of such Person for borrowed money;

(b) every obligation of such Person evidenced by bonds, debentures, notes or other similar instruments;

(c) every reimbursement obligation of such Person with respect to letters of credit, bankers' acceptances or similar instruments;

(d) every obligation of such Person issued or assumed as the deferred purchase price of property or services (but excluding trade accounts payable or expenses accrued in the ordinary course of business which are not overdue or which are being contested in good faith);

(e) every capital lease obligation of such Person;

(f) the Swap Termination Value of each Swap Contract of such Person; and

(g) every obligation of the type referred to in paragraphs (a) through (f) of another Person and all dividends of another Person the payment of which, in each case, such Person has guaranteed or is responsible or liable for, directly or indirectly, as obligor, guarantor or otherwise.

"Lien" means any assignment, hypothec, mortgage, lien, pledge, security interest, encumbrance, title retention agreement or other agreement or arrangement to secure the performance of any obligation (including the payment of Indebtedness).

"Material Subsidiary" means, at any time, a Subsidiary which has consolidated assets with a book value of more than $25 million determined in accordance with GAAP.

"**New Repayment Date**" has the meaning specified in Section 3.3(2).

"**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*.

"Permitted Liens" means:

(a) Liens for taxes and assessments not at the time overdue or any Liens securing workmen's compensation assessments, unemployment insurance or other social security obligations not at the time overdue;

(b) any Liens or rights of distress reserved in or exercisable under any lease for rent and for compliance with the terms of such lease;

(c) any obligations or duties, affecting the property of the IESO to any municipality or governmental, statutory or public authority, with respect to any franchise, grant, license or permit and any defects in title to structures or other facilities arising solely from the fact that such structures or facilities are constructed or installed on lands held by the IESO or such Material Subsidiary under government permits, leases or other grants,

which obligations, duties and defects in the aggregate do not materially impair the use of such property, structures or facilities for the purpose for which they are held by the IESO or such Material Subsidiary;

(d) any deposits or Liens in connection with building contracts, bids or tenders, expropriation proceedings, surety or appeal bonds, costs of litigation when required by law, and public and statutory obligations, Liens or claims incidental to current construction, builders', mechanics', labourers', materialmen's, warehousemen's, carriers' and other similar Liens;

(e) the right reserved to or vested in any municipality or governmental or other public authority by any statutory provision or by the terms of any lease, license, franchise, grant or permit, that affects any lands, to terminate any such lease, license, franchise, grant or permit or to require annual or their periodic payments as a condition to the continuance thereof;

(f) any undetermined or inchoate Liens and charges incidental to the current operations of the IESO or a Material Subsidiary that have not at the time been filed against the IESO or such Material Subsidiary; provided, however, that if any such Lien or charge shall have been filed, the IESO or such Material Subsidiary shall be prosecuting an appeal or proceedings for review with respect to which it shall have secured a stay in the enforcement of any such Lien or charge;

(g) any Lien the validity of which is being contested at the time by the IESO or a Material Subsidiary in good faith and the enforcement of which has been stayed;

(h) any easements, rights-of-way and servitudes that in the opinion of the IESO will not in the aggregate materially and adversely impair the use or value of the land for the purpose for which it is held or occupied by the IESO or a Material Subsidiary;

(i) any Liens and privileges arising out of judgments or awards with respect to which the IESO or a Material Subsidiary shall be prosecuting an appeal or proceedings for review and with respect to which it shall have secured a stay of execution pending such appeal or proceedings for review;

(j) any other Liens of a nature similar to the foregoing which do not in the opinion of the IESO, acting reasonably, materially impair the use of the property subject thereto or the operation of the business of the IESO or any Material Subsidiary or the value of such property for the purpose of any such business; and

(k) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation to the Clean Energy Adjustment, or any lien, whether arising from the action or inaction of IESO that is created under the OFHP.

"Person" means any individual, corporation, partnership joint venture, association, trust or unincorporated organization or any government or agency or political subdivision thereof.

"Purchase Money Mortgage" means any Lien on property, granted in connection with financing, assumed or given back in payment of, or created or arising by operation of law to secure, the whole or part of the purchase price of such property, or granted in connection with financing the cost in whole or in part of construction or installation of or improvements to any property, provided that such Lien is incurred or assumed at the time or within 12 months after the purchase of such property or the completion of such construction, installation or improvements, as the case may be, and includes any extension, renewal or replacement thereof on the same property if the principal amount of the Indebtedness secured thereby at the time of such extension, renewal or replacement is not increased and if such Lien is not extended to any other property.

"Repayment Date" means, in respect of the repayment of Advances, the repayment date contained in the most recent Borrowing Notice or Election Notice.

"Stated Maturity" when used with respect to any Indebtedness or any installment of interest thereon, means the date specified in or on the agreement or instrument evidencing such Indebtedness as the fixed date on which any principal amount of such Indebtedness or such installment of interest is due and payable.

"Subsidiary" means:

(a) a corporation more than 50% of the voting power or the outstanding Voting Shares of which is owned, directly or indirectly, by the IESO or by one or more other Subsidiaries or by the IESO and one or more other Subsidiaries; or

(b) any Person (other than a corporation) in which the IESO, or one or more other Subsidiaries, directly or indirectly, has at least a majority ownership and power to direct the policies, management and affairs thereof.

"Swap Contract" means any agreement whether or not in writing, relating to any transaction or derivative transaction including a rate swap, basis swap, forward rate transaction, commodity swap, commodity option, commodity future, equity or equity index swap or option, bond, note or bill option, interest rate option, forward foreign exchange transaction, cap, collar or floor transaction currency swap, cross-currency rate swap, swaption, currency option or other similar transaction (including any option to enter into any of the foregoing) or any combination of the foregoing, and, unless the context otherwise clearly requires, any master agreement relating to or governing any or all of the foregoing.

"Swap Termination Value" means, in respect of any one or more Swap Contracts entered into by a Person, after taking into account the effect of any legally enforceable netting agreement relating to such Swap contracts:

(a) for any date on or after the date such Swap Contracts have been closed out and termination value(s) for such Person have been determined in accordance therewith, such termination value(s); and

(b) for any date prior to the date referred to in paragraph (a), the net amount determined pursuant to the terms of such Swap Contracts that would be payable by such Person if such Swap Contracts were terminated as of such date.

"Voting Shares" of any Person means securities of such Person which ordinarily carry a right to vote for the election of directors (or Persons performing similar functions) of such Person.

Section 1.2 Effect of Headings.

The division of this Agreement into Articles and Sections and the insertion of headings are for convenient reference only and shall not affect the construction or interpretation hereof.

Section 1.3 Singular, Plural, Gender, Certain Phrases, etc.

Where the context permits and unless such interpretation would be inappropriate, words importing the singular only shall include the plural and vice versa and words importing gender may include any gender. In this Agreement, (a) the words "including" and "includes" mean "including (or includes) without limitation", and (b) in the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" excluding".

Section 1.4 Accounting.

Except as otherwise specifically provided herein, all accounting terms shall be applied and construed in accordance with GAAP.

Section 1.5 Non-Business Days.

Whenever any payment to be made hereunder shall be due, any period of time would end, any calculation is to be made or any other action is to be taken on or as of, a day other than a Business Day, such payment shall be made, such period of time shall end, such calculation shall be made and such other actions shall be taken, as the case may be, unless otherwise specifically provided for herein, on or as of the next succeeding Business Day.

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the condition that proceeds of Advances may be used only for IESO's financing needs and requirements of any kind arising in connection with the IESO's role with respect to and obligations under the OFHP.

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(5), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, other than a Borrowing Notice that is included in an Election Notice as permitted by Section 3.3(3). Each Borrowing Notice shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance; (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. Each Borrowing Notice shall also certify the use of proceeds of the Advance in accordance with Section 2.2. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal or portion thereof in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Days prior to the Repayment Date of the Advance (the "**Current Repayment Date**"), and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the

form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Current Repayment Date; (b) the new aggregate total amount of the proposed Continued Advance; (c) the amount of interest or principal, if any, to be paid or re-paid by the IESO with respect to such Advance on the Current Repayment Date; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date (the "**New Repayment Date"**). If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) An Election Notice with respect to a proposed Continued Advance may include a Borrowing Notice for a further Advance proposed to be made on the Current Repayment Date. The Repayment Date of such further Advance shall be the New Repayment Date of the Continued Advance that is specified in the Election Notice. Such Borrowing Notice shall be given substantially in the form of Schedule 2.

(4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(5) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case

may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the OFA to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

ARTICLE 4
COVENANTS OF THE IESO

Section 4.1 Payment of Advances.

The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

Section 4.2 IESO will Maintain its Corporate Existence.

The IESO will at all times maintain its corporate existence.

Section 4.3 Maintenance of Properties.

The IESO will cause all property owned by the IESO or any Material Subsidiary to be maintained and kept in good condition, repair and working order, all as in the judgment of the IESO or any Material Subsidiary may be necessary for the proper operation of such property, except as and to the extent that the IESO or any Material Subsidiary may be prevented from doing so by fire, strikes, lockouts, walkouts, labour unrest, acts of God, inability to obtain labour or materials, enemy action, governmental restrictions, civil commotion, or unavoidable casualty or similar causes; provided, however, that nothing in this Section 4.3 shall prevent the IESO or any Material Subsidiary from discontinuing the maintenance of any such property or decommissioning any such property if such discontinuance or decommissioning is, in the judgment of the IESO or any such Material Subsidiary, desirable in the conduct of its business or the business of any such Material Subsidiary, or has been directly or indirectly requested or required by the Province of Ontario.

Section 4.4 Insurance.

The IESO will cause all property owned by the IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the mature and to the extent that such property is usually insured by companies operating similar businesses.

Section 4.5 Conduct of Business.

The IESO will, and will cause the Subsidiaries to, carry on and conduct their respective businesses in accordance with good business practice.

Section 4.6 Negative Pledge.

The IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of the IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) the creation, incurrence or assumption of any Purchase Money Mortgage;

(b) the grant of any Lien in the normal course of business to any banks or financial institutions for present or future Indebtedness of the IESO or any Material Subsidiary to such banks or financial institutions payable on demand or having an original term to maturity less than 18 months;

(c) Permitted Liens;

(d) any extension, renewal or replacement of any of the Liens referred to in Sections 4.6(a), (b) or (c), provided that the principal amount secured by any such Lien outstanding immediately before such extension, renewal or replacement or refunding is not thereby increased; and

(e) any Lien charging the interest of the IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c), provided that, at the time such Lien is created, incurred or assumed, the principal amount of such Indebtedness, together with the aggregate principal amount of all other Indebtedness secured by Liens permitted pursuant to this Section 4.6(e) which is outstanding at such time does not exceed 10% of Consolidated Assets at such time.

Section 4.7 Payment of OFA Expenses

In addition to any liability of the IESO to the OFA under any other provision of this Agreement, the IESO will, on demand, reimburse and indemnify OFA for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OFA in connection with the Agreement (including those services incurred in the preservation of rights under or enforcement of this Agreement at any time during the continuance of a default or Event of Default and for any reasonable loss or expense incurred by OFA as a result of any failure by the IESO to fulfill any of its obligations under this Agreement). All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 4.9 Late Repayment of Advance.

In the event that the IESO fails to repay the principal amount of any Advance and all interest accrued thereon when due, the IESO shall pay interest on the unpaid amount of such Advance at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment.

ARTICLE 5
EVENTS OF DEFAULT AND REMEDIES

Section 5.1 Event of Default.

Wherever used in this Agreement, the term "Event of Default" means any of the following:

(a) the IESO's failure to pay any interest upon any Advance when it becomes due and payable, if such failure continues for a period of 3 Business Days;

(b) failure to pay the principal amount of any Advance on the applicable Repayment Date or the Advances Outstanding, all interest accrued thereon and all other amounts owing under this Agreement on September 30, 2022;

(c) failure on the part of the IESO to observe or perform its obligations set forth in Section 4.1;

(d) failure on the part of the IESO to observe or perform any of the other covenants or agreements on its part contained in this Agreement for a period of 20 days after the date on which written notice of such failure shall have been given to the IESO by the OFA;

(e) any representation or warranty made by the IESO in this Agreement or in any certificate or other document at any time delivered hereunder to the OFA was incorrect or misleading in any material respect;

(f) one or more breaches by the IESO of its covenants under one or more evidences of Indebtedness or instruments governing or securing the same with a principal amount then outstanding, individually or in the aggregate, of at least $5 million, which breaches:

(i) constitute a failure to pay such Indebtedness when due and payable at its final Stated Maturity, continue after any applicable grace period and have not been cured or waived or ceased to exist, or

(ii) have resulted in such Indebtedness becoming or being declared due and payable prior to its final Stated Maturity (and which acceleration or declaration has not been waived or rescinded);

(g) the IESO or any Material Subsidiary:

(i) becomes unable to meet its obligations as they generally become due or has ceased paying its current obligations in the ordinary course of business as they generally become due;

(ii) admits in writing its inability to pay its debts generally or makes a general assignment for the benefit its creditors or files a proposal or other scheme

of arrangement involving the rescheduling or composition of its Indebtedness;

(iii) institutes or has instituted against it any proceeding seeking:

(A) to adjudicate it as bankrupt or insolvent,

(B) liquidation, winding-up or reorganization, arrangement, adjustment, protection, relief or composition of it or its debts under any law relating to bankruptcy, insolvency, reorganization or relief of debtors including any plan of compromise or arrangement or other corporate proceeding involving or affecting its creditors, or

(C) the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its assets,

and in the case of any such proceeding instituted against it (but not instituted by it), either the proceeding remains undismissed or unstayed for a period of 30 days, or any remedy sought in any such proceeding (including the entry of order for relief against it or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its properties and assets) occurs; or

(iv) takes any corporate action to authorize any of the actions in Sections 5.l (g)(i) to (iii); or

(h) if there shall be rendered against the IESO or any Material Subsidiary a final judgment or judgments for the payment of money in an aggregate amount in excess of $5 million by a court or courts of competent jurisdiction, and the IESO or any Material Subsidiary shall have failed to satisfy such judgments or to appeal therefrom (or from the order, decree or process pursuant to which such judgments were granted, passed, entered or affirmed) and to obtain a stay of execution thereof within the period prescribed by law for appeals, and to have such judgments discharged within 30 days after the expiration of such period or the period of any such stay, whichever shall later expire.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3) Business Days after the date on which written notice of such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest

accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

Section 5.3 Suits for Enforcement by the OFA.

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) to file and prove a claim for all amounts owing under this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any moneys or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

ARTICLE 6
REPRESENTATIONS AND WARRANTIES OF IESO

Section 6.1 Representations and Warranties of IESO

The IESO represents and warrants to the OFA that:

(a) the borrowing of money (including principal and accrued interest) by the IESO and the execution, delivery and performance of this Agreement are within the powers and capacities of the IESO and have been duly authorized by all necessary legal action and proper proceedings;

(b) the execution and delivery of this Agreement, the consummation of the transactions contemplated by this Agreement and the compliance with the terms and conditions of this Agreement will not conflict with or result in a breach of any of the terms or provisions of the constituting documents or by-laws of the IESO, laws of Ontario, including laws of Canada applicable therein, applicable to the IESO or any contractual or other obligation binding on the IESO;

(c) this Agreement will, when executed and delivered, constitute the legal, valid and binding obligation of the IESO enforceable against it in accordance with its terms; and

(d) the monies advanced under this Agreement shall be used only by the IESO for the purposes set out in Section 2.2.

Section 6.2 Continuation of Representation and Warranties

The representations and warranties set out in Section 6.1 herein shall survive the execution and delivery of this Agreement, the making of each Advance by the OFA, notwithstanding any investigations or examinations which may be made by counsel for the OFA.

ARTICLE 7
GENERAL

Section 7.1 Notices.

Any notice, direction or other communication to be given under this Agreement shall be in writing and given by personally delivering it or sending it by telecopy or other means of electronic communication addressed:

If to the IESO, to it at:

Independent Electricity System Operator
120 Adelaide Street West, Suite 1600
Toronto, ON M5H 1T1

Attention: Chief Financial Officer
Telephone: (416)969-6232
Facsimile: (905)403-6913

If to the OFA, to it at:

Ontario Financing Authority 1 Dundas Street West
Suite 1400 Toronto, Ontario M7A 1Y7

Attention: Executive Director & Chief Investment Officer – Capital Markets Division
Telephone: (416)325-8930
Facsimile: (416)325-8111
provided that any Borrowing Notice or Election Notice shall be addressed as indicated on Schedule 1 or Schedule 2 respectively.

Any communication hereunder shall be deemed to have been validly and effectively given if (a) personally delivered, on the date of such delivery if such date is a Business Day and such delivery was made prior to 4:00 p.m. (Toronto time), otherwise on the next Business Day, (b) transmitted by facsimile or other means of electronic communication, on the Business Day following the date of transmission provided that, on the date of transmission, the addressee of such communication was notified by telephone of such transmission. Any party may from time to time change its address for communications hereunder by notice give in accordance with this Section 7.1 and until changed by like notice, such changed address shall be such party's address for purposes of this Section 7.1.

Section 7.2 Successors and Assigns.

This Agreement shall be binding on and enure to the benefit of the OFA and the IESO and their respective successors and permitted assigns, except that the IESO shall not, without the prior written consent of the OFA assign, pledge or hypothecate any rights or obligations with respect to this Agreement.

Section 7.3 Amendments.

This Agreement may only be amended or otherwise modified by written agreement executed by each of the Parties.

Section 7.4 Waiver.

(1) No waiver of any provisions of this Agreement shall be deemed to constitute a waiver of any other provision (whether or not similar) or this Agreement nor shall such waiver be binding unless executed in writing by the party to be bound by the waiver.

(2) No failure on the part of a party to exercise, and no delay in exercising, any right under this Agreement shall operate as a waiver of such right and any single or partial exercise

of such right shall not preclude another or further exercise of such right or the exercise of any other right.

Section 7.5 Further Assurances.

Each of the IESO and the OFA shall, from time to time, do all such acts and things and execute and deliver all such instruments as may be reasonably required to give effect to, and carry out the terms of, this Agreement

Section 7.6 Severability.

In case any provision in this Agreement shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions in this Agreement shall not in any way be affected or impaired thereby.

Section 7.7 Governing Law.

This Agreement shall be construed in accordance with and governed by the laws of the Province of Ontario and the laws of Canada applicable therein.

Section 7.8 Counterparts.

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same Agreement.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the date first written above.

SCHEDULE 1

FORM OF BORROWING NOTICE

Delivered Via Fax: 416-204-7920

Ontario Financing Authority ("OFA")
1 Dundas Street West, Suite 1400
Toronto, Ontario
M7A 1Y7

Date: [insert date]

Attention: Cash Management

Dear Sirs:

The undersigned, the Independent Electricity System Operator ("IESO"), refers to the Revolving Credit Facility Agreement between the IESO and the OFA dated September (·), 2017 (as amended, supplemented or restated from time to time, the "Agreement", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests an Advance under the Agreement, and, in connection with such request, sets forth below the information relating to such Advance (the "Proposed Advance"), as required by Section 3.2(1) of the Agreement:

(a) The date of the Proposed Advance, being a Business Day is _____;
(b) The principal amount of the Proposed Advance is $_____;
(c) The Repayment Date of the Proposed Advance is _____. [Not earlier than 5 days and not later than 95 days after the date of the Proposed Advance.]

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The IESO hereby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice will be used for the following purpose(s): [specify purpose(s) and any sub-categories of borrowing purposes, as applicable]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement will be expended or held solely for the purpose for which they are authorized to be used under the Agreement; no part of the funds to be received pursuant to this Notice shall be used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 2

FORM OF ELECTION NOTICE

Delivered Via Fax: 416-204-7920

Ontario Financing Authority ("OFA")
1 Dundas Street West, Suite 1400
Toronto, Ontario
M7A 1Y7

Date: [insert date]

Attention: Cash Management

Dear Sirs:

Election Notice

The undersigned, the Independent Electricity System Operator ("IESO"), refers to the Revolving Credit Facility Agreement between the IESO and the OFA dated September (·), 2017 (as amended, supplemented or restated from time to time, the "Agreement", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.3 of the Agreement that the IESO elects to continue for an additional term all or a portion of an Advance or a Continued Advance, as the case may be, and in connection with such election sets forth below the information relating to such election as required by Section 3.3(2) of the Agreement:

(a) The date of the proposed election, being a Business Day (being the Current Repayment Date) is _____.

(b) The aggregate amount of the proposed Continued Advance is $_____, which is comprised of:

i. principal amount (or portion thereof) of Advance which is to be continued $_____; and
ii. accrued interest on Advance which will not be paid on or before the Current Repayment Date $_____;

(c) The IESO will pay on the Current Repayment Date the following amount with respect to the Advance (if any): $ _____

(d) The New Repayment Date, being a Business Day, applicable to such proposed Continued Advance is _____. [Insert date not earlier than 5 days and not later than 95 days after the current Repayment Date for the Advance.]

Such election shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Borrowing Notice

The IESO gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests a further Advance under the Agreement on the Current Repayment Date, with a Repayment Date of the New Repayment Date as specified above, and in connection with such request, sets forth below the information relating to such Advance (the "Proposed Advance"):

Amount of the Proposed Advance: $_____
The total aggregate amount of the proposed Continued Advance and Proposed Advance pursuant to this Notice is: $_____

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The IESO hereby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice, if any, will be used for the following purpose(s): [specify purpose(s) and any sub-categories of borrowing purposes, as applicable]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement are being used solely as authorized under the Agreement and are not being used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 3 – FORM OF GRID NOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $2,000,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICITY SYSTEM OPERATOR (the "**IESO**"), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY** ("**OFA**") at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid attached to and forming part of this Grid Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Revolving Credit Facility Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid Note (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Grid Note together with all interest accrued thereon shall become due and payable as specified in the Revolving Credit Facility Agreement dated September (·), 2017 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the "Agreement"). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Agreement.

This Grid Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Agreement.

This Grid Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Grid Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Grid Note.

Hi Opal,

Please see answers below.

Sorry for the delay – I asked Will to arrange to obtain the electronic execution copy of the $2B FHP facility yesterday from Anthony for sign-off; Will only informed me this morning that OFA Legal preferred that we prepare it (which it now has been in conjunction with OFA Legal, and is now with IESO for final sign-off).

Sarah

Subject: Re: IESO Directive

Okay. Thanks for the update. Implications for IESO's relationship with Moody's? Will spoke with Anthony at IESO, and Anthony is okay with execution the earliest as possible next week. Anthony said he has been putting off a call to Moody's and can hold out a little longer.

Are the agreements ready in execution form for when the exemption is finally approved?

-

- New $2B facility agreement. All terms agreed are agreed. The attached clean version is with IESO for final sign-off. I am giving it fine tooth comb reading in the meantime, even though OFA legal signed off.

  Amending Agreement #10 for to reduce $975m to $475m – draft with IESO to confirm language on election notice. IESO requested a last minute change yesterday with regard to rolling interest, which was agreed to by Mike yesterday. Changes have been incorporated. I attach the last e-mail from yesterday which includes the draft sent to IESO yesterday

> afternoon. I suggest that you could read it, but that you don't share with Mike; it would confuse vs. help him, given that it is a tenth amending agreement which touches changes from previous amending agreements.

While we wait for this to occur I'd like to review both agreements. I will also suggest to Mike that a copy of both can be provided to him so that he can review in advance of signing.

Opal.

From: Opal Kandelas
To: Mike Manning
Subject: RE: IESO Facility
Date: Tuesday, April 25, 2017 2:47:57 PM

Hi Mike,

The original credit facility provides the following:

Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the **Province's cost of funds for borrowings with a similar term as determined by the OF A plus 0.25 percent per annum**, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OF A by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

It does not appear that any amendments (there are 9) have changed this.

Thanks,
Opal.

John – Energy Legal will have the draft regulations, and I think it may have been approved yesterday at LRC (though not made by the LG yet), but I will have to ask them to interpret the regulation for me. It is a complex issue, and I am not familiar enough with the entire scheme to be able to interpret that reg without more time to review it in conjunction with the entire legislative and regulatory scheme.

I will reach out again to see if I can get any guidance from them, but this may be a case where we will not be able to be satisfied with our understanding of how the Security Agreement interacts with the regulations, and the decision may have to be made without that understanding.

Subject: IESO Security Agreement

John and Opal,

We have reviewed the Nov. 7 draft of the Security Agreement, and I have discussed the issues with our outside counsel.

The Nov. 7 draft updated the terms of the Security Agreement such that they have a broader application than the earlier draft that we had based our previous discussions on. The earlier draft had carved out appropriations from the collateral.

However, in both instances the collateral includes all accounts of the IESO (other than the Appropriations amounts in the earlier draft), all cash and proceeds from LDCs.

To the extent that the amounts owed by the IESO to the Financing Entity are matched by actual proceeds to the IESO from ratepayers that flow through the LDCs on account of a Clean Energy Adjustment, the security interest would only give the Financing Entity an ability to attach to an amount of collateral that would be equal to that cash that is available from the amounts that the LDCs have charged to ratepayers.

However, there is a risk that the Clean Energy Adjustments would not be sufficient to pay the amount owing by the IESO to the Financing Entity in general or in any one period. In such an instance, the security interest would give the Financing Entity a priority in the IESO's assets that would put them ahead of unsecured creditors, including the OFA and the OEFC. We are not sure what the extent of this risk is because we have not seen the final draft of the regulations that determine how much is payable in each period, and how that relates to the obligations to the Financing Entity.

I have not spoken to Energy Legal on this point, but have asked for their input. They may not have been involved with these discussions, though, so I am not sure if they will have anything to add.

Please let me know if you would like to discuss further.

The Nov. 7 draft updated the terms of the Security Agreement such that they have a broader application than the earlier draft that we had based our previous discussions on. The earlier draft had carved out appropriations from the collateral.

However, in both instances the collateral includes all accounts of the IESO (other than the Appropriations amounts in the earlier draft), all cash and proceeds from LDCs.

To the extent that the amounts owed by the IESO to the Financing Entity are matched by actual proceeds to the IESO from ratepayers that flow through the LDCs on account of a Clean Energy Adjustment, the security interest would only give the Financing Entity an ability to attach to an amount of collateral that would be equal to that cash that is available from the amounts that the LDCs have charged to ratepayers.

However, there is a risk that the Clean Energy Adjustments would not be sufficient to pay the amount owing by the IESO to the Financing Entity in general or in any one period. In such an instance, the security interest would give the Financing Entity a priority in the IESO's assets that would put them ahead of unsecured creditors, including the OFA and the OEFC. We are not sure what the extent of this risk is because we have not seen the final draft of the regulations that determine how much is payable in each period, and how that relates to the obligations to the Financing Entity.

I have not spoken to Energy Legal on this point, but have asked for their input. They may not have been involved with these discussions, though, so I am not sure if they will have anything to add.

Please let me know if you would like to discuss further.

Hi Lisa/Sarah H.,

We touched based with IESO and they told us that the OEFC agreements do not contemplate a general grant of security by IESO over its assets as is currently under discussion with the OPG Trust relative to the implementation of the OFHP. The changes required to allow for such a grant would be to amend the permitted liens and negative covenant language in the OEFC agreements so as to make it the same as, or very similar to, the language in the two OFA Agreements that were signed recently.

We will get a policy direction soon and will draft a note for you to review once it's ready.

No, I don't think the OFA Lending Policy would apply to these OEFC loans. The OFA Lending Policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

Subject: RE: IESO / OEFC - $120MM and $160MM

Hi Lisa/Ryan,

Thank you very much for the responses and that's helpful!

I will go back to IESO to verify what's their rationale to for the request. But before I go back, I just want to make sure that I understand the concerns/suggestions from our side first.

The change we made for the OFA credit facility agreement was to allow IESO to take liens related to FHP in the event if IESO can't pay OFA back the loan, correct? What was the reason for this change? And wouldn't the same reason apply for the loans that IESO has with OEFC? And if IESO can't pay back the loans to OEFC, should they still be able to take any liens related to FHP, or not? But if they were able to do so under the OFA credit facility agreement, are there any reasons that they cannot do the same under the OEFC credit facility agreement?

I understand that the $120M and $160M credit facilities are not for FHP purposes, but I think this is a separate question from whether they can take liens related to FHP if IESO can't pay OEFC back the loans? Similarly, I believe the existing $475M IESO credit facility with OFA was not for the FHP purpose, but the agreement was amended by the amendment #10 to include the FHP lien clause in

the actual agreement, right? So I am just a bit confused about this process and trying to find out whether we should apply a consistent approach for OEFC's credit facilities before I push this back to IESO.

Also, a separate question on the $160M credit facility agreement. Since it was amended to be used for FHP purpose previously, do we need to amend that now since a separate facility agreement was created specifically for FHP purposes? Or that amendment automatically expires when the $2B FHP credit facility was created, and for sure we don't need to update anything in the $160M credit facility agreement to that effect?

Thanks,
Gavin He

Subject: IESO / OEFC - $120MM and $160MM

Hi Gavin,

Thank you for your note. After reviewing your note and the attached agreements we had a few comments:

- We understand that the $160M credit facility agreement will not be used for FHP purposes, although an amendment was made earlier in 2017 to allow advances for the purposes of FHP.
- It is our assumption that the $160M credit facility agreement was amended in April, 2017, pursuant to Reg. 280/14 as a potential temporary option for FHP funding requirements until such time as a separate facility agreement was created specifically for FHP purposes (i.e. the $2B OFA-IESO credit facility)
- There is an existing $120M loan agreement, maturing June 30, 2020, which is not a credit facility, but a fixed term loan. No amendments were made here in relation to FHP, as it is

non-revolving and used for capital purposes.

- Since the $160M credit facility agreement will not be used for FHP purposes, it is not clear to us why the change to definition of Permitted Liens is required, and how not making this change would prevent IESO from performing its obligations under the OFHP Act. Please clarify.
- Kindly confirm with Anthony why IESO believes these amendments are necessary in respect of the $160M credit facility and $120M loan agreement.

We look forward to hearing back from you. Happy to discuss further as always.

Thank You,

Subject: IESO - OEFC Nov 7

Ryan,

As discussed with Will today, I understand you will be co-ordinating the proposed 2 amendments to the existing IESO-OEFC credit facilities.

For starters, there are no expected changes being asked to the existing agreement's key business content (e.g. amounts, dates, interest, notices etc.), rather given that IESO-OFA have just finished two new agreements pertaining to the new fair hydro program, ….I suggest we just copy and paste the salient sections from these agreements that would now be relevant to the OEFC agreements for fair hydro namely;

1.DRAFT
The definition of "Permitted Liens" is amended by deleting the word "and" at the end of subsection (xx); replacing the "." at the end of subsection (xx) and replacing it with "; and" ; and adding the

following subsection (xx):
"(xx) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP."

2.DRAFT
The OFA agreements had required an intercept provision, …..not sure if the same applies to OEFC if yes:

"Section 5.7 Intercept
(a) The IESO hereby acknowledges that, in accordance with the terms of the letter agreement of November 6th , 2017 herewith entered between the Ministry of Energy, the IESO and the OFA made pursuant to Section 23 of the Capital Investment Plan Act, 1993 (the "Intercept Letter"), the Minister of Finance is entitled to deduct only from those monies appropriated by the Legislature for payment through the Ministry of Energy to the IESO ("Appropriated Funds"), amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this Agreement. On the occurrence of an Event of Default relating to a failure by IESO to pay when due any amounts owing hereunder, subject to the OFA's compliance with any relevant provisions hereof and as set out in the Intercept Letter, the Minister of Finance is irrevocably authorized to deduct from the Appropriated Funds amounts equal to any amounts that the IESO has failed to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("Intercept").
(b) If, after following the process specified in the Intercept Letter (including, without limitation, allowing for a reasonable cure period on the terms specified therein), the OFA determines that it is necessary to request the Minister of Finance to exercise the Intercept, the OFA will give written notice to the Minister of Finance, with a copy to the Ministry of Energy, detailing the IESO's failure to pay when due any amounts owing hereunder and requesting the deduction from the Appropriated Funds of amounts equal to the amounts that the IESO has failed to pay to the OFA under this Agreement.
(c) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section 5.7 (Intercept) may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO has failed to pay when due to the OFA on account of indebtedness under this Agreement shall be deducted from the Appropriated Funds and paid to the OFA.
(d) For further certainty, the OFA acknowledges and agrees that the Intercept as provided for herein and in the Intercept Letter shall not apply with respect to any funds appropriated by the Legislature for payment to the IESO through ministries other than the Ministry of Energy or through Ontario Climate Change Solutions Deployment Corporation.
The parties agree that, with respect to the exercise of the Intercept generally, the terms of this section 5.7 shall be applied consistently with the terms set out in the Intercept Letter which shall apply in full. Notwithstanding the foregoing, in the event of a conflict or inconsistency between the terms and conditions of the Intercept Letter and the terms and conditions contained in this Agreement, the terms and conditions contained in this Agreement shall prevail."

3.

If any… other relevant updates that make sense to do now……I do not anticipate any material ones.

We need your support to expedite the above in order to avoid delays in the Fair Hydro implementation.
Regards.

Hi Lisa, Sarah, and William,

Following my email on Tuesday, EFB has drafted the attached note on the IESO's request on the OEFC credit facility, including the background information, our recommendation, and the rationale. Could you please review the accuracy of the note and would you be able to provide me with your feedback before noon today?

Sorry for the short turnaround time, but we all would like to move on this as soon as possible.

Thanks,
Gavin He

Subject: RE: IESO / OEFC - $120MM and $160MM

Hi Lisa/Sarah H.,

We touched based with IESO and they told us that the OEFC agreements do not contemplate a general grant of security by IESO over its assets as is currently under discussion with the OPG Trust relative to the implementation of the OFHP. The changes required to allow for such a grant would be to amend the permitted liens and negative covenant language in the OEFC agreements so as to make it the same as, or very similar to, the language in the two OFA Agreements that were signed recently.

We will get a policy direction soon and will draft a note for you to review once it's ready.

Regards,
Gavin He

No, I don't think the OFA Lending Policy would apply to these OEFC loans. The OFA Lending Policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

Hi Opal,

- Execution copy of both IESO-OEFC agreements sent to Anthony at IESO yesterday. Waiting on return of partially executed agreements (Kimberly Marshall to sign at IESO) so that we can have Mike Manning sign on our side. Anthony said he would try to have them returned to us by today but tomorrow at the latest.
- Draft borrowing and investing by-laws for the Ontario Climate Change Solutions Deployment Corporation (OCCSDC) were prepared by Jill Whelan at MOECC for approval by Minister of Finance. Waiting to hear back so that we can execute IMA and SIPP.
- Working with Maryam on letter response for TD Securities (London Branch) on their new Terms of Business that they sent to us (updating as of 01/01/2018 for new MIFID II regulations in Europe).
- Working on outstanding OILC loans 362,377,378,379,380,385 in various stages of completion.
- Karin is cc'ing me on all 18-K update emails so that I can follow along and learn the process.

Thanks,
Ryan

Hello everyone,

Please provide a brief update on your current projects by noon today. Sorry for the short notice.

Thanks,
Opal.

AMENDING AGREEMENT NO. 7

This Amending Agreement is effective as of the 5th day of December, 2017.

BETWEEN: INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")

as Borrower

AND: ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")

as Lender

WHEREAS IESO and OEFC entered into a Revolving Credit Facility Agreement dated April 23, 2010, as amended by Amending Agreement No.1 dated July 21, 2010, Amending Agreement No. 2 dated October 14, 2011, Amending Agreement No. 3 dated April 30, 2013, Amending Agreement No. 4 dated April 30, 2014, Amending Agreement No. 5 dated December 19, 2014 and Amending Agreement No. 6 dated April 30, 2017 (collectively the "Agreement") pursuant to which OEFC agreed to provide a revolving credit facility to IESO in the principal amount of up to CDN $160 million;

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act, 2017*;

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereinafter set out, the parties agree that the Agreement is amended as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Ontario's Fair Hydro Plan" is deleted in its entirety.

3. The definition of the term "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph (j); deleting

the "." at the end of paragraph (k) and replacing it with "; and"; and adding the following new paragraph (l):

(l) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

4. Subsection 3.2(4) of the Agreement is deleted and replaced by the following:

(4) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 4.7(a) through (e) hereof.

5. Paragraph 3.6(c) of the Agreement is deleted and replaced by the following:

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of IESO, provided however that any adverse change in IESO's financial condition related to or resulting from the discharge by IESO of its responsibilities under OFHP shall be deemed not to be a material adverse change for the purposes of this section; and

IN ALL OTHER RESPECTS, the Agreement is confirmed by IESO and OEFC.

IN WITNESS WHEREOF the parties hereto have executed this Amending Agreement as of the date first written above.

AMENDING AGREEMENT NO. 7

This Amending Agreement is made as of the 5th day of December, 2017 between:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR ("IESO")

and

ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")

WHEREAS IESO and OEFC have entered into an agreement providing for the Issuance of a Note dated April 1, 1999 (the "Original Agreement");

AND WHEREAS pursuant to amending agreements dated March 23, 2000, April 23, 2009, May 1, 2011, May 1, 2013, April 30, 2014 and April 30, 2017 the parties amended the Original Agreement (as so amended, the "Agreement");

AND WHEREAS the *Ontario Fair Hydro Plan Act, 2017* came into force on June 1, 2017;

AND WHEREAS at the request of the IESO the parties now wish to amend the Agreement to accommodate IESO's role and obligations under the *Ontario Fair Hydro Plan Act*, 2017;

NOW THEREFORE in consideration of the mutual agreements contained herein (the receipt and sufficiency of which are hereby acknowledged by each party), the parties agree as follows:

1. The following definitions are added to Section 1.1 (Definitions) of the Agreement:

   "**Clean Energy Adjustment**" has the same meaning as that term is defined in the OFHP.

   "**OFHP**" means the *Ontario Fair Hydro Plan Act, 2017*, S.O. 2017, c. 16, Schedule 1, including any regulations made thereunder, and all as amended from time to time.

2. The definition of "Permitted Liens" in Section 1.1 (Definitions) of the Agreement is amended by deleting the word "and" at the end of paragraph (j); deleting the "." at the end of paragraph (k) and replacing it with "; and"; and adding the following new paragraph (l):

   (l) any Lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other

lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

3. Subsection 2.2(2) of the Agreement is deleted and replaced by the following:

(2) The Note shall at all times rank *pari passu* with all other unsecured Senior Debt of the IESO, subject to the existence of any Liens that secure Indebtedness as permitted by subsections 3.8 (a) through (f) hereof.

4. Delete the paragraph following the heading "Section 3.7 Other Indebtedness" and replace with the words "Intentionally Left Blank".

IN ALL OTHER RESPECTS, the Agreement is confirmed by the parties.

IN WITNESS WHEREOF the parties have executed and delivered this Amending Agreement as of the date first written above.

Hi Opal,

Could you manage this request? I can help out too but the facility agreements are more CMD-Operations is my thinking. From my side, I don't have any concern sharing it but I think Legal may have a view. A way to deal with it might require a side agreement – NDA of sort?

Thanks,

John.

John, William,

TD Bank has asked to review the $2B Fair Hydro credit facility executed between IESO and OFA.

TD wants to gain comfort (themselves) that the credit facility is going to support the IESO's fair hydro transactions during the next 4 years.

I have verbally assured them of the above, but they wish to review themselves.

Let me know if I may share and TD will treat the document as confidential.

Regards.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

IESO'S REQUEST

- Under the FHP, the IESO and Ontario Power Generation (OPG) are interacting to refinance a portion of the Global Adjustment over a longer period of time.

- IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the various agreements. IESO staff wrote:

  "…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."

- The IESO provided a draft Security Agreement, dated November 7th, 2017, between them and the OPG Trust to OFA. According to the draft Security Agreement, in the unlikely event that the IESO runs into ~~a~~ financial difficulty, the IESO would give OPG Trust a priority in the IESO's assets, including all accounts of the IESO and all cash and proceeds from LDCs, that would put OPG Trust ahead of unsecured creditors, including the OFA and the OEFC.
  - The security agreement is not limited to the Clean Energy Adjustment funds collected by the IESO only.

Commented [JK1]: Opal, pls. confirm that this is the purpose of the "Permitted Liens" section of the credit agreement. This is more Documentation expertise.

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid breaching the terms of the existing agreements with OEFC.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017 the IESO had requested that the OFA make similar changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- -With the proposed new security agreement between OPG Trust and the IESO, OPG Trust would have a priority claim against ~~potentially the Clean Energy Adjustment funds collected by or flowing through~~ the IESO's assets, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low.

- The extent of this risk is uncertain at this time, given that the regulations that determine the Fair Allocation Amount payable in each period, and how that relates to the obligations to the Financing Entity are still under development.

- IESO is an agency of the government consolidated line-by-line in the Province's accounts.

- The OFA agreed to IESO's requested changes to the OFA credit facilities.

- OFA'S Capital Markets Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*~~.~~ and any changes to the OEFC agreements should take this into account.

- According to the Minister's Directives associated with the OEFC Agreements, ~~it states that~~ the loan and the credit facilities~~y~~ are "subject to such other terms as OEFC deams appropriate~~the terms set out in the OEFC Agreements.~~ Therefore, this is not seen as a change to the directives, and new directives from the Minister of Finance are not deemed necessary. This was consistent with the approach when amending the existing OFA-IESO credit facility agreements on November 6, 2017.

Commented [JK2]: I believe amending the OFA agreements were done under this view. Pls. correct if not the case.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens".

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

~~ISSUE~~

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

~~CONTEXT –~~ IESO'S REQUEST

- Under t~~T~~he FHP, ~~requires~~ the IESO and Ontario Power Generation (OPG) are interacting~~to work together~~ to refinance ~~Ontario's clean energy investments~~a portion of the Global Adjustment over a longer period of time.

- IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a ~~for the~~ security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the security agreement~~s~~. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid ~~of~~ breaching the terms of the existing agreements with OEFC.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017, the IESO had requested that the OFA ~~to~~ make ~~the same~~similar ~~request~~ changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of ~~the~~ "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- ~~OFA'S Capital Markets – Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*.~~

- With the proposed new security agreement between OPG Trust and IESO, OPG Trust would have a priority claim against potentially the Clean Energy Adjustment funds collected by or flowing~~n~~-through the IESO, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low.

Formatted: Indent: Left: 0.25", No bullets or numbering

Commented [JK1]: Or vice versa, their agreements with the OEFC but this is fine.

Commented [JK2]: Unless Documentation can provide specific differences that are significant, I suggest we delete.

Commented [OK3R2]: The fact that OFA's objects/mandate are detailed under CIPA is a distinct differentiation from OEFC. This is relevant as it goes to the reach of OFA, which OEFC does not share.

Formatted: Indent: Left: 0", Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

Formatted: Font: +Body (Calibri), 11 pt

Formatted: Indent: Left: 0.5", No bullets or numbering

- ~~and~~ IESO is an agency of the government consolidated line-by-line in the Province's accounts. ~~[This was a bullet inserted by CMD – Operations.]~~

- The OFA agreed to IESO's requested changes to ~~included the requested changes in~~ the OFA credit facilities.~~,~~

- OFA'S Capital Markets~~—~~ Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*, and any changes to the OEFC agreements should take this into account. ~~providing a precedent of having considered the changes/inclusion of the same request. Treating the current request differently by seeking either a Minister's directive or not granting the IESO its request would mean having to take steps on the OFA credit facilities which were either signed recently or amended recently.~~

Commented [JK4]: Given that we are moving towards a consensus, the rest of the sentence is moot.

Formatted: Font: +Body (Calibri), 11 pt

Formatted: Indent: Left: 0.5", No bullets or numbering

Commented [JK5]: Unless Documentation can provide specific differences that are significant, I suggest we delete.

Commented [OK6R5]: The fact that OFA's objects/mandate are detailed under CIPA is a distinct differentiation from OEFC. This is only relevant as it goes to the reach of OFA. Not fussed if you wish to delete.

Commented [OK7]: The OFA and OEFC are different corporate entities, so treatment of each may be different depending on the circumstances, even when dealing with the same borrower.

Commented [OK8]: The OFA credit facility was provided pursuant to the minister's directive, so seeking a minister's directive wrt OEFC would be consistent with how OFA was treated. Not suggesting this is necessary.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP~~remain consistent with the language recently incorporated in existing IESO-OFA agreements~~, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens".

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

ISSUE

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

CONTEXT - IESO'S REQUEST

- The FHP requires the IESO and Ontario Power Generation (OPG) to work together to refinance Ontario's clean energy investments over a longer period of time. IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a ~~for the~~ security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the security agreement~~s~~. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid ~~of~~ breaching the terms of existing agreements.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017~~,~~ the IESO had requested that the OFA ~~to~~ make ~~the same~~similar ~~request~~ changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of ~~the~~ "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- ~~OFA's Capital Markets – Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*.~~ [This was a bullet suggested by CMD – Operations.]

- With the proposed new security agreement between OPG Trust and IESO, OPG Trust would have a priority claim against potentially the Clean Energy Adjustment funds collected by or flowing~~n~~ through the IESO, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low and IESO is an agency of the government consolidated line-by-line in the Province's accounts. [This was a bullet inserted by CMD – Operations.]

Commented [JK1]: Unless Documentation can provide specific differences that are significant, I suggest we delete.

Commented [OK2R1]: The fact that OFA's objects/mandate are detailed under CIPA is a distinct differentiation from OEFC. This is relevant as it goes to the reach of OFA, which OEFC does not share.

- The OFA agreed to IESO's requested changes to ~~included the requested changes in~~ the OFA credit facilities, OFA'S Capital Markets~~—~~ Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*, and any changes to the OEFC agreements should take this into account. ~~providing a precedent of having considered the changes/inclusion of the same request. Treating the current request differently by seeking either a Minister's directive or not granting the IESO its request would mean having to take steps on the OFA credit facilities which were either signed recently or amended recently.~~

Commented [JK3]: Unless Documentation can provide specific differences that are significant, I suggest we delete.

Commented [OK4R3]: The fact that OFA's objects/mandate are detailed under CIPA is a distinct differentiation from OEFC. This is only relevant as it goes to the reach of OFA. Not fussed if you wish to delete.

Commented [OK5]: The OFA and OEFC are different corporate entities, so treatment of each may be different depending on the circumstances, even when dealing with the same borrower.

Commented [OK6]: The OFA credit facility was provided pursuant to the minister's directive, so seeking a minister's directive wrt OEFC would be consistent with how OFA was treated. Not suggesting this is necessary.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP~~remain consistent with the language recently incorporated in existing IESO-OFA agreements~~, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens". [TBD]

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

IESO'S REQUEST

- Under the FHP, the IESO and Ontario Power Generation (OPG) are interacting to refinance a portion of the Global Adjustment over a longer period of time.

- IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the various agreements. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- The IESO provided a draft Security Agreement, dated November 7th, 2017, between them and the OPG Trust to OFA. According to the draft Security Agreement, in the unlikely event that the IESO runs into financial difficulty, the IESO would give OPG Trust a priority in the IESO's assets, including all accounts of the IESO and all cash and proceeds from LDCs, that would put OPG Trust ahead of unsecured creditors, including the OFA and the OEFC.
  - The security agreement is not limited to the Clean Energy Adjustment funds collected by the IESO only.

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid breaching the terms of the existing agreements with OEFC.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017 the IESO had requested that the OFA make similar changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- With the proposed new security agreement between OPG Trust and the IESO, OPG Trust would have a priority claim against the IESO's assets, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low.

- The extent of this risk is subject to uncertainty at this time, given that the regulations that govern the payments related to the Fair Allocation Amount in each period, and how that relates to the obligations to the Financing Entity, are still under development.

- IESO is an agency of the government consolidated line-by-line in the Province's accounts.

- The OFA agreed to IESO's requested changes to the OFA credit facilities.

- OFA'S Capital Markets Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993* and any changes to the OEFC agreements should take this into account.

- According to the Minister's Directives associated with the OEFC Agreements, the loan and the credit facilities are "subject to such other terms as OEFC deams appropriate Therefore, an amendment for permitted liens can be done under the existing directives, and a new or revised directives from the Minister of Finance are not deemed necessary. This would be consistent with the approach when the pre-existing OFA-IESO credit facility agreement was amended for permited liens on November 6, 2017.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens".

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

IESO'S REQUEST

- Under the FHP, the IESO and Ontario Power Generation (OPG) are interacting to refinance a portion of the Global Adjustment over a longer period of time.

- IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO is planning to seek its Board's approval on Nov 22, 2017 to enter into a security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the various agreements. IESO staff wrote:

  "…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."

- The IESO provided a draft Security Agreement, dated November 7th, 2017, between them and the OPG Trust to OFA. According to the draft Security Agreement, in the unlikely event that the IESO runs into ~~a~~ financial difficulty, the IESO would give OPG Trust a priority in the IESO's assets, including all accounts of the IESO and all cash and proceeds from LDCs, that would put OPG Trust ahead of unsecured creditors, including the OFA and the OEFC.
  - The security agreement is not limited to the Clean Energy Adjustment funds collected by the IESO only.

Commented [JK1]: Opal, pls. confirm that this is the purpose of the "Permitted Liens" section of the credit agreement. This is more Documentation expertise.

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid breaching the terms of the existing agreements with OEFC.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017 the IESO had requested that the OFA make similar changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- -With the proposed new security agreement between OPG Trust and the IESO, OPG Trust would have a priority claim against ~~potentially the Clean Energy Adjustment funds collected by or flowing through~~ the IESO's assets, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low.

- The extent of this risk is subject to uncertainty at this time, given that the regulations that ~~determine~~govern the payments related to the Fair Allocation Amount ~~payable~~ in each period, and how that relates to the obligations to the Financing Entity, are still under development.

Commented [RK2]: Are they? Or "have not yet been put into practice"?

- IESO is an agency of the government consolidated line-by-line in the Province's accounts.
- The OFA agreed to IESO's requested changes to the OFA credit facilities.
- OFA'S Capital Markets Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993*~~.~~ and any changes to the OEFC agreements should take this into account.
- According to the Minister's Directives associated with the OEFC Agreements, ~~it states that~~ the loan and the credit facilities~~y~~ are "subject to such other terms as OEFC deams appropriate~~the terms set out in the OEFC Agreements.~~ Therefore, an amendment for permitted liens can be done under the existing ~~this is not seen as a change to the~~ directives, and a new or revised directives from the Minister of Finance are not deemed necessary. This would be~~was~~ consistent with the approach when ~~amending~~ the pre-existing OFA-IESO credit facility agreement was amended~~s~~ for permited liens on November 6, 2017.

Commented [JK3]: I believe amending the OFA agreements were done under this view. Pls. correct if not the case.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens".

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.
- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

John, William,

TD Bank has asked to review the $2B Fair Hydro credit facility executed between IESO and OFA.

TD wants to gain comfort (themselves) that the credit facility is going to support the IESO's fair hydro transactions during the next 4 years.

I have verbally assured them of the above, but they wish to review themselves.

Let me know if I may share and TD will treat the document as confidential.

Regards.

We need to begin discussions in Oct 2018 on making an amendment to increase the $2B cap.

The FH Trust did not purchase this month's variance and I have no further info on if or when a purchase will occur.

IESO will be at $1.175B drawn this month.

Should I set up time to talk?

Will

Just a courtesy email …nothing to do yet.

The IESO:OFA Fair Hydro line of credit is at about $1 billion drawn out of the $2 billion max capacity. We are drawing on avg about $200-300million/month.

The Fair Hydro Trust has not purchased the IESO's reg asset for a few months….if this continues I will be coming back to OFA to seek to increase the line of credit.

Regards.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Is the information being given to all 3 potential advisors or just the one that will be hired?
>only to one

What type of information is being given? Need a description.
>financial information associated with a special purpose vehicle being
>created and accompanying legislature being drafted

For what purpose is the advisor being given this information? What use will the advisor make of the information?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle primary contacts will be the OFA and Energy as
>well as others within Ontario govt External contacts will be lawyers
>hired by Energy to help draft legislation Ontario government
>agencies/related parties and regulators: OPG, IESO, etc

What about internal disclosure within the advisor's company?
>advisor will have own rules regarding sharing of confidential
>information within their own company

Is there a procurement process of any type to hire the advisor?

>there is no procurement

How much and how will the advisor be paid?
>there is no fee paid

Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
>province (OFA + Energy) and advisor

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.
>advisor services are provided as part of domestic syndicate agreement

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to

give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Malle

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Subject: RE: Message from "14-PRT06"

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

All I've been told is that a nondisclosure is needed. The rest may very well be, but that isn't the assignment for now. I am also assuming that the oefc will borrow on its own account for the equity injection and would be raising the debt for the spv. What is going on here shouldn't be transparent, it seems - hence the need for nondisclosure by the advisor.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

They've hired Blake, Cassels & Graydon as far as I know. Unlikely they will be actually drafting legislation but assuming they will have some input.
The contract should be with the Province.

Opal

Hi - I don't think that we should provide any draft legislation to this advisor so I would not include that in the description. I would describe the information more generally. I also don't know that Energy will be hiring outside counsel to draft legislation - maybe they are but we don't know about it so we should reference maybe the Province's legal advisors there. I wonder who Energy is planning to hire for this, if anyone - would think that any legislative drafting would be done by Provincial counsel. Maybe we could provide that Province will let them know who they can share and discuss with as part of project.

Who is going to sign this agreement on behalf of Province? Is it really a contract of the OFA or of the Province?

Subject: RE: Message from "14-PRT06"

Is the information being given to all 3 potential advisors or just the one that will be hired?
>only to one

What type of information is being given? Need a description.
>financial information associated with a special purpose vehicle being
>created and accompanying legislature being drafted

For what purpose is the advisor being given this information? What use will the advisor make of the information?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle primary contacts will be the OFA and Energy as
>well as others within Ontario govt External contacts will be lawyers
>hired by Energy to help draft legislation Ontario government
>agencies/related parties and regulators: OPG, IESO, etc

What about internal disclosure within the advisor's company?
>advisor will have own rules regarding sharing of confidential
>information within their own company

Is there a procurement process of any type to hire the advisor?
>there is no procurement

How much and how will the advisor be paid?
>there is no fee paid

Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
>province (OFA + Energy) and advisor

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.
>advisor services are provided as part of domestic syndicate agreement

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?

What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Malle

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Subject: RE: Message from "14-PRT06"

Is the information being given to all 3 potential advisors or just the one that will be hired?
>only to one

What type of information is being given? Need a description.
>financial information associated with a special purpose vehicle being
>created and accompanying legislature being drafted

For what purpose is the advisor being given this information? What use will the advisor make of the information?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle primary contacts will be the OFA and Energy as
>well as others within Ontario govt External contacts will be lawyers

>hired by Energy to help draft legislation Ontario government
>agencies/related parties and regulators: OPG, IESO, etc

What about internal disclosure within the advisor's company?
>advisor will have own rules regarding sharing of confidential
>information within their own company

Is there a procurement process of any type to hire the advisor?
>there is no procurement

How much and how will the advisor be paid?
>there is no fee paid

Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
>province (OFA + Energy) and advisor

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.
>advisor services are provided as part of domestic syndicate agreement

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Malle

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Malle

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Malle

Carlos is saying that there will be no financial compensation for the advisor. The benefit to it, is that it will gain insight into how the new structure works and experience with the spv which may be beneficial in obtaining work from the spv in the future. They won't provide for any compensation in the NDA itself.

Subject: RE: Message from "14-PRT06"

Is the information being given to all 3 potential advisors or just the one that will be hired?
>only to one

What type of information is being given? Need a description.
>financial information associated with a special purpose vehicle being
>created and accompanying legislature being drafted

For what purpose is the advisor being given this information? What use will the advisor make of the information?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle

What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or

services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
>to provide advice on the structure of financing alternatives for the
>special purpose vehicle primary contacts will be the OFA and Energy as
>well as others within Ontario govt External contacts will be lawyers
>hired by Energy to help draft legislation Ontario government
>agencies/related parties and regulators: OPG, IESO, etc

What about internal disclosure within the advisor's company?
>advisor will have own rules regarding sharing of confidential
>information within their own company

Is there a procurement process of any type to hire the advisor?
>there is no procurement

How much and how will the advisor be paid?
>there is no fee paid

Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
>province (OFA + Energy) and advisor

What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.
>advisor services are provided as part of domestic syndicate agreement

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have some precedent non-disclosure agreements that I have drafted in the past, but we need some more information.

Here are some questions that will assist:

Is the information being given to all 3 potential advisors or just the one that will be hired?
What type of information is being given? Need a description.
For what purpose is the advisor being given this information? What use will the advisor make of the information?
What is the advisor being hired to do? Pricing/financing issues about what? Need a description of the project or services Can the advisor talk to anyone about the information or the project? i.e. other ministry staff, ministry of energy, OFA, OEFC?
What about internal disclosure within the advisor's company?
Is there a procurement process of any type to hire the advisor?
How much and how will the advisor be paid?
Who are the parties to the agreement? Is it the Province that is hiring the advisor and giving them the information?
What is the consideration for the advisor's agreement for keeping it confidential? i.e. the advisor is being paid to give advice.

I think if we can get some more information along these lines it would be helpful. Also, if the contracting party is the OFA or OEFC then I will need to speak to Sarah Neville.

Thanks.

Malle

Subject: RE: Message from "14-PRT06"

Hi Kelly,

I have read it over now. Should we have a short call about this. This is a significant project and does the Province/OFA/OEFC plan to hire a financial advisor to advise on aspects of it. Quite possibly there will be more

than one advisory contract here as there seem to be capital markets, accounting, etc. issues involved here. Also, looking at the background information, I don't' know that it is necessarily clear who is going to the borrowing whether it's the Province or OEFC and which entity will provide the equity injection (Minister of Energy holds the shares in OPG). So we can't do a non-disclosure agreement in isolation. What information are we giving to the financial advisor and what are we asking them to do?

I think we need more context here and also if it is OEFC hiring the financial advisor, we should be speaking to Sarah Neville too. This is a project that Ronald Kwan's group is involved in.

Subject: RE: Message from "14-PRT06"

Ok - looking at the info on page 2 - looks like the OEFC will be looking to "hire" the advisor regarding pricing/ financing the amounts shown in the paper. This advisor will be a member of the current bond syndicate. Mike wants a non - disclosure for this advisor. Given the structure and all the items mentioned in the paper, I would say it should be pretty broad.

Hi Opal and Sarah

Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.
- Carlos says the OFA will sign the NDA. Sarah - Do you want to send it to the appropriate lawyer in OFA legal?
- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.

Regards,

Kelly

Subject: FW: NDA Agreement

Hi Opal,

Kelly is looking into the first 3 bullet points as the relate to the NDA.

The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Subject: NDA Agreement

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Confidential and Privileged Legal Advice – April 1, 2017 – MOF LSB
Note regarding this NDA and the retention of an adviser:

We have a number of questions relating to this NDA, and issues that should be considered in retaining an adviser:

- We have not been able to confirm what the scope of the advice being sought is. If the advice is restricted to advising on market timing and potential demand for certain securities, this is more limited than broader advice relating to structuring the transaction;
- We think it should be clear who the adviser is working for, and how the advice will be presented to the Province. If the advice is going to be to the Ministry of Energy or the Minister of Finance, will be given through the OFA?;
- Are there potential conflicts of interest between the adviser's role as an adviser and as a potential underwriter or other business of the adviser?

In addition, it should be considered whether it is appropriate to have an adviser without an agreement for the services that the adviser would be providing. The NDA protects the Province with respect to the disclosure of the information to third parties, but it does not set out the role, responsibilities or other matters relating to conflicts or other duties of the adviser. Terms of such an agreement that may be considered in such a context include:

- Scope of engagement;
- Performance Warranty – setting out the standard to which the adviser is to carry out the work and provide advice;
- Copyright and IP provisions;
- Conflict of interest provisions – setting out the primary duties of the adviser and how they must conduct themselves with respect to any potential conflicts;
- Indemnities – setting out the adviser's indemnities to the OFA for certain risks.

Non-Disclosure Agreement

This Agreement is made effective this day of

BETWEEN:

~~[~~ONTARIO FINANCING AUTHORITY~~][NTD: WHO WILL BE THE CONTRACTING PARTY?]~~
(hereinafter called "OFA")

- and -

[ADVISER/DEALER]
(hereinafter called "**[Adviser/Dealer]**")

WHEREAS OFA intends to provide to **[Adviser/Dealer]**, on a confidential basis, certain information, materials and documentation (the "Project Information") concerning or relevant to a proposed initiative relating to a electricity prices in the Province and measures to mitigate such prices, (the "Project") for the limited purposes of conducting discussions with **[Adviser/Dealer]** and receiving ~~an [informal][NTD: Need to consider scope of retainer]~~ ~~assessment/~~advice from **[Adviser/Dealer]** in relation thereto;

NOW THEREFORE, in consideration of the payment of $2.00 ~~Canadian~~ and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by **[Adviser/Dealer]**, the parties agree as follows:

1. **Project Information**
The term "Project Information" shall include the data, information, specifications, plans, criteria, strategies, materials, notes, analyses, studies, interpretations and other documents regarding the Project which is provided to **[Adviser/Dealer]** by or on behalf of ~~[~~**OFA**~~]~~ ~~[or Her Majesty in right of Ontario (the "Province")]~~ for the purposes of this Agreement, verbally or in any medium whatsoever, as the case may be, and includes any copies, summaries, restatements or extracts thereof.

2. **Non-Disclosure of the Project Information**
Without the prior written consent of ~~[~~**OFA**~~]~~, which consent may be withheld in ~~[~~**OFA**~~]~~**'s** unfettered discretion, **[Adviser/Dealer]** will not disclose to any person or entity:

   (a) the Project Information, or any portion thereof, provided to it under this Agreement;

(b) the fact that the Province and the ~~[~~**OFA**~~]~~ are considering the Project identified in the Project Information; or

(c) the fact that the Project lnformation has been made available by ~~[~~**OFA**~~]~~ to **[Adviser/Dealer]** or others.

3. **Use of the Project Information**

[Adviser/Dealer] acknowledges that the Project Information to be provided to it under this Agreement is confidential and proprietary information of ~~[~~**OFA**~~]~~ and/or the Province ~~[NTD: Could it also be information of OPG?]~~ and may be privileged. **[Adviser/Dealer]** agrees that the Project Information will be used by **[Adviser/Dealer]** only to facilitate discussions between **[Adviser/Dealer]** and ~~[~~**OFA**~~]~~ regarding the Project identified therein, and to provide advice and/or further information to ~~[~~**OFA**~~]~~ in connection therewith and will not use the Project Information, directly or indirectly, for any other purpose.

4. **Recording and Copying**

[Adviser/Dealer] shall track and control all hard copies and electronic copies of the Project Information.

5. **Restriction on Disclosure**

[Adviser/Dealer] shall not disclose, transfer or provide access to any of the Project Information to any person or entity, other than to those employees, partners, ~~,~~ ~~,~~directors or officers of **[Adviser/Dealer]** who need to know the Project Information in furtherance of the purposes of this Agreement.

6. **Internal Personnel**

Prior to disclosing any of the Project Information to any of its employees, partners,~~,~~ directors or officers, **[Adviser/Dealer]** shall inform each such person of all of the obligations contained in this Agreement. Prior to commencing work, ~~T~~the Adviser/Dealer shall identify in writing to the OFA those individuals who will be primarily responsible for providing the advice/assessment to the OFA as set out in paragraph 3 and shall not replace or substitute those individuals without the prior written approval of OFA. The Adviser/Dealer shall keep a list of all such employees, partners, director or officers to whom the Project Information is disclosed and provide it to the OFA upon request. **[Adviser/Dealer]** agrees to enforce such obligations to the extent required to prevent the unauthorized disclosure or use of the Project Information or other contravention of this Agreement and agrees to be responsible for and to indemnity and save harmless the OFA and the Province from and against any loss, cost, damage, expense and liability suffered or incurred by the OFA and/or the Province arising out of any breach of confidentiality by its employees, partners,~~,~~ directors or officers. The Adviser/Dealer acknowledges that the OFA holds the benefit of this indemnity in trust for itself and the Province and that the OFA can enforce such indemnity on behalf of the Province.

7. **Security**

[Adviser/Dealer] shall take reasonable steps to keep the Project Information secure. The Project Information shall be maintained, in the case of hard copies, in a locked cabinet when not in use, and in a secure location when in use, and maintained, in the case of electronic information, including back-up copies, in a database that is only accessible to employees, officers, partners or directors of Adviser/Dealer to whom the Information can be disclosed under this Agreement.

~~8. **Retention, Return or Destruction of Project Information**~~

~~[Suggest we do not include this unless requested to.]~~

~~**Adviser/Dealer]** shall return to **[OFA]** all of the Project Information in the custody or control of **[Adviser/Dealer]** or its employees, , partners, directors or officers, that was provided to **[Adviser/Dealer]** whether it is in hard copy form, on disk or contained in any other medium whatsoever, immediately upon **[OFA]**'s written request, and any copies or extracts of the Project Information in written form, in electronic form or in any medium whatsoever, shall be deleted permanently or destroyed in accordance with **[OFA]**'s instructions. If no request is made by **[OFA]** for the return or destruction of the Project Information, the Project Information shall be returned to **[OFA]** within [twenty (20) business days] [NTD: 20 days is probably too soon – possibly we can delete this sentence and just rely on OFA to tell Dealer when to destroy or return.] after the date of this Agreement and any copy or extract, will be deleted permanently or destroyed by **[Adviser/Dealer]** and **[Adviser/Dealer]** shall, if requested by **[OFA]**, provide a certificate certifying such deletion or destruction.~~

~~9~~8. **Breach**

[Adviser/Dealer] acknowledges that a breach of any provision of this Agreement will result in immediate and irreparable harm to the ~~[~~**OFA**~~]~~ **and the Province** and that monetary damages will not provide a sufficient remedy for any breach and agrees that in the event of such breach the ~~[~~**OFA**~~]~~ and the Province shall, in addition to any other relief, be entitled to seek equitable relief including without limitation relief by way of temporary or permanent injunction and to such other relief that any court of competent jurisdiction may deem just or appropriate. Any breach known to **[Adviser/Dealer]** of the obligation(s) in this Agreement, including any breach by an employee, partner, ~~,~~ director or officer, shall be reported to the ~~[~~**OFA**~~]~~ by **[Adviser/Dealer]**.

~~9~~10. **Applicable Laws**

The laws of the Province of Ontario and the applicable laws of Canada shall govern this Agreement, and **[Adviser/Dealer]** hereby attorns to the jurisdiction of the courts of the Province of Ontario in respect hereof.

10~~1~~. **FIPPA**

No information, records or documents containing personal information shall be provided to **[Adviser/Dealer]** pursuant to this Agreement. **[Adviser/Dealer]** acknowledges that ~~[~~**OFA**~~]~~ is bound by the Ontario *Freedom of Information and Protection of Privacy Act* ("FIPPA"). If a request is made under FIPPA for access to information or records provided by ~~[~~**OFA**~~]~~ under this Agreement, **[Adviser/Dealer]** will cooperate with ~~[~~**OFA**~~]~~ in identifying records responsive to the request and responding to it in a timely manner.

11~~2~~. **Survival**

The terms and obligations pertaining to confidentiality and limitations as to the use of the Project Information in this Agreement shall remain in full force and effect and shall survive the return to the OFA (or the destruction) of the Project Information provided or made available under this Agreement.

The obligations of **[Adviser/Dealer]** after the return to ~~[~~**OFA**~~]~~ of the Project Information shall not apply to any part of the Project Information which is, or becomes, generally available to the public other than as a result of: (i) a violation of this Agreement; or (ii) disclosure pursuant to any applicable law, rule or regulation, or by order of a court or governmental body or agency or authority of competent jurisdiction, provided that **[Adviser/Dealer]** shall notify ~~[~~**OFA**~~]~~ of such disclosure promptly and comply with paragraph (Compelled Disclosure) before making the disclosure.

Compelled Disclosure

If the Adviser/Dealer or any of its employees, officers, partners, or directors becomes legally compelled to disclose any of the Project Information, the Adviser/Dealer will provide the OFA with prompt written notice and particulars so that the OFA may, within the timeframe legally required, seek a protective order or other appropriate order or remedy to prevent or limit such disclosure. The Adviser/Dealer shall consent to and assist (and shall cause any of its employees, officers, partners and directors to consent and assist) the OFA and its legal counsel in obtaining any protective order or other appropriate remedy that the OFA may seek for the purpose of preventing disclosure of any of the Project Information. If such protective order or other remedy is not obtained, the Adviser/Dealer will disclose (and cause its employees, officers, partners and directors to disclose) only that portion of the Project Information which the Proponent is legally compelled to disclose as advised by written opinion of its legal counsel addressed to the OFA, the Adviser/Dealer or its employees, officer, partner or directors) is legally required to disclose and the Adviser/Dealer will exercise all reasonable efforts to obtain reliable assurances that confidential treatment, to the extent available and practicable, will be accorded all disclosed Project Information.

Notice. Any notice or other communication to be given under this Agreement shall be addressed to:

(a) in the case of notice to the OFA:

~~[Insert contact details]~~Mr. Michael Manning
Executive Director
Ontario Financing Authority
One Dundas Street West, Suite 1400

(b) In the case of notice to the Adviser/Dealer:

[Insert contact details]

Any notice, demand or other communication required or permitted to be given or made under this Agreement shall be in writing and unless delivered personally to a responsible officer of the addressee, shall be sent by facsimile transmission or e-mail to the above addresses.

Each notice so given shall be deemed to have been received on the day of delivery, if so delivered or on the day of sending if sent by facsimile transmission or email or on the first business day thereafter if it was not sent on a business day during business hours of the recipient.

12~~3~~. **Enurement**

The provisions of this Agreement shall enure to the benefit of, and be binding upon, the parties and their successors and permitted assigns.

This Agreement may only be amended, modified or supplemented by a written agreement signed by both of the parties hereto.

No waiver of or consent to depart from the requirements of any provision of this Agreement shall be binding against either party hereto unless it is in writing and is signed by the party giving it. No failure on the part of either party hereto exercise, and to delay in exercising, any right under this Agreement shall operate as a waiver of such right.

13~~4~~. **Counterparts**

This Agreement may be executed in counterparts.

In witness whereof the parties have executed this Agreement as of the date first written above.

Subject: RE: NDA Agreement

Hi Opal and Sarah

Attached is a draft of the NDA. I discussed the 3 bullet points with Carlos and found the following:

- The advice is regarding the financing structure and alternatives for the spv given the legislation that eventually is drafted. On page 2 of the OPG White Paper, it indicates that all of the percentages shown are "indicative and will be highly dependent on the legislation"… this gives rise to the need for an advisor once the legislation is known.

- Carlos says the OFA will sign the NDA. Sarah - Do you want to send it to the appropriate lawyer in OFA legal?
- The banks/ dealers have the appropriate Chinese Walls in place to deal with conflicts of interest.

I agree with Sarah that the NDA itself should suffice in this instance.

Regards,

Kelly

Subject: FW: NDA Agreement

Hi Opal,

Kelly is looking into the first 3 bullet points as the relate to the NDA.

The attached advisory agreement seems to be overkill for the what I understand to be a very narrow scope of advice being given. It seems to me that as long as we state the type of advice being provided in the NDA, with *possibly* a conflict of interest rep in the NDA, I think that would cover what is needed.

Subject: NDA Agreement

Please find attached a draft of a Non-Disclosure Agreement respecting obtaining advice from a financial adviser with respect to the Ontario Fair Hydro Plan.

Please note that this draft is preliminary, and we have a number of questions and concerns that are set out in the draft. We would like to point out that there is no agreement setting out the scope or nature of the services and the basis on which those services would be provided including the standard that is required from the adviser as well as conflict of interest requirements and other issues, and that the NDA does not replace such an agreement.

We have also attached a scan of an agreement that the OFA negotiated in 2004 to hire an adviser for a project relating to electricity finance as an example of such an agreement and the types of provisions that could be considered for inclusion in such an agreement.

Best

Subject: OEFC-IESO - update

Hi Toby,

As FYI, I'm sharing with you what is likely the last draft of a briefing note regarding a contemplated amendment to the OEFC loan and credit facility agreements to include permitted liens language specific to the Fair Hydro Plan. This language was also included in the OFA-IESO credit facilities. We are just waiting now for final signoff, but every indication is that the agreements will be amended. This amendment was requested by IESO.

I'll also mention that TD has apparently agreed to amend the line of credit agreement they have with IESO, to include permitted liens language wrt Fair Hydro. In order to gain comfort that the OFA agreement will support the Fair Hydro transactions over the next 4 years, TD has asked that IESO share the OFA-IESO agreement with them. IESO has asked OFA for permission to share the agreement with TD. There is nothing in the agreement preventing IESO from sharing with TD, so IESO could actually do so without OFA consent. I've touched base with both OFA legal and Gadi and neither have any concerns about allowing IESO to share the agreements with TD.

Thanks,
Opal.

Subject: RE: OEFC-IESO - update
Date: Monday, November 27, 2017 4:04:54 PM

Hi John,

Regarding IESO's request to share the OFA-IESO agreement with TD, I've changed my mind, assuming of course that this is the only way to provide comfort to TD. If a phone call from OFA to TD would suffice, that would be my preference.

Failing that, since there's nothing in the agreement prohibiting it, and given IESO's goal, it seems unreasonable to try to withhold the agreement. As there is no obligation for us to provide/deny permission, what do you think of just pointing that out to IESO (in an email) and tell them that in this case, sharing the agreement is at their discretion. Not sure if a more formal response needs to be provided to IESO, but let me know what you think is the best way to convey that info to IESO.

Since this is very unusual I've asked staff to review the OFA-IESO agreement again to determine if any information in it should be removed before agreeing to it being shared with TD.

Opal.

Yes. Lisa has confirmed it's purely a business issue. We've (CMO & CMB) also checked the agreement again to determine if there is any content that shouldn't be shared with TD. There isn't, so it is fine to communicate to IESO that they can share the agreement confidentially with TD.

Hi Opal,

Let me give this some thought…..as I do agree that it is a bit unusual. That said, I used to be a TD bank guy in the distant past and know they are very tough. And I did sense Anthony is eager to get the approval.

Thanks,

John

Subject: RE: OEFC-IESO - update

Hi John,

Regarding IESO's request to share the OFA-IESO agreement with TD, I've changed my mind, assuming of course that this is the only way to provide comfort to TD. If a phone call from OFA to TD would suffice, that would be my preference.

Failing that, since there's nothing in the agreement prohibiting it, and given IESO's goal, it seems unreasonable to try to withhold the agreement. As there is no obligation for us to provide/deny permission, what do you think of just pointing that out to IESO (in an email) and tell them that in this case, sharing the agreement is at their discretion. Not sure if a more formal response needs to be provided to IESO, but let me know what you think is the best way to convey that info to IESO.

Since this is very unusual I've asked staff to review the OFA-IESO agreement again to determine if any information in it should be removed before agreeing to it being shared with TD.

Opal.

Subject: OEFC-IESO - update

Hi Toby,

As FYI, I'm sharing with you what is likely the last draft of a briefing note regarding a contemplated amendment to the OEFC loan and credit facility agreements to include permitted liens language specific to the Fair Hydro Plan. This language was also included in the OFA-IESO credit facilities. We are just waiting now for final signoff, but every indication is that the agreements will be amended. This amendment was requested by IESO.

I'll also mention that TD has apparently agreed to amend the line of credit agreement they have with IESO, to include permitted liens language wrt Fair Hydro. In order to gain comfort that the OFA agreement will support the Fair Hydro transactions over the next 4 years, TD has asked that IESO share the OFA-IESO agreement with them. IESO has asked OFA for permission to share the agreement with TD. There is nothing in the agreement preventing IESO from sharing with TD, so

IESO could actually do so without OFA consent. I've touched base with both OFA legal and Gadi and neither have any concerns about allowing IESO to share the agreements with TD.

Thanks,
Opal.

Yes. Lisa has confirmed it's purely a business issue. We've (CMO & CMB) also checked the agreement again to determine if there is any content that shouldn't be shared with TD. There isn't, so it is fine to communicate to IESO that they can share the agreement confidentially with TD.

Opal

Opal – I have no concerns with sharing the agreement with TD. I can't think of any reason why the agreement couldn't be shared, but it might make sense to also indicate that it is being shared with the expectation that it is being shared on a confidential basis, and watermarked as such.

Subject: RE: OEFC-IESO - update

Hi Opal,

On this, how are things going – has your team provided the agreement and working on the amendment?

Thanks,

John

Subject: OEFC-IESO - update

Hi Toby,

As FYI, I'm sharing with you what is likely the last draft of a briefing note regarding a contemplated amendment to the OEFC loan and credit facility agreements to include permitted liens language specific to the Fair Hydro Plan. This language was also included in the OFA-IESO credit facilities. We

are just waiting now for final signoff, but every indication is that the agreements will be amended. This amendment was requested by IESO.

I'll also mention that TD has apparently agreed to amend the line of credit agreement they have with IESO, to include permitted liens language wrt Fair Hydro. In order to gain comfort that the OFA agreement will support the Fair Hydro transactions over the next 4 years, TD has asked that IESO share the OFA-IESO agreement with them. IESO has asked OFA for permission to share the agreement with TD. There is nothing in the agreement preventing IESO from sharing with TD, so IESO could actually do so without OFA consent. I've touched base with both OFA legal and Gadi and neither have any concerns about allowing IESO to share the agreements with TD.

Thanks,
Opal.

OEFC -- IESO CREDIT FACILITY AGREEMENT & THE PERMITTED LIENS

The Independent Electricity System Operator ("IESO") has requested that OEFC amend the existing credit facility agreements between OEFC and IESO (for $160M and $120M) to address the additional obligations IESO is taking on under Ontario's Fair Hydro Plan. IESO has indicated that OEFC credit facilities will not be used for Ontario Fair Hydro Plan (FHP) purposes.

- On November 28, 2017, IESO staff wrote to staff that without the terms of the OEFC facilities being amended, it would need to ask for an interim waiver from the OEFC to avoid being in default.

CONTEXT

- Under the FHP, the IESO and Ontario Power Generation (OPG) are interacting to refinance a portion of the Global Adjustment over a longer period of time.

- IESO and OPG are in a discussion to grant a security/priority interest on IESO's assets to OPG Trust for the period of the first 4 years of the GA deferral.

- The IESO sought and received its Board's approval on Nov 22, 2017 to enter into a security agreement with OPG Trust. The security agreement is currently in draft form. Without amending the existing OEFC $160M and $120M credit facility agreements (the "OEFC Agreements"), IESO could potentially be considered to be in default of the terms of the various agreements. IESO staff wrote:

  > *"…it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default."*

- The IESO provided a draft Security Agreement, dated November 7th, 2017, between them and the OPG Trust to OFA. According to the draft Security Agreement, in the unlikely event that the IESO runs into financial difficulty, the IESO would give OPG Trust a priority in the IESO's assets, including all accounts of the IESO and all cash and proceeds from LDCs, that would put OPG Trust ahead of unsecured creditors, including the OFA and the OEFC.
  - The security agreement is not limited to the Clean Energy Adjustment funds collected by the IESO only.

- In order to address this issue, the IESO has requested to amend the definition of the "permitted liens" in both existing OEFC Agreements to include any liens related to the FHP. Specifically, adding a clause in the existing OEFC Agreements that any lien related to OFHP will not be viewed as negative pledge by OEFC, so those liens can be used to secure the performance of IESO's obligations to OPG under the FHP. This would allow IESO to grant security to the OPG Trust during the first 4 years of implementing the GA deferral and also avoid breaching the terms of the existing agreements with OEFC.

- To support IESO's role in the implementation and participation under the Ontario Fair Hydro Plan Act, 2017 ("OFHP Act"), in July 2017 the IESO had requested that the OFA make similar changes to the credit facility agreements with OFA in October.
  - On November 6, 2017, the OFA amended the $475M facility to amend the definition of "permitted liens" and also included same for the new $2B credit facility agreement between OFA and the IESO , as requested by the IESO.

CONSIDERATIONS

- With the proposed new security agreement between OPG Trust and the IESO, OPG Trust would have a priority claim against the IESO's assets, the OEFC could find itself unable to collect payments due from the IESO. The likelihood of this scenario could be assessed as low.
  - The extent of this risk is subject to uncertainty at this time, given that the regulations that govern the payments related to the Fair Allocation Amount in each period, and how that relates to the obligations to the Financing Entity, are still under development.

- IESO is an agency of the government consolidated line-by-line in the Province's accounts.

- The OFA agreed to IESO's requested changes to the OFA credit facilities.

- OFA'S Capital Markets Operations staff have commented that the legislation governing OEFC, the *Electricity Act, 1998*, may provide differing context from the OFA's objects and mandate under the *Capital Investment Plan Act, 1993* and any changes to the OEFC agreements should take this into account.

- According to the Minister's Directives associated with the OEFC Agreements, the loan and the credit facilities are "subject to such other terms as OEFC deems appropriate." Therefore, an amendment for permitted liens can be done under the existing directives, and new or revised directives from the Minister of Finance are not deemed necessary. This would be consistent with the approach when the pre-existing OFA-IESO credit facility agreement was amended for permited liens on November 6, 2017.

RECOMMENDATIONS

- In order to support IESO's request in relation to its obligation with respect to FHP, OFA staff are of the view that the exisiting OEFC Agreements can be amended to include liens related to FHP under the definition of the "permitted liens".

BACKGROUND

- In order to support IESO's role with the implementation of the OFHP Act, OFA staff made similar changes to the definition of 'permitted liens" in existing OFA-IESO credit facility agreements on November 6, 2017.

- Currently, under the existing credit facility agreements between OEFC and the IESO, the definition of "permitted liens" does not include any lien arising from the IESO's role and obligations under the OFHP, including with respect to any amount received or receivable by the IESO (such as, without limitation, amounts received or receivable in respect of the Clean Energy Adjustment), or any other lien, whether arising from the action or inaction of IESO, that is created in connection with the OFHP.

Mandate

The Ontario Financing Authority (the "OFA") was established as an agency, of the Crown, on November 15, 1993, by the *Capital Investment Plan Act, 1993* (the "Act"). In accordance with the Act, the OFA:

- conducts borrowing, investment and financial risk management for the Province of Ontario (the Province);
- manages the Provincial debt;
- provides centralized financial services for the Province including banking and cash management;
- advises ministries, Crown agencies and other public bodies on financial policies and projects;
- assists Crown agencies and other public bodies to borrow and invest money;
- acts at the direction of the Province in lending to certain public bodies;
- invests on behalf of some public bodies;
- with Ontario Power Generation Inc. (OPG), manages the investment activities of OPG's Used Fuel Segregated Fund and Decommissioning Segregated Fund; and
- carries out the day-to-day operations of Ontario Electricity Financial Corporation (OEFC) and provides a broad range of financial services to Ontario Infrastructure and Lands Corporation (Infrastructure Ontario).

In addition, the OFA's objects include:

- providing such other financial services as are considered advantageous to the Province or any public body; and
- any additional objects as directed by the Lieutenant Governor in Council.

Statement from the Chair and the Chief Executive Officer

The OFA successfully completed its annual borrowing program in 2017–18 raising $33.9 billion on behalf of the Province and OEFC. Performance targets for Canadian-dollar and foreign borrowing were met or exceeded. Based on the *2018 Budget* projection of the Province's interest on debt expense, a savings of $281 million was generated when compared to the forecast in the *2017 Budget*. The OFA also generated additional savings of $11 million from money market activities relative to the performance benchmark.

During the 2017–18 fiscal year, the OFA continued the review of business cases for borrowing requests from public bodies, such as colleges and crown corporations, resulting in loans to public bodies totalling $120 million, excluding drawings against a total of $2.5 billion short-term credit facilities for the Independent Electricity System Operator. The OFA also provided financial advice and implementation support with respect to on-going initiatives related to the Province's assets, the electricity sector, a loan guarantee program to facilitate Aboriginal participation in energy infrastructure projects, and analysis and advice with respect to a number of Infrastructure Ontario projects. The OFA will also continue to engage in public-sector financing initiatives and provide advice and support on financial aspects of government assets and electricity sector developments.

The OFA leveraged its relationships with all of the Canadian scheduled banks to implement enhanced interest on the Province's overnight cash deposits thereby contributing to higher returns on the Province's liquid reserves.

In 2018–19, the OFA will continue to provide cost-effective borrowing, debt management and other financial services on behalf of the Province. To meet the Province's borrowing requirements, staff will continue to be flexible, monitoring Canadian-dollar and international markets, issuing bonds in different terms and currencies and responding to investor preferences. The OFA plans to continue to issue green bonds in the Canadian-dollar market, building on the success of the last four fiscal years.

We are proud of the OFA's diversity and remain committed to an inclusive and respectful environment. The organization continues to promote gender balance (currently the Board of Directors is over 60 per cent female), diversity, staff training and development, cultural sensitivity, and accessibility best practices.

We would like to thank the OFA staff for their hard work and the Board of Directors for their advice and oversight during the 2017–18 fiscal year. We look forward to working with staff and the Board in 2018–19.

Financial Advice

Management's Discussion and Analysis

This section details management's discussion and analysis of the results achieved by the OFA for the Province in 2017–18 and its objectives for 2018–19.

Capital Markets Activities

Borrowing Program

Long-term borrowing for 2017–18 totalled $33.9 billion, including $11.5 billion in preborrowing for 2018–19, and took advantage of the low interest rate environment and strong demand for Ontario bonds. The weighted-average term to maturity of long-term Provincial debt issued has been extended from 8.1 years in 2009–10 to 12.1 years in 2017–18. This continued extension of the term to maturity allowed the Province to lock in low interest rates for a longer period, which reduces refinancing risks and helps offset the impact of expected higher interest rates on the Province's Interest on Debt (IOD) costs. This strategy, along with lower than forecast deficits and interest rates plus efficient and effective debt management by the OFA, has allowed the Province to project in its 2018 Annual Budget, $281 million in interest on debt savings for the 2017–18 fiscal year.

Strong global investor demand for Canadian-dollar assets, the liquidity of Ontario benchmark bonds and continuing confidence in the Province allowed Ontario to borrow 62 per cent in the Canadian-dollar market in 2017–18. While this percentage was lower than the 74 per cent of 2016–17's borrowing completed in Canadian dollars, it remains roughly in line with the target announced in the *2017 Ontario Economic Outlook and Fiscal Review* — to complete approximately two-thirds of the total borrowing in the Canadian dollar market.

Investments

The OFA manages the Province's liquid reserve portfolio to optimize investment returns and to ensure sufficient funds are available to meet cash requirements. The average level of unrestricted liquid reserves in 2017–18 was $30.1 billion. In the normal course of business, the Province may pledge or receive collateral for derivative transactions and repurchase agreements. Unrestricted liquid reserves are a more prudent measure of total liquid reserves as pledged collateral is netted out of the total liquid reserves calculation.

The OFA also invests on behalf of certain public bodies to help increase their returns by streamlining investment processes and reducing investment costs. In 2017–18, the OFA provided investment services to a number of agencies, boards, commissions and other public bodies, including Infrastructure Ontario, the Pension Benefits Guarantee Fund, Ontario Trillium Foundation, Ontario Capital Growth Corporation and the Deposit Insurance Corporation of Ontario. Total funds managed were $2.2 billion.

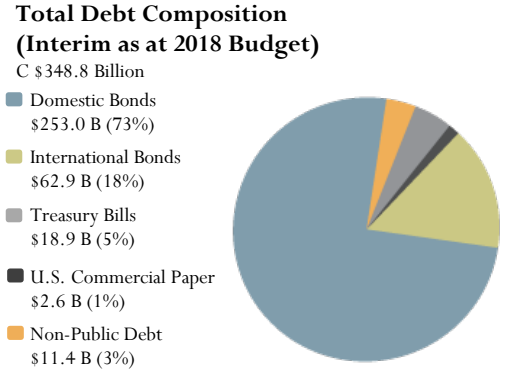
With OPG, the OFA continued to manage the investment activities of OPG's Used Fuel Segregated Fund and the Decommissioning Segregated Fund established under the Ontario Nuclear Funds Agreement (ONFA). As at March 31, 2018, the combined market value of the funds was $21.3 billion compared to $19.9 billion at March 31, 2017 and $4.9 billion when the funds were formally established in 2003.

There are currently 33 external investment managers retained to invest ONFA funds in bonds, equities, and real assets. For the 12 months ending March 31, 2018, the ONFA funds' rate of return was 7.74 per cent, ahead of the market benchmark of 5.88 per cent. Since inception, the ONFA funds have returned 7.67 per cent annualized, outperforming the long-term target annualized rate of return of 5.15 per cent. This target is a real rate of return of 3.25 per cent annually, calculated by adding 3.25 to the rate of change in the Ontario Consumer Price Index.

Borrowing and Debt Management

The OFA manages the debt of the Province and OEFC.

Total Debt Composition (Interim as at 2018 Budget)



Total debt, which represents all borrowing without offsetting financial assets, was $348.8 billion, interim as at March 31, 2018, compared to $333.1 billion as at March 31, 2017, and a forecast of $341.1 billion in the *2017 Budget*.

Ontario's net debt is the difference between total liabilities and total financial assets. Ontario's net debt is projected to be $308.2 billion as of March 31, 2018 (March 31, 2017, $301.6 billion). This projection for March 31, 2018 is $3.7 billion below the forecast of $311.9 billion in the *2017 Budget*. It includes the broader public sector's (BPS) net debt of $13.3 billion (March 31, 2017, $14.0 billion).

Prudent risk management policies and practices mitigate the financial risks inherent in managing large debt and liquid reserve portfolios. A variety of financial instruments, such as swaps and forward contracts, are used to manage exposures to fluctuations in interest rates and foreign currency exchange rates. The OFA uses derivatives for hedging purposes to manage its foreign exchange and interest rate risks. The OFA's derivatives policy does not permit the creation of leverage using derivatives. The Province's financial risks are monitored on a continuous basis, and these risk exposures are marked-to-market daily and audited annually.

Risk management policies are reviewed annually and amendments are approved by the Board.

Performance

The OFA monitors and measures the performance of the borrowing and money market programs. The performance of long-term fixed rate borrowing for 2017–18 is measured by comparing the all-in borrowing cost against the statistical distribution of benchmark interest rates observed during the year, with the objective being to attain a low percentile rank. Regular long-term fixed borrowing achieved a percentile rank of 48.2, within the target range of 45-55 percentile; strategic foreign borrowing, achieved a percentile rank of, 49.8 outperforming the target range of 50-75 percentile.

The performance of liquid reserve investments (money market program) is measured relative to the returns of a custom benchmark with a term of approximately 61 days. The target is ±2 basis points relative to the benchmark. The program returned 4 basis points more than the benchmark. Actual money market performance was $11 million better than the benchmark for 2017–18.

Market Risk

Market risk is the risk of loss due to changes in interest and foreign exchange rates.

The OFA aims for a balanced debt maturity profile for the Province to mitigate the interest rate risk inherent in refinancing maturing debt and the floating-rate debt. The Province limits itself to a maximum net interest rate resetting exposure of 35 per cent of debt issued for Provincial purposes and a maximum foreign-exchange exposure of 5 per cent of debt issued for Provincial purposes.

The interim percentage of interest rate resetting exposure (net of liquid reserves) was 11 per cent of debt as at March 31, 2018. The interim foreign exchange exposure was 0.2 per cent of debt as at March 31, 2018.

All exposures were well within the Province's approved policy limits during 2017–18.

Credit Risk

Credit risk is the risk of loss due to default of bond issuers or counterparties of derivatives or other financial transactions. The lowest acceptable credit rating of counterparties for Ontario is A–. However, Ontario typically enters into swap transactions with new counterparties rated AA– or higher. Ontario's hedging transactions related to international borrowing result in credit risk exposure to its derivative counterparties. In order to manage and mitigate credit risk associated with derivative transactions, the Province has negotiated swap collateral agreements known as Credit Support Annexes (CSAs) with many of its derivatives counterparties. A CSA is a bilateral agreement between two parties that provides the terms and conditions for posting collateral in order to offset the credit exposure related to derivative transactions.

The Province's interim net credit risk exposure associated with the derivative portfolio as at March 31, 2018 was $505 million, increasing from $143 million as at March 31, 2017, largely due to an increase in exposure to counterparties without a CSA. Net credit risk exposure represents the loss that the Province would incur if every counterparty to which the Province had credit risk exposure were to default at the same time, less the mitigating impact of netting provisions as prescribed in contractual master agreements.

As at March 31, 2018, over 99 per cent of Ontario's credit exposure was to counterparties rated AA– or better, essentially unchanged from 99 per cent as at March 31, 2017.

Liquidity Risk

Liquidity risk is the risk that liquid reserves will not be sufficient to meet the Province's cash requirements. This risk is controlled through the management of operational cash flows, liquid reserve levels and the short-term borrowing program.

The Province's Treasury bill and U.S. Commercial Paper programs have authorized limits of $33.0 billion and $15.0 billion, respectively. As at March 31, 2018, the outstanding borrowing under the Province's Treasury bill and U.S. Commercial Paper programs stood at $18.0 billion and $3.8 billion, respectively.

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people, systems or external events. The OFA manages operational risks through divisional procedures and contingency plans as well as appropriate staffing and training, all of which are reviewed on an ongoing basis. The OFA's Business Continuity Plan (BCP) ensures critical operations are completed in a timely manner in the event of an unforeseen business disruption. All BCP infrastructure and services were successfully tested in two corporate exercises held throughout the year.

The reliability of information technology (IT) and computing systems is crucial to ensure the OFA carries out its mandate efficiently and effectively. The Strategic Corporate Services Division (SCSD) supports the OFA by ensuring the efficient and effective management of business critical services including technology & communication systems, procurement, facilities, human resources, corporate business continuity and all related policies.

All systems and services were supplied within defined Service Level Agreements, with no major failures or breaches realized in 2017–18. With upticks in data creation and consumption, and rising global cyber security threats, continued resource investment contributes to the proactive maintenance and management of systems, and will continue to be handled with the highest diligence in defense of the systems that support the OFA.

Market Developments - The Canadian Depository for Securities (CDS) Fees

On December 22, 2016, CDS advised issuers that it had received regulatory approval to expand the scope of its fees, a process which CDS initiated in November 2014 in the face of significant concerns from various market participants, including several municipal and provincial issuers across Canada. In conjunction with other government issuers, the OFA undertook considerable advocacy efforts with CDS and its regulators to clarify the scope and applicability of these new fees which ultimately resulted in CDS withdrawing its initial proposal and introducing two new fee proposals. CDS began charging issuers on March 1, 2017 in connection with the two new fee proposals, however, some of the initial fees proposed in November 2014 were reduced and all existing debt was 'grand-fathered' meaning that the fees would only apply to new domestic securities issued after March 1, 2017.

Credit Rating Agency Relations

The Province requires ratings from recognized credit rating agencies to issue debt in the capital markets. The OFA ensures credit rating agencies understand government policies and budget direction as well as economic and fiscal performance, and properly reflect these in their reports and decisions. Through the OFA, the Province maintains a one-window contact with the rating agencies to ensure information provided to them is consistent and coordinated.

Capital Markets and Borrowing and Debt Management Objectives for 2018–19

The OFA will continue to diversify the Province's Canadian-dollar borrowing program using a combination of syndicated issues, bond auctions, floating-rate notes, medium-term notes and Ontario Savings Bonds. The OFA also plans on issuing green bonds in the Canadian-dollar market. These bonds are expected to be issued

at the same yield as Ontario's conventional bonds of comparable term and size. The Province announced a target in the *2017 Ontario Economic Outlook and Fiscal Review* — to complete approximately two-thirds of the total borrowing in the Canadian dollar market in 2018–19. This is in line with the historical average of issuing approximately three-quarters in that market, but represents a considerable decline in the reliance on foreign markets during the global financial crisis beginning in 2008. For example, in 2009–10, more than 50 per cent of the Province's issuance was in international markets.

Ontario will continue to be flexible, monitoring the Canadian-dollar and international markets, issuing bonds in different terms and currencies, and responding to investor preferences. Investor relations will remain a priority, with potential road shows in Canada, Europe and the United States.

The Province will continue to hedge foreign exchange and interest rate risks when borrowing in international markets. This hedging process may become more complex due to regulatory reforms in the derivatives markets under the U.S. *Dodd-Frank Wall Street Reform and Consumer Protection Act* (Dodd-Frank), the European Market Infrastructure Regulation (EMIR), and Bank for International Settlements *Basel III* regulations. These initiatives may increase the cost of hedging. Hedging may also become more expensive if proposals such as financial transaction taxes or mark-to-market derivatives taxes are legislated and implemented in Europe or the United States.

Cost-effective and prudent debt management strategies will continue to be key objectives in 2018–19. The OFA will comply with risk management policies and portfolio program limits approved by the Boards of Directors of the OFA and OEFC. Risk management policies will be reviewed and revised as required in response to an evolving regulatory and capital markets environment. On behalf of the Province, the OFA will continue negotiating CSAs with other major counterparties.

The OFA will also manage the Province's liquid reserves conservatively. With OPG, the OFA will continue to administer ONFA investments consistent with the objectives of ONFA, so the Province's contingent liabilities under ONFA are prudently managed. As well, the OFA will continue to invest on behalf of certain public bodies.

Financial Reporting and Treasury Services

In 2017–18, the OFA successfully leveraged higher deposit returns from the Canadian scheduled banks to strategically invest the Province's liquid reserves thereby contributing to higher overall returns.

The OFA continued to participate in the cross-ministry Working Group, Executive Governance Committee and Payment Card Industry (PCI) Enterprise Coordination Office to ensure that ministries maintain compliance with mandatory security requirements for debit/credit card acceptance.

The OFA provided advice to the Ministry of Government and Consumer Services (MGCS) on their corporate purchasing/travel card program as well as an analysis of related *Financial Administration Act* considerations. The OFA's contributions resulted in MGCS implementing changes to the guarantee of cash advances obtained by government employees under the travel card program which have significantly reduced risk exposure to the Province.

The OFA continued to engage with provincial and federal counterparts on treasury and cash management program issues throughout the year, including hosting a Federal/Provincial/Territorial Treasury Round Table meeting to discuss jurisdictional banking issues/development in May, 2018

The OFA continued to work with the other provinces to communicate concerns with the Financial Instruments standard to the Public Sector Accounting Board (PSAB). As a result, PSAB has delayed the implementation of this standard by two years to April 1, 2021 to address a number of issues.

The OFA continued to provide agency financial statements, as well as reporting of provincial debt, derivatives and investments. As in past years, the OFA's 2016–17 Financial Statements received an unqualified opinion from the Office of the Auditor General. As part of the audit of the Province's Public Accounts, the Office of the Auditor General audits the OFA's financial reporting of the Province's debt and interest on debt. The 2017–18 Public Accounts audit is currently on-going, the 2016–17 audit, in keeping with the past years, did not identify any material issues.

Financial Reporting and Treasury Services Objectives for 2018–19

While compliance with PCI Data Security Standards is now in its sustainment phase, the OFA will continue to work with the other OPS stakeholders and the credit/debit card acquirer to ensure that the mandatory external reviews continue to report that the Province is in compliance with all applicable PCI data security standards which are reviewed and updated periodically by the PCI Council.

The OFA will continue to work with TD Merchant Services, the Province's card acquirer, to explore options for the Province to begin accepting new value-added card products and technology.

The OFA will continue to work with the Ministry of Community and Social Services on refining the reloadable payment card as a more efficient payment mechanism for unbanked benefit recipients under the Ontario Disability Support Program.

The OFA will continue to work with the Office of the Provincial Controller on providing feedback on Chapter 2 of the Annual Report of the Auditor General of Ontario which deals with Ontario's Public Accounts.

The OFA will work closely with PSAB and the other provinces in continuing to communicate concerns to PSAB on the Financial Instruments Standard and to effectively use the two year delay in the implementation of the standard to effect essential changes. Continue to liaise with the Office of the Provincial Controller and, where required, the Office of the Auditor General of Ontario in communicating with PSAB.

The OFA will continue to maintain a leading edge Business Continuity Plan to ensure that timely payments are made to the BPS (including hospitals, municipalities and school boards) to manage the Province's financial risks in real time, and to ensure that adequate funds are available to settle all of the Province's multibillion dollar financial transactions even in the event of unforeseen disruptions.

Financial Advice

The OFA was active in providing financial advice and implementation assistance to ministries, Crown agencies and other public bodies on corporate and electricity finance policies and initiatives.

The OFA will continue to assist the Province in identifying efficient and effective public service delivery models by providing financial analysis and advice, and implementation support where applicable, with respect to potential opportunities for partnerships with the private sector and with respect to opportunities to optimize the returns on its government business enterprises and other assets.

Projects – Advisory Activities

The OFA continued to advise the Province on venture capital investments made by the Ontario Capital Growth Corporation through the Ontario Venture Capital Fund, the new Northleaf Venture Catalyst Fund, and the Ontario Emerging Technology Fund.

The OFA continued to provide analysis and advice in respect of a number of Infrastructure Ontario projects.

The OFA reviewed and provided advice on proposals received under the Jobs and Prosperity Fund (JPF) program.

The OFA provided analysis, advice and implementation support in respect of financing for electricity price mitigation measures.

Projects – Other Financial Services

The OFA's framework for financing public bodies mandates the OFA to provide long-term financing to crown agencies, school boards, colleges, hospitals and specified Provincial corporations, boards and commissions. Under this framework, the OFA provided new loans to a number of public bodies, including Ontario colleges, school boards and crown corporations totalling $120 million excluding drawings against a total of $2.5 billion short-term credit facilities for the Independent Electricity System Operator (IESO) in 2017–18.

The OFA provided financial analysis and support on financial transactions (e.g., Stelco restructuring).

The OFA provided financial analysis, advice and implementation support on initiatives related to government assets. This included the public offering of shares in Hydro One, which closed in May 2017, the sale of shares in Hydro One to First Nations in Ontario, and the sale of designated Provincial real estate assets. The OFA also provided analysis, advice and implementation support with respect to the associated financial impacts on OEFC from the sale of shares in Hydro One.

The OFA, on behalf of the Province, has received a number of applications for the Province's Aboriginal Loan Guarantee Program, which are in various stages of completion and are under review by staff and a third party due diligence provider. As at March 31, 2018, nine loan guarantees totalling approximately $250 million have been approved under the program.

The OFA provided services to OEFC, including facilitating loan agreements between OEFC and OPG to provide financing for general corporate purposes and electricity supply projects. The OFA provided analysis and advice on and continued to implement various OFA and OEFC credit facilities to the IESO.

The OFA assisted in the continued implementation of ONFA, including reviewing OPG's 2018 annual budget for eligible expenditures under ONFA for nuclear waste management and advising the Minister of Finance on OPG's financial guarantee requirements to the Canadian Nuclear Safety Commission (CNSC) for the 2018 to 2022 period.

The OFA also provided analysis to the Minister of Finance and the government to support electricity policies and initiatives, focusing on potential fiscal and economic impacts on the Province and OEFC.

Financial Advice Objectives for 2018–19

In 2018–19, the OFA will continue to provide financial advice and assistance to the Minister of Finance, ministries, Crown agencies and other public bodies on financial policies and initiatives.

Activities will include advising ministries and agencies on cost-effective financing policies and structures, comprehensive advice on structuring and implementing financial transactions and accurate determination of value-for-money benchmarks.

The OFA will provide financial analysis and advice on managing the government's assets and measures to support government initiatives and to facilitate cost-effective borrowing by public sector organizations.

Financial analysis and advice will be provided to the Minister of Finance with respect to policy initiatives in the electricity sector, including the implementation of ONFA, managing the debt and other liabilities of OEFC, and electricity rate mitigation programs. Such financial analysis and advice includes the impact of policy initiatives on the Province's finances (including those of OEFC) and on the economy.

As required, the OFA will advise on electricity supply and demand initiatives, including facilitating potential financing to OPG for supply initiatives.

The OFA will continue to provide analysis and advice to the Minister of Finance on applications to and loan guarantees under the Aboriginal Loan Guarantee Program.

The OFA will continue to provide analysis and advice as required on current or proposed business support programs or initiatives. In addition, the OFA will continue to provide analysis and advice where requested on transformation opportunities for ministries, Crown agencies and other public bodies.

Summary of Financial Results

The Ontario Financing Authority (OFA) manages the Province's debt, interest on debt and investment of liquid reserves, and recovers the cost of these services from the Province. The OFA provides loans to Crown agencies and other public bodies on the direction of the Province. It also provides other financial services to Crown agencies and other public bodies. These costs are recovered on a fee-for-service basis.

The outstanding balance of the loans to public bodies at March 31, 2018 was $5,740.2 million, a net decrease of $263.3 million from $6,003.5 million in March 2017, including write off of $0.9 million interest spread receivable from Ottawa Convention Centre (Note 5). The table below summarizes these changes:

(in thousands of dollars)

Borrower	March 31, 2018	March 31, 2017	Change
Colleges of Applied Art and Technologies	$328,940	$320,653	$8,287
Independent Electricity System Operator	13,766	81,209	(67,443)
Niagara Parks Commission	4,214	4,553	(339)
Ontario Cannabis Retail Corporation	25,000	–	25,000
Ontario Lottery and Gaming Corporation	32,653	33,769	(1,116)
Ontario Northland Transportation Commission	2,158	2,564	(406)
Ottawa Convention Centre Corporation	47,115	48,016	(901)
Royal Ontario Museum	23,734	26,000	(2,266)
School Boards	5,254,496	5,473,075	(218,579)
University of Ontario Institute of Technology	–	5,501	(5,501)
			$(263,264)

The OFA continued to provide investment management services to other public bodies for the aggregate amount of $2,144 million (2017 – $1,904 million) (Note 6).

The OFA recovered operating costs from agencies and related parties amounting to $5.0 million for the year ended March 31, 2018 (2017 – $4.8 million) (Note 6). The OFA's annual surplus for the year amounted to $3.2 million (2017 – $3.7 million) from the retention of the interest rate spread on loans to public bodies.

Prudent financial management on the part of the OFA ensured that actual expenditures continued to be below the budget resulting in cost recoveries from the Province that were $0.8 million lower than the budgeted amount. Interest revenue was $0.8 million greater than the budget contributing to an equal increase in the annual surplus.

Responsibility for Financial Reporting

The accompanying Financial Statements of the OFA have been prepared in accordance with Canadian public sector accounting standards. The preparation of the Financial Statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The Financial Statements have been properly prepared within reasonable limits of materiality and in light of information available up to June xx, 2018.

Management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded and that reliable financial information is available on a timely basis. The system includes formal policies and procedures and an organizational structure that provides for appropriate delegation of authority and segregation of responsibilities. An internal audit function independently evaluates the effectiveness of these internal controls on an ongoing basis and reports its findings to management and the Audit and Risk Management Committee of the Board.

The Board, through the Audit and Risk Management Committee, is responsible for ensuring management fulfils its responsibilities for financial reporting and internal controls. The Audit and Risk Management Committee meets quarterly with management and the internal auditors, and at least twice yearly with the external auditor, to deal with issues raised by them and to review the financial statements before recommending approval by the Board.

The Financial Statements have been audited by the Auditor General of Ontario. The Auditor General's responsibility is to express an opinion on whether the Financial Statements are fairly presented in accordance with Canadian public sector accounting standards. The Auditor's Report, which appears on the following page, outlines the scope of the Auditor's examination and opinion.

BACKGROUND

The Ontario Financing Authority (the "OFA") was established as an agency, of the Crown, on November 15, 1993, by the *Capital Investment Plan Act, 1993* (the "Act"). In accordance with the Act, the OFA:

- conducts borrowing, investment and financial risk management for the Province of Ontario ("the Province");
- manages the Provincial debt;
- provides centralized financial services for the Province including banking and cash management;
- advises ministries, Crown agencies and other public bodies on financial policies and projects;
- assists Crown agencies and other public bodies to borrow and invest money;
- acts at the direction of the Province in lending to certain public bodies;
- invests on behalf of some public bodies;
- with Ontario Power Generation Inc. (OPG), manages the investment activities of OPG's Used Fuel Segregated Fund and Decommissioning Segregated Fund; and
- carries out the day-to-day operations of Ontario Electricity Financial Corporation (OEFC) and provides a broad range of financial services to Ontario Infrastructure and Lands Corporation (Infrastructure Ontario).

In addition, the OFA's objects include:

- providing such other financial services as are considered advantageous to the Province or any public body; and
- any additional objects as directed by the Lieutenant Governor in Council.

The Memorandum of Understanding between the OFA and the Minister of Finance is an administrative agreement that serves as an important governance tool for the OFA in delivering on its mandate and objectives.

The OFA is a corporation established under the laws of Ontario. The OFA is exempt from federal and provincial income taxes under paragraph 149(1)(d) of the *Income Tax Act* (Canada).

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting: These financial statements are prepared by management in accordance with Canadian Public Sector Accounting Standards for provincial reporting entities established by the Canadian Public Sector Accounting Board.

(b) Tangible capital assets: Tangible capital assets are stated at cost. Amortization is provided using the straight-line method over the estimated useful life of the assets, with a half-year

provision applied in both the year of acquisition and the year of disposal. The estimated useful life of the assets are as follows:

Furniture and equipment	5 years
Computer hardware	3 years
Leasehold improvements	Term of lease

Funding received from the Province for the acquisition of tangible capital assets is recorded as deferred revenue and amortized to cost recovery on the same basis as the tangible capital assets.

(c) Measurement uncertainty: The preparation of financial statements in accordance with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Items requiring the use of significant estimates include: useful life of tangible capital assets, accruals and the accrued benefit obligation. Estimates are based on the best information available at the time of preparation of the financial statements and are reviewed annually to reflect new information as it becomes available. Measurement uncertainty exists in these financial statements. Actual results could differ from these estimates.

(d) Accounts Payable and Accrued Liabilities: Accounts payable relate to normal business transactions with third-party vendors and are subject to standard commercial terms. Accrued liabilities relate to accruals for salaries and benefits.

(e) Revenue and Expenses: OFA is funded from the Consolidated Revenue Fund (CRF) as part of Treasury Program. OFA can charge fees subject to statutory and regulatory authority and it earns revenues from public bodies outside of the CRF; the OFA retains revenues earned from the interest rate spread on its loans to public bodies.

(f) Financial Instruments: The OFA's financial assets and liabilities are accounted for as follows:

- Cash is subject to an insignificant risk of change in value so carrying value approximates fair value; and

- Accounts receivable, Due from Agencies & related parties, Due from the Province of Ontario, accounts payable, Due to the Province of Ontario and Deferred Revenue are recorded at cost.

The OFA does not use derivative financial instruments on its own behalf.

2. TANGIBLE CAPITAL ASSETS

Year ended March 31, 2018

Net Book Value, March 31, 2017	$1,078	$68	$50	$1,196

3. DEFERRED REVENUE

Deferred revenue represents the unamortized portion of the cost recovered from the Province for the acquisition of tangible capital assets as well as prepaid expenses to be allocated over the period the resources are consumed.

(in thousands of dollars)	Year ended March 31,2018		
	Tangible Capital Assets	**Prepaid Expenses**	**Total**
Balance, beginning of year	$ 1,196	$ 308	$ 1,504
Additions	812	532	1,344
Amortization	(768)	–	(768)
Expensed in the current year	–	(459)	(459)
Balance, end of year	$ 1,240	$ 381	$1,621

(in thousands of dollars)	Year ended March 31, 2017		
	Tangible Capital Assets	**Prepaid Expenses**	**Total**
Balance, beginning of year	$ 1,201	$ 350	$ 1,551
Additions	826	548	1,374
Amortization	(831)	–	(831)
Expensed in the current year	–	(590)	(590)
Balance, end of year	$ 1,196	$ 308	$ 1,504

Amortization of $768,000 (2017 – $831,000) represents the offset to the contributions received for the purchase of tangible capital assets. The $459,000 (2017 – $590,000) expensed represents the amount allocated to the current year expenses from the prepaid expenses.

4. DEBT AND INVESTMENT MANAGEMENT FOR THE PROVINCE

The OFA manages debt on behalf of the Province amounting to $348.8 billion, as at March 31, 2018 (2017 Actual – $333.1 billion) as per the interim projection published in the 2018 Annual Budget. The OFA also manages investments amounting to $55.6 billion as at March 31, 2018 (2017 – $44.4 billion) including $21.3 billion (2017 – $19.9 billion) under the joint management of funds owned by OPG under ONFA. The Province, OPG and certain OPG subsidiaries entered into the agreement in March 2002 to set aside funds necessary to dispose of nuclear waste and used fuel and to decommission nuclear power stations. The agreement came into force on July 24, 2003.

Cost recovery from the Province for all debt management and investment activities for the year ended March 31, 2018 was $20.1 million (2017 – $18.3 million).

5. TRANSACTIONS WITH PUBLIC BODIES

The OFA provides financing to various public bodies on direction from the Province. As the OFA is directed by the Province to make these loans in furtherance of stated Provincial initiatives, and these loans are included in the Province's consolidated financial statements, these transactions are not reflected in these financial statements.

Funds for these loans are advanced to the OFA by the Province under credit facilities aggregating $18.9 billion expiring from 2036 to 2044. Principal repayments received from public bodies by the OFA are forwarded to the Province. The interest rates charged to public bodies is generally slightly higher than the rate charged on the advances from the Province to fund the loans ("the spread").

The OFA will generally retain a portion of the spread in order to recover the administrative costs of managing these loans. The spread retained by the OFA includes a cost recovery component and, where applicable, a proxy commercial interest rate spread. The inclusion of the proxy commercial spread results in an interest rate equivalent to what would be charged on the loan by a commercial lender and reflects the relative risk associated with the loan. During the year ended March 31, 2018, $4.1 million in interest rate spread revenue was recognized (2017 – $3.7 million) of which $0.6 million in receivable at year end (2017 – $2.1 million).

Loans to Public Bodies by the Province:

As at March 31, 2018, the principal amounts receivable by the OFA on behalf of the Province represent long term and short term loans. Interest accrued on the outstanding loans listed below amounted to $91.9 million (2017 – $93.9 million), of which $90.6 million (2017 – $92.7 million) will be flowed to the Province.

These are related party transactions, with the exception of those with the Corporation of the City of Windsor and the University of Ontario Institute of Technology.

(in thousands of dollars)

	March 31, 2018	***March 31, 2017***
Colleges of Applied Art and Technologies	$328,940	*$320,653*

Ontario Cannabis Retail Corporation	25,000	–
Ontario Lottery and Gaming Corporation	32,653	*33,769*
Ontario Northland Transportation Commission	2,158	*2,564*
Ottawa Convention Centre Corporation	47,115	*48,016*

Royal Ontario Museum	23,734	*26,000*
School Boards	5,254,496	*5,473,075*
University of Ontario Institute of Technology	–	*5,501*
Total	**$ 5,740,247**	***$ 6,003,511***

Colleges of Applied Art and Technologies have been loaned $328.9 million (2017 – $320.7 million) for various campus projects including new and expanded student residences, computer equipment, parking facilities, and an energy saving capital project. These loans bear interest ranging from 1.32 per cent to 5.75 per cent and mature from 2018 to 2042.

The Corporation of the City of Windsor is a municipality within the meaning of the *Municipal Act*. The financing provided is for the acquisition, design and construction of the Windsor Justice Facility consisting of a provincial division courthouse and city police headquarters. This is a 20 year loan bearing interest at 6.41 per cent and maturing in March 2021. The outstanding balance is $8.2 million (2017 – $8.2 million).

The Independent Electricity System Operator (IESO), a corporation established pursuant to Part II of the *Electricity Act, 1998,* had been provided a maximum $975 million credit facility to primarily fund the Regulated Price Plan variance account. Under the amended agreement between OFA and IESO on November 6, 2017, this credit facility was reduced to a maximum of $475 million and extended until November 30, 2019. As at March 31, 2018, the IESO has drawn $13.5 million from this facility for Rural or Remote Electricity Rate Protection (RRRP) variance account bearing an interest rate at 1.52 per cent. In addition, under a new agreement entered into between the OFA and the IESO on November 6, 2017, the IESO has been provided a maximum $2 billion credit facility for the purpose of supporting the IESO's role in implementation and administration of electricity price mitigation measures. This credit facility expires on September 23, 2022. As at March 31, 2018, the IESO has drawn $0.3 million from this facility bearing interest rate at 1.52 per cent.

The Niagara Parks Commission, a Crown agency of the Province, operating under the *Niagara Parks Act, 1990*, has been provided a loan of $4.2 million (2017 – $4.6 million) to finance additional capital costs incurred for the redevelopment of phase I of Table Rock House in Queen Victoria Park, Niagara Falls. This loan bears interest at 5.07 per cent and matures in April 2027.

The Ontario Cannabis Retail Corporation (OCRC) is a Crown agency of the Province, operating under the *Ontario Cannabis Retail Corporation Act, 2017,* has been provided a loan facility of $150 million for the purpose of funding the set-up and operating costs. As of March 31, 2018, OCRC has drawn $25 million from this facility bearing interest rate of 1.79 per cent.

The Ontario Lottery and Gaming Corporation (OLG) is a Crown agency of the Province under the *Ontario Lottery and Gaming Corporation Act*, *1999*, and has been provided loans totalling $32.6 million (2017 – $33.8 million) to fund several projects, bearing interest at 2.65 per cent and maturing from April 2018 to September 2022.

The Ontario Northland Transportation Commission (ONTC) is a Crown agency of the Province under the *Ontario Northland Transportation Commission Act, 1990*. ONTC's total borrowing of $2.2 million (2017 – $2.6 million) matures from 2020 to 2031 and bears interest ranging from 4.90 to 5.22 per cent.

Ottawa Convention Centre Corporation (OCC), a Crown agency of the Province governed under the *Ottawa Convention Centre Corporation Act, 1988*, was provided a 25 year loan of $40.0 million in September 2011, bearing annual interest at 4.67 per cent with a maturity in September 2036. Pursuant to a directive signed by the Minister of Finance on November 2, 2012, the Province provided OCC with a repayment deferral of principal and interest up to five years, with interest to continue to accrue over the five year deferral period. In fiscal 2016–17, the Province had recorded an allowance for doubtful accounts of $47.1 million for the principal and capitalized interest. Subsequently, in fiscal 2017–18, the OFA has written off $0.9 million for its share of the capitalized interest. Two settlement agreements became effective as at March 31, 2018, in respect to OCC's outstanding principal and accrued interest. One agreement signed by the Minister of Finance, releases the OFA from all of its obligations (principal and interest) relating to advances made to the OFA, in consideration of the other release agreement between the OFA, OCC and the Ministry of Tourism, Culture and Sport. The latter agreement releases OCC for the full amount of any outstanding principal and interest in consideration of the OCC agreeing to make payments on or before March 31 in each fiscal year to the OFA in the amount of at least $1 million annually in perpetuity, with the first payment to be made by March 31, 2019, which will then be transferred to the Province. The agreement also provides for a potential annual sweep of OCC cash surplus to operational requirements. If the OCC is not in a position to make full or partial payment, the Ministry of Tourism, Culture and Sport will make the payment to the OFA on behalf of the OCC.

The Royal Ontario Museum (ROM) is a Crown agency of the Province under a Special Act of the Ontario Legislature and has borrowed $23.7 million (2017 – $26.0 million) bearing floating rate interest, currently set at 3.24 per cent. All outstanding loans are scheduled to be repaid by March 2027.

School boards have been provided loans under various programs beginning in 2006. During the year ended March 31, 2018, school boards made semi-annual blended payments of principal and interest, leaving the total outstanding amount at $5,254.5 million (2017 – $5,473.0 million). These loans bear interest ranging from 2.43 to 5.38 per cent and mature from 2019 to 2042. The School Board loan program has been gradually replaced by a Ministry of Education capital grant facility model. Since April 1, 2017, this new funding model fully replaced the need for capital loans from the OFA. School Boards will, however, continue to make interest and principal payments until all outstanding balances are paid off.

The University of Ontario Institute of Technology (UOIT) is a corporation established under the *University of Ontario Institute of Technology Act, 2002*. The Province has provided a five-year term loan which matured in October 2017 and was repaid in full.

6. INVESTMENT AND DEBT MANAGEMENT FOR RELATED PARTY AGENCIES

a. The OFA provides investment management services to the following related party agencies. Fees are aimed at recovering OFA costs and are charged on the basis of either the market or par value of the assets under management based on a range of up to 0.20 per cent.

Deposit Insurance Corporation of Ontario
Northern Ontario Heritage Fund
Ontario Capital Growth Corporation
Pension Benefits Guarantee Fund
Ontario Immigrant Investor Corporation
Ontario Infrastructure and Lands Corporation
Ontario Trillium Foundation

Investments managed on behalf of these entities totalled $2.1 billion at March 31, 2018 (2017 – $1.9 billion).

b. The OFA provides debt management services to the following related party agencies on a cost recovery basis:

Ontario Electricity Financial Corporation (OEFC)
The OFA provides financial services and advice on a cost recovery basis to OEFC and manages its debt portfolio of approximately $19.1 billion (2017 – $20.4 billion).

Ontario Infrastructure and Lands Corporation (OILC)
The OFA provides borrowing and other financial services and advice on a cost recovery basis to OILC and manages its debt of approximately $3.2 billion at March 31, 2018 (2017 – $3.7 billion) including loans from the Province, a provincial agency and third parties.

Metrolinx
The OFA provides services to Metrolinx with respect to fuel commodity hedging program on a cost recovery basis.

c. The total costs recovered and receivables outstanding for related party agencies at March 31, 2018 are set out below:

(in thousands of dollars)

	March 31, 2018	***March 31, 2017***
Costs Recovered:		
OEFC	$ 3,832	*$ 3,765*
OILC	672	*740*
Metrolinx	108	-
Investment Management	392	*336*
Total	$ 5,004	*$ 4,841*
Receivables:		

OEFC	$ 1,083	*$ 1,070*
OILC	166	*187*
Other	49	*94*
Investment Management	110	86
Interest Rate Spread (Note 5)	562	*2,118*
Total	$ 1,970	*$ 3,555*

7. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The main risks that the OFA's financial instruments are exposed to are credit risk, liquidity risk and market risk. These risks are limited to the financial instruments reflected on the statement of financial position and do not extend to the financing provided to various public bodies, disclosed in note 5 to the financial statements.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument may fail to discharge an obligation or commitment into which it has entered. This risk is minimal as most of the receivables are from the Province of Ontario.

The risk of not collecting the receivables related to OEFC, OILC and others is also considered to be minimal.

Liquidity risk

Liquidity risk is the risk that the OFA will not be able to meet its cash flow obligations as they fall due. The OFA's exposure to liquidity risk is minimal as all operating and capital expenses are cost recovered from the Province of Ontario.

Market risk

The market risk arises from the possibility that changes in market prices will affect the value of the financial instruments of the OFA. The OFA is not exposed to market risk.

8. FUTURE EMPLOYEE BENEFITS

(a) Pension Benefits

The OFA provides pension benefits to its full-time employees through participation in the Public Service Pension Plan (PSPP), which is a multi-employer defined benefit pension plan established by the Province of Ontario. The Ministry of Government and Consumer Services (MGCS) is responsible for funding the employer's contribution to the Pension Fund and accordingly, the OFA has no

additional liability for these future costs. In addition, the cost of post-retirement, non-pension benefits is paid by MGCS and is not reported in these financial statements.

(b) Accrued Employee Benefits Obligation

The legislated severance entitlement upon retirement for the Association of Management, Administrative and Professional Crown Employees of Ontario (AMAPCEO), excluded employees, management-excluded employees and other Management employees who retire after January 1, 2016, will be paid based on the salary in effect on December 31, 2015. The legislated severance entitlement upon retirement for the Ontario Public Service Employee Union (OPSEU), excluded employees who retire after January 1, 2016, will be paid based on the salary in effect on December 31, 2016.

For all other employees subject to terms set out in collective agreements who have completed five years of service, the OFA provides termination pay equal to one week's salary for each year of service up to a maximum of 50 percent of their annual salary.

The costs of this legislated severance entitlements earned by AMAPCEO and OPSEU, excluded employees, management excluded employees, management employees as at March 31, 2018 amounted to $3,877,000 (2017 – $3,918,000). In addition, the unused vacation entitlements earned by all employees as at March 31, 2018 amounted to $945,000 (2017 – $757,000).

On an ongoing basis, MGCS is responsible for funding the legislated severance entitlements, as well as unused vacation entitlements and accordingly no additional expense or liability is reported in these financial statements. Accrued employee benefits obligation is recorded at cost on the entitlements earned by employees up to March 31, 2018. A fair value estimate based on actuarial assumptions about when these benefits will actually be paid has not been made, as it is not expected that there would be a significant difference from the recorded amount.

9. COMMITMENTS AND CONTINGENCIES

Lease Commitment:

The OFA rents its premises under an operating lease which expires on June 30, 2022, and the minimum base rental payments for the lease are as follows:

(in thousands of dollars)

	March 31, 2018
2019	893
2020	952
2021	972
2022	972
Total	**$3,789**

OFA is committed to pay its proportionate share of realty taxes and operating expenses for the premises for the year ended March 31, 2018, which amounted to $995,438 (2017 – $999,900).

Committed Credit Facilities:

At the direction of the Province, the OFA has committed to finance a number of public bodies for which funds have not yet been advanced. The details are as follows:

The Deposit Insurance Corporation of Ontario (DICO) was provided a maximum $400 million revolving credit facility to ensure DICO's capacity to address systematic difficulties in the credit union system or the failure of large institutions that require resources above those in the Deposit Insurance Reserve Fund (DIRF) which is currently valued at approximately $256.7 million. All principal and interest is required to be repaid by December 31, 2029. As of March 31, 2018, DICO had not utilized this credit facility.

The Ontario Infrastructure and Lands Corporation (OILC) is a Crown agency of the Province under the *Ontario Infrastructure and Lands Corporation Act, 2011* and has been provided a Revolving Credit Facility to a maximum amount of $100 million maturing on March 27, 2013. As of March 31, 2018, OILC had not drawn any funds from this facility.

The Ontario Northland Transportation Corporation (ONTC) has been provided a Revolving Credit Facility to a maximum amount of $5 million on March 16, 2018 maturing on October 30, 2020. As of March 31, 2018, ONTC had not drawn any funds from this facility.

The Ontario Lottery and Gaming Corporation has been provided a Non-Revolving Facility of $87.5 million on July 18, 2017, which will be subsequently converted into 5 year term loan following substantial completion of the project. As of March 31, 2018, OLG had not drawn any funds from this facility.

In the event fund are advanced under the above facilities they will be disclosed under Note 5 – Transactions with Public Bodies.

Contingencies:

At March 31, 2018, there were no claims under which the OFA would be financially liable. The Province continues to guarantee the term deposits issued by the Province of Ontario Savings Office prior to 2003.

Corporate Governance

Corporate Governance

Financial Reporting Requirements

Board of Directors

Corporate Governance

Overview

The OFA is an agent of the Crown characterized by a Management Board of Cabinet Directive as a board-governed provincial agency.

Corporate governance for the OFA involves processes that permit the effective supervision and management of the OFA's activities by senior management, the Board of Directors supported by its committees, and the Minister of Finance. It includes identifying individuals and groups responsible for the Corporation's activities and specifying their roles.

Accountability and Responsibilities

The OFA's accountability structure flows from its governing statute, the *Capital Investment Plan Act, 1993* ("CIPA"). The Minister of Finance is the minister responsible for the administration of CIPA with respect to the OFA. CIPA, together with policies and directives issued by Management Board of Cabinet, form a framework under which the OFA is governed.

Each year, the Minister of Finance is required to table the OFA's Annual Report in the Legislature. In addition, the Minister reviews and approves the OFA's annual business plan. The Minister also maintains communications with the OFA, through its Chair, regarding government policies and issues relevant to the OFA.

The Chair is accountable to the Minister of Finance for the performance of the OFA in fulfilling its mandate. CIPA provides that the Deputy Minister of Finance is the Chair of the OFA. The Chair is responsible for providing advice and information to the Minister with regard to the operation and affairs of the OFA. In addition, the Chair provides leadership to the OFA. As Deputy Minister of Finance, the Chair ensures organizational capacity in the Ministry to monitor the OFA and ensures that it manages its risks appropriately.

The Board is appointed by the Lieutenant Governor in Council and is accountable to the Minister through the Chair. The OFA Board performs a supervisory role, overseeing the management of the business and affairs of the OFA to ensure the OFA's mandate is fulfilled. The Board is comprised of both public servants employed by the Crown and independent directors. The Board meets at least quarterly and receives regular reports from the CEO and OFA staff concerning the operations of the OFA and its compliance with applicable laws and policies. Standards of conduct for Board members are set out in a Board-approved Code of Conduct.

There are also three committees of the Board to assist it in supervising the management of the OFA. The Audit and Risk Management Committee reviews and recommends approval by the Board of an annual internal audit plan and receives reports from the OFA's internal auditors and the Auditor General of Ontario regarding internal controls and financial reporting. It also reviews financial policies and financial statements and recommends them to the Board. Another function of the Audit and Risk Management Committee is the review of the OFA's major risks and mitigation strategies. The Human Resources and Governance Committee assists the Board in ensuring appropriate policies and procedures are in place relating to

compensation for staff in critical areas and with respect to corporate governance. The OFA ONFA Investment Committee supervises the OFA's activities related to the investment of Ontario Power Generation's Used Fuel Segregated Fund and the Decommissioning Segregated Fund established under ONFA.

The CEO works under the direction of the Chair and the Board and reports the OFA's performance to the Board. The CEO is responsible for managing the day-to-day operations and ongoing activities of the OFA, including the supervision of staff, in accordance with government policies.

The OFA's employees are appointed pursuant to the *Public Service of Ontario Act, 2006*.

Financial Reporting Requirements

The OFA prepares annual financial statements in accordance with Canadian public sector accounting standards. The financial statements are reviewed and recommended by the Audit and Risk Management Committee and approved by the Board. The annual financial statements are audited by the Auditor General who expresses an opinion on whether they present the financial results fairly in accordance with Canadian public sector accounting standards. The Office of the Auditor General also issues an audit report whose findings are reviewed by the Audit and Risk Management Committee and the Board. The audited financial statements are tabled in the Ontario Legislature as part of the Annual Report and are included in Volume 2 of the Public Accounts of the Province. Unaudited financial statements are prepared quarterly and presented to the Audit and Risk Management Committee and the Board.

Internal Controls

Management is responsible for establishing and maintaining internal controls to provide reasonable assurance regarding the reliability of financial reporting, to safeguard the OFA's assets and to manage its liabilities.

In meeting its responsibility for the reliability and timeliness of financial information, the OFA uses a comprehensive system of internal controls, including organizational and procedural controls. The system of internal controls includes:

- comprehensive business planning;
- written communication of policies and procedures governing corporate conduct and risk management;
- segregation of duties;
- maintenance and retention of detailed records;
- responsible delegation of authority and personal accountability;
- careful selection and training of personnel; and
- regularly updated accounting and financial risk policies and procedures.

As part of its annual business plan, the OFA conducts an assessment of corporate-wide risks and develops appropriate mitigation strategies.

The Ontario Internal Audit Division of the Treasury Board Secretariat develops an annual internal audit plan based on a review of the OFA's risk assessment and input from the OFA Audit and Risk Management Committee and Management. The internal audit plan is approved by the Board on the recommendation of

the OFA Audit and Risk Management Committee. The Internal Audit Division reports to the OFA Audit and Risk Management Committee on the results of its audit work in the OFA.

Board of Directors

The following individuals were members of the Board in 2017–18. Changes to Board membership status and Committee membership which arose during the fiscal year are noted below. Where an individual's status as a Board member changed after March 31, 2018 but before publication of this Annual Report, this has also been noted.

Scott Thompson

Chair, OFA Board of Directors

Date of initial appointment to OFA Board of Directors: October 2014

Pursuant to Ss.5(3) of CIPA, the Deputy Minister of Finance is, by virtue of office, the Chair of the OFA. Deputy Minister of Finance Scott Thompson was appointed to the position of Deputy Minister in the Ministry of Finance in October 2014. In his previous position as Deputy Minister, Policy and Delivery in the Ontario Cabinet Office, his primary role was to work with all Ministries in the Ontario Public Service and the Premier's Office to establish and manage the government's policy and legislative agenda.

Prior to Scott's appointment to Cabinet Office, he was the Executive Lead for the Secretariat responsible for the Commission on the Reform of Ontario's Public Services (CROPS), otherwise known as the "Drummond Commission," at the Ministry of Finance.

Throughout his 33 year tenure with the Ontario Public Service, Scott has served in various senior management positions in the Ministries of Transportation, Municipal Affairs, Finance, and Northern Development and Mines, as well as several roles in Cabinet Office.

Scott has previously served as: Assistant Deputy Minister, Provincial Highways Management, Ministry of Transportation; Assistant Deputy Minister, Policy and Planning, Ministry of Transportation; Assistant Deputy Minister, Economic, Environment, Justice and Intergovernmental Policy, Cabinet Office.

Scott began his public service career in 1985 after completing a Bachelor of Environmental Studies degree in urban planning at the University of Waterloo and graduate work in transportation planning at the University of Illinois.

In 2012, Scott was a recipient of the Silver medal in the Federal/Provincial/Territorial/Aboriginal category of the IPAC/Deloitte Public Sector Leadership Award for his work with the Secretariat responsible for CROPS.

Constance L. Sugiyama, C.M., J.D., LL.D

Vice-Chair, OFA Board of Directors
Committee: Audit and Risk Management Committee, Member

Date of Initial Appointment to OFA Board of Directors: November 2014
End of Current Term: November 2020

Constance L. Sugiyama, C.M., JD, LL.D, is a corporate director and strategy advisor. Prior to retiring from practice, she was the Deputy Chair of a national law firm and a leading corporate, capital markets and mergers and acquisitions lawyer. She is a past-Chair of the Hospital for Sick Children. Ms. Sugiyama currently serves on a number of boards and her community involvement includes, among others, serving as an advisor to the Japanese Canadian Cultural Centre, Women in Capital Markets, and the 30% Club Canada. Ms. Sugiyama has been a Board member of the Ontario Financing Authority since 2014 and it's Vice Chair since 2016.

Ms. Sugiyama was appointed a Member of the Order of Canada in 2014. She holds a BA and JD from the University of Toronto and was awarded an Honorary LL.D from the University of Western Ontario in 2015.

Gadi Mayman

Chief Executive Officer, OFA

Date of initial appointment to OFA Board of Directors: August 2000
End of Current Term: July 2020

As CEO of the Ontario Financing Authority (OFA), Gadi is responsible for the Province's capital market activities, including borrowing and debt management, corporate and electricity finance projects, and its banking and investor relationships. He is also CEO and Vice-Chair of the Ontario Electricity Financial Corporation.

Prior to joining the Ontario Ministry of Finance, Gadi worked at Export Development Canada in Ottawa and in the International Division of the TD Bank. He received a Bachelor of Applied Science in Industrial Engineering from the University of Toronto in 1981, and a Master of Business Administration from the Ivey Business School at the University of Western Ontario in 1988.

Gadi is on the boards of Infrastructure Ontario and the Ontario Capital Growth Corporation, and is Co-Chair of the Joint Nuclear Funds Investment Committee, a joint OFA and Ontario Power Generation Committee.

John M. Beck

Committee: Audit and Risk Management Committee, Member

Date of initial appointment to OFA Board of Directors: January 2011
End of Current Term: January 2020

John M. Beck is founder and Executive Chairman of Aecon Group Inc. (TSX: ARE), Canada's premier construction and infrastructure development company. A leader in providing services to private and public sector clients throughout Canada and internationally, Aecon primarily serves the Infrastructure, Energy and Mining sectors.

A graduate in Civil Engineering from McGill University, Mr. Beck has more than 50 years of experience in the construction industry in Canada and internationally. His background includes corporate leadership in numerous construction activities including heavy civil projects and public-private partnerships for the development of infrastructure, such as airports, toll roads and transit systems.

Mr. Beck is currently a member of the Board of Directors of the Ontario Financing Authority and the Royal Conservatory of Music. He is a member of the Advisory Council for the School of Public Policy at the University of Calgary and is also a member of the Business Council of Canada. He was previously Chairman of the Board of the Ontario Power Authority, a government agency with responsibility for planning and procuring all of the province's power needs for the next 20 years. He was named P3 Champion of the Year by the Canadian Council of Public Private Partnerships in 2013. In recognition of his distinguished achievements and career-long service to the engineering profession, Mr. Beck was inducted as a Fellow into the Canadian Academy of Engineering.

Yim Chan

Date of initial appointment to OFA Board of Directors: January 2018
End of Current Term: January 2021

Yim Chan is a retired CIO and Chief Privacy Officer, her career spanned over 35 years with IBM in various Executive Management roles across IBM Canada, Asia Pacific and Corporate.

Yim's experience in the IT Sector covers a broad scope in Technical, Management and Privacy positions to enable organization to drive business innovation and transformation. She provided Business Visionary and led cutting-edge projects and innovative technologies that drove business value and business practice leadership in IT and Privacy Leadership. Her skills included business insights and expertise in IT challenges, and privacy and security solutions incorporating the latest technologies and methodologies.

Yim co-authored Privacy papers and held Board member positions for many years with the International Association of Privacy Professionals that manages the Privacy certification global programs. She was CIPP/C and CIPM certified. She holds 2 patents.

Yim has a Bachelor of Mathematics from the University of Waterloo and a Masters Certificate from George Washington University.

Angela Holtham, FCPA, FCMA, ICD.D

Committees: Audit and Risk Management Committee, Chair

Date of initial appointment to OFA Board of Directors: February 2011
End of Current Term: February 2020

Angela retired after eight years as the Vice President, Finance, and CFO of The Hospital for Sick Children in Toronto. Prior to that, she held a number of positions in both the for-profit and not-for-profit sectors, including 20 years with Nabisco Canada, the last five of which she spent as Senior Vice President and CFO.

Angela holds a Master of Business Administration Degree from the University of Toronto, and a Bachelor of Mathematics Degree from the University of Waterloo. She is an FCPA, FCMA and holds the ICD.D directors designation.

Angela has held a number of Board positions including chair of the Board of CMA Ontario, and Board Director of Sprinkles Global Health Initiative.

She currently serves on the Boards of two Canadian publicly held companies, Oncolytics Biotech Inc. and IBI Group Inc.

Heather-Anne Irwin

Committees: Audit and Risk Management Committee, Member

Date of initial appointment to OFA Board of Directors: October 2016
End of Current Term: October 2019

Heather-Anne is an Adjunct Professor of Finance at the Rotman School of Management since 2003. She is also the Executive Director of the Canadian Securities Institute Research Foundation. Prior to this, Heather-Anne spent 19 years in capital markets at TD Securities, Nesbitt Burns, and Citibank where she occupied various senior roles in corporate finance, fixed income and structured products.

Currently Heather-Anne is a board member of the public company InnVest REIT, and Chair of its Corporate Governance and Compensation Committees. She also sits on several private boards. She is the Founding President of Women in Capital Markets.

Heather-Anne's not-for-profit board work includes, Up With Women where she is the Chair, and Bay St. Deconstructed. She was a member of the board of the Centre for Addiction and Mental Health (CAMH) Foundation from 2002–2008.

Heather-Anne has a degree in Engineering Chemistry from Queen's University and an MBA from the Schulich School of School of Business, at York.

Peter Kay

Committees: Human Resources and Governance Committee, Vice-Chair
ONFA Investment Committee, Chair

Date of Initial Appointment to OFA Board of Directors: May 2013
End of Current Term: May 2019

Peter Kay is a retired financial services executive. His career spanned 32 years with Canadian Imperial Bank of Commerce including 15 years as senior vice president and as deputy chair of the CIBC Pension Fund Committee.

Peter's experience in the financial sector covers a wide variety of areas including large-scale and structured lending, Eurobond finance, and merchant banking. Treasury-related areas include corporate and international finance, long term debt financing in the domestic Canadian, US and Euro-bond markets, and capital management and pension fund management.

Peter is a Trustee of the Upper Canada College Foundation, a charitable foundation, where he is also chair of the Governance & Nominating Committee.

Peter was awarded a BSc in Engineering from the University of Toronto, an MSc in Management Science from Imperial College, University of London, England, and an LLM in Securities Law from Osgoode Hall, York University.

Marie MacDougall

Committee: Audit and Risk Management Committee, Member

Date of Initial Appointment to OFA Board of Directors: March 2016
End of Current Term: March 2019

Before her appointment to the OFA Board of Directors, Marie MacDougall was Vice President and Treasurer at Export Development Canada (EDC) for thirty-one years. During her tenure at EDC, Marie occupied various financial, investment, and accounting roles before she was promoted to Vice President and Treasurer in February of 2000. As head of EDC's Treasury group, her team provided financial and technical support to the lending and insurance operations of the corporation. Marie's team of capital market experts developed and executed financial strategies and transactions for the corporation's long-term debt issues, short-term borrowings, investments and foreign exchange transactions, all derivative and pricing activities, and investor relations. In addition, Marie attended the EDC's Board of Directors meetings to provide support to the Chair of the Audit Committee and address any questions regarding EDC's Treasury operations.

Diane McArthur

Committees: Audit and Risk Management Committee, Member
Human Resources and Governance Committee, Member

Date of initial appointment to OFA Board of Directors: June 2016
End of Current Term: June 2019

Diane McArthur was appointed the first Chief Talent Officer of Ontario Public Service in January 2016. Prior to this, she was the Executive Lead for the Secretariat supporting the Premier's Advisory Council on Government Assets. The Secretariat worked with ministries to successfully implement one of the largest IPO's in Ontario's history and most significant reform of beverage alcohol retailing since prohibition.

Previous executive roles include Assistant Deputy Minister and Executive Officer of Ontario Public Drug Programs (OPDP), where she oversaw the administration of the second largest drug insurance program in North America; Assistant Deputy Minister of the Ontario Seniors' Secretariat; Executive Coordinator of Health and Social Policy in Cabinet Office.

Diane has gained extensive experience in health human resource policy and planning for health care provider training, education, supply and distribution initiatives, data and health information planning and analysis, health care provider negotiations, rural health policy, labour relations, and service delivery restructuring. Previous Board experience includes Ontario Electricity Financial Corporation (Audit Committee member), Canadian Agency for Drugs and Technology in Health (Chair, Audit and Finance Committee), and the Michener Institute of Canada.

Diane has a Bachelor of Public Relations from Mount Saint Vincent University in Halifax and a Master of Business Administration from the University of Ottawa.

Catherine McCall, ICD.D

Committees: Human Resources and Governance Committee, Chair
Audit and Risk Management Committee, Member

Date of Initial Appointment to OFA Board of Directors: November 2014
End of Current Term: November 2020

Catherine McCall is a lawyer by training and is currently the Director of Policy Development at the Canadian Coalition for Good Governance, an organization comprised of representatives of Canada's leading institutional investors. She has over 20 years of experience advising boards and institutional shareholders on a wide range of corporate governance issues.

Previously, she was a Principal at Hugessen Consulting, a Vice-President and Director of ISS Canada and a Partner with Fairvest Corporation. She began her career practicing law with Davies, Ward & Beck in Toronto.

Catherine has a BA (Honours) in Philosophy from University of Toronto and a JD from Osgoode Hall Law School.

Catherine is past Chair of the Board of ADDUS, a non-profit organization that works with adults with developmental disabilities. She was previously a Director of the Foundation Board of OCAD University and Chair of the Governance Committee. She is a member of the Ontario Securities Commission's Continuous Disclosure Advisory Committee. Catherine received the ICD.D designation in March 2017.

Paul Potvin

Committees: ONFA Investment Committee, Member

Date of initial appointment to OFA Board of Directors: February 2017
End of Current Term: February 2020

Paul Potvin is a former derivatives trader and structurer with 26 years of experience in Canadian and international fixed income, equities and credit. Paul has held senior positions with Canadian and international banks, including National Bank of Canada, CIBC, and ABN AMRO / Royal Bank of Scotland. Paul also served as a consultant to the Caisse de depot et placement du Quebec in an initiative to reduce the credit risk it assumed following the Montreal Accord restructuring of the Canadian asset-backed commercial paper market. Before working in the financial services industry, Paul was an assistant professor of finance at the University of Toronto.

Paul holds a PhD in Business Economics from Harvard University, and an Honours Bachelor of Arts from the University of Toronto.

Vincenza Sera, ICD.D

Committees: Human Resources and Governance Committee, Member

Date of initial appointment to OFA Board of Directors: February 2011
End of Current Term: February 2020

Ms. Vincenza Sera is an experienced corporate director who served on the board of the Ontario Pension Board (OPB) for 12 years, nine as Chair of the Board and Chair of OPB's Investment Committee (2007-2016). She is currently Chair of the Board of Dream Industrial REIT and a member of the boards of Investment Management Corporation of Ontario, Equitable Bank, Dream Unlimited Corp and the Ontario Financing Authority. She is also involved with the Finance Committee of Hot Docs.

A former investment banker with more than 25 years expertise in debt and equity markets, corporate finance, mergers and acquisitions and corporate governance, Ms. Sera's career has included senior positions with National Bank Financial, First Marathon Securities and CIBC. She holds an MBA from the University of Toronto.

Lorraine Bell, CPA, CA

Committees: Audit and Risk Management Committee, Member
Human Resources and Governance Committee Member

Date of initial appointment to OFA Board of Directors: October 2005
Term Expired: December 2017

Total Annual Remuneration paid to the Board of Directors: $83,200.

Risk Management Policies and Procedures

OFA risk management policies and procedures provide for the management of risk exposures created by capital markets activities. Current policies and procedures address market, credit and operational risk exposures as they pertain to the Province's debt and derivatives portfolios and capital markets transactions.

The policies were developed following the guidelines and directives of regulatory bodies, such as the Office of the Superintendent of Financial Institutions of Canada, the Bank for International Settlements and in consultation with Canadian bank representatives on their risk management practices.

The Board approves risk management policies and monitors the performance of capital markets activities.

Market Risk Policy

Market risk is the risk of financial loss attributed to changes in interest rates and foreign exchange rates. This policy provides a framework for borrowing activities and integrates several aspects dealing with the management of market risk. The policy includes several limits:

- Foreign Exchange Limit: unhedged foreign currency exposure is limited to 5 per cent of debt issued for provincial purposes. Unhedged foreign exchange exposures are limited to Group of Seven currencies and the Swiss franc.

- Net Interest Rate Resetting Limit: the interest rate resetting risk exposure is the sum of maturities and floating-rate debt (net of liquid reserves) over the next 12 months, and is limited to a maximum of 35 per cent of debt issued for provincial purposes.

- IOD Loss Limit: the total amount of financial losses resulting from market risk cannot exceed 3 per cent of budgeted IOD for a fiscal year. In addition, the CEO establishes a trigger level to ensure losses from market activities will not reach the debt cost loss limit.

The OFA identifies and quantifies current and potential exposures to market risk and ensures risk exposures and losses remain within approved exposure and loss limits. Exposure to market risk is measured and reported daily.

Credit Risk Policy

Credit risk is the risk of loss in which a counterparty does not meet or defaults on its obligations. Credit risk arises when the Province undertakes financial and derivative transactions. The minimum credit rating of a new swap counterparty is typically "AA–", and "R1-mid" (and "A-1" or "P-1") for money market investments. The resulting exposure is capped at mark-to-market limits depending on the counterparty's credit rating and capital base. Concentration limits are also in place to limit exposure. Credit exposure is measured and reported daily. The Province enters into collateral agreements, including Credit Support Annexes, with certain counterparties to reduce credit exposure.

Policy on the Use of Derivatives and Other Financial Instruments

Use of derivatives and other financial instruments is restricted to those which the OFA can price and whose risk exposures can be measured by the OFA. Derivatives are used to manage exposures arising from existing and planned debt issues in a sound and cost-effective manner. Risks arising from the use of derivatives are monitored and managed prudently.

Risk Management Reporting Policy

At its regular quarterly meetings, the Board is kept informed of the OFA's activities:

- The CEO provides the Board with a progress report on the implementation of the Province's borrowing and debt management programs for the year, staffing and other administrative and operational matters. The CEO also reports on the OFA's compliance with applicable government directives.

- The Chief Financial and Risk Officer reports on program exposures and performance as well as exceptions to policies.

- Management is kept informed of risk exposures and positions related to the Province's borrowing and debt management programs on a daily basis.

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people or systems or external events. Each division manages operational risk through reviews and improvements of work processes, documented policies and procedures, data processing systems, contingency plans and staff training.

The OFA maintains a Business Continuity Plan (which covers OEFC's operations) that is regularly updated to facilitate the continuation of essential operational functions with a minimum of disruption in the event of an emergency.

Appendices

Ontario's Credit Ratings

Additional Sources of Information

Appendices

Ontario's Credit Ratings

A credit rating is a current assessment of the creditworthiness of a borrower with respect to a specified obligation. It indicates the capacity and willingness of a borrower to pay interest and principal in a timely manner.

Long-Term Ratings

Long-term ratings are assigned a letter grade ranging from investment grade, to speculative grade, to highly speculative or default. Ratings within each category may include a "+" or "–" (or a high or low) to indicate the relative strength of rating within that category.

Long-term ratings are also assigned an outlook indicating the likely direction of an issuer's rating over the intermediate term, typically ranging from 6 months to 2 years. The outlook is denoted (P) for Positive Outlook, (N) for Negative Outlook or (D) for Developing Outlook. No identifier is attached to the rating if the outlook is Stable.

As of June 1, 2018, the long-term ratings of the Province are as follows:

- Moody's Investors Service — Aa2 (N)
- Standard & Poor's — A+
- DBRS — AA (low)
- Fitch — AA–

Short-Term Ratings

Short-term ratings are for debt maturities of less than one year. Ratings are graded into several categories, ranging from the highest-quality obligations to default. As of June 1, 2018, the short-term ratings of the Province are as follows:

- Moody's Investors Service — P-1
- Standard & Poor's — A-1
- DBRS — R-1 (mid)
- Fitch — F1+

Date:	Tuesday, August 15, 2017 4:44:17 PM

Hi, just had a discussion with John Kim. He was asking if there is a risk for the intercept mechanism to be included in the agreement. I told him I didn't think so. The bigger issue was that we didn't want to raise red flags to the credit rating agencies by getting a security interest in the regulatory asset and I thought that if we are sure that the intercept mechanism has no effect in the IESO agreement, then put it in and get the agreement done.
He is trying to avoid going to the minister with a new directive- I honestly don't blame him. I wouldn't do it!

Subject: RE: OFA IESO Amending Agreement No 10 COMPARE OFA Draft July 25 - OFA legal.docx

Hi Lisa,

The plan is still to reduce the existing facility to $475 million, but existing facility will be used for draws until such time that the new facility is in place. We informed Anthony that we would look to re-allocate loans from the existing facility to the new credit facility when the new facility is executed. We are confirming with the various OFA areas (Settlements, Risk, Accounting, Cash) regarding the operational requirements, but the idea is that there will be no impact from a cash flow standpoint (i.e. no actual transfer of funds for IESO to repay loans under one facility, and therefore no need for the OFA to transfer funds under the new facility. Ken K. and I have discussed this, but am cc'ing him so he is aware that I have communicated this direction.

We will need to have a call with IESO to identify which loans would be transferred from one facility to another; it would be beneficial for you and Victor to be on this call so the particulars regarding what legal approach may be taken can be considered (i.e. incorporate provisions into the amending agreement, I am thinking).

Thanks,
Sarah

Hi Will,

I believe business decisions regarding next steps are required before we can amend this agreement. I understand that the OFA may not be reducing the existing line by the amount previously contemplated? Alternatively, additional terms re: re-payment may be required. Please provide instructions as to the further amendments that are required, or provide me with a revised draft for review. Happy to discuss further.

Lisa

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending

Agreement 10?

2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,

Will

Hi Garth,

Would you please share a briefing note, draft Minister's directive and any other pertinent materials with us. The date for submitting a package for the April 16 LRC has long passed, but we can work towards getting this item to the DMO. An LRC Note will need to be prepared by CEFD as soon as possible. I've cc'd Anna so that she is aware.

Please send Anna a brief description of the issue so as to inform her discussions with DMO.

Thanks,
Opal

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Sarah,

As Malle says, the best approach and the approach we, including Gadi, are recommending is that the "commitment" (in whatever form) be provided by MOH.

However, it appears as though the loan will be required eventually and will only work under a 35 year amortization (again Gadi has agreed to this amortization in principle), so we will need to amend the OIC. Given that our Plan B, which may be needed, is to provide some joint assurance MOF/MOH to HOOPP by April 30, I would like to work with Capital Markets to try to get the OIC in place so that we can use Plan B if necessary.

If you agree, just let me know what you need from me.

Thanks,
Garth

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Malle,

Thank you very much for your quick response.

Garth – I'm not familiar with the various inputs Malle has mentioned below with the loan, and the timing for getting these. Is it possible to obtain all the required approvals, etc. prior to April 30th? As Malle indicates, a binding commitment doesn't seem possible without these elements. On the other hand, if it is possible, we could try to make the case for including an amending OIC for the April 16th LRC.

Thanks,
Sarah

<Dimitri.Markoulakis@ontario.ca>
Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi,

Dimitri has been working on this as well so copying him here. According to the current OIC's, OFA must repay the funds borrowed from the Province by 2040 (I haven't check them all now but assume that you have) so the OFA couldn't make a longer term loan to a third party such as the hospital without an amending OIC as you describe.

I think that the only thing that could be done is to see whether there is any possibility of walking this OIC in at this point if it is that critical. However, at the same time, I know that there have been numerous elements regarding this potential loan including possibly having MOHLTC provide an indemnity to the OFA regarding the repayment by the hospital. Not sure that we could in anyway provide a binding commitment that the money will be available in 2019 since there would be many other elements such as a Minister's directive, the negotiation of the loan agreement and due diligence that would make it conditional. However, it seems that the amendment to the OIC is a necessary precondition.

Also just thinking general about this project, is it anticipated that any other approvals or signing of agreements, etc. would be proposed during the writ period?

Thanks,

Malle

Cc: Parish, Garth (OFA); Dalgarno, Andrea (OFA); Kandelas, Opal (OFA)
Subject: FW: BN - Lending Directive for Loan to OCRC.docx

Hello Malle,

I am writing to you to inquire about the timing for an approval for an OIC in relation to a loan that the OFA may be making to St. Michael's, as detailed below.

In short, the OFA has the available room under its existing lending OICs (i.e. the OICs where the OFA borrows from Her Majesty, and then in turn makes loans to public bodies), but the expiry dates of the existing OICs are shorter than the proposed maturity. The OICs expire in 2041 and the loan would mature in late 2054. In order for the St. Micheal's loan to occur, there has to be a binding assurance to HOOPP by April 30th that funds will be available to be advance in the summer of 2019. In order for us to provide this, we would need to get approval for an amending OIC to extend the expiry dates of the existing OICs to 2055.

Given that the last LRC scheduled is for April 16th, and the deadlines for providing materials has passed (March 20th), it doesn't seem possible to get approval for an amending OIC prior to April 30th. Do you know of any options that might make this possible?

Thanks,
Sarah

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Andrea,

We are in discussions with St. Michael's Hospital to provide them with a $100M loan that would be amortized over 35 years. This is with regard to pension assets that they are transferring to HOOPP that need to be topped up by $100M.

A wrinkle is that they need to provide a binding assurance to HOOPP by April 30 that they have the funds although the effective date of the loan and the transfer of funds won't take place until July/August of 2019. This means that the loan wouldn't be paid off until late 2054.

We understand that the latest dated OIC is 844/2008 which ends June 1, 2041, so in order to make this loan we would need an OIC out to say, 2055 – although we may wish to make it later. A smaller request from Grand River hospital would be similar. Both loans would fit within the existing authorized amounts but not the repayment date.

Please advise the best way to proceed towards the required OIC amendment re timing.

Thanks. I will call to follow up.

Thanks,
Garth

Subject: RE: BN - Lending Directive for Loan to OCRC.docx

Hi Garth,
I have been asked to respond to your query. Attached is the most current listing we have available of the OFA loans under the two OIC's. This listing was finalized in conjunction with

Daki in Corporate Finance.
Based on this July 11, 2017 listing, the remaining authority under the two OIC's are as follows:

1) OIC 675/97 (the currently active one) has remaining authority of $721,594,955.57 as of July 11, 2017

2) OIC 767/99 has authority in the amount of $656,000,000.00 as of July 11, 2017

So it seems, we should be able to draw on OIC 675/97 for the additional loans you reference given it was noted in the BN you attached that the 2017-2018 OFA Borrowing and On-lending Plan was set at $486 million and apparently $250 million of that was postponed to 2018-2019.

Let me know should you have any further question or concerns.

Regards,

Andrea

Hi Jean-Francois,

You will see in the highlighted section below that Lisa is asking that we confirm that 2 OFA loans we are working on:

- $150 million to the Ontario Cannabis Retail Corporation
- $100 million to St Michael's hospital

are covered by the "existing on-lending OIC's".

I don't know who would keep a registry of the OICs and what loans they cover. Would your group have this registry?

Thanks,
Garth

Mr. Charles Sousa
Minister of Finance
7 Queen's Park Crescent
7th Floor
Toronto, Ontario M7A 1Y7

Dear Mr. Charles Sousa:

Re: Loan Request for St. Michael's Hospital Pension Plan

In several budgets since 2012, the Ontario government has committed to facilitate the conversion or merger of single employer pension plans (SEPPs) into jointly sponsored pension plans (JSPPs). To this end, I am writing to you today to request that the Province provide a loan to St. Michael's Hospital (SMH) so that it can merge its entire pension plan into HOOPP.

This request would benefit SMH since large JSPPs, like HOOPP, have many advantages including enhanced sustainability and increased benefit security for plan beneficiaries. In addition, members of HOOPP, who work in over 500 organizations, are able to take their pension plans with them when they change employers, which is extremely advantageous when considering the labour mobility found in the hospital sector. Merging into HOOPP is also particularly beneficial for hospitals, such as SMH, that have large solvency payments as they would no longer be required to make these payments if they are a member of HOOPP.

Significant progress has been made to facilitate a merger of hospital plans into HOOPP including an amendment in *Bill 127, Stronger, Healthier Ontario Act (Budget Measures)*, *2017* and developing regulatory changes in July 2017 to further facilitate similar mergers.

While SMH is currently negotiating with HOOPP regarding the merger of its entire pension plan into HOOPP, it does not have sufficient assets in its pension plan to buy equivalent HOOPP service for its members and retirees. It must top up its pension plan in order to merge. Given the funding shortfall, the Ministry of Health and Long-Term Care (the "ministry") is requesting a loan from the Province to the SMH so that the merger can proceed. Currently, SMH is working on a business case that demonstrates its ability to repay the loan. It is critical that the merger transaction is completed on a timely basis as a delay could result in significant costs for SMH if it must make special payments to its pension plan. As such, your consideration and support in obtaining a loan from the Province would be greatly appreciated.

Sincerely,

Dr. Eric Hoskins
Minister of Health and Long-Term Care

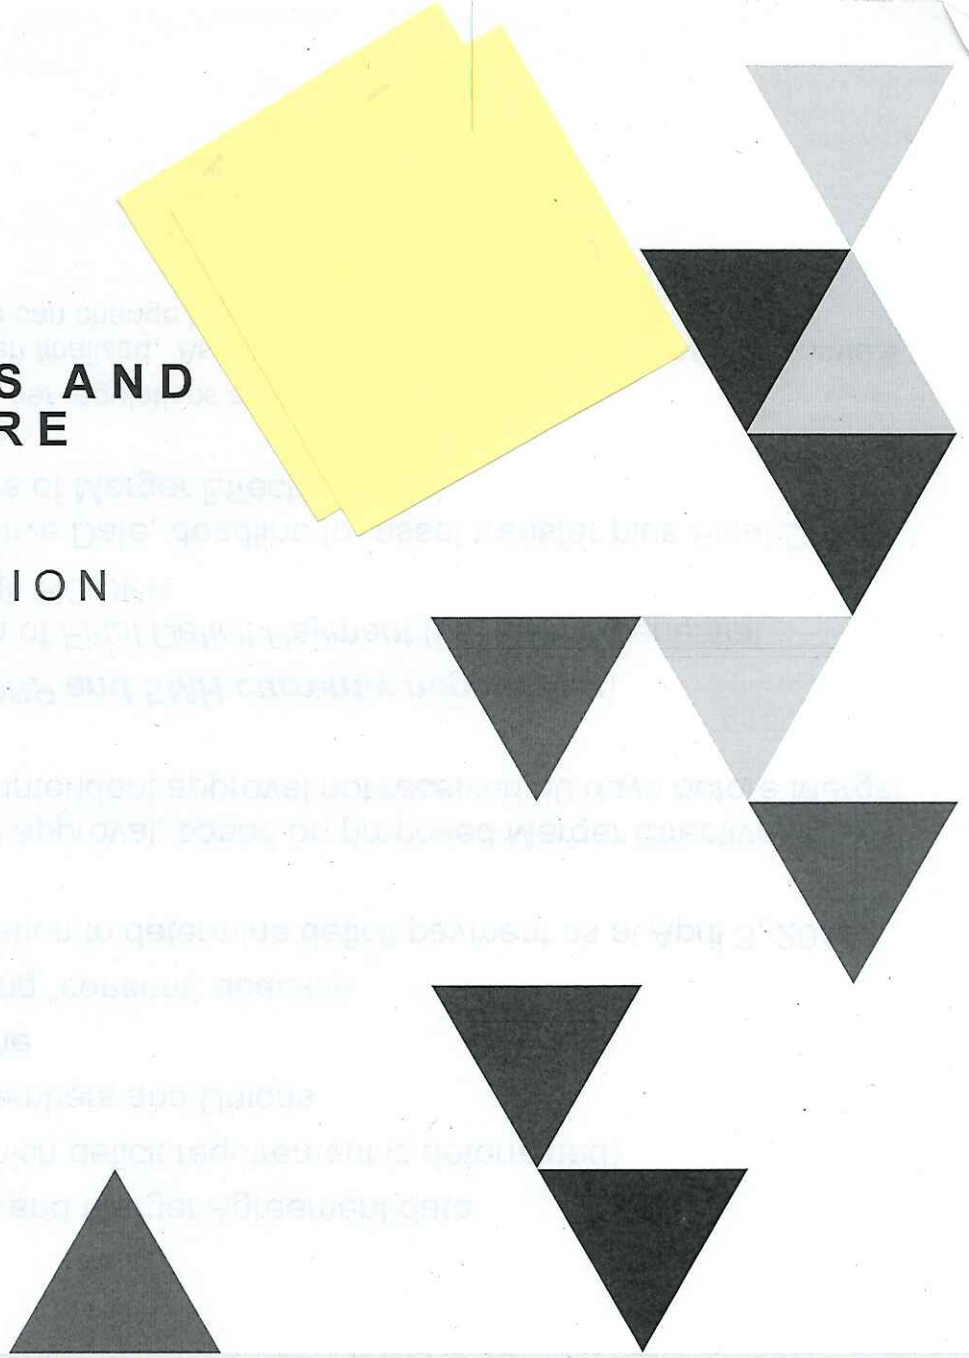
PROVIDENCE ST. JOSEPH'S AND ST. MICHAEL'S HEALTHCARE ("NETWORK")

ST. MICHAEL'S HOSPITAL PENSION PLAN MERGER WITH HOOPP

FEBRUARY 22, 2018



SMHPP / HOOPP MERGER TIMELINE

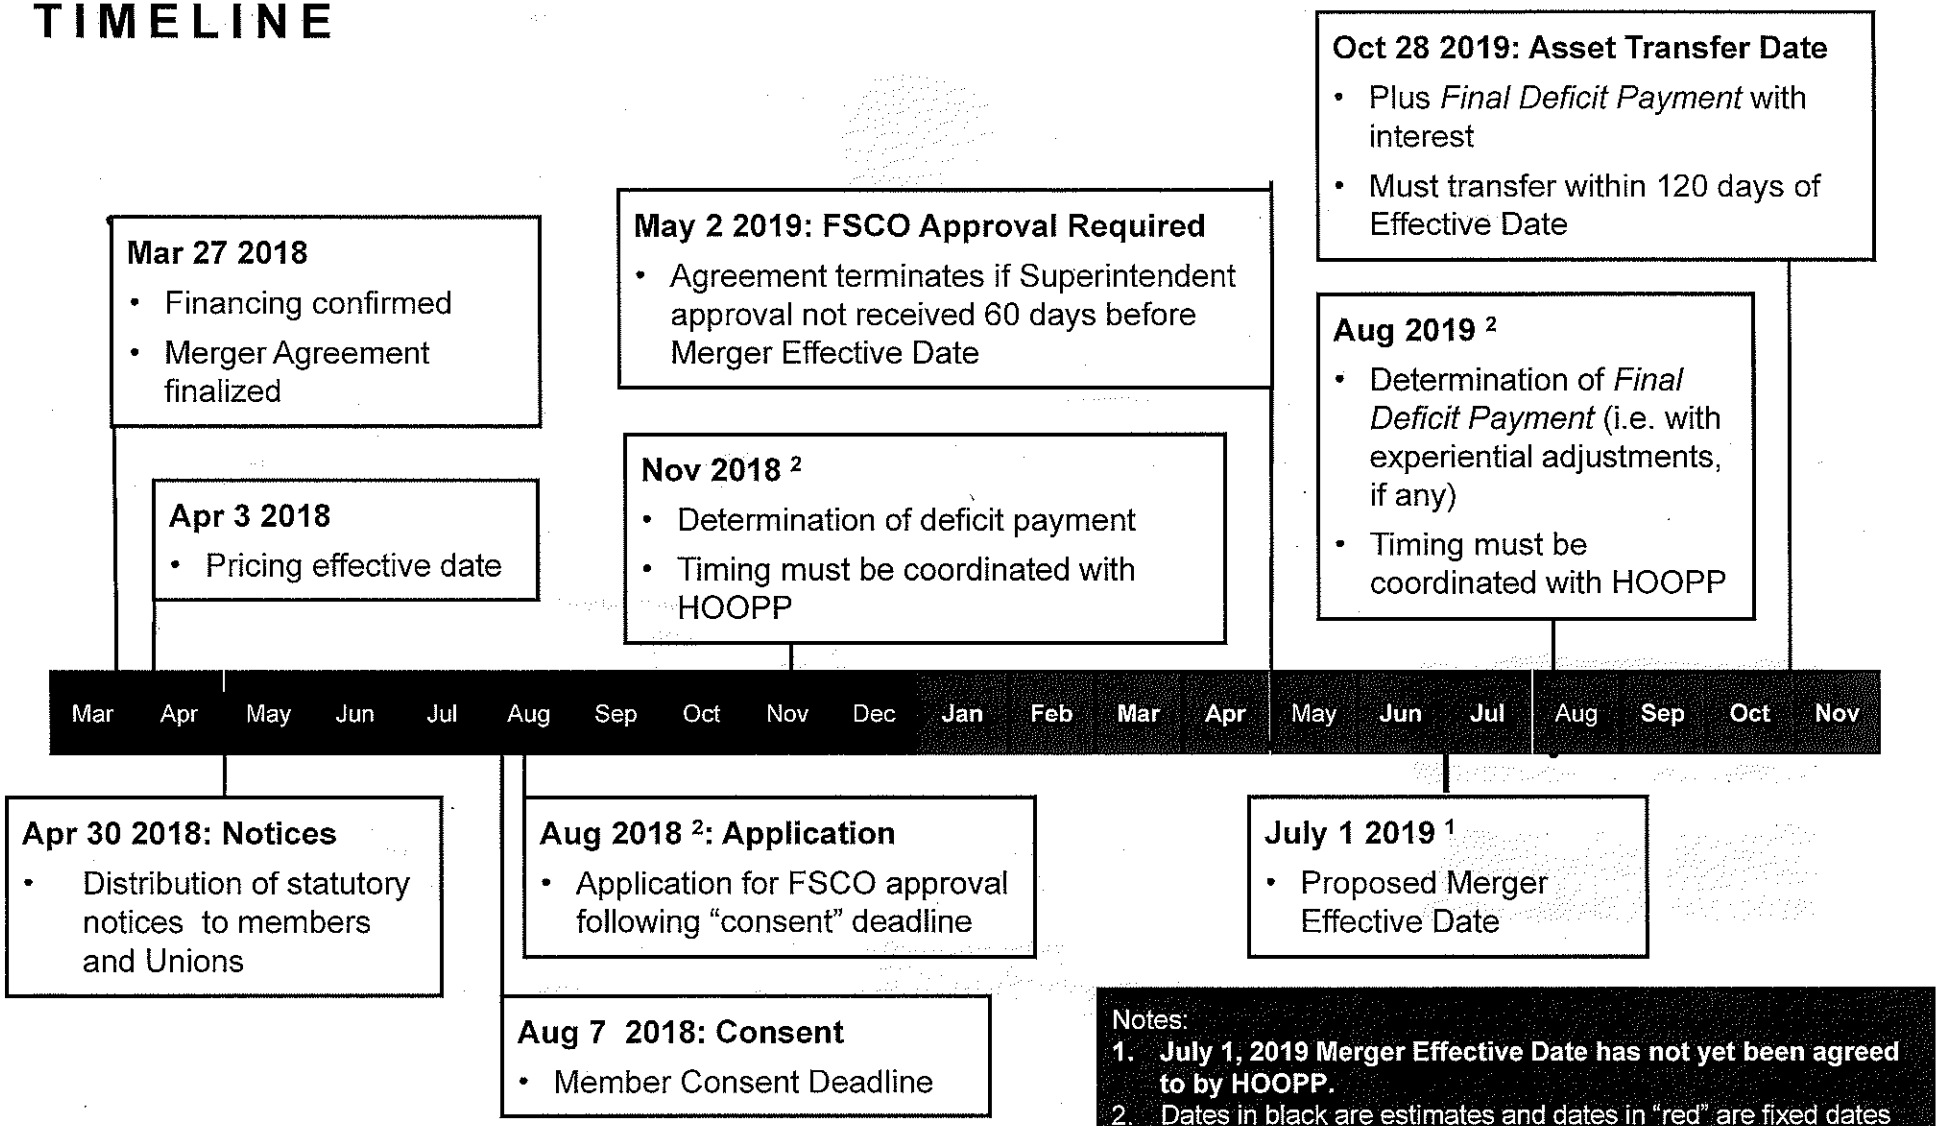
- **March 27, 2018**: Deadline for financing confirmation and Merger Agreement date
- **April 3, 2018**: Pricing effective date (i.e., date on which deficit requirement is determined)
- **April 30, 2018**: Distribution of statutory notices to members and Unions
- **August 7, 2018**: Member and Union consent deadline
- **August 2018**: Application for FSCO approval following "consent" deadline
- **November 2018**: Estimated timing to complete valuation to determine deficit payment as at April 3, 2018. (Timing must be coordinated with HOOPP)
- **May 2, 2019**: Merger Agreement deadline for FSCO approval, based on proposed Merger Effective Date of July 1, 2019. (Merger Agreement terminates if Superintendent approval not received 60 days before Merger Effective Date)
- **July 1, 2019**: Proposed Merger Effective Date (***HOOPP and SMH currently negotiating***)
- **August 2019**: Estimated timing for the determination of *Final Deficit Payment* (i.e. with experiential adjustments, if any). Timing must be coordinated with HOOPP.
- **October 28, 2019**: Based on proposed Merger Effective Date, deadline for asset transfer plus *Final Deficit Payment* with interest. (Must transfer within 120 days of Merger Effective Date)

Note:

Dates in black are estimates and dates in "red" are fixed dates as per regulations and/or Merger Agreement

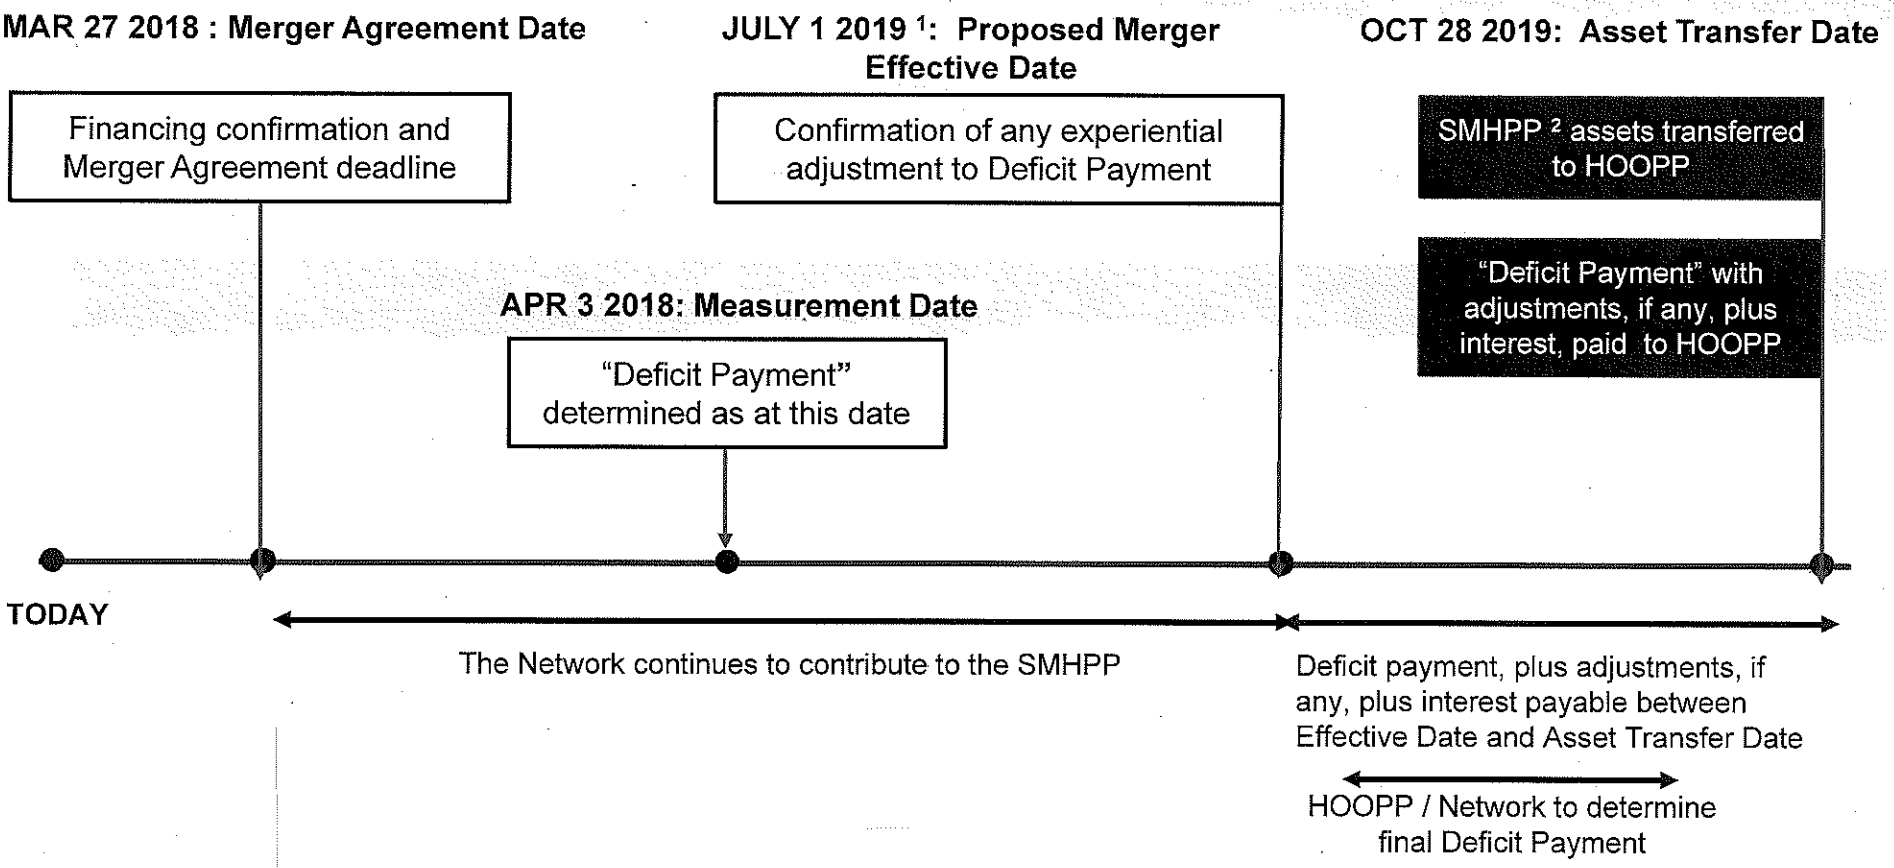
The date of July 1, 2019 was raised by HOOPP. This has not been finalized. As such, current cashflow projections incorporate a Jan 1, 2019 date and loan requirement of April 1, 2019. This date can change based on final agreement.

SMHPP / HOOPP MERGER TIMELINE



Notes:
1. **July 1, 2019 Merger Effective Date has not yet been agreed to by HOOPP.**
2. Dates in black are estimates and dates in "red" are fixed dates as per regulations and/or Merger Agreement.

MERGER AGREEMENT KEY DATES



Notes:

1. **July 1, 2019 Merger Effective Date has not yet been agreed to by HOOPP.**
2. "SMHPP" means St. Michael's Hospital Pension Plan

Subject: OFA-IESO Credit Facilities

Hello,

We are currently in the process of working on a new $2B OFA-IESO Credit Facility to provide funding in respect of the Ontario Fair Hydro Plan. Under this framework, the existing $975 million OFA-IESO Credit Facility is to be reduced to $475 million. Due to a required Ministerial approval, the new $2B facility will not be executed until mid-September (estimate).

Once the new $2B facility is in place, the OFA would be looking to re-allocate certain loans (TBD) from the existing $975M credit facility to the new $2B facility, in order to bring the existing facility under the new intended $475 million limit. Effectively, under the legal agreements, it would be transferring certain loans from the existing facility to the new facility. The intention is that there will be no movement of funds and therefore no cash impact (that is, IESO does not repay the existing loans, and the OFA does not fund the new loans).

Would you please confirm if there are any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to

the new FHP credit facility?

Thanks,

Sarah

Sarah,

Similarly, accounting does not see any insurmountable obstacles. Accounting would just need to create a new TAS account for the new credit facility.

Thanks.

John

Hi Sarah,

From a Settlements perspective there is no issue, however since Capital Markets inputs these loans they will have to investigate if this is doable with Vivek, therefore I am copying Carlos, Selena, Jim and Craig.

Thanks,

Subject: OFA-IESO Credit facility Agreement

Hello,

As you know, the OFA-IESO credit facilities contains permitted lien language, which has the effect of giving OPG Trust security interest in all IESO's assets. IESO has requested that this language also be included in its agreements with OEFC and in its line of credit agreement with TD. A policy rationale briefing note has been prepared recommending that the OEFC agreements be amended to include the requested language. IESO has told that TD has agreed to include this language in their agreement with IESO, but would like to see a copy of the OFA-IESO agreement to gain comfort (themselves) that the credit facility is going to support the IESO's fair hydro transactions during the next 4 years" security interest has been granted to OPG Trust. IESO, though not legally bound to seek permission has asked for OFA's permission to share the agreement with TD.
Though this is not a legal issue, I'm touching base with you to help determine whether or not to give permission to IESO to share the OFA-IESO $2B credit facility with TD.

TD wants to gain comfort (themselves) that the credit facility is going to support the IESO's fair hydro transactions during the next 4 years.

I have verbally assured them of the above, but they wish to review themselves.

I went through this quickly and I don't have any comments; I believe that the actual transfer of funds to OPG for the equity injection will be governed by a SLA between OFA and the Ministry of Energy and we of course need to review that carefully. However, I would like you take a quick look and let me know if you have any comments.

Thanks

Thanks Ken – Are you aware how the potential timing issue with appropriations is handled on the credit side? OPG seemed to think that the OFA had some process in place so that even though only 1 year of appropriations is approved at a time there is always coverage post March 31, 2017 in the event the budget is delayed but OPG needs to borrow. I was just hoping to incorporate something similar on the ENE side so that we don't run into any issues.

OPG provided a draft Master Subscription Agreement based on the term sheet. I will run this by legal as well but please feel free to provide comments/edits.

Hi Kaitlin

My apologies for the delay in responding, just going through my emails from last week, I am ok with the term sheet, you had however, raised a comment re the appropriations. Note that since the OFA will simply be a service provided in this arrangement, i.e.,
We will not be able to provide cash management services including the transfer of the funds from the Province to OPG for the equity injection until the appropriations are approved.

Thanks

Ken k

Subject: RE: OFHP - Business Issue next steps

Hi all – just following up on the equity injection term sheet. I'm going to send this to ENE legal now so that they can start to digest given that the next step will be preparation of the Master Subscription Agreement. I'm assuming there aren't any major concerns but if there are items you'd like to modify if you could pass those along this week I'd appreciate it. Please note that there is a question embedded in the document regarding appropriations that I'm hoping one of you will have insight on.

At the meeting with OPG a few weeks back you had mentioned that there would likely need to be

some sort of Service Level Agreement between OFA and ENE – is there a similar agreement you already have in place that we could work from?

Thanks,
Kaitlin

Subject: OFHP - Business Issue next steps

Hi everyone,

As a follow up to today's meeting there are a couple items I think can move forward at this point.

1. Equity Injection Mechanics (draft term sheet attached)
    a. If comfortable, OPG would draft Master Subscription agreement, OFA/ENE would develop service level agreement for cash management services and ENE legal would move forward with amendment to OPG articles to facilitate new class of shares
2. Performance Fee Recommendation (OPG recommended approach attached)
    a. If comfortable, OPG would assist ENE in developing regulation language

My proposed next steps, subject to your agreement, would be to share these documents with ENE legal today and then table them at a Thursday morning meeting with ENE DMO/MO (along with an updated "business issues" note, which I'll send around for everyone's input in the next day or so). After that meeting I would send the same materials /update to MOF DMO along with any new updates received at that meeting.

Could you please confirm you have no further comments and that you agree with this approach and also that there's no other materials/terms that you think need to move up through approvals at this point in time?

Thanks in advance,
Kaitlin

Hi all,

ENE MO asked for a quick note on 4 of the outstanding business issues that are being worked through and are hoping to see something tomorrow morning.

I've pulled together a high level explanation of each of the items and next steps/timing (to the extent I know).

Would greatly appreciate if you guys could take a look and provide any edits/comments today/early tomorrow if possible. I'm also not too involved in a few of these discussions so if there's others within OFA you think should review feel free to pass along.

Thanks in advance,
Kaitlin

Outstanding Business Issues – Ontario Fair Hydro Plan
Briefing Note

PURPOSE
Provide an overview of a few of the key remaining outstanding business issues that OPG and the Province are working through

BUSINESS ISSUES

1. **Provincial Support Agreement Term Sheet (~~Service and~~ Performance and Payment Guarantees)**
   - As part of the OFHP, the IESO will create and sell a regulatory asset to the OPG financing entity
   - In order to provide assurances to those with claims against the Financing Entity (eg. Holders of debt), and support credit ratings, the Province is providing both a Service Guarantee and a Performance Guarantee to ensure that the obligations of the IESO are carried out including obligations related to collecting and remitting clean energy adjustments.
   - **Next Steps:**
     - OPG and OFA and working towards the development of a term sheet
     - Timing: Guarantees are required to support rating agency review which is expected by the end of July

2. **Payments in Lieu of Taxes (PILs) Exemption**
   - The Province would like to minimize to the extent possible , the PILs payable by the OPG financing vehicle, as those costs will be recovered from ratepayers
   - The Province is considering regulation changes to exempt the income arising as a consequence of the Fair Hydro Plan from PILs
   - As part of the OFHP, the financing entity will raise debt and acquire "investment assets" from the IESO. Given the unique nature of the investment assets, there are no specific rules which govern the manner which investment assets should be treated for tax purposes, and further analysis is required to ensure the cost of the investment assets are appropriately recognized as a deduction or offset in computing the income of the financing entity
   - **Next Steps:**
     - The Ministries of Finance, OFA and OPG are working together to determine required regulation changes
     - Timing: [Next steps for a decision / when is a decision required / when would these regulation changes occur]

3. **Fair Hydro Plan - Master Subscription Agreement Term Sheet (Equity Injection Process)**

- OPG will require equity injections on a monthly basis in order to maintain its capital structure, and will require flexibility in order to issue shares as needed by the Province
- The Ministry of Energy received appropriation for $1.1B through PRRT to support equity injections for the 2017-18 period, and will continue to provide multi-year forecasts each year through PRRT
- **Next Steps:**
    - The Ministry of Energy, OFA and OPG are working through the short term mechanics of this process which will ultimately feed into a Master Subscription Agreement. A draft term sheet is underway.
    - Timing: OPG will require the ability to issue equity in July, so mechanics and agreements should be finalized in June

4. **Management Fees**
    - OPG will be providing all required services to the Trust as part of the OFHP, including planning, strategy, financing, deal execution etc.
    - The legislation allows OPG to establish and charge a management fee for those services in accordance with the regulations which are currently in development
    - OPG and OEB are currently working together on a management fee structure that balances the interests of minimizing costs and satisfying accounting consolidation requirements
    - **Next Steps:**
        - OPG and OEB will bring forward a recommended framework for developing management fees
        - Timing: For incorporation into regulations being brought forward in June

5. **IESO – Increased Credit Facilities**
    - The OPG financing entity has the right to purchase the regulatory asset from IESO but does not have to purchase it.
    - IESO is working with the OFA to increase the credit facilities in the event that the OPG financing entity does not purchase the regulatory asset
    - **Next Steps:**
        - OFA is drafting a new agreement for a $2 billion credit facility for the OFA to lend funds to IESO for FHP purposes. Concurrently, the OFA is seeking LRC approval for a new $2 billion OIC, as well as a Directive from the Minister of Finance, which are both necessary for the OFA to lend funds to IESO under the new Credit Facility. .....
        - Timing: The OIC is scheduled as item for the June 27, 2017 LRC meeting. The Directive and Credit Facility Agreement are currently being drafted, to be in place by July 1st, 2017.....

Hi Patrick,

As the OIC package was going through our OFA approvals, we have now been directed that the OIC amount should be $2.0 billion, with an expiry date of June 30, 2047, to line up with the IESO request and the term of the FHP.

I'll recirculate the updated LRC package once I get a finalized version in place. Could we update the OIC to reflect this as I know it may take some time.

Let us know.

Thank you,
Salman

Thanks Patrick. I've updated the package.

FYI. Cole Le, our co-op, is coming by with the package. I can have it picked up later in the afternoon once its signed.

Sarah: Please let me know if anything comes back from Linda – I don't think there will be an issue but hoping if there is any, its flagged.

Thank you,
Salman

Thanks Sarah.

C(ii) would apply to this situation and the rate is determined by the Minister of Finance – hopefully its not an issue.

Attached is the latest package. I'm told I have to get it over to MOF legal for sign off before Ron/Gadi sign off today.

Patrick – I can have a co-op student drop it off in the next hour if you're around (or leave it at reception) (as soon as we hear back from Sarah re: below) – would you be able to get sign off by early afternoon?

Thanks,
Salman

Subject: RE: OIC s22 CIPA - OFA-IESO

Salman and Patrick,

I just realized, as a matter of prudence, the rates in sections (c)(i) and (c)(ii) of the OIC should be checked with the trading floor (Linda or Mike). I know they are essentially the same as the existing 1997 and 1999 OFA OICs. I don't expect any difference, but in particular, I just want to ensure the 90 day t-bill rate under (c)(i) is still the appropriate. Frankly, I'm not familiar with a practical circumstance (c)(i) would apply to. I know time is tight, so I've already e-mailed Linda and will let you know.

Hi Patrick/Sarah,

Thanks for all your comments. I've incorporated all the changes. I do want to note that the Act is called Ontario Fair Hydro Plan Act, 2017, so I've made those updates to the note.

We have not received Energy's Cabinet note but will continue to see if they can provide. Our understanding is that it is the regulations that are tracking but will double check again.

I will aim to get the package to MOF legal later today, if not, by first thing tomorrow morning.

See attached latest version.

Hi Opal,

The directive is for $2B initially for the credit facility. The $1.5 B is provided as a contingency post implementation if the OPG SPV opts not to purchase any portion of the regulatory asset (sine there is not legislation requiring them to do so).

Sarah

Subject: RE: OIC s22 CIPA - OFA-IESO

Hi Sarah,

No I did not. From the materials you attached, it seems that we (OFA) don't even know the exact situations that will give rise to the loans from the credit facility. Won't be the first time we have excess borrowing authority sitting around. The Minister will be providing a directive for $3.5B when the IESO requested a credit facility for only $2B.

Has it happened before where the directive is for an amount greater than the credit facility? Or is the plan for IESO to get a $3.5B credit facility?

Subject: OPG blurb

OPG-OEFC Credit Facility
Purpose: General Corporate Purposes and Darlington requirements
Current Limit: CAD 700M to December 31, 2017
Amendment:
- Increase to CAD 2.35B to December 31, 2018
- Amend definition of Base Rate to more closely relate to hedging that is done for the borrowing.
- Additional proposed amendment by OPG (being considered internally in OFA) to amend definition of *Subsidiary* to exclude "any Person that is a "financing entity" as defined in the *Ontario Fair Hydro Plan Act, 2017* (Ontario). The entity needs to be legally separated from OPG and be a single purpose entity for the FHP to work (see the information that Ryan and Kelly put together earlier).

Attachments: 1 - Distribution Agreement.pdf

Hi Malle,

In the USMTN Update we deleted the requirement for the Province to provide a certificate under 6(b)(i) and the requirement for Shearman to provide a 10b-5 and opinion each time the Province files an 18-K (see attached).

6(b)(i) used to require the Province to provide a certificate each time the Province files:

(A) Exhibit (d) to the Province's Annual Report on Form 18-K, Description of the Province of Ontario; (B) an amendment on Form 18-K/A to the Province's Annual Report on Form 18-K relating to the Province's Annual Budget; and (C) an amendment on Form 18-K/A to the Province's Annual Report on Form 18-K relating to the Public Accounts of Ontario;

6(c) required an opinion in the same circumstances.

Under the 2016 Update, 6(b) and 6(c) of the Distribution Agreement only require a certificate or opinion where the "Province sells Notes to an Agent pursuant to a Terms Agreement and agrees to deliver such certificate [or opinion] pursuant to the terms of such Terms Agreement."

I'll call J-F to discuss as well.

Patrick

> Expert Panel to Review Accounting Standards Ontario's Annual Report
> and Consolidated Financial Statements for 2015-16 show Ontario's deficit is $3.5 billion lower than the $8.5 billion projected in the 2015 Budget, with the province's deficit for 2015-16 at $5 billion. This is $0.7 billion lower than the $5.7 billion in the 2016 Budget interim projection.
>
> The government has received the Auditor General's opinion on the 2015-16 Public Accounts of Ontario, enabling it to release them. The results reported in the Public Accounts are identical to the unaudited financial statements released earlier this week. They confirm Ontario has beaten its annual deficit target for the seventh year in a row.
>
> The Auditor General has provided her opinion, which says that the 2015-16 results are fairly stated but qualifies her opinion for lack of restatement of the 2014-15 results.
>
> In preparing the Public Accounts, the province's professional accounting staff and the Auditor General's Office engaged in discussions about the appropriate application of the Public Sector Accounting Board's (PSAB) standards, specifically in relation to pension accounting for the province's jointly sponsored pension plans.
>
> A regulation was made to allow the public service to sign-off on the impact of the Auditor General's view on accounting for pension assets in Ontario's 2015-16 financial statements. The Province filed a time-limited regulation, which legislates the accounting for pension assets of two jointly-sponsored pension plans for 2015-16 in a manner that is consistent with the fiscal outcome proposed by the Auditor General. The impact of the change resulted in an additional $10.7 billion being added to the net debt and accumulated deficit and an increase in the annual deficit of $1.5 billion.
>
> The Auditor General's qualified opinion is based on the government's decision to report the accounting change in 2015-16 without restating the prior year's results. Restating the previous year's results would have had no impact on the financial results for 2015-16, including the annual deficit and net debt.
>
> The Auditor General's qualification relates only to the presentation of the 2014-15 comparative financial information. There is no impact on the 2015-16 annual deficit, accumulated deficit or net debt as illustrated in the table below.

New York, New York
U.S.A. 10281-8098

Dear Ladies and Gentlemen:

The Province of Ontario (the "**Province**") confirms its agreement with you, as agents (and, together with any other agents appointed by the Province pursuant to supplemental agreements hereto, each an "**Agent**" and collectively, the "**Agents**") with respect to the issue and sale by the Province of its Medium-Term Notes described herein (the "**Notes**") under its United States Dollar Medium-Term Notes Program (the "**Program**"). The Notes are to be issued pursuant to a fiscal agency agreement (the "**Fiscal Agency Agreement**") dated April 12, 2016 between the Province and The Bank of New York Mellon, as fiscal agent (the "**Fiscal Agent**"). The Notes shall have the terms described in the Prospectus (as defined below) as it may be amended or supplemented from time to time, including any supplement to the Prospectus that sets forth only the terms of a particular issue of the Notes (a "**Pricing Supplement**"), substantially in the form as set forth in Annex III and Annex IV, as applicable. Notes will be issued, and the terms thereof established, from time to time by the Province in accordance with the Fiscal Agency Agreement and the Procedures (as defined below). As of the date hereof, the Province has allocated an amount of CAD$1,250,650,000.00 aggregate principal amount (or its equivalent in U.S. dollars, as determined in accordance with section 26 of the *Financial Administration Act* (Ontario)) (the "**Authorized Amount**") under Order in Council 1549/2010 made on November 17, 2010 and Order in Council 1334/2012 made on August 29, 2012 made pursuant to the *Financial Administration Act* (Ontario), the *Ontario Loan Act, 2010* and the

Ontario Loan Act, 2012, for the purpose of the issue and sale of Notes under the Program. Notes, up to the Authorized Amount, may be sold through or to one or more of the Agents pursuant to the terms of this Agreement. It is understood, however, that the Province may from time to time increase the Authorized Amount by allocating additional amounts to the Program from borrowing authority that is available under an Order or Orders of the Lieutenant Governor in Council made pursuant to the *Financial Administration Act* (Ontario), as amended and/or any other applicable statute or statutes of Ontario referred to in such Order or Orders. The Province may also from time to time decrease the Authorized Amount of the Program. The Province will deliver written notice to the Agents informing them of any increase or decrease in the Authorized Amount of the Program. Any Notes issued after an increase or a decrease in the Authorized Amount may be sold through or to one or more of the Agents pursuant to the terms of this Agreement, all as though the issuance of such Notes to the Program were authorized as of the date hereof.

Subject to the terms and conditions stated herein, and subject to the reservation by the Province of the right to sell Notes directly on its own behalf, the Province hereby appoints the Agents to act as its agents for the purpose of soliciting purchases of the Notes from the Province by others and agrees that, except as otherwise contemplated herein, whenever the Province determines to sell Notes directly to one or more of the Agents as principal for resale to others, it will enter into a Terms Agreement (as defined below) relating to such sale in accordance with the provisions of Section 2(b) hereof. The Agents agree that, during the period the Agents are acting as the Province's agents hereunder, the Province shall have the right to appoint from time to time additional persons to act as its agents either generally with respect to the issue and sale of Notes or with respect to the issue and sale of particular Notes by execution of supplemental agreements substantially in the form attached hereto as Annex I or by separate agreements, in each case having terms substantially similar to the terms and conditions of this Agreement. So long as this Agreement shall remain in effect with respect to any Agents, nothing contained herein shall be construed to prevent the Province from selling Notes at any time (i) in a firm commitment underwriting pursuant to an underwriting agreement which does not provide for a continuous offering of such Notes or (ii) directly to investors other than to an Agent as principal, and no commission shall be payable to the Agents with respect to any such sales. The Province also reserves the right to sell Notes through agents other than as provided above where offers to purchase are received through such agents on an unsolicited basis. Settlement of such sales will be on substantially the same terms and conditions as are contained herein.

As used herein, the term "**Time of Sale Information**" means, collectively, as of the applicable Time of Sale (as defined below), the applicable Preliminary Prospectus (as defined below), or, if no Preliminary Prospectus exists, the Prospectus (as defined below), together with the applicable Term Sheet (as defined below), if any, and any other Issuer Free Writing Prospectus (as defined below) identified on a schedule to the applicable Terms Agreement or, if no Terms Agreement exists, any other Issuer Free Writing Prospectus that has been prepared by or on behalf of the Province relating to a particular issue of the Notes, each as amended or supplemented prior to the applicable Time of Sale. As used herein, "**Issuer Free Writing Prospectus**" shall have the meaning assigned to the term "issuer free writing prospectus" in Section 433 under the Securities Act of 1933, as amended (the "**U.S. Securities Act**"). As used herein, the term "**Time of Sale**" in respect of a particular issue of the Notes means the time specified in the applicable Terms Agreement or, if no Terms Agreement exists for a particular

issue of the Notes, the time immediately prior to the time of the first sale by an Agent of any Notes with regard to such particular issue of the Notes. As used herein, the term "**Term Sheet**" means an Issuer Free Writing Prospectus that is a term sheet containing the final terms of a particular issue of the Notes. Any reference to any amendment or supplement to the Registration Statement, Basic Prospectus, any Preliminary Prospectus or the Prospectus shall be deemed to refer to and include any post-effective amendment to the Registration Statement and any documents filed under the U.S. Securities Exchange Act of 1934, as amended (the "**U.S. Exchange Act**"), and incorporated therein, in each case after the date of the Registration Statement, Basic Prospectus, such Preliminary Prospectus, or the Prospectus, as the case may be.

1. Representations and Warranties. The Province represents and warrants to, and agrees with, each Agent as of the date hereof, as of the date of each acceptance by the Province of an offer for the purchase of Notes (whether through an Agent as agent or to an Agent as principal), as of the date of each delivery of Notes (whether through an Agent as agent or to an Agent as principal) (the date of each such delivery to an Agent as principal being hereinafter referred to as a "**Settlement Date**"), and as of any time that the Registration Statement or the Prospectus shall be amended or supplemented (other than by an amendment or supplement providing solely for a change in the interest rates of Notes, a change in the aggregate initial offering price of Notes remaining to be sold or similar changes) or there is filed with the SEC any document incorporated by reference into the Prospectus (other than any amendment on Form 18-K/A to the Province's Annual Report on Form 18-K relating exclusively to the issuance of debt securities under the Registration Statement) (each of the times referenced above being referred to herein as a "**Representation Date**") as follows:

(i) The Province has filed with the Securities and Exchange Commission (the "**SEC**") a registration statement (file no. 333-209852) under Schedule B of the U.S. Securities Act, for the registration of debt securities with an aggregate initial offering price not to exceed US$20,000,000,000, including the Notes. Such registration statement has been declared effective by the SEC. Such registration statement filed with respect to the Notes and any registration statement containing a prospectus used to offer the Notes, in each case as amended and including the exhibits thereto, including the documents incorporated by reference therein, are herein called the "**Registration Statement**"; the prospectus filed as part of the Registration Statement, in the form in which it has most recently been filed with the SEC on or prior to the date of this Agreement is herein called the "**Basic Prospectus**"; the prospectus, in the form in which it has heretofore been filed with the SEC pursuant to Rule 424 under the U.S. Securities Act (including the Basic Prospectus as supplemented by the prospectus supplement relating to the Notes), as supplemented, by the applicable Pricing Supplement relating to a particular issue of the Notes, including the documents incorporated by reference therein, is herein called the "**Prospectus**"; and any preliminary form of the Prospectus which is filed with the SEC pursuant to Rule 424 under the U.S. Securities Act (including the Basic Prospectus as so supplemented), including the documents incorporated by reference therein, is herein called the "**Preliminary Prospectus**".

(ii) (a) The Registration Statement and the Prospectus, as amended or supplemented as of the applicable Representation Date will comply in all material respects with the applicable requirements of the U.S. Securities Act and the rules and regulations thereunder and (b) the Registration Statement, at the time the Registration Statement became effective, did not and, as

amended or supplemented as of the applicable Representation Date, will not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements therein not misleading, and the Prospectus does not and, as amended or supplemented as of the applicable Representation Date, will not contain any untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; *provided, however*, that the Province makes no representations or warranties as to the information contained in or omitted from the Registration Statement or the Prospectus or any amendment thereof or supplement thereto in reliance upon and in conformity with information furnished in writing to the Province by or on behalf of any Agent specifically for use in connection with the preparation thereof.

(iii) With respect to each issue of the Notes, the Time of Sale Information, at the Time of Sale and at the Settlement Date with respect to such issue of the Notes, will not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; *provided* that the Province makes no representation or warranty with respect to any statements or omissions made in reliance upon and in conformity with information furnished to the Province in writing by any Agent expressly for use in such Time of Sale Information. With respect to each issue of the Notes, each Issuer Free Writing Prospectus in the form of Schedule I to the applicable Terms Agreement, if any, will comply in all material respects with the U.S. Securities Act.

(iv) The documents filed by the Province with the SEC pursuant to the U.S. Exchange Act that are incorporated by reference in the Prospectus, at the time they were or hereafter are filed with the SEC, complied or when so filed will comply, as the case may be, in all material respects with the requirements of the U.S. Exchange Act and the rules and regulations thereunder.

2. Solicitations as Agent; Purchases as Principal.

(a) Solicitations as Agent. On the basis of the representations and warranties herein contained, but subject to the terms and conditions herein set forth, each Agent hereby severally but not jointly agrees, as an agent of the Province, to use its reasonable efforts to solicit offers to purchase the Notes upon the terms and conditions set forth herein and in the Prospectus, it being understood that the Province shall not approve the solicitation of purchases of Notes in excess of the Authorized Amount or in excess of the principal amount of Notes registered pursuant to the Registration Statement.

Each Agent will communicate to the Province, orally or in writing, each offer to purchase Notes, other than those offers rejected by the Agents. Under no circumstances shall an Agent accept an offer without the consent of the Province. Each Agent shall have the right, in its discretion reasonably exercised, to reject any proposed purchase of Notes, as a whole or in part, and any such rejection shall not be deemed a breach of such Agent's agreement contained herein. The Province may accept or reject any proposed purchase of the Notes, in whole or in part.

The Province reserves the right, in its sole discretion, to suspend solicitation of purchases of the Notes through the Agents, as agents, commencing at any time for any period of time or permanently. Upon receipt of instructions from the Province, each Agent will forthwith suspend solicitation of purchases from the Province until such time as the Province has advised the Agents that such solicitation may be resumed. During such time as the solicitation of purchases of the Notes shall be suspended, the Province shall not be required to comply with the provisions of Sections 6(b) and 6(c) hereof.

The Province agrees to pay each Agent a commission at the time of settlement of any sale of Notes by the Province as a result of a solicitation made by such Agent, which commission may be in the form of a discount, in an amount to be agreed to by the Province and such Agent at the time of solicitation, it being understood and agreed that the commissions may not be the same for each Agent. Such Agent may reallow any portion of the commission payable pursuant hereto to dealers or purchasers in connection with the offer and sale of any Notes.

The purchase price, interest rate, maturity date and other terms of the Notes shall be agreed upon by the Province and the Agent or Agents soliciting such purchase and set forth in the applicable Term Sheet, if any, and Pricing Supplement. Except as may be otherwise provided in the applicable Term Sheet, if any, and Pricing Supplement, the Notes will be issued in denominations of US$2,000 and integral multiples of US$1,000 in excess thereof. All Notes sold through an Agent as agent will be sold at 100% of their principal amount unless otherwise agreed to by the Province and such Agent.

(b) Purchases as Principal. Each sale of Notes to an Agent as principal shall be made in accordance with the terms contained herein and (unless the Province and such Agent shall otherwise agree) pursuant to a separate agreement which will provide for the sale of such Notes to, and the purchase and reoffering thereof by, such Agent. Each such separate agreement (which may be an oral agreement, promptly confirmed in writing by facsimile transmission or email, between the relevant Agent and the Province) between such Agent and the Province is herein referred to as a "**Terms Agreement**". Unless the context otherwise requires, each reference contained herein to "this Agreement" shall be deemed to include any applicable Terms Agreement between the Province and an Agent. Each such Terms Agreement, whether oral or in writing, shall be with respect to such information (as applicable) as is specified in Annex II hereto. An Agent's commitment to purchase Notes as principal pursuant to any Terms Agreement or otherwise shall be deemed to have been made on the basis of the representations and warranties of the Province herein contained and shall be subject to the terms and conditions herein set forth. Each Terms Agreement shall specify the principal amount of Notes to be purchased by such Agent pursuant thereto, the price to be paid to the Province for such Notes, the commission to be paid to the applicable Agent, the time and place of delivery of and payment for such Notes, any provisions relating to rights of, and default by, purchasers acting together with an Agent in the reoffering of the Notes, and such other provisions (including further terms of the Notes) as may be mutually agreed upon. An Agent may utilize a selling or dealer group in connection with the resale of the Notes purchased, but only with the prior written approval of the Province. Such Terms Agreement shall also specify the requirements for the officer's certificate and opinions of counsel pursuant to Sections 6(b) and 6(c) hereof.

(c) Administrative Procedures. The Agents and the Province agree that the Administrative Procedures (the "**Procedures**") in the form attached to the Fiscal Agency Agreement as Exhibit D, shall initially be followed with respect to the sale of Notes and thereafter administrative procedures with respect to the sale of Notes shall be agreed upon from time to time by the Agents and the Province. The Agents and the Province agree to perform the respective duties and obligations specifically provided to be performed by them in the Procedures. Upon request by the Agents, the Province will furnish to the Agents a copy of the Procedures as from time to time in effect.

The Agents shall not have any responsibility for maintaining records with respect to the aggregate principal amount of Notes sold, other than performing their obligations as set forth in Section 3(b)(i) herein, or otherwise monitoring the remaining amount available under the Registration Statement.

(d) Delivery. The documents required to be delivered on the Closing Date (as defined below) by Section 5 hereof shall be delivered at the office of Shearman & Sterling LLP, 199 Bay Street, Commerce Court West, Suite 4405, P.O. Box 247, Toronto, Ontario, Canada M5L 1E8, on April 12, 2016, or at such other time and place as the Agents and the Province may agree upon in writing (the "**Closing Date**").

3. Agreements. (a) The Province covenants with each Agent as follows:

(i) After the date of any Terms Agreement and prior to the related Settlement Date, the Province will not file any amendment to the Registration Statement, any supplement to the Time of Sale Information or the Prospectus, or any document that would as a result thereof be incorporated by reference in the Time of Sale Information or the Prospectus, unless the Province has furnished to the Agents party to such Terms Agreement a copy for their review prior to filing and will not file any such proposed amendment, supplement or document to which any such Agent reasonably objects, except that the Agents may not object to the filing, as exhibits to an amendment on Form 18-K/A to the Province's Annual Report on Form 18-K, of reports prepared by the Province in the ordinary course. Subject to the foregoing sentence, the Province will cause any Pricing Supplement to be filed with the SEC pursuant to Rule 424 and the Province will file any Issuer Free Writing Prospectus to the extent required by Rule 433 under the U.S. Securities Act. The Province will promptly advise the Agents (i) when the Time of Sale Information, the Prospectus or any document that would as a result thereof be incorporated by reference in the Time of Sale Information or the Prospectus shall have been filed with the SEC, (ii) when any amendment to the Registration Statement shall have become effective, (iii) of any request by the SEC for any amendment of the Registration Statement or amendment of or supplement to the Time of Sale Information or the Prospectus or for any additional information relating thereto or to any document incorporated by reference in the Preliminary Prospectus or the Prospectus, (iv) of the issuance by the SEC of any stop order suspending the effectiveness of the Registration Statement or the institution or threatening of any proceeding for that purpose and (v) of the receipt by the Province of any notification with respect to the suspension of the qualification of the Notes for sale in any jurisdiction or the initiation or threatening of any proceeding for such purpose. The Province will use its best efforts to prevent the issuance of any such stop order and, if issued, to obtain as soon as possible the withdrawal thereof.

(ii) Before using or filing any Issuer Free Writing Prospectus, other than the Term Sheet in the form of Schedule I to the applicable Terms Agreement, if any, the Province will furnish to the Agents and counsel for the Agents a copy of the proposed Issuer Free Writing Prospectus for review and will not use or file any such Issuer Free Writing Prospectus to which the Agents reasonably object *provided* that the Agents may not object to a filing that is required.

(iii) If, at any time when a prospectus relating to the Notes is required to be delivered under the U.S. Securities Act, any event occurs as a result of which the Time of Sale Information or the Prospectus as then amended or supplemented would include any untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in the light of the circumstances existing at the time it is delivered to a purchaser, not misleading, or if it shall be necessary to amend or supplement the Time of Sale Information or the Prospectus to comply with the U.S. Securities Act or the rules and regulations thereunder, the Province promptly will notify the Agents, such notice to be confirmed in writing, to cease the solicitation of offers to purchase the Notes, and the Province promptly will prepare and file with the SEC, subject to the first sentence in paragraph (a)(i) of this Section 3, an amendment or supplement at its own expense which will correct such statement or omission or an amendment which will effect such compliance.

(iv) The Province will make generally available to its security holders and to the Agents as soon as practicable after the close of its first fiscal year beginning after the date hereof, statements of its revenues and expenditures for such fiscal year which will satisfy the provisions of Section 11(a) of the U.S. Securities Act and the applicable rules and regulations thereunder.

(v) The Province will furnish to the Agents, upon request:

(A) copies of the Registration Statement (including exhibits thereto) and each amendment thereto and, so long as delivery of a prospectus by an Agent or a dealer may be required by the U.S. Securities Act, as many copies of any Preliminary Prospectus, any Issuer Free Writing Prospectus and the Prospectus and any amendments thereof and supplements thereto as the Agents may reasonably request;

(B) copies of the following documents incorporated by reference in the Registration Statement: (i) its audited financial statements, (ii) its quarterly financial updates and (iii) its annual budget, (collectively, the "**Published Reports**") by posting the Published Reports onto either http://www.fin.gov.on.ca/ or http://www.ofina.on.ca/ir/quarterly_finances.htm (each, a "**Designated Website**"). An Agent may at any time request one paper copy of any of the Published Reports posted onto the Designated Website and the Province shall comply with any such request within ten New York business days. The Province shall promptly upon becoming aware of its occurrence notify the Agents if:

(a) the Designated Website cannot be accessed due to technical failure for a period of four New York business days;

(b) the address of the Designated Website changes;

(c) any of the Published Reports which have been provided under this Agreement and posted onto the Designated Website are amended; or

(d) the Province becomes aware that the Designated Website or any of the Published Reports posted onto the Designated Website are or have been infected by any electronic virus or similar software.

If the Province notifies the Agents that the Designated Website cannot be accessed due to technical failure for a period of four New York business days or that the Designated Website or any of the Published Reports posted onto the Designated Website are or have been infected by any electronic virus or similar software, all the Published Reports to be provided by the Province after the date of that notice shall be supplied by the Province to the Agents in paper form unless and until the Province is satisfied that the circumstances giving rise to the notification are no longer continuing.

(vi) The Province will arrange for the qualification of the Notes for offer and sale and the determination of their eligibility for investment under the securities laws of such states and other jurisdictions of the United States as the Agents may designate and will maintain such qualifications in effect so long as required for the distribution of the Notes; *provided, however,* that the Province shall not be obligated to consent to general service of process under the laws of any state or other jurisdiction.

(vii) The Province will pay (i) all expenses in connection with (a) the preparation, issue, execution and delivery of the Notes (including reasonable fees of the registrar, fiscal agent, transfer agent, calculation agent and paying agents and such agents' counsel and the fees and expenses of the Province's legal advisors) and (b) the fee incurred in filing the Registration Statement (including all amendments thereto), any Issuer Free Writing Prospectus and any Time of Sale Information with the SEC, (ii) the cost of copying the documents incorporated by reference in the Time of Sale Information and the Prospectus in such quantities as the Agents may reasonably request and the cost of delivering the same to locations designated by the Agents and satisfactory to the Province in its reasonable judgment (iii) the reasonable fees and disbursements of counsel to the Agents incurred in connection with the update of the Program, which shall in no event exceed CAD$50,000 and (iv) the reasonable fees and disbursements of counsel to the Agents incurred in connection with the maintenance of, or amendments to, the Program and approved by the Province. Except as provided in this section and Section 8 hereof, the Province shall not be required to pay or bear any fees or expenses of the Agents.

(viii) The Agents will pay all costs incurred in connection with the printing of the Prospectus and each Preliminary Prospectus (including all amendments thereof or supplements thereto), any Issuer Free Writing Prospectus and the cost of delivering the same to locations designated by the Agents, the Province and each of their counsel; *provided, however*, that the

Province will pay any such reasonable printing and delivery costs incurred in connection with the establishment of the Program.

(b) Each Agent agrees that:

(i) It will deliver to the Province a letter prior to the applicable Settlement Date containing the total sales of the Notes made in the initial distribution in the United States together with an estimate of the amount of Notes reasonably expected to be sold within the United States in secondary market transactions within 40 days of such Settlement Date; *provided, however*, that the Agents shall bear no responsibility for any discrepancy between such estimate and the actual amount of Notes sold within the United States pursuant to such secondary market transactions in such time period.

(ii) It has not and will not use, authorize use of, refer to, or participate in the planning for use of, any "**free writing prospectus**" (as defined in Rule 405 under the U.S. Securities Act) (which term includes use of any written information furnished to the SEC by the Province and not incorporated by reference into the Registration Statement and any press release issued by the Province) other than (A) the Term Sheet in the form of Schedule I to the applicable Terms Agreement, if any, and any Issuer Free Writing Prospectus prepared pursuant to Section 3(a)(ii) above, or (B) any "free writing prospectus" prepared by such Agent and provided to and consented to by the Province in advance in writing (each such "free writing prospectus" referred to in this clause (B), an "**Underwriter Free Writing Prospectus**"); *provided* that the Agents may use a Bloomberg term sheet in accordance with Section 3(b)(iv) below.

(iii) It has not and will not distribute any Underwriter Free Writing Prospectus referred to in Section 3(b)(ii)(B) in a manner reasonably designed to lead to its broad unrestricted dissemination unless the Province has consented in advance in writing to such dissemination.

(iv) It has not and will not, without the prior written consent of the Province, use any "free writing prospectus" that contains the final terms of a particular issue of the Notes unless such terms have previously been included in an Issuer Free Writing Prospectus filed or to be filed with the SEC; *provided* that the Agents may use a Bloomberg term sheet that contains some or all of the information in the Term Sheet in the form of Schedule I to the applicable Terms Agreement, if any, without the consent of the Province; *provided further* that any Agent using such term sheet shall notify the Province, and provide a copy of such Bloomberg term sheet to the Province, prior to, or substantially concurrently with, the first use of such term sheet.

(v) It is not subject to any pending proceeding under Section 8A of the U.S. Securities Act with respect to the applicable offering (and will promptly notify the Province if any such proceeding against it is initiated during the period that delivery of a prospectus by an Agent or a dealer may be required by the U.S. Securities Act).

(vi) It will promptly advise the Province upon the completion of the distribution of any offering of the Notes, to the extent applicable.

4. Selling Restrictions.

(a) European Economic Area.

In relation to each member state (the "**Member States**" and each, a "**Member State**") of the European Economic Area, each Agent, on behalf of itself and each of its affiliates that participates in the initial distribution of the Notes, represents and agrees that with effect from and including the date on which the Prospectus Directive was implemented in that Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Preliminary Prospectus and the Prospectus and completed by the applicable Pricing Supplement to the public in that Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Member State:

(i) to any legal entity which is a qualified investor as defined in the Prospectus Directive;

(ii) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Agent or Agents nominated by the Province for any such offer; or

(iii) in any other circumstances falling within Article 3(2) of the Prospectus Directive;

provided that no such offer of Notes shall require the Province or any Agent to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

In relation to any offer of Notes with a denomination of less than €100,000 (or equivalent), each person in a Member State who receives any communication in respect of, or who acquires any Notes under, such offer will be deemed to have represented, warranted and agreed that he is a qualified investor within the meaning of the law in that Member State implementing Article 2(1)(e) of the Prospectus Directive, and the Agents shall be permitted to rely on such representation for the purposes of this Section 4(a).

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State. The expression "Prospectus Directive" means Directive 2003/71/EC (as amended), and includes any relevant implementing measure in the Member State concerned.

(b) United Kingdom.

Each of the Agents, on behalf of itself and each of its affiliates that participates in the initial distribution of the Notes, represents and agrees that:

(i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000, as

amended (the "**FSMA**") received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Province; and

(ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.

In respect of any Notes which must be redeemed before the first anniversary of the date of their issue, the Province will issue such Notes only if the following conditions apply (or the Notes can otherwise be issued without contravention of section 19 of the FSMA):

(iii) each of the Agents, on behalf of itself and each of its affiliates that participates in the initial distribution of the Notes, represents and agrees that it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (2) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 the FSMA by the Province; and

(iv) the redemption value of each such Notes is not less than £100,000 (or an amount of equivalent value denominated wholly or partly in a currency other than sterling), and no part of Notes may be transferred unless the redemption value of that part is not less than £100,000 (or such equivalent amount).

(c) Japan. The Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, each of the Agents, on behalf of itself and each of its affiliates that participates in the initial distribution of the Notes, undertakes that it has not offered or sold and will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, any Japanese Person except pursuant to an exemption from the registration requirements of the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended), and under circumstances which will result in compliance with all applicable laws, regulations and guidelines promulgated by the relevant Japanese governmental and regulatory authorities and in effect at the relevant time. For the purposes of this paragraph, "**Japanese Person**" shall mean any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

(d) Hong Kong. Each of the Agents, on behalf of itself and each of its affiliates that participates in the initial distribution of the Notes, represents and agrees that:

(i) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Notes other than (i) to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong ("**SFO**") and any rules made under the SFO; or (ii) in other circumstances which do not result in the document being a "prospectus" as defined in

the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance; and

(ii) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

(e) Switzerland. Each Agent, on behalf of itself and each of its affiliates that participates in the initial distribution of the Notes, represents and agrees that it will not offer, sell or advertise, directly or indirectly, Notes to the public in, into or from Switzerland, and that it will not distribute or otherwise make available, the Prospectus or any other offering or marketing material relating to the Notes to the public in Switzerland.

(f) Singapore. Each Agent, on behalf of itself and each of its affiliates that participates in the initial distribution of the Notes, represents and agrees that it has not circulated or distributed and will not circulate or distribute the Preliminary Prospectus, the Prospectus or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes, nor has it offered or sold the Notes, or made the Notes the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the "**SFA**"), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275, of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA

(g) Sale and Distribution. In addition to the provisions of Sections 4(a), (b), (c), (d), (e) and (f) above, each of the Agents, on behalf of itself and each of its respective affiliates that participates in the initial distribution of the Notes, represents to and agrees with the Province that it and each of its respective affiliates has not offered, sold or delivered and will not offer, sell or deliver, directly or indirectly, any of the Notes or distribute the Basic Prospectus, any Preliminary Prospectus, the Prospectus, the Time of Sale Information, any "free writing prospectus", or any other offering material relating to the Notes, in or from any jurisdiction except under circumstances that will, to the best of its knowledge and belief, after reasonable investigation, result in compliance with the applicable laws and regulations thereof and which will not impose any obligations on the Province except as contained in this Agreement. In addition, each of the Agents agrees with the Province to cause any members of any selling or dealer group to agree to comply with the restrictions on offers and sales of the Notes set forth in this Section 4.

(h) Authorizations. Without prejudice to the provisions of Sections 4(a), (b), (c), (d), (e), (f) and (g) and except for the qualification of the Notes for offer and sale and the determination of their eligibility for investment under the applicable securities laws of such jurisdictions as the Agents may designate pursuant to Section 3(a)(vi), the Province shall not have any responsibility

for, and the Agents agree, to the extent applicable, with the Province that the Agents and their respective affiliates will obtain, any consent, approval or authorization required by them for the subscription, offer, sale or delivery by them of any of the Notes under the laws and regulations in force in any jurisdiction to which they are subject or in or from which they make such subscription, offer, sale or delivery of any of the Notes.

5. Conditions to the Obligations of the Agents. The obligations of the Agents to solicit offers to purchase the Notes as agents of the Province, the obligations of any purchasers of the Notes sold through the Agents as agents, and any obligation of any Agent to purchase Notes pursuant to a Terms Agreement or otherwise will be subject to the accuracy of the representations and warranties on the part of the Province herein and to the accuracy of the statements of the Province made in any certificate furnished pursuant to the provisions hereof, to the performance and observance by the Province of all its covenants and agreements herein contained and to the following additional conditions precedent:

(a) No stop order suspending the effectiveness of the Registration Statement, as amended from time to time, shall have been issued and no proceedings for that purpose shall have been instituted or threatened; and the Prospectus and any Pricing Supplement shall have been timely filed with the SEC pursuant to Rule 424; and each Issuer Free Writing Prospectus, to the extent required by Rule 433 under the U.S. Securities Act, shall have been filed with the SEC under the U.S. Securities Act.

(b) The Province shall have furnished to the Agents, on or prior to the Closing Date, a written opinion dated the Closing Date of the Deputy Attorney General, Assistant Deputy Attorney General or Acting Assistant Deputy Attorney General of the Province or any solicitor who is an employee of the Crown and seconded to the Legal Services Branch, Ministry of Finance, addressed to the Minister of Finance of the Province to the effect that, based on the assumptions and subject to the qualifications set forth therein:

(i) this Agreement has been duly authorized, executed and delivered by the Province in accordance with the laws of the Province of Ontario and the Order or Orders of the Lieutenant Governor in Council applicable thereto, and constitutes a legal, valid and binding agreement of the Province, enforceable in accordance with its terms;

(ii) the Fiscal Agency Agreement has been duly authorized, executed and delivered by the Province in accordance with the laws of the Province of Ontario and the Order or Orders of the Lieutenant Governor in Council applicable thereto, and, assuming due execution and delivery by the Fiscal Agent, constitutes a legal, valid and binding agreement of the Province, enforceable in accordance with its terms;

(iii) the Interest Calculation Agency Agreement has been duly authorized, executed and delivered by the Province in accordance with the laws of the Province of Ontario and the Order or Orders of the Lieutenant Governor in Council applicable thereto, and, assuming due execution and delivery by The Bank of New York Mellon, as calculation agent, constitutes a legal, valid and binding agreement of the Province, enforceable in accordance with its terms;

(iv) the Notes, as provided for in this Agreement, upon due execution on behalf of the Province in accordance with the laws of the Province of Ontario and the applicable Order or Orders of the Lieutenant Governor in Council, upon due authentication in accordance with the provisions of the Fiscal Agency Agreement and delivery thereof and payment therefor in accordance with the provisions of this Agreement, will be duly authorized and will constitute legal, valid and binding obligations of the Province, enforceable in accordance with their terms, provided that at the time of any such issue and sale, the aggregate principal amount of Notes issued (including such Notes being issued) as determined under the *Financial Administration Act* (Ontario), will not exceed the Authorized Amount;

(v) the statements in the Prospectus under the headings "Description of Debt Securities — Canadian Income Tax Considerations" and "Canadian Tax Considerations" are accurate in all material respects subject to the qualifications therein stated;

(vi) the payment of principal of and interest on the Notes will be a charge on and payable out of the Consolidated Revenue Fund of the Province of Ontario (as defined in the *Financial Administration Act* (Ontario));

(vii) no authorization, consent, waiver or approval of, or filing, registration, qualification or recording with, any governmental authority of the Province of Ontario or of Canada is required in connection with the execution, delivery and performance by the Province of this Agreement, the Fiscal Agency Agreement, the Interest Calculation Agency Agreement or the issue and sale of the Notes by the Province in the manner contemplated in this Agreement and the Prospectus, except for the Order or Orders of the Lieutenant Governor in Council applicable thereto, and an approval under section 28 of the *Financial Administration Act* (Ontario), which have been obtained;

(viii) no stamp or other similar duty or levy is payable under the laws of the Province of Ontario or the federal laws of Canada applicable in the Province of Ontario in connection with the execution, delivery and performance by the Province of this Agreement, the Fiscal Agency Agreement, the Interest Calculation Agency Agreement or in connection with the issue and sale of the Notes by the Province in the manner contemplated in this Agreement, the Time of Sale Information and the Prospectus; and

(ix) Her Majesty the Queen in right of Ontario may be sued in the courts of the Province of Ontario with regard to any claims arising out of or relating to the obligations of the Province under the Notes. No law in the Province of Ontario requires the consent of any public official or authority for suit to be brought or judgment to be obtained against Her Majesty the Queen in right of Ontario arising out of or relating to the obligations of the Province under the Notes, though in certain circumstances prior notice and particulars of a claim must be given to Her Majesty the Queen in right of Ontario. An amount payable by Her Majesty the Queen in right of Ontario under an order of a court of the Province of Ontario that is final and not subject to appeal is payable out of the Consolidated Revenue Fund of the Province of Ontario pursuant to the *Proceedings Against the Crown Act* (Ontario).

(c) The Agents shall have received on the Closing Date from Shearman & Sterling LLP, United States counsel to the Province, favorable opinions dated the Closing Date to the effect that:

(i) the statements in the Prospectus under the caption "Description of the Notes" and "Plan of Distribution", in each case, insofar as such statements constitute summaries of documents referred to therein, fairly summarize in all material respects the documents referred to therein; and

(ii) the statements in the Prospectus under the caption "Description of Debt Securities — United States Federal Income Tax Considerations", as supplemented by "United States Federal Income Tax Considerations", insofar as such statements constitute summaries of legal matters referred to therein, fairly summarize in all material respects the legal matters referred to therein.

Such counsel shall also state that although they have not verified, are not passing upon and do not assume any responsibility for, the accuracy, completeness or fairness of the statements contained in the Registration Statement or the Prospectus (including the documents incorporated by reference therein), such counsel has, however, generally reviewed and discussed such statements with representatives of the Ontario Financing Authority and Ministry of Finance of the Province and, in the opinion of such counsel, (A) each of the Registration Statement and the Prospectus, excluding the documents incorporated by reference therein, and any supplements or amendments thereto (other than the financial statements and other financial or statistical data contained therein or omitted therefrom, as to which such counsel need not express any opinion) appears on its face to be appropriately responsive in all material respects to the requirements of the U.S. Securities Act and the applicable rules and regulations of the SEC thereunder; and (B) each of the documents incorporated by reference in the Prospectus (other than the financial statements and other financial or statistical data contained therein or omitted therefrom, as to which such counsel need express no opinion), except to the extent that any statement therein is modified or superseded in the Prospectus, at the time it was filed with the SEC, appears on its face to be appropriately responsive in all material respects to the requirements of the U.S. Exchange Act and the applicable rules and regulations of the SEC thereunder.

Such counsel shall also state that, subject to the limitations set forth in the immediately preceding paragraph, in the course of such review and discussion, no facts have come to such counsel's attention which caused them to believe that (A) the Registration Statement (including the documents incorporated by reference therein, other than the financial statements and other financial or statistical data contained therein or omitted therefrom, as to which such counsel has not been requested to comment), as of the date of this Agreement, contained an untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary in order to make the statements therein not misleading, (B) the Prospectus as amended or supplemented, if applicable (including the documents incorporated by reference therein, other than the financial statements and other financial or statistical data contained therein or omitted therefrom, as to which such counsel has not been requested to comment), as of the date of such Prospectus as amended or supplemented, if applicable, or the Closing Date, contained or contains an untrue statement of a material fact or omitted or omits to state a material fact necessary in order to make the statements therein, in the light of the

circumstances under which they were made, not misleading, or (C) if applicable, the Time of Sale Information, at the Time of Sale (other than the financial statements and other financial or statistical data contained therein or omitted therefrom, as to which such counsel has not been requested to comment), contained any untrue statement of a material fact or omitted to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

In giving such opinions, such counsel may rely, without independent investigation, as to matters relating to the laws of the Province of Ontario or the federal laws of Canada applicable therein, on the opinion of the Deputy Attorney General, Assistant Deputy Attorney General or Acting Assistant Deputy Attorney General of the Province or any solicitor who is an employee of the Crown and seconded to the Legal Services Branch, Ministry of Finance, rendered pursuant to Section 5(b) hereof.

(d) The Agents shall have received on the Closing Date from Stikeman Elliott LLP, Canadian counsel for the Agents, a favorable opinion dated the Closing Date as to the validity of the Notes and as to the proceedings and other related matters incident to the issuance and sale of the Notes on the Closing Date, and the Agents, shall have received on the Closing Date from Davis Polk & Wardwell LLP a favorable opinion dated the Closing Date with respect to the Registration Statement and the Prospectus, including the form thereof, and other related matters as the Agents may reasonably require. In giving their opinion, Davis Polk & Wardwell LLP may rely upon the opinion of Stikeman Elliott LLP as to matters of Canadian and Ontario law.

(e) The Province shall have furnished to the Agents, on the Closing Date a certificate of the Province, signed by the duly authorized officer of the Province (who may rely as to proceedings pending or contemplated upon the best of his knowledge), dated the Closing Date, to the effect that:

(i) the representations and warranties of the Province in this Agreement are true and correct in all material respects on and as of the Closing Date with the same effect as if made on the Closing Date and the Province has complied with all the agreements and satisfied all the conditions on its part to be performed or satisfied at or prior to the Closing Date;

(ii) no stop order suspending the effectiveness of the Registration Statement, as amended, has been issued and no proceedings for that purpose have been instituted or, to the Province's knowledge, threatened; and

(iii) there has been no material adverse change in the financial, economic or political conditions of the Province from those set forth in or contemplated by the Registration Statement and the Prospectus other than changes arising in the ordinary and normal course.

(f) On the Closing Date and on each Settlement Date with respect to any applicable Terms Agreement, the Agents shall have been furnished with such further reasonable information, certificates, opinions and documents as the Agents and the Province agree in such Terms Agreement.

The obligations of any Agent to purchase Notes pursuant to any Terms Agreement will be subject to the further condition that subsequent to the execution of such Terms

Agreement and on or prior to the Settlement Date with respect to such Terms Agreement, there shall not have been any downgrading in the ratings of any of the Province's long-term debt securities or any of the Notes issued under the Program by Moody's Investors Service Inc. or Standard & Poor's Ratings Services, a division of McGraw Hill Financial Inc.

If any of the conditions specified in this Section 5 shall not have been fulfilled in all material respects when and as provided in this Agreement, or if any of the opinions and certificates mentioned above or elsewhere in this Agreement shall not be in all material respects reasonably satisfactory in form and substance to the Agents, this Agreement and all obligations of the Agents hereunder may be cancelled at, or at any time prior to, the Closing Date by the Agents and any Terms Agreement and this Agreement and all obligations of the Agents thereunder and hereunder may be cancelled at, or at any time prior to, the applicable Settlement Date by the Agents party thereto. Notice of such cancellation shall be given to the Province in writing or by telephone or facsimile transmission, in either case confirmed in writing.

6. Additional Covenants of the Province. The Province covenants and agrees with each Agent that:

(a) Reaffirmation of Representations and Warranties. Each acceptance by the Province of an offer for the purchase of Notes, and each delivery of Notes to an Agent pursuant to a Terms Agreement, shall be deemed to be an affirmation that the representations and warranties of the Province contained in this Agreement and in any certificate theretofore delivered to such Agent pursuant hereto are true and correct at the time of such acceptance or sale, as the case may be, and an undertaking that such representations and warranties will be true and correct at the time of delivery to the purchaser or his agent, or to an Agent, of the Note or Notes relating to such acceptance or sale, as the case be, as though made at and as of each such time (and it is understood that such representations and warranties shall relate to the Registration Statement, the Time of Sale Information and the Prospectus as amended and supplemented to each such time).

(b) Subsequent Delivery of Certificates. The Province shall furnish or cause to be furnished forthwith to an applicable Agent party to a Terms Agreement a certificate if the Province sells Notes to an Agent pursuant to a Terms Agreement and agrees to deliver such certificate pursuant to the terms of such Terms Agreement, which certificate shall be dated the date of such sale, in form satisfactory to such Agent to the effect that the statements contained in the certificate referred to in Section 5(e) hereof which were last furnished to the Agent are true and correct at the time of such sale, as though made at and as of such time (except that such statements shall be deemed to relate to the Registration Statement and the Prospectus as amended and supplemented to such time) or, in lieu of such certificate, a certificate of the same tenor as the certificate referred to in said Section 5(e), modified as necessary to relate to the Registration Statement and the Prospectus as amended and supplemented to the time of delivery of such certificate

(c) Subsequent Delivery of Legal Opinions. The Province shall furnish or cause to be furnished forthwith to an applicable Agent party to a Terms Agreement a written opinion if the Province sells Notes to an Agent pursuant to a Terms Agreement and agrees to deliver such opinion pursuant to the terms of such Terms Agreement, which opinion shall be of the Deputy Attorney General, Assistant Deputy Attorney General or Acting Assistant Deputy Attorney

General of the Province or any solicitor who is an employee of the Crown and seconded to the Legal Services Branch, Ministry of Finance, addressed to the Minister of Finance of the Province, and of Shearman & Sterling LLP, United States counsel to the Province, or other counsel satisfactory to such Agent party to a Terms Agreement dated the date of such sale, as the case may be, in form and substance satisfactory to such Agent, of the same tenor as the opinions referred to in Sections 5(b) and 5(c) hereof, but modified, as necessary, to relate to the Registration Statement, the Prospectus and the Time of Sale Information as amended and supplemented to the time of delivery of such opinion, or, in lieu of such opinion, each counsel last furnishing such opinion to the Agent shall furnish such Agent with a letter to the effect that such Agent may rely on such last opinion to the same extent as though it was dated the date of such letter authorizing reliance (except that statements in such last opinion shall be deemed to relate to the Registration Statement and the Prospectus as amended and supplemented to the time of delivery of such letter authorizing reliance).

7. Stabilization and Over-allotment. The Agents (or persons acting on their behalf) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the date on which the Province received the proceeds of the issue, and 60 days after the date of the allotment of the Notes. Any over-allotment or stabilization transaction by the Agents in connection with the distribution of the Notes shall be effected by them on their own behalf and not as agents of the Province, and any gain or loss arising therefrom shall be for their own account. The Agents acknowledge that the Province has not been authorized to issue Notes in excess of the principal amount set forth in the Term Sheet in the form of Schedule I to the applicable Terms Agreement, if any. The Agents also acknowledge that the Province has not authorized the carrying out by the Agents of stabilization transactions or over-allotment other than in conformity with all applicable laws and rules, including Regulation M under the U.S. Exchange Act (if applicable). The Province authorises the Agents to make such public disclosure of information relating to stabilization as is required by applicable law, regulation and guidance.

8. Indemnification and Contribution.

(a) The Province agrees to indemnify and hold harmless each Agent and each of its affiliates that participates in the initial distribution of the Notes and each person who controls any Agent or any such affiliate within the meaning of either the U.S. Securities Act or the U.S. Exchange Act against any and all losses, claims, damages or liabilities, joint or several, to which they or any of them may become subject under the laws of any jurisdiction, including but not limited to the U.S. Securities Act, the U.S. Exchange Act or other United States Federal or state statutory law or regulation, at common law or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of a material fact contained in the Registration Statement for the registration of the Notes as originally filed or in any amendment thereof, including all documents incorporated by reference, or in the Basic Prospectus, any Preliminary Prospectus, any Issuer Free Writing Prospectus, any Time of Sale Information or the Prospectus, or in any amendment thereof or supplement thereto, or arise out of or are based upon the omission or alleged omission

to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and agrees to reimburse, as incurred, each such indemnified party, for any legal or other expenses reasonably incurred by them in connection with investigating or defending any such loss, claim, damage, liability or action; *provided, however,* that (i) the Province will not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon any such untrue statement or alleged untrue statement or omission or alleged omission made therein in reliance upon and in conformity with written information furnished to the Province by or on behalf of any Agent specifically for use in connection with the preparation thereof and (ii) such indemnity with respect to the Basic Prospectus, any Preliminary Prospectus, any Issuer Free Writing Prospectus or any Time of Sale Information shall not enure to the benefit of any Agent or affiliate thereof (or any person controlling any Agent or affiliate) from whom the person asserting any such loss, claim, damage or liability purchased the Notes which are the subject thereof if such person did not receive the Time of Sale Information at or prior to the sale of such Notes to such person and the untrue statement or omission of a material fact contained in the Basic Prospectus, any Preliminary Prospectus or any Issuer Free Writing Prospectus was corrected in the Time of Sale Information. This indemnity agreement will be in addition to any liability which the Province may otherwise have.

(b) Each Agent, severally and not jointly, agrees to indemnify and hold harmless the Province:

(i) to the same extent as the foregoing indemnity from the Province to such Agent, but only to the extent that such untrue statement or alleged untrue statement or omission or alleged omission was made in reliance upon and in conformity with written information furnished to the Province by or on behalf of such Agent specifically for use in the preparation of the documents referred to in the foregoing indemnity;

(ii) against any and all losses, claims, damages or liabilities, joint or several, to which the Province may become subject under the laws of any jurisdiction, including but not limited to the U.S. Securities Act, the U.S. Exchange Act or other United States Federal or state statutory law or regulation, at common law or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of a material fact contained in any document prepared by such Agent and distributed by it in connection with the offering of the Notes, including any "free writing prospectus", or which arise out of or are based upon the omission or alleged omission to state therein a material fact necessary to make the statements therein not misleading, and which statement or omission is not contained in the Time of Sale Information, the Prospectus or the agreed press releases; and

(iii) against any and all losses, claims, damages or liabilities, joint or several, to which the Province may become subject arising out of or in connection with a breach by such Agent (or its affiliates that participate in the initial distribution of the Notes) of any representation, or failure to perform or observe any agreement, contained in Section 4 of this Agreement.

Each Agent, severally and not jointly, agrees to reimburse, as incurred, any legal or other expenses reasonably incurred by the Province in connection with investigating or

defending any such loss, claim, damage, liability or action referred to in clauses (i), (ii) and (iii) above. This indemnity agreement will be in addition to any liability which any Agent may otherwise have. The Province acknowledges, for the purposes of Sections 1(ii), 1(iii), 8(a) and 8(b)(i) above, that the statements set forth under the heading "Plan of Distribution" (except for the statements in the paragraphs relating to the European Economic Area, the United Kingdom and the securities laws of Japan, Hong Kong, Switzerland and Singapore and the sentence relating to stamp taxes and other charges and expenses in connection with the Program) in any Preliminary Prospectus or the Prospectus constitute the only information furnished in writing by or on behalf of the Agents for use in connection with the preparation of any of the documents referred to in the foregoing indemnity, and the Agents confirm that such statements are correct; *provided* that such acknowledgement by the Province does not extend to any "free writing prospectus" other than the Issuer Free Writing Prospectus in the form of the Term Sheet in the form of Schedule I to the applicable Terms Agreement, if any.

(c) Each of the Province and the Agents agree that each Agent shall have and hold the covenants of the Province contained in this Section 8 in respect of such Agent's controlling persons (as referred to herein) and affiliates in trust for the benefit of their controlling persons and affiliates. Each Agent agrees to accept the trusts in this paragraph (c) declared and provided for and agree to enforce those covenants on behalf of such persons.

(d) Promptly after receipt by an indemnified party under this Section 8 of notice of the commencement of any action, such indemnified party will, if a claim in respect thereof is to be made against the indemnifying party under this Section 8, notify the indemnifying party in writing of the commencement thereof; but the omission so to notify the indemnifying party will not relieve it from any liability which it may have to any indemnified party otherwise than under this Section 8.

In case any such action is brought against any indemnified party, and it notifies the indemnifying party of the commencement thereof, the indemnifying party will be entitled to appoint counsel satisfactory to such indemnified party to represent the indemnified party in such action; *provided, however,* that if the defendants in any such action include both the indemnified party and the indemnifying party and the indemnified party shall have reasonably concluded that there may be legal defenses available to it and/or other indemnified parties which are different from or additional to those available to the indemnifying party, the indemnified party or parties shall have the right to select separate counsel to defend such action on behalf of such indemnified party or parties. An indemnifying party will not, without the prior written consent of the indemnified parties (which consent shall not be unreasonably withheld or delayed), settle or compromise or consent to the entry of any judgment with respect to any pending or threatened claim, action, suit or proceeding in respect of which indemnification or contribution may be sought hereunder (whether or not the indemnified parties are actual or potential parties to such claim or action) unless such settlement, compromise or consent includes an unconditional release of each indemnified party from all liability arising out of such claim, action, suit or proceeding. In order to be entitled to an indemnity with respect to a claim hereunder, an indemnified party will not, without the prior written consent of the indemnifying parties (which consent shall not be unreasonably withheld or delayed), settle or compromise or consent to the entry of any judgment with respect to such pending or threatened claim, action, suit or proceeding in respect of which

indemnification or contribution may be sought hereunder (whether or not the indemnifying parties are actual or potential parties to such claim or action).

Upon receipt of notice from the indemnifying party to such indemnified party of its election so to appoint counsel to defend such action and approval by the indemnified party of such counsel, the indemnifying party will not be liable to such indemnified party under this Section 8 for any legal or other expenses subsequently incurred by such indemnified party in connection with the defense thereof unless:

(i) the indemnified party shall have employed separate counsel in accordance with the proviso to the first sentence of the next preceding paragraph (it being understood, however, that the indemnifying party shall not be liable for the expenses of more than one separate counsel (and local counsel), approved by the Agents in the case of paragraph (a) of this Section 8, representing the indemnified parties under such paragraph (a) who are parties to such action),

(ii) the indemnifying party shall not have employed counsel reasonably satisfactory to the indemnified party to represent the indemnified party within a reasonable time after notice of commencement of the action, or

(iii) the indemnifying party has authorized the employment of counsel for the indemnified party at the expense of the indemnifying party; and except that, if clause (i) or (iii) is applicable, such liability shall be only in respect of the counsel referred to in such clause (i) or (iii).

(e) In order to provide for just and equitable contribution in circumstances in which the indemnification provided for in paragraph (a) of this Section 8 is due in accordance with its terms but is for any reason held by a court to be unavailable from the Province on grounds of policy or otherwise, the Province and each applicable Agent shall contribute to the aggregate losses, claims, damages and liabilities (including legal or other expenses reasonably incurred in connection with investigating or defending same) to which the Province and such Agent may be subject in such proportion so that such Agent is responsible for that portion represented by the percentage that the total commissions and underwriting discounts received by such Agent to the date of such liability bears to the total sales price from the sale of the Notes sold to or through such Agent to the date of such liability and the Province is responsible for the balance; *provided, however*, that (a) in no case shall any Agent be responsible for any amount in excess of the total commissions and underwriting discounts applicable to the Notes purchased by such Agent hereunder and (b) no person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the U.S. Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. For purposes of this Section 8, each person who controls an Agent within the meaning of the U.S. Securities Act shall have the same rights to contribution as such Agent, and each person who controls the Province within the meaning of the U.S. Securities Act and each official of the Province who shall have signed the Registration Statement shall have the same rights to contribution as the Province. Any party entitled to contribution will, promptly after receipt of notice of commencement of any action, suit or proceeding against such party in respect of which a claim for contribution may be made against another party or parties under this paragraph (e), notify such party or parties from whom contribution may be sought, but the omission to so notify such party or parties shall not relieve

the party or parties from whom contribution may be sought from any other obligation it or they may have hereunder or otherwise than under this paragraph (e).

9. Default by an Agent Purchasing as Principal. Unless otherwise agreed to in any Terms Agreement, if any one or more Agents purchasing Notes as principal pursuant to a Terms Agreement shall fail to purchase and pay for any of the Notes agreed to be purchased by such Agent or Agents pursuant to such Terms Agreement and such failure to purchase shall constitute a default in the performance of its or their obligations under this Agreement, the remaining Agents to the Terms Agreement shall be obligated severally to take up and pay for (in the respective proportions which the amount of Notes set forth opposite their names in Schedule II to such Terms Agreement bears to the aggregate amount of Notes set forth opposite the names of all the remaining Agents to such Terms Agreement) the Notes which the defaulting Agent or Agents agreed but failed to purchase; *provided*, the nondefaulting Agents shall have the right, within 24 hours after such default, to make arrangements for one or more of the Agents to purchase all, but not less than all, of such Notes in such amounts as may be agreed upon and upon the terms set forth in the applicable Terms Agreement and herein; *provided further,* that in the event that the aggregate amount of Notes which the defaulting Agent or Agents agreed but failed to purchase shall exceed 10% of the aggregate amount of Notes set forth in Schedule II to such Terms Agreement, the remaining Agents shall have the right to purchase all, but shall not be under any obligation to purchase any, of the Notes, and if such nondefaulting Agents do not purchase all the Notes, the applicable Terms Agreement will terminate without liability to any nondefaulting Agent or the Province. In the event of a default by any Agent as set forth in this Section 9, the Settlement Date shall be postponed for such period, not exceeding seven days, as the Agents shall determine in order that the required changes in the Registration Statement and the Prospectus or Pricing Supplement or in any other documents or arrangements may be effected. Nothing contained in this Agreement shall relieve any defaulting Agent of its liability, if any, to the Province and any nondefaulting Agent for damages occasioned by its default hereunder.

10. Termination.

(a) Termination of this Agreement. (i) This Agreement (excluding any Terms Agreement) may be terminated with respect to the Province and one or more Agents for any reason, at any time by either the Province or such Agent or Agents upon the giving of 30 days' written notice of such termination to the other party hereto.

(ii) This Agreement (excluding any Terms Agreement) may be terminated forthwith with respect to any Agent by the Province if any of the following events or circumstances shall occur or arise, namely: (A) such Agent is adjudged bankrupt or insolvent; (B) such Agent files a voluntary petition in bankruptcy or makes an assignment for the benefit of its creditors or consents to the appointment of a receiver, administrator or other similar official of all or any substantial part of its property or admits in writing its inability to pay or meet its debts as they mature or suspends payment thereof; (C) a resolution is passed or an order is made for the winding up or dissolution of such Agent; (D) a receiver, administrator or other similar official of such Agent or of all or any substantial part of its property is appointed; (E) an order of any court is entered approving any petition filed by or against such Agent under the provisions of any applicable bankruptcy or insolvency law; or (F) any public officer takes charge or control of such

Agent or of its property or affairs for the purpose of rehabilitation, conservation or liquidation or any analogous proceeding is taken. Any such termination, however, shall not affect the obligations of the Province or the Agents under Sections 8, 10, 11 and 13 hereof or the rights or responsibilities of the parties arising prior to the termination of the appointment of such Agent.

(b) Termination of a Terms Agreement. Any Terms Agreement shall be subject to termination in the absolute discretion of the Agents party to such Terms Agreement or the Province, by notice given to the Province or such Agents, as the case may be, prior to the Settlement Date relating thereto, if prior to that time, there shall have occurred such a change in national or international financial, political or economic conditions or currency exchange rates or exchange controls which, in the reasonable judgment of such Agents or the Province, as the case may be, is material and adverse and such changes, singly or together with any other such change, makes it, in the reasonable judgment of such Agents or the Province, as the case may be, impracticable to market the Notes on the terms and in the manner contemplated in the Time of Sale Information or the Prospectus. Notwithstanding any such termination, the provisions of Sections 8, 10, 11 and 13 hereof shall remain in effect.

(c) General. In the event of any such termination, neither party will have any liability to the other party hereto, except that (i) each Agent shall be entitled to any commission earned in accordance with the third paragraph of Section 2(a) hereof, (ii) if at the time of termination (A) an Agent shall own any Notes purchased pursuant to a Terms Agreement with the intention of reselling them or (B) an offer to purchase any of the Notes has been accepted by the Province but the time of delivery to the purchaser or his agent of the Note or Notes relating thereto has not occurred, the covenants set forth in Sections 3 and 6 hereof shall remain in effect until such Notes are so resold or delivered, as the case may be, and (iii) the covenant set forth in Section 3(a)(iv) hereof, the provisions of Section 3(a)(vii) hereof, the indemnity and contribution agreements set forth in Section 8 hereof, and the provisions of Sections 10, 11 and 13 hereof shall remain in effect.

11. Representations and Indemnities to Survive. The respective agreements, representations, warranties, indemnities and other statements of the Province and of the Agents set forth in or made pursuant to this Agreement, and in certificates of officers of the Province submitted pursuant hereto, will remain in full force and effect, regardless of any investigation made by or on behalf of the Agents or the Province or any of the officers, directors or controlling persons referred to in Section 8 hereof, and will survive each delivery of and payment for any of the Notes and the termination of this Agreement and any Terms Agreement.

12. Other Liabilities Governed by Non-EEA Law. Notwithstanding any other term of this Agreement or any other agreements, arrangements, or understanding between the Province and HSBC Bank plc, as Agent, the Province acknowledges, accepts, and agrees to be bound by:

(a) the effect of the exercise of Bail-in Powers by the Relevant Resolution Authority in relation to any BRRD Liability of HSBC Bank plc to the Province under this Agreement, that (without limitation) may include and result in any of the following, or some combination thereof:

i. the reduction of all, or a portion, of the BRRD Liability or outstanding amounts due thereon;

ii. the conversion of all, or a portion, of the BRRD Liability into shares, other securities or other obligations of HSBC Bank plc or another person (and the issue to or conferral on the Province of such shares, securities or obligations;

iii. the cancellation of the BRRD Liability; and

iv. the amendment or alteration of any interest, if applicable, thereon, the maturity or the dates on which any payments are due, including by suspending payment for a temporary period; and

(b) the variation of the terms of this Agreement, as deemed necessary by the Relevant Resolution Authority, to give effect to the exercise of Bail-in Powers by the Relevant Resolution Authority.

The terms which follow, when used in this Section 12, shall have the meanings indicated:

"**Bail-in Legislation**" means in relation to a member state of the European Economic Area which has implemented, or which at any time implements, the BRRD, the relevant implementing law, regulation, rule or requirement as described in the EU Bail-in Legislation Schedule from time to time.

"**Bail-in Powers**" means any Write-down and Conversion Powers as defined in relation to the relevant Bail-in Legislation.

"**BRRD**" means Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms.

"**BRRD Liability**" has the same meaning as in such laws, regulations, rules or requirements implementing the BRRD under the applicable Bail-in Legislation.

"**EU Bail-in Legislation Schedule**" means the document described as such, then in effect, and published by the Loan Market Association (or any successor person) from time to time at http://www.lma.eu.com/.

"**Relevant Resolution Authority**" means the resolution authority with the ability to exercise any Bail-in Powers in relation to HSBC Bank plc.

13. Notices. All communications hereunder will be in writing and effective only on receipt, and, if sent to the Agents, will be mailed, delivered or sent by facsimile transmission and confirmed to them care of RBC Capital Markets, LLC, Three World Financial Center, 200 Vesey Street, 8th Floor, New York, New York, 10281-8098, U.S.A., attention: Scott Primrose (Facsimile No. (212) 658-6137) or, if sent to the Province, will be mailed, delivered or sent by facsimile transmission and confirmed at Ontario Financing Authority, One Dundas Street West, Suite 1400, Toronto, Ontario, M5G 1Z3, attention: Director, Capital Markets Operations, Capital Markets Division, Ontario Financing Authority (Facsimile No. (416) 860-8346).

14. Successors and Assigns. This Agreement and any Terms Agreement will enure to the benefit of and be binding upon the parties hereto (or, in the case of a Terms Agreement, the parties thereto) and their respective successors and permitted assigns and the officials and controlling persons referred to in Section 8 hereof, and no other person will have any right or obligation hereunder. Neither this Agreement nor any interest or obligation in or under this Agreement may be assigned by the Agents without the prior written consent of the Province or by the Province without the prior written consent of the Agents. This Agreement and any such Terms Agreement and all conditions and provisions hereof and thereof are intended to be for the sole and exclusive benefit of the parties hereto and their respective successors and said controlling persons and officers and directors and their heirs and legal representatives, and for the benefit of no other person, firm or corporation. No purchaser of Notes shall be deemed to be a successor by reason merely of such purchase. The parties hereby agree that Merrill Lynch, Pierce, Fenner & Smith Incorporated, as Agent, may, upon prior written notice to the Province, assign its rights and obligations under this Agreement to any other registered broker-dealer wholly-owned by Bank of America Corporation to which all or substantially all of Merrill Lynch, Pierce, Fenner & Smith Incorporated's investment banking or related business may be transferred following the date of this Agreement.

15. Governing Law. This Agreement will be governed by and construed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable in the Province of Ontario.

16. Counterparts. This Agreement may be executed in one or more counterparts (including counterparts by facsimile) and when a counterpart has been executed by each party hereto all such counterparts taken together shall constitute one and the same agreement.

17. Advertisements. All advertisements of the issue of the Notes shall be published in a form or forms and manner to which the Province consents in writing prior to the date of publication. The Province may withhold its consent in its discretion regarding the use of any symbol in any such advertisement and the publication in which such advertisement is to appear.

18. Time of the Essence. Time shall be of the essence in this Agreement.

If the foregoing is in accordance with your understanding of our agreement, please sign and return to us the enclosed duplicate hereof, whereupon this letter and your acceptance shall represent a binding agreement among the Province and the Agents.

Very truly yours,

Province of Ontario

ANNEX I

[Province of Ontario Letterhead]

New Agent Supplemental Agreement

[Date]

[Full legal names of Agent]
[Address]

Re: Province of Ontario
Medium-Term Notes

Ladies and Gentlemen:

We refer to the Distribution Agreement dated April 12, 2016 entered into in respect of the issue and sale by the Province of its Medium-Term Notes described therein (such agreement, as amended from time to time, the "Agreement") and have pleasure in inviting you to become an Agent upon the terms of the Agreement [but only in respect of and for the purposes of [description of relevant Notes] [insert any restrictions on agents appointed in relation to a particular Notes][*], a copy of which has been supplied to you by us. [For your information, we are enclosing a letter confirming you may rely on the legal opinion dated as of April 12, 2016 from our legal counsel.][1] Please return to us a copy of this letter signed by an authorized signatory whereupon you will become an Agent for the purposes of the Agreement [but only in respect of and for the purposes of] [description of relevant Notes]*.

This letter is governed by, and shall be construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein.

Very truly yours,

Province of Ontario

Hi Will

I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.

As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Hi Lisa, William,

I am OK as long as the proposed approach is consistent with OFA's lending policy and practices. We have generally not opined on the details of the lending agreement, as we have been communicating.

I do want to copy Ken and Mike to ensure that they are onside, as well.

Thanks,

John

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

> **Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)?** This decision ultimately needs to be made by business/policy people.
>
> - **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
>
> - **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Hi Lisa,

I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:

We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.

The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?

The Minister, I understand, is away until September.

Happy to chat or hear comments.

Thanks,

John

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the

required Ministerial direction waiving the Policy requirement to include these provisions.

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We

will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated

funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing

credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

>
> But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
>
> I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
> Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement

Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the

IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

> The steps of the transaction would be:
>
> 1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
> 2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
> 3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
> 4 – The IESO repays the OFA for the loan.
>
> Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the*

existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a

security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how

will the Province ensure that the proceeds can only be used to repay the loan?

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the

questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional

information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of

Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset. Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

> The steps of the transaction would be:
>
> 1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
> 2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
> 3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
> 4 – The IESO repays the OFA for the loan.
>
> Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the*

existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Ken k

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a

security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how

will the Province ensure that the proceeds can only be used to repay the loan?

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information

that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the

protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying

facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

> The steps of the transaction would be:
>
> 1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
> 2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
> 3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
> 4 – The IESO repays the OFA for the loan.
>
> Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that

would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Ken k

>
> But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
>
> I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
> Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

OFA LENDING POLICY

Approved:	**April 11, 2008**
Revised and approved:	**April 16, 2010**

SCOPE

The Ontario Financing Authority (OFA) is a crown corporation that has the statutory authority to lend to public bodies under the *Capital Investment Plan Act (CIPA).*

Public bodies are defined in CIPA as Crown agencies, hospitals and any other facilities receiving capital funding from the Minister of Health and Long-Term Care, municipalities, universities that receive operating funds from the Province, colleges of applied arts and technology, school boards, and any other entity named or described as a public body in the regulations which as of this date include the Deposit Insurance Corporation of Ontario, the Ontario Pension Benefits Guarantee Fund and the Law Society of Upper Canada and the Ontario Power Authority.

This policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS

This policy replaces the OFA lending policy that was approved by the OFA Board of Directors on April 11, 2008.

Any amendments or exceptions to this policy must be approved by the OFA Board of Directors.

POLICY FRAMEWORK

On June 21, 2007, the government approved a new framework for financing public bodies that are consolidated on the Province's financial statements. Consolidated public bodies include school boards, colleges, hospitals and corporations, boards and commissions.

Generally, the policy framework mandates the OFA to provide long-term financing for capital purposes to school boards, colleges and hospitals, as well as to Provincial corporations, boards and commissions who borrow as agents of the Crown, where the financing is recommended by the responsible ministry.

The policy framework also mandates the OFA to charge a cost recovery rate for all loans to public bodies, and a proxy commercial rate where the project is deemed to be commercial in nature. Determinations as to the nature of the project are to be made by the OFA in consultation with the recommending ministry.

TYPE OF FINANCING

The policy framework mandates the OFA to provide long-term financing to public bodies, which will be undertaken on a fixed rate or variable rate basis. Except where the Minister of Finance, Treasury Board or Cabinet determines there is a significant benefit to the public body or to the Province, the OFA will not provide:

1. Short-term financing for operating or working capital purposes.

2. Construction financing where capital projects require significant project monitoring expertise to keep construction running on time and on budget.

3. Financing to consolidated corporations, boards and commissions that are not Crown agents.

LOAN APPROVALS

1. The OFA will only advance a loan to a public body where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body.

2. Where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body, no further Board approval is required.

3. The OFA Board shall annually review a borrowing and on-lending plan (the OFA's Annual Borrowing and On-Lending Plan), which shall include the OFA's annual borrowing requirements from the Province and projected on-lending activities to Ontario public bodies for the year. As part of its review, the OFA Board shall approve the OFA's cost recovery spread and proxy commercial interest rate spreads related to the OFA's annual lending activities to public bodies.

4. The OFA Board will be advised at its next regularly scheduled meeting of any deviations from the OFA's Annual Borrowing and On-Lending Plan.

LENDING DIRECTIVE

The OFA will prepare an annual lending directive for the Minister of Finance's consideration based on the proposed loans in the OFA's Annual Borrowing and On-Lending Plan which require consent under Section 28 of the *Financial Administration Act* ("FAA") or which are to be made to School Boards. The lending directive will expressly direct or approve the OFA to advance these loans to public bodies for the fiscal year. The lending directive will include the maximum authorized amount of the loans to individual borrowers or the maximum amount of all the loans to a group of borrowers, such as School Boards or Community Colleges, and where possible, the borrower's name and the specific purpose(s) for which the loans are required, with the other terms and

conditions of the loans being delegated to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them for approval.

The OFA will prepare specific lending directives for consideration by Minister of Finance for proposed loans in the the OFA's Annual Borrowing and On-Lending Plan which do not require consent under Section 28 of the FAA, other than loans to School Boards, at the time that the requests for the OFA to enter into such loans are being processed.

CONDITIONS PRECEDENT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will:

1. Receive and review the public body's loan request as submitted and recommended by the responsible ministry.

2. Determine the public body's ability to repay the loan by relying on information submitted by the responsible ministry and public body, which may include information on the capital project, business case, cash flow projections and audited financial statements, and such other information as may be required.

3. Where required, ensure that the responsible ministry or public body has obtained prior written approval for the proposed loan pursuant to Section 28 of the FAA. The CEO of the OFA will not act as the delegate of the Minister of Finance to provide approval under Section 28 of the FAA for a loan when the OFA is the lender.

4. Evaluate the underlying risk of the project in order to determine if the project is commercial in nature, and if so establish an appropriate proxy commercial basis points spread to charge the public body as approved by the OFA Board (see "Proxy Commercial Rate").

5. Enter into a loan agreement with the public body containing terms and conditions consistent with the lending directive and satisfactory to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them , including appropriate (i) positive and negative covenants of the public body, (ii) representations and warranties by the public body, (iii) conditions precedent, (iv) remedies upon default provisions, (v) reporting provisions, (vi) event of default provisions, and (vii) intercept provisions.

6. Ensure that it has an appropriate intercept in place for the loan (see "Intercept").

SECURITY

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision, as provided below) in respect of loans made by the OFA to public bodies.

INTERCEPT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet:

1. Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

2. Prior to recommending to the Minister of Finance that the intercept be exercised, the OFA will raise the issue with the responsible ministry and seek the ministry's support in getting the public body to pay the amounts owing within a reasonable cure period.

3. Should the public body not cure the default within a reasonable period of time, the OFA will give written notice to the Minister of Finance, with a copy to the responsible ministry, of a public body's failure to pay under its loan agreement and requesting the deduction of amounts equal to the amounts that a public body has failed to pay under its loan agreement.

4. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to covenant and agree that, upon receipt of notice from the OFA that a public body has failed to pay in accordance with the provisions of its loan agreement, the responsible ministry will provide all information requested by the OFA respecting amounts appropriated by the Legislature for payment to the public body including the intended purpose and expected timing of such payments to be made by the responsible ministry. Upon request, the responsible ministry agrees to provide similar information to the Minister of Finance.

5. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to acknowledge and agree that, upon receipt of a direction from the Minister of Finance, that an amount is to be deducted from

money appropriated by the Legislature for payment to the public body, the responsible ministry will take all necessary action required by it in order to effect such deduction in accordance with the Minister of Finance's direction and pay the amount to the OFA at the time specified.

COST RECOVERY

1. The OFA will recover its lending costs by charging public bodies a rate equal to the **Province's total cost of funds**, which will include the Province's direct borrowing costs (including commissions) as well as a spread to cover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.

2. The OFA will use a **basis-points-spread (bps) based cost recovery methodology** to recover the costs of its direct borrowing and on-lending activities. The costs relate to both the upfront and ongoing loan monitoring and administration and are expressed in terms of basis points per annum and will be recovered over the term of the loan.

3. The annual basis-point spread charged to public bodies for cost recovery shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. The Capital Markets Treasury Division of the OFA, with the assistance of Internal Audit, will conduct an annual review to ensure that the cost recovery methodology is appropriate and that there are no significant under/over- recoveries that may require management's corrective action.

PROXY COMMERCIAL RATE

1. In addition to charging the Province's total cost of funds, the OFA will charge a proxy commercial basis points spread for projects that are commercial in nature in order to better reflect the costs of the underlying risk for financing of such projects. The proxy commercial basis points spread will be added to the Province's total cost of funds and recovered over the term of the loan. Loans are deemed to be commercial in nature where generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources.

2. The methodology for determining proxy commercial basis points spreads (including the amount(s) of these spreads) charged to public bodies for projects deemed commercial in nature shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. Proxy commercial basis points spreads will also be re-evaluated (and, if deemed necessary, reset upon approval of the OFA Board) in situations where there are significant changes to fixed income credit spreads. The OFA Corporate Finance Branch is responsible for recommending any changes to the

methodology or spread resets to the OFA Board, while the Capital Markets Division is responsible for informing the Corporate Finance Branch of any significant changes to fixed income credit spreads.

REPORTING REQUIREMENTS

1. A report outlining the status of all outstanding loans will be tabled with the OFA Board annually (the OFA's Annual Borrowing and On-Lending Plan) and at such other times as the OFA Board requests.

2. For each loan outstanding, such report will identify: the borrower, the purpose of the loan, the principal amount outstanding, and such other information as the OFA Board may request.

3. All OFA loans to public bodies will continue to be annually reported in the notes to the OFA's audited financial statements as disclosed in the OFA's Annual Report.

Hi Sarah

Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.

But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Bruno

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify

that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi John,
As I've noted in my e-mail below, in order for the intercept provisions to be excluded from a loan agreement for an unsecured loan provided by the OFA to a public body, the OFA Lending Policy requires direction from the Minister, Treasury Board, or Cabinet. Toby and I have discussed the rationale that you have provided below, and we agree that it supports the business case for this direction.

Happy to discuss further.

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Lisa,

I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:

We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.

The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?

The Minister, I understand, is away until September.

Happy to chat or hear comments.

Thanks,

John

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

> But I have a basic question with respect to the issue of the Province taking a security

interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset. Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to

deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Good morning,

Thank you all for your input to the transition materials. And thank you to Erica and team for their coordination efforts. For your reference, I'm attaching the final products as submitted to MOF:

1. **OFA-specific material**
   - Overview deck
   - Binder

2. **"Can't Wait" Decisions**
   - Ongoing Borrowing Program and Credit Ratings
   - Minister of Finance Specimen Signature

3. **Early Contacts**

Thanks, Anna

Subject: FW: Post-Election Briefing Materials

Good morning Directors,

The DMO has asked Divisions to begin developing transition materials for a new or returning government following the election. ADM-approved materials are to be submitted to the DMO by

April 20 for Deputy approval. **Gadi has asked Investor Relations to take the lead on preparing materials**, with Directors reviewing and providing input. I've summarized the deliverables and next steps below:

1. **OFA-specific material**
    - Overview deck of the OFA and our debt and borrowing program
    - One pagers describing key issues (i.e., VfM, credit ratings) and lines of business (i.e., ALGP, Green Bonds, loans to public bodies)

2. **"Can't Wait" Decisions**
    - Any critical decisions or actions that will be required by the government in the first 90 days after the election
    - It is expected that there will only be 10-15 of these issues across government, so we are proposing to submit only one note for the OFA: *Ongoing Borrowing Program and Credit Ratings*
    - A draft note will be circulated to the relevant Directors next week for input

3. **Early Contacts**
    - Stakeholders that the Minister should contact in the first week and the first month after being sworn in
    - We are proposing to include our *Bond Underwriting Syndicate* and *Rating Agencies* in the list of early contacts
    - A draft list will be circulated to the relevant Directors next week for input

Next Steps: Erica will send out our draft Table of Contents for the OFA-specific material shortly. Please review the Table of Contents and email me (copy Erica) if you think anything is missing. Erica's team will post draft one-pagers for your review and comment next week.

Neutral Language: In preparing these materials, we have been asked to take appropriate steps to ensure the language of the material is neutral and appropriate. Please take a moment to review the attached style guides to ensure we are consistent in our tone.

Please don't hesitate to contact me should you have any questions.

Anna

Subject: Post-Election Briefing Materials

Good morning,

As outlined in the Secretary's memo of February 28, Cabinet Office is coordinating the development of briefing products that will be required for a new or returning government following the election. These include several core products required by Cabinet Office as well as the materials ministries will prepare for their own use with a potential new Minister. We have been asked to prepare materials to aid in this process.

Election planning is a confidential public service exercise to prepare briefing materials for a returning or new administration following the general election. These materials are for the approval of the Deputy, and are not to be shared or discussed with political staff in the Minister's Office or any employees in your division who are not essential to preparing the materials.

1) Ministry-Specific Briefing Materials

Cabinet Office generally defers to Ministries on the preparation of the briefing materials needed for a possible new Minister following the general election (e.g., neutral-language 101 decks). While much of the content is being left to our discretion, the Ministry must include the information in the attached checklist. Please consult the checklist when preparing your division's material. You are free to include any other items necessary to provide a complete overview for the Minister.

In preparing these materials, we have been asked to take appropriate steps to ensure the language of the material is neutral and appropriate. Language should work regardless of the outcome of the election. Many sources we normally cite in briefing documents may not be appropriate for election planning purposes (e.g., Budget documents, Throne Speech references, news releases, etc.). Particular care must also be taken to avoid referencing the deliberations of Cabinet or its Committees. Please see the attached *Style Guide and Guidelines on Referencing Documents, Decisions or Information from the Current Administration* for further information.

2) Cabinet Office Briefing Materials:

Cabinet Office will prepare materials needed to guide the Premier or Premier-Elect through the many decisions that will need to be made immediately following the election. To support this process, they have asked for the following:

a) ***Ministry Snapshot Data***: Cabinet Office will prepare Ministry snapshots to provide a one-page overview of the Ministry size, allocation, programs and mandate. To do this, they are asking ministries to complete an online questionnaire. We have asked CQSD to take the lead on this component. If necessary, the information will be shared with other divisions for input prior to submitting it to Cabinet Office.

b) ***Can't Wait Decisions/Actions***: Please provide briefing notes (using the attached template) outlining any critical decisions or actions that will be

required by the government in the first 90 days after the election. Any decisions or actions you identify should be **required**, not just desirable (e.g., stakeholder pressure alone is not a factor that makes a decision *required)*. These may include decisions or actions required on such items as:

- Appointments where a vacancy threatens the mandate delivery of a government agency, board or commission (e.g., lack of quorum, Chair vacancy with no alternative to appointment);
- Policy or program delivery issues that require immediate attention and a decision of Cabinet;
- Pending litigation where instruction is needed from Cabinet or the Treasury Board;
- Upcoming federal-provincial or international issues that require Cabinet direction.

It is expected that there will only be 10-15 of these issues across government, so if your area doesn't have any, that is fine.

c) ***Early Contacts***: If applicable, please provide a list of the top contacts (e.g., ministerial counterparts in other jurisdictions, senior staff of stakeholder organizations) that the Minister should contact in the first week and the first month after being sworn in. Please include contact information on the lists you submit. Please see attached template.

These materials should be prepared using the instructions and templates provided with this memo. Please follow the attached Style Guide to ensure consistency across Ministries.

Please send a complete set of your transition materials to Diana McNeil (Diana.McNeil@ontario.ca) in the CQSD ADMO by 2:00PM on April 20th. I apologize for the short timeline, but material must be reviewed by the Deputy prior to submitting it to Cabinet Office the following week.

If you have any questions, please let me know.

Thanks,
Dave

BORROWING PROGRAM

CURRENT STATUS

The Province completed its annual borrowing program of $33.9 billion in 2017–18, including $11.5 billion pre-borrowed for 2018–19. Ontario's borrowing program remains the largest of the Canadian provinces, and was approximately 42% of the total borrowing programs for all provinces combined in 2017–18.

As outlined in the *2018 Budget,* the Province's total long-term public borrowing requirement for fiscal 2018–19 is currently forecast to be $31.7 billion. As of April 27, 2018, the Province has completed $7.5 billion of its 2018–19 borrowing requirement. The total long term borrowing for 2019–20 and 2020–21 is forecast at $36.7 billion and $41.3 billion, respectively (Chart 1). The projected increase in borrowing requirements is due to planned deficits, refinancing of maturing debt and continued large investments in capital assets.

The Province has sufficient borrowing authority available to complete this fiscal year's borrowing program and begin funding for 2019–20.

BACKGROUND

Historically, the OFA has demonstrated a preference for domestic funding over international funding due to its greater cost-effectiveness, normally longer duration, relative ease of execution, and reduced swap counterparty credit exposure and accounting risk.

The Province however, regularly accesses borrowing opportunities in currencies other than Canadian dollars to relieve pressure on the domestic bond market and diversify its investor base. This helps reduce Ontario's overall borrowing costs and ensures that the Province will continue to have access to capital if domestic market conditions become more challenging.

In 2017–18, the proportion of domestic funding was about 62% and reflected very favourable borrowing opportunities in international markets. This was roughly in line with the target announced in the *2017 Ontario Economic Outlook and Fiscal Review* to complete approximately two-thirds of total borrowing in the Canadian dollar market. Given the continued strong demand expected in the domestic market, the Province will maintain its Canadian dollar borrowing target of at least two-thirds of total borrowing in 2018–19.

Diversification of borrowing will be required to complete the program, and the Province will strive to stay ahead of pace to provide flexibility for times when access will be curtailed.

Borrowing Authority

The Province has three sources of borrowing authority: the *Financial Administration Act* ("*FAA*"), the *Ontario Loan Act* ("*Loan Act*") and the *Electricity Act, 1998* ("*Electricity Act*").

Source of Borrowing Authority	**Borrowing Authority Available** (As of April 27, 2018)
Financial Administration Act	$11.0 billion
Loan Act	$17.3 billion
Electricity Act	$1.1 billion

The *FAA* authority is primarily used for the purpose of refinancing maturing debt. The *Loan Act* authority is used to finance new debt, including anticipated deficit, if any, and investments in capital assets and cash requirements.

An Order-in-Council ("OIC") is an order, recommended by the Minister of Finance, concurred by the Chair of Cabinet, and approved and ordered by the Lieutenant Governor in Council that authorizes the Province to borrow up to a specific amount authorized under the OIC.

- An *FAA* refinancing OIC totaling approximately $17.5 billion was approved on March 27, 2018.

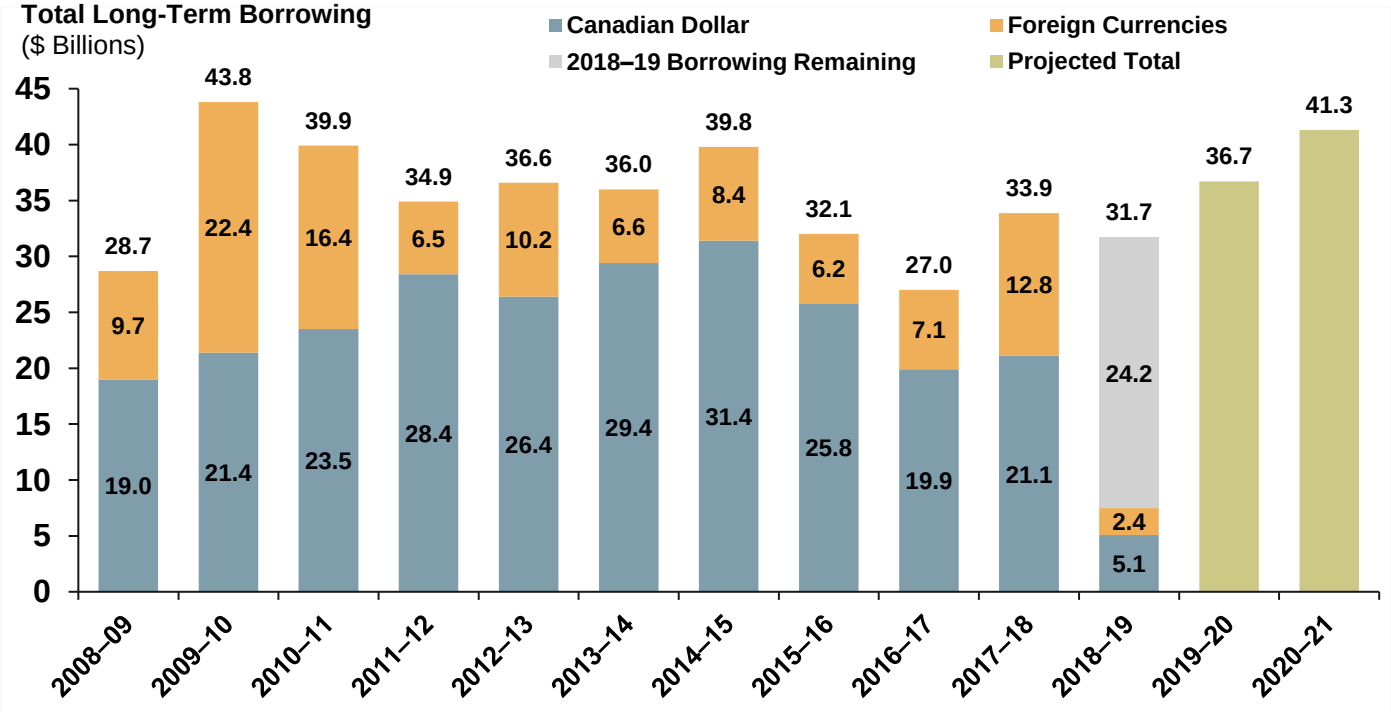
- The *Loan Act, 2017* for $6 billion received Royal Assent on May 17, 2017. Approval of one OIC under the *Loan Act* for long-term borrowing was received on October 18, 2017.

- Long-term borrowing is comprised of debt issuances with a maturity date usually greater than three years. Short-term borrowing includes debt issuance with a term of three years or less and is used to help manage the Province's liquid reserves.

Pursuant to section 68 of the *Electricity Act* and section 20 of the *FAA*, the Province borrows on behalf of OEFC and on-lends the proceeds to OEFC. The Province is able to provide an all-in lower cost of financing than if OEFC borrowed in its own name with a provincial guarantee.

OICs under the *FAA*, *Loan Act* and *Electricity Act* are routine business and are required to obtain the borrowing authority pursuant to these Acts. Without these OICs, the Province cannot issue any debt in the capital markets and would not be able to fulfill its borrowing requirements. Any significant delays in obtaining the requested OICs could result in insufficient borrowing authority and could jeopardize the Province's ability to fund health care, education, social programs and infrastructure projects and affect its ability to service existing debt and fund operating deficits.

Chart 1: Domestic and International Borrowing



Note: As of April 27, 2018.

PROVINCIAL DEBT

CURRENT STATUS

Total debt, which represents all borrowing without offsetting financial assets, is projected to be $348.8 billion as at March 31, 2018, compared to $333.1 billion as at March 31, 2017. Ontario's net debt is the difference between total liabilities and total financial assets. Ontario's net debt is projected to be $308.2 billion as at March 31, 2018. Net debt is the most commonly used measure by the investors in our bonds and other capital market participants, as it includes both financial liabilities and assets.

Debt Portfolio and Long-Term Average of Debt Portfolio

The global decline in interest rates over the past 25 years is already showing signs of modestly reversing. Maintaining a long average term of the Province's debt portfolio ensures low interest rates remain locked in for a longer period. This reduces refinancing risks and helps offset the impact of expected higher interest rates on the Province's future interest on debt costs.

Since the beginning of fiscal year 2010–11, Ontario has issued $71.3 billion of bonds with terms of longer than 30 years to lock in low interest rates. As a result, the average term of Ontario's debt portfolio has been extended, from 9.7 years in 2009–10 to 10.9 years, as of December 31, 2017 (Chart 1).

Net Debt-to-GDP

The Province's net debt-to-GDP ratio is forecast to be 37.6 per cent at the end of fiscal 2018–19, compared to the 37.3 per cent forecast in the *2017 Budget* and the 38.5 per cent forecast in the *2016 Budget*. Ontario's net debt-to-GDP ratio peaked in 2014–15 at 39.3 per cent and is forecast to remain below the 2014–15 peak and resume its downward trend in 2022–23 (Chart 2).

Investments in capital infrastructure have contributed over $99 billion to the increase of tangible capital assets, and thus net debt over the last 13 years. The government commenced recording of tangible capital assets in 2002–03. Over the budget outlook, net investments in capital assets will contribute over $32 billion to the total increase in net debt of $51.9 billion.

Interest on Debt

Interest on debt (IOD) is Ontario's fourth largest budgeted expenditure, after Health, Education and Children's and Social Services. Ontario's IOD for the year 2018–19 is projected to be $12,543 million, $578 million higher than interim IOD of $11,965 million in 2017–18.

The Province's exposure to interest rate fluctuations, both positive and negative, is significant. In 2018–19, a one percentage point change in interest rates would result in a change of $300 million in IOD costs for the Province.

BACKGROUND

The three commonly used indicators of a government's financial and debt position are net debt, total debt, and accumulated deficit. Credit rating agencies and investors place the greatest emphasis on net debt.

Net debt is the difference between the Province's total liabilities and financial assets. Ontario's net debt has been forecast to increase from $301.6 billion as at March 31, 2017 to $308.2 billion

as at March 31, 2018. It is projected to increase to $325.0 billion as at March 31, 2019 and to $342.8 billion as at March 31, 2020. The increase in net debt primarily reflects the increase in net tangible capital assets of the Province in 2017–18, partially offset by the projected surplus and, thereafter, increases in projected deficits and net tangible capital assets. Financial markets use net debt as their primary measure as it represents the Province's future revenue requirements to pay for past transactions and events.

Total debt is the sum of the Province's total borrowings including Ontario Electricity Financial Corporation and agencies. Ontario's total debt increased from $333.1 billion as at March 31, 2017 to $348.8 billion projected as at March 31, 2018. This increase was mainly due to deficits and the government's capital investments. Canadian dollar denominated debt represents 83 per cent of the Province's total debt as at March 31, 2018.

Accumulated deficit represents the sum of all deficits and surpluses. Accumulated deficit is projected to be $192.4 billion as of March 31, 2018, compared to a projection of $193.5 billion in the *2017 Budget*. The projected difference of $115.8 billion between net debt and accumulated deficit is mainly due to the Province's high level of investment in infrastructure.

CREDIT RATINGS

CURRENT STATUS

The OFA maintains close relationships and ongoing dialogue with credit rating agencies throughout the year to keep them apprised of the government's financial status, policies and initiatives, and to ensure these are accurately reflected in the agencies' ratings and reports. Ontario currently maintains a double-A rating with three of its four credit rating agencies.

Table 1: Ontario's Current Long-term and Short-term Ratings

Agency	Long-Term Rating	Short-Term Rating	Most Recent Review
Moody's	Aa2 (N)	P-1	Negative Outlook April 17, 2018
DBRS	AA (low)	R-1 (mid)	Confirmed April 24, 2018
Fitch	AA-	F1+	Confirmed June 20, 2017
S&P	A+	A-1	Long-term rating confirmed; short-term rating lowered June 15, 2017

Credit rating agencies will be monitoring the fiscal plans of the government very closely. If deficits persist, the Province is likely at risk of being downgraded by credit rating agencies. The last downgrade from S&P was on July 6, 2015, after the *2015 Budget* was released on April 23, 2015. S&P had cited high deficits and a high debt burden versus domestic and international peers.

A downgrade to the Province's credit ratings would result in higher interest rates on Ontario debt. For 2018–19, the impact of a one percentage point change in interest rates on interest on debt is approximately $300 million.

BACKGROUND

Moody's notes that spending pressure will challenge the province's ability to achieve and maintain a balanced budgets. Financing to fund deficits and capital spending will continue to push the debt burden higher. Interest expense as a share of revenues is already the highest among the provinces and is expected to increase as interest rates rise.

Fitch noted that a return to deficit borrowing during a period of economic growth would be inconsistent with Fitch's current rating expectations. According to Fitch, the Stable Outlook at the current rating level assumes a continued focus on tabling balanced budgets and gradually lowering the burden of debt.

S&P notes that the province's very strong and diversified economy, strong financial management, very predictable and well-balanced institutional framework, and low contingent liabilities support the province's current rating. The ratings also reflect S&P's view of the province's weak budgetary performances and very high debt burden.

DBRS expects the ratings to remain stable in the near term, however, the outlook for the medium to longer term appear less certain. A downgrade could occur if debt were to rise sharply because of a downturn in the economy or a change in the government's fiscal policies.

Both S&P and Moody's have indicated that the maintenance of liquid reserves in proportion to financing needs, including both short-term and long-term debt maturities, is an important factor in maintaining Ontario's credit rating.

Table 2: Provincial Long-term Rating Comparison

Province	S&P	Moody's	DBRS	Fitch
Canada	AAA	Aaa	AAA	AAA
Ontario	**A+**	**Aa2 (N)**	**AA (low)**	**AA-**
British Columbia	AAA	Aaa	AA (high)	AAA
Saskatchewan	AA	Aaa	AA	AA
Quebec	AA-	Aa2	A (high)	AA-
Nova Scotia	A+ (P)	Aa2	A (high)	Not Rated
Alberta	A+	Aa1 (N)	AA (N)	Not Rated
Manitoba	A+	Aa2	A (high)	Not Rated
New Brunswick	A+	Aa2	A (high) (N)	Not Rated
PEI	A	Aa2	A (low)	Not Rated
Newfoundland & Labrador	A	Aa3 (N)	A (low)	Not Rated

Rating agencies use a number of key debt ratios when assessing Ontario's rating including Deficit-to-Revenue, After-Capital Deficit-to-Revenue, Net Debt-to-Revenue, Net Debt-to-GDP, and Interest on Debt-to-Revenue.

VALUE FOR MONEY AUDIT

CURRENT STATUS

From January to late March 2018, the OFA and the Office of the Auditor General of Ontario (OAGO) have been working together to prepare the groundwork for the Value-For-Money (VFM) audit on Borrowing and Debt Management to begin in May and likely end in September 2018.

The auditors have met with both senior management and individual staff, and have been briefed on the strategy and planning that goes into the borrowing and debt management activities and execution. A manager has been appointed to act as the audit coordinator to ensure that all information requests by the OAGA have been met in a timely manner.

In late March, the auditors concluded their preliminary field work. In early May they will return to the OFA to brief and obtain consensus with OFA senior management on what the actual audit scope and objectives will entail. From May to August, the field work will be done in earnest. In August and September, the OAG will inform the OFA of its findings and recommendations that will be published in the AG's Annual Report in 2018.The process also includes an opportunity for the OFA to respond to the findings and its responses will included in the published report.

BACKGROUND

On December 11, 2017, the Auditor General informed the Ministry of Finance Deputy Minister that the OFA's Borrowing and Debt Management Program would be subject to a VFM audit for the 2017–18 Fiscal year.

A VFM audit is part of the AG's mandate where government programs, agencies, and certain public-sector organizations are audited to see if their administrators have spent money with due regard for economy and efficiency and have satisfactory procedures for measuring and reporting on effectiveness. VFM audits are conducted along the assurance standards of CPA Canada.

The AG's VFM findings are published annually in the AG's Annual Report, typically in Chapter 3 of her report. VFM findings are high profile and in many cases generate larger media coverage than financial statement audits performed by the AG.

FINANCIAL ADMINISTRATION ACT – SECTION 28

BACKGROUND

Section 28 (s.28) of the FAA has been in force since 1991, and states that despite any other Act, a ministry or public entity shall not enter into any financial arrangement, financial commitment, guarantee, indemnity, or similar transaction that would increase, directly or indirectly, the indebtedness or contingent liabilities of Ontario, or seek the approval of the Lieutenant Governor in Council to enter into any such transaction, without the prior written approval of the Minister of Finance.

Currently the powers of the Minister under FAA section 28 are shared by the Minister of Finance and the President of Treasury Board as a result of OIC 216/2015 as amended by OIC 223/2016. These shared powers include the following:

- The approval of individual transactions s.28(1.1).
- The approval of a class of transactions s.28(1.2).
- The exemption of an individual transaction s.28(1.3).
- The exemption by regulation of a class of transactions s.28(1.4).
- The declaration that s.28 (2) does not apply; i.e., despite failure to comply with s.28 the transaction remains enforceable.

The Minister of Finance deals with requests from ministries and provincial agencies respecting financing, investing, and financial risk management activities, including borrowing by Crown agencies, guaranteeing of such borrowing, banking and financial services, Alternative Financing Projects (AFPs), custodial services and hedging contracts.

In addition, the Minister of Finance is responsible for responding to requests for section 28 approvals of contingent liabilities and financings contained in all agreements and transactions entered into by Ministry of Finance divisions and agencies.

The President of Treasury Board deals with section 28 approval requests from ministries and provincial agencies (other than the Ministry of Finance and its agencies) of all other contingent liabilities contained in non-financing related agreements and transactions, including contractual indemnities, government contribution agreements, real estate leases, and contracts for services required to meet day-to-day operations.

It is a ministry's or public entity's responsibility to identify which of their proposed transactions require s.28 approval under the FAA and submit the request to the appropriate Minister prior to entering into the transaction or seeking Cabinet approval for the transaction.

Submissions supporting requests for Section 28 approval should include a signed Minister's request letter as well as a business case for the transaction that would include:

- The description, business and legal rationale for assuming each specific contingent liability or increase in indebtedness;
- A quantification of the maximum dollar amount of the contingent liability or indebtedness, and if it is not possible to quantify, an explanation as to why that is the case;

- Any financial models developed in support of the project;
- An estimate of the duration of the contingent liability or indebtedness, the risk exposure and the likelihood of it materializing;
- A description of the measures taken to manage risk and minimize losses;
- A description of alternatives considered to the contingent liabilities or indebtedness;
- An explanation of how the responsible ministry proposes to pay for any contingent liabilities that may arise; and
- A description of the benefit to Ontario of taking on the contingent liability.

RISK MANAGEMENT

CURRENT STATUS

Coming out of the financial crisis in 2008–09, the Province began a strategy of creating large, liquid 10 and 30-year benchmark domestic bond issues in 2009–10 in response to investor demand. This strategy has been very successful and continues to lower Ontario's borrowing costs and enhance the Province's access to capital.

However, as a result of these large bond issues, the Province will have large cash outflows on single days commencing in 2019–20, rather than having maturities spread more evenly through the year. In anticipation of the need for cash reserves to meet these requirements for large outflows on a single day, the Province began building larger cash reserves in 2017–18. As of March 31, 2018, the Province's average unrestricted liquid reserve was $30.1 billion (Chart 1). Debt maturities are estimated at $21.5 billion for 2018–19.

Today, the OFA maintains a high level of liquid reserves and short term borrowing capacity.

BACKGROUND

Market risk is the risk of loss due to changes in interest and foreign exchange rates. The OFA monitors and manages the debt maturity profile to limit refinancing risk. Term selection for new borrowing will be aimed for a smooth maturity schedule to diversify the interest resetting risk of refinancing debt maturities (Table 1).

Liquidity Risk is the risk that liquid reserves will not be sufficient to meet the Province's cash requirements. This risk is controlled through the management of operational cash flows, liquid reserve levels and the short-term borrowing program. The Province's Treasury bill and U.S. Commercial Paper programs have authorized limits of $33.0 billion and $15.0 billion, respectively.

Operational Risk is risk of loss due to failed models, systems, processes, people or external events.

Credit Risk is the risk of loss due to default of bond issuers or counterparties of derivatives or other financial transactions. Strict credit limits are enforced for financial and investment counterparties. The Province also has collateralized swap agreements in place for most swap counterparties.

ONTARIO'S GREEN BOND PROGRAM

CURRENT STATUS

Ontario is currently the largest issuer of Canadian dollar Green Bonds, with four outstanding green issues totaling $3.05 billion (Table 1).

On January 25, the Province successfully launched its fourth Green Bond issue of $1.0 billion. This is not only the largest Green Bond offering from the Province of Ontario, but also the largest issue to be priced in the Canadian dollar Green Bond market. With this transaction, Ontario added eight new investors (that had never purchased Ontario bonds) and expanded its Canadian dollar investor base by eleven names (investors that had never purchased Ontario bonds in Canadian dollars).

BACKGROUND

The Province's Green Bond program commenced in 2014. As the first Canadian province to issue Green Bonds, Ontario is leading the way to establish and develop a Canadian dollar Green Bond market with investor participation from around the world. Ontario's Green Bonds capitalize on the Province's ability to raise funds at low interest rates and serve as an important tool to help Ontario finance transit and other environmentally friendly projects across the Province.

Ontario has a mature Green Bond program and expects Green Bonds to continue having an important role in the Province's annual borrowing.

Ontario strives to be a leader in its transparency and impact reporting efforts with the publication of its annual newsletter.

Use and Management of Proceeds

Green Bond proceeds are paid into the Consolidated Revenue Fund of Ontario. An amount equal to the net proceeds of each Green Bond issue is recorded in a designated account in the Province of Ontario's financial records. These designated accounts are used to track the use and allocation of funds to eligible projects.

Green Bond projects are expected to be funded within one year from the date of issue.

Green Bond Projects

Ontario's Green Bond Framework specifies five categories of eligible projects:

- Clean Transportation (e.g. public transportation)
- Energy Efficiency and Conservation (e.g. building efficiency improvement)
- Clean Energy and Technology (e.g. smart grid infrastructure and energy storage)
- Forestry, Agriculture and Land Management (e.g. sustainable forest management)
- Climate Adaptation and Resilience (e.g. flood protection and storm water management)

A total of 16 different projects have received or will receive funding from Ontario's four Green Bond issues. The projects selected as eligible to receive funding from the Green Bonds have an emphasis on clean transportation and energy efficiency and conservation (Table 2).

Table 1: Ontario's Green Bond Issues Summary

Green Bond Issue:	Inaugural	Second	Third	Fourth
Size:	C$500 Million	C$750 Million	C$800 Million	C$1,000 Million

ONTARIO SAVINGS BONDS (OSB)

CURRENT STATUS

A new campaign is taking place from June 1–21, 2018 with the following range of products: 3-year variable, 5-year step-up, 3-year fixed, and 10-year fixed. The interest rates for the new series of OSBs are generally announced on the first day of sales.

The 2017 campaign raised approximately $64 million. It is difficult to predict the size of this year's campaign. Increased competition by banks for retail money may be offset by the safety provided by government bonds.

The Federal government, British Columbia, Alberta, Saskatchewan and Manitoba have discontinued their savings bond program (Table 1). The Province may review the Ontario Savings Bond Program next year.

BACKGROUND

OSBs were introduced in 1995 and are 100 per cent backed by the Province of Ontario. Since then, approximately $44 billion in OSBs have been sold with about $1.1 billion currently outstanding (amount as of February 28, 2018). The bonds are usually on sale during the first three weeks of June.

The bonds are available for purchase through dealers, banks and credit unions. The 2017 distribution of sales across the various agents was consistent with prior years with dealers accounting for 85 per cent of total sales and banks for 15 per cent of total sales.

Total sales per campaign for the OSBs are as follows:

2017	$ 64 million
2016	$ 127 million
2015	$ 66 million
2014	$ 553 million
2013	$ 445 million
2012	$ 774 million
2011	$ 572 million
2010	$1.147 billion
2009	$1.045 billion
2008	$ 455 million
2007	$1.272 billion
2006	$1.384 billion
2005	$1.832 billion
2004	$1.150 billion
2003	$3.770 billion
2002	$2.615 billion

2001	$4.167 billion
2000	$3.380 billion
1999	$2.049 billion
1998	$1.954 billion
1997	$1.537 billion
1996	$1.034 billion
1995	$1.607 billion
Total	**$44.340 billion**

British Columbia	Discontinued program (last outstanding issue matured in 2007)
PEI	N/A
New Brunswick	N/A
Nova Scotia	N/A
Newfoundland and Labrador	N/A

ONTARIO NUCLEAR FUNDS AGREEMENT

CURRENT STATUS

The Province and Ontario Power Generation (OPG) signed the Ontario Nuclear Funds Agreement (ONFA) in March 2002, effective as of April 1, 1999. The Ontario Financing Authority (OFA) manages the implementation of ONFA on behalf of the Province.

The main objective of ONFA is to ensure sufficient funds are available to pay for the future costs of nuclear waste management and nuclear station decommissioning for OPG's current nuclear stations, including the Bruce stations leased to Bruce Power.

ONFA came into force in July 2003 with the creation of two segregated funds, which are jointly managed by OPG and OFA, on behalf of the Province:

- The Decommissioning Segregated Fund (DSF) is to pay for the permanent shut down of nuclear stations, including security and monitoring, used fuel storage during decommissioning, dismantling of stations and site restoration, and storage of low and intermediate level waste.
- The Used Fuel Segregated Fund (UFSF) is to cover costs of dry storage and used fuel after station decommissioning, as well as long-term disposal costs. The UFSF includes the federally mandated "Ontario NFWA Trust" amounts (under the federal Nuclear Fuel Waste Act).

The combined market value of the funds was $4.9 billion when they were formally established in 2003. As of December 31, 2017, the combined market value of the segregated funds had grown to over $21 billion, consisting of about $9.1 billion in the DSF (including a "due to the Province" of about $1.9 billion) and about $12.1 billion in the UFSF (including a "due to the Province" of about $2.5 billion). Net of the "due (to) from Province" amounts, OPG recognises a net value for the ONFA funds of about $16.7 billion on its balance sheet (Table 1).

Role of the Minister of Finance:

ONFA was signed by the Minister of Finance, and the Minister of Finance has responsibility for ONFA, including the following:

- Approving Reference Plans submitted by OPG for cost and liability estimates for plant decommissioning and waste management at least once every five years. The current Reference Plan is effective January 1, 2017.
- Entering into agreements to satisfy the Canadian Nuclear Safety Commission (CNSC) financial guarantee requirements related to OPG's nuclear facilities. This includes providing the CNSC with access (in certain circumstances) to the ONFA segregated funds, or if required, providing a direct provincial guarantee.
- Approving any amendments to ONFA.

BACKGROUND

As part of the April 1, 1999, financial restructuring of the old Ontario Hydro, OPG began to set aside cash in segregated funds and recognize on its financial statements the present value of the incurred nuclear waste management and decommissioning obligations.

In light of the recognition of these obligations, the Province and OPG entered into the ONFA in March 2002. The agreement came into force on July 24, 2003, with an effective date of April 1, 1999.

ONFA has three main goals:

- To ensure sufficient funds are available to pay for costs of nuclear station decommissioning and long-term nuclear waste management (including used fuel and low and intermediate level waste after station shut down),
- To limit OPG's financial exposure to unforeseen increases in the cost of managing used fuel, and
- To permit OPG to satisfy the CNSC's financial guarantee requirements.

Table 1: Historical Segregated Fund Market Values

Fair Market Value ($ millions)	2017	2016	2015	2014	2013
DSF	9,099	8,317	7,834	7,346	6,591
Due (to) Province	(1,933)	(1,477)	(1,285)	(1,100)	(624)
Total Net DSF	7,166	6,840	6,549	6,246	5,967
UFSF	12,087	11,082	10,290	9,562	8,519
Due (to) from Province	(2,529)	(1,938)	(1,703)	(1,429)	(990)
Total Net UFSF	9,558	9,144	8,687	8,133	7,529
Total – Gross	**21,186**	**19,399**	**18,124**	**16,908**	**15,110**
Total - Due (to) from	(4,462)	(3,415)	(2,988)	(2,529)	(1,614)
Total – Net	16,724	15,984	15,136	13,496	13,496

Notes: "Due (to) from Province" amounts reflect the funds position at a certain point in time only and have fluctuated over time as presented in the table. The "Due to Province" amounts are reflected in this way on OPG's financial statements under accounting standards, primarily because of ONFA.

Under ONFA, if there are amounts left in the funds after all the liabilities have been dealt with (projected to be many decades away, up to the 22nd century), then those amounts go to the Province. Under ONFA, the Province provides a rate of return guarantee on a portion of the UFSF. If the actual rate of return on that portion of the UFSF, then OPG records that amount as "Due to Province".

ABORIGINAL LOAN GUARANTEE PROGRAM (ALGP)

CURRENT STATUS

The ALGP is a discretionary, non-entitlement, application-based program that provides loan guarantees to eligible applicants to support Aboriginal equity participation in the renewable energy sector and regulated transmission projects.

The program, as approved by Treasury Board, can provide a loan guarantee of up to 75 per cent of an Aboriginal community's investment in a renewable energy generation or transmission project, to a maximum of $50 million per project. Treasury Board approval of these parameters also allows the OFA to come forward for approvals above $50 million on a case-by-case basis. The total approved program envelope is $650 million.

Nine loan guarantees have been approved to-date, for a total of approximately $250 million. There are active applications for requested loan guarantees totalling over $300 million.

In conjunction with its third party due diligence service providers, the OFA administers the program, performs due diligence on the applications, seeks the necessary approvals from Cabinet (Order in Council) and the Minister of Finance (approval of the conditional offer of the guarantee and execution of the guarantee agreement), and negotiates the final legal agreements.

BACKGROUND

The ALGP was launched in 2009 to facilitate Aboriginal participation in renewable energy infrastructure projects. Eligible investments under the ALGP include key investments in transmission, wind, solar and hydroelectric projects across the province.

Loan guarantee offers are made on a case-by-case basis at the discretion of the Minister of Finance and Cabinet under the authority of section 22 of the *Financial Administration Act* and are disclosed as Contingent Liabilities in Volume 1 of the Public Accounts.

To be eligible for a loan guarantee under the program, projects are required to have:

- Agreements in place to purchase energy in the case of generation projects and regulatory approvals in the case of transmission projects
- Experienced proponents and project partners with track records in construction and operation
- Completion of the OFA's due diligence process
- A corporation that is wholly-owned by the Aboriginal Community which will be the applicant to the program and will take on all aspects of the project, such as signing contracts and entering into partnership agreements

If eligible, applicants could receive ALGP guarantees for up to 75 per cent of the Aboriginal community's equity in a project, to a maximum of $50 million, no earlier than at the point of financial close for the project, after regulatory approvals are in place and at the same time, or after, all other financing is put in place.

FINANCING PUBLIC BODIES

CURRENT STATUS

The OFA is able to provide loans to Ontario public bodies such as colleges, school boards and hospitals, as well as provincial corporations, boards and commissions that are consolidated on the Province's financial statements.

Under this framework, the OFA provided new loans to a number of public bodies in 2017–18, including Ontario colleges and crown corporations totalling $2.4 billion. As at March 31, 2018, the OFA had a total outstanding loan portfolio worth $5.7 billion, for a conservatively estimated saving of nearly $30 million in annual interest costs. Cumulative interest savings since inception of the program in 2007 are in excess of $260 million.

It is estimated that the OFA may provide a further $500 million in long-term loans to public bodies in 2018–19.

BACKGROUND

Higher financing costs of consolidated public bodies, increased demand for financing and the lack of expertise within public bodies led to the establishment of a provincial loan program for public bodies.

Under this framework, the Province, through the OFA, provides short and long-term financing to provincial public bodies. Most of the OFA loans are long-term. The cost of long-term debt of consolidated public bodies is conservatively estimated to be 25 to 75 basis points higher than the Province's cost of funds.

Through this program, the Interest on Debt cost associated with capital projects is transferred to some of the responsible organizations.

Key Framework Components

The key decisions in establishing the framework revolved around what type of financing to provide, which consolidated sectors to lend to and what interest rate to charge.

1. *Long-Term Financing*: The framework focuses on long-term financing and generally leaves administratively intensive short-term financing to financial institutions, except where the Minister of Finance determines there is a significant benefit to the public body or to the Province.

2. *Consolidated Sectors*: The OFA provides financing to sectors where their financial results are consolidated on the Province's balance sheet, including school boards, colleges, hospitals and other public bodies that borrow as crown agents. However, the OFA will generally not lend directly to the electricity sector (except for certain purposes of the Independent Electricity System Operator formerly under the mandate of the Ontario Power Authority prior to their merger), unless otherwise directed by Cabinet, Treasury Board or the Minister of Finance.

3. *Province's Total Cost of Funds or a Proxy Commercial Rate*: The OFA provides financing at either the Province's total cost of funds or a proxy commercial rate, depending on the nature of

the activity and debt repayment capacity of the public body. In some cases the rate charged to the borrower will be similar to the rate that would be charged on the loan by a commercial lender which would reflect the relative risk associated with the loan. The OFA will generally retain the spread, which includes the administrative costs of managing these loans.

GOVERNMENT ASSETS AND INVESTMENTS

The Ontario Financing Authority (OFA) provides financial analysis and advice to the government, ministries and agencies on government assets and investments.

Contributions from Provincially-owned assets can help meet fiscal plan targets or generate additional cash for reinvestment.

As the owner of these assets, the government has a responsibility to ensure that governance of these assets is sound and that optimal contribution to the fiscal plan is pursued.

Three main categories of options are available for potentially increasing the value that an asset delivers to the Province:

- Hold;
- Retain and Improve; and
- Divest.

The Province has a number of significant assets that do or can provide fiscal contributions, such as the following:

- Ownership interests in Government Business Enterprises (GBEs):
    - Ontario Power Generation Inc. (OPG),
    - Liquor Control Board of Ontario (LCBO) (with the Ontario Cannabis Retail Corporation (OCRC) as an LCBO subsidiary),
    - Ontario Lottery and Gaming Corporation (OLG), and
    - Hydro One Limited (Hydro One).
- In 2016–17, the Province reported net income from GBEs of about $5.6 billion, per 2016–17 Public Accounts of Ontario.
- The Province is the sole owner of OPG, LCBO (including OCRC), and OLG, and holds about 47 per cent ownership in Hydro One which is publicly traded on the Toronto Stock Exchange (TSX).

There are a number of other smaller organizations owned by the Province, which provide smaller amounts of revenue, or none in some cases, but which may still hold fiscal opportunities to improve performance or have opportunities to realise value.

The OFA also provides financial analysis and advice on government investments, such as venture capital investments and business supports, including loans and loan guarantees.

BACKGROUND

Options to Optimise Value:

1. Hold: For assets delivering core public services, where performance is excellent and/or non-organic improvement or divesting is not feasible today.

2. Retain and Improve: For assets delivering core public services, where transformation and/or growth would unlock fiscal or policy value. This could include
    - Improving governance and oversight,
    - Modernizing the operating model, through restructuring or outsourcing, and
    - Improving performance by pursuing opportunities for efficiency.

3. Divest: For non-core assets where divesting would allow for the capture of full value or where the government cannot improve performance without significant risk or where changes in society do not justify or require the existence or operation of the asset.

Ontario Financing Authority

April 2018

www.ofina.on.ca

Mandate

The Ontario Financing Authority (OFA) was established by the *Capital Investment Plan Act, 1993*, and performs the following activities:

- Conducts borrowing, investment and financial risk management for the Province of Ontario;
- Manages the Provincial debt;
- Provides financial and centralized cash management services for the Province;
- Advises ministries, Crown agencies and other public bodies on financial policies and projects;
- Assists Crown agencies and other public bodies to borrow and invest money;
- Lends to certain public bodies at the direction of the Province;
- Invests on behalf of some public bodies;
- With Ontario Power Generation Inc. (OPG), manages the investment activities of OPG's Used Fuel Segregated Fund and Decommissioning Segregated Fund; and
- Carries out the day-to-day operations of Ontario Electricity Financial Corporation (OEFC) and provides a broad range of financial services to Ontario Infrastructure and Lands Corporation (Infrastructure Ontario).

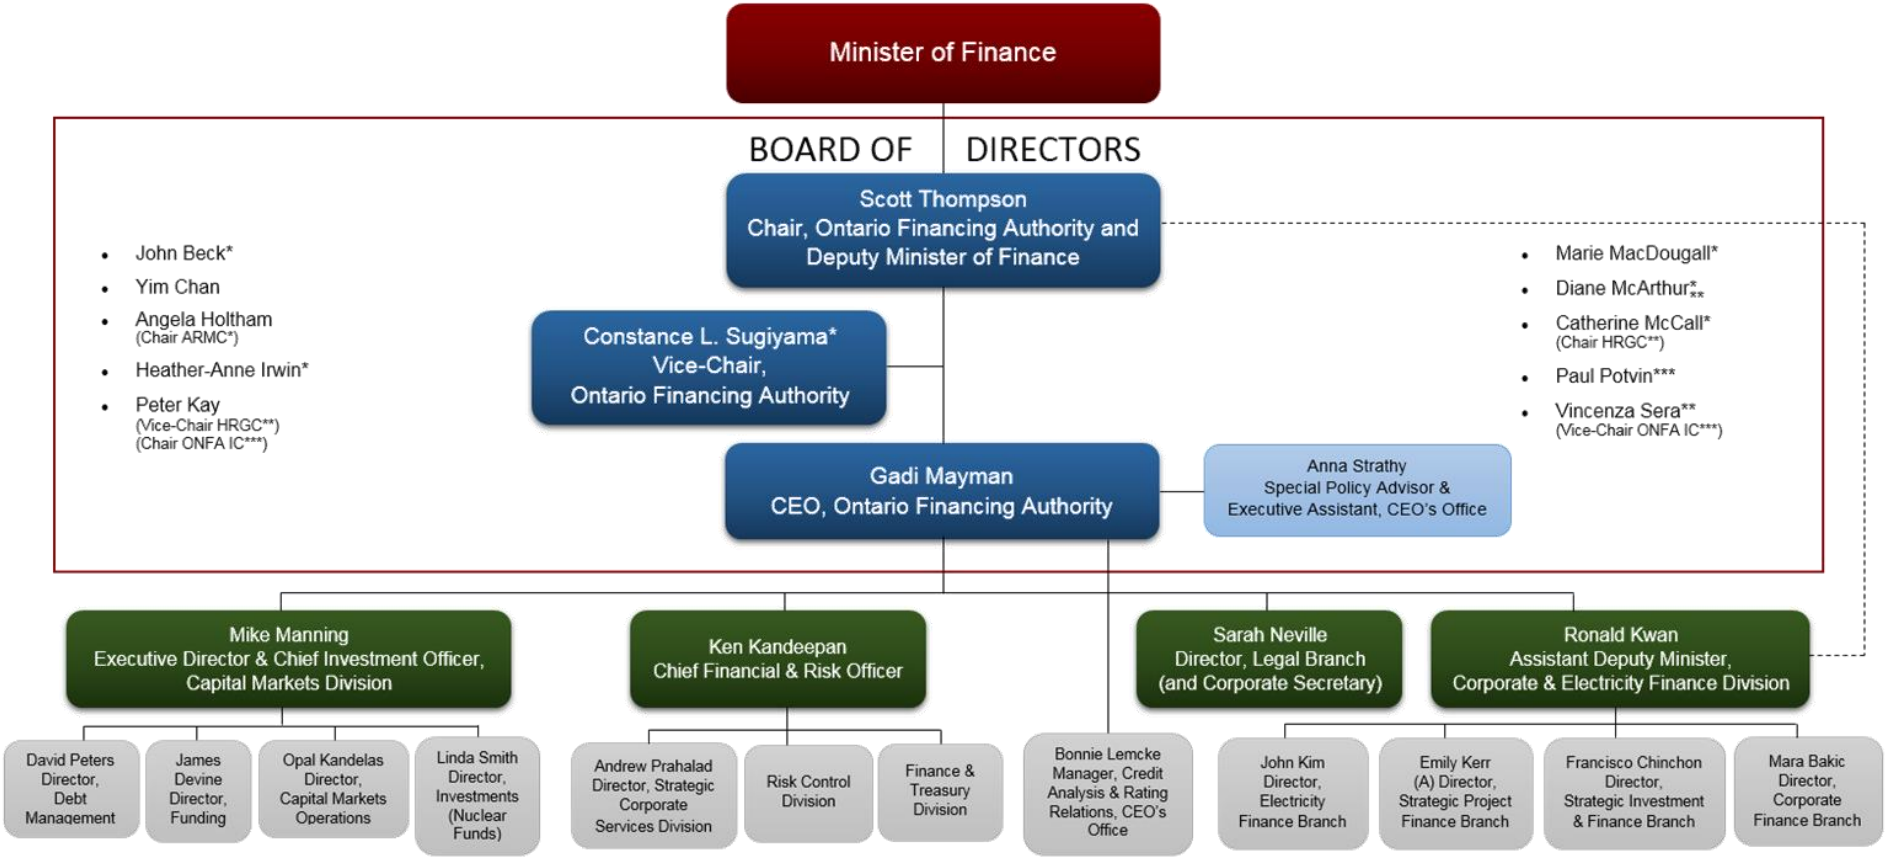
OEFC

Since April 1, 1999, pursuant to a directive from the Minister of Finance, the OFA has conducted borrowing and related debt and risk management activities, cash management, banking, accounting, financial reporting, forecasting and other related activities on a cost-recovery basis for the OEFC.

The OFA is also responsible for the corporate governance of OEFC.

Corporate Governance & Organizational Structure

- The OFA is an agent of the Crown and is classified by Management Board of Cabinet as an operational enterprise agency.
- Corporate governance at the OFA involves processes that permit the effective supervision and management of the OFA's activities by the Minister of Finance, Board of Directors and Senior Management.



* ARMC = Audit & Risk Management Committee
** HRGC = Human Resources & Governance Committee
*** ONFA IC = Ontario Nuclear Funds Agreement Investment Committee

Note: As of April 20, 2018.

Domestic and International Borrowing

- Funding requirements must be met to allow the Province to pay its bills and meet its financial obligations.

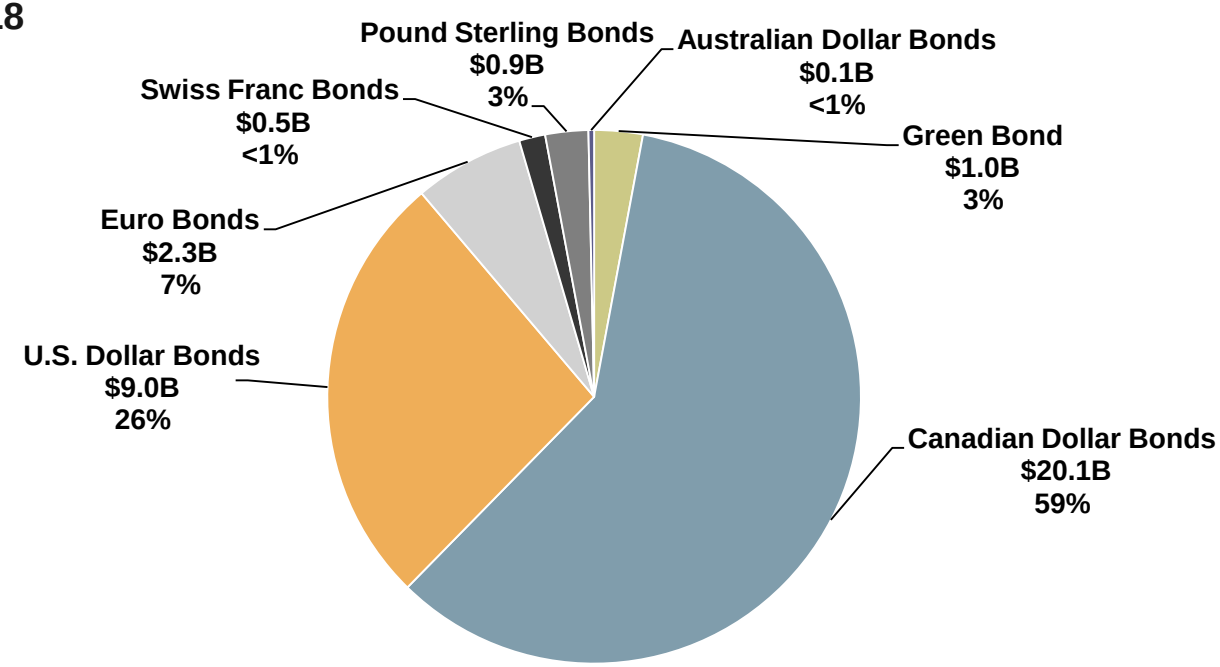
Source: Ontario Financing Authority.

2017–18 Borrowing Completed: $33.9 Billion

- The Province completed its annual borrowing program of $33.9 billion in 2017–18, including $11.5 billion pre-borrowed for 2018–19.
- The Province regularly accesses borrowing opportunities in currencies other than Canadian dollars to relieve pressure on the domestic bond market. This helps reduce Ontario's overall borrowing costs and ensures that the Province will continue to have access to capital if domestic market conditions become more challenging.

As of March 31, 2018



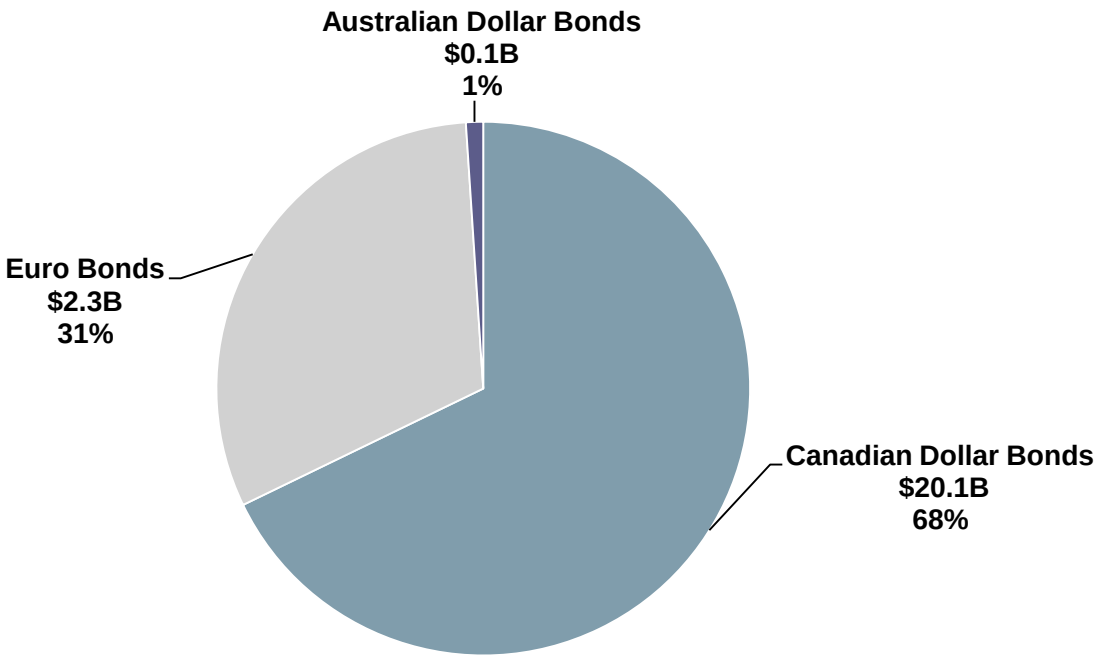
2017–18 Total Borrowing Requirement:	**$33.9B**
Domestic:	**62%**
International:	**38%**
Average Term:	**12.1 years**

Note: Numbers may not add due to rounding.

2018–19 Borrowing Completed: $7.5 Billion

- As outlined in the *2018 Budget*, the Province's total long-term public borrowing requirement for fiscal 2018–19 is currently forecast to be $31.7 billion.

As of April 27, 2018



2018–19 Total Borrowing Requirement:	**$31.7B**
2018–19 Total Borrowing Completed:	**$7.5B**
Domestic:	**68%**
International:	**32%**
Average Term:	**10.4 years**

Note: Numbers may not add due to rounding.

Credit Ratings

- The OFA maintains close relationships and ongoing dialogue with credit rating agencies throughout the year to keep them apprised of the government's financial status, policies and initiatives, and to ensure these are accurately reflected in the agencies' ratings and reports.
- Rating Agencies typically release their reports on the Province following the release of the Ontario Budget.
- A downgrade to the Province's credit ratings would result in higher interest rates on Ontario debt. Lower ratings could also lessen the number of investors able to buy Ontario bonds, or lower the amount of Ontario debt that each investor is allowed, by their internal limits, to hold.
- Ontario currently maintains a double A rating with three of the four agencies:

Rating Agencies	Long-term Rating	Short-term Rating	Outlook
Moody's	Aa2 (N)	P-1	negative
FitchRatings	AA-	F1+	stable
DBRS	AA (low)	R-1 (mid)	stable
Standard & Poor's	A+	A-1	stable

Key Debt Ratios

Rating agencies use a number of key debt ratios when assessing Ontario's rating:

- Deficit-to-Revenue
- After-Capital Deficit-to-Revenue
- Net Debt-to-GDP
- Net Debt-to-Revenue
- Interest on Debt-to-Revenue

Measuring Debt

- Definitions of debt:
  - **Net Debt** is the Accumulated Deficit plus Net Investments in Capital Assets
  - **Accumulated Deficit** is the sum of all deficits and surpluses since Confederation
  - **Total Debt** is the full amount of outstanding debt the government has on its books
- Financial markets use Net Debt as their primary measure because it represents the Province's future revenue requirements to pay for past transactions and events.
- Accumulated Deficit and Net Debt were equal until 2001–02 when the accounting treatment changed to allow amortization of capital assets.
- Borrowing creates an obligation that has to be repaid in the future, which allows for lower taxes and sustained services today at the expense of lower services and/or higher taxes in the future.

Province's Debt History

($ Millions)	Outlook 2018–19	Interim 2017–18	2016–17	2015–16	2014–15	2013–14	2012–13	2011–12	2010–11	2009–10
Net Debt	325,041	308,203	301,648	295,372	285,403	267,968	252,823	236,230	214,511	193,589

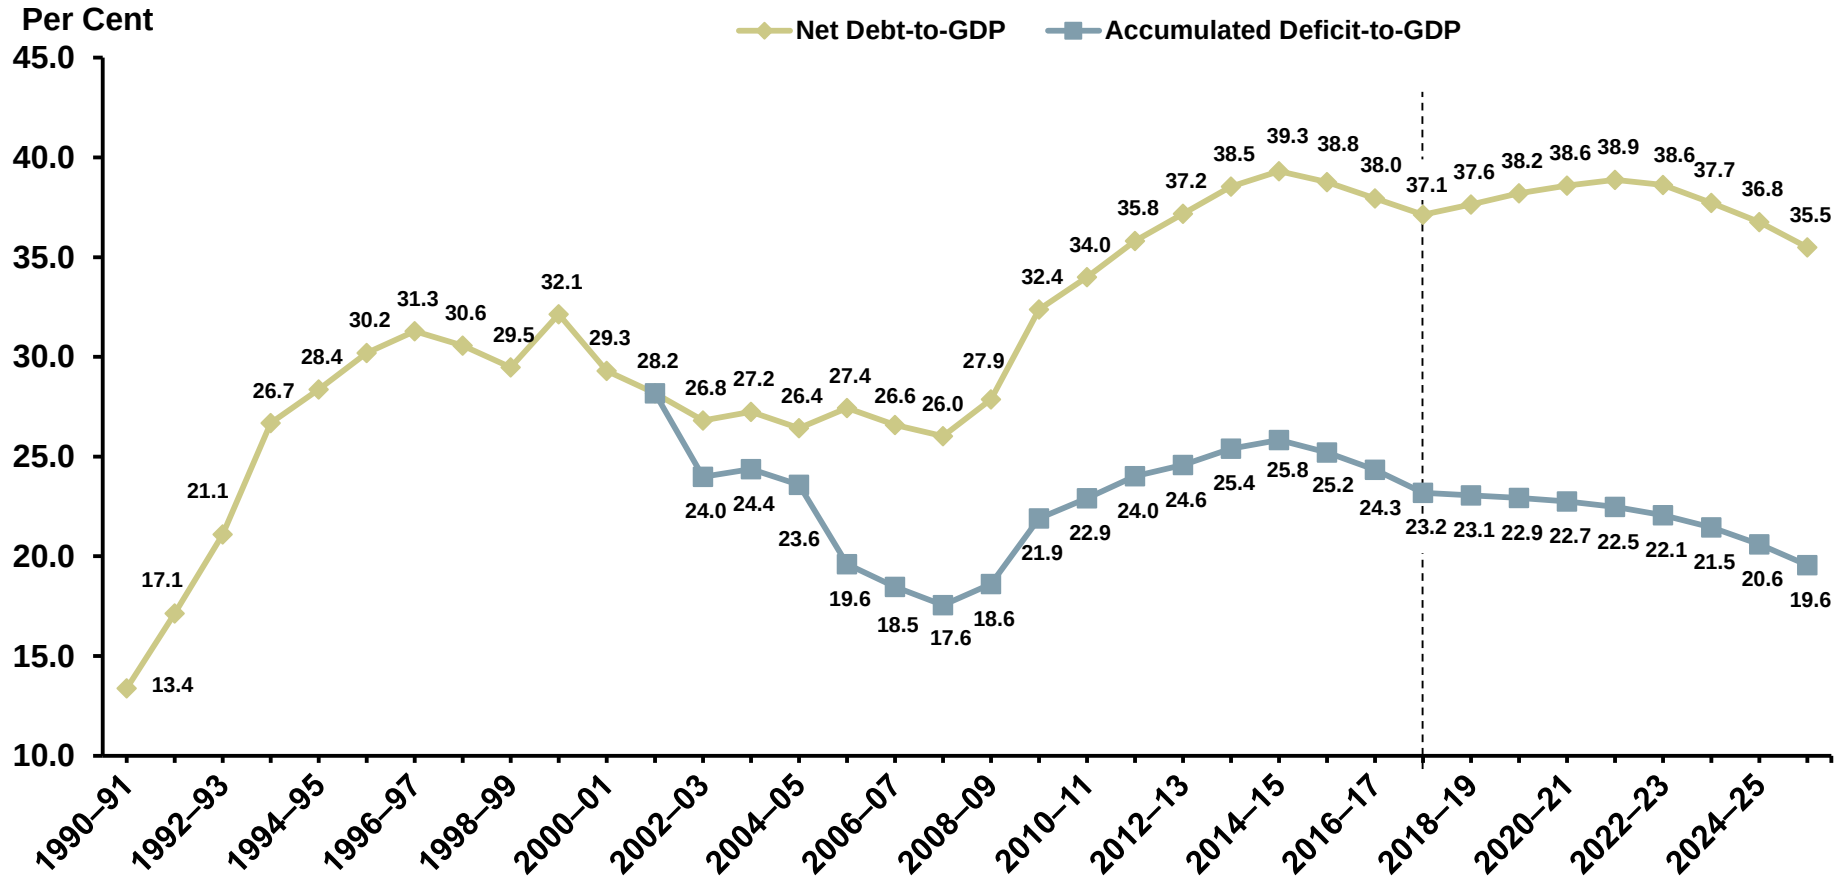
Net Debt-to-GDP and Accumulated Deficit-to-GDP

- Ontario's net debt-to-GDP ratio peaked in 2014–15 at 39.3 per cent and is now forecast at 37.1 per cent in 2017–18, below the forecast of 37.5 per cent for 2017–18 contained in the *2017 Budget.*
- The net debt-to-GDP ratio is forecast to remain below the 2014–15 peak and resume a downward trend in 2022–23.



Note: Net Debt has been restated to include broader public sector net debt, starting in 2005–06.
Sources: Statistics Canada and Ontario Ministry of Finance.

Total Debt Composition

- The Province's total debt is projected to be $348.8 billion as at March 31, 2018. The financial assets of the Province totalled $40.6 billion, bringing net debt to $308.2 billion.

Financial Assets
$40.6 Billion

Weighted-Average Term of Borrowing

- Maintaining a long average term of the Province's debt portfolio ensures low interest rates remain locked in for a longer period. This reduces refinancing risks and helps offset the impact of expected higher interest rates on the Province's future interest on debt costs.
- Going back to the beginning of fiscal 2010–11, Ontario has issued $71.3 billion of bonds with terms longer than 30 years to lock in low interest rates.

As of April 25, 2018

Risk Exposure and Management

Risk Exposures

- **Market Risk:** risk of loss due to changes in interest and foreign exchange rates
- **Credit Risk:** risk of loss due to default of issuers, dealers, or derivatives counterparties
- **Operational Risk:** risk of loss due to failed models, systems, processes, people, etc.

Risk Management

- Monitor and manage debt maturity profile to limit refinancing risk
- Maintain a high level of liquid reserves and short term borrowing capacity
- Enforce strict credit limits for financial and investment counterparties
- Have collateralized swap agreements in place for most swap counterparties

	Exposure*	Policy Limit*
Foreign Exchange	0.2%	5.0%
Net Interest Rate Resetting	10.9%	35.0%

*Of outstanding debt, as of March 31, 2018.

Note: Excludes Ontario Electricity Financial Corporation debt.

Liquidity and Short-Term Borrowing Capacity

- The OFA manages the Province's liquid reserve portfolio (cash and short-term investments) to optimize investment returns and to ensure that sufficient funds are available to meet cash requirements.
- Starting in 2019–20, the Province will have large cash outflows on single days, rather than having debt maturities spread more evenly through the year. In anticipation of the need for cash reserves to meet these requirements for large outflows on a single day, the Province began building larger cash reserves in 2017–18.

Average Unrestricted Liquid Reserve Levels
($ Billions)

Ontario Electricity Financial Corporation

OEFC is one of five successor corporations to the former Ontario Hydro established by the *Electricity Act, 1998* as part of the restructuring of the former Ontario Hydro. OEFC is the legal continuation of the former Ontario Hydro.

- OEFC is an agent of the Crown and is classified by Management Board of Cabinet as a board-governed provincial agency.
- OEFC has no staff of its own and retains the services of the OFA to carry out its daily operations on a cost-recovery basis. In addition, the Office of Tax, Benefits and Local Finance of the Ministry of Finance collects certain payments on behalf of OEFC (e.g., PILs, GRC, and, for amounts owing for the period to March 31, 2018, DRC revenues).

OEFC Mandate:

- Managing its debt, financial risks and liabilities, including the debt and certain other liabilities of the former Ontario Hydro;
- Managing the former Ontario Hydro's non-utility generator (NUG) contracts;
- Receiving all payments and administering other assets, liabilities, rights and obligations of the Corporation that were not transferred to another of the former Ontario Hydro successor corporations and disposing of any of these items as it deems appropriate or as directed by the Minister of Finance;
- Providing financial assistance to the successor corporations of Ontario Hydro;
- Entering into financial and other agreements relating to the supply and demand management of electricity in Ontario; and
- Performing any additional objects specified by the Lieutenant Governor in Council.

Ontario Nuclear Funds Agreement

- In March 2002, the Province and OPG signed the Ontario Nuclear Funds Agreement (ONFA).
- ONFA's objective is to ensure sufficient funds are available to pay for the future costs of decommissioning nuclear stations and disposing of nuclear waste and used fuel.
- ONFA came into force in July 2003 with the creation of two segregated funds, the Decommissioning Segregated Fund and the Used Fuel Segregated Fund, which are jointly managed by OPG and OFA, on behalf of the Province.
  - The combined market value of the funds was $4.9 billion when they were formally established in 2003. As of December 31, 2017, the combined market value of the segregated funds had grown to over $21 billion.

As of December 31, 2017	Market Value ($ Millions)	Combined Market Value ($ Millions)
Used Fuel Segregated Fund	$12,087	$21,186
Decommissioning Segregated Fund	$9,099	

- The OFA has responsibility for implementing certain portions of the Province's role under ONFA. This involves:
  - Due diligence on ONFA Reference Plan (which is subject to Provincial approval by the Minister of Finance) on cost and liability estimates and related submissions from OPG.
  - Due diligence and approval on ONFA Annual Budgets, and subsequent review of disbursement requests from OPG, that require approval by the Province under ONFA.
  - Due diligence on OPG's financial guarantee to the Canadian Nuclear Safety Commission (CNSC), as well as on any direct provincial guarantee to the CNSC when required to support of OPG's financial guarantee to the CNSC.
  - Determining and implementing investment management strategies and monitoring investment performance together with OPG.
  - Policy analysis and advice on and monitoring of regulatory and technological changes that may affect OPG's and the Province's liabilities with respect to the of nuclear decommissioning and waste management.

Loans and Investments for Public Bodies

Loans

- The OFA is able to provide loans to Ontario public bodies such as colleges, school boards and hospitals, as well as provincial corporations, boards and commissions that are consolidated on the Province's financial statements.
- The OFA provided new loans to a number of public bodies in 2017–18, totalling $2,427 million.
- The outstanding balance of the loans to public bodies at March 31, 2018 was $5,742.6 million, a net decrease of $260 million from $6,002.8 million at March 31, 2017.

Investments

- The OFA also invests on behalf of certain public bodies to help increase their returns by streamlining investment processes and reducing investment costs.
- In 2017–18, the OFA continued to provide investment services to a number of public bodies, including Infrastructure Ontario, the Pension Benefits Guarantee Fund, Ontario Trillium Foundation, Ontario Capital Growth Corporation and the Deposit Insurance Corporation of Ontario. As of March 31, 2018, total funds managed were approximately $2.2 billion.

Ongoing Borrowing Program and Credit Ratings

Decisions/actions required in the first 90 days after an election

Issue

Continued access to the capital markets is essential for the Province to complete its $31.7 billion borrowing program for this year. These funding requirements must be met to allow the Province to pay its bills and meet its financial obligations.

Current Status

- The Province's total long-term public borrowing program was forecast in the *2018 Budget* as $31.7 billion for the current fiscal year, $36.7 billion in 2019-20, and $41.3 billion in 2020-21. Of this $110 billion borrowing requirement over the next three years, approximately $75 billion is to refinance maturing debt, $32 billion to finance investments in infrastructure and $20 billion to finance deficits. These amounts add up to more than $110 billion with the difference primarily because the Ontario Financing Authority (OFA) prefunded almost $12 billion of 2018-19's requirements last fiscal year, thereby reducing this year's borrowing.

- In order for the Province to continue issuing bonds to complete its borrowing program effectively and within the rules laid out by securities regulators, the OFA must be made aware of the planned release of the government's key reports (including the Ontario Budget, Quarterly Finances, etc.) and any additional material announcements.

- In advance of a public announcement or government report, the Province voluntarily imposes a trading blackout period where it refrains from issuing bonds. This is done in order to help mitigate the risk of non-compliance with legal and regulatory requirements. The uncertainty of a report release date can affect the length of a blackout period. Knowledge of the timing of these reports and announcements ensures bond issues are not launched immediately in advance of these releases.

- As an example, the *2018 Budget* was presented to the Legislative Assembly of Ontario on March 28, 2018. Prior to its release, the Province was in a 30 day blackout period from issuing debt.

- Public announcements or statements by the government can also have an impact on investors' perceptions of the $308.2 billion of net debt that the Province has outstanding. This could lead to a change in the spread (or interest cost) that the Province has to pay over Government of Canada bonds and raise our Interest on Debt.

- As well as investors, credit rating agencies will be watching carefully for any comments from the government about the fiscal plan. For example, comments about a deterioration in the fiscal deficit or longer path to balance could impact the Province's credit ratings.

- A downgrade to the Province's credit ratings would result in higher interest rates on Ontario debt. Lower ratings could also lessen the number of investors able to buy Ontario bonds, or lower the amount of Ontario debt that each investor is allowed, by their internal limits, to hold.

- For 2018–19, the impact of a one percentage point change in interest rates on interest on debt is approximately $300 million.

Recommendation

In order for the Province to be able to issue bonds to meet its financial obligations and continue to access capital markets, the government should announce its high level policy and fiscal objectives and confirm the expected timing of the release of its key reports and/or material announcements.

Background

- The Province has a number of bond issuance programs – Domestic Medium Term Note (DMTN), Euro Medium Term Note (EMTN), Australian Debt Issuance, U.S. Medium-Term Note (USMTN) and Global shelf — all of which require continuous disclosure of the Province's key reports via "due diligence" calls with the underwriters and regulatory filings.

- The OFA maintains close relationships and ongoing dialogue with credit rating agencies throughout the year to keep them apprised of the government's financial status, policies and initiatives, and to ensure these are accurately reflected in the agencies' ratings and reports. Ontario currently maintains a double A rating with three of the four agencies.

Minister of Finance Specimen Signature

Decisions/actions required in the first 90 days after an election

Issue

The specimen signature of a newly appointed Minister of Finance is required to create a facsimile signature that will be reproduced on cheques and written authorizations when payments are made from the Consolidated Revenue Fund (CRF). The specimen signature will also be used to produce a signature stamp that can be applied mechanically to securities instruments issued by the Province. Delays in obtaining the specimen signature could result in payment disruptions.

Recommendation

Subsequent to the appointment of a new Minister, arrangements must be made as soon as possible to obtain the specimen signature of the Minister to create a facsimile signature and a signature stamp. As in the past, the Ontario Financing Authority (OFA) relies on the Minister's Office to coordinate a timely in-person meeting with the Minister for this purpose, during which OFA staff will provide the appropriate signature forms.

Background

Subsection 11(1.1) of the Financial Administration Act (the "FAA") requires that every cheque and written authorization making a payment out of the CRF be signed by both the Minister and either the Deputy Minister or a person authorized by the Minister. Currently the OFA's Chief Executive Officer and the Chief Financial and Risk Officer are authorized for this purpose.

Subsection 11(2) of the FAA permits the Minister to authorize use of facsimile signatures on cheques as well as written authorizations.

The previous Ministerial authority for making payments out of the CRF, as well as for issuing securities instruments, remains in effect when a new Minister is appointed. However, the signature of the new Minister must be obtained as soon as possible for use on cheques, written authorizations and securities instruments.

From: Opal Kandelas
To: Sarah Harris
Subject: RE: Proposal for Province of Ontario "s testimony for our new website
Date: Thursday, December 15, 2016 11:17:45 AM

Thanks for this. I'll send out the following. Did we recommend the LuxSE to financial companies?

1) Why did you decide to list at LuxSE ?

Starting in approximately 2010, the Province started to experience difficulties and inconsistencies with the application process for listing its bonds ~~on the EU-regulated stock exchange it was using at that time~~. This led to unexpected, lengthy delays in listing the Province's bonds, resulting in significantly increased costs and resources allocated to the listing application process.

In 2012, the Province learned that other prominent sovereign issuers had chosen to list their bonds on the Euro MTF market. This impelled the Province to explore the possibility of listing its bonds with LuxSE.

The LuxSE presented the Province with a viable option for listing its bonds that was more efficient and timely, and less costly.

2) What aspect of your experience with us stands out most?

Promptness - The LuxSE Prospectus Approval Officers act professionally and promptly respond to questions. The time taken to review the prospectus for the issued bond is approximately 3 business days. Importantly, the Province has not been delayed in listing a bond on the date which it specifies in its prospectus approval form. The LuxSE invoice is sent to us on the closing date of the bond to affirm listing the following business date.

3) Would you recommend LuxSE to anyone and why?

Given the positive experience dealing with LuxSE, the Province would recommend LuxSE to other sovereign and financial companies.

4) What is LGX adding to your green visibility and commitment to transparency? Is it helping your communication to investors?

The Province of Ontario has led the way for Green Bond issuance in Canada, as the first Canadian province to issue a Green Bond (with a first Green Bond issued in 2014, and a second issued in 2016).
We have developed extensive Green Bond materials for investors and always look for platforms that allow us to achieve the greatest investor reach.
By having our Green Bonds listed on the LGX, we hope to attract new investors to our Green Bond issues and further diversify our investor base.

Hi Sarah,

Could you please have someone from your group prepare answers to questions 1-3 below. There is a summary of the benefits for moving from the UKLA to the Lux in the e-file, which should make light work of it. Also fine to add anything positive from our recent interaction as well. Come to think of it, I don't think there is even one downside to moving, but let me know if that is not correct for my own information – wouldn't want to include that in the answers. Impose whatever timeline you feel is reasonable.

Thanks,
Opal

Subject: Proposal for Province of Ontario 's testimony for our new website

Hi Opal,

I hope this email finds you well since our contact at the launch of LGX.

If it's not too much trouble I was wondering if you could help us out.

Our marketing team is working on a new website and they would wish to include a written testimony from a few close partners. Seeing as your group stands out as a green bond issuer and as you also know our LGX business, would you allow for them to get in contact with you?

The aim of the testimony is to showcase the benefits of listing on our stock exchange from your peculiar perspective, but also to provide a fair and balanced account of your own experience with us.

The questions they want to ask are :

1) Why did you decide to list at LuxSE ?

Starting in approximately 2010, the Province started to experience difficulties and inconsistencies with the application process for listing its bonds ~~on the EU-regulated stock exchange it was using at that time~~. This led to unexpected, lengthy delays in listing the Province's bonds, resulting in significantly increased costs and resources allocated to the listing application process.

In 2012, the Province learned that other prominent sovereign issuers had chosen to list their bonds on the Euro MTF market. This impelled the Province to explore the possibility of listing its bonds with LuxSE.

The LuxSE presented the Province with a viable option for listing its bonds that was more efficient and timely, and less costly.

2) What aspect of your experience with us stands out most?

Promptness - The LuxSE Prospectus Approval Officers act professionally and promptly respond to questions. The time taken to review the prospectus for the issued bond is approximately 3 business days. Importantly, the Province has not been delayed in listing a bond on the date which it specifies in its prospectus approval form. The LuxSE invoice is sent to us on the closing date of the bond to affirm listing the following business date.

3) Would you recommend LuxSE to anyone and why?

Given the positive experience dealing with LuxSE, the Province would recommend LuxSE to other sovereign and financial companies.

4) What is LGX adding to your green visibility and commitment to transparency? Is it helping your communication to investors?

If you have time to answer these questions my colleagues (copied) can schedule a call and you can reply over the phone. Alternatively feel free to reply to any or all of these questions by written.

Grazie mille et a presto.

Confidential and Privileged Legal Advice

The below note is a summary of preliminary concerns with the draft term sheet for a Provincial Support Agreement (the "Guarantee") raised by MOF LSB, Ministry of Energy LSB and the Province's outside counsel, Blakes. The concerns are grouped in categories for convenience.

Beneficiaries – The Guarantee's description of proposed beneficiaries is very broad. The Guarantee provides that the legal beneficiary is the Indenture Trustee under the Master Trust Indenture on behalf of itself and all persons that have claims against the Financing Entity secured under the master trust indenture. This would include persons ranging from the Financial Services Manager (OPG) to holders of various types of debt and hedge counterparties. Because we have not seen a term sheet for the Master Trust Indenture, we cannot be sure of the actual extent of beneficiaries.

- Need to clarify which obligations the Province is being requested to guarantee and under what various agreements to determine scope and limit of guarantee.
- Should the subordinated notes (held by OPG) be guaranteed?
- Should the beneficiaries be limited to holders of the notes issued by the financing entity?
- Is there a term sheet for the proposed financing to be issued by the Financing Entity?
- Is there a request for a guarantee of payment on other back-up or ancillary borrowing and obligations other than those issued in the market?
- Is there a draft of the Master Trust Indenture?

Scope of Financial Guarantee – The proposed Guarantee is not restricted to any particular debt offering or related transaction. Rather, it is currently framed as a "program-wide" guarantee that encompasses any and all future transactions undertaken by OPG in connection with this initiative. This is too broad and the Guarantee should be limited to individual transactions and specified creditors, negotiated at the time of each transaction.

Term of Guarantee – Currently the Guarantee continues for one year beyond the last obligation to be repaid. This does not seem necessary and it should end when the last repayment is made.

Performance Guarantee – The province does not typically provide performance guarantees. Blakes noted that performance guarantees are quite typical in structured finance offerings and that they are generally regarded as being less onerous than an

outright payment guarantee (because the guarantor is only guaranteeing the performance of certain specified obligations, as opposed to the payment of the underlying obligation). Ultimately the performance guarantee may result in a payment if the Province cannot compel performance.

Usually a performance guarantee is given by a parent, where some of the obligations rely on the actions of subsidiaries. However, under the current structure of the Term Sheet, Ontario would be guaranteeing the performance obligations of Local Distribution Companies (LDCs) directly and since these are not akin to subsidiaries and the Province has very little authority to compel performance by LDCs, this type of guarantee could expose the Province to some difficulty if an LDC ever failed to perform. Therefore, it would be appropriate that the performance guarantee should be limited to the performance of the Independent Electricity System Operator (IESO). The IESO, on the other hand, may have direct relationships with the LDCs, and it may be more appropriate for some type of commitment for the performance of the LDCs to be made by the IESO.

Payment Guarantee – There are three triggers of this part of the guarantee: (1) changing the legislation or regulations to undermine the future payment stream constituting the regulatory asset; (2) the legislation and/or the fair hydro plan being deemed by a court to be unconstitutional or unenforceable; and (3) a liquidity problem that makes it impossible to continue financing the structure or to refinance maturing debt.

With respect to the changes in law, because the Fair Hydro Plan is modelled on some US transactions, a concern has arisen that there is no legal barrier in Canada to changing the law or passing a law that undermines the value of the regulatory asset and the repayment of the obligations. Therefore, it may be that a payment guarantee triggered by adverse legislative action would go a long way to reassure potential investors and he thought that this kind of assurance (at least in some form) will be necessary to support any transaction. However, the kinds of future legislative actions that would trigger a Payment Guarantee Event are framed in vague terms. This could mean that a Beneficiary of the guarantee would try to trigger the guarantee even where there was no repayment failure, but only upon a theoretical diminution in the value of the regulatory asset or some kind of timing issue that delays payment, but not in a material way that undermines the repayment capacity of the Financing Entity.

The second trigger, arising from a finding that the structure is unconstitutional or otherwise unenforceable at law, should also be narrowed to only apply to a “final, non-appealable decision”, otherwise a lower court ruling that is not upheld and does not

unwind the structure could trigger a claim on the guarantee even where there is no risk of payment default.

Similarly, Blakes suggested that the concept of "market disruption" in the Term Sheet is also too vague and would unreasonably expose the government to risks around future refinancing transactions (*i.e.*, by effectively requiring Ontario to be the "standby purchaser" of any securities in the case of a lack of liquidity in the financial markets). This is the type of risk that is probably best addressed at the time such a risk arises, as it is impossible to predict the context and effect of such an event.

The put option is of particular concern because the current model might allow noteholders to require the province to buy back their investments in response to regulatory amendments affecting the value of their investments in only incidental or immaterial ways. Blakes cautioned that we need to guard against providing a form of assurance that enables U.S. hedge funds to hold the government hostage for the next 30 years.

Further action items and questions:

- **Time Lines and Communication with OPG** – We need to understand where this Guarantee fits into the transaction and find out why it is moving forward at this early stage. The Province needs to communicate to OPG that the Province does not agree with this draft term sheet and is not implied to be something the Province is agreeing to at such a preliminary stage.

- **Market Demands** –What precisely is the market going to demand to support the transaction? The Province's interest would seem to be in providing the most limited guarantee that is both (i) necessary to support the transaction; and (ii) ensures the highest value for both ratepayers and taxpayers.

Yes, I agree that it would make sense to loop in Scott on this since I understand that he is also involved in this project and it may be that he would also be one of the Provincial attendees to attend the meeting with Blakes. Since I have not been involved in previous calls with Scott in this, it may be best if someone from the OFA contacts him on this.

Hi all,

We had a very useful meeting with Blakes (Steven Ashbourne) and Energy Legal this morning. There are quite a few legal issues and concerns to discuss regarding this term sheet as it is overly broad. At this point in the development of the province's role in support, it seems that the development of this type of term sheet is premature given the uncertainties.

At our meeting we discussed, that a useful next step would be to have another meeting with Provincial representatives and Blakes which would include yourselves from the OFA, Energy legal and Energy reps as well as the Provincial Controller and likely TD as well as the Province's financial advisor so that we can all discuss next steps and the best approach.

In the meantime, Toby and I can have an internal call to give you an update on our meeting this morning. Possibly at 3pm today if that works.

Thanks.

Malle

Hi all,

We had a very useful meeting with Blakes (Steven Ashbourne) and Energy Legal this morning. There are quite a few legal issues and concerns to discuss regarding this term sheet as it is overly broad. At this point in the development of the province's role in support, it seems that the development of this type of term sheet is premature given the uncertainties.

At our meeting we discussed, that a useful next step would be to have another meeting with Provincial representatives and Blakes which would include yourselves from the OFA, Energy legal and Energy reps as well as the Provincial Controller and likely TD as well as the Province's financial advisor so that we can all discuss next steps and the best approach.

In the meantime, Toby and I can have an internal call to give you an update on our meeting this morning. Possibly at 3pm today if that works.

Thanks.

Malle

CONFIDENTIAL AND PRIVILEGED LEGAL ADVICE

ISSUES LIST – PROVINCIAL SUPPORT AGREEMENT DRAFT MAY 12, 2017

1. Guarantor will be the Minister of Energy and the Minister of Finance on behalf of the Province (see. 5(3) of proposed Fair Hydro Act, 2017).

2. Description of proposed beneficiaries of guarantee is very broad. Provides that beneficiary is Indenture trustee under master trust indenture on behalf of itself and all persons that have claims against a Financing Entity secured under the master trust indenture. Persons range from the Financial Services Manager (OPG) to holders of various types of debt and hedge counterparties. Need to clarify which obligations the Province is being requested to guarantee and under what various agreements to determine scope and limit of guarantee. Is there a term sheet for the proposed financing to be issued by the Financing Entity? Is there a request for a guarantee of payment on other back-up or ancillary borrowing and obligations other than those issued in the market? Is there a draft of the Master Trust Indenture?

3. Why does the term of the guarantee continue for one year after the obligations have been repaid?

4. Performance Guarantee – This is also a very broad guarantee of performance of the IESO and all electricity services providers in favour of the same broad group of beneficiaries. How can the Province ensure that these entities perform their obligations practically? Also the Province is to protect beneficiaries from any commingling risk. It is noted that in the event the performance guarantee is unenforceable against the Province, there would be a separate legal obligation in the provincial support agreement to indemnify beneficiaries for any losses. Would there be any trigger events applicable to the obligation to indemnify as there are for the payment guarantee. If not, is this an issue for accounting treatment purposes? Also, is there an overlap between the performance and payment guarantee? So long as the funding obligations are paid on time by the financing entity, is there a need for other guarantees from the Province? Note that the Province does have immunity from specific types of enforcement under the Proceedings against the Crown Act. Is there a sample term sheet for the Master Sale and Servicing Agreement? Which provisions of the proposed bill are being relied on for this – is it section 5(2)? section 33. There doesn't seem to be a mechanism in the Act to replace the IESO as servicer. Should the Guarantee specify that the Province can appoint a replacement servicer?

5. Payment Guarantee Event – Regarding (B) and (C), the interpretation of when the triggering event has occurred will be an issue – is there a way to make it more objective or how can this be handled if there is a dispute? Regarding (D), think that there is going to be more discussion of the need for this provision from a business perspective. However, is this assuming, that the Province is guaranteeing both long term and short

term funding obligations? Need to clarify when and which obligations the province will be guaranteeing?

6. Payment Guarantee – Again it will be necessary to clarify which obligations the province is guaranteeing to understand what the range of payments to be made are. Also, (y) does not seem acceptable to the Province from a business perspective.

7. Limits under Guarantee – The guarantee wording should be clear so that the Province is guaranteeing payment of certain debt or specific obligations only and the Province's liability should be capped. Province should not be exposed to the risk of any other types of damages or losses.

8. Priority of Payments – Until we know who the beneficiaries are and with respect to what obligations, it is difficult to comment on this.

9. Subrogation – Need to ensure that the Province has appropriate recovery rights and not sure that it is appropriate that all beneficiaries are paid in full before Province gets subrogation rights. Also there is no acceleration here and Province really pays on an ongoing basis so how should subrogation work in such a case.

10. Conditions Precedent – Need to know what they are proposed to be.

11. Representations – Need to know what they are proposed to be as Province does not typically provide representations in connection with guarantees it provides.

12. Confidentiality Obligations – Thought the guarantee is part of a public financing so wouldn't the terms all be known?

13. Legal Opinions – Content, who will be providing them and to whom would they be provided.

General Questions on proposed legislation and interaction with guarantee:

14. General review of relevant sections would be appreciated and how the provisions fit with the requirements of the financing. In particular, s. 5, 13, 19, 21, 22, 33, 41 par 7

Provincial Support Arrangement

Here are some questions to frame our discussion at 9 a.m. this morning, based on the May 12th version of the Term Sheet:

1. Should the Province's support covenant run in favour of the indenture trustee (for beneficiaries) or only the finance entity and be pledged? This may impact matters such as whether the Province is seen as a 'co-issuer' under US securities laws and perhaps the Province's accounting treatment.

2. Should the support covenant be given in respect of all potential claimants from the financing entit(y/ies), or only specified creditors? For example, should the 'subordinated notes' be given the full benefit of the support covenant?

3. Should the support covenant be given up-front in an open-ended, program-wide fashion, or be given in relation to individual transactions and specified creditors of the financing entity at the relevant time of transacting and only for the duration of the relevant underlying obligations?

4. Should the support covenant purport to extend to more than one financing entity?

5. Extending the arrangement to 1 year beyond the latest obligation (broadly construed) essentially means the support covenant will hang out there indefinitely – is this intended?

6. Is the scope of the "performance guarantee" (i.e., servicing, commingling; EV's and IESO) appropriate? Should we make clear that it would not extend to "seller" obligations arising under the MSSA? Can the Province commit to "perform or cause the performance" as a powers matter?

7. Consider the deletions of the "Performance Guarantee Event" concept. As marked up, the performance guarantee would not require any process to first pursue remedies against IESO.

8. If a "payment guarantee" is to be provided, it will raise issues for the Province, including accounting treatment and scope of the support undertaking. Has this sort of investigation been undertaken by the Province at this point?

9. Consider the overall scope of the "payment guarantee event" provision. Issues include the risk that an amendment of the Act or Regulation has a non-material, incidental impact on the timing of payment (i.e., the receipt of funds from an EV), which triggers an effective put at a premium. Another is that a lower court finding of *ultra vires* could trigger the obligation, rather than a "final, non-appealable decision".

10. Should the support arrangement extend to cover "invalidity" or "unenforceability" (see (C) under "Payment Guarantee Event") that arises for reasons other than the validity of the Act and Regulation (e.g., if the actual funding obligation, which the Province may not even be aware of, is impugned for an unrelated reason, such as entity governance or contracting issues)?

11. The "market disruption" provision (see (D) under "Payment Guarantee Event") needs considerable further thought and refinement (e.g., as proposed, the event is based on the ability to refinance the particular funding obligations, rather than "general market disruption"). Is the Province prepared to be a standby purchaser of any funding obligations in any market-based illiquidity scenario? Note that private market liquidity or "extendable note features" may be available at a cost. In any event, support from the Province of this type should probably only be addressed very specifically and at the time of the specific transaction and narrowly with respect to the obligations for which this sort of protection is specifically required. Note that depending on the maturities incurred under the financing plan, this could cause a major funding requirement for the Province.

12. The "stand-in" payment provisions contemplated in clause (x) under "Payment Guarantee" need to be better understood. Assuming that they result in the rating of any bonds being downgraded to the Province's then rating, should the Province have a redemption option in that scenario?

13. The "put at a premium" provisions contemplated in clause (y) under "Payment Guarantee" would need to be refined so that the entire structure (i.e., all related finding obligations, such as swaps, sub debt and liquidity commitments) would be 'unwound' in total, rather than only certain debt to avoid standing or perpetuating attendant obligations. Is the 101% pay-out always appropriate? If the Province is liable for payments under obligations, will it need certainty as to the underlying terms and conditions?

14. What is the consequence of the market disruption scenario described in (D) under "Payment Guarantee Event" – it doesn't seem to be covered under "Payment Guarantee"?

15. The postponement of subrogation rights is a problem. In effect, a payment to a senior ranking creditor would provide credit enhancement to all junior ranking obligations which may not have been the intended beneficiaries of the support arrangement (including service providers and sub debt). The general approach to subrogation needs to be considered at the time of incurrence of a funding obligation in relation to the particular scenario and circumstances.

16. "Notice", "Closing", "Governing Law" and other mechanics will need to be revised as required to the extent that the provision of support is intended to be transaction-specific, creditor-specific, etc.

17. To the extent that the support is given up-front, the Province will need to have the benefit of its own very specific condition precedents, including to approve each future transaction and finding obligation – would this disrupt the accounting treatment anticipated for OPG based on excessive control over financings?

18. Consider whether accepting or acknowledging "customary representations" and "customary confidentiality obligations" in this context makes sense. Customary for the Province?

19. Has anyone considered the Province's related governance requirements and related due diligence (e.g., the implications of a US offering under US securities laws). In the absence of a structure and contracts, how can the Province be assured that it is not

inadvertently becoming liable for unintended obligations, duties and liabilities (e.g., servicer buy-backs; "servicer advances"; entity-level tax payments; etc.)?

20. Has the Province's own accounting treatment for these been investigated? What limitations should be tabled at this stage?

21. Does the Province have concerns regarding potential for incongruences between the level of actual "independence" from the Province and public perception in relation to the OFHPA generally?

Subject: RE: Question - OIC for new IESO Credit Facility
Date: Tuesday, May 30, 2017 1:29:36 PM

Hi Mike,

The OIC is drafted using wording that is similar to the wording already being used in the existing OICs where the OFA borrows money from the Minister (i.e. underpinning college loans, existing IESO-OFA Credit Facility, etc.).

The OIC permits the OFA a couple of options:

(i) the OFA simply borrows funds from the Minister without lending to 3rd parties. In that case, the OFA would pay to the Minister at a rate equal to **the 90 day ONT T-Bill yield, reset every 90 days.** For **the purpose of this OIC (**that is, for the OFA to lend funds to IESO) **this provision would not be used**.

(ii) the OFA borrows funds from the Minister and then lends those funds to 3rd parties. In this case, the OFA would pay the Minister at the rate **equivalent to the rate of interest payable to the OFA under 3rd party loan, less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans. This would be the section applicable to for the OFA lending to IESO. In this circumstance, the OFA can charge IESO Ontario's cost plus 25bps; the OFA would then pay the Minister at this rate, less an amount as may be determined by the Minister.

So the short answer is that, under option (ii), the OFA can charge IESO's cost of plus 25 bps, and then the OFA must pay the Minister at the same rate on the funds, less an amount determined by the Minister. The fact that the Minister decides the amount to be deducted gives us flexibility in determining the spread to deduct when paying back the Province.

The only time option (i) comes into play is IF the OFA ever wants to borrow funds from the Minister without lending those funds to third parties.

Sarah

Cc: Opal Kandelas <Opal.Kandelas@ofina.on.ca>; Salman Qadir <Salman.Qadir@ofina.on.ca>
Subject: FW: Question - OIC for new IESO Credit Facility

Hi Mike,

I originally sent this e-mail below to Linda and she thought it looked fine, but she thought I should also run it by you.

As part of putting in place the new credit facility between IESO and the OFA, a new OIC is required for the OFA to borrow from the Province, so the Province may in turn make loans to IESO. As matter of prudence, I am asking is for you to review the rates that the OFA pays to the Province in the OIC are still appropriate. The OIC package must go to the DMO today.

In short, the rates included in the OIC are effectively the same as the existing OIC underpinning the $975 million credit facility between the OFA and IESO. Specifically, section(c)(ii) of the OIC says if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

The OIC also contains a more general borrowing rate. That is, Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** However, for the purposes of this OIC, it is unlikely that this section would ever be used.

Again, both rates above are consistent with existing OICs.

Please let me if these rates look okay.

Thanks,
Sarah

Cc: Opal Kandelas <Opal.Kandelas@ofina.on.ca>
Subject: Question - OIC for new IESO Credit Facility

Hi Linda,

As a matter of prudence, I just wanted to check with you on one aspect of the draft OIC for OFA to make loans to IESO under the proposed credit facility in relation to the Fair Hydro Plan. The OIC package will be delivered today to the DMO, but I wanted to confirm with you that the rates that under the Section (c) of the attached OIC are still appropriate (perhaps it is I should be asking Mike?, but since this is IESO related, I wanted to check with you first).

Section (c) deals with the rates the OFA pays to the Minister for any funds it borrows, and is essentially the same as the OFA's existing OIC from 1999. Section (c)(i) says if the OFA simply borrows funds from the Minister (which have not been loaned to a third party), the OFA pays the rate equal to **the 90 day ONT T-Bill yield.** Section(c)(ii) says that if the OFA uses the borrowed monies to fund 3rd party loans, then the rate will **be equivalent to rate of interest payable to the OFA under 3rd party loan less an amount as may be determined by the Minister of Finance** in respect of such Third Party Loan or a class of such Third Party Loans.

Please let me know your thoughts.

Thanks,
Sarah

Importance: High

Will,

Please find attached the following documents signed by IESO:

1. Amending Agreement #10 to the Jan. 1, 2005 Credit Agreement;
2. Certified IESO Board Resolution and Incumbency Certificate;
3. Scan of the $2 Billion Grid Note.
4. Intercept Letter Agreement.

I will send the new Revolving Credit Facility Agreement in relation to FHP under a separate email immediately following.

We have already overnighted the original grid note for $2 billion and an original Intercept Letter signed by all parties. Per your request, we will send original agreement signature pages for both agreements as well – can we send those tomorrow or do you need the overnighted too?

Let us know. We look forward to receiving your confirmation of closing.

Victor

Hi Victor,

My apologies. Please scan the separated $2B and $475 MM Grid promissory notes. Forward the $2B promissory note but hold on to the $475MM Grid Promissory Note until November 21.

- Resolution of the Board of Directors
- Incumbency Certificate
- Intercept Letter
- $2 B Grid Promissory Note
- $475 MM Grid Promissory Note

Yes, please forward the documents to myself.

To: Victor Buza; Anthony Martinello
Cc: Lisa Stein; Sarah Harris
Subject: FW: Signatures for FHP and Amending Agreement No. 10

Hi Victor,

Thank you for the update. When you send the soft copy signatures, would it be possible to include the signatures within the agreements?

You were probably going to include the following signed soft copies anyway but out of caution I have listed them below:

- Resolution of the Board of Directors
- Incumbency Certificate
- Intercept Letter
- $2 B Grid Note
- $475 MM Grid Note

Hardcopy of the Intercept Letter and $2B Grid Note – overnight delivery is fine.

Per s. 16 AA #10 - Anthony and I discussed on Friday that $475MM Grid note would be signed today but held by IESO until November 21. After the borrowing notice and election notices are actioned, OFA will produce the grid notes to evidence payment and advancements. IESO will then send the new $475MM prom note to OFA. Once received OFA will send the $975MM cancelled prom note to IESO.

Thanks,

Will

Hi Opal,

Please see below. Also, I will be working from home tomorrow.

Thanks,
JF

ITEM

IESO – provide guidance to Will and Kelly on amending agreement and new FHP facility; early August deadline

Citibank – need to discuss rounding approach with Citibank - emailed Citibank today

T+2 – coordinating with CDS and LSB; CDS confirmed language is fine two weeks ago; LSB currently reviewing suggested process for FRNs and auctions; will need to purchase block of ISINs in the near future; expect to hold conference call with Malle later this week per her suggestion

Green Ontario Fund – commented on draft SIPP and provided suggestions to Sarah and Ryan, conference call with Ryan, Corporate Finance, Parvez and MOECC last week

US Counsel RFP –timeline established for Aug-Sep 2017 with LSB, drafted 'fee cap language' for Sarah and LSB's review and consideration on July 5, 2017; need to make a determination on whether or not to include flat fee/fee cap

CDS Fees –monitor 'event fees' for DMTN235 on upcoming August 2017 CDS invoice pursuant to instructions sent to CDS on July 11, 2017; back and forth with CDS and what fees should not apply (e.g. paying agent fees)

Invoice Process – sent new suggested invoice process to Sarah on July 18, 2017, follow-up upon return from vacation

ACE and OICs – assist Andrea and Ryan with ACE testing, provide guidance on ACE logic and fixes, act as back-up for OICs as needed

Q1 Release – Sarah asked me to follow-up this week, expected release is August 11, 2017 per Opal. Karin to handle EDGAR and Andrea non-EDGAR filings

CCMR – keep apprised of any developments, unable to obtain copy of Cabinet submission - I anticipate that the major exemptions will be contained in the Regulations at this stage

T-bill Process – assisted TD in getting original RFP and submission from 2002 last week and forwarded to Malle; still need to consider 'option 4 re: BEO SSA amendments'

OSBs – no change for 2017; post August 31st environment okay as confirmed by CDS; part of bigger legal piece re FAA delegation and agent actions under STA for LSB's consideration

FAA Amendments – consider next steps and prepare note for LSB outlining approach – accrued interest first and possible commissions – no Fall bill required per Sarah and LSB; obtain certifications from other government issuers if possible.

RBA Bond Basis – still need to determine if the inconsistent language creates any financial risk for the Province; my view is that it probably does not since we are dealing with a highly hypothetical scenario and accrued interest, if a problem, would be adjusted manually and washed-out via a buyback ticket by the traders

Training – provide on-going guidance and training to Ryan, Sab, Andrea

LGX Application – waiting for comments from LSB on LGX Application, this item it not time sensitive until the next 'new' green bond deal. Dimitri and/or Patrick to review in August

Good morning Opal,

1. IESO

FHP Credit facility agreement - Lisa is making inputting small changes. Hopefully this goes out today as a final to IESO.

AA10 - Wording is finalized. IESO's outstanding balance they sent us last week was confusing. We will clarify this to align with the amended grid note in the coming days.

2. OLMS report/OILC Loan confirmation improvement.
3. Update T-bill procedure manual – pending test of new procedures before I document them.
4. Bond exchange procedures – drafts submitted.

We "advertise" that Ont. Green bonds are listed on the Euro MTF as well as the Green Exchange, so it would be good to have any details worked out before the next one – granted, there is what I would hope is sufficient time to get that done.

CDS is proposing a conversion from physicals to NCI during the month of Oct.

In terms of T-bills, if I remember correctly, Ont. would need to determine if (with proper controls in place), we can ask our agent to perform certain functions in CDSX so that it makes it clear that the agent is just the "button pusher" not the "issuer". CDS would then have to give the agent a pass in its rules, by not binding Ont. to the actions of our agent. Knowing CDS, it's a tall order, especially if there's **nothing** it in for them! I haven't pursued this as I can't provide a carrot (that I can live with) nor a stick big enough to encourage CDS to change its rules. Let me know if you have any suggestions.
Opal.

Subject: RE: Status update

Hi Opal,

TD (Cheryl Butcher) was looking for a copy of their original submission and emailed Sarah and she delegated to me – the original RFP and TD's submission were made in 2002 and Sarah requested that I reach out to Banking and LSB. Banking was able to provide copies which were sent to TD and LSB. TD said there were staffing changes and they were unable to find their copies.

The 'option 4 re: BEO SSA amendments' pertains to Fran Daly's suggestion at our last meeting with CDS that we could consider amending the BEO SSA with CDS and our IPA agent as a long-term solution for T-bills. This was offered by Fran as a possible alternative to adhering to standard MM issuance practices or becoming a participant.

Thanks for the clarifications on OSBs. Does this mean that after October 2017, they will no longer accept ANY certificates for OSBs?

There may be some small concerns with the LGX application and this remains on Patrick's plate. I am hoping that LSB will not have any major concerns and had reached out to the LuxSE on this when we re-opened the green bond. The LuxSE has confirmed to me in writing that they would be willing to negotiate the LGX application contents with us if necessary.

Thanks,
J-F

Hi J-F,

Thanks for this. TD had contacted me as well regarding a copy of the RFP. It wasn't clear specifically what they were after. I followed up with TD but got no response. Were they just after the fee agreement?
Re: below – what is meant by "still need to consider 'option 4 re: BEO SSA amendments"?

Just to follow up on the OSB note below, CDS sent an email saying no changes are expected until October. I have yet to respond, but will at some point.

I didn't realize that the Lux green green exchange application was still outstanding. Are there any significant concerns?

Opal

Hi Opal,

As requested, please find below a summary of the matters I am currently involved in.

Regards,
JF

ITEM

IESO - provide guidance to Will and Kelly on amending agreement and new FHP facility; early August deadline

T+2 – coordinating with CDS and LSB; CDS confirmed language is fine two weeks ago; LSB currently

reviewing suggested process for FRNs and auctions; will need to purchase block of ISINs in the near future; follow-up with LSB this week

Green Ontario Fund – commented on draft SIPP and provided suggestions to Sarah and Ryan

US Counsel RFP –timeline established for Aug-Sep 2017 with LSB, drafted 'fee cap language' for Sarah and LSB's review and consideration on July 5, 2017; follow-up by this week

CDS Fees –monitor 'event fees' for DMTN235 on upcoming August 2017 CDS invoice pursuant to instructions sent to CDS on July 11, 2017; back and forth with CDS and what fees should not apply (e.g. paying agent fees); assisted Martine with CDS fee questions yesterday for OSBs

OILC – provided guidance to Will and Settlements on early repayment request from Sherry and agreement interpretation

Invoice Process – sent new suggested invoice process to Sarah on July 18, 2017, follow-up upon return from vacation

ACE and OICs – assist Andrea and Ryan with ACE testing, provide guidance on ACE logic and fixes, act as back-up for OICs as needed

Q1 Release – Sarah asked me to follow-up this week, expected release is August 11, 2017 per Opal. Karin to handle EDGAR and Andrea non-EDGAR filings

USD Potential Deal – 50/50 chance (last week) per Jim, explored EMTN 144A offering vs. US MTN vs Global; answered questions for the Funding Desk; ensure accuracy with flow back letter on the next Global deal further to call with Shearman in June 2017

CCMR – keep apprised of any developments, unable to obtain copy of Cabinet submission - I anticipate that the major exemptions will be contained in the Regulations at this stage

T-bill Process – assisted TD in getting original RFP and submission from 2002 last week and forwarded to Malle; still need to consider 'option 4 re: BEO SSA amendments'

OSBs – no change for 2017; post August 31st environment okay as confirmed by CDS; part of bigger legal piece re FAA delegation and agent actions under STA for LSB's consideration

FAA Amendments – consider next steps and prepare note for LSB outlining approach – accrued interest first and possible commissions – no Fall bill required per Sarah and LSB; obtain certifications from other government issuers if possible.

RBA Bond Basis – still need to determine if the inconsistent language creates any financial risk for the Province; my view is that it probably does not since we are dealing with a highly hypothetical scenario and accrued interest, if a problem, would be adjusted manually and washed-out via a buyback ticket by the traders

Training – provide on-going guidance and training to Ryan, Sab, Andrea

LGX Application – waiting for comments from LSB on LGX Application, this item it not time sensitive until the next 'new' green bond deal. Would not apply to any re-openings of existing green bonds

Hi Opal,

This is the time table I provided to IESO to get their buy-in and have them feel more obligated to the timelines a little more. I expect some time slippage, but hopefully it doesn't happen.
I'm hoping that IESO will accept my changes to the Amending Agreement 10. After that I will need to provide them with a new grid note, then they can provide physical signatures in the coming weeks.
I hope to get the their comments on my first draft of the $2B Credit Facility today. I will be sending them a reminder at noon.

Time Table

Date	Action	Action required by Group
July 24, 25	Amending Agreement 10 (AA10), provide	IESO

	comments/accept changes.	
July 25	Check-in with IESO that the Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) is being completed.	Documentation
July 25	FHP Credit Facility, receive comments from IESO.	IESO
July 26	AA10, Request for updated Grid note amounts and request IESO for original signatures.	Documentation
July 26	FHP Credit Facility, comment and forward to OFA Legal. Documentation.	Documentation
July 27, 28	FHP Credit Facility, back and forth between Documentation and OFA Legal.	Documentation/OFA Legal
July 31	FHP Credit Facility, draft 2 back to IESO.	Documentation/OFA Legal
August 1	AA10, executed by IESO and physical sent OFA for counter signature. Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy).	IESO
August 4	FHP Credit Facility, executed by IESO and physical sent OFA for counter signature. Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy).	IESO

Hi Opal,

As requested, please find below a summary of the matters I am currently involved in.

Regards,
JF

ITEM

IESO - provide guidance to Will and Kelly on amending agreement and new FHP facility; early August deadline

T+2 – coordinating with CDS and LSB; CDS confirmed language is fine two weeks ago; LSB currently reviewing suggested process for FRNs and auctions; will need to purchase block of ISINs in the near future; follow-up with LSB this week

Green Ontario Fund – commented on draft SIPP and provided suggestions to Sarah and Ryan

US Counsel RFP –timeline established for Aug-Sep 2017 with LSB, drafted 'fee cap language' for Sarah and LSB's review and consideration on July 5, 2017; follow-up by this week

CDS Fees –monitor 'event fees' for DMTN235 on upcoming August 2017 CDS invoice pursuant to instructions sent to CDS on July 11, 2017; back and forth with CDS and what fees should not apply (e.g. paying agent fees); assisted Martine with CDS fee questions yesterday for OSBs

OILC – provided guidance to Will and Settlements on early repayment request from Sherry and agreement interpretation

Invoice Process – sent new suggested invoice process to Sarah on July 18, 2017, follow-up upon return from vacation

ACE and OICs – assist Andrea and Ryan with ACE testing, provide guidance on ACE logic and fixes, act as back-up for OICs as needed

Q1 Release – Sarah asked me to follow-up this week, expected release is August 11, 2017 per Opal. Karin to handle EDGAR and Andrea non-EDGAR filings

USD Potential Deal – 50/50 chance (last week) per Jim, explored EMTN 144A offering vs. US MTN vs Global; answered questions for the Funding Desk; ensure accuracy with flow back letter on the next

Global deal further to call with Shearman in June 2017

CCMR – keep apprised of any developments, unable to obtain copy of Cabinet submission - I anticipate that the major exemptions will be contained in the Regulations at this stage

T-bill Process – assisted TD in getting original RFP and submission from 2002 last week and forwarded to Malle; still need to consider 'option 4 re: BEO SSA amendments'

OSBs – no change for 2017; post August 31st environment okay as confirmed by CDS; part of bigger legal piece re FAA delegation and agent actions under STA for LSB's consideration

FAA Amendments – consider next steps and prepare note for LSB outlining approach – accrued interest first and possible commissions – no Fall bill required per Sarah and LSB; obtain certifications from other government issuers if possible.

RBA Bond Basis – still need to determine if the inconsistent language creates any financial risk for the Province; my view is that it probably does not since we are dealing with a highly hypothetical scenario and accrued interest, if a problem, would be adjusted manually and washed-out via a buyback ticket by the traders

Training – provide on-going guidance and training to Ryan, Sab, Andrea

LGX Application – waiting for comments from LSB on LGX Application, this item it not time sensitive until the next 'new' green bond deal. Would not apply to any re-openings of existing green bonds

Hi Will,

Sorry to keep coming back to this, but as you know its topical right now. Could you please let me know the status of the Minister's directive and more importantly whether there is a drop dead date by which time the new facility needs to be in place. I realize you are hoping to wrap up the agreement in early August, but it would be helpful to know. Also, please let me know once you hear back from IESO regarding the resolution.

Thanks,
Opal.

Subject: Status update

Hello all,

Please provide a brief update on any current projects by 11am tomorrow morning. Apologies for the short notice.

Thanks,
Opal.

Hi,

I just wanted to follow up on this and see if there is an appetite to discuss this amongst our smaller group at this point. Energy is briefing up on this draft and we probably should meet with them and our outside counsel at Blakes soon to come to a decision about how this draft will be communicated to the other parties to this transaction.

Subject: Updated Draft Provincial Support Discussion Document

Please find attached a markup of the proposal from OPG regarding the Provincial Support Agreeement.

This markup is the result of discussions between us at MOF Legal, lawyers from Energy Legal and the Province's external counsel at Blakes.

The changes are significant and we would like to get your feedback on our proposed approach. Perhaps we can have a discussion first with this group, and then a broader discussion with the Energy team and Stephen Ashbourne from Blakes.

Please let us know when you have had a chance to review and are available to discuss.

Hi,

I just wanted to follow up on this and see if there is an appetite to discuss this amongst our smaller group at this point. Energy is briefing up on this draft and we probably should meet with them and our outside counsel at Blakes soon to come to a decision about how this draft will be communicated to the other parties to this transaction.

Subject: Updated Draft Provincial Support Discussion Document

Please find attached a markup of the proposal from OPG regarding the Provincial Support Agreeement.

This markup is the result of discussions between us at MOF Legal, lawyers from Energy Legal and the Province's external counsel at Blakes.

The changes are significant and we would like to get your feedback on our proposed approach. Perhaps we can have a discussion first with this group, and then a broader discussion with the Energy team and Stephen Ashbourne from Blakes.

Please let us know when you have had a chance to review and are available to discuss.

Subject: FW: follow up from meeting

Hi Opal,

The **current** $975 OFA-IESO credit facility provides for advances to be repaid no earlier than 28 days and no later than 95 days. Amendment number 9 (attached) contains the form of borrowing notice as Schedule 1 (which is page 5 of the .pdf); please let me know if you would like Will to print out the borrowing notice for you.

Per IESO's attached requests, they are requesting minimum borrowing period on the existing credit facility to be **reduced from 28 days to 7 days**.

That means that for the new $2 billion credit facility, as well as the existing facility (which will also be reduced from $975 million to $475 million), **the time period for advances to be repaid will be no earlier than 7 days and no later than 95 days.**

Thanks,
Sarah

Hi Sarah,

Mike had 2 questions.

1. What is the min and max time for borrowing notices in r the new IESO FHP agreement, as well as under the amending agreement? I believe there are also election notices under the agreement as well, so out of an abundance of caution, lets provide that as well.

2. What's the status of being able to charge Metrolinx for work already done so far re: fuel hedging. I think this is something that was being worked on – I thought by Siva- but asking in case you know.

Thanks,
Opal

Subject: DRAFT IESO FH credit letter

See attached draft letter we hope to issue this week – for your comments (will appreciate by Thursday this week if any).

I did speak with Moody's on April 28 to obtain their feedback.

Call me @ 905.403.6944 to discuss (…Ken can we discuss the interest exp/income flows when you have a moment).

As mentioned the current $975M supports the RPP today which will be transitioned to the new FH going forward – for this draft as discussed with my CFO I have left the $975M as is but will seek to use for FH too.

Regards.

Subject: RE: IESO - OEFC credit facilities : permitted liens

Hi all,

We have confirmed with the IESO that the reason for their requested change to the definition of the "permitted liens" in the OEFC credit facility agreements are the same for the request to OFA. The IESO wants to be able to grant security to the OPG Trust, and address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

We have drafted the attached BN for internal approval (Ron and Gadi) process. Could you please review and let us know if you have any concerns? It would be much appreciated if you could provide us your feedback around noon today, given the limited timeframe on this request.

This has been reviewed by Legal last night and I have incorporated the feedback from Sarah N. (in Lisa's absence).

Please let me know if you have any questions.

Thanks,
Gavin He

Subject: IESO - OEFC credit facilities : permitted liens

John,

As discussed yesterday, it likely is best to add to the definition of "Permitted Liens" in the two OEFC facilities to address a) IESO granting security to the OPG Trust during the first 4 years of fair hydro program and b) the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien. The IESO does not want to be inadvertently in default.

Happy to discuss further. I am out of the office most of this week on IESO business matters but available by cell 289-795-9426, or if necessary you may connect with Victor.

Regards.

Once we have completed the 2 OFA facilities and the intercept letter – we then have to turn to the 2 outstanding IESO-OEFC credit facilities to contemplate any further amendments too.

Just ensuring that these 2 OEFC facilities are not missed.

Subject: OEFC-IESO - update

Hi Toby,

As FYI, I'm sharing with you what is likely the last draft of a briefing note regarding a contemplated amendment to the OEFC loan and credit facility agreements to include permitted liens language specific to the Fair Hydro Plan. This language was also included in the OFA-IESO credit facilities. We are just waiting now for final signoff, but every indication is that the agreements will be amended. This amendment was requested by IESO.

I'll also mention that TD has apparently agreed to amend the line of credit agreement they have with IESO, to include permitted liens language wrt Fair Hydro. In order to gain comfort that the OFA agreement will support the Fair Hydro transactions over the next 4 years, TD has asked that IESO share the OFA-IESO agreement with them. IESO has asked OFA for permission to share the agreement with TD. There is nothing in the agreement preventing IESO from sharing with TD, so IESO could actually do so without OFA consent. I've touched base with both OFA legal and Gadi and neither have any concerns about allowing IESO to share the agreements with TD.

Thanks,
Opal.

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Ken k

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a

security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how

will the Province ensure that the proceeds can only be used to repay the loan?

Just a follow up to our call earlier, does it also make sense to invite Cindy Veinot provincial controller to the proposed meeting since accounting issues are also key.

Subject: RE: Provincial Support Term Sheet

Hi all,

We had a very useful meeting with Blakes (Steven Ashbourne) and Energy Legal this morning. There are quite a few legal issues and concerns to discuss regarding this term sheet as it is overly broad. At this point in the development of the province's role in support, it seems that the development of this type of term sheet is premature given the uncertainties.

At our meeting we discussed, that a useful next step would be to have another meeting with Provincial representatives and Blakes which would include yourselves from the OFA, Energy legal and Energy reps as well as the Provincial Controller and likely TD as well as the Province's financial advisor so that we can all discuss next steps and the best approach.

In the meantime, Toby and I can have an internal call to give you an update on our meeting this morning. Possibly at 3pm today if that works.

Thanks.

Malle

To: Opal Kandelas
Subject: Revised IESO Request for FHP Credit Facility
Date: Tuesday, May 23, 2017 7:00:02 AM

Hi Opal,

I haven't seen a revised letter from IESO to increase the size of the credit facility. Last week, you showed me a draft on your screen. I am checking with you on the status and whether it has been finalized (or needs to be finalized)?

Thanks,
Sarah

Subject:	S&P and Moody"s both Place Hydro One"s Ratings on Negative outlook; DBRS No Change to Ratings
Date:	Thursday, July 20, 2017 9:27:31 AM
Attachments:	S&P hydro One on Negative Outlook.pdf Hydro One Negative Outlook.pdf

---

On July 19, 2017, Hydro One Ltd. (HOL) announced the C$6.7 billion (US$5.3 billion) proposed acquisition of Avista Corp., a U.S.-based electricity and gas utility.

- S&P changed the outlook on both HOL and subsidiary Hydro One Inc. (HOI) to negative from stable.
- Moody's also changed the outlook on HOI to negative. Moody's does not rate HOL.
- DBRS made no change to the outlook or ratings of HOI. DBRS does not rate HOL.

Rationale

S&P

- The outlook revision reflects the shift in Hydro One Limited's (HOL) business strategy, as well as the slightly weakened business risk from the acquisition. The additional leverage that the transaction introduces also erodes Hydro One Inc's (HOI) credit metrics and financial risk.
- The negative outlook on HOL reflects S&P's view that the Avista acquisition signals a shift in HOL's business strategy, which will align the company with its global peers removing the historical rationale for a one-notch rating uplift.
- S&P notes that they could take a negative rating action on HOL if the transaction concludes as expected. This would include a financing plan that relies on the equity issuance as anticipated, which will lead to AFFO-to-debt of about 10% after the debentures' conversion. In the meantime credit metrics are expected to be below 10%.
- If conversion of the debentures does not occur as expected and metrics remain below 10%, S&P could lower the ratings on HOL by more than one notch.

Moody's

- The negative outlook on Hydro One Inc. reflects Moody's view that the probability of extraordinary support from the Province of Ontario will be reduced following today's announcement that Hydro One Limited plans to acquire Avista Corp.

- Moody's notes that the announced acquisition will rely on debt financing- a credit negative.

DBRS

- DBRS notes that the acquisition provides HOL with both diversification and scale while expanding its regulated utility rate base to cover electricity transmission and distribution as well as natural gas local-distribution businesses.
- DBRS notes that HOI is insulated from the financing of this Merger, as no debt is proposed to be issued at HOI and HOL's dividend payout guidance of 70% to 80% of earnings has not been revised upward as a result of the announcement. DBRS expects that the quality of the regulatory regime in Ontario will continue to remain supportive, providing the regulatory ring-fencing for the utility and allowing the Company to earn a fair rate of return while recovering costs on a timely basis.
- DBRS believes that should the acquisition be financed as contemplated in the announcement, it will have no impact on HOI's credit profile.

Research Update:

Hydro One Ltd. And Hydro One Inc. Outlooks Revised To Negative From Stable On Proposed Avista Corp. Acquisition

Overview

- On July 19, 2017, Toronto-based Hydro One Ltd. (HOL) announced the C$6.7 billion (US$5.3 billion) proposed acquisition of Avista Corp., a U.S.-based electricity and gas utility.
- We are revising our outlook on HOL and subsidiary Hydro One Inc. (HOI) to negative from stable.
- We are also affirming our ratings on HOL and HOI, including our 'A' long-term corporate credit rating on both.
- The outlook revision reflects the shift in HOL's business strategy, as well as the slightly weakened business risk from the acquisition.

Rating Action

On July 19, 2017, S&P Global Ratings revised its outlook on Toronto-based Hydro One Ltd. (HOL) and subsidiary Hydro One Inc. (HOI) to negative from stable. At the same time, S&P Global Ratings affirmed its ratings on HOL and HOI, including its 'A' long-term corporate credit rating on both.

Rationale

The outlook revision follows HOL's proposed acquisition of Avista Corp., a U.S. based-electricity and gas utility operator. Historically, HOL's focus on Ontario provided the company with incremental business strength based on a favorable market position, regulation, and operational history. With the Avista acquisition, we believe HOL's business risk has eroded slightly. Furthermore, the additional leverage that the transaction introduces also eroded HOL's credit metrics and financial risk.

Overall, we expect HOL's consolidated excellent business risk profile will continue with the Avista acquisition. We believe the jurisdictions in which Avista operates benefit from reasonably supportive regulatory environments. In addition, the purchase gives HOL some geographic diversity and entry into natural gas distribution. However, we believe that the overall weaker business risk profile of Avista offsets this to a certain degree.

From a financial risk perspective, we forecast consolidated adjusted funds from operations (AFFO)-to-total debt for HOL, when the transaction closes, at about 10% in 2018. This is consistent with a significant financial risk

THIS WAS PREPARED EXCLUSIVELY FOR USER BONNIE LEMCKE.
NOT FOR REDISTRIBUTION UNLESS OTHERWISE PERMITTED.

profile, but does not allow for cushion in credit metrics.

The transaction's financing plan benefits from an equity issuance in the form of C$1.4 billion in convertible debentures. While the form of these debentures has been used in the Canadian market with almost 100% conversion to equity, we treat this financing as debt until the conversion occurs. While the debentures are outstanding we forecast that AFFO-to-debt will be around 9%.

In addition, part of the financing plan for the acquisition includes HOL issuing debt, which would be structurally subordinated to the debt at each operating entities. As per our methodology, we expect to rate this new debt one notch below the corporate credit rating on the company.

We continue to believe the HOI is core to HOL, so we continue to equalize the corporate credit rating on HOI with that on HOL. We further consider Avista to be highly strategic to HOL under our criteria.

Our base-case assumptions include the following:

- HOL will continue focusing on its regulated utility business with no plans to expand into unregulated business segments
- The operating subsidiaries will not experience any adverse regulatory decisions from any of the respective jurisdictions that would impair predictable and steady cash flows

Based on these assumptions, we arrive at consolidated AFFO-to-debt of 10%-12% after closing.

Liquidity

Our assessment of HOL and HOI's liquidity is adequate. We expect liquidity sources to exceed uses more than 1.1x over the next 12 months. In the event of a 10% drop in the company's EBITDA, we also expect liquidity sources will cover uses. In our view, the company has sound relationships with banks and generally satisfactory standing in the credit markets. In the unlikely event of liquidity distress, we expect HOL to scale back its capital spending to preserve credit metrics.

Principal liquidity sources include:

- Cash FFO of about C$1.74 billion over the next 12 months
- Committed credit facilities availability of about C$2.55 billion as of March 31, 2017, which mature in 2021

Principal liquidity uses include:

- Debt maturities of about C$1.06 billion over the next 12 months, including short-term debt
- Capital spending of about C$1.7 billion over the next 12 months
- Dividend payments of about C$550 million over the next 12 months

THIS WAS PREPARED EXCLUSIVELY FOR USER BONNIE LEMCKE.
NOT FOR REDISTRIBUTION UNLESS OTHERWISE PERMITTED.

Outlook (Hydro One Ltd.)

The negative outlook on HOL reflects our view that the Avista acquisition signals a shift in HOL's business strategy, which will align the company with its global peers removing the historical rationale for a one-notch rating uplift. The negative outlook also reflects the execution and financing risk inherent in any large acquisition. We recognize that the use of the convertible debentures will create a temporary impact on credit metrics, with AFFO-to-debt forecast at about 9% until conversion. However, we expect the debentures will be converted to equity in full.

Downside scenario

We could take a negative rating action on HOL if we expect that the transaction will conclude as expected. This would include a financing plan that relies on the equity issuance as anticipated, which will lead to AFFO-to-debt of about 10% after the debentures' conversion. In the meantime credit metrics are expected to be below 10%. If conversion of the debentures does not occur as expected and metrics remain below 10%, we could lower the ratings on HOL by more than one notch.

Upside scenario

We could revise our outlook to stable within our outlook period in the unlikely event that the transaction does not close, the company continues its historic focus on Ontario regulated utilities and we expected HOL's consolidated AFFO-to-debt to be above 13%, on a consistent basis.

Outlook (Hydro One Inc.)

The negative outlook reflects our outlook on the parent, HOL, and our view that HOI is core to HOL under our group rating methodology.

Downside scenario

We could take a negative rating action on HOI if we take a similar rating action on HOL.

Upside scenario

We could revise the outlook on HOI to stable if we take a similar rating action on HOL.

MOODY'S
INVESTORS SERVICE

Rating Action: Moody's Affirms Hydro One's senior unsecured A3 ratings; outlook changed to negative

Global Credit Research - 19 Jul 2017

Approximately $11 billion of debt affected

Toronto, July 19, 2017 -- Moody's Investors Service, ("Moody's") affirmed the ratings of Hydro One Inc. (HOI) A3 senior unsecured; (P)A3 MTN program; commercial paper P-2 and changed the outlook to negative.

RATINGS RATIONALE

"The negative outlook on Hydro One Inc. reflects our view that the probability of extraordinary support from the Province of Ontario will be reduced," said Vice President and Senior Credit Officer Gavin MacFarlane. "This follows today's announcement that Hydro One Limited, the parent company of Hydro One Inc., plans to acquire Avista Corp., a U.S. based electric and gas utility company."

The government will retain control of Hydro One Limited (HOL: unrated), the holding company that owns 100% of HOI. The acquisition of Avista Corp. (Baa1 stable), the first major acquisition by the organization, will be financed with about C$3.4 billion of holding company debt at the parent HOL level, which sits between HOI and the Province of Ontario (Aa2 Stable) in the overall corporate structure, reducing the probability of support to HOI from the Province. In addition, any provincial support would likely also provide indirect benefits to ratepayers in U.S. jurisdictions, which further reduces the probability of support from the Province. Following the completion of the Avista acquisition, we expect the government to continue to own between 40-50% of HOL.

Consistent with other Canadian regulated utilities acquiring US regulated utilities, the announced acquisition will rely on debt financing, a credit negative. The additional debt that Hydro One Limited plans to issue will not limit the ratings of Hydro One Inc.

As a government related issuer, HOI's A3 rating reflects its baseline credit assessment (BCA) of baa1 with a one notch uplift attributable to the historically moderate probability of extraordinary support from the Province of Ontario. HOI's BCA of baa1 reflects its low business risk profile driven by its supportive regulatory environment. We expect cash flow from operations to remain predictable and financial metrics to remain weak for the ratings primarily as a result of the existing allowed return on equity and deemed capital structure established by the regulator. The baseline credit assessment of baa1 remains unchanged following the acquisition announcement.

Rating Outlook

The outlook on HOI is negative, reflecting the expectation of a declining probability of extraordinary support from the Province.

What could change the rating: up

An upgrade at this time is unlikely given the negative outlook. The rating outlook could return to stable at the current rating level based on an upgrade to the baseline credit assessment of HOI offsetting the reduction in the probability of extraordinary support. This could result from more favorable regulatory outcomes or a sustained improvement in financial metrics including CFO pre-W/C to debt in the high teens (11.3% at 9/30/2016). A one notch upgrade of the Province would not lead to an upgrade of Hydro One.

What could change the rating: down

The proposed acquisition of Avista Corp. could lead to a downgrade of HOI. A downgrade of HOI's BCA would lead to a downgrade of the senior unsecured rating, so long as Moody's opinion of likely support from the Province remains unchanged or is reduced. This could result from a deterioration in regulatory outcomes or financial metrics, including CFO pre-W/C to debt below 11% on a sustained basis (11.3% at 9/30/2016). A one notch downgrade of the Province would not lead to a downgrade of HOI.

The methodologies used in these ratings were Regulated Electric and Gas Utilities published in June 2017 and Government-Related Issuers published in October 2014. Please see the Rating Methodologies page on www.moodys.com for a copy of these methodologies.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this credit rating action, and whose ratings may change as a result of this credit rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

The rating has been disclosed to the rated entity or its designated agent(s) and issued with no amendment resulting from that disclosure.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moodys.com for additional regulatory disclosures for each credit rating.

MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moodys.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors. It would be reckless and inappropriate for retail investors to use MOODY'S credit ratings or publications when making an investment decision. If in doubt you should contact your financial or other professional adviser.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and

municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

I was talking via Kaitlin.

Here's the draft SLA.

From: Carlos Yep
Sent: Monday, July 31, 2017 1:47 PM
To: John Kim <John.Kim@ofina.on.ca>
Subject: RE: OPG - Sub Debt + Variable Fee

Ok.

Who were you talking to at OPG – regarding taking OFA out of the equity injection / subordinated debt document?

Memorandum of Understanding
Relating to the
Fair Hydro Plan

Dated: **XXXXXXX**

Between:

Her Majesty the Queen in right of Ontario
as represented by the Minister of Energy (the "**Minister**")

And:

Ontario Financing Authority
an agency of the Province of Ontario (the "**OFA**")

Whereas:

1. The Government of Ontario enacted the *Ontario Fair Hydro Plan Act, 2017* (the "Act") to implement its Fair Hydro Plan (the "FHP").

2. The Act and the regulations promulgated under the Act (the "Regulations") provides the right for IESO to create certain assets related to the deferral of electricity charges (the "Assets"), which Assets may be acquired from the Independent Electricity System Operator ("IESO") by one or more special purpose financing entities, under the Act established by OPG to implement the FHP (each an "OPG Financing Entity"), which are expected to include a Fair Hydro Trust.

3. An OPG Financing Entity is expected to acquire the Assets monthly from the IESO and will finance the Assets in accordance with the financing plan, which includes both senior debt (minimum of 51%) from external sources and subordinated debt (up to 49%) from OPG.

4. The Minister has agreed to provide up to 44% of the total funding requirement for the Assets through equity injections in OPG and OPG has agreed to use the equity injections solely for funding an OPG Financing Entity's subordinated debt (the "Equity Injection Plan").

5. For purposes of the Equity Injection Plan, OPG has amended its articles to create a new class of non-voting, redeemable shares (the "Class A Shares").

6. The Minister will subscribe for Class A Shares monthly.

7. Each month OPG will deliver to the Minister a share subscription form (the "Share Subscription") setting out the amount of equity injection required (the "Subscription

Payment") and the corresponding number of Class A Shares to be issued by OPG and subscribed for by the Minister.

8. The Minister is required to pay the Subscription Payments out of amounts appropriated by the Legislature for that purpose for the fiscal year in which the payment is made ("Appropriated Amount").

9. The Minister has advised the OFA that the Minister is required to make the Subscription Payments within [*] business days of the receipt by the Minister of the Share Subscription (the "Share Subscription Payment Date").

10. The Minister considers it advisable for the OFA to make the Subscription Payments on behalf of the Minister and the OFA has agreed to make the Subscription Payments on behalf of the Minister.

11. The Minister and the OFA wish to enter into this MOU to confirm their agreement regarding the terms on which the OFA will make the Subscription Payments.

Therefore:

The Minister and the OFA agree as follows:

1. Payment Authorization

(i) The Minister authorizes the OFA to make the Subscription Payments on behalf of the Minister and the OFA agrees to make the Payments on behalf of the Minister.

(ii) The Minister shall ensure that the certificate under section 11.4 of the *Financial Administration Act* (reproduced as Schedule A to this MOU) required for each of the Subscription Payments is obtained, and shall provide the OFA with a copy of such certificate within **[*]** days after the Subscription Payment is made.

(iii) It is agreed by the Minister and the OFA that the OFA is acting as an agent, on behalf of the Minister, for the purposes of

i. Transacting with the Ontario Shared Services "IFIS" system in order to access funds appropriated for the Minister in respect of the Fair Hydro Plan, and

ii. Making the required Subscription Payments on behalf of the Minister as further described in this MOU.

2. Payment Process

a) The Minister will take all necessary steps to provide the OFA with a good quality unapproved electronic copy of each Share Subscription, on the same day the Minister receives the Share Subscription from OPG to allow the OFA to begin the procedures for making the Subscription Payment.

b) The Minister will deliver to the OFA a good quality copy of each Share Subscription executed and approved for payment by **[insert appropriate MoE official]** - at least three business days before the Share Subscription Payment Date. The approval for payment shall include confirmation that there is a sufficient Appropriated Amount from which to make the Subscription Payment. Upon receipt of the executed and approved Share Subscription, the OFA will make the Subscription Payment on behalf of the Minister, in the amount of the Share Subscription.

c) The OFA shall not be required to make any Subscription Payment on behalf of the Minister if the Minister has not delivered to the OFA an executed and approved Share Subscription as provided in paragraph b) above.

d) The Subscription Payments will be made from the Consolidated Revenue Fund and the amount of each Subscription Payment will be entered by the OFA via a journal entry into the Province's IFIS system under a pre-defined Minister account immediately upon the completion of the Subscription Payment or shortly thereafter.

3. Reporting Requirements and Records

a) The OFA will deliver a notice by e-mail to the Minister's contact person to confirm the completion of each Subscription Payment in the amount of the Share Subscription.

b) The OFA will keep and maintain all records related to the Share Subscriptions for a period of seven (7) years.

c) The requirements under this section shall survive any termination of the MOU.

d) The Public Accounts, Volume 3 reporting related to the Subscription payments will be performed by the Minister.

4. Limited Role of the OFA

The OFA will only be responsible for making the Subscription Payments in accordance with section 2 and reporting and record keeping in accordance with section 3. For greater clarity, the OFA will not be responsible for auditing or otherwise verifying the correctness of the Share Subscriptions; monitoring the OPG's application of the Subscription Payments; monitoring the balance from time to time of the Appropriated Amount; or ensuring the Appropriated Amount is sufficient.

5. Review and Termination

a) The Minister and the OFA will review this MOU as necessary.

b) This MOU may be terminated by either party at any time, on 90 days' notice.

c) Upon termination of this MOU, provided the OFA has the power and authority to make such Subscription Payments, the OFA will make Subscription Payments in respect of executed and approved Share Subscriptions delivered by the Minister to the OFA on or before the date of termination in accordance with subsection 2(c) of this MOU, but will not be obligated to make any further Subscription Payments on any executed and approved Share Subscriptions delivered by the Minister to the OFA after the date of termination of this MOU. All provisions of this MOU relating to Subscription Payments made by OFA will continue to apply with respect to such Subscription Payments made by the OFA after the termination date, notwithstanding termination of this MOU.

d) The parties will cooperate to help to ensure a smooth transition of the payment function upon termination.

6. No Service Charges

The OFA will not charge the Minister for the OFA's services or for its disbursements or other expenses incurred under this MOU.

7. Contacts

a) Each party shall designate a member of its staff to be a contact person for the purposes of administering this MOU.

b) As of the date of this MOU the OFA's contact persons are:

Tel:
email:

Tel: email:

should also be sent to:

Tel: email: & email:

c) As of the date of this MOU the Minister's contact person is:

Tel:
email:

d) Either party may designate a different member of its staff as its contact person by providing notice to the other party in accordance with section 7.

8. Notice

a) Any notice under this MOU shall be in writing and shall be deemed given when delivered by hand or email, and addressed to the party's contact person.

b) In the case of the OFA, the addresses for notice are:
Hand Delivery:
Ontario Financing Authority
Suite 1400
1 Dundas St. W.
Attention: Ken Kandeepan, Chief Financial and Risk Officer
email: Ken.Kandeepan@ofina.on.ca

c) In the case of the Minister, the addresses for notice are:
Hand Delivery:
Ministry of Energy

9. Execution

The parties have executed this MOU, effective as of the date first above written.

Her Majesty the Queen in right of Ontario
as represented by the Minister of Energy

SCHEDULE A

Section 11.4, *Financial Administration Act*, R.S.O. 1990, c. F.12

11.4 (1) No payment shall be made out of the Consolidated Revenue Fund unless, in addition to any other voucher or certificate that may be required, a person referred to in subsection (2) certifies,

(a) in the case of a payment for the supply of goods or the rendering of services after the goods are delivered or the services are rendered, that the goods have been supplied or the services have been rendered and that,

(i) the payment is in accordance with the agreement, or

(ii) the amount of the payment is reasonable, if the amount of the payment is not specified in the agreement;

(b) in the case of a payment for the supply of goods or the rendering of services before the delivery of the goods or the supply of the services, that the payment is in accordance with the agreement; or

(c) in the case of a payment not described in clause (a) or (b), that the payee is eligible for or entitled to the payment. 2002, c. 8, Sched. B, s. 2.

Persons authorized to certify payments

(2) Only the following persons have authority to give a certificate under subsection (1):

1. A minister or deputy minister.
2. The Speaker of the Assembly.
3. The Auditor General.
4. The Chief Electoral Officer.
5. A person authorized by the Management Board of Cabinet.
6. A person authorized by a person referred to in any of paragraphs 1 to 5. 2002, c. 8, Sched. B, s. 2; 2004, c. 17, s. 32; 2007, c. 15, s. 40 (1).

Subject: UPDATED OFA Board Orientation Agenda -August 30 2018.doc

Hello All – the OFA/OEFC Chair's briefing has now been scheduled **for Thursday Aug 30 from 2-4pm in the Exec Boardroom**. Please review the attached revised agenda. I have re-ordered the divisional presentations because, upon reflection, I thought it would make more sense to start with the more heavily weighted Provincial borrowing program/OFA operations presentations and then work our

way to the more focused OEFC piece at the end which is likely to make more contextual sense once the OFA operations are explained.

If you could provide me with **pdf's of your updated presentations by Monday August 27** I would be grateful so that I can post them for the Chair to review in advance of the meeting given the compressed time frame.

Please let me know if you have questions or comments. Thanks everyone for your assistance with this.

Sarah

Capital Markets Division

August 2018

Ontario Financing Authority
www.ofina.on.ca

Mandate & Profile: Capital Markets Division

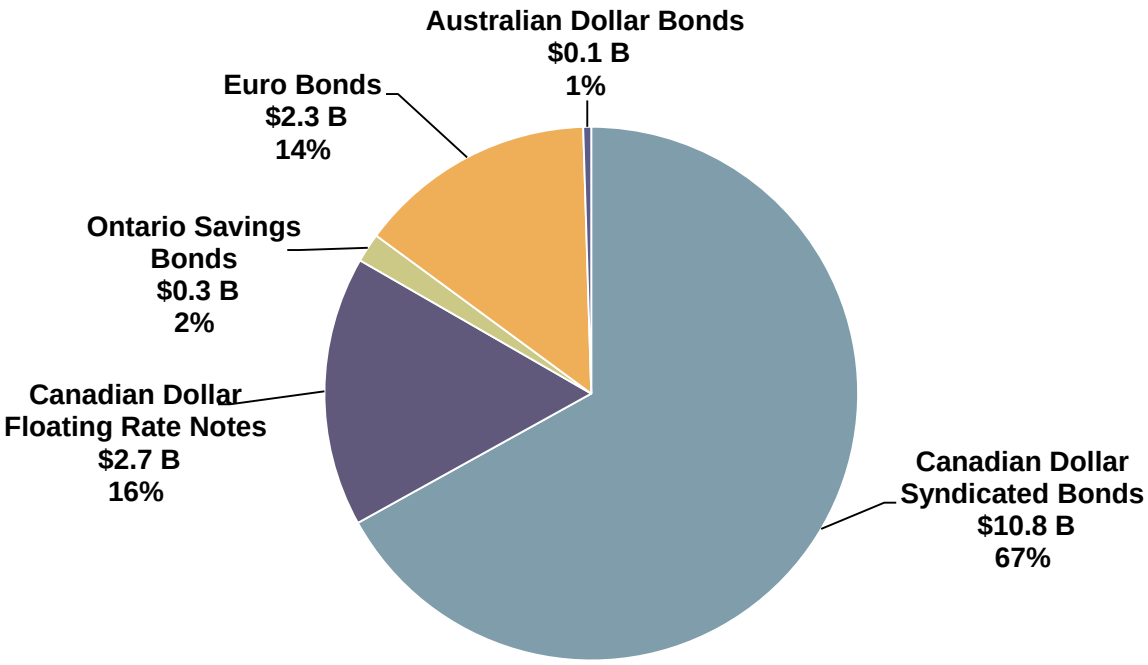
The Capital Markets Division develops and executes the Province's borrowing and debt management programs, invests funds for the Province and specific government entities, and provides investment, borrowing, debt and energy management services to the Ontario public sector. It is also responsible for Investor Relations, Documentation and the Ontario Savings Bond program.

Specifically, the Capital Markets Division:

- Prudently manages debt outstanding of $348.8 billion (as at March 31, 2018), manages the liquid reserve portfolio and conducts financial risk management.
- Successfully completed its annual borrowing requirement of $33.9 billion for 2017–18. As of August 27, 2018, the Province has borrowed $16.2 billion, or 51 per cent, of its $31.7 billion borrowing requirement for 2018–19.
- Advises on electricity and public sector financial policies.
- Manages, in conjunction with Ontario Power Generation (OPG), the investments of the OPG’s Used Fuel Segregated Fund and Decommissioning Segregated Fund.

2018–19 Borrowing Program

As of August 27, 2018



2018–19 Total Borrowing Requirement:	**$31.7B**
Borrowing Completed:	**$16.2B (51% Complete)**
Domestic:	**85%**
International:	**15%**
Average Term:	**14.6 years**

Note: Numbers may not add due to rounding.

Domestic and International Borrowing

Ontario

Investment Activities

- The OFA manages the Province's liquid reserve portfolio to optimize investment returns and to ensure that sufficient funds are available to meet cash requirements. The average level of unrestricted liquid reserves as of June 30, 2018, was $36.0 billion, net of collateral.

- The OFA also invests on behalf of certain public bodies to help increase their returns by streamlining investment processes and reducing investment costs. The OFA continues to provide investment services to a number of public bodies, including Infrastructure Ontario, the Pension Benefits Guarantee Fund, Ontario Trillium Foundation, Ontario Capital Growth Corporation and the Deposit Insurance Corporation of Ontario. As of June 30, 2018, total funds managed were $2.2 billion and were invested in money market and laddered bond portfolios.

- With Ontario Power Generation Inc., the OFA continued to manage the investment activities of OPG's Used Fuel Segregated Fund and the Decommissioning Segregated Fund established under the Ontario Nuclear Funds Agreement (ONFA). As of June 30, 2018, the combined market value of the funds were $21.8 billion. The Nuclear Funds are invested akin to a pension fund with diversified asset classes, including public market equities and fixed income, global infrastructure, real estate, and agriculture.

Investor Relations and Documentation

Investor Relations:

- Supports the Province's borrowing program by maintaining a dialogue with fixed income investors in key markets and expanding the Province's funding base by building relationships with new investors in existing or new markets. This is accomplished through the provision of targeted information products (OFA Website, Presentations, Fact Sheets etc.) and call program initiatives (Ministerial-led and technical roadshows).

Documentation:

- Provides a wide range of documentation expertise on behalf of the Province, working very closely with Finance legal and outside counsel.

- Supports the borrowing program by:
  - ensuring that sufficient borrowing authority is available to execute the borrowing program.
  - negotiating and documenting all bond issues and derivatives agreements.
  - maintaining programs in the domestic and international markets (U.S., E.U., Australia).
  - ensuring that all ongoing international regulatory requirements are met.

Debt Overview

Debt	Interim 2017–18	Projected 2018–19
Total Debt	$348.8 billion	$356.7 billion
Interest on Debt	$12.0 billion	$12.5 billion
Net Debt	$308.2 billion	$325.0 billion
Net Debt-to-GDP	37.1%	37.6%
Total Debt Statistics		
Percentage of Publicly Held Debt	97%	97%
Percentage of Publicly Held Debt Issued in Canadian Dollars	83%	82%

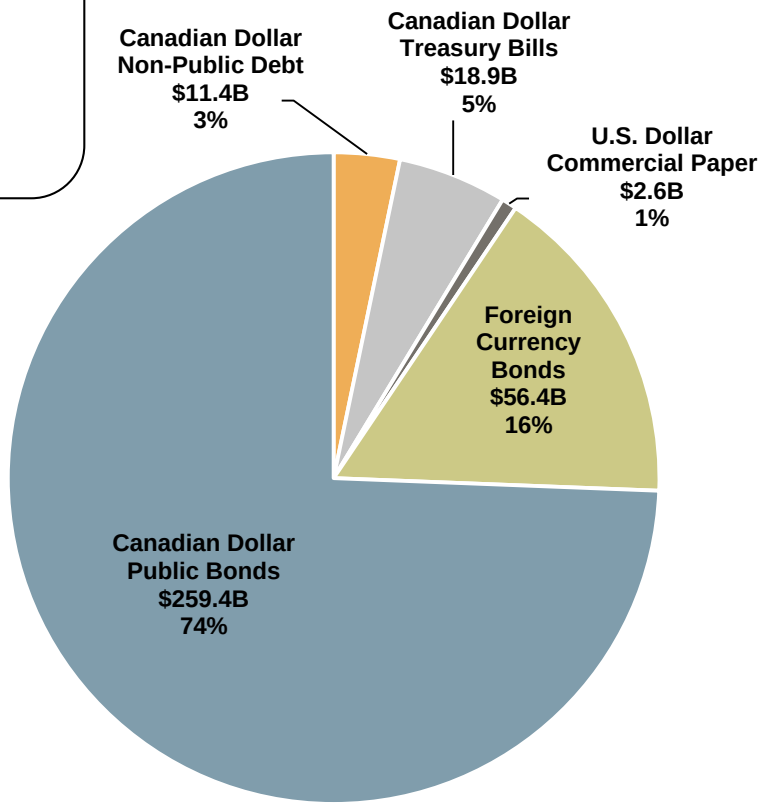
Note: 2018–19 total debt statistics as of June 30, 2018.

Sources: 2018 Budget and Ontario Financing Authority.

Total Debt Composition

$348.8 Billion Outstanding
(as of March 31, 2018)

Canadian Dollar Public Bonds
- Syndicated Bonds
- Medium-term Notes
- Floating rate Notes
- Ontario Savings Bonds
- Bond Auctions
- Real Return Bonds
- Green Bonds



Debt Outstanding by Currency

Currency	Debt Outstanding ($ Billions)	Debt Outstanding (% of Total Debt)
Canadian Dollar Public Debt	$278.3	79.8%
Canadian Dollar Non-Public Debt	$11.4	3.3%
U.S. dollars	$40.4	11.6%
Euros	$13.6	3.9%
Swiss francs	$2.2	0.6%
Australian dollars	$1.5	0.4%
Pound Sterling	$0.9	0.3%
Japanese yen	$0.5	0.1%

Note: Projected to March 31, 2018. Numbers may not add due to rounding.
Source: Ontario Financing Authority.

Risk Management

- Monitor and manage debt maturity profile to limit refinancing risk
- Maintain a high level of liquid reserves and short term borrowing capacity
- Enforce strict credit limits for financial and investment counterparties
- Have collateralized swap agreements in place for most swap counterparties
- Ontario treasury bills and U.S. commercial paper are very well received in the money markets and provide additional borrowing capacity if required

Risk Exposures

	Exposure (Province)	Exposure (OEFC)	Policy Limit
Foreign Exchange	0.15%	0.06%	5.0%
Net Interest Rate Resetting	11.8%	(14.7%)	35.0%

Notes: Of outstanding debt, as of June 30, 2018.
OEFC Interest Rate Reset exposure is negative due to increased liquid reserves arising from the proceeds related to the sale of Hydro One shares.

Short-Term Borrowing Capacity

($ Billions)	C$ T-Bill Program	U.S.$ Commercial Paper Program	Total
Currency	Canadian Dollars	U.S. Dollars	–
Maturity	1 day-3 years*	1-270 day(s)	–
Authorized	C$33.0	C$15.0	C$48.0
Outstanding	C$18.0	C$1.4	C$19.4
Available	C$15.0	C$13.6	C$28.6

**Regular issuance of 3M, 6M and 1Y T-Bills*
Note: As of June 30, 2018. Numbers may not add due to rounding.

Appendix:
Ontario Electricity Financial Corporation (OEFC)

Capital Markets Activities: OEFC

- The OFA continued to manage OEFC's debt and other liabilities, with total debt outstanding of $19.1 billion as at March 31, 2018, including short-term debt outstanding of $655 million.
- In 2017–18, the OFA undertook the Corporation's long-term borrowing of $800 million in the Canadian dollar market for OEFC to fund loans extended to OPG. As in the previous year, the OEFC's cash reserves were adequate to fund long term debt maturities of $2.1 billion. So far in 2018–19, the OFA has undertaken $400 million in long-term public borrowing for OEFC.
  - Maturing long-term debt totals $0.7 billion in 2018–19.
- As at March 31, 2018, OEFC had a cash surplus balance of approximately $4.1 billion and is projected to increase to $4.5 billion as at March 31, 2019.
  - These positive cash balances are primarily due to the cash proceeds related to the sale of Hydro One shares.
  - Cash balances are invested with the Province on a short-term basis to meet OEFC's upcoming cash requirements, including maturing long-term debt.
- Capital Markets also manages and administers the OEFC power supply and demand management contracts in conjunction with Corporate Electricity and Finance division. From April 1, 2017 to March 31, 2018, savings from curtailments totalled $5.4 million.

OEFC Loans

- The OEFC provides financial assistance, as required, to Ontario Hydro successor corporations.

Ontario Power Generation (OPG)

- Previously, the OEFC agreed to provide OPG with a $700 million credit facility up to December 31, 2017. In September 2017, the credit facility was amended to increase the facility to $2.35 billion to the end of 2018.

- As at March 31, 2018, $1,400 million has been advanced under this credit facility. The term of all borrowing was 30-years.

Independent Electricity System Operator (IESO)

- The OEFC oversees a $120 million loan refinancing and a $160 million credit facility extension to the IESO, both expiring June 30, 2020, to provide the IESO with flexibility to meet financing and liquidity requirements.

- As at March 31, 2018, IESO had no balance drawn on the credit facilities.

- Following the merger of the Ontario Power Authority and the IESO in January 2015, IESO also retained their original revolving credit facility with the OFA. This original facility was reduced from $975 million to $475 million, and a new $2.0 billion revolving credit facility has been put into place for the Fair Hydro Plan.

Please find attached a markup of the proposal from OPG regarding the Provincial Support Agreeement.

This markup is the result of discussions between us at MOF Legal, lawyers from Energy Legal and the Province's external counsel at Blakes.

The changes are significant and we would like to get your feedback on our proposed approach. Perhaps we can have a discussion first with this group, and then a broader discussion with the Energy team and Stephen Ashbourne from Blakes.

Please let us know when you have had a chance to review and are available to discuss.

Provincial Protection and Assurances

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*

Performance Guarantees	
Performance Guarantor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Performance Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and other persons having debt or other claims against the Financing Entity that are secured under a related trust indenture.

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

Performance Guarantee:	Pursuant to a Performance Guarantee, the Performance Guarantor will guarantee the performance, or cause the performance, of the obligations of IESO as servicer under the Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including servicing obligations undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. It is anticipated that such obligations will include matters related to the billing, collection and remittance of clean energy adjustments by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments with other amounts. In the event that the Performance Guarantee is held to be unenforceable against the Performance Guarantor, the Performance Guarantee will contemplate, in the alternative, a functionally equivalent direct covenant of the Performance Guarantor.
Term:	The Performance Guarantor's obligations under a Performance Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is intended to be secured by the Performance Guarantee.
Approval Requirement:	The servicing obligations (including any amendments) to which the Performance Guarantee relates, together with the provisions of any Performance Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Performance Guarantee:	Under no circumstances shall the Performance Guarantor be obligated to pay special or punitive damages, or for loss of profits.
Indemnity	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.

Indemnity of the Province:	The Province of Ontario will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee (including because of claims made against the Indemnitee by one or more of its specified creditors) that result from any of the following (each, an "**Indemnification Event**"): (A) the Legislative Assembly of Ontario repealing (and not replacing on an equivalent basis) the Act; (B) the Legislative Assembly of Ontario amending the Act or a Regulation made thereunder in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act is *ultra vires* in a way that materially and adversely affects the rights and interests of the Financing Entity under its investment interest.
Term:	The Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.
Approval Requirement:	The terms and conditions of the obligations incurred by a Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, the will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Indemnity:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or for loss of profits.
Undertakings regarding Certain Mismatches	
Avoidance of Mismatches	If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy all of its related payment obligations and thereby avoid any Mismatch.

Possible Undertaking to Fund Mismatches	If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to avoid a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to avoid the Mismatch. Any such undertaking may only be given at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and would be on such terms and conditions, including appropriate compensation to the Province of Ontario, as the Minister of Energy and the Minister of Finance determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
<u>Documentation</u>	
Representations, Terms and Conditions:	Subject to approval of the Minister of Energy and the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Performance Guarantor and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Performance Guarantor or the Indemnitor, or any agent or representative of the Performance Guarantor or the Indemnitor, in connection with the transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	Confidentiality obligations of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

Provincial ~~Support Agreement~~Protection and Assurances

Indicative Term Sheet[1]

Ontario Fair Hydro Plan Act, 2017

*This term sheet (the "**Term Sheet**") ~~is provided exclusively to the parties listed herein in connection with the draft~~relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 and the regulations to be made thereunder (the "**Act**"). This Term Sheet is to be held confidential. ~~Defined~~Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial ~~support agreement (the "**Provincial Support Agreement**") will contain the terms and conditions set out~~protection and assurance arrangements contemplated in this Term Sheet ~~in addition to such other representations, warranties, indemnities, and other~~will include such terms and conditions as the ~~Guarantor and the Beneficiaries (each as defined below) may reasonably require~~Minister of Energy and the Minister of Finance determine to be appropriate.*

Performance Guarantees	
Performance Guarantor:	~~Her Majesty the Queen in right~~The Province of Ontario, ~~as represented~~ by the Minister of Energy and the Minister of Finance acting together.
Beneficiaries:	~~The indenture trustee (together with its successors, the "**Indenture Trustee**") under the master trust indenture (the "**Master Trust Indenture**")~~Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over its rights and interests under a Performance Guarantee to its creditors and contractual counterparties, including any indenture trustee acting on behalf of itself and ~~all~~ other persons having debt or other claims against ~~a~~the Financing Entity that are secured under ~~the Master Trust Indenture (collectively, the "**Beneficiaries**") including, without limitation, holders of senior and subordinated notes, senior and subordinated lenders, hedge counterparties, credit enhancers, liquidity providers, the Financial Services Manager, the Indenture Trustee, the trustee of the Financing Entity if the Financing Entity is a trust, and any other administrator of the Financing Entity~~a related trust indenture.

[1] This draft term sheet is intended for discussion purposes only and does not represent a commitment of any party. Any agreement or undertaking of the Province contemplated in this term sheet may only be made either (a) with the approval of the Lieutenant Governor in Council as contemplated in subsection 5(2) of the Act or (b) under, and subject to, an order made by the Lieutenant Governor in Council as contemplated in subsection 5(3) of the Act.

~~**Term:**~~	~~The Guarantor's obligations under the Provincial Support Agreement will continue until **[one year]**[1] after all funding obligations (to be defined to include principal, interest, fees, hedge settlement and termination obligations and other related amounts) of all Financing Entities have been repaid.~~
Performance Guarantee:	~~Under the Master Sale and Servicing Agreement to be entered into by IESO and the Financing Entity, **[and OPG as Financial Services Manager]** ("**MSSA**"), IESO will have obligations both as a seller and as a servicer. Pursuant to a performance guarantee~~Pursuant to a Performance Guarantee, the Performance Guarantor will guarantee ~~in favour of the Beneficiaries to perform~~the performance, or cause the performance, of ~~(which may be by way of the appointment of a replacement servicer),~~ the obligations of IESO as servicer under the ~~MSSA and the~~ Act and under any agreement under which the applicable Financing Entity acquires an investment interest from IESO and IESO undertakes on-going obligations in respect of such investment interest, including ~~the obligations of any replacement servicer. The Guarantor will also guarantee the~~ servicing obligations ~~of the~~undertaken by IESO to enforce the performance by electricity vendors of their respective obligations under the Act. ~~The servicing~~It is anticipated that such obligations ~~covered~~ will include ~~all obligations~~matters related to the ~~collecting~~billing, collection and ~~remitting~~remittance of clean energy adjustments ~~and will protect the Beneficiaries from any risks arising from~~by IESO and electricity vendors, as the case may be, and regarding the commingling by IESO and electricity vendors of collections of clean energy adjustments ~~being commingled~~ with other amounts. In the event that the ~~performance guarantee~~Performance Guarantee is held to be unenforceable against the Performance Guarantor, the ~~Provincial Support Agreement~~Performance Guarantee will contemplate ~~a separate legal obligation by the Guarantor to indemnify the Beneficiaries for any losses that result~~, in the alternative, a functionally equivalent direct covenant of the Performance Guarantor.
Term:	The Performance Guarantor's obligations under a Performance Guarantee in respect of a Financing Entity will continue during the term of any obligation incurred by the Financing Entity that is or is intended to be secured by the Performance Guarantee.
Approval Requirement:	The servicing obligations (including any amendments) to which the Performance Guarantee relates, together with the provisions of

[1] ~~This mirrors the requirement expected to be in the Regulations under the Act not to wind up, dissolve or liquidate a Financing Entity until at least one year after all of its Funding Obligations have been repaid.~~

	any Performance Guarantee itself, will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under Performance Guarantee:	Under no circumstances shall the Performance Guarantor be obligated to pay special or punitive damages, or for loss of profits.
Indemnity	
Indemnitor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indemnitees:	Each Financing Entity that owns an investment interest from time to time. A Financing Entity may grant a security interest over the Indemnity to specified creditors, including to an indenture trustee under a trust indenture on behalf of itself and other persons having debt or other claims against the Financing Entity secured under the trust indenture.
~~Payment Guarantee Event~~Indemnity of the Province:	~~A Payment Guarantee Event will occur if~~The Province of Ontario will indemnify each Indemnitee for its costs, expenses and losses reasonably incurred by the Indemnitee (including because of claims made against the Indemnitee by one or more of its specified creditors) that result from any of the following (each, an "**Indemnification Event**"): (A) the Legislative Assembly of Ontario ~~repeals~~repealing (and not replacing on an equivalent basis) the Act; ~~or~~ (B) the Legislative Assembly of Ontario ~~amends~~amending the Act or a Regulation made thereunder ~~is amended~~ in a way that materially and adversely ~~impacts the ability of a Financing Entity to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such~~affects the rights and interests of the Financing Entity under its investment interest; or (C) a court of competent jurisdiction ~~(i)~~in a final and non-appealable judgement determines that all or a portion of the Act ~~to be~~is *ultra vires* in a way that materially and adversely ~~impacts~~affects the ~~ability~~rights and interests of ~~a~~the Financing Entity ~~to fully recover an investment interest in order to fully pay all funding obligations and other obligations incurred by such Financing Entity in respect of such investment interest or (ii) declares any funding obligations to be invalid or unenforceable; or~~ ~~(D) funding obligations are due and payable at a time when a market disruption (a period of [six months or more] when capital~~

	~~markets term funding is not available to effect refinancings of funding obligations) is occurring and, in the case of long term funding obligations only, a moratorium or limitation on the imposition and collection of clean energy adjustments to repay such funding obligations is in effect under the Act~~under its investment interest.
~~Payment Guarantee~~Term:	~~Upon the occurrence of a Payment Guarantee Event under clauses (A), (B) or (C) of the above definition:~~ ~~(x) the Guarantor shall assume and pay when due (without acceleration) all funding obligations and all other obligations of the Financing Entities to the Beneficiaries by paying all regularly scheduled amounts in respect thereof during the term of each Financing Entity's contractual obligation to such Beneficiaries; and~~ ~~(y) Beneficiaries holding funding obligations consisting of bonds [with a remaining term to maturity of greater than **one year**]~~ ~~shall have the option to put the bonds to the Financing Entity for a put price equal to 101% of the principal amount thereof plus accrued and unpaid interest. In connection with any put under this clause (y), the Guarantor shall guarantee payment of the put price and any related hedge breakage but shall not be responsible for any other default, penalty, prepayment or make whole amounts.~~ The Indemnity will continue during the term of any obligation incurred by a Financing Entity that is or is intended to be secured by the Indemnity.
Approval Requirement:	The terms and conditions of the obligations incurred by a Financing Entity that are secured or intended to be secured by an Indemnity, together with the provisions of any Indemnity itself, the will be subject to the approval of the Minister of Energy and the Minister of Finance acting together.
Limits under ~~Guarantees~~Indemnity:	Under no circumstances shall the Guarantor be obligated to indemnify any Beneficiary for special or punitive damages, or for loss of profits.
~~Priority of Payments:~~	~~The priority of the Beneficiaries to any payment made by the Guarantor under the Provincial Support Agreement shall be governed by the priority provisions in the Master Trust Indenture.~~
~~Subrogation:~~	~~Where the Guarantor has repaid all Beneficiaries in full, to the extent of such payments the Guarantor shall be subrogated in and to all the rights of recovery of the Beneficiaries in respect of their~~

	~~applicable indebtedness and obligations and the security granted by a Financing Entity to the Indenture Trustee. After repayment by the Guarantor of all indebtedness and obligations owing to the Beneficiaries, the Indenture Trustee will acknowledge and agree on behalf of the Beneficiaries that the Guarantor is entitled to exercise all of the rights, powers and privileges that the Beneficiaries have or may exercise in respect of the repaid indebtedness and obligations, all in accordance with the terms of the Master Trust Indenture. Prior to the repayment in full of the indebtedness and obligations owed to the Beneficiaries, the Guarantor shall have no rights of subrogation.~~
~~**Notice Requirements:**~~**Undertakings regarding Certain Mismatches**	~~The Indenture Trustee will be required to provide notice to the Guarantor of a Payment Guarantee Event and may in such notice demand payment or performance of the Guarantor's obligation under the Provincial Support Agreement, as applicable.~~
~~**Closing:**~~**Avoidance of Mismatches**	~~Date to be determined but no later than [■, 2017]. The Closing is the date on which the documents in respect of the MSSA, the Master Trust Indenture and all related documentation are executed and delivered~~If a Financing Entity proposes to incur one or more funding obligations that would require the Financing Entity to pay an aggregate amount during any reference period that would exceed the amount otherwise available to the Financing Entity during the reference period from its investment interests to pay such amounts (a "**Mismatch**"), the Financing Entity will, before incurring such funding obligations, undertake commercially reasonable efforts to arrange for commitments from highly creditworthy, market-based funding sources in accordance with the Financing Plan to enable it to satisfy all of its related payment obligations and thereby avoid any Mismatch.
~~**Reporting Requirements of a Financing Entity:**~~ **Possible Undertaking to Fund Mismatches**	~~The Guarantor will be entitled to receive all reports received by the Indenture Trustee under the Master Trust Indenture~~If a Financing Entity is unable to arrange for commitments from one or more highly creditworthy, market-based funding sources in accordance with the Financing Plan to avoid a Mismatch on commercially reasonable terms and conditions, the Minister of Energy and the Minister of Finance acting together may undertake on behalf of the Province of Ontario to provide funding commitments to the extent necessary to provide the Financing Entity with required funding to avoid the Mismatch. Any such undertaking may only be given at or before the incurrence of the funding obligation that would otherwise result in the Mismatch and would be on such terms and conditions, including appropriate compensation to the Province of Ontario, as the Minister of Energy and the Minister of Finance

	determine are reasonable and appropriate in the circumstances. The decision to provide such an undertaking will be in the sole discretion of the Minister of Energy and the Minister of Finance.
~~Conditions Precedent to Closing:~~Documentation	~~Conditions precedent to Closing shall be those conditions set out in the Master Trust Indenture.~~[2]
Representations, Terms and Conditions:	~~Customary representations~~Subject to approval of the Minister of Energy and ~~warranties of the Guarantor~~the Minister of Finance acting together.
FIPPA:	Acknowledgement that the Performance Guarantor ~~is~~and the Indemnitor will be bound by the *Freedom of Information and Protection of Privacy Act (Ontario)* and that any information provided to the Performance Guarantor or ~~its agents or representatives~~the Indemnitor, or any agent or representative of the Performance Guarantor or the Indemnitor, in connection with the ~~Transaction Documents~~transaction documents may be subject to disclosure in accordance with that act or as otherwise required by law.
Confidentiality Obligations:	~~Customary confidentiality~~Confidentiality obligations ~~to be negotiated and included. A Financing Entity and the Beneficiaries shall not, subject to applicable law, issue any press releases and other public announcements in respect of the Provincial Support Agreement without the prior written consent of the Guarantor~~of each Financing Entity and its assignees, representatives and agents as may be determined to be appropriate by the Minister of Energy and the Minister of Finance acting together.
Governing Law:	Province of Ontario.

[2] ~~Opinions on the validity and enforceability of Provincial Support Agreement will be required.~~
