2. obligations incurred by the financing entity to pay specified redemption amounts, other than to the extent that funds are available for payment thereof from one or more refinancings or from amounts on deposit in a capital account ~~or~~, finance reserve account or supplemental reserve account or from payment proceeds under a related derivative agreement ("Redemption Obligations");

3. interest payable under outstanding indebtedness of the financing entity, other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account, from a funding rebate[2] or from payment proceeds under a related derivative agreement ("Interest Obligations");

4. derivative payments due and payable by the financing entity, determined on a net payment basis after the application of any collateral posted or available for posting by or on behalf of the financing entity to or for the benefit of the applicable counterparty, other than to the extent that funds are available for payment thereof from a capital account ~~or~~, finance reserve account or supplemental reserve account or from a funding rebate ("Hedging Obligations");

5. other funding costs due and payable by the financing entity and that are not included in 2, 3 or 4, above, other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account or from a funding rebate ("Other Funding Obligations"); and

6. finance entity expenses, due and payable by the financing entity and that are not included in 2 to 5, above and [other than amounts charged by the Financial Services Manager][~~2~~3],

[1] This assumes that repayments will only include scheduled principal amounts, without regard to default and acceleration.

[2] Incorporate alternative GA stream, as applicable, in relation to all covered amounts – including interest, derivative payments, other funding costs and expenses contemplated in paras. 3 to 6.

[~~2~~3] Confirm arrangements with OPG.

other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account or from a funding rebate ("Third Party Expense Obligations"),

but excluding in each case payments due and payable by the financing entity in respect of any contingent obligation of the financing entity to the extent that such payments would in the aggregate exceed the maximum amount specified therefor in the applicable governing document.

For greater certainty, the Change of Law Protection Agreement will not apply to any other amount or obligation of the financing entity, including (a) any ~~redemption~~ amounts that are or become payable ~~at~~as a result of the exercise of an option of the financing entity following a Protection Event (e.g., redemption or extension rights), (b) amounts required to be deposited by or on behalf of the financing entity into any capital account ~~or~~, finance reserve account or supplemental reserve account, (c) tax liabilities and (d) contingent payment obligations that exceed the maximum amount therefor specified in the applicable governing document.

Adherence Conditions

The Change of Law Protection Agreement will bind the Province in respect of a funding obligation that is an Approved Obligation if:

1. at the time the funding obligation is incurred, the maximum aggregate payment amounts due or becoming due under the funding obligation, together with all other outstanding or committed Approved Obligations, do not exceed the Program Maximum;

2. OPG delivers a certificate, signed by at least two executive officers of OPG and addressed to the Province, not less than ~~[3]~~• Toronto business days prior to the incurrence or any amendment of the funding obligation, setting out the following with respect to the funding obligation:

   (a) the following information respecting a funding obligation to be incurred:

      (i) in the case of an incurrence of any related Principal Obligation, material details respecting such Principal Obligation, including the amount, timing and conditions of repayments (including any redemption or extension rights), the basis for OPG's expectations regarding the availability of any related refinancings, any required deposits to be made into a capital account or a finance reserve account in order to provide for payment of the Principal Obligation, and the rating (if any) contemplated to be attributed to the Principal Obligation;

      (ii) in the case of an incurrence of any related Redemption Obligation, material details respecting such Redemption Obligation, including the basis for determining to exercise any right, option or privilege that would result in an obligation to redeem, prepay or pay prior to a scheduled maturity any Approved Obligation, the basis for OPG's expectations regarding the

availability of any related refinancings, and any required deposits to be made into a capital account or a finance reserve account in order to provide for payment of the Redemption Obligation;

(iii) in the case of an incurrence of any related Interest Obligation, material details respecting such Interest Obligation, including the applicable rate or rates (including default rates) and the timing and any conditions of payments, any required deposits to be made into a finance reserve account or supplemental account or the availability of any funding rebates in order to provide for payment of the Interest Obligation, and the rating (if any) contemplated to be attributed to the Interest Obligation;

(iv) in the case of an incurrence of any related Hedging Obligation, material details respecting such Hedging Obligation, including the counterparty payor(s), the credit ratings (if any) of the payor(s), the anticipated risk or risks to be mitigated by the related derivative agreement, the circumstances in which the Hedging Obligation may not achieve such mitigation or be subject to early termination and whether collateral posting requirements will apply;

(v) in the case of an incurrence of any related Other Funding Obligation and any related Third Party Expense Obligation, material details respecting such obligations, including the payees, the timing and any conditions of payments, and any required deposits to be made into a finance reserve account or supplemental account or the availability of any funding rebates in order to provide for payment of such obligations;

(vi) in the case of any contingent obligation, material details respecting the contingent obligation of the financing entity under the funding obligation, including the nature and extent of any contingent payment, the circumstances in which the payment may arise and the maximum amount specified therefor in the applicable governing document;

(b) if an existing funding obligation is to be amended, material details respecting such amendment and the anticipated effect of the amendment on or in relation to the affected terms and conditions of the funding obligation, including regarding the applicable details set forth in (a), above, as the context requires;

(c) a statement that:

(i) the Principal Obligations, Redemption Obligations, Interest Obligations and Hedging Obligations becoming payable under the funding obligation (1) will arise under terms and conditions that are "Substantially in the Form" of the Reviewed Documentation applicable thereto; ~~and~~ (2) in the opinion of such officers, are reasonably incurred in compliance with the OFHPA, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial

services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions;

(ii) the Other Funding Obligations and Third Party Expense Obligations becoming payable under the funding obligation (1) will, in the opinion of such officers, be reasonably incurred in compliance with the OFHPA, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (2) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (3) reflect, in all material respects, arm's length terms and conditions;

(iii) any Disclosure Document used in connection with the offering and sale of notes ~~or~~, bonds or other securities is "Substantially in the Form" of the Reviewed Documentation; and

(d) confirmation that if the funding obligation includes any contingent obligation, the applicable governing document for the funding obligation sets forth a maximum amount therefor; and

3. the Province has not provided written notice to OPG within ~~2~~• Toronto business days of receiving the certificate specified in 2, above, in respect of a proposed funding obligation stating that the Change of Law Protection Agreement shall not apply in respect of the funding obligation.

If the Adherence Conditions are satisfied, it will not be necessary for the Province to specifically approve the particular terms, conditions or documentation ~~related to~~for the related funding obligations.

In connection with an incurrence or amendment of a funding obligation, OPG may certify to interested third parties that Adherence Condition 2[~~3~~4] with respect thereto has been satisfied. Such certification shall be determinative (regardless of any inaccuracies, incompleteness or other defect in the certificate delivered) and may be relied upon by any addressee as conclusive evidence of same.

Reviewed Documentation

OPG will ensure that not less than ~~20~~• Toronto business days prior to the initial issuance of any funding obligation by the financing entity, the Province will have received copies, in substantially final form, of the following documents:

(a) the constating and organizational documents of the financing entity;

(b) any management, administration or servicing agreement to which the financing entity is a party, including any replacement or standby services agreement;

[~~3~~4] Should this only relate to the certification or also the maximum program and the absence of a negating notice?

(c) the master transfer and servicing agreement between the financing entity and the IESO;

(d) the master trust indenture governing the issuance and common terms of notes or bonds and the security and priority of all Specified Claims that may be incurred from time to time by the financing entity;

(e) the form of supplemental indenture (supplemental to the master trust indenture referred to in (d), above) governing the terms and conditions of related series of notes or bonds issued by the financing entity and the particular allocations, security and priority of Specified Claims being serviced by related series property;

(f) the form of any note ~~or~~, bond or securities purchase agreement and any underwriting/agency/selling/subscription agreement with respect to sale of any series of notes ~~or~~, bonds or securities to be issued under the supplemental indenture referred to in (e), above;

(g) the form of any credit agreement governing the issuance of short term loan obligations by the financing entity;

(h) the form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the financing entity from time to time;

(i) the form of any other agreement or instrument under which a Principal Obligation, a Redemption Obligation, an Interest Obligation, a Hedging Obligation or an Other Funding Obligation may arise or be affected. For example, any other agreement under which the financing entity incurs a material financial obligation or that affects the Province's subrogation rights and subrogee interests must be provided to the Province and, if accepted, become part of the Reviewed Documentation in the future, such as standby liquidity arrangements or credit enhancement agreements;

(j) if applicable, any other agreement governing the respective interests of persons having rights or interests in the investment asset or other assets of the financing entity, including any agreement of the sort contemplated in subsection 29(5) of the OFHPA; and

(k) the form of disclosure document (including any offering circular, prospectus or other investor disclosure statement) (a "Disclosure Document") describing the material terms of the Funding Obligation together with any related material information.

If acceptable, the Province will confirm that such reviewed documents shall be the "Reviewed Documentation" for the purposes of Adherence Condition 2(c).

Any proposed changes, additions or supplements to the Reviewed Documentation will be provided to the Province not less than ~~10~~• Toronto business days prior to any proposed use or such documents becoming effective. Such modified, additional or supplemental documentation will only become "Reviewed Documentation" for the purposes of satisfying Adherence Condition 2(c) if the Province confirms same not less than ~~[2]~~• Toronto business days prior to the delivery and effective time of the certificate contemplated in Adherence Condition 2.

For the purposes of Adherence Condition 2(c), the term "Substantially in the Form" means:

(a) with respect to the Reviewed Documentation referred to in (a) to (j), above, that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the Approved Obligations, including regarding the amount of the payment obligations or the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or interests as a subrogee as a result of performing the Change of Law Protection Agreement with respect to any Approved Obligation;

(b) with respect to the Reviewed Documentation referred to in (e) to (h), above, and possibly (i) and (j) as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of the obligations arising thereunder and as to the timing, conditions and circumstances in which such obligations may arise, but without regard to the ~~specific~~particular financial terms, rates, levels and parameters set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation specify specific requirements, limitations or parameters with respect thereto; and

(c) with respect to the Disclosure Document referred to in (k), above, that there are no material differences between the form and substance of the proposed disclosure document and such Disclosure Document and that such proposed disclosure document complies in all material respects with all securities disclosure requirements relating to the Funding Obligation subject to distribution thereunder.

Program Maximum

The Program Maximum will be determined by the Province prior to the initial issuance of the first funding obligation. In determining the Program Maximum, the Province will have regard to (but not be bound by) OPG's forecast of the maximum payment obligations expected to arise under Approved Obligations during the next [12] month period, based on and in accordance with the applicable Financing Plan (the "Forecast"). OPG will be required to deliver the Forecast to the Province not less than ~~[20]~~• Toronto business days prior to the proposed incurrence of the first funding obligation. The Province will confirm the Program Maximum in writing to OPG and the financing entity.

The Forecast will be updated and delivered to the Province [quarterly] thereafter, or more frequently if OPG so elects, to reflect the maximum payment obligations expected to arise under Approved Obligations during the [12] month period immediately following the date of such updated Forecast, based on and in accordance with the applicable Financing Plan. Upon receiving an updated Forecast, the Province will determine whether or not the Program Maximum will be revised. Any determination to revise the Program Maximum will be confirmed by setting out a new Program Maximum in a written notice from the Province to OPG,

the delivery of which will be conclusive evidence that such new Program Maximum will apply until further so revised.

On-Going Deliveries to the Province

Prior to the initial issuance of any funding obligation by the financing entity, OPG will provide the Province with a copy of the applicable Financing Plan and will promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

Not later than ~~20~~• Toronto business days prior to the use or other dissemination by or on behalf of the financing entity of a disclosure document (including any offering circular, prospectus or other investor disclosure statement) respecting a funding obligation that will constitute an Approved Obligation, OPG will provide the Province with a copy of such disclosure document.

Not later than ~~5~~• Toronto business days prior to the incurrence by the financing entity of a funding obligation that will constitute an Approved Obligation, OPG will provide the Province with a written summary of the final terms and conditions of the proposed funding obligation.

Promptly following any incurrence of a funding obligation that constitutes an Approved Obligation or any amendment of such a funding obligation, OPG will be provide the Province with electronic copies of all related governing and all other closing documents executed by or on behalf of the financing entity in connection with such incurrence or amendment that would affect the financing entity's assets or obligations.

Upon request, OPG will provide the Province with such additional information and documentation as the Province requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

For greater certainty, a failure by OPG to make the foregoing deliveries will not constitute a failure to satisfy the Adherence Conditions.

Covenants of OPG

To support the approval and related information processes described above, OPG will covenant to the Province (among other things) as follows:

(a) OPG will comply and ensure compliance by any financing entity (including as Financial Services Manager) with the OFHPA, the General Regulation and any other enactment related thereto;

(b) OPG will promptly notify the Province of the creation of any funding obligation that OPG determines is not or would not be an Approved Obligation;

(c) ~~(b)~~ after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), OPG will not, without the Province's prior written consent, permit any financing entity to exercise any redemption, pre-payment ~~or~~, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved

Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected;

(d) ~~(c)~~ if a funding obligation that is incurred includes a contingent obligation, OPG will ensure that the governing document for such funding obligation sets forth a maximum amount in order to limit the possible claim amount thereunder and OPG will ensure that such maximum amount is not increased without the Province's prior written consent; and

(e) ~~(d)~~ OPG will ensure that any disclosure (including in any offering document) that refers to or describes the terms, effect or adherence of the Change of Law Protection Agreement will be subject to the prior review and approval of the Province.

For greater certainty, a failure by OPG to perform such covenants will not constitute a failure to satisfy the Adherence Conditions.

Please see attached for discussion our draft proposal for an approval process. This proposal significantly fleshes out the issues and the process in much greater detail from the OPG proposal below.

One issue to note in particular is the process relating to the Program Maximum amount, and the proposed timing for addressing approvals relating to that amount.

Once this group has had a chance to review we can schedule a call or compile any comments before getting back to OPG.

Please see below an email from OPG's counsel setting out a proposed approval process setting out how the Provincial protection agreement would apply to any set of obligations of the Financing Entity.

We at MOF Legal along with Energy Legal and Stephen Ashbourne are in the process of reviewing their proposal and preparing comments. We will have significant comments and questions about this proposal, but wanted to give everyone a chance to review the OPG proposal so that we can discuss those comments as soon as we are ready to do so.

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any

such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Adherence of the Change of Law Protection Agreement to Approved Obligations

Words that are not defined below and that are defined in the OFHPA or otherwise in the General Regulation will have the meanings given in the OFHPA or the General Regulation, as applicable.

Approval Process

Subject to satisfaction of the conditions described under "Adherence Condition", below, the Change of Law Protection Agreement will apply (without duplication) in respect of the following "Specified Claims" (as defined in the Term Sheet) of the applicable financing entity (collectively, the "Approved Obligations"):

1. repayments[1], other than to the extent that funds are available for payment thereof from one or more committed refinancings or from amounts on deposit in a capital account, finance reserve account or supplemental reserve account or from payment proceeds under a related derivative agreement ("Principal Obligations");

2. obligations incurred by the financing entity to pay specified redemption amounts, other than to the extent that funds are available for payment thereof from one or more refinancings or from amounts on deposit in a capital account, finance reserve account or supplemental reserve account or from payment proceeds under a related derivative agreement ("Redemption Obligations");

3. interest payable under outstanding indebtedness of the financing entity, other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account, from a funding rebate[2] or from payment proceeds under a related derivative agreement ("Interest Obligations");

4. derivative payments due and payable by the financing entity, determined on a net payment basis after the application of any collateral posted or available for posting by or on behalf of the financing entity to or for the benefit of the applicable counterparty, other than to the extent that funds are available for payment thereof from a capital account, finance reserve account or supplemental reserve account or from a funding rebate ("Hedging Obligations");

5. other funding costs due and payable by the financing entity and that are not included in 2, 3 or 4, above, other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account or from a funding rebate ("Other Funding Obligations"); and

[1] This assumes that repayments will only include scheduled principal amounts, without regard to default and acceleration.

[2] Incorporate alternative GA stream, as applicable, in relation to all covered amounts – including interest, derivative payments, other funding costs and expenses contemplated in paras. 3 to 6.

6. finance entity expenses, due and payable by the financing entity and that are not included in 2 to 5, above and [other than amounts charged by the Financial Services Manager][3], other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account or from a funding rebate ("Third Party Expense Obligations"),

but excluding in each case payments due and payable by the financing entity in respect of any contingent obligation of the financing entity to the extent that such payments would in the aggregate exceed the maximum amount specified therefor in the applicable governing document.

For greater certainty, the Change of Law Protection Agreement will not apply to any other amount or obligation of the financing entity, including (a) any amounts that are or become payable as a result of the exercise of an option of the financing entity following a Protection Event (e.g., redemption or extension rights), (b) amounts required to be deposited by or on behalf of the financing entity into any capital account, finance reserve account or supplemental reserve account, (c) tax liabilities and (d) contingent payment obligations that exceed the maximum amount therefor specified in the applicable governing document.

Adherence Conditions

The Change of Law Protection Agreement will bind the Province in respect of a funding obligation that is an Approved Obligation if:

1. at the time the funding obligation is incurred, the maximum aggregate payment amounts due or becoming due under the funding obligation, together with all other outstanding or committed Approved Obligations, do not exceed the Program Maximum;

2. OPG delivers a certificate, signed by at least two executive officers of OPG and addressed to the Province, not less than • Toronto business days prior to the incurrence or any amendment of the funding obligation, setting out the following with respect to the funding obligation:

If the Adherence Conditions are satisfied, it will not be necessary for the Province to specifically approve the particular terms, conditions or documentation for the related funding obligations.

In connection with an incurrence or amendment of a funding obligation, OPG may certify to interested third parties that Adherence Condition 2[4] with respect thereto has been satisfied. Such certification shall be determinative (regardless of any inaccuracies, incompleteness or other defect in the certificate delivered) and may be relied upon by any addressee as conclusive evidence of same.

Reviewed Documentation

OPG will ensure that not less than • Toronto business days prior to the initial issuance of any funding obligation by the financing entity, the Province will have received copies, in substantially final form, of the following documents:

[4] Should this only relate to the certification or also the maximum program and the absence of a negating notice?

(a) the constating and organizational documents of the financing entity;

(b) any management, administration or servicing agreement to which the financing entity is a party, including any replacement or standby services agreement;

(c) the master transfer and servicing agreement between the financing entity and the IESO;

(d) the master trust indenture governing the issuance and common terms of notes or bonds and the security and priority of all Specified Claims that may be incurred from time to time by the financing entity;

(e) the form of supplemental indenture (supplemental to the master trust indenture referred to in (d), above) governing the terms and conditions of related series of notes or bonds issued by the financing entity and the particular allocations, security and priority of Specified Claims being serviced by related series property;

(f) the form of any note, bond or securities purchase agreement and any underwriting/agency/selling/subscription agreement with respect to sale of any series of notes, bonds or securities to be issued under the supplemental indenture referred to in (e), above;

(g) the form of any credit agreement governing the issuance of short term loan obligations by the financing entity;

(h) the form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the financing entity from time to time;

(i) the form of any other agreement or instrument under which a Principal Obligation, a Redemption Obligation, an Interest Obligation, a Hedging Obligation or an Other Funding Obligation may arise or be affected. For example, any other agreement under which the financing entity incurs a material financial obligation or that affects the Province's subrogation rights and subrogee interests must be provided to the Province and, if accepted, become part of the Reviewed Documentation in the future, such as standby liquidity arrangements or credit enhancement agreements;

(j) if applicable, any other agreement governing the respective interests of persons having rights or interests in the investment asset or other assets of the financing entity, including any agreement of the sort contemplated in subsection 29(5) of the OFHPA; and

(k) the form of disclosure document (including any offering circular, prospectus or other investor disclosure statement) (a "Disclosure Document") describing the material terms of the Funding Obligation together with any related material information.

If acceptable, the Province will confirm that such reviewed documents shall be the "Reviewed Documentation" for the purposes of Adherence Condition 2(c).

Any proposed changes, additions or supplements to the Reviewed Documentation will be provided to the Province not less than • Toronto business days prior to any proposed use or such documents becoming effective. Such modified, additional or supplemental documentation will only become "Reviewed Documentation" for the purposes of satisfying Adherence Condition 2(c) if the Province confirms same not less than • Toronto business days prior to the delivery and effective time of the certificate contemplated in Adherence Condition 2.

For the purposes of Adherence Condition 2(c), the term "Substantially in the Form" means:

(a) with respect to the Reviewed Documentation referred to in (a) to (j), above, that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the Approved Obligations, including regarding the amount of the payment obligations or the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or interests as a subrogee as a result of performing the Change of Law Protection Agreement with respect to any Approved Obligation;

(b) with respect to the Reviewed Documentation referred to in (e) to (h), above, and possibly (i) and (j) as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of the obligations arising thereunder and as to the timing, conditions and circumstances in which such obligations may arise, but without regard to the particular financial terms, rates, levels and parameters set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation specify specific requirements, limitations or parameters with respect thereto; and

(c) with respect to the Disclosure Document referred to in (k), above, that there are no material differences between the form and substance of the proposed disclosure document and such Disclosure Document and that such proposed disclosure document complies in all material respects with all securities disclosure requirements relating to the Funding Obligation subject to distribution thereunder.

Program Maximum

The Program Maximum will be determined by the Province prior to the initial issuance of the first funding obligation. In determining the Program Maximum, the Province will have regard to (but not be bound by) OPG's forecast of the maximum payment obligations expected to arise under Approved Obligations during the next [12] month period, based on and in accordance with the applicable Financing Plan (the "Forecast"). OPG will be required to deliver the Forecast to the Province not less than • Toronto business days prior to the proposed incurrence of the first funding obligation. The Province will confirm the Program Maximum in writing to OPG and the financing entity.

The Forecast will be updated and delivered to the Province [quarterly] thereafter, or more frequently if OPG so elects, to reflect the maximum payment obligations expected to arise under

Approved Obligations during the [12] month period immediately following the date of such updated Forecast, based on and in accordance with the applicable Financing Plan. Upon receiving an updated Forecast, the Province will determine whether or not the Program Maximum will be revised. Any determination to revise the Program Maximum will be confirmed by setting out a new Program Maximum in a written notice from the Province to OPG, the delivery of which will be conclusive evidence that such new Program Maximum will apply until further so revised.

On-Going Deliveries to the Province

Prior to the initial issuance of any funding obligation by the financing entity, OPG will provide the Province with a copy of the applicable Financing Plan and will promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

Not later than • Toronto business days prior to the use or other dissemination by or on behalf of the financing entity of a disclosure document (including any offering circular, prospectus or other investor disclosure statement) respecting a funding obligation that will constitute an Approved Obligation, OPG will provide the Province with a copy of such disclosure document.

Not later than • Toronto business days prior to the incurrence by the financing entity of a funding obligation that will constitute an Approved Obligation, OPG will provide the Province with a written summary of the final terms and conditions of the proposed funding obligation.

Promptly following any incurrence of a funding obligation that constitutes an Approved Obligation or any amendment of such a funding obligation, OPG will be provide the Province with electronic copies of all related governing and all other closing documents executed by or on behalf of the financing entity in connection with such incurrence or amendment that would affect the financing entity's assets or obligations.

Upon request, OPG will provide the Province with such additional information and documentation as the Province requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

For greater certainty, a failure by OPG to make the foregoing deliveries will not constitute a failure to satisfy the Adherence Conditions.

Covenants of OPG

To support the approval and related information processes described above, OPG will covenant to the Province (among other things) as follows:

(a) OPG will comply and ensure compliance by any financing entity (including as Financial Services Manager) with the OFHPA, the General Regulation and any other enactment related thereto;

(b) OPG will promptly notify the Province of the creation of any funding obligation that OPG determines is not or would not be an Approved Obligation;

(c) after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), OPG will not, without the Province's prior written consent, permit any financing entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected;

(d) if a funding obligation that is incurred includes a contingent obligation, OPG will ensure that the governing document for such funding obligation sets forth a maximum amount in order to limit the possible claim amount thereunder and OPG will ensure that such maximum amount is not increased without the Province's prior written consent; and

(e) OPG will ensure that any disclosure (including in any offering document) that refers to or describes the terms, effect or adherence of the Change of Law Protection Agreement will be subject to the prior review and approval of the Province.

For greater certainty, a failure by OPG to perform such covenants will not constitute a failure to satisfy the Adherence Conditions.

Adherence of the Change of Law Protection Agreement to Approved Obligations

Words that are not defined below and that are defined in the OFHPA or otherwise in the General Regulation will have the meanings given in the OFHPA or the General Regulation, as applicable.

Approval Process

Subject to satisfaction of the conditions described under "Adherence Condition", below, the Change of Law Protection Agreement will apply (without duplication) in respect of the following "Specified Claims" (as defined in the Term Sheet) of the applicable financing entity (collectively, the "Approved Obligations"):

1. repayments[1], other than to the extent that funds are available for payment thereof from one or more committed refinancings or from amounts on deposit in a capital account ~~or~~, finance reserve account or supplemental reserve account or from payment proceeds under a related derivative agreement ("Principal Obligations");

2. obligations incurred by the financing entity to pay specified redemption amounts, other than to the extent that funds are available for payment thereof from one or more refinancings or from amounts on deposit in a capital account ~~or~~, finance reserve account or supplemental reserve account or from payment proceeds under a related derivative agreement ("Redemption Obligations");

3. interest payable under outstanding indebtedness of the financing entity, other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account, from a funding rebate[2] or from payment proceeds under a related derivative agreement ("Interest Obligations");

4. derivative payments due and payable by the financing entity, determined on a net payment basis after the application of any collateral posted or available for posting by or on behalf of the financing entity to or for the benefit of the applicable counterparty, other than to the extent that funds are available for payment thereof from a capital account ~~or~~, finance reserve account or supplemental reserve account or from a funding rebate ("Hedging Obligations");

5. other funding costs due and payable by the financing entity and that are not included in 2, 3 or 4, above, other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account or from a funding rebate ("Other Funding Obligations"); and

6. finance entity expenses, due and payable by the financing entity and that are not included in 2 to 5, above and [other than amounts charged by the Financial Services Manager][~~2~~3],

[1] This assumes that repayments will only include scheduled principal amounts, without regard to default and acceleration.

[2] Incorporate alternative GA stream, as applicable, in relation to all covered amounts – including interest, derivative payments, other funding costs and expenses contemplated in paras. 3 to 6.

[~~2~~3] Confirm arrangements with OPG.

other than to the extent that funds are available for payment thereof from a finance reserve account or supplemental reserve account or from a funding rebate ("Third Party Expense Obligations"),

but excluding in each case payments due and payable by the financing entity in respect of any contingent obligation of the financing entity to the extent that such payments would in the aggregate exceed the maximum amount specified therefor in the applicable governing document.

For greater certainty, the Change of Law Protection Agreement will not apply to any other amount or obligation of the financing entity, including (a) any ~~redemption~~ amounts that are or become payable ~~at~~as a result of the exercise of an option of the financing entity following a Protection Event (e.g., redemption or extension rights), (b) amounts required to be deposited by or on behalf of the financing entity into any capital account ~~or~~, finance reserve account or supplemental reserve account, (c) tax liabilities and (d) contingent payment obligations that exceed the maximum amount therefor specified in the applicable governing document.

Please see attached for discussion our draft proposal for an approval process. This proposal significantly fleshes out the issues and the process in much greater detail from the OPG proposal below.

One issue to note in particular is the process relating to the Program Maximum amount, and the proposed timing for addressing approvals relating to that amount.

Once this group has had a chance to review we can schedule a call or compile any comments before getting back to OPG.

Please see below an email from OPG's counsel setting out a proposed approval process setting out how the Provincial protection agreement would apply to any set of obligations of the Financing Entity.

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in

accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Hi Malle, we have asked Osler to accelerate circulation of the draft supplemental indenture for the long term debt — we hope to have that by mid-week and will send it you on receipt. As with the supp for the short term debt, the draft will not have been reviewed by Torys or OPG but in the interests of time, we will circulate it to you concurrently. We will also start including you on any circulations of revised drafts of the other agreements. Unless we hear differently, we will include you, Toby, Alena and Steve.

Regarding timing, we understand that the short term facility would close very soon after the long term issuance (from a workload perspective, we are treating them as closing almost concurrently). Closing of the long term debt is targeted for the first week of December and closing of the short term debt is targeted for the second week of December. Marketing of the long-term debt would occur in late November but only once we have concluded the rating agency process. The dealers have advised us that the rating agencies will be interested in understanding the change of law agreement in particular, which is why we have been focused on having that agreement circulated and substantially settled with the dealers and their counsel as soon as possible.

Please feel free to reach out if you would like to discuss live.

Thanks,

Rima

Hi Nina,

We do think that it is important for the wording of the protection agreement to appropriately encompass the financing and various instruments that are to be guaranteed by the Province should one of the events as set out in the term sheet occur. The Province has not determined whether the approach suggested to separate the two documents is appropriate. If it is the proposed long term financing that is planned to be done by year-end and there is a desire to substantially settle the terms of the Protection Agreement by the early November, I don't understand why a draft of the long term financing supplemental indenture would not be available for review yet.

When is it expected that the warehousing facility would be put in place?

Thanks.

Toby,

Thanks for your email. Based on the term sheet, since the Province isn't guaranteeing the obligations under these agreements but only stepping in if there is a change of law "protection event", we did not expect the drafting of the Change of Law Protection Agreement would be implicated by these other agreements (particularly now that we have proposed dealing with the Province's approval of the various program agreements in a separate procedures document). We also understand that in order to be in a position to close on a financing before year end, the Change of Law Protection Agreement needs to be substantially settled by early November. If that is still the case, then we expect the dealers and their counsel will need to see a draft in this coming week.

In the interest of time, we have attached an initial draft of the supplemental indenture for the warehouse facility which, as noted previously, has not yet been reviewed by OPG and Torys. The supplemental for the long term financing will be a simpler document - with mechanics for issuing the notes and pricing information but likely no additional covenants and events of default and no drawdown mechanics like the warehouse facility.

We will start copying the Province and Blakes on circulations of all documents going forward. Please let us know if the entire team on this email should be copied or only Blakes and the Provincial legal team.

Best Regards,

Nina

Nina,

We are working on a draft of the Change of Law Protection Agreement, but cannot complete the drafting until we have seen a draft of the Supplemental Indenture and the other instruments that are to be guaranteed.

We are also working on drafting some responses and comments to your comments from Wednesday on the approval process document, and will get back to you with those soon.

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Many thanks,

Nina

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,

Nina

Accounting Issues:

E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence -that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt -the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts) -the negative pledge with respect to the exercise of certain options on the debt -the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

* The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt

issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

* In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

* Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.

* We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?

* There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.

* We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;

(ii) the management agreement between the Financing Entity and OPG;

(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;

(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;

(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;

(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;

(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and

(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Please see attached for discussion our draft proposal for an approval process. This proposal significantly fleshes out the issues and the process in much greater detail from the OPG proposal below.

One issue to note in particular is the process relating to the Program Maximum amount, and the proposed timing for addressing approvals relating to that amount.

Once this group has had a chance to review we can schedule a call or compile any comments before getting back to OPG.

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events

of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Please see attached for discussion our draft proposal for an approval process. This proposal significantly fleshes out the issues and the process in much greater detail from the OPG proposal below.

One issue to note in particular is the process relating to the Program Maximum amount, and the proposed timing for addressing approvals relating to that amount.

Once this group has had a chance to review we can schedule a call or compile any comments before getting back to OPG.

The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies

of the final executed Program Documents.

Adherence of the Change of Law Protection Agreement to Approved Obligations

Words that are not defined below and that are defined in the OFHPA or otherwise in the General Regulation will have the meanings given in the OFHPA or the General Regulation, as applicable.

Approval Process

Subject to satisfaction of the conditions described under "Adherence Condition", below, the Change of Law Protection Agreement will apply (without duplication) in respect of the following "Specified Claims" (as defined in the Term Sheet) of the applicable financing entity (collectively, the "Approved Obligations"):

1. repayments[1], other than to the extent that funds are available for payment thereof from one or more committed refinancings or from amounts on deposit in a capital account or finance reserve account or from payment proceeds under a related derivative agreement ("Principal Obligations");

2. obligations incurred by the financing entity to pay specified redemption amounts, other than to the extent that funds are available for payment thereof from one or more refinancings or from amounts on deposit in a capital account or finance reserve account or from payment proceeds under a related derivative agreement ("Redemption Obligations");

3. interest payable under outstanding indebtedness of the financing entity, other than to the extent that funds are available for payment thereof from a finance reserve account, from a funding rebate or from payment proceeds under a related derivative agreement ("Interest Obligations");

4. derivative payments due and payable by the financing entity, determined on a net payment basis after the application of any collateral posted or available for posting by or on behalf of the financing entity to or for the benefit of the applicable counterparty, other than to the extent that funds are available for payment thereof from a capital account or finance reserve account or from a funding rebate ("Hedging Obligations");

5. other funding costs due and payable by the financing entity and that are not included in 2, 3 or 4, above, other than to the extent that funds are available for payment thereof from a finance reserve account or from a funding rebate ("Other Funding Obligations"); and

6. finance entity expenses, due and payable by the financing entity and that are not included in 2 to 5, above and [other than amounts charged by the Financial Services Manager][2], other than to the extent that funds are available for payment thereof from a finance reserve account or from a funding rebate ("Third Party Expense Obligations"),

[1] This assumes that repayments will only include scheduled principal amounts, without regard to default and acceleration.

[2] Confirm arrangements with OPG.

but excluding in each case payments due and payable by the financing entity in respect of any contingent obligation of the financing entity to the extent that such payments would in the aggregate exceed the maximum amount specified therefor in the applicable governing document.

For greater certainty, the Change of Law Protection Agreement will not apply to any other amount or obligation of the financing entity, including (a) any redemption amounts that are or become payable at the option of the financing entity following a Protection Event, (b) amounts required to be deposited by or on behalf of the financing entity into any capital account or finance reserve account, (c) tax liabilities and (d) contingent payment obligations that exceed the maximum amount therefor specified in the applicable governing document.

Adherence Conditions

The Change of Law Protection Agreement will bind the Province in respect of a funding obligation that is an Approved Obligation if:

1. at the time the funding obligation is incurred, the maximum aggregate payment amounts due or becoming due under the funding obligation, together with all other outstanding or committed Approved Obligations, do not exceed the Program Maximum;

2. OPG delivers a certificate, signed by at least two executive officers of OPG and addressed to the Province, not less than [3] Toronto business days prior to the incurrence or any amendment of the funding obligation, setting out the following with respect to the funding obligation:

   (a) the following information respecting a funding obligation to be incurred:

      (i) in the case of an incurrence of any related Principal Obligation, material details respecting such Principal Obligation, including the amount, timing and conditions of repayments, the basis for OPG's expectations regarding the availability of any related refinancings, any required deposits to be made into a capital account or a finance reserve account in order to provide for payment of the Principal Obligation, and the rating (if any) contemplated to be attributed to the Principal Obligation;

      (ii) in the case of an incurrence of any related Redemption Obligation, material details respecting such Redemption Obligation, including the basis for determining to exercise any right, option or privilege that would result in an obligation to redeem, prepay or pay prior to a scheduled maturity any Approved Obligation, the basis for OPG's expectations regarding the availability of any related refinancings, and any required deposits to be made into a capital account or a finance reserve account in order to provide for payment of the Redemption Obligation;

(iii) in the case of an incurrence of any related Interest Obligation, material details respecting such Interest Obligation, including the applicable rate or rates (including default rates) and the timing and any conditions of payments, any required deposits to be made into a finance reserve account or the availability of any funding rebates in order to provide for payment of the Interest Obligation, and the rating (if any) contemplated to be attributed to the Interest Obligation;

(iv) in the case of an incurrence of any related Hedging Obligation, material details respecting such Hedging Obligation, including the counterparty payor(s), the credit ratings (if any) of the payor(s), the anticipated risk or risks to be mitigated by the related derivative agreement, the circumstances in which the Hedging Obligation may not achieve such mitigation or be subject to early termination and whether collateral posting requirements will apply;

(v) in the case of an incurrence of any related Other Funding Obligation and any related Third Party Expense Obligation, material details respecting such obligations, including the payees, the timing and any conditions of payments, and any required deposits to be made into a finance reserve account or the availability of any funding rebates in order to provide for payment of such obligations;

(vi) in the case of any contingent obligation, material details respecting the contingent obligation of the financing entity under the funding obligation, including the nature and extent of any contingent payment, the circumstances in which the payment may arise and the maximum amount specified therefor in the applicable governing document;

(b) if an existing funding obligation is to be amended, material details respecting such amendment and the anticipated effect of the amendment on or in relation to the affected terms and conditions of the funding obligation, including regarding the applicable details set forth in (a), above, as the context requires;

(c) a statement that:

(i) the Principal Obligations, Redemption Obligations, Interest Obligations and Hedging Obligations becoming payable under the funding obligation (1) will arise under terms and conditions that are "Substantially in the Form" of the Reviewed Documentation applicable thereto; and (2) in the opinion of such officers, are reasonably incurred in compliance with the OFHPA, the General Regulation, any other enactments related thereto and the applicable Financing Plan;

(ii) the Other Funding Obligations and Third Party Expense Obligations becoming payable under the funding obligation (1) will, in the opinion of such officers, be reasonably incurred in compliance with the OFHPA, the General

Regulation, any other enactments related thereto and the applicable Financing Plan; (2) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (3) reflect, in all material respects, arm's length terms and conditions;

(iii) any Disclosure Document used in connection with the offering and sale of notes or bonds is "Substantially in the Form" of the Reviewed Documentation; and

(d) confirmation that if the funding obligation includes any contingent obligation, the applicable governing document for the funding obligation sets forth a maximum amount therefor; and

3. the Province has not provided written notice to OPG within 2 Toronto business days of receiving the certificate specified in 2, above, in respect of a proposed funding obligation stating that the Change of Law Protection Agreement shall not apply in respect of the funding obligation.

If the Adherence Conditions are satisfied, it will not be necessary for the Province to specifically approve the particular terms, conditions or documentation related to related funding obligations.

In connection with an incurrence or amendment of a funding obligation, OPG may certify to interested third parties that Adherence Condition 2[3] with respect thereto has been satisfied. Such certification shall be determinative (regardless of any inaccuracies, incompleteness or other defect in the certificate delivered) and may be relied upon by any addressee as conclusive evidence of same.

Reviewed Documentation

OPG will ensure that not less than 20 Toronto business days prior to the initial issuance of any funding obligation by the financing entity, the Province will have received copies, in substantially final form, of the following documents:

(a) the constating and organizational documents of the financing entity;

(b) any management, administration or servicing agreement to which the financing entity is a party, including any replacement or standby services agreement;

(c) the master transfer and servicing agreement between the financing entity and the IESO;

(d) the master trust indenture governing the issuance and common terms of notes or bonds and the security and priority of all Specified Claims that may be incurred from time to time by the financing entity;

[3] Should this only relate to the certification or also the maximum program and the absence of a negating notice?

(e) the form of supplemental indenture (supplemental to the master trust indenture referred to in (d), above) governing the terms and conditions of related series of notes or bonds issued by the financing entity and the particular allocations, security and priority of Specified Claims being serviced by related series property;

(f) the form of any note or bond purchase agreement and any underwriting/agency/selling/subscription agreement with respect to sale of series of notes or bonds to be issued under the supplemental indenture referred to in (e), above;

(g) the form of any credit agreement governing the issuance of short term loan obligations by the financing entity;

(h) the form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the financing entity from time to time;

(i) the form of any other agreement or instrument under which a Principal Obligation, a Redemption Obligation, an Interest Obligation, a Hedging Obligation or an Other Funding Obligation may arise or be affected. For example, any other agreement under which the financing entity incurs a material financial obligation or that affects the Province's subrogation rights and subrogee interests must be provided to the Province and, if accepted, become part of the Reviewed Documentation in the future, such as standby liquidity arrangements or credit enhancement agreements;

(j) if applicable, any other agreement governing the respective interests of persons having rights or interests in the investment asset or other assets of the financing , including any agreement of the sort contemplated in subsection 29(5) of the OFHPA; and

(k) the form of disclosure document (including any offering circular, prospectus or other investor disclosure statement) (a "Disclosure Document") describing the material terms of the Funding Obligation together with any related material information.

If acceptable, the Province will confirm that such reviewed documents shall be the "Reviewed Documentation" for the purposes of Adherence Condition 2(c).

Any proposed changes, additions or supplements to the Reviewed Documentation will be provided to the Province not less than 10 Toronto business days prior to any proposed use or such documents becoming effective. Such modified, additional or supplemental documentation will only become "Reviewed Documentation" for the purposes of satisfying Adherence Condition 2(c) if the Province confirms same not less than [2] Toronto business days prior to the delivery and effective time of the certificate contemplated in Adherence Condition 2.

For the purposes of Adherence Condition 2(c), the term "Substantially in the Form" means:

(a) with respect to the Reviewed Documentation referred to in (a) to (j), above, that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the Approved Obligations, including regarding the amount of the payment obligations or the timing of

or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or interests as a subrogee as a result of performing the Change of Law Protection Agreement with respect to any Approved Obligation;

(b) with respect to the Reviewed Documentation referred to in (e) to (h), above, and possibly (i) and (j) as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of the obligations arising thereunder and as to the timing, conditions and circumstances in which such obligations may arise, but without regard to the specific financial terms, rates, levels and parameters set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation specify specific requirements, limitations or parameters with respect thereto; and

(c) with respect to the Disclosure Document referred to in (k), above, that there are no material differences between the form and substance of the proposed disclosure document and such Disclosure Document and that such proposed disclosure document complies in all material respects with all securities disclosure requirements relating to the Funding Obligation subject to distribution thereunder.

Program Maximum

The Program Maximum will be determined by the Province prior to the initial issuance of the first funding obligation. In determining the Program Maximum, the Province will have regard to (but not bound by) OPG's forecast of the maximum payment obligations expected to arise under Approved Obligations during the next [12] month period, based on and in accordance with the applicable Financing Plan (the "Forecast"). OPG will be required to deliver the Forecast to the Province not less than [20] Toronto business days prior to the proposed incurrence of the first funding obligation. The Province will confirm the Program Maximum in writing to OPG and the financing entity.

The Forecast will be updated and delivered to the Province [quarterly] thereafter, or more frequently if OPG so elects, to reflect the maximum payment obligations expected to arise under Approved Obligations during the [12] month period immediately following such updated Forecast, based on and in accordance with the applicable Financing Plan. Upon receiving an updated Forecast, the Province will determine whether or not the Program Maximum will be revised. Any determination to revise the Program Maximum will be confirmed by setting out a new Program Maximum in a written notice from the Province to OPG, the delivery of which will be conclusive evidence that such new Program Maximum will apply until further so revised.

On-Going Deliveries to the Province

Prior to the initial issuance of any funding obligation by the financing entity, OPG will provide the Province with a copy of the applicable Financing Plan and will promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

Not later than 20 Toronto business days prior to the use or other dissemination by or on behalf of the financing entity of a disclosure document (including any offering circular, prospectus or other investor disclosure statement) respecting a funding obligation that will constitute an Approved Obligation, OPG will provide the Province with a copy of such disclosure document.

Not later than 5 Toronto business days prior to the incurrence by the financing entity of a funding obligation that will constitute an Approved Obligation, OPG will provide the Province with a written summary of the final terms and conditions of the proposed funding obligation.

Promptly following any incurrence of a funding obligation that constitutes an Approved Obligation or any amendment of a funding obligation, OPG will be provide the Province with electronic copies of all related governing and all other closing documents executed by or on behalf of the financing entity in connection with such incurrence or amendment that would affect the financing entity's assets or obligations.

Upon request, OPG will provide the Province with such additional information and documentation as the Province requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

For greater certainty, a failure by OPG to make the foregoing deliveries will not constitute a failure to satisfy the Adherence Conditions.

Covenants of OPG

To support the approval and related information processes described above, OPG will covenant to the Province (among other things) as follows:

(a) OPG will comply (including as Financial Services Manager) with the OFHPA, the General Regulation and any other enactment related thereto;

(b) after the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), OPG will not, without the Province's prior written consent, permit any financing entity to exercise any redemption, pre-payment or early termination right in respect of any Approved Obligation or any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated or otherwise affected;

(c) if a funding obligation that is incurred includes a contingent obligation, OPG will ensure that the governing document for such funding obligation sets forth a maximum amount in order to limit the possible claim amount thereunder and OPG will ensure that such maximum amount is not increased without the Province's prior written consent; and

(d) OPG will ensure that any disclosure (including in any offering document) that refers to or describes the terms, effect or adherence of the Change of Law Protection Agreement will be subject to the prior review and approval of the Province.

For greater certainty, a failure by OPG to perform such covenants will not constitute a failure to satisfy the Adherence Conditions.

Hi Nina,

We do think that it is important for the wording of the protection agreement to appropriately encompass the financing and various instruments that are to be guaranteed by the Province should one of the events as set out in the term sheet occur. The Province has not determined whether the approach suggested to separate the two documents is appropriate. If it is the proposed long term financing that is planned to be done by year-end and there is a desire to substantially settle the terms of the Protection Agreement by the early November, I don't understand why a draft of the long term financing supplemental indenture would not be available for review yet.

When is it expected that the warehousing facility would be put in place?

Thanks.

Malle

Toby,

Thanks for your email. Based on the term sheet, since the Province isn't guaranteeing the obligations under these agreements but only stepping in if there is a change of law "protection event", we did not expect the drafting of the Change of Law Protection Agreement would be implicated by these other agreements (particularly now that we have proposed dealing with the Province's approval of the various program agreements in a separate procedures document). We also understand that in order to be in a position to close on a financing before year end, the Change of Law Protection Agreement needs to be substantially settled by early November. If that is still the case, then we expect the dealers and their counsel will need to see a draft in this coming week.

In the interest of time, we have attached an initial draft of the supplemental indenture for the warehouse facility which, as noted previously, has not yet been reviewed by OPG and Torys. The supplemental for the long term financing will be a simpler document - with mechanics for issuing the notes and pricing information but likely no additional covenants and events of default and no drawdown mechanics like the warehouse facility.

We will start copying the Province and Blakes on circulations of all documents going forward. Please let us know if the entire team on this email should be copied or only Blakes and the Provincial legal team.

Best Regards,

Nina

Nina,

We are working on a draft of the Change of Law Protection Agreement, but cannot complete the drafting until we have seen a draft of the Supplemental Indenture and the other instruments that are to be guaranteed.

We are also working on drafting some responses and comments to your comments from Wednesday on the approval process document, and will get back to you with those soon.

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,

Nina

Accounting Issues:

E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence -that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt -the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts) -the negative pledge with respect to the exercise of certain options on the debt -the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

* The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

* In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

* Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.

* We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?

* There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.

* We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;

(ii) the management agreement between the Financing Entity and OPG;

(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;

(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;

(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;

(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;

(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and

(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Attachments: Warehouse Supplement - October 17, 2017.doc

Toby,

Thanks for your email. Based on the term sheet, since the Province isn't guaranteeing the obligations under these agreements but only stepping in if there is a change of law "protection event", we did not expect the drafting of the Change of Law Protection Agreement would be implicated by these other agreements (particularly now that we have proposed dealing with the Province's approval of the various program agreements in a separate procedures document). We also understand that in order to be in a position to close on a financing before year end, the Change of Law Protection Agreement needs to be substantially settled by early November. If that is still the case, then we expect the dealers and their counsel will need to see a draft in this coming week.

In the interest of time, we have attached an initial draft of the supplemental indenture for the warehouse facility which, as noted previously, has not yet been reviewed by OPG and Torys. The supplemental for the long term financing will be a simpler document - with mechanics for issuing the notes and pricing information but likely no additional covenants and events of default and no drawdown mechanics like the warehouse facility.

We will start copying the Province and Blakes on circulations of all documents going forward. Please let us know if the entire team on this email should be copied or only Blakes and the Provincial legal team.

Best Regards,

Nina

Nina,

We are working on a draft of the Change of Law Protection Agreement, but cannot complete the drafting until we have seen a draft of the Supplemental Indenture and the other instruments that are to be guaranteed.

We are also working on drafting some responses and comments to your comments from Wednesday on the approval process document, and will get back to you with those soon.

Best

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Many thanks,

Nina

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Nina

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,

Nina

Accounting Issues:

E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt

-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)

-the negative pledge with respect to the exercise of certain options on the debt

-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

* The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

* In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

* Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.

* We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?

* There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.

* We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;

(ii) the management agreement between the Financing Entity and OPG;

(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;

(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;

(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;

(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;

(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and

(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

3.2 Delivery

(a) On the Series 2017-1 Closing Date (or on any later date that any Purchaser Group becomes a party to this Supplemental Indenture), Series 2017-1 Senior Notes shall be executed, authenticated and delivered by the Issuer in accordance with Section 4.03 of the Trust Indenture (i) in the case of a CP Conduit Purchaser Group, in the name of the Funding Agent with respect to such CP Conduit Purchaser Group (or as otherwise requested by such CP Conduit Purchaser Group and agreed to by the Issuer) in an amount equal to the Maximum Purchaser Group Principal Amount with respect to such CP Conduit Purchaser Group and delivered to such Funding Agent; or (ii) in the case of a Non-Conduit Purchaser Group, in the name of the Related Non-Conduit Purchaser in an amount equal to the Maximum Purchaser Group Principal Amount with respect to such Related Non-Conduit Purchaser Group and delivered to such Related Non-Conduit Purchaser.

3.3 Procedure for Initial Issuance and for Increasing the Series 2017-1 Principal Amount

(a) (i) On any Business Day prior to [**December 15, 2017**], in the case of a Non-Conduit Purchaser Group, the Related Non-Conduit Purchaser hereby agrees, or in the case of a CP Conduit Purchaser Group, the CP Conduit Purchaser in such CP Conduit Purchaser Group may agree, in its sole discretion, and the Group Bank with respect to such CP Conduit Purchaser hereby agrees, that it will purchase a Series 2017-1 Senior Note for an initial purchase price equal to the Commitment Percentage with respect to such Purchaser Group of the Series 2017-1 Initial Principal Amount upon the request of the Issuer (the date on which the initial purchase occurs being referred to as the "**Series 2017-1 Closing Date**"); provided, however, that the Issuer shall have given the Administrative Agent (with a copy to the Indenture Trustee) irrevocable written notice (effective upon receipt), by telecopy (receipt confirmed), substantially in the form of Schedule C no later than **[3:00 p.m.]** (Toronto time) on the third Business Day prior to the Series 2017-1 Closing Date. The written notice of the initial purchase of the Series 2017-1 Senior Notes shall state (x) the Series 2017-1 Closing Date, and (y) the initial total purchase price to be paid for the Series 2017-1 Senior Notes (the "**Series 2017-1 Initial Principal Amount**"); and (ii) subject to Section 3.3(e), on any Business Day during the period from the initial purchase of the Series 2017-1 Senior Notes hereunder to and including the Commitment Expiry Date, in the case of a Non-Conduit Purchaser Group, the Related Non-Conduit Purchaser hereby agrees, or in the case of a CP Conduit Purchaser Group, the CP Conduit Purchaser in such CP Conduit Purchaser Group may agree, in its sole discretion, and the Group Bank with respect to such CP Conduit Purchaser hereby agrees that the Purchaser Group Principal Amount with respect to such Purchaser Group may be increased by an amount equal to the Commitment Percentage with respect to such Purchaser Group of the Increase Amount (an

"**Increase**"), upon the request of the Issuer (each date on which an increase in the Series 2017-1 Principal Amount occurs hereunder being herein referred to as the "**Increase Date**" applicable to such Increase); provided, however, that the Issuer shall have given the Administrative Agent (with a copy to the Indenture Trustee) irrevocable (other than as specified in Section 3.3(e)) written notice (effective upon receipt), by telecopy (receipt confirmed), substantially in the form of Schedule C (an "**Increase Notice**") no later than **[3:00 p.m.]** (Toronto time) on (A) with respect to a Deferrable Increase Notice, the third Business Day prior to such Increase Date, or (B) with respect to a Non-Deferrable Increase Notice, the second Business Day prior to such Increase Date. Each Increase Notice shall state (x) the Increase Date, (y) the proposed amount of the increase in the Series 2017-1 Principal Amount (an "**Increase Amount**"), (z) whether a Delayed Funding Notice may be delivered in connection with such Increase pursuant to Section 3.3(e) and whether the Increase is to fund a Transfer (a "**Transfer Increase**") or is in respect of a Refinancing (a "**Refinancing Increase**"). The Commitment Percentage with respect to any Purchaser Group of the Increase Amount set forth in any Non-Deferrable Increase Notice shall not exceed such Purchaser Group's Non-Deferrable Draw Amount as of the related Increase Date.

(b) If a CP Conduit Purchaser elects not to fund the full amount of its Commitment Percentage of a requested Increase, such CP Conduit Purchaser shall notify the Administrative Agent and the Funding Agent with respect to such CP Conduit Purchaser, and the Group Bank with respect to such CP Conduit Purchaser shall fund the portion of the Commitment Percentage with respect to such Related Purchaser Group of such Increase not funded by such CP Conduit Purchaser.

(c) No Purchaser Group shall be required to increase its Purchaser Group Principal Amount on any Increase Date hereunder unless:

(i) such Purchaser Group's Commitment Percentage of such Increase Amount is equal to (A) $**[1,000,000]** or more, or (B) if less, the excess of the Maximum Purchaser Group Principal Amount with respect to such Purchaser Group over the Purchaser Group Principal Amount with respect to such Purchaser Group; and

(ii) after giving effect to such Increase Amount, the sum of the (x) the Purchaser Group Principal Amount, and (y) any unfunded Delayed Amounts with respect to such Purchaser Group would not exceed the Maximum Purchaser Group Principal Amount with respect to such Purchaser Group;

(d) Upon receipt of any notice required by Section 3.3(a) or permitted by Section 3.3(e) from the Issuer, the Administrative Agent shall forward (by telecopy or electronic messaging system) a copy of such notice to each Non-Conduit Purchaser and the Funding Agent with respect to each CP Conduit Purchaser Group (or, with respect to any notice pursuant to Section 3.3(e) requiring a Delayed Funding Purchaser Group to decrease its Delayed Amount, the applicable Non-Conduit Purchaser or Funding Agent), no later than **[5:00 p.m.]** (Toronto time) on the day received. After receipt by any Funding Agent with respect to a CP Conduit Purchaser Group of such notice from the Administrative Agent, such Funding Agent shall, so long as the conditions set forth in Sections 3.3(a) and (c) and Article 4 are satisfied, promptly provide telephonic notice to the related CP Conduit Purchaser and the related Group Bank, of the Increase Date and of such CP Conduit Purchaser Group's Commitment Percentage of the Series 2017-1 Closing Date or Increase Amount, as applicable. Subject to Section 3.3(e), if such CP Conduit Purchaser

elects to fund all or a portion of its Commitment Percentage of the Series 2017-1 Initial Principal Amount or the Increase Amount, as applicable, such CP Conduit Purchaser shall pay in immediately available funds its Commitment Percentage (or any portion thereof) of the amount of the Series 2017-1 Initial Principal Amount or Increase Amount, as applicable, on the Series 2017-1 Closing Date or the related Increase Date, as applicable, to the Funding Agent with respect to such CP Conduit Purchaser Group for remittance to the Indenture Trustee for application in accordance with Section 3.3(h). Subject to Section 3.3(e), if such CP Conduit Purchaser does not fund the full amount of the Commitment Percentage of such CP Conduit Purchaser Group of the Series 2017-1 Initial Principal Amount or an Increase Amount, as applicable, and the related Group Bank is required to fund the portion thereof not funded by the CP Conduit Purchaser, such Group Bank shall pay in immediately available funds such portion on the Series 2017-1 Closing Date or the related Increase Date, as applicable, to the Funding Agent with respect to such CP Conduit Purchaser Group. Each Funding Agent shall remit the amounts received by it from its CP Conduit Purchaser or the related Group Bank pursuant to this Section 3.3(d) to the Indenture Trustee for application in accordance with Section 3.3(h). Subject to Section 3.3(e), so long as the conditions set forth in Sections 3.3(a) and (c) and Article 4 are satisfied, each Non-Conduit Purchaser shall pay in immediately available funds the Commitment Percentage of such Non-Conduit Purchaser of the amount of the Series 2017-1 Initial Principal Amount or Increase Amount, as applicable, on the Series 2017-1 Closing Date or the Increase Date, as applicable, to the Indenture Trustee for application in accordance with Section 3.3(h).

(e) Notwithstanding any of the foregoing, any Group Bank or Non-Conduit Purchaser who shall have previously notified the Issuer in writing that it or any related Program Support Provider may, in the absence of the Group Bank or Non-Conduit Purchaser having the ability to deliver Delayed Funding Notices hereunder, incur charges under, or in anticipation of, Basel III (which may include external charges incurred by the Group Bank, Non-Conduit Purchaser or Program Support Provider or internal charges incurred by any of their businesses) in respect of its Commitment hereunder or any agreement to support such Commitment, or in respect of its interest in the Series 2017-1 Senior Notes, based on its "liquidity coverage ratio" calculated under Basel III, may, upon receipt of any Deferrable Increase Notice pursuant to Section 3.3(a), notify the Issuer in writing (a "**Delayed Funding Notice**") on or prior to **[12:00 noon]** (Toronto time) on the second Business Day preceding the related Increase Date, of its intent to fund an amount up to its Commitment Percentage of the related Increase Amount (such amount, subject to any adjustment described below, the "**Delayed Amount**") on a Business Day that is on or before the thirty-third (33rd) day following the Increase Date specified in such Deferrable Increase Notice (the "**Delayed Funding Date**") rather than on such Increase Date. If any Group Bank or Non-Conduit Purchaser provides a Delayed Funding Notice to the Issuer following the Issuer's delivery of an Increase Notice pursuant to Section 3.3(a), the Issuer may with written notice to the Administrative Agent delivered prior to 3:00 pm on the second Business Day preceding such Increase Date, (x) decrease the Increase Amount with respect to such Deferrable Increase Notice (or revoke such Deferrable Increase Notice by decreasing the Increase Amount to zero), and/or (y) require any Group Bank or Non-Conduit Purchaser who has provided a Delayed Funding Notice to reduce the Delayed Amount with respect to such Increase by an amount no greater than the Non-Deferrable Draw Amount with respect to such Purchaser Group as of the related Increase Date. In the event that the Increase Amount with respect to such Deferrable Increase Notice is reduced, but not to zero, then any Delayed Amount with respect to any Purchaser Group shall be reduced on a pro rata basis unless otherwise specified by the Issuer

pursuant to clause (y) above. No Purchaser Group that has provided a Delayed Funding Notice in respect of an Increase (each a "**Delayed Funding Purchaser Group**") shall be considered to be in default of its obligation to fund its Delayed Amount pursuant to this Section 3.3 unless and until it has failed to fund the Delayed Amount (and/or the Delayed Funding Reimbursement Amount with respect to such Delayed Amount) on or before the Delayed Funding Date.

(f) If (i) one or more Delayed Funding Purchaser Groups provides a Delayed Funding Notice to the Issuer in respect of any Increase Date; and (ii) the Issuer shall not have decreased the related Increase Amount to zero or required each such Delayed Funding Purchaser Group to reduce the Delayed Amount with respect to such Increase to zero, in each case, pursuant to Section 3.3(e), the Administrative Agent shall, by no later than **[12:00 noon]** (Toronto time) on the Business Day preceding such Increase Date, direct each Purchaser Group that is not a Delayed Funding Purchaser Group with respect to such Increase Date (each a "**Non-Delayed Funding Purchaser Group**") to fund an additional portion of such Increase Amount on such Increase Date equal to such Non-Delayed Funding Purchaser Group's proportionate share (based upon the Maximum Purchaser Group Principal Amount with respect to such Non-Delayed Funding Purchaser Group relative to the sum of the Maximum Purchaser Group Principal Amounts with respect to all Non-Delayed Funding Purchaser Groups) of the aggregate Delayed Amounts with respect to such Increase Date; provided that no Non-Delayed Funding Purchaser Group shall be required to fund any portion of the aggregate Delayed Amounts that would cause its Purchaser Group Principal Amount to exceed its Maximum Purchaser Group Principal Amount. Subject to Section 3.3(a), in the case of a Non-Delayed Funding Purchaser Group that is a Non-Conduit Purchaser, such Non-Conduit Purchaser hereby agrees, or, in the case of a Non-Delayed Funding Purchaser Group that is a CP Conduit Purchaser Group, the CP Conduit in such CP Conduit Purchaser Group may agree, in its sole discretion, and the Group Bank in such CP Conduit Purchaser Group hereby agrees, to fund such portion of the Increase Amount on such Increase Date.

(g) After the Non-Delayed Funding Purchaser Groups fund a Delayed Amount on any Increase Date in accordance with Section 3.3(f), the Delayed Funding Purchaser Group in respect of such Delayed Amount will be obligated to fund the Delayed Funding Reimbursement Amount with respect to such Delayed Amount on or before its Delayed Funding Date, irrespective of whether the Scheduled Commitment Expiry Date shall have occurred on or prior to such Delayed Funding Date or the Issuer would be able to satisfy the conditions set forth in Section 3.3(c) to an Increase in an amount equal to such Delayed Funding Reimbursement Amount on such Delayed Funding Date. Such Delayed Funding Purchaser Group shall fund such Delayed Funding Reimbursement Amount on such Delayed Funding Date by paying such amount to the Administrative Agent in immediately available funds, and the Administrative Agent shall distribute such funds to each such Non-Delayed Funding Purchaser Group, *pro rata* based on the relative amount of such Delayed Amount funded by such Non-Delayed Funding Purchaser Group on such Increase Date pursuant to Section 3.3(f).

(h) The Indenture Trustee shall apply amounts paid to it pursuant to Section 3.3(d) in the following order of priority:

(i) As to an amount equal to the Series 2017-1 Cash Reserve Required Amount, by deposit to the Series 2017-1 Cash Reserve Account; and

(ii) as to the balance, in respect of the proceeds of the initial purchase of the Series 2017-1 Notes or a Transfer Increase, by application to payment of the purchase price payable by the Issuer to the IESO under the Master Transfer and Servicing Agreement in respect of the related Transfer and, in respect of the proceeds of a Refinancing Increase, by deposit to the Refinancing Account.

3.4 Procedure for Decreasing the Series 2017-1 Principal Amount; Optional Termination

(a) In the case of a Non-Conduit Purchaser Group, the Related Non-Conduit Purchaser hereby agrees, and in the case of a CP Conduit Purchaser Group, each of the CP Conduit Purchasers and the Group Bank in such CP Conduit Purchaser Group hereby agrees, that the Purchaser Group Principal Amount with respect to such Purchaser Group may be decreased by an amount equal to the Commitment Percentage with respect to such Purchaser Group of a Decrease Amount (a "**Decrease**"), upon the request of the Issuer. Each date on which a Decrease in the Series 2017-1 Principal Amount occurs hereunder being herein referred to as the"**Decrease Date**" applicable to such Decrease; provided, however, that the Issuer shall have given the Administrative Agent (with a copy to the Indenture Trustee) irrevocable written notice (effective upon receipt), by telecopy (receipt confirmed), substantially in the form of Schedule D (a "**Decrease Notice**") no later than **[3:00 p.m.]** (Toronto time) on the second Business Day prior to such Decrease Date. Each Decrease Notice shall state (x) the Decrease Date, (y) the proposed amount of the decrease in the Series 2017-1 Principal Amount (a "**Decrease Amount**"), and (z) whether the Decrease is being funded with the proceeds of a Refinancing (a "**Refinancing Decrease**") or pursuant to the application of collected Clean Energy Adjustments (a "**CEA Decrease**").

(b) Upon each Decrease, the Administrative Agent shall indicate in its records such Decrease and the Purchaser Group Principal Amount outstanding with respect to each Purchaser Group after giving effect to such Decrease. Upon receipt of any notice required by this Section 3.4(a) from the Issuer, the Administrative Agent shall forward (by telecopy or electronic messaging system) a copy of such notice to each Non-Conduit Purchaser and the Funding Agent with respect to each CP Conduit Purchaser Group, no later than **[1:00 p.m.]** (Toronto time) on the Business Day received.

(c) On any Business Day, the Issuer shall have the right to deliver an irrevocable written notice (an "**Optional Termination Notice**") to the Administrative Agent in which the Issuer declares that the Commitments shall terminate on the date (the "**Optional Termination Date**") set forth in such notice (which date, in any event, shall be a Payment Date not less than twenty Business Days from the date on which such notice is delivered). Upon receipt of any Optional Termination Notice from the Issuer, the Administrative Agent shall promptly notify each Non-Conduit Purchaser and the Funding Agent with respect to each CP Conduit Purchaser Group thereof.

3.5 Increases and Reductions of the Commitments

(a) The Issuer may from time to time request that any Purchaser Group agree to increase its Maximum Purchaser Group Principal Amount. An increase in such amount shall be effective hereunder if such Purchaser Group shall have agreed in its sole discretion to such increase.

(b) On any Business Day, the Issuer may, upon two (2) Business Days' prior written notice to the Administrative Agent (effective upon receipt) (with copies to the Indenture Trustee) reduce the Series 2017-1 Maximum Principal Amount in an amount equal to $**[10,000,000]** or a whole multiple of $**[1,000,000]** in excess thereof; provided that no such termination or reduction shall be permitted if, after giving effect thereto and to any reduction in the Series 2017-1 Principal Amount on such date, the Purchaser Group Principal Amount with respect to any Purchaser Group would exceed the Maximum Purchaser Group Principal Amount with respect to such Purchaser Group then in effect. Any reduction in the Series 2017-1 Maximum Principal Amount shall be made on a pro rata basis to the Maximum Purchaser Group Principal Amounts with respect to the Purchaser Groups, based on the Maximum Purchaser Group Principal Amount with respect to each Purchaser Group. Once reduced, the Maximum Purchaser Group Principal Amounts may not be subsequently reinstated without each such Purchaser Group's prior written consent, which consent shall be granted or not in the sole discretion of such Purchaser Group.

(c) The Issuer may extend the Scheduled Commitment Expiry Date only with the prior written consent of the Administrative Agent, each Non-Conduit Purchaser and each Funding Agent.

3.6 Interest; Fees and Other Amounts

(a) Interest shall be payable on the Series 2017-1 Senior Notes on each Payment Date.

(b) The Issuer shall pay to each CP Conduit Purchaser Group and each Non-Conduit Purchaser, on each Payment Date, a commitment fee with respect to the preceding Billing Period (the "**Commitment Fee**") during the period from the Series 2017-1 Closing Date to and including the Commitment Expiry Date in an amount equal to the sum of the following amounts calculated for each day during such Billing Period: (x) the Commitment Fee Rate, multiplied by (y) the amount by which Maximum Purchaser Group Principal Amount with respect to such Purchaser Group on such day exceeds the Purchaser Group Principal Amount with respect to such Purchaser Group on such day, and divided by (z) 365. The Commitment Fees shall be payable monthly in arrears on each Payment Date.

(c) The Funding Agent with respect to each CP Conduit Purchaser Group and each Non-Conduit Purchaser shall provide written notice to the Issuer no later than two Business Days prior to each Payment Date, setting forth the Monthly Interest, Fees and Other Amounts with respect to its Related Purchaser Group with respect to the preceding Billing Period.

(d) On each Payment Date, the Monthly Interest, Fees and Other Amounts shall be the amount payable in respect of the Series 2017-1 Notes pursuant to Section 7.04(e)(ii)(A) of the Trust Indenture or Section 8.13(b)(A) of the Trust Indenture, as applicable. On each Payment Date the Indenture Trustee shall, subject to availability of funds, pay to each CP Conduit Purchaser Group and each Non-Conduit Purchaser its Monthly Interest, Fees and Other Amounts with respect to the preceding Billing Period.

(e) If on any Payment Date when distributions of collections are being made under Section 7.04(e)(ii)(A) of the Trust Indenture the amount available to pay Monthly Interest, Fees and Other Amounts under such section is less the Monthly Interest, Fees and Other Amounts, an amount equal to the lesser of (x) such deficiency, and (y) the balance on deposit in the Series

2017-1 Cash Reserve Account shall be withdrawn from the Series 2017-1 Cash Reserve Account and applied to the payment of Monthly Interest, Fees and Other Amounts pursuant to Section 3.6(d).

(f) If the amounts deposited to the Series 2017-1 Distribution Account pursuant to Section 3.6(d) and amounts available pursuant to Section 3.6(e) are insufficient to pay all such amounts in full, the amount available shall be applied in the following order of priority:

(i) Firstly, in respect of Monthly Interest and if insufficient funds are available to pay Monthly Interest in full, to all Purchaser Groups, *pro rata* based on the amount of Monthly Interest owing to each Purchaser Group;

(ii) Secondly, in respect of Commitment Fees and if insufficient funds are available to pay Commitment Fees in full to all Purchaser Groups, *pro rata* based on the amount of Commitment Fees owing to each Purchaser Group; and

(iii) Thirdly, in respect of all other amounts owing to the Purchaser Groups and if insufficient funds are available to pay all other amounts owing in full to all Purchaser Groups, *pro rata* based on the amount of the other amounts owing to each Purchaser Group.

3.7 Repayment of Principal

(a) On each Payment Date, the Payment Date Waterfall Principal Amount shall be the principal amount payable in respect of the Series 2017-1 Senior Notes pursuant to Section 7.04(e)(iii)(A) of the Trust Indenture or Section 8.13(c)(A) of the Trust Indenture, as applicable. On each Payment Date the Indenture Trustee shall, subject to availability of funds, pay to each Non-Conduit Purchaser and each Funding Agent with respect to its Related Purchaser Group, such Purchaser Group's Pro Rata Share of the funds allocated to the Series 2017-1 Senior Notes pursuant to Section 7.04(e)(iii)(A) of the Trust Indenture or Section 8.13(c)(A) of the Trust Indenture, as applicable in repayment of the principal amount of the Series 2017-1 Notes.

(b) If on any Payment Date the amount available to the Purchaser Groups pursuant to Section 7.04(e)(iii)(A) of the Trust Indenture or Section 8.13(c)(A) of the Trust Indenture, as applicable, is less than the Payment Date Waterfall Principal Amount, an amount equal to the lesser of (x) such deficiency, and (y) the balance on deposit in the Series 2017-1 Cash Reserve Account shall be withdrawn from the Series 2017-1 Cash Reserve Account and applied to the repayment of principal amount of the Series 2017-1 Notes.

(c) On each Decrease Date in respect of a Refinancing Decrease Date, the Issuer shall pay to each Non-Conduit Purchaser and each Funding Agent with respect to its Related Purchaser Group, such Purchaser Group's Pro Rata Share of the Decrease Amount.

3.8 Indemnification by the Issuer

The Issuer agrees to indemnify and hold harmless the Indenture Trustee, the Administrative Agent, each Funding Agent, each CP Conduit Purchaser, the Group Bank, each Non-Conduit Purchaser and each of their respective officers, directors, agents and employees (each, an "**Issuer indemnified person**") from and against any loss, liability, expense, damage or injury suffered or

sustained by such Issuer indemnified person by reason of (a) any acts, omissions or alleged acts or omissions arising out of, or relating to, activities of the Issuer pursuant to the Program Agreements to which it is a party; (b) a breach of any representation or warranty made or deemed made by the Issuer (or any of its officers) in any Program Agreement; or (c) a failure by the Issuer to comply with any applicable law or regulation or to perform its covenants, agreements, duties or obligations required to be performed or observed by it in accordance with the provisions of the Program Agreements, including, but not limited to, any judgment, award, settlement, reasonable attorneys' fees and other reasonable costs or expenses incurred in connection with the defense of any actual or threatened action, proceeding or claim, except to the extent such loss, liability, expense, damage or injury resulted from the gross negligence, bad faith or willful misconduct of such Issuer indemnified person or its officers, directors, agents, principals, employees or employers or includes any Excluded Taxes; provided that any payments made by the Issuer pursuant to this Section 3.8 shall be made solely from funds available pursuant to Section **[7.04]** of the Trust Indenture, shall be non-recourse other than with respect to such funds, and shall not constitute a claim against the Issuer to the extent that such funds are insufficient to make such payment.

3.9 Funding Agents

(a) The Funding Agent with respect to each CP Conduit Purchaser Group is hereby authorized to determine the Monthly Interest and Fees with respect to each Billing Period and such CP Conduit Purchaser Group. Any such determination by a Funding Agent, absent manifest error, shall constitute prima facie evidence of the accuracy of the calculation. Furthermore, the Funding Agent with respect to each CP Conduit Purchaser Group will maintain records sufficient to identify the percentage interest of the related CP Conduit Purchaser and the Group Bank with respect to such CP Conduit Purchaser Group holding an interest in the Series 2017-1 Senior Note registered in the name of such Funding Agent and any amounts owing thereunder.

(b) Upon receipt of funds on each Payment Date and the date of any Decrease, each Funding Agent shall pay such funds to the related CP Conduit Purchaser and/or the related Group Bank owed such funds. If a Funding Agent shall have paid to any CP Conduit Purchaser or Group Bank any funds that (i) must be returned for any reason (including bankruptcy); or (ii) exceeds that which such CP Conduit Purchaser or Group Bank was entitled to receive, such amount shall be promptly repaid to such Funding Agent by such CP Conduit Purchaser or Group Bank.

3.10 Taxes

(a) All payments by or on account of any obligation of the Issuer hereunder shall, to the extent allowed by law, be made free and clear of, and without deduction or withholding for or on account of, any present or future income, stamp or other taxes, levies, imposts, duties, charges, fees, deductions or withholdings, now or hereafter imposed, levied, collected, withheld or assessed by any Governmental Authority (collectively, "**Taxes**"), excluding (i) income taxes (including branch profit taxes, minimum taxes and taxes computed under alternative methods, at least one of which is based on or measured by net income), franchise taxes (imposed in lieu of income taxes), or any other taxes based on or measured by the net income of the Purchaser (but specifically excluding any taxes required to be withheld under Section 1446 of the *Internal Revenue Code* of 1986 (as amended, the "**Code**")) as a result of a present or former connection between the recipient and the jurisdiction of the governmental authority imposing such tax (other

than any such connection arising solely from the recipient having executed, delivered or performed its obligations or received a payment under, disposed of, or enforced, this Supplemental Indenture); and (ii) any Taxes imposed under FATCA (as defined below) (including in the case of (i) and (ii), any interest, penalties and additions to tax) (all such excluded taxes being hereinafter called "**Excluded Taxes**"). If any Taxes, other than Excluded Taxes, are required to be withheld from any amounts payable to a recipient hereunder, the amounts so payable to the recipient shall be increased, and the recipient shall be entitled to be paid by the Issuer the amount of such increase to the extent necessary to yield to the recipient (after payment of all such Taxes other than Excluded Taxes) interest or any such other amounts payable hereunder or thereunder at the rates or in the amounts specified hereunder. Where the amount payable by the Issuer is increased in accordance with the previous sentence, the Monthly Interest and Fees shall be increased by the amount of such increase. Whenever any Taxes are payable on or with respect to amounts distributed to a recipient, as promptly as possible thereafter the Issuer shall send to such recipient a certified copy of an original official receipt showing payment thereof.

(b) If a payment by or on account of any obligation of the Issuer hereunder would be subject to U.S. federal withholding Tax imposed by provisions of Chapter 4 of the Code ("**FATCA**") if the recipient of such payment were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such recipient shall deliver to the Issuer at the time or times prescribed by law and at such time or times reasonably requested by the Issuer such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Issuer as may be necessary for the Issuer to comply with their obligations under FATCA and to determine that such recipient has complied with it's obligations under FATCA or to determine the amount to deduct and withhold from such payment. If any form or certification it previously delivered by a recipient expires or becomes obsolete or inaccurate in any respect, the recipient shall update such form or certification or promptly notify the Issuer in writing of its legal inability to do so.

(c) If a recipient is legally entitled to receive a refund of any Taxes (other than Excluded Taxes) as to which it has been indemnified or with respect to which additional amounts have been paid to it hereunder or it is legally entitled to receive a credit or deduction with respect to such Taxes or with respect to such additional amounts that have been paid hereunder (in each case pursuant to Section 3.10(a)), it shall use commercially reasonable efforts to obtain or claim such refund, credit or deduction and pay over such refund or the value of such credit or deduction to the Issuer, together with any interest thereon.

3.11 Increased Costs

(a) (i) If any Regulatory Change (x) subjects any Non-Conduit Purchaser, CP Conduit Purchaser, Group Bank Purchaser or any Program Support Party (an "**Affected Person**") to any charge or withholding on or with respect to any Support Facility or this Supplemental Indenture or an Affected Person's obligations under a Support Facility or this Supplemental Indenture, or changes the basis of taxation of payments to any Affected Person of any amounts payable under any Support Facility or this Supplemental Indenture Agreement (except for changes in the rate of tax on the overall net income of an Affected Person or Excluded Taxes) or (y) imposes, modifies or deems applicable any reserve, assessment, fee, tax, insurance charge, special deposit or similar requirement against assets of, deposits with or for the account of, or liabilities of an Affected

Person, or credit extended by an Affected Person pursuant to a Support Facility or this Supplemental Indenture or (z) imposes any other condition the result of which is to increase the cost to an Affected Person of performing its obligations under a Support Facility or this Supplemental Indenture, or to reduce the rate of return on an Affected Person's capital or assets as a consequence of its obligations under a Support Facility or this Supplemental Indenture, or to reduce the amount of any sum received or receivable by an Affected Person under a Support Facility or this Supplemental Indenture, or to require any payment calculated by reference to the amount of interests or loans held or interest received by it, then, upon written request by such Affected Party (through the Funding Agent for its Purchaser Group if the Affected Party is a Program Support Provider, CP Conduit Purchaser or Group Bank) of a written request therefore to the Issuer, such Affected Party (through the Funding Agent for its Purchaser Group if the Affected Party is a Program Support Provider, CP Conduit Purchaser or Group Bank) shall be entitled to be paid, such amounts charged to such Affected Party or such amounts to otherwise compensate such Affected for such increased cost or such reduction, no later than the Payment Date following receipt by the Issuer of such request for compensation under this Section 3.11(a)(i), if such request is received by the Issuer no later than five (5) Business Days prior to the end of the Billing Period related to such Payment Date, and otherwise on the following Payment Date.

(ii) The Issuer acknowledges that any Affected Party may implement, as an internal institutional matter, measures in anticipation of a final or proposed Regulatory Change (including, without limitation, the imposition of internal charges on such Affected Party's interest or obligations under any Support Agreement or this Supplemental Indenture) and may commence recognizing the incurrence of charges by and seeking compensation under Section 3.11(a)(i) in connection with such measures, in advance of the effective date of such final or proposed Regulatory Change, and the Issuer agrees that such charges or compensation shall be payable, to the related Funding Agent, for the benefit of Affected Party, following demand therefor without regard to whether such proposed Regulatory Change has been adopted or whether such effective date has occurred; provided, that (I) the Affected Party shall provide sixty (60) days prior written notice to the Issuer of its intent to impose or incur any such charges or compensation, (II) an Affected Party shall not be compensated for any such amount pursuant to this subsection 3.11(a)(ii) relating to any period ending, and of which such Affected Party has had knowledge, more than ninety (90) days prior to the date that such Affected Party provided the Issuer with the written notice contemplated by the preceding clause (I) of this subsection 3.11(a)(ii), (III) if, after the payment by the Trust of any charges or compensation pursuant to this subsection 3.11(a)(ii), either (A) the Issuer requests in writing that the applicable Affected Party recompute any such charge or compensation in light of differences between a proposed Regulatory Change and the final effective version thereof or (B) the applicable Affected Party determines that the amount of the charge imposed on and required to be compensated by the Issuer exceeds the amount necessary to compensate it for the applicable Regulatory Change as contemplated by subsection 3.11(a)(i), then (x) the amount of such charge or compensation shall, from and after such determination, be reduced by the amount of such excess and (y) such Affected Party shall, within thirty (30) days of such determination, either repay the amount of such excess or credit the amount of such excess against future charges under this subsection 3.11(a)(ii). The Issuer further acknowledges that any charge or compensation demanded hereunder may take the form of a monthly charge to be assessed by such Affected Party.

(b) Each Affected Party claiming increased amounts described in subsection 3.11(a) of this Supplemental Indenture will furnish to the Issuer (together with its request for compensation) a certificate prepared in good faith setting forth the basis and the calculation of the amount (in reasonable detail) of each request by such Affected Party for any such increased amounts referred to in subsection 3.11(a) hereof. Any such certificate shall be conclusive absent manifest error. Failure on the part of any Affected Party to demand compensation for any amount pursuant to subsection 3.11(a) hereof with respect to any period shall not constitute a waiver of such Affected Party's right to demand compensation with respect to such period.

ARTICLE 8
AGENTS

8.1 Administrative Agent

(a) Each of the Non-Conduit Purchasers, CP Conduit Purchasers, the Group Banks and the Funding Agents hereby irrevocably designates and appoints the Administrative Agent as the agent of such Person under this Supplemental Indenture and irrevocably authorizes the Administrative Agent, in such capacity, to take such action on its behalf under the provisions of this Supplemental Indenture and to exercise such powers and perform such duties as are expressly delegated to the Administrative Agent by the terms of this Supplemental Indenture, together with such other powers as are reasonably incidental thereto. Notwithstanding any provision to the contrary elsewhere in this Supplemental Indenture, the Administrative Agent shall not have any duties or responsibilities except those expressly set forth herein, or any fiduciary relationship with any Non-Conduit Purchaser, any CP Conduit Purchaser, any Group Bank or any Funding Agent, and no implied covenants, functions, responsibilities, duties, obligations or liabilities shall be read into this Supplemental Indenture or otherwise exist against the Administrative Agent.

(b) The Administrative Agent may execute any of its duties under this Supplemental Indenture by or through agents or attorneys in fact and shall be entitled to advice of counsel concerning all matters pertaining to such duties. The Administrative Agent shall not be responsible for the negligence or misconduct of any agents or attorneys-in-fact selected by it with reasonable care.

(c) Neither the Administrative Agent nor any of its officers, directors, employees, agents, attorneys in fact or Affiliates shall be (i) liable for any action lawfully taken or omitted to be taken by it or such Person under or in connection with the Trust Indenture, this Supplemental Indenture or any other Program Agreement (except to the extent that any of the foregoing are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from its or such Person's own gross negligence or willful misconduct) or (ii) responsible in any manner to any of the Non-Conduit Purchasers, the CP Conduit Purchasers, the Group Banks or the Funding Agents for any recitals, statements, representations or warranties made by the Issuer, the IESO, the Manager or any officer thereof contained in this Supplemental Indenture or any other Program Agreement or in any certificate, report, statement or other document referred to or provided for in, or received by the Administrative Agent under or in connection with, this

Supplemental Indenture or any other Program Agreement or for the value, validity, effectiveness, genuineness, enforceability or sufficiency of this Supplemental Indenture, any other Program Agreement, or for any failure of any of the Issuer, the Manager or the IESO to perform its obligations hereunder or thereunder. The Administrative Agent shall not be under any obligation to any Non-Conduit Purchaser, any CP Conduit Purchaser, any Group Bank or any Funding Agent to ascertain or to inquire as to the observance or performance of any of the agreements contained in, or conditions of, this Supplemental Indenture, any other Program Agreement or to inspect the properties, books or records of the Issuer, the Manager or the IESO.

(d) The Administrative Agent shall be entitled to rely, and shall be fully protected in relying, upon any writing, resolution, notice, consent, certificate, affidavit, letter or telecopy message, statement, order or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper Person or Persons and upon advice and statements of legal counsel (including, without limitation, counsel to the Issuer, the Manager or the IESO), independent accountants and other experts selected by the Administrative Agent.

(e) The Administrative Agent shall not be deemed to have knowledge or notice of the occurrence of any Termination Event unless the Administrative Agent has received written notice from a Non-Conduit Purchaser, a CP Conduit Purchaser, a Group Bank, a Funding Agent, the Issuer or the Manager referring to the Trust Indenture or this Supplemental Indenture, describing such Termination Event and stating that such notice is a "notice of a Termination Event". In the event that the Administrative Agent receives such a notice, the Administrative Agent shall give notice thereof to the Non-Conduit Purchasers, the Funding Agents, the Issuer Trustee and the Manager.

(f) Each of the Non-Conduit Purchasers, the CP Conduit Purchasers, the Group Banks and the Funding Agents expressly acknowledges that neither the Administrative Agent nor any of its officers, directors, employees, agents, attorneys in fact or Affiliates has made any representations or warranties to it and that no act by the Administrative Agent hereinafter taken, including any review of the affairs of the Issuer, the Manager or the IESO shall be deemed to constitute any representation or warranty by the Administrative Agent to any such Person. Each of the Non-Conduit Purchasers, the CP Conduit Purchasers, the Group Banks and the Funding Agents represents to the Administrative Agent that it has, independently and without reliance upon the Administrative Agent or any other Non-Conduit Purchaser, CP Conduit Purchaser, Group Bank or Funding Agent and based on such documents and information as it has deemed appropriate, made its own appraisal of and investigation into the business, operations, property, financial and other condition and creditworthiness of the Issuer, the Manager and the IESO and made its own decision to enter into this Supplemental Indenture. Each of the Non-Conduit Purchasers, the CP Conduit Purchasers, the Group Banks and the Funding Agents also represents that it will, independently and without reliance upon the Administrative Agent or any other Non-Conduit Purchaser, CP Conduit Purchaser, Group Bank or Funding Agent, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit analysis, appraisals and decisions in taking or not taking action under this Supplemental Indenture and the other Program Agreements, and to make such investigation as it deems necessary to inform itself as to the business, operations, property, financial and other condition and creditworthiness of the Issuer, the Manager and the IESO. Except for notices, reports and other documents expressly required to be furnished to the Non-Conduit Purchasers and the Funding Agents by the Administrative Agent hereunder, the Administrative Agent shall have no duty or responsibility to

provide any Non-Conduit Purchaser, any CP Conduit Purchaser, any Group Bank or any Funding Agent with any credit or other information concerning the business, operations, property, condition (financial or otherwise), prospects or creditworthiness of the Issuer, the Manager or the IESO which may come into the possession of the Administrative Agent or any of its officers, directors, employees, agents, attorneys in fact or Affiliates.

(g) The Administrative Agent and its Affiliates may make loans to, accept deposits from and generally engage in any kind of business with the Issuer, the Manager and the IESO as though the Administrative Agent were not the Administrative Agent hereunder. With respect to any Series 2017-1 Senior Note held by the Administrative Agent, the Administrative Agent shall have the same rights and powers under this Supplemental Indenture and the other Program Agreements as any Group Bank or Funding Agent and may exercise the same as though it were not the Administrative Agent, and the terms "Group Bank," and "Funding Agent" shall include the Administrative Agent in its individual capacity.

(h) The Administrative Agent may resign as Administrative Agent at any time by giving 30 days' notice to the Non-Conduit Purchasers, the Funding Agents, the Indenture Trustee, the Issuer and the Manager. If ● shall resign as Administrative Agent under this Supplemental Indenture, then the Requisite Series 2017-1 Noteholders shall appoint a successor administrative agent from among the Non-Conduit Purchasers and Funding Agents, whereupon such successor agent shall succeed to the rights, powers and duties of the Administrative Agent, and the term "Administrative Agent" shall mean such successor agent effective upon such appointment and approval, and the former Administrative Agent's rights, powers and duties as Administrative Agent shall be terminated, without any other or further act or deed on the part of such former Administrative Agent or any of the parties to this Supplemental Indenture. If no successor administrative agent has accepted appointment as Administrative Agent prior to the effective date of the resignation of the Administrative Agent, the retiring Administrative Agent may appoint, after consulting with the Non-Conduit Purchasers and the Funding Agents, a successor Administrative Agent from among the Non-Conduit Purchasers and the Funding Agents. If no successor administrative agent has accepted appointment by the date which is thirty (30) days following a retiring Administrative Agent's notice of resignation, the retiring Administrative Agent's resignation shall nevertheless thereupon become effective and Manager shall assume and perform all of the duties of the Administrative Agent hereunder until such time, if any, as the Requisite Series 2017-1 Noteholders appoint a successor administrative agent as provided for above. After any retiring Administrative Agent's resignation as Administrative Agent, the provisions of this Article 8 shall inure to its benefit as to any actions taken or omitted to be taken by it while it was Administrative Agent under this Supplemental Indenture.

8.2 Funding Agents

(a) Each CP Conduit Purchaser and each Group Bank with respect to such CP Conduit Purchaser hereby irrevocably designates and appoints the Funding Agent set forth next to such CP Conduit Purchaser's name on Schedule E as the agent of such Person under this Supplemental Indenture and irrevocably authorizes such Funding Agent, in such capacity, to take such action on its behalf under the provisions of this Supplemental Indenture and to exercise such powers and perform such duties as are expressly delegated to such Funding Agent by the terms of this Supplemental Indenture, together with such other powers as are reasonably incidental thereto. Notwithstanding any provision to the contrary elsewhere in this Supplemental Indenture, each Funding Agent shall not have any duties or responsibilities except those

expressly set forth herein, or any fiduciary relationship with any CP Conduit Purchaser or Group Bank and no implied covenants, functions, responsibilities, duties, obligations or liabilities shall be read into this Supplemental Indenture or otherwise exist against each Funding Agent.

(b) Each Funding Agent may execute any of its duties under this Supplemental Indenture by or through agents or attorneys-in-fact and shall be entitled to advice of counsel concerning all matters pertaining to such duties. Each Funding Agent shall not be responsible to the CP Conduit Purchaser or any Group Bank in its CP Conduit Purchaser Group for the negligence or misconduct of any agents or attorneys in fact selected by it with reasonable care.

(c) Each Funding Agent and any of its officers, directors, employees, agents, attorneys in fact or Affiliates shall not be (i) liable for any action lawfully taken or omitted to be taken by it or such Person under or in connection with the Trust Indenture, this Supplemental Indenture or any other Program Agreement (except to the extent that any of the foregoing are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from its or such Person's own gross negligence or willful misconduct) or (ii) responsible in any manner to any of the CP Conduit Purchasers and/or Group Banks for any recitals, statements, representations or warranties made by the Issuer, the Manager or the IESO, or any officer thereof contained in this Supplemental Indenture or any other Program Agreement or in any certificate, report, statement or other document referred to or provided for in, or received by such Funding Agent under or in connection with, this Supplemental Indenture or any other Program Agreement or for the value, validity, effectiveness, genuineness, enforceability or sufficiency of this Supplemental Indenture, any other Program Agreement, or for any failure of any of the Issuer, the Manager or the IESO to perform its obligations hereunder or thereunder. Each Funding Agent shall not be under any obligation to the CP Conduit Purchaser or any Group Bank in its CP Conduit Purchaser Group to ascertain or to inquire as to the observance or performance of any of the agreements contained in, or conditions of, this Supplemental Indenture, any other Program Agreement or to inspect the properties, books or records of the Issuer, the Manager or the IESO.

(d) Each Funding Agent shall be entitled to rely, and shall be fully protected in relying, upon any writing, resolution, notice, consent, certificate, affidavit, letter or telecopy message, statement, order or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper Person or Persons and upon advice and statements of legal counsel (including, without limitation, counsel to the Issuer, the Manager or the IESO), independent accountants and other experts selected by such Funding Agent. Each Funding Agent shall be fully justified in failing or refusing to take any action under this Supplemental Indenture or any other Program Agreement unless it shall first receive such advice or concurrence of the Related Purchaser Group, as it deems appropriate or it shall first be indemnified to its satisfaction by the Related Purchaser Group against any and all liability and expense which may be incurred by it by reason of taking or continuing to take any such action.

(e) Each Funding Agent shall not be deemed to have knowledge or notice of the occurrence of any Termination Event unless such Funding Agent has received written notice from a Non-Conduit Purchaser, a CP Conduit Purchaser, a Group Bank, the Issuer, the Manager or the Administrative Agent referring to the Trust Indenture or this Supplemental Indenture, describing such Termination Event and stating that such notice is a "notice of a Termination Event," as the case may be. In the event that any Funding Agent receives such a notice, such Funding Agent shall give notice thereof to the CP Conduit Purchaser and Group Bank in its CP Conduit Purchaser Group. Such Funding Agent shall take such action with respect to such event as shall

be reasonably directed by the CP Conduit Purchaser and Group Bank in its CP Conduit Purchaser Group, provided that unless and until such Funding Agent shall have received such directions, such Funding Agent may (but shall not be obligated to) take such action, or refrain from taking such action, with respect to such event as it shall deem advisable in the best interests of the CP Conduit Purchaser and Group Bank in its CP Conduit Purchaser Group.

(f) Each CP Conduit Purchaser and each of the related Group Banks expressly acknowledge that neither its Funding Agent nor any of its officers, directors, employees, agents, attorneys in fact or Affiliates has made any representations or warranties to it and that no act by such Funding Agent hereinafter taken, including any review of the affairs of the Issuer, the Manager or the IESO shall be deemed to constitute any representation or warranty by such Funding Agent to any such Person. Each CP Conduit Purchaser and each of the related Group Banks represents to its Funding Agent that it has, independently and without reliance upon such Funding Agent and based on such documents and information as it has deemed appropriate, made its own appraisal of and investigation into the business, operations, property, financial and other condition and creditworthiness of the Issuer, the Manager and the IESO and made its own decision to enter into this Supplemental Indenture. Each CP Conduit Purchaser and each of the related Group Banks also represents that it will, independently and without reliance upon its Funding Agent and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit analysis, appraisals and decisions in taking or not taking action under this Supplemental Indenture and the other Program Agreements, and to make such investigation as it deems necessary to inform itself as to the business, operations, property, financial and other conditions and creditworthiness of the Issuer, the Manager and the IESO.

(g) Each Group Bank in a CP Conduit Purchaser Group agrees to indemnify its Funding Agent in its capacity as such (to the extent not reimbursed by the Issuer and without limiting the obligation of the Issuer to do so), from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind whatsoever which may at any time be imposed on, incurred by or asserted against such Funding Agent in any way relating to or arising out of this Supplemental Indenture, any of the other Program Agreements or any documents contemplated by or referred to herein or therein or the transactions contemplated hereby or thereby or any action taken or omitted by such Funding Agent under or in connection with any of the foregoing; provided that no Group Bank shall be liable for the payment of any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements that are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from such related Funding Agent's gross negligence or willful misconduct. The agreements in this Section shall survive the payment of all amounts payable hereunder.

ARTICLE 9
GENERAL

9.1 Successor and Assigns

(a) This Supplemental Indenture shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns, except that (i) the Issuer may not assign or transfer any of its rights under this Supplemental Indenture without the prior written consent of all of the Series 2017-1 Noteholders; (ii) no Non-Conduit Purchaser may assign or transfer any of its rights under this Supplemental Indenture other than pursuant to paragraph (e) or (f) below;

(iii) no CP Conduit Purchaser may assign or transfer any of its rights under this Supplemental Indenture other than to the Group Bank with respect to such CP Conduit Purchaser or a Program Support Provider with respect to such CP Conduit Purchaser or pursuant to clause (b) or (e) below of this Section 9.1; and (iv) no Group Bank may assign or transfer any of its rights or obligations under this Supplemental Indenture except to a Program Support Provider or pursuant to clause (c), (d) or (e) below of this Section 9.1.

(b) Without limiting the foregoing, each CP Conduit Purchaser may assign all or a portion of the Purchaser Group Principal Amount with respect to such CP Conduit Purchaser and its rights and obligations under this Supplemental Indenture to a Conduit Assignee with respect to such CP Conduit Purchaser. Prior to or concurrently with the effectiveness of any such assignment (or if impracticable, immediately thereafter), the assigning CP Conduit Purchaser shall notify the Administrative Agent and the Issuer. Upon such assignment by a CP Conduit Purchaser to a Conduit Assignee, (i) such Conduit Assignee shall be the owner of the Purchaser Group Principal Amount or such portion thereof with respect to such CP Conduit Purchaser; (ii) the related administrative or managing agent for such Conduit Assignee will act as the administrative agent for such Conduit Assignee hereunder, with all corresponding rights and powers, express or implied, granted to the Funding Agent hereunder; (iii) such Conduit Assignee and its liquidity support provider(s) and credit support provider(s) and other related parties shall have the benefit of all the rights and protections provided to such CP Conduit Purchaser herein (including, without limitation, any limitation on recourse against such Conduit Assignee as provided in this paragraph); (iv) such Conduit Assignee shall assume all of such CP Conduit Purchaser's obligations, if any, hereunder with respect to such portion of the Purchaser Group Principal Amount and such CP Conduit Purchaser shall be released from such obligations; (v) all distributions in respect of the Purchaser Group Principal Amount or such portion thereof with respect to such CP Conduit Purchaser shall be made to the applicable agent or administrative agent, as applicable, on behalf of such Conduit Assignee; and (vi) if requested by the Administrative Agent or the agent or administrative agent with respect to the Conduit Assignee, the parties will execute and deliver such further agreements and documents and take such other actions as the Administrative Agent or such agent or administrative agent may reasonably request to evidence and give effect to the foregoing. No assignment by any CP Conduit Purchaser to a Conduit Assignee of the Purchaser Group Principal Amount with respect to such CP Conduit Purchaser shall in any way diminish the obligations of the Group Bank with respect to such CP Conduit Purchaser under Section 3.3 to fund any Increase.

(c) Any Group Bank may, in the ordinary course of its business and in accordance with applicable law, at any time sell all or any part of its rights and obligations under this Supplemental Indenture and the Series 2017-1 Senior Notes, with the prior written consent of the Administrative Agent and the Issuer (in each case, which consent shall not be unreasonably withheld), to one or more banks (an "**Acquiring Group Bank**") pursuant to a transfer supplement, substantially in the form of Exhibit H (the "**Transfer Supplement**"), executed by such Acquiring Group Bank, such assigning Group Bank, the Funding Agent with respect to such Group Bank, the Administrative Agent and the Issuer and delivered to the Administrative Agent. Notwithstanding the foregoing, no Group Bank shall so sell its rights hereunder if such Acquiring Group Bank is not an Eligible Assignee.

(d) Any Group Bank may, in the ordinary course of its business and in accordance with applicable law, at any time sell to one or more financial institutions or other entities ("**Group**

Bank Participants") participations in its Commitment Amount with respect to its related CP Conduit Purchaser Group, its Series 2017-1 Senior Note and its rights hereunder pursuant to documentation in form and substance satisfactory to such Group Bank and the Group Bank Participant; provided, however, that (i) in the event of any such sale by a Group Bank to a Group Bank Participant, (A) such Group Bank's obligations under this Supplemental Indenture shall remain unchanged, (B) such Group Bank shall remain solely responsible for the performance thereof, and (C) the Issuer and the Administrative Agent shall continue to deal solely and directly with such Group Bank in connection with its rights and obligations under this Supplemental Indenture; and (ii) no Group Bank shall sell any participating interest under which the Group Bank Participant shall have rights to approve any amendment to, or any consent or waiver with respect to, this Supplemental Indenture, the Trust Indenture or any Program Agreement, except to the extent that the approval of such amendment, consent or waiver otherwise would require the unanimous consent of all Group Banks hereunder. A Group Bank Participant shall have the right to receive compensation pursuant to Section 3.11 but only to the extent that the related selling Group Bank would have had such right absent the sale of the related participation and, with respect to amounts due pursuant to Section 3.11, only to the extent such Group Bank Participant shall have complied with the provisions of Section 3.11 as if such Group Bank Participant were a Group Bank.

(e) Any CP Conduit Purchaser and the Group Bank with respect to such CP Conduit Purchaser may at any time sell all or any part of their respective rights and obligations, and any Non-Conduit Purchaser may at any time sell all or any part of its rights and obligations, under this Supplemental Indenture and the Series 2017-1 Senior Notes, with the prior written consent of the Administrative Agent and the Issuer (in each case, which consent shall not be unreasonably withheld), (x) to a multi-seller commercial paper conduit and one or more banks providing support to such multi-seller commercial paper conduit, or (y) to a financial institution or other entity (an "**Acquiring Purchaser Group**") pursuant to a transfer supplement, substantially in the form of Exhibit I (the "**Purchaser Group Supplement**"), executed by such Acquiring Purchaser Group (including the CP Conduit Purchaser and the Group Banks, if any, with respect to such Acquiring Purchaser Group), the Funding Agent, if any, with respect to such Acquiring Purchaser Group, such assigning Purchaser Group (including the Group Banks, if any, with respect to such assigning Purchaser Group), the Funding Agent, if any, with respect to such assigning Purchaser Group and the Administrative Agent and the Issuer and delivered to the Administrative Agent.

(f) Any Non-Conduit Purchaser may, in the ordinary course of its business and in accordance with applicable law, at any time sell to one or more financial institutions or other entities ("**Non-Conduit Purchaser Participants**") participations in its Commitment, its Series 2017-1 Senior Note and its rights hereunder pursuant to documentation in form and substance satisfactory to such Non-Conduit Purchaser and the Non-Conduit Purchaser Participant; provided, however, that (i) in the event of any such sale by a Non-Conduit Purchaser to a Non-Conduit Purchaser Participant, (A) such Non-Conduit Purchaser's obligations under this Supplemental Indenture shall remain unchanged, (B) such Non-Conduit Purchaser shall remain solely responsible for the performance thereof, and (C) the Issuer and the Administrative Agent shall continue to deal solely and directly with such Non-Conduit Purchaser in connection with its rights and obligations under this Supplemental Indenture; and (ii) no Non-Conduit Purchaser shall sell any participating interest under which the Non-Conduit Purchaser Participant shall have rights to approve any amendment to, or any consent or waiver with respect to, this Supplemental

Indenture, the Trust Indenture or any Program Agreement, except to the extent that the approval of such amendment, consent or waiver otherwise would require the unanimous consent of all Series 2017-1 Noteholders hereunder. A Non-Conduit Purchaser Participant shall have the right to receive compensation under Section 3.11 but only to the extent that the related selling Non-Conduit Purchaser would have had such right absent the sale of the related participation and, with respect to amounts due pursuant to Section 3.11, only to the extent such Non-Conduit Purchaser Participant shall have complied with the provisions of Section 3.11 as if such Non-Conduit Purchaser Participant were a Non-Conduit Purchaser.

(g) The Issuer authorizes each Group Bank and Non-Conduit Purchaser to disclose to any Group Bank Participant, Acquiring Group Bank, Non-Conduit Purchaser Participant or Acquiring Purchaser Group (each, a "**Transferee**") and any prospective Transferee any and all financial information in such Group Bank's or Non-Conduit Purchaser's possession concerning the Issuer, the Issuer Investment Asset and the Program Agreements which has been delivered to such Group Bank by the Issuer or the Manager in connection with such Group Bank's credit evaluation of the Issuer and the Issuer Investment Asset.

(h) Notwithstanding any other provision of this Supplemental Indenture to the contrary, any Non-Conduit Purchaser, any Group Bank or any Program Support Provider may at any time pledge or grant a security interest in all or any portion of its rights under its Series 2017-1 Senior Note and this Supplemental Indenture to secure obligations of such Non-Conduit Purchaser, such Group Bank or such Program Support Provider to a Federal Reserve Bank or the Bank of Canada, without notice to or consent of the Administrative Agent, the Issuer or the Administrator; provided that no such pledge or grant of a security interest shall release a Non-Conduit Purchaser or an Group Bank from any of its obligations hereunder or substitute any such pledgee or grantee for such Non-Conduit Purchaser or such Group Bank as a party hereto.

9.2 Waiver

Without limiting the requirements of Section 11.02 of the Trust Indenture which shall be applicable to this Supplemental Indenture, no waiver of any provision of this Supplemental Indenture or consent to any departure by the Issuer from any provision of this Supplemental Indenture will be effective (in whole or in part) unless in writing and signed by the Requisite Series 2017-1 Noteholders. Such waiver will be effective only in the specific instance, for the specific purpose and for the specific length of time for which it is given by the Requisite Series 2017-1 Noteholders.

9.3 Notice

All notices, requests, instructions and demands to or upon any party hereto to be effective shall be given (a) in the case of the Issuer and the Indenture Trustee, in the manner set forth in Article 16 of the Trust Indenture; and (b) in the case of the Administrative Agent, the Non-Conduit Purchasers, the CP Conduit Purchasers, the Group Banks and the Funding Agents, in writing, and, unless otherwise expressly provided herein, shall be deemed to have been duly given or made when delivered by hand or three days after being deposited in the mail, postage prepaid, in the case of facsimile notice, when received, or in the case of overnight air courier, one Business Day after the date such notice is delivered to such overnight courier, addressed as follows in the case of the Administrative Agent and to the addresses therefor set forth in Schedule E, in the case of the Non-Conduit Purchasers, the CP Conduit Purchasers, the Group

Banks and the Funding Agents; or to such other address as may be hereafter notified by the respective parties hereto:

9.4 No Waiver: Remedies

No failure on the part of any party to exercise, and no delay in exercising, any power, right or remedy hereunder will operate as a waiver thereof; nor will any single or partial exercise of any such power, right or remedy hereunder preclude any other or further exercise thereof or the exercise of any other power, right or remedy. The rights and remedies herein provided are cumulative and not exclusive of any remedies provided by applicable law.

9.5 Entire Agreement

This Supplemental Indenture, the Fee Letter, the Trust Indenture and the other Program Agreements contain the entire agreement between the parties relative to the subject matter hereof and supersede all prior and contemporaneous agreements, term sheets, commitments, understandings, negotiations and discussions, whether oral or written. Thanks Ken.

I was wondering about the accounting too. So good to cover that off.

Hi Ron

I had a chat with Gadi and subsequently with Jim and Carlos who had some thoughts on this. They will discuss with Mike when he is back on Monday and let Gadi know. In the meantime I will touch based with Cindy to see if there are any potential accounting impacts.

So perhaps we can wait until early next week.

Thanks

Hi Gadi,

Not sure if Mike or Ken have talked to you about your query directly or not. I don't have a view on how OPG or those entities might respond to such a request.

If you do want to raise that as a possibility, I could convey that to MOF Legal to provide that comment to OPG's Legal.

Thanks, Ron. Mike was of the same view. Even more reason for them not to do US$ deals if they can avoid them. I'm wondering if we should ask them, when they're negotiating their ISDA agreements, to put a clause in that would allow those swaps, if they were to be transferred to the Province under the Change of Law Assumption Agreement, to then be governed under the Province's ISDA agreement with that entity, if one is already in place, rather than us being stuck with one negotiated by OPG?

Hi Gadi,

Mike and Ken may have more to add, but I believe the TB submission noted the following (emphasis added):

> In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. *In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make*.

I see in Nina's email a reference to ISDA. Are we, under the change of law assumption agreement, guaranteeing any swaps that OPG trust may enter?

Hi Nina,

We will be reviewing your comments and mark-up.

On a related point, do you have available yet drafts of any of the other agreements that will be required in connection with a proposed issuance by the financing entity and that we have previously discussed and requested copies of such as a draft supplemental indenture, draft disclosure documents, drafts of other agreements referenced in the master trust indenture to the extent they would be used in or related to an issuance by the Financing Entity etc. The Protection Agreement is proposed to work in the context of these other agreements and this would provide a better context for review by the Province.

If they are not yet available, when are they expected to be available?

Thank you.

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Nina

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial

approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Hi Ron

I had a chat with Gadi and subsequently with Jim and Carlos who had some thoughts on this. They will discuss with Mike when he is back on Monday and let Gadi know. In the meantime I will touch based with Cindy to see if there are any potential accounting impacts.

So perhaps we can wait until early next week.

Thanks

Hi Gadi,

Not sure if Mike or Ken have talked to you about your query directly or not. I don't have a view on how OPG or those entities might respond to such a request.

If you do want to raise that as a possibility, I could convey that to MOF Legal to provide that comment to OPG's Legal.

Thanks, Ron. Mike was of the same view. Even more reason for them not to do US$ deals if they can avoid them. I'm wondering if we should ask them, when they're negotiating their ISDA agreements, to put a clause in that would allow those swaps, if

they were to be transferred to the Province under the Change of Law Assumption Agreement, to then be governed under the Province's ISDA agreement with that entity, if one is already in place, rather than us being stuck with one negotiated by OPG?

Hi Gadi,

Mike and Ken may have more to add, but I believe the TB submission noted the following (emphasis added):

> In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. *In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make*.

I see in Nina's email a reference to ISDA. Are we, under the change of law assumption agreement, guaranteeing any swaps that OPG trust may enter?

Good Morning Malle,

In terms of Program Agreements, here is an update:

-we have previously circulated the MTI and MTSA to Blakes. Both of these agreements are in mid-turn but we will send you the next circulation of these agreements once available.
-we received an initial draft supplemental for the warehouse facility on Tuesday from the dealers' counsel. We have not yet reviewed it nor have we discussed it with Oslers so we will send you the next circulation of this document.
-I am attaching the most current versions of the Declaration of Trust and the Management Agreement (which are subject to the continuing review of the working group).
-we'll have a form of ISDA Schedule to you soon.
-we don't expect to have a substantially advanced draft of the OM to share until November.

Please let me know if you have any questions.

Best Regards,
Nina

Hi Nina,

We will be reviewing your comments and mark-up.

On a related point, do you have available yet drafts of any of the other agreements that will be required in connection with a proposed issuance by the financing entity and that we have previously discussed and requested copies of such as a draft supplemental indenture, draft disclosure documents, drafts of other agreements referenced in the master trust indenture to the extent they would be used in or related to an issuance by the Financing Entity etc. The Protection Agreement is proposed to work in the context of these other agreements and this would provide a better context for review by the Province. If they are not yet available, when are they expected to be available?

Thank you.

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers'

views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

? The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be

deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Hi Gadi,

Not sure if Mike or Ken have talked to you about your query directly or not. I don't have a view on how OPG or those entities might respond to such a request.

If you do want to raise that as a possibility, I could convey that to MOF Legal to provide that comment to OPG's Legal.

Thanks, Ron. Mike was of the same view. Even more reason for them not to do US$ deals if they can avoid them. I'm wondering if we should ask them, when they're negotiating their ISDA agreements, to put a clause in that would allow those swaps, if they were to be transferred to the Province under the Change of Law Assumption Agreement, to then be governed under the Province's ISDA agreement with that entity, if one is already in place, rather than us being stuck with one negotiated by OPG?

Hi Gadi,

Mike and Ken may have more to add, but I believe the TB submission noted the following (emphasis added):

> In the event the protection agreement is triggered, the Province's net debt would be

expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. *In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make*.

I see in Nina's email a reference to ISDA. Are we, under the change of law assumption agreement, guaranteeing any swaps that OPG trust may enter?

Good Morning Malle,

In terms of Program Agreements, here is an update:

-we have previously circulated the MTI and MTSA to Blakes. Both of these agreements are in mid-turn but we will send you the next circulation of these agreements once available.
-we received an initial draft supplemental for the warehouse facility on Tuesday from the dealers' counsel. We have not yet reviewed it nor have we discussed it with Oslers so we will send you the next circulation of this document.
-I am attaching the most current versions of the Declaration of Trust and the Management Agreement (which are subject to the continuing review of the working group).
-we'll have a form of ISDA Schedule to you soon.
-we don't expect to have a substantially advanced draft of the OM to share until November.

Please let me know if you have any questions.

Best Regards,
Nina

Hi Nina,

We will be reviewing your comments and mark-up.

On a related point, do you have available yet drafts of any of the other agreements that will be required in connection with a proposed issuance by the financing entity and that we have previously discussed and requested copies of such as a draft supplemental indenture, draft disclosure documents, drafts of other agreements referenced in the master trust indenture to the extent they would be used in or related to an issuance by the Financing Entity etc. The Protection Agreement is proposed to work in the context of these other agreements and this would provide a better context for review by the Province. If they are not yet available, when are they expected to be available?

Thank you.

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered

under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Nina

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include

also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information

noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised

draft of the document.

Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;

(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the

Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Many thanks,
Nina

Toby – further to discussions between OPG and the Province, please find attached comments on

the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Best Regards,
Nina

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of

Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

1.2 Headings and Table of Contents

The inclusion of headings and a table of contents in this Agreement are for convenience of reference only and will not affect the construction or interpretation hereof.

1.3 Interpretation

In this Agreement, unless the context otherwise requires:

1.3.1 words importing the singular shall include the plural and vice versa, words importing gender shall include all genders or the neuter, and words importing the neuter shall include all genders;

1.3.2 the words "include", "includes", "including", or any variations thereof, when following any general term or statement, are not to be construed as limiting the general term or statement to the specific items or matters set forth or to similar items or matters, but rather

as referring to all other items or matters that could reasonably fall within the broadest possible scope of the general term or statement;

1.3.3 references to any Person include such Person's successors and permitted assigns;

1.3.4 except as otherwise provided in this Agreement, any reference in this Agreement to a statute, regulation, policy, rule or instrument shall include, and shall be deemed to be a reference also to, all rules and regulations made under such statute, in the case of a statute, all amendments made to such statute, regulation, policy, rule or instrument, and any statute, regulation, policy, rule or instrument that may be passed which has the effect of supplementing or superseding the statute, regulation, policy, rule or instrument so referred to;

1.3.5 any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

1.3.6 in the event that any day on which any amount is to be determined or any action is required to be taken hereunder is not a Business Day, then such amount shall be determined or such action shall be required to be taken at or before the requisite time on the next succeeding day that is a Business Day.

1.4 Invalidity of Provisions

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

1.5 Entire Agreement

This Agreement constitutes the entire agreement between the parties pertaining to the subject matter of this Agreement.

1.6 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

1.7 Governing Law

This Agreement will be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

ARTICLE 2
APPROVAL PROCESS

2.1 Approval Process

The Manager is authorized to make a Certification in respect of a specific incurrence of Funding Obligations and other Specified Claims upon the following conditions precedent having been satisfied:

(a) at the time such Funding Obligations are to be incurred, the maximum aggregate payment amounts due or becoming due under such Funding Obligations, together with all other outstanding or committed Specified Claims previously subject to a Certification, do not exceed the Program Maximum in effect at that time; and

(b) The Manager delivers a certificate, signed by at least two of its executive officers and addressed to the Province, not less than **[■]** Business Days prior to the incurrence of such Funding Obligations:

(i) setting out the material terms of such Funding Obligations pertaining to principal amount, pricing and third party fees; and

(ii) confirming that:

(A) the Funding Obligations (1) will arise under terms and conditions that are "Substantially in the Form" of the Reviewed Documentation applicable thereto; (2) in the opinion of such officers, are reasonably incurred in compliance with the Act and the regulations made thereunder, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and

(B) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation.

2.2 Program Maximum

(a) The initial Program Maximum will be determined prior to the initial issuance of Funding Obligations under the Indenture in accordance with this Section 2.2. The Program Maximum will be based on the Manager's forecast of the maximum payment obligations expected to arise under Specified Claims during the next 24 month period, based on and in accordance with the applicable Financing Plan (the "**Forecast**"). The Manager will be required to deliver the Forecast to the Province

not less than **[thirty (30)]** Business Days prior to the proposed incurrence of the initial Funding Obligations under the Indenture. If the Province agrees that the Forecast is consistent with the Financing Plan and the Finance Amounts contemplated thereunder for the applicable Reference Periods are reasonably expected to align with the Fair Allocation Amounts in respect of such Reference Periods, then the Province will confirm in writing to the Manager within **[thirty (30)]** Business Days of receipt of the Forecast that it agrees with the Program Maximum.

(b) The Forecast will be updated and delivered to the Province between nine (9) and twelve (12) months prior to the expiry of the then current Forecast, based on and in accordance with the applicable Financing Plan. Upon receiving an updated Forecast, the Province will confirm that the Forecast is consistent with the Financing Plan and the Finance Amounts contemplated thereunder for the applicable Reference Periods are reasonably expected to align with the Fair Allocation Amounts in respect of such Reference Periods.

(c) If the Province does not agree with the determination of the Program Maximum, then the Province and the Manager will discuss and address any inaccuracies in the Financing Plan to the satisfaction of both parties, and the Program Maximum will be revised within **[thirty (30)]** Business Days of receipt of the Forecast. Any determination to revise the Program Maximum will be confirmed by setting out a new Program Maximum in a written notice from the Province to the Manager, the delivery of which will be conclusive evidence that such new Program Maximum will apply until further so revised.

2.3 Reviewed Documentation

(a) The Manager will ensure that not less than **[■]** Business Days prior to the initial issuance of any Funding Obligations under the Indenture, the Province will have received copies, in substantially final form, of the following documents:

(i) the declaration of trust made as of ■, 2017 under which the Issuer was established;

(ii) the management agreement dated ■, 2017 between the Manager and the Issuer;

(iii) the master transfer and servicing agreement dated ■, 2017 between the Issuer, the IESO and the Indenture Trustee;

(iv) the master trust indenture dated ■, 2017 between the Issuer and the Indenture Trustee (the "**Indenture**");

(v) the Senior Series 2017-1 Supplemental Indenture to the Indenture dated ■, 2017, along with the Senior Series 2017-1 Notes;

(vi) the Subordinated Series 2017-1 Supplemental Indenture to the Indenture dated ■, 2017, along with the Subordinated Series 2017-1 Notes;

(vii) the Senior Series 2017-2 Supplemental Indenture to the Indenture dated ■, 2017, along with the Senior Series 2017-2 Notes;

(viii) the Subordinated Series 2017-2 Supplemental Indenture to the Indenture dated ■, 2017, along with the Subordinated Series 2017-2 Notes;

(ix) the Agency Agreement dated ■, 2017 between ■;

(x) the Subscription Agreement dated ■, 2017 between ■;

(xi) the schedule to an ISDA Master Agreement dated ■, 2017 governing derivative transactions that may be entered into by the Issuer from time to time;

(xii) if applicable, any other agreement or instrument under which a Funding Obligation may arise or be affected;

(xiii) if applicable, any other agreement between, *inter alia*, the Issuer and any other owner or owners of an Investment Interest as contemplated by subsection 29(5) of the Act;

(xiv) the security agreement dated ■, 2017 granted by the IESO to the Issuer; and

(xv) the Preliminary and Final Offering Memorandums of the Issuer together with any related material information.

(b) The Province will confirm within **[■]** Business Days of receipt of the documents referenced in Section 2.3(a) if such reviewed documents shall be the "Reviewed Documentation" for the purposes of this Agreement; provided that the Province agrees that it will not be entitled to provide input on the Reviewed Documentation other than in its capacity as obligor under the Change of Law Protection Agreement.

(c) Any proposed material amendments, additions or supplements to the Reviewed Documentation will be provided to the Province not less than **[fifteen (15)]** Business Days prior to any proposed use or such documents becoming effective. Such material amendments, additional or supplemental documentation will only become "Reviewed Documentation" for the purposes of this Agreement if the Province confirms the same within **[fifteen (15)]** Business Days of receipt of such proposed material changes, additions or supplements to the Reviewed Documentation.

2.4 Termination

This Agreement will continue in full force and effect so long as any Specified Claims remain outstanding and until the Issuer has satisfied all of its obligations under the Reviewed Documentation.

ARTICLE 3
COVENANTS OF MANAGER

3.1 Reporting

Promptly after the issuance of any Funding Obligations by the Issuer (or an amendment or replacement thereof) from time to time, the Manager will provide the Province with:

(a) a copy of the then most recent Financing Plan;

(b) electronic copies of all related closing documents executed by or on behalf of the Issuer in connection with such incurrence, amendment or replacement of such Funding Obligations that would affect the Issuer's assets or obligations (including, for greater certainty, any Disclosure Documents); and

(c) all additional information and documentation as the Province requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

3.2 Other Covenants

(a) The Manager will comply and ensure compliance by the Issuer with the Act and the regulations made thereunder and any other enactment related thereto;

(b) After the occurrence of any Protection Event (or any event that with the passage of time or the giving of notice would be a Protection Event), the Manager will not, without the Province's prior written consent, permit any Issuer to exercise any redemption, pre-payment, early termination right in respect of any Specified Claim or exercise any other election or privilege in respect of any Specified Claim, in each case, if as a result the obligations applicable to the Specified Claim under the Change of Law Protection Agreement would be accelerated; and

(c) The Manager will ensure that any disclosure (including in any Disclosure Document) that refers to or describes the terms, effect or adherence of the Change of Law Protection Agreement and this Agreement will be subject to the prior review and approval of the Province unless that disclosure is substantially in a form previously approved by the Province.

3.3 Validity

For greater certainty, a failure by the Manager to perform the covenants in this Article 3 will not affect the validity of a Certification made under the Change of Law Protection Agreement in accordance with requirements of Section 2.1 of this Agreement.

ARTICLE 4
REPRESENTATIONS AND WARRANTIES

4.1 Province

The Province hereby represents and warrants to the Manager that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(ii) general equitable principles and the fact that the availability of equitable remedies such as specific performance and injunction are not available against the Province and that a court may stay proceedings or the execution of judgments; and

(iii) statutory limitations of general application respecting the enforceability of claims against the Province or its property.

The Manager hereby represents and warrants to the Province that:

(a) the Manager has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Manager of this Agreement and the completion of the transactions contemplated hereby do not and will not result in a violation of any applicable law, and do not and will not constitute (with due notice

(i) limitations with respect to the enforcement of remedies by bankruptcy, insolvency, reorganization, moratorium, winding-up, arrangement, fraudulent preference and conveyance and other similar laws affecting the enforcement of creditors' rights generally and by general equitable principles (regardless of whether such enforceability is considered in a proceeding in equity or at law); and

Further to OPG's response to our proposals, please find attached a discussion document drafted by our outside legal counsel Stephen Ashbourne and based on discussions amongst our Provincial legal teams.

This document sets out a number of questions that we need to consider and answer in order to respond to OPG with the Province's position.

A meeting amongst this group would be useful to discuss these issues and to inform a response to OPG.

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will

have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the

conceptual points above and have reviewed a revised draft of the document.

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;

(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Hi Ken,

A draft email below.

Ron

Hi Malle, Stephen, Toby,

We managed to have a conversation after the scheduled call-in time on the issue raised by OPG/Torys on the "final and non-appealable" wording in the draft term sheet that they struck out.

From a market perspective, we can appreciate OPG's concern on the potential impact. And we appreciate the legal concern on having a trigger that might be arising from a lower court ruling that may not be very well-founded and that the government may want to appeal.

As such, is there some kind of compromise wording that could be put into the term sheet for today, and that would signal that more comprehensive wording would be included in the final agreement that would allow for (and I use the following terms loosely, as I'm sure the lawyers could put in better ones) a ''cure period'', for example, that could allow for the Province to apply for a court to suspend the impact of the earlier decision? Under that kind of model, the Province would potentially step in and make payments, before a final and non-appealable decision (which could be years away, with a risk premium attached), if the process were to go that long in a more serious court challenge and ruling – could that type of wording be worked

out in a final legal agreement?

The "final and non-appealable" language is included in square brackets in that version, to be considered and negotiated depending on market issues.

Hi Malle, Stephen, Toby,

We managed to have a conversation with Gadi after the scheduled call-in time on the issue raised by OPG/Torys on the "final and non-appealable" wording in the draft term sheet that they struck out.

From a market perspective, we can appreciate OPG's concern on the potential impact. And we appreciate the legal concern on having a trigger that might be arising from a lower court ruling that may not be very well-founded and that the government may want to appeal.

As such, is there some kind of compromise wording that could be put into the term sheet for today, and that would signal that more comprehensive wording would be included in the final agreement that would allow for (and I use the following terms loosely, as I'm sure the lawyers could put in better ones) a ''cure period'', for example, that could allow time for the Province to apply for a court to suspend the impact of the earlier decision without having the protection agreement triggered? Under that kind of clause, we could reduce the likelihood of the framework being collapsed in the case of a less solid court decision, but the Province would potentially step in and make payments, before a final and non-appealable decision (which could be years away, with a risk premium attached), if the process were to go that long in a more serious court challenge and ruling. Could that type of wording be worked out in a final legal agreement?

Hi Gadi,

Thank you. I've updated the list to include the items you've flagged below so that we have everything in one place:

Process Agreement

- 2.01 Deliveries to the Province
  - No concerns with removing PILS/tax language
- 2.02 Covenants
  - First use of *commercially reasonable efforts* and then throughout
  - Need legal opinion on whether to change to *best efforts*
- 2.02 (b) (iv) Province to review any description of the protection agreement
  - No concerns with this deletion
  - OPG likely to use boilerplate description of the guarantee
- 2.02 (c) Indemnity
  - No concerns, likely a requirement for OPG Board
- 4.01 Protection Agreement Maximum
  - CRITICAL – we can be flexible on the wording but we can't agree to removing Provincial approval of a maximum
  - Subject to OPCD review/input
- 5.02 Reps and Warranties of the Province
  - No concerns

Protection Agreement

- Need to review the Indemnity Agreement
- 1.17 References to the Financing Entity
  - No concerns with removing Trustee
- 2.09c Modifications of Approved Obligations
  - Why not seek consent of the Province when changing its obligations?
- Article V
  - Edit title to ***Provincial*** *Matters*
- 5.01 Assignment and Subrogation
  - Why remove the subrogation after the Province has taken on the obligations?
- 7.04 Release of All Collateral
  - What is meant by collateral? Would it include sinking funds? If it does, the Province should get the sinking funds, not leave them with OPG
- 9.07 Force Majeure
  - Why remove the Force Majeure clause?

That lines up with my recollection. In the process agreement on 4.01, the only point that I'll raise in addition to what you've written is that OPCD may have a view. On the Protection Agreement, I also had a note on 2.09c where I was wondering why they wouldn't want the consent of the Province if changing your obligations. On 5.01, we were wondering why OPG want to remove the subrogation after we've taken on the obligations, and why they would care at that point. For 7.04, we were wondering what is meant by collateral in this agreement, and whether it would include sinking funds, because if it does, we should get the sinking funds, not leave them with OPG. One other point I had was on 9.07 and a question of why they'd want the Force Majeure clause removed.

Thanks for putting this together.

Subject: For Discussion with Malle

Hi Gadi,

As discussed, here are the areas that you may want to raise with Malle this afternoon before we arrange a meeting with the larger group:

<u>Process Agreement</u>

- 2.01 Deliveries to the Province
  - No concerns with removing PILS/tax language
- 2.02 Covenants
  - First use of *commercially reasonable efforts* and then throughout
  - Need legal opinion on whether to change to *best efforts*
- 2.02 (b) (iv) Province to review any description of the protection agreement
  - No concerns with this deletion
  - OPG likely to use boilerplate description of the guarantee

- 2.02 (c) Indemnity
    - No concerns, likely a requirement for OPG Board
- 4.01 Protection Agreement Maximum
    - CRITICAL – we can be flexible on the wording but we can't agree to removing Provincial approval of a maximum
- 5.02 Reps and Warranties of the Province
    - No concerns

Protection Agreement

- Need to review the Indemnity Agreement
- 1.17 References to the Financing Entity
    - No concerns with removing Trustee
- Article V
    - Edit title to ***Provincial*** *Matters*
- 5.01 Assignment and Subrogation
- 7.04 Release of All Collateral

I've highlighted the last two because I'm not sure I understand what our concerns were on these two areas of the Agreement.

Hopefully these line up with your own notes, but I would recommend just scanning to make sure I haven't missed anything.

Thanks, Anna

That lines up with my recollection. In the process agreement on 4.01, the only point that I'll raise in addition to what you've written is that OPCD may have a view. On the Protection Agreement, I also had a note on 2.09c where I was wondering why they wouldn't want the consent of the Province if changing your obligations. On 5.01, we were wondering why OPG want to remove the subrogation after we've taken on the obligations, and why they would care at that point. For 7.04, we were wondering what is meant by collateral in this agreement, and whether it would include sinking funds, because if it does, we should get the sinking funds, not leave them with OPG. One other point I had was on 9.07 and a question of why they'd want the Force Majeure clause removed.

Thanks for putting this together.

Hi Gadi,

I spoke to Steve and tomorrow afternoon is a bit soon to have a group meeting on these points as he has been tied up on another matter today and part of tomorrow. Perhaps Toby and I will have a late afternoon call with him tomorrow to go over these issues and we will also review the agreement more carefully taking into account the various comments that you have sent us.

Also, it would be helpful to have a draft of the financing plan since it is an important document being referenced in these agreements as setting out the maximum. I wonder what the possible timing of the Province receiving a draft is as it would be very helpful to assessing the viability of that approach.

Perhaps it would be helpful to schedule a meeting for Tuesday for the larger group to discuss the agreements. Thanks.

Hi again. Here is my further mark-up of the Process Agreement. We have now received comments on the Protection Agreement from Osler, so we should be able to address some of the open issues I had highlighted last night. We will circulate comments on the Protection Agreement to this group later in the day, but in the meantime please let me have your feedback on the Process Agreement mark-up.

Hi. In the interest of time, here are my preliminary comments on the version of the Process Agreement just circulated by Torys (at 4:39 this afternoon). You will see that there are several provisions that tie-in to what appear to be new proposed changes to the Protection Agreement – although we won't be able to understand them until that other document is circulated by Torys. I have highlighted those and a few other points for you to specifically consider, in yellow or in new footnotes. It would be helpful if you could review my interim mark-up, as you look over the blackline forwarded by Torys this afternoon (also attached here for your convenience), and let me know if you agree with my suggested revisions. Thanks, Steve

Hi again. Here is my further mark-up of the Process Agreement. We have now received comments on the Protection Agreement from Osler, so we should be able to address some of the open issues I had highlighted last night. We will circulate comments on the Protection Agreement to this group later in the day, but in the meantime please let me have your feedback on the Process Agreement mark-up.

Hi. In the interest of time, here are my preliminary comments on the version of the Process Agreement just circulated by Torys (at 4:39 this afternoon). You will see that there are several provisions that tie-in to what appear to be new proposed changes to the Protection Agreement – although we won't be able to understand them until that other document is circulated by Torys. I have highlighted those and a few other points for you to specifically consider, in yellow or in new footnotes. It would be helpful if you could review my interim mark-up, as you look over the blackline forwarded by Torys this afternoon (also attached here for your convenience), and let me know if you agree with my suggested revisions. Thanks, Steve

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with the final forms of certain of the Transaction Documents, as described on Exhibit "A", and the Province has not objected to such forms and has confirmed to OPG that such Transaction Documents will constitute "Reference Documentation" for purposes of this Agreement.

Prior to entering into this Agreement, OPG, as the FSM, provided the Province with the initial Financing Plan, which includes the initial forecast (the "**Initial Forecast**") setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Obligations Secured to be incurred during the 24 month period from December 1, 2017 to November 30, 2019 (the "**Initial Forecast Period**") and the initial Protection Agreement Maximum (the "**Initial Protection Agreement Maximum**"). The Province has acknowledged receipt of the initial Financing Plan and has not disagreed with the Initial Forecast or the Initial Protection Agreement Maximum on the basis of an apparent inaccuracy in the Initial Forecast, an inconsistency between the Initial Forecast and the initial Financing Plan, or as a result of the Initial Protection Agreement Maximum being more than the Initial Forecast.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied and maintaining information related to the Program Agreements and the Approved Obligations.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

ARTICLE II
COVENANTS OF OPG

2.01 Deliveries to the Province

(a) OPG shall promptly deliver to the Province a copy of any proposed change to or replacement of the Financing Plan.

(b) Not less than 10 Business Days, or such lesser period as the Province may agree to in writing, prior to:

(i) any proposed change in the terms or conditions applicable to a Primary Obligation in a previously provided Transaction Document becoming effective or otherwise being used that could reasonably be expected to have a Material Effect; provided, however, that a proposed change in particular financial terms, rates and levels would not be such a material change other than a proposed change to any specific requirements, limitations or parameters with respect to such financial terms, rates and levels that were set forth in the previously provided Transaction Document and that would have a Material Effect, and

(ii) any additional, supplemental or replacement Transaction Document becoming effective or otherwise being used,

OPG shall deliver to the Province a copy of such proposed change to the Transaction Document and any such additional, supplemental or replacement Transaction Document.

(c) Without limiting Subsection 2.01(b), promptly following (i) any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor being made, (ii) any new, additional, supplemental or replacement instruments, documents, agreements or security being used or granted in connection with all or any part of the Approved Obligations, or (iii) any waiver, release, reconveyance, termination, abandonment, subordination, exchange, substitution, transfer, compound, compromise, liquidation or enforcement of all or any part of the Approved Obligations or any security or guarantee therefor being effected, OPG shall deliver to the Province a detailed description of such event and the reasons for it together with any related documents, agreements and instruments.

(d) Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, OPG shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(e) Promptly upon request, OPG shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

2.02 Covenants

(a) OPG shall use commercially reasonable efforts to cause the Financing Entity to:

(i) punctually perform and observe all of the Financing Entity's obligations and agreements contained in the Program Agreements;

(ii) ensure that all Obligations Secured are incurred pursuant to and in accordance with the terms and conditions of the Trust Indenture;

(iii) ensure that no obligations other than the Obligations Secured are incurred by or on behalf of the Financing Entity;

(iv) not engage in any business other than as permitted under the Declaration of Trust or the other Program Agreements and activities ancillary thereto; and

(v) not (unless waived in writing by the Province):

(A) amend, supplement, modify, restate or replace or waive or consent to a postponement of compliance with the terms and conditions on the part of any other party to any of the Program Agreements, if any such supplementation, amendment, modification, restatement, replacement, waiver or consent could reasonably be considered to have a Material Effect; provided, however, that the foregoing does not apply to any supplementation, amendment, modification, restatement, replacement, waiver or consent of, to or in respect of particular financial terms, rates and levels other than a supplementation, amendment, modification, restatement, replacement, waiver or consent to or in respect of any specific requirements, limitations or parameters with respect to such financial terms, rates and levels that were set forth in the applicable Program Agreement and that would have a Material Effect;

(B) extend, renew, compromise, novate, replace, suspend, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, liquidate or enforce the terms of all or any part of the Approved Obligations or any Collateral, if any such action could reasonably be considered to have a Material Effect; provided, however, that the foregoing does not apply to any such action taken in respect of particular financial terms, rates and levels other than such an action taken in respect of any specific requirements,

limitations or parameters with respect to such financial terms, rates and levels that were set forth in the applicable Program Agreement and that would have a Material Effect; or

(C) permit the validity or effectiveness of the Change of Law Protection Agreement to be impaired.

(b) OPG shall:

(i) comply, and shall use commercially reasonable efforts to cause compliance by the Financing Entity, with the Act, the General Regulation and any other enactment related thereto;

(ii) punctually perform and observe all of its (including as the FSM and as Manager) obligations and agreements contained in the Program Agreements;

(iii) promptly notify the Province of the creation of any Funding Obligation that is not or would not be an Approved Obligation; and

(iv) notify the Province of (1) the occurrence of any Breach Event and any Program Breach, in each case within 2 Business Days of any such occurrence, and (2) any event or circumstance known to OPG that with the passage of time or the giving of notice would be a Breach Event or a Program Breach, in each case within 1 Business Day of OPG first becoming aware of such event or circumstance; and

(v) after the occurrence of any Protection Event (or any event or circumstance known to OPG that with the passage of time or the giving of notice would be a Protection Event), not, without the Province's prior written consent, permit the Financing Entity to exercise any redemption, pre-payment, early termination or extension right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(c) The Province and OPG acknowledge that their obligations to each other under the Indemnity Agreement between the Province and OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") are not amended by this Agreement and continue in full force and effect, notwithstanding that this Agreement is entered into subsequent to the Indemnity Agreement. ***[NTD: Torys and Blakes have mutually agreed to this language.]***

(d) The Province and OPG acknowledge that their obligations to each other under the Indemnity Agreement are not amended by the Change of Law Protection Agreement and continue in full force and effect, notwithstanding that the Change

of Law Protection Agreement was entered into subsequent to the Indemnity Agreement. ***[NTD: Torys and Blakes have mutually agreed to this language.]***

ARTICLE III
PROCESS CERTIFICATE

3.01 Process Certificate

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Province, on or before the incurrence or any amendment of a Funding Obligation, other than any Funding Obligation under which not more than $5,000,000 in the aggregate may become payable by the Financing Entity (provided that delivery may not be more than 5 Business Days before the incurrence or amendment of the Funding Obligation), setting out the following with respect to such Funding Obligation:

(a) the material terms of the Funding Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, OPG's best estimate of the expected notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights; ***[NTD: OPG can only provide an estimate of these matters and the actual pricing may be different than what is provided in the certificate since the price is based on the spot market and subject to change.]***

(b) if an existing Funding Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Funding Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reference Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reference Documentation;

(d) a statement confirming that any disclosure made in respect of the Funding Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Funding Obligation) that refers to or describes the terms, effect or adherence of or

to this Agreement or the Change of Law Protection Agreement has been made available to the Province prior to use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Funding Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Funding Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum applicable on the date that the Process Certificate is delivered; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

3.02 Acknowledgement regarding delivery of certificate under Change of Law Protection Agreement

The Province acknowledges and agrees that, concurrent with the delivery of the Process Certificate pursuant to Section 3.01 of this Agreement, the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) are authorized to deliver the certificate referred to in Subsection [4.02(a)(ii)][1] of the Change of Law Protection Agreement to the Indenture Trustee confirming that OPG has complied with all of its obligations to the Province and internal requirements and processes in connection with adherence of the Limited Guarantee to the incurrence of the Certified Primary Obligations in respect of which the certificate in Subsection [4.02(a)(ii)] of the Change of Law Protection Agreement is being delivered; provided that, upon receipt of a Suspension Notice under the Change of Law Protection Agreement, OPG covenants not to deliver any further certificates to the Indenture Trustee under Subsection [4.02(a)(ii)] of the Change of Law Protection Agreement [but, for greater certainty, OPG, as FSM, may deliver a certificate referred to in Subsection [4.02(b)(ii)] of the Change of Law Protection Agreement to the Indenture Trustee and the Province in

[1] Section change to be confirmed once Protection Agreement is recirculated.

connection with a Refinancing of a Primary Obligation in respect of which the Adherence Conditions in Subsection 4.02(a) of the Change of Law Protection Agreement had been satisfied at the time such Primary Obligation was incurred.][2] ***[NTD: Conforming changes made to line up with Change of Law Protection Agreement.]***

3.03 Acknowledgement regarding delivery of Suspension Notice

The parties acknowledge and agree that the Province is entitled to deliver a Suspension Notice under Section 7.01 of the Change of Law Protection Agreement if a Program Breach or Breach Event has occurred. The Province agrees not to deliver a Suspension Notice pursuant to Section 7.01 of the Change of Law Protection Agreement unless a Program Breach or a Breach Event has occurred.

3.04 Meaning of "Reference Documentation"

For the purposes of Subsection 3.01(c), the term "Reference Documentation" shall mean each Transaction Document that, at the relevant time:

(a) is a Transaction Document listed on Exhibit "A"; or

(b) is a Transaction Document (including any amended Transaction Document) provided to the Province in accordance with Subsection 2.01(b) that has not been objected to by the Province, by delivery of an objection notice in writing delivered to OPG, within 10 Business Days after it is provided to the Province.

3.05 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reference Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reference Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary

[2] Note to Province: Changes have been made to the Protection Agreement that have not been circulated, so we are unable to understand the nature of this change. Torys gave Province a heads up on the 12/5 call that dealers would want any post-Suspension Refinancing not to itself be subject to the Adherence Conditions otherwise applying. This would be a new point and would significantly undermine the internal structure developed to allow the Province to know the scope of its potential obligations. In the absence of the Refinancing transaction being subject to the agreed Adherence Conditions, OPG would have no constraints on the nature and documentation of that Refinancing, and the Province would become subject to those Refinancing terms, whatever they are – without any ability to object or mitigate its exposure. Based on the current Protection Agreement requirements, any Refinancing would be subject to the "substantially in the form" requirements, which would mean that the key Refinancing terms would be unchanged, but the replacement financial terms would be unconstrained (e.g., to achieve a Refinancing, OPG could reprice the debt at a significantly higher interest rate to attract investors, and the Province would have no right to object). Blakes suggests that, if this in fact what is to be contemplated in the next Tory version of the Protection Agreement, OFA should reject this sort of significant weakening of the internal protections now contemplated and tell the dealers that unconstrained repricing flexibility will need to be sufficient to be assured that a Refinancing will be possible.

Obligation that could have a Material Effect; provided, however, that the foregoing does not apply to any particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reference Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reference Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum

(a) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(b) Not more than 10 Business Days, or such lesser period as the Province may agree to in writing, following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is more than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province and OPG, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(c) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

ARTICLE V
REPRESENTATIONS AND WARRANTIES

5.01 Representations and Warranties of OPG

OPG represents and warrants that on the date hereof and on each day that a Primary Obligation is incurred or amended:

(a) The Financing Entity is a trust duly constituted and validly existing under the laws of the Province of Ontario, is duly qualified to carry on its business in each jurisdiction in which it carries on business, and has the power and authority to perform the acts that OPG, as the FSM, may cause it to perform pursuant to this Agreement and to own its property and carry on its business in accordance with the Program Agreements.

(b) OPG is a corporation duly constituted and validly existing under the laws of the Province of Ontario and has the power and authority to enter into and perform its obligations under this Agreement and all instruments and agreements delivered pursuant hereto.

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT[1]

Dated as of [■], 2017

[1] ~~Explanatory Note: Closing mechanics under consideration by the Province. Province to advise what is under consideration.~~

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with the ~~proposed~~final forms of certain of the Transaction Documents~~ listed~~, as described on Exhibit "A", and the Province has not objected to such forms and has confirmed to OPG that such Transaction Documents will constitute "Reference Documentation" for purposes of this Agreement.

Prior to entering into this Agreement, OPG, as the FSM, provided the Province with the initial Financing Plan, which includes the initial forecast (the "**Initial Forecast**") setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under ~~Approved~~ Obligations Secured to be incurred during the 24 month period from December 1, 2017 to November 30, 2019 (the "**Initial Forecast Period**") and the initial Protection Agreement Maximum (the "**Initial Protection Agreement Maximum**"). The Province has acknowledged receipt of the initial Financing Plan and has not ~~objected to~~disagreed with the Initial Forecast or the Initial Protection Agreement Maximum on the basis of an apparent inaccuracy in the Initial Forecast, an inconsistency between the Initial Forecast and the initial Financing Plan, or as a result of the Initial Protection Agreement Maximum being more than the Initial Forecast.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the

Adherence Conditions have been satisfied and maintaining information related to the Program Agreements and the Approved Obligations.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

(c) The Province and OPG acknowledge that their obligations to each other under the Indemnity Agreement between the Province and OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") are not amended by this Agreement and continue in full force and effect, notwithstanding that this Agreement is entered into subsequent to the Indemnity Agreement. ***[NTD: Torys and Blakes have mutually agreed to this language.]***

ARTICLE III
PROCESS CERTIFICATE

3.01 Process Certificate

OPG shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) and addressed to the Province, on or before the incurrence or any amendment of a Funding Obligation, other than any Funding Obligation under which not more than $5,000,000 in the aggregate may become payable by the Financing Entity (provided that delivery may not be more than 5 Business Days before the incurrence or amendment of the Funding Obligation), setting out the following with respect to such Funding Obligation:

(a) the material terms of the Funding Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, OPG's best estimate of the expected notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights; ***[NTD: OPG can only provide an estimate of these matters and the actual pricing may be different than what is provided in the certificate since the price is based on the spot market and subject to change.]***

(b) if an existing Funding Obligation is proposed to be amended, material details respecting such amendment, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Funding Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reference Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reference Documentation;

(d) a statement confirming that any disclosure made in respect of the Funding Obligation (including any Disclosure Document, press release or other written communication prepared for dissemination to third parties in relation to the Funding Obligation) that refers to or describes the terms, effect or adherence of or to this Agreement or the Change of Law Protection Agreement has been made available to the Province prior to use or dissemination, other than where such disclosure was substantially the same as a disclosure previously made;

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Funding Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Funding Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum applicable on the date that the Process Certificate is delivered; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

3.02 Acknowledgement regarding delivery of certificate under Change of Law Protection Agreement

The Province acknowledges and agrees that, concurrent with the delivery of the Process Certificate pursuant to Section 3.01 of this Agreement, the Chief Financial Officer and the Treasurer of OPG or any two Executive Officers of OPG (for clarity, such certificate is to be provided by such officers in their capacity as officers of OPG acting in its capacity as FSM) are authorized to deliver the certificate referred to in Subsection [4.02(a)(ii)][1] of the Change of Law Protection Agreement to the Indenture Trustee confirming that OPG has complied with all of its obligations to the Province and internal requirements and processes in connection with adherence of the Limited Guarantee to the incurrence of the Certified Primary Obligations in respect of which the certificate in Subsection [4.02(a)(ii)] of the Change of Law Protection Agreement is being delivered; provided that, upon receipt of a Suspension Notice under the Change of Law Protection Agreement, OPG covenants not to deliver any further certificates to the Indenture Trustee under Subsection [4.02(a)(ii)] of the Change of Law Protection Agreement [but, for greater certainty, OPG, as FSM, may deliver a certificate referred to in Subsection [4.02(b)(ii)] of the Change of Law Protection Agreement to the Indenture Trustee and the Province in connection with a Refinancing of a Primary Obligation in respect of which the Adherence Conditions in Subsection 4.02(a) of the Change of Law Protection Agreement had been satisfied at the time such Primary Obligation was incurred.][2] ***[NTD: Conforming changes made to line up with Change of Law Protection Agreement.]***

3.03 Acknowledgement regarding delivery of Suspension Notice

The parties acknowledge and agree that the Province is entitled to deliver a Suspension Notice under Section 7.01 of the Change of Law Protection Agreement if a Program Breach or Breach Event has occurred. The Province agrees not to deliver a Suspension Notice pursuant to Section 7.01 of the Change of Law Protection Agreement unless a Program Breach or a Breach Event has occurred.

[1] Section change to be confirmed once Protection Agreement is recirculated.

[2] Note to Province: Changes have been made to the Protection Agreement that have not been circulated, so we are unable to understand the nature of this change. Torys gave Province a heads up on the 12/5 call that dealers would want any post-Suspension Refinancing not to itself be subject to the Adherence Conditions otherwise applying. This would be a new point and would significantly undermine the internal structure developed to allow the Province to know the scope of its potential obligations. In the absence of the Refinancing transaction being subject to the agreed Adherence Conditions, OPG would have no constraints on the nature and documentation of that Refinancing, and the Province would become subject to those Refinancing terms, whatever they are – without any ability to object or mitigate its exposure. Based on the current Protection Agreement requirements, any Refinancing would be subject to the "substantially in the form" requirements, which would mean that the key Refinancing terms would be unchanged, but the replacement financial terms would be unconstrained (e.g., to achieve a Refinancing, OPG could reprice the debt at a significantly higher interest rate to attract investors, and the Province would have no right to object). Blakes suggests that, if this in fact what is to be contemplated in the next Tory version of the Protection Agreement, OFA should reject this sort of significant weakening of the internal protections now contemplated and tell the dealers that unconstrained repricing flexibility will need to be sufficient to be assured that a Refinancing will be possible.

3.04 Meaning of "Reference Documentation"

For the purposes of Subsection 3.01(c), the term "Reference Documentation" shall mean each Transaction Document that, at the relevant time:

(a) is a Transaction Document listed on Exhibit "A"; or

(b) is a Transaction Document (including any amended Transaction Document) provided to the Province in accordance with Subsection 2.01(b) that has not been objected to by the Province, by delivery of an objection notice in writing delivered to OPG, within 10 Business Days after it is provided to the Province.

3.05 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reference Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reference Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation~~, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Sections 1.05, 2.01 or 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation~~ that could have a Material Effect; provided, however, that the foregoing does not apply to any~~ variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reference Documentation, including the~~ particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reference Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reference Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum

(a) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(b) Not more than 10 Business Days, or such lesser period as the Province may agree to in writing, following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in ~~the Financing Plan or~~ such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is more than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province and OPG, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(c) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

Hi again. Here is my further mark-up of the Process Agreement. We have now received comments on the Protection Agreement from Osler, so we should be able to address some of the open issues I had highlighted last night. We will circulate comments on the Protection Agreement to this group later in the

day, but in the meantime please let me have your feedback on the Process Agreement mark-up. Regards, Steve

Hi. In the interest of time, here are my preliminary comments on the version of the Process Agreement just circulated by Torys (at 4:39 this afternoon). You will see that there are several provisions that tie-in to what appear to be new proposed changes to the Protection Agreement – although we won't be able to understand them until that other document is circulated by Torys. I have highlighted those and a few other points for you to specifically consider, in yellow or in new footnotes. It would be helpful if you could review my interim mark-up, as you look over the blackline forwarded by Torys this afternoon (also attached here for your convenience), and let me know if you agree with my suggested revisions. Thanks, Steve

Hi Ken,

Is it fair to point out Blakes' two policy (not legal) questions raised on the role of the FSM (vs OPG itself) in the agreements, and on a lower standard of compliance on commercially reasonable vs best efforts; and Malle's comment on how if they are in default of the process document, that the consequence seems more on the Province – as it triggers a default and the Province's obligations – if I captured those legal comments correctly.

The lawyers can say it better at the meeting, of course.

Subject: Issues already decided

Hi Gadi

As discussed the following were already decided upon last Friday:

- The Province will accept the removal of the tax information requirements from the Process Agreement
- The Province will accept OPG's revisions to the program maximum requirements in the Process Agreement, as Malle suggested the briefing note to the two ministers will cover any potential risks to the Province from OPG setting the maximum as well as mitigation strategies.
- As very clearly explained by Cindy, the Province does not run the risk of large contingent liabilities in the Public Account's as a result of accepting OPG's revisions to the program maximum.
- In the interests of time the Indenture Trustee should be removed as a party to the Protection Agreement; this can be done by removing OPG's ability to issue US Debt which is now part of the Master Indenture Trust. Naturally OPG may have concerns however, these concerns should be alleviated by pointing out that the removal can be revisited, say one year hence.

Be useful if you can mention this at the start since we can address other outstanding issues.

Thanks

Ken k

Ontario's Fair Hydro Plan

Limited Guarantee from the Province – Overview

Joint Ministers Briefing
November 29, 2017

Purpose

- Provide Ministers with an update of the work being done to prepare two provincial agreements to support the implementation of Ontario’s Fair Hydro Plan.

- Provide an overview of the two provincial agreements, including key details of the agreements.

- Outline next steps.

Context

- On March 2, 2017, the government announced its proposed Ontario's Fair Hydro Plan (OFHP), which would lower bills by 25% for a typical residential consumer, starting in the summer of 2017.

- Ontario Power Generation (OPG) has indicated that it requires some level of guarantee from province to be able to secure the financing for the OFHP.

- On September 25, 2017, TB/MBC approved a "term sheet" that set out the broad parameters of this guarantee.

- Ministries have been working with OPG, external lawyers and underwriters to finalize the provincial agreements.

- The provincial agreements must be signed by OPG and the Ministers of Energy and Finance well in advance of December 31st, to allow the Financing Entity to purchase the regulatory asset from the IESO before its year-end.

Overview of Provincial Approvals Already Completed

- Authorization under Section 5(3) of OFHPA
  - Section 5(3) provides that LGIC may by order authorize the Minister of Energy and Minister of Finance, acting together on behalf of the Province, to agree to guarantee or indemnify obligations associated with an Investment Interest

- Order in Council 1981/2017 made pursuant to subsection 5(3) of the OFHPA
  - The OIC, approved by Cabinet on September 27, 2017, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of a financing entity established under the OFHPA associated with investment interests acquired by a financing entity.

Overview of Proposed Agreements

- There are two agreements which set out the terms of the limited guarantee:
  1. Change of Law Protection Agreement **("Protection Agreement")**
  2. Change of Law Process Agreement ("**Process Agreement**")

- The **Protection Agreement** describes the circumstances that would trigger the guarantee:
  - A change of law (i.e., repeal or amendment of the *Ontario Fair Hydro Plan Act, 2017*); court decision; or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to recover amounts related to funding obligations.

- Should the guarantee be triggered, the Province would be required to pay the financial obligations of the Financing Entity, which would have an immediate impact on the Province's fiscal plan and debt.

- The Protection Agreement also describes "adherence conditions" which must be fulfilled before the guarantee covers debt obligations:
  - For example, OPG must certify that it has complied with internal process requirements with Province (i.e. in Process Agreement)

Overview of Proposed Agreements Cont'd

- The **Process Agreement** sets out the information and necessary documentation that has to be provided by OPG to the Province in connection with the application of the limited guarantee .

- A breach of the Process Agreement allows the Province to suspend the limited guarantee for any new obligations, other than for refinancings. Suspension does not affect obligations already covered by limited guarantee.

Accounting Implications

- Reporting structure of the Financing Entity, as determined by OPG, will be a subsidiary of OPG, reporting as a government business enterprise in the Public Accounts on a modified equity, one-line basis (no change from current presentation)

- Reporting under IFRS 10, the ability for OPG to consolidate the Financing Entity is determined by way of its power to direct and access returns from the subsidiary (as set out in the agreements)

- Province can set the terms and conditions without exercising direct control

Risks

- Accounting
  - Any actions taken by the Province to direct the activities of the Financing Entity may result in the Financing Entity being controlled directly by the Province and not consolidated under OPG
  - No assessment has been undertaken as to whether the Financing Entity would be considered a government business enterprise

- Province dependent on OPG for key matters relating to the limited guarantee
  - Less power/information than would typically be afforded to a guarantor
  - Significant reliance on OPG to deliver timely, accurate information
  - Province has no say on financing decisions if permitted by the Financing Plan

- Even without a change of law by the Legislature, a court determination may trigger a Protection Event

- Possible criticism for wholesale delegation to OPG; although accounting considerations and the Act itself lead to this outcome

- Potential for opportunistic litigation by Financing Entity creditors to trigger a Protection Event

Next Steps

- Ministries are working to finalize the two agreements, incorporating recent input from the credit rating agencies and continued input from the underwriters.

- Final agreements will come forward for signature by the Ministers of Energy and Finance in the coming weeks. The Minister of Finance will be asked to provide s.28 approval at the same time as the agreements are signed.

- Upon execution of the agreements, and completion of the rating agency process, the Financing Entity will enter into a short-term borrowing facility (the warehouse) in order to purchase the regulatory asset from the IESO before December 31st.

- In January 2018, the Financing Entity plans to issue long-term notes (bond issue) to empty the warehouse. Going forward, the Financing Entity will make monthly purchases of the regulatory asset. These purchases will be financed through the warehouse, provincial equity injection and OPG borrowing. It is expected that the Financing Entity will enter into approximately three bond issues per year in order to regularly pay down the warehouse.

Appendix

General Background

- Ontario Fair Hydro Plan Act ("**Act**") permits debt financings through one or more [special purpose] financing entities, to be managed by OPG
  - Proceeds of financings are used to acquire portions of the Fair Hydro regulatory asset ("**Investment Interests**") from IESO
  - Amounts owing will be serviced from "clean energy adjustments" ("**CEAs**") collected from "specified consumers"

- Hydro Trust [will be] established to facilitate the first financing transactions
  - Some combination of short-term "warehouse financings" and long-term notes will be issued
  - OPG, funded by the Province, will acquire subordinated debt issued by Hydro Trust
  - Proceeds raised before December 31st are expected to be $•M ($•M from external investors)
  - Future issuances will follow the same pattern (51% external/senior; 49% OPG/subordinated)

- Payment obligations will be owed to noteholders, lenders, credit enhancers, derivative counterparties, service providers, etc.
  - Payment obligations will be governed under a Trust Indenture
  - Hydro Trust payment obligations under the Trust Indenture are "Obligations Secured"

- Limited Guarantee from the Province of obligations payable by Hydro Trust when due
  - Province pays only upon a "Protection Event"
  - Limited Guarantee applies to almost all Obligations Secured
  - Certain "**Adherence Conditions**" to be satisfied before Limited Guarantee willy apply to material obligations

- Two relevant agreements:
  i. Change of Law Protection Agreement ("**Protection Agreement**")
  ii. Change of Law Process Agreement ("**Process Agreement**")

Technical Details – Limited Guarantee from the Province

- Triggered by a "**Protection Event**": Either:
  - There is a change of law (by the Legislature, LGIC, Ministers, government officials, government appointed boards, etc.) or implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or and entity controlled by the Province that materially and adversely affects either (1) the ability of Hydro Trust to receive CEA cash flows or (2) the Protection Agreement or any Obligation Secured
  - A court of competent jurisdiction determines that any part of the OFHPA or the related regulations are *ultra vires* or invalid in a way that materially and adversely affects the ability of Hydro Trust to receive CEA cash flows and that in fact results in a deficiency such that Hydro Trust cannot pay Obligations Secured when they become due

- **Not covered by the Limited Guarantee:**
  - Amounts required to be deposited into collateral or reserve accounts established under the Hydro Trust program to credit enhance or provide liquidity for ultimate payment of Obligations Secured
  - Certain residual payments to OPG under the "payment waterfall"

- **Term:** Until all applicable Obligations Secured are paid in full

Technical Details – Adherence Conditions

- Certain minimal conditions will apply before the Limited Guarantee will attach to applicable Obligations Secured:
  - Incurrence of indebtedness to fund ownership of an Investment Interest
  - Entry into ISDA master agreements
  - Entry into service contracts with term > 3 years and aggregate payments >$5M that are not terminable on giving 3 years notice or less

- Those conditions are:
  - Must be an Obligation Secured under the Trust Indenture
  - Delivery of officer's certificate by OPG to Indenture Trustee confirming compliance with internal processes as between OPG and the Province in connection the Limited Guarantee (under the Process Agreement)
  - Province has not delivered a "Suspension Notice"

Technical Details – Process between Province and OPG

- Process Agreement between Province and OPG
  - Sets out informational requirements and supporting affirmations regarding incurrence or amendment of Obligations Secured
  - Contemplates some (limited) rights of Province to comment on disclosure and terms of Obligations Secured
  - Provides for OPG executive officer affirmation regarding certain matters (in a "**Process Certificate**")

- Delivery of Process Certificate by OPG executive officers to the Province setting out:
  - Material terms of obligations (incurrence or amendment)
  - Confirmation that terms are "**Substantially in the Form**" of the "**Reference Documentation**"
  - Confirmation that the offering document is "**Substantially in the Form**" of the "**Reference Documentation**"
  - Confirmation that no breach of the Process Agreement has occurred
  - Confirmation that the maximum payment amounts due in the future under the obligation plus other outstanding amounts will not exceed the "**Protection Agreement Maximum**"
  - Confirmation that any disclosure referring to the Protection Agreement or Process Agreement was made available to the Province
  - Confirmation as to reasonableness, arm's length terms and conditions, and compliance with the Act and the Financing Plan

- Suspension Right
  - Uncured breach of Process Agreement or breach by any party of other program agreements allows Province to suspend Limited Guarantee for new obligations, other than for refinancings
  - Exercise of suspension right does not impact prior Hydro Trust obligations covered under the Limited Guarantee

Technical Details – Obligation of Province on Protection Event

- Make payments on Limited Guarantee
- Payments replicate stream of CEAs to pay amounts due and payable by Hydro Trust
- In event of an acceleration of any Obligation Secured, Province would pay acceleration amounts, capped at scheduled payment amounts (without acceleration) plus an additional amount up to the “fair allocation” in the aggregate
- Province will be subrogated to rights of the creditors of Hydro Trust to the extent of performance under the Limited Guarantee

Technical Details – Obligations of OPG

- Process Agreement obligates OPG, but without limiting protections under existing indemnity agreement
  - Province has indemnified OPG, its subsidiaries, and each of their respective directors, officers and employees from liability resulting from activities under the Act and activities of Hydro Trust pursuant to an Indemnity Agreement

- If there is any conflict between the Process Agreement, the Protection Agreement and the existing Indemnity Agreement in respect of any matter relating to the Province's indemnification obligations in favour of OPG, the Indemnity Agreement is paramount

Having read OPG's deck, I wonder if the meeting would flow better if we went from Andrew's introduction to their deck, and then finish with the guarantee deck? That way Ministers could see how the financing of the OFHP will be done, and then, with that in their minds, we'd be able to take them through what they'll need to sign to allow the financing to take place and meet OPG's proposed timelines.

Hi all,

There is an important meeting this morning at 10 a.m. to discuss OPG's comments on the current version of the term sheet as they have conveyed that this version does not meet their accounting needs. We have been advised that this issue must be resolved this morning so you are all being asked to be on this call. (as well as any Energy clients that should be on the call).

So I hope that you can make it!

Thank you.

Thanks. It would be helpful to know what specifically about the content of the term sheet does not meet their accounting needs. Should OPCD reps also be attending?

Does that work?

Just off a call with Peter Milligan. I think there are answers to the concerns, as he expressed them to me. Basically, he's focused on the "refinancing" scenario, and I walked him through our intention on the point. On "adherence conditions", he's focused on a minimum $ amount being issued to avoid small issuances that fall through the "adherence" cracks. I said I think the documentation process will not be that fluid and that the documents are very disciplined, so that even small incurrences will involve a process - but that we would here the point out with the group when we meet. Let's delay the Torys meeting, or do it by phone. I think it would be most productive if we could get our mark-up done before, which will take another 30 minutes or so. Steve

That's fine with me, but the only constraint is that I have a very hard deadline of 8 pm that I have to leave by, so hopefully let's not delay this for too long. At worst, maybe you and Peter could have a side meeting at Tory's office before the bigger group convenes.

Malle or Anna, has someone let the people from Energy that are calling into the meeting that it's delayed to 5:45?

Basically, he's focused on the "refinancing" scenario, and I walked him through our intention on the point. On "adherence conditions", he's focused on a minimum $ amount being issued to avoid small issuances that fall through the "adherence" cracks. I said I think the documentation process will not be that fluid and that the documents are very disciplined, so that even small incurrences will involve a process - but that we would here the point out with the group when we meet. Let's delay the Torys meeting, or do it by phone. I think it would be most productive if we could get our mark-up done before, which will take another 30 minutes or so. Steve

Stephen, Malle, Toby,

Just a head's up, our DMO will likely be organizing another meeting with the three Deputies (Finance, TBS, Energy), on Monday, November 20, likely sometime between 11am and 12:30pm and likely somewhere in Macdonald Block (900 Bay Street). The purpose of Monday's meeting will be to bring everyone up to speed on the outstanding issues on the Protection/Process Agreements. I expect an invite to follow, but you may want to hold that time in your calendars for now.

Thank you,

Anna

Hi Anna:
I talked to John Lee this morning. OPG had their meeting as planned. OPG indicated that all principles had been properly reflected in the agreements. They indicated that there were still drafting issues to be resolved. They are shooting for Board approval on Wednesday and thus will have to scramble to get things resolved by Tuesday.

Regards, Mike

Stephen, Malle, Toby,

Just a head's up, our DMO will likely be organizing another meeting with the three Deputies (Finance, TBS, Energy), on Monday, November 20, likely sometime between 11am and 12:30pm and likely somewhere in Macdonald Block (900 Bay Street). The purpose of Monday's meeting will be to bring everyone up to speed on the outstanding issues on the Protection/Process Agreements. I expect an invite to follow, but you may want to hold that time in your calendars for now.

Thank you,

Anna

We have reviewed Torys' Nov. 24 markup and also Blakes' Nov 28 markup and based the questions and comments on those drafts. The numbering of the sections is from the Blakes Nov 28 markup. I

have attached our comments, as well as the relevant blacklines to this email.

Please review these comments, including the questions and decision points.

Perhaps we should have a meeting tomorrow with this group (including the appropriate Energy clients) to discuss this draft. Can the OFA can set up the meeting/call?

Please find attached a documents setting out MOF Legal's summary and questions from our review of the revised drafts of the Protection Agreement and Process Agreement.

We have reviewed Torys' Nov. 24 markup and also Blakes' Nov 28 markup and based the questions and comments on those drafts. The numbering of the sections is from the Blakes Nov 28 markup. I have attached our comments, as well as the relevant blacklines to this email.

Please review these comments, including the questions and decision points.

Perhaps we should have a meeting tomorrow with this group (including the appropriate Energy

clients) to discuss this draft. Can the OFA can set up the meeting/call?

Given that Ken isn't here tomorrow, we'll definitely need someone from OPCD on the call, not just the Energy representatives.

Thanks,
Gadi

Hi Anna, Ken,

From Ken's Wednesday morning email, I thought that the interest rate range on the risk exposure on p.3 was going to be 0.8 to 1.0. Was there further direction to leave the top end higher?

Also, on page 2, why isn't the Ministry of Energy also listed as one of the entities listed as recommending the limited list of activation events?

The latest draft of the TB Assessment note is attached. I don't expect this to change again between now and the meeting on Monday.

The TB/MBC meeting is scheduled to run from 3-6pm on Monday, September 25, 2017. While the official agenda isn't out as yet, unofficially the item is scheduled for 3:20pm. It's in the TB/MBC Boardroom first floor Frost South.

I would recommend planning to arrive just before 3:00pm. I will let you know as soon as I receive the final agenda.

IV. KEY COMMENTS AND CONSIDERATIONS

Under the *Fair Hydro Plan Act, 2017*, (FHPA), which enables Global Adjustments (GA) Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap resulting from the reduction in amounts collected from consumers.

- IESO will incur a cash shortfall, as the amounts collected from the consumers of electricity (collected by local distribution companies) will be reduced, but the amounts paid to the generators of electricity will remain at the market and/or contractual rates.

The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset".

The OFHPA provides for IESO to sell all or a portion of the Regulatory Asset (i.e., to sell the right to recover those deferred amounts from specified consumers in the future). Under the FHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the FHPA) will have the right, but not the obligation to purchase the regulatory asset, effectively financing the shortfall generated by the reduction in amounts collected from eligible ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity will borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly the Province) from the capital markets.

OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances related to such risk, the Province would pay the funding obligations of the Financing Entity.

- Providing this through Provincial assurance and guarantee provisions was recommended in a May 2017 TB/MBC item reviewing proposed FHPA.

What would trigger the protection agreement?

Ontario Financing Authority (OFA), the Ministry of Finance and external advisors recommend limiting activation of the protection agreement to the following circumstances (Appendix C provides the non-binding indicative term sheet):

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the FHPA/related regulations or new legislation that materially and adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid; and
- A change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that materially and adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interest so that it can pay its funding obligations.

Financial:

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the contingent liability would increase over the duration of Ontario's Fair Hydro Plan (OFHP) and peak at approximately $20B of debt (final cost forecasts TBC), including principal and accumulated interest.

- In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments related to derivatives agreements and for service providers that the Province will be required to make. The fiscal impact of the increased interest payments will depend on the circumstances of the change (e.g. will the amounts continue to be recovered from the ratepayers through the clean energy adjustment as provided for under the FHPA).

Financial (Risk) – In the event the protection agreement is triggered:

The Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements (e.g. the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt) and to service providers.

- The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance~~,~~ and setting a maximum amount of debt that may be issued within a period.

Formatted: Highlight

This would likely have implications for the Province's fiscal plan and appropriation requirements.

- The Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time, and the Province may incur an expense equal to the amount of the debt.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. The worst case scenario would be the Province assuming the debt at its peak at which point interest on debt (IOD) expense could increase between $0.8B and $1.3B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.
- In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

Commented [JK2]: Understood OFA wished to update this?

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged. In addition, the Province would have the option to directly replace the OPG Financing Entity with respect to its outstanding rights, obligations and liabilities, but if the Province decided to do so additional authority would be required and may require a change in legislation.

The Ministries indicate that if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (IOD expense) will depend on whether or not some portions of the OFHPA continue in some form, or not.

- For example, if the payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments, albeit not necessarily in the same fiscal period; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense as well as any continued impact of reduced electricity rates would impact the Government's fiscal plan and likely takes away fiscal

resources that can be otherwise used.
- Debt incurred to benefit the ratepayer could become the responsibility of the taxpayer.

TBS staff note the protection agreement, assuming the Board proceeds with the request, would be approved prior to the commercial agreements being finalized. Also from an accounting perspective, previously provided opinions/memos from KPMG re: IESO and EY re: OPG have yet to be updated.

Implementation
The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the two Ministers seeking the OIC in the form attached to the final TB/MBC Submission.

The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

MOF Legal indicates the intention is that the protection agreement signed by the two Ministers would apply to all subsequent agreements entered into by the Financing Entity subject to compliance with the terms and conditions set out in the protection agreement. A section 28 approval of the protection agreement should cover these subsequent agreements. This may change as the protection agreement and the terms and conditions of the process have not been determined by the Ministers.

Commented [JK3]: I believe these agreements would refer to financing arrangements? Also there would be a dollar limit potentially as mentioned in the green highlighted part above.

Commented [JK4]: Financing arrangements?

APPENDIX D: NON-BINDING TERM SHEET

Provincial Protections and Assurances

Indicative Term Sheet

Ontario Fair Hydro Plan Act, 2017

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding.*

Change of Law Protection Agreement:	A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.
Obligor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indenture Trustee:	An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture.
Beneficiaries:	The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.
Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.
Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) or amends the Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*);

	(5) there is a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province, in each case, that [materially][1] and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or (B) a court of competent jurisdiction [in a final and non-appealable judgement][2] determines that all or a portion of the Act or the Regulation is *ultra vires* or invalid in a way that [materially][3] and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.
Obligation to Pay Specified Claims:	Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Subrogation:	Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity.

[1] Under consideration to assess the marketability implications of materiality threshold.
[2] Under consideration to assess the marketability implications of this phrase.
[3] See footnote 1, above.

Optional Assumption:	At any time following the occurrence of a Protection Event, the Obligor shall be entitled (but not obligated) to assume the Financing Entity's obligations in respect of Specified Claims as obligor and debtor. The Financing Entity (including through the Financial Services Manager) will ensure that Specified Claims permit such an assumption by the Obligor without any penalty or make-whole payment (or, in the case of any contract for the provision of on-going services to the Financing Entity, the satisfaction and termination of the Specified Claims without any acceleration of future fees, profits or other like amounts), or any requirement for further consent, approval or agreement.
Term:	The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The process by which a Specified Claim will become subject to the Change of Law Protection Agreement will be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
FIPPA:	The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
Representations and Warranties:	To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.
Governing Law:	Province of Ontario.

APPENDIX F: RISK UPDATE

The current submission, Provincial Protection Agreement, is reflected under the risk "Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding" as part of risk mitigating strategy.

Risk	Level of Risk	Risk Response
Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding.	**Risk Likelihood:** Possible **Risk Impact:** Major **Time Scale:** 12 to 24 months **Rationale** • The proposed borrowing structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on the interest rate for borrowing, the amount of equity / funding the province may need to provide and the requirement for a provincial guarantee. • As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing. • There is a risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's own ratings and cost of borrowing. • If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B (in the March 1, 2017 Cabinet Submission) is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047. • Beyond 2022, when steep increases are required, there will likely be additional pressure on the province to offset a part of the scheduled increases. • Fiscal impacts will be subject to fluctuations in Ontario electricity demand, GA and interests rates in the medium-to long term. As well as if a protection agreement is called upon: o OPG, has advised that the Government of Ontario provide a change of law protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.	Risk can be mitigated by: • Providing a "provincial guarantee" for the cost of borrowing. • Drafting legislation to provide assurance to OPG and investors regarding the permanence of the GA refinancing framework and the authority of the legislation to pass the legislation; and enable the Province to guarantee borrowing of the trust in the event of a market disruption. • Specifics of a guarantee are dependent on the negotiation of agreements not yet initiated. Limiting triggers of a protection agreement to legislative (regulatory) changes and/or judicial decisions etc. • Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost.

From Ken's Wednesday morning email, I thought that the interest rate range on the risk exposure on p.3 was going to be 0.8 to 1.0. Was there further direction to leave the top end higher?

Also, on page 2, why isn't the Ministry of Energy also listed as one of the entities listed as recommending the limited list of activation events?

Please see below some preliminary comments on the Dealer's comments, in all caps after each

comment.

****

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included. THE INDENTURE TRUSTEE WILL BE THE BENEFICIARY OF WHATEVER IS ULTIMATELY SETTLED WITH OPG. THE DEALERS CONCERNS WILL BE ADDRESSED THROUGH OPG. THE PROVINCE EXPECTS THAT THE DEALERS COMMENTS AFFECTING MARKETABILITY WILL BE GIVEN CONSIDERABLE WEIGHT.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)? THE PROVINCE'S COVENANT EXTENDS ONLY TO FINANCING ENTITY PAYMENTS WHEN DUE; NOT MORE BROADLY TO PERFORMANCE AND OTHER COVENANTS OF THE FINANCING ENTITY. ON A PROTECTION EVENT, THE PROVINCE WILL BE OBLIGATED TO PAY AMOUNTS DUE AND PAYABLE BY THE FINANCING ENTITY.

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be. SEE PARA (4) UNDER PROTECTION EVENTS.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved. THE PROVINCE IS NOT DIRECTLY INVOLVED AND SO THESE DO NOT BELONG IN THE TERM SHEET. THE PROVINCE EXPECTS THAT OPG WILL NEGOTIATE THE SPECIFIC ARRANGEMENTS SUBJECT TO THE FINANCING PLAN. AMONG OTHER THINGS, THE PROVINCE WILL WANT CONFIRMATION THAT THE STEP-UP PRICING DOES NOT RESULT IN AN ADVERSE ACCOUNTING TREATMENT OF THE TRANSACTION.

5. The requirement that the change of law have a "material" adverse effect is not acceptable. THIS POINT IS ACKNOWLEDGED. THE PROVINCE BELIEVES THIS IS NECESSARY TO PREVENT FOOT-FAULT SCENARIOS AND OPPORTUNISTIC

BEHAVIOUR.

6. We do not want the phrase “in a final and non-appealable judgement” being included in the ultra vires provision. Investors will be looking for timely payment. ACKNOWLEDGED. THE PROVINCE IS CONSIDERING ALTERNATIVES TO ADDRESS TIMELINESS CONCERNS.

7. We need it to be clear that the exclusion for “economic loss or loss of profits” does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient. THE PROVINCE’S OBLIGATIONS WILL BE LIMITED TO PAYING SPECIFIED AMOUNTS WHEN DUE AND PAYABLE. THE COVENANT WILL NOT EXTEND TO “MISSED OPPORTUNITY”, DAMAGES ON DOWNGRADE OR OTHER SIMILAR ECONOMIC CLAIMS.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading “Obligation to Pay Specified Claims” versus the option to assume under the heading of “Optional Assumption”. We do not see a distinction. THE PROVINCE’S OBLIGATION TO PAY INVOLVES A COLLATERAL OBLIGATION TO PAY THE FINANCING ENTITY’S SUBSISTING/ON-GOING PAYMENT OBLIGATIONS. THE OPTION TO ASSUME INVOLVES THE PROVINCE DIRECTLY ASSUMING THE FINANCING ENTITY’S OBLIGATIONS SO THAT THE PROVINCE, RATHER THAN THE FINANCING ENTITY, BECOMES THE PRIMARY OBLIGOR. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes [SEE DISTICTION ABOVE RE COLLATERAL VS. ASSUMED PRIMARY OBLIGATION OF THE PROVINCE] all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit. THE OPTION TO STEP-IN AND DIRECTLY ASSUME THE FINANCING ENTITY’S OBLIGATIONS WOULD ALLOW THE PROVINCE TO COLLAPSE THE FINANCING ENTITY STRUCTURE AND SIMPLIFY/RATIONALIZE THE ARRANGEMENTS GOING FORWARD.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution? THE PROVINCE ANTICIPATES THAT “FINANCE AMOUNT” (AND THEREFORE THE CORRESPONDING CEAs) WILL BE LIMITED ON AN ACCELERATION TO THE AMOUNTS WHEN DUE AND PAYABLE. THE REVISED REGULATION WOULD ADDRESS THIS IN SECTION 5. THIS IS CONSISTENT WITH BONDHOLDERS’ RECOURSE BEING LIMITED TO THE UNDERLYING CASHFLOWS - IN THIS CASE, MEASURED BY REFERENCE TO THE APPLICABLE “FAIR ALLOCATION AMOUNT” AS OF THE TIME OF THE BOND ISSUANCE. ACCORDINGLY, THERE

SHOULD BE NO "BALLOON REPAYMENT" ON ACCELERATION OF BONDS AND SO NEED FOR A PRE-EMPTIVE OPTION.

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals. ACKNOWLEDGED. THE PROVINCE IS HOPEFUL THAT THE SCENARIO IN (b) WILL BE FEASIBLE AND INTENDS TO WORK TOWARDS A CLEAN PRE-APPROVAL ARRANGEMENT. IT IS LIKELY THAT THE PRE-APPROVAL WOULD BE BASED ON THE AGREEMENTS/TERMS BEING SUBSTANTIALLY EQUIVALENT TO A PRE-AGREED PATTERN. SINCE THAT CONCLUSION MAY INVOLVE JUDGMENTS, SOME SORT OF CONFIRMATION AT THE TIME OF AN OFFERING MAY BE REQUIRED TO DEMONSTRATE COMPLIANCE.

Subject: Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved.

5. The requirement that the change of law have a "material" adverse effect is not acceptable.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the *ultra vires* provision. Investors will be looking for timely payment.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution?

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals.

We look forward to discussing.

Hi Toby,

Gadi is in meetings for the rest of the morning, but perhaps I could set up a call for 11:30am for a quick chat amongst those that are available on this email chain. The term sheet must be settled today as there is a meeting tomorrow with the Deputy and CoS at Energy.

I'll set up the call.

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance*

determine to be appropriate." Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included. THE INDENTURE TRUSTEE WILL BE THE BENEFICIARY OF WHATEVER IS ULTIMATELY SETTLED WITH OPG. THE DEALERS CONCERNS WILL BE ADDRESSED THROUGH OPG. THE PROVINCE EXPECTS THAT THE DEALERS COMMENTS AFFECTING MARKETABILITY WILL BE GIVEN CONSIDERABLE WEIGHT.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)? THE PROVINCE'S COVENANT EXTENDS ONLY TO FINANCING ENTITY PAYMENTS WHEN DUE; NOT MORE BROADLY TO PERFORMANCE AND OTHER COVENANTS OF THE FINANCING ENTITY. ON A PROTECTION EVENT, THE PROVINCE WILL BE OBLIGATED TO PAY AMOUNTS DUE AND PAYABLE BY THE FINANCING ENTITY.

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be. SEE PARA (4) UNDER PROTECTION EVENTS.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved. THE PROVINCE IS NOT DIRECTLY INVOLVED AND SO THESE DO NOT BELONG IN THE TERM SHEET. THE PROVINCE EXPECTS THAT OPG WILL NEGOTIATE THE SPECIFIC ARRANGEMENTS SUBJECT TO THE FINANCING PLAN. AMONG OTHER THINGS, THE PROVINCE WILL WANT CONFIRMATION THAT THE STEP-UP PRICING DOES NOT RESULT IN AN ADVERSE ACCOUNTING TREATMENT OF THE TRANSACTION.

5. The requirement that the change of law have a "material" adverse effect is not acceptable. THIS POINT IS ACKNOWLEDGED. THE PROVINCE BELIEVES THIS IS NECESSARY TO PREVENT FOOT-FAULT SCENARIOS AND OPPORTUNISTIC BEHAVIOUR.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment. ACKNOWLEDGED. THE PROVINCE IS CONSIDERING ALTERNATIVES TO ADDRESS TIMELINESS CONCERNS.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient. THE PROVINCE'S OBLIGATIONS WILL BE LIMITED TO PAYING SPECIFIED AMOUNTS WHEN DUE AND PAYABLE. THE COVENANT WILL NOT EXTEND TO "MISSED OPPORTUNITY", DAMAGES ON DOWNGRADE OR OTHER SIMILAR ECONOMIC CLAIMS.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. THE PROVINCE'S OBLIGATION TO PAY INVOLVES A COLLATERAL OBLIGATION TO PAY THE FINANCING ENTITY'S SUBSISTING/ON-GOING PAYMENT OBLIGATIONS. THE OPTION TO ASSUME INVOLVES THE PROVINCE DIRECTLY ASSUMING THE FINANCING ENTITY'S OBLIGATIONS SO THAT THE PROVINCE, RATHER THAN THE FINANCING ENTITY, BECOMES THE PRIMARY OBLIGOR. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes [SEE DISTICTION ABOVE RE COLLATERAL VS. ASSUMED PRIMARY OBLIGATION OF THE PROVINCE] all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit. THE OPTION TO STEP-IN AND DIRECTLY ASSUME THE FINANCING ENTITY'S OBLIGATIONS WOULD ALLOW THE PROVINCE TO COLLAPSE THE FINANCING ENTITY STRUCTURE AND SIMPLIFY/RATIONALIZE THE ARRANGEMENTS GOING FORWARD.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is the solution? THE PROVINCE ANTICIPATES THAT "FINANCE AMOUNT" (AND THEREFORE THE CORRESPONDING CEAs) WILL BE LIMITED ON AN ACCELERATION TO THE AMOUNTS WHEN DUE AND PAYABLE. THE REVISED REGULATION WOULD ADDRESS THIS IN SECTION 5. THIS IS CONSISTENT WITH BONDHOLDERS' RECOURSE BEING LIMITED TO THE UNDERLYING CASHFLOWS - IN THIS CASE, MEASURED BY REFERENCE TO THE APPLICABLE "FAIR ALLOCATION AMOUNT" AS OF THE TIME OF THE BOND ISSUANCE. ACCORDINGLY, THERE SHOULD BE NO "BALLOON REPAYMENT" ON ACCELERATION OF BONDS AND SO NEED FOR A PRE-EMPTIVE OPTION.

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals. ACKNOWLEDGED. THE PROVINCE IS HOPEFUL THAT THE SCENARIO IN (b) WILL BE FEASIBLE AND INTENDS TO WORK TOWARDS A CLEAN PRE-APPROVAL ARRANGEMENT. IT IS LIKELY THAT

THE PRE-APPROVAL WOULD BE BASED ON THE AGREEMENTS/TERMS BEING SUBSTANTIALLY EQUIVALENT TO A PRE-AGREED PATTERN. SINCE THAT CONCLUSION MAY INVOLVE JUDGMENTS, SOME SORT OF CONFIRMATION AT THE TIME OF AN OFFERING MAY BE REQUIRED TO DEMONSTRATE COMPLIANCE.

THE INDENTURE TRUSTEE WILL BE THE BENEFICIARY OF WHATEVER IS ULTIMATELY SETTLED WITH OPG. THE DEALERS CONCERNS WILL BE ADDRESSED THROUGH OPG. THE PROVINCE EXPECTS THAT THE DEALERS COMMENTS AFFECTING MARKETABILITY WILL BE GIVEN CONSIDERABLE WEIGHT.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)? THE PROVINCE'S COVENANT EXTENDS ONLY TO FINANCING ENTITY PAYMENTS WHEN DUE; NOT MORE BROADLY TO PERFORMANCE AND OTHER COVENANTS OF THE FINANCING ENTITY. ON A PROTECTION EVENT, THE PROVINCE WILL BE OBLIGATED TO PAY AMOUNTS DUE AND PAYABLE BY THE FINANCING ENTITY.

3. There was a request to expand the scope of the regulations covered to include "connected" regulations; the intention being to include the regulations relating to the recovery of interest during the moratorium period through the Global Adjustment. The Province did not make the requested change. Will these GA regulations be covered? They need to be. SEE PARA (4) UNDER PROTECTION EVENTS.

4. While we understand the IESO LC for defaulted LDCs and the step-up pricing for warehouse take-out risk are not specifically the subject of this agreement, they are substitutes for provincial protections that were originally requested. We need to have confirmation that these issues have been resolved. THE PROVINCE IS NOT DIRECTLY INVOLVED AND SO THESE DO NOT BELONG IN THE TERM SHEET. THE PROVINCE EXPECTS THAT OPG WILL NEGOTIATE THE SPECIFIC

ARRANGEMENTS SUBJECT TO THE FINANCING PLAN. AMONG OTHER THINGS, THE PROVINCE WILL WANT CONFIRMATION THAT THE STEP-UP PRICING DOES NOT RESULT IN AN ADVERSE ACCOUNTING TREATMENT OF THE TRANSACTION.

5. The requirement that the change of law have a "material" adverse effect is not acceptable. THIS POINT IS ACKNOWLEDGED. THE PROVINCE BELIEVES THIS IS NECESSARY TO PREVENT FOOT-FAULT SCENARIOS AND OPPORTUNISTIC BEHAVIOUR.

6. We do not want the phrase "in a final and non-appealable judgement" being included in the ultra vires provision. Investors will be looking for timely payment. ACKNOWLEDGED. THE PROVINCE IS CONSIDERING ALTERNATIVES TO ADDRESS TIMELINESS CONCERNS.

7. We need it to be clear that the exclusion for "economic loss or loss of profits" does not cover the obvious economic loss/loss of profits that occurs when debt is not paid. The exclusion of consequential, special or punitive damages should be sufficient. THE PROVINCE'S OBLIGATIONS WILL BE LIMITED TO PAYING SPECIFIED AMOUNTS WHEN DUE AND PAYABLE. THE COVENANT WILL NOT EXTEND TO "MISSED OPPORTUNITY", DAMAGES ON DOWNGRADE OR OTHER SIMILAR ECONOMIC CLAIMS.

8. We need to understand exactly what is contemplated by an obligation to pay under the heading "Obligation to Pay Specified Claims" versus the option to assume under the heading of "Optional Assumption". We do not see a distinction. THE PROVINCE'S OBLIGATION TO PAY INVOLVES A COLLATERAL OBLIGATION TO PAY THE FINANCING ENTITY'S SUBSISTING/ON-GOING PAYMENT OBLIGATIONS. THE OPTION TO ASSUME INVOLVES THE PROVINCE DIRECTLY ASSUMING THE FINANCING ENTITY'S OBLIGATIONS SO THAT THE PROVINCE, RATHER THAN THE FINANCING ENTITY, BECOMES THE PRIMARY OBLIGOR. We also note that in the subrogation section there is a reference to the Obligor as guarantor. Our view is that if a Protection Event occurs, the Province assumes [SEE DISTICTION ABOVE RE COLLATERAL VS. ASSUMED PRIMARY OBLIGATION OF THE PROVINCE] all the obligations and is subrogated to all of the rights of the specified creditors against the Financing Entity and in respect of the clean energy adjustment. The Province can then retain as little or as much of the existing structure as it sees fit. THE OPTION TO STEP-IN AND DIRECTLY ASSUME THE FINANCING ENTITY'S OBLIGATIONS WOULD ALLOW THE PROVINCE TO COLLAPSE THE FINANCING ENTITY STRUCTURE AND SIMPLIFY/RATIONALIZE THE ARRANGEMENTS GOING FORWARD.

9. A proposal was made to address the issues arising from a post-default acceleration of the funding obligations by giving the province an option to assume the funding obligations to avoid acceleration. If that option is to be pursued, it would need to be in this term sheet. If it is not the solution, what is

the solution? THE PROVINCE ANTICIPATES THAT "FINANCE AMOUNT" (AND THEREFORE THE CORRESPONDING CEAs) WILL BE LIMITED ON AN ACCELERATION TO THE AMOUNTS WHEN DUE AND PAYABLE. THE REVISED REGULATION WOULD ADDRESS THIS IN SECTION 5. THIS IS CONSISTENT WITH BONDHOLDERS' RECOURSE BEING LIMITED TO THE UNDERLYING CASHFLOWS - IN THIS CASE, MEASURED BY REFERENCE TO THE APPLICABLE "FAIR ALLOCATION AMOUNT" AS OF THE TIME OF THE BOND ISSUANCE. ACCORDINGLY, THERE SHOULD BE NO "BALLOON REPAYMENT" ON ACCELERATION OF BONDS AND SO NEED FOR A PRE-EMPTIVE OPTION.

10. We understand that the obligor approval mechanic has been deferred. Investors will need a provision that contemplates either (a) before each funding obligation is incurred, explicit confirmation by the Province that the provincial protection will apply to the protection, or (b) a process for non-specific approvals that the Financing Entity and the Province agree to implement that includes a provision to the effect that if a funding obligation is issued, the provincial protection is applicable. Put another way, the investors will have no obligation to insure that the province and the Financing Entity/Manager followed their agreed process for approvals. ACKNOWLEDGED. THE PROVINCE IS HOPEFUL THAT THE SCENARIO IN (b) WILL BE FEASIBLE AND INTENDS TO WORK TOWARDS A CLEAN PRE-APPROVAL ARRANGEMENT. IT IS LIKELY THAT THE PRE-APPROVAL WOULD BE BASED ON THE AGREEMENTS/TERMS BEING SUBSTANTIALLY EQUIVALENT TO A PRE-AGREED PATTERN. SINCE THAT CONCLUSION MAY INVOLVE JUDGMENTS, SOME SORT OF CONFIRMATION AT THE TIME OF AN OFFERING MAY BE REQUIRED TO DEMONSTRATE COMPLIANCE.

Subject: Provincial Protection Agreement - Dealer Comments

All,

We (Osler and the dealers) have discussed the several drafts of the Provincial Protections and Assurances Term Sheet that were circulated yesterday. Below are the issues the dealers would like to discuss. We understand that a meeting is being arranged for Monday.

1. In several places, the term sheet provides that decisions will be made by the Ministers or by the Ministers and the Financing Entity/Manager. There is no reference to the Indenture Trustee/dealers. For example, the third sentence of the document provides that the agreement will include "*such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate.*" Either all anticipated parties to the definitive agreement should have the benefit of statements of this nature or they should not be included.

2. The clause headed Specified Claims refers to "payment obligations" that are secured. Is there an intention to exclude any Obligations Secured (to use the Trust Indenture term)?

Hi Toby,

Gadi is in meetings for the rest of the morning, but perhaps I could set up a call for 11:30am for a quick chat amongst those that are available on this email chain. The term sheet must be settled today as there is a meeting tomorrow with the Deputy and CoS at Energy.

I'll set up the call.

Jonathan, Keley, Anthony,

Please find attached the final TB submission for the Provincial Protection Agreement tracking to TB/MBC on September 25. The first attachment (v9_clean) includes the submission, term sheet (in appendix), OIC, s. 28 and slide deck.

I'm bringing the hard copy package over to Legal for signature and then will drop it off to Jonathan. Note, Keley will share with Energy. A track change version (from the version the Minister of Energy already signed) is attached for Keley's reference.

Anthony, I take it you will be bringing the TB20 form to the briefing for the Minister to sign?

<u>Provincial Protections and Assurances</u>

<u>Indicative Term Sheet</u>

<u>Ontario Fair Hydro Plan Act, 2017</u>

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding.*

Change of Law Protection Agreement:	A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.
Obligor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indenture Trustee:	An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture.
Beneficiaries:	The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.
Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.
Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are

	appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*); (5) there is a change in the organization or structure of the IESO or Ontario's market undertaken at the initiative of the Province or an entity controlled by the Province, in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or (B) a court of competent jurisdiction [in a final and non-appealable judgement][1] determines that all or a portion of the Act or the Regulation is *ultra vires* or invalid in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.
Obligation to Pay Specified Claims:	Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Subrogation:	Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity.

[1] Under consideration to assess the marketability implications of this phrase.

Optional Assumption:	At any time following the occurrence of a Protection Event, the Obligor shall be entitled (but not obligated) to assume the Financing Entity's obligations in respect of Specified Claims as obligor and debtor. The Financing Entity (including through the Financial Services Manager) will ensure that Specified Claims permit such an assumption by the Obligor without any penalty or make-whole payment (or, in the case of any contract for the provision of on-going services to the Financing Entity, the satisfaction and termination of the Specified Claims without any acceleration of future fees, profits or other like amounts), or any requirement for further consent, approval or agreement.
Term:	The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The process by which a Specified Claim will become subject to the Change of Law Protection Agreement will be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
FIPPA:	The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
Representations and Warranties:	To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.
Governing Law:	Province of Ontario.

Thank you Toby. Attached are a few comments from Torys on your re-draft of the term sheet (clean and blacklined to your version – please note that the formatting is not always clear on the blackline but the clean version is fine). One minor note on our comments – you will see that we reinserted the words "or amends" in para (C) of the definition of a Protection Event. If this was deleted because you view this as already being covered in para (D), then we are OK with the deletion.

Please note that the attached only represents Torys comments and does not reflect input from the dealers/Osler. we have sent the Osler Team your re-draft of the term sheet for their review and consideration and, in the interests of time, are cc'ing them on this email so they can also see our comments.

Rima

Please find attached for discussion at our meeting this afternoon Blake's comments on the OPG/Dealer's comments. There are two versions. One shows a blackline against the OPG/Dealer's comments, and the other shows a blackline against what we circulated last week. Note that Stephen has not had a chance to review these in detail, so these are preliminary comments that are subject to further consideration and discussion.

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER][1]

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

[1] Province to consider whether liability of OPG should be primary, or subject to the inherent limitations (e.g., duty/standard of care) implied by its role as FSM. Primary responsibility for the 'behind the scenes obligations' contemplated in this Process Agreement would be more meaningful to the extent that potential corporate liability promotes compliance .

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")~~,~~[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, ~~the FSM established~~ the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.~~1~~[2]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, ~~OPG~~[the FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to ~~OPG~~[the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations ~~OPG~~[the FSM] has agreed to perform and assurances ~~OPG~~[the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of ~~OPG~~[the FSM], and of the Province in accordance with the Act, have been done.

~~1~~[2] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

AGREEMENT OF THE PARTIES

~~OPG~~The FSM shall deliver a certificate (the "**Process Certificate**"), signed by the Chief Financial Officer and the Treasurer of ~~OPG~~the FSM (or their respective designees, provided that such designees are also executive officers of ~~OPG~~the FSM) and addressed to the Province, on the earlier of (i) one Business Day prior to the incurrence or any amendment of a Primary Obligation, and (ii) on the Business Day on which the financial terms of such Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to such Primary Obligation:

(a) the material terms of the Primary Obligation pertaining to (i) in the case of notes, bonds or other securities, the principal amount, interest or discount rate, third party fees, term to maturity, amortization, redemption or extension features, structure and coupon frequency, as applicable, and (ii) in the case of a Derivative Agreement, the notional amount, financial terms and pricing, benchmarks, payment structures and early termination rights;

(b) if an existing Primary Obligation is proposed to be amended, material details respecting such amendment ~~and the anticipated effect of the amendment on or in relation to the affected terms and conditions of the Primary Obligation~~, including regarding the applicable details set forth in Subsection 3.01(a), as the context requires;

(c) a statement to the effect that: (i) the Primary Obligation to be incurred or amended (1) will arise under terms and conditions that are Substantially in the Form of the Reviewed Documentation applicable thereto; (2) in the opinion of the signatories to the Process Certificate, are reasonably incurred or effected in compliance with the Act, the General Regulation, any other enactments related thereto and the applicable Financing Plan; (3) are of a type and are on terms that a reasonably prudent financial services manager would incur in similar circumstances; and (4) reflect, in all material respects, arm's length terms and conditions; and (ii) any Disclosure Document used in connection with the offering and sale of notes, bonds or other securities is Substantially in the Form of the Reviewed Documentation;

(d) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(e) confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection

Agreement Maximum~~.~~; [for clarity, Repayments shall not include any payments or outstanding amounts due or becoming dues in the future in respect of any Primary Obligations arising under or in connection with a Derivative Agreement].[8]

3.02 Acknowledgment

The parties acknowledge that the Process Certificate is the certificate referred to in Subsection 4.02(d~~)(ii~~) of the Change of Law Protection Agreement.

3.03 Meaning of "Reviewed Documentation"

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to ~~OPG~~the FSM; and

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(~~e~~b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to ~~OPG~~the FSM.

3.04 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation [that would be adverse to the Issuer][9], including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters;

[8] This requires further consideration. This could cut both ways to the extent non-CAD deals are done and the FX is hedged.

[9] Province to consider if OPG should be empowered to make this qualitative judgment on behalf of the Province.

(b) with respect to the Reviewed Documentation referred to in clauses (v) to (ix) of the definition of "Transaction Documents", and, where applicable, clauses (x) and (xi) of the definition of "Transaction Documents" as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of the Primary Obligations arising thereunder and as to the timing, conditions and circumstances in which payment obligations under such Primary Obligations may arise, but without regard to the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(c) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum[10]

~~(a) The initial Protection Agreement Maximum shall be determined by the Province prior to the initial issuance of the first Funding Obligation. The initial Protection Agreement Maximum will be confirmed by the Province by notice in writing to OPG, as the FSM.~~

(a) ~~(b)~~ [Not less than [■] Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the ~~applicable~~ Financing Plan (the "**Initial Forecast**"). ~~In determining the initial Protection Agreement~~

[10] Province to consider OPG's proposal for Program Agreement Maximum. In effect, the discretion of the Province is removed and the limiter is tied directly to OPG's forecast (to be consistent with the financing plan required by the Act). This means that the Province has no independent escape hatch to limit its potential fiscal exposure under the Protection Agreement. As discussed, the actual exposure will depend on the determinations to use the IESO sale mechanics to fund shortfalls – in other words, if IESO were to not sell investment interests, then the corresponding funding obligations subject to the Protection Agreement would not arise. Note that the financing plan is almost entirely within OPG's discretion and is based on long-term estimates that assume maximum use of the IESO sale mechanics. Has the Province confirmed that committing to this arrangement for the term (30 years) of the OFHPA, without a limiter that is within the Province's control, will not result in a huge contingent liability being booked in the Province's accounts (i.e., maximum fundings for 30 years)? Has the Province determined whether there are other internal governance reasons to require an escape hatch for the purposes of its fiscal management purposes? Note that Protection Events are not all within the Government's control (e.g., *ultra vires* and invalidity issues).

Maximum, the Province may have regard to (but not be bound by); and (ii) notice of the initial Protection Agreement Maximum which shall be based on the Initial Forecast.

(b) Not more than [■] Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province shall confirm its agreement with the initial Protection Agreement Maximum or if the Province does not agree with the determination of the initial Protection Agreement Maximum, which disagreement may only be on the basis that the Initial Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the initial Protection Agreement Maximum will be revised accordingly.]

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum based on such Forecast.

(d) Upon receiving an updated Forecast, the Province shall determine whether or not the Protection Agreement Maximum will beNot more than [■] Business Days following receipt of any further Forecast and notice of the revised. In determining whether the Protection Agreement Maximum will be revised, the Province may have regard to (but not be bound by) such updated Forecast. Any determination by the Province to revise the Protection Agreement Maximum will be confirmed by setting out a new Protection Agreement Maximum in a written notice from the Province to the FSM and the Indenture Trustee, the deliveryfrom OPG pursuant to Section 4.01(c), the Province shall confirm its agreement with the revised Protection Agreement Maximum or if the Province does not agree with the determination of the revised Protection Agreement Maximum, which will be conclusive evidence that such newdisagreement may only be on the basis that the further Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the revised Protection Agreement Maximum will apply until it may be further sobe revised accordingly.

5.02 Representations and Warranties of the Province[16]

The Province hereby represents and warrants that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement does not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including, without limitation, under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

ARTICLE VI
ELECTION[17] TO ASSUME APPROVED OBLIGATIONS[18]

6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) ~~to~~ elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to ~~OPG~~the FSM a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify

[15] Deleted by OPG. Province to consider.

[16] Province to consider OPG's request for these representations. Does the Province make these sorts of representations in a commercial agreement? To the extent that the Province makes a statement (such as 5.02(d)) that is not caveated by the usual considerations applicable to a Crown obligation, the parallel rep requested in the Protection Agreement could be held out as a misstatement and itself provoke a "Protection Event" – suggesting that these sorts of "nice to have" reps from the Province will be more work (and potentially dangerous) than they are worth.

[17] Province to consider OPG's proposal to move Art VI to the Protection Agreement. The approach taken originally was motivated by the desire to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee), but should otherwise be fine in principle.

[18] Note to Province/Blakes: Article 6 to be moved and merged with Article 6 of the Change of Law Protection Agreement with appropriate revisions. It is more appropriate in that agreement. See also the comments in Article 6 of the Change of Law Protection Agreement.

the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to ~~OPG~~the FSM (the "**Proposed Assumption Date**").

6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Notice to ~~OPG~~the FSM, ~~OPG~~the FSM shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) ~~a draft version of~~ the form of Assumption Agreement ~~prepared in relation to each Obligation Secured, prepared in accordance with and having regard to the requirements of the relevant agreement(s) under which the Obligation Secured arises.~~in respect of the assignment and assumption of all Obligations Secured is attached as Exhibit E to the Change of Law Protection Agreement.[19]

[19] Note to Province: A form of global Assumption Agreement for all Obligations Secured is required. It is impractical to have an assumption agreement for each type of Obligation Secured. Province: We can be guided by OPG on this, but it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations. Ultimately, this is a mechanics point.

6.03 Settlement of Terms

Within 20 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

6.04 Cooperation to Implement the Assignment and Assumption

~~OPG~~The FSM shall cooperate with the Province and~~, as FSM,~~ will [use commercially reasonable efforts to][20] cause the Financing Entity to cooperate, and~~ each~~ shall use its ~~best~~commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.~~3~~[21]

6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, ~~OPG will, and as~~the FSM~~,~~ will use commercially reasonable efforts to cause the Financing Entity to, [use commercially reasonably efforts to] ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity~~,~~ permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts~~.~~[4], other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[22]

[20] Province to consider scope of commitment.

~~3~~[21] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.

~~4~~[22] Note: The Trust Indenture will need to include a clause providing that the obligations of the Financing Entity to the Indenture Trustee and the Noteholders may be assigned to the Province in accordance with an assumption agreement, substantially in the form set out in an exhibit to the Trust Indenture. **[NTD: The form of Assumption Agreement shall be an exhibit to the Change of Law Protection Agreement (consistent with our comment to move Article 6 here to the Change of Law Protection Agreement). We will add the following to the MTI to otherwise address your comment: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured pursuant to Sections 5.01(f) and 5.03(b) of the MTI, and (ii) we will add language in section 11.01 of the MTI that allows the Indenture Trustee to enter into the global Assumption Agreement without the consent of Specified Creditors.]**

ARTICLE VII
BREACH EVENTS

7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of ~~OPG~~the FSM under this Agreement ~~(including in respect of its role as FSM under any Program Agreement)~~[which continues for sixty (60) days after written notice by the Province to the FSM of such default or breach][23];

(b) any representation or warranty made by ~~OPG~~the FSM in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section 4.03 of the Change of Law Protection Agreement, proves to be incorrect on the date made [and, if curable, is not cured within sixty (60) days after written notice by the Province to the FSM of such misrepresentation][24]; or

(c) OPG is no longer the ~~FSM, the Administrative Agent or the~~ Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as ~~the FSM, the Administrative Agent or~~ the Manager. **[NTD: The FSM is a statutory role and OPG can only be removed as FSM by the Province.][25]**

7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to ~~OPG~~the FSM, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

ARTICLE VIII
MISCELLANEOUS

8.01 Term of Agreement

This Agreement will continue for the term of the Change of Law Protection Agreement.

[23] Province to consider proposed 60 day cure period. This is an extraordinary suggestion and if accepted would greatly weaken the Province's ability to address a problem in the unlikely event one comes up with OPG.

[24] Extraordinary suggestion by OPG – weakens Province.

[25] This should be considered. If true, it is unclear why that should make a difference – in terms of enabling the Province to cut-off its forward obligations in the event of a fundamental problem or circumstance (change of control) that leads to a replacement of OPG as FSM.

8.02 Notices

Any notice or other communication required or permitted to be given hereunder will be in writing and will be given by prepaid first-class mail, by facsimile or other means of electronic communication or by hand-delivery as hereinafter provided. CHANGE OF LAW PROTECTION AGREEMENT

Dated as of [■], 2017

[1] "Trustee" is the "legal entity". Trustee itself should sign all primary documents to make "manager" delegation meaningful and to avoid invalidating the Trust as a "trust".

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), ~~**[FINANCING ENTITY TRUSTEE]**~~Ontario Power Generation Inc., as the ~~Financing Entity Trustee~~Manager and in its capacity as ~~trustee of the **[FINANCING ENTITY]**~~Manager of Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc. in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and ~~**[INDENTURE TRUSTEE]**~~BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee and in its capacity as trustee for the Beneficiaries in accordance with the Trust Indenture, is made and entered into as of [■], 2017.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the ~~FSM established the~~ Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The FSM, as agent of the Financing Entity Trustee, in its capacity as trustee of the Financing Entity ~~in its capacity as Financing Entity Trustee,~~ and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

[2] See OFHPA, definition of "financing entity". FSM to establish or cause to be established. Needed for authority under OFHPA 5(3), among other things.

~~OPG~~The FSM[3] and the Province will concurrently enter into the Process Agreement, under which ~~OPG~~the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the ~~Financing Entity Trustee, the~~ FSM[4] and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

ARTICLE I
DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(c) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(d) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor, [except in each case as referenced in the definition of Protection Event][5];

[3] Need to confirm parties to the Process Agreement. OPG, acting as FSM, implies potential limitation on OPG's liability.
[4] Deletion of the Trust as a party is unacceptable since would impact Province's rights against Trust's assets (e.g., as a subrogee).
[5] Covered in preamble, so delete.

(e) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(f) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(g) all references in this Agreement to designated "Articles", "Sections", "Subsections", "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(h) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(i) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

1.02 Trustee to act in accordance with the Trust Indenture

Any action taken, required to be taken or permitted to be taken by the Indenture Trustee under this Agreement shall only be taken in the manner, at the times, for the purposes, subject to the prerequisites, conditions, requirements and limitations, and with the benefits, exculpations, indemnities and protections that are provided to the Indenture Trustee, in each case in respect of such action taken, required to be taken or permitted to be taken by it under the Trust Indenture.[6]

1.03 Proof of Approved Obligations

The efficacy of any agreement, instrument or writing evidencing a Primary Obligation may, in the absence of manifest error, be conclusively proved in any manner that the Indenture Trustee deems to be sufficient.

Any statement of account prepared by the Indenture Trustee as regards the Primary Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due and payable by the Financing Entity to the Beneficiaries and/or the Indenture Trustee and the Province hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Indenture Trustee agrees to provide the Province

[6] Enforcement of the Limited Guarantee under this Agreement must be limited to enforcement by the Indenture Trustee on behalf of the Beneficiaries. The Trust Indenture should deal with the manner and limitations on the Indenture Trustee's actions with respect to enforcement.

with the computations and calculations used by the Indenture Trustee to prepare each such statement of account promptly following a request therefor.

1.04 Limitation on Rights of and Actions by Specified Creditors

Specified Creditors, as Beneficiaries, shall not have or be permitted to exercise any rights, interests, or elections under this Agreement, other than in the manner and to the extent effected and exercised through the Indenture Trustee under, in accordance with and subject to the limitations set forth in the Trust Indenture. No Specified Creditor will have any right to institute any proceeding, judicial or otherwise, with respect to this Agreement.[7]

1.05 Province Retains Rights of Beneficiaries

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other ~~agreement~~Funding Obligation Agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province upon performance by the Province of the Primary Obligation. [To the extent of any conflict between this Agreement and the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 in respect of any matter relating to the Province's obligations to indemnify the FSM or the Financing Entity, the latter shall prevail.][8]

1.06 Effect of Headings

The Article and Section headings herein are for convenience only and will not affect the construction hereof.

1.07 Successors and Assigns

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

1.08 Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable

[7] There is no intention to provide a separate cause of action for individual Beneficiaries.

[8] Explanation required. Indemnity is a separate cause of action and should not limit the Province's primary entitlements under this Agreement, opposite the Trust and the Indenture Trustee. If an override in favour of OPG is contemplated, that should be clearly set out and understood. This provision confuses concepts. In any event, the Trust is not a party to or a protected person under the indemnity.

with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

1.09 Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

1.10 Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

1.11 Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

1.12 Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

1.13 Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

1.14 Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

1.15 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

1.16 Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 References to Acts of the Financing Entity ~~Trustee~~

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity ~~or the Financing Entity Trustee, as trustee of the Financing Entity,~~ is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to ~~(i)~~ the Financing Entity ~~or (ii) the Financing Entity Trustee~~, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the FSM as agent for the Financing Entity Trustee (in its capacity as trustee of the Financing Entity~~-~~). **[NTD: Discuss whether the Financing Entity Trustee should be a party to this Agreement and references to the Financing Entity Trustee re-inserted into this section and others.]**[9]

[9] Otherwise validity of Trust obligations becomes questionable and opinion qualifications would become likely. Revert to Blakes language.

1.19 Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the ~~Financing Entity~~Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred][10][owing][11] from time to time by the Financing Entity to the Indenture Trustee as and

[10] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected. This language is an alternative to the simple drafting approach contemplated in the term sheet ("without acceleration"), and is more complex. It would also make the new "additional amount" (i.e., extra amounts up to the FAA) part of the Province's obligations, which has not been contemplated by the OFA to date and will need to be considered separately.

[11] This would mean that the entire amount of the Notes would become payable, as a balloon. That is not the deal.

when they become due and payable[, without Acceleration~~1~~][12]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation[, ~~(~~without Acceleration~~),~~][13] in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred] [owing] by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[~~2~~14], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the ~~Collection Account~~ [Protection Account][15] [5 Business Days prior to the fifteen day of each calendar month][16] (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

[1] ~~Consider~~[12] This is a simpler and preferred formulation for the relevant concept. Also, consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[13] If alternative approach is preferred (as described above), this will also need to be modified.

[~~2~~14] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.

[15] Addition of Protection Account step will require further consideration. Province needs to see how the Trust Indenture will be modified to address this mechanically (i.e., part of the Collateral; mechanics of how funds move to Collection Account; equitable claims; etc. Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights).

[16] Delete. Province will pay on the date amounts would have otherwise been paid; not in advance.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

2.02 ~~Gross-up~~Intentionally Deleted.

~~[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.]~~[3]

2.03 Absence of Set-off

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into ~~Collection~~Protection Account[17] in Satisfaction

(a) [On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement.

[3] ~~Under consideration.~~

[17] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture as if it were an Issuer Account.]

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[4] Upon a payment having been made by or on behalf of the Province into the ~~Collection~~Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[~~5~~18]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

[4] ~~This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently.~~

[~~5~~18] Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee under this Agreement. Please see our addition in Section 9.08. The Specified Creditors already make the necessary acknowledgement in Article 5 of the Trust Indenture. Isn't this also addressed in section 1.03 above?

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03~~]~~.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if ~~(a)~~ the Adherence Conditions applicable thereto have been satisfied~~; or (b) the Province has specifically approved in writing the particular terms, conditions and documentation for the Primary Obligation~~.

4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments~~6~~[19] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of

~~6~~[19] Use of the concept of "repayments" under the OFHPA for this purpose is under consideration.

Repayments under Approved Obligations, do not exceed the Protection Agreement Maximum;[20]

(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, one Business Day prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG [and, for clarity, such certificate is to be provided in OPG's capacity as FSM][21]) and addressed to the ~~Province and the~~ Indenture Trustee and the Province[22], one Business Day prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), setting out the following with respect to the Primary Obligation:

i. confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation (if any), together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum[23]; and

ii. confirmation that [the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province][the FSM has delivered

[20] Province needs this to be part of the adherence process opposite the indenture trustee. Since the PAM will be objectively determined and within the knowledge of the indenture trustee (as contemplated in para (c)), this should not raise practical constraints. This is analogous to current procedures undertaken in connection with the incurrence of provincial obligations, where the conditions to issuance involve specific affirmation that the issuance is within the prescribed borrowing limit.

[21] OPG's capacity in certifying is under consideration, having regard to the inherent limitations associated with actions undertaken as FSM.

[22] Certificate is intended as Province's closing due diligence and so needs to be addressed and delivered to Province. Otherwise Province will need to become directly involved in the closing process. Province is prepared to rely on OPG for this purpose to accommodate OPG's logistical concerns, but that does not mean that Province can be removed from the closing process altogether, without the benefit of these required affirmations.

[23] Province wants OPG to specifically confirm this at the time of closing, to support the Province's reliance on OPG for this critical purpose.

to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement][24]; and

(e) the Province has not provided a Suspension Notice to the Indenture Trustee[25], the FSM and the Financing Entity in accordance with the terms of this Agreement.

(f)

(g) , confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section **[3.01]** of the Process Agreement; and

(h) **[NTD: This is more properly dealt with in Section 8.02 of this Agreement.]**.

4.03 Evidence of Satisfaction

A closing certificate ~~signed by at least two executive officers of OPG~~delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be ~~defect~~defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

ARTICLE V
~~RIGHTS OF THE~~ PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation:

i. ~~(a)~~ to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

ii. ~~(b)~~ as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI, **[NTD: This requires further discussion depending on the terms of the assignment and assumption agreement. If the Obligations Secured are assigned and assumed by the Province under Article VI, how would the Province be subrogated and entitled**

[24] The intention was not to incorporate specific terms of the Process Agreement into the Protection Agreement, to avoid the need for investors, relying on the Protection Agreement, to be concerned about its contents. If there is a preference to hard-code the Process Agreement in the Protection Agreement, the Province will not object but further drafting considerations will arise.

[25] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province can cut-off future Limited Guarantees opposite the indenture trustee.

to the Beneficiary's rights and interests under the Approved Obligation? Consider limiting the application of this section 5.01 to the Limited Guarantee.] [26]

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a ~~secured party~~Specified Creditor under the Trust Indenture~~)~~ on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including~~, if applicable, as a Noteholder~~ as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province, in its capacity as a Specified Creditor, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]** and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

[26] The idea is that if the Province steps in and becomes the obligor, it will get all of the underlying interests in the Trust's property (i.e., "interests … in respect of the Approved Obligation" = collateral). If this seems confusing, a parallel provision can be added to Art VI to address the step-in scenario specifically. Discussion of any concerns will be useful.

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

5.03 Voting Rights under "Outstanding Notes"

[Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[7][27]:

(a) **Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and**

(b) **in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.] [NTD: To be discussed. Explanation required regarding why not restricting these voting rights to the Province may affect the marketability of the debt under this program.]**

5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured subject to Sections **[7.04 and 8.13]** of the Trust Indenture and constitute a Finance Amount.[8][28] **[NTD: Discussion required as to how these repayments will be dealt with under the MTI, and in particular, under the waterfall provisions.]**

[7][27] This concept needs to be reflected in the Trust Indenture. This requires further discussion (see NTD above).

[8][28] General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

5.05 Representations and Warranties

The Province hereby represents and warrants[29] that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement and the completion of the transactions contemplated hereby do not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

ARTICLE VI
NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[930]

6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee, but will instead become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. **[NTD: Need to move Article VI**

[29] Province input required.

of the Change of Law Process Agreement into this Article VI and amend accordingly.[31] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.[32]]

6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

ARTICLE VII
INDENTURE TRUSTEE MATTERS

7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize

[31] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[32] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

7.04 Release of all Collateral[33]

(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.

(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.

7.05 Right to Notice and Attend Meetings[34]

The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.

[Note: Any right to such matters will be the general rights of Specified Creditors[35] as set out in the Trust Indenture.]

[33] Before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs to know that the Collateral available to it as a subrogee/assignee will be protected. Province may have different interests than Specified Creditors, who may make concessions based on the protections under this Agreement being available to them in lieu of the Collateral.

[34] Again, before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs information that could affect its future rights as a subrogee/assignee. This is not a voting right; rather just a right to know what is going on. Why a problem?

[35] As explained above, Province needs rights prior to a Protection Event.

ARTICLE VIII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**"):

(a) shall be provided by the FSM ~~or~~to the Province ~~to~~and the Indenture Trustee promptly following the occurrence of a Program Breach;

(b) may be provided by the Province to the Indenture Trustee upon the Province becoming aware of the occurrence of a Program Breach; and

(c) ~~(b)~~ may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event that has not been waived in writing by the Province.

8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the ~~Financing Entity~~Limited Guarantee shall not ~~incur~~apply in respect of any ~~new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province~~Obligation Secured incurred on or after the time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred on or after the time such Suspension Notice is delivered.

8.03 Termination Notice

On the earlier to occur of (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").[36]

8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with Article VI.

[36] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

ARTICLE IX

9.08 Third Party Rights

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

FAIR HYDRO TRUST[1], BY ITS MANAGER, ONTARIO POWER GENERATION INC.

AND

ONTARIO POWER GENERATION INC., AS FINANCIAL SERVICES MANAGER

AND

BNY TRUST COMPANY OF CANADA, AS INDENTURE TRUSTEE

CHANGE OF LAW PROTECTION AGREEMENT

Dated as of [■], 2017

[1] "Trustee" is the "legal entity". Trustee itself should sign all primary documents to make "manager" delegation meaningful and to avoid invalidating the Trust as a "trust".

This **AGREEMENT**, among Her Majesty the Queen in Right of Ontario as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), Ontario Power Generation Inc., as the Manager and in its capacity as Manager of Fair Hydro Trust, a trust settled by the FSM under the laws of the Province of Ontario (the "**Financing Entity**"), Ontario Power Generation Inc. in its capacity as the Financial Services Manager in accordance with the Act (the "**FSM**") and BNY Trust Company of Canada, a trust company existing under the laws of Canada, as Indenture Trustee and in its capacity as trustee for the Beneficiaries in accordance with the Trust Indenture, is made and entered into as of [■], 2017.

RECITALS

Pursuant to Subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**"), the Lieutenant Governor in Council may by order, authorize the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to agree to guarantee or indemnify certain debts, obligations, securities or undertakings associated with an Investment Interest.

Pursuant to an Order in Council dated as of ■ (the "**OIC**"), the Lieutenant Governor in Council has, among other things, authorized the Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of one or more financing entities established or caused to be established pursuant to Subsection 22(2) of the Act by the FSM and that may incur Funding Obligations in connection with one or more Investment Interests.

Pursuant to a Declaration of Trust[2] dated as of ■, 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

The FSM, as agent of the Financing Entity Trustee, in its capacity as trustee of the Financing Entity, and the Indenture Trustee are parties to the Trust Indenture and propose to create and issue series of notes, bonds and other securities as contemplated therein, and to provide security over the assets and undertaking of the Financing Entity in respect of such notes, bonds and securities, as well as other Obligations Secured.

The Minister of Energy and the Minister of Finance, acting together on behalf of the Province of Ontario, have determined to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended. This Agreement sets out the terms and conditions of such protections and assurances.

[2] See OFHPA, definition of "financing entity". FSM to establish or cause to be established. Needed for authority under OFHPA 5(3), among other things.

The FSM[3] and the Province will concurrently enter into the Process Agreement, under which the FSM will agree to perform certain related activities and to provide certain assurances on which the Province will rely, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation and ensuring that the Province's assumption right may be exercised without impediment on the terms and conditions contemplated in this Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of the Province, the FSM[4] and the Indenture Trustee, in accordance with the Act, the OIC and the Trust Indenture, have been done.

AGREEMENT OF THE PARTIES

In consideration of the respective agreements herein contained, the parties hereto covenant and agree as follows:

ARTICLE I
DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

1.01 Interpretation

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires:

(a) the terms used in this Agreement that are defined in Schedule A have the meanings assigned to them in Schedule A;

(b) words importing the singular shall include the plural and vice versa, words importing general shall include all genders or the neuter, and words importing the neuter shall include all genders;

(c) all references to any Person shall include such Person's permitted successors and assigns, and any reference to a Person in a particular capacity excludes such Person in other capacities;

(d) references to any law, rule, regulation or order of a Governmental Authority (including, for greater certainty, references to the Act and the General Regulation) shall include such law, rule, regulation or order as from time to time in effect, including any amendment, modification, codification, replacement or reenactment thereof or any substitution therefor, [except in each case as referenced in the definition of Protection Event][5];

[3] Need to confirm parties to the Process Agreement. OPG, acting as FSM, implies potential limitation on OPG's liability.

[4] Deletion of the Trust as a party is unacceptable since would impact Province's rights against Trust's assets (e.g., as a subrogee).

[5] Covered in preamble, so delete.

(e) the word "will" shall be construed to have the same meaning and effect as the word "shall". The word "or" is not exclusive;

(f) any reference to this Agreement or any other agreement, document or instrument shall be construed as a reference to this Agreement or, as the case may be, such other agreement, document or instrument as the same may have been, or may from time to time be, amended, varied, replaced, amended and restated, supplemented or otherwise modified;

(g) all references in this Agreement to designated "Articles", "Sections", "Subsections", "Schedules", "Exhibits" and other subdivisions are to the designated Articles, Sections, Subsections, Schedules, Exhibits and other subdivisions of this Agreement as originally executed. The words "herein", "hereof" and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular Article, Section, Subsection, Schedule, Exhibit or other subdivision;

(h) "including" and words of similar import will be deemed to be followed by "without limitation"; and

(i) with respect to the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" each mean "to but excluding".

1.02 Trustee to act in accordance with the Trust Indenture

Any action taken, required to be taken or permitted to be taken by the Indenture Trustee under this Agreement shall only be taken in the manner, at the times, for the purposes, subject to the prerequisites, conditions, requirements and limitations, and with the benefits, exculpations, indemnities and protections that are provided to the Indenture Trustee, in each case in respect of such action taken, required to be taken or permitted to be taken by it under the Trust Indenture.[6]

1.03 ~~1.02~~ Proof of Approved Obligations

The efficacy of any agreement, instrument or writing evidencing a Primary Obligation may, in the absence of manifest error, be conclusively proved in any manner that the Indenture Trustee deems to be sufficient.

Any statement of account prepared by the Indenture Trustee as regards the Primary Obligations shall constitute *prima facie* evidence of the amount which, as at the date of the statement so prepared, is due and payable by the Financing Entity to the Beneficiaries and/or the Indenture Trustee and the Province hereby acknowledges and agrees that, absent manifest error, it shall be bound by each such statement. The Indenture Trustee agrees to provide the Province

[6] Enforcement of the Limited Guarantee under this Agreement must be limited to enforcement by the Indenture Trustee on behalf of the Beneficiaries. The Trust Indenture should deal with the manner and limitations on the Indenture Trustee's actions with respect to enforcement.

with the computations and calculations used by the Indenture Trustee to prepare each such statement of account promptly following a request therefor.

1.04 ~~1.03~~ Limitation on Rights of and Actions by Specified Creditors

Specified Creditors, as Beneficiaries, shall not have or be permitted to exercise any rights, interests, or elections under this Agreement, other than in the manner and to the extent effected and exercised through the Indenture Trustee under, in accordance with and subject to the limitations set forth in the Trust Indenture. No Specified Creditor will have any right to institute any proceeding, judicial or otherwise, with respect to this Agreement.[7]

1.05 ~~1.04~~ Province Retains Rights of Beneficiaries

Without limiting any rights of subrogation or succession that arise pursuant to applicable law or pursuant to the Province's rights as an assignee, subrogee or pursuant to Section 5.01, all of the rights, interests, elections and privileges that would arise in favour of a Beneficiary under the Trust Indenture or other Funding Obligation Agreement under which a related Primary Obligation arises shall automatically arise, vest in and be available to the Province upon performance by the Province of the Primary Obligation. [To the extent of any conflict between this Agreement and the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 in respect of any matter relating to the Province's obligations to indemnify the FSM or the Financing Entity, the latter shall prevail.][8]

1.06 ~~1.05~~ Effect of Headings

The Article and Section headings herein are for convenience only and will not affect the construction hereof.

1.07 ~~1.06~~ Successors and Assigns

All covenants and agreements in this Agreement by the parties will bind their respective successors and permitted assigns, whether so expressed or not. All covenants and agreements of the Indenture Trustee or the FSM in this Agreement shall bind their respective successors, co-trustees and agents.

1.08 ~~1.07~~ Severability

Each of the provisions contained in this Agreement is distinct and severable and a declaration of invalidity or unenforceability of any such provision or part thereof by a court of competent jurisdiction will not affect the validity or enforceability of any other provision hereof. To the extent permitted by applicable law, the parties waive any provision of law which renders any provision of this Agreement invalid or unenforceable in any respect. The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable

[7] There is no intention to provide a separate cause of action for individual Beneficiaries.

[8] Explanation required. Indemnity is a separate cause of action and should not limit the Province's primary entitlements under this Agreement, opposite the Trust and the Indenture Trustee. If an override in favour of OPG is contemplated, that should be clearly set out and understood. This provision confuses concepts. In any event, the Trust is not a party to or a protected person under the indemnity.

with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

1.09 ~~1.08~~ Governing Law

THIS AGREEMENT WILL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE PROVINCE OF ONTARIO AND THE FEDERAL LAWS OF CANADA APPLICABLE THEREIN, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

1.10 ~~1.09~~ Proceedings Against the Crown Act

NOTHING IN THIS AGREEMENT OR THE PROGRAM AGREEMENTS AFFECTS THE RIGHTS, PROTECTIONS AND IMMUNITIES OF THE CROWN UNDER THE PROCEEDINGS AGAINST THE CROWN ACT.

1.11 ~~1.10~~ Attornment

EACH PARTY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ANY ONTARIO COURTS SITTING IN TORONTO IN ANY ACTION, APPLICATION, REFERENCE OR OTHER PROCEEDING ARISING OUT OF OR RELATED TO THIS AGREEMENT. THE PARTIES HERETO HEREBY WAIVE ANY RIGHT THEY MAY HAVE TO REQUIRE A TRIAL BY JURY OF ANY PROCEEDING COMMENCED IN CONNECTION WITH THIS AGREEMENT.

1.12 ~~1.11~~ Counterparts; Electronic Delivery

This Agreement may be executed in any number of counterparts, each of which so executed will be deemed to be an original, but all such counterparts will together constitute one and the same instrument. Delivery of an executed signature page to this Agreement by a party by electronic transmission will be as effective as delivery of a manually executed copy of the Agreement by such party.

1.13 ~~1.12~~ Change of Law Protection Agreement Referred to in the Trust Indenture

This Agreement is the "Change of Law Protection Agreement" referred to in the Trust Indenture.

1.14 ~~1.13~~ Non-Business Days

Whenever any payment to be made hereunder shall be stated to be due, any period of time would begin or end, any calculation is to be made or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such payment shall be made, such period of time shall begin or end, such calculations shall be made and such other action shall be taken on the next succeeding Business Day.

1.15 ~~1.14~~ Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

1.16 ~~1.15~~ Interest Act

For the purpose of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest to which any rate of interest payable under this Agreement that is calculated on any basis other than a full calendar year is equivalent may be determined by multiplying such rate by a fraction, the numerator of which is the actual number of days in the calendar year in which such yearly rate of interest is to be ascertained and the denominator of which is the number of days comprising such other basis. The parties further agree that for the purposes of the *Interest Act* (Canada), (i) the principle of deemed reinvestment of interest shall not apply to any interest calculation under this Agreement, and (ii) the rates of interest stipulated in this Agreement are intended to be nominal rates and not effective rates or yields.

1.17 ~~1.16~~ Currency

Unless stated otherwise, all amounts herein are stated in Canadian Dollars.

1.18 ~~1.17~~ References to Acts of the Financing Entity

For greater certainty, where any reference is made in this Agreement, or in any other instrument executed pursuant hereto or contemplated hereby to which the Financing Entity is party, to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against, or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to the Financing Entity, such reference shall be construed and applied for all purposes as if it referred to an act to be performed by, an appointment to be made by, an obligation or liability of, an asset or right of, a discharge or release to be provided by, a suit or proceeding to be taken by or against or a covenant, representation or warranty (other than relating to the constitution or existence of the Financing Entity) by or with respect to, the FSM as agent for the Financing Entity Trustee (in its capacity as trustee of the Financing Entity). **[NTD: Discuss whether the Financing Entity Trustee should be a party to this Agreement and references to the Financing Entity Trustee re-inserted into this section and others.]**[9]

[9] Otherwise validity of Trust obligations becomes questionable and opinion qualifications would become likely. Revert to Blakes language.

1.19 ~~1.18~~ Judgment Currency

(a) If for the purpose of obtaining judgment in any court or for any other purposes (other than conversions specifically provided for in the agreement under which an Approved Obligation arises), it is necessary to convert any amount due under this Agreement from the currency in which it is due (the "**Original Currency**") into another currency (the "**Second Currency**"), the rate of exchange applied shall be that at which, in accordance with normal banking procedures, the purchaser could purchase, in the New York foreign exchange market, the Original Currency with the Second Currency on the date on which judgment is given. The obligation of the Province in respect of any Original Currency due from it to the Indenture Trustee under this Agreement shall, notwithstanding any judgment or payment in such other currency, be discharged only to the extent that, on the Business Day following receipt of any sum so paid or adjudged to be due under this Agreement in the Second Currency, the Indenture Trustee may, in accordance with normal banking procedures, purchase in the New York foreign exchange market the Original Currency with the amount of the Second Currency so paid or so adjudged to be due; and if the amount of the Original Currency so purchased is less than the amount originally due in the Original Currency, the Province shall indemnify the Indenture Trustee against such loss.

(b) The term "rate of exchange" in this Section 1.19 means the spot rate at which the Indenture Trustee, in accordance with normal practice, is able on the relevant date to purchase the Original Currency with the Second Currency and includes any premium and costs of exchange payable in connection with such purchase.

ARTICLE II
AGREEMENT TO PERFORM APPROVED OBLIGATIONS

2.01 Limited Guarantee

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**"), to the Province requiring the Province to pay the amount of the Approved Obligations ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred][10][owing][11] from time to time by the Financing Entity to the Indenture Trustee as and

[10] The amount "owing" under an obligation (i.e., balloon) will different from the amount available to be paid in respect of such owed amount (based on Available Collections). The Province is not obligated to pay more than the obligations that would have been paid from CEAs had they been collected. This language is an alternative to the simple drafting approach contemplated in the term sheet ("without acceleration"), and is more complex. It would also make the new "additional amount" (i.e., extra amounts up to the FAA) part of the Province's obligations, which has not been contemplated by the OFA to date and will need to be considered separately.

[11] This would mean that the entire amount of the Notes would become payable, as a balloon. That is not the deal.

when they become due and payable[1][, without Acceleration][12]. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation[, without Acceleration,][13] in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts ~~owing~~[that would have been payable from Available Collections had the Protection Event not occurred] [owing] by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2][14], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the [Protection Account][15] [5 Business Days prior to the fifteen day of each calendar month][16] (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and (ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

[1] ~~Consider~~[12] This is a simpler and preferred formulation for the relevant concept. Also, consider mechanics for notifying the Province regarding the specific amounts payable and their due dates. Consider attaching a detailed schedule of payments under the Payment Demand and the respective due date of each payment.

[13] If alternative approach is preferred (as described above), this will also need to be modified.

[2][14] Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations", which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligations and an "investment interest" is therefore crucial. Blakes is considering how to more precisely connect these concepts.

[15] Addition of Protection Account step will require further consideration. Province needs to see how the Trust Indenture will be modified to address this mechanically (i.e., part of the Collateral; mechanics of how funds move to Collection Account; equitable claims; etc. Province will need to know that all amounts will be applied for their intended purposes without undermining Province's step-in and subrogation rights).

[16] Delete. Province will pay on the date amounts would have otherwise been paid; not in advance.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

2.02 ~~Gross-up~~Intentionally Deleted.

~~All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Protection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.~~

2.03 Absence of Set-off

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Protection Account[17] in Satisfaction

(a) [On or before the date of delivery of a Payment Demand to the Province, the Indenture Trustee shall cause to be established and maintained an Eligible Deposit Account (the "**Protection Account**") in the name of the Indenture Trustee, bearing a designation clearly indicating that the funds and other property credited thereto are held for the benefit of the Indenture Trustee and the Beneficiaries. The Protection Account shall be under the control of the Indenture Trustee for the benefit of the Beneficiaries. If, at any time, the institution holding the Protection Account ceases to be an Eligible Institution, the FSM shall notify the Indenture Trustee, and the Indenture Trustee upon being notified in writing of such ineligibility (or the FSM on its behalf) shall within 30 days (or such longer period, not to exceed 45 days, so long as the Rating Agency Condition is satisfied) establish a new Protection Account that is an Eligible Deposit Account and shall transfer any funds or other property from such Protection Account to such new Protection Account. From the date each such new Protection Account is established, it shall be the "Protection Account." for purposes of this Agreement. Funds credited to the Protection Account will be invested and held in accordance with Section 7.03 of the Trust Indenture as if it were an Issuer Account.]

[17] Use of Protection Account to be considered by Province after required modifications to Trust Indenture have been provided.

(b) Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Protection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation. Upon a payment having been made by or on behalf of the Province into the Protection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable ~~under~~to such Beneficiaries in respect of the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[~~3~~18]. For greater certainty, the obligations arising in respect of the Approved Obligation shall not be reduced by such payment as the Province shall become entitled to the rights contemplated under Section 5.01 in relation to such continuing obligations.

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety. ~~**[NTD: Further consideration required as to whether there should be a waiver of any other equitable defences.]**~~

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

[~~3~~18] Consider how Beneficiary rights under Obligations Secured will be amended under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture and each other contract under which the Obligation Secured arises, to the effect that the Beneficiaries will be deemed to be bound by the agreement of the Indenture Trustee under this Agreement. Please see our addition in Section 9.08. The Specified Creditors already make the necessary acknowledgement in Article 5 of the Trust Indenture. Isn't this also addressed in section 1.03 above?

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations ~~and termination of the Trust Indenture~~, or until the Province is no longer required to provide and perform the Limited Guarantee in accordance with Section 6.03.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine~~.~~,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement,

suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if the Adherence Conditions applicable thereto have been satisfied.

4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured; and

(b) ~~**[NTD: already covered in process certificate in section 3.01 of the Process Agreement]**~~at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[19] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG [and, for clarity, such certificate is to be provided in OPG's capacity as FSM][21]) and addressed to the Indenture Trustee and the Province[22], one Business Day prior to the earlier of (i) one Business Day prior to the incurrence or any amendment of the Primary Obligation, and (ii) on the Business Day on which the financial terms of the Primary Obligation are definitively determined (including the interest or discount rate applicable to any notes, bonds or other securities), ~~confirming that the FSM has delivered to the Province a Process Certificate in accordance with Section [3.01] of the Process Agreement; and~~setting out the following with respect to the Primary Obligation:

ii. confirmation that [the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province][the FSM has delivered

[20] Province needs this to be part of the adherence process opposite the indenture trustee. Since the PAM will be objectively determined and within the knowledge of the indenture trustee (as contemplated in para (c)), this should not raise practical constraints. This is analogous to current procedures undertaken in connection with the incurrence of provincial obligations, where the conditions to issuance involve specific affirmation that the issuance is within the prescribed borrowing limit.

[21] OPG's capacity in certifying is under consideration, having regard to the inherent limitations associated with actions undertaken as FSM.

[22] Certificate is intended as Province's closing due diligence and so needs to be addressed and delivered to Province. Otherwise Province will need to become directly involved in the closing process. Province is prepared to rely on OPG for this purpose to accommodate OPG's logistical concerns, but that does not mean that Province can be removed from the closing process altogether, without the benefit of these required affirmations.

[23] Province wants OPG to specifically confirm this at the time of closing, to support the Province's reliance on OPG for this critical purpose.

4.03 Evidence of Satisfaction

A closing certificate delivered in accordance with Section 4.02 in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defective or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

PROVINCE MATTERS

5.01 Assignment and Subrogation

(a) Upon paying an amount in respect of an Approved Obligation:

i. to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

ii. ~~[~~as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,~~]~~ **[NTD: This requires further discussion depending on the terms of the assignment and assumption agreement. If the Obligations Secured are assigned and assumed by the Province under Article VI, how would the Province be subrogated and entitled to the Beneficiary's rights and interests under the Approved**

[24] The intention was not to incorporate specific terms of the Process Agreement into the Protection Agreement, to avoid the need for investors, relying on the Protection Agreement, to be concerned about its contents. If there is a preference to hard-code the Process Agreement in the Protection Agreement, the Province will not object but further drafting considerations will arise.

[25] Province wants this mechanic embedded in the adherence conditions so it is explicitly understood and mechanically contemplated as the way the Province can cut-off future Limited Guarantees opposite the indenture trustee.

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (i) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved Obligation applicable in respect of the payment under the Trust Indenture, (ii) the benefits of the related Collateral and (iii) all proceeds therefrom. ~~Subject to Section 5.01(b), the~~The Province shall have and be entitled to enforce all rights and interests (including as a Specified Creditor under the Trust Indenture~~)~~ on the basis contemplated in Section 5.01(b)), under and in respect of such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. ~~Subject to Section 5.01(b), the~~The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including~~, if applicable, as a Noteholder~~ as a Specified Creditor under the Trust Indenture on the basis contemplated in Section 5.01(b)) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

(b) ~~the~~The Province (i) acknowledges and agrees in favour of the Indenture Trustee that, upon being subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation in accordance with Section 5.01(a), the Province~~ will be a Specified Creditor hereunder and its entitlements~~, in its capacity as a Specified Creditor~~ are~~, will be subject to the provisions applicable to Specified Creditors under the Trust Indenture, including~~, without limitation,~~ **[Section 7.11 (Payments Held in Trust), Section 8.12 (Limitation on Suits), Sections 7.04 and 8.13 (Payment Priorities), Section 8.14 (Limited Recourse) and Section 16.01 (No Petition) thereof]**~~, (ii) irrevocably authorizes and directs the Indenture Trustee on its behalf to take such action (including the execution and delivery of documents of subordination) as may be necessary or appropriate to further assure the~~

[26] The idea is that if the Province steps in and becomes the obligor, it will get all of the underlying interests in the Trust's property (i.e., "interests … in respect of the Approved Obligation" = collateral). If this seems confusing, a parallel provision can be added to Art VI to address the step-in scenario specifically. Discussion of any concerns will be useful.

~~priority arrangements provided for in **[Article VI and Sections 7.04 and 8.13 of the Trust Indenture]**, (iii) appoints the Indenture Trustee as its agent for any and all such purposes, and (iv~~ and (ii) confirms that the Indenture Trustee shall send notices to the Province, in its capacity as a Specified Creditor, in accordance with Section 9.02.

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

5.03 Voting Rights under "Outstanding Notes"

[Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[427]:

(a) **Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and**

(b) **in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.] [NTD: To be discussed. ~~Giving~~Explanation required regarding why not restricting these voting rights to the Province may affect the marketability of the debt under this program.]**

5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the

5.05 Representations and Warranties

The Province hereby represents and warrants[29] that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement and the completion of the transactions contemplated hereby do not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including~~, without limitation,~~ under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

ARTICLE VI
NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

6.01 Delivery of Assumption Notice

Following the occurrence of a Protection Event, the Province may provide notice (in the form of Exhibit B) to the Indenture Trustee, in accordance with the terms of the Process Agreement, that the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use best efforts to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[630]

[528] General Regulation to be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

[29] Province input required.

[630] Further details regarding obtaining of third party consents and rating agency approvals to be considered.

6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee but will instead ~~be~~become a primary obligor under the Obligations Secured assumed pursuant to and in accordance with an applicable Assumption Agreement. **[NTD: Need to move Article VI of the Change of Law Process Agreement into this Article VI and amend accordingly.[31] Also, we will need to attach the form of Assumption Agreement as an Exhibit to this Agreement that will be used for the assignment and assumption of all Obligations Secured. Contrary to the statement in Section 6.02(f) of the Change of Law Protection Agreement, there will not be a separate form of Assumption Agreement for each Obligation Secured.[32]]**

6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

ARTICLE VII
INDENTURE TRUSTEE MATTERS

7.01 Limited Recourse

No recourse may be taken, directly or indirectly, with respect to the obligations of the Financing Entity under this Agreement, or any certificate or other writing delivered in connection herewith or therewith, against (a) the Financing Entity Trustee in its individual capacity, (b) any owner of a beneficial interest in the Financing Entity or (c) any partner, owner, beneficiary, agent, officer, director, employee or agent of the Financing Entity Trustee in its individual capacity, any holder of a beneficial interest in the Financing Entity or the Financing Entity Trustee or of any successor or assign of the Financing Entity Trustee in its individual capacity, except as any such Person may have expressly agreed (it being understood that the Financing Entity Trustee has no such obligations in its individual capacity).

7.02 Not Responsible for Recitals or Issuance of Notes

The recitals contained herein will be taken as the statements of the Province and the FSM, and the Indenture Trustee assumes no responsibility for their correctness. The Indenture Trustee makes no representations as to the validity or sufficiency of this Agreement.

[31] The idea was to not burden the external agreement with the necessary steps for the Province to be in a position to step-in. If the preference is to include more in this external agreement, the Province will not object subject to further consideration of drafting issues.

[32] It has been assumed that there may be variations depending on the nature of the underlying obligations. A root form of Assumption Agreement, modified to conform substantially to that form in connection with a particular obligation, was the idea. To be further discussed.

7.03 Representations and Covenants of the Indenture Trustee

The Indenture Trustee represents, warrants and covenants that:

(a) the Indenture Trustee is a trust company organized, existing and in good standing under the laws of Canada;

(b) the Indenture Trustee has full power and authority to execute, deliver and perform this Agreement and has taken all necessary action to authorize the execution, delivery and performance by it of this Agreement and other documents to which it is a party;

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

7.04 Release of all Collateral[33]

(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.

(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.

7.05 Right to Notice and Attend Meetings[34]

The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.

[33] Before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs to know that the Collateral available to it as a subrogee/assignee will be protected. Province may have different interests than Specified Creditors, who may make concessions based on the protections under this Agreement being available to them in lieu of the Collateral.

[34] Again, before the Province is called to perform its obligations under this Agreement (only then becoming a Specified Creditor based on the current drafting), the Province needs information that could affect its future rights as a subrogee/assignee. This is not a voting right; rather just a right to know what is going on. Why a problem?

[Note: Any right to such matters will be the general rights of Specified Creditors[35] as set out in the Trust Indenture.]

ARTICLE VIII
SUSPENSION OF ADHERENCE FOR NEW PRIMARY OBLIGATIONS

8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**"):

(a) shall be provided by the FSM to the Province and the Indenture Trustee promptly following the occurrence of a Program Breach;

(b) may be provided by the Province to the Indenture Trustee ~~promptly following~~upon the Province becoming aware of the occurrence of a Program Breach; and

(c) ~~(b)~~ may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event that has not been waived in writing by the Province.

8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), ~~this Change of Law Protection Agreement~~the Limited Guarantee shall not apply in respect of any ~~new Primary~~ Obligation ~~following~~Secured incurred on or after the ~~date of such Suspension Notice. **[NTD: Deletion of "or additional" is address the situation where a then current Primary Obligation requires an additional Primary Obligation in accordance with its terms of the MTI.]**~~time such Suspension Notice is delivered. For greater certainty, the rights of the Province under Article VI shall apply in respect of all Obligations Secured, including if incurred on or after the time such Suspension Notice is delivered.

8.03 Termination Notice

On the earlier to occur of (a) the occurrence of a Suspension Event or (b) the Assumption Effective Date, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**"). ~~Upon the delivery of such Termination Notice, the Province shall assume the Obligations Secured of the Financing Entity as primary obligor pursuant to ARTICLE VI **[NTD: If the Province terminates the program, it must assume the obligations of the Financing Entity.]**~~[36]

[35] As explained above, Province needs rights prior to a Protection Event.

[36] The suspension right in favour of the Province is intended to allow the Province to cut-off future obligations under this Agreement, but not affect rights that have arisen prior to the suspension notice. The termination notice is a further step that allows the Province to bring this agreement to an end, but that only happens (under section 9.01) after all amounts capable of becoming due under the Limited Guarantee have been paid (i.e., the last obligation incurred prior to the suspension notice has been satisfied), including as a result of an assumption under Art VI.

8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event, nor will it in any way impact the Obligations Secured which are assumed by the Province in accordance with ~~this Agreement~~Article VI.

ARTICLE IX
MISCELLANEOUS

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.[, AS FINANCIAL SERVICES MANAGER][1]

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

[1] Province to consider whether liability of OPG should be primary, or subject to the inherent limitations (e.g., duty/standard of care) implied by its role as FSM. Primary responsibility for the 'behind the scenes obligations' contemplated in this Process Agreement would be more meaningful to the extent that potential corporate liability promotes compliance .

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[, as Financial Services Manager for the Financing Entity in accordance with the Act,] is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.[1][2]

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

Prior to entering into this Agreement, [the FSM] provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to [the FSM] that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.

This Agreement sets out the obligations [the FSM] has agreed to perform and assurances [the FSM] has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of [the FSM], and of the Province in accordance with the Act, have been done.

[1][2] Note: This draft only addresses the first Financing Entity. If additional financing entities are established, revisions to this Agreement may be made at that time, in context. Any additional financing entities contemplated should be as contemplated in the Financing Plan.

The parties will engage in good faith negotiations to replace any provision which is declared invalid or unenforceable with a valid and enforceable provision, the economic effect of which comes as close as possible to that of the invalid or unenforceable provision which it replaces.

A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

3.03 Meaning of "Reviewed Documentation"

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

[8] This requires further consideration. This could cut both ways to the extent non-CAD deals are done and the FX is hedged.

3.04 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation [that would be adverse to the Issuer][9], including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; ~~and~~

(b) with respect to the Reviewed Documentation referred to in clauses (v) to (ix) of the definition of "Transaction Documents", and, where applicable, clauses (x) and (xi) of the definition of "Transaction Documents" as the context requires, that the variable terms to be set forth in the proposed documents are as reasonably contemplated in the Reviewed Documentation, as to the type, scope and extent of the Primary Obligations arising thereunder and as to the timing, conditions and circumstances in which payment obligations under such Primary Obligations may arise, but without regard to the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(c) ~~(b)~~ with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

[9] Province to consider if OPG should be empowered to make this qualitative judgment on behalf of the Province.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum[10]

(a) [Not less than [■] Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum which shall be based on the Initial Forecast.

(b) Not more than [■] Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province shall confirm its agreement with the initial Protection Agreement Maximum or if the Province does not agree with the determination of the initial Protection Agreement Maximum, which disagreement may only be on the basis that the Initial Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the initial Protection Agreement Maximum will be revised accordingly.]

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a

[10] Province to consider OPG's proposal for Program Agreement Maximum. In effect, the discretion of the Province is removed and the limiter is tied directly to OPG's forecast (to be consistent with the financing plan required by the Act). This means that the Province has no independent escape hatch to limit its potential fiscal exposure under the Protection Agreement. As discussed, the actual exposure will depend on the determinations to use the IESO sale mechanics to fund shortfalls – in other words, if IESO were to not sell investment interests, then the corresponding funding obligations subject to the Protection Agreement would not arise. Note that the financing plan is almost entirely within OPG's discretion and is based on long-term estimates that assume maximum use of the IESO sale mechanics. Has the Province confirmed that committing to this arrangement for the term (30 years) of the OFHPA, without a limiter that is within the Province's control, will not result in a huge contingent liability being booked in the Province's accounts (i.e., maximum fundings for 30 years)? Has the Province determined whether there are other internal governance reasons to require an escape hatch for the purposes of its fiscal management purposes? Note that Protection Events are not all within the Government's control (e.g., *ultra vires* and invalidity issues).

"**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum based on such Forecast.

(d) Not more than [■] Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province shall confirm its agreement with the revised Protection Agreement Maximum or if the Province does not agree with the determination of the revised Protection Agreement Maximum, which disagreement may only be on the basis that the further Forecast does not accord with the Financing Plan and not on any other basis, the Province and OPG will discuss and address any inaccuracies in the Financing Plan to the reasonable satisfaction of both parties, and the revised Protection Agreement Maximum will be revised accordingly.

5.02 Representations and Warranties of the Province[16]

The Province hereby represents and warrants that:

(a) the Province has the necessary power, authority and capacity to execute and perform its obligations under this Agreement;

(b) the execution, delivery and performance by the Province of this Agreement does not and will not result in a violation of any applicable law;

(c) all necessary action has been taken by the Province including, without limitation, under sections 5(2) and 5(3) of the Act and section 28(1.1) of the *Financial Administration Act*, R.S.O. 1990 c. F. 12, to authorize the execution and delivery of this Agreement by the Province and the performance by the Province of its obligations hereunder; and

(d) this Agreement has been duly authorized, executed and delivered on behalf of the Province and is a legal, valid and binding obligation of the Province, enforceable against it in accordance with its terms.

[14] Deleted by OPG. Province to consider.
[15] Deleted by OPG. Province to consider.
[16] Province to consider OPG's request for these representations. Does the Province make these sorts of representations in a commercial agreement? To the extent that the Province makes a statement (such as 5.02(d)) that is not caveated by the usual considerations applicable to a Crown obligation, the parallel rep requested in the Protection Agreement could be held out as a misstatement and itself provoke a "Protection Event" – suggesting that these sorts of "nice to have" reps from the Province will be more work (and potentially dangerous) than they are worth.

ARTICLE VI
ELECTION[17] TO ASSUME APPROVED OBLIGATIONS[2][18]

6.01 Election by the Province

At any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor. To make such election, the Province shall duly complete and deliver to the FSM a notice in the form of Exhibit A (an "**Election Notice**"), which in turn will set forth the form of agreement (an "**Assumption Agreement**") setting forth the material terms and conditions under which the Province would assume and become obligated under each of the Obligations Secured. The Election Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Notice to the FSM (the "**Proposed Assumption Date**").

6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Notice to the FSM, the FSM shall provide the following information and documentation to the Province:

(a) a summary of the amounts that will be owing under all Obligations Secured as of the Proposed Assumption Date, together with a detailed schedule setting out the dates on which such amounts will become due and payable under the Obligations Secured;

(b) a summary of the rights arising under the Obligations Secured that permit the Financing Entity to assign the Obligations Secured to the Province, including details regarding any conditions precedent to such assignment and the related assumption becoming effective and any notices, filings, consents or other actions that will be required in order to implement and effect such assignment and assumption;

(c) current versions of all documentation under which the Obligations Secured arise;

(d) copies of all correspondence exchanged between OPG, as the FSM, or the Financing Entity, on the one hand, and any Specified Creditor, Rating Agency or the Indenture Trustee, on the other hand, in each case that may reasonably be considered to be material to the assumption and performance of the Obligations Secured by the Province;

[17] Province to consider OPG's proposal to move Art VI to the Protection Agreement. The approach taken originally was motivated by the desire to keep the details and plumbing out of the "external" document. If we move toward putting all of this into the Protection Agreement, it will raise additional drafting issues (e.g., we will have to have a parallel "Breach Event" concept in the Protection Agreement that will deal with these sorts of undertakings and allow for a suspension of the Limited Guarantee), but should otherwise be fine in principle.

[2][18] Note to Province/Blakes: Article 6 to be moved and merged with Article 6 of the Change of Law Protection Agreement with appropriate revisions. It is more appropriate in that agreement. See also the comments in Article 6 of the Change of Law Protection Agreement.

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement; and

(f) the form of Assumption Agreement in respect of the assignment and assumption of all Obligations Secured is attached as Exhibit E to the Change of Law Protection Agreement.[3][19]

6.03 Settlement of Terms

Within 20 Business Days following receipt by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it will proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province intends that assignment and assumption will be effected, which may not be earlier than the Proposed Assumption Date. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement, which will specify such date as the "Assumption Closing Date" for the purposes thereof.

6.04 Cooperation to Implement the Assignment and Assumption

The FSM shall cooperate with the Province and will [use commercially reasonable efforts to][20] cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.[4][21]

6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, the FSM will use commercially reasonable efforts to cause the Financing Entity to, [use commercially reasonably efforts to] ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts~~; provided that, this Section 6.05 shall not apply to any Obligations Secured~~, other than to the extent of payment obligations arise under

[3][19] Note to Province: A form of global Assumption Agreement for all Obligations Secured is required. It is impractical to have an assumption agreement for each type of Obligation Secured. Province: We can be guided by OPG on this, but it seems simplistic to think that the same assumption agreement will work for swaps, debt and service obligations. Ultimately, this is a mechanics point.

[20] Province to consider scope of commitment.

[4][21] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.

market standard mark-to-market payment terms and conditions included on a commercially reasonable basis under a Derivative Agreement.[522]

ARTICLE VII
BREACH EVENTS

7.01 Breach Events

"**Breach Event**" shall mean the occurrence or existence of any one or more of the following:

(a) a default in the performance, or breach, of any covenants of the FSM under this Agreement [which continues for sixty (60) days after written notice by the Province to the FSM of such default or breach][23];

(b) any representation or warranty made by the FSM in this Agreement, any certification made in a Process Certificate, or any certification made in a certificate contemplated by Section 4.03 of the Change of Law Protection Agreement, proves to be incorrect on the date made [and, if curable, is not cured within sixty (60) days after written notice by the Province to the FSM of such misrepresentation][24]; or

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager. **[NTD: The FSM is a statutory role and OPG can only be removed as FSM by the Province.]**[25]

7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to the FSM, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, the FSM and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

[522] Note: The Trust Indenture will need to include a clause providing that the obligations of the Financing Entity to the Indenture Trustee and the Noteholders may be assigned to the Province in accordance with an assumption agreement, substantially in the form set out in an exhibit to the Trust Indenture. **[NTD: The form of Assumption Agreement shall be an exhibit to the Change of Law Protection Agreement (consistent with our comment to move Article 6 here to the Change of Law Protection Agreement). We will add the following to the MTI to otherwise address your comment: (i) Specified Creditors will be required to acknowledge the rights of the Province to assume the Obligations Secured pursuant to Sections 5.01(f) and 5.03(b) of the MTI, and (ii) we will add language in section 11.01 of the MTI that allows the Indenture Trustee to enter into the global Assumption Agreement without the consent of Specified Creditors.]**

[23] Province to consider proposed 60 day cure period. This is an extraordinary suggestion and if accepted would greatly weaken the Province's ability to address a problem in the unlikely event one comes up with OPG.

[24] Extraordinary suggestion by OPG – weakens Province.

[25] This should be considered. If true, it is unclear why that should make a difference – in terms of enabling the Province to cut-off its forward obligations in the event of a fundamental problem or circumstance (change of control) that leads to a replacement of OPG as FSM.

Hi James, Jonathan,

At this morning's 8am meeting with Energy, Deputy Thompson requested a few small tweaks to the submission prior to Minister Sousa's briefing tomorrow. Please find attached, a clean and track-change version of the updated submission.

In addition to the Deputy's comments, we have also updated the peak debt estimate (and associated IOD costs) to reflect the latest information provided by the Ministry of Energy.

Happy to discuss.

Subject: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.

- Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.

- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.

- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

James Strang

Provincial Protection and Assurances Agreement

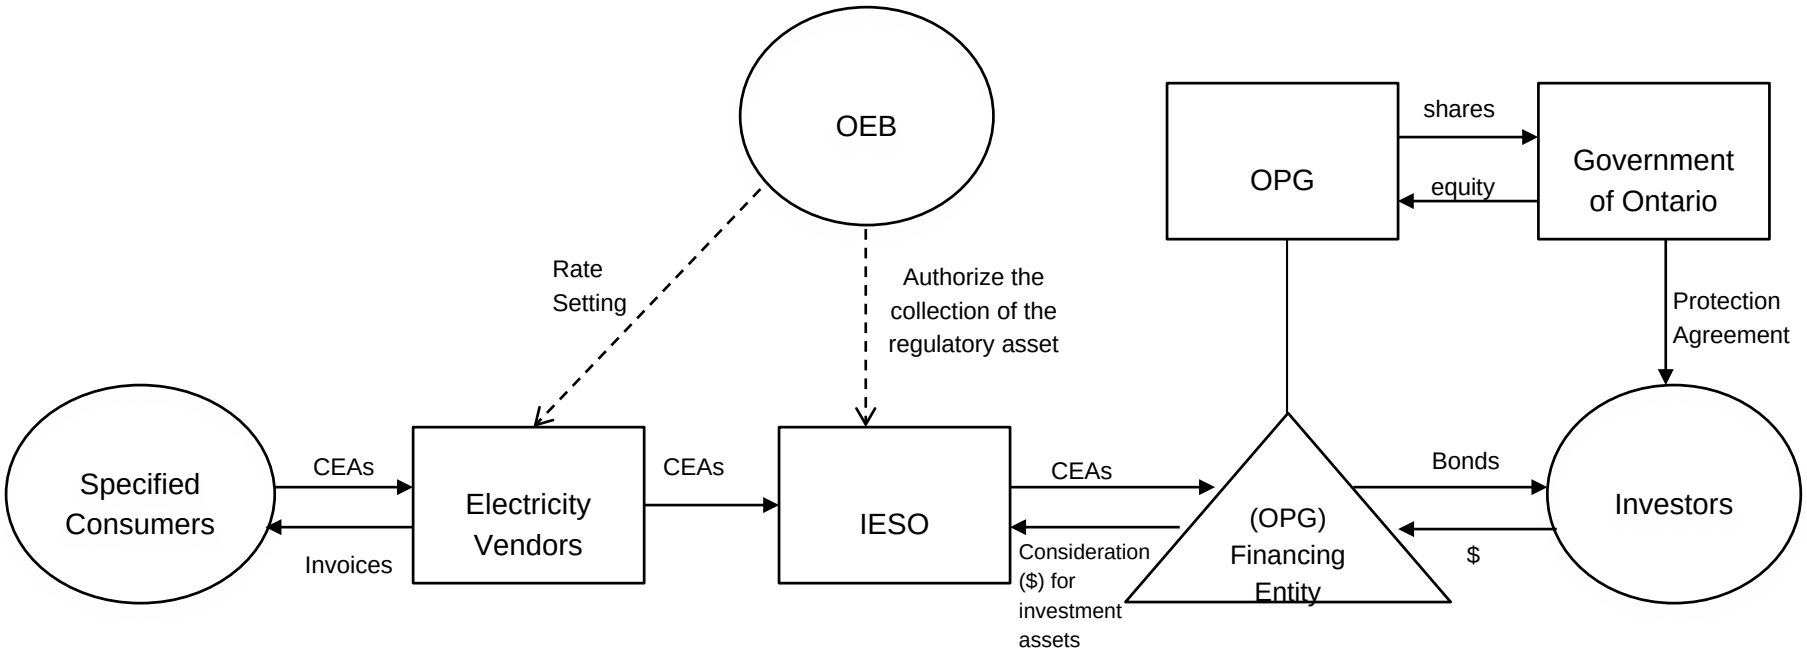
September 20, 2017

CONFIDENTIAL & COMMERCIALLY SENSITIVE

Background

- The *Ontario Fair Hydro Plan Act, 2017,* enables the IESO to establish a variance account to record the deferral amounts from the difference between collections from current ratepayers and payment obligations to generators and conservation, and to create a regulatory asset to recover the balance in the variance account
    - The IESO can then sell the regulatory asset – the right to recover those deferred amounts from specified consumers in the future
    - OPG, as the Financial Services Manager, is authorized to establish one or more financing entities that may incur funding obligations
    - The Financing Entity will purchase the regulatory asset, effectively financing the shortfall in current rates not received from ratepayers
- To purchase the regulatory asset from the IESO, the Financing Entity must borrow a portion of the funds from capital markets (planned to be 51%, with other financing to come from OPG and, indirectly, the Province)
    - OPG's financial advisors have indicated that without adequate protection against legislative, judicial and organizational risk, the debt would not be financeable or would result in higher financing costs, to be passed on to ratepayers
- OPG has requested that the Province provide a protection agreement that supports the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would take over the funding obligations of the Financing Entity

Global Adjustment Refinancing – Roles and Responsibilities



Note: CEAs are “clean energy adjustments”

Provisions Under the Act

- As contemplated under the Act, OPG is requesting a Provincial commitment to support the planned Financing Entity's ability to borrow to finance the deferral of global adjustment amounts in certain limited circumstances
- Under s.5(3) of the OFHP Act,
  - *The LGIC may by order,*
    - *Authorize the Minister (of Energy) and the Minister of Finance, acting together on behalf of the Province,*
      - *To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest, and*
      - *To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity*
    - *Specify terms and conditions that must be included in any guarantee or indemnity given by the Minister and the Minister of Finance*
    - *Specify a maximum liability for the guarantee or indemnity*

Provincial Protection Agreement

- OFA, the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances:
  - Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the *Ontario Fair Hydro Plan Act, 2017*, or new legislation that adversely affect the Financing Entity
  - A court decision that declares the rights of the Financing Entity to recover amounts from ratepayers to be invalid or unenforceable
  - Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to recover amounts related to funding obligations.
- In the event the protection agreement is triggered, the Province will be required to pay the obligations of the Financing Entity including principal and interest payments on debt issued to date, any payments to derivatives counterparties and any outstanding payments to service providers
  - The Province could potentially service the debt and other obligations and could replace OPG as the financial services manager
- The protection agreement may need to be revised at a future date, or approval from the Province may be required, if the financing entity must access US market as investors in that market will likely require additional compensation if the assumption agreement is triggered

Considerations

- If a protection agreement is not provided, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from the IESO or the cost of the financing will be potentially materially greater than it otherwise would be
- If a protection agreement is provided, the Province takes on a contingent liability
  - The creation of a contingent liability will not currently affect net debt
  - The amount of the contingent liability will increase over the duration of the Fair Hydro Plan and peak at an estimated $20B of debt (final cost forecasts TBC), including principal and accumulated interest
- In the event the protection agreement is triggered, the Province's net debt will most likely increase by an amount equal to the contingent liability at that point in time
  - The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it has assumed under the protection agreement
  - IOD expense may increase between $0.8B and $1.0B per annum, assuming the protection agreement is triggered when debt is at its peak, and depending on the interest rate at which the Financing entity will be able to borrow at

Proposed Minute

The Ministry of Finance and Ministry of Energy request that Treasury Board/Management Board of Cabinet:

a) Approve that the Minister of Finance and Minister of Energy provide a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two ministers acting together may determine;

b) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the *Ontario Fair Hydro Plan Act, 2017* that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

   i. to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and

   ii. to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

Hi

As a an addendum to my previous email, Gadi suggests that we limit the range from 4.2% to 5.0% and ignore the 3.5% which appears to be too low based on current rates. As such the range in the TB submission will be $0.8B to $1.0B.

Pls let me know if that works from your perspective.

Thanks

Hi Ron and John

The previous IOD impact estimate that was also shared with the OAG assumed interest rates of 5.0, 4.2 and 3.5. At this point in time I don't believe there's much value added in a detailed assessment, rather a simple application of the max and the minimum to the peak debt of $20B should suffice. This translates into an IOD range of $0.7B to $1.0B (the reference is to be found on page 3 of the attached).

Thanks and pls let me know if this makes sense.

Hi Ken,

Attached is the consolidated comments on the TBS analyst's note. At this morning's meeting with Energy, MOF, and TBS, Steen confirmed that latest estimate for peak debt is $20B (not $24 to $26B as previously estimated). I expect this will impact our IOD estimate – would you be able to provide a revised estimate for IOD? It will need to be included in an updated submission for the Minister tomorrow.

Hi Gadi,

Attached for your review, is the TBS Assessment note, with comments and track changes from Energy (Steen's group), MOF Legal (Malle) and OFA (Ken and myself). We've also responded to a few of the analyst's questions below in red.

The only comment from Energy that will require follow-up is Steen's cost estimates (he recalls peak debt for the program at $20B whereas we have used the $24B to $26B estimate). I'll follow up with Energy and OFA staff on this.

Hi Malle,

Thank you for your thorough and thoughtful review.

Just getting back to you now on your two comments:

- The TB analyst has asked whether to minute the attachment or to include key parameters of the term sheet in the minute – I'm inclined to stick with referring to the term sheet in the minute. The language in the term sheet was "litigated" enough that I fear misrepresenting any parameters when they are summarized for the purpose of a minute. I agree with you that recommending TB approve the Ministers entering into the agreement, based on the current term sheet, would remove the possibility of subsequent revisions to the term sheet.
- Attaching a draft of the OIC to refer to in the minute – I don't think this is required, nor is it typically done, but we could certainly provide the draft to James for his reference.

Here are my comments on the analyst's note.

p. 1 Recommendations
- second recommendation, remove "to" after "Ministry of Energy"
- third recommendation, should this refer to the draft OIC that is attached. Don't know whether the TB submission itself references a draft OIC being attached?

p. 2 "What would trigger the protection agreement?"
- second bullet re: court decision, change wording from "invalid or unenforceable" to "invalid or ultra vires" to match most recent version of term sheet
- third bullet – the third event has now been inserted into the term sheet as "there is a

change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interst so that it can pay its funding obligations.

p. 4 See the comments in the proposed first minute asking whether there is a desire to minute the attachment or to include key parameters in minute only given the request for a "subject to revisions provision". I am not sure how we wish to answer this question. Putting in only key parameters would broaden the 2 Ministers' discretion to agree to revisions to the term sheet. Possibly if we were to do this, are the essential parameters really the "Protection Events", and "Obligation re: pay specified claims? Comments on this?

p. 4 Regarding second minute – should it reference a draft form of OIC attached?

Regarding the questions posed by the analyst, here is a start on some of those.

1. Third trigger is in now.
2. Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt [need description of interest rate swaps and what might be done here – fix floating rate debt – anything else?]
3. The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period….
4. The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Possibly if we were to do this, are the essential parameters really the "Protection Events", and "Obligation re: pay specified claims? Comments on this?

p. 4 Regarding second minute – should it reference a draft form of OIC attached?

Regarding the questions posed by the analyst, here is a start on some of those.

1. Third trigger is in now.
2. Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt [need description of interest rate swaps and what might be done here – fix floating rate debt – anything else?]
3. The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period….
4. The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Hi James, Jonathan,

At this morning's 8am meeting with Energy, Deputy Thompson requested a few small tweaks to the submission prior to Minister Sousa's briefing tomorrow. Please find attached, a clean and track-change version of the updated submission.

In addition to the Deputy's comments, we have also updated the peak debt estimate (and associated IOD costs) to reflect the latest information provided by the Ministry of Energy.

Happy to discuss.

Thanks, Anna

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.
    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.
- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but

may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

James Strang

PROVINCIAL PROTECTION AND ASSURANCES AGREEMENT

1. PROGRAM/BRANCH: Ontario Financing Authority

2. SUMMARY OF REQUEST:

Provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by one or more financing entities established by Ontario Power Generation Inc. pursuant to s. 22 of the *Ontario Fair Hydro Plan Act, 2017* ("OPG Financing Entities"), that, under certain circumstances as set out in the proposed arrangements the Province would pay when due amounts in respect of the obligations of the Financing Entity.

The Ministry of Finance and Ministry of Energy request that Treasury Board/Management Board of Cabinet:

(a) Approve that the Minister of Finance and Minister of Energy, on behalf of Ontario, provide a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two ministers acting together may determine;

(b) Recommend that Cabinet approve an Order in Council, to be made under subsection 5(3) of the *Ontario Fair Hydro Plan Act, 2017* that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

3. BACKGROUND:

On March 2, 2017, the government announced its proposed Ontario's Fair Hydro Plan (OFHP) to lower electricity bills by 25%, on average, for a typical residential consumer, and holding increases to the rate of inflation for four years. As part of OFHP, it was announced that a portion of the Global Adjustment (GA) would be refinanced in order to fairly allocate costs across present and future generations of electricity consumers with respect to investments made to decarbonize (i.e., phase-out coal) and modernize Ontario's electricity system (i.e., build and maintain a reliable electricity system). This would be achieved by spreading the cost of electricity investments so that they are shared proportionately by future consumers who cause a need for, or benefit from, the province's multi-billion dollar investments in electricity infrastructure.

To this end, immediate rate relief to eligible ratepayers is provided by deferring and spreading the cost recovery of electricity investments over a longer period of time. Under forecasts provided by the Ministry of Energy at the time of the OFHP announcement in March, the immediate reduction would be about $2.5 billion per year on average over the first ten years. The Ministry of Energy will report back to TB/MBC in fall 2017-18 with an update on out-year projections following analysis on rate applications before the Ontario Energy Board.

Under the *Ontario Fair Hydro Plan Act, 2017,* (the "OFHPA"), which enables GA Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap resulting from the reduction in amounts collected over four years. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset". The OFHPA provides for the IESO to sell all or a portion of the regulatory asset; i.e., the right to recover those deferred amounts from specified consumers in the future. Under the OFHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the OFHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly, the Province) from the capital markets; however, OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

OFA, the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances:

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the OFHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations;
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or unenforceable; or
- Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations.

In the event the protection agreement is triggered, the Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers.

In addition, the Province would also have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged.

Section 28 of the *Financial Administration Act (FAA), 1990* requires that the Minister of Finance's approval is obtained before a ministry seeks an Order in Council (OIC) to enter into a guarantee or indemnity that would increase the contingent liabilities of Ontario. The Minister of Finance has given Section 28 approval for the Minister of Energy, together with the Minister of Finance to recommend the OIC to Cabinet and will, acting together with the Minister of Energy, determine the terms and conditions of and execute the proposed guarantee/indemnity in accordance with the OIC, if approved.

5. ADMINISTRATIVE IMPACTS:

To be managed by existing staff.

6. RISKS:

If the protection agreement is not approved, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from IESO or the cost of the financing will be potentially materially greater than it otherwise would be.

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of the OFHP and peak at an estimated $20B of debt (final cost forecasts TBC), including principal and accumulated interest.

In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

While it is difficult to estimate the actual impact to the Province's interest on debt (IOD) expense, the worst case scenario would be the Province assuming the debt at its peak. If so, IOD expense may increase between $0.8B and $1.0B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.

It is important to note that, if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (IOD expense) will depend on whether or not some portions of the OFHPA continue in some form, or not. If the payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used. Also, debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

7. COMMUNICATION PLAN

Key Messages

- Ontario's Fair Hydro Plan has resulted in the biggest electricity rate reduction in the history of our province.

- We have heard from Ontarians across the province that the price of electricity has risen too quickly: that's why we moved forward with a plan to ensure the costs are shared more evenly over the years ahead.
- Our government is following through on its commitment to balance the books as announced in the 2017 Budget, while continuing to make investments in priority areas such as electricity price relief.
- This agreement is a key step in lowering electricity costs province-wide as part of the Fair Hydro Plan.

Strategic Approach

- Low-profile, reactive and targeted to industry stakeholders and government employees, as necessary. Reactive messaging contingent on legislative changes only with back-pocket QAs to support as needed.
- Communications support will continue to be led by the Ministry of Energy.

8. RECOMMENDATION

The Ministry of Finance and Ministry of Energy request that Treasury Board/Management Board of Cabinet:

(a) Approve that the Minister of Finance and Minister of Energy provide a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such revisions that the two ministers acting together may determine;

(b) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the *Ontario Fair Hydro Plan Act, 2017*, that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

(i) to agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
(ii) to determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

The OFHPA provides for the IESO to sell all or a portion of the regulatory asset; i.e., the right to recover those deferred amounts from specified consumers in the future. Under the OFHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the OFHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly, the Province) from the capital markets; however, OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

OFA, the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances:

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the OFHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations;
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or unenforceable; ~~and~~ or
- Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations.

In the event the protection agreement is triggered, the Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers.

In addition, the Province would also have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged.

Section 28 of the *Financial Administration Act (FAA), 1990* requires that the Minister of Finance's approval is obtained before a ministry seeks an Order in Council (OIC) to enter into a guarantee or indemnity that would increase the contingent liabilities of Ontario. The Minister of Finance has given Section 28 approval for the Minister of Energy, together with the Minister of Finance to recommend the OIC to Cabinet and will, acting together with the Minister of Energy, determine the terms and conditions of and execute the proposed guarantee/indemnity in accordance with the OIC, if approved.

5. ADMINISTRATIVE IMPACTS:

To be managed by existing staff.

6. RISKS:

If the protection agreement is not approved, the Financing Entity would either be unable to raise sufficient financing from capital markets to purchase the regulatory asset from IESO or the cost of the financing will be potentially materially greater than it otherwise would be.

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of the OFHP and peak at an estimated $~~24B to $26~~20B of debt (final cost forecasts TBC), including principal and accumulated interest.

In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time. The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

While it is difficult to estimate the actual impact to the Province's interest on debt (IOD) expense, the worst case scenario would be the Province assuming the debt at its peak. If so, IOD expense may increase between $0.8B and $1.0~~3~~B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.

Commented [AS1]: Using updated forecast of peak debt at $20B and interest rate range of 4.2% to 5.0%

It is important to note that, if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (IOD expense) will depend on whether or not some portions of the OFHPA continue in some form, or not. If the payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used. Also, debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

7. COMMUNICATION PLAN

Key Messages

- Ontario's Fair Hydro Plan has resulted in the biggest electricity rate reduction in ~~Ontario's~~ the history of our province.

- We have heard from Ontarians across the province that the price of electricity has risen too quickly: ~~, which is~~ that's why we moved forward with a plan to ensure the costs are shared more evenly over the years ahead.

- This agreement is a key step in lowering electricity costs province-wide as part of the Fair Hydro Plan.

Strategic Approach

- Low-profile, reactive and targeted to industry stakeholders and government employees, as necessary. Reactive messaging contingent ~~upon~~ on legislative changes only with back-pocket QAs to support as needed.
- Communications support will continue to be led by the Ministry of Energy.

8. RECOMMENDATION

Subject: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.
    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.
- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.
- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

James Strang

IV. KEY COMMENTS AND CONSIDERATIONS

Under the ~~Ontario~~ *Fair Hydro Plan Act, 2017*, (~~O~~FHPA), which enables Global Adjustments (GA) Refinancing, the Independent Electricity System Operator (IESO) will ~~have~~ incur a cash shortfall, as the amounts collected from the consumers of electricity (e.g. the local distribution companies) will be reduced, but the amounts paid to the generators of electricity will remain at the market and/or contractual rates.~~a funding gap resulting from the reduction in amounts collected~~. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset".

The ~~O~~FHPA provides for ~~the~~ IESO to sell all or a portion of the Regulatory Asset (i.e., to sell the right to recover those deferred amounts from specified consumers in the future). Under the ~~O~~FHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the ~~O~~FHPA) will have the right, but not the obligation to purchase the regulatory asset, effectively financing the shortfall ~~in~~ generated by the reduction in current ~~rates not received from the~~for eligible ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity ~~must~~ will borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly the Province) from the capital markets.

OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a ~~change of law~~ protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

- Providing this~~, in a May 2017 TB/MBC item reviewing proposed FHPAOntario Fair Hydro Plan legislation,~~ through Provinci~~al~~e assurance and guarantee provisions~~,~~ was recommended in a May 2017 TB/MBC item reviewing proposed FHPA.

What would trigger the protection agreement?

Ontario Financing Authority (OFA), the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances (Appendix C provides the non-binding term sheet):

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the ~~O~~FHPA/related regulations or new legislation that materially and adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or ~~*unenforceable*~~*ultra vires*; and
- A change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that materially and , adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interest so that it can pay its funding obligations~~Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on~~

Commented [VC(2]: Not sure that this is consistent with OPG advice, and I'm not sure it matters

its investment interest such that it can pay its specified creditors, including making payments on its debt obligations.

Note: this third protection event is not included in the current draft of the term sheet agreed to by Ministry of Finance staff; however, OPG is expected to continue to negotiate for its inclusion. It has been included in the TB submission, but may be removed once negotiations are complete, prior to TB/MBC consideration of this item on September 26, 2017.]

….the third bullet isn't change of Law related?…

Commented [AS3]: May or may not be the result of a change of law.

Financial:

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability contingent liability would increase over the duration of Ontario's Fair Hydro Plan (OFHP) the OFHP and peak at approximately $20B an estimated $24B to $26B of debt (final cost forecasts TBC), including principal and accumulated interest.

Commented [HS(4]: This is inconsistent with the Aug 31 Submission

Thought the estimated debt # was lower?

- In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time, and depending on change, the province could incur an expense equivalent to the amount of the increase in the outstanding debt.
- The Province's interest payments will will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on related to derivatives agreements and for service providers that the Province will be required to make. The fiscal impact of the increased interest payments will depend on the circumstances of the change (e.g. will the amounts continue to be recovered from the ratepayers through the clean energy adjustment as provided for under the FHPA).

Financial (Risk) – In the event the protection agreement is triggered:

The Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers. This would likely have implications for the Province's fiscal plan and appropriation requirements.

- The Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time, and the Province may incur an expense equal to the amount of the debt.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. The worst case scenario would be the Province assuming the debt at its peak at which point interest on debt (IOD) expense could increase between $0.8B and $1.3B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.
- In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged. In addition, the Province would also have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

Commented [VC(5]: I understand this would require a change in legislation – may want to confirm with OFA.

The Ministries indicate that if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (Interest On Debt (IOD) expense) will depend on whether or not some portions of the

OFHPA continue in some form, or not.

- For example if the ~~If the~~ payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments, albeit not necessarily in the same fiscal period; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense as well as any continued impact of reduced electricity rates would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used.
- Debt incurred ~~to~~ for benefit the ratepayer could becomes the responsibility of the taxpayer.

APPENDIX A: PROPOSED MINUTE (UNDER DEVELOPMENT)

Approve the Ministries plan for implementing provisions of the ~~Ontario~~ *Fair Hydro Plan Act, 2017* to provide protection and assurance arrangements in respect of debts, obligations, securities or undertakings associated with investment interests acquired by entities established by Ontario Power Generation Inc. In particular, that under certain circumstances the Province would pay when due amounts in respect of the obligations of the Financing Entity (Established by OPG).

In this regard,

i) Authorize that the Minister of Finance and Minister of Energy provide a protection agreement, to be authorized by Order in Council under the ~~Ontario~~ *Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out non-binding term sheet – Provincial Protection and Assurances Indicative Term Sheet including in the TB/MBC Submission, (… minuting an attachment?…or include key parameters in minute only, given request for the subject to revisions provision…) and subject to such revisions that the two ministers acting together may determine;

ii) Recommend that Cabinet approve an Order in Council, in accordance with section 5 of the FHPA~~Ontario Fair Hydro Act~~, that authorizes the Minister of Finance and the Minister of Energy, acting together on behalf of the Province,

   a) ~~to~~ To agree to guarantee or indemnify any debts, obligations, securities or undertakings associated with an investment interest; and
   b) ~~to~~ To determine terms and conditions of the guarantee or indemnity and the maximum liability for the guarantee or indemnity.

Commented [AS6]: Recommend referring to the attachment rather than key parameters (limit potential revisions to the term sheet)

Commented [VC(7]: This agreement is being approved prior to the commercial agreements being finalized, so from an accounting perspective, we do not have updated opinions/memos from KPMG re: IESO and EY re: OPG. I have asked the two CFOs to provide me with a summary of the work they have completed with their respective auditors by EOD tomorrow and we can insert that in the memo.

We may also want to include a report back to the Board once the accounting analysis is complete. That may also be an issue for the final legal and financing risks.

Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council

	makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*), in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or (B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.
Obligation to Pay Specified Claims:	Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Subrogation:	Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent.

Optional Replacement:	At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement.
Term:	The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim. The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims. The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required.
FIPPA:	The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
Representations and Warranties:	To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.

Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.
Governing Law:	Province of Ontario.

APPENDIX E: PROFILE GLOBAL ADJUSTMENT SMOOTHING FOR RPP – ELIGIBLE ONLY – MAY 2017 TB/MBC SUBMISSION

Commented [HS(9]: Recommend that we don't include this reference.

The following graphic and table shows the multi-year profile of the planned approach to GA Smoothing that was included with the May 2017 TB/MBC Submission. The table below supports the Ministries assessment that the potential contingent liability under the protection agreement over the duration of the OFHP would peak at an estimated $24M to $26B (subject to final cost forecasts TBC), including principal and interest.

Commented [ESP10]: These numbers and the table below are pending finalization of costs forecasts – this work is still ongoing with OPG.

Notes: Assumes 30 year financing period and a nominal interest rate of 5% (compounded monthly). Ratepayer GA payments increase annually beyond 2020 such that the average monthly residential electricity bill increases by 6.3% per year to a maximum of $2.2 billion above the true cost of GA in any given year to cap repayment charges at around 10% of total bill. IESO forecast is based on IESO's revised OPO forecast as of February 2017. Includes the cancellation of LRP II and EFW, expansion of ICI. Does not include smoothed OPG rates. Above residential bill is based on a 750 kWh per month Toronto Hydro customer. Data shown above is by RPP period. Assumes RPP prices are adjusted in July 2021 instead of May 2021 to coincide with the end of the inflation cap. Fair allocation amounts subject to third party review.

APPENDIX F: OVERVIEW OF RISKS

Prepared by TBS staff, the following chart, as part of the May 2017 OFHP implementation update focused on the proposed legislation. It provides an overview of strategic (versus operational) risks to inform the approval/decision making process regarding the proposed legislation. Each part, GA Partial Refinancing & Electricity social programs, is a separate table.

The current submission, ~~Change of Law~~ Provincial Protection Agreement, is reflected under the risk "Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding" (page 16) as part of risk mitigating strategy.

Commented [VC(11]: Page 17 now –

I think you need to make it clear that this table has not been updated since May or just include the relevant page.

Global Adjustment Partial Refinancing:

Objective: Provide immediate ratepayer relief by capping rate increases at Consumer Price Index (CPI) for four years and refinancing GA costs over a longer period of time. Develop and implement a financing structure that increases provincial borrowing, but has no impact on annual provincial surplus/deficit.

Risk	Level of Risk	Risk Response
The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA smoothing being allocated to the province.	**Risk Likelihood:** Possible **Risk Impact:** Critical **Time Scale:** 6 to 12 months **Rationale:** • The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit. • The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met. • If a favourable legal and accounting treatment is not implemented, there could be a negative impact on the province's fiscal plan up to $2.5B in 2017-18 and rising. • Rating agencies and investors in the Province's debt may view all of the borrowing as an obligation of the Province, especially taking into account the nature of provincial guarantees, which could put pressure on the Province's credit rating and overall borrowing capacity. • Proposed structure may result in a negative response from Ontario Auditor General (OAG) due to previous concerns regarding recognition of rate regulated assets and liabilities. The AG has already expressed concerns regarding the accounting treatment on the IESO's books which could lead to a qualification of the Province's consolidated financial statements. • Initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards.	Risk can be mitigated by: • Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to justify structure of financial model and be utilized in discussions with the OAG. • Identify potential options to minimize the balance of rate regulated assets remaining on the IESO's books at fiscal year-end.

Risk	Level of Risk	Risk Response
Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province.	**Risk Likelihood:** Likely **Risk Impact:** Major **Time Scale:** More than 36 months **Rationale** • The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model). • The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels.	Risk can be mitigated by: • Development of a risk-based outlook, based on an analysis of scenarios, to determine the financial impact of potential changes in variables used in the financial models. • Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases) • Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans.
A legal determination that the Province is spreading the costs of GA financing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional.	**Risk Likelihood:** Medium **Risk Impact:** High **Time Scale:** Long-Term (More than 36 months) **Rationale** • If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments. • Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized. • Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI. • If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required.	Risk can be avoided by: • Imposition of a valid tax. • Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase). • Use of public funds to ease pressure. Risk can be mitigated by: • Improve forecasting model and close monitoring of costs and changes in variables built into model. • Analyze the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure. • Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court.

Risk	Level of Risk	Risk Response
Financing the costs of GA smoothing through OPG SPV/Trust and the volatility of interest rates may increase the cost of GA smoothing and/or require additional provincial funding.	**Risk Likelihood:** Possible **Risk Impact:** Moderate **Time Scale:** 12 to 24 months **Rationale** • The proposed structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on interest rate for borrowing, the amount of equity/funding the province may need to provide and the requirement for a provincial guarantee. • As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing. • If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047. • Beyond 2022, when steep increases are required, there will likely be additional pressure on the government to offset a part of the scheduled increases. • Risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's ratings and cost of borrowing.	Risk can be avoided by: • Province providing a potential guarantee for the cost of borrowing – however, would redirect risk back to the Province and negate benefits of proposed financing structure. Risk can be mitigated by: • Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost. • Proposed legislation to enable GA refinancing has been draft with input from third-party financers. Provides a 'narrow' provincial guarantee and ensuring that debt holders have the right of action against a future government to recover the amount outstanding including interest, fees, expenses and any damages.

Risk	Level of Risk	Risk Response
The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA Refinancing having a fiscal impact to the province.	**Risk Likelihood:** Possible **Risk Impact:** Critical **Time Scale:** 6 to 12 months **Rationale:** • The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit. • The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met. • If a favourable legal and accounting treatment is not implemented, there would be a negative impact on the province's fiscal plan of up to $2.5B in 2017-18 and rising. • Rating agencies and investors in Province's debt may view all of the borrowing as an obligation of the Province, which could put pressure on the Province's credit rating and overall borrowing capacity. • The proposed structure may result in an opinion from the Ontario Auditor General (OAG) considering previous concerns regarding recognition of rate regulated assets and liabilities. The OAG may take this into account when the provincial books are audited. • An initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. Additional analysis is still required.	Risk can be mitigated by: • Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to support discussions of the financial model with the OAG.

As well as if a protection agreement is called upon: o OPG, has advised that the Government of Ontario provide a change of law protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.	Risk can be mitigated by: • Providing a "provincial guarantee" for the cost of borrowing. • Drafting legislation to provide assurance to OPG and investors regarding the permanence of the GA refinancing framework and the authority of the legislation to pass the legislation; and enable the Province to guarantee borrowing of the trust in the event of a market disruption. • Specifics of a guarantee are dependent on the negotiation of agreements not yet initiated. Limiting triggers of a protection agreement to legislative (regulatory) changes and/or judicial decisions etc. • Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost.

Electricity social programs (Enhancing Electricity Support & Conservation Programs):

Objective: Shift funding of existing and new electricity support programs (RRRP, OESP, Affordability Fund, First Nations Credit) from rate to tax base.

Risk	Level of Risk	Risk Response
Uncertainty in forecasting due to exposure to changes and/or volatility (i.e. interest rates, electricity usage patterns, and distribution costs) may result in higher than anticipated fiscal impacts for the Province.	**Risk Likelihood:** Possible **Risk Impact:** Major **Timescale:** 12 to 24 months **Rationale:** • The energy sector is complex and a number of key assumptions used as inputs into forecasting model are variables/forecasts themselves, resulting in a high inherent risk that cost estimates are inaccurate. • Fiscal projection is highly dependent on factors which can fluctuate from year to year, including: o electricity usage; o distributions costs; and o consumer consumption patterns that may change due to extreme weather or other factors. • Fiscal projection is subject to knowledge of future distribution costs and dependent on submission of cost of service applications by Hydro One and LDCs. o Enhanced RRRP may create disincentives from the eligible LDCs towards productivity and performance improvements and/or cause ineligible LDC's to drive up distribution costs to gain access to program.	Risk can be mitigated by: • Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the forecasting models.

Okay, at 5%, the peak debt would be about $21bn according to EFB staff review but I think Steen was referring to a ballpark figure.

Hi

As a an addendum to my previous email, Gadi suggests that we limit the range from 4.2% to 5.0% and ignore the 3.5% which appears to be too low based on current rates. As such the range in the TB submission will be $0.8B to $1.0B.

Pls let me know if that works from your perspective.

Thanks

Hi Ron and John

The previous IOD impact estimate that was also shared with the OAG assumed interest rates of 5.0, 4.2 and 3.5. At this point in time I don't believe there's much value added in a detailed assessment, rather a simple application of the max and the minimum to the peak debt of $20B should suffice. This translates into an IOD range of $0.7B to $1.0B (the reference is to be found on page 3 of the attached).

Thanks and pls let me know if this makes sense.

Hi Ken,

Attached is the consolidated comments on the TBS analyst's note. At this morning's meeting with Energy, MOF, and TBS, Steen confirmed that latest estimate for peak debt is $20B (not $24 to $26B

as previously estimated). I expect this will impact our IOD estimate – would you be able to provide a revised estimate for IOD? It will need to be included in an updated submission for the Minister tomorrow.

Hi Gadi,

Attached for your review, is the TBS Assessment note, with comments and track changes from Energy (Steen's group), MOF Legal (Malle) and OFA (Ken and myself). We've also responded to a few of the analyst's questions below in red.

The only comment from Energy that will require follow-up is Steen's cost estimates (he recalls peak debt for the program at $20B whereas we have used the $24B to $26B estimate). I'll follow up with Energy and OFA staff on this.

Thanks, Anna

Subject: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.

    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.

- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.

- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. Okay, at 5%, the peak debt would be about $21bn according to EFB staff review but I think Steen was referring to a ballpark figure.

Hi

As a an addendum to my previous email, Gadi suggests that we limit the range from 4.2% to 5.0% and ignore the 3.5% which appears to be too low based on current rates. As such the range in the

TB submission will be $0.8B to $1.0B.

Pls let me know if that works from your perspective.

Thanks

Hi Ron and John

The previous IOD impact estimate that was also shared with the OAG assumed interest rates of 5.0, 4.2 and 3.5. At this point in time I don't believe there's much value added in a detailed assessment, rather a simple application of the max and the minimum to the peak debt of $20B should suffice. This translates into an IOD range of $0.7B to $1.0B (the reference is to be found on page 3 of the attached).

Thanks and pls let me know if this makes sense.

Hi Ken,

Attached is the consolidated comments on the TBS analyst's note. At this morning's meeting with Energy, MOF, and TBS, Steen confirmed that latest estimate for peak debt is $20B (not $24 to $26B as previously estimated). I expect this will impact our IOD estimate – would you be able to provide a revised estimate for IOD? It will need to be included in an updated submission for the Minister tomorrow.

Hi Gadi,

Attached for your review, is the TBS Assessment note, with comments and track changes from Energy (Steen's group), MOF Legal (Malle) and OFA (Ken and myself). We've also responded to a few of the analyst's questions below in red.

The only comment from Energy that will require follow-up is Steen's cost estimates (he recalls peak debt for the program at $20B whereas we have used the $24B to $26B estimate). I'll follow up with Energy and OFA staff on this.

Thanks, Anna

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.
    - Regarding the third trigger, is this in or out? If in, is there any

consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.

- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.

- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. IV. KEY COMMENTS AND CONSIDERATIONS

Under the ~~*Ontario*~~ *Fair Hydro Plan Act, 2017*, (~~O~~FHPA), which enables Global Adjustments (GA) Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap resulting from the reduction in amounts collected. The legislation enables IESO to record the under-collection of GA in a variance account, and deems this under-collected amount to be a "Regulatory Asset".

The OFHPA provides for ~~the~~ IESO to sell all or a portion of the Regulatory Asset (i.e., to sell the right to recover those deferred amounts from specified consumers in the future). Under the ~~O~~FHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG as the Financial Services Manager under the ~~O~~FHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly the Province) from the capital markets.

OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a ~~change of law~~ protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

- Providing this~~, in a May 2017 TB/MBC item reviewing proposed FHPAOntario Fair Hydro Plan legislation,~~ through Provinc~~ial~~ assurance and guarantee provisions~~,~~ was recommended in a May 2017 TB/MBC item reviewing proposed FHPA.

What would trigger the protection agreement?

Ontario Financing Authority (OFA), the Ministry of Finance and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances (Appendix C provides the non-binding term sheet):

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the ~~O~~FHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or ~~*unenforceable*~~*ultra vires*; and
- A change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interest so that it can pay its funding obligations~~[Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt obligations~~.

….the third bullet isn't change of Law related?…

Financial:

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of Ontario's Fair Hydro Plan (OFHP) ~~the OFHP~~ and peak at approximately $20B ~~an estimated $24B to $26B~~ of debt (final cost forecasts TBC), including principal and accumulated interest.

- In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

Financial (Risk) – In the event the protection agreement is triggered:

The Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers. This would likely have implications for the Province's fiscal plan and appropriation requirements.

- The Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. The worst case scenario would be the Province assuming the debt at its peak at which point interest on debt (IOD) expense could increase between $0.8B and $1.3B per annum (final cost forecasts TBC), depending on the interest rate at which the Financing Entity will be able to borrow at.
- In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged. In addition, the Province would ~~also~~ have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The Ministries indicate that if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (~~Interest On Debt (~~IOD~~)~~ expense) will depend on whether or not some portions of the OFHPA continue in some form, or not.

- For example if the ~~If the~~ payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used.

Commented [AS2]: May or may not be the result of a change of law.

Provincial Protections and Assurances

Indicative Term Sheet

Ontario Fair Hydro Plan Act, 2017

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

Change of Law Protection Agreement:	A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.
Obligor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indenture Trustee:	An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture.
Beneficiaries:	The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.
Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.
Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council

	makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*), in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or (B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.
Obligation to Pay Specified Claims:	Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Subrogation:	Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent.

Optional Replacement:	At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement.
Term:	The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim. The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims. The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required.
FIPPA:	The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
Representations and Warranties:	To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.

Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.
Governing Law:	Province of Ontario.

APPENDIX E: PROFILE GLOBAL ADJUSTMENT SMOOTHING FOR RPP – ELIGIBLE ONLY – MAY 2017 TB/MBC SUBMISSION

Commented [HS(6]: Recommend that we don't include this reference.

The following graphic and table shows the multi-year profile of the planned approach to GA Smoothing that was included with the May 2017 TB/MBC Submission. The table below supports the Ministries assessment that the potential contingent liability under the protection agreement over the duration of the OFHP would peak at an estimated $24M to $26B (subject to final cost forecasts TBC), including principal and interest.

Commented [ESP7]: These numbers and the table below are pending finalization of costs forecasts – this work is still ongoing with OPG.

Notes: Assumes 30 year financing period and a nominal interest rate of 5% (compounded monthly). Ratepayer GA payments increase annually beyond 2020 such that the average monthly residential electricity bill increases by 6.3% per year to a maximum of $2.2 billion above the true cost of GA in any given year to cap repayment charges at around 10% of total bill. IESO forecast is based on IESO's revised OPO forecast as of February 2017. Includes the cancellation of LRP II and EFW, expansion of ICI. Does not include smoothed OPG rates. Above residential bill is based on a 750 kWh per month Toronto Hydro customer. Data shown above is by RPP period. Assumes RPP prices are adjusted in July 2021 instead of May 2021 to coincide with the end of the inflation cap. Fair allocation amounts subject to third party review.

APPENDIX F: OVERVIEW OF RISKS

Prepared by TBS staff, the following chart, as part of the May 2017 OFHP implementation update focused on the proposed legislation. It provides an overview of strategic (versus operational) risks to inform the approval/decision making process regarding the proposed legislation. Each part, GA Partial Refinancing & Electricity social programs, is a separate table.

The current submission, ~~Change of Law~~ Provincial Protection Agreement, is reflected under the risk "Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding" (page 16) as part of risk mitigating strategy.

Global Adjustment Partial Refinancing:

Objective: Provide immediate ratepayer relief by capping rate increases at Consumer Price Index (CPI) for four years and refinancing GA costs over a longer period of time. Develop and implement a financing structure that increases provincial borrowing, but has no impact on annual provincial surplus/deficit.

Risk	Level of Risk	Risk Response
The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA smoothing being allocated to the province.	**Risk Likelihood:** Possible **Risk Impact:** Critical **Time Scale:** 6 to 12 months **Rationale:** • The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit. • The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met. • If a favourable legal and accounting treatment is not implemented, there could be a negative impact on the province's fiscal plan up to $2.5B in 2017-18 and rising. • Rating agencies and investors in the Province's debt may view all of the borrowing as an obligation of the Province, especially taking into account the nature of provincial guarantees, which could put pressure on the Province's credit rating and overall borrowing capacity. • Proposed structure may result in a negative response from Ontario Auditor General (OAG) due to previous concerns regarding recognition of rate regulated assets and liabilities. The AG has already expressed concerns regarding the accounting treatment on the IESO's books which could lead to a qualification of the Province's consolidated financial statements. • Initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards.	Risk can be mitigated by: • Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to justify structure of financial model and be utilized in discussions with the OAG. • Identify potential options to minimize the balance of rate regulated assets remaining on the IESO's books at fiscal year-end.

Risk	Level of Risk	Risk Response
Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province.	**Risk Likelihood:** Likely **Risk Impact:** Major **Time Scale:** More than 36 months **Rationale** • The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model). • The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels.	Risk can be mitigated by: • Development of a risk-based outlook, based on an analysis of scenarios, to determine the financial impact of potential changes in variables used in the financial models. • Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases) • Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans.
A legal determination that the Province is spreading the costs of GA financing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional.	**Risk Likelihood:** Medium **Risk Impact:** High **Time Scale:** Long-Term (More than 36 months) **Rationale** • If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments. • Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized. • Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI. • If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required.	Risk can be avoided by: • Imposition of a valid tax. • Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase). • Use of public funds to ease pressure. Risk can be mitigated by: • Improve forecasting model and close monitoring of costs and changes in variables built into model. • Analyze the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure. • Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court.

Risk	Level of Risk	Risk Response
Financing the costs of GA smoothing through OPG SPV/Trust and the volatility of interest rates may increase the cost of GA smoothing and/or require additional provincial funding.	**Risk Likelihood:** Possible **Risk Impact:** Moderate **Time Scale:** 12 to 24 months **Rationale** • The proposed structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on interest rate for borrowing, the amount of equity/funding the province may need to provide and the requirement for a provincial guarantee. • As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing. • If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047. • Beyond 2022, when steep increases are required, there will likely be additional pressure on the government to offset a part of the scheduled increases. • Risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's ratings and cost of borrowing.	Risk can be avoided by: • Province providing a potential guarantee for the cost of borrowing – however, would redirect risk back to the Province and negate benefits of proposed financing structure. Risk can be mitigated by: • Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost. • Proposed legislation to enable GA refinancing has been draft with input from third-party financers. Provides a 'narrow' provincial guarantee and ensuring that debt holders have the right of action against a future government to recover the amount outstanding including interest, fees, expenses and any damages.

Risk	Level of Risk	Risk Response
The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA Refinancing having a fiscal impact to the province.	**Risk Likelihood:** Possible **Risk Impact:** Critical **Time Scale:** 6 to 12 months **Rationale:** • The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit. • The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met. • If a favourable legal and accounting treatment is not implemented, there would be a negative impact on the province's fiscal plan of up to $2.5B in 2017-18 and rising. • Rating agencies and investors in Province's debt may view all of the borrowing as an obligation of the Province, which could put pressure on the Province's credit rating and overall borrowing capacity. • The proposed structure may result in an opinion from the Ontario Auditor General (OAG) considering previous concerns regarding recognition of rate regulated assets and liabilities. The OAG may take this into account when the provincial books are audited. • An initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. Additional analysis is still required.	Risk can be mitigated by: • Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to support discussions of the financial model with the OAG.

Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding.	**Risk Likelihood:** Possible **Risk Impact:** Major **Time Scale:** 12 to 24 months **Rationale** • The proposed borrowing structure will be reviewed by credit agencies to allow OPG to borrow in the open market. As well as if a protection agreement is called upon: o OPG, has advised that the Government of Ontario provide a change of law protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.	Risk can be mitigated by: • Providing a "provincial guarantee" for the cost of borrowing. • Drafting legislation to provide assurance to OPG and investors regarding the permanence of the GA refinancing framework and the authority of the legislation to pass the legislation; and enable the Province to guarantee borrowing of the trust in the event of a market disruption. • Specifics of a guarantee are dependent on the negotiation of agreements not yet initiated. Limiting triggers of a protection agreement to legislative (regulatory) changes and/or judicial decisions etc. • Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost.

Electricity social programs (Enhancing Electricity Support & Conservation Programs):

Objective: Shift funding of existing and new electricity support programs (RRRP, OESP, Affordability Fund, First Nations Credit) from rate to tax base.

Risk	Level of Risk	Risk Response
Uncertainty in forecasting due to exposure to changes and/or volatility (i.e. interest rates, electricity usage patterns, and distribution costs) may result in higher than anticipated fiscal impacts for the Province.	**Risk Likelihood:** Possible **Risk Impact:** Major **Timescale:** 12 to 24 months **Rationale:** • The energy sector is complex and a number of key assumptions used as inputs into forecasting model are variables/forecasts themselves, resulting in a high inherent risk that cost estimates are inaccurate. • Fiscal projection is highly dependent on factors which can fluctuate from year to year, including: o electricity usage; o distributions costs; and o consumer consumption patterns that may change due to extreme weather or other factors. • Fiscal projection is subject to knowledge of future distribution costs and dependent on submission of cost of service applications by Hydro One and LDCs. o Enhanced RRRP may create disincentives from the eligible LDCs towards productivity and performance improvements and/or cause ineligible LDC's to drive up distribution costs to gain access to program.	Risk can be mitigated by: • Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the forecasting models.

Hi

As a an addendum to my previous email, Gadi suggests that we limit the range from 4.2% to 5.0% and ignore the 3.5% which appears to be too low based on current rates. As such the range in the TB submission will be $0.8B to $1.0B.

Pls let me know if that works from your perspective.

Thanks

Hi Ron and John

The previous IOD impact estimate that was also shared with the OAG assumed interest rates of 5.0, 4.2 and 3.5. At this point in time I don't believe there's much value added in a detailed assessment, rather a simple application of the max and the minimum to the peak debt of $20B should suffice. This translates into an IOD range of $0.7B to $1.0B (the reference is to be found on page 3 of the attached).

Thanks and pls let me know if this makes sense.

Hi Ken,

Attached is the consolidated comments on the TBS analyst's note. At this morning's meeting with Energy, MOF, and TBS, Steen confirmed that latest estimate for peak debt is $20B (not $24 to $26B as previously estimated). I expect this will impact our IOD estimate – would you be able to provide a revised estimate for IOD? It will need to be included in an updated submission for the Minister tomorrow.

Hi Gadi,

Attached for your review, is the TBS Assessment note, with comments and track changes from Energy (Steen's group), MOF Legal (Malle) and OFA (Ken and myself). We've also responded to a few of the analyst's questions below in red.

The only comment from Energy that will require follow-up is Steen's cost estimates (he recalls peak debt for the program at $20B whereas we have used the $24B to $26B estimate). I'll follow up with Energy and OFA staff on this.

Thanks, Anna

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.
    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.
- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.
- Does the Province have any consideration/protection regarding the

subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

Hi James, Jonathan,

At this morning's 8am meeting with Energy, Deputy Thompson requested a few small tweaks to the submission prior to Minister Sousa's briefing tomorrow. Please find attached, a clean and track-change version of the updated submission.

In addition to the Deputy's comments, we have also updated the peak debt estimate (and associated IOD costs) to reflect the latest information provided by the Ministry of Energy.

Happy to discuss.

Hi Malle, I'd originally thought that we'd be briefing the Ministers soon, but I'm not sure given where the discussions have gone over the past couple of days whether that's the case anymore.

We have our regular working group meeting including the Deputies and all of the electricity agencies tomorrow morning where timing may become clearer, but I realize that doesn't help with your questions given Steve's travel schedule. Away from the timing, I think that your suggestions on content make sense.

I've added my colleagues at the OFA, as they may have heard more from Energy or OPG today. Anna could also check in with our DMO to see whether they have expectations around timing, but my feeling is that they're waiting to hear from us on recommendations.

Thanks,
Gadi

1. What date will the agreement be “dated as of”?

2. P. 1, fifth recital – Agree with changes to reference the final form of the Transaction Documents as described in Exhibit “A”. Regarding mechanics – to whom will OPG send the final forms and when and who will confirm to OPG on behalf of the Province that such Transaction Documents will constitute Reference Documentation? Is it necessary to include the phrase “and the Province has not objected to such forms” since the Province is not actually given a contractual right to object to the forms?

3. P. 1 6th recital – When is it expected that OPG will deliver the Financing Plan to the Minister of Energy as required under the statute? i.e. the final version of the financing plan. Will it be done by the time the Ministers are to be briefed on and requested to sign the Protection and Process Agreements. Is the Minister of Energy going to be acknowledging receipt of the Financing Plan? We understand that the Initial Forecast will be included in the Financing Plan? Is it a single dollar amount? And the Initial Protection Agreement Maximum will be the same dollar amount?

4. 2.01(b) and 2.02(a) and 3.05(a) – New definition of Material Effect inserted to cover

5. 2.02(a)(D) – think Province agrees to delete (D) since assumption election has been deleted.

6. 2.02(c) and (d) – think Province is agreeable to this too.

7. 2.02(b) – OPG obligation to notify Province of Breach Events and Program Breaches added

8. 3.01(a) – think an estimate is fine.

9. Footnote 2 – Will need to discuss Oslers’ email from last evening and interaction with the Process Agreement

10. 4.01(b) – Agree with deletion here because purpose is not to disagree based on inaccuracies in the Financing Plan but only with respect to the Forecast (which is contained in the Financing Plan)

11. 6.01 – Amendments to Breach Events to specifically reference in obligations related to “material effect” amendments

12. Footnote 3 - Agree that reference documentation related to term deal should be deleted now as there will not be time to finalize now.

CONFIDENTIAL AND PRIVILEGED LEGAL ADVICE – Nov 27, 2017

Process Agreement

1. OPG has moved the provisions respecting delivery of the Initial Financing Plan, Initial Forecast and Initial Protection Agreement Maximum into the recitals as actions that have taken place prior the Ministers executing the Process Agreement and Protection Agreement. They would like to add a list of the "reference" agreements, the Initial Financing Plan and Initial Forecast as exhibits to the Process Agreement. This doesn't work for a number of reasons including:
   - The authority for provincial staff to "not object to" and "confirm" these documents flows from the Ministers' power to determine the terms and conditions of the limited guarantee.
   - The agreements and financing plan will not be in final form at the time that OPG is hoping that the Ministers sign the Process Agreement and Protection Agreement so it is not possible to attach the final form then
   - This reduces flexibility for the Province in reviewing these documents and revises the approach that has already been agreed to through negotiation to date on numerous iterations of the process agreement .
   - The recitals are inaccurate as the Province doesn't have a role to "not object to the financing plan" in any case so it seems like OPG is trying to obtain some agreement on a point outside the parameters of the process agreement.
   - The Province's role as set out in 4.01(b) of the process agreement concerns how the Protection Agreement Maximum can be established: "the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the province, address any inaccuracies and inconsistencies so the reasonable satisfaction of the province and OPG and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.
   - Also, most likely the previously existing reference to the "no objection" to the Reference Agreements should be moved into the body of the agreement because it is not likely that these agreements will be in final form prior to the requested date for execution. This would be an amendment to 3.03 (a).

2. In general, would like to discuss the point whether the approach that certain documents (Reference (Reviewed) Agreements and the delivery of the Initial Forecast and subsequent Forecasts and Protection Agreement Maximum)

are delivered to the Province and will be accepted unless the Province objects or disagrees with them. Right now there is a 10 day period for disagreeing in writing with forecast and Maximum Protection Agreement Maximums. There is in 3.03(b) a 10 day period for Province to object to amendments to Reference Agreements. Is this an acceptable approach? The original approach was for the Province to positively confirm in writing acceptance or approval but this was revised a few drafts ago. The reason for the revision was based to a certain degree on the limited time that the Province has to review any of the Reference Agreements and as a result the defined term was changed as well. Do we need a bit more certainty around process here? To whom at the Province will these documents and who will make the decision that the province does not object?

3. 3.01 Process Certificate: OPG has significantly reduced the amount of information and its responsibilities under the process agreement and is proposing to only provide the Province with a certificate under 3.01 in the same circumstances that OPG is giving one to the dealers. The Province agreed to limit delivery of OPG's certificate under the Protection Agreement because dealers' counsel refused to agree to provision of a certificate in the case where funding obligations were amended (and the province agreed to a compromise position where notice of amendments is given to the province under the trustee indenture amendment provisions). OPG has now deleted delivery of that certificate to the Province under the process agreement too, which was never discussed or agreed to by the Province. In addition, it has narrowed the obligations for which a certificate is provided under the process agreement to the narrower category of Certified Primary Obligations – borrowing, master ISDA and other agreements above a $5million thresholds, etc. The Province agreed to a narrower circumstance in the Protection Agreement on the insistence of dealers counsel that there was too much uncertainty associated with when the guarantee applied and so these categories were delineated. Again, there was no discussion about so restricting the delivery of certificates under the Process agreement. The principle is quite different and the Process Agreement is about the province and OPG. In particular, think that the point about whether delivery of a certificate on an ISDA under the protection agreement was left open – if this is carried over to the process agreement too, then the Province will receive no information about swap transactions as part of a certificate.

4. 3.02 Acknowledgement – OPG added a provision in which Province acknowledges that OPG will provide a certificate to Indenture Trustee and that if there is a Suspension Notice, OPG agrees not to deliver any further certificates. In general, this provision seems ok, but OPG deleted the Suspension Notice Delivery provision which should be re-inserted with the specific range of suspension events.

5. 6.01 Election to Assume – Province needs to make decision as to whether to retain the right. Blakes has described the options as follows; include a defeasance right (which reduces costs of continued structure but requires additional issuance by Province to offset the financial entity's obligations) plus the obligation on OPG to include termination rights in other agreements. OR not pursue this assumption right further given the complexities and time pressures associated with it and entirely deleted the assumption right from the agreements or leave in the modified right in the knowledge that it is not likely effective or of any use because it is reliant upon any specific funding obligation including rights of assumption in the terms. There does not appears to be sufficient time to include an assumption right into the warehouse and current proposed term loan and exactly how it would work would be difficult to draft given that the Province wouldn't expect to sign up to all of the same covenants. Note deletion of obligation on OPG to cause Financing Entity to use commercially reasonable efforts to include assignment provisions in funding obligations

6. 2.02(c) – OPG inserted that its obligations are subject to OPG's obligation as FSM and as Manager. We had asked them to narrow this wording so that it identified any points at which their fiduciary or other obligation under those agreements might conflict with this agreement, but they didn't so the effect is that they could rely on this to say that in any particular case there is a conflict with their other role so they can't comply with their obligation to the province

7. 2.02(c) – OPG wants to reference that nothing in the Protection Agreement limits the obligations of the Province under the Indemnity Agreement to indemnify OPG. [If OPG breaches an agreement with the Province, then why should the Province indemnify OPG for any claim the Province has against it.]

8. 2.02(b)(iv) – OPG says they will not be aware of any event that with the passage of time or the giving of notice would be a Protection Event – we proposed adding "known to OPG" as if they do know something they should not go ahead and exercise redemption etc. rights.

Protection Agreement

1) **Process and Logistics**: Province would like to have time to review and settle agreements before executing any agreements.
2) **2.04 Protection Account**: Mechanics to be settled between Torys and Blakes.
3) **2**.08: This deletion is related to the deletion of the termination and suspension rights. The deletion is probably fine if the Province cannot eliminate the structure by assumption of the obligations upon a Protection Event.
4) **Article IV**: Approved Obligations: There are several major changes to this section:

a) **Introduction of the concept of "Certified Primary Obligations".** This is a new defined term that narrows the scope of when a certificate would need to be issued in order for the Limited Guarantee to attach to a particular obligation of the Financing Entity.
b) Certificate has only to be delivered "before the incurrence of a Certified Primary Obligation" which means that it could be almost simultaneous.
c) They have changed reference to content of certificate to Indenture Trustee (on behalf of bondholders, etc, other parties secured under trust indenture) to confirm that all certifications required by the Province have been provided instead of OPG confirming that all of its obligations to Province and internal requirements and processes in connection with adherence of Limited Guarantee have been done.
d) This is linked to another major change they have proposed to the Process Agreement – looks like they are reducing OPG's obligations to provide certificates to the Province to mirror those that OPG is providing to the Indenture Trustee. This is a significant point and reduces OPG's obligations under the Process Agreement quite a bit and was not discussed at last Tuesday's meeting.

5) **Article VI: Assumption**.
   a) Assumption right to be considered generally. Given the changes that have been made and the reality that OPG is not building this right into the initial documents means that there is limited prospect for the assumption right to be meaningful. Even if exercised with respect to some obligations, does not remove the structure in the event of a Protection Event because there will still be outstanding obligations that are not capable of being assumed, except where the Province is subject to negotiations with certain creditors who may not allow assumption without compensation.
   b) Subrogation rights have been deleted, but this is important to the Province to be able to subordinate to the rights in the collateral if the obligations are assumed under the Protection Agreement.
6) **Article VII: Indenture Trustee Matters**.
   a) The reps and warranties of the Indenture Trustee should conform to those in the Trust Indenture.
7) **Article VIII – Suspension of Adherence**. Tory's has significantly reduced the rights of the Province with respect to the Province's rights to suspend the adherence of the Limited Guarantee to new obligations. This relates to the Process Agreement. In previous versions the Province had a right to suspend based on a breach of the Process Agreement, and this has been carved back to a narrower right to suspend based on a breach in connection with an incurrence of a Primary Obligation. This needs to be revised to provide a link so that a breach of the Process Agreement can result in a suspension of the Limited Guarantee for new obligations going forward.

8) **Definition of “Refinancing”**. This should be linked to the Act and Regulations. The General Regulation allows for a Refinancing to include amounts incurred within 6 months prior to the maturity date of a funding obligation. Need to consider whether this could lead to any problems with amounts that are intended for a refinancing but then are not used to refinance such debt.

Thank you, Malle. Very important items which you've raised – I'll be sure to include.

My understanding is that the purpose of the briefing is to familiarize the three Ministers with the agreements, before they track for approval/signature at a later date. The briefing will include some context – i.e., term sheet approved at TB – a high-level description of the agreements, risks/considerations and next steps. Not sure who will lead – likely some combination of Energy, MOF Legal, OFA, and OPCD on the accounting considerations.

Thanks Anna. I think that we also should include comments about the informational update nature of the briefing, the fact that the agreements are still under negotiation, the status of timing of warehouse vs. public issue, the fact that rating agency comments have raised some issues, etc. So we agree with rewriting this deck. This was just a start from a legal perspective on the assumption that the agreements would have been final by now, which they are not.

Also, it would be helpful for us to know what the focus of the briefing is and who will lead it.

Hi all,

Here is a further follow up to the content of this slide deck. Given that the timing of the intended issuance has changed, i.e. warehouse vs term loan timing, the deck needs to be updated to reflect this. Also, it should reflect that the agreements are still under negotiation so it's an update and that there have been some issues raised about the "materiality" point in the protection event and that there would be another time for a further briefing once final. So think we should review the content carefully and revise accordingly.

Hi Sarah, Hilary,

Apologies for the urgent email, but we are seeking your input on a very short timeline. The attached deck was prepared by Blakes, with input from MOF Legal (in red text), for use at the Ministers' briefing tomorrow at noon re: the Provincial Protection Agreement for the OFHP. I'd like to have this track to each of our DMOs by 3pm today, for transmittal to MOs before eod.

Hilary – Energy's input is required on the context slide as well as third bullet on slide 6 (re: regulation that caps acceleration) – as well as throughout as you deem necessary. Furthermore, since OPG will be at the briefing, we should think about framing the risks slide (10) from both the Province's and OPG's perspectives.
Sarah – we have left a placeholder for accounting implications/risks on slides 9 and 10; however, we defer to OPCD on whether these slides are necessary. We are open to deleting them altogether and

just having OPCD/TBS to speak to these issues at the briefing if questions are raised.

Please provide your input by 2:00pm today, for me to consolidate. If you could please highlight your changes, that will assist me in consolidating. I'll copy each of you on the final product as it tracks up to MOF's DMO. I'll have our DMO share with TBS and Energy DMOs.

Thanks very much and happy to discuss.

Furthermore, since OPG will be at the briefing, we should think about framing the risks slide (10) from both the Province's and OPG's perspectives.
Sarah – we have left a placeholder for accounting implications/risks on slides 9 and 10; however, we defer to OPCD on whether these slides are necessary. We are open to deleting them altogether and just having OPCD/TBS to speak to these issues at the briefing if questions are raised.

Please provide your input by 2:00pm today, for me to consolidate. If you could please highlight your changes, that will assist me in consolidating. I'll copy each of you on the final product as it tracks up to MOF's DMO. I'll have our DMO share with TBS and Energy DMOs.

Thanks very much and happy to discuss.

Hi all,

Here is a further follow up to the content of this slide deck. Given that the timing of the intended issuance has changed, i.e. warehouse vs term loan timing, the deck needs to be updated to reflect this. Also, it should reflect that the agreements are still under negotiation so it's an update and that there have been some issues raised about the "materiality" point in the protection event and that there would be another time for a further briefing once final. So think we should review the content carefully and revise accordingly.

Importance: High

Hi Sarah, Hilary,

Apologies for the urgent email, but we are seeking your input on a very short timeline. The attached deck was prepared by Blakes, with input from MOF Legal (in red text), for use at the Ministers' briefing tomorrow at noon re: the Provincial Protection Agreement for the OFHP. I'd like to have this track to each of our DMOs by 3pm today, for transmittal to MOs before eod.

Hilary – Energy's input is required on the context slide as well as third bullet on slide 6 (re: regulation that caps acceleration) – as well as throughout as you deem necessary. Furthermore, since OPG will be at the briefing, we should think about framing the risks slide (10) from both the Province's and OPG's perspectives.
Sarah – we have left a placeholder for accounting implications/risks on slides 9 and 10; however, we defer to OPCD on whether these slides are necessary. We are open to deleting them altogether and just having OPCD/TBS to speak to these issues at the briefing if questions are raised.

Thank you, Malle. Very important items which you've raised – I'll be sure to include.

My understanding is that the purpose of the briefing is to familiarize the three Ministers with the agreements, before they track for approval/signature at a later date. The briefing will include some context – i.e., term sheet approved at TB – a high-level description of the agreements, risks/considerations and next steps. Not sure who will lead – likely some combination of Energy, MOF Legal, OFA, and OPCD on the accounting considerations.

Thanks Anna. I think that we also should include comments about the informational update nature of the briefing, the fact that the agreements are still under negotiation, the status of timing of warehouse vs. public issue, the fact that rating agency comments have raised some issues, etc. So we agree with rewriting this deck. This was just a start from a legal perspective on the assumption that the agreements would have been final by now, which they are not.

Also, it would be helpful for us to know what the focus of the briefing is and who will lead it.

Hi All,

Energy has asked for significant revisions to the deck – namely, pulling it up several levels, to a concise, plain-language overview – with the details in appendix. I'm going to work on turning around a version fairly quickly for everyone's review. Please stay tuned.

Thanks, Anna

Hi Toby

These reflect that changes we discussed yesterday and can be sent out subject to any comments from Mike and Carlos. However, as per my conversation with Malle and subsequently with Gadi, we are running out of time and need to come to a meeting of the minds with OPG on this issue.

To that extent perhaps we can move towards finalizing this issue sometime next week and in order to do so indicate in the covering email to OPG that we would like them to review the September 27th document from the perspective of what impacts on the integrity of the proposed accounting treatment and get back to us hopefully Monday.

That will provide us with a baseline that can be either accepted or tweaked within reasonable limits allowing the process to move forward. With regard to the "failsafe" it may be useful to mention in the covering email that we are open to making changes.

I would also request that we include if possible in the email that the incorporation documents of the Financing Entity include a clause that prohibits the FE from issuing debt that contravenes the terms of the Guaranty. This along with the attestation or certificate for each debt issue should in my opinion constitute a reasonable safeguard of the Province's interests. Not sure whether this will also impact on the integrity of the accounting but we won't know until we ask.

Thanks

Thanks for your response. We appreciate how busy you are and that you are reviewing the materials. We are planning to respond to OPG today.

We wanted to touch base with you again before we send the response because OPG had the question "Please also advise if the Province's accountants have reviewed the proposal." In their email to the Province so wanted to respond to that along the lines of the following if it's ok with you.

"The Province's accountants are involved in this process and are also reviewing the proposal."

Thanks.

Hi Cindy,

I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.

I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.

Thank you for your assistance – we know that you are pressed with many priority items.

[NOTE TO DRAFT: CONFIRM THAT TORYS IS REFERRING TO THE OFA/MOE PROPOSAL FROM SEPTEMBER 27TH.]

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

[There is minimal oversight and input from the Province so long as the pre-agreed scope and parameters are adhered to.]

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

[The proposal is that basic information regarding an incurrence will be provided to enable the province to (1) understand the nature and scope of the incurrence, to enable the Province to address ~~accounting, reporting and~~ internal governance considerations and (2) to be satisfied that the proposed incurrences are in-line with the pre-agreed parameters (the "~~Objectives~~Parameters"). The intention is not to curtail incurrences that follow the pre-agreed approach. The timing of the notice to the Province may be a point of discussion.]

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
[As the entity running the program, OPG will be expected to provide the province with information sufficient to enable the province to ~~achieve~~ make sure any incurrence falls inside the ~~Objectives~~Parameters. The delivery of a certificate in an agreed form, just prior to the time of the incurrence, is meant to create a brightline test for the financing entity's counterparties to know that, so long as the certificate has been delivered (even if it's inaccurate), the Province will be bound. As you suggest below, any inaccuracy will give rise to considerations between the province and OPG. The delivery of the certificate at the time of an incurrence is considered an important due diligence confirmation for the province.
What is the basis for E&Y expressing a reservation regarding the province having access to underlying information about the "approved obligations", which in turn will define the scope of the

province's own obligations if called upon under the change of law protection agreement (CLPA)?]
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
[Any surety in a similar circumstance would want to know the nature and extent of the obligations incurred and to be incurred. That information is intended to allow the province to meet the objectives. Please provide an alternative proposal that meets OPGs requirements and still provides adequate information for the Province.]
-the negative pledge with respect to the exercise of certain options on the debt
[The idea is that if there is optionality in favour of the financing entity, and the exercise would affect the payment profile under the CLPA, such an exercise following a Protection Event should not affect the Province's payment obligations. In effect, the payment schedule will crystalize and cannot be accelerated or extended once the province becomes obligated to pay, following a Protection Event.]
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement
[The Province needs to understand the overall credit picture of the financing entity since it will become a creditor (through subrogation) if it is called on to perform. Exclusions are narrowly defined and should be minimal in practice.]

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have.
[These checks and balances are in-line with the province not writing a "blank cheque" in relation to future incurrences. Prudent sureties would be expected to pursue the objectives - indeed to do less could be evidence of interdependence and non-arm's length terms, which presumably would be unhelpful to E&Y's analysis.] Please also advise if the Province's accountants have reviewed the proposal.
[The Province's accountants are involved in this process and are also reviewing the proposal~~The Province's accounting professionals are involved in this process, including in reviewing these responses~~]

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated.

[The OFHPA will involve very significant and complex financings. The process is intended to provide an appropriate level of third party enquiry given the size and scale of the financing program to the province and in order to ensure the issuances are within the Parameters. ~~meet the objectives~~] From our perspective, as drafted, OPG will likely have to seek Provincial approval
[No approval is contemplated or expected by the Province, except if the incurrence is outside of the pre-agreed boundaries.~~ The onus will be on the Province to review the summary materials provided by OPG and to identify any material departures from the pre-agreed approach to incurrences~~] on each debt issuance (which weakens the accounting as discussed above)
[An explanation of the relevant accounting principles that E&Y has expressed concern about would assist the province to understand E&Y'S concerns. ~~Is there an accounting statement or publication that elaborates on these matters?~~ Also, a detailed list of any particular troublesome requirements would be helpful, with drafting suggestions as appropriate] [The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. [From the dealers' perspective, the three listed requirements (namely, (1) quantum under the program limit

(2) delivery of the OPG certificate (3) absence of contrary notice from the Province) can be easily and objectively verified by the dealers. These process requirements should be reflected in the incurrence procedures as a check/balance at the relevant time, given that the province will not otherwise be directly involved in the incurrence process but will be obligated under the CLPA] Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. [As noted above, the three listed requirements can be easily and objectively confirmed by the dealers prior to a closing. inaccuracies or other failures within the certification process will not negate the Province's obligations] We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met.

[As noted, this due diligence check/balance is how the province will ~~meet the objectives~~ensure the issuances satisfy the Parameters. It is anticipated that the Ministers will see this process as significant to the exercise of their authorities under OFHPA 5(3). Ultimately, the Province will depend on OPG, which is why the delivery of a certificate, without being impugned by an accuracy, is the contemplated adherence condition - rather than making the confirmation of certificate accuracy a condition, which we assume would be unwelcome by the underwriters.] The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

[The Province wants an actual certificate to be delivered to it (not just the indenture trustee) as part of the closing process. Also, the program limit and failsafe disapproval notice are considered to be important safeguards for the province]

- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.
- [In the case of details not known at the time the OPG certificate is to be delivered (which will be expected to occur close to closing), it should be sufficient to indicate the process by which those details will be finalized. For example, it would be sufficient to say "interest rates to be set on or about [date] based on underwriting syndicate pricing indications".]

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- [The proposal uses the specific defined terms from the OFHPA and regulation, in order to tie back to the statute and appropriately narrow the scope to the obligations that are reasonably known to require protection from the province. Considerable thought has been given to the approach reflected in the province's proposal. The Province wishes to focus on each inclusion that requires the support arrangements, which should then be net of

available/free cash flows, set-offs, etc. Please provide specific comments on any specific items of concerns.]

- We'd like to understand the reason OPG's management fees have been excluded. [This is still an open question under consideration.] We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? [Under consideration] Please advise why taxes are being excluded?

[CRA does not require/is not entitled by law to the benefit of the protection arrangement. Please explain the logic of the request to include taxes]

- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.

[For the Province's support arrangement to apply to an obligation, the quantum of the obligation must be factored into the program maximum test. if the obligation is a contingent obligation, the province's obligations must be capped so that the amount of the cap can be factored into the program limit test]

- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

[In the interest of time, please provide any other detailed comments you may have on the September 27th version of the proposal as soon as possible]

Hi Cindy,

I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.

I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.

Thank you for your assistance – we know that you are pressed with many priority items.

Thanks Stephen for the clarification.

My objective in putting forward this suggestion was to eliminate any possibility of the FE issuing debt that may contravene the Protection Agreement (PA). As it stands, theoretically the FE can issue debt that falls outside the PA though it will not be guaranteed by the Province. The problem conceivably arises with regard to any debt issues that are very close to the line drawn by the PA and the consequent need for due diligence on the part of the Province on an issue by issue basis, all of which can be eliminated or at least alleviated by the incorporation of negative covenants.

Pity that it is not possible.

Thanks

Ken, it is not advisable to incorporate negative covenants in the FE's incorporation documents. That approach would raise *ultra vires* issues, which could cast doubt on the efficacy of particular debt issues. I was anticipating negative covenants in the Change of Law Protection Agreement. Hi Toby

These reflect that changes we discussed yesterday and can be sent out subject to any comments from Mike and Carlos. However, as per my conversation with Malle and subsequently with Gadi, we are running out of time and need to come to a meeting of the minds with OPG on this issue.

To that extent perhaps we can move towards finalizing this issue sometime next week and in order to do so indicate in the covering email to OPG that we would like them to review the September 27th document from the perspective of what impacts on the integrity of the proposed accounting treatment and get back to us hopefully Monday.

That will provide us with a baseline that can be either accepted or tweaked within reasonable limits allowing the process to move forward. With regard to the "failsafe" it may be useful to mention in the covering email that we are open to making changes.

I would also request that we include if possible in the email that the incorporation documents of the Financing Entity include a clause that prohibits the FE from issuing debt that contravenes the terms of the Guaranty. This along with the attestation or certificate for each debt issue should in my opinion constitute a reasonable safeguard of the Province's interests. Not sure whether this will also impact on the integrity of the accounting but we won't know until we ask.

Thanks

Hi Malle – thanks for the note -- when I left the call, I thought the plan was to proceed providing detailed comments to OPG – I don't think you should hold up that process for my review. I will review the documents, but can't commit to providing comments back today.

Thanks,

Cindy

Subject: RE: Response to OPG

Hi Cindy,

I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.

I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.

Thank you for your assistance – we know that you are pressed with many priority items.

Internal Draft: November 2, 2017

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**"), is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.

Pursuant to a Declaration of Trust dated as of ■, 2017, the FSM [established] the Financing Entity as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions at the time the Approved Obligation is incurred or amended.

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied in connection with the incurrence or amendment of an Approved Obligation, maintaining information related to the Program Agreement and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG, and of the Province in accordance with the Act and the OIC, have been done.

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to Section 5.01 of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation;

(c) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed disclosure document complies in all material respects with all securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum

(a) The initial Protection Agreement Maximum shall be determined by the Province prior to the initial issuance of the first Funding Obligation. The initial Protection Agreement Maximum will be confirmed by the Province by notice in writing to OPG, as the FSM.

(b) Not less than ■ Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province a forecast setting out OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the applicable Financing Plan (the "**Initial Forecast**"). In determining the initial Protection Agreement Maximum, the Province may have regard to (but not be bound by) the Initial Forecast.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**").

(d) Upon receiving an updated Forecast, the Province shall determine whether or not the Protection Agreement Maximum will be revised. In determining whether the Protection Agreement Maximum will be revised, the Province may have regard to (but not be bound by) such updated Forecast. Any determination by the Province to revise the Protection Agreement Maximum will be confirmed by setting out a new Protection Agreement Maximum in a written notice from the Province to the FSM and the Indenture Trustee, the delivery of which will be conclusive evidence that such new Protection Agreement Maximum will apply until it may be further so revised.

(a) Upon the occurrence of a Protection Event, the Indenture Trustee may provide a written demand, in the form attached as Exhibit A (a "**Payment Demand**") to the Province requiring the Province to pay the Approved Obligations owing from time to time by the Financing Entity to the Indenture Trustee as and when they become due and payable, without Acceleration. A Payment Demand will not be valid with respect to an Approved Obligation until the amount claimed becomes due and payable in respect of the Approved Obligation (without Acceleration) in accordance with the Trust Indenture and has not otherwise been paid by the Financing Entity.

(b) Following receipt of a valid Payment Demand under Subsection 2.01(a), the Province shall pay the amounts owing by the Financing Entity to the Indenture Trustee, on behalf of the applicable Beneficiaries, in respect of each Approved Obligation[2], in each case as and when the Approved Obligation becomes due and payable in accordance with its terms and on its scheduled, specified or determined payment date, as determined without regard to any Acceleration or rights of Acceleration arising under the Approved Obligation, in each case by the Province depositing or causing the deposit of the applicable payment amount into the Collection Account (the "**Limited Guarantee**"). For greater certainty, the Limited Guarantee will not apply to any amount or obligation of the Financing Entity that is not or does not arise under an Approved Obligation, including (i) any amounts that are or become payable as a result of the exercise of an option of the Financing Entity following a Protection Event, and [(ii) amounts required to be deposited by or on behalf of the Financing Entity into any Capital Account, Finance Reserve Account or a Supplemental Reserve Account.][3]

[2] Note: Under Subsection 5(3) of the Act, the Province can guarantee only obligations "associated with an investment interest". The guarantee in Section 2.01 of the draft agreement guarantees "Approved Obligations" which in turn relies on the definition of Primary Obligations. The connection between a Primary Obligation and an "investment interest" is therefore crucial. Unfortunately, the nexus is not straightforward. Blakes is considering how to more precisely connect these concepts.

[3] Note: OFA to confirm whether the Limited Guarantee will extend to require the Province to fill sinking fund and collateral accounts during the period when the Province is required to make payments. If not, then we will need to consider the impact on ratepayers and the potential impact on the CEA calculations, which will have been based originally on these deposits being made during particular reference periods.

(c) Except as expressly provided in this Agreement, the Province's obligation to provide and perform the Limited Guarantee shall be irrevocable, absolute and unconditional.

(d) Any amount payable by the Province under the Limited Guarantee in respect of an Approved Obligation that is not paid when required herein shall bear interest from the applicable due date until paid in full at the rate or rates expressed to be payable on the Approved Obligation.

(e) The right to deliver a Payment Demand and thereupon enforce the Limited Guarantee shall constitute the only remedy available to the Indenture Trustee under this Agreement. Under no circumstances shall the Province be obligated to pay or indemnify the Indenture Trustee or any Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

2.02 Gross-up

[All amounts payable by the Province under this Agreement shall be made free and clear of and without deduction for or on account of any present or future taxes, charges, fees, levies, duties or withholdings of any kind. If the Province is obliged to deduct or withhold an amount in respect of any such taxes, charges, fees, levies, duties or withholdings, then in such event the Province shall deposit into the Collection Account such additional amount as is necessary to ensure that the Indenture Trustee receives (on an after-tax basis, after payment of any and all income taxes on such additional amounts) an amount equal to the full amount otherwise due and payable in respect of the related Approved Obligation, net of any such taxes, charges, fees, levies, duties or withholdings.][4]

2.03 Absence of Set-off

The Province acknowledges and agrees that each payment to be made by the Province hereunder in respect of an Approved Obligation shall be made as required in whole, without application of any right of set-off and without regard to any equities as between or among any of the Province, the Beneficiaries and/or the Indenture Trustee.

2.04 Payment into Collection Account in Satisfaction

Notwithstanding the priority of payment requirements set forth in the Trust Indenture and any legal rule concerning the imputation of payments, the Indenture Trustee shall apply the full amount paid by the Province into the Collection Account in respect of an Approved Obligation to pay the corresponding amount due and payable to the applicable Beneficiaries under the Approved Obligation.[5] Upon a payment having been made by or on behalf of the Province into

[4] Province to advise on extension of a tax gross up. We assume this is necessary, although we have not discussed it specifically and it may be that we delete this provision on the basis that the determination of a tax gross up (and the Province's liability for it) will be based on the inclusion of that concept in the Trust Indenture itself.

[5] Note: This will need to operate in tandem with the Trust Indenture waterfall. The idea is that the Approved Obligations may not necessarily follow the sequence of the "payment waterfall" included in the Trust Indenture, and so amounts from the Province would need to operate independently. To be discussed with Torys.

the Collection Account in respect of an Approved Obligation, the amount so paid shall for all purposes be considered to have been applied to pay the applicable Beneficiaries and thereby reduce the amount due and payable under the Approved Obligation, whereupon an affected Beneficiary shall have no continuing rights, interests or entitlements (including rights as a secured party) in respect of the Approved Obligation to the extent so paid[6].

2.05 Certain Waivers

The Province hereby waives:

(a) any requirement, and any right to require, that any power be exercised or any action be taken against the Financing Entity or any Collateral for any of the Approved Obligations;

(b) all notices which may be required by applicable law to preserve any rights against the Province hereunder, including any notice of default, demand, dishonour, presentment and protest;

(c) diligence; and

(d) any defence based upon, arising out of or in any way related to any claim that any election of remedies by the Beneficiaries impaired, reduced, released or extinguished any rights that the Province might otherwise have had against the Financing Entity or any other surety.

The Province agrees that each such waiver is made with full knowledge of its significance and consequences and if any such waiver is determined to be contrary to any applicable law or public policy, such waiver shall be effective only to the maximum extent permitted by applicable law.

2.06 Additional Security

This Agreement shall be in addition to and without prejudice to any other security by whomsoever given, held at any time by the Indenture Trustee or for the benefit of any of the Beneficiaries.

2.07 Continuing Liability of the Province

The Approved Obligations shall be deemed not to have been paid, observed or performed, and the liability of the Province hereunder in respect thereof shall continue and not be discharged, to the extent that any payment, observance or performance thereof by the Financing Entity, or out of the proceeds of any Collateral, is recovered from or reimbursed by or for the account of any of the Beneficiaries for any reason, including a preference or fraudulent transfer or by virtue of any subordination (whether present or future or contractual or otherwise) of the

[6] Note: Consider if Beneficiary rights under Obligations Secured can in fact be affected in this way under an agreement to which a Beneficiary is not directly a party. To achieve a binding relationship, a corresponding provision should appear in the Trust Indenture, to the effect that the Beneficiaries will be deemed to be bound by the Indenture Trustee insofar as the Beneficiaries rights against the financing entity are to be affected.

Approved Obligations, whether such recovery or payment over is effected by any judgment, decree or order of any court or Governmental Authority, by any plan of reorganization or by settlement or compromise by any of the Beneficiaries (whether or not consented to by the Financing Entity or the Province) of any claim for any such recovery or payment over.

2.08 Continuance of the Limited Guarantee

Subject to Section 2.07, the Limited Guarantee shall continue in full force and effect until the indefeasible payment, observance and performance in full of the Approved Obligations.

2.09 Modifications of Approved Obligations

The Province expressly authorizes the Indenture Trustee, at any time and from time to time, without notice and without affecting the liability of the Province hereunder, but subject to compliance with the requirements of the Program Agreements and this Agreement, to:

(a) accept new, additional or replacement instruments, documents, agreements or security in connection with all or any part of the Approved Obligations;

(b) accept partial payments on the Approved Obligations; and

(c) waive, release, reconvey, terminate, abandon, subordinate, exchange, substitute, transfer, compound, compromise, liquidate and enforce all or any part of the Approved Obligations and any security or guarantee therefor, and apply any such security and direct the order or manner of sale thereof as the Indenture Trustee (for the benefit of the Beneficiaries) in its discretion may determine,

provided, however, that the Indenture Trustee shall not permit any change, modification, alteration, amendment, supplement, extension, renewal, compromise, novation, replacement, suspension or waiver of the terms of all or any part of the Approved Obligations or any Collateral therefor expect with the prior written consent of the Province having first been obtained.

ARTICLE III
THE INDENTURE TRUSTEE

3.01 The Indenture Trustee

This Agreement is made in favour of the Indenture Trustee in its capacity as trustee under the Trust Indenture. Accordingly, in the event of a new trustee being appointed under the Trust Indenture, such new trustee shall thereupon become and be the Indenture Trustee hereunder, but nevertheless, the Indenture Trustee shall forthwith assign, transfer and make over to the new trustee hereunder this Agreement. All provisions of the Trust Indenture for the protection of the Indenture Trustee or for facilitating the administration of the trusts or otherwise relating to the Indenture Trustee solely as to its holding of the rights thereunder shall apply *mutatis mutandis* to this Agreement and the Indenture Trustee's duties hereunder.

3.02 Acceptance of Trusts

The Indenture Trustee hereby accepts the trusts hereof and agrees to carry out and discharge the same unless and until a new trustee shall be appointed as contemplated in Section 3.01.

ARTICLE IV
APPROVED OBLIGATIONS

4.01 Approval Process

A Primary Obligation shall constitute an Approved Obligation if (a) the Adherence Conditions applicable thereto have been satisfied; or (b) the Province has specifically approved in writing the particular terms, conditions and documentation for the Primary Obligation.

4.02 Adherence Conditions

The following shall be the Adherence Conditions applicable in relation to a Primary Obligation:

(a) the Primary Obligation is contemplated under the Trust Indenture as an Obligation Secured;

(b) if the Primary Obligation is a [borrowing][7], at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments[8] under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations,[9] do not exceed the Protection Agreement Maximum;

(c) the FSM delivers a notice to the Indenture Trustee, with a copy to the Province, not less than ■ Business Days and not more than ■ Business Days prior to the incurrence or any amendment of the Primary Obligation, setting out the Protection Agreement Maximum;

(d) the FSM delivers a certificate signed by the Chief Financial Officer and the Treasurer of OPG (or their respective designees, provided that such designees are executive officers of OPG) and addressed to the Province and the Indenture Trustee, not less than ■ Business Days and not more than ■ Business Days prior

[7] Under consideration. Need to ensure that non-conventional instruments (capital rather than debt) are caught in the maximum test.

[8] Note: The concept of "repayments" under the OFHPA take account of contemplated refinancings. There is some risk that an anticipated refinancing would not manifest as contemplated, in which case the amount financed (and subject to the Limited Guarantee) could exceed the Protection Agreement Maximum and result in a balloon payment obligation.

[9] Note: If certain financing entity obligations are guaranteed under a one-off agreement, the interaction between the one-off guaranteed amount and Approved Obligations that are looked at to determine if incurrence of a new Primary Obligation is within the Protection Agreement Maximum will need to be considered.

to the incurrence or any amendment of the Primary Obligation, setting out the following with respect to the Primary Obligation:

i. if the Primary Obligation is a [borrowing], confirmation that, at the time the Primary Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Primary Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under Approved Obligations, do not and will not exceed the Protection Agreement Maximum; and

ii. confirmation that the FSM has delivered to the Province a certificate in accordance with the Process Agreement confirming, among other things, that the transaction documents in respect of the Primary Obligation are in substantially the form of the documentation reviewed by the Province; and

(e) the Province has not provided notice to the Indenture Trustee that a Breach Event has occurred and that the Limited Guarantee does not apply to any further Primary Obligations that are incurred.[10]

4.03 Evidence of Satisfaction

A closing certificate signed by at least two executive officers of OPG in connection with an incurrence or amendment of a Primary Obligation shall be determinative as to whether the applicable Adherence Conditions with respect thereto have been satisfied, notwithstanding that such certificate may include inaccuracies, be incomplete or otherwise be defect or deficient, and such closing certificate may be relied upon by any addressee as conclusive evidence of same.

ARTICLE V
RIGHTS OF THE PROVINCE

5.01 Assignment and Subrogation

Upon paying an amount in respect of an Approved Obligation

(a) to or at the direction of the Indenture Trustee in satisfaction of the Limited Guarantee; or

(b) as a result of assuming the Financing Entity's obligations in respect of all Obligations Secured under Article VI,

the Province (in addition to and without prejudice to any rights it otherwise has in law or equity) shall be subrogated and entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Approved Obligation to the extent of such payment, including (a) the right and entitlement to be paid and receive distributions of such amount by the Financing Entity in accordance with and in the priority applicable to the Approved

[10] NTD: Carve-out for re-financings of Approved Obligations already in existence is under consideration.

Obligation applicable in respect of the payment under the Trust Indenture, (b) the benefits of the related Collateral and (c) all proceeds therefrom. The Province shall have and be entitled to enforce all rights and interests (including as a secured party under the Trust Indenture) under such Approved Obligation as an absolute assignee of the applicable Beneficiary, with effect from and after the time of such payment, without any further requirement for notice to or acceptance by the Financing Entity of such absolute assignment and without any reduction, set-off or counterclaim on account of any amounts that may, at or after the time of payment, be or become owing by the Beneficiary to the Financing Entity and unaffected by any other rights or equities that arise thereafter as between the Beneficiary and the Financing Entity. The Indenture Trustee shall recognize the Province as being entitled to all of the rights, interests and entitlements of the Beneficiary (including, if applicable, as a Noteholder) in respect and to the extent of the Approved Obligation so paid, determined as of the time of payment, for all purposes under the Trust Indenture, and the Province shall be treated as a Specified Creditor in respect thereof for all purposes under the Trust Indenture and any other agreement under which the Approved Obligation arises.

5.02 Priorities

For greater certainty, the rights, interests and entitlements of the Province as an assignee and subrogee of and with respect to an Approved Obligation shall rank equally with the rights, interests and entitlements of a Beneficiary for whom a Limited Guarantee payment is made in respect of, and to the extent of the payment made to satisfy, the Approved Obligation and the Province shall not be subject to postponement or subordination with respect thereto except to the extent of the priorities established in relation to the Approved Obligation under the Trust Indenture.

5.03 Voting Rights under "Outstanding Notes"

Notwithstanding the last three sentences of the definition of "Outstanding" in the Trust Indenture[11]:

(a) Notes in connection with Approved Obligations in respect of which the Province has rights and interest pursuant to Section 5.01 shall be regarded as "Outstanding" within the meaning of the Trust Indenture; and

(b) in determining whether Noteholders of the requisite principal amount of Notes that are Outstanding (as defined in the Trust Indenture) have taken any Action under the Trust Indenture, and for the purposes of Article X of the Trust Indenture, the Province shall be deemed to have the amount of Outstanding (as defined in the Trust Indenture) Notes in proportion to its interest in such Notes based on the amounts that the Province has paid in respect of Approved Obligations under this Agreement.

[11] Note: This concept should be reflected in the Trust Indenture to be effective. Additional scenarios where the Province's rights as an affiliate of OPG may differ from what is expected are to be identified in the underlying Program Agreements.

5.04 Province May Perform Other Program Agreement Covenants.

If the Financing Entity fails to perform any covenant under any Program Agreement, the Province may (but, except as expressly provided for under this Agreement, shall not be obligated to) perform such covenant on behalf of the Financing Entity. If the Province performs such a covenant on behalf of the Financing Entity, all sums expended or advanced by the Province in so performing the covenant will bear interest at the rate of interest determined by the Province to reflect market terms and conditions for a borrowing made by the Province at the relevant time from the date of expenditure until repayment by the Financing Entity [and will (together with such interest) be paid by the Financing Entity upon demand and will until paid form part of the Obligations Secured and constitute a Finance Amount.[12]

ARTICLE VIL
NOTICE OF ASSUMPTION OF OBLIGATIONS SECURED

6.01 Delivery of Assumption Notice

The Province may provide notice (in the form of Exhibit B) to the Indenture Trustee that, in accordance with the terms of the Process Agreement, the Province has elected to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor (the "**Assumption Notice**"). The Assumption Notice shall specify the date on which the assignment and assumption of the Obligations Secured will be effective (the "**Assumption Closing Date**").

6.02 Cooperation to Implement the Assignment and Assumption

The Indenture Trustee, the FSM, the Financing Entity and the Province will cooperate and use [commercially reasonable efforts] to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the Assumption Closing Date.[13]

6.03 Effect of Assumption

On the date that the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province becomes effective (the "**Assumption Effective Date**"), the Province shall no longer be required to provide and perform the Limited Guarantee.

6.04 Interim Period

Until the effective time of the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province on the Assumption Effective Date, the Province shall continue to perform and be obligated under the Limited Guarantee.

[12] Note: General Regulation must be revised such that "Finance Amount" picks up guarantor amounts. Under consideration by MOE.

[13] Note: Further details regarding obtaining of third party consents and rating agency approvals to be considered.

ARTICLE VII

7.02 Not Responsible for Recitals or Issuance of Notes

(c) each of this Agreement and the other documents to which it is a party has been duly executed and delivered by the Indenture Trustee and constitutes its legal, valid and binding obligation in accordance with its terms; and

(d) the Indenture Trustee is authorized to carry on the business of a trust company in each of the provinces and territories of Canada.

7.04 Release of all Collateral

(a) The Indenture Trustee shall not execute instruments to release Collateral from the Security Interest of the Trust Indenture, or convey the Indenture Trustee's interest (which is held by the Indenture Trustee for the benefit of the Specified Creditors) in the same, unless and until the rights and interests of the Province under Section 5.01 or otherwise as an assignee of any of the Obligations Secured or as a

subrogee have been satisfied in full and the Province has no continuing obligations under this Agreement.

(b) The Province shall be entitled to receive at least 10 Business Days' written notice when the Indenture Trustee proposes to take any action pursuant to Subsection 7.04(a), accompanied by copies of any instruments involved.

7.05 Right to Notice and Attend Meetings

The Financing Entity shall ensure that the Province receives advance notice of any meeting or proposed written resolution of Specified Creditors (or any of them) and the Province and its legal advisers shall be permitted to attend and be represented at any meeting of such Specified Creditors.

ARTICLE VIII

8.01 Suspension Notice

A written notice in the form of Exhibit C (a "**Suspension Notice**"):

(a) shall be provided by the FSM to the Province and the Indenture Trustee promptly following the occurrence of a Program Breach; and

(b) may be provided by the Province to the Indenture Trustee, the FSM and the Financing Entity following the occurrence of a Breach Event.

8.02 Suspension

If a Suspension Notice has been provided under Section 8.01 (the provision of such notice being a "**Suspension Event**"), the Financing Entity shall not incur any new or additional Obligation Secured and shall not amend or terminate any existing Obligation Secured except with the prior written consent of the Province.

8.03 Termination Notice

On the occurrence of a Suspension Event, the Province may provide to the Indenture Trustee, the FSM and the Financing Entity a notice in the form of Exhibit D (a "**Termination Notice**").

8.04 No Impact on Adherence

For greater certainty, the occurrence of Suspension Event or a failure by the FSM or the Financing Entity to perform its covenants under this Agreement will not invalidate or extinguish the obligations of the Province under the Limited Guarantee in respect of Approved Obligations in existence prior to the occurrence of the Suspension Event.

ARTICLE IX

Hi Ron,

Please note that the Minister and the Deputy will be in New York on Monday, so it's unlikely that they will join the TB/MBC on Monday, September 25, 2017. The Associate DM Office has asked the ADMs to get ready to discuss their responsible items. The agenda is not ready yet, but I will share it with you as soon as I get it.

For the FHP item, is there anything you will need prior to the meeting?

Thank you both for weighing in on this, and Ron, for flagging that potential question from TBS. We'll be ready with an explanation if we do get pushed for an offset. I've asked CQSD to let me know who the TBS analyst is – they're likely more familiar with contingent liabilities than CQSD. Also, Ron, I haven't seen an assessment note yet, but I expect that TBS has the v7. draft circulated yesterday. I'll ask Anthony to confirm tomorrow.

Hi Ken,

Agreed that the submission covers those points. The issue is if TB or TBS would want to identify a ministry as responsible for an offset, in that eventuality. As noted, given the magnitude and nature of the potential triggers, I would not be expecting TB to require an offset (which I read to be CQSD's implied concern on which ministry or ministries would be identified as needing to provide an offset in that eventuality).

Hi Ron

When you refer to offsets I guess you mean an offset to any fiscal impact that may arise from the crystallization of a liability. Note that the mere crystallization of a liability has no fiscal impact (only impacts net debt) unless its accompanied by an increase in expenses which is usually in the form of an increase to the Province's IOD.

The submission currently addresses this issue by pointing out that the invocation of the guarantee, or as it is now called, the assumption, will impact both net debt and IOD. The submission also goes on to indicate that unless the CEA revenue stream diverts to the Province from the Financing Entity, upon assumption, there will be a fiscal impact from the incremental IOD.

The submission goes on to state that the net effect of the assumption sans the CEA (if that is will of the Government in power at that time) will be the taxpayer taking on a debt burden incurred for the benefit of the ratepayer, with very limited recourse for repayment.

Hope that satisfies your concern, I am meeting with Cindy next week Monday to ensure that both OPCD and the OFA are on the same page re the impact of the assumption.

Thanks

Hi Anna,

Just a comment.

While I would not expect it in this case, given the size and what the trigger would be, TB sometimes requires submitting ministries to acknowledge finding offsets, should contingent liabilities crystallize.

So, not held by a particular ministry for accounting, but sometimes a Minuted point and ministry

responsibility. As stated, though, I would not expect it in this case. Might be good to confirm with the relevant TBS analyst. (Who would that be, and has TBS started drafting an assessment note?)

Good afternoon,

FYI, please find attached, the CEO-approved TB Submission for the Change of Law Assumption Agreement (no longer a "Support Agreement") tracking to TB/MBC for the Sep 26 meeting. This version incorporates input received from Energy.

We can confirm that both Ministers of Energy and Finance will be asked to sign the TB submission since both Ministers will recommend the OIC and both will sign the Assumption Agreement.

Please don't hesitate to contact me should you have any questions or comments. This version is tracking for CAO/DM/Minister approval in both Ministries.

Thanks, Anna

Hi All,

Please find attached the latest version of the TB submission, which includes some comments in the margins that still need to be addressed. Thanks to everyone who has provided edits so far. I'd like to reiterate that we're still tracking the Sept. 26 TB/MBC meeting, which means we'll have to brief our Minister next week in order to provide a final submission to TBS three weeks before the meeting.

As many of you may already know, we are now calling it a "Provincial Support Agreement" as opposed to "Provincial guarantee" as MOF legal advised this is not a true guarantee as the agreement would be contingent on certain events (whereas a guarantee would not).

Please provide further comments and edits as appropriate. We're looking to have program area and legal sign-off by Wed. Sept. 6.

Thanks,

Subject: For Review and Comment: TB/MBC Submission on Provincial Guarantee

Hi Cindy, Steen, Kelly (for Scott), and Malle,

Attached, for your review and comment, is a draft TB submission for the Provincial Guarantee.

This submission is somewhat premature, as there continue to be discussions about which Ministry might bring this forward (for instance, the Provincial Guarantee piece could be incorporated into a broader report back by the Ministry of Energy) and when this might go to TB/MBC (mid to late September); however, Gadi is on vacation for two weeks starting Monday, so we wanted to get a head start on something that could be moved forward in his absence.

I apologize for the tight timelines, but **we are hoping to have your comments (even preliminary comments) by noon tomorrow**. I expect that subsequent iterations of this submission and/or the TB Assessment Note will be circulated again for your input.

Please don't hesitate to contact me should you have any questions.

Hi All,

As a comment, TBS typically shares (or asks us, at times, to write) draft assessment notes on energy-related issues at the earliest stages, as part of our central agency review function. However, when we (MOF/OFA) are the submitting entity, they may act differently, where they may share the assessment note only at a fairly late stage (we have at times worked around that, given our longstanding working relationship with staff). We'll see in this case.

Thank you both for weighing in on this, and Ron, for flagging that potential question from TBS. We'll be ready with an explanation if we do get pushed for an offset. I've asked CQSD to let me know who the TBS analyst is – they're likely more familiar with contingent liabilities than CQSD. Also, Ron, I haven't seen an assessment note yet, but I expect that TBS has the v7. draft circulated yesterday. I'll ask Anthony to confirm tomorrow.

Hi Ken,

Agreed that the submission covers those points. The issue is if TB or TBS would want to identify a ministry as responsible for an offset, in that eventuality. As noted, given the magnitude and nature of the potential triggers, I would not be expecting TB to require an offset (which I read to be CQSD's implied concern on which ministry or ministries would be identified as needing to provide an offset in that eventuality).

Subject: RE: TB/MBC Submission on Assumption Agreement - recommendations and questions

Hi Ron

When you refer to offsets I guess you mean an offset to any fiscal impact that may arise from the crystallization of a liability. Note that the mere crystallization of a liability has no fiscal impact (only impacts net debt) unless its accompanied by an increase in expenses which is usually in the form of an increase to the Province's IOD.

The submission currently addresses this issue by pointing out that the invocation of the guarantee, or as it is now called, the assumption, will impact both net debt and IOD. The submission also goes on to indicate that unless the CEA revenue stream diverts to the Province from the Financing Entity, upon assumption, there will be a fiscal impact from the incremental IOD.

The submission goes on to state that the net effect of the assumption sans the CEA (if that is will of the Government in power at that time) will be the taxpayer taking on a debt burden incurred for the benefit of the ratepayer, with very limited recourse for repayment.

Hope that satisfies your concern, I am meeting with Cindy next week Monday to ensure that both OPCD and the OFA are on the same page re the impact of the assumption.

Thanks

Hi Anna,

Just a comment.

While I would not expect it in this case, given the size and what the trigger would be, TB sometimes requires submitting ministries to acknowledge finding offsets, should contingent liabilities crystallize.

So, not held by a particular ministry for accounting, but sometimes a Minuted point and ministry responsibility. As stated, though, I would not expect it in this case. Might be good to confirm with the relevant TBS analyst. (Who would that be, and has TBS started drafting an assessment note?)

Here are the updates I'm requesting to the submission.

Pg 1 need to be consistent under points (a) and (b) should read always as Minister of Finance and Minister of Energy through the entire document.

Pg 5 Recommendation should read; The Ministry of Finance and Ministry of Energy requests that Treasury Board/Management Board of Cabinet: currently says Approve, I thought we were using "Authorize" same as pg. 1

Also for the minuting, as opposed to referencing an Appendix, we should say under the terms set out under the Change of Law Assumption Agreement, Indicative Term Sheet.

Questions, in the essence of time I will have a couple more questions later today… but,

Who is holding the contingent liability MOE or MOF ?

Hi all,

You will note on p. 4 of the submission a paragraph about the applicability of s. 28 which does apply in this case. When the Minister of Finance recommends an OIC to authorize a guarantee and signs the guarantee, we do not typically ask the Minister to sign a separate s. 28 approval. However, yesterday we saw a draft of the proposed legal opinion that our outside counsel is being requested to give in connection with the proposed transaction and this specifically mentions s. 28 approval. Therefore, in this case to assist the providing of the legal opinion and because of the size of this transaction, it is important to have clear approvals evidenced, we recommend that the Minister of Finance be requested to sign an approval to seek the OIC from Cabinet and afterwards of the actual guarantee. Toby will provide a draft soon. It is just a short one page which would approve the ministers bringing forward the OIC in the form attached.

Please let me know if you have any comments or concerns. Thanks.

Hi All,

Please find attached the latest version of the TB submission, which includes some comments in the margins that still need to be addressed. Thanks to everyone who has provided edits so far. I'd like to reiterate that we're still tracking the Sept. 26 TB/MBC meeting, which means we'll have to brief our Minister next week in order to provide a final submission to TBS three weeks before the meeting.

As many of you may already know, we are now calling it a "Provincial Support Agreement" as opposed to "Provincial guarantee" as MOF legal advised this is not a true guarantee as the agreement would be contingent on certain events (whereas a guarantee would not).

Please provide further comments and edits as appropriate. We're looking to have program area and legal sign-off by Wed. Sept. 6.

Thanks,

Subject: For Review and Comment: TB/MBC Submission on Provincial Guarantee

Hi Cindy, Steen, Kelly (for Scott), and Malle,

Attached, for your review and comment, is a draft TB submission for the Provincial Guarantee.

This submission is somewhat premature, as there continue to be discussions about which Ministry might bring this forward (for instance, the Provincial Guarantee piece could be incorporated into a broader report back by the Ministry of Energy) and when this might go to TB/MBC (mid to late September); however, Gadi is on vacation for two weeks starting Monday, so we wanted to get a head start on something that could be moved forward in his absence.

I apologize for the tight timelines, but **we are hoping to have your comments (even preliminary comments) by noon tomorrow**. I expect that subsequent iterations of this submission and/or the TB Assessment Note will be circulated again for your input.

Please don't hesitate to contact me should you have any questions.

Subject: RE: TB/MBC Submission on Provincial Protection Agreement - revised draft

Hi all,

You will note on p. 4 of the submission a paragraph about the applicability of s. 28 which does apply in this case. When the Minister of Finance recommends an OIC to authorize a guarantee and signs the guarantee, we do not typically ask the Minister to sign a separate s. 28 approval. However, yesterday we saw a draft of the proposed legal opinion that our outside counsel is being requested to give in connection with the proposed transaction and this specifically mentions s. 28 approval. Therefore, in this case to assist the providing of the legal opinion and because of the size of this transaction, it is important to have clear approvals evidenced, we recommend that the Minister of Finance be requested to sign an approval to seek the OIC from Cabinet and afterwards of the actual guarantee. Toby will provide a draft soon. It is just a short one page which would approve the ministers bringing forward the OIC in the form attached.

Please let me know if you have any comments or concerns. Thanks.

Good afternoon,

FYI, please find attached, the CEO-approved TB Submission for the Change of Law Assumption Agreement (no longer a "Support Agreement") tracking to TB/MBC for the Sep 26 meeting. This version incorporates input received from Energy.

We can confirm that both Ministers of Energy and Finance will be asked to sign the TB submission since both Ministers will recommend the OIC and both will sign the Assumption Agreement.

Please don't hesitate to contact me should you have any questions or comments. This version is tracking for CAO/DM/Minister approval in both Ministries.

Thanks, Anna

Hi All,

Please find attached the latest version of the TB submission, which includes some comments in the margins that still need to be addressed. Thanks to everyone who has provided edits so far. I'd like to reiterate that we're still tracking the Sept. 26 TB/MBC meeting, which means we'll have to brief our Minister next week in order to provide a final submission to TBS three weeks before the meeting.

As many of you may already know, we are now calling it a "Provincial Support Agreement" as opposed to "Provincial guarantee" as MOF legal advised this is not a true guarantee as the agreement would be contingent on certain events (whereas a guarantee would not).

Please provide further comments and edits as appropriate. We're looking to have program area and legal sign-off by Wed. Sept. 6.

Thanks,
Matt Breadner on behalf of Anna Strathy

Subject: For Review and Comment: TB/MBC Submission on Provincial Guarantee

Hi Cindy, Steen, Kelly (for Scott), and Malle,

Attached, for your review and comment, is a draft TB submission for the Provincial Guarantee.

This submission is somewhat premature, as there continue to be discussions about which Ministry might bring this forward (for instance, the Provincial Guarantee piece could be incorporated into a broader report back by the Ministry of Energy) and when this might go to TB/MBC (mid to late September); however, Gadi is on vacation for two weeks starting Monday, so we wanted to get a head start on something that could be moved forward in his absence.

I apologize for the tight timelines, but **we are hoping to have your comments (even preliminary comments) by noon tomorrow**. I expect that subsequent iterations of this submission and/or the TB Assessment Note will be circulated again for your input.

Please don't hesitate to contact me should you have any questions.

Following further discussions, we have further revised the wording for the TB minute suggestion as below. Also, I have attached a revised term sheet that includes a note regarding changes to the IESO structure, reflecting the additional negotiating point in that respect. The intention is not to provide that note to OPG, but to include it so that if the negotiations lead to that point being included that the approval includes a reference to it in the approved form of term sheet.

"Approve the Minister of Finance and Minister of Energy to negotiate a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such non-material changes and amendments to those terms and that the two ministers acting together may determine."

Malle and I have discussed the wording and we think that the below wording more clearly sets out

the scope of the Ministers' authority to enter into the agreement, but also to negotiate the terms in a way that is consistent with the attached term sheet, but also allowing some scope for amendments.

This is our proposed wording for the first minute, with substantive changes in red:

"Approve the Minister of Finance and Minister of Energy to negotiate a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such non-material changes and amendments to those terms and that the two ministers acting together may determine."

Thanks Ken. I am wondering whether we should expand the wording of the requested minute #1 a bit to make it clearer that the Ministers can negotiate a bit more because right now it refers to the appended term sheet which doesn't include the third scenario although it is in the body of the text. Maybe strenthen that wording a bit.

OPG has not seen the changes that we made to the term sheet yesterday to align it to the OIC authority. Eg changing the name etc

Hi Malle

After discussing with Gadi, Mike and Ron, we understand that OPG's current timeframe for meeting with the Rating Agencies is next week. Unless OPG comes back with material revisions to the Term

Sheet as it currently stands, which hopefully is unlikely, the submission can proceed as planned, given that the requested approval is to negotiate the terms. Note that even the initial request by OPG for the Assumption to cover any changes to the IESO organization, structure or operations which we removed in the last version of the Term Sheet is included in the submission as a contingent.

Any non-material changes over the next few days can be incorporated into the TBS Note which is usually the primary document used in the presentation to Treasury Board. As Gadi pointed out any material changes that may surface as the terms of the Assumption are finalized may require another visit to TB.

Thanks and hope this answers your question.

Hi,

We wanted to let you know that we haven't heard anything back from Torys on the term sheet since our call with them last Friday. I think that they were going to speak to the dealers about this. Steve is going to call Torys to find out the status.

Given that it will be very difficult to make changes to the term sheet once it is in the TB process and the Ministers sign off, I wonder what we can do about this. Have you heard anything back from OPG about comments or the timing as they said they needed to go to the rating agencies with this?

Thanks.

Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.
Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are

	appointed by the Lieutenant Governor in Council makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*), in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or (B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims. **[Note: Additional term to be considered regarding changes to the organization, structure, or operations of the IESO. See section 4 of Treasury Board submission for additional details.]**
Obligation to Pay Specified Claims:	Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.

Subrogation:	Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity and the obligations of the Financing Entity owing under the agreements under which the Specified Claim arises. The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent.
Optional Replacement:	At any time following the exercise by the Indenture Trustee of its right to require the Obligor to pay Specified Claims when due and payable, the Obligor shall be entitled (but not obligated) to replace the Financing Entity as obligor and debtor and directly assume all of the Financing Entity's outstanding obligations and liabilities. The Financing Entity (including through the Financial Services Manager) will ensure that any obligation and liabilities undertaken or assumed by it will by their terms permit such a replacement and assumption (or, if applicable, satisfaction and termination) by the Obligor without additional cost or penalty and without any requirement for further consent, approval or agreement.
Term:	The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The Change of Law Protection Agreement will become effective in respect of a Specified Claim (including any modification) only after the Obligor has confirmed in writing that the Change of Law Protection Agreement applies to such Specified Claim. The Change of Law Protection Agreement will annex the applicable forms of program and series documents under which obligations of the Financing Entity may arise (e.g., including the form of trust indenture and series supplemental indenture) and set out the terms and conditions and process for obtaining the Obligor's approval and confirmation that the Change of Law Protection Agreement will apply to Specified Claims. Such approval may be made conditional on such matters as may be specified by the Obligor, including a maximum amount applicable to Specified Claims. The Province's approval of the form of any IESO/Financing Entity transfer agreement and any amendments will also be required.

FIPPA:	The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
Representations and Warranties:	To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
Confidentiality Obligations:	To be determined based on what would be customary and appropriate for similar types of arrangements and is acceptable to the Obligor and the Financing Entity.
Governing Law:	Province of Ontario.

Malle and I have discussed the wording and we think that the below wording more clearly sets out the scope of the Ministers' authority to enter into the agreement, but also to negotiate the terms in a way that is consistent with the attached term sheet, but also allowing some scope for amendments.

This is our proposed wording for the first minute, with substantive changes in red:

"Approve the Minister of Finance and Minister of Energy to negotiate a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities generally reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such changes and amendments to those terms and additional terms and conditions that the two ministers acting together may determine at their discretion."

refers to the appended term sheet which doesn't include the third scenario although it is in the body of the text. Maybe strenthen that wording a bit.

OPG has not seen the changes that we made to the term sheet yesterday to align it to the OIC authority. Eg changing the name etc

Hi Malle

After discussing with Gadi, Mike and Ron, we understand that OPG's current timeframe for meeting with the Rating Agencies is next week. Unless OPG comes back with material revisions to the Term Sheet as it currently stands, which hopefully is unlikely, the submission can proceed as planned, given that the requested approval is to negotiate the terms. Note that even the initial request by OPG for the Assumption to cover any changes to the IESO organization, structure or operations which we removed in the last version of the Term Sheet is included in the submission as a contingent.

Any non-material changes over the next few days can be incorporated into the TBS Note which is usually the primary document used in the presentation to Treasury Board. As Gadi pointed out any material changes that may surface as the terms of the Assumption are finalized may require another visit to TB.

Thanks and hope this answers your question.

Hi Toby/Malle

As discussed given that the submission is heading over to for the signature of the Minister of Energy why don't we wait until we receive the draft note from TBS to make these changes. Note that the minute is actually written by TBS, the submitting ministries simply provide a suggested version. As I mentioned to Toby, any revisions at this point may impose too much of a delay.

Once we receive the draft note from TBS we can make these changes provided of course MOE Legal and TBS Analyst are comfortable.

Thanks

Following further discussions, we have further revised the wording for the TB minute suggestion as below. Also, I have attached a revised term sheet that includes a note regarding changes to the IESO structure, reflecting the additional negotiating point in that respect. The intention is not to provide that note to OPG, but to include it so that if the negotiations lead to that point being included that the approval includes a reference to it in the approved form of term sheet.

"Approve the Minister of Finance and Minister of Energy to negotiate a protection agreement, to be authorized by Order in Council under the *Ontario Fair Hydro Plan Act, 2017* in respect of the debts, obligations, securities and undertakings of one or more OPG Financing Entities substantially reflecting the terms set out in the Provincial Protection and Assurances Indicative Term Sheet and subject to such non-material changes and amendments to those terms and that the two ministers acting together may determine."

I don't want to hold this up at all, so please don't let my schedule get in the way of a call if it doesn't match the needs of others. My available times tomorrow are from 11-12, 3:30-4 and 4:30 onwards, but please proceed with the call whenever it best suits everyone else.

Subject: FW: UPDATED - Fair Hydro -- Change of Law Agreements

Hi all,

I have reviewed the agreements and think there are quite a few issues to discuss as a result of the mark-up. I wonder if it would work best to have a provincial legal call on Monday morning to go over the revised drafts and then have a call with our clients at the OFA and Energy afterwards? Below are some of the issues I have identified on a preliminary basis for discussion. There may be additional issues and perhaps some of these points can be worked through with more detail review.

Protection Agreement

- 2.01 (a)(iv)(B) – does revised wording work – would be good to work through this wording.
- 2.08 – change to wording re continuance of guarantee
- 4.01 – they have added back ability of Province to specifically agree that a particular Approved Obligation is covered – wonder why? And it should be in writing – not sure what our original wording on this point was
- 4.02 (b) – they have changed reference to content of certificate to Indenture Trustee (on behalf of bondholders, etc, other parties secured under trust indenture) to confirm that all certifications required by the Province have been provided instead of OPG confirming that all of its obligations to Province and internal requirements and processes in connection with adherence of Limited Guarantee have been done. This is linked to another major change they have proposed to the Process Agreement – looks like they are reducing OPG's obligations to provide certificates to the Province to mirror those that OPG is providing to the Indenture Trustee. This is a significant point and reduces OPG's obligations under the Process Agreement quite a bit and was not discussed at last Tuesday's meeting.
- 4.02(c) – Why delete in respect of which Adherence Conditions have been satisfied – not sure that concept is picked up elsewhere.
- 6.01 – Assumption is changed to case by case which means the right has to be built into the proposed warehouse and term loan documents now if it is to be available. They also deleted OPG's obligation to make efforts to include this in funding obligations in general from the Process Agreement.
- 6.05 – If the Province did assume on a case by case, then doesn't Province get rights to collateral or atleast part?
- 7.03 – What reps does the Indenture Trustee give in the Master Trust Indenture and Supplementals? If Trustee gives them there, why not here? Perhaps we should require them to get a legal opinion.

- 8.01 – Have not reviewed against previous wording but it looks like the suspension right is being reduced because it is limited to incurrence o amendment of Primary Obligations rather than breach of the Process Agreement more generally.
- 9.01 - Do the comments about the Termination notice make sense?
- Defined Term Approved Obligation Amount, Certified Primary Obligations, and others – needs to be reviewed

Process Agreement

- Have moved delivery of initial financing plan and forecast amount and Province's failure to object to recitals for timing reasons – agree that there are timing logistics that need to be worked out, but the ability of Provincial representatives to take such actions flows from Ministers power to provide the guarantee – Province needs to develop the best way to deal with these timing issues that works with our authorities and rewrite these provisions. This also applies to "Reference Documents" concept.
- 3.01 – OPG has revised so it will only provide a certificate to Province if it is required to provide a certificate under Protection Agreement to Trustee – This is a significant change that Province needs to consider. The reason that we agreed to provide a certificate in more limited circumstances to Indenture Trustee (on behalf of beneficiaries) was to assist dealers on "certainty" issues. The same principle does not apply to the Province and OPG relationship which is a separate process.
- 3.02 – Not sure what OPG is proposing here.
- 6.05 – delete obligation on OPG to cause Financing Entity to use commercially reasonable efforts to include assignment provisions in funding obligations – why?
- 7.01 – deleted suspension right in process agreement on basis that it is now in protection agreement but it is more limited.

Please let me know what time would work for you on Monday morning. I am going to pass on this email to OFA staff as well so they get a preliminary sense of the mark-up.

Thanks.

Blakes team,

Please find attached consolidated comments from the dealers and OPG (and their counsels) on the draft documents circulated below. These changes are drafting changes and clean up changes that reflect our discussions from earlier this week where we addressed all the open business points. Where we changed a concept or revised the drafting, we provided an explanation in the footnote to assist in your review.

We are having an 11 call with Energy Legal and Blakes, after which we should be able to see what the main issues here are. Blakes has done comments on the Torys version for review.

Thanks, Malle. It looks like they took more of a hatchet than a scalpel to the agreements again, which is unfortunate, but I suppose we should expect that by now.

Hi all,

I have reviewed the agreements and think there are quite a few issues to discuss as a result of the mark-up. I wonder if it would work best to have a provincial legal call on Monday morning to go over the revised drafts and then have a call with our clients at the OFA and Energy afterwards? Below are some of the issues I have identified on a preliminary basis for discussion. There may be additional issues and perhaps some of these points can be worked through with more detail review.

Protection Agreement

- 2.01 (a)(iv)(B) – does revised wording work – would be good to work through this wording.
- 2.08 – change to wording re continuance of guarantee
- 4.01 – they have added back ability of Province to specifically agree that a particular Approved Obligation is covered – wonder why? And it should be in writing – not sure what our original wording on this point was
- 4.02 (b) – they have changed reference to content of certificate to Indenture Trustee (on behalf of bondholders, etc, other parties secured under trust indenture) to confirm that all certifications required by the Province have been provided instead of OPG confirming that all of its obligations to Province and internal requirements and processes in connection with adherence of Limited Guarantee have been done. This is linked to another major change they have proposed to the Process Agreement – looks like they are reducing OPG's obligations to provide certificates to the Province to mirror those that OPG is providing to the Indenture Trustee. This is a significant point and reduces OPG's obligations under the Process Agreement quite a bit and was not discussed at last Tuesday's meeting.
- 4.02(c) – Why delete in respect of which Adherence Conditions have been satisfied – not sure that concept is picked up elsewhere.
- 6.01 – Assumption is changed to case by case which means the right has to be built into the proposed warehouse and term loan documents now if it is to be available. They also deleted OPG's obligation to make efforts to include this in funding obligations in general from the Process Agreement.
- 6.05 – If the Province did assume on a case by case, then doesn't Province get rights to collateral or atleast part?
- 7.03 – What reps does the Indenture Trustee give in the Master Trust Indenture and Supplementals? If Trustee gives them there, why not here? Perhaps we should require them to get a legal opinion.
- 8.01 – Have not reviewed against previous wording but it looks like the suspension right is being reduced because it is limited to incurrence o amendment of Primary Obligations rather than breach of the Process Agreement more generally.

- 9.01 - Do the comments about the Termination notice make sense?
- Defined Term Approved Obligation Amount, Certified Primary Obligations, and others – needs to be reviewed

Process Agreement

- Have moved delivery of initial financing plan and forecast amount and Province's failure to object to recitals for timing reasons – agree that there are timing logistics that need to be worked out, but the ability of Provincial representatives to take such actions flows from Ministers power to provide the guarantee – Province needs to develop the best way to deal with these timing issues that works with our authorities and rewrite these provisions. This also applies to "Reference Documents" concept.
- 3.01 – OPG has revised so it will only provide a certificate to Province if it is required to provide a certificate under Protection Agreement to Trustee – This is a significant change that Province needs to consider. The reason that we agreed to provide a certificate in more limited circumstances to Indenture Trustee (on behalf of beneficiaries) was to assist dealers on "certainty" issues. The same principle does not apply to the Province and OPG relationship which is a separate process.
- 3.02 – Not sure what OPG is proposing here.
- 6.05 – delete obligation on OPG to cause Financing Entity to use commercially reasonable efforts to include assignment provisions in funding obligations – why?
- 7.01 – deleted suspension right in process agreement on basis that it is now in protection agreement but it is more limited.

Please let me know what time would work for you on Monday morning. I am going to pass on this email to OFA staff as well so they get a preliminary sense of the mark-up.

Thanks.

The same principle does not apply to the Province and OPG relationship which is a separate process.
- 3.02 – Not sure what OPG is proposing here.
- 6.05 – delete obligation on OPG to cause Financing Entity to use commercially reasonable efforts to include assignment provisions in funding obligations – why?
- 7.01 – deleted suspension right in process agreement on basis that it is now in protection agreement but it is more limited.

Please let me know what time would work for you on Monday morning. I am going to pass on this email to OFA staff as well so they get a preliminary sense of the mark-up.

Thanks.

Malle

Blakes team,

Please find attached consolidated comments from the dealers and OPG (and their counsels) on the draft documents circulated below. These changes are drafting changes and clean up changes that reflect our discussions from earlier this week where we addressed all the open business points. Where we changed a concept or revised the drafting, we provided an explanation in the footnote to assist in your review.

The one substantive point we think requires further discussion is on the assumption mechanics; we understand that the Province is no longer seeking an exchange right. Once you have digested these new drafts, we'd like to schedule a lawyers call early next week to finalize them.

Best Regards,
Nina

Hi Anna,

I am not sure what should be included about current status in terms of the response we received from Torys/OPG today setting out a new proposal and the ability to resolve those issues before OPG's board meeting tomorrow. Although yesterday at noon it seemed that we were not too far away from finalization, a number of new points and proposed revisions have been raised by OPG and the dealers on the draft that the Province sent last Friday Nov 17th. .

Hi John

I spoke to our DM's office and Scott's email is Scott.Thompson@ontario.ca, As required by the Process Agreement between the Province and OPG, pls forward the documents pertaining to the upcoming term deal by email to Scott with a cc to the following:

Gadi Mayman, Anna Strathy, David McLean (cc'ed above), Jonathan Tekle (also cc'ed above), Mike and myself.

Given that the Process Agreement requires OPG to also provide the same documents to MOE, I am cc'ing Steen and Tim so that they can inform their DM's Office as well.

With regard to the waiver, pls see Malle's comments below, it would also be useful if OPG were to provide a rationale as to why waiving the 10 business days requirement which may allow for term debt issuance in mid-January by the Trust is more beneficial than issuance either later in the same month or early February.

Thanks

It would be very helpful if OPG and Torys could provide to us a timetable and schedule for delivery of reference documents that are being prepared and when do we expect to get them and when is the proposed issuance. On that basis we can review the timing and determine whether a waiver will be necessary and if it is how it might be processed. Unfortunately we haven't received any updates or draft documents since the closing of the warehouse deal. Also is there a plan for distributing to the Province the documents from the warehouse closing?

I should add that the waiver of the 10 BD requirement needs to be executed in writing by the Province (which means we will need signatures from each Minister). Will that be achievable? If not, perhaps we can proceed on the basis of an email waiver with the waiver signed by the Ministers to follow as soon as possible. Sorry but it is going to be a pain in the butt navigating through this agreement … hopefully the Province will realize that and agree to make some amendments!

OK. I assume the DM of Finance will sign off on behalf of the Minister of Finance. But what about the Minister of Energy? The agreement requires notices to both Ministers on behalf of the Province and I recall on the warehouse closing, we had to wait for a representative from each Ministry to sign off.

I was speaking to Ken Kandeepan on the process this afternoon and he indicated to me that we should send the documents and the waiver request to the Deputy Minister of Finance with a cc. Gadi. Ken was going to send along the contact info for the DM of Finance and also alert their Office of the inbound email so they would not be surprised.

Sorry Ron, didn't mean to exclude you, just wasn't sure you would interested in the legal and market documentation supporting the first term deal of the Trust. Note that according to the Process Agreement our response should be confined to pointing out any material discrepancies as defined in the Definitions section of the agreement. If there is none, no response is required from the Province.

To require a s.28 approval while an OIC exists to authorize the Ministers to sign the agreements seems a bit redundant to me but this is coming from MOF Legal???

Attached is a draft deck prepared by Blakes/MOF legal to be used at the Ministers' briefing tomorrow at noon. I'm about to send this around to OPCD and Energy for input, but Malle has raised two points:

<!--[if !supportLists]-->• <!--[endif]-->Consider deleting the accounting considerations slide?

<!--[if !supportLists]-->o <!--[endif]-->I'd like to recommend leaving the inclusion/exclusion to OPCD to decide

<!--[if !supportLists]-->• <!--[endif]-->Consider deleting the risks slide since OPG will be in the room

<!--[if !supportLists]-->o <!--[endif]-->I'd like to recommend Energy provide additional input on the risks slide (10) to incorporate risks both the Province's and OPG's perspectives – rather than removing it altogether.

If you're ok with my recommendations above, I'll proceed.

Hi Anna,

I made a few small changes to this in red. I think you could circulate this version to others at OFA. I would suggest deleting the last 2 pages Accounting and Risks subject to views of OFA and others. Certainly Accounting page is dependent on OPCD and whether we are including anything in this briefing so suggest delete. Risks page also doesn't seem appropriate for a briefing where OPG attends. However, maybe part of this page could be retained but this is subject to Gadi's and others views.

Should we discuss at some point?

I am going to send this version to Alena (Energy Legal) and Blakes as well to show them what changes have been made but think Energy and OFA should discuss inclusion of Accounting and Risks.

Thanks.

Subject: Call this morning

Hi Steve,

We would like to have a call with you this morning to discuss the implications of the alternative option that was discussed yesterday and what OPG's response so far has been. I relayed to Ken, Mike and others the fact that s. 11.01 of the Trust Indenture provides for amendments to be made without consent of specified creditors and that this is one of the reasons why OPG's proposal to put Province in the category of specified creditor alone would not result in the Province getting notice of all amendments from the Indenture Trustee. I think it would be helpful to have a discussion to go over all of the related issues.

Perhaps about 11 would be a good time – would that work for you?

Also, we are reviewing the revised versions of the agreements and as relayed last evening I have questions about the new wording under limited guarantee among other points so not sure when we will review that as well.

Thanks.

As I may not be able to join the call this morning, I thought I'd share my view: if this truly is an issue for marketing the bonds to investors, it would be significant from their perspective. Mike and I don't yet understand why it would be, so it is up to the underwriters, or their counsel, to provide us with a written, not oral, explanation as to why it would be. If they are not prepared to put their reasons in a short, plain English, form, I'm not prepared to accept their request.

All – please find attached consolidated comments on the Process Agreement and the Protection Agreement blacklined to the drafts circulated by Blakes on Friday. We understand that the current structure requiring satisfaction of the adherence conditions in the Protection Agreement impacts the marketability of the transaction and creates uncertainty for investors. Accordingly, the dealers and OPG would like to discuss with the Province the possibility of moving the adherence conditions to the Process Agreement while preserving the Province's oversight of its obligations under the Protection Agreement. We will provide a proposal on that basis to discuss with the Province. Please note that the attached remains subject to the comments of the working group and the rating agencies.

Thanks Mike. I hope it is resolvable. I recall that last week that our lawyers had strong views on what should be in the protection agreement and the nature of the relationship and interactions between the two agreements.

Our lawyers want to stick to the substantive issues in the November 17 (Friday version) of the agreements that we were comfortable with. OPG indicated at the end of the day that the differences in today's version were meant to be of the win-win variety and be to our benefit. Obviously some lawyer to lawyer discussion required. Hoping that these drafting issues get resolved tomorrow morning without more business intervention. So we don't have a clear resolution right now, and may have to get involved tomorrow, but John Lee was hopeful that wouldn't be required. Obviously will keep you in the loop as it evolves tomorrow.

Is this a small ask, or does it undermine the progress that we'd thought we'd made when we met at noon?

All – please find attached consolidated comments on the Process Agreement and the Protection Agreement blacklined to the drafts circulated by Blakes on Friday. We understand that the current structure requiring satisfaction of the adherence conditions in the Protection Agreement impacts the marketability of the transaction and creates uncertainty for investors. Accordingly, the dealers and OPG would like to discuss with the Province the possibility of moving the adherence conditions to the Process Agreement while preserving the Province's oversight of its obligations under the Protection Agreement. We will provide a proposal on that basis to discuss with the Province. Please note that the attached remains subject to the comments of the working group and the rating agencies.

Nina

Good question: at the end of the day the lawyers had agreed to attempt to work out the drafting issues and hopefully land on a solution tomorrow. Our lawyers want to stick to the substantive issues in the November 17 (Friday version) of the agreements that we were comfortable with. OPG indicated at the end of the day that the differences in today's version were meant to be of the win-win variety and be to our benefit. Obviously some lawyer to lawyer discussion required. Hoping that these drafting issues get resolved tomorrow morning without more business intervention. So we don't have a clear resolution right now, and may have to get involved tomorrow, but John Lee was hopeful that wouldn't be required. Obviously will keep you in the loop as it evolves tomorrow.

Subject: Change of Law Protection Agreement and Change of Law Process Agreement

Rima, Krista, Nina and Michael,

Here are drafts of the Change of Law Protection Agreement and Change of Law Process Agreement. Please note that while various people at the Province have provided considerable thought and input into these drafts, they remain subject to on-going review, comment and consideration (including where indicated in the drafts) by the Province, and of course remain subject to ultimate consideration and approval by the Ministers. This circulation is for discussion purposes only. Please feel free to circulate these drafts to

OPG, E&Y, Osler and the Dealers, reflecting that understanding.

We propose that a consolidated mark-up be prepared that reflects all of the issues that you or those others may have, and ideally reflects input from the rating agencies. Once that mark-up is available, we propose that a meeting of interested parties be held to resolve any outstanding issues.

In the meantime, please feel free to call Malle, Toby, Tom, Alena or me if you have questions or concerns.

Regards, Steve

I think that Mike may have asked John Lee late yesterday for that, and I'm guessing that the preamble in what Nina sent is trying to address that request from us. The point that is critical from my perspective is ensuring that we know why our proposed placement is problematic for marketing the transaction. I think that Tory's preamble addresses that, as much as it can before the dealers have actually gone out to market, but I'd want Mike's viewpoint on that.

Mike and I don't yet understand why it would be, so it is up to the underwriters, or their counsel, to provide us with a written, not oral, explanation as to why it would be. If they are not prepared to put their reasons in a short, plain English, form, I'm not prepared to accept their request.

I would like to discuss this with you as this seems to be quite a significant change to what we were discussing on Monday and our most recent draft. If we have a call maybe it should be the whole group and include Blakes.

All – please find attached consolidated comments on the Process Agreement and the Protection Agreement blacklined to the drafts circulated by Blakes on Friday. We understand that the current structure requiring satisfaction of the adherence conditions in the Protection Agreement impacts the marketability of the transaction and creates uncertainty for investors. Accordingly, the dealers and OPG would like to discuss with the Province the possibility of moving the adherence conditions to the Process Agreement while preserving the Province's oversight of its obligations under the Protection Agreement. We will provide a proposal on that basis to discuss with the Province. Please note that the

attached remains subject to the comments of the working group and the rating agencies.

Looks like an updated version of the deck GBED drafted in August for the Minister of Energy, and as commented on by the OFA at that time.

Hi Anna,

Just as a comment, it may be better not to send out attachments with meeting notices (and send them instead in a separate email) unless the meeting can be made "Private" by Outlook.

I believe that anyone who has access to an OFA boardroom in the Outlook Calendar can view all meetings scheduled, including attachments.

Subject: RE: Fair Hydro - Change of Law Protection Agreement

A bit rushed, but here are my comments on the revised Change of Law Protection Agreement:

- In section 4.02(c), add "a Post-Suspension Obligation or a Pre-Approved Refinancing" after "a Certified Primary Obligation".

- In section 7.03, should this apply to both Post-Suspension Refinancings and Pre-Approved Refinancings"? Also, need to change the clause "the Manager shall accept such Proposal" as it was the Manage that submitted the Proposal to the Province. It should read "the Manager shall accept the Province's proposal to provide such Post-Suspension Refinancing". And change the final ";" to a comma before "provided that such Post-Suspension…"

- In section 7.04, add "or Pre-Approved Refinancing" to the end of the sentence.

- In the definition of "Post-Suspension Refinancing", why is the term "one or more Series of Approved Obligations" being used? Why not simply "one or more Approved Obligations"?

- In the definition of "Pre-Approved Refinancing", revise to read "… waived its right to object under the Change of Law Process Agreement or otherwise to such Refinancing being an Approved Obligation."

- In the definition of "Protection Event", in paragraph (a), change "an event described in a(i) to a(v)" to "an event described in any of clauses (i) to (v) of this paragraph (a)". Also, it is not correct to say "after collecting the True-up Amount" because this would

suggest having collected the True-up Amount". It should say, "and (ii) in respect of the True-up Amount for the Reference Period immediately following the occurrence of an event described in any of clauses (i) to (v) of this paragraph (a)".

- In the new definitions added which refer to "in the Act", change to "in the Act as of the date hereof" (e.g., "True-up Amount").

Subject: RE: Fair Hydro - Change of Law Protection Agreement

Hi,

Attached is a revised version of the Change of Law Protection Agreement. I believe that most of the changes reflected from last night's Osler version (blackline is attached) are of a drafting or conforming nature, other than: (1) the Province disagrees that Approved Refinancing terms should be unfettered by adherence conditions post-Suspension Event and (2) the proposed rating-based "materially and adversely" qualification in the definition of

Protection Event (and in fact any such qualification) is not acceptable to the Province. With regard to (1), this version comes into line with the proposed approach (i.e., using a modified adherence condition) that was incorporated into the version of the Change of Law Process Agreement I circulated yesterday. A further turn of that Agreement, to conform the open item identified in section 3.02 to the revised Change of Law Protection Agreement, is also included here for your reference.

Please note that the Province is working through the drafting concurrently and so further drafting comments may be provided.

As mentioned yesterday, the Province would like to proceed with the Ministers sign-off briefing early next week, on the basis that these versions (minus the explanatory notes) are now in substantially final form. Please identify if you believe there are other 'must have' points (other than the 2 mentioned above).

Subject: RE: Fair Hydro -- Change of Law Process Agreement

Hi,

Please find (attached) a further turn of the Change of Law Process Agreement, reflecting the Province's comments on the mark-up of the Agreement circulated yesterday afternoon by Torys. The attached blackline shows changes made to yesterday's Torys mark-up.

This version addresses concerns Rocco raised last night, to the extent the Province feels that the issues can be accommodated. For your information, I have set out below

responses to Rocco's comments/observations (in CAPs).

The Province would like to proceed with the Ministers briefing early next week, on the basis that this version (minus the explanatory notes) is now in final form. If there are any critical revisions that the other parties believe reflect 'must have' priority, then the Province would like to have a call to discuss them as soon as possible.

Responses to Rocco's Points:

1. The change of the definition of Breach Event in Section 6.01 (i.e., the change to clause (a) and the addition of clause (b)) will result in an inconsistency with section 7.01(b) of the Change of Law Protection Agreement. This will require further consideration. [AGREED. 7.01(b) and 7.01(c) WILL NEED TO MIRROR THE CURE LANGUAGE WE SETTLE ON IN THE PROCESS AGREEMENT (SEE MY EARLIER COMMENTS). PERHAPS THE "which continues …" LANGUAGE IN 7.01(B) CAN BE REVISED TO READ: "to the extent that the Province would be entitled to provide a Suspension Notice in accordance with the terms of the agreement or agreements between the Province and OPG under which such obligations, requirements and processes arise". SIMILAR CHANGE FOR 7.01(C).

2. The right of the Province to issue an objection notice under Section 3.04(b) in connection with a Transaction Document provided to the Province which is required for a Refinancing of an Approved Obligation remains an outstanding issue. Clearly, this will depend upon what Adherence Conditions will be required under Section 4.02 of the Change of Law Protection Agreement in order to permit such Refinancing to become an Approved Obligation. If the Adherence Conditions set out in Section 4.02(a) of the Province's draft of the Change of Law Protection Agreement of December 4 were to apply to such Refinancing, to the extent that such refinancing required a change to a Transaction Document (e.g., as a result of a change to some rating agency condition or criteria), the Province's ability to issue an objection notice and thereby prevent the issuance of a Process Certificate under Section 3.01 (by virtue of Section 3.04) would have the effect of preventing a Refinancing. We trust that this was an unintended outcome of the drafting of Section 3.04 and/or the Adherence Conditions applicable to Refinancings. [THAT IS THE INTENDED EFFECT. THE ADHERENCE CONDITIONS WOULD APPLY TO THE REFINANCING, SO IF THE REFINANCING TERMS DEVIATED MATERIALLY (BASED ON THE SUBSTANTIALLY IN THE FORM" THRESHOLD"), THEN OPG WOULD REQUIRE THE PROVINCE NOT TO OBJECT IN ORDER TO PROCEED WITH THOSE NEW TERMS. OTHERWISE, THE REFINANCING COULD INCORPORATE TERMS AND CONDITIONS, WHICH WOULD BIND THE PROVINCE UNDER THE LIMITED GUARANTEE, THAT WOULD BE UNCONSTRAINED AND WITHOUT ANY ACCOUNTABILITY TO THE PROVINCE. IN ROCCO'S EXAMPLE, THAT MIGHT MEAN THAT OPG WOULD NEED TO RESORT TO UNRATED DEBT, IF THE PROVINCE WAS UNWILLING TO ACCEPT THE NEW TERMS. PRESUMABLY EVERYONE WOULD ACT RATIONALLY. HOWEVER, AS A FAILSAFE, OPG COULD OFFER INCREASED PRICING IN ORDER TO ATTRACT INVESTORS TO ACCEPT THE EARLIER VETTED TERMS (BASED ON THE THEN ACCEPTED REVIEWED

DOCUMENTATION).]

3. Given that the Indenture Trustee is not a party to the Change of Law Process Agreement, the Province and OPG can amend the terms and conditions of this agreement without the consent of the indenture Trustee. Specified Creditors under an Approved Obligation need to be assured that the Province cannot prevent a Refinancing of an Approved Obligation either by virtue of the objection notice discussed in point #2 above or as a result of a future amendment to the agreement. There are a couple of ways to deal with this point. The first is to a add a beneficiary/third party rights clause in the Change of Law Process Agreement which acknowledges that the Indenture Trustee is a beneficiary of certain provisions of this agreement and as a result, the agreement cannot be amended without the consent of the Indenture Trustee. The second is to ensure that the Adherence Conditions relating to Refinancings under the Change of Law Protection Agreement are not dependent upon the terms of the Change of Law Process Agreement. In light of the desire to not disclose the terms and conditions of the Change of Law Process Agreement to the rating agencies, especially at this late stage in the process, we would expect that the latter approach would be preferable. [THE SUGGESTION REGARDING THE PROVINCE PREVENTING A REFINANCING IS ADDRESSED IN #2. IF THE REFINANCING TERMS WOULD EXCEED THE SCOPE OF THE TRANSACTION DOCUMENTS REVIEWED AND NOT OBJECTED TO BY THE PROVINCE, THEN THAT SUGGESTS THERE IS A MATERIAL EFFECT ON THE PROVINCE AND SO THE PROVINCE WOULD NEED THE ABILITY TO REVIEW AND CONSIDER THE PROPRIETY OF THOSE NEW TERMS FROM ITS PERSPECTIVE. AS FOR THE STANDALONE NATURE OF THE PROCESS AGREEMENT, THE INTENTION IS THAT THE PROCESS AGREEMENT BE UNCOUPLED AND NOT PART OF THE COLLATERAL, AND AS MICHAEL FELDMAN HAS EXPLAINED, LEAVE FUTURE FLEXIBILITY FOR THIS LONG-TERM STRUCTURE. TO ADDRESS ROCCO'S CONCERN THAT THE PROVINCE AND OPG COULD CHANGE THE UNDERLYING OBLIGATIONS APPLICABLE TO ADHERENCE IN RELATION TO A NEW OBLIGATION, REQUIREMENT OR PROCESS IN THE PROCESS AGREEMENT THAT WOULD MAKE A REFINANCING LESS LIKELY TO OCCUR, WE HAVE ADDED AND USED IN THE ATTACHED VERSION A NEW DEFFINTION:

> "Approved Refinancing" means a Certified Primary Obligation proposed to be incurred as a Refinancing of an existing Certified Primary Obligation in respect of which the Adherence Conditions had been satisfied on the date such existing Certified Primary Obligation was incurred, that, at the time of incurrence, satisfies each of each of the Adherence Conditions except that the certificate contemplated to be delivered under Section 4.02(b) shall instead confirm that OPG has delivered to the Province a certificate by its applicable officers confirming that OPG would be in compliance with all obligations to the Province and internal requirements and processes in connection with the adherence of the Limited Guarantee to the proposed Certified Primary Obligation that applied as between the Province and OPG on the date of issuance of such existing Certified Primary Obligation." Various references to "Refinancing" in the Protection Agreement can also be revised to refer to

"Approved Refinancing", as required.

Subject: RE: Fair Hydro -- Change of Law Process Agreement

I have reviewed the revised draft of the Change of Law Process Agreement that Torys has prepared and would like to pass along the following comments/observations:

1. The change of the definition of Breach Event in Section 6.01 (i.e., the change to clause (a) and the addition of clause (b)) will result in an inconsistency with section 7.01(b) of the Change of Law Protection Agreement. This will require further

consideration.

2. The right of the Province to issue an objection notice under Section 3.04(b) in connection with a Transaction Document provided to the Province which is required for a Refinancing of an Approved Obligation remains an outstanding issue. Clearly, this will depend upon what Adherence Conditions will be required under Section 4.02 of the Change of Law Protection Agreement in order to permit such Refinancing to become an Approved Obligation. If the Adherence Conditions set out in Section 4.02(a) of the Province's draft of the Change of Law Protection Agreement of December 4 were to apply to such Refinancing, to the extent that such refinancing required a change to a Transaction Document (e.g., as a result of a change to some rating agency condition or criteria), the Province's ability to issue an objection notice and thereby prevent the issuance of a Process Certificate under Section 3.01 (by virtue of Section 3.04) would have the effect of preventing a Refinancing. We trust that this was an unintended outcome of the drafting of Section 3.04 and/or the Adherence Conditions applicable to Refinancings.

3. Given that the Indenture Trustee is not a party to the Change of Law Process Agreement, the Province and OPG can amend the terms and conditions of this agreement without the consent of the indenture Trustee. Specified Creditors under an Approved Obligation need to be assured that the Province cannot prevent a Refinancing of an Approved Obligation either by virtue of the objection notice discussed in point #2 above or as a result of a future amendment to the agreement. There are a couple of ways to deal with this point. The first is to a add a beneficiary/third party rights clause in the Change of Law Process Agreement which acknowledges that the Indenture Trustee is a beneficiary of certain provisions of this agreement and as a result, the agreement cannot be amended without the consent of the Indenture Trustee. The second is to ensure that the Adherence Conditions relating to Refinancings under the Change of Law Protection Agreement are not dependent upon the terms of the Change of Law Process Agreement. In light of the desire to not disclose the terms and conditions of the Change of Law Process Agreement to the rating agencies, especially at this late stage in the process, we would expect that the latter approach would be preferable.

Subject: Fair Hydro -- Change of Law Process Agreement

Blakes team,

Please find attached OPG and Torys' comments on the Process Agreement reflecting our discussions from yesterday's call. Please note that this draft is subject to continuing review and comment by Osler and the dealers. As discussed at the tail end of our call yesterday, the section in the Process Agreement that gives the Province the right to object to new and material changes to transaction documents dovetails with the Protection Agreement so additional comments from Oslers may be forthcoming on this draft.

We are working on getting you a revised draft of the Protection Agreement either later today or tomorrow. In the meantime, please let us know if you have any comments or questions on the Process Agreement.

Best Regards,
Nina

Congratulations. Ken, any update on that? Also, I assume the same thing has to be done with the process agreement to get it in a place where it can get signed by the Ministers at the same time as the protection agreement?

Subject: RE: Fair Hydro - Change of Law Protection Agreement

Hi,

Attached is a revised version of the Change of Law Protection Agreement. I believe that most of the changes reflected from last night's Osler version (blackline is attached) are of a drafting or conforming nature, other than: (1) the Province disagrees that Approved Refinancing terms should be unfettered by adherence conditions post-Suspension Event and (2) the proposed rating-based "materially and adversely" qualification in the definition of Protection Event (and in fact any such qualification) is not acceptable to the Province. With regard to (1), this version comes into line with the proposed approach (i.e., using a modified adherence condition) that was incorporated into the version of the Change of Law Process Agreement I circulated yesterday. A further turn of that Agreement, to conform the open item identified in section 3.02 to the revised Change of Law Protection Agreement, is also included here for your reference.

Please note that the Province is working through the drafting concurrently and so further drafting comments may be provided.

As mentioned yesterday, the Province would like to proceed with the Ministers sign-off briefing early next week, on the basis that these versions (minus the explanatory notes) are now in substantially final form. Please identify if you believe there are other 'must have' points (other than the 2 mentioned above).

Regards, Steve

Hi Malle, we have asked Osler to accelerate circulation of the draft supplemental indenture for the long term debt — we hope to have that by mid-week and will send it you on receipt. As with the supp for the short term debt, the draft will not have been reviewed by Torys or OPG but in the interests of time, we will circulate it to you concurrently. We will also start including you on any circulations of revised drafts of the other agreements. Unless we hear differently, we will include you, Toby, Alena and Steve.

Regarding timing, we understand that the short term facility would close very soon after the long term issuance (from a workload perspective, we are treating them as closing almost concurrently). Closing of the long term debt is targeted for the first week of December and closing of the short term debt is targeted for the second week of December. Marketing of the long-term debt would occur in late November but only once we have concluded the rating agency process. The dealers have advised us that the rating agencies will be interested in understanding the change of law agreement in particular, which is why we have been focused on having that agreement circulated and substantially settled with the dealers and their counsel as soon as possible.

Please feel free to reach out if you would like to discuss live.

Thanks,
Rima

Hi Nina,

We do think that it is important for the wording of the protection agreement to appropriately encompass the financing and various instruments that are to be guaranteed by the Province should one of the events as set out in the term sheet occur. The Province has not determined whether the approach suggested to separate the two documents is appropriate. If it is the proposed long term financing that is planned to be done by year-end and there is a desire to substantially settle the terms of the Protection Agreement by the early November, I don't understand why a draft of the long term financing supplemental indenture would not be available for review yet.

When is it expected that the warehousing facility would be put in place?

Thanks.

Toby,

Thanks for your email. Based on the term sheet, since the Province isn't guaranteeing the obligations under these agreements but only stepping in if there is a change of law "protection event", we did not expect the drafting of the Change of Law Protection Agreement would be implicated by these other agreements (particularly now that we have proposed dealing with the Province's approval of the various program agreements in a separate procedures document). We also understand that in order to be in a position to close on a financing before year end, the Change of Law Protection Agreement needs to be substantially settled by early November. If that is still the case, then we expect the dealers and their counsel will need to see a draft in this coming week.

In the interest of time, we have attached an initial draft of the supplemental indenture for the warehouse facility which, as noted previously, has not yet been reviewed by OPG and Torys. The supplemental for the long term financing will be a simpler document - with mechanics for issuing the notes and pricing information but likely no additional covenants and events of default and no drawdown mechanics like the warehouse facility.

We will start copying the Province and Blakes on circulations of all documents going forward. Please let us know if the entire team on this email should be copied or only Blakes and the Provincial legal team.

Best Regards,
Nina

Nina,

We are working on a draft of the Change of Law Protection Agreement, but cannot complete the drafting until we have seen a draft of the Supplemental Indenture and the other instruments that are to be guaranteed.

We are also working on drafting some responses and comments to your comments from Wednesday on the approval process document, and will get back to you with those soon.

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Many thanks,
Nina

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Nina

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence -that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt -the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts) -the negative pledge with respect to the exercise of certain options on the debt -the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

* The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
* In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

* Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
* We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
* There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
* We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Many thanks,
Nina

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement

(blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Subject: RE: Fair Hydro -- Change of Law Assumption Agreement

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence

-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded?

Please advise why taxes are being excluded?

- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims

relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Nina,

We are working on a draft of the Change of Law Protection Agreement, but cannot complete the drafting until we have seen a draft of the Supplemental Indenture and the other instruments that are to be guaranteed.

We are also working on drafting some responses and comments to your comments from Wednesday on the approval process document, and will get back to you with those soon.

Toby,

In the interest of time, we have drafted a procedures agreement incorporating the approval mechanics we circulated below. As noted in previous correspondence, we think the approval process should be the subject of a separate agreement and not included in the Change of Law Protection Agreement you are drafting. Please note that the attached remains subject to the continuing review of OPG and Torys.

Can you please also let us know when we can expect to see a draft of the Change of Law Protection Agreement?

Many thanks,
Nina

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

* The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
* In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

* Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
* We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
* There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
* We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Subject: Fair Hydro -- Change of Law Assumption Agreement

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the

application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Good Morning Malle,

In terms of Program Agreements, here is an update:

-we have previously circulated the MTI and MTSA to Blakes. Both of these agreements are in mid-turn but we will send you the next circulation of these agreements once available.
-we received an initial draft supplemental for the warehouse facility on Tuesday from the dealers' counsel. We have not yet reviewed it nor have we discussed it with Oslers so we will send you the next circulation of this document.
-I am attaching the most current versions of the Declaration of Trust and the Management Agreement (which are subject to the continuing review of the working group).
-we'll have a form of ISDA Schedule to you soon.
-we don't expect to have a substantially advanced draft of the OM to share until November.

Please let me know if you have any questions.

Best Regards,
Nina

Hi Nina,

We will be reviewing your comments and mark-up.

On a related point, do you have available yet drafts of any of the other agreements that will be required in connection with a proposed issuance by the financing entity and that we have previously discussed and requested copies of such as a draft supplemental indenture, draft disclosure documents, drafts of other

agreements referenced in the master trust indenture to the extent they would be used in or related to an issuance by the Financing Entity etc. The Protection Agreement is proposed to work in the context of these other agreements and this would provide a better context for review by the Province. If they are not yet available, when are they expected to be available?

Thank you.

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the

requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Nina

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:

E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

<!--[if !supportLists]-->? <!--[endif]-->The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.

<!--[if !supportLists]-->? <!--[endif]-->In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the

interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

<!--[if !supportLists]-->? <!--[endif]-->Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.

<!--[if !supportLists]-->? <!--[endif]-->We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?

<!--[if !supportLists]-->? <!--[endif]-->There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.

<!--[if !supportLists]-->? <!--[endif]-->We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

Nina Mansoori

Steve, Malle and Toby, further to our meeting the other day, set out below for your review is a proposal on the Provincial approval process under the Change of Law Assumption Agreement. Once we have your feedback on this, we will need to share it with Osler and the accountants and as John mentioned, we are under some time pressure to bring this to a resolution prior to the upcoming June 29 OPG Board meeting. We look forward to your comments, and feel free to reach out if you have any questions. -- Rima

Obligor Approval

The Change of Law Assumption Agreement will apply to all Specified Claims relating to Funding Obligations that are incurred by an Eligible Financing Entity in accordance with the Obligor's approval process. The definition of Specified Claims to be mutually agreed by all parties.

In order for a Financing Entity to become designated as an Eligible Financing Entity by the Obligor, prior to the initial issuance of Funding Obligations by such Financing Entity, the Obligor will be provided with copies of the following documents (collectively the "Program Documents") for review:

(i) the constating documents of such Financing Entity;
(ii) the management agreement between the Financing Entity and OPG;
(iii) the master transfer and servicing agreement between the Financing Entity and the IESO;
(iv) the master trust indenture governing the issuance of Funding Obligations by the Financing Entity;
(v) a form of supplemental indenture governing the issuance of bonds, issuable in series, by the Financing Entity;
(vi) a form of note purchase agreement or credit agreement governing the issuance of short term Funding Obligations by the Financing Entity;
(vii) a form of schedule to an ISDA Master Agreement governing derivative transactions that may be entered into the Financing Entity from time to time; and
(viii) such other documents as may be requested by the Obligor.

Once a Financing Entity is designated by the Obligor as an Eligible Financing Entity, it will not be necessary for the Obligor to approve the documentation related to specific issuances of Funding Obligations; however, OPG will be expected to notify the Obligor of any new material program documentation or any material amendments to existing program documentation before such new documentation or amendments become effective. The failure of OPG to provide any such notice will not invalidate the application of the Change of Law Assumption Agreement to any Specified Claims.

It will not be necessary for the Obligor to approve each new issuance of Funding Obligations provided that such Funding Obligations are issued in accordance with following:

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program

Documents.

Further to OPG's response to our proposals, please find attached a discussion document drafted by our outside legal counsel Stephen Ashbourne and based on discussions amongst our Provincial legal teams.

This document sets out a number of questions that we need to consider and answer in order to respond to OPG with the Province's position.

A meeting amongst this group would be useful to discuss these issues and to inform a response to OPG.

Toby – further to discussions between OPG and the Province, please find attached comments on the draft proposal under the Change of Law Protection Agreement (blacklined to the draft circulated below). The attached reflects our comments from accounting, operational and financeability perspectives. In particular, the financeability of the program will turn on whether there is a clear and concise way for investors to determine that an incurrence of funding obligations will be covered under the Change of Law Protection Agreement and that, once confirmed, the confirmation is irrevocable. Accordingly, we have proposed in the attached that a simple confirmation from OPG to a third party binds the Province in respect of the incurrence of the applicable funding obligations provided that OPG has satisfied the requirements of the approval process (which we propose be the subject of a separate procedures agreement or memo). Please note that the attached remains subject to the review of the working group including the dealers and the rating agencies.

Nina

Please find attached our comments on your response of October 6. We have moved the text of your email to the attached document and responded inline in square brackets for ease of review.

We recognize that we are running out of time, and that we should discuss and move this forward at the beginning of next week.

We also generally recognize that, although there are still some gaps in our respective approaches, we would find it helpful to have some more specific suggestions and comments on our Sept. 27 draft in order to help move this forward. This might include also the timing issues, with some indication of where, if OPG finds the timing does not work, some alternatives can be suggested for consideration.

Toby,

Thank you for your draft proposal; we have set out below our conceptual comments and concerns on it. Please note that the points below remain subject to the continuing review of OPG. Please also note that we have not yet sought the dealers' views on the proposal. We think it is premature to do so until we settle these points amongst ourselves and a revised draft of the proposal is circulated reflecting our agreement.

As further discussed below, your proposal deviates in some key ways from what we proposed in our email of September 19 (attached) and raises the accounting and operational issues we tried to avoid in the September 19th proposal. Given the need to settle the Protection Agreement as soon as possible, we'd appreciate if we could discuss these points early next week.

Best Regards,
Nina

Accounting Issues:
E&Y has concerns from an accounting perspective with the level of Provincial oversight and input on certain parts of the process, namely:

-that OPG will likely have to go back to the Province on each incurrence of debt and they will have to do so prior to that incurrence
-that OPG must certify and provide a lot of detailed reporting with respect to each incurrence of debt
-the level of frequency of reporting in general (not just the certifications/information noted above but also the contemplated annual forecasts and quarterly updates of those forecasts)
-the negative pledge with respect to the exercise of certain options on the debt
-the fact that OPG must give notice to the Province when incurring funding obligations that are expressly excluded from the Protection Agreement

Taken as a whole, we understand that E&Y sees all of this as the Province exerting a

level of control on the debt that no typical guarantor would have. Please also advise if the Province's accountants have reviewed the proposal.

Practical Issues:

- The procedural steps to bind the Province are lengthy and complicated. From our perspective, as drafted, OPG will likely have to seek Provincial approval on each debt issuance (which weakens the accounting as discussed above). The dealers and their counsel will have a reaction to the proposed adherence conditions but query whether there is value in setting out the adherence conditions in the Protection Agreement itself. Setting aside the mechanics of how we get there, the dealers want comfort that the incurrence of obligations by the financing entity will be covered by the Protection Agreement. We would propose that the mechanics of any approval process (once we settle the terms of that process) be the subject of a separate procedures agreement or memo from the Province to OPG, whereby the Province delegates to OPG the ability to bind the Province under the Protection Agreement with respect to an incurrence of obligations so long as the adherence conditions in the procedures agreement or memo have been met. The Protection Agreement would then simply state that, upon OPG certifying to the indenture trustee that the adherence conditions have been satisfied under the procedures agreement/memo, the Province will be deemed to be bound under the Protection Agreement with respect to the specific obligations incurred at the time of the certification.
- In addition to the accounting concerns, the level of detail and frequency of reporting required present timing and operational issues. For example, as part of the adherence conditions, you are asking for details on the interest rate. However, pricing will in part be driven off whether that specific incurrence will have the benefits of the Protection Agreement.

Drafting Issues:

- Please refer to the existing terminology of the Act to ensure there is certainty on the obligations covered under the Protection Agreement. We think the best way for you to approach this would be to refer to all finance amounts and then expressly carve out what you are proposing not be covered.
- We'd like to understand the reason OPG's management fees have been excluded. We assume you do not intend for OPG's reimbursement costs (costs incurred by OPG on behalf of the Financing Entity) to be excluded? Please advise why taxes are being excluded?
- There are a few references to "exceed the maximum amount specified therefor in the applicable governing document". Please advise what is being contemplated here.
- We have a number of other drafting comments which we'll revisit once we've settled on the conceptual points above and have reviewed a revised draft of the document.

(1) The Funding Obligations are issued in accordance with agreements that contain: (a) covenants of the Eligible Financing Entity that are no more onerous in any material respect and (b) events of default that are consistent in all material respects, respectively, with the covenants of the Eligible Financing Entity and events of default contained in the draft Program Documents.

(2) At least [30 days] prior to the initial issuance of Funding Obligations by an Eligible Financing Entity, OPG will provide the Obligor with a forecast of the principal amount and expected term of the Funding Obligations that OPG expects such Eligible Financing Entity to issue in accordance with the Financing Plan in the next two years (a "Two Year Forecast"). The execution of the Change of Law Assumption Agreement in respect of such Eligible Financing Entity shall constitute the Obligor's approval of the issuance of Funding Obligations by such Eligible Financing Entity in accordance with the Two Year Forecast.

(3) OPG shall provide the Obligor with an updated Two Year Forecast between 9 and 12 months prior to the expiry of each current Two Year Forecast.

(4) Unless the Obligor provides OPG with a written notice no later than 3 months prior to the date following receipt of the current Two Year Forecast that the Change of Law Assumption Agreement will be inapplicable with respect to new Funding Obligations incurred following the expiry of the current Two Year Forecast, the Obligor will be deemed to approve the application of the Change of Law Assumption Agreement to all Funding Obligations incurred up to the expiry of the new Two Year Forecast.

At the time of issuance of Funding Obligations by an Eligible Financing Entity, the Financing Entity will provide (i) any required certifications to the underwriters/agents that such Funding Obligations are covered by the Change of Law Assumption Agreement; and (ii) notice to the Obligor of the material terms of the Funding Obligations issued, together with electronic copies of the final executed Program Documents.

Hi Gadi, Anna,

I was just noticing that Toby's email included the draft IESO Security Agreement.

We'll have to take a closer look, but I noticed this wording in 3.1(a) on **Covenants**:

The Grantor (IESO) hereby covenants and agrees with the Secured Party (Financing entity) as follows:
Not to pay any other obligations of the Grantor at any time when its Statutory Obligation to pay Carrying Costs is in arrears, except to the extent that such other obligations are satisfied from amounts payable to the Grantor pursuant to Appropriations.

(Where "Appropriations" is defined as under the FAA.)

If there is a carve out for appropriations in this instance, why not otherwise (though, in theory, if the intercept were ever invoked, IESO wouldn't be getting the appropriations).

Malle and I just went over this and had a good discussion. She's going to share this list with Steve and talk to him about what we think is important and what isn't. Mike and I had a conversation just before I spoke to Malle, and the Force Majeure may not be an issue after his conversation with John Lee, and Malle felt that having the Trustee sign the agreement was important. As for the rest, she will have to give it some thought and analysis.

Thanks for all of your help on this.

Process Agreement

- 2.01 Deliveries to the Province
  - No concerns with removing PILS/tax language
- 2.02 Covenants
  - First use of *commercially reasonable efforts* and then throughout
  - Need legal opinion on whether to change to *best efforts*
- 2.02 (b) (iv) Province to review any description of the protection agreement
  - No concerns with this deletion
  - OPG likely to use boilerplate description of the guarantee
- 2.02 (c) Indemnity
  - No concerns, likely a requirement for OPG Board
- 4.01 Protection Agreement Maximum
  - CRITICAL – we can be flexible on the wording but we can't agree to removing Provincial approval of a maximum – compromise option would be to use the Financing Plan number as the Protection Agreement Maximum, the plan will be reviewed by MOE and the assumptions rigorously vetted.
  - Subject to OPCD review/input
- 5.02 Reps and Warranties of the Province
  - No concerns

Protection Agreement

- Need to review the Indemnity Agreement
- 1.17 References to the Financing Entity
  - No concerns with removing Trustee
- 2.09c Modifications of Approved Obligations
  - Why not seek consent of the Province when changing its obligations?
- Article V
  - Edit title to ***Provincial*** *Matters*
- 5.01 Assignment and Subrogation
  - Why remove the subrogation after the Province has taken on the obligations?
- 7.04 Release of All Collateral
  - What is meant by collateral? Would it include sinking funds? If it does, the Province should get the sinking funds, not leave them with OPG
- 9.07 Force Majeure
  - Why remove the Force Majeure clause?

NP Gadi, so Torys' expects to turn around the protection agreement tomorrow morning and assuming our counsel are ok with the revised version, OPG is expecting our sign off in the morning as well.

With regard to the process agreement, I have requested the OPG accountants to run the language that we came up tonight by E&Y to ensure we are all on the same page.

Cindy will also get back to me tomorrow AM and brief me on her discussion with John Mauti and if necessary E&Y as well. This will ensure that what we are doing is confirmed independently as well.

Thanks

Having read OPG's deck, I wonder if the meeting would flow better if we went from Andrew's introduction to their deck, and then finish with the guarantee deck? That way Ministers could see how the financing of the OFHP will be done, and then, with that in their minds, we'd be able to take them through what they'll need to sign to allow the financing to take place and meet OPG's proposed timelines.

Yes, everyone who has an interest in this should be there or on the phone, including Blakes, as the Deputy of TB just made it very clear that this has to be resolved this morning especially as this is going to TB now on the afternoon of the 25th not the 26th to accommodate their appearance at Estimates. This morning's discussion will have to be the last one on this topic.

OPG is saying that the support agreement as written doesn't meet their accounting needs. This needs to be resolved this morning, and hopefully in a manner that doesn't affect what the Minister of Energy signed off yesterday, as he is now gone. Please arrange a meeting for this morning, ideally around 10 because it must end before 11 when I have to leave for a meeting that I can't miss.

I believe the Minister of Energy signed the TB submission yesterday, so, unless I'm missing something about how the TB process works, the time for discussion is over and I'm not sure what the purpose of their working session would be.

Basically, he's focused on the "refinancing" scenario, and I walked him through our intention on the point. On "adherence conditions", he's focused on a minimum $ amount being issued to avoid small issuances that fall through the "adherence" cracks. I said I think the documentation process will not be that fluid and that the documents are very disciplined, so that even small incurrences will involve a process - but that we would here the point out with the group when we meet. Let's delay the Torys meeting, or do it by phone. I think it would be most productive if we could get our mark-up done before, which will take another 30 minutes or so. Steve

Basically, he's focused on the "refinancing" scenario, and I walked him through our intention on the point. On "adherence conditions", he's focused on a minimum $ amount being issued to avoid small issuances that fall through the "adherence" cracks. I said I think the documentation process will not be that fluid and that the documents are very disciplined, so that even small incurrences will involve a process - but that we would here the point out with the group when we meet. Let's delay the Torys meeting, or do it by phone. I think it would be most productive if we could get our mark-up done before, which will take another 30 minutes or so. Steve

Stephen, Malle, Toby,

Just a head's up, our DMO will likely be organizing another meeting with the three Deputies (Finance, TBS, Energy), on Monday, November 20, likely sometime between 11am and 12:30pm and likely somewhere in Macdonald Block (900 Bay Street). The purpose of Monday's meeting will be to bring everyone up to speed on the outstanding issues on the Protection/Process Agreements. I expect an invite to follow, but you may want to hold that time in your calendars for now.

Thank you,

Anna

Thank you Toby. Attached are a few comments from Torys on your re-draft of the term sheet (clean and blacklined to your version – please note that the formatting is not always clear on the blackline but the clean version is fine). One minor note on our comments – you will see that we reinserted the words "or amends" in para (C) of the definition of a Protection Event. If this was deleted because you view this as already being covered in para (D), then we are OK with the deletion.

Please note that the attached only represents Torys comments and does not reflect input from the dealers/Osler. we have sent the Osler Team your re-draft of the term sheet for their review and consideration and, in the interests of time, are cc'ing them on this email so they can also see our comments.

Best,
Rima

Hi all,

We have been reviewing the two agreements over the week-end and had call with Energy Legal and Blakes this morning. We understand that a meeting will be scheduled for tomorrow with the full group to get further instructions on the draft with Blakes' comments that was distributed to the group on Friday for review. We will use the drafts from Friday for the purposes of our meeting tomorrow because they outline the points for our consideration. Thanks.

Please find attached for discussion at our meeting this afternoon Blake's comments on the OPG/Dealer's comments. There are two versions. One shows a blackline against the OPG/Dealer's comments, and the other shows a blackline against what we circulated last week. Note that Stephen has not had a chance to review these in detail, so these are preliminary comments that are subject to further consideration and discussion.

Subject: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.

o Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.

- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.

- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve

under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

James Strang

IV. KEY COMMENTS AND CONSIDERATIONS

Under the ~~Ontario~~ *Fair Hydro Plan Act, 2017*, (~~O~~FHPA), which enables Global Adjustments (GA) Refinancing, the Independent Electricity System Operator (IESO) will have a funding gap during the deferral period, resulting from the reduction in GA amounts collected. The legislation enables IESO to record the under-collection amount of GA in a variance account, ultimately recover this amount in the future, and ~~deems~~provides for the establishment of this under-collected amount to be a "Regulatory Asset".

The OFHPA provides for ~~the~~ IESO to sell all or a portion of the Regulatory Asset (i.e., to sell the right to recover those deferred amounts from specified consumers in the future). Under the ~~O~~FHPA, a Financing Entity (i.e., an entity established or caused to be established by OPG, as the Financial Services Manager under the ~~O~~FHPA) will purchase the regulatory asset, effectively financing the shortfall in current rates not received from the ratepayers.

To purchase the regulatory asset from IESO, the Financing Entity must borrow a portion of the funds (planned to be 51%, with other financing to come from OPG and, indirectly the Province) from the capital markets.

OPG's financial advisors have indicated that without adequate protection against legislative and judicial risk, the debt would not be financeable. OPG, therefore, has advised that the Government of Ontario provide a ~~change of law~~ protection and assurance agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.

- Providing this~~, in a May 2017 TB/MBC item reviewing proposed FHPAOntario Fair Hydro Plan legislation,~~ through Provinciale assurance and guarantee provisions~~,~~ was recommended in a May 2017 TB/MBC item reviewing the proposed FHPA.

What would trigger the protection agreement?

Ontario Financing Authority (OFA), the Ministry of Finance, Ministry of Energy and external advisors – consistent with OPG advice – recommend limiting activation of the protection agreement to the following circumstances (Appendix C provides the non-binding term sheet):

- Actions of the Legislative Assembly that undermine the financing arrangement, i.e., repeal or amendment of the ~~O~~FHPA or new legislation that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investments interest so that it can pay its funding obligations
- A court decision that declares the ability of an OPG Financing Entity to receive amounts on its investment interest so it can pay its funding obligations to be invalid or ~~*unenforceable*~~*ultra vires*; and
- A change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interest so that it can pay its funding obligations~~Changes to the organization, structure or operations of IESO or a change in the electricity market structure or operations that adversely affects the ability of the Financing Entity to receive amounts on its investment interest such that it can pay its specified creditors, including making payments on its debt~~

~~*Note: this third protection event is not included in the current draft of the term sheet agreed to by Ministry of Finance staff; however, OPG is expected to continue to negotiate for its inclusion. It has been included in the TB submission, but may be removed once negotiations are complete, prior to TB/MBC consideration of this item on September 26, 2017.]*~~

….the third bullet isn't change of Law related?…

Commented [AS5]: May or may not be the result of a change of law.

Financial:

If the protection agreement is provided, the Province takes on a contingent liability. The amount of the liability would increase over the duration of Ontario's Fair Hydro Plan (OFHP) ~~the OFHP~~ and peak at approximately $20B ~~an estimated $24B to $26B~~ of debt (final cost forecasts TBC), including principal and accumulated interest.

Commented [HS(6]: This is inconsistent with the Aug 31 Submission

Thought the estimated debt # was lower?

- In the event the protection agreement is triggered, the Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

Financial (Risk) – In the event the protection agreement is triggered:

The Province would be required to pay principal and interest on debt issued by the Financing Entity and other obligations of the Financing Entity as they come due (without acceleration). The Province may also be required to pay other obligations which may include payments under derivatives agreements and to service providers. This would likely have implications for the Province's fiscal plan and appropriation requirements.

- The Province's net debt would be expected to increase by an amount equal to the contingent liability for the debt outstanding at that point in time.
- The Province's interest payments will also increase by the debt interest servicing of the debt payment obligations it will be required to make under the protection agreement. The worst case scenario would be the Province assuming the debt at its peak at which point interest on debt (IOD) expense could increase by an estimated between $0.7~~8~~B and $1.~~3~~0B per annum ~~(final cost forecasts TBC)~~, depending on the interest rate at which the Financing Entity will be able to borrow at and the total amount of borrowing (final cost forecasts TBC).
- In addition there may be additional payments on derivatives agreements and for service providers that the Province will be required to make.

The protection agreement would continue until all guaranteed obligations of the Financing Entity are fully discharged. In addition, the Province would ~~also~~ have the option to directly replace the OPG Financing Entity with respect to its outstanding rights obligations and liabilities, but if the Province decided to do so additional authority would be required.

The Ministries indicate that if the protection agreement is triggered, and the Province becomes responsible for the obligation to service and pay down the debt, that the magnitude of the fiscal impact (~~Interest On Debt (~~IOD~~)~~ expense) will depend on whether or not some portions of the OFHPA continue in some form, or not.

- For example if the ~~If the~~ payment streams from ratepayers via the collection of the Clean Energy Adjustment (CEA) continue, this would offset the debt and interest payments; however, if the CEA is ended (e.g., if the OFHPA is repealed or is determined by a court not

to be constitutional) and not replaced by another authorized charge, the incremental IOD expense would impact the Government's fiscal plan and likely takes away fiscal resources that can be otherwise used.
- Debt incurred to benefit the ratepayer becomes the responsibility of the taxpayer.

This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding on the parties.*

Change of Law Protection Agreement:	A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.
Obligor:	The Province of Ontario, by the Minister of Energy and the Minister of Finance acting together.
Indenture Trustee:	An indenture trustee, acting for itself and on behalf of other persons entitled under an applicable Trust Indenture.
Beneficiaries:	The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.
Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.
Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the General Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are appointed by the Lieutenant Governor in Council

	makes or amends any "regulation" (as defined in Part III of the *Legislation Act, 2006*), in each case, that materially and adversely affects (a) the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims, or (b) the Change of Law Protection Agreement or any of the agreements under which Specified Claims arise, other than if the Indenture Trustee has confirmed in writing that the affect under such agreements is otherwise acceptable; or (B) a court of competent jurisdiction in a final and non-appealable judgement determines that all or a portion of the Act or the Regulation is *ultra vires* in a way that materially and adversely affects the ability of the Financing Entity to receive amounts on its investment interest so that it can pay Specified Claims.

APPENDIX E: PROFILE GLOBAL ADJUSTMENT SMOOTHING FOR RPP – ELIGIBLE ONLY – MAY 2017 TB/MBC SUBMISSION

Commented [HS(9]: Recommend that we don't include this reference.

The following graphic and table shows the multi-year profile of the planned approach to GA Smoothing that was included with the May 2017 TB/MBC Submission. The table below supports the Ministries assessment that the potential contingent liability under the protection agreement over the duration of the OFHP would peak at an estimated $24M to $26B (subject to final cost forecasts TBC), including principal and interest.

Commented [ESP10]: These numbers and the table below are pending finalization of costs forecasts – this work is still ongoing with OPG.

Notes: Assumes 30 year financing period and a nominal interest rate of 5% (compounded monthly). Ratepayer GA payments increase annually beyond 2020 such that the average monthly residential electricity bill increases by 6.3% per year to a maximum of $2.2 billion above the true cost of GA in any given year to cap repayment charges at around 10% of total bill. IESO forecast is based on IESO's revised OPO forecast as of February 2017. Includes the cancellation of LRP II and EFW, expansion of ICI. Does not include smoothed OPG rates. Above residential bill is based on a 750 kWh per month Toronto Hydro customer. Data shown above is by RPP period. Assumes RPP prices are adjusted in July 2021 instead of May 2021 to coincide with the end of the inflation cap. Fair allocation amounts subject to third party review.

APPENDIX F: OVERVIEW OF RISKS

Prepared by TBS staff, the following chart, as part of the May 2017 OFHP implementation update focused on the proposed legislation. It provides an overview of strategic (versus operational) risks to inform the approval/decision making process regarding the proposed legislation. Each part, GA Partial Refinancing & Electricity social programs, is a separate table.

The current submission, ~~Change of Law~~ Provincial Protection Agreement, is reflected under the risk "Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding" (page 16) as part of risk mitigating strategy.

Global Adjustment Partial Refinancing:

Objective: Provide immediate ratepayer relief by capping rate increases at Consumer Price Index (CPI) for four years and refinancing GA costs over a longer period of time. Develop and implement a financing structure that increases provincial borrowing, but has no impact on annual provincial surplus/deficit.

Risk	Level of Risk	Risk Response
The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA smoothing being allocated to the province.	**Risk Likelihood:** Possible **Risk Impact:** Critical **Time Scale:** 6 to 12 months **Rationale:** • The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit. • The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met. • If a favourable legal and accounting treatment is not implemented, there could be a negative impact on the province's fiscal plan up to $2.5B in 2017-18 and rising. • Rating agencies and investors in the Province's debt may view all of the borrowing as an obligation of the Province, especially taking into account the nature of provincial guarantees, which could put pressure on the Province's credit rating and overall borrowing capacity. • Proposed structure may result in a negative response from Ontario Auditor General (OAG) due to previous concerns regarding recognition of rate regulated assets and liabilities. The AG has already expressed concerns regarding the accounting treatment on the IESO's books which could lead to a qualification of the Province's consolidated financial statements. • Initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards.	Risk can be mitigated by: • Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to justify structure of financial model and be utilized in discussions with the OAG. • Identify potential options to minimize the balance of rate regulated assets remaining on the IESO's books at fiscal year-end.

Risk	Level of Risk	Risk Response
Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province.	**Risk Likelihood:** Likely **Risk Impact:** Major **Time Scale:** More than 36 months **Rationale** • The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model). • The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels.	Risk can be mitigated by: • Development of a risk-based outlook, based on an analysis of scenarios, to determine the financial impact of potential changes in variables used in the financial models. • Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases) • Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans.
A legal determination that the Province is spreading the costs of GA financing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional.	**Risk Likelihood:** Medium **Risk Impact:** High **Time Scale:** Long-Term (More than 36 months) **Rationale** • If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments. • Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized. • Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI. • If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required.	Risk can be avoided by: • Imposition of a valid tax. • Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase). • Use of public funds to ease pressure. Risk can be mitigated by: • Improve forecasting model and close monitoring of costs and changes in variables built into model. • Analyze the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure. • Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court.

Risk	Level of Risk	Risk Response
Financing the costs of GA smoothing through OPG SPV/Trust and the volatility of interest rates may increase the cost of GA smoothing and/or require additional provincial funding.	**Risk Likelihood:** Possible **Risk Impact:** Moderate **Time Scale:** 12 to 24 months **Rationale** • The proposed structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on interest rate for borrowing, the amount of equity/funding the province may need to provide and the requirement for a provincial guarantee. • As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing. • If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047. • Beyond 2022, when steep increases are required, there will likely be additional pressure on the government to offset a part of the scheduled increases. • Risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's ratings and cost of borrowing.	Risk can be avoided by: • Province providing a potential guarantee for the cost of borrowing – however, would redirect risk back to the Province and negate benefits of proposed financing structure. Risk can be mitigated by: • Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost. • Proposed legislation to enable GA refinancing has been draft with input from third-party financers. Provides a 'narrow' provincial guarantee and ensuring that debt holders have the right of action against a future government to recover the amount outstanding including interest, fees, expenses and any damages.

Risk	Level of Risk	Risk Response
The determination of the appropriate legal and accounting treatment to be applied to the financing model may result in the costs of GA Refinancing having a fiscal impact to the province.	**Risk Likelihood:** Possible **Risk Impact:** Critical **Time Scale:** 6 to 12 months **Rationale:** • The structure of the GA deferral was designed to result in an increase in provincial borrowing, no increase in net debt and no impact on surplus/deficit. • The proposal assumes GA refinancing does not have a fiscal impact because the legal authority and accounting treatments are met. • If a favourable legal and accounting treatment is not implemented, there would be a negative impact on the province's fiscal plan of up to $2.5B in 2017-18 and rising. • Rating agencies and investors in Province's debt may view all of the borrowing as an obligation of the Province, which could put pressure on the Province's credit rating and overall borrowing capacity. • The proposed structure may result in an opinion from the Ontario Auditor General (OAG) considering previous concerns regarding recognition of rate regulated assets and liabilities. The OAG may take this into account when the provincial books are audited. • An initial assessment of the accounting considerations suggests that the proposed model is in alignment with established accounting standards. Additional analysis is still required.	Risk can be mitigated by: • Commissioning external opinions on the legal, fiscal and accounting requirements, which could be used by the Province to support discussions of the financial model with the OAG.
Uncertainty in the financial model due to dependence on assumptions that are subject to potential volatility may result in higher than anticipated future costs for rate payers and the province.	**Risk Likelihood:** Likely **Risk Impact:** Major **Time Scale:** More than 36 months **Rationale** • The financial model developed is a high level and aggregate model, which is built on independent forecasts. There are a large number of assumptions built into the model explicitly and implicitly (as a larger number of assumptions are embedded into the other forecasts that are used as inputs into the model). • The proposal financing structure will accrue total interest of about $26.2 billion, which is sensitive to many factors, including interest rate, natural gas and carbon prices, generation costs and demand levels.	Risk can be mitigated by: • Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the financial models. • Building permissive language in the legislation and regulations to allow for timely course correction mechanisms (i.e. higher payment amounts and/or rate increases) • Regulations to prescribe the methodology to be applied by the Ontario Energy Board (OEB) to determine electricity rates in response to potential deviation from forecasted financing plans.

Risk	Level of Risk	Risk Response
A legal determination that the Province is spreading the costs of GA refinancing in order to lower the price in the short term by increasing the price in the long term may result in the GA charge characterized as a tax and deemed unconstitutional.	**Risk Likelihood:** Possible **Risk Impact:** Major **Time Scale:** Long-Term (More than 36 months) **Rationale** • If characterized as a tax, the GA charge could be subject to legal challenge and struck down as unconstitutional, allowing consumers to recover their payments. • Likelihood dependent on the extent the government is not able to show a proper match between the cost of providing facilities for electricity generation and the group of consumers who benefit year to year. The bigger the reduction in charges to current consumers, the higher likelihood of the risk being realized. • Internal and external expertise have provided opinion that the proposed structure is constitutionally sound in the short-term (2017-18), but the likelihood of the risk increases in the proceeding four years, which will impact commitment to keep rate increase in line with CPI. • If annual increases in bills or the commodity prices are subject to caps, additional borrowing/provincial funding may be required.	Risk can be avoided by: • Imposition of a valid tax. • Change in policy (i.e. allow greater rate increases during the remainder of the rate mitigation phase and higher increases and payment amounts throughout rate increase and payment phase). • Use of public funds to ease pressure. Risk can be mitigated by: • Improve forecasting model and ongoing monitoring of costs and changes in variables built into model. • Analysis of the costs and benefits of the long lived assets (specifically usability beyond a 20 year period) to assist in determining a supportable GA deferral structure. • Draft legislation with built-in provisions to allow for the balance of the legislation to remain in effect if any particular clause or section is struck down by a court.

Risk	Level of Risk	Risk Response
Refinancing GA costs through an OPG SPV Trust may increase costs and/or require provincial funding.	**Risk Likelihood:** Possible **Risk Impact:** Major **Time Scale:** 12 to 24 months **Rationale** • The proposed borrowing structure will be reviewed by credit agencies to allow OPG to borrow in the open market. Depending on assessment, there may be an impact on the interest rate for borrowing, the amount of equity / funding the province may need to provide and the requirement for a provincial guarantee. • As the OPG SPV/Trust will be borrowing in its own corporate capacity from the public markets, it will likely incur a higher interest cost compared to the Province's borrowing. • There is a risk that credit rating agencies may perceive OPG SPV/Trust's borrowing as debt supported by Province, impacting Province's own ratings and cost of borrowing. • If the Trust can't raise the full funding requirements, additional cash injections would be required. If the borrowing cap of $28B (in the March 1, 2017 Cabinet Submission) is reached sooner than forecast, the province may have to provide incremental funding to float the program to 2047. • Beyond 2022, when steep increases are required, there will likely be additional pressure on the province to offset a part of the scheduled increases. • Fiscal impacts will be subject to fluctuations in Ontario electricity demand, GA and interests rates in the medium-to long term. As well as if a protection agreement is called upon: o OPG, has advised that the Government of Ontario provide a change of law protection agreement to the Financing Entity and prospective debt holders such that, under certain circumstances, the Province would pay the funding obligations of the Financing Entity.	Risk can be mitigated by: • Providing a "provincial guarantee" for the cost of borrowing. • Drafting legislation to provide assurance to OPG and investors regarding the permanence of the GA refinancing framework and the authority of the legislation to pass the legislation; and enable the Province to guarantee borrowing of the trust in the event of a market disruption. • Specifics of a guarantee are dependent on the negotiation of agreements not yet initiated. Limiting triggers of a protection agreement to legislative (regulatory) changes and/or judicial decisions etc. • Equity injections from the province to support OPG as the owner and manager of GA refinancing and allow OPG to strengthen the capital structure of the Trust in order to secure financing at a reasonable cost.

Electricity social programs (Enhancing Electricity Support & Conservation Programs):

Objective: Shift funding of existing and new electricity support programs (RRRP, OESP, Affordability Fund, First Nations Credit) from rate to tax base.

Risk	Level of Risk	Risk Response
Uncertainty in forecasting due to exposure to changes and/or volatility (i.e. interest rates, electricity usage patterns, and distribution costs) may result in higher than anticipated fiscal impacts for the Province.	**Risk Likelihood:** Possible **Risk Impact:** Major **Timescale:** 12 to 24 months **Rationale:** • The energy sector is complex and a number of key assumptions used as inputs into forecasting model are variables/forecasts themselves, resulting in a high inherent risk that cost estimates are inaccurate. • Fiscal projection is highly dependent on factors which can fluctuate from year to year, including: o electricity usage; o distributions costs; and o consumer consumption patterns that may change due to extreme weather or other factors. • Fiscal projection is subject to knowledge of future distribution costs and dependent on submission of cost of service applications by Hydro One and LDCs. o Enhanced RRRP may create disincentives from the eligible LDCs towards productivity and performance improvements and/or cause ineligible LDC's to drive up distribution costs to gain access to program.	Risk can be mitigated by: • Development of a risk-based outlook, based on an analysis of scenarios, to determine the sensitivity and financial impact of potential changes in variables used in the forecasting models.

Subject: Provincial Support Agreement (Fair Hydro Plan) - Sept 26 TB/MBC

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. Please clarify. The working title of the agreement is the Provincial Protection Agreement; however it is still subject to change.

    - Regarding the third trigger, is this in or out? If in, is there any consideration being given to the Province to narrow the very broad scope? The third trigger is in and it's been narrowed to ensure only a change that adversely impacts the ability of the Financing Entity to collect payments would trigger the protection agreement.

- What are derivative agreements? Payments under derivative agreements? Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt.

- Does the Province have any consideration/protection regarding the subsequent form of obligations, securities/derivatives that can be brought/offered to the market? The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period.

- Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

Yes I think that our previous discussion was that if there were any material changes we would go back to TB and certain items were left in square brackets with a note to show that they are subject to further negotiation.

Hi Malle,

Thank you for your thorough and thoughtful review.

Just getting back to you now on your two comments:

· The TB analyst has asked whether to minute the attachment or to include key parameters of the term sheet in the minute – I'm inclined to stick with referring to the term sheet in the minute. The language in the term sheet was "litigated" enough that I fear misrepresenting any parameters when they are summarized for the purpose of a minute. I agree with you that recommending TB approve the Ministers entering into the agreement, based on the current term sheet, would remove the possibility of subsequent revisions to the term sheet.

· Attaching a draft of the OIC to refer to in the minute – I don't think this is required, nor is it typically done, but we could certainly provide the draft to James for his reference.

Here are my comments on the analyst's note.

p. 1 Recommendations
- second recommendation, remove "to" after "Ministry of Energy"
- third recommendation, should this refer to the draft OIC that is attached. Don't know whether the TB submission itself references a draft OIC being attached?

p. 2 "What would trigger the protection agreement?"
- second bullet re: court decision, change wording from "invalid or unenforceable" to "invalid or ultra vires" to

match most recent version of term sheet
- third bullet – the third event has now been inserted into the term sheet as “there is a change in the organization or structure of the IESO or Ontario’s electricity market undertaken at the initiative of the Province or an entity controlled by the Province that adversely affects the ability of an OPG Financing Entity to receive amounts relating to its investment interst so that it can pay its funding obligations.

p. 4 See the comments in the proposed first minute asking whether there is a desire to minute the attachment or to include key parameters in minute only given the request for a “subject to revisions provision”. I am not sure how we wish to answer this question. Putting in only key parameters would broaden the 2 Ministers’ discretion to agree to revisions to the term sheet. Possibly if we were to do this, are the essential parameters really the “Protection Events”, and “Obligation re: pay specified claims? Comments on this?

p. 4 Regarding second minute – should it reference a draft form of OIC attached?

Regarding the questions posed by the analyst, here is a start on some of those.

1. Third trigger is in now.

2. Derivatives agreements are financial contracts entered into by parties to hedge financial risk associated with borrowing for example. In this particular circumstances, the Financing Entity might enter into interest rate swap agreements to hedge the interest rate payable on its issued debt [need description of interest rate swaps and what might be done here – fix floating rate debt – anything else?]
3. The Minister of Finance and Minister of Energy will negotiate terms and conditions as part of the proposed protection agreement that would provide a process for determining which future obligations, securities/derivatives would have the benefit of the protection agreement. The process and framework is currently under development but may include approving standard terms and conditions of debt issuances in advance, setting a maximum amount of debt that may be issued within a period….
4. The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Hi

As a an addendum to my previous email, Gadi suggests that we limit the range from 4.2% to 5.0% and ignore the 3.5% which appears to be too low based on current rates. As such the range in the

TB submission will be $0.8B to $1.0B.

Pls let me know if that works from your perspective.

Thanks

Hi Ron and John

The previous IOD impact estimate that was also shared with the OAG assumed interest rates of 5.0, 4.2 and 3.5. At this point in time I don't believe there's much value added in a detailed assessment, rather a simple application of the max and the minimum to the peak debt of $20B should suffice. This translates into an IOD range of $0.7B to $1.0B (the reference is to be found on page 3 of the attached).

Thanks and pls let me know if this makes sense.

Hi Ken,

Attached is the consolidated comments on the TBS analyst's note. At this morning's meeting with Energy, MOF, and TBS, Steen confirmed that latest estimate for peak debt is $20B (not $24 to $26B as previously estimated). I expect this will impact our IOD estimate – would you be able to provide a revised estimate for IOD? It will need to be included in an updated submission for the Minister tomorrow.

Hi Gadi,

Attached for your review, is the TBS Assessment note, with comments and track changes from Energy (Steen's group), MOF Legal (Malle) and OFA (Ken and myself). We've also responded to a few of the analyst's questions below in red.

The only comment from Energy that will require follow-up is Steen's cost estimates (he recalls peak debt for the program at $20B whereas we have used the $24B to $26B estimate). I'll follow up with Energy and OFA staff on this.

Thanks, Anna

Hi,

Attached is a draft TB/MBC note based on draft submission version 8 (also attached). I've heard there is another updated version on the way. Please provide an update of timing for Ministers signing from both Ministries.

Below are questions, hopefully responses can be provided in advance of Chair's pre-brief on Wednesday afternoon (so responses by Wednesday morning to include in revised note, if needed).

- Draft sub takes about a Change of Law Protection Agreement and identifies three triggers. The first two make sense talking about legislative/regulation changes and judicial changes, the third dealing changes within IESO adversely impacting the Financing Entity does seem to be related to change of law. - Following this submission, will there be the typical submissions seeking s28 FAA approvals for the guarantee or indemnification provided? If not, how does the requested minute cover off s28 FAA? The Minister of Finance will be asked to approve for the purpose of FAA s. 28 the 2 Ministers seeking the OIC in the form attached. The Minister of Finance will also be requested to approve under FAA s. 28 the final form of protection agreement to be entered into by the Minister of Energy and the Ministry of Finance as authorized by the OIC.

Thanks in advance,

Hi Malle, I'd originally thought that we'd be briefing the Ministers soon, but I'm not sure given where the discussions have gone over the past couple of days whether that's the case anymore.

We have our regular working group meeting including the Deputies and all of the electricity agencies tomorrow morning where timing may become clearer, but I realize that doesn't help with your questions given Steve's travel schedule. Away from the timing, I think that your suggestions on content make sense.

I've added my colleagues at the OFA, as they may have heard more from Energy or OPG today. Anna could also check in with our DMO to see whether they have expectations around timing, but my feeling is that they're waiting to hear from us on recommendations.

Thanks,
Gadi

At our morning meeting it was decided that the target date for the tri-Minister meeting would be next Thursday the 30th. If Andrew can't get the three Ministers together for the 30th, which is the preferred date, the fallback would be Monday the 4th.

I had mentioned Steve that there would be a briefing at some point and asked him to prepare some slides describing a legal summary of the agreements which could be attached to any briefing materials being prepared for the briefing. One of the other items that would have to be signed by the Minister of Finance is a 28 approval of the 2 Ministers entering into the other agreements so there should be some briefing material on this point as well.

Steve is going to be out of the country beginning tomorrow for a week or so and he is preparing these materials and lining up counsel who will be covering for him during this period. At this point, we don't know who will be at the briefing and whether we would like Blakes' to attend but he will line up someone and possibly be available by telephone if we would like.

If you have any more information on the timing and content of the briefing and who would be expected to be there it would be appreciated so I can pass this on to Steve today.

Thanks.

Hi Ken.

The issue we face is that investors will expect to know with certainty that the PA applies, without looking into the satisfaction of detailed and potentially subjective conditions (e.g., materiality). That is why we have provided for simple and objective pre-conditions (i.e., delivery of a prescribed form of closing certificate).

If we incorporate specific conditions into the FE's constating documents, then non-compliance could vitiate the PA obligation - meaning that investors/underwriters would need to satisfy themselves that all of the constating conditions have in fact been met. That is the opposite of simplicity and introduces a possible. 'gotcha' scenario.

I think that the Province needs to land firmly on the extent to which conditions of a closing are needed for its benefit and whether it will be willing to accept the consequences if the conditions do not mitigate all of the gaps (e.g., OPG errors or close calls).

While I think we have discussed the possible gaps a few times, it is not too late to impose more rigour, likely in the form of the Province being actively involved in processing individual incurrence and due diligence at the time of a closing.

I suggest that we have a discussion this morning to make sure we all have a common understanding of the proposed incurrence adherence process and the possible gaps and risks to the Province that will remain.

I am generally around this morning so please call when it's convenient for you.

Thanks Stephen for the clarification.

My objective in putting forward this suggestion was to eliminate any possibility of the FE issuing debt that may contravene the Protection Agreement (PA). As it stands, theoretically the FE can issue debt that falls outside the PA though it will not be guaranteed by the Province. The problem conceivably arises with regard to any debt issues that are very close to the line drawn by the PA and the consequent need for due diligence on the part of the Province on an issue by issue basis, all of which can be eliminated or at least alleviated by the incorporation of negative covenants.

Pity that it is not possible.

Thanks

Ken, it is not advisable to incorporate negative covenants in the FE's incorporation documents. That approach would raise ultra vires issues, which could cast doubt on the efficacy of particular debt issues. I was anticipating negative covenants in the Change of Law Protection Agreement. Happy to discuss. Steve

Hi Toby

These reflect that changes we discussed yesterday and can be sent out subject to any comments from Mike and Carlos. However, as per my conversation with Malle and subsequently with Gadi, we are running out of time and need to come to a meeting of the minds with OPG on this issue.

To that extent perhaps we can move towards finalizing this issue sometime next week and in order to do so indicate in the covering email to OPG that we would like them to review the September 27th document from the perspective of what impacts on the integrity of the proposed accounting treatment and get back to us hopefully Monday.

That will provide us with a baseline that can be either accepted or tweaked within reasonable limits allowing the process to move forward. With regard to the "failsafe" it may be useful to mention in the covering email that we are open to making changes.

I would also request that we include if possible in the email that the incorporation documents of the Financing Entity include a clause that prohibits the FE from issuing debt that contravenes the terms of the Guaranty. This along with the attestation or certificate for each debt issue should in my opinion constitute a reasonable safeguard of the Province's interests. Not sure whether this will also impact on the integrity of the accounting but we won't know until we ask.

Thanks

We wanted to touch base with you again before we send the response because OPG had the question "Please also advise if the Province's accountants have reviewed the proposal." In their email to the Province so wanted to respond to that along the lines of the following if it's ok with you.

"The Province's accountants are involved in this process and are also reviewing the proposal."

Thanks.

Hi Cindy,

I am following up regarding the conference call yesterday. At the end of the meeting, the group decided that it was best to respond to OPG with general comments along the lines of what was in the draft comments reviewed at the meeting and highlighting in particular that we would like to receive specific comments on the draft process sent on September 27, 2017.

I understand that you will be reviewing these materials today and we are hoping that you can provide your comments back to the group today so that we can take them into account in the Province's response.

Thank you for your assistance – we know that you are pressed with many priority items.

FYI, regarding the addition of the reporting requirement in 2.01(c) of the Process Agreement (re waivers, etc. – previously in 2.09 of the Protection Agreement), OPG asked that we change it from 10BD advance notice to promptly after implementation. They are concerned with the accounting/control implications as currently written. I said that I would pass this concern on to you with my recommendation that we can live with it (based on the context of our 'after the fact review approach' generally). John was happy with that but asked if he could tell his Board that the Province would be okay with that change. I told him he could say that he spoke to external counsel for the Province who understood the point and thought that it should probably be okay. If you want to talk about the point with me, I'm happy to discuss. Hope that all makes sense. Steve

Hi Stephen

I can see the issue from an accounting perspective and have no objection to the change assuming my colleagues have no objection as well.

To be on the safe side I am cc'ing Cindy and Mark in case they wish to provide additional input.

Thanks

Subject: FW: UPDATED - Fair Hydro -- Change of Law Agreements

Hi all,

I have reviewed the agreements and think there are quite a few issues to discuss as a result of the mark-up. I wonder if it would work best to have a provincial legal call on Monday morning to go over the revised drafts and then have a call with our clients at the OFA and Energy afterwards? Below are some of the issues I have identified on a preliminary basis for discussion. There may be additional issues and perhaps some of these points can be worked through with more detail review.

Protection Agreement

- <!--[if !supportLists]--><!--[endif]-->2.01 (a)(iv)(B) – does revised wording work – would be good to work through this wording.
- <!--[if !supportLists]--><!--[endif]-->2.08 – change to wording re continuance of guarantee
- <!--[if !supportLists]--><!--[endif]-->4.01 – they have added back ability of Province to specifically agree that a particular Approved Obligation is covered – wonder why? And it should be in writing – not sure what our original wording on this point was
- <!--[if !supportLists]--><!--[endif]-->4.02 (b) – they have changed reference to content of certificate to Indenture Trustee (on behalf of bondholders, etc, other parties secured under trust indenture) to confirm that all certifications required by the Province have been provided instead of OPG confirming that all of its obligations to Province and internal requirements and processes in connection with adherence of Limited Guarantee have been done. This is linked to another major change they have proposed to the Process Agreement – looks like they are reducing OPG's

obligations to provide certificates to the Province to mirror those that OPG is providing to the Indenture Trustee. This is a significant point and reduces OPG's obligations under the Process Agreement quite a bit and was not discussed at last Tuesday's meeting.

<!--[if !supportLists]--><!--[endif]-->4.02(c) – Why delete in respect of which Adherence Conditions have been satisfied – not sure that concept is picked up elsewhere.

<!--[if !supportLists]--><!--[endif]-->6.01 – Assumption is changed to case by case which means the right has to be built into the proposed warehouse and term loan documents now if it is to be available. They also deleted OPG's obligation to make efforts to include this in funding obligations in general from the Process Agreement.

<!--[if !supportLists]--><!--[endif]-->6.05 – If the Province did assume on a case by case, then doesn't Province get rights to collateral or atleast part?

<!--[if !supportLists]--><!--[endif]-->7.03 – What reps does the Indenture Trustee give in the Master Trust Indenture and Supplementals? If Trustee gives them there, why not here? Perhaps we should require them to get a legal opinion.

<!--[if !supportLists]--><!--[endif]-->8.01 – Have not reviewed against previous wording but it looks like the suspension right is being reduced because it is limited to incurrence o amendment of Primary Obligations rather than breach of the Process Agreement more generally.

<!--[if !supportLists]--><!--[endif]-->9.01 - Do the comments about the Termination notice make sense?

<!--[if !supportLists]--><!--[endif]-->Defined Term Approved Obligation Amount, Certified Primary Obligations, and others – needs to be reviewed

Process Agreement

<!--[if !supportLists]--><!--[endif]-->Have moved delivery of initial financing plan and forecast amount and Province's failure to object to recitals for timing reasons – agree that there are timing logistics that need to be worked out, but the ability of Provincial representatives to take such actions flows from Ministers power to provide the guarantee – Province needs to develop the best way to deal with these timing issues that works with our authorities and rewrite these provisions. This also applies to "Reference Documents" concept.

<!--[if !supportLists]--><!--[endif]-->3.01 – OPG has revised so it will only provide a certificate to Province if it

is required to provide a certificate under Protection Agreement to Trustee – This is a significant change that Province needs to consider. The reason that we agreed to provide a certificate in more limited circumstances to Indenture Trustee (on behalf of beneficiaries) was to assist dealers on “certainty” issues. The same principle does not apply to the Province and OPG relationship which is a separate process.

<!--[if !supportLists]-->- <!--[endif]-->3.02 – Not sure what OPG is proposing here.

<!--[if !supportLists]-->- <!--[endif]-->6.05 – delete obligation on OPG to cause Financing Entity to use commercially reasonable efforts to include assignment provisions in funding obligations – why?

<!--[if !supportLists]-->- <!--[endif]-->7.01 – deleted suspension right in process agreement on basis that it is now in protection agreement but it is more limited.

Please let me know what time would work for you on Monday morning. I am going to pass on this email to OFA staff as well so they get a preliminary sense of the mark-up.

Thanks.

Blakes team,

Please find attached consolidated comments from the dealers and OPG (and their counsels) on the draft documents circulated below. These changes are drafting changes and clean up changes that reflect our discussions from earlier this week where we addressed all the open business points. Where we changed a concept or revised the drafting, we provided an explanation in the footnote to assist in your review.

The one substantive point we think requires further discussion is on the assumption mechanics; we understand that the Province is no longer seeking an exchange right. Once you have digested these new drafts, we'd like to schedule a lawyers call early next week to finalize them.

Best Regards,
Nina

Hi Rima. Here are my mark-ups of the agreements Torys circulated yesterday afternoon. These versions have not been reviewed by the Province, but are being circulated to this group to facilitate a discussion shortly at your office. They are/remain subject to Province input, etc. We propose to gather at your office at 5:45, if that makes sense to you. Regards, Steve

Thanks, Malle. It looks like they took more of a hatchet than a scalpel to the agreements again, which is unfortunate, but I suppose we should expect that by now.

I don't want to hold this up at all, so please don't let my schedule get in the way of a call if it doesn't match the needs of others. My available times tomorrow are from 11-12, 3:30-4 and 4:30 onwards, but please proceed with the call whenever it best suits everyone else.

Hi all,

Please see my email to the provincial legal group after my preliminary review of the mark-ups. There do seem to be a number of points to discuss and I'm sure that Blakes will be able to better identify others. Perhaps an internal provincial call sometime on Monday could be arranged.

Thanks.

Subject: FW: UPDATED - Fair Hydro -- Change of Law Agreements

Hi all,

I have reviewed the agreements and think there are quite a few issues to discuss as a result of the mark-up. I wonder if it would work best to have a provincial legal call on Monday morning to go over the revised drafts and then have a call with our clients at the OFA and Energy afterwards? Below are some of the issues I have identified on a preliminary basis for discussion. There may be additional issues and perhaps some of these points can be worked through with more detail review.

Protection Agreement

- 2.01 (a)(iv)(B) – does revised wording work – would be good to work through this wording.

- 2.08 – change to wording re continuance of guarantee

- 4.01 – they have added back ability of Province to specifically agree that a particular Approved Obligation is covered – wonder why? And it should be in writing – not sure what our original wording on this point was

- 4.02 (b) – they have changed reference to content of certificate to Indenture Trustee (on behalf of bondholders, etc, other parties secured under trust indenture) to confirm that all certifications required by the Province have been provided instead of OPG confirming that all of its obligations to Province and internal requirements and processes in connection with adherence of Limited Guarantee have been done. This is linked to another major change they have proposed to the Process Agreement – looks like they are reducing OPG's obligations to provide certificates to the Province to mirror those that OPG is providing to the Indenture Trustee. This is a significant point and reduces OPG's obligations under the Process Agreement quite a bit and was not discussed at last Tuesday's meeting.

- 4.02(c) – Why delete in respect of which Adherence Conditions have been satisfied – not sure that concept is picked up elsewhere.

- 6.01 – Assumption is changed to case by case which means the right has to be built into the proposed warehouse and term loan documents now if it is to be available. They also deleted OPG's obligation to make efforts to include this in funding obligations in general from the Process Agreement.

- 6.05 – If the Province did assume on a case by case, then doesn't Province get rights to collateral or atleast part?

- 7.03 – What reps does the Indenture Trustee give in the Master Trust Indenture and Supplementals? If Trustee gives them there, why not here? Perhaps we should require them to get a legal opinion.

- 8.01 – Have not reviewed against previous wording but it looks like the suspension right is being reduced because it is limited to incurrence o amendment of Primary Obligations rather than breach of the Process Agreement more generally.

- 9.01 - Do the comments about the Termination notice make sense?

- Defined Term Approved Obligation Amount, Certified Primary Obligations, and others – needs to be reviewed

Process Agreement

- Have moved delivery of initial financing plan and forecast amount and Province's failure to object to recitals for timing reasons – agree that there are timing logistics that need to be worked out, but the ability of Provincial representatives to take such actions flows from Ministers power to provide the guarantee – Province needs to develop the best way to deal with these timing issues that works with our authorities and rewrite these provisions. This also applies to "Reference Documents" concept.

- 3.01 – OPG has revised so it will only provide a certificate to Province if it is required to provide a certificate under Protection Agreement to Trustee – This is a significant change that Province needs to consider. The reason that we agreed to provide a certificate in more limited circumstances to Indenture Trustee (on behalf of beneficiaries) was to assist dealers on "certainty" issues. The same principle does not apply to the Province and OPG relationship which is a separate process.

- 3.02 – Not sure what OPG is proposing here.

- 6.05 – delete obligation on OPG to cause Financing Entity to use commercially reasonable efforts to include assignment provisions in funding obligations – why?

- 7.01 – deleted suspension right in process agreement on basis that it is now in protection agreement but it is more limited.

Please let me know what time would work for you on Monday morning. I am going to pass on this email to OFA staff as well so they get a preliminary sense of the mark-up.

Thanks.

Thanks, Malle. It looks like they took more of a hatchet than a scalpel to the agreements again, which is unfortunate, but I suppose we should expect that by now.

I don't want to hold this up at all, so please don't let my schedule get in the way of a call if it doesn't match the needs of others. My available times tomorrow are from 11-12, 3:30-4 and 4:30 onwards, but please proceed with the call whenever it best suits everyone else.

Gadi

I wonder if it would work best to have a provincial legal call on Monday morning to go over the revised drafts and then have a call with our clients at the OFA and Energy afterwards? Below are some of the issues I have identified on a preliminary basis for discussion. There may be additional issues and perhaps some of these points can be worked through with more detail review.
>
> Protection Agreement
> <!--[if !supportLists]-->- <!--[endif]-->2.01 (a)(iv)(B) – does revised

wording work – would be good to work through this wording.

- <!--[if !supportLists]-->- <!--[endif]-->2.08 – change to wording re continuance of guarantee
- <!--[if !supportLists]-->- <!--[endif]-->4.01 – they have added back ability of Province to specifically agree that a particular Approved Obligation is covered – wonder why? And it should be in writing – not sure what our original wording on this point was
- <!--[if !supportLists]-->- <!--[endif]-->4.02 (b) – they have changed reference to content of certificate to Indenture Trustee (on behalf of bondholders, etc, other parties secured under trust indenture) to confirm that all certifications required by the Province have been provided instead of OPG confirming that all of its obligations to Province and internal requirements and processes in connection with adherence of Limited Guarantee have been done. This is linked to another major change they have proposed to the Process Agreement – looks like they are reducing OPG's obligations to provide certificates to the Province to mirror those that OPG is providing to the Indenture Trustee. This is a significant point and reduces OPG's obligations under the Process Agreement quite a bit and was not discussed at last Tuesday's meeting.
- <!--[if !supportLists]-->- <!--[endif]-->4.02(c) – Why delete in respect of which Adherence Conditions have been satisfied – not sure that concept is picked up elsewhere.
- <!--[if !supportLists]-->- <!--[endif]-->6.01 – Assumption is changed to case by case which means the right has to be built into the proposed warehouse and term loan documents now if it is to be available. They also deleted OPG's obligation to make efforts to include this in funding obligations in general from the Process Agreement.
- <!--[if !supportLists]-->- <!--[endif]-->6.05 – If the Province did assume on a case by case, then doesn't Province get rights to collateral or atleast part?
- <!--[if !supportLists]-->- <!--[endif]-->7.03 – What reps does the Indenture Trustee give in the Master Trust Indenture and Supplementals? If Trustee gives them there, why not here? Perhaps we should require them to get a legal opinion.
- <!--[if !supportLists]-->- <!--[endif]-->8.01 – Have not reviewed against previous wording but it looks like the suspension right is being reduced because it is limited to incurrence o amendment of Primary Obligations rather than breach of the Process Agreement more generally.
- <!--[if !supportLists]-->- <!--[endif]-->9.01 - Do the comments about the Termination notice make sense?
- <!--[if !supportLists]-->- <!--[endif]-->Defined Term Approved Obligation Amount, Certified Primary Obligations, and others – needs to be reviewed

Process Agreement

<!--[if !supportLists]-->- <!--[endif]-->Have moved delivery of initial financing plan and forecast amount and Province's failure to object to recitals for timing reasons – agree that there are timing logistics that need to be worked out, but the ability of Provincial representatives to take such actions flows from Ministers power to provide the guarantee – Province needs to develop the best way to deal with these timing issues that works with our authorities and rewrite these provisions. This also applies to "Reference Documents" concept.

<!--[if !supportLists]-->- <!--[endif]-->3.01 – OPG has revised so it will only provide a certificate to Province if it is required to provide a certificate under Protection Agreement to Trustee – This is a significant change that Province needs to consider. The reason that we agreed to provide a certificate in more limited circumstances to Indenture Trustee (on behalf of beneficiaries) was to assist dealers on "certainty" issues. The same principle does not apply to the Province and OPG relationship which is a separate process.

<!--[if !supportLists]-->- <!--[endif]-->3.02 – Not sure what OPG is proposing here.

<!--[if !supportLists]-->- <!--[endif]-->6.05 – delete obligation on OPG to cause Financing Entity to use commercially reasonable efforts to include assignment provisions in funding obligations – why?

<!--[if !supportLists]-->- <!--[endif]-->7.01 – deleted suspension right in process agreement on basis that it is now in protection agreement but it is more limited.

Please let me know what time would work for you on Monday morning. I am going to pass on this email to OFA staff as well so they get a preliminary sense of the mark-up.

Thanks.

Blakes team,

Please find attached consolidated comments from the dealers and OPG (and their

counsels) on the draft documents circulated below. These changes are drafting changes and clean up changes that reflect our discussions from earlier this week where we addressed all the open business points. Where we changed a concept or revised the drafting, we provided an explanation in the footnote to assist in your review.

The one substantive point we think requires further discussion is on the assumption mechanics; we understand that the Province is no longer seeking an exchange right. Once you have digested these new drafts, we'd like to schedule a lawyers call early next week to finalize them.

Best Regards,
Nina

Blakes team,

Please find attached consolidated comments from the dealers and OPG (and their counsels) on the draft documents circulated below. These changes are drafting changes and clean up changes that reflect our discussions from earlier this week where we addressed all the open business points. Where we changed a concept or revised the drafting, we provided an explanation in the footnote to assist in your review.

The one substantive point we think requires further discussion is on the assumption mechanics; we understand that the Province is no longer seeking an exchange right. Once you have digested these new drafts, we'd like to schedule a lawyers call early next week to finalize them.

Best Regards,
Nina

Hi Rima. Here are my mark-ups of the agreements Torys circulated yesterday afternoon. These versions have not been reviewed by the Province, but are being circulated to this group to facilitate a discussion shortly at your office. They are/remain subject to Province input, etc. We propose to gather at your office at 5:45, if that makes sense to you. Regards, Steve

Hi all

If there is flexibility at all on the Ministers briefing Monday Dec 4th would be better than Nov 30th because Steve will be back and also it will allow us more time to finalize these agreements.

Thanks

Hi Nina

I'm not sure that this timeframe is doable as we have to review and consult with clients before having this call . I think Tuesday is probably more reasonable to give us time to review the draft that we received late this afternoon coming out of comments at a meeting last Tuesday evening

Thanks

Provincial legal/Blakes/Oslers teams,

As a follow up to my email below and given the challenges with all our schedules, we thought it prudent to block off some time on Monday to discuss the revised Change of Law Agreements. I can confirm that Torys is available for a call between 9:30 am and 2 pm on Monday. Please let us know what times work for you in that window and we will circulate a dial-in.

Best Regards,
Nina

Blakes team,

Please find attached consolidated comments from the dealers and OPG (and their counsels) on the draft documents circulated below. These changes are drafting changes and clean up changes that reflect our discussions from earlier this week where we addressed all the open business points. Where we changed a concept or revised the drafting, we provided an explanation in the footnote to assist in your review.

The one substantive point we think requires further discussion is on the assumption mechanics; we understand that the Province is no longer seeking an exchange right. Once you have digested these new drafts, we'd like to schedule a lawyers call early next week to finalize them.

I wonder if it would work best to have a provincial legal call on Monday morning to go over the revised drafts and then have a call with our clients at the OFA and Energy afterwards? Below are some of the issues I have identified on a preliminary basis for discussion. There may be additional issues and perhaps some of these points can be worked through with more detail review.

change to wording re continuance of guarantee

<!--[if !supportLists]-->- <!--[endif]-->4.01 – they have added back ability of Province to specifically agree that a particular Approved Obligation is covered – wonder why? And it should be in writing – not sure what our original wording on this point was

<!--[if !supportLists]-->- <!--[endif]-->4.02 (b) – they have changed reference to content of certificate to Indenture Trustee (on behalf of bondholders, etc, other parties secured under trust indenture) to confirm that all certifications required by the Province have been provided instead of OPG confirming that all of its obligations to Province and internal requirements and processes in connection with adherence of Limited Guarantee have been done. This is linked to another major change they have proposed to the Process Agreement – looks like they are reducing OPG's obligations to provide certificates to the Province to mirror those that OPG is providing to the Indenture Trustee. This is a significant point and reduces OPG's obligations under the Process Agreement quite a bit and was not discussed at last Tuesday's meeting.

<!--[if !supportLists]-->- <!--[endif]-->4.02(c) – Why delete in respect of which Adherence Conditions have been satisfied – not sure that concept is picked up elsewhere.

<!--[if !supportLists]-->- <!--[endif]-->6.01 – Assumption is changed to case by case which means the right has to be built into the proposed warehouse and term loan documents now if it is to be available. They also deleted OPG's obligation to make efforts to include this in funding obligations in general from the Process Agreement.

<!--[if !supportLists]-->- <!--[endif]-->6.05 – If the Province did assume on a case by case, then doesn't Province get rights to collateral or atleast part?

<!--[if !supportLists]-->- <!--[endif]-->7.03 – What reps does the Indenture Trustee give in the Master Trust Indenture and Supplementals? If Trustee gives them there,

why not here? Perhaps we should require them to get a legal opinion.

<!--[if !supportLists]-->- <!--[endif]-->8.01 – Have not reviewed against previous wording but it looks like the suspension right is being reduced because it is limited to incurrence o amendment of Primary Obligations rather than breach of the Process Agreement more generally.

<!--[if !supportLists]-->- <!--[endif]-->9.01 - Do the comments about the Termination notice make sense?

<!--[if !supportLists]-->- <!--[endif]-->Defined Term Approved Obligation Amount, Certified Primary Obligations, and others – needs to be reviewed

Process Agreement

<!--[if !supportLists]-->- <!--[endif]-->Have moved delivery of initial financing plan and forecast amount and Province's failure to object to recitals for timing reasons – agree that there are timing logistics that need to be worked out, but the ability of Provincial representatives to take such actions flows from Ministers power to provide the guarantee – Province needs to develop the best way to deal with these timing issues that works with our authorities and rewrite these provisions. This also applies to "Reference Documents" concept.

<!--[if !supportLists]-->- <!--[endif]-->3.01 – OPG has revised so it will only provide a certificate to Province if it is required to provide a certificate under Protection Agreement to Trustee – This is a significant change that Province needs to consider. The reason that we agreed to provide a certificate in more limited circumstances to Indenture Trustee (on behalf of beneficiaries) was to assist dealers on "certainty" issues. The same principle does not apply to the Province and OPG relationship which is a separate process.

<!--[if !supportLists]-->- <!--[endif]-->3.02 – Not sure what OPG is proposing here.

<!--[if !supportLists]-->- <!--[endif]-->6.05 – delete obligation on OPG to cause Financing

Entity to use commercially reasonable efforts to include assignment provisions in funding obligations – why?

<!--[if !supportLists]-->- <!--[endif]-->7.01 – deleted suspension right in process agreement on basis that it is now in protection agreement but it is more limited.

Please let me know what time would work for you on Monday morning. I am going to pass on this email to OFA staff as well so they get a preliminary sense of the mark-up.

Thanks.

Hi,

Looks okay to me, but we might anticipate a Follow-up on what the issues are, positions, options and a path forward to resolution.

> Hi Anna,

I am not sure what should be included about current status in terms of the response we received from Torys/OPG today setting out a new proposal and the ability to resolve those issues before OPG's board meeting tomorrow. Although yesterday at noon it seemed that we were not too far away from finalization, a number of new points and proposed revisions have been raised by OPG and the dealers on the draft that the Province sent last Friday Nov 17th. .

The Province is continuing to negotiate the terms of the Change of Law Protection Agreement and related Process Agreement with OPG and the dealers.

Hi Sarah, Hilary,

Apologies for the urgent email, but we are seeking your input on a very short timeline. The attached deck was prepared by Blakes, with input from MOF Legal (in red text), for use at the Ministers' briefing tomorrow at noon re: the Provincial Protection Agreement for the OFHP. I'd like to have this track to each of our DMOs by 3pm today, for transmittal to MOs before eod.

Hilary – Energy's input is required on the context slide as well as third bullet on slide 6 (re: regulation that caps acceleration) – as well as throughout as you deem necessary. Furthermore, since OPG will be at the briefing, we should think about framing the risks slide (10) from both the Province's and OPG's perspectives.
Sarah – we have left a placeholder for accounting implications/risks on slides 9 and 10; however, we defer to OPCD on whether these slides are necessary. We are open to deleting them altogether and just having OPCD/TBS to speak to these issues at the briefing if questions are raised.

Please provide your input by 2:00pm today, for me to consolidate. If you could please highlight your changes, that will assist me in consolidating. I'll copy each of you on the final product as it tracks up to MOF's DMO. I'll have our DMO share with TBS and Energy DMOs.

Thanks very much and happy to discuss.

Ontario Fair Hydro Plan

Limited Guarantee from the Province

[Date]Appropriate cover page to be inserted

Context – should be reviewed and updated as required

- Ontario Fair Hydro Plan Act ("**Act**") permits debt financings through one or more [special purpose] financing entities, to be managed by OPG
  - Proceeds of financings are used to acquire portions of the Fair Hydro regulatory asset ("**Investment Interests**") from IESO
  - Amounts owing will be serviced from "clean energy adjustments" ("**CEAs**") collected from "specified consumers"
- Hydro Trust [will be] established to facilitate the first financing transactions
  - Some combination of short-term "warehouse financings" and long-term notes will be issued
  - OPG, funded by the Province, will acquire subordinated debt issued by Hydro Trust
  - Proceeds raised before December 31st are expected to be $•M ($•M from external investors)
  - Future issuances will follow the same pattern (51% external/senior; 49% OPG/subordinated)
- Payment obligations will be owed to noteholders, lenders, credit enhancers, derivative counterparties, service providers, etc.
  - Payment obligations will be governed under a Trust Indenture
  - Hydro Trust payment obligations under the Trust Indenture are "Obligations Secured"
- Limited Guarantee from the Province of obligations payable by Hydro Trust when due
  - Province pays only upon a "Protection Event"
  - Limited Guarantee applies to almost all Obligations Secured
  - Certain "**Adherence Conditions**" to be satisfied before Limited Guarantee willy apply to material obligations
- Two relevant agreements:
  i. Change of Law Protection Agreement ("**Protection Agreement**")
  ii. Change of Law Process Agreement ("**Process Agreement**")

Limited Guarantee from the Province

- Triggered by a "**Protection Event**": Either:
  - There is a change of law (by the Legislature, LGIC, Ministers, government officials, government appointed boards, etc.) or implementation of a change in the organization or structure of the IESO or Ontario's electricity market undertaken at the initiative of the Province or and entity controlled by the Province that materially and adversely affects either (1) the ability of Hydro Trust to receive CEA cash flows or (2) the Protection Agreement or any Obligation Secured
  - A court of competent jurisdiction determines that any part of the OFHPA or the related regulations are *ultra vires* or invalid in a way that materially and adversely affects the ability of Hydro Trust to receive CEA cash flows and that in fact results in a deficiency such that Hydro Trust cannot pay Obligations Secured when they become due

- **Not covered by the Limited Guarantee:**
  - Amounts required to be deposited into collateral or reserve accounts established under the Hydro Trust program to credit enhance or provide liquidity for ultimate payment of Obligations Secured
  - Certain residual payments to OPG under the "payment waterfall"

- **Term:** Until all applicable Obligations Secured are paid in full

Adherence Conditions

- Certain minimal conditions will apply before the Limited Guarantee will attach to applicable Obligations Secured:
  - **Incurrence of indebtedness to fund ownership of an Investment Interest**
  - **Entry into ISDA master agreements**
  - **Entry into service contracts with term > 3 years and aggregate payments >$5M that are not terminable on giving 3 years notice or less**

- Those conditions are:
  - Must be an Obligation Secured under the Trust Indenture
  - Delivery of officer's certificate by OPG to Indenture Trustee confirming compliance with internal processes as between OPG and the Province in connection the Limited Guarantee (under the Process Agreement)
  - Province has not delivered a "Suspension Notice"

Process between Province and OPG

- Process Agreement between Province and OPG
  - Sets out informational requirements and supporting affirmations regarding incurrence or amendment of Obligations Secured
  - Contemplates some (limited) rights of Province to comment on disclosure and terms of Obligations Secured
  - Provides for OPG executive officer affirmation regarding certain matters (in a "**Process Certificate**")

- Delivery of Process Certificate by OPG executive officers to the Province setting out:
  - Material terms of obligations (incurrence or amendment)
  - Confirmation that terms are "**Substantially in the Form**" of the "**Reference Documentation**"
  - Confirmation that the offering document is "**Substantially in the Form**" of the "**Reference Documentation**"
  - Confirmation that no breach of the Process Agreement has occurred
  - Confirmation that the maximum payment amounts due in the future under the obligation plus other outstanding amounts will not exceed the "**Protection Agreement Maximum**"
  - Confirmation that any disclosure referring to the Protection Agreement or Process Agreement was made available to the Province
  - Confirmation as to reasonableness, arm's length terms and conditions, and compliance with the Act and the Financing Plan

- Suspension Right
  - Uncured breach of Process Agreement or breach by any party of other program agreements allows Province to suspend Limited Guarantee for new obligations, other than for refinancings
  - Exercise of suspension right does not impact prior Hydro Trust obligations covered under the Limited Guarantee

Obligation of Province on Protection Event

- Make payments on Limited Guarantee
- Payments replicate stream of CEAs to pay amounts due and payable by Hydro Trust
- In event of an acceleration of any Obligation Secured, Province would pay acceleration amounts, capped at scheduled payment amounts (without acceleration) plus an additional amount up to the “fair allocation” in the aggregate [should this reference regulation?]
- Province will be subrogated to rights of the creditors of Hydro Trust to the extent of performance under the Limited Guarantee

Obligations of OPG

- Process Agreement obligates OPG, but without limiting protections under existing indemnity agreement
  - Province has indemnified OPG, its subsidiaries, and each of their respective directors, officers and employees from liability resulting from activities under the Act and activities of Hydro Trust pursuant to an Indemnity Agreement
- If there is any conflict between the Process Agreement, the Protection Agreement and the existing Indemnity Agreement in respect of any matter relating to the Province's indemnification obligations in favour of OPG, the Indemnity Agreement is paramount

Provincial Approval Process

- Authorization under Section 5(3) of OFHPA
  - Section 5(3) provides that LGIC may by order authorize the Minister of Energy and Minister of Finance, acting together on behalf of the Province, to agree to guarantee or indemnify obligations associated with an Investment Interest
- Order in Council 1981/2017 made pursuant to subsection 5(3) of the OFHPA
  - The OIC authorizes the Minister of Energy and the Minister of Finance, acting together on behalf of Ontario, to enter into one or more agreements to guarantee or indemnify the debts, obligations, securities or undertakings of a financing entity established under the OFHPA associated with investment interests acquired by a financing entity.
- [Should TB approval be included here?]
- Approval under section 28 of *Financial Administration Act* will be required prior to entry into the Protection Agreement and the Process Agreement by the Minister of Finance and the Minister of Energy.

Accounting Implications

- [Please complete. Please describe absence of lump-sum recognition and other disclosure/notes that would be required in Province's financial statements.]

- [Please also complete following slide in respect of accounting risks.]

Risks

- Accounting
  - [Please add a sub-bullet on accounting risks (e.g., control limitations; loss of off-balance sheet treatment if a Protection Event occurs)]
- Province dependent on OPG in relation to most key matters relating to the Limited Guarantee
  - Less power/information than would typically be afforded to a guarantor
  - Significant reliance on OPG to deliver timely, accurate information
  - Province has no say on financing decisions if permitted by the Financing Plan **[, except in narrow circumstances]**
- Even without a change of law by the Legislature, a court determination may trigger a Protection Event
- Possible criticism for wholesale delegation to OPG; although accounting considerations and the Act itself lead to this outcome
- Possible opportunistic litigation by Hydro Trust creditors incentivized by spread differentials to trigger a Protection Event

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**") is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.[1]

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.[2]

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

All things necessary to make this Agreement a valid and legally binding agreement of OPG and the Province, have been done.

---

[1] Blakes suggests that it be made clear in the Declaration of Trust that OPG is establishing the Trust. Blakes would appreciate the benefit of Torys analysis as to how the Trust is an "entity" under the OFHPA, as opposed to the trustee. Clearly OPG has not established Computershare.

[2] Once agreements are settled, Province to provide draft notice.

Whenever any period of time would begin or end or any other action to be taken hereunder shall be stated to be required to be taken, on a day other than a Business Day, then (notwithstanding any other provision of this Agreement) such period of time shall begin or end, and such other action shall be taken on the next succeeding Business Day.

1.11 Waiver, Amendment

Except as expressly provided in this Agreement, no amendment or waiver of this Agreement will be binding unless executed in writing by the party to be bound thereby. No waiver of any provision of this Agreement will constitute a waiver of any other provision nor will any waiver of any provision of this Agreement constitute a continuing waiver unless otherwise expressly provided. A party's failure or delay in exercising any right under this Agreement will not operate as a waiver of that right. A single or partial exercise of any right will not preclude a party from any other or further exercise of that right or the exercise of any other right.

(d) Promptly following any incurrence of a Funding Obligation or any amendment of a Funding Obligation, OPG shall provide the Province with electronic copies of all related Governing Documents and all other closing documents executed by or on behalf of the Financing Entity in connection with such incurrence or amendment that would affect the Financing Entity's assets or obligations (including, for greater certainty, any related Disclosure Document) and which have not been previously provided to the Province.

(e) Promptly upon request, OPG shall provide the Province with such additional information and documentation as the Province reasonably requests in order to enable the Province to assess the nature and extent of its obligations under the Change of Law Protection Agreement.

right in respect of any Approved Obligation or exercise any other election or privilege in respect of any Approved Obligation, in each case if as a result the obligations applicable to the Approved Obligation under the Change of Law Protection Agreement would be accelerated, delayed or otherwise affected.

(c) Nothing in this Agreement nor in the Change of Law Protection Agreement shall limit the obligations of the Province under the Indemnity Agreement by the Province in favour of OPG dated June 1, 2017 (as amended, the "**Indemnity Agreement**") and to the extent of any conflict between this Agreement, the Change of Law Protection Agreement and such Indemnity Agreement, in respect of any matter relating to the Province's obligations to indemnify OPG, the Indemnity Agreement shall prevail.

(e) a statement that no Breach Event has occurred on or prior to the date of the Process Certificate, unless such Breach Event has been waived by the Province in writing; and

(f) confirmation that, at the time the Funding Obligation is incurred or amended, the maximum aggregate payment amounts due or becoming due in the future in respect of Repayments under the Funding Obligation, together with all other outstanding amounts due or becoming due in the future in respect of Repayments under all Approved Obligations, do not and will not exceed the Protection Agreement Maximum; for clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be determined on the date the Process Certificate is delivered hereunder in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

3.02 Intentionally Deleted

3.03 Meaning of "Reviewed Documentation"

For the purposes of Subsection 3.01(c), the term "Reviewed Documentation" shall mean each Transaction Document (including any change, addition or supplement thereto) that, at the relevant time:

(a) is a Transaction Document provided to the Province prior to the making of this Agreement and in respect of which the notice contemplated in the fifth recital to this Agreement has been delivered by the Province to OPG; or

(b) is a Transaction Document provided to the Province in accordance with Subsection 2.01(b) that has been accepted by the Province, as confirmed by way of a written notice of acceptance from the Province delivered to OPG.

3.04 Meaning of "Substantially in the Form"

For the purposes of Subsection 3.01(c), the term "Substantially in the Form" shall mean:

(a) with respect to the Reviewed Documentation referred to in clauses (i) to (xi) of the definition of "Transaction Documents", that there are no differences between the proposed documents and such Reviewed Documentation that could result in a change in the material terms or conditions applicable to the applicable Primary Obligation, including regarding the timing of or circumstances under which related payments are or may become due or accrue (including as a result of any default, acceleration, termination, wind-up, liquidation or realization), or that would affect the Province's rights of subrogation or assignment (including pursuant to **[Section 5.01 or Article VI]** of the Change of Law Protection Agreement) or its interests as a subrogee or an assignee, that would arise as a result of performing the Limited Guarantee in respect of the applicable Primary Obligation or upon the assumption of obligations in accordance with **[Article VI]** of the Change of Law Protection Agreement; provided, however, that the foregoing does not apply to any variable terms to be set forth in the proposed documents as are reasonably contemplated in the Reviewed Documentation, including the particular financial terms, rates and levels set forth in the proposed documents other than to the extent that the forms of Reviewed Documentation themselves specify specific requirements, limitations or parameters with respect to such financial terms, rates, levels and parameters; and

(b) with respect to the Reviewed Documentation referred to in clause (xii) of the definition of "Transaction Documents", that there are no material differences between the form and substance of the proposed Disclosure Document and such form of Disclosure Document and that the proposed Disclosure Document complies in all material respects with all applicable securities disclosure requirements relating to the Primary Obligation subject to distribution thereunder.

ARTICLE IV
PROTECTION AGREEMENT MAXIMUM

4.01 Protection Agreement Maximum

(a) Not less than 15 Business Days prior to the proposed incurrence of the first Funding Obligation, OPG shall, as the FSM, deliver to the Province: (i) a forecast setting out OPG's expectations regarding the aggregate maximum amount of

Repayments that would arise in the future under Approved Obligations to be incurred during the next following 24 month period (the "**Initial Forecast Period**"), which expectations shall be consistent with the Financing Plan (the "**Initial Forecast**"); and (ii) notice of the initial Protection Agreement Maximum, which may not exceed the Initial Forecast.

(b) Not more than 10 Business Days following receipt of the Initial Forecast and notice of the initial Protection Agreement Maximum from OPG pursuant to Section 4.01(a), the Province may disagree with the Initial Forecast and the initial Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or the Initial Forecast, (ii) the Initial Forecast is inconsistent with the Financing Plan, or (iii) the initial Protection Agreement Maximum is not less than the Initial Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the initial Protection Agreement Maximum will be revised accordingly and confirmed by an amended notice to the Province.

(c) Between nine (9) and twelve (12) months prior to the end of the Initial Forecast Period, OPG shall, as the FSM, deliver to the Province an updated forecast setting out the sum of (1) the aggregate amount of Repayments that will arise in the future under Approved Obligations that are then outstanding and (2) OPG's expectations regarding the aggregate maximum amount of Repayments that would arise in the future under Approved Obligations to be incurred during the period ending 24 months following the Initial Forecast Period, which expectation shall be consistent with the then applicable Financing Plan. Such updated forecast shall be further updated on a similar basis with respect to each successive 24 month period or more frequently if at any time OPG has knowledge that the most recent forecast is materially inaccurate (the Initial Forecast and each such updated forecast, each a "**Forecast**"). Together with each Forecast, OPG shall also provide a revised Protection Agreement Maximum, which may not exceed such Forecast.

(d) Not more than 10 Business Days following receipt of any further Forecast and notice of the revised Protection Agreement Maximum from OPG pursuant to Section 4.01(c), the Province may disagree with such further Forecast or revised Protection Agreement Maximum on the basis that (i) there appears to be inaccuracies in the Financing Plan or such further Forecast, (ii) the further Forecast is inconsistent with the Financing Plan, or (iii) the revised Protection Agreement Maximum is not less than the further Forecast. If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

(ii) where a Derivative Agreement has not been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the noon spot rate for conversions of any currencies into Canadian dollars.

(g) The performance by the Financing Entity of the Program Agreements does not conflict with, will not conflict with, does not result in, and will not result in, any breach of, and does not constitute, a default under, the Declaration of Trust or any agreements or instruments to which the Financing Entity is a party or by which it or any of its property and assets are bound.

(h) Neither the execution nor delivery of this Agreement, the Program Agreements nor any agreements or instruments delivered pursuant hereto or thereto, the consummation of the transactions herein or therein, nor compliance with the terms, conditions and provisions hereof or thereof conflicts with or will conflict with, or results or will result in any breach of, or constitutes a default under, any of the provisions of the constating documents of OPG or any agreements or instruments to which OPG is a party or by which it or any of its property and assets are bound.

ARTICLE VI
PROCESS FOR ELECTION TO ASSUME APPROVED OBLIGATIONS[4]

6.01 Election by the Province

Pursuant to Section 6.01 of the Change of Law Protection Agreement, at any time following the occurrence of a Protection Event, the Province may (but shall not be obligated) elect to assume the Financing Entity's obligations in respect of all Obligations Secured, as obligor and debtor by giving notice to the Indenture Trustee. Prior to determining whether or not to exercise its election, the Province may deliver to OPG a notice in the form of Exhibit A (an "**Election Information Notice**"). The Election Information Notice shall, among other things, specify the date on which the Province proposes to assume the Obligations Secured, which date shall be no earlier than 20 Business Days following delivery of the Election Information Notice to OPG (the "**Proposed Assumption Date**").

6.02 Details regarding Obligations Secured

Promptly following the delivery of the Election Information Notice to OPG, OPG shall provide the following information and documentation to the Province:

(e) all income tax returns and assessments, financial statements and notices of proceedings of or pertaining to the Financing Entity or its business and any documentation related thereto, including any pleadings, appeals, objections, qualifications or other similar materials in respect of the Financing Entity or any Program Agreement.

6.03 Settlement of Terms

Following receipt and review by the Province of the information and documentation to be provided under Section 6.02, the Province shall confirm in writing whether or not it expects to proceed with the assignment and assumption of the Obligations Secured and, if it will be proceeding with the assignment and assumption, the date on which the Province expects that assignment and assumption will be effected. If it will be proceeding with such assignment and assumption, the Province will deliver an Assumption Notice as contemplated under Section 6.01 of the Change of Law Protection Agreement. A decision not to proceed with an election at any time will not limit the Province from proceeding with an election at a later date, including by issuing a further Election Information Notice and Article VI of this Agreement shall continues to apply unaffected.

6.04 Cooperation to Implement the Assignment and Assumption

OPG shall cooperate with the Province and, as FSM, will use commercially reasonable efforts to cause the Financing Entity to cooperate, and shall use its commercially reasonable efforts, to complete the assignment and assumption of the Obligations Secured by and from the Financing Entity to and by the Province, by the applicable Assumption Closing Date.

6.05 Terms of Obligations Secured

In order to permit the Province to assume the Obligations Secured in the circumstances contemplated herein, OPG, as FSM, shall cause the Financing Entity to use commercially reasonable efforts to ensure that all Obligations Secured permit such an assignment to and assumption by the Province substantially in accordance with the terms and on the basis contemplated in the Assumption Agreement, without any penalty or make-whole payment, or any requirement for further consent, approval or agreement, or alternatively, in the case of any Obligations Secured entered into by or on behalf of the Financing Entity for the provision of on-going services to the Financing Entity permitting the satisfaction and termination of such Obligations Secured on or prior to the effective time of such assumption without any acceleration of future fees, profits or other like amounts, **[other than to the extent of payment obligations arise under market standard mark-to-market payment terms and conditions included on a**

(c) OPG is no longer the Manager or actions have been taken by or on behalf of the Indenture Trustee to remove OPG as the Manager.

7.02 Notice on Breach Event

If any Breach Event shall have occurred and not been waived in writing by the Province, the Province shall have the right at its option, upon written notice to OPG, and in addition to and not in substitution for any other remedies available hereunder at law or equity, to provide a Suspension Notice to the Indenture Trustee, OPG and the Financing Entity in accordance with the terms of the Change of Law Protection Agreement.

HER MAJESTY THE QUEEN IN RIGHT OF ONTARIO, AS REPRESENTED BY THE MINISTER OF ENERGY AND THE MINISTER OF FINANCE

AND

ONTARIO POWER GENERATION INC.

CHANGE OF LAW PROCESS AGREEMENT

Dated as of [■], 2017

This **CHANGE OF LAW PROCESS AGREEMENT**, between Her Majesty the Queen in Right of Ontario, as represented by the Minister of Energy and the Minister of Finance (the "**Province**"), and Ontario Power Generation Inc. ("**OPG**")[1] is made and entered into as of [■], 2017.

RECITALS

OPG is appointed as the Financial Services Manager under Section 18 of the *Ontario Fair Hydro Plan Act, 2017* (the "**Act**").

Pursuant to Section 22(2) of the Act, OPG, in its capacity as the Financial Services Manager (the "**FSM**"), may establish or cause to be established one or more financing entities (as defined in the Act), which may incur Funding Obligations in accordance with the Act.[2]

Pursuant to a Declaration of Trust dated as of [■], 2017, the Financing Entity was established as a "financing entity" (as defined in the Act) for the purposes contemplated in the Act.

Concurrent with this Agreement, the Province, the FSM, the Financing Entity and the Indenture Trustee will enter into the Change of Law Protection Agreement under which the Province will agree to provide protections and assurances to the Indenture Trustee, for the benefit of the Beneficiaries, in respect of Obligations Secured that constitute Approved Obligations, in order to address concerns that would arise from a change or adverse determination of law, subject in each case to the satisfaction of the Adherence Conditions.

Prior to entering into this Agreement, OPG provided the Province with copies of certain of the Transaction Documents, and the Province has confirmed by a notice delivered to OPG that the reviewed forms (as further described in such notice) shall be Reviewed Documentation for the purposes of this Agreement.[3]

This Agreement sets out the obligations OPG has agreed to perform and assurances OPG has agreed to provide and on which the Province will rely in entering into and implementing the Change of Law Protection Agreement, including for the purposes of determining whether the Adherence Conditions have been satisfied, maintaining information related to the Program Agreements and the Approved Obligations, and ensuring that the Province's assumption rights pursuant to Article VI of the Change of Law Protection Agreement may be exercised without impediment on the terms and conditions contemplated in this Agreement and the Change of Law Protection Agreement.

[1] ~~We do not believe OPG is entering into this Agreement as agent on behalf of the Trust. Rather, OPG is entering into this Agreement at the request of its shareholder, the Province, in order to satisfy the Province's reporting requirements regarding the Fair Hydro Plan.~~

[2] ~~Blakes to advise what they would like to see as evidence of OPG's establishment of the Trust as a financing entity. OPG can send the Province the retainer of Computershare to act as issuer trustee to the Trust~~[1] Blakes suggests that it be made clear in the Declaration of Trust that OPG is establishing the Trust. Blakes would appreciate the benefit of Torys analysis as to how the Trust is an "entity" under the OFHPA, as opposed to the trustee. Clearly OPG has not established Computershare.

[3] Once agreements are settled, Province to provide draft notice.

All things necessary to make this Agreement a valid and legally binding agreement of OPG~~,~~ and ~~of~~ the Province ~~in accordance with the Act~~, have been done.

If the Province disagrees, OPG shall discuss any discrepancies with the Province, address any inaccuracies and inconsistencies to the reasonable satisfaction of the Province, and the revised Protection Agreement Maximum will be further revised accordingly and confirmed by an amended notice to the Province.

(e) For clarity, Repayments under Obligations Secured owing in currencies other than Canadian dollars will be valued at the time to be determined for the purposes of this Section 4.01 in accordance with the following:

(i) where a Derivative Agreement has been entered into to hedge related currency exposures, Repayments under such obligations shall be valued on the basis of the hedged value expressed in Canadian dollars; and

Hi Gadi,

A short summary of the call after you left (it didn't finish until 12:20pm):

We finished your discussion around the *Event of Default Cure*:

- to be addressed in the Protection Agreement. Term sheet will reflect language similar to Representations and Warranties section (i.e., To be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity, subject to accounting/legal considerations)
- OPG expressed concern with punting issues off the term sheet and onto the Protection Agreement; given that timelines for drafting the Protection Agreement will be similarly compressed.

We then went through the term sheet from the start:

- Drafting changes will not be made
- Reference to comingling risk/warehousing to be removed
- Agreed that the protection agreement would also apply to the sub-debt
- Organizational change in IESO/market change will be narrowed (per Steve's wording)
- Under *Subrogation* remove the line "The Financing Entity may not change or consent to any change in such rights and interests without the Obligor's prior written consent" – gets to the accounting concern/Provincial control
- Clarified that the *Optional Replacement* was not the Province swapping out the Financing Entity for some other entity (dealers' concern), but rather the Province stepping in for the Financial Entity. Agreed to amended language

Follow-ups:

- With respect to the triggering event following from a court decision, there was a lengthy conversation about the wording "final, non-appealable". Steve felt it was necessary to keep in – to avoid any gaming of the system – and Tory's felt that it would be problematic for dealers (i.e., payments put on hold during lengthy litigation). OFA suggested we take the conversation offline. I'll schedule a call with Steve and Malle for this afternoon.
- Malle and Steve would like to review the Financing Plan at the earliest opportunity. The importance/urgency of reviewing the Financing Plan is unclear.

Next steps:

- Malle/Steve will mark up the version that went to the Minister with the changes discussed at the meeting
- Tory's will be able to sign-off on the revisions fairly quickly
- Tory's will present the mark-up to Osler's/dealers with instruction to focus on material points (not drafting issues)

- Meeting to be set up for early next week to deal with substantive issues for inclusion in the Protection Agreement; OPG to bring forward accounting issues as flagged by E&Y
- With respect to timing, OPG is going to its Board on September 29 with the Protection Agreement; Board will want comfort that E&Y has signed off

Not sure if this helps at this stage, but OPG happy to say protection agreement applies to Canadian dollar issuance only. They appreciate that US dollar issuance would be a different kind of animal.

Hi Ron. We reserved on the "non-appealable" point in the version of the Term Sheet that was circulated to Torys and OPG earlier this afternoon. See the footnote on p.2 of the attached. I believe that if this point is not resolved by the time the Term Sheet is to be attached to the Treasury Board submission, the intention is to leave the square brackets in place to show it is an open item. Thanks for your follow-up. Steve

<u>Indicative Term Sheet</u>

*This indicative term sheet (the "**Term Sheet**") relates to transactions contemplated to be undertaken under the Ontario Fair Hydro Plan Act, 2017 (the "**Act**") and the regulations made thereunder (the "**Regulation**"). This Term Sheet is to be held confidential. Unless otherwise specified, defined terms used herein have the meanings ascribed to them in the Act. The provincial protection and assurance arrangements contemplated in this Term Sheet will include such terms and conditions as the Minister of Energy and the Minister of Finance determine to be appropriate. This Term Sheet is not intended to create any obligations or be binding.*

Change of Law Protection Agreement:	A Change of Law Protection Agreement will be among the Obligor, a Financing Entity and an Indenture Trustee, acting for and on behalf of the Beneficiaries in accordance with a Trust Indenture.

Beneficiaries:	The Indenture Trustee, acting for itself and on behalf of other persons entitled under Specified Claims.
Specified Claims:	Payment obligations of the Financing Entity that are secured under the Trust Indenture and that are approved as contemplated below under Obligor Approval.
Protection Events:	Any of the following would constitute a Protection Event: (A) (1) the Legislature repeals (and does not replace on an equivalent basis) or amends the Act or any portion thereof; (2) the Legislature enacts or amends any other statute; (3) the Lieutenant Governor in Council repeals (and does not replace on an equivalent basis) the Regulation made under the Act or any portion thereof; or (4) the Lieutenant Governor in Council, a minister of the Crown, an official of the government or a board or commission all the members of which are

Obligation to Pay Specified Claims:	Upon the occurrence of a Protection Event, the Indenture Trustee will have the right to require the Obligor to pay the Specified Claims owing by the Financing Entity when they become due and payable (without acceleration). The exercise of such right by the Indenture Trustee in accordance with the Trust Indenture shall constitute the only remedy available under the Change of Law Protection Agreement. Under no circumstances shall the Obligor be obligated to pay or indemnify a Beneficiary for consequential, special or punitive damages, or for economic loss or loss of profits.
Subrogation:	Upon paying a Specified Claim to a Beneficiary, the Obligor as guarantor shall have rights of subrogation, including becoming entitled to all of the applicable Beneficiary's rights and interests under and in respect of the Specified Claim, including the security interest in each related investment interest and related property of the Financing Entity.

[1] Under consideration to assess the marketability implications of this phrase.

Optional Assumption:	At any time following the occurrence of a Protection Event, the Obligor shall be entitled (but not obligated) to assume the Financing Entity's obligations in respect of Specified Claims as obligor and debtor. The Financing Entity (including through the Financial Services Manager) will ensure that Specified Claims permit such an assumption by the Obligor without any penalty or make-whole payment (or, in the case of any contract for the provision of on-going services to the Financing Entity, the satisfaction and termination of the Specified Claims without any acceleration of future fees, profits or other like amounts), or any requirement for further consent, approval or agreement.
Term:	The Change of Law Protection Agreement will continue for as long as any Specified Claim remains outstanding.
Obligor Approval:	The process by which a Specified Claim will become subject to the Change of Law Protection Agreement will be determined by the Minister of Finance and Minister of Energy in negotiation with the Financing Entity.
FIPPA:	The Change of Law Protection Agreement will acknowledge that the Obligor will be bound by the *Freedom of Information and Protection of Privacy Act* (Ontario) and that any information provided to the Obligor, or any agent or representative of the Obligor in connection with the Change of Law Protection Agreement, may be subject to disclosure in accordance with the act or as otherwise required by law.
