Hi Sarah
I've asked Wil if everything is clear and he knows what to do. He told me he did. Yesterday, I started at 7 am and planned to go away at 3pm. I was expecting Will's comments to review and indicated to him in an email that I was going to leave (I wfh) soon. I signed off at 330 without receiving anything. I see below that he sent some to JF at 7:27 pm and I wasn't copied.
I don't plan to put in 18 hour days and I am on vacation tomorrow, so I am not sure how much assistance I can actually provide to him.
Just so you are aware.

Hi JF,
Please find the attached FHP Credit Facility.
At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.
Thanks,
Will

Subject: RE: FHP Credit Facility Agreement
Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:
1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.
In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say

this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. Hi Sarah
I've asked Wil if everything is clear and he knows what to do. He told me he did. Yesterday, I started at 7 am and planned to go away at 3pm. I was expecting Will's comments to review and indicated to him in an email that I was going to leave (I wfh) soon. I signed off at 330 without receiving anything. I see below that he sent some to JF at 7:27 pm and I wasn't copied.
I don't plan to put in 18 hour days and I am on vacation tomorrow, so I am not sure how much assistance I can actually provide to him.
Just so you are aware.

Hi JF,
Please find the attached FHP Credit Facility.
At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.
Thanks,
Will

Subject: RE: FHP Credit Facility Agreement
Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:
1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.
In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say

this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

"GAAP" means accounting policies and standards as established by the Chartered Professional Accountants of Canada, ~~, Public Sector Accounting Board~~ at the relevant time and applied on a consistent basis.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated Indebtedness of the IESO, subject to the existence of (i) any Permitted Liens of the IESO, and (ii) any other Liens that secure Indebtedness in accordance with Section 4.6 hereof.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right of~~or~~ set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [WT9]: Should this be "or"?

Commented [WT10]: JF,

Other agreements reference "Province". I don't have strong feelings about this.

Section 3.5 Conditions Precedent

The obligation of the IESO to make the Advances pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

ARTICLE 4
COVENANTS OF THE IESO

Section 4.1 Payment of Advances.

The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

judgment of the IESO or any such Material Subsidiary, desirable in the conduct of its business or the business of any such Material Subsidiary, or has been directly or indirectly requested or required by the Province of Ontario.

Section 4.4 Insurance.

The IESO will cause all property owned by the IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the mature and to the extent that such property is usually insured by companies operating similar businesses.

Section 4.6 Negative Pledge.

The IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of the IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) the creation, incurrence or assumption of any Purchase Money Mortgage;

(b) the grant of any Lien in the normal course of business to any banks or financial institutions for present or future Iindebtedness of the IESO or any Material Subsidiary to such banks or financial institutions payable on demand or having an original term to maturity less than 18 months;

(c) Permitted Liens;

(d) any extension, renewal or replacement of any of the Liens referred to in Sections 4.6(a), (b) or (c), provided that the principal amount secured by any such Lien outstanding immediately before such extension, renewal or replacement or refunding is not thereby increased; and

(e) any Lien charging the interest of the IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c), provided that, at the time such Lien is created, incurred or assumed, the principal amount

Section 4.7 Payment of OFA Expenses

In addition to any liability of the IESO to the OFA under any other provision of this Agreement, the IESO will, on demand, reimburse and indemnify OFA for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OFA in connection with the Services (including those incurred in the preservation of rights under or enforcement of this Agreement at any time during the continuance of a default or Event of Default and for any reasonable loss or expense incurred by OFA as a result of any failure by the IESO to fulfill any of its obligations under this Agreement). All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Commented [WT11]: Other agreements use "Province". I don't have a strong opinion in regarding which to use.

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 4.9 Late Repayment of Advance.

In the event that the IESO fails to repay the principal amount of any Advance and all interest accrued thereon when due, the IESO shall pay interest on the unpaid amount of such Advance at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

Please find the attached FHP Credit Facility.
At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.

Subject: RE: FHP Credit Facility Agreement
Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of “Permitted Liens” to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of “Permitted Liens” is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology “cash flow timing differences” does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.
In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of “Advances” should probably also include Continued Advances where an Election Notice is used (though I didn’t make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it’s entirely possible that I am simply missing something here.
I didn’t know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.
Regards,
Victor

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

Commented [WT8]: Agreed

Commented [WT9]: Should this be "or"?

Commented [WT10]: JF,

Other agreements reference "Province". I don't have strong feelings about this.

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Commented [WT11]: Other agreements use "Province". I don't have a strong opinion in regarding which to use.

Hi JF,
Please find the attached FHP Credit Facility.
At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.
Thanks,

Subject: RE: FHP Credit Facility Agreement
Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of “Permitted Liens” to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of “Permitted Liens” is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology “cash flow timing differences” does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.
In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of “Advances” should probably also include Continued Advances where an Election Notice is used (though I didn’t make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it’s entirely possible that I am simply missing something here.
I didn’t know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.
Regards,
Victor

"GAAP" means accounting policies and standards as established by the Chartered Professional Accountants of Canada, ~~, Public Sector Accounting Board~~ at the relevant time and applied on a consistent basis.

Commented [WT4]: JF,

The e-mail chain below, and esp. the e-mail from Victor Buza (IESO) may shed some light on your questions, specifically with respect to the "permitted liens" and the negative pledge. Please review and then let me know if you would like to discuss further.

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Hi Lisa,
One additional important comment we have is that we believe we should consider incorporating language to distinguish between the “Rural or Remote Electricity Rate Protection (RRRP) variance” and the “Regulated Price Plan (RPP) variance” since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA’s loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.
Happy to discuss further.
Many thanks,
Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Hi Sarah,

Clarification:

The version of (k) below is Victors version. Lisa indicated that this may be too broad "any lien arising in connect with IESO's role and obligations under the OFHP". If they change (k), then Victor will have to sign-off.

Section 3.3 pari passue, Lisa will input this language and will have to speak to Victor. She has not brought this up with IESO because she views this as an internal matter. Hopefully Mike and Ken signs-off. I have a pending query with Lisa, if the Ministry of Energy's agreement with IESO impacts out FHP Agreement even if Ken, Mike and John have signed-off.

In summary, both items are still outstanding. I hope this helps.

Subject: FHP Credit Facility outstanding issues

Good morning all,

We have had possession of this draft since Wednesday July 26. There are two outstanding issues holding-up the FHP Credit Facility draft:

"Permitted Leins"

(k) any Lien arising in connection with the IESO's role and obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation to the Clean Energy Adjustment, or otherwise.

On yesterday's call, Anthony said that the operations for FHP are still being worked-out and that it's difficult to itemize everything that would be related (k) and would fall under the OFHP obligations and include them in section (k). Because of the fluidity of the situation, (k) was intentionally worded in this manner and (k) does not sound to be unreasonable to me.

I am not an expert on the operations of the Fair Hydro Plan. But according to the link below, the FHP includes a number of Enhanced Social Programs which include Rural/Remote Rate Protection Program (RRRP),Regulated Price Plan (RPP), Ontario Electricity Support Program (OESP), First Nations

On-Reserve Delivery Credit, Affordability Fund and Clean Energy Adjustment.
https://news.ontario.ca/mei/en/2017/5/ontarios-fair-hydro-act-2017-1.html

Lisa please arrange to speak with Toby and Bruno to answer any concerns Bruno may have with (k).

Section 3.3 Election Regarding Advances
(5)the Credit Facility shall at all times rank *pari passu* with all other unsecured Indebtedness of the IESO.

Lisa, I understand you have an email with Toby yesterday. May I ask that you and Toby work-out a satisfactory wording for (k). Jean-Francois has already provided his opinion that "unsecured Indebtedness seems appropriate". Once you conclude on the wording please show JF and I. I ask that you communicate with Victor to determine if the wording is agreeable. I understand that sending a draft version is preferred but we are running out of time. Once he agrees then we can send him the soft copy.

It's important that we get this document out to IESO today.
I am available all day today if you need me to join or arrange a call.

Hi Sarah,

Below is a draft email I intend to send Anthony and Victor. Do you mind reviewing it? I will remove the comments between Lisa and yourself before I send it. thanks.

Hello Anthony and Victor,

I wish to clarify if the following order of the execution of the documents and the signatures dates do avoid any potential issues? Resolution of the Board of Directors and Incumbency Certificate are executed prior or on the same date as the agreements.

Also, I was informed that we should not be "editing" your resolution. To clarify I noticed the following:

- Extra opening quotation on the title.
- A potential extra 4th "and whereas".
- A missing colon at the end of 2 (a).
- Extra closing quotation at the end of 2 (c).

Thanks,

Hi Lisa,

Yes, that is usually the approach we strive for, especially for external counterparties.

We have more flexibility with public bodies, so I have shown more flexibility there, depending on the circumstances (we tend to be a little more flexible, for example, with IO). For IESO, dating the cert prior to the execution date is fine with me, if that works for you.

I think you can note to Anthony that you saw an extra 'whereas' in their excerpt of the board resolution - that you're not sure if it was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something OFA Legal would require for this OFA agreement with IESO.
Thanks,
Sarah

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Hi Sarah,

Below is a draft email I intend to send Anthony and Victor. Do you mind reviewing it? I will remove the comments between Lisa and yourself before I send it. thanks.

Hello Anthony and Victor,

I wish to clarify if the following order of the execution of the documents and the signatures dates do avoid any potential issues? Resolution of the Board of Directors and Incumbency Certificate are executed prior or on the same date as the agreements.

Also, I was informed that we should not be "editing" your resolution. To clarify I noticed the following:

- Extra opening quotation on the title.
- A potential extra 4th "and whereas".
- A missing colon at the end of 2 (a).
- Extra closing quotation at the end of 2 (c).

Thanks,

Will

Hi Lisa,

Yes, that is usually the approach we strive for, especially for external counterparties.

We have more flexibility with public bodies, so I have shown more flexibility there, depending on the circumstances (we tend to be a little more flexible, for example, with IO). For IESO, dating the cert prior to the execution date is fine with me, if that works for you.

Hi Sarah,

I think the resolution should be executed prior to the execution of the agreements, whether on the

same date or a prior date. Are you saying that for provincial agreements the certificates are dated the same date? Is this to ensure that they have not been superceded?

Will,
I think you can note to Anthony that you saw an extra 'whereas' in their excerpt of the board resolution - that you're not sure if it was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something OFA Legal would require for this OFA agreement with IESO.
Thanks,
Sarah

Subject: RE: FHP credit facility agreement - further amendments

Hi Lisa – regarding the subcategories of borrowing purposes which we have previously listed in borrowing notices, we would prefer to continue with the current practice of listing the subcategory of purpose directly in the borrowing notice rather than enshrining a potentially overly-restrictive list of sub-categories directly in the body of the Agreement. The Agreement already contains a broad restriction as to permitted purposes in s.2.2 – namely borrowing must be related to OFHP – and

adding a closed and enumerated list of sub-categories of purposes could create problems down the road.

The concern is that there may over the course of the OFHP be a number of borrowing sub-categories other than RRRP and RPP. RPP will make up the vast majority of all such borrowing, and RRRP borrowing will be the next largest borrowing sub-category – though even at that, it will constitute only a very small portion of total borrowing. Then there may be other and very occasional OFHP-related borrowing that, in terms of percentage of total borrowings is expected to be miniscule, but will still fall under the broad OFHP purpose (e.g. FN Delivery Credit, etc).

We intend to continue to list the different sub-categories of borrowing (RPP etc) in each borrowing notice for internal tracking reasons, etc. In addition our practice has been to issue different borrowing notices for different subcategories of borrowing, and this will also continue. So would it not be sufficient if we just continue with current practice – or maybe just add a note to the Form of Borrowing Notice as a reminder to specify any sub-categories of OFHP-related borrowing purposes ?

Hi Lisa – we are still considering the RRRP/RPP question you asked below – I will get back to you as soon as we have an answer for you.

Regarding our call at the end of the day yesterday, as I mentioned, I still have some concerns about any conflicting requirements of sections 3.3(5) and 4.6. That said, I am happy to look at any language you might wish to draft and provide my comments promptly if that would be of assistance.

Hi Victor,

Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.

Thank you,

Commented [WT9]: We query whether section (k) is necessary since we consider that section (j) "any other Liens" may already capture this. We defer to OFA Legal on this matter.

Commented [LS10]: Is there a concern with including this from a business perspective? See IESO's cover e-mail. Section (j) refers to Liens "of a nature similar to the foregoing" and may not capture liens in relation to the OFHP specifically. This change, if accepted by the OFA, must also be included in Amending Agreement #10.

Commented [LS15]: Business decision – defer to Electricity Branch

Commented [BA16R15]: Fine with this. Consistent with the directive.

Commented [LS17]: IESO has provided an explanation in their cover e-mail regarding deletion of this 12-month requirement. It is a business decision whether to accept this change. Is it a requirement based on the supporting documentation (I don't believe it's captured in the directive)?

Subject: RE: FHP credit facility agreement - further amendments

Hi Lisa – regarding the subcategories of borrowing purposes which we have previously listed in borrowing notices, we would prefer to continue with the current practice of listing the subcategory of purpose directly in the borrowing notice rather than enshrining a potentially overly-restrictive list of sub-categories directly in the body of the Agreement. The Agreement already contains a broad restriction as to permitted purposes in s.2.2 – namely borrowing must be related to OFHP – and adding a closed and enumerated list of sub-categories of purposes could create problems down the road.

The concern is that there may over the course of the OFHP be a number of borrowing sub-categories other than RRRP and RPP. RPP will make up the vast majority of all such borrowing, and RRRP borrowing will be the next largest borrowing sub-category – though even at that, it will constitute only a very small portion of total borrowing. Then there may be other and very occasional OFHP-related borrowing that, in terms of percentage of total borrowings is expected to be miniscule, but will still fall under the broad OFHP purpose (e.g. FN Delivery Credit, etc).

We intend to continue to list the different sub-categories of borrowing (RPP etc) in each borrowing notice for internal tracking reasons, etc. In addition our practice has been to issue different borrowing notices for different subcategories of borrowing, and this will also continue. So would it not be sufficient if we just continue with current practice – or maybe just add a note to the Form of Borrowing Notice as a reminder to specify any sub-categories of OFHP-related borrowing purposes ?

Hi Lisa – we are still considering the RRRP/RPP question you asked below – I will get back to you as soon as we have an answer for you.

Regarding our call at the end of the day yesterday, as I mentioned, I still have some concerns about any conflicting requirements of sections 3.3(5) and 4.6. That said, I am happy to look at any language you might wish to draft and provide my comments promptly if that would be of assistance.

Hi Victor,

Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.

Thank you,

Lisa

Hello Lisa,
We are fine with Victor's explanation. I have removed the borrowing subcategory, on the Borrowing Notice and Election Notice to say [Insert relevant subcategory of borrowing], instead.
These changes were added to Bruno's version from 10:51am.
If Bruno provides his sign-off at your 4pm meeting, please forward to Victor. If not, I will forward it to Victor first thing tomorrow morning.
Thanks,

Hi Lisa,
I noticed some clean up and tweaking is needed on Schedule 1, which affects section 3.2(1) as well
I have attached proposed change, but I've also attached your last version from yesterday so we can look side by side.
I know you're in 'directive land' right now, so whenever you have the opportunity to discuss this, plus the amending agreement, that would be great.
Thanks,
Sarah

Hi Lisa,
I noticed some clean up and tweaking is needed on Schedule 1, which affects section 3.2(1) as well
I have attached proposed change, but I've also attached your last version from yesterday so we can look side by side.
I know you're in 'directive land' right now, so whenever you have the opportunity to discuss this, plus the amending agreement, that would be great.
Thanks,
Sarah

RRRP Rollover Notice with advance.pdf

Hi Will,
Please tell Lisa to hold off reviewing. There are a couple typos (s/b "principal" and "accrued") and the draft language needs to be tweaked to be contextually accurate.
I also said yesterday not to provide the attached notice, since it would confuse her in that it combines the old advance and new advance in one notice. You just need to state that in current rollover notices, IESO includes the additional line

IESO confirms it will also be paying interest in the amount of $2,950.27.

You can come by my office with the draft and we can work on the language.
Thanks,
Sarah

Hi Lisa,
Hopefully I have captured the actual practice by IESO in 3.3(2) and the Election Notice with regards to their option to rollover all or a portion of interest.
3.3

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance, previous principle amount of Advance and accured interest on Advance; ~~and~~ (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date; (d) confirms it will also be paying interest amount. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

Hello Lisa,
I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.
I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest.
Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period.
If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?
Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.
"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).
Thanks,
Will

Hello Lisa,

I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.

I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest. Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period. If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?

Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.

"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further

period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Thanks,

Will

Hello Lisa,

I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.

I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest. Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period. If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.? Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.

"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Thanks,

Will

RRRP Rollover Notice with advance.pdf

Hi Will,
Please tell Lisa to hold off reviewing. There are a couple typos (s/b "principal" and "accrued") and the draft language needs to be tweaked to be contextually accurate.
I also said yesterday not to provide the attached notice, since it would confuse her in that it combines the old advance and new advance in one notice. You just need to state that in current rollover notices, IESO includes the additional line

IESO confirms it will also be paying interest in the amount of $2,950.27.

You can come by my office with the draft and we can work on the language.
Thanks,
Sarah

Hi Lisa,
Hopefully I have captured the actual practice by IESO in 3.3(2) and the Election Notice with regards to their option to rollover all or a portion of interest.
3.3

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance, previous principle amount of Advance and accured interest on Advance; ~~and~~ (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date; (d) confirms it will also be paying interest amount. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

Hello Lisa,
I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.
I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest.
Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period.
If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?
Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.
"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).
Thanks,
Will

Hi Will
See attached. We are fine with "Use of proceeds" and "Clean Energy Adjustment". Minor proposed edit on the latter. I am not comfortable commenting on "Permitted liens (k)" as I do not fully understand this issue and in particular in relation to the "Negative Pledge" section.
But for what it's worth, I would not think that section (j) captures the specific wording of section (k). As this credit facility is for OFHP purposes, I assume the intent was to ensure liens related to OFHP are specifically noted. Was sec. (k) drafted by IESO? But as noted, if EFB is asked for comment I would have a number of more general questions about the "Liens" and legal aspects of these including:
1) permitted vs. not permitted liens. I think the Negative Pledge section relates to this and includes "permitted liens" as an exception
2) the list of permitted liens seems fairly specific list except for (k) which more generally notes and any liens related to IESO's OFHP obligations. I'm not suggesting any specific problem with this, but again wonder how this related to the Negative Pledge section.
I'm happy to discuss further.
Thanks
Bruno

Hi Will,
Please insert the applicable placeholders in the borrowing and election notices where required. You can base these on the July 17, 2017 notices previously sent to the OFA which we discussed together with Opal last week.

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO.

Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Thank you,

Lisa

Commented [JB14]: We defer to OFA Legal and Electricity Branch on this matter.

Commented [LS15]: Business decision – defer to Electricity Branch

Commented [BA16R15]: Fine with this. Consistent with the directeive.

Commented [LS17]: IESO has provided an explanation in their cover e-mail regarding deletion of this 12-month requirement. It is a business decision whether to accept this change. Is it a requirement based on the supporting documentation (I don't believe it's captured in the directive)?

Commented [WT18R17]: Documentation discussed that the 12-month was an unnessary retriction. No documentation to support the 12-month cap. Okay to remove 12-month restriction.

Formatted: Indent: First line: 0.5"

Hi Will

See attached. We are fine with "Use of proceeds" and "Clean Energy Adjustment". Minor proposed edit on the latter. I am not comfortable commenting on "Permitted liens (k)" as I do not fully understand this issue and in particular in relation to the "Negative Pledge" section.

But for what it's worth, I would not think that section (j) captures the specific wording of section (k). As this credit facility is for OFHP purposes, I assume the intent was to ensure liens related to OFHP are specifically noted. Was sec. (k) drafted by IESO? But as noted, if EFB is asked for comment I would have a number of more general questions about the "Liens" and legal aspects of these including:

1) permitted vs. not permitted liens. I think the Negative Pledge section relates to this and includes "permitted liens" as an exception

2) the list of permitted liens seems fairly specific list except for (k) which more generally notes and any liens related to IESO's OFHP obligations. I'm not suggesting any specific problem with this, but again wonder how this related to the Negative Pledge section.

I'm happy to discuss further.

Thanks

Bruno

Hi Will,

Please insert the applicable placeholders in the borrowing and election notices where required. You can base these on the July 17, 2017 notices previously sent to the OFA which we discussed together with Opal last week.

Thanks,

JF

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO.

Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Thank you,

Commented [WT9]: We query whether section (k) is necessary since we consider that section (j) "any other Liens" may already capture this. We defer to OFA Legal on this matter.

Section (j) refers to Liens "of a nature similar to the foregoing" and may not capture liens in relation to the OFHP specifically. This change, if accepted by the OFA, must also be included in Amending Agreement #10.

Formatted: No bullets or numbering

Commented [JB14]: We defer to OFA Legal and Electricity Branch on this matter.

Commented [LS15]: Business decision – defer to Electricity Branch

Commented [BA16R15]: Fine with this. Consistent with the directeive.

Commented [LS17]: IESO has provided an explanation in their cover e-mail regarding deletion of this 12-month requirement. It is a business decision whether to accept this change. Is it a requirement based on the supporting documentation (I don't believe it's captured in the directive)?

Commented [WT18R17]: Documentation discussed that the 12-month was an unnessary retriction. No documentation to support the 12-month cap. Okay to remove 12-month restriction.

Formatted: Indent: First line: 0.5"

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. (2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

~~(2)~~ In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Commented [WT19]: We no longer include this language in in any of our debt documentation and query whether it is necessary.

Commented [LS20]: Who made the decision to exclude this language? I've sent an inquiry to MOF Legal.

Commented [LS21]: I've added back these clauses as per instructions/discussions. Perhaps this can be reviewed for future agreements.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. Hi Will

See attached. We are fine with "Use of proceeds" and "Clean Energy Adjustment". Minor proposed edit on the latter. I am not comfortable commenting on "Permitted liens (k)" as I do not fully understand this issue and in particular in relation to the "Negative Pledge" section.

But for what it's worth, I would not think that section (j) captures the specific wording of section (k). As this credit facility is for OFHP purposes, I assume the intent was to ensure liens related to OFHP are specifically noted. Was sec. (k) drafted by IESO? But as noted, if EFB is asked for comment I would have a number of more general questions about the "Liens" and legal aspects of these including:

1) permitted vs. not permitted liens. I think the Negative Pledge section relates to this and includes "permitted liens" as an exception

2) the list of permitted liens seems fairly specific list except for (k) which more generally notes and any liens related to IESO's OFHP obligations. I'm not suggesting any specific problem with this, but again wonder how this related to the Negative Pledge section.

I'm happy to discuss further.

Thanks

Bruno

Hi Will,

Please insert the applicable placeholders in the borrowing and election notices where required. You can base these on the July 17, 2017 notices previously sent to the OFA which we discussed together with Opal last week.

Thanks,

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO.

Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Thank you,

Lisa

Formatted: No bullets or numbering

Commented [JB14]: We defer to OFA Legal and Electricity Branch on this matter.

Commented [LS15]: Business decision – defer to Electricity Branch

Commented [BA16R15]: Fine with this. Consistent with the directeive.

Commented [LS17]: IESO has provided an explanation in their cover e-mail regarding deletion of this 12-month requirement. It is a business decision whether to accept this change. Is it a requirement based on the supporting documentation (I don't believe it's captured in the directive)?

Commented [WT18R17]: Documentation discussed that the 12-month was an unnessary retriction. No documentation to support the 12-month cap. Okay to remove 12-month restriction.

Formatted: Indent: First line: 0.5"

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. Commented [WT19]: We no longer include this language in in any of our debt documentation and query whether it is necessary.

Commented [LS20]: Who made the decision to exclude this language? I've sent an inquiry to MOF Legal.

Hello JF,

Please find the attached FHP Credit Facility Agreement. I have added the placeholder language in the borrowing and election notices and added it as a defined term. I noticed the forms sent to Carlos included additional language "IESO confirms it will also be paying interest in the amount of $22,950.27" (which I included as well).

In this version I have replied to Lisa's comments. I will have to get Electricity Finance to provide their comments to their respective sections before I present this draft to OFA Legal.

Thanks,

Will

Hi Will,

Please insert the applicable placeholders in the borrowing and election notices where required. You can base these on the July 17, 2017 notices previously sent to the OFA which we discussed together with Opal last week.

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO.

Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Hello JF,

Please find the attached FHP Credit Facility Agreement. I have added the placeholder language in the borrowing and election notices and added it as a defined term. I noticed the forms sent to Carlos included additional language "IESO confirms it will also be paying interest in the amount of $22,950.27" (which I included as well).

In this version I have replied to Lisa's comments. I will have to get Electricity Finance to provide their comments to their respective sections before I present this draft to OFA Legal.

Thanks,

Will

Hi Will,

Please insert the applicable placeholders in the borrowing and election notices where required. You can base these on the July 17, 2017 notices previously sent to the OFA which we discussed together with Opal last week.

Thanks,

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO.

Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Thank you,

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO. Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Commented [WT7]: We query whether section (k) is necessary since we consider that section (j) "any other Liens" may already capture this. We defer to OFA Legal on this matter.

Commented [LS8]: Is there a concern with including this from a business perspective? See IESO's cover e-mail. Section (j) refers to Liens "of a nature similar to the foregoing" and may not capture liens in relation to the OFHP specifically. This change, if accepted by the OFA, must also be included in Amending Agreement #10.

Hi Will
See attached. We are fine with "Use of proceeds" and "Clean Energy Adjustment". Minor proposed edit on the latter. I am not comfortable commenting on "Permitted liens (k)" as I do not fully understand this issue and in particular in relation to the "Negative Pledge" section.
But for what it's worth, I would not think that section (j) captures the specific wording of section (k). As this credit facility is for OFHP purposes, I assume the intent was to ensure liens related to OFHP are specifically noted. Was sec. (k) drafted by IESO? But as noted, if EFB is asked for comment I would have a number of more general questions about the "Liens" and legal aspects of these including:
1) permitted vs. not permitted liens. I think the Negative Pledge section relates to this and includes "permitted liens" as an exception
2) the list of permitted liens seems fairly specific list except for (k) which more generally notes and any liens related to IESO's OFHP obligations. I'm not suggesting any specific problem with this, but again wonder how this related to the Negative Pledge section.
I'm happy to discuss further.
Thanks
Bruno

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO.

Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

William,
1.
As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.
Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.
Plus any RRRP or other credit needs that may result during August.
3.
The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.

Currently, under the existing credit facility of $975 million a balance of combined balance of:

1. RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
   RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47
   I don't see the requirements of $260 million?
2. In mid-August if you add another $200-$250 million, what will be the new balance?
3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Call me if it's easier for you. 416-325-8090.

William,

1.

As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.

Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million. Plus any RRRP or other credit needs that may result during August.

3.

The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Anthony,
I trying to understand your drawing requirements.
Question regarding the email below and amounts needed for mid-August.
Currently, under the existing credit facility of $975 million a balance of combined balance of:

1.

RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47
I don't see the requirements of $260 million?

2. In mid-August if you add another $200-$250 million, what will be the new balance?
3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Call me if it's easier for you. 416-325-8090.

Hi Will,
I am away today and Monday, but I told Anthony we expected to sending the amending agreement to him today. It seems like Sarah Neville is very busy, and may not get to it today. At around lunch, please check with Sarah on the status (let her know that you are aware she is very busy, but just wanted to give IESO an update). I just sent to her Victor's response on Use of Proceeds.
It is likely you won't be able to get an amending agreement to IESO today; Sarah will need to sign off on any comments/revisions we send back to IESO, so realistically, if you have any comments on her comments, she won't have time to turn another review and sign-off by the end of the day (doesn't mean that you shouldn't try to ask her to see if it is possible). Accordingly, after you check with Sarah at lunch on the status of the amending agreement, you can follow up with Anthony to let him know when you expect to send it to him (if it won't be today). I'll take a peek at my e-mails on the weekend to see if there is anything on this file that needs my review.
Thanks,
Sarah

Hello Gavin,
I would like to provide Anthony Martinello (IESO) with a status update for the Amending Agreement 10 (as we have had it for nearly two weeks now). I was wondering if it's possible to for Electricity Finance to may make a determination as to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.
Thanks,

Subject: IESO DIRECTIVE decrease line of credit

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

No need to get a new directive provided the IESO agrees to add the words "only for liquidity purposes" to the draft use of proceeds language it has proposed.
Without the addition of a limitation it is borrowing permitted under the Reg which includes "corporate requirements" not "temporary corporate requirements", in that case my recommendation would be a new directive is obtained to clarify the record.

under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.
2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.
3. To provide such funds as may be necessary for the IESO to manage timing differences

between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act*, *2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Hello Gavin,
I would like to provide Anthony Martinello (IESO) a status update for the Amending Agreement 10, as we have had it for nearly two weeks now. I was wondering if it's possible to for Electricity may make a determination to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.
Thanks,

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?
Thanks,

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?

Hi Will,
Please e-mail Gavin and let him know that you would like to give Anthony an update, and wonder if it is possible to make a determination on the use of proceeds today so we can contact Anthony. I think we've had IESO's comments on the amending agreement for nearly two weeks (?), and we need to be able to respond with our determination in order move this forward. If we need a directive, Gavin mentioned we should complete internal sign-offs by the end of the week in order to be on track to have the Minister's signature by August 7th.
Also, please look at Sarah N's draft directive and provide any comments. She asked that the directives that are referenced should be double-checked (completeness and dates). Please check those as well (you may need to coordinate with Gavin if anything appears missing/off).
Thanks,
Sarah

Subject: IESO DIRECTIVE decrease line of credit

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan*

Act, *2017*, including borrowing,
i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hi Will,
Please e-mail Gavin and let him know that you would like to give Anthony an update, and wonder if it is possible to make a determination on the use of proceeds today so we can contact Anthony. I think we've had IESO's comments on the amending agreement for nearly two weeks (?), and we need to be able to respond with our determination in order move this forward. If we need a directive, Gavin mentioned we should complete internal sign-offs by the end of the week in order to be on track to have the Minister's signature by August 7th.
Also, please look at Sarah N's draft directive and provide any comments. She asked that the directives that are referenced should be double-checked (completeness and dates). Please check those as well (you may need to coordinate with Gavin if anything appears missing/off).
Thanks,
Sarah

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?
Thanks,

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan*

Act, *2017*, including borrowing,
i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Sarah

Hello all,
I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.
To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully covered by the directive. Why not.
Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7
Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.
Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9
Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only

for liquidity purposes.

No need to get a new directive provided the IESO agrees to add the words "only for liquidity purposes" to the draft use of proceeds language it has proposed.
Without the addition of a limitation it is borrowing permitted under the Reg which includes "corporate requirements" not "temporary corporate requirements", in that case my recommendation would be a new directive is obtained to clarify the record.

The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan*

Act, *2017*, including borrowing,
i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan*

Act, *2017*, including borrowing,
i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Subject: IESO DIRECTIVE decrease line of credit

Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those

operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;

- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello all,
I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.
To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully covered by the directive. Why not.
Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7
Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.
Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9
Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

No need to get a new directive provided the IESO agrees to add the words “only for liquidity purposes” to the draft use of proceeds language it has proposed.
Without the addition of a limitation it is borrowing permitted under the Reg which includes “corporate requirements” not “temporary corporate requirements”, in that case my recommendation would be a new directive is obtained to clarify the record.

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?
Thanks,

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,
Sarah

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR LINE OF CREDIT

TO: ONTARIO FINANCING AUTHORITY

Whereas:

Pursuant to a directive dated December 22, 2004 the Minister of Finance approved and directed the Ontario Financing Authority ("OFA") to make loans (the "Loans") to the Ontario Power Authority ("OPA") from time to time, as considered necessary by the OPA to meet its purposes, up to the maximum aggregate amount of $500 million, and to enter into a revolving credit facility agreement setting out the terms of the Loans (the "Credit Agreement").

Pursuant to a further directive dated October 3, 2005 the Minister of Finance approved and directed the OFA to increase the maximum aggregate amount of the Loans from $500 million to $975 million.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator (the "IESO"). Under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation.

The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Commented [LS1]: Program area to confirm

It is now desirable to agree to the IESO's request to decrease the maximum aggregate amount of the Loans from $975 million to $475 million.

Therefore:

Pursuant to sub-section 16(2) of the *Capital Investment Plan Act, 1993*, the OFA is directed to amend the Credit Agreement to decrease the maximum aggregate amount of the Loans from $975 million to $475 million.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

Hello Gavin,
I would like to provide Anthony Martinello (IESO) with a status update for the Amending Agreement 10 (as we have had it for nearly two weeks now). I was wondering if it's possible to for Electricity Finance to may make a determination as to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.
Thanks,
Will

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?
Thanks,
Gavin He

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,
Sarah

Subject: IESO DIRECTIVE decrease line of credit

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Thanks, Will.

Again, when you speak to Anthony, ask him if rolled interest is something IESO requires for the FHP. If we can align those requirements between both facilities, that would be operationally optimal.

Thanks,
Sarah

Hello Caroline

I have spoken to James Devine, Director Funding he reiterated Carlos Yep Manger Funding point that the OFA revolving credit facility allows for the rollover of interest. This feature is different from a bank line of credit where minimum payment (component of principle and interest) is required to remain current. I will reiterate to Anthony (IESO) in an email that the FHP credit facility effectively allows him to roll-over interest whereas the existing credit facility of $975 million does not.

Thanks,

Will

Hi Caroline,

Please draft without the inclusion of rollover interest. Tomorrow morning, Will shall also re-confirm with the traders about whether interest should accrued in the new FHP agreement.

Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Hi,
We didn't discuss the IESO's suggestion: to revise the Amending Agreement 10, to align the form of election notice under the current Credit Agreement with the form that will be used under the FHP Credit Agreement.
Do you agree with this proposal, or have any concerns with it?
If the election notices under the two agreements are to be aligned, then I think we should respond to Victor that, after the IESO and OFA have agreed on the language in the FHP Agreement related to Election Notices (in Article 3 and Schedule 2), then the OFA will update the draft Amending Agreement #10 to incorporate the new form of Election Notice.
Please let me know if you would like to discuss.
Thanks,
Caroline

Subject: Re: IESO FHP Credit Facility Agreement and Amending Agreement 10
Hello all - just as a follow-up to our call of a few minutes ago, it would make sense for the borrowing processes to be aligned for both lines of credit (i.e. the FHP line and the $475MM line) per Anthony's comments below.
Since it sounds like there will need to be some additional tweaks to the Election Notice language we inserted in yesterday's draft, would it make sense for you rather than us to make the changes to the Amendment #10 document as well, since you have the pen on this issue right now ? Just thinking here about what's most efficient time-wise (ie if not, we have to wait for your markup etc).
Let us know - thanks,
Victor

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Hi,
We didn't discuss the IESO's suggestion: to revise the Amending Agreement 10, to align the form of election notice under the current Credit Agreement with the form that will be used under the FHP Credit Agreement.
Do you agree with this proposal, or have any concerns with it?
If the election notices under the two agreements are to be aligned, then I think we should respond to Victor that, after the IESO and OFA have agreed on the language in the FHP Agreement related to Election Notices (in Article 3 and Schedule 2), then the OFA will update the draft Amending Agreement #10 to incorporate the new form of Election Notice.
Please let me know if you would like to discuss.
Thanks,
Caroline

Hi,

Thanks for meeting this morning to discuss the IESO's draft changes to the FHP Revolving Credit Facility Agreement. We understand that the intent of the changes to s. 3.2 and 3.3 are to allow for the IESO to provide, in one notice document, an Election Notice as well as a request for a new Advance.

The IESO has proposed to add to the definition of "Continued Advance" the amount of the proposed new Advance (s. 3.3(1)), i.e. "Continued Advance" would include:

- Continued amount (outstanding principal and interest of continued Advance), and
- Principal amount of new Advance

However, the continued Advance and the new Advance are treated separately for other purposes, including that they are recorded separately on the Grid Note in accordance with s. 3.2(2).

In light of this, we are proposing that the information about the continued Advance and the new Advance be included separately on the Form of Election Notice (e.g. section 1 – election notice; section 2 – request for new Advance). The document would include the information about both and allow for an election and new Advance to be done at the same time as requested by the IESO, but the two amounts (the "Continued Advance" and the "new Advance") would be separate for the purposes of the Agreement. This would better reflect how these amounts are reflected on the Grid Note, and so hopefully make the process easier for the parties to understand.

Do you agree with this approach, or have any concerns with it?

If you agree, before making these changes to s. 3.3 and Schedule 2, should we set up a call with the IESO to discuss and get their agreement in principle before drafting, in light of the tight timelines?

Thanks,

Caroline

Do you have any comments before the meeting to discuss?
Also, did Bruno have any input into the permitted liens language revision (in relation to Victor's question), or was that just Lisa and Toby?
Thanks,

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further

multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Hi Will,
Do you have any comments before the meeting to discuss?
Also, did Bruno have any input into the permitted liens language revision (in relation to Victor's question), or was that just Lisa and Toby?
Thanks,
Sarah

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.
Regards.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further

multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Hello,
I will review these changes. It would be helpful if we could set up a meeting tomorrow to discuss internally after we have had a chance to review.
I will also send the attached to MOF legal (Toby Whitfield), since there is a question about the subsection of the Permitted Liens definition, which he worked on.
Let me know if this works, and when you are available to discuss.
Thanks,
Caroline

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.
Regards.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Hello,
I will review these changes. It would be helpful if we could set up a meeting tomorrow to discuss internally after we have had a chance to review.
I will also send the attached to MOF legal (Toby Whitfield), since there is a question about the subsection of the Permitted Liens definition, which he worked on.
Let me know if this works, and when you are available to discuss.
Thanks,
Caroline

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.
Regards.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further

multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.
