4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.
2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.
3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.
4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Subject: IESO OFA OFHP Credit Facility - meeting with Anthony Martinello
Date: Friday, July 07, 2017 10:10:38 AM

Hello Sarah,

I have cleaned up some of the language recording the meeting with Anthony and the solutions agreed upon. I hope this suits you.

Thanks,

Will

1.
Hello all,

IESO has not completed its review of the documents relating to the new OFHP Credit Facility Agreement and Amending Agreement 10 (existing IESO OFA Credit Facility) by July 1. As a result, the new and existing credit facilities will not be in place in time of the targeted set-up date of July 1. According to Anthony Martinello of IESO, their legal department has a number of competing issues and limited resources. Anthony, estimated that the Amending Agreement 10, would be completed mid-July and new credit facility would be completed by the end of July. IESO is currently drawing on the existing credit facility categorized as Regulated Price Plan (RPP) under the FHP related financing and does not plan to exceed $475 million.

IESO's request for a new FHP $2 billion Credit Facility was predicated on the reduction of the existing credit facility by $500 million dollars. This term was included in the briefing note and lending directive to assist the Ministry of Finance in its decision to approve the order in council and directive for a total $2.475 billion credit facility limit.

In order to operate in a manner consistent with the terms approved by the Minister of Finance, IESO and OFA will reduce the existing credit facility from $975 million down to $475 million before completing the new $2 billion credit facility. This approach avoids violating the terms at which the OIC and lending directive was approved while facilitating each part of the process.

Reducing the credit facility first, approach is based on the remote possibility of IESO exceeds the $475 million credit facility limit. Anthony has noted that IESO has an existing credit facility with TD Bank. In the unlikely event of IESO exceeding borrowing requirements of $475 million, IESO indicated they would use their other credit facility at TD Bank instead to bridge the funding gap until such time as the new $2 billion credit facility is in place. Also, any amount exceeding $475 million before the existing credit facility is reduced, the result would be to reduce the $2 billion credit facility by the same amount.

Best regards,

Will

2.
Hello Anthony,

Thank you for your email. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will

I know you have had the contact with Anthony at IESO. The alternate to our M is away until next week. Did I get the rationale for the urgency right if I say – IESO has some sort of credit agency meeting scheduled or have ongoing discussions as a rated entity?

In order to plan for execution of the new IESO credit facility, you'll need to ensure that you all the various pieces are in place before execution.

Subject:	OFA Credit Facility to IESO - reduction from $975-$475
Date:	Tuesday, July 18, 2017 9:37:25 AM
Attachments:	RE IESO OFA new FH credit facility.msg

Hi Toby,

Hope you are having a good summer. Lisa is away and I am trying to move the IESO credit facility agreements forward in her absence. I understand that you have been involved in the new $2 billion line to fund the FHP. We are expecting feedback from IESO on that agreement in the next week or so, but in the meantime an issue has come up in respect of the "use of proceeds" under the other credit facility (the one being reduced to $475).

IESO has requested that the "use of proceeds" clauses in the Credit Facility be amended to simply permit borrowing for any purpose authorized by the Regulation. The IESO is currently using this line to fund FHP (which is permitted). In my view this would still be permitted under the reduced line even without the proposed change to the use of proceeds.

I am forwarding you an e-mail (attached) which includes what the ask is, the language in the current use of proceeds section, what the Regulation says and what the act permits. I am also forwarding (below in this e-mail) Sarah Harris' good summary of where all the loose ends have been tied up or remain loose. I realize you did not advise on this aspect of the FHP financing but I thought it might be prudent for you to be aware of this dynamic in the context of the $2billion line, in the event that what is being proposed is somehow problematic or inconsistent with what was envisioned/approved. I don't expect so, but want to make sure we are covering the basis.

Please let us know if you have any concerns or issues we should be aware of.

Thanks very much,

Sarah

Subject: RE: IESO Directives

Hi Sarah (N) and Will,

I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.

From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.
2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing

facility, nor was any direction given on this matter.

If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.

I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,
Sarah H

Hello William and Gavin:

For the purposes of coming to a decision on the question of the use of proceeds, I thought it might be helpful to consolidate all the different moving parts into one document.

Current Use of Proceeds under the Credit Facility (as amended on December 19, 2014 by Amendment No. 8):

Section 1 was amended to add the following definition of "Regulation" means O. Reg. 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

2.3 Use of Proceeds:

Up to the effective time of Amalgamation, the OPA shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, subject to the following conditions:

(1) effective as of December 31,2013, the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by the Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation; and (b) the following conditions will apply:

(1) the proceeds of the Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Proposed Change to Section 2.3 Requested by the IESO

The IESO has requested that the above be deleted in its entirety and replaced with the following:

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

Comments:

(1) The "Pre-Amalgamation" structuring language is removed. Are there any implications arising from this related to existing loans?

(2) The "Post-Amalgamation" structuring which tied borrowing to the purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation has also been removed along with the additional conditions set out sub-paragraphs (1) and (2). Does this cause any concern in respect of how the Credit Facility operates?;

(3) The reference to the Regulation can be abbreviated to simply "Regulation" given the addition of the defined term in Amending Agreement No. 8

(4) I note that the condition in sub(2) is phrased not as an obligation but an "expectation". It appears to have an intended purpose of restraining the renewal of certain advances beyond 12months. I do not know the rationale for its inclusion (this language was added in Amending Agreement 8). The Regulation and the Act, at least as they apply now, do not appear to require this (see below). I also note it is not drafted as an enforceable restriction or constraint in other relevant sections of the Agreement (as amended) e.g. in Section 3.3 which details the requirements for "Elections Regarding Advances" or in the Borrowing Notice, and there is no required related disclosure in respect of the Borrowing Notice for Renewed Advances. Is this possibly a requirement in the SIPP or the Minister's Directive, if there is one? I note that our file contains drafts of a reduction specific Minister's Directive which includes the following rationale for the reduction in the Credit Facility: "The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017"* but this language is flagged as requiring confirmation and I have no final version of the directive in the file, was this abandoned?

I note that the letter from the IESO to Gadi, requesting the $2 billion line, notes that the $975 credit facility is currently being used but the separate line is being requested for the following reason: "The IESO proposes that a separate and additional credit facility be provided by either the OFA or [the OEFC] to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking" and goes on to state "The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP". If there is concern about adopting the IESO's broad use of proceeds language that it will continue to borrow for FHP once the FHP agreement is in place, is one option to replicated the Pre- and Post- Amalgamation structure in Amending Agreement 8, allowing the line to be used until the FHP Credit Facility is not place but not after? This would not impact on timing of the agreements and would provide for the transition.

Regulation 280

Hello Gavin,

The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.

I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,

Will

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was

important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hi Toby,

Hope you are having a good summer. Lisa is away and I am trying to move the IESO credit facility agreements forward in her absence. I understand that you have been involved in the new $2 billion line to fund the FHP. We are expecting feedback from IESO on that agreement in the next week or so, but in the meantime an issue has come up in respect of the "use of proceeds" under the other credit facility (the one being reduced to $475).

IESO has requested that the "use of proceeds" clauses in the Credit Facility be amended to simply permit borrowing for any purpose authorized by the Regulation. The IESO is currently using this line to fund FHP (which is permitted). In my view this would still be permitted under the reduced line even without the proposed change to the use of proceeds.

I am forwarding you an e-mail (attached) which includes what the ask is, the language in the current use of proceeds section, what the Regulation says and what the act permits. I am also forwarding (below in this e-mail) Sarah Harris' good summary of where all the loose ends have been tied up or remain loose. I realize you did not advise on this aspect of the FHP financing but I thought it might be prudent for you to be aware of this dynamic in the context of the $2billion line, in the event that what is being proposed is somehow problematic or inconsistent with what was envisioned/approved. I don't expect so, but want to make sure we are covering the basis.

Please let us know if you have any concerns or issues we should be aware of.

Thanks very much,

Sarah

Subject: RE: IESO Directives

Hi Sarah (N) and Will,

I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.

From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.
2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing

facility, nor was any direction given on this matter.

If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.

I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,
Sarah H

Hello William and Gavin:

For the purposes of coming to a decision on the question of the use of proceeds, I thought it might be helpful to consolidate all the different moving parts into one document.

Current Use of Proceeds under the Credit Facility (as amended on December 19, 2014 by Amendment No. 8):

Section 1 was amended to add the following definition of "Regulation" means O. Reg. 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

2.3 Use of Proceeds:

Up to the effective time of Amalgamation, the OPA shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, subject to the following conditions:

(1) effective as of December 31,2013, the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by the Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation; and (b) the following conditions will apply:

(1) the proceeds of the Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Proposed Change to Section 2.3 Requested by the IESO

The IESO has requested that the above be deleted in its entirety and replaced with the following:

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

Comments:

(1) The "Pre-Amalgamation" structuring language is removed. Are there any implications arising from this related to existing loans?

(2) The "Post-Amalgamation" structuring which tied borrowing to the purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation has also been removed along with the additional conditions set out sub-paragraphs (1) and (2). Does this cause any concern in respect of how the Credit Facility operates?;

(3) The reference to the Regulation can be abbreviated to simply "Regulation" given the addition of the defined term in Amending Agreement No. 8

(4) I note that the condition in sub(2) is phrased not as an obligation but an "expectation". It appears to have an intended purpose of restraining the renewal of certain advances beyond 12months. I do not know the rationale for its inclusion (this language was added in Amending Agreement 8). The Regulation and the Act, at least as they apply now, do not appear to require this (see below). I also note it is not drafted as an enforceable restriction or constraint in other relevant sections of the Agreement (as amended) e.g. in Section 3.3 which details the requirements for "Elections Regarding Advances" or in the Borrowing Notice, and there is no required related disclosure in respect of the Borrowing Notice for Renewed Advances. Is this possibly a requirement in the SIPP or the Minister's Directive, if there is one? I note that our file contains drafts of a reduction specific Minister's Directive which includes the following rationale for the reduction in the Credit Facility: "The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017"* but this language is flagged as requiring confirmation and I have no final version of the directive in the file, was this abandoned?

I note that the letter from the IESO to Gadi, requesting the $2 billion line, notes that the $975 credit facility is currently being used but the separate line is being requested for the following reason: "The IESO proposes that a separate and additional credit facility be provided by either the OFA or [the OEFC] to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking" and goes on to state "The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP". If there is concern about adopting the IESO's broad use of proceeds language that it will continue to borrow for FHP once the FHP agreement is in place, is one option to replicated the Pre- and Post- Amalgamation structure in Amending Agreement 8, allowing the line to be used until the FHP Credit Facility is not place but not after? This would not impact on timing of the agreements and would provide for the transition.

Regulation 280

Hello Gavin,

The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.

I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,

Will

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was

important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

HI Will – I have comments on the attached. I highlighted them with yellow because I think my changes get anonymized otherwise.

Please note that I have taken as a starting point for this review the draft you circulated on July 11 and identified in your e-mail on that date as the IESO's revised draft (the IESO Draft). I have assumed that the track changes in that draft were made by the IESO only and not changed by you (I note you did add comments, I am referring only to the drafting changes in the clauses themselves). If that assumption is wrong, don't even open this draft, if won't make sense.

I have compared your draft to the July 11 draft and put back in the IESO's language, accepted it where appropriate, and then overlaid the OFA's suggested additional changes where required. We can't send a document back that does not track all changes we made to the version the IESO sent us. The only exception to this is in paragraphs 2 and 3 which have been revised back to the OFA's original language. The comment boxes clearly inform the IESO that this has been done.

If my assumption with respect to the IESO Draft is correct, you can remove the highlighting from the document, leaving just the tracked changes and comments and send to IESO, if my assumption is wrong, please send me the version that the IESO sent us, and I will track in the required changes.

Please also note that I recommend deleting one of the comment boxes as in my view it is not relevant.

Please let me know if you have questions or would like to discuss.

Thanks very much,

Sarah

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator" **("IESO")**, and the obligations of the OPA became obligations of the IESO ~~amalgamated corporation~~;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9"), the OPA or "IESO"~~,~~ (as applicable) and the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total~~-~~ principal amount available under the Credit Agreement ~~of the operating facility~~ from $975,000,000 to a total principal amount ~~-~~of up to $475,000,000; and (ii) ~~to update the uses which IESO may make of the funds drawn under the facility~~ to amend the use of proceeds under the Credit Agreement;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

Commented [A1]: ~~Agree. To maintain consistency with this amending agreement, previous amending agreements and this credit facility the OPA/IESO is stated before OFA.~~ [Comment not needed. I accepted the changes that were in the IESO mark up because we are accepting them. Because you have now added the IESO amalgamation bullet before this recital we have defined the amalgamated entity already and the abbreviation can be used as stand alone again]

Commented [A2]: Will – I put this back to the version from the IESO draft and then tracked in the changes we are proposing to make

2. On the date of this Amending Agreement and prior to any further Aadvances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Aadvances Ooutstanding to date of $114,383,131.40.

3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO.

4. DeleteSection 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows is deleted in its entirety and replaced by the following:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, provided that Advances may be used only for liquidity purposes."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A3]: Agreed, subject to change.

Commented [A4]: Anthony,

This language should revert back to the original language. Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered. The mark-up tracks changes to the OFA's original drafting.

Commented [A5]: Anthony,

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

Commented [A6]: Will – I put this back to the language in the IESO's mark up and then tracked in our new changes.

Hi William – I have reviewed and made changes on the attached – I believe they should show up in purple.

I think, given the back and forth we have had on this, that there are lots of internal comments and discussion on the attached that we probably don't need to share with IESO. I would recommend you pull up the original mark-up you got from IESO and work from that. That way you can go back with a simple clean draft which accepts those changes we agree with and shows as further mark up only OFA's changes to IESO's draft and including only those comments required to explain our position to IESO (most notably where we are not accepting IESO's changes in paragraphs 2 and 3).

The alternative approach is to take the version we sent them and track in those changes we agree with from IESO's draft.

Please let me know if you have comments or would like to discuss any of my changes.

Thanks very much,

Sarah

Commented [A9]: Confirmed with Electricity Finance.

Commented [A10]: From a chronological perspective I suggest we move, down to this location.

Commented [A11]: See comment above. If this stays here I would amend to refer to the IESO

Commented [A12]: I would simply track the language in the relevant section below.

Commented [A13]: Confirmed with Electricity Finance.

Commented [A14]: This language should revert back. Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Commented [A15]: Should be Schedule 3 Grid Note (not Schedule 1. Schedule 1 is Form of Borrowing Notice). Otherwise, changes are fine.

Commented [A16]: Anthony,

~~Technically, the obligation is to deliver in the amendment is to deliver a signed note and deliver before on closing prior to any advance and the grid note Schedule 3 forms part of the amending agreement. I suggest we revert to the previous version for this paragraph.~~

Commented [A17]: ~~Fine~~ Not fine - this needs to go back to the original language because OFA won't cancel the existing Grid Note until we receive the new one.

Commented [A18]: William is the struck language here what the IESO suggested or is this us deleting our own subsequent additions?

Commented [A19]: Confirmed with Electricity Finance.

(1)Ameding agreement #8 of this agreement also includes a restriction under Use of Proceeds uuder section 2.3(2;) "with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, 1998, the OPA or successor "new" IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. This restriction is also included in draft for the new $2 billion credit facility. I suggest we include the retriction, ensuring the reference to the Electricity Act is still appropriate.

Commented [A20]: William is this note staying in? It would seem no longer relevant?

Good morning Will,

Hope you had a nice weekend. Attached is the mark up of Amending Agreement No 10. I have accepted all changes on the IESO draft of July 7, with the exception of Paragraphs 2 & 3 which has been changed back to the OFA's original language. This is clearly noted in a comment box which should travel with the draft to IESO. Based on IESO's response on Friday, this should not be a controversial amendment.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

Please let me know if you require anything further or if you have questions.

Thanks very much and best regards,

Sarah

Hello,

We are currently in the process of working on a new $2B OFA-IESO Credit Facility to provide funding in respect of the Ontario Fair Hydro Plan. Under this framework, the existing $975 million OFA-IESO Credit Facility is to be reduced to $475 million. Due to a required Ministerial approval, the new $2B facility will not be executed until mid-September (estimate).

Once the new $2B facility is in place, the OFA would be looking to re-allocate certain loans (TBD) from the existing $975M credit facility to the new $2B facility, in order to bring the existing facility under the new intended $475 million limit. Effectively, under the legal agreements, it would be transferring certain loans from the existing facility to the new facility. The intention is that there will be no movement of funds and therefore no cash impact (that is, IESO does not repay the existing loans, and the OFA does not fund the new loans).

Would you please confirm if there are any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility?

Thanks,

Sarah

Subject: OFHP - June 28 meeting summary
Date: Monday, July 10, 2017 4:55:09 PM

Hello all,

Below is a number of topics discussed internally and eventually with Anthony of IESO.

IESO has not completed its review of the documents relating to the new OFHP Credit Facility Agreement and Amending Agreement 10 (existing IESO OFA Credit Facility) by July 1. (Update: First round of IESO draft comments for Amending Agreement 10 was received on July 7) As a result, the new and existing credit facilities will not be in place in time of the targeted set-up date of July 1.

According to Anthony Martinello of IESO, their legal department has a number of competing issues and limited resources. Anthony, estimated that the Amending Agreement 10, would be completed mid-July and new credit facility would be completed by the end of July. IESO is currently drawing on the existing credit facility categorized as Regulated Price Plan (RPP) under the FHP related financing and does not plan to exceed $475 million.

IESO's request for a new FHP $2 billion Credit Facility was predicated on the reduction of the existing credit facility by $500 million dollars. This information was included in the briefing material (LRC Approval Form) to assist the Ministry of Finance in its decision to approve the order in council and directive.

In order to proceed in a manner consistent with the FHP loan framework presented to the Minister of Finance (i.e. an existing credit facility reduced to $475M plus a new $2B FHP credit facility, with a combined limit of $2.475 B), IESO and OFA agreed that we will reduce the existing credit facility from $975 million down to $475 million before completing the new $2 billion credit facility.

Reducing the $975M credit facility first mitigates, the possibility of IESO exceeding the $475 million revised borrowing limit requested by IESO on the existing credit facility, and ensures that the total $2.475B 'borrowing limit' for FHP purposes is not exceeded. Anthony has also noted that IESO has an existing credit facility with TD Bank. In the unlikely event of IESO exceeding borrowing requirements of $475 million between now and execution of the of the amending agreement, IESO indicated they would use their other credit facility at TD Bank instead to bridge the funding gap until such time as the new $2 billion credit facility is in place. It was also internally agreed that that in the event IESO does exceed $475 million before the existing credit facility is reduced, the remedy would be to reduce the $2 billion credit facility by the same amount.

Promissory Note

For value received, the Ontario Financing Authority (the "Borrower") promises to pay to Her Majesty the Queen in right of Ontario as represented by the Minister of Finance, Province of Ontario (the "Lender") at the City of Toronto in lawful money of Canada, the lesser of:

(i) Two Billion Dollars; and

(ii) the aggregate unpaid principal balance of all advances made by the Lender as recorded on the reverse of this note or on any attachment described below;

at such time and on such other terms and conditions including the payment of interest as follows;

(a) the Borrower shall be entitled to advances of the loan (an "Advance") in such amounts and at such times as it requires provided that the aggregate amount advanced shall not exceed Two Billion Dollars;

(b) the Borrower shall be entitled to repay Advances either in whole or in part and at such time or times as it determines provided that all Advances plus any accrued interest shall be fully repaid by December 31, 2047;

(c) the Borrower shall be entitled to use the loan as a revolving credit facility allowing for successive advances of moneys repaid under the loan; provided that the maximum principal amount of the loan outstanding at any time shall not exceed Two Billion Dollars;

(d) the Borrower shall pay to the Lender interest on each Advance at a rate which is determined as follows

(i) from the date of Advance to (but excluding) the date of repayment the Borrower shall pay to the Lender interest on the Advance at a per annum rate equivalent to the yield earned on ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for ninety days or longer, the interest rate shall be reset on the last day of each ninety day

period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills on the Reset Date as determined by the Province;

(ii) in the event that moneys included in an Advance are subsequently loaned by the Borrower to third parties for the purposes contemplated in the Act, (a "Third Party Loan") the rate of interest payable by the Borrower to the Lender on the portion of the Advance so loaned shall be adjusted at the option of the OFA effective as of the date of the Third Party Loan so that the per annum rate of interest payable by the Borrower on such moneys is equivalent to either:

(A) the per annum rate of interest payable to the Borrower under the Third Party Loan, or

(B) the per annum rate of interest payable to the Borrower under the Third Party Loan less an amount not exceeding 25 basis points,

rather than the rate specified in subparagraph (i), until (but excluding) the date on which the Third Party Loan is repaid to the OFA, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently loaned to third parties again, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Lender on that portion of the Advance included in any subsequent loan, and so on, until the Advance shall be repaid to the Province in full;

(e) despite subparagraphs (c)(ii) and (iii) in the event that no interest is payable to the Borrower under a Third Party Loan, no- interest shall be payable by the Borrower on the portion of the Advance so loaned and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period;

Commented [WT1]: Lisa, what type of additional written authorization is required for the Minister to specify 'the amount determined by the Minister of Finance" or is this handled by the Directive that is being drafted?

(f) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(g) despite paragraph (b), interest on any portion of an Advance made to the Borrower under the loan that is loaned by the Borrower as a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the Borrower receives payment of interest under the relevant Third Party Loan; and

(h) despite paragraph (b), any portion of the principal of an Advance made to the Borrower under the loan that is loaned by the Borrower as a Third Party Loan shall become payable only to the extent the Borrower receives repayment of principal under the relevant Third Party Loan.

The undersigned authorizes the Lender to record on the reverse of this note or on any attachment to this note all advances, repayments and prepayments of principal and interest and the unpaid balance of principal from time to time. The undersigned agrees that in the absence of manifest error the record kept by the Lender on this note or any attachment shall be conclusive evidence of the matters recorded, provided that the failure of the Lender to record or correctly record any amount or date shall not affect the obligation of the undersigned to pay the outstanding principal amount of the Advances and interest.

Date as of the 1st day of July, 2017.

Amendment:

- Increase to CAD 2.35B to December 31, 2018
- Amend definition of Base Rate to more closely relate to hedging that is done for the borrowing.
- Additional proposed amendment by OPG (being considered internally in OFA) to amend definition of S*ubsidiary* to exclude "any Person that is a "financing entity" as defined in the *Ontario Fair Hydro Plan Act, 2017* (Ontario). The entity needs to be legally separated from OPG and be a single purpose entity for the FHP to work (see the information that Ryan and Kelly put together earlier).

Hello all,

-

Issue:

IESO will not have completed its review of the documents relating to the new OFHP Credit Facility Agreement and Amending Agreement 10 (existing IESO OFA Credit Facility) by July 1. As a result, the new and existing credit facilities will not be set-up in time of the targeted set-up date of July 1. According to Anthony Martinello (IESO) their legal department have a number of competing issues and limited resources. Anthony, estimated that the Amending Agreement 10, would be completed mid-July and new credit facility would be completed by the end of July. IESO is currently drawing on the existing credit facility as Regulated Price Plan (RPP) (FHP related financing) and does not plan to exceed $475 million.

OFA concerns:
If the existing credit facility is fully utilized up to its limit of $975 million and the $2 Billion credit facility is approved the potential **operational challenges** are as follows:

1. Reducing the existing credit facility down to $475 million with an outstanding balance of $975 million.
2. Logistical and procedural issue of repayment of the outstanding balance before the advancement of funds under the new credit facility (potentially an overlap of credit availability of $500 million).

Solution:

To assist OFA in its operational concerns, Anthony Martinello has agreed to deliver the executed Amending Agreement 10, to reduce the credit facility from $975 million down to $475 million. (He would utilize his other credit facility at TD bank instead if necessary). He also agreed, in the event IESO borrows more than $475 million before the existing credit facility is reduced, the result would be to reduce the $ 2 Billion credit facility by the same amount.

Hi William,

If the credit agreement cannot be put in place this week, the alternative would be to actually amend the $975 agreement to update "purpose" to include FHP. The facility can likely still be used as written for FHP but amending it would provide clarity.

When the new one is ready, we would move over any drawdowns related to FHP to the new facility.

Reducing the $975 to $475 before the new one is in effect would not work for IESO.

Salman

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line. The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

To assist OFA in its operational concerns, Anthony Martinello has agreed to deliver the executed Amending Agreement 10, to reduce the credit facility from $975 million down to $475 million. (He would utilize his other credit facility at TD bank instead if necessary). He also agreed, in the event IESO borrows more than $475 million before the existing credit facility is reduced, the result would be to reduce the $ 2 Billion credit facility by the same amount.

Hi William,

If the credit agreement cannot be put in place this week, the alternative would be to actually amend the $975 agreement to update "purpose" to include FHP. The facility can likely still be used as written for FHP but amending it would provide clarity.

When the new one is ready, we would move over any drawdowns related to FHP to the new facility.

Reducing the $975 to $475 before the new one is in effect would not work for IESO.

Salman

Hello Anthony,

If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line. The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Hello Sarah, please see my draft email to Ken.

Hello Ken,

Please find the draft email to request for additional information. We are looking to you and/or Mike to provide a decision on whether this should be an unsecured credit facility. We want to ensure that we are asking all the essential questions and obtaining all the appropriate information required for you to make such a decision. Does this draft email contain the appropriate questions and are they are these questions sufficiently robust.

Dear Anthony,

My apologies for the delay in returning the FHP Credit Facility Agreement. We encountered a delay in relation to a OFA compliance security provision. It would be helpful if you could answered the following questions:

1. Does IESO have other financial obligations such as but not limited to swap agreements, other financial obligations etc . that could become due or provide additional credit risk?
2. Does IESO have any other financial obligations or security interest that could attach to the Regulator Asset/Special Purpose Vehicle?

Thanks,

Will

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the*

IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or

liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: Policy questions re OFHP Credit Facility Agreement

Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am

not sure about the underlying facts without more input from ENERGY and the IESO.
In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hello Sarah, please see my draft email to Ken.

Hello Ken,

Please find the draft email to request for additional information. We are looking to you and/or Mike to provide a decision on whether this should be an unsecured credit facility. We want to ensure that we are asking all the essential questions and obtaining all the appropriate information required for you to make such a decision. Does this draft email contain the appropriate questions and are they are these questions sufficiently robust.

Dear Anthony,

My apologies for the delay in returning the FHP Credit Facility Agreement. We encountered a delay in relation to a OFA compliance security provision. It would be helpful if you could answered the following questions:

1. Does IESO have other financial obligations such as but not limited to swap agreements, other financial obligations etc . that could become due or provide additional credit risk?
2. Does IESO have any other financial obligations or security interest that could attach to the Regulator Asset/Special Purpose Vehicle?

Thanks,

Will

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the*

IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Subject: RE: IESO : OFA new FH credit facility

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Subject: RE: IESO : OFA new FH credit facility

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.

The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Hello Salman, Bruno and John,

We have received a proposed change with respect to the existing IESO OFA Credit Facility under Amending Agreement 10. Attached is IESO's comments to change "Use of Proceeds":

1. "AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;" (Page 1, paragraph 4).

2. Documentation has also provided its recommended changes. Documentation's proposed changes are the same wording used in the new $2 billion OFHP Credit Facility and an opportune to streamline "Use of Proceeds" in both agreements. (page 2, paragraph 4).

Below is a table comparing IESO's proposed changes and Documentation's recommended changes. Gentlemen, please provide your approval/thoughts to the proposed changes for the "Use of Proceeds".

Hi Anna,

As discussed, we are looking to have directive signed by the Minister, but you had mentioned the Head of Treasury Board may be able to sign as the Minister's delegate?

The nature of the directive is to obtain approval for an exemption from the inclusion of a security provision in an OFA credit facility agreement under the OFA Lending Policy.

The OFA Lending Policy (attached, see p. 5 of 7 of the. pdf, "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the **Minister, Cabinet or Treasury Board.**

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

The Legislature appropriates no funds for the IESO, since the IESO is ratepayer-funded. It therefore makes no sense to include this provision and we are looking for a direction for an exemption in this regard.

Thanks,

Sarah

OFA LENDING POLICY

Approved:	**April 11, 2008**
Revised and approved:	**April 16, 2010**

SCOPE

The Ontario Financing Authority (OFA) is a crown corporation that has the statutory authority to lend to public bodies under the *Capital Investment Plan Act (CIPA).*

Public bodies are defined in CIPA as Crown agencies, hospitals and any other facilities receiving capital funding from the Minister of Health and Long-Term Care, municipalities, universities that receive operating funds from the Province, colleges of applied arts and technology, school boards, and any other entity named or described as a public body in the regulations which as of this date include the Deposit Insurance Corporation of Ontario, the Ontario Pension Benefits Guarantee Fund and the Law Society of Upper Canada and the Ontario Power Authority.

This policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS

This policy replaces the OFA lending policy that was approved by the OFA Board of Directors on April 11, 2008.

Any amendments or exceptions to this policy must be approved by the OFA Board of Directors.

POLICY FRAMEWORK

On June 21, 2007, the government approved a new framework for financing public bodies that are consolidated on the Province's financial statements. Consolidated public bodies include school boards, colleges, hospitals and corporations, boards and commissions.

Generally, the policy framework mandates the OFA to provide long-term financing for capital purposes to school boards, colleges and hospitals, as well as to Provincial corporations, boards and commissions who borrow as agents of the Crown, where the financing is recommended by the responsible ministry.

The policy framework also mandates the OFA to charge a cost recovery rate for all loans to public bodies, and a proxy commercial rate where the project is deemed to be commercial in nature. Determinations as to the nature of the project are to be made by the OFA in consultation with the recommending ministry.

TYPE OF FINANCING

The policy framework mandates the OFA to provide long-term financing to public bodies, which will be undertaken on a fixed rate or variable rate basis. Except where the Minister of Finance, Treasury Board or Cabinet determines there is a significant benefit to the public body or to the Province, the OFA will not provide:

1. Short-term financing for operating or working capital purposes.

2. Construction financing where capital projects require significant project monitoring expertise to keep construction running on time and on budget.

3. Financing to consolidated corporations, boards and commissions that are not Crown agents.

LOAN APPROVALS

1. The OFA will only advance a loan to a public body where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body.

2. Where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body, no further Board approval is required.

3. The OFA Board shall annually review a borrowing and on-lending plan (the OFA's Annual Borrowing and On-Lending Plan), which shall include the OFA's annual borrowing requirements from the Province and projected on-lending activities to Ontario public bodies for the year. As part of its review, the OFA Board shall approve the OFA's cost recovery spread and proxy commercial interest rate spreads related to the OFA's annual lending activities to public bodies.

4. The OFA Board will be advised at its next regularly scheduled meeting of any deviations from the OFA's Annual Borrowing and On-Lending Plan.

LENDING DIRECTIVE

The OFA will prepare an annual lending directive for the Minister of Finance's consideration based on the proposed loans in the OFA's Annual Borrowing and On-Lending Plan which require consent under Section 28 of the *Financial Administration Act* ("FAA") or which are to be made to School Boards. The lending directive will expressly direct or approve the OFA to advance these loans to public bodies for the fiscal year. The lending directive will include the maximum authorized amount of the loans to individual borrowers or the maximum amount of all the loans to a group of borrowers, such as School Boards or Community Colleges, and where possible, the borrower's name and the specific purpose(s) for which the loans are required, with the other terms and

conditions of the loans being delegated to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them for approval.

The OFA will prepare specific lending directives for consideration by Minister of Finance for proposed loans in the the OFA's Annual Borrowing and On-Lending Plan which do not require consent under Section 28 of the FAA, other than loans to School Boards, at the time that the requests for the OFA to enter into such loans are being processed.

CONDITIONS PRECEDENT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will:

1. Receive and review the public body's loan request as submitted and recommended by the responsible ministry.

2. Determine the public body's ability to repay the loan by relying on information submitted by the responsible ministry and public body, which may include information on the capital project, business case, cash flow projections and audited financial statements, and such other information as may be required.

3. Where required, ensure that the responsible ministry or public body has obtained prior written approval for the proposed loan pursuant to Section 28 of the FAA. The CEO of the OFA will not act as the delegate of the Minister of Finance to provide approval under Section 28 of the FAA for a loan when the OFA is the lender.

4. Evaluate the underlying risk of the project in order to determine if the project is commercial in nature, and if so establish an appropriate proxy commercial basis points spread to charge the public body as approved by the OFA Board (see "Proxy Commercial Rate").

5. Enter into a loan agreement with the public body containing terms and conditions consistent with the lending directive and satisfactory to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them , including appropriate (i) positive and negative covenants of the public body, (ii) representations and warranties by the public body, (iii) conditions precedent, (iv) remedies upon default provisions, (v) reporting provisions, (vi) event of default provisions, and (vii) intercept provisions.

6. Ensure that it has an appropriate intercept in place for the loan (see "Intercept").

SECURITY

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision, as provided below) in respect of loans made by the OFA to public bodies.

INTERCEPT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet:

1. Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

2. Prior to recommending to the Minister of Finance that the intercept be exercised, the OFA will raise the issue with the responsible ministry and seek the ministry's support in getting the public body to pay the amounts owing within a reasonable cure period.

3. Should the public body not cure the default within a reasonable period of time, the OFA will give written notice to the Minister of Finance, with a copy to the responsible ministry, of a public body's failure to pay under its loan agreement and requesting the deduction of amounts equal to the amounts that a public body has failed to pay under its loan agreement.

4. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to covenant and agree that, upon receipt of notice from the OFA that a public body has failed to pay in accordance with the provisions of its loan agreement, the responsible ministry will provide all information requested by the OFA respecting amounts appropriated by the Legislature for payment to the public body including the intended purpose and expected timing of such payments to be made by the responsible ministry. Upon request, the responsible ministry agrees to provide similar information to the Minister of Finance.

5. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to acknowledge and agree that, upon receipt of a direction from the Minister of Finance, that an amount is to be deducted from

money appropriated by the Legislature for payment to the public body, the responsible ministry will take all necessary action required by it in order to effect such deduction in accordance with the Minister of Finance's direction and pay the amount to the OFA at the time specified.

COST RECOVERY

1. The OFA will recover its lending costs by charging public bodies a rate equal to the **Province's total cost of funds**, which will include the Province's direct borrowing costs (including commissions) as well as a spread to cover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.

2. The OFA will use a **basis-points-spread (bps) based cost recovery methodology** to recover the costs of its direct borrowing and on-lending activities. The costs relate to both the upfront and ongoing loan monitoring and administration and are expressed in terms of basis points per annum and will be recovered over the term of the loan.

3. The annual basis-point spread charged to public bodies for cost recovery shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. The Capital Markets Treasury Division of the OFA, with the assistance of Internal Audit, will conduct an annual review to ensure that the cost recovery methodology is appropriate and that there are no significant under/over- recoveries that may require management's corrective action.

PROXY COMMERCIAL RATE

1. In addition to charging the Province's total cost of funds, the OFA will charge a proxy commercial basis points spread for projects that are commercial in nature in order to better reflect the costs of the underlying risk for financing of such projects. The proxy commercial basis points spread will be added to the Province's total cost of funds and recovered over the term of the loan. Loans are deemed to be commercial in nature where generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources.

2. The methodology for determining proxy commercial basis points spreads (including the amount(s) of these spreads) charged to public bodies for projects deemed commercial in nature shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. Proxy commercial basis points spreads will also be re-evaluated (and, if deemed necessary, reset upon approval of the OFA Board) in situations where there are significant changes to fixed income credit spreads. The OFA Corporate Finance Branch is responsible for recommending any changes to the

methodology or spread resets to the OFA Board, while the Capital Markets Division is responsible for informing the Corporate Finance Branch of any significant changes to fixed income credit spreads.

REPORTING REQUIREMENTS

1. A report outlining the status of all outstanding loans will be tabled with the OFA Board annually (the OFA's Annual Borrowing and On-Lending Plan) and at such other times as the OFA Board requests.

2. For each loan outstanding, such report will identify: the borrower, the purpose of the loan, the principal amount outstanding, and such other information as the OFA Board may request.

3. All OFA loans to public bodies will continue to be annually reported in the notes to the OFA's audited financial statements as disclosed in the OFA's Annual Report.

Subject:	Questions re Intercept Provision
Date:	Monday, August 14, 2017 10:51:26 AM

Hi,

Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end.
2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

    1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.
3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling.

Thanks

Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements,*

other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?

- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements

have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap

agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: Questions re Intercept Provision
Date: Monday, August 14, 2017 10:51:26 AM

Hi,

Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

> *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.*

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling.

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi John,
Given that the Minister of Finance is away, is this going to be sent to the President of Treasury Board as alternate Minsiter?

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

OFA -- IESO CREDIT FACILITY ~~IES~~MINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

BACKGROUND

The Independent Electricity System Operator ("IESO") requested a revolving credit facility ("the credit facility") in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

On June 29, 2017, the OFA received ~~a~~ l~~L~~ending d~~D~~irective from the Minister of Finance to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the ~~OFA~~Minister of Finance to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an ~~from the i~~Intercept p~~P~~rovision ~~both~~ in ~~its OFHP Credit Facility~~ the credit facility agreement with the IESO and the reduced $475 million credit facility ~~the new $2 billion credit facility to support the IESO's role in the Fair Hydro Plan and the reduced $475 million credit facility~~. [The existing $975 million credit facility is requested to be reduced to $475 million, in connection with the newly requested $2 billion credit facility.]

- ~~Note: The Intercept Provision under the OFA's Lending Policy for unsecured lending to a public body requires that, unless exempted by the Minister of Finance [or Treasury Board or Cabinet], the OFA put in place a provision whereby the OFA is entitled to deduct amounts equal to any amounts the public body fails to pay to the OFA under the loan, from money appropriated by the Legislature for payment to the public body.~~

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to provide th~~ese~~ requested credit facilities~~ies~~ to the IESO without the inclusion of an ~~an I~~intercept provision in the loan agreement~~under the OFA Lending Policy~~.

- The requested Intercept Exemption Directive would only apply to the two specified credit facilities.

CONSIDERATIONS

Commented [LS1]: After discussion with Ken Russell, we think the directive should be limited to the new credit facility agreement.

Commented [SK82R1]: I understand we are deciding to ensure both credit facilities are covered the Intercept Exemption Directive. Will revert language back accordingly.

Commented [JK3R1]: A business decision – which I am sure ADM/CEO would support

- ~~This The OFHP Credit Facility~~This Intercept Exemption Directive will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the ~~Fair Hydro Plan~~OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility [to be amended from the current $975 million facility].

- ~~Under T~~the OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA~~, the following is provided for~~:

  ~~"~~Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.~~"~~

- The ~~intercept in the~~ OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RATIONALE FOR EXEMPTION

- ~~An~~ Including an i~~I~~ntercept p~~P~~rovision in the ~~new OFHP Credit Facility~~ credit facilities agreement with the IESO would have no practical usefulness in the case of the IESO as it receives no operational funding from the Province of Ontario.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment of the intent of the OFA's Lending Policy.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the two ~~new two revolving~~ credit facilities~~y~~~~ies~~ ~~agreement~~ with ~~to~~ the IESO [per the Minister's Directive signed on June 29, 2017] from inclusion of an intercept provision, as required by the OFA Lending Policy. ~~Intercept provision under the OFA Lending Policy.~~

Commented [LS4]: This is not a defined term.

Commented [LS5]: Is this even a possibility? I thought there were no funds to intercept.

Commented [SK86R5]: There are payments (appropriated to Energy from the legislature) made to the IESO to carry out price mitigation programs (eg. electricity support programs).

Just want to explain here the intent of the policy isn't to claw back/intercept payments specifically designed to assist electricity ratepayers for which the IESO is a conduit.

Commented [JK7R5]: To Lisa's question - I don't believe that is the intent of requiring an intercept provision.

- ~~[The Intercept Exemption Directive would also exempt any lending to the IESO from the OFA, previously authorized and/or subsequently amended, to be exempt from the Intercept Provision.]~~

Commented [SK88]: This is to ensure both the 2B and 475M credit facilities are covered.

Commented [LS9]: See earlier comment

Commented [SK810R9]: Bullet above modified to include both facilities.

Commented [JK11R9]: To proceed with the Intercept Exemption Directive for the two facilities only.

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of ~~not~~ having ~~an~~the ~~i~~Intercept Exemption ~~p~~Provision.]

Commented [RK12]: What about saying that as IESO is a consolidated entity, and if there were any amounts to intercept, there would be no incremental fiscal impact of not having an intercept provision?

BACKGROUND

The IESO

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.
-
- The IESO is a public body for the purposes of CIPA.

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

Pls. see attached. I haven't yet run this draft by Ron but spoke to him about the direction this afternoon.

Happy to organize a call first thing tomorrow. We are hoping to get it signed by Ron and Gadi tomorrow before Gadi leaves on his vacation.

I left out the second part of Malle's comment (the whereas one) as I wasn't sure how to do that.

Hi Malle, Lisa,

Pls. see attached. I haven't yet run this draft by Ron but spoke to him about the direction this afternoon.

Happy to organize a call first thing tomorrow. We are hoping to get it signed by Ron and Gadi tomorrow before Gadi leaves on his vacation.

I left out the second part of Malle's comment (the whereas one) as I wasn't sure how to do that.

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

OFA LENDING POLICY:
FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

SCOPE

- This policy addresses lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS and EXCEPTIONS

- Any amendment or exception to this policy must be approved by the OFA Board of Directors.

POLICY RULES

1. Role of OFA as a Lending Intermediary

a. The OFA will not lend funds to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board.

b. The OFA will advance loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan.

c. The OFA will not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

2. OFA Loan Approvals

a. The OFA shall annually approve a borrowing plan for the OFA that identifies:

(i) the OFA's borrowing requirements for the year from the Province and any other sources; and

(ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

b. Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

c. Where the Province has approved the provision of Provincial financial support to a public body, but has not specifically referred to a role for the OFA, the OFA will advance the loan only where:

(i) either the Chief Executive Officer of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

(ii) there is a sufficient allocation for the loan (specifically or as a contingency allocation) in the annual borrowing plan for the OFA approved by the Board.

d. The Board will be advised, at its next regularly scheduled meeting, of any potential or actual deviations from the annual borrowing plan resulting from a loan referred to in paragraph 2(b).

3. OFA Loan Terms and Conditions

a. Where Cabinet, Management Board of Cabinet or the Minister of Finance has requested that the OFA advance a loan to a public body with specific terms or conditions, the OFA will comply.

b. Otherwise, the OFA will adhere to the lending terms and conditions outlined in the Appendix.

4. OFA Loan Reporting Requirements

a. A report outlining the status of all loans outstanding will be tabled with the OFA Board annually and at such other times as the OFA Board requests.

b. For each loan outstanding, such report will identify: the borrower; the authority under which the loan was advanced; the purpose of the loan; the current status of the loan; the principal amount outstanding; the major terms and conditions; and such other information as the OFA Board may request.

SCOPE

- These policies address lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province.

INTRODUCTION

- The OFA lending policies address the following matters related to loan terms and conditions:

  - conditions precedent
  - advances
  - repayments
  - interest rate
  - loan security

- Since these policies address lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province, they are designed to be consistent with the public policy or economic rationale for the provision of Provincial financial support. In addition, they match commercial lending policies where that is advantageous to the Province.

OFA LOAN TERMS and CONDITIONS

a. Where Cabinet, Management Board of Cabinet or the Minister of Finance has requested that the OFA advance a loan to a public body with specific terms or conditions, the OFA will comply.

b. Otherwise, the OFA should adhere to the lending terms and conditions described in this Appendix.

CONDITIONS PRECEDENT

Commercial Standard

- Prior to making a loan, a commercial lender would ensure that the borrower had sufficient authority to execute the loan.

- Generally, an entity's authority to enter a loan may be determined by a review of its enabling legislation, by-laws and resolutions of its Board of Directors.

Provincial Public Policy or Economic Considerations

- Unlike a commercial lender, the OFA can only lend to public bodies.

- Public bodies are defined in subsection 29(1) of the *Capital Investment Plan Act, 1993* and include scheduled Crown Agencies, colleges and universities, hospitals, municipalities and school boards and an entity included in regulations to the Act.

OFA Lending Policy Rule: Conditions Precedent

1. Prior to lending funds, the OFA will ensure that the borrower is a public body, has the authority to borrow and the Province has agreed to provide it with the requested financial support.

ADVANCES

Commercial Standard

- Loan advances over a number of months and years may be required to finance the development cost for a project. A loan agreement may provide for interest costs to be capitalized during a project development period followed by a term loan to take-out the total capitalized cost of the project. Alternatively, a single loan advance may be required to finance the acquisition of an asset.

- Where a commercial lender is making a secured project loan, it may seek evidence that loan advances are applied to legitimate project expenditures and that the total cost to complete the project have not increased. The lender would generally have the right to take significant action in the event that the borrower did not fulfill its loan obligations.

- Where a commercial lender is making an unsecured loan, such as a revolving line of credit, it is generally less interested in monitoring how the borrower is utilizing the funds because it expects the borrower to be able to repay the loan from its general revenues.

Provincial Public Policy or Economic Considerations

- Where the Province has used the OFA to provide financing to Crown Agents such as the Ontario Transportation Capital Corporation or the Metro Toronto Convention Centre for projects, the Province has continued to rely on the borrowing agency for overall project management. Because the borrowing agency is accountable to the Province, through its Board of Directors, for the prudent management of its expenditures the OFA is not required to monitor the application of funds.

- If the government directed the OFA to provide project financing to Other Public Bodies, it is expected that the OFA should manage such loans in the same manner as would a commercial lender. In this respect, the OFA would need to take adequate steps to ensure the funds were used for the intended purpose and that the project was well managed. The OFA does not currently have the expertise or human resources to provide project financing.

OFA Lending Policy Rule: Advances

1. For loans to Crown Agencies, the OFA will make advances as requested by the borrower pursuant to a loan agreement. The OFA will not monitor the application of funds by the Crown Agency.

2. For loans to Other Public Bodies, the OFA will seek evidence of project costs incurred and project cost to completion prior to making any advance in the same manner as a commercial lender except that, where the Province or one of its agents (ie. ORC) is the project manager, the OFA will make advances as authorized by the borrower and approved by the project manager.

REPAYMENTS

Commercial Standard

- A loan agreement may provide for the loan to be repaid: in a lump sum payment of principal and interest (ie. a zero coupon); on demand by the lender; in periodic payments of principal and interest (ie. an amortizing loan); in periodic payments of interest with bullet payments of interest (ie. a bullet bond or serial debenture): or repaid early by the borrower in whole or in part.

- In a secured loan, the term would generally not exceed the economic life of the asset being financed and may be significantly shorter.

- Some loans provide authority for the borrower to prepay all or a portion of the loan prior to maturity. Prepayment provisions can reduce the value of the loan to the lender because the borrower can, for example, prepay the loan when interest rates decline. A commercial lender would charge for such an option.

- Bank loans generally have a term of not longer than 7 years whereas debt issued in capital markets could have a term of up to 30 years or more.

OFA Lending Policy Rule: Repayments

1. OFA loans to Crown Agencies will have a term not longer than the economic life of the asset being financed and 30 years, whichever is less.

2. OFA loans to Other Public Bodies will have a term not longer than the least of: (a) the economic life of the asset being financed; (b) the term available to the borrower from commercial lenders or in the capital markets; and (c) 30 years.

3. All OFA loans will have a fixed repayment or review date (ie. subject only to early repayment where permitted).

INTEREST RATE

Commercial Standard

- The interest rate on a commercial loan is generally based on the credit worthiness of the borrower and interest rates available in the market.

Provincial Public Policy or Economic Considerations

- The OFA's current practice is to lend to public bodies at the Province's cost of funds, including commissions, plus 25 basis points. In most cases this results in a cost of funds to the public body substantially lower than bank funding.
    - For example, in a demand bank loan a public body would pay an interest rate of roughly 75 to 125 basis points above the Province's cost of funds (eg. Prime minus 50 bp compared to the yield on a 3 month Ontario Treasury-bill) even with an explicit Provincial guarantee.
- Over the past several decades the Office of the Treasury (ie. Predecessor to OFA corporate) has held the view that the Province should recover its full cost of debt service in respect of lending activities. If the lending rate is below the Province's cost of funds then the cost of debt service would be allocated to PDI expense instead of to the respective government program sponsoring the lending activity. The Office of the Treasury established the practice of adding 25 basis points to the Province's cost of funds (excluding commissions because it predated the Province's borrowing in capital markets), for lending activities to meet this objective. Under this policy the Province will continue to earn the same mark-up (ie. 25 basis points above the Province's cost of funds, including dealer commissions).
- The OFA could set the interest rate on loans to public bodies at the cost of funds to the public body without Provincial support (ie. Commercial interest rate).
    - For loans to Crown Agencies (ie. Related parties) there is no economic benefit to the Province for the OFA to charge a commercial rate of interest.

- While charging a commercial interest rate to Other Public Bodies (ie. Non-related parties) could provide an economic benefit to the Province, it would likely be inconsistent with the public policy rationale for providing Provincial financial support to the borrower (eg. would be contrary to the intent of reducing a public body's borrowing costs).

– Establishing a commercial rate of interest would result in additional credit assessment costs.

- The approved OFA accounting policy is to eliminate, from its audited financial statements, all lending transactions with public bodies in which the OFA acts as an intermediary for the Province. In order to be consistent with the OFA's accounting policy, the rate of interest on OFA loans due to the Province will match the rate of interest on its loans receivable from public bodies.

OFA Lending Policy Rule: Interest Rate

1. The interest rate on loans from the OFA will be equal to the Province's cost of funds, including commissions, for a borrowing of equivalent duration, plus 25 basis points.

2. Any options for the borrower to prepay the loan, in whole or in part, will be added to the interest rate cost of the loan.

3. The OFA will match the rate of interest on its loans due to the Province with the rate of interest on its loans receivable from public bodies.

LOAN SECURITY

Commercial Standard

- It is common for commercial lenders to seek security for a loan. Security may be in the form of bankers' acceptances, a mortgage, a lien on personal property. The costs associated with obtaining security for a loan, such as registering a mortgage, are generally paid for by the borrower.

- A loan agreement may include the requirement for the borrower to maintain certain performance financial ratios or debt reserves. In such cases, the lender needs to establish appropriate compliance controls and take action if the borrower does not comply.

Provincial Public Policy or Economic Considerations

- In some cases it is not clear that a lender could, in the event of a default, realize the security in a loan to certain public bodies. For example:

  - Under the *Municipal Act*, municipalities do not have the explicit authority to mortgage their real property.
  - Under the *Proceedings Against the Crown Act*, there may be restrictions on the ability of a lender to seize property belonging to a Crown Agency.

- The Province could seek an intercept of any Provincial grants payable to a public body as additional security for a loan. While there is no precedent for executing such an intercept, it is likely that considerable pressure would be exerted to prevent the Province from intercepting Provincial revenues. Alternatively, the Province could request that should the public body default on its loan the responsible Ministry would repay the loan from within its allocation.

- It is unlikely that the Province would benefit from the OFA seeking to enforce a security interest against another Crown Agency. If a Crown Agency defaulted on a loan from the OFA, the Province could resolve the matter.

OFA Lending Policy Rule: Loan Security

1. For loans to Crown Agencies, the OFA will lend on an unsecured basis, unless there is an economic benefit to the Province of the OFA obtaining loan security.

2. For loans to Other Public Bodies, the OFA will require the same level of loan security as would a commercial lender. This is a matter of judgement and will be evaluated on a case by case basis.

3. For loans to Other Public Bodies, the OFA will obtain an intercept of any Provincial grants or rebates receivable by the borrower as loan security, in addition to the security provided by rule 2.

Provincial Public Policy or Economic Considerations

- In some cases it is not clear that a lender could, in the event of a default, realize the security in a loan to certain public bodies. For example:

  - Under the *Municipal Act*, municipalities do not have the explicit authority to mortgage their real property.
  - Under the *Proceedings Against the Crown Act*, there may be restrictions on the ability of a lender to seize property belonging to a Crown Agency.

- The Province could seek an intercept of any Provincial grants payable to a public body as additional security for a loan. While there is no precedent for executing such an intercept, it is likely that considerable pressure would be exerted to prevent the Province from intercepting Provincial revenues. Alternatively, the Province could request that should the public body default on its loan the responsible Ministry would repay the loan from within its allocation.

- It is unlikely that the Province would benefit from the OFA seeking to enforce a security interest against another Crown Agency. If a Crown Agency defaulted on a loan from the OFA, the Province could resolve the matter.

OFA Lending Policy Rule: Loan Security

1. For loans to Crown Agencies, the OFA will lend on an unsecured basis, unless there is an economic benefit to the Province of the OFA obtaining loan security.

2. For loans to Other Public Bodies, the OFA will require the same level of loan security as would a commercial lender. This is a matter of judgement and will be evaluated on a case by case basis.

3. For loans to Other Public Bodies, the OFA will obtain an intercept of any Provincial grants or rebates receivable by the borrower as loan security, in addition to the security provided by rule 2.

Hi John,
Given that the Minister of Finance is away, is this going to be sent to the President of Treasury Board as alternate Minsiter?

I will update the directive to include both credit facilities, as per your instructions. I also have some suggested amendments to the briefing note, which I send via separate email.
Thank you,

Hi Malle, Lisa,
Pls. see attached. I haven't yet run this draft by Ron but spoke to him about the direction this afternoon.
Happy to organize a call first thing tomorrow. We are hoping to get it signed by Ron and Gadi tomorrow before Gadi leaves on his vacation.
I left out the second part of Malle's comment (the whereas one) as I wasn't sure how to do that.
Thanks,

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

Hi Linda

Attached is the amendment that Lisa and you agreed on. Thanks for completing it in my absence. In the meantime, Ken Ryfa sent back the same amendment asking for a change in the definition of subsidiary, which is a new one to me. This is what he is saying:

"New item 4 to clarify the definition of "subsidiary" to exclude any financing entity related to the Ontario Fair Hydro Plan Act. This is a significant item that needs to be captured. OFA has been involved in the developments related to this Act."

Has this been agreed to by anyone here? I am fine with it, but just want to confirm that the OFA is ok with it. I have attached a revised draft of the amendment incorporating OPG's draft language for you to take a look at. It is item #5 in our version of the draft.

If all is good, I will run it by legal and send it back to OPG (they have not yet seen the base rate redefinition).

Hi Lisa

Kelly asked me to come back with you with answers on the proposed changes to how we set the base rate.

Previously, the base rate for a 30 year borrowing would be set by taking the posted yield of the 30 year Government of Canada bond from the RBCB page on the day before the borrowing. If the term of the borrowing was not the same as the benchmark Government of Canada bond, there is a interpolation calculation done using the Government of Canada bonds, with terms less than and greater than the term of the borrowing, from the RBCB page.

Going forward, we want to set the Government of Canada bond yield based on the hedging that is done for the borrowing. This is the reason for the change to OEFC determining the yield. But this only determines the first part of the calculation. If the term of the borrowing is not the same as the term of the Government of Canada benchmark bond, we still need to do an interpolation calculation. This interpolation would be done using the yields posted on the RBCB page on the day before borrowing.

Happy to discuss.

AMENDING AGREEMENT NO. 3

This Amending Agreement made as of the •th day of July, 2017.

BETWEEN: **ONTARIO POWER GENERATION INC. ("OPG")**
As Borrower

AND: **ONTARIO ELECTRICITY FINANCIAL CORPORATION ("OEFC")**
As Lender

WHEREAS OPG and OEFC entered into a Credit Facility Agreement dated June 17, 2016, as amended by Amending Agreement No. 1 dated September 7, 2016, and Amending Agreement No. 2 dated February 2, 2017 (the "Agreement", the terms defined therein being used herein as therein defined), providing for OPG to borrow from OEFC a principal amount of up to Seven Hundred Million Dollars;

AND WHEREAS the Agreement provides that advances under the Agreement only occur during the period starting on January 1, 2017 and ending on December 31, 2017;

AND WHEREAS as of the date hereof, the total principal amount outstanding under the Agreement is $300,000,000.00;

AND WHEREAS OPG and OEFC have now agreed to increase the total commitment amount under the Agreement to an amount of up to Two Billion Three Hundred Fifty Million Dollars, with no more than One Billion Five Hundred Million Dollars to be advanced prior to January 1, 2018;

AND WHEREAS OPG and OEFC now agree to amend the Agreement so that advances under the Agreement may occur during the period starting on January 1, 2017 and ending on December 31, 2018.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereinafter set out, the parties agree that:

1. The definition of the term "**Commitment**" in Section 1.1 of the Agreement is deleted and replaced with the following :

   "Commitment" means, at any time, an amount equal to the principal amount of Two Billion Three Hundred Fifty Million Dollars;

2. The definition of the term "**General Corporate Requirements**" in Section 1.1 of the Agreement is deleted and replaced with the following :

"General Corporate Requirements" means OPG's general corporate requirements for the period from January 1, 2017 to December 31, 2018, comprised of the Darlington Requirements and the Other General Corporate Requirements;

3. The definition of the term "**Other General Corporate Requirements**" in Section 1.1 of the Agreement is deleted and replaced with the following :

"Other General Corporate Requirements" means OPG's general corporate requirements for the period from January 1, 2017 to December 31, 2018, other than the Darlington Requirements;

4. The definition of the term "**Base Rate**" in Section 1.1 of the Agreement is deleted and replaced with the following :

"**Base Rate**" means an annual rate of interest comprised of the applicable yield for the Benchmark Government of Canada bond ("Benchark Bond"), as determined by OEFC for the term specified in the applicable Borrowing Notice and includes all costs of borrowing, including applicable fees and commissions. In the event that the Benchmark Bond does not have the same term as specified in the applicable Borrowing Notice, the rate shall be established by OEFC by interpolating the terms of two Government of Canada bonds published by Bloomberg RBCB as of the Business Day immediately preceding the applicable Advance Date that are closest to the term of the Advance in question, one being for a longer term and the other being for a shorter term.

5. Section 3.1 of the Agreement "**Advances**" is deleted and replaced with the following:

OEFC agrees, on the terms and conditions of this Agreement, to make Advances to OPG under the Credit Facility from time to time on any Business Day after January 1, 2017 and prior to January 1, 2019. OPG shall not request Advances more than twelve (12) times per calendar year without first obtaining the prior written consent of OEFC. OPG may request at the same time Advances for the Darlington Requirements and for the Other General Corporate Requirements. It is anticipated that OPG will request these Advances approximately monthly throughout a calendar year. The total of all Advances made prior to January 1, 2018 shall not be more than One Billion Five Hundred Million Dollars.

The Repayment Date of each Proposed Advance to be made in 2017 shall be such that the Repayment Date is no more than 30 years after the date of the Proposed Advance for 2017.

The Repayment Date of each Proposed Advance to be made in 2018 shall be such that the Repayment Date is a) no more than 30 years after the date of the Proposed Advance for no more than 50% of the total amount of such Proposed Advances for 2018, and b) no more than 10 years after the date of the Proposed Advance for the remaining amount of the Proposed Advances for 2018. This requirement may only be modified with the written consent of OEFC.

For greater certainty, no Advances shall be made under this Agreement after December 31, 2018.

(b) any Person (other than a corporation) in which OPG, or one or more other Subsidiaries, directly or indirectly, has at least a major ownership and power to direct the policies, management and affairs thereof,

(c) notwithstanding sub-sections (a) and (b) above, any Person that is a "financing entity" as defined in the *Ontario Fair Hydro Plan Act, 2017* (Ontario) is deemed not to be a Subsidiary.

~~5.~~6. Section 3.2 of the Agreement is deleted and replaced with the following:

OPG shall provide OEFC with written notice requesting an Advance at least 10 Business Days prior to the date of the Advance. Each such notice (a **"Borrowing Notice**") shall be substantially in the form of Schedule 1 and shall specify, with respect to each Proposed Advance: (a) the date of the Advance (the **"Advance Date**"); (b) the principal amount of the Advance; (c) the purpose of the Advance, that is, whether it is for Darlington Requirements or Other General Corporate Requirements; (d) the Repayment Date of the Advance; and (e) the Interest Payment Dates. The interest rate that shall apply to such Advance shall be set in accordance with the procedure set forth in Section 3.4.

~~6.~~7. Schedule 1 of the Agreement (Form of Borrowing Notice) is deleted and replaced with the Form of Borrowing Notice attached hereto as Schedule 1.

IN ALL OTHER RESPECTS, the said Agreement is confirmed by the parties as further amended by the terms of this Amending Agreement.

IN WITNESS WHEREOF the parties hereto have executed this Amending Agreement as of the date first written above.

Hi Lisa

Kelly asked me to come back with you with answers on the proposed changes to how we set the base rate.

Previously, the base rate for a 30 year borrowing would be set by taking the posted yield of the 30 year Government of Canada bond from the RBCB page on the day before the borrowing. If the term of the borrowing was not the same as the benchmark Government of Canada bond, there is a interpolation calculation done using the Government of Canada bonds, with terms less than and greater than the term of the borrowing, from the RBCB page.

Going forward, we want to set the Government of Canada bond yield based on the hedging that is done for the borrowing. This is the reason for the change to OEFC determining the yield. But this only determines the first part of the calculation. If the term of the borrowing is not the same as the term of the Government of Canada benchmark bond, we still need to do an interpolation calculation. This interpolation would be done using the yields posted on the RBCB page on the day before borrowing.

Happy to discuss.

Hi Kelly,

What is the current status of this amending agreement? If it is not too late, we recommend adding the following to the beginning of section 4 (Base Rate):

"On or after the date of this Amending Agreement…."

We are suggesting this change on the basis the new process for calculating "Base Rate" (as amended) would only occur after the execution of the Amending Agreement. However, if it is too late for this additional amendment, we think it is already implied in any event.

Happy to discuss,

Hi Lisa/ Sarah

So there is yet another twist to this. OPG has requested a new item be added to clarify the definition of "subsidiary" to **exclude** any financing entity related to the Ontario Fair Hydro Plan Act. The OFA has been involved in the developments related to this Act and both Linda and John Kim's group are fine with this and are comfortable with OPG's wording, as am I. I have added what they sent to the amendment for your review (item #5).

Also attached is the original agreement for ease of reference.

Hi all,

Please see latest black-lined draft attached. Linda Smith and I worked together to re-draft the definition of “Base Rate” to ensure that it reflects the operational process. If you are satisfied with this draft I don’t need to review further before you send a clean version to OPG.

Thanks,

Lisa

Hi Linda,

Firstly, thanks for your help on clarifying the base rate directly with Lisa – that's really helped. Although I know it's not normal Doc channels, since the OPG folks know you, if you could send it, that would be helpful. (That being said, Kelly is back after the long weekend, and I don't think the OPG folks will be fussed if Kelly sends it on Tuesday – whatever works for you .

Thanks,

Sarah

Kelly – As per your instructions I will comment only on the proposed amendment to section 5 of Amending Agreement No. 3.

Assuming that the SPV would qualify as a Material Subsidiary under the Credit Facility, the significant legal impact of the proposed amendment with respect to carving out the SPV from the definition of Subsidiary is with respect to how Events of Default and related remedies are determined under the Credit Facility and in particular with respect to Section 5.1(g). The cross-default provisions in any credit facility are designed to preserve a creditor's rights/value at the earliest possible point that the borrower becomes financially unsound across any of its business lines or becomes unable to meet its other debt obligations.

With the proposed amendment, the financial health/solvency of the SPV would not be a factor in triggering an Event of Default under the Credit Facility, even if the SPV becomes insolvent. I am not aware of the structure and funding of the SPV and whether or not OPG has any responsibilities/obligations in this regard, but if funding the SPV could be deemed "Other General Corporate Requirements" under the Credit Facility, then it is possible the Credit Facility could be used to continue to fund an entity that is otherwise insolvent and would otherwise have triggered an Event of Default. OFA would have no lens into the solvency status of the SPV as a result of this structure.

Provided the respective business advisors on this matter understand the implications of this carve out for the administration of the loan, and have considered the related risks given their knowledge of the structure and purpose of the SPV and its relationship to OPG, I have no further comments.

Hi Sarah – the only new item to review is the addition of the subsidiary exclusion – everything else has been reviewed and agreed on by Lisa, Linda and myself. So you know, both Linda and John Kim's group are fine with excluding the Special Purpose Vehicle from the definition of subsidiary. The OFA, OPG and MOE have been working on the structure of the electricity rate reduction program for some time now.

ARTICLE 3
ADVANCES AND INTEREST

Section 3.1 Advances.

OEFC agrees, on the terms and conditions of this Agreement, to make Advances to OPG under the Credit Facility from time to time on any Business Day prior to January 1, 2018. OPG shall not request Advances more than four (4) times per calendar year without first obtaining the prior written consent of OEFC. OPG may request at the same time Advances for the Darlington Requirements and for the Other General Corporate Requirements. It is anticipated that OPG will request these Advances approximately quarterly throughout a calendar year.

The Repayment Dates of the Proposed Advances for any date shall be such that the Repayment Dates are a) no more than 30 years after the date of the Proposed Advances for no more than 50% of the total amount of such Proposed Advances, and b) no more than 10 years after the date of the Proposed Advances for the remaining amount of the Proposed Advances.

No Advances shall be made under this Agreement after December 31, 2017.

Section 3.2 Procedure for Advances.

OPG shall provide OEFC with written notice requesting an Advance at least 10 Business Days prior to the date of the Advance; provided that if the total of the Proposed Advances for any date exceeds $200,000,000, such notice shall be provided at least 20 Business Days prior to the date of the Advance unless otherwise agreed. Each such notice (a **"Borrowing Notice"**) shall be substantially in the form of Schedule 1 and shall specify, with respect to each Proposed Advance: (a) the date of the Advance (the **"Advance Date"**); (b) the principal amount of the Advance; (c) the purpose of the Advance, that is, whether it is for Darlington Requirements or Other General Corporate Requirements; (d) the Repayment Date of the Advance; and (e) the Interest Payment Dates. The interest rate that shall apply to such Advance shall be set in accordance with the procedure set forth in Section 3.4.

Section 3.3 Issue of Notes.

(1) By no later than 5:00 p.m. on the date that OPG delivers the Borrowing Notice, OPG shall deliver in escrow to OEFC executed promissory note(s) in the principal amount of the Advance(s), substantially in the form of Schedules 2 and 2A. Each Note shall be

dated the date of the respective Advance and shall mature on the Repayment Date and bear interest at the rate per annum (after as well as before Default or judgment) agreed to pursuant to Section 3.4, with interest on the amounts in Default at the same rate. The Notes delivered in escrow shall not contain the interest rate, therefore OEFC shall complete the interest rate on the day of the Advance, and provide OPG with a certified true copy of same. The Notes shall automatically be released from escrow upon receipt by OPG of the amount of the Advance. In the event that funds are not received by OPG on the Advance Date, OPG and OEFC agree to take all steps necessary to amend the date of the Notes and the applicable Repayment Dates, without amending the interest rate that was agreed to with respect to such Advance, subject to Section 3.4(2) hereof. OPG shall provide OEFC with written notice (which may be made by electronic transmission) that it has received the Advance and that the Notes have therefore automatically been released from escrow.

(2) The Notes shall at all times rank *pari passu* with all other unsubordinated Indebtedness of OPG, subject to the existence of any Permitted Liens of OPG.

(3) Interest shall be payable on the Notes in accordance with Section 3.4.

(4) All amounts owing in respect of the Notes shall be paid without exercising any right or set off or counterclaim by OPG irrespective of whether or not, at the time any such amount is due and payable, amounts are due and payable by OPG to OEFC.

Section 3.4 Interest on Advances.

(1) The interest rate applicable to an Advance shall be the aggregate of the applicable Base Rate and the Applicable Spread. The Applicable Spread shall be determined by OEFC and shall be calculated as of the date that is at least 1 Business Day before the Advance Date and not greater than 5 days before the Advance Date.

(2) OEFC shall notify OPG of the Applicable Spread and Base Rate in writing by no later than 2:00 p.m. on the Business Day before the Advance Date, provided that OPG has up to 5 Business Days to advise OEFC of any errors or discrepancies.

(3) Interest shall accrue daily on the principal amount of each Note from and including the date of the Note to but excluding the Repayment Date of such Advance, at an annual rate equal to the aggregate of the Base Rate and the Applicable Spread (both before and after the date such principal amount or interest thereon becomes due and both before and after Default) and shall be payable in equal semi-annual installments on the Interest Payment Dates.

(4) Notwithstanding the foregoing, whenever it is necessary to compute interest in respect of the Notes for a period of less than one full year, other than such equal semi-annual installments, such interest shall be calculated on the basis of the actual number of days elapsed in a year of 365 days. If any Repayment Date is not a Business Day, such

Repayment Date will be adjusted to the following Business Day, (the "Adjusted Repayment Date"), and, notwithstanding Section 1.5 of this Agreement, additional interest shall accrue daily on the principal amount of each Note from and including the Repayment Date to but excluding the Adjusted Repayment Date of such Advance, at an annual rate equal to the aggregate of the Base Rate and the Applicable Spread (both before and after the date such principal amount or interest thereon becomes due and both before and after Default), and shall be payable together with the principal amount of the Advance on the Adjusted Repayment Date.

Section 3.5 Computations of Interest.

(1) All computations of interest shall be made by OEFC taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 3.6 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, OPG shall not be obliged to make any payments of interest or other amounts payable to OEFC hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by OEFC of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada), as amended from time to time).

(2) In the event that any such payments are limited or prohibited as provided in Section 3.6(1), OEFC shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 3.7 Conditions Precedent.

The obligation of OEFC to make the Advances pursuant to Section 2.1 is subject to the following conditions being met to OEFC's satisfaction at the time of making each Advance:

(a) that the representations and warranties of OPG contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default;

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of OPG; and

(d) that OEFC has received such other documentation which it has reasonably requested to ensure that OPG is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions including resolutions authorizing the borrowing and authorized signatories.

SCHEDULE 3

CALCULATION OF MAKE-WHOLE AMOUNT AND EXAMPLE CALCULATION

For the purposes of this Schedule 3, the following terms shall have the meanings assigned to them below:

"OPG Market Price" means the price that is calculated using the OPG Interpolated Yield for the remaining term to maturity of the Advance Outstanding as of the Prepayment Calculation Date.

"OPG Interpolated Yield" means the interpolated yield calculated by using a Province of Ontario Yield Curve.

"Province of Ontario Yield Curve" means the yield curve that is constructed of only issues with an active, whole-bond float of at least CAD $2 Billion in size.

OEFC will calculate the Make-Whole Amount as the OPG Market Price multiplied by the amount of the Advance Outstanding that is to be repaid.

If the shape of the Province of Ontario Yield Curve for the remaining term to maturity is convex, then a cubic-spline method for interpolation will be used (i.e. the interpolation will follow the curvature of that portion of the yield curve). If the constructed yield curve is concave at this term, a linear (i.e. straight line) method of interpolation will be used.

Example

On 22 April, 2005 OEFC provided OPG with an Advance for $75 million at 5.575% for a term of 10 years. OPG gives notice to prepay the Advance Outstanding of $75 million on February 4, 2010.

Prepayment Date:	Feb 4, 2010
Repayment Date of original Advance:	April 22, 2015
Coupon Rate:	5.575%
OPG Interpolated Yield:	2.875%

Ontario issues used for Interpolation (linear)

ONT 4.5% 08 MAR 2015 ($3.0B Float):	*2.839%*
ONT 4.4% 08 MAR 2016 ($3.0B Float):	*3.135%*

OPG Market Price: 112.99

Make-Whole Amount: $75 million x ((112.99 – 100)/100) = $9.7 million

Hi Lisa/ Sarah

So there is yet another twist to this. OPG has requested a new item be added to clarify the definition of "subsidiary" to **exclude** any financing entity related to the Ontario Fair Hydro Plan Act. The OFA has been involved in the developments related to this Act and both Linda and John Kim's group are fine with this and are comfortable with OPG's wording, as am I. I have added what they sent to the amendment for your review (item #5).

Also attached is the original agreement for ease of reference.

Hi all,

Please see latest black-lined draft attached. Linda Smith and I worked together to re-draft the definition of "Base Rate" to ensure that it reflects the operational process. If you are satisfied with this draft I don't need to review further before you send a clean version to OPG.

Thanks,

Lisa

the Advances when such total Advances are more than $100,000,000, by payment to OEFC of the amount calculated in accordance with this section (the "Prepayment Amount").

The Prepayment Notice is irrevocable and binding on both parties.

(4) On the Prepayment Calculation Date, OEFC shall provide OPG with written notice setting out the calculation of the Prepayment Amount, including a reasonably detailed calculation of the Make-Whole Amount and the assumptions used in making such calculations. An example of such calculation is set forth in Schedule 3 attached to this Agreement.

OPG shall make each such payment in Canadian Dollars.

ARTICLE 3
ADVANCES AND INTEREST

Section 3.1 Advances.

OEFC agrees, on the terms and conditions of this Agreement, to make Advances to OPG under the Credit Facility from time to time on any Business Day prior to January 1, 2018. OPG shall not request Advances more than four (4) times per calendar year without first obtaining the prior written consent of OEFC. OPG may request at the same time Advances for the Darlington Requirements and for the Other General Corporate Requirements. It is anticipated that OPG will request these Advances approximately quarterly throughout a calendar year.

The Repayment Dates of the Proposed Advances for any date shall be such that the Repayment Dates are a) no more than 30 years after the date of the Proposed Advances for no more than 50% of the total amount of such Proposed Advances, and b) no more than 10 years after the date of the Proposed Advances for the remaining amount of the Proposed Advances.

No Advances shall be made under this Agreement after December 31, 2017.

Section 3.2 Procedure for Advances.

OPG shall provide OEFC with written notice requesting an Advance at least 10 Business Days prior to the date of the Advance; provided that if the total of the Proposed Advances for any date exceeds $200,000,000, such notice shall be provided at least 20 Business Days prior to the date of the Advance unless otherwise agreed. Each such notice (a **"Borrowing Notice"**) shall be substantially in the form of Schedule 1 and shall specify, with respect to each Proposed Advance: (a) the date of the Advance (the **"Advance Date"**); (b) the principal amount of the Advance; (c) the purpose of the Advance, that is, whether it is for Darlington Requirements or Other General Corporate Requirements; (d) the Repayment Date of the Advance; and (e) the Interest Payment Dates. The interest rate that shall apply to such Advance shall be set in accordance with the procedure set forth in Section 3.4.

Section 3.3 Issue of Notes.

(1) By no later than 5:00 p.m. on the date that OPG delivers the Borrowing Notice, OPG shall deliver in escrow to OEFC executed promissory note(s) in the principal amount of the Advance(s), substantially in the form of Schedules 2 and 2A. Each Note shall be

dated the date of the respective Advance and shall mature on the Repayment Date and bear interest at the rate per annum (after as well as before Default or judgment) agreed to pursuant to Section 3.4, with interest on the amounts in Default at the same rate. The Notes delivered in escrow shall not contain the interest rate, therefore OEFC shall complete the interest rate on the day of the Advance, and provide OPG with a certified true copy of same. The Notes shall automatically be released from escrow upon receipt by OPG of the amount of the Advance. In the event that funds are not received by OPG on the Advance Date, OPG and OEFC agree to take all steps necessary to amend the date of the Notes and the applicable Repayment Dates, without amending the interest rate that was agreed to with respect to such Advance, subject to Section 3.4(2) hereof. OPG shall provide OEFC with written notice (which may be made by electronic transmission) that it has received the Advance and that the Notes have therefore automatically been released from escrow.

(2) The Notes shall at all times rank *pari passu* with all other unsubordinated Indebtedness of OPG, subject to the existence of any Permitted Liens of OPG.

(3) Interest shall be payable on the Notes in accordance with Section 3.4.

(4) All amounts owing in respect of the Notes shall be paid without exercising any right or set off or counterclaim by OPG irrespective of whether or not, at the time any such amount is due and payable, amounts are due and payable by OPG to OEFC.

Section 3.4 Interest on Advances.

(1) The interest rate applicable to an Advance shall be the aggregate of the applicable Base Rate and the Applicable Spread. The Applicable Spread shall be determined by OEFC and shall be calculated as of the date that is at least 1 Business Day before the Advance Date and not greater than 5 days before the Advance Date.

(2) OEFC shall notify OPG of the Applicable Spread and Base Rate in writing by no later than 2:00 p.m. on the Business Day before the Advance Date, provided that OPG has up to 5 Business Days to advise OEFC of any errors or discrepancies.

(3) Interest shall accrue daily on the principal amount of each Note from and including the date of the Note to but excluding the Repayment Date of such Advance, at an annual rate equal to the aggregate of the Base Rate and the Applicable Spread (both before and after the date such principal amount or interest thereon becomes due and both before and after Default) and shall be payable in equal semi-annual installments on the Interest Payment Dates.

(4) Notwithstanding the foregoing, whenever it is necessary to compute interest in respect of the Notes for a period of less than one full year, other than such equal semi-annual installments, such interest shall be calculated on the basis of the actual number of days elapsed in a year of 365 days. If any Repayment Date is not a Business Day, such

Repayment Date will be adjusted to the following Business Day, (the "Adjusted Repayment Date"), and, notwithstanding Section 1.5 of this Agreement, additional interest shall accrue daily on the principal amount of each Note from and including the Repayment Date to but excluding the Adjusted Repayment Date of such Advance, at an annual rate equal to the aggregate of the Base Rate and the Applicable Spread (both before and after the date such principal amount or interest thereon becomes due and both before and after Default), and shall be payable together with the principal amount of the Advance on the Adjusted Repayment Date.

Section 3.5 Computations of Interest.

(1) All computations of interest shall be made by OEFC taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding day in the next calendar year and the denominator of which is the actual number of days in such period.

Section 3.6 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, OPG shall not be obliged to make any payments of interest or other amounts payable to OEFC hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by OEFC of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada), as amended from time to time).

(2) In the event that any such payments are limited or prohibited as provided in Section 3.6(1), OEFC shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together with all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 3.7 Conditions Precedent.

The obligation of OEFC to make the Advances pursuant to Section 2.1 is subject to the following conditions being met to OEFC's satisfaction at the time of making each Advance:

(a) that the representations and warranties of OPG contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default;

(c) that there shall, in the reasonable opinion of OEFC, have been no material adverse change in the financial condition of OPG; and

(d) that OEFC has received such other documentation which it has reasonably requested to ensure that OPG is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions including resolutions authorizing the borrowing and authorized signatories.

SCHEDULE 3

CALCULATION OF MAKE-WHOLE AMOUNT AND EXAMPLE CALCULATION

For the purposes of this Schedule 3, the following terms shall have the meanings assigned to them below:

"OPG Market Price" means the price that is calculated using the OPG Interpolated Yield for the remaining term to maturity of the Advance Outstanding as of the Prepayment Calculation Date.

"OPG Interpolated Yield" means the interpolated yield calculated by using a Province of Ontario Yield Curve.

"Province of Ontario Yield Curve" means the yield curve that is constructed of only issues with an active, whole-bond float of at least CAD $2 Billion in size.

OEFC will calculate the Make-Whole Amount as the OPG Market Price multiplied by the amount of the Advance Outstanding that is to be repaid.

If the shape of the Province of Ontario Yield Curve for the remaining term to maturity is convex, then a cubic-spline method for interpolation will be used (i.e. the interpolation will follow the curvature of that portion of the yield curve). If the constructed yield curve is concave at this term, a linear (i.e. straight line) method of interpolation will be used.

Example

On 22 April, 2005 OEFC provided OPG with an Advance for $75 million at 5.575% for a term of 10 years. OPG gives notice to prepay the Advance Outstanding of $75 million on February 4, 2010.

Prepayment Date:	Feb 4, 2010
Repayment Date of original Advance:	April 22, 2015
Coupon Rate:	5.575%
OPG Interpolated Yield:	2.875%

Ontario issues used for Interpolation (linear)

ONT 4.5% 08 MAR 2015 ($3.0B Float):	*2.839%*
ONT 4.4% 08 MAR 2016 ($3.0B Float):	*3.135%*

OPG Market Price: 112.99

Make-Whole Amount: $75 million x ((112.99 – 100)/100) = $9.7 million

Hi Linda,
Firstly, thanks for your help on clarifying the base rate directly with Lisa – that's really helped. Although I know it's not normal Doc channels, since the OPG folks know you, if you could send it, that would be helpful. (That being said, Kelly is back after the long weekend, and I don't think the OPG folks will be fussed if Kelly sends it on Tuesday – whatever works for you .
Thanks,

Hi Kelly,

What is the current status of this amending agreement? If it is not too late, we recommend adding the following to the beginning of section 4 (Base Rate):

"On or after the date of this Amending Agreement…."

We are suggesting this change on the basis the new process for calculating "Base Rate" (as amended) would only occur after the execution of the Amending Agreement. However, if it is too late for this additional amendment, we think it is already implied in any event.

Happy to discuss,

Lisa

Hi Lisa/ Sarah

So there is yet another twist to this. OPG has requested a new item be added to clarify the definition of "subsidiary" to **exclude** any financing entity related to the Ontario Fair Hydro Plan Act. The OFA has been involved in the developments related to this Act and both Linda and John Kim's group are fine with this and are comfortable with OPG's wording, as am I. I have added what they sent to the amendment for your review (item #5).

Also attached is the original agreement for ease of reference.

Hi Will,

I am glad you were able to determine the outstanding amount with Carlos as you will need this for the amending agreement.

Perhaps you can follow-up toward the end of next week with Anthony to find out when exactly they will require the funds. For now, the amending agreement and new facility should be our priority and hopefully we are closer to finalizing the agreements by next week.

Thanks,

JF

Hi JF,

I spoke to Carlos yesterday and was able to conclude that Anthony's numbers are correct. I have attached the supporting documents to demonstrate the calculation. I will compose the Grid Note needed for the Amending Agreement 10.

Grid Note – Generated from OLMS>Reports>Grid Note

Election Notice

RPP Rollover Notice – Carlos confirms outstanding balance on the rollover notice.

1.

Total $253.10 million

As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.

Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million. Plus any RRRP or other credit needs that may result during August.

Should we find out when he will need this money?

If we set-up the FHP $2billion Credit Facility in time, Anthony can advance new required $250 million from that facility.

3.

The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur

sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.

Currently, under the existing credit facility of $975 million a balance of combined balance of:

1.

RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78

RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47

I don't see the requirements of $260 million?

2. In mid-August if you add another $200-$250 million, what will be the new balance?
3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Call me if it's easier for you. 416-325-8090.

Hello Sarah N,

Lisa was assisting me with the Amending Agreement 10, for the existing IESO OFA Credit Facility. While Lisa is away, who can we forward this to for review?

Part of the Fair Hydro Plan implementation process, requires reducing the existing credit facility from $975 million, down to $475 million (Amending Agreement 10).

Attached is the draft amending agreement with IESO's first round of comments. I have provided my comments as well for OFA Legal's review. One particular section (Use of Proceeds) requires Electricity Finance's review which I have already forwarded to them for review.

Concurrently IESO is reviewing our draft $2 billion FHP Credit Facility Agreement. I've included the approved directive and underlying OIC. We are expecting to receive comments on that draft in the near future as well. We will eventually require assistance with that as well. I will send a separate emails with the other 9, amending agreements to keep the emails small.

For background purposes I've attached

IESO OFA Amending Agreement 10
Original Credit Facility Agreement
History of IESO OFA Amending Agreements.
IESO Credit Requirements for the 2017 Fair Hydro Plan letter(IESO Request letter) outlining implementation process.
Directive
Underlying OIC

Subject: Amending Agreement 10 review

Hello Sarah N,

Lisa was assisting me with the Amending Agreement 10, for the existing IESO OFA Credit Facility. While Lisa is away, who can we forward this to for review?

Part of the Fair Hydro Plan implementation process, requires reducing the existing credit facility from $975 million, down to $475 million (Amending Agreement 10).

Attached is the draft amending agreement with IESO's first round of comments. I have provided my comments as well for OFA Legal's review. One particular section (Use of Proceeds) requires Electricity Finance's review which I have already forwarded to them for review.

Concurrently IESO is reviewing our draft $2 billion FHP Credit Facility Agreement. I've included the approved directive and underlying OIC. We are expecting to receive comments on that draft in the near future as well. We will eventually require assistance with that as well. I will send a separate emails with the other 9, amending agreements to keep the emails small.

For background purposes I've attached

IESO OFA Amending Agreement 10
Original Credit Facility Agreement
History of IESO OFA Amending Agreements.
IESO Credit Requirements for the 2017 Fair Hydro Plan letter(IESO Request letter) outlining implementation process.
Directive
Underlying OIC

Hi Will,
For the purposes of accuracy of the recitals, it may be a good idea to touch base with Lisa on the Acknowledgement and Agreement. While Amending Agreement #3 increased the size of the facility and there was a grid not note issued back then, the present note dated November 30, 2016 was issued under amending agreement 9 (to replace one that was issued under Amending Agreement #7). You'll want to ask her if/how this clarification is addressed. Maybe something to the effect the that credit facility was increased in #3 but is now evidenced by a grid note issued November 30, 2016.

Just a note, in terms of the structure of an agreement, the recitals are all the beginning 'historical' phrases (i.e. the "whereas" sentences) that precede the actual amendments.

Hi Lisa and Bruno,

I was speaking to Anna Strathy about the date of the Minister's return (she thought August 31st, but was going to confirm), but she mentioned that if we need something signed, the Head of Treasury Board would be able to sign. I asked her if this included Minister Directives, and she asked that I send her details of the Directive and she would confirm.

This then made me think about the Lending Policy which states the exemption from the intercept provision could be provided by the Minister of Finance, Treasury Board or Cabinet. It would seem then that even if Head of Treasury Board does not have the delegated authority to sign for the Minister, the Head could still sign a directive on behalf of Treasury Board. I am not familiar with Treasury Board directives and perhaps I am oversimplifying, but it would seem that this may be a reasonable option.

Nevertheless, I am e-mailing Anna Strathy with the details of the Directive and will cc' you both.

Good morning John,
I heard the bad news from Caroline that the directive did not get signed yesterday. Are you aware of any other options at this point?
If we waited for the minister to return from holiday, when would you suspect they would sign it?
Thanks,

I will continue to review, but think the Act(s) that governs IESO and this new structure should provide some information re the first question you've directed to Ken. Also, marked a typo in the intercept provision.

From the OILC Act:

Agreement re appropriated funds

25 (1) This section applies where,

(a) a municipality or eligible public organization has borrowed money from the Corporation for a purpose prescribed under clause 36 (1) (a); and

(b) money has been appropriated by the Assembly for payment to the municipality or the eligible public organization. 2011, c. 9, Sched. 32, s. 25 (1).

Agreement re default

(2) As security for repayment, the municipality or the eligible public organization may agree in writing with the Corporation that in the event of default on repayment of the amount borrowed under clause (1) (a) or any portion of the amount borrowed, the Minister of Finance may deduct from the money mentioned in clause (1) (b) amounts not exceeding the amounts that the municipality or the organization fails to pay to the Corporation on account of the indebtedness. 2011, c. 9, Sched. 32, s. 25 (2).

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption ~~form~~ from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the

existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will be delayed, likely for a number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (i)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.*

Hello Sarah,

I am concurrently reviewing the FHP Credit Facility. Below is the draft email for Anthony and the general message to Anthony and Victor when we/I speak with them on the phone. I took parts of your email and parts of Lisa's email. Please review and comment.

> *OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by OFA to public bodies, unless otherwise directed. As such, no further directly/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. We are now in the process of obtaining an exception through the Minister of Finance in the form of an internal directive.*

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued

Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Hi JF,
Following our discussion yesterday, I spoke briefly to Victor, who informed me that IESO’s only secured debt are the “Permitted Liens”. If we leave the language in section 3.3(5) as is (e.g. “unsubordinated Indebtedness of the IESO”) we may need to clarify that it is subject to these Permitted Liens. Alternatively, we could change the langue to read “unsecured Indebtedness” of the IESO, which in that case prevents a conflict with section 4.6, which is forward-looking and refers to secured debt.
Shall we discuss further?
Thanks,
Lisa

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: “direct, unsecured, unsubordinated obligations”.

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Hi Lisa,
One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.
Happy to discuss further.

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in

general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.
I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in

general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.
I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

Hi JF,
Following our discussion yesterday, I spoke briefly to Victor, who informed me that IESO's only secured debt are the "Permitted Liens". If we leave the language in section 3.3(5) as is (e.g. "unsubordinated Indebtedness of the IESO") we may need to clarify that it is subject to these Permitted Liens. Alternatively, we could change the langue to read "unsecured Indebtedness" of the IESO, which in that case prevents a conflict with section 4.6, which is forward-looking and refers to secured debt.
Shall we discuss further?
Thanks,
Lisa

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Hi Lisa,

Thanks for your email. Would it be possible to raise this item with Victor when you speak with him? We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Many thanks,

JF

Hi JF,

I'm in the process of working on the latest draft and I'm waiting to speak to Victor Buza regarding a couple of drafting matters. In the meantime, do you want to send me the new definitions or should I send you the latest black-line (still in progress) and you can incorporate and send back to me? Also, it is no longer necessary to copy Sarah N. on these e-mails. I will keep her in the loop as necessary.

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.
Many thanks,
Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:
1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to

the definition of “Permitted Liens” is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology “cash flow timing differences” does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of “Advances” should probably also include Continued Advances where an Election Notice is used (though I didn’t make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it’s entirely possible that I am simply missing something here.

I didn’t know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Victor

Hi JF,
As this seems to be an operational matter, I think it should be addressed separately from my legal drafting call. However, I will ask Victor to send me those definitions and we can work together to incorporate them into the next draft.
Thank you,
Lisa

Hi Lisa,
Thanks for your email. Would it be possible to raise this item with Victor when you speak with him? We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.
Many thanks,
JF

Hi JF,
I'm in the process of working on the latest draft and I'm waiting to speak to Victor Buza regarding a couple of drafting matters. In the meantime, do you want to send me the new definitions or should I send you the latest black-line (still in progress) and you can incorporate and send back to me?
Also, it is no longer necessary to copy Sarah N. on these e-mails. I will keep her in the loop as necessary.
Thanks,
Lisa

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,

Jean-Francois

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of “Permitted Liens” to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of “Permitted Liens” is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology “cash flow timing differences” does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.
In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of “Advances” should probably also include Continued Advances where an Election Notice is used (though I didn’t make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it’s entirely possible that I am simply missing something here.
I didn’t know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.
Regards,
Victor

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at

OFA – I will rely on you to forward it as required.

Victor

Hi JF,
I'm in the process of working on the latest draft and I'm waiting to speak to Victor Buza regarding a couple of drafting matters. In the meantime, do you want to send me the new definitions or should I send you the latest black-line (still in progress) and you can incorporate and send back to me?
Also, it is no longer necessary to copy Sarah N. on these e-mails. I will keep her in the loop as necessary.
Thanks,
Lisa

Hi Lisa,
One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.
Happy to discuss further.
Many thanks,
Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of “Advances” should probably also include Continued Advances where an Election Notice is used (though I didn’t make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it’s entirely possible that I am simply missing something here.

I didn’t know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Hi Lisa,
One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.
Happy to discuss further.
Many thanks,
Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor

Subject: RE: FHP Credit Facility Agreement
Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:
1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we

did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

ARTICLE 2

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in ~~Canadian~~ Dollars.

~~(1)~~ ~~P~~proceeds of Advances may be used only for IESO's ~~short term~~ financing needs and requirements of any kind arising in connection with ~~due to cash flow timing differences incurred as a result of~~ the IESO's role with respect to and obligations under~~in the implementation and administration of~~ the OFHP.

~~The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."~~

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

Formatted: No bullets or numbering

Commented [WT5]: To be confirmed.

Formatted: Indent: First line: 0.5"

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding in the next calendar year and the denominator of which is the actual number of days in such period.

~~**Section 2.8 Limit on Rate of Interest.**~~

~~(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).~~

~~(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.~~

Commented [WT6]: We don't include this in any of our debt issuances. Is this necessary?

Section 2.~~8~~9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Commented [WT7]: Changed for consistency. In italics in Schedule 3.

Formatted: Font: Italic

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance; and (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated Indebtedness of the IESO, subject to the existence of (i) any Permitted Liens of the IESO, and (ii) any other Liens that secure Indebtedness in accordance with Section 4.6 hereof.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note- in respect of Advances held by it.

Section 3.5 Conditions Precedent

Subject: RE: FHP Credit Facility Agreement
Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:
1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we

did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at

OFA – I will rely on you to forward it as required.

Regards,

Victor

Hi Will,
I am reviewing the agreement right now. Please set-up a meeting for 11:00am with Kelly and myself so that we can discuss our comments. Also, I am curious to know why you are not including Kelly on all the emails since Sarah had advised me that he would be helping you with this file.
In order for all of us to be able to collaborate on this file, it would be helpful for you to include Sarah, Kelly and myself on all of your internal and external communications and keep Sarah and myself apprised of any additional telephone calls/messages with other parties. Both Sarah Neville and Lisa Stein expressed concerns before our call with IESO counsel on Tuesday that some information was not being disseminated (e.g. the use of proceeds language resolution).

Good morning JF,
I'll set-up a meeting for 11:00am for the three of us. On your 3:55pm email I wasn't sure if you wanted me to send my comments directly to you only. I will forward Kelly my comments right after I send you this email.
I'll include Sarah, Kelly and you on all internal and external communications and keep you and Sarah apprised of any additional telephone calls/messages with other parties. Yes, I did note the Sarah N and Lisa asked if IESO signed-off about the "Use of Proceeds" language.
Thanks,
Will

Hi Will,
I am reviewing the agreement right now. Please set-up a meeting for 11:00am with Kelly and myself so that we can discuss our comments. Also, I am curious to know why you are not including Kelly on all the emails since Sarah had advised me that he would be helping you with this file.
In order for all of us to be able to collaborate on this file, it would be helpful for you to include Sarah, Kelly and myself on all of your internal and external communications and keep Sarah and myself apprised of any additional telephone calls/messages with other parties. Both Sarah Neville and Lisa Stein expressed concerns before our call with IESO counsel on Tuesday that some information was not being disseminated (e.g. the use of proceeds language resolution).
Thanks,
JF

Hi JF,
Please find the attached FHP Credit Facility.

At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.
Thanks,

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:
1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility

that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Hi Will,
I am reviewing the agreement right now. Please set-up a meeting for 11:00am with Kelly and myself so that we can discuss our comments. Also, I am curious to know why you are not including Kelly on all the emails since Sarah had advised me that he would be helping you with this file.
In order for all of us to be able to collaborate on this file, it would be helpful for you to include Sarah, Kelly and myself on all of your internal and external communications and keep Sarah and myself apprised of any additional telephone calls/messages with other parties. Both Sarah Neville and Lisa Stein expressed concerns before our call with IESO counsel on Tuesday that some information was not being disseminated (e.g. the use of proceeds language resolution).
Thanks,
JF

Hi JF,
Please find the attached FHP Credit Facility.
At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.
Thanks,
Will

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The

language we commonly use for the Province to describe this type of debt is: “direct, unsecured, unsubordinated obligations”.

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Hi JF,

I'm in the process of working on the latest draft and I'm waiting to speak to Victor Buza regarding a couple of drafting matters. In the meantime, do you want to send me the new definitions or should I send you the latest black-line (still in progress) and you can incorporate and send back to me? Also, it is no longer necessary to copy Sarah N. on these e-mails. I will keep her in the loop as necessary.

Thanks,

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,

Jean-Francois

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)

2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.

3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the

pari passu requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The

language we commonly use for the Province to describe this type of debt is: “direct, unsecured, unsubordinated obligations”.

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an

Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.
I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.
Regards,
Victor

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Hi Lisa,
One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.
Happy to discuss further.

Hi Bruno,
The e-mail chain below, and esp. the e-mail from Victor Buza (IESO) may shed some light on your questions, specifically with respect to the "permitted liens" and the negative pledge. Please review and then let me know if you would like to discuss further.
Thank you,
Lisa

Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Hi Lisa,

One additional important comment we have is that we believe we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA's loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.

Happy to discuss further.

Many thanks,

Jean-Francois

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other

words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.
I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.
Regards,
Victor

Good morning all,
We have had possession of this draft since Wednesday July 26. There are two outstanding issues holding-up the FHP Credit Facility draft:

"Permitted Leins"

(k) any Lien arising in connection with the IESO's role and obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation to the Clean Energy Adjustment, or otherwise.

On yesterday's call, Anthony said that the operations for FHP are still being worked-out and that it's difficult to itemize everything that would be related (k) and would fall under the OFHP obligations and include them in section (k). Because of the fluidity of the situation, (k) was intentionally worded in this manner and (k) does not sound to be unreasonable to me.
I am not an expert on the operations of the Fair Hydro Plan. But according to the link below, the FHP includes a number of Enhanced Social Programs which include Rural/Remote Rate Protection Program (RRRP),Regulated Price Plan (RPP), Ontario Electricity Support Program (OESP), First Nations On-Reserve Delivery Credit, Affordability Fund and Clean Energy Adjustment.
https://news.ontario.ca/mei/en/2017/5/ontarios-fair-hydro-act-2017-1.html
Lisa please arrange to speak with Toby and Bruno to answer any concerns Bruno may have with (k).

Section 3.3 Election Regarding Advances

(5)the Credit Facility shall at all times rank *pari passu* with all other unsecured Indebtedness of the IESO.

Lisa, I understand you have an email with Toby yesterday. May I ask that you and Toby work-out a satisfactory wording for (k). Jean-Francois has already provided his opinion that "unsecured Indebtedness seems appropriate". Once you conclude on the wording please show JF and I. I ask that you communicate with Victor to determine if the wording is agreeable. I understand that sending a draft version is preferred but we are running out of time. Once he agrees then we can send him the soft copy.
It's important that we get this document out to IESO today.

I am available all day today if you need me to join or arrange a call.

Because of the fluidity of the situation, (k) was intentionally worded in this manner and (k) does not sound to be unreasonable to me.

I am not an expert on the operations of the Fair Hydro Plan. But according to the link below, the FHP includes a number of Enhanced Social Programs which include Rural/Remote Rate Protection Program (RRRP),Regulated Price Plan (RPP), Ontario Electricity Support Program (OESP), First Nations On-Reserve Delivery Credit, Affordability Fund and Clean Energy Adjustment.
https://news.ontario.ca/mei/en/2017/5/ontarios-fair-hydro-act-2017-1.html

Lisa please arrange to speak with Toby and Bruno to answer any concerns Bruno may have with

(k).

Section 3.3 Election Regarding Advances
(5)the Credit Facility shall at all times rank *pari passu* with all other unsecured Indebtedness of the IESO.

Lisa, I understand you have an email with Toby yesterday. May I ask that you and Toby work-out a satisfactory wording for (k). Jean-Francois has already provided his opinion that "unsecured Indebtedness seems appropriate". Once you conclude on the wording please show JF and I. I ask that you communicate with Victor to determine if the wording is agreeable. I understand that sending a draft version is preferred but we are running out of time. Once he agrees then we can send him the soft copy.

It's important that we get this document out to IESO today.
I am available all day today if you need me to join or arrange a call.

Best regards,

Hello Anthony and Victor,
Just a quick follow-up on my last e-mail.
My apologies - I don't want to appear as though I am 'editing' your excerpt of your board resolution.
I just noted that an extra 4th 'and whereas' in the excerpt; I'm not sure if that was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
We look forward to any questions or comments on the most recent drafts of either of the agreements and I remain available for any questions.
Thanks,
Will

Hello Anthony and Victor,
My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,
Will

Will,
I think you can note to Anthony that you saw an extra 'whereas' in their excerpt of the board resolution - that you're not sure if it was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something OFA Legal would require for this OFA agreement with IESO.
Thanks,
Sarah

Hello Anthony and Victor,
My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for

which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Hi Will,
I think you can simplify the e-mail.
To clarify, the resolution was already passed in June. They are quoting sections for the certification, so the opening and closing quotes should be there. That's why Lisa said you shouldn't be editing their resolution; it's a completed document. You can simplify and 'de-formalize' your e-mail as follows
"Hello Anthony and Victor,
Just a quick follow-up on my last e-mail.
My apologies - I don't want to appear as though I am 'editing' your excerpt of your board resolution. I just noted that an extra 4th 'and whereas' in the excerpt; I'm not sure if that was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
We look forward to any questions or comments on the most recent drafts of either of the agreements and I remain available for any questions.
Thanks,
Will"

Hi Sarah,
Below is a draft email I intend to send Anthony and Victor. Do you mind reviewing it? I will remove the comments between Lisa and yourself before I send it. thanks.
Hello Anthony and Victor,
I wish to clarify if the following order of the execution of the documents and the signatures dates do avoid any potential issues? Resolution of the Board of Directors and Incumbency Certificate are executed prior or on the same date as the agreements.
Also, I was informed that we should not be "editing" your resolution. To clarify I noticed the following:

- Extra opening quotation on the title.
- A potential extra 4th "and whereas".
- A missing colon at the end of 2 (a).
- Extra closing quotation at the end of 2 (c).

Thanks,
Will

Hi Lisa,

Yes, that is usually the approach we strive for, especially for external counterparties.

We have more flexibility with public bodies, so I have shown more flexibility there, depending on the circumstances (we tend to be a little more flexible, for example, with IO). For IESO, dating the cert prior to the execution date is fine with me, if that works for you.

Hi Sarah,

I think the resolution should be executed prior to the execution of the agreements, whether on the same date or a prior date. Are you saying that for provincial agreements the certificates are dated the same date? Is this to ensure that they have not been superceded?

Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something OFA Legal would require for this OFA agreement with IESO.

Hi Will,
I think you can simplify the e-mail.
To clarify, the resolution was already passed in June. They are quoting sections for the certification, so the opening and closing quotes should be there. That's why Lisa said you shouldn't be editing their resolution; it's a completed document. You can simplify and 'de-formalize' your e-mail as follows
"Hello Anthony and Victor,
Just a quick follow-up on my last e-mail.
My apologies - I don't want to appear as though I am 'editing' your excerpt of your board resolution. I just noted that an extra 4th 'and whereas' in the excerpt; I'm not sure if that was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
We look forward to any questions or comments on the most recent drafts of either of the agreements and I remain available for any questions.
Thanks,
Will"

Hi Sarah,
Below is a draft email I intend to send Anthony and Victor. Do you mind reviewing it? I will remove the comments between Lisa and yourself before I send it. thanks.
Hello Anthony and Victor,
I wish to clarify if the following order of the execution of the documents and the signatures dates do avoid any potential issues? Resolution of the Board of Directors and Incumbency Certificate are executed prior or on the same date as the agreements.
Also, I was informed that we should not be "editing" your resolution. To clarify I noticed the following:

- Extra opening quotation on the title.
- A potential extra 4th "and whereas".
- A missing colon at the end of 2 (a).
- Extra closing quotation at the end of 2 (c).

Thanks,
Will

Hi Lisa,

Yes, that is usually the approach we strive for, especially for external counterparties.

We have more flexibility with public bodies, so I have shown more flexibility there, depending on the circumstances (we tend to be a little more flexible, for example, with IO). For IESO, dating the cert prior to the execution date is fine with me, if that works for you.

Hi Sarah,

I think the resolution should be executed prior to the execution of the agreements, whether on the same date or a prior date. Are you saying that for provincial agreements the certificates are dated the same date? Is this to ensure that they have not been superceded?

Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something OFA Legal would require for this OFA agreement with IESO.

Hello Anthony and Victor,
My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.
Thanks,
Will

Subject: RE: FHP and Amending Agreement 10 - Resolution of the Board of Directors and Incumbency Certificate

Hi Sarah,

I think the resolution should be executed prior to the execution of the agreements, whether on the same date or a prior date. Are you saying that for provincial agreements the certificates are dated the same date? Is this to ensure that they have not been superceded?

Will,

I think you can note to Anthony that you saw an extra 'whereas' in their excerpt of the board resolution - that you're not sure if it was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.

Lisa – Does OFA Legal usually require such certificate to be dated the date of execution of the agreements? We usually require that for our Provincial agreements, but not sure if this is something OFA Legal would require for this OFA agreement with IESO.

Thanks,

Sarah

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Yes, that is usually the approach we strive for, especially for external counterparties.

We have more flexibility with public bodies, so I have shown more flexibility there, depending on the circumstances (we tend to be a little more flexible, for example, with IO). For IESO, dating the cert prior to the execution date is fine with me, if that works for you.

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Hello Anthony and Victor,
Just a quick follow-up on my last e-mail.
My apologies - I don't want to appear as though I am 'editing' your excerpt of your board resolution.
I just noted that an extra 4th 'and whereas' in the excerpt; I'm not sure if that was a typo in transcribing the resolution to this certificate, but the form of the certificate itself looks fine.
We look forward to any questions or comments on the most recent drafts of either of the agreements and I remain available for any questions.
Thanks,
Will

FYI, I was under the impression that we had forwarded
(i) the form of extract of board resolution and
(ii) the form of incumbency certificate
for your approval prior to us finalizing and executing those documents.
Let me know if I you have not received those. If you have, please confirm that their form is satisfactory.

Subject: RE: FHP credit facility agreement - further amendments

Hi Lisa – regarding the subcategories of borrowing purposes which we have previously listed in borrowing notices, we would prefer to continue with the current practice of listing the subcategory of purpose directly in the borrowing notice rather than enshrining a potentially overly-restrictive list of sub-categories directly in the body of the Agreement. The Agreement already contains a broad restriction as to permitted purposes in s.2.2 – namely borrowing must be related to OFHP – and adding a closed and enumerated list of sub-categories of purposes could create problems down the road.

The concern is that there may over the course of the OFHP be a number of borrowing sub-categories other than RRRP and RPP. RPP will make up the vast majority of all such borrowing, and RRRP borrowing will be the next largest borrowing sub-category – though even at that, it will constitute only a very small portion of total borrowing. Then there may be other and very occasional OFHP-related borrowing that, in terms of percentage of total borrowings is expected to be miniscule, but will still fall under the broad OFHP purpose (e.g. FN Delivery Credit, etc).

We intend to continue to list the different sub-categories of borrowing (RPP etc) in each borrowing

notice for internal tracking reasons, etc. In addition our practice has been to issue different borrowing notices for different subcategories of borrowing, and this will also continue. So would it not be sufficient if we just continue with current practice – or maybe just add a note to the Form of Borrowing Notice as a reminder to specify any sub-categories of OFHP-related borrowing purposes ?

Hi Victor,

Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.

Thank you,

Lisa

Hi Lisa,
I noticed some clean up and tweaking is needed on Schedule 1, which affects section 3.2(1) as well
I have attached proposed change, but I've also attached your last version from yesterday so we can look side by side.
I know you're in 'directive land' right now, so whenever you have the opportunity to discuss this, plus the amending agreement, that would be great.
Thanks,
Sarah

Hi Lisa,

Hopefully I have captured the actual practice by IESO in 3.3(2) and the Election Notice with regards to their option to rollover all or a portion of interest.

3.3

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Hello Lisa,

I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.

I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest.

Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period.

If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?

Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.

"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Thanks,

Will

Hello Lisa,

I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.

I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest.

Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period.

If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?

Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.

"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

Thanks,

Will
