Hello Mike,
We have received the following email from IESO. IESO has inquired about the possibility of changing from the proposed minimum 7 day draw to a 5 day minimum draw (calendar days). (We are currently in the process of amending the existing IESO OFA Credit Facility and set-up of the new OFHP Credit Facility).
Is this something we can entertain?
I am including Bruno, John and Salman so they may review the proposed "Use of Proceeds" change to the existing IESO OFA Credit Facility Agreement and new OFHP Credit Facility Agreement.
On a separate email, IESO proposed to change the "Use of Proceeds" to the existing IESO OFA Credit Facility. I have provided my suggested language for the "Use of Proceeds" below~~. In anticipation gentlemen, may I ask you to also review the suitability "Use of Proceeds" in the new OFHP Credit Facility as well.~~ May I ask Bruno, John and Salman that they review and approve the changes to the agreements from a "Use of Proceeds" perspective.
Below is a comparison table of the Proposed Changes against the Existing Agreement.

Comparison Table: Fair Hydro Program Credit Facility and IESO OFA Amending Agreement 10 Credit Facility

Proposed Changes	Existing Agreement
FHP: A reduction in the 7 days minimum draw for the existing facility to a minimum of 5 days to a maximum of 95 days;	28 days minimum draw to a maximum of 95 days;
Existing Agreement: "Use of Proceeds" IESO proposes: "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time." Documentation proposes (same in draft new OFHP Credit Facility): The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the following conditions:	Use of proceeds needs to fit Ontario Regulation 423/04 (under Electricity Act) and s. 2.3 of Amending Agreement 8 (post amalgamation) to allow for draws under the current agreement. (1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and (2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12

(1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of the IESO's role in the implementation and administration of the OFHP. (2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."	months from the date of the Advance.

We are working on the $2B draft now.

Is there any flexibility on changing the 7 day (not business days) minimum draw to 5 days? I'm trying to mitigate having OPG monies in hand while not having yet to repay the OFA. Please advise.

Regards.

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

We are working on the $2B draft now.

Is there any flexibility on changing the 7 day (not business days) minimum draw to 5 days? I'm trying to mitigate having OPG monies in hand while not having yet to repay the OFA. Please advise.

Regards.

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

OFA -- IESO CREDIT FACILITY ~~IES~~MINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

BACKGROUND

Pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013, the Minister of Finance ("Minister") approved and directed the Ontario Fiancing Authority ("OFA") to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

~~The Independent Electricity System Operator (IESO)~~The IESO had requested a new revolving credit facility ~~("the credit facility")~~ in an amount of up to $2 billion from the ~~Ontario Financing Authority ("~~OFA~~")~~ to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

On June 29, 2017, the OFA received ~~a Lending d~~Directive from the Minister ~~of Finance~~ to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the ~~OFA~~Minister ~~of Finance~~to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an ~~from the i~~Intercept p~~P~~rovision ~~both~~ in ~~its OFHP Credit Facility~~ the OFHP Ceredit F~~f~~acility agreement with the IESO, as well as ~~and~~ the ~~reduced $475 million credit facilit~~Original ~~y~~Credit Facility Agreement, both of which may be amended from time to time~~.the new $2 billion credit facility to support the IESO's role in the Fair Hydro Plan and the reduced $475 million credit facility~~. ~~[The existing $975 million credit facility is requested to be reduced to $475 million, in connection with the newly requested $2 billion credit facility.]~~

Commented [LS2]: After discussion with Ken Russell, we think the directive should be limited to the new credit facility agreement.

Commented [SK83]: I understand we are deciding to ensure both credit facilities are covered the Intercept Exemption Directive. Will revert language back accordingly.

Commented [JK4]: A business decision – which I am sure ADM/CEO would support

Formatted: Font: 12 pt

- ~~Note: The Intercept Provision under the OFA's Lending Policy for unsecured lending to a public body requires that, unless exempted by the Minister of Finance [or Treasury Board or Cabinet], the OFA put in place a provision whereby the OFA is entitled to deduct amounts equal to any amounts the public body fails to pay to the OFA under the loan, from money appropriated by the Legislature for payment to the public body.~~

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to ~~provide~~ exclude intercept provisions from the OFHP Credit Facility Agreement, as well as the Original Credit Facility Agreement~~these credit facilitiesies to the IESO without an Intercept provision~~, both of which may be amended from time to time~~under the OFA Lending Policy~~.

- The requested Intercept Exemption Directive would only apply to the two specified IESO credit facilities.

CONSIDERATIONS

- ~~This The OFHP Credit Facility~~This Intercept Exemption Directive will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the ~~Fair Hydro Plan~~OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility [to be amended from the current $975 million facility].

- ~~Under T~~the OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA~~, the following is provided for~~:

  ~~"~~Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.~~"~~

- The ~~intercept in the~~ OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RATIONALE FOR EXEMPTION

- ~~An~~ Including an i~~I~~ntercept p~~P~~rovision in the ~~new OFHP Credit Facility~~ credit facility agreements ~~credit facilities~~ with the IESO would have no practical usefulness ~~in the case of the IESO~~ as the IESO ~~it~~ receives no operational funding from the Province of Ontario.

Commented [LS5]: This is not a defined term.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment of the intent of the OFA's Lending Policy.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the ~~two~~ ~~two revolving credit facilitiesies~~ Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, ~~agreement~~ ~~to the IESO [per the Minister's Directive signed on June 29, 2017]~~ from the OFA Lending Policy requirement to include an intercept provision~~the. Intercept provision under the OFA Lending Policy.~~

- ~~[The Intercept Exemption Directive would also exempt any lending to the IESO from the OFA, previously authorized and/or subsequently amended, to be exempt from the Intercept Provision.]~~

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of ~~not~~ having ~~an~~the ~~i~~Intercept Exemption ~~p~~Provision.]

BACKGROUND

The IESO

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.
-
- The IESO is a public body for the purposes of CIPA.

Commented [LS6]: Is this even a possibility? I thought there were no funds to intercept.

Commented [SK87]: There are payments (appropriated to Energy from the legislature) made to the IESO to carry out price mitigation programs (eg. electricity support programs).

Just want to explain here the intent of the policy isn't to claw back/intercept payments specifically designed to assist electricity ratepayers for which the IESO is a conduit.

Commented [JK8]: To Lisa's question - I don't believe that is the intent of requiring an intercept provision.

Commented [SK89]: This is to ensure both the 2B and 475M credit facilities are covered.

Commented [LS10]: See earlier comment

Commented [SK811]: Bullet above modified to include both facilities.

Commented [JK12]: To proceed with the Intercept Exemption Directive for the two facilities only.

Commented [RK13]: What about saying that as IESO is a consolidated entity, and if there were any amounts to intercept, there would be no incremental fiscal impact of not having an intercept provision?

OFA -- IESO CREDIT FACILITY ~~IES~~MINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

BACKGROUND

The Independent Electricity System Operator ("IESO") requested a revolving credit facility ("the credit facility") in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). ~~In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.~~

On June 29, 2017, the OFA received ~~a l~~Lending ~~d~~Directive from the Minister of Finance to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

OFA -- IESO CREDIT FACILITY ~~IES~~MINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

BACKGROUND

The Independent Electricity System Operator ("IESO") requested a revolving credit facility ("the credit facility") in an amount of up to $2 billion from the Ontario Financing Authority ("OFA") to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). ~~In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.~~

On June 29, 2017, the OFA received ~~a l~~Lending ~~d~~Directive from the Minister of Finance to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the OFA to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an ~~from the i~~Intercept p~~P~~rovision ~~both~~ in its OFHP Credit Facility agreement with the IESO~~the new $2 billion credit facility to support the IESO's role in the Fair Hydro Plan and the reduced $475 million credit facility~~.

- ~~Note: The Intercept Provision under the OFA's Lending Policy for unsecured lending to a public body requires that, unless exempted by the Minister of Finance [or Treasury Board or Cabinet], the OFA put in place a provision whereby the OFA is entitled to deduct amounts equal to any amounts the public body fails to pay to the OFA under the loan, from money appropriated by the Legislature for payment to the public body.~~

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to provide the~~ese~~ requested credit facility~~ies~~ to the IESO without the inclusion of an ~~an I~~intercept provision in the loan agreement~~under the OFA Lending Policy~~.

CONSIDERATIONS

- ~~This~~ The OFHP Credit Facility will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the Fair Hydro Plan.

OFA -- IESO CREDIT FACILITY ~~IES~~MINISTER OF FINANCE DIRECTIVE TO EXEMPT THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE") REQUIRED UNDER THE OFA'S LENDING POLICY

BACKGROUND

Pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, and December 18th, 2013, the Minister of Finance ("Minister") approved and directed the Ontario Fiancing Authority ("OFA") to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 20015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

~~The Independent Electricity System Operator (IESO)~~The IESO had requested a new revolving credit facility ~~("the credit facility")~~ in an amount of up to $2 billion from the ~~Ontario Financing Authority ("~~OFA~~")~~ to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

On June 29, 2017, the OFA received ~~a Lending d~~Directive from the Minister ~~of Finance~~ to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the ~~OFA~~Minister ~~of Finance~~to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an ~~from the i~~Intercept p~~P~~rovision ~~both~~ in ~~its OFHP Credit Facility~~ the OFHP Ceredit F~~f~~acility agreement with the IESO, as well as ~~and~~ the ~~reduced $475 million credit facilit~~Original ~~y~~Credit Facility Agreement, both of which may be amended from time to time~~.the new $2 billion credit facility to support the IESO's role in the Fair Hydro Plan and the reduced $475 million credit facility~~. ~~[The existing $975 million credit facility is requested to be reduced to $475 million, in connection with the newly requested $2 billion credit facility.]~~

Commented [LS2]: After discussion with Ken Russell, we think the directive should be limited to the new credit facility agreement.

Commented [SK83]: I understand we are deciding to ensure both credit facilities are covered the Intercept Exemption Directive. Will revert language back accordingly.

Commented [JK4]: A business decision – which I am sure ADM/CEO would support

Formatted: Font: 12 pt

- ~~Note: The Intercept Provision under the OFA's Lending Policy for unsecured lending to a public body requires that, unless exempted by the Minister of Finance [or Treasury Board or Cabinet], the OFA put in place a provision whereby the OFA is entitled to deduct amounts equal to any amounts the public body fails to pay to the OFA under the loan, from money appropriated by the Legislature for payment to the public body.~~

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to ~~provide~~ exclude intercept provisions from the OFHP Credit Facility Agreement, as well as the Original Credit Facility Agreement~~these credit facilitiesies to the IESO without an Intercept provision~~, both of which may be amended from time to time~~under the OFA Lending Policy~~.

- The requested Intercept Exemption Directive would only apply to the two specified IESO credit facilities.

CONSIDERATIONS

- ~~This The OFHP Credit Facility~~This Intercept Exemption Directive will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the ~~Fair Hydro Plan~~OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility [to be amended from the current $975 million facility].

- ~~Under T~~the OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA~~, the following is provided for~~:

  ~~"~~Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.~~"~~

- The ~~intercept in the~~ OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RATIONALE FOR EXEMPTION

- ~~An~~ Including an i~~I~~ntercept p~~P~~rovision in the ~~new OFHP Credit Facility~~ credit facility agreements ~~credit facilities~~ with the IESO would have no practical usefulness ~~in the case of the IESO~~ as the IESO ~~it~~ receives no operational funding from the Province of Ontario.

Commented [LS5]: This is not a defined term.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment of the intent of the OFA's Lending Policy.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the ~~two~~ ~~two revolving credit facilitiesies~~ Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, ~~agreement~~ ~~to the IESO [per the Minister's Directive signed on June 29, 2017]~~ from the OFA Lending Policy requirement to include an intercept provision~~the. Intercept provision under the OFA Lending Policy.~~

- ~~[The Intercept Exemption Directive would also exempt any lending to the IESO from the OFA, previously authorized and/or subsequently amended, to be exempt from the Intercept Provision.]~~

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of ~~not~~ having ~~an~~the ~~i~~Intercept Exemption ~~p~~Provision.]

BACKGROUND

The IESO

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.
- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.
- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.
-
- The IESO is a public body for the purposes of CIPA.

Commented [LS6]: Is this even a possibility? I thought there were no funds to intercept.

Commented [SK87]: There are payments (appropriated to Energy from the legislature) made to the IESO to carry out price mitigation programs (eg. electricity support programs).

Just want to explain here the intent of the policy isn't to claw back/intercept payments specifically designed to assist electricity ratepayers for which the IESO is a conduit.

Commented [JK8]: To Lisa's question - I don't believe that is the intent of requiring an intercept provision.

Commented [SK89]: This is to ensure both the 2B and 475M credit facilities are covered.

Commented [LS10]: See earlier comment

Commented [SK811]: Bullet above modified to include both facilities.

Commented [JK12]: To proceed with the Intercept Exemption Directive for the two facilities only.

Commented [RK13]: What about saying that as IESO is a consolidated entity, and if there were any amounts to intercept, there would be no incremental fiscal impact of not having an intercept provision?

Hi all,

Please see latest black-lined draft attached. Linda Smith and I worked together to re-draft the definition of "Base Rate" to ensure that it reflects the operational process. If you are satisfied with this draft I don't need to review further before you send a clean version to OPG.

Hi JF,

I spoke to Carlos yesterday and was able to conclude that Anthony's numbers are correct. I have attached the supporting documents to demonstrate the calculation. I will compose the Grid Note needed for the Amending Agreement 10.

Grid Note – Generated from OLMS>Reports>Grid Note
Election Notice
RPP Rollover Notice – Carlos confirms outstanding balance on the rollover notice.

1.
Total $253.10 million
As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.
Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million. Plus any RRRP or other credit needs that may result during August.
Should we find out when he will need this money?
If we set-up the FHP $2billion Credit Facility in time, Anthony can advance new required $250 million from that facility.

3.
The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Will,

The agreement is the priority. Please coordinate your comments with Kelly and we can discuss when you are ready before sending to OFA Legal. Victor mentioned having a call with OFA counsel, so perhaps you can set-up a call for late tomorrow morning or early tomorrow afternoon, which would give us a chance to discuss internally with Lisa first.

Thanks,
JF

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August. Currently, under the existing credit facility of $975 million a balance of combined balance of:

1.

RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47

I don't see the requirements of $260 million?

2. In mid-August if you add another $200-$250 million, what will be the new balance?

3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Call me if it's easier for you. 416-325-8090.

Hi JF,

I spoke to Carlos yesterday and was able to conclude that Anthony's numbers are correct. I have attached the supporting documents to demonstrate the calculation. I will compose the Grid Note needed for the Amending Agreement 10.

Grid Note – Generated from OLMS>Reports>Grid Note

Election Notice

RPP Rollover Notice – Carlos confirms outstanding balance on the rollover notice.

1.

Total $253.10 million

As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.

Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million. Plus any RRRP or other credit needs that may result during August.

Should we find out when he will need this money?

If we set-up the FHP $2billion Credit Facility in time, Anthony can advance new required $250 million from that facility.

3.

The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.

For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Will,

The agreement is the priority. Please coordinate your comments with Kelly and we can discuss when you are ready before sending to OFA Legal. Victor mentioned having a call with OFA counsel, so perhaps you can set-up a call for late tomorrow morning or early tomorrow afternoon, which would give us a chance to discuss internally with Lisa first.

Thanks,

JF

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.

Currently, under the existing credit facility of $975 million a balance of combined balance of:

1. RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
   RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47
   I don't see the requirements of $260 million?
2. In mid-August if you add another $200-$250 million, what will be the new balance?
3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Call me if it's easier for you. 416-325-8090.

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?

2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,

Will

William,

1.
As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.
Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.

Plus any RRRP or other credit needs that may result during August.

3.
The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Regards

Subject: IESO - Credit facility balances/requirments

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.
Currently, under the existing credit facility of $975 million a balance of combined balance of:

1.
RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47

I don't see the requirements of $260 million?

2. In mid-August if you add another $200-$250 million, what will be the new balance?

3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Call me if it’s easier for you. 416-325-8090.

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?

2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,

Will

William,

1.
As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.
Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.

Plus any RRRP or other credit needs that may result during August.

3.
The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.
For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Regards

Subject: IESO - Credit facility balances/requirments

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.
Currently, under the existing credit facility of $975 million a balance of combined balance of:

1.
RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47

I don't see the requirements of $260 million?

2. In mid-August if you add another $200-$250 million, what will be the new balance?

3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Hello Sarah N,

Lisa was assisting me with the Amending Agreement 10, for the existing IESO OFA Credit Facility. While Lisa is away, who can we forward this to for review?

Part of the Fair Hydro Plan implementation process, requires reducing the existing credit facility from $975 million, down to $475 million (Amending Agreement 10).

Attached is the draft amending agreement with IESO's first round of comments. I have provided my comments as well for OFA Legal's review. One particular section (Use of Proceeds) requires Electricity Finance's review which I have already forwarded to them for review.

Concurrently IESO is reviewing our draft $2 billion FHP Credit Facility Agreement. I've included the approved directive and underlying OIC. We are expecting to receive comments on that draft in the near future as well. We will eventually require assistance with that as well. I will send a separate emails with the other 9, amending agreements to keep the emails small.

For background purposes I've attached

Commented [A1]: I agree with the change.

Commented [A2]: I suggest we keep this paragraph because the current change is to the credit facility amounts. This was provided to provide the reader context to the previous credit facility amount changes. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

Minister _____ Date _____

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

Hello Sarah N,

Lisa was assisting me with the Amending Agreement 10, for the existing IESO OFA Credit Facility. While Lisa is away, who can we forward this to for review?

Part of the Fair Hydro Plan implementation process, requires reducing the existing credit facility from $975 million, down to $475 million (Amending Agreement 10).

Attached is the draft amending agreement with IESO's first round of comments. I have provided my comments as well for OFA Legal's review. One particular section (Use of Proceeds) requires Electricity Finance's review which I have already forwarded to them for review.

Concurrently IESO is reviewing our draft $2 billion FHP Credit Facility Agreement. I've included the approved directive and underlying OIC. We are expecting to receive comments on that draft in the near future as well. We will eventually require assistance with that as well. I will send a separate emails with the other 9, amending agreements to keep the emails small.

For background purposes I've attached

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

s. 1 Proposal and Context

- Approval is being sought for an OIC under section 22 of *Capital Investment Plan Act, 1993* ("CIPA"), which will authorize the Minister of Finance to provide loan(s) to the Ontario Financing Authority ("OFA") in an amount of up to $2.0 billion. Under the proposed OIC, repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047.

- Subsection 22(1) of CIPA authorizes the Minister of Finance to make loans to the OFA in the amounts, times and on the terms and conditions authorized by Lieutenant Governor in Council ("LGIC"). Subsection 22(2) provides a statutory appropriation for loans made by the Minister to the OFA under subsection 22(1).

- Existing OICs authorize the Minister of Finance to provide loans to the OFA, and in turn the OFA has provided loans and credit facilities to colleges, school boards and other public bodies such as Infrastructure Ontario, IESO, Ontario Lottery and Gaming Corporation and Liquor Control Board of Ontario.

- This proposed OIC is required to increase the authority of the Minister of Finance to lend to the OFA which will provide the OFA with the capacity to provide additional loans to the Independent Electricity System Operator ("IESO").
    - This will help the IESO to fulfil the commitments under the *Fair Hydro Act, 2017* as the IESO will have to finance short to medium term funding shortfalls in the implementation of the Fair Hydro Plan.
    - The timing of this OIC is critical to ensure that borrowing authority for the OFA is available to provide the IESO its requested financing arrangements under the *Ontario Fair Hydro Plan Act, 2017.*

s. 2 Approach and Intended Outcomes

- Under CIPA, the OFA provides financing to public bodies as directed by the Minister of Finance. The OFA obtains the funds it needs for its lending program by borrowing from the Province. This OIC would authorize the Minister of Finance under section 22 of CIPA to provide additional loans to the OFA.

- As per subsection 3(1) of CIPA, the Minister of Finance is responsible for the administration of CIPA with respect to the OFA.

- This proposed OIC is required to assist in fulfilling the commitments under the *Ontario Fair Hydro Plan Act, 2017.*

- It is expected that as part of the implementation, the Minister of Finance will direct the OFA to provide a revolving credit facility for short term financing related to the *Ontario Fair Hydro Plan Act, 2017*. In particular, the OFA would be directed to provide a credit facility to the Independent Electricity System Operator ("IESO"). The IESO is a public body for the purposes of CIPA.

- Under the *Ontario Fair Hydro Plan Act, 2017,* the IESO will incur a monthly funding shortfall in the early years of the plan, as a portion of the Global Adjustment charge to ratepayers will be deferred to the future. During this period, Global Adjustment amounts collected from ratepayers will, therefore, be insufficient to fund the IESO's contractual obligations to electricity producers and service providers.

- The *Ontario Fair Hydro Plan Act, 2017* gives the IESO the right to recover those deferred amounts from specified consumers in the future (the "regulatory asset") and the ability to sell the regulatory asset to a financing entity.
    - It is anticipated that the regulatory asset will be purchased by the financing entity to be established by OPG ("OPG SPV", an OPG special purpose vehicle or trust).
    - The cash received from selling the regulatory asset will be used by the IESO to fund the current Global Adjustment shortfall.

- There is expected to be initial and potential ongoing IESO cash flow requirement timing differences. The OPG SPV is not anticipated to be established and able to borrow to finance the purchase of the regulatory asset from the IESO until later in 2017 (planned for later in summer 2017; however, exact timing is subject to actual implementation). Even once the SPV is set up to borrow, there is expected to be timing differences between the IESO's monthly settlement process when it has to pay generators and when the SPV purchases the asset from IESO. Also, under the legislation, OPG's SPV is not required to purchase any portion of the regulatory asset.

- As a result, IESO requires short-term financing to be in place for initial and expected monthly timing differences, or in the event that the OPG SPV, at any time, does not purchase a portion of the regulatory asset.

- IESO has requested that the OFA provide a revolving credit facility of $2.0 billion to support its role in the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

- It is proposed that the OIC authorizes the OFA to borrow an additional $2.0 billion, which would be in addition to existing authority for the Minister of Finance to provide loans to the OFA, to ensure that there is sufficient borrowing authority in place for the OFA to meet the IESO requested requirements.

- If approved, the Minister of Finance will subsequently provide a Directive to the OFA to direct it to provide credit facilities to the IESO.
    - The OFA currently provides a credit facility to the IESO of $975 million.
    - The IESO has requested that the existing credit facility be reduced to $475 million, and a new credit facility be provided of $2.0 billion, for a total amount of $2.475 billion.

s. 3 Direction and Urgency

- The Province passed legislation on May 31, 2017 to implement the *Ontario Fair Hydro Plan Act, 2017,* which will reduce electricity bills by 25 per cent on average for eligible households.
- The ability for the OFA to have the requisite borrowing and lending capacity is instrumental in supporting implementation of the *Ontario Fair Hydro Plan Act, 2017*.
- Ministry of Energy proposed regulations under the *Ontario Fair Hydro Plan Act, 2017* are expected to track for Cabinet approval by end of June 2017. It is expected that this OIC also be submitted for approval concurrently as it supports a crucial component of the successfully implementation of the Fair Hydro Plan.
- A related Cabinet Minute from the Ministry of Energy is tracking for June 27, 2017 date.

s. 4 Impact Assessment and Costs

- With this OIC, the Minister of Finance will be authorized to lend an additional amount of $2.0 billion to the OFA. Subject to the terms and conditions of a

Directive from the Minister of Finance, loans from the Minister of Finance to the OFA are expected to be at the Province's cost of funds.
- Loans advanced will result in increased borrowing in the debt markets by the Province.
- Loans are expected to be repaid and, therefore, no fiscal impact is expected.

s. 5 Implementation

- If the OIC is approved and signed, the Minister of Finance will have authorization to provide a loan to the OFA. A Directive from the Minister may provide direction to the OFA on how it can use the proceeds of the loan.

s. 6 Delivery and Results Tracking

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017* and is required to ensure the timely implementation and support for the success of the Fair Hydro Plan. Upon approval, the Minister of Finance will have authorization to provide a loan to the OFA with a directive on how the loan can be used.

s.7 Stakeholder Consultations

- As described in section 2 above, the requirement for this OIC is a result of the Province's *Ontario Fair Hydro Plan Act, 2017*. The related Cabinet note for the initiative should be referred to.

RE IESO OFA new FH credit facility.msg

Hello Sarah N,
I discussed "Use of Proceeds" with Bruno. I will send a revised Amending Agreement 10 to you this afternoon.

IESO OFA FHP 2017 Credit Letter

In the letter IESO says that it is currently using the $975 million credit facility for FHP purposes referred to as Regulated Price Plan (RPP). You can see a copy of the grid note in the draft Amending Agreement 10, indicating draws under RPP.

Use of Proceeds for Amending Agreement 10,proposed changes

(i) According to Bruno, he is fine with keeping IESO's proposed paragraph (almost identical to Documentation's proposed first paragraph)
(ii) Remove "(1) Existing credit facility Use of Proceeds is different from the FHP $2 billion credit facility".
(iii) Keep "(2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance"

Hi
I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.
Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.
Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.
I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.
Thanks
Bruno

Subject: RE: IESO : OFA new FH credit facility

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.
It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of

proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?
With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.
Sarah

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,
Will

5. OMITTED (REVOKES OTHER REGULATIONS).

6. OMITTED (PROVIDES FOR COMING INTO FORCE OF PROVISIONS OF THIS REGULATION).

Back to top

1. "AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;" (Page 1, paragraph 4).
2. Documentation has also provided its recommended changes. Documentation's proposed changes are the same wording used in the new $2 billion OFHP Credit Facility and an opportune to streamline "Use of Proceeds" in both agreements. (page 2, paragraph 4).

Proposed Changes	Existing Agreement
Existing Agreement: "Use of Proceeds" **IESO proposes:** "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time." **Documentation proposes (same wording as in the draft new OFHP Credit Facility):** The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the following conditions: (1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of the IESO's role in the implementation and administration of the ~~OFHP~~. (2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."	Use of proceeds needs to fit Ontario Regulation 423/04 (under Electricity Act) and s. 2.3 of Amending Agreement 8 (post amalgamation) to allow for draws under the current agreement. (1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and (2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall
Vice President Corporate Services, Chief Financial Officer and Treasurer

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Sarah

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now

covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

RE IESO OFA new FH credit facility.msg

Hello Sarah N,
I discussed "Use of Proceeds" with Bruno. I will send a revised Amending Agreement 10 to you this afternoon.

IESO OFA FHP 2017 Credit Letter

In the letter IESO says that it is currently using the $975 million credit facility for FHP purposes referred to as Regulated Price Plan (RPP). You can see a copy of the grid note in the draft Amending Agreement 10, indicating draws under RPP.

Use of Proceeds for Amending Agreement 10,proposed changes

(i) According to Bruno, he is fine with keeping IESO's proposed paragraph (almost identical to Documentation's proposed first paragraph)
(ii) Remove "(1) Existing credit facility Use of Proceeds is different from the FHP $2 billion credit facility".
(iii) Keep "(2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance"

Hi
I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.
Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.
Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.
I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.
Thanks
Bruno

Subject: RE: IESO : OFA new FH credit facility

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.
It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of

proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?
With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.
Sarah

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,
Will

"AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;" (Page 1, paragraph 4).
2. Documentation has also provided its recommended changes. Documentation's proposed changes are the same wording used in the new $2 billion OFHP Credit Facility and an opportune to streamline "Use of Proceeds" in both agreements. (page 2, paragraph 4).

Proposed Changes	Existing Agreement
Existing Agreement: "Use of Proceeds" **IESO proposes:** "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time." **Documentation proposes (same wording as in the draft new OFHP Credit Facility):** The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the following conditions: (1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of the IESO's role in the implementation and administration of the ~~OFHP~~. (2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."	Use of proceeds needs to fit Ontario Regulation 423/04 (under Electricity Act) and s. 2.3 of Amending Agreement 8 (post amalgamation) to allow for draws under the current agreement. (1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and (2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now

covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Ontario

Order in Council
Décret

On the recommendation of the undersigned, the Lieutenant Governor of Ontario, by and with the advice and concurrence of the Executive Council of Ontario, orders that:

Sur la recommandation de la personne soussignée, la lieutenante-gouverneure de l'Ontario, sur l'avis et avec le consentement du Conseil exécutif de l'Ontario, décrète ce qui suit :

WHEREAS pursuant to subsection 22(1) of the *Capital Investment Plan Act, 1993* (the "Act"), the Minister of Finance may purchase securities of or make loans to corporations established under subsection 2(1) of the Act in such amounts, at such times and on such terms and conditions as the Lieutenant Governor in Council considers expedient;

AND WHEREAS the Ontario Financing Authority (the "OFA") is a corporation established under subsection 2(1) of the Act;

AND WHEREAS pursuant to subsection 6(3) of the Act, the power of a corporation established under subsection 2(1) of the Act to borrow and issue securities, among other things, may only be exercised under the authority of a by-law that has been approved by the Minister of Finance;

AND WHEREAS the OFA wishes to borrow up to Two Billion Dollars in lawful money of Canada from the Minister of Finance and has been authorized to do so by a borrowing by-law approved in accordance with the Act;

THEREFORE:

Pursuant to subsection 22 (1) of the Act, the Minister of Finance is authorized to lend a maximum of Two Billion Dollars in lawful money of Canada to the OFA on the following terms and conditions:

(a) the loan may be advanced in such amounts and at such time or times as required by the OFA;

(b) repayment of advances made under the loan plus accrued interest may be made in whole or in part at any time provided that the loan plus any accrued interest shall be fully repaid by December 31, 2047;

(c) each advance (an "Advance") made under the loan hereby authorized shall bear interest at a rate which is determined as follows:

(i) from the date of the Advance to (but excluding) the date of repayment the Advance shall bear interest at a per annum rate equivalent to the yield earned on

ninety day Province of Ontario treasury bills on the date before the Advance Date as determined by the Province, provided that if an Advance is outstanding for longer than ninety days, the interest rate shall be reset on the last day of each ninety day period (the "Reset Date") to the yield earned on ninety day Province of Ontario treasury bills immediately preceding the Reset Date for such ninety day period as determined by the Province;

(ii) in the event that moneys included in an Advance are used by the OFA for the purpose of funding loans to third parties (a "Third Party Loan"), the rate of interest payable by the OFA to the Province on the portion of the Advance so used shall be adjusted effective as of the date that the portion of the Advance is used to fund the Third Party Loan so that the per annum rate of interest payable by the OFA on such moneys is equivalent to the per annum rate of interest payable to the OFA under the Third Party Loan less an amount as may be determined by the Minister of Finance in respect of such Third Party Loan or a class of such Third Party Loans, until but excluding the date on which the Third Party Loan is repaid, at which time the interest rate set out in subparagraph (i) shall again be applicable to that portion of the Advance; and

(iii) in the event that moneys described in subparagraph (ii), once repaid, are subsequently used to fund loans to third parties, subparagraph (ii) shall again be applicable in determining the interest rate payable to the Province on that portion of the Advance used to fund such loan, and so on, until the Advance shall be repaid to the Province in full;

(iv) despite subparagraphs (ii) and (iii), in the event that no interest is payable to the OFA under a Third Party Loan, no interest shall be payable by the OFA on the portion of the Advance so used and to the extent that the terms of a Third Party Loan provide for the deferral of the payment of accrued interest for a period, the interest payment terms of an Advance or portion thereof shall also be deferred for a similar period.

(d) interest for any period of less than one year shall be payable for the actual number of days included in such period, computed on the basis of a 365-day year;

(e) despite paragraph (b) of this Order, interest on any portion of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall accrue on the basis stated above but shall become payable only to the extent the OFA receives payment of interest under the relevant Third Party Loan;

(f) despite paragraph (b) of this Order, any portion of the principal of an Advance made to the OFA under the loan that is used by the OFA to fund a Third Party Loan shall become payable only to the extent the OFA receives repayment of principal under the relevant Third Party Loan; and

(g) the loan hereby authorized shall be evidenced by a promissory note.

ATTENDU QUE l'Office ontarien de financement (l'« OOF ») est une personne morale créée en vertu du paragraphe 2 (1) de la Loi;

ATTENDU QUE, conformément au paragraphe 6 (3) de la Loi, le pouvoir qu'ont les personnes morales créées en vertu du paragraphe 2 (1) de la Loi de contracter des emprunts et d'émettre des valeurs mobilières, entre autres, ne peut être exercé qu'aux termes d'un règlement administratif approuvé par le ministre des Finances;

ATTENDU QUE l'OOF souhaite emprunter jusqu'à concurrence de deux milliards de dollars en monnaie légale du Canada du ministre des Finances et qu'il a été autorisé à le faire par un règlement administratif d'emprunt approuvé conformément à la Loi;

PAR CONSÉQUENT :

en vertu du paragraphe 22 (1) de la Loi, le ministre des Finances est autorisé à prêter un montant maximal de deux milliards de dollars en monnaie légale du Canada à l'OOF, aux conditions suivantes :

a) le prêt peut être consenti selon les montants et aux moments qui conviennent à l'OOF;

b) le remboursement des avances consenties au titre du prêt, plus les intérêts courus, peut à tout moment être effectué en totalité ou en partie, pourvu que le prêt et les intérêts courus soient entièrement remboursés au plus tard le 31 décembre 2047;

c) chaque avance (« avance ») faite au titre du prêt autorisé par les présentes portera intérêt au taux est fixé comme suit :

(i) de la date où elle a été faite jusqu'à la date (non comprise) de son remboursement, l'avance portera intérêt à un taux annuel équivalant au rendement gagné sur des bons du Trésor de la province de l'Ontario de quatre-vingt-dix jours à la date précédant la date de l'avance fixée par la province, pourvu que ce taux d'intérêt soit rajusté le dernier jour de chaque période de quatre-vingt-dix jours (« date de rajustement ») selon le rendement gagné sur de tels bons du Trésor immédiatement avant la date de rajustement pour une période de quatre-vingt-dix jours décidée par la province, si l'avance est impayée pendant plus de quatre-vingt-dix jours;

(ii) dans l'éventualité où l'OOF se servirait de sommes comprises dans une avance pour financer des prêts à des tiers, le taux d'intérêt à payer par l'OOF à la province sur la partie de l'avance ainsi utilisée sera rajusté à la date à laquelle la partie de l'avance sera utilisée pour le financement du prêt à un tiers de façon que le taux d'intérêt annuel à payer par l'OOF sur de telles sommes soit équivalent à ce dernier taux moins un montant que pourra fixer le ministre des Finances à l'égard d'un tel prêt ou d'une telle catégorie de prêt, jusqu'à la date (non comprise) à laquelle le prêt à un tiers sera remboursé, date à laquelle le taux d'intérêt établi au sous-alinéa (i) s'appliquera de nouveau à cette partie de l'avance;

(iii) dans l'éventualité où les sommes décrites au sous-alinéa (ii), une fois remboursées, seraient ultérieurement utilisées pour le financement de prêts à des tiers, le sous-alinéa (ii) s'appliquera de nouveau dans l'établissement du taux d'intérêt à payer à la province sur la partie de l'avance utilisée à cette fin, et ainsi de suite, jusqu'à ce que l'avance ait été remboursée intégralement à la province;

d) l'intérêt payable relativement à toute période de moins d'un an sera calculé en fonction du nombre de jours réellement compris dans cette période, par rapport à une année comptant 365 jours;

e) par dérogation à l'alinéa a) ci-dessus, l'intérêt sur toute partie d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers est calculé comme il est indiqué ci-dessus, mais cet intérêt devient payable uniquement dans la mesure où l'OOF reçoit un paiement d'intérêts au titre du prêt à un tiers;

f) par dérogation à l'alinéa b) ci-dessus, toute partie du capital d'une avance consentie à l'OOF dans le cadre du prêt que cette dernière utilise pour financer un prêt à un tiers devient payable uniquement dans la mesure où l'OOF reçoit un remboursement du capital au titre du prêt à un tiers

g) le prêt autorisé en vertu des présentes sera attesté par un billet à ordre.

Subject: RE: FHP credit facility agreement - further amendments
Hi Lisa – regarding the subcategories of borrowing purposes which we have previously listed in borrowing notices, we would prefer to continue with the current practice of listing the subcategory of purpose directly in the borrowing notice rather than enshrining a potentially overly-restrictive list of sub-categories directly in the body of the Agreement. The Agreement already contains a broad restriction as to permitted purposes in s.2.2 – namely borrowing must be related to OFHP – and adding a closed and enumerated list of sub-categories of purposes could create problems down the road.
The concern is that there may over the course of the OFHP be a number of borrowing sub-categories other than RRRP and RPP. RPP will make up the vast majority of all such borrowing, and RRRP borrowing will be the next largest borrowing sub-category – though even at that, it will constitute only a very small portion of total borrowing. Then there may be other and very occasional OFHP-related borrowing that, in terms of percentage of total borrowings is expected to be miniscule, but will still fall under the broad OFHP purpose (e.g. FN Delivery Credit, etc).

We intend to continue to list the different sub-categories of borrowing (RPP etc) in each borrowing notice for internal tracking reasons, etc. In addition our practice has been to issue different borrowing notices for different subcategories of borrowing, and this will also continue. So would it not be sufficient if we just continue with current practice – or maybe just add a note to the Form of Borrowing Notice as a reminder to specify any sub-categories of OFHP-related borrowing purposes ?

Regarding our call at the end of the day yesterday, as I mentioned, I still have some concerns about any conflicting requirements of sections 3.3(5) and 4.6. That said, I am happy to look at any language you might wish to draft and provide my comments promptly if that would be of assistance.

Hi Victor,
Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.
Thank you,
Lisa

Subject: RE: FHP credit facility agreement - further amendments

Hi Lisa – regarding the subcategories of borrowing purposes which we have previously listed in borrowing notices, we would prefer to continue with the current practice of listing the subcategory of purpose directly in the borrowing notice rather than enshrining a potentially overly-restrictive list of sub-categories directly in the body of the Agreement. The Agreement already contains a broad restriction as to permitted purposes in s.2.2 – namely borrowing must be related to OFHP – and adding a closed and enumerated list of sub-categories of purposes could create problems down the road.

The concern is that there may over the course of the OFHP be a number of borrowing sub-categories other than RRRP and RPP. RPP will make up the vast majority of all such borrowing, and RRRP borrowing will be the next largest borrowing sub-category – though even at that, it will constitute only a very small portion of total borrowing. Then there may be other and very occasional OFHP-related borrowing that, in terms of percentage of total borrowings is expected to be miniscule, but will still fall under the broad OFHP purpose (e.g. FN Delivery Credit, etc).

We intend to continue to list the different sub-categories of borrowing (RPP etc) in each borrowing notice for internal tracking reasons, etc. In addition our practice has been to issue different borrowing notices for different subcategories of borrowing, and this will also continue. So would it not be sufficient if we just continue with current practice – or maybe just add a note to the Form of Borrowing Notice as a reminder to specify any sub-categories of OFHP-related borrowing purposes ?

Hi Lisa – we are still considering the RRRP/RPP question you asked below – I will get back to you as soon as we have an answer for you.

Regarding our call at the end of the day yesterday, as I mentioned, I still have some concerns about any conflicting requirements of sections 3.3(5) and 4.6. That said, I am happy to look at any language you might wish to draft and provide my comments promptly if that would be of assistance.

Regards,
Victor

Hi Victor,

Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.

Thank you,

Lisa

Hi Will,

After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.

OFA -- IESO CREDIT FACILITY
MINISTER OF FINANCE DIRECTIVE FOR AN EXEMPTION FROM THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE")
REQUIRED UNDER THE OFA'S LENDING POLICY

CONTEXT

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility (currently provided under the "Original Credit Facility Agreement", see Background section) from the current $975 million to $475 million.

On June 29, 2017, the OFA received a directive from the Minister to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister of Finance [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the Minister to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an intercept provision in the OFHP Credit Facility agreement with the IESO, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA:

  > Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.

- The OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to exclude intercept provisions from the OFHP Credit Facility Agreement, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The requested Intercept Exemption Directive would only apply to the two specified IESO credit facilities.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, from the OFA Lending Policy requirement to include an intercept provision.

RATIONALE FOR EXEMPTION

- This Intercept Exemption Directive will enable the IESO to fulfil its commitments under the OFHP Act as the IESO will have to finance for a short or medium term period the funding shortfalls in the implementation of the OFHP Act, as well as the continued implementation of the market support function for the IESO through the $475 million facility (to be amended from the current $975 million facility).

- Including an intercept provision in the credit facility agreements with the IESO would have no practical usefulness as the IESO receives no operational funding from the Province of Ontario.

- While the IESO settlements system for the electricity sector may facilitate the flow of appropriations of the Ministry of Energy for energy-related programs such as the Ontario Rebate for Electricity Consumers (OREC), the Rural or Remote Rate Protection Program (RRRP), the Ontario Electricity Support Program (OESP) etc., these payments are for the benefit of various electricity consumers.

- Intercepting these program specific payments, which are appropriated by the Legislature for the Ministry of Energy, under which the IESO may only be providing a conduit to local distribution companies under the IESO settlement system to provide benefits to ratepayers, in order to recover loan payments would not be in alignment with the wording or intent of the OFA's Lending Policy.

FISCAL IMPACT

- There is no expected incremental fiscal impact for the Province from providing an exemption from the intercept provision requirement of the OFA Lending Policy.
  - [The IESO is an entity consolidated to the Province and if there were any amounts to intercept, there would be no incremental fiscal impact of having the Intercept Exemption Provision.]

BACKGROUND

<u>The IESO</u>

- The IESO is a not-for-profit corporate entity established in 1998 by the *Electricity Act, 1998*. It is governed by an independent Board of Directors and its Chair and Directors are appointed by the Province.

- The IESO has full statute-based authority for establishing, monitoring and enforcing reliability standards in the province. All the companies that make up the power system in Ontario must meet the IESO's standards.

- Its fees and licences to operate are set by the Ontario Energy Board and it operates independently of all other participants in the electricity market.

- The IESO is a public body for the purposes of CIPA.

OFA Credit Facilities to the IESO

- Pursuant to directives dated December 22nd 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, December 18th, 2013, and November 28, 2016, the Minister of Finance ("Minister") approved and directed the Ontario Fiancing Authority ("OFA") to make loans (the "Advances") to the Ontario Power Authority (the "OPA") from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA to meets its purposes.

- Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act*, *1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

- Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

- The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 2015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance ("Minister").

Effective January 1, 2015, the Ontario Power Authority (the "OPA") and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* (the "Amalgamation") with the name Independent Electricity System Operator ("IESO").

Pursuant to directives dated December 22nd, 2004, October 3rd, 2005, July 28th, 2006, October 14th, 2010, December 18th, 2013, and November 28th, 2016, the Minister approved and directed the OFA to make loans (the "Advances") to the OPA and the IESO after the Amalgamation from time to time in an aggregate amount not to exceed $975 million at any time, as considered necessary by the OPA and IESO after the Amalgamation to meets its purposes.

Pursuant to the Amalgamation the obligations of the OPA became obligations of the IESO.

The terms and conditions governing the Advances are set out in a credit agreement entered into between the OFA and the OPA dated January 1, 2005, as subsequently amended by amending agreements dated February 14, 2005, October 11, 2015, September 27, 2006, July 13, 2007, November 9, 2010, December 20, 2013, December 19, 2014 and November 30, 2016 (as so amended, the "Original Credit Facility Agreement").

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support the IESO's role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility from the current $975 million to $475 million.

Pursuant to a directive from the Minister dated June 29, 2017 (the "2017 Directive"), the OFA was directed to provide a new revolving credit facility of up to $2 billion to the IESO for the purposes of providing short to medium term financing related to the IESO's role in the implementation of the OFHP Act (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister, Treasury Board or Cabinet. The intercept provision applies to money appropriated by the Legislature for a public body.

The IESO is a public body for the purposes of CIPA.

As there is no operational funding appropriated by the Legislature for the IESO, the intercept provision has no application for OFA loans to the IESO.

Therefore:

The OFA is not required to include an intercept provision in the following two credit facility agreements with the IESO:

a) the Original Credit Facility Agreement, as may be amended from time to time; and,
b) the OFHP Credit Facility agreement, as may be amended from time to time.

(together, the "IESO Credit Facility Agreements")

The IESO Credit Facility Agreements shall remain subject to all other terms and conditions as set out in the applicable directives.

OFA -- IESO CREDIT FACILITY
MINISTER OF FINANCE DIRECTIVE FOR AN EXEMPTION FROM THE INTERCEPT PROVISION ("INTERCEPT EXEMPTION DIRECTIVE")
REQUIRED UNDER THE OFA'S LENDING POLICY

CONTEXT

The IESO had requested a new revolving credit facility in an amount of up to $2 billion from the OFA to support its role in the implementation and participation under the *Ontario Fair Hydro Plan Act, 2017* ("OFHP Act"). In the same request, the IESO had requested a reduction to its existing credit facility (currently provided under the "Original Credit Facility Agreement", see Background section) from the current $975 million to $475 million.

On June 29, 2017, the OFA received a directive from the Minister to accommodate the IESO's request and provide a revolving credit facility to the IESO in an amount of up to $2 billion (the "OFHP Credit Facility").

Pursuant to the OFA Lending Policy, the OFA is required to include an intercept provision in respect of loans made by the OFA to public bodies on an unsecured basis, unless otherwise directed by the Minister of Finance [or Treasury Board or Cabinet]. In accordance with section 23 of the *Capital Investment Plan Act, 1993* ("CIPA"), the intercept provision allows the Minister to deduct amounts equal to any amounts the public body fails to pay to the OFA under a loan agreement from money appropriated by the Legislature for payment to the public body.

Per the requirements of the OFA's Lending Policy, the OFA is returning to request a Minister's direction to exempt the requirement to include an intercept provision in the OFHP Credit Facility agreement with the IESO, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The OFA Lending Policy provides the following requirement for unsecured loans to public bodies under CIPA:

  > Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will [e]nsure that it has an appropriate intercept in place for the loan.

- The OFA Lending Policy also includes the following requirements in relation to the intercept provision:

  > The public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA.

RECOMMENDATION

- OFA staff recommend the Minister sign the attached Intercept Exemption Directive allowing the OFA to exclude intercept provisions from the OFHP Credit Facility Agreement, as well as the Original Credit Facility Agreement, both of which may be amended from time to time.

- The requested Intercept Exemption Directive would only apply to the two specified IESO credit facilities.

MINISTER'S DIRECTIVE

- The Minister of Finance's Intercept Exemption Directive would authorize the OFA to exempt the Original Credit Facility Agreement and the OFHP Credit Facility agreement, both as amended from time to time, from the OFA Lending Policy requirement to include an intercept provision.

Hi Lisa and Bruno,

I was speaking to Anna Strathy about the date of the Minister's return (she thought August 31st, but was going to confirm), but she mentioned that if we need something signed, the Head of Treasury Board would be able to sign. I asked her if this included Minister Directives, and she asked that I send her details of the Directive and she would confirm.

This then made me think about the Lending Policy which states the exemption from the intercept provision could be provided by the Minister of Finance, Treasury Board or Cabinet. It would seem then that even if Head of Treasury Board does not have the delegated authority to sign for the Minister, the Head could still sign a directive on behalf of Treasury Board. I am not familiar with Treasury Board directives and perhaps I am oversimplifying, but it would seem that this may be a reasonable option.

Nevertheless, I am e-mailing Anna Strathy with the details of the Directive and will cc' you both.

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption form the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in

the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will be delayed, likely for a number of weeks.

If the decision is made <u>not</u> to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision <u>is required</u>, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (i)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry

of will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

OFA LENDING POLICY

Approved:	**April 11, 2008**
Revised and approved:	**April 16, 2010**

SCOPE

The Ontario Financing Authority (OFA) is a crown corporation that has the statutory authority to lend to public bodies under the *Capital Investment Plan Act (CIPA).*

Public bodies are defined in CIPA as Crown agencies, hospitals and any other facilities receiving capital funding from the Minister of Health and Long-Term Care, municipalities, universities that receive operating funds from the Province, colleges of applied arts and technology, school boards, and any other entity named or described as a public body in the regulations which as of this date include the Deposit Insurance Corporation of Ontario, the Ontario Pension Benefits Guarantee Fund and the Law Society of Upper Canada and the Ontario Power Authority.

This policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS

This policy replaces the OFA lending policy that was approved by the OFA Board of Directors on April 11, 2008.

Any amendments or exceptions to this policy must be approved by the OFA Board of Directors.

POLICY FRAMEWORK

On June 21, 2007, the government approved a new framework for financing public bodies that are consolidated on the Province's financial statements. Consolidated public bodies include school boards, colleges, hospitals and corporations, boards and commissions.

Generally, the policy framework mandates the OFA to provide long-term financing for capital purposes to school boards, colleges and hospitals, as well as to Provincial corporations, boards and commissions who borrow as agents of the Crown, where the financing is recommended by the responsible ministry.

The policy framework also mandates the OFA to charge a cost recovery rate for all loans to public bodies, and a proxy commercial rate where the project is deemed to be commercial in nature. Determinations as to the nature of the project are to be made by the OFA in consultation with the recommending ministry.

TYPE OF FINANCING

The policy framework mandates the OFA to provide long-term financing to public bodies, which will be undertaken on a fixed rate or variable rate basis. Except where the Minister of Finance, Treasury Board or Cabinet determines there is a significant benefit to the public body or to the Province, the OFA will not provide:

1. Short-term financing for operating or working capital purposes.

2. Construction financing where capital projects require significant project monitoring expertise to keep construction running on time and on budget.

3. Financing to consolidated corporations, boards and commissions that are not Crown agents.

LOAN APPROVALS

1. The OFA will only advance a loan to a public body where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body.

2. Where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body, no further Board approval is required.

3. The OFA Board shall annually review a borrowing and on-lending plan (the OFA's Annual Borrowing and On-Lending Plan), which shall include the OFA's annual borrowing requirements from the Province and projected on-lending activities to Ontario public bodies for the year. As part of its review, the OFA Board shall approve the OFA's cost recovery spread and proxy commercial interest rate spreads related to the OFA's annual lending activities to public bodies.

4. The OFA Board will be advised at its next regularly scheduled meeting of any deviations from the OFA's Annual Borrowing and On-Lending Plan.

LENDING DIRECTIVE

The OFA will prepare an annual lending directive for the Minister of Finance's consideration based on the proposed loans in the OFA's Annual Borrowing and On-Lending Plan which require consent under Section 28 of the *Financial Administration Act* ("FAA") or which are to be made to School Boards. The lending directive will expressly direct or approve the OFA to advance these loans to public bodies for the fiscal year. The lending directive will include the maximum authorized amount of the loans to individual borrowers or the maximum amount of all the loans to a group of borrowers, such as School Boards or Community Colleges, and where possible, the borrower's name and the specific purpose(s) for which the loans are required, with the other terms and

conditions of the loans being delegated to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them for approval.

The OFA will prepare specific lending directives for consideration by Minister of Finance for proposed loans in the the OFA's Annual Borrowing and On-Lending Plan which do not require consent under Section 28 of the FAA, other than loans to School Boards, at the time that the requests for the OFA to enter into such loans are being processed.

CONDITIONS PRECEDENT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will:

1. Receive and review the public body's loan request as submitted and recommended by the responsible ministry.

2. Determine the public body's ability to repay the loan by relying on information submitted by the responsible ministry and public body, which may include information on the capital project, business case, cash flow projections and audited financial statements, and such other information as may be required.

3. Where required, ensure that the responsible ministry or public body has obtained prior written approval for the proposed loan pursuant to Section 28 of the FAA. The CEO of the OFA will not act as the delegate of the Minister of Finance to provide approval under Section 28 of the FAA for a loan when the OFA is the lender.

4. Evaluate the underlying risk of the project in order to determine if the project is commercial in nature, and if so establish an appropriate proxy commercial basis points spread to charge the public body as approved by the OFA Board (see "Proxy Commercial Rate").

5. Enter into a loan agreement with the public body containing terms and conditions consistent with the lending directive and satisfactory to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them , including appropriate (i) positive and negative covenants of the public body, (ii) representations and warranties by the public body, (iii) conditions precedent, (iv) remedies upon default provisions, (v) reporting provisions, (vi) event of default provisions, and (vii) intercept provisions.

6. Ensure that it has an appropriate intercept in place for the loan (see "Intercept").

SECURITY

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision, as provided below) in respect of loans made by the OFA to public bodies.

INTERCEPT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet:

1. Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

2. Prior to recommending to the Minister of Finance that the intercept be exercised, the OFA will raise the issue with the responsible ministry and seek the ministry's support in getting the public body to pay the amounts owing within a reasonable cure period.

3. Should the public body not cure the default within a reasonable period of time, the OFA will give written notice to the Minister of Finance, with a copy to the responsible ministry, of a public body's failure to pay under its loan agreement and requesting the deduction of amounts equal to the amounts that a public body has failed to pay under its loan agreement.

4. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to covenant and agree that, upon receipt of notice from the OFA that a public body has failed to pay in accordance with the provisions of its loan agreement, the responsible ministry will provide all information requested by the OFA respecting amounts appropriated by the Legislature for payment to the public body including the intended purpose and expected timing of such payments to be made by the responsible ministry. Upon request, the responsible ministry agrees to provide similar information to the Minister of Finance.

5. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to acknowledge and agree that, upon receipt of a direction from the Minister of Finance, that an amount is to be deducted from

money appropriated by the Legislature for payment to the public body, the responsible ministry will take all necessary action required by it in order to effect such deduction in accordance with the Minister of Finance's direction and pay the amount to the OFA at the time specified.

COST RECOVERY

1. The OFA will recover its lending costs by charging public bodies a rate equal to the **Province's total cost of funds**, which will include the Province's direct borrowing costs (including commissions) as well as a spread to cover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.

2. The OFA will use a **basis-points-spread (bps) based cost recovery methodology** to recover the costs of its direct borrowing and on-lending activities. The costs relate to both the upfront and ongoing loan monitoring and administration and are expressed in terms of basis points per annum and will be recovered over the term of the loan.

3. The annual basis-point spread charged to public bodies for cost recovery shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. The Capital Markets Treasury Division of the OFA, with the assistance of Internal Audit, will conduct an annual review to ensure that the cost recovery methodology is appropriate and that there are no significant under/over- recoveries that may require management's corrective action.

PROXY COMMERCIAL RATE

1. In addition to charging the Province's total cost of funds, the OFA will charge a proxy commercial basis points spread for projects that are commercial in nature in order to better reflect the costs of the underlying risk for financing of such projects. The proxy commercial basis points spread will be added to the Province's total cost of funds and recovered over the term of the loan. Loans are deemed to be commercial in nature where generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources.

2. The methodology for determining proxy commercial basis points spreads (including the amount(s) of these spreads) charged to public bodies for projects deemed commercial in nature shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. Proxy commercial basis points spreads will also be re-evaluated (and, if deemed necessary, reset upon approval of the OFA Board) in situations where there are significant changes to fixed income credit spreads. The OFA Corporate Finance Branch is responsible for recommending any changes to the

methodology or spread resets to the OFA Board, while the Capital Markets Division is responsible for informing the Corporate Finance Branch of any significant changes to fixed income credit spreads.

REPORTING REQUIREMENTS

1. A report outlining the status of all outstanding loans will be tabled with the OFA Board annually (the OFA's Annual Borrowing and On-Lending Plan) and at such other times as the OFA Board requests.

2. For each loan outstanding, such report will identify: the borrower, the purpose of the loan, the principal amount outstanding, and such other information as the OFA Board may request.

3. All OFA loans to public bodies will continue to be annually reported in the notes to the OFA's audited financial statements as disclosed in the OFA's Annual Report.

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption form the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in

the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will be delayed, likely for a number of weeks.

If the decision is made <u>not</u> to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision <u>is required</u>, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (i)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry

of will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

OFA LENDING POLICY

Approved:	**April 11, 2008**
Revised and approved:	**April 16, 2010**

SCOPE

The Ontario Financing Authority (OFA) is a crown corporation that has the statutory authority to lend to public bodies under the *Capital Investment Plan Act (CIPA).*

Public bodies are defined in CIPA as Crown agencies, hospitals and any other facilities receiving capital funding from the Minister of Health and Long-Term Care, municipalities, universities that receive operating funds from the Province, colleges of applied arts and technology, school boards, and any other entity named or described as a public body in the regulations which as of this date include the Deposit Insurance Corporation of Ontario, the Ontario Pension Benefits Guarantee Fund and the Law Society of Upper Canada and the Ontario Power Authority.

This policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS

This policy replaces the OFA lending policy that was approved by the OFA Board of Directors on April 11, 2008.

Any amendments or exceptions to this policy must be approved by the OFA Board of Directors.

POLICY FRAMEWORK

On June 21, 2007, the government approved a new framework for financing public bodies that are consolidated on the Province's financial statements. Consolidated public bodies include school boards, colleges, hospitals and corporations, boards and commissions.

Generally, the policy framework mandates the OFA to provide long-term financing for capital purposes to school boards, colleges and hospitals, as well as to Provincial corporations, boards and commissions who borrow as agents of the Crown, where the financing is recommended by the responsible ministry.

The policy framework also mandates the OFA to charge a cost recovery rate for all loans to public bodies, and a proxy commercial rate where the project is deemed to be commercial in nature. Determinations as to the nature of the project are to be made by the OFA in consultation with the recommending ministry.

TYPE OF FINANCING

The policy framework mandates the OFA to provide long-term financing to public bodies, which will be undertaken on a fixed rate or variable rate basis. Except where the Minister of Finance, Treasury Board or Cabinet determines there is a significant benefit to the public body or to the Province, the OFA will not provide:

1. Short-term financing for operating or working capital purposes.

2. Construction financing where capital projects require significant project monitoring expertise to keep construction running on time and on budget.

3. Financing to consolidated corporations, boards and commissions that are not Crown agents.

LOAN APPROVALS

1. The OFA will only advance a loan to a public body where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body.

2. Where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body, no further Board approval is required.

3. The OFA Board shall annually review a borrowing and on-lending plan (the OFA's Annual Borrowing and On-Lending Plan), which shall include the OFA's annual borrowing requirements from the Province and projected on-lending activities to Ontario public bodies for the year. As part of its review, the OFA Board shall approve the OFA's cost recovery spread and proxy commercial interest rate spreads related to the OFA's annual lending activities to public bodies.

4. The OFA Board will be advised at its next regularly scheduled meeting of any deviations from the OFA's Annual Borrowing and On-Lending Plan.

LENDING DIRECTIVE

The OFA will prepare an annual lending directive for the Minister of Finance's consideration based on the proposed loans in the OFA's Annual Borrowing and On-Lending Plan which require consent under Section 28 of the *Financial Administration Act* ("FAA") or which are to be made to School Boards. The lending directive will expressly direct or approve the OFA to advance these loans to public bodies for the fiscal year. The lending directive will include the maximum authorized amount of the loans to individual borrowers or the maximum amount of all the loans to a group of borrowers, such as School Boards or Community Colleges, and where possible, the borrower's name and the specific purpose(s) for which the loans are required, with the other terms and

conditions of the loans being delegated to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them for approval.

The OFA will prepare specific lending directives for consideration by Minister of Finance for proposed loans in the the OFA's Annual Borrowing and On-Lending Plan which do not require consent under Section 28 of the FAA, other than loans to School Boards, at the time that the requests for the OFA to enter into such loans are being processed.

CONDITIONS PRECEDENT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will:

1. Receive and review the public body's loan request as submitted and recommended by the responsible ministry.

2. Determine the public body's ability to repay the loan by relying on information submitted by the responsible ministry and public body, which may include information on the capital project, business case, cash flow projections and audited financial statements, and such other information as may be required.

3. Where required, ensure that the responsible ministry or public body has obtained prior written approval for the proposed loan pursuant to Section 28 of the FAA. The CEO of the OFA will not act as the delegate of the Minister of Finance to provide approval under Section 28 of the FAA for a loan when the OFA is the lender.

4. Evaluate the underlying risk of the project in order to determine if the project is commercial in nature, and if so establish an appropriate proxy commercial basis points spread to charge the public body as approved by the OFA Board (see "Proxy Commercial Rate").

5. Enter into a loan agreement with the public body containing terms and conditions consistent with the lending directive and satisfactory to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them , including appropriate (i) positive and negative covenants of the public body, (ii) representations and warranties by the public body, (iii) conditions precedent, (iv) remedies upon default provisions, (v) reporting provisions, (vi) event of default provisions, and (vii) intercept provisions.

6. Ensure that it has an appropriate intercept in place for the loan (see "Intercept").

SECURITY

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision, as provided below) in respect of loans made by the OFA to public bodies.

INTERCEPT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet:

1. Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

2. Prior to recommending to the Minister of Finance that the intercept be exercised, the OFA will raise the issue with the responsible ministry and seek the ministry's support in getting the public body to pay the amounts owing within a reasonable cure period.

3. Should the public body not cure the default within a reasonable period of time, the OFA will give written notice to the Minister of Finance, with a copy to the responsible ministry, of a public body's failure to pay under its loan agreement and requesting the deduction of amounts equal to the amounts that a public body has failed to pay under its loan agreement.

4. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to covenant and agree that, upon receipt of notice from the OFA that a public body has failed to pay in accordance with the provisions of its loan agreement, the responsible ministry will provide all information requested by the OFA respecting amounts appropriated by the Legislature for payment to the public body including the intended purpose and expected timing of such payments to be made by the responsible ministry. Upon request, the responsible ministry agrees to provide similar information to the Minister of Finance.

5. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to acknowledge and agree that, upon receipt of a direction from the Minister of Finance, that an amount is to be deducted from

money appropriated by the Legislature for payment to the public body, the responsible ministry will take all necessary action required by it in order to effect such deduction in accordance with the Minister of Finance's direction and pay the amount to the OFA at the time specified.

COST RECOVERY

1. The OFA will recover its lending costs by charging public bodies a rate equal to the **Province's total cost of funds**, which will include the Province's direct borrowing costs (including commissions) as well as a spread to cover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.

2. The OFA will use a **basis-points-spread (bps) based cost recovery methodology** to recover the costs of its direct borrowing and on-lending activities. The costs relate to both the upfront and ongoing loan monitoring and administration and are expressed in terms of basis points per annum and will be recovered over the term of the loan.

3. The annual basis-point spread charged to public bodies for cost recovery shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. The Capital Markets Treasury Division of the OFA, with the assistance of Internal Audit, will conduct an annual review to ensure that the cost recovery methodology is appropriate and that there are no significant under/over- recoveries that may require management's corrective action.

PROXY COMMERCIAL RATE

1. In addition to charging the Province's total cost of funds, the OFA will charge a proxy commercial basis points spread for projects that are commercial in nature in order to better reflect the costs of the underlying risk for financing of such projects. The proxy commercial basis points spread will be added to the Province's total cost of funds and recovered over the term of the loan. Loans are deemed to be commercial in nature where generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources.

2. The methodology for determining proxy commercial basis points spreads (including the amount(s) of these spreads) charged to public bodies for projects deemed commercial in nature shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. Proxy commercial basis points spreads will also be re-evaluated (and, if deemed necessary, reset upon approval of the OFA Board) in situations where there are significant changes to fixed income credit spreads. The OFA Corporate Finance Branch is responsible for recommending any changes to the

methodology or spread resets to the OFA Board, while the Capital Markets Division is responsible for informing the Corporate Finance Branch of any significant changes to fixed income credit spreads.

REPORTING REQUIREMENTS

1. A report outlining the status of all outstanding loans will be tabled with the OFA Board annually (the OFA's Annual Borrowing and On-Lending Plan) and at such other times as the OFA Board requests.

2. For each loan outstanding, such report will identify: the borrower, the purpose of the loan, the principal amount outstanding, and such other information as the OFA Board may request.

3. All OFA loans to public bodies will continue to be annually reported in the notes to the OFA's audited financial statements as disclosed in the OFA's Annual Report.

Subject: FHP CF delay email.

Hello Sarah,

I am concurrently reviewing the FHP Credit Facility. Below is the draft email for Anthony and the general message to Anthony and Victor when we/I speak with them on the phone. I took parts of your email and parts of Lisa's email. Please review and comment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement.*
>
> *OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by OFA to public bodies, unless otherwise directed. As such, no further directly/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. We are now in the process of obtaining an exception through the Minister of Finance in the form of an internal directive.*
>
> *I also want to make you aware that due to the internal process that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*

Best regards,"

Subject:	FHP Credit Facility outstanding issues
Date:	Friday, August 04, 2017 9:12:34 AM

Good morning all,

We have had possession of this draft since Wednesday July 26. There are two outstanding issues holding-up the FHP Credit Facility draft:

"Permitted Leins"

(k) any Lien arising in connection with the IESO's role and obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation to the Clean Energy Adjustment, or otherwise.

On yesterday's call, Anthony said that the operations for FHP are still being worked-out and that it's difficult to itemize everything that would be related (k) and would fall under the OFHP obligations and include them in section (k). Because of the fluidity of the situation, (k) was intentionally worded in this manner and (k) does not sound to be unreasonable to me.

I am not an expert on the operations of the Fair Hydro Plan. But according to the link below, the FHP includes a number of Enhanced Social Programs which include Rural/Remote Rate Protection Program (RRRP),Regulated Price Plan (RPP), Ontario Electricity Support Program (OESP), First Nations On-Reserve Delivery Credit, Affordability Fund and Clean Energy Adjustment.
https://news.ontario.ca/mei/en/2017/5/ontarios-fair-hydro-act-2017-1.html

Lisa please arrange to speak with Toby and Bruno to answer any concerns Bruno may have with (k).

Section 3.3 Election Regarding Advances

(5)the Credit Facility shall at all times rank *pari passu* with all other unsecured Indebtedness of the IESO.

Lisa, I understand you have an email with Toby yesterday. May I ask that you and Toby work-out a satisfactory wording for (k). Jean-Francois has already provided his opinion that "unsecured Indebtedness seems appropriate". Once you conclude on the wording please show JF and I. I ask that you communicate with Victor to determine if the wording is agreeable. I understand that sending a draft version is preferred but we are running out of time. Once he agrees then we can send him the soft copy.

It's important that we get this document out to IESO today.
I am available all day today if you need me to join or arrange a call.

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further

multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

(g) the IESO or any Material Subsidiary:

(i) becomes unable to meet its obligations as they generally become due or has ceased paying its current obligations in the ordinary course of business as they generally become due;

(ii) admits in writing its inability to pay its debts generally or makes a general assignment for the benefit its creditors or files a proposal or other scheme of arrangement involving the rescheduling or composition of its Indebtedness;

(iii) institutes or has instituted against it any proceeding seeking:

(A) to adjudicate it as bankrupt or insolvent,

(B) liquidation, winding-up or reorganization, arrangement, adjustment, protection, relief or composition of it or its debts under any law relating to bankruptcy, insolvency, reorganization or relief of debtors including any plan of compromise or arrangement or other corporate proceeding involving or affecting its creditors, or

(C) the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its assets,

and in the case of any such proceeding instituted against it (but not instituted by it), either the proceeding remains undismissed or unstayed for a period of 30 days, or any remedy sought in any such proceeding (including the entry of order for relief against it or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its properties and assets) occurs; or

(iv) takes any corporate action to authorize any of the actions in Sections 5.l (h)(i) to (iii); or

(h) if there shall be rendered against the IESO or any Material Subsidiary a final judgment or judgments for the payment of money in an aggregate amount in excess of $5 million by a court or courts of competent jurisdiction, and the IESO or any Material Subsidiary shall have failed to satisfy such judgments or to appeal therefrom (or from the order, decree or process pursuant to which such judgments were granted, passed, entered or affirmed) and to obtain a stay of execution thereof within the period prescribed by law for appeals, and to have such judgments discharged within 30 days after the expiration of such period or the period of any such stay, whichever shall later expire.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3) Business Days after the date on which written notice of such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

Section 5.3 Suits for Enforcement by the OFA.

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by

proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) to file and prove a claim for all amounts owing under this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any moneys or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,
Will

"Resolution of the Board of Directors

Independent Electricity System Operator

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS the Corporation proposes to enter into a new credit facility with the Ontario Financing Authority or Ontario Electricity Financial Corporation to support the Corporation's role in the Fair Hydro Plan in an amount yet to be determined of between $1,800 and $2,500 million (the "**New Facility**");

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

~~**AND WHEREAS …**~~

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility … on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

(a) finalize, execute and deliver:

(i) all relevant agreements, instruments and other documents required for the establishment or amendment, as applicable, of the Credit Facilities, and

(ii) all ancillary documents, deeds and instruments determined to be necessary or desirable in connection therewith (the execution of any such document, deed or instrument being conclusive evidence of such determination),

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

I certify that the above is a true redacted extract of a resolution approved by the Board of Directors of the Independent Electricity System Operator on June 14, 2017.

"Resolution of the Board of Directors

Independent Electricity System Operator

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS the Corporation proposes to enter into a new credit facility with the Ontario Financing Authority or Ontario Electricity Financial Corporation to support the Corporation's role in the Fair Hydro Plan in an amount yet to be determined of between $1,800 and $2,500 million (the "**New Facility**");

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

~~**AND WHEREAS …**~~

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility … on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

(a) finalize, execute and deliver:

(i) all relevant agreements, instruments and other documents required for the establishment or amendment, as applicable, of the Credit Facilities, and

(ii) all ancillary documents, deeds and instruments determined to be necessary or desirable in connection therewith (the execution of any such document, deed or instrument being conclusive evidence of such determination),

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

I certify that the above is a true redacted extract of a resolution approved by the Board of Directors of the Independent Electricity System Operator on June 14, 2017.

Hi Victor,

Thank you for the call this morning. Further to our discussion, my clients have suggested that we should consider incorporating language to distinguish between the "Rural or Remote Electricity Rate Protection (RRRP) variance" and the "Regulated Price Plan (RPP) variance" since on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. As such, I will leave placeholders in the next draft of the agreement (definitions and perhaps also in section 3.2(1) (Procedure for Advances) for further discussion.

Thank you,

Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. Commented [TPW4]: I don't think this does anything, and may in fact be detrimental, as we may be able to argue for some kind of PMSI or other security arising from the operation of the OFHP. Useful if "unsubordinated", but not if "unsecured".

Commented [LS5]: Bruno: Please advise if you are comfortable with this deletion, as suggested by Toby. I am in agreement with his approach; if we add in "unsubordinated" it may require further discussions with IESO counsel (based on earlier comments/discussions).

~~(2)~~ In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

ADVANCES

Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Advance; and (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [TPW4]: I don't think this does anything, and may in fact be detrimental, as we may be able to argue for some kind of PMSI or other security arising from the operation of the OFHP. Useful if "unsubordinated", but not if "unsecured".

Commented [LS5]: Bruno: Please advise if you are comfortable with this deletion, as suggested by Toby. I am in agreement with his approach; if we add in "unsubordinated" it may require further discussions with IESO counsel (based on earlier comments/discussions).

Commented [WT7]: We query whether section (k) is necessary since we consider that section (j) "any other Liens" may already capture this. We defer to OFA Legal on this matter.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note~~-~~ in respect of Advances held by it.

Hi Malle, Lisa,

Pls. see attached. I haven't yet run this draft by Ron but spoke to him about the direction this afternoon.

Happy to organize a call first thing tomorrow. We are hoping to get it signed by Ron and Gadi tomorrow before Gadi leaves on his vacation.

I left out the second part of Malle's comment (the whereas one) as I wasn't sure how to do that.

Thanks,

John

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

OFA LENDING POLICY:
FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

SCOPE

- This policy addresses lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS and EXCEPTIONS

- Any amendment or exception to this policy must be approved by the OFA Board of Directors.

POLICY RULES

1. Role of OFA as a Lending Intermediary

a. The OFA will not lend funds to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board.

b. The OFA will advance loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan.

c. The OFA will not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

2. OFA Loan Approvals

a. The OFA shall annually approve a borrowing plan for the OFA that identifies:

(i) the OFA's borrowing requirements for the year from the Province and any other sources; and

(ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

b. Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

c. Where the Province has approved the provision of Provincial financial support to a public body, but has not specifically referred to a role for the OFA, the OFA will advance the loan only where:

(i) either the Chief Executive Officer of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

(ii) there is a sufficient allocation for the loan (specifically or as a contingency allocation) in the annual borrowing plan for the OFA approved by the Board.

d. The Board will be advised, at its next regularly scheduled meeting, of any potential or actual deviations from the annual borrowing plan resulting from a loan referred to in paragraph 2(b).

3. OFA Loan Terms and Conditions

a. Where Cabinet, Management Board of Cabinet or the Minister of Finance has requested that the OFA advance a loan to a public body with specific terms or conditions, the OFA will comply.

b. Otherwise, the OFA will adhere to the lending terms and conditions outlined in the Appendix.

4. OFA Loan Reporting Requirements

a. A report outlining the status of all loans outstanding will be tabled with the OFA Board annually and at such other times as the OFA Board requests.

b. For each loan outstanding, such report will identify: the borrower; the authority under which the loan was advanced; the purpose of the loan; the current status of the loan; the principal amount outstanding; the major terms and conditions; and such other information as the OFA Board may request.

SCOPE

- These policies address lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province.

INTRODUCTION

- The OFA lending policies address the following matters related to loan terms and conditions:

  - conditions precedent
  - advances
  - repayments
  - interest rate
  - loan security

- Since these policies address lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province, they are designed to be consistent with the public policy or economic rationale for the provision of Provincial financial support. In addition, they match commercial lending policies where that is advantageous to the Province.

OFA LOAN TERMS and CONDITIONS

a. Where Cabinet, Management Board of Cabinet or the Minister of Finance has requested that the OFA advance a loan to a public body with specific terms or conditions, the OFA will comply.

b. Otherwise, the OFA should adhere to the lending terms and conditions described in this Appendix.

CONDITIONS PRECEDENT

Commercial Standard

- Prior to making a loan, a commercial lender would ensure that the borrower had sufficient authority to execute the loan.

- Generally, an entity's authority to enter a loan may be determined by a review of its enabling legislation, by-laws and resolutions of its Board of Directors.

Provincial Public Policy or Economic Considerations

- Unlike a commercial lender, the OFA can only lend to public bodies.

- Public bodies are defined in subsection 29(1) of the *Capital Investment Plan Act, 1993* and include scheduled Crown Agencies, colleges and universities, hospitals, municipalities and school boards and an entity included in regulations to the Act.

OFA Lending Policy Rule: Conditions Precedent

1. Prior to lending funds, the OFA will ensure that the borrower is a public body, has the authority to borrow and the Province has agreed to provide it with the requested financial support.

ADVANCES

Commercial Standard

- Loan advances over a number of months and years may be required to finance the development cost for a project. A loan agreement may provide for interest costs to be capitalized during a project development period followed by a term loan to take-out the total capitalized cost of the project. Alternatively, a single loan advance may be required to finance the acquisition of an asset.

- Where a commercial lender is making a secured project loan, it may seek evidence that loan advances are applied to legitimate project expenditures and that the total cost to complete the project have not increased. The lender would generally have the right to take significant action in the event that the borrower did not fulfill its loan obligations.

- Where a commercial lender is making an unsecured loan, such as a revolving line of credit, it is generally less interested in monitoring how the borrower is utilizing the funds because it expects the borrower to be able to repay the loan from its general revenues.

Provincial Public Policy or Economic Considerations

- Where the Province has used the OFA to provide financing to Crown Agents such as the Ontario Transportation Capital Corporation or the Metro Toronto Convention Centre for projects, the Province has continued to rely on the borrowing agency for overall project management. Because the borrowing agency is accountable to the Province, through its Board of Directors, for the prudent management of its expenditures the OFA is not required to monitor the application of funds.

- If the government directed the OFA to provide project financing to Other Public Bodies, it is expected that the OFA should manage such loans in the same manner as would a commercial lender. In this respect, the OFA would need to take adequate steps to ensure the funds were used for the intended purpose and that the project was well managed. The OFA does not currently have the expertise or human resources to provide project financing.

OFA Lending Policy Rule: Advances

1. For loans to Crown Agencies, the OFA will make advances as requested by the borrower pursuant to a loan agreement. The OFA will not monitor the application of funds by the Crown Agency.

2. For loans to Other Public Bodies, the OFA will seek evidence of project costs incurred and project cost to completion prior to making any advance in the same manner as a commercial lender except that, where the Province or one of its agents (ie. ORC) is the project manager, the OFA will make advances as authorized by the borrower and approved by the project manager.

REPAYMENTS

Commercial Standard

- A loan agreement may provide for the loan to be repaid: in a lump sum payment of principal and interest (ie. a zero coupon); on demand by the lender; in periodic payments of principal and interest (ie. an amortizing loan); in periodic payments of interest with bullet payments of interest (ie. a bullet bond or serial debenture): or repaid early by the borrower in whole or in part.

- In a secured loan, the term would generally not exceed the economic life of the asset being financed and may be significantly shorter.

- Some loans provide authority for the borrower to prepay all or a portion of the loan prior to maturity. Prepayment provisions can reduce the value of the loan to the lender because the borrower can, for example, prepay the loan when interest rates decline. A commercial lender would charge for such an option.

- Bank loans generally have a term of not longer than 7 years whereas debt issued in capital markets could have a term of up to 30 years or more.

OFA Lending Policy Rule: Repayments

1. OFA loans to Crown Agencies will have a term not longer than the economic life of the asset being financed and 30 years, whichever is less.

2. OFA loans to Other Public Bodies will have a term not longer than the least of: (a) the economic life of the asset being financed; (b) the term available to the borrower from commercial lenders or in the capital markets; and (c) 30 years.

3. All OFA loans will have a fixed repayment or review date (ie. subject only to early repayment where permitted).

INTEREST RATE

Commercial Standard

- The interest rate on a commercial loan is generally based on the credit worthiness of the borrower and interest rates available in the market.

Provincial Public Policy or Economic Considerations

- The OFA's current practice is to lend to public bodies at the Province's cost of funds, including commissions, plus 25 basis points. In most cases this results in a cost of funds to the public body substantially lower than bank funding.
    - For example, in a demand bank loan a public body would pay an interest rate of roughly 75 to 125 basis points above the Province's cost of funds (eg. Prime minus 50 bp compared to the yield on a 3 month Ontario Treasury-bill) even with an explicit Provincial guarantee.
- Over the past several decades the Office of the Treasury (ie. Predecessor to OFA corporate) has held the view that the Province should recover its full cost of debt service in respect of lending activities. If the lending rate is below the Province's cost of funds then the cost of debt service would be allocated to PDI expense instead of to the respective government program sponsoring the lending activity. The Office of the Treasury established the practice of adding 25 basis points to the Province's cost of funds (excluding commissions because it predated the Province's borrowing in capital markets), for lending activities to meet this objective. Under this policy the Province will continue to earn the same mark-up (ie. 25 basis points above the Province's cost of funds, including dealer commissions).
- The OFA could set the interest rate on loans to public bodies at the cost of funds to the public body without Provincial support (ie. Commercial interest rate).
    - For loans to Crown Agencies (ie. Related parties) there is no economic benefit to the Province for the OFA to charge a commercial rate of interest.

- While charging a commercial interest rate to Other Public Bodies (ie. Non-related parties) could provide an economic benefit to the Province, it would likely be inconsistent with the public policy rationale for providing Provincial financial support to the borrower (eg. would be contrary to the intent of reducing a public body's borrowing costs).

– Establishing a commercial rate of interest would result in additional credit assessment costs.

- The approved OFA accounting policy is to eliminate, from its audited financial statements, all lending transactions with public bodies in which the OFA acts as an intermediary for the Province. In order to be consistent with the OFA's accounting policy, the rate of interest on OFA loans due to the Province will match the rate of interest on its loans receivable from public bodies.

OFA Lending Policy Rule: Interest Rate

1. The interest rate on loans from the OFA will be equal to the Province's cost of funds, including commissions, for a borrowing of equivalent duration, plus 25 basis points.

2. Any options for the borrower to prepay the loan, in whole or in part, will be added to the interest rate cost of the loan.

3. The OFA will match the rate of interest on its loans due to the Province with the rate of interest on its loans receivable from public bodies.

LOAN SECURITY

Commercial Standard

- It is common for commercial lenders to seek security for a loan. Security may be in the form of bankers' acceptances, a mortgage, a lien on personal property. The costs associated with obtaining security for a loan, such as registering a mortgage, are generally paid for by the borrower.

- A loan agreement may include the requirement for the borrower to maintain certain performance financial ratios or debt reserves. In such cases, the lender needs to establish appropriate compliance controls and take action if the borrower does not comply.

Provincial Public Policy or Economic Considerations

- In some cases it is not clear that a lender could, in the event of a default, realize the security in a loan to certain public bodies. For example:

  - Under the *Municipal Act*, municipalities do not have the explicit authority to mortgage their real property.
  - Under the *Proceedings Against the Crown Act*, there may be restrictions on the ability of a lender to seize property belonging to a Crown Agency.

- The Province could seek an intercept of any Provincial grants payable to a public body as additional security for a loan. While there is no precedent for executing such an intercept, it is likely that considerable pressure would be exerted to prevent the Province from intercepting Provincial revenues. Alternatively, the Province could request that should the public body default on its loan the responsible Ministry would repay the loan from within its allocation.

- It is unlikely that the Province would benefit from the OFA seeking to enforce a security interest against another Crown Agency. If a Crown Agency defaulted on a loan from the OFA, the Province could resolve the matter.

OFA Lending Policy Rule: Loan Security

1. For loans to Crown Agencies, the OFA will lend on an unsecured basis, unless there is an economic benefit to the Province of the OFA obtaining loan security.

2. For loans to Other Public Bodies, the OFA will require the same level of loan security as would a commercial lender. This is a matter of judgement and will be evaluated on a case by case basis.

3. For loans to Other Public Bodies, the OFA will obtain an intercept of any Provincial grants or rebates receivable by the borrower as loan security, in addition to the security provided by rule 2.

Hi Malle, Lisa,

Pls. see attached. I haven't yet run this draft by Ron but spoke to him about the direction this afternoon.

Happy to organize a call first thing tomorrow. We are hoping to get it signed by Ron and Gadi tomorrow before Gadi leaves on his vacation.

I left out the second part of Malle's comment (the whereas one) as I wasn't sure how to do that.

Thanks,

John

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

OFA LENDING POLICY:
FOR OFA LENDING UNDERTAKEN as an INTERMEDIARY of the PROVINCE

SCOPE

- This policy addresses lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS and EXCEPTIONS

- Any amendment or exception to this policy must be approved by the OFA Board of Directors.

POLICY RULES

1. Role of OFA as a Lending Intermediary

a. The OFA will not lend funds to public bodies, other than as an intermediary of the Province, without the prior approval of the OFA Board.

b. The OFA will advance loans to Crown Agencies and Other Public Bodies where the Province supports the provision of Provincial financing and it is advantageous to the Province for the OFA to provide the loan.

c. The OFA will not receive a fee from the Province or earn a profit for lending activities where it is acting as an intermediary on behalf of the Province.

2. OFA Loan Approvals

a. The OFA shall annually approve a borrowing plan for the OFA that identifies:

(i) the OFA's borrowing requirements for the year from the Province and any other sources; and

(ii) the projects or purposes for which the borrowed funds will be used, including loans to public bodies for specific projects and contingencies.

b. Where Cabinet, Management Board of Cabinet or the Minister of Finance requests the OFA to advance a loan to a public body or authorizes the public body to borrow from the OFA, no further OFA Board approval is required.

c. Where the Province has approved the provision of Provincial financial support to a public body, but has not specifically referred to a role for the OFA, the OFA will advance the loan only where:

(i) either the Chief Executive Officer of the OFA and the Director of Corporate Finance or a committee of the OFA Board or the Board has authorized the OFA to advance the loan; and

(ii) there is a sufficient allocation for the loan (specifically or as a contingency allocation) in the annual borrowing plan for the OFA approved by the Board.

d. The Board will be advised, at its next regularly scheduled meeting, of any potential or actual deviations from the annual borrowing plan resulting from a loan referred to in paragraph 2(b).

3. OFA Loan Terms and Conditions

a. Where Cabinet, Management Board of Cabinet or the Minister of Finance has requested that the OFA advance a loan to a public body with specific terms or conditions, the OFA will comply.

b. Otherwise, the OFA will adhere to the lending terms and conditions outlined in the Appendix.

4. OFA Loan Reporting Requirements

a. A report outlining the status of all loans outstanding will be tabled with the OFA Board annually and at such other times as the OFA Board requests.

b. For each loan outstanding, such report will identify: the borrower; the authority under which the loan was advanced; the purpose of the loan; the current status of the loan; the principal amount outstanding; the major terms and conditions; and such other information as the OFA Board may request.

SCOPE

- These policies address lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province.

INTRODUCTION

- The OFA lending policies address the following matters related to loan terms and conditions:

  - conditions precedent
  - advances
  - repayments
  - interest rate
  - loan security

- Since these policies address lending activities undertaken where the OFA is acting as an intermediary on behalf of the Province, they are designed to be consistent with the public policy or economic rationale for the provision of Provincial financial support. In addition, they match commercial lending policies where that is advantageous to the Province.

OFA LOAN TERMS and CONDITIONS

a. Where Cabinet, Management Board of Cabinet or the Minister of Finance has requested that the OFA advance a loan to a public body with specific terms or conditions, the OFA will comply.

b. Otherwise, the OFA should adhere to the lending terms and conditions described in this Appendix.

CONDITIONS PRECEDENT

Commercial Standard

- Prior to making a loan, a commercial lender would ensure that the borrower had sufficient authority to execute the loan.

- Generally, an entity's authority to enter a loan may be determined by a review of its enabling legislation, by-laws and resolutions of its Board of Directors.

Provincial Public Policy or Economic Considerations

- Unlike a commercial lender, the OFA can only lend to public bodies.

- Public bodies are defined in subsection 29(1) of the *Capital Investment Plan Act, 1993* and include scheduled Crown Agencies, colleges and universities, hospitals, municipalities and school boards and an entity included in regulations to the Act.

OFA Lending Policy Rule: Conditions Precedent

1. Prior to lending funds, the OFA will ensure that the borrower is a public body, has the authority to borrow and the Province has agreed to provide it with the requested financial support.

ADVANCES

Commercial Standard

- Loan advances over a number of months and years may be required to finance the development cost for a project. A loan agreement may provide for interest costs to be capitalized during a project development period followed by a term loan to take-out the total capitalized cost of the project. Alternatively, a single loan advance may be required to finance the acquisition of an asset.

- Where a commercial lender is making a secured project loan, it may seek evidence that loan advances are applied to legitimate project expenditures and that the total cost to complete the project have not increased. The lender would generally have the right to take significant action in the event that the borrower did not fulfill its loan obligations.

- Where a commercial lender is making an unsecured loan, such as a revolving line of credit, it is generally less interested in monitoring how the borrower is utilizing the funds because it expects the borrower to be able to repay the loan from its general revenues.

Provincial Public Policy or Economic Considerations

- Where the Province has used the OFA to provide financing to Crown Agents such as the Ontario Transportation Capital Corporation or the Metro Toronto Convention Centre for projects, the Province has continued to rely on the borrowing agency for overall project management. Because the borrowing agency is accountable to the Province, through its Board of Directors, for the prudent management of its expenditures the OFA is not required to monitor the application of funds.

- If the government directed the OFA to provide project financing to Other Public Bodies, it is expected that the OFA should manage such loans in the same manner as would a commercial lender. In this respect, the OFA would need to take adequate steps to ensure the funds were used for the intended purpose and that the project was well managed. The OFA does not currently have the expertise or human resources to provide project financing.

OFA Lending Policy Rule: Advances

1. For loans to Crown Agencies, the OFA will make advances as requested by the borrower pursuant to a loan agreement. The OFA will not monitor the application of funds by the Crown Agency.

2. For loans to Other Public Bodies, the OFA will seek evidence of project costs incurred and project cost to completion prior to making any advance in the same manner as a commercial lender except that, where the Province or one of its agents (ie. ORC) is the project manager, the OFA will make advances as authorized by the borrower and approved by the project manager.

REPAYMENTS

Commercial Standard

- A loan agreement may provide for the loan to be repaid: in a lump sum payment of principal and interest (ie. a zero coupon); on demand by the lender; in periodic payments of principal and interest (ie. an amortizing loan); in periodic payments of interest with bullet payments of interest (ie. a bullet bond or serial debenture): or repaid early by the borrower in whole or in part.

- In a secured loan, the term would generally not exceed the economic life of the asset being financed and may be significantly shorter.

- Some loans provide authority for the borrower to prepay all or a portion of the loan prior to maturity. Prepayment provisions can reduce the value of the loan to the lender because the borrower can, for example, prepay the loan when interest rates decline. A commercial lender would charge for such an option.

- Bank loans generally have a term of not longer than 7 years whereas debt issued in capital markets could have a term of up to 30 years or more.

OFA Lending Policy Rule: Repayments

1. OFA loans to Crown Agencies will have a term not longer than the economic life of the asset being financed and 30 years, whichever is less.

2. OFA loans to Other Public Bodies will have a term not longer than the least of: (a) the economic life of the asset being financed; (b) the term available to the borrower from commercial lenders or in the capital markets; and (c) 30 years.

3. All OFA loans will have a fixed repayment or review date (ie. subject only to early repayment where permitted).

INTEREST RATE

Commercial Standard

- The interest rate on a commercial loan is generally based on the credit worthiness of the borrower and interest rates available in the market.

Provincial Public Policy or Economic Considerations

- The OFA's current practice is to lend to public bodies at the Province's cost of funds, including commissions, plus 25 basis points. In most cases this results in a cost of funds to the public body substantially lower than bank funding.
    - For example, in a demand bank loan a public body would pay an interest rate of roughly 75 to 125 basis points above the Province's cost of funds (eg. Prime minus 50 bp compared to the yield on a 3 month Ontario Treasury-bill) even with an explicit Provincial guarantee.
- Over the past several decades the Office of the Treasury (ie. Predecessor to OFA corporate) has held the view that the Province should recover its full cost of debt service in respect of lending activities. If the lending rate is below the Province's cost of funds then the cost of debt service would be allocated to PDI expense instead of to the respective government program sponsoring the lending activity. The Office of the Treasury established the practice of adding 25 basis points to the Province's cost of funds (excluding commissions because it predated the Province's borrowing in capital markets), for lending activities to meet this objective. Under this policy the Province will continue to earn the same mark-up (ie. 25 basis points above the Province's cost of funds, including dealer commissions).
- The OFA could set the interest rate on loans to public bodies at the cost of funds to the public body without Provincial support (ie. Commercial interest rate).
    - For loans to Crown Agencies (ie. Related parties) there is no economic benefit to the Province for the OFA to charge a commercial rate of interest.

- While charging a commercial interest rate to Other Public Bodies (ie. Non-related parties) could provide an economic benefit to the Province, it would likely be inconsistent with the public policy rationale for providing Provincial financial support to the borrower (eg. would be contrary to the intent of reducing a public body's borrowing costs).

– Establishing a commercial rate of interest would result in additional credit assessment costs.

- The approved OFA accounting policy is to eliminate, from its audited financial statements, all lending transactions with public bodies in which the OFA acts as an intermediary for the Province. In order to be consistent with the OFA's accounting policy, the rate of interest on OFA loans due to the Province will match the rate of interest on its loans receivable from public bodies.

OFA Lending Policy Rule: Interest Rate

1. The interest rate on loans from the OFA will be equal to the Province's cost of funds, including commissions, for a borrowing of equivalent duration, plus 25 basis points.

2. Any options for the borrower to prepay the loan, in whole or in part, will be added to the interest rate cost of the loan.

3. The OFA will match the rate of interest on its loans due to the Province with the rate of interest on its loans receivable from public bodies.

LOAN SECURITY

Commercial Standard

- It is common for commercial lenders to seek security for a loan. Security may be in the form of bankers' acceptances, a mortgage, a lien on personal property. The costs associated with obtaining security for a loan, such as registering a mortgage, are generally paid for by the borrower.

- A loan agreement may include the requirement for the borrower to maintain certain performance financial ratios or debt reserves. In such cases, the lender needs to establish appropriate compliance controls and take action if the borrower does not comply.

Provincial Public Policy or Economic Considerations

- In some cases it is not clear that a lender could, in the event of a default, realize the security in a loan to certain public bodies. For example:

  - Under the *Municipal Act*, municipalities do not have the explicit authority to mortgage their real property.
  - Under the *Proceedings Against the Crown Act*, there may be restrictions on the ability of a lender to seize property belonging to a Crown Agency.

- The Province could seek an intercept of any Provincial grants payable to a public body as additional security for a loan. While there is no precedent for executing such an intercept, it is likely that considerable pressure would be exerted to prevent the Province from intercepting Provincial revenues. Alternatively, the Province could request that should the public body default on its loan the responsible Ministry would repay the loan from within its allocation.

- It is unlikely that the Province would benefit from the OFA seeking to enforce a security interest against another Crown Agency. If a Crown Agency defaulted on a loan from the OFA, the Province could resolve the matter.

OFA Lending Policy Rule: Loan Security

1. For loans to Crown Agencies, the OFA will lend on an unsecured basis, unless there is an economic benefit to the Province of the OFA obtaining loan security.

2. For loans to Other Public Bodies, the OFA will require the same level of loan security as would a commercial lender. This is a matter of judgement and will be evaluated on a case by case basis.

3. For loans to Other Public Bodies, the OFA will obtain an intercept of any Provincial grants or rebates receivable by the borrower as loan security, in addition to the security provided by rule 2.

Kelly – As per your instructions I will comment only on the proposed amendment to section 5 of Amending Agreement No. 3.

Assuming that the SPV would qualify as a Material Subsidiary under the Credit Facility, the significant legal impact of the proposed amendment with respect to carving out the SPV from the definition of Subsidiary is with respect to how Events of Default and related remedies are determined under the Credit Facility and in particular with respect to Section 5.1(g). The cross-default provisions in any credit facility are designed to preserve a creditor's rights/value at the earliest possible point that the borrower becomes financially unsound across any of its business lines or becomes unable to meet its other debt obligations.

With the proposed amendment, the financial health/solvency of the SPV would not be a factor in triggering an Event of Default under the Credit Facility, even if the SPV becomes insolvent. I am not aware of the structure and funding of the SPV and whether or not OPG has any responsibilities/obligations in this regard, but if funding the SPV could be deemed "Other General Corporate Requirements" under the Credit Facility, then it is possible the Credit Facility could be used to continue to fund an entity that is otherwise insolvent and would otherwise have triggered an Event of Default. OFA would have no lens into the solvency status of the SPV as a result of this structure.

Provided the respective business advisors on this matter understand the implications of this carve out for the administration of the loan, and have considered the related risks given their knowledge of the structure and purpose of the SPV and its relationship to OPG, I have no further comments.

Hi Sarah – the only new item to review is the addition of the subsidiary exclusion – everything else has been reviewed and agreed on by Lisa, Linda and myself. So you know, both Linda and John Kim's group are fine with excluding the Special Purpose Vehicle from the definition of subsidiary. The OFA, OPG and MOE have been working on the structure of the electricity rate reduction program for some time now.

Hi Lisa/ Sarah

So there is yet another twist to this. OPG has requested a new item be added to clarify the definition of "subsidiary" to **exclude** any financing entity related to the Ontario Fair Hydro Plan Act. The OFA has been involved in the developments related to this Act and both Linda and John Kim's group are fine with this and are comfortable with OPG's wording, as am I. I have added what they sent to the amendment for your review (item #5).

Also attached is the original agreement for ease of reference.

Thanks, Will.

Some parts of the agreement have references to the numbers such as "million" vs "000,000", and there is a reference to CDN on one principal amount and not the others. (For example "**AND WHEREAS** the IESO and the OFA have now agreed to decrease the total principal amount of the operating facility from CDN $975,000,000 to a principal amount of up to $475 million). For consistency, could please streamline the referencing, as appropriate. You'll want to look at the relevant sections of the agreements to see if there is a preferred format.

In Section 2, the principal amount of $475,000 needs to have the 3 zeroes added at the end.

Once you've finished, please send the revised note to Lisa again and copy me. We want to get this out to Anthony today.

Thanks,

Sarah

Hi Sarah,

Please find the revised Amending Agreement 10. According to Risa, if there are no new requests for advancements the balance is the same as the two grid notes sent to Olga. I asked who would cross out and initial the incorrect $975,000,000 Loan Limit and she offered to create a new grid not correcting this. She says a correction will take very little time.

I suspect Anthony of IESO can provide with the as-of-date to include in the Amending Agreement.

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Subject: Re: IESO : OFA new FH credit facility

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Subject: OFA Credit Facility to IESO - reduction from $975-$475
Date: Tuesday, July 18, 2017 09:37:24
Attachment 1: RE: IESO : OFA new FH credit facility

Hi Toby,

Hope you are having a good summer. Lisa is away and I am trying to move the IESO credit facility agreements forward in her absence. I understand that you have been involved in the new $2 billion line to fund the FHP. We are expecting feedback from IESO on that agreement in the next week or so, but in the meantime an issue has come up in respect of the "use of proceeds" under the other credit facility (the one being reduced to $475).

IESO has requested that the "use of proceeds" clauses in the Credit Facility be amended to simply permit borrowing for any purpose authorized by the Regulation. The IESO is currently using this line to fund FHP (which is permitted). In my view this would still be permitted under the reduced line even without the proposed change to the use of proceeds.

I am forwarding you an e-mail (attached) which includes what the ask is, the language in the current use of proceeds section, what the Regulation says and what the act permits. I am also forwarding (below in this e-mail) Sarah Harris' good summary of where all the loose ends have been tied up or remain loose. I realize you did not advise on this aspect of the FHP financing but I thought it might be prudent for you to be aware of this dynamic in the context of the $2billion line, in the event that what is being proposed is somehow problematic or inconsistent with what was envisioned/approved. I don't expect so, but want to make sure we are covering the basis.

Please let us know if you have any concerns or issues we should be aware of.

Thanks very much,

Sarah

Subject: RE: IESO Directives

Hi Sarah (N) and Will,

I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.

From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.

2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing facility, nor was any direction given on this matter.

If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.

I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,

Sarah H

Hello William and Gavin:

For the purposes of coming to a decision on the question of the use of proceeds, I thought it might be helpful to consolidate all the different moving parts into one document.

Current Use of Proceeds under the Credit Facility (as amended on December 19, 2014 by Amendment No. 8):

Section 1 was amended to add the following definition of "Regulation" means O. Reg. 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

2.3 Use of Proceeds:

Up to the effective time of Amalgamation, the OPA shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, subject to the following conditions:

(1) effective as of December 31,2013, the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by the Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation; and (b) the following conditions will apply:

(1) the proceeds of the Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Proposed Change to Section 2.3 Requested by the IESO

The IESO has requested that the above be deleted in its entirety and replaced with the following:

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

Comments:

(1) The "Pre-Amalgamation" structuring language is removed. Are there any implications arising from this related to existing loans?

(2) The "Post-Amalgamation" structuring which tied borrowing to the purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation has also been removed along with the additional conditions set out sub-paragraphs (1) and (2). Does this cause any concern in respect of how the Credit Facility operates?;

(3) The reference to the Regulation can be abbreviated to simply "Regulation" given the addition of the defined term in Amending Agreement No. 8

(4) I note that the condition in sub(2) is phrased not as an obligation but an "expectation". It appears to have an intended purpose of restraining the renewal of certain advances beyond 12months. I do not know the rationale for its inclusion (this language was added in Amending Agreement 8). The Regulation and the Act, at least as they apply now, do not appear to require this (see below). I also note it is not drafted as an enforceable restriction or constraint in other relevant sections of the Agreement (as amended) e.g. in Section 3.3 which details the requirements for "Elections Regarding Advances" or in the Borrowing Notice, and there is no required related disclosure in respect of the Borrowing Notice for Renewed Advances. Is this possibly a requirement in the SIPP or the Minister's Directive, if there is one? I note that our file contains drafts of a reduction specific Minister's Directive which includes the following rationale for the reduction in the Credit Facility: "The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017"* but this language is flagged as requiring confirmation and I have no final version of the directive in the file, was this abandoned?

I note that the letter from the IESO to Gadi, requesting the $2 billion line, notes that the $975 credit facility is currently being used but the separate line is being requested for the following reason: "The IESO proposes that a separate and additional credit facility be provided by either the OFA or [the OEFC] to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking" and goes on to state "The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP". If there is concern about adopting the IESO's broad use of proceeds language that it will continue to borrow for FHP once the FHP agreement is in place, is one option to replicated the Pre- and Post- Amalgamation structure in Amending Agreement 8, allowing the line to be used until the FHP Credit Facility is not place but not after? This would not impact on timing of the agreements and would provide for the transition.

Regulation 280

Subject: FW: IESO : OFA new FH credit facility

Hello Gavin,

The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.

I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was

important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Subject: OFA Credit Facility to IESO - reduction from $975-$475
Date: Tuesday, July 18, 2017 09:37:24
Attachment 1: RE: IESO : OFA new FH credit facility

Hi Toby,

Hope you are having a good summer. Lisa is away and I am trying to move the IESO credit facility agreements forward in her absence. I understand that you have been involved in the new $2 billion line to fund the FHP. We are expecting feedback from IESO on that agreement in the next week or so, but in the meantime an issue has come up in respect of the "use of proceeds" under the other credit facility (the one being reduced to $475).

IESO has requested that the "use of proceeds" clauses in the Credit Facility be amended to simply permit borrowing for any purpose authorized by the Regulation. The IESO is currently using this line to fund FHP (which is permitted). In my view this would still be permitted under the reduced line even without the proposed change to the use of proceeds.

I am forwarding you an e-mail (attached) which includes what the ask is, the language in the current use of proceeds section, what the Regulation says and what the act permits. I am also forwarding (below in this e-mail) Sarah Harris' good summary of where all the loose ends have been tied up or remain loose. I realize you did not advise on this aspect of the FHP financing but I thought it might be prudent for you to be aware of this dynamic in the context of the $2billion line, in the event that what is being proposed is somehow problematic or inconsistent with what was envisioned/approved. I don't expect so, but want to make sure we are covering the basis.

Please let us know if you have any concerns or issues we should be aware of.

Thanks very much,

Sarah

Subject: RE: IESO Directives

Hi Sarah (N) and Will,

I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.

From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.

2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing facility, nor was any direction given on this matter.

   If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.

   I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,
Sarah H

Hello William and Gavin:

For the purposes of coming to a decision on the question of the use of proceeds, I thought it might be helpful to consolidate all the different moving parts into one document.

Current Use of Proceeds under the Credit Facility (as amended on December 19, 2014 by Amendment No. 8):

Section 1 was amended to add the following definition of "Regulation" means O. Reg. 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

2.3 Use of Proceeds:

Up to the effective time of Amalgamation, the OPA shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, subject to the following conditions:

(1) effective as of December 31,2013, the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by the Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation; and (b) the following conditions will apply:

(1) the proceeds of the Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and
(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Proposed Change to Section 2.3 Requested by the IESO

The IESO has requested that the above be deleted in its entirety and replaced with the following:

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

Comments:

(1) The "Pre-Amalgamation" structuring language is removed. Are there any implications arising from this related to existing loans?

(2) The "Post-Amalgamation" structuring which tied borrowing to the purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation has also been removed along with the additional conditions set out sub-paragraphs (1) and (2). Does this cause any concern in respect of how the Credit Facility operates?;

(3) The reference to the Regulation can be abbreviated to simply "Regulation" given the addition of the defined term in Amending Agreement No. 8

(4) I note that the condition in sub(2) is phrased not as an obligation but an "expectation". It appears to have an intended purpose of restraining the renewal of certain advances beyond 12months. I do not know the rationale for its inclusion (this language was added in Amending Agreement 8). The Regulation and the Act, at least as they apply now, do not appear to require this (see below). I also note it is not drafted as an enforceable restriction or constraint in other relevant sections of the Agreement (as amended) e.g. in Section 3.3 which details the requirements for "Elections Regarding Advances" or in the Borrowing Notice, and there is no required related disclosure in respect of the Borrowing Notice for Renewed Advances. Is this possibly a requirement in the SIPP or the Minister's Directive, if there is one? I note that our file contains drafts of a reduction specific Minister's Directive which includes the following rationale for the reduction in the Credit Facility: "The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017"* but this language is flagged as requiring confirmation and I have no final version of the directive in the file, was this abandoned?

I note that the letter from the IESO to Gadi, requesting the $2 billion line, notes that the $975 credit facility is currently being used but the separate line is being requested for the following reason: "The IESO proposes that a separate and additional credit facility be provided by either the OFA or [the OEFC] to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking" and goes on to state "The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP". If there is concern about adopting the IESO's broad use of proceeds language that it will continue to borrow for FHP once the FHP agreement is in place, is one option to replicated the Pre- and Post- Amalgamation structure in Amending Agreement 8, allowing the line to be used until the FHP Credit Facility is not place but not after? This would not impact on timing of the agreements and would provide for the transition.

Regulation 280

Hello Gavin,

The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.

I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,

Will

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was

important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help
Bruno

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,
JF

Per Victor's previous email:

The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.

Subject: RE: FHP credit facility agreement - further amendments

Hi Lisa – regarding the subcategories of borrowing purposes which we have previously listed in borrowing notices, we would prefer to continue with the current practice of listing the subcategory of purpose directly in the borrowing notice rather than enshrining a potentially overly-restrictive list of sub-categories directly in the body of the Agreement. The Agreement already contains a broad restriction as to permitted purposes in s.2.2 – namely borrowing must be related to OFHP – and adding a closed and enumerated list of sub-categories of purposes could create problems down the road.

The concern is that there may over the course of the OFHP be a number of borrowing sub-categories other than RRRP and RPP. RPP will make up the vast majority of all such borrowing, and RRRP borrowing will be the next largest borrowing sub-category – though even at that, it will constitute only a very small portion of total borrowing. Then there may be other and very occasional OFHP-related borrowing that, in terms of percentage of total borrowings is expected to be miniscule, but will still fall under the broad OFHP purpose (e.g. FN Delivery Credit, etc).

We intend to continue to list the different sub-categories of borrowing (RPP etc) in each borrowing notice for internal tracking reasons, etc. In addition our practice has been to issue different borrowing notices for different subcategories of borrowing, and this will also continue. So would it not be sufficient if we just continue with current practice – or maybe just add a note to the Form of Borrowing Notice as a reminder to specify any sub-categories of OFHP-related borrowing purposes ?

After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.

Thank you,

Lisa

Hi Will,

This timeline is something you drafted/designed internally and neither the OFA nor IESO are bound by it.

If it is helpful to you to keep track of your 'target deadline', that is fine, but it does not need to be circulated to OFA Legal as a result of IESO being 'one day late' based on your estimate completion date. This ties into my previous message about sending a large volume of emails.

Victor actually mentioned at the end of the call yesterday that he understands we want this done quickly and Sarah Neville replied that this is a top priority for everyone, so I think all parties clearly understand the importance of this file.

Thanks again,
JF

"Dear Anthony and Victor,
My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While constructing the new credit facility we became aware of a requirement under the OFA's Lending Policy which requires an acknowledgement by IESO in the new credit facility agreement. This acknowledgement would not be required in the new credit facility agreement if an additional minister directive is obtained by the OFA.
I also want to make you aware that due to the internal process that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the particulars.
Best regards,"

Hello Sarah,

I am concurrently reviewing the FHP Credit Facility. Below is the draft email for Anthony and the general message to Anthony and Victor when we/I speak with them on the phone. I took parts of your email and parts of Lisa's email. Please review and comment.

"Dear Anthony,
My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement.
OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by OFA to public bodies, unless otherwise directed. As such, no further directly/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. We are now in the process of obtaining an exception through the Minister of Finance in the form of an internal directive.
I also want to make you aware that due to the internal process that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Hi Lisa,

Further to our call yesterday, we are fine retracting the comment about the criminal rate of interest and maintaining this language. Also, the intention is not to secure the $2 billion revolving credit facility agreement against any IESO assets but I think it would be helpful to confirming this with Victor just to be sure. We reviewed sections 3.3(5) and 4.6 again and do not believe IESO would be offside so long as this revolving credit facility agreement was treated equally with all other unsubordinated obligations. As we are not aware which IESO liabilities may be secured against assets and who may have a priority claim against these assets, we think the language should remain as is. What we do know is that only that certain types of liens will be permitted under this agreement. The language we commonly use for the Province to describe this type of debt is: "direct, unsecured, unsubordinated obligations".

Happy to discuss further and we will make the changes to the form of notices once we received your revised draft.

Best regards,

JF

We do not have the exact definitions of RRRP and RPP as they relate to the FHP and it is our position that IESO may be in a better position to define these. Opal and I discussed this yesterday and felt that the references to RRRP and RPP should be included in the form of notices seeing how we already account for these separately for interest tracking purposes under the existing $975M agreement.

Hi Lisa,
One additional important comment we have is that we believe we should consider incorporating language to distinguish between the “Rural or Remote Electricity Rate Protection (RRRP) variance” and the “Regulated Price Plan (RPP) variance” since we noted that on the last two Election Notices provided to the OFA on July 19, 2017, IESO made this distinction. Furthermore, the advances related to RRRP and RPP are tracked separately in the OFA’s loan system (OLMS), so the new Revolving Credit Facility Agreement should probably include such definitions and placeholders in the form of borrowing and election notices and possibly also the grid note itself.
Happy to discuss further.
Many thanks,
Jean-Francois

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. (2) For the purposes of disclosure pursuant to the *Interest Act*~~Interest Act~~ (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the ~~Criminal Code~~*Criminal Code* (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5~~7~~ days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance~~,~~; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5~~7~~ days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance; and (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5~~7~~ days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(5) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated Indebtedness of the IESO, subject to the existence of (i) any Permitted Liens of the IESO, and (ii) any other Liens that secure Indebtedness in accordance with Section 4.6 hereof.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right of~~or~~ set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

The obligation of the IESO to make the Advances pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what

is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably

cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Commented [WT4]: We query whether section (k) is necessary since we consider that section (j) "any other Liens" may already capture this. We defer to OFA Legal on this matter.

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably

cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,

Victor

Formatted: No bullets or numbering

Formatted: Indent: First line: 0.5"

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. (2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding in the next calendar year and the denominator of which is the actual number of days in such period.

~~**Section 2.8 Limit on Rate of Interest.**~~

~~(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).~~

~~(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.~~

Commented [WT6]: We no longer include this language in in any of our debt documentation and query whether it is necessary.

Section 2.8~~9~~ Application of Payments.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Commented [WT7]: Changed for consistency. In italics in Schedule 3.

Formatted: Font: Italic

Section 3.3 Elections Regarding Advances.

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

(6) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note- in respect of Advances held by it.

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

Hi JF,
Please find the attached FHP Credit Facility.
At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.
Thanks,

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be prima facie evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance; and (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(6) All amounts owing in respect of the Advances shall be paid without exercising any right of~~or~~ set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [WT8]: Agreed

Commented [WT9]: Should this be "or"?

Commented [WT10]: JF,

Other agreements reference "Province". I don't have strong feelings about this.

Section 3.5 Conditions Precedent

The obligation of the IESO to make the Advances pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

ARTICLE 4
COVENANTS OF THE IESO

Section 4.1 Payment of Advances.

The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

judgment of the IESO or any such Material Subsidiary, desirable in the conduct of its business or the business of any such Material Subsidiary, or has been directly or indirectly requested or required by the Province of Ontario.

Section 4.4 Insurance.

The IESO will cause all property owned by the IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the mature and to the extent that such property is usually insured by companies operating similar businesses.

The IESO will, and will cause the Subsidiaries to, carry on and conduct their respective businesses in a proper, efficient and business-like manner and in accordance with good business practice.

Section 4.6 Negative Pledge.

The IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of the IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) the creation, incurrence or assumption of any Purchase Money Mortgage;

(b) the grant of any Lien in the normal course of business to any banks or financial institutions for present or future Iindebtedness of the IESO or any Material Subsidiary to such banks or financial institutions payable on demand or having an original term to maturity less than 18 months;

(c) Permitted Liens;

(e) any Lien charging the interest of the IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c), provided that, at the time such Lien is created, incurred or assumed, the principal amount

In addition to any liability of the IESO to the OFA under any other provision of this Agreement, the IESO will, on demand, reimburse and indemnify OFA for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OFA in connection with the Services (including those incurred in the preservation of rights under or enforcement of this Agreement at any time during the continuance of a default or Event of Default and for any reasonable loss or expense incurred by OFA as a result of any failure by the IESO to fulfill any of its obligations under this Agreement). The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Commented [WT11]: Other agreements use "Province". I don't have a strong opinion in regarding which to use.

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 4.9 Late Repayment of Advance.

In the event that the IESO fails to repay the principal amount of any Advance and all interest accrued thereon when due, the IESO shall pay interest on the unpaid amount of such Advance at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment.

Hi JF,
Please find the attached FHP Credit Facility.
At the beginning I accepted some of the obvious changes. Then realized it's difficult to share as a team if without the tracked changes.
As a result, any changes I intend to accept I have left alone and did not comment on. I hope this makes sense. Any potential issues, I have highlighted as a comment.
Thanks,
Will

Subject: RE: FHP Credit Facility Agreement

Hi Will. Attached you will find IESO's mark-up of the FHP Credit Facility Agreement. Most of the changes are self-explanatory, but it may be helpful if I provide a few words of explanation about the more substantive changes:

1. We added paragraph (k) to the definition of "Permitted Liens" to address the possibility that the Clean Energy Adjustment funds collected by IESO might be considered to be subject to a lien, and we did not want to be inadvertently in default. (Please note that, assuming this addition to the definition of "Permitted Liens" is acceptable, the same or similar language should also be added to the definition of Permitted Liens in Amending Agreement #10 to the existing OFA line of credit that we discussed yesterday.)
2. We amended Section 2.2 Use of Proceeds as shown in the draft because: (i) there is a possibility that the funding provided under the FHP Credit Agreement may accumulate and be outstanding for an extended period of time (i.e. in excess of 12 months); and (ii) the use of the terminology "cash flow timing differences" does not seem appropriate given its implication of a shorter-term funding requirement (something on the order of month-to-month), taking into account all of the obligations of IESO under the FHP.
3. We amended the exceptions to the *pari passu* requirement under Section 3.3(5) to avoid a conflict with the different list of exceptions in s.4.6, the negative pledge. An alternative, and arguably cleaner, way of avoiding the conflict between s.3.3(5) and s.4.6 would be to delete the *pari passu* requirement in s.3.3(5) altogether, since the negative pledge in s.4.6 already contains more tailored language that performs essentially the same function.

In addition to the above changes marked-up directly on the document, in general with respect to all revolving lines, it seems that the definition of "Advances" should probably also include Continued Advances where an Election Notice is used (though I didn't make any changes to reflect this). I say this because Advances can become Continued Advances through an initial Election Notice, and then those Continued Advances can be continued again as further Continued Advances, and so on. In other words, the practice and intent of IESO and OFA has been and continues to be that an original Advance can be Continued (rolled-over) many times but, unless I am missing something, the language and definitions do not quite capture that intent. It might be easier if I were to discuss what is essentially a drafting point with your Legal Counsel assigned to this – as I say, it's entirely possible that I am simply missing something here.

I didn't know who would be reviewing this from your Legal group, so did not copy anyone else at OFA – I will rely on you to forward it as required.

Regards,
Victor
