2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,

Victor

Subject: RE: IESO : OFA new FH credit facility

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

By the way, Salman Qadir whom you may have dealt with previously just became a father and is on paternity leave.

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

Formatted: Font: Bold

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and ~~"), the OFA and OPA or IESO (as applicable) amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~ , which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40.~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

SCHEDULE ~~3~~1 TO AMENDING AGREEMENT NO. 10

~~SCHEDULE 3~~EXECUTED GRIDNOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

By the way, Salman Qadir whom you may have dealt with previously just became a father and is on paternity leave.

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

Formatted: Font: Bold

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and ~~"), the OFA and OPA or IESO (as applicable) amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~ , which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40.~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A1]: This is correct as of July 4 2017. Likely to change by mid-July.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will

Subject: RE: IESO : OFA new FH credit facility

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.

The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.
Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.
Regards

Hi Will,

We never discussed with Anthony; it was an offline part of the conversation to which Anthony was not privy. When you sent your draft responses to me, I specifically noted, "*…however, you can't send Anthony the following phrase: " In the unlikely event, IESO IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million." That is our internal back up and he would not be aware of it. In the event we see IESO heading in the direction of exceeding $475M, then we bring it up*."

This was not to be brought up with IESO until such possible time that IESO risked breaching the $475 million mark. Anthony indicated in the call that there was the other TD line of credit that they could use if funding needs started reaching the $475 million mark. Anthony, however, didn't 'guarantee' that would happen in the event the their funding needs exceeded $475M before the other facility was signed (as mentioned in his follow-up e-mail, which was what we were to confirm i.e. that Anthony had agreed to use the TD line). As part of our internal OFA contingency, we agreed that if we saw IESO heading in that direction, we could decrease the size $2B FHP facility to ensure the total borrowing didn't exceed $2.475B at any time.

We worked out an understanding on the phone re: 1) executing the amending agreement 1st to reduce the existing $975M credit facility to by $500M to $475 as quickly as possible first, before the new $2B FHP facility (that was because IESO's legal was bogged down and couldn't do both quickly) and 2) that IESO had a TD line of Credit that IESO could tap to bridge a funding gap if IESO saw itself exceeding the $475 million prior to the new $2B facility being signed. Given this understanding, from a relationship aspect with IESO, we don't pull out the 'big guns' (i.e. changing the proposed framework of the credit facilities), without first giving them the chance to live up to their agreed commitments.

Bear in mind that this is a high profile facility and you're not the only OFA employee having conversations with IESO. By introducing this surprise element to Anthony, he may start checking internally at IESO about the origins of this proposal, and this may be brought up to higher levels of the OFA through different channels. Had we kept this contingency internally, we could have briefed all parties in the OFA (up to and including our CEO), so that they would be aware of any developments and there would be no surprises.

I will e-mail Anthony to provide some context, and to clarify the nature of the e-mail that you sent to him.

Sarah

Hi Will,

Please see below my changes.

You'll have to further change the first paragraph in 1., since IESO sent the comments on the amending agreement on Friday. Remember that #1 should only be circulated internally.

You'll be unable to send the #2 proposed e-mail, because IESO has also sent back the draft. You may be able to incorporate it into that information in your response to IESO when you provide our comments on the amending agreement, however, you can't send Anthony the following phrase: " In the unlikely event, IESO IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million." That is our internal back up and he would not be aware of it. In the event we see IESO heading in the direction of exceeding $475M, then we bring it up.

Thanks,
Sarah

Subject: IESO OFA OFHP Credit Facility - meeting with Anthony Martinello

Hello Sarah,

I have cleaned up some of the language recording the meeting with Anthony and the solutions agreed upon. I hope this suits you.

Thanks,

Will

1.
Hello all,

IESO has not completed its review of the documents relating to the new OFHP Credit Facility Agreement and Amending Agreement 10 (existing IESO OFA Credit Facility) by July 1. As a result, the new and existing credit facilities will not be in place in time of the targeted set-up date of July 1. According to

Anthony Martinello of IESO, their legal department has a number of competing issues and limited resources. Anthony, estimated that the Amending Agreement 10, would be completed mid-July and new credit facility would be completed by the end of July. IESO is currently drawing on the existing credit facility categorized as Regulated Price Plan (RPP) under the FHP related financing and does not plan to exceed $475 million.

IESO's request for a new FHP $2 billion Credit Facility was predicated on the reduction of the existing credit facility by $500 million dollars. This ~~term~~ information was included in the briefing ~~note~~ material ~~and~~ for the approval of the lending directive [and/or OIC?] [NTD: the information wasn't in the directive. Please confirm if it was Directive or OIC: I don't remember which one off hand] to assist the Ministry of Finance in its decision to approve the [order in council and directive NTD: confirm per previous comment] for the new $2B FHP Credit Facility. Accordingly, the total credit limit to be available under the combined facilities would be a total $2.475 billion ~~credit facility limit~~.

In order to ~~operate~~ proceed in a manner consistent with the FHP loan framework ~~approved~~ presented to ~~by~~ the Minister of Finance (i.e. an existing credit facility reduced to $475M plus a new $2B FHP credit facility, with a combined limit of $2.475 B) , IESO and OFA agreed that we will reduce the existing credit facility from $975 million down to $475 million before completing the new $2 billion credit facility. ~~This approach avoids violating the terms at which the OIC and lending was approved while facilitating each part of the process.~~

Reducing the $975M credit facility first mitigates~~, approach is based on~~ the ~~remote~~ possibility of IESO exceeding~~s~~ the $475 million ~~credit facility~~ revised borrowing limit requested by IESO on the existing credit facility, and ensures that the total $2.475B 'borrowing limit' for FHP purposes is not exceeded. Anthony has also noted that IESO has an existing credit facility with TD Bank. In the unlikely event of IESO exceeding borrowing requirements of $475 million between now and execution of the of the amending agreement , IESO indicated they would use their other credit facility at TD Bank instead to bridge the funding gap until such time as the new $2 billion credit facility is in place. It was also internally agreed that that in the event IESO does ~~Also, any amount~~ exceed~~ing~~ $475 million before the existing credit facility is reduced, the remedy ~~result~~ would be to reduce the $2 billion credit facility by the same amount.

Best regards,

Will

You'll have to further change the first paragraph in 1., since IESO sent the comments on the amending agreement on Friday. Remember that #1 should only be circulated internally.

You'll be unable to send the #2 proposed e-mail, because IESO has also sent back the draft. You may be able to incorporate it into that information in your response to IESO when you provide our comments on the amending agreement, however, you can't send Anthony the following phrase: " In the unlikely event, IESO IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million." That is our internal back up and he would not be aware of it. In the event we see IESO heading in the direction of exceeding $475M, then we bring it up.

Thanks,
Sarah

Subject: IESO OFA OFHP Credit Facility - meeting with Anthony Martinello

Hello Sarah,

I have cleaned up some of the language recording the meeting with Anthony and the solutions agreed upon. I hope this suits you.

Thanks,

Will

1.
Hello all,

IESO has not completed its review of the documents relating to the new OFHP Credit Facility Agreement and Amending Agreement 10 (existing IESO OFA Credit Facility) by July 1. As a result, the new and existing credit facilities will not be in place in time of the targeted set-up date of July 1. According to

Anthony Martinello of IESO, their legal department has a number of competing issues and limited resources. Anthony, estimated that the Amending Agreement 10, would be completed mid-July and new credit facility would be completed by the end of July. IESO is currently drawing on the existing credit facility categorized as Regulated Price Plan (RPP) under the FHP related financing and does not plan to exceed $475 million.

IESO's request for a new FHP $2 billion Credit Facility was predicated on the reduction of the existing credit facility by $500 million dollars. This ~~term~~ information was included in the briefing ~~note~~ material ~~and~~ for the approval of the lending directive [and/or OIC?] [NTD: the information wasn't in the directive. Please confirm if it was Directive or OIC: I don't remember which one off hand] to assist the Ministry of Finance in its decision to approve the [order in council and directive NTD: confirm per previous comment] for the new $2B FHP Credit Facility. Accordingly, the total credit limit to be available under the combined facilities would be a total $2.475 billion ~~credit facility limit~~.

In order to ~~operate~~ proceed in a manner consistent with the FHP loan framework ~~approved~~ presented to ~~by~~ the Minister of Finance (i.e. an existing credit facility reduced to $475M plus a new $2B FHP credit facility, with a combined limit of $2.475 B) , IESO and OFA agreed that we will reduce the existing credit facility from $975 million down to $475 million before completing the new $2 billion credit facility. ~~This approach avoids violating the terms at which the OIC and lending was approved while facilitating each part of the process.~~

Reducing the $975M credit facility first mitigates~~, approach is based on~~ the ~~remote~~ possibility of IESO exceeding~~s~~ the $475 million ~~credit facility~~ revised borrowing limit requested by IESO on the existing credit facility, and ensures that the total $2.475B 'borrowing limit' for FHP purposes is not exceeded. Anthony has also noted that IESO has an existing credit facility with TD Bank. In the unlikely event of IESO exceeding borrowing requirements of $475 million between now and execution of the of the amending agreement , IESO indicated they would use their other credit facility at TD Bank instead to bridge the funding gap until such time as the new $2 billion credit facility is in place. It was also internally agreed that that in the event IESO does ~~Also, any amount~~ exceed~~ing~~ $475 million before the existing credit facility is reduced, the remedy ~~result~~ would be to reduce the $2 billion credit facility by the same amount.

Best regards,

Will

2.
Hello Anthony,

Thank you for your email. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will

Will,
As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.
I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.
I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I

understand that the OFA has been given direction to lower the $975MM to $475MM first.
Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Hi William,
Based on the latest regulation, O.Reg 280/14, IESO is allowed to use the borrowing for FHP's purpose, but we are not sure if IESO is currently using the existing facility for FHP. Would the Funding team know?
It seems that there are still questions outstanding for this request, so I think it might be better to set up a meeting to discuss this further, as suggested by Sarah N. last week? Please let me know.

Hi Gavin,
We require clarification on a matter, I understand from the Credit Requirement Letter and from Salman that the existing credit facility could be used to fund timing variances for FHP purposes under the existing Regulations. Is IESO currently using the existing facility for timing variance purposes and are they labelled under RPP?
Thanks,
Will

Hello Gavin,
The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.
I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such

regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,
Will

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks

Bruno

Subject: RE: IESO : OFA new FH credit facility

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the

grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.
Sarah

Subject: Re: IESO : OFA new FH credit facility
Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,

Victor

Subject: RE: IESO : OFA new FH credit facility

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

By the way, Salman Qadir whom you may have dealt with previously just became a father and is on paternity leave.

We are working on the $2B draft now.
Is there any flexibility on changing the 7 day (not business days) minimum draw to 5 days? I'm trying to mitigate having OPG monies in hand while not having yet to repay the OFA. Please advise.
Regards.

Subject: RE: IESO : OFA new FH credit facility

Hi Will,
Thanks for the revised mark-up. I've further amended some of your comments to refine or clarify them. Some overall feedback:
-Assume OFA Legal will review everything, including your comments. If you want them to opine on something specific, then ask them for it.
-If you are agnostic on whether to include something or not (i.e. in your mind the proposed change doesn't make a material difference), then I tend to go along with accepting the counterparty change. However, if what the counterparty wants to delete is a 'standard' in the form of our agreements, then you can argue to keep it.
-You can minimize your comments in the bubbles by simply saying "OK" or "Agree". No need to say "I agree with the change".
-Regarding Use of Funds under 2.3. Since Electricity Finance is better versed on the requirements for the funds, as well as the purpose of the existing agreement, you should run the change by them. Also, you rightly reference the twelve month payment restriction but it was in reference to the new $2B facility. The origins are in the current agreement, with the most recent iteration, I believe, from amendment #8. Always keep in mind all of the existing amendments when considering changes.
My suggestion is to look over my draft, and let me know if you have any questions/changes. Then send that draft to OFA Legal as well as Salman and Bruno, and myself. Lisa Stein is away until the 24th, so send it Sarah Neville, also cc' Lisa Stein.
Sarah N. is not familiar with the file, so you'll need to provide context for here in the e-mail, so be prepared to provide to her with some background, on the purpose of this amendment, as well as the original IESO request letter and the original credit agreement and amendments (along with that summary of amendments you updated). You can also let her know that we are concurrently working on a new $2B FHP Facility referred to in the letter (which is now with IESO), which has an approved Directive and underlying OIC which you can provide to her. We are expecting to receive comments on that draft in the near future as well, which may require her assistance if it arrives before Lisa returns..
Thanks,
Sarah

Subject: RE: IESO : OFA new FH credit facility

Hi Will,

Thanks for the track changes. What I think is necessary, wherever possible, is for you to first provide your thoughts as to IESO's proposed changed (indicate you agree or disagree with comment; and indicate "why" where relevant), and then OFA Legal or MoF Legal can respond to your thoughts (instead of, for example, "OFA Legal to comment or remove".) You've provided more fulsome comments in certain places; it needs to be done holistically. This is how we provide value as Documentation Analysts. It doesn't mean that OFA Legal will agree with you; it means you've analyzed the proposed changes and have made a determination about the appropriateness of the changes.

Please go through it again and resend to me.

Thanks,

Sarah

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,
Will

Thanks for the revised mark-up. I've further amended some of your comments to refine or clarify them. Some overall feedback:
-Assume OFA Legal will review everything, including your comments. If you want them to opine on something specific, then ask them for it.
-If you are agnostic on whether to include something or not (i.e. in your mind the proposed change doesn't make a material difference), then I tend to go along with accepting the counterparty change. However, if what the counterparty wants to delete is a 'standard' in the form of our agreements, then you can argue to keep it.
-You can minimize your comments in the bubbles by simply saying "OK" or "Agree". No need to say "I agree with the change".
-Regarding Use of Funds under 2.3. Since Electricity Finance is better versed on the requirements for the funds, as well as the purpose of the existing agreement, you should run the change by them. Also, you rightly reference the twelve month payment restriction but it was in reference to the new $2B facility. The origins are in the current agreement, with the most recent iteration, I believe, from amendment #8. Always keep in mind all of the existing amendments when considering changes.
My suggestion is to look over my draft, and let me know if you have any questions/changes. Then send that draft to OFA Legal as well as Salman and Bruno, and myself. Lisa Stein is away until the 24th, so send it Sarah Neville, also cc' Lisa Stein.
Sarah N. is not familiar with the file, so you'll need to provide context for here in the e-mail, so be prepared to provide to her with some background, on the purpose of this amendment, as well as the original IESO request letter and the original credit agreement and amendments (along with that summary of amendments you updated). You can also let her know that we are concurrently working on a new $2B FHP Facility referred to in the letter (which is now with IESO), which has an approved Directive and underlying OIC which you can provide to her. We are expecting to receive comments on that draft in the near future as well, which may require her assistance if it arrives before Lisa returns..
Thanks,
Sarah

Subject: RE: IESO : OFA new FH credit facility
Hi Will,

Thanks for the track changes. What I think is necessary, wherever possible, is for you to first provide your thoughts as to IESO's proposed changed (indicate you agree or disagree with comment; and indicate "why" where relevant), and then OFA Legal or MoF Legal can respond to your thoughts (instead of, for example, "OFA Legal to comment or remove".) You've provided more fulsome comments in certain places; it needs to be done holistically. This is how we provide value as Documentation Analysts. It doesn't mean that OFA Legal will agree with you; it means you've analyzed the proposed changes and have made a determination about the appropriateness of the changes.
Please go through it again and resend to me.
Thanks,
Sarah

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and~~ "), ~~the OFA and~~ OPA or IESO (as applicable) the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

Formatted: Font: Bold

Commented [A1]: I agree with the change.

Commented [A2]: I suggest we keep this paragraph because the current change is to the credit facility amounts. This was provided to provide the reader context to the previous credit facility amount changes. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A3]: From a chronological perspective I suggest we move, down to paragraph 5.

Commented [A4]: Agree. To maintain consistency with this amending agreement, previous amending agreements and this credit facility the OPA/IESO is stated before OFA.

Commented [A5]: I suggest we keep the crossed out paragraph 3 because it provides context to the reader. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A6]: I agree with IESO Legal by combining this paragraph and the paragraph above as seen in proposed paragraph two.

Commented [A7]: Fine.

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~, which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40,~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A8]: To confirm with Salman

Commented [A9]: Should be Schedule 3 Grid Note (not Schedule 1. Schedule 1 is Form of Borrowing Notice). Otherwise, changes are fine.

Commented [A10]: This is correct as of July 4 2017. Likely to change by mid-July.

Commented [A11]: Fine

Commented [A12]: To cofirm with Salman

(1)Ameding agreement #8 of this agreement also includes a restriction under Use of Proceeds uuder section 2.3(2;) "with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, 1998, the OPA or successor "new" IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. This restriction is also included in draft for the new $2 billion credit facility. I suggest we include the retriction, ensuring the reference to the Electricity Act is still appropriate.

Formatted: Left

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

ONTARIO FINANCING AUTHORITY

Per: _____
Name: Michael D. Manning
Title: Executive Director
Capital Markets Division

I have authority to bind the corporation.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

Per: _____
Name: Kimberly Marshall
Title: Vice President, Corporate Services; Chief Financial Officer; Treasurer

I have authority to bind the corporation.

SCHEDULE ~~3~~1 TO AMENDING AGREEMENT NO. 10

~~SCHEDULE 3~~EXECUTED GRIDNOTE

Commented [A13]: Should be Schedule 3, not Schedule 1.

Schedule 1 is Form of Borrowing Notice.
Schedule 2 is Election Notice.
Schedule 3 is Grid Note

Commented [A14]: GRIDNOTE is note a defined term.
Schedule 3, is known as GRID NOTE.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

INDEPENDENT ELECTRICTY SYSTEM OPERARTOR

By:_____

Commented [A15]: OFA Legal to comment. It may be preferred to leave two spots for signatories in case future signatories may not have full signing authority. Delegation of Authority once received will determine if Kimberly Marshall has sufficient authority to sign alone.

Hi Will,
Thanks for the revised mark-up. I've further amended some of your comments to refine or clarify them. Some overall feedback:
-Assume OFA Legal will review everything, including your comments. If you want them to opine on something specific, then ask them for it.
-If you are agnostic on whether to include something or not (i.e. in your mind the proposed change doesn't make a material difference), then I tend to go along with accepting the counterparty change. However, if what the counterparty wants to delete is a 'standard' in the form of our agreements, then you can argue to keep it.
-You can minimize your comments in the bubbles by simply saying "OK" or "Agree". No need to say "I agree with the change".
-Regarding Use of Funds under 2.3. Since Electricity Finance is better versed on the requirements for the funds, as well as the purpose of the existing agreement, you should run the change by them. Also, you rightly reference the twelve month payment restriction but it was in reference to the new $2B facility. The origins are in the current agreement, with the most recent iteration, I believe, from amendment #8. Always keep in mind all of the existing amendments when considering changes.
My suggestion is to look over my draft, and let me know if you have any questions/changes. Then send that draft to OFA Legal as well as Salman and Bruno, and myself. Lisa Stein is away until the 24th, so send it Sarah Neville, also cc' Lisa Stein.
Sarah N. is not familiar with the file, so you'll need to provide context for here in the e-mail, so be prepared to provide to her with some background, on the purpose of this amendment, as well as the original IESO request letter and the original credit agreement and amendments (along with that summary of amendments you updated). You can also let her know that we are concurrently working on a new $2B FHP Facility referred to in the letter (which is now with IESO), which has an approved Directive and underlying OIC which you can provide to her. We are expecting to receive comments on that draft in the near future as well, which may require her assistance if it arrives before Lisa returns..
Thanks,
Sarah

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Subject: FW: IESO : OFA new FH credit facility

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and~~ "), ~~the OFA and~~ OPA or IESO (as applicable) the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

Formatted: Font: Bold

Commented [A1]: I agree with the change.

Commented [A2]: I suggest we keep this paragraph because the current change is to the credit facility amounts. This was provided to provide the reader context to the previous credit facility amount changes. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A3]: From a chronological perspective I suggest we move, down to paragraph 5.

Commented [A4]: Agree. To maintain consistency with this amending agreement, previous amending agreements and this credit facility the OPA/IESO is stated before OFA.

Commented [A5]: I suggest we keep the crossed out paragraph 3 because it provides context to the reader. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A6]: I agree with IESO Legal by combining this paragraph and the paragraph above as seen in proposed paragraph two.

Commented [A7]: Fine.

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~, which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40,~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A8]: To confirm with Salman

Commented [A9]: Should be Schedule 3 Grid Note (not Schedule 1. Schedule 1 is Form of Borrowing Notice). Otherwise, changes are fine.

Commented [A10]: This is correct as of July 4 2017. Likely to change by mid-July.

Commented [A11]: Fine

Commented [A12]: To cofirm with Salman

(1)Ameding agreement #8 of this agreement also includes a restriction under Use of Proceeds uuder section 2.3(2;) "with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, 1998, the OPA or successor "new" IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. This restriction is also included in draft for the new $2 billion credit facility. I suggest we include the retriction, ensuring the reference to the Electricity Act is still appropriate.

Formatted: Left

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

ONTARIO FINANCING AUTHORITY

Per: _____
Name: Michael D. Manning
Title: Executive Director
Capital Markets Division

I have authority to bind the corporation.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

Per: _____
Name: Kimberly Marshall
Title: Vice President, Corporate Services; Chief Financial Officer; Treasurer

I have authority to bind the corporation.

SCHEDULE ~~3~~1 TO AMENDING AGREEMENT NO. 10

~~SCHEDULE 3~~EXECUTED GRIDNOTE

Commented [A13]: Should be Schedule 3, not Schedule 1.

Schedule 1 is Form of Borrowing Notice.
Schedule 2 is Election Notice.
Schedule 3 is Grid Note

Commented [A14]: GRIDNOTE is note a defined term.
Schedule 3, is known as GRID NOTE.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

INDEPENDENT ELECTRICTY SYSTEM OPERARTOR

By:_____

Commented [A15]: OFA Legal to comment. It may be preferred to leave two spots for signatories in case future signatories may not have full signing authority. Delegation of Authority once received will determine if Kimberly Marshall has sufficient authority to sign alone.

We are working on the $2B draft now.
Is there any flexibility on changing the 7 day (not business days) minimum draw to 5 days? I'm trying to mitigate having OPG monies in hand while not having yet to repay the OFA. Please advise.
Regards.

Subject: RE: IESO : OFA new FH credit facility

Hi Will,
Thanks for the track changes. What I think is necessary, wherever possible, is for you to first provide your thoughts as to IESO's proposed changed (indicate you agree or disagree with comment; and indicate "why" where relevant), and then OFA Legal or MoF Legal can respond to your thoughts (instead of, for example, "OFA Legal to comment or remove".) You've provided more fulsome comments in certain places; it needs to be done holistically. This is how we provide value as Documentation Analysts. It doesn't mean that OFA Legal will agree with you; it means you've analyzed the proposed changes and have made a determination about the appropriateness of the changes.
Please go through it again and resend to me.
Thanks,
Sarah

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and~~ "), ~~the OFA and~~ OPA or IESO (as applicable) the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

Formatted: Font: Bold

Commented [A1]: I agree with the change.

Commented [A2]: OFA Legal to comment to keep or remove.

I suggest we keep this paragraph because the current change is to the credit facility amounts. This was provided to provide the reader context to the previous credit facility amount changes. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A3]: OFA Legal to comment to keep here it is or move.

From a chronological perspective I suggest we move, down to paragraph 5.

Commented [A4]: OFA Legal to comment.

I agree with IESO's suggested change to cross out OPA and indicate "OPA or IESO".
To maintain consistency with this amending agreement, previous amending agreements and this credit facility the OPA/IESO is stated before OFA.

Commented [A5]: OFA Legal to comment to remove or keep.

I suggest we keep the crossed out paragraph 3 because it provides context to the reader. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A6]: OFA Legal to comment.

I agree with IESO Legal by combining this paragraph and the paragraph above as seen in proposed paragraph two.

Commented [A7]: OFA Legal to comment to keep or remove current balance of the grid note in this area.

The balance highlights the outstanding balance on the grid note. I do not have strong feelings to keep this or remove.

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~, which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40,~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A8]: I agree with these changes.

Commented [A9]: I agree with these changes.

Commented [A10]: OFA Legal to comment.

Should be Schedule 3 Grid Note (not Schedule 1. Schedule 1 is Form of Borrowing Notice). The outstanding balance was inputted to because its relevant to the Grid Note.

Commented [A11]: This is correct as of July 4 2017. Likely to change by mid-July.

Commented [A12]: No comment.

Commented [A13]: OFA Legal to comment.
MOF LSB to comment on use of reference on regulation 280/14.

I agree with the change.
To be consistent with the new $2 billion credit facility, should we include "The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."

Formatted: Left

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

ONTARIO FINANCING AUTHORITY

I have authority to bind the corporation.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

Per: _____
Name: Kimberly Marshall
Title: Vice President, Corporate Services; Chief Financial Officer; Treasurer

I have authority to bind the corporation.

SCHEDULE ~~3~~1 TO AMENDING AGREEMENT NO. 10

~~SCHEDULE 3~~EXECUTED GRIDNOTE

Commented [A14]: Should be Schedule 3, not Schedule 1.

Schedule 1 is Form of Borrowing Notice.
Schedule 2 is Election Notice.
Schedule 3 is Grid Note

Commented [A15]: GRIDNOTE is note a defined term.
Schedule 3, is known as GRID NOTE.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

INDEPENDENT ELECTRICTY SYSTEM OPERARTOR

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and~~ "), ~~the OFA and~~ OPA or IESO (as applicable) the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

Commented [A1]: I agree with the change.

Commented [A2]: OFA Legal to comment to keep or remove.

I suggest we keep this paragraph because the current change is to the credit facility amounts. This was provided to provide the reader context to the previous credit facility amount changes. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A3]: OFA Legal to comment to keep here it is or move.

From a chronological perspective I suggest we move, down to paragraph 5.

Commented [A4]: OFA Legal to comment.

I agree with IESO's suggested change to cross out OPA and indicate "OPA or IESO".
To maintain consistency with this amending agreement, previous amending agreements and this credit facility the OPA/IESO is stated before OFA.

Commented [A5]: OFA Legal to comment to remove or keep.

I suggest we keep the crossed out paragraph 3 because it provides context to the reader. However, previous amending agreements do not always memorialize previous changes. I do not have strong feelings to keep this paragraph.

Commented [A6]: OFA Legal to comment.

I agree with IESO Legal by combining this paragraph and the paragraph above as seen in proposed paragraph two.

Commented [A7]: OFA Legal to comment to keep or remove current balance of the grid note in this area.

The balance highlights the outstanding balance on the grid note. I do not have strong feelings to keep this or remove.

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~, which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40,~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A8]: I agree with these changes.

Commented [A9]: I agree with these changes.

Commented [A10]: OFA Legal to comment.

Should be Schedule 3 Grid Note (not Schedule 1. Schedule 1 is Form of Borrowing Notice). The outstanding balance was inputted to because its relevant to the Grid Note.

Commented [A11]: This is correct as of July 4 2017. Likely to change by mid-July.

Commented [A12]: No comment.

Commented [A13]: OFA Legal to comment.
MOF LSB to comment on use of reference on regulation 280/14.

I agree with the change.
To be consistent with the new $2 billion credit facility, should we include "The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."

Formatted: Left

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

SCHEDULE ~~3~~1 TO AMENDING AGREEMENT NO. 10

~~SCHEDULE 3~~EXECUTED GRIDNOTE

Commented [A14]: Should be Schedule 3, not Schedule 1.

Schedule 1 is Form of Borrowing Notice.
Schedule 2 is Election Notice.
Schedule 3 is Grid Note

Commented [A15]: GRIDNOTE is note a defined term.
Schedule 3, is known as GRID NOTE.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

Subject:	RE: IESO : OFA new FH credit facility
Date:	Monday, July 17, 2017 4:53:02 PM

Hello William and Gavin:

For the purposes of coming to a decision on the question of the use of proceeds, I thought it might be helpful to consolidate all the different moving parts into one document.

Current Use of Proceeds under the Credit Facility (as amended on December 19, 2014 by Amendment No. 8):

Section 1 was amended to add the following definition of "Regulation" means O. Reg. 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

2.3 Use of Proceeds:

Up to the effective time of Amalgamation, the OPA shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, subject to the following conditions:

(1) effective as of December 31,2013, the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by the Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation; and (b) the following conditions will apply:

(1) the proceeds of the Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Proposed Change to Section 2.3 Requested by the IESO

The IESO has requested that the above be deleted in its entirety and replaced with the following:

> The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

Comments:

(1) The "Pre-Amalgamation" structuring language is removed. Are there any implications arising from this related to existing loans?

(2) The "Post-Amalgamation" structuring which tied borrowing to the purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation has also been removed along with the additional conditions set out sub-paragraphs (1) and (2).

Does this cause any concern in respect of how the Credit Facility operates?;

(3) The reference to the Regulation can be abbreviated to simply "Regulation" given the addition of the defined term in Amending Agreement No. 8

(4) I note that the condition in sub(2) is phrased not as an obligation but an "expectation". It appears to have an intended purpose of restraining the renewal of certain advances beyond 12months. I do not know the rationale for its inclusion (this language was added in Amending Agreement 8). The Regulation and the Act, at least as they apply now, do not appear to require this (see below). I also note it is not drafted as an enforceable restriction or constraint in other relevant sections of the Agreement (as amended) e.g. in Section 3.3 which details the requirements for "Elections Regarding Advances" or in the Borrowing Notice, and there is no required related disclosure in respect of the Borrowing Notice for Renewed Advances. Is this possibly a requirement in the SIPP or the Minister's Directive, if there is one? I note that our file contains drafts of a reduction specific Minister's Directive which includes the following rationale for the reduction in the Credit Facility: "The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017"* but this language is flagged as requiring confirmation and I have no final version of the directive in the file, was this abandoned?

I note that the letter from the IESO to Gadi, requesting the $2 billion line, notes that the $975 credit facility is currently being used but the separate line is being requested for the following reason: "The IESO proposes that a separate and additional credit facility be provided by either the OFA or [the OEFC] to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking" and goes on to state "The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP". If there is concern about adopting the IESO's broad use of proceeds language that it will continue to borrow for FHP once the FHP agreement is in place, is one option to replicated the Pre- and Post- Amalgamation structure in Amending Agreement 8, allowing the line to be used until the FHP Credit Facility is not place but not after? This would not impact on timing of the agreements and would provide for the transition.

Regulation 280

The below is the authorized borrowing set out in the Regulation.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part.

5. *To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017, including borrowing,*

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

[Emphasis Added]

S.25.33 of the Electricity Act

Electricity pricing to reflect costs

IESO to make adjustments

25.33

(1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,

(a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the *Ontario Energy Board Act, 1998*;

(b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

(c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the *Ontario Fair Hydro Plan Act, 2017*. 2014, c. 7, Sched. 7, s. 8 (1); 2017, c. 16, Sched. 1, s. 43 (2).

Distributors and retailers to make adjustments

(2) Distributors and retailers shall, through their billing systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of consumers in Ontario that are prescribed by regulation reflect,

(a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the *Ontario Energy Board Act, 1998*;

(b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

(c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the *Ontario Fair Hydro Plan Act, 2017*. 2014, c. 7, Sched. 7, s. 8 (2); 2017, c. 16, Sched. 1, s. 43 (3).

Exception

(3) Any adjustment that would otherwise be made under subsection (1) or (2) and that relates to electricity that is consumed by any of the following types of consumers shall instead be made in accordance with the regulations to one or more variance accounts established and maintained by the IESO:

1. Repealed: 2009, c. 12, Sched. B, s. 6 (2).

2. A consumer whose rates are determined by the Board under section 79.16 of the *Ontario Energy Board Act, 1998*.

3. A consumer who is a member of a class of consumers prescribed by the regulations. 2004, c. 23, Sched. A, s. 37; 2009, c. 12, Sched. B, s. 6 (2); 2014, c. 7, Sched. 7, s. 8 (3).

Adjustments, payments, set-offs and credits
(4) The IESO, distributors and retailers shall,
(a) make such adjustments in their accounts as may be required or permitted by the regulations to record adjustments described in subsections (1), (2) and (3); and
(b) make and receive such payments, set-offs and credits as may be required or permitted by the regulations with respect to consumers described in subsection (3) or as may be required by a regulation made under this Act or the *Ontario Fair Hydro Plan Act, 2017*. 2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (4); 2017, c. 16, Sched. 1, s. 43 (4)
Variance accounts
(5) The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section or under the *Ontario Fair Hydro Plan Act, 2017*. 2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (5); 2017, c. 16, Sched. 1, s. 43 (5).
Compliance
(6) The Board shall ensure that adjustments, payments, set-offs and credits required or permitted under this section are made in accordance with the regulations. 2004, c. 23, Sched. A, s. 37.
Adjustment not assignable
(7) An adjustment made under subsection (1) or (2) is not assignable by a consumer in a contract with a retailer, whether the contract is entered into before or after this section comes into force. 2004, c. 23, Sched. A, s. 37.
No cause of action
(8) No cause of action against a consumer, a retailer or the Crown arises as the result of a contract or a term of a contract ceasing to have effect because of the operation of subsection (7). 2004, c. 23, Sched. A, s. 37.
Happy to discuss the above should you have questions.
Thanks very much,
Sarah

Subject: FW: IESO : OFA new FH credit facility

Hello Gavin,
The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.
I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

> "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,
Will

Subject: RE: IESO : OFA new FH credit facility

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks

Bruno

Subject: RE: IESO : OFA new FH credit facility

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual

grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.
Sarah

Subject: Re: IESO : OFA new FH credit facility
Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

By the way, Salman Qadir whom you may have dealt with previously just became a father and is on paternity leave.

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Hi Will,
Thanks for the track changes. What I think is necessary, wherever possible, is for you to first provide your thoughts as to IESO's proposed changed (indicate you agree or disagree with comment; and indicate "why" where relevant), and then OFA Legal or MoF Legal can respond to your thoughts (instead of, for example, "OFA Legal to comment or remove".) You've provided more fulsome comments in certain places; it needs to be done holistically. This is how we provide value as Documentation Analysts. It doesn't mean that OFA Legal will agree with you; it means you've analyzed the proposed changes and have made a determination about the appropriateness of the changes.
Please go through it again and resend to me.
Thanks,
Sarah

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,
Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.
Thanks,
Will

Good morning Anthony,
As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.
Thanks,
Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9"), the OFA and OPA or IESO (as applicable) amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

2. On the date of this Amending Agreement, the IESO has executed and delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in

the principal amount of up to $475,000,000, which note indicates the total principal amount of advances outstanding as of the date hereof.

Commented [A1]: This is correct as of July 4 2017. Likely to change by mid-July.

3. In exchange for the grid promissory note delivered hereunder, the OFA has cancelled and returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

ONTARIO FINANCING AUTHORITY

Per: _____

I have authority to bind the corporation.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

Per: _____
Name: Kimberly Marshall
Title: Vice President, Corporate Services; Chief Financial Officer; Treasurer

I have authority to bind the corporation.

SCHEDULE 1 TO AMENDING AGREEMENT NO. 10

EXECUTED GRIDNOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

Hello Anthony,
Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.
Thanks,
Will

Good morning Anthony,
As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.
Thanks,
Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9"), the OFA and OPA or IESO (as applicable) amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

2. On the date of this Amending Agreement, the IESO has executed and delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in

the principal amount of up to $475,000,000, which note indicates the total principal amount of advances outstanding as of the date hereof.

Commented [A1]: This is correct as of July 4 2017. Likely to change by mid-July.

3. In exchange for the grid promissory note delivered hereunder, the OFA has cancelled and returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

SCHEDULE 1 TO AMENDING AGREEMENT NO. 10

EXECUTED GRIDNOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,
Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.
Thanks,
Will

Good morning Anthony,
As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.
Thanks,

Will

Hello Anthony,
Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.
Thanks,
Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

Formatted: Font: Bold

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and~~ "), the OFA and OPA or IESO (as applicable) amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~, which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40.~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A1]: This is correct as of July 4 2017. Likely to change by mid-July.

Formatted: Left

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,
Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.
Thanks,
Will

Good morning Anthony,
As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.
Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

Formatted: Font: Bold

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and~~ "), the OFA and OPA or IESO (as applicable) amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement ~~and prior to any further advances under the Credit Agreement~~, the IESO ~~shall execute~~has executed and ~~deliver~~delivered to the OFA (and included it in Schedule 1 to this Amending Agreement) a new grid promissory note in the principal amount of up to $475,000,000 ~~substantially in the form of the grid~~, which note ~~attached hereto and indicating a~~ indicates the total principal amount of advances outstanding ~~to~~as of the date ~~of $114,383,131.40.~~hereof.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A1]: This is correct as of July 4 2017. Likely to change by mid-July.

Formatted: Left

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

SCHEDULE ~~3~~1 TO AMENDING AGREEMENT NO. 10

~~SCHEDULE 3~~EXECUTED GRIDNOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.

The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Regards

Hi William,
If the credit agreement cannot be put in place this week, the alternative would be to actually amend the $975 agreement to update "purpose" to include FHP. The facility can likely still be used as written for FHP but amending it would provide clarity.
When the new one is ready, we would move over any drawdowns related to FHP to the new facility. Reducing the $975 to $475 before the new one is in effect would not work for IESO.

Regards,
Salman

Subject: Re: IESO : OFA new FH credit facility

Hi William,
If the credit agreement cannot be put in place this week, the alternative would be to actually amend the $975 agreement to update "purpose" to include FHP. The facility can likely still be used as written for FHP but amending it would provide clarity.
When the new one is ready, we would move over any drawdowns related to FHP to the new facility. Reducing the $975 to $475 before the new one is in effect would not work for IESO.

Regards,
Salman

If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

Importance: High

Hi Will,

The issue we have then is that **we must** get the amendment done to reduce the existing credit facility to $975 million to $475 million by Friday, otherwise we have a facility bigger than we agreed for the implementing this whole FHP IESO funding structure. This should be a very quick amendment. I assume you send him the amending agreement? Please get Anthony on the phone again ASAP, to let him know that we still need to execute the amendment by the end of this week. After you contact Anthony, please send an e-mail to Salman, John Kim, Bruno, Lisa S., Linda and myself to let them know the status. That is, explaining that the credit facility draft the $2B facility is with IESO for their review, then explain what Anthony said, but then also explain that you've indicated to Anthony that we must execute by end of week the amending agreement to reduce the existing $975m credit facility to $475 million.

Thanks,

Sarah

Hello Sarah,

I spoke to Anthony on the telephone. He told me that his internal lawyers are reviewing the credit facility but comments won't returned until next week. He said that he is not concerned because he can draw on the $475 million credit facility and doesn't expect to exceed that. This was mentioned during his conversations with and Gadi (paraphrasing). He has a small legal team and they are working on a number of things and they are swamped.

I asked him if there are any hurdles I can help eliminate. He said no.

I politely mentioned that the directive says that the credit facility is to be in place July 1st . He said he would look at that and would light a fire under someone if he has too. I mentioned that other issue is the availability of signatories going into a holiday. He agreed.

Subject:	RE: IESO : OFA new FH credit facility
Date:	Monday, July 17, 2017 4:53:02 PM

Hello William and Gavin:

For the purposes of coming to a decision on the question of the use of proceeds, I thought it might be helpful to consolidate all the different moving parts into one document.

Current Use of Proceeds under the Credit Facility (as amended on December 19, 2014 by Amendment No. 8):

Section 1 was amended to add the following definition of "Regulation" means O. Reg. 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

2.3 Use of Proceeds:

Up to the effective time of Amalgamation, the OPA shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, subject to the following conditions:

(1) effective as of December 31,2013, the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by the Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation; and (b) the following conditions will apply:

(1) the proceeds of the Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Proposed Change to Section 2.3 Requested by the IESO

The IESO has requested that the above be deleted in its entirety and replaced with the following:

> The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

Comments:

(1) The "Pre-Amalgamation" structuring language is removed. Are there any implications arising from this related to existing loans?

(2) The "Post-Amalgamation" structuring which tied borrowing to the purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation has also been removed along with the additional conditions set out sub-paragraphs (1) and (2).

Does this cause any concern in respect of how the Credit Facility operates?;

(3) The reference to the Regulation can be abbreviated to simply "Regulation" given the addition of the defined term in Amending Agreement No. 8

(4) I note that the condition in sub(2) is phrased not as an obligation but an "expectation". It appears to have an intended purpose of restraining the renewal of certain advances beyond 12months. I do not know the rationale for its inclusion (this language was added in Amending Agreement 8). The Regulation and the Act, at least as they apply now, do not appear to require this (see below). I also note it is not drafted as an enforceable restriction or constraint in other relevant sections of the Agreement (as amended) e.g. in Section 3.3 which details the requirements for "Elections Regarding Advances" or in the Borrowing Notice, and there is no required related disclosure in respect of the Borrowing Notice for Renewed Advances. Is this possibly a requirement in the SIPP or the Minister's Directive, if there is one? I note that our file contains drafts of a reduction specific Minister's Directive which includes the following rationale for the reduction in the Credit Facility: "The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017"* but this language is flagged as requiring confirmation and I have no final version of the directive in the file, was this abandoned?

I note that the letter from the IESO to Gadi, requesting the $2 billion line, notes that the $975 credit facility is currently being used but the separate line is being requested for the following reason: "The IESO proposes that a separate and additional credit facility be provided by either the OFA or [the OEFC] to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking" and goes on to state "The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP". If there is concern about adopting the IESO's broad use of proceeds language that it will continue to borrow for FHP once the FHP agreement is in place, is one option to replicated the Pre- and Post- Amalgamation structure in Amending Agreement 8, allowing the line to be used until the FHP Credit Facility is not place but not after? This would not impact on timing of the agreements and would provide for the transition.

Regulation 280

The below is the authorized borrowing set out in the Regulation.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part.

5. *To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017, including borrowing,*

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

[Emphasis Added]

S.25.33 of the Electricity Act

Electricity pricing to reflect costs

IESO to make adjustments

25.33

(1) The IESO shall, through its billing and settlement systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of market participants in Ontario that are prescribed by regulation reflect,

(a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the *Ontario Energy Board Act, 1998*;

(b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

(c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the *Ontario Fair Hydro Plan Act, 2017*. 2014, c. 7, Sched. 7, s. 8 (1); 2017, c. 16, Sched. 1, s. 43 (2).

Distributors and retailers to make adjustments

(2) Distributors and retailers shall, through their billing systems, make adjustments in accordance with the regulations that ensure that, over time, payments by classes of consumers in Ontario that are prescribed by regulation reflect,

(a) amounts paid to generators, the Financial Corporation and distributors, whether the amounts are determined under the market rules or under section 78.1, 78.2 or 78.5 of the *Ontario Energy Board Act, 1998*;

(b) amounts paid to entities with whom the IESO has a procurement contract, as determined under the procurement contract; and

(c) such amounts as may be prescribed that are paid or incurred by the IESO in relation to the *Ontario Fair Hydro Plan Act, 2017*. 2014, c. 7, Sched. 7, s. 8 (2); 2017, c. 16, Sched. 1, s. 43 (3).

Exception

(3) Any adjustment that would otherwise be made under subsection (1) or (2) and that relates to electricity that is consumed by any of the following types of consumers shall instead be made in accordance with the regulations to one or more variance accounts established and maintained by the IESO:

1. Repealed: 2009, c. 12, Sched. B, s. 6 (2).

2. A consumer whose rates are determined by the Board under section 79.16 of the *Ontario Energy Board Act, 1998*.

3. A consumer who is a member of a class of consumers prescribed by the regulations. 2004, c. 23, Sched. A, s. 37; 2009, c. 12, Sched. B, s. 6 (2); 2014, c. 7, Sched. 7, s. 8 (3).

Adjustments, payments, set-offs and credits
(4) The IESO, distributors and retailers shall,
(a) make such adjustments in their accounts as may be required or permitted by the regulations to record adjustments described in subsections (1), (2) and (3); and
(b) make and receive such payments, set-offs and credits as may be required or permitted by the regulations with respect to consumers described in subsection (3) or as may be required by a regulation made under this Act or the *Ontario Fair Hydro Plan Act, 2017*. 2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (4); 2017, c. 16, Sched. 1, s. 43 (4)
Variance accounts
(5) The IESO shall establish and maintain such variance accounts as may be necessary to record all amounts payable or receivable by it under this section or under the *Ontario Fair Hydro Plan Act, 2017*. 2004, c. 23, Sched. A, s. 37; 2014, c. 7, Sched. 7, s. 8 (5); 2017, c. 16, Sched. 1, s. 43 (5).
Compliance
(6) The Board shall ensure that adjustments, payments, set-offs and credits required or permitted under this section are made in accordance with the regulations. 2004, c. 23, Sched. A, s. 37.
Adjustment not assignable
(7) An adjustment made under subsection (1) or (2) is not assignable by a consumer in a contract with a retailer, whether the contract is entered into before or after this section comes into force. 2004, c. 23, Sched. A, s. 37.
No cause of action
(8) No cause of action against a consumer, a retailer or the Crown arises as the result of a contract or a term of a contract ceasing to have effect because of the operation of subsection (7). 2004, c. 23, Sched. A, s. 37.
Happy to discuss the above should you have questions.
Thanks very much,
Sarah

Subject: FW: IESO : OFA new FH credit facility

Hello Gavin,
The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.
I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

> "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,
Will

Subject: RE: IESO : OFA new FH credit facility

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks

Bruno

Subject: RE: IESO : OFA new FH credit facility

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual

grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.
Sarah

Subject: Re: IESO : OFA new FH credit facility
Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Hi Will,

The issue we have then is that **we must** get the amendment done to reduce the existing credit facility to $975 million to $475 million by Friday, otherwise we have a facility bigger than we agreed for the implementing this whole FHP IESO funding structure. This should be a very quick amendment. I assume you send him the amending agreement? Please get Anthony on the phone again ASAP, to let him know that we still need to execute the amendment by the end of this week. After you contact Anthony, please send an e-mail to Salman, John Kim, Bruno, Lisa S., Linda and myself to let them know the status. That is, explaining that the credit facility draft the $2B facility is with IESO for their review, then explain what Anthony said, but then also explain that you've indicated to Anthony that we must execute by end of week the amending agreement to reduce the existing $975m credit facility to $475 million.

Thanks,

Sarah

Hello Sarah,

I spoke to Anthony on the telephone. He told me that his internal lawyers are reviewing the credit facility but comments won't returned until next week. He said that he is not concerned because he can draw on the $475 million credit facility and doesn't expect to exceed that. This was mentioned during his conversations with and Gadi (paraphrasing). He has a small legal team and they are working on a number of things and they are swamped.

I asked him if there are any hurdles I can help eliminate. He said no.

I politely mentioned that the directive says that the credit facility is to be in place July 1st . He said he would look at that and would light a fire under someone if he has too. I mentioned that other issue is the availability of signatories going into a holiday. He agreed.

Subject: FW: IESO : OFA new FH credit facility

Hello Gavin,
The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.
I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following

conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,
Will

Subject: RE: IESO : OFA new FH credit facility

Hi
I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.
Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.
Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.
Thanks
Bruno

Subject: RE: IESO : OFA new FH credit facility

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.
It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?
With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.
Sarah

Subject: Re: IESO : OFA new FH credit facility
Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Subject: RE: IESO : OFA new FH credit facility
Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help

Bruno

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

Subject: FW: IESO : OFA new FH credit facility

Hello Gavin,
The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.
I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following

conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,
Will

Subject: RE: IESO : OFA new FH credit facility

Hi
I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.
Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.
Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.
Thanks
Bruno

Subject: RE: IESO : OFA new FH credit facility

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.
It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?
With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.
Sarah

Subject: Re: IESO : OFA new FH credit facility
Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Subject: RE: IESO : OFA new FH credit facility
Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help

Bruno

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To

provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.

Regards,

Victor

Subject: RE: IESO : OFA new FH credit facility

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

By the way, Salman Qadir whom you may have dealt with previously just became a father and is on paternity leave.

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Anthony,

Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.

Thanks,

Will

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of ~~(·),~~July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**~~"), pursuant to which the OFA agreed to provide a revolving operating facility to the OPA in the principal amount of up to CDN $500,000,000, and the OPA issued a grid note dated January 11, 2005 to the OFA for a principal amount of up to CDN $500,000,000;~~");

~~**AND WHEREAS** effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;~~

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9~~), the OPA and~~"), the OFA ~~and~~ OPA or IESO (as applicable) the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

~~**AND WHEREAS** pursuant to Amending Agreement No. 3, the OPA and the OFA agreed to increase the operating facility to a principal amount of up to $975,000,000 and the OPA issued a grid note dated October 11, 2005 to the OFA for a principal amount of up to CDN $975,000,000, which was later replaced by a grid note for up to the same principal amount dated November 30, 2016 ;~~

~~**AND WHEREAS** effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator;~~

~~**AND WHEREAS** under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation;~~

~~**AND WHEREAS** as of the date hereof the total principal amount of advances outstanding under the operating facility is $114,383,131.40~~

Formatted: Font: Bold

Commented [A1]: Agreed

Commented [A2]: Agreed

Commented [A3]: From a chronological perspective I suggest we move, down to paragraph 5.

Commented [A4]: Agree. To maintain consistency with this amending agreement, previous amending agreements and this credit facility the OPA/IESO is stated before OFA.

Commented [A5]: Agreed

Commented [A6]: Agree

Commented [A7]: Agree

~~**AND WHEREAS** the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;~~

~~**AND WHEREAS** pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.~~

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby ~~acknowledge~~acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting ~~" $~~"$475,000,000" therefor.

2. On the date of this Amending Agreement and prior to any further advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of advances outstanding to date of $114,383,131.40.

3. ~~Upon receipt of~~In exchange for the ~~new~~ grid promissory note delivered hereunder, the OFA ~~will cancel~~has cancelled and ~~return~~returned the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

   The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance"

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A8]: Confirmed with Electricity Finance.

Commented [A9]: From a chronological perspective I suggest we move, down to this location.

Commented [A10]: Confirmed with Electricity Finance.

Commented [A11]: Should be Schedule 3 Grid Note (not Schedule 1. Schedule 1 is Form of Borrowing Notice). Otherwise, changes are fine.

Commented [A12]: Anthony,

Technically, the obligation is to deliver in the amendment is to deliver a signed note and deliver before on closing prior to any advance and the grid note Schedule 3 forms part of the amending agreement. I suggest we revert to the previous version for this paragraph.

Commented [A13]: Fine

Commented [A14]: Confirmed with Electricity Finance.

(1)Ameding agreement #8 of this agreement also includes a restriction under Use of Proceeds uuder section 2.3(2;) "with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, 1998, the OPA or successor "new" IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. This restriction is also included in draft for the new $2 billion credit facility. I suggest we include the retriction, ensuring the reference to the Electricity Act is still appropriate.

Commented [A15]: This provision was adopted in Amending Agreement 8.

Formatted: Left

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

SCHEDULE 3 TO AMENDING AGREEMENT NO. 10

SCHEDULE 3

Commented [A16]: Anthony,

Should be Schedule 3, not Schedule 1.

Schedule 1 is Form of Borrowing Notice.
Schedule 2 is Election Notice.
Schedule 3 is Grid Note

Commented [A17]: GRIDNOTE is note a defined term in the credit facility agreement.
Schedule 3, is known as GRID NOTE.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

INDEPENDENT ELECTRICTY SYSTEM OPERARTOR

By:_____

By:_____

Commented [A18]: Anthony,

It is preferred to leave two spots for signatories in the original Schedule 3, for the possibility signatories may not have full signing authority. Delegation of Authority once received will determine if Kimberly Marshall has sufficient authority to sign alone.

Formatted: Indent: Left: 2.5", First line: 0.5"

~~Kimberly Marshall, Vice President, Corporate Services; Chief Financial Officer; Treasurer~~

Commented [A19]: Anthony, once we approve the draft we can add Kimberly's name.

[NTD – TO BE UPDATED AT EXECUTION]

Commented [A20]: Agree.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

   The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance"

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Formatted: Left

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

SCHEDULE 3 TO AMENDING AGREEMENT NO. 10

SCHEDULE 3

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

Attachments: Hello Victor.docx

Hi Will,
Please see my proposed changes in the attached document.
I will be in a call between 2 and 3 p.m.
If you are okay with it, please send it to Victor, cc'ing all parties (including Anthony), and please also add Kelly Listoe as well. If I have misunderstood anything, you can correct it and send it out; if you need to, please run it by Sarah N.
Thanks,
Sarah

Subject: FW: IESO : OFA new FH credit facility

Hello Sarah,
This is my draft email to Victor and Anthony. Let's discuss.
Hello Victor,
We apologize for the delay in replying back. The proposed changes to Amending Agreement 10, which triggered internal discussions which led to the delays. If we can agree to "sticking points" I can send you a draft early next week.

Paragraph 2

This language should revert back to the original language. Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered. The mark-up tracks changes to the OFA's original drafting.

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40 . "

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Paragraph 4, "Use of Proceeds"

Unfortunately the Directives signed by the Minister of Finance back in 2013 & 2016 have very specific uses in regards to "Use of Proceeds". Examples are provided below. As workaround we propose amending your proposed change . This is a short-term solution. The alternative is extremely time sensitive, which would require a final Directive be provide to the Minister for signature before

the summer break.

Directive Minister of Finance Ontario Power Authority Credit Facility - Dec 18, 2013 allows for:

- Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.

Directive Minister of Finance Independent Electricity System Operator Credit Facility - Nov 28, 2016 allows for:

- Provide that effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

IESO proposed change to "Use of Proceeds".

"4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:
"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time." "

IESO proposed change to "Use of Proceeds".

"4. Section 2.3 "Use of Proceeds" of the Credit Agreement is deleted in its entirety and replaced by the following:
"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time, provided that Advances may be used only for liquidity purposes." "

Thanks,
Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Good morning Anthony,

As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.

Thanks,

Will

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. ~~.~~ ~~T~~The proposed change~~s~~ regarding the Use of Proceeds ~~to Amending Agreement 10, which triggered~~required internal discussion~~s~~ to work through~~s~~ t~~which led to the delays~~he proposed wording. I will send you a revised mark-up next week, but ~~If we can agree~~ would ask if IESO is able to agree to the following key items:

~~**Paragraph 4 - to "sticking points" I can send you a draft early next week.**~~

USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes**."*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language~~.~~:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "*

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered. ~~The mark-up tracks changes to the OFA's original drafting.~~

~~"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40 . Hello Caroline,

Anthony (IESO) will be sending comments on the FHP Credit Facility Agreement and existing $975 million credit facility agreement today. Provided there is nothing unexpected in IESO's comments we hope to execute the agreements by Thursday, given IESO's discussion with Moody's that the credit facility agreement would be executed by the end of August.

Thanks,

Will

Hi Lisa,

John informed us this morning that we are aiming for the minister designate to sign on Tuesday.

Yes, we are awaiting IESO's comments on the agreements.

Thanks,

Will

Hi Sarah and Will,

Do you have an update on the IESO agreements? Are we still waiting for comments from the IESO? As you know, I will be away on vacation next week. Caroline has been briefed on this file and will be monitoring it in my absence.

Thank you,

Lisa

Subject: RE: IESO credit facility

Hi John,

Anthony at IESO told Will that he had been in discussion with Moody's and that he told Moody's that the $2B facility would be executed by the end of the month (August). Moody's is aware of the balance under the existing $975 facility, and Moody's has taken into account the availability of $2B line, so it is a credibility issue for IESO in supporting IESO's rating. Anthony also communicated to their CFO that the facility would be executed by end of month.

This is why Anthony had requested to see a copy of the directive, that is, so he could provide assurance to parties at this end that all was in order for the credit facility to be executed past the end of the month.

We had communicated to Anthony that we expected that the directive would be signed this week so we could execute the agreements this week.

If we can get the directive signed on Monday or Tuesday, we could still get the credit facilities executed by end of month. However, before we give IESO a further update, we should confirm that this will be occurring.

Sarah

Hi Lisa,

This is a new credit facility to be in place for IESO. The existing credit facility between the IESO and the OFA is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO has proposed that a separate and additional credit facility be provided to support only the FHP credit needs and to ensure operational efficiency and tracking of related interest costs.

Hope this helps.

Regards,

Gavin He

Attachments: FHP credit facility agreement draft Aug 4 OFA Legal.docx.msg

---

Hi John,

I only have Lisa's proposed draft language from an earlier draft of the agreement (attached, section 5.7)), which is the following:

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO, amounts equal to any amounts that the IESO fails to pay under this Agreement. On the occurrence of an Event of Default, the Minister of Finance is irrevocably authorized to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO fails to pay to the OFA shall be deducted from money appropriated by the Legislature for payment to the IESO and paid to the OFA.

(Note: At this point, this language has only been shared internally amongst Bruno, Toby, Will and myself.)

I don't have the intercept language from the other MOU that Lisa referenced in our meeting.

Thanks,

Sarah

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

as Borrower

and

ONTARIO FINANCING AUTHORITY

as Lender

REVOLVING CREDIT FACILITY AGREEMENT

Date: August~~July~~ (·), 2017~~)~~

REVOLVING CREDIT FACILITY AGREEMENT

THIS AGREEMENT is made as of the (·) day of August~~July~~ 2017,

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* (the "IESO")
(as Borrower)

AND

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* (the "OFA" and together with the IESO, the "Parties")
(as Lender)

RECITALS:

WHEREAS the IESO has requested a revolving credit facility for up to a maximum principal amount of $2 billion from the OFA for the purpose of supporting the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017*~~ (the "OFHP")~~.

THEREFORE in consideration of the mutual agreements contained herein (the receipt and adequacy of which are acknowledged), the P~~p~~arties agree as follows:

ARTICLE 1

DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

Section 1.1 Definitions.

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires, the following terms shall have the meanings assigned to them below:

"Advances" means advances made by the OFA to the IESO under Article 3 and "Advance" means any one of such advances and in the case of an election by the IESO under Section 3.3, may include a ~~or~~ "Continued Advance", ~~-~~as defined in Section 3.3(1), as applicable.

Commented [LS1]: Based on discussion with IESO Counsel. Also see amendment to election notice.

"Advances Outstanding" means, at any time, an amount equal to the aggregate principal amount of all Advances outstanding at such time.

"Agreement", "herein", "hereby", "hereor', "hereunder" and similar expressions mean and refer to this agreement and all schedules hereto and all instruments in amendment or confirmation of this agreement and such schedules and not to any particular article or section; and the expression "Article" or "Section" followed by a number means the specified Article or Section of this Agreement.

"Borrowing Notice" has the meaning specified in Section 3.2(1).

"Business Day" means any day that is not a day on which banks are generally authorized or required by law or executive order to be closed in the City of Toronto.

"**Clean Energy Adjustment"** has the same meaning as that term is ~~"clean energy adjustment" as that term is~~ defined in the OFHP.

"Commitment" means, at any time, an amount equal to $2 billion.

"Consolidated Assets" means, at any time, the book value of the assets of the IESO and the Subsidiaries, determined as of such time on a consolidated basis in accordance with GAAP.

"**Continued Advance"** has the meaning specified in Section 3.3(1).

"Credit Facility" means the revolving credit facility to be made available to the IESO by the OFA under this Agreement for the purposes specified in Section 2.2.

"Default" means any event which, after the giving of notice, or passage of time, or both, would be an Event of Default.

"Dollars" or **"$**" means lawful currency of Canada.

"Election Notice" has the meaning specified in Section 3.3(2).

"Event of Default" has the meaning specified in Section 5.1.

~~"**Financing Entity**" has the same meaning as "financing entity" as that term is defined in the OFHP.~~

"GAAP" means accounting policies and standards as established by the Chartered Professional Accountants of Canada,~~, Public Sector Accounting Board~~ at the relevant time and applied on a consistent basis.

"Grid Note" has the meaning specified in Section 3.2(2).

"Indebtedness" means (without duplication), with respect to any Person, whether recourse is to all or a portion of the assets of such Person and whether or not contingent:

(a) every obligation of such Person for borrowed money;

(b) every obligation of such Person evidenced by bonds, debentures, notes or other similar instruments;

(c) every reimbursement obligation of such Person with respect to letters of credit, bankers' acceptances or similar instruments;

(d) every obligation of such Person issued or assumed as the deferred purchase price of property or services (but excluding trade accounts payable or expenses accrued in the ordinary course of business which are not overdue or which are being contested in good faith);

(e) every capital lease obligation of such Person; and

~~(f) the Swap Termination Value of each Swap Contract of such Person; and~~

(~~f~~g) every obligation of the type referred to in paragraphs (a) through (f) of another Person and all dividends of another Person the payment of which, in each case, such Person has guaranteed or is responsible or liable for, directly or indirectly, as obligor, guarantor or otherwise.

"Lien" means any assignment, hypothec, mortgage, lien, pledge, security interest, encumbrance, title retention agreement or other agreement or arrangement to secure the performance of any obligation (including the payment of Indebtedness).

"Material Subsidiary " means, at any time, a Subsidiary which has consolidated assets with a book value of more than $25 million determined in accordance with GAAP.

"**OFHP**" ~~has the meaning specified in the Recitals to this Agreement.~~means the *Ontario Fair Hydro Plan Act, 2017.*

"Permitted Liens" means:

(a) Liens for taxes and assessments not at the time overdue or any Liens securing workmen's compensation assessments, unemployment insurance or other social security obligations not at the time overdue;

(b) any Liens or rights of distress reserved in or exercisable under any lease for rent and for compliance with the terms of such lease;

Formatted: Indent: Left: 0", First line: 0"

(c) any obligations or duties, affecting the property of the IESO to any municipality or governmental, statutory or public authority, with respect to any franchise, grant, license or permit and any defects in title to structures or other facilities arising solely from the fact that such structures or facilities are constructed or installed on lands held by the IESO or such Material Subsidiary under government permits, leases or other grants, which obligations, duties and defects in the aggregate do not materially impair the use of such property, structures or facilities for the purpose for which they are held by the IESO or such Material Subsidiary;

(d) any deposits or Liens in connection with building contracts, bids or tenders, expropriation proceedings, surety or appeal bonds, costs of litigation when required by law, and public and statutory obligations, Liens or claims incidental to current construction, builders', mechanics', labourers', materialmen's, warehousemen's, carriers' and other similar Liens;

(e) the right reserved to or vested in any municipality or governmental or other public authority by any statutory provision or by the terms of any lease, license, franchise, grant or permit, that affects any lands, to terminate any such lease, license, franchise, grant or permit or to require annual or their periodic payments as a condition to the continuance thereof;

(f) any undetermined or inchoate Liens and charges incidental to the current operations of the IESO or a Material Subsidiary that have not at the time been filed against the IESO or such Material Subsidiary; provided, however, that if any such Lien or charge shall have been filed, the IESO or such Material Subsidiary shall be prosecuting an appeal or proceedings for review with respect to which it shall have secured a stay in the enforcement of any such Lien or charge;

(g) any Lien the validity of which is being contested at the time by the IESO or a Material Subsidiary in good faith and the enforcement of which has been stayed;

(h) any easements, rights-of-way and servitudes that in the opinion of the IESO will not in the aggregate materially and adversely impair the use or value of the land for the purpose for which it is held or occupied by the IESO or a Material Subsidiary;

(i) any Liens and privileges arising out of judgments or awards with respect to which the IESO or a Material Subsidiary shall be prosecuting an appeal or proceedings for review and with respect to which it shall have secured a stay of execution pending such appeal or proceedings for review; and

(j) any other Liens of a nature similar to the foregoing which do not in the opinion of the IESO, acting reasonably, materially impair the use of the property subject thereto or the operation of the business of the IESO or any Material Subsidiary or the value of such property for the purpose of any such business

(k) any Lien arising ~~in connection with~~from the IESO's ~~role and~~ statutory obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation

Formatted: Indent: Left: 0", First line: 0"

Commented [LS2]: For further discussion

to the Clean Energy Adjustment, or any lien, whether arising from the action or inaction of IESO that is created under the OFHP.~~otherwise~~.

Formatted: Indent: Left: 0", Hanging: 0.5"

"Person" means any individual, corporation, partnership joint venture, association, trust or unincorporated organization or any government or agency or political subdivision thereof.

"Purchase Money Mortgage" means any Lien on property, granted in connection with financing, assumed or given back in payment of, or created or arising by operation of law to secure, the whole or part of the purchase price of such property, or granted in connection with financing the cost in whole or in part of construction or installation of or improvements to any property, provided that such Lien is incurred or assumed at the time or within 12 months after the purchase of such property or the completion of such construction, installation or improvements, as the case may be, and includes any extension, renewal or replacement thereof on the same property if the principal amount of the Indebtedness secured thereby at the time of such extension, renewal or replacement is not increased and if such Lien is not extended to any other property.

"Repayment Date" means, in respect of the repayment of Advances, the repayment date contained in the most recent Borrowing Notice or Election Notice.

"Stated Maturity" when used with respect to any Indebtedness or any installment of interest thereon, means the date specified in or on the agreement or instrument evidencing such Indebtedness as the fixed date on which any principal amount of such Indebtedness or such installment of interest is due and payable.

"Subsidiary" means:

(a) a corporation more than 50% of the voting power or the outstanding Voting Shares of which is owned, directly or indirectly, by the IESO or by one or more other Subsidiaries or by the IESO and one or more other Subsidiaries; or

(b) any Person (other than a corporation) in which the IESO, or one or more other Subsidiaries, directly or indirectly, has at least a majority ownership and power to direct the policies, management and affairs thereof.

~~**"Swap Contract"** means any agreement whether or not in writing, relating to any transaction or derivative transaction including a rate swap, basis swap, forward rate transaction, commodity swap, commodity option, commodity future, equity or equity index swap or option, bond, note or bill option, interest rate option, forward foreign exchange transaction, cap, collar or floor transaction currency swap, cross-currency rate swap, swaption, currency option or other similar transaction (including any option to enter into any of the foregoing) or any combination of the foregoing, and, unless the context otherwise clearly requires, any master agreement relating to or governing any or all of the foregoing.~~

Commented [LS3]: NTD: Program area to add back swap language?

Formatted: Indent: Left: 0", Hanging: 0.5"

~~**"Swap Termination Value"** means, in respect of any one or more Swap Contracts entered into by a Person, after taking into account the effect of any legally enforceable netting agreement relating to such Swap contracts:~~

~~(a) for any date on or after the date such Swap Contracts have been closed out and termination value(s) for such Person have been determined in accordance therewith, such termination value(s); and~~

~~(b) for any date prior to the date referred to in paragraph (a), the net amount determined pursuant to the terms of such Swap Contracts that would be payable by such Person if such Swap Contracts were terminated as of such date.~~

"Voting Shares" of any Person means securities of such Person which ordinarily carry a right to vote for the election of directors (or Persons performing similar functions) of such Person.

Section 1.2 Effect of Headings.

The division of this Agreement into Articles and Sections and the insertion of headings are for convenient reference only and shall not affect the construction or interpretation hereof.

Section 1.3 Singular, Plural, Gender, Certain Phrases, etc.

Where the context permits and unless such interpretation would be inappropriate, words importing the singular only shall include the plural and vice versa and words importing gender may include any gender. In this Agreement, (a) the words "including" and "includes" mean "including (or includes) without limitation", and (b) in the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" excluding".

Section 1.4 Accounting.

Except as otherwise specifically provided herein, all accounting terms shall be applied and construed in accordance with GAAP.

Section 1.5 Non-Business Days.

Whenever any payment to be made hereunder shall be due, any period of time would end, any calculation is to be made or any other action is to be taken on or as of, a day other than a Business Day, such payment shall be made, such period of time shall end, such calculation shall be made and such other actions shall be taken, as the case may be, unless otherwise specifically provided for herein, on or as of the next succeeding Business Day.

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in ~~Canadian~~ Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act*, *1998*, subject to the ~~following~~ condition that~~s:~~

~~(1)~~ ~~P~~proceeds of Advances may be used only for IESO's ~~short term~~ financing needs and requirements of any kind arising in connection with ~~due to cash flow timing differences incurred as a result of~~ the IESO's role with respect to and obligations under~~in the implementation and administration of~~ the OFHP.

~~The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."~~

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

Formatted: No bullets or numbering

Formatted: Indent: First line: 0.5"

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

~~(2)~~ In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.~~8~~9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Formatted: Font: Italic

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance; and (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

~~(5) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated unsecured Indebtedness of the IESO, subject to the existence of (i) any Permitted Liens of the IESO, and (ii) any other Liens that secure Indebtedness in accordance with Section 4.6 hereof.~~

~~(6)~~(5) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [TPW4]: I don't think this does anything, and may in fact be detrimental, as we may be able to argue for some kind of PMSI or other security arising from the operation of the OFHP. Useful if "unsubordinated", but not if "unsecured".

Commented [LS5]: Bruno: Please advise if you are comfortable with this deletion, as suggested by Toby. I am in agreement with his approach; if we add in "unsubordinated" it may require further discussions with IESO counsel (based on earlier comments/discussions).

Section 3.5 Conditions Precedent

The obligation of the OFA~~IESO~~ to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

ARTICLE 4
COVENANTS OF THE IESO

Section 4.1 Payment of Advances.

The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

Section 4.2 IESO will Maintain its Corporate Existence.

The IESO will at all times maintain its corporate existence.

Section 4.3 Maintenance of Properties.

The IESO will cause all property owned by the IESO or any Material Subsidiary to be maintained and kept in good condition, repair and~~an~~ working order, all as in the judgment of the IESO or any Material Subsidiary may be necessary for the proper operation of such property, except as and to the extent that the IESO or any Material Subsidiary may be prevented from doing so by fire, strikes, lockouts, walkouts, labour unrest, acts of God, inability to obtain labour or materials, enemy action, governmental restrictions, civil commotion, or unavoidable casualty or similar causes; provided, however, that nothing in this Section 4.3 shall prevent the IESO or any Material Subsidiary from discontinuing the maintenance of any such property or

decommissioning any such property if such discontinuance or decommissioning is, in the judgment of the IESO or any such Material Subsidiary, desirable in the conduct of its business or the business of any such Material Subsidiary, or has been directly or indirectly requested or required by the Province of Ontario.

Section 4.4 Insurance.

The IESO will cause all property owned by the IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the mature and to the extent that such property is usually insured by companies operating similar businesses.

Section 4.5 Conduct of Business.

The IESO will, and will cause the Subsidiaries to, carry on and conduct their respective businesses in accordance with good business practice~~a proper, efficient and business-like manner and in accordance with good business practice.~~.

Section 4.6 Negative Pledge.

The IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of the IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) the creation, incurrence or assumption of any Purchase Money Mortgage;

(b) the grant of any Lien in the normal course of business to any banks or financial institutions for present or future I~~i~~ndebtedness of the IESO~~-~~ or any Material Subsidiary to such banks or financial institutions payable on demand or having an original term to maturity less than 18 months;

(c) Permitted Liens;

(d) any extension, renewal or replacement of any of the Liens referred to in Sections 4.6(a), (b) or (c), provided that the principal amount secured by any such Lien outstanding immediately before such extension, renewal or replacement or refunding is not thereby increased; and

(e) any Lien charging the interest of the IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c),

provided that, at the time such Lien is created, incurred or assumed, the principal amount of such Indebtedness, together with the aggregate principal amount of all other Indebtedness secured by Liens permitted pursuant to this Section 4.6(e) which is outstanding at such time does not exceed 10% of Consolidated Assets at such time.

Section 4.7 Payment of OFA Expenses

In addition to any liability of the IESO to the OFA under any other provision of this Agreement, the IESO will, on demand, reimburse and indemnify OFA for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OFA in connection with the ~~s~~~~Services~~Agreement (including those services incurred in the preservation of rights under or enforcement of this Agreement at any time during the continuance of a default or Event of Default and for any reasonable loss or expense incurred by OFA as a result of any failure by the IESO to fulfill any of its obligations under this Agreement). All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 4.9 Late Repayment of Advance.

In the event that the IESO fails to repay the principal amount of any Advance and all interest accrued thereon when due, the IESO shall pay interest on the unpaid amount of such Advance at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment.

ARTICLE 5
EVENTS OF DEFAULT AND REMEDIES

Section 5.1 Event of Default.

Wherever used in this Agreement, the term "Event of Default" means any of the following:

(a) the IESO's failure to pay any interest upon ~~the~~ any Advance when it becomes due and payable, if such failure continues for a period of 3 Business Days;

(b) failure to pay the principal amount of any Advance on the applicable Repayment Date or the Advances Outstanding, all interest accrued thereon and all other amounts owing under this Agreement on September 30, 2022;

(c) failure on the part of the IESO to observe or perform its obligations set forth in Section 4.1;

(d) failure on the part of the IESO to observe or perform any of the other covenants or agreements on its part contained in this Agreement for a period of 20 days after the date on which written notice of such failure shall have been given to the IESO by the OFA;

(e) any representation or warranty made by the IESO in this Agreement or in any certificate or other document at any time delivered hereunder to the OFA was incorrect or misleading in any material respect;

(f) one or more breaches by the IESO of its covenants under one or more evidences of I~~i~~ndebtedness or instruments governing or securing the same with a principal amount then outstanding, individually or in the aggregate, of at least $5 million, which breaches:

(i) ~~(i)~~ constitute a failure to pay such Indebtedness when due and payable at its final Stated Maturity, continue after any applicable grace period and have not been cured or waived or ceased to exist, or

(ii) have resulted in such Indebtedness becoming or being declared due and payable prior to its final Stated Maturity (and which acceleration or declaration has not been waived~~waive~~ or rescinded);

(g) the IESO or any Material Subsidiary~~-~~:

(i) becomes unable to meet its obligations as they generally become due or has ceased paying its current obligations in the ordinary course of business as they generally become due~~generally not able to pay its debts as they become due~~;

(ii) admits in writing its inability to pay its debts generally or makes a general assignment for the benefit its creditors or files a proposal or other scheme of arrangement involving the rescheduling or composition of its Indebtedness;

(iii) institutes or has instituted against it any proceeding seeking:

(A) to adjudicate it as bankrupt or insolvent,

(B) liquidation, winding-up or reorganization, arrangement, adjustment, protection, relief or composition of it or its debts under any law relating to bankruptcy,~~.~~ ~~I~~ insolvency,~~.~~ ~~I~~ reorganization or

relief of debtors including any plan of compromise or arrangement or other corporate proceeding involving or affecting its creditors, or

(C) the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its assets,

and in the case of any such proceeding instituted against it (but not instituted by it), either the proceeding remains undismissed or unstayed for a period of 30 days, or any remedy sought in any such proceeding (including the entry of order for relief against it or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its properties and assets) occurs; or

(iv) takes any corporate action to authorize any of the actions in Sections 5.l (h)(i) to (iii); or

(h) if there shall be rendered against the IESO or any Material Subsidiary a final judgment or judgments- for the payment of money in an aggregate amount in excess of $5 million by a court or courts of competent jurisdiction, and the IESO- or any Material Subsidiary shall have failed to satisfy such judgments or to appeal therefrom (or from the order, decree or process pursuant to which such judgments were granted, passed, entered or affirmed) and to obtain a stay of execution thereof within the period prescribed by law for appeals, and to have such judgments- discharged within 30 days after the expiration of such period or the period of any such stay, whichever shall later expire.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3) Business Days ~~of~~after the date on which written notice of ~~providing such written notice~~such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

(b) invoke the Intercept pursuant to section 5.7 of this Agreement to require payment of any amount due and payable under this Agreement.

Commented [LS7]: TBC; further discussion required

Formatted: Font: (Default) Times New Roman, 12 pt, English (Canada)

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) ~~(a)~~ to file and prove a claim for all amounts owing under~~und~~ this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any moneys or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO, amounts equal to any

ARTICLE 6
REPRESENTATIONS AND WARRANTIES OF IESO

Section 6.1 Representations and Warranties of IESO

The IESO represents and warrants to the OFA that:

(a) the borrowing of money (including principal and accrued interest) by the IESO and the execution, delivery and performance of this Agreement are within the powers and capacities of the IESO and have been duly authorized by all necessary legal action and proper proceedings;

(b) the execution and delivery of this Agreement, the consummation of the transactions contemplated by this Agreement and the compliance with the terms and conditions of this Agreement will not conflict with or result in a breach of any of the terms or provisions of the constituting documents or by-laws of the IESO, laws of Ontario, including laws of Canada applicable therein, applicable to the IESO or any contractual or other obligation binding on the IESO;

(c) this Agreement will, when executed and delivered, constitute the legal, valid and binding obligation of the IESO enforceable against it in accordance with its terms; and

(d) the moneysies advanced under this Agreement shall be used only by the IESO for the purposes set out in Section 2.2.

Section 6.2 Continuation of Representation and Warranties

The representations and warranties set out in Section 6.1 herein shall survive the execution and delivery of this Agreement, the making of each Aadvance by the OFA, notwithstanding any investigations or examinations which may be made by counsel for the OFA.

Formatted: Centered

ARTICLE 7
GENERAL

Section 7.1 Notices.

Any notice, direction or other communication to be given under this Agreement shall be in writing and given by personally delivering it or sending it by telecopy or other means of electronic communication addressed:

If to the IESO, to it at:

Independent Electricity System Operator
120 Adelaide Street West, Suite 1600
Toronto, ON M5H 1T1

Attention: Chief Financial Officer
Telephone: (416)969-6232
Fa~~s~~csimile: (905)403-6913

If to the OFA, to it at:

Ontario Financing Authority 1 Dundas Street West
Suite 1400 Toronto, Ontario M7A 1~~I~~Y7

Attention: Executive Director – Capital Markets Division
Telephone: (416)325-8930
Facsimile~~Telecopier~~: (416)325-8111

provided that any Borrowing Notice or Election Notice shall be addressed as indicated on Schedule 1 or Schedule 2 respectively.

Any communication hereunder shall be deemed to have been validly and effectively given if (a) personally delivered, on the date of such delivery if such date is a Business Day and such delivery was made prior to 4:00 p.~~-~~m. (Toronto time), otherwise on the next Business Day, (b) transmitted by facsimile ~~telecopier~~ other means of electronic communication, on the Business Day following the date of transmission provided that, on the date of transmission, the addressee of such communication was notified by telephone of such transmission. Any party may from time to time change its address for communications hereunder by notice give in accordance with this Section 7.1 and until changed by like notice, such changed address shall be such party's address for purposes of this Section 7.1.

Section 7.2 Successors and Assigns.

This Agreement shall be binding on and enure to the benefit of the OFA and the IESO and their respective successors and permitted assigns, except that the IESO shall not, without the

prior written consent of the OFA assign, pledge or hypothecate any rights or obligations with respect to this Agreement.

Section 7.3 Amendments.

This Agreement may only be amended or otherwise modified by written agreement executed by each of the Parties~~OFA and the IESO~~.

Section 7.4 Waiver.

(1) No waiver of any provisions of this Agreement shall be deemed to constitute a waiver of any other provision (whether or not similar) or this Agreement nor shall such waiver be binding unless executed in writing by~~y~~ the party to be bound by the waiver.

(2) No failure on the part of a party to exercise, and no delay in exercising, any right under this Agreement shall operate as a waiver of such right and any single or partial exercise of such right shall not preclude another or further exercise of such right or the exercise of any other right.

Section 7.5 Further Assurances.

Each of the IESO and the OFA shall, from time to time, do all such acts and things and execute and deliver all such instruments as may be reasonably required to give effect to, and carry out the terms of, this Agreement

Section 7.6 Severability.

In case any provision in this Agreement shall be in~~-~~valid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions in this Agreement shall not in any way be affected or impaired thereby.

Section 7.7 Governing Law.

This Agreement shall be construed in accordance with and governed by the laws of the Province of Ontario and the laws of Canada applicable therein.

Section 7.8 Counterparts.

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same Agreement~~instrument~~.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the date first written above.

SCHEDULE 1

FORM OF BORROWING NOTICE

Delivered Via Fax: 416-204-7920

Ontario Financing Authority ("OFA")
1 Dundas Street West, Suite 1400
Toronto, Ontario
M7A 1Y7

Date: [insert date]

Attention: Cash Management

Dear Sirs:

The undersigned, the Independent Electricity System Operator ("IESO"), refers to the Revolving ~~c~~Credit Facility ~~a~~Agreement between the IESO and the OFA dated ~~July~~August (·), 2017 (as amended, supplemented or restated from time to time, the "Agreement", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests an Advance under the Agreement, and, in connection with such request, sets forth below the information relating to such Advance (the "Proposed Advance"), as required by Section 3.2(1) of the Agreement:

(a) The date of the Proposed Advance, being a Business Day is _____;
(b) The aggregate amount of the Proposed Advance is $_____;
(c) The Repayment Date of the Proposed Advance is _____. [Not earlier than 5~~7~~ days and not later than 95 days after the date of the Proposed Advance.]
(d) IESO confirms it will ~~also~~ be paying interest in the amount of $ _____;

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The undersigned herby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice will be used for the following purpose(s):

(1) [indicate amount and purpose of funds requested, specifying IESO sub-categories of borrowing purposes as applicable]
(2) [indicate amount and purpose of funds requested, , specifying IESO sub-categories of borrowing purposes as applicable]]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

Commented [LS9]: For discussion. What is the origin of this amendment?

Commented [LS10]: For discussion.

Formatted: Left, Line spacing: Multiple 1.08 li

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement will be expended or held solely for the purpose for which they are authorized to be used under the Agreement; no part of the funds to be received pursuant to this Notice shall be used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 3 – FORM OF GRID NOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $2,000,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICITY SYSTEM OPERATOR (the "**IESO**"), incorporated under the laws of the Province~~OFA~~ of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY** ("**OFA**") at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid ~~(the "**Grid** Note")~~ attached to and forming part of this Grid Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Revolving Credit Facility Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid Note (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Grid Note together with all interest accrued thereon shall become due and payable as specified in the ~~Credit~~ Agreement dated ~~July~~August (·), 2017 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the "~~Credit~~ Agreement"). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the ~~Credit~~ Agreement.

This Grid Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the ~~Credit~~ Agreement.

This Grid Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Grid Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Grid Note.

---

Hi John,

I only have Lisa's proposed draft language from an earlier draft of the agreement (attached, section 5.7)), which is the following:

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO, amounts equal to any amounts that the IESO fails to pay under this Agreement. On the occurrence of an Event of Default, the Minister of Finance is irrevocably authorized to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO fails to pay to the OFA shall be deducted from money appropriated by the Legislature for payment to the IESO and paid to the OFA.

(Note: At this point, this language has only been shared internally amongst Bruno, Toby, Will and myself.)

I don't have the intercept language from the other MOU that Lisa referenced in our meeting.

Thanks,

Sarah

Hi Sarah,

Further to our meeting yesterday, please see the latest draft of the credit facility agreement for your review. Please note that this is an internal discussion draft only and should not be forwarded to the IESO at this time.

Thank you,

Lisa

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

as Borrower

and

ONTARIO FINANCING AUTHORITY

as Lender

REVOLVING CREDIT FACILITY AGREEMENT

Date: August~~July~~ (·), 2017~~)~~

REVOLVING CREDIT FACILITY AGREEMENT

THIS AGREEMENT is made as of the (·) day of August~~July~~ 2017,

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* (the "IESO")
(as Borrower)

AND

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* (the "OFA" and together with the IESO, the "Parties")
(as Lender)

RECITALS:

WHEREAS the IESO has requested a revolving credit facility for up to a maximum principal amount of $2 billion from the OFA for the purpose of supporting the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017*~~ (the "OFHP")~~.

THEREFORE in consideration of the mutual agreements contained herein (the receipt and adequacy of which are acknowledged), the P~~p~~arties agree as follows:

ARTICLE 1

DEFINITIONS AND OTHER PROVISIONS OF GENERAL APPLICATION

Section 1.1 Definitions.

For all purposes of this Agreement, except as otherwise expressly provided or unless the context otherwise requires, the following terms shall have the meanings assigned to them below:

"Advances" means advances made by the OFA to the IESO under Article 3 and "Advance" means any one of such advances and in the case of an election by the IESO under Section 3.3, may include a ~~or~~ "Continued Advance", ~~-~~as defined in Section 3.3(1), as applicable.

Commented [LS1]: Based on discussion with IESO Counsel. Also see amendment to election notice.

"Advances Outstanding" means, at any time, an amount equal to the aggregate principal amount of all Advances outstanding at such time.

"Agreement", "herein", "hereby", "hereor', "hereunder" and similar expressions mean and refer to this agreement and all schedules hereto and all instruments in amendment or confirmation of this agreement and such schedules and not to any particular article or section; and the expression "Article" or "Section" followed by a number means the specified Article or Section of this Agreement.

"Borrowing Notice" has the meaning specified in Section 3.2(1).

"Business Day" means any day that is not a day on which banks are generally authorized or required by law or executive order to be closed in the City of Toronto.

"**Clean Energy Adjustment"** has the same meaning as that term is ~~"clean energy adjustment" as that term is~~ defined in the OFHP.

"Commitment" means, at any time, an amount equal to $2 billion.

"Consolidated Assets" means, at any time, the book value of the assets of the IESO and the Subsidiaries, determined as of such time on a consolidated basis in accordance with GAAP.

"**Continued Advance"** has the meaning specified in Section 3.3(1).

"Credit Facility" means the revolving credit facility to be made available to the IESO by the OFA under this Agreement for the purposes specified in Section 2.2.

"Default" means any event which, after the giving of notice, or passage of time, or both, would be an Event of Default.

"Dollars" or **"$**" means lawful currency of Canada.

"Election Notice" has the meaning specified in Section 3.3(2).

"Event of Default" has the meaning specified in Section 5.1.

~~"**Financing Entity**" has the same meaning as "financing entity" as that term is defined in the OFHP.~~

"GAAP" means accounting policies and standards as established by the Chartered Professional Accountants of Canada,~~, Public Sector Accounting Board~~ at the relevant time and applied on a consistent basis.

"Grid Note" has the meaning specified in Section 3.2(2).

"Indebtedness" means (without duplication), with respect to any Person, whether recourse is to all or a portion of the assets of such Person and whether or not contingent:

(a) every obligation of such Person for borrowed money;

(b) every obligation of such Person evidenced by bonds, debentures, notes or other similar instruments;

(c) every reimbursement obligation of such Person with respect to letters of credit, bankers' acceptances or similar instruments;

(d) every obligation of such Person issued or assumed as the deferred purchase price of property or services (but excluding trade accounts payable or expenses accrued in the ordinary course of business which are not overdue or which are being contested in good faith);

(e) every capital lease obligation of such Person; and

~~(f) the Swap Termination Value of each Swap Contract of such Person; and~~

(~~f~~g) every obligation of the type referred to in paragraphs (a) through (f) of another Person and all dividends of another Person the payment of which, in each case, such Person has guaranteed or is responsible or liable for, directly or indirectly, as obligor, guarantor or otherwise.

"Lien" means any assignment, hypothec, mortgage, lien, pledge, security interest, encumbrance, title retention agreement or other agreement or arrangement to secure the performance of any obligation (including the payment of Indebtedness).

"Material Subsidiary " means, at any time, a Subsidiary which has consolidated assets with a book value of more than $25 million determined in accordance with GAAP.

"**OFHP**" ~~has the meaning specified in the Recitals to this Agreement.~~means the *Ontario Fair Hydro Plan Act, 2017.*

"Permitted Liens" means:

(a) Liens for taxes and assessments not at the time overdue or any Liens securing workmen's compensation assessments, unemployment insurance or other social security obligations not at the time overdue;

(b) any Liens or rights of distress reserved in or exercisable under any lease for rent and for compliance with the terms of such lease;

Formatted: Indent: Left: 0", First line: 0"

(c) any obligations or duties, affecting the property of the IESO to any municipality or governmental, statutory or public authority, with respect to any franchise, grant, license or permit and any defects in title to structures or other facilities arising solely from the fact that such structures or facilities are constructed or installed on lands held by the IESO or such Material Subsidiary under government permits, leases or other grants, which obligations, duties and defects in the aggregate do not materially impair the use of such property, structures or facilities for the purpose for which they are held by the IESO or such Material Subsidiary;

(d) any deposits or Liens in connection with building contracts, bids or tenders, expropriation proceedings, surety or appeal bonds, costs of litigation when required by law, and public and statutory obligations, Liens or claims incidental to current construction, builders', mechanics', labourers', materialmen's, warehousemen's, carriers' and other similar Liens;

(e) the right reserved to or vested in any municipality or governmental or other public authority by any statutory provision or by the terms of any lease, license, franchise, grant or permit, that affects any lands, to terminate any such lease, license, franchise, grant or permit or to require annual or their periodic payments as a condition to the continuance thereof;

(f) any undetermined or inchoate Liens and charges incidental to the current operations of the IESO or a Material Subsidiary that have not at the time been filed against the IESO or such Material Subsidiary; provided, however, that if any such Lien or charge shall have been filed, the IESO or such Material Subsidiary shall be prosecuting an appeal or proceedings for review with respect to which it shall have secured a stay in the enforcement of any such Lien or charge;

(g) any Lien the validity of which is being contested at the time by the IESO or a Material Subsidiary in good faith and the enforcement of which has been stayed;

(h) any easements, rights-of-way and servitudes that in the opinion of the IESO will not in the aggregate materially and adversely impair the use or value of the land for the purpose for which it is held or occupied by the IESO or a Material Subsidiary;

(i) any Liens and privileges arising out of judgments or awards with respect to which the IESO or a Material Subsidiary shall be prosecuting an appeal or proceedings for review and with respect to which it shall have secured a stay of execution pending such appeal or proceedings for review; and

(j) any other Liens of a nature similar to the foregoing which do not in the opinion of the IESO, acting reasonably, materially impair the use of the property subject thereto or the operation of the business of the IESO or any Material Subsidiary or the value of such property for the purpose of any such business

(k) any Lien arising ~~in connection with~~from the IESO's ~~role and~~ statutory obligations under the OFHP, including with respect to any amounts collected and held by IESO in relation

Formatted: Indent: Left: 0", First line: 0"

Commented [LS2]: For further discussion

Formatted: Indent: Left: 0", Hanging: 0.5"

to the Clean Energy Adjustment, or any lien, whether arising from the action or inaction of IESO that is created under the OFHP.~~otherwise~~.

Formatted: Indent: Left: 0", Hanging: 0.5"

"Person" means any individual, corporation, partnership joint venture, association, trust or unincorporated organization or any government or agency or political subdivision thereof.

"Purchase Money Mortgage" means any Lien on property, granted in connection with financing, assumed or given back in payment of, or created or arising by operation of law to secure, the whole or part of the purchase price of such property, or granted in connection with financing the cost in whole or in part of construction or installation of or improvements to any property, provided that such Lien is incurred or assumed at the time or within 12 months after the purchase of such property or the completion of such construction, installation or improvements, as the case may be, and includes any extension, renewal or replacement thereof on the same property if the principal amount of the Indebtedness secured thereby at the time of such extension, renewal or replacement is not increased and if such Lien is not extended to any other property.

"Repayment Date" means, in respect of the repayment of Advances, the repayment date contained in the most recent Borrowing Notice or Election Notice.

"Stated Maturity" when used with respect to any Indebtedness or any installment of interest thereon, means the date specified in or on the agreement or instrument evidencing such Indebtedness as the fixed date on which any principal amount of such Indebtedness or such installment of interest is due and payable.

"Subsidiary" means:

(a) a corporation more than 50% of the voting power or the outstanding Voting Shares of which is owned, directly or indirectly, by the IESO or by one or more other Subsidiaries or by the IESO and one or more other Subsidiaries; or

(b) any Person (other than a corporation) in which the IESO, or one or more other Subsidiaries, directly or indirectly, has at least a majority ownership and power to direct the policies, management and affairs thereof.

~~**"Swap Contract"** means any agreement whether or not in writing, relating to any transaction or derivative transaction including a rate swap, basis swap, forward rate transaction, commodity swap, commodity option, commodity future, equity or equity index swap or option, bond, note or bill option, interest rate option, forward foreign exchange transaction, cap, collar or floor transaction currency swap, cross-currency rate swap, swaption, currency option or other similar transaction (including any option to enter into any of the foregoing) or any combination of the foregoing, and, unless the context otherwise clearly requires, any master agreement relating to or governing any or all of the foregoing.~~

Commented [LS3]: NTD: Program area to add back swap language?

Formatted: Indent: Left: 0", Hanging: 0.5"

~~**"Swap Termination Value"** means, in respect of any one or more Swap Contracts entered into by a Person, after taking into account the effect of any legally enforceable netting agreement relating to such Swap contracts:~~

~~(a) for any date on or after the date such Swap Contracts have been closed out and termination value(s) for such Person have been determined in accordance therewith, such termination value(s); and~~

~~(b) for any date prior to the date referred to in paragraph (a), the net amount determined pursuant to the terms of such Swap Contracts that would be payable by such Person if such Swap Contracts were terminated as of such date.~~

"Voting Shares" of any Person means securities of such Person which ordinarily carry a right to vote for the election of directors (or Persons performing similar functions) of such Person.

Section 1.2 Effect of Headings.

The division of this Agreement into Articles and Sections and the insertion of headings are for convenient reference only and shall not affect the construction or interpretation hereof.

Section 1.3 Singular, Plural, Gender, Certain Phrases, etc.

Where the context permits and unless such interpretation would be inappropriate, words importing the singular only shall include the plural and vice versa and words importing gender may include any gender. In this Agreement, (a) the words "including" and "includes" mean "including (or includes) without limitation", and (b) in the computation of periods of time from a specified date to a later specified date, unless otherwise expressly stated, the word "from" means "from and including" and the words "to" and "until" excluding".

Section 1.4 Accounting.

Except as otherwise specifically provided herein, all accounting terms shall be applied and construed in accordance with GAAP.

Section 1.5 Non-Business Days.

Whenever any payment to be made hereunder shall be due, any period of time would end, any calculation is to be made or any other action is to be taken on or as of, a day other than a Business Day, such payment shall be made, such period of time shall end, such calculation shall be made and such other actions shall be taken, as the case may be, unless otherwise specifically provided for herein, on or as of the next succeeding Business Day.

ARTICLE 2
REVOLVING CREDIT FACILITY

Section 2.1 Availability.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO. The OFA shall make each Advance in ~~Canadian~~ Dollars.

Section 2.2 Use of Proceeds.

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act*, *1998*, subject to the ~~following~~ condition that~~s:~~

~~(1)~~ ~~P~~proceeds of Advances may be used only for IESO's ~~short term~~ financing needs and requirements of any kind arising in connection with ~~due to cash flow timing differences incurred as a result of~~ the IESO's role with respect to and obligations under~~in the implementation and administration of~~ the OFHP.

~~The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."~~

Section 2.3 Credit Facility Limit.

The Advances Outstanding shall not at any time exceed the Commitment. The Credit Facility shall revolve and no payment under the Credit Facility shall reduce the Commitment.

Section 2.4 Mandatory Repayment.

Subject to Sections 2.5 and 5.2, the IESO shall repay each Advance together with the interest accrued thereon on the applicable Repayment Date, and, in any event, shall repay all Advances Outstanding, together with all accrued interest and all other amounts owing hereunder on September 30, 2022.

Section 2.5 Prepayments.

The IESO is not entitled to prepay any part of the Advances Outstanding or the interest accrued thereon without the prior written consent of the OFA.

Section 2.6 Payments under this Agreement.

(1) The OFA shall make Advances to the IESO under this Agreement to or to the order of the IESO by wire transfer of immediately available funds in accordance with wire transfer instructions given by the IESO to the OFA from time to time, or in such other manner as the IESO may specify to the OFA from time to time.

Formatted: No bullets or numbering

Formatted: Indent: First line: 0.5"

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. The IESO shall make each such payment in Canadian Dollars.

Section 2.7 Computations of Interest.

(1) All computations of interest shall be made by the OFA taking into account the actual number of days (including the first day but excluding the last day) occurring in the period for which such interest is payable on the basis of a year of 365 days or 366 days, as the case may be.

(2) For the purposes of disclosure pursuant to the *Interest Act* (Canada), the yearly rate of interest which is equivalent to a rate of interest payable under this Agreement for any period of less than a year may be determined by multiplying the rate of interest for such period by a fraction, the numerator of which is the actual number of days in a year commencing on and including the first day in such period and ending on but excluding the corresponding in the next calendar year and the denominator of which is the actual number of days in such period.

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the IESO shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the *Criminal Code* (Canada)).

~~(2)~~ In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Section 2.~~8~~9 Application of Payments.

All payments made by the IESO under this Agreement shall be applied firstly to the payment of interest payable to the OFA on late payments of principal or interest hereunder, secondly, to the payment of accrued and unpaid interest payable to the OFA hereunder and thirdly, to the payment of the outstanding principal amount of any Advances payable to the OFA.

ARTICLE 3
ADVANCES

Section 3.1 Advances.

The OFA agrees, on the terms and conditions of this Agreement, to make Advances to the IESO under the Credit Facility from time to time on any Business Day prior to September 23, 2022.

Section 3.2 Procedure for Advances.

(1) Subject to Section 3.3(3), each Advance shall be made subject to two Business Days' prior notice given not later than 10:00 a.m. (Toronto time) by the IESO to the OFA. Each notice of an Advance (a "**Borrowing Notice**") shall be substantially in the form of Schedule 1, shall be irrevocable and binding on the IESO and shall specify (a) the requested date of the Advance, and (b) the principal amount of the Advance, and (c) the Repayment Date of the Advance which shall not be earlier than 5 days and not later than 95 days after the date of the requested Advance. The OFA will make the principal amount of each Advance available to the IESO in accordance with Article 2.

(2) On or before the date of the first Advance hereunder, the IESO shall execute and deliver to the OFA a grid promissory note in respect of Advances substantially in the form of Schedule 3 (the "**Grid Note**"). The IESO authorizes the OFA to record on the Grid Note (a) the date and amount of each Advance or Continued Advance; (b) the applicable rate of interest for each Advance or Continued Advance; (c) the Repayment Date of each Advance or Continued Advance; (d) the date and amount of each payment of interest and each payment of principal in respect of each Advance or Continued Advance; and (e) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of the such advances and repayments; provided that the failure of the OFA to record any amount, rate or date shall not affect the obligation of the IESO to pay the Advances Outstanding and all interest accrued thereon and any other amounts due under this Agreement.

Formatted: Font: Italic

Section 3.3 Elections Regarding Advances.

(1) The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance; and (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

(3) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

(4) Any portion of an Advance not continued for a further period in accordance with Section 3.3(2) shall be repayable on the applicable Repayment Date.

~~(5) The Credit Facility shall at all times rank *pari passu* with all other unsubordinated unsecured Indebtedness of the IESO, subject to the existence of (i) any Permitted Liens of the IESO, and (ii) any other Liens that secure Indebtedness in accordance with Section 4.6 hereof.~~

~~(6)~~(5) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Section 3.4 Interest on Advances.

(1) The IESO shall pay interest on the unpaid principal amount of each Advance in accordance with this Section 3.4 from and including the date of such Advance until the principal amount of such Advance is repaid in full.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Commented [TPW4]: I don't think this does anything, and may in fact be detrimental, as we may be able to argue for some kind of PMSI or other security arising from the operation of the OFHP. Useful if "unsubordinated", but not if "unsecured".

Commented [LS5]: Bruno: Please advise if you are comfortable with this deletion, as suggested by Toby. I am in agreement with his approach; if we add in "unsubordinated" it may require further discussions with IESO counsel (based on earlier comments/discussions).

Section 3.5 Conditions Precedent

The obligation of the OFA~~IESO~~ to make the Advances to the IESO pursuant to Section 2.1 is subject to the following conditions being satisfied to the OFA's satisfaction at the time of making each Advance:

(a) that the representations and warranties of the IESO contained in this Agreement are true and correct as at the date of making the Advance;

(b) that no Event of Default has occurred and is continuing;

(c) that there shall, in the reasonable opinion of the OFA, have been no material adverse change in the financial condition of the IESO or a Material Subsidiary; and

(d) that the OFA has received such other documentation which it has reasonably requested to ensure that the IESO is in compliance with the terms and conditions of this Agreement, including certified true copies of any necessary resolutions, a written legal opinion from counsel to the IESO confirming that the borrowing is within the legal powers of the IESO and that the Agreement is a direct, unsecured obligation of the IESO enforceable against the IESO in form satisfactory to the OFA.

ARTICLE 4
COVENANTS OF THE IESO

Section 4.1 Payment of Advances.

The IESO will duly and punctually pay all amounts owing under this Agreement in accordance with the terms and subject to the conditions of this Agreement.

Section 4.2 IESO will Maintain its Corporate Existence.

The IESO will at all times maintain its corporate existence.

Section 4.3 Maintenance of Properties.

The IESO will cause all property owned by the IESO or any Material Subsidiary to be maintained and kept in good condition, repair and~~an~~ working order, all as in the judgment of the IESO or any Material Subsidiary may be necessary for the proper operation of such property, except as and to the extent that the IESO or any Material Subsidiary may be prevented from doing so by fire, strikes, lockouts, walkouts, labour unrest, acts of God, inability to obtain labour or materials, enemy action, governmental restrictions, civil commotion, or unavoidable casualty or similar causes; provided, however, that nothing in this Section 4.3 shall prevent the IESO or any Material Subsidiary from discontinuing the maintenance of any such property or

decommissioning any such property if such discontinuance or decommissioning is, in the judgment of the IESO or any such Material Subsidiary, desirable in the conduct of its business or the business of any such Material Subsidiary, or has been directly or indirectly requested or required by the Province of Ontario.

Section 4.4 Insurance.

The IESO will cause all property owned by the IESO or any Material Subsidiary which is of a character usually insured by companies operating similar businesses to be insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance) against loss or damage by fire or other hazards or risks of the mature and to the extent that such property is usually insured by companies operating similar businesses.

Section 4.5 Conduct of Business.

The IESO will, and will cause the Subsidiaries to, carry on and conduct their respective businesses in accordance with good business practice~~a proper, efficient and business-like manner and in accordance with good business practice.~~.

Section 4.6 Negative Pledge.

The IESO will not, and will not permit any Material Subsidiary to, create, incur or assume any Lien, charging the interest of the IESO or any Material Subsidiary in any property, to secure any obligations (including any Indebtedness) unless, at or prior to the time such Lien is created, incurred or assumed, all amounts owing under this Agreement are secured equally and rateably with any and all such obligations secured or to be secured by such Lien, for so long as such obligations shall be secured, provided, however, that the foregoing covenant shall not prevent, restrict or apply to any of the following:

(a) the creation, incurrence or assumption of any Purchase Money Mortgage;

(b) the grant of any Lien in the normal course of business to any banks or financial institutions for present or future I~~i~~ndebtedness of the IESO~~-~~ or any Material Subsidiary to such banks or financial institutions payable on demand or having an original term to maturity less than 18 months;

(c) Permitted Liens;

(d) any extension, renewal or replacement of any of the Liens referred to in Sections 4.6(a), (b) or (c), provided that the principal amount secured by any such Lien outstanding immediately before such extension, renewal or replacement or refunding is not thereby increased; and

(e) any Lien charging the interest of the IESO or any Material Subsidiary in any property to secure any Indebtedness, other than any Lien referred to in Sections 4.6(a), (b) or (c),

provided that, at the time such Lien is created, incurred or assumed, the principal amount of such Indebtedness, together with the aggregate principal amount of all other Indebtedness secured by Liens permitted pursuant to this Section 4.6(e) which is outstanding at such time does not exceed 10% of Consolidated Assets at such time.

Section 4.7 Payment of OFA Expenses

In addition to any liability of the IESO to the OFA under any other provision of this Agreement, the IESO will, on demand, reimburse and indemnify OFA for all reasonable costs, charges and expenses, including reasonable fees and disbursements of its agents and counsel, incurred by OFA in connection with the ~~s~~~~Services~~Agreement (including those services incurred in the preservation of rights under or enforcement of this Agreement at any time during the continuance of a default or Event of Default and for any reasonable loss or expense incurred by OFA as a result of any failure by the IESO to fulfill any of its obligations under this Agreement). All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 4.9 Late Repayment of Advance.

In the event that the IESO fails to repay the principal amount of any Advance and all interest accrued thereon when due, the IESO shall pay interest on the unpaid amount of such Advance at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment.

ARTICLE 5
EVENTS OF DEFAULT AND REMEDIES

Section 5.1 Event of Default.

Wherever used in this Agreement, the term "Event of Default" means any of the following:

(a) the IESO's failure to pay any interest upon ~~the~~ any Advance when it becomes due and payable, if such failure continues for a period of 3 Business Days;

(b) failure to pay the principal amount of any Advance on the applicable Repayment Date or the Advances Outstanding, all interest accrued thereon and all other amounts owing under this Agreement on September 30, 2022;

(c) failure on the part of the IESO to observe or perform its obligations set forth in Section 4.1;

(d) failure on the part of the IESO to observe or perform any of the other covenants or agreements on its part contained in this Agreement for a period of 20 days after the date on which written notice of such failure shall have been given to the IESO by the OFA;

(e) any representation or warranty made by the IESO in this Agreement or in any certificate or other document at any time delivered hereunder to the OFA was incorrect or misleading in any material respect;

(f) one or more breaches by the IESO of its covenants under one or more evidences of I~~i~~ndebtedness or instruments governing or securing the same with a principal amount then outstanding, individually or in the aggregate, of at least $5 million, which breaches:

(i) ~~(i)~~ constitute a failure to pay such Indebtedness when due and payable at its final Stated Maturity, continue after any applicable grace period and have not been cured or waived or ceased to exist, or

(ii) have resulted in such Indebtedness becoming or being declared due and payable prior to its final Stated Maturity (and which acceleration or declaration has not been waived~~waive~~ or rescinded);

(g) the IESO or any Material Subsidiary~~-~~:

(i) becomes unable to meet its obligations as they generally become due or has ceased paying its current obligations in the ordinary course of business as they generally become due~~generally not able to pay its debts as they become due~~;

(ii) admits in writing its inability to pay its debts generally or makes a general assignment for the benefit its creditors or files a proposal or other scheme of arrangement involving the rescheduling or composition of its Indebtedness;

(iii) institutes or has instituted against it any proceeding seeking:

(A) to adjudicate it as bankrupt or insolvent,

(B) liquidation, winding-up or reorganization, arrangement, adjustment, protection, relief or composition of it or its debts under any law relating to bankruptcy,~~.~~ ~~I~~ insolvency,~~.~~ ~~I~~ reorganization or

relief of debtors including any plan of compromise or arrangement or other corporate proceeding involving or affecting its creditors, or

(C) the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its assets,

and in the case of any such proceeding instituted against it (but not instituted by it), either the proceeding remains undismissed or unstayed for a period of 30 days, or any remedy sought in any such proceeding (including the entry of order for relief against it or the appointment of a receiver, trustee, custodian or other similar official for it or for any substantial part of its properties and assets) occurs; or

(iv) takes any corporate action to authorize any of the actions in Sections 5.l (h)(i) to (iii); or

(h) if there shall be rendered against the IESO or any Material Subsidiary a final judgment or judgments- for the payment of money in an aggregate amount in excess of $5 million by a court or courts of competent jurisdiction, and the IESO- or any Material Subsidiary shall have failed to satisfy such judgments or to appeal therefrom (or from the order, decree or process pursuant to which such judgments were granted, passed, entered or affirmed) and to obtain a stay of execution thereof within the period prescribed by law for appeals, and to have such judgments- discharged within 30 days after the expiration of such period or the period of any such stay, whichever shall later expire.

Section 5.2 Acceleration of Maturity; Rescission and Annulment.

If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by notice to the IESO, take any or all of the following actions:

(a) suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3) Business Days ~~of~~after the date on which written notice of ~~providing such written notice~~such Event of Default shall have been given to the IESO by the OFA, declare all amounts owing hereunder including all interest accrued to be due and payable immediately, by a notice in writing to the IESO, and upon any such declaration all such amounts shall become immediately due and payable.

(b) invoke the Intercept pursuant to section 5.7 of this Agreement to require payment of any amount due and payable under this Agreement.

Section 5.3 Suits for Enforcement by the OFA.

Commented [LS7]: TBC; further discussion required

Formatted: Font: (Default) Times New Roman, 12 pt, English (Canada)

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

Section 5.4 OFA May File Proof of Claim.

If proceedings for the receivership, insolvency, liquidation, bankruptcy, winding-up, reorganization, arrangement or composition of the IESO under any applicable law are pending, or if a receiver, trustee, custodian or other similar official shall have been appointed for the property of the IESO, or if any other judicial proceedings relative to the IESO, its creditors or its property are pending, the OFA shall be entitled and empowered, by intention in such proceeding or otherwise:

(a) ~~(a)~~ to file and prove a claim for all amounts owing under~~und~~ this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any moneys or other property payable or deliverable on any such claim.

Section 5.5 Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the OFA is intended to be exclusive of any other such right or remedy, and every such right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

Section 5.7 Intercept

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO, amounts equal to any

ARTICLE 6
REPRESENTATIONS AND WARRANTIES OF IESO

Section 6.1 Representations and Warranties of IESO

The IESO represents and warrants to the OFA that:

(a) the borrowing of money (including principal and accrued interest) by the IESO and the execution, delivery and performance of this Agreement are within the powers and capacities of the IESO and have been duly authorized by all necessary legal action and proper proceedings;

(b) the execution and delivery of this Agreement, the consummation of the transactions contemplated by this Agreement and the compliance with the terms and conditions of this Agreement will not conflict with or result in a breach of any of the terms or provisions of the constituting documents or by-laws of the IESO, laws of Ontario, including laws of Canada applicable therein, applicable to the IESO or any contractual or other obligation binding on the IESO;

(c) this Agreement will, when executed and delivered, constitute the legal, valid and binding obligation of the IESO enforceable against it in accordance with its terms; and

(d) the moneysies advanced under this Agreement shall be used only by the IESO for the purposes set out in Section 2.2.

Section 6.2 Continuation of Representation and Warranties

The representations and warranties set out in Section 6.1 herein shall survive the execution and delivery of this Agreement, the making of each Aadvance by the OFA, notwithstanding any investigations or examinations which may be made by counsel for the OFA.

ARTICLE 7
GENERAL

Section 7.1 Notices.

Any notice, direction or other communication to be given under this Agreement shall be in writing and given by personally delivering it or sending it by telecopy or other means of electronic communication addressed:

If to the IESO, to it at:

Independent Electricity System Operator
120 Adelaide Street West, Suite 1600
Toronto, ON M5H 1T1

Attention: Chief Financial Officer
Telephone: (416)969-6232
Fa~~s~~csimile: (905)403-6913

If to the OFA, to it at:

Ontario Financing Authority 1 Dundas Street West
Suite 1400 Toronto, Ontario M7A 1~~I~~Y7

Attention: Executive Director – Capital Markets Division
Telephone: (416)325-8930
Facsimile~~Telecopier~~: (416)325-8111

provided that any Borrowing Notice or Election Notice shall be addressed as indicated on Schedule 1 or Schedule 2 respectively.

Any communication hereunder shall be deemed to have been validly and effectively given if (a) personally delivered, on the date of such delivery if such date is a Business Day and such delivery was made prior to 4:00 p.~~-~~m. (Toronto time), otherwise on the next Business Day, (b) transmitted by facsimile ~~telecopier~~ other means of electronic communication, on the Business Day following the date of transmission provided that, on the date of transmission, the addressee of such communication was notified by telephone of such transmission. Any party may from time to time change its address for communications hereunder by notice give in accordance with this Section 7.1 and until changed by like notice, such changed address shall be such party's address for purposes of this Section 7.1.

Section 7.2 Successors and Assigns.

This Agreement shall be binding on and enure to the benefit of the OFA and the IESO and their respective successors and permitted assigns, except that the IESO shall not, without the

prior written consent of the OFA assign, pledge or hypothecate any rights or obligations with respect to this Agreement.

Section 7.3 Amendments.

This Agreement may only be amended or otherwise modified by written agreement executed by each of the Parties~~OFA and the IESO~~.

Section 7.4 Waiver.

(1) No waiver of any provisions of this Agreement shall be deemed to constitute a waiver of any other provision (whether or not similar) or this Agreement nor shall such waiver be binding unless executed in writing by~~y~~ the party to be bound by the waiver.

(2) No failure on the part of a party to exercise, and no delay in exercising, any right under this Agreement shall operate as a waiver of such right and any single or partial exercise of such right shall not preclude another or further exercise of such right or the exercise of any other right.

Section 7.5 Further Assurances.

Each of the IESO and the OFA shall, from time to time, do all such acts and things and execute and deliver all such instruments as may be reasonably required to give effect to, and carry out the terms of, this Agreement

Section 7.6 Severability.

In case any provision in this Agreement shall be in~~-~~valid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions in this Agreement shall not in any way be affected or impaired thereby.

Section 7.7 Governing Law.

This Agreement shall be construed in accordance with and governed by the laws of the Province of Ontario and the laws of Canada applicable therein.

Section 7.8 Counterparts.

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same Agreement~~instrument~~.

IN WITNESS WHEREOF the Parties have executed this Agreement as of the date first written above.

Attention: Cash Management

Dear Sirs:

The undersigned, the Independent Electricity System Operator ("IESO"), refers to the Revolving ~~c~~Credit Facility ~~a~~Agreement between the IESO and the OFA dated ~~July~~August (·), 2017 (as amended, supplemented or restated from time to time, the "Agreement", the terms defined therein being used herein as therein defined), and gives you notice pursuant to Section 3.2 of the Agreement that the IESO requests an Advance under the Agreement, and, in connection with such request, sets forth below the information relating to such Advance (the "Proposed Advance"), as required by Section 3.2(1) of the Agreement:

(a) The date of the Proposed Advance, being a Business Day is _____;
(b) The aggregate amount of the Proposed Advance is $_____;
(c) The Repayment Date of the Proposed Advance is _____. [Not earlier than 5~~7~~ days and not later than 95 days after the date of the Proposed Advance.]
(d) IESO confirms it will ~~also~~ be paying interest in the amount of $ _____;

Such request of the Proposed Advance shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Use of Funds

The undersigned herby certifies that the funds comprising the Proposed Advance requested pursuant to this Notice will be used for the following purpose(s):

(1) [indicate amount and purpose of funds requested, specifying IESO sub-categories of borrowing purposes as applicable]
(2) [indicate amount and purpose of funds requested, , specifying IESO sub-categories of borrowing purposes as applicable]]

The IESO hereby certifies that:

The representations and warranties of the IESO contained in the Agreement are true and correct as at the date hereof.

No Event of Default has occurred or is continuing and no event or condition has occurred, which, with the lapse of time or the giving of notice or both would constitute an Event of Default.

Commented [LS9]: For discussion. What is the origin of this amendment?

Commented [LS10]: For discussion.

Formatted: Left, Line spacing: Multiple 1.08 li

The IESO has complied or is complying with all terms, covenants and conditions contained in the Agreement.

Any and all funds received under the Agreement will be expended or held solely for the purpose for which they are authorized to be used under the Agreement; no part of the funds to be received pursuant to this Notice shall be used for any other purpose.

Yours truly,

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

SCHEDULE 3 – FORM OF GRID NOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $2,000,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICITY SYSTEM OPERATOR (the "**IESO**"), incorporated under the laws of the Province~~OFA~~ of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY** ("**OFA**") at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid ~~(the "**Grid** Note")~~ attached to and forming part of this Grid Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Revolving Credit Facility Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid Note (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the Grid Note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Grid Note together with all interest accrued thereon shall become due and payable as specified in the ~~Credit~~ Agreement dated ~~July~~August (·), 2017 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the "~~Credit~~ Agreement"). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the ~~Credit~~ Agreement.

This Grid Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the ~~Credit~~ Agreement.

This Grid Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Grid Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Grid Note.

Subject: RE: Intercept provision
Date: Wednesday, August 16, 2017 3:30:07 PM

Fyi, I did let Lisa know who is drafting the direction for tomorrow's timeline. My understanding is that OFA decided on that course.

From: Sarah Harris
Sent: Wednesday, August 16, 2017 11:51 AM
To: John Kim
Cc: Bruno Amara
Subject: RE: Intercept provision

Hi John,

I only have Lisa's proposed draft language from an earlier draft of the agreement (attached, section 5.7)), which is the following:

(a) The IESO hereby acknowledges that the Minister of Finance is entitled to deduct from monies appropriated by the Legislature for payment to the IESO, amounts equal to any amounts that the IESO fails to pay under this Agreement. On the occurrence of an Event of Default, the Minister of Finance is irrevocably authorized to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA in accordance with the provisions of this Agreement and to pay such amounts directly to the OFA ("**Intercept**").

(b) The IESO agrees that any notice from the OFA to the Minister of Finance in relation to this section may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance and, upon receipt of such notice, an amount equal to the amount that the IESO fails to pay to the OFA shall be deducted from money appropriated by the Legislature for payment to the IESO and paid to the OFA.

(Note: At this point, this language has only been shared internally amongst Bruno, Toby, Will and myself.)

I don't have the intercept language from the other MOU that Lisa referenced in our meeting.

Thanks,

Sarah

Subject: Loan agreement question re limit on rate of interest

Hi Maryam and Tony,

I would like to request your opinion on the following drafting matter re: loan agreements. I have been advised by Capital Markets staff that the following language has been removed from OFA debt documentation:

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the Borrower shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the Criminal Code (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Do you know if this was based on MOF Legal advice? Do you have any background regarding this change? Do MOF loan precedents still contain such language?

Thank you,

Lisa

Subject: FW: Loan agreement question re limit on rate of interest

Hi William,

As per the e-mails below, I'm trying to determine the rationale for removing the anti-criminal rate of interest clauses from the FHP agreement. Are you able to provide further background/insight into this matter?

Thank you,

Lisa

Hi Lisa

Perhaps we, can discuss it next week. It may be because this particular agreement is based on an existing agreement with the OPA. Copying Toby here because he has been working on the FHP

Subject: RE: Loan agreement question re limit on rate of interest

Hi Malle,

This specific question is in relation to a loan to the IESO (FHP credit facility agreement). My clients from Capital Markets are Sarah Harris, William Tan, Kelly Listoe. I had planned to ask them about the context for the previous removal of these clauses but wanted to first see if MOF had any insight. Please let me know if you would like to set up a call to discuss?

Thanks,

Lisa

Hi Lisa,

I'm not aware of any recent discussion on this topic, but is it in relation to specific loans that the OFA is making. Who in Capital Markets were you speaking to? Thanks.

Subject: Loan agreement question re limit on rate of interest

Hi Maryam and Tony,

I would like to request your opinion on the following drafting matter re: loan agreements. I have been advised by Capital Markets staff that the following language has been removed from OFA debt documentation:

Section 2.8 Limit on Rate of Interest.

(1) Notwithstanding any provision contained in this Agreement, the Borrower shall not be obliged to make any payments of interest or other amounts payable to the OFA hereunder in excess of the amount or rate which would be prohibited by applicable law or would result in the receipt by the OFA of interest at a criminal rate (as such terms are construed under the Criminal Code (Canada)).

(2) In the event that any such payments are limited or prohibited as provided in Section 2.8(1), the OFA shall have no further obligation to make any Advances available hereunder and the Advances Outstanding, together will all accrued interest and all other amounts owing hereunder, shall become immediately due and payable.

Do you know if this was based on MOF Legal advice? Do you have any background regarding this change? Do MOF loan precedents still contain such language?

Thank you,

Lisa

Hi Will,

Yes, in order to clean up the draft, please accept any IESO amendments that we are in agreement with and that do not require further discussion. Please leave in all OFA amendments and comments (except for internal discussion comments) for IESO review. Please make all additional changes as discussed and send to me for review before we send to IESO.

Thank you,

Lisa

Hi -
I am working from home today and I don't have two screens or printing capability so am a bit concerned that I am not going to be able to effectively untangle the drafting/track changes confusion without creating more confusion. I will be able to do this fairly quickly first thing on Monday morning once I can see IESO's original draft, OFA's original draft and our proposed changes to IESO's comments.
That said, I am aware time is ticking and we need to know if we need to get a new directive moving to the Minister which means we need to know if IESO will accept our liquidity purposes limitation.
I would propose the following: that you, send an e-mail to IESO with the following substantive comments and ask for their response:

1) We do not agree to change the wording in para 2 and 3 with respect to the delivery of the new prom note and cancellation and return of the old prom note [you can insert the reasons supporting this position which are in the comment boxes on the draft circulating late yesterday];
2) Provide IESO with a cut and paste of the revised language for the use of proceeds in para 4 as set out below and ask if they are ok with this?:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, provided that Advances may be used only for liquidity purposes."

Please let me know if you accept this approach.
Thanks very much,
Sarah

HI Will – I have comments on the attached. I highlighted them with yellow because I think my changes get anonymized otherwise.
Please note that I have taken as a starting point for this review the draft you circulated on July 11 and identified in your e-mail on that date as the IESO's revised draft (the IESO Draft). I have assumed that the track changes in that draft were made by the IESO only and not changed by you (I note you did add comments, I am referring only to the drafting changes in the clauses themselves). If that assumption is wrong, don't even open this draft, if won't make sense.
I have compared your draft to the July 11 draft and put back in the IESO's language, accepted it where appropriate, and then overlaid the OFA's suggested additional changes where required. We can't send a document back that does not track all changes we made to the version the IESO sent us. The only exception to this is in paragraphs 2 and 3 which have been revised back to the OFA's original language. The comment boxes clearly inform the IESO that this has been done.
If my assumption with respect to the IESO Draft is correct, you can remove the highlighting from the document, leaving just the tracked changes and comments and send to IESO, if my assumption is wrong, please send me the version that the IESO sent us, and I will track in the required changes.
Please also note that I recommend deleting one of the comment boxes as in my view it is not relevant.
Please let me know if you have questions or would like to discuss.
Thanks very much,
Sarah

Hi William – I have reviewed and made changes on the attached – I believe they should show up in purple.
I think, given the back and forth we have had on this, that there are lots of internal comments and discussion on the attached that we probably don't need to share with IESO. I would recommend you pull up the original mark-up you got from IESO and work from that. That way you can go back with a simple clean draft which accepts those changes we agree with and shows as further mark up only OFA's changes to IESO's draft and including only those comments required to explain our position to IESO (most notably where we are not accepting IESO's changes in paragraphs 2 and 3).
The alternative approach is to take the version we sent them and track in those changes we agree with from IESO's draft.
Please let me know if you have comments or would like to discuss any of my changes.
Thanks very much,
Sarah

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator", and the obligations of the OPA became obligations of the amalgamated corporation;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9"), the OPA or Independent Electricity System Operator ("IESO") (as applicable) and the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

Commented [A1]: Agree. To maintain consistency with this amending agreement, previous amending agreements and this credit facility the OPA/IESO is stated before OFA.

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount available under the Credit Agreement from $975,000,000 to a total principal amont of up to $475,000,000; and (ii) to amend the use of proceeds under the Credit Agreement;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

2. On the date of this Amending Agreement and prior to any further Aadvances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Aadvances Ooutstanding to date of $114,383,131.40.

3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO.

4. Section 2.3 "Use of Proceeds" of the Credit Agreement is deleted in its entirety and replaced by the following:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time and provided that Advances may be used only for liquity purposes.".

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

Commented [A2]: Agreed, subject to change.

Commented [A3]: Anthony,

This language should revert back to the original language. Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Commented [A4]: Anthony,

This should should revert back to the original language because OFA would not cancel the existing Grid Note until we receive the new one Grid Note is received.

IN WITNESS WHEREOF the parties hereto have executed and delivered this Amending Agreement No. 10 as of the date first above written.

ONTARIO FINANCING AUTHORITY

Per: _____
Name: Michael D. Manning
Title: Executive Director
Capital Markets Division

I have authority to bind the corporation.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR

Per: _____
Name: Kimberly Marshall
Title: Vice President, Corporate Services; Chief Financial Officer; Treasurer

I have authority to bind the corporation.

SCHEDULE 3 TO AMENDING AGREEMENT NO. 10

SCHEDULE 3

Commented [A5]: Anthony,

Should be Schedule 3, not Schedule 1.

Schedule 1 is Form of Borrowing Notice.
Schedule 2 is Election Notice.
Schedule 3 is Grid Note

Commented [A6]: GRIDNOTE is note a defined term in the credit facility agreement.
Schedule 3, is known as GRID NOTE.

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

INDEPENDENT ELECTRICTY SYSTEM OPERARTOR

Hi Gavin,
I cleaned up the Amending Agreement 10, to help eliminate some of the confusion.
Sarah N, do you mind taking a quick look. I hope I captured everything.

Hi William – I have reviewed and made changes on the attached – I believe they should show up in purple.
I think, given the back and forth we have had on this, that there are lots of internal comments and discussion on the attached that we probably don't need to share with IESO. I would recommend you pull up the original mark-up you got from IESO and work from that. That way you can go back with a simple clean draft which accepts those changes we agree with and shows as further mark up only OFA's changes to IESO's draft and including only those comments required to explain our position to IESO (most notably where we are not accepting IESO's changes in paragraphs 2 and 3).
The alternative approach is to take the version we sent them and track in those changes we agree with from IESO's draft.
Please let me know if you have comments or would like to discuss any of my changes.
Thanks very much,
Sarah

Subject: RE: OFA IESO Amending Agreement No 10 COMPARE OFA Draft July 25 - OFA legal.docx
Date: Tuesday, August 15, 2017 4:44:17 PM

Hi, just had a discussion with John Kim. He was asking if there is a risk for the intercept mechanism to be included in the agreement. I told him I didn't think so. The bigger issue was that we didn't want to raise red flags to the credit rating agencies by getting a security interest in the regulatory asset and I thought that if we are sure that the intercept mechanism has no effect in the IESO agreement, then put it in and get the agreement done.
He is trying to avoid going to the minister with a new directive- I honestly don't blame him. I wouldn't do it!

Subject: RE: OFA IESO Amending Agreement No 10 COMPARE OFA Draft July 25 - OFA legal.docx
Hi Lisa,
The plan is still to reduce the existing facility to $475 million, but existing facility will be used for draws until such time that the new facility is in place. We informed Anthony that we would look to re-allocate loans from the existing facility to the new credit facility when the new facility is executed. We are confirming with the various OFA areas (Settlements, Risk, Accounting, Cash) regarding the operational requirements, but the idea is that there will be no impact from a cash flow standpoint (i.e. no actual transfer of funds for IESO to repay loans under one facility, and therefore no need for the OFA to transfer funds under the new facility. Ken K. and I have discussed this, but am cc'ing him so he is aware that I have communicated this direction.
We will need to have a call with IESO to identify which loans would be transferred from one facility to another; it would be beneficial for you and Victor to be on this call so the particulars regarding what legal approach may be taken can be considered (i.e. incorporate provisions into the amending agreement, I am thinking).
Thanks,
Sarah

Hi Will,
I believe business decisions regarding next steps are required before we can amend this agreement.

I understand that the OFA may not be reducing the existing line by the amount previously contemplated? Alternatively, additional terms re: re-payment may be required. Please provide instructions as to the further amendments that are required, or provide me with a revised draft for review. Happy to discuss further.
Lisa

I'm follow-up to make sure this is still on your radar. I know you're working hard on the new directive and was busy with the intercept provision and credit facility last week. As you know the directive is the priority right now.
Thanks,
Will

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?
2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,
Will

Hi Will and JF,

Please see attached with the most recent edits, as discussed during our conference call. I was unable to delete the details from the grid on the last page – can one of you please do this and send the document back to me for final review.

Thank you,

Lisa

Hi Sarah/William,

Thanks for cleaning this up. We are good with the edits on paragraph 4 ("use of proceed") and have no other edits.

In addition, I just fixed the "Author" issue, so the tracked changes should show the proper names going forward.

Regards,

Gavin He

Subject: OFA IESO Amending Agreement No 10 COMPARE OFA Draft July 24 to IESO Draft July 7.docx
Importance: High

Good morning Will,

Hope you had a nice weekend. Attached is the mark up of Amending Agreement No 10. I have accepted all changes on the IESO draft of July 7, with the exception of Paragraphs 2 & 3 which has been changed back to the OFA's original language. This is clearly noted in a comment box which should travel with the draft to IESO. Based on IESO's response on Friday, this should not be a controversial amendment.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

Please let me know if you require anything further or if you have questions.

Thanks very much and best regards,

Sarah

AMENDING AGREEMENT NO. 10

This Amending Agreement No. 10 (this "**Amending Agreement**") is made as of the (·) day of July, 2017

BETWEEN:

INDEPENDENT ELECTRICITY SYSTEM OPERATOR, a statutory corporation without share capital existing under the *Electricity Act, 1998* ("**IESO**")

-and-

ONTARIO FINANCING AUTHORITY, a Crown agency established under the *Capital Investment Plan Act, 1993* ("**OFA**")

WHEREAS the Ontario Power Authority ("**OPA**") and the OFA entered into a credit agreement dated January 1, 2005 (the "**Original Agreement**");

AND WHEREAS effective January 1, 2015, the OPA and the then existing Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the *Electricity Act, 1998* with the name "Independent Electricity System Operator" **("IESO")**, and the obligations of the OPA became obligations of the IESO~~amalgamated corporation~~;

AND WHEREAS pursuant to the amending agreements dated February 14, 2005, October 11, 2005 (titled, "Amending Agreement No. 3"), September 27, 2006 (titled, "Amending Agreement No. 4"), July 13, 2007 (titled, "Amending Agreement No. 5"), November 9, 2010 (titled, "Amending Agreement No. 6"), December 20, 2013 (titled, "Amending Agreement No. 7"), December 19, 2014 (titled, "Amending Agreement No. 8") and November 30, 2016 (titled, "Amending Agreement No. 9"), the ~~OFA and~~ OPA or IESO (as applicable) and the OFA amended the Original Agreement (as so amended, the "**Credit Agreement",** the terms defined therein being used herein as therein defined);

AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount available under the Credit Agreement ~~of the operating facility~~ from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) amend the use of proceeds under the Credit Agreement~~to update the uses which IESO may make of the funds drawn under the facility~~;

AND WHEREAS pursuant to Section 7.3 of the Credit Agreement, the Credit Agreement may only be amended or otherwise modified by written agreement executed by each of the OFA and the IESO.

THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions hereafter set out, the parties agree that:

1. The definition of "Commitment" in Section 1.1 of the Credit Agreement is amended by deleting "$975,000,000" and substituting "$475,000,000" therefor.

2. On the date of this Amending Agreement and prior to any further A~~a~~dvances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the

Formatted: Font: Bold

Commented [A1]: NOTE: IESO proposed changes to Paragraphs 2 & 3 have NOT been accepted. Track changes show minor changes to OFA original clauses to true up the references to the appropriate defined terms in the Credit Agreement.

principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Aadvances Ooutstanding to date of $[**Insert amount outstanding as of date of execution**]114,383,131.40.

3. Upon receipt of the new grid promissory note delivered hereunder, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO.

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement is deleted in its entirety and replaced by the following:and replace it as follows:

   "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time, provided that Advances may be used only liquidity purposes."

IN ALL OTHER RESPECTS, the Credit Agreement is confirmed by the parties.

[*signature page follows*]

SCHEDULE ~~3~~1 TO AMENDING AGREEMENT NO. 10

~~SCHEDULE 3~~EXECUTED GRIDNOTE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR GRID NOTE

Principal Amount: Up to $475,000,000 Date:

FOR VALUE RECEIVED, INDEPENDENT ELECTRICTY SYSTEM OPERATOR (the **"IESO"**), incorporated under the laws of the Province of Ontario and having its principal office and place of business at Toronto, Ontario, **PROMISES TO PAY** to or to the order of **ONTARIO FINANCING AUTHORITY ("OFA")** at its offices at Toronto, Ontario or at such other place as the OFA may designate, the principal amount of each and all Advances made by the OFA to the IESO, all as recorded by the OFA on the grid (the **"Grid"**) attached to and forming part of this Note, in lawful money of Canada, with interest on each Advance at the rate, calculated in the manner and payable at the times specified in the Credit Agreement (as defined below).

OFA shall and is unconditionally and absolutely authorized and directed by the IESO to record on the Grid (i) the date and amount of each Advance, including any Advance all or a portion of which is continued by election under Section 3.3; (ii) the applicable rate of interest for each Advance; (iii) the repayment date of each Advance; (iv) the date and amount of each payment of interest and each payment of principal in respect of each Advance; and (v) the outstanding principal amount of the grid promissory note. Such notations, in the absence of manifest error, shall be *prima facie* evidence of such advances and repayments; provided that the failure of the OFA to record the same shall not affect the obligations of the Borrower to pay such amounts to the OFA.

The outstanding principal amount of each Advance under this Note together with all interest accrued thereon shall become due and payable as specified in the Credit Agreement dated January 1, 2005 as amended, supplemented or restated from time to time, between the Borrower and the OFA (the **"Credit Agreement"**). All capitalized terms used herein and not otherwise defined herein shall have the meanings given to such terms in the Credit Agreement.

This Note is issued pursuant to, and is subject to and payable in accordance with the provisions of, the Credit Agreement.

This Note is not transferable or negotiable without the prior written consent of the IESO.

The IESO waives presentment for payment and notice of non-payment.

This Note shall be governed by and interpreted and enforced in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

IN WITNESS WHEREOF the IESO has executed this Note.

Good morning Sarah,
I had an uneventful weekend but relaxing weekend. Thanks for asking.
I'll send this to IESO once they confirm back to me that they are fine with all the changes.
Thanks for putting this together and simplifying the process.
Will

Hi Lisa,
The plan is still to reduce the existing facility to $475 million, but existing facility will be used for draws until such time that the new facility is in place. We informed Anthony that we would look to re-allocate loans from the existing facility to the new credit facility when the new facility is executed. We are confirming with the various OFA areas (Settlements, Risk, Accounting, Cash) regarding the operational requirements, but the idea is that there will be no impact from a cash flow standpoint (i.e. no actual transfer of funds for IESO to repay loans under one facility, and therefore no need for the OFA to transfer funds under the new facility. Ken K. and I have discussed this, but am cc'ing him so he is aware that I have communicated this direction.
We will need to have a call with IESO to identify which loans would be transferred from one facility to another; it would be beneficial for you and Victor to be on this call so the particulars regarding what legal approach may be taken can be considered (i.e. incorporate provisions into the amending agreement, I am thinking).
Thanks,
Sarah

Hi Will,
I believe business decisions regarding next steps are required before we can amend this agreement. I understand that the OFA may not be reducing the existing line by the amount previously contemplated? Alternatively, additional terms re: re-payment may be required. Please provide instructions as to the further amendments that are required, or provide me with a revised draft for review. Happy to discuss further.

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?
2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,

Will

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to

the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free

and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Hi Sarah

Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.

But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Bruno

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Attachments:	RE Policy questions re OFHP Credit Facility Agreement .msg

Hi Lisa,

The plan is still to reduce the existing facility to $475 million, but existing facility will be used for draws until such time that the new facility is in place. We informed Anthony that we would look to re-allocate loans from the existing facility to the new credit facility when the new facility is executed. We are confirming with the various OFA areas (Settlements, Risk, Accounting, Cash) regarding the operational requirements, but the idea is that there will be no impact from a cash flow standpoint (i.e. no actual transfer of funds for IESO to repay loans under one facility, and therefore no need for the OFA to transfer funds under the new facility. Ken K. and I have discussed this, but am cc'ing him so he is aware that I have communicated this direction.

We will need to have a call with IESO to identify which loans would be transferred from one facility to another; it would be beneficial for you and Victor to be on this call so the particulars regarding what legal approach may be taken can be considered (i.e. incorporate provisions into the amending agreement, I am thinking).

Thanks,

Sarah

Hi Will,

I believe business decisions regarding next steps are required before we can amend this agreement. I understand that the OFA may not be reducing the existing line by the amount previously contemplated? Alternatively, additional terms re: re-payment may be required. Please provide instructions as to the further amendments that are required, or provide me with a revised draft for review. Happy to discuss further.

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?
2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,
Will

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to

the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free

and clear of any security interest;
4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Ken k

But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?

I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Will,
I believe business decisions regarding next steps are required before we can amend this agreement. I understand that the OFA may not be reducing the existing line by the amount previously contemplated? Alternatively, additional terms re: re-payment may be required. Please provide instructions as to the further amendments that are required, or provide me with a revised draft for review. Happy to discuss further.

Hi Lisa,

1. I don't recall having OFA Legal sign-off on this. "Simple Markup" view has no data on the grid note.
   Perhaps changes in the FHP Credit Facility will incur more changes to the Amending Agreement 10?
2. I was able to confirm Anthony's outstanding grid note balance. Anthony will have the signatory sign the Grid Note effectively acknowledging the outstanding balance. I will change the "as of August 8" date to the signature date once we know the signature date. The numbers are also supported by the Rollover Notices provided on July 21. Please review and comment on the Grid Note.

Thanks,
Will

Hi, just had a discussion with John Kim. He was asking if there is a risk for the intercept mechanism to be included in the agreement. I told him I didn't think so. The bigger issue was that we didn't want to raise red flags to the credit rating agencies by getting a security interest in the regulatory asset and I thought that if we are sure that the intercept mechanism has no effect in the IESO agreement, then put it in and get the agreement done.
He is trying to avoid going to the minister with a new directive- I honestly don't blame him. I wouldn't do it!

Hi Lisa,
The plan is still to reduce the existing facility to $475 million, but existing facility will be used for draws until such time that the new facility is in place. We informed Anthony that we would look to re-allocate loans from the existing facility to the new credit facility when the new facility is executed. We are confirming with the various OFA areas (Settlements, Risk, Accounting, Cash) regarding the operational requirements, but the idea is that there will be no impact from a cash flow standpoint (i.e. no actual transfer of funds for IESO to repay loans under one facility, and therefore no need for the OFA to transfer funds under the new facility. Ken K. and I have discussed this, but am cc'ing him so he is aware that I have communicated this direction.
We will need to have a call with IESO to identify which loans would be transferred from one facility to another; it would be beneficial for you and Victor to be on this call so the particulars regarding what legal approach may be taken can be considered (i.e. incorporate provisions into the amending agreement, I am thinking).
Thanks,
Sarah

Hi Will and JF,

Please see attached with the most recent edits, as discussed during our conference call. I was unable to delete the details from the grid on the last page – can one of you please do this and send the document back to me for final review.

Thank you,

Lisa

Attachments: OFA Loan OICs 11-July-17 am (rec to Acctng).xlsx

---

Hi Sarah,

I updated and reconciled to extent possible based on this morning's balances in OLMS.

I can't tie Fanshawe back to TAS taking into account activity since year end- need fresh eyes- I can show you what I used to try to figure it out.

I built my used authority figure as follows:

1) Picked up Loan Outstanding Balance from OLMS report run this morning
2) Determined difference to TAS
3) Identified repayment, advances and compounded interest that seemed to address difference
4) Overrode O/S report with max limit for Construction Loans and LOC

Still trying to figure out methodology used las time with breaking out advances and capitalized interest. IF you could see if you can figure out how Fanshawe works it would be great as I have spent hours now and not tied it to TAS by adjusting for activity since year end. We could look together perhaps?

I am going to keep trying to figure out the other.

Regards,

Andrea

Subject: FW: OFA Loan Update from CFB

Hi Andrea,

I can see that it will be the blind leading the blind.

When you're free, let's discuss. I know you do have a couple of things on your plate right now. We might throw this to another analyst, given your docket, but if so, I'd like to give a 'formal hand-off' with your input.

Thanks,
Sarah

Subject: OFA Loan Update from CFB

Hello Sarah,

Mara informed me that Documentation would like to have the attached file confirmed by our group. I'll review the document, but I was hoping to ask a few questions for what you need.

- Which date do we want these dollar values to reflect? Do we want these dollar values to still reflect the "as at May 5" date?
- For the Repaid and Capitalized Interest columns, shall we connect and discuss what kind of entries you're looking for here?

I'm available to discuss over the phone or I don't mind coming up to your floor either. Please let me know when a good time would be.

Thanks,

Daki Proudfoot

March 31, 2017 TAS Rec from Accounting.pdf
OFA Loan OICs 11-July-17 am (Final).pdf

Hi,

Attached is a somewhat cleaned up version of July 11 calculation (plus pdf version) of the available authority assuming capitalized interest is not included for now. I hid rows and columns pretty much.

Still cannot figure out how current Fanshawe balance makes sense to TAS as of March 31 adjusted for activity since March 31. My attempt is in the last sheet of the workbook. Note that TAS was out to PBFS by spread amounts (see attached acctng rec) at year end it seems so I expected the same. Not the case. I do not think this is of immediate consequence though.

For Bonnie's purpose I think the remaining authority is not materially impacted by this.

I think we are good to provide the. 1,377,594,955.57 figure as the remaining authority as of July 11. It will not be materially off even if capitalized interest is to be included.

Let me know you thoughts. Then hopefully it can be forwarded to Bonnie.

Regards,

Andrea

Subject: RE: OFA Loan Update from CFB

Hello Sarah and Andrea,

For your reference, please find attached a copy of my check for the Borrowing Authority Allocated amounts. For construction loans, the capitalized interest was not included in the BA Allocated amount. You'll find my review, along with notes, in the rightmost area of the spreadsheet. We can further discuss when you're able.

In addition, through my checks, I noticed that the original agreement between the OFA and OCC referenced "OIC 1420/2008" as the OIC that authorizes OCC to borrow the funds. I was wondering if you're familiar with this OIC and if you had a copy of it by any chance.

Thanks,

Daki

Subject: RE: OFA Loan Update from CFB

Hello Sarah and Andrea,

In regards to our discussion the other day, please see below for further information on the items highlighted red in the most recently shared Excel file.

1. Fanshawe College's Construction Loan Calculation
    - The difference between the outstanding BA Allocated amount (as at July 11, 2017) vs the "TAS 3/31/2017" amount is due to the principal payments made and the way in which capitalized interest is calculated for the advances drawn. I double-checked the calculations on OLMS, and if you would like, Andrea, I can show you the way in which capitalized interest is calculated for these agreements.
2. IESO
    - As per Risa's email, the two entries is a product for how OLMS, currently, cannot have two projects assigned to a line of credit entry. I was told the entries would be corrected soon so that both sum to $975M.
3. Ottawa Convention Centre Corporation
    - I'm still looking into this to get further details. I'll keep you posted.

As well, I mentioned how there's a correction needed for Confederation College's construction loan. In that particular agreement, there is another facility for a second project. That facility is a non-revolving, term loan set at a max of $1,050,000. This means we should have an Adjusted BA Allocated amount of $11,650,000 shown instead of the current $10,600,000. For the other agreements, I'm planning to look them over to ensure this isn't the case with the others.

If there is anything else I missed, please let me know. We'll see what Sarah and Malle advise for the capitalized interest.

Thanks,

Daki

Hello Sarah,

I can be available at 1:30 pm to discuss. Shall I head up to your floor for then?

Thanks,

Daki

Hi Daki,

Thanks for following up. I think it is also a good idea to have a chat on this. We too are a little unclear on a couple of points, since Documentation is not familiar with the loan activity under these agreements

Would you be available at about 1:30 p.m. today to discuss, or sometime tomorrow? I am including Andrea Dalgarno, as she has been working with this spreadsheet to get a sense of the loan activity.

Thanks,
Sarah

Subject: OFA Loan Update from CFB

Hello Sarah,

Mara informed me that Documentation would like to have the attached file confirmed by our group. I'll review the document, but I was hoping to ask a few questions for what you need.

- Which date do we want these dollar values to reflect? Do we want these dollar values to still reflect the "as at May 5" date?
- For the Repaid and Capitalized Interest columns, shall we connect and discuss what kind of entries you're looking for here?

I'm available to discuss over the phone or I don't mind coming up to your floor either. Please let me know when a good time would be.

Thanks,

Hi Andrea,
I don't think there is any need for an immediate answer on the capitalized interest.
For the period between accrual and capitalization, it would be useful to get accounting's perspective on the matter. I know very little about the construction loans – how long might interest accrue before it is capitalized?
Thanks,
Sarah

Hi Sarah and Daki,
I think we have addressed Bonnie's immediate need to ensure there is enough available as there is ample and the capitalized interest issue should not change that conclusion. Is there any other reason we may need a more immediate answer?
Note I am not aware of any loans other than construction loans where we have the issue. However, I am not familiar with all the agreements. I think perhaps this is better confirmed by you Daki?
I tend to agree logically that at the point the interest is capitalized it should be deemed principal and authority should be allocated.
I am uncertain whether it is necessary to consider the period between accrual and capitalization. I think we do need a legal view on this based on the agreements in conjunction with the OICs and FAA. It is logical to allocate once the amount is actually capitalized but more conservative to assume it will capitalize and allocate at the time the amount is calculated as we would set aside the authority at the time we know it is spoken for. It would be bad form to wait and find out we do not have the authority come the end of the period. That being said, I suspect we would not be waiting until interest could be an issue before addressing authority getting low.
Let me know your thoughts and if the legal feedback can wait.
Regards,
Andrea

Hi Andrea – Apologies but I haven't had time to turn my mind to this meaningfully. Could you advise as to timing? Lisa Stein works on most of the loan agreements in our branch but she is away until next week. It would probably make sense for me to ask her to follow up if you don't need an answer urgently because I think part of the response may be found in terms of the loan agreements themselves.

Logically, it would make sense to me that at the point the accrued but unpaid interest is capitalized and effectively becomes part of the principal, borrowing authority would be required. The OICs themselves appear to distinguish between the principal and interest owed by the OFA to the Province and also with respect to the interest that the OFA is entitled to levy on loans it makes to public bodies, so the authority in the OIC appears to exclude the interest amounts, but I know the FAA casts a broad net as to the kinds of activities that are considered borrowing, so I think the crux of your question is with respect to how the uncapitalized, accrued but unpaid interest is treated during the draw down stage when the agreement is structured to capitalize this amount at a future date.

I am assuming that the majority of loans include regular repayments of principal and interest in the ordinary course, but are you aware of any other examples of loans, other than the construction type loans where there is accrued but unpaid interest during the term of the loan (e.g. a term loan where the interest isn't capitalized but the amount is paid off at the end?) If so, it may be a good idea to consider by way of analogy how that interest is treated vis-à-vis the borrowing authority.

Please let me know timing, and we can move this forward with MOF legal.

Thanks very much,

Sarah

Subject: OFA Loans -OIC 675/97 and OIC 767/99

Hi,

We are in the process of verifying the authority used to date under the above referenced revolving OICs. Authority under these OICs provides for OFA Loans to colleges, IESO ($975M), OILC ($200M), ROM, Niagara Parks, City of Windsor…. but *excludes* the school board loans. Loans advanced under these OICs include: Construction Loans, Lines of Credit and Term Loans.

We are seeking your collective advice as it the pertains to Construction Loans and the treatment of interest that is capitalized during the life of such a loan. At the end of the Construction Loan period the loan is converted to a Term Loan where the principal amount includes the capitalized interest accumulated during the construction phase.

We have the following questions with respect to the treatment of capitalized interest under the loans:

1) Is it necessary to allocate authority to cover the interest capitalized?

If yes, then:

2) The question is : At what point do we allocate the authority to cover the capitalized interest- as it is determined (for example quarterly during the term of the Construction Loan) or when it is included into the principal amount of the Term Loan at the end of the construction phase (i.e. when it is converted to a Term Loan under which repayment should occur overtime)?

Your advice would be appreciated.

Hi Sarah,
Thank you.
I agree that accounting's view would be helpful. Would it be San and Siva who would be able to address this- just want to make sure before I disturb the wrong people!
From what I can tell the period can run from 90 days (e.g Fanshawe) to a year (e.g Ontario Lottery).
Daki- do you agree based on your knowledge of the agreements?
Regards,
Andrea

Sarah,
Similarly, accounting does not see any insurmountable obstacles. Accounting would just need to create a new TAS account for the new credit facility.
Thanks.
John

Hi Sarah,
From a Settlements perspective there is no issue, however since Capital Markets inputs these loans they will have to investigate if this is doable with Vivek, therefore I am copying Carlos, Selena, Jim and Craig.
Thanks,
Risa Thau
Carlos, Selena, Jim and Craig,
If you need any help with this issue I'd be happy to participate.
Thanks, Risa

Subject: OFA-IESO Credit Facilities

Hello,
We are currently in the process of working on a new $2B OFA-IESO Credit Facility to provide funding in respect of the Ontario Fair Hydro Plan. Under this framework, the existing $975 million OFA-IESO

Credit Facility is to be reduced to $475 million. Due to a required Ministerial approval, the new $2B facility will not be executed until mid-September (estimate).
Once the new $2B facility is in place, the OFA would be looking to re-allocate certain loans (TBD) from the existing $975M credit facility to the new $2B facility, in order to bring the existing facility under the new intended $475 million limit. Effectively, under the legal agreements, it would be transferring certain loans from the existing facility to the new facility. The intention is that there will be no movement of funds and therefore no cash impact (that is, IESO does not repay the existing loans, and the OFA does not fund the new loans).
Would you please confirm if there are any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility?
Thanks,
Sarah

Hi, Sarah
We don't think there will be any operational obstacles in Risk Control Operations regarding this transfer of credit facility, thanks.

Sarah,
Similarly, accounting does not see any insurmountable obstacles. Accounting would just need to create a new TAS account for the new credit facility.
Thanks.

Hi Lisa and Bonnie,

Sorry to be taking a bit in getting back to you, but I've needed to consult with Martine and Opal on this, as I've not been involved in the lending directive exercise previously. It seems to me that you do not need to include 1051/12 since it is amending existing OICS, the current paragraph in the lending directive (which Lisa provided .

Hi Sarah,

Further to the e-mails below, we are trying to determine whether to include OICs 1051/2012 and OIC 354/2014 in the OFA's annual lending directive, given that the OFA will not be lending to school boards. As the language is general, it appears that these OICs could be used to fund other types of loans. Do you have any insight into this?

Thank you,

Lisa

Subject: RE: OFA_AnnualLendingDirective-PublicBodies_2017-18 - BN v5.docx

Hi Lisa,

I attached a summarized OIC sheet for your reference. The OICs issued for the school board loan purposes themselves didn't restrict the use of the authorized amounts. I don't know if they can also be used for other OFA loans or not? Earlier OICs were amended by OIC 844/2008 to extend the maturity to June 1, 2041, and also amended by OIC 1723/0009, OIC 1268/2010 and OIC 1051/2012 for the spread to be retained at the OFA.

I have attached all the OICs that I can locate. I will check with Martine and Sarah to see if they can locate other OICs.

Back to your original comments, OIC 163/1012 was actually referred in OIC 1051/2012, so just OIC 1051/2012 and OIC 354/2014 need to be referred in the BN if OICs issued for the school board loans could also be used for other OFA loans.

Thanks,
Bonnie

Hi Lisa,

I have made a few wording changes based on your comments in highlighted paragraphs in the attached BN. For the OIC quoting under "Interest Rate Spreads", according to my record, the OICs of 163/2012 and 354/2014 are dealing with school board loans, and since we have stopped providing loans to school board, they are not relevant. Although, I couldn't locate a copy of OIC 163/2012. So if I am wrong, please let me know.

And we are still waiting for legal to provide one paragraph as indicated by you in the attached BN.

Thanks,
Bonnie

Subject: FW: minister's directive annual lending directive 201718 V1-rev1.doc
Date: Thursday, June 29, 2017 10:14:20

Hi all,

As that new 2017 OIC was intended to be specific to the FHP but not specifically reference it, I'm not sure that it needs to be referenced in the annual lending directive, which references specific loans to public bodies (and does not include the FHP loan), or in the OLG directive. Does anyone else have thoughts on this? Is there a possibility that the funds referenced in the 2017 OIC may in future be drawn down for one of these other loans?

The current paragraph of the annual lending directive pertaining to OICs provides as follows:

Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010, 163/2012, 1051/2012 and 354/2014, all as amended, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for each Loan made under the authority of this Directive, the amount of the spread retained by the OFA is equal to the sum of the Cost Recovery Fee and the Commercial Spread, if any, for the Loan as set out above.

Thank you,

Lisa

Hi Lisa,

354/2014 was the last OIC, however, with this last Tuesday's LRC, a new $2B OIC for the OFA-IESO FHP Credit Facility was to have been approved. I am copying Salman, as he is managing that process and he would be able to provide the update on the OIC's approval status (and the relevant # to identify the OIC).

Thanks,
Sarah

Hi Michael and Mara,

Please see my comments and suggested amendments on the attached. Please note that I've included some questions for consideration. Please let me know if you would like to set up a meeting or call to discuss further.

I also note that I'm working on an OLG loan with Sarah McGowan; however, I'm not sure if this is the same loan as noted in the Borrowing and On-Lending Plan (and hence my comment on the attached).

Thank you,

Lisa

Hi Bonnie,
Documentation is able confirm OFA lending activity for the IESO and OILC agreements under the two OFA lending OICs (OICs 675/97 and OIC 767/99) since we are familiar with these agreements, however, Corporate Finance would need to confirm the completeness and outstanding balances for the lending activity under loan agreements originated from CEFD.
I recently reached out to Corporate Finance for confirmation of the numbers on a spreadsheet that was jointly updated by Corporate Finance and Documentation in 2013. Daki Proudfoot has been working to review the CEFD loans under the two OICs; there remains an outstanding legal question about the inclusion of capitalized in the balances, and MoF and OFA Legal are considering this question.
I am copying Daki on this e-mail, since he and Andrea Dalgarno are working jointly update an OIC loans spreadsheet from 2013. Andrea is away today, but I think the table could be jointly finalized tomorrow, with exclusion of capitalized interest. For the purpose of confirming available space under the existing OICS (based on what I have seen in the table as it's been updated), it looks like there will be more than sufficient authority under the existing OICs for the next year, but I would ask Daki and Andrea to confirm this tomorrow when the table is finalized. While I expect capitalized interest will ultimately be included, it would only make up a small proportion of the OICs.
Thanks,
Sarah

Subject: RE: OFA_AnnualLendingDirective-PublicBodies_2017-18 - BN v5.docx
Hi Bonnie,
Sorry for the delay.
OIC 354/2014 - My view is that 354/2014 should not be included for new lending. While the OIC is general, the briefing material that usually accompanies the OIC states the purpose for the OIC. In

this case, it would have been purposed for school board loans. As there is no intention (whatsoever) to have additional school board loans, I think it may be misleading to include it for additional lending directive.

OIC 1051/2012 – I don't know that this OIC needs to be stated overtly. The relevant section in the draft lending directive reads, "Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010, 163/2012, 1051/2012 and 354/2014, **all as amended**, made under subsection 22(1) of the *Capital Investment Plan Act, 1993…"*

1051/2012 is actually an amending OIC in itself (it is amending the interest for a large group of OICs). The question I would have Lisa consider is whether this is already included in the "all as amended" language.

Thanks,

Sarah

To: Daki Proudfoot
Cc: Sarah Harris
Subject: RE: OLMS-related question
Date: Thursday, July 13, 2017 4:06:55 PM

Hi Daki,
As per our discussion today, the reason IESO has 2 credit facilities and 2 lines of credit is because the OFA is funding 2 different projects for them. Unfortunately OLMS cannot handle one credit facility for 2 different projects. I asked Carlos Yep to set up a new credit facility of $475 mm under the Rural or Remote Electricity Rate Protection Plan when we loaned IESO money under that project and asked him to reduce the credit facility to $500 mm for the project Regulated Price Plan Variance. He forgot to reduce the latter credit facility. He is away on vacation until next week. I will ask him to fix this when he returns.
Sarah,
The reason I am copying you is because Daki came to me with this question because Documentation is working on the OIC for IESO. If you or anyone in Documentation has any questions, please have them come see me.
Thanks,

Subject: OLMS-related question
Hello Risa,
How are you? I was hoping to ask you an OLMS-related question when you have a free moment. I'm working with Documentation at the moment for tallying all outstanding loans that fall under two particular OICs. I've run into two IESO entries on OLMS that I'm trying to make sense of. One entry (loan ID: 1275) aligns with what the electricity folk here understand to be available to IESO as a line of credit. The other entry (loan id: 1590) however doesn't align with our understanding for what has been given to IESO. Vivek said you might have some insight on this.
When you're free, would we be able to connect over the phone?

Thanks,
Daki Proudfoot

Subject: RE: OLMS-related question
Date: Thursday, July 13, 2017 4:06:55 PM

Hi Daki,

As per our discussion today, the reason IESO has 2 credit facilities and 2 lines of credit is because the OFA is funding 2 different projects for them. Unfortunately OLMS cannot handle one credit facility for 2 different projects. I asked Carlos Yep to set up a new credit facility of $475 mm under the Rural or Remote Electricity Rate Protection Plan when we loaned IESO money under that project and asked him to reduce the credit facility to $500 mm for the project Regulated Price Plan Variance. He forgot to reduce the latter credit facility. He is away on vacation until next week. I will ask him to fix this when he returns.

Sarah,

The reason I am copying you is because Daki came to me with this question because Documentation is working on the OIC for IESO. If you or anyone in Documentation has any questions, please have them come see me.

Thanks,

Risa Thau

OPG-OEFC Credit Facility

Purpose: General Corporate Purposes and Darlington requirements

Current Limit: CAD 700M to December 31, 2017

Amendment:

- Increase to CAD 2.35B to December 31, 2018
- Amend definition of Base Rate to more closely relate to hedging that is done for the borrowing.
- Additional proposed amendment by OPG (being considered internally in OFA) to amend definition of S*ubsidiary* to exclude "any Person that is a "financing entity" as defined in the *Ontario Fair Hydro Plan Act, 2017* (Ontario). The entity needs to be legally separated from OPG and be a single purpose entity for the FHP to work (see the information that Ryan and Kelly put together earlier).

Hello Sarah,
I've recorded our conversation with Salman, Lisa and Anthony. Do you mind taking a quick look that this email is sufficiently captures our conversation before I send it to Lisa and Salman?
Thanks,
Will
Hello all,

Issue:

IESO will not have completed its review of the documents relating to the new OFHP Credit Facility Agreement and Amending Agreement 10 (existing IESO OFA Credit Facility) by July 1. As a result, the new and existing credit facilities will not be set-up in time of the targeted set-up date of July 1. According to Anthony Martinello (IESO) their legal department have a number of competing issues and limited resources. Anthony, estimated that the Amending Agreement 10, would be completed mid-July and new credit facility would be completed by the end of July. IESO is currently drawing on the existing credit facility as Regulated Price Plan (RPP) (FHP related financing) and does not plan to exceed $475 million.
OFA concerns:
If the existing credit facility is fully utilized up to its limit of $975 million and the $2 Billion credit facility is approved the potential **operational challenges** are as follows:

1. Reducing the existing credit facility down to $475 million with an outstanding balance of $975 million.
2. Logistical and procedural issue of repayment of the outstanding balance before the advancement of funds under the new credit facility (potentially an overlap of credit availability of $500 million).

Solution:

To assist OFA in its operational concerns, Anthony Martinello has agreed to deliver the executed Amending Agreement 10, to reduce the credit facility from $975 million down to $475 million. (He would utilize his other credit facility at TD bank instead if necessary). He also agreed, in the event IESO borrows more than $475 million before the existing credit facility is reduced, the result would be to reduce the $ 2 Billion credit facility by the same amount.
Best regards,

Hi Will
I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.
As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High
Hi Bruno and John,
I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured

loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.
The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).
In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.
Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.
Thank you,
Lisa

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.
Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.
Thank you,
Lisa

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High
Hi Bruno and John,
I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.
The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).
In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I

plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

Hi Will
I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans

currently in the OFA's loan book.
As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.
Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Hi Will
I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.
As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High

Hi Bruno and John,

I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.

The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).

In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his

discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

- **If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.
- **If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Subject: RE: Policy question re OFHP Credit Facility Agreement
Date: Friday, August 04, 2017 4:27:58 PM

Hi Sarah,
I spoke to Lisa and asked her to provide me with a high level explanation of intercept provision so I can assist in moving this agreement forward today. (The 2:36pm email was the first-time JF and I were notified of this being an issue). Her response was that this is a legal issue and not a drafting issue. Sarah Neville is also aware of the intercept provision issue. Toby contacted Ministry of Energy Legal to get clarification on this issue. She recommended to wait for MOF LSB to provide an answer. Essentially the matter was out of my hands.
Now that John Kim provided his approval, we are now waiting for Ken and Mike to weigh-in. OFA Legal is now going to make the appropriate changes to the draft tonight and on Tuesday. I will notify IESO that a draft will be coming early next week.
Thanks,
Will

Hi Will
I am little confused here, yes its unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.
As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation.

Thanks and I am cc'ing Siva and John the former is responsible for the OFA and the latter for the implementation of the Fair Hydro plan.

Hi John,

As I've noted in my e-mail below, in order for the intercept provisions to be excluded from a loan agreement for an unsecured loan provided by the OFA to a public body, the OFA Lending Policy requires direction from the Minister, Treasury Board, or Cabinet. Toby and I have discussed the rationale that you have provided below, and we agree that it supports the business case for this direction.

Happy to discuss further.

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Lisa,

I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:

We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.

The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?

The Minister, I understand, is away until September.

Happy to chat or hear comments.

Thanks,

John

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we

are able execute the new $2B FHP facility.
Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah
Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.
I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.
I have discussed my proposed approach with Gadi, who is supportive.
Thanks
Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,
Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.
Security Interest - Background
In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well

as issue debt in the capital markets.
Thanks

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be

minimal.
Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,
I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.
The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.
I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.
I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.
In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an

intercept, and that other Provincial loans to public bodies or other groups may be secured.

- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,
Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the

OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*

- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under

the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?

    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Sarah
Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.
I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.
I have discussed my proposed approach with Gadi, who is supportive.
Thanks
Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement
Hi Ken,
Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.
Security Interest - Background
In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:
1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the

asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Hi Sarah
Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.
But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: RE: Policy questions re OFHP Credit Facility Agreement
Hi Ken,
Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.
Security Interest - Background
In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:
1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the

asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Hi Sarah
Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.
But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High
Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security

interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to

make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made <u>not</u> to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision <u>is required</u>, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of

Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

OFA LENDING POLICY

Approved:	**April 11, 2008**
Revised and approved:	**April 16, 2010**

SCOPE

The Ontario Financing Authority (OFA) is a crown corporation that has the statutory authority to lend to public bodies under the *Capital Investment Plan Act (CIPA).*

Public bodies are defined in CIPA as Crown agencies, hospitals and any other facilities receiving capital funding from the Minister of Health and Long-Term Care, municipalities, universities that receive operating funds from the Province, colleges of applied arts and technology, school boards, and any other entity named or described as a public body in the regulations which as of this date include the Deposit Insurance Corporation of Ontario, the Ontario Pension Benefits Guarantee Fund and the Law Society of Upper Canada and the Ontario Power Authority.

This policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS

This policy replaces the OFA lending policy that was approved by the OFA Board of Directors on April 11, 2008.

Any amendments or exceptions to this policy must be approved by the OFA Board of Directors.

POLICY FRAMEWORK

On June 21, 2007, the government approved a new framework for financing public bodies that are consolidated on the Province's financial statements. Consolidated public bodies include school boards, colleges, hospitals and corporations, boards and commissions.

Generally, the policy framework mandates the OFA to provide long-term financing for capital purposes to school boards, colleges and hospitals, as well as to Provincial corporations, boards and commissions who borrow as agents of the Crown, where the financing is recommended by the responsible ministry.

The policy framework also mandates the OFA to charge a cost recovery rate for all loans to public bodies, and a proxy commercial rate where the project is deemed to be commercial in nature. Determinations as to the nature of the project are to be made by the OFA in consultation with the recommending ministry.

TYPE OF FINANCING

The policy framework mandates the OFA to provide long-term financing to public bodies, which will be undertaken on a fixed rate or variable rate basis. Except where the Minister of Finance, Treasury Board or Cabinet determines there is a significant benefit to the public body or to the Province, the OFA will not provide:

1. Short-term financing for operating or working capital purposes.

2. Construction financing where capital projects require significant project monitoring expertise to keep construction running on time and on budget.

3. Financing to consolidated corporations, boards and commissions that are not Crown agents.

LOAN APPROVALS

1. The OFA will only advance a loan to a public body where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body.

2. Where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body, no further Board approval is required.

3. The OFA Board shall annually review a borrowing and on-lending plan (the OFA's Annual Borrowing and On-Lending Plan), which shall include the OFA's annual borrowing requirements from the Province and projected on-lending activities to Ontario public bodies for the year. As part of its review, the OFA Board shall approve the OFA's cost recovery spread and proxy commercial interest rate spreads related to the OFA's annual lending activities to public bodies.

4. The OFA Board will be advised at its next regularly scheduled meeting of any deviations from the OFA's Annual Borrowing and On-Lending Plan.

LENDING DIRECTIVE

The OFA will prepare an annual lending directive for the Minister of Finance's consideration based on the proposed loans in the OFA's Annual Borrowing and On-Lending Plan which require consent under Section 28 of the *Financial Administration Act* ("FAA") or which are to be made to School Boards. The lending directive will expressly direct or approve the OFA to advance these loans to public bodies for the fiscal year. The lending directive will include the maximum authorized amount of the loans to individual borrowers or the maximum amount of all the loans to a group of borrowers, such as School Boards or Community Colleges, and where possible, the borrower's name and the specific purpose(s) for which the loans are required, with the other terms and

conditions of the loans being delegated to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them for approval.

The OFA will prepare specific lending directives for consideration by Minister of Finance for proposed loans in the the OFA's Annual Borrowing and On-Lending Plan which do not require consent under Section 28 of the FAA, other than loans to School Boards, at the time that the requests for the OFA to enter into such loans are being processed.

CONDITIONS PRECEDENT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will:

1. Receive and review the public body's loan request as submitted and recommended by the responsible ministry.

2. Determine the public body's ability to repay the loan by relying on information submitted by the responsible ministry and public body, which may include information on the capital project, business case, cash flow projections and audited financial statements, and such other information as may be required.

3. Where required, ensure that the responsible ministry or public body has obtained prior written approval for the proposed loan pursuant to Section 28 of the FAA. The CEO of the OFA will not act as the delegate of the Minister of Finance to provide approval under Section 28 of the FAA for a loan when the OFA is the lender.

4. Evaluate the underlying risk of the project in order to determine if the project is commercial in nature, and if so establish an appropriate proxy commercial basis points spread to charge the public body as approved by the OFA Board (see "Proxy Commercial Rate").

5. Enter into a loan agreement with the public body containing terms and conditions consistent with the lending directive and satisfactory to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them , including appropriate (i) positive and negative covenants of the public body, (ii) representations and warranties by the public body, (iii) conditions precedent, (iv) remedies upon default provisions, (v) reporting provisions, (vi) event of default provisions, and (vii) intercept provisions.

6. Ensure that it has an appropriate intercept in place for the loan (see "Intercept").

SECURITY

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision, as provided below) in respect of loans made by the OFA to public bodies.

INTERCEPT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet:

1. Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

2. Prior to recommending to the Minister of Finance that the intercept be exercised, the OFA will raise the issue with the responsible ministry and seek the ministry's support in getting the public body to pay the amounts owing within a reasonable cure period.

3. Should the public body not cure the default within a reasonable period of time, the OFA will give written notice to the Minister of Finance, with a copy to the responsible ministry, of a public body's failure to pay under its loan agreement and requesting the deduction of amounts equal to the amounts that a public body has failed to pay under its loan agreement.

4. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to covenant and agree that, upon receipt of notice from the OFA that a public body has failed to pay in accordance with the provisions of its loan agreement, the responsible ministry will provide all information requested by the OFA respecting amounts appropriated by the Legislature for payment to the public body including the intended purpose and expected timing of such payments to be made by the responsible ministry. Upon request, the responsible ministry agrees to provide similar information to the Minister of Finance.

5. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to acknowledge and agree that, upon receipt of a direction from the Minister of Finance, that an amount is to be deducted from

money appropriated by the Legislature for payment to the public body, the responsible ministry will take all necessary action required by it in order to effect such deduction in accordance with the Minister of Finance's direction and pay the amount to the OFA at the time specified.

COST RECOVERY

1. The OFA will recover its lending costs by charging public bodies a rate equal to the **Province's total cost of funds**, which will include the Province's direct borrowing costs (including commissions) as well as a spread to cover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.

2. The OFA will use a **basis-points-spread (bps) based cost recovery methodology** to recover the costs of its direct borrowing and on-lending activities. The costs relate to both the upfront and ongoing loan monitoring and administration and are expressed in terms of basis points per annum and will be recovered over the term of the loan.

3. The annual basis-point spread charged to public bodies for cost recovery shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. The Capital Markets Treasury Division of the OFA, with the assistance of Internal Audit, will conduct an annual review to ensure that the cost recovery methodology is appropriate and that there are no significant under/over- recoveries that may require management's corrective action.

PROXY COMMERCIAL RATE

1. In addition to charging the Province's total cost of funds, the OFA will charge a proxy commercial basis points spread for projects that are commercial in nature in order to better reflect the costs of the underlying risk for financing of such projects. The proxy commercial basis points spread will be added to the Province's total cost of funds and recovered over the term of the loan. Loans are deemed to be commercial in nature where generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources.

2. The methodology for determining proxy commercial basis points spreads (including the amount(s) of these spreads) charged to public bodies for projects deemed commercial in nature shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. Proxy commercial basis points spreads will also be re-evaluated (and, if deemed necessary, reset upon approval of the OFA Board) in situations where there are significant changes to fixed income credit spreads. The OFA Corporate Finance Branch is responsible for recommending any changes to the

methodology or spread resets to the OFA Board, while the Capital Markets Division is responsible for informing the Corporate Finance Branch of any significant changes to fixed income credit spreads.

REPORTING REQUIREMENTS

1. A report outlining the status of all outstanding loans will be tabled with the OFA Board annually (the OFA's Annual Borrowing and On-Lending Plan) and at such other times as the OFA Board requests.

2. For each loan outstanding, such report will identify: the borrower, the purpose of the loan, the principal amount outstanding, and such other information as the OFA Board may request.

3. All OFA loans to public bodies will continue to be annually reported in the notes to the OFA's audited financial statements as disclosed in the OFA's Annual Report.

Attachments:	OFA Lending Policy Final (April 16 2010).pdf

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to

make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

<u>General Note re: Timing Impact of Intercept Provision</u>

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made <u>not</u> to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision <u>is required</u>, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of

Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement
Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

> Hi Sarah
> Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.
> But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
> I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
> Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement

Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying

facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

OFA LENDING POLICY

Approved:	**April 11, 2008**
Revised and approved:	**April 16, 2010**

SCOPE

The Ontario Financing Authority (OFA) is a crown corporation that has the statutory authority to lend to public bodies under the *Capital Investment Plan Act (CIPA).*

Public bodies are defined in CIPA as Crown agencies, hospitals and any other facilities receiving capital funding from the Minister of Health and Long-Term Care, municipalities, universities that receive operating funds from the Province, colleges of applied arts and technology, school boards, and any other entity named or described as a public body in the regulations which as of this date include the Deposit Insurance Corporation of Ontario, the Ontario Pension Benefits Guarantee Fund and the Law Society of Upper Canada and the Ontario Power Authority.

This policy addresses lending activities to public bodies undertaken where the OFA is acting as an intermediary on behalf of the Province.

AMENDMENTS

This policy replaces the OFA lending policy that was approved by the OFA Board of Directors on April 11, 2008.

Any amendments or exceptions to this policy must be approved by the OFA Board of Directors.

POLICY FRAMEWORK

On June 21, 2007, the government approved a new framework for financing public bodies that are consolidated on the Province's financial statements. Consolidated public bodies include school boards, colleges, hospitals and corporations, boards and commissions.

Generally, the policy framework mandates the OFA to provide long-term financing for capital purposes to school boards, colleges and hospitals, as well as to Provincial corporations, boards and commissions who borrow as agents of the Crown, where the financing is recommended by the responsible ministry.

The policy framework also mandates the OFA to charge a cost recovery rate for all loans to public bodies, and a proxy commercial rate where the project is deemed to be commercial in nature. Determinations as to the nature of the project are to be made by the OFA in consultation with the recommending ministry.

TYPE OF FINANCING

The policy framework mandates the OFA to provide long-term financing to public bodies, which will be undertaken on a fixed rate or variable rate basis. Except where the Minister of Finance, Treasury Board or Cabinet determines there is a significant benefit to the public body or to the Province, the OFA will not provide:

1. Short-term financing for operating or working capital purposes.

2. Construction financing where capital projects require significant project monitoring expertise to keep construction running on time and on budget.

3. Financing to consolidated corporations, boards and commissions that are not Crown agents.

LOAN APPROVALS

1. The OFA will only advance a loan to a public body where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body.

2. Where the Minister of Finance, Treasury Board or Cabinet expressly directs or approves the OFA to advance a loan to a public body, no further Board approval is required.

3. The OFA Board shall annually review a borrowing and on-lending plan (the OFA's Annual Borrowing and On-Lending Plan), which shall include the OFA's annual borrowing requirements from the Province and projected on-lending activities to Ontario public bodies for the year. As part of its review, the OFA Board shall approve the OFA's cost recovery spread and proxy commercial interest rate spreads related to the OFA's annual lending activities to public bodies.

4. The OFA Board will be advised at its next regularly scheduled meeting of any deviations from the OFA's Annual Borrowing and On-Lending Plan.

LENDING DIRECTIVE

The OFA will prepare an annual lending directive for the Minister of Finance's consideration based on the proposed loans in the OFA's Annual Borrowing and On-Lending Plan which require consent under Section 28 of the *Financial Administration Act* ("FAA") or which are to be made to School Boards. The lending directive will expressly direct or approve the OFA to advance these loans to public bodies for the fiscal year. The lending directive will include the maximum authorized amount of the loans to individual borrowers or the maximum amount of all the loans to a group of borrowers, such as School Boards or Community Colleges, and where possible, the borrower's name and the specific purpose(s) for which the loans are required, with the other terms and

conditions of the loans being delegated to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them for approval.

The OFA will prepare specific lending directives for consideration by Minister of Finance for proposed loans in the the OFA's Annual Borrowing and On-Lending Plan which do not require consent under Section 28 of the FAA, other than loans to School Boards, at the time that the requests for the OFA to enter into such loans are being processed.

CONDITIONS PRECEDENT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, and prior to the OFA making any loan to a public body, the OFA will:

1. Receive and review the public body's loan request as submitted and recommended by the responsible ministry.

2. Determine the public body's ability to repay the loan by relying on information submitted by the responsible ministry and public body, which may include information on the capital project, business case, cash flow projections and audited financial statements, and such other information as may be required.

3. Where required, ensure that the responsible ministry or public body has obtained prior written approval for the proposed loan pursuant to Section 28 of the FAA. The CEO of the OFA will not act as the delegate of the Minister of Finance to provide approval under Section 28 of the FAA for a loan when the OFA is the lender.

4. Evaluate the underlying risk of the project in order to determine if the project is commercial in nature, and if so establish an appropriate proxy commercial basis points spread to charge the public body as approved by the OFA Board (see "Proxy Commercial Rate").

5. Enter into a loan agreement with the public body containing terms and conditions consistent with the lending directive and satisfactory to the CEO of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them , including appropriate (i) positive and negative covenants of the public body, (ii) representations and warranties by the public body, (iii) conditions precedent, (iv) remedies upon default provisions, (v) reporting provisions, (vi) event of default provisions, and (vii) intercept provisions.

6. Ensure that it has an appropriate intercept in place for the loan (see "Intercept").

SECURITY

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision, as provided below) in respect of loans made by the OFA to public bodies.

INTERCEPT

Except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet:

1. Pursuant to section 23 of the *Capital investment Plan Act* and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

2. Prior to recommending to the Minister of Finance that the intercept be exercised, the OFA will raise the issue with the responsible ministry and seek the ministry's support in getting the public body to pay the amounts owing within a reasonable cure period.

3. Should the public body not cure the default within a reasonable period of time, the OFA will give written notice to the Minister of Finance, with a copy to the responsible ministry, of a public body's failure to pay under its loan agreement and requesting the deduction of amounts equal to the amounts that a public body has failed to pay under its loan agreement.

4. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to covenant and agree that, upon receipt of notice from the OFA that a public body has failed to pay in accordance with the provisions of its loan agreement, the responsible ministry will provide all information requested by the OFA respecting amounts appropriated by the Legislature for payment to the public body including the intended purpose and expected timing of such payments to be made by the responsible ministry. Upon request, the responsible ministry agrees to provide similar information to the Minister of Finance.

5. Prior to any loan agreement entered into between the OFA and a public body, the responsible ministry is to acknowledge and agree that, upon receipt of a direction from the Minister of Finance, that an amount is to be deducted from

money appropriated by the Legislature for payment to the public body, the responsible ministry will take all necessary action required by it in order to effect such deduction in accordance with the Minister of Finance's direction and pay the amount to the OFA at the time specified.

COST RECOVERY

1. The OFA will recover its lending costs by charging public bodies a rate equal to the **Province's total cost of funds**, which will include the Province's direct borrowing costs (including commissions) as well as a spread to cover all costs related to the upfront and ongoing loan monitoring and administration of the OFA's lending activities.

2. The OFA will use a **basis-points-spread (bps) based cost recovery methodology** to recover the costs of its direct borrowing and on-lending activities. The costs relate to both the upfront and ongoing loan monitoring and administration and are expressed in terms of basis points per annum and will be recovered over the term of the loan.

3. The annual basis-point spread charged to public bodies for cost recovery shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. The Capital Markets Treasury Division of the OFA, with the assistance of Internal Audit, will conduct an annual review to ensure that the cost recovery methodology is appropriate and that there are no significant under/over- recoveries that may require management's corrective action.

PROXY COMMERCIAL RATE

1. In addition to charging the Province's total cost of funds, the OFA will charge a proxy commercial basis points spread for projects that are commercial in nature in order to better reflect the costs of the underlying risk for financing of such projects. The proxy commercial basis points spread will be added to the Province's total cost of funds and recovered over the term of the loan. Loans are deemed to be commercial in nature where generally less than 50% of the operating revenues generated by the underlying project are attributable to government sources.

2. The methodology for determining proxy commercial basis points spreads (including the amount(s) of these spreads) charged to public bodies for projects deemed commercial in nature shall be approved by the OFA Board and included in the OFA's Annual Borrowing and On-Lending Plan. Proxy commercial basis points spreads will also be re-evaluated (and, if deemed necessary, reset upon approval of the OFA Board) in situations where there are significant changes to fixed income credit spreads. The OFA Corporate Finance Branch is responsible for recommending any changes to the

methodology or spread resets to the OFA Board, while the Capital Markets Division is responsible for informing the Corporate Finance Branch of any significant changes to fixed income credit spreads.

REPORTING REQUIREMENTS

1. A report outlining the status of all outstanding loans will be tabled with the OFA Board annually (the OFA's Annual Borrowing and On-Lending Plan) and at such other times as the OFA Board requests.

2. For each loan outstanding, such report will identify: the borrower, the purpose of the loan, the principal amount outstanding, and such other information as the OFA Board may request.

3. All OFA loans to public bodies will continue to be annually reported in the notes to the OFA's audited financial statements as disclosed in the OFA's Annual Report.

I have sent this in reply to Ken's email, but limited the list to you three so that you can share and discuss as you see fit.
To clarify, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.
The steps of the transaction would be:
1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.
Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.
Let me know if that makes sense, or if I can explain the process further.

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Importance: High
Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the

following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Sarah
Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.
But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.
Bruno

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High
Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.
As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could

happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Lisa,
I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:
We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.
The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?
The Minister, I understand, is away until September.
Happy to chat or hear comments.
Thanks,
John

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,

Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.
Thanks
Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution

of the FHP facility will take longer than expected, likely taking an additional number of weeks.
If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.
If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement
Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or

other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Lisa,
I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:
We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.
The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?
The Minister, I understand, is away until September.
Happy to chat or hear comments.
Thanks,
John

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.

Thanks,

Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.
Thanks
Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution

of the FHP facility will take longer than expected, likely taking an additional number of weeks.
If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.
If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or

other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,
Thanks for clarifying the approach on this matter.
Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.
Thanks,

Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges

consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.
Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility

prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Ken k

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Hi Ken,
Thanks for clarifying the approach on this matter.
Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.
Thanks,

Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah

Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.

I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.

I have discussed my proposed approach with Gadi, who is supportive.

Thanks

Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges

consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
4 – The IESO repays the OFA for the loan.
Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility

prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Ken k

> Apologies for delay. I perceive differing levels of comfort with the issue of security so I'm OK with discussing the questions raised this afternoon. I am concerned whether we have people on the call that can answer all the questions.
> But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
> I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
> Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of

intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.
Lisa

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.

- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Ken,
Thanks for clarifying the approach on this matter.
Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.
Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement
Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks
Ken k

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place

such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Ken,
Thanks for clarifying the approach on this matter.
Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.
Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah
Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.
I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.
I have discussed my proposed approach with Gadi, who is supportive.
Thanks
Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,
Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA

needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement.

We became aware of a potential requirement under the OFA's lending policy which needs to

be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.
Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,
Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal)

nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.

    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Ken,
Thanks for clarifying the approach on this matter.
Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we are able execute the new $2B FHP facility.
Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah
Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.
I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.
I have discussed my proposed approach with Gadi, who is supportive.
Thanks
Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,
Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA

needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement.

We became aware of a potential requirement under the OFA's lending policy which needs to

be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.
Thank you,
Sarah

Importance: High

Hi Sarah H. and Will,
Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal)

nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.

    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi John,

As I've noted in my e-mail below, in order for the intercept provisions to be excluded from a loan agreement for an unsecured loan provided by the OFA to a public body, the OFA Lending Policy requires direction from the Minister, Treasury Board, or Cabinet. Toby and I have discussed the rationale that you have provided below, and we agree that it supports the business case for this direction.

Happy to discuss further.

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Lisa,

I was having a discussion with Ken R. on another matter (the equity injection discussion) and had a discussion with him about this issue. Here are some observations:

We know that the IESO is a public body for the purpose of the CIPA. And I understand that in the absence of this designation, the OFA would not be able to make loans to the IESO.

The intercept provision, I understand, is common in OFA loan arrangements or required under the OFA Lending Policy. Given that the intercept provision allows the OFA to access payments from the Province to OFA borrowers in the event of a default and that the IESO receives no such funding from the Province (the IESO is ratepayer-funded), would there still be any relevance in having or requiring the intercept provision? If we agree that there is no relevance, then would you reasonably arrive at the conclusion that seeking the direction from the Minister is not required?

The Minister, I understand, is away until September.

Happy to chat or hear comments.

Thanks,

John

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hello all. Just to clarify, the OFA Lending Policy provides that the OFA will generally lend on an unsecured basis in respect of loans made by the OFA to public bodies, unless otherwise directed. As such, no further direction/waiver is required to provide an unsecured loan to the IESO. However, the Policy also requires that, pursuant to s. 23 of CIPA, the intercept provisions (and accompanying MOU, etc.) must be included in unsecured OFA loan agreements except where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, in this case, as it has now been determined that the intercept provisions are not required, I will work with MOF Legal to obtain the required Ministerial direction waiving the Policy requirement to include these provisions.

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Thanks for clarifying the approach on this matter.

Based on this, we will not be seeking a security interest in the Regulatory Asset and will be seeking a directive ASAP for an exemption from inclusion of the intercept provision in the $2B FHP facility. We will inform IESO that current $975 million facility will be used for funding draws until such time as we

are able execute the new $2B FHP facility.
Thanks,
Sarah

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Sarah
Thanks for clear detailed email with good questions, however, instead of responding to each of the questions, I am going back to my earlier premise that none of the loans currently on the OFA loan book have any kind of security attached to them. A good example is the current line of credit extended to the IESO for $975 million. Given this I am very reluctant to impose a security requirement the proposed $2 billion facility to the IESO from the Province.
I understand that the security requirement which is part of the OFA lending policy can waived with ministerial approval, I suggest that it be obtained as soon as possible. If there are delays in obtaining this approval, especially since the minister will be on vacation from the end of this week onwards, I also suggest, if possible the previous facility of $975 million continue until the new facility is in place. This will allow IESO to fund any regulatory assets created in the intervening period.
I have discussed my proposed approach with Gadi, who is supportive.
Thanks
Ken k

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,
Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.
Security Interest - Background
In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well

as issue debt in the capital markets.
Thanks

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be

minimal.
Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,
I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.
The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.
I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.
I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.
In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an

intercept, and that other Provincial loans to public bodies or other groups may be secured.

- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: FW: Proposed change - Use of Proceeds under the existing IESO OFA Credit Facility

Hello Bruno,
As per our discussion, yes, this pertains to the amending agreement to reduce an existing credit facility from $975 million credit facility down to $475 million and a creation of a separate $2 billion credit facility.

When agreements are updated, Documentation will update areas with the most updated version of a provision and make areas consistent where appropriate. If the "use of proceeds" between the existing IESO OFA Credit Facility and the new OFHP Credit Facility are intentionally different, I ask for some assistance on the recommended wording.
I hope this helps.
Will

Subject: RE: Proposed change - Use of Proceeds under the existing IESO OFA Credit Facility

Hi William
Apologies if I'm a bit behind on this but I want to clarify a couple of things.
Could you confirm that this pertains to amending the agreement with respect to the $975M credit facility, now reduced to $475M.
If so, my understanding was that the reduction to this credit facility was because IESO now has the new $2B credit facility to deal with OFHP timing differences etc. As there was some overlap with the purpose of the previous credit facility, and in order to avoid duplication, the old credit facility can be reduced to $475M. I understood that the $475M is still required for other purposes not covered by the new facility, i.e., a different use of proceeds. So I'm wondering why Documentation proposes the same Use of Proceeds wording as for the $2B facility.
I may be misunderstanding/misreading something.
Thanks
Bruno

Subject: Proposed change - Use of Proceeds under the existing IESO OFA Credit Facility

Hello Salman, Bruno and John,
We have received a proposed change with respect to the existing IESO OFA Credit Facility under Amending Agreement 10. Attached is IESO's comments to change "Use of Proceeds":

1. "AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;" (Page 1, paragraph 4).

2. Documentation has also provided its recommended changes. Documentation's proposed changes are the same wording used in the new $2 billion OFHP Credit Facility and an opportune to streamline "Use of Proceeds" in both agreements. (page 2, paragraph 4).

Below is a table comparing IESO's proposed changes and Documentation's recommended changes. Gentlemen, please provide your approval/thoughts to the proposed changes for the "Use of Proceeds".

Comparison Table: IESO OFA Amending Agreement 10 Credit Facility

Proposed Changes	Existing Agreement
Existing Agreement: "Use of Proceeds" **IESO proposes:** "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time." **Documentation proposes (same wording as in the draft new OFHP Credit Facility):** The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the following conditions: (1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of the IESO's role in the implementation and administration of the OFHP. (2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."	Use of proceeds needs to fit Ontario Regulation 423/04 (under Electricity Act) and s. 2.3 of Amending Agreement 8 (post amalgamation) to allow for draws under the current agreement. (1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and (2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Hi Sarah,
FYI, I'm still waiting on Electricity Finance to provide their recommended language for the "use of proceeds" portion of Amending Agreement 10. They pointed out to me the these two credit facilities are not exactly fungible and as a result the "use of proceeds" may differ slightly between them.
Waiting to hear from them
Will

2. Documentation has also provided its recommended changes. Documentation's proposed changes are the same wording used in the new $2 billion OFHP Credit Facility and an opportune to streamline "Use of Proceeds" in both agreements. (page 2, paragraph 4).

Below is a table comparing IESO's proposed changes and Documentation's recommended changes. Gentlemen, please provide your approval/thoughts to the proposed changes for the "Use of Proceeds".

Comparison Table: IESO OFA Amending Agreement 10 Credit Facility

Proposed Changes	Existing Agreement
Existing Agreement: "Use of Proceeds" **IESO proposes:** "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time." **Documentation proposes (same wording as in the draft new OFHP Credit Facility):**	Use of proceeds needs to fit Ontario Regulation 423/04 (under Electricity Act) and s. 2.3 of Amending Agreement 8 (post amalgamation) to allow for draws under the current agreement. (1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and (2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts

The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, subject to the following conditions: (1) Proceeds of Advances may be used only for short term financing requirements due to cash flow timing differences incurred as a result of the IESO's role in the implementation and administration of the OFHP. (2) The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance."	payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Subject: RE: Proposed change - Use of Proceeds under the existing IESO OFA Credit Facility
Date: Wednesday, July 12, 2017 2:03:00 PM

Hi William
Apologies if I'm a bit behind on this but I want to clarify a couple of things.
Could you confirm that this pertains to amending the agreement with respect to the $975M credit facility, now reduced to $475M.
If so, my understanding was that the reduction to this credit facility was because IESO now has the new $2B credit facility to deal with OFHP timing differences etc. As there was some overlap with the purpose of the previous credit facility, and in order to avoid duplication, the old credit facility can be reduced to $475M. I understood that the $475M is still required for other purposes not covered by the new facility, i.e., a different use of proceeds. So I'm wondering why Documentation proposes the same Use of Proceeds wording as for the $2B facility.
I may be misunderstanding/misreading something.
Thanks
Bruno

Subject: Proposed change - Use of Proceeds under the existing IESO OFA Credit Facility
Hello Salman, Bruno and John,
We have received a proposed change with respect to the existing IESO OFA Credit Facility under Amending Agreement 10. Attached is IESO's comments to change "Use of Proceeds":

1. "AND WHEREAS the IESO and the OFA have now agreed to: (i) decrease the total principal amount of the operating facility from $975,000,000 to a total principal amount of up to $475,000,000; and (ii) to update the uses which IESO may make of the funds drawn under the facility;" (Page 1, paragraph 4).

2. Documentation has also provided its recommended changes. Documentation's proposed changes are the same wording used in the new $2 billion OFHP Credit Facility and an opportune to streamline "Use of Proceeds" in both agreements. (page 2, paragraph 4).

Below is a table comparing IESO's proposed changes and Documentation's recommended changes. Gentlemen, please provide your approval/thoughts to the proposed changes for the "Use of Proceeds".

Hi Sarah,
FYI, I'm still waiting on Electricity Finance to provide their recommended language for the "use of proceeds" portion of Amending Agreement 10. They pointed out to me the these two credit facilities are not exactly fungible and as a result the "use of proceeds" may differ slightly between them.
Waiting to hear from them
Will

Subject: FW: Proposed change - Use of Proceeds under the existing IESO OFA Credit Facility

Hello Bruno,
As per our discussion, yes, this pertains to the amending agreement to reduce an existing credit facility from $975 million credit facility down to $475 million and a creation of a separate $2 billion credit facility.

When agreements are updated, Documentation will update areas with the most updated version of a provision and make areas consistent where appropriate. If the "use of proceeds" between the existing IESO OFA Credit Facility and the new OFHP Credit Facility are intentionally different, I ask for some assistance on the recommended wording.
I hope this helps.
Will

Hi William
Apologies if I'm a bit behind on this but I want to clarify a couple of things.
Could you confirm that this pertains to amending the agreement with respect to the $975M credit facility, now reduced to $475M.
If so, my understanding was that the reduction to this credit facility was because IESO now has the new $2B credit facility to deal with OFHP timing differences etc. As there was some overlap with the purpose of the previous credit facility, and in order to avoid duplication, the old credit facility can be reduced to $475M. I understood that the $475M is still required for other purposes not covered by the new facility, i.e., a different use of proceeds. So I'm wondering why Documentation proposes the same Use of Proceeds wording as for the $2B facility.
I may be misunderstanding/misreading something.
Thanks
Bruno

Hi Anna,

I've been catching up on this file and I would like us to consider other options before making inquiries about the delegate option.

Just got a call from Sarah as I was drafting this as well.

I've spoken to Lisa and also CFB staff here on the floor this afternoon. The intercept provision is not relevant for the IESO (given the organization is ratepayer funded) and would like to explore ways of putting the provision in the agreement following a discussion with the ministry.

Thanks,

John

Hi Sarah,

Thanks for this. I can confirm that the Minister is away until September 5.

Given that this is related to the FHP, I expect the MO will want the Minister to sign it himself. Furthermore, the DMO may want to "package" this with other FHP approvals – including a TB Submission that will be coming forward for our Minister's signature in early September.

With that in mind, can this wait for his return on the 5th? If not, I'm happy to start making inquiries about his delegate.

Anna

Subject: Question re: signature of a proposed directive.

Hi Anna,

As discussed, we are looking to have directive signed by the Minister, but you had mentioned the Head of Treasury Board may be able to sign as the Minister's delegate?

The nature of the directive is to obtain approval for an exemption from the inclusion of a security

provision in an OFA credit facility agreement under the OFA Lending Policy.
The OFA Lending Policy (attached, see p. 5 of 7 of the. pdf, “Security” section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the **Minister, Cabinet or Treasury Board.**
The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).
The Legislature appropriates no funds for the IESO, since the IESO is ratepayer-funded. It therefore makes no sense to include this provision and we are looking for a direction for an exemption in this regard.
Thanks,
Sarah

Subject: Question re: signature of a proposed directive.
Hi Anna,
As discussed, we are looking to have directive signed by the Minister, but you had mentioned the Head of Treasury Board may be able to sign as the Minister's delegate?
The nature of the directive is to obtain approval for an exemption from the inclusion of a security provision in an OFA credit facility agreement under the OFA Lending Policy.
The OFA Lending Policy (attached, see p. 5 of 7 of the. pdf, "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the **Minister, Cabinet or Treasury Board.**
The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).
The Legislature appropriates no funds for the IESO, since the IESO is ratepayer-funded. It therefore

makes no sense to include this provision and we are looking for a direction for an exemption in this regard.
Thanks,
Sarah

Hi Anna,
I've been catching up on this file and I would like us to consider other options before making inquiries about the delegate option.
Just got a call from Sarah as I was drafting this as well.
I've spoken to Lisa and also CFB staff here on the floor this afternoon. The intercept provision is not relevant for the IESO (given the organization is ratepayer funded) and would like to explore ways of putting the provision in the agreement following a discussion with the ministry.
Thanks,
John

Hi Sarah,
Thanks for this. I can confirm that the Minister is away until September 5.
Given that this is related to the FHP, I expect the MO will want the Minister to sign it himself.
Furthermore, the DMO may want to "package" this with other FHP approvals – including a TB Submission that will be coming forward for our Minister's signature in early September.
With that in mind, can this wait for his return on the 5th? If not, I'm happy to start making inquiries about his delegate.

A couple of further comments
1. I don't have a problem focussing on the new agreement, but it would be preferable to have an answer in case anyone DMO/MO/M were to inquire about the previous agreement. It's a question that I would think they might ask.
2. My second question below was for clarification as I didn't see specific reference to an MOU requirement wrt to the Intercept section in the OFA lending policy.
I'm just want make sure we(I) can respond to questions that may come up so that this goes as smoothly as possible.
Thanks
Bruno

Subject: Questions re Intercept Provision
Hi,
Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current

agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.
   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters,

and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.
Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,
Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the

protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?

    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Thanks Lisa

A couple of further comments

1. I don't have a problem focussing on the new agreement, but it would be preferable to have an answer in case anyone DMO/MO/M were to inquire about the previous agreement. It's a question that I would think they might ask.

2. My second question below was for clarification as I didn't see specific reference to an MOU requirement wrt to the Intercept section in the OFA lending policy.

I'm just want make sure we(I) can respond to questions that may come up so that this goes as smoothly as possible.

Thanks
Bruno

Subject: Questions re Intercept Provision

Hi,

Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.

   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   > *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.*

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

> The steps of the transaction would be:
>
> 1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;
> 2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;
> 3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;
> 4 – The IESO repays the OFA for the loan.
>
> Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another*

agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
>
> I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
> Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Lisa

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
>
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that

the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the

existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Importance: High

Hello Bruno and John,

In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.

Thank you,

Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,

Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be

addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?

- Given that the debt is specifically for the purpose of creating the Asset which will be “warehoused” at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: Questions re Intercept Provision

Hi,
Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.
2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.
   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   > *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.*
3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include

such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may

instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).
Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.
If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.
If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional

input or insight on this matter.
Thank you,
Sarah

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,
I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.
The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.
I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it

may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: Questions re Intercept Provision

Hi,
Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.
2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.
   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   > *1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.*
3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include

such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters, and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may

instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).
Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

> *"Dear Anthony,*
>
> *My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?*
>
> - *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
> - *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
> - *[Include additional questions]*
>
> *I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.*
>
> *Best regards,"*

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.
If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.
If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.
Thanks
Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement
Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional

input or insight on this matter.
Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,
Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.
Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,
I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.
The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.
I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it

may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

A couple of further comments
1. I don't have a problem focussing on the new agreement, but it would be preferable to have an answer in case anyone DMO/MO/M were to inquire about the previous agreement. It's a question that I would think they might ask.
2. My second question below was for clarification as I didn't see specific reference to an MOU requirement wrt to the Intercept section in the OFA lending policy.
I'm just want make sure we(I) can respond to questions that may come up so that this goes as smoothly as possible.
Thanks
Bruno

Subject: Questions re Intercept Provision
Hi,
Following our discussion on Friday, I have a few questions as we start drafting material.

1. In regard to our discussion about the intercept provision, it was noted that the current

agreement for the $975M facility also did not have this provision. I don't think there was a clear idea around the table of why this was the case (OFA lending policy changed or maybe a previous exemption). If anyone has any ideas on how we can find this out that would be helpful. It is a question that I expect would come up. We will see what we can find out at our end. We don't have the answer for this; it's possible that it was not required by the OFA Lending Policy at the time of the agreement. Toby and I have discussed and we would like to focus on the new FHP agreement going forward for the time being.

2. In regard to the timing issues noted below in Sarah's email, around including of an intercept in the Agreement, it is noted that an MOU would be required. Is that MOU a policy requirement? Yes, this is required by the OFA Lending Policy.
   I'm looking at the Intercept section, first paragraph of the OFA lending policy. Are the agreements noted therein, or elsewhere in the Intercept section, what would be covered in the MOU, or is the something else?

   1. Pursuant to section 23 of the Capital investment Plan Act and prior to any loan agreement entered into between the OFA and a public body, such public body and its responsible ministry are to agree that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the public body amounts equal to any amounts that the public body fails to pay to the OFA on account of indebtedness under its loan agreement with the OFA. In addition, the public body is to agree that any notice from the OFA to the Minister of Finance in relation to its failure to pay under its loan agreement may be relied upon by the Minister of Finance without further inquiry or verification by the Minister of Finance.

3. Am I correct that Energy did not include the intercept provision in its initial draft of the Agreement. Do we know is they were just following the previous agreement, or was there a deliberate exclusion as it doesn't appear to do much under the specific circumstances? Apologies if there was a previous discussion on this that I'm not recalling. I don't know who prepared the initial draft of the agreement. We believe it was excluded from the draft as the agreement was based on the previous OPA (now IESO) agreement which did not include such provisions. Perhaps this matter had not been previously considered from a business perspective?

Thanks
Bruno

Subject: RE: Policy questions re OFHP Credit Facility Agreement

Hi Ken,

Yesterday we held an internal meeting to discuss issues identified by Lisa and Toby regarding inclusion of an intercept provision in the new $2B FHP Credit Facility, as well the factors that the OFA needs to consider on whether or not to seek a security interest in the Regulatory Asset. We will need to obtain further information from IESO to inform the OFA's final determination on these matters,

and also require your input on certain items below.

Security Interest - Background

In reference to Bruno's comments and your comments below, if the OFA were to take a security interest in the Regulatory Asset, any security interest would only be applicable while the IESO was the holder of the asset, and only while it is being held by the IESO with money borrowed from the OFA.

The steps of the transaction would be:

1 – The IESO makes payments to electricity producers at the contracted rate, but charges consumers a rate that is set by the FHP, which leaves a shortfall that must be made up;

2 – The IESO borrows money from the OFA to finance the shortfall – it is at this stage that the OFA would consider taking a security interest in the asset, up to the amount that the OFA lends to the IESO;

3 – The IESO bundles the right to charge consumers for the shortfall in the future through the GA into the Regulatory Asset, which is sold to the OPG SPV, which sale can be of the asset free and clear of any security interest;

4 – The IESO repays the OFA for the loan.

Steps 3 and 4 can happen simultaneously. If it is deemed to be something that the OFA would like to do, the security interest would only apply while the IESO holds the assets that it creates using the OFA loan to finance the purchase of electricity that it does not charge for. Once the asset is sold to the OPG SPV, the loan can be repaid and the security interest that the OFA had in the asset can be discharged.

Intercept Provision - Background

Regarding the inclusion of the intercept provision, the OFA Lending Policy (attached, see p. 4 "Security" section), stipulates the OFA must include an intercept provision, unless the OFA either receives an exemption from the OFA Board OR receives direction from the Minister, Cabinet or Treasury Board.

The intercept provision provides that in the event of non-payment by IESO to the OFA under the Credit Facility, the Minister may take funds appropriated by the Legislature for IESO, and may instead use the funds to repay the OFA (in the amount that IESO has defaulted under the facility).

Question for Ken: Are you aware of how we might determine if the Legislature has appropriated funds for IESO? If the amounts are minimal, there would seem token benefit to include the intercept provision in the new FHP credit facility agreement

Draft E-mail to IESO

We would like to ensure that we obtain from IESO all the information that would be required to make a risk assessment as to whether an intercept provision and/or a security interest by the OFA in the Regulatory Asset would be required.

Request for Ken: We are drafting an e-mail to send to IESO today (below) to request information that is pertinent for an analysis regarding these matters. We would appreciate if you could please review the draft and amend it to include all key questions that would be required to make a risk assessment.

"Dear Anthony,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. We became aware of a potential requirement under the OFA's lending policy which needs to be considered internally for inclusion in the agreement, for which we require additional information. Would you kindly provide answers to the following questions?

- *Does IESO have other financial obligations (such as but not limited to swap agreements, other financial obligations etc.) that could become due and adversely impact IESO's ability to pay its debts when they become due?*
- *Does IESO have any other financial obligations or security interests that could attach to the Regulator Asset/Special Purpose Vehicle?*
- *[Include additional questions]*

I also want to make you aware that due to the internal assessment that must be made in respect of the OFA's lending policy, we will likely not be able to execute the new FHP facility prior to IESO's next funding request (for which IESO will be providing notice on August 17th, for funding on August 21st). Accordingly, the August FHP draw will be made under the existing $975 million credit facility. At the time we execute the new $2B facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility.

Best regards,"

In reference to the last sentence above in the draft e-mail to IESO, the intended financing structure for IESO credit facilities is to (i) execute a new $2B FHP facility and (ii) simultaneously reduce the existing $975 million facility by $500 million to $475 million. This would create a total aggregated limit of $2.475 billion. Ideally these 2 agreements would have been executed simultaneously prior to the August draw from IESO (since IESO's August draw will likely bring the balance of the existing credit facility to approx. $500M, exceeding the intended revised limit of $475 million).

Question for Ken: When we do execute both agreements, are there any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any 'excess loan amount' from the existing credit facility to the new FHP credit facility? We would be looking to re-allocate certain loans from the existing facility to the new facility, without any cash flow impact. From a legal perspective we expect this should be fine, as we can work out the legal particulars with IESO.

General Note re: Timing Impact of Intercept Provision

Regardless of whether the OFA decides to include or exclude the intercept provision, the execution of the FHP facility will take longer than expected, likely taking an additional number of weeks.

If the decision is made not to include the intercept provision, a directive will need to be obtained from the Minister to this effect, potentially taking a few weeks.

If it is a determined an intercept provision is required, then this will likely even take longer than getting a directive from the Minister. In this case, the OFA would need to go back to the Ministry of Energy to effect the following: (I)Ministry of Energy will need to agree with IESO on acceptance of the inclusion of intercept provision in the FHP credit facility agreement and (ii) the OFA and Ministry of Energy will require an MOU whereby the parties agree on the inclusion of a the intercept provision in the FHP credit facility agreement.

Thanks

Sarah

Subject: Re: Policy questions re OFHP Credit Facility Agreement
Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.
It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.
Thanks

> But I have a basic question with respect to the issue of the Province taking a security interest in the asset and differences with this loan from others. Under the OFHP, the sale of the asset ultimately allows for payments to electricity generators. If the Province has a security interest in the asset, can we envisage a potential situation wherein the IESO would be repaying the OFA loan rather than paying generators, which would be problematic for OFHP?
> I had discussed with Ron. In regard to Toby's last question, Ron was wondering if there might be a provision on use of proceeds from IESO's sale of the regulatory asset.
> Ron had also asked whether OPCD had opined on any accounting issues, and whether OIC or Minister's directive gave any particular direction on this issue. In regard to the latter, I have checked. Minister's directive and OIC were fairly high level noting specific terms and conditions to be set out in the Agreement.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.
Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,
Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the

protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?
    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?

    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Subject: RE: Short blurb OPG credit facility

Sure – see below:

OPG-OEFC Credit Facility
Purpose: General Corporate Purposes and Darlington requirements
Current Limit: CAD 700M to December 31, 2017
Amendment:
- Increase to CAD 2.35B to December 31, 2018
- Amend definition of Base Rate: Previously, the base rate for a 30 year borrowing would be set by taking the posted yield of the 30 year Government of Canada bond from the RBCB page on the day before the borrowing. If the term of the borrowing was not the same as the benchmark Government of Canada bond, there is a interpolation calculation done using the Government of Canada bonds, with terms less than and greater than the term of the borrowing, from the RBCB page.
Going forward, we want to set the Government of Canada bond yield based on the hedging that is done for the borrowing. This is the reason for the change to OEFC determining the yield. But this only determines the first part of the calculation. If the term of the borrowing is not the same as the term of the Government of Canada benchmark bond, we still need to do an interpolation calculation. This interpolation would be done using the yields posted on the RBCB page on the day before borrowing.
- Additional proposed amendment by OPG (being considered internally in OFA) to amend definition of S*ubsidiary* to exclude "any Person that is a "financing entity" as defined in the *Ontario Fair Hydro Plan Act, 2017* (Ontario). The effect of this amendment would be to clarify that the financing entity is not a subsidiary of OPG. The entity needs to be legally separated from OPG and be a single purpose entity for the fair share scheme to work (see the information that Ryan and I put together earlier).

Hi Kelly,

Thanks for the update.

I saw Sarah N's analysis yesterday on the SPV exclusion for OPG. In mentioning that the Draft of the OPG amendment is done, does that mean we've sorted out any outstanding issues and we're ready for execution?

Thank,
Sarah

We are done. The SPV is not a material subsidiary. OPG is being cautious. The whole electricity plan would crumble, there would be not separate credit rating possible. It would have to be accounted for differently revealing all the financial/ debt details, etc.

Hi
Nicole in LSB is working on the IESO OIC. She has the docs and is reviewing.
OPG has asked for a further amendment to the amendment that we are in the process of doing - New item to clarify the definition of "subsidiary" to exclude any financing entity related to the Ontario Fair Hydro Plan Act. This is a significant item that needs to be captured. OFA has been involved in the developments related to this Act

Good morning Sarah,

1. IESO draft new Credit facility agreement and amendment of existing agreement.
2. OILC has sent a large number of loan request recently.
3. OLMS report/OILC Loan confirmation improvement.
4. Update T-bill procedure manual – pending test of new procedures before I document them.
5. Bond exchange procedures – drafts submitted.

Hi Opal,
TD (Cheryl Butcher) was looking for a copy of their original submission and emailed Sarah and she delegated to me – the original RFP and TD's submission were made in 2002 and Sarah requested that I reach out to Banking and LSB. Banking was able to provide copies which were sent to TD and LSB. TD said there were staffing changes and they were unable to find their copies.
The 'option 4 re: BEO SSA amendments' pertains to Fran Daly's suggestion at our last meeting with CDS that we could consider amending the BEO SSA with CDS and our IPA agent as a long-term solution for T-bills. This was offered by Fran as a possible alternative to adhering to standard MM issuance practices or becoming a participant.
Thanks for the clarifications on OSBs. Does this mean that after October 2017, they will no longer accept ANY certificates for OSBs?
There may be some small concerns with the LGX application and this remains on Patrick's plate. I am hoping that LSB will not have any major concerns and had reached out to the LuxSE on this when we re-opened the green bond. The LuxSE has confirmed to me in writing that they would be willing to negotiate the LGX application contents with us if necessary.
Thanks,
J-F

Subject: RE: Status update
Hi J-F,
Thanks for this. TD had contacted me as well regarding a copy of the RFP. It wasn't clear specifically what they were after. I followed up with TD but got no response. Were they just after the fee agreement?
Re: below – what is meant by "still need to consider 'option 4 re: BEO SSA amendments"?
Just to follow up on the OSB note below, CDS sent an email saying no changes are expected until October. I have yet to respond, but will at some point.
I didn't realize that the Lux green green exchange application was still outstanding. Are there any significant concerns?
Opal

Hi Opal,
As requested, please find below a summary of the matters I am currently involved in.
Regards,

JF

ITEM

IESO - provide guidance to Will and Kelly on amending agreement and new FHP facility; early August deadline

T+2 – coordinating with CDS and LSB; CDS confirmed language is fine two weeks ago; LSB currently reviewing suggested process for FRNs and auctions; will need to purchase block of ISINs in the near future; follow-up with LSB this week

Green Ontario Fund – commented on draft SIPP and provided suggestions to Sarah and Ryan

US Counsel RFP –timeline established for Aug-Sep 2017 with LSB, drafted 'fee cap language' for Sarah and LSB's review and consideration on July 5, 2017; follow-up by this week

CDS Fees –monitor 'event fees' for DMTN235 on upcoming August 2017 CDS invoice pursuant to instructions sent to CDS on July 11, 2017; back and forth with CDS and what fees should not apply (e.g. paying agent fees); assisted Martine with CDS fee questions yesterday for OSBs

OILC – provided guidance to Will and Settlements on early repayment request from Sherry and agreement interpretation

Invoice Process – sent new suggested invoice process to Sarah on July 18, 2017, follow-up upon return from vacation

ACE and OICs – assist Andrea and Ryan with ACE testing, provide guidance on ACE logic and fixes, act as back-up for OICs as needed

Q1 Release – Sarah asked me to follow-up this week, expected release is August 11, 2017 per Opal. Karin to handle EDGAR and Andrea non-EDGAR filings

USD Potential Deal – 50/50 chance (last week) per Jim, explored EMTN 144A offering vs. US MTN vs Global; answered questions for the Funding Desk; ensure accuracy with flow back letter on the next Global deal further to call with Shearman in June 2017

CCMR – keep apprised of any developments, unable to obtain copy of Cabinet submission - I anticipate that the major exemptions will be contained in the Regulations at this stage

T-bill Process – assisted TD in getting original RFP and submission from 2002 last week and forwarded to Malle; still need to consider 'option 4 re: BEO SSA amendments'

OSBs – no change for 2017; post August 31st environment okay as confirmed by CDS; part of bigger legal piece re FAA delegation and agent actions under STA for LSB's consideration

FAA Amendments – consider next steps and prepare note for LSB outlining approach – accrued interest first and possible commissions – no Fall bill required per Sarah and LSB; obtain certifications from other government issuers if possible.

RBA Bond Basis – still need to determine if the inconsistent language creates any financial risk for the Province; my view is that it probably does not since we are dealing with a highly hypothetical scenario and accrued interest, if a problem, would be adjusted manually and washed-out via a buyback ticket by the traders

Training – provide on-going guidance and training to Ryan, Sab, Andrea

LGX Application – waiting for comments from LSB on LGX Application, this item it not time sensitive until the next 'new' green bond deal. Would not apply to any re-openings of existing green bonds

---

T+2 – coordinating with CDS and LSB; CDS confirmed language is fine two weeks ago; LSB currently reviewing suggested process for FRNs and auctions; will need to purchase block of ISINs in the near future; follow-up with LSB this week

Green Ontario Fund – commented on draft SIPP and provided suggestions to Sarah and Ryan

US Counsel RFP –timeline established for Aug-Sep 2017 with LSB, drafted 'fee cap language' for Sarah and LSB's review and consideration on July 5, 2017; follow-up by this week

CDS Fees –monitor 'event fees' for DMTN235 on upcoming August 2017 CDS invoice pursuant to instructions sent to CDS on July 11, 2017; back and forth with CDS and what fees should not apply (e.g. paying agent fees); assisted Martine with CDS fee questions yesterday for OSBs

OILC – provided guidance to Will and Settlements on early repayment request from Sherry and agreement interpretation

Invoice Process – sent new suggested invoice process to Sarah on July 18, 2017, follow-up upon return from vacation

ACE and OICs – assist Andrea and Ryan with ACE testing, provide guidance on ACE logic and fixes, act as back-up for OICs as needed

Q1 Release – Sarah asked me to follow-up this week, expected release is August 11, 2017 per Opal. Karin to handle EDGAR and Andrea non-EDGAR filings

USD Potential Deal – 50/50 chance (last week) per Jim, explored EMTN 144A offering vs. US MTN vs Global; answered questions for the Funding Desk; ensure accuracy with flow back letter on the next

Global deal further to call with Shearman in June 2017

CCMR – keep apprised of any developments, unable to obtain copy of Cabinet submission - I anticipate that the major exemptions will be contained in the Regulations at this stage

T-bill Process – assisted TD in getting original RFP and submission from 2002 last week and forwarded to Malle; still need to consider 'option 4 re: BEO SSA amendments'

OSBs – no change for 2017; post August 31st environment okay as confirmed by CDS; part of bigger legal piece re FAA delegation and agent actions under STA for LSB's consideration

FAA Amendments – consider next steps and prepare note for LSB outlining approach – accrued interest first and possible commissions – no Fall bill required per Sarah and LSB; obtain certifications from other government issuers if possible.

RBA Bond Basis – still need to determine if the inconsistent language creates any financial risk for the Province; my view is that it probably does not since we are dealing with a highly hypothetical scenario and accrued interest, if a problem, would be adjusted manually and washed-out via a buyback ticket by the traders

Training – provide on-going guidance and training to Ryan, Sab, Andrea

LGX Application – waiting for comments from LSB on LGX Application, this item it not time sensitive until the next 'new' green bond deal. Would not apply to any re-openings of existing green bonds

Thanks Opal.
I completely agree about the Green Exchange advertising and will definitely have this sorted out with LSB before the next green bond issuance.
For the NCI conversion in October, I think this brings us back to the same options Computershare presented earlier this year. The concern I have here is what happens in a fully uncertificated environment if the proper controls or legislation are not in place and something goes wrong with the electronic records? The NCI conversion for OSBs ties into the same concerns we have about T-bills in terms of documenting/delegating the 'button-pusher' via legislation or agreements. That is why Fran was suggesting amending the BEO SSA I suspect, since this could potentially cover both T-Bills and OSBs. This would not be an actual rule change to CDS Participant Rules requiring public comments nor would they need to vet this through their Board, but rather, a formalized agreement between CDS, the issuer and its agents where we could clearly define who does what and who is responsible for the various CDS functions. Obviously, this would entail negotiations with CDS and likely TD and Computershare (as OSB agent) since we could not execute a bilateral agreement with CDS imposing responsibilities and obligations onto our agents without having them as parties to the agreement. We could go outside the BEO SSA and set-up agreements directly with our agents, but I don't think they would be comfortable with this unless they had 100% assurances that CDS was onboard with these processes.
One idea I had would be to expand on Fran's proposal by supplementing the existing BEO SSA instead of renegotiating it from the start. We already have an existing 'Rider to the BEO SSA', so we could consider a special Rider for "T-Bills/Money Market Securities Issuances" and another Rider for "OSBs/Retail Debt Issuances". We would not need a Rider for long term debt since CDS would continue to perform these functions itself for long term debt securities. Such an "OSB Rider" would hopefully give LSB some comfort if we eliminated paper certificates for OSBs in October and the "T-Bill Rider" would give TD the ability to act as our 'button-pusher' thereby eliminating the interim T-bill issuance process and special-handling fees.
I would be happy to take a stab at drafting one or both Riders which we could present to LSB initially for their comments with a view of sharing with CDS and our agents down the road. Like you said, if CDS was/is willing to provide some kind of 'pass' via confidential BEO SSA riders, I see no reason why the agents would object (unless they felt they would be assuming too much liability). I do consider Fran's suggestion to be a good one, but the end result will be a 'secret side-deal' with the Province which is CDS's usual M.O. anyway (eg Quebec). I say if it could potentially benefit the Province, let's explore this option further since I think you want to become a CDS participant anytime soon – the other option is to amend the FAA to give our agents authority, which I don't think LSB wants to do either.
Happy to discuss further as always,
JF

Subject: RE: Status update

We "advertise" that Ont. Green bonds are listed on the Euro MTF as well as the Green Exchange, so it would be good to have any details worked out before the next one – granted, there is what I would hope is sufficient time to get that done.

CDS is proposing a conversion from physicals to NCI during the month of Oct.

In terms of T-bills, if I remember correctly, Ont. would need to determine if (with proper controls in place), we can ask our agent to perform certain functions in CDSX so that it makes it clear that the agent is just the "button pusher" not the "issuer". CDS would then have to give the agent a pass in its rules, by not binding Ont. to the actions of our agent. Knowing CDS, it's a tall order, especially if there's **nothing** it in for them! I haven't pursued this as I can't provide a carrot (that I can live with) nor a stick big enough to encourage CDS to change its rules. Let me know if you have any suggestions.

Opal.

Subject: RE: Status update

Hi Opal,

TD (Cheryl Butcher) was looking for a copy of their original submission and emailed Sarah and she delegated to me – the original RFP and TD's submission were made in 2002 and Sarah requested that I reach out to Banking and LSB. Banking was able to provide copies which were sent to TD and LSB. TD said there were staffing changes and they were unable to find their copies.

The 'option 4 re: BEO SSA amendments' pertains to Fran Daly's suggestion at our last meeting with CDS that we could consider amending the BEO SSA with CDS and our IPA agent as a long-term solution for T-bills. This was offered by Fran as a possible alternative to adhering to standard MM issuance practices or becoming a participant.

Thanks for the clarifications on OSBs. Does this mean that after October 2017, they will no longer accept ANY certificates for OSBs?

There may be some small concerns with the LGX application and this remains on Patrick's plate. I am hoping that LSB will not have any major concerns and had reached out to the LuxSE on this when we re-opened the green bond. The LuxSE has confirmed to me in writing that they would be willing to negotiate the LGX application contents with us if necessary.

Thanks,

J-F

Hi J-F,

Thanks for this. TD had contacted me as well regarding a copy of the RFP. It wasn't clear specifically what they were after. I followed up with TD but got no response. Were they just after the fee agreement?

Re: below – what is meant by "still need to consider 'option 4 re: BEO SSA amendments"?
Just to follow up on the OSB note below, CDS sent an email saying no changes are expected until October. I have yet to respond, but will at some point.
I didn't realize that the Lux green green exchange application was still outstanding. Are there any significant concerns?

Subject: Timing of call

Hi Will,

If others are not yet aware, it would be good to let those who will be participating in Lisa's IESO call a status update. Usually when these call are organized, you send out an e-mail asking all participants about their availability and give a couple of proposed times for a call. Everyone will usually respond to the group with their availability.

Thanks,

Sarah

Good morning Sarah,

1. IESO

    FHP Credit facility agreement – Awaiting for the ministerial directive to be signed. We are making finishing touches on the FHP Credit Facility before we provide a draft copy to IESO.

AA10 – I will follow-up with Anthony that there are no more changes.

Ministerial Directive – I will check with either Bruno or Malle to find out if this has been signed.

2. OILC FRN Awaiting draft documents.
3. OLMS report/OILC Loan confirmation improvement.
4. Update T-bill procedure manual – pending test of new procedures before I document them.
5. Bond exchange procedures – drafts submitted.

Thanks,

Will

Hi Sarah,

I can input the grid note figures in today. If I can find my old version, I can finish it within 30 mins or so. (I intended to work on the grid note but JF thought the FHP agreement was a priority). Anthony just replied that he will request for new funds August 17.

Thanks,

Will

Thank you, Will.

I'm going through my e-mails for the last two weeks, but it will take some time.

So for the Amending Agreement, we are all agreed on working and just the Grid note needs to be updated? When will that be completed? I see that you were able to reconcile figures with Anthony. I think you asked JF if you should check with Anthony when the next expected draw would be – I think this is important to do ASAP, because we need to know the absolute deadline for execution of the Amending Agreement and the new $2B facility.

Thanks,

Sarah

Date:	Wednesday, August 09, 2017 9:46:10 AM

Hi Sarah,
I'll follow up with Lisa around 11:30am.
Thanks for the suggestion.

From: Sarah Harris
Sent: Wednesday, August 09, 2017 9:38 AM
To: William Tan
Subject: RE: conference call re FHP Agreement

Thanks, Will. You can follow up with Lisa at around 11:30 a.m. to request the e-mail they were preparing yesterday.
Coaching feedback: When laying out a timeline for execution, it's important to frame it that you are all working as a team to get it done, and not necessarily impose the signature date. So something to the effect that:

As we have been informed by Anthony, next Thursday, on August 17th IESO will be requesting a new advancement of $250 million in addition to their existing balance of $253.1 million, resulting in an outstanding total balance of $503.10 million, which exceeds the new anticipated limit of $475 million of the existing credit facility. Accordingly, we must execute both agreements (amending agreement for the existing facility and the agreement for the new $2B facility) prior to August 17th . In order to allow sufficient time for execution, ***we should aim to finalize with IESO the execution copies of both agreements by no later than Monday, August 14th.***

Thanks,
Sarah

Subject: RE: conference call re FHP Agreement

Thank you Lisa and Toby,
I look forward to receiving the outstanding issues you have identified.
The issues I believe to be outstanding are:

1. *Permitted Liens "(k) any Lien arising in connection with the IESO's role and obligations under the OFHP including with respect to any amounts collect and held by IESO in relation to the Clean Energy Adjustment, or otherwise,"* – Operations for HP are still being worked out and it's difficult to itemize everything that would fall under (k).
2. Intercept provision – We are to review the new proposed language. I believe John, Ken and Mike have settled this matter.
3. Section 3.3(5) "The credit facility shall rank paris passu with all other unsecured Indebetendness of the IESO…." - I believe John, Ken and Mike have settled this matter.

So that I may be aware, are there any other new additional issues that have come forth?

Execution Plan

Anthony (IESO) has informed me that they will require a new advancement of $250 million in

addition to their existing balance of $253.1 million. Effectively an outstanding total balance of $503.10 million.

Monday, August 14 is our new signature date. If we can achieve this, the new $250 million advancement can be allocated to the $2 Billion Credit Facility and the Existing Credit Facility can be reduced from $975 million down to $475 million seamlessly.

Thanks,

Will

We are in the process of preparing an e-mail. In terms of "permitted liens", I've already included revised language in the latest draft; however, I'm waiting until outstanding issues are resolved before sending it out as I don't think these issues should be reviewed/discussed in isolation.

Hi Toby and Lisa,

Do you mind sharing with me the issues that are outstanding? (So I may take advantage of the time before the afternoon call. I want to avoid any new items that would push this back another day). Possibly one of these issues can be addressed immediately since Mike and Ken have already weigh-in?

To paraphrase Bruno, he is fine with Permitted Lien's in (k) but wanted Legal's opinion.

Hi Will,

After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.

Thank you,

Lisa

Thanks, Will. You can follow up with Lisa at around 11:30 a.m. to request the e-mail they were preparing yesterday.
Coaching feedback: When laying out a timeline for execution, it's important to frame it that you are all working as a team to get it done, and not necessarily impose the signature date. So something to the effect that:

As we have been informed by Anthony, next Thursday, on August 17th IESO will be requesting a new advancement of $250 million in addition to their existing balance of $253.1 million, resulting in an outstanding total balance of $503.10 million, which exceeds the new anticipated limit of $475 million of the existing credit facility. Accordingly, we must execute both agreements (amending agreement for the existing facility and the agreement for the new $2B facility) prior to August 17th . In order to allow sufficient time for execution, ***we should aim to finalize with IESO the execution copies of both agreements by no later than Monday, August 14th.***

Thanks,
Sarah

To: Lisa Stein ; Tobias P. Whitfield (MOF)
Cc: Sarah Harris
Subject: RE: conference call re FHP Agreement
Thank you Lisa and Toby,
I look forward to receiving the outstanding issues you have identified.
The issues I believe to be outstanding are:

1. *Permitted Liens "(k) any Lien arising in connection with the IESO's role and obligations under the OFHP including with respect to any amounts collect and held by IESO in relation to the Clean Energy Adjustment, or otherwise,"* – Operations for HP are still being worked out and it's difficult to itemize everything that would fall under (k).
2. Intercept provision – We are to review the new proposed language. I believe John, Ken and Mike have settled this matter.
3. Section 3.3(5) "The credit facility shall rank paris passu with all other unsecured Indebetendness of the IESO…." - I believe John, Ken and Mike have settled this matter.

So that I may be aware, are there any other new additional issues that have come forth?

Execution Plan

Anthony (IESO) has informed me that they will require a new advancement of $250 million in addition to their existing balance of $253.1 million. Effectively an outstanding total balance of $503.10 million.

Monday, August 14 is our new signature date. If we can achieve this, the new $250 million advancement can be allocated to the $2 Billion Credit Facility and the Existing Credit Facility can be reduced from $975 million down to $475 million seamlessly.

Thanks,
Will

We are in the process of preparing an e-mail. In terms of "permitted liens", I've already included revised language in the latest draft; however, I'm waiting until outstanding issues are resolved before sending it out as I don't think these issues should be reviewed/discussed in isolation.

Subject: conference call re FHP Agreement

Hi Will,
After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.
Thank you,
Lisa

Thanks, Will. You can follow up with Lisa at around 11:30 a.m. to request the e-mail they were preparing yesterday.
Coaching feedback: When laying out a timeline for execution, it's important to frame it that you are all working as a team to get it done, and not necessarily impose the signature date. So something to the effect that:

As we have been informed by Anthony, next Thursday, on August 17th IESO will be requesting a new advancement of $250 million in addition to their existing balance of $253.1 million, resulting in an outstanding total balance of $503.10 million, which exceeds the new anticipated limit of $475 million of the existing credit facility. Accordingly, we must execute both agreements (amending agreement for the existing facility and the agreement for the new $2B facility) prior to August 17th . In order to allow sufficient time for execution, ***we should aim to finalize with IESO the execution copies of both agreements by no later than Monday, August 14th.***

Thanks,
Sarah

Subject: RE: conference call re FHP Agreement
Thank you Lisa and Toby,
I look forward to receiving the outstanding issues you have identified.
The issues I believe to be outstanding are:

1. *Permitted Liens "(k) any Lien arising in connection with the IESO's role and obligations under the OFHP including with respect to any amounts collect and held by IESO in relation to the Clean Energy Adjustment, or otherwise,"* – Operations for HP are still being worked out and it's difficult to itemize everything that would fall under (k).
2. Intercept provision – We are to review the new proposed language. I believe John, Ken and Mike have settled this matter.
3. Section 3.3(5) "The credit facility shall rank paris passu with all other unsecured Indebetendness of the IESO…." - I believe John, Ken and Mike have settled this matter.

So that I may be aware, are there any other new additional issues that have come forth?

Execution Plan

Anthony (IESO) has informed me that they will require a new advancement of $250 million in addition to their existing balance of $253.1 million. Effectively an outstanding total balance of $503.10 million.

Monday, August 14 is our new signature date. If we can achieve this, the new $250 million advancement can be allocated to the $2 Billion Credit Facility and the Existing Credit Facility can be reduced from $975 million down to $475 million seamlessly.

Thanks,
Will

We are in the process of preparing an e-mail. In terms of "permitted liens", I've already included revised language in the latest draft; however, I'm waiting until outstanding issues are resolved before sending it out as I don't think these issues should be reviewed/discussed in isolation.

Hi Toby and Lisa,
Do you mind sharing with me the issues that are outstanding? (So I may take advantage of the time before the afternoon call. I want to avoid any new items that would push this back another day).
Possibly one of these issues can be addressed immediately since Mike and Ken have already weigh-in?
To paraphrase Bruno, he is fine with Permitted Lien's in (k) but wanted Legal's opinion.

Thanks, Will. You can follow up with Lisa at around 11:30 a.m. to request the e-mail they were preparing yesterday.
Coaching feedback: When laying out a timeline for execution, it's important to frame it that you are all working as a team to get it done, and not necessarily impose the signature date. So something to the effect that:

As we have been informed by Anthony, next Thursday, on August 17th IESO will be requesting a new advancement of $250 million in addition to their existing balance of $253.1 million, resulting in an outstanding total balance of $503.10 million, which exceeds the new anticipated limit of $475 million of the existing credit facility. Accordingly, we must execute both agreements (amending agreement for the existing facility and the agreement for the new $2B facility) prior to August 17th . In order to allow sufficient time for execution, ***we should aim to finalize with IESO the execution copies of both agreements by no later than Monday, August 14th.***

Thanks,
Sarah

Cc: Sarah Harris <Sarah.Harris@ofina.on.ca>
Subject: RE: conference call re FHP Agreement

Thank you Lisa and Toby,
I look forward to receiving the outstanding issues you have identified.
The issues I believe to be outstanding are:

1. *Permitted Liens "(k) any Lien arising in connection with the IESO's role and obligations under the OFHP including with respect to any amounts collect and held by IESO in relation to the Clean Energy Adjustment, or otherwise,"* – Operations for HP are still being worked out and it's difficult to itemize everything that would fall under (k).
2. Intercept provision – We are to review the new proposed language. I believe John, Ken and Mike have settled this matter.
3. Section 3.3(5) "The credit facility shall rank paris passu with all other unsecured Indebetendness of the IESO…." - I believe John, Ken and Mike have settled this matter.

So that I may be aware, are there any other new additional issues that have come forth?

Execution Plan

Anthony (IESO) has informed me that they will require a new advancement of $250 million in

addition to their existing balance of $253.1 million. Effectively an outstanding total balance of $503.10 million.

Monday, August 14 is our new signature date. If we can achieve this, the new $250 million advancement can be allocated to the $2 Billion Credit Facility and the Existing Credit Facility can be reduced from $975 million down to $475 million seamlessly.

Thanks,

Will

Subject: RE: conference call re FHP Agreement

We are in the process of preparing an e-mail. In terms of "permitted liens", I've already included revised language in the latest draft; however, I'm waiting until outstanding issues are resolved before sending it out as I don't think these issues should be reviewed/discussed in isolation.

Hi Toby and Lisa,

Do you mind sharing with me the issues that are outstanding? (So I may take advantage of the time before the afternoon call. I want to avoid any new items that would push this back another day). Possibly one of these issues can be addressed immediately since Mike and Ken have already weigh-in?

To paraphrase Bruno, he is fine with Permitted Lien's in (k) but wanted Legal's opinion.

Subject: conference call re FHP Agreement

Hi Will,

After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.

Thank you,

Lisa

Hi Lisa,
No - the OIC for FHP is for FHP purposes. We will have a credit agreement that will use up 100% of the OIC amount.
Also, I think that the OICs referenced in the annual lending directive is the same one OIC being amended over time.
Regards,
Salman

Subject: FW: minister's directive annual lending directive 201718 V1-rev1.doc

Hi all,
As that new 2017 OIC was intended to be specific to the FHP but not specifically reference it, I'm not sure that it needs to be referenced in the annual lending directive, which references specific loans to public bodies (and does not include the FHP loan), or in the OLG directive. Does anyone else have thoughts on this? Is there a possibility that the funds referenced in the 2017 OIC may in future be drawn down for one of these other loans?
The current paragraph of the annual lending directive pertaining to OICs provides as follows:

Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010, 163/2012, 1051/2012 and 354/2014, all as amended, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for each Loan made under the authority of this Directive, the amount of the spread retained by the OFA is equal to the sum of the Cost Recovery Fee and the Commercial Spread, if any, for the Loan as set out above.

Thank you,
Lisa

Hi Lisa,

354/2014 was the last OIC, however, with this last Tuesday's LRC, a new $2B OIC for the OFA-IESO FHP Credit Facility was to have been approved. I am copying Salman, as he is managing that process and he would be able to provide the update on the OIC's approval status (and the relevant # to identify the OIC).

Thanks,

Sarah

Hi Michael and Mara,

Please see my comments and suggested amendments on the attached. Please note that I've included some questions for consideration. Please let me know if you would like to set up a meeting or call to discuss further.

I also note that I'm working on an OLG loan with Sarah McGowan; however, I'm not sure if this is the same loan as noted in the Borrowing and On-Lending Plan (and hence my comment on the attached).

Thank you,

Lisa

Hi Lisa,
This is my first time seeing/being consulted on the annual lending directive (not to say that Documentation hasn't been consulted before, but this is my first time seeing it as Manager). I am not familiar with OIC 1051/2012.
As far as OFA Loans go, we have a list of the attached OFA loans (which includes 7 of the 8 list), plus the 3 auto loans ones at the bottom. Would you have a copy of OIC 1051/2012 that you might be able to send to me, please? I want to check with Opal is unofficially working from home today.
Thanks,
Sarah

Subject: FW: minister's directive annual lending directive 201718 V1-rev1.doc
Hi all,
As that new 2017 OIC was intended to be specific to the FHP but not specifically reference it, I'm not sure that it needs to be referenced in the annual lending directive, which references specific loans to public bodies (and does not include the FHP loan), or in the OLG directive. Does anyone else have thoughts on this? Is there a possibility that the funds referenced in the 2017 OIC may in future be drawn down for one of these other loans?
The current paragraph of the annual lending directive pertaining to OICs provides as follows:
Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010, 163/2012, 1051/2012 and 354/2014, all as amended, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for each Loan made under the authority of this Directive, the amount of the spread retained by the OFA is equal to the sum of the Cost Recovery Fee and the Commercial Spread, if any, for the Loan as set out above.
Thank you,
Lisa

Hi all,

As that new 2017 OIC was intended to be specific to the FHP but not specifically reference it, I'm not sure that it needs to be referenced in the annual lending directive, which references specific loans to public bodies (and does not include the FHP loan), or in the OLG directive. Does anyone else have thoughts on this? Is there a possibility that the funds referenced in the 2017 OIC may in future be drawn down for one of these other loans?

The current paragraph of the annual lending directive pertaining to OICs provides as follows:

Pursuant to Orders in Council 675/97, 767/99, 1883/2006, 2144/2007, 300/2010, 163/2012, 1051/2012 and 354/2014, all as amended, made under subsection 22(1) of the *Capital Investment Plan Act, 1993,* the Minister of Finance is authorized to make loans to the OFA and to determine the amount of the spread to be retained by the OFA where those funds are subsequently loaned to public bodies. It is hereby determined that for each Loan made under the authority of this Directive, the amount of the spread retained by the OFA is equal to the sum of the Cost Recovery Fee and the Commercial Spread, if any, for the Loan as set out above.

Thank you,

Lisa

Hi Lisa,

354/2014 was the last OIC, however, with this last Tuesday's LRC, a new $2B OIC for the OFA-IESO FHP Credit Facility was to have been approved. I am copying Salman, as he is managing that process and he would be able to provide the update on the OIC's approval status (and the relevant # to

identify the OIC).
Thanks,
Sarah

Hi Lisa,
No - the OIC for FHP is for FHP purposes. We will have a credit agreement that will use up 100% of the OIC amount.
Also, I think that the OICs referenced in the annual lending directive is the same one OIC being amended over time.
Regards,
Salman

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

Subject: RE: 01 - IESO-OFA - FHP LoC - Intercept Directive v5_Markup2Clean OFA Legal.docx

Hi,

I think in the 3rd paragraph it should say the Minister of Finance is entitled to deduct rather than the OFA. If in fact there are some transfer payments to the IESO for the programs mentioned (although there shouldn't be a deduction because they are for the benefit of some others) maybe the whereas in the directive should be modified a bit.

Hi John,

Please see my attached preliminary edits and comments. I've also included Sarah Harris on this e-mail to keep her in the loop.

Thanks Lisa. We'll look to start drafting next week. I will probably send a couple of questions on Monday to all to clarify some things.

Bruno

Subject: Re: IESO Directive
Date: Tuesday, August 22, 2017 2:55:46 PM

Hi. We delivere,d it to the DMO on Monday morning. I received it from John Kim

Sent from my BlackBerry 10 smartphone on the Rogers network.
From: William Tan
Sent: Tuesday, August 22, 2017 14:53
To: Hanslep, Malle (MOF)
Cc: Harris, Sarah (OFA)
Subject: IESO Directive

Hello Malle,

I am checking in to see if you have received the directive from Bruno and had a chance to forwarded it to the DMO?
Thanks,

Will

Date: Wednesday, August 30, 2017 6:20:56 PM

Hi Caroline,

Please draft without the inclusion of rollover interest. Tomorrow morning, Will shall also re-confirm with the traders about whether interest should accrued in the new FHP agreement.

Sarah

> On Aug 30, 2017, at 5:35 PM, Caroline Swerdlyk <Caroline.Swerdlyk@ofina.on.ca> wrote:
>
> Sorry for the multiple emails. One more email above rolling-over interest.
>
> Under Amending Agreement No. 9 (attached), s. 3.3(1) the Credit Agreement provides for rollover of principal amounts, but the Form of Election Notice lists principal and interest separately under “aggregate amount of the proposed election”. These don’t seem consistent to me. I will draft based on no rollover of interest – but please let me know if this information changes your instructions.

> - Complementary amendments to the definitions, s. 3.2 and 3.3 of the Credit Agreement that are required for the new Form of Election Notice
>
> Please let me know if this is correct or if I am misunderstanding what needs to be changed.
>
> With respect to #3 in your email – Amending Agreement No. 9 requires one Business Days’ prior notice for an Election Notice. Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing

Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.

Subject: FW: IESO FHP Credit Facility Agreement and Amending Agreement 10

Hi,

I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

<!--[if !supportLists]-->- <!--[endif]-->The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.

<!--[if !supportLists]-->- <!--[endif]-->The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.

<!--[if !supportLists]-->- <!--[endif]-->The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.

<!--[if !supportLists]-->- <!--[endif]-->The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of this file? We may need to meet to discuss:

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).
>
> (6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.
>
> (7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

Subject: RE: IESO FHP Credit Facility Agreement and Amending Agreement 10

Hello Anthony,

Please find the attached FHP Credit Facility Agreement. Please provide your review and comments. If the changes are acceptable, we will make the applicable changes to the Amending Agreement 10.

Thanks,

Will

Subject: FW: IESO FHP Credit Facility Agreement and Amending Agreement 10

Will – see attached $2B draft for your review.

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Regards.

Hello all - just as a follow-up to our call of a few minutes ago, it would make sense for the borrowing processes to be aligned for both lines of credit (i.e. the FHP line and the $475MM line) per Anthony's comments below.

Since it sounds like there will need to be some additional tweaks to the Election Notice language we inserted in yesterday's draft, would it make sense for you rather than us to make the changes to the Amendment #10 document as well, since you have the pen on this issue right now ? Just thinking here about what's most efficient time-wise (ie if not, we have to wait for your markup etc).

Let us know - thanks,

Victor

Subject: IESO FHP Credit Facility Agreement and Amending Agreement 10
Hello Anthony and Victor
Please find the attached FHP Credit Facility Agreement and Amending Agreement 10. If the changes are satisfactory, please accept the changes and execute two original copies and forward the originals to me. When you have a moment please contact me for a quick chat.
Execute:
Amending Agreement 10
FHP Credit Facility

Resolution of the Board of Directors.
Incumbency Certificate
Thanks,
Best regards,

Sorry. A little bit hasty in my email. It's that there wasn't enough detail in the email for all to understand. If you've called Anthony explain, then please let Lisa know, as well as Bruno, know that you've contacted Anthony to explain the context for execution, i.e., IESO has to review and sign off on the drafts, and that he is aware now that we expect to have the directive signed next week.

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,
Will

Hi Caroline,

Please draft without the inclusion of rollover interest. Tomorrow morning, Will shall also re-confirm with the traders about whether interest should accrued in the new FHP agreement.

>
> With respect to #3 in your email – Amending Agreement No. 9 requires one Business Days’ prior notice for an Election Notice. Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing

Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.

Now I am utterly confused. But I haven't been directly involved today so don't want to further muddy the waters.

Does that mean the rolled over amount and new borrowing don't need to be tracked separately as instructed yesterday? Do the changes Caroline made today still work - I would be reluctant to change the drafts again given IESO has signed off.

In other news, Caroline followed up with John Kim and the directive was not signed today (you may already know this, I am just getting caught up). Do we need to start thinking about plan B?

Hi,

Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.

You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).

It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.

I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

Regards.

Hi Sarah,

On the draft Agreement: Sarah, Will and I spoke about whether the drafting still works with the form of Grid Note and we think it does.

Caroline

On Aug 30, 2017, at 6:49 PM, Sarah Neville <Sarah.Neville@ofina.on.ca> wrote:

> Now I am utterly confused. But I haven't been directly involved today so don't want to further muddy the waters.

Subject: RE: IESO Grid Notes

Hello,

Anthony is correct that the Grid note provided to him that the Advances are consoldiated into one line item, but I think its done incorrectly.

If you look closely to the items above the number I crossed out, it appears to be some double counting.

I have attached my rough version suggesting how it should appear.

Subject: FW: IESO Grid Notes

Hi,

Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.

You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).

It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.

I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

Regards.

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.

Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.

I am not in the office today so please give me a call at 905-929-1434 this morning or between 2:00 and 5:30 this afternoon - or let me know who to call at what number.

Thanks
Victor

Thank you gentlemen. For your convenience please find the revised amending agreement.
Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.
Please let me know if you require anything further or if you have questions.

Good morning Anthony,

I've had a chance to speak with Victor on Friday to try to clear up any confusion.

Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.

If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.

Thanks,

Will

Subject: RE: IESO : OFA new FH credit facility - Amending Agreement 10

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans

and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Subject: RE: IESO : OFA new FH credit facility - Amending Agreement 10

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans

and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority

(IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.
Thanks,
Will

Good morning Anthony,
As part of our update for the Amending Agreement 10 and new FHP Credit Facility we will require an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy). Please find the attached Certificate of Incumbency and Delegation of Authority/Statement of Policy as an example. (Delegation of authority outlines responsibilities and level of signing authority). If you have any questions my contact information is on my signature below.
Thanks,
Will

Hello Anthony,
Currently the credit facility agreement is being reviewed by OFA legal for review and comment. Once the recommended changes have been made the draft is then reviewed by MOF legal for review and comment. I expect to have the agreement to you early next week.
Thanks,
Will

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP.

The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help
Bruno
By the way, Salman Qadir whom you may have dealt with previously just became a father and is on paternity leave.

On Jul 13, 2017, at 9:02 AM, Sarah Harris <Sarah.Harris@ofina.on.ca> wrote:

> Hi Will,
> We never discussed with Anthony; it was an offline part of the conversation to which Anthony was not privy. When you sent your draft responses to me, I specifically noted, "*…however, you can't send Anthony the following phrase: " In the unlikely event, IESO IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million." That is our internal back up and he would not be aware of it. In the event we see IESO heading in the direction of exceeding $475M, then we bring it up*."
> This was not to be brought up with IESO until such possible time that IESO risked breaching the $475 million mark. Anthony indicated in the call that there was the other TD line of credit that they could use if funding needs started reaching the $475 million mark. Anthony, however, didn't 'guarantee' that would happen in the event the their funding needs exceeded $475M before the other facility was signed (as mentioned in his follow-up e-mail, which was what we were to confirm i.e. that Anthony had agreed to use the TD line). As part of our internal OFA contingency, we agreed that if we saw IESO heading in that direction, we could decrease the size $2B FHP facility to ensure the total borrowing didn't exceed $2.475B at any time.
> We worked out an understanding on the phone re: 1) executing the amending agreement 1st to reduce the existing $975M credit facility to by $500M to $475 as quickly as possible first, before the new $2B FHP facility (that was because IESO's legal was bogged down and couldn't do both quickly) and 2) that IESO had a TD line of Credit that IESO could tap to bridge a funding gap if IESO saw itself exceeding the $475 million prior to the new $2B facility being signed. Given this understanding, from a relationship aspect with IESO, we don't pull out the 'big guns' (i.e. changing the proposed framework of the credit facilities), without first giving them the chance to live up to their agreed commitments.
> Bear in mind that this is a high profile facility and you're not the only OFA employee having conversations with IESO. By introducing this surprise element to Anthony, he may start checking internally at IESO about the origins of this proposal, and this may be brought up to higher levels of the OFA through different channels. Had we kept this contingency internally, we could have briefed all parties in the OFA (up to and including our CEO), so that they would be aware of any developments and there would be no surprises.

I will e-mail Anthony to provide some context, and to clarify the nature of the e-mail that you sent to him.

Subject: RE: IESO : OFA new FH credit facility

Will,
As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.
The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.
I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.
I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.
Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP)

amounts and I expect (but not 100% sure) that I should be under a total of $475MM.
Regards

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will

Hi William,

If the credit agreement cannot be put in place this week, the alternative would be to actually amend the $975 agreement to update "purpose" to include FHP. The facility can likely still be used as written for FHP but amending it would provide clarity.

When the new one is ready, we would move over any drawdowns related to FHP to the new facility.

Reducing the $975 to $475 before the new one is in effect would not work for IESO.

Regards,
Salman

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Subject: RE: IESO : OFA new FH credit facility

Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP.

The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help

> Good morning Will,
> Hope you had a nice weekend. Attached is the mark up of Amending Agreement No 10. I have accepted all changes on the IESO draft of July 7, with the exception of Paragraphs 2 & 3 which has been changed back to the OFA's original language. This is clearly noted in a comment box which should travel with the draft to IESO. Based on IESO's response on Friday, this should not be a controversial amendment.
> Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.

> Hello,
> We are currently in the process of working on a new $2B OFA-IESO Credit Facility to provide funding in respect of the Ontario Fair Hydro Plan. Under this framework, the existing $975 million OFA-IESO Credit Facility is to be reduced to $475 million. Due to a required Ministerial approval, the new $2B facility will not be executed until mid-September (estimate).
> Once the new $2B facility is in place, the OFA would be looking to re-allocate certain loans (TBD) from the existing $975M credit facility to the new $2B facility, in order to bring the existing facility under the new intended $475 million limit. Effectively, under the legal agreements, it would be transferring certain loans from the existing facility to

the new facility. The intention is that there will be no movement of funds and therefore no cash impact (that is, IESO does not repay the existing loans, and the OFA does not fund the new loans).

Would you please confirm if there are any obstacles from an operational perspective (settlement, cash, accounting, risk) with transferring any ‘excess loan amount’ from the existing credit facility to the new FHP credit facility?

Thanks,

Sarah

Subject: Policy question re OFHP Credit Facility Agreement
Importance: High
Hi Bruno and John,
I have some additional information pertaining to the structure of the OFA loan to IESO re: OFHP. While this information adds context, it doesn't address the policy question of whether an unsecured loan is appropriate (based on the extent of the insolvency risk) for this regulatory asset.
The current draft FHP Credit Facility Agreement is consistent with the OFA Lending Policy (last revised and approved April 16, 2010 – *status TBC*), which provides that except where otherwise directed by the Minister of Finance, Treasury Board or Cabinet, the OFA will generally lend on an unsecured basis (apart from the intercept provision) in respect of loans made by the OFA to public bodies (IESO is a public body for the purposes of CIPA). As such, the structure of this loan is consistent with the Policy (subject to my note below re: intercept provision). In my review of the supporting policy documentation, including the LRC minute, I didn't see any reference to a secured lending structure and I don't believe that there is any direction requiring this to be a secured loan. That being said, I query whether OFA CEFD staff are comfortable with this approach (see below).
In terms of the intercept provisions, which are required pursuant to s. 23 of CIPA, I have asked Toby from MOF Legal if they are aware of any agreement between the Ministry of Energy and the IESO agreeing that the Minister of Finance is entitled to deduct from money appropriated by the Legislature for payment to the IESO amounts equal to any amounts that the IESO fails to pay to the OFA on account of indebtedness

under this loan agreement (as required by CIPA)? Are you aware of any such agreement? However, even if there were such an agreement in place, it is unclear to whether adding intercept provisions to the credit facility agreement, will provide further comfort. I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

<!--[if !supportLists]-->● <!--[endif]-->**If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.

<!--[if !supportLists]-->● <!--[endif]-->**If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

I plan to discuss this matter further with MOF Legal.

Based on the foregoing (and pending any additional information that Toby may obtain from his discussions with the Ministry of Energy), I defer the following question to CEFD staff:

Are you comfortable with the current structure of this loan as an unsecured loan (and the risk that this may entail)? This decision ultimately needs to be made by business/policy people.

<!--[if !supportLists]-->● <!--[endif]-->**If yes,** the next draft of the agreement will be available in the next day or so to send to IESO for review. I will work with MOF Legal to draft/leverage intercept provisions to mitigate this risk (as far as possible, based on the foregoing). We are also working on the permitted liens, *pari passu* and negative pledge provisions of the draft agreement, as previously discussed.

<!--[if !supportLists]-->● <!--[endif]-->**If no,** additional Ministerial/TB direction, and a new legal agreement (likely with the assistance of external legal counsel) will be required. This will take additional time.

Please do not hesitate to contact me if you would like to discuss further.

Thank you,

Lisa

Totally agree with Bruno, the province should not be taking a security intent in the reg asset, that would make the sale to the SPV or trust rather difficult.

It would also create issues in terms of the SPV's ability to obtain an appropriate credit rating as well as issue debt in the capital markets.

Thanks

Thank you Sarah. I should add that under the OFA Lending Policy, the intercept provision (and accompanying MOU, etc.) must be included in OFA loan agreements *except* where otherwise directed by the Minister of Finance, Treasury Board, or Cabinet. As such, if it is determined that the intercept provisions are not required/relevant in this case, Ministerial direction will be required. We can discuss further this afternoon.

Subject: FW: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hello Bruno and John,
In advance of our internal call this afternoon, Lisa and Toby have prepared the following e-mail below to consider whether the OFA should consider taking a security interest in the Regulatory Asset as security for $2B credit facility, as well as the inclusion of the intercept provision. Ken Kandeepan expressed the following view yesterday:

> *"…[the $2B Facility] is unsecured but so is every loan issued by the OFA to a public body so not sure why the risk associated with this loan is greater or for that matter lower than the loans currently in the OFA's loan book.*
> *As such, this should be treated exactly like all the other loans. Note that the IESO is fully consolidated with that of the Province so loans issued by the OFA to IESO will be a wash upon consolidation."*

In light of this, could you please advise if there are there any additional considerations regarding the FHP structure that would could necessitate the inclusion of an intercept provision in the $2B facility and/or the OFA taking a security interest in the Regulatory Asset?

I am including Ken and Mike Manning in this e-mail, should they have any additional input or insight on this matter.
Thank you,
Sarah

Subject: Policy questions re OFHP Credit Facility Agreement
Importance: High

Hi Sarah H. and Will,
Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded

that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?

    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Sarah H. and Will,
Based on the e-mails to date, I understand that OFA staff held a conference call yesterday and based the OFA Lending Policy and past practices, may have concluded

that it is appropriate for the loan to the IESO in relation to the OFHP to be unsecured, as per other OFA loans to public bodies. However, as neither Toby (from MOF Legal) nor I were part of the aforementioned call, we wanted to clarify that this loan is NOT necessarily the same as other OFA unsecured loans to public bodies, and as such, the protection provided by the "intercept" provisions of the standard OFA loan agreements have limited application in this particular case (which is likely the reason why these provisions were not included in the original drafts). Our understanding is that, although the intercept provisions are intended to allow the Minister of Finance to deduct from money appropriated by the Legislature for payment to the Borrower amounts equal to any amounts that a Borrower fails to pay to the OFA on account of indebtedness under the loan agreement, in the case of the IESO as Borrower, these amounts are likely to be minimal.

Before proceeding, we would like to ensure that the nature of the loan, the impact of intercept provisions, and the insolvency and operational risks, have all been considered. Toby has succinctly summarized the questions which still need to be addressed during our call this afternoon in the e-mail which I have forwarded below.

Lisa

Subject: RE: Policy question re OFHP Credit Facility Agreement

Lisa,

I have attempted to summarize my questions/issues in the below. Let me know if you have anything to add or have any edits.

The concerns I have with the IESO loan, and that should be considered are related to what could happen to the Regulatory Asset (the "Asset") if there are any credit or liquidity issues at the IESO. Because the Asset is something that it is possible to take security in, and that is an intangible that may be subject to a floating charge (ie, as a result of a GSA or from a financing agreement) I thought it would be prudent to consider whether the OFA should take a security interest in the Asset as security for the loan.

I am not familiar with the types of financial arrangements or other obligations that the IESO may be a party to, either as a result of its market operations or otherwise, but it may be possible that the IESO has entered into such arrangements, such as swaps or other derivatives agreements, loans or other financing arrangements for which security could be given.

I am not aware of what financial guarantees or other arrangements may be in place such that the Province may have guaranteed the IESO's obligations, but I don't believe that there are any. My understanding is that the IESO is consolidated with the Province's books, but that the IESO is not a crown agent, and the Province is not liable for the IESO's obligations to third parties. However, I am not sure about the underlying facts without more input from ENERGY and the IESO.

In light of these questions it may be worthwhile to consider some related issues:

- How does the proposed IESO loan compare to other OFA loans made to public bodies, such that it is appropriate to use the same requirements?

    - Size of loan – it is my understanding that there are not many loans that approach the size of the $2 billion loan that is proposed to the IESO.
    - Are the obligations of the IESO the obligations of the Province, and how does this compare to other public body loans?
    - What other financial obligations could the IESO have (such as swap agreements, other financial obligations) that could become due or create credit risk?
    - If in many public body loans, there is an intercept and an MOU with the appropriate ministry to create some security, does that make sense in this context? Are there significant transfers to the IESO?
    - Note that the OFA loan to the ROM was secured by pledges and an intercept, and that other Provincial loans to public bodies or other groups may be secured.
- Does the Province/OFA understand the financial obligations of the IESO such that it is confident that no other security interest could attach to the Asset?
- Given that the debt is specifically for the purpose of creating the Asset which will be "warehoused" at the IESO, once the Asset is sold to the financing entity, how will the Province ensure that the proceeds can only be used to repay the loan?

Hi Will,
Lisa doesn't seem to be in her office, so she may be WFH as her Lync shows she's available.
Could you please call (e-mail her to see if she is WFH and if you need to call her mobile) her to confirm the status of
-Permitted Liens (k)
-pari passu
-intercept provision (and confirm that the question being deferred to Mike/Ken for unsecured loans is in respect of this)
Particularly what I would like to know is who has or is making the decision on each in the OFA. If the decision has not been made, how do we move this forward so we can send the draft to IESO today.
Thanks,
Sarah

Subject: Short blurb OPG credit facility
Date: Tuesday, July 04, 2017 2:34:02 PM

Hi Kelly,
Opal asked for a quick blurb to reference the amendment to the OPG Credit Facility Agreement. Without digging, I jotted down the following.

OPG-OEFC Credit Facility

Purpose: General Corporate Purposes and Darlington requirements

Current Limit: CAD 700M to December 31, 2017

Amendment:

- Increase to CAD 2.35B to December 31, 2018
- Amend definition of Base Rate to reference…
- Additional proposed amendment by OPG (being considered internally in OFA) to amend definition of S*ubsidiary* to exclude "any Person that is a "financing entity" as defined in the *Ontario Fair Hydro Plan Act, 2017* (Ontario). The effect of this amendment would be [briefly describe effect on agreement]

Could you please fill in the blanks and correct/add/delete anything you feel is relevant?
Thanks,
Sarah

Hi Will,

If others are not yet aware, it would be good to let those who will be participating in Lisa's IESO call a status update. Usually when these call are organized, you send out an e-mail asking all participants about their availability and give a couple of proposed times for a call. Everyone will usually respond to the group with their availability.

Thanks,

Sarah

Hello Mike,

We have received an email proposing a new change with respect to the IESO Credit Requirement letter for the Fair Hydro Plan.

Noted in the original IESO FHP request:

- New $2 billion FHP Credit Facility
- Reduction of the existing credit facility from $975 million down to $475 million. ($2.475 billion total credit facility)
- 5 year term, expires September 30, 2022.
- Minimum 7 days, to a maximum of 95 days draw to minimize interest costs and permit efficient FHP asset transfers.

Proposed change: minimum 5 days, to a maximum of 95 days draw.

Mike, is the change from 7 days, minimum draw to 5 days, something we can entertain from a capital markets perspective?

I am including Bruno, John and Salman as they may have thoughts from an Electricity Finance perspective (I understand Ronald Kwan was circulated the original IESO FHP Credit Requirement request).

Best regards,

May 12, 2017.

Mr. Gadi Mayman
Chief Executive Officer
Ontario Financing Authority
1 Dundas Street West, Suite 1400
Toronto, Ontario, M7A 1Y7

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Re: **IESO Credit Requirements for the 2017 Fair Hydro Plan**

Dear Mr. Mayman,

As you are aware the Ontario government has announced its intension to implement the proposed Fair Hydro Plan (FHP) to reduce electricity prices for eligible consumers in the province. Proposed legislation was introduced this month for the FHP. The Independent Electricity System Operator (IESO) is preparing to implement the FHP and has determined that in order to support the IESO's role in FHP implementation it will need greater credit liquidity than currently exists.

An existing credit facility between the IESO and the Ontario Financing Authority (OFA) is currently available for $975 million which includes support for the current Regulated Price Plan (RPP) program. The IESO proposes that a separate and additional credit facility be provided by either the OFA or Ontario Electricity Financial Corporation (OEFC) to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking.

IESO's FHP Credit Requirements and Rationale

Below we have outlined the IESO's expected credit needs including the current OFA facility as follows:

	OFA:IESO Facility	New FHP facility
Current credit facilities	$975 million	$ -
Reduction due to FHP	($500 million)	$ -
Increase due to FHP	$ -	$2,000 million
Totals Credit Facilities	$475 million	$2,000 million

The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP. In addition, the IESO has had recent discussions with OFA staff to explain the rationale to support the overall $2,000 million FHP commitment.

We suggest the new FHP credit facility consider the following key provisions:

- 5 year term - to align with the FHP's initial period of deferral of electricity prices plus a contingency period (i.e. to September 30, 2022);
- interest charge - to be Province's cost of funds for borrowing with a similar term as determined by OFA / OEFC plus 0.25 percent per annum;
- Draws - to be based on minimum of 7 days to a maximum of 95 days, to minimize interest costs and permit efficient FHP asset transfers; and
- Existing $975 million OFA facility : draws to permit for FHP purposes until a new separate credit agreement for FHP purposes has been made available;

Upon your reply to this letter, the IESO will seek any necessary IESO Board of Directors' approval for the above credit facilities and we will provide such evidence for your records.

We appreciate your continued support and look forward to working with you. Please contact me should you need anything further.

Sincerely,

Kimberly Marshall

Subject:	conference call re FHP Agreement
Date:	Tuesday, August 08, 2017 11:06:18 AM

Hi Will,

After discussing this matter further with Toby this morning we've decided that arranging an internal call would be appropriate to discuss outstanding issues. Can you please set up a call with everyone on this e-mail for this afternoon (and anyone else who may be required)? In the meantime I'm still tweaking the latest draft to include intercept provisions (in the event that they are required) and Toby is going to put together a list of remaining questions/issues based on our discussions.

Thank you,

Lisa

(1) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies; (b) the amount of interest to be re-paid by the IESO on such Advance on the current Repayment Date; (c) the new aggregate total amount of the proposed Continued Advance; and (d) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.
