Hello Lisa,
I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.
I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest.
Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period.

If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.?
Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.
"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).
Thanks,
Will

Hello Lisa,
I have cleaned up the draft and accepted IESO amendments that do not require further discussion. I also made the appropriate changes to Schedule 1 and Schedule 2. Please add back the intercept provision wording.
I wanted to request your thoughts on a drafting issue with regards to rolling-over of interest. Section 3.3 Allow IESO to continue all or a portion of interest on such Advance for a further period. If IESO to elects to "roll-over" some or all of the interest from the current advance and previous advances would it be allowed to do so based on the wording in the Section 3.3, Schedule 2 etc.? Currently, IESO pays all of the outstanding accrued interest. As long as the client makes the minimum payment of interest the client is allowed to borrow up to the maximum of the credit facility.
"The IESO may elect to continue all or a portion of the principal amount of any Advance and any amount of interest on such Advance (together, the "**Continued Advance**") for a further period of at least 5 days and up to a maximum of 95 days beginning on the then current Repayment Date in accordance with Section 3.3(2).
Thanks,
Will

Hi Lisa,

Hopefully I have captured the actual practice by IESO in 3.3(2) and the Election Notice with regards to their option to rollover all or a portion of interest.

3.3

(2) Each notice to continue an Advance for a further period (an "**Election Notice**") shall be provided by the IESO to the OFA at least two Business Day's prior to the Repayment Date of the Advance, and in each case, not later than 10:00 a.m. (Toronto time). Each such Election Notice shall be given substantially in the form of Schedule 2 and shall be irrevocable and binding upon the IESO and shall specify: (a) the Advance to which the election request applies (b) the new aggregate total amount of the proposed Continued

Advance, previous principle amount of Advance and accured interest on Advance; ~~and~~ (c) the new Repayment Date of the proposed Continued Advance, which shall be no earlier than 5 days and not later than 95 days after the current Repayment Date; (d) confirms it will also be paying interest amount. If the IESO fails to deliver an Election Notice to the OFA for any Advance as provided herein, such Advance shall be repayable on the applicable Repayment Date.

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO. Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Thank you,

Lisa

Hello JF,
Please find the attached FHP Credit Facility Agreement. I have added the placeholder language in the borrowing and election notices and added it as a defined term. I noticed the forms sent to Carlos included additional language "IESO confirms it will also be paying interest in the amount of $22,950.27" (which I included as well).
In this version I have replied to Lisa's comments. I will have to get Electricity Finance to provide their comments to their respective sections before I present this draft to OFA Legal.
Thanks,
Will

Commented [LS14]: Business decision – defer to Electricity Branch

Commented [LS15]: IESO has provided an explanation in their cover e-mail regarding deletion of this 12-month requirement. It is a business decision whether to accept this change. Is it a requirement based on the supporting documentation (I don't believe it's captured in the directive)?

Commented [WT16R15]: Documentation discussed that the 12-month was an unnessary retriction. No documentation to support the 12-month cap. Okay to remove 12-month restriction.

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. Commented [WT17]: We no longer include this language in in any of our debt documentation and query whether it is necessary.

Commented [LS18]: Who made the decision to exclude this language? I've sent an inquiry to MOF Legal.

Attachments:	FHP credit facility agreement draft June 23 2017 IESO Legal July 26 v3.docx

Hello JF,

Please find the attached FHP Credit Facility Agreement. I have added the placeholder language in the borrowing and election notices and added it as a defined term. I noticed the forms sent to Carlos included additional language "IESO confirms it will also be paying interest in the amount of $22,950.27" (which I included as well).

In this version I have replied to Lisa's comments. I will have to get Electricity Finance to provide their comments to their respective sections before I present this draft to OFA Legal.

Thanks,

Will

Hi Will,

Please insert the applicable placeholders in the borrowing and election notices where required. You can base these on the July 17, 2017 notices previously sent to the OFA which we discussed together with Opal last week.

Thanks,

JF

Hi all,

Please see the attached black-lined version of the agreement, containing my further comments and amendments. This version requires further OFA internal review before it is sent back to the IESO.

Also, as per our discussions, I understand that JF will be including placeholders regarding the RRRP and the RPP variances.

Please let me know if you would like to discuss further.

Thank you,

Lisa

Formatted: No bullets or numbering

Commented [JB13]: We defer to OFA Legal and Electricity Branch on this matter.

Commented [LS14]: Business decision – defer to Electricity Branch

Commented [LS15]: IESO has provided an explanation in their cover e-mail regarding deletion of this 12-month requirement. It is a business decision whether to accept this change. Is it a requirement based on the supporting documentation (I don't believe it's captured in the directive)?

Commented [WT16R15]: Documentation discussed that the 12-month was an unnessary retriction. No documentation to support the 12-month cap. Okay to remove 12-month restriction.

Formatted: Indent: First line: 0.5"

(2) The IESO shall make any payment required hereunder to be made by it to the OFA, to or to the order of the OFA, by wire transfer of immediately available funds in accordance with wire transfer instruction given by the OFA to the IESO from time to time, or in such other manner as the OFA may specify to the IESO from time to time. Commented [WT17]: We no longer include this language in in any of our debt documentation and query whether it is necessary.

Commented [LS18]: Who made the decision to exclude this language? I've sent an inquiry to MOF Legal.

Commented [LS19]: I've added back these clauses as per instructions/discussions. Perhaps this can be reviewed for future agreements.

William,

Yes the list below are current examples of programs under/part of the FHP.
I would caution that there may be more too such as "Funding Rebates", and there are current discussions about potential new regulations under FH Act still being contemplated/discussed by gov't lawyers.
I would prefer that we keep the language in our debt agreement to reference activities under the FH Act….since there may be new regulations, amendments to FH regulations, or new programs that may be set up.

Regards.

Subject: FHP subcategories

Hi Anthony,

Is the list below a basic list of programs that would be a part of FHP Permitted Liens (k)? if yes, is there a more exhaustive list?

Broadening Distribution Rate Protection

RRRP program provides a rate subsidy to rural and remote residential customers who face higher distribution costs.

About 800,000 customers would benefit from the new broadened distribution rate protection program. Customers of LDCs benefitting from this include: Hydro One R2 and R1 customers, and residential customers of Northern Ontario Wires, Lakeland Parry Sound, Chapleau, Sioux Lookout, InnPower, Atikokan and Algoma. The benefits would differ from LDC to LDC.

Expanding the OESP

The OESP[na01.safelinks.protection.outlook.com] is an income-tested, application based program that lowers electricity costs for the most vulnerable consumers, providing a rebate directly on bills. There are two scales: one with basic credits, and an enhanced credit for Indigenous people or those who

use electric heat or certain electrically intensive medical devices.

Effective May 1, 2017, Ontario increased the OESP by 50 per cent, meaning that single, low-income consumers who receive the lowest credit amount would get an increase from $30 to $45 per month ($540 per year, an increase of $180), and single, low-income consumers who qualify for the enhanced scale would see an increase from $45 to $68 ($816 per year, an increase of $276).

Providing a First Nations On-Reserve Delivery Credit

In 2016, the Ontario Energy Board (OEB) engaged with First Nations, including remote communities, the distributors serving them, and consumer groups such as the Low Income Energy Network.

As a result of recommendations from the OEB, the government plans to eliminate the delivery charge for all on-reserve First Nations residential customers and remove the monthly service charge for customers of licensed distributors which charge a bundled rate.

The Fair Hydro Act, 2017 would, if passed, enable the above initiatives. In addition, an Affordability Fund has been established. No legislative amendments were required for this fund.

Establishing an Affordability Fund

Ontario has established an Affordability Fund that will provide energy efficiency measures to Ontarians who are not eligible for low-income conservation programs, and who are otherwise unable to make energy efficiency improvements without financial assistance.

The Province is paying for the Affordability Fund through provincial revenues.

Energy Sector Efficiencies

The Ontario government has commenced work on the next Long-Term Energy Plan (LTEP).

Ontario is in a strong electricity supply situation and well-positioned to meet demand at this time. The LTEP process is designed to be iterative and flexible and only commit resources as demand needs become clearer. The Province is committed to continuing to put conservation first in its energy planning decisions, where cost-effective.

When new electricity supply is needed, the next LTEP would ensure that future procurements are focused on outcomes, rather than contracting with specific technologies. This technology-neutral approach would foster innovation and create competition. This approach is expected to lower the cost of electricity supply.

The OEB will identify opportunities for cost efficiencies by:

Encouraging shared partnerships on services between utilities, which would help reduce costs and encourage further innovation for small to medium-sized utilities.

Reviewing business cases behind its regulatory requirements to reduce red tape and eliminate costs that LDCs indicate are creating pressures on operating expenses.

Looking at opportunities to further drive transmitter and LDC efficiencies and productivity improvements, including the use of innovative technologies and business processes.

The IESO and partners have begun a market renewal project to enhance efficiency and performance of the wholesale electricity market.

Changes related to the IESO's market renewal initiatives are estimated to save at least $200 million per year, starting in 2021.

William,

Yes the list below are current examples of programs under/part of the FHP.

I would caution that there may be more too such as "Funding Rebates", and there are current discussions about potential new regulations under FH Act still being contemplated/discussed by gov't lawyers.

I would prefer that we keep the language in our debt agreement to reference activities under the FH Act….since there may be new regulations, amendments to FH regulations, or new programs that may be set up.

Regards.

Hi Anthony,

Is the list below a basic list of programs that would be a part of FHP Permitted Liens (k)? if yes, is there a more exhaustive list?

Broadening Distribution Rate Protection

RRP program provides a rate subsidy to rural and remote residential customers who face higher distribution costs.

bout 800,000 customers would benefit from the new broadened distribution rate protection program. Customers of LDCs benefitting from this include: Hydro One R2 and R1 customers, and residential customers of Northern Ontario Wires, Lakeland Parry Sound, Chapleau, Sioux Lookout, InnPower, Atikokan and Algoma. The benefits would differ from LDC to LDC.

Expanding the OESP

ne OESP[na01.safelinks.protection.outlook.com] is an income-tested, application based program that lowers electricity costs for the most vulnerable consumers, providing a rebate directly on bills. There are two scales: one with basic credits, and an enhanced credit for Indigenous people or those who use electric heat or certain electrically intensive medical devices.

ffective May 1, 2017, Ontario increased the OESP by 50 per cent, meaning that single, low-income consumers who receive the lowest credit amount would get an increase from $30 to $45 per month ($540 per year, an increase of $180), and single, low-income consumers who qualify for the enhanced scale would see an increase from $45 to $68 ($816 per year, an increase of $276).

Providing a First Nations On-Reserve Delivery Credit

2016, the Ontario Energy Board (OEB) engaged with First Nations, including remote communities, the distributors serving them, and consumer groups

such as the Low Income Energy Network.

s a result of recommendations from the OEB, the government plans to eliminate the delivery charge for all on-reserve First Nations residential customers and remove the monthly service charge for customers of licensed distributors which charge a bundled rate.

The Fair Hydro Act, 2017 would, if passed, enable the above initiatives. In addition, an Affordability Fund has been established. No legislative amendments were required for this fund.

Establishing an Affordability Fund

ntario has established an Affordability Fund that will provide energy efficiency measures to Ontarians who are not eligible for low-income conservation programs, and who are otherwise unable to make energy efficiency improvements without financial assistance.

ne Province is paying for the Affordability Fund through provincial revenues.

Hi Will,

I am attaching the latest version of the draft agreement (markup version, and showing changes to the IESO's last version).

I am going to ask if you can insert the current form of Grid note. It would take me a while to figure out the formatting, or how to copy an excel table into a Word document. Let me know if you have any concerns.

Thanks,

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Any amount of interest arising hereunder which is not paid when due shall bear interest at the same rate compounded monthly at which it accrued from the due date for payment until the date of actual payment. The amount of interest payable on an Advance will be calculated by the OFA by dividing the interest rate applicable to the Advance by 365 or 366, as the case may be, and multiplying the result by the principal amount of the Advance and further multiplying the result by the number of days in the period from the date of the Advance to the Repayment Date of the Advance.

(3) If the IESO elects to continue an Advance in accordance with Section 3.3(2), the OFA shall determine the interest rate applicable after the original Repayment Date of the Advance and endorse the said rate on the grid forming part of the Grid Note in respect of Advances held by it.

Section 3.5 Conditions Precedent

All such costs, charges and expenses shall bear interest at the Province of Ontario's cost of funds plus 0.25 percent per annum (as determined by the OFA) calculated and payable monthly not in advance from in each case from the date on which the OFA incurs the cost, charge or expense until the date on which the IESO reimbursement the OFA therefor. The OFA agrees, acting reasonably, to invoice the IESO for any such costs, charges and expense as they are incurred, together with interest at the aforesaid rate (with interest on overdue interest).

Section 4.8 Reporting.

The IESO will promptly provide to the OFA any reports or supporting documents that the OFA may request from time to time.

Section 4.9 Late Repayment of Advance.

In the event that the IESO fails to repay the principal amount of any Advance and all interest accrued thereon when due, the IESO shall pay interest on the unpaid amount of such

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. If an Event of Default occurs and is continuing, then and in every such case the OFA may at its option, in addition to any other remedy available to the OFA at law, by written notice to the IESO, suspend the right of the IESO to request any further Advance until the Event of Default has been cured to the OFA's satisfaction or, if the Event of Default is not cured within three (3)

Section 5.3 Suits for Enforcement by the OFA.

If an Event of Default occurs and is continuing, the OFA may proceed to protect and enforce the rights vested in it by this Agreement either by suit in equity or by action at law or by proceedings in bankruptcy or otherwise, whether for the specific enforcement of any covenant or agreement contained in this Agreement or in aid of the exercise of any power granted in this Agreement, or to enforce any other legal or equitable right vested in the OFA by this Agreement or by law.

(a) to file and prove a claim for all amounts owing under this Agreement and to file such other papers or documents as may be necessary or advisable in order to have the claims of the OFA (including any claim for fees and disbursements of the OFA, its agents and counsel) allowed in such judicial proceeding; and

(b) to collect and receive any moneys or other property payable or deliverable on any such claim.

The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.6 Delay or Omission not Waiver.

No delay or omission of the OFA to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right or remedy given by this Article 5 or by law to

OFA may be exercised from time to time, and as often as may be deemed expedient, by the OFA.

I am going to ask if you can insert the current form of Grid note. It would take me a while to figure out the formatting, or how to copy an excel table into a Word document. Let me know if you have any concerns.
Thanks,

Okay thank you Salman. Once the amending agreement is completed, they will not be able to draw down more than the $475 million. Ideally, this agreement will be executed before they exceed this amount. Please let me know if you would like to discuss further.

Hi Lisa,

I don't have any precedents and only came to this conclusion based on what I've seen (and if we're really really worried, which I, myself, am not). I think its best to wait until we get closer to the date before making any significant changes – at best, we will get the amending agreement completed next week at the $475 million level without it being breached. Sarah H's group is doing the agreement, so my involvement has been minimal at the moment and only offering a suggestion if we are really concerned.

Salman

Hi Salman,

Do you have a precedent for such an amending agreement? I'm happy to draft such amendments or review a black-line. Or, should we wait on revising the amending agreement until closer to the time (to see how much has been drawn down)? Please advise how you would like to proceed.

Thank you,
Lisa

Thanks Lisa.

I will send an FYI to Carlos as I believe CMD processes their borrowing requests – and that can be an initial flag that the amount outstanding is approaching the $475 million.

Alternatively (just a thought based on what I have seen in the past): the amending agreement, since the amount is being reduced, should include a clause that if there is an amount outstanding above the new reduced credit limit ($475 million), IESO must repay within X business days (i.e. 3 business days). It can even go more strict that non-payment would constitute an event of default,

furthermore, cross-default on all OFA credit facilities, which would include the $2 billion facility and hence, would stop any advances on all facilities.
I'll defer to others on this that may have more expertise in the matter, but I think we should be okay.

Salman

Thanks Salman. I note that IESO's e-mail states that they are not 100% sure that they will NOT exceed the $475million. Please watch this amount carefully prior to the execution of the agreements as further amendments and internal approvals may be required if this is the case (as I've noted below and at our meeting).
Another option as discussed would be to ask IESO to sign an undertaking that they will not exceed the $475 million; however, given the e-mail below, it is unlikely that they will agree to this approach.
Happy to discuss further,
Lisa

Thanks Lisa.
I will send an FYI to Carlos as I believe CMD processes their borrowing requests – and that can be an initial flag that the amount outstanding is approaching the $475 million.
Alternatively (just a thought based on what I have seen in the past): the amending agreement, since the amount is being reduced, should include a clause that if there is an amount outstanding above the new reduced credit limit ($475 million), IESO must repay within X business days (i.e. 3 business days). It can even go more strict that non-payment would constitute an event of default, furthermore, cross-default on all OFA credit facilities, which would include the $2 billion facility and hence, would stop any advances on all facilities.
I'll defer to others on this that may have more expertise in the matter, but I think we should be okay.
Regards,
Salman

Thanks Salman. I note that IESO's e-mail states that they are not 100% sure that they will NOT exceed the $475million. Please watch this amount carefully prior to the execution of the agreements as further amendments and internal approvals may be required if this is the case (as I've noted below and at our meeting).
Another option as discussed would be to ask IESO to sign an undertaking that they will not exceed the $475 million; however, given the e-mail below, it is unlikely that they will agree to this approach.
Happy to discuss further,
Lisa

Hi Salman,
Please provide the original to Joan. Also, did you receive a written confirmation of our call yesterday from IESO, as discussed? When received, we should re-confirm with them in writing, as we noted over the phone, that the $2B facility is contingent on the reduction of the existing $975M credit facility.
I've briefed Sarah N. on this file in the event that we receive comments back on the agreements when I'm away (July 7th-19th).
Thank you,
Lisa

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line. The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Okay thank you Salman. Once the amending agreement is completed, they will not be able to draw down more than the $475 million. Ideally, this agreement will be executed before they exceed this amount. Please let me know if you would like to discuss further.

Hi Lisa,

I don't have any precedents and only came to this conclusion based on what I've seen (and if we're really really worried, which I, myself, am not). I think its best to wait until we get closer to the date before making any significant changes – at best, we will get the amending agreement completed next week at the $475 million level without it being breached. Sarah H's group is doing the agreement, so my involvement has been minimal at the moment and only offering a suggestion if we are really concerned.

Hi Salman,

Do you have a precedent for such an amending agreement? I'm happy to draft such amendments or review a black-line. Or, should we wait on revising the amending agreement until closer to the time (to see how much has been drawn down)? Please advise how you would like to proceed.

Thank you,

It can even go more strict that non-payment would constitute an event of default,

furthermore, cross-default on all OFA credit facilities, which would include the $2 billion facility and hence, would stop any advances on all facilities.

William,

1.

As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.

Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.

Plus any RRRP or other credit needs that may result during August.

3.

The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.

For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Anthony,

I trying to understand your drawing requirements.

Question regarding the email below and amounts needed for mid-August.

Currently, under the existing credit facility of $975 million a balance of combined balance of:

1. RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
   RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47
   I don't see the requirements of $260 million?
2. In mid-August if you add another $200-$250 million, what will be the new balance?
3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Hi JF,

1. We may have to revisit contacting Anthony and determine how he arrives at his numbers. My understanding is that the Amending Agreement 10, requires us to provide an updated Grid Note so our numbers have to agree. Perhaps, I can print the current grid notes and have Risa confirm the numbers before going to Anthony.
2. Should we find out when in August Anthony plans on drawing for a total balance of $496.5 million?
3. Clarify what Anthony means by "transferring to the Financing Entity" in Sept/Oct.

I'll come over to discuss.

Hi Will,

The methodology we are using in OLMS to determine outstanding IESO amounts appears to differ substantially from the $138M we were expecting. Please advise as we need to figure this out before executing the amending agreement and we should be able to confirm IESO's numbers independently.

Thanks,

Currently, under the existing credit facility of $975 million a balance of combined balance of:

1. RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
   RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47
   I don't see the requirements of $260 million?
2. In mid-August if you add another $200-$250 million, what will be the new balance?
3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Will seems to be experiencing significant difficulty prioritizing items. I am assisting as much as I can but this matter is diverting my attention from other files. I know how important the IESO file is, so I will ensure that I remain actively involved throughout the documentation/negotiation process.

Currently, under the existing credit facility of $975 million a balance of combined balance of:

1. RRRP: July 21 – Repayment Date Aug 21 - $2,231,912.78
   RPP: July 21, Repayment Date Aug 21 - $136,581,867.69 or $138,813,780.47
   I don't see the requirements of $260 million?
2. In mid-August if you add another $200-$250 million, what will be the new balance?
3. Can you explain the sale of the Financing Entity made in May, June, July that you expect in August?

Call me if it's easier for you. 416-325-8090.

Exactly, when will you require the new $250 million to be advanced?

William,

1.

As of July 26, we have OFA credit o/s of:

1. RPP (Fair Hydro) amount o/s = $246.5 million
2. RRRP amount o/s = $6.6 million

2.

Assuming August is $250 million this will increase the RPP (Fair Hydro) amount to = $496.5 million.

Plus any RRRP or other credit needs that may result during August.

3.

The transfer of the RPP (Fair Hydro) amounts to the "Financing Entity" is now expected to occur sometime during Sept/Oct.

For forecasting, you can assume $200-$250 million per month added to the RPP (Fair Hydro) balance.

Hi Will,
I am away today and Monday, but I told Anthony we expected to sending the amending agreement to him today. It seems like Sarah Neville is very busy, and may not get to it today. At around lunch, please check with Sarah on the status (let her know that you are aware she is very busy, but just wanted to give IESO an update). I just sent to her Victor's response on Use of Proceeds.
It is likely you won't be able to get an amending agreement to IESO today; Sarah will need to sign off on any comments/revisions we send back to IESO, so realistically, if you have any comments on her comments, she won't have time to turn another review and sign-off by the end of the day (doesn't mean that you shouldn't try to ask her to see if it is possible). Accordingly, after you check with Sarah at lunch on the status of the amending agreement, you can follow up with Anthony to let him know when you expect to send it to him (if it won't be today). I'll take a peek at my e-mails on the weekend to see if there is anything on this file that needs my review.
Thanks,
Sarah

Hi Sarah,
One major concern I have with the IESO amending agreement and wanted to bring to your attention is that the 'use of proceeds' issue was apparently resolved on Friday afternoon, but Will did not share this information with anyone until our call with IESO counsel today. It only came up during today's call with IESO and Sarah Neville, Lisa Stein, Electricity folks and we all thought we would be talking about the use of proceeds.
Will should have communicated and circulated this information to everyone on Friday. I asked him to do this now following our meeting. I was unclear about why Will thought that we required a delegation of authority (no precedent amending agreements contained this). OFA Legal and I agreed that the Board Resolution and Certificate(s) of Incumbency would be sufficient, so I am not clear on where this came from. OFA Legal decided to make the changes to the draft agreement.
We can discuss in more detail upon your return.

Subject: IESO Credit Facilities
Hi Kelly and Will,

I am providing this summary in order bring Kelly up to speed on this file.

We are currently working on two credit facility agreements for between OFA and IESO:

1) New $2Billion credit facility for FHP purposes
2) Amending Agreement to reduce existing $975 million credit facility by $500 million to $475 million.

OFA counsel assigned to the file is Lisa Stein, but she has been on vacation for two weeks, and is back July 24th. Sarah Neville has been covering. Toby from MOF Legal has provided comments on the $2B Facility.

The original goal was to have both of these in place by July 1st. Drafts were provided to IESO the approximately June 23rd ($2B facility draft attached; for amending agreement, please see IESO's comments July 7th, attached per below). Anthony from IESO said the legal folks at IESO were busy working on priority files and would not be able to look at the agreements until mid-July or so. A call we had with Anthony Martinello on June 28th is attached which summarizes the call plus our internal conversation.

IESO provided comments on the amending agreement July 7th (attached) and there were subsequent internal discussions on IESO's proposed Use of Proceeds for the amending agreement. In short,

i) Amending Agreement #8 has use of proceeds as (which aligns with the directive at the time):

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

ii) The directive underpinning Amending Agreement #9 constrains Use of Proceeds to liquidity purposes (i.e. does not include corporate requirements), but the amending agreement #9 didn't change the Use of Proceeds to remove "temporary corporate requirements. It is a unclear why this

wasn't changed, but Ken Kandeepan said liquidity purposes could also encompass corporate requirements. I attach an e-mail from Will to IESO summarizing our Use of Proceeds proposal to IESO. The idea is that we qualify the Use of Proceeds as follows:

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

If IESO cannot agree, then we need to get a new directive for the Use of Proceeds ASAP (Minister leaves August 7th). Sarah Neville provided draft directive if needed. Documentation has yet to provide comments on it (Will, please check dates of all directives for recitals, per Sarah's request).

The remaining timing on these two agreements is tight. If the new $2B FHP facility isn't in place by mid-August, there is a risk that the IESO may require more than the $475M funding under the existing credit facility, which is problematic. The global intended limit is $2.475 billion, and it is important that **both credit facilities be completed before IESO makes its mid-August draw**. Please see Anthony Martinello's e-mail where he discusses intended draws: "*The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA*"

Next steps:

1. Amending Agreement: Sarah Neville is finalizing comments on the IESO amending agreement to be sent to IESO on Monday. IESO to advise on our proposal of Use of Proceeds by Monday, which will determine whether we need to seek a new directive. If a new directive is needed, it needs to be signed off internally by Tuesday (confirm with Gavin in Electricity Finance), delivered to the DMO this week, and brought up to the Minister the following week for signature by before the Minister leaves on vacation for August 7th. Gavin will need to organize this, so please keep him and Sarah Neville (and Lisa Stein advised, as she is back from vacation Monday) informed of IESO's answer on Monday. **If you don't hear back from IESO by lunch on Monday for Use of Proceeds, please follow up with Anthony/Victor to see what their determination is.**
2. $2B FHP Credit Facility – comments expected back from IESO Monday or Tuesday.

Kelly, as you are experienced with the IESO facilities, in my absence, kindly coordinate and provide direction to Will on this file. Will, please ensure that Kelly and myself are copied on all correspondence, concerns and queries.

Thanks,

Sarah

Hi Sarah,
One major concern I have with the IESO amending agreement and wanted to bring to your attention is that the 'use of proceeds' issue was apparently resolved on Friday afternoon, but Will did not share this information with anyone until our call with IESO counsel today. It only came up during today's call with IESO and Sarah Neville, Lisa Stein, Electricity folks and we all thought we would be talking about the use of proceeds.
Will should have communicated and circulated this information to everyone on Friday. I asked him to do this now following our meeting. I was unclear about why Will thought that we required a delegation of authority (no precedent amending agreements contained this). OFA Legal and I agreed that the Board Resolution and Certificate(s) of Incumbency would be sufficient, so I am not clear on where this came from. OFA Legal decided to make the changes to the draft agreement.
We can discuss in more detail upon your return.
Thanks,
JF

Hi Kelly and Will,

I am providing this summary in order bring Kelly up to speed on this file.

We are currently working on two credit facility agreements for between OFA and IESO:

1) New $2Billion credit facility for FHP purposes
2) Amending Agreement to reduce existing $975 million credit facility by $500 million to $475 million.

OFA counsel assigned to the file is Lisa Stein, but she has been on vacation for two weeks, and is back July 24th. Sarah Neville has been covering. Toby from MOF Legal has provided comments on the $2B Facility.

The original goal was to have both of these in place by July 1st. Drafts were provided to IESO the approximately June 23rd ($2B facility draft attached; for amending agreement, please see IESO's comments July 7th, attached per below). Anthony from IESO said the legal folks at IESO were busy working on priority files and would not be able to look at the agreements until mid-July or so. A call we had with Anthony Martinello on June 28th is attached which summarizes the call plus our internal conversation.

IESO provided comments on the amending agreement July 7th (attached) and there were subsequent internal discussions on IESO's proposed Use of Proceeds for the amending agreement. In short,

i) Amending Agreement #8 has use of proceeds as (which aligns with the directive at the time):

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

ii) The directive underpinning Amending Agreement #9 constrains Use of Proceeds to liquidity purposes (i.e. does not include corporate requirements), but the amending agreement #9 didn't change the Use of Proceeds to remove "temporary corporate requirements. It is a unclear why this

wasn't changed, but Ken Kandeepan said liquidity purposes could also encompass corporate requirements. I attach an e-mail from Will to IESO summarizing our Use of Proceeds proposal to IESO. The idea is that we qualify the Use of Proceeds as follows:

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

If IESO cannot agree, then we need to get a new directive for the Use of Proceeds ASAP (Minister leaves August 7th). Sarah Neville provided draft directive if needed. Documentation has yet to provide comments on it (Will, please check dates of all directives for recitals, per Sarah's request).

The remaining timing on these two agreements is tight. If the new $2B FHP facility isn't in place by mid-August, there is a risk that the IESO may require more than the $475M funding under the existing credit facility, which is problematic. The global intended limit is $2.475 billion, and it is important that **both credit facilities be completed before IESO makes its mid-August draw**. Please see Anthony Martinello's e-mail where he discusses intended draws: "*The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA*"

Next steps:

1. Amending Agreement: Sarah Neville is finalizing comments on the IESO amending agreement to be sent to IESO on Monday. IESO to advise on our proposal of Use of Proceeds by Monday, which will determine whether we need to seek a new directive. If a new directive is needed, it needs to be signed off internally by Tuesday (confirm with Gavin in Electricity Finance), delivered to the DMO this week, and brought up to the Minister the following week for signature by before the Minister leaves on vacation for August 7th. Hi everyone,
I think we need to keep in mind including the condition of "provided that Advances may be used only for liquidity purposes" in the "Use of Proceeds" works if Anthony and Victor (IESO) accepts it, otherwise we may have to fall back on plan B, the directive route.

Hi William,
We have discussed this with our Director, John Kim, and we would like to move forward with Sarah Neville's suggestion, to provide the proposed language to IESO that specifically refers to "liquidity purposes" such as;

> "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act*, *1998*, as such regulation may be amended or replaced from time to time provided that Advances may be used only for liquidity purposes."

If IESO is good with this, then there's no need to do another directive.
Please let us know if you have any additional questions/concerns.

Hello Gavin,
I would like to provide Anthony Martinello (IESO) with a status update for the Amending Agreement 10 (as we have had it for nearly two weeks now). I was wondering if it's possible to for Electricity Finance to may make a determination as to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?

Subject: IESO DIRECTIVE decrease line of credit

Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time

amending agreement 8 was entered into reads at 3(1) “The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes”. The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that “temporary” funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can’t be considered a “liquidity purpose”, my view is that in order to accept IESO’s proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO’s use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello all,
I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.
To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully

covered by the directive. Why not.

Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7

Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.

Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9

Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

No need to get a new directive provided the IESO agrees to add the words "only for liquidity purposes" to the draft use of proceeds language it has proposed.

Without the addition of a limitation it is borrowing permitted under the Reg which includes "corporate requirements" not "temporary corporate requirements", in that case my recommendation would be a new directive is obtained to clarify the record.

Subject: IESO DIRECTIVE decrease line of credit

Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.
(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:
1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.
2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.
3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO

in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello all,
I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.
To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully

covered by the directive. Why not.

Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7

Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.

Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9

Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

No need to get a new directive provided the IESO agrees to add the words "only for liquidity purposes" to the draft use of proceeds language it has proposed.

Without the addition of a limitation it is borrowing permitted under the Reg which includes "corporate requirements" not "temporary corporate requirements", in that case my recommendation would be a new directive is obtained to clarify the record.

Hi Sarah and all,

Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.

Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.
2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.
3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.
4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,
i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.
2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.
3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.
4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,
i. to fund IESO deferrals under section 23 of that Act, and
ii. to fund the activities in which the IESO is authorized or required to engage under that Act.
O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello all,
I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.
To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully covered by the directive. Why not.
Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7
Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.
Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9
Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

No need to get a new directive provided the IESO agrees to add the words “only for liquidity purposes” to the draft use of proceeds language it has proposed.
Without the addition of a limitation it is borrowing permitted under the Reg which includes “corporate requirements” not “temporary corporate requirements”, in that case my recommendation would be a new directive is obtained to clarify the record.

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?
Thanks,

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,

Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word

temporarily is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello all,

To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully covered by the directive. Why not.
Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7
Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.
Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9

No need to get a new directive provided the IESO agrees to add the words “only for liquidity purposes” to the draft use of proceeds language it has proposed.
Without the addition of a limitation it is borrowing permitted under the Reg which includes “corporate requirements” not “temporary corporate requirements”, in that case my recommendation would be a new directive is obtained to clarify the record.

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven’t had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term “liquidity purposes” is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?
Thanks,

Hi Sarah N.,

Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.

Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?

Thanks,

Sarah

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act*, *2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hello all,
I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.
To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully covered by the directive. Why not.
Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7
Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.
Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9
Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

Hi William,

We have discussed this with our Director, John Kim, and we would like to move forward with Sarah Neville's suggestion, to provide the proposed language to IESO that specifically refers to "liquidity purposes" such as;

> "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act*, *1998*, as such regulation may be amended or replaced from time to time provided that Advances may be used only for liquidity purposes."

If IESO is good with this, then there's no need to do another directive.

Please let us know if you have any additional questions/concerns.

Thanks,

Hello Gavin,

I would like to provide Anthony Martinello (IESO) with a status update for the Amending Agreement 10 (as we have had it for nearly two weeks now). I was wondering if it's possible to for Electricity Finance to may make a determination as to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.

Thanks,

Will

Subject: IESO DIRECTIVE decrease line of credit

Hello –

Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.

I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for

liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.

Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?

No need to get a new directive provided the IESO agrees to add the words “only for liquidity purposes” to the draft use of proceeds language it has proposed.
Without the addition of a limitation it is borrowing permitted under the Reg which includes “corporate requirements” not “temporary corporate requirements”, in that case my recommendation would be a new directive is obtained to clarify the record.

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can’t be considered a “liquidity purpose”, my view is that in order to accept IESO’s proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO’s use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,
Sarah

Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.
(2) Without limiting the generality of subsection (1), the IESO may borrow for the following

purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act*, *2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Sarah

Hi William,

We have discussed this with our Director, John Kim, and we would like to move forward with Sarah Neville's suggestion, to provide the proposed language to IESO that specifically refers to "liquidity purposes" such as;

> "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act*, *1998*, as such regulation may be amended or replaced from time to time provided that Advances may be used only for liquidity purposes."

If IESO is good with this, then there's no need to do another directive.

Please let us know if you have any additional questions/concerns.

Thanks,

Gavin He

Hello Gavin,

I would like to provide Anthony Martinello (IESO) with a status update for the Amending Agreement 10 (as we have had it for nearly two weeks now). I was wondering if it's possible to for Electricity Finance to may make a determination as to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.

Thanks,

Will

Hi Sarah and all,

Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.

Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?

Thanks,

Hi Will,
Please e-mail Gavin and let him know that you would like to give Anthony an update, and wonder if it is possible to make a determination on the use of proceeds today so we can contact Anthony. I think we've had IESO's comments on the amending agreement for nearly two weeks (?), and we need to be able to respond with our determination in order move this forward. If we need a directive, Gavin mentioned we should complete internal sign-offs by the end of the week in order to be on track to have the Minister's signature by August 7th.
Also, please look at Sarah N's draft directive and provide any comments. She asked that the directives that are referenced should be double-checked (completeness and dates). Please check those as well (you may need to coordinate with Gavin if anything appears missing/off).
Thanks,
Sarah

Subject: RE: IESO DIRECTIVE decrease line of credit

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?
Thanks,
Gavin He

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the

bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,
Sarah

Subject: IESO DIRECTIVE decrease line of credit
Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.
(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:
1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.
2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.
3. To provide such funds as may be necessary for the IESO to manage timing differences

between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act*, *2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hi Will,
Please e-mail Gavin and let him know that you would like to give Anthony an update, and wonder if it is possible to make a determination on the use of proceeds today so we can contact Anthony. I think we've had IESO's comments on the amending agreement for nearly two weeks (?), and we need to be able to respond with our determination in order move this forward. If we need a directive, Gavin mentioned we should complete internal sign-offs by the end of the week in order to be on track to have the Minister's signature by August 7th.
Also, please look at Sarah N's draft directive and provide any comments. She asked that the directives that are referenced should be double-checked (completeness and dates). Please check those as well (you may need to coordinate with Gavin if anything appears missing/off).
Thanks,
Sarah

Sorry, to clarify, I think we should seek a clarifying directive unless IESO agrees to language that specifically refers to "liquidity purposes" such as;

> "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act*, *1998*, as such regulation may be amended or replaced from time to time provided that Advances may be used only for liquidity purposes."

Hello all,
I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.
To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully covered by the directive. Why not.
Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7
Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.
Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9
Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

No need to get a new directive provided the IESO agrees to add the words "only for liquidity purposes" to the draft use of proceeds language it has proposed.
Without the addition of a limitation it is borrowing permitted under the Reg which includes "corporate requirements" not "temporary corporate requirements", in that case my recommendation would be a new directive is obtained to clarify the record.

Hello all,

I have spoken to Ken Kandeepan to get his view from an accounting perspective. I asked if our the wording used in our directives is flexible enough to cover authorized borrowing from Regulation 280/14.

To paraphrase Ken: You can make the argument liquidity covers variances and corporate requirements but if you have the opportunity to change the directive and so you can be fully covered by the directive. Why not.

Directive Minister of Finance OPA Credit Facility Directive Dec 18, 2013 (Paragraph 3) from Amending Agreement 7

Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.

Directive Minister of Finance IESO Credit Facility (paragraph 4) Amending Agreement 9

Provide effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

No need to get a new directive provided the IESO agrees to add the words “only for liquidity purposes” to the draft use of proceeds language it has proposed.

Without the addition of a limitation it is borrowing permitted under the Reg which includes “corporate requirements” not “temporary corporate requirements”, in that case my recommendation would be a new directive is obtained to clarify the record.

Hi Sarah and all,

Sorry we were tied up with a few deliverables today, so we haven’t had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.

Also, if the term “liquidity purposes” is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?

Thanks,

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,
Sarah

Subject: IESO DIRECTIVE decrease line of credit

Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time amending agreement 8 was entered into reads at 3(1) "The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes". The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that "temporary" funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can't be considered a "liquidity purpose", my view is that in order to accept IESO's proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO's use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR LINE OF CREDIT

TO: ONTARIO FINANCING AUTHORITY

Whereas:

Pursuant to a directive dated December 22, 2004 the Minister of Finance approved and directed the Ontario Financing Authority ("OFA") to make loans (the "Loans") to the Ontario Power Authority ("OPA") from time to time, as considered necessary by the OPA to meet its purposes, up to the maximum aggregate amount of $500 million, and to enter into a revolving credit facility agreement setting out the terms of the Loans (the "Credit Agreement").

Pursuant to a further directive dated October 3, 2005 the Minister of Finance approved and directed the OFA to increase the maximum aggregate amount of the Loans from $500 million to $975 million.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator (the "IESO"). Under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation.

The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Commented [LS1]: Program area to confirm

It is now desirable to agree to the IESO's request to decrease the maximum aggregate amount of the Loans from $975 million to $475 million.

Therefore:

Pursuant to sub-section 16(2) of the *Capital Investment Plan Act, 1993*, the OFA is directed to amend the Credit Agreement to decrease the maximum aggregate amount of the Loans from $975 million to $475 million.

Dated , 2017

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR CREDIT FACILITY

To: Ontario Financing Authority ("OFA")

Whereas:

Under the *Capital Investment Plan Act, 1993* ("CIPA"), the OFA provides financing to public bodies as directed by the Minister of Finance.

The Independent Electricity System Operator ("IESO"), a public body for the purposes of CIPA, has requested funding from the OFA to support the IESO's role in the implementation and administration of the *Ontario Fair Hydro Plan Act, 2017* (the "OFHP").

In order to fulfil the Province's commitments under the OFHP, it is desirable for the Minister of Finance to provide direction to the OFA to provide a revolving credit facility for the purposes of providing short to medium term financing related to the OFHP.

Therefore:

Pursuant to sub-section 16(2) of CIPA, the OFA is directed to lend to the IESO under a revolving credit facility (the "Line of Credit") for the purpose of short to medium term financing related to the IESO's implementation of the OFHP, an aggregate principal amount of up to CAD $2 billion.

The Line of Credit shall be subject to the following terms:

- The Line of Credit shall be evidenced by an agreement between the IESO and the OFA containing terms and conditions consistent with this Directive (the "Credit Agreement").

- Interest on the Line of Credit shall be payable at a rate equal to the Province's cost of funds based on the terms of the Credit Agreement, and as determined by the Chief Executive Officer of the OFA or the Assistant Deputy Minister, Corporate and Electricity Finance Division, OFA, or a person designated by either of them, plus a twenty-five (25) basis point spread.

../2

- All amounts outstanding under the Line of Credit shall be repaid in full on or before the date no later than September 30, 2022.

- The Line of Credit shall be subject to such other terms as the OFA deems appropriate from time to time.

DIRECTIVE

MINISTER OF FINANCE

INDEPENDENT ELECTRICITY SYSTEM OPERATOR LINE OF CREDIT

TO: ONTARIO FINANCING AUTHORITY

Whereas:

Pursuant to a directive dated December 22, 2004 the Minister of Finance approved and directed the Ontario Financing Authority ("OFA") to make loans (the "Loans") to the Ontario Power Authority ("OPA") from time to time, as considered necessary by the OPA to meet its purposes, up to the maximum aggregate amount of $500 million, and to enter into a revolving credit facility agreement setting out the terms of the Loans (the "Credit Agreement").

Pursuant to a further directive dated October 3, 2005 the Minister of Finance approved and directed the OFA to increase the maximum aggregate amount of the Loans from $500 million to $975 million.

Effective January 1, 2015, the OPA and the Independent Electricity System Operator amalgamated and continued as a corporation without share capital under Part II of the Electricity Act, 1998 (the "Amalgamation") with the name Independent Electricity System Operator (the "IESO"). Under the Amalgamation the obligations of the OPA became obligations of the amalgamated corporation.

The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017*.

Commented [LS1]: Program area to confirm

It is now desirable to agree to the IESO's request to decrease the maximum aggregate amount of the Loans from $975 million to $475 million.

Therefore:

Pursuant to sub-section 16(2) of the *Capital Investment Plan Act, 1993*, the OFA is directed to amend the Credit Agreement to decrease the maximum aggregate amount of the Loans from $975 million to $475 million.

Hi everyone,
I think we need to keep in mind including the condition of "provided that Advances may be used only for liquidity purposes" in the "Use of Proceeds" works if Anthony and Victor (IESO) accepts it, otherwise we may have to fall back on plan B, the directive route.

Hi William,
We have discussed this with our Director, John Kim, and we would like to move forward with Sarah Neville's suggestion, to provide the proposed language to IESO that specifically refers to "liquidity purposes" such as;

> "The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act*, *1998*, as such regulation may be amended or replaced from time to time provided that Advances may be used only for liquidity purposes."

If IESO is good with this, then there's no need to do another directive.
Please let us know if you have any additional questions/concerns.
Thanks,

I would like to provide Anthony Martinello (IESO) with a status update for the Amending Agreement 10 (as we have had it for nearly two weeks now). I was wondering if it's possible to for Electricity Finance to may make a determination as to the wording/direction for the "Use of Proceeds". As you mentioned, if our goal is to seek a new directive, we require internal sign-offs by the end of this week in order to be on track to have the Minister's signature by August 7th.

Hi Sarah and all,
Sorry we were tied up with a few deliverables today, so we haven't had a chance to discuss this within the Branch (and with Ron) yet. We will try to get clarification soon.
Also, if the term "liquidity purposes" is broad enough to cover temporary funding of corporate requirements, is there a need to get another directive? Just for clarification purpose?

Hi Sarah N.,
Thanks for the summary. Will had a chat with Ken and will be providing more details soon, but the bottom line is that the argument can be made that 'liquidity purposes' is broad enough to cover temporary funding of corporate requirements, as well as anything under the reg. That being said, if there is the opportunity to get a new Directive to clarify, he said that would be better.
Gavin, have you had the opportunity to speak with Ronald K regarding the scope of the reg, and has he provided direction on the matter?
Thanks,
Sarah

Subject: IESO DIRECTIVE decrease line of credit

Hello –
Further to our meeting yesterday, attached is a draft directive seeking a decrease in the line and amended use of proceeds.
I reviewed the language in amending agreement 8 and I note the following:

- It permits the IESO from and after the Amalgamation to use the proceeds of Advances only as authorized by the Regulation (defined as Reg 280/14);
- The control with respect to using proceeds for purposes and requirements in relation to the operations and activities of the OPG prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation, is limited *to the extent not inconsistent with the Regulation*;
- The condition with respect to the use of proceeds states the proceeds of Advances, "may be used only for liquidity purposes and to *temporarily* fund corporate requirements". This does not track the language in the Regulation 280/14 exactly. The Regulation in place at the time

amending agreement 8 was entered into reads at 3(1) “The IESO may borrow only for the purpose of funding *corporate requirements* and for liquidity purposes”. The word *temporarily* is not in the Reg. This may support an argument that no amendment was required to the use of proceeds section of Credit Agreement to implement the November 28, 2016 Directive supporting the amending agreement number 9 on the basis that “temporary” funding is a liquidity purpose. Does that make sense.?

Below is the relevant section from the Regulation at the time the most recent Directive was issued in November last year.

Authorized borrowing

3. (1) The IESO may borrow only for the purpose of funding corporate requirements and for liquidity purposes. O. Reg. 162/15, s. 3.

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

4. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of payments in respect of procurement contracts that the IESO has entered into pursuant to Part II.2 of the Act and the payment of such amounts by the IESO under the procurement contracts referred to in that Part. O. Reg. 162/15, s. 3.

The recent amendments to add the FHP added the following:

5. To provide such funds as may be required for the purposes of the *Ontario Fair Hydro Plan Act, 2017*, including borrowing,

i. to fund IESO deferrals under section 23 of that Act, and

ii. to fund the activities in which the IESO is authorized or required to engage under that Act. O. Reg. 162/15, s. 3; O. Reg. 193/17, s. 1.

If OFHP funding can’t be considered a “liquidity purpose”, my view is that in order to accept IESO’s proposed revision to the use of proceeds language, a new directive is required. The alternative remains to add a condition to IESO’s use of proceeds language limiting the use of proceeds to liquidity purposes only.

Please let me know your thoughts on how you would like to move forward.

Thanks very much,

Sarah

Hi Sarah H,
I understand your question now.
I spoke to Anthony and his goal was to simplify the "use of proceeds" definition.
He doesn't recall why the 12 month restriction was there. He would have to consult his notes. He believes it was a "hold over" from OPA days. He mentions that this current facility now allows for FHP, which allows rollovers until September 2022. The 12 month restriction would be contrary to the FHP terms .

Hi Sarah (N) and Will,
I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.
From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.
2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing facility, nor was any direction given on this matter.
   If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.
   I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,
Sarah H

Hi Sarah (N) and Will,
I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.
From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.
2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing facility, nor was any direction given on this matter.
   If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.
   I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,
Sarah H

Quick question, as I am coming at this from a cold start, was MOF legal involved at all, I saw some correspondence with Toby in Lisa's file. Just wondering if he should be involved or looped in?

Hi Sarah (N) and Will,
I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.
From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.
2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing

facility, nor was any direction given on this matter.
If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.
I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,
Sarah H

A good summary, Sarah.
I am so sorry about your son's foot. That sounds terrible!
Quick question, as I am coming at this from a cold start, was MOF legal involved at all, I saw some correspondence with Toby in Lisa's file. Just wondering if he should be involved or looped in?

Hi Sarah (N) and Will,
I am just back from vacation, but came back to have my son's foot fractured. As such, I will be at the fracture clinic this morning.
From what I can briefly reading the history in the past couple of days, as well as drawing on the history of this file, my comments are:

1) There was no directive put forward to reduce the size of the credit facility, as we (including Lisa S.) collectively agreed that no directive was required to 'reduce' the size of the facility. This was a request from IESO, and we are accommodating it.
2) Given that IESO's legal counsel were "tied up with higher priority matters" than getting both the new FHP facility and the amendment in place by July 1st, Lisa, Salman, Anthony (IESO), Will and I discussed reducing the size of the existing credit facility prior to putting the new $2B facility in place so that we don't go over the 'global' intended limit of $2.475B. In discussing this, Salman confirmed that the existing credit facility could be used to funding timing variances under the existing Regulation. In all of our discussions, there have been no conversations with IESO about overtly changing the Use of Proceeds under the existing facility, nor was any direction given on this matter.
   If changing the Use of Proceeds is something IESO wishes to do (given that there have been draws from timing differences under the existing facility – Will, please confirm if this is correct), then I suggest we have a call with IESO to discuss this option. We should internally have a quick meeting or call prior to the discussion with IESO.
   I am working from home today, and just about on my way to the fracture clinic. If possible this morning, might I suggest a quick internal meeting with Gavin (I don't need to be there) this morning to agree on the OFA's preferred direction, and then a call with Anthony this afternoon, if possible. Ultimately the Use of Proceeds is Electricity Finance's decision on whether/how to change it.

Thanks,
Sarah H

Hi Sarah H,
I understand your question now.
I spoke to Anthony and his goal was to simplify the "use of proceeds" definition.
He doesn't recall why the 12 month restriction was there. He would have to consult his notes. He believes it was a "hold over" from OPA days. He mentions that this current facility now allows for FHP, which allows rollovers until September 2022. The 12 month restriction would be contrary to the FHP terms .

Sorry for the multiple emails. One more email above rolling-over interest.
Under Amending Agreement No. 9 (attached), s. 3.3(1) the Credit Agreement provides for rollover of principal amounts, but the Form of Election Notice lists principal and interest separately under "aggregate amount of the proposed election". These don't seem consistent to me. I will draft based on no rollover of interest – but please let me know if this information changes your instructions.
Thanks,
Caroline

Thanks Will.
I will update the Amending Agreement No. 10. I understand that the instructions are to update the Amending Agreement to:

- Replace Schedule 2, Form of Election Notice, with the FHP Agreement Form of Election Notice (e.g. add the Borrowing Notice), with the following exceptions:
  - Don't allow for rollover of accrued interest
  - New Repayment Date to be no earlier than 28 days after Current Repayment Date
- Complementary amendments to the definitions, s. 3.2 and 3.3 of the Credit Agreement that are required for the new Form of Election Notice

Please let me know if this is correct or if I am misunderstanding what needs to be changed.
With respect to #3 in your email – Amending Agreement No. 9 requires one Business Days' prior notice for an Election Notice. Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.
Thanks,
Caroline

Hello Caroline,

Attached is the IESO Credit Requirements Letter which outlined the $2 Billion Credit Facility.
Also attached is the History of IESO OFA Amending Agreements doc.

1. The existing credit facility for $975 million credit facility was originally set-up for different lending purposes and was only updated recently to accommodate FHP related advances and we were not instructed to update advancement parameters. No change required.
2. Same as above. Currently no instructions to update how Advances are to be continued/rolled-over. No change required.
3. Amending Agreement No. 9 extends from One business day to Two business days' notice for Advancements. No change required.
4. Currently there are no instructions to implement Sections 3.3 (4)(6)(7) Elections Regarding Advances. into Amending Agreement 10.

Thanks,
Will

Subject: FW: IESO FHP Credit Facility Agreement and Amending Agreement 10

Hi,

I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

- The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.
- The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.
- The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.
- The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of this file? We may need to meet to discuss:

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on

the Grid Note in accordance with Section 3.2(2).

(6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

(2) Interest shall accrue on the principal amount of each Advance from and including the date of the Advance to but excluding the Repayment Date of such Advance, at an annual rate equal to the Province of Ontario's cost of funds for borrowings with a similar term as determined by the OFA plus 0.25 percent per annum, before as well as after the date such principal amount or interest thereon becomes due hereunder and both before and after default and shall be payable on the Repayment Date for such Advance. Will – see attached $2B draft for your review.

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Regards.

Hello,
Please see the attached draft changes to incorporate the discussion with the IESO this afternoon for your review. I am attaching a markup (my markup on top of IESO's markup) as well as a comparison with the last version provided by the IESO (showing only the current changes).
Please review and let me know if you have any comments on any of these changes. In particular, does the Election Notice in Schedule 2 include all of the information that the IESO needs to provide for the OFA to administer the continued Advances and new Advances under the FHP Agreement?
I am happy to meet to discuss these changes if it would be helpful.
I will also run the change to the Permitted Liens definition past MOF legal.
Thanks,

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Regards.

Hi Caroline,
The logic looks good. I think we may need to simplify the notice to be a little more concise to make it more workable for the operations folks, specifically with respect to b). I will come down first thing tomorrow morning to
discuss. I think the changes are relatively quick.

Hello,
Please see the attached draft changes to incorporate the discussion with the IESO this afternoon for your review. I am attaching a markup (my markup on top of IESO's markup) as well as a comparison with the last version provided by the IESO (showing only the current changes).
Please review and let me know if you have any comments on any of these changes. In particular, does the Election Notice in Schedule 2 include all of the information that the IESO needs to provide for the OFA to administer the continued Advances and new Advances under the FHP Agreement?
I am happy to meet to discuss these changes if it would be helpful.
I will also run the change to the Permitted Liens definition past MOF legal.
Thanks,
Caroline

Hi,
We didn't discuss the IESO's suggestion: to revise the Amending Agreement 10, to align the form of election notice under the current Credit Agreement with the form that will be used under the FHP Credit Agreement.
Do you agree with this proposal, or have any concerns with it?
If the election notices under the two agreements are to be aligned, then I think we should respond to Victor that, after the IESO and OFA have agreed on the language in the FHP Agreement related to Election Notices (in Article 3 and Schedule 2), then the OFA will update the draft Amending Agreement #10 to incorporate the new form of Election Notice (including changes to the relevant sections of the agreement).
Please let me know if you would like to discuss.
Thanks,
Caroline

Hello all - just as a follow-up to our call of a few minutes ago, it would make sense for the borrowing processes to be aligned for both lines of credit (i.e. the FHP line and the $475MM line) per Anthony's comments below.

Since it sounds like there will need to be some additional tweaks to the Election Notice language we inserted in yesterday's draft, would it make sense for you rather than us to make the changes to the Amendment #10 document as well, since you have the pen on this issue right now ? Just thinking here about what's most efficient time-wise (ie if not, we have to wait for your markup etc).

Let us know - thanks,

Hello all - just as a follow-up to our call of a few minutes ago, it would make sense for the borrowing processes to be aligned for both lines of credit (i.e. the FHP line and the $475MM line) per Anthony's comments below.

Since it sounds like there will need to be some additional tweaks to the Election Notice language we inserted in yesterday's draft, would it make sense for you rather than us to make the changes to the Amendment #10 document as well, since you have the pen on this issue right now ? Just thinking here about what's most efficient time-wise (ie if not, we have to wait for your markup etc).
Let us know - thanks,
Victor

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.
Regards.

Hello Caroline

I have spoken to James Devine, Director Funding he reiterated Carlos Yep Manger Funding point that the OFA revolving credit facility allows for the rollover of interest. This feature is different from a bank line of credit where minimum payment (component of principle and interest) is required to remain current. I will reiterate to Anthony (IESO) in an email that the FHP credit facility effectively allows him to roll-over interest whereas the existing credit facility of $975 million does not.

Thanks,

Will

Hi Caroline,

Please draft without the inclusion of rollover interest. Tomorrow morning, Will shall also re-confirm with the traders about whether interest should accrued in the new FHP agreement.

These don’t seem consistent to me. I will draft based on no rollover of interest – but please let me know if this information changes your instructions.

Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.

Hi,
We didn't discuss the IESO's suggestion: to revise the Amending Agreement 10, to align the form of election notice under the current Credit Agreement with the form that will be used under the FHP Credit Agreement.
Do you agree with this proposal, or have any concerns with it?
If the election notices under the two agreements are to be aligned, then I think we should respond to Victor that, after the IESO and OFA have agreed on the language in the FHP Agreement related to Election Notices (in Article 3 and Schedule 2), then the OFA will update the draft Amending Agreement #10 to incorporate the new form of Election Notice (including changes to the relevant sections of the agreement).
Please let me know if you would like to discuss.
Thanks,
Caroline

Hi,
We didn't discuss the IESO's suggestion: to revise the Amending Agreement 10, to align the form of election notice under the current Credit Agreement with the form that will be used under the FHP Credit Agreement.
Do you agree with this proposal, or have any concerns with it?
If the election notices under the two agreements are to be aligned, then I think we should respond to Victor that, after the IESO and OFA have agreed on the language in the FHP Agreement related to Election Notices (in Article 3 and Schedule 2), then the OFA will update the draft Amending Agreement #10 to incorporate the new form of Election Notice.
Please let me know if you would like to discuss.
Thanks,
Caroline

Hello all - just as a follow-up to our call of a few minutes ago, it would make sense for the borrowing processes to be aligned for both lines of credit (i.e. the FHP line and the $475MM line) per Anthony's comments below.
Since it sounds like there will need to be some additional tweaks to the Election Notice language we inserted in yesterday's draft, would it make sense for you rather than us to make the changes to the Amendment #10 document as well, since you have the pen on this issue right now ? Just thinking here about what's most efficient time-wise (ie if not, we have to wait for your markup etc).
Let us know - thanks,
Victor

We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Hi,
Thanks for meeting this morning to discuss the IESO's draft changes to the FHP Revolving Credit Facility Agreement. We understand that the intent of the changes to s. 3.2 and 3.3 are to allow for the IESO to provide, in one notice document, an Election Notice as well as a request for a new Advance.
The IESO has proposed to add to the definition of "Continued Advance" the amount of the proposed new Advance (s. 3.3(1)), i.e. "Continued Advance" would include:

- Continued amount (outstanding principal and interest of continued Advance), and
- Principal amount of new Advance

However, the continued Advance and the new Advance are treated separately for other purposes, including that they are recorded separately on the Grid Note in accordance with s. 3.2(2).
In light of this, we are proposing that the information about the continued Advance and the new Advance be included separately on the Form of Election Notice (e.g. section 1 – election notice; section 2 – request for new Advance). The document would include the information about both and allow for an election and new Advance to be done at the same time as requested by the IESO, but the two amounts (the "Continued Advance" and the "new Advance") would be separate for the purposes of the Agreement. This would better reflect how these amounts are reflected on the Grid Note, and so hopefully make the process easier for the parties to understand.
Do you agree with this approach, or have any concerns with it?
If you agree, before making these changes to s. 3.3 and Schedule 2, should we set up a call with the IESO to discuss and get their agreement in principle before drafting, in light of the tight timelines?
Thanks,
Caroline

Will,

As a business/commercial item (not a legal item), I would like to discuss the following.

The current $975M facility's Election Notice is different that the proposed $2B facility's Election Notice.

When the IESO currently borrows on the $975M, the practice has been that the Election Notice is used to capture all pertinent info needed. But my understanding of the proposed $2B forms are that the IESO would need to supply both a) Election Notice (e.g. rollover amounts) and b) Borrowing Notice (e.g. any new principal) each month.

Call me to discuss, as I think there may be some room to make this more efficient for both the IESO and OPA.

Regards.

Hello Caroline

I have spoken to James Devine, Director Funding he reiterated Carlos Yep Manger Funding point that the OFA revolving credit facility allows for the rollover of interest. This feature is different from a bank line of credit where minimum payment (component of principle and interest) is required to remain current. I will reiterate to Anthony (IESO) in an email that the FHP credit facility effectively allows him to roll-over interest whereas the existing credit facility of $975 million does not.

Thanks,

Will

Hi Caroline,

Please draft without the inclusion of rollover interest. Tomorrow morning, Will shall also re-confirm with the traders about whether interest should accrued in the new FHP agreement.

These don’t seem consistent to me. I will draft based on no rollover of interest – but please let me know if this information changes your instructions.

Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.

Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.

Will,

As a business/commercial item (not a legal item), I would like to discuss the following.

The current $975M facility's Election Notice is different that the proposed $2B facility's Election Notice.

When the IESO currently borrows on the $975M, the practice has been that the Election Notice is used to capture all pertinent info needed. But my understanding of the proposed $2B forms are that the IESO would need to supply both a) Election Notice (e.g. rollover amounts) and b) Borrowing Notice (e.g. any new principal) each month.

Call me to discuss, as I think there may be some room to make this more efficient for both the IESO and OPA.

Regards.

Hi Sarah,
I don't know if group call is necessary at this point. I can clarify with Anthony that we noticed that IESO was seeking new advances and rollovers using Schedule II only. Thus we redesigned Schedule II accommodate both. Please take a look if our understanding is on the same page.

a) Accommodates new advances (principal of new advance + advance date)
b) Portion of interest IESO wishes to repay.
c) Continued advance (i + ii)
    i)previous principal
    ii)accrued interest
d) New repayment date

(a) The Advance to which the election request applies is _____ [Insert principal amount of Advance and Advance date].
(b) The amount of interest the IESO will re-pay on Advance set out in (a) is $_____ [Insert interest amount to be re-paid on current Repayment Date].
(c) The new aggregate total amount of the proposed Continued Advance is $_____, which is comprised of:
    i. previous principal amount of Advance [or portion thereof] $_____; and,
    ii. accrued interest on Advance [or portion thereof] $_____.
(d) The new Repayment Date, being a Business Day, applicable to such proposed Continued Advance is _____. [Insert date not earlier than 5 days and not later than 95 days after the current Repayment Date for the Advance.]

Such election shall be confirmed by the IESO by a telephone call to OFA Cash Management at 416-325-8108.

Will,
As a business/commercial item (not a legal item), I would like to discuss the following.
The current $975M facility's Election Notice is different that the proposed $2B facility's Election Notice.
When the IESO currently borrows on the $975M, the practice has been that the Election Notice is used to capture all pertinent info needed. But my understanding of the proposed $2B forms are that the IESO would need to supply both a) Election Notice (e.g. rollover amounts) and b) Borrowing Notice (e.g. any new principal) each month.
Call me to discuss, as I think there may be some room to make this more efficient for both the IESO and OPA.
Regards.

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,
Will

Sorry for the multiple emails. One more email above rolling-over interest.
Under Amending Agreement No. 9 (attached), s. 3.3(1) the Credit Agreement provides for rollover of principal amounts, but the Form of Election Notice lists principal and interest separately under "aggregate amount of the proposed election". These don't seem consistent to me. I will draft based on no rollover of interest – but please let me know if this information changes your instructions.

Thanks Will.
I will update the Amending Agreement No. 10. I understand that the instructions are to update the Amending Agreement to:

- Replace Schedule 2, Form of Election Notice, with the FHP Agreement Form of Election Notice (e.g. add the Borrowing Notice), with the following exceptions:
  - Don't allow for rollover of accrued interest
  - New Repayment Date to be no earlier than 28 days after Current Repayment Date
- Complementary amendments to the definitions, s. 3.2 and 3.3 of the Credit Agreement that are required for the new Form of Election Notice

Please let me know if this is correct or if I am misunderstanding what needs to be changed.
With respect to #3 in your email – Amending Agreement No. 9 requires one Business Days' prior notice for an Election Notice. Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.
Thanks,
Caroline

Hello Caroline,
Attached is the IESO Credit Requirements Letter which outlined the $2 Billion Credit Facility.
Also attached is the History of IESO OFA Amending Agreements doc.

1. The existing credit facility for $975 million credit facility was originally set-up for different

lending purposes and was only updated recently to accommodate FHP related advances and we were not instructed to update advancement parameters. No change required.

2. Same as above. Currently no instructions to update how Advances are to be continued/rolled-over. No change required.
3. Amending Agreement No. 9 extends from One business day to Two business days' notice for Advancements. No change required.
4. Currently there are no instructions to implement Sections 3.3 (4)(6)(7) Elections Regarding Advances. into Amending Agreement 10.

Thanks,
Will

Hi,

I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

- The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.
- The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.
- The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.
- The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of this file? We may need to meet to discuss:

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).
>
> (6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.
>
> (7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

Subject: FW: IESO FHP Credit Facility Agreement and Amending Agreement 10

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.
Regards.

Subject: FW: IESO FHP Credit Facility Agreement

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. We estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,
Will

estimate that this will likely take 3 or 4 weeks. Knowing that IESO's next funding request will be sent to the OFA on August 17th (for funding on August 21st), the August FHP draw will need to be made under the existing $975 million credit facility. At the time we execute the new $2 Billion facility, we would be able to transfer (by incorporating into the agreements the required provisions or by another agreed mechanism) any amount of loans exceeding $475 million (being the reduced facility limit under the draft amending agreement) under the existing facility to the new facility. We can set-up a call to discuss the details how this would work.

Thanks,

Will

Hello Anthony and Victor,

My apologies for the delay in providing the next turn of the FHP Credit Facility Agreement. While reviewing the last draft for the new credit facility, we became aware of a policy requirement for which we will need to obtain an additional directive prior to execution of the agreement. Sorry for the multiple emails. One more email above rolling-over interest.
Under Amending Agreement No. 9 (attached), s. 3.3(1) the Credit Agreement provides for rollover of principal amounts, but the Form of Election Notice lists principal and interest separately under "aggregate amount of the proposed election". These don't seem consistent to me. I will draft based on no rollover of interest – but please let me know if this information changes your instructions.
Thanks,
Caroline

Thanks Will.
I will update the Amending Agreement No. 10. I understand that the instructions are to update the Amending Agreement to:

- Replace Schedule 2, Form of Election Notice, with the FHP Agreement Form of Election Notice (e.g. add the Borrowing Notice), with the following exceptions:
  - Don't allow for rollover of accrued interest
  - New Repayment Date to be no earlier than 28 days after Current Repayment Date
- Complementary amendments to the definitions, s. 3.2 and 3.3 of the Credit Agreement that are required for the new Form of Election Notice

Please let me know if this is correct or if I am misunderstanding what needs to be changed.
With respect to #3 in your email – Amending Agreement No. 9 requires one Business Days' prior notice for an Election Notice. Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.
Thanks,
Caroline

Hello Caroline,
Attached is the IESO Credit Requirements Letter which outlined the $2 Billion Credit Facility.
Also attached is the History of IESO OFA Amending Agreements doc.

1. The existing credit facility for $975 million credit facility was originally set-up for different

lending purposes and was only updated recently to accommodate FHP related advances and we were not instructed to update advancement parameters. No change required.

2. Same as above. Currently no instructions to update how Advances are to be continued/rolled-over. No change required.
3. Amending Agreement No. 9 extends from One business day to Two business days' notice for Advancements. No change required.
4. Currently there are no instructions to implement Sections 3.3 (4)(6)(7) Elections Regarding Advances. into Amending Agreement 10.

Thanks,
Will

Hi,

I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

- The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.
- The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.
- The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.
- The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of this file? We may need to meet to discuss:

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).
>
> (6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.
>
> (7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Thanks Will.
I will update the Amending Agreement No. 10. I understand that the instructions are to update the Amending Agreement to:

- Replace Schedule 2, Form of Election Notice, with the FHP Agreement Form of Election Notice (e.g. add the Borrowing Notice), with the following exceptions:
  - Don't allow for rollover of accrued interest
  - New Repayment Date to be no earlier than 28 days after Current Repayment Date
- Complementary amendments to the definitions, s. 3.2 and 3.3 of the Credit Agreement that are required for the new Form of Election Notice

Please let me know if this is correct or if I am misunderstanding what needs to be changed.
With respect to #3 in your email – Amending Agreement No. 9 requires one Business Days' prior notice for an Election Notice. Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.
Thanks,
Caroline

Hello Caroline,
Attached is the IESO Credit Requirements Letter which outlined the $2 Billion Credit Facility.
Also attached is the History of IESO OFA Amending Agreements doc.

1. The existing credit facility for $975 million credit facility was originally set-up for different lending purposes and was only updated recently to accommodate FHP related advances and we were not instructed to update advancement parameters. No change required.
2. Same as above. Currently no instructions to update how Advances are to be continued/rolled-over. No change required.
3. Amending Agreement No. 9 extends from One business day to Two business days' notice for Advancements. No change required.
4. Currently there are no instructions to implement Sections 3.3 (4)(6)(7) Elections Regarding Advances. into Amending Agreement 10.

Thanks,
Will

Hi,

I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

- The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.
- The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.
- The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.
- The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of this file? We may need to meet to discuss:

  (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on the Grid Note in accordance with Section 3.2(2).

  (6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

  (7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Hello,
I left a message for Anthony to call me back regarding the roll-over language for AA10.

Sorry for the multiple emails. One more email above rolling-over interest.
Under Amending Agreement No. 9 (attached), s. 3.3(1) the Credit Agreement provides for rollover of principal amounts, but the Form of Election Notice lists principal and interest separately under "aggregate amount of the proposed election". These don't seem consistent to me. I will draft based on no rollover of interest – but please let me know if this information changes your instructions.
Thanks,
Caroline

Thanks Will.
I will update the Amending Agreement No. 10. I understand that the instructions are to update the Amending Agreement to:

- Replace Schedule 2, Form of Election Notice, with the FHP Agreement Form of Election Notice (e.g. add the Borrowing Notice), with the following exceptions:
  - Don't allow for rollover of accrued interest
  - New Repayment Date to be no earlier than 28 days after Current Repayment Date
- Complementary amendments to the definitions, s. 3.2 and 3.3 of the Credit Agreement that are required for the new Form of Election Notice

Please let me know if this is correct or if I am misunderstanding what needs to be changed.
With respect to #3 in your email – Amending Agreement No. 9 requires one Business Days' prior notice for an Election Notice. Two Business Days are required for an Advance/Borrowing Notice under s. 3.2(1) of the Credit Agreement (as amended by Amending Agreement No. 9). If the Election Notice could now include a Borrowing Notice, then I think the notice requirement for an Election Notice should be increased to 2 business days to comply with s. 3.2(1) of the Credit Agreement. Do you agree or have any concerns? If my question is not clear, please let me know and we can discuss.
Thanks,
Caroline

Hello Caroline,

Attached is the IESO Credit Requirements Letter which outlined the $2 Billion Credit Facility.
Also attached is the History of IESO OFA Amending Agreements doc.

1. The existing credit facility for $975 million credit facility was originally set-up for different lending purposes and was only updated recently to accommodate FHP related advances and we were not instructed to update advancement parameters. No change required.
2. Same as above. Currently no instructions to update how Advances are to be continued/rolled-over. No change required.
3. Amending Agreement No. 9 extends from One business day to Two business days' notice for Advancements. No change required.
4. Currently there are no instructions to implement Sections 3.3 (4)(6)(7) Elections Regarding Advances. into Amending Agreement 10.

Thanks,
Will

Hi,

I've started drafting the changes to the Amending Agreement 10, and have a couple of questions about the extent to which the two credit agreements are to be aligned:

- The current Credit Agreement states that the Repayment Date for an Advance/continued Advance, must be no earlier than 28 days and not later than 95 days after the date of the requested Advance/current Repayment Date. Under the FHP agreement, the minimum period is 5 days. Please confirm whether the minimum should remain 28 days for the current credit facility.
- The current Credit Agreement only provides for principal amounts of Advances to be continued/rolled-over. The FHP agreement allows for interest to be rolled-over as well (and included in the "Continued Advance" amount). Please confirm whether the current agreement should now provide for interest to be rolled-over.
- The current Credit Agreement requires one Business Day's prior notice for an election. The FHP agreement requires 2 Business Days' notice for an election. Since the new form of Election Notice could include a request for a new advance, I will use 2 Business Days in the amending agreement. Please let me know if this is not correct.
- The following subsections in 3.3 are new in the FHP Agreement, and are not in the current Credit Agreement. I am still looking at whether these should be added to Amending Agreement 10. Do you have any thoughts on this based on your knowledge of the history of this file? We may need to meet to discuss:

> (4) The calculation of interest on a Continued Advance shall be determined in the same manner as an Advance under Section 3.4 and shall be recorded on

the Grid Note in accordance with Section 3.2(2).

(6) The Credit Facility shall at all times rank pari passu with all other unsubordinated and unsecured Indebtedness of the IESO, subject to the existence of any Liens that secure Indebtedness, as permitted by subections 4.6 (a) through (e) hereof.

(7) All amounts owing in respect of the Advances shall be paid without exercising any right of set off or counterclaim by the IESO.

Thanks,
Caroline

Will – see attached $2B draft for your review.
As discussed, we amended the election notice to make it more efficient for both IESO and OFA.
We will await your comments on this $2B draft before we make draft comments on the amendment #10 – as we likely should revise amendment #10's borrowing/election form notices to align with the attached $2B draft.

Hello Anthony,
We have reviewed the grid note you provided and your observation is correct that you are provided with one line item with the consolidated total amount compared to the distinct separate the advances we originally understood.
Yes, we have access to a version of the grid note that separates the advances that is not provided to you, which caused the confusion.
Does the revised Section 3.3(2) and Schedule 2 (Form of Election Notice) still functional to you?
Thanks,
Will

Hi,
Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).
It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.
Victor and I are reviewing today's draft.
Regards.

Hello,
Sarah H, clarified with Settlements on how the Grid Notes are to be interpreted. Each line indicates total outstanding loan and not to be totalled with the loans above. Anthony is correct in saying that he only receives one line item.
Thanks,
Will

Hello,
Anthony is correct that the Grid note provided to him that the Advances are consoldiated into one line item, but I think its done incorrectly.
If you look closely to the items above the number I crossed out, it appears to be some double counting.
I have attached my rough version suggesting how it should appear.

Hi Will,
Just looking at the "Principal Advanced or Rollover Amount" column for the RRRP Grid Notes, it seems to me that your rough version and the version below in the email are consistent with each other (they both have the same current total), but the one below is cumulative, whereas the attached is not.

Hello,
Anthony is correct that the Grid note provided to him that the Advances are consoldiated into one line item, but I think its done incorrectly.
If you look closely to the items above the number I crossed out, it appears to be some double counting.
I have attached my rough version suggesting how it should appear.

Hi,
Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).
It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

Regards.

Hi,
Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).
It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.

Victor and I are reviewing today's draft.

Regards.

Hello,
Anthony is correct that the Grid note provided to him that the Advances are consoldiated into one line item, but I think its done incorrectly.
If you look closely to the items above the number I crossed out, it appears to be some double counting.
I have attached my rough version suggesting how it should appear.

Hello Anthony,
We have reviewed the grid note you provided and your observation is correct that you are provided with one line item with the consolidated total amount compared to the distinct separate the advances we originally understood.
Yes, we have access to a version of the grid note that separates the advances that is not provided to you, which caused the confusion.
Does the revised Section 3.3(2) and Schedule 2 (Form of Election Notice) still functional to you?
Thanks,
Will

Hi,
Just for clarity. Below is an example of the OFA's regular email and grid notes (see attached) that the IESO receives each month directly from the OFA.
You will note that the grid notes shows one row and its respective aggregated amount for each month's advance (previous + new).
It was noted on yesterday's call that each respective advance has its own row and # of days updated in the grid note – in practice the IESO does not see this.
I assume there is an internal OFA grid document which provides each advance as segregate rows.
Victor and I are reviewing today's draft.
Regards.

Date: Monday, July 10, 2017 12:28:42 PM

Hi Will,
Please see below my changes.
You'll have to further change the first paragraph in 1., since IESO sent the comments on the amending agreement on Friday. Remember that #1 should only be circulated internally.
You'll be unable to send the #2 proposed e-mail, because IESO has also sent back the draft. You may be able to incorporate it into that information in your response to IESO when you provide our comments on the amending agreement, however, you can't send Anthony the following phrase: " In the unlikely event, IESO IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million." That is our internal back up and he would not be aware of it. In the event we see IESO heading in the direction of exceeding $475M, then we bring it up.
Thanks,
Sarah

Hello Sarah,
I have cleaned up some of the language recording the meeting with Anthony and the solutions agreed upon. I hope this suits you.
Thanks,
Will
1.
Hello all,
IESO has not completed its review of the documents relating to the new OFHP Credit Facility Agreement and Amending Agreement 10 (existing IESO OFA Credit Facility) by July 1. As a result, the new and existing credit facilities will not be in place in time of the targeted set-up date of July 1. According to Anthony Martinello of IESO, their legal department has a number of competing issues and limited resources. Anthony, estimated that the Amending Agreement 10, would be completed mid-July and new credit facility would be completed by the end of July. IESO is currently drawing on the existing credit facility categorized as Regulated Price Plan (RPP) under the FHP related financing and does not plan to exceed $475 million.
IESO's request for a new FHP $2 billion Credit Facility was predicated on the reduction of the existing credit facility by $500 million dollars. This ~~term~~ information was included in the briefing ~~note~~ material ~~and~~ for the approval of the lending directive [and/or OIC?] [NTD: the information wasn't in the directive. Please confirm if it was Directive or OIC: I don't remember which one off hand] to assist the Ministry of Finance in its decision to approve the [order in council and directive NTD: confirm per previous comment] for the new $2B FHP Credit Facility. Accordingly, the total credit limit to be available under the combined facilities would be a total $2.475 billion ~~credit facility limit~~.
In order to ~~operate~~ procced in a manner consistent with the FHP loan framework ~~approved~~ presented to ~~by~~ the Minister of Finance (i.e. an existing credit facility reduced to $475M plus a new

$2B FHP credit facility, with a combined limit of $2.475 B) , IESO and OFA agreed that we will reduce the existing credit facility from $975 million down to $475 million before completing the new $2 billion credit facility. ~~This approach avoids violating the terms at which the OIC and lending was approved while facilitating each part of the process.~~

Reducing the $975M credit facility first mitigates~~, approach is based on~~ the ~~remote~~ possibility of IESO exceeding~~s~~ the $475 million ~~credit facility~~ revised borrowing limit requested by IESO on the existing credit facility, and ensures that the total $2.475B 'borrowing limit' for FHP purposes is not exceeded. Anthony has also noted that IESO has an existing credit facility with TD Bank. In the unlikely event of IESO exceeding borrowing requirements of $475 million between now and execution of the of the amending agreement , IESO indicated they would use their other credit facility at TD Bank instead to bridge the funding gap until such time as the new $2 billion credit facility is in place. It was also internally agreed that that in the event IESO does ~~Also, any amount~~ exceedi~~ng~~ $475 million before the existing credit facility is reduced, the remedy ~~result~~ would be to reduce the $2 billion credit facility by the same amount.

Best regards,

Will

Hello Anthony,

Thank you for your email. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Will

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.

Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.

I am not in the office today so please give me a call at 905-929-1434 this morning or between

2:00 and 5:30 this afternoon - or let me know who to call at what number.
Thanks

Thank you gentlemen. For your convenience please find the revised amending agreement.
Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.
Please let me know if you require anything further or if you have questions.

Good morning Anthony,
I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.
Thanks,

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change

regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Hello Anthony,
Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Good morning Anthony,
I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.
Thanks,
Will

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "*

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans

and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

> *"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."*

Thanks,
Will

Hello,
I spoke with Victor Buza (IESO Legal).
Paragraph 4 – Use of Proceeds: He will defer for Anthony for comment.
Paragraph 2 & 3 – He had no concerns.
RE: FHP Credit Facility, he wanted to clarify with his management if they are fine with a certain provision. If they agree to it, we may see their draft on Monday or Tuesday.

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "*

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans

and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

> *"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."*

Thanks,
Will

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "*

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

> *"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."*

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.
Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.
I am not in the office today so please give me a call at 905-929-1434 this morning or between 2:00 and 5:30 this afternoon - or let me know who to call at what number.

Thank you gentlemen. For your convenience please find the revised amending agreement.
Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.
Please let me know if you require anything further or if you have questions.

I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":
*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*
Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:
"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "
Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.
"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid

promissory note dated November 30, 2016 to the IESO."
Thanks,
Will

" Resolution of the Board of Directors

Independent Electricity System Operator

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS the Corporation proposes to enter into a new credit facility with the Ontario Financing Authority or Ontario Electricity Financial Corporation to support the Corporation's role in the Fair Hydro Plan in an amount yet to be determined of between $1,800 and $2,500 million (the "**New Facility**");

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

AND WHEREAS …

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility … on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

(a) finalize, execute and deliver

(i) all relevant agreements, instruments and other documents required for the establishment or amendment, as applicable, of the Credit Facilities, and

(ii) all ancillary documents, deeds and instruments determined to be necessary or desirable in connection therewith (the execution of any such document, deed or instrument being conclusive evidence of such determination),

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":
*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*
Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.
If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:
"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "
Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.
"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid

promissory note dated November 30, 2016 to the IESO."
Thanks,
Will

" Resolution of the Board of Directors

Independent Electricity System Operator

June 14, 2017

In Respect of the establishment of a new credit facility and revision of existing credit facilities in relation to the Fair Hydro Plan

---

WHEREAS, as further described in the memorandum to the Audit Committee entitled "Fair Hydro Plan Credit Facility" dated June 13, 2017 (the "**Memorandum**"), the Corporation has determined that in order to support the IESO's role in the Fair Hydro Plan it requires greater credit liquidity;

AND WHEREAS the Corporation proposes to enter into a new credit facility with the Ontario Financing Authority or Ontario Electricity Financial Corporation to support the Corporation's role in the Fair Hydro Plan in an amount yet to be determined of between $1,800 and $2,500 million (the "**New Facility**");

AND WHEREAS, due to the structure of the Fair Hydro Plan, once the New Facility is established, the Corporation's existing credit facility with the Ontario Financing Authority in the amount of $975 million (the "**OFA Facility**") will include unnecessary and duplicative credit liquidity such that the OFA Facility may be reduced to an amount yet to be determined between $400 million and $500 million;

AND WHEREAS …

NOW THEREFORE BE IT RESOLVED THAT:

1. The Board of Directors hereby authorizes and approves the establishment of the New Facility and the amendment of the OFA Facility … on such terms and conditions as are generally outlined in the Memorandum (collectively, all facilities being the "**Credit Facilities**").

2. The Chief Financial Officer or her delegate is hereby authorized for and on behalf of the Corporation to:

(a) finalize, execute and deliver

(i) all relevant agreements, instruments and other documents required for the establishment or amendment, as applicable, of the Credit Facilities, and

(ii) all ancillary documents, deeds and instruments determined to be necessary or desirable in connection therewith (the execution of any such document, deed or instrument being conclusive evidence of such determination),

and to perform the Corporation's obligations thereunder, and to obtain the benefits thereof;

(b) draw upon or continue to draw upon, as applicable, the Credit Facilities from time to time in accordance with their terms; and

(c) do any and all such further acts as may be determined to be necessary or desirable to give effect to the foregoing transactions including, for further certainty, amending any other agreements as may be required as a consequence of such transactions. "

I certify that the above is a true redacted extract of a resolution approved by the Board of Directors of the Independent Electricity System Operator on June 14, 2017.

Hello Lisa
Below are the items I asked for below. Victor says that the Delegation of Authority may not apply here. I anticipate that IESO is offering to provide a IESO Statement of Policy as an alternative to Delegation of Authority? If so, according to the sample (provided in the past) which provides signing authorities and amounts would be a good alternative to the Delegation of Authority. Can you arrange to speak with Victor and please include me in the invite.

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.
Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.
I am not in the office today so please give me a call at 905-929-1434 this morning or between 2:00 and 5:30 this afternoon - or let me know who to call at what number.

Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.
Please let me know if you require anything further or if you have questions.

Subject: RE: IESO : OFA new FH credit facility - Amending Agreement 10

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,

Will

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,
Will

Good morning Anthony,
I've had a chance to speak with Victor on Friday to try to clear up any confusion.
Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.
If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.
Thanks,
Will

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:
Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "*

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

> *"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."*

Thanks,
Will

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:
Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "*

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

> *"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."*

Thanks,
Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the*

Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,
Will

Good morning Anthony,

I've had a chance to speak with Victor on Friday to try to clear up any confusion.

Victor did not have any major concerns regarding Paragraph 2 and 3. But, deferred to you for Paragraph 4.

If the "Use of Proceeds" section is not acceptable please let me know by **noon**. So that I may take action to seek a new Directive and the timing is very tight given our Ministers' vacation schedule.

Thanks,

Will

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. The proposed change regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

> *"2. On the date of this Amending Agreement and prior to any further Advances under the*

Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Thanks,
Will

Hi Will - a couple of small items I am noticing on this draft of Amending Agreement #10 - not sure who is handling the legal drafting details, but it would be helpful if we could do a quick Legal call on this rather than send drafts back and forth - we should be able to deal with it quicker that way.

Also, at the same time, I'd like to touch base on the authorizing documents - the Certified IESO Board Resolution and Incumbency Certificate are ready for your review in draft form, but before sending those over, I would like to briefly discuss the Delegation of Authority document you mentioned since I believe it may not apply here.

I am not in the office today so please give me a call at 905-929-1434 this morning or between

2:00 and 5:30 this afternoon - or let me know who to call at what number.
Thanks

Thank you gentlemen. For your convenience please find the revised amending agreement.
Other than paragraphs 2 & 3, the draft tracks only new changes to the Amending Agreement that the OFA is proposing to make to IESO's July 7 draft, most are simply true up changes to align definitions, etc. The only substantive issue is the change to paragraph 4 confirming the limitation on the use of proceeds.
Please let me know if you require anything further or if you have questions.

Hello Victor,
We apologize for the delay in replying back on the draft amending agreement. The proposed change

regarding the Use of Proceeds required internal discussions to work through the proposed wording. I will send you a revised mark-up next week, but would ask if IESO is able to agree to the following key items:

Paragraph 4 -USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

*"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes.**"*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language:

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40. "

Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered.

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Subject: FW: IESO : OFA new FH credit facility

Hello Sarah,
This is my draft email to Victor and Anthony. Let's discuss.
Hello Victor,
We apologize for the delay in replying back. The proposed changes to Amending Agreement 10, which triggered internal discussions which led to the delays. If we can agree to "sticking points" I can send you a draft early next week.

Paragraph 2

This language should revert back to the original language. Schedule 3 is the Form of Grid Note to be delivered. The actual grid note is a separate document (adhering to the form of the Grid Note attached in the Schedule, signed and delivered on the effective date of the Amending Agreement prior to any further Advance). Because the Grid Note is updated with each Advance, if it forms part of the Agreement as a Schedule, each update would have to be treated as an amendment. This is not consistent with how the OFA administers its loans and is not consistent with how the OPA/IESO loans have been administered. The mark-up tracks changes to the OFA's original drafting.

"2. On the date of this Amending Agreement and prior to any further Advances under the Credit Agreement, the IESO shall execute and deliver to the OFA a new grid promissory note in the principal amount of up to $475,000,000 substantially in the form of the grid note attached hereto and indicating a total principal amount of Advances Outstanding to date of $114,383,131 .40 . "

Paragraph 3

This has been reverted back to the OFA's original drafting because OFA will not cancel the existing Grid Note until we receive the new one Grid Note is received.

"3. Upon receipt of the new grid promissory note, the OFA will cancel and return the grid promissory note dated November 30, 2016 to the IESO."

Paragraph 4, "Use of Proceeds"

Unfortunately the Directives signed by the Minister of Finance back in 2013 & 2016 have very specific uses in regards to "Use of Proceeds". Examples are provided below. As workaround we propose amending your proposed change . This is a short-term solution. The alternative is extremely time sensitive, which would require a final Directive be provide to the Minister for signature before

the summer break.

Directive Minister of Finance Ontario Power Authority Credit Facility - Dec 18, 2013 allows for:

- Provide that effective as of December 31, 2013 advances under the Loan Agreement may be used only for liquidity purposes and to temporarily fund corporate requirements.

Directive Minister of Finance Independent Electricity System Operator Credit Facility - Nov 28, 2016 allows for:

- Provide that effective as of December 31, 2016 advances under the Loan Agreement may be used only for liquidity purposes.

IESO proposed change to "Use of Proceeds".

"4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:
"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time." "

IESO proposed change to "Use of Proceeds".

"4. Section 2.3 "Use of Proceeds" of the Credit Agreement is deleted in its entirety and replaced by the following:
"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time, provided that Advances may be used only for liquidity purposes." "

Thanks,
Will

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Hello Victor,

We apologize for the delay in replying back on the draft amending agreement. ~~.~~ ~~T~~The proposed change~~s~~ regarding the Use of Proceeds ~~to Amending Agreement 10, which triggered~~required internal discussion~~s~~ to work through~~s~~ t~~which led to the delays~~he proposed wording. I will send you a revised mark-up next week, but ~~If we can agree~~ would ask if IESO is able to agree to the following key items:

~~**Paragraph 4 - to "sticking points" I can send you a draft early next week.**~~

USE OF PROCEEDS:

Would IESO be able to agree the following addition to IESO's proposed "Use of Proceeds":

> *"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time**, provided that Advances may be used only for liquidity purposes**."*

Our current Ministerial Directive provides that advances under the facility may only be used for liquidity purposes, and hence we would prefer to include the qualification.

If this is not acceptable, would you please let us know **by Monday**, as we would need to seek a new Directive, and the timing is very tight given our Minister's vacation schedule.

Paragraph 2

This language should revert back to the original language~~.~~:

Hi
I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.
Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.
Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.
I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.
Thanks
Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.
It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line,

that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.

Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To

provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.

Regards,

Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

Thank you for pointing out to me that the TD facility cannot be used for FHP draws.
I'll let Anthony know that that the amendment will have to wait until next week.

Hi Will –
I note that Anthony confirmed that the TD facility **cannot** be used for FHP draws (see highlighted language below), this not consistent with your statement below and it is not consistent with IESO's position/comments regarding Amendment 10.
As I understand it, the immediate question we are trying to answer with respect to Amendment 10 from both a legal and business perspective is: can the $475 facility continue to be used to lend to the IESO for purposes of the FHP after the $2 billion comes into effect. (Assuming that it is already able to do this under Amendment 9 on the basis that it is in fact doing this).
Given that there is some breathing room indicated in the IESO's timing requirements, I am going to revert to my prior suggestion that we meet to review this next week.

Hello Sarah N,
Below is background on a meeting on June 28 between Anthony (IESO), Sarah H, Lisa and Salman:

1. Capital Markets approved IESO's request to have a minimum 5 day and a maximum 95 day draw ($2 billion Credit Facility)
2. Anthony discussed in the event IESO funding needs were to exceed the $475 million before

the current $975 million is reduced, IESO had another credit facility with TD that it would be able to draw on to fund any potential gap before the $2 billion facility is up and running.

Anthony,

Thanks very much for your reply and for the additional information on forecasted draws – very helpful. There should be no issue with signing the FHP facility by mid-August (hopefully we can wrap this up before August starts!).

Best,

Sarah

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.

The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.

The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Regards

Hi Sarah N,
Thank you for pointing out to me that the TD facility cannot be used for FHP draws.
I'll let Anthony know that that the amendment will have to wait until next week.
Thanks,
Will

Hi Will –
I note that Anthony confirmed that the TD facility **cannot** be used for FHP draws (see highlighted language below), this not consistent with your statement below and it is not consistent with IESO's position/comments regarding Amendment 10.
As I understand it, the immediate question we are trying to answer with respect to Amendment 10 from both a legal and business perspective is: can the $475 facility continue to be used to lend to the IESO for purposes of the FHP after the $2 billion comes into effect. (Assuming that it is already able to do this under Amendment 9 on the basis that it is in fact doing this).
Given that there is some breathing room indicated in the IESO's timing requirements, I am going to revert to my prior suggestion that we meet to review this next week.
Sarah

Hello Sarah N,
Below is background on a meeting on June 28 between Anthony (IESO), Sarah H, Lisa and Salman:

1. Capital Markets approved IESO's request to have a minimum 5 day and a maximum 95 day draw ($2 billion Credit Facility)
2. Anthony discussed in the event IESO funding needs were to exceed the $475 million before the current $975 million is reduced, IESO had another credit facility with TD that it would be able to draw on to fund any potential gap before the $2 billion facility is up and running.

Thanks very much for your reply and for the additional information on forecasted draws – very helpful. There should be no issue with signing the FHP facility by mid-August (hopefully we can wrap this up before August starts!).

Best,

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks

Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed

note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.

Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks

Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed

(2) Without limiting the generality of subsection (1), the IESO may borrow for the following purposes:

1. To fund the payment of amounts payable by the IESO under section 25.33 of the Act and any amounts payable under the regulations.

2. To provide such funds as may be necessary for the management of any variance account established and maintained under the Act by the IESO.

3. To provide such funds as may be necessary for the IESO to manage timing differences between the receipt of amounts and the payment of costs and expenses incurred by the IESO in exercising its rights and performing its duties under the Act.

(2) In preparing the statement, the board of directors shall bear in mind the timing considerations of the IESO's investments and borrowings in relation to the IESO's expected cash flow requirements.

(3) The board of directors shall, on or before August 1, 2015, ensure that the statement does not contain any policy or procedure that would conflict with the requirements of sections 1, 2 and 3 and the board may resubmit the statement for that purpose and shall resubmit the statement in accordance with clause (4) (b) as necessary.

(4) The IESO shall submit to the Minister of Finance for approval,

(a) its proposed statement of investment, borrowing and financial management policies and procedures; and

(6) If the Minister of Finance does not approve the proposed statement or change to the statement and does not refer it back to the IESO for further consideration within 60 days of receipt, the Minister shall be deemed to approve the IESO's proposed statement or change.

(7) The IESO shall comply with its statement of investment, borrowing and financial management policies and procedures as amended and as approved by the Minister of Finance in carrying out its investment, borrowing and financial management activities.

> It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?
> With respect to other substantive issues on the IESO's mark-up of amendment 10, the

only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line

would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.

Regards,

Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Subject: RE: IESO : OFA new FH credit facility

Hello William and Gavin:

For the purposes of coming to a decision on the question of the use of proceeds, I thought it might be helpful to consolidate all the different moving parts into one document.

Current Use of Proceeds under the Credit Facility (as amended on December 19, 2014 by Amendment No. 8):

Section 1 was amended to add the following definition of "Regulation" means O. Reg. 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

2.3 Use of Proceeds:

Up to the effective time of Amalgamation, the OPA shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 423/04 made under the Electricity Act, subject to the following conditions:

(1) effective as of December 31,2013, the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and,

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by the OPA under section 25.33 of the Electricity Act, the OPA is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by the Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation; and (b) the following conditions will apply:

(1) the proceeds of the Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by New IESO under section 25.33 of the Electricity Act, New IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance.

Proposed Change to Section 2.3 Requested by the IESO

The IESO has requested that the above be deleted in its entirety and replaced with the following:

> The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998*, as such regulation may be amended or replaced from time to time.

Comments:

(1) The "Pre-Amalgamation" structuring language is removed. Are there any implications arising from this related to existing loans?

(2) The "Post-Amalgamation" structuring which tied borrowing to the purposes and requirements in

relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO following the Amalgamation has also been removed along with the additional conditions set out sub-paragraphs (1) and (2). Does this cause any concern in respect of how the Credit Facility operates?;

(3) The reference to the Regulation can be abbreviated to simply "Regulation" given the addition of the defined term in Amending Agreement No. 8

(4) I note that the condition in sub(2) is phrased not as an obligation but an "expectation". It appears to have an intended purpose of restraining the renewal of certain advances beyond 12months. I do not know the rationale for its inclusion (this language was added in Amending Agreement 8). The Regulation and the Act, at least as they apply now, do not appear to require this (see below). I also note it is not drafted as an enforceable restriction or constraint in other relevant sections of the Agreement (as amended) e.g. in Section 3.3 which details the requirements for "Elections Regarding Advances" or in the Borrowing Notice, and there is no required related disclosure in respect of the Borrowing Notice for Renewed Advances. Is this possibly a requirement in the SIPP or the Minister's Directive, if there is one? I note that our file contains drafts of a reduction specific Minister's Directive which includes the following rationale for the reduction in the Credit Facility: "The IESO has requested that that the OFA decrease the maximum aggregate amount of the Loans from $975 million to $475 million to eliminate duplicate credit needs for the purpose of the implementation of the *Ontario Fair Hydro Plan Act, 2017"* but this language is flagged as requiring confirmation and I have no final version of the directive in the file, was this abandoned?

I note that the letter from the IESO to Gadi, requesting the $2 billion line, notes that the $975 credit facility is currently being used but the separate line is being requested for the following reason: "The IESO proposes that a separate and additional credit facility be provided by either the OFA or [the OEFC] to support only the FHP credit needs. A separate facility for the FHP is preferable to ensure operational efficiency and interest tracking" and goes on to state "The above $500 million reduction in the current OFA facility is to eliminate duplicate credit needs and reflect the replacement of the current RPP by the new FHP". If there is concern about adopting the IESO's broad use of proceeds language that it will continue to borrow for FHP once the FHP agreement is in place, is one option to replicated the Pre- and Post- Amalgamation structure in Amending Agreement 8, allowing the line to be used until the FHP Credit Facility is not place but not after? This would not impact on timing of the agreements and would provide for the transition.

Regulation 280

The below is the authorized borrowing set out in the Regulation.

Hello Gavin,
The first draft of Amending Agreement 10, that went to IESO had no changes to “Use of Proceeds”. IESO proposed changes to “Use of Proceeds”. Upon further review I discovered that “Use of Proceeds” in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for “Use of Proceeds” please reply to my email sent on Sunday 7/16/2017 at 2:38pm.
I have included the language from Amending Agreement 8, for your convenience.
IESO Proposed:

4. Delete Section 2.3 “Use of Proceeds” of the Credit Agreement and replace it as follows:

“The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such regulation may be amended or replaced from time to time.”

Documentation draft 2 version:

4. Delete Section 2.3 “Use of Proceeds” of the Credit Agreement and replace it as follows:

“The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance” .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

“The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. “

Thanks,
Will

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks

Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only

significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to

sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.

Regards,

Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.

2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Thanks,

Will

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.
It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?
With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.
Regards,
Victor

Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help

Hi Victor

Thanks for your quick response to my questions. I didn't express my question very clearly/accurately, but based on our follow-up telephone conversation, I understand that the use of proceeds for the $475M and new $2B facilities are different, where a) the $2B facility is exclusively for OFHP purposes and b) the $475M, while it can, and is currently used for OFHP purposes, will also continue to be used by IESO for other day to day purposes other than OFHP.

Thanks

Subject: Re: IESO : OFA new FH credit facility

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
2. I agree that, as drafted, the OFHP facility clearly restricts funds drawn to use exclusively for implementation of OFHP. As for the $475M facility, as proposed in our draft of Amendment #10, the Use of Proceeds clause would not prevent IESO from drawing on it with respect to OFHP because Reg. 280/14 was recently amended to allow IESO "To provide such funds as may be required for the purposes of the Ontario Fair Hydro Plan Act, 2017..." (see s.3(2)5 of the Reg. 280 for the full text). So if the intent is to only allow OFHP borrowing to occur under the new $2Bn line and not at all under the $475M line, then the Use of Proceeds clause in the $475M line would have to be changed to expressly exclude borrowing for OFHP purposes. As Anthony has mentioned, he is currently using the $975/$475M line to fund OFHP variances, so this would presumably end only once the $2Bn line is available. In this regard, it would seem to make sense to sign and bring into effect the new OFHP line before or at the same time that any restrictions on the existing line take effect.

Let me know if you have any other questions.

Regards,
Victor

Hi Victor

Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.

1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.

Thanks for your help

Bruno

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hi Victor

Thanks for your quick response to my questions. I didn't express my question very clearly/accurately, but based on our follow-up telephone conversation, I understand that the use of proceeds for the $475M and new $2B facilities are different, where a) the $2B facility is exclusively for OFHP purposes and b) the $475M, while it can, and is currently used for OFHP purposes, will also continue to be used by IESO for other day to day purposes other than OFHP.

Thanks

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.

b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.

c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.

d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending

agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.

The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Subject: FW: IESO : OFA new FH credit facility

Hello Anthony,

Thank you for your email and sorry for the delay in replying. We look forward to getting these agreements up and running. As discussed, IESO has a supplemental credit facility with TD bank. In the unlikely event, IESO exceeds $475 million under its existing credit facility, it agrees to reduce the $2 billion OFHP Credit Facility by the amount that it exceeds $475 million.

Best regards,

Will

Will,

As discussed, the IESO will work on completing amendment #10 followed then by the new FH $2B line.

The amendment #10 may take a few weeks to complete (mid-July), and then the new FH $2B line may need a few more additional weeks – likely end of July.

I am using the $975MM line today for FH (RPP) draws, and expect this will continue until the FH$2B line is up and running.

I would prefer to do both docs at the same time (i.e. signing on the same day both docs), but I understand that the OFA has been given direction to lower the $975MM to $475MM first.

Over the next few weeks in July I will be drawing on the $975MM again for the FH (RPP) amounts and I expect (but not 100% sure) that I should be under a total of $475MM.

Regards

Sarah,

Four points.

a) Thank you very much for accommodating the 5 day request, …it will be more efficient for cash flows and better alignment.
b) We examined our TD credit facility and it specifically does not permit IESO to use for Fair Hydro programs purposes.
c) The good news is that the Fair Hydro amounts for May and June (a draw to be made in mid-July on the $475 million facility) is a total of $260 million. Therefore, the next draw for Fair Hydro's month of July will be in mid-Aug of which I expect at least another $200-$250 million will be added. I hope the $2B facility will be signed before mid-August, so there should be no concerns. The first FH sale to the Financing Entity is expected to be made in August so I (hope) expect the May, June, July's FH amounts will be sold by mid-end of August and then I can repay the OFA.
d) Victor will address Bruno's comments directly on the amendment #10 shortly.

Regards.

Hello Anthony,

Will is currently away today, and I just wanted to follow up on the e-mail below.

We are fine reducing the minimum draw period from 7 to 5 days for the new $2B FHP facility.

Further, to clarify Will's e-mail below, from our conference call the week before last, you had mentioned that in the event that IESO's funding needs were to exceed the $475M before the current $975M facility is reduced, IESO had another line of credit with TD that it would be able to draw on to fund any potential gap before the $2B facility is up and running. I think some confusion may have been created in referencing IESO's agreement to reduce to the size of the $2B OFHP credit facility if IESO's funding needs exceed $475M before the new FHP facility is executed. This is not something we proposed to you on the call, but was part of OFA internal discussions on contingency options that might be available in the event that there were delays getting both the amending agreement and FHP facility in place. My apologies should there have been any misunderstanding.

We expect to have comments to you on the amending agreement tomorrow.

Best regards,

Sarah

Hi Victor
Could you confirm (or not) my understanding of couple of things with respect to the attached markup you provided.
1. In terms of Item 4., Use of proceeds. My reading is that this is amendment updates to Reg. 280/14 IESO: *Eligible Investments and Borrowing* replacing Reg. 423/04 *OPA, Eligible investments and Borrowing,* which is revoked. But that otherwise the regulations are largely similar.
2. The use of proceeds, for the reduced $475M facility is different from the new $2B facility. I.e., The latter is specifically covering timing difference with regard to IESO's role in administering the OFHP. The previous $975M facility was reduced as some of the use of proceeds for that facility are now covered by the new $2B facility. There is a differentiation in the use of proceeds for the amended $475M facility – as described in Reg 280/14 – from the use of proceeds for the $2B facility.
Thanks for your help

Hello Anthony,

Please find the attached Amending Agreement 10. If comments for the FHP Credit Facility is not possible this week, would it be possible to have the Amending Agreement 10 signed along with an updated Resolution of the Board of Directors, Certificate of Incumbency and Delegation of Authority (IESO Statement of Policy) first? This is necessary to reduce the existing credit facility from $975 million to $475 million to eliminate duplicate credit needs.

Hi William,
Based on the latest regulation, O.Reg 280/14, IESO is allowed to use the borrowing for FHP's purpose, but we are not sure if IESO is currently using the existing facility for FHP. Would the Funding team know?
It seems that there are still questions outstanding for this request, so I think it might be better to set up a meeting to discuss this further, as suggested by Sarah N. last week? Please let me know.

Hello Gavin,
The first draft of Amending Agreement 10, that went to IESO had no changes to "Use of Proceeds". IESO proposed changes to "Use of Proceeds". Upon further review I discovered that "Use of Proceeds" in Amending Agreement 8, had very specific wording. I have drafted some proposed language but also wanted to bring to your attention the differences in language IESO has proposed compared to Amending Agreement 8. If you accept Documentation draft language for "Use of Proceeds" please reply to my email sent on Sunday 7/16/2017 at 2:38pm.
I have included the language from Amending Agreement 8, for your convenience.

IESO Proposed:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the Electricity Act, 1998, as such

regulation may be amended or replaced from time to time."

Documentation draft 2 version:

4. Delete Section 2.3 "Use of Proceeds" of the Credit Agreement and replace it as follows:

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time.

The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such Advance" .

Amending Agreement 8:

From and after the effective time of the Amalgamation: (a) New IESO shall use the proceeds of Advances only as authorized by Regulation, and, to the extent not inconsistent with the Regulation, for purposes and requirements in relation to the operations and activities of the OPA prior to the Amalgamation, to the extent those operations and activities are carried on by New IESO follow the Amalgamation; and (b) the following conditions will apply

"The IESO shall use the proceeds of Advances for the purposes for which it is authorized to borrow funds pursuant to Regulation 280/14 made under the *Electricity Act, 1998,* as such regulation may be amended or replaced from time to time and subject to the following conditions:

(1) the proceeds of Advances may be used only for liquidity purposes and to temporarily fund corporate requirements; and

(2) with the exception of funds borrowed solely for the purposes of funding the payment of amounts payable by IESO under section 25.33 of the Electricity Act, IESO is expected to recover or repay such proceeds over a period of no more than 12 months from the date of the Advance. "

Thanks,
Will

Hi

I think I'm in agreement Sarah's comments on the $475M. My understand is that the $475M will be used for certain day-to-day non-OFHP IESO purposes, but is also currently used for OFHP purposes, per the amended language in Reg. 280/14 attached. But the use of proceeds for the $475M facility is not and can't be restricted to use for OFHP.

Will, I have no objection to adding in the condition on timing of repayment that you drafted to be consistent with previous agreement

> *"The IESO is expected to recover or repay the proceeds for each Advance over a period of no more than 12 months from the date of such advance."*

I don't know much about the history around paragraph 2, but I take Sarah's point and that makes sense if a change of the current obligation was not contemplated or agreed to.

Will, in regard to your question about the IESO striking out the paragraphs that refer to the original $500M agreement and the subsequent increase to $975M, I have no objection to having these struck. It seems to me that it's a bit more streamlined to get straight to "facility is currently $975M and we're reducing it to $475M". However, I don't know what the convention is regrading maintaining the complete history.

I am away for the next two weeks, but Gavin will be here and could attend a meeting as necessary.

Thanks

Bruno

Hi Sarah and Bruno – Sarah, just got your voicemail indicating you are out of office until the 18th.

It seems we have a chicken and egg situation here. My understanding from Lisa had been that it was important for the $475 line to be executed first in the process to ensure that borrowing limits were maintained, but it appears given the borrowing for OFHP that has already been done under that line, that can't be done if the use of proceeds under the $475 line restricts use for OFHP. Ultimately (assuming the Regulatory authorities are as stated below by IESO, which I will need to parse through, and further assuming there is nothing in the approval framework under which the OF is operating that requires the $975/475 line to prohibit OFHP borrowing, which I will also have to parse through) then this is a business decision. Is timing such that we could have a meeting with everyone involved when you are back to work next week, Sarah, to sort through these questions and make sure we are all on the same page, or is there a greater urgency here?

With respect to other substantive issues on the IESO's mark-up of amendment 10, the only significant issue I have noted is that paragraph 2 should be reverted back to the original language. The changes made by IESO contemplate that the actual signed grid note will be an attachment to the amending agreement. This is not correct. The obligation in the amendment is to deliver a signed note. The signed grid note needs to be delivered on closing prior to any advance, the form of the

grid note to be delivered is what is set out in the schedule to the amending agreement. If the actual grid note is attached it becomes part of the agreement and whenever the grid needs to be updated that will be a further amendment to the agreement requiring signature of both parties, the IESO proposed structure could also potentially lead to enforcement issues.
Please let me know if you are amenable to a meeting next Tuesday to work through next steps and our response to the IESO's position below.

Hi Bruno:

1. Re your question about Reg. 423/04 being replaced with Reg. 280/14, this already occurred at the beginning of January 2015 when IESO and OPA amalgamated and the new IESO entity became subject to Reg 280/14 as of that date, together with certain additional restrictions - see section 2 of Amending Agreement #8 for further details.
